F. Special Licenses for Nuisance Turkeys

1. The Director shall have the authority to establish special hunting seasons for turkeys, between December 1 and March 31 on an annual basis, when necessary to control nuisance turkeys. The Area Wildlife Manager will determine the type of license(s) (either-sex or hen only) most appropriate to control the conflict.
 - a. Nuisance turkey hunts are limited to a maximum of 50 licenses per landowner, per year.
 1. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application. Nuisance turkey licenses shall be sold at the fall season license price.
 - b. Prior to approving the hunt, the Division shall:
 1. Verify that conflicts are occurring.
 2. Designate what area shall be open to hunting.
 3. Determine the manner of hunting that will be permitted.
 4. Determine the number of hunters allowed to hunt in each designated area.
 - c. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such conflict is occurring.
 - d. Hunters shall hunt in designated areas and on the dates indicated on the license.

1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
- e. Any person who purchases a license for a nuisance turkey season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

Basis and Purpose:

Turkey regulations have been modified to update harvest limit quota numbers and season dates for 2022. Turkey harvest limit quotas and seasons are established to maintain healthy populations while at the same time providing recreational opportunity. Ongoing population analysis and management necessitates or makes possible reductions in turkey harvest in some Game Management Units and additional turkey hunting opportunity in others. These regulations have been modified to promote healthy turkey populations and provide for proper turkey management and recreational opportunity in accordance with the best available science.

Creating turkey novice outreach hunting licenses

As part of the agency's hunter retention and recruitment efforts, Colorado Parks and Wildlife wishes to attract more novice/ inexperienced hunters of all ages into the sport of hunting. Therefore, the Hunter Outreach Program engages with inexperienced hunters of all ages through clinics, seminars, and educational hunts. In 2019, big game novice adult outreach licenses were created in an effort to further recruit novice hunters. In order to expand the Division's hunting outreach for other species, and complement the big game novice adult licenses, Division staff recommended creating similar novice outreach hunting licenses for turkey.

With the creation of turkey novice outreach hunting licenses, CPW and partnering qualified groups are able to host turkey hunts for novice adult hunters. For the purpose of these regulations, a novice adult hunter is defined as a Colorado resident 18 years of age or older, who has either: no turkey license purchase history, only held a turkey license(s) in the previous year, or has no turkey license purchase history in the previous five years.

Creating an over-the-counter fall turkey season in Game Management Unit 23

Previously, Game Management Unit (GMU) 23 was the only GMU in the Meeker area that did not offer a fall over-the-counter (OTC) turkey license. Turkeys were transplanted into the White River Valley near Meeker in the late 1980's. Historically, Colorado Parks and Wildlife has been conservative with the annual hunting license quotas to ensure that the turkey population was not overharvested in GMU 23. However, the turkey population has grown significantly from 2015-2021 and turkeys are widely distributed and scattered across public and private lands within GMU 23 in the fall. The creation of a fall OTC turkey hunting season in GMU 23 offers hunters more opportunity to hunt turkeys within the White River corridor. A fall either-sex turkey season in GMU 23 also allows for the take of hen turkeys and helps manage the growing population of turkeys within GMU 23. The additional harvest also helps alleviate some isolated property damage issues caused by turkeys.

Clarifying restrictions on hunt codes TM059K1R and TE085L3R

Hunt code TM059K1R is designated as a youth only hunt code. To ensure consistency with other youth only hunt codes and to limit confusion the phrase 'youth only' was added to the unit description for TM059K1R. Hunt code TE085L3R is restricted to the Sakariason Tract only. For consistency with other GMU 85 hunt codes and to limit confusion the word 'only' was added to the unit description to specify the Sakariason Tract as the only valid section of GMU 85 that may be hunted with hunt code TE085L3R.

Discounting the nonresident furbearer license, the resident senior combination fishing and small game hunting license, and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI). Discounts have been retained for certain licenses, including the nonresident furbearer license, in order keep the fee equitable with similar license types, such as the small game license. Discounts have also been retained for the resident senior combination fishing and small game hunting license and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license. However, the fees for these licenses have increased in accordance with the annual changes to the CPI.

EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE JANUARY 1, 2022 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.
