Colorado Register

40 CR 23

Volume 40 , No. 23

December 10, 2017

Introduction

The *Colorado Register* is published pursuant to C.R.S. 24-4-103(11) and is the sole official publication for state agency notices of rule-making, proposed rules, attorney general's opinions relating to such rules, and adopted rules. The register may also include other public notices including annual departmental regulatory agendas submitted by principal departments to the secretary of state.

"Rule" means the whole or any part of every agency statement of general applicability and future effect implementing, interpreting, or declaring law or policy or setting forth the procedure or practice requirements of any agency. "Rule" includes "regulation". C.R.S. 24-4-102(15). Adopted rules are effective twenty days after the publication date of this issue unless otherwise specified.

The *Colorado Register* is published by the office of the Colorado Secretary of State twice monthly on the tenth and the twenty-fifth. Notices of rule-making and adopted rules that are filed from the first through the fifteenth are published on the twenty-fifth of the same month, and those that are filed from the sixteenth through the last day of the month are published on the tenth of the following month. All filings are submitted through the secretary of state's electronic filing system.

For questions regarding the content and application of a particular rule, please contact the state agency responsible for promulgating the rule. For questions about this publication, please contact the Administrative Rules Program at rules@sos.state.co.us.

DEPARTMENT OF REVENUE

Division of Motor Vehicles – Title and Registration Section~~s~~

1 CCR 204-10

RULE 2. ~~PERIODIC MOTOR~~ ESTABLISHING VEHICLE REGISTRATION PERIOD

Basis: ~~The statutory bases for this regulation are~~ This rule is promulgated under the authority of sections 42-1-204, 42-3-102, 42-3-103, 42-3-104, 42-3-106, 42-3-107, 42-3-112, 42-3-114, 42-3-115, 42-3-116, 42-3-201, 42-3-202, 42-3-203, ~~42-3-210,~~ 42-3-211, 42-3-301, 42-3-304, 42-3-306, 43-4-506(1)(k), 43-4-804(1)(a)(I), 43-4-805(5)(g)(I), 42-12-301, and 42-12-401 C.R.S.

Purpose: The ~~following rules and regulations are promulgated~~ purpose of this rule is to establish ~~criteria for the periodic registration of motor vehicles~~ vehicle registration periods and methods of assessing taxes and fees.

1.0 Definitions

~~1.1 "CSTARS" means the Colorado State Titling and Registration System used for all titling and registration of vehicles in Colorado pursuant to 42-1-211, C.R.S.~~

~~1.2 "Department" means the Department of Revenue of this state acting directly or through its duly authorized officers and agents.~~

1.~~3~~1 "Registration Expiration Date" means the expiration of the applicable registration period required in sections 42-3-102, 42-3-114, 42-12-301, and 42-12-401, C.R.S.

~~1.4 "Transaction Date" means the date the vehicle was registered evidenced by the transaction date on the registration receipt issued when completed.~~

1.2 "Validation Tabs" means devices issued by the Department pursuant to section 42-3-201, C.R.S., that are affixed to a license plate pursuant to section 42-3-202, C.R.S., to indicate the year and month Registration Expiration Date.

2.0 ~~Validating Tabs and Number of License Plates~~ Evidence of Vehicle Registration Period

2.1 Evidence of a vehicle registration period is provided by the issuance of a license plate with Validation Tabs affixed to it and the Registration Expiration Date printed on the registration receipt. For vehicles not required to display Validation Tabs in accordance with section 42-3-201(7), C.R.S., the Registration Expiration Date is printed on the registration receipt.

2.~~1~~2 The Department will issue two Validation Tabs for each ~~License plate(s)~~ ~~that~~ ~~are~~ license plate required to display ~~validation tabs~~ Validation Tabs ~~shall be issued and display two validating tabs Validating Tabs issued by the Department;. one~~ One ~~validation tab~~ Validation Tab ~~to~~ indicates the ~~expiration~~ month of the Registration Expiration Date ~~month~~ and one ~~validation tab~~ Validation Tab ~~to~~ indicates the year of the Registration Expiration Date ~~year of expiration,. except for those types of plates that are exempt from displaying validation tabs in accordance with 42-3-201(7), C.R.S. validating tabs~~ Validation Tabs ~~shall~~ must be displayed on the license plate pursuant to 42-3-202(1)(b), C.R.S.

2.~~23~~ ~~Vehicles~~ A vehicle ~~shall be required to~~ must display two license plates unless exempted ~~from displaying two license plates~~ pursuant to sections 42-3-201(1)(a)(I) and (II), C.R.S., ~~License plates shall be issued for multi-year use when the Department issues validation tab indicating the vehicles registration expiration year and month~~ and must be replaced only when damaged, rendered unreadable, or when lost or stolen.

3.0 Procedure to Establish Registration ~~Cycle~~ Period and~~,~~ Method for Assessment of Fees and Taxes

3.1 A vehicle's registration period is established when the vehicle owner applies to register the vehicle in Colorado.

3.2 ~~An application for~~ A vehicle ~~registration received for a vehicle~~ not previously registered in Colorado ~~in the applicant's name~~ will be registered by vehicle class for the ~~time~~ period required by section 42-3-102, C.R.S.~~, for that class of vehicle~~. The ~~registration shall expire~~ Registration Expiration Date will be ~~on~~ the last day of the month at the end of each registration period.

3.~~2~~3 Specific ownership tax ~~shall~~ will be determined in accordance with sections 42-3-106 and 42-3-107, C.R.S. Registration fees ~~shall~~ will be determined in accordance with Title 42, articles 1, 3, and 12, and ~~42-3-304 and 42-3-306,~~ sections 43-4-506(1)(k), 43-4-804(1)(a)(I), and 43-4-805(5)(g)(I) C.R.S., and ~~shall~~ will be assessed and collected for each registration period. Registration fees and specific ownership tax ~~may~~ will not be exempted unless specifically exempted pursuant to Colorado Revised Statutes.

3.~~3~~4 Specific ownership taxes will be collected for the period the vehicle was owned and located in Colorado, or when Colorado residency of the vehicle owner is established if prior to the date of ~~application~~ registration for the period the vehicle was owned by the resident the Registration will be through the month of ~~application~~ registration and for the appropriate registration period for the class of vehicle following the month of ~~application~~ registration. Consideration may be given for registrations ~~that~~ that require bonds, affidavits, court orders, or as determined by the Department.

3.~~4~~5 Registration fees will be collected for the appropriate registration period.

a. ~~Vehicle Registrations~~ A vehicle's registration expires on the last day of the month ~~as~~ indicated on the registration ~~certificate~~ receipt and ~~validating tab~~ Validation Tabs. All registrations will be evidenced by the issuance of ~~tabs~~ license plate(s), a registration receipt, and Validation Tabs, except for those vehicles exempted from the Validation Tab requirement ~~in accordance with~~ pursuant to section 42-3-201(7), C.R.S.

b. ~~Vehicle~~ So long as a vehicle's registration ~~applications~~ renewal submission ~~for renewal~~ is received on or before the last day of the month following the month of expiration, the registration will be renewed for the appropriate registration period following the previous registration period. Specific ownership taxes and registration fees ~~shall~~ will be calculated and collected for the appropriate registration period.

c. ~~Vehicle~~ A vehicle's registration renewal ~~applications~~ submission ~~for renewal~~ received after the last day of the month following the month of expiration will be processed as ~~new registration applications~~ a renewal following the previous registration period. The specific ownership taxes and registration fees will be collected for the ~~new~~ registration period for that class of vehicle. In addition, specific ownership taxes will be collected for the period the person registering the vehicle was the owner from the

date of expiration of the previous registration to the beginning of the ~~new~~ registration period in addition to any late fees pursuant to section 42-3-112, C.R.S.

d. A vehicle registration application not received within twelve months of the previous registration will be processed as a new registration. The specific ownership taxes and registration fees will be collected for the registration period for that class of vehicle. In addition, specific ownership taxes will be collected for the period beginning on the date of expiration of the previous registration and ending on the date registration is renewed, plus any late fee imposed pursuant to section 42-3-112, C.R.S.

~~d~~e. When a license plate~~s are~~ is ~~reissued or~~ transferred, the new registration will be issued to correspond with the appropriate registration period beginning with the month of application to transfer the license plates to the vehicle. Specific ownership taxes and registration fees will be collected the month following the month of purchase or the month following the date the vehicle was acquired by the owner and for the registration period for that class of vehicle. Credits will be given in accordance with sections 42-3-107(25) and 42-3-115(1), C.R.S., as determined by the Department, for fees and any specific ownership taxes previously paid ~~that~~ which remain on the vehicles previous registration period.

4.0 Exceptions to ~~renewal procedure~~ Registration Periods

4.1 ~~All vehicles~~A vehicle issued personalized plates ~~as authorized by~~ pursuant to section 42-3-211, C.R.S, ~~shall be renewed, reissued, or transferred with~~ will have a registration period that will expire on the same date the registration for the previously issued plates was set to expire, and have period of registration in accordance with section 42-3-102, C.R.S., from that point forward.

4.2 ~~All vehicles bearing~~ A vehicle issued horseless carriage license plates ~~as authorized by 42-12-301(3)(a), C.R.S. shall~~ will have a ~~set~~ five-year registration period pursuant to section 42-12-301(3)(a), C.R.S.

4.3 ~~All vehicles~~ A vehicle issued collector license plates ~~as authorized by 42-12-401(a), C.R.S., shall~~ will have a five-year registration period that begins the date of registration of the vehicle pursuant to section 42-12-401, C.R.S.

4.4 Pursuant to section 42-3-102(3)(a), C.R.S. the Department may register ~~vehicles~~ a vehicle that is not registered under the international registration plan at intervals of less than one year upon payment of the appropriate registration fees and specific ownership tax in order to allow the owner of more than one vehicle to provide for the owner's vehicle registrations to expire simultaneously. The owner ~~shall be~~ is permitted to select an expiration month ~~that~~ which coincides with a current registered vehicle in the owner's name. ~~Upon renewal of vehicles that were~~ Vehicles previously registered in intervals of less than one year will be renewed for ~~the~~ registration period~~s shall be pursuant to~~ as provided in section 42-3-102, C.R.S. and this ~~regulation~~ rule.

4.5 Pursuant to section 42-3-102(1)(b)(I), C.R.S., ~~Utility Trailers~~ utility trailers weighing less than 2,000 pounds may be registered in five-year intervals upon payment of five-year registration fees and five-year specific ownership tax. A five-year registration period is optional and shall not be required. ~~Five-year~~ The five-year registration period shall be evidenced with a standard trailer regular license plate with a five-year ~~validation year~~ Validation Tab ~~tab~~.

BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO

IN THE MATTER OF CHANGES TO THE RULES OF PRACTICE AND PROCEDURE OF THE OIL & GAS CONSERVATION COMMISSION OF THE STATE OF COLORADO	)	CAUSE NO. 1R
	)	DOCKET NO. 171200767
	)	TYPE: RULEMAKING

AMENDED NOTICE OF RULEMAKING HEARING

TO ALL INTERESTED PARTIES AND TO WHOM IT MAY CONCERN:

The Oil and Gas Conservation Commission of the State of Colorado ("Commission"), on its own motion, will consider additions and amendments to Commission Rules of Practice and Procedure, 2 C.C.R. 404-1 ("Rules"), 100-Series definitions; 216; 303; 306; 312; 313; 317B; 318A; 325; 328; 330; 602; 604; 605; 706; 711; 802; 906; 907; 1002; 1004; 1100-Series; 1203; 1204; and 1205, as part of its "Flowline Rulemaking." A clean version of the draft proposed rules is attached as **Appendix A.** A redline version of the draft proposed rules is attached as **Appendix B.** A clean version of the draft Statement of Basis, Specific Statutory Authority and Purpose is attached as **Appendix C**. A redline version of the draft Statement of Basis, Specific Statutory Authority and Purpose is attached as **Appendix D.** The Commission first noticed consideration of the draft proposed rules on October 15, 2017. As explained in the October 15, 2017 notice, the Commission is also exploring the North Dakota Industrial Commission rules adopted in Order Number 27865, amending reporting requirements, and any other necessary conforming changes. The draft proposed rules noticed here, incorporate additional changes as a result of a review of the North Dakota Industrial Commission rules, changes to the safety reporting requirements and such other conforming changes.

On August 22, 2017, Governor John Hickenlooper announced seven oil and gas policy initiatives, two of which required rulemaking by the Commission. This Flowline Rulemaking is in response to the Governor's announcement and the Commission's review of its Rules. The Commission has the authority to conduct this rulemaking pursuant to §§ 34-60-105(1), 34-60-106(2)(a), 34-60-106(2)(d), and 34-60-108, C.R.S.

NOTICE IS HEREBY GIVEN that the Commission has scheduled the above entitled matter for a rulemaking hearing commencing on:

Date:	Monday, January 8, 2018 Tuesday, January 9, 2018
Time:	8:30 a.m.

Place: Colorado Oil and Gas Conservation Commission
1120 Lincoln Street
Suite 801
Denver, CO 80203

Public Participation. The Commission encourages the public to participate in the rulemaking by commenting on the proposed rules in advance of or during the rulemaking hearing. Any person may submit written comments in advance of the hearing pursuant to the procedures described below. In addition, any person may participate in the process and offer oral testimony during the public comment period at the hearing. The Commission may place a time limit on public comments during the hearing depending on the number of people who wish to comment.

Persons or organizations who are not parties, but who would like to participate in the rulemaking process, may present their views to the Commission by submitting written comments in advance of or at the rulemaking hearing, or by speaking during the public comment period allotted during the hearing. Persons wishing to make oral comments at the hearing are encouraged to sign up in advance via emailing to DNR_COGCC.Rulemaking@state.co.us no later than **Wednesday, January 3, 2018, 5:00 p.m.** Those who sign-up in advance will be given priority during the public comment period. Organized groups of individuals are urged to identify one spokesperson. Speakers are asked to be as concise as possible and to avoid repeating comments made by others. Written comments should be emailed to DNR_COGCC.Rulemaking@state.co.us. Please note, written comments received after December 29 may not be delivered to the Commissioners prior to the hearing date.

Party Status. Persons or organizations wanting to participate in this rulemaking as a party, were required to file a written request for party status with the Commission on or before **Monday, October 30, 2017**. The Commission will compile a list of all parties with contact information and make it available on the Commission's website. Late requests for party status will not be accepted absent good cause for the delay.

Prehearing Statements and Party Filings. A party's prehearing statement must be filed with the Commission on or before the deadline established by the Hearing Officer. Prehearing statements are limited to 5 single spaced pages. Prehearing statements should summarize pertinent factual and legal issues and the submitting party's position on each issue. Parties are requested to include as an attachment to their prehearing statements a draft of their alternative rule language showing differences from the Staff's proposed rules in redline format. A party's response to prehearing statements, if any, is limited to 5 single spaced pages and must be filed with the Commission on or before the deadline established by the Hearing Officer. Parties are required to serve electronic copies of their prehearing statements and responses on all other parties. Parties must be able to participate in a prehearing conference that will be held (if needed) on **Wednesday, December 20, 2017, 2:00pm – 4:00pm**, at the Commission's Denver Office.

Filing and service. On or before the deadlines identified above, all written comments, requests for party status prehearing statements, and responses must be filed with the Commission via U.S. Mail in hard copy and electronic copy as follows:

1. The original and 2 copies delivered to Julie Prine, Hearings and Regulatory Affairs Manager, Docket No. 1717000767, Oil and Gas Conservation Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado, 80203; and

2. An electronic copy emailed, preferably in portable document format (*pdf*), to ***DNR_COGCC.Rulemaking@state.co.us***.

The Commission may modify or amend the rules described or proposed herein, and make conforming modifications to other rules, as it determines reasonably necessary through the course of the stakeholder process, comment period, and rulemaking hearing.

In accordance with the Americans with Disabilities Act, if any person requires special accommodations as a result of a disability for this hearing, please contact Margaret Humecki at (303) 894-2100 ext. 5139, prior to the hearing and arrangements will be made.

Copies of the proposed Rules and other information about the Flowline Rulemaking are available on the Commission's internet homepage at ***http://cogcc.state.co.us*** by following the "Flowline Rulemaking" hyperlink or upon request at the Commission offices, 1120 Lincoln Street, Suite 801, Denver, CO 80203.

This Amended Notice of Rulemaking Hearing supersedes previous Notices dated October 15, 2017 and October 31, 2017.

OIL AND GAS CONSERVATION COMMISSION OF THE STATE OF COLORADO

By: _____
Julie Spence Prine, Secretary

Dated: November 29, 2017

FLOWLINE RULEMAKING
INITIAL DRAFT OF PROPOSED RULES
(Please note that the redline below may in some instances show current rule language as newly proposed language because it has been moved between sections.)

DEFINITIONS
(100 Series)

BREAKOUT TANK means a tank used to either relieve surges in a liquid hydrocarbon pipeline system or receive and store liquid hydrocarbons transported by a pipeline for reinjection and continued transportation by pipeline.

CRUDE OIL TRANSFER LINE means a pipe or piping system that is not regulated by the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration pursuant to 49 C.F.R. § 195.2, and which transfers crude oil or condensate generated by more than one oil and gas facility to an offsite production or storage facility.

DOMESTIC TAP means an individual gas service line directly connected to a flowline.

FLOWLINE means a segment of pipe transferring oil, gas, or condensate between a wellhead and the point of delivery to a U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration or Colorado Public Utilities Commission regulated gathering line or a segment of pipe transferring produced water between a wellhead and the point of disposal, discharge, or loading. The different types of flowlines are:

Wellhead Line means a flowline that transmits well production fluids from an oil or gas well to process equipment (e.g., separator, production separator, tank, heater treater), not including pre-conditioning equipment such as sand traps and line heaters, that do not materially reduce line pressure.

Production Piping means a segment of pipe that transfers well production fluids from a wellhead line or production equipment to a gathering line or storage vessel and includes the following:

Production Line means a flowline connecting a separator to a meter, LACT, or gathering line;

Dump Line means a flowline that transfers produced water, crude oil, or condensate to a storage tank, or process vessel and operates at atmospheric pressure at the flowline's outlet;

Manifold Piping means a flowline that transfers fluids from lines that have been joined together to comingle fluids into a piece of production facility equipment; and

Process Piping means all other piping that is integral to oil and gas exploration and production related to an individual piece or a set of production facility equipment pieces.

Peripheral Piping means a flowline transferring fluids between oil and gas facilities for lease use, that may include, but is not limited to, fuel gas, lift gas, instrument gas, and power fluids.

Produced Water Flowline means a flowline used to transfer produced water for treatment, storage, discharge, injection or reuse for oil and gas operations.

Produced Water Transfer System means a pipe or piping system that transports produced water generated at more than one well.

A segment of pipe transferring only freshwater is not a flowline. A line that would otherwise satisfy the above definition will not be considered a flowline if all of the following are satisfied:

-the operator prospectively marks and tags the line as a support line;

-the line is not integral to production;
-the line is used infrequently to service or maintain production equipment;
-the line does not hold a constant pressure, and
-the line is isolated from a pressure source when not in use.

This definition does not include gathering lines.

GATHERING LINE means a gathering pipeline as defined by 4 C.C.R. § 723-4901 or a pipeline regulated by the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration pursuant to 49 C.F.R. §§ 195.2 or 192.8.

GRADE 1 GAS LEAK means a leak that represents an existing or probable hazard to persons or property and requires immediate repair or continuous action until the conditions are no longer hazardous.

LOCKOUT means installing a device, such as a blind plug, blank flange, or bolted slip blind, that prevents operation of an energy-isolating device, such as a valve, and ensures the equipment cannot be operated until the lockout device is removed.

MAXIMUM ANTICIPATED OPERATING PRESSURE means the highest operational pressure expected to be applied to a flowline when in service.

OFF-LOCATION FLOWLINE means a flowline from a well to a production facility that is not on the same oil and gas location as the well.

PIPELINE means a flowline, crude oil transfer line or gathering line as defined in these Rules.

RISER means the component of a flowline transitioning from below grade to above grade.

TAGOUT means securely fastening a tagout device to an energy-isolating device, such as a valve, to indicate that the energy-isolating device and the equipment being controlled may not be operated until the tagout device is removed.

TAGOUT DEVICE means a prominent warning device, such as a tag, that will not deteriorate or become illegible with exposure to weather conditions or wet and damp locations. The tagout device must: include an instruction to not operate the equipment; the date of the last successful integrity test; the reason for tagging out the equipment; and be color coded per ANSI/ASME A13.1.

FLOWLINE REGULATIONS
(1100 Series)

1101. Registration Requirements

a. **Registration of Off-Location Flowlines.** An operator of an off-location flowline must submit a Flowline Form, Form 44, to the Director after completing construction and must include the following information:

(1) GPS location points for the risers;

(2) pipe and bedding materials used in construction;

(3) flowline diameter;

(4) fluids that will be transferred;

(5) the maximum anticipated operating pressure and initial pressure test results;

(6) a schematic drawing of the flowline, associated oil and gas locations, and existing and proposed pipelines related to the oil and gas locations; and

(7) the COGCC Facility ID assigned to the associated oil and gas locations.

b. **Domestic Tap Registration.**

(1) Upon installation or discovery, operators must report to the Director the GPS location for the point of flowline connection and the address of the point of delivery of all domestic taps connected to an operator's flowline.

(2) For Domestic Taps installed after February 14, 2018, an operator must register the domestic tap pursuant to subpart (1) and ensure:

A. The domestic tap is locatable by a tracer line or location device placed adjacent to or in the trench of the domestic tap to facilitate locating it;

B. A licensed plumber properly installs:

i. properly-sized regulators on the domestic tap at the point it connects to the operator's flowline and at the point it delivers gas to the dwelling or structure where the gas is utilized; and

ii. all necessary piping to accommodate appropriate odorization, and gas utilization metering equipment;

C. All materials used for the domestic tap are designed for gas service and are installed using appropriate cover and bedding material in accordance with industry standards;

D. Markers are installed and maintained at the point the domestic tap connects to the operator's flowline and at the point it delivers gas to the dwelling or structure where the gas is utilized. Markers must include the language required by Rule 1102.f.(2); and

E. Odorant is supplied at the time of installation until abandonment of the domestic tap.

c. **Crude Oil Transfer Line Registration.** At least 30 days before beginning construction of a crude oil transfer line, an operator must submit a Form 12 to the Director that includes a schematic showing the gathering line's route, including its crossings of public by-ways, road crossings, sensitive wildlife habitats, sensitive areas and natural and manmade watercourses to the Director.

1102. FLOWLINE AND CRUDE OIL TRANSFER LINE INSTALLATION, OPERATIONS, MAINTENANCE, REPAIR AND RECLAMATION

a. **Material.** Materials for pipe and pipe components must be:

(1) Able to maintain the structural integrity of the flowline or crude oil transfer line under anticipated operating temperature, pressure, and other conditions; and

(2) Compatible with the substances to be transported.

b. **Design and Installation.**

(1) Each component of a flowline or crude oil transfer line must meet one of the following standards appropriate for the component:

A. American Society of Mechanical Engineers, Pipeline Transportation Systems for Liquids and Slurries, 2016 Edition (ASME B31.4-2016), and no later editions of the standard. ASME B31.4-2016 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. Additionally, ASME B31.4-2016 may be examined at any state publications depository library and is available to purchase from the ASME. The ASME can be contacted at Two Park Avenue, New York, NY 10016-5990, 1-800-843-2763;

B. ASME Gas Transmission and Distribution Piping Systems, 2016 Edition (ASME B31.8-2016), and no later editions of the standard. ASME B31.8-2016 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. Additionally, ASME B31.8-2016 may be examined at any state publications depository library and is available to purchase from the ASME. The ASME can be contacted at Two Park Avenue, New York, NY 10016-5990, 1-800-843-2763;

C. ASME Process Piping, 2016 Edition (ASME 31.3-2016), and no later editions of the standard. ASME 31.3-2016 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. Additionally, ASME 31.3-2016 may be examined at any state publications depository library and is available to purchase from the ASME. The ASME can be contacted at Two Park Avenue, New York, NY 10016-5990, 1-800-843-2763; or

D. API Specification 15S, Spoolable Reinforced Plastic Line Pipe, Second Edition, March 2016 (API Specification 15S), and no later editions of the standard. API Specification 15S is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, API Specification 15S may be examined at any state publications depository library and is available from API at 1220 L Street, NW Washington, DC 20005-4070, 1-202-682-8000.

(2) Each component of a flowline or crude oil transfer line must be designed to:

A. Prevent failure from internal or external corrosion and the effects of transported fluids;

B. Withstand maximum anticipated operating pressures and other internal loadings without impairment;

C.D. Withstand anticipated external pressures and loads that will be imposed on the pipe after installation;and

D. Allow for line maintenance, periodic line cleaning, and integrity testing.

c. **Installation.**

(1) Installation crews must be trained in all flowline or crude oil transfer line installation practices

for which they are tasked to perform.

(2) No pipe or other component may be installed unless it has been visually inspected at the site of installation to ensure that it is not damaged.

(3) Flowlines or crude oil transfer lines must be installed in a manner that minimizes interference with agriculture, road and utility construction, the introduction of secondary stresses, and the possibility of damage to the pipe.

(4) The pipe must be handled in a manner that minimizes stress and avoids physical damage to the pipe during stringing, joining, or lowering in. During the lowering in process the pipe string must be properly supported so as not to induce excess stresses on the pipe or the pipe joints or cause weakening or damage to the outer surface of the pipe.

(5) Flowlines or crude oil transfer lines that cross a municipality, county, or state graded road must be bored unless the responsible governing agency specifically permits the owner to open cut the road.

(6) Unless the manufacturer's installation procedures and practices direct otherwise:

A. pipeline trenches must be constructed to allow the pipeline to rest on undisturbed native soil and provide continuous support along the length of the pipe;

B. trench bottoms must be free of rocks greater than two inches in diameter, debris, trash, and other foreign material not required for pipeline installation; and

C. over excavated trench bottoms must be backfilled with appropriate material and compacted prior to installation of the pipe to provide continuous support along the length of the pipe.

(7) The width of the trench must provide adequate clearance on each side of the pipe. Trench walls must be excavated to ensure minimal sluffing of sidewall material into the trench. Subsoil from the excavated trench must be stockpiled separately from previously stripped topsoil.

(8) A flowline or crude oil transfer line trench must be backfilled in a manner that provides firm support under the pipe and prevents damage to the pipe and pipe coating from equipment or from the backfill material. Sufficient backfill material must be placed in the pipe springlift of the pipe to provide long-term support for the pipe. Backfill material that will be within two feet of the pipe must be free of rocks greater than two inches in diameter and foreign debris. Backfilling material must be compacted as appropriate during placement in a manner that provides support for the pipe and reduces the potential for damage to the pipe and pipe joints.

(9) Flowlines and crude oil transfer lines must be installed as designed.

(10) Flowlines and crude oil transfer lines that traverse sensitive wildlife habitats or sensitive areas, such as wetlands, streams, or other surface waterbodies, must be installed in a manner that minimizes impacts to these areas.

d. **Cover.**

(1) All installed flowlines must have cover sufficient to protect them from damage. On cropland, all flowlines must have a minimum cover of three (3) feet.

(2) Where an underground structure, geologic, or other uncontrollable condition prevents a

flowline from being installed with minimum cover, or when there is a written agreement between the surface owner and the operator, a flowline may be installed with less than minimum cover or above ground.

(3) All installed crude oil transfer lines must have a minimum cover of three (3) feet.

e. **Excavation, backfill and reclamation.**

(1) When flowlines or crude oil transfer lines cross croplands, unless waived by the surface owner, the operator must segregate topsoil while trenching, and backfill trenches so that the soils must be returned to their original relative positions and contour. This requirement to segregate and backfill topsoil does not apply to trenches which are twelve (12) inches or less in width. Operator must make reasonable efforts to run flowlines or crude oil transfer lines parallel to crop irrigation rows on flood irrigated land.

(2) All trenches must be maintained in order to correct subsidence and reasonably minimize erosion.

(3) Interim and final reclamation, including revegetation, must be performed in accordance with the applicable 1000 Series rules.

f. **Marking.**

(1) In Designated Setback Locations, and where crossing public rights-of-way or utility easement, an operator must install and maintain a marker that identifies the location of flowlines or crude oil transfer lines.

(2) The marker must include the following language:

"Warning", "Caution" or "Danger" followed by the words "gas (or name of gas or fluid transported) flowline (or crude oil transfer line)" along with the name of the operator and the telephone number where the operator can be reached at all times. The letters must be legible, written on a background of sharply contrasting color and on each side with at least one (1) inch high with one-quarter (¼) inch stroke.

g. **Inspection.** All newly constructed crude oil transfer lines must be inspected by third-party independent inspectors to ensure the crude oil transfer line is installed as prescribed by the manufacturer's specifications and in accordance with the requirements of the 1100 series rules. An inspector must be trained, experienced and qualified in the phase of construction being inspected. A list of all third-party independent inspectors and a description of each independent inspector's qualifications, certifications, experience, and specific training must be provided to the Director upon request pursuant to Rule 205.

h. **Maintenance.**

(1) Each operator must take reasonable precautions to prevent failures, leakage and corrosion of flowlines and crude oil transfer lines.

(2) Whenever an operator discovers any condition that could adversely affect the safe and proper operation of a flowline or crude oil transfer line, it must correct it within a reasonable time. However, if the condition presents an immediate hazard to persons or property, the operator may not operate the affected part of the system until the operator has corrected the condition.

(3) Any flowline or crude oil transfer line not actively in use must have all valves locked or tagged out.

i. **Repair.**

(1) Each operator must, in repairing its flowlines or crude oil transfer line, make repairs in a safe manner that prevents injury to persons and damage to equipment and property.

(2) An operator may not use any pipe, valve, or fitting to repair a flowline or crude oil transfer line unless the components meet the installation requirements of the 1100 series rules. A flowline or crude oil transfer line installed prior to February 14, 2018, that undergoes a major modification or change in service after February 14, 2018, must satisfy all requirements of the 1100 series rules before an operator can place the flowline or crude oil transfer line in to service.

(3) An operator may not use any pipe, valve, or fitting, for replacement or repair of a flowline, unless it is designed to the maximum anticipated operating pressure.

(4) An operator must pressure test any repaired flowline or crude oil transfer line before returning it to service.

j. **Operating requirements.**

(1) No flowline or crude oil transfer line may be operated until it has demonstrated compliance with Rule 1103.

(2) The maximum operating pressure for a flowline or crude oil transfer line may not exceed the manufacturer's specifications of the pipe or the manufacturer's specifications of any other component of it, whichever is less. A flowline or crude oil transfer line must be equipped with adequate controls and protective equipment to prevent it from operating above the maximum operating pressure.

k. **Corrosion control.**

(1) All coated pipe must be electronically inspected prior to placement using coating deficiency (i.e. scratch, bubble, and "holiday") detectors to check for any faults not observable by visual examination. The detector must operate in accordance with manufacturer's instructions and at a voltage level appropriate for the electrical characteristics of the pipeline being tested. During installation all joints, fittings, and tie-ins must be coated with materials compatible with the coatings on the pipe. Coating materials must:

A. Be designed to mitigate corrosion of the buried pipeline;
B. Have sufficient adhesion to the metal surface to prevent under film migration of moisture;
C. Be sufficiently ductile to resist cracking;
D. Have enough strength to resist damage due to handling and soil stress;
E. Support any supplemental cathodic protection; and
F. If the coating is an insulating type, have low moisture absorption and provide high electrical resistance.

(2) Pipes must be locatable by a tracer line or location device placed adjacent to or in the trench of a buried nonmetallic flowline or crude oil transfer line.

(3) Cathodic protection systems must meet or exceed the minimum criteria set forth in the National Association of Corrosion Engineers standard practice Control of External Corrosion on Underground or Submerged Metallic Piping Systems.

(4) If internal corrosion is anticipated or detected, the flowline or crude oil transfer line operator

must take prompt remedial action to correct any deficiencies, such as increased pigging, use of corrosion inhibitors, internal coating of the pipeline (e.g. an epoxy paint or other plastic liner), or a combination of these methods.

l. **Crude oil transfer line as built.** For a crude oil transfer line placed into service after February 14, 2018, the operator must, within 30-days from the date of being placed into service, file with the Director a Form 44, and register with the Utility Notification Center of Colorado (UNCC). Operators must include the following information:

(1) a schematic layout of the facility that shows the location of all associated above ground equipment and the pipeline centerline from the point of origin to the termination point;

(2) a geographical information system layer utilizing North American datum 83 geographic coordinate system (GCS) in an environmental systems research institute (Esri) shape file format that has a completed attribute table containing the required data; and

(3) an affidavit of completion that that states the operator designed and installed the crude oil transfer line in compliance with the 1100 Series rules and submitted the ERSI shape file to the UNCC.

(4) the proposed pipe material (i.e., size, weight, grade, wall thickness, coating, and standard dimension ration);

(5) the type of fluid to be transported;

(6) the method for testing integrity;

(7) proposed burial depth of the crude oil transfer line; and

(8) the location and construction method proposed for all public by-ways, road crossings, sensitive wildlife habitats, sensitive areas and natural and manmade watercourses (i.e., bored and cased or bored only).

m. **Record Keeping.** An operator must keep records of flowline or crude oil transfer line size, route, materials, maximum anticipated operating pressure, pressure test results, and integrity management documentation for the life of the flowline. These records are available for inspection by the Director pursuant to Rule 205.

n. **One Call participation.** Every operator must become a Tier One member of the UNCC and participate in Colorado's One Call notification system, the requirements of which are established by §9-1.5-101., C.R.S. et seq.

(1) An operator must include its UNCC member code when filing an Operator Registration, Form 1, Change of Operator, Form 10, Gas Facility Registration, Form 12, or Flowline Form, Form 44.(2) Upon completing an asset purchase, transfer, construction or relocation of a flowline or crude oil transfer line, an operator must update within 30-days its location information with the UNCC.

(3) An operator's registration with the Commission grants the Director permission to access information the operator submits to UNCC about its oil and gas facilities.

o. **Notification.** The operator of a crude oil transfer line must submit a Form 42 notice of change to

the Director identifying any crude oil transfer line or portion thereof that has been removed from service for more than one year.

~~g.~~

1103. INTEGRITY MANAGEMENT

a. **Notification.** At least ten days before conducting an initial pressure test or an annual pressure test, an operator must submit a Form 42 to the Director to allow a representative of the Commission to witness the testing process and results.

b. **Initial Pressure Test Requirements.** After installation or being taken out of service and before operating a segment of flowline or crude oil transfer line, an operator must test the flowline or crude oil transfer line to maximum anticipated operating pressure and demonstrate integrity. In conducting tests, each operator must ensure that reasonable precautions are taken to protect its employees and the general public. The operator may conduct the test using wellhead pressure sources and well bore fluids, including gas.

c. **Off-Location Flowlines.** All off-location flowlines must be subject to one of the following integrity management programs:

   (1) Annual pressure test;

   (2) Continuous pressure monitoring; or

   (3) For aboveground flowlines, annual visual inspection.

d. **Belowground Dump Lines.** An operator must verify integrity of belowground dump lines by performing an annual static-head test.

e. **Aboveground Dump Lines and Small Diameter Peripheral Piping.** An operator must verify integrity of aboveground dump lines or peripheral piping by performing an annual visual inspection.

f. **Integrity Management for All Other Flowlines.** Any flowlines not subject to c. through e. above, must be subject to one of the following integrity management programs:

   (1) A pressure test every three years and annual visual inspection; or

   (2) Continuous pressure monitoring.

g. **Crude oil transfer lines.** All crude oil transfer lines are subject to one of the following integrity management programs:

   (1) Annual pressure test;

   (2) Continuous pressure monitoring; or

   (3) Smart pigging conducted every three years.

h. **Leak protection, detection, and monitoring.**

   (1) All crude oil transfer line operators must file with the Director any leak protection and monitoring plan prepared by the operator or required by the Director, pursuant to the Rule 205.

(2) All crude oil transfer line operators must develop and maintain a plan to share all inflow and outflow data. The data may include, but is not limited to, the flow and fluid properties of rate, volume, temperature, and pressure in order to perform a material balance computation. The plan must provide for data sharing between the production facility operator, the crude oil transfer line operator, and the operator at the point or points of disposal, storage, or sale. If a data discrepancy is observed, the party observing the data discrepancy is to notify all other parties and action must be taken to determine the cause. The crude oil transfer line operator is to retain a record of all data discrepancies. If requested, copies of such records must be filed with the Director pursuant to Rule 205.

i. **Pressure Test Requirements.** A pressure test must subject the flowline or crude oil transfer line to the maximum anticipated operating pressure and be conducted in accordance with one of the following:

(1) API RP 1110, Recommended Practice for the Pressure Testing of Steel Pipelines for the Transportation of Gas, Petroleum Gas, Hazardous Liquids, Highly Volatile Liquids or Carbon Dioxide (6th Ed., February 1, 2013) (API RP 1110), and no later editions of the standard. API RP 1110 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, API RP 1110 may be examined at any state publications depository library and is available from API at 1220 L Street, NW Washington, DC 20005-4070, 1-202-682-8000.

(2) The American Society for Testing and Materials Standard Practice for Field Leak Testing of Polyethylene (PE) and Crosslinked Polyethylene (PEX) Pressure Piping Systems Using Hydrostatic Pressure (ASTM F2164 – 13), and no later editions of the standard. ASTM F2164 – 13 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, ASTM F2164 – 13 may be examined at any state publications depository library and is available from ASTM at ASTM International, 100 Barr Harbor Drive, PO Box C700, West Conshohocken, PA, 19428-2959, 1-877-909-2786

j. **Continuous Pressure Monitoring Requirements.** An operator's continuous pressure monitoring program must ensure:

(1) Pressure data are monitored continuously, i.e., 24 hours, 7 days a week, and the monitoring is sufficiently sophisticated to identify integrity or pressure anomalies;

(2) Systems are capable of being shut-in for repairs immediately upon discovery of an anomaly, either through automation or through a documented, manual process;

(3) The operator documents the continuous monitoring program, including integrity anomalies and the documentation demonstrates how an operator will maintain and repair anomalies in flowlines or crude oil transfer lines; and

(4) A map of the flowline or crude oil transfer line system is available in ESRI shapefile format. The shapefile must show the flowline or crude oil transfer line alignments, location of isolation valves, and pressure-monitoring points.

k. **Visual Inspection Requirements.** An operator must perform a visual, aerial, or other survey of the entire flowline length to detect integrity failures, leaks, spills, or releases, or signs of a leak, spill, or release like stressed vegetation or soil discoloration. An operator may use audio, visual, or olfactory or other detection technology, like optical gas imaging or LASERs, to detect integrity failures. An operator must document the employee conducting the inspection, detection methodology, and date and time of the inspection.

1104. ABANDONMENT

a. A flowline or crude oil transfer line remains subject to all of the requirements in Rules 1101 through 1103 until the operator completes all abandonment requirements set forth below.

b. For abandonment, operators must permanently remove a flowline or crude oil transfer line from service by physically separating it from all sources of fluids or pressure and comply with one of the following:

(1) **Abandonment in place.** The operator must:

A. Purge the flowline or crude oil transfer line of any liquids;

B. Deplete the flowline or crude oil transfer line to atmospheric pressure;

C. Cut the flowline's or crude oil transfer line's risers to three (3) feet below grade or to the depth of the flowline or crude oil transfer line, whichever is shallower;

D. Seal the ends of the flowline or crude oil transfer line below grade; and

E. Remove cathodic protection and above-grade equipment associated with the riser.

(2) **Removal.** The operator must remove the flowline or crude oil transfer line and risers, and cathodic protection and above-grade equipment associated with the riser.

c. Once an operator removes a flowline or crude oil transfer line from service and is in the process of abandoning it, the operator must lockout and tagout the risers associated with the flowline or crude oil transfer line using appropriate devices.

d. Within 10 days of an operator completing abandonment requirements for a flowline or crude oil transfer line, the operator must file a Notice of Flowline Abandonment, Form 44, with the Director. If the operator abandons an Off-Location Flowline and has not submitted GPS location points for the flowline's risers, the Notice of Flowline Abandonment must include this information.

e. The Director will provide the filed Notice of Flowline Abandonment, Form 44 to the appropriate Local Governmental Designee and UNCC.

f. These abandonment requirements apply to compressor or gas plant feeder pipelines upon decommissioning or closure of a portion or all of a compressor station or gas plant.

DRILLING, DEVELOPMENT, PRODUCTION AND ABANDONMENT (300 Series)

312. COGCC Form 10. CERTIFICATE OF CLEARANCE AND/OR CHANGE OF OPERATOR

* * *

i. A completed Form 10 is required for any change of operator for all oil and gas facilities, except for produced water transfer systems, gas gathering systems, gas processing plants, and underground gas storage facilities, which are governed by Rule 313B.

313A. COGCC Form 11. MONTHLY REPORT OF GASOLINE OR OTHER EXTRACTION PLANT

All operators of gasoline or other extraction plants must make monthly reports to the Director on a Form 11. Such forms must contain all information required thereon and must be filed with the Director on or before the twenty-fifth (25th) day of each month covering the preceding month.

313B. COGCC Form 12. PRODUCED WATER TRANSFER SYSTEM, AND GAS FACILITY REGISTRATION/CHANGE OF OPERATOR

a. An operator must submit a Form 12 to register a new produced water transfer system, gas gathering system, a new gas processing plant, or a new underground gas storage facility. The operator must attach a flowline layout drawing and a topographic map to the Form 12.

b. When an operator makes significant changes to an existing produced water transfer system, gas gathering system, gas processing plant, or underground gas storage facility, the operator must submit a Form 12 to update the Commission's records regarding the facility. The operator must attach an updated flowline layout drawing and an updated topographic map to the Form 12.

c. An operator must submit a Form 12 to change the operator of a produced water transfer system, gas gathering system, gas processing plant, or an underground gas storage facility. The operator must attach documentation confirming transfer of the asset(s) to the Form 12 for a change of operator.

d. At least 30 days before beginning construction of a gas gathering line with segments subject to safety regulation by the Office of Pipeline Safety, U.S. Department of Transportation, an operator must submit a Form 12 to the Director. The operator must attach a schematic showing the gathering line's route and its crossings of public by-ways and natural and manmade watercourses to the Form 12.

328. MEASUREMENT OF OIL

* * *

d. **Tank Gauging.** Measurement by tank gauging must be completed in accordance with industry standards as specified in:

i. The API Manual of Petroleum Measurement Standards, Chapter 3.1A Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, (Second Edition, August 2005) and no later editions;

ii. The API Manual of Petroleum Measurement Standards, Chapter 3.1B Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, (Second Edition, June 2001) and no later editions;

iii. The API Manual of Petroleum Measurement Standards, Chapter 3.1A Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, (Second Edition, August 2005) and no later editions;

iv. The API Manual of Petroleum Measurement Standards Chapter 18.1 - Custody Transfer - Section 1-Measurement Procedures for Crude Oil Gathered from Small Tanks by Truck (Second Edition, April 1997) and no later editions, or

v. The API Manual of Petroleum Measurement Standards Chapter 18.2, Custody Transfer of Crude Oil from Lease Tanks Using Alternative Measurement Methods, (First Edition, July 2016) and no later editions.

The API Manuals identified in i. through v. above are available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, the API Manuals may be examined at any state publications depository library and is available from API at 1220 L Street, NW Washington, DC 20005-4070, 1-202-682-8000.

* * *

SAFETY REGULATIONS
(600 Series)

602. GENERAL

The training and actions of an operator's employees, as well as the proper location and operation of equipment, are essential to any safety program.

a. Operators must familiarize their employees with these Rules as they relate to their job functions. Each new employee should have his or her job outlined, explained and demonstrated.

b. Employees must immediately report unsafe and potentially dangerous conditions to their supervisor and any such conditions shall be remedied as soon as practicable.

c. An operator must notify the Director of reportable safety events at an oil and gas facility. Reportable safety events include:

(1) Any fire, explosion, accidental detonation, or uncontrolled release of pressure.

(2) Any accident that involves a fatal injury.

(3) Any accident involving a major or life-threating injury.

(4) Any injury to the member of the general public that requires Medical Treatment.

(5) Any natural event or accident that results in an actual or threatened safety event.

d. Initial notification from the operator of a reportable safety event described in c. (1) -(7) above, must occur as soon as practicable, but no more than 24 hours after the safety event. An Accident Report, Form 22, must be submitted to the Director within 3-days of the accident.

(1) At the Director's request, the operator must submit a supplemental report that details the root cause analysis, information about any repairs, or other information related to the accident.

(2) At the Director's request, the operator must present its root cause analysis about the accident to the Commission or to an organization approved by the Director.

e. Where unsafe or potentially dangerous conditions exist and first responders are on-site, the owner or operator must respond as directed by first responders (such as sheriff, fire district director, etc.)

f. Vehicles of persons not involved in drilling, production, servicing, or seismic operations must be located a minimum distance of one hundred (100) feet from the wellbore, or a distance equal to the height of the derrick or mast, whichever is greater. Equivalent safety measures shall be taken where terrain, location or other conditions do not permit this minimum distance requirements.

g. Existing producing facilities are exempt from the provisions of these regulations with respect to minimum distance requirements and setbacks unless they are found by the Director to be unsafe.

h. Self-contained sanitary facilities shall be provided during drilling operations and at any other similarly staffed oil and gas operations facility

605. OIL AND GAS FACILITIES.

605.d. **Mechanical Conditions.** All valves, pipes and fittings must be securely fastened, inspected at regular intervals, and maintained in good mechanical condition. An operator must fully open and close all valves at least annually and repair or replace valves that are not fully operational. Any valve, flange, fitting or other component connected to a flowline must have a manufacturer's rating that is equal to or greater than the flowline's maximum anticipated operating pressure.

(1) A valve must be installed at each of the following locations:

A. On the suction end and the discharge end of a pump station in a manner that permits isolation of the pump station equipment in the event of an emergency;

B. On each flowline entering or leaving a breakout tank in a manner that permits isolation of the breakout tank from other facilities;

C. At locations along a flowline system that will minimize the likelihood or damage or pollution from accidental discharge of hydrocarbons or E&P Waste, as appropriate for the terrain in open country or for populated areas;

D. On each flowline to allow integrity testing of the flowline without interrupting fluid flow of other connected pipelines;

E. On each side of a flowline crossing a waterbody that is more than 100 feet (30 meters) wide from high-water mark to high-water mark; and

F. On each side of a flowline crossing a reservoir holding water for human consumption.

(2) Check Valves Required.

A. Where an operator produces two or more wells through a common flowline, separator, or manifold, the operator must equip each flowline leading from a well to the common flowline, separator, or manifold with a check valve or other means of shut-off. The check valve or other means of shut-off must be in the flowline serving the well. The check valve must be located between the wellhead and the point where the flowline connects with any other flowline, common separator, or common manifold.

i. For wells produced through a common flowline or separator, the operator must place the check valve or other means of shut-off in each flowline leading from a well as close to the wellhead connection as is practicable.

ii. For wells produced through a common manifold, the operator may place the check valve or other means of shut-off in each flowline from a well near a point where the flowline enters the manifold or as close to the wellhead connection as practicable.

B. The check valve or other means of shut-off must be installed to permit fluids moving from the well to the common flowline, separator, or manifold and to prevent any fluid from entering the well through the flowline.

C. The operator must keep the check valve or other means of shut-off in good working order.

D. Upon the Director's request, operators must test the operation of the check valve or other means of shut-off.

* * *

FINANCIAL ASSURANCE AND OIL AND GAS CONSERVATION AND ENVIRONMENTAL RESPONSE FUND (700 Series)

711. Produced water transfer systems, gas gathering, gas processing and underground gas storage facilities.

Operators of produced water transfer systems ,gas gathering, gas processing, or underground gas storage facilities must provide statewide blanket financial assurance to ensure compliance with the 900 Series rules in the amount of fifty thousand dollars ($50,000), or in an amount voluntarily agreed to with the Director, or in an amount determined by order of the Commission. Operators of small systems gathering or processing less than five (5) MMSCFD may provide individual financial assurance in the amount of five thousand dollars ($5,000).

E&P WASTE MANAGEMENT (900 Series)

906. SPILLS AND RELEASES

* * *

b. **Reporting spills or releases of E&P Waste or produced fluids.**

(1) Report to the Director. Operators shall report a spill or release of E&P Waste or produced fluids that meet any of the following criteria to the Director verbally or in writing as soon as practicable, but no more than twenty-four (24) hours after discovery (the "Initial Report").

A. A spills/release of any size that impacts or threatens to impact any waters of the state, a residence or occupied structure, livestock, or public byway;

B. A spill/release in which one (1) barrel or more of E&P Waste or produced fluids is spilled or released outside of berms or other secondary containment;

C. A spill/release of five (5) barrels or more regardless of whether the spill/release is completely contained within berms or other secondary containment; or

D. Any Grade 1 Gas Leak. Operators reporting a Grade 1 Gas Leak must use a Form 44 to submit the Initial Report or subsequent information required by this section.

The Initial Report to the Director shall include, at a minimum, the location of the spill/release and any information available to the Operator about the type and volume of waste involved.

If the Initial Report was not made by submitting a COGCC Spill/Release Report, Form 19 the Operator must submit a Form 19 with the Initial Report information as soon as practicable but not later than 72 hours after discovery of the spill/release unless extended by the Director.

In addition to the Initial Report to the Director, the Operator shall make a supplemental report on Form 19 not more than 10 calendar days after the spill/release is discovered that includes an 8 1/2 x 11 inch topographic map showing the governmental section and location of the spill or an aerial photograph showing the location of the spill; all pertinent information about the spill/release known to the Operator that has not been reported previously; and information relating to the initial mitigation, site investigation, and remediation measures conducted by the Operator.

The Director may require further supplemental reports or additional information.

* * *

CONFORMING CHANGES

DEFINITIONS
(100 Series)

OIL AND GAS FACILITY means equipment or improvements used or installed at an oil and gas location for the exploration, production, withdrawal, treatment, or processing of crude oil, condensate, E&P waste, or gas.

OIL AND GAS OPERATIONS means exploring for oil and gas, including conducting seismic operations and the drilling of test bores; siting, drilling, deepening, recompleting, reworking, or abandoning a well; producing operations related to any well, including installing flowlines; the generating, transporting, storing, treating, or disposing exploration and production wastes; and any constructing, site preparing, or reclaiming activities associated with such operations.

PLUGGING AND ABANDONMENT means the cementing of a well, the removal of its associated production facilities, the abandonment of its flowline(s), and the remediation and reclamation of the wellsite.

PRODUCTION FACILITY means any storage, separation, treating, dehydration, artificial lift, power supply, compression, pumping, metering, monitoring, flowline, and other equipment directly associated with a well.

PRODUCTION PITS means pits used after drilling operations and initial completion of a well, including pits related to produced water flowlines or associated with E&P waste from gas gathering, processing and storage facilities, which constitute:

> **SKIMMING/SETTLING PITS** used to provide retention time for settling of solids and separation of residual oil for the purposes of recovering the oil or fluid.
>
> **PRODUCED WATER PITS** used to temporarily store produced water prior to injection for enhanced recovery or disposal, off-site transport, or surface-water discharge.
>
> **PERCOLATION PITS** used to dispose of produced water by percolation and evaporation through the bottom or sides of the pits into surrounding soils.
>
> **EVAPORATION PITS** used to contain produced waters which evaporate into the atmosphere by natural thermal forces.

SPECIAL PURPOSE PITS means pits used in oil and gas operations, including pits related to produced water flowlines or associated with E&P waste from gas gathering, processing and storage facilities, which constitute:

> **BLOWDOWN PITS** used to collect material resulting from, including but not limited to, the emptying or depressurizing of wells, vessels, or flowlines, or E&P waste from gathering systems.
>
> **FLARE PITS** used exclusively for flaring gas.
>
> **EMERGENCY PITS** used to contain liquids during an initial phase of emergency response operations related to a spill/release or process upset conditions.
>
> **BASIC SEDIMENT/TANK BOTTOM PITS** used to temporarily store or treat the extraneous materials in crude oil which may settle to the bottoms of tanks or production vessels and which may contain residual oil.

WORKOVER PITS used to contain liquids during the performance of remedial operations on a producing well in an effort to increase production.

PLUGGING PITS used for containment of fluids encountered during the plugging process.

DRILLING, DEVELOPMENT, PRODUCTION AND ABANDONMENT (300 Series)

303. REQUIREMENTS FOR FORM 2, APPLICATION FOR PERMIT-TO-DRILL, DEEPEN, RE-ENTER, OR RECOMPLETE, AND OPERATE; FORM 2A, OIL AND GAS LOCATION ASSESSMENT.

* * *

303.b. **FORM 2A, OIL AND GAS LOCATION ASSESSMENT.**

* * *

(2) **Exemptions.** A new Form 2A shall not be required for the following:

A. Surface disturbance, other than for purposes described in subsections 303.b.(1) B and C. above, at an existing Oil and Gas Location within the originally disturbed area, even if interim reclamation has been performed;

B. For an Oil and Gas Location covered by an approved Comprehensive Drilling Plan and where such Comprehensive Drilling Plan contains information substantially equivalent to that which would be required for a Form 2A for the proposed Oil and Gas Location and the Comprehensive Drilling Plan has been subject to procedures substantially equivalent to those required for a Form 2A, including but not limited to consultation with Surface Owners, local governments, the Colorado Department of Public Health and Environment or Colorado Parks and Wildlife, where applicable, and public notice and opportunity to comment, and where the operator does not seek a variance from the Comprehensive Drilling Plan or a provision of these rules that is not addressed in the Plan;

C. Seismic operations;

D. Pipelines for oil, gas, or water; or

E. Roads.

* * *

317B. PUBLIC WATER SYSTEM PROTECTION

a. **Definitions.** For purposes of this Rule 317B:

(1) **Drilling, Completion, Production and Storage ("DCPS") Operations** means operations at (i) well sites for the drilling, completion, recompletion, workover, or stimulation of wells or chemical and production fluid storage, and (ii) any other oil and gas location at which production facilities are operated. DCPS Operations excludes roads, gathering lines, and routine operations and maintenance.

(2) **Existing Oil and Gas Location** means an oil and gas location, excluding roads, and gathering lines, permitted or constructed prior to the later of May 1, 2009 for federal land or April 1, 2009 for all other land or the date that the oil and gas location becomes subject to Rule 317B by virtue of its proximity to a Classified Water Supply Segment.

(3) **New Oil and Gas Location** means an oil and gas location, excluding roads and gathering lines, that is not an existing oil and gas location.

(4) **New Surface Disturbance** means surface disturbance that expands the area of surface covered by an oil and gas location beyond that initially disturbed in the construction of the oil and gas location.

(5) **Non-Exempt Linear Feature** means a road or gathering line that is not necessary to cross a stream or connect or access a well or a gathering line.

* * *

E&P WASTE MANAGEMENT
(900 Series)

907. MANAGEMENT OF E&P WASTE

* * *

f. **Other E&P Waste.** Other E&P waste such as workover fluids, tank bottoms, pigging wastes from pipelines , and gas gathering, processing, and storage wastes may be treated or disposed of as follows:
   (1) Disposal at a commercial solid waste disposal facility;
   (2) Treatment at a centralized E&P waste management facility permitted in accordance with Rule 908;
   (3) Injection into a Class II injection well permitted in accordance with Rule 325; or
   (4) An alternative method proposed in a waste management plan in accordance with rule 907.a.(3) and approved by the Director.

FLOWLINE RULEMAKING
INITIAL DRAFT OF PROPOSED RULES
(Please note that the redline below may in some instances show current rule language as newly proposed language because it has been moved between sections.)

DEFINITIONS
(100 Series)

BREAKOUT TANK means a tank used to either relieve surges in a liquid hydrocarbon pipeline system or receive and store liquid hydrocarbons transported by a pipeline for reinjection and continued transportation by pipeline.

CRUDE OIL TRANSFER LINE means a pipe or piping system that is not regulated by the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration pursuant to 49 C.F.R. § 195.2, and which transfers crude oil or condensate generated by more than one oil and gas facility to an offsite production or storage facility.

DOMESTIC TAP means an individual gas service line directly connected to a flowline.

FLOWLINES means a segment of pipe transferring oil, gas, or condensate between a wellhead and the point of delivery to a U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration or Colorado Public Utilities Commission regulated gathering line or a segment of pipe transferring produced water between a wellhead and the point of disposal, discharge, or loading. ~~shall mean those segments of pipe from the wellhead downstream through the production facilities ending at: in the case of gas lines, the gas metering equipment; or in the case of oil lines the oil loading point or LACT unit; or in the case of water lines, the water loading point, the point of discharge to a pit, the injection wellhead, or the permitted surface water discharge point.~~ The different types of flowlines are:

Wellhead Line means a flowline that transmits well production fluids from an oil or gas well to process equipment (e.g., separator, production separator, tank, heater treater), not including pre-conditioning equipment such as sand traps and line heaters, that do not materially reduce line pressure.

Production Piping means a segment of pipe that transfers well production fluids from a wellhead line or production equipment to a gathering line or storage vessel and includes the following:

Production Line means a flowline connecting a separator to a meter, LACT, or gathering line;

Dump Line means a flowline that transfers produced water, crude oil, or condensate to a storage tank, or process vessel and operates at atmospheric pressure at the flowline's outlet;

Manifold Piping means a flowline that transfers fluids from lines that have been joined together to comingle fluids into a piece of production facility equipment; and

Process Piping means all other piping that is integral to oil and gas exploration and production related to an individual piece or a set of production facility equipment pieces.

Peripheral Piping means a flowline transferring fluids between oil and gas facilities for lease use, that may include, but is not limited to, fuel gas, lift gas, instrument gas, and power fluids.

Produced Water Flowline means a flowline used to transfer produced water for treatment, storage, discharge, injection or reuse for oil and gas operations.

Produced Water Transfer System means a pipe or piping system that transports produced water generated at more than one well.

A segment of pipe transferring only freshwater is not a flowline. A line that would otherwise satisfy the above definition will not be considered a flowline if all of the following are satisfied:
-the operator prospectively marks and tags the line as a support line;
-the line is not integral to production;
-the line is used infrequently to service or maintain production equipment;
-the line does not hold a constant pressure, and
-the line is isolated from a pressure source when not in use.

This definition does not include gathering lines.

GATHERING LINE means a gathering pipeline as defined by 4 C.C.R. § 723-4901 or a pipeline regulated by the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration pursuant to 49 C.F.R. §§ 195.2 or 192.8~~shall mean a pipeline and equipment described below that transports gas from a production facility (ordinarily commencing downstream of the final production separator at the inlet flange of the custody transfer meter) to a natural gas processing plant or transmission line or main. The term "gathering line" includes valves, metering equipment, communication equipment, cathodic protection facilities, and pig launchers and receivers, but does not include dehydrators, treaters, tanks, separators, or compressors located downstream of the final production facilities and upstream of the natural gas processing plants, transmission lines, or main lines~~.

GRADE 1 GAS LEAK means a leak that represents an existing or probable hazard to persons or property and requires immediate repair or continuous action until the conditions are no longer hazardous.

LOCKOUT means installing a device, such as a blind plug, blank flange, or bolted slip blind, that prevents operation of an energy-isolating device, such as a valve, and ensures the equipment cannot be operated until the lockout device is removed.

MAXIMUM ANTICIPATED OPERATING PRESSURE means the highest operational pressure expected to be applied to a flowline when in service.

OFF-LOCATION FLOWLINE means a flowline from a well to a production facility that is not on the same oil and gas location as the well.

PIPELINE means a flowline, crude oil transfer line or gathering line as defined in these Rules.

RISER means the component of a flowline transitioning from below grade to above grade.

TAGOUT means securely fastening a tagout device to an energy-isolating device, such as a valve, to indicate that the energy-isolating device and the equipment being controlled may not be operated until the tagout device is removed.

TAGOUT DEVICE means a prominent warning device, such as a tag, that will not deteriorate or become illegible with exposure to weather conditions or wet and damp locations. The tagout device must: include an instruction to not operate the equipment; the date of the last successful integrity test; the reason for tagging out the equipment; and be color coded per ANSI/ASME A13.1.

1101. Registration Requirements

a. **Registration of Off-Location Flowlines.** An operator of an off-location flowline must submit a Flowline Form, Form 44, to the Director after completing construction and must include the following information:

(1) GPS location points for the risers;

(2) pipe and bedding materials used in construction;

(3) flowline diameter;

(4) fluids that will be transferred;

(5) the maximum anticipated operating pressure and initial pressure test results;

(6) a schematic drawing of the flowline, associated oil and gas locations, and existing and proposed pipelines related to the oil and gas locations; and

(7) the COGCC Facility ID assigned to the associated oil and gas locations.

b. **Domestic Tap Registration.**

(1) Upon installation or discovery, operators must report to the Director the GPS location for the point of flowline connection and the address of the point of delivery of all domestic taps connected to an operator's flowline.

(2) For Domestic Taps installed after February 14, 2018, an operator must register the domestic tap pursuant to subpart (1) and ensure:

A. The domestic tap is locatable by a tracer line or location device placed adjacent to or in the trench of the domestic tap to facilitate locating it;

B. A licensed plumber properly installs:

i. properly-sized regulators on the domestic tap at the point it connects to the operator's flowline and at the point it delivers gas to the dwelling or structure where the gas is utilized; and

ii. all necessary piping to accommodate appropriate odorization, and gas utilization metering equipment;

C. All materials used for the domestic tap are designed for gas service and are installed using appropriate cover and bedding material in accordance with industry standards;

D. Markers are installed and maintained at the point the domestic tap connects to the operator's flowline and at the point it delivers gas to the dwelling or structure where the gas is utilized. Markers must include the language required by Rule 1102.f.(2); and

E. Odorant is supplied at the time of installation until abandonment of the domestic tap.

c. **Crude Oil Transfer Line Registration.** At least 30 days before beginning construction of a crude oil transfer line, an operator must submit a Form 12 to the Director that includes a schematic

showing the gathering line's route, including its crossings of public by-ways, road crossings, sensitive wildlife habitats, sensitive areas and natural and manmade watercourses to the Director.

1102. FLOWLINE AND CRUDE OIL TRANSFER LINE INSTALLATION, OPERATIONS, MAINTENANCE, ~~AND~~ REPAIR AND RECLAMATION

a. **Material.** Materials for pipe and pipe ~~other~~ components ~~of pipelines shall~~ must be:

(1)~~A.~~ Able to maintain the structural integrity of the ~~pipeline~~ flowline or crude oil transfer line under anticipated operating temperature, pressure, and other conditions ~~that may be anticipated~~; and

(2)~~B.~~ Compatible with the substances to be transported.

~~C. Locatable by a tracer line or location device placed adjacent to or in the trench of all buried nonmetallic pipelines to facilitate the location of such pipelines.~~

b. **Design and Installation.**

(1) Each component of a flowline or crude oil transfer line must meet one of the following standards appropriate for the component:

A. American Society of Mechanical Engineers, Pipeline Transportation Systems for Liquids and Slurries, 2016 Edition (ASME B31.4-2016), and no later editions of the standard. ASME B31.4-2016 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. Additionally, ASME B31.4-2016 may be examined at any state publications depository library and is available to purchase from the ASME. The ASME can be contacted at Two Park Avenue, New York, NY 10016-5990, 1-800-843-2763;

B. ASME Gas Transmission and Distribution Piping Systems, 2016 Edition (ASME B31.8-2016), and no later editions of the standard. ASME B31.8-2016 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. Additionally, ASME B31.8-2016 may be examined at any state publications depository library and is available to purchase from the ASME. The ASME can be contacted at Two Park Avenue, New York, NY 10016-5990, 1-800-843-2763;

C. ASME Process Piping, 2016 Edition (ASME 31.3-2016), and no later editions of the standard. ASME 31.3-2016 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. Additionally, ASME 31.3-2016 may be examined at any state publications depository library and is available to purchase from the ASME. The ASME can be contacted at Two Park Avenue, New York, NY 10016-5990, 1-800-843-2763; or

D. API Specification 15S, Spoolable Reinforced Plastic Line Pipe, Second Edition, March 2016 (API Specification 15S), and no later editions of the standard. API Specification 15S is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, API Specification 15S may be examined at any state publications depository library and is available from API at 1220 L Street, NW Washington, DC 20005-4070, 1-202-682-8000.

(2) Each component of a ~~pipeline~~ flowline or crude oil transfer line must~~shall~~ be designed ~~and installed~~ to:

A. ~~prevent~~ Prevent failure from internal or external corrosion and the effects of transported fluids;

B. ~~and to w~~Withstand maximum anticipated operating pressures and other internal loadings without impairment ~~of its serviceability;~~

C. ~~The pipe shall~~D. h~~H~~ave ~~sufficient wall thickness or be installed with adequate protection to W~~withstand anticipated external pressures and loads that will be imposed on the pipe after installation;and.

D. Allow for line maintenance, periodic line cleaning, and integrity testing.

c. **Installation.**

(1) Installation crews must be trained in all flowline or crude oil transfer line installation practices for which they are tasked to perform.

(2) No pipe or other component may be installed unless it has been visually inspected at the site of installation to ensure that it is not damaged.

(3) Flowlines or crude oil transfer lines must be installed in a manner that minimizes interference with agriculture, road and utility construction, the introduction of secondary stresses, and the possibility of damage to the pipe.

(4) The pipe must be handled in a manner that minimizes stress and avoids physical damage to the pipe during stringing, joining, or lowering in. During the lowering in process the pipe string must be properly supported so as not to induce excess stresses on the pipe or the pipe joints or cause weakening or damage to the outer surface of the pipe.

(5) Flowlines or crude oil transfer lines that cross a municipality, county, or state graded road must be bored unless the responsible governing agency specifically permits the owner to open cut the road.

(6) Unless the manufacturer's installation procedures and practices direct otherwise:

A. pipeline trenches must be constructed to allow the pipeline to rest on undisturbed native soil and provide continuous support along the length of the pipe;

B. trench bottoms must be free of rocks greater than two inches in diameter, debris, trash, and other foreign material not required for pipeline installation; and

C. over excavated trench bottoms must be backfilled with appropriate material and compacted prior to installation of the pipe to provide continuous support along the length of the pipe.

(7) The width of the trench must provide adequate clearance on each side of the pipe. Trench walls must be excavated to ensure minimal sluffing of sidewall material into the trench. Subsoil from the excavated trench must be stockpiled separately from previously stripped topsoil.

(8) A flowline or crude oil transfer line trench must be backfilled in a manner that provides firm

support under the pipe and prevents damage to the pipe and pipe coating from equipment or from the backfill material. Sufficient backfill material must be placed in the pipe springlift of the pipe to provide long-term support for the pipe. Backfill material that will be within two feet of the pipe must be free of rocks greater than two inches in diameter and foreign debris. Backfilling material must be compacted as appropriate during placement in a manner that provides support for the pipe and reduces the potential for damage to the pipe and pipe joints.

(9) Flowlines and crude oil transfer lines must be installed as designed.

(10) Flowlines and crude oil transfer lines that traverse sensitive wildlife habitats or sensitive areas, such as wetlands, streams, or other surface waterbodies, must be installed in a manner that minimizes impacts to these areas.

~~c.~~d. **Cover.**

(1) All installed ~~pipelines~~ flowlines must~~shall~~ have cover sufficient to protect them from damage. On ~~crop land~~ cropland, all ~~pipelines~~ flowlines ~~shall~~ must have a minimum cover of three (3) feet.

(2) Where an underground structure, geologic, ~~economic~~ or other uncontrollable condition prevents ~~pipelines~~ a flowline from being installed with minimum cover, or when there is a written agreement between the surface owner and the operator, ~~the~~ a flowline ~~line~~ may be installed with less than minimum cover or above ground.

(3) All installed crude oil transfer lines must have a minimum cover of three (3) feet.

~~f.~~e. **Excavation, backfill and reclamation.**

(1) When ~~pipelines~~ flowlines or crude oil transfer lines cross ~~crop lands~~ croplands, unless waived by the surface owner, the operator ~~shall~~ must segregate topsoil while trenching, and ~~trenches shall be~~ backfill~~ed~~ trenches so that the soils ~~can~~ ~~shall~~ must be returned to their original relative positions and contour. This requirement to segregate and backfill topsoil ~~shall~~ does not apply to trenches which are twelve (12) inches or less in width. Operator must make ~~R~~reasonable efforts ~~shall be made~~ to run ~~pipelines~~ flowlines or crude oil transfer lines parallel to crop irrigation rows on flood irrigated land.

(2) ~~On crop lands and non-crop lands, pipeline~~ All trenches must ~~shall~~ be maintained in order to correct subsidence and reasonably minimize erosion.

~~(2)~~(3) Interim and final reclamation, including revegetation, must ~~shall~~ be performed in accordance with the applicable 1000 Series rules.

f. **Marking.**

(1) In Designated Setback Locations, and where crossing public rights-of-way or utility easement, an operator must install and maintain a marker that identifies the location of ~~pipelines~~flowlines or crude oil transfer lines.

(2) The marker must include the following language:

"Warning", "Caution" or "Danger" followed by the words "gas (or name of ~~natural~~ gas or ~~petroleum~~ fluid transported) ~~pipeline~~flowline (or crude oil transfer line)" along with the name of the operator and the telephone number where the operator can be reached at all times. The

letters must be legible, written on a background of sharply contrasting color and on each side with at least one (1) inch high with one-quarter (¼) inch stroke.

g. **Inspection**. All newly constructed crude oil transfer lines must be inspected by third-party independent inspectors to ensure the crude oil transfer line is installed as prescribed by the manufacturer's specifications and in accordance with the requirements of the 1100 series rules. An inspector must be trained, experienced and qualified in the phase of construction being inspected. A list of all third-party independent inspectors and a description of each independent inspector's qualifications, certifications, experience, and specific training must be provided to the Director upon request pursuant to Rule 205.

h. **Maintenance.**

(1) Each operator must take reasonable precautions to prevent failures, leakage and corrosion of ~~pipelines~~flowlines and crude oil transfer lines.

(2) Whenever an operator discovers any condition that could adversely affect the safe and proper operation of ~~its a pipeline~~flowline or crude oil transfer line, it must correct it within a reasonable time. However, if the condition presents an immediate hazard to persons or property, the operator may not operate the affected part of the system until the operator has corrected the condition.

(3) Any flowline or crude oil transfer line not actively in use must have all valves locked or tagged out.

i. **Repair.**

(1) Each operator must, in repairing its ~~pipelines~~flowlines or crude oil transfer line, make repairs in a safe manner that- prevents injury to persons and damage to equipment and property.

(2) An operator may not use any pipe, valve, or fitting to repair a flowline or crude oil transfer line unless the components meet the installation requirements of the 1100 series rules. A flowline or crude oil transfer line installed prior to February 14, 2018, that undergoes a major modification or change in service after February 14, 2018, must satisfy all requirements of the 1100 series rules before an operator can place the flowline or crude oil transfer line in to service.

(3) An operator may not use any pipe, valve, or fitting, for replacement or repair of a flowline, unless it is designed to the maximum anticipated operating pressure.

(4) An operator must pressure test any repaired flowline or crude oil transfer line before returning it to service.

j. **Operating requirements.**

(1) No flowline or crude oil transfer line may be operated until it has demonstrated compliance with Rule 1103.

(2) The maximum operating pressure for a flowline or crude oil transfer line may not exceed the manufacturer's specifications of the pipe or the manufacturer's specifications of any other component of it, whichever is less. A flowline or crude oil transfer line must be equipped with adequate controls and protective equipment to prevent it from operating above the maximum

operating pressure.

k. **Corrosion control.**

(1) All coated pipe must be electronically inspected prior to placement using coating deficiency (i.e. scratch, bubble, and "holiday") detectors to check for any faults not observable by visual examination. The detector must operate in accordance with manufacturer's instructions and at a voltage level appropriate for the electrical characteristics of the pipeline being tested. During installation all joints, fittings, and tie-ins must be coated with materials compatible with the coatings on the pipe. Coating materials must:

A. Be designed to mitigate corrosion of the buried pipeline;
B. Have sufficient adhesion to the metal surface to prevent under film migration of moisture;
C. Be sufficiently ductile to resist cracking;
D. Have enough strength to resist damage due to handling and soil stress;
E. Support any supplemental cathodic protection; and
F. If the coating is an insulating type, have low moisture absorption and provide high electrical resistance.

(2) Pipes must be locatable by a tracer line or location device placed adjacent to or in the trench of a buried nonmetallic flowline or crude oil transfer line.

(3) Cathodic protection systems must meet or exceed the minimum criteria set forth in the National Association of Corrosion Engineers standard practice Control of External Corrosion on Underground or Submerged Metallic Piping Systems.

(4) If internal corrosion is anticipated or detected, the flowline or crude oil transfer line operator must take prompt remedial action to correct any deficiencies, such as increased pigging, use of corrosion inhibitors, internal coating of the pipeline (e.g. an epoxy paint or other plastic liner), or a combination of these methods.

l. **Crude oil transfer line as built.** For a crude oil transfer line placed into service after February 14, 2018, the operator must, within 30-days from the date of being placed into service, file with the Director a Form 44, and register with the Utility Notification Center of Colorado (UNCC). Operators must include the following information:

(1) a schematic layout of the facility that shows the location of all associated above ground equipment and the pipeline centerline from the point of origin to the termination point;

(2) a geographical information system layer utilizing North American datum 83 geographic coordinate system (GCS) in an environmental systems research institute (Esri) shape file format that has a completed attribute table containing the required data; and

(3) an affidavit of completion that that states the operator designed and installed the crude oil transfer line in compliance with the 1100 Series rules and submitted the ERSI shape file to the UNCC.

(4) the proposed pipe material (i.e., size, weight, grade, wall thickness, coating, and standard dimension ration);

(5) the type of fluid to be transported;

(6) the method for testing integrity;

(7) proposed burial depth of the crude oil transfer line; and

(8) the location and construction method proposed for all public by-ways, road crossings, sensitive wildlife habitats, sensitive areas and natural and manmade watercourses (i.e., bored and cased or bored only).

m. **Record Keeping.** An operator must keep records of flowline or crude oil transfer line size, route, materials, maximum anticipated operating pressure, pressure test results, and integrity management documentation for the life of the flowline. These records are available for inspection by the Director pursuant to Rule 205.

~~j.~~n. **One Call participation.** ~~As to any pipelines over which the Commission has jurisdiction, each~~ Every operator ~~shall~~must become a Tier One member of the UNCC and participate in Colorado's One Call notification system, the requirements of which are established by §9-1.5-101., C.R.S. et seq.

(1) An operator must include its UNCC member code when filing an Operator Registration, Form 1, Change of Operator, Form 10, Gas Facility Registration, Form 12, or Flowline Form, Form 44.

(2) Upon completing an asset purchase, transfer, construction or relocation of a flowline or crude oil transfer line, an operator must update within 30-days its location information with the UNCC.

(3) An operator's registration with the Commission grants the Director permission to access information the operator submits to UNCC about its oil and gas facilities.

o. **Notification.** The operator of a crude oil transfer line must submit a Form 42 notice of change to the Director identifying any crude oil transfer line or portion thereof that has been removed from service for more than one year.

~~g. **Pressure testing of flowlines.**~~

~~1102~~1103. ~~**OPERATIONS, MAINTENANCE, AND REPAIR**~~ **INTEGRITY MANAGEMENT**

a. **Notification.** At least ten days before conducting an initial pressure test or an annual pressure test, an operator must submit a Form 42 to the Director to allow a representative of the Commission to witness the testing process and results.

b. **Initial Pressure Test Requirements.** After installation or being taken out of service and b~~B~~efore operating a segment of flowline or crude oil transfer line, an operator must test the flowline or crude oil transfer line ~~it shall be tested~~ to maximum anticipated operating pressure and demonstrate integrity. In conducting tests, each operator must~~shall~~ ensure that reasonable precautions are taken to protect its employees and the general public. The operator may conduct the test ~~testing may be conducted~~ using ~~well head~~ wellhead pressure sources and well bore fluids, including ~~natural~~ gas. ~~Such pressure tests shall be repeated once each calendar year to maximum anticipated operating pressure, and operators shall maintain records of such testing for Commission inspection for at least three (3) years.~~

c. **Off-Location Flowlines.** All off-location flowlines must be subject to one of the following integrity management programs:

(1) Annual pressure test;

(2) Continuous pressure monitoring; or

(3) For aboveground flowlines, annual visual inspection.

d. **Belowground Dump Lines.** An operator must verify integrity of belowground dump lines by performing an annual static-head test.

e. **Aboveground Dump Lines and Small Diameter Peripheral Piping.** An operator must verify integrity of aboveground dump lines or peripheral piping by performing an annual visual inspection.

f. **Integrity Management for All Other Flowlines.** Any flowlines not subject to c. through e. above, must be subject to one of the following integrity management programs:

(1) A pressure test every three years and annual visual inspection; or

(2) Continuous pressure monitoring.

g. **Crude oil transfer lines.** All crude oil transfer lines are subject to one of the following integrity management programs:

(1) Annual pressure test;

(2) Continuous pressure monitoring; or

(3) Smart pigging conducted every three years.

h. **Leak protection, detection, and monitoring.**

(1) All crude oil transfer line operators must file with the Director any leak protection and monitoring plan prepared by the operator or required by the Director, pursuant to the Rule 205.

(2) All crude oil transfer line operators must develop and maintain a plan to share all inflow and outflow data. The data may include, but is not limited to, the flow and fluid properties of rate, volume, temperature, and pressure in order to perform a material balance computation. The plan must provide for data sharing between the production facility operator, the crude oil transfer line operator, and the operator at the point or points of disposal, storage, or sale. If a data discrepancy is observed, the party observing the data discrepancy is to notify all other parties and action must be taken to determine the cause. The crude oil transfer line operator is to retain a record of all data discrepancies. If requested, copies of such records must be filed with the Director pursuant to Rule 205.

i. **Pressure Test Requirements.** A pressure test must subject the flowline or crude oil transfer line to the maximum anticipated operating pressure and be conducted in accordance with one of the following:

(1) -API RP 1110, Recommended Practice for the Pressure Testing of Steel Pipelines for the Transportation of Gas, Petroleum Gas, Hazardous Liquids, Highly Volatile Liquids or Carbon Dioxide (6th Ed., February 1, 2013) (API RP 1110), and no later editions of the standard. API RP 1110 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, API RP 1110 may be examined at any state publications depository library and is available from API at 1220 L Street, NW Washington, DC 20005-

4070, 1-202-682-8000.

~~(1)~~

(2) The American Society for Testing and Materials Standard Practice for Field Leak Testing of Polyethylene (PE) and Crosslinked Polyethylene (PEX) Pressure Piping Systems Using Hydrostatic Pressure (ASTM F2164 – 13), and no later editions of the standard. ASTM F2164 – 13 is available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, ASTM F2164 – 13 may be examined at any state publications depository library and is available from ASTM at ASTM International, 100 Barr Harbor Drive, PO Box C700, West Conshohocken, PA, 19428-2959, 1-877-909-2786

j. **Continuous Pressure Monitoring Requirements.** An operator's continuous pressure monitoring program must ensure:

(1) Pressure data are monitored continuously, i.e., 24 hours, 7 days a week, and the monitoring is sufficiently sophisticated to identify integrity or pressure anomalies;

(2) Systems are capable of being shut-in for repairs immediately upon discovery of an anomaly, either through automation or through a documented, manual process;

(3) The operator documents the continuous monitoring program, including integrity anomalies and the documentation demonstrates how an operator will maintain and repair anomalies in flowlines or crude oil transfer lines; and

(4) A map of the flowline or crude oil transfer line system is available in ESRI shapefile format. The shapefile must show the flowline or crude oil transfer line alignments, location of isolation valves, and pressure-monitoring points.

k. **Visual Inspection Requirements.** An operator must perform a visual, aerial, or other survey of the entire flowline length to detect integrity failures, leaks, spills, or releases, or signs of a leak, spill, or release like stressed vegetation or soil discoloration. An operator may use audio, visual, or olfactory or other detection technology, like optical gas imaging or LASERs, to detect integrity failures. An operator must document the employee conducting the inspection, detection methodology, and date and time of the inspection.

~~a. Flowline segments operating at less than fifteen (15) psig are excepted from pressure testing requirements.~~

1103~~4~~. ABANDONMENT

~~Each pipeline abandoned in place shall be disconnected from all sources and supplies of natural gas and petroleum, purged of liquid hydrocarbons, depleted to atmospheric pressure, and cut off three (3) feet below ground surface, or the depth of the pipeline, whichever is less and sealed at the ends. This requirement shall also apply to compressor or gas plant feeder pipelines upon decommissioning or closure of a portion or all of a compressor station or gas plant. Notice of such abandonment shall be filed with the Commission and with the local governmental designee or local government jurisdiction.~~

a. A flowline or crude oil transfer line remains subject to all of the requirements in Rules 1101 through 1103 until the operator completes all abandonment requirements set forth below.

b. For abandonment, operators must permanently remove a flowline or crude oil transfer line from service by physically separating it from all sources of fluids or pressure and comply with one of the following:

(1) **Abandonment in place.** The operator must:

A. Purge the flowline or crude oil transfer line of any liquids;

B. Deplete the flowline or crude oil transfer line to atmospheric pressure;

C. Cut the flowline's or crude oil transfer line's risers to three (3) feet below grade or to the depth of the flowline or crude oil transfer line, whichever is shallower;

D. Seal the ends of the flowline or crude oil transfer line below grade; and

E. Remove cathodic protection and above-grade equipment associated with the riser.

(2) **Removal.** The operator must remove the flowline or crude oil transfer line and risers, and cathodic protection and above-grade equipment associated with the riser.

c. Once an operator removes a flowline or crude oil transfer line from service and is in the process of abandoning it, the operator must lockout and tagout the risers associated with the flowline or crude oil transfer line using appropriate devices.

d. Within 10 days of an operator completing abandonment requirements for a flowline or crude oil transfer line, the operator must file a Notice of Flowline Abandonment, Form 44, with the Director. If the operator abandons an Off-Location Flowline and has not submitted GPS location points for the flowline's risers, the Notice of Flowline Abandonment must include this information.

e. The Director will provide the filed Notice of Flowline Abandonment, Form 44 to the appropriate Local Governmental Designee and UNCC.

f. These abandonment requirements apply to compressor or gas plant feeder pipelines upon decommissioning or closure of a portion or all of a compressor station or gas plant.

DRILLING, DEVELOPMENT, PRODUCTION AND ABANDONMENT (300 Series)

312. COGCC Form 10. CERTIFICATE OF CLEARANCE AND/OR CHANGE OF OPERATOR

* * *

i. A completed Form 10 is ~~shall be~~ required for any change of operator for all oil and gas facilities, ~~excluding~~ except for produced water transfer systems, gas gathering systems, gas processing plants, and underground gas storage facilities ~~as those shall be changed with a Form 12, Gas Facility Registration/Change of Operator~~, which are governed by Rule 313B.

313A. COGCC Form 11. MONTHLY REPORT OF GASOLINE OR OTHER EXTRACTION PLANT

All operators of gasoline or other extraction plants ~~shall~~ must make monthly reports to the Director on a Form 11. Such forms ~~shall~~ must contain all information required thereon and ~~shall~~ must be filed with the Director on or before the twenty-fifth (25th) day of each month covering the preceding month.

313B. COGCC Form 12. PRODUCED WATER TRANSFER SYSTEM, AND GAS FACILITY REGISTRATION/CHANGE OF OPERATOR

a. An operator must submit a Form 12 to register a new produced water transfer system, gas gathering system, a new gas processing plant, or a new underground gas storage facility. The operator must attach a flowline layout drawing and a topographic map to the Form 12.

b. When an operator makes significant changes to an existing produced water transfer system, gas gathering system, gas processing plant, or underground gas storage facility, the operator must submit a Form 12 to update the Commission's records regarding the facility. The operator must attach an updated flowline layout drawing and an updated topographic map to the Form 12.

c. An operator must submit a Form 12 to change the operator of a produced water transfer system, gas gathering system, gas processing plant, or an underground gas storage facility. The operator must attach documentation confirming transfer of the asset(s) to the Form 12 for a change of operator.

d. At least 30 days before beginning construction of a gas gathering line with segments subject to safety regulation by the Office of Pipeline Safety, U.S. Department of Transportation, an operator must submit a Form 12 to the Director. The operator must attach a schematic showing the gathering line's route and its crossings of public by-ways and natural and manmade watercourses to the Form 12.

328. MEASUREMENT OF OIL

* * *

d. **Tank Gauging.** Measurement by tank gauging ~~shall~~ must be completed in accordance with industry standards as specified in:

i. The API Manual of Petroleum Measurement Standards, Chapter 3.1A Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, (Second Edition, August 2005) and no later editions;

ii. The API Manual of Petroleum Measurement Standards, Chapter 3.1B Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, (Second Edition, June 2001) and no later editions;

iii. The API Manual of Petroleum Measurement Standards, Chapter 3.1A Standard Practice for the Manual Gauging of Petroleum and Petroleum Products, (Second Edition, August 2005) and no later editions;

iv. The API Manual of Petroleum Measurement Standards Chapter 18.1 - Custody Transfer - Section 1-Measurement Procedures for Crude Oil Gathered from Small Tanks by Truck (Second Edition, April 1997) and no later editions, or

v. The API Manual of Petroleum Measurement Standards Chapter 18.2, Custody Transfer of Crude Oil from Lease Tanks Using Alternative Measurement Methods, (First Edition, July 2016) and no later editions.

The API Manuals identified in i. through v. above are available for public inspection during normal business hours from the Public Room Administrator at the office of the Commission, 1120 Lincoln Street, Suite 801, Denver, Colorado 80203. In addition, the API Manuals may be examined at any state publications depository library and is available from API at 1220 L Street, NW Washington, DC 20005-4070, 1-202-682-8000.

* * *

602. GENERAL

The training and actions of an operator's employees, as well as the proper location and operation of equipment, are essential to any safety program.

a. Operators must familiarize their employees ~~Employees shall be familiarized~~ with these Rules ~~as provided herein~~ as they relate to their job functions. Each new employee should have his or her job outlined, explained and demonstrated.

b. Employees ~~shall~~ must immediately report unsafe and potentially dangerous conditions to their supervisor and any such ~~these~~ conditions shall be remedied as soon as practicable.

c. An operator must notify the Director of reportable safety events at an oil and gas facility. Reportable safety events include:

(1) Any fire, explosion, accidental detonation, or uncontrolled release of pressure.

(2) Any accident that involves a fatal injury.

(3) Any accident involving a major or life-threating injury.

(4) Any injury to the member of the general public that requires Medical Treatment.

(5) Any natural event or accident that results in an actual or threatened safety event.

d. Initial notification from the operator of a reportable safety event described in c. (1) -(7) above, must occur as soon as practicable, but no more than 24 hours after the safety event. An Accident Report, Form 22, must be submitted to the Director within 3-days of the accident.

(1) At the Director's request, the operator must submit a supplemental report that details the root cause analysis, information about any repairs, or other information related to the accident.

(2) At the Director's request, the operator must present its root cause analysis about the accident to the Commission or to an organization approved by the Director.

e. Where unsafe or potentially dangerous conditions exist and first responders are on-site, the owner or operator must respond as directed by first responders (such as sheriff, fire district director, etc.)

f. Vehicles of persons not involved in drilling, production, servicing, or seismic operations must ~~shall~~ be located a minimum distance of one hundred (100) feet from the wellbore, or a distance equal to the height of the derrick or mast, whichever is greater. Equivalent safety measures shall be taken where terrain, location or other conditions do not permit this minimum distance requirements.

~~g. Existing wells are exempt from the provisions of these regulations as they relate to the location of the well.~~

~~h.~~g. Existing producing facilities ~~shall be~~ are exempt from the provisions of these regulations with respect to minimum distance requirements and setbacks unless they are found by the Director to be unsafe.

h. Self-contained sanitary facilities shall be provided during drilling operations and at any other similarly staffed oil and gas operations facility

605. OIL AND GAS FACILITIES.

605.d. **Mechanical Conditions.** All valves, pipes and fittings ~~shall~~ must be securely fastened, inspected at regular intervals, and maintained in good mechanical condition. An operator must fully open and close all valves at least annually and repair or replace valves that are not fully operational. Any valve, flange, fitting or other component connected to a flowline must have a manufacturer's rating that is equal to or greater than the flowline's maximum anticipated operating pressure.

(1) A valve must be installed at each of the following locations:

A. On the suction end and the discharge end of a pump station in a manner that permits isolation of the pump station equipment in the event of an emergency;

B. On each flowline entering or leaving a breakout tank in a manner that permits isolation of the breakout tank from other facilities;

C. At locations along a flowline system that will minimize the likelihood or damage or pollution from accidental discharge of hydrocarbons or E&P Waste, as appropriate for the terrain in open country or for populated areas;

D. On each flowline to allow integrity testing of the flowline without interrupting fluid flow of other connected pipelines;

E. On each side of a flowline crossing a waterbody that is more than 100 feet (30 meters) wide from high-water mark to high-water mark; and

F. On each side of a flowline crossing a reservoir holding water for human consumption.

(2) Check Valves Required.

A. Where an operator produces two or more wells through a common flowline, separator, or manifold, the operator must equip each flowline leading from a well to the common flowline, separator, or manifold with a check valve or other means of shut-off. The check valve or other means of shut-off must be in the flowline serving the well. The check valve must be located between the wellhead and the point where the flowline connects with any other f~~F~~lowline, common separator, or common manifold.

i. For wells produced through a common flowline or separator, the operator must place the check valve or other means of shut-off in each flowline leading from a well as close to the wellhead connection as is practicable.

ii. For wells produced through a common manifold, the operator may place the check valve or other means of shut-off in each flowline from a well near a point where the flowline enters the manifold or as close to the wellhead connection as practicable.

B. The check valve or other means of shut-off must be installed to permit fluids moving from the well to the common flowline, separator, or manifold and to prevent any fluid from entering the well through the flowline.

C. The operator must keep the check valve or other means of shut-off in good working order.

D. Upon the Director's request, operators must test the operation of the check valve or other means of shut-off.

* * *

FINANCIAL ASSURANCE AND OIL AND GAS CONSERVATION AND ENVIRONMENTAL RESPONSE FUND (700 Series)

711. ~~Natural g~~ Produced water transfer systems, gas gathering, ~~natural~~ gas processing and underground ~~natural~~ gas storage facilities.

Operators of produced water transfer systems ,~~natural~~ gas gathering, ~~natural~~ gas processing, or underground ~~natural~~ gas storage facilities ~~shall~~ must ~~be required to~~ provide statewide blanket financial assurance to ensure compliance with the 900 Series rules in the amount of fifty thousand dollars ($50,000), or in an amount voluntarily agreed to with the Director, or in an amount ~~to be~~ determined by order of the Commission. Operators of small systems gathering or processing less than five (5) MMSCFD may provide individual financial assurance in the amount of five thousand dollars ($5,000).

E&P WASTE MANAGEMENT (900 Series)

906. SPILLS AND RELEASES

* * *

b. **Reporting spills or releases of E&P Waste or produced fluids.**

(1) Report to the Director. Operators shall report a spill or release of E&P Waste or produced fluids that meet any of the following criteria to the Director verbally or in writing as soon as practicable, but no more than twenty-four (24) hours after discovery (the "Initial Report").

A. A spills/release of any size that impacts or threatens to impact any waters of the state, a residence or occupied structure, livestock, or public byway;

B. A spill/release in which one (1) barrel or more of E&P Waste or produced fluids is spilled or released outside of berms or other secondary containment;

C. A spill/release of five (5) barrels or more regardless of whether the spill/release is completely contained within berms or other secondary containment~~.~~ ; or

D. Any Grade 1 Gas Leak. Operators reporting a Grade 1 Gas Leak must use a Form 44 to submit the Initial Report or subsequent information required by this section.

The Initial Report to the Director shall include, at a minimum, the location of the spill/release and any information available to the Operator about the type and volume of waste involved.

If the Initial Report was not made by submitting a COGCC Spill/Release Report, Form 19 the Operator must submit a Form 19 with the Initial Report information as soon as practicable but not later than 72 hours after discovery of the spill/release unless extended by the Director.

In addition to the Initial Report to the Director, the Operator shall make a supplemental report on Form 19 not more than 10 calendar days after the spill/release is discovered that includes an 8 1/2 x 11 inch topographic map showing the governmental section and location of the spill or an aerial photograph showing the location of the spill; all pertinent information about the spill/release known to the Operator that has not been reported previously; and information relating to the initial mitigation, site investigation, and remediation measures conducted by the Operator.

The Director may require further supplemental reports or additional information.

* * *

CONFORMING CHANGES

DEFINITIONS
(100 Series)

OIL AND GAS FACILITY ~~shall~~ means equipment or improvements used or installed at an oil and gas location for the exploration, production, withdrawal~~, gathering~~, treatment, or processing of crude oil, condensate, E&P waste, or ~~natural~~ gas.

OIL AND GAS OPERATIONS means explor~~ingration~~ for oil and gas, including ~~the~~ conduct~~ing of~~ seismic operations and the drilling of test bores; ~~the~~ siting, drilling, deepening, recompletion, reworking, or ~~abandonment~~ abandoning ~~of~~ a well~~n oil and gas well, underground injection well, or gas storage well~~; producition operations related to any ~~such~~ well, including ~~the~~ installation ~~of~~ing flowlines ~~and gathering systems~~; the generation, ~~transportation~~transporting, ~~storage~~storing, ~~treatment~~treating, or ~~disposal~~ disposing~~of~~ exploration and production wastes; and any construction, site preparation, or reclaim~~ingation~~ activities associated with such operations.

PLUGGING AND ABANDONMENT ~~shall~~ means the cementing of a well, the removal of its associated production facilities, the ~~removal or~~ abandonment ~~in place~~ of its flowline(s), and the remediation and reclamation of the wellsite.

PRODUCTION FACILITY ~~shall~~ means any storage, separation, treating, dehydration, artificial lift, power supply, compression, pumping, metering, monitoring, flowline, and other equipment directly associated with a well~~ oil wells, gas wells, or injection wells~~.

PRODUCTION PITS ~~shall~~ means ~~those~~ pits used after drilling operations and initial completion of a well, including pits related to produced water flowlines or associated with E&P waste from~~at natural~~ gas gathering, processing and storage facilities, which constitute:

> **SKIMMING/SETTLING PITS** used to provide retention time for settling of solids and separation of residual oil for the purposes of recovering the oil or fluid.
>
> **PRODUCED WATER PITS** used to temporarily store produced water prior to injection for enhanced recovery or disposal, off-site transport, or surface-water discharge.
>
> **PERCOLATION PITS** used to dispose of produced water by percolation and evaporation through the bottom or sides of the pits into surrounding soils.
>
> **EVAPORATION PITS** used to contain produced waters which evaporate into the atmosphere by natural thermal forces.

SPECIAL PURPOSE PITS ~~shall~~ means ~~those~~ pits used in oil and gas operations, including pits related to produced water flowlines or associated with E&P waste ~~at~~ from ~~natural~~ gas gathering, processing and storage facilities, which constitute:

> **BLOWDOWN PITS** used to collect material resulting from, including but not limited to, the emptying or depressurizing of wells, vessels, or flowlines, or E&P waste from ~~gas~~ gathering systems.
>
> **FLARE PITS** used exclusively for flaring gas.
>
> **EMERGENCY PITS** used to contain liquids during an initial phase of emergency response operations related to a spill/release or process upset conditions.

BASIC SEDIMENT/TANK BOTTOM PITS used to temporarily store or treat the extraneous materials in crude oil which may settle to the bottoms of tanks or production vessels and which may contain residual oil.

WORKOVER PITS used to contain liquids during the performance of remedial operations on a producing well in an effort to increase production.

PLUGGING PITS used for containment of fluids encountered during the plugging process.

DRILLING, DEVELOPMENT, PRODUCTION AND ABANDONMENT (300 Series)

303. REQUIREMENTS FOR FORM 2, APPLICATION FOR PERMIT-TO-DRILL, DEEPEN, RE-ENTER, OR RECOMPLETE, AND OPERATE; FORM 2A, OIL AND GAS LOCATION ASSESSMENT.

* * *

303.b. **FORM 2A, OIL AND GAS LOCATION ASSESSMENT.**

* * *

(2) **Exemptions.** A new Form 2A shall not be required for the following:

A. Surface disturbance, other than for purposes described in subsections 303.b.(1) B and C. above, at an existing Oil and Gas Location within the originally disturbed area, even if interim reclamation has been performed;

B. For an Oil and Gas Location covered by an approved Comprehensive Drilling Plan and where such Comprehensive Drilling Plan contains information substantially equivalent to that which would be required for a Form 2A for the proposed Oil and Gas Location and the Comprehensive Drilling Plan has been subject to procedures substantially equivalent to those required for a Form 2A, including but not limited to consultation with Surface Owners, local governments, the Colorado Department of Public Health and Environment or Colorado Parks and Wildlife, where applicable, and public notice and opportunity to comment, and where the operator does not seek a variance from the Comprehensive Drilling Plan or a provision of these rules that is not addressed in the Plan;

~~C. Gathering lines;~~

~~D~~C. Seismic operations;

~~E~~D. Pipelines for oil, gas, or water; or

~~F~~E. Roads.

* * *

317B. PUBLIC WATER SYSTEM PROTECTION

a. **Definitions.** For purposes of this Rule 317B:

(1) **Drilling, Completion, Production and Storage ("DCPS") Operations** ~~shall~~ means operations at (i) well sites for the drilling, completion, recompletion, workover, or stimulation of wells or chemical and production fluid storage, and (ii) any other oil and gas location at which production

facilities are operated. DCPS Operations ~~shall~~ excludes roads, gathering lines~~, pipelines~~, and routine operations and maintenance.

(2) **Existing Oil and Gas Location** ~~shall~~ means an oil and gas location, excluding roads~~, pipelines~~, and gathering lines, permitted or constructed prior to the later of May 1, 2009 for federal land or April 1, 2009 for all other land or the date that the oil and gas location becomes subject to Rule 317B by virtue of its proximity to a Classified Water Supply Segment.

(3) **New Oil and Gas Location** ~~shall~~ means an oil and gas location, excluding roads~~, pipelines,~~ and gathering lines, that is not an existing oil and gas location.

(4) **New Surface Disturbance** ~~shall~~ means surface disturbance that expands the area of surface covered by an oil and gas location beyond that initially disturbed in the construction of the oil and gas location.

(5) **Non-Exempt Linear Feature** ~~shall~~ means a road, or gathering line~~, or pipeline~~ that is not necessary to cross a stream or connect or access a well or a gathering line.

* * *

E&P WASTE MANAGEMENT
(900 Series)

907. MANAGEMENT OF E&P WASTE

* * *

f. **Other E&P Waste.** Other E&P waste such as workover fluids, tank bottoms, pigging wastes from pipelines ~~gathering and flow lines~~, and ~~natural~~ gas gathering, processing, and storage wastes may be treated or disposed of as follows:
   (1) Disposal at a commercial solid waste disposal facility;
   (2) Treatment at a centralized E&P waste management facility permitted in accordance with Rule 908;
   (3) Injection into a Class II injection well permitted in accordance with Rule 325; or
   (4) An alternative method proposed in a waste management plan in accordance with rule 907.a.(3) and approved by the Director.

APPENDIX C

Statement of Basis, Specific Statutory Authority, and Purpose
New Rules and Amendments to Current Rules of the Colorado Oil and Gas Conservation Commission, 2 CCR 404-1

Cause No. IR Docket No. 171200767
Flowline Rulemaking

This statement sets forth the basis, specific statutory authority, and purpose for new rules and amendments ("Flowline Rules") to the Colorado Oil and Gas Conservation Commission ("Commission") Rules of Practice and Procedure, 2 CCR 404-1 ("Rules"). The Commission promulgated the Flowline Rules on December 11 & 12, 2017.

In adopting amendments to the Rules, the Commission relied upon the entire administrative record for this Rulemaking proceeding, which formally began on October 15, 2017, when the Commission submitted its Notice of Rulemaking to the Colorado Secretary of State.

Background

On August 22, 2017, Governor John Hickenlooper announced the state's seven policy initiatives following the state's review of oil and gas operations that included stakeholder meetings. The Commission's swift review was in response to the tragic home explosion in Firestone, Colorado on April 17, 2017, that killed two people and injured a third. The Governor called for the review on May 2, 2017, after the Frederick Firestone Fire Protection District completed its investigation into the home explosion. The investigation identified an abandoned oil and gas flowline connected to an active well as the cause of the explosion. The Rulemaking implements changes to the Commission's flowline and safety rules in accordance with the state's review and Governor's announcement.

Stakeholder and Public Participation.

On September 8, 2017, the Commission issued a Rulemaking scoping document that identified proposed changes to existing flowline rules. The scoping document solicited stakeholders to submit comments regarding the scope of the proposed flowline Rulemaking on or before September 29, 2017. Comments to the scoping document were received in writing, and in person at two stakeholder meetings that were held on September 21 and 25, 2017. More than 50 persons or parties attended the stakeholder meetings and the Commission received written comments during the stakeholder process. Among those in attendance at the stakeholder meetings were citizens, representatives of local governments, and industry groups.

The Commission encouraged public participation in the Rulemaking by allowing the public to comment on the proposed rules in advance of or during the hearing. Persons or organizations desiring to do so could also participate in the Rulemaking as a party. Parties could submit prehearing statements and comments, including alternative

rules or amendments, and respond to the prehearing statements and comments submitted by other parties.

Statutory Authority.

The Commission's authority to promulgate amendments to the Rules is derived from the following sections of the Colorado Oil and Gas Conservation Act ("Act"), §§ 34-60-101 - 130, C.R.S.:

- Section 34-60-105(1), C.R.S. (Commission has the power to make and enforce rules);
- Section 34-60-106(2)(a), C.R.S. (Commission has the authority to regulate the drilling, producing, and plugging of wells and all other operations for the production of oil or gas);
- Section 34-60-106(2)(d), C.R.S. (Commission has authority to regulate "Oil and gas operations so as to prevent and mitigate significant adverse environmental impacts on any air, water, soil, or biological resource resulting from oil and gas operations to the extent necessary to protect public health, safety, and welfare, including protection of the environment and wildlife resources, taking into consideration cost-effectiveness and technical feasibility."); and
- Section 34-60-108, C.R.S. (Commission has authority and procedure to adopt rules).

Identification of New and Amended Rules.

In response to the Governor's directive to review its flowline regulations, consistent with its statutory authority and its legislative mandates, and in accord with the administrative record, the Commission added or amended the following Rules:

- 100-Series Rules: definitions of Breakout Tank, Domestic Tap, Flowline, Wellhead Line, Oil Transfer Line, Production Piping, Production Line, Dump Line, Manifold Piping, Process Piping, Peripheral Piping, Produced Water Flowline, Gathering Line, Grade 1 Gas Leak, Lockout, Maximum Anticipated Operating Pressure, Off-Location Flowline, Pipeline, Riser, Tagout and Tagout Device.
- 300-Series Rules: 312, 313A, 313B, and 328.d.;
- 600-Series Rules: 602 and 605.d.;
- 700-Series Rules: 711;
- 1100-Series Rules; and

- The Commission also adopted conforming or clarifying changes to Rules affected by flowline or related changes. 100-Series (Blowdown Pits, Oil and Gas Facility, Oil and Gas Operations, Plugging and Abandonment, Production Facility, Production Pits, and Special Purpose Pits); 303.b.; 317B; 318A; 328; 325; 330; 604; 706; 802; 907; 1002; 1004; 1203; 1204; and 1205.

Overview of Purpose and Intent.

On September 11, 2017, the Commissioners directed Staff to implement the two announced policy initiatives that require Commission rulemaking. The seven policy initiatives Governor Hickenlooper announced were:

- Strengthening the Commission's Flowline regulations;
- Enhancing the 8-1-1 "one-call" program;
- Creating a nonprofit orphan well fund to plug and abandon orphan wells and provide refunds for in-home methane monitors;
- Prohibiting future domestic gas taps;
- Creating a technical workgroup to improve safety training;
- Requesting peer-review of certain Commission regulations; and
- Exploring an ambient methane leak detection pilot program.

Of these seven policy initiatives, the Commission can address two through rulemaking: strengthening the flowline regulations and improving the uniformity of operator participation in the 8-1-1 "one-call" program. In addition, the Commission can complement the Governor's domestic tap initiative by improving safety oversight of oil and gas operations through the requirement of domestic tap reporting.

First, the Governor's call to update the Commission's flowline regulations stems from the information received by the Commission in response to its May 2, 2017 Notice to Operators (NTO) as well as the Commission's own review of its flowline rules. The NTO required operators to, over the course of two months: identify, locate, and pressure test certain flowlines and submit that information to the Commission; and identify, mark, and lock out/tag out risers for abandoned flowlines and then, consistent with abandonment requirements, cut those risers to three-feet below grade. The Commission received new data on approximately 120,000 flowlines and associated risers, which data was the first step for the Commission to develop a relational database that uses flowline riser location to interrelate oil and gas locations.

While operators were working through the NTO requirements and submitting data about flowlines during the summer of 2017, the Commission continued - with an elevated priority - its review of the flowline regulatory regime. Beginning in 2015, the Commission started reviewing its flowline program based upon recommendations contained within its 2014 Risk Based Inspections report prepared for the Colorado General Assembly. In 2015, the Commission established a Flowline Integrity Group within the Engineering Unit dedicated to enforcing the Commission's flowline regulations. The Commission has also reviewed its own and other state and federal rules regulating pipelines to ascertain areas where Colorado's flowline regulations could be improved. During this review, Staff identified regulatory changes that the Commission adopted in Order lR-103. However, not all of the changes identified in Order 1R-103 were incorporated into the Rules; this Rulemaking corrects that oversight. Thus, the changes adopted by the Commission in the Flowline Rules reflect the research and findings made since 2015, as well as input from the stakeholders received before and during the Rulemaking.

Second, the Commission intends to improve the uniformity of operator participation in the Utility Notification Center of Colorado (UNCC), Colorado's "one-call" or "8-1-1" program. This reflects an improved collaboration between the Commission, the UNCC, and operators. In the wake of the Firestone tragedy, many people asked that the Commission create a database that maps all flowlines in Colorado. During the course of stakeholder meetings, the opportunity to partner with UNCC became the Commission's preferred option for housing increased, more specific information about flowlines. Requiring operators to become Tier One members and to supply UNCC with digital information about an operator's belowground operations (i.e., vertical portions of wells and flowlines) provides an elegant, efficient, and effective option for a state-wide organization to host information about belowground oil and gas operations. UNCC has an existing database that citizens and businesses rely on every day when preparing to dig. The team at UNCC is uniquely prepared with the expertise, staff, and existing database to incorporate information from operators that may change week-to-week and provide the updated information to the people who most need it - property owners preparing to dig. Relying on UNCC to host this information also provides a centralized information source for all Colorado citizens, local governments, and businesses of all underground facilities-not just oil and gas exploration and production facilities. To enhance this collaboration, the Commission imposed increased requirements for operators' participation in the UNCC program.

In addition, the Commission also amended specific regulatory requirements in an effort to prevent fluid releases from pipelines and empower the Commission to respond in the event of an exploration and production fluid release. First, the Commission clarified and enhanced provisions related to its oversight of lines transporting produced water, and gas gathering lines to ensure the Commission can adequately respond to a release of exploration and production waste. Second, the Commission included an additional method to gauge tanks that provides accurate and reliable data, and does not require opening hatches, thus preventing the release of

gases. Third, the Commission imposed specific requirements for check valves. Check valves operate to allow fluid flow in only one direction and serve an important purpose where reversing flow could cause damage.

The changes adopted by the Commission also require reviewing the entire set of Rules to make conforming changes, which are reflected in the amended rules.

Amendments and Additions to Rules.

100 Series Rules: Amended Definitions.

The definitions of "flowline" and "gathering line" were amended from a technical, narrative description to a description that reflects the different spheres of authority held by the Commission and the Colorado Public Utilities Commission (PUC) or the Pipeline and Hazardous Materials Safety Administration (PHMSA), a federal agency within the U.S. Department of Transportation. An additional source of guidance that assists in determining jurisdiction between the Commission and PUC or PHMSA is API RP 80, Guidelines for the Definition of Onshore Gas Gathering Lines, 1st Edition, April 1, 2000. Respecting the extent of PHMSA regulation, the Commission created a definition of crude oil transfer line to implement construction, operation, and other standards for these lines to ensure appropriate regulatory oversight. The Commission also added a definition of "pipeline" to create a term that encompasses both flowlines, crude oil transfer lines, and gathering lines as some provisions in the Rules need to apply to both categories of lines. The Commission also added descriptions of types of flowlines to assist in understanding the different installation or integrity management needs of these various lines. Focused, technical stakeholder comments from the Colorado Petroleum Council and Colorado Oil and Gas Association were integral to the Commission's development of these definitions. The Commission's amendments distinguish between flowlines that exist on a single oil and gas location and those flowlines that leave one location to transport fluids to a different location, what are defined as "Off-Location Flowlines".

Notably, the Commission added a definition of a Grade 1 Gas Leak. This definition is included to assist in the reporting of gas leaks to the Commission. Additionally, the Commission added definitions to clarify terminology, such as riser, dump lines, and maximum anticipated operating pressure. These definitions are incorporated to assist the public understanding of oil and gas operations as well as operator compliance with the amended Rules.

1100 Series Rules: Revised Flowline Regulations.

The 1100 Series were revised and reorganized to clearly delineate the life cycle of a flowline, from its registration with the Commission, through construction and installation, to integrity management and finally abandonment. In revising the 1100 Series, the following section changes were made:

Rule 1101. Registration Requirements
Rule 1102. Installation, Operations, Maintenance, Repair and Reclamation
Rule 1103. Flowline Integrity Management
Rule 1104. Abandonment

The details contained within each of these sections is discussed below.

1. Rule 1101.

The changes to Rule 1101 focused on gaining increased information about specific types of lines. The Commission imposed a registration requirement for flowlines that convey fluids away from an oil and gas location and to a different site. This regulation ensures the Commission continues to continually collect updated and new data gathered from operators responding to the NTO. Operators must now submit information about the off-location Flowlines, including GPS endpoints of risers, materials used to construct, related locations (by COGCC Facility Number), and fluid conveyed. This information will build into the relational database the Commission is creating to better inform staff, the public, and operators about the movement of exploration and production fluids.

The Commission also required the registration of all known domestic taps. In the furtherance of public safety associated with oil and gas operations, operators are required to report to the Director the GPS location of the point a domestic tap connects to a flowline and the address of the location of where the tap delivers gas. The Commission also imposed installation requirements for future domestic taps to ensure improved protection of public health, safety, and welfare and the environment. La Plata County raised this concern during the stakeholder process. The safety and integrity of domestic taps are not regulated by the Commission. Rather, PHMSA requires the testing of all pressure regulating or similar devices on domestic taps every 3 calendar years. *See* 49 CFR § 192.740(a). This addresses some concerns raised to the Commission including Boulder County's stakeholder comments.

Third the Commission requires the registration before construction of a crude oil transfer line. This is to provide the Commission with initial information about these lines, which are subject to other requirements in other sections. A similar registration provision for gas gathering lines is included in 313B.

2. Rule 1102.

Rule 1102 establishes the standards operators must follow and employ when designing and installing flowlines as well as crude oil transfer lines, as appropriate. As the Commission found during its review, having more specific installation and construction standards - that are tested and established by third-parties - would

create a more uniform and improved regulatory regime as well as provide greater certainty for the regulated industry. The Commission included in the Flowline Rules industry standards that operators must follow when designing and installing their lines. Industry stakeholder comments supported using improved standards established by third parties.

Operators are also required to conduct repairs and maintenance on flowlines and crude oil transfer lines so as to prevent failures, leaks and corrosion of lines and injury to persons and property. In furtherance of the Commission's expectation that flowlines and crude oil transfer lines will be properly maintained so as to ensure safety to persons and property, the Commission required that all flowlines not in active use have all valves locked or tagged out. This requirement is integral to protecting public safety.

Operators are also now required to become Tier One members of the UNCC and to participate in Colorado's One Call notification system. Rule 1102 requires operators to include their UNCC member code on their Operator Registration, Form 1, Form 10 or Form 12 that are filed with the Commission. With the Commission registration, operators are granting the Director permission to access information the UNCC has on file for that operator, including the location of underground oil and gas facilities. Operators are also required to submit and update information with UNCC to ensure that the UNCC database is accurate.

Rule 1102 also requires operators to maintain accurate records relating to maintenance, repairs, testing and other related data so operators have a living history of management for each flowline or crude oil transfer line. In accordance with Rule 205, the Director has the authority to inspect these records. Maintaining these records is imperative to ensuring that operators are maintaining compliance with Section 1100. Boulder County's stakeholder comments encouraged and recognized the importance of this requirement.

3. Rule 1103.

The purpose of Rule 1103 was to establish a comprehensive Integrity Management program that requires testing of all flowlines or crude oil transfer lines both prior to being put into service and after. All new flowlines or crude oil transfer lines, including flowlines that have been repaired, are required to be tested to their maximum anticipated operating pressure in accordance with the appropriate industry standard, e.g., API RP 1110, Recommended Practice for the Pressure Testing of Steel Pipelines for the Transportation of Gas, Petroleum Gas, Hazardous Liquids, Highly Volatile Liquids or Carbon Dioxide (6th Ed., February 1, 2013). Consistent with the NTO, flowlines that must be tested to their maximum anticipated operating pressure include: Wellhead Lines, Oil Transfer Lines, all Production Piping except Dump Lines, Peripheral Piping and Produced Water

Flowlines.

Once in service, flowlines and crude oil transfer lines are required to be tested for integrity on a periodic basis. Rule 1103 allows operators to select from several testing options, such as continuous pressure monitoring and optical gas imaging to satisfy the testing requirements. These options include industry accepted technologies, some of which are used to comply with other regulatory programs such as the Colorado Department of Public Health and Environment, Air Quality Control Commission, Regulation No. 3 (5 C.C.R. 1001-5), and Regulation No. 7 Section XVII.B.1 (a-c) and Section XII.

Because an operator likely does not have control over the surface lands, Rule 1103 provides for increased oversight of off-location flowlines and crude oil transfer lines because they move produced fluids between two or more different oil and gas locations. Off-location flowlines must demonstrate integrity through annual pressure test, continuous pressure monitoring or annual visual inspection if it is an above ground off-location flowline.

The Commission recognizes that dump lines may not be suitable for a pressure test. These lines may not be designed or intended for internal pressure such as vacuum systems, or they may contain parts that cannot be isolated. Additionally, it may be impractical to conduct pressure testing on lines that cannot be temporarily closed to isolate the test section. Line systems that are not suitable for applied pressure testing, are nonetheless required to maintain mechanical integrity. For belowground dump lines, operators must conduct a static head test every three years. For above ground dump lines, operators must conduct an annual visual inspection. Inspections will include visual examination of joint appearance, mechanical checks of bolts and joint tightness, and such other relevant examinations and methods to verify integrity.

4. Rule 1104.

In the Flowline Rulemaking, the Commission moved the abandonment provisions of Rule 1103 to a new Rule 1104. The abandonment provisions were also revised by the Commission to clarify and specify that all flowlines and crude oil transfer lines are considered active, and thus subject to Rules 1102 and 1103, unless the line has been abandoned. This means that even if a flowline or crude oil transfer line is not in active use, operators must still test the line, in accordance with Rule 1103, for integrity. Rule 1104 specifies the steps that must be taken to fully abandon a line, which now include lockout and tagout of all risers associated with the line, if it is not being used, but not yet abandoned.

Additionally, the Commission required in Rule 1104, that upon abandonment of a flowline or crude oil transfer line, operators must notify the Director by filing a Form 44. The Notice of Flowline Abandonment on Form 44 will be provided to the local

government designee and the UNCC.

Other Rule Additions and Amendments

The Commission made the following additions and amendments to the below-listed rules. These changes were primarily designed to clarify specific details of these rules or to conform them to the amendments to the 1100 Series Rules.

100 Series Rules: Definitions

The 100 Series definitions were amended to make conforming changes to defined terms.

200 Series Rules: Revised Comprehensive Drilling Plans

Rule 216 was amended to make conforming changes to defined terms.

300 Series Rules: Revised Registration and Fluid Management Requirements

Rule 313B was added by the Commission to require the registration of all produced water flowline transfer systems. In registering a produced water flowline transfer system, the operator must provide a facility layout drawing and topographic map. The registration requirements for produced water flowline transfer systems also apply to new gas processing plants and new underground gas storage facilities. In furtherance of public health, safety and welfare the Commission believed it was imperative to have the registration information called for in Rule 313B for these facilities. Additionally, in furtherance of public health, safety and welfare the Commission believed it was imperative to have the registration information for gas gathering lines.

As amended, Rule 328 incorporates an alternate method of tank gauging that requires the volume of oil produced to be measured before removal. This requirement is more protective of public health, safety, and the environment because it does not require opening a hatch, and thus prevents gas emissions. In addition, the Commission has historically approved variances allowing for operators to use this methodology, thus demonstrating its efficacy. This amendment allows operators to use an equally effective gauging method that is safer without seeking a variance.

The Commission made conforming changes to Rules 303, 312, 313 and 317B.

600 Series: Required Accident Reporting, Annual Valve Checks, and Installation of Check Valves.

The Commission amended Rule 602's accident reporting requirements to ensure accidents are appropriately reported to the Commission, and clarify what information the Commission may seek from an operator about the accident. Stakeholders indicated concern and interest in improving this regulation.

Rule 605.d. has been revised to require annual valve checks and to require the installation of valves on flowlines at certain locations, including certain water crossing areas. Additionally, Rule 605.d., now requires check valves on flowlines when two or more wells produce through that flowline. This requirement is more protective of public health, safety, and the environment because it allows for the shutting down of a flowline in the event of a failure, thus significantly decreasing the volume of produced fluids that may have otherwise escaped from the flowline.

700 Series: Revised Bonding for E&P Waste from Water or Gas Gathering.

Rule 711 was amended to make conforming changes to defined terms. Additionally, an operator of a produced water flowline transfer systems must provide a financial assurance. The Commission determined that it was necessary to require a bond for produced water flowline transfer systems due to the potential health and safety hazards associated with a failure of a produced water flowline transfer system and release of E&P Waste.

900 Series Rules: Addition of Grade 1 Gas Leak Reporting.

Rule 906 was amended to include the mandatory reporting of any Grade 1 Gas Leak.

Rule 907 was amended to make conforming changes to defined terms.

Effective Date.

The Commission adopted the proposed amendments in accordance with the Governor's announced initiatives, which added to and amended definitions in the Rule 100 Series, revised the 1100 Series, and amended 303, 312, 313, 317B, 328, 602, 605, 711, 906, and 907, at its hearing on December 11-12, 2017, in Cause No. IR, Docket No. 171200767. These amendments will become effective, per Section 24-4-103, C.R.S., twenty days after publication in the Colorado Register.

APPENDIX D

Statement of Basis, Specific Statutory Authority, and Purpose
New Rules and Amendments to Current Rules of the Colorado Oil and Gas Conservation Commission, 2 CCR 404-1

Cause No. IR Docket No. 171200767
Flowline Rulemaking

This statement sets forth the basis, specific statutory authority, and purpose for new rules and amendments ("Flowline Rules") to the Colorado Oil and Gas Conservation Commission ("Commission") Rules of Practice and Procedure, 2 CCR 404-1 ("Rules"). The Commission promulgated the Flowline Rules on December 11 & 12, 2017.

In adopting amendments to the Rules, the Commission relied upon the entire administrative record for this Rulemaking proceeding, which formally began on October 15, 2017, when the Commission submitted its Notice of Rulemaking to the Colorado Secretary of State.

Background

On August 22, 2017, Governor John Hickenlooper announced the state's seven policy initiatives following the state's~~a~~ review of oil and gas operations that included stakeholder meetings. The Commission's swift review was in response to the tragic home explosion in Firestone, Colorado on April 17, 2017, that killed two people and injured a third. The Governor called for the review on May 2, 2017, after the Frederick Firestone Fire Protection District completed its investigation into the home explosion. The investigation identified an abandoned oil and gas flowline connected to an active well as the cause of the explosion. The Rulemaking implements changes to the Commission's flowline and safety rules in accordance with the state's review and Governor's announcement.

Stakeholder and Public Participation.

On September 8, 2017, the Commission issued a Rulemaking scoping document that identified proposed changes to existing flowline rules. The scoping document solicited stakeholders to submit comments regarding the scope of the proposed flowline Rulemaking on or before September 29, 2017. Comments to the scoping document were received in writing, and in person at two stakeholder meetings that were held on September 21 and 25, 2017. More than 50 persons or parties attended the stakeholder meetings and the Commission received written comments during the stakeholder process. Among those in attendance at the stakeholder meetings were citizens, representatives of local governments, and industry groups.

The Commission encouraged public participation in the Rulemaking by allowing the public to comment on the proposed rules in advance of or during the hearing. Persons or organizations desiring to do so could also participate in the Rulemaking as a party. Parties could submit prehearing statements and comments, including alternative

rules or amendments, and respond to the prehearing statements and comments submitted by other parties.

Statutory Authority.

The Commission's authority to promulgate amendments to the Rules is derived from the following sections of the Colorado Oil and Gas Conservation Act ("Act"), §§ 34-60-101 - 130, C.R.S.:

- Section 34-60-105(1), C.R.S. (Commission has the power to make and enforce rules);
- Section 34-60-10~~5~~6(2)(a), C.R.S. (Commission has the authority to regulate the drilling, producing, and plugging of wells and all other operations for the production of oil or gas);
- Section 34-60-106(2)(d), C.R.S. (Commission has authority to regulate "Oil and gas operations so as to prevent and mitigate significant adverse environmental impacts on any air, water, soil, or biological resource resulting from oil and gas operations to the extent necessary to protect public health, safety, and welfare, including protection of the environment and wildlife resources, taking into consideration cost-effectiveness and technical feasibility."); and
- Section 34-60-108, C.R.S. (Commission has authority and procedure to adopt rules).

Identification of New and Amended Rules.

In response to the Governor's directive to review its flowline regulations, consistent with its statutory authority and its legislative mandates, and in accord with the administrative record, the Commission added or amended the following Rules:

- 100-Series Rules: definitions of Breakout Tank, Domestic Tap, Flowline, Wellhead Line, Oil Transfer Line, Production Piping, Production Line, Dump Line, Manifold Piping, Process Piping, Peripheral Piping, Produced Water Flowline, Gathering Line, Grade 1 Gas Leak, Lockout, Maximum Anticipated Operating Pressure, Off-Location Flowline, Pipeline, Riser, Tagout and Tagout Device.
- 300-Series Rules: 312, 313A, 313B, and 328.d.;
- 600-Series Rules: 602 and 605.d.;
- 700-Series Rules: 711;
- 1100-Series Rules; and

- The Commission also adopted conforming or clarifying changes to Rules affected by flowline or related changes. 100-Series (Blowdown Pits, Oil and Gas Facility, Oil and Gas Operations, Plugging and Abandonment, Production Facility, Production Pits, and Special Purpose Pits); 303.b.; 317B; 318A; 328; 325; 330; ~~602;~~ 604; 706; 802; 907; 1002; 1004; 1203; 1204; and 1205.

Overview of Purpose and Intent.

On September 11, 2017, the Commissioners directed Staff to implement the two announced policy initiatives that require Commission rulemaking. The seven policy initiatives Governor Hickenlooper announced were:

- Strengthening the Commission's Flowline regulations;
- Enhancing the 8-1-1 "one-call" program;
- Creating a nonprofit orphan well fund to plug and abandon orphan wells and provide refunds for in-home methane monitors;
- Prohibiting future domestic gas taps;
- Creating a technical workgroup to improve safety training;
- Requesting peer-review of certain Commission regulations; and
- Exploring an ambient methane leak detection pilot program.

Of these seven policy initiatives, the Commission can address two through rulemaking: strengthening the flowline regulations and improving the uniformity of operator participation in the 8-1-1 "one-call" program. In addition, the Commission can complement the Governor's domestic tap initiative by improving safety oversight of oil and gas operations through the requirement of domestic tap reporting.

First, the Governor's call to update the Commission's flowline regulations stems from the information received by the Commission in response to its May 2, 2017 Notice to Operators (NTO) as well as the Commission's own review of its flowline rules. The NTO required operators to, over the course of two months: identify, locate, and pressure test certain flowlines and submit that information to the Commission; and identify, mark, and lock out/tag out risers for abandoned flowlines and then, consistent with abandonment requirements, cut those risers to three-feet below grade. The Commission received new data on approximately 120,000 flowlines and associated risers, which data was the first step for the Commission to develop a relational database that uses flowline riser location to interrelate oil and gas locations.

While operators were working through the NTO requirements and submitting data about flowlines during the summer of 2017, the Commission continued - with an elevated priority - its review of the flowline regulatory regime. Beginning in 2015, the Commission started reviewing its flowline program based upon recommendations contained within its 2014 Risk Based Inspections report prepared for the Colorado General Assembly. In 2015, the Commission established a Flowline Integrity Group within the Engineering Unit dedicated to enforcing the Commission's flowline regulations. The Commission has also reviewed its own and other state and federal rules regulating pipelines to ascertain areas where Colorado's flowline regulations could be improved. During this review, Staff identified regulatory changes that the Commission adopted in Order 1R-103. However, not all of the changes identified in Order 1R-103 were incorporated into the Rules; this Rulemaking corrects that oversight. Thus, the changes adopted by the Commission in the Flowline Rules reflect the research and findings made since 2015, as well as input from the stakeholders received before and during the Rulemaking.

Second, the Commission intends to improve the uniformity of operator participation in the Utility Notification Center of Colorado (UNCC), Colorado's "one-call" or "8-1-1" program. This reflects an improved collaboration between the Commission, the UNCC, and operators. In the wake of the Firestone tragedy, many people asked that the Commission create a database that maps all flowlines in Colorado. During the course of stakeholder meetings, the opportunity to partner with UNCC became the Commission's preferred option for housing increased, more specific information about flowlines. Requiring operators to become Tier One members and to supply UNCC with digital information about an operator's belowground operations (i.e., vertical portions of wells and flowlines) provides an elegant, efficient, and effective option for a state-wide organization to host information about belowground oil and gas operations. UNCC has an existing database that citizens and businesses rely on every day when preparing to dig. The team at UNCC is uniquely prepared with the expertise, staff, and existing database to incorporate information from operators that may change week-to-week and provide the updated information to the people who most need it - property owners preparing to dig. Relying on UNCC to host this information also provides a centralized information source for all Colorado citizens, local governments, and businesses of all underground facilities-not just oil and gas exploration and production facilities. To enhance this collaboration, the Commission imposed increased requirements for operators' participation in the UNCC program.

In addition, the Commission also amended specific regulatory requirements in an effort to prevent fluid releases from pipelines and empower the Commission to respond in the event of an exploration and production fluid release. First, the Commission clarified and enhanced provisions related to its oversight of lines transporting produced water, and gas gathering lines to ensure the Commission can adequately respond to a release of exploration and production waste. Second, the Commission included an additional method to gauge tanks that provides accurate and reliable data, and does not require opening hatches, thus preventing the release of

gases. Third, the Commission imposed specific requirements for check valves. Check valves operate to allow fluid flow in only one direction and serve an important purpose where reversing flow could cause damage.

The changes adopted by the Commission also require reviewing the entire set of Rules to make conforming changes, which are reflected in the amended rules.

Amendments and Additions to Rules.

100 Series Rules: Amended Definitions.

The definitions of "flowline" and "gathering line" were amended from a technical, narrative description to a description that reflects the different spheres of authority held by the Commission and the Colorado Public Utilities Commission (PUC) or the Pipeline and Hazardous Materials Safety Administration (PHMSA), a federal agency within the U.S. Department of Transportation. An additional source of guidance that assists in determining jurisdiction between the Commission and PUC or PHMSA is API RP 80, Guidelines for the Definition of Onshore Gas Gathering Lines, 1st Edition, April 1, 2000. Respecting the extent of PHMSA regulation, the Commission created a definition of crude oil transfer line to implement construction, operation, and other standards for these lines to ensure appropriate regulatory oversight. The Commission also added a definition of "pipeline" to create a term that encompasses both flowlines, crude oil transfer lines, and gathering lines as some provisions in the Rules need to apply to both categories of lines. The Commission also added descriptions of types of flowlines to assist in understanding the different installation or integrity management needs of these various lines. Focused, technical stakeholder comments from the Colorado Petroleum Council and Colorado Oil and Gas Association were integral to the Commission's development of these definitions. The Commission's amendments distinguish between flowlines that exist on a single oil and gas location and those flowlines that leave one location to transport fluids to a different location, what are defined as "Off-Location Flowlines".

Notably, the Commission added a definition of a Grade 1 Gas Leak. This definition is included to assist in the reporting of gas leaks to the Commission. Additionally, the Commission added definitions to clarify terminology, such as riser, dump lines, and maximum anticipated operating pressure. These definitions are incorporated to assist the public understanding of oil and gas operations as well as operator compliance with the amended Rules.

1100 Series Rules: Revised Flowline Regulations.

The 1100 Series were revised and reorganized to clearly delineate the life cycle of a flowline, from its registration with the Commission, through construction and installation, to integrity management and finally abandonment. In revising the 1100 Series, the following section changes were made:

Rule 1101. Registration Requirements
Rule 1102. Installation, Operations, Maintenance, Repair and Reclamation
Rule 1103. Flowline Integrity Management
Rule 1104. Abandonment

The details contained within each of these sections is discussed below.

1. Rule 1101.

The changes to Rule 1101 focused on gaining increased information about specific types of lines. The Commission imposed a registration requirement for flowlines that convey fluids away from an oil and gas location and to a different site. This regulation ensures the Commission continues to continually collect updated and new data gathered from operators responding to the NTO. Operators must now submit information about the off-location Flowlines, including GPS endpoints of risers, materials used to construct, related locations (by COGCC Facility Number), and fluid conveyed. This information will build into the relational database the Commission is creating to better inform staff, the public, and operators about the movement of exploration and production fluids.

The Commission also required the registration of all known domestic taps. In the furtherance of public safety associated with oil and gas operations, operators are required to report to the Director the GPS location of the point a domestic tap connects to a flowline and the address of the location of where the tap delivers gas. The Commission also imposed installation requirements for future domestic taps to ensure improved protection of public health, safety, and welfare and the environment. La Plata County raised this concern during the stakeholder process. The safety and integrity of domestic taps are not regulated by the Commission. Rather, PHMSA requires the testing of all pressure regulating or similar devices on domestic taps every 3 calendar years. *See* 49 CFR § 192.740(a). This addresses some concerns raised to the Commission including Boulder County's stakeholder comments.

Third the Commission requires the registration before construction of a~~n~~ crude oil ~~gathering~~ transfer line. This is to provide the Commission with ~~an understanding of how fluids are moving and in the event of a release provide proper agency response~~initial information about these lines, which are subject to other requirements in other sections. A similar registration provision for gas gathering lines is included in 313B.

2. Rule 1102.

Rule 1102 establishes the standards operators must follow and employ when designing and installing flowlines as well as crude oil transfer lines, as appropriate.

As the Commission found during its review, having more specific installation and construction standards - that are tested and established by third-parties - would create a more uniform and improved regulatory regime as well as provide greater certainty for the regulated industry. The Commission included in the Flowline Rules industry standards that operators must follow when designing and installing their lines. Industry stakeholder comments supported using improved standards established by third parties.

Operators are also required to conduct repairs and maintenance on flowlines and crude oil transfer lines so as to prevent failures, leaks and corrosion of lines and injury to persons and property. In furtherance of the Commission's expectation that flowlines and crude oil transfer lines will be properly maintained so as to ensure safety to persons and property, the Commission required that all flowlines not in active use have all valves locked or tagged out. This requirement is integral to protecting public safety.

Operators are also now required to become Tier One members of the UNCC and to participate in Colorado's One Call notification system. Rule 1102 requires operators to include their UNCC member code on their Operator Registration, Form 1, Form 10 or Form 12 that are filed with the Commission. With the Commission registration, operators are granting the Director permission to access information the UNCC has on file for that operator, including the location of underground oil and gas facilities. Operators are also required to submit and update information with UNCC to ensure that the UNCC database is accurate.

Rule 1102 also requires operators to maintain accurate records relating to ~~flowline~~ maintenance, repairs, testing and other related data so operators have a living history of management for each flowline~~'s management~~ or crude oil transfer line. In accordance with Rule 205, the Director has the authority to inspect these records. Maintaining these records is imperative to ensuring that operators are maintaining compliance with Section 1100. Boulder County's stakeholder comments encouraged and recognized the importance of this requirement.

3. Rule 1103.

The purpose of Rule 1103 was to establish a comprehensive ~~Flowline~~ Integrity Management program that requires testing of all flowlines or crude oil transfer lines both prior to being put into service and after. All new flowlines or crude oil transfer lines, including flowlines that have been repaired, are required to be tested to their maximum anticipated operating pressure in accordance with the appropriate industry standard, e.g., API RP 1110, Recommended Practice for the Pressure Testing of Steel Pipelines for the Transportation of Gas, Petroleum Gas, Hazardous Liquids, Highly Volatile Liquids or Carbon Dioxide (6th Ed., February 1, 2013). Consistent with the NTO, flowlines that must be tested to their maximum

anticipated operating pressure include: Wellhead Lines, Oil Transfer Lines, all Production Piping except Dump Lines, Peripheral Piping and Produced Water Flowlines.

Once in service, ~~Flowlines~~ flowlines and crude oil transfer lines are required to be tested for integrity on a periodic basis. Rule 1103 allows operators to select from several testing options, such as continuous pressure monitoring and optical gas imaging to satisfy the testing requirements. These options include industry accepted technologies, some of which are used to comply with other regulatory programs such as the Colorado Department of Public Health and Environment, Air Quality Control Commission, Regulation No. 3 (5 C.C.R. 1001-5), and Regulation No. 7 Section XVII.B.1 (a-c) and Section XII.

Because an operator likely does not have control over the surface lands, Rule 1103 provides for increased oversight of off-location flowlines and crude oil transfer lines ~~that~~ because they move produced fluids between two or more different oil and gas locations. Off-location flowlines must demonstrate integrity through annual pressure test, continuous pressure monitoring or annual visual inspection if it is an above ground off-location flowline.

The Commission recognizes that dump lines may not be suitable for a pressure test. These lines may not be designed or intended for internal pressure such as vacuum systems, or they may contain parts that cannot be isolated. Additionally, it may be impractical to conduct pressure testing on lines that cannot be temporarily closed to isolate the test section. Line systems that are not suitable for applied pressure testing, are nonetheless required to maintain mechanical integrity. For belowground dump lines, operators must conduct a static head test every three years. For above ground dump lines, operators must conduct an annual visual inspection. Inspections will include visual examination of joint appearance, mechanical checks of bolts and joint tightness, and such other relevant examinations and methods to verify integrity.

4. Rule 1104.

In the Flowline Rulemaking, the Commission moved the abandonment provisions of Rule 1103 to a new Rule 1104. The abandonment provisions were also revised by the Commission to clarify and specify that all flowlines and crude oil transfer lines are considered active, and thus subject to Rules 1102 and 1103, unless the line has been abandoned. This means that even if a flowline or crude oil transfer line is not in active use, operators must still test the ~~flow~~line, in accordance with Rule 1103, for integrity. Rule 1104 specifies the steps that must be taken to fully abandon a ~~flow~~line, which now include lockout and tagout of all risers associated with the ~~flow~~line, if ~~the flowline~~it is not being used, but not yet abandoned.

Additionally, the Commission required in Rule 1104, that upon abandonment of a

flowline or crude oil transfer line, operators must notify the Director by filing a Form 44. The Notice of Flowline Abandonment on Form 44 will be provided to the local government designee and the UNCC.

Other Rule Additions and Amendments

The Commission made the following additions and amendments to the below-listed rules. These changes were primarily designed to clarify specific details of these rules or to conform them to the amendments to the 1100 Series Rules.

100 Series Rules: Definitions

The 100 Series definitions were amended to make conforming changes to defined terms.

200 Series Rules: Revised Comprehensive Drilling Plans

Rule 216 was amended to make conforming changes to defined terms.

300 Series Rules: Revised Registration and Fluid Management Requirements

Rule 313B was added by the Commission to require the registration of all produced water flowline transfer systems. In registering a produced water flowline transfer system, the operator must provide a facility layout drawing and topographic map. The registration requirements for produced water flowline transfer systems also apply to new gas processing plants and new underground gas storage facilities. In furtherance of public health, safety and welfare the Commission believed it was imperative to have the registration information called for in Rule 313B for these facilities. Additionally, in furtherance of public health, safety and welfare the Commission believed it was imperative to have the registration information for gas gathering lines.

As amended, Rule 328 incorporates an alternate method of tank gauging that requires the volume of oil produced to be measured before removal. This requirement is more protective of public health, safety, and the environment because it does not require opening a hatch, and thus prevents gas emissions. In addition, the Commission has historically approved variances allowing for operators to use this methodology, thus demonstrating its efficacy. This amendment allows operators to use an equally effective gauging method that is safer without seeking a variance.

The Commission made conforming changes to Rules 303, 312, 313 and 317B.

600 Series: Required Accident Reporting, Annual Valve Checks, and

Installation of Check Valves.

The Commission amended Rule 602's accident reporting requirements to ensure accidents are appropriately reported to the Commission, and clarify what information the Commission may seek from an operator about the accident. Stakeholders indicated concern and interest in improving this regulation.

Rule 605.d. has been revised to require annual valve checks and to require the installation of valves on flowlines at certain locations, including certain water crossing areas. Additionally, Rule 605.d., now requires check valves on flowlines when two or more wells produce through that flowline. This requirement is more protective of public health, safety, and the environment because it allows for the shutting down of a flowline in the event of a failure, thus significantly decreasing the volume of produced fluids that may have otherwise escaped from the flowline.

700 Series: Revised Bonding for E&P Waste from Water or Gas Gathering.

Rule 711 was amended to make conforming changes to defined terms. Additionally, an operator of a produced water flowline transfer systems must provide a financial assurance. The Commission determined that it was necessary to require a bond for produced water flowline transfer systems due to the potential health and safety hazards associated with a failure of a produced water flowline transfer system and release of E&P Waste.

900 Series Rules: Addition of Grade 1 Gas Leak Reporting.

Rule 906 was amended to include the mandatory reporting of any Grade 1 Gas Leak.

Rule 907 was amended to make conforming changes to defined terms.

Effective Date.

The Commission adopted the proposed amendments in accordance with the Governor's announced initiatives, which added to and amended definitions in the Rule 100 Series, revised the 1100 Series, and amended 303, 312, 313, 317B, 328, 602, 605, 711, 906, and 907 ~~[INSERT]~~, at its hearing on December 11-12, 2017, in Cause No. IR, Docket No. 171200767. These amendments will become effective, per Section 24-4-103, C.R.S., twenty days after publication in the Colorado Register.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

RULE-MAKING NOTICE
PARKS AND WILDLIFE COMMISSION MEETING
JANUARY 10-11, 2018

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **January 10-11, 2018. The Parks and Wildlife Commission meeting will be held at the offices of Colorado Parks and Wildlife, Hunter Education Building, 6060 Broadway, Denver, CO 80216. The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

FINAL REGULATORY ADOPTION - **January 10-11, 2018,** beginning **at 8:30 a.m.***

EFFECTIVE DATE OF REGULATIONS approved during the January 2018 Parks and Wildlife Commission meeting: March 2, 2018, unless otherwise noted.

FINAL REGULATIONS

PARK REGULATIONS

Chapter P-8 - "Aquatic Nuisance Species" 2 CCR 405-8

Open for consideration of changes to regulations including, but not limited to, the following:

- Adding "foldable plastic boats without an engine attached" to the list of exempted vessels that can be hand launched without a boat inspection within the definition of "Vessels or other floating device."

WILDLIFE REGULATIONS

Chapter W-0 - "General Provisions" 2 CCR 406-0 and those related provisions of Chapter W-2 ("Big Game" 2 CCR 406-2) necessary to accommodate changes to or ensure consistency with Chapter W-0

Open for annual review of the entire chapter including, but not limited to, the following:

- Implementing an antler and horn collection closure on public lands west of I-25 from January 1 through April 30 annually.
- Creating an antler and horn collection license required for collection from May 1- May 31st only, on an annual basis.

**Please reference the Commission agenda, to be posted on or after January 3, 2018, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at http://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx.*

- Removing existing antler collection closures for the Gunnison Basin and Eagle/Roaring Fork valleys in Chapter W-2.

Chapter W-2 - "Big Game" 2 CCR 406-2 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-3 ("Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

Open for consideration of regulations including, but not limited to, the following:

- Annual changes to season dates, limited license areas, quotas and manner of take provisions for bighorn sheep and mountain goat.
- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, mountain lion, and bear.
- Annual changes to limited license application and drawing processes.
- Updating muzzleloader caliber requirements when hunting with round ball ammunition.
- Allowing Youth Outreach Licenses to be issued on both public and private lands in the state.
- Removing the preference point hunt code restrictions for Director's Dream Hunt licenses.
- Implementing pay-after-you draw provisions for big game limited licenses and allowing nonresidents to apply by phone or online for sheep, goat, and moose licenses.
- Creating a second ram rifle season in combined sheep units S40 and S58 as well as in unit S1.
- Implementing a new archery bighorn ram season in combined units S26 and S70.
- Creating a split season for ram rifle hunting in unit S61.
- Closing the rifle goat season in unit G18.
- Creating a private land only (PLO) bear hunt code for Game Management Units (GMU) 20, 29, and 38.
- Creating a PLO bear hunt code for GMUs 39, 391, 46, 461, 50, 51, 500, 501, and 104.
- Changing all bear hunt codes in Data Analysis Unit (DAU) B-4 from List A to List B.
- Making hunt codes DF038P5R and DF038L1R List C licenses.
- Amending the boundaries for PLO buck and doe hunt codes in GMU 38, with a new western boundary of Hwy 119.
- Making PLO doe licenses in GMUs 391 and 461 List C.
- Removing antlerless deer hunt codes in DAUs D-22 and D-25.
- Adding a 4th season for buck hunting in DAU D-34.
- Changing the season dates for the Air Force Academy deer hunts to October 1-December 31st.
- Extending the season dates for antlerless PLO licenses in DAUs E-8 and E-13 to run from September 1-January 31st.
- Changing the season dates for the late antlerless elk licenses in GMUs 50, 500, and 501 to open the Saturday before Christmas and run for nine consecutive days.
- Converting regular antlerless elk licenses in GMU 54 from List B to List A.
- Removing PLO hunt code EF065P5R.
- Removing GMU 521 from hunt code EF053P5R.
- Changing all either-sex muzzleloader and first rifle elk licenses in GMUs 71, 72, 73, 74, 75, 77, 78, 711, 741, 751, and 771 to antlered or antlerless licenses.
- Adding a PLO pronghorn season in DAU A-37.

- Adding in GMUs 49 and 500 to the pronghorn muzzleloader and rifle seasons in DAU A-30.
- Creating a regular rifle season for pronghorn hunting in GMUs 15, 26, and 231.
- Reinstating doe pronghorn hunting in GMUs 101 and 102.
- Reorganizing the GMU groupings for the pronghorn muzzleloader season in DAU A-9 by grouping GMUs 3 and 301 together, 4 and 5 together, 214 and 441 together and 13 and 131 as standalone units.
- Changing the season dates for the antlerless moose rifle hunt in GMUs 41, 42, and 421 to coincide with the 3rd and 4th rifle seasons for deer and elk.
- Creating separate antlerless moose hunt codes for GMUs 20 and 29.
- Separating GMUs in moose DAU M-12 into two hunt code groupings with GMUs 48, 481, 56, and 561 in one grouping and GMUs 55 and 551 in the other grouping.

Chapter W-12 - "Lake Licenses" 2 CCR 406-12 and those related provisions of Chapter W-0 ("General Provisions" 2 CCR 406-0) and Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-12

Open for consideration of regulations including, but not limited to, the following:

- Creating two aquatic species possession lists which outline the aquatic species that may be possessed by the public and those aquatic species that can be possessed by food production facilities.
- Allowing only certified triploid grass carp for stocking statewide.
- Modifying the definition of minnow.
- Changing the term for a private lake license from a lifetime to a ten-year license.
- Modifying the term "facility" in regards to viral hemorrhagic septicemia virus testing.

CITIZEN PETITIONS:

WILDLIFE REGULATIONS

Final action may be taken on rule-making petitions at any step of the Commission's generally applicable two-step rule-making process.

Chapter W-9 – "Wildlife Properties" 2 CCR 406-9

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Properties, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission allow the launching of paragliders from Smelter Mountain within the Bodo State Wildlife Area.

Chapter W-11- "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

At its January meeting, the Parks and Wildlife Commission will consider a Citizen Petition for Rulemaking related to Wildlife Parks and Unregulated Wildlife, as follows:

- A Citizen Petition for Rulemaking requesting that the Commission create a new type of wildlife educators license with associated restrictions.

The Commission may accept all or a portion of these petitions for final action, further consideration or otherwise reject the petition(s) at the January Commission meeting. A copy of any petition may be obtained by contacting Danielle Isenhart, Regulations Manager, Colorado Parks and Wildlife at (303) 866-3203 ext. 4625.

ISSUES IDENTIFICATION

PARK REGULATIONS

Chapter P-4 - "Snowmobile Regulations" 2 CCR 405-4

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to registration and required safety equipment of snowmobiles.

WILDLIFE REGULATIONS

Chapter W-3 - "Furbearers and Small Game, Except Migratory Birds" 2 CCR 406-3, and those related provisions of Chapter W-9 ("Wildlife Properties" - 2 CCR 406-9) necessary to accommodate changes to or ensure consistency with Chapter W-3

Open for consideration of annual changes to game bird seasons, excluding turkey, and other small game seasons and related provisions, including season dates, bag and possession limits and manner of take provisions, and other related regulatory changes to Chapter W-9 necessary to accommodate changes to or to ensure consistency with Chapter W-3.

Chapter W-5 - "Small Game -Migratory Game Birds" - 2 CCR 406-5, and those related provisions of Chapter W-9 ("Division Properties" – 2 CCR 406-9) and Chapter P-1 ("Parks and Outdoor Recreation Lands" - 2 CCR 405-1) necessary to accommodate changes to or ensure consistency with Chapter W-5

Open for consideration of annual changes to waterfowl and migratory bird hunting seasons and related provisions, including season dates, bag and possession limits and manner of take provisions.

Chapter W-9 - "Wildlife Properties" 2 CCR 406-9 and those related provisions of Chapter W-1 ("Fishing" 2 CCR 406-1) necessary to accommodate changes to or ensure consistency with Chapter W-9

Open for annual review of the entire chapter including, but not limited to, generally applicable and property-specific requirements for, or restrictions on use of, wildlife properties controlled by the Division of Parks and Wildlife, including State Trust Lands leased by the Division.

Chapter W-11 - "Wildlife Parks and Unregulated Wildlife" 2 CCR 406-11

Open for annual review of the entire chapter including, but not limited to, regulations pertaining to wildlife parks, sanctuaries and unregulated wildlife.

Chapter W-16 - "Procedural Rules" 2 CCR 406-16

Open for correction to regulations based on changes to Colorado Revised Statutes pertaining to license suspensions.

Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.

Viewing of Proposed Rules: copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection and distribution at the Office of the Regulations Manager, Division of Parks and Wildlife, 1313 Sherman St., Denver, Colorado, at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

Modification of Proposed Rules prior to adoption: subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

Comment deadlines: Comments will be accepted at any time prior to, or as part of the meeting. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

December 28, 2017, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **December 29, 2017.**

Comments received by the Division between noon on **December 28, 2017** and noon on **January 5, 2018,** will be provided to the Commission two business days before the meeting.

Opportunity to submit alternate proposals and provide comment: the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be submitted to the Division of Parks and Wildlife at 1313 Sherman St., Denver, CO 80203; or e-mailed to **dnr_cpwcommission@state.co.us**.

Use of Consent Agenda:
In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a "Consent Agenda" for this meeting.

The process for placing matters on the Consent Agenda is as follows:
The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.

Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.

OTHER AGENDA ITEMS: The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda may be viewed on the Division of Parks and Wildlife's internet home page at **http://cpw.state.co.us**, on or after **January 3, 2018**.

Notice of Proposed Rulemaking

Agency

410 - Ground Water Commission

CCR number

2 CCR 410-1

Rule title

RULES AND REGULATIONS FOR THE MANAGEMENT AND CONTROL OF DESIGNATED GROUND WATER

Rulemaking Hearing

Date

06/18/2018

Time

09:00 AM

Location

1313 Sherman Street, Room 318, Denver, CO 80203

Subjects and issues involved

The purpose of amending Rules 5.6 and 5.8 is to provide for more detail and clarity on the Commission's requirements and standards for approval of replacement plans, including aquifer storage and recovery plans.

Statutory authority

Section 37-90-111(1)(h), C.R.S.

5.6 Replacement Plans – New appropriations of designated ground water from aquifers which are otherwise overappropriated or where such appropriations may result in an unreasonable impairment to existing water rights, and operation of aquifer storage and recovery plans, may be allowed pursuant to a detailed replacement plan.

5.6.1 Requirements for approval of all replacement plans. The applicant shall have the burden of proving the adequacy of the plan in all respects.

A. The plan must not cause any material injury to water rights of other appropriators.

B. The plan must not cause unreasonable impairment of water quality. There shall be a presumption of no unreasonable impairment if the source of replacement water or source of water to be stored in an aquifer storage and recovery plan complies with one of the criteria listed below. The applicant has the burden of proving that no unreasonable impairment will occur.

1. If the source has a Colorado Department of Public Health, Water Quality Control Division permit authorizing discharges into the aquifer, and the applicant demonstrates the source is in compliance with the Water Quality Control Division discharge permit, using the points of compliance established in the permit; or

2. If the source has an onsite wastewater treatment system permitted by a local health agency, and the applicant demonstrates the source is in compliance with that permit; or

3. If the source is neither permitted through the Water Quality Control Division's ground water discharge permitting program nor a local health agency's on site wastewater treatment permitting system, and the applicant demonstrates that the source meets the applicable ground water quality standards contained in the Department of Public Health and Environment, Water Quality Control Commission's Regulations Nos. 41 (5 CCR 1002-41) and 42 (5 CCR 1002-42), using as the point of compliance the point at which the water is introduced into the aquifer.

C. The plan must not be speculative under Colorado law.

D. The plan must be able to be operated and administered on an ongoing and reliable basis.

1. Replacement water consisting of designated ground water must be diverted from its source and delivered into the aquifer for which the replacement water must be provided using a structure or method acceptable to the Commission. Delivery of replacement water to an aquifer by way of claiming credit for not diverting a proposed source of replacement water out of an aquifer is not allowed.

2. Flow or other measurement devices must be required on all wells, replacement or storage water delivery structures, and any other structure involved in the plan unless the Commission finds that such devices would be unnecessary or impractical.

3. Water quality sampling and monitoring of replacement water, water to be stored in the aquifer, and ground water must be required as needed to ensure that the plan operates as approved.

4. Recording, maintenance of records, and submission to the Commission and Ground Water Management District must be required as needed of all information and accounting pertaining to operation of the plan. A report must be provided on forms acceptable to the Commission, and on a schedule determined by the Commission but no less than on an annual basis.

E. A copy of the approved plan must be recorded by the applicant in the clerk and recorder's records of the county in which structures that recharge and withdraw water involved in the plan are located so that a title examination of the land on which such structures are located reveals the existence of the plan.

5.6.2 Requirements for approval of a replacement plan for new appropriations of designated ground water from aquifers which are otherwise overappropriated, or where such appropriations may result in an unreasonable impairment to existing water rights, have the following requirements in addition to those listed under 5.6.1.

A. Diversions must be limited to the extent necessary to ensure that the potential for material injury caused by the diversions will be prevented by sources of replacement water that are legally available for use as replacement water under the plan at the time the diversions occur.

B. Any source of replacement water identified for use in the plan that is not legally available for use as replacement water in the plan at the time the plan is approved must become legally available for such use prior to actually being put to such use. If a source of replacement water is identified in the plan that is not legally available for use as replacement water in the plan at the time the plan is approved, the plan must provide procedures for notifying the Commission, and all parties to any hearing process approving the replacement plan, that the source has become legally available. Notification must include identification of the amount of water available for replacement use in the plan, as well as providing documentation as to how the source became legally available for such use, including copies of all decrees, permits, findings and orders and determinations issued by the Commission and Courts.

C. A plan may provide procedures to allow additional or alternate sources of replacement water that are not identified in the plan at the time the plan is approved to be added to the plan after the plan has been approved.

5.6.3 An aquifer storage and recovery plan consisting of a detailed program that artificially recharges water into an aquifer, stores that water in an aquifer, and subsequently recovers that water from the aquifer so as to increase the supply of water available for beneficial use within a designated groundwater basin, is a replacement plan. Aquifer storage and recovery plans have the following requirements for approval, in addition to those listed under 5.6.1.

A. The aquifer must be capable of accommodating the water being artificially recharged and stored without the water appearing on ground surface or within any subsurface structure.

B. Any source of water identified for use in the plan that is not legally available for storage, recovery, and subsequent use pursuant to the plan at the time the plan is approved must become legally available for storage, recovery, and subsequent use pursuant to the plan prior to actually being stored in the aquifer under the plan. If a source of water is identified

in the plan that is not legally available for storage, recovery, and subsequent use pursuant to the plan at the time the plan is approved, the plan must provide procedures for notifying the Commission, and all parties to any hearing process approving the plan, that the source has become legally available. Notification must include identification of the amount available for storage, recovery, and subsequent use pursuant to the plan, as well as providing documentation as to how the source became legally available, including copies of all decrees, permits, findings and orders and determinations issued by the Commission and Courts.

C. A plan may provide procedures to allow additional or alternate sources of water that are not identified in the plan at the time the plan is approved to be added to the plan after the plan has been approved.

D. The plan may contain methods or man-made structures to confine or restrict the water artificially recharged and stored in the aquifer from moving within the aquifer and/or mingling with the water previously existing in the aquifer, but such methods or structures are not required. Water that is recovered under the plan does not have to consist of the same molecules that were artificially recharged.

E. Water that is artificially recharged, stored, and recovered retains the same classification (e.g. designated ground water, waters of the state, nontributary groundwater, not-nontributary ground water) as it had prior to being artificially recharged, unless the stored water moves away from the ability to be recovered by the recovery wells identified in the plan, in which case it becomes designated ground water available to other appropriators within the basin. Water stored in plans that are subject to Rule 5.6.4 shall not be considered to move away from the ability to be recovered by the recovery wells identified in the plan.

F. Stored water that is pumped by wells other than the recovery wells identified in the plan is not available for recovery by the applicant. This Rule 5.6.3(F) does not apply to water stored in plans that are subject to Rule 5.6.4.

5.6.4 Aquifer storage and recovery plans in aquifers for which appropriations are determined pursuant to Rule 5.3 or 5.4 have the following requirements for approval, in addition to those contained in 5.6.1 and 5.6.3

A. Definitions

1. “Contiguous Recovery Parcel” means a parcel that is in contact with itself so that no part is totally separated, and that overlies naturally occurring ground water to which the applicant has the right of withdrawal or to which the applicant has separate title.

2. “Remote Recovery Well” means the recovery of artificially recharged water from a well other than a well through which the volume of water to be recovered was artificially recharged.

B. Wells used for Artificial Recharge and/or recovery must have their producing zone completed in a single aquifer, being the aquifer the water is intended to be stored in.

C. Recovery well locations - No recovery well shall be located closer than one (1) mile to any point of contact between any natural stream including its alluvium and the outcrop/subcrop of the aquifer from which the water would be extracted.

D. Recovery from a Confined Aquifer.

1. Recovery of artificially recharged water from a confined aquifer within a designated basin shall be through the same well through which the water was injected, or shall be through a Remote Recovery Well located within the same Contiguous Recovery Parcel, but in no case shall the Remote Recovery Well be located more than five (5) miles from the farthest artificial recharge well within the same Contiguous Recovery Parcel. If, prior to or during recovery, the aquifer becomes unconfined at any point between any artificial recharge well and the Remote Recovery Well, as determined by the Commission, recovery of artificially recharged water from the Remote Recovery Well must be subject to the provisions of recovery from an unconfined aquifer under Rule 5.6.4.E.

2. No Remote Recovery Well withdrawing artificially recharged water from a confined aquifer shall be located within the cylinder of appropriation, as calculated pursuant to Rule 4.2.15, for any existing or permitted well owned by other than the applicant, and authorized to withdraw water from the same aquifer, without the written permission of the owner of the well.

E. Recovery from an Unconfined Aquifer. Recovery of artificially recharged water from an unconfined aquifer shall be through the same well through which the water was recharged, or shall be through a Remote Recovery Well located down hydraulic gradient from the artificial recharge well(s) and within the same Contiguous Recovery Parcel, but in no case shall the Remote Recovery Well be located more than one thousand (1,000) feet from the farthest artificial recharge well.

F. Amount of Artificially Recharged Water Available for Recovery. The maximum amount of artificially recharged water that may be recovered from an aquifer through any one recovery well in any one calendar year shall not exceed five (5) times the maximum amount of water artificially recharged into that aquifer in any one calendar year, and in no case shall the amount of water recovered exceed the total amount of water artificially recharged into that aquifer less any amounts previously recovered.

G. Banking. Artificially recharged water may be retained in the aquifer indefinitely by the person who has artificially recharged the water. Nothing in these rules shall limit the right of any person to withdraw naturally occurring ground water which has been “banked” pursuant to Rule 5.3.2.5.

5.6.5 Applications for replacement plans.

A. Applications for all replacement plans must contain the following.

1. Name, mailing address, email address and telephone number of applicant(s).

2. Name of designated basin in which plan will be located, and management district, if any.

3. Information regarding other water rights diverted from the structures involved in the plan.

4. Complete statement of replacement plan. Mark the locations of all structures involved and places of use on a USGS topographic map (or other appropriate map) and attach to the application.

5. Sufficient information to demonstrate that the requirements of Rule 5.6.1 are met.

6. If required by the Commission, a ground water model that demonstrates that no material injury will result from operation of the plan, and that demonstrates that the water stored in an aquifer storage and recovery plan does not move away so as to prevent recovery by the recovery wells identified in the plan and is not pumped by wells other than the recovery wells identified in the plan.

7. A detailed description of the proposed use of the new appropriation of designated ground water, or of the recovered water stored in an aquifer, which would result under the plan.

8. Name(s) and address(es) of owner(s) or reputed owner(s) of the land upon which structures that recharge and withdraw water involved in the plan are located. The applicant must notify these owners that the applicant is applying for this replacement plan, and provide proof to the Commission that the applicant has done so, no later than 14 days after filing the application.

B. Applications for plans subject to Rule 5.6.2 must contain the following in addition to what is required by Rule 5.6.5.A.

1. Sufficient information to demonstrate that the requirements of Rules 5.6.1 and 5.6.2 are met.

2. Identification of structures causing depletions that will be replaced under the plan, including legal descriptions of their locations, and identification and copies of all decrees, permits, findings and orders and determinations issued by the Commission and Courts involving the structures.

3. A detailed description of the proposed location, timing and amount of diversions and depletions caused by the new appropriation of designated ground water which would result under the plan.

4. A detailed description of the physical and legal sources of all proposed replacement water. Identify the amount of water available for replacement use from each source and provide copies of all decrees, permits, findings and orders and determinations issued by the Commission and Courts. If a source of replacement water is not legally available for use as replacement water in the replacement plan at the time the application is submitted, the applicant must identify any applications it has or is submitting or actions it has or is taking to make the source legally available.

5. A detailed description of the method, location, timing and amount of delivery of replacement water into the aquifer, and of the quality of the replacement water.

6. Information demonstrating the applicant's interest in all proposed sources of replacement water.

C. Applications for plans subject to Rule 5.6.3 must contain the following in addition to what is required by Rule 5.6.5.A.

1. Sufficient information to demonstrate that the requirements of Rules 5.6.1 and 5.6.3 are met.

2. Identification of each aquifer applicant will utilize to recharge and store water, the amount of storage space available in each aquifer, and the amount of that available storage space the plan will utilize.

3. A detailed description of the physical and legal sources of all water proposed to be stored in the aquifer, identifying the amount of water available from each source and providing copies of all decrees, permits, findings and orders and determinations issued by the Commission and Courts. If a source of water to be stored in the aquifer is not legally available for storage, recovery, and subsequent use in the aquifer storage and recovery plan at the time the application is submitted, the applicant must identify any applications it has or is submitting or actions it has or is taking to make the water legally available.

4. Information demonstrating the applicant's interest in all proposed sources water to be stored under the plan.

5. A detailed description of the method, location, timing and amount of the Artificial Recharge of the water into the aquifer (i.e. placed into storage), and of the quality of the water to be stored in the aquifer.

6. Identification of structures that will recover the stored water, including legal descriptions of their locations, and identification and copies of all decrees, permits, findings and orders and determinations issued by the Commission and Courts involving the structures.

7. A detailed description of the method, location, timing, and amount of recovery of the stored water.

D. Applications for plans subject to Rule 5.6.4 must contain the following in addition to what is required by Rule 5.6.5.A.

1. Sufficient information to demonstrate that the requirements of Rules 5.6.1, 5.6.3 and 5.6.4 are met.

2. The items required by Rules 5.6.5.C.2, 3, 4, 5, 6, and 7.

3. A report summarizing the hydrological conditions in the aquifer, including, but not limited to, evidence as to whether the aquifer is confined or unconfined at the artificial recharge well(s) and any Remote Recovery Well(s) and any location between those wells, static water levels, and aquifer hydraulic gradient. The report must include an accounting of the proposed timing, amount, and location(s) of artificially recharged water and recovered water. The report must identify all large capacity wells of record in the State Engineer's office allowing the withdrawal of ground water from the same

aquifer within one (1) mile of the proposed recovery site(s), and the cylinder of appropriation of those wells as calculated pursuant to Rule 4.2.15.

5.6.6 A well used for recovery of artificially recharged and stored water under an aquifer storage and recovery plan must be permitted for such use by the Commission. Other than approval of a replacement plan or an aquifer storage and recovery plan the Commission does not permit or license the physical act of Artificial Recharge, and the applicant is responsible for obtaining any and all necessary approvals for Artificial Recharge as may be required by federal, state, and local agencies. A well permit from the State Engineer is required for the construction of a well to be used solely for the purpose of Artificial Recharge.

5.6.7 Upon receipt of an application for a replacement plan, including a replacement plan that consists of an aquifer storage and recovery plan, the staff shall review it to determine whether the plan is complete under Section 37-90-107.5, C.R.S., and is adequate to meet the criteria under these rules and the provisions of Section 37-90-107, C.R.S. If the plan is located within a ground water management district, a copy of the application shall be sent by the staff to the management district and the staff shall consider any comments or recommendations from the management district. At any time, the staff may propose any additional terms and conditions or limitations which are necessary to prevent material injury and meet the requirements of these rules.

5.6.8 The Commission retains jurisdiction to modify or revoke approval of a replacement plan if monitoring or operating experience reveals that the plan results in any material injury to water rights of other appropriators or in unreasonable impairment to water quality. Retained jurisdiction by the Commission may be limited in duration.

5.8 Removed

Before the Ground Water Commission, Colorado 1313 Sherman St., Rm 821, Denver, CO 80203	
IN THE MATTER OF A PROPOSAL TO THE COLORADO GROUND WATER COMMISSION FOR RULEMAKING TO AMEND RULES 5.6 AND 5.8 OF THE RULES AND REGULATIONS FOR THE MANAGEMENT AND CONTROL OF DESIGNATED GROUND WATER TO PROVIDE FOR MORE DETAIL AND CLARITY ON THE REQUIREMENTS FOR APPROVAL OF REPLACEMENT PLANS	COMMISSION USE ONLY Case No. 17-GW-05
NOTICE OF PUBLIC RULEMAKING HEARING	

I. NATURE OF PUBLIC RULEMAKING PROCEEDING

This is a notice of a public rulemaking hearing before the Colorado Ground Water Commission ("Commission") for consideration of amendments to the Commission's Rules and Regulations for the Management and Control of Designated Ground Water, 2 CCR 410-1 ("Designated Basin Rules", or "Rules").

The Commission's Rules and any amendments thereto are promulgated pursuant to section 37-90-111(1)(h), C.R.S to carry out the authority and responsibilities of the Commission to supervise and control the exercise and administration of rights acquired to the use of designated ground water. The proceedings will be conducted pursuant to the Commission's Rules for Procedure for All Hearings before the Colorado Ground Water Commission, 2 CCR 402-3 ("Procedural Rules").

II. DESCRIPTION OF THE SUBJECTS AND ISSUES INVOLVED

The purpose of the proposed amendment to Rules 5.6 and 5.8 is to provide for more detail and clarity on the requirements for approval of replacement plans.

In response to a request by the public at its August 19, 2016 meeting the Commission directed Staff of the Commission ("Staff") to initiate the informal process to possibly amend Designated Basin Rules 5.6 and 5.8. Staff drafted proposed changes to the rules, solicited written comments from interested parties, and held public (a.k.a. stakeholder) meetings (on January 12, February 1, April 26, and August 8, 2017) to allow interested parties to provide input on the proposed changes. At its August 11, 2017 meeting the Commission authorized Staff and its Hearing Officer to proceed with the formal rulemaking process. The formal rulemaking process is initiated by filing a notice of rulemaking hearing with the Secretary of State and publication in the Colorado Register.

The language of the proposed rule change, and a proposed statement of basis and purpose and specific statutory authority for the amendment, are available for on the Division of Water Resources' ftp site at https://dnrftp.state.co.us/#/DWR/Hearings/Rulemaking%205.6%205.8%2017GW05/, and posted on the Commission's website at http://water.state.co.us/cgwc/, or are available upon request to the Commission's Staff (1313 Sherman Street, Room 821, Denver, CO 80203; telephone (303) 866-3581, email contact: keith.vanderhorst@state.co.us). Pursuant to Procedural Rule 4.F.2.d the Commission will consider any alternative proposals related to the proposed amendments.

III. SPECIFIC STATUTORY AUTHORITY

The statutory authority for promulgating the Commission's Rules and any amendments thereto is found at section 37-90-111(1)(h), C.R.S.

IV. PARTY STATUS

The Notice of Rulemaking Hearing will be published in the Colorado Register on December 10, 2017. Applications for party status will be accepted through January 10, 2018. Applications for party status should be submitted to the Commission's Hearing Officer, Jody Grantham, by email to jody.grantham@state.co.us. The applications will be reviewed in accordance with Rule 4.E of the Procedural Rules. Applications for party status shall set forth the name of the person, persons or agency seeking party status. The application shall also indicate the interest of the person(s) or agency in the proposed rules and a description of the general nature of the evidence or information to be presented in the course of the proceedings. Party status will be determined by the Hearing Officer. Staff of the Commission is automatically a party to the rulemaking proceeding before the Commission pursuant to Rule 4.E.5 of the Procedural Rules.

V. STATUS CONFERENCE

After January 10, 2018, when party status requests have been received, the Hearing Officer will notify all parties of a date and time for a telephonic status conference to establish the requirements and timelines for the pre-hearing conference and the rulemaking hearing (conference call phone number 303-866-3581 ext. 7610).

VI. PRE-HEARING CONFERENCE

Prior to the rulemaking hearing the Hearing Officer will hold a prehearing conference. Participation in the pre-hearing conference may be available by telephone at the Hearing Officer's discretion (conference call phone number 303-866-3581 ext. 7610).

Pursuant to Rule 4.F.2 of the Procedural Rules each applicant for party status must submit at the prehearing conference a prehearing statement.

VII. RULEMAKING HEARING

Date, Time and Location

DATE: June 18 through 22, 2018
TIME: 9:00 a.m. (or as otherwise directed by the Hearing Officer)
LOCATION: 1313 Sherman Street, Room 318, Denver, CO 80203

Procedures

The Commission's Hearing Officer will conduct the rulemaking hearing. The Hearing Officer may ask questions of any person appearing before him.

Pursuant to Procedural Rule 4.F.2.d the Hearing Officer will consider any alternative proposals related to the proposed amendments.

The Hearing Officer may modify the proposed amendments to the Rules from those published in the Colorado Register.

After the conclusion of the rulemaking hearing, the Hearing Officer will transmit his initial decision to the Commission.

Participation by interested persons other than those with party status

Pursuant to Rule 4.I.1 of the Procedural Rules, at the hearing Staff, parties and interested persons shall be afforded the opportunity to submit written data, views, or arguments, and to present the same orally, unless the Hearing Officer deems it unnecessary. The submittal of such material and summations, either in writing or orally, shall be as directed by the Hearing Officer.

Pursuant to Rule 4.I.4 of the Procedural Rules, the Hearing Officer will make efforts to provide for and solicit the greatest possible public participation in the rulemaking hearing.

Pursuant to Rule 4.I.7 of the Procedural Rules, after receiving evidence presented during the hearing the Hearing Officer may allow interested persons and parties to present oral or written summations of the facts and laws as he deems necessary. The submittal of such material and summations, either in writing or orally, shall be at the discretion of the Hearing Officer.

If alternative amendments are proposed, the Hearing Officer encourages those amendments to be included in the written materials, along with a proposed statement of basis and purpose of the alternative amendments.

Once any written material is submitted, the material becomes part of the Administrative Record and the property of the Commission and will not be returned to the person(s) or agency offering the material.

VIII. ADOPTION OF THE RULE

Procedures

After receiving the Hearing Officer's initial decision, the Commission will consider the initial decision at one of its public meetings, at the date, time and place as noticed in the normal manner for its regular quarterly public meetings.

The Commission may, at its discretion, allow Staff, parties and interested persons to present oral or written summations of the facts and laws and opinions. The Commission may ask questions of any person appearing before them.

The Commission may accept or reject, in full or in part, the initial decision of the Hearing Officer, and may modify the proposed amendments to the Rules in adopting amendments to the rules.

Effective date

The amendments to the rules shall become effective 20 days after publication of the final amended rules, as adopted by the Commission, in the Colorado Register.

IX. ADMINISTRATIVE RECORD

The Administrative Record, including the proposal, applications for party status, prehearing statements, and all other written materials to be considered by the Commission in this rulemaking, will be available for inspection on the Division of Water Resource's ftp site at https://dnrftp.state.co.us/#/DWR/Hearings/Rulemaking%205.6%205.8%2017GW05/, and the Commission's website at http://water.state.co.us/cgwc/, and at the Commission's office at 1313 Sherman Street, Room, Room 821, Denver, CO 80203, during normal business hours (8:00 a.m. -5:00 p.m.).

DATED this 27th day of November, 2017.

Kevin Rein, P.E.
Executive Director
Colorado Ground Water Commission

RULES CONCERNING THE IMPLEMENTATION OF THE SAFE ROUTES TO SCHOOL PROGRAM

2 CCR 601-19

I. PURPOSE [No changes]

II. STATEMENT OF BASIS AND SPECIFIC STATUTORY AUTHORITY

A. Statement of Basis

Sections 43-1-1601 et seq. C.R.S. was enacted in June 2004. Section 43-1-1604 C.R.S. directs the Department to promulgate Rules for the implementation of a grant based program awarding federal funds to political subdivisions of Colorado to improve safety for pedestrians and bicyclists in School Areas.

During September 2004, the Department formed a committee to review the statutory directive. The objective of the committee was to provide opportunity for input from stakeholders while developing the Rules, allow stakeholders to review and comment on the proposed Rules language, and develop understanding and consensus among stakeholders. Comments and concerns from the taskforce were considered in developing the Rules.

Stakeholders represented on the rulemaking committee included Bicycle Colorado, Colorado Dept. of Public Health and Environment, Colorado Dept. of Transportation Traffic Safety Office, Colorado Dept. of Transportation Bicycle/Pedestrian coordinator, and Colorado Dept. of Transportation policy staff.

