###### 7.701.11 Licensing Exemptions [Rev. eff. 4/1/11]

- A. A license must be obtained before care begins unless such care is exempt as set forth below.
- B. A license is not required for:
  - 1. A special school or class in which more than seventy five (75) percent of the time that children are present is spent in religious instruction. Religious instruction is defined to include such developmentally appropriate children's activities as worship, singing religious songs, listening to religious stories, learning and practicing religious cultural activities, and participating in religious celebrations;
  - 2. A special school or class operated for a single skill-building purpose;
  - 3. A child care center operated in connection with a church, shopping center, or business where children are cared for during short periods of time, not to exceed three hours in any twenty-four hour period of time, while parents or persons in charge of such children, or employees of the church, shopping center, or business whose children are being cared for at such location are attending church services at such location, shopping, patronizing or working on the premises of the business. This facility must be operated on the premises of the church, business, or shopping center. Only children of parents or guardians who are attending a church activity or patronizing the business or shopping center or working at the church, shopping center or business can be cared for in the center;
  - 4. Occasional care of children with or without compensation, which means the offering of child care infrequently and irregularly that has no apparent pattern;
  - 5. A family care home in which less than 24-hour care is given for only one child or two or more children who are siblings from the same family household at any one time;

6. A child care facility that is approved, certified, or licensed by any other state department or agency, or by a federal government department or agency, which has standards for operation of the facility and inspects or monitors the facility;
  7. The medical care of children in nursing homes;
  8. Ski area guest child care facilities as defined at Sections 26-6-102(5) and 26-6-103.5, C.R.S.;

- C. Any child care providers wishing to be declared exempt from the Child Care Licensing Act based on the nature of their program must submit a request for exemption to the State Department. That request must include the name and address of the facility, the number of children in care and their approximate ages, the hours of operation, and a basic description of the program and its curriculum.
- D. Decisions of the State Department regarding exemptions are the final agency decision of the Department and cannot be reviewed by an Administrative Law Judge.

**7.701.12 Civil Penalties and Injunctions**

- A. Violation of any provision of the Child Care Licensing Act or intentional false statements or reports made to the Department or to any agency lawfully delegated by the Department to make an investigation or inspection may result in fines assessed of not more than \$100 a day to a maximum of \$10,000.
1. A civil penalty will be assessed by the Department only in conformity with the provisions and procedures specified in Article 4 of Title 24, C.R.S. No civil penalty will be assessed without a hearing conducted pursuant to the Child Care Licensing Act and Article 4 of Title 24, C.R.S., before an Administrative Law Judge acting on behalf of the Department.
  2. Prior to receipt of a cease and desist order from the Department or from any agency delegated by the Department to make an investigation or inspection under the provision of the Child Care Licensing Act, any unlicensed child care facility may be fined up to \$100 a day to a maximum of \$10,000 for providing care for which a license is required.
  3. For providing child care for which a license is required after receipt of a cease and desist order, an unlicensed facility will be fined \$100 a day to a maximum of \$10,000.
  4. Assessment of any civil penalty under this section will not preclude the Department from initiating injunctive proceedings pursuant to Section 26-6-111, C.R.S.
  5. A licensed child care facility may be fined up to \$100 a day to a maximum of \$10,000 for each violation of the Child Care Licensing Act or for any statutory grounds as listed at Section 26-6-108(2), C.R.S.
  6. Assessment of any civil penalty does not preclude the department from also taking action to deny, suspend, revoke, make probationary, or refuse to renew that license.
  7. Any person intentionally making a false statement or report to the Department or to any agency delegated by the Department to make an investigation or inspection under the provisions of the Child Care Licensing Act may be fined up to \$100 a day to a maximum of \$10,000.

