Dear Wayne,

We are a small all volunteer animal rescue group. We have been in operation for many years and I have always handled our interactions with the state.

When you took over as secretary of state some years ago I noticed changes for the better. You have much improved the department of state from our point of view. I believe any rule changes you are involved with will be changes for the better. I have commented below.

- Recodify 8 CCR 1505-9

I don't know what this is and don't have time to research it - but the less bureaucracy intruding on the time organizations like ours have to spend on paperwork the better.

- Ensure proper administration of legislation recently passed by the Colorado General Assembly, specifically HB17-1158;

I don't know what this is and don't have time to research it - but the less bureaucracy intruding on the time organizations like ours have to spend on paperwork the better.

- Establish uniformity in the administration of current law;

Agree this should be done to increase fair application of the law

- Organize existing rules for clarity;
- Simplify the language of existing rules; and
- Remove language that is duplicative of statute.

I thank you for proposing to effect the 3 improvements proposed above.

Anyone with the welfare of the organizations affected by the rules in question would want the above 3 changes to be made. Unfortunately many unlike yourself want to exercise unjust power over people and organizations and so want to complicate rather than organize and simplify

Thank you for your work as Secretary of State,
Frank