The Department promulgated the Rules in May 2005. The Department initiated the rulemaking process to amend the existing Rules in June 2007. The first amendment was needed to revise the contact person to be in compliance with job duties and responsibilities within the Department of Transportation, and Section 1404 of the Safe, Accountable, Flexible, and Efficient Transportation Equity Act: A Legacy of Users Act of 2005. The second amendment was necessary to attain continuity of services and leadership on the Advisory Committee.

The Department amended the Rules in 2012 as part of a Department-wide initiative to update Rules where warranted, eliminate unnecessary language and lessen restrictions on local government when possible. This initiative was in keeping with the Governor's Executive Order D2011-005 and Executive Order 2012-002.

The Department amended the Rules in 2014 as a result of HB14-1301. This bill made state general funds available for FY15 for the Safe Routes to Schools Program, and specified that all of the grants awarded using the funds resulting from HB14-1301 must be for non-infrastructure projects. The bill also provide~~d~~ds that if the Safe Routes to Schools Program received federal dollars in FY15, general funds appropriated for the program will be reduced by the amount of the federal moneys received. Finally, the bill eliminated the need to distribute projects by geographic distribution of the student population. Instead, the bill require~~d~~ds that the Department consider schools having greater than fifty percent of the students eligible for free or reduced-priced lunch as one of the criteria for awarding grants.

The Department amended the Rules in 2017 as a result of changes enacted in HB14-1301 which were only in effect for one year. The state general funds available in FY15 for Safe Routes to School are no longer available for the grant program. All other aspects of- Safe Routes to School Program required by the bill remain in effect.

B. Specific Statutory Authority

These Rules are promulgated by the Department pursuant to the specific statutory authority of §§43-1-110 (2) and 43-1-1604 C.R.S. and conform to the requirements of ~~PL 112-141 ("Moving Ahead for Progress in the 21st Century" or "MAP-21")~~PL 114-94 ("Fixing America's Surface Transportation Act" or "FAST Act") signed into law on December 4, 2015,~~"~~ 23 U.S.C. 101 (29)(B); 23 U.S.C. 213(b)(3) and 23 U.S.C. 403 and its implementing regulations; "SAFETEA-LU" 23 U.S.C. 402, and its implementing regulations; "National Goals and Performance Management Measures" 23 U.S.C. § 150; the National School Lunch Act, 42 U.S.C. § 1751 *et seq.* and its implementing regulations, 7 CFR 245. Pursuant to § 24-4-105(11), C.R.S., the Department may entertain petitions for declaratory orders.

1.00 DEFINITIONS

[No changes from Rule 1.01 to 1.12]

1.13 "STIP" means the Statewide Transportation Improvement Program that is the federally required, four-year program of planned transportation projects. The STIP is developed in coordination with planning partners throughout the state through the Project Priority Programming Process. The STIP incorporates the Transportation Improvement Programs (TIPs) from each MPO.

1.14 "TIP" means the Transportation Improvement Programs (TIPs) that identify all current federally funded transportation projects to be completed in a Metropolitan Planning Organization (MPO) region over a four-year period.

1.1~~3~~5 "TPR" means a Transportation Planning Region. TPRs are geographically designated areas of the state with similar transportation needs and commonalities, pursuant to the provisions of § 43-1-1102 and 1103 C.R.S.

2.00 ADVISORY COMMITTEE [No changes from Rules 2.01 to 2.02.2]

3.00 APPLICATION INFORMATION [No changes from Rules 3.01 to 3.02]

4.00 THRESHOLD CRITERIA FOR APPLICANT ELIGIBILITY

[No changes from Rules 4.01 to 4.01.7]

4.01.8 On-System projects must not conflict with the State and Regional Transportation Plans available on the Department website found at https://www.codot.gov/programs/colorado-transportation-matters~~www.coloradodot.info/programs/statewide-planning/statewide-transportation-plan.~~

4.01.9 Applicant eligibility is contingent upon compliance with all state and federal laws and regulations. Applicants that fail to comply with all applicable federal and state laws, regulations and requirements will not be considered eligible under these Rules. Compliance by an Applicant with all threshold eligibility criteria does not obligate the Commission to award funds, but only allows the Applicant to be evaluated by the

Department and Advisory Committee for consideration for available funding based upon the evaluation criteria described in Section 5.00. of the Rules.

5.00 EVALUATION CRITERIA [No changes from Rules 5.01 to 5.03]

5.04 If the project request is located in an MPO boundary, the application must be certified by the MPO. The certification shall demonstrate that all actions necessary to include the project(s) in the Transportation Improvement Program (TIP) for that MPO will be taken before the application may be approved.

6.00 FUNDING [No changes from Rules 6.01 to 6.04]

7.00 INCORPORATION BY REFERENCE

The Rules are intended to be consistent with and not be a replacement for the federal requirements contained in the National School Lunch Act, 42 U.S.C. § 1751 et seq. November 10, 1989, and its implementing regulations, 7 CFR 245, December 13, 2007, which are hereby incorporated into the Rules by this reference, and do not include any later amendments. All referenced laws and regulations shall be available for copying or public inspection during regular business hours from the Office of Policy and Government Relations, Colorado Department of Transportation, 2829 W. Howard Pl., Denver, Colorado 80204, ~~4201 E. Arkansas Avenue, Denver, Colorado 80222~~, or by contacting staff at https://www.codot.gov/business/rules. Copies of the referenced United States Code may be obtained from the following address: Office of the Law Revision Counsel, U.S. House of Representatives, H2-308 Ford House Office Building, Washington, DC 20515, or by phone at (202) 226-2411. Copies of the referenced Code of Federal Regulations may be obtained from the following address: U.S. Government Publishing Office, 732 North Capitol Street, N.W., Washington, DC 20401, or by phone at (202) 512-1800.

PDP8A ~~A~~ Directors' Examination of Public Deposits. [Section 11-10.5-109(2), C.R.S.]

A. Qualifications for Independent Person(s) Assuming Responsibility for Due Care of Directors' Examinations of Public Deposits.

Persons approved by the Banking Board to conduct directors' examinations under C.R.S. 11-103-502(3)(b) are also automatically approved to conduct directors' examinations of public deposits.

B. Scope of Public Deposit Directors' Examinations.

Directors' examinations of public deposits shall include the following:

1. The bank's total capital to risk-weighted asset ratio.

2. A review of the eligible public depository's trial balance reports or other records identifying all deposit accounts held by the bank to discover any public deposit accounts not previously identified as "public" or reported to the Division of Banking on the Monthly Public Depository Liability Report. This procedure is not required if the eligible public depository's most recent safety and soundness CAMEL rating was 1 or 2.

3. Verification that each piece of pledged collateral is of a type approved by the Banking Board as eligible collateral. Refer to Banking Board Rule PDP3 for eligible collateral list. This procedure is not required if the eligible public depository's most recent safety and soundness CAMEL rating was 1 or 2.

4. Verification that the eligible public depository is reporting monthly to the Division of Banking the current principal balance of each real estate loan, mortgage-backed pool security, and collateralized mortgage obligation pledged as collateral under the Public Deposit Protection Act. This procedure is not required if the eligible public depository's most recent safety and soundness CAMEL rating was 1 or 2.

5. Review of the bank's procedures and workpapers for calculating uninsured public deposits and verifying that sufficient collateral is pledged to protect those uninsured deposits at the minimum required level under Banking Board Rules PDP4 and PDP5. Acknowledgment that the bank has been pledging sufficient amounts of collateral.

6. Review of all collateral pledged under the Public Deposit Protection Act to identify any piece of pledged collateral that has been reported to be in jeopardy of default or any piece of pledged collateral that has been adversely classified by any regulatory agency examiner.

C. Frequency of the Directors' Examination.

The Directors' Examination addressing in detail the items under Banking Board Rule PDP8A (B) shall be performed annually by an independent person that meets the qualifications under Banking Board Rule PDP8A (A).

~~C~~D. Report to be Filed With the Colorado Division of Banking.

A copy of a report addressing in detail the items under Banking Board Rule PDP8A, Paragraph (B) must be filed with the Colorado Division of Banking within one hundred fifty (150) days following the date of the directors' examination of public deposits.

November 17, 2017

BEFORE THE
COLORADO STATE BANKING BOARD

IN THE MATTER OF	)	
	)	**NOTICE OF PROPOSED RULEMAKING**
RULE AMENDMENT	)	

I. Notice of hearing

PLEASE BE ADVISED THAT, as required by Section 24-4-103, C.R.S., of the State Administrative Procedures Act, the Colorado State Banking Board (Banking Board) hereby gives notice of proposed rulemaking. A hearing is scheduled for January 18, 2018, commencing at 10:00 a.m., at 1560 Broadway, Suite 975, Denver, Colorado, Division of Banking (Division) Conference Room, which facility is accessible in compliance with the Americans with Disabilities Act (ADA) guidelines.

II. Purpose of the proposed rulemaking

The purpose of the hearing is to hear comments concerning the proposed amendment of the following Banking Board Rules to update the rules to reflect changes made to the Prompt Corrective Action Guidelines, effective January 1, 2015. A Statement of Basis, Purpose, and Specific Statutory Authority for each rule follows this notice and is incorporated by reference.

PDP1	Capital Standards for Eligible Public Depositories
PDP3	List of Approved eligible Collateral Instruments and Obligations
PDP4	Standards for Establishing Current Market Value of Eligible Collateral
PDP5	Criteria and Procedures for Reducing/Removing Uninsured Public Deposits From a Bank, or Increasing Collateral Requirements, if the Eligible Public Depository Fails to Comply With Minimum Capital Standards or Safety and Soundness Standards
PDP7	Reporting Requirements
PDP8A	Directors' Examination of Public Deposits
PDP9	Assessments and Fees

III. Statutory authority for proposed rulemaking

The proposed amendment of the rules is being held under the authority given the Banking Board by the Colorado Banking Code in accordance with Section 11-102-104(1), C.R.S., which states "the banking board is the policy-making and rule-making authority for the division of banking and has the power to: (a) make, modify, reverse, and vacate rules for the proper enforcement and administration of this code…"

IV. Opportunity to testify and submit written comments

Any interested person(s) has the right to submit written comments or data, view, or argument. Written information should be filed with the Division no later than January 8, 2018. To submit written comments, please contact Diana Gutierrez, Banking Board Secretary, at diana.gutierrez@state.co.us. In addition, any interested person(s) has the right to make an oral presentation at the Hearing, unless the Banking Board deems any oral presentation unnecessary.

STATE BANKING BOARD
RULE 3-CCR 701-4 PDP8A
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 109(2)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP8A is found in section 11-10.5-109(2) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to provide clarification and updates to language in the current rules and technical updates to standard practice for annual requirements for Directors' Examinations of public deposits.

Purpose of this Rulemaking

The purpose of the proposed revision to amend 3-CCR 701-4 PDP8A(C) to reflect technical changes in the definition of what is meant for frequency of the Directors' Examination of public deposits. The requirement can be found in the statues, this rule is used by auditors as a guide and adding the annual requirement to the rule will help enhance compliance with this requirement. The proposed amendment to the rule would read as such:

1. The Directors' Examination addressing in detail the items under Banking Board Rule PDP8A, Paragraph B shall be performed by an independent person that meets the qualifications under Banking Board Rule PDP8A, Paragraph (A).

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP8A(D) to move the previous subpart C to subpart D based on the above revision. The proposed amendment to the rule would read as such:

A. (D) shall read: Report to be Filed With the Colorado Division of Banking.

A copy of a report addressing in detail the items under Banking Board Rule PDP8A, Paragraph (A).

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-109. Verification of collateral held – reports required.

PDP5 Criteria and Procedures for Reducing/Removing Uninsured Public Deposits From a Bank, or Increasing Collateral Requirements, if the Eligible Public Depository Fails to Comply With Minimum Capital Standards or Safety and Soundness Standards. [Sections 11-10.5-107(4)(a)~~]~~ and ~~[~~11-10.5-107(4)(b)~~]~~, C.R.S.]

A. Definitions.

For the purposes of this rule:

1. The "composite CAMELS rating" is the numerical rating assigned by a state or federal banking agency at the conclusion of an examination or visitation.

B. Each eligible public depository (hereinafter "depository") is required to pledge the higher of the amount of eligible collateral required under this paragraph or paragraph C below:

1. If the total capital to risk-weighted asset ratio of a depository is equal to or exceeds ~~8~~ 10 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 102 percent of the aggregate of uninsured public deposits held by it. (Well-capitalized)

2. If the total capital to risk-weighted asset ratio of a depository is less than ~~8~~ 10 percent but greater than, or equal to ~~7~~ 8 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 120 percent of the aggregate of uninsured public deposits held by it. (Adequately capitalized)

3. If the total capital to risk-weighted asset ratio of a depository is less than ~~7~~ 8 percent but greater than ~~or equal to~~ 6 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 140 percent of the aggregate of uninsured public deposits held by it. (Undercapitalized)

4. If the total capital to risk-weighted asset ratio of a depository is less ~~than~~ or equal to 6 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 160 percent of the aggregate of uninsured public deposits held by it. (Significantly undercapitalized)

C. Each depository is required to pledge the higher of the amount of eligible collateral required under this paragraph or paragraph B above:

1. Upon receipt of a final report of examination or other notice that a depository has been assigned a composite CAMELS rating of 4, the depository shall pledge collateral having a market value at all times in excess of 120 percent of the aggregate of uninsured public deposits held by it.

2. Upon receipt of a final report of examination or other notice that a depository has been assigned a composite CAMELS rating of 5, the depository shall pledge eligible collateral having a market value at all times in excess of 160 percent of the aggregate of uninsured public deposits held by it.

D. A depository shall not accept any additional uninsured public deposits or renew any uninsured public deposits beyond the original maturity dates:

1. If the depository's total capital to risk-weighted asset ratio is less than 8 percent but greater than ~~below~~ 6 percent; or

2. If the depository has received a final report of examination or other notice that the depository has been assigned a composite CAMELS rating of 5.

E. A depository shall eliminate all public deposits not fully insured by the FDIC in an orderly manner, under a plan and a timeframe approved by the Banking Board:

1. If the depository's total capital to risk-weighted asset ratio is equal to or less than ~~5~~ 6 percent; or

2. If the depository has received a final report of examination or other notice that the depository has been assigned a composite CAMELS rating of 5.

F. Upon notice from the Banking Board, a depository may be required to eliminate all public deposits if the depository meets any of the conditions established in paragraphs D and E above.

~~F~~G. Compliance with this rule shall be the responsibility of each depository regardless of the frequency or form of the reports required by the Banking Board.

November 17, 2017

BEFORE THE
COLORADO STATE BANKING BOARD

IN THE MATTER OF	)	
	)	**NOTICE OF PROPOSED RULEMAKING**
RULE AMENDMENT	)	

I. Notice of hearing

PLEASE BE ADVISED THAT, as required by Section 24-4-103, C.R.S., of the State Administrative Procedures Act, the Colorado State Banking Board (Banking Board) hereby gives notice of proposed rulemaking. A hearing is scheduled for January 18, 2018, commencing at 10:00 a.m., at 1560 Broadway, Suite 975, Denver, Colorado, Division of Banking (Division) Conference Room, which facility is accessible in compliance with the Americans with Disabilities Act (ADA) guidelines.

II. Purpose of the proposed rulemaking

The purpose of the hearing is to hear comments concerning the proposed amendment of the following Banking Board Rules to update the rules to reflect changes made to the Prompt Corrective Action Guidelines, effective January 1, 2015. A Statement of Basis, Purpose, and Specific Statutory Authority for each rule follows this notice and is incorporated by reference.

PDP1	Capital Standards for Eligible Public Depositories
PDP3	List of Approved eligible Collateral Instruments and Obligations
PDP4	Standards for Establishing Current Market Value of Eligible Collateral
PDP5	Criteria and Procedures for Reducing/Removing Uninsured Public Deposits From a Bank, or Increasing Collateral Requirements, if the Eligible Public Depository Fails to Comply With Minimum Capital Standards or Safety and Soundness Standards
PDP7	Reporting Requirements
PDP8A	Directors' Examination of Public Deposits
PDP9	Assessments and Fees

III. Statutory authority for proposed rulemaking

The proposed amendment of the rules is being held under the authority given the Banking Board by the Colorado Banking Code in accordance with Section 11-102-104(1), C.R.S., which states "the banking board is the policy-making and rule-making authority for the division of banking and has the power to: (a) make, modify, reverse, and vacate rules for the proper enforcement and administration of this code…"

IV. Opportunity to testify and submit written comments

Any interested person(s) has the right to submit written comments or data, view, or argument. Written information should be filed with the Division no later than January 8, 2018. To submit written comments, please contact Diana Gutierrez, Banking Board Secretary, at diana.gutierrez@state.co.us. In addition, any interested person(s) has the right to make an oral presentation at the Hearing, unless the Banking Board deems any oral presentation unnecessary.

November 17, 2017

STATE BANKING BOARD
RULE 3-CCR 701-4 PDP5
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 107(4)(a) and TITLE 11, ARTICLE 10.5, SECTION 107(4)(a) and 107(4)(b)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP5 is found in section 11-10.5-107(4)(a) and 11-10.5-107(4)(b) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to reflect changes made in the Division's practices and match the Prompt Corrective Action (PCA) Capital Guidelines which went into effect on January 1, 2015.

Purpose of this Rulemaking

Beginning January 1, 2015, PCA Capital Guidelines established new ratio percentages for a Well Capitalized institution and a Significantly Undercapitalized institution.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP5(B) to reflect new verbiage per PCA Capital Guidelines. The changed percentages will reflect the revised definition of a Well Capitalized institution and a Significantly Undercapitalized institution per PCA Guidelines. The proposed amendment to the rule would define:

1. Well-capitalized: If the total capital to risk-weighted asset ratio of a depository is equal to or exceeds 10 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 102 percent of the aggregate of uninsured public deposits held by it.

2. Adequately capitalized: If the total capital to risk-weighted asset ratio of a depository is less than 10 percent but greater than, or equal to 8 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 120 percent of the aggregate of uninsured public deposits held by it.

3. Undercapitalized: If the total capital to risk-weighted asset ratio of a depository is less than 8 percent but greater than 6 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 140 percent of the aggregate of uninsured public deposits held by it.

4. Significantly Undercapitalized: If the total capital to risk-weighted asset ratio of a depository is less or equal to 6 percent, the depository shall pledge eligible collateral having a market value at all times in excess of 160 percent of the aggregate of uninsured public deposits held by it.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP5(D) and 3-CCR 701-4 PDP5(E) to reflect new verbiage defining undercapitalized asset ratios. The proposed amendment to the rule would reflect change the risk-weighted asset ratio to less than 8 percent but greater than 6 percent in subpart D. The proposed amendment to subpart E would reflect language of risk-weighted asset ratio of being equal to or less than 6 percent; which would then equate to the depository eliminating all public deposits not fully insured by the FDIC in an orderly manner. The proposed language would read as follows:

1. (D)(1) shall read: If the depository's total capital to risk-weighted asset ratio is ~~below 6~~ less than 8 percent but greater than 6 percent; or
    a. Note: If an institution reaches the 'undercapitalized' level of 6-8%, provision D will take place.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP5(E) to reflect new verbiage defining undercapitalized asset ratios. The proposed amendment to subpart E would reflect language of risk-weighted asset ratio of being equal to or less than 6 percent; which would then equate to the depository eliminating all public deposits not fully insured by the FDIC in an orderly manner. The proposed language would read as follows:

1. (E)(1) shall read: If the depository's total capital to risk-weighted asset ratio is equal to or less than ~~5 percent~~ 6 percent; or

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP5(F) to reflect new verbiage added to better define the current practice of the Division with troubled institutions. The addition of subpart (F) leaves the Division with enough power to exercise in extreme cases. The proposed language would read as follows:

1. Upon notice from the Banking Board, a depository may be required to eliminate all public deposits if the depository meets any of the conditions established in paragraph D and E above.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP5(G) to reflect the addition of subpart (F) from above listed language. The addition of subpart (G) moves previous language to new subpart. The proposed language would read as follows (no change made to previous rule language):

1. Compliance with this rule shall be the responsibility of each depository regardless of the frequency or form of the reports required by the Banking Board.

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-106. Designation as eligible public depository.
11-10.5-107. Eligible collateral – uninsured public deposits.
11-10.5-112. Annual fees and assessments.

PDP4 Standards for Establishing Current Market Value of Eligible Collateral [Section 11-10.5-107(1)(c), C.R.S.]

A. Market value of the obligations and instruments approved as eligible collateral under Banking Board Rule PDP3(A), items 1, 2, 3, 4, 5, 6, 7, and ~~7~~ 8~~(except medium term and discount notes), and Banking Board Rule PDP3(F)~~; and all items under Banking Board Rule PDP3(B), shall be the last reported bid or transaction price or, for an inactively traded security, evaluators or other analysts acceptable to the Division of Banking may determine the market value.

B. Market value of the obligations approved as eligible collateral under Banking Board Rule PDP3(E) and PDP3(F) shall be 85 percent of the market value determined by evaluators or other analysts acceptable to the Division of Banking.

C. Market value of the obligations approved as eligible collateral under Banking Board Rule PDP3(C) shall be 50 percent of the current principal balance of the note.

D. Market value of the obligations approved as eligible collateral under Banking Board Rules PDP3(D) and PDP3(A)(9) shall be 85 percent of the par value of the obligation.

E. ~~Market value of the medium-term and discount notes approved as eligible collateral under Banking Board Rule PDP3(A), items 3, 4, 5, 6, and 8 shall be 90 percent of the par value of the obligation.~~

~~F~~E. Market value of the letters of credit approved as eligible collateral under Banking Board Rule PDP3(A)(10), and the surety bonds approved under Banking Board Rule PDP3(G) shall be 100 percent of the face value of the letter of credit or surety bond.

November 17, 2017

STATE BANKING BOARD
RULE 3-CCR 701-4 PDP4
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 107(1)(c)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP4 is found in section 11-10.5-107(1)(c) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to provide technical language clean-up based on revisions from PCP3(A).

Purpose of this Rulemaking

The purpose of the proposed revision to amend 3-CCR 701-4 PDP4(A) is to reflect the removal of references to medium term and discount notes for establishing current market value. Discount term notes earn the highest credit rating and should be valued the same as the other agency securities. The securities are still issued by the same government-owned or government sponsored agencies and carry the same implicit guarantees. The change simplifies the valuation of the securities for both, the banks and the Division. Added '6' and '8' to the PDP3(A) items valued at market value since the FHLMC and the SLMA securities carry the same implicit guarantees as the other agencies valued at market value. The proposed amendment to the rule would read as such:

1. Market value of the obligations and instruments approved as eligible collateral under Banking Board Rule PDP3(A), items 1, 2, 3, 4, 5, 6, 7 and 8; and all items under Banking Board Rule PDP3(B), shall be the last reported bid or transaction price or, for an inactively traded security, evaluators or other analysts acceptable to the Division of Banking may determine the market value.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP4(B) is to add PDP3(F) to the provision which refers to Commercial Mortgage-Backed Securities (CMBS). While these products carry government guarantees or implicit guarantees, in a time of financial distress similar to the one experienced in 2007, these securities might not be as liquid as the current market may suggest. The underlying assets of CMBS are comprised of commercial properties such as hotels, office buildings and factories, which makes them more volatile than residential MBS. In addition, the structure of CMBS is often more complicated, similar to a CMO. To be consistent with the reasoning behind the 85% valuation of CMOs, I believe these products should be valued the same. The proposed amendment to the rule would read as such:

1. Market value of the obligations approved as eligible collateral under Banking Board Rule PDP3(E) and PDP3(F) shall be 85 percent of the market value determined by evaluators or other analysts acceptable to the Division of Banking.

The purpose of the proposed rulemaking is to delete 3-CCR 701-4 PDP3(E) to reflect that it is no longer the Divisions' practice to value eligible collateral at 90 percent. The proposed amendment to the rule would be to eliminate the following verbiage:

1. "Market value of the medium term and discount notes approved as eligible collateral under Banking Board Rule PDP3(A), items 3, 4, 5, 6 and 8 shall be 90 percent of the par value of the obligation."

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP3(F) to now be subpart PDP4(E). The removal of above language now moves previous subpart F to E. The proposed amendment to the rule would be to have PDP4(E) read as the following verbiage:

1. Market value of the letters of credit approved as eligible collateral under Banking Board Rule PDP3(A)(10), and the surety bonds approved under Banking Board Rule PDP3(G) shall be 100 percent of the face value of the letter of credit or surety bond.

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-107. Eligible collateral – uninsured public deposits.

PDP1 Capital Standards for Eligible Public Depositories [Section 11-10.5-106(2)(b), C.R.S.]

For purposes of the Public Deposit Protection Act, a bank meeting adequate capital standards will maintain capital ratios as follows:

A. An eligible public depository must have and maintain a minimum level of total capital to risk-weighted assets in excess of ~~8~~ 10 percent. When that ratio falls to ~~5~~ 6 percent or below, the eligible public depository shall submit a plan and timeframe for eliminating its public deposits not fully insured by the FDIC. The plan will be approved as submitted or modified by the Banking Board on a case-by-case basis.

B. If an eligible public depository's minimum level of total capital to risk-weighted assets is less than ~~8~~ 10 percent, but greater than ~~5~~ 6 percent, that eligible public depository shall adopt a written capital improvement plan that is acceptable to the Banking Board, and be able to meet the risk-based collateral requirements in Banking Board Rule PDP5.

C. Higher than minimum capital ratios may be required for an individual eligible public depository when the Banking Board determines that the bank's capital is, or may become, inadequate. For example, higher capital ratios may be appropriate for:

1. A newly chartered bank;

2. A bank receiving special supervisory attention;

3. A bank which has, or is expected to have, losses resulting in capital inadequacy;

4. A bank having a high proportion of off-balance sheet risks, especially standby letters of credit; or exposed to a high degree of asset depreciation or interest rate, funding, transfer, or similar risks; or having a low level of liquid assets in relation to short-term liabilities;

5. A bank that is growing rapidly, either internally or through acquisitions; or

6. A bank that may be adversely affected by the activities or condition of its holding company, affiliate(s), or other persons or institutions including chain banking organizations, with which it has significant business relationships, including concentrations of credit.

D. An eligible public depository's capital is inadequate if it does not meet the provisions of this Rule. For the purposes of this rule, total capital to risk-weighted assets shall be the same as recorded under the Federal Financial Institutions Examination Council (FFIEC) most recent report of condition. ~~The components of total capital are core (Tier 1) and qualifying supplementary (Tier 2) capital. Specifically, Tier 1 includes:~~

~~1. Common stockholders' equity;~~

~~2. Noncumulative perpetual preferred stock and any related surplus; and~~

~~3. Minority interests in the equity accounts of consolidated subsidiaries.~~

~~The components of Tier 2 capital include:~~

~~1. Cumulative perpetual, long-term and convertible preferred stock, and any related surplus. The amount of long-term subordinated debt that is eligible to be included as Tier 2 capital is reduced~~

~~by 20 percent of the original amount of the instrument at the beginning of each of the last five (5) years of the life of the instrument.~~

~~2. Perpetual debt and other hybrid debt/equity instruments.~~

~~3. Intermediate-term preferred stock and term subordinated debt (to a maximum of 50 percent of Tier 1 capital).~~

~~4. Loan loss reserves (to a maximum of 1.25 percent of risk-weighted assets).~~

~~Deductions from total capital include:~~

~~From Tier 1 capital:~~

~~1. Goodwill and other intangibles, with the exception of identified intangibles that satisfy the criteria included in the guidelines.~~

~~From total capital:~~

~~1. Investments in unconsolidated banking and finance subsidiaries;~~

~~2. Reciprocal holdings of capital instruments.~~

	)	**NOTICE OF PROPOSED RULEMAKING**
RULE AMENDMENT	)	

I. Notice of hearing

PLEASE BE ADVISED THAT, as required by Section 24-4-103, C.R.S., of the State Administrative Procedures Act, the Colorado State Banking Board (Banking Board) hereby gives notice of proposed rulemaking. A hearing is scheduled for January 18, 2018, commencing at 10:00 a.m., at 1560 Broadway, Suite 975, Denver, Colorado, Division of Banking (Division) Conference Room, which facility is accessible in compliance with the Americans with Disabilities Act (ADA) guidelines.

II. Purpose of the proposed rulemaking

The purpose of the hearing is to hear comments concerning the proposed amendment of the following Banking Board Rules to update the rules to reflect changes made to the Prompt Corrective Action Guidelines, effective January 1, 2015. A Statement of Basis, Purpose, and Specific Statutory Authority for each rule follows this notice and is incorporated by reference.

PDP1	Capital Standards for Eligible Public Depositories
PDP3	List of Approved eligible Collateral Instruments and Obligations
PDP4	Standards for Establishing Current Market Value of Eligible Collateral
PDP5	Criteria and Procedures for Reducing/Removing Uninsured Public Deposits From a Bank, or Increasing Collateral Requirements, if the Eligible Public Depository Fails to Comply With Minimum Capital Standards or Safety and Soundness Standards
PDP7	Reporting Requirements
PDP8A	Directors' Examination of Public Deposits
PDP9	Assessments and Fees

III. Statutory authority for proposed rulemaking

The proposed amendment of the rules is being held under the authority given the Banking Board by the Colorado Banking Code in accordance with Section 11-102-104(1), C.R.S., which states "the banking board is the policy-making and rule-making authority for the division of banking and has the power to: (a) make, modify, reverse, and vacate rules for the proper enforcement and administration of this code…"

IV. Opportunity to testify and submit written comments

Any interested person(s) has the right to submit written comments or data, view, or argument. Written information should be filed with the Division no later than January 8, 2018. To submit written comments, please contact Diana Gutierrez, Banking Board Secretary, at diana.gutierrez@state.co.us. November 17, 2017

STATE BANKING BOARD
RULE 3-CCR 701-4 PDP1
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 106(2)(b)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP1 is found in section 11-10.5-106(2)(b) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to reflect changes made in the Division's practices and match the Prompt Corrective Action (PCA) Capital Guidelines which went into effect on January 1, 2015.

Purpose of this Rulemaking

Beginning January 1, 2015, PCA Capital Guidelines established new ratios which changed total capital to risk weighted assets ratios.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP1(A) and 3-CCR 701-4 PDPA1(B) to reflect new verbiage per PCA Capital Guidelines. The proposed amendment to the rule would read as such:

1. Changed to 'not fully insured by the FDIC' to reflect the Division's practice of having banks who fall below 5 percent (will change to 6 percent) capital only eliminate the uninsured portion of their public deposits. It matches the proposed changes on PDP5.
2. The total capital to risk weighted assets ratios have changed to 10 percent and 6 percent to match the revised definition of a Well Capitalized institution and a Significantly Undercapitalized institution per the new PCA Capital Guidelines. New ratios took effect on January 1, 2015.
3. The total capital to risk weighted assets ratios have changed to 10 percent and 6 percent to match the revised definition of a Well Capitalized institution and a Significantly Undercapitalized institution per the new PCA Capital Guidelines.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP1(D) reflect new Capital rule and define tier 1 and tier 2 based on changes in reference to the Federal Financial Institutions Examination Council (FFIEC). Per new the new Capital rule, the definition of tier 1 and tier 2 capital has changed. The Division would include the updated definition as written below. The proposed amendment to the rule would read as such:

1. For the purposes of this rule, total capital to risk-weighted assets shall be the same as defined under the Federal Financial Institutions Examination Council (FFIEC) report of condition.

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-106 Designation as eligible public depository.

PDP3 List of Approved Eligible Collateral Instruments and Obligations [Section 11-10.5-107(1), C.R.S.]

For purposes of the Public Deposit Protection Act and these rules, the term "investment grade" is defined as any security assigned a rating of AAA to BBB by Standard & Poor's or Fitch's Investors Services or any security assigned a rating of Aaa to Baa by Moody's Investors Service. The following are approved as eligible collateral:

A. 1. U.S. Treasury Bills, Treasury Notes, and Treasury Bonds.

2. U.S. Treasury STRIPS (Separate Trading of Registered Interest and Principal of Securities) with maximum five year maturity and U.S. Treasury TIPS (Treasury-Inflation Protected Securities).

3. Farm Credit Systemwide ~~Debentures, Medium-Term~~ Bonds, Notes, and Discount Notes, issued as Federal Farm Credit Bank (FCSB) securities, excluding multi-asset class structured notes.

4. Federal Home Loan Bank ~~Debentures~~ (FHLB) Bonds, Notes and Discount Notes ~~(FHDN)~~, excluding multi-asset class structured notes.

5. Federal National Mortgage Association ~~Debentures (FNSM)~~(FNMA or Fannie Mae) Bonds, Notes, Discount Notes ~~(FNDN)~~, and Mortgage-Backed Pass-Through Certificates, excluding multi-asset class structured notes.

6. Federal Home Loan Mortgage Corporation (FHLMC or Freddie Mac) Bonds, Notes, Discount Notes ~~(FMDN)~~ and Mortgage-Backed Pass-Through Securities~~Participation Certificates (FMPC)~~, excluding multi-asset class structured notes.

7. Government National Mortgage Association (GNMA or Ginnie Mae) Pass-Through Securities ~~(GNMA)~~.

8. Student Loan Marketing Association (SLMA or Sallie Mae) Bonds ~~(SLBD)~~ and Discount Notes ~~(SLDN)~~, excluding multi-asset class structured notes, excluding debt securities issued by SLM Corporation.

9. Certificates for sale in the secondary market which represent undivided interests in pools composed of United States Department of Agriculture Rural Development and Small Business Administration loans, if either the United States Department of Agriculture Rural Development or Small Business Administration have unconditionally guaranteed payment of all amounts due to be paid to the owner of the certificate, and additionally, portions of loans guaranteed by either the United States Department of Agriculture Rural Development or Small Business Administration, provided that one of those agencies has unconditionally guaranteed payment of all amounts due under the guaranteed portion of the loan. ~~In no event shall any eligible public depository's pledged collateral portfolio consist of more than 50 percent loans.~~

Note to publisher: The existing text under Section A (10) through J (1) inclusive remains unchanged and a part of this Rule.

Denver, CO 80202

November 17, 2017

BEFORE THE
COLORADO STATE BANKING BOARD

IN THE MATTER OF	)	
	)	**NOTICE OF PROPOSED RULEMAKING**
RULE AMENDMENT	)	

I. Notice of hearing

PLEASE BE ADVISED THAT, as required by Section 24-4-103, C.R.S., of the State Administrative Procedures Act, the Colorado State Banking Board (Banking Board) hereby gives notice of proposed rulemaking. A hearing is scheduled for January 18, 2018, commencing at 10:00 a.m., at 1560 Broadway, Suite 975, Denver, Colorado, Division of Banking (Division) Conference Room, which facility is accessible in compliance with the Americans with Disabilities Act (ADA) guidelines.

II. Purpose of the proposed rulemaking

The purpose of the hearing is to hear comments concerning the proposed amendment of the following Banking Board Rules to update the rules to reflect changes made to the Prompt Corrective Action Guidelines, effective January 1, 2015. A Statement of Basis, Purpose, and Specific Statutory Authority for each rule follows this notice and is incorporated by reference.

PDP1	Capital Standards for Eligible Public Depositories
PDP3	List of Approved eligible Collateral Instruments and Obligations
PDP4	Standards for Establishing Current Market Value of Eligible Collateral
PDP5	Criteria and Procedures for Reducing/Removing Uninsured Public Deposits From a Bank, or Increasing Collateral Requirements, if the Eligible Public Depository Fails to Comply With Minimum Capital Standards or Safety and Soundness Standards
PDP7	Reporting Requirements
PDP8A	Directors' Examination of Public Deposits
PDP9	Assessments and Fees

III. Statutory authority for proposed rulemaking

The proposed amendment of the rules is being held under the authority given the Banking Board by the Colorado Banking Code in accordance with Section 11-102-104(1), C.R.S., which states "the banking board is the policy-making and rule-making authority for the division of banking and has the power to: (a) make, modify, reverse, and vacate rules for the proper enforcement and administration of this code…"

IV. Opportunity to testify and submit written comments

Any interested person(s) has the right to submit written comments or data, view, or argument. Written information should be filed with the Division no later than January 8, 2018. To submit written comments, please contact Diana Gutierrez, Banking Board Secretary, at diana.gutierrez@state.co.us. In addition, any interested person(s) has the right to make an oral presentation at the Hearing, unless the Banking Board deems any oral presentation unnecessary.

November 17, 2017

STATE BANKING BOARD
RULE 3-CCR 701-4 PDP3
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 107(1)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP3 is found in section 11-10.5-107(1) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to provide clarification as to what eligible collateral is defined as by the Division.

Purpose of this Rulemaking

The purpose of the proposed revision to amend 3-CCR 701-4 PDP3(A)(2) is to reflect technical changes in the definition of Separate Trading of Registered Interest and Paid Principal (STRIPS) and defining Treasury-Inflated Protected Securities (TIPS), which is not currently specified in the rules. The proposed amendment to the rule would read as such:

1. Adding to the parenthesis the full definition of STRIPS. Also, adding TIPS to this item, since TIPS are not currently specified in the rules and it will share some pricing/liquidity characteristics with STRIPS.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP3(A)(3) through 3-CCR 701-4 PDP3(A)(8) to reflect how the Division defines eligible collateral. The proposed amendment to the rule would read as such:

1. (A)(3) shall read: Farm Credit Systemwide Bonds, Notes and Discount Notes, issued as a Federal Farm Credit Bank (FFCB) securities, excluding multi-asset class structured notes.

2. (A)(4) shall read: Federal Home Loan Bank (FHLB) Bonds, Notes and Discount Notes, excluding multi-asset class structured notes.

3. (A)(5) shall read: Federal National Mortgage Association (FNMA or Fannie Mae) Bonds, Notes, Discount Notes and Mortgage-Backed Pass-Through Securities, excluding multi-asset class structured notes.

4. (A)(6) shall read: Federal Home Loan Mortgage Corporation (FHLMC or Freddie Mac) Bonds, Notes, Discount Notes and Mortgage-Backed Pass-Through Securities, excluding multi-asset class structured notes.

5. (A)(7) shall read: Government National Mortgage Association (GNMA or Ginnie Mae) Pass-Through Securities.

6. (A)(8) shall read: Student Loan Marketing Association (SLMA or Sallie Mae) Bonds and Discount Notes, excluding multi-asset class structured notes, excluding debt securities issued by SLM Corporation.

    - In the clarification, only SLMA securities will be accepted. SLM Corporation is the private-sector corporation that is the successor of the Student Loan Marketing Association. SLM has issued debt securities including commercial paper.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP3(A)(9) to reflect a change in the amount of Small Business Administration (SBA) securities a bank is allowed to pledge as a percentage of their total pledging. The 85% haircut of SBA securities combined with the Division being able to obtain independent factors mitigates the need for the limit. The proposed amendment to the rule would be to eliminate the following verbiage:

1. "In no event shall any eligible public depository's pledged collateral portfolio consist of more the 50 percent loans."

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-107 Eligible collateral – uninsured public deposits.

PDP7 Reporting Requirements. [Section 11-10.5-109(1), C.R.S.]

A. On or before the tenth calendar day of each month, each eligible public depository shall list for the Banking Board on the Monthly Public Depository Liability Report:

1. All public deposit account titles (full, complete titles);

2. Each public deposit account's dollar amount as of the last business day of the previous month, or as of the day during the previous month on which the bank experienced its highest single day's aggregate total of uninsured public deposits; however, for the report due each July 10 only, each public deposit account's dollar amount must be reported as of June 30, rather than as of the highest uninsured balance day for June.

3. The dollar amount of each account that is not insured by the FDIC;

4. The official custodian for each account or the identification number assigned to the account by the Division of Banking pursuant to Section 11-10.5-111(3), C.R.S.

5. The aggregate total of all public deposits held on the day upon which the above-required listing was based; and

6. The aggregate market value of the eligible collateral pledged to secure public deposits on the day upon which the above-required listing was based; and

7. For the report due July 10 only, the bank account number(s) must be included for each ~~each~~ public deposit account.

B. On the same Monthly Public Depository Liability Report, each eligible public depository shall report to the Banking Board the bank's highest single day's aggregate total of uninsured public deposits during the previous month and the date on which the bank experienced that highest single day's aggregate total of uninsured public deposits; or, at its option, an eligible public depository may identify each public deposit account's highest uninsured balance during the previous month and report to the Banking Board the aggregate total of those uninsured amounts.

C. A sworn, and notarized, statement shall accompany the Monthly Public Depository Liability Report, certifying that the report is true and correct and that at the close of each business day during the previous month the eligible public depository had sufficient collateral pledged to secure all uninsured public deposits in accordance with the collateralization levels required under the Public Deposit Protection Act and Banking Board's Rule PDP5.

D. On or before the tenth day of each month, each eligible public depository shall report to the Banking Board the following information with respect to each loan pledged by the eligible public depository as eligible collateral:

1. Loan identification number;

2. Name of borrower;

3. Current principal balance;

4. Current interest rate;

5. Maturity date of loan;

6. Original dollar amount of the loan;

7. Date last payment was received; and

8. Date next payment is due.

E. On or before the tenth day of each month, each eligible public depository shall report to the Banking Board the following information with respect to each ~~mortgage-backed pool security~~security with principal balance pledged as eligible collateral:

1. ~~Description of security~~CUSIP number of security; and

2. ~~Joint Custody Receipt Number;~~Current principal balance of mortgage pool or loan backed security.

~~3. Current principal balance of mortgage pool; and~~

~~4. CUSIP number of security.~~

~~F. Thirty (30) days following the end of each fiscal quarter, each eligible public depository must submit a copy of its quarterly call report to the Banking Board, in care of the Colorado Division of Banking, unless the eligible public depository has been notified in writing by the Colorado Division of Banking that hard copy submission of this information is no longer required. The Banking Board hereby authorizes the Colorado Division of Banking to establish a method by which to obtain eligible public depository call report information through alternative electronic sources.~~

BEFORE THE
COLORADO STATE BANKING BOARD

IN THE MATTER OF	)	
	)	**NOTICE OF PROPOSED RULEMAKING**
RULE AMENDMENT	)	

I. Notice of hearing

PLEASE BE ADVISED THAT, as required by Section 24-4-103, C.R.S., of the State Administrative Procedures Act, the Colorado State Banking Board (Banking Board) hereby gives notice of proposed rulemaking. A hearing is scheduled for January 18, 2018, commencing at 10:00 a.m., at 1560 Broadway, Suite 975, Denver, Colorado, Division of Banking (Division) Conference Room, which facility is accessible in compliance with the Americans with Disabilities Act (ADA) guidelines.

II. Purpose of the proposed rulemaking

The purpose of the hearing is to hear comments concerning the proposed amendment of the following Banking Board Rules to update the rules to reflect changes made to the Prompt Corrective Action Guidelines, effective January 1, 2015. A Statement of Basis, Purpose, and Specific Statutory Authority for each rule follows this notice and is incorporated by reference.

PDP1	Capital Standards for Eligible Public Depositories
PDP3	List of Approved eligible Collateral Instruments and Obligations
PDP4	Standards for Establishing Current Market Value of Eligible Collateral
PDP5	Criteria and Procedures for Reducing/Removing Uninsured Public Deposits From a Bank, or Increasing Collateral Requirements, if the Eligible Public Depository Fails to Comply With Minimum Capital Standards or Safety and Soundness Standards
PDP7	Reporting Requirements
PDP8A	Directors' Examination of Public Deposits
PDP9	Assessments and Fees

III. Statutory authority for proposed rulemaking

The proposed amendment of the rules is being held under the authority given the Banking Board by the Colorado Banking Code in accordance with Section 11-102-104(1), C.R.S., which states "the banking board is the policy-making and rule-making authority for the division of banking and has the power to: (a) make, modify, reverse, and vacate rules for the proper enforcement and administration of this code…"

IV. Opportunity to testify and submit written comments

Any interested person(s) has the right to submit written comments or data, view, or argument. Written information should be filed with the Division no later than January 8, 2018. To submit written comments, please contact Diana Gutierrez, Banking Board Secretary, at diana.gutierrez@state.co.us. In addition, any interested person(s) has the right to make an oral presentation at the Hearing, unless the Banking Board deems any oral presentation unnecessary.

Division of Banking

1560 Broadway, Suite 975
Denver, CO 80202

November 17, 2017

STATE BANKING BOARD
RULE 3-CCR 701-4 PDP7
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 109(1)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP7 is found in section 11-10.5-109(1) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to provide clarification and updates to language in the current rules and technical updates to standard practice for reporting requirements.

Purpose of this Rulemaking

The purpose of the proposed revision to amend 3-CCR 701-4 PDP7(A) to reflect technical changes in the definition of what is meant for reporting requirements. The addition of the word "calendar" to specify timing restrictions in which each eligible public depository shall list for the Banking Board on the Monthly Public Depository Liability Report has added to clarify timing. Previous interpretation by some banks was that the reporting was not due until the tenth business day of the month. In addition the recommended revision to subpart (A)(7) would add an underline to the word 'each' and the proposed amendment to the rule would read as such:

1. Adding the word "calendar" to clarify that the reporting institution has until the tenth calendar day to report. Revised language would now state:
    a. On or before the tenth calendar day of each month, each eligible public depository shall list for the Banking Board on the Monthly Public Depository Liability Report.
2. Adding the underline to the word 'each' to clarify that banks need each account number when providing the report. Revised language is reflected below:
    a. PDP7)A)(7) shall read: For the report due July 10 only, the bank account number(s) must be included for each public deposit account.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP7(E) to delete subpart 1 and 2 as the Division no longer relies on banks for the description of security and joint custody receipt number. The Division obtains a factor of each of the MBS, CMOs and SBAs pledged once a month. If necessary, the Division can also look for a factor on-demand. The proposed amendment to the rule would read as such:

1. (E)(1) delete: Description of security.

2. (E)(2) delete: Joint Custody Receipt Number.

The purpose of the proposed rulemaking is to amend 3-CCR 701-4 PDP7(E) to reflect changes as listed above. The removal of subpart 1 and 2 will move subpart 3 and 4 to new positions as well as reflect new language to subpart 3 to reflect as such:

1. (E)(3) shall read: Current principal balance of mortgage pool or loan backed security (move to #2).
2. (E)(4) shall read: CUSIP number of security (move to #1).

.

The purpose of the proposed rulemaking is to delete 3-CCR 701-4 PDP7(F) because the requirement stated in subpart (F) has not been required from PDPA banks for many years. The Division can access Call Report information at any time. All information regarding updated capital ratios from the UBPR/Call Report are uploaded into BIDS system. The proposed deletion of the verbiage would eliminate subpart (F) in PDP7. The requirement is also part of C.R.S. 11-10.5-109 (1) which reads: "In addition, each eligible public depository shall submit copies of its quarterly call reports to the banking board thirty days after the close of each fiscal quarter." The following amendment to the rule would be to eliminate the following verbiage:

1. "Thirty (30) days following the end of each fiscal quarter, each eligible public depository must submit a copy of its quarterly call report to the Banking Board, in care of the Colorado Division of Banking, unless the eligible public depository has been notified in writing by the Colorado Division of Banking that hard copy submission of this information is no longer required. The Banking Board hereby authorizes the Colorado Division of Banking to establish a method by which to obtain eligible public depository call report information through alternative electronic sources."

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-109 Verification of collateral held – reports required.

PDP9 Assessments and Fees. [Sections 11-10.5-106(3)(a)(III)]; [11-10.5-109(4); and 11-10.5-112(2), C.R.S.]

A. Assessments

1. In order to cover the expenses, net of fee income of the Division of Banking for the supervision of eligible public depositories, each eligible public depository shall be assessed annually, as of June 30.

2. On June 30 of each year each eligible public depository shall be subject to the full assessment without proration for any reason.

3. Assessments for all eligible public depositories shall be calculated according to the proportion of aggregate public deposits that each depository holds in relation to the total of all aggregate public deposits held by all eligible public depositories for each annual period for which they were eligible public depositories. Assessments may also be based on other factors as determined by the Banking Board, consistently applied.

B. Fees

1. The Banking Board shall set fees annually by publishing a schedule of fees for services as of July 1 of each year.

2. Such schedule shall list all services performed that are subject to a fee and the fee to be charged. In addition, the fee schedule shall list fees set by statute, if any.

C. Payment of Assessments and Fees.

1. Assessments and fees shall be remitted to the "Division of Banking" in ~~the form of a cashier's check or similar instrument payable to the "Colorado Division of Banking~~a form approved by the Division.~~."~~

2. The assessment and any fee relating to examinations shall be paid within twenty (20) days after a statement of the amount thereof shall have been received by the eligible public depository.

3. All other fees shall be paid at the time the service is rendered. Service relating to statutory application or notice is deemed to be rendered at the time of filing application or notice.

RULE 3-CCR 701-4 PDP9
PERTAINING TO TITLE 11, ARTICLE 10.5, SECTION 106(3)(a)(III); 109(4); 112(2)
COLORADO REVISED STATUTES

STATEMENT OF BASIS, PURPOSE AND SPECIFIC AUTHORITY

Statutory Basis

The statutory basis for Banking Board Rule 3-CCR 701-4 PDP9 is found in section 11-10.5-106(3)(a)(III); 11-10.5-109(4) and 11-10.5-112(2) of the Colorado Revised Statutes (C.R.S.). The purpose of this rule modification is to provide clarification and technical language clean-up to how payment of assessments and fees should be provided to the Division. The updated reflects the new procedures of only accepting electronic payments.

Purpose of this Rulemaking

The purpose of the proposed revision to amend 3-CCR 701-4 PDP9(C)(1) to reflect technical changes in the definition how the Division of Banking shall receive assessments and fees. The proposed amendment to the rule would read as such:

1. (C)(1) shall read: Assessments and fees shall be remitted to the "Division of Banking" in a form approved by the Division.

Rulemaking Authority

11-101-102. Declaration of policy.
11-102-104. Powers and duties of the banking board.
11-10.5-106. Designation as eligible public depository – acceptance provisions.
11-10.5-109. Verification of collateral held – reports required.

DEPARTMENT OF REGULATORY AGENCIES

Division of Insurance

3 CCR 702-4

LIFE, ACCIDENT AND HEALTH

Proposed Amended Regulation 4-2-1

REPLACEMENT OF INDIVIDUAL ACCIDENT AND SICKNESS INSURANCE

Section 1 Authority

This amended regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109 and 10-3-1110, C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to reduce the opportunity for misrepresentation and other unfair practices and methods of competition in the business of insurance. The scope of this regulation includes persons covered by an individual health care coverage plan offered by a health maintenance organization and individual accident and sickness insurance policies or plans, who are considering replacement of their coverage.

Section 3 Applicability

This regulation shall apply to individual accident and sickness insurance policies and all service or indemnity contracts offered by entities subject to Part 2, Part 3 and Part 4 of Article 16 of Title 10. ~~(~~except ~~Medicare supplement insurance,~~ conversion to an individual or family policy from a group, blanket or group type policy, or any other insurance that is covered by a separate state statute~~)~~.

Section 4 Definitions

A. "Accident and sickness insurance" means, for the purposes of this regulation, a policy, plan, contract, agreement, statement of coverage, rider or endorsement that provides accident or

sickness benefits or medical, surgical or hospital benefits, whether on an indemnity, reimbursement, service or prepaid basis, except when issued in connection with another kind of insurance other than life and except disability, waiver of premium and double indemnity benefits included in life insurance and annuity contracts. ~~An accident and sickness insurance policy does not include a Medicare supplement insurance policy or any other type of accident and sickness insurance with advertising guidelines covered by a separate statute.~~ For the purposes of this regulation, accident and sickness insurance includes health coverage plans~~, issued by carriers as defined in § 10-16-102(8), C.R.S.~~

B. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.

C. "Direct response" means, for the purposes of this regulation, a solicitation through a sponsoring or endorsing entity or individually, solely through mail, telephone, the ~~i~~internet, or other mass communication media.

D. "Health benefit plan" shall have the same meaning as found at § 10-16-102(32), C.R.S.

E. "Health coverage plan" shall have the same meaning as found at § 10-16-102(34), C.R.S.

Section 5 Rules

A. Application forms shall include the following questions designed to elicit information as to whether, as of the date of the application, the applicant has an accident and sickness insurance policy or health coverage plan in force, or whether an accident and sickness insurance policy or health coverage plan is intended to replace or be in addition to any other accident and sickness insurance policy or health coverage plan presently in force. A supplementary application or other form to be signed by the applicant and producer containing such questions and statements may be used.

1. Statements

a. You normally do not require more than one of the same type of policy.

b. If you purchase this policy, you may want to evaluate your existing health coverage and decide if you need multiple coverages.

c. You may be eligible for benefits under Medicaid or Medicare and may not need an accident and sickness policy. If you are eligible for Medicare, you may want to purchase a Medicare ~~S~~supplemental ~~al~~ insurance policy.

d. If you are eligible for Medicare due to age or disability, counseling services are available in Colorado to provide advice concerning your purchase of Medicare supplement insurance and concerning medical assistance through the state Medicaid program, Health First Colorado.

2. Questions

To the best of your knowledge:

a. Do you have another accident and sickness insurance policy ~~or contract~~ in force?

(1) If so, with which company?

(2) If so, do you intend to replace your current accident and sickness insurance policy with this policy ~~(contract)~~?

b. Do you have any other accident and sickness insurance that provides benefits similar to this accident and sickness policy?

(1) If so, with which company?

(2) What kind of policy?

c. Are you covered for medical assistance through the state Medicaid program, Health First Colorado:

(1) As a Specified Low-Income Medicare Beneficiary (SLMB)?

(2) As a Qualified Medicare Beneficiary (QMB)?

(3) For other Medicaid medical benefits?

B. Producers must list ~~any~~all other accident and sickness insurance policies they have sold to the applicant.

1. List policies sold which are still in force; and

2. List policies sold in the past five (5) years which are no longer in force.

C. In the case of a direct response carrier, a copy of the application or supplemental form, signed by the applicant, and acknowledged by the carrier, shall be returned to the applicant by the carrier upon delivery of the policy.

D. Delivery of Replacement Notice

1. Upon determining that a sale will involve replacement of an accident and sickness insurance policy or health coverage plan, a carrier, other than a direct response carrier, or its producer, shall furnish the applicant, prior to issuance or delivery of the accident and sickness insurance policy or ~~contract~~ health coverage plan, a notice regarding replacement of accident and sickness insurance. One (1) copy of such notice signed by the applicant and producer, except where the coverage is sold without a producer, must~~shall~~ be provided to the applicant and an additional signed copy must~~shall~~ be retained by the carrier.

2. A direct response carrier must~~shall~~ deliver to the applicant, at the time of issuance of the policy, the appropriate notice, located in Appendix A or B~~, or C~~ of this regulation.

~~E. The notice contained in Appendix A shall be used through December 31, 2013. The notices contained in Appendix B and C shall be used on or after January 1, 2014.~~

~~F~~E. The notices required by ~~S~~subsection 5.D~~. above for a carrier,~~ must be provided in the format prescribed and adopted by the Commissioner of Insurance and are provided in Appendices A and B of this regulation.

~~G. Paragraphs 1 and 2, contained in Appendix A, may be deleted by appe carrier if the replacement does not involve the application of a new preexisting condition limitation.~~

~~H~~F. Paragraph 1. ~~in~~ of the notices provided in ~~Appendix~~Appendices A and B, may be deleted by the carrier if the replacement does not involve the application of a new pre-existing condition limitation.

~~I~~G. Failure to comply with the requirements of this ~~S~~section 5 constitutes an unfair method of competition and an unfair or deceptive act or practice in the business of insurance which is prohibited under § 10-3-1104, C.R.S.

Section 6 Additional Rules for the Replacement of Health Benefit Plans

A. Carriers are not required to provide the notice in Appendix B when an applicant is replacing his or her current individual health benefit plan with another individual health benefit plan during the annual open enrollment period or if the replacement is due to eligibility for a special enrollment due to one or more of the triggering events listed in Colorado Insurance Regulation 4-2-43.

B. Carriers are required to provide the notice in Appendix B when an applicant is replacing his or her current individual health benefit plan with an accident and sickness insurance policy or health coverage plan which does not meet the definition of a health benefit plan.

Section 7 Incorporation by Reference

Colorado Insurance Regulation 4-2-43, 3 CCR 702-4 published by the Colorado Division of Insurance shall mean Colorado Insurance Regulation 4-2-43, 3 CCR 702-4 as published on the effective date of this regulation and does not include later amendments to, or editions of, Colorado Insurance Regulation 4-2-43, 3 CCR 702-4. Colorado Insurance Regulation 4-2-43, 3 CCR 702-4 may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado 80202 or by visiting the Colorado Division of Insurance website at www.dora.colorado.gov/insurance. Certified copies of Colorado Insurance Regulation 4-2-43, 3 CCR 702-4 are available from the Division of Insurance for a fee.

Section ~~6~~8 Severability

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section ~~7~~9 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section ~~8~~10 Effective Date

This regulation is effective ~~November~~ April 1, 201~~3~~8.

Section ~~9~~11 History

Originally issued as Regulation 74-2, effective March 15, 1974.
Amended December 22, 1975, effective January 1, 1976.
Amended effective January 14, 1977.
~~Amended effective January 14, 1977.~~
Renumbered on June 1, 1992.
Repealed and Repromulgated in full, effective February 1, 2001.
Amended Regulation 4-2-1, effective May 1, 2010.
Amended Regulation effective November 1, 2013.
Amended Regulation effective April 1, 2018.

Appendix A

NOTICE TO APPLICANT

REGARDING REPLACEMENT OF ACCIDENT

AND SICKNESS INSURANCE

[Insurance Carrier name and address]

According to (your application) (the information furnished by you), you intend to lapse or otherwise terminate your present policy and replace it with a policy to be issued by [Insurance Carrier Name]. Your new policy will provide [Number days of free look period, if any] days within which you may decide without cost whether you desire to keep the policy.

You should review this new coverage carefully. Compare it with all accident and sickness coverage you now have. If, after due consideration, you find the purchase of this accident and sickness coverage is a wise decision you should evaluate the need for other accident and sickness coverage you have that may duplicate this policy.

STATEMENT TO APPLICANT BY ISSUER OR PRODUCER:

I have reviewed your current accident and sickness insurance coverage. To the best of my knowledge, this accident and sickness policy will not duplicate your existing coverage because you intend to terminate your existing coverage. The replacement policy is being purchased for the following reason(s) (check one):

_____ Additional benefits

_____ No change in benefits, but lower premiums

_____ Fewer benefits and lower premiums

_____ Other. (please specify)

1. Health conditions which you may presently have (preexisting conditions) may not be immediately or fully covered under the new policy. This could result in denial or delay of claim for benefits under the new policy, whereas a similar claim may have been payable under your present policy.

2. State law provides that your replacement policy or contract may not contain new preexisting conditions, waiting periods, elimination periods or probationary periods. The issuer will waive any time periods applicable to preexisting conditions, waiting periods, elimination periods, or probationary periods in the new policy (or coverage) for similar benefits to the extent such time was spent (depleted) under the original policy.

3. If you wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical and health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy has never been in force. After the application has been completed and before you sign it, review it carefully to be certain that all information has been properly recorded. [If the policy or contract is guaranteed issued this paragraph need not appear].

~~Do not cancel your present policy until you have received your new policy and are sure that you want to keep it.~~

NOTICE OF RULEMAKING HEARING

Pursuant to §12-23-104(2)(a) of the Colorado Revised Statutes, you are hereby advised that the Colorado State Electrical Board will be holding a public rulemaking hearing on Monday January 22, 2018, commencing at 9:00 a.m. at 1560 Broadway #110-D, Denver, Colorado for the purpose of considering the following.

The Board will consider the revision and repeal of the following rules and regulations:

Rule 7.2.5.9 Reinspection Fees (Revisions)
Rule 8.3.3 Fines (Revisions)
Rule 11.2 Reinstatement (Revisions)
Rule 11.3.7 Exemptions (Repeal)

The proposed rules under consideration are attached. Please be advised that these proposed rules may be changed after public comment and formal hearing.

At the time and place stated in this notice, the Colorado State Electrical Board will afford interested parties an opportunity to submit written data, views, or arguments, and to submit briefly (3 minutes per item) the same orally if they so desire. It is **requested that written testimony be submitted to the Colorado State Electrical Board at least ten (10) days prior to the rulemaking hearing.** All submissions should be addressed to the attention of Mark Browne, Program Director, Colorado Electrical Board, 1560 Broadway, Suite 1350, Denver, Colorado 80202, or email to mark.browne@state.co.us. All submissions will be considered.

Dated this 28th day of November 2017

BY ORDER OF THE COLORADO STATE ELECTRICAL BOARD

Mark Browne, Program Director

STATEMENT OF BASIS AND PURPOSE

Statement of Basis: The Colorado State Electrical Board is authorized under § 12-23-104(2)(a), and § 24-4-103, of the Colorado Revised Statutes to adopt, revise, and repeal rules and regulations as may be necessary for the orderly conduct of its affairs and for the administration of Article 23 of Title 12, C.R.S.

Statement of Purpose: The purpose of the revision of Rule 7.2.5.9, Rule 8.3.3 and Rule 11.2 and repeal of the Rule 11.3.7 stemming from the Office of Legislative Legal Services for the general clarification, cleanup, and efficient management of the State Electrical Board, and for the safeguard of the general public.

The revision and repeal of these rules shall become effective March 17th 2018

Proposed Electrical Board Rule Changes

Redline copy of changes

7.2.5.9 As used in § 12-23-118(1)(c), C.R.S., the term "reasonable time" shall mean thirty (30) calendar days., unless the licensee or registrant appeals to the Board for a hearing on the matter, in which case the thirty (30) calendar day time period shall be extended by the Board until the Board rules on the appeal. The thirty (30) calendar day time period shall restart after the Board issues a ruling on the appeal.

8.3.3 **Fines**

8.3.3.1 If one of the following actions has not been taken by the citation recipient within ten (10) working days following the service of the citation, the citation shall become a final Board action: A. Full payment of the fine;

B. Written request for negotiation of a stipulated settlement agreement; ~~or,~~

C. Written request for a formal administrative hearing; or

D. Written request, demonstrating good cause, ~~for a~~ to the Board for a hearing ~~for~~ good cause shown on the citation.

11.2 **Reinstatement**. An expired license may be reinstated by submitting a reinstatement application, paying the current reinstatement fee, and meeting the appropriate requirements below.

11.2.1 Expired for More than Sixty (60) Days But Less Than ~~Less Than Three (3)~~ Two (2) ~~or More~~ Years. To reinstate a license that has been expired for ~~less than three (3)~~ more than sixty (60) days but less than two (2) years, the applicant must provide evidence of completion, since applicant's most recent licensing event (original license, renewal or reinstatement) preceding the application for reinstatement, of twenty-four (24) hours of continuing education, as defined in Board Rule 11.3.

11.2.2 Expired for More Than ~~Three (3)~~ Two (2) Years. If the license has been expired for more than ~~three (3)~~ two (2) years, pursuant to § 24-34-102(8)(d)(II), C.R.S. the applicant must demonstrate competency to practice by any of the following:

~~11.3.7 **Exemptions.** The Board may grant an exemption from continuing education requirements set out in Board Rule 11.3. It is within the sole discretion of the Board to decide whether good cause has been shown in order to grant an exemption.~~

~~11.3.7.1 Pursuant to section § 12-70-102, C.R.S., licensees who have been called to federally funded active duty for more than 120 days for the purpose of serving in a war, emergency or contingency may request an exemption from continuing education requirements for the renewal, reinstatement, or activation of his/her license for the 3-year renewal period that falls within the period of service or within six months following the completion of service.~~

~~11.3.7.2 Licensees seeking exemption from continuing education requirements shall provide evidence and written explanation citing in as much detail as possible the inability of the licensee to comply with continuing education requirements for the renewal period and why the license~~ should remain in active status.

RULES REGULATING TRANSPORTATION BY MOTOR VEHICLE

Rulemaking Hearing

Date

02/20/2018

Time

09:00 AM

Location

Colorado Public Utilities Commission Hearing Room, 1560 Broadway Suite 250

Subjects and issues involved

The purpose of the proposed rules is to describe the manner of regulation over persons providing transportation service by motor vehicle in the State of Colorado. The proposed rules enhance public safety, protect consumers of regulated transportation utilities, serve the public interest, and make the rules more effective and efficient. The proposed rules provide for clarity, necessity and conciseness and those rules found to be duplicative, inconsistent, or burdensome are repealed. There will be two Rulemaking Hearings. One on February 20, 2018 at 9:00 a.m. and the other on February 21, 2018 at 10:00 a.m.

Statutory authority

§§ 24-4-104(4), 40-2-108, 40-2-110.5, 40-3-101, 40-3-102, 40-3-103, 40-3-110, 40-4-101, 40-5-105, 40-7-113(2), 40-10.1.101 through 507; 42-4-235; 42-4-1809(2)(a), 42-4-2108(2)(a), and 42-20-202(1)(a), C.R.S.

4 *CODE OF COLORADO REGULATIONS* (CCR) 723-6

PART 6
RULES REGULATING TRANSPORTATION BY MOTOR VEHICLE

BASIS, PURPOSE, AND STATUTORY AUTHORITY

The basis for and purpose of these rules is to describe the manner of regulation over persons providing transportation services by motor vehicle in or through the state of Colorado. These rules address a wide variety of subject areas including, but not limited to, safety; civil penalties; the issuance, extension, transfer, and revocation of authority to operate as a motor carrier; insurance and permit requirements; tariff and time schedule requirements; the identification, condition, and leasing of motor vehicles; record keeping; and service standards. These rules cover an array of carriers, including common carriers, contract carriers, hazardous materials carriers, towing carriers, movers, limited regulation carriers (charter buses, children's activity buses, luxury limousines, off-road scenic charters, and fire crew transport), and transportation network companies. In addition, these rules cover persons required to register under the Unified Carrier Registration Agreement, pursuant to 49 U.S.C. § 14504a, including motor carriers, motor private carries, freight forwarders, brokers, leasing companies, and other persons.

The statutory authority for the promulgation of these rules can be found at §§ 40-2-108, 40-2-110.5(8), 40-3-101(1), 40-3-102, 40-3-103, 40-3-110, 40-4-101, 40-5-105, 40-7-113(2), 40-10.1-101 through 608;42-4-235, 42-4-1809(2)(a), 42-4-2108(2)(a), and 42-20-202(1)(a), C.R.S.

GENERAL PROVISIONS

6000. Scope and Applicability.

All rules in this Part 6, the "6000" series, shall apply to all Commission proceedings and operations concerning regulated entities providing transportation by motor vehicle, unless a specific statute or rule provides otherwise. Rules 6000 – 6099 apply to all common carriers, contract carriers, limited regulation carriers, towing carriers, movers, UCR registrants, and drivers as defined herein. For hazardous materials carriers and nuclear materials carriers, only rule 6008 and the related definitions in rule 6001 shall apply. Rules 6700 – 6724 apply to all transportation network companies. Specific provisions regarding the applicability of this Part 6 can be found in rules 6100, 6200, 6250, 6300, 6400, 6500, 6600, and 6700.

6001. Definitions.

The following definitions apply throughout this Part 6, except where a specific rule or statute provides otherwise:

(a) "Advertise" means to advise, announce, give notice of, publish, or call attention to by use of any oral, written, or graphic statement made in a newspaper or other publication, on radio, television, or any electronic medium, or contained in any notice, handbill, sign (including signage on a vehicle), flyer, catalog, or letter, or printed on or contained in any tag or label attached to or accompanying any article of personal property.

(b) "Airport official" means any person, designated by the airport's management or administration, who is connected with the operation, maintenance, security or servicing of the airport and identified by an airport identification badge.

(~~b~~c) "Authority," except as otherwise defined or contextually required, means a common carrier certificate, a contract carrier permit, or an emergency temporary authority or a temporary authority issued by the Commission to a regulated intrastate carrier that specifies the authorized common carrier type of service or contract carrier service, the authorized ~~geography~~ geographic area of service, and any restrictions limiting the authorized service.

(d) "Call-and-demand", "on call-and-demand", or "call-and-demand service" means the transportation of passengers by a common carrier not on schedule.

(e) "CBI" means the Colorado Bureau of Investigation.

(~~e~~f) "Certificate" means the certificate of public convenience and necessity issued to a common carrier declaring that the present or future public convenience and necessity requires or will require stated operation.

(~~d~~g) "C.F.R." means the Code of Federal Regulations.

(h) "Charter basis" means on the basis of a contract for transportation whereby a person agrees to provide exclusive use of a motor vehicle to a single chartering party for a specific period of time, during which the chartering party has the exclusive right to direct the operation of the vehicle, including selection of the origin, destination, route, and intermediate stops.

(i) "Charter order" means a paper or electronic document that memorializes the contract for luxury limousine or off-road scenic charter service for a specific period of time reasonably calculated to fulfill the purpose of the contract.

(j) "Chartering party" means a person or group of persons who share a personal or professional relationship whereby all such persons are members of the same affiliated group, including, a family, business, religious group, social organization or professional organization. Chartering party does not include groups of unrelated persons brought together by a carrier, transportation broker, or other third party.

(k) "Charter service" means transportation of a chartering party provided by a common carrier on a call-and-demand basis.

(l) "Common carrier" means every person directly or indirectly affording a means of transportation, or any service or facility in connection therewith, within this state, by motor vehicle or the vehicle whatever by indiscriminately accepting and carrying passengers for compensation; except that the term does not include a contract carrier as defined by § 40-10.1-101(6), C.R.S.; a motor carrier that provides transportation not subject to regulation pursuant to § 40-10.1-105, C.R.S.; a limited regulation carrier defined by § 40-10.1-301, C.R.S.; or a Transportation Network Company defined under § 40-10.1-602, C.R.S.

(~~e~~m) "Compensation" means any money, property, service, or thing of value charged or received or to be charged or received, whether directly or indirectly.

(n) "Contract carrier" means every person, other than a common carrier or a motor carrier of passengers under Part 3 of Article 10.1 of Title 40, C.R.S. who, by special contract, directly or indirectly affords a means of passenger transportation over any public highway of this state.

(o) "DIA" means the Denver International Airport.

(~~g~~p) "Driver" means ~~any~~ a person who drives a motor vehicle for a motor carrier, regardless of whether such person drives as an employee or independent contractor.

(q) "Driving time" means all time spent at the driving controls of a motor vehicle operating in a for-hire capacity.

(r) "Duplicating or overlapping authority" means transportation of the same common carrier type of service between the same points under two or more separate authorities which are held by the same regulated intrastate carrier.

(~~h~~s) "Encumbrance" means any transaction that creates a security interest, mortgage, deed of trust, lien, or other similar right or interest, by act or deed or by operation of law.

(~~i~~t) "Enforcement official" means either:

(I) any employee or independent contractor appointed or hired by the director, or the director's designee, to perform any function associated with the regulation of transportation by motor vehicle; or

(II) "enforcement official," as that term is defined by § 42-20-103(2), C.R.S.

(u) "FBI" means the Federal Bureau of Investigation.

(v) "Flag stop" means a point of service designated by a common carrier on its filed schedule, which point is located between two scheduled points on the scheduled route.

(~~j~~w) "FMCSA" means the Federal Motor Carrier Safety Administration and includes predecessor or successor agencies performing similar duties.

(~~k~~x) "GCWR" means gross combination weight rating, the value specified by the manufacturer as the loaded weight of a combination (articulated) motor vehicle. In the absence of a value specified by the manufacturer, GCWR is determined by adding the GVWR of the power unit and the total weight of the towed unit and any load thereon.

(~~l~~y) "GVWR" means gross vehicle weight rating, the value specified by the manufacturer as the loaded weight of a single motor vehicle.

(~~m~~z) "Hazardous materials carrier" means a person who transports hazardous materials as defined in § 42-20-103(3), C.R.S.

(~~n~~aa) "Holidays" means those days designated as legal holidays by the Colorado General Assembly.

(~~o~~bb) "Independent contractor" means "independent contractor" as that term is used in Article 11.5 of Title 40, C.R.S.

(~~þ~~cc) "Intrastate commerce" means transportation, other than in interstate commerce, for compensation, by motor vehicle over the public highways between points in this state.

(~~q~~dd) "Letter of authority" means a document issued by the Commission to a common or contract carrier stating the permanent authority granted by the Commission~~,~~. A letter of authority is deemed to provide proof of Commission-granted common or contract carrier authority.

(~~r~~ee) "Limited regulation carrier" means a person who provides service by charter bus, children's activity bus, fire crew transport, luxury limousine, Medicaid client transport, or off-road scenic charter as those terms are defined in § 40-10.1-301, C.R.S.

(ff) "Live meter" means any taxicab meter that, without intervention from the driver, automatically calculates changes in rates for taxicab service due to waiting time, traffic delay, or changes in the taxicab's speed.

(gg) "Luxury limousine carrier" means every person that provides luxury limousine service.

(hh) "Luxury limousine service" means a specialized, luxurious transportation service provided on a prearranged charter basis memorialized in a contract. Luxury limousine service is not taxicab service or any service provided between fixed points over regular routes at regular intervals. Luxury limousine service must be provided in a luxury limousine as defined in rule 6308.

(~~s~~ii) "Manufacturer" means the final person modifying the physical structure of a motor vehicle, such as the original manufacturer or a person subsequently modifying a motor vehicle's wheelbase in a luxury limousine.

(jj~~t~~) "Meter" means a device that calculates charges for passenger transportation and/or measurement of distance travelled by a passenger.

(kk~~u~~) "Motor carrier" means any person owning, controlling, operating, or managing any motor vehicle that provides transportation in intrastate commerce pursuant to Article 10.1 of Title 40, C.R.S.

(ll~~v~~) "Motor vehicle" means any automobile, truck, tractor, motor bus, or other self-propelled vehicle or any trailer drawn thereby.

(mm) "Multiple loading" means the sharing of a taxicab ride, or portion thereof, by unrelated traveling parties.

(~~w~~nn) "Nuclear materials carrier" means a person who transports nuclear materials as defined in § 42-20-402(3), C.R.S.

(oo) "On duty" means on duty time as defined by 49 C.F.R. § 395.2.

(~~x~~pp) "Passenger," except as otherwise specifically defined or contextually required, means any person, other than a driver, occupying a motor vehicle including any assistance animals as defined in § 24-34-803, C.R.S.

(qq) "Passenger carrier" means a taxicab carrier and a limited regulation carrier, except for fire crew transport.

(~~y~~rr) "Permit" means the permit issued to a contract carrier pursuant to part 2 of Article 10.1 of Title 40, C.R.S., or to a motor carrier pursuant to parts 3, 4, and 5 of said Article.

(~~z~~ss) "Person" means any individual, firm, partnership, corporation, company, association, joint stock association, or other legal entity and any person acting as or in the capacity of lessee, trustee, or receiver thereof, whether appointed by a court or otherwise.

(tt) "Prearranged" means that the charter order for luxury limousine service is entered into electronically or telephonically prior to provision of the service, or entered into in writing prior to the arrival of the luxury limousine at the point of departure.

(~~aa~~uu) "Principal" means a person who:

(I) necessarily participates or abstains in a firm, partnership, corporation, company, association, joint stock association, or other legal entity taking an action as an entity;

(II) is authorized to act on behalf of an entity;

(III) participates in the election, appointment, or hiring of persons that are authorized to act on behalf of an entity; and

(IV) through his/her conduct or activity, directly or indirectly controls an entity subject to the Commission's jurisdiction, irrespective of his/her formal title or financial interest in the entity.

Examples of principals include the owner of a sole proprietorship, a member or manager of a limited liability company, a partner in a partnership, and an officer, director, or shareholder of a corporation.

(~~bb~~vv) "Regulated intrastate carrier" means a public utility declared to be affected with a public interest that is a common carrier and/or a contract carrier.

(~~cc~~ww) "Roof light" means equipment attached to the roof of a vehicle or extending above the roofline of a vehicle.

(xx) "Scheduled service", "on schedule", or "schedule" means the transportation of passengers by a common carrier between fixed points and over designated routes at established times as specified in the common carrier's time schedule filed with and approved by the Commission.

(~~dd~~yy) "Seating capacity" means, the greatest of the following:

(I) ~~Except as otherwise specifically defined or contextually required, and in the absence of the manufacturer-rated number of seating positions in a motor vehicle, "seating capacity" means the greatest of the following~~the total number of seats as designed by the original manufacturer~~:~~;

(~~A~~II) the total number of seat belts, including the driver's, in a motor vehicle; ~~or~~

(~~B~~III) the number generated by adding:

(~~i~~A) for each bench or split-bench seat, the seat's width in inches, divided by 17 inches, rounded to the nearest whole number;

(B~~ii~~) the number of single-occupancy seats, including the driver's seat if it is not part of a split-bench seat; and

(C~~iii~~) for each curved seat, the seat's width in inches measured along the inside arc of the curve, divided by 17 inches, rounded down to the nearest whole number~~.~~; and

(I~~I~~V) the total number of seating positions within the vehicle.

(V) Auxiliary seating positions, such as folding jump seats, shall be counted in determining seating capacity.

(zz) "Shuttle service" means the transportation of passengers by a common carrier on a call-and-demand basis charged at a per-person rate and used of the motor vehicle is not exclusive to any individual or group.

(aaa) "Sightseeing service" means the transportation of passengers by a common carrier on a call-and-demand basis originating and terminating at the same point for the sole purpose of viewing or visiting places or natural, historic, or scenic interest.

(bbb) "Taxicab" means a motor vehicle with a seating capacity of eight or less, including the driver, operated in taxicab service.

(ccc) "Taxicab carrier" means a common carrier with authority to provide taxicab service.

(ddd) "Taxicab service" or "taxi service" means passenger transportation by a common carrier on a call-and-demand basis in a taxicab, with the first passenger therein

(eee) "Time call" means a customer's communication with a common carrier requesting a specific date and time for service (otherwise known as an appointment), or the common carrier's service provided in response to the customer's communication, as the context requires.

(ee~~fff~~) "Transportation broker" means a person, ~~other than a motor carrier or as part of a motor carrier's operations,~~ who, for compensation, arranges, or offers to arrange, for-hire, transportation of passengers by a motor carrier under authority not operated by the transportation broker. A transportation broker is not an agent of a motor carrier authorized to provide the brokered transportation and, therefore, cannot represent itself as ~~a~~ the motor carrier providing the transportation, cannot provide or offer to provide transportation service, and cannot be a party to the contract for transportation. A motor carrier, including a person who is an employee or agent of the motor carrier, is not a broker within the meaning of this definition when it arranges or offers to arrange transportation under such motor carrier's authority.

(ggg) "Transportation network company" (TNC) means a corporation, partnership, sole proprietorship, or other entity operating in Colorado, that uses a digital network to connect riders to drivers for the purpose of providing transportation. A transportation network company does not provide taxi service, transportation service arranges through a transportation broker, ridesharing arrangements, as defined in § 39-22-509(1)(a)(II), C.R.S., or ay transportation service over fixed routes at regular intervals. A transportation network company is not deemed to own, control, operate, or manage the personal vehicles used by transportation network company drivers. A transportation network company does not include a political subdivision or other entity exempted from federal income tax under § 115 of the federal "Internal Revenue Code of 1986", as amended.

(hhh~~ff~~) "Type of service" means any one of the following common carrier services: charter, ~~limousine,~~ shuttle, sightseeing, taxicab, or scheduled.

6002. Authority and Permit ~~Requirements -~~ Applications.

A person may seek Commission action regarding any of the following matters through the filing of an appropriate application:

(a) ~~F~~for the grant or extension of authority to operate as a regulated intrastate carrier, as provided in rule 6203~~.~~;

(b) ~~T~~to voluntarily abandon or suspend an authority to operate as a regulated intrastate carrier, as provided in rule 6204~~.~~;

(c) t~~T~~o encumber or transfer any authority to operate as a regulated intrastate carrier, to acquire control of any regulated intrastate carrier, or to merge or consolidate a regulated intrastate carrier with any other entity, as provided in rule 6205~~.~~;

(d) ~~T~~to amend a tariff on less than statutory notice, as provided in paragraph 6207(~~j~~n)~~.~~;

(e) to convert a common carrier authority for taxi or shuttle service, in whole or in part, to a transportation network company as provided in § 40-10.1-605(n), C.R.S. and rules 6259;

(e) ~~F~~for a permit to operate as a limited regulation carrier on a Commission-prescribed form~~.~~;

(f) ~~F~~for a permit to operate as a towing carrier on a Commission-prescribed form~~.~~; or

(g) ~~F~~for a permit to operate as a mover on a Commission-prescribed form.

6003. Petitions.

Any person may petition the Commission for a waiver or variance of any rule in this Part 6 as provided in rule 1003 of the Commission's Rules of Practice and Procedures, 4 CCR 723-1. The notice and intervention period for petitions that seek a waiver of rule 6107 or 6308 shall expire ten days from the date the notice was mailed.

6004. Registration.

A person may seek Commission action through the filing of an appropriate registration form for registration in the UCR Agreement, as provided in rules ~~6401~~6400 through 6499.

6005. Authority to Interview Personnel and Inspect Records, Motor Vehicles, and Facilities.

(a) Unless a format or period of record retention is specified in a rule:

(I) motor carriers shall maintain all records required by these rules for three years. For the first year, the records must be maintained in their original format. The format may be changed after one year (i.e., converting original paper to electronic format for storage*)*; and

(II) UCR registrants shall maintain the records upon which annual registration in the UCR Agreement is based for a period of three years.

(b) An enforcement official has the authority to interview personnel and inspect records and motor vehicles used in providing a transportation service, and facilities of a motor carrier.

(I) Upon request by an enforcement official, except as otherwise required by these rules or an order of the Commission, records must be made available to the official in the original format during the first year. Thereafter, the records shall be made available in the format maintained by the company. Copies shall also be provided upon request. Records or copies, as applicable, must be made available within the following time periods:

(A) ~~I~~immediately for any records required to be maintained in a motor vehicle or with the driver, towing authorizations, mover estimates for service, mover contracts for service, or any records related to insurance or safety;

(B) ~~W~~within two days for any records related to a complaint investigation; or

(C) ~~W~~within ten days for all other records.

(II) When a request under paragraph (b) of this rule meets multiple time periods under subparagraphs (b)(I) through (III), the shortest time period shall apply.

(III) Upon request of an enforcement official and during business hours, a motor carrier shall make its facilities available for inspection.

(IV) Upon request by an enforcement official, a motor carrier, including its drivers, shall make its motor vehicles available for inspection and shall assist, if requested, in the inspection of such equipment.

(V) Upon request by an enforcement official, motor carrier personnel and drivers shall be available for interview during business hours.

(c) No person shall knowingly falsify, destroy, mutilate, change, or cause falsification, destruction, mutilation or change to any record subject to inspection by the Commission.

(d) No motor carrier, its agents, or its representatives, shall produce or retain false records or records the motor carrier, its agents, or its representatives knew or should have known to be false or inaccurate. The motor carrier shall be responsible for the accuracy of the records it retains and produces.

6006. Reports, Commission Records, Name Changes, Address Changes, and Address Additions~~, and Designated Agent Changes~~.

(a) Each common carrier and contract carrier shall submit ~~its~~ annual report<u>s</u>, as prescribed by rule 6212, or as otherwise ordered by the Commission.

(b) A motor carrier is required to notify the Commission in writing of any change of name, mailing address, physical address, or telephone number on file with the Commission within two days of making said change. The notification shall identify the person making the change and all of the affected motor carrier's certificates, permits, or registrations. A notice of name change including trade name changes and trade name additions~~,~~ shall include supporting documentation from the Colorado Secretary of State.

(I) In the event of a name change or an address change, the motor carrier shall comply with all other applicable Commission rules, including but not limited to, rules regarding financial responsibility and tariffs.

(II) No name change shall be effective until proper proof of financial responsibility in the motor carrier's new name has been filed with the Commission.

(c) If a towing carrier wishes to begin providing storage for towed motor vehicles at a new or additional storage facility, the towing carrier shall, prior to using the new or additional storage facility, file with the Commission the storage facility's address and, if one exists, telephone number.

(d) ~~Each motor carrier shall notify the Commission of any changes in the designated agent's identity, name, or address by filing a new designation within two days following the effective date of such change.~~

~~(e)~~ Any information provided by a motor carrier for the Commission's files shall be deemed accurate until changed by the motor carrier.

6007. Financial Responsibility.

(a) Financial responsibility requirements~~:~~.

(I) Motor vehicle liability coverage. Every motor carrier shall obtain and keep in force at all times commercial motor vehicle liability insurance coverage or a surety bond providing coverage that conforms with the requirements of this rule. Motor vehicle liability means liability for bodily injury and property damage. Coverage shall be combined single limit liability. The minimum level for public entities, as defined in § 24-10-103(5), C.R.S., shall be the maximum amount per § 24-10-114(1), C.R.S. The minimum levels for all other motor carriers shall be:

Type of Carrier	**Vehicle Seating Capacity or GVWR**	**Minimum Level**
Motor Carriers of Passengers	8 or less	$ 500,000
	9 through 15	$1,500,000
	16 through 32	$3,000,000
	33 or more	$5,000,000
Public Entities	Any	The maximum amount per § 24-10-114(1), C.R.S.
Movers	10,000 pounds or more GVWR	$ 750,000
	Less than 10,000 pounds GVWR	$ 300,000
Towing Carriers	Any GVWR	$ 750,000

~~(II) Motor carriers may obtain a certificate of self-insurance issued pursuant to §§ 10-4-624 and 42-7-501, C.R.S., or Part 387 of 49 C.F.R.~~

(~~A~~II) To demonstrate proof of commercial motor vehicle liability coverage, ~~A~~all common carriers, contract carriers, limited regulation carriers, movers, and towing carriers shall cause one of the following to be filed with the Commission: a Form E, Uniform Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance, ~~or~~ a Form G, Uniform Motor Carrier Bodily Injury and Property Damage Liability Surety Bond, or a certificate of self-insurance issued pursuant to §§ 10-4-624 and 42-7-501, C.R.S. or Part 387 of 49 C.F.R. ~~to be filed with the Commission.~~

(A) The applicable ~~f~~Form E or Form G shall be executed by a duly authorized agent of the insurer or surety.

(B) ~~All common carriers, contract carriers, limited regulation carriers, movers, and towing carriers obtaining a certificate of self-insurance under the provisions of §§ 10-4-624 and 42-7-501, C.R.S., or Part 387 of 49 C.F.R., shall cause a copy of said certificate of self-insurance to be filed with the Commission.~~ Upon renewal of the certificate of self-insurance, the common carrier, contract carrier, limited regulation carrier, mover, or towing carrier shall file a copy of the most current version of such certificate of self-insurance.

(III) Cargo liability coverage. Every mover and towing carrier shall obtain and keep in force at all times cargo liability insurance coverage or a surety bond providing coverage that conforms ~~with~~to the requirements of this rule. Cargo liability coverage for a towing carrier shall include coverage of physical damage to the motor vehicle in tow (on hook) and loss of its contents.

(A) For towing carriers the cargo liability coverage shall provide coverage to the extent of the towing carrier's legal liability for loss or damage to the property of any persons other than the insured, which is carried in, upon, or attached to the towing vehicle and/or its trailers or dollies operated by, or for, or under the control of the towing carrier.

(B) For movers, the minimum level of cargo liability coverage shall be $10,000.00 for loss of or damage to household goods carried on any one motor vehicle, or sixty cents ($0.60) per pound per article, whichever is greater. By way of example, "article" means a desk, but not each individual drawer of the desk.

(C) All movers or towing carriers shall cause a Form H, Uniform Motor Carrier Cargo Certificate of Insurance, or a Form J, Uniform Motor Carrier Cargo Surety Bond, to be filed with the Commission. For a towing carrier, a Colorado Form 12-INS, Towing Carrier Cargo Liability Insurance Certificate may be used in lieu of the Form H. The applicable form shall be executed by a duly authorized agent of the surety.

(IV) Garage keeper's liability coverage. Towing carriers providing storage, directly or through an agent, shall obtain and keep in force at all times garage keeper's liability insurance coverage.

(A) Garage keeper's liability coverage shall provide coverage to the extent of the towing carrier's legal liability for loss or damage to the property of any person, other than the insured, which is stored by the towing carrier directly or through an agent.

(B) All towing carriers shall cause a Colorado Form 14-INS, Garage Keepers Legal Liability Certificate of Insurance, to be filed with the Commission.

(V) Workers' compensation insurance coverage. Every towing carrier shall obtain and keep in force at all times workers' compensation insurance coverage in accordance with § 40-10.1-401(3), C.R.S., the "Workers' Compensation Act of Colorado" found in articles 40 to 47 of Title 8, C.R.S., and the rules set forth by the Department of Labor and Employment, Division of Workers' Compensation.

(A) If workers' compensation insurance coverage is required, the towing carrier shall cause proof of coverage to be filed and maintained with the Commission on a Commission prescribed Form WC in lieu of the original policy.

(B) If a person has proof of workers' compensation insurance coverage on file with the Commission, there shall be a rebuttable presumption that the person is required to maintain such insurance.

(C) If workers' compensation insurance coverage is not required, the towing carrier shall cause:

(i) ~~F~~for corporations or limited liability companies, a completed Colorado Department of Labor and Employment, Division of Workers' Compensation Form WC43 including a part B for each person listed on part A; or

(ii) ~~F~~for other towing carriers, a statement that workers' compensation insurance coverage is not required.

(VI) General liability coverage. Every mover shall obtain and keep in force at all times general liability insurance coverage, or surety bond, providing coverage of not less than $500,000.00. For purposes of this subparagraph, "general liability" means liability for bodily injury and property damage. ~~(A)~~ All movers shall cause a Colorado Form GL, General Liability Certificate of Insurance to be filed with the Commission.

(b) The motor carrier shall ensure that insurance or surety bond coverage:

(I) is provided only by insurance or surety companies authorized to provide such coverage in the state of Colorado; or, for self-insurance, is provided in accordance with §§ 10-4-624 and 42-7-501, C.R.S.;

(II) is not less than the minimum limits set forth under paragraph (a) of this rule;

(III) covers all motor vehicles which may be operated by or for the motor carrier, or which may be under the control of the motor carrier, regardless of whether such motor vehicles are specifically described in the policy or amendments or endorsements thereto;

(IV) provides for the payment of benefits by the insurance or surety bond company directly to parties damaged by the motor carrier on a "first dollar"/"dollar one" basis;

(V) if the coverage contains a retained risk provision, such provision shall obligate the insurance or surety company to pay the party damaged by the motor carrier regardless of the level of funds in the retained risk pool; and

(VI) does not permit a motor carrier to pay insurance or surety benefits directly to a party damaged by said motor carrier; except that nothing in this subparagraph shall preclude a damaged party from settling a claim for loss or damage prior to making a claim against the motor carrier's insurance or surety policy.

(c) The provisions of subparagraphs (IV) through (VI) of paragraph (b) do not apply to motor carriers with regard to proof of self-insurance pursuant to 49 C.F.R. Part 387, if applicable, and §§ 10-4-624 and 42-7-501, C.R.S. The provisions of subparagraphs (III) through (VI) of paragraph (b) do not apply to workers compensation requirements for towing carriers pursuant to § 40-10.1-401(3), C.R.S.

(d) The motor carrier shall retain each original insurance or surety policy for required coverage and keep a copy of its proof of motor vehicle liability coverage in each motor vehicle that it operates.

(e) The motor carrier's failure to have proof of liability coverage or compliance with workers' compensation insurance requirements, on file at the Commission, as required by this rule, shall constitute a rebuttable presumption that the carrier is in violation of the requirements of this rule.

(f) The motor carrier shall ensure that the policy and the forms noted in this rule contain the motor carrier's exact name, trade name (if any), and address as shown in the records of the Commission.

(g) Any change affecting the policy and the information contained in forms noted in this rule (e.g., name, address, or policy number) shall be filed with the Commission on an appropriate endorsement or amendment.

(h) The proof of minimum levels of financial responsibility required by this rule is public information and may be obtained from the Commission.

(i) Except as provided in paragraph (j) of this rule, each certificate of insurance and/or surety bond required by and filed with the Commission shall be kept in full force and effect unless and until canceled or not renewed upon 30-days advance written notice, on a Form K Uniform Notice of Cancellation of Motor Carrier Insurance Policies, a Form L Uniform Notice of Cancellation of Motor Carrier Surety Bonds, Form BMC 35, or Form BMC 36, as applicable, from the insurer or surety to the Commission. The 30-day cancellation or non-renewal notice period shall commence on the date the notice is received by the Commission. In lieu of the prescribed form, the insurer or surety may cancel or not renew a certificate of insurance and/or surety bond by letter to the Commission containing the same information as required by such form.

(j) Administrative cancellation of certificates of insurance and/or surety bond.

(I) When a new certificate of insurance and/or surety bond is filed with the Commission, all certificates of insurance and/or surety bond for the same type and category of coverage with an older effective date shall be administratively cancelled. For purposes of this paragraph, type of coverage means those listed in paragraph (a) of this rule, and category of coverage means primary coverage or excess coverage.

(II) When the Commission grants an application filed by a regulated motor carrier, or receives notice from any other type of motor carrier to cancel all of its authorities and permits, all certificates of insurance and/or surety bond for the motor carrier shall be administratively cancelled.

(III) When a permit expires or is canceled or revoked, all certificates of insurance and/or surety bonds for the motor carrier may be administratively canceled.

(IV) When a certificate or contract carrier permit is revoked or abandoned, all certificates of insurance and/or surety bonds for the motor carrier may be administratively canceled.

6008. Revocation, Suspension, Alteration, or Amendment.

(a) Summary suspension and/or revocation for lack of financial responsibility of a motor carrier~~, a hazardous materials carrier,~~ and a nuclear materials carrier.

(I) Summary suspension.

(A) Whenever Commission records indicate that a motor carrier's~~, hazardous materials carrier's,~~ or nuclear materials carrier's required insurance or surety coverage, except for garage keeper's coverage, is or will be canceled, and the Commission has no proof on file indicating replacement coverage, the Commission shall, pursuant to § 24-4-104~~(3) and~~ (4)~~,~~ and § 40-10.1-112(3), C.R.S., summarily suspend such authority or permit.

(B) Whenever Commission records indicate that a towing carrier's workers' compensation insurance coverage is or will be canceled and the Commission has no proof on file indicating replacement coverage, or documentation filed demonstrating that coverage is not required, in accordance with rule 6007 the Commission shall, pursuant to § 24-4-104~~(3) and~~ (4) and § 40-101.112(3), C.R.S., summarily suspend such authority or permit.

(C) Failure on the part of an insurance company to respond to a Commission inquiry for verification of insurance coverage within 60 days shall be treated as a cancellation of insurance.

(D) The summary suspension shall be effective on the date of coverage cancellation.

(II) The Commission shall ~~advise~~ notify the motor carrier, ~~hazardous materials carrier,~~ or nuclear materials carrier:

(A) that the Commission is in receipt of insurance or surety cancellation, and the effective date of such cancellation;

(B) that its authority or permit is summarily suspended as of the coverage cancellation date;

(C) that it shall not conduct operations under any of its authorities, or permits after the coverage cancellation date;

(D) that the Commission has initiated ~~complaint~~ a proceeding~~s~~ to revoke its authorities, or permits;

(E) that it may submit, at a hearing convened to determine whether its authorities or permits should be revoked, written data, views, and arguments showing why such authorities or permits should not be revoked; and

(F) the date, time, and place set for such hearing.

(III) Until proper proof of insurance or surety coverage, or documentation demonstrating that coverage is not required as to workers' compensation insurance coverage is filed with the

Commission, a motor carrier, ~~hazardous materials carrier,~~ or nuclear materials carrier receiving notice of summary suspension shall not, under any of its authorities, or permits, conduct operations after the effective date of such summary suspension.

(IV) If the Commission receives proper proof of coverage or documentation that coverage is not required prior to the hearing, the summary suspension ~~and complaint~~ will be dismissed without further order of the Commission, even if there is a lapse in coverage. However, operations performed during lapses in coverage are subject to civil penalty assessments.

(V) If the Commission receives proper proof of coverage or documentation that coverage is not required prior to revocation, the Commission shall dismiss the summary suspension ~~and complaint~~, even if there is a lapse in coverage. However, operations performed during lapses in coverage are subject to civil penalty assessments.

(b) Summary suspension and/or revocation for deliberate and willful violations and/or endangering public health, safety or welfare. ~~If, due to an administrative error or omission of the Commission staff, an authority or permit is suspended or revoked for lack of financial responsibility coverage, such authority or permit shall, without a hearing, be retroactively reinstated as of the effective date of the proof of coverage. Staff shall document in its files the correction of such administrative error or omission.~~ When the Commission finds either that a motor carrier has engaged in a deliberate or willful violation or that the public health, safety, or welfare imperatively requires emergency action, the Commission may summarily suspend the motor carrier's certificate or permit in accordance with §§ 24-4-104(4), C.R.S. and pursuant to the following process.

(I) If, after conducting its investigation, Commission staff believes that a person is guilty of a willful or deliberate violation of Commission rules or that the public health, safety, or welfare requires emergency action, Commission staff can seek a summary suspension pursuant to § 24-4-104(4), C.R.S. from an Administrative Law Judge through the filing of a motion for summary judgement, notice of allegations and supporting material.

(II) Upon a finding of either willful or deliberate violation or endangerment of public health, safety, or welfare, and where Commission staff is reasonably likely to prevail in proving the violation at hearing, the ALJ may issue a notice of summary suspension. Willful and deliberate, for purposes of these rules, means a deliberate, voluntary, or intentional action or inaction that is in violation of the applicable rules, statutes, or any other lawful order. Deliberate and willful acts include: the same or similar action for which a person has already been warned; reckless or dangerous action; action done without regard to the consequence or the rights or safety of others; fraudulent action; conduct without the proper authority or engaging another person who performs without the proper authority.

(III) Unless otherwise requested by the person in alleged violation, an ALJ shall hold a hearing ten days after the notice of summary suspension was served on the motor carrier. The ALJ will expedite the issuance of a decision after hearing.

(IV) The notice of summary suspension shall be served on the person along with Commission staff's notice of allegations and supporting information and a notice of hearing.

~~(c) After a hearing upon at least ten days' notice to the motor carrier affected, and upon proof of violation, the Commission may issue an order to cease and desist, suspend, revoke, alter, or amend any certificate or permit for the following reasons:~~

~~(I) a violation of, or failure to comply with, any statute, order, or rule concerning a motor carrier; or~~

~~(II) a conviction, guilty plea, or plea of nolo contendere to a felony by an owner, member, partner, director, or officer of a towing carrier.~~

(c) Automatic and immediate revocation.

(I) Whenever Commission records indicate that a hazardous material carrier's insurance or surety coverage is canceled and the Commission has no proof on file indicating replacement coverage, the permit is automatically revoked pursuant to § 42-20-202(2)(a), C.R.S.

(A) The Commission shall notify the hazardous materials carrier:

(i) that the Commission is in receipt of insurance or surety cancelation an the effective date of the cancelation; and

(ii) that it shall not conduct operations under any of its authorities or permits after the coverage cancelation date.

(B) Operations performed during lapses in coverage are subject to civil penalty assessments.

(II) When a motor carrier operating under a limited regulation permit issued pursuant to Part 3 of Title 40, Article 10.1, C.R.S., fails to pay a civil penalty, imposed by a final decision of the Commission within the time prescribed for payment, the permit is revoked immediately. The motor carrier, any owner, principal, officer, member, partner, or director of the motor carrier; and any other entity owned or operated by that owner, principal, officer, member, partner, or director are disqualified from applying for a permit for 36 months from the date the penalty payment was due.

(III) When a motor carrier operating under a towing permit issued pursuant to Part 4 of Title 40, Article 10.1, C.R.S., fails to pay a civil penalty, imposed by a final decision of the Commission within the time prescribed for payment, the permit is revoked immediately. The motor carrier, any owner, principal, officer, member, partner, or director of the motor carrier; and any other entity owned or operated by that owner, principal, officer, member, partner, or director may be disqualified from applying for a permit for up to 60 months from the date the penalty payment was due.

(IV) When a motor carrier operating under a household goods permit issued pursuant to Part 5 of Title 40, Article 10.1, C.R.S., fails to pay a civil penalty, imposed by a final decision of the Commission within the time prescribed for payment, the permit is revoked immediately. The motor carrier, any owner, principal, officer, member, partner, or director of the motor carrier; and any other entity owned or operated by that owner, principal, officer, member, partner, or director are disqualified from applying for a permit for 36 months from the date the penalty payment was due.

(d) Period of ineligibility.

(I) A motor carrier whose certificate or permit is revoked shall be ineligible to be issued another certificate or permit for at least one year from the date of such revocation or for such additional period of time as the Commission may in its discretion determine to be appropriate.

(II) A motor carrier whose certificate or permit is revoked more than twice shall be ineligible to be issued another certificate or permit for at least two years from the date of such revocation or for such additional period of time as the Commission may in its discretion determine to be appropriate.

(III) In the case of an entity other than an individual, such period of ineligibility shall also apply to all principals, members, owners, managers, officers, and directors of the entity, without regard to capacity in the same or different entity during the period of ineligibility.

(e) Subparagraphs (d)(I) and (II) shall not apply to revocations that are solely the result of failure to maintain the financial responsibility required by rule 6007, unless the motor carrier knowingly operated without the required financial responsibility.

6009. Annual Motor Vehicle Fees ~~– Exemption~~.

(a) Every motor carrier shall pay to the Commission an annual fee before the first day of January of each calendar year, for each motor vehicle that such motor carrier owns, controls, operates, or manages within the state of Colorado as set forth in § 40-10.1-111, C.R.S.

~~(b) The Commission shall provide public notice on the Commission's website at least 60 days prior to the effective date of such annual fee.~~

(~~c~~b) A motor carrier that obtains an authority or permit during the calendar year shall, unless the Commission orders otherwise, pay the annual fee at the time of obtaining the authority or permit.

(~~d~~c) A motor carrier that acquires one or more additional motor vehicles during the calendar year shall pay the annual fee prior to placing the additional vehicle(s) into service.

(~~e~~d) Proof of payment of each annual fee shall be in the form of a vehicle stamp issued by the Commission.

(~~f~~e) A vehicle stamp is valid only for the calendar year for which it is purchased.

(~~g~~f) A motor carrier shall not operate a motor vehicle unless it has affixed a valid vehicle stamp to the inside lower right-hand corner (passenger side) of the motor vehicle's windshield. In the alternative, the vehicle stamp may be affixed to the right front side window of the motor vehicle so long as the stamp does not interfere with the driver's use of the right-hand outside mirror.

(g) A motor carrier may request a replacement vehicle stamp. The Commission will provide a replacement stamp, without charge, so long as the motor carrier requesting the replacement stamp remits a sufficient portion of the damaged stamp, including the unique number of the stamp to be replaced.

(h) Exemption for a UCR registrant.

(I) Except as provided in subparagraph (II), a motor carrier that is also a UCR registrant for the same calendar year is exempt from paragraphs (a) through (~~g~~f) of this rule.

(II) A motor carrier that is also a UCR registrant for the same calendar year is not exempt from paragraphs (a) through (~~g~~f) of this rule for any motor vehicle that:

(A) was used only in intrastate commerce;

(B) was not included in the calculation of fees paid under the UCR Agreement; and

(C) provides transportation of household goods, nonconsensual tows, or passenger transportation that is not subject to the preemption provisions of 49 U.S.C. section 14501(a).

(i) Exemption for a mover. A mover holding a permit issued under Part 5 of Article 10.1 of Title 40, C.R.S., is exempt from paragraphs (a) through (~~g~~f) of this rule.

6010. ~~Letter of Authority and Permit~~Naming Requirements.

(a) No ~~party~~ person shall file an application under a name or trade name that identifies a ~~type of~~ transportation service not requested or currently authorized (e.g., a limited regulation carrier or a common carrier with only call-and-demand shuttle service shall not have taxi in its name). If an application is filed in violation of this rule, the Commission shall not issue a certificate or permit under such name.

(b) No person shall operate~~Any carrier currently operating~~ under a name or trade name ~~that~~ that identifies a ~~type of~~ transportation service not currently authorized by its certificate or permit (e.g., a limited regulation carrier or a common carrier with only call-and-demand shuttle service shall not have taxi in its name)~~. shall alter its name or trade name to comply with this rule within one year after the effective date of these rules.~~

(c) The motor carrier must maintain evidence of its authority or permit at its principal place of business and, upon request, shall immediately present it to any enforcement official.

6011. Designation of Agent, Service and Notice.

(a) Each motor carrier shall file in writing with the Commission, and shall maintain on file, its designation of the name, mailing address, and physical address of a person upon whom service may be made of any lawful notice, order, process, or demand. The named person is the motor carrier's designated agent. A motor carrier shall not designate the Secretary of State of the state of Colorado. The person designated, if a natural person, shall be at least 18 years of age. The addresses of the person designated shall be in the state of Colorado.

(b) Each motor carrier shall notify the Commission of any changes in the designated agent's identity, name, mailing address, physical address, email address or phone number by filing a new designation within two days following the effective date of such change.

(~~b~~c) Service upon a motor carrier's named designated agent, as on file with the Commission, shall be deemed to be service upon the motor carrier.

(d) Notice sent to the motor carrier's designated agent on file with the Commission shall constitute prima facie evidence that the motor carrier received the notice.

6012. ~~[Reserved].~~Prohibited Credit Card Fees.

No additional fees associate with the use or processing of a credit card may be charged pursuant to § 5-2-212, C.R.S.

6013. ~~Notice~~[Reserved].

~~Notice sent to the motor carrier's address on file with the Commission shall constitute prima facie evidence that the motor carrier received the notice.~~

6014. Waivers.

A motor carrier granted a waiver, or engaging a driver who has been granted a waiver of any rule in this Part 6 shall:

(a) If the waiver pertains to a motor vehicle~~:~~ maintain a copy of the waiver:

(I) in the affected motor vehicle; and

(II) in the motor carrier's motor vehicle maintenance records at the motor carrier's primary place of business.

(b) If the waiver pertains to a driver~~:~~ ensure that a copy of the waiver is:

(I) carried on the affected driver's person whenever the driver is operating a motor vehicle over which the Commission has jurisdiction; and

(II) maintained in the affected driver's qualification file at the motor carrier's primary place of business.

(c) A copy of any other waiver shall be maintained at the motor carrier's primary place of business.

6015. Exterior Vehicle Markings, Signs, or Graphics.

(a) With the exceptions of luxury limousines as restricted by rule 6304, all motor vehicles must have external markings as detailed below.

(I) The markings on the vehicle must;

(A) appear on both sides of vehicles;

(B) be in letters that contrast sharply in color with the background on which the letters are placed;

(C) be readily legible during daylight hours from a distance of 50 feet, but in no case be less than three inches tall;

(D) be maintained in a manner that retains the legibility required above;

(E) display the name or a trade name as set forth in ~~in the common carrier~~its certificate(s)~~, the contract carrier~~ or permit(s)~~, the towing carrier permit(s), or the mover permit(s), as applicable~~;

(F) display the letter and/or number designation of the carrier's certificate(s) and or permit(s), as applicable, preceded by the letters "CO PUC" or "PUC;" and

(G) either be painted on the motor vehicle or consist of a removable device.

(II) Subparagraphs (I)(E) and (I)(F) shall not apply to a commercial motor vehicle that is subject to 49 U.S.C. Section 14506 regarding restrictions on identification of vehicles.

~~(III) In lieu of subparagraph (I), a regulated intrastate carrier or a limited regulation carrier operating a motor vehicle having a seating capacity of fifteen or less may affix the marking required by subparagraph (F) to both the front and rear of the motor vehicle in compliance with subparagraphs (I)(B), (I)(C), (I)(D), and (I)(G).~~

(b) A motor carrier shall remove all markings required by this rule from a motor vehicle that the motor carrier is permanently withdrawing from service.

6016. Offering of Transportation Service.

(a) Advertising to arrange transportation service as a transportation broker is not an offer to provide transportation service; rather, it is an offer to broker transportation service. A person shall be presumed to have offered transportation service if the person has not disclosed the fact the services are being arranged by a transportation broker.

(b) Advertising to provide transportation service or advertising transportation service other than by brokerage is an offer to provide the advertised service.

(c) No motor carrier, or any officer, agent, employee, or representative of said carrier, shall offer to provide a transportation service without authority or permit to provide such service.

(d) No motor carrier, or any officer, agent, employee, or representative of said carrier, shall offer a transportation service in a name, to the character, other than a name appearing on said carrier's authority or permit (e.g., A and B Transportation violates this rule when advertising as A & B Transportation).

(I) If a motor carrier operates its authority or permit under a trade name, nothing in this paragraph shall be construed to require advertising under all names appearing on said carrier's authority or permit.

(II) If a motor carrier holds an authority or permit under more than one trade name, nothing in this paragraph shall be construed to require said carrier advertise under all the trade names.

(e) Each advertisement of a mover shall include the phrase "CO PUC Mover Permit No. [HHG permit number]" and the physical address of the mover.

(f) Each advertisement of a towing carrier in any newspaper or other publication, on radio, television, or any electronic medium, including more than the name and telephone number of the carrier shall include the phrase "PUC. [T- permit number]" of the towing carrier.

(g) Each advertisement of a luxury limousine carrier in any newspaper or other publication, on radio, television, or any electronic medium, including more than the name and telephone number of the carrier shall include the phrase "PUC [LL- permit number]".

(h) Roof lights. Except as otherwise required by law, only a taxicab operated by a common carrier under an authority to provide taxicab service may have a roof light.

6017. Violations, Civil Enforcement, and Enhancement of Civil Penalties.

(a) Each occurrence of a violation and each day that such violation continues, shall constitute a separate violation and shall be subject to a separate civil penalty.

(~~a~~b) A violation of subparagraph (a)(I)~~, except (a)(I)(A) or (a)(I)(B),~~ of rule 6007 may result in the assessment of a civil penalty of up to $11,000.00 for each violation.

(c) A violation of paragraph 6005(c) or (d) may result in the assessment of a civil penalty of up to $1,100 for each violation.

(~~d~~b) A violation of § 40-10.1-111 ~~(1)(f) or~~ (2), C.R.S., or ~~rule~~ paragraph 6009(a), (~~c~~b), ~~or~~ (~~d~~c) or (f) with regard to operating a motor vehicle without having paid the annual fee may result in the assessment of a civil penalty of up to $400.00 for each violation.

(~~c~~e) A violation of ~~rule~~ paragraphs 6016(c) and (d) may result in the assessment of a civil penalty of up to $550.00 for each violation.

(~~d~~f) Except as provided for in paragraph~~s~~ (~~a~~b) through (~~c~~e) of this rule, a violation of any provision of rules 6000 through 6016 ~~or § 40-10.1-111(1)(f) or (2), C.R.S.~~ may result in the assessment of a civil penalty of up to $275.00 for each violation.

(~~e~~g) Pursuant to § 40-7-112, C.R.S., a person, whose driver operates a motor vehicle in violation of applicable statutes or these rules, may be assessed a civil penalty for such violation.

(~~f~~h) Notwithstanding any provision in these rules to the contrary, the Commission may assess a civil penalty of two times the amount or three times the amount, as provided in § 40-7-113, C.R.S.

(I) The amounts in ~~sub~~paragraphs (~~a~~b) through (~~d~~f) shall be two times the specified amount if:

(A) the person engaged in prior conduct which resulted in the issuance of a prior civil penalty assessment notice;

(B) the conduct is of the same or narrower character as the conduct that was cited in the prior civil penalty assessment notice;

(C) the conduct occurred within 24 months ~~one year~~ after the date of violation in the prior civil penalty assessment notice; and

(D) the conduct occurred after the person's receipt of the prior civil penalty assessment notice.

(II) The amounts in ~~sub~~paragraphs ~~(I)~~(~~a~~b) through (~~d~~f) shall be three times the specified amount if:

(A) the person engaged in two or more instances of prior conduct which resulted in the issuance of two or more prior civil penalty assessment notices;

(B) the conduct is of the same or narrower character as the conduct that was cited in the prior civil penalty assessment notices;

(C) the conduct occurred within 24 months ~~one year~~ after the two most recent prior instances of conduct cited in the prior civil penalty assessment notices; and

(D) the conduct occurred after the person's receipt of two or more prior civil penalty assessment notices.

(~~g~~i) The civil penalty assessment notice shall contain the maximum penalty amounts prescribed for the violation, the amount of the penalty surcharge pursuant to § 24-34-108(2), C.R.S., with a separate provision for a reduced penalty of 50 percent of the maximum penalty amount if paid within ten days after the civil penalty assessment notice is tendered.

(~~h~~j) Civil penalty assessments are in addition to any other penalties provided by law.

6018. – 6099. [Reserved].

SAFETY RULES

6100. Applicability of Safety Rules.

(a) Rules 6100 through 6199 apply to:

(I) regulated intrastate carriers and limited regulation carriers; and

(II) drivers (whether as employees or independent contractors), employees, and commercial motor vehicles of the motor carriers listed in subparagraph (a)(I).

6101. Definitions.

In addition to the definitions in rule 6001, and those incorporated from federal law in rule 6102, the following definitions apply to all carriers subject to these safety rules:

(a) "Commission" means the Public Utilities Commission of the state of Colorado. Any reference to the United States Department of Transportation, the FMCSA, or any other federal agency in any provision of the Code of Federal Regulations adopted by reference in these safety rules shall be construed to refer to the Commission.

(b) "Commercial motor vehicle" or "motor vehicle" as used in regulations incorporated by reference by rule 6102, means a motor vehicle operated by a regulated intrastate carrier or limited regulation carrier. Notwithstanding the foregoing, for purposes of the incorporated rules found in 49 C.F.R. Part 382 (concerning drug and alcohol testing), the definition of commercial motor vehicle shall be as found in 49 C.F.R. § 382.107; and for purposes of the incorporated rules found in 49 C.F.R. Part 383 (concerning commercial driver's licenses) the definition of commercial motor vehicle shall be as found in 49 C.F.R. § 383.5.

(c) "Golf cart" means a golf cart as defined in § 42-1-102(39.5), C.R.S.

(~~c~~d) "Employer" as used in regulations incorporated by reference by rule 6102, means a regulated intrastate carrier or limited regulation carrier, in addition to the definition found in 49 C.F.R. § 390.5.

(~~d~~e) "Low-power scooter" means low-power scooter as defined in § 42-1-102(48.5), C.R.S.

(f) "Low-speed electric vehicle" means low-speed electric vehicle as defined in § 42-1-102(48.6), C.R.S.

(~~e~~g) "Motorcycle" means motorcycle as defined in § 42-1-102(55), C.R.S.

6102. Regulations Incorporated by Reference.

(a) Except as provided in rule 6103 and paragraph (c) of this rule, the Commission incorporates by reference the regulations published in:

(I) 49 C.F.R. Parts 40, 382, 383, 390, 391, 392, 393, 395, 396, and 399, as revised on ~~October 1, 2010~~January 1, 2017.

(II) 49 C.F.R. Appendix G to Subchapter B of Chapter III, as revised on ~~October 1, 2010~~January 1, 2017.

(b) No later amendments to or editions of the C.F.R. are incorporated into these rules.

(c) The following provisions of 49 C.F.R. are not incorporated by reference:

(I) §§ 382.507, 383.53, 390.3(a), 390.3(c), 390.3(f)(2), 390.3(f)(6), 390.21(a), 390.21(b), 390.21(e), 390.21(f), 390.37, 391.47, 391.49, 391.68, 391.69, 395.8(e), and 396.9; and

(II) The definition of "commercial motor vehicle" in § 390.5.

(d) The material incorporated by reference may be examined at the offices of the Commission or any state publications library.

6103. Modification of Regulations Incorporated by Reference.

(a) ~~With regard to~~ The qualification and examination of drivers: 49 C.F.R. § 391.11(b)(1), relating to age of drivers, shall not apply to drivers operating solely in intrastate commerce; rather, such drivers shall be at least eighteen years of age. This ~~sub~~paragraph ~~(I)~~ shall not apply to drivers operating motor vehicles used in transporting hazardous materials of a type and quantity that would require the motor vehicle to be marked or placarded under 49 C.F.R. § 177.823.

(b) ~~With regard to m~~Motor vehicle parts and accessories necessary for safe operation~~:~~.

(I) The provisions of 49 C.F.R. § 393.55 shall only apply to a bus with a seating capacity of 16 or more.

(II) The provisions of 49 C.F.R. § 393.83(c) and (d), relating to exhaust systems, shall only apply to any bus with a seating capacity of 16 or more or having a GVWR of more than 10,000 pounds, which is manufactured with a side discharge exhaust.

(III) The provisions of 49 C.F.R. § 393.89, relating to driveshaft protection, and 393.95, relating to emergency equipment, shall only apply to any bus with a seating capacity of 16 or more or having a GVWR of more than 10,000 pounds.

(IV) In addition to the requirements of 49 C.F.R. § 393.93 regarding seat belt assemblies for a bus, a vehicle manufactured with such a system shall be operational and readily accessible to passengers at all times.

(c) ~~With regards to h~~Hours of service of drivers~~:~~.

(I) ~~For a motor carrier of passengers operating a motor vehicle having a seating capacity of 16 or more, or GVWR or GCWR of more than 10,000 pounds, T~~the requirements of 49 C.F.R. §§395.5(a)(2) and (b) and 395.8, shall apply to all motor carriers of passengers operating a motor vehicle having a seating capacity of 16 or more, or GVWR or GCWR of more than 10,000 pounds,.

(II) The requirements of 49 C.F.R. §§395.5(a)(2), 395.5(b) and the log book requirements set forth under 395.8 shall not apply ~~For a~~to all motor carriers of passengers operating a motor vehicle having a seating capacity of 15 or less and GVWR or GCWR or less than 10,001 pounds.~~, the requirements of 49 C.F.R. §§395.5(a)(2) and 395.8 shall not apply.~~

(III) In exchange for not being held to the more rigid requirements of §§ 395.5(a)(2), 395.5(b) and the log book requirements set for under 395.8, assumptions about a driver's duty status after coming on duty are required. Motor carriers subject to subparagraph (II) are not required to track and record each time a driver changes a duty status after going on duty. For the purpose of calculating hours of service, a driver subject to this rule is and remains on duty until and unless the driver is released from duty by the motor carrier for a minimum of eight consecutive hours.

[OPTION ONE]:

(IV) A driver shall not be on duty or be permitted to be on duty more than 12 consecutive hours in any 24 hours period. Drivers may go off duty for any period of time during the 12-hour period, but the 12-hour period shall only be restarted after 12 consecutive hours off duty.

[OPTION TWO]:

(IV) A motor carrier shall neither permit nor require a driver to drive, nor shall any such driver drive in violation of any of the following.

(A) 16 Hour Rule: At the end of the 16th hour after coming on duty, a driver shall not drive for-hire and shall be released from duty~~,~~ for a minimum of eight consecutive hours. Drivers may go off duty for any period of time during the 16-hour period, but the 16-hour period shall only be restarted after eight consecutive hours off duty.~~;~~

(B) Ten Hour Rule: After coming on duty and within the 16 hours provided by the 16 hour rule in subparagraph (A) above, ~~A~~a driver shall not exceed ten hours of~~maximum~~ driving time~~, following eight consecutive hours off duty;~~. At the end of the tenth hour, a driver shall not drive for-hire until he or she has been released from duty by the motor carrier for a minimum of eight consecutive hours.

(C) 80 Hour Rule: ~~A driver shall not drive for a minimum period of eight consecutive hours after having been on duty 80 hours in any eight consecutive days. In no instance shall a driver's hours of service exceed 80 hours in any rolling eight consecutive day period~~In no instance shall a driver's on duty hours exceed 80 hours in any eight consecutive day period. Upon accumulating 80 hours on duty in any rolling eight consecutive days, a driver shall not drive and shall be released from duty for a minimum of eight consecutive hours. For the purposes of this rule, the total number of hours on duty for each day within the eight consecutive day period shall be determined by adding the daily on duty totals derived from the 16 hour rule in subparagraph (A) of this rule.~~; and~~

(D) A motor carrier that employs or retains the driver shall maintain and retain accurate and true time records, including all supporting documents verifying such time records, for a period of six months showing:

(i) the time(s) the driver reports for duty each day;

(ii) the time(s) the driver is released from duty each day;

(iii) the total number of hours the driver is on duty each day; and

(iv) for a driver who is off duty for an entire day, an indication to that effect.

(d) With regard to inspection of drivers and/or motor vehicles:

(I) A driver receiving a Driver/Vehicle Compliance Report (DVCR) from the Commission shall deliver the DVCR to the motor carrier operating the motor vehicle upon the driver's next arrival at any of the motor carrier's terminals or facilities. If the driver is not scheduled to arrive at a terminal or facility within 24 hours, the driver shall immediately mail the report to the motor carrier operating the motor vehicle.

(II) Motor carriers shall examine the DVCR and correct all violations or defects noted thereon. Within 15 days following the date of the inspection, the motor carrier shall:

(A) complete the "Carrier Official's Signature, Title, and Date" portions of the DVCR, certifying that all violations on the DVCR have been corrected;

(B) return the completed DVCR to the Commission at the address shown on the DVCR; and

(C) retain a copy of the DVCR in its records.

(III) A motor vehicle that would likely cause an accident or a breakdown due to its mechanical condition as determined by the current out-of-service criteria set forth by the Commercial Vehicle Safety Alliance shall be placed out-of-service.

(IV) A driver who, by reason of the driver's lack of qualification, sickness or fatigue, violation of hours of service provisions, or violation of drug or alcohol provisions, would likely cause an accident as determined by the current out-of-service criteria set forth by the Commercial Vehicle Safety Alliance shall be placed out-of-service.

(V) A DVCR declaring a motor vehicle and/or a motor vehicle driver out-of-service shall constitute an out-of-service order giving notice to the driver and the motor carrier regarding the out-of-service condition.

(VI) No motor carrier shall require or permit any person to operate, nor shall any person operate, any motor vehicle declared and ordered out-of-service until all repairs required by the out-of-service order have been satisfactorily completed.

(VII) No motor carrier shall require or permit any person declared and ordered out-of-service to operate, nor shall any person operate, any motor vehicle until the person's out-of-service condition has been corrected.

(VIII) A motor vehicle that does not qualify under these Part 6 rules may be placed out of service.

(IX) A motor vehicle equipped with ramps, lifts or other special devices to facilitate the loading, unloading or transportation of individuals with disabilities shall be placed out of service if such devices are not in good working order.

(X) A motor vehicle identified as a golf cart, low-power scooter, low-speed electric vehicle, or motorcycle will be subject to all inspection rules applicable to that type of vehicle.

(e) Motor carriers and drivers shall, upon request by an enforcement official, make available for inspection all records required to be made by these safety rules and all motor vehicles subject to these safety rules.

6104. Motor Vehicle Weight.

An enforcement official may require a motor carrier to have a motor vehicle weighed, if such motor vehicle's structural components, suspension components, wheels, tires, or loading may, in the enforcement official's judgment, create potentially unsafe operations.

6105. Fingerprint-Based Criminal History Record Checks.

(a) For purposes of this rule only:

~~(I) "CBI" means the Colorado Bureau of Investigation.~~

(I~~i~~) "Driver" means a person who drives or wants to drive for a passenger carrier, regardless of whether such person drives or wants to drive as an employee or independent contractor.

~~(III) "Passenger carrier" means a taxicab carrier and a limited regulation carrier, except for fire crew transport.~~

(~~IV~~II) "Criminal history record check" means a state and national fingerprint-based criminal history record check.

(b) This rule applies to passenger carriers and drivers.

(c) Within ten days of contracting or being employed to drive for a passenger carrier, a driver who is not qualified by the Commission at the time of hire shall submit to the Commission a set of the driver's fingerprints, documentation of any name change from the agency where the change was approved, and payment of the actual cost to conduct a criminal history record check. The passenger carrier shall provide to the driver a copy of the Commission's Notice to Driver Applicants which informs the driver that his or her fingerprints will be submitted to the CBI and FBI. This notice shall be provided to the driver prior to the submission of fingerprints.

(d) A driver shall re-submit to the Commission a set of the driver's fingerprints, documentation of any name change from the agency where the change was approved, and payment of the actual cost to conduct a criminal history record check within five years after being qualified by the Commission and at least once every five years thereafter. Qualifications without an expiration date ~~shall expire five years from August 1, 2012~~are deemed to have expired August 1, 2017.

(e) The driver shall submit his or her fingerprints on an official ~~Federal Bureau of Investigation~~FBI form FD-258. The Commission will only accept official forms completed by a law enforcement or state agency in accordance with the instructions available from the Commission or its website.

(f) Qualification determination based upon moral character or statutory disqualification.

(I) Upon the Commission's receipt of a completed criminal history record check, Commission staff shall make a qualification determination regarding the driver's qualification status. In making this determination, Commission staff is authorized to request from the driver, and the driver shall provide, additional information that will assist Commission staff in making the determination regarding the driver's qualification status. If a driver does not provide such additional information requested by Commission staff, or a explain why it is unavailable within 15 days of the request, Commission staff may disqualify the driver.

(II) A driver is not of good moral character and shall be disqualified and prohibited from driving, if the driver has:

(A) a conviction in the state of Colorado at any time of any class 1 or 2 felony under Title 18, C.R.S.;

(B) a conviction in the state of Colorado, within the ten years preceding the date the criminal history record check is completed, of a crime of violence, as defined in § 18-1.3-406(2), C.R.S.;

(C) a conviction in the state of Colorado, within the eight years preceding the date the criminal history record check is completed, of any class 3 felony under Title 18, C.R.S.;

(D) a conviction in the state of Colorado, within the four years preceding the date the criminal history record check is completed, of any class 4 felony under Articles 2, 3, 3.5, 4, 5, 6, 6.5, 8, 9, 12, or 15 of Title 18, C.R.S.; or

(E) an offense in any other state or in the United States that is comparable to any offense listed in subparagraphs (A) through (D) within the same time periods as listed in subparagraphs (A) through (D).

(III) Without a determination as to moral character at the time of determination, a driver is disqualified by statute and prohibited from driving if the driver has been:

(A) convicted in the state of Colorado at any time of a felony or misdemeanor unlawful sexual offense against a child, as defined in § 18-3-411, C.R.S., or of a comparable offense in any other state or in the United States at any time;

(B) within the two years preceding the date the criminal history record check is completed, convicted in this state of driving under the influence (DUI), as defined in § 42-4-1301(1)(f), C.R.S.; driving with excessive alcoholic content (DUI per se), as described in § 42-4-1301(2)(a), C.R.S.; driving while ability impaired, as defined in § 42-4-1301(1)(g), C.R.S.; or ~~driving while an habitual user of a controlled substance, as described in § 42-4-1301(1)(c), C.R.S.; or~~

(C) within the two years preceding the date the criminal history record check is completed, convicted of an offense comparable to those included in subparagraph (III)(B) in any other state or in the United States.

(IV) For purposes of this rule, a deferred judgment and sentence pursuant to § 18-1.3-102, C.R.S., shall be deemed to be a conviction during the period of the deferred judgment and sentence.

(g) The Commission and Commission staff may consult and use any commercially or governmentally available information source in conducting criminal history record checks. The Commission may require a name-based criminal history record check of a driver who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unreadable or unclassifiable.

(h) At any time, Commission staff shall disqualify a previously qualified driver whose subsequent conviction meets the criteria of this rule.

(i) A passenger carrier shall not permit a driver to drive for the passenger carrier if:

(I) the driver has not complied with this rule and § 40-10.1-110, C.R.S., as applicable;

(II) the driver is disqualified and prohibited from driving under paragraph (f) of this rule; or

(III) the driver's qualification status has expired.

(j) A passenger carrier shall, as a condition of continued contract or employment, require a driver to submit his or her fingerprints to the Commission for a criminal history record check:

(I) at least once every five years; and/or

(II) within ten days of becoming aware that the driver has been convicted of the offenses listed in paragraph (f) of this rule.

(k) Commission staff shall notify the driver of its qualification determination. The Commission will also maintain a password-protected portion of its website where drivers, passenger carriers, and other persons authorized by Commission staff may access the current qualification status of drivers.

(l) If the driver is disqualified and prohibited from driving, the driver may, within 60 days of Commission staff's notification, file a petition with the Commission for qualification determination.

(I) Upon the filing of a petition for qualification~~-~~, Commission staff shall be an indispensable party.

(A) If a driver submitting fingerprints is disqualified to drive pursuant to subparagraph (f)(II), the driver shall bear the burden of proving that he is of good moral character based upon all surrounding facts and circumstances or that disqualification is not supported by fact or law.

(B) If a driver submitting fingerprints is disqualified to drive pursuant to subparagraph (f)(III), the driver shall bear the burden of proving that disqualification is not supported by fact or law;

(C) If a driver is disqualified pursuant to paragraph (h), the Commission staff shall bear the burden of proving all applicable elements.

(D) The Commission will consider the petition using the standards set forth in § 24-5-101(2), C.R.S. for disqualifications based on a determination of moral character.

(m) Commission staff's qualification determination may be relied upon by all persons, unless and until the Commission rules on a driver's qualification.

(n) If the Commission qualifies a driver upon petition, paragraph (f) shall be waived as to qualification determinations for future fingerprint resubmissions regarding the events upon which Commission staff's disqualification was based.

6106. Safety Violations, Civil Enforcement, and Civil Penalties.

(a) Each occurrence of a violation and each day that such violation continues, shall constitute a separate violation and shall be subject to a separate civil penalty.

(b~~a~~) A person who violates the following provisions may be assessed a civil penalty of up to $10,000.00 for each violation:

Citation	**Violation Description**
49 C.F.R. § 392.4(b)	Requiring or permitting a driver to drive while under the influence of, or in possession of, a narcotic drug, amphetamine, or any other substance capable of rendering the driver incapable of safely operating a motor vehicle, per §392.4(a).
49 C.F.R. § 392.5(b)(1)	Requiring or permitting a driver to operate a commercial motor vehicle within four hours of using, while under the influence of, or having in his/her possession, alcohol, per §392.5(a).
49 C.F.R. § 392.5(b)(2)	Requiring or permitting a driver to operate a commercial motor vehicle who shows evidence of, or the general appearance and conduct of, having consumed alcohol within the preceding four hours.

49 C.F.R. § 396.11(c)	Failing to correct out-of-service defects listed by the driver in a driver vehicle inspection report before the vehicle is operated again.
Rule 6103(d)(VII)	Requiring or permitting a driver to operate a motor vehicle during the period the driver was placed out of service.
Rule 6103(d)(VI)	Requiring or permitting the operation of a motor vehicle placed out of service before the required repairs are made but after the motor carrier has received notice of the defect.

(~~b~~c) A person who violates the following provisions may be assessed a civil penalty of up to $2,500.00 for each violation:

Citation	**Violation Description**
49 C.F.R. § 390.35	Making, or causing to make, fraudulent or intentionally false statements or records and/or reproducing fraudulent records if such action misrepresents a fact that constitutes a violation other than a reporting or recordkeeping violation.
49 C.F.R. § 391.11(a)	Requiring or permitting a driver who is not qualified to drive [§ 391.11(b)(4), (5), and (7)].
49 C.F.R. § 391.15(a)	Using a disqualified driver.
49 C.F.R. § 392.2	Operating a motor vehicle not in accordance with the laws, ordinances, and regulations of the jurisdiction in which it is being operated.
49 C.F.R. § 392.9(a)(1)	Requiring or permitting a driver to drive without the vehicle's cargo being properly distributed and adequately secured.
49 C.F.R. § 395.5(b)(1)	Requiring or permitting a driver to drive after having been on duty 60 hours in seven consecutive days.
49 C.F.R. §395.5(b)(2)	Requiring or permitting a driver to drive after having been on duty 70 hours in eight consecutive days.
49 C.F.R. § 395.5(a)(1)	Requiring or permitting a driver to drive more than ten hours.

49 C.F.R. § 395.5(a)(2)	Requiring or permitting a driver to drive after having been on duty 15 hours.
Rule 6103(c)(~~II~~IV)(A)	Requiring or permitting a driver to drive after having been on duty for 16 consecutive hours.
Rule 6103(c)(~~II~~IV)(B)	Requiring or permitting a driver to drive more than ten hours.
Rule 6103(c)(~~II~~IV)(C)	Requiring or permitting a driver to drive after having been on duty 80 hours in eight consecutive days.
49 C.F.R. § 396.17(g)	Failing to promptly repair parts and accessories not meeting minimum periodic inspection standards.
49 C.F.R. § 382.115(a)	Failing to implement an alcohol and/or controlled substances testing program.
49 C.F.R. § 382.201	Using a driver known to have an alcohol concentration of 0.04 or greater.
49 C.F.R. § 382.211	Using a driver who has refused to submit to an alcohol or controlled substances test required under Part 382.
49 C.F.R. § 382.213(b)	Using a driver known to have used a controlled substance.
49 C.F.R. § 382.215	Using a driver known to have tested positive for a controlled substance.
49 C.F.R. § 382.301(a)	Using a driver before the motor carrier has received a negative pre-employment controlled substance test result.
49 C.F.R. § 382.303(a)	Failing to conduct post accident testing on driver for alcohol and/or controlled substances.
49 C.F.R. § 382.305	Failing to implement a random controlled substances and/or an alcohol testing program.
49 C.F.R. § 382.305(b)(1)	Failing to conduct random alcohol testing at an annual rate of not less than the applicable annual rate of the average number of driver positions.

49 C.F.R. § 382.305(b)(2)	Failing to conduct random controlled substances testing at an annual rate of not less than the applicable annual rate of the average number of driver positions.
49 C.F.R. § 382.309(a)	Using a driver who has not undergone a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02.
49 C.F.R. § 382.309(b)	Using a driver who has not undergone a return-to-duty controlled substances test with a result indicating a verified negative result for controlled substances.
49 C.F.R. § 382.503	Allowing a driver to perform safety sensitive function, after engaging in conduct prohibited by subpart B, without being evaluated by substance abuse professional, as required by § 382.605.
49 C.F.R. § 382.505(a)	Using a driver within 24 hours after being found to have an alcohol concentration of 0.02 or greater but less than 0.04.
49 C.F.R. § 382.605(c)(1)	Using a driver who has not undergone a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02 or with verified negative test result, after engaging in conduct prohibited by part 382 subpart B.
49 C.F.R. § 382.605(c)(2)(ii)	Failing to subject a driver who has been identified as needing assistance to at least six unannounced follow-up alcohol and/or controlled substance tests in the first 12 months following the driver's return to duty.
49 C.F.R. § 392.5(a) or (b)	Driving after being placed out of service for 24 hours for violating the alcohol prohibitions.

(~~c~~d) A person who violates the following provisions may be assessed a civil penalty of up to $1,100.00 for each violation:

Citation	**Violation Description**
49 C.F.R. § 391.45	Allowing a driver to drive who is not medically examined and certified.
49 C.F.R. § 396.17(a)	Using a commercial motor vehicle not periodically inspected.

Rule 6103(d)(VI)	Operating a motor vehicle after the vehicle was placed out of service and before the required repairs are made.
Rule 6103(d)(VII)	Operating a motor vehicle during a period the driver was placed out of service.
~~Rule 6107~~	~~Knowingly falsify, destroy, mutilate, change, or cause falsification, destruction, mutilation, or change, to any record.~~

(~~d~~e) A person who violates the following recordkeeping provisions may be assessed a civil penalty of up to $500.00 for each violation ~~up to a cumulative maximum of $10,000.00~~:

Citation	**Violation Description**
49 C.F.R. § 392.6	Scheduling a run that would necessitate the vehicle being operated at speeds in excess of those prescribed.
Rule 6103(c)(~~II~~IV)(D)	Failing to maintain and retain accurate and true time records, including all supporting documents verifying such time records.
Rule 6103(d)(II)	Failing to return the written certification of correction as required by the out-of-service order.
49 C.F.R. § 395.8(a)	Failing to require driver to make a record of duty status.
49 C.F.R. § 395.8(i)	Failing to require driver to forward within 13 days of completion, the original of the record of duty status.
49 C.F.R. § 395.8(k)(1)	Failing to preserve driver's record of duty status and supporting documents for six months.
49 C.F.R. § 396.3(b)	Failing to keep minimum records of inspection and vehicle maintenance.
49 C.F.R. § 396.11(a)	Failing to require driver to prepare driver vehicle inspection report.

(e~~f~~) A person who violates 49 C.F.R. Part 383, Subparts B, C, E, F, G, or H may be assessed a civil penalty of $2,750.00 for each violation.

(g~~f~~) A person who violates any provision of rule 6105 may be assessed a civil penalty of $275.00 for each violation.

(~~g~~h) Except as provided in paragraphs (~~a~~b) through (~~f~~g) of this rule, a person who violates any other rule may be assessed a civil penalty of up to $250.00 for each violation.

(~~h~~i) For each type of recordkeeping violation, a civil penalty may be assessed up to a cumulative maximum of $10,000.00.

~~(i) With the exception of paragraph (f) of this rule, the provisions relating to the doubling and tripling of civil penalty assessments, found in § 40-7-113(3) and (4), and in paragraphs (g) and (h) of rule 6017, shall not apply to the assessment of civil penalties for safety rule violations~~

(j) Civil penalty assessments are in addition to any other penalties provided by law.

~~**6107. Records: Falsification, Reproduction, or Alteration.**~~

~~No person shall knowingly falsify, destroy, mutilate, change, or cause falsification, destruction, mutilation, or change to any record, subject to inspection by the Commission.~~

6107. Age and Condition of Passenger Carrier Motor Vehicles.

Vehicles used for the transportation of passengers and operated under certificates or permits issued by this Commission shall be in good physical condition, meeting the following minimum standards.

(a) The body of the vehicle has a good not faded paint job; is devoid of dents, rust, cracked bumpers, broken trim, broken mirrors, or cracked windows including the windshield.

(b) The interior of the vehicle has no missing or loose parts; has no exposed wiring; is clean; and has no cracks, tears or stains on the upholstery, seats, headliners, floor mats, carpeting or interior trim.

(c) The vehicle's air conditioning system is capable of cooling the vehicle interior to 65 degrees.

(d) The vehicle's heating system is capable of heating the vehicle interior to 85 degrees.

(e) Exterior markings are compliant with applicable vehicle marking rules 6015 and 6304.

(f) The motor carrier's name, permit number and the name of the driver are identified in the interior of the vehicle and are clearly visible to the passenger.

(g) A vehicle equipped with ramps, lifts, or other special devises to facilitate the loading, unloading or transportation of individuals with disabilities has all such devices in good working order.

(h) A vehicle with a seating capacity of less than 16 passengers that is eight or more years old as of January 1 of each calendar year, or has more than 150,000 miles shall have the required periodic vehicle inspection completed at least semi-annually. The required inspections must be compliant with the provisions of 49 C.F.R. § 396.17 and be completed by a qualified inspector meeting the minimum qualification requirements set forth in 49 C.F.R. § 396.19.

(i) No vehicle with a seating capacity of less than 16 passengers shall be more than 12 years old regardless of condition or mileage.

(j) No vehicle with a seating capacity of less than 16 passengers that has more than 250,000 miles shall be operated regardless of age or condition.

(k) No vehicle with a seating capacity of 16 passengers or more shall be more than 15 years old regardless of condition or mileage.

(l) The age of the vehicle shall be determined by subtracting the model year of the vehicle from the present calendar year. By way of example, a 2010 model year vehicle is seven years old for the calendar year 2017.

(m) No petition for waiver of this rule shall be considered by the Commission unless the petitioner files; along with his or her petition:

(I) proof of compliance with all provisions of this rule;

(II) proof that the vehicle has been owned and operated by the petitioner for at least three consecutive years prior to the filing of the petition and documentation confirming the mechanical integrity of the vehicle;

(III) the motor carrier's plan to come into compliance with the minimum vehicle standards (plans to retire and replace the vehicle, the status of any loan against the vehicle, etc.);

(IV) identification of any factors related to the market served as it pertains to the uniqueness or specific needs of the specified market; and

(V) any other information the petitioner deems relevant.

6108. – 6199. [Reserved].

REGULATED INTRASTATE CARRIER RULES

Regulated Intrastate Carrier Rules.

6200. Applicability.

Rules 6200 through 6249 apply to all common carriers, all contract carriers, and to all Commission proceedings and operations concerning common carriers and contract carriers as well as applicants, employees, and drivers of such carriers.

6201. Definitions.

In addition to the definitions in rules 6001 and 6101, the following definitions apply to all carriers and drivers subject to these regulated intrastate carrier rules:

(a) "Access fee" means the fee assessed by an airport for the use of its facilities for one trip levied upon motor carriers transporting passengers to, from or at an airport.

(ab) "Auto livery" or "auto livery service" means the transportation of passengers by common carrier, including the transportation of passengers in scheduled and/or call-and-demand service. This term is only used in historical authorities.

(c) "Base area" means a geographic area in which a taxicab is authorized to provide point-to-point service. This term is defined only because of its use in authorities issued by the Commission.

(bd) "Capable," as used in § 40-10.1-204(1), C.R.S., means ready, willing, and able to provide services under the terms of the common carrier's authority. Capability may be evidenced by,

among other things, ongoing transportation operations or good faith efforts to conduct such operations under such authority.

(e) “Close proximity”, as referenced in § 40-10.1-203, C.R.S., means within a one-mile radius and 20 minutes from the drop-off location and time.

~~(c) "Call-and-demand," "on call-and-demand," or "call-and-demand service" means the transportation of passengers by a common carrier not on schedule.~~

~~(d) “Chartering party” means a person or group of persons who share a personal or professional relationship whereby all such persons are members of the same affiliated group, including, a family, business, religious group, social organization or professional organization. “Chartering party” does not include groups of unrelated persons brought together by a carrier, transportation broker, or other third party.~~

~~(e) "Charter service" means transportation of a chartering party provided by a common carrier on a call-and-demand basis.~~

~~(f) "Common carrier" means every person directly or indirectly affording a means of transportation, or any service or facility in connection therewith, within this state by motor vehicle or other vehicle whatever by indiscriminately accepting and carrying passengers for compensation; except that the term does not include a contract carrier as defined under § 40-10.1-101(6), C.R.S.; a motor carrier that provides transportation not subject to regulation pursuant to § 40-10.1-105, C.R.S.; or a limited regulation carrier defined under § 40-10.1-301, C.R.S~~

~~(g) "Contract carrier" means every person, other than a common carrier or a motor carrier of passengers under Part 3 of Article 10.1 of Title 40, C.R.S., who, by special contract, directly or indirectly affords a means of passenger transportation over any public highway of this state.~~

~~(h) "Encumbrancer" means a person seeking or holding an encumbrance (e.g., lien or mortgage) against the authority of a common or contract carrier.~~

~~(i) "Flag stop" means a point of service designated by a common carrier on its filed schedule, which point is located between two scheduled points on the scheduled route. Typically, the common carrier does not designate a specific time for service to the flag stop; if the common carrier does designate a specific time for service, the time is considered to be an approximation.~~

(jf) "Limousine service" means the transportation of passengers by a common carrier on a call-and-demand basis charged at a per-person rate, and the use of the motor vehicle is not exclusive to any individual or group. The term "limousine service" is distinguished from the term "luxury limousine service" as used in Article 10.1 of Title 40, C.R.S. This term is only used in historical authorities.

~~(k) "Outstanding authority" means an existing authority, or any portion thereof, which is not under suspension.~~

~~(l) "Scheduled service," "on schedule," or "schedule" means the transportation of passengers by a common carrier between fixed points and over designated routes at established times as specified in the common carrier's time schedule filed with and approved by the Commission.~~

~~(m) "Shuttle service" means the transportation of passengers by a common carrier on a call-and-demand basis charged at a per-person rate and the use of the motor vehicle is not exclusive to any individual or group.~~

~~(n) "Sightseeing service" means the transportation of passengers by a common carrier on a call-and-demand basis originating and terminating at the same point for the sole purpose of viewing or visiting places of natural, historic, or scenic interest.~~

(~~o~~g) "Special bus service," "special bus transportation," or "special bus", only used in historical authorities, means the transportation of passengers by common carrier:

(I) not including ordinary and continuous scheduled service;

(II) rendered generally on weekends, holidays, or other special occasions;

(III) with a fixed termination date; and

(IV) to a number of passengers whom the carrier on its own initiative has assembled into a travel group, through its own promotion and sale of individual tickets, for a trip or tour planned by the carrier.

(~~p~~h) "Tack~~ing~~" means the joinder of two or more separate authorities or two or more separate parts thereof at a common service point for the purpose of providing a through service.

~~(q) "Taxicab" means a motor vehicle with a seating capacity of eight or less, including the driver, operated in taxicab service.~~

~~(r) "Taxicab service" means passenger transportation by a common carrier on a call-and-demand basis in a taxicab, with the first passenger therein having exclusive use of the taxicab unless such passenger agrees to multiple loading.~~

(~~s~~i) "Transfer" means, without limitation, any sale, lease, assignment, license, change in ownership, foreclosure of an encumbrance, execution in satisfaction of any judgment or claim, merger, consolidation, or similar transaction in which control of any authority or portion thereof changes from one entity to another, whether voluntarily, by court order, or otherwise.

(~~t~~j) "Transferee" means any entity newly acquiring control of any authority from a transferor.

(~~u~~k) "Transferor" means any entity transferring control of any authority to a transferee.

6202. Prohibited Operations.

(a) Without specific approval by the Commission, no regulated intrastate carrier shall:

(I) combine or tack two or more separate authorities or two or more separate parts of an authority in order to render a transportation service not authorized by any individual authority or part thereof;

(II) extend, enlarge, diminish, change, alter, or vary the territory, route, or service authorized by its authority;

(III) serve any point not included in its authority or authorized by statute;

(IV) abandon or suspend operations under its authority; or

(V) file a tariff or time schedule whose applicability or scope violates this rule.

6203. Applications to Operate as a Common or Contract Carrier.

(a) A~~ny~~ person seeking permanent authority, temporary authority or emergency temporary authority to operate as a common carrier or to extend a common carrier certificate ~~or contract carrier, or permanent authority to extend a common carrier certificate or contract carrier permit,~~ shall file a~~n~~ completed application using the form provided by the Commission on its website. Each application requires supporting information which must be submitted with the application. ~~The application shall contain the following information:~~

(b) A person seeking permanent authority, temporary authority or emergency temporary authority to operate as a contract carrier or to extend a contract carrier certificate shall file a completed application using the form provided by the Commission on its website. Each application requires supporting information which must be submitted with the application.

(c) The granting of an emergency temporary authority creates no presumption that a temporary or permanent authority will be granted. The granting of a temporary authority creates no presumption that a permanent authority will be granted.

~~(I) The name, including trade name if applicable, physical address, mailing address, telephone number, and email address of the applicant.~~

~~(II) The name, mailing address, telephone number, and email address of the applicant's representative to whom the Commission may direct inquiries regarding the application.~~

~~(III) The name and address of the applicant's Colorado designated agent for service of process, if required by rule 6011.~~

~~(IV) A statement describing the applicant's business structure (corporation, limited liability company, partnership, sole proprietorship, etc.).~~

~~(V) If the applicant is a corporation: the name of the state in which it is incorporated; the mailing address and physical address of its principal office; the names of its directors and officers; and a certified copy of its certificate of good standing authorizing it to do business in Colorado, certified within 14 days prior to the filing of the application.~~

~~(VI) If the applicant is a limited liability company: the name of the state in which it is organized; the mailing address and physical address of its principal office; the name of its managers; and a certified copy of its certificate of good standing authorizing it to do business in Colorado, certified within 14 days prior to the filing of the application.~~

~~(VII) If the applicant is a partnership: the names, titles, and addresses of all general and limited partners.~~

~~(VIII) A copy of the applicant's certificate of assumed trade name or trade name registration, if applicable.~~

~~(IX) A complete description of the authority sought, which shall indicate:~~

~~(A) whether the applicant proposes to operate as a common or contract carrier;~~

~~(B) the proposed type of service (e.g., charter, shuttle, sightseeing, taxicab, or scheduled, but not limousine, auto livery or special bus), if the applicant proposes to operate as a common carrier;~~

(C) the proposed geographic area of service or the proposed points or routes of service;

(D) any proposed restrictions to the authority sought; and

(E) a description of the make, model, and year of the motor vehicles proposed to be operated, or if unknown, then a summary of the number and types of motor vehicles proposed to be operated.

(X) A map or diagram showing the proposed geographic service area, or the proposed points or routes of service, if and in the form requested by the Commission or Commission staff.

(XI) A statement setting forth the qualifications of the applicant, including managerial, operational, and financial fitness, to conduct the proposed operations.

(XII) A statement describing the extent to which the applicant, or any person affiliated with the applicant, holds or is applying for authority duplicating or overlapping in any respect the authority at issue in the application.

(XIII) A statement identifying current authorities issued by either a state or federal agency, authorizing the applicant or any affiliate to provide for-hire transportation of passengers in the state of Colorado.

(XIV) A statement that the applicant understands the Commission will, in its discretion, cancel any duplicating or overlapping authorities created by granting the application.

(XV) A statement indicating the town or city where the applicant prefers any hearing to be held.

(XVI) A statement, signed by the applicant, that the application contains only information that is true and correct to the best of the applicant's knowledge and belief.

(XVII) If the applicant applies for common carrier authority, the applicant shall demonstrate a public need for the proposed service and that the authority is in the public interest and should be granted. Due to the presumed public need in § 40-10.1-203(2)(b)(II)(B), C.R.S., this demonstration is not required when the proposed service is taxicab service within and between the counties of Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas, El Paso, and Jefferson. Any letter of support filed to demonstrate a public need:

(A) shall contain the author's name, address, and telephone number;

(B) should describe the public need;

(C) should specifically support the applicant's particular request for authority;

(D) should describe whether and how existing service is inadequate;

(E) should contain a statement that the letter contains only information that is true and correct to the best of the author's knowledge and belief; and

(F) shall be signed by the author.

(XVIII) If the applicant seeks contract carrier authority shall provide a statement of the facts upon which the applicant relies to establish the superior, special, or distinctive nature of the transportation service, or how the transportation service will be specifically tailored to meet the customers' needs. The applicant shall also attach a letter from each proposed customer. Such a letter:

(A) shall contain the proposed customer's name, address, and telephone number;

(B) should indicate the proposed customer's special or distinctive transportation needs;

(C) should specifically support the applicant's particular request for authority;

(D) should describe whether there is existing service and how the existing service is inadequate;

(E) should contain a statement that the letter contains only information that is true and correct to the best of the proposed customer's knowledge and belief; and

(F) shall be signed by the proposed customer.

(b) Any person seeking temporary authority to operate as a common or contract carrier, shall file an application.

(I) The application shall contain all the information specified by paragraph (a) of this rule, modified as follows:

(A) any letters of support shall contain the following additional information: an explanation of the immediate and urgent need for the proposed service; whether there is any other transportation service available; if such service is available, a detailed description of the author's efforts to use it and whether it is capable of meeting the author's needs, and the extent to which available transportation services have refused to provide service;

(B) the statement of facts shall also establish an immediate and urgent need for the proposed service and that there is no such service capable of meeting the need;

(C) the statement in subparagraph (a)(XIX) is not required;

(D) a statement shall be included indicating whether the Commission has previously granted to the applicant authority to render all or any part of the proposed service and the decision number granting the authority; and

(E) a statement shall be included of the period of time which applicant requests the temporary authority to cover, not to exceed 180 days.

(II) The Commission shall not grant temporary authority to provide the same service, including both temporary authority and emergency temporary authority for a total period greater than 180 days.

(c) Any person seeking emergency temporary authority to operate as a common or contract carrier, shall file an application with the Commission. The application shall contain all the information required by paragraph (b) of this rule, except that

~~the period of time identified in subparagraph (b)(I)(E) shall not exceed 30 days. The application shall include a statement of facts establishing the basis and nature of the emergency need for the proposed service. Any letters of support shall describe the basis and nature of the emergency. Without regard to the period of time in the application, the Commission shall not issue emergency temporary authority for a period greater than 30 days following the effective date of the Commission decision granting the authority.~~

~~(d) The granting of emergency temporary authority creates no presumption that temporary or permanent authority will be granted. The granting of temporary authority creates no presumption that permanent authority will be granted.~~

~~(e) Burden of proof for contract carrier applicants.~~

~~(I) A contract carrier applicant shall bear the burden of proving that the service it proposes is superior, special, of a distinctive nature, or that the service will otherwise be specifically tailored to meet the potential customers' needs.~~

~~(II) Such a showing is overcome by an intervenor's showing that the intervenor is ready, willing, and able to meet the potential customers' needs.~~

~~(III) If the intervenor makes such a showing, the applicant shall bear the burden of proving that the applicant is better suited than the intervenor to meet the needs of the potential customer.~~

~~(IV) The intervenor may overcome such a demonstration by establishing that the applicant's proposed operation will impair the efficient public service of any common carrier then adequately serving the same geographic area.~~

~~(V) Nothing in this paragraph shall be construed to direct the sequence of evidence presented by the parties.~~

6204. Applications to Voluntarily Abandon or Suspend Authority.

(a) A regulated intrastate carrier seeking to voluntarily abandon or suspend its authority, or any portion of its authority, shall file a~~n~~ completed application using the form provided by the Commission on its website. ~~to voluntarily abandon or suspend its authority, or any portion thereof~~. Any supporting information must be submitted with the application. After ten days' notice, the Commission may either issue a decision determining the outcome of the application ~~decide such an application without a hearing~~ or set ~~it~~ the matter for hearing. A c~~C~~arrier's obligations to continue to provide service pursuant to its authority are not affected by filing of the application~~;~~. ~~rather they will be determined by Commission decision~~Service may only be abandoned or suspended after approval by the Commission through the issuance of a decision. ~~The application shall:~~

~~(I) fully describe why the abandonment or suspension is sought;~~

~~(II) describe how the abandonment or suspension will affect the public;~~

~~(III) contain a statement that the application contains only information that is true and correct to the best of the applicant's knowledge and belief; and~~

~~(IV) be signed by the applicant.~~

(b) A regulated intrastate carrier may not ~~request and the Commission shall not grant a~~ voluntarily suspension ~~persisting~~ an authority for longer than:

(I) twelve consecutive months;

(II) twelve months in any 24-month period; or

(III) two consecutive seasons, for a regulated intrastate carrier operating seasonally.

(c) In addition to all other applicable requirements, any request for waiver or variance from this time period limitation in paragraph (b) must demonstrate that ~~the~~ the suspension is in the public interest and that alternative service will be available during the period of suspension.

6205. Application to Encumber, Transfer, Merge, Consolidate, and Acquire Control.

(a) No regulated intrastate carrier shall by any means, directly or indirectly, ~~sell, lease, merge, consolidate, assign, license, encumber, or otherwise~~ transfer any right or interest in any portion of said regulated intrastate carrier's authorities, except as specifically provided by Commission order, this rule 6205, or ~~Article 11.5 of Title 40~~§ 40-10.1-205, C.R.S.

(b) ~~Except with regard to foreclosures of encumbrances, executions in satisfaction of a judgment or claim, or transfers pursuant to a court order, o~~Only the owners of an authority as shown in the official records of the Commission may transfer ~~the~~ an authority issued by this Commission. No regulated intrastate carrier shall transfer any authority by means of foreclosure of an encumbrance or by means of an execution in satisfaction of any judgment or claim, except as approved by the Commission or as ordered by a court of law. Commission approval of an encumbrance is not authorization to transfer the subject authority.

(c) An application to ~~encumber any authority,~~ transfer any authority~~, acquire control of any regulated intrastate carrier, or permit a merger or consolidation of a regulated intrastate carrier with any other entity,~~ shall~~, if possible, take the form of a joint application submitted~~ be jointly filed by all parties to the transaction. ~~Such an application shall contain all the information below. If an applicant is unable to supply the required information, the applicant shall explain the reason for the lack of information.~~The parties shall file a completed application using the form provided by the Commission on its website.

~~(I) All applicants shall provide the information required by subparagraphs 6203(a)(I), (II), and (XIV).~~

~~(II) Transferees and encumbrancers shall provide the information required by subparagraphs 6203(a)(III) - (VIII), and (XI) - (XVI). An application to transfer a contract carrier permit shall include a signed letter of support from each customer.~~

~~(III) If a transferee or encumbrancer is an executor, trustee, receiver, or other similar representative of the real party in interest: a copy of the court order evidencing the representative's appointment, or other evidence of authority if not under court order.~~

~~(IV) If the transaction covers only portions of an authority: a statement fully explaining which portions are covered by the transaction and which are not.~~

~~(V) A complete description of the type of transaction for which the applicants seek Commission approval, together with a statement describing each applicant's role in the transaction.~~

~~(VI) If the transaction involves an acquisition of stock: a statement of the transferor's total number of outstanding capital stock shares, by class; and the number of shares of each class to be acquired by transferee.~~

~~(VII) A copy of all agreements concerning the transaction, including a copy of all documents creating a security interest, if any, and a statement of the consideration paid in the transaction.~~

~~(VIII) A statement explaining how the transferee proposes to meet the financial requirements of the transaction, including, if a loan is involved, the amount, maturity, interest rate, and other terms and conditions.~~

~~(IX) A statement setting forth the nature, extent, and proposed disposition of any existing encumbrances against the affected authorities.~~

~~(X) A current copy of each of the letters of authority encompassing the authorities at issue in the application.~~

~~(XI) If the transaction involves the lease of an authority: a copy of the proposed lease and a statement of the lease's effective date and termination date.~~

~~(XII) If a transferor or encumbrancer seeks foreclosure of an encumbrance or execution in satisfaction of any judgment or claim: the transferee's written consent to transfer, or in lieu thereof, a judicial order authorizing unilateral action by the transferor or encumbrancer.~~

~~(XIII) A statement setting forth the qualifications of the transferee, including managerial, operational, and financial fitness, to conduct the proposed operations.~~

~~(XIV) A statement that the applicants understand the Commission will, in its discretion, cancel any duplicating or overlapping authority created by the transaction.~~

~~(XV) A statement setting forth whether the transferor has been and is conducting active, bona fide operations under the authorities at issue in the transaction.~~

~~(XVI) A statement of the facts upon which the applicants rely to show that the application should be granted. The applicants have the burden of proving:~~

~~(A) that the transferor has not abandoned the authority and has not allowed the authority to become dormant;~~

~~(B) that the transferor has been and is engaged in bona fide operations under its authority, or the extent to which bona fide operations have been excused because of a Commission-approved suspension;~~

~~(C) that the transfer is not contrary to the public interest;~~

~~(D) that the transfer will not result in the common control or ownership of duplicating or overlapping authorities; and~~

~~(E) that the transferee will engage in bona fide regulated intrastate carrier operations and is fit to do so, except in transfers involving foreclosures of encumbrances,~~

executions in satisfaction of a judgment or claim, or transfers pursuant to a court order.

(XVII) A statement, signed by the applicants, that the application contains only information that is true and correct to the best of the applicants' knowledge and belief.

(d) An application filed under § 40-10.1-204, C.R.S., seeking temporary or emergency temporary approval to operate or transfer control of an authority shall be filed concurrently with the permanent application filed under paragraph (c) of this rule. A temporary and/or emergency temporary application shall contain a statement of the facts establishing that failure to grant temporary or emergency temporary approval may result in destruction of or injury to the utility's properties sought to be acquired, or to interfere substantially with their future usefulness in the performance of adequate and continuous service to the public. In the case of an emergency temporary application, the application shall contain a statement explaining the nature and extent of the emergency.

(e) Unless the transaction only involves an acquisition of stock or membership interests, Uupon approval of an application to transfer an authority, application a transferee shall not begin operations until after the Commission has advised the transferee that it is in compliance with all requirements and is authorized to begin operations. In accordance with the timelines set forth by the Commission's decision, the transferee shall:

(I) file with the Commission an adoption notice, in a form available from the Commission, whereby the tariff and/or time schedule of the transferor shall become those of the transferee until changed;

(II) cause to be filed with the Commission proof of insurance as required by Commission rules; and

(III) pay the issuance fee and annual motor vehicle fee.

(f) The transferor of any authority or permit shall not cancel its insurance, surety bond, or tariffs until the Commission has approved issued its decision approving the transfer, the transferee and transferor hasve filed all required documents in the transferee's own name, and the Commission has advised the transferee that it is authorized to begin operations.

(g) Upon approval of an application to permanently transfer applicationan authority, the transferor and transferee shall file an Commission-prescribed acceptance of transfer using the form provided by the Commission. The form shall be signed by both parties, indicating acceptance of the terms and conditions of the decision authorizing the transfer. The Acceptance of Transfer shall contain a statement indicating that the transferee has complied, and will comply, with all provisions of the agreement of sale, lease, or other transfer.

(h) When the Commission authorizes the transfer of control of one regulated intrastate carrier to another regulated intrastate carrier on a permanent basis, the adoption notice and adopted tariffs and time schedules adopted by the transferee shall be valid for a maximum of 65120 days from the date of issuance of the authority, or as otherwise ordered by the Commission.

(i) Within 60 30 days from approval of the permanent transfer of the authority, the transferee shall file an advice letter and proposed tariff in the transferee's name in accordance with Commission rules.

(j) The granting of emergency temporary authority to operate or transfer control creates no presumption that temporary or permanent authority will be granted. The granting of temporary

authority to operate or transfer control creates no presumption that permanent authority will be granted.

(k) If temporary or emergency temporary authority to assume operating control is not made permanent, transferor shall file an adoption notice reassuming permanent operating control. ~~The transferor shall also post the adoption notice in a prominent public place in each terminal facility and office of the transportation utility, and shall make the adoption notice available for public inspection at each terminal and office.~~ The temporary or emergency temporary authority assumed by the transferee expires on the effective date of the transferor's adoption notice reassuming permanent operating control.

6206. Duplicating or Overlapping Authorities.

The Commission ~~shall~~ may cancel duplicating or overlapping authorities that arise as a result of any grant, extension, or other modification to a certificate or permit.

6207. Tariffs.

(a) A regulated intrastate carrier shall keep on file with the Commission, at all times, approved tariffs clearly showing rates and~~,~~ charges~~, and collections~~ to be assessed for all transportation and accessorial services provided by the carrier. The tariff must also ~~and~~ disclose~~ing~~ all rules and conditions, and time schedules, as applicable, relating to rates or service. Tariffs filed with the Commission must be filed on the form or in the format prescribed by the Commission.

(b) Flexible tariffs. A common carrier may file a tariff which allows for pricing flexibility in order to compete in the transportation market.

(I) A flexible tariff must be filed on a Commission prescribed form. A flexible tariff must include a minimum and a maximum rate for each service the carrier seeks flexible pricing treatment.

(II) Once a flexible tariff is either approved by the Commission or allowed to become effective by operation of law, the carrier may change its rates within the minimum and maximum range, as follows.

(A) Carriers shall notify the Commission of all rate changes within the tariffed range through the filing of a notice. The notice shall:

(i) be on the Commission prescribed form for a notice of rate change;

(ii) be filed with the Commission using its E-Filings System;

(iii) be filed into the proceeding authorizing the initial flexible tariff; and

(iv) be filed concurrently or prior to the date and time the rate change is implemented.

(B) Carriers shall post the current rates that are in effect:

(i) on the carrier's website; and

(ii) in each vehicle used to provide service under the flexible tariff.

(C) All drivers operating a vehicle under a carrier's authority and tariff shall charge the current rate that is on file with the Commission for that carrier. Drivers may not charge rates different from the rate set by the carrier and filed with the Commission.

(D) In the event a driver is providing a ride to a passenger when a rate is changed, the rate in effect when the ride initiated shall apply.

(III) Flexible tariffs for transportation to and from current flat rate zones.

[OPTION ONE]

Keep the flat rate zones as they exist today and allow individual companies to file flexible tariff with minimums and maximums for flat rates consistent with the provisions of the flexible tariff rule. The maximum flat rates must be at or below the approved flat rates set by the Commission for each zone.

[OPTION TWO]

Eliminate flat zones and apply metered rates allowing for flexible tariffing.

(~~b~~c) Tariff compliance.

(I) No regulated intrastate carrier may operate its motor vehicles without having approved tariffs on file with the Commission.

(II) No regulated intrastate carrier shall operate in conflict with its approved tariff or disseminate t~~o any person i~~nformation contrary to thet which is i~~nformation c~~ontained in its approved tariff.

~~(III) No regulated intrastate carrier shall operate in conflict with its approved tariff.~~

(~~c~~d) A common carrier shall ensure that a copy of its approved tariff is available for public inspection, at all reasonable times, in each of ~~the common carrier's~~its offices~~. or terminals transacting business with the public.~~ If the common carrier maintains a presence on the Internet, its tariff must also be posted on its website(s) relevant to the common carrier's services.

(~~d~~e) A common carrier that is authorized to provide ~~Every~~ taxicab ~~carrier~~ service shall publish, in its tariffs, reduced fares applicable to ~~ ~~each passenger being transported under a multiple loading arrangement. The calculated fare for each passenger in a multiple load shall be reduced by a minimum of 20 percent.

(~~e~~f) A contract carrier shall ensure that its tariff, at a minimum:

(I) ~~Its tariff~~ includes the names of the parties to the contract, the provisions ~~required by paragraph 6209(d)~~regarding the scope and terms of transportation and accessorial services to be provided, and the date(s) and terms of the contract, including rates. ~~or incorporates~~ A copy of the executed written contract may be filed in lieu of the requirement to provide dates, terms and rates of the contract;~~into tariff by attaching a copy of the contract to the tariff.~~

(II) ~~It is paid in accordance with its approved tariff~~provides for payment by the person or agent of the entity with whom the contract carrier has directly contracted pursuant to the authority granted by the Commission; and

(III) prohibits payment from individual passengers.

~~(A) The tariff shall provide for payment to the contract carrier only:~~

~~(i) by the Commission-approved person with whom the contract carrier has directly contracted; or~~

~~(ii) by such entity's agent for distribution of payment.~~

~~(B) The tariff shall not provide for payment from an individual passenger, unless:~~

~~(i) such passenger is the Commission-approved person specifically named in the contract carrier's permit; or~~

~~(ii) the Commission specifically so approves.~~

(~~g~~f) Unless this rule specifies otherwise, the provisions of rules 1210(a)(IV) through (VIII) and 1305 of the Commission's Rules of Practice and Procedure govern the tariffs and advice letters of regulated intrastate carriers. ~~In addition to the requirements of subparagraph 1210(b)(I)(A), the tariff's title page shall contain the regulated intrastate carrier's common carrier certificate or contract carrier permit numbers to which the tariff applies.~~

(h) By October 1, 2018 all regulated intrastate carriers with tariffs on file with the Commission, shall file a complete and updated tariff on the form or in the format prescribed by the Commission.

(~~g~~i) A regulated intrastate carrier ~~filing a tariff for newly~~ granted a new authority or ~~extended~~ an extension of an authority shall file a proposed tariff on not less than the number of days' notice specified in the Commission decision granting the new or extended authority. ~~do so on no less than:~~

~~(I) one day notice for emergency temporary authority;~~

~~(II) five days' notice for temporary authority; and~~

~~(III) ten days' notice for permanent authority.~~

(~~h~~j) A regulated intrastate carrier proposing ~~a tariff~~ to replace or modify any portion of an existing tariff shall:

(I) not implement such change except after 30 days' notice to the Commission and the public. Notice shall be calculated in accordance with paragraph 1203(c) of the Commission's Rules of Practice and Procedure;

(II) file a complete and up-to-date tariff on a form or in the format prescribed by the Commission; and

(III) not operate under any proposed change until it receives approval by the Commission and after notice to the Commission and the public has expired.

(k) Any person seeking to protest any portion of a rate, fare, classification or service not altered by the carrier in its proposed changes to an existing tariff, shall bear the burden of proof as it pertains to why such rate, fare, classification or service is not just and reasonable.

(l) ~~The~~ A regulated intrastate carrier shall file~~, upon the request of Commission staff,~~ additional supporting documentation upon the request of Commission staff~~to justify the proposed tariff~~. The ~~justification~~ documentation shall~~should~~ include an explanation of the circumstances and data relied upon ~~in~~ to justify~~requesting approval of~~ the proposed tariff.

(~~i~~m) In addition to the notice required by § 40-3-104, C.R.S., ~~and the notice requirements of the Rules of Practice and Procedure,~~ a common carrier filing ~~an advice letter and~~ proposed tariff ~~pages~~ changes shall concurrently give notice to the public, as follows:

(I) ~~The common carrier shall~~ post notice of its proposed tariff in a prominent public place in each of its offices, on its website, if the carrier has a website, and in the passenger compartment of each motor vehicle used in the transportation of passengers affected by the proposed tariff changes. ~~pages, concurrently with the filing of the advice letter with the Commission~~.

~~(A) Notice shall be posted in a prominent public place in each terminal facility and office of the common carrier.~~

~~(B) Notice shall be posted on the carrier's website. In the event that a carrier does not have a website, such carrier shall post notice of its proposed tariff pages in a newspaper of general circulation which covers the localities or areas of the state where people affected by the proposed tariff change reside. Such notice shall appear in the newspaper at least 20 days prior to the proposed effective date. A common carrier utilizing this form of notice shall file an affidavit of publication prepared by the newspaper, or a copy of the published notice, with the Commission no later than seven days prior to the proposed effective date,~~

~~(C) Notice shall be posted in the passenger compartment of each motor vehicle used in the transportation of passengers affected by the proposed tariff pages.~~

(~~D~~II) The notice shall remain posted through the effective date of the proposed tariff.~~for a minimum of 20 days from the date filed with the Commission.~~

(II~~I~~) The ~~common carrier shall include in such~~ notice shall include: ~~the~~all proposed changes to the tariff; the proposed effective date; a statement that a written objection maybe filed with the Commission; a statement that any objection must be filed at least ten days prior to the proposed effective date; and ~~-~~the Commission's address and website where objections may be filed.

(~~j~~n) An application to amend a tariff on less notice than otherwise required by these rules shall only be granted for good cause. The application shall contain the proposed advice letter and tariff, information fully explaining the circumstances and data relied upon to justify why the tariff amendment is sought, why it should be made on lesser notice, and how the tariff change will affect the public if approved. Public ~~N~~notice of an application requesting lesser notice shall be ~~given as follows~~provided as described in paragraph (m) of this rule.~~:~~

~~(I) The common carrier shall post notice of its proposed tariff amendment concurrently with the filing of the proposed amendment with the Commission.~~

~~(A) Notice shall be posted in a prominent public place in each terminal facility and office of the common carrier.~~

~~(B) Notice shall be posted on the carrier's website.~~

~~(C) Notice shall be posted in the passenger compartment of each motor vehicle used in the transportation of passengers affected by the proposed amendment.~~

~~(D) The notice shall remain posted until the Commission approves or rejects the application.~~

~~(II) The common carrier shall include in such notice: the proposed changes; the proposed effective date; a statement that the Commission may grant or deny the application; a statement that a written objection maybe filed with the Commission; a statement that an objection may only be filed prior to the date that the Commission grants or denies the application; and the Commission's address and website where objections may be filed.~~

(~~k~~o) If the Commission rejects a tariff, the tariff number contained in it shall not be used again. The tariff or amendment shall not be referred to afterwards as canceled, amended, or otherwise.

6208. Time Schedules.

(a) A common carrier that has been granted authority to provide scheduled service shall file time schedules as part of the carrier's tariff. No ~~scheduled~~ common carrier may operate its motor vehicles in scheduled service without having approved time schedules on file with the Commission. No such common carrier shall operate in conflict with its approved time schedules.

(b) No ~~scheduled~~ common carrier operating a scheduled service shall disseminate to any person information contrary to the information contained in its approved time schedules.

(c) A common carrier operating a scheduled service shall ~~promptly~~ concurrently report in writing to the Commission and post to its website~~and shall communicate to the affected public~~ any interruption of regular service for 24 continuous hours or more, explaining in detail the cause and anticipated length of the service interruption.