- 8. Civil penalties assessed by the department must be made payable to the Colorado Department of Human Services.
- B. In addition to civil penalties that may be assessed under Section 7.701.12, A, when an individual operates a facility after a license has been denied, suspended, revoked, or not renewed, or before an original license has been issued, injunctive proceedings may be initiated to enjoin the individual from operating a child care facility without a license.
- C. Within ten (10) working days after receipt of a notice of final agency action with regard to a negative licensing action or the imposition of a fine, each child care center or family child care home must provide the Department with the names and mailing addresses of the parents or legal guardians of each child cared for at the facility so that the Department can notify the parents or legal guardians of the negative licensing action taken. The facility will be responsible for paying a fine to the Department that is equal to the direct and indirect costs associated with the mailing of the notice.

**7.701.13      Waivers [Rev. eff. 2/1/14]**

- A. A person who has applied for or been issued a certificate or license to operate a child care facility or child placement agency has the right to request a waiver of any rule or regulation which, in his/her opinion, works an undue hardship on the person, facility, or the community, or has been too stringently applied by a representative of the Department.
- B. Requests for waivers must be submitted to the Department in writing within sixty (60) calendar days of the date on which the rule allegedly was too stringently applied or created the hardship. Requests must include the name and address of the facility, its assigned license number, the citation of the rule for which a waiver is being sought, and all relevant information regarding the alleged hardship or evidence of the rule being too stringently applied.
- C. Pursuant to Section 26-6-105.7, C.R.S., materials waivers are different than general waivers in several ways. Child care centers may apply for a waiver to use certain materials in its program pursuant to Section 26-6-105.7(2)(a), (b), C.R.S.
- D. The Department will designate, pursuant to the Child Care Licensing Act, Section 26-6-106(3), C.R.S., an appeal panel, which will meet to review appeal requests and make recommendations to the Executive Director of the Colorado Department of Human Services, and the Director will issue a decision. Decisions of the Executive Director are final and not subject to judicial review. Requests for an appeal shall be submitted to the Office of Early Childhood.
- E. The Department shall make a decision on waiver requests and notify the child care center of its decision no later than sixty (60) calendar days of receipt of the request.
- F. If a child care facility or agency is aggrieved by the decision of the appeal panel, the facility or agency has the following rights:
  - 1. If the denial of a waiver request relates to a request for a materials waiver/appeal, the facility or agency may petition the Colorado Department of human services ("The Department") in writing within forty-five (45) calendar days to appeal the denial decision.
  - 2. If the appeal/waiver relates to any other rule than a materials waiver/appeal, the facility has a right to a formal hearing pursuant to Section 24-4-105, C.R.S., if the facility or agency petitions the Department in writing within thirty (30) calendar days of receipt of the written appeal decision.

- G. For appeals of materials waiver/appeal denials, the Executive Director or designee shall act upon the appeal within forty-five (45) calendar days and shall provide notice of his/her decision on the appeal within ten (10) calendar days.
- H. For appeals of materials waiver/appeal denials, the appealing child care center has the right to request a meeting in person with Department personnel regarding the appeal.
- I. For appeals of materials waiver/appeal denials, the entire appeals process shall last no longer than one hundred (100) calendar days after the date of the notice of the denial of the waiver request.
- J. Written decisions of the appeal panel shall be posted beside the child care license, but posting of the decision shall not occur until the appeal is final. The Department shall not post the decision to deny a waiver on its web site until the appeal is final.

**7.701.14 Civil Rights**

All facilities licensed under the Child Care Licensing Act are subject to the non-discrimination provisions of Title VI of the Civil Rights Act of 1964, as amended, and its implementing regulation, Title 45 Code of Federal Regulations (CFR), Part 80; the Age Discrimination Act of 1975, as amended, and its implementing regulation, Title 45 CFR, Part 91; Section 504 of the Rehabilitation Act of 1973, as amended, and its implementing regulation, Title 45 CFR, Part 84.

All facilities licensed under the Child Care Licensing Act are also subject to Titles I through V of the Americans with Disabilities Act, as amended, and its implementing regulation, Title 29 C.F.R., Part 1630. Decisions related to the enrollment, placement, or dismissal of a child with a disability or chronic condition must be in compliance with the Americans with Disabilities Act. The facility must provide reasonable accommodations for the child with a disability who has special needs.

