RE: Corrections to 8 CCR 1203-5, "Rules Pertaining to the Administration and Enforcement of the Colorado Nursery Act" SOS Tracking No. 2017-00598

Dear Mr. Secretary

On April 15, 2018 the amendments to 8 CCR 1203-5 "Rules Pertaining to the Administration and Enforcement of the Colorado Nursery Act" became effective. During the final filing the Department did not clarify in the filing instructions that the introductory paragraph should be removed as stricken in the redline.

The Department is requesting that the following paragraph be removed from the adopted rule:

Pursuant to the provisions and requirements of the Colorado Nursery Act to regulate the sale and distribution of nursery stock, and by authority of Title 35, Article 26, Section 111, C.R.S., the following rules, which apply to all nursery stock sold or offered for sale in this state, are hereby promulgated:

We appreciate your attention to this matter and thank you for your time.