(d) A ~~scheduled~~ common carrier operating a scheduled service shall designate its flag stops on its schedule. Such a common carrier shall drive by each flag stop in such close proximity and speed as to be able to reasonably assess whether passengers are waiting for service. The common carrier is not required to designate a specific time for service to the flag stop; if the common carrier does designate a specific time for service, the time is considered to be an approximation. Failure to stop for a waiting passenger constitutes prima facie evidence of a violation of subparagraph 6202(a)(II).

(e) A ~~scheduled~~ common carrier operating a scheduled service shall ensure that a copy of its approved time schedule is available for public inspection, at all reasonable times, in each of the common carrier's offices or terminals transacting business with the public. The common carrier shall carry copies of its time schedules in its ~~scheduled~~ motor vehicles operating the schedule, and shall furnish them to passengers upon request.

(f) A common carrier operating a scheduled service shall file and keep current, ~~T~~time schedules ~~shall be filed~~ with the Commission as part of the ~~scheduled~~ common carrier's tariff.~~, in accordance with applicable provisions of rule 6207.~~ The time schedule shall be filed on the form or in the format prescribed by the Commission. At a minimum, time schedules shall contain the following:

(I) a statement ~~of the scope of the time schedule,~~ describing the route or points to which the time schedule applies;

(II) an explanation of the symbols, reference marks, and abbreviations used;

(III) one or more lists of all scheduled stops and all flag stops, in geographical order, designating the departure and/or arrival times for the scheduled stops, as appropriate;

(IV) a statement whether service is daily or otherwise, and if otherwise a statement describing the other service;

(V) the address of each scheduled stop, if such address exists, otherwise a description sufficient to notify the Commission and the public regarding the location of the scheduled stop; and

(VI) any other appropriate information regarding the service the common carrier desires to perform.

6209. Contract Carrier Contracts.

(a) ~~Except as otherwise permitted by law, a~~A contract carrier shall not enter into a contract for transportation that is in conflict with the contract carrier's permit or with any person not named in the contract carrier's permit.

(b) ~~Except as otherwise permitted by law, a~~A contract carrier shall not engage in any act of transportation for compensation except in compliance with the contract between the contract carrier and the person named in the contract carrier's permit.

(c) Contracts shall be written, not oral.

(d) At a minimum, all contracts shall specify the following:

(I) the names of the parties to the contract;

(II) the provisions regarding the scope and terms of transportation and accessorial services to be provided; and

(III) the date(s) and terms of the contract, including rates.

(e) Contracts shall provide for payment by the person or agent of the entity with whom the contract carrier has directly contracted pursuant to the authority granted by the Commission. In no circumstances shall a contract carrier receive payment for providing contract services from individual passengers.

~~(e) A contract carrier shall not operate in conflict with the contract carrier's permit.~~

~~(f) A contract carrier shall not operate in conflict with the contract carrier's tariff.~~

6210. Refusal of Service, Driver Courtesy.

~~(a)~~ No regulated intrastate carrier or driver may refuse to transport any passenger unless: the passenger is acting in an unlawful, disorderly, or endangering manner; there is a previous commitment of the equipment; or the passenger is unable to care for himself or herself, if not in the charge of a responsible companion or attendant. Except where there is a previous commitment of the equipment, a driver shall immediately report to the carrier any refusal to transport a passenger.

~~(b) Every regulated intrastate carrier shall ensure that its drivers provide its passengers with courteous service promoting the passengers' comfort and convenience. Drivers shall not behave discourteously. Discourteous service by a driver includes, but is not limited to, instances involving profanity, obscenity, assault, or the making of derogatory sexual or racial remarks towards passengers or other persons. Passenger's or other person's conduct, especially if it is unlawful, disorderly, or endangers others, is a factor to consider in determining whether a driver behaves discourteously.~~

6211. [Reserved].

6212. Annual Reports.

(a) Each regulated intrastate carrier shall file with the Commission an annual report on a Commission-prescribed form on or before April 30 of each year. The regulated intrastate carrier shall complete all sections of the annual report applicable to said regulated intrastate carrier for the 12-month period ending on December 31 of the previous calendar year.

(b) ~~When the Commission grants a permanent transfer of authority, the transferor shall complete a terminating annual report on a Commission-prescribed form, which report shall cover the period from January 1 to the date of the decision approving the transfer.~~

~~(c)~~ A principal of the regulated intrastate carrier shall sign the certification of the annual report or terminating annual report. In all annual report filings, the regulated intrastate carrier shall comply with subparagraph 1204(a)(III) and rule 1100 et seq., of the Commission's Rules of Practice and Procedure.

6213. - 6214. [Reserved].~~Age of Motor Vehicles.~~

~~(a) Intrastate regulated carriers operating vehicles with a seating capacity of 15 or less shall not use vehicles older than 12 model years as of July 1 of each year.~~

~~(b) The counting of model years shall begin with the present calendar year. By way of example, between July 1, 2011, and June 30, 2012, counting backwards, 2011 is the first model year, 2010 is the second model year, and so forth.~~

~~(c) An intrastate regulated carrier operating vehicles that are over 12 model years old as of August 1, 2012, shall have until July 31, 2014, to comply with paragraph (a) for those specific vehicles.~~

~~(d) A vehicle that would otherwise be subject to this rule that is equipped with ramps, lifts, or other special devices to facilitate the loading, unloading, or transportation of individuals with disabilities is exempt from the requirements of this rule if all such devices are in good working order.~~

~~**6214. Condition of Motor Vehicles.**~~

~~Vehicles operated by intrastate regulated carriers shall be in good physical condition. The Commission's enforcement officials shall use the following general guidelines in determining if a vehicle is in good physical condition:~~

~~(a) The body of the vehicle has a good, unfaded paint job; is devoid of dents, rust, broken trim, and cracked windows; and~~

~~(b) Except for problems caused by current weather conditions, the interior of the vehicle is clean, and has no major tears, cracks, or stains upon the upholstery, headliner, and carpeting~~.

6215. Forms of Payment.

A common carrier may accept any form of payment, but must accept MasterCard and Visa credit cards.

6216. Regulated Intrastate Carrier Violations, Civil Enforcement, and Civil Penalties.

(a) A person who violates any of the following provisions may be assessed a civil penalty of up to $1,100.00 for each violation of:

(I) § 40-10.1-201(1), C.R.S., or § 40-10.1-202(1)(a), C.R.S.;

(II) § 40-10.1-205, C.R.S.;

(III) ~~r~~Rule 6202; or ~~paragraph 6205(e);or~~

(~~IV~~III) § 40-10.1-206, C.R.S.; subparagraph 6207(c ~~b~~)(I); or paragraph 6208(a).

(b) A violation of subparagraph 6207(c~~b~~)(II), paragraph 6209(a), paragraph 6210~~(a)~~, or ~~rule~~ paragraph 6212(a) ~~regarding filing an annual report~~ may result in the assessment of a civil penalty of up to $550.00 for each violation.

(c) A violation of subparagraph 6207(~~b~~c)(II~~I~~) may result in the assessment of a civil penalty as follows for each violation:

(I) up to $275.00 for an overcharge of $25.00 or less;

(II) up to $550.00 for an overcharge greater than $25.00 but less than or equal to $50.00; and

(III) up to $1,100.00 for an overcharge greater than $50.00.

(d) Except as provided for in paragraphs (a), (b), and (c) of this rule, a person who violates any provision of Part 2 of Article 10.1 of Title 40, C.R.S., or any provision of these regulated intrastate carrier rules may be assessed a civil penalty of up to $275.00 for each violation.

(e) Civil penalty assessments are in addition to any other penalties provided by law.

6217. – 6249. [Reserved].

Taxicab Carrier Rules

6250. Applicability of Taxicab Carrier Rules.

Rules 6250 through 6258 apply to all common carriers providing taxicab service. Nothing in these taxicab carrier rules shall alter, amend, modify, suspend, or otherwise affect specific provisions, limitations, or requirements in any authority issued to any common carrier prior to the adoption of these rules.

6251. ~~Definitions.~~[Reserved].

~~In addition to the definitions in rule 6001, and the definitions applicable to common and contract carriers in rule 6201, the following definitions apply to all common carriers providing taxicab service:~~

~~(a) "Access fee" means the fee assessed by an airport for the use of its facilities for one trip levied upon motor carriers transporting passengers to, from, or at an airport.~~

~~(b) "Base area" means a geographic area in which a taxicab carrier is authorized to provide point-to-point service.~~

~~(c) "Close proximity", as referenced in § 40-10.1-203, C.R.S., means within a one-mile radius and 20 minutes from the drop-off location and time.~~

~~(d) "DIA" means Denver International Airport.~~

~~(e) "Live meter" means any taxicab meter that, without intervention from the driver, automatically calculates changes in rates for taxicab service due to waiting time, traffic delay, or changes in the taxicab's speed.~~

~~(f) "Multiple loading" means the sharing of a taxicab ride, or portion thereof, by unrelated traveling parties.~~

~~(g) "Taxicab carrier" means a common carrier with authority to provide taxicab service.~~

~~(h) "Time call" means a customer's communication with a common carrier requesting a specific date and time for service (otherwise known as an appointment), or the common carrier's service provided in response to the customer's communication, as the context requires.~~

6252. Notices.

Each taxicab carrier shall post the following notices, as applicable, on the inside of the left window immediately behind the driver's window or on the back of the front seat of each taxicab it operates. Except as provided in subparagraph (f), the font size of such notice shall be at least 14-point characters and the font size of the cab number shall be at least 24-point characters. The taxicab carrier shall complete all blanks in the notices.

(a) The following notice shall be placed in all taxicabs:

NOTICE

Cab No. _____

The driver of this taxicab shall not load other passengers without the permission of the first passenger.

Additional charges may apply for additional passengers, passenger drop offs, baggage and packages, waiting time, pets, and toll charges or access fees.

Report any problems to the Public Utilities Commission at (303) 894-2070.

(b) If the taxicab carrier uses meters only, the notice shall state:

Fares are calculated by use of a meter. The maximum meter fares are _____ for the first _____ mile plus _____ for each additional _____ mile.

(c) If the taxicab carrier uses a live meter, the notice shall state:

The meter will automatically change to a maximum time charge of _____ per minute when the taxicab's speed is less than _____ miles per hour.

(d) If the taxicab carrier uses odometers only, the notice shall state:

Fares are calculated by use of the odometer. The maximum fares are _____ for the first _____ mile, plus _____ for each additional _____ mile.

(e) If the taxicab carrier uses both meters and odometers, such notice shall contain the information specified by paragraphs (b), (c), and (d), as applicable.

(f) If the taxicab carrier serves DIA subject to the rate provided for in rule 6257 the notice shall contain a zone map showing the zones and, except for airport access fees and drop charges, the applicable rate in each zone. The font size may be no less than 12-point characters.

6253. Service: Multiple Loading; Routing; Quality.

(a) Multiple loading.

(I) No taxicab carrier or taxicab driver shall engage in multiple loading from a common point of origin or from separate locations if the taxicab driver receives the second request for service via the taxicab company's dispatch system, unless the first passenger occupying the taxicab agrees to multiple loading.

(II) If the first passenger agrees to the multiple load, the taxicab driver shall advise the first passenger that the meter charge from his/her origin to destination will be reduced by the percentage named in the taxicab carrier's tariff. The taxicab driver shall also advise the second passenger that the meter charge from his/her origin to destination will reduced by the percentage named in the taxicab carrier's tariff.

(b) A taxicab carrier shall ensure that passenger transportation shall be by the shortest possible route between the origin and destination; provided, however, that a passenger may agree to an alternate route or designate the route he or she wishes to travel, if the taxicab carrier has first advised the passenger regarding the extent of deviation from the shortest possible route.

(c) When a customer calls a taxicab carrier for service, the taxicab carrier shall request a phone number or email address from the passenger and give an estimated time of pickup. Unless its effective tariff specifies a different time, the taxicab carrier shall arrive at the pickup location within 30 minutes from the time the customer first requested service or within five minutes of a time call, whichever is applicable. ~~The time restriction is limited to pickup locations within a 25-mile radius of the taxicab carrier's dispatch center.~~ A taxicab carrier need not provide time call service if doing so would conflict with the 30-minute margin (or such other margin specified in the taxicab carrier's effective tariff) allowed a taxicab carrier under this paragraph. A delay under this rule shall be excused if:

(I) the customer has left the passenger's telephone number or email address with the taxicab carrier;

(II) the taxicab carrier notifies the passenger regarding the delay; and

(III) such delay is caused by inclement weather, traffic congestion, or other circumstances beyond the control of the taxicab carrier.

6254. Additional Service Requirements for Taxicab Carriers Operating Within or Between Counties with a Population Density of 40 or More People per Square Mile.

Taxicab carriers operating within or between counties with a population density of 40 or more people per square mile based on the most recent federal census shall be subject to the additional requirements of this rule. To the extent of conflict between rule 6254 and the regulated intrastate carrier rules, the requirements of rule 6254 shall prevail.

(a) Hours of operation. Taxicab carriers shall be available to provide service 24 hours per day, every day of the year.

~~(b) Age of motor vehicles. The maximum age of motor vehicles shall be ten model years.~~

~~(c) A taxicab otherwise subject to this rule that is equipped with ramps, lifts, or other special devices to facilitate the loading, unloading, or transportation of individuals with disabilities is exempt from the requirements of paragraph 6213(a) and paragraph (b) of this rule if all such devices are in good working order.~~

6255. Additional Service Requirements for Taxicab Carriers Operating Within and Between the Counties of Arapahe, Adams, Boulder, Broomfield, Denver, Douglas, El Paso, and Jefferson.

Taxicab carriers operating within or between the counties of Arapahe, Adams, Boulder, Broomfield, Denver, Douglas, El Paso, and Jefferson shall be subject to the additional requirements of this rule. To the extent of conflict between rule 6255 and other taxicab carrier rules, the requirements of rule 6255 shall prevail.

(a) Communications and dispatch.

(I) Taxicab carriers shall obtain and advertise a central telephone number by which the public may call and request service.

(II) Taxicab carriers shall employ a communications system capable of contacting each of its taxicabs in service. The communications system shall have the ability to "broadcast" to all motor vehicles in the fleet at the same time.

(III) ~~Beginning January 1, 2014, t~~Taxicab carriers shall employ a GPS-based, digital dispatch system that tracks and records driver hours o~~r~~f service, and records and reports trip information including origination point and customer wait times. Newly authorized taxicab carriers shall have six months from the date of the grant of their authority within which to implement the GPS-based digital-dispatch system required by this rule.

(IV) ~~Beginning January 1, 2014, t~~Taxicab carriers shall employ a GPS-based, digital dispatch system that records and reports driver location all time logged into the system~~and on-duty time~~. The dispatch system must:

(A) ~~Said system must log a driver on-duty when the driver's assigned vehicle is within~~ record a driver as being on-duty when the driver's vehicle enters or exits an area within two miles of Denver International Airport or Colorado Springs Municipal Airport~~,~~. Additionally, the immediately following 30 minutes shall be recorded as on-duty time and added to on-duty hours unless that time is already captured as on-duty time; and

(B) record a driver as being on-duty when the driver's assigned vehicle is within Zone A as defined in subparagraph 6257(d)(I) or is stationed for more than five minutes within ~~and 5~~100 feet of any known taxi stand.

(V) ~~Beginning January 1, 2014, t~~Taxicab carriers shall employ a GPS-based digital dispatch system that locks out from any dispatch system any driver who has exceeded ~~on-duty~~ hours of service provision maximums.

(VI) ~~Beginning January 1, 2014, t~~Taxicab carriers shall lockout from the dispatch system, for a minimum of eight hours, a driver who has exceeded daily on-duty hours of service maximums. Drivers who are locked-out, shall not be allowed access to the carriers dispatch system, credit card processing system, and metering system.

(VII) ~~Beginning January 1, 2014, t~~Taxicab carriers shall ~~log~~ record a driver as being on-duty when the vehicle assigned to said driver, enters an area no less than two miles of Denver International Airport or Colorado Springs Municipal Airport or is stationed more than five minutes ~~,~~ or ~~1~~500 feet of known taxi stands.

~~(b) Age of motor vehicles. The maximum age of motor vehicles shall be eight model years. A taxicab carrier operating vehicles that are over eight model years old as of August 1, 2012, shall have until July 31, 2014, to comply with this paragraph for those specific vehicles.~~

~~(c) A taxicab otherwise subject to this rule that is equipped with ramps, lifts, or other special devices to facilitate the loading, unloading, or transportation of individuals with disabilities is exempt from the requirements of paragraph 6213(a) and paragraph(b) of this rule if all such devices are in good working order.~~

6256. Record Keeping.

(a) A taxicab carrier shall maintain in its files, for a minimum of one year from the date a customer requested service, the following data for each trip:

(I) the taxicab number;

(II) the driver's name;

(III) the date and time of the customer's request for service;

(IV) the address, date, and time of the customer's pickup; and

(V) the address of the customer's destination.

(b) If multiple loading is applicable for a given trip, then the data shall reflect the requirements of this rule for each party involved in the multiple loading trip.

6257. Total Charges for Transportation to and from Denver International Airport.

Taxicab carriers authorized to provide service to or from any portion of the zones listed in this rule shall be subject to all the provisions of this rule.

(a) The total charge established pursuant to this rule shall be the only authorized taxicab rates for service between points in the zones described by this rule, on the one hand, and DIA, on the

other hand. These charges shall be the rates in effect for every taxicab carrier subject to this rule.

(b) Taxicab drivers shall inform passengers of the total charge prior to commencing the trip.

(c) Taxicab carriers shall charge the rates permitted by this rule for service in Zone A (as defined in subparagraph 6257(e)(I). Taxicab carriers providing service between points in the zones listed in this rule shall not charge live meter rates (including any charge for mileage, waiting time, and traffic delays). Rates for taxicab service between any point originating and terminating in Zone A shall be $7.00.

(~~e~~d) Rates for ~~-~~taxicab service between a defined zone and DIA.

(I) Taxicab carriers shall charge the rates permitted by this rule for service between DIA and the zones defined below. Taxicab carriers providing service between DIA and the zones listed in this rule shall not charge live meter rates, (including any charge for mileage, waiting time, and traffic delay). ~~Only as specifically authorized below, taxicab carriers providing service between DIA and the zones listed in this rule may charge airport access fees or for additional passengers in one traveling party.~~

(II) The total charge for transportation service between DIA and any point within a defined zone shall be the zone rate, plus any applicable airport access fee, plus any ~~applicable per~~passenger drop fee for additional drops within the zone.

(III) Zone A: The zone rate for transportation between DIA and any point in Zone A shall be $51.00.

(IV) Zone B: The zone rate for transportation between DIA and any point in Zone B shall be $57.00.

(V) Zone C: The zone rate for transportation between DIA and any point in Zone C shall be $84.00.

(VI) Zone D: The zone rate for transportation between DIA and any point in Zone D shall be $24.00.

(VI~~I~~) Access fees as established by DIA for the use of its facilities for one trip levied upon the taxicab.

(VII~~I~~) A drop fee of $5.00 may be charged for each additional drop within a zone required by members of one traveling party.

(~~e~~d) The zones established in this rule include the following:

(I) Zone A (Downtown Denver): Beginning at the intersection of Clarkson Street and Park Avenue West, then northwest on Park Avenue West to Interstate 25, then south on Interstate 25 to 13th Avenue, then east on 13th Avenue to Speer Boulevard, then southeast on Speer Boulevard to 11th Avenue, then east on 11th Avenue to Clarkson Street, then north on Clarkson Street to the point of beginning.

(II) Zone B (Denver Technological Center): Beginning at the intersection of Dayton Street and Arapahoe Road, then north on Dayton Street to Belleview Avenue, then west on Belleview Avenue to Yosemite Street, then north on Yosemite Street to Quincy Avenue,

then west on Quincy Avenue to Monaco Street, then south on Monaco Street to Belleview Avenue, then east on Belleview Avenue to Quebec Street, then south on Quebec Street to Arapahoe Road, then east on Arapahoe Road to the point of beginning.

(III) Zone C (Boulder): ~~The area within the city limits of the City of Boulder, Colorado, as such city limits exist on the day these Transportation by Motor Vehicle Rules become effective~~ Beginning at the intersection of Jay Road and U.S. Highway 36, then northwest on U.S. Highway 36 to Lee Hill Drive, then west on Lee Hill Drive for one mile, then south on an imaginary line for seven miles, then east on an imaginary line to Cherryvale Road, then north on Cherryvale Road as extended to Jay Road, then west on Jay Road to the point of the beginning.

(IV) Zone D (Tower Road): Beginning at the intersection of 56th Avenue and Genoa Street, then north on Genoa Street as extended to 72nd Avenue, then west for one mile along 72nd Avenue, then south along an imaginary line to 56th Avenue, then east along 56th Avenue to the point of the beginning.

(fe) Additional requirements with multiple loading.

The taxicab driver shall inform the parties of the total charge prior to departing from the point of origin of the second traveling party and advise the parties they must determine how much of the total charge each party is obligated to pay. The total charge may be approximated for taxicab service provided under subparagraphs (I), (II), or (III) of this paragraph.

(I) If the first party is dropped at a point within a defined zone and additional parties are dropped at different points in the same zone, the total charge (not a per party charge) shall be the appropriate zone rate, plus any applicable airport access fee, plus a $5.00 charge for each additional drop within the zone.

(II) If the first party is dropped at a point within a defined zone and the second party is dropped at a point outside of any defined zone the charge for the first party shall be the appropriate zone rate plus the agreed portion of applicable airport access fees. The charge for the second party shall be the meter fare from the first drop point to the second drop point, plus the agreed portion of applicable airport access fees.

(III) If the first party is dropped at a point outside of the defined zones, the rates established in this rule shall not apply.

6258. Taxicab Violations, Civil Enforcement, and Civil Penalties.

(a) A person who violates subparagraph (dc)(I) of rule 6257 may be assessed a civil penalty as follows for each violation:

(I) ~~U~~up to $275.00 for an overcharge of $25.00 or less~~.~~;

(II) ~~U~~up to $550.00 for an overcharge greater than $25.00 but less than or equal to $50.00~~.~~; or

(III) ~~U~~up to $1,100.00 for an overcharge greater than $50.00.

(b) A violation of paragraph (b) of rule 6253 may result in the assessment of a civil penalty of up to $550.00 for each violation.

(c) Except as provided for in paragraphs (a) and (b) of this rule, a person who violates any provision of these Taxicab Carrier Rules or § 42-3-236, C.R.S. may be assessed a civil penalty of up to $275.00 for each violation.

(d) Civil penalty assessments are in addition to any other penalties provided by law.

6259. Conversion to a Transportation Network Company

A motor carrier authorized through the granting of a certificate of public convenience and necessity, to provide taxicab or shuttle service may convert that authority to a transportation network company (TNC) by filing an application to voluntarily abandon or suspend all or part of its authority pursuant to rule 6204 and simultaneously filing an application for a permit to operate as a TNC pursuant to rule 6702. During the period of suspension, the suspended portion of the authority authorizing taxicab or shuttle service is exempt from taxi and shuttle standards concerning the regulation of rates and charges pursuant to the requirements of rule 6207.

6260. Taxicab License Plates.

(a) Vehicles used in the provision of taxi service require a taxi license plate.

(b) A person providing taxi service under Article 10.1 of Title 40, C.R.S. shall register all vehicles used for such purposes with the Colorado Department of Revenue and display the taxi license plates on the vehicles used in providing the services.

(c) A person providing taxi service under an active certificate may provide such service without registering the motor vehicle with the Department of Revenue or using a taxi license plate if the motor vehicle is rented, but the person shall not provide such services using a rented motor vehicle for more than 30 days.

(d) If a motor vehicle is used to provide both taxicab and luxury limousine services, a taxicab license plate is required.

(e) No person shall operate a motor vehicle with a taxi license plate unless the vehicle to which the license plates are attached is required to bear taxi license plates.

(f) Any vehicle operated in violation of this rules may be placed out of service.

625961. - 6299. [Reserved].

LIMITED REGULATION CARRIER RULES

6300. Applicability of Limited Regulation Carrier Rules.

Rules 6300 through 6399 apply to all limited regulation carriers and to all Commission proceedings and operations concerning limited regulation carriers, permit holders, employees, and drivers.

6301. Definitions.

In addition to the definitions in rules 6001 and 6101, the following definitions apply to all carriers subject to these limited regulation carrier rules:

(a) "Couch seat" means seating which is a minimum of 68" in length and is designed for four or more passengers to share at one time.

~~(a) "Charter basis" means on the basis of a contract for transportation whereby a person agrees to provide exclusive use of a motor vehicle to a single chartering party for a specific period of time during which the chartering party has the exclusive right to direct the operation of the vehicle, including, selection of the origin, destination, route, and intermediate stops.~~

~~(b) "Charter order" means a paper or electronic document that memorializes the contract for luxury limousine or off-road scenic charter service for a specific period of time reasonably calculated to fulfill the purpose of the contract. A charter order shall state the charge, the charge method, or a reasonable estimate of the charge. A charter order also shall contain the name and telephone number of the person contracting on behalf of the passengers; the name and telephone number of at least one passenger; the name, telephone number, and PUC number of the carrier and, if different from the carrier, of the driver; pickup time; and pickup address. A copy of the charter order shall be maintained for at least one year following the provision of service.~~

~~(c) "Chartering party" means a person or group of persons who share a personal or professional relationship whereby all such persons are members of the same affiliated group, including, a family, business, religious group, social organization or professional organization. "Chartering party" does not include groups of unrelated persons brought together by a carrier, transportation broker, or other third party.~~

~~(d) "Luxury limousine carrier" means every person that provides luxury limousine service.~~

~~(e) "Luxury limousine service" means a specialized, luxurious transportation service provided on a prearranged charter basis as defined in paragraph 6301(a), memorialized in a contract. "Luxury limousine service" may not include taxicab service or any service provided between fixed points over regular routes at regular intervals.~~

~~(f) "Prearranged" means that the charter order for luxury limousine service is entered into electronically or telephonically prior to provision of the service, or entered into in writing prior to the arrival of the luxury limousine at the point of departure.~~

6302. Application and Permit.

(a) In addition to completing the Commission-prescribed application, a person shall:

(I) file the required proof of financial responsibility; and

(II) pay the required annual vehicle fees or, if applicable, shall be in compliance with the UCR Agreement.

(b) Applications for new permits require the submission of a periodic vehicle inspection form for each vehicle to be operated under the permit. This requirement does not apply to applications to renew a permit.

(c) A permit is valid for one year from the effective date.

~~**6303. [Reserved].**~~

6304. Luxury Limousine Exterior Vehicle Markings, Signs, or Graphics.

(a) Except as otherwise provided in this rule, no person shall have any exterior signs or graphics on a luxury limousine.

(b) The carrier's permit number preceded by "LL" or "PUC LL" or "CO PUC LL" shall be of a size and color readily visible from 50 feet, but in any case not less than one and a half inches tall and not more than three inches tall. The markings ~~may~~ must be displayed on ~~either~~ both the front and rear of the motor vehicle or on both sides if the carrier has a DOT number.

(c) Signs or graphics located inside the luxury limousine that are readily legible from the outside shall be deemed to be exterior signs and graphics.

(d) Nothing in this rule shall prohibit the following:

(I) markings, signs, or graphics otherwise required by law, including those required by any rule of the Commission, the Colorado Department of Public Safety, the FMCSA, or an airport official~~authority~~;

(II) markings, signs, or graphics attached by any law enforcement agency; ~~or~~

(III) signs or graphics attached by the motor vehicle manufacturer or dealership for the purpose of identifying the manufacturer, dealership, or the motor vehicle's make or model; or~~.~~

(IV) signage used solely for the purpose of identifying a group transported under an immediate charter order or contract.

6305. [Reserved].~~Luxury Limousine Features.~~

~~**(a) In addition to compliance with the safety rules, each luxury limousine carrier shall otherwise ensure that its motor vehicles are in good physical condition. The Commission shall use the following guidelines in determining if a vehicle is in good physical condition:**~~

~~(I) The body of the luxury limousine has a good, unfaded paint job; is devoid of dents, rust, broken trim, and cracked windows; and~~

~~(II) Except for problems caused by current weather conditions, the interior of the luxury limousine is clean, free of offensive odors, and has no major tears, cracks, or stains upon the upholstery, headliner, and carpeting.~~

~~(b) Age of Motor Vehicles. Except for luxury limousines covered under subparagraph 6308(a)(IV), luxury limousine carriers shall not use vehicles older than ten model years as of July 1 of each year. For purposes of this rule, the counting of model years shall begin with the present calendar year. By way of example, between July 1, 2011, and June 30, 2012, counting backwards, 2011 is the first model year, 2010 is the second model year, and so forth.~~

6306. Livery License Plates.

(a) Vehicles used in the provision of luxury limousine service require a livery license plate.

(b) A person providing luxury limousine service under Article 10.1 of Title 40, C.R.S., shall register all vehicles used for such purposes with the Colorado Department of Revenue and display the livery license plates on the vehicles used in providing the services.

(c) A person providing luxury limousine service under an active permit may provide such service without registering the motor vehicle with the Department of Revenue or using a livery license

plate if the motor vehicle is rented, but the person shall not provide such services using a rented motor vehicle for more than 30 days.

(d) If a motor vehicle is used to provide both taxicab and luxury limousine services, a taxicab license plate is required.

(e) No person shall operate a motor vehicle with a livery license plate unless the vehicle to which the license plates are attached is required to bear livery license plates.

(f) Any vehicle operated in violation of this rule may be placed out of service.

~~-~~ **6307. [Reserved].**

6308. Luxury Limousine.

(a) A luxury limousine is one of the following:

(I) Stretched limousine, which is a motor vehicle whose wheelbase has been lengthened beyond the original manufacturer's specifications.

(II) Executive car, which is a motor vehicle that has four doors and is:

(A) a sedan, crossover, or sport utility vehicle manufactured by: Acura, Audi, Bentley, BMW, Cadillac, Ferrari, Infiniti, Jaguar, Lexus, Lincoln, Maserati, Mercedes-Benz, Porsche, or Rolls Royce, Tesla, or Volvo; or

(B) one of the following: Chrysler 300, Hyundai Equus, ~~Saab 9-5,~~ Toyota Avalon Livery Edition, Chevrolet Suburban, Chevrolet Tahoe, ~~Ford Excursion,~~ Ford Expedition, GMC Yukon, Hummer (all models, excluding sport utility truck version).

(III) Executive van, which is a motor vehicle built on a cutaway chassis, a motor coach, or a van (but not a minivan as classified by the original manufacturer) whose interior has been enhanced by the installation of either captain's chairs or couch seats.~~:~~

~~(A) Captain's chairs, couch seats, or similar seating in place of standard bench seating; or~~

~~(B) Both of the following:~~

~~(i) An electronic video media system such as television with DVD that is securely attached to the motor vehicle in a professional manner. The screen shall have a diagonal measurement of at least ten inches, be viewable by passengers seated to the rear of the driver, and be in compliance with 49 C.F.R., § 393.88.~~

~~(ii) Beverages and beverage service amenities, including at least an ice container and glasses or cups. The beverages and amenities shall be securely positioned inside a console or cabinet located inside the passenger compartment, to include any containment system, console and cup holder built into the motor vehicle by the manufacturer, and securely attached to the motor vehicle in a professional manner. The beverages are not required to be alcoholic in nature.~~

~~(IV) Other limousine, which is a classic, antique, or specially built motor vehicle that has or had a retail value of $50,000.00 or more.~~

(IV) Collector's vehicle, which is defined in Title 42, C.R.S. as either a luxurious classic or antique vehicle, eligible for a collector's license plate. It is not a stretched limousine. Vehicles qualifying under this paragraph (IV) must have a current appraised retail value of at least $100,000. A certified appraisal is required to prove the value of the vehicle. Vehicles within this category are exempt from the age of vehicle requirements set forth in rule 6108.

6309. Luxury Limousines – Operational Requirements, Prearrangement Required.

(a) No person shall provide luxury limousine service, or a service ancillary to luxury limousine service, except on a prearranged charter basis with all terms and conditions documented on a charter order.

(b) A charter order shall, at a minimum, state the charge, the charge method, or a reasonable estimate of the charge. A charter order shall also contain the name and telephone number of the person contracting on behalf of the passengers; the name and telephone number of at least one passenger; the name, telephone number, and PUC number of the carrier, and, if different than the carrier, of the driver; pick up time; and, pick up address.

(~~b~~c) The fact that the drop off time is amended in a charter order during the course of performance (i.e., the amended drop off time is agreed to before the original drop off time is reached) does not, in and of itself, mean that such transportation is not on a prearranged charter basis. All requirements of a charter order apply equally to the amended charter order.

(~~c~~d) Although a charter order must be for a specific period of time reasonably calculated to fulfill the purpose of the charter, these rules do not prohibit terms addressing time in excess of such calculated specific period of time.

(~~d~~e) Without affecting any other requirement of these rules, a luxury limousine carrier shall, at all times when providing luxury limousine service, carry in each vehicle a charter order. However, the total charge for the specific period of time may be omitted or stricken from the copy of the charter order carried in each vehicle.

(~~e~~f) A luxury limousine carrier shall not station a luxury limousine within one hundred feet of a recognized taxicab stand, a designated passenger pickup point at an airport, a hotel, or a motel without the completed charter order in the vehicle. A luxury limousine carrier shall not station a luxury limousine at the point of departure more than forty-five minutes prior to the pickup time noted on the charter order.

(~~f~~g) A luxury limousine carrier shall provide the charter order immediately upon request by any enforcement official or airport official~~authority~~.

(~~g~~h) Prior to the provision of service, a luxury limousine carrier shall provide the other party to the contract underlying the charter a paper or electronic copy of the charter order.

(~~h~~i) If a passenger is not a party to the contract underlying the charter, the luxury limousine carrier shall provide at least one passenger with name and telephone number of the carrier and, if different from the carrier, of the driver providing the transportation service at the point of departure.

6310. Luxury Limousine Service – Presumptions.

(a) A person shall be presumed to have provided luxury limousine service in violation of paragraph 6309(a) if, without prearrangement, such person:

(I) accepts payment for the transportation of the chartering party at the point of departure;

(II) makes the luxury limousine available to the chartering party at the point of departure;

(III) negotiates the immediate availability of, or the price for immediate use of, the luxury limousine at or near the point of departure;

(IV) loads the chartering party or its baggage into the luxury limousine; or

(V) transports the chartering party in the luxury limousine.

(b) A luxury limousine carrier that charges or offers to charge for transportation services on a per person basis shall be presumed to be providing or offering to provide services as a common carrier.

(c) A luxury limousine carrier may rebut the presumptions created in this rule by competent evidence.

6311. Limited Regulation Carrier Violations, Civil Enforcement, and Civil Penalties.

(a) A person who violates § 40-10.1-302, C.R.S., or paragraph 6309(a), may be assessed a civil penalty of up to $1,100.00 for each violation.

(b) A person who violates ~~rule~~ paragraphs (b) through (i) of rule 6309 may be assessed a civil penalty of up to $500.00 for each violation.

(c) Except as provided in paragraphs (a) and (b) of this rule, a person who violates any provision of Part 3 of Article 10.1 of Title 40, the livery plate requirements set forth in § 42-3-235,C.R.S., or any provision of these limited regulation carrier rules may be assessed a civil penalty of up to $275.00 for each violation.

(d) Civil penalty assessments are in addition to any other penalties provided by law.

6312. – 6399. [Reserved].

Decision No. C17-0976

BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF COLORADO

PROCEEDING NO. 17R-0796TR

IN THE MATTER OF THE PROPOSED RULES REGULATING TRANSPORTATION BY MOTOR VEHICLE, 4 CODE OF COLORADO REGULATIONS 723-6.

NOTICE OF PROPOSED RULEMAKING

Mailed Date: November 30, 2017
Adopted Date: November 16, 2017

TABLE OF CONTENTS

I. BY THE COMMISSION

A. Statement

1. The Colorado Public Utilities Commission (Commission) hereby issues this Notice of Proposed Rulemaking (NOPR) regarding proposed Rules Regulating Transportation by Motor Vehicle.

2. The Commission proposes amendments to existing Rules 6000 through 6399. The rules affected are the 6000 series General Provisions, the 6100 series Safety Rules, the 6200 series Regulated Intrastate Carrier Rules, and the 6300 series Limited Regulation Carrier Rules. There are no proposed changes to the 6400 series Unified Carrier Registration Agreement Rules, the 6500 series Towing Carrier Rules, the 6600 series Mover Rules, or the 6700 series Transportation Network Company Rules. Proposed changes concerning revocation of hazardous material carrier permits are located in Rule 6008.

3. At the heart of the proposed rule amendments and NOPR are the citizens of Colorado whom we serve every day. The purpose of the proposed rules is to describe the manner of regulation over persons providing transportation service by motor vehicle in the State of Colorado. The proposed rules enhance public safety, protect consumers of regulated transportation utilities, serve the public interest, and make the rules more effective and efficient. The proposed rules provide for clarity, necessity and conciseness and those rules found to be duplicative, inconsistent, or burdensome are repealed.

4. In addition, the proposed rules address legislative changes including the creation of the Medicaid Client Transport permit in House Bill 16-1097 and the clarification of the period of ineligibility of a motor carrier that fails to pay a civil penalty assessment in Senate Bill 17-180.

5. The proposed rules strike a balance between providing regulated industries the opportunity for success while protecting consumers and enhancing safety within the statutory framework in which the Commission must operate. Laws enacted by the Colorado Legislature provide the structure. For examples, common and contract carriers are public utilities and affected with a public interest, *see* § 40-10.1-103(1), C.R.S., and every public utility shall

furnish, provide, and maintain such service that promotes the safety, health, comfort, and convenience of its patrons and the public. *See* § 40-3-101(2), C.R.S. Motor carriers, other than common and contract carriers, are affected with a public interest. *See* § 40-10.1-103(2), C.R.S. Definitions of luxury limousine and luxury limousine service which combine to describe a chauffeur-driven, luxury motor vehicle and the corresponding service that is a specialized, luxurious transportation service provided on a prearranged charter. *See* §§ 40-10.1-301(7)-(8), C.R.S.

6. The statutory authority for the proposed rules is found in §§ 24-4-104(4), 40-2-108, 40-2-110.5, 40-3-101, 40-3-102, 40-3-103, 40-3-110, 40-4-101, 40-5-105, 40-7-113(2), 40-10.1.101 through 507; 42-4-235; 42-4-1809(2)(a), 42-4-2108(2)(a), and 42-20-202(1)(a), C.R.S.

7. The proposed rules in legislative (strikeout/underline) format [as Attachment A] and in final version [as Attachment B] are available in this proceeding number (17R-0796TR) through the Commission's E-Filings system at:

https://www.dora.state.co.us/pls/efi/EFI.homepage

In the E-Filings system, select the "Search" button and enter this proceeding number (17R-0796TR).

8. This NOPR proposes to make the following amendments, without limitation, to the Rules Regulating Transportation by Motor Vehicle (rule numbers below appear in abbreviated form; *e.g.*, Rule 6001(ss) of 4 *Code of Colorado Regulations* 723-6 appears as Rule 6001(ss)).

B. Description of Individual Rule Changes

1. Rules Primarily Affecting Public Safety

9. The first category of proposed amendments are those that primarily affect **public safety**:

10. Many definitions that were previously located throughout Rules 6001 through 6399 are now located in Proposed Rule 6001. This includes general and safety related definitions. Additionally, new definitions were included such as "Airport Official", "Couch Seats", "Driving Time", "FBI," and "On Duty".

11. Proposed Rules 6005(c) through (d) make it clear that motor carriers have the obligation to ensure accurate records are kept and to provide accurate records to enforcement officials. Proposed Rule 6017(c) provides for the assessed civil penalty amount.

12. The Commission specifically requests input from interested persons on Proposed Rule 6007(a)(I) concerning the financial responsibility minimum levels. The Commission is aware that some industry members have in the past advocated for higher levels while others have advocated for lower levels. The Commission wants to ensure that the levels provide adequate protection to passengers and the traveling public without being burdensome to the industry.

13. Proposed Rule 6007(a) clarifies the types of acceptable proof of financial responsibility minimum levels.

14. Proposed Rules 6007(j)(III) through (IV) clarify that if all authorities and permits of a motor carrier are inactive, the Commission may administratively cancel the proof of financial responsibility in the Commission's records.

15. Proposed Rule 6008(a)(I)(A) clarifies that permits of hazardous material carriers are no longer summarily suspended for lack of proof of financial responsibility, now under proposed Rule 6008(c)(I), they will be automatically revoked.

16. Proposed Rule 6008(b) is added to clarify that, under § 24-4-104(4), C.R.S., the Commission may summarily suspend an authority or permit when a motor carrier has engaged in a deliberate or willful violation where the public health, safety, or welfare requires an emergency action. A summary suspension order will be issued by an Administrative Law Judge (ALJ) only upon a finding that Staff of the Public Utilities Commission (Commission Staff) has provided sufficient evidence that a person has willfully or deliberately violated Commission rules or that the public health, safety, or welfare requires emergency action. The ALJ will issue a notice of summary suspension and set a hearing no more than ten days later. The notice of summary suspension shall be served on the person along with Commission Staff's notice of allegations and supporting information and a notice of hearing. Following the issuance of the summary suspension, the Commission will follow its rules for hearing procedures established under § 40-6-109, C.R.S.

17. Proposed Rules 6008(c)(II) through (IV) are added to make clear that certain motor carrier permits are automatically revoked for failure to pay a civil penalty pursuant to statute. This includes limited regulation carriers, tow carriers, and household goods movers.

18. Proposed Rules 6017(a) and 6106(a) clarify that each occurrence of a violation and each day that a violation occurs constitutes a separate violation.

19. Proposed Rule 6017(c) specifies the assessment amount for violation of Rules 6005(c) or (d) (falsifying records or producing/retaining false records).

20. Proposed Rules 6101(c) and (g) are definitions added to clarify the hours of service rules.

21. Proposed Rule 6102 incorporates the most recent version of title 49 of the *Code of Federal Regulations* (CFR) (Transportation). The Commission specifically requests input from interested persons on the incorporation of 49 C.F.R. Data supporting the commenter's position and suggested rule language should be provided with the comments.

22. Proposed Rule 6103(c) concerns hours of service of drivers. Presented are two options concerning the maximum hours a driver may drive and calculation methods for hours of service. Considering the relationship of driver fatigue and the safety of the traveling public, the Commission specifically requests input on these two different options. We ask that carriers weigh in as to whether all industry members should be required to operate under one of the options or if different calculation methods and rules should be used for different types of passenger transportation services.

23. Proposed Rules 6103(d)(VIII) and (IX) are added to clarify that motor vehicles that fail to qualify under the rules may be placed out of service.

24. Proposed Rule 6105(c) adds that motor carriers are required to provide notice to driver applicants that their fingerprints will be submitted to both the Colorado Bureau of Investigation (CBI) and the Federal Bureau of Investigation (FBI).

25. Proposed Rule 6107 outlines the condition, age, and mileage of allowable vehicles and clarifies the frequency of periodic inspections for vehicles. This rule replaces current Rules 6213, 6214, 6254(b), 6254(c), 6255(b), 6255(c), and 6305 in whole or in-part, and therefore contemplates a single vehicle age and condition standard for all taxis, shuttles, contract carriers, and luxury limousines. The Commission specifically requests input from interested

persons on this rule concerning acceptable condition, age, and mileage requirements. Data supporting the commenter's position on the age and mileage criteria is encouraged. Any comments should keep in mind that common and contract carriers are public utilities and affected with a public interest and every public utility shall furnish, provide, and maintain such service that promotes the safety, health, comfort, and convenience of its patrons and the public. *See* §§ 40-10.1-103, 40-3-101(2), C.R.S. Additionally, definitions of luxury limousine and luxury limousine service combine to describe a chauffeur-driven, luxury motor vehicle and the corresponding service that is a specialized, luxurious transportation service provided on a prearranged charter. *See* §§ 40-10.1-301(7)-(8), C.R.S.

26. Proposed Rule 6255(a) specifies requirements of the required dispatch system and its relationship to the hours of service rules.

2. Rules Primarily Affecting Public Interest and Consumer Protection

27. The second category of proposed amendments are those that primarily affect the **public interest and consumer protection**:

28. Proposed Rule 6009(g) is added to clarify under which specific circumstances the Commission will replace a motor vehicle stamp.

29. Proposed Rule 6012 is new and underscores that motor carriers may not charge additional fees to passengers who choose to make payment with a credit card.

30. Proposed Rule 6016(a) clarifies that a person shall be presumed to have offered transportation service if the person has not disclosed the fact that the services are being arranged by a transportation broker.

31. Proposed Rule 6207(a) contemplates a Commission prescribed form intended to simplify the filing of tariffs for motor carriers of passengers.

32. Proposed Rule 6207(b) initiates the foundation for common carriers to file tariffs with the Commission that contain a range of fares and sets out the requirements associated with a carrier operating under such flexible tariff.

33. Proposed Rule 6207(d) requires motor carriers that have a website, to post its tariffs on the website.

34. Proposed Rule 6207(f) clarifies the items to be included in a contract carrier's tariff.

35. Proposed Rule 6207(g) clarifies that a carrier granted a new authority or an extension of its authority may file its proposed tariff as ordered by the Commission.

36. Proposed Rule 6207(h) requires all common and contract carriers to file a complete and updated tariff by October 1, 2018.

37. Proposed Rule 6207(j)(II) is new and makes clear that common and contract carries must file all new tariffs when making changes to an existing tariff. A carrier will no longer be able to only replace a page or pages of an existing tariff.

38. The Commission specifically requests comments on Proposed Rules 6207 (tariffs) and 6208 (time schedules) along with a legal analysis concerning "flexible rates, conditions, or services". By "flexible rates, conditions, or services" the Commission means a range of rates, times, and services in lieu of specific rates for specific services at specific times. Any comments should keep in mind that common and contract carriers are public utilities and affected with a public interest and every public utility shall furnish, provide, and maintain such service that promotes the safety, health, comfort, and convenience of its patrons and the public. *See* §§ 40-10.1-103, 40-3-101(2), C.R.S. Also, rates are to be just and reasonable and a public

utility may not establish unreasonable differences as to rates, charges, service facilities, or between localities or class of service. *See* § 40-3-101(1), C.R.S.

39. Proposed Rule 6253(c) is modified to ensure all taxi customers are provided service within 30 minutes of a request. The Commission seeks comments as to whether a customer pickup time requirement is appropriate weighing the importance of service to customers of common carriers against the difficulty of a requirement to do so in a set amount of time. The Commission requests input as to how the Commission should balance its duty to ensure just and reasonable service to customers while limiting the burden on industry.

40. Proposed Rule 6257(c) creates a flat rate for taxicab transportation within Zone A (downtown Denver). The Commission specifically requests input from interested persons regarding this proposed rule including the proposed flat rate. If this rule is adopted it would apply to all taxicab companies and would disallow market competition pricing.

41. Proposed Rule 6257(e)(III) modifies the boundaries of Zone C (Boulder area) at the request of industry. The Commission specifically requests input from interested persons regarding whether this is the appropriate boundary for Zone C.

42. Proposed Rule 6257(e)(IV) creates a new Zone D (Tower Road) and proposed Rule 6257(d)(VI) sets the rate for that new zone. The Commission specifically requests input from interested persons regarding this proposed rule including the proposed rate.

43. The Commission specifically requests input from interested persons on Proposed Rule 6257 in general and whether the current flat zone rates are just and reasonable for trips to or from Denver International Airport and Zones A, B, C and D, and also whether the flat zone rates could or should be adjustable through a different avenue than a rulemaking. Commenters are encouraged to provide alternate rule language if their input suggest changes should be made.

44. Proposed Rule 6308 clarifies the vehicle types that may be used to provide luxury limousine services. Specifically, Proposed Rule 6308(a)(III) modifies the criteria for an executive van. The Commission specifically requests input from interested persons addressing; executive car acceptable vehicle types, executive van requirements, the elimination of antique or specially built vehicles, and the new definition of collector's vehicle including the suggested appraised certified appraised retail value, keeping in mind the definitions of luxury limousine and luxury limousine service which combine to describe a chauffeur-driven, luxury motor vehicle and the corresponding service that is a specialized, luxurious transportation service provided on a prearranged charter. *See* §§ 40-10.1-301(7)-(8), C.R.S.

3. Rules Primarily Designed to Make the Rules More Efficient and Effective

45. The third category of proposed amendments are those that are primarily designed to make the rules more **efficient and effective for the industry, for the public and for the Commission**:

46. Proposed Rule 6001 now contains most of the definitions for passenger carriers.

47. Proposed Rule 6001(b), the definition of "airport official," is added because the term is used in Rules 6304(d) and 6309(f). Industry representatives requested this definition be added to the rules.

48. Proposed Rule 6001(oo) clarifies the definition of "on duty."

49. Proposed Rule 6001(yy) clarifies the definition of "seating capacity."

50. Proposed Rule 6001(fff) clarifies the definition of "Transportation Broker."

51. Proposed Rule 6001(ggg) adds the definition of "Transportation Network Company."

52. Rule 6003 shortens the notice period from 30 days to 10 days for certain vehicle type waivers.

53. Proposed Rule 6011(b) regarding changes to a motor carrier's designated agent has been moved from 6006(d).

54. Proposed Rule 6011(d) concerning notice provided by the Commission has been moved from current Rule 6013, and it has been modified to name the designated agent.

55. Proposed Rule 6203 modifies the application requirements for persons applying to operate as common or contract carriers. This modification eliminates all of the specific requirements in the current rule and instead requires persons to use the form provided by the Commission.

56. Proposed Rule 6204 modifies the application requirements for persons applying to voluntarily abandon or suspend an existing common carrier authority or contract carrier permit. This modification eliminates all of the specific requirements in the current rule and instead requires persons to use the form provided by the Commission.

57. Proposed Rule 6205 modifies the application requirements for persons applying to transfer an existing common carrier authority or contract carrier permit. This modification eliminates all of the specific requirements in the current rule and instead requires persons to use the form provided by the Commission. It also clarifies requirements of the transferor and the transferee.

58. Proposed Rule 6209 clarifies that a contract carrier shall not operate in conflict with its permit.

59. Proposed Rule 6259 clarifies the method for converting a taxi or shuttle service carrier to a Transportation Network Company. To convert a common carrier authority authorizing taxi or shuttle service, in whole or in part, to a Transportation Network Company permit, an application to convert consists of an application for a permit to operate as a Transportation Network Company along with appropriate fees and may consist of a separate application to voluntarily abandon or suspend an authority to operate as a regulated intrastate carrier. The proposed rule also clarifies that during the period of suspension of its certificate of public convenience and necessity, a taxicab company, shuttle company, or a subsidiary or affiliate of a taxicab company or shuttle company is exempt from taxi or shuttle standards concerning the regulation of rates and charges under, and any commission rules regarding common carriers if the entire authority is suspended.

60. Proposed Rule 6302 lays out the application process for limited regulation carriers and clearly states that a permit is valid for a period of one year pursuant to § 40-10.1-302(1)(b), C.R.S.

61. Proposed Rule 6304(d)(IV) is added at the request of industry and allows luxury limousines to have signage that is used for the purposes of identifying the charter party.

62. Proposed Rule 6306 is added at the request of industry and clarifies the requirement that luxury limousine carriers are required to have livery license plates and requirements for livery plates.

63. The Commission is also making proposed changes to other rules. The changes are nonsubstantive and administrative in nature. Some of these proposed modifications add to existing rules or clarify existing rules to ensure these rules are clearer for the industry, for the public, and for the Commission. For example, Proposed Rule 6001(c), formerly 6001(b), contains some language changes that do not substantively alter the definition of "authority" but better explain the term.

C. Conclusion

64. The proposed amendments will be published in the December 10, 2017 edition of *The Colorado Register*.

65. A Hearing Commissioner, Commissioner Frances Koncilja will conduct a hearing on the proposed rules and related issues at the below-stated time and place. Interested persons may submit written comments and provide legal authority along with the proposed rules, including data, views, or arguments, and present these orally at hearing unless the Hearing Commissioner deems oral presentations unnecessary. The Commission prefers and strongly encourages that interested persons submit comments through the Commission's Electronic Filing System and do so in this proceeding number (17R-0796TR) no later than January 12, 2018. Reply comments should be submitted in the same proceeding and through the Commission's Electronic Filing System by February 2, 2018. The Commission will consider all submissions, whether oral or written.

66. In submitting comments or replies, interested persons are invited to suggest changes that will make the subject rules more efficient, effective, and elegant. We recognize that regulation imposes costs; therefore, suggestions concerning rules that may be unnecessary or unduly burdensome will be fully considered by the Commission.

67. We wish to proceed with this rulemaking in a well-organized manner which requires us to maintain an efficient timeline. Therefore, we request commenters to include alternate rule language, as necessary, with their comments,

68. In order to fully analyze and weigh comments, we ask that in addition to suggested language, commenters provide supporting data and bring relevant information into the proceeding by the dates and manner specified above.

II. ORDER

A. The Commission Orders That:

1. This Notice of Proposed Rulemaking shall be filed with the Colorado Secretary of State for publication in the December 10, 2017 edition of *The Colorado Register*.

2. Hearing Commissioner Frances Koncilja will hold hearings as set below. The first day of the hearings will focus on common and contract carriers including taxi and shuttle service carriers and the second day will focus on limited regulation carriers including luxury limousine carriers.

3. A hearing on the proposed general, safety, common and contract carrier rules, and related matters shall be held before Hearing Commissioner Frances Koncilja as follows:

DATE: February 20, 2018

TIME: 9:00 a.m.

PLACE: Commission Hearing Room
Suite 250
1560 Broadway
Denver, Colorado

4. A hearing on the proposed general, safety, and limited regulation carrier rules and related matters shall be held before Hearing Commissioner Frances Koncilja as follows:

DATE: February 21, 2018

TIME: 10:00 a.m.

PLACE: Commission Hearing Room
Suite 250
1560 Broadway
Denver, Colorado

5. Hearing Commissioner Frances Koncilja may set additional hearings, if necessary.

6. At the time set for hearing in this matter, interested persons may submit written comments and may present these orally unless Hearing Commissioner Frances Koncilja deems oral comments unnecessary.

7. Interested persons may file written comments in this matter before hearing. The Commission prefers and strongly encourages that interested persons submit comments through the Commission's Electronic Filing System, and do so in this proceeding (17R-0796TR) no later than January 12, 2018 at:

https://www.dora.state.co.us/pls/efi/EFI.homepage.

8. Interested persons may file reply comments in this matter before hearing. The Commission prefers and strongly encourages that interested persons submit comments through the Commission's Electronic Filing System and do so in this proceeding (17R-0796TR) no later than February 2, 2018.

9. This Decision is effective upon its mailed date.

B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING November 16, 2017.

2017 NOTICE OF RULEMAKING HEARING

Pursuant to § 24-4-103, and § 12-8-108(1)(a), Colorado Revised Statutes, you are hereby advised that the Combative Sports Commission will hold a public rulemaking hearing.

The hearing will be held on **Thursday, January 11, 2018, at 10:00 A.M.** at 1560 Broadway, Conference Room 110 D, Denver, Colorado for the purpose of considering the following rules:

Chapter 1 – General Rules
Chapter 2 – Requirements for Participants in all bouts
Chapter 3 – Requirements for Bout approval
Chapter 4 – Declaratory Orders
Chapter 5 –Requirements for Boxing participants
Chapter 6 – Requirement for Kickboxing participants
Chapter 7 – Requirements for Mixed Martial Arts (MMA) participants
Chapter 8 – Requirements for Seconds
Chapter 9 – Requirements for Promoters
Chapter 10 – Guidelines for contract, financial arrangements and reporting fraud
Chapter 11 – Personnel, facility and equipment requirements
Chapter 12 – Ticket and sales reporting requirements
Chapter 13 – Requirements for Elimination bouts
Chapter 14 – Requirements for Officials

The purpose of this rulemaking is to amend the content in several sections of the rules for further clarification in the regulation of combative sports, eliminate inconsistencies and adopt the amendments made by recent legislation in SB17-148. In addition, the rules will continue to incorporate by reference the Word Anti-Doping prohibited substance list for consistency with other commissions.

A copy of the proposed rules is attached. Please be advised that the adoption of these rules may be changed after public comment and formal hearing.

At the time and place stated in this notice, the Director will afford all interested persons an opportunity to submit any written data, views, or arguments and to present the same orally (3 minutes per item) if they so desire. It is requested that written testimony be submitted to the Office of Combative Sports at least ten (10) days prior to the rule making hearing. Also, on the day of the meeting participation can be done by webinar by registering to the following link: https://attendee.gotowebinar.com/register/2845001202836021 77.

Written submissions may be sent to dora_combativesports@state.co.us. The Director will consider all such submissions.

Dated this 30th day of November, 2017.

Josef Mason
Director

STATEMENT OF BASIS AND PURPOSE

Proposed Rules for Combative Sports Commission

Statement of Authority:

The specific statutory authority that authorizes the rulemaking is § 12-10-105 and 12-10-106, C.R.S., and § 24-4-103(6), C.R.S.

The statutory authority for these rules is §12-10-106, C.R.S., and § 24-4-103(6), C.R.S. The Commission shall issue such rules as are necessary for the regulation of the conduct, promotion and performance of live professional boxing events, performances, or contests held in this state.

Basis and Purpose:

The basis for the rules is to carry out the provisions of the Combative Sports Commission Practice Act at §§ 12-10-101 *et seq.*, C.R.S. ("the Act").

The purpose of this rulemaking is to amend the content in several sections of the rules for further clarification in the regulation of combative sports, eliminate inconsistencies and adopt the amendments made by recent legislation in SB17-148. In addition, the rules will continue to incorporate by reference the Word Anti-Doping prohibited substance list for consistency with other commissions.

The Director believes the proposed amendments are fair, impartial, and contain the right balance of regulatory oversight.

It is the Director's opinion that these amendments will not have an adverse economic impact on small businesses because the amendments provide greater clarity for compliance and understanding.

The specific purpose for amending these rules is as follows:

Overall amendments	The proposed revisions to the Rules fall into one of two main categories: I. Changes necessary to implement legislation passed in 2017 (SB17-148); and II. Changes needed to improve clarity and eliminate inconsistencies. Changes required by SB 17-148 include the following: Change in the name of the Commission Clarification re. office director vs. division director. The addition of "martial arts" as a combative sport under the jurisdiction of the Commission. The requirement for the Rules to include procedures concerning denial or suspension for non-disciplinary (e.g., medical or administrative) reasons.

Chapter 1 Definitions	The definitions are expanded and clarified to provide an improved foundation for provisions in other chapters. Clarify that the rules apply to professional events. Provisions are added regarding "instant replay".
Chapter 2 Participants	Language is clarified and strengthened re: the requirements that participants be licensed. Provisions are added regarding reinstatement of an expired license and reporting convictions and judgements. Commission requirements related to the federal professional Boxing Safety Act of 1966" are moved from Chapter 4 to Chapter 2. (Federal requirements of the Act are deleted from the Rules.) Appearance requirements at weigh-in (e.g., "clean and organized") are deleted. Ring apparel for female participants are clarified. Provisions are added for denial and suspension of participants for non- disciplinary (e.g., medical and administrative) reasons per SB-17-148.
Chapter 3 Bout Approval	Changes made to this chapter are limited to those needed to improve clarity and eliminate inconsistencies. NEW ITEMS: 3.4 B – Additional test requirement for participants age 45 and older 3.9 – Gender of Participants
Chapter 4	Federal requirements removed from Chapter 4 and added some of the requirements to Chapter 2. This Chapter became the Declaratory Orders chapter.
Chapter 5 Boxing participants	Changes made to these chapters are limited to those needed to improve clarity and eliminate inconsistencies.
Chapter 6 - Kickboxing participants	Changes made to these chapters are limited to those needed to improve clarity and eliminate inconsistencies.
Chapter 7 MMA & MA participants	"Fingers outstretched toward an opponent's face/eyes" is added as a foul for MMA. Basic provisions are added to govern martial arts contests, requiring that such contests be conducted pursuant to the official rules of the sponsoring organization and stating that the director will provide specific requirements prior to a permitted event.

Chapter 8 Seconds	Language is clarified and strengthened re. the requirement that seconds must be licensed. Provisions are added regarding reinstatement of an expired license and reporting
Chapter 9 Promoters	Language is clarified and strengthened re. the requirement that promoters must be licensed.
Chapter 10 Contracts, Financial Arrangements, Reporting Fraud	Changes made to this chapter were limited to those needed to improve clarity and eliminate inconsistencies.
Chapter 11 Personnel, Facility, and Equipment	Changes made to this chapter were limited to those needed to improve clarity and eliminate inconsistencies.
Chapter 12 Ticket and Sales Reporting	Changes made to this chapter were limited to those needed to improve clarity and eliminate inconsistencies.
Chapter 13 Elimination Bouts	Changes made to this chapter were limited to those needed to improve clarity and eliminate inconsistencies
Chapter 14 Officials	Language is clarified and strengthened re. the requirement that officials must be licensed. Authority is added for referee to stop a fight in cases of loss of bodily function.
Chapter 15 Declaratory Orders	No changes are made to this chapter other than it was moved to Chapter 4.

~~Boxing, Kickboxing and Mixed Martial Arts~~COMBATIVE SPORTS Rules

~~Colorado Office of Boxing Combativeand~~ Colorado State ~~Boxing~~ Combative Sports Commission

Effective ~~July~~ ~~February~~March 15, ~~1~~, ~~2016~~2018

Colorado State ~~Boxing~~Combative Sports Commission Rule Contents

CHAPTER I
GENERAL
RULES

1.1 DEFINITIONS

A. ***Bout***. Match, exhibition or contest between two participants involving a combative sport~~.~~

B. ***Boxing.*** Any physical bout between two individuals striking with hands to outscore, knock out, or otherwise disable an opponent into submission.
~~. or with fists.~~

C. Contest. A bout or match in which the participants strive earnestly to win.

~~B~~D. ***Chief Inspector.*** An official assigned to carry out all duties as assigned by the ~~director~~Director.

~~D~~**E. Combative sport**. Boxing, kickboxing, mixed martial arts, and martial arts.

F. ***Commission***. The Colorado Commission of Combative Sports

G. **Commission representative**: The Director or an official.

H. ***Director.*** The Director of the Colorado Office of Combative Sports.

~~C~~I. ***Division ~~of Registrations~~Director~~:~~.*** ~~Is the~~ Director of the ~~d~~Division of ~~professions~~ Professions and ~~occupations~~Occupations, within the Colorado Department of Regulatory Agencies.

~~D.~~
J. ***Event.*** A compilation of bouts that occur at one location during a single day.

~~E~~K. ***Fraud***. Any licensee who cheats, obtains money or some other benefit, or misrepresents facts by deliberate and willful deception.

~~F~~L. ***Kick.*** A strike using the foot or feet.

M. Kickboxing. Any physical bout between two individuals striking with the hand and any part of the leg below the hip, including the feet to outscore, knock out or otherwise disable an opponent into submission.

~~G~~N. ***Official.*** Any person who performs an official function during the supervision of a contest or exhibition. This includes referees, judges, timekeepers and inspectors.

O. Martial Art. Includes by way of example and not limitation aikido, judo, jujitsu, karate, kendo, kung fu, sumo wrestling, t' ai chi, tae kwon do, or wrestling

P. Mixed Martial Art. Any physical contact bout between two or more individuals who attempt to outscore, knock out, or gain submission of the opponent by using any combination of boxing, kicking, choking techniques, or martial art.

~~H~~QQ. ***Non-Sanctioned organization.*** Is an organization that is not governed by a state or tribal athletic commission.

~~I~~R. ***Participant.*** Any individual who competes in ~~a~~ a combative sport bout~~ and may be referred to as a fighter.~~

S. Professional. A contest or match in which participants compete for or receive a purse or anything of value.

~~J~~T. ***Promoter.*** Any person, association, corporation, organization, who is licensed to promote events.

~~K~~U. ***Purse.*** Is a bout earning, a financial guarantee or any other remuneration for which participants are participating in a contest or exhibition and includes the participant's share of any payment received for radio broadcasting, television or motion picture rights.

~~L~~V. ***Reinstatement.*** The process by which a license as a promoter or an official has expired is returned to Active status.

~~M~~W. ***Renewal.*** The process of applying to retain a license as a promoter or an official in an Active status every two years in accordance with the schedule established by the ~~division of registrations~~Division Director pursuant to Sections 12-10-106.5, C.R.S. and 24-34-102, C.R.S.

~~N~~X. ***Sanctioned Organization.*** An organization that sanctions professional bouts of boxing, kickboxing or mixed martial arts and martial arts by a state or tribal athletic commission.

1.2 APPLICABILITY OF RULES

These rules apply only to professional combative sports events where purses or prizes may be given. These rules do not apply to events that are exclusively amateur in nature.

1.~~3~~2 VIOLATIONS OF RULES

Violations of any provision of these rules may result in immediate ejection from event, a ban from future events and subject to disciplinary action.

1.~~4~~3 RESPONSIBILITY

All promoters, participants, seconds and officials associated with combative sport~~the~~ events shall acquaint themselves with and comply with all applicable laws and rules of the Commission.

1.~~5~~4 IMPROPER CONDUCT, FOUL OR ABUSIVE LANGUAGE EJECTION

A. The use of foul or abusive language or mannerisms or threats of physical harm by any person at any permitted event shall not be tolerated. This includes all press conferences, weigh-ins and any aspect of an event. In addition, prohibited conduct includes unfair dealings, unsportsmanlike conduct, protesting the decisions of the officials, or violating any laws or rules.

B. If improper conduct occurs at any permitted event, the Director or chief inspector may eject the individual and forbid such person from acting in any capacity in connection with that or any subsequent permitted event. Any licensee who refuses to obey an order by the Director to leave the premises because of conduct prohibited in this paragraph, or any person who returns to the premises in violation of the Director's order may be subject to further disciplinary action.

1.~~6~~5 MODIFICATION OF BOUT RESULT

A. Only the Director may request a hearing on a result modification matter after the Director determines that one or more of the following incidents has occurred:

i. There were indications of collusion affecting the result of the bout;

ii. The compilation of the scorecards of the judges disclosed an error which showed that the decision was given to the wrong participant; or,

iii. An error interpreting the rules that may have resulted in, an incorrect decision.

iv. A positive test result reveals the use of a prohibited drug, substance, or method.

1.7~~6~~ USE OF INSTANT REPLAY

A. When the Director has approved the use of instant replay prior to an event, the referee, and only the referee, may decide to use instant replay.

B. The referee may use instant replay only for the purpose of determining whether or not a foul was committed, intentional or unintentional, causing a “bout ending sequence” that brought about the final end of the fight.

C. Based on the instant-replay review, the referee may make the correct call with respect to: the winner of the bout; a “no-contest” determination; a disqualification; or a technical decision by the judges.

CHAPTER 2
REQUIREMENTS FOR PARTICIPANTS IN ALL BOUTS

2.1 LICENSE ~~OR PERMIT~~ TO FIGHT APPLICATIONS

A license is required for a participant to fight in a professional combative sports contest. All participants shall submit an application for a license ~~or a permit~~ to fight ~~per event~~ in a manner prescribed by the ~~director~~Director. ~~.~~ Incomplete or incorrect applications will not be accepted.

2.2 FEES

Each applicant for a license ~~or permit~~ shall pay the required fee before the license ~~or permit~~ to fight is granted. The license ~~and permit~~ fee schedule is established by the ~~director of registrations~~Division Director pursuant to §~~Section~~ 24-34-105, C.R.S.

2.3 MINIMUM AGE REQUIREMENT

Any person who wishes to apply for a participant license must be a minimum age of eighteen, unless a signed verification of approval and waiver is signed by the parent or legal guardian and the Director approves. ~~No participant under the age of eighteen years shall be allowed to participate in a professional debut bout~~.

2.4~~:~~ FEDERAL REGISTRATION REQUIREMENT

A. Pursuant to the "Professional Boxing Safety Act of 1996" all professional boxing participants must be registered with the recognized boxing federal registry and obtain a federal identification card in order to participate in boxing bouts anywhere in the United States. Therefore, all professional boxing participants shall show proof of registration. All Mixed Martial Arts participants must register for a National Identification card.

B. Any boxing debut participant must be registered with a federal identification card within seven days prior to the first bout. The participant shall not be permitted to box in any contest scheduled for more than four rounds for the participants first four bouts, and shall not be permitted to compete in any bout of more than six rounds until the participant has participated in ten or more professional bouts, unless approved by the Director.

C Each participant will present their identification card or completed application to the Director or chief inspector not later than the scheduled time of the weigh-in for a bout. A participant, who is unable to produce their identification card or establish with the Director or chief inspector that they have a current federal identification, will not be allowed to participate.

2.45 WEIGH-INS AND FIGHT APPEARANCE

A. Each participant must be weighed in the presence of a ~~commission~~ Commission representative as designated by the ~~director~~Director, on scales approved by the Director ~~the commission at~~and at a place designated by the ~~director~~Director. The participants may have all items of weight stripped from their body before they are weighed in. ~~The owner or operator of the premises in which the weighing in is held shall provide adequate security for the participants and other persons who are present.~~ All participants shall appear at the weigh-in and event on time as required by the ~~director~~Director. All participants must report to the ~~director~~Director or chief inspector as soon as they arrive to the weigh~~-~~in and event at a place designated by the ~~director~~Director. Failure to report to the ~~director~~Director or chief inspector on time may disqualify the participant from competing and may be subject the participant to disciplinary action. Unless a championship bout, participants' weights will be rounded down to the nearest pound.

The weigh-in shall be no less than six hours prior and no more than 30 hours prior to the scheduled event. The directorDirector may require participants to be weighed more than once for just cause.

B. Participants are not allowed to leave the designed weigh-in area until such time as they are notified by the directorDirector or the chief inspector.

2.56 FAILURE TO MAKE CONTRACTED WEIGHT

A participant who at the scheduled time of weigh-in fails to make be at the weight specified in the contract between the promoter and the participant at the scheduled time of weigh-in may be disqualified from competing and may be subject to disciplinary action.

2.67 PARTICIPANTS' APPEARANCE

A. All participants shall be clean and present an organized appearance during the weigh-in as well as the permitted event.

BA. All pParticipants shall not be permitted to have excessive petroleum jelly, grease or foreign substances on any part of their body.

CB. All pParticipants' hair shall be cut or arranged in such a manner as not to interfere with the participant's
vision. Hair may be secured using rubber bands or other banding devices but not hairpins or hairnets. The hair must be free of all hair styling products (i.e.e.g., mousse, gel, or spray). Facial hair must be trimmed to an acceptable level as required by Rule 2.6

DC. The directorDirector or chief inspector shall determine whether head or facial hair (Mustachese.g., mustaches, goatees, sideburns) or hair length, or hair adornments (e.g. jewelry or other decorative items) presents any potential hazard to the safety of the participants, or may interfere with the supervision and conduct of the bout. The participant may not compete in the bout unless the circumstance creating the potential hazard or potential interference is corrected to the satisfaction of the directorDirector or chief inspector.

ED. All pParticipants are prohibited from having facial or body adornments such as earrings, jewelry or body piercing accessories during the bout.

F. Any other objects not initially approvednon-approved objects on or about the body of the participant for during the bout may disqualify the contestantparticipant.

2.78 APPROVED RING ATTIREPPAREL

A. Each pParticipants in an event shall prepare themselves with appropriate ring attirepparel for the sport as approved by the an director official, which may items may include an abdominal guard, a protective cup, two pair of trunks of contrasting color, shoes, and two approved, and properly-fitted mouthpieces.

A.B. Female participants must wear a short sleeved (above the elbow), or sleeveless, form-fitting style top, breast protector, or sports bra. In order to promote uniformity in the sport they are competing in and avoid potential safety risks, loose fitting tops are not allowed. Any top must be well fitted and not interfere with the participant's ability to compete. Wrestling singlets are not permitted. Female competitors will also follow the same requirements for bottom coverings as the male competitors, minus the requirement for groin protection.

2.8 9 MOUTHPIECE REQUIREMENTS / FOREIGN OBJECTS

A. ~~All p~~Participants are required to wear a mouthpiece during competition. The round shall not begin without the proper placement of the mouthpiece. If the mouthpiece is dislodged during competition, the referee will call time and have the mouthpiece replaced at the first available opportunity, without interfering with the immediate action. Points may be deducted from the participant or the participant may be disqualified if the mouthpiece is purposely dislodged or if the mouthpiece continuously becomes dislodged.

B. ~~All p~~Participants are prohibited from having any ~~other~~ removable ~~foreign~~ object other than the required mouthpiece in their mouth during competition. Participants are subject to inspection before, during or after a bout. Should the ~~director~~Director or chief inspector find any foreign object in a participant's mouth the participant may be subject to disciplinary action.

2.~~9~~ 10 GLOVE REQUIREMENTS

A. The participant or the second is responsible for ensuring that gloves are not twisted or manipulated in any way. If a glove breaks or a string becomes untied during the bout, the referee will instruct the timekeeper to take time out while the glove is corrected. All gloves will be checked by a commission representative prior to the start of a bout and any snagged, torn, or unfit gloves will not be approved for competition.

B. ~~Each p~~Participants must decide on the gloves the participant expects to use during the bout. After the ~~director~~Director or chief inspector approves the gloves, there shall not be any changes unless or until the gloves are damaged and/or deemed unusable. Any additional gloves must also be approved by the ~~director~~Director prior to their use.

2.~~10~~11 PROHIBITED SUBSTANCES

All participants are prohibited from using any drugs, alcohol, or stimulants, ~~either before or during a bout~~that could either impair or enhance their fight performance. The consumption of ~~A~~any substance other than plain water or a sports drink approved by the ~~director~~Director is prohibited during the event.

2.~~11~~12 DELAY OF BOUTS

~~Preliminary p~~Participants shall be ready to enter the ring, ~~or~~ cage, or competition area immediately ~~after the conclusion of the preceding bout~~prior to the start of their bout. Any participant, corner person or promoter causing a delay of more than five minutes when called may be subject to disciplinary action.

2.~~12~~13 PARTICIPANTS DENIED PERMISSION TO FIGHT.

A. The Director may deny or suspend permission for a participant to fight due to:

i. The medical or other non-disciplinary reasons set forth in the "Professional Boxing Safety Act of 1996";

ii. ~~A~~dministrative or other non-disciplinary actions imposed by another state regulatory body; or,

iii. A determination by the Director that the participant is unfit to fight for any physical or mental health reason~~.~~.

B. Denials and suspensions for medical, administrative or other non-disciplinary reasons may be lifted when a participant furnishes proof:

i. Of a sufficiently improved medical, physical, or mental health condition; or

ii. That a suspension was not, or is no longer, merited by the facts.

C. The Director may consult and report to the national record keeper all non-disciplinary medical and administrative denials or suspensions.

2.142 OUT OF STATE SUSPENSIONS

All suspensions of participants by another state or tribal athletic commission may be recognized by the Colorado State Boxing Commission. Acceptable verification of license status includes but is not limited to: a new fight faxcurrent official record approved by the Director showing that the participant is not on suspension or verification that the participant is not listed on the record keepers' database.

2.135 PARTICIPANTS WHO ENGAGE IN NON-SANCTIONED BOUTS

A. Any participant who engages in a bout that is not sanctioned by a state or tribal athletic commission will not be approved to compete in a sanctioned bout for a minimum of 30 days from the date of the participant's last non-sanctioned bout and a written clearance from a physician may be required.

B. Any participant who wishes to engage in a sanctioned bout within 30 days from the date of the participant's last non-sanctioned bout must submit, within ten days of the non- sanctioned bout, written information that demonstrates that the non-sanctioned bout met all the requirements set forth in these Colorado State Boxing Commission Rules for a similar type of bout.

C. A participant who engages in a non- sanctioned bout while on suspension from a state or tribal athletic commission may be required to provide additional medical results before the participant is approved to compete.

2.14 6 ADDITIONAL REQUIREMENTS OF FEMALE PARTICIPANTS

A. Restrictions

Participants are restricted to participate in competition between their own gender.

BA. Pregnancy Test

Participants shall submit a doctor's written verification of a negative pregnancy test dated within seven days of a scheduled event. The cost of the test is the responsibility of the participant. The examining physician may fully evaluate a participants' medical history as they deem appropriate.

C. Protective Equipment

Participants must wear protective equipment as applicable in this rule in addition to a breast protector or a sports bra. The breast protector or sports bra must be well fitted and not interfere with the participant's ability to compete.

DB. Number of RoundsTtime Llimits

The number of rounds and time Time limits for female participants may vary depending on the combative sport. In all contests, the number of rounds will be specified.

2.17 REINSTATEMENT OF AN EXPIRED LICENSE

The purpose of this rule is to establish the qualifications and procedures for reinstatement of an expired license pursuant to § 12-10-106.5, C.R.S. and § 24-34-105, C.R.S.

A. Conditions of Reinstatement: License expired for less than two years

i. An applicant seeking reinstatement of an expired license for less than two years shall complete a reinstatement application and pay a reinstatement fee.

B. Conditions of Reinstatement: License expired two years or more

i. An applicant seeking reinstatement of an expired license for two years or more shall complete a reinstatement application, pays a reinstatement fee and provide proof of a compliance bond in a manner approved by the Director.

An applicant for reinstatement who has actively practiced in Colorado with an expired license in violation of § 12-10-106.5 C.R.S. is subject to denial of application, disciplinary action, and/or other penalties as authorized in the ~~Professional Boxing Safety~~ Act at § 12-10-101 et seq., C.R.S., and in accordance with § 24-34-102 et seq., C.R.S.

2.18 NOTICES FROM PARTICIPANTS

A. Address and Name Changes

i. Participants shall inform the Director of any name, address, telephone, or email change within 30 days of the change. The Director will not change a participant's information without explicit notification in a manner prescribed by the Director.

ii. One of the following forms of documentation is needed to change a name or correct a social security number:

a. Marriage license;
b. Divorce decree;
c. Court order; or
d. A driver's license or social security card with a second form of identification may be acceptable at the discretion of the division of registrations.

2.19 REPORTING CONVICTIONS, JUDGMENTS AND ADMINISTRATIVE PROCEEDINGS

A. Participants shall notify the Director within 45 days of any of the following events:

i. The conviction of a felony under any state or federal law, which would be a violation of §12-10-107.1 C.R.S. A guilty verdict, a plea of guilty or a plea of nolo contendere (no contest) accepted by the court is considered a conviction;

ii. A disciplinary action imposed upon the licensee by another jurisdiction that licenses promoters, which would be a violation of § 12-10-107.1, C.R.S., including, but not limited to, a citation, sanction, probation, civil penalty, or a denial, suspension, revocation, or modification of a license whether it is imposed by consent decree, order, or other decision, for any cause other than failure to pay a
license fee by the due date;

iii. Revocation or suspension by another state athlete commission, municipality, federal or state agency or any association who oversees boxing, kickboxing, mixed martial arts or martial arts;

iv. Any judgment, award or settlement of a civil action or arbitration in which there was a final judgment or settlement against the licensee.

B. The notice to the Director shall include the following information;

i. If the event is an action by a governmental agency (as described above), the name of the agency, its jurisdiction, the case name, and the docket, proceeding or case number by which the event is designated, and a copy of the consent decree, order or decision;

ii. If the event is a felony conviction, the court, its jurisdiction, the case name, the case number, a description of the matter or a copy of the indictment or charges, and any plea or verdict entered by the court. The licensee shall also provide to the Director a copy of the imposition of sentence related to the felony conviction and the completion of all terms of the sentence with 45 days of such action;

iii. If the event concerns a civil action or arbitration proceeding, the court or arbiter, the jurisdiction, the case name, the case number, a description of the matter or a copy of the complaint, and a copy of the verdict, the court or arbitration decision, or, if settled, the settlement agreement and court's order of dismissal;

C. The participant notifying the Director may submit a written statement with the notice to be included with the licensee's records.

CHAPTER 3
~~REQUIREMENTS FOR~~ BOUT APPROVAL REQUIREMENTS

3.1 NUMBER OF BOUTS

The Director has the discretion to control and limit the number of bouts held in any one event. Bouts in which more than two participants appear in the ring or cage at the same time ~~and bouts between members of the two genders~~ will not be approved.

3.2 BOUT REVIEW

~~The director reviews the following to determine if a participant is prepared to compete in a bout: This list includes but is not limited to the following~~The Director may not allow a bout to proceed upon a determination~~e~~ that either or both ~~a~~ participants should~~is~~ not ~~prepared to~~ compete ~~in a bout upon a determination that the participant is not in compliance with~~because of one or more of the following factors:

A. Skill level and ability of their opponent;
B. Age disparity between opponents;
C. Consecutive losses or wins ~~or~~ on recent record;
D. Fighting history, including r~~R~~ecent TKO' or KO's;
E. Disqualifications & or poor performances;
F~~E~~. Recent injuries;
G~~F~~. Failure to appear at any scheduled weigh-in or event;
H~~G~~. Failure to compete at any event;
I~~H~~. Request of a weight that may be unattainable given weight history, build, or physique;
J~~I~~. Failing to make weight;
K~~J~~. Lack of experience with consecutive rounds or bouts;
L~~K~~. Medical test results;
M~~L~~. Professional debut participants verify that they have trained for a minimum of 30 days prior to bout approval;
N~~M~~. Recent positive drug or substance test or any known positive test result;
O~~N~~. Failure to submit to a drug test in any jurisdiction;
P~~O~~. Physical impairment(s), eye blindness, missing limb;
Q~~P~~. Serious head or brain injury, trauma, impact or damage;
R~~Q~~. Age and date of most recent bout;
S~~R~~. Overall physical and mental fitness;
T~~S~~. Any action by any athletic or boxing commission in any jurisdiction;
U~~T~~. History of bad faith or dealings with any promotions or commissions;
V~~U~~. Not completing the bout requirements in a timely manner;
W~~V~~. Conduct that discredits or tends to discredit any sport regulated by the Commission in which the participant is competing.
X~~W~~. Such other factor(s) as the Director may determine.

3.3 ~~PRE-FIGHT~~PRE-FIGHT PHYSICAL ~~AND MEDICAL~~ EXAMINATIONS

A. ~~All p~~Participants must receive a physical ~~or a medical~~ examination from a physician and be declared fit to compete at a time approved by the ~~director~~Director and prior to the bout. Any participant deemed to be unfit to participate by the physician will not be permitted to compete. In such ~~instances~~instances, the promoter will be notified immediately.

B. Physicians shall be provided with a suitable place in which to conduct the physical

examinations. The ~~director~~Director may require additional medical tests prior to the weigh-in and may reject a participant for test results that are incomplete or unsatisfactory or deemed untimely prior to the weigh-in.

C. Examination Requirements

Thorough physical examinations will be given to participants and shall include, at a minimum, examinations of the following: weight, temperature, pulse (sitting and standing), lungs, ~~bloodpressure~~blood pressure, ~~-~~heart, venereal disease, urine analysis (when deemed necessary), scrotal evidence of hernia, and general physical condition. See Rule 2.14 for additional female participant examinations.

3.4 MEDICAL TESTS AND RESULTS

A. All participants must have taken and passed the three medical tests listed below within a timeframe prescribed by the Director and must provide ~~all medical~~the results ~~required by the director~~of those tests no later than ~~within~~ 48 hours prior the weigh-in. Exceptions may be made for substitutions as determined by the ~~director~~Director. ~~Such medical results include, but are not limited to the following:~~The Director may on a case by case basis require additional medical tests for participants.

i. Acceptable HIV;
ii. Acceptable Hepatitis B;
iii. Acceptable Hepatitis C.

B. Additional Test Requirements for Participants age 4~~5~~0 and Older.

1. Participants age 4~~5~~0 and older must undergo the following additional tests or examinations.
   a. General physical examination and Senior Athletes Fitness Examination (SAFE), to include a routine EKG.
   b. Exercise treadmill test (ETT)
   c. Echocardiogram
   d. MRI of the brain without contrast.
   e. Neural exam by a neurologist or neural surgeon
2. The requirement for the above additional tests or examinations may be waived by the Director for a participant 4~~5~~0 years of age or older who has been routinely fighting in permitted events for the previous five years.

3.5 PARTICIPANTS NOT SAFE TO COMPETE

Participants cannot safely engage or compete in a bout where there is the potential of an unfair advantage over their opponent. As such, if a participant has one or more medical conditions, the participant may not safely engage in boxing activities and may not be permitted to compete. Such medical conditions will be reviewed by the ~~director~~Director after consultation with the physician on a case by case basis ~~depending on the sport~~.

3.6 ~~PRE-ANNOUNCED~~ADVANCED NOTIFICATION, RANDOM, OR FOR-CAUSE TESTING OF PARTICIPANTS

A. ~~**Pre-Announced**~~**Noticed Testing**: All participants ~~who are licensed, previously licensed or scheduled to compete on any upcoming event are subject to~~ in bouts designated by the Director will be ~~pre-announced~~ being notified in advance that they will be ~~testing~~ tested for the use of any prohibited drugs, substances and methods identified by the World Anti-Doping Agency. If the ~~director~~Director determines that ~~pre-announced~~

testing of the participants should occur, promoters may be verbally informed before the conclusion of the weigh-in.

B. **Random Testing**: All participants ~~who are licensed, previously licensed or~~ scheduled to compete on any upcoming event are subject to random testing for the use of any prohibited drugs, substances and methods identified by the World Anti-Doping Agency. Random testing shall be conducted in accordance with a process established by the ~~director~~Director.~~.~~

C. **For Cause Testing**: If the ~~director~~Director has ~~probable cause~~reason to believe that a participant ~~who is licensed, previously licensed or~~ scheduled to compete on any upcoming event may be under the influence of any prohibited drugs, substances and methods identified by the World Anti-Doping Agency, the ~~director~~Director may order testing of the participant to determine whether or not the participant has taken, used or ingested any drugs, substances and methods.

D. **Mandatory Testing**: Testing will be mandatory for participants in bouts determined by the Director to ~~in~~be championship bouts ~~as determined by director~~.

E. All testing identified above shall be conducted at the discretion of the ~~director~~Director. In any bout which the ~~director~~Director believes the interest of boxing so require, the Director may order both participants submit to testing.

F. **Prohibited drugs, substances and methods**: The Commission hereby adopts the ~~January 1, 2015~~ edition, effective January 1, 2018, of the Prohibited List – International Standard published by the World Anti-Doping Agency. This Prohibited List is adopted to provide notice of this code to all participants. This rule does not include later amendments to or editions of the Prohibited List of the World Anti-Doping Agency.

A copy of the Prohibited List published by the World Anti-Doping Agency is available for public inspection during regular business hours at the Commission office at the Division of Professions and Occupations, Department of Regulatory Agencies, 1560 Broadway, Suite 1350, Denver, Colorado, 80202, and at any state publications depository and distribution center. For further information regarding how this material can be obtained or examined, contact the ~~director~~Director for the Commission at
1560 Broadway, Suite 1350, Denver, Colorado, 80202, 303-894-2300. The Prohibited List may be obtained, free of charge, at the Internet address www.wada-ama.org. Address: Stock Exchange Tower, 800 Place Victoria (Suite 1700), PO Box 120, Montreal, Quebec H47 1B7, Canada.

3.7 CHAMPIONSHIP BOUTS ~~PROHIBITED WITHOUT COMMISSION APPROVAL~~

A bout shall not be advertised or promoted or called a championship bout unless it has the specific approval of the ~~Colorado State Boxing~~ Commission. A promoter shall not advertise any participant in the State of Colorado as a champion or contender in any manner that is false or misleading.

3.8 PROFESSIONAL-AMATEUR BOUTS PROHIBITED

Bouts between professionals and amateurs are prohibited. Nothing in this rule would prohibit combined Professional-Amateur Events.

3.9 ~~GENDER OF~~ PARTICIPANT~~S~~GENDER CHANGES

A. Bouts between members of different genders will not be approved.

B. For purposes of gender identity under these rules:

a. Individuals who have undergone sex reassignment from male to female prior to puberty shall be regarded as female.

a. Individuals who have undergone or are undergoing sex reassignment from male to female after puberty shall be regarded as female, provided that:
    - Surgical anatomical changes have been completed, including external genitalia and gonadectomy (required for MMA and grappling only); and
    - Appropriate hormone therapy has been administered by a qualified physician for a minimum of two years after gonadectomy.

An individual transitioning from male to female and being treated with testosterone suppression medication may compete as a male until completing two years of documented testosterone suppression therapy.

b. Individuals who have undergone or are undergoing sex reassignment from female to male after puberty shall be regarded as male, provided that:
    i. Appropriate hormone therapy has been administered by a qualified and licensed physician
    ii. A letter is submitted by a board-certified physician responsible for the care of the individual.

c. An individual who is on testosterone replacement therapy may compete only as a male.

CHAPTER FOUR

DECLARATORY ORDERS

This rule establishes procedures for the handling of requests for declaratory orders filed pursuant to the Colorado Administrative Procedures Act at § 24-4-105(11), C.R.S.

A. Any person or entity may petition the commission for a declaratory order to terminate controversies or remove uncertainties as to the applicability of any statutory provision or of any rule or order of the Commission.

B. The commission will determine, at its discretion and without notice to petitioner, whether to rule upon any such petition. If the Commission determines that it will not rule upon such a petition, the commission shall promptly notify the petitioner of its action and state the reasons for such decision.

C. In determining whether to rule upon a petition filed pursuant to this rule, the commission will consider the following matters, among others:

1. Whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to petitioner of any statutory provisions or rule or order of the commission.

2. Whether the petition involves any subject, question or issue that is the subject of a formal or informal matter or investigation currently pending before the commission or a court involving one or more petitioners.

3. Whether the petition involves any subject, question or issue that is the subject of a formal or informal matter or investigation currently pending before the commission or a court but not involving any petitioner.

4. Whether the petition seeks a ruling on a moot or hypothetical question or will result in an advisory ruling or opinion.

5. Whether the petitioner has some other adequate legal remedy, other than an action for declaratory relief pursuant to the Colorado Rules of Civil Procedure 57, which will terminate the controversy or remove any uncertainty as to the applicability to the petitioner of the statute, rule or order in question.

D. Any petition filed pursuant to this rule shall set forth the following:

1. The name and address of the petitioner and whether the petitioner is licensed pursuant to Title 12, Article 10.

2. The statute, rule or order to which the petition relates.

3. A concise statement of all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule, or order in question applies or potentially applies to the petitioner.

E. If the commission determines that it will rule on the petition, the following procedures shall apply:

1. The commission may rule upon the petition based solely upon the facts presented in the petition. In such a case:

a. Any ruling of the commission will apply only to the extent of the facts presented in the petition and any amendment to the petition.

b. The commission may order the petitioner to file a written brief, memorandum or statement of position.

c. The commission may set the petition, upon due notice to petitioner, for a non-evidentiary hearing.

d. The commission may request the petitioner to submit additional facts in writing. In such event, such additional facts will be considered as an amendment to the petition.

e. The commission may take administrative notice of facts pursuant to the Administrative Procedure Act at § 24-4-105(8), C.R.S., and may utilize its experience, technical competence, and specialized knowledge in the disposition of the petition.

2. If the commission rules upon the petition without a hearing, it shall promptly notify the petitioner of its decision.

3. The commission may, at its discretion, set the petition for hearing, upon due notice to petitioner, for the purpose of obtaining additional facts or information or to determine the truth of any facts set forth in the petition or to hear oral argument on the petition. The notice to the petitioner shall set forth, to the extent known, the factual or other matters into which the commission intends to inquire.

For the purpose of such a hearing, to the extent necessary, the petitioner shall have the burden of proving all the facts stated in the petition; all of the facts necessary to show the nature of the controversy or uncertainty; and the manner in which the statute, rule, or order in question applies or potentially applies to the petitioner and any other facts the petitioner desires the commission to consider.

F. The parties to any proceeding pursuant to this rule shall be the commission and the petitioner. Any other person including the Director may seek leave of the commission to intervene in such a proceeding, and leave to intervene will be granted at the sole discretion of the commission. A petition to intervene shall set forth the same matters as are required by Section D of this Rule. Any reference to a "petitioner" in this Rule also refers to any person who has been granted leave to intervene by the commission.

G. Any declaratory order or other order disposing of a petition pursuant to this Rule shall constitute agency action subject to judicial review pursuant to the Colorado Administrative Procedures Act at § 24-4-106, C.R.S.

~~REQUIREMENTS FOR REGISTRATION AND FEDERAL IDENTIFICATION CARD~~

~~4.1 REGISTRATION AND FEDERAL IDENTIFICATION CARD REQUIRED~~

~~The "Professional Boxing Safety Act of 1996" requires all professional boxing participants be registered with the recognized boxing federal registry and obtain a federal identification card in order to participate in boxing bouts anywhere in the United States. Therefore, all professional boxing participants shall show proof of registration. Participants must register with the commission in the participant's home state. In the case of a participant who resides in a state with no commission or a foreign country, the office of boxing may issue the card. An administration fee will be collected from the applicant at the~~

time of application, renewal, or for the replacement of a federal identification card. All Mixed Martial Arts participants must register for a National Identification card.

4.2 APPROVED IDENTIFICATION

Any boxing debut participant must be registered with a federal identification card within seven days prior to the first bout. The participant shall not be permitted to box in any contest scheduled for more than four rounds for the participants first four bouts, and shall not be permitted to compete in any bout of more than six rounds until the participant has participated in ten or more professional bouts, unless approved by the director.

A. Any two forms of identification listed below are acceptable:

1. Voter's registration card;
2. Valid photo drivers license;
3. Social security card;
4. School photo ID card;
5. Birth certificate;
6. U.S. Military ID card;
7. Native American Tribal document;
8. U.S. Passport;
9. Certificate of U.S. Citizenship (INS Form N-560 or N-561);
10. Certificate of naturalization (INS Form N-550 or N-570);
11. Alien registration receipt card with photo (INS Form 1-151 or 1-551); or,
12. Unexpired reentry permit (INS Form 1-327).

4.3 EXPIRATION OF ALL IDENTIFICATION CARDS

Each participant shall renew their identification card at least once every five years.

4.4 FEDERAL ID OR REGISTERED FOR A NATIONAL ID REQUIRED TO PARTICIPATE IN EVENTS

Each participant will present their identification card or completed application to the appropriate designee not later than the scheduled time of the weigh-in for a bout. A participant, who is unable to produce their identification card or establish with the director that they have a current federal identification, will not be allowed to participate.

~~CHAPTER 5~~
CHAPTER 5
~~SPECIFIC~~ REQUIREMENTS FOR BOXING PARTICIPANTS

5.1 WEIGHT ALLOWANCES

Before a participant will be permitted to fight an opponent, who exceeds the weight allowance as shown, the participant must first receive approval by the ~~director~~Director:

POUNDS	CLASSIFICATION	ALLOWANCE
191+	Heavyweight	No limit
190	Cruiserweight	15 lbs.
175	Light Heavyweight	8 lbs.
168	Super Middleweight	8 lbs.
160	Middleweight	7 lbs.
154	Junior Middleweight	7 lbs.
147	Welterweight	7 lbs.
140	Junior Welterweight	5 lbs.
135	Lightweight	5 lbs.
130	Junior Lightweight	5 lbs.
126	Featherweight	5 lbs.
122	Junior Featherweight	5 lbs.
118	Bantamweight	5 lbs.
115	Junior Bantamweight	5 lbs
112	Flyweight	5 lbs.
108	Junior Flyweight	5 lbs.
105	Minimum Weight	5 lbs.

5.2 NUMBER AND DURATION OF ROUNDS

The maximum number of rounds is ten for a bout, except for a championship bout as determined by the Director, which may not exceed twelve rounds. Three minutes will constitute a round, with a rest period of one minute between rounds, which may be extended at the discretion of the ~~director~~Director. Ten seconds before the beginning or the ending of each round, the timekeeper shall give warning to the seconds by suitable signal.

5.3 PARTICIPATION RESTRICTIONS

Any participant, who has participated in a bout scheduled for four rounds or more, shall not participate in a nother ~~contest for~~bout for at least seven days unless specifically authorized by the ~~director~~Director. Main event participants may be required, at the request of the ~~director~~Director, to report and train in public for at least three days in the city where the bout is scheduled to be held.

5.4 RING OCCUPANTS

No person other than the participants and the referee shall enter the ring during a bout. Between rounds, one second may be inside the ring and the others on the ring apron. The physician may enter the ring if asked by the referee. No participant shall leave the ring during any rest period between rounds. The referee may, at their discretion, stop a bout if an unauthorized person enters the ring during a round. The ~~director~~Director or chief inspector may also limit unauthorized people from entering the ring at any time during and after an event.

5.5 INTENTIONAL FOULS

A. If an intentional foul causes an injury, and the injury is severe enough to immediately terminate a bout, the participant causing the injury shall lose by disqualification.

B. If an intentional foul causes an injury, and the bout is allowed to continue, the referee will notify the authorities and deduct two points from the participant who caused the foul. Point deductions for intentional fouls will be mandatory.

C. If intentional foul causes an injury and the injury results in the bout being stopped in a later round, the injured participant shall win by Technical Decision if the participant is ahead on the score cards or the bout will result in a Technical Draw if the injured participant is behind or even on the score cards.

D. If a participant injures themselves while attempting to intentionally foul their opponent, the referee will not take any action in their favor, and this injury is the same as one produced by a fair blow. If a participant has conducted themselves in an unsportsmanlike manner, the referee may stop the bout and disqualify the participant.

5.6 UNINTENTIONAL FOULS

A. If an unintentional foul causes an injury severe enough to immediately stop the bout, the bout will result in a No Contest if stopped before three completed rounds and four completed rounds for championship bouts.

B. If an unintentional foul causes an injury severe enough to immediately stop the bout after three completed rounds and four rounds for championship bouts have occurred, the bout will result in a Technical Decision awarded to the participant who is ahead on the score cards at the time the bout is stopped. Partial or incomplete rounds will be scored.

C. If no action has occurred, the round should be scored as an even round at the discretion of the judges. A fighter who is hit with an accidental low blow must continue after a reasonable amount of time but no more than five minutes or the participant will lose the bout by Technical Knockout (TKO).

5.~~14~~7 TACTICS DEEMED FOULS

A. Hitting below the belt or after the bell has terminated the round;
B. Hitting an opponent who is down or who is getting up after being down;
C. Holding an opponent or deliberately maintaining a clinch;
D. Holding an opponent with one hand and hitting with the other hand;
E. Butting with the head or shoulder or using a knee;
F. Hitting with the glove laces or the heal of the hand, the wrist, or elbow and ~~all~~any back~~-~~-hand blows;
G. Hitting or flicking with an open glove, or thumbing;
H. Wrestling, hitting on the break or pushing an opponent;
I. Spitting out the mouthpiece or going down without being hit;
J. Striking deliberately the part of the body over the kidneys;
K. Use of a pivot or rabbit punch;
L. Hitting an opponent during intervention by the referee;
M. Hitting an opponent who is entangled in the ropes;
N. Biting or any unsportsmanlike conduct;
O. Abusive or profane language;
P. Failure to obey the referee;
Q. Any physical action which may injure a participant, except by fair sportsmanlike boxing;
R. Passive defense by means of double cover.

5.~~15~~8 PENALTY FOR FOULS

A. The referee may penalize a participant if they commit a foul.

B. Points may be deducted from the participant's score in the round or rounds such foul occurred. The referee shall notify the judges at the time of the foul and verify between rounds of the points deducted.

C. If a foul is of a serious nature, intentionally inflicted, or is continuous or repeated; the referee may award the bout to the participant who is fouled.

5.~~7~~9 DETERMINATION OF A KNOCKDOWN

A. A knockdown will be ruled when a participant is hit with the padded knuckle part of the glove on the front or side of the head or the front or side of the body above the belt, and any part of the participant's body other than their feet is on the floor; or the participant is hanging over the ropes without the ability to protect oneself and cannot fall to the floor.

B. A referee may count a participant out if the participant is on the floor or is being held up by the ropes.

5.~~8~~10 REFEREE COUNT

A. If a participant falls due to fatigue, or is knocked down by their opponent, the participant will be allowed ten seconds to rise unassisted. When such participant falls, their opponent shall go to the farthest neutral corner and remain there while the count is made.

B. A participant shall be deemed down when any part of their body but their feet is on the floor, or the participant is being held up by the ropes. A referee may count a participant out either on the ropes or on the floor.

C. The referee shall stop counting should the opponent fail to go to such neutral corner, and resume the count where the participant left off when the opponent goes to the neutral corner. Should a participant who is down rise before the count of ten is reached, and goes back down immediately without being struck by the opponent, the referee shall resume the count where it was left off.

D. Before a participant resumes after having been knocked, fallen or slipped to the floor, the referee shall wipe any accumulated debris from the participant's gloves.

E. When a mouthpiece is knocked out, the referee may allow the exchange to continue until there is a break in the action. Timeout shall be called and the mouthpiece rinsed and replaced.

5.~~9~~11 PARTICIPANT'S RETURN TO RING

A. A participant shall receive a 20 second count if they are knocked out of the ring and onto the floor by a legal strike. The participant is to be unassisted by the second(s). If assisted by the second(s), the participant shall be disqualified.

B. A participant who has been wrestled, pushed, or has fallen through the ropes during a contest may be helped back by anyone and the referee shall allow reasonable time for the return.

C. When on the ring apron outside the ropes, the participant shall enter the ring immediately.

D. Should the participant stall for time outside the ropes, the referee shall start the count without waiting for the participant to reenter the ring.

E. When one participant has fallen through the ropes, the other participant shall retire to a designated corner and remain there until ordered to continue the bout.

F. A participant who deliberately wrestles or throws an opponent from the ring, or who punches their opponent when they are partly out of the ring and prevented by the ropes from assuming a position of defense may be penalized, disqualified, and subject to disciplinary action.

5.~~10~~12 SAVED BY THE BELL

A participant who has been knocked down cannot be saved by the bell in any round.

5.~~11~~13 THREE KNOCKDOWNS IN THE SAME ROUND – TKO

The contest may be stopped at any time by the referee to protect the health and safety of either participant. A participant who has been ruled by the referee to have been knocked down three times in the same round shall lose by TKO. The three-knockdown rule may be waived at the sole discretion of the ~~director~~Director.

5.~~12~~14 BOUT TERMINATION DUE TO INJURY - TKO

If a participant sustains an injury from a fair blow and the injury is severe enough to terminate the bout, the injured participant will lose by TKO.

5.~~13~~15 KNOCKDOWN EIGHT COUNT

A. In the case of a knockdown, the eight count is mandatory. A participant who is knocked out, or is technically knocked out shall be suspended for a minimum of 30 days from participating in any event.

B. If ~~a~~ ~~participant~~ is knocked out, or technically knocked out in two consecutive bouts, the participant shall be suspended for a minimum of 60 days from participating in any activity.

C. If ~~a~~ ~~participant~~ is knocked out or technically knocked out in three consecutive bouts, the participant may be suspended for a minimum of one year from participating in any activity.

D. The ~~director~~Director may require the suspended participant to undergo other medical examinations and submit proof of such examinations and physician clearance to compete in any future bouts.

CHAPTER 6
~~SPECIFIC~~ REQUIREMENT FOR KICKBOXING PARTICIPANTS

6.1 CONDUCT OF ~~ATHLETIC~~ KICKBOXING EVENTS

A. All professional non-title bouts will be a minimum of three rounds and up to a maximum of twelve rounds.

B. All offensive kickboxing, ~~punching~~striking, and kicking techniques are authorized, with the exception of those ~~–~~techniques specified as "fouls" in Rule 6.3, and may be executed according to the individual participant's style or system of kickboxing.

C. Participants shall have the option of leg kicks when both participants have been properly trained for leg kicks and the contract explicitly states that leg kicks will be used.

D. If leg kicks are allowed, any kicking technique may be used as long as the kicks are not to any foul area, such as a knee joint. Allowable ~~T~~targets include kicks to the inside, outside and back of the thigh on either leg and kicks to the calf of either leg.

E. The ~~director~~Director may limit the ~~use~~ ~~the~~ number of leg kicks ~~or the use of~~ inside kicks.

F. A participant intentionally avoiding any physical contact with their opponent will receive a warning from the referee. If the participant continues to avoid a confrontation with their opponent after receiving a warning during that round, the participant may be penalized by the referee. If the participant continues to ~~evade~~ avoid ~~action~~confrontation or physical contact, either in the same round or in any other round, the referee may, at their discretion, impose additional penalties.

6.2 SWEEPS

A. A~~–~~ ~~P~~participant~~s~~ may execute sweeps only by making a sweeping motion to the padded area of opponent's foot with the padded area of the ~~user's~~ participant's foot, also known as "boot to boot".

B. Contact to any other part of the leg (thigh, knee, shin and sides of the shin from any angle) while delivering a sweep shall constitute a foul and will be treated accordingly.

C. A sweep is not a kick and shall not be judged as such.

D. ~~–~~Any technique thrown following a sweep must land on the opponent prior to any part of the participant's body touching the ring floor. If the technique lands after some part of the opponent's body other than the soles of their feet has touched the floor, the referee may call a foul.

E. A successful sweep is not considered a knockdown.

6.3 TACTICS DEEMED FOULS

All general fouls of boxing ~~and~~ apply to kickboxing, ~~apply~~ in addition to the following fouls.

A. Headbutts;
B. Striking the groin, the spine, the throat, collarbone, or the part of the body over the kidneys;
C. Kicking into the knee or striking below the belt in any unauthorized manner;
D. Anti-joint techniques (striking applying leverage against any joint);
E. Grabbing or holding onto an opponent's leg or foot;
F. Leg checking the opponent's leg or stepping on the opponent's foot to prevent the opponent from moving or kicking;
G. Throwing or taking an opponent to the floor in an unauthorized manner;
H. Failure to throw the minimum number of hard ~~eight~~ kicks in a given round as required by the Director;
I. Intentional evasion of contact; and,
J. Executing any techniques which are deemed malicious and beyond the scope of reasonably accepted techniques in an athletic event.

6.4 KICKING REQUIREMENTS

A. All participants must execute a minimum of ~~eight~~ hard kicks per round. The ~~director~~Director may waive this requirement or minimize the number of kicks required per round.

B. In the event a participant fails to execute the required minimum number of hard kicks per round, the referee may give one warning to that participant and their chief second during the rest period following the round.

C. If the participant fails to execute the minimum number of hard kicks in any round following the referee's warning, the participant shall be penalized one point for each kick short of the minimum requirement.

D. If a participant fails to achieve the minimum kicking requirement in a majority of the scheduled rounds, the participant shall be disqualified.

E. If a participant executes less than eight hard kicks in any one round, the ~~director~~Director or chief inspector shall immediately notify the referee the number of kicks thrown. The referee shall, in turn, notify the judges who shall record the appropriate penalty.

F. Contact must be attempted in order for a hard kick to be counted.

G. Slide kicks, push kicks, air kicks or any kick to a foul area on the body are not counted.

6.5 WEIGHT ALLOWANCES

Before a participant will be permitted to fight an opponent, who exceeds the weight allowance as shown, the participant must first receive approval by the ~~director~~Director:

POUNDS	CLASSIFICATION	ALLOWANCE
191+	Heavyweight	No limit
190	Cruiserweight	15 lbs.
175	Light Heavyweight	8 lbs.
168	Super Middleweight	8 lbs.
160	Middleweight	7 lbs.
154	Junior Middleweight	7 lbs.
147	Welterweight	7 lbs.
140	Junior Welterweight	5 lbs.
135	Lightweight	5 lbs.
130	Junior Lightweight	5 lbs.
126	Featherweight	5 lbs.
122	Junior Featherweight	5 lbs.
118	Bantamweight	5 lbs.
115	Junior Bantamweight	5 lbs
112	Flyweight	5 lbs.
108	Junior Flyweight	5 lbs.
105	Minimum Weight	5 lbs.

No participant shall engage in a bout where the weight difference exceeds the allowance shown above. Any greater weight spread requires the ~~director~~Director approval.

6.6 KICKBOXER A~~TTIRE~~PPAREL

A standard karate uniform consisting of jacket, long pants and belt, as traditionally worn in the sport of kickboxing or full contact karate may be worn by all participants upon entering the ring. Prior to the start of a bout, all participants must remove their uniform jackets and belts.

CHAPTER 7
~~SPECIFIC~~ REQUIREMENTS FOR MIXED MARTIAL ARTS (MMA) AND MARTIAL ARTS (MA) PARTICIPANTS

7.1 BOUT REQUIREMENTS

A. Each non-championship MMA ~~contest~~ bout shall be at least three rounds and up to a maximum of four rounds, ~~with~~ five minutes each in duration~~s~~, and ~~one minute~~one-minute rest periods between each round.

B. Each championship MMA ~~contest~~ bout shall be five rounds, ~~of~~ five minutes each in duration~~s~~, and ~~one minute~~one-minute rest periods between each round.

C. A bout may go an extra round if the bout is deemed a draw after the scheduled rounds.

D. The referee is the sole arbiter of a bout and is the only individual authorized to enter the ring or cage at any time during competition and to stop a contest.

~~E. All bouts are evaluated and scored by three judges.~~

E~~F~~. The 10-Point Must System will be the standard system of scoring a bout. Half points may be used with the 10-Point ~~must~~ Must ~~system~~ System if approved prior to the event.

7.2 WARNINGS

A single warning will be issued for the following infractions and may not be limited to these infractions:

A. Holding or grabbing fence or ropes;
B. Holding opponent's shorts or gloves;
C. The presence of ~~more than one~~a second on the apron while the fight is in progress.

7.3 TACTICS DEEMED FOULS

A. Butting with the head.
B. Eye gouging of any kind.
C. Biting or spitting at an opponent.
D. Hair pulling.
E. Fish hooking.
F. Groin attacks of any kind.
G. Intentionally putting a finger in any opponent's orifice (includes laceration).
H. Downward point of elbow strikes.
I. Small joint manipulation.
J. Strikes to spine or back of the head.
K. Heel kicks to the kidney.
L. Throat strikes of any kind (includes grabbing trachea).
M. Clawing, pinching, twisting the flesh or grabbing the clavicle.
N. Kicking the head of a grounded fighter.
O. Kneeing the head of a grounded fighter.
P. Stomping of a grounded fighter.
Q. Holding the fence or a rope.
R. The use of abusive language in the cage or ring.
S. Any unsportsmanlike conduct that causes an injury to an opponent.
T. Attacking an opponent during a break.

U. Attacking an opponent under the referee's care.
V. Timidity (avoiding contact, intentional and/or consistent dropping of mouthpiece or faking an injury).
W. Corner interference.
X. Throwing an opponent out of the cage or ring.
Y. Flagrant disregard of the referee's instructions.
Z. Spiking an opponent to the canvas on his head or neck.
AA. Throwing in the towel during competition.
BB. Fingers outstretched toward an opponent's face/eyes

7.4 PENALTY FOR FOULS

A. Referees may penalize or disqualify a participant after any foul or a flagrant foul.

B. Fouls result in a point being deducted by the official scorekeeper from the offending participant's score. (The judges ~~should~~ may only make notations of points deducted by the referee, for each round).

C. If a foul is committed:

i. The referee shall call time.

ii. The referee shall check the fouled participant's condition and safety and provide adequate time to recuperate and resume fighting. Such time shall not exceed five minutes.

iii. The referee shall then assess the foul to the offending participant, deduct points, and notify the corner men, judges and official scorekeeper

D. If a bottom participant commits a foul, unless the top participant is injured, the fight will continue.

i. The referee will verbally notify the bottom participant of the foul.

ii. When the round is over, the referee will assess the foul and notify both corners, the judges and the official scorekeeper.

iii. The referee may terminate a bout based on the severity of a foul. ~~For such a~~If the referee determines that a foul is intentional and flagrant ~~foul~~, a participant shall lose by disqualification.

7.5 INJURIES SUSTAINED BY FAIR BLOWS OR FOULS:

A. Fair Blows:

If injury is severe enough to terminate a bout, the injured participant loses by TKO.

B. Intentional Fouls:

i. If injury is severe enough to terminate a bout, the participant causing the injury immediately loses by disqualification.

ii. If an injury occurs and the bout is allowed to continue, the referee will notify the ~~director~~Director or the chief inspector and automatically deduct two points from the participant who committed the foul. Point deductions for intentional fouls will be mandatory.

iii. If injury (ii) above is the result of the bout being stopped in a later round, the injured participant will

win by Technical Decision, if the participant is ahead on the score cards.

iv. If injury (ii) above is the result of the bout being stopped in a later round, the bout will result in a Technical Draw, if the injured participant is behind or even on the score cards.

v. If a participant injures themselves while attempting to foul their opponent, the referee will not take any action in their favor, and the injury will be the same as one that occurs by a fair blow.

C. Accidental Fouls:

i. Any injury severe enough for the referee to immediately stop the bout will result in a "No Contest" if stopped before two rounds have been completed in a three-round bout or if stopped before three rounds have been completed in a five-round bout.

ii. Any injury severe enough for the referee to immediately stop the bout after two rounds of a ~~three-round~~three-round bout, or three rounds of a five round bout ~~have occurred, the bout~~ will result in a "Technical Decision", awarded to the participant who is ahead on the score cards at the time the bout is stopped.

iii. If injury (ii) above occurs, an incomplete round will be scored.

iv. If injury (ii) above occurs, and the referee penalizes either participant, the point(s) shall be deducted from the final score.

7.6 WEIGHT ALLOWANCES

Before a participant is permitted to fight an opponent, who exceeds the weight allowance as shown, the participant must first receive approval by the ~~director~~Director:

POUNDS	CLASSIFICATION	ALLOWANCE
Above 265	Super Heavyweight	No limit
265	Heavyweight	35 lbs.
230	Cruiserweight	25 lbs.
205	Light Heavyweight	20 lbs.
185	Middleweight	15 lbs.
170	Welterweight	15 lbs.
155	Lightweight	10 lbs.
145	Featherweight	10 lbs.
135	Bantamweight	10 lbs.
125	Flyweight	10 lbs.
Below 115	Minimum Weight	10 lbs.

The ~~director~~Director may allow participants over 205 lbs. to compete against an opponent up to 265 lbs.

7.7 PARTICIPANTS APPAREL RESTRICTIONS

A. A participant may not wear shirts or gis during competition.

B. A participant may not wear shoes during competition.

7.8 RECORDING OF BOUT RESULTS

A. Submissions occur by either a tap out or a verbal tap out.

B TKO's occur by a referee stopping the bout.

C. KO's occur by failing to rise from the canvas.

D. Decision via score cards occur by:

i. Unanimous: All three judges score the bout for the same participant

ii. Split Decision: Two judges score the bout for one participant and one judge scores for the opponent.

iii. Majority: Two judges score the bout for the same participant and one judge scores a draw.

iv. Draws:

a. Unanimous: All three judges score the bout a draw.
b. Majority: Two judges score the bout a draw.
c. Split: All three judges score differently.

E. Disqualification occurs by a referee disqualifying a participant.

7.9 ~~VARIOUS~~ MARTIAL ARTS

A. A contest of martial arts must be conducted pursuant to the official rules promulgated by the sponsoring organization for the ~~particular~~ martial art.

B. The ~~sponsoring organization or~~ promoter must file a copy of the official rules with the ~~office of boxing~~Director before ~~it will approve~~approval will be given for the contest to be held. ~~The sponsoring organization or promoter will receive a list of requirements and fouls before the contest.~~

C. Prior to the event, the Director will provide the promotor a list of specific requirements, including those concerning fouls. The promoter will be responsible for ensuring that all participants comply with the specific requirements.

D. Where applicable, provisions of Chapters 5, 6, and above sections of Chapter 7 may also constitute requirements for martial arts contests.

CHAPTER 8
REQUIREMENTS FOR SECONDS

8.1 LICENSE ~~OR PERMIT~~ FOR SECONDS

A license is required in order to serve as a second in a professional combative sports contest. All seconds shall submit an application for a license ~~or permit~~ to assist a fighter and must be licensed ~~or permitted~~ prior to the scheduled start of an event. Incomplete or incorrect application forms will not be accepted ~~by the Office~~ and will be returned to the applicant to be corrected.

8.2 FEES

Each applicant applying for a license ~~or a permit~~ shall pay the required fee before the license ~~or permit~~ is granted. The license ~~or permit~~ fee schedule is established by the Division ~~director~~ Director ~~of division of registrations~~ pursuant to Section 24-34-105, C.R.S.

8.3 MINIMUM AGE REQUIREMENT

No person under the age of eighteen years shall be licensed ~~or permitted~~ to act as a second.

8.4 EQUIPMENT REQUIREMENTS

Seconds are required to provide all materials and equipment necessary to conduct themselves as a second. Such equipment includes water buckets, gauze and tape for hand wraps, spit buckets, scissors, towels, petroleum jelly~~vaseline~~, enswell, q-tips, mouthpieces and cut solutions. Water bottles must be clear and all hand wrapping materials must be white.

8.5 NUMBER OF SECONDS

A. Unless special permission is given by the ~~director~~Director, the number of seconds shall not exceed ~~–~~three, one of whom will announce to the referee at the start of the bout that they are the chief second. The ~~director~~Director may reduce the number of seconds per bout or event.

B. If at any time during a bout there are more seconds in a corner than allowed, the bout may be stopped until corrected or the chief second may be disqualified and may be subject to disciplinary action.

8.6 WRAP INSPECTION AND ACCEPTABLE MATERIAL

A. Hand ~~–~~wraps ~~–~~shall ~~–~~be ~~–~~applied ~~–~~in ~~–~~the ~~–~~dressing ~~–~~room ~~–~~in ~~–~~the ~~–~~presence ~~–~~of ~~–~~a ~~–~~commission representative. Unless a championship bout, a representative of a participant must request in writing at the weigh-in or prior, to witness the wrapping of the opponent's hands.

B. White adhesive tape of no more than six feet and not over one and one-half inches wide can be placed directly on the hand to protect the hand near the wrist. The tape may cross the back of the hand but shall not extend within one inch of the knuckles when the hand is clenched in a fist. A single four-inch by four-inch white surgical pad or equivalent material must be approved by the ~~Director~~Director or the chief inspector.

C. If equivalent material is approved it must be folded in half and may be used on the knuckles of each hand for added protection and safety.

D. Single strips of tape not wider than one-fourth inch and not longer than three inches may be placed between the knuckles in order to hold the white gauze in place.

E. Participants shall use soft white surgical bandage not over two inches wide and twenty yards in length, held in place by not more than six feet of white surgeon's adhesive tape to complete the wrappings for each hand. Bandages shall be adjusted in the dressing room in the presence of a commission representative, who must sign across the back of the hand before gloves are secured on each participant.

F. For each foot wrapping, soft surgical bandages shall be used and must not be over two inches wide, held in place by surgeon's adhesive tape not over one and one-half inch wide.

G. Foot wrappings shall not exceed three to four windings of soft surgical bandage around the sole and instep, and no more than four windings around the ankle. Tape shall cross the foot once before being wrapped one more time around the sole and heel.

8.7 ENTERING THE RING OR CAGE

Only one second shall be inside the ring or cage between rounds. The other(s) may be on the ring platform outside the ropes. Seconds shall not enter the ring until the timekeeper indicates the termination of the round and they shall leave when the timekeeper gives the ten second warning before the beginning of each round. If the chief second ~~or anyone for whom they are responsible~~or another second enters the ring before the round ends, the participant may be disqualified and the violator may be subject to disciplinary action. If there are two entrances to a cage, two seconds may be in the cage at the same time.

8.8 CHIEF SECOND

The chief second of a participant may stand on the ring or cage apron and attract the attention of the referee ~~indicating the retirement of the participant~~in order to end the bout. The chief second shall not enter the ring unless the referee stops the bout and shall not interfere with a count that is in progress.

8.9 COACHING DURING A BOUT

While the bout is in progress, a second shall not excessively coach a participant during a round and shall remain seated and silent when ~~so~~ directed by the referee or a commission representative. Seconds shall not place or cause any items to be placed inside the ring or cage during a bout. They shall not continuously stand, lean or pound on the ring apron during the round. Excessive coaching may lead to point deductions, ejection from the venue, or subject to other disciplinary action.

8.10 USE OF ICE/WATER AND SUBSTANCES TO STOP HEMORRHAGING

A. A participant may be refreshed with a wet sponge or spray mist bottle that only contains water.

B. Excess water or ice on the ring or cage floor shall be wiped off immediately by the seconds.

C. Water discharged from the participant's mouth shall be caught in a bucket or other device furnished for that purpose.

D. A participant may not be given any stimulant.

E. Before leaving the ring or cage at the start of each round, the seconds shall remove all obstructions such as buckets, stools, bottles, towels and robes from the ring or cage floor.

F. If a participant is cut, a solution of adrenaline 1/1000, aventine, and thrombin can be used to heal the cut.

G. No other bottle or container shall be allowed or used in the corners during a bout. Any other solution or substance is prohibited.

8.11 ~~DRESS~~ APPAREL AND SUBJECT TO SEARCHES

Seconds shall be neatly dressed while working the participant's corner and may be searched ~~-~~by a Commission ~~for~~representative illegal substances or objects.

8.12 REINSTATEMENT OF AN EXPIRED LICENSE

The ~~purpose of this~~ rule ~~is to~~ establishes the qualifications and procedures for reinstatement of an expired license pursuant to § 12-10-106.5, C.R.S. and § 24-34-105, C.R.S.

A. Conditions of Reinstatement: License expired for less than two years

i. An applicant seeking reinstatement of an expired license for less than two years shall complete a reinstatement application and pay a reinstatement fee.

B. Conditions of Reinstatement: License expired two years or more

i. An applicant seeking reinstatement of an expired license for two years or more shall complete a reinstatement application, pays a reinstatement fee and provide proof of a compliance bond in a manner approved by the Director.

An applicant for reinstatement who has actively practiced in Colorado with an expired license in violation of § 12-10-106.5 C.R.S. is subject to denial of application, disciplinary action, and/or other penalties as authorized in the ~~Professional Boxing Safety~~ Act at § 12-10-101 et seq., C.R.S., and in accordance with § 24-34-102 et seq., C.R.S.

8.13 NOTICES FROM SECONDS

A. Address and Name Changes

i. Seconds shall inform the Director of any name, address, telephone, or email change within 30 days of the change. The Director will not change a second's information without explicit notification in a manner prescribed by the Director.

ii. One of the following forms of documentation is needed to change a name or correct a social security number:

a. Marriage license;
b. Divorce decree;
c. Court order; or
d. A driver's license or social security card with a second form of identification may be acceptable at the discretion of the division of registrations.

8.14 REPORTING CONVICTIONS, JUDGMENTS AND ADMINISTRATIVE PROCEEDINGS

A. Seconds shall notify the Director within 45 days of any of the following events:

i. The conviction of a felony under any state or federal law, which would be a violation of §12-10-107.1 C.R.S. A guilty verdict, a plea of guilty or a plea of nolo contendere (no contest) accepted by the court is considered a conviction;

ii. A disciplinary action imposed upon the licensee by another jurisdiction that licenses promoters, which would be a violation of § 12-10-107.1, C.R.S., including, but not limited to, a citation, sanction, probation, civil penalty, or a denial, suspension, revocation, or modification of a license whether it is imposed by consent decree, order, or other decision, for any cause other than failure to pay a license fee by the due date;

iii. Revocation or suspension by another state athlete commission, municipality, federal or state agency or any association who oversees boxing, kickboxing, mixed martial arts or martial arts;

iv. Any judgment, award or settlement of a civil action or arbitration in which there was a final judgment or settlement against the licensee.

B. The notice to the Director shall include the following information;

i. If the event is an action by a governmental agency (as described above), the name of the agency, its jurisdiction, the case name, and the docket, proceeding or case number by which the event is designated, and a copy of the consent decree, order or decision;

ii. If the event is a felony conviction, the court, its jurisdiction, the case name, the case number, a description of the matter or a copy of the indictment or charges, and any plea or verdict entered by the court. The licensee shall also provide to the Director a copy of the imposition of sentence related to the felony conviction and the completion of all terms of the sentence with 45 days of such action;

iii. If the event concerns a civil action or arbitration proceeding, the court or arbiter, the jurisdiction, the case name, the case number, a description of the matter or a copy of the complaint, and a copy of the verdict, the court or arbitration decision, or, if settled, the settlement agreement and court's order of dismissal;

C. The licensee notifying the Director may submit a written statement with the notice to be included with the licensee's records.

CHAPTER 9
REQUIREMENTS FOR PROMOTERS

9.1 LICENSE REQUIRED

A. A license is required for a promoter of a professional combative sport contest. Promoters shall apply for a license by submitting an application ~~and fee~~ in the manner prescribed by the Director ~~approved by the division of registrations~~ and must be licensed prior to the ~~approval~~ applying for~~of~~ a permit. Incomplete or incorrect applications will not be accepted.

B. Promoters are responsible for ensuring that all participants and seconds are licensed and all applicable fees are paid for each event.

92.2 FEES

Each applicant for a license or permit shall pay the required fees before the license or permit to fight is granted. The license and permit fee schedules are established by the Division Director pursuant to §~~Section~~ 24-34-105, C.R.S.

9.32 MINIMUM AGE REQUIREMENT

A person who applies for a promoter license must be a minimum of eighteen years old.

9.43 PROMOTION PERMIT AND EVENT REQUIREMENTS

A. Promotion Permit Application and Fee

i. A promoter is required to have a permit for each event that includes a combative sport contest. A completed permit application and appropriate fee must be submitted to the ~~director~~Director at least 30 days prior to the scheduled date~~, time and location~~ of the event.

ii. The commission may approve a permit less than 30 days on a case by case basis.

iii. Promotion permits will not be granted to promoters who owe any fees from previous events.

iv. Any change to a previously approved permit will require a new permit application and may require a fee and must be submitted as expeditiously as possible.

v. Permit ~~applications filed~~applications ~~in~~filed ~~excess~~in ~~of~~excess ~~150~~of ~~days~~150 ~~in~~days ~~advance~~in ~~of~~advance ~~the~~of ~~event~~the ~~require~~event require commission approval.

B. ~~A~~ If a promoter ~~may not~~ promotes, advertises or sell tickets for an event ~~until they are~~before the promoter is licensed and appropriate permits have been granted for the event, ~~or~~ the promoter may be subject to a fine or disciplinary action and the license or permit may not granted.

C. Limitations and Expectations on Permits

i. There are no limitations on the number of permits allowed at any one time. However, the ~~director~~Director may deny a permit~~, but is not limited to~~for the following ~~conditions~~reasons:

a. Back-to-back events;
b. Same-day events;
c. Inadequate number of officials to properly regulate the event;
d. Failure of a promoter or any person connected with the promotion to comply with any

statute or rule;

e. A bout listed on the promotion permit application fails to meet the requirements of Chapter 3;

f. Inadequate or unsafe location, site or arena selection; or

g. For ~~other reasons~~other ~~–~~reasons indicating that the requested permit~~which~~ may ~~not be~~not ~~in~~be ~~the~~in ~~best~~the ~~interest~~best ~~of~~interest ~~the~~of ~~sport~~the ~~, the~~sport, the participants, spectators, or the officials.

ii. Promoters are expected to comply with the following:

a. Fulfill all obligations of the permit. ~~-~~Any promoter who cancels an event after a permit is granted may be subject to disciplinary action and future permits may be denied.

b. By completing the permit, promoters agree to pay in guaranteed funds all officials' fees established by the ~~director of the division of registrations~~Division Director within the time frames established by the ~~director~~Director.

c. No weigh-in will begin without official fees paid in full. If the official fees have not been paid in full, ~~T~~the weigh-in cannot be rescheduled and the event will be canceled.

D. Minimum Requirements of Rounds

i. Promoters shall not schedule less than twenty rounds nor more than forty rounds for any one event. A standby bout shall be provided in the event an arranged bout falls through and it is necessary to put on another bout in order to meet the minimum requirements. Any exception to the number of rounds requires approval of the ~~director~~Director.

ii. The promoter is expected to feature a main event bout. The number of rounds that qualify as a main event bout is at least five rounds for boxing and at least three rounds for kickboxing and MMA.

iii. A promoter may appeal a permit denial to the ~~boxing~~Combative Sports ~~commission~~ Commission by submitting a written request within 10 days of the denial.

~~E. Event Fee~~

~~i. The promoter shall pay the appropriate event fee that is established by the director of the division of registrations pursuant to Section 24-34-105 C.R.S.~~

~~ii. The event fee must be paid to the office of boxing at the time the event is approved by the director.~~

~~iii. The event fee may vary depending on the event location, area, or other appropriate considerations.~~

9.54 COMPLIANCE BOND OR CERTIFIED CHECK REQUIRED

A. Promoters shall either submit proof of a surety bond or submit a certified check to the ~~Office of Boxing~~Director in an amount to be determined by the ~~director~~Director before a scheduled event.

i. All bonds must be current and list the office of ~~boxing~~Combative Sports as the obligee.

ii. Bonds and certified checks must be verified and approved by the ~~director~~Director.

iii. Failure to comply may result in the cancellation of the event and disciplinary action.

9.65 INSURANCE REQUIREMENTS

~~A. Promoters are required to provide the director with proof of all insurance coverage at least seven days prior to the scheduled event. Failure to provide timely proof may result in cancellation of the event and/or disciplinary action.~~

A. Promoters are required to provide participants with at least $10,000 of life insurance covering deaths caused by injuries sustained during a bout.

B. Promoters are required to provide participants in each event with at least $10,000 of insurance coverage for medical, surgical, and hospital care as a result of injuries sustained during a bout.

~~C. Promoters are required to provide participants with at least $10,000 of life insurance covering deaths caused by injuries sustained during a bout.~~

C. Promoters are required to provide the ~~director~~Director with proof of ~~all~~the above insurance coverage at least seven days prior to the scheduled event. Failure to provide timely proof may result in cancellation of the event and/or disciplinary action.

9.76 APPROVED ANNOUNCEMENTS

A. Promoters are responsible for ensuring that an announcement is made prior to the start of the main event which includes a statement that the event is regulated by the ~~Colorado State Boxing~~ Commission.

B. Other announcements must be limited to those pertaining to present and future permitted bouts ~~when~~ unless additional information in the announcement is specifically authorized by the ~~director~~Director or chief inspector.

C. Political announcements or references are not allowed under any circumstances.

9.87 SUBSTITUTION ANNOUNCEMENTS

Promoters are required to publicly announce all substitutions for participants advertised for bouts as soon as the substitutions are known. Prior to the announcement of a substitution, the substitute participant must be approved by ~~director~~Director or the chief inspector. If the substitute appears for the bouts and is not used for any reason other than medical disqualification, the substitute will be reimbursed by the promoter a minimum of one hundred dollars for training expenses and transportation. Failing to announce substitutions or pay the required reimbursement may result in disciplinary action against the promoter.

9.98 DELAY OF BOUTS

Promoters are responsible for having participants ready to enter the ring or cage immediately after the conclusion of the preceding bout. Any promoter causing a delay of more than five minutes may be subject to disciplinary action.

9.910 SECURITY AT EVENTS

The promoter is responsible for working with owner or operator of the premises in which the event and weigh-ing ~~in~~ is held to ensure that adequate security is provided for the participants and other persons who are present.

9.9110 REINSTATEMENT OF AN EXPIRED LICENSE

~~The purpose of~~ This rule ~~is to~~ establishes the qualifications and procedures for reinstatement of an expired

license pursuant to § 12-10-106.5, C.R.S. and § 24-34-105, C.R.S.

A. Conditions of Reinstatement: License expired for less than two years

i. An applicant seeking reinstatement of an expired license for less than two years shall complete a reinstatement application and pay a reinstatement fee.

B. Conditions of Reinstatement: License expired two years or more

i. An applicant seeking reinstatement of an expired license for two years or more shall complete a reinstatement application, pays a reinstatement fee and provide proof of a compliance bond in a manner approved by the ~~director~~Director.

An applicant for reinstatement who has actively practiced in Colorado with an expired license in violation of § 12-10-106.5 C.R.S. is subject to denial of application, disciplinary action, and/or other penalties as authorized in the Professional Boxing Safety Act at § 12-10-101 et seq., C.R.S., and in accordance with § 24-34-102 et seq., C.R.S.

9.1~~0~~12 NOTICES FROM PROMOTERS

A. Address and Name Changes

i. Promoters shall inform the ~~director~~Director of any name, address, telephone, or email change within 30 days of the change. The ~~director~~Director will not change a promoter's information without explicit notification in a manner prescribed by the ~~director~~Director.

ii. One of the following forms of documentation is needed to change a name or correct a social security number:

a. Marriage license;
b. Divorce decree;
c. Court order; or
d. A driver's license or social security card with a second form of identification may be acceptable at the discretion of the division of registrations.

9.1~~1~~23 REPORTING CONVICTIONS, JUDGMENTS AND ADMINISTRATIVE PROCEEDINGS

A. Promoters shall notify the Director within 45 days of any of the following events:

i. The conviction of a felony under ~~the laws of~~ any state or ~~of the United States~~federal law, which would be a violation of §12-10-107.1 C.R.S. A guilty verdict, a plea of guilty or a plea of nolo contendere (no contest) accepted by the court is considered a conviction;

ii. A disciplinary action imposed upon the licensee by another jurisdiction that licenses promoters, which would be a violation of § 12-10-107.1, C.R.S., including, but not limited to, a citation, sanction, probation, civil penalty, or a denial, suspension, revocation, or modification of a license whether it is imposed by consent decree, order, or other decision, for any cause other than failure to pay a license fee by the due date;

iii. Revocation or suspension by another state athlete commission, municipality, federal or state agency or any association who oversees boxing, kickboxing, mixed martial arts or martial arts~~boxing, kickboxing or MMA~~;

iv. Any judgment, award or settlement of a civil action or arbitration in which there was a final judgment

or settlement against the licensee.

B. The notice to the ~~director~~Director shall include the following information;

i. If the event is an action by a governmental agency (as described above), the name of the agency, its jurisdiction, the case name, and the docket, proceeding or case number by which the event is designated, and a copy of the consent decree, order or decision;

ii. If the event is a felony conviction, the court, its jurisdiction, the case name, the case number, a description of the matter or a copy of the indictment or charges, and any plea or verdict entered by the court. The licensee shall also provide to the ~~director~~Director a copy of the imposition of sentence related to the felony conviction and the completion of all terms of the sentence with 45 days of such action;

iii. If the event concerns a civil action or arbitration proceeding, the court or arbiter, the jurisdiction, the case name, the case number, a description of the matter or a copy of the complaint, and a copy of the verdict, the court or arbitration decision, or, if settled, the settlement agreement and court's order of dismissal;

C. The licensee notifying the ~~director~~Director may submit a written statement with the notice to be included with the licensee's records.

CHAPTER 10
GUIDELINES FOR CONTRACT, FINANCIAL ARRANGEMENTS AND REPORTING FRAUD

10.1 CONTRACT BETWEEN THE PROMOTERS AND THE PARTICIPANT – WRITING REQUIRED

No professional bout will be approved without a contract with the promoter and the participant. The contracts must contain a minimum of the following:

A. Name and signature of promoter or an authorized designee of the promoter.
B. Name and signature of participant.
C. Name of the opponent.
D. Type of Bout.
E. Date and start time of the event.
F. Date and start time of weigh-in.
G. Location of event and weigh-in.
H. Number of rounds in the bout.
I. Time limit of each round.
J. Maximum and minimum weight allowable.
K. Purse amount (Includes show and win money and ticket amount given).
L. Statement that participant will be present and on time to the weigh-in and the event.
M. Statements that the purse may be held by the commission for violations.
N. Any deducted fees must be listed (this does not include commission permit or license fees.
O. Statement that indicates participants will be paid by the promoter immediately following the event.
P. Statement that indicates a substitute participant will be paid by the promoter if they do not engage in a bout.
Q. Statement whereby the participant acknowledges the inherent risk ~~of engaging~~of engaging in the sport. The participant, agrees to waive any claim that they or the participant's heirs may have against ~~the office of boxing, officials and~~ the State of Colorado, or any of its employees or official representatives as the result of any injury the participant may suffer while engaging in any bout.

10.2 MAXIMUM EFFORT

A participant shall not be fully paid a fee who does not complete the terms of the contract or compete in good faith or maximum effort during the bout as determined by the ~~director~~Director or chief inspector.

10.3 VIOLATION OF CONTRACT

Violation of the terms of a contract by any party may be grounds for disciplinary action.

10.4 GUIDELINES FOR REPORTS OF FRAUD

A. If any person has reason to believe that fraud has occurred, such person ~~may~~ must report the issue to the ~~director~~Director in writing within 10 days of the event, unless otherwise extended by the Director.

B. Any licensee who fails to report to the ~~director~~Director any fraud, violation of the law or rule may be subject to disciplinary action.

C. If a licensee is approached with a request or suggestion that an event not be conducted honestly, that licensee must immediately report the matter to the ~~director~~Director. Failure to do so may be subject to disciplinary action.

D. Any licensee, who directly or indirectly holds, participates in, aids or abets any sham or fake

contest or match may be subject to disciplinary action.

CHAPTER 11
PERSONNEL, FACILITY AND EQUIPMENT REQUIREMENTS

Promoters and others involved in an event have the responsibility to understand and comply with the following rules.

11.1 PERSONNEL REQUIRED DURING BOUTS

A. Physician

i. A bout shall not start or continue unless thean ~~approved~~ physician(s) are actively licensed in Colorado and approved for the event is seated at ring or cage side, and the physician shall not leave until after the decision in a final bout.

ii. Televised bouts may require two physicians so that bouts may continue as one physician attends to a participant in the dressing rooms or in the near proximity.

iii. Physicians shall be prepared to assist if any serious emergency arises, and shall render temporary or emergency treatments for cuts and minor injuries sustained by the participants.

B. Emergency Medical Technician (EMT)

i. Promoters are responsible for ensuring that all bouts have a minimum two EMT's onsite and must ensure that the EMT's have medical equipment that at a minimum contains the following items and is located within twelve feet of the ring or cage:

a. A resuscitator;
b. An oxygen tank properly charged with suitable masks;
c. A stretcher;
d. An airway.

ii. Promoters must arrange for an ambulance to be onsite throughout the entire event and must arrange for and give advance notice to the nearest hospital and persons in charge of its emergency room of such event.

iii. The ~~director~~Director may require additional medical equipment and personnel as appropriate.

C. Security

i. Promoters are responsible for ensuring that public safety is maintained at all events by hiring a minimum of one certified peace officer.
ii. Additional officers may be required as determined by the ~~director~~Director.
iii. Any peace officer hired for this purpose must be Colorado State certified and must be employed by the local agency having jurisdiction in that area.
iv. The decision of whether a uniform is not worn by the peace officer shall be a joint decision of the law enforcement agency and the ~~director~~Director.
v. Failure to comply may result in the cancellation of the event and may result in disciplinary action.

11.2 FACILITY REQUIREMENTS

Promoters are responsible for ensuring that all local laws and fire codes are adhered to where an event occurs. Additionally, promoters are responsible for ensuring that the facility selected for the event and the weigh-in is ~~suitable for all audiences~~a family-friendly environment. Facility selection is subject to the approval of the ~~director~~Director or chief inspector.

A. Dressing Rooms

i. Promoters are responsible for limiting the dressing room area to authorized personnel and shall furnish a person ~~for this purpose~~to enforce this limitation.

ii. Female w~~W~~eigh-in participants may request separate dressing rooms from male participants.

iii. The promoter shall ~~also~~ furnish a private room for officials at the event.

iv. The dressing rooms and immediate area must:

a. Provide privacy for the participants;
b. Be properly lighted;
c. Be clean and free of clutter, trash, etc.;

iii. Food or serving items used by the patrons ~~Ashtrays and plates~~ shall not be made of hard substances that could reasonably cause harm if thrown.

iv. Any objects considered harmful to patrons as determined by ~~director~~Director or chief inspector are prohibited.

C. Ring, ~~and~~ Cage, or Competition Area Safety Zone

A physical barrier surrounding the entire ring, cage, or competition area shall be placed at a minimum nine feet away from the outside edge of the apron or competition area. Anything within this area is the safety zone.

The ~~ring or cage~~ safety zone shall be under the control and jurisdiction of the ~~director~~Director or the chief inspector assigned to supervise the event.

i. The safety zone is to be used for designated working officials, participants, seconds, physicians, announcers, commission members and their guests and media representatives as approved by the ~~director~~Director or chief inspector.

ii. Promoters ~~are responsible for ensuring~~must ensure that the safety zone is controlled and free of nonessential individuals and the only beverage allowed is water.

iii. At no time during the bout may any items be on the ring apron.

iv. The tables next to the ring or cage must be free of any obstructions and shall not be higher than the fighting area platform. All areas surrounding the ring or cage must be suitable and safe as approved by the ~~director~~Director or chief inspector.

~~v. A physical barrier surrounding the entire ring or cage shall be placed at a minimum nine feet away from the outside edge of the apron.~~

v~~i~~. Spectator seats shall be a minimum of ten feet away from the outside edge of the apron.

v~~ii~~. ~~-~~The ring or cage safety zone must be completely set up at least three hours prior to the start of the first bout. This includes properly tightened ropes and all necessary equipment at ring or cage side.

11.3 RING AND CAGE REQUIREMENTS

A. Ring and Cage Size

i. The ring shall be not less than 16 feet nor more than 25 feet square within the ropes. The ring must have three sets of suitable steps. It shall be elevated no less than three and one-half feet nor more than four feet from the floor.

ii. ~~-~~The cage shall be not less than 18 feet nor more than 32 feet square within the fighting area ~~for MMA~~. The cage must have a set of suitable steps for each entrance. It shall be elevated no more than four feet from the floor.

iii. The ring or cage posts shall be made of metal not less than three inches or more than four inches in diameter extending from the floor to the height of 58 inches above the ring floor.

iv. The ring or cage entry onto the fighting area canvas must be sufficient to allow easy access to the fighting area.

B. Ring Ropes and Fencing

i. Four ropes are required for boxing and kickboxing. The lower rope shall be 18 inches above the ring floor, the second rope 30 inches, the third rope 42 inches, and the fourth rope 54 inches above the ring floor. The ropes shall not be less than one inch in diameter and wrapped in soft material, with the corners padded with protective covers.

ii. ~~Five~~ A fifth or bottom rope~~s are~~ is required for MMA bouts in a ring. The bottom rope shall not be more than six inches from the ring floor. The requirements for the top four ropes are the same as for boxing and kickboxing.

iii. The fencing that encloses a cage shall be ~~enclosed and shall be~~ made of materials that will not allow a participant to easily fall out of the space or break through it onto the floor or spectators.

iv. Acceptable materials for ring ropes or fencing include but are not limited to:

a. Vinyl-coated chain link fencing;
b. Metal parts of the enclosure and fighting ~~area shall be~~that are covered and

padded;

c. Any material ~~used shall not be~~that is not abrasive to the participants;

d. Any material that does ~~N~~not obstruct or limit the supervision and regulation of the bout.

v. The ropes shall be connected to the posts with extensions not shorter than 18 inches.

vi. All ring ropes and fencing is subject to the approval of the ~~director~~Director or the chief inspector.

C. Materials for the Ring and Cage Floor

i. Floor.

a. The ring floor shall extend beyond the lower rope no less than 24 inches.

b. The entire floor and apron must be padded with insulate, felt, matting, or a similar material with a thickness of at least one-inch.

c. A canvas or similar material covering, stretched tightly and laced or fastened to the outer edge of the floor shall cover the padding.

d. Boards shall be of sufficient strength to hold the weight and ensure the safety of all who enter the ring.

e. The padding thickness of any material is subject to the approval of the Director.

ii. Prohibited Floor Materials.

a. Vinyl or any plastic rubberized covering.

b. Materials that gather in lumps or ridges.

D. Additional Required Equipment

Promoters are required to provide all equipment and materials necessary to conduct all bouts. ~~Such~~ The equipment must be clean and in good condition. Such required ~~and includes~~equipment includes which are subject examination and approval by a commission representative the following:

ii. Two similar stools;
iii. Water buckets;
iv. Bell;
v. Buzzer or whistle;
vi. Timers;
vii. Gloves;
viii. Head gear;
ix. Foot pads;
x. Shin pads;
xi. Gauze and tape;
xii. Scale~~, subject to examination and approval~~;
xiii. Any other associated material and equipment as determined by the ~~director~~Director.

E. Pairs of Gloves Required for all competing participants.

Promoters are responsible for having ~~equal~~ pairs of gloves on hand ~~as the~~equal to

the number of participants competing. The gloves may be used multiple times during an event. Promoters must be prepared for differing glove sizes.

F. Gloves

All gloves shall be furnished by the promoter and shall be new or in-tact ~~or~~ and in good clean condition without lumps or imperfections. All participants in the main event, championship bouts and bouts of six rounds or more shall use new gloves. The specific glove size for each event shall be as follows:

i. In boxing or kickboxing bouts, the following requirements apply:

a. Participants weighing 147 pounds or less shall use at least eight-ounce gloves.
b. Participants weighing over 147 pounds shall use at least ten-ounce gloves.
c. When two participants differ in weight classes, participants shall use at least ten-ounce gloves.
d. The ~~director~~Director may approve or require glove size increases.

e. Participants in each bout shall wear the same brand gloves. The ~~director~~Director may approve gloves of different brands.

ii. In MMA bouts, the following requirements apply:

a. Gloves must weigh at least four ounces.
b. Gloves weighing over eight ounces must be approved by the ~~director~~Director or the chief inspector.

iii. All gloves will be examined and approved by the ~~director~~Director or the chief inspector any time before, during and after a bout.

iv. If gloves are not approved by the ~~director~~Director or the chief inspector, they will be discarded before the bout starts, and the bout will not proceed until proper gloves are approved.

v. Gloves that are manipulated in such a manner as breaking, skinning, roughing or twisting shall not be approved for use, and such conduct is subject to disciplinary action.

CHAPTER 12
TICKETS AND SALES REPORTING REQUIREMENTS

12.1 ADMISSION TO EVENTS AND TICKETS REQUIRED

A. Every person admitted to an event shall have a ticket or a pass, complimentary or otherwise~~, other than o~~Officials, participants, and seconds do not require a ticket or a pass. Every admission ticket or complimentary ticket or pass must be tracked.

B. The retail price of the tickets shall be printed in large type and displayed prominently above or near all ticket sellers or ticket windows.

C. The promoter shall disclose the retail ticket prices to the ~~director~~Director no later than the time the application for the permit is filed.

D. Tickets of different prices shall be printed in different colors, or state the retail price on the face value of the ticket. Retail ticket prices shall not be changed.

E. The ~~director~~Director shall be provided with all information and materials necessary for an accurate accounting, including the printers' manifest showing the total number of tickets printed and the admission prices of each within seven days of an event.

F. Advance tickets, as well as tickets sold at the time of the event, must be accounted for as part of the gross receipts.

G. The number of tickets sold shall not exceed the actual capacity of the location or facility where the event is to be held.

12.2 OTHER TICKETS AND TICKET LIMIT

~~In addition to t~~The ~~director~~Director, commissioners, chief inspectors, and ~~appropriate members~~designated employees of the Department of Regulatory Agencies shall be admitted without charge to any event over which the ~~commission~~ Commission has jurisdiction. ~~Representatives of the office of boxing~~These individuals may be required to present their state identification

12.3 NOTICE OF CHANGE - TICKET REFUNDS

A. Notice of any change in the announced advertised bouts must be conspicuously posted at the box office and announced prior to the scheduled start of the bouts.

B. Any patrons requesting a refund of the ticket price must present the tickets or the ticket stubs at the box office or to a designated person who is handling the refunds.

C. All returned ticket stubs must be held for an accurate accounting of the gross receipts.

12.4 SURCHARGE

The promoter is responsible for all surcharge matters below:

A. An event surcharge on gross receipts, less applicable taxes, may be assessed on each event. If tickets or passes are priced so that the applicable surcharge results in less than $1.00 per ticket or pass, a surcharge of $1.00 per ticket or pass may be assessed.
B. An additional ~~ticket~~ surcharge may be assessed on each ticket or pass issued to the event as determined by the ~~director of the division of registrations~~Division Director.
C. ~~The maximum event surcharge assessment shall not be limited.~~
D. No later than ten business days after the event, promoters are responsible for filing an accurate surcharge report with the appropriate surcharge payment. Payment shall be in the form of a cashier's check, money order, or other acceptable methods as determined by the ~~director~~Director.
E. The ~~director~~Director has the discretion to verify the surcharge report submitted.
F. Failing to submit an accurate surcharge report and appropriate payment may result in disciplinary action.

CHAPTER 13
REQUIREMENTS FOR ELIMINATION BOUTS

All rules in Chapter 2 and in Chapter 5 ~~where appropriate, also~~ apply to elimination bouts unless otherwise noted in this Chapter.

13.1 ELIGIBILITY

A. A participant is eligible to compete if they have NOT:

i. ~~Been issued a boxers federal identification card; or~~
ii. Been a competitor in professional ~~boxing, kickboxing, MMA bout~~combative sports.

C. ~~B.~~ Promoters ~~may request that~~are required to call to the attention of the Director any concerns. ~~the director~~Director not ~~accept a~~accept a ~~participant due~~participant due to conduct or safety ~~concerns.~~concerns. The Director will determine whether the fighter is fit to continue.

D. Elimination tournament debut participants must be medically cleared by the Director upon consultation with a physician a minimum of three days prior to the event.

13.2 GLOVE SIZE

For all boxing and kickboxing elimination bouts, boxing gloves of at least 12 ounces shall be worn. For all MMA
elimination bouts, gloves of at least four ounces shall be worn.

13.3 EQUIPMENT

A. Boxing
The Promoter shall provide head gear which shall be worn by all participants.
The ~~director~~Director has the sole discretion to waive the headgear requirement on a bout by bout basis. B. Kickboxing
The promoter shall provide headgear, foot pads and shin pads which shall be worn by all participants. The
~~director~~Director has the discretion to limit the amount of equipment required.

13.4 ROUNDS AND TIME LENGTH

A. Elimination boxing and kickboxing bouts shall consist of three, two--minute rounds or three, one--minute rounds with a one--minute rest period between each round.

B. Elimination MMA bouts shall consist of three, three--minute rounds with a one--minute rest period between each round.

13.5 ELIMINATION TOURNAMENT FORMAT

A. Tournaments shall be single elimination events. A participant who has lost a bout may not participate in another bout in the same event.

B. Tournaments may be between only two participants.

13.6 ELIMINATION TOURNAMENT LENGTH

A. Elimination tournaments are a one- ~~-~~day event. Participants may not participate in more than three matches per event.

B. ~~Elimination tournament debut participants must be cleared by the director and a physician a minimum of three days prior to the event.~~

13.7 WEIGHT CATEGORIES

A. There shall be two weight classes for all participants in boxing and kickboxing:

i. Light heavyweight - up to 185 lbs.
ii Heavyweight - over 185 lbs. or more.

B. The ~~director~~Director may create weight classes other than those listed above.

C. There shall be 11 weight categories for all participants in MMA as shown below:

POUNDS	CLASSIFICATION	ALLOWANCE
Above 265	Super Heavyweight	No limit
265	Heavyweight	35 lbs.
230	Cruiserweight	25 lbs.
205	Light Heavyweight	20 lbs.
185	Middleweight	15 lbs.
170	Welterweight	15 lbs.
155	Lightweight	10 lbs.
145	Featherweight	10 lbs.
135	Bantamweight	10 lbs.
125	Flyweight	10 lbs.
Below 124	Minimum Weight	10 lbs.

D. No participant shall engage in a bout where the weight difference exceeds the allowance shown above for MMA. Any greater weight spread requires approval of the ~~director~~Director.

13.8 ELBOW AND KNEE STRIKES PROHIBITED

Elbows strikes of any kind or knee strikes to the head are prohibited in any type of elimination bout. The participant may be disqualified and may be subject to disciplinary action.

CHAPTER 14
REQUIREMENTS FOR OFFICIALS

14.1 OFFICIALS - CONTROL

A. All officials involved in an event shall be under the direct control and supervision of the ~~director~~Director or the chief inspector assigned to supervise the event. The ~~director~~Director has the discretion to determine whether clothes, facial or body adornments (long mustaches, goatees, beards sideburns) and length of hair comply with the professional dress code for officials for that particular event.

B. No official shall in any manner display bias for one participant over the other or against any participant.

C. The official may not consume, or be under the influence of, alcohol, marijuana, ~~or be under the influence of any~~or any controlled substance while acting as an official.

D. Failure to comply may result in disciplinary action and prohibition from officiating future events.

E. Any written complaint made to the ~~director~~Director regarding officiating conduct, ~~performance~~ or officials conduct during and outside of an event, will be evaluated on a case-by-case basis if reported within two weeks after an event or incident.

14.2 MINIMUM QUALIFICATIONS FOR AN OFFICIAL LICENSE

A license is required to serve as an official in a professional combative sport contest. ~~Officials licensed prior to July 1, 2011 are not subject to these requirements. After July 1, 2011,~~ All officials shall submit an application for a license to officiate ~~fight~~ in a manner prescribed by the Director. Incomplete or incorrect applications will not be accepted.

Each applicant for a license shall pay the fee established by the Division Director pursuant to Section 24-34-105, C.R.S. A~~a~~ny person wishing to apply for an official's license must demonstrate the following qualifications in ~~boxing, kickboxing or MMA~~combative sport.

A. Referee Qualifications:

i. Referee experience may be demonstrated by one of the following:

a. Four years of amateur experience as a referee at the highest classification level ~~of accomplishment~~, or

b. One year of professional experience as a referee from a State Athletic Commission, or a Tribal Commission that is a member of the Association of Boxing Commissions.

ii. Other requirements for Referees:

a. Prior to licensure, a referee must attest that they have read and understand the laws and rules covering professional ~~boxing, kickboxing, and MMA~~combative sports in this state.

b. ~~The referee~~The ~~must~~referee ~~have~~must ~~also~~have also read and understand the rules of the various sanctioning bodies.

c. A written test and a physical examination may be required at the discretion of the ~~director~~Director to determine fitness to perform.

B. Judge Qualifications:

i. Judge experience may be demonstrated by one of the following:

a. Three years of amateur experience as a judge at the highest level of accomplishment.
b. One year of professional experience as a judge from a State Athletic Commission or a Tribal Commission that is a member of the Association of Boxing Commissions.

C. Inspector Qualifications:

There are three positions within the inspector category: timekeepers, tally judge and knock down judge.

i. Inspector experience may be demonstrated by one of the following:

a. Three years of amateur experience as an inspector, timekeeper, tally judge or knock down judge.
b. One year of professional experience in any of the positions listed above from a State Athletic Commission or a Tribal Athletic Commission that is a member of the Association of Boxing Commissions, or upon approval of the ~~director~~Director.

14.3 CONDITIONS OF REINSTATEMENT OF AN EXPIRED LICENSE

The purpose of this rule is to establish the qualifications and procedures for reinstatement of an expired official's license pursuant to § 12-10-106.5, C.R.S. and § 24-34-105, C.R.S.

A. Conditions of Reinstatement: License expired less than two years

i. An applicant seeking reinstatement of an expired license for less than two years shall complete a reinstatement application and pay a reinstatement fee.

B. Conditions of Reinstatement: License expired two years or more

i. An applicant seeking reinstatement of an expired license for two years or more shall complete a reinstatement application, pay a reinstatement fee and demonstrate competency for the specific position in a manner approved by the ~~director~~Director.

An applicant for reinstatement who has actively practiced in Colorado with an expired license in violation of § 12-10-106.5 C.R.S., is subject to denial of application, disciplinary action, and/or other penalties as authorized in the Professional Boxing Safety Act at § 12-10-101 et seq., C.R.S., and in accordance with § 24-34-102 et seq., C.R.S.

14.4 NOTICES FROM OFFICIALS

A. Address and Name Changes

i. Officials shall inform the ~~director~~Director of any change in name, address, telephone, email, or financial institution that may affect timely payments within 30 days of the change. The ~~director~~Director will not change information without explicit notification in a manner prescribed by the ~~director~~Director.

ii. One of the following forms of documentation is needed to change a name or correct a social security number:

a. marriage license;
b. divorce decree;
c. court order; or
d. a driver's license or social security card with a second form of identification may be acceptable at the discretion of the division of registrations.

14.5 REPORTING CONVICTIONS, JUDGMENTS AND ADMINISTRATIVE PROCEEDINGS

A. Officials shall notify the ~~director~~Director within 45 days of any of the following events:

i. The conviction of a felony under ~~the laws of~~ any state or ~~of the United States~~federal law, which would be a violation of §12-10-107.1 C.R.S. A guilty verdict, a plea of guilty or a plea of nolo contendere (no contest) accepted by the court is considered a conviction;

ii. A disciplinary action imposed upon the licensee by another jurisdiction that licenses officials, which would be a violation of § 12-10-107.1, C.R.S., including, but not limited to, a citation, sanction, probation, civil penalty, or a denial, suspension, revocation, or modification of a license whether it is imposed by consent decree, order, or other decision, for any cause other than failure to pay a license fee by the due date;

iii. Revocation or suspension by another state athlete commission, municipality, federal or state agency or any association who oversees boxing, kickboxing, mixed martial arts or martial arts~~boxing, kickboxing or MMA~~;

iv. Any judgment, award or settlement of a civil action or arbitration in which there was a final judgment or settlement against the licensee.

B. The notice to the ~~director~~Director shall include the following information;

i. If the event is an action by a governmental agency (as described above), the name of the agency, its jurisdiction, the case name, and the docket, proceeding or case number by which the event is designated, and a copy of the consent decree, order or decision;

ii. If the event is a felony conviction, the court, its jurisdiction, the case name, the case number, a description of the matter or a copy of the indictment or charges, and any plea or verdict entered by the court. The licensee shall also provide to the ~~director~~Director a copy of the imposition of sentence related to the felony conviction and the completion of all terms of the sentence with 45 days of such action;

iii. If the event concerns a civil action or arbitration proceeding, the court or arbiter, the jurisdiction, the case name, the case number, a description of the matter or a copy of the complaint, and a copy of the verdict, the court or arbitration decision, or, if settled, the settlement agreement and court's order of dismissal;

C. The licensee notifying the ~~director~~Director may submit a written statement with the notice to be included with the licensee's records.

14.6 CONFLICT OF INTEREST

A. Officials may not act in any other capacity during an event, unless given permission by the ~~director~~Director.

B. Officials shall be excluded from officiating in any bout involving participants with whom they have worked as manager, trainer, etc.

C. Officials shall notify the ~~director~~Director or chief inspector immediately of any ~~such~~ conflict or potential conflict.

14.7 CHIEF INSPECTOR DEFINITION AND DUTIES

A. A chief inspector is a licensed official who is authorized by the ~~director~~Director to supervise an event on behalf of the office of ~~boxing~~Combative Sports.

B. The ~~director~~Director shall set the amount of compensation the official will receive for each supervised event.

C. The chief inspector must ensure that the laws and rules are properly applied and enforced.

D. Chief inspectors must report to the ~~director~~Director any violations of the law or rule that occur during an event within 24 ~~hours..~~hours.

14.8 REFEREE ENFORCEMENT

A. The referee is charged with the enforcement of all office of ~~boxing~~Combative Sports rules which apply to the execution of performance and the conduct of participants' seconds while in the ring.

B. Referees shall not wear glasses of any kind while refereeing a bout.

14.9 REFEREE DUTIES

A. Before the start of each bout, the referee will check each judge and the timekeeper to determine if they are prepared to start the bout.

B. The referee is responsible for determining who will act ~~as the~~as the chief second in each corner and shall hold them responsible for all conduct in the corners.

C. The referee in their discretion shall warn the seconds of rule violations, and if they do not comply, the referee shall warn them that further violations will result in point deductions, disqualification of their participant, and subject to disciplinary action.

D. The referee shall instruct the judges to mark their scorecards accurately at all times.

E. The referee shall ensure that a bout moves to its proper conclusion. It should not be stopped or delayed, except in cases of damaging fouls or health and safety concerns.

F. The referee shall penalize participants who delay or use avoiding tactics by deducting points or by immediate disqualification.

G. At the conclusion of all bouts and upon the announcement of the winner, the referee shall raise the winner's hand.

14.10 APPROVAL AND PAYMENT

The ~~director~~Director shall select the referee for each bout and the decision shall be final. The amount of money paid to the ~~referee shall~~referee shall be fixed by the ~~director~~Director. Depending on the bout, a referee may be paid by the promoter or sanctioning organization.

14.11 SOLE ARBITER

A. The referee is the sole arbiter of a bout and is the only individual authorized to stop a bout.

B. Referees shall stop a bout when they deem the following:

i. The physical condition of a participant so requires,
ii. When a participant is out-classed;
iii. A participant is not demonstrating their best efforts.

C. In the event of serious cuts, the referee may seek a recommendation from the physician whether the bout should be stopped.

14.12 FORFEITURE AND WITHHOLDING OF A PARTICIPANT'S PURSE

The referee shall recommend to the ~~director~~Director or chief inspector, the forfeiture or the withholding of half of a participant's purse whenever a participant fails to perform in good faith or maximum effort when competing.

14.13 GLOVE INSPECTION

A. The referee shall inspect the gloves of the participants in all events and make sure that no foreign substances have been applied to the gloves or bodies of the participants that might be detrimental to an opponent.

B. Whenever the gloves of a boxing or kickboxing participant touches the canvas floor, the referee shall inspect the gloves and wipe them clean before the bout proceeds.

14.14 LOSS OF BODILY FUNCTION

If a participant, during a round, visibly loses control of a bodily function (vomit, urine, bowels), the bout shall be stopped by the referee, and the participant shall lose the contest by TKO. In the event a loss of control of a bodily function occurs in the rest period between rounds, the ringside physician shall be called in to evaluate if the combatant can continue. If the participant is not cleared by the ringside physician to continue, that participant shall lose by TKO by TKO. In these situations, the result shall be recorded as TKO due to Medical Stoppage.

14.1~~5~~4 KNOCKDOWN COUNTS

A. When a participant is knocked down as a result of a punch in a boxing bout or a legal kick or punch in a kickboxing bout, the referee shall order the opponent to a neutral corner and may pick up the count from the timekeeper.

B. The referee shall audibly announce the passing of the count. The participant may take the eight count either on the floor or standing. The referee's count is the official count.

C. Should the opponent fail to stay in the neutral corner, the referee shall cease the count until the participant returns to the corner, then the referee shall continue with the count from the point at which the count was interrupted.

D. The eight count is mandatory for a knockdown in a boxing and kickboxing bout and a participant may not resume fighting until the referee has finished counting to eight.

E. During any count, the opponent shall go to the farthest neutral corner and remain in that neutral corner until signaled by the referee.

14.165 FALLEN PARTICIPANT WHO RISES AND FALLS AGAIN WITHOUT BEING HIT AGAIN

A. When a fallen participant rises and falls again, without being hit again, in a boxing or kickboxing bout the referee shall continue the original count, rather than starting a new count.

B. If the bell rings ending the round during the count, the count shall continue.

14.176 COUNT OF TEN - INDICATION OF KNOCKOUT

If the referee calls the count of ten during a knockdown in a boxing or kickboxing bout or the referee determines that a participant is not able to continue, the referee shall wave both arms to indicate a knockout.

14.187 PARTICIPANTS DOWN AT THE SAME TIME

If both participants are considered down at the same time in a boxing or kickboxing bout, the count shall continue as long as one of them is still down. If both participants remain down until the count of ten, the bout shall be stopped and the result shall be a technical draw.

14.198 ASSESSING FOULS

A. The referee must weigh the cause as well as the act in assessing fouls.

B. When a foul is unintentionally inflicted, but intentionally received, it is applied to the deliberate recipient.

C. If a participant receives a low blow as determined by the referee, the referee may use their discretion to permit a rest period for the recipient. Such period shall not exceed five minutes. During the rest period, seconds or may not assist or coach either participant.

D. The offending participant shall go to a neutral corner.

E. The referee will give a warning for a low blow to the offending participant if the participant who received the low blow indicates they are ready to continue the bout.

D. The referee will give the command to continue after the end of the rest period. If the offended participant refuses to continue after the rest period, their opponent may be named the winner.

14.19 20 LOW BLOWS - RECIPIENT NAMED WINNER

A participant cannot be named the winner of a bout as a result of receiving a low blow unless the referee determines the blow was delivered deliberately and was of such force to seriously incapacitate the offended participant so that they could not continue to compete. Under this condition, the offender shall be disqualified immediately.

14.210 DELIBERATE ACTIONS TO GAIN ADVANTAGE – PENALTIES

A. The referee shall warn or penalize participants who use the ropes or deliberately dislodge their

mouthpiece or use other unfair tactics to gain an advantage.

B. The referee shall not permit unfair tactics that may cause injuries to participants.

C. In a boxing bout, the only fair blow is a blow delivered with the padded knuckle part of the glove on the front or sides of the head and body above the hip line.

14.2221 JUDGE APPROVAL

The ~~director~~Director shall select the judges for each bout and the decision shall be final. The amount of money paid the judges for services rendered shall be fixed by the ~~director~~Director. Depending on the bout, a judge may be paid by the promoter or sanctioning organization.

14.232 JUDGE DUTIES

A. Judges are responsible to familiarize themselves with and review the method to be used when scoring bouts which may vary by sport.

B. The bouts shall be scored to determine the winner ~~through the use of~~with the ten-point must system. In this system, the winner of each round receives ten points and the opponent a proportionately lower number. If the round is even, each participant receives ten points.

C. Scorecards are provided by the ~~director~~Director and only those shall be used.

D. Each judge shall accurately complete their scorecard and in accordance with the provisions of the rules governing the sport they are judging.

E. ~~-~~At the end of each round the scorecard shall be totaled and signed by each judge.

14.243 NUMBER OF JUDGES

All bouts will be evaluated and scored by three judges.

14.254 JUDGE POSITION

The judges shall sit alone at ring or cage side and will reach their own decision without conferring in any manner with any other official or person

14.265 REMOVAL OF JUDGES

Judges of bouts will be under the control and jurisdiction of the office of ~~boxing~~Combative Sports. The ~~director~~Director or chief inspector reserves the right to remove a judge, if, the judge is inefficient or is otherwise unable to act as a judge.

14.276 INSPECTOR PERFORMING TIMEKEEPER DUTIES

The timekeeper is responsible for keeping accurate time of all bouts. The timekeeper shall keep an exact record of the time taken out at the request of the referee for the examination of a participant by the physician, replacing a glove, or adjusting equipment during a round, and report the exact time of the bout being stopped. The timekeeper shall use an audible device to indicate the conclusion of every round.

~~CHAPTER 15~~
~~DECLARATORY ORDERS~~

~~The purpose of this rule is to establish procedures for the handling of requests for declaratory orders filed pursuant to the Colorado Administrative Procedures Act at § 24-4-105(11), C.R.S.~~

~~A. Any person or entity may petition the commission for a declaratory order to terminate controversies or remove uncertainties as to the applicability of any statutory provision or of any rule or order of the Commission.~~

~~B. The commission will determine, at its discretion and without notice to petitioner, whether to rule upon any such petition. If the Commission determines that it will not rule upon such a petition, the commission shall promptly~~

notify the petitioner of its action and state the reasons for such decision.

C. In determining whether to rule upon a petition filed pursuant to this rule, the commission will consider the following matters, among others:

1. Whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to petitioner of any statutory provisions or rule or order of the commission.

2. Whether the petition involves any subject, question or issue that is the subject of a formal or informal matter or investigation currently pending before the commission or a court involving one or more petitioners.

3. Whether

the petition involves any subject, question or issue that is the subject of a formal or informal matter or investigation currently pending before the commission or a court but not involving any petitioner.

4. Whether the petition seeks a ruling on a moot or hypothetical question or will result in an advisory ruling or opinion.

5. Whether the petitioner has some other adequate legal remedy, other than an action for declaratory relief pursuant to the Colorado Rules of Civil Procedure 57, which will terminate the controversy or remove any uncertainty as to the applicability to the petitioner of the statute, rule or order in question.

D. Any petition filed pursuant to this rule shall set forth the

following:

1. The name and address of the petitioner and whether the petitioner is licensed pursuant to Title 12, Article 10.

2. The statute, rule or order to which the petition relates.

3. A concise statement of all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule, or order in question applies or potentially applies to the petitioner.

E. If the commission determines that it will rule on the petition, the following procedures shall apply:

1. The commission may rule upon the petition based solely upon the facts presented in the petition. In

~~such a case:~~

~~a. Any ruling of the commission will apply only to the extent of the facts presented in the petition and any amendment to the petition.~~

b. The commission may order the petitioner to file a written brief, memorandum or statement of position.

c. The commission may set the petition, upon due notice to petitioner, for a non-evidentiary hearing.

d. The commission may request the petitioner to submit additional facts in writing. In such event, such additional facts will be considered as an amendment to the petition.

e. The commission may take administrative notice of facts pursuant to the Administrative Procedure Act at § 24-4-105(8), C.R.S., and may utilize its experience, technical competence, and specialized knowledge in the disposition of the petition.

2. If the commission rules upon the

petition without a hearing, it shall promptly notify the petitioner of its decision.

3. The commission may, at its discretion, set the petition for hearing, upon due notice to petitioner, for the purpose of obtaining additional facts or information or to determine the truth of any facts set forth in the petition or to hear oral argument on the petition. The notice to the petitioner shall set forth, to the extent known, the factual or other matters into which the commission intends to inquire.

For the purpose of such a hearing, to the extent necessary, the petitioner shall have the burden of proving all the facts stated in the petition; all of the facts necessary to show the nature of the controversy or uncertainty; and the manner in which the statute, rule, or

order in question applies or potentially applies to the petitioner and any other facts the petitioner desires the commission to consider.

F. The parties to any proceeding pursuant to this rule shall be the commission and the petitioner. Any other person including the directorDirector may seek leave of the commission to intervene in such a proceeding, and leave to intervene will be granted at the sole discretion of the commission. A petition to intervene shall set forth the same matters as are required by Section D of this Rule. Any reference to a "petitioner" in this Rule also refers to any person who has been granted leave to intervene by the commission.

G. Any declaratory order or other order disposing of a petition

~~pursuant to this Rule shall constitute agency action subject to judicial review pursuant to the Colorado Administrative Procedures Act at § 24-4-106, C.R.S.~~

THE WORLD ANTI-DOPING CODE

INTERNATIONAL STANDARD

PROHIBITED LIST

JANUARY 2018

WORLD ANTI-DOPING AGENCY

play true

The official text of the *Prohibited List* shall be maintained by *WADA* and shall be published in English and French. In the event of any conflict between the English and French versions, the English version shall prevail.

This List shall come into effect on 1 January 2018

SUBSTANCES & METHODS
PROHIBITED AT ALL TIMES
(IN- AND OUT-OF-COMPETITION)

IN ACCORDANCE WITH ARTICLE 4.2.2 OF THE WORLD ANTI-DOPING CODE, ALL *PROHIBITED SUBSTANCES* SHALL BE CONSIDERED AS *"SPECIFIED SUBSTANCES"* EXCEPT SUBSTANCES IN CLASSES S1, S2, S4.4, S4.5, S6.A, AND *PROHIBITED METHODS* M1, M2 AND M3.

PROHIBITED SUBSTANCES

S0 NON-APPROVED SUBSTANCES

Any pharmacological substance which is not addressed by any of the subsequent sections of the *List* and with no current approval by any governmental regulatory health authority for human therapeutic use (e.g. drugs under pre-clinical or clinical development or discontinued, designer drugs, substances approved only for veterinary use) is prohibited at all times.

S1 ANABOLIC AGENTS

Anabolic agents are prohibited.