A lack of independent ambulation or the need for assistance in feeding, toileting, or dressing or in other areas of self-care cannot be used as sole criteria for enrollment or placement or denial of enrollment or denial of placement. Efforts must be made to accommodate the child's needs and to integrate the child with his/her peers who do not have disabilities.

**7.701.2 DEFINITIONS [Rev. eff. 1/1/16]**

"Family Child Care Home", defined at Section 26-6-102(4), C.R.S., means a type of family care home that provides less than 24-hour care for two (2) or more children on a regular basis in a place of residence. Children in care are from different family households and are not related to the head of household.

2. Foster Care Home

“Foster Care Home” means a home that is certified by a county department or a child placement agency, pursuant to Section 26-6-106.3, C.R.S., for child care in a place of residence of a family or person for the purpose of providing twenty-four (24) hour foster care for a child and/or youth under the age of twenty-one years. A foster care home may include foster care for a child and/or youth who is unrelated to the head of the home or foster care provided through a kinship foster care home, but does not include non-certified kinship care defined in Section 19-1-103(78.7), C.R.S. The term includes any foster care home receiving a child and/or youth for regular twenty-four (24) hour care and any home receiving a child and/or youth from any state-operated institution for child care or from any child placement agency. Foster care home also includes those homes licensed by the Department of Human Services pursuant to Section 26-6-104, C.R.S., that receive neither moneys from the counties, nor children and/or youth placed by the counties.

A specialized group facility may serve a maximum of one (1) child enrolled in Children's Habilitation Residential Program (CHRP) and eight (8) other foster children, or two (2) children enrolled in CHRP and five (5) other foster children, unless there has been prior written approval by the CHRP waiver administrator. If placement of a child in a Specialized Group Center will result in more than three (3) children approved for Children's Habilitation Residential Program (CHRP) funding, then the total number of children placed in that Specialized Group Center will not exceed a maximum of six (6) total children. Placements of more than three (3) children approved for CHRP funding may be made if the agency can demonstrate to the CHRP waiver administrator that the provider has sufficient knowledge, experience, and supports to safely meet the needs of all of the children in the home. Emergency placements will not exceed maximum established limits. **7.707.22      Types of Family Child Care Homes [Rev. eff. 6/1/12]**

All Family Child Care Home licenses, except infant/toddler, are issued with an age range for children from birth to eighteen (18) years of age. This allows for the care of older children with special needs. Each individual provider will determine the age range of children that he/she will enroll in the provider's child care home. The providers own birth, adopted, step or foster children twelve (12) years of age and older do not count in the provider's license capacity.

The capacity for a Family Child Care Home (generally referred to within these rules as "the home") is determined by the amount of indoor and outdoor space designated for child care, as well as the following factors.

- A.      A "Family Child Care Home" (FCCH) is a type of family care home that provides less than twenty-four (24) hour care at any time for two (2) or more children that are unrelated to each other or the provider, and are cared for in the provider's place of residence.
  - 1.      Licensed family child care homes enrolling children five (5) years of age or younger are required to participate in Colorado Shines, the state quality rating and improvement system.
- B.      In a regular (FCCH) home, care may be provided for six (6) children from birth to eighteen (18) years of age with no more than two (2) children under two (2) years of age.
  - 1.      Care also may be provided for no more than two (2) additional children of school age attending full-day school. School-age children include children six (6) years of age and older who are enrolled in the first grade or above. A child enrolled in a kindergarten program is not considered a school-age child until the child begins attending kindergarten a year before they enter first grade.
  - 2.      Residents of the home under twelve (12) years of age who are on the premises and all children on the premises for supervision are counted against the approved capacity, except where specifically indicated otherwise. Residents of the home include, but are not limited to, birth, adopted, step or foster children of the provider.
- C.      A three (3) under two (2) license is a type of license that allows a provider to care for six (6) children from birth to eighteen (18) years of age with no more than three (3) children under two (2) years of age, with no more than two (2) of the three (3) children under twelve (12) months; the capacity includes the provider's own children under twelve (12) years of age. This license type may be approved with the following conditions:
  - 1.      The licensee has held a permanent license to operate a family child care home for at least two (2) years in Colorado immediately prior to the issuance of the license that would authorize the care of three (3) children under two (2) years of age;
  - 2.      The licensee has completed the State Department approved Expanding Quality Infant/Toddler course of training;
  - 3.      In the past two years, the licensee has had no substantiated complaints with a severity level of one (1) to three (3), consistent or willful substantiated rule violations of ratio, supervision, safety, or injury to a child observed during any licensing visit, or adverse licensing action;
  - 4.      Care of additional children of school age is not authorized;

