RE: Corrections to Regulation 38, 5 CCR 1002-38, Tracking Number 2023-00370,
371, and 372

Dear Ms. Maiolo:

On April 12, 2023, amendments to Regulation No. 38 regarding Classifications and Numeric Standards for South Platte River Basin, Laramie River Basin, Republican River Basin, and Smoky Hill River Basin, were adopted by the Water Quality Control Commission, and pursuant to § 24-4-103(11)(d), C.R.S., the amended regulations, together with the Attorney General's opinion, were submitted to the Secretary of State on May 2, 2023, under Tracking Number 2022-00601. In the adopted rules, a typographical/clerical error has been discovered wherein the following segments' designations need to be changed from "Use Protected" to "Reviewable:"

- Page 316, which contains segments COSPUS15 and COSPUS16a
- Page 351, which contains segments COSPCL15 and COSPCL16a
- Page 384, which contains segments COSPMS01a and COSPMS01b

These pages will be replaced in their entirety. These changes are to become effective as soon as possible.

Pursuant to the rulemaking provisions of the Colorado Administrative Procedures Act, clerical errors may be corrected upon submission of a request by the agency. § 24-4-103(11)(d)(II), C.R.S.

I have reviewed these errors and have determined that they are clerical in nature, as demonstrated by the hearing record as a whole. I respectfully request that you make these corrections to the above-referenced rules. An appropriate corrective document has been provided.

PHILIP J. WEISER
Attorney General