1. ANABOLIC ANDROGENIC STEROIDS (AAS)

a. Exogenous* AAS, including:

1-Androstenediol (5α-androst-1-ene-3β,17β-diol);
1-Androstenedione (5α-androst-1-ene-3,17-dione);
1-Androsterone (3α-hydroxy-5α-androst-1-ene-17-one);
1-Testosterone (17β-hydroxy-5α-androst-1-en-3-one);
4-Hydroxytestosterone (4,17β-dihydroxyandrost-4-en-3-one);
Bolandiol (estr-4-ene-3β,17β-diol);
Bolasterone;
Calusterone;
Clostebol;
Danazol ([1,2]oxazolo[4',5':2,3]pregna-4-en-20-yn-17α-ol);
Dehydrochlormethyltestosterone (4-chloro-17β-hydroxy-17α-methylandrosta-1,4-dien-3-one);
Desoxymethyltestosterone (17α-methyl-5α-androst-2-en-17β-ol);
Drostanolone;
Ethylestrenol (19-norpregna-4-en-17α-ol);
Fluoxymesterone;
Formebolone;
Furazabol (17α-methyl [1,2,5]oxadiazolo[3',4':2,3]-5α-androstan-17β-ol);
Gestrinone;
Mestanolone;
Mesterolone;
Metandienone (17β-hydroxy-17α-methylandrosta-1,4-dien-3-one);
Metenolone;
Methandriol;
Methasterone (17β-hydroxy-2α,17α-dimethyl-5α-androstan-3-one);
Methyldienolone (17β-hydroxy-17α-methylestra-4,9-dien-3-one);
Methyl-1-testosterone (17β-hydroxy-17α-methyl-5α-androst-1-en-3-one);
Methylnortestosterone (17β-hydroxy-17α-methylestr-4-en-3-one);
Methyltestosterone;
Metribolone (methyltrienolone, 17β-hydroxy-17α-methylestra-4,9,11-trien-3-one);
Mibolerone;
Norboletone;
Norclostebol;
Norethandrolone;
Oxabolone;
Oxandrolone;
Oxymesterone;
Oxymetholone;
Prostanozol (17β-[(tetrahydropyran-2-yl)oxy]-1'H-pyrazolo[3,4:2,3]-5α-androstane);
Quinbolone;
Stanozolol;
Stenbolone;
Tetrahydrogestrinone (17-hydroxy-18a-homo-19-nor-17α-pregna-4,9,11-trien-3-one);
Trenbolone (17β-hydroxyestr-4,9,11-trien-3-one);

and other substances with a similar chemical structure or similar biological effect(s).

b. Endogenous AAS when administered exogenously:**

19-Norandrostenediol (estr-4-ene-3,17-diol);
19-Norandrostenedione (estr-4-ene-3,17-dione);
Androstanolone (5α-dihydrotestosterone, 17β-hydroxy-5α-androstan-3-one);
Androstenediol (androst-5-ene-3β,17β-diol);
Androstenedione (androst-4-ene-3,17-dione);
Boldenone;
Boldione (androsta-1,4-diene-3,17-dione);
Nandrolone (19-nortestosterone);
Prasterone (dehydroepiandrosterone, DHEA, 3β-hydroxyandrost-5-en-17-one);
Testosterone;

and their metabolites and isomers, including but not limited to:

3β-Hydroxy-5α-androstan-17-one;
5α-Androst-2-ene-17-one;
5α-Androstane-3α,17α-diol;
5α-Androstane-3α,17β-diol;
5α-Androstane-3β,17α-diol;
5α-Androstane-3β,17β-diol;
5β-Androstane-3α,17β-diol;
7α-Hydroxy-DHEA;
7β-Hydroxy-DHEA;
4-Androstenediol (androst-4-ene-3β, 17β-diol);
5-Androstenedione (androst-5-ene-3,17-dione);
7-Keto-DHEA;
19-Norandrosterone;
19-Noretiocholanolone;
Androst-4-ene-3α,17α-diol;
Androst-4-ene-3α,17β-diol;
Androst-4-ene-3β,17α-diol;
Androst-5-ene-3α,17α-diol;
Androst-5-ene-3α,17β-diol;
Androst-5-ene-3β,17α-diol;
Androsterone;
Epi-dihydrotestosterone;
Epitestosterone;
Etiocholanolone.

2. OTHER ANABOLIC AGENTS

Including, but not limited to:
Clenbuterol, selective androgen receptor modulators (SARMs, e.g. andarine, LGD-4033, ostarine and RAD140), tibolone, zeranol and zilpaterol.

For purposes of this section:
* "exogenous" refers to a substance which is not ordinarily produced by the body naturally.
** "endogenous" refers to a substance which is ordinarily produced by the body naturally.

S2 PEPTIDE HORMONES, GROWTH FACTORS, RELATED SUBSTANCES, AND MIMETICS

The following substances, and other substances with similar chemical structure or similar biological effect(s), are prohibited:

1. Erythropoietins (EPO) and agents affecting erythropoiesis, including, but not limited to:

1.1 Erythropoietin-Receptor Agonists, e.g.
Darbepoetins (dEPO);
Erythropoietins (EPO);
EPO based constructs [EPO-Fc, methoxy polyethylene glycol-epoetin beta (CERA)];
EPO-mimetic agents and their constructs (e.g. CNTO-530, peginesatide).

1.2 Hypoxia-inducible factor (HIF) activating agents, e.g.
Argon;
Cobalt;
Molidustat;
Roxadustat (FG-4592);
Xenon.

1.3 GATA inhibitors, e.g.
K-11706.

1.4 TGF-beta (TGF-β) inhibitors, e.g.
Luspatercept;
Sotatercept.

1.5 Innate repair receptor agonists, e.g.
Asialo EPO;
Carbamylated EPO (CEPO).

2. Peptide Hormones and Hormone Modulators,

2.1 Chorionic Gonadotrophin (CG) and Luteinizing Hormone (LH) and their releasing factors, e.g. Buserelin, deslorelin, gonadorelin, goserelin, leuprorelin, nafarelin and triptorelin, in males;

2.2 Corticotrophins and their releasing factors, e.g. Corticorelin;

2.3 Growth Hormone (GH), its fragments and releasing factors, including, but not limited to:
Growth Hormone fragments, e.g.
AOD-9604 and hGH 176-191;
Growth Hormone Releasing Hormone (GHRH) and its analogues, e.g.
CJC-1293, CJC-1295, sermorelin and tesamorelin;
Growth Hormone Secretagogues (GHS), e.g.
ghrelin and ghrelin mimetics, e.g.
anamorelin, ipamorelin and tabimorelin;
GH-Releasing Peptides (GHRPs), e.g.
alexamorelin, GHRP-1, GHRP-2 (pralmorelin), GHRP-3, GHRP-4, GHRP-5, GHRP-6, and hexarelin.

3. Growth Factors and Growth Factor Modulators, including, but not limited to:
Fibroblast Growth Factors (FGFs);
Hepatocyte Growth Factor (HGF);
Insulin-like Growth Factor-1 (IGF-1) and its analogues;
Mechano Growth Factors (MGFs);
Platelet-Derived Growth Factor (PDGF);
Thymosin-β4 and its derivatives e.g. TB-500;
Vascular-Endothelial Growth Factor (VEGF).

Additional growth factors or growth factor modulators affecting muscle, tendon or ligament protein synthesis/degradation, vascularisation, energy utilization, regenerative capacity or fibre type switching.

S3 BETA-2 AGONISTS

All selective and non-selective beta-2 agonists, including all optical isomers, are prohibited.
Including, but not limited to:
Fenoterol;
Formoterol;
Higenamine;
Indacaterol;
Olodaterol;
Procaterol;
Reproterol;
Salbutamol;
Salmeterol;
Terbutaline;
Tulobuterol;
Vilanterol.

Except:

- Inhaled salbutamol: maximum 1600 micrograms over 24 hours in divided doses not to exceed 800 micrograms over 12 hours starting from any dose;
- Inhaled formoterol: maximum delivered dose of 54 micrograms over 24 hours;
- Inhaled salmeterol: maximum 200 micrograms over 24 hours.

The presence in urine of salbutamol in excess of 1000 ng/mL or formoterol in excess of 40 ng/mL is not consistent with therapeutic use of the substance and will be considered as an *Adverse Analytical Finding* (*AAF*) unless the *Athlete* proves, through a controlled pharmacokinetic study, that the abnormal result was the consequence of a therapeutic dose (by inhalation) up to the maximum dose indicated above.

S4 HORMONE AND METABOLIC MODULATORS

The following hormone and metabolic modulators are prohibited:

1. Aromatase inhibitors including, but not limited to:
4-Aandrostene-3,6,17 trione (6-oxo);
Aminoglutethimide;
Anastrozole;
Androsta-1,4,6-triene-3,17-dione (androstatrienedione);

Androsta-3,5-diene-7,17-dione (arimistane);
Exemestane;
Formestane;
Letrozole;
Testolactone.

2. Selective estrogen receptor modulators (SERMs) including, but not limited to:
Raloxifene;
Tamoxifen;
Toremifene.

3. Other anti-estrogenic substances including, but not limited to:
Clomifene;
Cyclofenil;
Fulvestrant.

4. Agents modifying myostatin function(s) including, but not limited, to: myostatin inhibitors.

5. Metabolic modulators:
5.1 Activators of the AMP-activated protein kinase (AMPK), e.g. AICAR, SR9009; and Peroxisome Proliferator Activated Receptor δ (PPARδ) agonists, e.g. 2-(2-methyl-4-((4-methyl-2-(4-(trifluoromethyl) phenyl)thiazol-5-yl)methylthio)phenoxy) acetic acid (GW1516, GW501516);
5.2 Insulins and insulin-mimetics;
5.3 Meldonium;
5.4 Trimetazidine.

S5 DIURETICS AND MASKING AGENTS

The following diuretics and masking agents are prohibited, as are other substances with a similar chemical structure or similar biological effect(s).

Including, but not limited to:

- Desmopressin; probenecid; plasma expanders, e.g. intravenous administration of albumin, dextran, hydroxyethyl starch and mannitol.
- Acetazolamide; amiloride; bumetanide; canrenone; chlortalidone; etacrynic acid; furosemide; indapamide; metolazone; spironolactone; thiazides, e.g. bendroflumethiazide, chlorothiazide and hydrochlorothiazide; triamterene and vaptans, e.g. tolvaptan.

Except:

- Drospirenone; pamabrom; and ophthalmic use of carbonic anhydrase inhibitors (e.g. dorzolamide, brinzolamide);
- Local administration of felypressin in dental anaesthesia.

The detection in an *Athlete's Sample* at all times or *In-Competition*, as applicable, of any quantity of the following substances subject to threshold limits: formoterol, salbutamol, cathine, ephedrine, methylephedrine and pseudoephedrine, in conjunction with a diuretic or masking agent, will be considered as an *Adverse Analytical Finding (AAF)* unless the *Athlete* has an approved *Therapeutic Use Exemption (TUE)* for that substance in addition to the one granted for the diuretic or masking agent.

PROHIBITED METHODS

M1 MANIPULATION OF BLOOD AND BLOOD COMPONENTS

The following are prohibited:

1. The *Administration* or reintroduction of any quantity of autologous, allogenic (homologous) or heterologous blood, or red blood cell products of any origin into the circulatory system.

2. Artificially enhancing the uptake, transport or delivery of oxygen.
   Including, but not limited to:
   Perfluorochemicals; efaproxiral (RSR13) and modified haemoglobin products, e.g. haemoglobin-based blood substitutes and microencapsulated haemoglobin products, excluding supplemental oxygen by inhalation.

3. Any form of intravascular manipulation of the blood or blood components by physical or chemical means.

M2 CHEMICAL AND PHYSICAL MANIPULATION

The following are prohibited:

1. *Tampering*, or *Attempting to Tamper*, to alter the integrity and validity of *Samples* collected during *Doping Control*.
   Including, but not limited to:
   Urine substitution and/or adulteration, e.g. proteases.

2. Intravenous infusions and/or injections of more than a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations.

M3 GENE DOPING

The following, with the potential to enhance sport performance, are prohibited:

1. The use of polymers of nucleic acids or nucleic acid analogues.

2. The use of gene editing agents designed to alter genome sequences and/or the transcriptional or epigenetic regulation of gene expression.

3. The use of normal or genetically modified cells.

SUBSTANCES & METHODS
PROHIBITED *IN-COMPETITION*

IN ADDITION TO THE CATEGORIES S0 TO S5 AND M1 TO M3 DEFINED ABOVE, THE FOLLOWING CATEGORIES ARE PROHIBITED *IN-COMPETITION*:

PROHIBITED SUBSTANCES

S6 STIMULANTS

All stimulants, including all optical isomers, e.g. *d*- and *l*- where relevant, are prohibited.

Stimulants include:

a: Non-Specified Stimulants:

Adrafinil;
Amfepramone;
Amfetamine;
Amfetaminil;
Amiphenazole;
Benfluorex;
Benzylpiperazine;
Bromantan;
Clobenzorex;
Cocaine;
Cropropamide;
Crotetamide;
Fencamine;
Fenetylline;
Fenfluramine;
Fenproporex;
Fonturacetam [4-phenylpiracetam (carphedon)];
Furfenorex;
Lisdexamfetamine;
Mefenorex;
Mephentermine;
Mesocarb;
Metamfetamine(*d*-);
p-methylamphetamine;
Modafinil;
Norfenfluramine;
Phendimetrazine;
Phentermine;
Prenylamine;
Prolintane.

A stimulant not expressly listed in this section is a *Specified Substance*.

b: Specified Stimulants.

Including, but not limited to:

1,3-Dimethylbutylamine;
4-Methylhexan-2-amine (methylhexaneamine);
Benzfetamine;
Cathine**;
Cathinone and its analogues, e.g. mephedrone, methedrone, and α - pyrrolidinovalerophenone;
Dimethylamphetamine;
Ephedrine***;
Epinephrine**** (adrenaline);
Etamivan;
Etilamfetamine;
Etilefrine;
Famprofazone;
Fenbutrazate;
Fencamfamin;
Heptaminol;
Hydroxyamfetamine (parahydroxyamphetamine);
Isometheptene;
Levmetamfetamine;
Meclofenoxate;
Methylenedioxymethamphetamine;
Methylephedrine***;
Methylphenidate;
Nikethamide;
Norfenefrine;
Octopamine;
Oxilofrine (methylsynephrine);
Pemoline;
Pentetrazol;
Phenethylamine and its derivatives;
Phenmetrazine;
Phenpromethamine;
Propylhexedrine;
Pseudoephedrine*****;

Selegiline;
Sibutramine;
Strychnine;
Tenamfetamine (methylenedioxyamphetamine);
Tuaminoheptane;

and other substances with a similar chemical structure or similar biological effect(s).

Except:

- Clonidine;
- Imidazole derivatives for topical/ophthalmic use and those stimulants included in the 2018 Monitoring Program*.

* Bupropion, caffeine, nicotine, phenylephrine, phenylpropanolamine, pipradrol, and synephrine: These substances are included in the 2018 Monitoring Program, and are not considered *Prohibited Substances*.

** Cathine: Prohibited when its concentration in urine is greater than 5 micrograms per milliliter.

*** Ephedrine and methylephedrine: Prohibited when the concentration of either in urine is greater than 10 micrograms per milliliter.

**** Epinephrine (adrenaline): Not prohibited in local administration, e.g. nasal, ophthalmologic, or co-administration with local anaesthetic agents.

***** Pseudoephedrine: Prohibited when its concentration in urine is greater than 150 micrograms per milliliter.

S7 NARCOTICS

The following narcotics are prohibited:

Buprenorphine;
Dextromoramide;
Diamorphine (heroin);
Fentanyl and its derivatives;
Hydromorphone;
Methadone;
Morphine;
Nicomorphine;
Oxycodone;
Oxymorphone;
Pentazocine;
Pethidine.

S8 CANNABINOIDS

The following cannabinoids are prohibited:

- Natural cannabinoids, e.g. cannabis, hashish and marijuana,
- Synthetic cannabinoids e.g. Δ9-tetrahydrocannabinol (THC) and other cannabimimetics.

Except:

- Cannabidiol.

S9 GLUCOCORTICOIDS

All glucocorticoids are prohibited when administered by oral, intravenous, intramuscular or rectal routes.

Including but not limited to:

Betamethasone;
Budesonide;
Cortisone;
Deflazacort;
Dexamethasone;
Fluticasone;
Hydrocortisone;
Methylprednisolone;
Prednisolone;
Prednisone;
Triamcinolone.

SUBSTANCES PROHIBITED IN PARTICULAR SPORTS

P1 BETA-BLOCKERS

Beta-blockers are prohibited *In-Competition* only, in the following sports, and also prohibited *Out-of-Competition* where indicated.

- Archery (WA)*
- Automobile (FIA)
- Billiards (all disciplines) (WCBS)
- Darts (WDF)
- Golf (IGF)
- Shooting (ISSF, IPC)*
- Skiing/Snowboarding (FIS) in ski jumping, freestyle aerials/halfpipe and snowboard halfpipe/big air
- Underwater sports (CMAS) in constant-weight apnoea with or without fins, dynamic apnoea with and without fins, free immersion apnoea, Jump Blue apnoea, spearfishing, static apnoea, target shooting, and variable weight apnoea.

*Also prohibited *Out-of-Competition*

Including, but not limited to:

Acebutolol;
Alprenolol;
Atenolol;
Betaxolol;
Bisoprolol;
Bunolol;
Carteolol;
Carvedilol;
Celiprolol;
Esmolol;
Labetalol;
Levobunolol;
Metipranolol;
Metoprolol;
Nadolol;
Oxprenolol;
Pindolol;
Propranolol;
Sotalol;
Timolol.

5 CCR 1005-2

Rule title

TESTING FOR ALCOHOL AND OTHER DRUGS

Rulemaking Hearing

Date

01/17/2018

Time

10:00 AM

Location

Sabin-Cleere Conference Room, Building A, 1st Floor, 4300 Cherry Creek Drive South, Denver, CO 80246

Subjects and issues involved

The Department has reviewed 5 CCR 1005-2, Testing for Alcohol and Other Drugs, in compliance with Executive Order D 2012-002 and the State Administrative Procedure Act, 24-4-103.3, C.R.S. At this time, the Department is proposing the changes necessary to implement HB 14-1340. HB 14-1340 allows specific certifications requirements to be waived for laboratories that are accredited. The revisions streamline existing requirements, and reduce the regulatory burden placed on accredited forensic toxicology laboratories while maintaining the appropriate level of regulatory oversight.

COLORADO
Department of Public Health & Environment

Dedicated to protecting and improving the health and environment of the people of Colorado

To: Members of the State Board of Health

From: Jeff Groff, Certification Program Manager, Laboratory Services Division

Through: Dana Erpelding, Laboratory Services Division Director DE

Date: November 1, 2017

Subject: **Request for Rulemaking Hearing**
Proposed Amendments to 5CCR 1005-2 State Board of Health Rules Pertaining to the Testing for Alcohol and Other Drugs with a request for a rulemaking hearing to be set for January 2018.

Colorado statute directs the Colorado Department of Public Health and Environment ("Department") to: regulate the methods of testing a person's alcohol or drug level; certify the design and operation of devices for testing a person's blood, breath, saliva, or urine to determine such person's alcohol or drug level, and; certify the contents, sterility, chemical makeup, and amounts of chemicals contained in the kits used to obtain blood, urine, saliva, or breath specimens. Compliance with the rules is required for test results to be admissible in a criminal proceeding that concern driving under the influence (DUI), driving while ability impaired (DWAI) or with excessive alcoholic content; or illegal consumption of ethyl alcohol or marijuana by an underage person. In addition, to the extent necessary, the board promulgates collection and testing of samples associated with the bodies of all pilots in command, vessel operators in command, or drivers and pedestrians age fifteen or older who die within four hours after involvement in a crash involving a motor vehicle, vessel or aircraft. Rule 5 CCR 1005-2, Testing for Alcohol and Other Drugs, implements these portions of the statute.

The Department has reviewed 5 CCR 1005-2, Testing for Alcohol and Other Drugs, in compliance with Executive Order D 2012-002 and the State Administrative Procedure Act, 24-4-103.3, C.R.S. At this time, the Department is proposing the changes necessary to implement HB 14-1340. HB 14-1340 allows specific certifications requirements to be waived for laboratories that are accredited. The revisions streamline existing requirements, and reduce the regulatory burden placed on accredited forensic toxicology laboratories while maintaining the appropriate level of regulatory oversight. The Department has incorporated stakeholder feedback into the proposed language and will continue to engage stakeholders during the rulemaking process.

The Department requests that the Board review and approve the proposed changes to the existing rule. The proposed changes have been incorporated after stakeholder engagement, discussion and recommendations have been received and considered. The intent of the proposed revisions are to ensure the rule is aligned with current statutory requirements.

Though the Department has identified other changes to align with current statute, current regulatory practice, and national forensic toxicology practice, the Department is not proposing those revisions at this time. The Department anticipates that it will return to the board in the summer of 2018 with those recommendations after it has engaged stakeholders and collected the feedback necessary to propose these future revisions.

STATEMENT OF BASIS AND PURPOSE
AND SPECIFIC STATUTORY AUTHORITY
for Amendments to
5CCR 1005-2
State Board of Health Rules Pertaining to the Testing for Alcohol and Other Drugs

Basis and Purpose.

- Alignment of the requirements found in this rule to current statute(s).
- Implement HB 14-1340, which modified Section 42-4-1304, C.R.S., to allow specific laboratory certification requirements to be waived for laboratories that are accredited by the American Board of Forensic Toxicology (ABFT), the International Standards Organization (ISO) or a successor to either organization. Some Colorado Forensic Toxicology Laboratories voluntarily achieved ISO-17025 accreditation from an internationally recognized accrediting organization. Forensic Toxicology Laboratories that have voluntarily achieved ISO-17025 accreditation from an internationally recognized accrediting organization are meeting the highest professional standards established within the industry. The proposed rule aligns the accreditation and certification processes and eliminates the biennial onsite survey for accredited laboratories. The biennial onsite survey unnecessarily duplicates the accreditation processes. The rule, which authorizes the Department to perform an onsite survey in response to a complaint at any time, is unchanged.

Specific Statutory Authority.
These rules are promulgated pursuant to the following statutes:

Sections 42-4-1304, C.R.S.

Is this rulemaking due to a change in state statute?

___X___ Yes, the bill number is HB 14-1340. Rules are ___ authorized _X__ required.
_____ No

Is this rulemaking due to a federal statutory or regulatory change?

_____ Yes
___X__ No

Does this rulemaking incorporate materials by reference?

_____ Yes
___X__ No

If "Yes," the rule needs to provide the URL of where the material is available on the internet (CDPHE website recommended) or the Division needs to provide one print or electronic copy of the incorporated material to the State Publications Library. § 24-4-103(12.5)(c), C.R.S.

Does this rulemaking create or modify fines or fees?

_____ Yes
___X__ No

REGULATORY ANALYSIS
for Amendments to
5CCR 1005-2
State Board of Health Rules Pertaining to the Testing for Alcohol and Other Drugs

1. A description of the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

The classes of persons affected are:

- Accredited Forensic Toxicology Laboratories that have or are seeking certification.

2. To the extent practicable, a description of the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Quantitative Impact:
The proposed changes will have the following quantitative impact:

- The proposed changes to the rules have no impact on non-accredited forensic toxicology laboratories certified by the department. Accredited labs are relieved of the annual onsite inspection by the department.

Qualitative Impact:
The proposed changes will have the following qualitative impact:

- Alignment with current statutory requirements.
- The certification of forensic toxicology laboratories remains the same regardless of whether is accredited or not; however, to the extent a streamlined process encourages more entities to seek accreditation, this supports best practice.

3. The probable costs to the agency and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

- There is a possibility of a nominal savings to state revenues due to the small number of certified forensic toxicology laboratories, the number of onsite visits and the number of accredited laboratories. However, those savings will be slightly offset by the costs of reviewing the accreditation materials.

4. A comparison of the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

Action cost and benefits of the proposed rule:

- Alignment of the rule with current statutory requirements.
- Clarification of existing language.
- Reduction in financial costs to the department.

Inaction cost and benefits of the proposed rule:

- Current rule may not be aligned with existing statutory requirements.
- Continuation of existing department practices and survey schedules.

5. A determination of whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.
    - No other less costly or less intrusive methods have been identified.
    - Another option is for the department to only provide certification to forensic toxicology laboratories performing testing for DUI/DUID purposes that are ISO-17025 accredited by an internationally recognized accrediting organization. However, this option potentially will have a negative business and financial impact to those laboratories not currently ISO-17025 accredited.

6. Alternative Rules or Alternatives to Rulemaking Considered and Why Rejected.
    - The Department has identified the need for revisions to the current rules to align with current statutory requirements by clarifying the current language.

7. To the extent practicable, a quantification of the data used in the analysis; the analysis must take into account both short-term and long-term consequences.
    - Currently there are 9 forensic toxicology laboratories certified by the department to perform testing on samples for DUI/DUID purposes.
    - Of the 9 laboratories certified, 5 (CBI-3 labs, Denver PD, NMS) are currently accredited by an internationally recognized accrediting organization that include ABFT and/or ASCLD/LAB.

STAKEHOLDER COMMENTS
for Amendments to
5CCR 1005-2
State Board of Health Rules Pertaining to the Testing for Alcohol and Other Drugs

State law requires agencies to establish a representative group of participants when considering to adopt or modify new and existing rules. This is commonly referred to as a stakeholder group.

Early Stakeholder Engagement:
The following individuals and/or entities were invited to provide input and included in the development of these proposed rules:

The forensic toxicology lab directors are identified as the primary stakeholders. These laboratories are directly impacted by the proposed rule revisions:

- Dan Anderson – CBI (3 locations)
- Sarah Urfer – Chematox
- Dr. Patricia Sulik, PhD – Rocky Mountain Instrumental Labs (RMIL)
- Dr. Gregory Dooley, PhD – CSU Analytical Toxicology Laboratory
- Greggory LeBerge, PhD – Denver Crime Laboratory
- Dr. Robert Bux, M.D. – El Paso County Coroner's Office
- Dr. Robert Middleberg, PhD – National Medical Services, Inc. (NMS)

While the change affects accredited laboratories seeking certification, the draft rule will also be posted on the Department's website to make the community aware of the Department's effort to implement HB 14-1340. The Department is also gathering stakeholder suggestions on other improvements that can be made to the rule for future rule-making.

Initial notification was sent to the stakeholders on September 25, 2017 and a copy of the proposed changes were provided. A follow-up email was sent on October 16, 2017 informing the stakeholders that an onsite meeting was being scheduled for November 1, 2017 at the Laboratory Services Division. In addition, the proposed changes were posted on the division's website. A reminder email of the onsite meeting was sent on October 31, 2017.

Stakeholder Group Notification
The stakeholder group was provided notice of the rulemaking hearing and provided a copy of the proposed rules or the internet location where the rules may be viewed. Notice was provided prior to the date the notice of rulemaking was published in the Colorado Register (typically, the 10th of the month following the Request for Rulemaking).

__X__ Not applicable. This is a Request for Rulemaking Packet. Notification will occur if the Board of Health sets this matter for rulemaking.

____ Yes.

Summarize Major Factual and Policy Issues Encountered and the Stakeholder Feedback Received. If there is a lack of consensus regarding the proposed rule, please also identify the Department's efforts to address stakeholder feedback or why the Department was unable to accommodate the request.

- Of the 7 stakeholders, 2 have expressed concerns regarding the annual onsite inspection process being waived all together and have recommended that the current language remain which requires onsite inspections be conducted by the department during the alternate years.
- One of the stakeholders would like to see the department's onsite inspections be changed to every two-years for those labs not accredited.
- Two stakeholders expressed concern that the ISO-17025 accrediting organization known as ASCLD/LAB may not perform a review of the toxicology specialty every two years when performing the biennial onsite inspections. To address this concern, one stakeholder recommended that accredited labs perform and provide a cross-walk analysis of the current laboratory standards found in the rule to the accrediting organizations standards and provide this to the department in the alternating years where an onsite inspection is not performed. This is intended to ensure the department's standards are being implemented.
- One stakeholder made a recommendation that in addition to the alternating year cross-walk when requesting reciprocity, that only labs accredited by the American Board of Forensic Toxicology (ABFT) be eligible for reciprocity.
- One stakeholder made a recommendation that in the event the ISO-17025 accrediting body does not perform a review of the toxicology specialty during the biennial accreditation inspection, that the department would then perform an onsite inspection of the facility(s).

The department will continue to work with the stakeholders prior to the hearing in order to achieve a consensus that is consistent with statutory language and still ensures the highest level of analytical performance is verified and maintained.

Please identify health equity and environmental justice (HEEJ) impacts. Does this proposal impact Coloradoans equally or equitably? Does this proposal provide an opportunity to advance HEEJ? Are there other factors that influenced these rules?

- N/A

DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

Laboratory Services Division

TESTING FOR ALCOHOL AND OTHER DRUGS

5 CCR 1005-2

ADOPTED BY THE BOARD OF HEALTH _____, 20____.

Part 5: Certification Requirements for Forensic Toxicology Laboratories

5.1 Laboratory Analysis of Blood, Urine and Post Mortem Specimens

5.1.1 Laboratories must be certified by the Department to provide analysis. Participation in the Forensic Toxicology Laboratory certification program is based upon either; successful on-site annual inspection for non-accredited labs, or, ongoing accreditation status for accredited labs, and, successful participation in the designated proficiency testing and ongoing compliance with the applicable requirements in this rule.

5.1.2 Laboratories seeking certification that are accredited by an internationally recognized accreditation organization may forgo the annual onsite inspection as long as accreditation remains active. ~~the American Board of Forensic Toxicology (ABFT) may be granted reciprocity on a biennial basis as long as accreditation remains active. Laboratories certified by the department will be inspected on the alternating accreditation years.~~

5.1.3 Accredited laboratories that are granted reciprocity must provide the Department a copy of the accrediting organizations inspection report in addition to any accepted plan of correction submitted to the accrediting organization by the laboratory.

5.1.~~4~~3 Laboratories certified by the Department who send samples to a reference laboratory for testing, must send those samples to either another Department certified lab, or a forensic toxicology laboratory accredited by an internationally recognized accrediting organization. ~~ABFT~~.

5.2 Initial Application

*****

5.3.3 Certified laboratories referring specimens to ~~ABFT~~ another accredited laboratory ~~laboratories~~ must include documentation with the application (Appendix B) that the reference laboratory is ~~ABFT~~ accredited~~.~~ by an internationally recognized accrediting organization.

*****

5.3.5 To maintain certification, laboratories shall meet all applicable requirements found in Parts 5-8, and Appendix C. Non-accredited laboratories must ~~and~~ participate in an annual on-site inspection~~.~~

*****

COLORADO
Board of Health
Department of Public Health & Environment

Notice of Public Rule-Making Hearing

January 17, 2018

ID #: 112

NOTICE is hereby given pursuant to the provisions of §24-4-103, C.R.S.; that the Colorado Board of Health will conduct a public rule-making hearing on:

Date: January 17, 2018

Time: 10:00 AM

Place: Sabin-Cleere Conference Room, Building A, 1st Floor, 4300 Cherry Creek Drive South, Denver, CO 80246

To consider the promulgation/amendments or repeal of:

CCR Number(s)
5 CCR 1005-2, Testing for Alcohol and Other Drugs

The proposed rules have been developed by the following division or office of the Colorado Department of Public Health and Environment:
Laboratory Services

Statute(s) that requires or authorizes the Board of Health to promulgate, amend, or repeal this rule:

Statute(s)
§42-4-1304, C.R.S.

Agenda and Hearing Documents
The Board of Health agenda and the proposed rules, together with the proposed statement of basis and purpose, specific statutory authority and regulatory analysis will be available, at least seven (7) days prior to the meeting, on the Board's website, https://colorado.gov/cdphe/boh .

For specific questions regarding the proposed rules, contact the division below:
Laboratory Services Division, , 8100 Lowry Blvd., Denver, CO 80230, (303) 692-3681.

Participation
The Board encourages all interested persons to participate in the hearing by providing written data, views, or comments, or by making oral comments at the hearing. At the discretion of the Chair, oral testimony at the hearing may be limited to three minutes or less depending on the number of persons wishing to comment.

Written Testimony
Pursuant to 6 CCR 1014-8, §3.02.1, written testimony must be submitted no later than five (5) calendar days prior to the rule-making hearing.

Persons wishing to submit written comments should submit them to: Colorado Board of Health, ATTN: Board of Health Unit, Program Assistant, Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South, EDO-A5, Denver, Colorado 80246-1530 or by e-mail at: cdphe.bohrequests@state.co.us

Written testimony is due by 5:00 p.m., Thursday, January 11, 2018.

Deborah Nelson, Board of Health Administrator

COLORADO
Department of Health Care Policy & Financing
Medical Services Board

NOTICE OF PROPOSED RULES

The Medical Services Board of the Colorado Department of Health Care Policy and Financing will hold a public meeting on Friday, January 12, 2018, beginning at 9:00 a.m., in the eleventh floor conference room at 303 East 17th Avenue, Denver, CO 80203. Reasonable accommodations will be provided upon request for persons with disabilities. Please notify the Board Coordinator at 303-866-4416 or chris.sykes@state.co.us or the 504/ADA Coordinator hcpf504ada@state.co.us at least one week prior to the meeting.

A copy of the full text of these proposed rule changes is available for review from the Medical Services Board Office, 1570 Grant Street, Denver, Colorado 80203, (303) 866-4416, fax (303) 866-4411. Written comments may be submitted to the Medical Services Board Office on or before close of business the Wednesday prior to the meeting. Additionally, the full text of all proposed changes will be available approximately one week prior to the meeting on the Department's website at www.colorado.gov/hcpf/medical-services-board.

This notice is submitted to you for publication, pursuant to § 24-4-103(3)(a) and (11)(a), C.R.S.

MSB 17-10-05-A, Revision to the Medical Assistance Special Financing Division Rule Concerning Colorado Dental Health Care Program for Low-Income Seniors, Section 8.960

Medical Assistance. Revision to the Special Financing Division Colorado Dental Health Care Program for Low-Income Seniors concerning the amendment of procedure codes in Appendix A. MSB 17-10-05-A amends Appendix A to conform to the changes in the American Dental Association Current Dental Terminology (CDT) 2018 code book.

The authority for this rule is contained in 25.5-1-301 through 25.5-1-303, C.R.S. (2017); 25.5-3-404, C.R.S. (2017).

See attachment for detailed description.

CDHS holds two public hearings, an initial and final, for each proposed rule packet.

The initial hearing allows the public an opportunity to submit written data, views, or arguments and to testify for or against the proposed rules. The Board does not vote on the proposed rule at the initial hearing, but asks CDHS to consider all public comment and discussion and, if needed, submit revisions to the proposed rule.

The final hearing, usually the month following the initial hearing, allows the same opportunity for public comment, after which the Board votes on final adoption of the proposed rule.

Please visit CDHS State Board website for meeting dates.

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule.

The Department is statutorily required to review rules on a regular basis and is authorized to promulgate rules for licensed child care programs providing less than twenty-four (24) hour care that create standards and regulations for these child care programs. This package expands and clarifies children's health and medication requirements, eliminates unnecessary or duplicate rules, clarifies existing rules, and adds requirements for safety, physical activity and screen time. The previous comprehensive review and revision for the entire rule package for the "Rules Regulating Children's Resident Camps" and the "Rules Regulating School-aged Child Care Centers" was completed in 2007.

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-6-106(1)(a), C.R.S. (2017)	Standards for facilities and agencies, and authority to promulgate rules;
26-6-113, C.R.S. (2017)	Periodic review of rules and procedures, and licensing of child care facilities

Does the rule incorporate material by reference? [ ] Yes [x] No

Does this rule repeat language found in statute? [ ] Yes [x] No

If yes, please explain.

Title of Proposed Rule: **Changes to Rules Regulating Children's Resident Camps; Changes to Rules Regulating School-aged Child Care Centers**

CDHS Tracking #: **14-08-14-01**

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Licensed school-aged child care centers and children's resident camps are governed by these rules and will both benefit from and bear the burden of these rules. There should be minimal cost associated with these rules for providing copies of policies for families, hiring additional staff for smaller ratios if school-aged child care programs chose to accept younger children or on excursions away from the premises, and health consultation and medication requirements. The majority of the rule package is technical cleanup to simplify rule.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

For instance, providers may need to alter the way in which they provide policies to families and maintain documentation of staff and children's records; they may need to revise their nutritional meal menus, or ensure staff has additional training.

Currently, there are approximately 1000 licensed school-aged child care centers and approximately 125 licensed children's resident camps in Colorado.

Children in licensed school-aged child care centers and children's resident camps will benefit from the expanded well-being and safety requirements in this rule package.

3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. ***Answer should NEVER be just "no impact" answer should include "no impact because…."***

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

No fiscal impacts as these rule revisions are primarily technical cleanup or clarifications to simplify existing rules.

County Fiscal Impact

No County fiscal impact as nothing addressed in this rule revision creates costs for counties.

Federal Fiscal Impact

No fiscal impacts as these rule revisions are primarily technical cleanup or clarifications to simplify existing rules.

Other Fiscal Impact *(such as providers, local governments, etc.)*

Providers should see minimal cost associated with these rules for providing copies of policies for families, hiring additional staff for smaller ratios if school-aged programs chose to accept younger

children or on excursions away from the premises, and health consultation and medication requirements.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

The Children's Resident Camp Rules Re-write committee and the School-aged Child Care Center Rules Re-write committee work product (stakeholder working group) directed all aspects of this revised rule package, including advising the Department on language and provisions.

Caring for Our Children 2011, Stepping Stones to Caring for Our Children 2013, and Current American Camp Association Standards informed the health and safety portions of the rule revisions to ensure the rules followed nationally recognized standards of care.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. **Answer should NEVER be just "no alternative" answer should include "no alternative because…"**

No alternative because these rules are considered minimum requirements for health and safety, which the Department is statutorily mandated to promulgate.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The Children's Resident Camp Rules Re-write committee and the School-aged Child Care Center Rules Re-write committee work product (stakeholder working group) directed all aspects of this revised rule package, including advising the Department on language and provisions.

Committee members include: Colorado Department of Public Health and Environment, Healthy Child Care Colorado, Qualistar Colorado, Denver Public Health and Environment, Avid 4 Adventure, St. Vrain Valley School District, Boulder Valley School District, Adams 12 School District, Children's Hospital Colorado, Colorado Early Education Network, Mesa County Health Department, Institute for Racial Equity and Excellence, Colorado Ski Country USA, Extended Hours Program, Jefferson County school District, Jefferson County Health Department, Louisville City Government, Rocky Mountain Region of the American Camp Association, Indian Hills Camp, Boy Scouts of America, YMCA of the Rockies, Work Bright, Sanborn Western Camps and Pathways.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

All licensed School-aged Child Care Centers and Children's Resident camps

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

[x] Yes [ ] No

If yes, who was contacted and what was their input?

CDPHE was consulted on the development of these regulations and assisted with removing duplicative regulations

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

[X] Yes [ ] No

Name of Sub-PAC	EC Sub-PAC		
Date presented	Electronically November 8, 2017		
What issues were raised?			
Vote Count	*For*	*Against*	*Abstain*

7.711 RULES REGULATING CHILDREN'S RESIDENT CAMPS [Rev. eff. 6/1/07]

In addition to the General Rules for Child Care Facilities, Children's Resident Camps shall follow the rules specified in this section and the "RULES REGULATING SPECIAL ACTIVITIES" AND " RULES AND Regulations Governing the HEALTH AND Sanitation of Child Care ~~Centers~~ FACILITIES in the State of Colorado".

7.711.1 DEFINITIONS [Rev. eff. 4/1/13]

A. A "residential camp" ~~is defined at Section 26-6-102(2.2), C.R.S.~~ MEANS A FACILITY OPERATING FOR THREE OR MORE CONSECUTIVE TWENTY-FOUR-HOUR DAYS DURING ONE OR MORE SEASONS OF THE YEAR FOR THE CARE OF FIVE OR MORE CHILDREN. THE FACILITY SHALL HAVE AS ITS PURPOSE A GROUP LIVING EXPERIENCE OFFERING EDUCATION AND RECREATIONAL ACTIVITIES IN AN OUTDOOR ENVIRONMENT. THE RECREATIONAL EXPERIENCES MAY OCCUR AT THE PERMANENT CAMP PREMISES OR ON TRIPS OFF THE PREMISES. A CHILDREN'S RESIDENT CAMP SHALL SERVE CHILDREN WHO HAVE COMPLETED KINDERGARTEN OR ARE SIX YEARS OF AGE OR OLDER THROUGH CHILDREN YOUNGER THAN NINETEEN YEARS OF AGE; EXCEPT THAT A PERSON NINETEEN YEARS OF AGE OR TWENTY YEARS OF AGE MAY ATTEND A CHILDREN'S RESIDENT CAMP IF, WITHIN SIX MONTHS PRIOR TO ATTENDING THE CHILDREN'S RESIDENT CAMP, HE OR SHE HAS ATTENDED OR HAS GRADUATED FROM HIGH SCHOOL.

B. A residential camp may have a "primitive camp" which is a portion of the permanent camp premises or another site at which the basic needs for camp operation, such as places of abode, water supply systems, and permanent toilet and/or cooking facilities, are not usually provided.

C. A "travel-trip camp" shall be known as a camp in which there is no permanent camp site and children move from one site to another. The travel-trip camp either originates in Colorado or moves into and/or through Colorado from another state and operates for three or more consecutive 24-hour days during one or more seasons of the year for the care of five or more children who are at least ten (10) years old or have completed the fourth grade. The program shall have as its purpose a group learning experience offering educational and recreational activities utilizing an outdoor environment.

D. ~~A "non-medical religious camp" is a camp operated by a religious organization which does not believe in the use of medical practice in physical examination or treatment of illness or injury.~~

7.711.11 Purpose and Goals [Rev. eff. 11/1/98]

Each camp ~~shall~~ MUST submit to the department a statement of goals and objectives. This statement ~~shall~~ MUST be kept on file, updated periodically, made known to staff, and available for licensing inspection.

7.711.12 Governing Body [Rev. eff. 6/1/07]

The governing body ~~shall~~ MUST be identified by its legal name. The names and addresses of individuals who hold primary financial control and officers of the governing body ~~shall~~ MUST be disclosed fully to the Colorado Department of Human Services. THE GOVERNING BODY IS RESPONSIBLE FOR PROVIDING NECESSARY FACILITIES, ADEQUATE FINANCING, QUALIFIED PERSONNEL, SERVICES, AND PROGRAM FUNCTIONS FOR THE SAFETY AND WELL-BEING OF CHILDREN IN ACCORDANCE WITH THESE RULES. When changes of governing body occur, the new governing body must immediately submit an original application and pay the required fee.

A. If the governing body lets, leases, or rents the licensed facility to any group or organization whose program falls under the definition as found at Section 7.711.1 and verifies in writing to the State Department that the lessee meets the licensing standards, an application is not required of the lessee. If the governing body does not verify that the lessee meets the licensing standards, an application is required of the lessee and the license must be issued to the lessee before the camp opens.

B. When the facility is let, leased, or rented, the governing body ~~shall~~ MUST report the following in writing at the request of the State Department: name of the group, number and ages of children, length of time for use of the facility, and the purpose of the camp.

7.711.13 Financial Support [Rev. eff. 11/1/98]

The governing body ~~shall~~ MUST satisfy the department upon request that there is sufficient financial support to operate and maintain a camp in accordance with these rules and camp goals and objectives.

7.711.14 Insurances [Rev. eff. 11/1/98]

~~A.~~ Every facility ~~shall~~ MUST carry public liability insurance. The applicant or licensee ~~shall~~ MUST submit the amount of the insurance and the name and the address of the insurance agency providing the insurance to the camp. The camp ~~shall~~ MUST maintain information about the insurance at the campsite. ~~A camp need not carry public liability insurance if the camp's governing body determines that insurance is unnecessary due to its financial ability to meet all possible claims. The basis of such judgment must be revealed to the department.~~

~~B. Camps operating their own transportation vehicles shall carry liability insurance in compliance with the minimum limits required by Article 10, Chapter 7, Colorado Revised Statues.~~

7.711.15 Written Agreements, Reports, and Logs [Rev. eff. 6/1/07]

A. There ~~shall~~ MUST be on file at the campsite an~~d~~ annually-dated ~~a written~~ A WRITTEN OR ELECTRONIC agreement with a licensed physician or nearby health care facility TO PROVIDE ~~stating that the physician or health care facility will furnish~~ the necessary medical services for campers at the camp and medical help as a backup to the camp staff members responsible for health supervision.

B. A travel-trip camp is not required to have a written agreement, but IT must have a list of all medical facilities in areas where the travel-trip camp will be traveling.

~~C. The camp shall report to the State Department in writing within 48 hours each injury or illness which required that the camper be permanently sent home. The report shall include name, age and address of the camper; name of camper's parent(s) or guardian(s) and their address if different; date of accident or illness; description of accident or diagnosis of illness; treatment given; name and address of physician prescribing treatment; and, where treatment was given and disposition of the case.~~

~~D~~C. The camp ~~shall~~ MUST maintain at the campsite a medical record keeping system, listing name of camper, ~~ailment~~ ILLNESS OR INJURY, ~~treatment~~ prescribed TREATMENT and ~~administered dale~~ DATE THE TREATMENT WAS ADMINISTERED, and name of person administering care. This record keeping system ~~shall~~ MUST be available to licensing personnel.

~~E~~D. ~~Within 24 hours of each incident, t~~The camp ~~shall~~ MUST submit within 24 hours to the State Department a written report about any camper who has been ~~lost~~ SEPARATED FROM THE GROUP OUTSIDE OF THE SUPERVISION OF THEIR ASSIGNED STAFF MEMBER ~~from the campsite~~ and for whom a report has been made to the local ~~sheriffs~~ SHERIFF'S department for search and rescue. Such report ~~shall~~ MUST indicate the name, age, and address of the camper; the name of parent~~(~~s~~)~~ ~~or~~ /guardian~~(~~s~~)~~ and their address if different; the date when the child was lost; the location, time, and circumstances when the camper was last seen; and~~,~~ circumstances of locating the camper.

~~F. Each camp shall have a plan for action in case of natural disasters, lost campers/swimmers, injuries, and illnesses. These plans shall be in writing and shall be on file at the camp office. The staff shall receive training regarding the implementation of these plans. In the case of a travel trip or primitive camp, these plans shall accompany the staff members and campers.~~

7.711.2 PERSONNEL

7.711.21 General Requirements for All Personnel [Rev. eff. 6/1/07]

A. All paid employees at the camp ~~shall be sixteen (16) years of age or over, except that employment of maintenance staff including kitchen service, grounds, and housekeeping employees under~~ LESS THAN 16 years of age ~~is allowed if~~ MUST BE EMPLOYED in compliance with Colorado labor laws.

B. All counselors and staff members having a supervisory role with campers ~~shall~~ MUST be at least eighteen (18) years of age, OR SEVENTEEN (17) YEARS OF AGE AND GRADUATED HIGH SCHOOL, and have interest in, respect for, and ability to work with children.

C. There ~~shall~~ MUST be a letter of agreement with each volunteer or employed staff member which includes listing of specific responsibilities/job description and referring to information contained in the hiring packet or staff manual. Days or hours of employment/time off, personal conduct, and ~~necessary medical examinations~~ HEALTH HISTORY QUESTIONNAIRE must be provided in writing OR ELECTRONICALLY and may be provided in the hiring packet or the staff manual. The letter of agreement ~~shall~~ MUST be signed by both the employer and the volunteer or staff member. In the case of staff members or volunteers who are younger than eighteen (18) years old, the letter of agreement ~~shall~~ MUST also be signed by the parentS/ ~~or~~ guardianS.

D. There ~~shall~~ MUST be at least three references ~~about~~ FOR each staff member of the camp attesting to the individual's character and suitability to work with children. The written references ~~shall~~ MUST be in the personnel file or there ~~shall~~ MUST be an indication in the personnel file that a reference has been obtained~~. by telephone~~.

E. Each staff member must complete aN ANNUAL ~~current~~ health history~~. and must have been examined within the last 24 months by a licensed medical health care professional approved to perform physical examinations.~~ The health history must ~~be completed within 90 calendar days of the beginning of working at the camp and shall~~ be maintained ~~IN the personnel file~~ A SECURED LOCATION at the camp. ~~The staff members of a non- medical religious camp are exempt from this regulation.~~

~~F. If a staff member wishes an exemption from an examination performed by a licensed medical hearth care professional due to religious beliefs, the staff member shall submit a signed, written statement, which states the reason for the religious exemption and that the individual is in good health. A camp retains the right to ask a staff member for a written statement prior to employment at the camp.~~

~~G~~F. Each staff member ~~shall~~ MUST be trained and given written instructions as to camp policy when emergencies occur INCLUDING BUT NOT LIMITED TO: ~~, such as fires,~~ LOST CAMPERS, MEDICAL SITUATIONS, HAZARDOUS WILDLIFE and ENVIRONMENTAL HAZARDS. IN THE CASE OF TRAVEL TRIP OR PRIMITIVE CAMPS, THESE PLANS MUST ACCOMPANY THE STAFF AND CAMPERS.

7.711.22 ~~Necessary~~ Camp Personnel [Rev. eff. 6/1/07]

A. Each camp ~~shall~~ MUST have an onsite director who ~~shall~~ MUST be at least twenty-one (21) years of age. The director ~~shall~~ MUST have ~~a maturity of judgment and~~ 12 MONTHS (1820 HOURS) ~~prior~~ verified ~~adult~~ leadership experience in an administrative or supervisory position, WITH GROUPS OF CHILDREN FIVE (5) YEARS OF AGE OR OLDER, ~~at an organized camp, and twelve months employed adult leadership with groups of children~~ since he OR ~~/~~she attained the age of EIGHTEEN (18) years.

B. At each permanent camp there ~~shall~~ MUST be AT LEAST one ~~or more~~ health care ~~providers~~ WORKER who ~~shall be~~ IS responsible for monitoring the overall health of the CAMPERS AND STAFF. ~~and creating a healthy camp community.~~ A ~~hearth~~ HEALTH care ~~provider~~ WORKER ~~may~~ MUST be one of the following: a licensed physician, a registered nurse, a licensed practical nurse, a licensed physician's assistant, a certified nursing assistant ~~or a staff member who holds a current American Red Cross Emergency Response Certificate or a current certificate as an Emergency Medical Technician or equivalent. Any health care provider other than a licensed physician, registered nurse, or licensed practical nurse must also hold a current certificate indicating completion of the State Department approved and required medication administration course.~~ OR AN INDIVIDUAL WHO HOLDS CURRENT CERTIFICATION IN EMERGENCY MEDICAL SERVICES. ALL HEALTH CARE WORKERS MUST WORK WITHIN THEIR SCOPE OF PRACTICE, INCLUDING THE ABILITY TO WORK INDEPENDENTLY OR WITH REQUIRED OVERSIGHT.

1. At least one health care ~~provider~~ WORKER ~~shall~~ MUST be at the camp twenty-four (24) hours per day that the camp is in session.

2. If the camp health care ~~provider~~ WORKER is not a physician or RN, a physician or RN currently licensed in Colorado must specifically delegate ~~authority to any camp health care provider or~~ THE camp staff member ~~to~~ THE AUTHORITY TO administer medications. The delegating physician or RN must be aware of the specific medical needs of campers, be available for consultation while the camp is in session, and accept responsibility for monitoring the therapeutic effects of medications administered at camp. ~~As directed by their scope of practice, EMTs may not administer medications in the camp setting; therefore, an EMT may not serve as the sole camp health care provider.~~ Respiratory therapists may administer medication within their scope of practice.

3. IN ORDER TO ADMINISTER MEDICATIONS ~~A~~All health care ~~providers~~WORKERS, except physicians and RNs, must ~~take~~ COMPLETE the Department-approved ~~m~~Medication ~~a~~Administration ~~course~~ TRAINING, RECEIVE DELEGATION and hold ~~a~~ current DEPARTMENT-APPROVED First Aid and CPR ~~card~~ CERTIFICATION.

C. At any ~~primitive~~ camp LESS THAN THIRTY (30) MINUTES FROM EMERGENCY MEDICAL SERVICES, ~~within sixty (60) minutes from definitive medical care of the base camp, where children may be away from the base camp for up to six nights,~~ there must be at least one staff

member WITH EACH GROUP OF CHILDREN qualified with ~~community~~ DEPARTMENT-APPROVED First Aid ~~training~~, CPR, and ~~m~~Medication ~~a~~Administration ~~t~~Training AND DELEGATION. ~~if children taking medicine accompany the trip.~~

D. ~~At any primitive camp where children are either more than one hour from definitive medical care or are away from the base camp for seven or more nights, there must be at least one staff member with each group of children with wilderness First Aid training, CPR, and medication administration training.~~ ALL STAFF MEMBERS MUST COMPLETE A DEPARTMENT-APPROVED STANDARD PRECAUTIONS TRAINING PRIOR TO WORKING WITH CHILDREN. THIS TRAINING MUST BE RENEWED ANNUALLY AND MAY COUNT TOWARDS ONGOING TRAINING REQUIREMENTS.

E. ~~At any primitive camp where children are away from camp for seven or more nights and are more than one hour away from emergency medical services, there must be at least one staff member with each group of children with wilderness first responder training, CPR, and medication administration training if children taking medicine accompany the trip.~~ FOR EVERY THIRTY (30) OR FEWER CHILDREN IN ATTENDANCE, THERE MUST BE AT LEAST ONE (1) STAFF MEMBER WITH EACH GROUP OF CHILDREN WHO HOLDS CURRENT DEPARTMENT-APPROVED FIRST AID AND CPR FOR ALL AGES OF CHILDREN. AT ANY CAMP MORE THAN THIRTY (30) MINUTES AWAY FROM EMERGENCY MEDICAL SERVICES, THERE MUST BE AT LEAST ONE (1) STAFF MEMBER WITH EACH GROUP OF CHILDREN QUALIFIED WITH A MINIMUM OF WILDERNESS FIRST AID TRAINING, DEPARTMENT-APPROVED CPR AND MEDICATION ADMINISTRATION TRAINING. STAFF MEMBERS WITH MEDICATION ADMINISTRATION TRAINING MUST HAVE ANNUAL DELEGATION AS REQUIRED.

F. There ~~shall~~ MUST be sufficient camp counselors or staff members who have a supervisory role with children at the camp to meet the staff ratio as indicated in Section 7.711.23. Children under the age of six (6) years who live at camp or are visiting ~~with their parent~~ must be directly supervised by ~~their parent~~ A CAREGIVER, WHO IS NOT INCLUDED IN THE STAFF TO CAMPER RATIO, at all times when the children are involved in camp activities. Staff members whose children are under six (6) years of age cannot be supervising campers or leading special activities when they are supervising their own children.

G. If the camp has counselors-in-training WHO ARE NOT FULLY QUALIFIED, they must be directly accountable to a qualified counselor or specialized staff member and must be directly supervised by those individuals in their role when caring for children. The counselors-in-training who are less than eighteen (18) years old ~~shall~~ MUST not be counted as staff members in the maintenance of the staff ratio for supervision of children as found at Section 7.711.23.

H. There ~~shall~~ MUST be specialized staff members who are responsible for specific portions of the camp program. Requirements for those specialized staff members are found among the requirements for the specialized activity areas at Section 7.719, et seq.

7.711.23 ~~Necessary Staff~~ Supervision [Rev. eff. 6/1/07]

A. The camp ~~shall~~ MUST have an accurate system whereby staff members who are responsible for the supervision of children ~~shall~~ MUST know where each child is at all times.

B. At no time ~~shall~~ MAY a camper be left without qualified supervision. Sleeping quarters of the counselors ~~shall~~ MUST be ~~in close proximity~~ WITHIN SIGHT OR HEARING DISTANCE ~~to~~ OF THE sleeping quarters of the children whom they supervise ~~so that counselors are within sight or hearing of the children they supervise~~. Children may sleep alone for specific program functions such as solos or survival experiences and then only when regularly monitored pursuant to the camp's written program. THE CAMP'S WRITTEN PROGRAM MUST INCLUDE AN AUDIBLE

MECHANISM FOR A CAMPER TO ALERT A STAFF MEMBER WHO IS ABLE TO IMMEDIATELY RESPOND.

C. Each special activity ~~shall~~ MUST be supervised by a staff member currently qualified in DEPARTMENT-APPROVED First Aid and CPR training, and by the experience and training in that special activity as specified in Section 7.719, et seq.

D. In a residential camp, ratio of one (1) staff member having a supervisory role with children per number of campers ~~or fraction thereof~~ MUST be maintained at all times as follows:

Age of Children	Number of Children	Number of Staff Members
~~6~~ 5 ~~and~~ THROUGH 7 yrs. old	6	1
8 through 10 yrs. old	8	1
11 through 13 yrs. old	10	1
14 ~~through 15~~ yrs. ~~old~~ and ~~over~~ OLDER	12	1

E. In a trip away from the residential camp premises or at the primitive camp, the staff ratio given at Section 7.711.23, D, ~~shall~~ MUST be maintained, but there ~~shall~~ MUST be at least two staff members accompanying each trip, and one staff member ~~shall hold at least a current Red Cross standard First Aid and safety certificate or equivalent~~ MUST MEET THE QUALIFICATIONS AS DEFINED IN 7.711.22.C,E. If the trip exceeds two nights, there ~~shall~~ MUST be with the group a staff member who IS AT LEAST TWENTY-ONE (21) YEARS OF AGE, ~~has maturity of~~ EXERCISES GOOD judgment, ~~and~~ THE ABILITY TO ASSUME LEADERSHIP INDEPENDENTLY AND has been trained in trip leading procedures.

F. In a travel-trip camp, the staff ratio given at Section 7.711.23~~,~~.D, ~~shall~~ MUST be maintained, but there ~~shall~~ MUST be at least two (2) staff members at all times with the campers. One (1) of those staff members must be at least twenty-one (21) years old and one (1) staff member ~~shall~~ MUST meet qualifications of the health care ~~provider~~ WORKER ~~(see~~ AS DEFINED IN Section 7.711.22.B~~)~~.

G. In the case of trips away from the permanent residential camp, including overnights OR TRAVEL-TRIP CAMPS, there ~~shall~~ MUST be a day-to-day itinerary prepared prior to departure. The resident camp headquarters ~~shall~~ MUST keep a copy of the itinerary. The itinerary ~~shall~~ MUST be followed as closely as possible. ~~Resident c~~Camp headquarters ~~shall~~ MUST be notified of an itinerary change as soon as possible.

~~H. A travel-trip camp shall establish a day-to-day itinerary. A copy shall be on file at the camp headquarters. The itinerary shall be followed as closely as possible. In case of emergency, if a change in the itinerary is necessary, the camp headquarters shall be notified as soon as possible~~.

~~**7.711.3 – 7.711.42 None [Rev. eff. 6/1/07]**~~

7.711.~~5~~3 CHILD CARE

7.711.5~~3~~1 Health Care [Rev. eff. 6/1/07]

A. The camp health program ~~shall~~ MUST be under the supervision of an individual qualified as stated at Section 7.711.22, B.

B. ~~At the time of~~ AT LEAST TEN (10) CALENDAR DAYS PRIOR TO admission, each camper ~~shall~~ MUST furnish a health history which indicates communicable diseases and ~~serious~~ CHRONIC illnesses or ~~operations~~ INJURIES the individual has had, any known drug reactions and allergies,

medications being taken, and any necessary HEALTH PROCEDURES OR special diets ~~at the time of camp admission~~.

C. THE CAMP MUST INFORM ITS HEALTH CARE WORKER PRIOR TO THE FIRST DAY OF CARE OF THE ENROLLMENT OF A CHILD WITH SPECIAL HEALTH CARE NEEDS, IF KNOWN, TO ENSURE STAFF RECEIVES TRAINING, DELEGATION AND SUPERVISION AS INDICATED BY THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

~~C~~D. The camper ~~shall~~ MUST present a statement confirming a physical examination, which has been performed within the preceding twenty-four (24) months FROM THE FIRST DAY OF ATTENDANCE AT CAMP by a ~~licensed physician or qualified, licensed nurse practitioner~~ HEALTH CARE PROVIDER, WHICH INCLUDES~~. The physician or nurse practitioner shall be asked to inform the camp as to~~ any physical problems which would limit the camper's activity, AND any special care which the child will need~~., and include a record of up-to-date immunizations which the child has had, including the date of the last tetanus shot~~.

~~D~~E. ~~If the camper wishes an exemption from a statement confirming a physical examination and immunizations due to religious beliefs, the camper shall submit a written statement, signed by the camper's parents or legal guardian, which states the reason for such an exemption and that the individual is in good health. The camp has the right to refuse the admission of a child who has no statement from a physician or nurse practitioner.~~ The camper must submit documentation of immunization status or exemption as required by Colorado Department of Public Health and Environment (CDPHE). Immunizations must be updated and recorded as specified on the certificate of immunization or alternate certificate of immunization as supplied and approved by the Colorado Department of Public Health and Environment (CDPHE). Colorado law requires proof of immunization or exemption be provided prior to or on the first day of admission.

~~E~~F. UPON ARRIVAL OR ~~W~~within TWENTY-FOUR (24) hours ~~after arrival at camp~~, each camper ~~shall~~ MUST be observed by camp staff trained to do so to identify noticeable evidence of any illness, communicable disease, or signs of abuse. The camp health care ~~provider~~ WORKER ~~shall~~ MUST meet with campers ~~upon arrival at camp~~ that have special medications, HEALTH ~~treatment~~ procedures ~~or~~, SPECIAL ~~dietetic~~ restrictions ~~or~~, known allergic reactions, CHRONIC HEALTH CONDITIONS or any known physical limitations.

~~F~~G. If a child shows signs of ~~severe~~ illness or communicable disease listed in the Colorado Department of Public Health and Environment (CDPHE) exclusion guidelines, the camper ~~shall~~ MUST be separated from other campers, parents/GUARDIANS ~~shall~~ MUST be notified, and a doctor or medical facility ~~shall~~ MUST be consulted, if appropriate and as required, as to the child's treatment. All items used by the sick child ~~shall~~ MUST be properly disinfected before use by any other person.

~~G. The non-medical religious camp shall notify parents immediately when a camper becomes ill, but is exempt from the requirement of consultation with the doctor or medical facility.~~

~~H. When communicable diseases occur, parents and staff members shall be advised what protective measures are available and indicated for the particular disease, and the county or state health officer notified.~~

~~I~~H. If a camper requires medical attention away from the camp site, the camper's parents/ ~~or~~ guardian ~~shall~~ MUST be notified and necessary medical care ~~shall~~ MUST be sought from a ~~licensed physician~~ HEALTH CARE PROVIDER or medical facility. Written authorization for medical care ~~shall~~ MUST be in the child's file pursuant to Section 7.711.61~~,~~. A~~,~~.9.

~~J. If a camper requires medical attention away from the campsite of a non-medical religious camp, the parents shall be notified and their instructions followed.~~

~~K~~I. In the case of travel-trip camps, primitive camps, or trips away from the camp, a copy of the statement which has been signed by the parent or guardian indicating that the camp staff may obtain emergency medical care ~~shall~~ MUST be in the possession of staff members accompanying the campers. The original signed statement ~~shall~~ MUST be readily accessible.

~~L~~J. The camp health care ~~provider~~ WORKER ~~shall~~ MUST be responsible for administering medication to campers. If the health care ~~provider~~ WORKER is not a currently Colorado licensed RN or physician, the health care ~~provider~~ WORKER may only administer medication PRESCRIBED FOR INDIVIDUAL CAMPERS AS delegated and supervised by aN RN or physician. Respiratory therapists may administer medication within their scope of practice. ~~The health care provider shall administer only medicines prescribed for an individual camper or medicines listed in written standing treatment procedures from a licensed physician who has agreed to furnish medical services for the camp, pursuant to Section 7.711.61, A. Such medicines shall only be administered by authority of written authorization given to the camp or to the health care provider by the child's physician or camp physician.~~

1. MEDICATION prescribed for campers ~~shall~~ MUST be from a licensed pharmacy; labeled with the name, address, and phone number of the pharmacy; name of the camper; name and strength of the medicine; directions for use; date filled; prescription number~~; ,~~ and~~,~~ the name of THE practitioner prescribing the medicine. When no longer needed OR EXPIRED, the medication ~~shall~~ MUST be returned to the parent or ~~destroyed~~ DISPOSED OF IN ACCORDANCE WITH THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) REQUIREMENTS.

    a. WHEN THE CAMP HAS AN ON-SITE RN OR PHYSICIAN, AND CAMPERS ARE ON EXCURSIONS AWAY FROM THE CAMP, THE RN OR PHYSICIAN IS RESPONSIBLE FOR DETERMINING A SAFE PROCESS FOR THE ADMINISTRATION OF ROUTINE AND EMERGENCY MEDICATIONS. THIS PROCESS SHOULD INCLUDE:

        i. THE TRANSFER OF MEDICATIONS AND ASSOCIATED DOCUMENTS FROM THEIR USUAL STORAGE PLACE TO PORTABLE STORAGE FOR THE TRIP.

        ii. LABELING WHICH INCLUDES CAMPER'S NAME, MEDICATION, ROUTE, DOSAGE, AND TIME THE MEDICATION SHOULD BE ADMINISTERED AS INDICATED ON THE ORIGINAL MEDICATION CONTAINER.

        iii. SECURE AND TEMPERATURE APPROPRIATE STORAGE DURING THE TRIP.

        iv. HAND HYGIENE DURING THE TRIP.

        v. APPROPRIATE DOCUMENTATION PRACTICES DURING THE TRIP.

        vi. THE RETURN OF MEDICATION AND ASSOCIATED DOCUMENTS FROM PORTABLE STORAGE FOR THE FIELD TRIP TO THEIR USUAL ON-SITE STORAGE.

    b. IF THE CAMP DOES NOT HAVE AN ON-SITE RN OR physician, medications on trips must be in original labeled pharmacy containers

2. A record of any medications administered ~~shall~~ MUST be maintained in a medication administration record pursuant to Section 7.711.15, D.

3. All medication at the permanent camp site ~~shall~~ MUST be kept in a clean, locked container, except emergency medication such as ~~EPI-PENS~~ EPINEPHRINE AUTO INJECTORS or asthma inhalers. On excursions away from the camp, medication MUST be under the control of an adult and ~~shall~~ MUST be stored inaccessible to children.

4. The camp may, with written parental consent and authorization of the prescribing practitioner, permit children who have asthma to carry their own inhalers and use them as directed. All staff must be aware of which children have asthma and which ones may use their own inhalers as needed.

5. TOPICAL PREPARATIONS SUCH AS PETROLEUM JELLY AND BUG SPRAYS MAY BE ADMINISTERED TO CHILDREN WITH WRITTEN PARENTAL AUTHORIZATION. THESE PREPARATIONS MAY NOT BE APPLIED TO OPEN WOUNDS OR BROKEN SKIN UNLESS THERE IS A WRITTEN ORDER BY THE PRESCRIBING PRACTITIONER.

6. HOME REMEDIES, INCLUDING HOMEOPATHIC MEDICATIONS MUST NOT BE ADMINISTERED AT CAMP.

K. STANDING ORDERS FOR OVER THE COUNTER MEDICATIONS MUST BE UPDATED ANNUALLY AND ARE ONLY ALLOWED WITH PARENTAL PERMISSION AND WHEN ADMINISTERED BY A PHYSICIAN OR RN.

~~M~~L. First Aid supplies ~~shall~~ MUST be located near food service operations, program areas, maintenance areas, the headquarters of the medical supervisor, and in motor vehicles which are used to transport campers.

~~N~~M. There ~~shall~~ MUST be an identified headquarters of the health care ~~provider~~ WORKER at the campsite.

~~O~~. ~~There shall be a location at the campsite furnished with necessary equipment to care for an individual who needs to be separated from other campers due to a communicable disease or illness. The isolation quarter shall be located within close proximity of restroom facilities.~~

~~P. A responsible adult shall be present or within hearing distance of any ill child.~~

~~Q~~N. Transportation ~~shall~~ MUST be available at all times in cases of medical emergency according to the written emergency medical evacuation plan of the camp.

O. To ensure the protection of campers from sun exposure the camp must:

1. Obtain the parent or guardian's written authorization and instructions for applying sunscreen or use of another form of parent or guardian approved sun protection to their children's exposed skin prior to going outside. A doctor's permission is not needed to use sunscreen at the camp;

2. Apply sunscreen or use another form of parent or guardian approved sun protection for children prior to campers going outside. Sunscreen must be reapplied as directed by the product label;

3. When supplied for an individual camper, the sunscreen must be labeled with the camper's first and last name; and

4. If sunscreen is provided by the camp, parents must be notified in advance, in writing, of the type of sunscreen the camp will use.

7.711.532 ~~Discipline~~GUIDANCE [Rev. eff. 11/1/98]

A. ~~The camp shall have a written policy regarding the discipline of children, which shall be explained to staff members before the camp session begins.~~ Guidance must be appropriate and constructive or educational in nature and may include such measures as diversion, separation of the child from problem situations talking with the child about the situation, or praise for appropriate behavior.

B. ~~Discipline shall be constructive or educational in nature and may include such measures as diversion, separation from problem situations, talking with the child about the situation, or praise for appropriate behavior.~~

~~1.~~ Children ~~shall~~ MUST not be subjected to physical harm, fear, or humiliation.

~~2~~C. THE PROGRAM DIRECTOR MUST NOT USE, OR PERMIT A STAFF MEMBER TO USE CORPORAL OR OTHER HARSH PUNISHMENT, INCLUDING BUT NOT LIMITED TO ~~Children shall not be punched~~PINCHING, ~~shaken~~SHAKING, ~~bitten~~SPANKING, ~~roughly handled~~ PUNCHING, ~~pinched~~BITING, KICKING, ROUGH HANDLING, HAIR PULLING, or ~~subjected to~~ any HUMILIATING OR FRIGHTENING METHOD OF GUIDANCE ~~physical punishment~~.

D. GUIDANCE MUST NOT BE ASSOCIATED WITH FOOD, REST, OR TOILETING. CHILDREN SHOULD NEVER BE PUNISHED FOR TOILETING ACCIDENTS. CHILDREN MUST NOT BE DENIED FOOD OR FORCED TO EAT AS A DISCIPLINARY MEASURE.

~~3~~E. Separation, when used as ~~discipline~~GUIDANCE, ~~shall~~ MUST ~~be brief~~ NOT EXCEED FIVE (5) MINUTES and MUST BE appropriate ~~to~~ FOR the child's age. ~~and circumstances, and t~~The child ~~shall~~MUST be ~~within hearing of an adult~~ in a safe, lighted, well-ventilated ~~place~~AREA AND BE WITHIN SIGHT AND HEARING OF AN ADULT. ~~No~~ THE child ~~shall~~ MUST NOT be isolated in a locked ~~room~~ or ~~closet~~ CLOSED AREA.

~~4. No child shall be punished for toileting accidents.~~

~~5~~F. Verbal abuse or derogatory remarks about the child~~, his family, his race, religion, or cultural background shall not be used or~~ ARE NOT permitted.

~~6. Meals may not be denied the camper as a disciplinary measure.~~

~~7~~G. Authority ~~to punish shall~~ FOR GUIDANCE MUST not be delegated to other children~~, nor shall~~ AND the camp MUST NOT sanction one ~~camper~~ CHILD punishing another ~~camper~~CHILD.

7.711.533 Security Practices [Rev. eff. 7/1/00]

A. The camp ~~shall~~ MUST establish a written security procedure and ~~shall~~ MUST train staff members and campers regarding this procedure. ~~Such procedures may include, but are not limited to, the following:~~

~~1. The campers and staff organized into a buddy system and trained to report immediately to camp authorities when they believe their buddy is missing.~~

~~2. Whistles issued to campers and/or staff who are instructed as to their usage if a camper or staff member is attacked.~~

~~3. Campers and staff trained to report to the camp administration any strangers or unidentified person who may be at the campsite.~~

~~4. Bumper stickers for each authorized car at camp.~~

~~5. Limited advertisement of camp location.~~

~~6. Use of intra-camp emergency communication.~~

B. The camp ~~shall~~ MUST report to the local law enforcement office or department the dates of the camp sessions and the location of the camp.

C. When a camper is discharged from camp or when the camp session is over, the child ~~shall~~ MUST be returned to the parentS/~~ or~~ guardianS or ~~to~~ aN ~~properly identified~~ adult ~~approved~~ AUTHORIZED by the ~~child's~~ parentS/ ~~or~~ guardianS. IF THE INDIVIDUAL IS UNKNOWN TO THE STAFF, IDENTIFICATION MUST BE REQUIRED.

7.711.5~~3~~4 Food and Nutrition [Rev. eff. 10/1/03]

A. Each camp ~~shall~~ MUST establish a written policy for its nutrition and food service program. This policy ~~shall~~ MUST include meal hours, type of food service, staff responsibilities during the time food is served, authorization of special diets, and the administration of the food service program. This policy ~~shall~~ MUST be available to all staff members.

B. All foods ~~shall~~ MUST be stored and prepared in accordance with the rules and regulations governing the sanitation of food service establishments in the State of Colorado.

C. Foods provided by the camp ~~shall~~ MUST be of sufficient quantity and nutritional quality to provide for the dietary needs of each child. Menus ~~shall~~ MUST meet the most recently revised recommended daily allowances of the Food and Nutrition Board, National Academy of Sciences, National Research Council, adjusted for age, sex, religion, and activity. The only exception ~~shall~~ MUST be by written parental or medical direction.

D. Menus ~~shall~~ MUST be planned at least a week in advance and ~~shall~~ MUST be dated as to the week in use. The current week's menu ~~shall~~ MUST be posted in the food preparation area. Food substitutions ~~shall~~ MUST be noted on the menus in writing. After use, the menus ~~shall~~ MUST be kept on file for the period of the camping season.

E. In travel-trip camps, all menus ~~shall~~ MUST be planned prior to leaving and changes noted in writing. Menus ~~shall~~ MUST be maintained in file of camp.

~~F. Drinking water shall be readily accessible to campers at all times.~~

7.711.5~~3~~5 Transportation [Rev. eff. 6/1/07]

~~A. If the camp transports children from their home to camp, the camp shall assume responsibility for the child between the place where he she is called for and the camp, and from the time he she leaves the camp until delivered to his her parents or to a responsible person designated by the parents or guardians.~~

~~B. Any transportation of the camper during the camp session is the responsibility of the camp.~~

~~C. There shall be at least one adult supervisor in addition to the driver when nine or more children are being transported at any one time. No child shall be permitted to remain unattended in any vehicle.~~

~~D. Only that number of children and adults for whom there is comfortable seating space shall be transported. Standing in the vehicle while it is moving shall be prohibited. No person shall sit on the floor or in aisles, or project head or limbs out of the vehicle.~~

~~E. No more than three persons, including the driver, shall be permitted to occupy the front seat of the vehicle. Each camper permitted to ride in the front seat of the vehicle shall be secured by a seat belt.~~

~~F. If trucks are used by the camp as a means of transportation, the use shall be limited to short periods of time such as no more than thirty minutes. Safe seating arrangements shall be provided. Only trucks with sides may be used. When such trucks are in use, the tailgate shall be closed at all times when the vehicle is in motion. There shall be an adult riding with the campers in the back of the truck. Campers shall be seated whenever the vehicle is in motion.~~

~~G. The camp which provides any transportation shall have a written policy including, but not limited to, the following topics: safety education while riding in the vehicles, seating, highway stops, relief drivers, when necessary, supervision, and emergency procedures on the road.~~

~~H. All vehicles transporting children shall comply with the applicable regulations of the Colorado Department of Revenue, Motor Vehicle Division, and the ordinances of the municipality in which the vehicle is operated.~~

~~I. All persons who transport campers shall be properly licensed to operate the vehicle being driven.~~

~~J. At least one adult in each vehicle shall hold a current Red Cross standard First Aid and safety certificate or equivalent. The vehicle shall be equipped with a First Aid kit.~~

~~K. Any vehicle which transports nine or more passengers shall carry a fire extinguisher, reflective equipment, and road side markers.~~

A. TRANSPORTATION PROVIDED BY THE CAMP MUST MEET THE FOLLOWING REQUIREMENTS:

1. THE CAMP IS RESPONSIBLE FOR ANY CHILDREN IT TRANSPORTS;

2. THE CAMP MUST OBTAIN WRITTEN PERMISSION FROM PARENTS OR GUARDIANS FOR ANY TRANSPORTATION OF THEIR CHILD DURING CAMP HOURS;

3. THE NUMBER OF STAFF MEMBERS WHO ACCOMPANY CHILDREN WHEN BEING TRANSPORTED IN THE VEHICLE MUST MEET THE CHILD CARE STAFF RATIO FOUND AT SECTION 7.711.23. THE DRIVER OF THE VEHICLE IS CONSIDERED A STAFF MEMBER;

4. THE CAMP MUST NOT PERMIT CHILDREN UNDER THE AGE OF 8 OR CHILDREN UNDER 57” TALL TO RIDE IN THE FRONT SEAT OF A VEHICLE. CHILDREN UNDER 8 MUST BE SECURED IN A CHILD RESTRAINT SYSTEM THAT IS APPROPRIATE FOR THE AGE AND DEVELOPMENT OF THAT CHILD. THE CHILD RESTRAINT MUST CONFORM TO ALL APPLICABLE FEDERAL MOTOR VEHICLE SAFETY STANDARDS AND COLORADO CHILD PASSENGER SAFETY LAWS;

5. CAMPERS MUST BE LOADED AND UNLOADED OUT OF THE PATH OF MOVING VEHICLES;

6. CAMPERS MUST NOT BE LEFT UNATTENDED IN THE VEHICLE;

7. FOR TRIPS AWAY FROM THE CAMP, A LIST OF INDIVIDUALS ON EACH TRIP MUST BE READILY AVAILABLE EITHER IN THE VEHICLE(S) OR AT THE CAMP OFFICE.

B. REQUIREMENTS FOR VEHICLES

1. ANY VEHICLE USED FOR THE TRANSPORTATION OF CHILDREN TO AND FROM THE CAMP OR DURING CAMP ACTIVITIES MUST MEET THE FOLLOWING REQUIREMENTS:

a. THE VEHICLE MUST BE ENCLOSED AND HAVE DOOR LOCKS;

b. THE SEATS OF THE VEHICLE MUST BE CONSTRUCTED AND INSTALLED ACCORDING TO THE VEHICLE MANUFACTURER'S SPECIFICATIONS;

c. THE VEHICLE MUST BE KEPT IN SATISFACTORY CONDITION TO ASSURE THE SAFETY OF OCCUPANTS. VEHICLE TIRES, BRAKES, AND LIGHTS MUST MEET SAFETY STANDARDS SET BY THE COLORADO DEPARTMENT OF REVENUE, MOTOR VEHICLE DIVISION;

d. SEATING MUST BE COMFORTABLE WITH A SEAT OF AT LEAST TEN (10) INCHES WIDE FOR EACH CHILD;

e. VEHICLES MUST BE LOADED ONLY WITHIN THE PASSENGER SEATING LIMIT ESTABLISHED BY THE VEHICLE MANUFACTURER; AND

f. EACH VEHICLE MUST HAVE A FIRST AID KIT.

2. IN PASSENGER VEHICLES, WITH A MANUFACTURER'S ESTABLISHED CAPACITY OF SIXTEEN (16) OR FEWER PASSENGERS AND LESS THAN 10,000 POUNDS, THE FOLLOWING IS REQUIRED:

0 a. EACH CAMPER AND STAFF MEMBER MUST BE RESTRAINED IN AN INDIVIDUAL SEAT BELT; AND

b. CAMPERS AND STAFF MUST BE INSTRUCTED AND REQUIRED TO KEEP THE SEAT BELT PROPERLY FASTENED AND ADJUSTED.

3. IN VEHICLES WITH A MANUFACTURER'S ESTABLISHED CAPACITY OF SIXTEEN (16) OR MORE PASSENGERS, SEAT BELTS FOR PASSENGERS ARE NOT REQUIRED.

C. REQUIREMENTS FOR DRIVERS OF VEHICLES

1. ALL DRIVERS OF VEHICLES TRANSPORTING CHILDREN MUST COMPLY WITH APPLICABLE LAWS OF THE COLORADO DEPARTMENT OF REVENUE, MOTOR VEHICLE DIVISION, AND ORDINANCES OF THE MUNICIPALITY IN WHICH THE CENTER OPERATES.

2. THE CAMP MUST VERIFY THAT ALL DRIVERS MEET MINIMUM REQUIREMENTS, INCLUDING:

   a. DRIVING RECORDS THAT HAVE BEEN REVIEWED WITHIN THE LAST FOUR MONTHS FOR SEASONALLY HIRED DRIVERS OR WITHIN THE LAST TWELVE MONTHS FOR YEAR-ROUND DRIVERS TO DETERMINE DRIVER SUITABILITY;

   b. DRIVERS HAVE THE APPROPRIATE LICENSE FOR THE VEHICLES TO BE DRIVEN;

   c. DRIVERS MUST HAVE CURRENT DEPARTMENT-APPROVED FIRST AID AND CPR CERTIFICATION;

   d. ALL DRIVERS MUST BE AT LEAST TWENTY (20) YEARS OF AGE;

   e. DRIVERS MUST COMPLETE A MINIMUM OF FOUR (4) HOURS OF DRIVER TRAINING THAT INCLUDES AT A MINIMUM: BEHIND THE WHEEL TRAINING; PARTICIPANT TRANSPORT ATTENDANCE PROCEDURES INCLUDING TAKING ATTENDANCE AT THE DESTINATION; MANAGING BEHAVIORAL ISSUES; LOADING AND UNLOADING PROCEDURES; DAILY VEHICLE INSPECTION PROCEDURE; PROPER TIRE INFLATION; EMERGENCY EQUIPMENT AND HOW TO USE IT; ACCIDENT PROCEDURES; PASSENGER ILLNESS PROCEDURES; PROCEDURES FOR BACKING UP; AND, IF BUSES ARE USED, EVACUATION PROCEDURES;

3. THE DRIVER MUST ENSURE THAT ALL DOORS ARE SECURED AT ALL TIMES WHEN THE VEHICLE IS MOVING;

4. THE DRIVER MUST MAKE A GOOD FAITH EFFORT TO ENSURE THAT EACH CHILD IS PROPERLY BELTED THROUGHOUT THE TRIP; AND

5. THE DRIVER MUST NOT EAT OR USE A CELLULAR DEVICE WHILE DRIVING.

7.711.~~6~~64 RECORDS FOR CHILDREN AND PERSONNEL

7.711.~~6~~641 Children's Records [Rev. eff. 6/1/07]

A. ~~At the time the child is admitted to the~~ PRIOR TO THE CHILD'S ATTENDANCE AT camp, the following information ~~shall~~ MUST be obtained and maintained at the campsite for each camper:

1. Child's name, birth date, and address.

2. Parent's or guardian's names, HOME AND EMPLOYMENT addresses, ~~and~~ telephone numbers, AND EMAIL ADDRESSES.

~~3. Parents or guardian's place of employment and telephone numbers, which may include work phone, cell phone and fax numbers, e-mail address and employment addresses.~~

~~4~~3. Name, address and telephone number ~~of an adult designated to contact in case~~ of emergency ~~if the camp is unable to~~ contact~~S the parent or guardian~~.

~~5~~4. Name, address, and telephone number of individuals authorized to take the child from camp if different from the parent or guardian.

~~6. Names of individuals that are not authorized to take the child from camp.~~

~~7~~5. Dates of the camp session which the child will attend.

~~8~~6. Name~~, address~~ and telephone number of the child's ~~doctor~~HEALTH CARE PROVIDER. ~~This information need not be obtained in a non-medical religious camp or if the child is exempt for the need for a statement confirming a physical examination pursuant to Section 7.711.51, D.~~

~~9~~7. Authorization signed by the ~~person or agency having custody~~PARENTS/GUARDIANS, giving authority for the camp to obtain emergency medical care. ~~A non-medical religious camp is exempt from this regulation.~~

~~10~~8. Authorization signed by the parentS/GUARDIANS~~, person or agency having custody~~ of the child to participate in all special trips or excursions ~~in which the child may be walking or riding~~ away from the campsite.

~~11~~9. Indication of any camp activity in which the parentS/GUARDIANS~~, person or agency having custody~~ of the child does not wish the child to participate (see Section 7.719, et seq.).

10. Physical examination, health history and immunization as required in Section 7.711.51.C-D.

~~B. The child's records shall also include:~~

~~1. A statement confirming a physical examination signed by the physician or nurse practitioner or a written statement signed by camper's parent or guardian pursuant to Section 7.711.51, D, and a current health history from the parent regarding the child's current physical condition (see Section 7.711.51, B).~~

~~2. Copies of reports submitted to the department regarding injury or illnesses suffered by the camper, the fatality of a camper, or a report of a camper being lost (see Section 7.711.15).~~

7.711.~~6~~42 Staff Records [Rev. eff. 6/1/07]

There ~~shall~~ MUST be maintained at the campsite a record for each staff member, paid or volunteer, ~~which shall~~ THAT MUST include the following:

A. Name, address, and birth date of the individual.

B. Training, education, AND experience of the staff member.

C. Copies of any ~~first aid~~ REQUIRED certification or other ~~certification~~ TRAINING confirming qualifications for the responsibilities ~~assumed~~ ASSIGNED at the camp.

D. Copy of a HEALTH ~~statement~~ HISTORY ~~signed by the physician or the nurse practitioner regarding the physical examination of the staff member or a statement from the staff member pursuant to~~ AS REQUIRED IN Section 7.711.21.E.

E. Name, address, and telephone number of any person(s) to be notified in the event of an emergency~~, which may include home phone number, work phone, cell phone, pager, fax number, and e-mail address if available~~.

F. Copy of the written references or note of phone references pursuant to Section 7.711.21.D.

G. Copy of the signed letter of agreement pursuant to Section 7.711.21.C.

H. The dates ~~that the staff member was on the staff of the camp~~ OF EMPLOYMENT FOR EACH STAFF MEMBER.

7.711.~~6~~43 General Information [Rev. eff. 7/1/00]

A. The camper's file ~~shall~~ MUST be retained by the camp for at least three (3) years after the child'S ~~leaves the~~ LAST DAY OF ATTENDANCE AT THE camp, and ~~shall~~ MUST be available without restriction to the ~~licensing agency, but otherwise shall be treated as confidential. Retention of records for a longer period may be desirable where they reflect an accident, injury, or other unusual circumstances~~ DEPARTMENT.

B. Personnel AND CHILDREN'S records ~~shall~~ MUST be maintained by the camp for at least three (3) years. If the record reflects an accident, injury, or other unusual circumstance, it is suggested that the record be maintained for a longer period of time.

C. ~~Children's records shall be confidential, and facts learned about children and their families shall be kept confidential. The license may be denied, revoked, or made probationary if confidentiality of records or information is not maintained.~~

7.711.~~7~~5 CAMPSITE, PHYSICAL FACILITY, FIRE SAFETY AND SANITATION

7.711.~~7~~51 Campsites [Rev. eff. 6/1/07]

A. ~~All new and remodeled camp buildings, facilities, and equipment must meet the requirements of applicable codes and regulations, such as those governing health, safety, sanitation, building and fire; specifically, the codes of the local fire departments and the Colorado Department of Public Health and Environment.~~

~~B.~~ ~~Prior to issuance of an original license, and at least every two years, the camp shall be inspected and approved by the state health department or its local unit as conforming to sanitary standards. In the case of a t~~Travel-trip camp~~S, the~~ MUST SUBMIT THEIR plans FOR COMPLIANCE WITH THE RULES AND REGULATIONS GOVERNING THE HEALTH AND SANITATION OF CHILD CARE FACILITIES IN THE STATE OF COLORADO FOR APPROVAL BY THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT, THIRTY (30) DAYS PRIOR TO ~~that the camp has made to meet the requirements shall be inspected and approved prior to~~ the date the trip camp begins.

~~C~~B. The camp must conform to fire prevention and protection requirements of local fire departments in the locality of the camp. ~~An inspection and approval of the local fire department must be obtained prior to original licensing and at least every two years. If the camp is not located within~~

~~the jurisdiction of a local fire department, such fire department approval is not required.~~ In the case of a travel-trip camp, the fire department approval is not required ~~since the camp has no permanent campsite~~.

~~D. Existing facilities can be required to correct deficiencies caused by non-compliance with regulations of the health or fire departments, which may be hazardous in nature.~~

~~E~~C. The camp ~~shall~~ MUST identify hazard~~ou~~s~~,~~ AND high-risk areas ~~such as cliffs, cellars, mineshafts, etc~~ AND DEVELOP POLICIES THEY FOLLOW TO PREVENT UNAUTHORIZED ACCESS TO THESE HAZARDS AND HIGH-RISK AREAS. ~~These areas shall be guarded of posted to reduce the possibility of accidents.~~

~~F~~D. Each ~~residential~~ camp ~~shall~~ MUST have a telephone or ~~comparable~~ means of communication TO CONTACT EMERGENCY SERVICES. ~~If either of these is impossible, individual arrangements shall be made by the camp and approved by the State Department.~~

~~G~~E. Emergency telephone numbers ~~shall~~ MUST be posted ~~for at least, but no limited to,~~ the camp ~~doctor~~ HEALTH CARE PROFESSIONAL, nearest clinic or hospital, ambulance service, local sheriff's office ~~and rescue unit~~, national or state forest service office (as appropriate), fire department or lookout station, and poison control center ~~(if available)~~.

~~H~~F. In the case of a primitive camp or travel-trip camp, sources of emergency care and methods of communication with such facilities as hospitals, police, AND forest service ~~shall~~ MUST be identified for each campsite on the itinerary.

~~I~~G. When playground equipment is provided at a residential camp, the equipment and playground area ~~shall~~ MUST be free of obstruction and man-made or natural hazards and ~~shall~~ MUST be away from natural pathways of traffic.

H. Playground equipment ~~such as, but not limited to, climbing apparatus, slides, swings, and swing sets shall~~ MUST MEET THE FOLLOWING REQUIREMENTS:

1. Be in good repair, of solid and safe construction, free of rough edges, protruding bolts, and the possibility of entrapment of extremities.

2. Be securely anchored ~~to~~ BY ~~concrete or other~~ suitable footing.

3. Swings must have seats made of a flexible material.

4. Moving equipment must be located toward the edge or corner of a play area or be designed in such a way as to discourage children from running into the path of the moving equipment.

5. Metal equipment ~~shall~~ MUST be placed in the shade ~~when possible and must be arranged so that children playing on one piece of equipment will not interfere with children playing on or running to another piece of equipment~~ OR A SHADE STRUCTURE MUST BE PROVIDED.

6. The maximum height of any piece of playground equipment is six (6) feet.

7. All pieces of playground equipment must be designed to guard against entrapment and strangulation.

8. All pieces of permanently installed playground equipment must be surrounded by a resilient surface of a depth of at least six (6) inches. Rubber mats manufactured for such

use consistent with the guidelines of the Consumer Product Safety Commission may be used in place of resilient material.

9. ~~The use of any materials under permanently installed playground equipment other than wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, and shredded rubber tires must be approved by the State~~ Department APPROVED RESILIENT SURFACING INCLUDES LOOSE FILL MATERIALS SUCH AS WOOD CHIPS, WOOD MULCH, ENGINEERED WOOD FIBER, PEA GRAVEL, SYNTHETIC PEA GRAVEL, SHREDDED RUBBER TIRES, AND FINE LOOSE SAND. SOLID UNITARY MATERIALS INCLUDE POURED IN PLACE SURFACING, APPROVED RUBBER MATS, PLAYGROUND TILES, AND ASTRO TURF WITH BUILT IN RESILIENT PAD.

10. ANY PERMANENTLY INSTALLED OUTDOOR CLIMBING EQUIPMENT OR PORTABLE CLIMBING EQUIPMENT EIGHTEEN (18) INCHES OR HIGHER MUST HAVE RESILIENT SURFACING, MEETING CURRENT FEDERAL SAFETY REQUIREMENTS, UNDERNEATH AND IN THE USE ZONE SURROUNDING THE EQUIPMENT, AND INSTALLED ACCORDING TO MANUFACTURER INSTRUCTIONS.

11. PLAYGROUND SURFACES MUST BE CHECKED PRIOR TO USE FOR THE PRESENCE OF DANGEROUS OR OTHER FOREIGN MATERIALS. PLAYGROUND EQUIPMENT MUST BE CHECKED FOR SAFETY ON A MONTHLY BASIS.

J. If the residential camp is located on or uses national or state lands, the director ~~shall~~ MUST familiarize the staff and campers with rules and ethics governing the use of such property and ~~shall~~ MUST be responsible for compliance.

K. An itinerary ~~shall~~ MUST be filed or an arrangement ~~shall~~ MUST be made with national or state forest service office if such land is to be used by the travel-trip camp. The director ~~shall~~ MUST familiarize the staff and campers with rules governing the use of such property. Should the travel-trip camp pass onto private land, an agreement ~~shall~~ MUST be made with the individual responsible for that land prior to access.

L. IN STRUCTURES WHERE THE PROGRAM USES ANY SOURCE OF COAL, WOOD, CHARCOAL, OIL, KEROSENE, PROPANE, NATURAL GAS OR ANY OTHER PRODUCT THAT CAN PRODUCE CARBON MONOXIDE INDOORS, AN OPERATIONAL CARBON MONOXIDE DETECTOR MUST BE INSTALLED. CARBON MONOXIDE DETECTORS MUST MEET THE FOLLOWING REQUIREMENTS:

1. TESTED MONTHLY TO ENSURE THEY ARE OPERATIONAL.

2. BATTERIES CHANGED AT LEAST YEARLY.

7.711.~~7~~52 Permanent and Semi-Permanent Shelters and Sleeping Facilities

A. All structures used by children ~~shall~~ MUST be kept in good repair at all times.

B. At least one-half of the floor area in each living unit, excluding tents, ~~shall~~ MUST have a minimum ceiling height of seven (7) feet. No portion of a room having a ceiling height of less than five (5) feet ~~shall~~ WILL be considered as usable floor space.

C. If fabric structures are used~~, no plastic material will be permitted. Fabric structures shall~~ THEY ~~shall~~ MUST be CONSTRUCTED of a fire- and flame-retardant material. ~~Existing fabric structures may be required to be removed on the basis of hazard potential.~~

~~D. Campfires and open flames of any type shall be prohibited within ten (10) feet of any tent.~~

~~E. Each camp building used for living or sleeping quarters shall have windows or openings constructed so as to admit adequate light and air.~~

~~F~~D. Each camper ~~shall~~ MUST be provided with his~~/~~ OR her own mat, pad, b~~a~~Ed, or cot.

~~G~~E. The aisles between rows of cots, beds, or bunks ~~shall~~ MUST be kept clear for exiting purposes. There ~~shall~~ MUST be at least two (2) feet of clear space separating sides of COTS, beds OR BUNKS.

~~H~~F. If bunk beds are in use, no bunks ~~shall~~ MAY contain more than two tiers of beds. There ~~shall~~ MUST be at least twenty-seven (27) inches of clear space separating the tiers of beds and thirty-six (36) inches of clear space between the top tier and the ceiling. Electric lights which are within reach of the top bunk ~~shall~~ MUST be protected.

~~I~~G. Each permanent sleeping unit, building, or tent ~~shall~~ MUST have ~~not less than~~ AT LEAST THIRTY (30) square feet of floor space per person, camper, or counselor for single-tier beds and twenty (20) square feet per person, camper, or counselor for two-tier bunks.

~~J~~H. In tent structures which have a platform floor, beds or bunks ~~shall~~ MUST be arranged in such a fashion that no camper who might fall from a bed or bunk could fall through the sides of the tent to the ground below.

~~K~~I. There ~~shall~~ MUST be provision in each sleeping unit for storage of the camper's clothing and personal belongings.

~~L~~J. No camper shall sleep in the same room or tent with any person of the opposite ~~sex~~GENDER, except FOR~~ing~~ members of his OR ~~/~~her immediate family.

~~M~~K. In a primitive camp or travel-trip camp, adequate shelters such as a tent ~~shall~~ MUST be available for each child. ~~There shall be fifteen square feet per occupant in each tent or shelter~~ THE SHELTER OCCUPANCY MUST BE IN COMPLIANCE WITH MANUFACTURERS' RECOMMENDATIONS.

~~N. Reasonable insulation shall be provided from cold/dampness by means of such things as a ground cloth beneath the tent.~~

7.711.~~7~~53 Toilet and Bathing Facilities

A. In a resident camp there ~~shall~~ MUST be one COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) approved toilet for every twenty (20) OR FEWER campers ~~or fraction thereof~~ for which the camp is licensed. Urinals may be substituted for no more than one-third of the required toilets.

B. CHILDREN MUST BE ALLOWED THE USE OF GENDER-SEGREGATED TOILET FACILITIES THAT ARE CONSISTENT WITH THEIR GENDER IDENTITY OR HAVE Sseparate ~~designated toilet facilities shall be provided for each sex in coed camps~~ OR INDIVIDUAL TOILET FACILITIES.

~~C. Installation, operation, and maintenance requirements for toilet facilities and urinals:~~

~~1. Water-flush toilets and urinals, chemical toilets, pit privies or latrines shall be provided and maintained in a clean and sanitary condition.~~

2. Toilets, privies, and latrines shall have tight seat covers free of splinters.

DC. Hand washing facilities shall MUST be provided throughout the camp. There shall MUST be one basin or lavatory for per eachVERY twenty (20) campers. IN NEW CONSTRUCTION COMPLETED AFTER MARCH 1, 2018, CHANGE OF GOVERNING BODY OR EXTENSIVE REMODELING THE CAMP MUST PROVIDE HAND WASHING FACILITIES LOCATED ADJACENT TO WHERE THE CAMP SERVES MEALS.

ED. Showers or bathtubs shall MUST be located within buildings used for sleeping, such as cabins or dormitories, or in a centrally located shower or bathing structure.

1. There shall MUST be one shower head or bathtub for PER each EVERY twenty (20) campers or fraction thereof for which the camp is licensed.

2. Hand washing facilities shall MUST be available in the shower or bathing area.

3. Shower or bathhouses shall be provided with vapor-proof lights enclosed in a shatterproof container.

FE. All sewage disposable systems shall MUST meet the state and local health department COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) requirements.

G. In a primitive or travel-trip camp, the following shall be provided:

1. If the camp is not provided with privies or other acceptable type toilets, there shall be separate designated areas; for each gender for toilet use that meets the Health Department's requirements.

7.711.75 Food Preparation Area

A. The kitchen, the food preparation process, dish and utensil washing, food storage, and all other food service areas shall be operated in compliance with the rules and regulations governing food services establishments within the State of Colorado.

B. Garbage and trash removal shall meet the requirements of the state, federal, and local ordinances.

7.711.754 General Building Safety [Ref. eff. 6/1/12]

A. Every building, structure, tent, cabin, and camp premises shall MUST be kept in good repair, and shall MUST be maintained in a safe condition.

B. All new electrical installations shall meet standards of the National Electrical Code. All electrical work must be installed by a licensed electrical contractor with proper permits and inspections. Each electric outlet on the outside of a building shall be mounted in approved, protective weatherproof housing. ALL CONSTRUCTION AND INSTALLATIONS MUST COMPLY WITH LOCAL BUILDING AND PLANNING ORDINANCES.

DC. In buildings accommodating more than 12 persons IN PERMANENT STRUCTURES, exit signs shall MUST be posted at every required exit doorway and wherever otherwise required to clearly indicate the directions of egress. Exit signs shall have letters of at least five inches in height.

ED. A building with an occupancy of more than twelve (12) persons shall MUST be provided with at least two separate and independent means of egress located as far apart as practical and

SEPARATED BY NO ~~in no case~~ less than fifty (50) percent of the largest dimension of the building FROM EACH OTHER.

1. In an existing building, such as a cabin occupied by more than twelve (12) but less than twenty (20) persons, a window may be utilized as an acceptable second exit. The window ~~shall~~ MUST be openable and the distance from the window to the ground ~~shall~~ MUST not be more than four feet.

2. Each exit door ~~shall~~ MUST be hung to swing in the direction of exit travel. Exiting through a food preparation area is not permitted.

~~F~~E. If buildings with second stories are used by campers, there ~~shall~~ MUST be two ~~widely separated~~ INDEPENDENT MEANS OF EGRESS SEPARATED BY NO LESS THAN FIFTY (50) PERCENT OF THE BUILDING FROM EACH OTHER PER FLOOR. ~~exits from each floor.~~

~~G~~F. Each fire escape from any upper level of a building ~~shall~~ MUST be installed in accordance with ~~requirements of the National Fire Protection Association codes~~ LOCAL FIRE PROTECTION ORDINANCES.

~~H~~G. ~~The door hardware on a door, forming part of a means of egress shall be of a type that is non-locking against egress and operated with a single motion. The use of hooks and eyes, bolts, bars, and similar devices is prohibited on any door provided for exiting purposes or designated as an exit when camp is in use~~. IN EVERY BUILDING OR STRUCTURE, EXITS MUST BE ARRANGED AND MAINTAINED SO AS TO PROVIDE FREE AND UNOBSTRUCTED EGRESS FROM ALL PARTS OF THE BUILDING OR STRUCTURE AT ALL TIMES WHEN IT IS OCCUPIED. NO LOCK OR FASTENING TO PREVENT FREE ESCAPE FROM THE INSIDE OF ANY BUILDING CAN BE INSTALLED. ONLY PANIC HARDWARE OR SINGLE-ACTION HARDWARE IS PERMITTED ON A DOOR OR ON A PAIR OF DOORS. ALL DOOR HARDWARE MUST BE WITHIN THE REACH OF CHILDREN.

~~I~~H. ~~When occupancy of a building exceeds 100 persons,~~ eExit doors ~~shall~~ MUST be equipped only with panic OR SINGLE-ACTION hardware.

J. ~~The means of egress or the entire passage to free and safe ground remote from a building shall be unobstructed for easy travel conditions at all times.~~

~~K~~I. There ~~shall~~ MUST be fifteen (15) square feet per occupant in any room having an occupant load of more than FIFTY (50) persons where fixed seaTs are not installed and which is used for classroom, assembly, or similar purposes. The maximum occupancy ~~shall~~ MUST be posted in a conspicuous place near the main exit from the room.

~~L. In an assembly area or classroom such as a recreation room, dining hall, chapel or gymnasium, each door from that room occupied by campers shall enter a one-hour fire-rated corridor between exits or there shall be a direct egress to the outside from each such room.~~

~~M. Where a sleeping occupancy is maintained on the floor over a basement area or on a second floor, the ceiling of the basement or first floor shall be protected with five-eighths inch United Underwriters Laboratory-listed gypsum wallboard or any other proven assembly of materials that will provide a minimum one-hour resistance to fire, unless such construction is of solid or laminated wood timbers not less than three 3 inches in thickness and installed so as to be smoke tight.~~

~~N~~J. Furnaces, fireplaces, heaters, or wood-burning stoves ~~shall~~ MUST meet the following regulations:

1. ~~Furnaces such as forced-air furnaces or hot water boilers~~ ALL HEATING UNITS ~~shall~~ MUST be INSTALLED IN COMPLIANCE WITH LOCAL ORDINANCE ~~separated from the rest of the building by one-hour fire-resistive material (see Section 7.711.75, M) provided with adequate outside combustion air, installed~~ and maintained with safety devices to prevent fire, explosions, and other hazards. NO OPEN-FLAME GAS OR OIL STOVES, UNSCREENED FIREPLACES, HOT PLATES, OR UNVENTED HEATERS CAN BE USED FOR HEATING PURPOSES. ALL HEATING ELEMENTS, INCLUDING HOT WATER PIPES, MUST BE INSULATED OR INSTALLED IN SUCH A WAY THAT CHILDREN CANNOT COME IN CONTACT WITH THEM.

~~2. Only heaters installed with permanent connections and protectors shall be used~~.

~~3. All heaters installed shall be U.L. approved and installed according to manufacturers' specifications.~~

~~4. Boilers used for hot water supply rated at over 200,000 BTU or any boiler used for building heating shall be inspected and a certificate provided as required by the Division of Labor.~~

~~5~~2. A heater or wood-burning stove ~~shall~~ MUST be located and/or protected in such a manner as to prevent injuries to occupants of the building.

~~6~~3. Wood-burning stoves ~~shall~~ MUST be regularly cleaned of ashes, which are immediately removed from the building and properly stored.

~~7~~. ~~Fireplaces shall be protected by a screen or glass device.~~

~~8~~4. Space around furnaces, heaters, and wood-burning stoves ~~shall~~ MUST not be used for storage.

~~9~~5. ~~Fire hazards~~ NOTHING FLAMMABLE OR ~~and~~ combustible ~~materials such as paper and rags shall not be permitted to accumulate upon the premises and shall not~~ CAN be stored ~~near~~ WITHIN THREE (3) FEET OF A FURNACE OR HOT water heater~~, furnaces, heaters, stoves~~.

~~P~~K. ~~Ammunition,~~ ALL firearms~~, explosives, power tools, and special equipment involving unusual risk shall~~ MUST be ~~stored in a~~ locked AND INACCESSIBLE TO ~~place not occupied by~~ children. THIS INCLUDES, BUT IS NOT LIMITED TO AIR RIFLES, BB GUNS, AND PAINTBALL GUNS. AMMUNITION MUST BE LOCKED AND STORED SEPARATELY~~. and shall always be under the custody and direct supervision of authorized personnel when in use.~~

L. POWER TOOLS, EXPLOSIVES AND SPECIAL EQUIPMENT INVOLVING UNUSUAL RISK MUST BE STORED IN A LOCKED PLACE INACCESSIBLE TO CHILDREN, AND MUST ALWAYS BE UNDER THE CUSTODY AND DIRECT SUPERVISION OF AUTHORIZED PERSONNEL WHEN IN USE.

~~Q~~M. ~~All flammables shall be stored in approved containers or storage cabinet or in a building other than buildings which children occupy.~~ VOLATILE SUBSTANCES SUCH AS GASOLINE, KEROSENE, FUEL OIL, AND OIL- BASED PAINTS, FIREARMS, EXPLOSIVES, AND OTHER HAZARDOUS ITEMS MUST NOT BE STORED IN ANY AREA OF THE BUILDING USED FOR CHILDREN UNLESS APPROVED BY THE LOCAL FIRE DEPARTMENT.

~~R~~N. Substances which may be toxic to a child if ingested, inhaled, or handled, including, but not limited to, poisons, drugs, medicines, insecticides, herbicides, rodenticides, bleaches, chemicals,

~~plastic bags~~ and corrosive agents ~~shall~~ MUST be stored in a cabinet or enclosure located in an area not used by children, stored in the original container, and properly labeled.

~~S~~O. Glass doors, walls, or panels ~~shall~~ MUST be clearly marked. Safety glass ~~shall~~ MUST be installed when required.

~~T~~P. Stairways OF A HEIGHT of more than ~~three risers shall~~ THIRTY (30) INCHES MUST be equipped with handrails on each side of the stairways. A stairway which is larger than 88 inches wide ~~shall~~ MUST have an intermediate handrail ~~equidistant~~ EQUAL DISTANCE between the two handrails.

~~U~~Q. All window wells and outside stairwells that are hazardous to children ~~shall~~ MUST be equipped with screens or guards, which ~~shall~~ MUST be attached in such a manner that they may either by removed from the inside or broken in from the outside in case of fire.

~~V~~R. ~~Premises~~ ALL AREAS ACCESSIBLE TO CHILDREN ~~shall~~ MUST be MAINTAINED IN A SAFE CONDITION BY REMOVAL OF DEBRIS, DILAPIDATED STRUCTURES, AND BROKEN OR WORN EQUIPMENT OR DANGEROUS ITEMS. ~~free of all hazards, including, but not linked to, old refrigerators, freestanding walls, open cisterns, grease traps, unsafe fences, worn or hazardous play equipment.~~

7.711.~~75~~5 Fire Safety Provisions [Rev. eff. 4/1/15]

A. Any fire extinguisher used at the camp ~~shall~~ MUST be of a dry chemical type, hung at a level readily available to staff members, and annually inspected by an approved inspector. Indian pump backpack fire extinguishers and fire extinguishers approved for use by the U.S. Forest Services are also acceptable.

1. There must be a fire extinguisher located in the camp kitchen.

2. In each building and/or structure, there must be a fire extinguisher on each floor.

3. In tent areas, there must be a fire extinguisher located within seventy-five (75) feet of each tent or a plan approved by the department.

B. In each camp there must be a fire alarm(s) ~~which~~ THAT sounds a separate and distinctly recognizable tone from all other signaling devices used by the camp. The alarm(s) must be audible throughout the occupied camp premises. The alarm device, once activated, must continue to sound automatically.

C. Within twenty-four (24) hours after arrival at the campsite, all individuals attending the camp must be made familiar with the methods by which the fire alarm may be activated and with procedures to be followed upon notification of fire.

D. Each separate building used for sleeping campers and each multistory building must be protected by a smoke detector on each floor of the building.

E. Areas used for campfires must be cleared and must be away from overhanging branches.

F. Campfires must never be left unattended and must be thoroughly extinguished. Extinguishing equipment must ~~be close at hand~~ IMMEDIATELY ACCESSIBLE.

G. CAMPFIRES AND OPEN FLAMES OF ANY TYPE MUST BE PROHIBITED WITHIN 10 FEET OF ANY TENT OR FABRIC STRUCTURE.

7.712 RULES REGULATING SCHOOL-AGE CHILD CARE CENTERS

All school-age child care centers must comply with the "General Rules for Child Care Facilities" as well as the "Rules Regulating School-Age Child Care Centers" and the "Rules and Regulations Governing the HEALTH and Sanitation of Child Care ~~Centers~~ FACILITIES in the State of Colorado."

7.712.1 (None) [Rev. eff. 6/1/12]

7.712.2 DEFINITIONS [Rev. eff. 3/1/18]

A. A "school-age child care center" (hereafter referred to as the "center") is a child care center that provides care for five (5) or more children who are between five (5) and ~~sixteen (16)~~ EIGHTEEN (18) years of age. CHILDREN FOUR (4) YEARS OF AGE, WHO WILL TURN FIVE (5) ON OR BEFORE OCTOBER 15TH OF THE CURRENT CALENDAR YEAR, MAY ATTEND THE CENTER AS PART OF A "BUILDING-BASED SCHOOL-AGE CHILD CARE PROGRAM" OR "BUILDING-BASED DAY CAMP" SUMMER PROGRAM PRIOR TO THEIR KINDERGARTEN YEAR. ~~The center's purpose is to provide child care and/or an outdoor recreational experience using a natural environment.~~ The center operates for more than one week during the year. The term includes facilities commonly known as "day camps,"~~,~~ "summer camps,"~~,~~ "summer playground programs,"~~,~~ "before and after school programs,"~~,~~ and "extended day programs."~~.~~ This includes centers operat~~ed~~ING with or without compensation for such care, and with or without stated educational purposes.

B. A "building-based school-age child care program" is a child care program that provides care for five (5) or more children who are between five (5) and ~~sixteen (16)~~ EIGHTEEN (18) years of age. The center is located in a building that is regularly used for the care of children.

C. A "day camp" is a school-age child care program which operates at least four (4) hours a day primarily during one season of the year, and during school vacation periods for children between five (5) and eighteen (18) years of age, which accepts registrations for finite, not necessarily contiguous sessions. Programs may operate daily between 6:00 a.m. and 10:00 p.m. Day camp programs may ~~incidentally~~ offer ~~not~~ NO more than two overnight stays each camp session. ~~The~~

~~day camp provides a creative recreational and educational opportunity through group oriented programs. The day camp utilizes trained leadership and the resources of the natural surroundings to contribute to each child's mental, physical, social, and personal growth.~~

The types of day camps are as follows:

1. A "building based day camp" is a child care program that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. The day camp is located in a building which, along with the outdoor surroundings, is regularly used by the program.

2. A "mobile day camp" is a child care program that provides programming for five (5) or more children who are at least seven (7) years of age or who have completed the first grade. Children move from one site to another by means of transportation provided by the governing body of the program. The program uses no permanent building on a regular basis. Mobile day camp programs may operate in multiple sites, IN A SINGLE COUNTY, under one license.

3. An "outdoor-based day camp" is a child care program that provides care or five (5) or more children who are at least seven (7) years of age or have completed the first grade. The day camp ~~uses no~~ DOES NOT USE A permanent building on a regular basis and provides programming in a permanent outdoor or park setting.

7.712.3 POLICIES AND PROCEDURES

7.712.31 Statement of Policies and Procedures [Rev. eff. 6/1/07]

A. At the time of enrollment, and upon amendments to policies and procedures, the center must give the parent(s)/guardian(s) the center's policies and procedures, and provide the opportunity to ask questions. Written copies must be available either electronically or in hard copy. The center must obtain a signed document stating that the parent(s)/guardian(s) have received the policies and procedures, and by signing the policies and procedures document, the parent(s)/guardian(s) agree to follow, accept the conditions of, and give authorization and approval for the activities described in the policies and procedures. Policies must include the following:

1. The center's purpose and its philosophy on child care;

2. The ages of children accepted;

3. Services offered for special needs children in compliance with the Americans with Disabilities Act (see Section 7.701.14, General Rules for Child Care Facilities);

4. The hours and dates when the center is in operation, specific hours during which special activities are offered, AND holidays when the center is closed;

5. The policy regarding ~~severe~~ INCLEMENT weather;

6. The procedure concerning admission and ~~registration~~ ENROLLMENT of children;

7. An itemized fee schedule;

8. The procedure ~~for identifying where children are at all times~~ TO ENSURE THE LOCATION OF CHILDREN IS KNOWN AT ALL TIMES, HOW CHILDREN ARE ACCOUNTED FOR THROUGHOUT THE DAY, AND THAT CHILDREN ARE SUPERVISED AT ALL TIMES BY THEIR ASSIGNED STAFF MEMBER;

9. The center's procedure on guidance, positive instruction, supporting positive behavior, discipline and consequences, including how the center will:

   a. Cultivate positive child, staff and family relationships;

   b. Create and maintain a socially and emotionally respectful early learning and care environment;

   c. Implement teaching strategies supporting positive behavior, pro-social peer interaction, and overall social and emotional competence in young children;

   d. Provide individualized social and emotional intervention supports for children who need them, including methods for understanding child behavior; and developing, adopting and implementing a team-based positive behavior support plan with the intent to reduce challenging behavior and prevent suspensions and expulsions; and

   e. Access an early childhood mental health consultant or other specialist as needed.

10. The procedure~~, including notification of parents and guardians,~~ for handling children's illnesses, accidents, and injuries, INCLUDING WHEN CHILDREN WILL BE EXCLUDED FROM CARE AND NOTIFICATION OF PARENTS/GUARDIANS;

11. The procedures ~~for handling~~ FOLLOWED ~~lost children~~ WHEN IT HAS BEEN IDENTIFIED A CHILD IS SEPARATED FROM THEIR GROUP AND NOT UNDER THE DIRECT SUPERVISION OF THEIR ASSIGNED STAFF MEMBER. ~~and other emergencies at all times, including during field trips. An outline of a plan of action in case of natural disaster is found at Section 7.712.83, G;~~

12. The procedure for transporting children, if applicable, including transportation arrangements and parental permission for excursions and related activities;

13. The written policy and procedure governing field trips, television and video viewing, and special activities, including the staff's ~~responsibility~~ ROLE for the supervision of children;

14. The ~~policy~~ PROCEDURE on children's safety related to riding in a vehicle, seating, supervision, and emergency procedures on the road;

15. The procedure for releasing children from the center only to persons for whom the center has written authorization;

16. The procedures followed when a child is picked up from the center after the closing hours of the center or not picked up at all, and the procedure to ensure that all children are picked up before the staff leave for the day;

17. The procedure for caring for children who arrive late to the center and their class/group is away from the center on a field trip or excursion;

18. The procedure for STORING AND administering children's medicines and delegation of medication administration in compliance with Section 12-38-132, C R S., of the "Nurse Practice Act.";

19. The procedure concerning children's personal belongings and money;

20. The policy concerning meals and snacks;

21. The policy AND PROCEDURE regarding visitors;

22. The procedure for filing a complaint about child care (see Section 7.701.5. General Rules for Child Care Facilities);

23. The ~~policy~~ PROCEDURE regarding the reporting of SUSPECTED OR KNOWN child abuse AND/OR NEGLECT (see Section 7.701.5 General Rules for Child Care Facilities);

24. ~~The policy regarding the child care facilities' responsibility to notify parents or guardians when the program will no longer be able to serve children~~ THE POLICY FOR NOTIFICATION WHEN CHILD CARE SERVICE IS WITHDRAWN BY THE PROGRAM, OR WHEN PARENTS OR GUARDIANS WITHDRAW THEIR CHILD(REN) FROM THE CENTER;

25. ~~The policy regarding the parent's or guardian's responsibility to notify the child care program when parents or guardians withdraw their child(ren) from the PROGRAM~~ THE PROCEDURE, IF APPLICABLE, FOR TRANSITIONING CHILDREN BETWEEN SCHOOL OR COMMUNITY SPONSORED ACTIVITIES; and

26. ~~What~~ THE POLICY ON THE steps ~~are taken~~ THE CENTER WILL TAKE prior to the suspension, expulsion or request to parents/~~ or~~ guardians to withdraw a child from care due to concerns about the child's behavioral issues. These procedures must be consistent with the center's policy on guidance, positive instruction, discipline and consequences, and include documentation of the steps taken to understand and respond to challenging behavior.

7.712.32 Communication, Emergency, and Security Procedures [Rev. eff. 4/1/15]

A. The center must notify the parents/~~ or~~guardians in writing of significant changes in its services, policies, or procedures so that they can decide whether the center continues to meet the needs of the child(ren).

B. For security purposes, a DAILY sign-in/sign-out sheet or other mechanism for parents/ ~~and~~ guardians must be maintained ~~daily~~ by the center It must include, for each child in care, the date, the child's name, the time when the child arrived ~~at~~ and left the center, and the parent/~~ or~~ guardian's signature or other identifier. With A parent/ ~~or~~ guardian's approval, a child FIVE (5) YEARS OF AGE OR OLDER may sign in and out instead of the parent/ ~~or~~ guardian. Staff must verify attendance periodically throughout the day.

~~C. Each center is required to have a written mission statement. This statement must be kept on file, updated periodically, and made known to staff and to parents and guardians, and must be available during the licensing inspection.~~

~~D~~C. During the hours the center is in operation, the center must provide an office and/or monitored telephone number known to the public and available to parents/GUARDIANS in order to provide immediate access to the center.

~~E~~D. If the center has a permanent site, there must be a telephone at the site.

~~F. Centers must have an established means of communication between staff and the program office when children are being transported or are away from the permanent site on a field trip.~~

~~G~~E. Emergency telephone numbers must be posted at each permanent site and taken on all field trips and during mobile school-age child care programs. The emergency numbers must include, at a minimum, 911, ~~if available,~~ or A rescue unit if 911 isn't available; the clinic or hospital nearest to the activity location; ambulance service; fire, police, and health departments; and Rocky Mountain Poison Control.

~~H~~F. Mobile school-age child care programs must have a way to be contacted while in transit.

~~I~~G. The center must be able to provide emergency transportation to a health care facility at all times either via program vehicle or the emergency medical services system.

~~J~~H. The director of the center or the director's delegated substitute must have a means for determining ~~at all times~~ who is present at the center AT ALL TIMES.

~~K~~I. A written policy regarding visitors to the center must be posted and a record maintained daily by the center that includes, at a minimum, the visitor's name and address and the purpose of the visit. At least one piece of identification must be inspected for individuals who are strangers to personnel at the center.

~~L~~J. With the exception of children who are allowed to sign themselves in and out, the center must release A ~~the~~ child only to the adult(s) for whom written authorization has been given and is maintained in the child's record (see Section 7.712.81). In an emergency, the child(REN) may also be released to an adult for whom the child's parent or guardian has given verbal authorization. If the staff member who releases the child does not know the adult, identification must be required to assure that the adult is authorized to pick up the child.

~~M~~K. The center must have a procedure for dealing with individuals not authorized by the parent/~~ or~~ guardian of a child who attempts to have the child released to them.

~~N~~L. The center must have a written emergency procedure that explains how AND WHEN it will report communicable illnesses to the local, health department pursuant to regulations of the State Department of Public Health and Environment.

~~O~~M. The center must have a written procedure for closing the center at the end of the day to ensure that all children are picked up.

7.712.4 PERSONNEL

7.712.41 General Requirements for All Personnel [Rev. eff. 6/1/12]

A. ~~All personnel of the center must demonstrate an interest in and knowledge of children and concern for their proper care and well-being.~~ ALL PERSONNEL AND VOLUNTEERS AT THE CENTER MUST DEMONSTRATE KNOWLEDGEABLE DECISION-MAKING, JUDGMENT, AND CONCERN FOR THE PROPER CARE AND WELL-BEING OF CHILDREN.

B. All personnel AND VOLUNTEERS must be free from illness and conduct that would endanger the health, safety, or well-being of children.

~~C. The center must determine if any staff person who works at the center has ever been convicted of a crime as listed at Section 7.701.33, D, 5 or 6, of the General Rules for Child Care Facilities.~~

~~D~~C. A criminal record check request for all ~~in-state~~ staff must be submitted to the Colorado Bureau of Investigation ~~within five (5) days that an individual is employed by the center~~. The personnel file of ~~in-state~~ staff members of the center must contain clearance ~~or arrest~~ report from the Colorado Bureau of Investigation ~~resulting from the caregiver's criminal record check~~. The requirement for a

criminal record check is found in Section 7.701.33 of the General Rules for Child Care Facilities. Seasonal staff that indicate that they will not be returning to the program for employment ~~shall~~ MUST be removed from the CBI list for the program.

~~E. A request for a review of the State Department's automated system must be made within ten (10) working days of each staff member's first day of employment. The method for making the request is found in 7.701.32 (General Rules for Child Care Facilities).~~

~~F~~D. Each staff member and REGULAR volunteer must ~~furnish the center with information concerning chronic health problems, any known drug reactions, allergies, medications being taken, and/or other health problems that could affect the staff member's ability to perform the duties of the job assigned~~ COMPLETE AN ANNUAL HEALTH HISTORY. THE HEALTH HISTORY MUST BE MAINTAINED IN A SECURE LOCATION.

~~G~~E. The duties and responsibilities of each staff position and the lines of authority and responsibility within the center must be in writing. At the time of employment, staff members must be informed of their duties and assigned a supervisor.

~~H~~F. Prior to working with children, the staff member must read and be instructed on the policies and procedures of the center, including those relating to hygiene, sanitation, food preparation practices, proper supervision of children, and reporting of child abuse. Staff members must sign a statement indicating that they have read and understand the center's policies and procedures.

~~I~~G. Day camp staff ~~shall~~ MUST receive a minimum of fifteen (15) hours of pre-camp training, ~~not including~~ IN ADDITION TO DEPARTMENT-APPROVED First Aid and CPR. Pre-camp training must include all training activities that staff MEMBERS participate in as a whole. Training should include, but not be limited to, familiarizing staff with the camp mission, site emergency policy and procedures, how to supervise and facilitate activities with campers, and health care policies and procedures. Policies and procedures must be in writing. Staff will be supervised and additional training may be provided if needed. Day camps must have a system in place to provide staff the essential training information for late hires.

~~J~~H. The center must have a staff development plan that includes a minimum of fifteen (15) clock hours of ONGOING training each year for all staff. This requirement does not apply to day camps. ~~This training must relate to one or more of the following general areas: child growth and development, healthy and safe environment, developmentally appropriate practices, guidance, family relationships, cultural and individual diversity, and professionalism. At least three (3) clock hours per year must be in the focus of social emotional development.~~ The fifteen (15) clock hours of training does not include recertification in First Aid and CPR. ONGOING TRAINING AND COURSES MUST DEMONSTRATE A DIRECT CONNECTION TO ONE OR MORE OF THE FOLLOWING COMPETENCY AREAS:

1. CHILD GROWTH AND DEVELOPMENT, AND LEARNING OR COURSES THAT ALIGN WITH THE COMPETENCY DOMAINS OF CHILD GROWTH AND DEVELOPMENT;

2. CHILD OBSERVATION AND ASSESSMENT;

3. FAMILY AND COMMUNITY PARTNERSHIP;

4. GUIDANCE;

5. HEALTH, SAFETY AND NUTRITION;

6. PROFESSIONAL DEVELOPMENT AND LEADERSHIP;

7. PROGRAM PLANNING AND DEVELOPMENT;

8. TEACHING PRACTICES:

a. EACH ONE (1) SEMESTER HOUR COURSE WITH A DIRECT CONNECTION TO THE COMPETENCY AREA LISTED IN SECTION 7.712.41, J, 1-8, TAKEN AT A REGIONALLY ACCREDITED COLLEGE OR UNIVERSITY MAY COUNT AS FIFTEEN (15) CLOCK HOURS OF ONGOING TRAINING.

b. TRAINING HOURS COMPLETED CAN ONLY BE COUNTED DURING THE YEAR TAKEN AND CANNOT BE CARRIED OVER.

I. TO BE COUNTED FOR ONGOING TRAINING, THE TRAINING CERTIFICATE MUST HAVE DOCUMENTATION THAT INCLUDES:

1. THE TITLE OF THE TRAINING; AND,

2. THE COMPETENCY DOMAIN; AND,

3. THE DATE AND CLOCK HOURS OF THE TRAINING; AND,

4. THE NAME OR SIGNATURE, OR OTHER APPROVED METHOD OF VERIFYING THE IDENTITY OF TRAINER OR ENTITY; AND,

5. EXPIRATION OF TRAINING IF APPLICABLE; AND,

6. CONNECTION TO SOCIAL EMOTIONAL FOCUS IF APPLICABLE.

~~K~~J. All staff MEMBERS must complete a ~~d~~Department~~-~~approved standard precautions training ~~that meets current occupational safety and health administration (OSHA) requirements~~ prior to working with children. This training must be renewed annually and may count toward~~s~~ ongoing training requirements.

~~L~~K. ~~Effective DECEMBER 31, 2016 a~~All staff MEMBERS must complete a building and physical premises safety training prior to working with children. The training must include:

a. Identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water~~,~~ and vehicular traffic; and

b. Handling and storage of hazardous materials and the appropriate disposal of bioLOGICAL contaminants.

~~M~~L. ~~Effective December 31, 2016 each provider or~~ ALL staff memberS responsible for the collection, review and maintenance of the child immunizations records must complete the Colorado Department of Public Health and Environment (CDPHE) immunization course within ~~thirty (~~30~~)~~ calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.

~~N~~M. ~~Effective December 31, 2016 each provider,~~ ALL staff memberS ~~or~~ AND regular volunteerS must complete a ~~d~~Department~~-~~approved training about child abuse prevention, including common symptoms and signs of child abuse within ~~thirty (~~30~~)~~ calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.

7.712.42 Required Personnel and Qualifications [Rev. eff. 6/1/12]

A. Program Director

Each center must have an on-site program director who ~~shall~~ MUST be at least twenty-one (21) years of age. The program director must have demonstrated to the hiring authority maturity of judgment, administrative ability~~,~~ and the skill to appropriately supervise and direct school-age children in an unstructured setting.

1. The program director must have verifiable education or training in work with school-age children in such areas as recreation, education, scouting~~,~~ or 4-H; and the program director must have completed at least one of the following qualifications:

   a. A four (4) year college degree with a major such as recreation, OUTDOOR EDUCATION, education with a specialty in art, elementary or early childhood education, or a subject in the human service field; or

   b. Two years of college training and six (6) months (910 HOURS) of satisfactory and verifiable full-time or equivalent part-time, paid or volunteer, experience, since attaining the age of eighteen (18), in the care and supervision of four (4) or more children; or

   c. ~~Three years of satisfactory and verifiable full-time or equivalent part-time, paid or volunteer, experience, since attaining the age of eighteen (18), in the care and supervision of four (4) or more children. The program director must complete six (6) semester hours, nine (9) quarter hours in course work from a regionally accredited college or university, or forty (40) clock hours of training in course work applicable to school-age children within the first nine (9) months of employment.~~ THREE YEARS (5460 HOURS) OF SATISFACTORY AND VERIFIABLE FULL-TIME OR EQUIVALENT PART-TIME, PAID OR VOLUNTEER, EXPERIENCE AND ONE OF THE FOLLOWING QUALIFICATIONS:

      1) COMPLETE SIX SEMESTER HOURS, OR NINE QUARTER HOURS IN COURSE WORK FROM A REGIONALLY ACCREDITED COLLEGE OR UNIVERSITY; OR

      2) 40 CLOCK HOURS OF TRAINING IN COURSE WORK APPLICABLE TO SCHOOL-AGE CHILDREN AND THE DEPARTMENT-APPROVED COURSES IN INJURY PREVENTION, AND PLAYGROUND SAFETY FOR SCHOOL-AGED CHILD CARE CENTERS WITHIN THE FIRST NINE MONTHS OF EMPLOYMENT.

1. ~~The program director is responsible for planning and implementing the program and supervising the staff.~~ SATISFACTORY EXPERIENCE INCLUDES EXPERIENCE IN THE CARE AND SUPERVISION OF FOUR OR MORE CHILDREN FROM THE AGES OF FOUR (4)-EIGHTEEN (18) YEARS OLD, UNRELATED TO THE INDIVIDUAL, SINCE ATTAINING THE AGE OF EIGHTEEN (18).

2. THE PROGRAM DIRECTOR IS RESPONSIBLE FOR PLANNING AND IMPLEMENTING THE PROGRAM AND SUPERVISING THE STAFF.

B. Program Leaders

EACH PROGRAM LEADER MUST BE AT LEAST 18 YEARS OF AGE, DEMONSTRATE ABILITY TO WORK WITH CHILDREN, AND MUST MEET THE FOLLOWING QUALIFICATIONS:

1. COMPLETE THE DEPARTMENT-APPROVED COURSE IN INJURY PREVENTION;

2. COMPLETE THE DEPARTMENT-APPROVED COURSE IN PLAYGROUND SAFETY FOR SCHOOL-AGED CHILD CARE CENTERS. THIS REQUIREMENT DOES NOT APPLY TO DAY CAMPS THAT DO NOT REGULARLY USE A PLAYGROUND.; AND

3. ~~Program leaders must be at least eighteen (18) years of age and demonstrate an ability to work with children. Program leaders m~~Must have at least three (3) months (460 HOURS) of full-time or equivalent part-time satisfactory and verifiable experience with school-age children.

C. Program Aides

1. Program aides ~~shall~~ MUST be at least sixteen (16) years of age. Program aides ~~shall shall~~ MUST work directly under the supervision of the program director or program leaders and ~~shall shall~~ MUST never be left alone with children.

2. Program aides can be counted as staff in determining child care staff ratios.

D. DEPARTMENT- APPROVED CHILD CARE HEALTH CONSULTANT

1. STAFF MUST CONSULT WITH A CURRENT DEPARTMENT-APPROVED COLORADO CHILD CARE HEALTH CONSULTANT. TO BE APPROVED THE CHILD CARE HEALTH CONSULTANT MUST BE ONE OF THE FOLLOWING: A LICENSED REGISTERED NURSE WITH KNOWLEDGE AND EXPERIENCE IN MATERNAL AND CHILD HEALTH, A PEDIATRIC NURSE PRACTITIONER, A FAMILY NURSE PRACTITIONER, OR A PEDIATRICIAN. THE CONSULTATION MUST BE SPECIFIC TO THE NEEDS OF THE FACILITY AND INCLUDE SOME OF THE FOLLOWING TOPICS: TRAINING, DELEGATION AND SUPERVISION OF MEDICATION ADMINISTRATION AND SPECIAL HEALTH PROCEDURES, HEALTH CARE, HYGIENE, DISEASE PREVENTION, EQUIPMENT SAFETY, INTERACTION BETWEEN CHILDREN AND ADULT CAREGIVERS, AND NORMAL GROWTH AND DEVELOPMENT. CONSULTATION MUST OCCUR AS OFTEN AS THE CHILD CARE HEALTH CONSULTANT WHO IS DELEGATING MEDICATIONS AND/OR MEDICAL PROCEDURES REQUIRES.

2. THE DATE AND CONTENT OF EACH CONSULTATION MUST BE RECORDED AND MAINTAINED IN THE CENTER'S FILES.

3. THE CENTER MUST MAINTAIN DOCUMENTATION INCLUDING THE CHILD CARE HEALTH CONSULTANT'S (CCHC) DEPARTMENT OF REGULATORY AGENCIES (DORA) PROOF OF RN OR MD CURRENT LICENSURE IN GOOD STANDING, A BRIEF BIOGRAPHY HIGHLIGHTING APPLICABLE KNOWLEDGE, EXPERIENCE AND APPROXIMATE DATES WORKED AS A SCHOOL NURSE OR CHILD CARE HEALTH CONSULTANT COMMENCED.

4. CHILD CARE HEALTH CONSULTANTS (CCHC) MUST COMPLETE THE DEPARTMENT-APPROVED CHILD CARE HEALTH CONSULTANT (CCHC) TRAINING PRIOR TO CONSULTING WITH THE CENTER. THE CENTER MUST OBTAIN AND MAINTAIN PROOF OF COURSE COMPLETION.

5. ALL CHILD CARE HEALTH CONSULTANTS (CCHC) MUST COMPLETE THE DEPARTMENT-APPROVED COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) IMMUNIZATION COURSE ANNUALLY.

~~D~~E. Employment of maintenance staff, including kitchen service, grounds, and housekeeping employees less than sixteen (16) years of age, must be in compliance with Colorado labor laws.

F. AT LEAST ONE STAFF MEMBER WITH CURRENT DEPARTMENT-APPROVED MEDICATION ADMINISTRATION TRAINING AND DELEGATION MUST BE ON DUTY AT ALL TIMES.

~~E~~G. First Aid and CPR Certified Staff

1. For every thirty (30) or fewer children in attendance, there must be at least one (1) staff member who holds ~~a~~ current Department-approved First Aid, and ~~safety certificate that includes~~ CPR for all ages of children. Such individuals must be with the children at all times when the center is in operation. If children are at different locations, there must be a First Aid and CPR qualified staff member at each location. In a day camp, all staff MEMBERS ~~that~~ WHO are eighteen (18) years of age and ~~over~~ OLDER ~~are required to~~ MUST have ~~a~~ current DEPARTMENT-APPROVED First Aid and CPR certificate~~S from a nationally recognized provider~~. Uncertified staff MEMBERS must work with another certified staff member.

2. All employees caring for children, not required by rule to be certified in First Aid and CPR, must complete a DEPARTMENT-APPROVED basic First Aid and CPR module within THIRTY (30) calendar days of employment and the module must be renewed every TWO (2) years.

7.712.43 Required Staff Supervision [Rev. eff. 6/1/07]

A. A program director must be present at the center at least 60~~%~~ PERCENT of any day the center is in operation. An individual who meets one of the following requirements must be present for the remaining 40~~%~~ PERCENT of the day:

1. A QUALIFIED program leader who is at least twenty-one (21) years of age ~~and has at least three (3) months of full-time or equivalent part time verifiable experience working with children~~; OR

2. A QUALIFIED program leader who is at least eighteen (18) years of age and has at least one (1) year (1820 HOURS) full-time or equivalent part-time verifiable experience working with children; or

3. Two QUALIFIED program leaders who are at least nineteen (19) years of age ~~and have at least three (3) months of full-time or equivalent part-time verifiable experience working with children~~.

B. If the program director cannot be present 60 PERCENT ~~%~~ of any day the center is in operation, an individual who meets program director qualifications must substitute for the director.

C. There must be at least one (1) program leader providing supervision with each group of THIRTY (30) or fewer children cared for by the center. ~~At all times, staff must be actively supervising children.~~ WHEN FOUR (4) YEAR OLDS ARE IN ATTENDANCE, THERE MUST BE AT LEAST ONE PROGRAM LEADER PROVIDING SUPERVISION WITH EACH GROUP OF TWENTY-FOUR (24) OR FEWER CHILDREN CARED FOR BY THE CENTER.

D. THE MAXIMUM GROUP SIZE FOR CHILDREN OVER THE AGE OF FIVE (5) IS THIRTY (30) CHILDREN. WHEN FOUR (4) YEAR OLDS ARE IN ATTENDANCE THE MAXIMUM GROUP SIZE IS TWENTY-FOUR (24). WHEN THE CENTER HAS THE CAPACITY TO CARE FOR MULTIPLE GROUPS OF CHILDREN, THEY MUST BE SEPARATED INTO DEVELOPMENTALLY AND AGE APPROPRIATE ACTIVITIES. GROUPS ARE NOT REQUIRED TO BE SEPARATED FROM EACH OTHER BY PERMANENT OR PORTABLE DIVIDERS OR WALLS.

E. GROUP SIZE FOR CHILDREN IN CARE MAY BE EXCEEDED FOR ATTENDANCE TIME, MEAL AND SNACK TIME, SPECIAL OCCASIONS AND ACTIVITIES. THE ROOM CAPACITY MUST NOT BE EXCEEDED.

~~D~~F. There must be one (1) staff member for each fifteen (15) children in attendance. WHEN FOUR (4) YEAR OLDS ARE IN ATTENDANCE, THERE MUST BE AT LEAST ONE STAFF MEMBER FOR EACH TWELVE (12) OR FEWER CHILDREN CARED FOR BY THE CENTER.

Ages of Children	Number of Staff	Maximum Group Size
Mixed age group with 4 year olds	1 staff member to 12 children	24 children
5 years and older	1 staff member to 15 children	30 children

~~E~~G. At any time when nine (9) or more children are ~~present~~ IN CARE at the center, there must be at least one (1) program leader actively supervising children and another responsible person at least sixteen (16) years of age on the premises. When EIGHT ~~8~~ or fewer children are present, there must be at least ONE (1) program leader on duty and a second staff member on call ~~and~~ WHO IS immediately available in an emergency.

~~F~~H. At all times, school-age child care personnel must be ~~actively~~ DIRECTLY supervising the children.

~~G~~I. In a mobile day camp program, ~~or~~ an outdoor-based day camp program, OR ANYTIME A BUILDING BASED PROGRAM IS AWAY FROM THE FACILITY, the staff ratio given at Section 7.712.43, ~~C and D~~F, must be maintained, but there must be at least two (2) program leaders at all times with the children.

7.712.44 Volunteers [Rev. eff. 11/1/98]

A. If volunteers are used by the center, there must be a clearly established policy in regard to their function, orientation, and supervision.

B. REFERENCES MUST BE OBTAINED FOR ~~I~~f volunteers WHO are counted in the staff to child ratio, ~~references must be obtained for them~~ consistent with Section ~~7.712.41, D~~7.701.33B.

C. ~~Volunteers must have qualifications suitable to the tasks assigned~~ VOLUNTEERS THAT WORK MORE THAN FOURTEEN (14) CALENDAR DAYS (112 HOURS) PER CALENDAR YEAR WHO ARE USED TO MEET STAFF TO CHILD RATIO MUST BE EQUALLY QUALIFIED AS A PROGRAM DIRECTOR, PROGRAM LEADER OR PROGRAM AIDE AND MUST HAVE COMPLETE STAFF RECORDS AS DEFINED IN 7.712.82.

D. Volunteers UNLESS EQUALLY QUALIFIED must be~~:~~

~~1.~~ ~~D~~irectly supervised by a program director or program leader~~; and~~.

~~2~~E. VOLUNTEERS MUST BE Given instruction as to the center's policies and procedures.

7.712.5 CHILD CARE SERVICES

7.712.51 Admission Procedure [Rev. eff. 6/1/07]

A. The center can accept children only of the ages AND CAPACITY for which it has been licensed. ~~At no time can the number of children in attendance exceed the number for which the center has been licensed.~~

B. Admission procedures must be completed prior to the child's ~~attendance~~ FIRST DAY IN CARE at the center and must include:

1. Completion of the registration information for inclusion in the child's record, as required in Section 7.712.81; and

2. Providing the parent(s)/ ~~or~~ guardian(s) with a copy of the center's policies and procedures.

7.712.52 Health Care [Rev. eff. 6/1/07]

~~A. Statements of Health Status~~

~~1. At the time of admission, health information must be provided for every child entering the center, including any known drug reactions and allergies, medications being taken, and any special diets required. The name, address, and phone number of the child's physician and dentist must be provided.~~

A. STATEMENTS OF HEALTH STATUS

1. AT THE TIME OF ENROLLMENT, THE PARENT(S)/GUARDIAN(S) MUST PROVIDE FOR EACH CHILD ENTERING THE CENTER:

a. A COMPLETE HEALTH HISTORY FOR EACH CHILD, INCLUDING ANY COMMUNICABLE DISEASES, CHRONIC ILLNESSES OR INJURIES, KNOWN DRUG REACTIONS AND ALLERGIES, CURRENT MEDICATIONS AND ANY SPECIAL DIETS NEEDED, THE NAME ADDRESS AND PHONE NUMBER FOR THE CHILD'S HEALTH CARE PROVIDER AND DENTIST.

b. DOCUMENTATION OF IMMUNIZATION STATUS OR EXEMPTION AS REQUIRED BY COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE). IMMUNIZATIONS MUST BE UPDATED AND RECORDED AS SPECIFIED ON THE CERTIFICATE OF IMMUNIZATION OR ALTERNATE CERTIFICATE OF IMMUNIZATION AS SUPPLIED AND APPROVED BY THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE). COLORADO LAW REQUIRES PROOF OF IMMUNIZATION BE PROVIDED PRIOR TO OR ON THE FIRST DAY OF ADMISSION.

1) CHILD CARE CENTERS AS DEFINED IN SECTION 26-6-102 (1.5), C.R.S., LOCATED AT A SKI AREA, ARE EXEMPT FROM OBTAINING IMMUNIZATION RECORDS FOR STUDENTS WHEN ALL OF THE FOLLOWING CONDITIONS ARE MET:

a) STUDENTS ATTEND FOR FIFTEEN (15) DAYS OR LESS IN A FIFTEEN-CONSECUTIVE-DAY PERIOD, NO MORE THAN TWICE IN A CALENDAR YEAR; AND

b) AT LEAST SIXTY (60) CALENDAR DAYS SEPARATE THE TWO SESSIONS WITHIN THE CALENDAR YEAR; AND

c) THE CENTER NOTIFIES PARENTS/GUARDIANS THAT NON-IMMUNIZED CHILDREN ARE ENROLLED ON THE ABOVE SHORT-TERM BASIS.

2. ~~At the time of admission, information regarding all immunizations a child has had, including month and year each immunization was administered, must be provided to the center, or a plan must be developed with the parent or guardian for submitting the information within thirty (30) days of enrollment. Immunizations must be recorded on the Certificate of Immunization or alternate approved immunization form supplied and approved by the Colorado Department of Public Health and Environment (CDPHE) and kept on file at the center~~ THE CENTER MUST INFORM ITS CHILD CARE HEALTH CONSULTANT (CCHC) PRIOR TO THE FIRST DAY OF CARE OF THE ENROLLMENT OF A CHILD WITH SPECIAL HEALTH CARE NEEDS, IF KNOWN, SO STAFF RECEIVES TRAINING, DELEGATION AND SUPERVISION AS INDICATED BY THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

3. If the center is located at an elementary school and all the children attend that school, the immunization records may be maintained at the school office but must be accessible to CENTER STAFF MEMBERS AND licensing specialists DURING THE HOURS THE CENTER IS OPEN.

B. Emergency Procedures

1. Written authorization for emergency medical care must be in the child's file as required in Section 7.712.81.

2. WHEN ACCIDENTS, INJURIES, OR ILLNESSES OCCUR, THE PROGRAM DIRECTOR OR RESPONSIBLE ADULT IN CHARGE MUST NOTIFY THE CHILD'S PARENT OR GUARDIAN AND, IF NECESSARY, SEEK MEDICAL CARE FOR THE CHILD. ~~If a child requires medical attention away from the program site, the child's parent(s) or guardian(s) must be notified, and necessary medical care sought from a licensed physician or medical facility.~~

3. Children too ill OR INJURED to remain in the group must be comfortably cared for and supervised until they can be PICKED UP OR SIGNED OUT FROM THE PROGRAM. ~~taken home or suitably cared for elsewhere.~~ For building-based programs, a cot or mat, plus a sheet and blanket must be provided.

4. A responsible staff member must be ~~present or within hearing distance of~~ DIRECTLY SUPERVISING any ill OR INJURED child.

5. ~~First aid supplies must be available at the program site and in all vehicles operated by the center.~~ PORTABLE FIRST AID KITS MUST BE AVAILABLE TO STAFF AT ALL TIMES, INCLUDING FIELD TRIPS, AND MUST BE LOCATED OUT OF REACH OF CHILDREN AND MAINTAINED IN A SANITARY CONDITION. FIRST AID KITS MUST BE CHECKED AND RESTOCKED ON AT LEAST A MONTHLY BASIS.

C. Medication

1. ANY UN-EXPIRED ROUTINE MEDICATION, ~~P~~Prescription and non-prescription (over-the-counter) medications ~~for eyes or ears, all oral medications, topical medications, inhaled medications, and certain emergency injections can~~ MUST be administered only with ~~the~~ A CURRENT written order of a ~~person~~ HEALTH CARE PROVIDER with prescriptive authority and with written parental consent. ~~Centers may administer medications for chronic health conditions or emergency situations~~ HOME REMEDIES, INCLUDING HOMEOPATHIC MEDICATIONS, MUST NEVER BE GIVEN TO A CHILD.

2. The written order by the prescribing practitioner must include:

   a. Child's name;

   b. Licensed prescribing practitioner name, telephone number, and signature;

   c. Date authorized;

   d. Name of medication and dosage;

   e. Time of day medication is to be given;

   f. Route of medication;

   g. Length of time the medication is to be given;

   h. Reason for medication (unless this information needs to remain confidential);

   i. Side effects or reactions to watch for; and

   j. Special instructions.

3. Medications must be kept in the original labeled bottle or container. Prescription medications must contain the original pharmacy label. ~~that lists:~~

   ~~a. Child's name;~~

   ~~b. Prescribing practitioner's name;~~

   ~~c. Pharmacy name and telephone number;~~

   ~~d. Date prescription was filled;~~

   ~~e. Expiration date of the medication;~~

   ~~f. Name of the medication;~~

   ~~g. Dosage;~~

   ~~h. How often to give the medication; and~~

   ~~i. Length of time the medication is to be given.~~

4. Over-the-counter medication must be kept in the originally labeled container and be labeled with the child's first and last name.

45. In the case medication needs to be given on an ongoing, long-term basis, the authorization and consent forms must be reauthorized on an annual basis. Any changes in the original medication authorization require a new written order by the prescribing practitioner and a change in the prescription label. ~~Verbal orders taken from the licensed prescriber may be accepted only by a licensed registered nurse.~~

~~56~~. ~~All child care staff designated by the center director to give medications must complete the 4-hour Department-approved medication administration training and have current First Aid and universal precautions training.~~ STAFF DESIGNATED BY THE PROGRAM DIRECTOR TO GIVE MEDICATIONS MUST COMPLETE THE DEPARTMENT-APPROVED MEDICATION ADMINISTRATION TRAINING AND HAVE CURRENT ANNUAL DELEGATION OR MORE OFTEN AS DETERMINED BY THE CHILD CARE HEALTH CONSULTANT. DELEGATION MUST BE FROM THE CENTER'S CURRENT CHILD CARE HEALTH CONSULTANT WHO MUST OBSERVE AND DOCUMENT THE COMPETENCY OF EACH STAFF MEMBER INVOLVED IN MEDICATION ADMINISTRATION. ALL STAFF ADMINISTERING MEDICATION MUST HAVE CURRENT DEPARTMENT-APPROVED CPR, FIRST AID TRAINING PRIOR TO ADMINISTERING MEDICATION WITH THE FOLLOWING EXCEPTIONS:

a. STAFF DETERMINED BY THE PROGRAM DIRECTOR, IN CONSULTATION WITH THE CHILD CARE HEALTH CONSULTANT, TO BE RESPONSIBLE FOR PROVIDING ROUTINE EMERGENCY MEDICATIONS COVERED IN THE APPROVED MEDICATION ADMINISTRATION TRAINING FOR THE TREATMENT OF SEVERE ALLERGIES OR INHALED MEDICATIONS FOR THE TREATMENT OF ASTHMA MUST RECEIVE TRAINING AND DELEGATION FROM THEIR CHILD CARE HEALTH CONSULTANT FOR THOSE MEDICATIONS ONLY. STAFF MUST THEN PROVIDE THOSE MEDICATIONS TO CHILDREN BASED ON THE INSTRUCTIONS FROM THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

b. STAFF DETERMINED BY THE DIRECTOR, IN CONSULTATION WITH THE CHILD CARE HEALTH CONSULTANT, TO BE RESPONSIBLE FOR PROVIDING MEDICATIONS NOT COVERED IN THE APPROVED MEDICATION ADMINISTRATION TRAINING ~~SHALL~~ MUST ALSO BE PERMITTED TO ADMINISTER MEDICATIONS AND/OR MEDICAL TREATMENTS SUCH AS EMERGENCY SEIZURE MEDICATION, INSULIN OR OXYGEN WITH INDIVIDUALIZED TRAINING AND DELEGATION FROM THE CHILD CARE HEALTH CONSULTANT BASED ON INSTRUCTIONS FROM THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

c. STAFF MAY BE TRAINED AND DELEGATED IN THE ADMINISTRATION OF A SINGLE RESCUE MEDICATION OR RESCUE MEDICAL INTERVENTION BY THE CENTER'S CHILD CARE HEALTH CONSULTANT. SUCH TRAINING AND DELEGATION ~~SHALL~~ MUST QUALIFY THE STAFF MEMBER TO PROVIDE A RESCUE MEDICATION OR TREATMENT FOR A SPECIFIC CHILD BASED ON INSTRUCTIONS FROM THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

~~67~~. ~~Medications must be kept in an area inaccessible to children. Controlled medications must be counted and safely secured, and specific policies regarding their handling require special attention in the center's policies. Access to these medications must be limited.~~ ALL MEDICATIONS, EXCEPT THOSE MEDICATIONS SPECIFIED IN THE DEPARTMENT'S APPROVED MEDICATION ADMINISTRATION TRAINING AS EMERGENCY MEDICATIONS, MUST BE KEPT IN AN AREA INACCESSIBLE TO CHILDREN, BUT AVAILABLE TO STAFF TRAINED IN ADMINISTERING MEDICATION. IF REFRIGERATION IS REQUIRED, THE MEDICATION MUST BE STORED IN EITHER A SEPARATE REFRIGERATOR OR A LEAK PROOF CONTAINER IN A

DESIGNATED AREA OF A FOOD STORAGE REFRIGERATOR, SEPARATE FROM FOOD AND INACCESSIBLE TO CHILDREN. CONTROLLED MEDICATIONS MUST BE COUNTED AND SAFELY SECURED, AND SPECIFIC POLICIES REGARDING THEIR HANDLING REQUIRE SPECIAL ATTENTION IN THE CENTER'S POLICIES. ACCESS TO THESE MEDICATIONS MUST BE LIMITED (SEE SECTION 12-22-318, C.R.S.).

~~7~~8. EMERGENCY MEDICATIONS MUST BE STORED IN ACCORDANCE WITH THE CHILD CARE HEALTH CONSULTANT'S RECOMMENDATION. EMERGENCY MEDICATIONS ARE NOT REQUIRED TO BE STORED IN A LOCKED AREA. EMERGENCY MEDICATIONS MAY BE STORED IN AN AREA EASILY ACCESSIBLE AND IDENTIFIABLE TO STAFF BUT OUT OF REACH OF CHILDREN. WHEN AWAY FROM THE CLASSROOM, STAFF MUST CARRY EMERGENCY MEDICATIONS IN A BAG ON THEIR PERSON.

~~8~~9. A written medication log must be kept for each child. This log is part of the child's records. The log must contain the following:

a. Child's name;

b. Name of the medication, dosage, and route;

c. Time medication is to be given;

d. Special instructions;

e. Name and initials of the individuals giving the medication; and

f. Notation if the medication was not given and the reason.

~~9~~10. Topical preparations such as petroleum jelly AND~~, diaper rash ointments, sunscreen,~~ bug sprays~~, and other ointments~~ may be administered to children with written parental authorization. These preparations may not be applied to open wounds or broken skin unless there is a written order by the prescribing practitioner.

~~10~~11. The center must have a written policy on the storage and access of inhalers and epinephrine AUTO INJECTORS for all children in care. This policy must be reviewed by the C~~c~~hild C~~c~~are H~~h~~ealth C~~c~~onsultant.

~~11~~12. The center may, with written parental consent and authorization of the prescribing health care provider, permit children who have asthma to carry their own inhalers or children who are at risk of anaphylaxis to carry their own epinephrine, and use them as directed. The center must have a specific written policy on the storage and access of inhalers and epinephrine for children who are permitted to carry or self-administer these medications. The policy must include a contract with the parent(s)/guardian(s), and child acknowledgement, assigning levels of responsibility of each individual. THIS CONTRACT MUST ACCOMPANY orders for the medication from the health care provider, along with confirmation from ~~the health care provider~~ CHILD CARE HEALTH CONSULTANT that the student has been instructed and is capable of self- administration of the prescribed medications.

~~12~~13. All staff MEMBERS AND CHILD CARE HEALTH CONSULTANTS must be aware of which children have asthma AND SEVERE ALLERGIES, and which of those may ADMINISTER ~~use~~ their own inhaler~~s~~ OR AUTO INJECTORS ~~as needed~~. ~~All staff must be aware of which children are at risk of anaphylaxis, and which of those may administer their own epinephrine as needed.~~

D. Sun Protection

1. The center must OBTAIN THE PARENT/GUARDIAN'S WRITTEN AUTHORIZATION AND INSTRUCTIONS FOR APPLYING SUNSCREEN OR USE OF ANOTHER FORM OF PARENT/GUARDIAN APPROVED SUN PROTECTION. ~~supervise that sunscreen is applied to children prior to outside play or outside activities unless parents provide written notice that they have applied the sunscreen themselves~~. A ~~doctor's~~ HEALTH CARE PROVIDERS permission is not needed to use sunscreen at the center.

2. When supplied for an individual child, the sunscreen must be labeled with the child's first and last name.

3. If sunscreen is provided by the center, parents must be notified in advance, in writing, of the type of sunscreen the center will use.

4. Children may apply sunscreen to themselves under the direct supervision of a staff member.

5. THE CENTER MUST APPLY SUNSCREEN, HAVE THE CHILD APPLY SUNSCREEN, HAVE THE PARENT OR GUARDIAN APPLY SUNSCREEN, OR USE ANOTHER FORM OF PARENT OR GUARDIAN APPROVED SUN PROTECTION FOR CHILDREN PRIOR TO CHILDREN GOING OUTSIDE. SUNSCREEN MUST BE REAPPLIED AS DIRECTED BY THE PRODUCT LABEL.

E. Control of Communicable Illness

1. When children show signs of ~~severe or~~ communicable illness, they must be separated from other children, the parent(s) or guardian(s) notified, and a doctor or medical facility consulted as needed regarding treatment.

2. Staff members with a communicable illness must not be permitted to work or have contact with children or other staff members if the illness could be readily transmitted during normal working activities.

3. When children have been diagnosed with a communicable illness such as hepatitis, measles, mumps, meningitis, diphtheria, rubella, salmonella, tuberculosis, giardia or shigella, the center must immediately notify the local or state department of health, all staff members, and all parents and guardians of children in care. Children's confidentiality must be maintained. THE PROGRAM DIRECTOR MUST ASK PARENTS TO REPORT EXPOSURE OF A CHILD TO COMMUNICABLE ILLNESS OUTSIDE OF THE CENTER, AND THE CHILD SHOULD BE EXCLUDED FROM THE CENTER FOR THE PERIOD OF TIME PRESCRIBED BY THE CHILD'S HEALTH CARE PROVIDER OR BY THE LOCAL HEALTH DEPARTMENT.

7.712.53 Personal Hygiene

~~A. Hand Washing/Clothing~~

~~Children's hand washing must be supervised and must be taught when necessary.~~

~~B~~A. ~~Diapering~~ CHILDREN WITH SPECIFIC TOILETING NEEDS

The center must have one or more designated ~~diaper~~ change areas for all children in need of ~~diaper~~ changing. The ~~diaper~~ change area must:

1. MEET A CHILD'S INDIVIDUAL AND DEVELOPMENTAL NEEDS AND ~~B~~be ~~a minimum of thirty six (36) by eighteen (18) inches in size and~~ large enough to accommodate the size of the child;

2. Have a place inaccessible to children for storing all ~~diaper~~ change supplies and disinfecting solutions and products; and

3. Have ~~a~~ sufficient supplIES~~y of diapers at all times~~.

7.712.54 Food and Nutrition

A. ~~Drinking water must be freely available to children at all times.~~ ALL MEALS AND SNACKS PROVIDED BY THE CENTER MUST MEET CURRENT USDA CHILD AND ADULT CARE FOOD PROGRAM MEAL PATTERN REQUIREMENTS AND BE OFFERED AT SUITABLE INTERVALS. CHILDREN WHO ARE AT THE CENTER FOR MORE THAN 4 HOURS, DAY OR EVENING, MUST BE OFFERED A MEAL.

B. ~~Nutritious snacks must be served at suitable intervals.~~ CENTERS MUST NOT PROVIDE SUGAR SWEETENED BEVERAGES TO CHILDREN. THESE ARE LIQUIDS THAT HAVE BEEN SWEETENED WITH VARIOUS FORMS OF SUGARS THAT ADD CALORIES AND INCLUDE, BUT ARE NOT LIMITED TO: SODA, FRUITADES, FRUIT DRINKS, FLAVORED MILKS, AND SPORTS AND ENERGY DRINKS.

C. ~~Children who are at the center for more than four (4) hours, day or evening, or come directly to the center from a morning kindergarten class must receive a meal.~~ IF 100% FRUIT JUICE, WHICH IS NOT A SUGAR SWEETENED BEVERAGE, IS OFFERED AS PART OF MEALS AND/OR SNACKS, IT MUST BE LIMITED TO NO MORE THAN TWICE PER WEEK.

1. ~~If the center provides a meal, it must meet one third of the child's daily nutritional needs.~~

~~2. The center staff must check lunches brought from children's homes to determine if they meet one third of the child's daily nutritional needs.~~

~~3. If the child fails to bring a meal, or if the meal meets less than one-third of the child's daily nutritional needs, the center must supply an adequate meal.~~

D. ~~All food prepared by the center must be from sources approved by the health authority. All food must be stored, prepared, and served in such a manner as to be clean, wholesome, free from spoilage, and safe for human consumption. Home canned foods cannot be served.~~ IN CENTERS THAT DO NOT REGULARLY PROVIDE A MEAL, IF A CHILD BRINGS A MEAL FROM HOME THAT DOES NOT APPEAR TO MEET CURRENT USDA CHILD AND ADULT CARE FOOD PROGRAM MEAL PATTERN REQUIREMENTS, THE CENTER MUST HAVE FOODS AVAILABLE TO OFFER AS A SUPPLEMENT TO THAT MEAL.

E. MEAL MENUS MUST BE PLANNED AT LEAST ONE WEEK IN ADVANCE, DATED, AND AVAILABLE TO PARENTS. AFTER USE, MENUS MUST BE FILED AND RETAINED FOR THREE (3) MONTHS. RECORDS MUST BE AVAILABLE FOR PERIODIC REVIEW AND EVALUATION.

F. THE SIZE OF SERVINGS MUST BE SUITABLE FOR THE CHILD'S AGE AND APPETITE, AND SUFFICIENT TIME MUST BE ALLOWED SO THAT MEALS ARE UNHURRIED.

7.712.55 ~~Discipline~~GUIDANCE

A. ~~Discipline~~ GUIDANCE must be appropriate and constructive or educational in nature and may include such measures as diversion, separation of the child from problem situations talking with the child about the situation, or praise for appropriate behavior

B. Children must not be subjected to physical or emotional harm or humiliation

C. The director must not use, or permit a staff ~~person~~ MEMBER or child to use, corporal or other harsh punishment, including but not limited to pinching, shaking, spanning punching, biting, kicking, rough handling, hair pulling, or any humiliating or frightening method of discipline.

D. ~~Discipline~~ GUIDANCE must not be associated with food, rest, or toileting ~~No c~~ChildREN should NEVER be punished for toileting accidents. ~~Food~~ CHILDREN must not be denied FOOD ~~to~~ or forced ~~upon a child~~ TO EAT as a disciplinary measure.

E. Separation, when used as ~~discipline~~GUIDANCE, must ~~be brief~~ NOT EXCEED FIVE MINUTES and MUST BE appropriate for the child's age ~~and circumstances~~. The child must be in a safe, lighted, well-ventilated area and be within SIGHT AND hearing ~~and vision~~ of aN ~~staff member~~ADULT. The child must not be isolated in a locked OR CLOSED ~~room, bathroom, closet, or pantry~~AREA.

F. Verbal abuse and derogatory remarks about the child are not permitted.

G. Authority ~~to discipline~~ FOR GUIDANCE must not be delegated to other children, and the center must not sanction one child punishing another child.

H. PHYSICAL EXERCISE MUST NOT BE USED AS A FORM OF GUIDANCE.

7.712.56 Transportation [Rev. eff. 6/1/07]

A. Transportation Provided by the Center

1. The center is responsible for any children it transports and must abide by applicable State and Federal motor vehicle laws.

2. The center must obtain written permission from parents/ ~~or~~ guardians for any transportation of their child during child care hours.

3. The number of staff members who accompany children when being transported in the vehicle must meet the child care staff ratio found at Section 7.712.43. The driver of the center vehicle is considered a staff member.

4. Children must not be permitted to ride in the front seat of a vehicle unless they are secured in a seat belt that conforms to all applicable Federal Motor Vehicle Safety Standards. Children must remain seated while the vehicle is in motion.

5. Children must be loaded and unloaded out of the path of moving vehicles.

6. Children must not be permitted to stand or sit on the floor of a moving vehicle, and their arms, legs, and heads must remain inside the vehicle at all times.

7. Transportation arrangements for school-age children must be by agreement between the center and the children's parents/GUARDIANS, i.e., whether the children can walk, ride a bicycle or travel in a car. The center must monitor the children to ~~be sure~~ ENSURE they arrive at the center when expected and follow up on their whereabouts if they are late.

Written permission from parents or guardians for their children to attend community functions after school hours must include agreements regarding transportation.

8. Prior to a field trip or other excursion, the center must obtain information on liability insurance from parents/GUARDIANS and staff who transport children in their own cars and verify that all drivers have valid driver's licenses.

B. Requirements for Vehicles

1. Any vehicle used for transporting children to and from the center or during program activities must meet the following requirements:

   a. The vehicle must be enclosed and have door locks;

   b. The seats of the vehicle must be constructed and installed according to the vehicle manufacturer's specifications; AND

   c. The vehicle must be kept in satisfactory condition to assure the safety of occupants. Vehicle tires, brakes, and lights must meet safety standards set by the Colorado Department of Revenue, Motor Vehicle Division; and

   d. ~~Seating must be comfortable, with a seat of at least ten (10) inches wide for each child.~~ MODIFICATIONS TO VEHICLES INCLUDING, BUT NOT LIMITED TO, THE ADDITION OF SEATS AND SEAT BELTS MUST BE COMPLETED BY THE MANUFACTURER OR AN AUTHORIZED REPRESENTATIVE OF THE MANUFACTURER. DOCUMENTATION OF SUCH MODIFICATIONS MUST BE AVAILABLE FOR REVIEW.

2. In passenger vehicles~~, which include automobiles, station wagons and vans~~ with a manufacturer's established capacity of sixteen (16) or fewer passengers and less than 10~~.~~,000 pounds, the following is required:

   a. Each child must be restrained in an individual seat belt OR CHILD RESTRAINT SYSTEM;

   b. ~~Two or more children must never be restrained in one seat belt~~ THE PROVIDER MUST NOT TRANSPORT MORE CHILDREN THAN ANY VEHICLE IS ABLE TO SAFELY ACCOMMODATE WHEN CHILD RESTRAINT SYSTEMS AND SEAT BELTS ARE PROPERLY INSTALLED AND USED IN THE VEHICLE;

   c. Lap belts must be secured low and tight across the upper thighs and under the belly; and

   d. Children must be instructed and required to keep the seat belt properly fastened and adjusted.

3. In vehicles with a manufacturer's established capacity of sixteen (16) or more passengers, seat belts for passengers are not required, but ~~shall~~ MUST be used if provided.

C. Requirements for Drivers of Vehicles

1. All drivers of vehicles transporting children must comply with applicable laws of the Colorado Department of Revenue, Motor Vehicle Division, and ordinances of the municipality in which the child care program is operated.

2. All drivers of vehicles owned or leased by the center in which children are transported must have a current Department-approved First Aid and safety certificate that includes CPR for all ages of children

3. In each vehicle used to transport children, drivers must have access to a First Aid kit.

4. The driver must ensure that all doors are secured at all times when the vehicle is moving.

5. The driver must make a good faith effort to ensure that each child is properly belted throughout the trip.

6. THE DRIVER MUST NOT EAT, SMOKE OR USE A CELLULAR DEVICE WHILE DRIVING.

7. THE REQUIRED STAFF TO CHILD RATIO MUST BE MAINTAINED AT ALL TIMES.

8. ALL DRIVERS MUST BE AT LEAST 20 YEARS OF AGE.

9. DRIVERS MUST COMPLETE A MINIMUM OF FOUR HOURS OF DRIVER TRAINING PRIOR TO TRANSPORTING CHILDREN. THE DRIVER TRAINING CURRICULUM MAY BE DEVELOPED AND ADMINISTERED BY THE CENTER AND MUST INCLUDE AT A MINIMUM: BEHIND THE WHEEL TRAINING; PARTICIPANT TRANSPORT ATTENDANCE PROCEDURES INCLUDING TAKING ATTENDANCE AT THE DESTINATION; MANAGING BEHAVIORAL ISSUES; LOADING AND UNLOADING PROCEDURES; DAILY VEHICLE INSPECTION PROCEDURE; PROPER TIRE INFLATION; EMERGENCY EQUIPMENT AND HOW TO USE IT; ACCIDENT PROCEDURES; PASSENGER ILLNESS PROCEDURES; PROCEDURES FOR BACKING UP; AND VEHICLE EVACUATION.

7.712.6 PROGRAM ACTIVITIES

7.712.61 Activity Schedules [Rev. eff. 6/1/07]

A. The center must provide parents/~~ or~~ guardians with a list of activities it offers.

B. Parents or guardians must be given the opportunity to indicate to the staff of the center if they do not want their child to participate in an activity.

C. Parents/~~ or~~ guardians must be notified in advance of all activities that will occur away from the center.

D. Television viewing, including videos, should not be permitted without the approval of a child's parents/GUARDIANS, who must be advised of the center's policy regarding television and video viewing.

E. A mobile day camp program must establish a daily itinerary and make available a copy to each child's parent or guardian. A copy must also be or file at the program's headquarters. The itinerary should be followed as closely as possible. In case of an emergency or change in the itinerary, the headquarters of the mobile day camp must be notified immediately. Parents/GUARDIANS must be instructed to contact the main headquarters to determine the exact location of their child.

7.712.62 PHYSICAL ACTIVITY

A. DAILY PHYSICAL GROSS MOTOR ACTIVITIES, WITH OR WITHOUT EQUIPMENT OR MATERIALS, MUST BE PROVIDED OUTDOORS, OR INDOORS DURING INCLEMENT WEATHER, FOR NO LESS THAN 60 MINUTES TOTAL FOR PROGRAMS OPERATING OVER FIVE HOURS PER DAY. ACTIVITIES DO NOT HAVE TO OCCUR ALL AT ONE TIME.

B. DAILY PHYSICAL GROSS MOTOR ACTIVITIES, WITH OR WITHOUT EQUIPMENT OR MATERIALS, MUST BE PROVIDED OUTDOORS OR INDOORS DURING INCLEMENT WEATHER, FOR NO LESS THAN 30 MINUTES TOTAL FOR PROGRAMS OPERATING FROM THREE TO FIVE HOURS PER DAY. ACTIVITIES DO NOT HAVE TO OCCUR ALL AT ONE TIME.

C. DAILY PHYSICAL GROSS MOTOR ACTIVITIES, WITH OR WITHOUT EQUIPMENT OR MATERIALS, MUST BE PROVIDED OUTDOORS OR INDOORS DURING INCLEMENT WEATHER, FOR NO LESS THAN 15 MINUTES TOTAL FOR PROGRAMS OPERATING LESS THAN 3 HOURS PER DAY. ACTIVITIES DO NOT HAVE TO OCCUR ALL AT ONE TIME.

7.712.63 SCREEN TIME AND MEDIA USE

A. ALL MEDIA THAT CHILDREN ARE EXPOSED TO MUST NOT CONTAIN EXPLICIT LANGUAGE OR TOPICS.

B. ALL TELEVISION, RECORDED MEDIA, COMPUTER, TABLET, CELL PHONES, VIDEO GAMES AND OTHER MEDIA DEVICES ARE PROHIBITED DURING SNACK OR MEAL TIMES.

C. THE CENTER MUST DEVELOP A MEDIA AND INTERNET USEAGE PLAN OUTLINING SCREEN TIME AND MEDIA USE RELATED TO THEIR CURRICULUM. THE MEDIA PLAN MUST HAVE INFORMATION ON ONGOING COMMUNICATION WITH CHILDREN ABOUT SAFE ONLINE PRACTICES. THE CENTER MUST OBTAIN A SIGNED DOCUMENT STATING THAT THE PARENTS/GUARDIANS HAVE RECEIVED THIS PLAN, AND AGREE TO THE ACTIVITIES DESCRIBED IN THE PLAN.

7.712.6~~2~~4 Equipment and Materials [Rev. eff. 6/1/07]

A. In a building based school-age child care center, a rest time and rest equipment must be provided for school-age children who require a rest time.

B. Children at the center must have access to age-appropriate materials and equipment from at least the following categories:

1. Activity supplies;

2. Manipulatives and games;

3. Recreation equipment;

4. Library items; and

5. Science equipment and materials.

C. Children must wear helmets when riding scooters, bicycling, skateboarding, or rollerblading.

7.712.6~~3~~5 Field Trips [Rev. eff. 11/1/98]

A. ~~The program may include field trips, where children and staff leave the center to visit some site in the community.~~ On a field trip or during a mobile school-age child care program:

1. THE CENTER MUST NOTIFY THE CHILDREN'S PARENTS /GUARDIANS IN ADVANCE OF ANY FIELD TRIP. THE Staff-child ratios FOUND AT SECTION 7.712.43.C, D, I must be maintained at all times;

2. ALL GROUPS OF ~~C~~Children must be ~~actively~~ DIRECTLY supervised BY A QUALIFIED PROGRAM DIRECTOR OR PROGRAM LEADER at all times;

3. An accurate itinerary OF EACH FIELD TRIP must remain at the ~~headquarters/office of the~~ center; ~~and~~

4. The staff must have ~~with them on a field trip~~ the following information about each child: PARENTS/GUARDIANS CONTACT INFORMATION, HEALTH CARE PROVIDER'S name, address, and phone number~~, of the child's physician or other appropriate health care professional~~ and the written authorization from parent~~(~~s~~)~~/ ~~or~~ guardian~~(~~s~~)~~ for emergency medical care~~.~~;

5. IF CHILDREN ATTENDING THE FIELD TRIP REQUIRE MEDICATIONS BE ADMINISTERED DURING THE FIELD TRIP OR HAVE SPECIAL HEALTH NEEDS, A STAFF MEMBER WITH CURRENT MEDICATION ADMINISTRATION TRAINING AND DELEGATION MUST ATTEND ON THE FIELD TRIP;

6. A LIST OF ALL CHILDREN AND STAFF ON A FIELD TRIP MUST BE KEPT AT THE CENTER; AND

7. A COPY OF THE EMERGENCY DISASTER PLAN MUST ACCOMPANY STAFF OFFSITE.

~~B. A list of all children and staff on a field trip must be kept at the headquarters of the center.~~

7.712.64 - 7.712.66 None

7.712.7 BUILDING AND FACILITIES

7.712.71 Facility Requirements [Rev. eff. 6/1/07]

A. The mobile day camp program and the outdoor-based day camp program may use as a gathering place a public park or playground if the program primarily includes field trips away from the gathering place. Such programs must have a contingency plan for facilities to use during increment weather. The plan must be available to parents/GUARDIANS on a daily basis.