5. Licensees issued a three (3) children under two (2) years of age license are approved for both the three (3) under two (2) and the regular license capacities and may switch between the two (2) capacities without notifying the State Department as long as they are in compliance with all licensing rules.
- D. An infant/toddler license is a type of family care home that provides less than twenty-four (24) hour care only for children who are between birth and three (3) years old. This license type may be approved with the following conditions:
1. If there is one (1) provider, there may be a maximum of four (4) children, with no more than two (2) of the four (4) children under twelve (12) months of age, including the provider's own children. The provider's own children, under the age of twelve (12), count in the capacity of four (4).
  2. If there are two (2) equally qualified providers, as specified in Section 7.707.31, B, 3, caring for children at all times when children are present, there may be a maximum of eight (8) children between birth and three (3) years old, and no more than four (4) of those children can be between birth and one (1) year old, including both providers' own children.
  3. The provider has completed the State Department approved Expanding Quality Infant/Toddler (EQ I/T) course of training; and
  4. A provider that has also been licensed as a regular and three (3) under two (2) provider in the past, and is approved for an infant/toddler license, has the flexibility to provide care on any given day for the ages and capacities of a regular or three under two license without written approval of the State Department, as long as the provider is in compliance with all applicable rules at all times.
- E. A large child care home is a family child care home that provides care for seven (7) to twelve (12) children.
1. Child care may be provided to children from birth to eighteen (18) years of age. The provider needs an assistant when the ninth child arrives at the facility.
  2. Care may be provided to no more than two (2) children under two (2) years of age.
- F. The Experienced Child Care Provider
1. An Experienced Child Care Provider (ECCP) home is a licensed child care home where care is approved for no more than nine (9) children of different age combinations depending upon which option the home is operating.

**7.708 RULES REGULATING FAMILY FOSTER CARE HOMES [Rev. eff. 1/1/16]**

All foster care homes must comply with the “Rules Regulating Foster Care Homes” and the “General Rules for Child Care Facilities”.

**7.708.1 FOSTER CARE HOMES [Rev. eff. 1/1/16]**

- A. “Foster care home” (refer to Section 7.000.2 in 12 CCR 2509-1), as defined at Section 26-6-102, C.R.S., means a facility that is certified by the county department or a child placement agency for child care in a place of residence of a family or person for the purpose of providing twenty-four (24) hour family care for a child under the age of eighteen years who is not related to the head of such home, except in the case of relative care. The term includes any foster care home receiving a child for regular twenty-four (24) hour care and any home receiving a child from any state-operated institution for child care or from any child placement agency.

The number and age of foster children for which a certificate may be issued is determined by the following factors:

1. No foster child shall be placed in a foster home if that placement will result in more than four foster children in that home, or a total of eight children (foster and non-foster), or more than two children under two years of age, except in those instances in which the placement of a sibling group in a foster home would exceed the limits. If the placement of a sibling group results in exceeding the above limits, no other foster children can be placed in the home.
2. A foster care home may serve a maximum of one foster child enrolled in Children’s Habilitation Residential Program (CHRP) and 2 other foster children or 2 foster children enrolled in CHRP and no other foster children, unless there has been prior written approval by the CHRP waiver administrator. Placements of three (3) children approved for CHRP funding may be made if the agency can demonstrate to the CHRP waiver administrator that the provider has sufficient knowledge, experience, and supports to safely meet the needs of all of the children in the home. In any case, no more than three (3) children enrolled on the CHRP waiver and no (0) non-CHRP children will be placed in one foster home. Emergency placements will not exceed maximum established limits. Facilities that exceed established capacity at the time the rule takes effect will be grandfathered in; however, with attrition, capacity must comply with the rule.

