Subject: [EXTERNAL] Bipartisan Elections Advisory Committee Comments

Dear Advisory Committee Members:
WE DON'T TRUST OUR ELECTIONS!!!!
Please do not advise more money be spent to convince us they are fair.
WE DON'T TRUST AND WILL NEVER TRUST THIS SECRETARY OF STATE OR HER CROOKED ELECTIONS.

We, every voter that is not a coder, is disenfranchised. As an election judge, poll watcher or voter, we have no ability to know if the machine counted any vote properly. This is like trusting a cell phone to be secure because it was always in my hand.

The only way to know is to look inside, if Dominion would even let us. But even then, we would need the expertise to read code, and/or to trust the expert code reader. I venture to say there is not a single one of you that has that expertise. So you, too, would have to trust the coding expert. We know some we trust. You likely wouldn't trust them. We don't trust your expert, because, sadly, you have broken trust with us.

Therefore, the only solution is Paper Ballots counted by hand with bipartisan local, precinct judges under the watchful eye of every voter that wants to watch.

NO EXCUSES!

- PAPER BALLOTS
- ONE DAY VOTING
- NO MAIL OUT OR MAIL IN VOTING (exception for absentee ballots)
- HAND COUNTING --AT THE PRECINCT LEVEL
- VOTER ID
- NO MORE MOTOR-VOTER
- NO BALLOT HARVESTING
- CLEAN UP THE VOTER ROLLS (WITHOUT ERIC)

NO MORE MACHINES!

Please listen. Honest elections are the only way to peaceably change government under the democratic system. Please restore honesty and transparency now.