B. If a room(S) ~~or rooms~~ inside a building are used for indoor care~~, the following ratio must be maintained: open indoor play space of~~ at least thirty (30) square feet of floor space per child IS REQUIRED.~~, including space for readily movable furniture and equipment~~ Indoor space is exclusive of kitchen, toilet rooms, office, staff rooms, hallways and stairways, closets, laundry rooms, furnace rooms~~, and space occupied by permanent built-in cabinets and permanent storage shelves~~.

C. When a building is being used during the summer months by a center specifically as a gathering place at the beginning and end of the day, the thirty (30) square feet requirement need not apply. The total amount of time during which the number of children present may exceed the THIRTY (30) square feet requirement must not exceed THREE (3) hours. This time must be divided evenly between the morning and the evening.

D. The building based school-age child care center must provide access to an outdoor play area. The outdoor play area may be a city park or public school ground. The play area must meet the following requirements:

1. The center must provide a total outside play area of at least seventy-five (75) square feet per child for a minimum of one-third of the licensed capacity of the center or a minimum of 1500 square feet, whichever is greater;

2. Access to a shaded area, sheltered area, or inside building area must be provided at all times to guard children against the hazards of excessive sun and heat; and

3. The outdoor play area must be maintained in a safe condition by removing debris, dilapidated structures, and worn and broken play equipment. The center must identify hazardous, high-risk areas. These areas must be monitored to reduce the possibility of injury and accidents.

4. OUTDOOR PLAY AREAS PROVIDED BY THE CENTER MUST NOT HAVE EQUIPMENT THAT EXCEEDS SIX (6) FEET IN HEIGHT FOR ANY SURFACE AREA INTENDED FOR CHILDREN'S PLAY UNLESS EQUIPPED WITH A PROTECTIVE BARRIER TO PREVENT CHILDREN FROM FALLING.

5. ALL OUTDOOR CLIMBING EQUIPMENT OVER EIGHTEEN (18) INCHES PROVIDED BY THE CENTER MUST HAVE LEAST SIX (6) INCHES RESILIENT SURFACE THROUGHOUT THE USE ZONE.

~~E. A safe, comfortable place for relaxing and for sick children must be available at all times for children in care.~~

7.712.72 Toilet Facilities

A. ~~Boys and girls~~ CHILDREN ~~OF DIFFERENT GENDERS~~ must BE ALLOWED THE USE OF GENDER-SEGREGATED TOILET FACILITIES THAT ARE CONSISTENT WITH THEIR GENDER IDENTITY ~~have separate OR INDIVIDUAL, clearly identified toilet facilities~~, with toilets separated by partitions to provide privacy.

B. There must be a minimum of one (1) toilet per thirty (30) or fewer children for which the center is licensed. Hand-washing facilities must be available at the ratio of one (1) sink per thirty (30) or fewer children. AFTER FEBRUARY 1, 2018 ALL NEW CONSTRUCTION MUST HAVE A MINIMUM OF ONE (1) TOILET AND ONE (1) HAND WASHING SINK PER EVERY FIFTEEN (15) OR FEWER CHILDREN FOR WHICH THE CENTER IS LICENSED.

~~**7.712.73 Food Preparation Area**~~

~~Areas used for food preparation, dish and utensil washing, and storage must be in compliance with the requirements of the Colorado Department of Public Health and Environment or its local unit.~~

7.712.~~74~~73 Fire and Other Safety Requirements [Rev. eff. 4/1/15]

A. General Requirements

1. Buildings must be kept in good repair and maintained in a safe condition.

2. Major cleaning is prohibited in rooms occupied by children.

3. Volatile substances, such as gasoline, kerosene, fuel oil, and oil-based paints, firearms, explosives, and other hazardous items, must be stored away from the area used for child care and be inaccessible to children.

4. Combustibles, such as cleaning rags, mops~~,~~ and cleaning compounds, must be stored in well-ventilated areas separated from flammable materials and stored in areas inaccessible to children.

5. Closets, atticS, basementS, cellarS, furnace roomS~~,~~ and exit routes must be kept free from accumulation of extraneous materials.

6. All heating units, gas or electric, must be installed and maintained with safety devices to prevent fire, explosions, and other hazards. No open-flame gas or oil stoves, unscreened fireplaces, hot plates, or unvented heaters can be used for heating purposes. All heating elements, including hot water pipes, must be insulated or installed in such a way that children cannot come in contact with them. Nothing flammable or combustible can be stored within three (3) feet of a hot water heater or furnace.

7. Indoor and outdoor equipment, materials, and furnishings must be sturdy, safe and free of hazards.

8. Equipment, materials, and furnishings, including durable furniture such as tables and chairs, must be stored in a manner that is safe for children.

9. Extension cords cannot be used in place of permanent wiring.

10. Corridors, halls, stairs, and porches must be adequately lighted. Operable battery-powered lights must be provided in locations readily accessible to staff in the event of electric power failure.

B. Fire Safety

1. Every building and structure must be constructed, arranged, equipped, maintained, and operated so as to avoid undue danger to the lives and safety of its occupants from fire, smoke, fumes, or resulting panic during the period of time reasonably necessary for escape from the building or structure in case of fire or other emergency.

2. Every building and structure ~~must have at least two (2) exits that permit the prompt escape of occupants in case of fin; or other emergency~~. MUST HAVE AT LEAST TWO (2) APPROVED, ALTERNATE MEANS OF EGRESS FROM EACH FLOOR OF THE BUILDING OR TO A COMMON HALLWAY LEADING TO THE EXTERIOR. THEY MUST BE AT DIFFERENT LOCATIONS.

3. Every exit must be clearly visible, or the route to reach it must be conspicuously indicated. Each path of escape must be clearly marked.

4. In every building or structure, exits must be arranged and maintained so as to provide free and unobstructed egress from all parts of the building or structure at all times when it is occupied. ~~No l~~LockS or fastening DEVICES to prevent free escape from the inside of any building ~~can~~ MUST NOT be installed. Only panic hardware or single-action hardware is permitted on a door or on a pair of doors. All door hardware must be within the reach of children.

5. If the building in which the center operates has a security lock on outside exit doors, the center must obtain written permission from the local fire department; and there must be a

written sign attached to the door instructing staff that the security lock is not to be utilized when children are present and the center is in operation.

6. Every building and structure must have an automatic or Department-approved manually operated fire alarm system to warn occupants of the existence of fire or to facilitate the orderly conduct of fire exit drills.

7.712.8 RECORDS AND REPORTS

7.712.81 Children's Records [Rev. eff. 6/1/07]

A. The center must maintain and update annually a record on each child that includes:

1. The child's full name, age, current address, and date of enrollment;

2. Names, ~~and~~ home and employment addresses and telephone numbers, which may include cell phone numbers~~, pagers, fax~~ and e-mail of parents ~~or~~ /guardians if available;

3. Any special instructions as to how the parents ~~or~~ /guardians can be reached during the hours the child is at the center;

4. Names and telephone numbers of persons other than parents ~~or~~ /guardians who are authorized to take the child from the center;

5. Names, addresses, and telephone numbers of persons who can assume responsibility for the child in the event of an emergency if parents ~~or~~ /guardians cannot be reached immediately;

6. Name, address, and telephone number of the child's physician, dentist, and hospital of choice;

7. ~~Health information including medical history,~~ A COMPLETE HEALTH HISTORY INCLUDING COMMUNICABLE DISEASES, chronic ~~medical problems~~ILLNESSES OR INJURIES, ~~and~~ immunization history, KNOWN DRUG REACTIONS OR ALLERGIES, MEDICATION RECORDS,SPECIAL DIET NEEDS, AND HEALTH CARE PLANS AS REQUIRED IN 7.712.52.A.1;

8. A dated written authorization for emergency medical care signed and submitted annually by the parent or guardian. The authorization must be notarized if required by the local health care facility;

9. Written authorization from a parent or guardian for the child to participate in field trips and to participate in program activities, listing ~~any possible exclusion~~ ALL EXCLUSIONS FROM AUTHORIZATION;

10. Written authorization from a parent/ ~~or~~ guardian for the center to transport the child to and from school, whether by walking or driving; and

11. Reports of serious injuries and accidents occurring during care that result in medical attention, admission to the hospital, or death of a child.

7.712.82 Staff Records [Rev. eff. 6/1/07]

A. The center office must maintain a record for each staff member, paid or volunteer, which includes the following:

1. Name, address, and birth date of the individual;

2. The date that the staff member was employed by the center;

3. Name, address, and ~~daytime tele~~phone number~~, which may include cell phone numbers, pager numbers, fax numbers and e-mail~~ of the person(s) to be notified in the event of an emergency;

4. Verification of the staff member's ~~training, education, and experience~~ CERTIFICATIONS, QUALIFICATIONS AND TRAINING REQUIREMENTS;

~~5~~. ~~Copies of any first aid and CPR certification or other certification confirming the qualifications for the responsibilities assumed at the center, which may include copies of driver's licenses, college transcripts, and diplomas;~~

~~6~~5. Copies of written references or notes of phone references, as required by Section 7.712.41.D.1;

7. Verification that a criminal record check with the Colorado Bureau of Investigation AND FEDERAL BUREAU OF INVESTIGATION is in process, or a copy of the results of the staff member's criminal record check; and

8. Verification that a review of the State Department's automated system for reporting child abuse and neglect has occurred or is in process.

B. Each staff member's personnel file must contain all required information within thirty (30) working days of the first day of employment.

7.712.83 Administrative Records and Reports

A. The following records must be on file at the center:

1. Records of enrollment, daily attendance for each child, and daily record of time child arrives at and departs from the center;

2. Current health department inspection report issued within the past ~~twenty four (24) months~~ TWO (2) YEARS;

3. Current fire department inspection report issued within the past ~~twenty four (24) months~~ TWO (2) YEARS;

4. A list of current staff members, substitutes, and staffing patterns.

B. Each center must ~~immediately~~ SUBMIT A report in writing to the Department USING THE ONLINE INJURY REPORTING SYSTEM OF any accident or illness occurring at the center that resulted in medical treatment by a physician or other health care professional, hospitalization, or death. This report must be made within twenty-four (24) hours after the accident or illness occurred.

C. A report about a fatality must include:

1. The child's name, birth date, address, and telephone number;

2. The names of the child's parents or guardians and their address and telephone number if different from those of the child;

3. Date of the fatality;

4. Brief description of the incident or illness leading to the fatality;

5. Names and addresses of witnesses or persons who were with the child at the time of death; and

6. Name and address of police department or authority to whom the report was made.

D. The center must ~~report to the Colorado Department of Public Health and Environment or its local unit any communicable illness, including but not limited to measles, mumps, diphtheria, rubella, tuberculosis, shigella, hepatitis, meningitis, salmonella, and giardia, contracted by a staff member or a child in care at the center~~ maintain records of reports of communicable illness made to the Colorado Department of Public Health and Environment or local public health agency.

E~~. A medical log must be maintained at the center in which is recorded the name of the child and date of instances of at least the following:~~

~~1. Administration of first aid;~~

~~2. Illness of the child while attending the center;~~

~~3. Accident requiring the child to receive medical attention; and~~

~~4. The administration of any medication to a child.~~

~~F~~E. The center must submit to the ~~d~~Department within twenty-four (24) hours a written report about any child who has been lost from the center and for whom the local authorities have been contacted. Such report must indicate:

1. The name, birth date, address, and telephone number of the child;

2. The names of the parents/ ~~or~~ guardians and their address and telephone number if different from those of the child;

3. The date when the child was lost;

4. The location, time, and circumstances when the child was last seen;

5. Actions taken to locate the child; and

6. The name of the staff person supervising the child.

~~G. Each center must have a written plan for action in case of natural disaster, including, but not limited to, floods, tornadoes, aid severe weather; a lost or missing child; and injuries and illnesses. This plan must be on file at the center. The staff must have received training regarding the implementation of the plan prior to assuming supervisory responsibility for children. Written verification of the training must be in the staff member's personnel file.~~

~~1. The plan of action must include at least:~~

~~a. Prompt notification of parents or guardians;~~

~~b. Notification of the headquarters of the center;~~

~~c. When local authorities are notified;~~

~~d. Emergency transportation; and~~

~~e. Specific procedures for responding to the crisis.~~

~~2. In the case of a mobile school-age child care program or a field trip, the plan must accompany staff members.~~

7.712.84 Confidentiality and Retention

A. The center must maintain complete records of PERSONNEL AND children ~~and personnel~~ as required at Sections 7.712.81, 7.712.82, and 7.712.83.

B. The confidentiality of all personnel and children's records must be maintained (see Section 7.701.7, General Rules for Child Care Facilities).

C. Personnel and children's records must be available, upon request, to authorized personnel of the ~~d~~Department.

D. If records for organizations having more than one center are kept in a central file, duplicate identifying and emergency information for PERSONNEL AND children must also be kept on file at the center attended by the child.

E. The records of ~~PERSONNEL AND~~ children ~~and personnel~~ must be maintained by the school-age child care center for at least THREE (3) years.

Title of Proposed Rule: **Changes to Rules Regulating Children's Resident Camps; Changes to Rules Regulating School-aged Child Care Centers**

CDHS Tracking #: **14-08-14-01**

Office, Division, & Program: OEC, ECL, LU

Rule Author: Carin Rosa

Phone: 303-866-6246

E-Mail: carin.rosa@state.co.us

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule.

The Department is statutorily required to review rules on a regular basis and is authorized to promulgate rules for licensed child care programs providing less than twenty-four (24) hour care that create standards and regulations for these child care programs. This package expands and clarifies children's health and medication requirements, eliminates unnecessary or duplicate rules, clarifies existing rules, and adds requirements for safety, physical activity and screen time. The previous comprehensive review and revision for the entire rule package for the "Rules Regulating Children's Resident Camps" and the "Rules Regulating School-aged Child Care Centers" was completed in 2007.

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-6-106(1)(a), C.R.S. (2017)	Standards for facilities and agencies, and authority to promulgate rules;
26-6-113, C.R.S. (2017)	Periodic review of rules and procedures, and licensing of child care facilities

Does the rule incorporate material by reference? [ ] Yes [x] No

Does this rule repeat language found in statute? [ ] Yes [x] No

If yes, please explain.

Title of Proposed Rule: **Changes to Rules Regulating Children's Resident Camps; Changes to Rules Regulating School-aged Child Care Centers**

CDHS Tracking #: **14-08-14-01**

Office, Division, & Program: OEC, ECL, LU

Rule Author: Carin Rosa

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Licensed school-aged child care centers and children's resident camps are governed by these rules and will both benefit from and bear the burden of these rules. There should be minimal cost associated with these rules for providing copies of policies for families, hiring additional staff for smaller ratios if school-aged child care programs chose to accept younger children or on excursions away from the premises, and health consultation and medication requirements. The majority of the rule package is technical cleanup to simplify rule.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

For instance, providers may need to alter the way in which they provide policies to families and maintain documentation of staff and children's records; they may need to revise their nutritional meal menus, or ensure staff has additional training.

Currently, there are approximately 1000 licensed school-aged child care centers and approximately 125 licensed children's resident camps in Colorado.

Children in licensed school-aged child care centers and children's resident camps will benefit from the expanded well-being and safety requirements in this rule package.

3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. ***Answer should NEVER be just "no impact" answer should include "no impact because…."***

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

No fiscal impacts as these rule revisions are primarily technical cleanup or clarifications to simplify existing rules.

County Fiscal Impact

No County fiscal impact as nothing addressed in this rule revision creates costs for counties.

Federal Fiscal Impact

No fiscal impacts as these rule revisions are primarily technical cleanup or clarifications to simplify existing rules.

Other Fiscal Impact *(such as providers, local governments, etc.)*

Providers should see minimal cost associated with these rules for providing copies of policies for families, hiring additional staff for smaller ratios if school-aged programs chose to accept younger

children or on excursions away from the premises, and health consultation and medication requirements.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

The Children's Resident Camp Rules Re-write committee and the School-aged Child Care Center Rules Re-write committee work product (stakeholder working group) directed all aspects of this revised rule package, including advising the Department on language and provisions.

Caring for Our Children 2011, Stepping Stones to Caring for Our Children 2013, and Current American Camp Association Standards informed the health and safety portions of the rule revisions to ensure the rules followed nationally recognized standards of care.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. **Answer should NEVER be just "no alternative" answer should include "no alternative because…"**

No alternative because these rules are considered minimum requirements for health and safety, which the Department is statutorily mandated to promulgate.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The Children's Resident Camp Rules Re-write committee and the School-aged Child Care Center Rules Re-write committee work product (stakeholder working group) directed all aspects of this revised rule package, including advising the Department on language and provisions.

Committee members include: Colorado Department of Public Health and Environment, Healthy Child Care Colorado, Qualistar Colorado, Denver Public Health and Environment, Avid 4 Adventure, St. Vrain Valley School District, Boulder Valley School District, Adams 12 School District, Children's Hospital Colorado, Colorado Early Education Network, Mesa County Health Department, Institute for Racial Equity and Excellence, Colorado Ski Country USA, Extended Hours Program, Jefferson County school District, Jefferson County Health Department, Louisville City Government, Rocky Mountain Region of the American Camp Association, Indian Hills Camp, Boy Scouts of America, YMCA of the Rockies, Work Bright, Sanborn Western Camps and Pathways.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

All licensed School-aged Child Care Centers and Children's Resident camps

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

[x] Yes [ ] No

If yes, who was contacted and what was their input?

CDPHE was consulted on the development of these regulations and assisted with removing duplicative regulations

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

[X] Yes [ ] No

Name of Sub-PAC	EC Sub-PAC		
Date presented	Electronically November 8, 2017		
What issues were raised?			
Vote Count	*For*	*Against*	*Abstain*

7.711 RULES REGULATING CHILDREN'S RESIDENT CAMPS [Rev. eff. 6/1/07]

In addition to the General Rules for Child Care Facilities, Children's Resident Camps shall follow the rules specified in this section and the "RULES REGULATING SPECIAL ACTIVITIES" AND " RULES AND Regulations Governing the HEALTH AND Sanitation of Child Care ~~Centers~~ FACILITIES in the State of Colorado".

7.711.1 DEFINITIONS [Rev. eff. 4/1/13]

A. A "residential camp" ~~is defined at Section 26-6-102(2.2), C.R.S.~~ MEANS A FACILITY OPERATING FOR THREE OR MORE CONSECUTIVE TWENTY-FOUR-HOUR DAYS DURING ONE OR MORE SEASONS OF THE YEAR FOR THE CARE OF FIVE OR MORE CHILDREN. THE FACILITY SHALL HAVE AS ITS PURPOSE A GROUP LIVING EXPERIENCE OFFERING EDUCATION AND RECREATIONAL ACTIVITIES IN AN OUTDOOR ENVIRONMENT. THE RECREATIONAL EXPERIENCES MAY OCCUR AT THE PERMANENT CAMP PREMISES OR ON TRIPS OFF THE PREMISES. A CHILDREN'S RESIDENT CAMP SHALL SERVE CHILDREN WHO HAVE COMPLETED KINDERGARTEN OR ARE SIX YEARS OF AGE OR OLDER THROUGH CHILDREN YOUNGER THAN NINETEEN YEARS OF AGE; EXCEPT THAT A PERSON NINETEEN YEARS OF AGE OR TWENTY YEARS OF AGE MAY ATTEND A CHILDREN'S RESIDENT CAMP IF, WITHIN SIX MONTHS PRIOR TO ATTENDING THE CHILDREN'S RESIDENT CAMP, HE OR SHE HAS ATTENDED OR HAS GRADUATED FROM HIGH SCHOOL.

B. A residential camp may have a "primitive camp" which is a portion of the permanent camp premises or another site at which the basic needs for camp operation, such as places of abode, water supply systems, and permanent toilet and/or cooking facilities, are not usually provided.

C. A "travel-trip camp" shall be known as a camp in which there is no permanent camp site and children move from one site to another. The travel-trip camp either originates in Colorado or moves into and/or through Colorado from another state and operates for three or more consecutive 24-hour days during one or more seasons of the year for the care of five or more children who are at least ten (10) years old or have completed the fourth grade. The program shall have as its purpose a group learning experience offering educational and recreational activities utilizing an outdoor environment.

D. ~~A "non-medical religious camp" is a camp operated by a religious organization which does not believe in the use of medical practice in physical examination or treatment of illness or injury.~~

7.711.11 Purpose and Goals [Rev. eff. 11/1/98]

Each camp ~~shall~~ MUST submit to the department a statement of goals and objectives. This statement ~~shall~~ MUST be kept on file, updated periodically, made known to staff, and available for licensing inspection.

7.711.12 Governing Body [Rev. eff. 6/1/07]

The governing body ~~shall~~ MUST be identified by its legal name. The names and addresses of individuals who hold primary financial control and officers of the governing body ~~shall~~ MUST be disclosed fully to the Colorado Department of Human Services. THE GOVERNING BODY IS RESPONSIBLE FOR PROVIDING NECESSARY FACILITIES, ADEQUATE FINANCING, QUALIFIED PERSONNEL, SERVICES, AND PROGRAM FUNCTIONS FOR THE SAFETY AND WELL-BEING OF CHILDREN IN ACCORDANCE WITH THESE RULES. When changes of governing body occur, the new governing body must immediately submit an original application and pay the required fee.

A. If the governing body lets, leases, or rents the licensed facility to any group or organization whose program falls under the definition as found at Section 7.711.1 and verifies in writing to the State Department that the lessee meets the licensing standards, an application is not required of the lessee. If the governing body does not verify that the lessee meets the licensing standards, an application is required of the lessee and the license must be issued to the lessee before the camp opens.

B. When the facility is let, leased, or rented, the governing body ~~shall~~ MUST report the following in writing at the request of the State Department: name of the group, number and ages of children, length of time for use of the facility, and the purpose of the camp.

7.711.13 Financial Support [Rev. eff. 11/1/98]

The governing body ~~shall~~ MUST satisfy the department upon request that there is sufficient financial support to operate and maintain a camp in accordance with these rules and camp goals and objectives.

7.711.14 Insurances [Rev. eff. 11/1/98]

~~A.~~ Every facility ~~shall~~ MUST carry public liability insurance. The applicant or licensee ~~shall~~ MUST submit the amount of the insurance and the name and the address of the insurance agency providing the insurance to the camp. The camp ~~shall~~ MUST maintain information about the insurance at the campsite. ~~A camp need not carry public liability insurance if the camp's governing body determines that insurance is unnecessary due to its financial ability to meet all possible claims. The basis of such judgment must be revealed to the department.~~

~~B. Camps operating their own transportation vehicles shall carry liability insurance in compliance with the minimum limits required by Article 10, Chapter 7, Colorado Revised Statues.~~

7.711.15 Written Agreements, Reports, and Logs [Rev. eff. 6/1/07]

A. There ~~shall~~ MUST be on file at the campsite an~~d~~ annually-dated ~~a written~~ A WRITTEN OR ELECTRONIC agreement with a licensed physician or nearby health care facility TO PROVIDE ~~stating that the physician or health care facility will furnish~~ the necessary medical services for campers at the camp and medical help as a backup to the camp staff members responsible for health supervision.

B. A travel-trip camp is not required to have a written agreement, but IT must have a list of all medical facilities in areas where the travel-trip camp will be traveling.

~~C. The camp shall report to the State Department in writing within 48 hours each injury or illness which required that the camper be permanently sent home. The report shall include name, age and address of the camper; name of camper's parent(s) or guardian(s) and their address if different; date of accident or illness; description of accident or diagnosis of illness; treatment given; name and address of physician prescribing treatment; and, where treatment was given and disposition of the case.~~

~~D~~C. The camp ~~shall~~ MUST maintain at the campsite a medical record keeping system, listing name of camper, ~~ailment~~ ILLNESS OR INJURY, ~~treatment~~ prescribed TREATMENT and ~~administered dale~~ DATE THE TREATMENT WAS ADMINISTERED, and name of person administering care. This record keeping system ~~shall~~ MUST be available to licensing personnel.

~~E~~D. ~~Within 24 hours of each incident, t~~The camp ~~shall~~ MUST submit within 24 hours to the State Department a written report about any camper who has been ~~lost~~ SEPARATED FROM THE GROUP OUTSIDE OF THE SUPERVISION OF THEIR ASSIGNED STAFF MEMBER ~~from the campsite~~ and for whom a report has been made to the local ~~sheriffs~~ SHERIFF'S department for search and rescue. Such report ~~shall~~ MUST indicate the name, age, and address of the camper; the name of parent~~(~~s~~)~~ ~~or~~ /guardian~~(~~s~~)~~ and their address if different; the date when the child was lost; the location, time, and circumstances when the camper was last seen; and~~,~~ circumstances of locating the camper.

~~F. Each camp shall have a plan for action in case of natural disasters, lost campers/swimmers, injuries, and illnesses. These plans shall be in writing and shall be on file at the camp office. The staff shall receive training regarding the implementation of these plans. In the case of a travel trip or primitive camp, these plans shall accompany the staff members and campers.~~

7.711.2 PERSONNEL

7.711.21 General Requirements for All Personnel [Rev. eff. 6/1/07]

A. All paid employees at the camp ~~shall be sixteen (16) years of age or over, except that employment of maintenance staff including kitchen service, grounds, and housekeeping employees under~~ LESS THAN 16 years of age ~~is allowed if~~ MUST BE EMPLOYED in compliance with Colorado labor laws.

B. All counselors and staff members having a supervisory role with campers ~~shall~~ MUST be at least eighteen (18) years of age, OR SEVENTEEN (17) YEARS OF AGE AND GRADUATED HIGH SCHOOL, and have interest in, respect for, and ability to work with children.

C. There ~~shall~~ MUST be a letter of agreement with each volunteer or employed staff member which includes listing of specific responsibilities/job description and referring to information contained in the hiring packet or staff manual. Days or hours of employment/time off, personal conduct, and ~~necessary medical examinations~~ HEALTH HISTORY QUESTIONNAIRE must be provided in writing OR ELECTRONICALLY and may be provided in the hiring packet or the staff manual. The letter of agreement ~~shall~~ MUST be signed by both the employer and the volunteer or staff member. In the case of staff members or volunteers who are younger than eighteen (18) years old, the letter of agreement ~~shall~~ MUST also be signed by the parentS/ ~~or~~ guardianS.

D. There ~~shall~~ MUST be at least three references ~~about~~ FOR each staff member of the camp attesting to the individual's character and suitability to work with children. The written references ~~shall~~ MUST be in the personnel file or there ~~shall~~ MUST be an indication in the personnel file that a reference has been obtained~~. by telephone~~.

E. Each staff member must complete aN ANNUAL ~~current~~ health history~~. and must have been examined within the last 24 months by a licensed medical health care professional approved to perform physical examinations.~~ The health history must ~~be completed within 90 calendar days of the beginning of working at the camp and shall~~ be maintained ~~IN the personnel file~~ A SECURED LOCATION at the camp. ~~The staff members of a non- medical religious camp are exempt from this regulation.~~

~~F. If a staff member wishes an exemption from an examination performed by a licensed medical hearth care professional due to religious beliefs, the staff member shall submit a signed, written statement, which states the reason for the religious exemption and that the individual is in good health. A camp retains the right to ask a staff member for a written statement prior to employment at the camp.~~

~~G~~F. Each staff member ~~shall~~ MUST be trained and given written instructions as to camp policy when emergencies occur INCLUDING BUT NOT LIMITED TO: ~~, such as fires,~~ LOST CAMPERS, MEDICAL SITUATIONS, HAZARDOUS WILDLIFE and ENVIRONMENTAL HAZARDS. IN THE CASE OF TRAVEL TRIP OR PRIMITIVE CAMPS, THESE PLANS MUST ACCOMPANY THE STAFF AND CAMPERS.

7.711.22 ~~Necessary~~ Camp Personnel [Rev. eff. 6/1/07]

A. Each camp ~~shall~~ MUST have an onsite director who ~~shall~~ MUST be at least twenty-one (21) years of age. The director ~~shall~~ MUST have ~~a maturity of judgment and~~ 12 MONTHS (1820 HOURS) ~~prior~~ verified ~~adult~~ leadership experience in an administrative or supervisory position, WITH GROUPS OF CHILDREN FIVE (5) YEARS OF AGE OR OLDER, ~~at an organized camp, and twelve months employed adult leadership with groups of children~~ since he OR ~~/~~she attained the age of EIGHTEEN (18) years.

B. At each permanent camp there ~~shall~~ MUST be AT LEAST one ~~or more~~ health care ~~providers~~ WORKER who ~~shall be~~ IS responsible for monitoring the overall health of the CAMPERS AND STAFF. ~~and creating a healthy camp community.~~ A ~~hearth~~ HEALTH care ~~provider~~ WORKER ~~may~~ MUST be one of the following: a licensed physician, a registered nurse, a licensed practical nurse, a licensed physician's assistant, a certified nursing assistant ~~or a staff member who holds a current American Red Cross Emergency Response Certificate or a current certificate as an Emergency Medical Technician or equivalent. Any health care provider other than a licensed physician, registered nurse, or licensed practical nurse must also hold a current certificate indicating completion of the State Department approved and required medication administration course.~~ OR AN INDIVIDUAL WHO HOLDS CURRENT CERTIFICATION IN EMERGENCY MEDICAL SERVICES. ALL HEALTH CARE WORKERS MUST WORK WITHIN THEIR SCOPE OF PRACTICE, INCLUDING THE ABILITY TO WORK INDEPENDENTLY OR WITH REQUIRED OVERSIGHT.

1. At least one health care ~~provider~~ WORKER ~~shall~~ MUST be at the camp twenty-four (24) hours per day that the camp is in session.

2. If the camp health care ~~provider~~ WORKER is not a physician or RN, a physician or RN currently licensed in Colorado must specifically delegate ~~authority to any camp health care provider or~~ THE camp staff member ~~to~~ THE AUTHORITY TO administer medications. The delegating physician or RN must be aware of the specific medical needs of campers, be available for consultation while the camp is in session, and accept responsibility for monitoring the therapeutic effects of medications administered at camp. ~~As directed by their scope of practice, EMTs may not administer medications in the camp setting; therefore, an EMT may not serve as the sole camp health care provider.~~ Respiratory therapists may administer medication within their scope of practice.

3. IN ORDER TO ADMINISTER MEDICATIONS ~~A~~All health care ~~providers~~WORKERS, except physicians and RNs, must ~~take~~ COMPLETE the Department-approved ~~m~~Medication ~~a~~Administration ~~course~~ TRAINING, RECEIVE DELEGATION and hold ~~a~~ current DEPARTMENT-APPROVED First Aid and CPR ~~card~~ CERTIFICATION.

C. At any ~~primitive~~ camp LESS THAN THIRTY (30) MINUTES FROM EMERGENCY MEDICAL SERVICES, ~~within sixty (60) minutes from definitive medical care of the base camp, where children may be away from the base camp for up to six nights,~~ there must be at least one staff

member WITH EACH GROUP OF CHILDREN qualified with ~~community~~ DEPARTMENT-APPROVED First Aid ~~training~~, CPR, and ~~m~~Medication ~~a~~Administration ~~t~~Training AND DELEGATION. ~~if children taking medicine accompany the trip.~~

D. ~~At any primitive camp where children are either more than one hour from definitive medical care or are away from the base camp for seven or more nights, there must be at least one staff member with each group of children with wilderness First Aid training, CPR, and medication administration training.~~ ALL STAFF MEMBERS MUST COMPLETE A DEPARTMENT-APPROVED STANDARD PRECAUTIONS TRAINING PRIOR TO WORKING WITH CHILDREN. THIS TRAINING MUST BE RENEWED ANNUALLY AND MAY COUNT TOWARDS ONGOING TRAINING REQUIREMENTS.

E. ~~At any primitive camp where children are away from camp for seven or more nights and are more than one hour away from emergency medical services, there must be at least one staff member with each group of children with wilderness first responder training, CPR, and medication administration training if children taking medicine accompany the trip.~~ FOR EVERY THIRTY (30) OR FEWER CHILDREN IN ATTENDANCE, THERE MUST BE AT LEAST ONE (1) STAFF MEMBER WITH EACH GROUP OF CHILDREN WHO HOLDS CURRENT DEPARTMENT-APPROVED FIRST AID AND CPR FOR ALL AGES OF CHILDREN. AT ANY CAMP MORE THAN THIRTY (30) MINUTES AWAY FROM EMERGENCY MEDICAL SERVICES, THERE MUST BE AT LEAST ONE (1) STAFF MEMBER WITH EACH GROUP OF CHILDREN QUALIFIED WITH A MINIMUM OF WILDERNESS FIRST AID TRAINING, DEPARTMENT-APPROVED CPR AND MEDICATION ADMINISTRATION TRAINING. STAFF MEMBERS WITH MEDICATION ADMINISTRATION TRAINING MUST HAVE ANNUAL DELEGATION AS REQUIRED.

F. There ~~shall~~ MUST be sufficient camp counselors or staff members who have a supervisory role with children at the camp to meet the staff ratio as indicated in Section 7.711.23. Children under the age of six (6) years who live at camp or are visiting ~~with their parent~~ must be directly supervised by ~~their parent~~ A CAREGIVER, WHO IS NOT INCLUDED IN THE STAFF TO CAMPER RATIO, at all times when the children are involved in camp activities. Staff members whose children are under six (6) years of age cannot be supervising campers or leading special activities when they are supervising their own children.

G. If the camp has counselors-in-training WHO ARE NOT FULLY QUALIFIED, they must be directly accountable to a qualified counselor or specialized staff member and must be directly supervised by those individuals in their role when caring for children. The counselors-in-training who are less than eighteen (18) years old ~~shall~~ MUST not be counted as staff members in the maintenance of the staff ratio for supervision of children as found at Section 7.711.23.

H. There ~~shall~~ MUST be specialized staff members who are responsible for specific portions of the camp program. Requirements for those specialized staff members are found among the requirements for the specialized activity areas at Section 7.719, et seq.

7.711.23 ~~Necessary Staff~~ Supervision [Rev. eff. 6/1/07]

A. The camp ~~shall~~ MUST have an accurate system whereby staff members who are responsible for the supervision of children ~~shall~~ MUST know where each child is at all times.

B. At no time ~~shall~~ MAY a camper be left without qualified supervision. Sleeping quarters of the counselors ~~shall~~ MUST be ~~in close proximity~~ WITHIN SIGHT OR HEARING DISTANCE ~~to~~ OF THE sleeping quarters of the children whom they supervise ~~so that counselors are within sight or hearing of the children they supervise~~. Children may sleep alone for specific program functions such as solos or survival experiences and then only when regularly monitored pursuant to the camp's written program. THE CAMP'S WRITTEN PROGRAM MUST INCLUDE AN AUDIBLE

MECHANISM FOR A CAMPER TO ALERT A STAFF MEMBER WHO IS ABLE TO IMMEDIATELY RESPOND.

C. Each special activity ~~shall~~ MUST be supervised by a staff member currently qualified in DEPARTMENT-APPROVED First Aid and CPR training, and by the experience and training in that special activity as specified in Section 7.719, et seq.

D. In a residential camp, ratio of one (1) staff member having a supervisory role with children per number of campers ~~or fraction thereof~~ MUST be maintained at all times as follows:

Age of Children	Number of Children	Number of Staff Members
~~6~~ 5 ~~and~~ THROUGH 7 yrs. old	6	1
8 through 10 yrs. old	8	1
11 through 13 yrs. old	10	1
14 ~~through 15~~ yrs. ~~old~~ and ~~over~~ OLDER	12	1

E. In a trip away from the residential camp premises or at the primitive camp, the staff ratio given at Section 7.711.23, D, ~~shall~~ MUST be maintained, but there ~~shall~~ MUST be at least two staff members accompanying each trip, and one staff member ~~shall hold at least a current Red Cross standard First Aid and safety certificate or equivalent~~ MUST MEET THE QUALIFICATIONS AS DEFINED IN 7.711.22.C,E. If the trip exceeds two nights, there ~~shall~~ MUST be with the group a staff member who IS AT LEAST TWENTY-ONE (21) YEARS OF AGE, ~~has maturity of~~ EXERCISES GOOD judgment, ~~and~~ THE ABILITY TO ASSUME LEADERSHIP INDEPENDENTLY AND has been trained in trip leading procedures.

F. In a travel-trip camp, the staff ratio given at Section 7.711.23~~,~~.D, ~~shall~~ MUST be maintained, but there ~~shall~~ MUST be at least two (2) staff members at all times with the campers. One (1) of those staff members must be at least twenty-one (21) years old and one (1) staff member ~~shall~~ MUST meet qualifications of the health care ~~provider~~ WORKER ~~(see~~ AS DEFINED IN Section 7.711.22.B~~)~~.

G. In the case of trips away from the permanent residential camp, including overnights OR TRAVEL-TRIP CAMPS, there ~~shall~~ MUST be a day-to-day itinerary prepared prior to departure. The resident camp headquarters ~~shall~~ MUST keep a copy of the itinerary. The itinerary ~~shall~~ MUST be followed as closely as possible. ~~Resident c~~Camp headquarters ~~shall~~ MUST be notified of an itinerary change as soon as possible.

~~H. A travel-trip camp shall establish a day-to-day itinerary. A copy shall be on file at the camp headquarters. The itinerary shall be followed as closely as possible. In case of emergency, if a change in the itinerary is necessary, the camp headquarters shall be notified as soon as possible~~.

~~**7.711.3 – 7.711.42 None [Rev. eff. 6/1/07]**~~

7.711.~~5~~3 CHILD CARE

7.711.5~~3~~1 Health Care [Rev. eff. 6/1/07]

A. The camp health program ~~shall~~ MUST be under the supervision of an individual qualified as stated at Section 7.711.22, B.

B. ~~At the time of~~ AT LEAST TEN (10) CALENDAR DAYS PRIOR TO admission, each camper ~~shall~~ MUST furnish a health history which indicates communicable diseases and ~~serious~~ CHRONIC illnesses or ~~operations~~ INJURIES the individual has had, any known drug reactions and allergies,

medications being taken, and any necessary HEALTH PROCEDURES OR special diets ~~at the time of camp admission~~.

C. THE CAMP MUST INFORM ITS HEALTH CARE WORKER PRIOR TO THE FIRST DAY OF CARE OF THE ENROLLMENT OF A CHILD WITH SPECIAL HEALTH CARE NEEDS, IF KNOWN, TO ENSURE STAFF RECEIVES TRAINING, DELEGATION AND SUPERVISION AS INDICATED BY THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

~~C~~D. The camper ~~shall~~ MUST present a statement confirming a physical examination, which has been performed within the preceding twenty-four (24) months FROM THE FIRST DAY OF ATTENDANCE AT CAMP by a ~~licensed physician or qualified, licensed nurse practitioner~~ HEALTH CARE PROVIDER, WHICH INCLUDES~~. The physician or nurse practitioner shall be asked to inform the camp as to~~ any physical problems which would limit the camper's activity, AND any special care which the child will need~~., and include a record of up-to-date immunizations which the child has had, including the date of the last tetanus shot~~.

~~D~~E. ~~If the camper wishes an exemption from a statement confirming a physical examination and immunizations due to religious beliefs, the camper shall submit a written statement, signed by the camper's parents or legal guardian, which states the reason for such an exemption and that the individual is in good health. The camp has the right to refuse the admission of a child who has no statement from a physician or nurse practitioner.~~ The camper must submit documentation of immunization status or exemption as required by Colorado Department of Public Health and Environment (CDPHE). Immunizations must be updated and recorded as specified on the certificate of immunization or alternate certificate of immunization as supplied and approved by the Colorado Department of Public Health and Environment (CDPHE). Colorado law requires proof of immunization or exemption be provided prior to or on the first day of admission.

~~E~~F. UPON ARRIVAL OR ~~W~~within TWENTY-FOUR (24) hours ~~after arrival at camp~~, each camper ~~shall~~ MUST be observed by camp staff trained to do so to identify noticeable evidence of any illness, communicable disease, or signs of abuse. The camp health care ~~provider~~ WORKER ~~shall~~ MUST meet with campers ~~upon arrival at camp~~ that have special medications, HEALTH ~~treatment~~ procedures ~~or~~, SPECIAL ~~dietetic~~ restrictions ~~or~~, known allergic reactions, CHRONIC HEALTH CONDITIONS or any known physical limitations.

~~F~~G. If a child shows signs of ~~severe~~ illness or communicable disease listed in the Colorado Department of Public Health and Environment (CDPHE) exclusion guidelines, the camper ~~shall~~ MUST be separated from other campers, parents/GUARDIANS ~~shall~~ MUST be notified, and a doctor or medical facility ~~shall~~ MUST be consulted, if appropriate and as required, as to the child's treatment. All items used by the sick child ~~shall~~ MUST be properly disinfected before use by any other person.

~~G. The non-medical religious camp shall notify parents immediately when a camper becomes ill, but is exempt from the requirement of consultation with the doctor or medical facility.~~

~~H. When communicable diseases occur, parents and staff members shall be advised what protective measures are available and indicated for the particular disease, and the county or state health officer notified.~~

~~I~~H. If a camper requires medical attention away from the camp site, the camper's parents/ ~~or~~ guardian ~~shall~~ MUST be notified and necessary medical care ~~shall~~ MUST be sought from a ~~licensed physician~~ HEALTH CARE PROVIDER or medical facility. Written authorization for medical care ~~shall~~ MUST be in the child's file pursuant to Section 7.711.61~~,~~. A~~,~~.9.

~~J. If a camper requires medical attention away from the campsite of a non-medical religious camp, the parents shall be notified and their instructions followed.~~

~~K~~I. In the case of travel-trip camps, primitive camps, or trips away from the camp, a copy of the statement which has been signed by the parent or guardian indicating that the camp staff may obtain emergency medical care ~~shall~~ MUST be in the possession of staff members accompanying the campers. The original signed statement ~~shall~~ MUST be readily accessible.

~~L~~J. The camp health care ~~provider~~ WORKER ~~shall~~ MUST be responsible for administering medication to campers. If the health care ~~provider~~ WORKER is not a currently Colorado licensed RN or physician, the health care ~~provider~~ WORKER may only administer medication PRESCRIBED FOR INDIVIDUAL CAMPERS AS delegated and supervised by aN RN or physician. Respiratory therapists may administer medication within their scope of practice. ~~The health care provider shall administer only medicines prescribed for an individual camper or medicines listed in written standing treatment procedures from a licensed physician who has agreed to furnish medical services for the camp, pursuant to Section 7.711.61, A. Such medicines shall only be administered by authority of written authorization given to the camp or to the health care provider by the child's physician or camp physician.~~

1. MEDICATION prescribed for campers ~~shall~~ MUST be from a licensed pharmacy; labeled with the name, address, and phone number of the pharmacy; name of the camper; name and strength of the medicine; directions for use; date filled; prescription number~~; ,~~ and~~,~~ the name of THE practitioner prescribing the medicine. When no longer needed OR EXPIRED, the medication ~~shall~~ MUST be returned to the parent or ~~destroyed~~ DISPOSED OF IN ACCORDANCE WITH THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) REQUIREMENTS.

    a. WHEN THE CAMP HAS AN ON-SITE RN OR PHYSICIAN, AND CAMPERS ARE ON EXCURSIONS AWAY FROM THE CAMP, THE RN OR PHYSICIAN IS RESPONSIBLE FOR DETERMINING A SAFE PROCESS FOR THE ADMINISTRATION OF ROUTINE AND EMERGENCY MEDICATIONS. THIS PROCESS SHOULD INCLUDE:

        i. THE TRANSFER OF MEDICATIONS AND ASSOCIATED DOCUMENTS FROM THEIR USUAL STORAGE PLACE TO PORTABLE STORAGE FOR THE TRIP.

        ii. LABELING WHICH INCLUDES CAMPER'S NAME, MEDICATION, ROUTE, DOSAGE, AND TIME THE MEDICATION SHOULD BE ADMINISTERED AS INDICATED ON THE ORIGINAL MEDICATION CONTAINER.

        iii. SECURE AND TEMPERATURE APPROPRIATE STORAGE DURING THE TRIP.

        iv. HAND HYGIENE DURING THE TRIP.

        v. APPROPRIATE DOCUMENTATION PRACTICES DURING THE TRIP.

        vi. THE RETURN OF MEDICATION AND ASSOCIATED DOCUMENTS FROM PORTABLE STORAGE FOR THE FIELD TRIP TO THEIR USUAL ON-SITE STORAGE.

    b. IF THE CAMP DOES NOT HAVE AN ON-SITE RN OR physician, medications on trips must be in original labeled pharmacy containers

2. A record of any medications administered ~~shall~~ MUST be maintained in a medication administration record pursuant to Section 7.711.15, D.

3. All medication at the permanent camp site ~~shall~~ MUST be kept in a clean, locked container, except emergency medication such as ~~EPI-PENS~~ EPINEPHRINE AUTO INJECTORS or asthma inhalers. On excursions away from the camp, medication MUST be under the control of an adult and ~~shall~~ MUST be stored inaccessible to children.

4. The camp may, with written parental consent and authorization of the prescribing practitioner, permit children who have asthma to carry their own inhalers and use them as directed. All staff must be aware of which children have asthma and which ones may use their own inhalers as needed.

5. TOPICAL PREPARATIONS SUCH AS PETROLEUM JELLY AND BUG SPRAYS MAY BE ADMINISTERED TO CHILDREN WITH WRITTEN PARENTAL AUTHORIZATION. THESE PREPARATIONS MAY NOT BE APPLIED TO OPEN WOUNDS OR BROKEN SKIN UNLESS THERE IS A WRITTEN ORDER BY THE PRESCRIBING PRACTITIONER.

6. HOME REMEDIES, INCLUDING HOMEOPATHIC MEDICATIONS MUST NOT BE ADMINISTERED AT CAMP.

K. STANDING ORDERS FOR OVER THE COUNTER MEDICATIONS MUST BE UPDATED ANNUALLY AND ARE ONLY ALLOWED WITH PARENTAL PERMISSION AND WHEN ADMINISTERED BY A PHYSICIAN OR RN.

~~M~~L. First Aid supplies ~~shall~~ MUST be located near food service operations, program areas, maintenance areas, the headquarters of the medical supervisor, and in motor vehicles which are used to transport campers.

~~N~~M. There ~~shall~~ MUST be an identified headquarters of the health care ~~provider~~ WORKER at the campsite.

~~O~~. ~~There shall be a location at the campsite furnished with necessary equipment to care for an individual who needs to be separated from other campers due to a communicable disease or illness. The isolation quarter shall be located within close proximity of restroom facilities.~~

~~P. A responsible adult shall be present or within hearing distance of any ill child.~~

~~Q~~N. Transportation ~~shall~~ MUST be available at all times in cases of medical emergency according to the written emergency medical evacuation plan of the camp.

O. To ensure the protection of campers from sun exposure the camp must:

1. Obtain the parent or guardian's written authorization and instructions for applying sunscreen or use of another form of parent or guardian approved sun protection to their children's exposed skin prior to going outside. A doctor's permission is not needed to use sunscreen at the camp;

2. Apply sunscreen or use another form of parent or guardian approved sun protection for children prior to campers going outside. Sunscreen must be reapplied as directed by the product label;

3. When supplied for an individual camper, the sunscreen must be labeled with the camper's first and last name; and

4. If sunscreen is provided by the camp, parents must be notified in advance, in writing, of the type of sunscreen the camp will use.

7.711.532 ~~Discipline~~GUIDANCE [Rev. eff. 11/1/98]

A. ~~The camp shall have a written policy regarding the discipline of children, which shall be explained to staff members before the camp session begins.~~ Guidance must be appropriate and constructive or educational in nature and may include such measures as diversion, separation of the child from problem situations talking with the child about the situation, or praise for appropriate behavior.

B. ~~Discipline shall be constructive or educational in nature and may include such measures as diversion, separation from problem situations, talking with the child about the situation, or praise for appropriate behavior.~~

~~1.~~ Children ~~shall~~ MUST not be subjected to physical harm, fear, or humiliation.

~~2~~C. THE PROGRAM DIRECTOR MUST NOT USE, OR PERMIT A STAFF MEMBER TO USE CORPORAL OR OTHER HARSH PUNISHMENT, INCLUDING BUT NOT LIMITED TO ~~Children shall not be punched~~PINCHING, ~~shaken~~SHAKING, ~~bitten~~SPANKING, ~~roughly handled~~ PUNCHING, ~~pinched~~BITING, KICKING, ROUGH HANDLING, HAIR PULLING, or ~~subjected to~~ any HUMILIATING OR FRIGHTENING METHOD OF GUIDANCE ~~physical punishment~~.

D. GUIDANCE MUST NOT BE ASSOCIATED WITH FOOD, REST, OR TOILETING. CHILDREN SHOULD NEVER BE PUNISHED FOR TOILETING ACCIDENTS. CHILDREN MUST NOT BE DENIED FOOD OR FORCED TO EAT AS A DISCIPLINARY MEASURE.

~~3~~E. Separation, when used as ~~discipline~~GUIDANCE, ~~shall~~ MUST ~~be brief~~ NOT EXCEED FIVE (5) MINUTES and MUST BE appropriate ~~to~~ FOR the child's age. ~~and circumstances, and t~~The child ~~shall~~MUST be ~~within hearing of an adult~~ in a safe, lighted, well-ventilated ~~place~~AREA AND BE WITHIN SIGHT AND HEARING OF AN ADULT. ~~No~~ THE child ~~shall~~ MUST NOT be isolated in a locked ~~room~~ or ~~closet~~ CLOSED AREA.

~~4. No child shall be punished for toileting accidents.~~

~~5~~F. Verbal abuse or derogatory remarks about the child~~, his family, his race, religion, or cultural background shall not be used or~~ ARE NOT permitted.

~~6. Meals may not be denied the camper as a disciplinary measure.~~

~~7~~G. Authority ~~to punish shall~~ FOR GUIDANCE MUST not be delegated to other children~~, nor shall~~ AND the camp MUST NOT sanction one ~~camper~~ CHILD punishing another ~~camper~~CHILD.

7.711.533 Security Practices [Rev. eff. 7/1/00]

A. The camp ~~shall~~ MUST establish a written security procedure and ~~shall~~ MUST train staff members and campers regarding this procedure. ~~Such procedures may include, but are not limited to, the following:~~

~~1. The campers and staff organized into a buddy system and trained to report immediately to camp authorities when they believe their buddy is missing.~~

~~2. Whistles issued to campers and/or staff who are instructed as to their usage if a camper or staff member is attacked.~~

~~3. Campers and staff trained to report to the camp administration any strangers or unidentified person who may be at the campsite.~~

~~4. Bumper stickers for each authorized car at camp.~~

~~5. Limited advertisement of camp location.~~

~~6. Use of intra-camp emergency communication.~~

B. The camp ~~shall~~ MUST report to the local law enforcement office or department the dates of the camp sessions and the location of the camp.

C. When a camper is discharged from camp or when the camp session is over, the child ~~shall~~ MUST be returned to the parentS/~~ or~~ guardianS or ~~to~~ aN ~~properly identified~~ adult ~~approved~~ AUTHORIZED by the ~~child's~~ parentS/ ~~or~~ guardianS. IF THE INDIVIDUAL IS UNKNOWN TO THE STAFF, IDENTIFICATION MUST BE REQUIRED.

7.711.5~~3~~4 Food and Nutrition [Rev. eff. 10/1/03]

A. Each camp ~~shall~~ MUST establish a written policy for its nutrition and food service program. This policy ~~shall~~ MUST include meal hours, type of food service, staff responsibilities during the time food is served, authorization of special diets, and the administration of the food service program. This policy ~~shall~~ MUST be available to all staff members.

B. All foods ~~shall~~ MUST be stored and prepared in accordance with the rules and regulations governing the sanitation of food service establishments in the State of Colorado.

C. Foods provided by the camp ~~shall~~ MUST be of sufficient quantity and nutritional quality to provide for the dietary needs of each child. Menus ~~shall~~ MUST meet the most recently revised recommended daily allowances of the Food and Nutrition Board, National Academy of Sciences, National Research Council, adjusted for age, sex, religion, and activity. The only exception ~~shall~~ MUST be by written parental or medical direction.

D. Menus ~~shall~~ MUST be planned at least a week in advance and ~~shall~~ MUST be dated as to the week in use. The current week's menu ~~shall~~ MUST be posted in the food preparation area. Food substitutions ~~shall~~ MUST be noted on the menus in writing. After use, the menus ~~shall~~ MUST be kept on file for the period of the camping season.

E. In travel-trip camps, all menus ~~shall~~ MUST be planned prior to leaving and changes noted in writing. Menus ~~shall~~ MUST be maintained in file of camp.

~~F. Drinking water shall be readily accessible to campers at all times.~~

7.711.5~~3~~5 Transportation [Rev. eff. 6/1/07]

~~A. If the camp transports children from their home to camp, the camp shall assume responsibility for the child between the place where he she is called for and the camp, and from the time he she leaves the camp until delivered to his her parents or to a responsible person designated by the parents or guardians.~~

~~B. Any transportation of the camper during the camp session is the responsibility of the camp.~~

~~C. There shall be at least one adult supervisor in addition to the driver when nine or more children are being transported at any one time. No child shall be permitted to remain unattended in any vehicle.~~

~~D. Only that number of children and adults for whom there is comfortable seating space shall be transported. Standing in the vehicle while it is moving shall be prohibited. No person shall sit on the floor or in aisles, or project head or limbs out of the vehicle.~~

~~E. No more than three persons, including the driver, shall be permitted to occupy the front seat of the vehicle. Each camper permitted to ride in the front seat of the vehicle shall be secured by a seat belt.~~

~~F. If trucks are used by the camp as a means of transportation, the use shall be limited to short periods of time such as no more than thirty minutes. Safe seating arrangements shall be provided. Only trucks with sides may be used. When such trucks are in use, the tailgate shall be closed at all times when the vehicle is in motion. There shall be an adult riding with the campers in the back of the truck. Campers shall be seated whenever the vehicle is in motion.~~

~~G. The camp which provides any transportation shall have a written policy including, but not limited to, the following topics: safety education while riding in the vehicles, seating, highway stops, relief drivers, when necessary, supervision, and emergency procedures on the road.~~

~~H. All vehicles transporting children shall comply with the applicable regulations of the Colorado Department of Revenue, Motor Vehicle Division, and the ordinances of the municipality in which the vehicle is operated.~~

~~I. All persons who transport campers shall be properly licensed to operate the vehicle being driven.~~

~~J. At least one adult in each vehicle shall hold a current Red Cross standard First Aid and safety certificate or equivalent. The vehicle shall be equipped with a First Aid kit.~~

~~K. Any vehicle which transports nine or more passengers shall carry a fire extinguisher, reflective equipment, and road side markers.~~

A. TRANSPORTATION PROVIDED BY THE CAMP MUST MEET THE FOLLOWING REQUIREMENTS:

1. THE CAMP IS RESPONSIBLE FOR ANY CHILDREN IT TRANSPORTS;

2. THE CAMP MUST OBTAIN WRITTEN PERMISSION FROM PARENTS OR GUARDIANS FOR ANY TRANSPORTATION OF THEIR CHILD DURING CAMP HOURS;

3. THE NUMBER OF STAFF MEMBERS WHO ACCOMPANY CHILDREN WHEN BEING TRANSPORTED IN THE VEHICLE MUST MEET THE CHILD CARE STAFF RATIO FOUND AT SECTION 7.711.23. THE DRIVER OF THE VEHICLE IS CONSIDERED A STAFF MEMBER;

4. THE CAMP MUST NOT PERMIT CHILDREN UNDER THE AGE OF 8 OR CHILDREN UNDER 57” TALL TO RIDE IN THE FRONT SEAT OF A VEHICLE. CHILDREN UNDER 8 MUST BE SECURED IN A CHILD RESTRAINT SYSTEM THAT IS APPROPRIATE FOR THE AGE AND DEVELOPMENT OF THAT CHILD. THE CHILD RESTRAINT MUST CONFORM TO ALL APPLICABLE FEDERAL MOTOR VEHICLE SAFETY STANDARDS AND COLORADO CHILD PASSENGER SAFETY LAWS;

5. CAMPERS MUST BE LOADED AND UNLOADED OUT OF THE PATH OF MOVING VEHICLES;

6. CAMPERS MUST NOT BE LEFT UNATTENDED IN THE VEHICLE;

7. FOR TRIPS AWAY FROM THE CAMP, A LIST OF INDIVIDUALS ON EACH TRIP MUST BE READILY AVAILABLE EITHER IN THE VEHICLE(S) OR AT THE CAMP OFFICE.

B. REQUIREMENTS FOR VEHICLES

1. ANY VEHICLE USED FOR THE TRANSPORTATION OF CHILDREN TO AND FROM THE CAMP OR DURING CAMP ACTIVITIES MUST MEET THE FOLLOWING REQUIREMENTS:

a. THE VEHICLE MUST BE ENCLOSED AND HAVE DOOR LOCKS;

b. THE SEATS OF THE VEHICLE MUST BE CONSTRUCTED AND INSTALLED ACCORDING TO THE VEHICLE MANUFACTURER'S SPECIFICATIONS;

c. THE VEHICLE MUST BE KEPT IN SATISFACTORY CONDITION TO ASSURE THE SAFETY OF OCCUPANTS. VEHICLE TIRES, BRAKES, AND LIGHTS MUST MEET SAFETY STANDARDS SET BY THE COLORADO DEPARTMENT OF REVENUE, MOTOR VEHICLE DIVISION;

d. SEATING MUST BE COMFORTABLE WITH A SEAT OF AT LEAST TEN (10) INCHES WIDE FOR EACH CHILD;

e. VEHICLES MUST BE LOADED ONLY WITHIN THE PASSENGER SEATING LIMIT ESTABLISHED BY THE VEHICLE MANUFACTURER; AND

f. EACH VEHICLE MUST HAVE A FIRST AID KIT.

2. IN PASSENGER VEHICLES, WITH A MANUFACTURER'S ESTABLISHED CAPACITY OF SIXTEEN (16) OR FEWER PASSENGERS AND LESS THAN 10,000 POUNDS, THE FOLLOWING IS REQUIRED:

0 a. EACH CAMPER AND STAFF MEMBER MUST BE RESTRAINED IN AN INDIVIDUAL SEAT BELT; AND

b. CAMPERS AND STAFF MUST BE INSTRUCTED AND REQUIRED TO KEEP THE SEAT BELT PROPERLY FASTENED AND ADJUSTED.

3. IN VEHICLES WITH A MANUFACTURER'S ESTABLISHED CAPACITY OF SIXTEEN (16) OR MORE PASSENGERS, SEAT BELTS FOR PASSENGERS ARE NOT REQUIRED.

C. REQUIREMENTS FOR DRIVERS OF VEHICLES

1. ALL DRIVERS OF VEHICLES TRANSPORTING CHILDREN MUST COMPLY WITH APPLICABLE LAWS OF THE COLORADO DEPARTMENT OF REVENUE, MOTOR VEHICLE DIVISION, AND ORDINANCES OF THE MUNICIPALITY IN WHICH THE CENTER OPERATES.

2. THE CAMP MUST VERIFY THAT ALL DRIVERS MEET MINIMUM REQUIREMENTS, INCLUDING:

   a. DRIVING RECORDS THAT HAVE BEEN REVIEWED WITHIN THE LAST FOUR MONTHS FOR SEASONALLY HIRED DRIVERS OR WITHIN THE LAST TWELVE MONTHS FOR YEAR-ROUND DRIVERS TO DETERMINE DRIVER SUITABILITY;

   b. DRIVERS HAVE THE APPROPRIATE LICENSE FOR THE VEHICLES TO BE DRIVEN;

   c. DRIVERS MUST HAVE CURRENT DEPARTMENT-APPROVED FIRST AID AND CPR CERTIFICATION;

   d. ALL DRIVERS MUST BE AT LEAST TWENTY (20) YEARS OF AGE;

   e. DRIVERS MUST COMPLETE A MINIMUM OF FOUR (4) HOURS OF DRIVER TRAINING THAT INCLUDES AT A MINIMUM: BEHIND THE WHEEL TRAINING; PARTICIPANT TRANSPORT ATTENDANCE PROCEDURES INCLUDING TAKING ATTENDANCE AT THE DESTINATION; MANAGING BEHAVIORAL ISSUES; LOADING AND UNLOADING PROCEDURES; DAILY VEHICLE INSPECTION PROCEDURE; PROPER TIRE INFLATION; EMERGENCY EQUIPMENT AND HOW TO USE IT; ACCIDENT PROCEDURES; PASSENGER ILLNESS PROCEDURES; PROCEDURES FOR BACKING UP; AND, IF BUSES ARE USED, EVACUATION PROCEDURES;

3. THE DRIVER MUST ENSURE THAT ALL DOORS ARE SECURED AT ALL TIMES WHEN THE VEHICLE IS MOVING;

4. THE DRIVER MUST MAKE A GOOD FAITH EFFORT TO ENSURE THAT EACH CHILD IS PROPERLY BELTED THROUGHOUT THE TRIP; AND

5. THE DRIVER MUST NOT EAT OR USE A CELLULAR DEVICE WHILE DRIVING.

7.711.~~6~~64 RECORDS FOR CHILDREN AND PERSONNEL

7.711.~~6~~641 Children's Records [Rev. eff. 6/1/07]

A. ~~At the time the child is admitted to the~~ PRIOR TO THE CHILD'S ATTENDANCE AT camp, the following information ~~shall~~ MUST be obtained and maintained at the campsite for each camper:

1. Child's name, birth date, and address.

2. Parent's or guardian's names, HOME AND EMPLOYMENT addresses, ~~and~~ telephone numbers, AND EMAIL ADDRESSES.

~~3. Parents or guardian's place of employment and telephone numbers, which may include work phone, cell phone and fax numbers, e-mail address and employment addresses.~~

~~4~~3. Name, address and telephone number ~~of an adult designated to contact in case~~ of emergency ~~if the camp is unable to~~ contact~~S the parent or guardian~~.

~~5~~4. Name, address, and telephone number of individuals authorized to take the child from camp if different from the parent or guardian.

~~6. Names of individuals that are not authorized to take the child from camp.~~

~~7~~5. Dates of the camp session which the child will attend.

~~8~~6. Name~~, address~~ and telephone number of the child's ~~doctor~~HEALTH CARE PROVIDER. ~~This information need not be obtained in a non-medical religious camp or if the child is exempt for the need for a statement confirming a physical examination pursuant to Section 7.711.51, D.~~

~~9~~7. Authorization signed by the ~~person or agency having custody~~PARENTS/GUARDIANS, giving authority for the camp to obtain emergency medical care. ~~A non-medical religious camp is exempt from this regulation.~~

~~10~~8. Authorization signed by the parentS/GUARDIANS~~, person or agency having custody~~ of the child to participate in all special trips or excursions ~~in which the child may be walking or riding~~ away from the campsite.

~~11~~9. Indication of any camp activity in which the parentS/GUARDIANS~~, person or agency having custody~~ of the child does not wish the child to participate (see Section 7.719, et seq.).

10. Physical examination, health history and immunization as required in Section 7.711.51.C-D.

~~B. The child's records shall also include:~~

~~1. A statement confirming a physical examination signed by the physician or nurse practitioner or a written statement signed by camper's parent or guardian pursuant to Section 7.711.51, D, and a current health history from the parent regarding the child's current physical condition (see Section 7.711.51, B).~~

~~2. Copies of reports submitted to the department regarding injury or illnesses suffered by the camper, the fatality of a camper, or a report of a camper being lost (see Section 7.711.15).~~

7.711.~~6~~42 Staff Records [Rev. eff. 6/1/07]

There ~~shall~~ MUST be maintained at the campsite a record for each staff member, paid or volunteer, ~~which shall~~ THAT MUST include the following:

A. Name, address, and birth date of the individual.

B. Training, education, AND experience of the staff member.

C. Copies of any ~~first aid~~ REQUIRED certification or other ~~certification~~ TRAINING confirming qualifications for the responsibilities ~~assumed~~ ASSIGNED at the camp.

D. Copy of a HEALTH ~~statement~~ HISTORY ~~signed by the physician or the nurse practitioner regarding the physical examination of the staff member or a statement from the staff member pursuant to~~ AS REQUIRED IN Section 7.711.21.E.

E. Name, address, and telephone number of any person(s) to be notified in the event of an emergency~~, which may include home phone number, work phone, cell phone, pager, fax number, and e-mail address if available~~.

F. Copy of the written references or note of phone references pursuant to Section 7.711.21.D.

G. Copy of the signed letter of agreement pursuant to Section 7.711.21.C.

H. The dates ~~that the staff member was on the staff of the camp~~ OF EMPLOYMENT FOR EACH STAFF MEMBER.

7.711.~~6~~43 General Information [Rev. eff. 7/1/00]

A. The camper's file ~~shall~~ MUST be retained by the camp for at least three (3) years after the child'S ~~leaves the~~ LAST DAY OF ATTENDANCE AT THE camp, and ~~shall~~ MUST be available without restriction to the ~~licensing agency, but otherwise shall be treated as confidential. Retention of records for a longer period may be desirable where they reflect an accident, injury, or other unusual circumstances~~ DEPARTMENT.

B. Personnel AND CHILDREN'S records ~~shall~~ MUST be maintained by the camp for at least three (3) years. If the record reflects an accident, injury, or other unusual circumstance, it is suggested that the record be maintained for a longer period of time.

C. ~~Children's records shall be confidential, and facts learned about children and their families shall be kept confidential. The license may be denied, revoked, or made probationary if confidentiality of records or information is not maintained.~~

7.711.~~7~~5 CAMPSITE, PHYSICAL FACILITY, FIRE SAFETY AND SANITATION

7.711.~~7~~51 Campsites [Rev. eff. 6/1/07]

A. ~~All new and remodeled camp buildings, facilities, and equipment must meet the requirements of applicable codes and regulations, such as those governing health, safety, sanitation, building and fire; specifically, the codes of the local fire departments and the Colorado Department of Public Health and Environment.~~

~~B.~~ ~~Prior to issuance of an original license, and at least every two years, the camp shall be inspected and approved by the state health department or its local unit as conforming to sanitary standards. In the case of a t~~Travel-trip camp~~S, the~~ MUST SUBMIT THEIR plans FOR COMPLIANCE WITH THE RULES AND REGULATIONS GOVERNING THE HEALTH AND SANITATION OF CHILD CARE FACILITIES IN THE STATE OF COLORADO FOR APPROVAL BY THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT, THIRTY (30) DAYS PRIOR TO ~~that the camp has made to meet the requirements shall be inspected and approved prior to~~ the date the trip camp begins.

~~C~~B. The camp must conform to fire prevention and protection requirements of local fire departments in the locality of the camp. ~~An inspection and approval of the local fire department must be obtained prior to original licensing and at least every two years. If the camp is not located within~~

~~the jurisdiction of a local fire department, such fire department approval is not required.~~ In the case of a travel-trip camp, the fire department approval is not required ~~since the camp has no permanent campsite~~.

~~D. Existing facilities can be required to correct deficiencies caused by non-compliance with regulations of the health or fire departments, which may be hazardous in nature.~~

~~E~~C. The camp ~~shall~~ MUST identify hazard~~ou~~s~~,~~ AND high-risk areas ~~such as cliffs, cellars, mineshafts, etc~~ AND DEVELOP POLICIES THEY FOLLOW TO PREVENT UNAUTHORIZED ACCESS TO THESE HAZARDS AND HIGH-RISK AREAS. ~~These areas shall be guarded of posted to reduce the possibility of accidents.~~

~~F~~D. Each ~~residential~~ camp ~~shall~~ MUST have a telephone or ~~comparable~~ means of communication TO CONTACT EMERGENCY SERVICES. ~~If either of these is impossible, individual arrangements shall be made by the camp and approved by the State Department.~~

~~G~~E. Emergency telephone numbers ~~shall~~ MUST be posted ~~for at least, but no limited to,~~ the camp ~~doctor~~ HEALTH CARE PROFESSIONAL, nearest clinic or hospital, ambulance service, local sheriff's office ~~and rescue unit~~, national or state forest service office (as appropriate), fire department or lookout station, and poison control center ~~(if available)~~.

~~H~~F. In the case of a primitive camp or travel-trip camp, sources of emergency care and methods of communication with such facilities as hospitals, police, AND forest service ~~shall~~ MUST be identified for each campsite on the itinerary.

~~I~~G. When playground equipment is provided at a residential camp, the equipment and playground area ~~shall~~ MUST be free of obstruction and man-made or natural hazards and ~~shall~~ MUST be away from natural pathways of traffic.

H. Playground equipment ~~such as, but not limited to, climbing apparatus, slides, swings, and swing sets shall~~ MUST MEET THE FOLLOWING REQUIREMENTS:

1. Be in good repair, of solid and safe construction, free of rough edges, protruding bolts, and the possibility of entrapment of extremities.

2. Be securely anchored ~~to~~ BY ~~concrete or other~~ suitable footing.

3. Swings must have seats made of a flexible material.

4. Moving equipment must be located toward the edge or corner of a play area or be designed in such a way as to discourage children from running into the path of the moving equipment.

5. Metal equipment ~~shall~~ MUST be placed in the shade ~~when possible and must be arranged so that children playing on one piece of equipment will not interfere with children playing on or running to another piece of equipment~~ OR A SHADE STRUCTURE MUST BE PROVIDED.

6. The maximum height of any piece of playground equipment is six (6) feet.

7. All pieces of playground equipment must be designed to guard against entrapment and strangulation.

8. All pieces of permanently installed playground equipment must be surrounded by a resilient surface of a depth of at least six (6) inches. Rubber mats manufactured for such

use consistent with the guidelines of the Consumer Product Safety Commission may be used in place of resilient material.

9. ~~The use of any materials under permanently installed playground equipment other than wood chips, wood mulch, engineered wood fiber, pea gravel, synthetic pea gravel, and shredded rubber tires must be approved by the State~~ Department APPROVED RESILIENT SURFACING INCLUDES LOOSE FILL MATERIALS SUCH AS WOOD CHIPS, WOOD MULCH, ENGINEERED WOOD FIBER, PEA GRAVEL, SYNTHETIC PEA GRAVEL, SHREDDED RUBBER TIRES, AND FINE LOOSE SAND. SOLID UNITARY MATERIALS INCLUDE POURED IN PLACE SURFACING, APPROVED RUBBER MATS, PLAYGROUND TILES, AND ASTRO TURF WITH BUILT IN RESILIENT PAD.

10. ANY PERMANENTLY INSTALLED OUTDOOR CLIMBING EQUIPMENT OR PORTABLE CLIMBING EQUIPMENT EIGHTEEN (18) INCHES OR HIGHER MUST HAVE RESILIENT SURFACING, MEETING CURRENT FEDERAL SAFETY REQUIREMENTS, UNDERNEATH AND IN THE USE ZONE SURROUNDING THE EQUIPMENT, AND INSTALLED ACCORDING TO MANUFACTURER INSTRUCTIONS.

11. PLAYGROUND SURFACES MUST BE CHECKED PRIOR TO USE FOR THE PRESENCE OF DANGEROUS OR OTHER FOREIGN MATERIALS. PLAYGROUND EQUIPMENT MUST BE CHECKED FOR SAFETY ON A MONTHLY BASIS.

J. If the residential camp is located on or uses national or state lands, the director ~~shall~~ MUST familiarize the staff and campers with rules and ethics governing the use of such property and ~~shall~~ MUST be responsible for compliance.

K. An itinerary ~~shall~~ MUST be filed or an arrangement ~~shall~~ MUST be made with national or state forest service office if such land is to be used by the travel-trip camp. The director ~~shall~~ MUST familiarize the staff and campers with rules governing the use of such property. Should the travel-trip camp pass onto private land, an agreement ~~shall~~ MUST be made with the individual responsible for that land prior to access.

L. IN STRUCTURES WHERE THE PROGRAM USES ANY SOURCE OF COAL, WOOD, CHARCOAL, OIL, KEROSENE, PROPANE, NATURAL GAS OR ANY OTHER PRODUCT THAT CAN PRODUCE CARBON MONOXIDE INDOORS, AN OPERATIONAL CARBON MONOXIDE DETECTOR MUST BE INSTALLED. CARBON MONOXIDE DETECTORS MUST MEET THE FOLLOWING REQUIREMENTS:

1. TESTED MONTHLY TO ENSURE THEY ARE OPERATIONAL.

2. BATTERIES CHANGED AT LEAST YEARLY.

7.711.~~7~~52 Permanent and Semi-Permanent Shelters and Sleeping Facilities

A. All structures used by children ~~shall~~ MUST be kept in good repair at all times.

B. At least one-half of the floor area in each living unit, excluding tents, ~~shall~~ MUST have a minimum ceiling height of seven (7) feet. No portion of a room having a ceiling height of less than five (5) feet ~~shall~~ WILL be considered as usable floor space.

C. If fabric structures are used~~, no plastic material will be permitted. Fabric structures shall~~ THEY ~~shall~~ MUST be CONSTRUCTED of a fire- and flame-retardant material. ~~Existing fabric structures may be required to be removed on the basis of hazard potential.~~

~~D. Campfires and open flames of any type shall be prohibited within ten (10) feet of any tent.~~

~~E. Each camp building used for living or sleeping quarters shall have windows or openings constructed so as to admit adequate light and air.~~

~~F~~D. Each camper ~~shall~~ MUST be provided with his~~/~~ OR her own mat, pad, b~~a~~Ed, or cot.

~~G~~E. The aisles between rows of cots, beds, or bunks ~~shall~~ MUST be kept clear for exiting purposes. There ~~shall~~ MUST be at least two (2) feet of clear space separating sides of COTS, beds OR BUNKS.

~~H~~F. If bunk beds are in use, no bunks ~~shall~~ MAY contain more than two tiers of beds. There ~~shall~~ MUST be at least twenty-seven (27) inches of clear space separating the tiers of beds and thirty-six (36) inches of clear space between the top tier and the ceiling. Electric lights which are within reach of the top bunk ~~shall~~ MUST be protected.

~~I~~G. Each permanent sleeping unit, building, or tent ~~shall~~ MUST have ~~not less than~~ AT LEAST THIRTY (30) square feet of floor space per person, camper, or counselor for single-tier beds and twenty (20) square feet per person, camper, or counselor for two-tier bunks.

~~J~~H. In tent structures which have a platform floor, beds or bunks ~~shall~~ MUST be arranged in such a fashion that no camper who might fall from a bed or bunk could fall through the sides of the tent to the ground below.

~~K~~I. There ~~shall~~ MUST be provision in each sleeping unit for storage of the camper's clothing and personal belongings.

~~L~~J. No camper shall sleep in the same room or tent with any person of the opposite ~~sex~~GENDER, except FOR~~ing~~ members of his OR ~~/~~her immediate family.

~~M~~K. In a primitive camp or travel-trip camp, adequate shelters such as a tent ~~shall~~ MUST be available for each child. ~~There shall be fifteen square feet per occupant in each tent or shelter~~ THE SHELTER OCCUPANCY MUST BE IN COMPLIANCE WITH MANUFACTURERS' RECOMMENDATIONS.

~~N. Reasonable insulation shall be provided from cold/dampness by means of such things as a ground cloth beneath the tent.~~

7.711.~~7~~53 Toilet and Bathing Facilities

A. In a resident camp there ~~shall~~ MUST be one COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) approved toilet for every twenty (20) OR FEWER campers ~~or fraction thereof~~ for which the camp is licensed. Urinals may be substituted for no more than one-third of the required toilets.

B. CHILDREN MUST BE ALLOWED THE USE OF GENDER-SEGREGATED TOILET FACILITIES THAT ARE CONSISTENT WITH THEIR GENDER IDENTITY OR HAVE Sseparate ~~designated toilet facilities shall be provided for each sex in coed camps~~ OR INDIVIDUAL TOILET FACILITIES.

~~C. Installation, operation, and maintenance requirements for toilet facilities and urinals:~~

~~1. Water-flush toilets and urinals, chemical toilets, pit privies or latrines shall be provided and maintained in a clean and sanitary condition.~~

2. Toilets, privies, and latrines shall have tight seat covers free of splinters.

DC. Hand washing facilities shall MUST be provided throughout the camp. There shall MUST be one basin or lavatory for per eachVERY twenty (20) campers. IN NEW CONSTRUCTION COMPLETED AFTER MARCH 1, 2018, CHANGE OF GOVERNING BODY OR EXTENSIVE REMODELING THE CAMP MUST PROVIDE HAND WASHING FACILITIES LOCATED ADJACENT TO WHERE THE CAMP SERVES MEALS.

ED. Showers or bathtubs shall MUST be located within buildings used for sleeping, such as cabins or dormitories, or in a centrally located shower or bathing structure.

1. There shall MUST be one shower head or bathtub for PER each EVERY twenty (20) campers or fraction thereof for which the camp is licensed.

2. Hand washing facilities shall MUST be available in the shower or bathing area.

3. Shower or bathhouses shall be provided with vapor-proof lights enclosed in a shatterproof container.

FE. All sewage disposable systems shall MUST meet the state and local health department COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) requirements.

G. In a primitive or travel-trip camp, the following shall be provided:

1. If the camp is not provided with privies or other acceptable type toilets, there shall be separate designated areas; for each gender for toilet use that meets the Health Department's requirements.

7.711.75 Food Preparation Area

A. The kitchen, the food preparation process, dish and utensil washing, food storage, and all other food service areas shall be operated in compliance with the rules and regulations governing food services establishments within the State of Colorado.

B. Garbage and trash removal shall meet the requirements of the state, federal, and local ordinances.

7.711.754 General Building Safety [Ref. eff. 6/1/12]

A. Every building, structure, tent, cabin, and camp premises shall MUST be kept in good repair, and shall MUST be maintained in a safe condition.

B. All new electrical installations shall meet standards of the National Electrical Code. All electrical work must be installed by a licensed electrical contractor with proper permits and inspections. Each electric outlet on the outside of a building shall be mounted in approved, protective weatherproof housing. ALL CONSTRUCTION AND INSTALLATIONS MUST COMPLY WITH LOCAL BUILDING AND PLANNING ORDINANCES.

DC. In buildings accommodating more than 12 persons IN PERMANENT STRUCTURES, exit signs shall MUST be posted at every required exit doorway and wherever otherwise required to clearly indicate the directions of egress. Exit signs shall have letters of at least five inches in height.

ED. A building with an occupancy of more than twelve (12) persons shall MUST be provided with at least two separate and independent means of egress located as far apart as practical and

SEPARATED BY NO ~~in no case~~ less than fifty (50) percent of the largest dimension of the building FROM EACH OTHER.

1. In an existing building, such as a cabin occupied by more than twelve (12) but less than twenty (20) persons, a window may be utilized as an acceptable second exit. The window ~~shall~~ MUST be openable and the distance from the window to the ground ~~shall~~ MUST not be more than four feet.

2. Each exit door ~~shall~~ MUST be hung to swing in the direction of exit travel. Exiting through a food preparation area is not permitted.

~~F~~E. If buildings with second stories are used by campers, there ~~shall~~ MUST be two ~~widely separated~~ INDEPENDENT MEANS OF EGRESS SEPARATED BY NO LESS THAN FIFTY (50) PERCENT OF THE BUILDING FROM EACH OTHER PER FLOOR. ~~exits from each floor.~~

~~G~~F. Each fire escape from any upper level of a building ~~shall~~ MUST be installed in accordance with ~~requirements of the National Fire Protection Association codes~~ LOCAL FIRE PROTECTION ORDINANCES.

~~H~~G. ~~The door hardware on a door, forming part of a means of egress shall be of a type that is non-locking against egress and operated with a single motion. The use of hooks and eyes, bolts, bars, and similar devices is prohibited on any door provided for exiting purposes or designated as an exit when camp is in use~~. IN EVERY BUILDING OR STRUCTURE, EXITS MUST BE ARRANGED AND MAINTAINED SO AS TO PROVIDE FREE AND UNOBSTRUCTED EGRESS FROM ALL PARTS OF THE BUILDING OR STRUCTURE AT ALL TIMES WHEN IT IS OCCUPIED. NO LOCK OR FASTENING TO PREVENT FREE ESCAPE FROM THE INSIDE OF ANY BUILDING CAN BE INSTALLED. ONLY PANIC HARDWARE OR SINGLE-ACTION HARDWARE IS PERMITTED ON A DOOR OR ON A PAIR OF DOORS. ALL DOOR HARDWARE MUST BE WITHIN THE REACH OF CHILDREN.

~~I~~H. ~~When occupancy of a building exceeds 100 persons,~~ eExit doors ~~shall~~ MUST be equipped only with panic OR SINGLE-ACTION hardware.

J. ~~The means of egress or the entire passage to free and safe ground remote from a building shall be unobstructed for easy travel conditions at all times.~~

~~K~~I. There ~~shall~~ MUST be fifteen (15) square feet per occupant in any room having an occupant load of more than FIFTY (50) persons where fixed seaTs are not installed and which is used for classroom, assembly, or similar purposes. The maximum occupancy ~~shall~~ MUST be posted in a conspicuous place near the main exit from the room.

~~L. In an assembly area or classroom such as a recreation room, dining hall, chapel or gymnasium, each door from that room occupied by campers shall enter a one-hour fire-rated corridor between exits or there shall be a direct egress to the outside from each such room.~~

~~M. Where a sleeping occupancy is maintained on the floor over a basement area or on a second floor, the ceiling of the basement or first floor shall be protected with five-eighths inch United Underwriters Laboratory-listed gypsum wallboard or any other proven assembly of materials that will provide a minimum one-hour resistance to fire, unless such construction is of solid or laminated wood timbers not less than three 3 inches in thickness and installed so as to be smoke tight.~~

~~N~~J. Furnaces, fireplaces, heaters, or wood-burning stoves ~~shall~~ MUST meet the following regulations:

1. ~~Furnaces such as forced-air furnaces or hot water boilers~~ ALL HEATING UNITS ~~shall~~ MUST be INSTALLED IN COMPLIANCE WITH LOCAL ORDINANCE ~~separated from the rest of the building by one-hour fire-resistive material (see Section 7.711.75, M) provided with adequate outside combustion air, installed~~ and maintained with safety devices to prevent fire, explosions, and other hazards. NO OPEN-FLAME GAS OR OIL STOVES, UNSCREENED FIREPLACES, HOT PLATES, OR UNVENTED HEATERS CAN BE USED FOR HEATING PURPOSES. ALL HEATING ELEMENTS, INCLUDING HOT WATER PIPES, MUST BE INSULATED OR INSTALLED IN SUCH A WAY THAT CHILDREN CANNOT COME IN CONTACT WITH THEM.

~~2. Only heaters installed with permanent connections and protectors shall be used~~.

~~3. All heaters installed shall be U.L. approved and installed according to manufacturers' specifications.~~

~~4. Boilers used for hot water supply rated at over 200,000 BTU or any boiler used for building heating shall be inspected and a certificate provided as required by the Division of Labor.~~

~~5~~2. A heater or wood-burning stove ~~shall~~ MUST be located and/or protected in such a manner as to prevent injuries to occupants of the building.

~~6~~3. Wood-burning stoves ~~shall~~ MUST be regularly cleaned of ashes, which are immediately removed from the building and properly stored.

~~7~~. ~~Fireplaces shall be protected by a screen or glass device.~~

~~8~~4. Space around furnaces, heaters, and wood-burning stoves ~~shall~~ MUST not be used for storage.

~~9~~5. ~~Fire hazards~~ NOTHING FLAMMABLE OR ~~and~~ combustible ~~materials such as paper and rags shall not be permitted to accumulate upon the premises and shall not~~ CAN be stored ~~near~~ WITHIN THREE (3) FEET OF A FURNACE OR HOT water heater~~, furnaces, heaters, stoves~~.

~~P~~K. ~~Ammunition,~~ ALL firearms~~, explosives, power tools, and special equipment involving unusual risk shall~~ MUST be ~~stored in a~~ locked AND INACCESSIBLE TO ~~place not occupied by~~ children. THIS INCLUDES, BUT IS NOT LIMITED TO AIR RIFLES, BB GUNS, AND PAINTBALL GUNS. AMMUNITION MUST BE LOCKED AND STORED SEPARATELY~~. and shall always be under the custody and direct supervision of authorized personnel when in use.~~

L. POWER TOOLS, EXPLOSIVES AND SPECIAL EQUIPMENT INVOLVING UNUSUAL RISK MUST BE STORED IN A LOCKED PLACE INACCESSIBLE TO CHILDREN, AND MUST ALWAYS BE UNDER THE CUSTODY AND DIRECT SUPERVISION OF AUTHORIZED PERSONNEL WHEN IN USE.

~~Q~~M. ~~All flammables shall be stored in approved containers or storage cabinet or in a building other than buildings which children occupy.~~ VOLATILE SUBSTANCES SUCH AS GASOLINE, KEROSENE, FUEL OIL, AND OIL- BASED PAINTS, FIREARMS, EXPLOSIVES, AND OTHER HAZARDOUS ITEMS MUST NOT BE STORED IN ANY AREA OF THE BUILDING USED FOR CHILDREN UNLESS APPROVED BY THE LOCAL FIRE DEPARTMENT.

~~R~~N. Substances which may be toxic to a child if ingested, inhaled, or handled, including, but not limited to, poisons, drugs, medicines, insecticides, herbicides, rodenticides, bleaches, chemicals,

~~plastic bags~~ and corrosive agents ~~shall~~ MUST be stored in a cabinet or enclosure located in an area not used by children, stored in the original container, and properly labeled.

~~S~~O. Glass doors, walls, or panels ~~shall~~ MUST be clearly marked. Safety glass ~~shall~~ MUST be installed when required.

~~T~~P. Stairways OF A HEIGHT of more than ~~three risers shall~~ THIRTY (30) INCHES MUST be equipped with handrails on each side of the stairways. A stairway which is larger than 88 inches wide ~~shall~~ MUST have an intermediate handrail ~~equidistant~~ EQUAL DISTANCE between the two handrails.

~~U~~Q. All window wells and outside stairwells that are hazardous to children ~~shall~~ MUST be equipped with screens or guards, which ~~shall~~ MUST be attached in such a manner that they may either by removed from the inside or broken in from the outside in case of fire.

~~V~~R. ~~Premises~~ ALL AREAS ACCESSIBLE TO CHILDREN ~~shall~~ MUST be MAINTAINED IN A SAFE CONDITION BY REMOVAL OF DEBRIS, DILAPIDATED STRUCTURES, AND BROKEN OR WORN EQUIPMENT OR DANGEROUS ITEMS. ~~free of all hazards, including, but not linked to, old refrigerators, freestanding walls, open cisterns, grease traps, unsafe fences, worn or hazardous play equipment.~~

7.711.~~75~~5 Fire Safety Provisions [Rev. eff. 4/1/15]

A. Any fire extinguisher used at the camp ~~shall~~ MUST be of a dry chemical type, hung at a level readily available to staff members, and annually inspected by an approved inspector. Indian pump backpack fire extinguishers and fire extinguishers approved for use by the U.S. Forest Services are also acceptable.

1. There must be a fire extinguisher located in the camp kitchen.

2. In each building and/or structure, there must be a fire extinguisher on each floor.

3. In tent areas, there must be a fire extinguisher located within seventy-five (75) feet of each tent or a plan approved by the department.

B. In each camp there must be a fire alarm(s) ~~which~~ THAT sounds a separate and distinctly recognizable tone from all other signaling devices used by the camp. The alarm(s) must be audible throughout the occupied camp premises. The alarm device, once activated, must continue to sound automatically.

C. Within twenty-four (24) hours after arrival at the campsite, all individuals attending the camp must be made familiar with the methods by which the fire alarm may be activated and with procedures to be followed upon notification of fire.

D. Each separate building used for sleeping campers and each multistory building must be protected by a smoke detector on each floor of the building.

E. Areas used for campfires must be cleared and must be away from overhanging branches.

F. Campfires must never be left unattended and must be thoroughly extinguished. Extinguishing equipment must ~~be close at hand~~ IMMEDIATELY ACCESSIBLE.

G. CAMPFIRES AND OPEN FLAMES OF ANY TYPE MUST BE PROHIBITED WITHIN 10 FEET OF ANY TENT OR FABRIC STRUCTURE.

7.712 RULES REGULATING SCHOOL-AGE CHILD CARE CENTERS

All school-age child care centers must comply with the "General Rules for Child Care Facilities" as well as the "Rules Regulating School-Age Child Care Centers" and the "Rules and Regulations Governing the HEALTH and Sanitation of Child Care ~~Centers~~ FACILITIES in the State of Colorado."

7.712.1 (None) [Rev. eff. 6/1/12]

7.712.2 DEFINITIONS [Rev. eff. 3/1/18]

A. A "school-age child care center" (hereafter referred to as the "center") is a child care center that provides care for five (5) or more children who are between five (5) and ~~sixteen (16)~~ EIGHTEEN (18) years of age. CHILDREN FOUR (4) YEARS OF AGE, WHO WILL TURN FIVE (5) ON OR BEFORE OCTOBER 15TH OF THE CURRENT CALENDAR YEAR, MAY ATTEND THE CENTER AS PART OF A "BUILDING-BASED SCHOOL-AGE CHILD CARE PROGRAM" OR "BUILDING-BASED DAY CAMP" SUMMER PROGRAM PRIOR TO THEIR KINDERGARTEN YEAR. ~~The center's purpose is to provide child care and/or an outdoor recreational experience using a natural environment.~~ The center operates for more than one week during the year. The term includes facilities commonly known as "day camps,"~~,~~ "summer camps,"~~,~~ "summer playground programs,"~~,~~ "before and after school programs,"~~,~~ and "extended day programs."~~.~~ This includes centers operat~~ed~~ING with or without compensation for such care, and with or without stated educational purposes.

B. A "building-based school-age child care program" is a child care program that provides care for five (5) or more children who are between five (5) and ~~sixteen (16)~~ EIGHTEEN (18) years of age. The center is located in a building that is regularly used for the care of children.

C. A "day camp" is a school-age child care program which operates at least four (4) hours a day primarily during one season of the year, and during school vacation periods for children between five (5) and eighteen (18) years of age, which accepts registrations for finite, not necessarily contiguous sessions. Programs may operate daily between 6:00 a.m. and 10:00 p.m. Day camp programs may ~~incidentally~~ offer ~~not~~ NO more than two overnight stays each camp session. ~~The~~

~~day camp provides a creative recreational and educational opportunity through group oriented programs. The day camp utilizes trained leadership and the resources of the natural surroundings to contribute to each child's mental, physical, social, and personal growth.~~

The types of day camps are as follows:

1. A "building based day camp" is a child care program that provides care for five (5) or more children who are between five (5) and eighteen (18) years of age. The day camp is located in a building which, along with the outdoor surroundings, is regularly used by the program.

2. A "mobile day camp" is a child care program that provides programming for five (5) or more children who are at least seven (7) years of age or who have completed the first grade. Children move from one site to another by means of transportation provided by the governing body of the program. The program uses no permanent building on a regular basis. Mobile day camp programs may operate in multiple sites, IN A SINGLE COUNTY, under one license.

3. An "outdoor-based day camp" is a child care program that provides care or five (5) or more children who are at least seven (7) years of age or have completed the first grade. The day camp ~~uses no~~ DOES NOT USE A permanent building on a regular basis and provides programming in a permanent outdoor or park setting.

7.712.3 POLICIES AND PROCEDURES

7.712.31 Statement of Policies and Procedures [Rev. eff. 6/1/07]

A. At the time of enrollment, and upon amendments to policies and procedures, the center must give the parent(s)/guardian(s) the center's policies and procedures, and provide the opportunity to ask questions. Written copies must be available either electronically or in hard copy. The center must obtain a signed document stating that the parent(s)/guardian(s) have received the policies and procedures, and by signing the policies and procedures document, the parent(s)/guardian(s) agree to follow, accept the conditions of, and give authorization and approval for the activities described in the policies and procedures. Policies must include the following:

1. The center's purpose and its philosophy on child care;

2. The ages of children accepted;

3. Services offered for special needs children in compliance with the Americans with Disabilities Act (see Section 7.701.14, General Rules for Child Care Facilities);

4. The hours and dates when the center is in operation, specific hours during which special activities are offered, AND holidays when the center is closed;

5. The policy regarding ~~severe~~ INCLEMENT weather;

6. The procedure concerning admission and ~~registration~~ ENROLLMENT of children;

7. An itemized fee schedule;

8. The procedure ~~for identifying where children are at all times~~ TO ENSURE THE LOCATION OF CHILDREN IS KNOWN AT ALL TIMES, HOW CHILDREN ARE ACCOUNTED FOR THROUGHOUT THE DAY, AND THAT CHILDREN ARE SUPERVISED AT ALL TIMES BY THEIR ASSIGNED STAFF MEMBER;

9. The center's procedure on guidance, positive instruction, supporting positive behavior, discipline and consequences, including how the center will:

   a. Cultivate positive child, staff and family relationships;

   b. Create and maintain a socially and emotionally respectful early learning and care environment;

   c. Implement teaching strategies supporting positive behavior, pro-social peer interaction, and overall social and emotional competence in young children;

   d. Provide individualized social and emotional intervention supports for children who need them, including methods for understanding child behavior; and developing, adopting and implementing a team-based positive behavior support plan with the intent to reduce challenging behavior and prevent suspensions and expulsions; and

   e. Access an early childhood mental health consultant or other specialist as needed.

10. The procedure~~, including notification of parents and guardians,~~ for handling children's illnesses, accidents, and injuries, INCLUDING WHEN CHILDREN WILL BE EXCLUDED FROM CARE AND NOTIFICATION OF PARENTS/GUARDIANS;

11. The procedures ~~for handling~~ FOLLOWED ~~lost children~~ WHEN IT HAS BEEN IDENTIFIED A CHILD IS SEPARATED FROM THEIR GROUP AND NOT UNDER THE DIRECT SUPERVISION OF THEIR ASSIGNED STAFF MEMBER. ~~and other emergencies at all times, including during field trips. An outline of a plan of action in case of natural disaster is found at Section 7.712.83, G;~~

12. The procedure for transporting children, if applicable, including transportation arrangements and parental permission for excursions and related activities;

13. The written policy and procedure governing field trips, television and video viewing, and special activities, including the staff's ~~responsibility~~ ROLE for the supervision of children;

14. The ~~policy~~ PROCEDURE on children's safety related to riding in a vehicle, seating, supervision, and emergency procedures on the road;

15. The procedure for releasing children from the center only to persons for whom the center has written authorization;

16. The procedures followed when a child is picked up from the center after the closing hours of the center or not picked up at all, and the procedure to ensure that all children are picked up before the staff leave for the day;

17. The procedure for caring for children who arrive late to the center and their class/group is away from the center on a field trip or excursion;

18. The procedure for STORING AND administering children's medicines and delegation of medication administration in compliance with Section 12-38-132, C R S., of the "Nurse Practice Act.";

19. The procedure concerning children's personal belongings and money;

20. The policy concerning meals and snacks;

21. The policy AND PROCEDURE regarding visitors;

22. The procedure for filing a complaint about child care (see Section 7.701.5. General Rules for Child Care Facilities);

23. The ~~policy~~ PROCEDURE regarding the reporting of SUSPECTED OR KNOWN child abuse AND/OR NEGLECT (see Section 7.701.5 General Rules for Child Care Facilities);

24. ~~The policy regarding the child care facilities' responsibility to notify parents or guardians when the program will no longer be able to serve children~~ THE POLICY FOR NOTIFICATION WHEN CHILD CARE SERVICE IS WITHDRAWN BY THE PROGRAM, OR WHEN PARENTS OR GUARDIANS WITHDRAW THEIR CHILD(REN) FROM THE CENTER;

25. ~~The policy regarding the parent's or guardian's responsibility to notify the child care program when parents or guardians withdraw their child(ren) from the PROGRAM~~ THE PROCEDURE, IF APPLICABLE, FOR TRANSITIONING CHILDREN BETWEEN SCHOOL OR COMMUNITY SPONSORED ACTIVITIES; and

26. ~~What~~ THE POLICY ON THE steps ~~are taken~~ THE CENTER WILL TAKE prior to the suspension, expulsion or request to parents/~~ or~~ guardians to withdraw a child from care due to concerns about the child's behavioral issues. These procedures must be consistent with the center's policy on guidance, positive instruction, discipline and consequences, and include documentation of the steps taken to understand and respond to challenging behavior.

7.712.32 Communication, Emergency, and Security Procedures [Rev. eff. 4/1/15]

A. The center must notify the parents/~~ or~~guardians in writing of significant changes in its services, policies, or procedures so that they can decide whether the center continues to meet the needs of the child(ren).

B. For security purposes, a DAILY sign-in/sign-out sheet or other mechanism for parents/ ~~and~~ guardians must be maintained ~~daily~~ by the center It must include, for each child in care, the date, the child's name, the time when the child arrived ~~at~~ and left the center, and the parent/~~ or~~ guardian's signature or other identifier. With A parent/ ~~or~~ guardian's approval, a child FIVE (5) YEARS OF AGE OR OLDER may sign in and out instead of the parent/ ~~or~~ guardian. Staff must verify attendance periodically throughout the day.

~~C. Each center is required to have a written mission statement. This statement must be kept on file, updated periodically, and made known to staff and to parents and guardians, and must be available during the licensing inspection.~~

~~D~~C. During the hours the center is in operation, the center must provide an office and/or monitored telephone number known to the public and available to parents/GUARDIANS in order to provide immediate access to the center.

~~E~~D. If the center has a permanent site, there must be a telephone at the site.

~~F. Centers must have an established means of communication between staff and the program office when children are being transported or are away from the permanent site on a field trip.~~

~~G~~E. Emergency telephone numbers must be posted at each permanent site and taken on all field trips and during mobile school-age child care programs. The emergency numbers must include, at a minimum, 911, ~~if available,~~ or A rescue unit if 911 isn't available; the clinic or hospital nearest to the activity location; ambulance service; fire, police, and health departments; and Rocky Mountain Poison Control.

~~H~~F. Mobile school-age child care programs must have a way to be contacted while in transit.

~~I~~G. The center must be able to provide emergency transportation to a health care facility at all times either via program vehicle or the emergency medical services system.

~~J~~H. The director of the center or the director's delegated substitute must have a means for determining ~~at all times~~ who is present at the center AT ALL TIMES.

~~K~~I. A written policy regarding visitors to the center must be posted and a record maintained daily by the center that includes, at a minimum, the visitor's name and address and the purpose of the visit. At least one piece of identification must be inspected for individuals who are strangers to personnel at the center.

~~L~~J. With the exception of children who are allowed to sign themselves in and out, the center must release A ~~the~~ child only to the adult(s) for whom written authorization has been given and is maintained in the child's record (see Section 7.712.81). In an emergency, the child(REN) may also be released to an adult for whom the child's parent or guardian has given verbal authorization. If the staff member who releases the child does not know the adult, identification must be required to assure that the adult is authorized to pick up the child.

~~M~~K. The center must have a procedure for dealing with individuals not authorized by the parent/~~ or~~ guardian of a child who attempts to have the child released to them.

~~N~~L. The center must have a written emergency procedure that explains how AND WHEN it will report communicable illnesses to the local, health department pursuant to regulations of the State Department of Public Health and Environment.

~~O~~M. The center must have a written procedure for closing the center at the end of the day to ensure that all children are picked up.

7.712.4 PERSONNEL

7.712.41 General Requirements for All Personnel [Rev. eff. 6/1/12]

A. ~~All personnel of the center must demonstrate an interest in and knowledge of children and concern for their proper care and well-being.~~ ALL PERSONNEL AND VOLUNTEERS AT THE CENTER MUST DEMONSTRATE KNOWLEDGEABLE DECISION-MAKING, JUDGMENT, AND CONCERN FOR THE PROPER CARE AND WELL-BEING OF CHILDREN.

B. All personnel AND VOLUNTEERS must be free from illness and conduct that would endanger the health, safety, or well-being of children.

~~C. The center must determine if any staff person who works at the center has ever been convicted of a crime as listed at Section 7.701.33, D, 5 or 6, of the General Rules for Child Care Facilities.~~

~~D~~C. A criminal record check request for all ~~in-state~~ staff must be submitted to the Colorado Bureau of Investigation ~~within five (5) days that an individual is employed by the center~~. The personnel file of ~~in-state~~ staff members of the center must contain clearance ~~or arrest~~ report from the Colorado Bureau of Investigation ~~resulting from the caregiver's criminal record check~~. The requirement for a

criminal record check is found in Section 7.701.33 of the General Rules for Child Care Facilities. Seasonal staff that indicate that they will not be returning to the program for employment ~~shall~~ MUST be removed from the CBI list for the program.

~~E. A request for a review of the State Department's automated system must be made within ten (10) working days of each staff member's first day of employment. The method for making the request is found in 7.701.32 (General Rules for Child Care Facilities).~~

~~F~~D. Each staff member and REGULAR volunteer must ~~furnish the center with information concerning chronic health problems, any known drug reactions, allergies, medications being taken, and/or other health problems that could affect the staff member's ability to perform the duties of the job assigned~~ COMPLETE AN ANNUAL HEALTH HISTORY. THE HEALTH HISTORY MUST BE MAINTAINED IN A SECURE LOCATION.

~~G~~E. The duties and responsibilities of each staff position and the lines of authority and responsibility within the center must be in writing. At the time of employment, staff members must be informed of their duties and assigned a supervisor.

~~H~~F. Prior to working with children, the staff member must read and be instructed on the policies and procedures of the center, including those relating to hygiene, sanitation, food preparation practices, proper supervision of children, and reporting of child abuse. Staff members must sign a statement indicating that they have read and understand the center's policies and procedures.

~~I~~G. Day camp staff ~~shall~~ MUST receive a minimum of fifteen (15) hours of pre-camp training, ~~not including~~ IN ADDITION TO DEPARTMENT-APPROVED First Aid and CPR. Pre-camp training must include all training activities that staff MEMBERS participate in as a whole. Training should include, but not be limited to, familiarizing staff with the camp mission, site emergency policy and procedures, how to supervise and facilitate activities with campers, and health care policies and procedures. Policies and procedures must be in writing. Staff will be supervised and additional training may be provided if needed. Day camps must have a system in place to provide staff the essential training information for late hires.

~~J~~H. The center must have a staff development plan that includes a minimum of fifteen (15) clock hours of ONGOING training each year for all staff. This requirement does not apply to day camps. ~~This training must relate to one or more of the following general areas: child growth and development, healthy and safe environment, developmentally appropriate practices, guidance, family relationships, cultural and individual diversity, and professionalism. At least three (3) clock hours per year must be in the focus of social emotional development.~~ The fifteen (15) clock hours of training does not include recertification in First Aid and CPR. ONGOING TRAINING AND COURSES MUST DEMONSTRATE A DIRECT CONNECTION TO ONE OR MORE OF THE FOLLOWING COMPETENCY AREAS:

1. CHILD GROWTH AND DEVELOPMENT, AND LEARNING OR COURSES THAT ALIGN WITH THE COMPETENCY DOMAINS OF CHILD GROWTH AND DEVELOPMENT;

2. CHILD OBSERVATION AND ASSESSMENT;

3. FAMILY AND COMMUNITY PARTNERSHIP;

4. GUIDANCE;

5. HEALTH, SAFETY AND NUTRITION;

6. PROFESSIONAL DEVELOPMENT AND LEADERSHIP;

7. PROGRAM PLANNING AND DEVELOPMENT;

8. TEACHING PRACTICES:

a. EACH ONE (1) SEMESTER HOUR COURSE WITH A DIRECT CONNECTION TO THE COMPETENCY AREA LISTED IN SECTION 7.712.41, J, 1-8, TAKEN AT A REGIONALLY ACCREDITED COLLEGE OR UNIVERSITY MAY COUNT AS FIFTEEN (15) CLOCK HOURS OF ONGOING TRAINING.

b. TRAINING HOURS COMPLETED CAN ONLY BE COUNTED DURING THE YEAR TAKEN AND CANNOT BE CARRIED OVER.

I. TO BE COUNTED FOR ONGOING TRAINING, THE TRAINING CERTIFICATE MUST HAVE DOCUMENTATION THAT INCLUDES:

1. THE TITLE OF THE TRAINING; AND,

2. THE COMPETENCY DOMAIN; AND,

3. THE DATE AND CLOCK HOURS OF THE TRAINING; AND,

4. THE NAME OR SIGNATURE, OR OTHER APPROVED METHOD OF VERIFYING THE IDENTITY OF TRAINER OR ENTITY; AND,

5. EXPIRATION OF TRAINING IF APPLICABLE; AND,

6. CONNECTION TO SOCIAL EMOTIONAL FOCUS IF APPLICABLE.

~~K~~J. All staff MEMBERS must complete a ~~d~~Department~~-~~approved standard precautions training ~~that meets current occupational safety and health administration (OSHA) requirements~~ prior to working with children. This training must be renewed annually and may count toward~~s~~ ongoing training requirements.

~~L~~K. ~~Effective DECEMBER 31, 2016 a~~All staff MEMBERS must complete a building and physical premises safety training prior to working with children. The training must include:

a. Identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water~~,~~ and vehicular traffic; and

b. Handling and storage of hazardous materials and the appropriate disposal of bioLOGICAL contaminants.

~~M~~L. ~~Effective December 31, 2016 each provider or~~ ALL staff memberS responsible for the collection, review and maintenance of the child immunizations records must complete the Colorado Department of Public Health and Environment (CDPHE) immunization course within ~~thirty (~~30~~)~~ calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.

~~N~~M. ~~Effective December 31, 2016 each provider,~~ ALL staff memberS ~~or~~ AND regular volunteerS must complete a ~~d~~Department~~-~~approved training about child abuse prevention, including common symptoms and signs of child abuse within ~~thirty (~~30~~)~~ calendar days of employment. This training must be renewed annually and may count towards ongoing training requirements.

7.712.42 Required Personnel and Qualifications [Rev. eff. 6/1/12]

A. Program Director

Each center must have an on-site program director who ~~shall~~ MUST be at least twenty-one (21) years of age. The program director must have demonstrated to the hiring authority maturity of judgment, administrative ability~~,~~ and the skill to appropriately supervise and direct school-age children in an unstructured setting.

1. The program director must have verifiable education or training in work with school-age children in such areas as recreation, education, scouting~~,~~ or 4-H; and the program director must have completed at least one of the following qualifications:

   a. A four (4) year college degree with a major such as recreation, OUTDOOR EDUCATION, education with a specialty in art, elementary or early childhood education, or a subject in the human service field; or

   b. Two years of college training and six (6) months (910 HOURS) of satisfactory and verifiable full-time or equivalent part-time, paid or volunteer, experience, since attaining the age of eighteen (18), in the care and supervision of four (4) or more children; or

   c. ~~Three years of satisfactory and verifiable full-time or equivalent part-time, paid or volunteer, experience, since attaining the age of eighteen (18), in the care and supervision of four (4) or more children. The program director must complete six (6) semester hours, nine (9) quarter hours in course work from a regionally accredited college or university, or forty (40) clock hours of training in course work applicable to school-age children within the first nine (9) months of employment.~~ THREE YEARS (5460 HOURS) OF SATISFACTORY AND VERIFIABLE FULL-TIME OR EQUIVALENT PART-TIME, PAID OR VOLUNTEER, EXPERIENCE AND ONE OF THE FOLLOWING QUALIFICATIONS:

      1) COMPLETE SIX SEMESTER HOURS, OR NINE QUARTER HOURS IN COURSE WORK FROM A REGIONALLY ACCREDITED COLLEGE OR UNIVERSITY; OR

      2) 40 CLOCK HOURS OF TRAINING IN COURSE WORK APPLICABLE TO SCHOOL-AGE CHILDREN AND THE DEPARTMENT-APPROVED COURSES IN INJURY PREVENTION, AND PLAYGROUND SAFETY FOR SCHOOL-AGED CHILD CARE CENTERS WITHIN THE FIRST NINE MONTHS OF EMPLOYMENT.

1. ~~The program director is responsible for planning and implementing the program and supervising the staff.~~ SATISFACTORY EXPERIENCE INCLUDES EXPERIENCE IN THE CARE AND SUPERVISION OF FOUR OR MORE CHILDREN FROM THE AGES OF FOUR (4)-EIGHTEEN (18) YEARS OLD, UNRELATED TO THE INDIVIDUAL, SINCE ATTAINING THE AGE OF EIGHTEEN (18).

2. THE PROGRAM DIRECTOR IS RESPONSIBLE FOR PLANNING AND IMPLEMENTING THE PROGRAM AND SUPERVISING THE STAFF.

B. Program Leaders

EACH PROGRAM LEADER MUST BE AT LEAST 18 YEARS OF AGE, DEMONSTRATE ABILITY TO WORK WITH CHILDREN, AND MUST MEET THE FOLLOWING QUALIFICATIONS:

1. COMPLETE THE DEPARTMENT-APPROVED COURSE IN INJURY PREVENTION;

2. COMPLETE THE DEPARTMENT-APPROVED COURSE IN PLAYGROUND SAFETY FOR SCHOOL-AGED CHILD CARE CENTERS. THIS REQUIREMENT DOES NOT APPLY TO DAY CAMPS THAT DO NOT REGULARLY USE A PLAYGROUND.; AND

3. ~~Program leaders must be at least eighteen (18) years of age and demonstrate an ability to work with children. Program leaders m~~Must have at least three (3) months (460 HOURS) of full-time or equivalent part-time satisfactory and verifiable experience with school-age children.

C. Program Aides

1. Program aides ~~shall~~ MUST be at least sixteen (16) years of age. Program aides ~~shall shall~~ MUST work directly under the supervision of the program director or program leaders and ~~shall shall~~ MUST never be left alone with children.

2. Program aides can be counted as staff in determining child care staff ratios.

D. DEPARTMENT- APPROVED CHILD CARE HEALTH CONSULTANT

1. STAFF MUST CONSULT WITH A CURRENT DEPARTMENT-APPROVED COLORADO CHILD CARE HEALTH CONSULTANT. TO BE APPROVED THE CHILD CARE HEALTH CONSULTANT MUST BE ONE OF THE FOLLOWING: A LICENSED REGISTERED NURSE WITH KNOWLEDGE AND EXPERIENCE IN MATERNAL AND CHILD HEALTH, A PEDIATRIC NURSE PRACTITIONER, A FAMILY NURSE PRACTITIONER, OR A PEDIATRICIAN. THE CONSULTATION MUST BE SPECIFIC TO THE NEEDS OF THE FACILITY AND INCLUDE SOME OF THE FOLLOWING TOPICS: TRAINING, DELEGATION AND SUPERVISION OF MEDICATION ADMINISTRATION AND SPECIAL HEALTH PROCEDURES, HEALTH CARE, HYGIENE, DISEASE PREVENTION, EQUIPMENT SAFETY, INTERACTION BETWEEN CHILDREN AND ADULT CAREGIVERS, AND NORMAL GROWTH AND DEVELOPMENT. CONSULTATION MUST OCCUR AS OFTEN AS THE CHILD CARE HEALTH CONSULTANT WHO IS DELEGATING MEDICATIONS AND/OR MEDICAL PROCEDURES REQUIRES.

2. THE DATE AND CONTENT OF EACH CONSULTATION MUST BE RECORDED AND MAINTAINED IN THE CENTER'S FILES.

3. THE CENTER MUST MAINTAIN DOCUMENTATION INCLUDING THE CHILD CARE HEALTH CONSULTANT'S (CCHC) DEPARTMENT OF REGULATORY AGENCIES (DORA) PROOF OF RN OR MD CURRENT LICENSURE IN GOOD STANDING, A BRIEF BIOGRAPHY HIGHLIGHTING APPLICABLE KNOWLEDGE, EXPERIENCE AND APPROXIMATE DATES WORKED AS A SCHOOL NURSE OR CHILD CARE HEALTH CONSULTANT COMMENCED.

4. CHILD CARE HEALTH CONSULTANTS (CCHC) MUST COMPLETE THE DEPARTMENT-APPROVED CHILD CARE HEALTH CONSULTANT (CCHC) TRAINING PRIOR TO CONSULTING WITH THE CENTER. THE CENTER MUST OBTAIN AND MAINTAIN PROOF OF COURSE COMPLETION.

5. ALL CHILD CARE HEALTH CONSULTANTS (CCHC) MUST COMPLETE THE DEPARTMENT-APPROVED COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE) IMMUNIZATION COURSE ANNUALLY.

~~D~~E. Employment of maintenance staff, including kitchen service, grounds, and housekeeping employees less than sixteen (16) years of age, must be in compliance with Colorado labor laws.

F. AT LEAST ONE STAFF MEMBER WITH CURRENT DEPARTMENT-APPROVED MEDICATION ADMINISTRATION TRAINING AND DELEGATION MUST BE ON DUTY AT ALL TIMES.

~~E~~G. First Aid and CPR Certified Staff

1. For every thirty (30) or fewer children in attendance, there must be at least one (1) staff member who holds ~~a~~ current Department-approved First Aid, and ~~safety certificate that includes~~ CPR for all ages of children. Such individuals must be with the children at all times when the center is in operation. If children are at different locations, there must be a First Aid and CPR qualified staff member at each location. In a day camp, all staff MEMBERS ~~that~~ WHO are eighteen (18) years of age and ~~over~~ OLDER ~~are required to~~ MUST have ~~a~~ current DEPARTMENT-APPROVED First Aid and CPR certificate~~S from a nationally recognized provider~~. Uncertified staff MEMBERS must work with another certified staff member.

2. All employees caring for children, not required by rule to be certified in First Aid and CPR, must complete a DEPARTMENT-APPROVED basic First Aid and CPR module within THIRTY (30) calendar days of employment and the module must be renewed every TWO (2) years.

7.712.43 Required Staff Supervision [Rev. eff. 6/1/07]

A. A program director must be present at the center at least 60~~%~~ PERCENT of any day the center is in operation. An individual who meets one of the following requirements must be present for the remaining 40~~%~~ PERCENT of the day:

1. A QUALIFIED program leader who is at least twenty-one (21) years of age ~~and has at least three (3) months of full-time or equivalent part time verifiable experience working with children~~; OR

2. A QUALIFIED program leader who is at least eighteen (18) years of age and has at least one (1) year (1820 HOURS) full-time or equivalent part-time verifiable experience working with children; or

3. Two QUALIFIED program leaders who are at least nineteen (19) years of age ~~and have at least three (3) months of full-time or equivalent part-time verifiable experience working with children~~.

B. If the program director cannot be present 60 PERCENT ~~%~~ of any day the center is in operation, an individual who meets program director qualifications must substitute for the director.

C. There must be at least one (1) program leader providing supervision with each group of THIRTY (30) or fewer children cared for by the center. ~~At all times, staff must be actively supervising children.~~ WHEN FOUR (4) YEAR OLDS ARE IN ATTENDANCE, THERE MUST BE AT LEAST ONE PROGRAM LEADER PROVIDING SUPERVISION WITH EACH GROUP OF TWENTY-FOUR (24) OR FEWER CHILDREN CARED FOR BY THE CENTER.

D. THE MAXIMUM GROUP SIZE FOR CHILDREN OVER THE AGE OF FIVE (5) IS THIRTY (30) CHILDREN. WHEN FOUR (4) YEAR OLDS ARE IN ATTENDANCE THE MAXIMUM GROUP SIZE IS TWENTY-FOUR (24). WHEN THE CENTER HAS THE CAPACITY TO CARE FOR MULTIPLE GROUPS OF CHILDREN, THEY MUST BE SEPARATED INTO DEVELOPMENTALLY AND AGE APPROPRIATE ACTIVITIES. GROUPS ARE NOT REQUIRED TO BE SEPARATED FROM EACH OTHER BY PERMANENT OR PORTABLE DIVIDERS OR WALLS.

E. GROUP SIZE FOR CHILDREN IN CARE MAY BE EXCEEDED FOR ATTENDANCE TIME, MEAL AND SNACK TIME, SPECIAL OCCASIONS AND ACTIVITIES. THE ROOM CAPACITY MUST NOT BE EXCEEDED.

~~D~~F. There must be one (1) staff member for each fifteen (15) children in attendance. WHEN FOUR (4) YEAR OLDS ARE IN ATTENDANCE, THERE MUST BE AT LEAST ONE STAFF MEMBER FOR EACH TWELVE (12) OR FEWER CHILDREN CARED FOR BY THE CENTER.

Ages of Children	Number of Staff	Maximum Group Size
Mixed age group with 4 year olds	1 staff member to 12 children	24 children
5 years and older	1 staff member to 15 children	30 children

~~E~~G. At any time when nine (9) or more children are ~~present~~ IN CARE at the center, there must be at least one (1) program leader actively supervising children and another responsible person at least sixteen (16) years of age on the premises. When EIGHT ~~8~~ or fewer children are present, there must be at least ONE (1) program leader on duty and a second staff member on call ~~and~~ WHO IS immediately available in an emergency.

~~F~~H. At all times, school-age child care personnel must be ~~actively~~ DIRECTLY supervising the children.

~~G~~I. In a mobile day camp program, ~~or~~ an outdoor-based day camp program, OR ANYTIME A BUILDING BASED PROGRAM IS AWAY FROM THE FACILITY, the staff ratio given at Section 7.712.43, ~~C and D~~F, must be maintained, but there must be at least two (2) program leaders at all times with the children.

7.712.44 Volunteers [Rev. eff. 11/1/98]

A. If volunteers are used by the center, there must be a clearly established policy in regard to their function, orientation, and supervision.

B. REFERENCES MUST BE OBTAINED FOR ~~I~~f volunteers WHO are counted in the staff to child ratio, ~~references must be obtained for them~~ consistent with Section ~~7.712.41, D~~7.701.33B.

C. ~~Volunteers must have qualifications suitable to the tasks assigned~~ VOLUNTEERS THAT WORK MORE THAN FOURTEEN (14) CALENDAR DAYS (112 HOURS) PER CALENDAR YEAR WHO ARE USED TO MEET STAFF TO CHILD RATIO MUST BE EQUALLY QUALIFIED AS A PROGRAM DIRECTOR, PROGRAM LEADER OR PROGRAM AIDE AND MUST HAVE COMPLETE STAFF RECORDS AS DEFINED IN 7.712.82.

D. Volunteers UNLESS EQUALLY QUALIFIED must be~~:~~

~~1.~~ ~~D~~irectly supervised by a program director or program leader~~; and~~.

~~2~~E. VOLUNTEERS MUST BE Given instruction as to the center's policies and procedures.

7.712.5 CHILD CARE SERVICES

7.712.51 Admission Procedure [Rev. eff. 6/1/07]

A. The center can accept children only of the ages AND CAPACITY for which it has been licensed. ~~At no time can the number of children in attendance exceed the number for which the center has been licensed.~~

B. Admission procedures must be completed prior to the child's ~~attendance~~ FIRST DAY IN CARE at the center and must include:

1. Completion of the registration information for inclusion in the child's record, as required in Section 7.712.81; and

2. Providing the parent(s)/ ~~or~~ guardian(s) with a copy of the center's policies and procedures.

7.712.52 Health Care [Rev. eff. 6/1/07]

~~A. Statements of Health Status~~

~~1. At the time of admission, health information must be provided for every child entering the center, including any known drug reactions and allergies, medications being taken, and any special diets required. The name, address, and phone number of the child's physician and dentist must be provided.~~

A. STATEMENTS OF HEALTH STATUS

1. AT THE TIME OF ENROLLMENT, THE PARENT(S)/GUARDIAN(S) MUST PROVIDE FOR EACH CHILD ENTERING THE CENTER:

a. A COMPLETE HEALTH HISTORY FOR EACH CHILD, INCLUDING ANY COMMUNICABLE DISEASES, CHRONIC ILLNESSES OR INJURIES, KNOWN DRUG REACTIONS AND ALLERGIES, CURRENT MEDICATIONS AND ANY SPECIAL DIETS NEEDED, THE NAME ADDRESS AND PHONE NUMBER FOR THE CHILD'S HEALTH CARE PROVIDER AND DENTIST.

b. DOCUMENTATION OF IMMUNIZATION STATUS OR EXEMPTION AS REQUIRED BY COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE). IMMUNIZATIONS MUST BE UPDATED AND RECORDED AS SPECIFIED ON THE CERTIFICATE OF IMMUNIZATION OR ALTERNATE CERTIFICATE OF IMMUNIZATION AS SUPPLIED AND APPROVED BY THE COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT (CDPHE). COLORADO LAW REQUIRES PROOF OF IMMUNIZATION BE PROVIDED PRIOR TO OR ON THE FIRST DAY OF ADMISSION.

1) CHILD CARE CENTERS AS DEFINED IN SECTION 26-6-102 (1.5), C.R.S., LOCATED AT A SKI AREA, ARE EXEMPT FROM OBTAINING IMMUNIZATION RECORDS FOR STUDENTS WHEN ALL OF THE FOLLOWING CONDITIONS ARE MET:

a) STUDENTS ATTEND FOR FIFTEEN (15) DAYS OR LESS IN A FIFTEEN-CONSECUTIVE-DAY PERIOD, NO MORE THAN TWICE IN A CALENDAR YEAR; AND

b) AT LEAST SIXTY (60) CALENDAR DAYS SEPARATE THE TWO SESSIONS WITHIN THE CALENDAR YEAR; AND

c) THE CENTER NOTIFIES PARENTS/GUARDIANS THAT NON-IMMUNIZED CHILDREN ARE ENROLLED ON THE ABOVE SHORT-TERM BASIS.

2. ~~At the time of admission, information regarding all immunizations a child has had, including month and year each immunization was administered, must be provided to the center, or a plan must be developed with the parent or guardian for submitting the information within thirty (30) days of enrollment. Immunizations must be recorded on the Certificate of Immunization or alternate approved immunization form supplied and approved by the Colorado Department of Public Health and Environment (CDPHE) and kept on file at the center~~ THE CENTER MUST INFORM ITS CHILD CARE HEALTH CONSULTANT (CCHC) PRIOR TO THE FIRST DAY OF CARE OF THE ENROLLMENT OF A CHILD WITH SPECIAL HEALTH CARE NEEDS, IF KNOWN, SO STAFF RECEIVES TRAINING, DELEGATION AND SUPERVISION AS INDICATED BY THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

3. If the center is located at an elementary school and all the children attend that school, the immunization records may be maintained at the school office but must be accessible to CENTER STAFF MEMBERS AND licensing specialists DURING THE HOURS THE CENTER IS OPEN.

B. Emergency Procedures

1. Written authorization for emergency medical care must be in the child's file as required in Section 7.712.81.

2. WHEN ACCIDENTS, INJURIES, OR ILLNESSES OCCUR, THE PROGRAM DIRECTOR OR RESPONSIBLE ADULT IN CHARGE MUST NOTIFY THE CHILD'S PARENT OR GUARDIAN AND, IF NECESSARY, SEEK MEDICAL CARE FOR THE CHILD. ~~If a child requires medical attention away from the program site, the child's parent(s) or guardian(s) must be notified, and necessary medical care sought from a licensed physician or medical facility.~~

3. Children too ill OR INJURED to remain in the group must be comfortably cared for and supervised until they can be PICKED UP OR SIGNED OUT FROM THE PROGRAM. ~~taken home or suitably cared for elsewhere.~~ For building-based programs, a cot or mat, plus a sheet and blanket must be provided.

4. A responsible staff member must be ~~present or within hearing distance of~~ DIRECTLY SUPERVISING any ill OR INJURED child.

5. ~~First aid supplies must be available at the program site and in all vehicles operated by the center.~~ PORTABLE FIRST AID KITS MUST BE AVAILABLE TO STAFF AT ALL TIMES, INCLUDING FIELD TRIPS, AND MUST BE LOCATED OUT OF REACH OF CHILDREN AND MAINTAINED IN A SANITARY CONDITION. FIRST AID KITS MUST BE CHECKED AND RESTOCKED ON AT LEAST A MONTHLY BASIS.

C. Medication

1. ANY UN-EXPIRED ROUTINE MEDICATION, ~~P~~Prescription and non-prescription (over-the-counter) medications ~~for eyes or ears, all oral medications, topical medications, inhaled medications, and certain emergency injections can~~ MUST be administered only with ~~the~~ A CURRENT written order of a ~~person~~ HEALTH CARE PROVIDER with prescriptive authority and with written parental consent. ~~Centers may administer medications for chronic health conditions or emergency situations~~ HOME REMEDIES, INCLUDING HOMEOPATHIC MEDICATIONS, MUST NEVER BE GIVEN TO A CHILD.

2. The written order by the prescribing practitioner must include:

   a. Child's name;

   b. Licensed prescribing practitioner name, telephone number, and signature;

   c. Date authorized;

   d. Name of medication and dosage;

   e. Time of day medication is to be given;

   f. Route of medication;

   g. Length of time the medication is to be given;

   h. Reason for medication (unless this information needs to remain confidential);

   i. Side effects or reactions to watch for; and

   j. Special instructions.

3. Medications must be kept in the original labeled bottle or container. Prescription medications must contain the original pharmacy label. ~~that lists:~~

   ~~a. Child's name;~~

   ~~b. Prescribing practitioner's name;~~

   ~~c. Pharmacy name and telephone number;~~

   ~~d. Date prescription was filled;~~

   ~~e. Expiration date of the medication;~~

   ~~f. Name of the medication;~~

   ~~g. Dosage;~~

   ~~h. How often to give the medication; and~~

   ~~i. Length of time the medication is to be given.~~

4. Over-the-counter medication must be kept in the originally labeled container and be labeled with the child's first and last name.

45. In the case medication needs to be given on an ongoing, long-term basis, the authorization and consent forms must be reauthorized on an annual basis. Any changes in the original medication authorization require a new written order by the prescribing practitioner and a change in the prescription label. ~~Verbal orders taken from the licensed prescriber may be accepted only by a licensed registered nurse.~~

~~56~~. ~~All child care staff designated by the center director to give medications must complete the 4-hour Department-approved medication administration training and have current First Aid and universal precautions training.~~ STAFF DESIGNATED BY THE PROGRAM DIRECTOR TO GIVE MEDICATIONS MUST COMPLETE THE DEPARTMENT-APPROVED MEDICATION ADMINISTRATION TRAINING AND HAVE CURRENT ANNUAL DELEGATION OR MORE OFTEN AS DETERMINED BY THE CHILD CARE HEALTH CONSULTANT. DELEGATION MUST BE FROM THE CENTER'S CURRENT CHILD CARE HEALTH CONSULTANT WHO MUST OBSERVE AND DOCUMENT THE COMPETENCY OF EACH STAFF MEMBER INVOLVED IN MEDICATION ADMINISTRATION. ALL STAFF ADMINISTERING MEDICATION MUST HAVE CURRENT DEPARTMENT-APPROVED CPR, FIRST AID TRAINING PRIOR TO ADMINISTERING MEDICATION WITH THE FOLLOWING EXCEPTIONS:

a. STAFF DETERMINED BY THE PROGRAM DIRECTOR, IN CONSULTATION WITH THE CHILD CARE HEALTH CONSULTANT, TO BE RESPONSIBLE FOR PROVIDING ROUTINE EMERGENCY MEDICATIONS COVERED IN THE APPROVED MEDICATION ADMINISTRATION TRAINING FOR THE TREATMENT OF SEVERE ALLERGIES OR INHALED MEDICATIONS FOR THE TREATMENT OF ASTHMA MUST RECEIVE TRAINING AND DELEGATION FROM THEIR CHILD CARE HEALTH CONSULTANT FOR THOSE MEDICATIONS ONLY. STAFF MUST THEN PROVIDE THOSE MEDICATIONS TO CHILDREN BASED ON THE INSTRUCTIONS FROM THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

b. STAFF DETERMINED BY THE DIRECTOR, IN CONSULTATION WITH THE CHILD CARE HEALTH CONSULTANT, TO BE RESPONSIBLE FOR PROVIDING MEDICATIONS NOT COVERED IN THE APPROVED MEDICATION ADMINISTRATION TRAINING ~~SHALL~~ MUST ALSO BE PERMITTED TO ADMINISTER MEDICATIONS AND/OR MEDICAL TREATMENTS SUCH AS EMERGENCY SEIZURE MEDICATION, INSULIN OR OXYGEN WITH INDIVIDUALIZED TRAINING AND DELEGATION FROM THE CHILD CARE HEALTH CONSULTANT BASED ON INSTRUCTIONS FROM THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

c. STAFF MAY BE TRAINED AND DELEGATED IN THE ADMINISTRATION OF A SINGLE RESCUE MEDICATION OR RESCUE MEDICAL INTERVENTION BY THE CENTER'S CHILD CARE HEALTH CONSULTANT. SUCH TRAINING AND DELEGATION ~~SHALL~~ MUST QUALIFY THE STAFF MEMBER TO PROVIDE A RESCUE MEDICATION OR TREATMENT FOR A SPECIFIC CHILD BASED ON INSTRUCTIONS FROM THE CHILD'S INDIVIDUALIZED HEALTH CARE PLAN.

~~67~~. ~~Medications must be kept in an area inaccessible to children. Controlled medications must be counted and safely secured, and specific policies regarding their handling require special attention in the center's policies. Access to these medications must be limited.~~ ALL MEDICATIONS, EXCEPT THOSE MEDICATIONS SPECIFIED IN THE DEPARTMENT'S APPROVED MEDICATION ADMINISTRATION TRAINING AS EMERGENCY MEDICATIONS, MUST BE KEPT IN AN AREA INACCESSIBLE TO CHILDREN, BUT AVAILABLE TO STAFF TRAINED IN ADMINISTERING MEDICATION. IF REFRIGERATION IS REQUIRED, THE MEDICATION MUST BE STORED IN EITHER A SEPARATE REFRIGERATOR OR A LEAK PROOF CONTAINER IN A

DESIGNATED AREA OF A FOOD STORAGE REFRIGERATOR, SEPARATE FROM FOOD AND INACCESSIBLE TO CHILDREN. CONTROLLED MEDICATIONS MUST BE COUNTED AND SAFELY SECURED, AND SPECIFIC POLICIES REGARDING THEIR HANDLING REQUIRE SPECIAL ATTENTION IN THE CENTER'S POLICIES. ACCESS TO THESE MEDICATIONS MUST BE LIMITED (SEE SECTION 12-22-318, C.R.S.).

~~7~~8. EMERGENCY MEDICATIONS MUST BE STORED IN ACCORDANCE WITH THE CHILD CARE HEALTH CONSULTANT'S RECOMMENDATION. EMERGENCY MEDICATIONS ARE NOT REQUIRED TO BE STORED IN A LOCKED AREA. EMERGENCY MEDICATIONS MAY BE STORED IN AN AREA EASILY ACCESSIBLE AND IDENTIFIABLE TO STAFF BUT OUT OF REACH OF CHILDREN. WHEN AWAY FROM THE CLASSROOM, STAFF MUST CARRY EMERGENCY MEDICATIONS IN A BAG ON THEIR PERSON.

~~8~~9. A written medication log must be kept for each child. This log is part of the child's records. The log must contain the following:

a. Child's name;

b. Name of the medication, dosage, and route;

c. Time medication is to be given;

d. Special instructions;

e. Name and initials of the individuals giving the medication; and

f. Notation if the medication was not given and the reason.

~~9~~10. Topical preparations such as petroleum jelly AND~~, diaper rash ointments, sunscreen,~~ bug sprays~~, and other ointments~~ may be administered to children with written parental authorization. These preparations may not be applied to open wounds or broken skin unless there is a written order by the prescribing practitioner.

~~10~~11. The center must have a written policy on the storage and access of inhalers and epinephrine AUTO INJECTORS for all children in care. This policy must be reviewed by the C~~c~~hild C~~c~~are H~~h~~ealth C~~c~~onsultant.

~~11~~12. The center may, with written parental consent and authorization of the prescribing health care provider, permit children who have asthma to carry their own inhalers or children who are at risk of anaphylaxis to carry their own epinephrine, and use them as directed. The center must have a specific written policy on the storage and access of inhalers and epinephrine for children who are permitted to carry or self-administer these medications. The policy must include a contract with the parent(s)/guardian(s), and child acknowledgement, assigning levels of responsibility of each individual. THIS CONTRACT MUST ACCOMPANY orders for the medication from the health care provider, along with confirmation from ~~the health care provider~~ CHILD CARE HEALTH CONSULTANT that the student has been instructed and is capable of self- administration of the prescribed medications.

~~12~~13. All staff MEMBERS AND CHILD CARE HEALTH CONSULTANTS must be aware of which children have asthma AND SEVERE ALLERGIES, and which of those may ADMINISTER ~~use~~ their own inhaler~~s~~ OR AUTO INJECTORS ~~as needed~~. ~~All staff must be aware of which children are at risk of anaphylaxis, and which of those may administer their own epinephrine as needed.~~

D. Sun Protection

1. The center must OBTAIN THE PARENT/GUARDIAN'S WRITTEN AUTHORIZATION AND INSTRUCTIONS FOR APPLYING SUNSCREEN OR USE OF ANOTHER FORM OF PARENT/GUARDIAN APPROVED SUN PROTECTION. ~~supervise that sunscreen is applied to children prior to outside play or outside activities unless parents provide written notice that they have applied the sunscreen themselves~~. A ~~doctor's~~ HEALTH CARE PROVIDERS permission is not needed to use sunscreen at the center.

2. When supplied for an individual child, the sunscreen must be labeled with the child's first and last name.

3. If sunscreen is provided by the center, parents must be notified in advance, in writing, of the type of sunscreen the center will use.

4. Children may apply sunscreen to themselves under the direct supervision of a staff member.

5. THE CENTER MUST APPLY SUNSCREEN, HAVE THE CHILD APPLY SUNSCREEN, HAVE THE PARENT OR GUARDIAN APPLY SUNSCREEN, OR USE ANOTHER FORM OF PARENT OR GUARDIAN APPROVED SUN PROTECTION FOR CHILDREN PRIOR TO CHILDREN GOING OUTSIDE. SUNSCREEN MUST BE REAPPLIED AS DIRECTED BY THE PRODUCT LABEL.

E. Control of Communicable Illness

1. When children show signs of ~~severe or~~ communicable illness, they must be separated from other children, the parent(s) or guardian(s) notified, and a doctor or medical facility consulted as needed regarding treatment.

2. Staff members with a communicable illness must not be permitted to work or have contact with children or other staff members if the illness could be readily transmitted during normal working activities.

3. When children have been diagnosed with a communicable illness such as hepatitis, measles, mumps, meningitis, diphtheria, rubella, salmonella, tuberculosis, giardia or shigella, the center must immediately notify the local or state department of health, all staff members, and all parents and guardians of children in care. Children's confidentiality must be maintained. THE PROGRAM DIRECTOR MUST ASK PARENTS TO REPORT EXPOSURE OF A CHILD TO COMMUNICABLE ILLNESS OUTSIDE OF THE CENTER, AND THE CHILD SHOULD BE EXCLUDED FROM THE CENTER FOR THE PERIOD OF TIME PRESCRIBED BY THE CHILD'S HEALTH CARE PROVIDER OR BY THE LOCAL HEALTH DEPARTMENT.

7.712.53 Personal Hygiene

~~A. Hand Washing/Clothing~~

~~Children's hand washing must be supervised and must be taught when necessary.~~

~~B~~A. ~~Diapering~~ CHILDREN WITH SPECIFIC TOILETING NEEDS

The center must have one or more designated ~~diaper~~ change areas for all children in need of ~~diaper~~ changing. The ~~diaper~~ change area must:

1. MEET A CHILD'S INDIVIDUAL AND DEVELOPMENTAL NEEDS AND ~~B~~be ~~a minimum of thirty six (36) by eighteen (18) inches in size and~~ large enough to accommodate the size of the child;

2. Have a place inaccessible to children for storing all ~~diaper~~ change supplies and disinfecting solutions and products; and

3. Have ~~a~~ sufficient supplIES~~y of diapers at all times~~.

7.712.54 Food and Nutrition

A. ~~Drinking water must be freely available to children at all times.~~ ALL MEALS AND SNACKS PROVIDED BY THE CENTER MUST MEET CURRENT USDA CHILD AND ADULT CARE FOOD PROGRAM MEAL PATTERN REQUIREMENTS AND BE OFFERED AT SUITABLE INTERVALS. CHILDREN WHO ARE AT THE CENTER FOR MORE THAN 4 HOURS, DAY OR EVENING, MUST BE OFFERED A MEAL.

B. ~~Nutritious snacks must be served at suitable intervals.~~ CENTERS MUST NOT PROVIDE SUGAR SWEETENED BEVERAGES TO CHILDREN. THESE ARE LIQUIDS THAT HAVE BEEN SWEETENED WITH VARIOUS FORMS OF SUGARS THAT ADD CALORIES AND INCLUDE, BUT ARE NOT LIMITED TO: SODA, FRUITADES, FRUIT DRINKS, FLAVORED MILKS, AND SPORTS AND ENERGY DRINKS.

C. ~~Children who are at the center for more than four (4) hours, day or evening, or come directly to the center from a morning kindergarten class must receive a meal.~~ IF 100% FRUIT JUICE, WHICH IS NOT A SUGAR SWEETENED BEVERAGE, IS OFFERED AS PART OF MEALS AND/OR SNACKS, IT MUST BE LIMITED TO NO MORE THAN TWICE PER WEEK.

1. ~~If the center provides a meal, it must meet one third of the child's daily nutritional needs.~~

~~2. The center staff must check lunches brought from children's homes to determine if they meet one third of the child's daily nutritional needs.~~

~~3. If the child fails to bring a meal, or if the meal meets less than one-third of the child's daily nutritional needs, the center must supply an adequate meal.~~

D. ~~All food prepared by the center must be from sources approved by the health authority. All food must be stored, prepared, and served in such a manner as to be clean, wholesome, free from spoilage, and safe for human consumption. Home canned foods cannot be served.~~ IN CENTERS THAT DO NOT REGULARLY PROVIDE A MEAL, IF A CHILD BRINGS A MEAL FROM HOME THAT DOES NOT APPEAR TO MEET CURRENT USDA CHILD AND ADULT CARE FOOD PROGRAM MEAL PATTERN REQUIREMENTS, THE CENTER MUST HAVE FOODS AVAILABLE TO OFFER AS A SUPPLEMENT TO THAT MEAL.

E. MEAL MENUS MUST BE PLANNED AT LEAST ONE WEEK IN ADVANCE, DATED, AND AVAILABLE TO PARENTS. AFTER USE, MENUS MUST BE FILED AND RETAINED FOR THREE (3) MONTHS. RECORDS MUST BE AVAILABLE FOR PERIODIC REVIEW AND EVALUATION.

F. THE SIZE OF SERVINGS MUST BE SUITABLE FOR THE CHILD'S AGE AND APPETITE, AND SUFFICIENT TIME MUST BE ALLOWED SO THAT MEALS ARE UNHURRIED.

7.712.55 ~~Discipline~~GUIDANCE

A. ~~Discipline~~ GUIDANCE must be appropriate and constructive or educational in nature and may include such measures as diversion, separation of the child from problem situations talking with the child about the situation, or praise for appropriate behavior

B. Children must not be subjected to physical or emotional harm or humiliation

C. The director must not use, or permit a staff ~~person~~ MEMBER or child to use, corporal or other harsh punishment, including but not limited to pinching, shaking, spanning punching, biting, kicking, rough handling, hair pulling, or any humiliating or frightening method of discipline.

D. ~~Discipline~~ GUIDANCE must not be associated with food, rest, or toileting ~~No c~~ChildREN should NEVER be punished for toileting accidents. ~~Food~~ CHILDREN must not be denied FOOD ~~to~~ or forced ~~upon a child~~ TO EAT as a disciplinary measure.

E. Separation, when used as ~~discipline~~GUIDANCE, must ~~be brief~~ NOT EXCEED FIVE MINUTES and MUST BE appropriate for the child's age ~~and circumstances~~. The child must be in a safe, lighted, well-ventilated area and be within SIGHT AND hearing ~~and vision~~ of aN ~~staff member~~ADULT. The child must not be isolated in a locked OR CLOSED ~~room, bathroom, closet, or pantry~~AREA.

F. Verbal abuse and derogatory remarks about the child are not permitted.

G. Authority ~~to discipline~~ FOR GUIDANCE must not be delegated to other children, and the center must not sanction one child punishing another child.

H. PHYSICAL EXERCISE MUST NOT BE USED AS A FORM OF GUIDANCE.

7.712.56 Transportation [Rev. eff. 6/1/07]

A. Transportation Provided by the Center

1. The center is responsible for any children it transports and must abide by applicable State and Federal motor vehicle laws.

2. The center must obtain written permission from parents/ ~~or~~ guardians for any transportation of their child during child care hours.

3. The number of staff members who accompany children when being transported in the vehicle must meet the child care staff ratio found at Section 7.712.43. The driver of the center vehicle is considered a staff member.

4. Children must not be permitted to ride in the front seat of a vehicle unless they are secured in a seat belt that conforms to all applicable Federal Motor Vehicle Safety Standards. Children must remain seated while the vehicle is in motion.

5. Children must be loaded and unloaded out of the path of moving vehicles.

6. Children must not be permitted to stand or sit on the floor of a moving vehicle, and their arms, legs, and heads must remain inside the vehicle at all times.

7. Transportation arrangements for school-age children must be by agreement between the center and the children's parents/GUARDIANS, i.e., whether the children can walk, ride a bicycle or travel in a car. The center must monitor the children to ~~be sure~~ ENSURE they arrive at the center when expected and follow up on their whereabouts if they are late.

Written permission from parents or guardians for their children to attend community functions after school hours must include agreements regarding transportation.

8. Prior to a field trip or other excursion, the center must obtain information on liability insurance from parents/GUARDIANS and staff who transport children in their own cars and verify that all drivers have valid driver's licenses.

B. Requirements for Vehicles

1. Any vehicle used for transporting children to and from the center or during program activities must meet the following requirements:

   a. The vehicle must be enclosed and have door locks;

   b. The seats of the vehicle must be constructed and installed according to the vehicle manufacturer's specifications; AND

   c. The vehicle must be kept in satisfactory condition to assure the safety of occupants. Vehicle tires, brakes, and lights must meet safety standards set by the Colorado Department of Revenue, Motor Vehicle Division; and

   d. ~~Seating must be comfortable, with a seat of at least ten (10) inches wide for each child.~~ MODIFICATIONS TO VEHICLES INCLUDING, BUT NOT LIMITED TO, THE ADDITION OF SEATS AND SEAT BELTS MUST BE COMPLETED BY THE MANUFACTURER OR AN AUTHORIZED REPRESENTATIVE OF THE MANUFACTURER. DOCUMENTATION OF SUCH MODIFICATIONS MUST BE AVAILABLE FOR REVIEW.

2. In passenger vehicles~~, which include automobiles, station wagons and vans~~ with a manufacturer's established capacity of sixteen (16) or fewer passengers and less than 10~~.~~,000 pounds, the following is required:

   a. Each child must be restrained in an individual seat belt OR CHILD RESTRAINT SYSTEM;

   b. ~~Two or more children must never be restrained in one seat belt~~ THE PROVIDER MUST NOT TRANSPORT MORE CHILDREN THAN ANY VEHICLE IS ABLE TO SAFELY ACCOMMODATE WHEN CHILD RESTRAINT SYSTEMS AND SEAT BELTS ARE PROPERLY INSTALLED AND USED IN THE VEHICLE;

   c. Lap belts must be secured low and tight across the upper thighs and under the belly; and

   d. Children must be instructed and required to keep the seat belt properly fastened and adjusted.

3. In vehicles with a manufacturer's established capacity of sixteen (16) or more passengers, seat belts for passengers are not required, but ~~shall~~ MUST be used if provided.

C. Requirements for Drivers of Vehicles

1. All drivers of vehicles transporting children must comply with applicable laws of the Colorado Department of Revenue, Motor Vehicle Division, and ordinances of the municipality in which the child care program is operated.

2. All drivers of vehicles owned or leased by the center in which children are transported must have a current Department-approved First Aid and safety certificate that includes CPR for all ages of children

3. In each vehicle used to transport children, drivers must have access to a First Aid kit.

4. The driver must ensure that all doors are secured at all times when the vehicle is moving.

5. The driver must make a good faith effort to ensure that each child is properly belted throughout the trip.

6. THE DRIVER MUST NOT EAT, SMOKE OR USE A CELLULAR DEVICE WHILE DRIVING.

7. THE REQUIRED STAFF TO CHILD RATIO MUST BE MAINTAINED AT ALL TIMES.

8. ALL DRIVERS MUST BE AT LEAST 20 YEARS OF AGE.

9. DRIVERS MUST COMPLETE A MINIMUM OF FOUR HOURS OF DRIVER TRAINING PRIOR TO TRANSPORTING CHILDREN. THE DRIVER TRAINING CURRICULUM MAY BE DEVELOPED AND ADMINISTERED BY THE CENTER AND MUST INCLUDE AT A MINIMUM: BEHIND THE WHEEL TRAINING; PARTICIPANT TRANSPORT ATTENDANCE PROCEDURES INCLUDING TAKING ATTENDANCE AT THE DESTINATION; MANAGING BEHAVIORAL ISSUES; LOADING AND UNLOADING PROCEDURES; DAILY VEHICLE INSPECTION PROCEDURE; PROPER TIRE INFLATION; EMERGENCY EQUIPMENT AND HOW TO USE IT; ACCIDENT PROCEDURES; PASSENGER ILLNESS PROCEDURES; PROCEDURES FOR BACKING UP; AND VEHICLE EVACUATION.

7.712.6 PROGRAM ACTIVITIES

7.712.61 Activity Schedules [Rev. eff. 6/1/07]

A. The center must provide parents/~~ or~~ guardians with a list of activities it offers.

B. Parents or guardians must be given the opportunity to indicate to the staff of the center if they do not want their child to participate in an activity.

C. Parents/~~ or~~ guardians must be notified in advance of all activities that will occur away from the center.

D. Television viewing, including videos, should not be permitted without the approval of a child's parents/GUARDIANS, who must be advised of the center's policy regarding television and video viewing.

E. A mobile day camp program must establish a daily itinerary and make available a copy to each child's parent or guardian. A copy must also be or file at the program's headquarters. The itinerary should be followed as closely as possible. In case of an emergency or change in the itinerary, the headquarters of the mobile day camp must be notified immediately. Parents/GUARDIANS must be instructed to contact the main headquarters to determine the exact location of their child.

7.712.62 PHYSICAL ACTIVITY

A. DAILY PHYSICAL GROSS MOTOR ACTIVITIES, WITH OR WITHOUT EQUIPMENT OR MATERIALS, MUST BE PROVIDED OUTDOORS, OR INDOORS DURING INCLEMENT WEATHER, FOR NO LESS THAN 60 MINUTES TOTAL FOR PROGRAMS OPERATING OVER FIVE HOURS PER DAY. ACTIVITIES DO NOT HAVE TO OCCUR ALL AT ONE TIME.

B. DAILY PHYSICAL GROSS MOTOR ACTIVITIES, WITH OR WITHOUT EQUIPMENT OR MATERIALS, MUST BE PROVIDED OUTDOORS OR INDOORS DURING INCLEMENT WEATHER, FOR NO LESS THAN 30 MINUTES TOTAL FOR PROGRAMS OPERATING FROM THREE TO FIVE HOURS PER DAY. ACTIVITIES DO NOT HAVE TO OCCUR ALL AT ONE TIME.

C. DAILY PHYSICAL GROSS MOTOR ACTIVITIES, WITH OR WITHOUT EQUIPMENT OR MATERIALS, MUST BE PROVIDED OUTDOORS OR INDOORS DURING INCLEMENT WEATHER, FOR NO LESS THAN 15 MINUTES TOTAL FOR PROGRAMS OPERATING LESS THAN 3 HOURS PER DAY. ACTIVITIES DO NOT HAVE TO OCCUR ALL AT ONE TIME.

7.712.63 SCREEN TIME AND MEDIA USE

A. ALL MEDIA THAT CHILDREN ARE EXPOSED TO MUST NOT CONTAIN EXPLICIT LANGUAGE OR TOPICS.

B. ALL TELEVISION, RECORDED MEDIA, COMPUTER, TABLET, CELL PHONES, VIDEO GAMES AND OTHER MEDIA DEVICES ARE PROHIBITED DURING SNACK OR MEAL TIMES.

C. THE CENTER MUST DEVELOP A MEDIA AND INTERNET USEAGE PLAN OUTLINING SCREEN TIME AND MEDIA USE RELATED TO THEIR CURRICULUM. THE MEDIA PLAN MUST HAVE INFORMATION ON ONGOING COMMUNICATION WITH CHILDREN ABOUT SAFE ONLINE PRACTICES. THE CENTER MUST OBTAIN A SIGNED DOCUMENT STATING THAT THE PARENTS/GUARDIANS HAVE RECEIVED THIS PLAN, AND AGREE TO THE ACTIVITIES DESCRIBED IN THE PLAN.

7.712.6~~2~~4 Equipment and Materials [Rev. eff. 6/1/07]

A. In a building based school-age child care center, a rest time and rest equipment must be provided for school-age children who require a rest time.

B. Children at the center must have access to age-appropriate materials and equipment from at least the following categories:

1. Activity supplies;

2. Manipulatives and games;

3. Recreation equipment;

4. Library items; and

5. Science equipment and materials.

C. Children must wear helmets when riding scooters, bicycling, skateboarding, or rollerblading.

7.712.6~~3~~5 Field Trips [Rev. eff. 11/1/98]

A. ~~The program may include field trips, where children and staff leave the center to visit some site in the community.~~ On a field trip or during a mobile school-age child care program:

1. THE CENTER MUST NOTIFY THE CHILDREN'S PARENTS /GUARDIANS IN ADVANCE OF ANY FIELD TRIP. THE Staff-child ratios FOUND AT SECTION 7.712.43.C, D, I must be maintained at all times;

2. ALL GROUPS OF ~~C~~Children must be ~~actively~~ DIRECTLY supervised BY A QUALIFIED PROGRAM DIRECTOR OR PROGRAM LEADER at all times;

3. An accurate itinerary OF EACH FIELD TRIP must remain at the ~~headquarters/office of the~~ center; ~~and~~

4. The staff must have ~~with them on a field trip~~ the following information about each child: PARENTS/GUARDIANS CONTACT INFORMATION, HEALTH CARE PROVIDER'S name, address, and phone number~~, of the child's physician or other appropriate health care professional~~ and the written authorization from parent~~(~~s~~)~~/ ~~or~~ guardian~~(~~s~~)~~ for emergency medical care~~.~~;

5. IF CHILDREN ATTENDING THE FIELD TRIP REQUIRE MEDICATIONS BE ADMINISTERED DURING THE FIELD TRIP OR HAVE SPECIAL HEALTH NEEDS, A STAFF MEMBER WITH CURRENT MEDICATION ADMINISTRATION TRAINING AND DELEGATION MUST ATTEND ON THE FIELD TRIP;

6. A LIST OF ALL CHILDREN AND STAFF ON A FIELD TRIP MUST BE KEPT AT THE CENTER; AND

7. A COPY OF THE EMERGENCY DISASTER PLAN MUST ACCOMPANY STAFF OFFSITE.

~~B. A list of all children and staff on a field trip must be kept at the headquarters of the center.~~

7.712.64 - 7.712.66 None

7.712.7 BUILDING AND FACILITIES

7.712.71 Facility Requirements [Rev. eff. 6/1/07]

A. The mobile day camp program and the outdoor-based day camp program may use as a gathering place a public park or playground if the program primarily includes field trips away from the gathering place. Such programs must have a contingency plan for facilities to use during increment weather. The plan must be available to parents/GUARDIANS on a daily basis.

B. If a room(S) ~~or rooms~~ inside a building are used for indoor care~~, the following ratio must be maintained: open indoor play space of~~ at least thirty (30) square feet of floor space per child IS REQUIRED.~~, including space for readily movable furniture and equipment~~ Indoor space is exclusive of kitchen, toilet rooms, office, staff rooms, hallways and stairways, closets, laundry rooms, furnace rooms~~, and space occupied by permanent built-in cabinets and permanent storage shelves~~.

C. When a building is being used during the summer months by a center specifically as a gathering place at the beginning and end of the day, the thirty (30) square feet requirement need not apply. The total amount of time during which the number of children present may exceed the THIRTY (30) square feet requirement must not exceed THREE (3) hours. This time must be divided evenly between the morning and the evening.

D. The building based school-age child care center must provide access to an outdoor play area. The outdoor play area may be a city park or public school ground. The play area must meet the following requirements:

1. The center must provide a total outside play area of at least seventy-five (75) square feet per child for a minimum of one-third of the licensed capacity of the center or a minimum of 1500 square feet, whichever is greater;

2. Access to a shaded area, sheltered area, or inside building area must be provided at all times to guard children against the hazards of excessive sun and heat; and

3. The outdoor play area must be maintained in a safe condition by removing debris, dilapidated structures, and worn and broken play equipment. The center must identify hazardous, high-risk areas. These areas must be monitored to reduce the possibility of injury and accidents.

4. OUTDOOR PLAY AREAS PROVIDED BY THE CENTER MUST NOT HAVE EQUIPMENT THAT EXCEEDS SIX (6) FEET IN HEIGHT FOR ANY SURFACE AREA INTENDED FOR CHILDREN'S PLAY UNLESS EQUIPPED WITH A PROTECTIVE BARRIER TO PREVENT CHILDREN FROM FALLING.

5. ALL OUTDOOR CLIMBING EQUIPMENT OVER EIGHTEEN (18) INCHES PROVIDED BY THE CENTER MUST HAVE LEAST SIX (6) INCHES RESILIENT SURFACE THROUGHOUT THE USE ZONE.

~~E. A safe, comfortable place for relaxing and for sick children must be available at all times for children in care.~~

7.712.72 Toilet Facilities

A. ~~Boys and girls~~ CHILDREN ~~OF DIFFERENT GENDERS~~ must BE ALLOWED THE USE OF GENDER-SEGREGATED TOILET FACILITIES THAT ARE CONSISTENT WITH THEIR GENDER IDENTITY ~~have separate OR INDIVIDUAL, clearly identified toilet facilities~~, with toilets separated by partitions to provide privacy.

B. There must be a minimum of one (1) toilet per thirty (30) or fewer children for which the center is licensed. Hand-washing facilities must be available at the ratio of one (1) sink per thirty (30) or fewer children. AFTER FEBRUARY 1, 2018 ALL NEW CONSTRUCTION MUST HAVE A MINIMUM OF ONE (1) TOILET AND ONE (1) HAND WASHING SINK PER EVERY FIFTEEN (15) OR FEWER CHILDREN FOR WHICH THE CENTER IS LICENSED.

~~**7.712.73 Food Preparation Area**~~

~~Areas used for food preparation, dish and utensil washing, and storage must be in compliance with the requirements of the Colorado Department of Public Health and Environment or its local unit.~~

7.712.~~74~~73 Fire and Other Safety Requirements [Rev. eff. 4/1/15]

A. General Requirements

1. Buildings must be kept in good repair and maintained in a safe condition.

2. Major cleaning is prohibited in rooms occupied by children.

3. Volatile substances, such as gasoline, kerosene, fuel oil, and oil-based paints, firearms, explosives, and other hazardous items, must be stored away from the area used for child care and be inaccessible to children.

4. Combustibles, such as cleaning rags, mops~~,~~ and cleaning compounds, must be stored in well-ventilated areas separated from flammable materials and stored in areas inaccessible to children.

5. Closets, atticS, basementS, cellarS, furnace roomS~~,~~ and exit routes must be kept free from accumulation of extraneous materials.

6. All heating units, gas or electric, must be installed and maintained with safety devices to prevent fire, explosions, and other hazards. No open-flame gas or oil stoves, unscreened fireplaces, hot plates, or unvented heaters can be used for heating purposes. All heating elements, including hot water pipes, must be insulated or installed in such a way that children cannot come in contact with them. Nothing flammable or combustible can be stored within three (3) feet of a hot water heater or furnace.

7. Indoor and outdoor equipment, materials, and furnishings must be sturdy, safe and free of hazards.

8. Equipment, materials, and furnishings, including durable furniture such as tables and chairs, must be stored in a manner that is safe for children.

9. Extension cords cannot be used in place of permanent wiring.

10. Corridors, halls, stairs, and porches must be adequately lighted. Operable battery-powered lights must be provided in locations readily accessible to staff in the event of electric power failure.

B. Fire Safety

1. Every building and structure must be constructed, arranged, equipped, maintained, and operated so as to avoid undue danger to the lives and safety of its occupants from fire, smoke, fumes, or resulting panic during the period of time reasonably necessary for escape from the building or structure in case of fire or other emergency.

2. Every building and structure ~~must have at least two (2) exits that permit the prompt escape of occupants in case of fin; or other emergency~~. MUST HAVE AT LEAST TWO (2) APPROVED, ALTERNATE MEANS OF EGRESS FROM EACH FLOOR OF THE BUILDING OR TO A COMMON HALLWAY LEADING TO THE EXTERIOR. THEY MUST BE AT DIFFERENT LOCATIONS.

3. Every exit must be clearly visible, or the route to reach it must be conspicuously indicated. Each path of escape must be clearly marked.

4. In every building or structure, exits must be arranged and maintained so as to provide free and unobstructed egress from all parts of the building or structure at all times when it is occupied. ~~No l~~LockS or fastening DEVICES to prevent free escape from the inside of any building ~~can~~ MUST NOT be installed. Only panic hardware or single-action hardware is permitted on a door or on a pair of doors. All door hardware must be within the reach of children.

5. If the building in which the center operates has a security lock on outside exit doors, the center must obtain written permission from the local fire department; and there must be a

written sign attached to the door instructing staff that the security lock is not to be utilized when children are present and the center is in operation.

6. Every building and structure must have an automatic or Department-approved manually operated fire alarm system to warn occupants of the existence of fire or to facilitate the orderly conduct of fire exit drills.

7.712.8 RECORDS AND REPORTS

7.712.81 Children's Records [Rev. eff. 6/1/07]

A. The center must maintain and update annually a record on each child that includes:

1. The child's full name, age, current address, and date of enrollment;

2. Names, ~~and~~ home and employment addresses and telephone numbers, which may include cell phone numbers~~, pagers, fax~~ and e-mail of parents ~~or~~ /guardians if available;

3. Any special instructions as to how the parents ~~or~~ /guardians can be reached during the hours the child is at the center;

4. Names and telephone numbers of persons other than parents ~~or~~ /guardians who are authorized to take the child from the center;

5. Names, addresses, and telephone numbers of persons who can assume responsibility for the child in the event of an emergency if parents ~~or~~ /guardians cannot be reached immediately;

6. Name, address, and telephone number of the child's physician, dentist, and hospital of choice;

7. ~~Health information including medical history,~~ A COMPLETE HEALTH HISTORY INCLUDING COMMUNICABLE DISEASES, chronic ~~medical problems~~ILLNESSES OR INJURIES, ~~and~~ immunization history, KNOWN DRUG REACTIONS OR ALLERGIES, MEDICATION RECORDS,SPECIAL DIET NEEDS, AND HEALTH CARE PLANS AS REQUIRED IN 7.712.52.A.1;

8. A dated written authorization for emergency medical care signed and submitted annually by the parent or guardian. The authorization must be notarized if required by the local health care facility;

9. Written authorization from a parent or guardian for the child to participate in field trips and to participate in program activities, listing ~~any possible exclusion~~ ALL EXCLUSIONS FROM AUTHORIZATION;

10. Written authorization from a parent/ ~~or~~ guardian for the center to transport the child to and from school, whether by walking or driving; and

11. Reports of serious injuries and accidents occurring during care that result in medical attention, admission to the hospital, or death of a child.

7.712.82 Staff Records [Rev. eff. 6/1/07]

A. The center office must maintain a record for each staff member, paid or volunteer, which includes the following:

1. Name, address, and birth date of the individual;

2. The date that the staff member was employed by the center;

3. Name, address, and ~~daytime tele~~phone number~~, which may include cell phone numbers, pager numbers, fax numbers and e-mail~~ of the person(s) to be notified in the event of an emergency;

4. Verification of the staff member's ~~training, education, and experience~~ CERTIFICATIONS, QUALIFICATIONS AND TRAINING REQUIREMENTS;

~~5~~. ~~Copies of any first aid and CPR certification or other certification confirming the qualifications for the responsibilities assumed at the center, which may include copies of driver's licenses, college transcripts, and diplomas;~~

~~6~~5. Copies of written references or notes of phone references, as required by Section 7.712.41.D.1;

7. Verification that a criminal record check with the Colorado Bureau of Investigation AND FEDERAL BUREAU OF INVESTIGATION is in process, or a copy of the results of the staff member's criminal record check; and

8. Verification that a review of the State Department's automated system for reporting child abuse and neglect has occurred or is in process.

B. Each staff member's personnel file must contain all required information within thirty (30) working days of the first day of employment.

7.712.83 Administrative Records and Reports

A. The following records must be on file at the center:

1. Records of enrollment, daily attendance for each child, and daily record of time child arrives at and departs from the center;

2. Current health department inspection report issued within the past ~~twenty four (24) months~~ TWO (2) YEARS;

3. Current fire department inspection report issued within the past ~~twenty four (24) months~~ TWO (2) YEARS;

4. A list of current staff members, substitutes, and staffing patterns.

B. Each center must ~~immediately~~ SUBMIT A report in writing to the Department USING THE ONLINE INJURY REPORTING SYSTEM OF any accident or illness occurring at the center that resulted in medical treatment by a physician or other health care professional, hospitalization, or death. This report must be made within twenty-four (24) hours after the accident or illness occurred.

C. A report about a fatality must include:

1. The child's name, birth date, address, and telephone number;

2. The names of the child's parents or guardians and their address and telephone number if different from those of the child;

3. Date of the fatality;

4. Brief description of the incident or illness leading to the fatality;

5. Names and addresses of witnesses or persons who were with the child at the time of death; and

6. Name and address of police department or authority to whom the report was made.

D. The center must ~~report to the Colorado Department of Public Health and Environment or its local unit any communicable illness, including but not limited to measles, mumps, diphtheria, rubella, tuberculosis, shigella, hepatitis, meningitis, salmonella, and giardia, contracted by a staff member or a child in care at the center~~ maintain records of reports of communicable illness made to the Colorado Department of Public Health and Environment or local public health agency.

E~~. A medical log must be maintained at the center in which is recorded the name of the child and date of instances of at least the following:~~

~~1. Administration of first aid;~~

~~2. Illness of the child while attending the center;~~

~~3. Accident requiring the child to receive medical attention; and~~

~~4. The administration of any medication to a child.~~

~~F~~E. The center must submit to the ~~d~~Department within twenty-four (24) hours a written report about any child who has been lost from the center and for whom the local authorities have been contacted. Such report must indicate:

1. The name, birth date, address, and telephone number of the child;

2. The names of the parents/ ~~or~~ guardians and their address and telephone number if different from those of the child;

3. The date when the child was lost;

4. The location, time, and circumstances when the child was last seen;

5. Actions taken to locate the child; and

6. The name of the staff person supervising the child.

~~G. Each center must have a written plan for action in case of natural disaster, including, but not limited to, floods, tornadoes, aid severe weather; a lost or missing child; and injuries and illnesses. This plan must be on file at the center. The staff must have received training regarding the implementation of the plan prior to assuming supervisory responsibility for children. Written verification of the training must be in the staff member's personnel file.~~

~~1. The plan of action must include at least:~~

~~a. Prompt notification of parents or guardians;~~

~~b. Notification of the headquarters of the center;~~

~~c. When local authorities are notified;~~

~~d. Emergency transportation; and~~

~~e. Specific procedures for responding to the crisis.~~

~~2. In the case of a mobile school-age child care program or a field trip, the plan must accompany staff members.~~

7.712.84 Confidentiality and Retention

A. The center must maintain complete records of PERSONNEL AND children ~~and personnel~~ as required at Sections 7.712.81, 7.712.82, and 7.712.83.

B. The confidentiality of all personnel and children's records must be maintained (see Section 7.701.7, General Rules for Child Care Facilities).

C. Personnel and children's records must be available, upon request, to authorized personnel of the ~~d~~Department.

D. If records for organizations having more than one center are kept in a central file, duplicate identifying and emergency information for PERSONNEL AND children must also be kept on file at the center attended by the child.

E. The records of ~~PERSONNEL AND~~ children ~~and personnel~~ must be maintained by the school-age child care center for at least THREE (3) years.

SALES AND USE TAX

1 CCR 201-4

Rule 39-26-109. Sales Tax Filing Schedules

Basis and Purpose

The basis for this rule is §§ 39-21-112(1), 39-26-105 and 109, C.R.S. The purpose of this rule is to prescribe sales tax filing schedules and conditions for the modification thereof.

(1) **General Rule.** Retailers shall file returns and remit tax to the Department in accordance with the filing schedules and due dates prescribed by this rule.

(2) **Standard Filing Schedules.**

(a) A retailer must file returns and remit sales tax on a monthly basis unless the Department has granted the retailer approval to file returns and remit sales tax on a less frequent basis. Unless permission is denied or revoked pursuant to paragraph (3) or (4) of this rule, the Department shall permit the retailer to file returns and remit sales tax on a basis less frequent than monthly if the retailer's average monthly Colorado sales tax collection is less than three hundred dollars.

(b) On the application for a sales tax license, a retailer must indicate the amount of its estimated monthly sales tax collection. The retailer's required filing frequency shall be determined initially on the basis of this estimate.

(I) If the retailer's estimated monthly sales tax collection is three hundred dollars or more, the retailer shall file returns and remit tax on a monthly basis.

(II) If the retailer's estimated monthly tax collection is less than three hundred dollars, the retailer shall file returns and remit tax on a quarterly basis or as provided in paragraph (3) of this rule.

(3) **Alternate Filing Schedules.** A retailer may request a filing schedule other than monthly or quarterly as provided in this paragraph (3). The Department shall grant approval for an alternate filing schedule only if such alternate schedule will not jeopardize the collection of tax. The Department shall notify a retailer of the approval or denial of any request for an alternate filing schedule submitted pursuant to this rule.

(a) If a retailer's average or estimated monthly sales tax collection is $15 or less and filing sales tax returns on a monthly or quarterly basis would impose unnecessary hardship, the retailer may request permission to file returns and remit tax on an annual basis. The retailer may make such request by checking the appropriate box of the retailer's initial sales tax application or by submitting such request to the Department in writing.

(b) If a retailer is engaged in a seasonal business (a business that the retailer does not operate in Colorado during certain months of the year), the retailer may request permission to file returns and remit tax only for the months of the year that the business operates. The request shall indicate the months the retailer expects to operate the business in Colorado. The retailer may make such request by checking the appropriate boxes of the retailer's initial sales tax application or by submitting such request to the Department in writing. The retailer must immediately notify the Department if the retailer operates its business in any month for which the retailer's request indicated the retailer would not operate the business.

(c) If a retailer regularly employs accounting methods involving reporting periods other than calendar months (such as thirteen four-week periods over the course of the year), the retailer may request permission to file returns and remit tax on a filing schedule consistent with such accounting methods. Any retailer requesting such permission must make such request to the Department in writing.

(4) **Changes to Filing Schedules.**

(a) For any retailer for which the Department has not approved an alternate filing schedule pursuant to paragraphs (2)(b) or (2)(c) of this rule, the Department shall, on an annual basis, calculate the retailer's average monthly sales tax collection and adjust the retailer's filing schedule to increase the frequency of filing as necessary pursuant to this paragraph (4)(a). Such adjustments shall be made effective January 1. The Department shall not make any automatic adjustment to a retailer's filing schedule to decrease the frequency of filing, but a retailer may, pursuant to paragraph (3)(b) of this rule, request a change to their filing schedule.

(I) If a retailer's average monthly sales tax collection is three hundred dollars or more, the Department shall require the retailer to file returns and remit tax on a monthly basis.

(II) If a retailer's average monthly sales tax collection is less than three hundred dollars, but more than fifteen dollars, the Department shall require the retailer to file returns and remit tax on a quarterly basis.

(b) A retailer may submit a written request to the Department to change the retailer's filing schedule. The Department shall not approve any requested filing schedule that would jeopardize the collection of tax or any request made by a retailer that is delinquent in the filing of any required sales tax return or the remittance of any sales tax.

(I) The Department shall not approve a retailer's request for a quarterly filing schedule if the retailer's average monthly sales tax collection exceeds three hundred dollars.

(II) The Department shall not approve a retailer's request for an annual filing schedule if the retailer's average monthly sales tax collection exceeds fifteen dollars.

(c) If a retailer becomes delinquent in the filing of any required sales tax returns or the remittance of any sales tax, the Department may revoke any prior approval of a quarterly or alternate filing schedule. Upon such revocation the retailer will be required to file returns and remit tax on a monthly basis.

(d) The Department shall notify a retailer, in writing, of any change made in accordance with this paragraph (4) to the retailer's filing schedule along with the effective date of any such change.

(5) **Due Dates.** Sales tax returns and payments of tax reported thereon are due the twentieth day following the close of the tax period. If the twentieth day following the close of the tax period falls on a Saturday, Sunday, or legal holiday, the due date shall be the next business day.

(6) **Wholesalers.** Wholesalers that make no retail sales must file returns on an annual basis to report their gross sales and allowable subtractions therefrom. A wholesaler that makes retail sales in addition to wholesale sales is subject to the requirements of this rule and must file returns and remit tax monthly or quarterly, as applicable, unless the wholesaler has received permission to file less frequently.

RETAIL MARIJUANA TAX

1 CCR 201-18

Rule 39-28.8-101. Definitions.

Basis and Purpose

The basis for this rule is §§ 39-21-112(1), 39-28.8-101, 205, and 308, C.R.S. The purpose of this rule is to establish definitions for terms used in 1 CCR 201-18 regarding retail marijuana sales tax and retail marijuana excise tax.

With respect to rules promulgated under Article 28.8 of Title 39, the following terms have the following meanings:

(1) Unless the context clearly requires otherwise, terms defined by section 39-28.8-101, C.R.S. section 12-43.4-103, C.R.S., or in Rule R 103 of 1 CCR 212-2, the Marijuana Enforcement Division's rules related to the Colorado Retail Marijuana Code, shall have the same meanings in these rules as therein defined.

(2) "Affiliated Marijuana Business Licensees" shall have the same meaning as defined in subsection 39-28.8-101(1), C.R.S.

(3) "Average Market Rate" shall have the same meaning as defined in subsection 39-28.8-101(1.5), C.R.S., and shall be calculated pursuant to Department Rule 39-28.8-302(5) in the following categories:

(a) Bud

(b) Trim

(c) Bud Allocated for Extraction

(d) Trim Allocated for Extraction

(e) Immature Plant

(f) Wet Whole Plant

(g) Seed

(4) "Bud" shall have the same meaning as the product of the "Flowering" stage as set forth by Rule R 103 of 1 CCR 212-2 including the actual flower.

(5) "Bud Allocated for Extraction" means Bud that is designated for the extraction of Retail Marijuana Concentrate and not for direct sale to consumers.

(6) "Immature Plant" shall have the same meaning as set forth by Rule R 103 of 1 CCR 212-2.

(7) "Inventory Tracking System" shall have the same meaning as set forth by Rule R 103 of 1 CCR 212-2.

(8) "Marijuana" means Medical Marijuana or Retail Marijuana.