**FOSTER HOME (COUNTY OR CPA) MAXIMUM CAPACITY**

CHRP	Non-CHRP	Total Children
1	2	3
2	0	2
3	0	3

3. Foster care providers who are serving foster children enrolled in the Children’s Habilitation Residential Program (CHRP) waiver shall be in compliance with rules contained within the Department of Health Care Policy and Financing’s Medical Assistance Manual at Section 8.508 (10 CCR 2505-10).
4. Foster care may be provided to children from birth to eighteen (18) years of age and to those persons to 21 years of age who are placed by court order prior to their eighteenth birthday.

5. When a foster care home only provides temporary emergency care for foster children, the home may be certified for up to six foster children with no more than two foster children, including the caretaker's own children, under two years of age. There can be no more than a total of six foster children in the home except in sibling placements. The number of additional foster children under six years of age to be cared for shall be specified on the certificate and in the home study. Such a foster care home shall be designated as a receiving home. The designation shall appear on the certificate.
  - a. No foster child shall remain in that foster care home at the receiving home rate longer than 90 consecutive days, in accordance with the requirements of Section 7.417.4.
  - b. The number of foster children to be cared for at the receiving home rate and any foster children to be cared for at the regular foster home rate shall be included on the certificate.
  - c. Each receiving home parent shall have two years experience as a foster parent, although the certifying agency may take into account other relevant education and experience.
  - d. Each receiving home parent shall complete 32 hours of on-going training every year as identified in his/her training development plan. This training shall include the following competencies.
    - 1) Issues regarding emergency and crisis placement of children with unknown histories; and,
    - 2) Dynamics of victimization issues, with emphasis on appropriate age and developmental levels; and,
    - 3) Cultural, spiritual, and religious awareness, consideration for, sensitivity to, and tolerance of each child individually.
  - e. Because receiving homes are likely to have quick turn-over of the children in care, supervision and monitoring of the receiving home shall be carried out according to the following:
    - 1) One face-to-face contact shall be made with the receiving home parent(s) at least every week when children are in placement in the home, with a minimum of two visits per month occurring in the receiving home.
    - 2) Documentation of such contact shall be in the provider file, as well as in each file of all foster children in the home.
    - 3) The purpose of the contact is to address any questions the receiving home parent has about the children in care, to observe child care when appropriate and to provide support to the receiving home parent.
  - f. A receiving home shall have a comprehensive annual evaluation, which includes a review of any critical incidents, any allegations of institutional abuse, and the skills, needs, and competencies of the receiving home parent(s).

6. A foster care home may not be operated without a license or a certificate as required by law and Section 7.701.4 of these rules, and the number of foster children cared for in such facility may not exceed the number authorized by such license or certificate.
- B. Foster care homes may be licensed host family homes.
1. A foster home may be a licensed host family home pursuant to the rules at Section 7.721.
  2. Pursuant to 26-5.7-105(6), C.R.S., a foster care home approved as a licensed host family home shall not accept a homeless youth for placement under this section if there are any foster children currently placed in the home. No foster children may be placed while a homeless youth resides at the foster home.
  3. A foster care home acting as a host family home for homeless youth shall receive additional training regarding homeless youth services and shall be designated as a host family home on the foster home certificate.
  4. Pursuant to Section 26-5.7-105(5), C.R.S., if the county or child placement agency referring the youth to the host family home or the host home parents determine that a referral for additional services needs to be made, they shall make a referral to the county of reference of the parents of the youth.
  5. Notification
- Pursuant to Sections 26-5.7-105(4) and (7), C.R.S:
- a. When a youth under fifteen years of age is admitted to a host family home, the county or child placement agency referring the youth to the host family home or the host family home's parents shall notify the county department of residence of the parents of the youth within seventy-two (72) hours of the youth's admission.
  - b. If a youth who is at least eleven (11) years of age but less than fifteen (15) years of age has been served up to twenty-one (21) consecutive days and returns again to the licensed host family home after leaving the home, the county or child placement agency referring the youth to the host family home or the host family home shall notify the county department of residence of the parents of the youth within seventy-two (72) hours of the youth's admission.

