RE: Tracking Number: 2017-00196  
Revision to Workers' Compensation Treatment Guidelines  
Rule 17, Exhibit 5, 7 CCR 1101-3

Dear Mr. Williams:

I have reviewed the corrections to the accompanying Rule 17, Exhibit 5, and determined that the matters being corrected are nonsubstantive errors, and that the corrections are necessary to insure that the published rule, exhibit, and corresponding opinion conform to the adopted rule, pursuant to section 24-4-103(11)(d), C.R.S. (2016).

The corrections address an omission on the cover page of the most recent past edition, and misalignment of two lines in a table on page 26, both of which are portions of Exhibit 5 to Rule 17, adopted December 29, 2016, submitted under Tracking Number 2016-00589, specifically:

- The cover page should include the following most recent prior edition information: "Revised: September 16, 2010 Effective: October 30, 2010."
- Two lines in a table on page 26 were misaligned so that the secondary risk factor for elbow flexion was listed in the row for wrist flexion, and the secondary risk factor for supination/pronation was listed in the row for elbow flexion; these lines have been properly aligned in the corrected version.

Please do not hesitate to contact me if I may be of further assistance.

Sincerely,

FOR THE ATTORNEY GENERAL