(9) "Retail Marijuana" shall have the same meaning as defined in subsection 39-28.8-101(7), C.R.S..

(10) "Retail Marijuana Concentrate" shall have the same meaning as "Retail Marijuana Concentrate" as set forth by Rule R 103 of 1 CCR 212-2.

(11) "Retail Marijuana Cultivation Facility" shall have the same meaning as defined in subsection 39-28.8-101(8), C.R.S..

(12) "Retail Marijuana Excise Tax" or "Excise Tax" means excise tax imposed by Part 3 of Article 28.8 of Title 39, C.R.S.

(13) "Retail Marijuana Excise Tax Return" means the excise tax return upon which all sales or Transfers of Retail Marijuana subject to Retail Marijuana Excise Tax and the amount of Retail Marijuana Excise Tax are reported.

(14) "Retail Marijuana Plant" means a plant of the genus cannabis, other than an Immature Plant, whether growing or harvested, that is cultivated by a licensed Retail Marijuana Cultivation Facility.

(15) "Retail Marijuana Product Manufacturing Facility" shall have the same meaning as defined in subsection 39-28.8-101(10), C.R.S.

(16) "Retail Marijuana Sales Tax" means sales tax imposed by Part 2 of Article 28.8 of Title 39, C.R.S.

(17) "Retail Marijuana Sales Tax Return" means the sales tax return upon which all sales of Retail Marijuana and Retail Marijuana Products and the amount of state and local Retail Marijuana Sales Tax are reported.

(18) "Retail Sales Tax" means the sales tax imposed by Part 1 of Article 26 of Title 39, C.R.S.

(19) "Test Period" means the period of time used to calculate the Average Market Rate. The Test Period shall be each November 1st to the subsequent January 31st, each February 1st to the subsequent April 30th, each May 1st to the subsequent July 31st, and each August 1st to the subsequent October 31st.

(20) "Transfer(s)(ed)(ing)" means to grant, convey, hand over, assign, sell, exchange, or barter, in any manner or by any means, with or without consideration, any Retail Marijuana or Retail Marijuana Product from one licensee to another licensee or to a consumer. A Transfer includes the movement of Retail Marijuana or Retail Marijuana Product from one licensed premises to another, even if both premises are contiguous, and even if both premises are owned by a single entity or individual or group of individuals and also includes a virtual transfer that is reflected on the Inventory Tracking System, even if no physical movement of the Retail Marijuana or Retail Marijuana Product occurs.

(21) "Trim" means any part of a Retail Marijuana Plant other than Bud or Wet Whole Plant. Trim includes "sweet leaf" or "sugar leaf".

(22) "Trim Allocated for Extraction" means Trim that is designated for the extraction of Retail Marijuana Concentrate and not for direct sale to consumers.

(23) "Unaffiliated Marijuana Business Licensees" shall mean Retail Marijuana business licensees that are not owned or controlled by the same or related interests, where "related interests" includes individuals who are related by blood or marriage or entities that are directly or indirectly controlled by an entity or individual or related individuals.

(24) "Unprocessed Retail Marijuana" means all Retail Marijuana that is first Transferred by a Retail Marijuana Cultivation Facility to a Retail Marijuana Store or a Retail Marijuana Products Manufacturing Facility, even though it may have gone through some processing, and even though it may be subject to further processing by another licensee.

(25) "Wet Whole Plant" means a Retail Marijuana Plant that is cut off just above the roots and is not trimmed, dried, or cured. The weight of the Wet Whole Plant includes all bud, leaves, stems, and stalk. The Wet Whole Plant must be weighed within 2 hours of the plant being harvested. The plant must not undergo any further processing prior to being weighed, and tax must be paid on the weight of the entire unprocessed plant.

RETAIL MARIJUANA TAX

1 CCR 201-18

Rule 39-28.8-302. Retail Marijuana Excise Tax.

Basis and Purpose

The basis for this rule is §§ 39-21-112(1), 39-28.8-101, 301, 302, and 308, C.R.S. The purpose of this rule is to provide guidance regarding the imposition and calculation or retail marijuana excise tax and he record keeping requirements therefor.

(1) **Incidence of Tax.** The Excise Tax is imposed upon the Retail Marijuana Cultivation Facility, which shall pay the Excise Tax to the Department on the first Transfer of Retail Marijuana to a Retail Marijuana Store or a Retail Marijuana Product Manufacturing Facility. No Colorado Retail Marijuana Excise Tax is imposed on the Transfer of Retail Marijuana from one Retail Marijuana Cultivation Facility to another Retail Marijuana Cultivation Facility. In the case of such Transfer, the Colorado Retail Marijuana Excise Tax will be imposed on the subsequent Transfer of the Retail Marijuana to a Retail Marijuana Store or a Retail Marijuana Product Manufacturing Facility.

(a) *Virtual Transfers.* Except as provided in this paragraph (1)(a), Transfers subject to the Excise Tax include virtual Transfers of Retail Marijuana or Retail Marijuana Product between Unaffiliated Marijuana Licensees if such Transfers are accurately reflected in the Inventory Tracking System, even if the physical movement of the Retail Marijuana or Retail Marijuana Product does not follow the virtual Transfer. No Excise Tax is imposed on the Transfer or virtual Transfer of seeds or Immature Plants for subsequent cultivation in a Retail Marijuana Cultivation Facility, in which case the Excise Tax is imposed on the subsequent Transfer of Retail Marijuana cultivated from such seeds and Immature Plants. Any Retail Marijuana Cultivation Facility utilizing a virtual Transfer shall maintain documentation required by paragraph (6)(a) of this rule regarding the virtual Transfer and any subsequent Transfer of the Retail Marijuana. The Inventory Tracking System will not determine whether any Transfer from a Retail Marijuana Cultivation Facility is subject to Retail Marijuana Excise Tax. If any Transfer does not accurately represent legitimate business activity or is in any way designed to avoid or defeat the proper imposition and calculation of the Excise Tax, the Executive Directory may determine the Transfer of the Retail Marijuana upon which the Excise Tax is properly imposed.

(i) *Examples*

(A) Virtual Transfer would be recognized. A Retail Marijuana Store owned by Company A purchases Retail Marijuana from a Retail Marijuana Cultivation Facility owned by Company B through a documented point-of-sale transaction in the Inventory Tracking System reflecting the actual contract price paid. A second Transfer is then documented in the Inventory Tracking System Transferring the Retail Marijuana from the Retail Marijuana Store owned by Company A to a Retail Marijuana Cultivation Facility owned by Company A. The physical movement of Retail Marijuana need not follow all virtual Transfers. In this scenario, the

Retail Marijuana Excise Tax would be imposed at the time of the first Transfer from the Retail Marijuana Cultivation Facility owned by Company B to the Retail Marijuana Store owned by Company A, even though that Transfer is virtual. No additional Excise Tax is imposed on the subsequent Transfer of that Retail Marijuana from the Retail Marijuana Cultivation Facility owned by Company A to the Retail Marijuana Store owned by Company A.

(B) Virtual Transfer would not be recognized. A Retail Marijuana Store owned by Company A purchases seeds and Immature Plants from a Retail Marijuana Cultivation Facility owned by Company B through a documented point-of-sale transaction in the Inventory Tracking System. A second Transfer is then documented in the Inventory Tracking System Transferring the seeds and Immature Plants from the Retail Marijuana Store owned by Company A to a Retail Marijuana Cultivation Facility owned by Company A. The seeds and Immature Plants are cultivated and harvested at the Retail Marijuana Cultivation Facility owned by Company A. After cultivation and harvest, the Retail Marijuana Cultivation Facility owned by Company A Transfers the resulting Retail Marijuana to the Retail Marijuana Store owned by Company A. In this scenario, payment of Excise Tax on the Transfer from Company B to Company A would defeat the proper imposition and calculation of the Excise Tax. Instead, the Executive Director would impose the Excise Tax on the Transfer of the Retail Marijuana from the Retail Marijuana Cultivation Facility owned by Company A to the Retail Marijuana Store owned by Company A, using the applicable Average Market Rate(s).

(2) **Local Incidence of Tax**. See §§ 29-2-114 and 32-1-1004, C.R.S. and the applicable local ordinance or resolution for information about the application of any local excise taxes to Retail Marijuana Transfers.

(3) **Exempt Transfers**. The Transfer of Retail Marijuana to a Retail Marijuana Testing Facility for testing purposes is exempt from Retail Marijuana Excise Tax so long as the marijuana is destroyed by the Retail Marijuana Testing Facility during or following the testing.

(4) **Inventory Tracking System.** When a Transfer is entered into the Inventory Tracking System, all Transfers between Unaffiliated Marijuana Business Licensees, whether virtual or physical, must be entered in a manner that allows the price to be recorded in such Inventory Tracking System. When entering the price, the actual price charged, exclusive of tax, must be recorded in such Inventory Tracking System.

(5) **Calculation and Payment of Tax.**

(a) The method for calculating Retail Marijuana Excise Tax depends upon whether the first Transfer of Retail Marijuana from a Retail Marijuana Cultivation Facility to a Retail Marijuana Store or a Retail Marijuana Product Manufacturing Facility is between Unaffiliated Marijuana Business Licensees or Affiliated Marijuana Business Licensees.

(i) Unaffiliated Marijuana Business Licensees –

(A) If the first Transfer is between Unaffiliated Marijuana Business Licensees, the Excise Tax is calculated based on the actual contract price of the Retail Marijuana Transferred.

(B) If no contract price is established at the time of the first Transfer the Excise Tax is calculated based on the Average Market Rate of the Retail Marijuana Transferred. Examples of such Transfers include:

(I) a temporary Transfer, that does not constitute a sale, of Retail Marijuana from a Retail Marijuana Cultivation Facility to an unaffiliated Retail Marijuana Product Manufacturing Facility that will process or manufacture the Retail Marijuana before returning it to the Retail Marijuana Cultivation Facility or to a Retail Marijuana Store affiliated with the Retail Marijuana Cultivation Facility; or

(II) a Transfer of Retail Marijuana from a Retail Marijuana Cultivation Facility to an unaffiliated Retail Marijuana Store for which a price is not established at the time of Transfer, but instead depends upon the revenue generated from the subsequent sale of the Retail Marijuana to the end consumer.

(ii) Affiliated Marijuana Business Licensees - If the first Transfer is between Affiliated Marijuana Business Licensees, the Excise Tax is calculated based on the Average Market Rate of the Retail Marijuana Transferred.

(b) *Contract Price*

(i) The contract price is the invoice price charged by a Retail Marijuana Cultivation Facility to each licensed purchaser for each Transfer of Unprocessed Retail Marijuana, exclusive of any tax that is included in the written invoice price, and exclusive of any discount or other reduction. In the case of multiple invoices reflecting multiple prices for the same transaction, the contract price used to calculate the tax is the highest such price. For the purpose of this paragraph (5)(b)(i), the invoice price charged includes all consideration the seller receives from the buyer in whatever form and regardless of the time of receipt.

(c) *Calculation of Average Market Rate.*

(i) The Department will calculate the Average Market Rate using reported sales of each category during the Test Period. The Department will determine the best methodology to arrive at the Average Market Rate. The Department may, from time to time, change its method of calculating the Average Market Rate if, in the judgment of the Department, such change is necessary to arrive at the most accurate Average Market Rate given the market conditions.

(d) In the case of Retail Marijuana Excise Tax calculated using Average Market Rate, the Excise Tax shall be calculated based on the category of Retail Marijuana (i.e., Bud, Trim, Immature Plant, Wet Whole Plant, Seed, Bud Allocated for Extraction, or Trim Allocated for Extraction) being Transferred. The provisions of this paragraph (5)(d) apply only to Excise Tax calculated using Average Market Rate.

(i) For the categories of Bud, Trim, Bud Allocated for Extraction, and Trim Allocated for Extraction, the Excise Tax is computed on the total weight of the Retail Marijuana Transferred. If multiple categories of Retail Marijuana are included in the Transfer, the Excise Tax shall be calculated separately for each category of Retail Marijuana included in the Transfer by separately calculating the total weight of the Retail Marijuana included in each category and multiplying the weight by the Average Market Rate of each category and the applicable Excise

Tax rate. Notwithstanding this rule, inconsequential amounts of Bud inadvertently included in a Transfer that is otherwise Trim shall be treated as Trim and not as Bud.

(A) Retail Marijuana categorized for the purpose of Excise Tax calculation as Bud Allocated for Extraction or Trim Allocated for Extraction may not be subsequently Transferred for direct sale to consumers unless it has first been subject to extraction as allocated.

(B) If Bud Allocated for Extraction or Trim Allocated for Extraction is subsequently Transferred for direct sale to consumers and has not been subjected to extraction, the Retail Marijuana Cultivation Facility shall amend the Retail Marijuana Excise Tax Return upon which the Excise Tax was initially paid in order to recalculate the Excise Tax, and any applicable penalty and interest, using the Average Market Rates for the category of Bud or Trim, respectively.

(C) The Retail Marijuana Product Manufacturing Facility shall notify, in writing, the Retail Marijuana Cultivation Facility of any subsequent Transfer of Bud Allocated for Extraction or Trim Allocated for Extraction that has not first been subjected to extraction within seven (7) days of the Transfer by the Retail Marijuana Product Manufacturing Facility. Any failure by a Retail Marijuana Production Manufacturing Facility to notify a Retail Marijuana Cultivation Facility in accordance with this paragraph (5)(d)(i)(C) shall not relieve the Retail Marijuana Cultivation Facility of liability for any additional tax, penalty, and interest due pursuant to paragraph (5)(d)(i)(B) of this rule.

(ii) The Retail Marijuana Excise Tax for Immature Plants is calculated on the total number of Immature Plants being sold or Transferred.

(iii) The Retail Marijuana Excise Tax for Wet Whole Plants is calculated on the total weight of the entire Retail Marijuana Wet Whole Plant. The weight of the entire Retail Marijuana Wet Whole Plant is subject to the Excise Tax because the Average Market Rate for Wet Whole Plant already reflects an allowance for water weight and waste. The Wet Whole Plant may not undergo any further processing (i.e., drying the plant and subsequently selling separately the Bud and Trim) prior to being weighed when using the Wet Whole Plant basis. The Wet Whole Plant must be harvested and packaged in the same day.

(A) The Retail Marijuana Wet Whole Plant must be weighed within 2 hours of the plant being harvested and without any further processing, including any artificial drying such as increasing the ambient temperature of the room or any other form of drying, curing, or trimming. The Retail Marijuana Excise Tax must be calculated and paid on the total Wet Whole Plant weight. If the Wet Whole Plant is not weighed within 2 hours of being harvested or is subjected to further processing before being weighed, the Excise Tax on such plant cannot be calculated and paid on the Wet Whole Plant basis and must instead be calculated and paid at the Bud and Trim rates.

(B) A Retail Marijuana Cultivation Facility that calculates and pays the Excise Tax using the Wet Whole Plant rate must maintain records of the time each Wet Whole Plant (identified by its RFID tag) was harvested and weighed and the weight of each Wet Whole Plant. The records must be

in writing and created contemporaneously with the harvesting and weighing.

(iv) The Retail Marijuana Excise Tax for seeds is calculated on the total number of seeds being Transferred.

(v) The Retail Marijuana Excise Tax for Retail Marijuana Concentrate produced by a Retail Marijuana Cultivation Facility shall be calculated either pursuant to paragraph (5)(d)(i) of this rule based on the weight of Bud Allocated for Extraction and/or Trim Allocated for Extraction used in the extraction or pursuant to paragraph (5)(d)(iii) of this rule based on the weight of Wet Whole Plant(s) used in the extraction.

(6) **Evidence of Payment of Tax.**

(a) Both the Retail Marijuana Cultivation Facility and the first purchaser or transferee shall maintain documentation sufficient to determine the Excise Tax due for the Transfer. Such documentation must include:

(i) the name and license number of the Retail Marijuana Cultivation Facility,

(ii) the name and license number of first purchaser or transferee,

(iii) the category of Retail Marijuana Transferred,

(iv) the date of Transfer,

(v) the weight of the Retail Marijuana Transferred, and

(vi) the contract price for the Transfer, if applicable.

1 CCR 212-1 MEDICAL MARIJUANA RULES 1 - eff 01/01/2018

Effective date

01/01/2018

M 100 Series – General Applicability

Basis and Purpose – M 101

The statutory authority for this rule includes but is not limited to sections 12-43.3-102(2), 12-43.3-202(1)(b)(I), and 12-43.3-901(2), C.R.S. Unless such activity is authorized by the Colorado Constitution, article XVIII, Section 14 or Section 16, the Medical Marijuana Code, section 25-1.5-106.6, C.R.S., or these rules, any Person who buys, Transfers, or acquires Medical Marijuana is engaging in illegal activity pursuant to Colorado law. This rule clarifies that those engaged in the business of possessing, cultivating, dispensing, Transferring, transporting, or testing Medical Marijuana must be properly licensed to be in compliance with Colorado law.

M 101 – Engaging in Business

Except as authorized by the Colorado Constitution, article XVIII, sections 14 or 16, the Medical Marijuana Code, or section 25-1.5-106.5, C.R.S., no person shall, possess, cultivate, dispense, Transfer, transport, or offer to sell, manufacture, test, or research Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product unless said Person is duly licensed by the State Licensing Authority and the relevant local licensing authority(-ies).

Basis and Purpose – M 103

The statutory authority for this rule includes but is not limited to sections 12-43.3-104, 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a), 12-43.3-202(2)(a)(XX), C.R.S. , and all of the Medical Code. The purpose of this rule is to provide necessary definitions of terms used throughout the rules. Defined terms are capitalized where they appear in the rules, to let the reader know to refer back to these definitions. When a term is used in a conventional sense, and not intended to be a defined term, it is not capitalized.

M 103 – Definitions

Definitions. The following definitions of terms, in addition to those set forth in section 12-43.3-104, C.R.S., shall apply to all rules promulgated pursuant to the Medical Code, unless the context requires otherwise:

> "Advertising" means the act of providing consideration for the publication, dissemination, solicitation, or circulation, of visual, oral, or written communication, to induce directly or indirectly any Person to patronize a particular Medical Marijuana Business, or to purchase particular Medical Marijuana or a Medical Marijuana-Infused Product. "Advertising" includes marketing, but does not include packaging and labeling. "Advertising" proposes a commercial transaction or otherwise constitutes commercial speech.
>
> "Affiliated Interest" means any Business Interest related to a Medical Marijuana Business that does not rise to the level of a Financial Interest in a Medical Marijuana Business license. An Affiliated Interest may include, but shall not be limited to, an Indirect Beneficial Interest Owner that is not a Financial Interest, an indirect financial interest, a lease agreement, secured or unsecured loan, or security interest in fixtures or equipment with a direct nexus to the cultivation, manufacture, Transfer, transportation, or testing of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. A Person who provides funding for a Research Project conducted by a Licensed Research Business is an Affiliated Interest for the Licensed Research Business, unless that Person is a Direct Beneficial Interest Owner or an Indirect Beneficial Interest Owner. Except as otherwise provided by these rules, an Affiliated Interest holder shall neither exercise control of nor be positioned so as to enable the exercise of control over the Medical Marijuana Business or its operations. A Medical Marijuana Business

shall report each of its Affiliated Interests to the Division with each application for initial licensure, renewal, change of ownership or change of corporate structure.

“Agreement” means any unsecured convertible debt option, option agreement, warrant, or at the Division’s discretion, other document that establishes a right for a person to obtain a Permitted Economic Interest that might convert to an ownership interest in a Retail Marijuana Establishment or Medical Marijuana Business.

“Alarm Installation Company” means a Person engaged in the business of selling, providing, maintaining, servicing, repairing, altering, replacing, moving or installing a Security Alarm System in a Licensed Premises.

“Applicant” means a Person that has submitted an application for licensure or registration, or for renewal of licensure or registration, pursuant to these rules that was accepted by the Division for review but has not been approved or denied by the State Licensing Authority.

“Associated Key License” means an Occupational License for an individual who is a Direct Beneficial Interest Owner of the Medical Marijuana Business, other than a Qualified Limited Passive Investor, and any Person who controls or is positioned so as to enable the exercise of control over a Medical Marijuana Business. Each shareholder, officer, director, member, or partner of a Closely Held Business Entity that is a Direct Beneficial Interest Owner and any Person who controls or is positioned as to enable the exercise of control over a Medical Marijuana Business must hold an Associated Key License.

“Batch Number” means any distinct group of numbers, letters, or symbols, or any combination thereof, assigned by a Medical Marijuana Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer to a specific Harvest Batch or Production Batch of Medical Marijuana.

“Business Interest” means any Person that holds a Financial Interest or an Affiliated Interest in a Medical Marijuana Business.

“Child-Resistant” means special packaging that is:

a. Designed or constructed to be significantly difficult for children under five years of age to open and not difficult for normal adults to use properly as defined by 16 C.F.R. 1700.15 (1995) and 16 C.F.R. 1700.20 (1995). Note that this rule does not include any later amendments or editions to the Code of Federal Regulations. The Division has maintained a copy of the applicable federal regulations, which is available to the public;

b. Opaque so that the packaging does not allow the product to be seen without opening the packaging material; and

c. Resealable for any product intended for more than a single use or containing multiple servings.

“Closely Held Business Entity” means an “entity” as defined in section 7-90-102, C.R.S., that has no more than fifteen shareholders, officers, directors, members, partners or owners, each of whom are natural persons, each of whom holds an Associated Key License, and each of whom is a United States citizen prior to the date of application. There must be no publicly traded market for interests in the entity. A Closely Held Business Entity and each of the natural persons who are its shareholders, officers, directors, members, partners or owners, are Direct Beneficial Interest Owners. A Closely Held Business Entity is an associated business of the Medical Marijuana Business for which it is a Direct Beneficial Interest Owner.

“Commercially Reasonable Royalty” means a right to compensation in the form of a royalty payment for the use of intellectual property with a direct nexus to the cultivation, manufacture, Transfer, or testing of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. A Commercially Reasonable Royalty must be limited to specific intellectual property the Commercially Reasonable Royalty Interest Holder owns or is otherwise authorized to license or to a product or line of products. A Commercially Reasonable Royalty will not be approved where it could cause reasonable consumer confusion or violate any federal copyright, trademark, or patent law or regulation. The Commercially Reasonable Royalty shall provide for compensation to the Commercially Reasonable Royalty Holder as a percentage of gross revenue or gross profit. The royalty payment must be at a reasonable percentage rate. To determine whether the percentage rate is reasonable, the Division will consider the totality of the circumstances, including but not limited to the following factors:

a. The percentage of royalties received by the recipient for the licensing of the intellectual property.

b. The rates paid by the Licensee for the use of other intellectual property.

c. The nature and scope of the license, as exclusive or non-exclusive; or as restricted or non-restricted in terms of territory or with respect to whom the product may be sold.

d. The licensor’s established policy and marketing program to maintain his intellectual property monopoly by not licensing others or by granting licenses under special conditions designed to preserve that monopoly.

e. The commercial relationship between the recipient and Licensee, such as, whether they are competitors in the same territory in the same line of business.

f. The effect of selling the intellectual property in promoting sales of other products of the Licensee; the existing value of the intellectual property to the recipient as a generator of sales of his non-intellectual property items; and the extent of such derivative sales.

g. The duration of the term of the license for use of the intellectual property.

h. The established or projected profitability of the product made using the intellectual property; its commercial success; and its current popularity.

i. The utility and advantages of the intellectual property over products or businesses without the intellectual property.

j. The nature of the intellectual property; the character of the commercial embodiment of it as owned and produced by the licensor; and the benefits to those who have used the intellectual property.

k. The portion of the profit or of the selling price that may be customary in the particular business or in comparable businesses to allow for the use of the intellectual property.

l. The portion of the realizable profit that should be credited to the intellectual property as distinguished from non-intellectual property elements, the manufacturing process, business risks, or significant features or improvements added by the Licensee.

“Commercially Reasonable Royalty Interest Holder” means a Person that receives a Commercially Reasonable Royalty in exchange for a Licensee’s use of the Commercially Reasonable Royalty Interest Holder’s intellectual property. A Commercially Reasonable Royalty Interest Holder is an Indirect Beneficial Interest Owner.

“Container” means the receptacle directly containing Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that is labeled according to the requirements in Rules M 1001 *et. seq.* or Rules M 1001-1 *et seq.*

“Denied Applicant” means any Person whose application for licensure pursuant to the Medical Code has been denied.

“Department” means the Colorado Department of Revenue.

“Direct Beneficial Interest Owner” means a natural person or a Closely Held Business entity that owns a share or shares of stock in a licensed Medical Marijuana Business, including the officers, directors, members, or partners of the licensed Medical Marijuana Business or Closely Held Business Entity, or a Qualified Limited Passive Investor. Each natural person that is a Direct Beneficial Interest Owner must hold an Associated Key License. Except that a Qualified Limited Passive Investor need not hold an Associated Key License and shall not engage in activities for which an Occupational License is required.

“Director” means the Director of the Marijuana Enforcement Division.

“Division” means the Marijuana Enforcement Division.

“Edible Medical Marijuana-Infused Product” means any Medical Marijuana-Infused Product for which the intended use is oral consumption, including but not limited to, any type of food, drink, or pill.

“Executive Director” means the Executive Director of the Department of Revenue.

“Exit Package” means an Opaque bag or other similar Opaque covering provided at the point of sale, in which Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product already in a Container is placed. If Medical Marijuana flower, trim, or seeds are placed into a Container that is not Child-Resistant, then the Exit Package must be Child-Resistant.

“Final Agency Order” means an Order of the State Licensing Authority issued in accordance with the Medical Code and the State Administrative Procedure Act. The State Licensing Authority will issue a Final Agency Order following review of the Initial Decision and any exceptions filed thereto or at the conclusion of the declaratory order process. A Final Agency Order is subject to judicial review.

“Financial Interest” means any Direct Beneficial Interest Owner, a Commercially Reasonable Royalty Interest Holder who receives more than 30 percent of the gross revenue or gross profit, a Permitted Economic Interest holder, and any other Person who controls or is positioned so as to enable the exercise of control over the Medical Marijuana Business.

“Finished Marijuana” means post-harvest Medical Marijuana including flower and trim that has been harvested for more than 90 days or that has completed the curing and drying process according to the Optional Premises Cultivation Operation’s written standard operating procedures that were last submitted to the Division. Standard operating procedures for curing and drying may provide a curing and drying period that is longer than 90 days but any such period must be commercially reasonable and shall not exceed 12 months. Among other factors, the Division may consider the Optional Premises Cultivation Operation’s prior business years’ business

transactions to determine whether the Optional Premises Cultivation Operation's standard operating procedures are commercially reasonable.

"Flammable Solvent" means a liquid that has a flash point below 100 degrees Fahrenheit.

"Flowering" means the reproductive state of the Cannabis plant in which there are physicial signs of flower or budding out of the nodes in the stem.

"Food-Based Medical Marijuana Concentrate" means a Medical Marijuana Concentrate that was produced by extracting Cannabinoids from Medical Marijuana through the use of propylene glycol, glycerin, butter, olive oil or other typical cooking fats.

"Good Cause" for purposes of denial of an initial, renewal or reinstatement license application or certification, or for purposes of discipline of a license or certification, means:

a. The Licensee or Applicant has violated, does not meet, or has failed to comply with any of the terms, conditions, or provisions of the Medical Code, any rules promulgated pursuant it, or any supplemental relevant state or local law, rule, or regulation;

b. The Licensee or Applicant has failed to comply with any special terms or conditions that were placed upon the license pursuant to an order of the State Licensing Authority or the relevant local licensing authority; or

c. The Licensee's or the Applicant's Licensed Premises have been operated in a manner that adversely affects the public health or welfare or the safety of the immediate neighborhood in which the establishment is located.

"Good Moral Character" means having a personal history that demonstrates honesty, fairness, and respect for the rights of others and for the law.

"Harvest Batch" means a specifically identified quantity of processed Medical Marijuana that is uniform in strain, cultivated utilizing the same Pesticide and other agricultural chemicals and harvested at the same time.

"Heat/Pressure-Based Medical Marijuana Concentrate" means a Medical Marijuana Concentrate that was produced by extracting Cannabinoids from Medical Marijuana through the use of heat and/or pressure. The method of extraction may be used by only a Medical Marijuana-infused Products Manufacturer and can be used alone or on a Production Batch that also includes Water-Based Medical Marijuana Concentrate or Solvent-Based Medical Marijuana Concentrate.

"Identity Statement" means the name of the business as it is commonly known and used in any Advertising.

"Immature plant" means a nonflowering Medical Marijuana plant that is no taller than eight inches and no wider than eight inches produced from a cutting, clipping or seedling and that is in a growing container that is no larger than two inches wide and two inches tall that is sealed on the sides and bottom. Plants meeting these requirements are not attributable to a Licensee's maximum allowable plant count, but must be fully accounted for in the Inventory Tracking System.

"Indirect Beneficial Interest Owner" means a holder of a Permitted Economic Interest, a recipient of a Commercially Reasonable Royalty associated with the use of intellectual property by a Licensee, a Profit-Sharing Plan Employee, a Qualified Institutional Investor, or another similarly situated Person as determined by the State Licensing Authority. An Indirect Beneficial Interest

Owner is not a Licensee. The Licensee must obtain Division approval for an Indirect Beneficial Interest Owner that constitutes a Financial Interest before such Indirect Beneficial Interest Owner may exercise any of the privileges of the ownership or interest with respect to the Licensee.

“Industrial Hemp” means a plant of the genus Cannabis and any part of the plant, whether growing or not, containing a delta-9 tetrahydrocannabinol (THC) concentration of no more than three-tenths of one percent (0.3%) on a dry weight basis.

“Industrial Hygienist” means an individual who has obtained a baccalaureate or graduate degree in industrial hygiene, biology, chemistry, engineering, physics, or a closely related physical or biological science from and accredited college or university.

a. The special studies and training of such individuals shall be sufficient in the cognate sciences to provide the ability and competency to:

    1. Anticipate and recognize the environmental factors and stresses associated with work and work operations and to understand their effects on individuals and their well-being;

    2. Evaluate on the basis of training and experience and with the aid of quantitative measurement techniques the magnitude of such environmental factors and stresses in terms of their ability to impair human health and well-being;

    3. Prescribe methods to prevent, eliminate, control, or reduce such factors and stresses and their effects.

b. Any individual who has practiced within the scope of the meaning of industrial hygiene for a period of not less than five years immediately prior to July 1, 1997, is exempt from the degree requirements set forth in the definition above.

c. Any individual who has a two-year associate of applied science degree in environmental science from an accredited college or university and in addition not less than four years practice immediately prior to July 1, 1997, within the scope of the meaning of industrial hygiene is exempt from the degree requirements set forth in the definition above.

“Initial Decision” means a decision of a hearing officer in the Department following a licensing, disciplinary, or other administrative hearing.

“Inventory Tracking System” means the required seed-to-sale tracking system that tracks Medical Marijuana from either the seed or immature plant stage until the Medical Marijuana or Medical Marijuana Infused-Product is sold to a patient at a Medical Marijuana Center, Transferred to a Medical Research Facility, Transferred to a Pesticide Manufacturer, destroyed by a Medical Marijuana Business or used in a Research Project by a Licensed Research Business.

“Inventory Tracking System Trained Administrator” means an Associated Key Licensee of a Medical Marijuana Business or an occupationally licensed employee of a Medical Marijuana Business, each of whom has attended and successfully completed Inventory Tracking System training and has completed any additional training required by the Division.

“Inventory Tracking System User” means an Associated Key Licensee of a Medical Marijuana Business or an occupationally licensed Medical Marijuana Business employee who is granted Inventory Tracking System User account access for the purposes of conducting inventory tracking functions in the Inventory Tracking System. Each Inventory Tracking System Usermust

have been successfully trained by Inventory Tracking System Trained Administrator(s) in the proper and lawful use Inventory Tracking System, and who has completed any additional training required by the Division.

“Key License” means an Occupational License for an individual who performs duties that are central to the Medical Marijuana Business’ operation. An individual holding a Key License has the highest level of responsibility. An example of a Key Licensee includes, but is not limited to, managers.

“Licensed Premises” means the premises specified in an application for a license pursuant to the Medical Code that are owned or in possession of the Licensee and within which the Licensee is authorized to cultivate, manufacture, distribute, sell, store, transport, test, or research Medical Marijuana in accordance with the provisions of the Medical Code and these rules.

“Licensed Research Business” means a Marijuana Research and Development Facility or a Marijuana Research and Development Cultivation.

“Licensee” means any Person licensed or registered pursuant to the Medical Code, including an Occupational Licensee.

“Limited Access Area” means a building, room, or other contiguous area upon the Licensed Premises where Medical Marijuana is grown, cultivated, stored, weighed, packaged, Transferred, or processed for Transfer, under control of the Licensee.

“Limit of Detection” or “LOD” means the lowest quantity of a substance that can be distinguished from the absence of that substance (a blank value) within a stated confidence limit (generally 1%).

“Limit of Quantitation” or “LOQ” means the lowest concentration at which the analyte can not only be reliably detected but at which some predefined goals for bias and imprecision are met.

“Liquid Edible Medical Marijuana-Infused Product” means an Edible Medical Marijuana-Infused Product that is a liquid beverage or liquid food-based product for which the intended use is oral consumption, such as a soft drink or cooking sauce.

“Marijuana-Based Workforce Development Training Program” means a program designed to train individuals to work in the legal Medical or Retail Marijuana industry operated by an entity licensed under the Medical Code and/or the Retail Code or by a school that is authorized by the Division of Private Occupational Schools.

“Marketing Layer” means that packaging in addition to the Container that is the outermost layer visible to the consumer at the point of sale. The Marketing Layer is optional, but if used by a Licensee in addition to the required Container, it must be labeled according to the requirements in Rules M 1001 *et. seq.* or Rules M 1001-1 *et. seq.*

“Marijuana Research and Development Cultivation” means a Person that is licensed pursuant to the Medical Code to grow, cultivate, and possess Medical Marijuana, and to Transfer Medical Marijuana to a Medical Research and Development Facility or another Medical Research and Development Cultivation, all for limited research purposes authorized pursuant to section 12-43.3-408, C.R.S. A Marijuana Research and Development Cultivation is a Licensed Research Business.

“Marijuana Research and Development Facility” means a Person that is licensed pursuant to the Medical Code to possess Medical Marijuana for limited research purposes authorized pursuant to

section 12-43.3-408, C.R.S. A Marijuana Research and Development Facility is a Licensed Research Business.

“Material Change” means any change that would require a substantive revision to a Medical Marijuana Business’s standard operating procedures for the cultivation of Medical Marijuana or the production of a Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

“Medical Code” means the Colorado Medical Marijuana Code found at sections 12-43.3-101 *et. seq.*, C.R.S.

“Medical Marijuana” means marijuana that is grown and sold pursuant to the Medical Code and includes seeds and Immature Plants. Unless the context otherwise requires, Medical Marijuana Concentrate is considered Medical Marijuana and is included in the term Medical Marijuana as used in these rules.

“Medical Marijuana Business” means a licensed Medical Marijuana Center, a Medical Marijuana-Infused Products Manufacturer, an Optional Premises Cultivation Operation, a Medical Marijuana Testing Facility, a Medical Marijuana Business Operator, a Medical Marijuana Transporter, a Marijuana Research and Development Facility, or a Marijuana Research and Development Cultivation.

“Medical Marijuana Business Operator” means an entity that holds a registration or license from the State Licensing Authority to provide professional operational services to one or more Medical Marijuana Businesses, other than Licensed Research Businesses, for direct remuneration from the Medical Marijuana Business(es), which may include compensation based upon a percentage of the profits of the Medical Marijuana Business(es) being operated. A Medical Marijuana Business Operator may contract with Medical Marijuana Business(es) to provide operational services. A Medical Marijuana Business Operator’s contract with a Medical Marijuana Business does not in and of itself constitute ownership. The Medical Code and rules apply to all Medical Marijuana Business Operators regardless of whether such operator holds a registration or license. Any reference to “license” or “licensee” shall mean “registration” or “registrant” when applied to a Medical Marijuana Business Operator that holds a registration issued by the State Licensing Authority.

“Medical Marijuana Center” means a Person that is licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-402, C.R.S., and that sells Medical Marijuana to registered patients or primary caregivers as defined in Article XVIII, Section 14 of the Colorado Constitution, but is not a primary caregiver.

“Medical Marijuana Concentrate” means a specific subset of Medical Marijuana that was produced by extracting Cannabinoids from Medical Marijuana. Categories of Medical Marijuana Concentrate include Water-Based Medical Marijuana Concentrate, Food-Based Medical Marijuana Concentrate, Solvent-Based Medical Marijuana Concentrate, and Heat/Pressure-Based Medical Marijuana Concentrate.

“Medical Marijuana-Infused Product” means a product infused with Medical Marijuana that is intended for use or consumption other than by smoking, including but not limited to edible products, ointments, and tinctures. Such products shall not be considered a food or drug for purposes of the “Colorado Food and Drug Act,” part 4 of Article 5 of Title 25, C.R.S.

“Medical Marijuana-Infused Products Manufacturer” means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-404, C.R.S.

“Medical Marijuana Testing Facility” means a public or private laboratory licensed and certified, or approved by the Division, to conduct testing and research on Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

“Medical Marijuana Transporter” means a Person that is licensed to transport Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product from one Medical Marijuana Business to another Medical Marijuana Business or to a Medical Research Facility or Pesticide Manufacturer, and to temporarily store the transported Medical Marijuana and Medical Marijuana-Infused Product at its licensed premises, but is not authorized to sell, give away, buy, or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product under any circumstances. A Medical Marijuana Transporter does not include a Licensee that transports its own Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

“Medical Research Facility” means a Person approved and grant-funded by the State Board of Health pursuant to section 25-1.5-106.5, C.R.S., to conduct Medical Marijuana research. A Medical Marijuana Research Facility is neither a Medical Marijuana Business, a Retail Marijuana Establishment, nor a Licensee.

“Monitoring” means the continuous and uninterrupted attention to potential alarm signals that could be transmitted from a Security Alarm System located at a Medical Marijuana Business Licensed Premises, for the purpose of summoning a law enforcement officer to the premises during alarm conditions.

“Monitoring Company” means a Person in the business of providing Monitoring services for a Medical Marijuana Business.

“Notice of Denial” means a written statement from the State Licensing Authority, articulating the reasons or basis for denial of a license application.

“Occupational License” means a license granted to an individual by the State Licensing Authority pursuant to section 12-43.3-401, C.R.S. An Occupational License may be an Associated Key License, a Key License or a Support License.

“Opaque” means that the packaging does not allow the product to be seen without opening the packaging material.

“Optional Premises Cultivation Operation” means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-403, C.R.S.

“Order to Show Cause” means a document from the State Licensing Authority alleging the grounds for imposing discipline against a Licensee’s license.

“Owner” means, except where the context otherwise requires, a Direct Beneficial Interest Owner.

“Permitted Economic Interest” means an Agreement to obtain an ownership interest in a Retail Marijuana Establishment or Medical Marijuana Business when the holder of such interest is a natural person who is a lawful United States resident and whose right to convert into an ownership interest is contingent on the holder qualifying and obtaining a license as a Direct Beneficial Interest Owner under the Retail Code or Medical Code. A Permitted Economic Interest holder is an Indirect Beneficial Interest Owner.

“Person” means a natural person, partnership, association, company, corporation, limited liability company, or organization, or a manager, agent, owner, director, servant, officer, or employee thereof; except that “Person” does not include any governmental organization.

“Pesticide” means any substance or mixture of substances intended for preventing, destroying, repelling or mitigating any pest or any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant; except that the term “pesticide” shall not include any article that is a “new animal drug” as designated by the United States Food and Drug Administration.

“Pesticide Manufacturer” means a Person who: (1) manufactures, prepares, compounds, propagates, or processes any Pesticide or device or active ingredient used in producing a Pesticide; (2) who possesses an establishment number with the U.S. Environmental Protection Agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. §§ 136 *et. seq.;* (3) who conducts research to establish safe and effective protocols, including but not limited to establishing efficacy and toxicity, for the use of Pesticides on Medical Marijuana; (4) who has applied for and received any necessary license, registration, certifications, or permits from the Colorado Department of Agriculture pursuant to the Pesticide Act, section 35-9-101 *et. seq.*, C.R.S., and/or the Pesticide Applicators’ Act, sections 35-10-101 *et seq.*, C.R.S.; (5) who is authorized to conduct business in the State of Colorado; and (6) who has physical possession of the location in the State of Colorado where its research activities occur. A Pesticide Manufacturer is neither a Medical Marijuana Business, a Retail Marijuana Establishment, nor a Licensee.

“Production Batch” means (a) any amount of Medical Marijuana Concentrate of the same category and produced using the same extraction methods, standard operating procedures and an identical group of Harvest Batch(es) of Medical Marijuana; or (b) any amount of Medical Marijuana Product of the same exact type, produced using the same ingredients, standard operating procedures and the same Production Batch(es) of Medical Marijuana Concentrate.

“Professional Engineer” means an individual who is licensed by the State of Colorado as a professional engineer pursuant to 12-25-101 et. seq., C.R.S.

“Proficiency Testing” means an assessment of the performance of a Medical Marijuana Testing Facility’s methodology and processes. Proficiency Testing is also known as inter-laboratory comparison. The goal of Proficiency Testing is to ensure results are accurate, reproducible, and consistent.

“Profit-Sharing Plan” means a profit-sharing plan that is qualified pursuant to 26 U.S.C. § 401 of the Internal Revenue Code and subject to the Employee Retirement Income Security Act, and which provides for employer contributions in the form of cash, but not in the form of stock or other equity interests in a Medical Marijuana Business.

“Profit-Sharing Plan Employee” means an employee holding an Occupational License who receives a share of a Medical Marijuana Business’s profits through a Profit-Sharing Plan. A Profit-Sharing Plan Employee is an Indirect Beneficial Interest Owner.

“Propagation” means the reproduction of Medical Marijuana plants by seeds, cuttings or grafting.

“Public Institution” means any entity established or controlled by the federal government, a state government, or a local government or municipality, including but not limited to institutions of higher education or public higher education research institutions.

“Public Money” mean any funds or money obtained by the holder from any governmental entity, including but not limit to research grants.

“Qualified Institutional Investor” means:

a. A bank as defined in Section 3(a) (6) of the Federal Securities Exchange Act of 1934, as amended;

b. An insurance company as defined in Section 2(a) (17) of the Investment Company Act of 1940, as amended;

c. An investment company registered under Section 8 of the Investment Company Act of 1940, as amended;

d. An investment adviser registered under Section 203 of the Investment Advisers Act of 1940, as amended;

e. Collective trust funds as defined in Section 3(c) (11) of the Investment Company Act of 1940, as amended;

f. An employee benefit plan or pension fund that is subject to the Employee Retirement Income Security Act of 1974, as amended, excluding an employee benefit plan or pension fund sponsored by a licensed or an intermediary or holding company licensee which directly or indirectly owns five percent or more of a licensee;

g. A state or federal government pension plan; or

h. A group comprised entirely of persons specified in (a) through (g) of this definition.

A Qualified Institutional Investor is an Indirect Beneficial Interest Owner.

"Qualified Limited Passive Investor" means a natural person who is a United States citizen and is a passive investor who owns less than a five percent share or shares of stock in a licensed Medical Marijuana Business. A Qualified Limited Passive Investor is a Direct Beneficial Interest Owner.

"RFID" means Radio Frequency Identification.

"Remediation" means the process by which Medical Marijuana flower or trim, which has failed microbial testing, is processed into Solvent-Based Medical Marijuana Concentrate and retested as required by these rules.

"Resealable" means that the Container maintains its Child-Resistant effectiveness for multiple openings.

"Research Project" means a discrete scientific endeavor to answer a research question or a set of research questions. A Research Project must include a description of a defined protocol, clearly articulated goal(s), defined methods and outputs, and a defined start and end date. The description must demonstrate that the Research Project will comply with all requirements in the M 1900 Series. All research and development conducted by a Licensed Research Business must be conducted in furtherance of an approved Research Project.

"Respondent" means a person who has filed a petition for declaratory order that the State Licensing Authority has determined needs a hearing or legal argument or a Licensee who is subject to an Order to Show Cause.

"Restricted Access Area" means a designated and secure area within a Licensed Premises in a Medical Marijuana Center where Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are sold, possessed for sale, and displayed for sale, and where no one without a valid patient registry card is permitted.

“Retail Code” means the Colorado Retail Marijuana Code, found at sections 12-43.4-101 *et. seq*, C.R.S.

“Retail Marijuana” means all parts of the plant of the genus cannabis whether growing or not, the seeds thereof, the resin extracted from any part of the plant, and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or its resin, including but not limited to Retail Marijuana Concentrate that is cultivated, manufactured, distributed, or sold by a licensed Retail Marijuana Establishment. “Retail Marijuana” does not include industrial hemp, nor does it include fiber produced from stalks, oil, or cake made from the seeds of the plant, sterilized seed of the plant which is incapable of germination, or the weight of any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink, or other product. Unless the context otherwise requires, Retail Marijuana Concentrate is considered Retail Marijuana and is included in the term “Retail Marijuana” as used in these rules.

“Retail Marijuana Concentrate” means a specific subset of Retail Marijuana that was produced by extracting Cannabinoids from Retail Marijuana. Categories of Retail Marijuana Concentrate include Water-Based Retail Marijuana Concentrate, Food-Based Retail Marijuana Concentrate, Solvent-Based Retail Marijuana Concentrate, and Heat/Pressure-Based Retail Marijuana Concentrate.

“Retail Marijuana Cultivation Facility” means an entity licensed to cultivate, prepare, and package Retail Marijuana and Transfer Retail Marijuana to Retail Marijuana Establishments, Medical Research Facilities, and Pesticide Manufacturers, but not to consumers.

“Retail Marijuana Establishment” means a Retail Marijuana Store, a Retail Marijuana Cultivation Facility, a Retail Marijuana Products Manufacturing Facility, a Retail Marijuana Testing Facility, a Retail Marijuana Establishment Operator, or a Retail Marijuana Transporter.

“Retail Marijuana Establishment Operator” means an entity that holds a license from the State Licensing Authority to provide professional operational services to one or more Retail Marijuana Establishments for direct remuneration from the Retail Marijuana Establishment(s), which may include compensation based upon a percentage of the profits of the Retail Marijuana Establishment(s) being operated. A Retail Marijuana Establishment Operator contracts with Retail Marijuana Establishment(s) to provide operational services. A Retail Marijuana Establishment Operator’s contract with a Retail Marijuana Establishment does not in and of itself constitute ownership.

“Retail Marijuana Product” means a product that is comprised of Retail Marijuana and other ingredients and is intended for use or consumption, such as, but not limited to, edible product, ointments and tinctures.

“Retail Marijuana Products Manufacturing Facility” means an entity licensed to purchase Retail Marijuana; manufacture, prepare, and package Retail Marijuana Product; and Transfer Retail Marijuana and Retail Marijuana Product to other Retail Marijuana Products Manufacturing Facilities,Retail Marijuana Stores, Medical Research Facilities, and Pesticide Manufacturers, but not to consumers.

“Retail Marijuana Store” means an entity licensed to purchase Retail Marijuana from a Retail Marijuana Cultivation Facility and to purchase Retail Marijuana Product from a Retail Marijuana Products Manufacturing Facility and to Transfer Retail Marijuana and Retail Marijuana Product to consumers.

“Retail Marijuana Testing Facility” means a public or private laboratory licensed and certified, or approved by the Division, to conduct testing and research on Retail Marijuana, Retail Marijuana Concentrate, and Retail Marijuana Products.

“Retail Marijuana Transporter” means a Person that is licensed to transport Retail Marijuana, Retail Marijuana Concentrate, and Retail Marijuana Products from one Retail Marijuana Establishment to another Retail Marijuana Establishment or to a Medical Research Facility or Pesticide Manufacturer, and to temporarily store the transported Retail Marijuana, Retail Marijuana Concentrate, and Retail Marijuana Products at its Licensed Premises, but is not authorized to sell, give away, buy, or receive complimentary Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Products under any circumstances. A Retail Marijuana Transporter does not include a Licensee that transports and distributes its own Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Products.

“Sample” means any item collected from a Medical Marijuana Business and provided to a Medical Marijuana Testing Facility for testing. The following is a non-exhaustive list of types of Samples: Medical Marijuana, Medical Marijuana-Infused Product, Medical Marijuana Concentrate, soil, growing medium, water, solvent or swab of a counter or equipment.

“Security Alarm System” means a device or series of devices, intended to summon law enforcement personnel during, or as a result of, an alarm condition. Devices may include hard-wired systems and systems interconnected with a radio frequency method such as cellular or private radio signals that emit or transmit a remote or local audible, visual, or electronic signal; motion detectors, pressure switches, duress alarms (a silent system signal generated by the entry of a designated code into the arming station to indicate that the user is disarming under duress); panic alarms (an audible system signal to indicate an emergency situation); and hold-up alarms (a silent system signal to indicate that a robbery is in progress).

“Shipping Container” means a hard-sided container with a lid or other enclosure that can be secured in place. A Shipping Container is used solely for the transport of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product between Medical Marijuana Businesses, a Medical Research Facility, or a Pesticide Manufacturer.

“Solvent-Based Medical Marijuana Concentrate” means a Medical Marijuana Concentrate that was produced by extracting Cannabinoids from Medical Marijuana through the use of a solvent approved by the Division pursuant to Rule M 605.

“Standardized Graphic Symbol” means a graphic image or small design adopted by a Licensee to identify its business.

“State Licensing Authority” means the authority created for the purpose of regulating and controlling the licensing of the cultivation, manufacture, distribution, and Transfer of Medical Marijuana and Retail Marijuana in Colorado, pursuant to section 12-43.3-201, C.R.S.

“Support License” means a license for an individual who performs duties that support the Medical Marijuana Business’ operations. A Support Licensee is a Person with less decision-making authority than a Key Licensee and who is reasonably supervised by a Key Licensee or an Associated Key Licensee. Examples of individuals who need this type of license include, but are not limited to, sales clerks or cooks.

“THC” means tetrahydrocannabinol.

“THCA” means tetrahydrocannabinolic acid.

“Test Batch” means a group of Samples that are derived from a single Harvest Batch, Production Batch, or Inventory Tracking System package, and that are collectively submitted to a Medical Marijuana Testing Facility or a Retail Marijuana Testing Facility for testing purposes. “Total THC” means the sum of the percentage by weight of THCA multiplied by 0.877 plus the percentage by weight of THC, i.e., Total THC = (% THCA x 0.877) + % THC.

"Transfer(s)(ed)(ing)" means to grant, convey, hand over, assign, sell, exchange, donate, or barter, in any manner or by any means, with or without consideration, any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from one Licensee to another Licensee or to a patient. A Transfer includes the movement of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from one Licensed Premises to another, even if both premises are contiguous, and even if both premises are owned by a single entity or individual or group of individuals, and also includes a virtual Transfer that is reflected in the Inventory Tracking System, even if no physical movement of the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product occurs.

"Universal Symbol" means the image established by the Division and made available to Licensees through the Division's website indicating the Medical Marijuana or Medical Marijuana Infused-Product contains marijuana.

"Unrecognizable" means marijuana or *Cannabis* plant material rendered indistinguishable from any other plant material.

"Vegetative" means the state of the *Cannabis* plant during which plants do not produce resin or flowers and are bulking up to a desired production size for Flowering.

"Water-Based Medical Marijuana Concentrate" means a Medical Marijuana Concentrate that was produced by extracting cannabinoids from Medical Marijuana through the use of only water, ice, or dry ice.

M 200 Series – Licensing and Interests

Basis and Purpose – M 201

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(a), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-301(3), 12-43.3-401(1)(a)-(e), 12-43.3-104, 12-43.3-305, 12-43.3-306, 12-43.3-307.5, 12-43.3-310, 12-43.3-311, 12-43.3-313, 12-43.3-401, and 24-76.5-103, C.R.S. The purpose of this rule is to establish that only materially complete applications for licenses or registrations, accompanied by all required fees, will be accepted and processed by the Division. The purpose of this rule is also to clarify that when an initial application is materially complete, but the Division determines further information is required before the application can be fully processed, the Applicant must provide the additional requested information within the time frame provided by the Division. Otherwise, the Division cannot act on the application in a timely manner, and the application may be denied.

M 201 – Application Process

A. General Requirements

1. All applications for licenses or registrations authorized pursuant to subsections 12-43.3-401(1)(a)-(h), C.R.S., shall be made upon current forms prescribed by the Division.

2. A license or registration issued to a Medical Marijuana Business or an individual constitutes a revocable privilege. The burden of proving an Applicant's qualifications for licensure or registration rests at all times with the Applicant.

3. Each application shall identify the local licensing authority.

4. Applicants must submit a complete application to the Division before it will be accepted or considered.

a. All applications must be complete and accurate in every material detail.

b. All applications must include all attachments or supplemental information required by the current forms supplied by the Division.

c. All applications must be accompanied by a full remittance for the whole amount of the application and license fees. *See* Rule M 207 – Schedule of Application Fees: Medical Marijuana Businesses; Rule M 208 – Schedule of Business License and Registration Fees: Medical Marijuana Businesses; Rule M 209 – Schedule of Business Renewal License and Registration Fees: Medical Marijuana Businesses; Rule M 235 – Schedule of License Fees: Individuals; and Rule M 236 – Schedule of Renewal License Fees: Individuals.

d. All applications must include all information required by the Division related to the Applicant's proposed Direct Beneficial Interest Owners, Indirect Beneficial Interest Owners and Qualified Limited Passive Investors, and all other direct and indirect financial interests in the Applicant.

e. At a minimum, each Applicant for a new license or registration shall provide, at the time of application, the following information:

    i. For each Associated Key License Applicant, evidence of proof of lawful presence, citizenship, if applicable, residence, if applicable, and Good Moral Character as required by the current forms prescribed by the Division;

    ii. For each Medical Marijuana Business Applicant and each Associated Key License Applicant, all requested information concerning financial and management associations and interests of other Persons in the business;

    iii. If the Applicant for any license pursuant to the Medical Code is a Closely Held Business Entity it shall submit with the application:

        A. The Associated Key License applications for all of its shareholders, members, partners, officers and directors who do not already hold an Associated Key License;

        B. If the Closely Held Business Entity is a corporation, a copy of its articles of incorporation or articles of organization; evidence of authorization from the Colorado Secretary of State to do business within this State, and for each shareholder: his or her name, mailing address, state of residence and certification of Colorado residency for at least one officer and all officers with day-to-day operational control over the business;

        C. If the Closely Held Business Entity is a limited liability company, a copy of its articles of organization and its operating agreement; evidence of authorization from the Colorado Secretary of State to do business within this State, and for each member: his or her name, mailing address, state of residence and certification of Colorado residency for at least one officer and all officers with day-to-day operational control over the business; and

D. If the Closely Held Business Entity is a general partnership, limited partnership, limited liability partnership, or limited liability limited partnership, a copy of the partnership agreement and, for each partner, his or her name, mailing address and state of residency and certification of Colorado residency for at least one officer and all officers with day-to-day operational control over the business.

iv. For each Medical Marijuana Business Applicant and each Associated Key License Applicant, documentation establishing compliant return filing and payment of taxes related to any Medical Marijuana Business or Retail Marijuana Establishment in which such Applicant is, or was, required to file and pay taxes;

v. For each Medical Marijuana Business Applicant and each Associated Key License Applicant, documentation verifying and confirming the funds used to start and/or sustain the operation of the Medical or Retail Marijuana Establishment were lawfully earned or obtained;

vi. Accurate floor plans for the premises to be licensed; and

vii. The deed, lease, sublease, contract, or other document(s) governing the terms and conditions of occupancy of the premises to be licensed.

5. All applications to reinstate a license or registration will be deemed an application for a new license or registration. This includes, but is not limited to, Associated Key licenses that have expired, Medical Marijuana Business licenses or registrations that have been expired for more than 90 days, licenses or registrations that have been voluntarily surrendered, and licenses that have been revoked.

6. The Division may refuse to accept an incomplete application.

B. Additional Information May Be Required

1. Upon request by the Division, an Applicant shall provide any additional information required to process and fully investigate the application. The additional information must be provided to the Division no later than seven days after the request is made unless otherwise specified by the Division.

2. An Applicant's failure to provide the requested information by the Division deadline may be grounds for denial of the application.

C. Information Must Be Provided Truthfully. All Applicants shall submit information to the Division in a full, faithful, truthful, and fair manner. The Division may recommend denial of an application where the Applicant made misstatements, omissions, misrepresentations, or untruths in the application or in connection with the Applicant's background investigation. This type of conduct may be considered as the basis for additional administrative action against the Applicant and it may also be the basis for criminal charges against the Applicant.

D. Application Forms Accessible. All application forms supplied by the Division and filed by an Applicant for a license, including attachments and any other documents associated with the investigation, may be used for a purpose authorized by the Medical Code, the Retail Code, of for any other state or local law enforcement purpose or as otherwise required by law.

E. Division Application Management and Local Licensure.

1. Repealed.2. If the Division grants a license before the local licensing authority approves the application or grants a local license, the license will be conditioned upon local approval. Such condition will not be viewed as a denial pursuant to the Administrative Procedure Act. If the local licensing authority denies the application, the state license will be revoked.

3. An Applicant is prohibited from operating a Medical Marijuana Business prior to obtaining all necessary licenses, registrations or approvals from both the State Licensing Authority and the local licensing authority.

4. Each Financial Interest is void and of no effect unless and until approved by the Division. A Financial Interest shall not exercise any privilege associated with the proposed interest until approved by the Division. Any violation of this requirement may be considered a license or registration violation affecting public safety.

Basis and Purpose – M 202.1

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XVIII.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXI), and sections 12-43.3-104(1.7), 12-43.3-104(12.4), 12-43.3-305 and 12-43.3-306, 12-43.3-307.5, 12-43.3-310 and 12-43.3-313 C.R.S. The purpose of this rule is to clarify the process to be followed when a Medical Marijuana Business applies to obtain financing or otherwise have a relationship with an Indirect Beneficial Interest Owner. This rule establishes that only materially complete Medical Marijuana Business applications for Indirect Beneficial Interest Owners, accompanied by all required fees, will be accepted and processed by the Division. This rule also clarified that when an initial application is materially complete and accepted, but the Division determines further information is required before the application can be fully processed, the Medical Marijuana Business Applicant must provide the additional requested information within the time frame provided by the Division. Otherwise, the Division cannot act on the application in a timely manner and the Medical Marijuana Business' application may be denied. The rule also sets forth requirements for the contents of the contract or Agreement between Medical Marijuana Businesses and Indirect Beneficial Interest Owners, which reflect basic legal requirements surrounding the relationship between the parties.

M 202.1 – Applications, Agreements, Contracts and Certifications Required for Indirect Beneficial Interest Owners: Medical Marijuana Businesses

A. Medical Marijuana Business Initiates Process. The Medical Marijuana Business seeking to obtain financing or otherwise establish any type of relationship with an Indirect Beneficial Interest Owner, including a Permitted Economic Interest, a Commercially Reasonably Royalty Interest Holder, a Profit-Sharing Plan Employee, or a Qualified Institutional Investor, must file all required documents with the Division, including any supplemental documents requested by the Division in the course of its review of the application.

B. General Requirements. The Medical Marijuana Business seeking approval of an Indirect Beneficial Interest Owner must meet the following requirements:

1. All applications for approval of an Indirect Beneficial Interest Owner shall be made upon current forms prescribed by the Division.

2. The burden of proving that a proposed Indirect Beneficial Interest Owner is qualified to hold such an interest rests at all times with the Medical Marijuana Business submitting the application.

3. The Medical Marijuana Business applying for approval of any type of Indirect Beneficial Interest Owner must submit a complete application to the Division before it will be accepted or considered.

4. All applications must be complete and accurate in every material detail.

5. All applications must include all attachments or supplemental information required by the current forms supplied by the Division.

6. All applications must be accompanied by a full remittance of the required fees.

7. The Division may refuse to accept an incomplete application.

8. The proposed holder of the Indirect Beneficial Interest is not a publicly traded company.

9. Additional Information May Be Required

   a. Upon request by the Division, a Medical Marijuana Business applying to have any type of Indirect Beneficial Interest Owner shall provide any additional information required to process and fully investigate the application. The additional information must be provided to the Division no later than seven days after the request is made unless otherwise specified by the Division.

   b. Failure to provide the requested information by the Division's deadline may be grounds for denial of the application.

C. Information Must Be Provided Truthfully. A Medical Marijuana Business applying for approval of any type of Indirect Beneficial Interest Owner shall submit information to the Division in a full, faithful, truthful, and fair manner. The Division may recommend denial of an application where any party made misstatements, omissions, misrepresentations, or untruths in the application or in connection with the background investigation of the proposed Indirect Beneficial Interest Owner. This type of conduct may be considered as the basis for additional administrative action against the Medical Marijuana Business and it may also be the basis for criminal charges against either the Medical Marijuana Business Applicant or the Indirect Beneficial Interest Owner.

D. Application Forms Accessible. All application forms supplied by the Division and filed by an Applicant for a license, including attachments and any other documents associated with the investigation, may be used for a purpose authorized by the Medical Code, the Retail Code or for any other state or local law enforcement purpose, or as otherwise required by law.

E. Approval of Financial Interest. Each Financial Interest in a Medical Marijuana Business is void and of no effect unless and until approved by the Division. Any amendment of a Financial Interest is also void and of no effect unless and until approved by the Division.

F. Ongoing Qualification and Violation Affecting Public Safety. If at any time the Division finds any Indirect Beneficial Interest Owner is not qualified, or is no longer qualified, the Division may require the Medical Marijuana Business to terminate its relationship with and financial ties to the Indirect Beneficial Interest Owner within a specified time period. Failure to terminate such relationship and financial ties within the specified time period may constitute a violation affecting public safety and be a basis for administrative action against the Medical Marijuana Business.

G. Permitted Economic Interest Holder Requirements. At the time of application, a Medical Marijuana Business seeking to obtain approval of a Permitted Economic Interest shall provide evidence to establish that the natural person seeking to become a Permitted Economic Interest

holder is a lawful resident of the United States and shall provide documentation verifying and confirming the funds used for the Permitted Economic Interest were lawfully earned or obtained.

H. Permitted Economic Interest Agreement Requirements. The Medical Marijuana Business Applicant seeking to obtain financing from a Permitted Economic Interest must submit a copy of the Agreement between the Medical Marijuana Business and the person seeking to hold a Permitted Economic Interest. The following requirements apply to all Agreements:

1. The Agreement must be complete, and must fully incorporate all terms and conditions.

2. The following provisions must be included in the Agreement:

a. Any interest in a Medical Marijuana Business, whether held by a Permitted Economic Interest or any other person, must be acquired in accordance with the provisions of the Medical Code and/or Retail Code, as applicable, and the rules promulgated thereunder. The issuance of any Agreement or other interest in violation thereof shall be void. The Permitted Economic Interest holder shall not provide funding to the Medical Marijuana Business until the Permitted Economic Interest is approved by the Division.

b. No Agreement or other interest issued by the Medical Marijuana Business and no claim or charge therein or thereto shall be transferred except in accordance with the provisions of the Medical Code and/or Retail Code as applicable, and the rules promulgated thereunder. Any transfer in violation thereof shall be void.

c. The Medical Marijuana Business and the Permitted Economic Interest holder must sign an affirmation of passive investment on a form approved by the Division.

d. The Medical Marijuana Business must initiate any process to convert a Permitted Economic Interest to a Direct Beneficial Interest Owner and the process to convert the Permitted Economic Interest into a Direct Beneficial Interest Owner must be completed prior to the expiration or termination of the Agreement. The holder of the Permitted Economic Interest must meet all qualifications for licensure and ownership pursuant to the Medical Code and/or Retail Code and any rules promulgated thereunder prior to conversion of the Permitted Economic Interest to a Direct Beneficial Interest Owner.

e. At the election of the Medical Marijuana Business, if the holder of the Permitted Economic Interest is not qualified for licensure as a Direct Beneficial Interest Owner but is qualified as a holder of the Permitted Economic Interest, and the Permitted Economic Interest is also approved by the Division then the Permitted Economic Interest may remain in force and effect for as long as it remains approved by the Division under the Medical Code and/or Retail Code as applicable, and any rules promulgated thereunder.

f. The Permitted Economic Interest holder shall disclose in writing to the Division and to the Medical Marijuana Business any and all disqualifying events, within ten days after occurrence of the event, that could lead to a finding that the holder no longer qualifies to hold the Permitted Economic Interest and/or that could lead to a denial of licensure pursuant to the Medical Code and/or Retail Code and any rules promulgated thereunder.

g. The Medical Marijuana Business shall disclose in writing to the Division any and all disqualifying events, within ten days after receiving notice of the event, which

could lead to a finding that the holder is no longer qualified to hold the Permitted Economic Interest and/or that could lead to a denial of licensure pursuant to the Medical Code and/or Retail Code as applicable, and any rules promulgated thereunder.

h. A Permitted Economic Interest holder's or a Medical Marijuana Business' failure to make required disclosures may be grounds for administrative action including but not limited to denial of a subsequent request to convert the Permitted Economic Interest into an ownership interest in the Medical Marijuana Business. Failure to make required disclosures may lead to a finding that the Permitted Economic Interest is no longer approved, and a requirement that the Medical Marijuana Business terminate its relationship with the Permitted Economic Interest holder.

i. The Permitted Economic Interest holder agrees and acknowledges that it has no entitlement or expectation of being able to invest in, or have a relationship with, the Medical Marijuana Business unless and until the Division determines the Permitted Economic Interest is approved. The Permitted Economic Interest holder agrees and acknowledges that its relationship with the Medical Marijuana Business is contingent upon Division approval. The Permitted Economic Interest holder understands and acknowledges that approval by the Division is wholly discretionary and the Division may, at any time, deny approval of the Permitted Economic Interest or find that the Permitted Economic Interest is no longer qualified. The Permitted Economic Interest Holder agrees and acknowledges it has no entitlement to or expectation of the Division approving the Permitted Economic Interest. The Permitted Economic Interest holder further agrees that any administrative or judicial review of a determination by the Division regarding the qualification or approval of the Permitted Economic Interest will only occur through licensing or enforcement proceedings involving the Medical Marijuana Business. The Permitted Economic Interest holder further agrees and acknowledges that the Permitted Economic Interest holder shall only be entitled to notice of a denial or administrative action concerning the Medical Marijuana Business if the denial or administrative action is based upon, or directly related to, the qualifications or actions of the Permitted Economic Interest holder. The Permitted Economic Interest holder also agrees and acknowledges that the Permitted Economic Interest holder may only request leave to intervene in an administrative proceeding against the Medical Marijuana Business, pursuant to subsection 24-4-105(2)(c), C.R.S., if the administrative proceeding is based upon, or directly related to, the qualifications or actions of the Permitted Economic Interest holder. Furthermore, the Permitted Economic Interest holder agrees and acknowledges that the Permitted Economic Interest holder may only seek judicial review of an action against the Medical Marijuana Business, pursuant to subsection 24-4-106(4), C.R.S., if the administrative action is based upon, or directly related to, the qualifications or actions of the Permitted Economic Interest Holder. THE PERMITTED ECONOMIC INTEREST HOLDER KNOWINGLY, FREELY, AND VOLUNTARILY WAIVES ANY RIGHT OR CLAIM TO SEEK ANY INDEPENDENT REVIEW OF APPROVAL OR DENIAL OF THE PERMITTED ECONOMIC INTEREST BY THE DIVISION, OR OF AN ADMINISTRATIVE ACTION AGAINST THE MEDICAL MARIJUANA BUSINESS, THAT IS BASED UPON, OR DIRECTLY RELATED TO, THE QUALIFICATIONS OR ACTIONS OF THE PERMITTED ECONOMIC INTEREST, AND EXPRESSLY AGREES THAT THE ONLY ADMINISTRATIVE OR JUDICIAL REVIEW OF SUCH A DETERMINATION OR ACTION WILL OCCUR THROUGH A LICENSING OR ENFORCEMENT PROCEEDING FOR THE MEDICAL MARIJUANA BUSINESS.

I. Commercially Reasonable Royalty Interest Contract Requirements. A Medical Marijuana Business seeking to utilize the intellectual property of a Commercially Reasonable Royalty Interest Holder must submit a copy of the contract between the Medical Marijuana Business and the Person seeking to hold a Commercially Reasonable Royalty Interest. The following requirements apply to all such contracts:

1. The contract must be complete, and must fully incorporate all terms and conditions.

2. The following provisions must be included in the contract:

   a. Any interest in a Medical Marijuana Business, whether held by a Commercially Reasonable Royalty Interest Holder or any other Person, must be acquired in accordance with the provisions of the Medical Code and/or Retail Code, as applicable, and the rules promulgated thereunder. The issuance of any contract or other interest in violation thereof shall be void.

   b. No contract, royalty or other interest issued by the Medical Marijuana Business and no claim or charge therein or thereto shall be transferred except in accordance with the provisions of the Medical Code and/or Retail Code as applicable, and the rules promulgated thereunder. Any transfer in violation thereof shall be void.

   c. The Medical Marijuana Business and the Commercially Reasonable Royalty Interest Holder must sign an affirmation of passive investment on a form approved by the Division.

   d. The Commercially Reasonable Royalty Interest Holder shall disclose in writing to the Division and to the Medical Marijuana Business any and all disqualifying events, within ten days after occurrence of the event, that could lead to a finding that the Commercially Reasonable Royalty Interest Holder is not qualified to hold the Commercially Reasonable Royalty Interest.

   e. The Medical Marijuana Business shall disclose in writing to the Division any and all disqualifying events, within ten days after receiving notice of the event, which would lead to a finding that the Commercially Reasonable Royalty Interest Holder is not qualified to hold the Commercially Reasonable Royalty Interest.

   f. A Commercially Reasonable Royalty Interest Holder's or a Medical Marijuana Business' failure to make required disclosures may lead to a finding that the Commercially Reasonable Royalty Interest is not approved, or is no longer approved, and may lead to a requirement that the Medical Marijuana Business terminate its relationship with the Commercially Reasonable Royalty Interest Holder.

   g. The Commercially Reasonable Royalty Interest Holder agrees and acknowledges that its relationship with the Medical Marijuana Business is contingent upon Division approval throughout the entire term of its relationship with the Medical Marijuana Business. The Commercially Reasonable Royalty Interest Holder understands and acknowledges that approval by the Division is wholly discretionary and the Division may, at any time, find that the Commercially Reasonable Royalty Interest Holder does not qualify or no longer qualifies. The Commercially Reasonable Royalty Interest Holder agrees and acknowledges it has no entitlement to or expectation to approval of the Commercially Reasonable Royalty Interest.

h. The Commercially Reasonable Royalty Interest Holder further agrees that any administrative or judicial review of a determination by the Division approving or denying the Commercially Reasonable Royalty will only occur through licensing or enforcement proceedings involving the Medical Marijuana Business. The Commercially Reasonable Royalty Interest Holder further agrees and acknowledges that the Commercially Reasonable Royalty Interest Holder shall only be entitled to notice of a denial or administrative action concerning the Medical Marijuana Business if the denial or administrative action is based upon, or directly related to, the qualifications or actions of the Commercially Reasonable Royalty Interest Holder. The Commercially Reasonable Royalty Interest Holder also agrees and acknowledges that the Commercially Reasonable Royalty Interest Holder may only request leave to intervene in an administrative proceeding against the Medical Marijuana Business, pursuant to subsection 24-4-105(2)(c), C.R.S., if the administrative proceeding is based upon, or directly related to, the qualifications or actions of the Commercially Reasonable Royalty Interest Holder. Furthermore, the Commercially Reasonable Royalty Interest Holder agrees and acknowledges that the Commercially Reasonable Royalty Interest Holder may only seek judicial review of an action against the Medical Marijuana Business, pursuant to subsection 24-4-106(4), C.R.S., if the administrative action is based upon, or directly related to, the qualifications or actions of the Commercially Reasonable Royalty Interest Holder. THE COMMERCIALLY REASONABLE ROYALTY INTEREST HOLDER KNOWINGLY, FREELY, AND VOLUNTARILY WAIVES ANY RIGHT OR CLAIM TO SEEK ANY INDEPENDENT REVIEW OF APPROVAL OR DENIAL OF THE COMMERCIALLY REASONABLE ROYALTY INTEREST BY THE DIVISION, OR OF AN ADMINISTRATIVE ACTION AGAINST THE MEDICAL MARIJUANA BUSINESS, THAT IS BASED UPON, OR DIRECTLY RELATED TO, THE QUALIFICATIONS OR ACTIONS OF THE COMMERCIALLY REASONABLE ROYALTY INTEREST HOLDER, AND EXPRESSLY AGREES THAT THE ONLY ADMINISTRATIVE OR JUDICIAL REVIEW OF SUCH A DETERMINATION OR ACTION WILL OCCUR THROUGH A LICENSING OR ENFORCEMENT PROCEEDING FOR THE MEDICAL MARIJUANA BUSINESS.

i. If the Division determines the Commercially Reasonable Royalty Interest Holder is not in compliance with the Medical Code, the Retail Code, or these rules, then the recipient shall discontinue use of such Commercially Reasonable Royalty Interest Holder's intellectual property within thirty (30) days of the Division finding. The recipient shall not pay any remuneration to a Commercially Reasonable Royalty Interest Holder that does not qualify under the Medical Code and these rules, including but not limited to Rule M 231.2(B).

j. The Commercially Reasonable Royalty Interest Holder shall neither exercise control over nor be positioned so as to enable the exercise of control over the Medical Marijuana Business. Notwithstanding the foregoing, a Commercially Reasonable Royalty Interest Holder may influence the marketing, advertising, labeling and display of any product or line of products for which the Commercially Reasonably Royalty Interest exists so long as such influence is not inconsistent with the Medical Code or these rules.

J. Profit-Sharing Plan Documents. A Medical Marijuana Business offering licensed employees a share of the profits through a Profit-Sharing Plan must submit a list of all proposed participants in the Profit-Sharing Plan along with their names, addresses and occupational license numbers and submit a copy of all documentation regarding the Profit-Sharing Plan in connection with the Medical Marijuana Business' application:

1. The documents establishing the Profit-Sharing Plan must be complete and must fully incorporate all terms and conditions.

2. The following provisions must be included in the documents establishing the Profit-Sharing Plan:

    a. Any interest in a Medical Marijuana Business, whether held by a Profit-Sharing Plan Employee or any other person, must be acquired in accordance with the provisions of the Medical Code and/or Retail Code, as applicable, and the rules promulgated thereunder. The issuance of any contract or other interest in violation thereof shall be void. Any distributions from a Profit-Sharing Plan must be made in cash, not in the form of stock or other equity interests in the Medical Marijuana Business.

    b. No contract or other interest issued by the Medical Marijuana Business and no claim or charge therein or thereto shall be transferred except in accordance with the provisions of the Medical Code and/or Retail Code as applicable, and the rules promulgated thereunder. Any transfer in violation thereof shall be void.

    c. The Medical Marijuana Business shall disclose in writing to the Division any and all disqualifying events, within ten days after receiving notice of the event, which would lead to a finding that any Profit-Sharing Plan Employee does not qualify under the Medical Code and these rules, including but not limited to Rule M 231.2(B), to participate in the Profit-Sharing Plan.

    d. A Profit-Sharing Plan Employee shall disclose in writing to the Division and to the Medical Marijuana Business any and all disqualifying events, within ten days after occurrence of the event that could lead to a finding that the Profit-Sharing Plan Employee does not qualify or no longer qualifies under the Medical Code and these rules, including but not limited to Rule M 231.2(B), to participate in the Profit-Sharing Plan.

    e. A Medical Marijuana Business' or a Profit-Sharing Plan Employee's failure to make required disclosures may lead to a finding that the Profit-Sharing Plan is not approved, and may lead to a requirement that the Medical Marijuana Business terminate or modify the Profit-Sharing Plan.

    f. The Profit-Sharing Plan Employee agrees and acknowledges that its relationship with the Medical Marijuana Business is contingent upon Division approval throughout the entire term of its relationship with the Medical Marijuana Business. The Profit-Sharing Plan Employee understands and acknowledges that approval by the Division is wholly discretionary and the Division may, at any time, deny approval of the Profit-Sharing Plan. The Profit-Sharing Plan Employee agrees and acknowledges he or she has no entitlement to or expectation to Division approval of the Profit-Sharing Plan or the Profit-Sharing Plan Employee's participation in the plan. The Profit-Sharing Plan Employee further agrees that any administrative or judicial review of a determination by the Division approving or denying the Profit-Sharing Plan or the Profit-Sharing Plan Employee will only occur through licensing or enforcement proceedings involving the Medical Marijuana Business. Each Profit-Sharing Plan Employee further agrees and acknowledges that the Profit-Sharing Plan Employee shall only be entitled to notice of a denial or administrative action concerning the Medical Marijuana Business if the denial or administrative action is based upon, or directly related to, the qualifications or actions of the Profit-Sharing Plan Employee. The Profit-Sharing Plan Employee also agrees and acknowledges that the Profit-Sharing Plan Employee may only request leave to intervene in an

administrative proceeding against the Medical Marijuana Business, pursuant to subsection 24-4-105(2)(c), C.R.S., if the administrative proceeding is based upon, or directly related to, the qualifications or actions of the Profit-Sharing Plan Employee. Furthermore, the Profit Sharing Plan Employee agrees and acknowledges that the Profit-Sharing Plan Employee may only seek judicial review of an action against the Medical Marijuana Business, pursuant to subsection 24-4-106(4), C.R.S., if the administrative action is based upon, or directly related to, the qualifications or actions of the Profit-Sharing Plan Employee. THE PROFIT-SHARING PLAN EMPLOYEE KNOWINGLY, FREELY, AND VOLUNTARILY WAIVES ANY RIGHT OR CLAIM TO SEEK ANY INDEPENDENT REVIEW OF APPROVAL OR DENIAL OF THE PROFIT-SHARING PLAN OR THE PROFIT-SHARING PLAN EMPLOYEE BY THE DIVISION, OR OF AN ADMINISTRATIVE ACTION AGAINST THE MEDICAL MARIJUANA BUSINESS, THAT IS BASED UPON, OR DIRECTLY RELATED TO, THE PROFIT-SHARING PLAN OR THE PROFIT-SHARING PLAN EMPLOYEE'S QUALIFICATIONS OR ACTIONS OF THE PROFIT-SHARING PLAN EMPLOYEE, AND EXPRESSLY AGREES THAT THE ONLY ADMINISTRATIVE OR JUDICIAL REVIEW OF SUCH A DETERMINATION OR ACTION WILL OCCUR THROUGH A LICENSING OR ENFORCEMENT PROCEEDING FOR THE MEDICAL MARIJUANA BUSINESS.

K. Qualified Institutional Investor Requirements. Before a Medical Marijuana Business may permit a Qualified Institutional Investor to own any portion of the Medical Marijuana Business, the Medical Marijuana Business must submit the following documentation to the Division in connection with the Medical Marijuana Business' application:

1. A description of the Qualified Institutional Investor's business and a statement as to why the Qualified Institutional Investor meets the definition of Qualified Institutional Investor in Rule M 103 and subsection 12-43.3-307.5(7), C.R.S.

2. A certification made under oath and the penalty of perjury by the Qualified Institutional Investor:

    a. That the ownership interests were acquired and are held for investment purposes only and were acquired and are held in the ordinary course of business as a Qualified Institutional Investor and not for the purposes of causing, directly or indirectly, the election of a majority of the board of directors, any change in the corporate charter, bylaws, management, policies, or operations of a Medical Marijuana Business.

    b. That the Qualified Institutional Investor is bound by and shall comply with the Medical Code and the rules adopted pursuant thereto, is subject to the jurisdiction of the courts of Colorado, and consents to Colorado as the choice of forum in the event any dispute, question, or controversy arises regarding the Qualified Institutional Investor's relationship with the Medical Marijuana Business or activities pursuant to the Medical Code and rules adopted pursuant thereto.

    c. The Qualified Institutional Investor agrees and acknowledges that its relationship with the Medical Marijuana Business is contingent upon Division approval throughout the entire term of its relationship with the Medical Marijuana Business. The Qualified Institutional Investor understands and acknowledges that approval by the Division is wholly discretionary and the Division may, at any time, deny approval of the Qualified Institutional Investor. The Qualified Institutional Investor agrees and acknowledges it has no entitlement to or expectation to Division approval of the Qualified Institutional Investor. The Qualified Institutional Investor further agrees that any administrative or judicial

review of a determination by the Division approving or denying the Qualified Institutional Investor will only occur through licensing or enforcement proceedings involving the Medical Marijuana Business. The Qualified Institutional Investor further agrees and acknowledges that the Qualified Institutional Investor shall only be entitled to notice of a denial or administrative action concerning the Medical Marijuana Business if the denial or administrative action is based upon, or directly related to, the qualifications or actions of the Qualified Institutional Investor. The Qualified Institutional Investor also agrees and acknowledges that the Qualified Institutional Investor may only request leave to intervene in an administrative proceeding against the Medical Marijuana Business, pursuant to subsection 24-4-105(2)(c), C.R.S., if the administrative proceeding is based upon, or directly related to, the qualifications or actions of the Qualified Institutional Investor. Furthermore, the Qualified Institutional Investor agrees and acknowledges that the Qualified Institutional Investor may only seek judicial review of an action against the Medical Marijuana Business, pursuant to subsection 24-4-106(4), C.R.S., if the administrative action is based upon, or directly related to, the qualifications or actions of the Qualified Institutional Investor. THE QUALIFIED INSTITUTIONAL INVESTOR KNOWINGLY, FREELY, AND VOLUNTARILY WAIVES ANY RIGHT OR CLAIM TO SEEK ANY INDEPENDENT REVIEW OF APPROVAL OR DENIAL OF THE QUALIFIED INSTITUTIONAL INVESTOR BY THE DIVISION, OR OF AN ADMINISTRATIVE ACTION AGAINST THE MEDICAL MARIJUANA BUSINESS, THAT IS BASED UPON, OR DIRECTLY RELATED TO, THE QUALIFICATIONS OR ACTIONS OF THE QUALIFIED INSTITUTIONAL INVESTOR, AND EXPRESSLY AGREES THAT THE ONLY ADMINISTRATIVE OR JUDICIAL REVIEW OF SUCH A DETERMINATION OR ACTION WILL OCCUR THROUGH A LICENSING OR ENFORCEMENT PROCEEDING FOR THE MEDICAL MARIJUANA BUSINESS.

d. An explanation of the basis of the signatory's authority to sign the certification and to bind the Qualified Institutional Investor to its terms.

3. The name, address, telephone number and any other information requested by the Division as required on its approved forms for the officers and directors, or their equivalent, of the Qualified Institutional Investor as well as those Persons that have direct control over the Qualified Institutional Investor's ownership interest in the Medical Marijuana Business.

4. The name, address, telephone number and any other information requested by the Division as required on its approved forms for each Person who has the power to direct or control the Qualified Institutional Investor's voting of its shares in the Medical Marijuana Business.

5. The name of each Person that beneficially owns 5 percent or more of the Qualified Institutional Investor's voting securities or other equivalent.

6. A list of the Qualified Institutional Investor's affiliates.

7. A list of all regulatory agencies with which the Qualified Institutional Investor files periodic reports, and the name, address, and telephone number of the individual, if known, to contact at each agency regarding the Qualified Institutional Investor.

8. A disclosure of all criminal or regulatory sanctions imposed during the preceding 10 years and of any administrative or court proceedings filed by any regulatory agency during the preceding 5 years against the Qualified Institutional Investor, its affiliates, any current officer or director, or any former officer or director whose tenure ended within the preceding 12 months. As to a former officer or director, such information need be

provided only to the extent that it relates to actions arising out of or during such person's tenure with the Qualified Institutional Investor or its affiliates.

9. A copy of any filing made under 16 U.S.C § 18a with respect to the acquisition or proposed acquisition of an ownership interest in the Medical Marijuana Business.

10. Any additional information requested by the Division.

Basis and Purpose – M 204

The statutory authority for this rule includes but is not limited to sections 12-43.3-104(1), 12-43.3-104(1.7), 12-43.3-104(12.4), 12-43.3-104(14.3), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(I), 12-43.3-202(2)(a)(XVI), , 12-43.3-202(2)(a)(XXI), 12-43.3-310(7), (8)(a), and (11), and 12-43.3-601(1), 12-43.3-307.5, 12-43.3-313 and 12-43.3-901, C.R.S. The purpose of this rule is to provide clarity regarding the nature of a Direct Beneficial Interest Owner and an Indirect Beneficial Interest Owner, and to clarify what factors the State Licensing Authority generally considers regarding the same. The Division will review all relevant information to determine ownership of a Medical Marijuana Business.

M 204 – Ownership Interests of a License: Medical Marijuana Businesses

A. Licenses Held By Direct Beneficial Interest Owners. Each Medical Marijuana Business License must be held by its Direct Beneficial Interest Owner(s). Each natural person other than a Qualified Limited Passive Investor must hold an Associated Key License. A Direct Beneficial Interest Owner shall not be a publicly traded company.

B. 100% Ownership.

1. The sum of the percentages of ownership of all Direct Beneficial Interest Owners of a Medical Marijuana Business and Qualified Institutional Investors must equal 100%.

a. Qualified Institutional Investors may hold ownership interests, in the aggregate, of 30% or less in the Medical Marijuana Business.

b. A Qualified Limited Passive Investor must be a natural person who is a United States citizen and may hold an ownership interest of less than five percent in the Medical Marijuana Business.

c. Each Direct Beneficial Interest Owner, including but not limited to each officer, director, managing member, or partner of a Medical Marijuana Business, must hold a current and valid Associated Key License. See Rule M 233 – Retail Code or Medical Code Occupational Licenses Required. Except that this requirement shall not apply to Qualified Limited Passive Investors.

d. With the exception of Qualified Institutional Investors, only Direct Beneficial Interest Owners may hold a partnership interest, limited or general, a joint venture interest, or ownership of a share or shares in a corporation or a limited liability company which is licensed.

e. In the event of the death, disability, disqualification, divestment, termination, or revocation of the license of a Direct Beneficial Interest Owner or of approval of a Qualified Institutional Investor, a Medical Marijuana Business shall have 45 days to submit a change of ownership application to the Division detailing the Licensee’s plan for redistribution of ownership among the remaining Direct Beneficial Interest Owners and Qualified Institutional Investors. Such plan is subject to approval by the Division. If a change of ownership application is not

timely submitted, the Medical Marijuana Business and its Associated Key Licensee(s) may be subject to administrative action.

C. At Least One Associated Key License Required. No Medical Marijuana Business may operate or be licensed unless it has at least one Associated Key Licensee that is a Direct Beneficial Interest Owner who has been a Colorado resident for at least one year prior to application. Any violation of this requirement may be considered a license violation affecting public safety.

D. Loss Of Occupational License As An Owner Of Multiple Businesses. If an Associated Key License is suspended or revoked as to one Medical Marijuana Business or Retail Marijuana Establishment, that Owner's Occupational License shall be suspended or revoked as to any other Medical Marijuana Business or Retail Marijuana Establishment in which that Person possesses an ownership interest. See Rule M 233 – Medical Code or Retail Code Occupational Licenses Required.

E. Management Companies. Any Person contracted to manage the overall operation of a Licensed Premises must hold a Medical Marijuana Operator license.

F. Role of Managers. Associated Key Licensees may hire managers, and managers may be compensated on the basis of profits made, gross or net. A Medical Marijuana Business license may not be held in the name of a manager who is not a Direct Beneficial Interest Owner. A manager who does not hold an Associated Key License as a Direct Beneficial Interest Owner of the Medical Marijuana Business, must hold a Key License as an employee of the Medical Marijuana Business. Any change in manager must be reported to the Division and any local licensing authority before the new manager begins managing the Medical Marijuana Business. Additionally, a Medical Marijuana Operator may include management services as part of the operational services provided to a Medical Marijuana Business. A Medical Marijuana Business and its Direct Beneficial Interest Owners may be subject to license denial or administrative action, including but not limited to, fine, suspension or revocation of their license(s), based on the acts and omissions of any manager, Medical Marijuana Business Operator, or agents and employees thereof engaged in the operations of the Medical Marijuana Business.

G. Prohibited Third-Party Acts. No Licensee may employ, contract with, hire, or otherwise retain any Person, including but not limited to an employee, agent, or independent contractor, to perform any act or conduct of the Licensee's behalf or for the Licensee's benefit if the Licensee is prohibited by law or these rules from engaging in such conduct itself.

1. A Licensee may be held responsible for all actions and omissions of any Person the Licensee employs, contacts with, hires, or otherwise retains, including but not limited to an employee, agent, or independent contractor, to perform any act or conduct on the Licensee's behalf or for the Licensee's benefit.

2. A Licensee may be subject to license denial or administrative action, including but not limited to fine, suspension, or revocation of its license(s), based on the act and/or omissions of any Person the Licensee employs, contacts with, hires, or otherwise retains, including but not limited to an employee, agent, or independent contractor, to perform any act or conduct on the Licensee's behalf or for the Licensee's benefit.

Basis and Purpose – M 204.5

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(I), 12-43.3-202(2)(a)(XVIII.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXI) and 12-43.3-202(3)(a)(XVI) and sections 12-43.3-104(1), 12-43.3-104(1.7), 12-43.3-305, 12-43.3-307, 12-43.3-307.5, 12-43.3-309, 12-43.3-310, 12-43.3-311 and 12-43.3-313, C.R.S. The purpose of this rule is to clarify the application, review and approval process for various types of Business Interests. The Division will review

all relevant information to determine ownership of, interests in, and control of a Medical Marijuana Business.

M 204.5 – Disclosure, Approval and Review of Business Interests

A. Business Interests. A Medical Marijuana Business shall disclose all Business Interests at the time of initial application and at the time of each renewal application. Business Interests include Financial Interests and Affiliated Interests. Any Financial Interest must be pre-approved by the Division. It shall be unlawful to fail to completely report all Business Interests in each license issued. It shall be unlawful for a person other than a Financial Interest holding an Associated Key License to exercise control over a Medical Marijuana Business or to be positioned so as to enable the exercise of control over a Medical Marijuana Business. Except that a Qualified Institutional Investor and a Qualified Limited Passive Investor may vote his, her or its shares in the Medical Marijuana Business.

B. Financial Interests. A Medical Marijuana Business shall not permit any Person to hold or exercise a Financial Interest in the Medical Marijuana Business unless and until such Person's Financial Interest has been approved by the Division. If a Medical Marijuana Business wishes to permit a Person to hold or exercise a Financial Interest, and that Person has not been previously approved in connection with an application for the Medical Marijuana Business, the Medical Marijuana Business shall submit a change of ownership or financial interest form approved by the Division. A Financial Interest shall include:

1. Any Direct Beneficial Interest Owner;

2. The following types of Indirect Beneficial Interest Owners:

    a. A Commercially Reasonable Royalty Interest Holder who receives, in the aggregate, a royalty of more than 30 percent; and

    b. A Permitted Economic Interest holder.

3. Control. Any other Person who exercises control or is positioned so as to enable the exercise of control over the Medical Marijuana Business must hold an Associated Key License. A natural person who exercises control or is positioned so as to enable the exercise of control over a Medical Marijuana Business shall include but shall not be limited to a natural person who:

    a. Bears the risk of loss and opportunity for profit;

    b. Has final decision making authority over any material aspect of the operation of the Medical Marijuana Business;

    c. Manages the overall operations of a Medical Marijuana Business or its Licensed Premises, or who manages a material portion of the Medical Marijuana Business or its Licensed Premises;

    d. Guarantees the Medical Marijuana Business' debts or production levels;

    e. Is a beneficiary of the Medical Marijuana Business' insurance policies;

    f. Receives the majority of the Medical Marijuana Business' profits as compared to other recipients of the Medical Marijuana Business' profits; or

g. Acknowledges liability for the Medical Marijuana Business' federal, state or local taxes.

C. Affiliated Interests. A Medical Marijuana Business shall disclose all Affiliated Interests in connection with each application for licensure, renewal or reinstatement of the Medical Marijuana Business. The Division may conduct such background investigation as it deems appropriate regarding Affiliated Interests. An Affiliated Interest shall include any Person who does not hold a Financial Interest in the Medical Marijuana Business and who has any of the following relationships with the Medical Marijuana Business:

1. The following Indirect Beneficial Interest Owners:

a. A Commercially Reasonable Royalty Interest Holder who receives, in the aggregate, a royalty of 30 percent or less;

b. A Profit Sharing Plan Employee; and

c. A Qualified Institutional Investor.

2. Any other Person who holds any other disclosable interest in the Medical Marijuana Business other than a Financial Interest. Such disclosable interests shall include but shall not be limited to an indirect financial interest, a lease agreement, a secured or unsecured loan, or security interest in fixtures or equipment with a direct nexus to the cultivation, manufacture, Transfer, transportation, testing, or researching of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. If the Division determines any Person disclosed as an Affiliated Interest should have been pre-approved as a Financial Interest, approval and further background investigation may be required. Additionally, the failure to seek pre-approval of a Financial Interest holder may form the basis for license denial or administrative action against the Medical Marijuana Business.

D. Secured Interest In Marijuana Prohibited. No Person shall at any time hold a secured interest in Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

Basis and Purpose – M 206

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-305, 12-43.3-310(7), and 12-43.3-310(13), C.R.S. The purpose of this rule is to clarify the application process for changing location of a Licensed Premises.

M 206 – Changing Location of the Licensed Premises: Medical Marijuana Businesses

A. Application Required to Change Location of Licensed Premises

1. A Direct Beneficial Interest Owner of a Medical Marijuana Business seeking to change the physical location or address of its Licensed Premises must make application to the Division for permission to change location of its Licensed Premises.

2. Such application shall:

a. Be made upon current forms prescribed by the Division;

b. Be complete in every material detail and include remittance of all applicable fees;

c. Be submitted at least 30 days prior to the proposed change;

d. Explain the reason for requesting such change;

e. Be supported by evidence that the application complies with any local licensing authority requirements; and

f. Contain a report of the relevant local licensing authority(-ies) in which the Medical Marijuana Business is to be situated, which report shall demonstrate the approval of the local licensing authority(-ies) with respect to the new location.

B. Permit Required Before Changing Location

1. No change of location shall be permitted until after the Division considers the application, and such additional information as it may require, and issues to the Applicant a permit for such change.

2. The permit shall be effective on the date of issuance, and the Licensee shall, within 120 days, change the location of its business to the place specified therein and at the same time cease to operate a Medical Marijuana Business at the former location. At no time may a Medical Marijuana Business operate or exercise any of the privileges granted pursuant to the license in both locations. For good cause shown, the 120 day deadline may be extended for an additional 120 days. If the Licensee does not change the location of its business within the time period granted by the Division, including any extension, the Licensee shall submit a new application, pay the requisite fees and receive a new permit prior to completing any change of the location of the business.

3. The permit shall be conspicuously displayed at the new location, immediately adjacent to the license to which it pertains.

4. Repealed.

C. General Requirements

1. Repealed.

2. An Applicant for change of location shall file a change of location application with the Division and pay the requisite change of location fee. *See* Rule M 207 - Schedule of Other Application Fees: All Licensees.

Basis and Purpose – M 207

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(a), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XVIII.5), 12-43.3-202(2)(a)(XX), 12-43.3-401(1)(a)-(e), and sections, 12-43.3-104, 12-43.3-310, 12-43.3-401, 12-43.3-501, and 12-43.3-502, C.R.S. The purpose of this rule is to clarify the schedules of application fees for Medical Marijuana Business Applicants.

M 207 – Schedule of Application Fees: Medical Marijuana Businesses

A. Base Medical Marijuana Application Fees

1. Medical Marijuana Center Application Fees

a. Type 1 Center (1-300 patients) - $6,000.00

b. Type 2 Center (301-500 patients) - $10,000.00

c. Type 3 Center (501 or more patients) - $14,000.00

2. Medical Marijuana-Infused Products Manufacturer Application Fee - $1,000.00

3. Optional Premises Cultivation Location Application Fee - $1,000.00

4. Medical Marijuana Testing Facility Application Fee - $1,000.00

5. Medical Marijuana Transporter Application Fee - $1,000.00

6. Medical Marijuana Business Operator Registration Application Fee - $1,000.00

7. Medical Marijuana Businesses Converting to Retail Marijuana Establishments. Medical Marijuana Center Applicants or Licensees that want to convert to Retail Marijuana Establishments should refer to 1 CCR 212-2, Rule R 207 – Schedule of Application Fees: Retail Marijuana Establishments.

B. Medical Marijuana Business Application Fees for Indirect Beneficial Interest Owners, Qualified Limited Passive Investors and Other Affiliated Interests

1. Affiliated Interest that is not an Indirect Beneficial Interest Owner - $200.00

2. Commercially Reasonable Royalty Interest Holder receiving, in the aggregate, a royalty of more than 30 percent - $400.00

3. Commercially Reasonable Royalty Interest Holder receiving, in the aggregate, a royalty of 30 percent or less - $200.00

4. Permitted Economic Interest - $400.00

5. Employee Profit Sharing Plan - $200.00

6. Qualified Limited Passive Investor

a. Standard limited initial background check - $75.00

b. Full background check for reasonable cause - $125.00

7. Qualified Institutional Investor - $200.00

C. When Application Fees Are Due. All application fees are due at the time a Medical Marijuana Business submits an application and/or at the time a Medical Marijuana Business submits an application for a new Financial Interest.

Basis and Purpose – M 210

The statutory authority for this includes but is not limited to sections 12-43.3-202(1)(a), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-104, 12-43.3-310, 12-43.3-401, 12-43.3-501, 12-43.3-502, 12-43.3-1101, and 12-43.3-1102, C.R.S. The purpose of this rule is to establish basic requirements for all Division applications and help the regulated community understand procedural licensing requirements.

M 210 – Schedule of Other Application Fees: All Licensees

A. Other Application Fees. The following other application fees apply:

1. Transfer of Ownership - New Owners - $1,600.00

2. Transfer of Ownership - Reallocation of Ownership - $1,000.00

3. Change of Corporation or LLC Structure - $800.00

4. Change of Trade Name - $50.00

5. Change of Location Application Fee - $500.00

6. Modification of Licensed Premises - $100.00

7. Duplicate Business License - $20.00

8. Duplicate Occupational License - $20.00

9. Off Premises Storage Permit - $1,500.00

10. Medical Marijuana Transporter Off Premises Storage Permit - $2,200.00

11. Responsible Vendor Program Provider Application Fee: $850.00

12. Responsible Vendor Program Provider Renewal Fee: $350.00

13. Responsible Vendor Program Provider Duplicate Certificate Fee: $50.00

B. When Other Application Fees Are Due. All other application fees are due at the time the application and/or request is submitted.

C. Subpoena Fee - See Rule M 106 – Subpoena Fees

Basis and Purpose – M 231

The statutory authority for this rule includes but is not limited to sections 12-43.3-201(4), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-310(4), 12-43.3-310(7), and 24-18-105(3), and 12-43.3-104, 12-43.3-306, 12-43.3-307, 12-43.307.5, 12-43.3-401 24-76.5-101 et. seq, C.R.S. The purpose of this rule is to clarify the qualifications for licensure, including, but not limited to, the requirement for a fingerprint-based criminal history record check for all Direct Beneficial Interest Owners, contractors, employees, and other support staff of licensed entities.

M 231 – Qualifications for Licensure and Residency

A. Any Applicant may be required to establish his or her identity and age by any document required for a determination of Colorado residency, United States citizenship or lawful presence.

B. Maintaining Ongoing Licensing Qualification: Duty to Report Offenses. An Applicant or Licensee shall notify the Division in writing of any felony criminal charge and felony conviction against such Person within ten days of such person's arrest, felony summons, and within ten days of the disposition of any arrest or summons. Failure to make proper notification to the Division may be grounds for disciplinary action. Applicants and Licensees shall notify the Division within ten days of any other event that renders the Applicant or Licensee no longer qualified under these rules. Licensees shall cooperate in any investigation conducted by the Division. This duty to report includes, but is not limited to, deferred sentences or judgments that are not sealed. If the Division lawfully finds a disqualifying event and an Applicant asserts that the record was sealed, the

Division may require the Applicant to provide proof from a court evidencing the sealing of the case.

C. Application Forms Accessible to Law Enforcement and Licensing Authorities. All application forms supplied by the Division and filed by an Applicant for licensure shall be accessible by the State Licensing Authority, local licensing authorities, and any state or local law enforcement agent.

D. Associated Key Licenses. Each Direct Beneficial Interest Owner who is a natural person, including but not limited to each officer, director, member or partner of a Closely Held Business Entity, must apply for and hold at all times a valid Associated Key License. Except that these criteria shall not apply to Qualified Limited Passive Investors, who are not required to hold Associated Key Licenses. Each such Direct Beneficial Interest Owner must establish that he or she meets the following criteria before receiving an Associated Key License:

1. The Applicant has paid the annual application and licensing fees;

2. The Applicant's criminal history indicates that he or she is of Good Moral Character;

3. The Applicant is not employing, or financed in whole or in part by any other Person whose criminal history indicates that he or she is not of Good Moral Character;

4. The Applicant is at least 21 years of age;

5. The Applicant has paid all taxes, interest, or penalties due the Department of Revenue relating to a Medical Marijuana Business or Retail Marijuana Establishment, if applicable;

6. The Applicant is not currently subject to and has not discharged a sentence for a conviction of a felony in the five years immediately preceding his or her application date;

7. The Applicant meets qualifications for licensure that directly and demonstrably relate to the operation of a Medical Marijuana Business.

8. The Applicant is not currently subject to and has not discharged a sentence for a conviction of a felony pursuant to any state or federal law regarding the possession, distribution, manufacturing, cultivation, or use of a controlled substance in the ten years immediately preceding his or her application date or five years from May 28, 2013, whichever is longer; except that the State Licensing Authority may grant a license to a person if the Applicant has a state felony conviction based on possession or use of marijuana or marijuana concentrate that would not be a felony of the Applicant were convicted of the offense on the date he or she applied for licensure'

9. The Applicant does not employ another person who does not have a valid Occupational License issued pursuant to either the Medical Code or Retail Code;

10. The Applicant is not a sheriff, deputy sheriff, police officer, or prosecuting officer, or an officer or employee of the State Licensing Authority or a local licensing authority;

11. The Applicant has not been a State Licensing Authority employee with regulatory oversight responsibilities for individuals, Retail Marijuana Establishments and/or Medical Marijuana Businesses licensed by the State Licensing Authority in the six months immediately preceding the date of the Applicant's application;

12. The premises that the Applicant proposes to be licensed is not currently licensed as a retail food establishment or wholesale food registrant;

13. The Applicant either:

    a. Has been a resident of Colorado for at least one year prior to the date of the application, or

    b. Has been a United States citizen since a date prior to the date of the application and has received a Finding of Suitability from the Division prior to filing the application. See Rule M 231.1 – Finding of Suitability, Residency and Reporting Requirements for Direct Beneficial Interest Owners; Rule M 232 – Factors Considered When Determining Residency and Citizenship: Individuals.

14. For Associated Key Licensees who are owners of a Closely Held Business Entity, the Applicant is a United States citizen.

E. Occupational Licenses. An Occupational License Applicant who is not applying for an Associated Key License must establish that he or she meets the following criteria before receiving an Occupational License:

1. The Applicant has paid the annual application and licensing fees;

2. The Applicant's criminal history indicates that he or she is of Good Moral Character;

3. The Applicant is at least 21 years of age;

4. An Applicant is currently a resident of Colorado. See Rule M 232 – Factors Considered When Determining Residency and Citizenship: Individuals;

5. The Applicant has paid all taxes, interest, or penalties due the Department of Revenue relating to a Medical Marijuana Business or Retail Marijuana Establishment;

6. The Applicant is not currently subject to and has not discharged a sentence for a conviction of a felony in the five years immediately preceding his or her application date;

7. The Applicant meets qualifications for licensure that directly and demonstrably relate to the operation of a Medical Marijuana Business;

8. The Applicant is not currently subject to and has not discharged a sentence for a conviction of a felony pursuant to any state or federal law regarding the possession, distribution, manufacturing, cultivation, or use of a controlled substance in the ten years immediately preceding his or her application date or five years from May 28, 2013, whichever is longer; except that the State Licensing Authority may grant a license to a person if the person has a state felony conviction based on possession or use of marijuana or marijuana concentrate that would not be a felony of the person were convicted of the offense on the date he or she applied for licensure;

9. The Applicant is not a sheriff, deputy sheriff, police officer, or prosecuting officer, or an officer or employee of the State Licensing Authority or a local licensing authority; and

10. The Applicant has not been a State Licensing Authority employee with regulatory oversight responsibilities for occupational licensees, Medical Marijuana Businesses and/or Retail Marijuana Establishments licensed by the State Licensing Authority in the six months immediately preceding the date of the Applicant’s application.

F. Current Medical Marijuana Occupational Licensees.

1. An individual who holds a current, valid Occupational License issued pursuant to the Medical Code may also work in a Retail Marijuana Establishment; no separate Occupational License is required.

2. An individual who holds a current, valid Occupational License issued pursuant to the Retail Code after July 1, 2015 may also work in a Medical Marijuana Business; no separate Occupational License is required.

G. Associated Key License Privileges. A person who holds an Associated Key License must associate that license separately with each Medical Marijuana Business or Retail Marijuana Establishment with which the person is associated by submitting a form approved by the Division. A person who holds an Associated Key License may exercise the privileges of a licensed employee in any licensed Medical Marijuana Business or Retail Marijuana Establishment in which they are not an owner so long as the person does not exercise privileges of ownership.

H. Qualified Limited Passive Investor. An Applicant who wishes to be a Qualified Limited Passive Investor and hold an interest in a Medical Marijuana Business as a Direct Beneficial Interest Owner must establish that he or she meets the following criteria before the ownership interest will be approved:

1. He or she is a natural person;

2. The Applicant qualifies under Rule M 231.2(B);

3. He or she has been a United States citizen since a date prior to the date of the application, and

4. He or she has signed an affirmation of passive investment.

I. Workforce Training or Development Residency Exempt License. An Applicant who wishes to obtain a workforce development or training exemption to the license residency requirement may only apply for a Support License or Key License and must:

1. Submit a complete application on the Division's approved forms;

2. Establish he or she meets the licensing criteria of Rule M 231(E)(1)-(3) and 231(E)(5)-(10) for Occupational Licensees;

3. Provide evidence of proof of lawful presence; and

4. Provide a complete Workforce Training or Development Affirmation form executed under penalty of perjury.

Basis and Purpose – M 231.1

The statutory authority for this rule includes but is not limited to sections 12-43.3-201(4), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-310(4), 12-43.3-310(7), and 24-18-105(3), and sections 12-43.3-104(1), 12-43.3-104(12.4), 12-43.3-307, 12-43.3-307.5, 12-43.3-313, 12-43.3-401, and 24-76.5-101 et. seq,, C.R.S. The purpose of this rule is to clarify the qualifications for Direct Beneficial Interest Owners.

M 231.1 – Finding of Suitability, Residency and Reporting Requirements for Direct Beneficial Interest Owners

A. Finding of Suitability – Non-Resident Direct Beneficial Interest Owners. A natural person, owner, shareholder, director, officer, member or partner of an entity that intends to apply to become a Direct Beneficial Interest Owner who has not been a resident of Colorado for at least one year prior to the application shall first submit a request to the State Licensing Authority for a finding of suitability to become a Direct Beneficial Interest Owner as follows:

1. A request for a finding of suitability for a non-resident natural person shall be submitted on the forms prescribed by the State Licensing Authority.

2. A natural person or all owners, shareholders, directors, officers, members or partners of an entity who have not been a resident of Colorado for at least one year shall obtain a finding of suitability prior to submitting an application to become a Direct Beneficial Interest Owner to the State Licensing Authority. d.

3. A finding of suitability is valid for one year from the date it is issued by the Division. If more than one year has passed since the Division issued a finding of suitability to a natural person, owner, shareholder, director, officer, member, or partner of an entity that intends to apply to become a Direct Beneficial Interest Owner who has not been a resident of Colorado for at least one year prior to the application, then such applicant shall submit a new request for a finding of suitability to the State Licensing Authority and obtain a new finding of suitability before submitting any application to become a Direct Beneficial Interest Owner to the State Licensing Authority. All recipients of a finding of suitability shall disclose in writing to the Division any and all disqualifying events within 10 days after occurrence of the event that could lead to a finding that the recipient no longer qualifies to become a Direct Beneficial Interest Owner.

4. The failure of a non-Colorado resident, who is not already a Direct Beneficial Interest Owner, to obtain a finding of suitability within the year prior to submission of an application to become a Direct Beneficial Interest Owner to the State Licensing Authority shall be grounds for denial of the application.

B. Number of Permitted Direct Beneficial Interest Owners.

1. A Medical Marijuana Business may be comprised of an unlimited number of Direct Beneficial Interest Owners that have been residents of Colorado for at least one year prior to the date of the application.

2. On and after January 1, 2017, a Medical Marijuana Business that is comprised of one or more Direct Beneficial Interest Owners who have not been Colorado residents for at least one year is limited to no more than fifteen Direct Beneficial Interest Owners, each of whom is a natural person. Further, a Medical Marijuana Business that is comprised of one or more Direct Beneficial Interest Owners who have not been Colorado residents for at least one year shall have at least one officer who is a Colorado resident. All officers with day-to-day operational control over a Medical Marijuana Business must be Colorado residents for at least one year, must maintain their Colorado residency during the period while they have day-to-day operational control over the Medical Marijuana Business and shall be licensed as required by the Medical Code. Rule 231 – Qualifications for Licensure and Residency: Individuals.

C. Notification of Change of Residency. A Medical Marijuana Establishment with more than fifteen Direct Beneficial Interest Owners shall provide thirty days prior notice to the Division of any Direct Beneficial Interest Owners' intent to change their residency to a residency outside Colorado. A Medical Marijuana Business with no more than fifteen Direct Beneficial Interest Owners shall notify the Division of the change of residency of any Direct Beneficial Interest Owner at the time of its license renewal. Failure to provide timely notice pursuant to this rule may lead to

administrative action against the Medical Marijuana Business and its Direct Beneficial Interest Owners.

D. A Direct Beneficial Interest Owner shall not be a publicly traded company.

Basis and Purpose – M 231.2

The statutory authority for this rule includes but is not limited to sections 12-43.3-104(1.7), 12-43.3-104(12.4), 12-43.3-201(4), 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXI), 12-43.3-307.5, 24-18-105(3), and 24-76.5-101 et. seq., C.R.S. The purpose of this rule is to clarify the qualifications for an Indirect Beneficial Interest Owner other than a Permitted Economic Interest.

M 231.2 – Qualifications for Indirect Beneficial Interest Owners and Qualified Limited Passive Investors

A. General Requirements

1. An Applicant applying to become a Commercially Reasonable Royalty Interest holder who receives a royalty of more than 30 percent or the holder of a Permitted Economic Interest must be pre-approved by the Division.

2. An Applicant applying to become an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor shall submit information to the Division in a full, faithful, truthful, and fair manner. The Division may recommend denial of an application where the Applicant made misstatements, omissions, misrepresentations, or untruths in the application. This type of conduct may be considered as the basis of additional administrative action against the Applicant and the Medical Marijuana Business.

3. The Division may deny the application when the Applicant fails to provide any requested information by the Division's deadline.

4. The Division's determination that an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor is qualified constitutes a revocable privilege held by the Medical Marijuana Business. The burden of proving the Indirect Beneficial Interest Owner or Qualified Limited Passive Investor is qualified rests at all times with the Medical Marijuana Business Applicant. Indirect Beneficial Interest Owners and Qualified Limited Passive Investors are not separately licensed by the Division. Any administrative action regarding an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor may be taken directly against the Medical Marijuana Business.

5. Permitted Economic Interest Fingerprints Required. Any individual applying to hold his or her first Permitted Economic Interest shall be fingerprinted for a criminal history record check. In the Division's discretion, an individual may be required to be fingerprinted again for additional criminal history record checks.

6. No publicly traded company can be an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor.

B. Qualification. The Division may consider the following non-exhaustive list of factors to determine whether an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor is qualified:

1. The Applicant's criminal history indicates that he or she is of Good Moral Character;

2. The Applicant is at least 21 years of age;

3. The Applicant has paid all taxes, interest, or penalties due the Department of Revenue relating to a Medical Marijuana Business or Retail Marijuana Establishment, if applicable;

4. The Applicant is not currently subject to and has not discharged a sentence for a conviction of a felony in the five years immediately preceding his or her application date;

5. The Applicant is not currently subject to or has not discharged a sentence for a conviction of a felony pursuant to any state or federal law regarding the possession, distribution, manufacturing, cultivation, or use of a controlled substance in the ten years immediately preceding his or her application date or five years from May 28, 2013, whichever is longer, except, in the Division's discretion, a state felony conviction based on possession or use of marijuana or marijuana concentrate that would not be a felony if the Person were convicted of the offense on the date he or she applied may not disqualify an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor;

6. The Applicant is not a sheriff, deputy sheriff, police officer, or prosecuting officer, or an officer or employee of the State Licensing Authority or a local licensing authority;

7. The Applicant has not been a State Licensing Authority employee with regulatory oversight responsibilities for individuals, Medical Marijuana Businesses and/or Retail Marijuana Establishments licensed by the State Licensing Authority in the six months immediately preceding the date of the Applicant's application.

8. The Applicant has provided all documentation requested by the Division to establish qualification to be an Indirect Beneficial Interest Owner.

C. Maintaining Qualification:

1. An Indirect Beneficial Interest Owner or Qualified Limited Passive Investor shall notify the Division in writing of any felony criminal charge and felony conviction against such person within ten days of such person's arrest or felony summons, and within ten days of the disposition of any arrest or summons. Failure to make proper notification to the Division may be grounds for disciplinary action. This duty to report includes, but is not limited to, deferred sentences, prosecutions, or judgments that are not sealed. If the Division lawfully finds a disqualifying event and the individual asserts that the record was sealed, the Division may require the individual to provide proof from a court evidencing the sealing of the case

2. An Indirect Beneficial Interest Owner, Qualified Limited Passive Investor and Medical Marijuana Business shall cooperate in any investigation into whether an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor continues to be qualified that may be conducted by the Division.

D. Divestiture of Indirect Beneficial Interest Owner or Qualified Limited Passive Investor. If the Division determines an Indirect Beneficial Interest Owner or Qualified Limited Passive Investor is not permitted to hold their interest, the Medical Marijuana Business shall have 60 days from such determination to divest the Indirect Beneficial Interest Owner or Qualified Limited Passive Investor. The Division may extend the 60-day deadline for good cause shown. Failure to timely divest any Indirect Beneficial Interest Owner or Qualified Limited Passive Investor the Division determines is not qualified, or is no longer qualified, may constitute grounds for denial of license or administrative action against the Medical Marijuana Business and/or its Associated Key Licensee(s).

M 300 Series – The Licensed Premises

Basis and Purpose – M 301

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(X), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XX), and 12-43.3-105, C.R.S. The purpose of this rule is to establish regulations governing Limited Access Areas for inside a Licensed Premises. In addition, this rule clarifies that businesses and individuals cannot use the visitor system as a means to employ an individual who does not possess a valid and current Occupational License.

M 301 – Limited Access Areas

A. Proper Display of License Badge. All persons in a Limited Access Area as provided for in section 12-43.3-105, C.R.S., shall be required to hold and properly display a current license badge issued by the Division at all times. Proper display of the license badge shall consist of wearing the badge in a plainly visible manner, at or above the waist, and with the photo of the Licensee visible. The Licensee shall not alter, obscure, damage, or deface the badge in any manner.

B. Visitors in Limited Access Areas

1. Prior to entering a Limited Access Area, all visitors, including outside vendors, contractors or others, must obtain a visitor identification badge from management personnel of the Licensee that shall remain visible while in the Limited Access Area.

2. Visitors shall be escorted by the Medical Marijuana Business's licensed personnel at all times. No more than five visitors may be escorted by a single employee. Except that trade craftspeople not normally engaged in the business of cultivating, processing or selling Medical Marijuana need not be accompanied on a full-time basis, but only reasonably monitored.

2.1 A Medical Marijuana Business and a Licensee employed by the Medical Marijuana Business shall report any discovered plan of or other act or omission by any visitor or other Person: (1) to commit theft, burglary, underage sales, diversion of Medical Marijuana or Medical Marijuana Infused-Product, or other crime related to the operation of the subject Medical Marijuana Business; (2) to compromise the integrity of the Inventory Tracking System; or (3) that results in serious bodily injury to any Person on the Licensed Premises of the Medical Marijuana Business or otherwise creates a material risk to public health or safety Such discovered plan or other act or omission shall be reported to the Division in accordance with Rule M 904 – Medical Marijuana Business Reporting Requirements.

3. The Licensee shall maintain a log of all visitor activity, for any purpose, within the Limited Access Area and shall make such logs available for inspection by the Division or relevant local licensing authority.

4. All visitors admitted into a Limited Access Area must provide acceptable proof of age and must be at least 21 years of age. See Rule M 405 – Acceptable Forms of Identification for Medical Sales.

5. The Licensee shall check an acceptable form of identification for all visitors to verify that the name on the identification matches the name in the visitor log. See Rule M 405 – Acceptable Forms of Identification for Medical Sales

6. A Licensee may not receive consideration or compensation for permitting a visitor to enter a Limited Access Area.

7. Use of a visitor badge to circumvent the Occupational License requirements of Rule M 233 is prohibited and may constitute a license violation affecting public safety.

C. Required Signage. All areas of ingress and egress to Limited Access Areas on the Licensed Premises shall be clearly identified by the posting of a sign which shall be not less than 12 inches wide and 12 inches long, composed of letters not less than a half inch in height, which shall state, "Do Not Enter - Limited Access Area – Access Limited to Licensed Personnel and Escorted Visitors".

D. Diagram for Licensing Licensed Premises. All Limited Access Areas shall be clearly identified to the Division or relevant local licensing authority and described by the filing of a diagram of the Licensed Premises reflecting walls, partitions, counters and all areas of ingress and egress. The diagram shall also reflect all Propagation, cultivation, manufacturing, and Restricted Access Areas. See Rule M 901 – Business Records Required.

E. Modification of a Limited Access Area. A Licensee's proposed modification of designated Limited Access Areas shall be approved by Division or local licensing authorities. See Rule M 303 – Changing, Altering, or Modifying Licensed Premises.

F. Law Enforcement Personnel Authorized. Notwithstanding the requirements of subsection A of this Rule, nothing shall prohibit investigators and employees of the Division, authorities from local licensing authority or any state or local law enforcement agency, for a purpose authorized by the Medical Code or for any other state or local law enforcement purpose, from entering a Limited Access Area upon presentation of official credentials identifying them as such.

Basis and Purpose – M 302

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), and 12-43.3-308(1)(b), C.R.S. The purpose of this rule is to establish and clarify the means by which the Licensee can establish lawful possession of the Licensed Premises.

M 302 – Possession of Licensed Premises

A. Evidence of Lawful Possession. Persons licensed pursuant to sections 12-43.3-402, 12-43.3-403, 12-43.3-404, 12-43.3-405, 12-43.3-406, 12-43.3-407, or 12-43.3-408, C.R.S., or those making application for such licenses, must demonstrate proof of lawful possession of the premises to be licensed or Licensed Premises. Evidence of lawful possession consists of properly executed deeds of trust, leases, or other written documents acceptable to the State Licensing Authority and local licensing authorities.

B. Relocation Prohibited. The Licensed Premises shall only be those geographical areas that are specifically and accurately described in executed documents verifying lawful possession. Licensees are not authorized to relocate to other areas or units within a building structure without first filing a change of location application and obtaining approval from the Division and the local licensing authority. Licensees shall not add additional contiguous units or areas, thereby altering the initially-approved premises, without filing an Application to modify the Licensed Premises on current forms prepared by the Division, including any applicable processing fee. See Rule M 303 - Changing, Altering, or Modifying Licensed Premises.

C. Subletting Not Authorized. Licensees are not authorized to sublet any portion of a Licensed Premises for any purpose, unless all necessary applications to modify the existing Licensed Premises to accomplish any subletting have been approved by the Division and local licensing authority.

M 304 – Repealed.

Basis and Purpose – M 304.1

The statutory authority for this Rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(X), 12-43.3-202(2.5)(a)(I)(A)-(F), 12-43.4-104(1)(a)(V), 12-43.4-202(b), 12-43.4-401(2), 12-43.4-404(2), 12-43.3-406, 12-43.4-405, and 12-43.4-406, C.R.S.. The purpose of this rule is to establish guidelines for the manner in which a Medical Marijuana Business may share its existing Licensed Premises with a Licensed Retail Marijuana Establishment, and to ensure the proper separation of a Medical Marijuana Business operation from a Retail Marijuana Establishment operation.

M 304.1 – Medical Marijuana Business and Retail Marijuana Establishment – Shared Licensed Premises and Operational Separation

A. Co-Located Medical Marijuana Centers and Retail Marijuana Stores.

1. Medical Marijuana Center that authorizes patients that are over the age of 21. A Medical Marijuana Center that authorizes only Medical Marijuana patients who are over the age of 21 years to be on the Licensed Premises may also hold a Retail Marijuana Store license and operate at the same location under the following circumstances:

    a. The relevant local licensing authority and local jurisdiction permit a dual operation at the same location;

    b. The Medical Marijuana Center and Retail Marijuana Store are commonly owned;

    c. The Medical Marijuana Center and Retail Marijuana Store shall maintain physical or virtual separation between (i) Medical Marijuana, Medical Marijuana Concentrate, Medical Marijuana-Infused Product, and other Medical Marijuana-related inventory and (ii) Retail Marijuana, Retail Marijuana Concentrate, Retail Marijuana Products, and other Retail Marijuana-related inventory;

    d. The Medical Marijuana Center and Retail Marijuana Store shall maintain separate displays between (i) Medical Marijuana, Medical Marijuana Concentrate, Medical Marijuana-Infused Product, and other Medical Marijuana-related inventory and (ii) Retail Marijuana, Retail Marijuana Concentrate, Retail Marijuana Products, and other Retail Marijuana-related inventory;

    e. Record-keeping, inventory tracking, packaging, and labeling for the Medical Marijuana Center and Retail Marijuana Store shall enable the Division and local licensing authority to clearly distinguish the inventories and business transactions of the Medical Marijuana Center from the inventories and business transactions of the Retail Marijuana Store; and

    f. The Medical Marijuana Center shall post and maintain signage the clearly conveys that persons under the age of 21 years may not enter.

2. Medical Marijuana Center that authorizes patients under the age of 21. A Medical Marijuana Center that authorizes Medical Marijuana Patients under the age of 21 years to be on the premises may operate in the same location with a Retail Marijuana Store under the following circumstances:

    a. The relevant local licensing authority and local jurisdiction permit a dual operation at the same location;

b. The Medical Marijuana Center and Retail Marijuana Store are commonly owned;

c. The Medical Marijuana Center and the Retail Marijuana Store maintain physical separation, including separate entrances and exits, between their respective Restricted Access Areas;

d. No point of sale operations occur at any time outside the physically separated Licensed Premises;

e. All Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product in a Restricted Access Area must be physically separated from all Retail Marijuana, Retail Marijuana Concentrate, and Retail Marijuana Product in a Restricted Access Area, and such physical separation must include separate entrances and exits;

f. Any display areas shall be located in the physically separated Restricted Access Areas;

g. In addition to the physically separated sales and display areas, the Medical Marijuana Center and Retail Marijuana Store shall maintain physical or virtual separation for storage of Medical Marijuana, Medical Marijuana Concentrate, Medical Marijuana-Infused Product and other Medical Marijuana-related inventory from storage of Retail Marijuana, Retail Marijuana Concentrate, Retail Marijuana Products and other Retail Marijuana-related inventory; and

h. Record-keeping, inventory tracking, packaging, and labeling for the Medical Marijuana Center and Retail Marijuana Store shall enable the Division and local licensing authority to clearly distinguish the inventories and business transactions of the Medical Marijuana Center from the inventories and business transactions of the Retail Marijuana Store.

B. Co-located Optional Premises Cultivation Operation and Retail Marijuana Cultivation Facility. An Optional Premises Cultivation Operation and a Retail Marijuana Cultivation Facility may share a single Licensed Premises and operate at the same location under the following circumstances:

1. The relevant local licensing authority and local jurisdiction permit a dual operation at the same location;

2. The Optional Premises Cultivation Operation and the Retail Marijuana Cultivation Facility are commonly owned;

3. The co-located Optional Premises Cultivation Operation and Retail Marijuana Cultivation Facility shall maintain either physical or virtual separation between (i) Medical Marijuana and Medical Marijuana Concentrate and (ii) and Retail Marijuana and Retail Marijuana Concentrate; and

4. Record keeping, inventory tracking, packaging and labeling for the Optional Premises Cultivation Operation and Retail Marijuana Cultivation Facility must enable the Division and relevant local licensing authority to clearly distinguish the inventories and business transactions of the Optional Premises Cultivation Operation from the Retail Marijuana Cultivation Facility.

C. Co-located Medical Marijuana-Infused Products Manufacturer and Retail Marijuana Products Manufacturing Facility. A Medical Marijuana-Infused Products Manufacturer and a Retail

Marijuana Products Manufacturing Facility may share a single Licensed Premises and operate at the same location under the following circumstances:

1. The relevant local licensing authority and local jurisdiction permit a dual operation at the same location;

2. The Medical Marijuana-Infused Products Manufacturer and the Retail Marijuana Products Manufacturing Facility are commonly owned;

3. The Medical Marijuana-Infused Products Manufacturer and Retail Marijuana Products Manufacturing Facility shall maintain either physical or virtual separation between (i) Medical Marijuana, Medical Marijuana Concentrate, Medical Marijuana-Infused Products and other Medical Marijuana-related inventory and (ii) Retail Marijuana, Retail Marijuana Concentrate, Retail Marijuana Products and other Retail Marijuana-related inventory. Nothing in this Rule prohibits a co-located Retail Marijuana Products Manufacturing Facility and Medical Marijuana-Infused Products Manufacturer from sharing raw ingredients in bulk, for example flour or sugar, except Retail Marijuana and Medical Marijuana may not be shared under any circumstances; and

4. Record keeping, inventory tracking, packaging and labeling for the Medical Marijuana-Infused Products Manufacturer and Retail Marijuana Products Manufacturing Facility must enable the Division and local licensing authority to clearly distinguish the inventories and business transactions of the Medical Marijuana-Infused Product Manufacturer from the Retail Marijuana Product Manufacturing Facility.

D. Co-located Medical Marijuana Testing Facility and Retail Marijuana Testing Facility. A Medical Marijuana Testing Facility and a Retail Marijuana Testing Facility may share a single Licensed Premises and operate at the same location under the following circumstances:

1. The relevant local licensing authority and local licensing jurisdiction permit dual operation at the same location;

2. The Medical Marijuana Testing Facility and Retail Marijuana Testing Facility are identically owned;

3. The Medical Marijuana Testing Facility and Retail Marijuana Testing Facility shall maintain either physical or virtual separation between (i) Medical Marijuana, Medical Marijuana Concentrate, Medical Marijuana-Infused Product and other Medical Marijuana-related inventory and (ii) Retail Marijuana, Retail Marijuana Concentrate, Retail Marijuana Products and other Retail Marijuana-related inventory; and

4. Record keeping, inventory tracking, packaging and labeling for the Medical Marijuana Testing Facility and Retail Marijuana Testing Facility must enable the Division and local licensing authority to clearly distinguish the inventories and business transactions of the Medical Marijuana Testing Facility from the Retail Marijuana Testing Facility.

E. Co-Located Medical Marijuana Transporter and Retail Marijuana Transporter. A Medical Marijuana Transporter and a Retail Marijuana Transporter may share a single Licensed Premises and operate dual transporting, logistics, and temporary storage business operation at the same location under the following circumstances:

1. The relevant local licensing authority and local licensing jurisdiction permit dual operation at the same location;

2. The Medical Marijuana Transporter and Retail Marijuana Transporter are identically owned;

3. The Medical Marijuana Transporter and Retail Marijuana Transporter shall maintain either physical or virtual separation between (i) Medical Marijuana, Medical Marijuana Concentrate, Medical Marijuana-Infused Products, and other Medical Marijuana-related inventory and (ii) Retail Marijuana, Retail Marijuana Concentrate, Retail Marijuana Products and other Retail Marijuana-related inventory; and

4. Record keeping, inventory tracking, packaging and labeling for the Medical Marijuana Transporter and Retail Marijuana Transporter must enable the Division and local licensing authority to clearly distinguish the inventories and business transactions of the Medical Marijuana Transporter from the Retail Marijuana Transporter.

F. Violation of this Rule may be considered a violation affecting public safety.

Basis and Purpose – M 305

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(X), and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to ensure adequate control of the Licensed Premises and the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product contained therein. This rule also establishes the minimum guidelines for security requirements for alarm systems, and commercial locking mechanisms for maintaining adequate security.

M 305 – Security Alarm Systems and Lock Standards

A. Security Alarm Systems – Minimum Requirements

1. Each Licensed Premises shall have a Security Alarm System, installed by an Alarm Installation Company, on all perimeter entry points and perimeter windows.

2. Each Licensee must ensure that all of its Licensed Premises are continuously monitored. Licensees may engage the services of a Monitoring Company to fulfill this requirement.

3. The Licensees shall maintain up to date and current records and existing contracts on the Licensed Premises that describe the location and operation of each Security Alarm System, a schematic of security zones, the name of the Alarm Installation Company, and the name of any Monitoring Company. See Rule M 901 – Business Records Required.

4. Upon request, Licensees shall make available to agents of the Division or relevant local licensing authority or other state or local law enforcement agency, for a purpose authorized by the Medical Code or any other state or local law enforcement purpose, all information related to Security Alarm Systems, Monitoring, and alarm activity.

5. Any outdoor or greenhouse Optional Premises Cultivation Operation, or outdoor or greenhouse Marijuana Research and Development Cultivation, is a Limited Access Area and must meet all of the requirements for Security Alarm Systems described in this rule. An outdoor or greenhouse Optional Premises Cultivation Operation or outdoor or greenhouse Marijuana Research and Development Cultivation must provide sufficient security measures to demonstrate that outdoor or greenhouse areas are not readily accessible by unauthorized individuals. It shall be the responsibility of the Licensee to maintain physical security in a manner similar to an Optional Premises Cultivation Operation or Marijuana Research and Development Cultivation located in an indoor Licensed Premises so it can be fully secured and alarmed. The fencing requirements

shall, at a minimum, include, perimeter fencing designed to prevent the general public from entering the Limited Access Areas and shall meet at the least the following requirements:

a. The entire Limited Access Area shall be surrounded by a fence that measures at least eight feet from the ground to the top of the fence and is constructed of at least six gauge or higher metal chain link fence or another similarly secure material but may not be wood. All support posts shall be steel and securely anchored.

b. All entry gates shall measure at least eight feet from the ground to the top of the entry gate and shall be constructed of six gauge or higher metal chain link fence or a similarly secure material but may not be wood.

c. The fence shall obscure the Limited Access Area so that it is not easily viewed from outside the fence.

d. The perimeter of the fence shall be surrounded with lights illuminating all sides of the fence for at least 20 feet from the fence. The required lights may be, but are not required to be, motion sensing.

e. A Licensee may, in writing, request that the Division waive one or more of the security requirements described in subparagraphs (a) through (d) of this Rule, by submitting on a form prescribed by the Division a security waiver request for Division approval. The Division may, in its discretion and on a case by case basis, approve the security waiver if it finds that the alternative safeguard proposed by the Licensee meets the goals of the above security requirements. Approved security waivers expire at the same time as the underlying License. The Licensee's request for a waiver shall include:

   i. The specific rules and subsections of a rule that is requested to be waived;

   ii. The reason for the waiver;

   iii. A description of an alternative safeguard the Licensee will implement in lieu of the requirement that is the subject of the waiver; and

   iv. An explanation of how and why the alternative safeguard accomplishes the goals of the security rules, specifically public safety, prevention of diversion, accountability, and prohibiting access to minors.

f. During the period January 1, 2018, to January 1, 2019, a Licensee that is currently in compliance with the Security Alarm Systems requirements will not be required to comply with this revised Rule M 305. Compliance with this revised Rule M 305 shall be required effective January 1, 2019.

B. Lock Standards – Minimum Requirement

1. At all points of ingress and egress, the Licensee shall ensure the use of a commercial-grade, non-residential door locks.

2. Any outdoor or greenhouse Optional Premises Cultivation Operation, or outdoor or greenhouse Marijuana Research and Development Cultivation, must meet all of the requirements for the lock standards described in this rule.

Basis and Purpose – M 306

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(X), 12-43.3-202(2)(a)(XV), and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to ensure adequate control of the Licensed Premises and the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product contained therein. This rule also establishes the minimum guidelines for security requirements for video surveillance systems for maintaining adequate security.

M 306 – Video Surveillance

A. Minimum Requirements The following video surveillance requirements shall apply to all Medical Marijuana Businesses:

1. Prior to exercising the privileges of a Medical Marijuana Business, an Applicant must install fully operational video surveillance and camera recording system. The recording system must record in digital format and meet the requirements outlined in this rule.

2. All video surveillance records and recordings must be stored in a secure area that is only accessible to a Licensee's management staff.

3. Video surveillance records and recordings must be made available upon request to the Division, the relevant local licensing authority, or any other state or local law enforcement agency for a purpose authorized by the Medical Code or for any other state or local law enforcement purpose.

4. Video surveillance records and recordings of point-of-sale areas shall be held in confidence by all employees and representatives of the Division, except that the Division may provide such records and recordings to the relevant local licensing authority, or any other state or local law enforcement agency for a purpose authorized by the Medical Code or for any other state or local law enforcement purpose.

B. Video Surveillance Equipment

1. Video surveillance equipment shall, at a minimum, consist of digital or network video recorders, cameras capable of meeting the recording requirements described in this Rule, video monitors, digital archiving devices, and a color printer capable of delivering still photos.

2. All video surveillance systems must be equipped with a failure notification system that provides prompt notification to the Licensee of any prolonged surveillance interruption and/or the complete failure of the surveillance system.

3. Licensees are responsible for ensuring that all surveillance equipment is properly functioning and maintained so that the playback quality is suitable for viewing and the surveillance equipment is capturing the identity of all individuals and activities in the monitored areas.

4. All video surveillance equipment shall have sufficient battery backup to support a minimum of four hours of recording in the event of a power outage.

C. Placement of Cameras and Required Camera Coverage

1. Camera coverage is required for all Limited Access Areas, point-of-sale areas, security rooms, all points of ingress and egress to Limited Access Areas, all areas where Medical

Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product is displayed for sale, and all points of ingress/egress to the exterior of the Licensed Premises.

2. Camera placement shall be capable of identifying activity occurring within 20 feet of all points of ingress and egress and shall allow for the clear and certain identification of any individual and activities on the Licensed Premises.

3. At each point-of-sale location, camera coverage must enable recording of the patients, caregiver or customer(s) and employee(s) facial features with sufficient clarity to determine identity.

4. All entrances and exits to the facility shall be recorded from both indoor and outdoor vantage points.

5. The system shall be capable of recording all pre-determined surveillance areas in any lighting conditions. If the Licensed Premises has a Medical Marijuana cultivation area, a rotating schedule of lighted conditions and zero-illumination can occur as long as ingress and egress points to Flowering areas remain constantly illuminated for recording purposes.

6. Areas where Medical Marijuana is grown, tested, cured, manufactured, researched, or stored shall have camera placement in the room facing the primary entry door at a height which will provide a clear unobstructed view of activity without sight blockage from lighting hoods, fixtures, or other equipment.

7. Cameras shall also be placed at each location where weighing, packaging, transport, preparation, or tagging activities occur.

8. At least one camera must be dedicated to record the access points to the secured surveillance recording area.

9. All outdoor cultivation areas must meet the same video surveillance requirements applicable to any other indoor Limited Access Areas.

D. Location and Maintenance of Surveillance Equipment

1. The surveillance room or surveillance area shall be a Limited Access Area.

2. Surveillance recording equipment must be housed in a designated, locked and secured room or other enclosure with access limited to authorized employees, agents of the Division and relevant local licensing authority, state or local law enforcement agencies for a purpose authorized by the Medical Code or for any other state or local law enforcement purpose, and service personnel or contractors.

3. Licensees must keep a current list of all authorized employees and service Personnel who have access to the surveillance system and/or room on the Licensed Premises. Licensees must keep a surveillance equipment maintenance activity log on the Licensed Premises to record all service activity including the identity of the individual(s) performing the service, the service date and time and the reason for service to the surveillance system.

4. Off-site Monitoring and video recording storage of the Licensed Premises by the Licensee or an independent third-party is authorized as long as standards exercised at the remote location meets or exceeds all standards for on-site Monitoring.

5. Each Medical Marijuana Licensed Premises located in a common or shared building must have a separate surveillance room/area that is dedicated to that specific Licensed Premises. Commonly-owned Medical Marijuana Businesses located in the same local jurisdiction may have one central surveillance room located at one of the commonly owned Licensed Premises which simultaneously serves all of the commonly-owned Medical Marijuana Businesses. The facility that does not house the central surveillance room is required to have a review station, printer, and map of camera placement on the premises. All minimum requirements for equipment and security standards as set forth in the section apply to the review station.

6. A co-located Medical Marijuana Business and a Retail Marijuana Establishment may have one central surveillance room located at the shared Licensed Premises. See Rule M 304 – Medical Marijuana Business and Retail Marijuana Establishment: Shared Licensed Premises and Operational Separation.

E. Video Recording and Retention Requirements

1. All camera views of all Limited Access Areas must be continuously recorded 24 hours a day. The use of motion detection is authorized when a Licensee can demonstrate that monitored activities are adequately recorded.

2. All surveillance recordings must be kept for a minimum of 40 days and be in a format that can be easily accessed for viewing. Video recordings must be archived in a format that ensures authentication of the recording as legitimately-captured video and guarantees that no alteration of the recorded image has taken place.

3. The Licensee's surveillance system or equipment must have the capabilities to produce a color still photograph from any camera image, live or recorded, of the Licensed Premises.

4. The date and time must be embedded on all surveillance recordings without significantly obscuring the picture. The date and time must be synchronized with any point-of-sale system.

5. Time is to be measured in accordance with the official United States time established by the National Institute of Standards and Technology and the U.S. Naval Observatory at: http://www.time.gov/timezone.cgi?Mountain/d/-7/java.

6. After the 40-day surveillance video retention schedule has lapsed, surveillance video recordings must be erased or destroyed prior to sale or transfer of the facility or business to another Licensee, or being discarded or disposed of for any other purpose. Surveillance video recordings may not be destroyed if the Licensee knows or should have known of a pending criminal, civil or administrative investigation or any other proceeding for which the recording may contain relevant information.

F. Other Records

1. All records applicable to the surveillance system shall be maintained on the Licensed Premises. At a minimum, Licensees shall maintain a map of the camera locations, direction of coverage, camera numbers, surveillance equipment maintenance activity log, user authorization list and operating instructions for the surveillance equipment.

2. A chronological point-of-sale transaction log must be made available to be used in conjunction with recorded video of those transactions.

Basis and Purpose – M 307

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XV), and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to establish sanitary requirements for Medical Marijuana Businesses.

M 307 – Waste Disposal

A. All Applicable Laws Apply. Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste must be stored, secured and managed in accordance with all applicable state and local statutes, regulations, ordinances or other requirements.

B. Liquid Waste. Liquid waste from Medical Marijuana Businesses shall be disposed of in compliance all applicable federal, state and local laws, regulations, rules and other requirements.

C. Chemical, Dangerous and Hazardous Waste. Disposal of chemical, dangerous or hazardous waste must be conducted in a manner consistent with federal, state and local laws, regulations, rules or other requirements. This may include, but is not limited to, the disposal of all Pesticide or other chemicals used in the cultivation process, certain solvents or other chemicals used in the production of Medical Marijuana Concentrate or any Medical Marijuana soaked in a Flammable Solvent for purposes of producing a Medical Marijuana Concentrate.

D. Waste Must Be Made Unusable and Unrecognizable. Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste must be made unusable and Unrecognizable prior to leaving the Licensed Premises.

E. Methods to Make Waste Unusable and Unrecognizable. Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste shall be rendered unusable and Unrecognizable through one of the following methods:

1. Grinding or compacting and incorporating the marijuana waste with non-consumable, solid wastes listed below such that the resulting mixture is at least 50 percent non-marijuana waste, and such that the resulting mixture cannot easily be separated and sorted:

    a. Paper waste;

    b. Plastic waste;

    c. Cardboard waste;

    d. Food waste;

    e. Grease or other compostable oil waste;

    f. Bokashi, or other compost activators;

    g. Soil;

    h. Sawdust; and

    i. Other wastes approved by the State Licensing Authority that will render the Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste unusable and Unrecognizable as marijuana.

F. After Waste is Made Unusable and Unrecognizable. After the Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste is made unusable and Unrecognizable, then the rendered waste shall be:

1. Disposed of at a solid waste site and disposal facility that has a Certificate of Designation from the local governing body;

2. Deposited at a compost facility that has a Certificate of Designation from the Colorado Department of Public Health and Environment, if required; or

3. Composted on-site at a facility owned by the generator of the waste and operated in compliance with the Colorado Department of Public Health and Environment Regulations Pertaining to Solid Waste Sites and Facilities (6 CCR 1007-2, Part 1).

G. Proper Disposal of Waste. A Licensee shall not dispose of Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste in an unsecured waste receptacle not in possession and control of the Licensee.

H. Inventory Tracking Requirements

1. In addition to all other tracking requirements set forth in these rules, a Licensee shall utilize the Inventory Tracking System to ensure its post-harvest waste materials are identified, weighed and tracked while on the Licensed Premises until disposed of.

2. All Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product waste must be weighed before leaving any Medical Marijuana Business. A scale used to weigh Medical Marijuana waste prior to entry into the Inventory Tracking System shall be tested and approved in accordance with section 35-14-127, C.R.S. *See* Rule M 309 – Medical Marijuana Business: Inventory Tracking System.

3. A Licensee is required to maintain accurate and comprehensive records regarding waste material that accounts for, reconciles, and evidences all waste activity related to the disposal of Marijuana. *See* Rule M 901 – Business Records Required.

4. A Licensee is required to maintain accurate and comprehensive records regarding any waste material produced through the trimming or pruning of a Medical Marijuana plant prior to harvest, which must include weighing and documenting all waste. Unless required by an Inventory Tracking System procedure, records of waste produced prior to harvest must be maintained on the Licensed Premises. All waste, whether produced prior to or subsequent to harvest, must be disposed of in accordance with this Rule and be made unusable and Unrecognizable.

Basis and Purpose – M 309

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), 12-43.3-403(2), and 12-43.4-104(1)(a)(III) C.R.S. The purpose of this rule is to establish a system that will allow the State Licensing Authority and the industry to jointly track Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product from either seed or immature plant stage until the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product is sold to the patient or destroyed.

The Inventory Tracking System is a web-based tool coupled with RFID technology that allows both the Inventory Tracking System User and the State Licensing Authority the ability to identify and account for all Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. Through the use of RFID technology, an Optional Premises Cultivation facility will tag either the seed or immature

plant with an individualized number which will follow the Medical Marijuana through all phases of production and final sale to a patient. This will allow the State Licensing Authority and the Inventory Tracking System user the ability to monitor and track Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. The Inventory Tracking System will also provide a platform for the State Licensing Authority to exchange information and provide compliance notifications to the industry.

The State Licensing Authority finds it essential to regulate, monitor, and track all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product to eliminate diversion, inside and outside of the state, and to ensure that all marijuana grown, processed, sold and disposed of in the Medical Marijuana market is transparently accounted for. An existing Medical Marijuana Business must have an active and functional Inventory Tracking System account on or before December 31, 2013 or it may not excise the privileges of its license.

The State Licensing Authority will engage the industry and provide training opportunities and continue to evaluate the Inventory Tracking System to promote an effective means for this industry to account for and monitor its Medical Marijuana inventory.

M 309 – Medical Marijuana Business: Inventory Tracking System

A. Inventory Tracking System Required. A Medical Marijuana Business is required to use the Inventory Tracking System as the primary inventory tracking system of record. A Medical Marijuana Business without an Inventory Tracking System account that is activated and functional shall not operate or exercise any privileges of a license. Medical Marijuana Businesses converting to or adding a Retail Marijuana Establishment must follow the inventory transfer guidelines detailed in Rule R 309 (D) below.

B. Inventory Tracking System Access - Inventory Tracking System Administrator

1. Inventory Tracking System Administrator Required. A Medical Marijuana Business must have at least one individual Owner who is an Inventory Tracking System Administrator. A Medical Marijuana Business may also designate additional Owners and occupationally licensed employees to obtain Inventory Tracking System Administrator accounts.

2. Training for Inventory Tracking System Administrator Account. In order to obtain an Inventory Tracking System Administrator account, a person must attend and successfully complete all required Inventory Tracking System training. The Division may also require additional ongoing, continuing education for an individual to retain his or her Inventory Tracking System Administrator account.

C. Inventory Tracking System Access - Inventory Tracking System User Accounts. A Medical Marijuana Business may designate licensed Owners and employees who hold a valid Occupational License as an Inventory Tracking System User. A Medical Marijuana Business shall ensure that all Owners and Occupational Licensees who are granted Inventory Tracking System User account access for the purposes of conducting inventory tracking functions in the system are trained by Inventory Tracking System Administrators in the proper and lawful use of Inventory Tracking System.

D. Medical Marijuana Business License Conversions - Declaring Inventory Prior to Exercising Licensed Privileges as a Medical Marijuana Business

1. Medical Marijuana Inventory Transfer to Retail Marijuana Establishments.

a. Repealed.

b. Beginning July 1, 2016:

i. The only allowed Transfer of marijuana between a Medical Marijuana Business and Retail Marijuana Establishment is Medical Marijuana and Medical Marijuana Concentrate that was produced at the Optional Premises Cultivation Operation, from the Optional Premises Cultivation Operation to a Retail Marijuana Cultivation Facility.

ii. Each Optional Premises Cultivation Operation that is either converting to or adding a Retail Marijuana Cultivation Facility license must create a Retail Marijuana Inventory Tracking System account for each license it is converting or adding.

iii. An Optional Premises Cultivation Operation must Transfer all relevant Medical Marijuana and Medical Marijuana Concentrate into the Retail Marijuana Cultivation Facility's Inventory Tracking System account and affirmatively declare those items as Retail Marijuana or Retail Marijuana Concentrate as appropriate.

iv. The declared Retail Marijuana or Retail Marijuana Concentrate that was subject to the one-time Transfer is subject to the excise tax upon the first Transfer from the Retail Marijuana Cultivation Facility to another Retail Marijuana Establishment.

v. All other Transfers are prohibited, including but not limited to Transfers from a Medical Marijuana Center or Medical Marijuana-Infused Products Manufacturer to any Retail Marijuana Establishment.

2. No Further Transfer Allowed. Once a Licensee has declared any portion of its Medical Marijuana inventory as Retail Marijuana, no further Transfers of inventory from Medical Marijuana to Retail Marijuana shall be allowed.

E. RFID Tags Required

1. Authorized Tags Required and Costs. Licensees are required to use RFID tags issued by a Division-approved vendor that is authorized to provision RFID tags for the Inventory Tracking System. Each licensee is responsible for the cost of all RFID tags and any associated vendor fees.

2. Use of RFID Tags Required. A Licensee is responsible to ensure its inventories are properly tagged where the Inventory Tracking System requires RFID tag use. A Medical Marijuana Business must ensure it has an adequate supply of RFID tags to properly tag Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product as required by the Inventory Tracking System. An RFID tag must be physically attached to every Medical Marijuana plant being cultivated that is greater than eight inches tall or eight inches wide. An RFID tag must be assigned to all Finished Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product. See also Rule M 801(G.5) – Required RFID Tags; Rule M 1001-1(F) – Shipping Containers.

3. Reuse of RFID Tags Prohibited. A Licensee shall not reuse any RFID tag that has already been affixed or assigned to any Finished Marijuana, Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

F. General Inventory Tracking System Use

1. Reconciliation with Inventory. All inventory tracking activities at a Medical Marijuana Business must be tracked through use of the Inventory Tracking System. A Licensee must reconcile all on-premises and in-transit Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product inventories each day in the Inventory Tracking System at the close of business.

2. Common Weights and Measures.

    a. A Medical Marijuana Business must utilize a standard of measurement that is supported by the Inventory Tracking System to track all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

    b. A scale used to weigh such product prior to entry into the Inventory Tracking System shall be tested and approved in accordance with section 35-14-127, C.R.S.

3. Inventory Tracking System Administrator and User Accounts – Security and Record

    a. A Medical Marijuana Business shall maintain an accurate and complete list of all Inventory Tracking System Administrators and Inventory Tracking System Users for each Licensed Premises. A Medical Marijuana Business shall update this list when a new Inventory Tracking System User is trained. A Medical Marijuana Business must train and authorize any new Inventory Tracking System Users before those Owners or employees may access Inventory Tracking System or input, modify, or delete any information in the Inventory Tracking System.

    b. A Medical Marijuana Business must cancel any Inventory Tracking System Administrators and Inventory Tracking System Users from their associated Inventory Tracking System accounts once any such individuals are no longer employed by the Licensee or at the Licensed Premises.

    c. A Medical Marijuana Business is accountable for all actions employees take while logged into the Inventory Tracking System or otherwise conducting Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product inventory tracking activities.

    d. Each individual user is also accountable for all of his or her actions while logged into the Inventory Tracking System or otherwise conducting Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product inventory tracking activities, and must maintain compliance with all relevant laws.

4. Secondary Software Systems Allowed

    a. Nothing in this rule prohibits a Medical Marijuana Business from using separate software applications to collect information to be used by the business including secondary inventory tracking or point of sale systems.

    b. A Licensee must ensure that all relevant Inventory Tracking System data is accurately transferred to and from the Inventory Tracking System for the purposes of reconciliations with any secondary systems.

    c. A Medical Marijuana Business must preserve original Inventory Tracking System data when transferred to and from a secondary application(s). Secondary software applications must use Inventory Tracking System data as the primary

source of data and must be compatible with updating to the Inventory Tracking System.

G. Conduct While Using Inventory Tracking System

1. Misstatements or Omissions Prohibited. A Medical Marijuana Business and its designated Inventory Tracking System Administrator(s) and Inventory Tracking System User(s) shall enter data into the Inventory Tracking System that fully and transparently accounts for all inventory tracking activities. Both the Medical Marijuana Business and the individuals using the Inventory Tracking System are responsible for the accuracy of all information entered into the Inventory Tracking System. Any misstatements or omissions may be considered a license violation affecting public safety.

2. Use of Another User's Login Prohibited. Individuals entering data into the Inventory Tracking System shall only use that individual's Inventory Tracking System account.

3. Loss of System Access. If at any point a Medical Marijuana Business loses access to the Inventory Tracking System for any reason, the Medical Marijuana Business must keep and maintain comprehensive records detailing all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product tracking inventory activities that were conducted during the loss of access. See Rule M 901 – Business Records Required. Once access is restored, all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana- Infused Product inventory tracking activities that occurred during the loss of access must be entered into the Inventory Tracking System. A Medical Marijuana Business must document when access to the system was lost and when it was restored. A Medical Marijuana Business shall not Transfer any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to another Medical Marijuana Business until such time as access is restored and all information is recorded into the Inventory Tracking System.

H. System Notifications

1. Compliance Notifications. A Medical Marijuana Business must monitor all compliance notifications from the Inventory Tracking System. The Licensee must resolve the issues detailed in the compliance notification in a timely fashion. Compliance notifications shall not be dismissed in the Inventory Tracking System until the Medical Marijuana Business resolves the compliance issues detailed in the notification.

2. Informational Notifications. A Medical Marijuana Business must take appropriate action in response to informational notifications received through the Inventory Tracking System, including but not limited to notifications related to RFID billing, enforcement alerts, and other pertinent information.

I. Lawful Activity Required. Proper use of the Inventory Tracking System does not relieve a Licensee of its responsibility to maintain compliance with all laws, rules, and other requirements at all times.

J. Inventory Tracking System Procedures Must Be Followed. A Medical Marijuana Business must utilize the Inventory Tracking System in conformance with these rules and Inventory Tracking System procedures, including but not limited to:

1. Properly indicating the creation of a Harvest Batch and/or Production Batch including the assigned Harvest Batch and/or Production Batch Number;

2. Accurately identifying the cultivation rooms and location of each plant within those rooms on the Licensed Premises;

3. Accurately identifying when inventory is no longer on the Licensed Premises;

4. Properly indicating that a Test Batch is being used as part of achieving process validation;

5. Accurately indicating the Inventory Tracking System category for all Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product; and

6. Accurately including a note explaining the reason for any destruction of Medical Marijuana, Medical Marijuana Concentrate and/or Medical Marijuana-Infused Product, and reason for any adjustment of weights to Inventory Tracking System packages.

M 400 Series – Medical Marijuana Centers

Basis and Purpose – M 401

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I)(A-F),12-43.3-310(7), 12-43.3-310(4), 12-43.3-402 and 12-43.3-406, C.R.S. The purpose of this rule is to establish that it is unlawful for a Medical Marijuana Center Licensee to exercise any privileges other than those granted by the State Licensing Authority, and to clarify the license privileges.

M 401 – Medical Marijuana Center: License Privileges

A. Privileges Granted. A Medical Marijuana Center shall only exercise those privileges granted to it by the State Licensing Authority.

B. Licensed Premises. To the extent authorized by Rule M 304 – Medical Marijuana Business and Retail Marijuana Establishment – Shared Licensed Premises and Operational Separation, a Medical Marijuana Center may share a location with a commonly-owned Retail Marijuana Store. However, a separate license is required for each specific business or business entity, regardless of geographical location.

C. Authorized Sources of Medical Marijuana. A Medical Marijuana Center may only Transfer Medical Marijuana that it has purchased from another Medical Marijuana Center or that the Medical Marijuana Center has cultivated itself, after first obtaining an Optional Premises Cultivation Operation License. See Rule M 501 – Optional Premises Cultivation Operation: License Privileges.

D. Authorized Sources of Medical Marijuana-Infused Product Inventory. A Medical Marijuana Center may Transfer Medical Marijuana-Infused Product that it has purchased from a Medical Marijuana-Infused Products Manufacturer, so long as each product are pre-packaged and labeled upon purchase from the manufacturer.

E. Samples Provided for Testing.

1. Repealed.

1.5. A Medical Marijuana Center may provide Samples of its products to a Medical Marijuana Testing Facility for testing and research purposes. The Medical Marijuana Center shall maintain the testing results as part of its business books and records. See Rule M 901 – Business Records Required.

F. Authorized On-Premises Storage. A Medical Marijuana Center is authorized to store inventory on the Licensed Premises. All inventory stored on the Licensed Premises must be secured in a Limited Access Area or Restricted Access Area, and tracked consistently with the inventory tracking rules.

G. Authorized Marijuana Transport. A Medical Marijuana Center is authorized to utilize a licensed Medical Marijuana Transporter for transportation of its Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product so long as the place where transportation orders are taken and delivered is a licensed Medical Marijuana Business. Nothing in this Rule prevents a Medical Marijuana Center from transporting its own Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

Basis and Purpose – M 402

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-310(7), 12-43.3-310(4), 12-43.3-402, and 12-43.3-403, C.R.S. The purpose of this rule is to establish that a Medical Marijuana Center can only grow Medical Marijuana in its Optional Premises Cultivation Operation for a patient that has designated that Medical Marijuana Center as being his or her primary center. The rule also helps to ensure that Medical Marijuana plants designated to a particular patient are only being grown at one Medical Marijuana Center.

M 402 – Registration of a Primary Medical Marijuana Center

A. Patient Designation Required. A Medical Marijuana Center may possess in the aggregate, only the amount of Medical Marijuana and number of Medical Marijuana plants permitted by Rule M 403(A.5) for each patient who has designated the Medical Marijuana Center as being his or her primary center. A patient's designation of a Medical Marijuana Center as his or her primary Medical Marijuana Center in accordance with these Rules establishes the Medical Marijuana Center registration requirements set forth in sections 12-43.3-901(4)(e), and 25-1.5-106(8)(f), C.R.S.

B. Change Only Allowed Every 30 Days. A Medical Marijuana Center shall not register a patient as being the patient's primary center if the patient has designated another Medical Marijuana Center as his or her primary center in the preceding 30 days. The Medical Marijuana Center and its employees must require a patient to sign in writing that he or she has not designated another Medical Marijuana Center as his or her primary center before growing Medical Marijuana plants on behalf of the patient.

C. Notification to Former Medical Marijuana Center. A Medical Marijuana Center must maintain a copy of a written or electronic notification that it provided to a patient's former primary Medical Marijuana Center advising that the Medical Marijuana Center has been designated as the patient's new primary Medical Marijuana Center.

D. Documents Required. The new primary Medical Marijuana Center shall maintain written authorization from the patient, any relative plant count waiver to support the number of plants designated for that patient, a copy of the patient's registry card, and a copy of the patient's proof of identification. *See also* Rule M 901 – Business Records Required.

E. Violation of Public Safety. Notwithstanding the provisions in Rule M 402 (B), it may be considered a violation of public safety for a Medical Marijuana Center and its employees to become a patient's primary center when the patient already had designated one or more other Medical Marijuana Centers as his or her primary center.

Basis and Purpose – M 403

The statutory authority for this includes but is not limited to sections 12-43.3-103(2)(b), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.3-310(7), 12-43.3-310(4), 12-43.4-401(4), 12-43.3-402, and 12-43.3-406, C.R.S. Authority also exists in the Colorado Constitution at Article XVIII, Subsection 14(4). The purpose of this rule is to clarify those acts that are prohibited, or limited in some fashion, by a licensed Medical Marijuana Center. This rule also restricts the amount of its inventory a Medical Marijuana Center may sell to other Medical Marijuana Businesses to 30 percent.

The quantity limitations on sales provision is intended to inform stakeholders in order to aid in compliance with a patient's lawful Medical Marijuana limit. Clarifying the quantity limitations on sales provides Medical Marijuana Centers and their employees with necessary information to avoid being complicit in a patient acquiring more Medical Marijuana than is lawful under the Colorado Constitution pursuant to Article XVIII, Subsection 14(4).

M 403 – Medical Marijuana Sales: General Limitations or Prohibited Acts

A. 30 Percent Rule. Pursuant to section 12-43.3-402(4), C.R.S., a Medical Marijuana Center may accept Transfers of not more than 30 percent of its total on-hand medical marijuana inventory from another licensed Medical Marijuana Center in Colorado. A Medical Marijuana Center may Transfer no more than thirty percent of its total on-hand Medical Marijuana inventory to another Medical Marijuana Center.

1. Total on-hand inventory as used in section 12-43.3-402(4), C.R.S., means the total amount of Medical Marijuana that a Medical Marijuana Center received from its dedicated Optional Premises Cultivation Operation or any other Medical Marijuana Center in the preceding 12 months.

2. A Medical Marijuana Center may apply for a temporary waiver from the requirements set forth in this Rule and section 12-43.3-402(4), C.R.S. under the following circumstances:

    a. A Medical Marijuana Center that suffers a catastrophic event related to its total on-hand inventory; examples of a catastrophic event include, but are not limited to: blight, crop failure, crop contamination, or natural disasters; or

    b. To a new Medical Marijuana Center Licensee for a period not to exceed 90 days from the commencement of the first cultivation activities.

A.5 Possession Limits. Possession limits set forth in this Rule refer to the maximum total quantity possessed by the Medical Marijuana Center and its designated Optional Premises Cultivation Operation collectively. For purposes of section 12-43.3-901(4)(e), C.R.S., a Medical Marijuana Center and its designated Optional Premises Cultivation Operation may possess six (6) Medical Marijuana plants and two (2) ounces of Finished Marijuana for each patient who has registered the Medical Marijuana Center as his or her primary Medical Marijuana Center.

1. Subject to the requirement in Paragraph A.5(2) of this Rule, a Medical Marijuana Center and its designated Optional Premises Cultivation Operation may exceed the six (6) Medical Marijuana plant and two (2) ounces of Finished Marijuana per-patient limits for patients registered with the Medical Marijuana Center who are authorized by the registered patient's physician to exceed the six (6) Medical Marijuana plant and two (2) ounces of Medical Marijuana limits.

2. A Medical Marijuana Center and its designated Optional Premises Cultivation Operation shall not exceed the six (6) Medical Marijuana plant and two (2) ounces of Finished Marijuana per-patient limits unless it obtains and maintains documentation from the registered patient's physician authorizing the patient to exceed the six (6) Medical Marijuana plant and two (2) ounces of Medical Marijuana limits.

3. Under no circumstance shall a Medical Marijuana Center and its designated Optional Premises Cultivation Operation possess Medical Marijuana plants and Finished Marijuana in excess of the total amount of Medical Marijuana plants and Finished Marijuana that its registered patients are authorized to possess.

B. Medical Marijuana-Infused Products Manufacturers. A Medical Marijuana Center may also contract for the manufacture of Medical Marijuana-Infused Product with Medical Marijuana-Infused Product Licensees utilizing a contract as provided for in Rule M 602 – Medical Marijuana-Infused Products Manufacturer: General or Prohibited Acts (Infused Product Contracts). Medical Marijuana distributed to a Medical Marijuana-Infused Products Manufacturer by a Medical Marijuana Center pursuant to such a contract for use solely in Medical Marijuana-Infused Product(s) that are returned to the contracting Medical Marijuana Center shall not be included for purposes of determining compliance with subsection A.

C. Consumption Prohibited. Licensees shall not permit the consumption of marijuana or a marijuana product on the Licensed Premises.

D. Quantity Limitations On Transfers. During a single transaction to a patient, a Medical Marijuana Center and its employees are prohibited from Transferring:

a. More than two ounces of Medical Marijuana unless the patient has designated the Medical Marijuana Center as his or her primary center and supplied it with documentation from the patient's physician allowing the patient more than two ounces of Medical Marijuana;.

b. More than the patient's extended ounce count to a patient who designated the Medical Marijuana Center as his or her primary center and supplied it with documentation from the patient's physician allowing the patient more than two ounces of Medical Marijuana;

c. More than six Immature plants unless the patient has designated the Medical Marijuana Center as his or her primary center and supplied it with documentation from the patient's physician allowing the patient more than six plants;

d. More than half of the patient's extended plant count to a patient who has designated the Medical Marijuana Center as his or her primary center and supplied it with documentation from the patient's physician allowing the patient more than six plants.

D.5 For purposes of Rule M 403(D), a single transaction to a patient includes multiple sales to the same patient during the same business day where the Medical Marijuana Center employee knows or reasonably should know that such sale would result in the patient possessing more than the quantities of Medical Marijuana or Immature plants set forth above. In determining the imposition of any penalty for violation of this Rule 403(D), the State Licensing Authority will consider any mitigating and aggravating factors set forth in Rule M 1307(C).

E. Licensees May Refuse Sales. Nothing in these rules prohibits a Licensee from refusing to Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a patient.

F. Storage and Display Limitations. A Medical Marijuana Center shall not display Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product outside of a designated Restricted Access Area or in a manner in which Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product can be seen from outside the Licensed Premises. Storage of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product shall otherwise be maintained in Limited Access Areas or Restricted Access Area.

G. Transfer of Expired Product Prohibited. A Medical Marijuana Center shall not Transfer any expired Medical Marijuana-Infused Product.

G.1 Transfer Restrictions. A Medical Marijuana Center shall not sell or give away Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Transporter, and shall not buy, or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from a Medical Marijuana Transporter.

G.2 Performance-Based Sales Incentives Prohibited. A Medical Marijuana Center shall not compensate its employees using performance-based sales incentives. Performance-based incentives that are not sales-based are acceptable. Examples of performance-based incentives that are not sales-based include recognition for providing quality information to consumers, or the duration of the employee's employment with the Medical Marijuana Center.

G.3 Edibles Prohibited that are Shaped like a Human, Animal, or Fruit. This paragraph (G.3) is effective beginning October 1, 2017.

1. The Transfer of Edible Medical Marijuana-Infused Product in the following shapes is prohibited:

    a. The distinct shape of a human, animal, or fruit; or

    b. A shape that bears the likeness or contains characteristics of a realistic or fictional human, animal, or fruit, including artistic, caricature, or cartoon renderings.

2. The prohibition on human, animal, and fruit shapes does not apply to the logo of a licensed Medical Marijuana Business. Nothing in this subparagraph (G.3)(2) alters or eliminates a Licensee's obligation to comply with the requirements of Rule M 1001.5 – Labeling and Packaging Requirements: General Applicability or Rule M 1000-1 Series – Packaging, Labeling, and Product Safety.

3. Edible Medical Marijuana-Infused Products that are geometric shapes and simply fruit flavored are not considered fruit and are permissible; and

4. Edible Medical Marijuana-Infused Products that are manufactured in the shape of a marijuana leaf are permissible.

H. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose – M 405

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), and 12-43.3-402(5), C.R.S. The Medical Code requires Medical Marijuana Center employees to verify that the purchaser has a valid registration card issued pursuant to section 25-1.5-106, C.R.S., and a valid picture identification card that matches the name on the registration card. Accordingly, this rule was adopted to explain exactly what types of picture identification cards can be accepted. Not only will this rule alleviate any confusion on the part of Medical Marijuana Center employees, but it will help reduce the amount of fraudulent transactions, thereby helping to maintain the integrity of Colorado's Medical Marijuana Businesses.

M 405 – Acceptable Forms of Identification for Medical Marijuana Sales

A. When Sales Allowed. Medical Marijuana Centers shall only Transfer Medical Marijuana to any patient or caregiver permitted to deliver Medical Marijuana to homebound patients as permitted by section 25-1.5-106(9)(e), C.R.S., if the patient or caregiver can produce:

1. A valid patient registry card and adequate, currently valid proof of identification; or

2. A copy of a current and complete new application for the Medical Marijuana registry that is documented by a certified mail return receipt as having been submitted to the Colorado Department of Public Health and Environment within the preceding thirty-five days and adequate, currently valid proof of identification.

B. Acceptable Forms of Identification. As long as it contains a picture and date of birth, the kind and type of identification deemed adequate shall be limited to the following:

1. An operator's, chauffeur's or similar type driver's license, issued by any state within the United States, any U.S. Territory;

2. An identification card, issued by any state for the purpose of proof of age using requirements similar to those in sections 42-2-302 and 42-2-303, C.R.S.;

3. A United States military identification card;

4. A passport; or

5. An enrollment card issued by the governing authority of a federally recognized Indian tribe located in the state of Colorado, if the enrollment card incorporates proof of age requirements similar to sections 42-2-302 and 42-2-303, C.R.S.

C. Physical Inspection Required. A Licensee must physically view and inspect the patient or caregiver's registry card and proof of identification to confirm the information contained on the documents and also to judge the authenticity of the documents presented.

Basis and Purpose – M 406

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XX), and 12-43.3-402(1)(b), C.R.S. The purpose of this rule is to require all Medical Marijuana-Centers to track all inventory from the point it is received to the point-of-sale or Transfer to another Medical Marijuana Center.

M 406 – Medical Marijuana Center: Inventory Tracking System

A. Minimum Tracking Requirement. Medical Marijuana Centers must use the Inventory Tracking System to ensure its Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Products are identified and tracked from the point of Transfer to or from another Medical Marijuana Business through the point-of-sale. See Rule M 309 – Inventory Tracking System. Medical Marijuana Center: Inventory Tracking System. The Medical Marijuana Center must have the ability to reconcile its inventory records with the Inventory Tracking System and the associated transaction history and sale receipts. See also Rule M 901 – Business Records Required.

1. A Medical Marijuana Center is prohibited from accepting any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products without receiving a valid transport manifest generated from the Inventory Tracking System.

2. A Medical Marijuana Center must immediately input all Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product delivered to its Licensed Premises, accounting for all RFID tags, into the Inventory Tracking System at the time of delivery to the Medical Marijuana Center.

3. A Medical Marijuana Center must immediately account for all Medical Marijuana Transferred to another Medical Marijuana Center in the Inventory Tracking System.

4. A Medical Marijuana Center must reconcile transactions from their point of sale processes and inventory to the Inventory Tracking System at the close of business each day.

Basis and Purpose – M 407

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XV) and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to establish minimum health and safety regulations for Medical Marijuana Centers. It sets forth general standards and basic sanitary requirements for Medical Marijuana Centers. It covers the physical premises where the products are made as well as the individuals handling the products. This rule also authorizes the State Licensing Authority to require an independent consultant conduct a health and sanitary audit of a Medical Marijuana Center. This rule explains when an independent health and sanitary audit may be deemed necessary and sets forth possible consequences of a Medical Marijuana Business's refusal to cooperate or pay for the audit. The State Licensing Authority modeled this rule after those adopted by the Colorado Department of Public Health and Environment. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Medical Marijuana Centers.

M 407 - Health and Safety Regulations: Medical Marijuana Center

A. Local Safety Inspections. Licensees may be subject to inspection of the Medical Marijuana Center by the local fire department, building inspector, or code enforcement officer to confirm that no health or safety concerns are present. The inspection could result in additional specific standards to meet local jurisdiction restrictions related to Medical Marijuana. An annual fire safety inspection may result in the required installation of fire suppression devices, or other means necessary for adequate fire safety.

B. General Sanitary Requirements. The Licensee shall take all reasonable measures and precautions to ensure the following:

1. That any person who, by medical examination or supervisory observation, is shown to have, or appears to have, an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination for whom there is a reasonable possibility of contact with Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product shall be excluded from any operations which may be expected to result in contamination until the condition is corrected;

2. That hand-washing facilities shall be adequate and convenient and be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the Licensed Premises and where good sanitary practices require employees to wash or sanitize their hands, and provide effective hand-cleaning and sanitizing preparations and sanitary towel service or suitable drying devices;

3. That all persons working in direct contact with Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product shall conform to hygienic practices while on duty, including but not limited to:

a. Maintaining adequate personal cleanliness;

b. Washing hands thoroughly in an adequate hand-washing area(s) before starting work and at any other time when the hands may have become soiled or contaminated; and

c. Refraining from having direct contact with Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product if the person has or may have an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination, until such condition is corrected.

4. That litter and waste are properly removed and the operating systems for waste disposal are maintained in an adequate manner so that they do not constitute a source of contamination in areas where Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are exposed;

5. That floors, walls, and ceilings are constructed in such a manner that they may be adequately cleaned and each is kept clean and in good repair;

6. That there is adequate lighting in all areas where Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are stored or sold, and where equipment or utensils are cleaned;

7. That the Licensee provides adequate screening or other protection against the entry of pests. Rubbish shall be disposed of so as to minimize the development of odor and minimize the potential for the waste becoming an attractant, harborage, or breeding place for pests;

8. That any buildings, fixtures, and other facilities are maintained in a sanitary condition;

9. That toxic cleaning compounds, sanitizing agents, and other chemicals shall be identified, held, stored and disposed of in a manner that protects against contamination of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product and in a manner that is in accordance with any applicable local, state or federal law, rule, regulation or ordinance;

10. That all operations in the receiving, inspecting, transporting, segregating, preparing, manufacturing, packaging, and storing of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall be conducted in accordance with adequate sanitation principles;

11. That each Medical Marijuana Center provides its employees with adequate and readily accessible toilet facilities that are maintained in a sanitary condition and good repair; and

12. That Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product that can support the rapid growth of undesirable microorganisms are held in a manner that prevents the growth of these microorganisms.

C. Independent Health and Sanitary Audit

1. State Licensing Authority May Require A Health and Sanitary Audit

a. When the State Licensing Authority determines a health and sanitary audit by an independent consultant is necessary, it may require a Medical Marijuana Center

to undergo such an audit. The scope of the audit may include, but need not be limited, to whether the Medical Marijuana Center is in compliance with the requirements set forth in this Rule and other applicable health, sanitary or food handling laws, rules and regulations.

b. In such instances, the Division may attempt to mutually agree upon the selection of the independent consultant with a Medical Marijuana Center. However, the Division always retains the authority to select the independent consultant regardless of whether mutual agreement can be reached.

c. The Medical Marijuana Center will be responsible for all costs associated with the independent health and sanitary audit.