- C. Each CPA must have a double entry accounting system and all financial transactions must be posted to this system. Financial statements, prepared from information provided by this system, shall be presented in conformity with U.S. Generally Accepted Accounting Principles (GAAP). Books and records of the CPA shall be subject, at any time the CPA office is open, to inspection, audit or copying by appropriate Federal, State or county personnel, or such independent auditors or accountants as may be designated by these personnel.

  - b. Ordinary and Necessary

The expenditure is of a type generally recognized as ordinary and necessary for the operation of a CPA or the performance of a contract for CPA services.

  - d. Documented

A CPA has the responsibility to ensure that proper documentation procedures are followed for the funds that they control, and to ensure that only authorized expenditures are made. Documentation requirements shall include all of the following information:

    - 1) Descriptive verification that the expenditure was for a business purpose directly related to the foster care or adoption program.
    - 2) Date of event for which the funds were used.

e. Made in Accordance with GAAP

An expenditure must be recorded in accordance with Generally Accepted Accounting Principles (GAAP).

2. Generally Allowable Expenditures

The following list of expenditures shall be a general list of expenditures that would be permissible for CPAs to incur in order to further the goals and objectives of their agencies. This list includes, but is not limited to, the categories described below, and shall be used as a reference for guiding the expenditure of CPA funds.

When a specific expenditure is not listed, yet management deems it to be in the best interests of the CPA to make the expenditure of the funds, then the criteria above for an allowable expenditure shall be followed. The CPA shall document the purpose of the expenditure, as listed at 7.710.21, E, 1, d, so that a "reasonable person" test can be made in the event the expenditure is audited. Each CPA shall allocate expenditures in accordance with its internal policies.

- a. Salaries and wages, and related benefits, employment taxes, unemployment taxes, worker's compensation taxes, retirement benefits, and insurance benefits.

**G. Remedies**

Remedy for unallowable expenditures may include any or all of the following solutions:

- 4. Any other appropriate remedy based upon the facts and circumstances of the unallowable expenditure.

**H. Intentional Mis-Use of Funds**

Intentional mis-use of funds implies that the individual(s) making the expenditure decision had deliberate, willful, and intentional disregard for the fiduciary responsibility for how public funds are to be used for purposes of placing children in foster care or adoptive homes, or arranging for the placement of children in foster care or adoptive homes, considering their responsibilities to the CPA, its employees, clients, foster families, foster children, the public at large, the State Department's and the CPA'S responsibilities pursuant to the contract for services.

These rules do not preclude the State or county department(s) from pursuing other remedies available at law; for example:

1. Referral for prosecution; or,
2. Referral to the Internal Revenue Service for issues that violate Internal Revenue codes; or,
3. Repayment to the State and/or counties of identified unallowable expenditures; or,

The center's purpose is to provide child care and/or an outdoor recreational experience using a natural environment. The center operates for more than one week during the year. The term includes facilities commonly known as “day camps”, “summer camps”, “summer playground programs”, “before and after school programs”, and “extended day programs”. This includes centers operated with or without compensation for such care, and with or without stated educational purposes.
- B. A “building-based school-age child care program” is a child care program that provides care for five (5) or more children who are between five (5) and sixteen (16) years of age. The center is located in a building that is regularly used for the care of children.

Programs may operate daily between 6:00 a.m. and 10:00 p.m. Day camp programs may incidentally offer not more than two overnight stays each camp session. **7.714.1 DEFINITIONS [Rev. eff. 6/1/12]**

“Client Representative” means a person designated by the facility to process grievances.

