It is within the sole discretion of the Board to decide in particular cases whether good cause has been shown in order to grant exemptions. A licensee shall not be eligible for an exemption under this section for two (2) consecutive renewal periods except in the case of an exemption for military service. In the event a licensee cannot complete continuing competency requirements following an exemption, the license will remain expired until the licensee meets all continuing competency requirements unless the licensee applies to place the license on inactive status. Requests for exemptions must be in writing and provide the following information:
- A. Evidence that during the renewal period prior to the expiration of the license, the licensee was working at a location outside of the country, reasonably preventing completion of the continuing competency requirements;

- B. Evidence that the licensee was called to Federally funded active duty for more than one hundred twenty days for the purpose of serving in a war, emergency, or contingency during the renewal cycle for which the exemption is requested or within six months following the completion of the service in a war, emergency, or contingency;
- C. Evidence and written explanation of any other cause citing in as much detail as possible the inability of the licensee to comply with the continuing competency requirements for the renewal period and why the license should remain in active status.

6.4.14 **Audits.** The Board may audit documentation of PDUs for verification of compliance with these requirements at any time. The Board may, at its discretion, disallow any continuing competency activity.

6.4.15 Compliance with Continuing Competency Requirements

6.4.15.1 Compliance with the Continuing Competency requirements, including Individual Assessment, development of a Personal Learning Plan, and demonstration of continuing competency, along with other requirements, must be completed before the last day of the Continuing Competency Assessment Cycle.

6.4.15.2 Licensees shall cooperate with the Board to determine compliance with the continuing competency requirements.

6.4.15.3 Licensees shall provide all documentation requested for audit within thirty (30) days of the request.

6.4.16 **Multiple Licenses.** Licensees holding multiple licenses issued by the Board shall complete the continuing competency requirements for the most advanced license they hold including the Individual Assessment, Learning Plan and any PDUs required based on their performance on the Individual Assessment. Completion of the continuing competency requirements for the most advanced license shall satisfy the requirements for all lesser licenses.

6.5 Inactive License Status and Reactivation

6.5.1 **Inactive License.** Pursuant to § 12-70-101, C.R.S., any licensee may apply to the Board to transfer his or her license to inactive status. Such application shall be in the form and manner designated by the Board. The holder of an inactive license shall not be required to comply with the continuing competency requirements for renewal so long the license remains inactive.

6.5.1.1 Each holder of an inactive license shall renew once every three (3) years with the Board in the same manner as active license holders and pay a fee pursuant to § 12-23-112, C.R.S.

6.5.1.2 During such time as a license remains in an inactive status, the licensee shall not perform any acts restricted to active licensed electricians. Such practice may be grounds for revocation.

6.5.2 **Reactivation of Inactive License.** An inactive license may be reactivated by submitting the proper application, paying the current reactivation fee, and meeting the appropriate requirements below.

6.5.2.1 **Inactive for Less Than Three (3) Years.** To reactivate a license that has been inactive for less than three (3) years, the licensee must comply with the continuing competency requirements contained in Board Rule 6.4.

6.5.2.1.1 If the licensee's performance on the Continuing Competency Assessment necessitates a Learning Plan pursuant to Board Rule 6.4.6, the holder shall satisfactorily complete the PDUs prior to the expiration of the current Continuing Competency Assessment Cycle.

6.5.2.1.2 Demonstration the licensee has maintained their continuing competency by completion of the PDUs assigned during the assessment cycle immediately preceding application, if any were assigned.

6.5.2.2 **Inactive for More Than Three (3) Years.** Pursuant to § 12-23-106(4)(c), C.R.S., a licensee whose license has been inactive for more than three (3) years must demonstrate competency to practice by any of the following:

- A. Satisfactorily pass the state electrical examination;
- B. Provide verification of an active license with a state where a reciprocal agreement for an equivalent license exists;
- C. Provide verification of active licensure in a non-reciprocal state as follows:
 - 1. Verify an active residential wireman's license, journeyman electrician's license, or master electrician's license in non-reciprocal state, respective to the license you are reinstating; and,

 - a. If the licensee's performance on the Continuing Competency Assessment necessitates a Learning Plan pursuant to Board Rule 6.4.6, the holder shall satisfactorily complete the PDUs prior to the expiration of the current Continuing Competency Assessment Cycle.
- D. By other means approved by the Board.

