STATEMENT OF BASIS AND PURPOSE FOR REGULATION FOR THE STATE OF COLORADO CONTINUING PLANNING PROCESS

The subject regulation is to indicate the Water Quality Control Commission's intent to implement the requirements of C.R.S. 25-8-101, et seq., as amended, and more specifically, Sections 25-8-202(2), 25-8-207(1)(c); and 25-8-703.

Sections 208 and 303(e) of the Clean Water Act (CWA) of 1977, 33 USC § 1313(e) provide for areawide water quality management plans and for each state to have a continuing planning process. The Attorney General has interpreted the State Act as requiring the Commission to approve 208 and 303(e) plans after holding a public hearing. It is the intent of the Commission for all water quality management plans to meet the requirements of the referenced Federal and State Acts and for the "Continuing Planning Process" to keep these plans current and timely.

There are no scientific or technological issues involved in this regulations.

The goals of the renumbering are: (1) to achieve a more logical organization and numbering of the regulations, with a system that provides flexibility for future modifications, and (2) to make the Commission's internal numbering system and that of the Colorado Code of Regulations (CCR) consistent. The CCR references for the regulations will also be revised as a result of this hearing.