“Chemical restraint” means giving an individual medication involuntarily for the purpose of restraining that individual; except that chemical restraint does not include the involuntary administration of medication pursuant to Section 27-65-111(5), C.R.S., or administration of medication for voluntary or life-saving medical procedures. A chemical restraint does not include a drug or medication that is a usual and customary part of a medical diagnostic or treatment procedure to treat the individual’s medical condition or symptoms or to promote the individual’s independent functioning.

“De-escalation” is the use of therapeutic interventions with a child during the escalation phase of a crisis. The interventions are designed to allow children to contain their own behavior so that acute physical behavior does not develop that would lead to the need to use a physical management.

“Emergency” means a serious, probable, imminent threat of bodily harm to self or others where there is the present ability to effect such bodily harm.

“Escalation” is an increase in intensity of a child's out-of-control behavior.

The “Family Service Plan” is a case services plan completed by a county caseworker jointly with the child, parents, and providers within sixty (60) calendar days of placement for each child receiving services from a county department of social/human services.

The “Individual Child's Plan” (“the Plan”) is based upon an assessment of the child immediately following placement at the facility. It is developed by the facility for each child and must be consistent with the Family Service Plan for the child.

“Mechanical Restraint” means a physical device used to involuntarily restrict the movement of an individual or the movement or normal function of a portion of his or her body. Mechanical restraints include, but are not limited to: the use of handcuffs, shackles, straight jackets, posey vests, ankle and wrist restraints, craig beds, vail beds, and chest restraints. Mechanical restraint does not include the use of protective devices used for the purpose of providing physical support or prevention of accidental injury.

“Nationally Recognized Criteria” means a set of standards, nationally acknowledged as acceptable and appropriate for use with at-risk populations, that are incorporated into the model of physical management utilized by the facility. The Nationally Recognized Criteria shall include, at a minimum the following:

- A. Annual staff training and/or certification, to include training upon hire, and ongoing (at least every six months) refresher training or practice exercises for each staff member trained or certified in restraint, to review and refresh skills involved in positive behavior intervention, prevention, de-escalation, and physical management, in accordance with the model.

- B. A restraint prevention and de-escalation component, to include identifying antecedents that may cause an individual to escalate, and/or development of behavior management plans that are in alignment with individual treatment plans if necessary.
- C. A physical management process that prohibits or provides alternatives to a prone position, and includes identifying primary control techniques that emphasize utilizing only the minimum amount of force necessary to gain control and keep the individual safe.
- D. A debriefing process which includes a review of physical management, to determine the appropriateness and effectiveness of preventive/de-escalation techniques used, the appropriateness of physical management, and how, or if, physical managements are preventable.

“Physical Management” means the physical action of placing one's hands on an individual. Physical management may be used to gain physical control in order to protect the individual or others from harm after all attempts to verbally direct or deescalate the individual have failed. Physical management may be utilized when an emergency situation exists. The physical management continuum may include:

“Religion” where used in these regulations includes traditional religious beliefs and spiritual beliefs such as those of Native Americans.

“Restraint” means any method or device used to involuntarily limit freedom of movement, including, but not limited to, bodily physical force, mechanical devices, or chemicals. Restraint includes a chemical restraint, a mechanical restraint, a physical restraint, and seclusion. Restraint does not include:

- A. The use of any form of restraint in a licensed or certified hospital when such use is in the context of providing medical or dental services that are provided with the consent of the individual or the individual's guardian;

A "Residential Facility" ("the facility") provides 24-hour child care and includes residential child care facilities and specialized group facilities.

A "staff member" of the facility as used in these rules includes a specialized group home parent or a specialized group center or residential child care facility.

"Seclusion" means the placement of an individual, six (6) years old or older, alone in a room from which egress is involuntarily prevented.

At the end of the probationary period, the panel will reconvene to determine whether the provider satisfactorily met the terms of its probation.
- J. The cost of meeting the terms of probation may be partially or wholly borne by the provider as determined by the dispute resolution panel.
- K. The dispute resolution panel will have additional sixty (60) calendar days from receipt of the provider's request to issue a final decision to the provider in writing.