6.5.3 **Practicing with an Inactive License.** Practicing electrical work with a license in inactive status shall constitute practice without an active license and, therefore, may be grounds for injunctive or disciplinary action, up to and including revocation.

6.6 **Loss of Responsible Master.** An electrical contractor who loses the services of the responsible master electrician, for any reason, will be allowed twenty (20) days in which to hire another master electrician. If the electrical contractor has not hired another master electrician during that period, the Board shall place the electrical contractor registration into inactive status until such time that the contractor submits evidence that a master electrician has been hired, and the appropriate fee has been paid.

6.7 Any licensed or registered individual working as an electrician shall be required to carry on their person the appropriate license, temporary work permit, or registration.

6.8 Name and Address Change

6.8.1 A licensee or registrant shall inform the Board in a clear, explicit, and unambiguous written statement of any name, address, telephone, or email change within thirty (30) days of the change. The Board will not change the licensee or registrant information without explicit written notification from the licensee or registrant. Notification by any manner approved by the Board is acceptable.

6.8.1.1 The Division of Professions and Occupations maintains one (1) contact address for each licensee or registrant, regardless of the number of licenses or registrations the licensee or registrant may hold.

6.8.1.2 Address change requests for some, but not all, communications or for confidential communications only are not accepted.

6.8.2 The Board requires one (1) of the following forms of documentation to change the name or social security number of a licensee or registrant:

6.8.2.1 Marriage license;

6.8.2.2 Divorce decree;

7.1.2 A permit shall be required for all systems supplying power that may normally be supplied by an electrical utility, such as, but not limited to, solar, wind, hydroelectric and other generated sources. (The Board or its administrative officer may revoke a permit that was issued in error or on the basis of incorrect information supplied by the applicant.)

7.1.3. Any permit issued as a result of fraudulent or incorrect information supplied on the application shall be cancelled.

7.1.4 An electrical contractor shall not purchase a permit for use by another company or individual.

Upon notice from the electrical inspector that work on any building or structure is being installed contrary to the provisions of this code or in an unsafe and dangerous manner, such work shall be immediately stopped. The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent or to the person doing the work, or posted at the job site and shall state the conditions under which work will be permitted to resume.

7.1.7.2 Unlawful continuance. Any person who shall continue any work in or about the structure after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be subject to penalties as prescribed by this article.

7.1.7.3 Additions, alterations or repairs may be made to any electrical system and equipment without requiring the existing electrical system and equipment to comply with all the requirements of the Board standards, provided that the addition, alteration or repair conforms to that required for a new electrical system and equipment, and provided further that no hazard to life, health or safety will be created by such additions, alterations or repairs.

7.1.7.4 Existing electrical wiring systems may continue to be energized provided that they were lawfully installed and that they present no hazard to life, health or property.

7.1.7.5 Services to moved buildings shall comply with the standards of the Board for new installations. The existing electrical wiring may be re-energized provided that a registered electrical contractor gives written verification to the Board that the existing electrical installation presents no hazard to life, health or property. Permits and inspections shall be required.

7.2.2 An individual requesting an electrical inspection shall provide reasonable access to the inspection area during the normal working hours of the Board office.

- 7.2.3 Article 110.2, "Approval", in the National Electrical Code, provides that conductors and equipment required or permitted by this code shall be acceptable only when "approved". The Board will accept conductors and equipment that have been tested and approved by a recognized testing agency such as Underwriters Laboratories, Inc., or field-evaluated by a certified Field Evaluation Body (FEB) in accordance with NFPA 790 and 791. FEB certification is to be provided by International Accreditation Service (IAS) or equal. The Board reserves the right of its inspectors to reject any conductors or equipment that in their opinion may be unsafe or injurious to life or property.
- 7.2.4 An incorporated town or city, county, city and county, or qualified state institution of higher education shall ensure that its inspections are performed by inspectors who possess the qualifications required under § 12-23-115, C.R.S. Failure to do so may be deemed a failure to meet the minimum requirements of this article under § 12-23-104(2)(k), C.R.S.
- 7.2.5 **Reinspection Fees.** A reinspection fee may be assessed at the discretion of the inspector for reasons including, but not limited to, the following:
