**Subject:** Online voting

Honorable Mr. Williams,

Online voting is a disaster in the making. Please stop this from becoming a reality. This would be one more open door to voter fraud. We need security and anonymity in our voting system. The Internet is not secure no matter what some may say.

This has been proven with all the recent hacks.

Please do all you can to reject this extremely bad idea.

Thank you sir for your attention to this event.

Sincerely,

Scott T. Wilcock  
Parker, Colorado

Sent from my iPad because that's how I roll!
