---

Thank you for the opportunity to weigh in on CPF rules. I am opposed to any rules that give an unfair advantage to candidates/politicians over regular citizens, i.e. paying for dependent care with contributions. All working parents have to find a way to pay for the cost of child care, etc. Candidates and politicians should be the same.

Separately, I am appalled at the SOS position being politicized. The SOS role MUST be a-political at all times. It was completely inappropriate for the SOS to make a statement and policy regarding the abortion laws (with oversight from Planned Parenthood - emphasis added) in other states. We are now entirely skeptical that the SOS is an independent person/role in her position.

The deck is stacked against conservative persons who live in Denver County and we don't think we don't believe that fact will change.