2. When Independent Health and Sanitary Audit Is Necessary. The State Licensing Authority has discretion to determine when an audit by an independent consultant is necessary. The following is a non-exhaustive list of examples that may justify an independent audit:

a. The Division has reasonable grounds to believe that the Medical Marijuana Center is in violation of one or more of the requirements set forth in this Rule or other applicable public health or sanitary laws, rules or regulations; or

b. The Division has reasonable grounds to believe that the Medical Marijuana Center was the cause or source of contamination of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

3. Compliance Required. A Medical Marijuana Center must pay for and timely cooperate with the State Licensing Authority's requirement that it undergo an independent health and sanitary audit in accordance with this Rule.

4. Suspension of Operations

a. If the State Licensing Authority has objective and reasonable grounds to believe and finds upon reasonable ascertainment of the underlying facts that the public health, safety or welfare imperatively requires emergency action and incorporates such findings into its order, it may order summary suspension of the Medical Marijuana Center's license. See Rule M 1302 – Disciplinary Process: Summary Suspensions.

b. Prior to or following the issuance of such an order, the Medical Marijuana Center may attempt to come to a mutual agreement with the Division to suspend its operations until the completion of the independent audit and the implementation of any required remedial measures.

i. If an agreement cannot be reached or the State Licensing Authority, in its sole discretion, determines that such an agreement is not in the best interests of the public health, safety or welfare, then the State Licensing Authority will promptly institute license suspension or revocation procedures. See Rule M 1302 – Disciplinary Process: Summary Suspensions.

ii. If an agreement to suspend operations is reached, then the Medical Marijuana Center may continue to care for its inventory and conduct any necessary internal business operations but it may not sell any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused

Product to a patient or other Medical Marijuana Business during the period of time specified in the agreement.

5. Repealed.

D. Contaminated Product. A Medical Marijuana Center shall not accept or Transfer to any Person any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product that has failed required testing pursuant to Rule M 1501 or Rule M 1503, unless otherwise permitted in these rules. If, despite the prohibitions in these rules, another Medical Marijuana Business Transfers to the Medical Marijuana Center any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product that has failed or subsequently fails required testing pursuant to Rule M 1501 or Rule M 1503, the Medical Marijuana Center shall assure that all Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Products that failed required testing are safely disposed of in accordance with Rule R 307.

E. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose - M 408

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(X),12-43.3-202(2)(a)(XIII), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-1101, and 12-43.3-1102, C.R.S. The purpose of this rule is to establish minimum standards for responsible vendor programs that provide training to personnel at Medical Marijuana Centers seeking designation as a "responsible vendor." It sets forth general standards and basic requirements for responsible vendor programs. This rule also establishes the timeframe for new staff to complete a responsible vendor program and the requirements for recertification. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Medical Marijuana Centers.

M 408 - Medical Marijuana Center: Responsible Vendor Program

A. General Standards.

1. To be designated a "responsible vendor" of Medical Marijuana, Medical Marijuana-Infused Product and Medical Marijuana Concentrate at any licensed Medical Marijuana Center, a Medical Marijuana Center licensee shall comply with this Rule.

2. To be designated a "responsible vendor" all Owners, managers and employees involved in the handling and Transfer of Medical Marijuana, Medical Marijuana Infused-Product or Medical Marijuana Concentrate shall attend and successfully complete a responsible vendor program.

3. Once a licensee is designated a "responsible vendor," all new employees involved in the handling and Transfer of Medical Marijuana, Medical Marijuana Infused-Product or Medical Marijuana Concentrate shall successfully complete the training described in this rule within 90 days of hire.

4. After initial successful completion of a responsible vendor program, each Owner, manager and employee of a Medical Marijuana Center shall successfully complete the program once every two years thereafter to maintain designation as a "responsible vendor."

B. Certification Training Program Standards.

1. No owner or employee of a responsible vendor program shall have an interest in a licensed Medical Marijuana Business or Retail Marijuana Establishment.

2. Program providers shall submit their programs to the Division for approval as a responsible vendor program.

3. Program providers shall submit their programs for approval every two years in order to maintain designation as a responsible vendor program.

4. The program shall include at least two hours of instruction time.

5. The program shall be taught in a real-time, interactive classroom setting where the instructor is able to verify the identification of each individual attending the program and certify completion of the program by the individual identified.

6. The program provider shall maintain its training records at its principal place of business during the applicable year and for the following three years. The provider shall make the records available for inspection by the licensing authority upon request during normal business hours.

7. The program shall provide written documentation of attendance and successful passage of a test on the knowledge of the required curriculum for each attendee.

    a. Attendees who can speak and write English must successfully pass a written test with a score of 70% or better.

    b. Attendees who cannot speak or write English may be offered a verbal test, provided that the same questions are given as are on the written test and the results of the verbal test are documented with a passing score of 70% or better.

8. Program providers shall solicit effectiveness evaluations from individuals who have completed their program.

C. Certification Training Class Core Curriculum.

1. Discussion concerning marijuana's effect on the human body. Training shall include:

    a. Marijuana's physical effects based on type of marijuana product;

    b. The amount of time to feel impairment;

    c. Visible signs of impairment; and

    d. Recognizing the signs of impairment.

2. Sales to minors. Training shall cover all pertinent Colorado statutes, rules, and regulations. .

3. Quantity limitations on Transfers to patients. Training shall cover all pertinent Colorado statutes, rules, and regulations.

4. Acceptable forms of Identification. Training shall include:

    a. How to check identification;

b. Spotting false identification;

c. Patient Registry Cards issued by the Colorado Department of Public Health and Environment and equivalent patient verification documents;

d. Provisions for confiscating fraudulent identifications; and

e. Common mistakes made in verification.

5. Other key state laws and rules affecting owners, managers, and employees. Training shall include:

a. Local and state licensing and enforcement;

b. Compliance with all Inventory Tracking System regulations;

c. Administrative and criminal liability;

d. License sanctions and court sanctions;

e. Waste disposal;

f. Health and safety standards;

g. Patrons prohibited from bringing marijuana onto licensed premises;

h. Permitted hours of sale;

i. Conduct of establishment;

j. Permitting inspections by state and local licensing and enforcement authorities;

k. Licensee responsible for activities occurring within licensed premises;

l. Maintenance of records;

m. Privacy issues; and

n. Prohibited purchases.

500 Series – Medical Marijuana Optional Premises Cultivation Operation: License Privileges

Basis and Purpose – M 501

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), 12-43.3-202(2)(a)(XX), 12-43.4-401(4), 12-43.3-310, 12-43.4-402, 12-43.3-403, 12-43.3-404, and 12-43.4-406, C.R.S. The purpose of this rule is to establish that it is unlawful for an Optional Premises Cultivation Operation to exercise any privileges other than those granted by the State Licensing Authority, and to clarify the license privileges.

M 501 – Medical Marijuana Optional Premises Cultivation Operation: License Privileges

A. Privileges Granted. A Medical Marijuana Optional Premises Cultivation Operation shall only exercise those privileges granted to it by the State Licensing Authority.

B. Licensed Premises. To the extent authorized by Rule M 304 – Medical Marijuana Business and Retail Marijuana Establishment – Shared Licensed Premises and Operational Separation, a Medical Marijuana Optional Premises Cultivation Facility may share a location with a commonly-owned Retail Marijuana Cultivation Facility. However, a separate license is required for each specific business entity regardless of geographical location.

C. Cultivation of Medical Marijuana Authorized. A Medical Marijuana Optional Premises Cultivation Operation may Propagate, cultivate, harvest, prepare, cure, package, store, and label Medical Marijuana, whether in concentrated form or otherwise.

D. Authorized Transfers. A Medical Marijuana Optional Premises Cultivation Operation may only Transfer Medical Marijuana and Water-Based Medical Marijuana Concentrate to the Medical Marijuana Center or Medical Marijuana Infused Products Manufacturer it is designated to pursuant to section 12-43.3-403, C.R.S.

1. A Medical Marijuana Optional Premises Cultivation Operation is also authorized to Transfer Medical Marijuana to a Licensed Research Business pursuant to section 12-43.3-408, C.R.S., a Medical Research Facility pursuant to section 25-1.5-106.5, C.R.S., or Pesticide Manufacturer pursuant to section 12-43.3-202(1)(h)(II), C.R.S. Until such Transfer, any Finished Marijuana at the Optional Premises Cultivation Operation shall count against the possession limits for the Medical Marijuana Center the Optional Premises Cultivation Operation is designated to pursuant to section 12-43.3-403, C.R.S. See Rule M 403(A.5).

2. An Optional Premises Cultivation shall not Transfer Flowering plants or Vegetative plants to any Person except as authorized pursuant to Rule M 801.

E. Packaging Processed Medical Marijuana. Processed Medical Marijuana plants shall be packaged in units of ten pounds or less and labeled pursuant to Rule M 1002 - Labeling Requirements: General Requirements or the Rule M 1000-1 Series – Labeling, Packaging, and Product Safety, and securely sealed in a tamper-evident manner.

F. Authorized Marijuana Transport. A Medical Marijuana Optional Premises Cultivation is authorized to utilize a licensed Medical Marijuana Transporter for transportation of its Medical Marijuana so long as the place where transportation orders are taken is a Medical Marijuana Business and the transportation order is delivered to a licensed Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer. Nothing in this Rule prevents a Medical Marijuana Optional Premises Cultivation from transporting its own Medical Marijuana.

G. Performance-Based Incentives. A Medical Marijuana Optional Premises Cultivation may compensate its employees using performance-based incentives.

H. Authorized Sources of Medical Marijuana Seeds and Immature Plants. A Medical Marijuana Optional Premises Cultivation Operation shall only obtain Medical Marijuana seeds or Immature Plants from its own Medical Marijuana or properly transferred from another Medical Marijuana Business pursuant to the inventory tracking requirements in this Rule, and as long as there is first a documented point-of-sale transaction at that Optional Premises Cultivation Operation's designated Medical Marijuana Center or Medical Marijuana-Infused Products Manufacturer.

Basis and Purpose – M 502

The statutory authority for this rule includes but is not limited to sections 12-43.3-103(2)(b), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI), and 12-43.3-202(2)(a)(XX), 12-43.3-310, 12-43.3-402, 12-43.3-403, 12-43.3-406, 12-43.3-201, C.R.S. The purpose of this rule is to clarify what activity is or is not allowed at an Optional Premises Cultivation Operation.

M 502 – Medical Marijuana Optional Premises Cultivation Operation: General Limitations or Prohibited Acts

A. Transfer Restriction. An Optional Premises Cultivation Operation may only Transfer Medical Marijuana to its commonly-owned Medical Marijuana Center or to a Medical Marijuana-Infused Products Manufacturer.

B. Packaging and Labeling Standards Required. An Optional Premises Cultivation Operation is prohibited from Transferring Medical Marijuana and Medical Marijuana Concentrate that is not packaged and labeled in accordance with these rules. See Rules M 1001.5 *et. seq.* and the Rule M 1000-1 Series– Labeling, Packaging, and Product Safety.

C. Transfer to Patient Prohibited. An Optional Premises Cultivation Operation is prohibited from Transferring Medical Marijuana to a patient.

D. Consumption Prohibited. An Optional Premises Cultivation Operation shall not permit the consumption of marijuana or marijuana products on its Licensed Premises.

E. Sales and Gift to Transporters Prohibited. A Medical Marijuana Optional Premises Cultivation shall not sell or give away Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Transporter, and shall not buy or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical-Marijuana Infused Product from a Medical Marijuana Transporter.

F. Inventory Limit. An Optional Premises Cultivation Operation shall not possess more plants than its commonly-owned Medical Marijuana Center is authorized to possess. See Rule M 403(A.5) – Medical Marijuana Sales: General Limitations or Prohibited Acts.

Basis and Purpose – M 503

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XX), and 12-43.3-403(3), C.R.S. The purpose of this rule is to eliminate diversion of Medical Marijuana.

M 503 – Medical Marijuana Optional Premises Cultivation Operation: Inventory Tracking System

A. Minimum Tracking Requirement. An Optional Premises Cultivation Operation must use the Inventory Tracking System to ensure its inventories are identified and tracked from the point Medical Marijuana is Propagated from seed or cutting to the point when it is delivered to a Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer. *See* Rule M 309, Medical Marijuana Business: Inventory Tracking System. An Optional Premises Cultivation Operation must have the ability to reconcile its inventory records generated from the Inventory Tracking System and the associated transaction history and sale receipts. *See* Rule M 901 – Business Records Required.

1. An Optional Premises Cultivation Operation is prohibited from accepting any Medical Marijuana without receiving a valid transport manifest generated from the Inventory Tracking System.

2. An Optional Premises Cultivation Operation must immediately input all Medical Marijuana delivered to its Licensed Premises and account for all RFID tags into the Inventory Tracking System at the time of delivery to the Optional Premises Cultivation Operation.

3. An Optional Premises Cultivation Operation must reconcile its transaction history and on-hand Medical Marijuana to the Inventory Tracking System at the close of business each day.

Basis and Purpose – M 504

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XV), and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to establish minimum health and safety regulations for Optional Premises Cultivation Operations. The rule prohibits an Optional Premises Cultivation Operation from treating or otherwise adulterating Medical Marijuana with any chemical or other compound whatsoever to alter its color, appearance, weight or smell. This rule also authorizes the State Licensing Authority to require an independent consultant conduct an independent health and sanitary audit of an Optional Premises Cultivation Operation. This rule explains when an independent health and sanitary audit may be deemed necessary and sets forth possible consequences of a Medical Marijuana Business's refusal to cooperate or pay for the audit. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Medical Marijuana Businesses.

M 504 – Optional Premises Cultivation Operation: Health and Safety Regulations

A. Local Safety Inspections. An Optional Premises Cultivation Operation may be subject to inspection of its Licensed Premises by the local fire department, building inspector, or code enforcement officer to confirm that no health or safety concerns are present. The inspection could result in additional specific standards to meet local jurisdiction restrictions related to Medical Marijuana or other local businesses. An annual fire safety inspection may result in the required installation of fire suppression devices, or other means necessary for adequate fire safety.

B. General Sanitary Requirements. An Optional Premises Cultivation Operation shall take all reasonable measures and precautions to ensure the following:

1. That any person who, by medical examination or supervisory observation, is shown to have, or appears to have, an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination for whom there is a reasonable possibility of contact with Medical Marijuana shall be excluded from any operations which may be expected to result in such contamination until the condition is corrected;

2. That all persons working in direct contact with Medical Marijuana shall conform to hygienic practices while on duty, including but not limited to:

a. Maintaining adequate personal cleanliness;

b. Washing hands thoroughly in an adequate hand-washing area(s) before starting work and at any other time when the hands may have become soiled or contaminated;

c. Hand-washing facilities shall be adequate and convenient and be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the Licensed Premises and where good sanitary practices require employees to wash and/or sanitize their hands, and provide effective hand-cleaning and sanitizing preparations and sanitary towel service or suitable drying devices; and

d. Refraining from having direct contact with Medical Marijuana if the person has or may have an illness, open lesion, including boils, sores, or infected wounds, or

any other abnormal source of microbial contamination, until such condition is corrected.

3. That litter and waste are properly removed and the operating systems for waste disposal are maintained in an adequate manner so that they do not constitute a source of contamination in areas where Medical Marijuana is exposed;

4. That floors, walls, and ceilings are constructed in such a manner that they may be adequately cleaned and kept clean and kept in good repair;

5. That there is adequate lighting in all areas where Medical Marijuana is stored and where equipment or utensils are cleaned;

6. That the Licensee provides adequate screening or other protection against the entry of pests. Rubbish shall be disposed of so as to minimize the development of odor and minimize the potential for the waste becoming an attractant, harborage, or breeding place for pests;

7. That any buildings, fixtures, and other facilities are maintained in a sanitary condition;

8. That toxic cleaning compounds, sanitizing agents, and solvents shall be identified, held, stored and disposed of in a manner that protects against contamination of Medical Marijuana or Medical Marijuana Concentrate, and in a manner that is in accordance with any applicable local, state, or federal law, rule, regulation or ordinance. All Pesticides must be stored and disposed of in accordance with the information provided on the product's label;

9. That all contact surfaces, including utensils and equipment used for the preparation of Medical Marijuana or Medical Marijuana Concentrate shall be cleaned and sanitized as frequently as necessary to protect against contamination. Equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable, and shall be properly maintained. Only sanitizers and disinfectants registered with the Environmental Protection Agency shall be used in an Optional Premises Cultivation Operation and used in accordance with labeled instructions;

10. That the water supply shall be sufficient for the operations intended and shall be derived from a source that is a regulated water system. Private water supplies shall be derived from a water source that is capable of providing a safe, potable, and adequate supply of water to meet the Licensed Premises needs. Reclaimed water may also be used only for the cultivation of Medical Marijuana to the extent authorized under the Reclaimed Water Control Regulations (5 CCR 1002-84), and subject to approval of the Water Quality Control Division of the Colorado Department of Public Health and Environment and the local water provider;

11. That plumbing shall be of adequate size and design and adequately installed and maintained to carry sufficient quantities of water to required locations throughout the plant and that shall properly convey sewage and liquid disposable waste from the Licensed Premises. There shall be no cross-connections between the potable water, reclaimed water, and waste water lines;

12. That all operations in the receiving, inspecting, transporting, segregating, preparing, manufacturing, packaging, and storing of Medical Marijuana, Medical Marijuana or Concentrate shall be conducted in accordance with adequate sanitation principles;

13. That each Optional Premises Cultivation Operation shall provide its employees with adequate and readily accessible toilet facilities that are maintained in a sanitary condition and good repair; and

14. That Medical Marijuana that can support the rapid growth of undesirable microorganisms shall be held in a manner that prevents the growth of these microorganisms.

C. Pesticide Application. An Optional Premises Cultivation Operation may only use Pesticide in accordance with the "Pesticide Act" sections 35-9-101 et seq., C.R.S., the "Pesticides Applicators' Act," sections 35-10-101 et seq., C.R.S., and all other applicable federal, state, and local laws, statutes, rules and regulations. This includes, but shall not be limited to, the prohibition on detaching, altering, defacing or destroying, in whole or in part, any label on any Pesticide. The Colorado Department of Agriculture's determination that the Licensee used any quantity of a Pesticide that would constitute a violation of the Pesticide Act or the Pesticide Applicators' Act shall constitute *prima facie* evidence of a violation of this Rule.

D. Application of Other Agricultural Chemicals. An Optional Premises Cultivation Operation may only use agricultural chemicals, other than Pesticide, in accordance with all applicable federal, state, and local laws, statutes, rules and regulations.

E. Required Documentation

1. Standard Operating Procedures. An Optional Premises Cultivation Operation must establish written standard operating procedures for the cultivation, harvesting, drying, curing, packaging, storing, and sampling of Medical Marijuana, and the processing, packaging, storing, and sampling of Medical Marijuana Concentrate. The standard operating procedures must also include when, and the manner in which, all Pesticide and other agricultural chemicals are to be applied during its cultivation process. A copy of all standard operating procedures must be maintained on the Licensed Premises of the Optional Premises Cultivation Operation.

2. Material Change. If an Optional Premises Cultivation Operation makes a Material Change to its cultivation procedures, it must document the change and revise its standard operating procedures accordingly. Records detailing the Material Change must be maintained on the relevant Licensed Premises.

3. Safety Data Sheet. An Optional Premises Cultivation Operation must obtain a safety data sheet for any Pesticide or other agricultural chemical used or stored on its Licensed Premises. An Optional Premises Cultivation Operation must maintain a current copy of the safety data sheet for any Pesticide or other agricultural chemical on the Licensed Premises where the product is used or stored.

4. Labels of Pesticide and Other Agricultural Chemicals. An Optional Premises Cultivation Operation must have the original label or a copy thereof at its Licensed Premises for all Pesticide and other agricultural chemicals used during its cultivation process.

5. Pesticide Application Documentation. An Optional Premises Cultivation Operation that applies any Pesticide or other agricultural chemical to any portion of a Medical Marijuana plant, water or feed used during cultivation or generally within the Licensed Premises must document, and maintain a record on its Licensed Premises of, the following information:

a. The name, signature and Occupational License number of the individual who applied the Pesticide or other agricultural chemical;

b. Applicator certification number if the applicator is licensed through the Department of Agriculture in accordance with the "Pesticides Applicators' Act," sections 35-10-101 et seq., C.R.S.;

c. The date and time of the application;

d. The EPA registration number of the Pesticide or CAS number of any other agricultural chemical(s) applied;

e. Any of the active ingredients of the Pesticide or other agricultural chemical(s) applied;

f. Brand name and product name of the Pesticide or other agricultural chemical(s) applied;

g. The restricted entry interval from the product label of any Pesticide or other agricultural chemical(s) applied;

h. The RFID tag number of the Medical Marijuana plant(s) that the Pesticide or other agricultural chemical(s) was applied to or if applied to all plants throughout the Licensed Premises, a statement to that effect; and

i. The total amount of each Pesticide or other agricultural chemical applied.

F. Prohibited Chemicals. The following chemicals are prohibited and shall not be used in Medical Marijuana cultivation. Possession of chemicals and/or containers from these chemicals upon the Licensed Premises shall be a violation of this Rule. Additionally, possession of Medical Marijuana or Medical Marijuana Concentrate on which any of the following chemicals is detected shall constitute a violation of this Rule.

1. Any Pesticide the use of which would constitute a violation of the Pesticide Act, section 35-9-101 *et seq.*, C.R.S., the Pesticide Applicators' Act, section 35-10-101 et seq., C.R.S., or the rules and regulations pursuant thereto.

2. Other chemicals (listed by chemical name and CAS Registry Number (or EDF Substance ID)):

G. DMSO. The use of Dimethylsulfoxide (DMSO) in the production of Medical Marijuana shall be prohibited and possession of DMSO upon the Licensed Premises is prohibited.

H. Adulterants. An Optional Premises Cultivation Operation may not treat or otherwise adulterate Medical Marijuana with any chemical or other compound whatsoever to alter its color, appearance, weight or smell.

I. Independent Health and Sanitary Audit

1. State Licensing Authority May Require A Health and Sanitary Audit

a. When the State Licensing Authority determines a health and sanitary audit by an independent consultant is necessary, it may require an Optional Premises Cultivation Operation to undergo such an audit. The scope of the audit may include, but need not be limited, to whether the Optional Premises Cultivation Operation is in compliance with the requirements set forth in this Rule and other applicable public health or sanitary laws and regulations.

b. In such instances, the Division may attempt to mutually agree upon the selection of the independent consultant with an Optional Premises Cultivation Operation. However, the Division always retains the authority to select the independent consultant regardless of whether mutual agreement can be reached.

c. The Optional Premises Cultivation Operation will be responsible for all costs associated with the independent health and sanitary audit.

2. When Independent Health and Sanitary Audit Is Necessary. The State Licensing Authority has discretion to determine when an audit by an independent consultant is necessary. The following is a non-exhaustive list of examples that may justify an independent audit:

a. An Optional Premises Cultivation Operation does not provide requested records related to the use of Pesticide or other agricultural chemicals during in the cultivation process;

b. The Division has reasonable grounds to believe that the Optional Premises Cultivation Operation is in violation of one or more of the requirements set forth in this rule or other applicable public health or sanitary laws, rules or regulations;

c. The Division has reasonable grounds to believe that the Optional Premises Cultivation Operation was the cause or source of contamination of Medical Marijuana or Medical Marijuana Concentrate; or

d. Multiple Harvest Batches or Production Batches produced by the Optional Premises Cultivation Operation failed contaminant testing.

3. Compliance Required. An Optional Premises Cultivation Operation must pay for and timely cooperate with the State Licensing Authority's requirement that it undergo an independent health and sanitary audit in accordance with this Rule.

4. Suspension of Operations

a. If the State Licensing Authority has objective and reasonable grounds to believe and finds upon reasonable ascertainment of the underlying facts that the public health, safety or welfare imperatively requires emergency action and incorporates such findings into its order, it may order summary suspension of the Optional Premises Cultivation Operation's license. See Rule M 1302 – Disciplinary Process: Summary Suspensions.

b. Prior to or following the issuance of such an order, Optional Premises Cultivation Operation may attempt to come to a mutual agreement with the Division to suspend its operations until the completion of the independent audit and the implementation of any required remedial measures.

i. If an agreement cannot be reached or the State Licensing Authority, in its sole discretion, determines that such an agreement is not in the best interests of the public health, safety or welfare, then the State Licensing Authority will promptly institute license suspension or revocation procedures. See Rule M 1302 – Disciplinary Process: Summary Suspensions.

ii. If an agreement to suspend operations is reached, then the Optional Premises Cultivation Operation may continue to care for its inventory and conduct any necessary internal business operations but it may Transfer Medical Marijuana or Medical Marijuana Concentrate to other Medical Marijuana Business during the period of time specified in the agreement.

J. Contaminated Product. Unless otherwise permitted by these rules:

1. A Medical Marijuana Optional Premises Cultivation Operation shall not accept or Transfer to another Medical Marijuana Business or any other Person any Medical Marijuana or Medical Marijuana Concentrate that has failed required testing pursuant to Rule M 1501 or Rule M 1503.

2. If A Medical Marijuana Optional Premises Cultivation Operation possesses any Medical Marijuana or Medical Marijuana Concentrate that failed required testing pursuant to Rule M 1501 or Rule M 1503, the Optional Premises Cultivation Operation shall assure that all Medical Marijuana and Medical Marijuana Concentrate that failed required testing is destroyed safely in accordance with Rule M 307.

K. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose – M 505

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I)(A-F),12-43.3-402(6), and 12-43.3-404(10), C.R.S. The purpose of this rule is to permit laboratory testing of Medical Marijuana and establish minimum health and safety regulation for Optional Premises Cultivation Operation. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Medical Marijuana Businesses.

M 505 – Optional Premises Cultivation Operation: Testing

A. Samples on Demand. Medical Marijuana Optional Premises Cultivation Operation shall, upon request of the Division, submit a sufficient quantity of Medical Marijuana to a Retail or Medical Marijuana Testing Facility to enable laboratory or chemical analysis thereof. The Division will notify the Licensee of the results of the analysis. See Rule M. 309 – Medical Marijuana Business: Inventory Tracking System and Rule M 901 – Business Records Required.

B. Samples Provided for Testing.

1. Repealed.1.5. This Rule M 505(B)(1.5) is effective beginning July 1, 2016. A Medical Marijuana Optional Premises Cultivation Operation may provide Samples of its Medical Marijuana to a Medical Marijuana Testing Facility for testing and research purposes. The Optional Premises Cultivation Operation shall maintain the testing results as part of its business books and records. See Rule M 901 – Business Records Required.

Basis and Purpose – M 506

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), and 12-43.3-202(2.5)(a)(1)(A) - (F), C.R.S. The purpose of this rule is to establish the categories of Medical Marijuana Concentrate that may be produced at an Optional Premises Cultivation Operation and standards for the production of those concentrate.

M 506 – Optional Premises Cultivation Operation: Medical Marijuana Concentrate Production

A. Permitted Production of Certain Categories of Medical Marijuana Concentrate. An Optional Premises Cultivation Operation may only produce Water-Based Medical Marijuana Concentrate on its Licensed Premises and only in an area clearly designated for concentrate production on the current diagram of the Licensed Premises. See Rule M 901- Business Records Required. No other method of production or extraction for Medical Marijuana Concentrate may be conducted within the Licensed Premises of an Optional Premises Cultivation Operation unless the Owner(s) of the Optional Premises Cultivation Operation also has a valid Medical Marijuana-Infused Products Manufacturer license and the room in which Medical Marijuana Concentrate is to be produced is physically separated from all cultivation areas and has clear signage identifying the room.

B. Safety and Sanitary Requirements for Concentrate Production. If an Optional Premises Cultivation Operation produces Water-Based Medical Marijuana Concentrate, then all areas in which those concentrate are produced and all Owners and Occupational Licensees engaged in the production of those concentrate shall be subject to all of requirements imposed upon a Medical Marijuana-Infused Products Manufacturer that produces Medical Marijuana Concentrate, including general requirements. See Rule M 604 – Medical Marijuana-Infused Products

Manufacturer: Health and Safety Regulations and Rule M 605 Medical Marijuana-Infused Products Manufacturer: Medical Marijuana Concentrate Production.

C. Possession of Other Categories of Medical Marijuana Concentrate.

1. It shall be considered a violation of this rule if an Optional Premises Cultivation Operation possesses a Medical Marijuana Concentrate other than a Water-Based Medical Marijuana Concentrate on its Licensed Premises unless the Owner(s) of the Optional Premises Cultivation Operation also has a valid Medical Marijuana-Infused Products Manufacturer license.

2. Notwithstanding subparagraph (C)(1) of this Rule M 505, an Optional Premises Cultivation Operation shall be permitted to possess Solvent-Based Medical Marijuana Concentrate only when the possession is due to the Transfer of Medical Marijuana flower or trim that failed microbial testing to a Medical Marijuana-Infused Products Manufacturing Facility for processing into a Solvent-Based Medical Marijuana Concentrate, and the Medical Marijuana-Infused Products Manufacturing Facility Transfers the resultant Solvent-Based Medical Marijuana Concentrate back to the originating Optional Premises Cultivation Operation.

a. The Optional Premises Cultivation Operation shall comply with all requirements in Rule M 1507(B.1) when having Solvent-Based Medical Marijuana Concentrate manufactured out of Medical Marijuana flower or trim that failed microbial testing.

b. The Optional Premises Cultivation Operation is responsible for submitting the Solvent-Based Medical Marijuana Concentrate for all required testing for contaminants pursuant to Rule M 1501 – Medical Marijuana Testing Program – Contaminant Testing, for potency pursuant to Rule M 1503 – Medical Marijuana Testing Program – Potency Testing, and any other testing required or allowed by the Medical Marijuana Rules or Medical Marijuana Code.

M 600 Series – Medical Marijuana-Infused Products Manufacturers

Basis and Purpose – M 601

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I) , 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I)(A-F), 12-43.3-406(1)(c), 12-43.3-406(4)(b), and 12-43.3-404, C.R.S. The purpose of this rule is to establish that it is unlawful for a Medical Marijuana-Infused Products Manufacturer to exercise any privileges other than those granted by the State Licensing Authority and to clarify the license privileges.

M 601 – Medical Marijuana-Infused Products Manufacturer: License Privileges

A. Privileges Granted. A Medical Marijuana-Infused Products Manufacturer shall only exercise those privileges granted to it by the State Licensing Authority.

B. Licensed Premises. A separate license is required for each specific business or business entity and geographical location. A Retail Marijuana Products Manufacturing Facility may share a location with a commonly owned Medical Marijuana-Infused Products Manufacturer. However, a separate license is required for each specific business or business entity, regardless of geographical location.

C. Authorized Transfers. A Medical Marijuana-Infused Products Manufacturer may only Transfer: (1) its own Medical Marijuana-Infused Product and Medical Marijuana Concentrate to Medical Marijuana Centers, other Medical Marijuana-Infused Products Manufacturers, Licensed Research

Businesses, Medical Research Facilities, and Pesticide Manufactures; (2) Medical Marijuana that was not cultivated at its own Optional Premises Cultivation to another Medical Marijuana-Infused Products Manufacturer.

D. Manufacture of Medical Marijuana-Infused Product Authorized. A Medical Marijuana-Infused Products Manufacturer may manufacture, prepare, package, and label Medical Marijuana-Infused Product, whether in concentrated form or that are comprised of Medical Marijuana and other ingredients intended for use or consumption, such as Edible Medical Marijuana-Infused Products, ointments, or tinctures.

E. Location Prohibited. A Medical Marijuana-Infused Products Manufacturer may not manufacture, prepare, package, store, or label Medical Marijuana-Infused Product in a location that is operating as a retail food establishment or a wholesale food registrant.

F. Samples Provided for Testing.

1. Repealed.

1.5. This Rule M 601(F)(1.5) is effective beginning July 1, 2016. A Medical Marijuana-Infused Products Manufacturer may provide samples of its Medical Marijuana-Infused Product to a Medical Marijuana Testing Facility for testing and research purposes. The Medical Marijuana-Infused Products Manufacturer shall maintain the testing results as part of its business books and records. *See* Rule M 901 – Business Records Required.

G. Authorized Marijuana Transport. A Medical Marijuana-Infused Products Manufacturer is authorized to utilize a Medical Marijuana Transporter for transportation of its Medical Marijuana-Infused Product or Medical Marijuana Concentrate so long as the place where transportation orders are taken is a licensed Medical Marijuana Business and the transportation order is delivered to a Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer. Nothing in this Rule prevents a Medical Marijuana-Infused Products Manufacturer from transporting its own Medical Marijuana or Medical Marijuana Concentrate.

H. Compensation. A Medical Marijuana-Infused Products Manufacturer may compensate its employees using performance-based incentives.

Basis and Purpose – M 602

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XVII.6), 12-43.3-202(2)(a)(XX), 12-43.3-404(3), and 12-43.3-406(1)(a), C.R.S. The Medical Code sets forth minimum requirements for written agreements between Medical Marijuana-Infused Products Manufacturers and Medical Marijuana Centers. Specifically, the written agreements must set forth the total amount of Medical Marijuana obtained from a Medical Marijuana Center Licensee to be used in the manufacturing process, and the total amount of Medical Marijuana-Infused Product to be manufactured from the Medical Marijuana obtained from the Medical Marijuana Center. This rule clarifies that the Division must approve such written agreements to ensure they meet those requirements.

M 602 – Medical Marijuana-Infused Products Manufacturer: General Limitations or Prohibited Acts

A. Contract Required. Any contract required pursuant to section 12-43.3-404(3), C.R.S., shall contain such minimum requirements as to form and substance as required by statute. All contracts need to be current and available for inspection on the Licensed Premises by the Division when requested. See Rule M 901 – Business Records and Reporting.

B. Packaging and Labeling Standards Required. A Medical Marijuana-Infused Products Manufacturer is prohibited from Transferring Medical Marijuana-Infused Product that are not

properly packaged and labeled. See Rule M 1000 Series – Labeling, Packaging, and Product Safety and Rule M 1000-1 Series – Labeling, Packaging, and Product Safety

C. Transfer to Consumer Prohibited. A Medical Marijuana-Infused Products Manufacturer is prohibited from Transferring Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a consumer.

D. Consumption Prohibited. A Medical Marijuana-Infused Products Manufacturer shall not permit the consumption of marijuana or marijuana products on its Licensed Premises.

E. Adequate Care of Perishable Product. A Medical Marijuana-Infused Products Manufacturer must provide adequate refrigeration for perishable Medical Marijuana-Infused Product that will be consumed and shall utilize adequate storage facilities and transport methods.

F. Homogeneity of Edible Retail Marijuana Product. A Medical Marijuana-Infused Products Manufacturer must ensure that its manufacturing processes are designed so that the Cannabinoid content of any Edible Medical Marijuana-Infused Product is homogenous.

G. A Medical Marijuana-Infused Products Manufacturer shall not sell or give away Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Transporter, and shall not buy or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from a Medical Marijuana Transporter.

H. Cultivated Medical Marijuana Sales Prohibited. A Medical Marijuana-Infused Products Manufacturer that also has an Optional Premises Cultivation Operation shall not Transfer any Medical Marijuana that it cultivates except for the Medical Marijuana contained in its Medical Marijuana-Infused Products or Medical Marijuana Concentrate.

Basis and Purpose – M 603

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XVIII.6) and (XX), 12-43.3-406(3) and 12-43.3-404, C.R.S. The purpose of this rule is to require all Medical Marijuana-Infused Products Manufacturers to track all inventory from the point it is received, through any manufacturing processes, to the point of sale or transfer to another Medical Marijuana Business.

M 603 – Medical Marijuana-Infused Products Manufacturer: Inventory Tracking System

A. Minimum Tracking Requirement. A Medical Marijuana-Infused Products Manufacturer must use the Inventory Tracking System to ensure its inventories are identified and tracked from the point they are Transferred from a commonly owned Optional Premises Cultivation Operation, Medical Marijuana Center, Medical Marijuana Transporter, or another Medical Marijuana-Infused Products Manufacturer through Transfer. *See* Rule M 309 – Medical Marijuana Business: Inventory Tracking System. A Medical Marijuana-Infused Products Manufacturer must have the ability to reconcile its inventory records with the Inventory Tracking System and the associated transaction history and sale receipts. *See* Rule M 901 – Business Records Required.

1. A Medical Marijuana-Infused Products Manufacturer is prohibited from accepting any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product without receiving a valid transport manifest generated from the Inventory Tracking System.

2. A Medical Marijuana-Infused Products Manufacturer must immediately input all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product

delivered to its Licensed Premises, accounting for all RFID tags, into the Inventory Tracking System at the time of delivery to the Medical Marijuana-Infused Products Manufacturer..

3. A Medical Marijuana-Infused Products Manufacturer must reconcile transactions to the Inventory Tracking System at the close of business each day.

Basis and Purpose – M 604

The statutory authority for this rule includes but is not limited to 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XIV),12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-202(2.5)(a)(III)(A)&(B), and 12-43.3-404, C.R.S. The purpose of this rule is to establish minimum health and safety regulations for Medical Marijuana-Infused Products Manufacturers. It requires all Owners and Occupational Licensees to attend a food handler training course prior to manufacturing any Edible Medical Marijuana Product. This rule also authorizes the State Licensing Authority to require that an independent consultant conduct an independent food safety audit of a Medical Marijuana Infused-Products Manufacturing Facility. This rule explains when an independent food safety audit may be deemed necessary and sets forth possible consequences of a Medical Marijuana-Infused Products Manufacture's refusal to cooperate or pay for the audit. It sets forth general standards and basic sanitary requirements for Medical Marijuana-Infused Products Manufacturers. It covers the physical premises where the products are made as well as the individuals handling the products. The State Licensing Authority modeled this rule after those adopted by the Colorado Department of Public Health and Environment. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Medical Marijuana Businesses and the safety of the public. Product safety requirements are being adopted to aid in making Medical Marijuana-Infused Products more readily identifiable to the general public outside of packaging as containing Medical Marijuana. While product safety requirements are stated in this rule, nothing in the requirements interferes with a manufacturer's ability to determine portions for its products or to provide a mechanism with the product for accurately measuring a portion.

M 604 – Medical Marijuana-Infused Products Manufacturer: Health and Safety Regulations

A. Training

1. Prior to engaging in the manufacture of any Edible Medical Marijuana-Infused Product each Owner or Occupational Licensee must:

a. Have a currently valid ServSafe Food Handler Certificate obtained through the successful completion of an online assessment or print exam; or

b. Take a food safety course that includes basic food handling training and is comparable to, or is a course given by, the Colorado State University extension service or a state, county, or district public health agency, and must maintain a status of good standing in accordance with the course requirements, including attending any additional classes if necessary. Any course taken pursuant to this rule must last at least two hours and cover the following subjects:

i. Causes of foodborne illness, highly susceptible populations and worker illness;

ii. Personal hygiene and food handling practices;

iii. Approved sources of food;

iv. Potentially hazardous foods and food temperatures;

v. Sanitization and chemical use; and

vi. Emergency procedures (fire, flood, sewer backup).

2. A Medical Marijuana-Infused Products Manufacturer must obtain documentation evidencing that each Owner or Occupational Licensee has successfully completed the examination or course required by this rule and is in good standing. A copy of the documentation must be kept on file at any Licensed Premises where that Owner or Occupational Licensee is engaged in the manufacturing of an Edible Medical Marijuana-Infused Product.

B. General Standards

1. A Medical Marijuana-Infused Products Manufacturer may be subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that no health or safety concerns are present. The inspection could result in additional specific standards to meet local jurisdiction restrictions related to Medical Marijuana. An annual fire safety inspection may result in the required installation of fire suppression devices, or other means necessary for adequate fire safety.

2. A Medical Marijuana-Infused Products Manufacturer that manufacturers Edible Medical Marijuana-Infused Product shall comply with all kitchen-related health and safety standards of the relevant local licensing authority and, to the extent applicable, with all Colorado Department of Public Health and Environment health and safety regulations applicable to retail food establishments, as set forth in 6 CCR 1010-2.

C. General Sanitary Requirements. The Licensee shall take all reasonable measures and precautions to ensure the following:

1. That any person who, by medical examination or supervisory observation, is shown to have, or appears to have, an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination for whom there is a reasonable possibility of contact with preparation surfaces for Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall be excluded from any operations which may be expected to result in such contamination until the condition is corrected;

2. That hand-washing facilities shall be adequate and convenient and be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the Licensed Premises and/or in Medical Marijuana Concentrate or Medical Marijuana-Infused Product preparation areas and where good sanitary practices require employees to wash and/or sanitize their hands, and provide effective hand-cleaning and sanitizing preparations and sanitary towel service or suitable drying devices;

3. That all persons working in direct contact with preparation of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall conform to hygienic practices while on duty, including but not limited to:

a. Maintaining adequate personal cleanliness;

b. Washing hands thoroughly in an adequate hand-washing area(s) before starting work, prior to engaging in the production of a Medical Marijuana Concentrate or manufacture of a Medical Marijuana-Infused Product and at any other time when the hands may have become soiled or contaminated; and

c. Refraining from having direct contact with preparation of Medical Marijuana or Medical Marijuana-Infused Product if the person has or may have an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination, until such condition is corrected.

4. That there is sufficient space for placement of equipment and storage of materials as is necessary for the maintenance of sanitary operations for production of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product;

5. That litter and waste are properly removed and the operating systems for waste disposal are maintained in an adequate manner so that they do not constitute a source of contamination in areas where Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product are exposed;

6. That floors, walls, and ceilings are constructed in such a manner that they may be adequately cleaned and kept clean and kept in good repair;

7. That there is adequate safety-type lighting in all areas where Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product are processed or stored and where equipment or utensils are cleaned;

8. That the Licensed Premises provides adequate screening or other protection against the entry of pests. Rubbish shall be disposed of so as to minimize the development of odor and minimize the potential for the waste becoming an attractant, harborage, or breeding place for pests;

9. That any buildings, fixtures, and other facilities are maintained in a sanitary condition;

10. That all contact surfaces, including utensils and equipment used for the preparation of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product, shall be cleaned and sanitized as frequently as necessary to protect against contamination. Equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable, and shall be properly maintained. Only sanitizers and disinfectants registered with the Environmental Protection Agency shall be used in a Medical Marijuana-Infused Products Manufacturer and used in accordance with labeled instructions;

11. That toxic cleaning compounds, sanitizing agents, solvents used in the production of Medical Marijuana Concentrate and other chemicals shall be identified, held, stored and disposed of in a manner that protects against contamination of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product, and in a manner that is in accordance with any applicable local, state, or federal law, rule, regulation or ordinance;

12. That the water supply shall be sufficient for the operations intended and shall be derived from a source that is a regulated water system. Private water supplies shall be derived from a water source that is capable of providing a safe, potable, and adequate supply of water to meet the Licensed Premises needs;

13. That plumbing shall be of adequate size and design and adequately installed and maintained to carry sufficient quantities of water to required locations throughout the plant and that shall properly convey sewage and liquid disposable waste from the Licensed Premises. There shall be no cross-connections between the potable and waste water lines;

14. That each Medical Marijuana-Infused Products Manufacturer shall provide its employees with adequate and readily accessible toilet facilities that are maintained in a sanitary condition and good repair;

15. That all operations in the receiving, inspecting, transporting, segregating, preparing, manufacturing, packaging, and storing of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall be conducted in accordance with adequate sanitation principles;

16. That Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that can support the rapid growth of undesirable microorganisms shall be held in a manner that prevents the growth of these microorganisms; and

17. That storage and transport of finished Medical Marijuana-Infused Product shall be under conditions that will protect products against physical, chemical, and microbial contamination as well as against deterioration of any Container.

C.5. Product Safety.

Paragraph (C.5) is effective beginning October 1, 2016.

1. A Medical Marijuana-Infused Products Manufacturer that manufactures Edible Medical Marijuana-Infused Product shall create and maintain standard production procedures and detailed manufacturing processes for each Edible Medical Marijuana-Infused Product it manufactures. These procedures and processes must be documented and made available on the Licensed Premises for inspection by the Division, the Colorado Department of Public Health & Environment, and local licensing authorities.

2. A Medical Marijuana-Infused Products Manufacturer may determine a standard portion of THC for each Edible Medical Marijuana-Infused Product it manufactures. If a Medical Marijuana-Infused Products Manufacturer determines a standard portion for an Edible Medical Marijuana-Infused Product, that information must be documented in the product's standard production procedure.

3. For each Edible Medical Marijuana-Infused Product, the total amount of active THC contained within the product must be documented in the standard production procedures.

4. Universal Symbol Marking Requirements.

   a. The following categories of Edible Medical Marijuana-Infused Products shall be marked, stamped, or otherwise imprinted with the Universal Symbol directly on the Medical Marijuana-Infused Product in a manner to cause the Universal Symbol to be distinguishable and easily recognizable.

      i. Chocolate

      ii. Soft confections

      iii. Hard confections or lozenges

      iv. Consolidated baked goods (e.g. cookie, brownie, cupcake, granola bar)

      v. Pressed pills and capsules

   b. The Universal Symbol marking shall:

i. Be marked, stamped, or otherwise imprinted on at least one side of the Edible Medical Marijuana-Infused Product;

ii. Be centered either horizontally or vertically on the Edible Medical Marijuana-Infused Product; and

iii. If centered horizontally on the Edible Medical Marijuana-Infused Product, the height and width of the Universal Symbol shall be of a size that is at least 25% of the product's width, but not less than ¼ inch by ¼ inch; or

iv. If centered vertically on the Edible Medical Marijuana-Infused Product, the height and width of the Universal Symbol shall be of a size that is at least 25% of the product's height, but not less than ¼ inch by ¼ inch.

c. If a Medical Marijuana-Infused Products Manufacturer elects to determine portions for an Edible Medical Marijuana-Infused Product, then the Universal Symbol shall be applied to each portion in accordance with the requirements of subsubparagraph (C.5)(4)(b) of this Rule M 604. Except that the size of the Universal Symbol marking shall be determined by the size of the portion instead of the overall product size, and shall not be less than ¼" by ¼".

d. The following categories of Edible Medical Marijuana-Infused Products are considered to be per se impracticable to mark with the Universal Symbol marking requirements, provided that they comply with the labeling and Container requirements of Rule M 1004.5 or the Rule M 1000-1 Series.

i. Loose bulk goods (e.g. granola, cereals, popcorn);

ii. Powders; and

iii. Liquid Edible Medical Marijuana-Infused Products.

5. Remanufactured Products Prohibited. A Medical Marijuana-Infused Products Manufacturer shall not utilize a commercially manufactured food product as its Edible Medical Marijuana-Infused Product. The following exceptions to this prohibition apply:

a. A food product that was commercially manufactured specifically for use by the Medical Marijuana-Infused Products Manufacturer Licensee to infuse with marijuana shall be allowed. The Licensee shall have a written agreement with the commercial food product manufacturer that declares the food product's exclusive use by the Medical Marijuana-Infused Products Manufacturer.

b. Commercially manufactured food products may be used as ingredients in a Medical Marijuana-Infused Products Manufacturer's Edible Medical Marijuana-Infused Product so long as: (1) they are used in a way that renders them unrecognizable as the commercial food product in the final Edible Medical Marijuana-Infused Product, and (2) the Medical Marijuana-Infused Products Manufacturer does not state or advertise to the consumer that the final Edible Medical Marijuana-Infused Product contains the commercially manufactured food product.

6. Trademarked Food Products. Nothing in this Rule alters or eliminates a Medical Marijuana-Infused Products Manufacturer's responsibility to comply with the trademarked food product provisions required by the Medical Code per 12-43.3-404(11)(a-c), C.R.S.

7. Edibles Prohibited that are Shaped like a Human, Animal, or Fruit. This subparagraph (C.5)(7) is effective beginning October 1, 2017.

a. The production, Transfer, and donation of Edible Medical Marijuana-Infused Products in the following shapes is prohibited:

i. The distinct shape of a human, animal, or fruit; or

ii. A shape that bears the likeness or contains characteristics of a realistic or fictional human, animal, or fruit, including artistic, caricature, or cartoon renderings.

b. The prohibition on human, animal, and fruit shapes does not apply to the logo of a licensed Medical Marijuana Business. Nothing in this subsubparagraph (C.5)(7)(b) alters or eliminates a Licensee's obligation to comply with the requirements of Rule M 1001.5 – Labeling and Packaging Requirements: General Applicability or Rule R 1000-1 Series – Labeling, Packaging, and Product Safety.

c. Edible Medical Marijuana-Infused Products that are geometric shapes and simply fruit flavored are not considered fruit and are permissible; and

d. Edible Medical Marijuana-Infused Products that are manufactured in the shape of a marijuana leaf are permissible.

D. Standard Operating Procedures

1. A Medical Marijuana-Infused Products Manufacturer must have written standard operating procedures for each category of Medical Marijuana Concentrate and type of Medical Marijuana-Infused Product that it produces.

a. All standard operating procedures for the production of a Medical Marijuana Concentrate must follow the requirements in Rule M 605.

b. A copy of all standard operating procedures must be maintained on the Licensed Premises of the Medical Marijuana-Infused Products Manufacturer.

2. If a Medical Marijuana-Infused Products Manufacturer makes a Material Change to its standard Medical Marijuana Concentrate or Medical Marijuana-Infused Product production process, it must document the change and revise its standard operating procedures accordingly. Records detailing the Material Change must be maintained on the relevant Licensed Premises.

E. Additives. A Medical Marijuana-Infused Products Manufacturer shall not include any Additive that is toxic within a Medical Marijuana-Infused Product; nor include any Additive for the purposes of making the product more addictive, appealing to children or misleading to patients.

F. DMSO. The use of Dimethylsulfoxide ("DMSO") in the production of Medical Marijuana Concentrate or Medical Marijuana-Infused Product shall be prohibited and possession of DMSO upon the Licensed Premises is prohibited.

G. Independent Health and Sanitary Audit

1. State Licensing Authority May Require An Independent Health and Sanitary Audit

a. When the State Licensing Authority determines a health and sanitary audit by an independent consultant is necessary, it may require a Medical Marijuana-Infused Products Manufacturer to undergo such an audit. The scope of the audit may include, but need not be limited, to whether the Medical Marijuana-Infused Products Manufacturer is in compliance with the requirements set forth in this Rule or other applicable food handling laws, rules or regulations and in compliance with the concentrate production rules in Rule M 605 or other applicable laws, rules and regulations.

b. In such instances, the Division may attempt to mutually agree upon the selection of the independent consultant with a Medical Marijuana-Infused Products Manufacturer. However, the Division always retains the authority to select the independent consultant regardless of whether mutual agreement can be reached.

c. The Medical Marijuana-Infused Products Manufacturer will be responsible for all direct costs associated with the independent health and sanitary audit.

2. When Independent Health and Sanitary Audit Is Necessary. The State Licensing Authority has discretion to determine when an audit by an independent consultant is necessary. The following is a non-exhaustive list of examples that may justify an independent audit:

a. A Medical Marijuana-Infused Products Manufacturer does not provide requested records related to the food handling training required for Owners and Occupational Licensees engaged in the production of Edible Medical Marijuana-Infused Products to the Division;

b. A Medical Marijuana-Infused Products Manufacturer does not provide requested records related to the production of Medical Marijuana Concentrate, including but not limited to, certification of its Licensed Premises, equipment or standard operating procedures, training of Owners or employees, or Production Batch specific records;

c. The Division has reasonable grounds to believe that the Medical Marijuana-Infused Products Manufacturer is in violation of one or more of the requirements set forth in this Rule or Rule M 605;

d. The Division has reasonable grounds to believe that the Medical Marijuana-Infused Products Manufacturer was the cause or source of contamination of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product; or

e. Multiple Production Batches of Medical Marijuana Concentrate or Medical Marijuana-Infused Product produced by the Medical Marijuana-Infused Products Manufacturer failed contaminant testing.

3. Compliance Required. A Medical Marijuana-Infused Products Manufacturer must pay for and timely cooperate with the State Licensing Authority's requirement that it undergo an independent health and sanitary audit in accordance with this Rule.

4. Suspension of Operations

a. If the State Licensing Authority has objective and reasonable grounds to believe and finds upon reasonable ascertainment of the underlying facts that the public

health, safety or welfare imperatively requires emergency action and incorporates such findings into its order, it may order summary suspension of the Medical Marijuana-Infused Products Manufacturer's license. See Rule M 1302 – Disciplinary Process: Summary Suspensions.

b. Prior to or following the issuance of such an order, the Medical Marijuana-Infused Products Manufacturer may attempt to come to a mutual agreement with the Division to suspend its operations until the completion of the independent audit and the implementation of any required remedial measures.

i. If an agreement cannot be reached or the State Licensing Authority, in its sole discretion, determines that such an agreement is not in the best interests of the public health, safety or welfare, then the State Licensing Authority will promptly institute license suspension or revocation procedures. See Rule M 1302 – Disciplinary Process: Summary Suspensions.

ii. If an agreement to suspend operations is reached, then the Medical Marijuana-Infused Products Manufacturer may continue to care for its inventory and conduct any necessary internal business operations but it may not, Transfer Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product to another Medical Marijuana Business during the period of time specified in the agreement. Depending on the condition of the Licensed Premises and required remedial measures, the Division may permit a Medical Marijuana-Infused Products Manufacturer to produce Medical Marijuana Concentrate or manufacture Medical Marijuana-Infused Product while operations have been suspended.

H. Contaminated Products. Unless otherwise permitted by these Rules:

1. A Medical Marijuana-Infused Products Manufacturer shall not accept or Transfer to another Medical Marijuana Business or any other Person any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product that has failed required testing pursuant to Rule M 1501 or Rule M 1503.

2. If a Medical Marijuana-Infused Products Manufacturer possesses Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Products that failed required testing pursuant to Rule M 1501 or Rule M 1503, the Medical Marijuana-Infused Products Manufacturer shall assure that all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product that failed required testing is safely destroyed in accordance with Rule M 307.

I. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose – M 605

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XV) and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to establish the categories of Medical Marijuana Concentrate that may be produced at a Medical Marijuana-Infused Products Manufacturer and establish standards for the production of those concentrate. Nothing in this rule authorizes the unlicensed practice of engineering under Article 25 of Title 12, C.R.S.

M 605 – Medical Marijuana-Infused Products Manufacturer: Medical Marijuana Concentrate Production.

A. Permitted Categories of Medical Marijuana Concentrate Production

1. A Medical Marijuana-Infused Products Manufacturer may produce Water-Based Medical Marijuana Concentrate, Food-Based Medical Marijuana Concentrate, and Heat/Pressure-Based Medical Marijuana Concentrate

2. A Medical Marijuana-Infused Products Manufacturer may also produce Solvent-Based Medical Marijuana Concentrate using only the following solvents: butane, propane, CO2, ethanol, isopropanol, acetone, heptane, and pentane. The use of any other solvent is expressly prohibited unless and until it is approved by the Division.

3. Beginning on July 1, 2014, a Medical Marijuana-Infused Products Manufacturer may submit a request to the Division to consider the approval of solvents not permitted for use under this Rule during the next formal rulemaking.

B. General Applicability. A Medical Marijuana-Infused Products Manufacturer that engages in the production of Medical Marijuana Concentrate, regardless of the method of extraction or category of concentrate being produced, must:

1. Ensure that the space in which any Medical Marijuana Concentrate is to be produced is a fully enclosed room and clearly designated on the current diagram of the Licensed Premises. See Rule M 901- Business Records Required.

2. Ensure that all applicable sanitary rules are followed. *See* Rule M 604.

3. Ensure that the standard operating procedure for each method used to produce a Medical Marijuana Concentrate on its Licensed Premises includes, but need not be limited to, step-by-step instructions on how to safely and appropriately:

   a. Conduct all necessary safety checks prior to commencing production;

   b. Prepare Medical Marijuana for processing;

   c. Extract Cannabinoids and other essential components of Medical Marijuana;

   d. Purge any solvent or other unwanted components from a Medical Marijuana Concentrate,

   e. Clean all equipment, counters and surfaces thoroughly; and

   f. Dispose of any waste produced during the processing of Medical Marijuana in accordance with all applicable local, state and federal laws, rules and regulations. See Rule M 307 – Waste Disposal.

4. Establish written and documentable quality control procedures designed to maximize safety for Owners and Occupational Licensees and minimize potential product contamination.

5. Establish written emergency procedures to be followed by Owners or Occupational Licensees in case of a fire, chemical spill or other emergency.

6. Have a comprehensive training manual that provides step-by-step instructions for each method used to produce a Medical Marijuana Concentrate on its Licensed Premises. The training manual must include, but need not be limited to, the following topics:

    a. All standard operating procedures for each method of concentrate production used at that Licensed Premises;

    b. The Medical Marijuana-Infused Products Manufacturer's quality control procedures;

    c. The emergency procedures for that Licensed Premises;

    d. The appropriate use of any necessary safety or sanitary equipment;

    e. The hazards presented by all solvents used within the Licensed Premises as described in the safety data sheet for each solvent;

    f. Clear instructions on the safe use of all equipment involved in each process and in accordance with manufacturer's instructions, where applicable; and

    g. Any additional periodic cleaning required to comply with all applicable sanitary rules.

7. Provide adequate training to every Owner or Occupational Licensee prior to that individual undertaking any step in the process of producing a Medical Marijuana Concentrate.

    a. Adequate training must include, but need not be limited to, providing a copy of the training manual for that Licensed Premises and live, in-person instruction detailing at least all of the topics required to be included in the training manual.

    b. The individual training an Owner or Occupational Licensee must sign and date a document attesting that all required aspects of training were conducted and that he or she is confident that the Owner or Occupational Licensee can safely produce a Medical Marijuana Concentrate. *See* Rule M 901- Business Records Required.

    c. The Owner or Occupational Licensee that received the training must sign and date a document attesting that he or she can safely implement all standard operating procedures, quality control procedures, and emergency procedures, operate all closed-loop extraction systems, use all safety, sanitary and other equipment and understands all hazards presented by the solvents to be used within the Licensed Premises and any additional period cleaning required to maintain compliance with all applicable sanitary rules. *See* Rule M 901- Business Records Required.

8. Maintain clear and comprehensive records of the name, signature and Owner or Occupational License number of every individual who engaged in any step related to the creation of a Production Batch of Medical Marijuana Concentrate and the step that individual performed. *See* Rule M 901- Business Records Required.

C. <u>Water-Based Medical Marijuana Concentrate, Food-Based Medical Marijuana Concentrate, and Heat/Pressure-Based Medical Marijuana Concentrate</u>. Medical Marijuana-Infused Products Manufacturer that engages in the production of a Water-Based Medical Marijuana Concentrate or

a Food-Based Medical Marijuana Concentrate or Heat/Pressure-Based Retail Marijuana Concentrate must:

1. Ensure that all equipment, counters and surfaces used in the production of a Water-Based Medical Marijuana Concentrate, a Food-Based Medical Marijuana Concentrate, or a Heath/Pressure Based Medical Marijuana Concentrate is food-grade including ensuring that all counters and surface areas were constructed in such a manner that it reduces the potential for the development of microbials, molds and fungi and can be easily cleaned.

2. Ensure that all equipment, counters, and surfaces used in the production of a Water-Based Medical Marijuana Concentrate or a Food-Based Medical Marijuana Concentrate are thoroughly cleaned after the completion of each Production Batch.

3. Ensure that any room in which dry ice is stored or used in processing Medical Marijuana into a Medical Marijuana Concentrate is well ventilated to prevent against the accumulation of dangerous levels of CO_2.

4. Ensure that the appropriate safety or sanitary equipment, including personal protective equipment, is provided to, and appropriately used by, each Owner or Occupational Licensee engaged in the production of a Water-Based Medical Marijuana Concentrate, Food-Based Medical Marijuana Concentrate, or a Heat/Pressure-Based Medical Marijuana Concentrate.

5. Ensure that only finished drinking water and ice made from finished drinking water is used in the production of a Water-Based Medical Marijuana Concentrate.

6. Ensure that if propylene glycol or glycerin is used in the production of a Food-Based Medical Marijuana Concentrate, then the propylene glycol or glycerin to be used is food-grade.

7. Follow all of the rules related to the production of a Solvent-Based Medical Marijuana Concentrate if a pressurized system is used in the production of a Water-Based Medical Marijuana Concentrate, a Food-Based Medical Marijuana Concentrate, or a Heat/Pressure-Based Medical Marijuana Concentrate.

D. Solvent-Based Medical Marijuana Concentrate. A Medical Marijuana-Infused Products Manufacturer that engages in the production of Solvent-Based Medical Marijuana Concentrate must:

1. Obtain a report from an Industrial Hygienist or a Professional Engineer that certifies that the equipment, Licensed Premises and standard operating procedures comply with these rules and all applicable local and state building codes, fire codes, electrical codes and other laws. If a local jurisdiction has not adopted a local building code or fire code or if local regulations do not address a specific issue, then the Industrial Hygienist or Professional Engineer shall certify compliance with the International Building Code of 2012 (http://www.iccsafe.org), the International Fire Code of 2012 (http://www.iccsafe.org) or the National Electric Code of 2014 (http://www.nfpa.org), as appropriate. Note that this Rule does not include any later amendments or editions to each Code. The Division has maintained a copy of each code, which are available to the public;

    a. Flammable Solvent Determinations. If a Flammable Solvent is to be used in the processing of Medical Marijuana into a Medical Marijuana Concentrate, then the Industrial Hygienist or Professional Engineer must:

i. Establish a maximum amount of Flammable Solvents and other flammable materials that may be stored within that Licensed Premises in accordance with applicable laws, rules and regulations.

ii. Determine what type of electrical equipment, which may include but need not be limited to outlets, lights, junction boxes, must be installed within the room in which Medical Marijuana Concentrate are to be produced or Flammable Solvents are to be stored in accordance with applicable laws, rules and regulations.

iii. Determine whether a gas monitoring system must be installed within the room in which Medical Marijuana Concentrate are to be produced or Flammable Solvents are to be stored, and if required the system's specifications, in accordance with applicable laws, rules and regulations.

iv. Determine whether fire suppression system must be installed within the room in which Medical Marijuana Concentrate are to be produced or Flammable Solvents are to be stored, and if required the system's specifications, in accordance with applicable laws, rules and regulations.

b. CO_2 Solvent Determination. If CO_2 is used as solvent at the Licensed Premises, then the Industrial Hygienist or Professional Engineer must determine whether a CO_2 gas monitoring system must be installed within the room in which Medical Marijuana Concentrate are to be produced or CO_2 is stored, and if required the system's specifications, in accordance with applicable laws, rules and regulations.

c. Exhaust System Determination. The Industrial Hygienist or Professional Engineer must determine whether a fume vent hood or exhaust system must be installed within the room in which Medical Marijuana Concentrate are to be produced, and if required the system's specifications, in accordance with applicable laws, rules and regulations.

d. Material Change. If a Medical Marijuana-Infused Products Manufacturer makes a Material Change to its Licensed Premises, equipment or a concentrate production procedure, in addition to all other requirements, it must obtain a report from an Industrial Hygienist or Professional Engineer re-certifying its standard operating procedures and, if changed, its Licensed Premises and equipment as well.

e. Manufacturer's Instructions. The Industrial Hygienist or Professional Engineer may review and consider any information provided to the Medical Marijuana-Infused Products Manufacturer by the designer or manufacturer of any equipment used in the processing of Medical Marijuana into a Medical Marijuana Concentrate.

f. Records Retention. A Medical Marijuana-Infused Products Manufacturer must maintain copy of all reports received from an Industrial Hygienist and Professional Engineer on its Licensed Premises. Notwithstanding any other law, rule or regulation, compliance with this rule is not satisfied by storing these reports outside of the Licensed Premises. Instead the reports must be maintained on the Licensed Premises until the Licensee ceases production of Medical Marijuana Concentrate on the Licensed Premises.

2. Ensure that all equipment, counters and surfaces used in the production of a Solvent-Based Medical Marijuana Concentrate must be food-grade and must not react adversely with any of the solvents to be used in the Licensed Premises. Additionally, all counters and surface areas must be constructed in a manner that reduces the potential development of microbials, molds and fungi and can be easily cleaned;

3. Ensure that the room in which Solvent-Based Medical Marijuana Concentrate shall be produced must contain an emergency eye-wash station;

4. Ensure that a professional grade, closed-loop extraction system capable of recovering the solvent is used to produce Solvent-Based Medical Marijuana Concentrate;

    a. UL or ETL Listing

        i. If the system is UL or ETL listed, then a Medical Marijuana-Infused Products Manufacturer may use the system in accordance with the manufacturer's instructions.

        ii. If the system is UL or ETL listed but the Medical Marijuana-Infused Products Manufacturer intends to use a solvent in the system that is not listed in the manufacturer's instructions for use in the system, then, prior to using the unlisted solvent within the system, the Medical Marijuana-Infused Products Manufacturer must obtain written approval for use of the non-listed solvent in the system from either the system's manufacturer or a Professional Engineer after the Professional Engineer has conducted a peer review of the system. In reviewing the system, the Professional Engineer shall review and consider any information provided by the system's designer or manufacturer.

        iii. If the system is not UL or ETL listed, then there must a designer of record. If the designer of record is not a Professional Engineer, then the system must be peer reviewed by a Professional Engineer. In reviewing the system, the Professional Engineer shall review and consider any information provided by the system's designer or manufacturer.

    b. Ethanol or Isopropanol. A Medical Marijuana-Infused Products Manufacturer Facility need not use a professional grade, closed-loop system extraction system capable of recovering the solvent for the production of a Solvent-Based Medical Marijuana Concentrate if ethanol or isopropanol are the only solvents being used in the production process.

5. Ensure that all solvents used in the extraction process are food-grade or at least 99% pure;

    a. A Medical Marijuana-Infused Products Manufacturer must obtain a safety data sheet for each solvent used or stored on the Licensed Premises. A Medical Marijuana-Infused Products Manufacturer must maintain a current copy of the safety data sheet and a receipt of purchase for all solvents used or to be used in an extraction process. See Rule M 901- Business Records Required.

    b. A Medical Marijuana-Infused Products Manufacturer is prohibited from using denatured alcohol to produce a Medical Marijuana Concentrate.

6. Ensure that all Flammable Solvents or other flammable materials, chemicals and waste are stored in accordance with all applicable laws, rules and regulations. At no time may a

Medical Marijuana-Infused Products Manufacturer store more Flammable Solvent on its Licensed Premises than the maximum amount established for that Licensed Premises by the Industrial Hygienist or Professional Engineer;

7. Ensure that the appropriate safety and sanitary equipment, including personal protective equipment, is provided to, and appropriately used by, each Owner or Occupational Licensee engaged in the production of a Solvent-Based Medical Marijuana Concentrate; and

8. Ensure that a trained Owner or Occupational Licensee is present at all times during the production of a Solvent-Based Medical Marijuana Concentrate whenever an extraction process requires the use of pressurized equipment.

E. Ethanol and Isopropanol. If a Medical Marijuana-Infused Products Manufacturer only produces Solvent-Based Medical Marijuana Concentrate using ethanol or isopropanol at its Licensed Premises and no other solvent, then it shall be considered exempt from the requirements in paragraph D of this Rule and instead must follow the requirements in paragraph C of this Rule. Regardless of which rule is followed, the ethanol or isopropanol must be food grade or at least 99% pure and denatured alcohol cannot be used. The Medical Marijuana-Infused Products Manufacturer shall comply with contaminant testing required in Rule M 1501(C)(3).

F. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

M 700 Series –Medical Marijuana Testing Facilities

Basis and Purpose – M 701.5

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XVIII.6), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I)(A), 12-43.3-310(8)(a), 12-43.3-402(6), 12-43.3-404(10), 12-43.3-405, and 12-43.3-406, C.R.S. The purpose of this rule is to establish that it is unlawful for a Medical Marijuana Testing Facility Licensee to exercise any privileges other than those granted by the State Licensing Authority and to clarify the license privileges.

M 701.5 - Medical Marijuana Testing Facilities: License Privileges

A. Privileges Granted. A Medical Marijuana Testing Facility shall only exercise those privileges granted to it by the State Licensing Authority.

B. Licensed Premises. A separate License is required for each specific Medical Marijuana Testing Facility and only those privileges granted by the Medical Code and any rules promulgated pursuant to it may be exercised on the Licensed Premises.

C. Testing of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana Infused-Product Authorized. A Medical Marijuana Testing Facility may accept Samples of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana Infused-Product from Medical Marijuana Businesses for testing and research purposes only, which purposes may include the provision of testing services for Samples submitted by a Medical Marijuana Business for the purpose of product development. The Division may require a Medical Marijuana Business to submit a Sample of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana Infused-Product to a Medical Marijuana Testing Facility upon demand.

C.5 Testing Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product for Patients in Research Project. A Medical Marijuana Testing Facility is authorized to

accept Samples of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana Infused-Product from an individual person for testing under only the following conditions:

1. The individual person is:

   a. A currently registered patient pursuant to section 25-1.5-106, C.R.S.; and

   b. A participant in an approved clinical or observational study conducted by a Licensed Research Business.

2. The Medical Marijuana Testing Facility shall require the patient to produce a valid patient registry card and a current and valid photo identification. See Rule M 405(B) – Acceptable Forms of Identification.

3. The Medical Marijuana Testing Facility shall require the patient to produce verification on a form approved by the Division from the Licensed Research Business that the patient is a participant in an approved clinical or observational Research Project conducted by the Licensed Research Business and that the testing will be in furtherance of the approved Research Project.

4. A primary caregiver may transport Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana Infused-Product on behalf of a patient to the Medical Marijuana Testing Facility. A Medical Marijuana Testing Facility shall require the following documentation before accepting Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana Infused-Product from a primary caregiver:

   a. A copy of the patient registry card and valid photo identification for the patient;

   b. A copy of the caregiver's registration with the State Department of Health pursuant to section 25-1.5-106, C.R.S. and a current and valid photo identification, see Rule M 405(B) – Acceptable Forms of Identification; and

   c. A copy of the Licensed Research Business's verification on a form approved by the Division that the patient is participating in an approved clinical or observational Research Project being conducted by the Licensed Research Business and that the testing will be in furtherance of the approved Research Project.

5. The Medical Marijuana Testing Facility shall report all results of testing performed pursuant to this Paragraph (C.5) to the Licensed Research Business identified in the verification form submitted pursuant to Paragraph (C.5)(3) or (4)(c), or as otherwise directed by the approved Research Project being conducted by the Licensed Research Business. Testing result reporting shall conform with the requirements under these Rules.

D. Product Development Authorized. A Medical Marijuana Testing Facility may develop Medical Marijuana Infused-Product, but is not authorized to engage in the manufacturing privileges described in section 12-43.3-404, C.R.S. and Rule M 601 – Medical Marijuana Infused-Products Manufacturer: License Privileges.

E. Transferring Samples to Another Licensed and Certified Medical Marijuana Testing Facility. A Medical Marijuana Testing Facility may Transfer Samples to another Medical Marijuana Testing Facility for testing. All laboratory reports provided to or by a Medical Marijuana Business, or to a patient or primary caregiver must identify the Medical Marijuana Testing Facility that actually conducted the test.

F. Authorized Medical Marijuana Transport. A Medical Marijuana Testing Facility is authorized to utilize a licensed Medical Marijuana Transporter to transport Samples of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product for testing, in accordance with the Medical Marijuana Code and the rules adopted pursuant thereto, between the originating Medical Marijuana Business requesting testing services and the destination Medical Marijuana Testing Facility performing testing services. Nothing in this Rule requires a Medical Marijuana Business to utilize a Medical Marijuana Transporter to transport Samples of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product for testing.

Basis and Purpose – M 702

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XVIII.6), 12-43.3-202(2)(a)(XX), 12-43.3-405, 12-43.3-901 , and 35-61-105.5, C.R.S. The purpose of this rule is to clarify those acts that are limited in some fashion, or prohibited, by a Medical Marijuana Testing Facility.

M 702 – Medical Marijuana Testing Facilities: General Limitations or Prohibited Acts

A. Prohibited Financial Interest. A Person who is a Direct Beneficial Interest Owner or an Indirect Beneficial Interest Owner of an Optional Premises Cultivation, Medical Marijuana Infused-Products Manufacturing Facility, Medical Marijuana Center, Retail Marijuana Cultivation Facility, Retail Marijuana Products Manufacturing Facility, or a Retail Marijuana Store shall not be a Direct Beneficial Interest Owner or an Indirect Beneficial Interest Owner of a Medical Marijuana Testing Facility.

A.2 Conflicts of Interest. The Medical Marijuana Testing Facility shall establish policies to prevent the existence of or appearance of undue commercial, financial, or other influences that may diminish the competency, impartiality, and integrity of the Medical Marijuana Testing Facility's testing processes or results, or that may diminish public confidence in the competency, impartiality and integrity of the Medical Marijuana Testing Facility's testing processes or results. At a minimum, employees, owners or agents of a Medical Marijuana Testing Facility who participate in any aspect of the analysis and results of a Sample are prohibited from improperly influencing the testing process, improperly manipulating data, or improperly benefiting from any on-going financial, employment, personal or business relationship with the Medical Marijuana Business that provided the Sample.

B. Transfer of Medical Marijuana Prohibited. A Medical Marijuana Testing Facility shall not Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Business, a consumer, or a patient or primary caregiver, except that a Medical Marijuana Testing Facility may Transfer a Sample to another Medical Marijuana Testing Facility.

C. Destruction of Received Samples. A Medical Marijuana Testing Facility shall properly dispose of all Samples it receives, that are not Transferred to another Medical Marijuana Testing Facility, after all necessary tests have been conducted and any required period of storage. *See* Rule M 307 – Waste Disposal.

D. Consumption Prohibited. A Medical Marijuana Testing Facility shall not permit the consumption of marijuana or marijuana products on its Licensed Premises.

E. Sample Rejection. A Medical Marijuana Testing Facility shall reject any Sample where the condition of the Sample at receipt indicates that that the Sample may have been tampered with.

F. Medical Marijuana Business Requirements Applicable. A Medical Marijuana Testing Facility shall be considered a Licensed Premises. A Medical Marijuana Testing Facility shall be subject to all requirements applicable to Medical Marijuana Businesses.

G. Medical Marijuana Testing Facility – Inventory Tracking System Required. A Medical Marijuana Testing Facility must use the Inventory Tracking System to ensure all Test Batches or Samples containing Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products are identified and tracked from the point they are Transferred from a Medical Marijuana Business, a patient, or a patient's primary caregiver through the point of Transfer, destruction, or disposal. The Inventory Tracking System reporting shall include the results of any tests that are conducted on Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product. *See* Rule M 309 – Medical Marijuana Business: Inventory Tracking System, Rule M 711 – Reporting and Inventory Tracking System, and Rule M 701.5(C.5)(5).. The Medical Marijuana Testing Facility must have the ability to reconcile its Sample records with the Inventory Tracking System and the associated transaction history. *See* Rule M 901 – Business Records Required and Rule M 711 Reporting and Inventory Tracking

H. Industrial Hemp Testing Prohibited. A Medical Marijuana Testing Facility shall not perform testing on Industrial Hemp.

I. Transporter Restrictions. A Medical Marijuana Testing Facility shall not sell or give away Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Transporter, and shall not buy, or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from a Medical Marijuana Transporter.

Basis and Purpose – M 703

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(X), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX),12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish a frame work for certification for Medical Marijuana Testing Facilities.

M 703 – Medical Marijuana Testing Facilities: Certification Requirements

A. Certification Types. If certification in a testing category is required by the Division, then the Medical Marijuana Testing Facility must be certified in the category in order to perform that type of testing.

1. Microbials;

1.5 Mycotoxins;

2. Residual solvents;

3. Pesticides; and

4. Repealed.

5. THC and other Cannabinoid potency.

B. Certification Procedures. The Medical Marijuana Testing Facility certification program is contingent upon successful on-site inspection, successful participation in Proficiency Testing, and ongoing compliance with the applicable requirements in this Rule.

1. Certification Inspection. A Medical Marijuana Testing Facility must be inspected prior to initial certification and annually thereafter by an inspector approved by the Division.

2. Standards for Certification. A Medical Marijuana Testing Facility must meet standards of performance, as established by these rules, in order to obtain and maintain certification. Standards of performance include but are not limited to: personnel qualifications, standard operating procedure manual, analytical processes, Proficiency Testing, quality control, quality assurance, security, chain of custody, Sample retention, space, records, and results reporting.

3. Personnel Qualifications

    a. Laboratory Director. A Medical Marijuana Testing Facility must employ, at a minimum, a laboratory director with sufficient education and experience in a regulated laboratory environment in order to obtain and maintain certification. See Rule M 704 – Medical Marijuana Testing Facilities: Personnel.

    b. Employee Competency. A Medical Marijuana Testing Facility must have a written and documented system to evaluate and document the competency in performing authorized tests for employees. Prior to independently analyzing Samples, testing personnel must demonstrate acceptable performance on precision, accuracy, specificity, reportable ranges, blanks, and unknown challenge samples (proficiency samples or internally generated quality controls).

4. Standard Operating Procedure Manual. A Medical Marijuana Testing Facility must have a written standard operating procedure manual meeting the minimum standards set forth in these rules detailing the performance of all methods employed by the facility used to test the analytes it reports and made available for testing analysts to follow at all times.

    a. The current laboratory director must approve, sign and date each procedure. If any modifications are made to those procedures, the laboratory director must approve, sign and date the revised version prior to use.

    b. A Medical Marijuana Testing Facility must maintain a copy of all standard operating procedures to include any revised copies for a minimum of three years. See Rule M 710 – Medical Marijuana Testing Facilities: Records Retention and Rule M 901 – Business Records Required.

5. Analytical Processes. A Medical Marijuana Testing Facility must maintain a listing of all analytical methods used and all analytes tested and reported. The Medical Marijuana Testing Facility must provide this listing to the Division upon request.

6. Proficiency Testing. A Medical Marijuana Testing Facility must successfully participate in a Division approved Proficiency Testing program in order to obtain and maintain certification.

7. Quality Assurance and Quality Control. A Medical Marijuana Testing Facility must establish and follow a quality assurance and quality control program to ensure sufficient monitoring of laboratory processes and quality of results reported.

8. Security. A Medical Marijuana Testing Facility must be located in a secure setting as to prevent unauthorized persons from gaining access to the testing and storage areas of the laboratory.

9. Chain of Custody. A Medical Marijuana Testing Facility must establish a system to document the complete chain of custody for Samples from receipt through disposal.

10. Space. A Medical Marijuana Testing Facility must be located in a fixed structure that provides adequate infrastructure to perform analysis in a safe and compliant manner consistent with federal, state and local requirements.

11. Records. A Medical Marijuana Testing Facility must establish a system to retain and maintain all required records. *See* Rule M 710 – Medical Marijuana Testing Facilities: Records Retention and Rule M 901 – Business Records Required.

12. Results Reporting. A Medical Marijuana Testing Facility must establish processes to ensure results are reported in a timely and accurate manner. See Rule M 711 – Reporting and Inventory Tracking System.

13. Conduct While Seeking Certification. A Medical Marijuana Testing Facility, and its agents and employees, shall provide all documents and information required or requested by the Colorado Department of Public Health and Environment and its employees, and the Division and its employees in a full, faithful, truthful, and fair manner.

C. A violation of this Rule may be considered a license violation affecting public safety.

Basis and Purpose – M 704

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX),12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish personnel standards for the operation of a Medical Marijuana Testing Facility.

M 704 – Medical Marijuana Testing Facilities: Personnel

A. Laboratory Director. The laboratory director is responsible for the overall analytical operation and quality of the results reported by the Medical Marijuana Testing Facility, including the employment of personnel who are competent to perform test procedures, and record and report test results promptly, accurately, and proficiently and for assuring compliance with the standards set forth in this Rule.

1. The laboratory director may also serve as a supervisory analyst or testing analyst, or both, for a Medical Marijuana Testing Facility.

2. The laboratory director for a Medical Marijuana Testing Facility must meet one of the following qualification requirements:

a. The laboratory director must be a Medical Doctor (M.D.) licensed to practice medicine in Colorado and have at least three years of full-time laboratory experience in a regulated laboratory environment performing analytical scientific testing in which the testing methods were recognized by an accrediting body; or

b. The laboratory director must hold a doctoral degree in one of the natural sciences and have at least three years of full-time laboratory experience in a regulated laboratory environment performing analytical scientific testing in which the testing methods were recognized by an accrediting body; or

c. The laboratory director must hold a master's degree in one of the natural sciences and have at least five years of full-time laboratory experience in a

regulated laboratory environment performing analytical scientific testing in which the testing methods were recognized by an accrediting body.

B. What the Laboratory Director May Delegate. The laboratory director may delegate the responsibilities assigned under this Rule to a qualified supervisory analyst, provided that such delegation is made in writing and a record of the delegation is maintained. See Rule M 901 – Business Records Required. Despite the designation of a responsibility, the laboratory director remains responsible for ensuring that all duties are properly performed.

C. Responsibilities of the Laboratory Director. The laboratory director must:

1. Ensure that the Medical Marijuana Testing Facility has adequate space, equipment, materials, and controls available to perform the tests reported;

2. Establish and adhere to a written standard operating procedure used to perform the tests reported;

3. Ensure that testing systems developed and used for each of the tests performed in the laboratory provide quality laboratory services for all aspects of test performance, which includes the preanalytic, analytic, and postanalytic phases of testing;

4. Ensure that the physical location and environmental conditions of the laboratory are appropriate for the testing performed and provide a safe environment in which employees are protected from physical, chemical, and biological hazards;

5. Ensure that the test methodologies selected have the capability of providing the quality of results required for the level of testing the laboratory is certified to perform;

6. Ensure that validation and verification test methods used are adequate to determine the accuracy, precision, and other pertinent performance characteristics of the method;

7. Ensure that testing analysts perform the test methods as required for accurate and reliable results;

8. Ensure that the laboratory is enrolled in and successfully participates in a Division approved Proficiency Testing program;

9. Ensure that the quality control and quality assessment programs are established and maintained to assure the quality of laboratory services provided and to identify failures in quality as they occur;

10. Ensure the establishment and maintenance of acceptable levels of analytical performance for each test system;

11. Ensure that all necessary remedial actions are taken and documented whenever significant deviations from the laboratory's established performance specifications are identified, and that test results are reported only when the system is functioning properly;

12. Ensure that reports of test results include pertinent information required for interpretation;

13. Ensure that consultation is available to the laboratory's clients on matters relating to the quality of the test results reported and their interpretation of said results;

14. Employ a sufficient number of laboratory personnel who meet the qualification requirements and provide appropriate consultation, properly supervise, and ensure accurate performance of tests and reporting of test results;

15. Ensure that prior to testing any samples, all testing analysts receive the appropriate training for the type and complexity of tests performed, and have demonstrated and documented that they can perform all testing operations reliably to provide and report accurate results;

16. Ensure that policies and procedures are established for monitoring individuals who conduct preanalytical, analytical, and postanalytical phases of testing to assure that they are competent and maintain their competency to process Samples, perform test procedures and report test results promptly and proficiently, avoid actual and apparent conflicts of interest, and whenever necessary, identify needs for remedial training or continuing education to improve skills;

17. Ensure that an approved standard operating procedure manual is available to all personnel responsible for any aspect of the testing process; and

18. Specify, in writing, the responsibilities and duties of each person engaged in the performance of the preanalytic, analytic, and postanalytic phases of testing, that identifies which examinations and procedures each individual is authorized to perform, whether supervision is required for Sample processing, test performance or results reporting, and whether consultant or laboratory director review is required prior to reporting test results.

C.5 Change in Laboratory Director. In the event that the laboratory director leaves employment at the Medical Marijuana Testing Facility, the Medical Marijuana Testing Facility shall:

1. Provide written notice to the Colorado Department of Public Health and Environment and the Marijuana Enforcement Division within seven days of the laboratory director's departure; and

2. Designate an interim laboratory director within seven days of the laboratory director's departure. At a minimum, the interim laboratory director must meet the qualifications of a supervisory analyst.

3. The Medical Marijuana Testing Facility must hire a permanent laboratory director within 60 days from the date of the previous laboratory director's departure.

4. Notwithstanding the requirement of subparagraph (C.5)(3), the Medical Marijuana Testing Facility may submit a waiver request to the Division Director to receive an additional 60 days to hire a permanent laboratory director provided that the Medical Marijuana Testing Facility submits a detailed oversight plan along with the waiver request.

D. Supervisory Analyst. Supervisory analysts must meet one of the qualifications for a laboratory director or have at least a bachelor's degree in one of the natural sciences and three years of full-time laboratory experience in a regulated laboratory environment performing analytical scientific testing in which the testing methods were recognized by an accrediting body. A combination of education and experience may substitute for the three years of full-time laboratory experience.

E. Laboratory Testing Analyst

1. Educational Requirements. An individual designated as a testing analyst must meet one of the qualifications for a laboratory director or supervisory analyst or have at least a

bachelor's degree in one of the natural sciences and one year of full-time experience in laboratory testing.

2. Responsibilities. In order to independently perform any test for a Medical Marijuana Testing Facility, an individual must at least meet the educational requirements for a testing analyst.

M 705 – Basis and Purpose

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish standard operating procedures manual standards for the operation of a Medical Marijuana Testing Facility.

M 705 – Medical Marijuana Testing Facilities: Standard Operating Procedure Manual

A. A standard operating procedure manual must include, but need not be limited to, procedures for:

1. Sample receiving;

2. Sample accessioning;

3. Sample storage;

4. Identifying and rejecting unacceptable Samples;

5. Recording and reporting discrepancies;

6. Security of Samples, aliquots and extracts and records;

7. Validating a new or revised method prior to testing Samples to include: accuracy, precision, analytical sensitivity, analytical specificity (interferences), LOD, LOQ, and verification of the reportable range;

8. Aliquoting Samples to avoid contamination and carry-over;

9. Sample retention to assure stability for 90 days;

10. Disposal of Samples;

11. The theory and principles behind each assay;

12. Preparation and identification of reagents, standards, calibrators and controls and ensure all standards are traceable to National Institute of Standards of Technology ("NIST");

13. Special requirements and safety precautions involved in performing assays;

14. Frequency and number of control and calibration materials;

15. Recording and reporting assay results;

16. Protocol and criteria for accepting or rejecting analytical procedure to verify the accuracy of the final report;

17. Pertinent literature references for each method;

18. Current step-by-step instructions with sufficient detail to perform the assay to include equipment operation and any abbreviated versions used by a testing analyst;

19. Acceptability criteria for the results of calibration standards and controls as well as between two aliquots or columns;

20. A documented system for reviewing the results of testing calibrators, controls, standards, and subject tests results, as well as reviewing for clerical errors, analytical errors and any unusual analytical results. Are corrective actions implemented and documented, and does the laboratory contact the requesting entity; and

21. Policies and procedures to follow when Samples are requested for referral and testing by another certified Medical Marijuana Testing Facility or an approved local state agency's laboratory.

M 706 – Basis and Purpose

The statutory authority for this rule includes but is not limited to 12-43.3-202(2.5)(a)(I) and section 12-43.3-405, C.R.S. The purpose of this rule is to establish analytical processes standards for the operation of a Medical Marijuana Testing Facility.

M 706 – Medical Marijuana Testing Facilities: Analytical Processes

A. Gas Chromatography ("GC"). A Medical Marijuana Testing Facility using GC must:

1. Document the conditions of the gas chromatograph, including the detector response;

2. Perform and document preventive maintenance as required by the manufacturer;

3. Ensure that records are maintained and readily available to the staff operating the equipment;

4. Document the performance of new columns before use;

5. Use an internal standard for each qualitative and quantitative analysis that has similar chemical and physical properties to that of the compound identified;

6. Establish criteria of acceptability for variances between different aliquots and different columns; and

7. Document the monitoring of the response (area or peak height) of the internal standard to ensure consistency overtime of the analytical system.

B. Gas Chromatography Mass Spectrometry ("GC/MS"). A Medical Marijuana Testing Facility using GC/MS must:

1. Perform and document preventive maintenance as required by the manufacturer;

2. Document the changes of septa as specified in the standard operating procedure;

3. Document liners being cleaned or replaced as specified in the standard operating procedure;

4. Ensure that records are maintained and readily available to the staff operating the equipment;

5. Maintain records of mass spectrometric tuning;

6. Establish written criteria for an acceptable mass-spectrometric tune;

7. Document corrective actions if a mass-spectrometric tune is unacceptable;

8. Monitor analytic analyses to check for contamination and carry-over;

9. Use selected ion monitoring within each run to assure that the laboratory compare ion ratios and retention times between calibrators, controls and Samples for identification of an analyte;

10. Use an internal standard for qualitative and quantitative analysis that has similar chemical and physical properties to that of the compound identified and is isotopically labeled when available or appropriate for the assay;

11. Document the monitoring of the response (area or peak height) for the internal standard to ensure consistency overtime of the analytical system;

12. Define the criteria for designating qualitative results as positive;

13. When a library is used to qualitatively match an analyte, the relative retention time and mass spectra from a known standard or control must be run on the same system before reporting the results; and

14. Evaluate the performance of the instrument after routine and preventive maintenance (*e.g.* clipping or replacing the column or cleaning the source) prior to analyzing subject Samples.

C. Immunoassays. A Medical Marijuana Testing Facility using Immunoassays must:

1. Perform and document preventive maintenance as required by the manufacturer;

2. Ensure that records are maintained and readily available to the staff operating the equipment;

3. Validate any changes or modifications to a manufacturer's approved assays or testing methods when a Sample is not included within the types of Samples approved by the manufacturer; and

4. Define acceptable separation or measurement units (absorbance intensity or counts per minute) for each assay, which must be consistent with manufacturer's instructions.

D. Thin Layer Chromatography ("TLC"). A Medical Marijuana Testing Facility using TLC must:

1. Apply unextracted standards to each thin layer chromatographic plate;

2. Include in their written procedure the preparation of mixed solvent systems, spray reagents and designation of lifetime;

3. Include in their written procedure the storage of unused thin layer chromatographic plates;

4. Evaluate, establish, and document acceptable performance for new thin layer chromatographic plates before placing them into service;

5. Verify that the spotting technique used precludes the possibility of contamination and carry-over;

6. Measure all appropriate RF values for qualitative identification purposes;

7. Use and record sequential color reactions, when applicable;

8. Maintain records of thin layer chromatographic plates; and

9. Analyze an appropriate matrix blank with each batch of Samples analyzed.

E. High Performance Liquid Chromatography ("HPLC"). A Medical Marijuana Testing Facility using HPLC must:

1. Perform and document preventive maintenance as required by the manufacturer;

2. Ensure that records are maintained and readily available to the staff operating the equipment;

3. Monitor and document the performance of the HPLC instrument each day of testing;

4. Evaluate the performance of new columns before use;

5. Create written standards for acceptability when eluting solvents are recycled;

6. Use an internal standard for each qualitative and quantitative analysis that has similar chemical and physical properties to that of the compound identified when available or appropriate for the assay; and

7. Document the monitoring of the response (area or peak height) of the internal standard to ensure consistency overtime of the analytical system.

F. Liquid Chromatography Mass Spectroscopy ("LC/MS"). A Medical Marijuana Testing Facility using LC/MS must:

1. Perform and document preventive maintenance as required by the manufacturer;

2. Ensure that records are maintained and readily available to the staff operating the equipment;

3. Maintain records of mass spectrometric tuning;

4. Document corrective actions if a mass-spectrometric tune is unacceptable;

5. Use an internal standard with each qualitative and quantitative analysis that has similar chemical and physical properties to that of the compound identified and is isotopically labeled when available or appropriate for the assay;

6. Document the monitoring of the response (area or peak height) of the internal standard to ensure consistency overtime of the analytical system;

7. Compare two transitions and retention times between calibrators, controls and Samples within each run;

8. Document and maintain records when changes in source, source conditions, eluent, or column are made to the instrument; and

9. Evaluate the performance of the instrument when changes in: source, source conditions, eluent, or column are made prior to reporting test results.

G. Other Analytical Methodology. A Medical Marijuana Testing Facility using other methodology or new methodology must:

1. Implement a performance based measurement system for the selected methodology and validate the method following good laboratory practices prior to reporting results. Validation of other or new methodology must include when applicable, but is not limited to:

a. Verification of Accuracy

b. Verification of Precision

c. Verification of Analytical Sensitivity

d. Verification of Analytical Specificity

e. Verification of the LOD

f. Verification of the LOQ

g. Verification of the Reportable Range

h. Identification of Interfering Substances

2. Validation of the other or new methodology must be documented.

3. Prior to use, other or new methodology must have a standard operating procedure approved and signed by the laboratory director.

4. Testing analysts must have documentation of competency assessment prior to testing Samples.

5. Any changes to the approved other or new methodology must be revalidated and documented prior to testing Samples.

M 707 – Basis and Purpose

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(2)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish a proficiency testing program for Medical Marijuana Testing Facilities.

M 707 – Medical Marijuana Testing Facilities: Proficiency Testing

This Rule shall be effective on July 1, 2016.

A. Proficiency Testing Required. A Medical Marijuana Testing Facility must participate in a Proficiency Testing Program for each approved category in which it seeks certification under Rule M 703 – Medical Marijuana Testing Facilities: Certification Requirements.

B. Participation in Designated Proficiency Testing Event. If required by the Division as part of certification, the Medical Marijuana Testing Facility must have successfully participated in a proficiency test in the category for which it seeks certification, within the preceding 12 months.

C. Continued Certification. To maintain continued certification, a Medical Marijuana Testing Facility must participate in the designated proficiency testing program with continued satisfactory performance as determined by the Division as part of certification. The Division may designate a local agency, state agency, or independent third-party to provide Proficiency Testing.

D. Analyzing Proficiency Testing Samples. A Medical Marijuana Testing Facility must analyze Proficiency Testing Samples using the same procedures with the same number of replicate analyses, standards, testing analysts and equipment as used in its standard operating procedures.

E. Proficiency Testing Attestation. The laboratory director and all testing analysts that participated in a Proficiency Testing must sign corresponding attestation statements.

F. Laboratory Director Must Review Results. The laboratory director must review and evaluate all Proficiency Testing results.

G. Remedial Action. A Medical Marijuana Testing Facility must take and document remedial action when a score of less than 100% is achieved on any test during a Proficiency Test. Remedial action documentation must include a review of Samples tested and results reported since the last successful proficiency testing event. A requirement to take remedial action does not necessarily indicate unsatisfactory participation in a Proficiency Testing event.

H. Unsatisfactory Participation in Proficiency Testing Event. Unless the Medical Marijuana Testing Facility positively identifies at least 80% of the target analytes tested, participation in the Proficiency Testing will be considered unsatisfactory. A positive identification must include accurate quantitative and qualitative results as applicable. Any false positive results reported will be considered an unsatisfactory score for the proficiency testing event.

I. Consequence of Unsatisfactory Participation in Proficiency Testing Event. Unsuccessful participation in a Proficiency Testing event may result in limitation, suspension or revocation of Rule M 703 certification.

M 708 – Basis and Purpose

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish quality assurance and quality assurance standards for a Medical Marijuana Testing Facility.

M 708 – Medical Marijuana Testing Facilities: Quality Assurance and Quality Control

This Rule shall be effective on July 1, 2016.

A. Quality Assurance Program Required. A Medical Marijuana Testing Facility must establish, monitor, and document the ongoing review of a quality assurance program that is sufficient to identify problems in the laboratory preanalytic, analytic and postanalytic systems when they occur and must include, but is not limited to:

1. Review of instrument preventive maintenance, repair, troubleshooting and corrective actions documentation must be performed by the laboratory director or designated supervisory analyst on an ongoing basis to ensure the effectiveness of actions taken over time;

2. Review by the laboratory director or designated supervisory analyst of all ongoing quality assurance; and

3. Review of the performance of validated methods used by the Medical Marijuana Testing Facility to include calibration standards, controls and the standard operating procedures used for analysis on an ongoing basis to ensure quality improvements are made when problems are identified or as needed.

B. Quality Control Measures Required. A Medical Marijuana Testing Facility must establish, monitor and document on an ongoing basis the quality control measures taken by the laboratory to ensure the proper functioning of equipment, validity of standard operating procedures and accuracy of results reported. Such quality control measures must include, but shall not be limited to:

1. Documentation of instrument preventive maintenance, repair, troubleshooting and corrective actions taken when performance does not meet established levels of quality;

2. Review and documentation of the accuracy of automatic and adjustable pipettes and other measuring devices when placed into service and annually thereafter;

3. Cleaning, maintaining and calibrating as needed the analytical balances and in addition, verifying the performance of the balance annually using certified weights to include three or more weights bracketing the ranges of measurement used by the laboratory;

4. Annually verifying and documenting the accuracy of thermometers using a NIST traceable reference thermometer;

5. Recording temperatures on all equipment when in use where temperature control is specified in the standard operating procedures manual, such as water baths, heating blocks, incubators, ovens, refrigerators, and freezers;

6. Properly labeling reagents as to the identity, the concentration, date of preparation, storage conditions, lot number tracking, expiration date and the identity of the preparer;

7. Avoiding mixing different lots of reagents in the same analytical run;

8. Performing and documenting a calibration curve with each analysis using at minimum three calibrators throughout the reporting range;

9. For qualitative analyses, analyzing, at minimum, a negative and a positive control with each batch of samples analyzed;

10. For quantitative analyses, analyzing, at minimum, a negative and two levels of controls that challenge the linearity of the entire curve;

11. Using a control material or materials that differ in either source or, lot number, or concentration from the calibration material used with each analytical run;

12. For multi-analyte assays, performing and documenting calibration curves and controls specific to each analyte, or at minimum, one with similar chemical properties as reported in the analytical run;

13. Analyzing an appropriate matrix blank and control with each analytical run, when available;

14. Analyzing calibrators and controls in the same manner as unknowns;

15. Documenting the performance of calibration standards and controls for each analytical run to ensure the acceptability criteria as defined in the Standard Operating Procedure is met;

16. Documenting all corrective actions taken when unacceptable calibration, control, and standard or instrument performance does not meet acceptability criteria as defined in the Standard Operating Procedure;

17. Maintaining records of validation data for any new or modified methods to include; accuracy, precision, analytical specificity (interferences), LOD, LOQ, and verification of the linear range; and

18. Performing testing analysts that follow the current standard operating procedures manual for the test or tests to be performed.

M 709 – Basis and Purpose

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish chain of custody standards for a Medical Marijuana Testing Facility. In addition, it establishes the requirement that a Medical Marijuana Testing Facility follow an adequate chain of custody for Samples it maintains.

M 709 – Medical Marijuana Testing Facilities: Chain of Custody

This Rule shall be effective on July 1, 2016.

General Requirements. A Medical Marijuana Testing Facility must establish an adequate chain of custody and Sample requirement instructions that must include, but not be limited to;

1. Issue instructions for the minimum Sample requirements and storage requirements;

2. Document the condition of the external package and integrity seals utilized to prevent contamination of, or tampering with, the Sample;

3. Document the condition and amount of Sample provided at the time of receipt;

4. Document all persons handling the original Samples, aliquots, and extracts;

5. Document all Transfers of Samples, aliquots, and extracts referred to another certified Medical Marijuana Testing Facility Licensee for additional testing or whenever requested by a client;

6. Maintain a current list of authorized personnel and restrict entry to the laboratory to only those authorized;

7. Secure the Laboratory during non-working hours;

8. Secure short and long-term storage areas when not in use;

9. Utilize a secured area to log-in and aliquot Samples;

10. Ensure Samples are stored appropriately; and

11. Document the disposal of Samples, aliquots, and extracts.

Basis and Purpose – M 710

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish records retention standards for a Medical Marijuana Testing Facility.

M 710 – Medical Marijuana Testing Facilities: Records Retention

This Rule shall be effective on July 1, 2016.

A. General Requirement. A Medical Marijuana Testing Facility must maintain all required business records. *See* Rule M901 - Business Records Required.

B. Specific Business Records Required: Records Retention. A Medical Marijuana Testing Facility must establish processes to preserve records in accordance with Rule M 901 that includes, but is not limited to;

1. Test Results, including final and amended reports, and identification of analyst and date of analysis;

2. Quality Control and Quality Assurance Records, including accession numbers, Sample type, and acceptable reference range parameters;

3. Standard Operating Procedures;

4. Personnel Records;

5. Chain of Custody Records;

6. Proficiency Testing Records; and

7. Analytical Data to include data generated by the instrumentation, raw data calibration standards, and curves. .

C. Repealed.

Basis and Purpose – M 711

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(2.5)(a)(I) and 12-43.3-405, C.R.S. The purpose of this rule is to establish reporting standards for a Medical Marijuana Testing Facility.

M 711 – Reporting and Inventory Tracking System

Required Procedures. A Medical Marijuana Testing Facility must establish procedures to ensure that results are accurate, precise and scientifically valid prior to reporting such results.

A. Reports. Every final report, whether submitted to the Division, to a Medical Marijuana Business or to any other Person authorized to receive the report, must include the following:

1. Report quantitative results that are only above the lowest concentration of calibrator or standard used in the analytical run;

2. Verify results that are below the lowest concentration of calibrator or standard and above the LOQ by using a blank and a standard that falls below the expected value of the analyte in the sample in duplicate prior to reporting a quantitative result;

3. Qualitatively report results below the lowest concentration of calibrator or standard and above the LOD as either trace or using a non-specific numerical designation;

4. Adequately document the available external chain of custody information;

5. Ensure all final reports contain the name and location of the Medical Marijuana Testing Facility that performed the test, name and unique identifier of sample, submitting client, Sample received date, date of report, type of Sample tested, test result, units of measure, and any other information or qualifiers needed for interpretation when applicable to the test method and results being reported, to include any identified and documented discrepancies; and

6. Provide the final report to the Division, as well as the Medical Marijuana Business and/or any other Person authorized to receive the report in a timely manner; and

7. Repealed.

B. Inventory Tracking System. Each Medical Marijuana Testing Facility shall:

1. Report all test results to the Division as part of daily reconciliation by the close of business and in accordance with all Inventory Tracking System Procedures under Rule M 309 – Medical Marijuana Businesses: Inventory Tracking System. The requirement to report all test results includes:

a. Both positive and negative test results;

b. Results from both mandatory and voluntary testing; and

c. For quantitative tests, a quantitative value.

2. As part of Inventory Tracking System reporting, when results of tested Samples exceed maximum levels of allowable potency or contamination, or otherwise result in failed potency, homogeneity, or contaminant testing, the Medical Marijuana Testing Facility shall, in the Inventory Tracking System, indicate failed test results for the Inventory Tracking System package associated with the failed Sample. This requirement only applies to testing of Samples that are comprised of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

C. Violation affecting public safety. Violation of this Rule may constitute a license violation affecting public safety

Basis and Purpose – M 712

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.4-203(2.5)(a)(I), 12-43.3-202(2)(a)(XIV), 12-43.4-202(2)(a)(XI), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(XX), and 12-43.3-405, C.R.S. Authority also exists in the Colorado Constitution at Article XVIII, Subsection 16(5)(a)(VII). The purpose of this rule is to establish the portion of the Division's mandatory testing and random sampling program that is applicable to Medical Marijuana Testing Facilities. The allowable plus or minus 15% potency variance has been included in the rule pursuant to the mandate of Senate Bill 15-260. Section 1 of the bill required the State Licensing Authority to establish

an acceptable potency variance. The acceptable potency variance has been set at plus or minus 15% to comport with the potency variance mandated by the Medical Code.

M 712 – Medical Marijuana Testing Facilities: Sampling and Testing Program

A. Division Authority. The Division may require that a Test Batch be submitted to a specific Medical Marijuana Testing Facility for testing to verify compliance, perform investigations, compile data or address a public health and safety concern.

B. Test Batches

1. Medical Marijuana and Medical Marijuana Concentrate. A Medical Marijuana Testing Facility must establish a standard minimum weight of Medical Marijuana and Medical Marijuana Concentrate that must be included in a Test Batch for every type of test that it conducts.

2. Medical Marijuana Infused-Product. A Medical Marijuana Testing Facility must establish a standard number of Samples it requires to be included in each Test Batch of Medical Marijuana Infused-Product for every type of test that it conducts. *See* Rule M 1504 – Medical Marijuana Testing Program – Sampling Procedures.

C. Rejection of Test Batches

1. A Medical Marijuana Testing Facility may not accept a Test Batch that is smaller than its standard minimum amount.

2. A Medical Marijuana Testing Facility may not accept a Test Batch that it knows was not taken in accordance with these rules, except a Medical Marijuana Testing Facility May Accept a Test Batch that was collected by Division representatives or that was collected by a Licensee pursuant to Division direction.

D. Notification of Medical Marijuana Business. If Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana Infused-Product failed a contaminant test, then the Medical Marijuana Testing Facility must immediately (1) notify the Medical Marijuana Business that submitted the Test Batch or Sample for testing and any Person as directed by an approved Research Project being conducted by a Licensed Research Business; and (2) report the failure in accordance with the Inventory Tracking System reporting requirements in Rule R 711(B).

E. Permissible Levels of Contaminants. If Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana Infused-Product is found to have a contaminant in levels exceeding those established as permissible under this Rule, then it shall be considered to have failed contaminant testing. Notwithstanding the permissible levels established in this rule, the Division reserves the right to determine, upon good cause and reasonable grounds, that a particular Test Batch presents a risk to the public health or safety and therefore shall be considered to have failed a contaminant test.

1. Microbials (Bacteria, Fungus)

Substance	**Acceptable Limits Per Gram**	**Product to be Tested**
–Shiga-toxin producing Escherichia coli (STEC)*- Bacteria	< 1 Colony Forming Unit (CFU)	Flower; Medical Marijuana Infused-Product; Water-Based, Heat/Pressure-Based, and Food-Based Medical Marijuana Concentrate
Salmonella species* – Bacteria	< 1 Colony Forming Unit (CFU)	
Total Yeast and Mold	< 10^4 Colony Forming Unit (CFU)	

*The Medical Marijuana Testing Facility shall contact the Colorado Department of Public Health and Environment when STEC and Salmonella are detected beyond the acceptable limits

2. Mycotoxins

Substance	**Acceptable Limits Per Gram**	**Product to be Tested**
Aflatoxins (B1, B2, G1, and G2)	< 20 parts per billion (PPB) (total of B1 + B2 + G1 + G2)	Solvent-Based Medical Marijuana Concentrate manufactured from Medical Marijuana flower or trim that failed microbial testing
Ochratoxin A	< 20 parts per billion (PPB)	

3. Residual Solvents

Substance	**Acceptable Limits Per Gram**	**Product to be Tested**
Acetone	< 1,000 Parts Per Million (PPM)	Solvent-Based Medical Marijuana Concentrate
Butanes	< 1,000 Parts Per Million (PPM)	
Ethanol***	< 1,000 Parts Per Million (PPM)	
Heptanes	< 1,000 Parts Per Million (PPM)	
Isopropyl Alcohol	< 1,000 Parts Per Million (PPM)	
Propane	< 1,000 Parts Per Million (PPM)	
Benzene**	< 2 Parts Per Million (PPM)	
Toluene**	< 180 Parts Per Million (PPM)	
Pentane	< 1,000 Parts Per Million (PPM)	
Hexane**	< 60 Parts Per Million (PPM)	
Total Xylenes (m,p, o-xylenes)**	< 430 Parts Per Million (PPM)	
Any other solvent not permitted for use pursuant to Rule M 605.	None Detected	

** Note: These solvents are not approved for use. Due to their possible presence in the solvents approved for use per Rule M 605, limits have been listed here accordingly.

***Note. If the Medical Marijuana Concentrate or Medical Marijuana-Infused Product intended use is oral consumption or skin and body products only this Solvent-Based Medical Marijuana Concentrate limit for ethanol does not apply. If the Medical Marijuana Concentrate or Medical Marijuana-Infused Product intended use includes inhaled product, this Solvent-Based Medical Marijuana Concentrate limit for ethanol applies.

4. Metals

Substance	**Acceptable Limits Per Gram**	**Product to be Tested**
Metals (Arsenic, Cadmium, Lead and Mercury)	Lead – Max Limit: < 1.0 ppm Arsenic – Max Limit: < 0.4 ppm Cadmium – Max Limit: < 0.4 ppm Mercury – Max Limit: < 0.2 ppm	Flower; Water-Based, Food-Based, Heat/Pressure-Based, and Solvent-Based Medical Marijuana Concentrate

5. Pesticides

Substance	**Detection Limits**	**Product to be Tested**
Abamectin (Avermectins: B1a & B1b)	< 0.07 Parts Per Million (PPM)	Medical Marijuana flower and trim
Azoxystrobin	< 0.02 Parts Per Million (PPM)	
Bifenazate	< 0.02 Parts Per Million (PPM)	
Etoxazole	< 0.01 Parts Per Million (PPM)	
Imazalil	< 0.04 Parts Per Million (PPM)	
Imidacloprid	< 0.02 Parts Per Million (PPM)	
Malathion	< 0.05 Parts Per Million (PPM)	
Myclobutanil	< 0.04 Parts Per Million (PPM)	
Permethrin (mix of isomers)	< 0.04 Parts Per Million (PPM)	
Spinosad (Mixture of A and D)	< 0.06 Parts Per Million (PPM)	
Spiromesifen	< 0.03 Parts Per Million (PPM)	
Spirotetramat	< 0.02 Parts Per Million (PPM)	
Tebuconazole	< 0.01 Parts Per Million (PPM)	

6. Other Contaminants

Pesticide	If the Test Batch is found to contain a prohibited Pesticide not listed in Paragraph (5) above,

	or the improper application of a permitted Pesticide, then that Test Batch shall be considered to have failed contaminant testing.
Chemicals	If Test Batch is found to contain levels of any chemical that could be toxic if consumed or as applied, then the Division may determine that the Test Batch has failed contaminant testing.
Microbials	If Test Batch is found to contain levels of any microbial that could be toxic if consumed or present, then the Division may determine that the Test Batch has failed contaminant testing.

7. Division Notification. A Medical Marijuana Testing Facility must notify the Division by timely input in the Inventory Tracking System if a Test Batch is found to contain levels of a contaminant not listed within this rule that could be injurious to human health if consumed. *See* Rule M 711 – Reporting and Inventory Tracking System.

F. Potency Testing

1. Cannabinoids Potency Profiles. A Medical Marijuana Testing Facility may test and report results for any Cannabinoid provided the test is conducted in accordance with the Division's Medical Marijuana Testing Facility's standard operating procedures Certification Policy Statement.

2. Reporting of Results

a. For potency tests on Medical Marijuana and Medical Marijuana Concentrate, results must be reported by listing a single percentage concentration for each Cannabinoid that represents an average of all Samples within the Test Batch. This includes reporting of Total THC in addition to each Cannabinoid required in Rule M 1503.

b. For potency tests conducted on Medical Marijuana Infused-Product, results must be reported by listing the total number of milligrams contained within a single Medical Marijuana-Infused Product unit for sale for each Cannabinoid and stating whether the THC content is homogenous.

3. Testing Medical Marijuana Ready for Transfer. All potency tests must occur at the time the Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product has completed all steps required prior to Transfer to another Medical Marijuana Business as outlined in the Medical Marijuana Testing Facility's standard operating procedures.

4. Failed Potency Tests for Medical Marijuana Infused-Product

a. If the THC content of a Medical Marijuana Infused-Product is determined through testing not to be homogenous, then it shall be considered to have failed potency testing. A Medical Marijuana Infused-Product shall be considered not to be homogenous if 10% of the infused portion of the Medical Marijuana Infused-Product contains more than 20% of the total THC contained within entire Medical Marijuana Infused-Product.

b. If an individually packaged Edible Medical Marijuana-Infused Product is determined to have more than the total milligrams of THC stated on the Container, or less than the total milligrams of THC stated on the Container, then the Test Batch shall be considered to have failed potency testing. Except that the potency variance provided for in subparagraph (F)(5) of this Rule M 712 shall apply to potency testing.

5. Potency Variance. A potency variance of no more than plus or minus 15% is allowed.

M 800 Series – Transport and Storage

Basis and Purpose – M 801

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XVIII.6) 12-43.3-202(2)(a)(XX) and 12-43.3-406, C.R.S. The purpose of the rule is to provide clarity as to the requirements associated with the transport and delivery of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product between Licensed Premises. It also prescribes the manner in which licensed entities will track inventory in the transport process to prevent diversionary practices.

M 801 – Transport: All Medical Marijuana Businesses

A. Persons Authorized to Transport. Except as provided in the Rule M 1600 Series, any individual who transports Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product on behalf of a Medical Marijuana Business must hold a valid Occupational License and must be an employee or Owner of the Medical Marijuana Business. An individual who does not possess a current and valid Occupational License from the State Licensing Authority may not transport Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product between Licensed Premises.

B. Transport Between Licensed Premises.

1. Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product shall only be transported by Licensees between Licensed Premises; between Licensed Premises and a permitted off-premises storage facility; between Licensed Premises and a Medical Research Facility; and between Licensed Premises and a Pesticide Manufacturer. Licensees transporting Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are responsible for ensuring that all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are secured at all times during transport.

2. Medical Marijuana Vegetative Plants and Medical Marijuana Immature Plants.

a. Medical Marijuana Vegetative plants may only be transported between Licensed Premises and such transport shall be permitted only due to an approved change of location pursuant to rule M 206, or due to a one-time transfer pursuant to rule M 211.

b. Medical Marijuana Immature plants shall only be transported between Licensed Premises; between licensed Premises and a Medical Research Facility; and between Licensed Premises and a Pesticide Manufacturer.

c. Licensees transporting Medical Marijuana Vegetative plants and Medical Marijuana Immature plants are responsible for ensuring that all Medical Marijuana Vegetative plants and Medical Marijuana Immature plants are secure at all times during transport. Transportation of Medical Marijuana Vegetative plants and Medical Marijuana Immature plants to a permitted off-premises storage facility shall not be allowed. Transport of Medical Marijuana plants other than Vegetative plants and Immature plants shall not be allowed.

C. Inventory Tracking System-Generated Transport Manifest Required. A Licensee may only transport Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product if he or she has a hard copy of an Inventory Tracking System-generated transport manifest that contains all the information required by this rule and shall be in the format prepared by the State Licensing Authority.

1. Medical Marijuana, Medical Marijuana Immature Plants, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. A Licensee may transport Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from an originating location to multiple destination locations so long as the transport manifest correctly reflects the specific inventory destined for specific Medical Marijuana Businesses, Medical Research Facilities, and/or Pesticide Manufacturers.

2. Medical Marijuana Vegetative Plants. A Licensee shall transport Medical Marijuana Vegetative plants only from the originating Licensed Premises to the destination Licensed Premises due to a change of location that has been approved by the Division pursuant to Rule M 206, or from a Medical Marijuana Business to a Retail Marijuana Establishment due to a one-time transfer pursuant to Rule M 211.

3. Manifest for Transfers to Medical Research Facilities and Pesticide Manufacturers. A Licensee may not transport or permit the transportation of Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products to a Medical Research Facility or Pesticide Manufacturer unless an Inventory Tracking System-generated transport manifest has been generated.

D. Motor Vehicle Required. Transport of Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product shall be conducted by a motor vehicle that is properly registered in the state of Colorado pursuant to motor vehicle laws, but need not be registered in the name of the Licensee. Except that when a rental truck is required for transporting Medical Marijuana Vegetative plants or Medical Marijuana Immature plants, Colorado motor vehicle registration is not required.

E. Documents Required During Transport. Transport of Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product shall be accompanied by a copy of the originating Medical Marijuana Business's business license, the driver's valid Owner or Occupational License, the driver's valid motor vehicle operator's license, and all required vehicle registration and insurance information.

F. Use of Colorado Roadways. State law does not prohibit the transport of Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product on any public road within the state of Colorado as authorized in this rule. However, nothing herein authorizes a Licensee to violate specific local ordinances or resolutions enacted by any city, town, city and county, or county related to the transport of Medical Marijuana, Medical Marijuana Vegetative plants, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

G. Preparation of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product for Transport

1. Final Weighing and Packaging. A Medical Marijuana Business shall comply with the specific rules associated with the final weighing and packaging of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product before such items

are prepared for transport pursuant to this rule. The scale used to weigh product to be transported shall be tested and approved in accordance with measurement standards established in 35-14-127, C.R.S.

2. Preparation in Limited Access Area. Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product shall be prepared for transport in a Limited Access Area, including the packaging and labeling of Containers or Shipping Containers.

3. Shipping Containers. Licensees may Transfer multiple Containers of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in a Shipping Container. The contents of Shipping Containers shall be easily accessible and may be inspected by the State Licensing Authority, local licensing authorities, and state and local law enforcement agency for a purpose authorized by the Medical Code or for any other state or local law enforcement purpose.

G.5 Required RFID Tags.

1. Licensees shall ensure that either the multiple Containers placed within a Shipping Container each have an RFID tag, or the Shipping Container itself must have an RFID tag. If the Licensee elects to place the RFID tag on the Shipping Container, the Shipping Container shall contain only one Harvest Batch, or Production Batch of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana Product. If a Shipping Container consists of more than one Harvest Batch or Production Batch, then each group of multiple Containers shall be affixed with an RFID tag.

2. Medical Marijuana Vegetative Plants and Medical Marijuana Immature Plants. Each Medical Marijuana Vegetative plant that is transported pursuant to this rule must have a RFID tag affixed to it prior to transport. Each receptacle containing Medical Marijuana Immature plants transported pursuant to this rule must have an RFID tag affixed prior to transport.

H. Creation of Records and Inventory Tracking

1. Use of Inventory Tracking System -Generated Transport Manifest.

a. Medical Marijuana, Medical Marijuana Immature Plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. Licensees who transport or permit the transportation of Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall create an Inventory Tracking System-generated transport manifest to reflect inventory that leaves the Licensed Premises destined for other Licensed Premises, Medical Research Facilities, or Pesticide Manufacturers. The transport manifest may either reflect all deliveries for multiple locations within a single trip or separate transport manifests may reflect each single delivery. In either case, no inventory shall be transported without an Inventory Tracking System-generated transport manifest.

a.1 Use of a Medical Marijuana Transporter. In addition to subparagraph (H)(1)(a), Licensees shall also follow the requirements of this subparagraph (H)(1)(a.1) when a Licensee utilizes the services of a Medical Marijuana Transporter.

i. When a Medical Marijuana Business utilizes a Medical Marijuana Transporter for transporting its Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products, the originating Licensee shall input the requisite

information on the Inventory Tracking System-generated transport manifest for the final destination Licensee, Medical Research Facility, or Pesticide Manufacturer who will be receiving the Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products.

ii. A Medical Marijuana Transporter is prohibited from being listed as the final destination Licensee.

iii. A Medical Marijuana Transporter shall not alter the information of the final destination Licensee, Medical Research Facility, or Pesticide Manufacturer after the information has been entered on the Inventory Tracking System-generated transport manifest by the originating Licensee.

iv. If the Medical Marijuana Transporter is not delivering the originating Licensee's Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana- Infused Product directly to the final destination Licensee, Medical Research Facility, or Pesticide Manufacturer, the Medical Marijuana Transporter shall communicate to the originating Licensee which of the Medical Marijuana Transporter's Licensed Premises or off-premises storage facilities will receive and temporarily store the Medical Marijuana, Medical Marijuana Immature plants, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. The originating Licensee shall input the Medical Marijuana Transporter's location address and license number on the Inventory Tracking System-generated transport manifest.

b. Medical Marijuana Vegetative Plants.

i. Licensees who transport Medical Marijuana Vegetative plants shall create an Inventory Tracking System-generated transport manifest to reflect inventory that leaves the originating Licensed Premises to be transported to the destination Licensed Premises due to a change of location approved by the Division pursuant to Rule M 206, or a one-time transfer pursuant to Rule M 211.

ii. Medical Marijuana Transporters are permitted to transport Medical Marijuana Vegetative plants on behalf of other Licensees due to a change of location approved by the Division pursuant to Rule M 206, or a one-time transfer pursuant to Rule M 211. The Medical Marijuana Transporter shall transport the Medical Marijuana Vegetative plants directly from the originating Licensed Premises to the final destination Licensed Premises.

2. Copy of Transport Manifest to Recipient. A Licensee shall provide a copy of the transport manifest to each Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer receiving the inventory described in the transport manifest. In order to maintain transaction confidentiality, the originating Licensee may prepare a separate Inventory Tracking System-generated transport manifest for each recipient Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer.

3. The Inventory Tracking System-generated transport manifest shall include the following:

a. Departure date and approximate time of departure;

b. Name, location address, and license number of the originating Medical Marijuana Business;

c. Name, location address, and license number of the destination Medical Marijuana Business(es), or the destination Retail Marijuana Establishment in the event of a one-time transfer; name and location address of the destination Medical Research Facility; or name and location address of the destination Pesticide Manufacturer;

c.1 Name, location address, and license number of the Medical Marijuana Transporter if applicable pursuant to M 801(H)(1)(a.1)(iv).

d. Product name and quantities (by weight or unit) of each product to be delivered to each specific destination location(s);

e. Arrival date and estimated time of arrival;

f. Delivery vehicle make and model and license plate number; and

g. Name, Occupational License number, and signature of the Licensee accompanying the transport.

I. Inventory Tracking. In addition to all the other tracking requirements set forth in these rules, a Medical Marijuana Business shall be responsible for all the procedures associated with the tracking of inventory that is transported between Licensed Premises. See Rule M 901 – Business Records Required.

1. Responsibilities of Originating Licensee.

a. Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. Prior to departure, the originating Medical Marijuana Business shall adjust its records to reflect the removal of Medical Marijuana or Medical Marijuana-Infused Product. The scale used to weigh product to be transported shall be tested and approved in accordance with measurement standards established in section 35-14-127, C.R.S. Entries to the records shall note the Inventory Tracking System-generated transport manifest and shall be easily reconciled, by product name and quantity, with the applicable transport manifest.

b. Medical Marijuana Vegetative Plants and Medical Marijuana Immature Plants. Prior to departure, the originating Optional Premises Cultivation Operation shall adjust its records to reflect the removal of Medical Marijuana Vegetative plants and Medical Marijuana Immature plants. Entries to the records shall note the Inventory Tracking System-generated transport manifest and shall be easily reconciled, by product name and quantity, with the applicable transport manifest.

2. Responsibilities of Recipient.

a. Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. Upon receipt, the receiving Licensee shall ensure that the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product received are as described in the transport manifest, If necessary, the receiving Licensee shall immediately adjust its records to reflect the receipt of inventory. The scale used to weigh product being received shall be tested and approved in accordance with measurement standards established in 35-14-127, C.R.S. Entries to the inventory records shall note the Inventory Tracking System-

generated transport manifest and shall be easily reconciled, by product name and quantity, with the applicable transport manifest. Medical Marijuana Transporters shall comply with all requirements of this subparagraph (l)(2)(a) except that they are not required to weigh Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products.

i. When a Medical Marijuana Business transfers Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Research Facility or Pesticide Manufacturer, the originating Licensee is responsible for confirming delivery of the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in the Inventory Tracking System.

b. Medical Marijuana Vegetative Plants and Medical Marijuana Immature Plants. Upon receipt, the receiving Licensee shall ensure that the Medical Marijuana Vegetative plants received are as described in the transport manifest, accounting for all RFID tags and each associated plant, and shall immediately adjust its records to reflect the receipt of inventory. Upon Receipt, the recipient Licensee shall ensure that the Medical Marijuana Immature plants received are as described in the transport manifest, accounting for all RFID tags and each receptacle containing Medical Marijuana Immature plants, and shall immediately adjust its records to reflect the receipt of inventory.

i. When a Medical Marijuana Business transfers Medical Marijuana Immature plants to a Medical Research Facility or Pesticide Manufacturer, the originating Licensee is responsible for confirming delivery of the Medical Marijuana Immature plants in the Inventory Tracking System.

3. Discrepancies.

a. Licensees. A receiving Licensee shall separately document any differences between the quantity specified in the transport manifest and the quantities received. Such documentation shall be made in the Inventory Tracking System and in any relevant business records.

b. Medical Research Facilities and Pesticide Manufacturers. In the event of a discrepancy between the quantity specified in a transport manifest and the quantity received by a Medical Research Facility or Pesticide Manufacturer, the originating Licensee shall document the discrepancy in the Inventory Tracking System and in any relevant business records, and account for the discrepancy

J. Adequate Care of Perishable Medical Marijuana-Infused Product. A Medical Marijuana Business must provide adequate refrigeration for perishable Medical Marijuana-Infused Product during transport.

K. Failed Testing. In the event Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product has failed required testing, has been contaminated, or otherwise presents a risk of cross-contamination to other Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product, such Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product may only be transported if it is physically segregated and contained in a sealed package that prevents cross-contamination.

Basis and Purpose – M 802

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XVIII.6) 12-43.3-202(2)(a)(XX), and 12-43.3-406(2), C.R.S. The purpose of this rule is to establish that Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product may not be stored outside of Licensed Premises unless the Licensee obtains an off-premises storage permit.

M 802 – Off-Premises Storage of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product: All Medical Marijuana Businesses

A. Off-premises Storage Permit Authorized. A Medical Marijuana Center, Medical Marijuana-Infused Products Manufacturer, an Optional Premises Cultivation Operation, and a Medical Marijuana Testing Facility may only store Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in their Licensed Premises or in their one permitted off-premises storage facility. Medical Marijuana Transporters are allowed to have more than one permitted off-premises storage facility.

B. Permitting. To obtain a permit for an off-premises storage facility, a Medical Marijuana Business must apply on current Division forms and pay any applicable fees. A Medical Marijuana Transporter may only apply for and hold an off-premises storage permit in a local jurisdiction that permits the operation of Medical Marijuana Centers.

C. Extension of Licensed Premises. A permitted off-premises storage facility shall constitute an extension of the Medical Marijuana Business' Licensed Premises and be subject to all to the conditions and restrictions established in Rule M 301 – Limited Access Areas.

D. Limitation on Inventory to be Stored. A Medical Marijuana Center, Medical Marijuana-Infused Products Manufacturer, and an Optional Premises Cultivation Operation may only have upon the permitted off-premises storage facility Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that are part of the particular Medical Marijuana Business's finished goods inventory. The aforementioned Licensees may not share the premises with, nor store inventory belonging to, a Medical Marijuana Business that is not commonly-owned or a Retail Marijuana Establishment.

E. Restrictions. The permitted off-premises storage facility may be utilized for storage only. A Licensee may not Transfer, cultivate, manufacture, process, test, research, or consume any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product within the premises of the permitted off-premises storage facility.

F. Display of Off-premises Storage Permit and License. The off-premises storage facility permit and a copy of the Medical Marijuana Business' license must be displayed in a prominent place within the permitted off-premises storage facility.

G. Local Licensing Authority Approval

1. Prior to submitting an application for an off-premises storage facility permit, the Licensee must obtain approval from the relevant local licensing authority.

2. A copy of the relevant local licensing authority's approval must be submitted by the Licensee in conjunction with its application for an off-premises storage facility.

3. No Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product may be stored within a permitted storage facility until the relevant local licensing authority has been provided a copy of the off-premises storage facility permit.

4. Any off-premises storage permit issued by the Division shall be conditioned upon the Medical Marijuana Business' receipt of all required local approvals.

H. Security in Storage Facility. A permitted off-premises storage facility must meet all video and security requirements applicable to a Licensed Premises.

I. Transport to or from a Permitted Off-premises Storage Facility. A Medical Marijuana Business must comply with Rule M 801 – Transport: All Medical Marijuana Businesses, when transporting any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to and from a permitted off-premises storage facility.

J. Inventory Tracking. In addition to all the other tracking requirements set forth in these rules, a Medical Marijuana Business shall utilize the Inventory Tracking System to track its inventories from the point of transfer to or from a permitted off-premises storage facility. See Rules M 901 – Business Records Required and M 309- Medical Marijuana Business: Inventory Tracking System.

K. Inventory Tracking System Access and Scale. Every permitted off-premises storage facility must have an Inventory Tracking System terminal and a scale tested and approved in accordance with measurement standards established in section 35-14-127, C.R.S.

L. Adequate Care of Perishable Medical Marijuana-Infused Product. A Medical Marijuana Business must provide adequate refrigeration for perishable Medical Marijuana-Infused Product and shall utilize adequate storage facilities and transport methods.

M. Consumption Prohibited. A Medical Marijuana Business shall not permit the consumption of marijuana or marijuana products on the premises of its permitted off-premises storage facility.

M 900 Series – Business Records

Basis and Purpose – M 901

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XVII), and 12-43.3-202(2)(a)(XX), C.R.S. This rule explains what business records a Licensee must maintain. It also clarifies that such records must be made available to the Division on demand. Rule R 901(B) was added due to written commentary received from an industry representative.

M 901 – Business Records Required

A. General Requirements

1. A Medical Marijuana Business must maintain the information required in this rule in a format that is readily understood by a reasonably prudent business person.

2. Each Medical Marijuana Business shall retain all books and records necessary to fully account for the business transactions conducted under its license for the current year and three preceding calendar years.

a. On premises records: The Medical Marijuana Business' books and records for the preceding six months (or complete copies of such records) must be maintained on its Licensed Premises at all times.

b. On- or off-premises records: Books and records associated with older periods may be archived on or off of the Licensed Premises.

3. The books and records must fully account for the transactions of the business and must include, but shall not be limited to:

   a. Current Employee List – This list must provide the full name and Occupational License number of each employee and all non-employee Owners, who work at a Medical Marijuana Business.

      i. Each Licensed Premises shall enter the full name and Occupational License number of every employee that works on the premises into the Inventory Tracking System. The Licensed Premises shall update its list of employees in the Inventory Tracking System within 10 days of an employee commencing or ceasing employment on the premises.

   b. Secure Facility Information – For its Licensed Premises and any associated permitted off-premises storage facility, a Medical Marijuana Business must maintain the business contact information for vendors that maintain video surveillance systems and Security Alarm Systems.

   c. Licensed Premises – Diagram of all approved Limited Access Areas and any permitted off-premises storage facilities.

   d. Visitor Log – List of all visitors entering Limited Access Areas or Restricted Access Areas.

   e. All records normally retained for tax purposes.

   f. Advertising Records – All records related to Advertising and marketing, including but not limited to, audience composition data.

   g. Waste log – Comprehensive records regarding all waste material that accounts for, reconciles, and evidences all waste activity related to the disposal of marijuana.

   h. Surveillance logs – Surveillance logs as required by Rule M 306.

   i. Every Licensee shall maintain a record of its Identity Statement and Standardized Graphic Symbol which shall be available upon request by the State Licensing Authority or Division. A Licensee may elect to have its Identity Statement also serve as its Standardized Graphic Symbol for purposes of complying with this rule.

   j. All records normally retained for tax purposes.

   k. Testing Records – all testing records required by Rule M 710.

B. Loss of Records and Data. Any loss of electronically-maintained records shall not be considered a mitigating factor for violations of this rule. Licensees are required to exercise due diligence in preserving and maintaining all required records.

C. Violation Affecting Public Safety. Violation of this rule may constitute a license violation affecting public safety.

D. Records Related to Inventory Tracking. A Medical Marijuana Business must maintain accurate and comprehensive inventory tracking records that account for, reconcile, and evidence all inventory activity for Medical Marijuana from either seed or Immature Plant stage until the Medical

Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product is destroyed or Transferred to another Medical Marijuana Business, a patient, a Medical Research Facility, or a Pesticide Manufacturer.

E. Records Related to Transport. A Medical Marijuana Business must maintain adequate records for the transport of all activities related to Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. *See* Rule M 801 – Transport: All Medical Marijuana Businesses.

F. Provision of Requested Records to the Division. A Licensee must provide on-demand access to on-premises records following a request from the Division during normal business hours or hours of apparent operation, and must provide access to off-premises records within three business days following a request from the Division.

M 1000 Series – Labeling, Packaging, and Product Safety

Effective Date. Compliance with this M 1000 Series is mandatory until January 1, 2018. During the period January 1, 2018, to June 30, 2018, Licensees have the option of complying with this Rule M 1000 Series or with the Rule M 1000-1 Series, but must be fully compliant with at least one of those two Labeling, Packaging, and Product Safety Series. Beginning July 1, 2018, this Rule M 1000 Series is repealed, and compliance with the M 1000-1 Series is mandatory.

Basis and Purpose – M 1001.5

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(VI), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-403(3), 12-43.3-404(5), and 12-43.3-901(4)(b), C.R.S. The State Licensing Authority finds it essential to regulate and establish labeling and secure packaging requirements for Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana Infused-Product. The purpose of this rule, and the rules in this series, is to ensure that all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana Infused-Product are sold and delivered to lawful consumers in packaging that is not easily opened by children. Further, the State Licensing Authority believes based on written and oral comments it received through the rulemaking process that prohibiting labels that appeal to or are intended to target individuals under the age of 21 and requiring child-resistant packaging is of a state wide concern and would assist in limiting exposure and diversion to minors. One of the State Licensing Authority's primary goals is to prevent use of Medical Marijuana by children who are not registered Medical Marijuana patients. The State Licensing Authority has a compelling state interest in the reduction and prevention of accidental marijuana consumption by children. This can be achieved through avoidance of packaging designed to appeal to children and avoidance of use of the word "candy" on packaging, labeling and product. Children generally have a strong attraction to and interest in candy. "Candy" is one of the first words children learn to speak. Children rely upon packaging to deduce a product's contents. "Candy" is not medicine. This rule is in the interest of the health of the people of Colorado and is necessary for the stringent and comprehensive administration of the Medical Code. The State Licensing Authority is adopting this rule as a narrowly-tailored way to reduce or prevent accidental ingestion of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products by children and others.

M 1001.5 – Labeling and Packaging Requirements: General Applicability

A. Ship Product Ready for Sale. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer may package smaller quantities of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana Infused-Product in a Container prior to transport, provided the Containers are placed within a larger package that has an RFID tag and all required labels affixed to it. This larger package of Containers may serve as the Shipping Container. Licensees shall ensure that either each package of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product placed within a Shipping Container has an

RFID tag and all required labels affixed to each package, or the Shipping Container itself must have an RFID tag and all required labels affixed to it for the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product contained within the Shipping Container. If the Licensee elects to place the RFID tag and all required labels on the Shipping Container, the Shipping Container shall contain only one package, Harvest Batch, or Production Batch of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. If a Shipping Container holds multiple packages, each individual package shall be affixed with an RFID tag and all required labels. See Rule M 309 – Inventory Tracking System and Rule M 801 – Transport: All Medical Marijuana Businesses.

B. Inventory Tracking Compliance.

1. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer must package all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana Infused-Product in accordance with all Inventory Tracking System rules and procedures.

C. Packaging May Not Be Designed to Appeal to Children. A Medical Marijuana Business shall not place any content on a Container holding Medical Marijuana, Medical Marijuana Concentrate, or a Medical Marijuana Infused-Product in a manner that specifically targets individuals under the age of 21, including but not limited to, cartoon characters or similar images.

D. Health and Benefit Claims. Labeling text on a Container may not make any false or misleading statements regarding health or physical benefits to the consumer.

E. Font Size. Labeling text on a Container must be no smaller than 1/16 of an inch.

F. Use of English Language. Labeling text on a Container must be clearly written or printed and in the English language.

G. Unobstructed and Conspicuous. Labeling text on a Container must be unobstructed and conspicuous. A Licensee may affix multiple labels to a Container, provided that none of the information required by these rules is completely obstructed.

H. Use of the Word(s) “Candy” and/or “Candies” Prohibited.

1. Licensees shall not use the word(s) “candy” and/or “candies” on the product, packaging or labeling for Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

2. Notwithstanding the requirements of subparagraph (H)(1), a licensed Medical Marijuana Business whose Identity Statement contains the word(s) “candy” and/or “candies” shall be permitted to place its Identity Statement on Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product packaging and labeling.

Basis and Purpose – M 1002.5

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(7), 12-43.3-404(5), 12-43.3-404(10), and 12-43.3-901(4)(b), C.R.S. The purpose of this rule is to ensure that every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer label each package and Container of Medical Marijuana with all of the necessary and relevant information for the receiving Medical Marijuana Business. In addition, this rule clarifies basic packaging requirements. The State Licensing Authority wants to ensure the regulated community employs proper labeling techniques for all Medical Marijuana as this is a public health and safety concern.

M 1002.5 – Packaging and Labeling of Medical Marijuana by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer

A. Packaging of Medical Marijuana by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer. Every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer must ensure that all Medical Marijuana is placed within a sealed package that has no more than ten pounds of Medical Marijuana within it prior to transport or transfer of any Medical Marijuana to another Medical Marijuana Business. The package shall be affixed with an RFID tag in accordance with rule M 1001.5(A).

B. Labeling of Medical Marijuana Packages by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer. Every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer must ensure that a label(s) is affixed to every package holding Medical Marijuana that includes all of the information required by this rule prior to transport or transfer to another Medical Marijuana Business.

1. Required Information. Every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer must ensure the following information is affixed to every package holding Medical Marijuana:

    a. The license number of the Optional Premises Cultivation Operation where the Medical Marijuana was grown;

    b. The Harvest Batch Number(s) assigned to the Medical Marijuana;

    c. The net weight, using a standard of measure compatible with the Inventory Tracking System, of the Medical Marijuana prior to its placement in the package; and

    d. A complete list of all nonorganic pesticides, fungicides, and herbicides used during the cultivation of the Medical Marijuana.

2. Required Potency Statement. For each package of Medical Marijuana, the potency of at least the Medical Marijuana's THC and CBD shall be included on a label that is affixed to the package. The potency shall be expressed as a range of percentages that extends from the lowest percentage to the highest percentage of concentration for each cannabinoid listed, from every test conducted on that strain of Medical Marijuana cultivated by the same Optional Premises Cultivation Operation within the last six months.

3. Required Contaminant Testing Statement.

    a. When All Required Contaminant Tests Are Not Performed. If a Medical Marijuana Testing Facility did not test a Harvest Batch for microbials, mold, mildew, and filth, then the package shall be labeled with the following statement: **"The marijuana contained within this package has not been tested for contaminants."** Except that when an Optional Premises Cultivation Operation has successfully validated its process regarding contaminants pursuant to rule M 1501, then the package instead shall be labeled with the following statement: **"The marijuana contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

    b. When All Required Contaminant Tests Are Performed and Passed. If a Medical Marijuana Testing Facility tested a Harvest Batch for microbials, mold, mildew, and filth, and the required test(s) passed, then the package shall be labeled with

the following statement: **"The marijuana contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

c. Nothing in this rule permits a Medical Marijuana Business to Transfer Medical Marijuana that has failed contaminant testing and has not subsequently passed the additional contaminant testing required by rule M 1507(B).

C. Labeling of Medical Marijuana Containers by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer. If an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer packages Medical Marijuana within a Container that is then placed within a larger package, each Container must be affixed with a label(s) containing all of the information required by Rule M 1002.5(B), except that the net weight statement required by Rule M 1002.5(B)(1)(c) shall be based upon the weight in the Container and not the larger package or Shipping Container.

Basis and Purpose – M 1003.5

The statutory authority for this includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(7), 12-43.3-404(5), 12-43.3-404(10), 12-43.3-404(11)(b-c), and 12-43.3-901(4)(b), C.R.S. The purpose of this rule is to ensure that every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer labels each package and Container of Medical Marijuana Concentrate with all of the necessary and relevant information for the receiving Medical Marijuana Business. In addition, this rule clarifies basic packaging requirements. The State Licensing Authority wants to ensure the regulated community employs proper labeling techniques for all Medical Marijuana Concentrate because it is a public health and safety concern.

M 1003.5 – Packaging and Labeling of Medical Marijuana Concentrate by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer

A. Packaging of Medical Marijuana Concentrate by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer. Every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer must ensure that all Medical Marijuana Concentrate is placed within a sealed package that has no more than one pound of Medical Marijuana Concentrate within it prior to transport or transfer to another Medical Marijuana Business. The package shall be affixed with an RFID tag in accordance with rule M 1001.5(A).

B. Labeling Medical Marijuana Concentrate Package by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer. Every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer must ensure that a label(s) is affixed to every package holding Medical Marijuana Concentrate that includes all of the information required by this rule prior to transport or transfer to another Medical Marijuana Business.

1. Required Information. Every Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer must ensure the following information is affixed to every package holding Medical Marijuana Concentrate:

a. The license number(s) of the Optional Premises Cultivation Operation(s) where the Medical Marijuana used to produce the Medical Marijuana Concentrate was grown;

b. The license number of the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that produced the Medical Marijuana Concentrate;

c. The Production Batch Number assigned to the Medical Marijuana Concentrate contained within the package;

d. The net weight, using a standard of measure compatible with the Inventory Tracking System, of the Medical Marijuana Concentrate prior to its placement in the package;

e. A complete list of all nonorganic pesticides, fungicides, and herbicides used during the cultivation of the Medical Marijuana used to produce the Medical Marijuana Concentrate contained within; and

f. A complete list of solvents and chemicals used to create the Medical Marijuana Concentrate.

2. Required Potency Statement. For each package of Medical Marijuana Concentrate , the potency of at least the Medical Marijuana Concentrate's THC and CBD shall be included on a label that is affixed to the package. The potency shall be expressed in milligrams for each cannabinoid.

3. Required Contaminant Testing Statement.

a. When All Required Contaminant Tests Are Not Performed.

i. Solvent-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility did not test a Production Batch of Solvent-Based Medical Marijuana Concentrate for residual solvents, mold, and mildew, then the package shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package has not been tested for contaminants."** Except that when a Medical Marijuana-Infused Products Manufacturer has successfully validated its process regarding contaminants pursuant to rule M 1501, the package instead shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

ii. Food- and Water-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility did not test a Production Batch of Food- or Water-Based Medical Marijuana Concentrate for microbials, mold, and mildew, then the package shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package has not been tested for contaminants."** Except that when an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer has successfully validated its process regarding contaminants pursuant to rule M 1501, then the package instead shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

b. When All Required Contaminant Tests Are Performed and Passed.

i. Solvent-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility tested a Production Batch of Solvent-Based Medical Marijuana Concentrate for residual solvents, mold, and mildew, and the required test(s) passed, then the package shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained**

within this package complies with the mandatory contaminant testing required by rule M 1501."

ii. Food- and Water-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility tested a Production Batch for microbials, mold, and mildew, and the required test(s) passed, then the package shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

c. Nothing in this rule permits a Medical Marijuana Business to Transfer Medical Marijuana Concentrate that has failed contaminant testing and has not subsequently passed the additional contaminant testing required by rule M 1507(B).

C. Labeling of Medical Marijuana Concentrate Containers by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer. If an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer packages a Medical Marijuana Concentrate within a Container that is then placed within a larger package, each Container must be affixed with a label(s) containing all of the information required by Rule M 1003.5(B), except that the net weight statement required by Rule M 1003.5(B)(1)(d) shall be based upon the weight in the Container and not the package or Shipping Container.

Basis and Purpose – M 1004.5

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(2)(a)(I-III), 12-43.3-402(7), 12-43.4-404(5), 12-43.4-404(10), 12-43.4-404(11), and 12-43.3-901(4)(b), C.R.S. The purpose of this rule is to ensure that every Medical Marijuana-Infused Products Manufacturer labels each package and Container holding a Medical Marijuana Infused-Product with all of the necessary and relevant information for the receiving Medical Marijuana Business. In addition, this rule clarifies basic packaging requirements. The State Licensing Authority wants to ensure the regulated community employs proper packaging and labeling techniques for each Medical Marijuana Infused-Product because it is a public health and safety concern. The allowable plus or minus 15% potency variance has been included in the rule pursuant to the mandate of Senate Bill 15-260. Section 1 of the bill required the State Licensing Authority to establish an acceptable potency variance for correct labeling. The acceptable potency variance has been set at plus or minus 15% to comport with the potency variance mandated by the Retail Code.

Product safety requirements are being adopted to aid in making Medical Marijuana-Infused Products more readily identifiable to the general public as containing Medical Marijuana. While product safety requirements are stated in this rule, nothing in the requirements interferes with a manufacturer's ability to determine standard portions for its products or to provide a mechanism with the product for accurately measuring a standard portion.

M 1004.5 – Packaging and Labeling Requirements of a Medical Marijuana Infused-Product by a Medical Marijuana-Infused Products Manufacturer

A. Packaging of Medical Marijuana Infused-Product by a Medical Marijuana-Infused Products Manufacturer

1. General Standard. Every Medical Marijuana-Infused Products Manufacturer must ensure that each Container holding a Medical Marijuana Infused-Product is placed in a package

prior to transport or transfer to another Medical Marijuana Business. The package shall be affixed with an RFID tag in accordance with rule M 1001.5(A).

2. Edible Medical Marijuana Infused-Product.

a. Every Medical Marijuana-Infused Products Manufacturer must ensure that each Edible Medical Marijuana Infused-Product is packaged within a Child-Resistant Container prior to transport or transfer to another Medical Marijuana Business.

b. If the Edible Medical Marijuana-Infused Product contains multiple portions then it must be packaged in a Child-Resistant Container that is Resealable.

3. Medical Marijuana Infused-Product that is not Edible Medical Marijuana Infused-Product. Every Medical Marijuana-Infused Products Manufacturer must ensure that each Medical Marijuana Infused-Product that is not an Edible Medical Marijuana Infused-Product is individually packaged within a Container prior to transport or transfer to another Medical Marijuana Business.

B. Labeling of Medical Marijuana Infused-Product Containers by a Medical Marijuana-Infused Products Manufacturer. A Medical Marijuana-Infused Products Manufacturer must ensure that a label(s) is affixed to every Container holding a Medical Marijuana Infused-Product that includes all of the information required by this rule prior to transport or transfer to another Medical Marijuana Business.

1. Required Information (General). Every Medical Marijuana-Infused Products Manufacturer must ensure the following information is affixed to every Container holding a Medical Marijuana Infused-Product:

a. The license number(s) of the Optional Premises Cultivation Operation(s) where the Medical Marijuana used to produce the Medical Marijuana Infused-Product was grown;

b. The Production Batch Number(s) of Medical Marijuana Concentrate(s) used in the production of the Medical Marijuana Infused-Product.

c. The license number of the Medical Marijuana-Infused Products Manufacturer that produced the Medical Marijuana Infused-Product.

d. A net weight statement.

e. The Production Batch Number(s) assigned to the Medical Marijuana Infused-Product.

f. A statement about whether the Container is Child-Resistant.

h. The Identity Statement and Standardized Graphic Symbol of the Medical Marijuana-Infused Products Manufacturer that manufactured the Medical Marijuana Infused-Product. A Licensee may elect to have its Identity Statement also serve as its Standardized Graphic Symbol for purposes of complying with this rule. The Licensee shall maintain a record of its Identity Statement and Standardized Graphic Symbol and make such information available to the State Licensing Authority upon request;

i. The Universal Symbol, which must be located on the front of the Container and no smaller than ½ of an inch by ½ of an inch, and the following statement which

must be labeled directly below the Universal Symbol: “Contains Marijuana. For Medical Use Only. Keep out of the reach of children.”

j. The following warning statements:

i. “There may be health risks associated with the consumption of this product.”

ii. “This product contains marijuana and its potency was tested with an allowable plus or minus 15% variance pursuant to 12-43.3-202(2.5)(a)(I)(E), C.R.S.”

iii. “This product was produced without regulatory oversight for health, safety, or efficacy.”

iv. “There may be additional health risks associated with the consumption of this product for women who are pregnant, breastfeeding, or planning on becoming pregnant.”

k. A complete list of all nonorganic pesticides, fungicides, and herbicides used during the cultivation of the Medical Marijuana used to produce the Medical Marijuana Infused-Product.

l. A complete list of solvents and chemicals used in the creation of any Medical Marijuana Concentrate that was used to produce the Medical Marijuana Infused-Product.

m. Required Potency Statement. This subsubparagraph (B)(1)(m) of rule M 1004.5 shall become effective October 1, 2017. Each Container holding a Medical Marijuana-Infused Product shall be labeled with the potency of at least the Medical Marijuana-Infused Product’s THC and CBD. The potency shall be expressed in milligrams for each cannabinoid. The potency shall be labeled either:

i. In a font size that is at least two font sizes larger than the surrounding label text and also not less than 10 point font, bold, and enclosed within an outlined shape such as a circle or square; or

ii. Highlighted with a bright color such as yellow.

2. Required Information (Edible Medical Marijuana Infused-Product). Every Medical Marijuana-Infused Products Manufacturer must ensure that the following information or statement is affixed to every Container holding an Edible Medical Marijuana Infused-Product:

a. Ingredient List. A list of all ingredients used to manufacture the Edible Medical Marijuana Infused-Product; which shall include a list of any potential allergens contained within.

b. Statement Regarding Refrigeration. If the Edible Medical Marijuana Infused-Product is perishable, a statement that the Edible Medical Marijuana Infused-Product must be refrigerated.

c. Statement of Production Date. The date on which the Edible Medical Marijuana Infused-Product was produced.

d. Statement of Expiration Date. A product expiration date, for perishable Edible Medical Marijuana Infused-Product, upon which the product will no longer be fit for consumption, or a use-by-date, upon which the product will no longer be optimally fresh. Once a label with a use-by or expiration date has been affixed to a Container holding an Edible Medical Marijuana Infused-Product, a Licensee shall not alter that date or affix a new label with a later use-by or expiration date.

3. Permissive Information (Edible Medical Marijuana Infused-Product). Every Medical Marijuana-Infused Products Manufacturer may affix a label(s) with the following information to every Container holding an Edible Medical Marijuana Infused-Product:

a. The Medical Marijuana Infused-Product's compatibility with dietary restrictions.

b. A nutritional fact panel.

4. Required Potency Statement.

a. Every Medical Marijuana-Infused Products Manufacturer must ensure that a label is affixed to the Container that includes at least the Medical Marijuana Infused-Product's THC and CBD content.

b. Nothing in this rule permits a Medical Marijuana Business to Transfer Medical Marijuana Infused-Product that has failed potency testing and has not subsequently passed the additional potency testing required by rule R 1507(C).

5. Required Contaminant Testing Statement.

a. When All Required Contaminant Tests Are Not Performed. If a Medical Marijuana Testing Facility did not test a Production Batch of Medical Marijuana Infused-Product for microbials, mold, and mildew, then the Container shall be **labeled** with the following statement: **"The Medical Marijuana Infused-Product contained within this package has not been tested for contaminants."** Except that when a Medical Marijuana-Infused Products Manufacturer has successfully validated its process regarding contaminants for the particular Medical Marijuana Infused-Product pursuant to rule M 1501, then the Container instead shall be labeled with the following statement: **"The Medical Marijuana Infused-Product contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

b. When All Contaminant Tests Are Performed and Passed. If a Medical Marijuana Testing Facility tested a Production Batch of Medical Marijuana Infused-Product for microbials, mold, and mildew, and the required test(s) passed, then the Container shall be labeled with the following statement: **"The Medical Marijuana Infused-Product contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

c. Nothing in this rule permits a Medical Marijuana Business to Transfer Medical Marijuana Infused-Product that has failed contaminant testing and has not subsequently passed the additional contaminant testing required by rule M 1507(B).

D. Labeling of Medical Marijuana Infused-Product Shipping Containers or Packages by Medical Marijuana-Infused Products Manufacturer. Prior to transporting or transferring any Medical Marijuana Infused-Product to another Medical Marijuana Business, a Medical Marijuana Manufacturing Products Facility must ensure that a label is affixed to a Shipping Container or

package holding Medical Marijuana Infused-Product that includes all of the information required by this rule. A Medical Marijuana-Infused Products Manufacturer must include the following information on every Shipping Container or package:

1. The number of Containers holding a Medical Marijuana Infused-Product within the Shipping Container or package; and

2. The license number of the Medical Marijuana-Infused Products Manufacturer(s) that produced the Medical Marijuana Infused-Product within the Shipping Container or package.

Basis and Purpose – M 1005

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(2)(a), 12-43.3-402(6), 12-43.3-402(7), and 12-43.3-901(4)(b), C.R.S. The purpose of this rule is to ensure that the labeling on each Container of Medical Marijuana includes necessary and relevant information for patients, does not include health and physical benefit claims, is easily accessible to patients, and is clear and noticeable. The State Licensing Authority wants to ensure the regulated community employs proper labeling techniques for all Medical Marijuana because it is a public health and safety concern. The allowable plus or minus 15% potency variance has been included in the rule pursuant to the mandate of Senate Bill 15-260. Section 1 of the bill required the State Licensing Authority to establish an acceptable potency variance for correct labeling. The acceptable potency variance has been set at plus or minus 15% to comport with the potency variance mandated by the Retail Code.

M 1005 – Packaging and Labeling of Medical Marijuana by a Medical Marijuana Center

A. Packaging of Medical Marijuana by a Medical Marijuana Center.

1. A Medical Marijuana Center must ensure that all Medical Marijuana is placed within a Container prior to sale to a consumer. If the Container is not Child-Resistant, the Medical Marijuana Center must place the Container within an Exit Package that is Child-Resistant.

2. Except that when a patient provides written documentation signed by his or her physician attesting to the fact that it would be unreasonably difficult for the patient to open packaging that is Child-Resistant:

a. A Medical Marijuana Center shall not be required to package the Medical Marijuana in a Child-Resistant Container for sale to the patient; and

b. A Medical Marijuana Center shall not be required to utilize a Child-Resistant Exit Package for the patient.

c. If the Medical Marijuana is packaged in a Child-Resistant Container, a Medical Marijuana Center may defeat the Medical Marijuana's Child-Resistant packaging on behalf of the patient, so long as the Medical Marijuana remains with the packaging after the Child-Resistant properties have been defeated.

B. Labeling of Medical Marijuana by a Medical Marijuana Center. A Medical Marijuana Center must affix all of the information required by this rule to every Container in which Medical Marijuana is placed no later than at the time of sale to a patient:

1. A Medical Marijuana Center must include the following information on every Container:

a. The license number(s) of the Optional Premises Cultivation Operation(s) where the Medical Marijuana was grown;

b. The license number of the Medical Marijuana Center that sold the Medical Marijuana to the patient;

c. The Identity Statement and Standardized Graphic Symbol of the Medical Marijuana Center that sold the Medical Marijuana to the consumer. A Licensee may elect to have its Identity Statement also serve as its Standardized Graphic Symbol for purposes of complying with this rule. The Licensee shall maintain a record of its Identity Statement and Standardized Graphic Symbol and make such information available to the State Licensing Authority upon request;

d. The Harvest Batch Number(s) assigned to the Medical Marijuana within the Container;

e. The date of sale to the patient;

f. The patient registry number of the purchaser;

g. The net weight, in grams to at least the tenth of a gram, of the Medical Marijuana prior to its placement in the Container;

h. The following warning statements:

i. "There may be health risks associated with the consumption of this product."

ii. "This marijuana's potency was tested with an allowable plus or minus 15% variance pursuant to 12-43.3-202(2.5)(a)(I)(E), C.R.S."

iii. "There may be additional health risks associated with the consumption of this product for women who are pregnant, breastfeeding, or planning on becoming pregnant."

i. A complete list of all nonorganic pesticides, fungicides, and herbicides used during the cultivation of the Medical Marijuana.

j. The Universal Symbol, which must be located on the front of the Container and no smaller than ½ of an inch by ½ of an inch, and the following statement which must be labeled directly below the Universal Symbol: "Contains Marijuana. For Medical Use Only. Keep out of the reach of children."

2. Repealed.

2.1. Required Potency Statement. This subparagraph (B)(2.1) of rule M 1005 shall become effective on October 1, 2017. For each Harvest Batch of Medical Marijuana packaged within a Container, the Medical Marijuana Center shall ensure the potency of at least the Medical Marijuana's THC and CBD is included on a label that is affixed to the Container. The potency shall be expressed as a range of percentages that extends from the lowest percentage to the highest percentage of concentration for each cannabinoid listed, from every test conducted on that strain of Medical Marijuana cultivated by the same Optional Premises Cultivation Operation within the last six months. The potency shall be labeled either:

a. In a font size that is at least two font sizes larger than the surrounding label text and also not less than 10 point font, bold, and enclosed within an outlined shape such as a circle or square; or

b. Highlighted with a bright color such as yellow.

3. Required Contaminant Testing Statement.

a. When All Required Contaminant Tests Are Not Performed. If a Medical Marijuana Testing Facility did not test a Harvest Batch for microbials, mold, mildew, and filth, then a Medical Marijuana Center must ensure that a label is affixed to a Container holding any Medical Marijuana from that Harvest Batch with the following statement: **"The marijuana contained within this package has not been tested for contaminants."** Except that when an Optional Premises Cultivation Operation has successfully validated its process regarding contaminants pursuant to rule M 1501, then the Container instead shall be labeled with the following statement: **"The marijuana contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

b. When All Required Contaminant Tests Are Performed and Passed. If a Medical Marijuana Testing Facility tested a Harvest Batch for microbials, mold, mildew, and filth, and all the required test(s) passed, then the Container shall be labeled with the following statement: **"The marijuana contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

c. Nothing in this rule permits a Medical Marijuana Business to Transfer Medical Marijuana that has failed contaminant testing and has not subsequently passed the additional contaminant testing required by rule M 1507(B).

Basis and Purpose – M 1006

The statutory authority for this rule includes but is not limited to 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-402(2)(a)(I-III), 12-43.4-202(2.5)(a)(I), 12-43.3-402(2)(a), 12-43.3-402(6), 12-43.3-404(5), 12-43.3-404(10), and 12-43.3-901(4)(b), C.R.S. The purpose of this rule is to ensure that the labeling on each Container holding a Medical Marijuana Infused-Product includes necessary and relevant information for consumers, does not include health and physical benefit claims, is easily accessible to consumers, and is clear and noticeable. In addition, this rule clarifies basic packaging requirements. The State Licensing Authority wants to ensure the regulated community employs proper packaging and labeling techniques for each Medical Marijuana Infused-Product because this is a public health and safety concern. The allowable plus or minus 15% potency variance has been included in the rule pursuant to the mandate of Senate Bill 15-260. Section 1 of the bill required the State Licensing Authority to establish an acceptable potency variance for correct labeling. The acceptable potency variance has been set at plus or minus 15% to comport with the potency variance mandated by the Retail Code.

M 1006 – Packaging and Labeling of Medical Marijuana Infused-Product by a Medical Marijuana Center

A. Packaging Requirements for a Medical Marijuana Center.

1. Beginning December 1, 2016, a Medical Marijuana Center shall not purchase, take possession of, or sell Medical Marijuana-Infused Product that does not comply with rules M 604 and M 1004.5.

2. A Medical Marijuana Center must ensure that each Medical Marijuana Infused-Product is placed within a Container prior to sale to a consumer. If the Container is not Child-Resistant, the Medical Marijuana Center must place the Container within an Exit Package that is Child-Resistant.

3. Except that when a patient provides written documentation signed by his or her physician attesting to the fact that it would be unreasonably difficult for the patient to open packaging that is Child-Resistant:

   a. If the Medical Marijuana-Infused Product is packaged in a Child-Resistant Container, a Medical Marijuana Center may defeat the Medical Marijuana-Infused Product's Child-Resistant packaging on behalf of the patient, so long as the Medical Marijuana-Infused Product remains with the packaging after the Child-Resistant properties have been defeated; or

   b. If the Medical Marijuana-Infused Product is not packaged in a Child-Resistant Container, a Medical Marijuana Center shall not be required to package the Medical Marijuana-Infused Product in a Child-Resistant Container for sale to the patient; and

   c. A Medical Marijuana Center shall not be required to utilize a Child-Resistant Exit Package for the patient.

B. Labeling of Medical Marijuana Infused-Product by a Medical Marijuana Center. Every Medical Marijuana Center must ensure that a label(s) is affixed to every Exit Package at the time of sale to a consumer that includes all of the information required by this rule. If an Exit Package is not required pursuant to subparagraph (A)(2) of this rule M 1006, and the Medical Marijuana Center elects not to provide one, then the Medical Marijuana Center must ensure the labels required by this rule are affixed to each Container of Medical Marijuana Infused-Product no later than at the time of sale to a consumer.

1. Required Information.

   a. The license number of the Medical Marijuana Center that sold the Medical Marijuana Infused-Product to the consumer;

   b. The Identity Statement and Standardized Graphic Symbol of the Medical Marijuana Center that sold the Medical Marijuana Infused-Product to the consumer. A Licensee may elect to have its Identity Statement also serve as its Standardized Graphic Symbol for purposes of complying with this rule. The Licensee shall maintain a record of its Identity Statement and Standardized Graphic Symbol and make such information available to the State Licensing Authority upon request;

   c. The date of sale to the consumer;

   d. The patient registry number of the purchaser;

   e. The following warning statements;

      i. "There may be health risks associated with the consumption of this product."

ii. "This product contains marijuana and its potency was tested with an allowable plus or minus 15% variance pursuant to 12-43.3-202(2.5)(a)(I)(E), C.R.S."

iii. "This product was produced without regulatory oversight for health, safety, or efficacy."

iv. "There may be additional health risks associated with the consumption of this product for women who are pregnant, breastfeeding, or planning on becoming pregnant."

f. The Universal Symbol, which must be located on the front of the Container or Exit Package as appropriate and no smaller than ½ of an inch by ½ of an inch, and the following statement which must be labeled directly below the Universal Symbol: "Contains Marijuana. For Medical Use Only. Keep out of the reach of children.".

g. Required Potency Statement. This subsubparagraph (B)(1)(g) of rule M 1006 shall become effective October 1, 2017. Each Container holding a Medical Marijuana-Infused Product shall be labeled with the potency of at least the Medical Marijuana-Infused Product's THC and CBD. The potency shall be expressed in milligrams for each cannabinoid. The potency shall be labeled either:

i. In a font size that is at least two font sizes larger than the surrounding label text and also not less than 10 point font, bold, and enclosed within an outlined shape such as a circle or square; or

ii. Highlighted with a bright color such as yellow.

Basis and Purpose – M 1007

The statutory authority for this rule includes but is not limited to 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.4-402(2)(a)(I-III), 12-43.4-402(6), 12-43.4-404(5), 12-43.3-404(10), and 12-43.3-901(4)(b), C.R.S. The purpose of this rule is to ensure that the labeling on each Container holding a Medical Marijuana Concentrate includes necessary and relevant information for patients, does not include health and physical benefit claims, is easily accessible to patients, and is clear and noticeable. In addition, this rule clarifies basic packaging requirements. The State Licensing Authority wants to ensure the regulated community employs proper labeling techniques to each Medical Marijuana Concentrate as this is a public health and safety concern. The allowable plus or minus 15% potency variance has been included in the rule pursuant to the mandate of Senate Bill 15-260. Section 1 of the bill required the State Licensing Authority to establish an acceptable potency variance for correct labeling. The acceptable potency variance has been set at plus or minus 15% to comport with the potency variance mandated by the Retail Code.

M 1007 – Packaging and Labeling of Medical Marijuana Concentrate by a Medical Marijuana Center

A. Packaging of Medical Marijuana Concentrate by a Medical Marijuana Center.

1. A Medical Marijuana Center must ensure that all Medical Marijuana Concentrate is placed within a Container prior to sale to a consumer. If the Container is not Child-Resistant, the Medical Marijuana Center must place the Container within an Exit Package that is Child-Resistant.

2. Except that when a patient provides written documentation signed by his or her physician attesting to the fact that it would be unreasonably difficult for the patient to open packaging that is Child-Resistant:

   a. A Medical Marijuana Center shall not be required to package the Medical Marijuana Concentrate in a Child-Resistant Container for sale to the patient; and

   b. A Medical Marijuana Center shall not be required to utilize a Child-Resistant Exit Package for the patient.

   c. If the Medical Marijuana Concentrate is packaged in a Child-Resistant Container, a Medical Marijuana Center may defeat the Medical Marijuana Concentrate's Child-Resistant packaging on behalf of the patient, so long as the Medical Marijuana Concentrate remains with the packaging after the Child-Resistant properties have been defeated.

B. Labeling of Medical Marijuana Concentrate by Medical Marijuana Centers. Every Medical Marijuana Center must ensure that a label(s) is affixed to every Container holding Medical Marijuana Concentrate that includes all of the information required by this rule no later than at the time of sale to a consumer:

1. Every Medical Marijuana Center must ensure the following information is affixed to every Container holding a Medical Marijuana Concentrate:

   a. The license number(s) of the Optional Premises Cultivation Operation(s) where the Medical Marijuana used to produce the Medical Marijuana Concentrate within the Container was grown;

   b. The license number of the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that produced the Medical Marijuana Concentrate;

   c. The Production Batch Number assigned to the Medical Marijuana Concentrate;

   d. The license number of the Medical Marijuana Center that sold the Medical Marijuana Infused-Product to the consumer;

   e. The net weight, in grams to at least the tenth of a gram, of the Medical Marijuana Concentrate prior to its placement in the Container;

   f. The date of sale to the consumer;

   g. The patient registry number of the purchaser;

   h. The following warning statements:

      i. "There may be health risks associated with the consumption of this product."

      ii. "This product contains marijuana and its potency was tested with an allowable plus or minus 15% variance pursuant to 12-43.3-202(2.5)(a)(I)(E), C.R.S."

      iv. "This product was produced without regulatory oversight for health, safety, or efficacy."

v. **"There may be additional health risks associated with the consumption of this product for women who are pregnant, breastfeeding, or planning on becoming pregnant."**

i. The Universal Symbol, which must be located on the front of the Container and no smaller than ½ of an inch by ½ of an inch, and the following statement which must be labeled directly below the Universal Symbol: "Contains Marijuana. For Medical Use Only. Keep out of the reach of children."

j. A complete list of all nonorganic pesticides, fungicides, and herbicides used during the cultivation of the Medical Marijuana used to produce the Medical Marijuana Concentrate; and

k. A complete list of solvents and chemicals used to produce the Medical Marijuana Concentrate.

2. Repealed.

2.1. Required Potency Statement. This subparagraph (B)(2.1) of rule M 1007 shall become effective October 1, 2017. Each Container holding a Medical Marijuana Concentrate shall be labeled with the potency of at least the Medical Marijuana Concentrate's THC and CBD. The potency shall be expressed in milligrams for each cannabinoid. The potency shall be labeled either:

a. In a font size that is at least two font sizes larger than the surrounding label text and also not less than 10 point font, bold, and enclosed within an outlined shape such as a circle or square; or

b. Highlighted with a bright color such as yellow.

3. Required Contaminant Testing Statement.

a. When All Required Contaminant Tests Are Not Performed.

i. Solvent-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility did not test a Production Batch of Solvent-Based Medical Marijuana Concentrate for residual solvents, mold, and mildew, then the Container shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package has not been tested for contaminants."** Except that when a Medical Marijuana-Infused Products Manufacturer has successfully validated its process regarding contaminants pursuant to rule M 1501, then the Container instead shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

ii. Food- and Water-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility did not test a Production Batch of Food- or Water-Based Medical Marijuana Concentrate for microbials, mold, and mildew, then the Container shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package has not been tested for contaminants."** Except that when an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer has successfully validated its process regarding contaminants pursuant to rule M 1501, then the Container instead shall

be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

b. When All Required Contaminant Tests Are Performed and Passed.

i. Solvent-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility tested a Production Batch of Solvent-Based Medical Marijuana Concentrate for residual solvents, mold, and mildew, and the required test(s) passed, then the Container shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

ii. Food- and Water-Based Medical Marijuana Concentrate. If a Medical Marijuana Testing Facility tested a Production Batch for microbials, mold, and mildew, and the required test(s) passed, then the Container shall be labeled with the following statement: **"The Medical Marijuana Concentrate contained within this package complies with the mandatory contaminant testing required by rule M 1501."**

c. Nothing in this rule permits a Medical Marijuana Business to Transfer Medical Marijuana Concentrate that has failed contaminant testing and has not subsequently passed the additional contaminant testing required by rule M 1507(B).

M 1000-1 Series – Labeling, Packaging, and Product Safety

Effective Date. The revised Packaging, Labeling and Product Safety rules set forth in this Rule M 1000-1 Series are effective January 1, 2018, except that during the period January 1, 2018, to June 30, 2018, Licensees have the option of complying with the Rule M 1000 Series or with this Rule M 1000-1 Series, but must be fully compliant with at least one of those two Labeling, Packaging, and Product Safety Series. Beginning July 1, 2018, the Rule M 1000 Series is repealed, and compliance with this M 1000-1 Series is mandatory.

On and after July 1, 2018, all Licensees are required to package and label all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product according to the Packaging, Labeling, and Product Safety rules in this Rule M 1000-1 Series.

Basis and Purpose – M 1001-1

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(II)(A)-(B), 12-43.3-402(2)(a), 12-43.3-402(7), and 12-43.3-404(11), C.R.S. The purpose of this rule is to define minimum packaging and labeling requirements for Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product Transferred between Medical Marijuana Businesses. The State Licensing Authority finds it essential to regulate and establish labeling requirements for Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product, and that this is in the interest of the health and safety of the people of Colorado. This rule identifies information that is required on all labels to provide information necessary for the Division to regulate the cultivation, production, and sale of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. This rule also seeks to minimize, to the extent practicable, the burden of labeling compliance to Licensees. The labeling requirements in this rule apply to all Containers immediately containing Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

Rule M 1001-1 - Packaging and Labeling: Minimum Requirements Prior to Transfer to a Medical Marijuana Business

A. Applicability. This Rule establishes minimum requirements for packaging and labeling Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product prior to Transfer to a Medical Marijuana Business. The labeling requirements in this Rule apply to all Containers immediately containing Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

B. Packaging and Labeling of Medical Marijuana Flower and Trim and Medical Marijuana Concentrate Prior to Transfer to a Medical Marijuana Business. A Medical Marijuana Business shall comply with the following minimum packaging and labeling requirements prior to Transferring Medical Marijuana flower and trim or Medical Marijuana Concentrate to another Medical Marijuana Business:

1. Packaging of Medical Marijuana Flower and Trim and Medical Marijuana Concentrate.

a. Prior to Transfer to a Medical Marijuana Business, Medical Marijuana flower and trim or Medical Marijuana Concentrate shall be placed into a Container. The Container may but is not required to be Child-Resistant.

b. Each Container of Medical Marijuana flower or trim that is Transferred to a Medical Marijuana Business shall not exceed 10 pounds of Medical Marijuana flower or trim, but may include pre-weighed units that are within the sales limit in Rule M 403(D).

c. Each Container of Medical Marijuana Concentrate that is Transferred to a Medical Marijuana Business shall not exceed 10 pounds of Medical Marijuana Concentrate, but may include pre-weighed units.

2. Labeling of Medical Marijuana Flower and Trim and Medical Marijuana Concentrate. Prior to Transfer to a Medical Marijuana Business, every Container of Medical Marijuana flower and trim or Medical Marijuana Concentrate shall be affixed with a label that includes at least the following information:

a. The license number of the Optional Premises Cultivation Operation where the Medical Marijuana was grown;

b. The Harvest Batch Number(s) assigned to the Medical Marijuana or the Production Batch Number(s) assigned to the Medical Marijuana Concentrate;

c. If applicable, the license number of the Optional Premises Cultivation Operation(s) that produced the Water-Based Medical Marijuana Concentrate;

d. If applicable, the license number of the Medical Marijuana-Infused Products Manufacturer(ers) where the Medical Marijuana Concentrate was produced;

e. The net contents, using a standard of measure compatible with the Inventory Tracking System, of the Medical Marijuana or Medical Marijuana Concentrate prior to its placement in the Container;

f. Potency test results as required to permit the receiving Medical Marijuana Business to label the Medical Marijuana or Medical Marijuana Concentrate as required by these rules; and

g. A complete list of all nonorganic Pesticides, herbicides, and fertilizers that were used in the cultivation and production of the Medical Marijuana or Medical Marijuana Concentrate.

