Subject: [EXTERNAL] Proposed new RULONA rules

To whom it may concern,

I am writing in support of the new rule proposed that will require a notary to provide itemized invoices of charges for services performed as well as notice of all charges before any acts are performed. I believe this will increase transparency in the industry and will also increase competition. These new rules will greatly benefit both notaries and the general public. I hope that these rules will be adopted.

Sincerely,
Katie Brown