C. Packaging and Labeling of Medical Marijuana-Infused Product Prior to Transfer to a Medical Marijuana Business. A Medical Marijuana Business shall comply with the following minimum packaging and labeling requirements prior to Transferring Medical Marijuana-Infused Product to another Medical Marijuana Business:

1. Packaging of Medical Marijuana-Infused Product.

a. Transfer to a Medical Marijuana Business Other Than a Medical Marijuana Center. Prior to Transfer to a Medical Marijuana Business other than a Medical Marijuana Center, Medical Marijuana-Infused Product shall be placed into a Container. The Container may but is not required to be Child-Resistant.

b. Transfer to a Medical Marijuana Center. Prior to Transfer to a Medical Marijuana Center, all Medical Marijuana-Infused Product shall be packaged in a Child-Resistant Container that is ready for sale to the patient as required by the Rule M 1002-1(D)(1).

2. Labeling of Medical Marijuana-Infused Product.

a. Transfer to a Medical Marijuana Business other than a Medical Marijuana Center. Prior to Transfer to a Medical Marijuana Business other than a Medical Marijuana Center, every Container of Medical Marijuana-Infused Product shall be affixed with a label that includes at least the following information:

i. The license number of the Optional Premises Cultivation Operation(s) where the Medical Marijuana was grown;

ii. The license number of the Medical Marijuana-Infused Products Manufacturer that produced the Medical Marijuana-Infused Product;

iii. The Production Batch Number(s) assigned to the Medical Marijuana-Infused Product;

iv. The net contents, using a standard of measure compatible with the Inventory Tracking System, of the Medical Marijuana-Infused Product prior to its placement in the Container;

v. Potency test results, as required to permit the receiving Medical Marijuana Business to label the Medical Marijuana-Infused Product as required by these rules; and

vi. A complete list of all nonorganic Pesticides, herbicides, and fertilizers that were used in the cultivation and production of the Medical Marijuana-Infused Product.

b. Transfer to a Medical Marijuana Center. Prior to Transfer to a Medical Marijuana Center, every Container of Medical Marijuana-Infused Product shall be affixed with a label ready for sale to the patient including all information required by Rules M 1002-1(D)(2) and 1003-1(B).

D. Packaging and Labeling of Medical Marijuana Seeds and Immature Plants Prior to Transfer to a Medical Marijuana Business. A Medical Marijuana Business shall comply with the following minimum packaging and labeling requirements prior to Transferring Medical Marijuana seeds or Immature plants to another Medical Marijuana Business:

1. Packaging of Medical Marijuana Seeds.

   a. Prior to Transfer to a Medical Marijuana Business, Medical Marijuana seeds shall be placed into a Container. The Container may but is not required to be Child-Resistant.

   b. Each Container of Medical Marijuana seeds that is Transferred to a Medical Marijuana Business shall not exceed 10 pounds of Medical Marijuana seeds.

2. Packaging of Immature Plants. Prior to Transfer to a Medical Marijuana Business, Immature plants shall be placed into a receptacle. The receptacle may, but is not required to, be Child-Resistant.

3. Labeling of Medical Marijuana Seeds and Immature Plants. Prior to Transfer to a Medical Marijuana Business, every Container of Medical Marijuana seeds and all receptacles holding an Immature plant shall be affixed with a label that includes at least the license number of the Optional Premises Cultivation Operation where the Medical Marijuana that produced the seeds or the Immature plant was grown.

E. Prohibited Transfers – All Medical Marijuana Businesses. A Medical Marijuana Business shall not Transfer to a Medical Marijuana Center, and a Medical Marijuana Center shall not accept nor offer for sale, any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that is not packaged and labeled in conformance with the requirements of these rules, or that does not provide all information necessary to permit the Medical Marijuana Center to package and label the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product prior to Transfer to a patient. However, a Medical Marijuana Center is not required to open any tamper evident Marketing Layer received from an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer to verify the Container is Child-Resistant or labeled.

F. Shipping Containers. Licensees may Transfer multiple Containers of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product to a Medical Marijuana Business in a Shipping Container.

1. RFID Tag Required. Licensees shall ensure that either the multiple Containers placed within a Shipping Container each have an RFID tag, or the Shipping Container itself must have an RFID tag. If the Licensee elects to place the RFID tag on the Shipping Container, the Shipping Container shall contain only one Harvest Batch of Medical Marijuana, one Production Batch of Medical Marijuana Concentrate, or one Production Batch of Medical Marijuana-Infused Product. If a Shipping Container consists of more than one Harvest Batch or Production Batch, then each group of multiple Containers shall be affixed with an RFID tag. *See* Rule M 309 – Inventory Tracking System; Rule M 801 – Transport: All Medical Marijuana Businesses.

2. Labeling of Shipping Containers. Any Shipping Container that will not be displayed to the patient is not required to be labeled according to these rules.

G. Packaging and Labeling of Medical Marijuana Flower and Trim Prior to Transfer to a Medical Research Facility, a Pesticide Manufacturer or a Licensed Research Business. The packaging and labeling requirements in this M 1000-1 Series also apply to any Transfer of Medical

Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Research Facility, a Pesticide Manufacturer, or a Licensed Research Business.

H. Licensed Research Business Transfers to Persons as Part of an Approved Research Project. Any Licensed Research Business conducting research as part of an approved Research Project involving human subjects shall comply with all packaging and labeling requirements that are applicable to a Medical Marijuana Center prior to Transfer to a patient, unless the Licensed Research Business requests and receives in advance a waiver of specific packaging or labeling requirements in connection with the approved Research Project.

I. Research Transfers Prohibited. A Medical Marijuana Center shall not Transfer any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Research Facility, a Pesticide Manufacturer, or a Licensed Research Business.

J. Violation Affecting Public Safety. A violation of any rule in this M 1000-1 Series may be considered a license violation affecting public safety.

Basis and Purpose – M 1002-1

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(II)(A)-(B), 12-43.3-402(2)(a), 12-43.3-402(7), and 12-43.3-404(11), C.R.S. The purpose of this rule is to define general packaging and labeling requirements for Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product prior to Transfer to a patient. The labeling requirements in this rule apply to all Containers immediately containing Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. The State Licensing Authority finds it essential to regulate and establish labeling requirements for Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product and that this is in the interest of the health and safety of the people of Colorado. This rule identifies information that is required on all labels to provide necessary information to patients to make informed decisions and first responders in the event of accidental ingestion, over-ingestion, or allergic reaction. This rule also seeks to minimize, to the extent practicable, the burden of labeling compliance to Licensees.

Rule M 1002-1 - Packaging and Labeling: General Requirements Prior to Transfer to a Patient

A. Applicability. This Rule establishes general requirements for packaging and labeling Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product prior to Transfer to a patient. The labeling requirements in this Rule apply to all Containers immediately containing Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. The labeling requirements based on intended use in Rule M 1003-1 are in addition to, not in lieu of, the requirements in this Rule.

B. Labeling Requirements – All Medical Marijuana, Medical Marijuana Concentrate and Medical Marijuana-Infused Product.

1. Font Size. Labeling text on the Container and any Marketing Layer must be no smaller than 1/16 of an inch.

2. Labels Shall Not Be Designed to Appeal to Children. A Medical Marijuana Business shall not place any content on a Container or the Marketing Layer in a manner that reasonably appears to target individuals under the age of 21, including but not limited to, cartoon characters or similar images.

3. False or Misleading Statements. Label(s) on a Container and any Marketing Layer shall not include any false or misleading statements.

4. Trademark Infringement Prohibited. No Container or Marketing Layer shall be intentionally or knowingly labeled so as to cause a reasonable patient confusion as to whether the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product is a trademarked product or labeled in a manner that violates any federal trademark law or regulation.

5. Health and Benefit Claims. The label(s) on the Container and any Marketing Layer shall not make any claims regarding health or physical benefits to the patient.

6. Use of English Language. Labeling text on the Container and any Marketing Layer must be clearly written or printed and in the English language. In addition to the required English label, Licensees may include an additional, accurate foreign language translation on the label that otherwise complies with these rules.

7. Unobstructed and Conspicuous. Labeling text on the Container and any Marketing Layer must be unobstructed and conspicuous. A Licensee may affix multiple labels to the Container, provided that none of the information required by these rules is obstructed. For example, and not by means of limitation, labels may be accordion, expandable, extendable, or layered to permit labeling of small Containers.

8. Use of the Word “Candy” and/or “Candies” Prohibited.

    a. Licensees shall not use the word(s) “candy” and/or “candies” on the label of any Container holding Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product, or of any Marketing Layer.

    b. Notwithstanding the requirements of this subparagraph, a Medical Marijuana Business whose Identity Statement contains the word(s) “candy” and/or “candies” may place its Identity Statement on the label of the Container holding Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product, or of any Marketing Layer.

9. Child Resistant Certificate(s). A Licensee shall maintain a copy of the certificate showing that each Child-Resistant Container into which the Licensee places Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product is Child-Resistant and complies with the requirements of 16 C.F.R. 1700.15 (1995) and 16 C.F.R. 1700.20 (1995) in accordance with the requirements of Rule M 901(A).

    a. Note that this Rule does not include any later amendments or editions to the Code of Federal Regulations. The Division has maintained a copy of 16 C.F.R. 1700.15 (1995) and 16 C.F.R. 1700.20 (1995), which is available to the public for inspection and copying during the Division’s regular business hours.

10. Containers and Marketing Layers. The Container and any Marketing Layer shall have a label with all information required by this M 1000-1 Series. Any intermediary packaging between the Container and the Marketing Layer is not required to be labeled in accordance with these rules.

11. Exit Packages.

    a. Exit Packages Permitted for Child-Resistant Containers. A Medical Marijuana Center may, but is not required to, place a Child-Resistant Container into an Opaque Exit Package at the point of Transfer to the patient.

b. Exit Packages Required for Medical Marijuana Flower, Trim, and Seeds. Any Medical Marijuana flower, trim, or seeds in a Container that is not Child-Resistant shall be placed into a Child-Resistant Exit Package at the point of Transfer to a patient. The Exit Package is not required to be labeled but may include the Medical Marijuana Center's Identity Statement and/or Standardized Graphic Symbol.

C. Packaging and Labeling of Medical Marijuana Flower and Trim and Medical Marijuana Concentrate Prior to Transfer to a Patient. A Medical Marijuana Center shall comply with the following minimum packaging and labeling requirements prior to Transferring Medical Marijuana flower and trim or Medical Marijuana Concentrate to a patient:

1. Packaging of Medical Marijuana Flower and Trim. Prior to Transfer to a patient, Medical Marijuana flower and trim shall be in a Container that does not exceed the sales limit in Rule M 403(D). The Container may but is not required to be Child-Resistant. Any Medical Marijuana flower and trim in a Container that is not Child-Resistant shall be placed into a Child-Resistant Exit Package at the point of Transfer to a patient.

2. Packaging of Medical Marijuana Concentrate. Prior to Transfer to a patient, Medical Marijuana Concentrate shall be in a Child-Resistant Container. A sealed vaporizer cartridge or disposable vaporizer pen need not itself be Child-Resistant but must be placed into a Child-Resistant Container prior to Transfer to a patient.

3. Labeling of Medical Marijuana Flower and Trim and Medical Marijuana Concentrate. Prior to Transfer to a patient, every Container of Medical Marijuana flower and trim or Medical Marijuana Concentrate, and any Marketing Layer shall be affixed with a label that includes at least the following information:

a. Required License Number(s). The license number for each of the following:

i. The Optional Premises Cultivation Operation where the Medical Marijuana was grown;

ii. If applicable, the Optional Premises Cultivation Operation(s) where the Water-Based Medical Marijuana Concentrate was produced;

iii. If applicable, the Medical Marijuana-Infused Products Manufacturer where the Medical Marijuana Concentrate was produced; and

iv. The Medical Marijuana Center that sold the Medical Marijuana or Medical Marijuana Concentrate to the patient, except the Medical Marijuana Center may affix its license number to the Container or Marketing Layer.

b. Batch Numbers. The Harvest Batch Number(s) assigned to the Medical Marijuana or the Production Batch Number(s) assigned to the Medical Marijuana Concentrate.

c. Statement of Net Contents. The statement of net contents must identify the net weight of the Medical Marijuana or net weight or volume of Medical Marijuana Concentrate prior to its placement in the Container, using a standard of measure compatible with the Inventory Tracking System.

d. Universal Symbol. The Universal Symbol on the front of the Container and any Marketing Layer, no smaller than ½ of an inch by ½ of an inch, with the following

statement directly below the Universal Symbol: "**Contains Marijuana. Keep away from children."**

e. Required Potency Statement. The potency of the Medical Marijuana's or Medical Marijuana Concentrate's Total THC and CBD expressed as a percentage, which shall be displayed either:

i. In a font that is bold, and enclosed within an outlined shape such as a circle or square; or

ii. Highlighted with a bright color such as yellow.

f. Date of Sale. The Medical Marijuana Center shall affix the date of sale to the Container or Marketing layer at the point of Transfer to the patient.

g. Patient Number. The Medical Marijuana Center shall affix the patient's registration number to the Container or Marketing Layer at the time of Transfer to the patient.

h. Solvent List. A list of any solvent(s) used to produce any Solvent-Based Medical Marijuana Concentrate.

i. Nonorganic Pesticide Disclosure. A complete list of all nonorganic Pesticides, herbicides and fertilizers that were used in the cultivation and production of the Medical Marijuana or Medical Marijuana Concentrate.

j. Ingredient List Including Major Allergens. If applicable, a list of all ingredients used to manufacture the Medical Marijuana Concentrate including identification of any major allergens contained in the Medical Marijuana Concentrate in accordance with the Food Allergen Labeling and Patient Protection Act of 2004, 21 U.S.C. § 343 (2010). The Food Allergen Labeling and Patient Protection Act of 2004, 21 U.S.C. § 343 (2010) requires disclosure of the following major food allergens: milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat, and soybeans.

i. Note that this Rule does not include any later amendments or editions to the United States Code. The Division maintains a copy of 21 U.S.C. § 343 (2010), which is available to the public for inspection and copying during the Division's regular business hours.

k. Required Warning Statements. Either the label affixed to the Container or the Marketing Layer shall include the following information:

i. "**This product was produced without regulatory oversight for health, safety, or efficacy**."

ii. Testing statement identifying whether or not the product has been tested as follows:

a. If the product has been tested: "**This product complies with testing requirements**."; or

b. If the product has not been tested, "**This product has not been tested**."

iii. "**There may be long term physical or mental health risks from use of marijuana including additional risks for women who are or may become pregnant or are breastfeeding. Use of marijuana may impair your ability to drive a car or operate machinery**."

D. Packaging and Labeling of Medical Marijuana-Infused Product. A Medical Marijuana-Infused Products Manufacturer and a Medical Marijuana Center shall comply with the following minimum packaging and labeling requirements prior to Transferring Medical Marijuana-Infused Product:

1. Packaging of Medical Marijuana-Infused Product. Every Medical Marijuana-Infused Product shall be in a Child-Resistant Container at the time of Transfer to a Medical Marijuana Center in accordance with the following packaging limits:

a. Medical Marijuana-Infused Product Other than Edible Medical Marijuana-Infused Product. Every Medical Marijuana-Infused Product that is not Edible Medical Marijuana-Infused Product shall be placed into a Child-Resistant Container. A sealed vaporizer cartridge or disposable vaporizer pen need not itself be Child-Resistant but must be placed into a Child-Resistant Container prior to Transfer to a patient.

b. Edible Medical Marijuana-Infused Product. Every Edible Medical Marijuana-Infused Product shall be in a Child-Resistant Container. If the Edible Medical Marijuana-Infused Product contains multiple portions then it shall be placed into a Child-Resistant Container that is Resealable.

2. Labeling of Medical Marijuana-Infused Product. Prior to Transfer to a Medical Marijuana Center and a patient, every Container of Medical Marijuana-Infused Product and any Marketing Layer shall be affixed with a label that includes at least the following information:

a. Required License Number(s). The license number for each of the following:

i. The Optional Premises Cultivation Operation where the Medical Marijuana was grown;

ii. The Medical Marijuana-Infused Products Manufacturer where the Medical Marijuana-Infused Product was produced; and

iii. The Medical Marijuana Center that sold the Medical Marijuana-Infused Product to the patient, except the Medical Marijuana Center may affix its license number to the Container or Marketing Layer.

b. Batch Numbers. The Production Batch Number(s) assigned to the Medical Marijuana-Infused Product.

c. Statement of Net Contents. The statement of net contents must identify the net weight, volume, or number of Medical Marijuana-Infused Products prior to its placement in the Container, using a standard of measure compatible with the Inventory Tracking System.

d. Universal Symbol. The Universal Symbol on the front of the Container and any Marketing Layer, no smaller than ½ of an inch by ½ of an inch, with the following statement directly below the Universal Symbol: "**Contains Marijuana. Keep away from children**."

e. Ingredient List Including Major Allergens. A list of all ingredients used to manufacture the Medical Marijuana-Infused Product including identification of any major allergens contained in the Medical Marijuana-Infused Product in accordance with the Food Allergen Labeling and Patient Protection Act of 2004, 21 U.S.C. § 343 (2010). The Food Allergen Labeling and Patient Protection Act of 2004, 21 U.S.C. § 343 (2010) requires disclosure of the following major food allergens: milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat, and soybeans.

i. Note that this Rule does not include any later amendments or editions to the United States Code. The Division maintains a copy of 21 U.S.C. § 343 (2010), which is available to the public for inspection and copying during the Division's regular business hours.

f. Required Potency Statement. The potency of the Medical Marijuana-Infused Product's active THC and CBD expressed in milligrams, which shall be displayed either:

i. In a font that is bold, and enclosed within an outlined shape such as a circle or square; or

ii. Highlighted with a bright color such as yellow.

g. Date of Sale. The Medical Marijuana Center shall affix the date of sale to the Container or Marketing layer at the point of Transfer to the patient.

h. Patient Number. The Medical Marijuana Center shall affix the patient's registration number to the Container or Marketing Layer at the time of Transfer to the patient.

i. Solvent List. A list of any solvent(s) used to produce any Solvent-Based Medical Marijuana Concentrate that is included as a production input in the Medical Marijuana-Infused Product.

j. Nonorganic Pesticide Disclosure. A complete list of all nonorganic Pesticides, herbicides and fertilizers that were used in the cultivation and production of the Medical Marijuana-Infused Product.

k. Required Warning Statements. Either the label affixed to the Container or the Marketing Layer shall include the following information:

i. "**This product was produced without regulatory oversight for health, safety, or efficacy**."

ii. Testing statement identifying whether or not the product has been tested as follows:

a. If the product has been tested: "**This product complies with testing requirements**."; or

b. If the product has not been tested, "**This product has not been tested.**"

iii. "**There may be long term physical or mental health risks from use of marijuana including additional risks for women who are or may**

become pregnant or are breastfeeding. Use of marijuana may impair your ability to drive a car or operate machinery."

E. Packaging and Labeling of Seeds and Immature Plants Prior to Transfer to a Patient. A Medical Marijuana Center shall comply with the following minimum packaging and labeling requirements prior to Transferring seeds or Immature plants to a patient:

1. Packaging of Medical Marijuana Seeds. Prior to Transfer to a patient, Medical Marijuana seeds shall be in a Container. The Container may but is not required to be Child-Resistant. Any Medical Marijuana seeds in a Container that is not Child-Resistant shall be placed into a Child-Resistant Exit Package at the point of Transfer to a patient.

2. Packaging of Immature Plants. Prior to Transfer to a patient, Immature plants shall be placed into a receptacle. The receptacle may but is not required to be Child-Resistant.

3. Labeling of Seeds and Immature Plants. Prior to Transfer to a patient, every Container holding Medical Marijuana seeds and any receptacle containing an Immature plant must be affixed with a label that includes at least the following information:

a. Required License Number(s). The license number for each of the following:

i. The Optional Premises Cultivation Operation where the Medical Marijuana that produced the seeds or the Immature plant was grown; and

ii. The Medical Marijuana Center that sold the seeds or Immature plant to the patient.

b. Universal Symbol. The Universal Symbol on the front of the Container holding seeds and the receptacle containing each Immature plant, no smaller than ½ of an inch by ½ of an inch, with the following statement directly below the Universal Symbol: "**Contains Marijuana. Keep away from children.**"

c. Statement of Net Contents for Seeds. A statement of net contents identifying the number of seeds in the Container.

d. Date of Sale. The Medical Marijuana Center shall affix the date of sale to the Container or receptacle at the point of Transfer to the patient.

e. Patient Number. The Medical Marijuana Center shall affix the patient's registration number to the Container or receptacle at the time of Transfer to the patient.

f. Nonorganic Pesticide Disclosure. A complete list of all nonorganic Pesticides, herbicides, and fertilizers that were used in the cultivation and production of the Medical Marijuana.

g. Required Warning Statements:

i. "**This product was produced without regulatory oversight for health, safety, or efficacy**."

ii. "**There may be long term physical or mental health risks from use of marijuana including additional risks for women who are or may**

become pregnant or are breastfeeding. Use of marijuana may impair your ability to drive a car or operate machinery."

F. Permissive Information.

1. Identity Statement. A label affixed to a Container of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product, or any Marketing Layer may include, but is not required to include, the Identity Statement and/or Standardized Graphic Symbol for:

   a. The Optional Premises Cultivation Operation(s) where the Medical Marijuana was grown;

   b. The Medical Marijuana-Infused Products Manufacturer that manufactured the Medical Marijuana-Infused Product or Medical Marijuana Concentrate; and/or

   c. The Medical Marijuana Center that sold the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

2. Nutritional Fact Panel. Label(s) may include, but are not required to include, a nutritional fact panel or dietary supplement fact panel in substantial conformance with 21 CFR 101.9 (2016) or 21 C.F.R. 101.36 (2016) as follows:

   a. For Edible Medical Marijuana-Infused Products other than pills, capsules, and tinctures and Food-Based Medical Marijuana Concentrate, the nutritional fact panel shall be in substantial conformance with the requirements of 21 C.F.R. 101.9(C) (2016) which provides the FDA's nutritional labeling requirements for food;

   b. For pills, capsules, and tinctures, the dietary supplement fact panel shall be in substantial conformance with the requirements of 21 C.F.R. 101.36 (2016) which provides the FDA's nutritional labeling requirements for dietary supplements.

      i. Note that this Rule does not include any later amendments or editions to the Code of Federal Regulations. The Division maintains copies of 21 C.F.R. 101.9(C) (2016) and 21 C.F.R. 101.36 (2016), which are available to the public for inspection and copying during the Division's regular business hours.

3. Other Permissive Information. The labeling requirements in this M 1000-1 Series provide only the minimum labeling requirements. Licensees may include additional information on the label(s) so long as such information is consistent with the requirements of these rules.

Basis and Purpose – M 1003-1

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XIV.5), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(II)(A)-(B), 12-43.3-402(2)(a), 12-43.3-402(7), and 12-43.3-404(11), C.R.S. The purpose of this rule is to define additional labeling requirements for Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product (except Medical Marijuana seeds and Immature plants) based on its intended use. These labeling requirements are in addition to, not in lieu of, the labeling requirements in Rule M 1002-1.

Rule M 1003-1 - Additional Labeling Requirements Prior to Transfer to a Patient

A. Applicability. This Rule establishes additional labeling requirements for Medical Marijuana (except seeds and Immature plants), Medical Marijuana Concentrate, and Medical Marijuana-Infused Product prior to Transfer to a patient. The labeling requirements in this Rule apply to all Containers immediately containing Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. These labeling requirements based on intended use are in addition to, not in lieu of, the requirements in Rule M 1002-1.

B. Additional Information Required on Every Container (Except Seeds and Immature Plants) Prior to Transfer to a Patient. Prior to Transfer to a patient, every Container of Medical Marijuana (excepts seeds and Immature plants), Medical Marijuana Concentrate, or Medical Marijuana-Infused Product and any Marketing Layer must have a label that includes at least the following additional information.

1. Statement of Intended Use. The Container and any Marketing Layer shall identify one or more intended use for Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product from the following exclusive list:

a. Inhaled Product:

i. Flower or Trim (including pre-rolled joint and kief);

ii. Solvent-Based Medical Marijuana Concentrate;

iii. Water-Based Medical Marijuana Concentrate;

iv. Heat/Pressure-Based Medical Marijuana Concentrate;

v. Vaporizer cartridge/vaporizer pen.

b. For Oral Consumption (Edible Medical Marijuana-Infused Product):

i. Food or drink infused with Medical Marijuana;

ii. Medical Marijuana Concentrate;

iii. Pills and capsules;

iv. Tinctures.

c. Skin and Body Products:

i. Topical;

ii. Suppository;

iii. Transdermal.

2. Inhaled Product. The label(s) on all inhaled product intended use shall also include:

a. The potency statement required by Rule M 1002-1 for: (1) flower (including pre-rolls and kief), (2) Solvent-Based Medical Marijuana Concentrate, (3) Water-Based Medical Marijuana Concentrate, (4) Heat/Pressure-Based Medical Marijuana Concentrate shall be stated as the percentage of Total THC and CBD.

b. The potency statement required by Rule M 1002-1 for vaporizer cartridges and disposable vaporizer pens shall be stated as either the percentage of Total THC and CBD, or the number of milligrams of Total THC and CBD, per cartridge or pen.

3. For Oral Consumption (Edible Medical Marijuana-Infused Products). The label(s) on all Edible Medical Marijuana-Infused Products, including but not limited to confections, liquids, Medical Marijuana-Infused foods, pills, capsules, and tinctures, shall also include:

a. Potency Statement. The potency statement required by Rule M 1002-1 shall be stated as: (1) milligrams of active THC and CBD per serving, and (2) milligrams of active THC and CBD per Container where the Container contains more than one serving.

b. Additional Warning Statement Required. The following additional warning statement shall be included on the label on the Container or Marketing Layer for all Edible Medical Marijuana-Infused Product: **"The intoxicating effects of this product may be delayed by up to 4 hours.**"

c. Expiration/Use-By Date. A product expiration date, upon which the Edible Medical Marijuana-Infused Product will no longer be fit for consumption, or a use-by-date, upon which the Edible Medical Marijuana-Infused Product will no longer be optimally fresh. Once a label with an expiration or use-by date has been affixed to a Container containing an Edible Medical Marijuana-Infused Product and any Marketing Layer, a Licensee shall not alter that expiration or use-by date, or affix a new label with a later expiration or use-by date.

d. Production Date. The date on which the Edible Medical Marijuana-Infused Product was produced which may be included in the Batch Number required by Rule M 1002-1.

e. Statement Regarding Refrigeration. If an Edible Medical Marijuana-Infused Product is perishable, a statement that the product must be refrigerated.

4. Skin and Body Products (Topical, Suppositories and Transdermal). The label(s) on all skin and body products shall also include:

a. Topical Product Potency Statement. For topical product the potency statement required by Rule M 1002-1 shall be stated as the number of milligrams of active THC and CBD per Container.

b. Suppository and Transdermal Product Potency Statement. For suppository and transdermal product, the potency statement required by Rule M 1002-1 shall be stated as the number of milligrams of active THC and CBD per suppository or transdermal, and the total number of milligrams of active THC and CBD per Container.

c. Expiration/Use-By Date. A product expiration or use-by date, after which the skin and body product will no longer be fit for use. Once a label with an expiration or use-by date has been affixed to any Container holding a skin and body product and any Marketing Layer, a Licensee shall not alter that expiration or use-by date or affix a new label with a later expiration or use-by date.

d. Production Date. The date on which the skin and body product was produced which may be included in the Batch Number required by Rule M 1002-1.

C. No Other Intended Use Permitted. No intended use other than those identified in this Rule shall be identified on any label. Licensees shall accurately identify all intended use(s) from the exclusive list of intended uses in this Rule on the label.

D. Multiple Intended Uses. Any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product having more than one intended use shall identify every intended use on the label and shall comply with all labeling requirements for each intended use. If there is any conflict between the labeling requirements for multiple intended uses, the most restrictive labeling requirements shall be followed. Licensees shall not counsel or advise any patient to use Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product other than in accordance with the intended use(s) identified on the label.

M 1200 Series – Enforcement

Basis and Purpose – M 1201

The statutory authority for this rule includes but is not limited to sections 12-43.3-201(4), 12-43.3-201(5), 12-43.3-202(1)(b)(I), 12-43.3-202(1)(d), 12-43.3-202(2)(a)(II), 12-43.3-202(2)(a)(XX), 16-2.5-101, 16-2.5-121, and 16-2.5-124.5, C.R.S. The purpose of this rule is to allow for officers and employees of the Division to investigate all aspects of Licensees to ensure the fair, impartial, stringent, and comprehensive administration of the Medical Code and the rules promulgated pursuant to it.

M 1201 – Duties of Employees of the State Licensing Authority

A. Duties of Director

1. The State Licensing Authority may delegate an act required to be performed by the State Licensing Authority related to the day-to-day operation of the Division to the Director.

2. The Director may authorize Division employees to perform tasks delegated from the State Licensing Authority.

B. Duties of Division Investigators. The State Licensing Authority, the Department's Senior Director of Enforcement, the Director, and Division investigators shall have all the powers of any peace officer to:

1. Investigate violations or suspected violations of the Medical Code and any rules promulgated pursuant to it. Make arrests, with or without warrant, for any violation of the Medical Code, any rules promulgated pursuant to it, Article 18 of Title 18, C.R.S., any other laws or regulations pertaining to Medical Marijuana in this state, or any criminal law of this state, if, during an officer's exercise of powers or performance of duties pursuant to the Medical Code, probable cause exists that a crime related to such laws has been or is being committed;

2. Serve all warrants, summonses, subpoenas, administrative citations, notices or other processes relating to the enforcement of laws regulating Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product;

3. Assist or aid any law enforcement officer in the performance of his or her duties upon such law enforcement officer's request or the request of other local officials having jurisdiction;

4. Inspect, examine, or investigate any premises where the Licensee’s Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product are grown, stored,

cultivated, manufactured, tested, distributed, or sold, and any books and records in any way connected with any licensed activity;

5. Require any Licensee, upon demand, to permit an inspection of Licensed Premises during business hours or at any time of apparent operation, marijuana equipment, and marijuana accessories, or books and records; and, to permit the testing of or examination of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product;

6. Require Applicants to submit complete and current applications and fees and other information the Division deems necessary to make licensing decisions and approve material changes made by the Applicant or Licensee;

7. Conduct investigations into the character, criminal history, and all other relevant factors related to suitability of all Licensees and Applicants for Medical Marijuana licenses and such other Persons with a direct or indirect interest in an Applicant or Licensee, as the State Licensing Authority may require; and

8. Exercise any other power or duty authorized by law.

C. Duties of State Licensing Authority and Division Employees.

1. Employees shall maintain the confidentiality of State Licensing Authority and Division records and information. For confidentiality requirements of State Licensing Authority and Division employees who leave the employment of the State Licensing Authority, see Rule M 1308 - Confidential Information and Former State Licensing Authority Employees.

2. Pursuant to subsection 12-43.3-201(4), C.R.S., State Licensing Authority employees with regulatory oversight responsibilities for marijuana businesses licensed by the State Licensing Authority shall not work for, represent, or provide consulting services to or otherwise derive pecuniary gain from a marijuana business licensed by the State Licensing Authority or other business entity established for the primary purpose of providing services to the marijuana industry for a period of six months following his or her last day of employment with the State Licensing Authority.

3. Pursuant to subsection 12-43.3-201(5), C.R.S., disclosure of confidential records or information in violation of the provisions of the Medical Code constitutes a class 1 misdemeanor.

Basis and Purpose – M 1202

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(IV), and 12-43.3-202(2)(a)(XX), C.R.S. This rule explains that Licensees must cooperate with Division employees when they are acting within the normal scope of their duties and that failure to do so may result in sanctions. It also explains the administrative hold process, the handling of inventory subject to administrative hold and under investigation and the process for voluntary surrender of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

M 1202 – Requirement for Inspections and Investigations, Searches, Administrative Holds, Voluntary Surrenders and Such Additional Activities as May Become Necessary from Time to Time

A. Applicants and Licensees Shall Cooperate with Division Employees

1. Applicants and Licensees must cooperate with employees of the Division who are conducting inspections or investigations relevant to the enforcement of laws and regulations related to the Medical Code.

2. No Applicant or Licensee shall by any means interfere with, obstruct or impede the State Licensing Authority or any employee of the Division from exercising their duties under the provisions of the Medical Code and all rules promulgated pursuant to it. This would include, but is not limited to:

    a. Threatening force or violence against an employee or investigator of the Division, or otherwise endeavoring to intimidate, obstruct, or impede employees or investigators of the Division, their supervisors, or any peace officers from exercising their duties. The term “threatening force” includes the threat of bodily harm to such individual or to a member of his or her family;

    b. Denying investigators of the Division access to premises where the Licensee’s Medical Marijuana or Medical Marijuana-Infused Product are grown, stored, cultivated, manufactured, tested, distributed, or sold during business hours or times of apparent activity;

    c. Providing false or misleading statements;

    d. Providing false or misleading documents and records;

    e. Failing to timely produce requested books and records required to be maintained by the Licensee; or

    f. Failing to timely respond to any other request for information made by a Division employee or investigator in connection with an investigation of the qualifications, conduct or compliance of an Applicant or Licensee.

B. Administrative Hold

1. To prevent destruction of evidence, diversion or other threats to public safety, while permitting a Licensee to retain its inventory pending further investigation, a Division investigator may order an administrative hold of Medical Marijuana or Medical Marijuana-Infused Product pursuant to the following procedure:

    a. If during an investigation or inspection of a Licensee, a Division investigator develops reasonable grounds to believe certain Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product constitute evidence of acts in violation of the Medical Code or rules promulgated pursuant to it, or otherwise constitute a threat to the public safety, the Division investigator may issue a notice of administrative hold of any such Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. The notice of administrative hold shall provide a documented description of the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to be subject to the administrative hold and a concise statement that is promptly issued and approved by the Director or his or her designee regarding the reasons for issuing the administrative hold.

    b. Following the issuance of a notice of administrative hold, the Division will identify the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product subject to the administrative hold in the Inventory Tracking

System. The Licensee shall continue to comply with all tracking requirements. *See* Rule M 309 – Medical Marijuana Business: Inventory Tracking System.

c. The Licensee shall completely and physically segregate the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product subject to the administrative hold in a Limited Access Area of the Licensed Premises under investigation, where it shall be safeguarded by the Licensee.

d. While the administrative hold is in effect, the Licensee is prohibited from selling, giving away, Transferring, transporting, or destroying the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product subject to the administrative hold except as otherwise authorized by these Rules.

e. While the administrative hold is in effect, the Licensee must safeguard the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product subject to the administrative hold and must fully comply with all security requirements including but not limited to surveillance, lock and alarm requirements set forth in the Medical Code and the rules of the State Licensing Authority. *See* Rule M 1309 Administrative Warrants.

f. Nothing herein shall prevent a Licensee from voluntarily surrendering Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that is subject to an administrative hold, except that the Licensee must follow the procedures set forth in paragraph (C) for voluntary surrender of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

g. Nothing herein shall prevent a Licensee from the continued possession, cultivation, or harvesting of the Medical Marijuana subject to the administrative hold. All Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product subject to an administrative hold must be put into separate Harvest Batches.

h. At any time after the initiation of the administrative hold, the Division may lift the administrative hold pending the administrative process, or seek other appropriate relief.

C. <u>Voluntary surrender of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product</u>

1. A Licensee, prior to a Final Agency Order and upon mutual agreement with the Division, may elect to voluntarily surrender any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to the Division.

a. Such voluntary surrender may require destruction of any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in the presence of a Division investigator and at the Licensee's expense, and

b. The individual signing the Division's voluntary surrender form on behalf of the Licensee must certify that the individual has authority to represent and bind the Licensee.

2. The voluntary surrender form may be utilized in connection with a stipulated agency order through which the Licensee waives the right to hearing and any associated rights.

3. The voluntary surrender form may be utilized even if the Licensee does not waive the right to hearing and any associated rights, with the understanding that the outcome of the hearing does not impact the validity of the voluntary surrender.

4. A Licensee, after a Final Agency Order and upon mutual agreement with the Division, may elect to voluntarily surrender any marijuana or marijuana product to the Division.

   a. The Licensee must complete and return the Division's voluntary surrender form within 15 calendar days of the date of the Final Agency Order.

   b. Such voluntary surrender may require destruction of any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in the presence of a Division investigator and at the Licensee's expense.

   c. The individual signing the Division's voluntary surrender form on behalf of the Licensee must certify that the individual has authority to represent and bind the Licensee.

Basis and Purpose - M 1203

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(II), 12-43.3-202(2)(a)(IV), 12-43.3-202(1)(b)(XX), and 12-43.3-602, C.R.S. The purpose of this rule is to provide guidance following either an agency decision or under any circumstances where the licensee is ordered to surrender and/or destroy unauthorized Medical Marijuana, unauthorized Medical Marijuana Concentrate, and unauthorized Medical Marijuana-Infused Product. This rule also provides guidance as to the need to preserve evidence during agency investigations or subject to agency order.

M 1203 – Disposition of Unauthorized Medical Marijuana

A. After a Final Agency Order Mandates the Destruction of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. If the State Licensing Authority issues a Final Agency Order pursuant to section 12-43.3-602, C.R.S., that mandates the destruction of some or all of the Licensee's unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product, the Licensee may:

   1. Voluntarily Surrender. The Licensee may voluntarily surrender to the Division all of its unauthorized Medical Marijuana, unauthorized Medical Marijuana Concentrate, or unauthorized Medical Marijuana-Infused Product that are described in the Final Agency Order in accordance with the provisions of Rule M 1202.

   2. Seek a Stay. The licensee may file a petition for a stay of the Final Agency Order with the Denver District Court within 15 days of the Final Agency Order.

   3. Take No Action. If the Licensee does not either (1) voluntarily surrender its unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product as set forth in subparagraph (A)(1) of this Rule; or (2) properly seek a stay of the Final Agency Order as set forth in subparagraph (A)(2) of this Rule, the Division will enter the Licensed Premises and seize and destroy the unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product that are the subject of the Final Agency Order.

B. General Requirements Applicable To All Licensees Following Final Agency Order To Destroy Unauthorized Medical Marijuana or Unauthorized Medical Marijuana-Infused Product. The following requirements apply regardless of whether the Licensee voluntarily surrenders its unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product, seeks a stay of agency action, or takes no action:

1. The 15 day period set forth in section 12-43.3-602, C.R.S., and this rule shall include holidays and weekends.

2. During the period of time between the issuance of the Final Agency Order and the destruction of unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product, the Licensee shall not Transfer, destroy, or otherwise let any unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product that are subject to the Final Agency Order leave the Licensed Premises unless specifically authorized by the State Licensing Authority or a court of competent jurisdiction.

3. During the period of time between the issuance of the Final Agency Order and the destruction of unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product, the Licensee must safeguard any unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product in its possession or control and must fully comply with all security requirements including but not limited to surveillance, lock and alarm requirements set forth in the Medical Code and the rules of the State Licensing Authority.

4. Unless the State Licensing Authority otherwise orders, the Licensee may cultivate, water, or otherwise care for any unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product that are subject to the Final Agency Order during the period of time between the issuance of the Final Agency Order and the destruction of the unauthorized Medical Marijuana or unauthorized Medical Marijuana-Infused Product.

5. If a district attorney notifies the Division that some or all of the unauthorized Medical Marijuana or Medical Marijuana-Infused Product is involved in an investigation, the Division shall not destroy the unauthorized Medical Marijuana or Medical Marijuana-Infused Product until approved by the district attorney.

M 1300 Series – Discipline

Basis and Purpose – M 1303

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(V), 12-43.3-202(a)(XIX), 12-43.3-202(2)(a)(XX), 24-4-104(4)(a), 12-43.3-601, and 24-4-105, C.R.S. The State Licensing Authority recognizes that if Licensees are not able to care for their products during a period of active suspension, then their plants could die, their edible products could deteriorate, and their on-hand inventory may not be properly maintained. Accordingly, this rule was written to clarify that Licensees whose licenses are summarily suspended may care for on-hand inventory, manufactured products, and plants during the suspension (unless the State Licensing Authority does not allow such activity), provided the Licensed Premises and all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are adequately secured. In addition, the rule clarifies what activity is always prohibited during such suspension.

M 1303 – Suspension Process: Regular and Summary Suspensions

A. Signs Required During Active Suspension. Every Licensee whose License has been suspended, whether summarily or after an administrative hearing, shall post two notices in conspicuous places, one on the exterior and one on the interior of its premises, for the duration of the suspension. The notices shall at least 17 inches in length and 11 inches in width containing lettering not less 1/2'' in height.

1. For suspension following issuance of a Final Agency Order, the sign shall be in the following form:

NOTICE OF SUSPENSION

MEDICAL MARIJUANA LICENSES ISSUED

FOR THESE PREMISES HAVE BEEN

SUSPENDED BY ORDER OF THE STATE LICENSING AUTHORITY

FOR VIOLATION OF THE COLORADO MEDICAL MARIJUANA CODE

2. For a summary suspension pending issuance of a Final Agency Order, the sign shall be in the following form:

NOTICE OF SUSPENSION

MEDICAL MARIJUANA LICENSES ISSUED

FOR THESE PREMISES HAVE BEEN

SUSPENDED BY ORDER OF THE STATE LICENSING AUTHORITY

FOR ALLEGED VIOLATION OF THE COLORADO MEDICAL MARIJUANA CODE

Any advertisement or posted signs that indicate that the premises have been closed or business suspended for any reason other than by the manner described in this rule shall be deemed a violation of these rules.

B. Prohibited Activity During Suspension

1. Unless otherwise ordered by the State Licensing Authority, during any period of suspension the Licensee shall not permit the acquisition, purchase, , serving, giving away, distribution, manufacture, sampling, testing, Transfer, or transport of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product on the Licensed Premises, nor allow patients to enter the Licensed Premises.

2. Unless otherwise ordered by the State Licensing Authority, during any period of suspension the Licensee may continue to possess, maintain, cultivate or harvest Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product on the Licensed Premises. The Licensee must fully account for all such Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product in the Inventory Tracking System. The Licensee must safeguard any Medical Marijuana or Medical Marijuana-Infused Product in its possession or control. The Licensee must fully comply with all security requirements including but not limited to surveillance, lock and alarm requirements set forth in the Medical Code and the rules of the State Licensing Authority.

C. Removal and Destruction of Medical Marijuana, Medical Marijuana Concentrate, and Marijuana-Infused Product. Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product shall not be removed from the Licensed Premises or destroyed unless and until:

1. The provisions described in section 12-43.3-602, C.R.S., related to the proper destruction of unauthorized marijuana are met, and the State Licensing Authority orders forfeiture and destruction. See also Rule M 1203 – Disposition of Unauthorized Medical Marijuana;

2. The Licensee has voluntarily surrendered the Medical Marijuana or Medical Marijuana-Infused Product in accordance with Rule M 1202(C) – Voluntary Surrender;

3. The State Licensing Authority has seized the Medical Marijuana or Medical Marijuana-Infused Product pursuant to an Administrative Warrant. See Rule M 1309 - Administrative Warrants.

D. Renewal. The issuance of a suspension or an Order of Summary Suspension does not relieve the Licensee of the obligation to timely comply with all license renewal requirements.

Basis and Purpose – M 1307

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(c), 12-43.3-202(2)(a)(V), 12-43.3-202(a)(XIX), and 12-43.3-202(2)(a)(XX), C.R.S. The purpose of this rule is to establish guidelines for enforcement and penalties that will be imposed by the State Licensing Authority for non-compliance with Medical Code, section 18-18-406.3(7), C.R.S., or any other applicable rule. The State Licensing Authority considered the type of violation and the threat of harm to the public versus purely administrative harm when setting the penalty structure. Based upon public testimony and a written commentary, Rule M 1307(A) was amended to include additional license violations affecting public safety and Rule M 1307(C.1) was added.

M 1307 – Penalties

A. Penalty Schedule. The State Licensing Authority will make determinations regarding the type of penalty to impose based on the severity of the violation in the following categories:

1. License Violations Affecting Public Safety. This category of violation is the most severe and may include, but is not limited to, Medical Marijuana sales to non-patients, consuming marijuana on the Licensed Premises, Medical Marijuana sales in excess of the relevant transaction limit, permitting the diversion of Medical Marijuana outside the regulated distribution system, possessing medical marijuana inventory or medical marijuana-infused products inventory obtained from outside the regulated distribution system or from an unauthorized source, misstatements or omissions in the Inventory Tracking System, failure to continuously escort a visitor in a Limited Access Area, violations related to co-located Medical Marijuana Businesses and Retail Marijuana Establishments, failure to maintain books and records to fully account for all transactions of the business, or packaging or labeling violations that directly impact patient safety. Violations of this nature generally have an immediate impact on the health, safety, and welfare of the public at large. The range of penalties for this category of violation may include license suspension, a fine per individual violation, a fine in lieu of suspension of up to $100,000, and/or license revocation depending on the mitigating and aggravating circumstances. Sanctions may also include restrictions on the license.

2. License Violations. This category of violation is more severe than a license infraction but generally does not have an immediate impact on the health, safety and welfare of the public at large. License violations may include but are not limited to, advertising and/or marketing violations, packaging or labeling violations that do not directly impact patient safety, failure to maintain minimum security requirements, failure to keep and maintain adequate business books and records, minor or clerical errors in the inventory tracking procedures. The range of penalties for this category of violation may include a written warning, license suspension, a fine per individual violation, a fine in lieu of suspension of up to $50,000, and/or license revocation depending on the mitigating and aggravating circumstances. Sanctions may also include restrictions on the license.

3. License Infractions. This category of violation is the least severe and may include, but is not limited to, failure to display required badges, unauthorized modifications of the premises of a minor nature, or failure to notify the State Licensing Authority of a minor change in ownership. The range of penalties for this category of violation may include a verbal or written warning, license suspension, a fine per individual violation, and/or a fine in lieu of suspension of up to $10,000 depending on the mitigating and aggravating circumstances. Sanctions may also include restrictions on the license.

B. Other Factors

1. The State Licensing Authority may take into consideration any aggravating and mitigating factors surrounding the violation which could impact the type or severity of penalty imposed.

2. The penalty structure is a framework providing guidance as to the range of violations, suspension description, fines, and mitigating and aggravating factors. The circumstances surrounding any penalty imposed will be determined on a case-by-case basis.

3. For all administrative offenses involving a proposed suspension, a Licensee may petition the State Licensing Authority for permission to pay a monetary fine, within the provisions of section 12-43.3-601, C.R.S., in lieu of having its license suspended for all or part of the suspension.

C. Mitigating and Aggravating Factors. The State Licensing Authority may consider mitigating and aggravating factors when considering the imposition of a penalty. These factors may include, but are not limited to:

1. Any prior violations that the Licensee has admitted to or was found to have engaged in.

2. Good faith measures by the Licensee to prevent the violation, including the following:

   a. Proper supervision;

   b. Regularly-provided and documented employee training, provided the Licensee demonstrates all reasonable training measures were delivered prior to the Division's investigation;

   c. Standard operating procedures established prior to the Division's investigation, and which include procedures directly addressing the conduct for which imposition of a penalty is being considered; and

   d. Previously established and maintained responsible-vendor designation pursuant to Rule M 408.

3. Licensee's past history of success or failure with compliance checks.

4. Corrective action(s) taken by the Licensee related to the current violation or prior violations.

5. Willfulness and deliberateness of the violation.

6. Likelihood of reoccurrence of the violation.

7. Circumstances surrounding the violation, including, but not limited to, Licensee self-reported violation(s) of the Medical Code or rules promulgated pursuant to the Medical Code; and

8. Owner or manager is the violator or has directed an employee or other individual to violate the Medical Code or rules promulgated pursuant to the Medical Code.

M 1500 Series – Medical Marijuana Testing Program

Basis and Purpose – M 1501

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(6), 12-43.3-402(7), 12-43.3-404(4), and 12-43.3-404(10), C.R.S. The purpose of this rule is to protect the public health and safety by establishing the contaminant testing and related process validation portion of the Division's Medical Marijuana sampling and testing program.

M 1501 – Medical Marijuana Testing Program – Contaminant Testing

A. Contaminant Testing Required. Unless an Optional Premises Cultivation Operation's and Medical Marijuana-Infused Products Manufacturer's cultivation or production process has achieved process validation under this Rule, it shall not Transfer or process into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product unless Samples from each Harvest Batch or Production Batch from which that Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product was derived has been tested by a Medical Marijuana Testing Facility for contaminants and passed all contaminant tests required by Paragraph (C) of this Rule.

B. Process Validation and Ongoing Testing – Contaminant Testing

1. Medical Marijuana. An Optional Premises Cultivation Operation's cultivation process shall be deemed validated for contaminant testing if every Harvest Batch that it produced during at least a six-week period but no longer than a 12-week period passed all contaminant tests required by Paragraph (C) of this Rule. This must include at least six Test Batches.

2. Medical Marijuana Concentrate or Medical Marijuana Infused-Product. An Optional Premises Cultivation Operation's or a Medical Marijuana-Infused Products Manufacturer's production process shall be deemed validated regarding contaminant if every Production Batch that it produced during at least a four-week period but no longer than an eight-week period passed all contaminant tests required by paragraph (C) of this Rule. This must include at least four Test Batches.

3. Process Validation is Effective for One Year. Once an Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer has successfully obtained process validation for contaminants, the process validation shall be effective for one year from the date of the last passing test required to satisfy the process validation requirements.

4. Medical Marijuana Ongoing Contaminant Testing. After successfully obtaining process validation, once every 30 days an Optional Premises Cultivation Operation shall subject at least one Harvest Batch to all contaminant testing required by Paragraph (C) of this Rule. If during any 30-day period an Optional Premises Cultivation Operation does not possess a Harvest Batch that is ready for testing, the Optional Premises Cultivation

Operation must subject its first Harvest Batch that is ready for testing to the required contaminant testing prior to Transfer or processing of the Medical Marijuana. If a Harvest Batch subject to ongoing contaminant testing fails contaminant testing, the Optional Premises Cultivation Operation shall follow the procedure in Paragraph (F)(2) of this Rule. Ongoing contaminant testing pursuant to this Rule M 1501 shall be subject to the requirements in Rule M 1504. See Rule M 1504(A) – Collection of Samples.

a. The Division may reduce the frequency of ongoing contaminant testing required by Optional Premises Cultivation Operations if the Division has reasonable grounds to believe Medical Marijuana Testing Facilities have reached maximum capacity to perform testing required by this Rule. The Division will provide notification of any reduction to the frequency of ongoing contaminant testing to the Licensee's last electronic mailing address provided to the Division.

5. Medical Marijuana Concentrate or Medical Marijuana-Infused Products Ongoing Contaminant Testing. After successfully obtaining process validation, once every 30 days an Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall subject at least one Production Batch to all contaminant testing required by Paragraph (C) of this Rule. If during any 30-day period an Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer does not possess a Production Batch that is ready for testing, the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer must subject its first Production Batch that is ready for testing to the required contaminant testing prior to Transfer or processing of the Medical Marijuana. If a Production Batch submitted for ongoing contaminant testing fails contaminant testing, the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall follow the procedure in Paragraph (F)(2) of this Rule.

a. The Division may reduce the frequency of ongoing contaminant testing required by Optional Premises Cultivation Operations or Medical Marijuana-Infused Products Manufacturers if the Division has reasonable grounds to believe Medical Marijuana Testing Facilities have reached maximum capacity to perform testing required by this Rule. The Division will provide notification of any reduction to the frequency of ongoing contaminant testing to the Licensee's last electronic mailing address provided to the Division.

C. Required Contaminant Tests.

1. Microbial Contaminant Testing. Harvest Batches of Medical Marijuana and Production Batches of Water, Heat/Pressure-, or Food-Based Medical Marijuana Concentrate and Medical Marijuana-Infused Product must be tested for microbial contamination by a Medical Marijuana Testing Facility at the frequency established by Paragraphs (A) and (B) of this Rule. The microbial contamination test must include, but need not be limited to, testing to determine the presence of Salmonella sp. and shiga-toxin producing Escherichia coli., and the amount of total yeast and mold.

2. Repealed.

3. Residual Solvent Contaminant Testing. Production Batches of Solvent-Based Medical Marijuana Concentrate produced by a Medical Marijuana-Infused Products Manufacturer must be tested for residual solvent contamination by a Medical Marijuana Testing Facility at the frequency established by Paragraphs (A) and (B) of this Rule. The residual solvent contamination test must include, but need not be limited to, testing to determine the presence of, and amounts present of acetone, butane, ethanol, heptanes, isopropyl alcohol, propane, benzene*, toluene*, pentane, hexane*, and total xylenes (m, p, o –

xylenes)*. * Note: These solvents are not approved for use. Testing is required for these solvents due to their possible presence in the solvents approved for use per Rule M 605.

4. Mycotoxin Contaminant Testing. As part of Remediation, each Production Batch of Solvent-Based Medical Marijuana Concentrate produced by a Medical Marijuana-Infused Products Manufacturer from Medical Marijuana that failed microbial contaminant testing produced must be tested by a Retail Marijuana Testing Facility for mycotoxin contamination. The mycotoxin contaminant test must include, but need not be limited to, testing to determine the presence of, and amounts present of, aflatoxins (B1, B2, G1, and G2) and ochratoxin A. This is in addition to all other contaminant testing required by this Paragraph (C).

5. Pesticide Contaminant Testing. Harvest Batches of Medical Marijuana must be tested for Pesticide contamination by a Medical Marijuana Testing Facility at the frequency established by this Rule 1501(A) and (B). The Pesticide contamination test must include, but need not be limited to, testing to determine the presence of, and amounts present of, the Pesticides listed in Rule M 712(E)(5).

D. Additional Required Tests. The Division may require additional tests to be conducted on a Harvest Batch or Production Batch prior to an Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer Transferring, or processing into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product from that Harvest Batch or Production Batch. Additional tests may include, but need not be limited to, screening for Pesticide, chemical contaminants or other types of biological contaminants, microbials, molds, metals, or residual solvents.

E. Exemptions

1. Medical Marijuana Concentrate. A Production Batch of Medical Marijuana Concentrate shall be considered exempt from this Rule if the Medical Marijuana-Infused Products Manufacturer that produced it does not Transfer any portion of the Production Batch and uses the entire Production Batch to manufacture Medical Marijuana-Infused Product, except that a Solvent-Based Medical Marijuana Concentrate must still be submitted for residual solvent contaminant testing. The manufactured Medical Marijuana-Infused Product shall be subject to mandatory testing under this Rule.

F. Required Re-Validation - Contaminants.

1. Material Change Re-validation. If an Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer makes a Material Change to its cultivation or production process or its standard operating procedure manual, then it must have the first five Harvest Batches or Production Batches produced using the procedures tested for all of the contaminants required by Paragraph (C) of this Rule regardless of whether its process has been previously validated regarding contaminants. If any of those tests fail, then the Medical Marijuana Business's process must be re-validated.

   a. Pesticide. It shall be considered a Material Change if an Optional Premises Cultivation begins using a new or different Pesticide during its cultivation process.

   b. Solvents. It shall be considered a Material Change if a Medical Marijuana-Infused Products Manufacturer begins using a new or different solvent or combination of solvents or changes any parameters for equipment related to the solvent purging process, including but not limited to, time, temperature, or pressure.

c. Cultivation. It shall be considered a Material Change if an Optional Premises Cultivation Operation begins using a new or different method for any material part of the cultivation process, including but not limited to, changing from one growing medium to another.

d. Notification. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer must notify the Medical Marijuana Testing Facility of the Material Change.

e. Testing Required Prior to Transfer or Processing. When a Harvest Batch or Production Batch is required to be submitted for testing pursuant to this Rule, the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that produced it may not Transfer or process into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product any of the Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product from that Harvest Batch or Production Batch.

2. Failed Contaminant Testing and Re-Validation. Failed contaminant testing may constitute a violation of these rules. Additionally, if a Sample the Division requires to be tested fails contaminant testing, the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall follow the procedures in Rule M 1507(B) for any Inventory Tracking System package, Harvest Batch, or Production Batch from which the failed Sample was taken. The Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall also submit three additional Test Batches of the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product for contaminant testing by a Medical Marijuana Testing Facility within no more than 30 days. If any one of the three submitted Test Batches fails contaminant testing, the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall re-validate its process for contaminants.

3. Repealed.

G. Violation Affecting Public Safety. Failure to comply with this rule may constitute a license violation affecting public safety.

Basis and Purpose – M 1502

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(6), 12-43.3-402(7), 12-43.3-404(4), and 12-43.3-404(10), C.R.S. The purpose of this rule is to protect the public health and safety by establishing the mandatory testing portion of the Division's Medical Marijuana sampling and testing program.

M 1502 – Medical Marijuana Testing Program – Mandatory Testing

A. Required Sample Submission. A Medical Marijuana Business may be required by the Division to submit a Sample(s) of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product it possesses to a Medical Marijuana Testing Facility at any time regardless of whether its process has been validated and without notice.

1. Samples collected pursuant to this Rule may be tested for potency or contaminants which may include, but may not be limited to, Pesticide, microbials, mycotoxin, molds, metals, residual solvents, biological contaminants, and chemical contaminants.

2. When a Sample(s) is required to be submitted for testing, the Medical Marijuana Business may not Transfer or process into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product any Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product from the Inventory Tracking System package, Harvest Batch or Production Batch from which the Sample was taken, unless or until it passes all required testing.

B. Methods for Determining Required Testing.

1. Random Testing. The Division may require Samples to be submitted for testing through any one or more of the following processes: random process, risk-based process or other internally developed process, regardless of whether a Medical Marijuana Business's process has been validated.

2. Inspection or Enforcement Tests. In addition, the Division may require a Medical Marijuana Business to submit a Sample for testing if the Division has reasonable grounds to believe that:

a. Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product is contaminated or mislabeled;

b. A Medical Marijuana Business is in violation of any product safety, health or sanitary statute, rule or regulation; or

c. The results of a test would further an investigation by the Division into a violation of any statute, rule or regulation.

3. Beta Testing. The Division may require a Medical Marijuana Business to submit Samples from certain randomly selected Harvest Batches or Production Batches for potency or contaminant testing prior to implementing mandatory testing.

C. Minimum Testing Standards. The testing requirements contained in the M 1500 series are the minimum required testing standards. Medical Marijuana Businesses are responsible for ensuring adequate testing on any Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana Infused-Products they produce or Transfer to ensure safety for human consumption.

D. Additional Sample Types. The Division may also require a Medical Marijuana Business to submit Samples comprised of items other than Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product to be tested for contaminants which may include, but may not be limited to, Pesticide, microbials, molds, metals, residual solvents, biological contaminants, and chemical contaminants. The following is a non-exhaustive list of the types of Samples that may be required to be submitted for contaminant testing:

1. Specific Medical Marijuana plant(s) or any portion of a Medical Marijuana plant(s),

2. Any growing medium, water or other substance used in the cultivation process,

3. Any water, solvent or other substance used in the processing of a Medical Marijuana Concentrate,

4. Any ingredient or substance used in the manufacturing of a Medical Marijuana-Infused Product; or

5. Swab of any equipment or surface.

E. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose – M 1503

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(6), 12-43.3-402(7), and 12-43.3-404(10), C.R.S. The purpose of this rule is to protect the public health and safety by establishing the potency testing and related process validation portion of the Division's Medical Marijuana sampling and testing program.

M 1503 – Medical Marijuana Testing Program – Potency Testing

Rule M 1503 shall be effective beginning July 1, 2016.

A. Potency Testing – General.

1. Test Batches. A Test Batch submitted for potency testing may only be comprised of Samples that are of the same strain of Medical Marijuana or from the same Production Batch of Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

2. Cannabinoid Profile. A potency test conducted pursuant to this rule must at least determine the level of concentration of THC, THCA, CBD, CBDA and CBN.

B. Potency Testing for Medical Marijuana.

1. Initial Potency Testing. An Optional Premises Cultivation Operation must have potency tests conducted by a Medical Marijuana Testing Facility on four Harvest Batches, created a minimum of one week apart, for each strain of Medical Marijuana that it cultivates.

a. The first potency test must be conducted on each strain prior to the Optional Premises Cultivation Operation Transferring or processing into a Medical Marijuana Concentrate any Medical Marijuana of that strain.

b. All four potency tests must be conducted on each strain no later than December 1, 2016 or six months after the Optional Premises Cultivation Operation begins cultivating that strain, whichever is later.

2. Ongoing Potency Testing. After the initial four potency tests, an Optional Premises Cultivation Operation shall have each strain of Medical Marijuana that it cultivates tested for potency at least once per quarter.

C. Potency Testing for Medical Marijuana Concentrate. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer must have a potency test conducted by a Medical Marijuana Testing Facility on every Production Batch of Medical Marijuana Concentrate that it produces prior to Transferring or processing into a Medical Marijuana-Infused Product any of the Medical Marijuana Concentrate from that Production Batch.

D. Potency Testing for Medical Marijuana-Infused Product

1. Potency Testing Required for Medical Marijuana-Marijuana Infused Product. A Medical Marijuana-Infused Products Manufacturer shall have potency tests conducted by a Medical Marijuana Testing Facility on every Production Batch of each type of Medical Marijuana Infused-Product that it produces prior to Transferring any of the Medical Marijuana-Infused Product from that Production Batch, unless the Medical Marijuana-

Infused Products Manufacturer has successfully completed process validation for potency and homogeneity for the particular type of Medical Marijuana-Infused Product.

2. Required Tests. Potency and homogeneity tests conducted on Medical Marijuana-Infused Product must determine the level of concentration of the required Cannabinoids and whether or not THC is homogeneously distributed throughout the product.

3. Partially Infused Medical Marijuana-Infused Products. If only a portion of a Medical Marijuana-Infused Product is infused with Medical Marijuana, then the Medical Marijuana-Infused Products Manufacturer must inform the Medical Marijuana Testing Facility of exactly which portions of the Medical Marijuana-Infused Product are infused and which portions are not infused.

E. Process Validation of - Potency and Homogeneity.

1. A Medical Marijuana-Infused Products Manufacturer may process validate potency and homogeneity for each type of non-Edible Medical Marijuana-Infused Product and each type of Edible Medical Marijuana-Infused Product that it manufactures so long as the Edible Medical Marijuana-Infused Product contains 100 milligrams or less of THC.

2. A Medical Marijuana-Infused Products Manufacturer's production process for a particular type of Medical Marijuana-Infused Product shall be deemed valid regarding potency and homogeneity if every Production Batch that it produces for that particular type of Medical Marijuana-Infused Product during at least a four-week period but no longer than an eight-week period passes all potency and homogeneity tests required by Rule M 1503(D)(2). This must include at least four Test Batches.

3. Expiration of Process Validation. A Medical Marijuana-Infused Products Manufacturer shall be required to re-validate its process every 12 months from the date process validation is achieved, after which point the process validation expires. If the process validation expires, the Medical Marijuana-Infused Products Manufacturer shall comply with the requirements of Paragraph (D)(1) of this Rule.

4. Medical Marijuana-Infused Product Ongoing Potency and Homogeneity Testing. After successfully obtaining process validation, once per quarter a Medical Marijuana-Infused Products Manufacturer shall subject at least one Production Batch of each type of Medical Marijuana-Infused Product that it produces to potency and homogeneity testing required by Paragraph (D) of this Rule. If during any quarter a Medical Marijuana-Infused Products Manufacturer does not possess a Production Batch that is ready for testing, the Medical Marijuana-Infused Products Manufacturer must subject its first Production Batch that is ready for testing to the required potency and homogeneity testing prior to Transfer or processing of the Medical Marijuana. If a Test Batch submitted for ongoing potency and homogeneity testing fails potency and homogeneity testing, the Medical Marijuana-Infused Products Manufacturer shall follow the procedure in Paragraph (F)(2) of this Rule. Ongoing potency and homogeneity testing pursuant to this Rule M 1503 shall be subject to the requirements in Rule M 1504. See Rule M 1504(A) – Collection of Samples.

a. The Division may reduce the frequency of ongoing potency and homogeneity testing required by Medical Marijuana-Infused Products Manufacturer if the Division has reasonable grounds to believe Medical Marijuana Testing Facilities have reached maximum capacity to perform testing required by this Rule. The Division will provide notification of any reduction to the frequency of ongoing potency and homogeneity testing to the Licensee's last electronic mailing address provided to the Division.

F. Required Re-Validation - Potency and Homogeneity - Medical Marijuana-Infused Product.

1. Material Change Re-Validation. If a Medical Marijuana-Infused Products Manufacturer elects to process validate any Medical Marijuana-Infused Product for potency and homogeneity and it makes a Material Change to its production process for that particular type of Medical Marijuana-Infused Product, then the Medical Marijuana-Infused Products Manufacturer must re-validate the production process.

   a. New Equipment. It shall be considered a Material Change if the Medical Marijuana-Infused Products Manufacturer begins using new or different equipment for any material part of the production process.

   b. Notification. A Medical Marijuana-Infused Product Manufacturer must notify the Medical Marijuana Testing Facility of a Material Change.

   c. Testing Required Prior to Transfer. When a Production Batch is required to be submitted for testing pursuant to this Rule, the Medical Marijuana-Infused Product Manufacturer that produced it may not Transfer Medical Marijuana Product from that Production Batch unless or until it obtains a passing test.

2. Failed Potency Testing Re-Validation. If a Sample the Division requires to be tested fails potency testing, the Medical Marijuana-Infused Products Manufacturer shall follow the procedures in Rule M 1507(C) for any Inventory Tracking System package or Production Batch associated with the failed Sample. The Medical Marijuana-Infused Products Manufacturer shall also submit three additional Test Batches of the Medical Marijuana-Infused Product for potency testing by a Medical Marijuana Testing Facility within no more than 30 days. If any one of the three submitted Test Batches fails potency testing, the Medical Marijuana-Infused Products Manufacturer shall re-validate its process for potency.

F. Violation Affecting Public Safety. Failure to comply with this rule may constitute a license violation affecting public safety.

Basis and Purpose – M 1504

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(6), 12-43.3-402(7), 12-43.3-404(4), and 12-43.3-404(10), C.R.S. The purpose of this rule is to protect the public health and safety by establishing sampling procedures and rules for the Division's Medical Marijuana sampling and testing program.

M 1504 – Medical Marijuana Testing Program – Sampling Procedures

A. Collection of Samples

1. Sample Collection. All Samples submitted for testing pursuant to this rule must be collected by Division representatives or in accordance with the Division's sampling policy which is found in the Colorado Department of Public Health and Environment Reference Library at https://tinyurl.com/y8p86vu3. This Reference Library may be continuously updated as new materials become available in accordance with section 25-1.5-106(3.5)(d), C.R.S..

2. Sample Selection. The Division may elect, at its sole direction, to assign Division representatives to collect Samples, or may otherwise direct Sample selection, including, but not limited to, through Division designation of a Harvest Batch or Production Batch in

the Inventory Tracking System from which a Medical Marijuana Business shall select Samples for testing. A Medical Marijuana Business, its Owners and employees shall not attempt to influence the Samples selected by Division personnel. If the Division does not select the Harvest Batch or Production Batch to be tested, a Medical Marijuana Business must collect and submit Sample(s) that are representative of the Harvest Batch or Production Batch being tested.

3. Adulteration or Alteration Prohibited. A Licensee or its agent shall not adulterate or alter, or attempt to adulterate or alter, any Samples of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product for the purpose of circumventing contaminant testing detection limits or potency testing requirements. The Sample(s) collected and submitted for testing must be representative of the Harvest Batch or Production Batch being tested. A violation of this Paragraph (A)(3) shall be considered a license violation affecting public safety.

B. Minimum Number of Samples Per Test Batch Submission. These sampling rules shall apply until such time as the State Licensing Authority revises these rules to implement a statistical sampling model. Each Test Batch of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product submitted for testing must be comprised of a representative selection of Samples. Unless a greater amount is required to comply with these rules, each each Test Batch of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product must be comprised of at least the following number of separately taken Samples, which may be submitted for testing in all required testing categories:

1. Samples for Test Batches of Medical Marijuana.

   a. For Harvest Batches weighing up to 10 pounds, a minimum of eight separate 0.5 gram Samples must be submitted as one Test Batch.

   b. For Harvest Batches or Production Batches weighing more than 10 pounds but less than 20 pounds, a minimum of 12 separate 0.5 gram Samples must be submitted as one Test Batch.

   c. For Harvest Batches weighing 20 pounds or more but less than 30 pounds, a minimum of 15 separate 0.5 gram Samples must be submitted as one Test Batch.

   d. For Harvest Batches weighing 30 pound or more but less than 40 pounds, a minimum of 18 separate 0.5 gram Samples must be submitted as one Test Batch.

   e. For Harvest Batches weighing 40 pounds or more but less than 100 pounds, a minimum of 23 separate 0.5 gram Samples must be submitted as one Test Batch.

   f. For Harvest Batches weighing 100 pounds or more, a minimum of 29 separate 0.5 gram Samples must be submitted as one Test Batch.

2. Repealed.

3. Samples for Test Batches of Medical Marijuana Concentrate.

   a. For Production Batches weighing up to one pound, a minimum of eight separate 0.5 gram Samples must be submitted as one Test Batch.

b. For Production Batches weighing more than one pound and less than two pounds, a minimum of 12 separate 0.5 gram Samples must be submitted as one Test Batch.

c. For Production Batches weighing two pounds or more but less than three pounds, a minimum of 15 separate 0.5 gram Samples must be submitted as one Test Batch.

d. For Production Batches weighing three pounds or more but less than four pounds, a minimum of 18 separate 0.5 gram Samples must be submitted as one Test Batch.

e. For Production Batches weighing four pounds or more but less than 10 pounds, a minimum of 23 separate 0.5 gram Samples must be submitted as one Test Batch.

f. For Production Batches weighing 10 pounds or more, a minimum of 29 separate 0.5 gram Samples must be submitted as one Test Batch.

4. Samples for Test Batches of Medical Marijuana-Infused Product. A Sample of Medical Marijuana-Infused Product must be packaged for sale prior to Transfer to a Medical Marijuana Testing Facility. Each such package of Medical Marijuana-Infused Product shall constitute one Sample.

a. For Production Batches of up to 100 Samples, a minimum of two separate Samples must be submitted as one Test Batch.

b. For Production Batches of up to 500 Samples, a minimum of four separate Samples must be submitted as one Test Batch.

c. For Production Batches of up to 1000 Samples, a minimum of six separate Samples must be submitted as one Test Batch.

d. For Production Batches of up to 5000 Samples, a minimum of eight separate Samples must be submitted as one Test Batch.

e. For Production Batches of up to 10,000 Samples, a minimum of 10 Samples must be submitted as one Test Batch.

f. For Production Batches of more than 10,000 Samples, a minimum 12 Samples must be submitted as one Test Batch.

C. Repealed.

D. Medical Marijuana Testing Facility Selection. The Division will generally permit a Medical Marijuana Business to select which Medical Marijuana Testing Facility will test a Sample collected pursuant to this rule. However, the Division may elect, at is sole discretion, to assign a Medical Marijuana Testing Facility to test the Sample.

E. Violation Affecting Public Safety. Failure to comply with this rule may constitute a license violation affecting public safety.

M 1505 – Medical Marijuana Testing Program – Test Batches - Repealed

Basis and Purpose – M 1507

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(IV), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XII), 12-43.3-202(2)(a)(XIV), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XX), 12-43.3-202(2.5)(a)(I), 12-43.3-402(6), 12-43.3-402(7), 12-43.3-404(4), and 12-43.3-404(10), C.R.S. The purpose of this rule is to protect the public health and safety by establishing rules governing the quarantining of potentially contaminated product and the destruction of product that failed contaminant or potency testing for the Division's Medical Marijuana sampling and testing program.

M 1507 – Medical Marijuana Testing Program – Contaminated Product and Failed Test Results

A. Quarantining of Product.

1. If the Division has reasonable grounds to believe that a particular Harvest Batch, Production Batch, or Inventory Tracking System package of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product is contaminated or presents a risk to public safety, then the Division may require a Medical Marijuana Business to quarantine it until the completion of the Division's investigation, which may include, but is not limited to, the receipt of any test results.

2. If a Medical Marijuana Business is notified by any local or state agency, or by a Medical Marijuana Testing Facility, that a Test Batch failed a contaminant or potency test, then the Medical Marijuana Business shall quarantine any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from any Inventory Tracking System package, Harvest Batch or Production Batch associated with that failed Test Batch and must follow the procedures established pursuant to paragraphs (B), (B.1), (B.2), and/or (C) of this Rule.

3. Except as provided by this Rule, Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product that has been quarantined pursuant to this Rule must be physically separated from all other inventory and the Licensee may not Transfer or further process the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

4. In addition to any other method authorized by law, the Division may implement the quarantine through the Inventory Tracking System by (a) indicating failed test results and (b) limiting the Licensee's ability to Transfer the quarantined Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product unless otherwise permitted by these rules.

B. Failed Contaminant Testing: All Contaminant Testing Except Microbial Testing of Medical Marijuana Flower or Trim and Pesticide Testing. If a Medical Marijuana Business is notified by the Division or a Medical Marijuana Testing Facility that a Test Batch failed contaminant testing (except microbial testing of Medical Marijuana flower or trim and Pesticide testing), then for each Inventory Tracking System package, Harvest Batch or Production Batch associated with that failed Test Batch the Medical Marijuana Business must either:

1. Destroy and document the destruction of the Inventory Tracking System package, Harvest Batch or Production Batch pursuant to Rule M 307 – Waste Disposal; or

2. Decontaminate the Inventory Tracking System package, Harvest Batch or Production Batch, if possible, and create two new Test Batches, each containing the requisite number of Samples, and have those Test Batches tested for the required contaminant test that failed. Unless at least one of the two retests is conducted by the same Medical Marijuana Testing Facility that reported the original failed test result, the two retests must be performed by two different Medical Marijuana Testing Facilities. Such testing must comport with the sampling procedures under Rule M 1504.

a. If both new Test Batches pass the required contaminant testing, then the Inventory Tracking System package, Harvest Batch or Production Batch of Medical Marijuana, Medical Marijuana Concentrate or Medical Marijuana-Infused Product associated with each Test Batch may be Transferred or processed into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

b. If one or both of the Test Batches do not pass contaminant testing, then the Medical Marijuana Business must destroy and document the destruction of the Inventory Tracking System package, Harvest Batch or Production Batch included in that Test Batch pursuant to Rule M 307 – Waste Disposal.

B.1. Failed Contaminant Testing: Microbial Testing of Medical Marijuana Flower or Trim. If a Medical Marijuana Business is notified by the Division or a Medical Marijuana Testing Facility that a Test Batch of Medical Marijuana flower or trim failed microbial testing, then for each Inventory Tracking System package or Harvest Batch associated with that failed Test Batch the Medical Marijuana Business must either:

1. Destroy and document the destruction of the Inventory Tracking System package or Harvest Batch pursuant to Rule M 307 – Waste Disposal;

2. Decontaminate the Inventory Tracking System package or Harvest Batch of Medical Marijuana flower or trim, if possible, and create two new Test Batches, each containing the requisite number of Samples, and have those Test Batches tested for the required microbial test that failed. Unless at least one of the two retests is conducted by the same Medical Marijuana Testing Facility that reported the original failed test result, the two retests must be performed by two different Medical Marijuana Testing Facilities. Such testing must comport with the sampling procedures under Rule M 1504.

   a. If both Test Batches pass the required microbial testing, then the Inventory Tracking System package or Harvest Batch of Medical Marijuana flower or trim associated with each Test Batch may be Transferred or processed into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

   b. If one or both of the Test Batches do not pass microbial testing, then the Medical Marijuana Business must either: (i) destroy and document the destruction of the Inventory Tracking System package or Harvest Batch pursuant to Rule M 307 – Waste Disposal; or (ii) Transfer the Inventory Tracking System package or Harvest Batch for Remediation pursuant to Paragraph (B.1)(3)(b) below.

3. In lieu of decontamination pursuant Paragraph (B.1)(2) above, the Medical Marijuana Business may transfer all Inventory Tracking System packages or Harvest Batches associated with that failed Test Batch to a Medical Marijuana-Infused Products Manufacturer for decontamination and/or Remediation by the Medical Marijuana-Infused Products Manufacturer.

   a. Decontamination. Only if the Medical Marijuana Business has not already attempted to decontaminate pursuant to Paragraph (B.1)(2) above, the Medical Marijuana-Infused Products Manufacturer may decontaminate the Inventory Tracking System package or Harvest Batch of Medical Marijuana flower or trim, if possible, and create two new Test Batches, each containing the requisite number of Samples, and have those Test Batches tested for the required microbial test that failed. Unless at least one of the two retests is conducted by the same Medical Marijuana Testing Facility that reported the original failed test result, the two retests must be performed by two different Medical Marijuana Testing Facilities. Such testing must comport with the sampling procedures under Rule M 1504.

i. If both Test Batches pass the required microbial testing, then the Inventory Tracking System package or Harvest Batch of Medical Marijuana flower or trim associated with each Test Batch may be Transferred or processed into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

ii. If one or both of the Test Batches do not pass microbial testing, then the Medical Marijuana Business must either: (i) destroy and document the destruction of the Inventory Tracking System package or Harvest Batch pursuant to Rule M 307 – Waste Disposal; or (ii) attempt Remediation of the Inventory Tracking System package or Harvest Batch for Remediation pursuant to Paragraph (B.1)(3)(b) below.

b. Remediation.

i. For Remediation, the Medical Marijuana Business shall process the Inventory Tracking System package or Harvest Batch of Medical Marijuana flower or trim associated with the failed Test Batch into a Solvent-Based Medical Marijuana Concentrate. No other Medical Marijuana shall be included in the Solvent-Based Medical Marijuana Concentrate.

ii. The Solvent-Based Medical Marijuana Concentrate that was manufactured pursuant to Paragraph (B.1)(3)(b) shall undergo all required contaminant testing pursuant to Rule M 1501(C) – Medical Marijuana Testing Program – Contaminant Testing, potency testing pursuant to Rule M 1503 – Medical Marijuana Testing Program – Potency Testing, and any other testing required or allowed by the Medical Marijuana Code or these rules, including but not limited to mycotoxins. Such testing must comport with the sampling procedures under Rule M 1504.

iii. If the Solvent-Based Medical Marijuana Concentrate that was manufactured pursuant to Paragraph (B.1)(3)(b) fails contaminant testing, the Medical Marijuana Business shall destroy and document the destruction of the Inventory Tracking System package(s) or Production Batch(es) of Solvent-Based Medical Marijuana Concentrate pursuant to Rule M 307 – Waste Disposal.

c. Repealed.

B.2. Failed Contaminant Testing: Pesticide Testing. If a Medical Marijuana Business is notified by the Division or a Medical Marijuana Testing Facility that a Test Batch failed Pesticide testing, then for each Inventory Tracking System package, Harvest Batch, or Production Batch associated with that failed Test Batch the Medical Marijuana Business must either:

1. Destroy and document the destruction of the Inventory Tracking System package, Harvest Batch or Production Batch pursuant to Rule M 307 – Waste Disposal; or

2. Request that the Medical Marijuana Testing Facility that reported the original fail conduct two additional analyses of the original Test Batch submitted in accordance with Rule M 1504.

a. If both retesting analyses pass the required Pesticide testing, then the Inventory Tracking System package, Harvest Batch, or Production Batch of Medical

Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-infused Product may be Transferred or processed into a Medical Marijuana Concentrate or Medical Marijuana-Infused Product.

b. If one or both of the retesting analyses do not pass Pesticide testing, then the Medical Marijuana Business must destroy and document the destruction of the Inventory Tracking System package, Harvest Batch, or Production Batch pursuant to Rule M 307 – Waste Disposal.

C. Failed Potency Testing. If a Medical Marijuana Business is notified by the Division or a Medical Marijuana Testing Facility that a Test Batch of Medical Marijuana-Infused Product failed potency testing, then for each Inventory Tracking System package or Production Batch associated with that failed Test Batch the Medical Marijuana Business must either:

1. Destroy and document the destruction of the Inventory Tracking System package or Production Batch pursuant to Rule M 307 – Waste Disposal; or

2. Attempt corrective measures, if possible, and create two new Test Batches each containing the requisite number of Samples, and have those Test Batches tested for the required potency test that failed. Unless at least one of the two retests is conducted by the same Medical Marijuana Testing Facility that reported the original failed test result, the two retests must be performed by two different Medical Marijuana Testing Facilities. Such testing must comport with the sampling procedures under Rule M 1504.

a. If both new Test Batches pass potency testing, then any the Inventory Tracking System package or Production Batch associated with the Test Batch may be Transferred.

b. If one or both of the Test Batches do not pass potency testing, then the Medical Marijuana-Infused Products Manufacturer must destroy and document the destruction of the Inventory Tracking System package or Production Batch pursuant to Rule M 307 – Waste Disposal.

D. Violation Affecting Public Safety. Failure to comply with this rule may constitute a license violation affecting public safety.

M 1600 Series – Medical Marijuana Transporters

Basis and Purpose – M 1602

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XVIII.6), 12-43.3-202(2)(a)(XX), and 12-43.3-406, C.R.S. The purpose of this rule is to clarify those acts that are limited in some fashion or prohibited by a Medical Marijuana Transporter.

M 1602 – Medical Marijuana Transporter: General Limitations or Prohibited Acts

A. Sales, Liens, and Secured Interests Prohibited. A Medical Marijuana Transporter is prohibited from buying, selling, or giving away Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product, or from receiving complimentary Medical Marijuana. Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. A Medical Marijuana Transporter shall not place or hold a lien or secured interest on Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

B. Licensed Premises Permitted. A Medical Marijuana Transporter shall maintain a Licensed Premises if it: (1) temporarily stores any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product, or (2) modifies any information in the Inventory Tracking System generated transport manifest. The Licensed Premises shall be in a local jurisdiction that authorizes the operation of Medical Marijuana Centers. If a Medical Marijuana Transporter Licensed Premises is co-located with a Retail Marijuana Transporter Licensed Premises, then the combined Licensed Premises shall be in a local jurisdiction that authorizes the operation of both Medical Marijuana Centers and Retail Marijuana Stores.

C. Off-Premises Storage Permit. A Medical Marijuana Transporter may maintain one or more permitted off-premises storage facilities. See Rule M 802 – Off-Premises Storage of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product: All Medical Marijuana Businesses.

D. Storage Duration. A Medical Marijuana Transporter shall not store Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product for longer than 7 days from receiving it at its Licensed Premises or off-premises storage facility. The total allowable 7 day storage duration begins and applies regardless of which of the Medical Marijuana Transporter's premises receives the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product first, (ie. the Medical Marijuana Transporter's Licensed Premises, or any of its off-premises storage facilities).

E. Control of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. A Medical Marijuana Transporter is responsible for the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product once it takes control of the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product and until the Medical Marijuana Transporter delivers it to the receiving Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer.. For purposes of this rule, taking control of the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product means removing it from the originating Medical Marijuana Business's Licensed Premises and placing the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product in the transport vehicle.

F. Location of Orders Taken and Delivered. A Medical Marijuana Transporter is permitted to take orders on the Licensed Premises of any Medical Marijuana Business to transport Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. The Medical Marijuana Transporter shall deliver the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product to the Licensed Premises of a licensed Medical Marijuana Business, a Medical Research Facility, or Pesticide Manufacturer.

G. Consumption Prohibited. A Licensee shall not permit the consumption of marijuana or marijuana product on Licensed Premises or in transport vehicles.

H. A Medical Marijuana Transporter shall receive Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product from the originating Licensee packaged in the way that it is intended to be delivered to the final destination Licensee, Medical Research Facility, or Pesticide Manufacturer. The Medical Marijuana Transporter shall deliver the Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product in the same, unaltered packaging to the final destination Licensee.

I. Opening of Sealed Packages or Containers and Re-Packaging Prohibited. A Medical Marijuana Transporter shall not open Containers of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product. Medical Marijuana Transporters are prohibited from re-packaging Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

J. Temperature-Controlled Transport Vehicles. A Medical Marijuana Transporter shall utilize temperature-controlled transport vehicles when necessary to prevent spoilage of the transported Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product.

K. Damaged or Refused Product. Any damaged Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that is undeliverable to the final destination Medical Marijuana Business, or any Medical Marijuana or Medical Marijuana-Infused Product that is refused by the final destination Medical Marijuana Business shall be transported back to the originating Medical Marijuana Business.

L. Transport of Medical Marijuana Vegetative Plants Authorized. Medical Marijuana Vegetative plants may only be transported between Licensed Premises and such transport shall only be permitted due to an approved change of location pursuant to Rule M 206 or due to a one-time transfer pursuant to Rule M 211. Transportation of Vegetative plants to a permitted off-premises storage facility shall not be allowed. This restriction shall not apply to Immature plants.

Basis and Purpose – M 1603

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(h), 12-43.3-202(2)(a)(XI), 12-43.3-202(2)(a)(XV), 12-43.3-202(2)(a)(XVIII.6), 12-43.3-202(2)(a)(XX), and 12-43.3-406(3) C.R.S. The purpose of this rule is to establish a Medical Marijuana Transporter's obligation to account for and track all Medical Marijuana. Medical Marijuana Concentrate, and Medical Marijuana-Infused Product on the Licensed Premises from the point they are transferred from the originating Medical Marijuana Business to the destination Medical Marijuana Business.

M 1603 – Medical Marijuana Transporter: Inventory Tracking System

A. Minimum Tracking Requirement. A Medical Marijuana Transporter must use the Inventory Tracking System to ensure its transported Medical Marijuana. Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are identified and tracked from the point they are transferred from a Medical Marijuana Business when the Medical Marijuana Transporter takes control of the Medical Marijuana. Medical Marijuana Concentrate, and Medical Marijuana-Infused Product by removing it from the originating Medical Marijuana Business's Licensed Premises and placing the Medical Marijuana. Medical Marijuana Concentrate, and Medical Marijuana-Infused Product in the Medical Marijuana Transporter's transport vehicle, through delivery to the destination Medical Marijuana Business, Medical Research Facility, or Pesticide Manufacturer. See also Rule R 309 –Inventory Tracking System. A Medical Marijuana Transporter must have the ability to reconcile its transported Medical Marijuana. Medical Marijuana Concentrate, and Medical Marijuana-Infused Product with the Inventory Tracking System and the associated transaction history and transportation order receipts. See also Rule M 901 – Business Records Required.

1. A Medical Marijuana Transporter is prohibited from accepting any Medical Marijuana. Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from another Medical Marijuana Business without receiving a valid transport manifest generated from the Inventory Tracking System.

2. A Medical Marijuana Transporter must immediately input all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product received at its Licensed Premises or off-premises storage facility, accounting for all RFID tags, into the Inventory Tracking System at the time of receipt of the Medical Marijuana. Medical Marijuana Concentrate, or Medical Marijuana-Infused Product.

3. A Medical Marijuana Transporter must reconcile transactions to the Inventory Tracking System at the close of business each day.

4. All information on the Inventory Tracking System generated transport manifests must be accurate.

M 1800 Series – Medical Marijuana Transfers to Unlicensed Medical Research Facilities and Pesticide Manufacturers

Basis and Purpose - M 1801

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b) 12-43.3-202(1)(h)(I), and 25-1.5-106.5, C.R.S. The purpose of this rule is to establish requirements associated with the Transfer of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product to Medical Research Facilities, including requirements for the possession and disposition of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product by Medical Research Facilities.

M 1801 – Medical Research Facilities

A. Transfers to Medical Research Facilities. An Optional Premises Cultivation Operation may Transfer Medical Marijuana or Medical Marijuana Concentrate to a Medical Research Facility pursuant to Rule M 501. A Medical Marijuana-Infused Products Manufacturer may Transfer Medical Marijuana-Infused Product and Medical Marijuana Concentrate to a Medical Research Facility pursuant to Rule M 601.

B. Agreement with Medical Research Facility. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that Transfers Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Research Facility shall enter into a written agreement with the Medical Research Facility prior to Transferring any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to the Medical Research Facility. The written agreement shall constitute a business record. *See* Rule M 901 – Business Records Required. The written agreement shall include the following information:

1. The identity of the Medical Research Facility;

2. The quantity of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product that will be Transferred to the Medical Research Facility;

3. An affirmation by the Medical Research Facility that it (a) has received approval and funding from the State Board of Health for the research to be conducted on the marijuana; (b) remains authorized to receive the quantity of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product that will be Transferred to the Medical Research Facility; and (c) will destroy all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product that will be Transferred to the Medical Research Facility, following completion of research activities as required by subsection 25-1.5-106.5(5)(b), C.R.S.;

4. An affirmation by the Licensee that the Medical Research Facility has provided it with written proof of the State Board of Health's approval and funding of the Medical Research Facility's research; and

5. The date(s) upon which Transfer of the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product will occur.

C. State Board of Health Approval. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall not Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product unless and until the State Board of

Health approves and funds the Medical Research Facility's research pursuant to section 25-1.5-106.5, C.R.S.

1. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall not Transfer any Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product until the Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer receives written proof of the State Board of Health's approval and funding of the Medical Research Facility's research. The written proof of the State Board of Health's approval and funding of the Medical Research Facility's research shall constitute a business record. *See* Rule M 901 – Business Records Required.

2. Transferring Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product to a Medical Research Facility before the Medical Research Facility receives approval and funding from the State Board of Health shall be considered a violation affecting public safety.

D. Inventory Tracking Requirements. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall track all Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product in the Inventory Tracking System until it is delivered to a Medical Research Facility.

1. Transport Manifest. A Licensee shall not deliver or permit the delivery of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product unless a manifest is generated from the Inventory Tracking System. *See* Rule M 801(C) Transport: All Medical Marijuana Businesses.

2. Complete Manifest. A Licensee shall not relinquish possession or control of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product to a Medical Research Facility until a natural person authorized by the Medical Research Facility acknowledges receipt of the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Products by signing the transport manifest. *See* Rule M 801(I).

3. No Inventory Tracking Following Delivery. Once Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product has been Transferred by a Licensee to a Medical Research Facility, no further inventory tracking is required.

4. Licensee Delivery Responsibility. The originating Licensee is responsible for confirming delivery of the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in the Inventory Tracking System. *See* Rule M 801(I).

E. Packaging, Labeling, and Testing. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that Transfers Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product to a Medical Research Facility shall package, label, and test all Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Products in conformance with these rules, prior to Transferring the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product. *See* M 1000-1 Series – Labeling, Packaging, and Product Safety; M 1500 Series – Medical Marijuana Testing Program.

F. Business Records. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that Transfers Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product to a Medical Research Facility shall keep all documents concerning the relationship and Transfer of any Medical Marijuana, Medical Marijuana

Concentrate, and/or Medical Marijuana-Infused Product in accordance with Rules M 801 and M 901.

G. Quantity Limitations for Medical Research Facilities. A Medical Research Facility shall only use Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product for the medical research approved pursuant to section 25-1.5-106.5, C.R.S. A Medical Research Facility shall not possess at any time a quantity of Transferred Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product greater than the quantity approved by the research grant awarded to the Medical Research Facility by the State Board of Health. In no event shall the Medical Research Facility possess at any given time more than (i) 12 Medical Marijuana plants and (ii) four pounds of Medical Marijuana or its equivalency in Medical Marijuana Concentrate (512 grams) or Medical Marijuana-Infused Product (5,120 Medical Marijuana-Infused Products).

H. Colorado Department of Public Health and Environment and State Board of Health Administration. The Colorado Department of Public Health and Environment is responsible for the administration of grants to Medical Research Facilities pursuant to section 25-1.5-106.5(2), C.R.S. The Colorado Department of Public Health and Environment, through the Scientific Advisory council, has the authority to review and make recommendations regarding research grant proposals. The State Board of Health has the authority to approve or deny research grant proposals pursuant to section 25-1.5-106.5, C.R.S.

I. Disposal of Medical Marijuana. A Medical Research Facility shall destroy all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product following completion of research activities as required by subsection 25-1.5-106.5(5)(b), C.R.S.

J. No Transfer to Licensees. Under no circumstance may a Licensee receive or obtain for any purposes Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from a Medical Research Facility.

Basis and Purpose - M 1802

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b) and 12-43.3-202(1)(h)(II), C.R.S. The purpose of this rule is to establish requirements associated with the Transfer of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product to Pesticide Manufacturers, including requirements for the possession and disposition of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product by Pesticide Manufacturers.

M 1802 – Pesticide Manufacturers

A. Transfers to Pesticide Manufacturers. An Optional Premises Cultivation Operation may Transfer Medical Marijuana and Medical Marijuana Concentrate to a Pesticide Manufacturer solely for the purpose of conducting research to establish safe and effective protocols, including but not limited to establishing efficacy and toxicity, for the use of Pesticides on Medical Marijuana. *See also* Rule M 501. A Medical Marijuana-Infused Products Manufacturer may Transfer Medical Marijuana-Infused Product and Medical Marijuana Concentrate to a Pesticide Manufacturer solely for the purpose of research to establish safe and effective protocols, including but not limited to establishing efficacy and toxicity, for the use of Pesticides on Medical Marijuana. *See also* Rule M 601.

B. Written Documentation Required. A Licensee shall require, and shall not Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product prior to receiving, written proof under oath, as evidenced by an affidavit entered into by an authorized person on behalf of the Pesticide Manufacturer, affirming that the Pesticide Manufacturer meets

the requirements set forth in subparagraph (C)(4) of this Rule. This documentation shall constitute a business record under Rule M 901- Business Records Required.

C. Agreement with Pesticide Manufacturer. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that Transfers Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Pesticide Manufacturer shall enter into a written agreement with the Pesticide Manufacturer prior to Transferring any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to the Pesticide Manufacturer. The written agreement, which shall constitute a business record under Rule M 901, shall include:

1. The identity of the Pesticide Manufacturer;

2. The quantity of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product that will be Transferred to the Pesticide Manufacturer;

3. The date(s) upon which Transfer of the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product will occur;

4. An affirmation by the Pesticide Manufacturer that it:

   i. Has an establishment number with the U.S. Environmental Protection Agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. §§ 136 *et seq*.;

   ii. Is authorized to do business in Colorado;

   iii. Is in possession of a physical location in the State of Colorado where its research activities will occur;

   iv. Has applied for and received any necessary license, registration, certification, or permit from the Colorado Department of Agriculture pursuant to the Pesticide Act, sections 35-9-101 *et seq.,* C.R.S. and/or the Pesticide Applicators' Act, sections 35-10-101 *et seq.*, C.R.S.;

   v. Remains authorized to receive the quantity of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product that will be Transferred to the Pesticide Manufacturer; and

   vi. Will only use the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product for the purpose of conducting research to establish safe and effective protocols, including but not limited to establishing efficacy and toxicity, for the use of Pesticides on Medical Marijuana; and,

5. An affirmation by the Licensee that it has received written proof the Pesticide Manufacturer meets the requirements set forth in subparagraph (C)(4) of this rule.

D. Inventory Tracking Requirements. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer shall track all Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product in the Inventory Tracking System until it is delivered to a Pesticide Manufacturer.

1. Transport Manifest. A Licensee shall not deliver or permit the delivery of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product unless a manifest is generated from the Inventory Tracking System.

2. Complete Manifest. A Licensee shall not relinquish possession or control of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Pesticide Manufacturer until a natural person authorized by the Pesticide Manufacturer acknowledges receipt of the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product by signing the transport manifest.

3. No Inventory Tracking Following Delivery. Once Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product has been Transferred by a Licensee to a Pesticide Manufacturer, no further inventory tracking is required.

4. Licensee Delivery Responsibility. The originating Licensee is responsible for confirming delivery of all Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in the Inventory Tracking System.

E. Packaging, Labeling, and Testing. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that Transfers Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product to a Pesticide Manufacturer shall package, label, and test all Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Products in conformance with these rules, prior to Transferring the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product. *See* M 1000-1 Series – Labeling, Packaging, and Product Safety; M 1500 Series – Medical Marijuana Testing Program.

F. Business Records. An Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer that Transfers Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Pesticide Manufacturer shall keep all documents concerning the relationship and Transfer of any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product in accordance with Rules M 801 and 901.

G. Pesticide Manufacturer Authorized Activities. A Pesticide Manufacturer is only authorized to possess Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product in order to conduct research to establish safe and effective protocols, including but not limited to establishing efficacy and toxicity, for the use of Pesticides on Medical Marijuana.

H. Quantity Limitations for Pesticide Manufacturer. In no event shall the Pesticide Manufacturer possess at any given time more than (i) 12 Medical Marijuana plants and (ii) four pounds of Medical Marijuana or its equivalency in Medical Marijuana Concentrate (512 grams) or Medical Marijuana-Infused Product (5,120 Medical Marijuana-Infused Products).

I. Disposition of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. A Pesticide Manufacturer shall destroy all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product following completion of research activities.

1. A Pesticide Manufacturer shall destroy Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product in conformance with Rule M 307 – Waste Disposal.

2. A Pesticide Manufacturer shall document the destruction of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product, which documentation shall include:

i. Whether the destroyed material was Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product;

ii. The date of destruction;

iii. The location of the destruction;

iv. The manner in which the Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product was rendered unusable and Unrecognizable;

v. The method of final disposition pursuant to Rule M 307(F); and

vi. The identity(ies) and contact information of all Person(s) involved in the destruction.

3. A Pesticide Manufacturer shall keep all documentation regarding destruction of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Products for the current year and three preceding calendar years.

J. No Pesticide on Licensed Premises. Under no circumstance may a Pesticide Manufacturer apply Pesticide(s) for research purposes on the Licensed Premises of a Medical Marijuana Business.

1. Licensees Shall Not Permit Pesticide on Licensed Premises. Under no circumstance may a Licensee allow or permit the application of Pesticide(s) by a Pesticide Manufacturer for research purposes on the Licensed Premises of a Medical Marijuana Business.

2. Violation Affecting Public Safety. A violation of this prohibition shall be considered a violation affecting public safety.

K. No Human or Animal Subjects. Under no circumstance shall a Pesticide Manufacturer receiving Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product from a Licensee engage in research involving human subjects. Additionally, under no circumstance shall a Pesticide Manufacturer receiving Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product from a Licensee engage in research involving animal subjects, as defined in the Animal Welfare Act, 7 U.S.C. § 2132(g).

1. Licensees Shall Not Permit Human or Animal Subject Research. If a Licensee knows or reasonably should know that a Pesticide Manufacturer intends to engage in or has engaged in marijuana-related research involving human and/or animal subjects, the Licensee shall not Transfer any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to the Pesticide Manufacturer.

2. Violation Affecting Public Safety. A violation of this prohibition shall be considered a violation affecting public safety.

L. No Transfer to Licensees. Under no circumstance may a Licensee receive or obtain for any purposes Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from a Pesticide Manufacturer.

M 1900 Series –Licensed Research Businesses

Basis and Purpose - M 1901

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXII), 12-43.3-405(1), and 12-43.3-408, C.R.S. The purpose of this rule is to establish that it is unlawful for Licensed Research Businesses to exercise any privilege other than those granted by the State Licensing Authority. The purpose of this rule also is to clarify the distinct privileges granted to Marijuana Research and Development Facilities and Marijuana Research and Development Cultivations.

M 1901 – Licensed Research Businesses: License Privileges

A. Privileges Applicable to any Licensed Research Business.

1. Privileges Granted. A Licensed Research Business shall only exercise those privileges granted to it by the State Licensing Authority.

2. Licensed Premises. A Licensed Research Business may share a Licensed Premises only with a commonly-owned Medical Marijuana Testing Facility.

i. If a Licensed Research Business shares its Licensed Premises with a commonly-owned Medical Marijuana Testing Facility, the Licensees shall physically segregate all Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product used for research purposes in order to prevent contamination or any other effect on Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product submitted to the Medical Marijuana Testing Facility for testing.

3. Authorized Sources of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. A Licensed Research Business may receive or obtain Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product from only the following sources:

i. An Optional Premises Cultivation Operation and Medical Marijuana-Infused Products Manufacturer may Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Licensed Research Business.

ii. Marijuana Research and Development Cultivations. A Marijuana Research and Development Cultivation may Transfer Medical Marijuana to other Licensed Research Businesses.

B. Privileges Applicable to Marijuana Research and Development Cultivations.

1. Cultivation of Marijuana Authorized. A Marijuana Research and Development Cultivation may grow, cultivate, possess, and Transfer Medical Marijuana for use in research only.

2. Production of Marijuana Concentrate. A Marijuana Research and Development Cultivation and an Optional Premises Cultivation Operation are subject to the same restrictions concerning Medical Marijuana Concentrate production. Therefore, a Licensed Research Business may produce Medical Marijuana Concentrate only as allowed by, and in conformance with, Rule M 506(A)-(B).

3. Authorized Marijuana Transport. A Marijuana Research and Development Cultivation is authorized to utilize a licensed Medical Marijuana Transporter for transportation of Medical Marijuana to other Licensed Research Businesses so long as the place where transportation orders are taken and delivered is a Licensed Research Business. Nothing in this rule prevents a Marijuana Research and Development Cultivation from transporting its own Medical Marijuana to other Licensed Research Businesses.

Basis and Purpose - M 1902

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXII), 12-43.3-310(7), 12-43.3-405(1), and 12-43.3-408, C.R.S. The

purpose of this rule is to clarify those acts that are prohibited, or limited in some fashion, by a Licensed Research Business.

M 1902 – Licensed Research Businesses: General Limitations or Prohibited Acts

A. Restrictions Applicable to Any Licensed Research Business.

1. Packaging and Labeling Standards Required. A Licensed Research Business is prohibited from Transferring to a Licensee or any other Person Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that is not packaged and labeled in accordance with these rules. *See* Rule M 1000-1 Series – Labeling, Packaging, and Product Safety.

    i. Unless the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product was subject to contaminant testing required by the Medical Marijuana Code and these rules, a Licensed Research Business shall disclose to any individual Person receiving Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product as part of an approved Research Project that the Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product has not been subject to mandatory contaminant testing.

2. Transfers to Individuals. A Licensed Research Business is prohibited from Transferring Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to any individual, unless as part of an approved Research Project.

3. Consumption Prohibited. A Licensed Research Business shall not permit the consumption of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product on its Licensed Premises, unless as part of an approved Research Project and the Licensed Research Business does not share a Licensed Premises with a Medical Marijuana Testing Facility.

4. Transporter Restrictions. A Licensed Research Business shall not sell or give away Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Transporter, and shall not buy or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical-Marijuana Infused Product from a Medical Marijuana Transporter.

5. Worker Health and Safety. A Licensed Research Business shall comply with all applicable federal, state, and local laws regarding worker health and safety.

6. Performance Incentives. A Licensed Research Business may not use performance incentives to compensate its employees, agents, or contractors who will conduct research, development, or testing.

7. Licensure and Research Projects. A Licensed Research Business shall not engage in any research activities until the State Licensing Authority or its delegate approves both (1) its business license application, pursuant to Rule M 201, and (2) one or more Research Project(s), pursuant to Rule M 1904.

    i. A Licensed Research Business may submit its business license application prior to or in conjunction with its Research Project application. Except that the Licensed Research Business may not engage in any research activities except in conjunction with an approved Research Project.

ii. If a Licensed Research Business's license expires or is suspended or revoked, the Licensee shall immediately cease all activities associated with the privileges of licensure, including but not limited to research.

B. Restrictions Applicable to Marijuana Research and Development Cultivations.

1. Transfer Restriction. A Marijuana Research and Development Cultivation may only Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Licensed Research Business, a Medical Marijuana Testing Facility for testing, or to any individual person as part of an approved Research Project.

C. Restrictions Applicable to Marijuana Research and Development Facilities.

1. Transfer Restriction. A Marijuana Research and Development Facility may only Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to an individual person as part of an approved Research Project or to a Medical Marijuana Testing Facility for testing.

Basis and Purpose - M 1903

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), and 12-43.3-202(2)(a)(XXII), and 12-43.3-408, C.R.S. The purpose of this rule is to require all Licensed Research Businesses to track all inventory from the point it is Propagated or received to the point when it is destroyed, used in a Research Project, or, if permitted, Transferred to another Licensed Research Business or a Medical Marijuana Testing Facility. The purpose of this rule is also to eliminate diversion of Medical Marijuana.

M 1903 – Licensed Research Businesses: Inventory Tracking

A. Minimum Tracking Requirement. A Licensed Research Business must use the Inventory Tracking System to ensure its inventories are identified and tracked from the point Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product is propagated or received to the point when it is destroyed, used in a Research Project, or, if permitted, Transferred to another Licensed Research Business or a Medical Marijuana Testing Facility. *See also* Rule M 309 - Medical Marijuana Business: Inventory Tracking System. A Licensed Research Business must have the ability to reconcile its inventory records generated from the Inventory Tracking System with the associated transaction history and sale receipts or other Transfer documentation. *See also* Rule M 901 – Business Records Required.

1. A Licensed Research Business is prohibited from accepting any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product without receiving a valid transport manifest generated from the Inventory Tracking System.

2. A Licensed Research Business must immediately input all Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product delivered to its Licensed Premises and account for all RFID tags into the Inventory Tracking System at the time of delivery.

3. A Licensed Research Business must reconcile its transaction history and on-hand Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product to the Inventory Tracking System at the close of business each day.

Basis and Purpose - M 1904

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(1)(e), 12-43.3-202(2)(a)(XVI),12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXII), and 12-43.3-408(3)(a), C.R.S. The purpose of this rule is to ensure that any research or development conducted by a Licensed Research Business shall be in furtherance of a Research Project approved by the Division. The purpose of this rule is also to establish the applicable requirements necessary for Licensed Research Businesses to seek and receive Division approval for all proposed Research Projects.

M 1904 – Licensed Research Businesses: Project Approval

A. Project Approval. Prior to engaging in any research activities, a Licensed Research Business shall obtain approval from the Division for a Research Project by submitting a Research Project proposal. Any research or development conducted by a Licensed Research Business shall be in furtherance of an approved Research Project.

1. General. A Licensed Research Business Applicant or Licensee shall seek approval of the Division by submitting its Research Project proposal on the current form supplied by the Division.

a. A Research Project proposal shall include a description of the Research Project's defined protocol, clearly articulated goal(s), defined methods and outputs, and a defined start and end date.

i. The description of the proposed Research Project proposal shall include the quantity of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product reasonably required to conduct the proposed Research Project, the total quantity of which is subject to approval by the Division as part an approved Research Project.

b. A Licensed Research Business Applicant or Licensee shall disclose all Persons who have, are, or will provide funding for the proposed Research Project. If any Person funding or intending to fund the proposed Research Project does not hold a license issued by the State Licensing Authority, and is neither a Direct Beneficial Interest Owner nor an Indirect Beneficial Interest Owner of the Licensed Research Business, then such Person must be reported as an Affiliated Interest. An Affiliated Interest may not exercise control and may not be positioned so as to enable the exercise of control over the Licensed Research Business.

c. A Licensed Research Business may enter into contracts or agreements with a public higher education research institution or another Licensed Research Business to conduct the proposed Research Project. A Licensed Research Business Applicant or Licensee shall disclose all contracts or agreements with a public higher education research institution or a Licensed Research Business.

i. If a Licensed Research Business enters into a contract or agreement to conduct a Research Project with a public higher education research institution, all research activities involving possession of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall occur at the Licensed Research Business's Licensed Premises. Employees, agents, or contractors of the public higher education research institution may not work at or conduct research activities at the Licensed Research Business's Licensed Premises unless they hold an Occupational License issued by the State Licensing Authority.

d. A Licensed Research Business may submit additional Research Project proposals at any time during which its license is current and valid.

2. Private Research. Unless the proposed Research Project is being conducted in whole or in part by a Public Institution or with Public Money, the Licensed Research Business Applicant or Licensee shall obtain a review of its proposed Research Project by one or more independent reviewers. The Division, in its discretion, may require a Licensed Research Business Applicant or Licensee to nominate multiple independent reviewers. The Division must approve each nominated independent reviewer.

a. Fees and Costs. The Applicant or Licensee shall be solely responsible for any fees or costs associated with all aspects and all stages of the independent reviewer's services.

b. Qualifications of an Independent Reviewer. Each independent reviewer nominated by a Licensed Research Business Applicant or Licensee must be a qualified researcher within the field of study that relates to proposed Research Project.

i. The Division may consult with the Colorado Department of Public Health and Environment and/or the Colorado Department of Agriculture in reviewing whether a nominated independent reviewer is qualified to review the Licensed Research Business's Research Project.

ii. The Division, in its discretion, may require a nominated independent reviewer or the Licensed Research Business to provide additional information or analysis that the Division deems pertinent to its review of whether to approve the Licensee's nomination of the independent reviewer.

c. Conflicts of Interest. A Licensed Research Business Applicant or Licensee must disclose all pre-existing financial, employment, business, or personal relationships between the Licensed Research Business or any of its Associated Key Licensees and each independent reviewer. In determining whether to approve an independent reviewer, the Division may consider whether a pre-existing relationship exists that could affect the independent reviewer's independence or appearance of independence.

d. Independent Reviewer Approval Required. If a Licensed Research Business Applicant or Licensee nominates an independent reviewer who is not approved by the Division, the State Licensing Authority may deny a Research Project on that ground unless and until the Licensed Research Business Applicant or Licensee nominates another independent reviewer who is approved by the Division.

e. Independent Reviewer Report. After an independent reviewer has been approved by the Division, the Licensed Research Business Applicant or Licensee shall submit a report by the independent reviewer to the Division as part of its Research Project proposal. The independent reviewer's report shall address the following criteria as described in the Research Project's description:

i. The identity of the independent reviewer and his/her employer;

ii. Any compensation paid by the Licensed Research Business Applicant or Licensee for the review and report;

iii. A description of the review conducted by the independent reviewer, including but not limited to an identification of all documents that were reviewed;

iv. An analysis by the independent reviewer as to whether the proposed Research Project constitutes a type of approved research pursuant to Rule M 1905(A) and the reason(s) supporting the reviewer's analysis;

v. An assessment of the total quantity of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product reasonably required to conduct the proposed Research Project;

vi. An assessment of whether the proposed Research Project presents any type of danger to the public health and/or safety, and/or whether the proposed Research Project presents any health or safety risks;

vii. An assessment of whether the proposed Research Project has a strong scientific basis, appropriate study design, and technically sound scientific methodology;

viii. An assessment of whether the Licensed Research Business Applicant or Licensee is qualified to perform the proposed Research Project, including whether the Licensed Research Business Applicant or Licensee's employees are qualified to perform the proposed Research Project;

ix. An assessment of whether the Licensed Research Business Applicant or Licensee has the appropriate resources and protocols to conduct the proposed Research Project;

x. An assessment of whether the Licensed Research Business Applicant or Licensee has the appropriate personnel, expertise, facilities, infrastructure, funding, and other human, animal, or other approvals in place to successfully conduct the Research Project, including but not limited to the requirements in Rule M 1905(C) and (D);

xi. The following certification by the independent reviewer: "I hereby certify and affirm that I do not have any financial, employment, business, or personal relationship with [INSERT LICENSED RESEARCH BUSINESS NAME] ("Licensee") that would influence or affect my review of the Licensee's proposed Research Project activity. Other than the fees disclosed herein, neither the Licensee nor any other person has given me anything of value or made any promises to me that would influence or affect my review of the Licensee's proposed research activity. I further certify and affirm that this report was drafted by me, and that the information, analysis, and conclusions herein represent solely my work and conclusions."; and

xii. The signature of the independent reviewer.

f. The Licensed Research Business shall maintain copies of all documents and correspondence sent to or from the independent reviewer. *See* Rule M 901 – Business Records Required.

g. The Division, in its discretion, may require the independent reviewer and/or the Licensed Research Business Applicant or Licensee to provide additional

information or analysis that the Division deems pertinent to its review of the Applicant or Licensee's Research Project proposal.

h. The State Licensing Authority may decline to approve a Research Project proposal if an independent reviewer or the Division through further investigation concludes that:

i. The description of the Research Project does not meet the requirements of section 12-43.3-408, C.R.S., and these rules;

ii. The proposed Research Project presents a danger to the public health and/or safety, and/or the research to be conducted pursuant to the Research Project presents any health or safety risks;

iii. The proposed Research Project lacks scientific value or validity;

iv. The Licensed Research Business Applicant or Licensee is not qualified to perform the proposed research;

v. The Licensed Research Business Applicant or Licensee does not have the appropriate resources and/or protocols to conduct the proposed research;

vi. The Licensed Research Business Applicant or Licensee lacks the appropriate personnel, expertise, facilities, infrastructure, funding, or human, animal, or other approvals in place to successfully conduct the Research Project, including but not limited to the requirements in Rule M 1905(C) and (D);

vii. The independent reviewer(s) cannot meet the certification requirements in this rule; or

viii The Licensed Research Business Applicant or Licensee or the proposed Research Project is otherwise not in compliance with the Medical Code or these rules.

3. Projects with Public Institutions or Money. If a Licensed Research Business Applicant or Licensee's proposed Research Project will be conducted in whole or in part with a Public Institution or Public Money, the Division shall refer the Licensee's Research Project proposal to the Scientific Advisory Council established by section 25-1.5-106.5(3), C.R.S., for review.

a. The Licensed Research Business Applicant or Licensee shall supply the Scientific Advisory Council with any information and/or documents requested by the Scientific Advisory Council within the deadline imposed by the Scientific Advisory Council. A Licensed Research Business Applicant or Licensee's failure to supply information and/or documents requested by the Scientific Advisory Council within the deadline set by the Scientific Advisory Council shall be grounds for denial of the Research Project proposal.

b. The Scientific Advisory Council shall review the proposed Research Project to ensure that the proposed Research Project meets the requirements of Rule M 1905(A).

c. The Scientific Advisory Council shall also assess the adequacy of the following:

i. The proposed Research Project's quality, study design, value, or impact;

ii. Whether the Licensed Research Business Applicant or Licensee has the appropriate personnel, expertise, facilities, infrastructure, funding, and human, animal, or other approvals in place to successfully conduct the Research Project, including but not limited to the requirements in Rule M 1905(C) and (D); and

iii. Whether the amount of Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product the Licensed Research Business Applicant or Licensee proposes to grow or possess is consistent with the proposed Research Project's scope and goals.

d. The Scientific Advisory Council shall communicate the results of its review of the proposed Research Project to the Division. If the Scientific Advisory Council determines that the requirements of either Paragraph (b) or (c) of this Rule are not satisfied, then the proposed Research Project shall be denied.

e. The Licensed Research Business shall maintain copies of all documents and correspondence sent to or from the Scientific Advisory Council. *See* Rule M 901 – Business Records Required.

Basis and Purpose - M 1905

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXII), 12-43.3-405(1), and 12-43.3-408(2), C.R.S. The purpose of this rule to establish the limited research purposes authorized for Licensed Researched Businesses. The purpose of this rule is also to establish additional requirements for Research Projects involving human subjects and animal subjects, as well as restrictions on the use of Pesticides. The rule also establishes reporting requirements and explains when the State Licensing Authority may require a Licensed Research Business to undergo an audit of its research activities.

M 1905 – Licensed Research Businesses: Authorized Research Activities

A. Authorized Research. A Licensed Research Business is authorized to engage in the following research at its Licensed Premises:

1. Chemical Potency and Composition Levels.

2. Clinical Investigations of Marijuana-Derived Products.

3. Efficacy and Safety of Administering Marijuana as Part of Medical Treatment.

4. Genomic Research.

5. Horticultural Research.

6. Agricultural Research.

7. Marijuana-Affiliated Products or Systems. A marijuana-affiliated product or system includes products or systems such as marijuana delivery systems and cultivation or processing equipment.

B. Pesticide Research. A Licensed Research Business shall not engage in any research activities involving Pesticides unless the Licensed Research Business has applied for and received any

necessary license, registration, certification, or permit from the Colorado Department of Agriculture pursuant to the Pesticide Act, sections 35-9-101 *et seq.,* C.R.S., and/or the Pesticide Applicators' Act, sections 35-10-101 *et seq.*, C.R.S.

1. A Licensed Research Business engaged in research activities involving Pesticide shall at all times comply with the Pesticide Act, sections 35-9-101 *et seq.*, C.R.S., Pesticide Applicators' Act, sections 35-10-101 *et seq.*, C.R.S., and all rules promulgated pursuant thereto.

C. Research Involving Human Subjects. A Licensed Research Business shall not conduct any research involving human subjects unless all aspects of its proposed Research Project have been reviewed and approved by an Institutional Review Board that is registered and in good standing with Office for Human Research Protections, U.S. Department of Health and Human Services.

1. A Licensed Research Business shall include proof of approval and ongoing oversight and review by an Institutional Review Board as part of its Research Project proposal. A Research Project may be approved conditioned upon subsequent Institutional Review Board approval. A Licensee shall not engage in any Research Project involving human subjects until it receives approval by the Institutional Review Board and its Research Project is approved. A Licensed Research Business conducting research involving human subjects shall also comply with any ongoing monitoring required by the Institutional Review Board.

2. A Licensed Research Business conducting research involving human subjects shall at all times comply with the U.S. Department of Health and Human Services' requirements for protection of human research subjects, including additional safeguards necessary for vulnerable populations, such as children, prisoners, pregnant women, mentally disabled persons, or economically or educationally disadvantaged persons, 45 C.F.R. part 46, and all other relevant federal and/or state laws and regulations regarding research on human subjects, as well as all prevailing ethical standards and requirements for research involving human subjects.

3. A Licensed Research Business conducting research involving human subjects shall obtain informed consent from any individual participating in such research prior to the individual's participation in the research. A Licensed Research Business shall comply with U.S. Food and Drug Administration requirements for informed consent and additional safeguards for children in clinical investigations, 21 C.F.R. part 50, as part of approval and ongoing oversight and review by an Institutional Review Board.

D. Research Involving Animal Subjects. A Licensed Research Business shall not conduct any research involving animal subjects as defined in the Animal Welfare Act, 7 U.S.C. § 2132(g) unless the Licensed Research Business is registered with the U.S. Department of Agricultural pursuant to the Animal Welfare Act, 7 U.S.C. §§ 2131 *et seq.*

1. A Licensed Research Business shall include proof of its current registration with the U.S. Department of Agriculture as part of its Research Project proposal. Failure to be registered with the U.S. Department of Agriculture shall be grounds for denial of Research Project proposal involving animal subjects.

2. A Licensed Research Business shall at all times treat animal subjects as defined in the Animal Welfare Act, 7 U.S.C. § 2132(g) involved in research humanely and consistent with all relevant federal and/or state laws and regulations, as well as all prevailing ethical standards and requirements for research on such animals.

E. Research Involving Testing of Marijuana. A Licensed Research Business may only engage in research regarding the testing of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product if the following criteria are met:

1. Testing Qualifications. A Licensed Research Business must meet one of the following standards:

   a. The Licensed Research Business also holds a Medical Marijuana Testing Facility license and has been certified pursuant to Rule M 703;

   b. The Licensed Research Business is accredited to the International Organization for Standardization/International Electrotechnical Commission 17025:2005 Standard, or any subsequent superseding ISO 17025 standard; or

   c. The Licensed Research Business is part of an institution of higher education whose protocols have been approved by the Colorado Department of Public Health and Environment.

2. A Licensed Research Business proposing to engage in research regarding the testing Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall include in its Research Project proposal documentation establishing its testing qualification pursuant to Paragraph (E)(1) of this Rule. *See* Rule M 1904 – Licensed Research Businesses: Project Approval.

F. No Transfers of Marijuana Used in Research. A Licensed Research Business shall not Transfer to any Person any Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that has been used by the Licensee for research. Unless otherwise provided by the State Licensing Authority, a Licensed Research Business shall at the conclusion of its research destroy all remaining Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product subject to the Licensed Research Business's approved Research Project. Unless otherwise provided, a Research Project will be deemed concluded on its defined end date as provided in the Licensed Research Business's Research Project proposal that was submitted to and approved by the Division. The Licensed Research Business shall ensure destruction of such remaining Medical Marijuana, Medical Marijuana Concentrate, and/or Medical Marijuana-Infused Product is destroyed in conformance with Rule M 307.

G. Periodic Reporting. A Licensed Research Business shall submit to the Division a report regarding the status of approved Research Projects every 6 months following the Division's approval of its Research Project.

1. The periodic reports shall address the Licensed Research Business's compliance and progress with its approved Research Project.

2. The periodic reports shall include any protocol changes or reported protocol deviations, as well as enrollment numbers and adverse events for studies involving human subjects.

3. If the Licensed Research Business is conducting its Research Project in whole or in part with a Public Institution or Public Money, the Division shall submit the Licensed Research Business's periodic reports to the Scientific Advisory Council for review.

4. If an adverse event occurs, the Licensed Research Business shall immediately notify the Division of the adverse event on the form prepared by the Division.

H. Suspension or Revocation of Project Approval. Research Project approval is subject to revocation or suspension if the Licensed Research Business's research has materially diverged from the

Licensed Research Business's approved Research Project, violates the Medical Marijuana Code or the rules promulgated thereto, or presents a risk to public health and safety. *See* Rule M 1300 Series – Discipline.

I. Reporting of Research Results. A Licensed Research Business shall supply the Division with copies of all final reports, findings, or documentation regarding the outcomes of approved Research Projects.

J. Independent Research Audit. The State Licensing Authority in its discretion may at any time require that a Licensed Research Business undergo an audit of its research activities.

1. Circumstances Justifying Independent Research Audit. The following is a non-exhaustive list of examples that may justify an independent research audit:

a. The Division has reasonable grounds to believe that the Licensed Research Business is in violation of one or more of the requirements set forth in these rules or other applicable statutes or regulations;

b. The Division has reasonable grounds to believe that the Licensed Research Business's research activities present a danger to the public health and/or safety; or

c. The Division has reasonable grounds to believe that the Licensed Research Business has been or is engaged in research activities that have not received prior Division approval.

2. Selection of An Independent Consultant. The Division and the Licensed Research Business may attempt to mutually agree upon the selection of an independent consultant to perform a research audit. However, the Division always retains the authority to select the independent consultant regardless of whether mutual agreement can be reached.

3. Costs. The Licensed Research Business subject to an independent research audit will be responsible for all costs associated with the independent research audit, including but not limited to the auditor's fees.

4. Compliance Required. A Licensed Research Business must pay for and timely cooperate with the State Licensing Authority's requirement that it undergo an independent research audit in conformance with this Rule.

K. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose - M 1906

The statutory authority for this rule includes but is not limited to sections 12-43.3-202 and 12-43.3-408, C.R.S. The purpose of this rule is to establish minimum health and safety regulation for Licensed Research Businesses. It sets forth general standards and basic sanitary requirements for Licensed Research Businesses. It covers the Licensed Premises as well as the individuals handling Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product. The rule prohibits Licensed Research Business from treating or otherwise adulterating Medical Marijuana with any chemical or other compound whatsoever to alter its color, appearance, weight or smell. This rule also authorizes the State Licensing Authority to require an independent consultant to conduct an independent health and sanitary audit of an Licensed Research Businesses. This rule explains when an independent health and sanitary audit may be deemed necessary and sets forth possible consequences of a Licensed Research

Business's refusal to cooperate or pay for the audit. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Licensed Research Businesses.

M 1906 – Licensed Research Businesses: Health and Safety Regulations

A. Local Safety Inspections. A Licensed Research Business may be subject to inspection of its Licensed Premises by the local fire department, building inspector, or code enforcement officer to confirm that no health or safety concerns are present. The inspection could result in additional specific standards to meet local jurisdiction restrictions related to Medical Marijuana Businesses or other local businesses. An annual fire safety inspection may result in the required installation of fire suppression devices, or other means necessary for adequate fire safety.

B. General Sanitary Requirements. A Licensed Research Business shall take all reasonable measures and precautions to ensure the following:

1. That any Person who, by medical examination or supervisory observation, is shown to have, or appears to have, an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination for whom there is a reasonable possibility of contact with Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall be excluded from any operations which may be expected to result in contamination until the condition is corrected;

2. That hand-washing facilities shall be adequate and convenient and be furnished with running water at a suitable temperature. Hand-washing facilities shall be located in the Licensed Premises and where good sanitary practices require employees to wash and/or sanitize their hands, and provide effective hand-cleaning and sanitizing preparations and sanitary towel service or suitable drying devices;

3. That all Persons working in direct contact with Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall conform to hygienic practices while on duty, including but not limited to:

    a. Maintaining adequate personal cleanliness;

    b. Washing hands thoroughly in an adequate hand-washing area(s) before starting work and at any other time when the hands may have become soiled or contaminated; and

    c. Refraining from having direct contact with Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product if the person has or may have an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination, until such condition is corrected.

4. That litter and waste are properly removed and the operating systems for waste disposal are maintained in an adequate manner so that they do not constitute a source of contamination in areas where Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product are exposed;

5. That floors, walls, and ceilings are constructed in such a manner that they may be adequately cleaned and kept clean and kept in good repair;

6. That there is adequate lighting in all areas where Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product are stored, where research and development activities are conducted, and where equipment or utensils are cleaned;

7. That the Licensed Research Business provides adequate screening or other protection against the entry of pests. Rubbish shall be disposed of so as to minimize the development of odor and minimize the potential for the waste becoming an attractant, harborage, or breeding place for pests;

8. That any buildings, fixtures, and other facilities are maintained in a sanitary condition;

9. That toxic cleaning compounds, sanitizing agents, and solvents shall be identified, held, stored and disposed of in a manner that protects against contamination of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product, unless as part of an approved Research Project, and in a manner that is in accordance with any applicable local, state, or federal law, rule, regulation or ordinance. All Pesticide must be stored and disposed of in accordance with the information provided on the product's label;

10. That all contact surfaces, including utensils and equipment used for the preparation and research of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall be cleaned and sanitized as frequently as necessary to protect against contamination. Equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable, and shall be properly maintained. Only sanitizers and disinfectants registered with the Environmental Protection Agency shall be used by a Licensed Research Business and used in accordance with labeled instructions;

11. That the water supply shall be sufficient for the operations intended and shall be derived from a source that is a regulated water system. Private water supplies shall be derived from a water source that is capable of providing a safe, potable, and adequate supply of water to meet the Licensed Premises needs. Reclaimed water may also be used only for the cultivation of Medical Marijuana, and subject to approval of the Water Quality Control Division of the Colorado Department of Public Health and Environment and the local water provider;

12. That plumbing shall be of adequate size and design and adequately installed and maintained to carry sufficient quantities of water to required locations throughout the Licensed Premises and that plumbing shall properly convey sewage and liquid disposable waste from the Licensed Premises. There shall be no cross-connections between the potable, reclaimed water, and waste water lines;

13. That all operations in the receiving, inspecting, transporting, segregating, preparing, packaging, researching, and storing of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product shall be conducted in accordance with adequate sanitation principles;

14. That each Licensed Research Business shall provide its employees with adequate and readily accessible toilet facilities that are maintained in a sanitary condition and good repair; and

15. That Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product that can support the rapid growth of undesirable microorganisms shall be held in a manner that prevents the growth of these microorganisms, unless as part of an approved Research Project.

C. Pesticide Application. Unless as part of an approved Research Project, a Licensed Research Business may only use Pesticide in accordance with the Pesticide Act, sections 35-9-101 *et seq.*, C.R.S., the Pesticide Applicators' Act," sections 35-10-101 *et seq.*, C.R.S., and all other applicable federal, state, and local laws, statutes, rules and regulations. *See also* Rule M

1905(B). This includes, but shall not be limited to, the prohibition on detaching, altering, defacing, or destroying, in whole or in part, any label on any Pesticide.

D. Application of Other Agricultural Chemicals. Unless as part of an approved Research Project, a Licensed Research Business may only use agricultural chemicals, other than Pesticide, in accordance with all applicable federal, state, and local laws, statutes, rules and regulations.

E. Required Documentation.

1. Marijuana Research and Development Cultivation.

i. Standard Operating Procedures. A Marijuana Research and Development Cultivation must establish written standard operating procedures for the cultivation of Medical Marijuana. The standard operating procedures must at least include when, and the manner in which, all Pesticide and other agricultural chemicals are to be applied during its cultivation process. A copy of all standard operating procedures must be maintained on the Licensed Premises of the Marijuana Research and Development Cultivation.

ii. Material Change. If a Marijuana Research and Development Cultivation makes a Material Change to its cultivation procedures, it must document the change and revise its standard operating procedures accordingly. Records detailing the Material Change must be maintained on the relevant Licensed Premises.

2. Safety Data Sheet. A Licensed Research Business must obtain a safety data sheet for any Pesticide or other agricultural chemical used or stored on its Licensed Premises. A Licensed Research Business must maintain a current copy of the safety data sheet for any Pesticide or other agricultural chemical on the Licensed Premises where the product is used or stored.

3. Labels of Pesticide and Other Agricultural Chemicals. A Licensed Research Business must have the original label or a copy thereof at its Licensed Premises for all Pesticide and other agricultural chemicals used on its Licensed Premises.

4. Pesticide Application Documentation. A Licensed Research Business that applies any Pesticide or other agricultural chemical to any portion of a Medical Marijuana plant, water, or feed used during cultivation or generally within the Licensed Premises must document, and maintain a record on its Licensed Premises of, the following information:

a. The name, signature, and Occupational License number of the individual who applied the Pesticide or other agricultural chemical;

b. Applicator license, certification number or permit number, if the applicator is licensed, certified or permitted through the Department of Agriculture in accordance with the Colorado Pesticides Applicators' Act, sections 35-10-101 *et seq.*, C.R.S.;

c. The date and time of the application;

d. The EPA registration number of the Pesticide or CAS number of any other agricultural chemical(s) applied;

e. Each of the active ingredients of the Pesticide or other agricultural chemical(s) applied;

f. Brand name and product name of the Pesticide or other agricultural chemical(s) applied;

g. The restricted entry interval from the product label of any Pesticide or other agricultural chemical(s) applied;

h. The RFID tag number of the Medical Marijuana plant(s) that the Pesticide or other agricultural chemical(s) was applied to or if applied to all plants throughout the Licensed Premises, a statement to that effect; and

i. The total amount of each Pesticide or other agricultural chemical applied.

F. Prohibited Chemicals. The following chemicals shall not be used on a Licensed Research Business's Licensed Premises, unless as part of an approved Research Project. Possession of chemicals and/or containers from these chemicals upon the Licensed Premises shall be a violation of this rule, unless as part of an approved Research Project. Prohibited chemicals are:

G. Adulterants. Unless as part of an approved Research Project, a Licensed Research Business may not treat or otherwise adulterate Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product with any chemical or other compound whatsoever to alter its color, appearance, weight or smell.

H. Independent Health and Sanitary Audit.

1. State Licensing Authority May Require a Health and Sanitary Audit.

a. When the State Licensing Authority determines a health and sanitary audit by an independent consultant is necessary, it may require a Licensed Research Business to undergo such an audit. The scope of the audit may include, but need not be limited, to whether the Licensed Research Business is in compliance with the requirements set forth in this rule and other applicable public health or sanitary laws and regulations.

b. In such instances, the Division may attempt to mutually agree upon the selection of the independent consultant with a Licensed Research Business. However, the Division always retains the authority to select the independent consultant regardless of whether mutual agreement can be reached.

c. The Licensed Research Business will be responsible for all costs associated with the independent health and sanitary audit.

2. When Independent Health and Sanitary Audit Is Necessary. The State Licensing Authority has discretion to determine when an audit by an independent consultant is necessary. The following is a non-exhaustive list of examples that may justify an independent audit:

a. A Licensed Research Business does not provide requested records related to the use of Pesticide or other agricultural chemicals during in the cultivation process;

b. The Division has reasonable grounds to believe that the Licensed Research Business is in violation of one or more of the requirements set forth in this Rule or other applicable public health or sanitary laws, rules, or regulations;

c. The Division has reasonable grounds to believe that the Licensed Research Business was the cause or source of contamination of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product; or

d. Multiple Harvest Batches or Production Batches produced by the Licensed Research Business failed contaminant testing.

3. Compliance Required. A Licensed Research Business must pay for and timely cooperate with the State Licensing Authority's requirement that it undergo an independent health and sanitary audit in accordance with this Rule.

I. Suspension of Operations.

1. If the State Licensing Authority has objective and reasonable grounds to believe and finds upon reasonable ascertainment of the underlying facts that the public health, safety, or welfare imperatively requires emergency action and incorporates such findings into its order, it may order summary suspension of the Licensed Research Business's license. *See* Rule M 1302 – Disciplinary Process: Summary Suspensions.

2. Prior to or following the issuance of such an order, the Licensed Research Business may attempt to come to a mutual agreement with the Division to suspend its operations until the completion of the independent audit and the implementation of any required remedial measures.

    i. If an agreement cannot be reached or the State Licensing Authority, in its sole discretion, determines that such an agreement is not in the best interests of the public health, safety or welfare, then the State Licensing Authority will promptly institute license suspension or revocation procedures. *See* Rule M 1302 – Disciplinary Process: Summary Suspensions.

    ii. If an agreement to suspend operations is reached, then the Licensed Research Business may continue to care for its inventory and conduct any necessary internal business operations but it may not Transfer Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to other Medical Marijuana Business's during the period of time specified in the agreement.

J. Violation Affecting Public Safety. Failure to comply with this Rule may constitute a license violation affecting public safety.

Basis and Purpose - M 1907

The statutory authority for this rule includes but is not limited to sections 12-43.3-202, 12-43.3-405, and 12-43.3-408, C.R.S. The purpose of this rule is to permit laboratory testing of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Products used by Licensed Research Businesses. The State Licensing Authority intends this rule to help maintain the integrity of Colorado's Licensed Research Businesses.

M 1907 – Licensed Research Businesses: Testing

A. Samples on Demand. Upon request of the Division, a Licensed Research Business shall submit a sufficient quantity of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Testing Facility for testing. The Division will notify the Licensed Research Business of the results of the analysis. *See* Rule M 309 – Medical Marijuana Business: Inventory Tracking System; Rule M 901 – Business Records Required.

B. Samples Provided for Testing. A Licensed Research Business may provide Samples of its Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product to a Medical Marijuana Testing Facility for testing purposes. The Licensed Research Business shall maintain the testing results as part of its business books and records. See Rule M 901 – Business Records Required.

Basis and Purpose - M 1908

The statutory authority for this rule includes but is not limited to sections 12-43.3-202(1)(b)(I), 12-43.3-202(2)(a)(XX), 12-43.3-202(2)(a)(XXII), and 12-43.3-408, C.R.S. The purpose of this rule is to establish a Licensed Research Business may only possess an amount of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product Medical Marijuana approved in conjunction with the Licensee's approved Research Projects. The purpose of this rule is also to establish additional Inventory Tracking and separation requirements for Medical Marijuana cultivated for Transfer by a Marijuana Research and Development Cultivation.

M 1908 – Licensed Research Businesses: Production Management and Possession Limits

A. Marijuana Authorized for Transfer. A Marijuana Research and Development Cultivation that is authorized to cultivate Medical Marijuana for Transfer to Licensed Research Businesses may not have more than 500 Medical Marijuana plants and 20 pounds of Medical Marijuana on its Licensed Premises at any given time, unless expressly approved by the Division as part of an approved Research Project.

1. A Marijuana Research and Development Cultivation Licensee shall indicate in the Inventory Tracking System whether Medical Marijuana is going to be used by the Licensee in an approved Research Project or Transferred to another Licensed Research Business. A Marijuana Research and Development Cultivation may cultivate Medical Marijuana prior to approval of a Research Project, except the Marijuana Research and Development Cultivation may only designate such Medical Marijuana as Medical Marijuana to be Transferred to other Licensed Research Businesses unless or until the Marijuana Research Development Cultivation has an approved Research Project. Upon approval of a Research Project, a Marijuana Research and Development Cultivation shall indicate in the Inventory Tracking System whether any such Medical Marijuana authorized for Transfer will be subject to the Marijuana Research and Development Cultivation's research pursuant to the approved Research Project.

B. Marijuana for Research. A Licensed Research Business shall only possess for research the amount of Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Product approved by the Division pursuant to each of the Licensee's approved Research Projects.

C. Separation of Marijuana Used in Research. A Marijuana Research and Development Cultivation shall physically separate all Medical Marijuana used in the Licensee's own approved Research Project(s) from Medical Marijuana to be Transferred to other Licensed Research Businesses for approved Research Projects.

STATEMENT OF ADOPTION

To: Jim Burack, Director, Marijuana Enforcement Division

From: Michael S. Hartman,
Executive Director of the Colorado Department of Revenue, State Licensing Authority

Re: Statement of Adoption

Revised Medical Marijuana Rules, 1 CCR 212-1
Revised Retail Marijuana Rules, 1 CCR 212-2

Pursuant to the Administrative Procedure Act, Title 24, Article 4, of the Colorado Revised Statutes, I, Michael S. Hartman, Executive Director of the Colorado Department of Revenue, State Licensing Authority, promulgate the following rules to become effective on January 1, 2018:

Permanent Rules, Medical Marijuana, 1 CCR 212-1

Secretary of State Filing Tracking Number 2017-00440

M 100 Series – General Applicability

M 101 (Revised) – Engaging in Business

M 103 (New and Revised) – Definitions

M 200 Series – Licensing and Interests

M 201(Revised) – Application Process

M 202.1 (Revised) – Applications, Agreements, Contracts and Certifications Required for Indirect Beneficial Interest Owners: Medical Marijuana Businesses

M 204 (Revised) – Ownership Interests of a License: Medical Marijuana Businesses

M 204.5 (Revised) – Disclosure, Approval and Review of Business Interests

M 206 (Revised) – Changing Location of the Licensed Premises: Medical Marijuana Businesses

M 207 (Revised) – Schedule of Application Fees: Medical Marijuana Businesses

M 210 (Revised) – Schedule of Other Application Fees: All Licensees

M 231 (Revised) – Qualifications for Licensure and Residency

M 231.1 (Revised) – Finding of Suitability, Residency and Reporting Requirements for Direct Beneficial Interest Owners

M 231.2 (Revised) – Qualifications for Indirect Beneficial Interest Owners and Qualified Limited Passive Investors

M 300 Series – The Licensed Premises

M 301 (Revised) – Limited Access Areas

M 302 (Revised) – Possession of Licensed Premises

M 304 (Repealed) – Medical Marijuana Business and Retail Marijuana Establishment – Shared Licensed Premises and Operational Separation

M 304.1 (New) – Medical Marijuana Business and Retail Marijuana Establishment – Shared Licensed Premises and Operational Separation

M 305 (Revised) – Security Alarm Systems and Lock Standards

M 306 (Revised) – Video Surveillance

M 307 (Revised) – Waste Disposal

M 309 (Revised) – Medical Marijuana Business: Inventory Tracking System

M 400 Series – Medical Marijuana Centers

M 401 (Revised) – Medical Marijuana Center: License Privileges

M 402 (Revised) – Registration of a Primary Medical Marijuana Center

M 403 (Revised) – Medical Marijuana Sales: General Limitations or Prohibited Acts

M 405 (Revised) – Acceptable Forms of Identification for Medical Marijuana Sales

M 406 (Revised) – Medical Marijuana Center: Inventory Tracking System

M 407 (Revised) – Health and Safety Regulations: Medical Marijuana Center

M 408 (Revised) – Medical Marijuana Center: Responsible Vendor Program

M 500 Series – Medical Marijuana Optional Premises Cultivation Operation: License Privileges

M 501 (Revised) – Medical Marijuana Optional Premises Cultivation Operation: License Privileges

M 502 (Revised) – Medical Marijuana Optional Premises Cultivation Operation: General Limitations or Prohibited Acts

M 503 (Revised) – Medical Marijuana Optional Premises Cultivation Operation: Inventory Tracking System

M 504 (Revised) – Optional Premises Cultivation Operation: Health and Safety Regulations

M 505 (Revised) – Optional Premises Cultivation Operation: Testing

M 506 (Revised) – Optional Premises Cultivation Operation: Medical Marijuana Concentrate Production

M 600 Series – Medical Marijuana-Infused Products Manufacturers

M 601 (Revised) – Medical Marijuana-Infused Products Manufacturer: License Privileges

M 602 (Revised) – Medical Marijuana-Infused Products Manufacturer: General Limitations or Prohibited Acts

M 603 (Revised) – Medical Marijuana-Infused Products Manufacturer: Inventory Tracking System

M 604 (Revised) – Medical Marijuana-Infused Products Manufacturer: Health and Safety Regulations

M 605 (Revised) – Medical Marijuana-Infused Products Manufacturer: Medical Marijuana Concentrate Production

M 700 Series – Medical Marijuana Testing Facilities

M 701.5 (Revised) – Medical Marijuana Testing Facilities: License Privileges

M 702 (Revised) – Medical Marijuana Testing Facilities: General Limitations or Prohibited Acts

M 703 (Revised) – Medical Marijuana Testing Facilities: Certification Requirements

M 704 (Revised) – Medical Marijuana Testing Facilities: Personnel

M 705 (Revised) – Medical Marijuana Testing Facilities: Standard Operating Procedure Manual

M 706 (Revised) – Medical Marijuana Testing Facilities: Analytical Processes

M 707 (Revised) – Medical Marijuana Testing Facilities: Proficiency Testing

M 708 (Revised) – Medical Marijuana Testing Facilities: Quality Assurance and Quality Control

M 709 (Revised) – Medical Marijuana Testing Facilities: Chain of Custody

M 710 (Revised) – Medical Marijuana Testing Facilities: Records Retention

M 711 (Revised & Renamed) – Reporting and Inventory Tracking System

M 712 (Revised) – Medical Marijuana Testing Facilities: Sampling and Testing Program

M 800 Series – Transport and Storage

M 801 (Renamed & Revised) – Transport: All Medical Marijuana Businesses

M 802 (Renamed & Revised) – Off-Premises Storage of Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Product: All Medical Marijuana Businesses

M 900 Series – Business Records

M 901 (Revised) – Business Records Required

M 1000 Series – Labeling, Packaging, and Product Safety

M 1000 Series (Revised Effective and Compliance Dates) – Labeling, Packaging, and Product Safety

M 1001.5 (Revised) – Labeling and Packaging Requirements: General Applicability

M 1002.5 (Revised) – Packaging and Labeling of Medical Marijuana by an Optional Premises Cultivation Operation or a Medical Marijuana-Infused Products Manufacturer

M 1003.5 (Revised) – Packaging and Labeling of Medical Marijuana Concentrate by an Optional Premises Cultivation Operation or Medical Marijuana-Infused Products Manufacturer

M 1004.5 (Revised) – Packaging and Labeling Requirements of Medical Marijuana-Infused Products Manufacturer

M 1005 (Revised) – Packaging and Labeling of Medical Marijuana by a Medical Marijuana Center

M 1006 (Revised) – Packaging and Labeling of Medical Marijuana-Infused Product by a Medical Marijuana Center

M 1007 (Revised) – Packaging and Labeling of Medical Marijuana Concentrate by a Medical Marijuana Center

M 1000-1 Series – Labeling, Packaging, and Product Safety (New Series)

M 1000-1 Series (New Effective and Compliance Dates) – Labeling, Packaging, and Product Safety

M 1001-1 (New) – Packaging and Labeling: Minimum Requirements Prior to Transfer to a Medical Marijuana Business

M 1002-1 (New) – Packaging and Labeling: General Requirements Prior to Transfer to a Patient

M 1003-1 (New) – Additional Labeling Requirements Prior to Transfer to a Patient

M 1200 Series – Enforcement

M 1201 (Revised) – Duties of Employees of the State Licensing Authority

M 1202 (Revised) – Requirement for Inspections and Investigation, Searches, Administrative Holds, Voluntary Surrenders and Such Additional Activities as May Become Necessary from Time to Time

M 1203 (Revised) – Disposition of Unauthorized Medical Marijuana

M 1300 Series – Discipline

M 1303 (Revised) – Suspension Process: Regular and Summary Suspensions

M 1307 (Revised) – Penalties

M 1500 Series – Medical Marijuana Testing Program

M 1501 (Revised) – Medical Marijuana Testing Program – Contaminant Testing

M 1502 (Revised) – Medical Marijuana Testing Program – Mandatory Testing

M 1503 (Revised) – Medical Marijuana Testing Program – Potency Testing

M 1504 (Revised) – Medical Marijuana Testing Program – Sampling Procedures

M 1505 (Repealed) – Medical Marijuana Testing Program – Test Batches

M 1507 (Revised) – Medical Marijuana Testing Program – Contaminated Product and Failed Test Results

M 1600 Series – Medical Marijuana Transporters

M 1602 (Revised) – Medical Marijuana Transporter: General Limitations or Prohibited Acts

M 1603 (Revised) – Medical Marijuana Transporter: Inventory Tracking System

M 1800 Series – Medical Marijuana Transfers to Unlicensed Medical Research Facilities and Pesticide Manufacturers (New Series)

M 1801 (New) – Medical Research Facilities

M 1802 (New) – Pesticide Manufacturers

M 1900 Series – Licensed Research Businesses (New Series)

M 1901 (New) – Licensed Research Businesses: License Privileges

M 1902 (New) – Licensed Research Businesses: General Limitations or Prohibited Acts

M 1903 (New) – Licensed Research Businesses: Inventory Tracking

Rule title

1 CCR 212-2 RETAIL MARIJUANA RULES 1 - eff 01/01/2018

Effective date

01/01/2018

R 100 Series – General Applicability

Basis and Purpose – R 101

The statutory authority for this rule includes but is not limited to sections 12-43.4-102(2), 12-43.4-202(2)(b), and 12-43.4-901(2)(a), C.R.S. Unless such activity is authorized by the Colorado Constitution, article XVIII, Section 14 or Section 16, the Retail Marijuana Code, section 25-1.5-106.5, C.R.S., or these rules, any Person who buys, Transfers or acquires Retail Marijuana outside the requirements of the Retail Code is engaging in illegal activity pursuant to Colorado law. This rule clarifies that those engaged in the business of possessing, cultivating, dispending, Transferring, transporting, or testing Retail Marijuana must be properly licensed to be in compliance with Colorado law.

R 101 – Engaging in Business

Except as authorized by the Colorado Constitution, article XVIII, sections 14 or 16, the Retail Marijuana Code, or section 25-1.5-106.5, C.R.S., no person shall possess, cultivate, dispense, Transfer, transport, offer to sell, manufacture, or test Retail Marijuana, Retail Marijuana Concentrate or Retail Marijuana Product unless said person is duly licensed by the State Licensing Authority and approved by the relevant local jurisdiction(s) and/or licensed by the relevant local licensing authority(-ies).

Basis and Purpose – R 103

The statutory authority for this rule includes but is not limited to sections 12-43.4-202(2)(b) and 12-43.4-202(3)(b)(IX), C.R.S., section 12-43.4-103, and all of the Retail Code. The purpose of this rule is to provide necessary definitions of terms used throughout the rules. Defined terms are capitalized where they appear in the rules, to let the reader know to refer back to these definitions. When a term is used in a conventional sense, and is not intended to be a defined term, it is not capitalized.

R 103 – Definitions

Definitions. The following definitions of terms, in addition to those set forth in section 12-43.4-103, C.R.S., shall apply to all rules promulgated pursuant to the Retail Code, unless the context requires otherwise:

> "Advertising" means the act of providing consideration for the publication, dissemination, solicitation, or circulation, of visual, oral, or written communication, to induce directly or indirectly any Person to patronize a particular Retail Marijuana Establishment, or to purchase particular Retail Marijuana, Retail Marijuana Concentrate, or a Retail Marijuana Product. "Advertising" includes marketing, but does not include packaging and labeling. "Advertising" proposes a commercial transaction or otherwise constitutes commercial speech.
>
> "Additive" means any substance added to Retail Marijuana Product that is not a common baking or cooking item.
>
> "Affiliated Interest" means any Business Interest related to a Retail Marijuana Establishment that does not rise to the level of a Financial Interest in a Retail Marijuana Establishment license. An Affiliated Interest may include, but shall not be limited to, an Indirect Beneficial Interest Owner that is not a Financial Interest, an indirect financial interest, a lease agreement, secured or unsecured loan, or security interest in fixtures or equipment with a direct nexus to the cultivation, manufacture, Transfer, transportation, or testing of Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Products. Except as otherwise provided by these rules, an Affiliated Interest holder shall neither exercise control of nor be positioned so as to enable the exercise of control over the Retail Marijuana Establishment or its operations. A Retail Marijuana

Establishment shall report each of its Affiliated Interests to the Division with each application for initial licensure, renewal, change of ownership or change of corporate structure.

“Agreement” means any unsecured convertible debt option, option agreement, warrant, or at the Division’s discretion, other document that establishes a right for a person to obtain a Permitted Economic Interest that might convert to an ownership interest in a Retail Marijuana Establishment or Medical Marijuana Business.

“Alarm Installation Company” means a Person engaged in the business of selling, providing, maintaining, servicing, repairing, altering, replacing, moving or installing a Security Alarm System in a Licensed Premises.

“Applicant” means a Person that has submitted an application for licensure or registration, or for renewal of licensure or registration, pursuant to these rules that was accepted by the Division for review but has not been approved or denied by the State Licensing Authority.

“Associated Key License” means an Occupational License for an individual who is a Direct Beneficial Interest Owner of the Retail Marijuana Establishment, other than a Qualified Limited Passive Investor, and any Person who controls or is positioned so as to enable the exercise of control over a Retail Marijuana Establishment. Each shareholder, officer, director, member, or partner of a Closely Held Business Entity that is a Direct Beneficial Interest Owner and any Person who controls or is positioned so as to enable the exercise of control over a Retail Marijuana Establishment must hold an Associated Key License.

“Batch Number” means any distinct group of numbers, letters, or symbols, or any combination thereof, assigned by a Retail Marijuana Cultivation Facility or Retail Marijuana Products Manufacturer to a specific Harvest Batch or Production Batch of Retail Marijuana.

“Business Interest” means any Person that holds a Financial Interest or an Affiliated Interest in a Retail Marijuana Establishment.

“Cannabinoid” means any of the chemical compounds that are the active principles of marijuana.

“Child-Resistant” means special packaging that is:

a. Designed or constructed to be significantly difficult for children under five years of age to open and not difficult for normal adults to use properly as defined by 1 C.F.R. 1700.15 (1995) and 16 C.F.R. 1700.20 (1995). Note that this rule does not include any later amendments or editions to the Code of Federal Regulations. The Division has maintained a copy of the applicable federal regulations, which is available to the public;

b. Opaque so that the packaging does not allow the product to be seen without opening the packaging material; and

c. Resealable for any product intended for more than a single use or containing multiple servings.

“Closely Held Business Entity” means an “entity” as defined in section 7-90-102, C.R.S., that has no more than fifteen shareholders, officers, directors, members, partners or owners, each of whom are natural persons, each of whom holds an Associated Key License, and each of whom is a United States citizen prior to the date of application. There must be no publicly traded market for interests in the entity. A Closely Held Business Entity and each of the natural persons who are its shareholders, officers, directors, members, partners or owners, are Direct Beneficial Interest

Owners. A Closely Held Business Entity is an associated business of the Retail Marijuana Establishment for which it is a Direct Beneficial Interest Owner.

“Commercially Reasonable Royalty” means a right to compensation in the form of a royalty payment for the use of intellectual property with a direct nexus to the cultivation, manufacture, Transfer or testing of Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Product. A Commercially Reasonable Royalty must be limited to specific intellectual property the Commercially Reasonable Royalty Interest Holder owns or is otherwise authorized to license or to a product or line of products. A Commercially Reasonable Royalty that could cause reasonable consumer confusion or violate any federal copyright, trademark or patent law or regulation will not be approved. The Commercially Reasonable Royalty shall provide for compensation to the Commercially Reasonable Royalty Holder as a percentage of gross revenue or gross profit. The royalty payment must be at a reasonable percentage rate. To determine whether the percentage rate is reasonable, the Division will consider the totality of the circumstances, including but not limited to the following factors:

a. The percentage of royalties received by the recipient for the licensing of the intellectual property.

b. The rates paid by the Licensee for the use of other intellectual property.

c. The nature and scope of the license, as exclusive or non-exclusive; or as restricted or non-restricted in terms of territory or with respect to whom the product may be sold.

d. The licensor’s established policy and marketing program to maintain his intellectual property monopoly by not licensing others or by granting licenses under special conditions designed to preserve that monopoly.

e. The commercial relationship between the recipient and Licensee, such as, whether they are competitors in the same territory in the same line of business.

f. The effect of selling the intellectual property in promoting sales of other products of the Licensee; the existing value of the intellectual property to the recipient as a generator of sales of his non-intellectual property items; and the extent of such derivative sales.

g. The duration of the term of the license for use of the intellectual property.

h. The established or projected profitability of the product made using the intellectual property; its commercial success; and its current popularity.

i. The utility and advantages of the intellectual property over products or businesses without the intellectual property.

j. The nature of the intellectual property; the character of the commercial embodiment of it as owned and produced by the licensor; and the benefits to those who have used the intellectual property.

k. The portion of the profit or of the selling price that may be customary in the particular business or in comparable businesses to allow for the use of the intellectual property.

l. The portion of the realizable profit that should be credited to the intellectual property as distinguished from non-intellectual property elements, the

manufacturing process, business risks, or significant features or improvements added by the Licensee.

"Commercially Reasonable Royalty Interest Holder" means a Person that receives a Commercially Reasonable Royalty in exchange for a Licensee's use of the Commercially Reasonable Royalty Interest Holder's intellectual property. A Commercially Reasonable Royalty Interest Holder is an Indirect Beneficial Interest Owner.

"Container" means the receptacle directly containing Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Product that is labeled according to the requirements in Rules R 1001 *et seq*. or Rules R 1001-1 *et seq*.

"Denied Applicant" means any Person whose application for licensure pursuant to the Retail Code has been denied.

"Department" means the Colorado Department of Revenue.

"Direct Beneficial Interest Owner" means a natural person or a Closely Held Business entity that owns a share or shares of stock in a licensed Retail Marijuana Establishment, including the officers, directors, members, or partners of the licensed Retail Marijuana Establishment or Closely Held Business Entity, or a Qualified Limited Passive Investor. Each natural person that is a Direct Beneficial Interest Owner must hold an Associated Key License. Except that a Qualified Limited Passive Investor need not hold an Associated Key License and shall not engage in activities for which an Occupational License is required.

"Director" means the Director of the Marijuana Enforcement Division.

"Division" means the Marijuana Enforcement Division.

"Edible Retail Marijuana Product" means any Retail Marijuana Product for which the intended use is oral consumption, including but not limited to, any type of food, drink, or pill.

"Executive Director" means the Executive Director of the Department of Revenue.

"Exit Package" means an Opaque bag or other similar Opaque covering provided at the retail point of sale, in which Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Product already in a Container is placed. If Retail Marijuana flower, trim or seeds are placed into a Container that is not Child-Resistant, then the Exit Package must be Child-Resistant. The Exit Package is not required to be labeled in accordance with Rules R 1001 *et seq*. or Rules R 1001-1 *et seq*.

"Final Agency Order" means an Order of the State Licensing Authority issued in accordance with the Retail Code and the State Administrative Procedure Act. The State Licensing Authority will issue a Final Agency Order following review of the Initial Decision and any exceptions filed thereto or at the conclusion of the declaratory order process. A Final Agency Order is subject to judicial review.

"Financial Interest" means any Direct Beneficial Interest Owner, a Commercially Reasonable Royalty Interest Holder who receives more than 30 percent of the gross revenue or gross profit, a Permitted Economic Interest holder, and any other Person who controls or is positioned so as to enable the exercise of control over the Retail Marijuana Establishment.

"Flammable Solvent" means a liquid that has a flash point below 100 degrees Fahrenheit.

“Flowering” means the reproductive state of the cannabis plant in which there are physical signs of flower budding out of the nodes of the stem.

“Food-Based Retail Marijuana Concentrate” means a Retail Marijuana Concentrate that was produced by extracting Cannabinoids from Retail Marijuana through the use of propylene glycol, glycerin, butter, olive oil or other typical cooking fats.

“Good Cause” for purposes of denial of an initial, renewal, or reinstatement of a license application, means:

a. The Licensee or Applicant has violated, does not meet, or has failed to comply with any of the terms, conditions, or provisions of the Retail Code, any rules promulgated pursuant to it, or any supplemental relevant state or local law, rule, or regulation;

b. The Licensee or Applicant has failed to comply with any special terms or conditions that were placed upon the license pursuant to an order of the State Licensing Authority or the relevant local jurisdiction; or

c. The Licensee’s Licensed Premises have been operated in a manner that adversely affects the public health or welfare or the safety of the immediate neighborhood in which the establishment is located.

“Good Moral Character” means having a personal history that demonstrates honesty, fairness, and respect for the rights of others and for the law.

“Harvest Batch” means a specifically identified quantity of processed Retail Marijuana that is uniform in strain, cultivated utilizing the same Pesticide and other agricultural chemicals and harvested at the same time.

“Harvested Marijuana” means post-Flowering Retail Marijuana not including trim, concentrate or waste that remains on the premises of the Retail Marijuana Cultivation Facility or its off-premises storage location beyond 60 days from harvest.

“Heat/Pressure-Based Retail Marijuana Concentrate” means Retail Marijuana Concentrate that was produced by extracting Cannabinoids from Retail Marijuana through the use of heat and/or pressure. This method of extraction may be used by only a Retail Marijuana Products Manufacturing Facility and can be used alone or on a Production Batch that also includes Water-Based Retail Marijuana Concentrate or Solvent-Based Retail Marijuana Concentrate.

“Identity Statement” means the name of the business as it is commonly known and used in any Advertising.

“Immature plant” means a nonflowering Retail Marijuana plant that is no taller than eight inches and no wider than eight inches produced from a cutting, clipping or seedling and is in a cultivating container. Plants meeting these requirements are not attributable to a Licensee’s maximum allowable plant count, but must be fully accounted for in the Inventory Tracking System.

“Indirect Beneficial Interest Owner” means a holder of a Permitted Economic Interest, a recipient of a Commercially Reasonable Royalty associated with the use of intellectual property by a Licensee, a Profit-Sharing Plan Employee, a Qualified Institutional Investor, or another similarly situated Person as determined by the State Licensing Authority. An Indirect Beneficial Interest Owner is not a Licensee. The Licensee must obtain Division approval for an Indirect Beneficial Interest Owner that constitutes a Financial Interest before such Indirect Beneficial Interest Owner may exercise any of the privileges of the ownership or interest with respect to the Licensee.

“Industrial Hemp” means a plant of the genus Cannabis and any part of the plant, whether growing or not, containing a delta-9 tetrahydrocannabinol (THC) concentration of no more than three-tenths of one percent (0.3%) on a dry weight basis.

“Industrial Hygienist” means an individual who has obtained a baccalaureate or graduate degree in industrial hygiene, biology, chemistry, engineering, physics, or a closely related physical or biological science from and accredited college or university.

a. The special studies and training of such individuals shall be sufficient in the cognate sciences to provide the ability and competency to:

    1. Anticipate and recognize the environmental factors and stresses associated with work and work operations and to understand their effects on individuals and their well-being;

    2. Evaluate on the basis of training and experience and with the aid of quantitative measurement techniques the magnitude of such environmental factors and stresses in terms of their ability to impair human health and well-being;

    3. Prescribe methods to prevent, eliminate, control, or reduce such factors and stresses and their effects.

b. Any individual who has practiced within the scope of the meaning of industrial hygiene for a period of not less than five years immediately prior to July 1, 1997, is exempt from the degree requirements set forth in the definition above.

c. Any individual who has a two-year associate of applied science degree in environmental science from an accredited college or university and in addition not less than four years practice immediately prior to July 1, 1997, within the scope of the meaning of industrial hygiene is exempt from the degree requirements set forth in the definition above.

“Initial Decision” means a decision of a hearing officer in the Department following a licensing, disciplinary, or other administrative hearing. Either party may file exceptions to the Initial Decision. The State Licensing Authority will review the Initial Decision and any exceptions filed thereto, and will issue a Final Agency Order.

“Inventory Tracking System” means the required seed-to-sale tracking system that tracks Retail Marijuana from either the seed or immature plant stage until the Retail Marijuana, Retail Marijuana Concentrate, or Retail Marijuana Product is sold to a customer at a Retail Marijuana Store, Transferred to a Medical Research Facility, Transferred to a Pesticide Manufacturer, or destroyed.

“Inventory Tracking System Trained Administrator” means an Associated Key Licensee of a Retail Marijuana Establishment or an occupationally licensed employee of a Retail Marijuana Establishment, each of whom has attended and successfully completed Inventory Tracking System training and has completed any additional training required by the Division.

“Inventory Tracking System User” means an Associated Key Licensee of a Retail Marijuana Establishment or an occupationally licensed Retail Marijuana Establishment employee, who is granted Inventory Tracking System User account access for the purposes of performing inventory tracking functions in the Inventory Tracking System. Each Inventory Tracking System User must have been successfully trained by an Inventory Tracking System Trained Administrator in the proper and lawful use of Inventory Tracking System.

“Key License” means an Occupational License for an individual who performs duties that are central to the Retail Marijuana Establishment’s operation. An individual holding a Key License has the highest level of responsibility but is not an Owner. An example of a Key Licensee includes, but is not limited to, managers.

“Licensed Premises” means the premises specified in an application for a license pursuant to the Retail Code that are owned or in possession of the Licensee and within which the Licensee is authorized to cultivate, manufacture, distribute, sell, store, transport, or test Retail Marijuana in accordance with the provisions of the Retail Code and these rules.

“Licensed Research Business” means a Marijuana Research and Development Facility or a Marijuana Research and Development Cultivation.

“Licensee” means any Person licensed or registered pursuant to the Retail Code or, in the case of an Occupational License Licensee, any individual licensed pursuant to the Retail Code or Medical Code.

“Limited Access Area” means a building, room, or other contiguous area upon the Licensed Premises where Retail Marijuana is grown, cultivated, stored, weighed, packaged, Transferred, or processed for Transfer, under control of the Licensee.

“Limit of Detection” or “LOD” means the lowest quantity of a substance that can be distinguished from the absence of that substance (a blank value) within a stated confidence limit (generally 1%).

“Limit of Quantitation” or “LOQ” means the lowest concentration at which the analyte can not only be reliably detected but at which some predefined goals for bias and imprecision are met.

“Liquid Edible Retail Marijuana Product” means an Edible Retail Marijuana Product that is a liquid beverage or liquid food-based product for which the intended use is oral consumption, such as a soft drink or cooking sauce.

“Marijuana-Based Workforce Development Training Program” means a program designed to train individuals to work in the legal Medical or Retail Marijuana industry operated by an entity licensed under the Medical Code and/or Retail Code or by a school that is authorized by the Division of Private Occupational Schools.

“Marketing Layer” means packaging in addition to the Container that is the outermost layer visible to the consumer at the point of sale. The Marketing Layer is optional, but if used by a Licensee in addition to the required Container, it must be labeled according to the requirements of Rules R 1001 *et seq*. or Rules R 1001-1 *et seq*.

“Marijuana Research and Development Cultivation” means a Person that is licensed pursuant to the Medical Code to grow, cultivate, and possess Medical Marijuana, and to Transfer Medical Marijuana to a Marijuana Research and Development Facility or another Medical Research and Development Cultivation, all for limited research purposes authorized pursuant to section 12-43.3-408, C.R.S. A Marijuana Research and Development Cultivation is a Licensed Research Business.

“Marijuana Research and Development Facility” means a Person that is licensed pursuant to the Medical Code to possess Medical Marijuana for limited research purposes authorized pursuant to section 12-43.3-408, C.R.S. A Marijuana Research and Development Facility is a Licensed Research Business.

“Material Change” means any change that would require a substantive revision to a Retail Marijuana Establishment’s standard operating procedures for the cultivation of Retail Marijuana or the production of a Retail Marijuana Concentrate or Retail Marijuana Product.

“Medical Code” means the Colorado Medical Marijuana Code found at sections 12-43.3-101 *et. seq*., C.R.S.

“Medical Marijuana” means marijuana that is grown and sold pursuant to the Medical Code and includes seeds and Immature Plants. Unless the context otherwise requires, Medical Marijuana Concentrate is considered Medical Marijuana and is included in the term “Medical Marijuana” as used in these rules.

“Medical Marijuana Business” means a Medical Marijuana Center, a Medical Marijuana-Infused Product Manufacturer, an Optional Premises Cultivation Operation, a Medical Marijuana Testing Facility, a Medical Marijuana Business Operator, or a Medical Marijuana Transporter, a Marijuana Research and Development Facility, or a Marijuana Research and Development Cultivation.

“Medical Marijuana Business Operator” means an entity that holds a registration or license from the State Licensing Authority to provide professional operational services to one or more Medical Marijuana Businesses, other than Licensed Research Businesses, for direct remuneration from the Medical Marijuana Business(es), which may include compensation based upon a percentage of the profits of the Medical Marijuana Business(es) being operated. A Medical Marijuana Business Operator may contract with Medical Marijuana Business(es) to provide operational services. A Medical Marijuana Business Operator’s contract with a Medical Marijuana Business does not in and of itself constitute ownership. The Medical Code and rules apply to all Medical Marijuana Business Operators regardless of whether such operator holds a registration or license. Any reference to “license” or “licensee” shall mean “registration” or “registrant” when applied to a Medical Marijuana Business Operator that holds a registration issued by the State Licensing Authority.

“Medical Marijuana Center” means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-402, C.R.S., and sells Medical Marijuana to registered patients or primary caregivers as defined in Article XVIII, Section 14 of the Colorado Constitution, but is not a primary caregiver.

“Medical Marijuana Concentrate” means a specific subset of Medical Marijuana that was produced by extracting Cannabinoids from Medical Marijuana. Categories of Medical Marijuana Concentrate include Water-Based Medical Marijuana Concentrate, Food-Based Medical Marijuana Concentrate, Solvent-Based Medical Marijuana Concentrate, and Heat/Pressure-Based Medical Marijuana Concentrate.

“Medical Marijuana-Infused Product” means a product infused with Medical Marijuana that is intended for use or consumption other than by smoking, including but not limited to edible product, ointments, and tinctures. Such products shall not be considered a food or drug for purposes of the “Colorado Food and Drug Act,” part 4 of Article 5 of Title 25, C.R.S.

“Medical Marijuana-Infused Products Manufacturer” means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-404, C.R.S.

“Medical Marijuana Testing Facility” means a public or private laboratory licensed and certified, or approved by the Division, to perform testing and research on Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Products.

“Medical Marijuana Transporter” means a Person that is licensed to transport Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Products from one Medical

Marijuana Business to another Medical Marijuana Business or to a Medical Research Facility or Pesticide Manufacturer, and to temporarily store the transported Medical Marijuana, Medical Marijuana Concentrate, and Medical Marijuana-Infused Products at its licensed premises, but is not authorized to sell, give away, buy, or receive complimentary Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products under any circumstances. A Medical Marijuana Transporter does not include a Licensee that transports its own Medical Marijuana, Medical Marijuana Concentrate, or Medical Marijuana-Infused Products.

"Medical Research Facility" means a Person approved and grant-funded by the State Board of Health pursuant to section 25-1.5-106.5, C.R.S., to conduct Medical Marijuana research. A Medical Research Facility is neither a Medical Marijuana Business, a Retail Marijuana Establishment, nor a Licensee.

"Monitoring" means the continuous and uninterrupted attention to potential alarm signals that could be transmitted from a Security Alarm System located at a Retail Marijuana Establishment Licensed Premises, for the purpose of summoning a law enforcement officer to the premises during alarm conditions.

"Monitoring Company" means a person in the business of providing security system Monitoring services for the Licensed Premises of a Retail Marijuana Establishment.

"Multiple-Serving Edible Retail Marijuana Product" means an Edible Retail Marijuana Product unit for sale to consumers containing more than 10mg of active THC and no more than 100mg of active THC. If the overall Edible Retail Marijuana Product unit for sale to the consumer consists of multiple pieces where each individual piece may contain less than 10mg active THC, yet in total all pieces combined within the unit for sale contain more than 10mg of active THC, then the Edible Retail Marijuana Product shall be considered a Multiple-Serving Edible Retail Marijuana Product.

"Notice of Denial" means a written statement from the State Licensing Authority, articulating the reasons or basis for denial of a license application.

"Occupational License" means a license granted to an individual by the State Licensing Authority pursuant to section 12-43.3-401 or 12-43.4-401, C.R.S. An Occupational License may be an Associated Key License, a Key License or a Support License.

"Opaque" means that the packaging does not allow the product to be seen without opening the packaging material.

"Optional Premises Cultivation Operation" means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-403, C.R.S.

"Order to Show Cause" means a document from the State Licensing Authority alleging the grounds for imposing discipline against a Licensee's license.

"Owner" means, except where the context otherwise requires, a Direct Beneficial Interest Owner.

"Permitted Economic Interest" means an Agreement to obtain an ownership interest in a Retail Marijuana Establishment or Medical Marijuana Business when the holder of such interest is a natural person who is a lawful United States resident and whose right to convert into an ownership interest is contingent on the holder qualifying and obtaining a license as a Direct Beneficial Interest Owner under the Retail Code or Medical Code. A Permitted Economic Interest holder is an Indirect Beneficial Interest Owner.

“Person” means a natural person, partnership, association, company, corporation, limited liability company, or organization, or a manager, agent, owner, director, servant, officer, or employee thereof; except that “Person” does not include any governmental organization.

“Pesticide” means any substance or mixture of substances intended for preventing, destroying, repelling or mitigating any pest or any substance or mixture of substances intended for use as a plant regulator, defoliant or desiccant; except that the term “pesticide” shall not include any article that is a “new animal drug” as designated by the United States Food and Drug Administration.

“Pesticide Manufacturer” means a Person who (1) manufactures, prepares, compounds, propagates, or processes any Pesticide or device or active ingredient used in producing a Pesticide; (2) who possesses an establishment registration number with the U.S. Environmental Protection Agency pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. §§ 136 *et seq*.; (3) who conducts research to establish safe and effective protocols, including but not limited to establishing efficacy and toxicity, for the use of Pesticides on Medical Marijuana; (4) who has applied for and received any necessary license, registration, certifications, or permits from the Colorado Department of Agriculture, pursuant to the Pesticide Act, sections 35-9-101 *et seq*., C.R.S. and/or the Pesticide Applicators’ Act, sections 35-10-101 *et seq*., C.R.S.; (5) who is authorized to conduct business in the State of Colorado; and (6) who has physical possession of the location in the State of Colorado where its research activities occur. A Pesticide Manufacturer is neither a Medical Marijuana Business, a Retail Marijuana Establishment, nor a Licensee.

“Production Batch” means (a) any amount of Retail Marijuana Concentrate of the same category and produced using the same extraction methods, standard operating procedures and an identical group of Harvest Batch(es) of Retail Marijuana; or (b) any amount of Retail Marijuana Product of the same exact type, produced using the same ingredients, standard operating procedures and the same Production Batch(es) of Retail Marijuana Concentrate.

“Professional Engineer” means an individual who is licensed by the State of Colorado as a professional engineer pursuant to 12-25-101 et. seq., C.R.S.

“Proficiency Testing” means an assessment of the performance of a Retail Marijuana Testing Facility’s methodology and processes. Proficiency Testing is also known as inter-laboratory comparison. The goal of Proficiency Testing is to ensure results are accurate, reproducible, and consistent..

“Profit-Sharing Plan” means a profit-sharing plan that is qualified pursuant to 26 U.S.C. § 401 of the Internal Revenue Code and subject to the Employee Retirement Income Security Act, and which provides for employer contributions in the form of cash, but not in the form of stock or other equity interests in a Retail Marijuana Establishment.

“Profit-Sharing Plan Employee” means an employee holding an Occupational License who receives a share of a Retail Marijuana Establishment’s profits through a Profit-Sharing Plan. A Profit-Sharing Plan Employee is an Indirect Beneficial Interest Owner.

“Propagation” means the reproduction of Retail Marijuana plants by seeds, cuttings or grafting.

“Public Institution” means any entity established or controlled by the federal government, a state government, or a local government or municipality, including but not limited to an institution of higher education or a public higher education research institution.

“Public Money” means any funds or money obtained by the holder from any governmental entity, including but not limited to research grants.
