

Colorado Register

44 CR 17

Volume 44 , No. 17

September 10, 2021

Introduction

The *Colorado Register* is published pursuant to C.R.S. 24-4-103(11) and is the sole official publication for state agency notices of rule-making, proposed rules, attorney general's opinions relating to such rules, and adopted rules. The register may also include other public notices including annual departmental regulatory agendas submitted by principal departments to the secretary of state.

"Rule" means the whole or any part of every agency statement of general applicability and future effect implementing, interpreting, or declaring law or policy or setting forth the procedure or practice requirements of any agency. "Rule" includes "regulation". C.R.S. 24-4-102(15). Adopted rules are effective twenty days after the publication date of this issue unless otherwise specified.

The *Colorado Register* is published by the office of the Colorado Secretary of State twice monthly on the tenth and the twenty-fifth. Notices of rule-making and adopted rules that are filed from the first through the fifteenth are published on the twenty-fifth of the same month, and those that are filed from the sixteenth through the last day of the month are published on the tenth of the following month. All filings are submitted through the secretary of state's electronic filing system.

For questions regarding the content and application of a particular rule, please contact the state agency responsible for promulgating the rule. For questions about this publication, please contact the Administrative Rules Program at rules@sos.state.co.us.

Subjects and issues involved

Effective February 7, 2022, each applicant must complete ELDT prior to taking any applicable skills or knowledge tests including those applying to:

● Obtain a Class A or Class B CDL for the first time;

● Upgrade an existing Class B CDL to a Class A CDL; or

● Obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.

The ELDT regulations are not retroactive; the entry-level driver training requirements do not apply to individuals holding a valid CDL or an S, P, or H endorsement issued prior to February 7, 2022. If an applicant who obtains a CLP prior to February 7, 2022, obtains a CDL before the CLP or renewed CLP expires, the applicant is not subject to the ELDT requirements. Any individual who meets one of the exceptions for taking a skills test in 49 CFR Part 383 is also exempt from the ELDT requirements.

RULE 7 - RULES AND REGULATIONS FOR THE COMMERCIAL DRIVER'S LICENSE (CDL) PROGRAM

A. BASIS, PURPOSE, AND STATUTORY AUTHORITY

- (1) The Department is authorized to adopt rules and regulations as necessary for the Commercial Driver's License Program in accordance with sections 24-4-103, 42-2-111(1)(b), 42-2-114.5, 42-2-403, 42-2-406 (3 through 7), and 42-2-407(8), C.R.S.
- (2) The purpose of these rules is to promote the safety and welfare of the citizens of Colorado by establishing standards and requirements for licensing commercial driver's license testing units and testers, to establish fees for such licensing and maximum fees that may be charged by such testing units, to establish certain procedures and standards for issuing and possessing commercial driver's licenses, and to ensure compliance with state and federal requirements.

B. INCORPORATION BY REFERENCE OF FEDERAL RULES

- (1) Adoption: The Department incorporates by reference the Federal Motor Carrier Safety Regulations ("FMCSR"), 49 CFR parts 171, 172, and 300-399, Qualifications and Disqualification of Drivers, 26 USC Section 501(c) (2015), and the Colorado Department of Public Safety, Colorado State Patrol, Rules and Regulations Concerning Minimum Standards for the Operation of Commercial Vehicles at 8 CCR 1507.1.
- (2) "49 CFR", when referenced in this rule, means the Federal Regulations published in the Code of Federal Regulations ("CFR"), Title 49, parts 171, 172, and 300-399 (October 1, 2016) by the National Archives and Records Administration's Office of the Federal Register and Government Publishing Office, and available at the original issuing agencies the Federal Motor Carrier Safety Administration and National Highway and Traffic Safety Administration, both located at 1200 New Jersey Avenue SE, Washington, D.C., 20590. The Federal rules and regulations referenced or incorporated in this rule, and 8 CCR 1507-1, are on file and available for inspection by contacting the Driver License Section of the Department of Revenue in person at, 1881 Pierce Street, Room 128, Lakewood, Colorado, 80214, or by telephone at 303-205-5600, and copies of the materials may be examined at any state publication depository library.

C. DEFINITIONS

- (1) AAMVA: American Association of Motor Vehicle Administrators is a voluntary, nonprofit, tax exempt, educational unit that represents state and provincial officials in the United States and Canada who administer and enforce motor vehicle laws CODE OF COLORADO REGULATIONS 1 CCR 204-30 Division of Motor Vehicles
- (2) CDL: "Commercial Driver's License" as defined in section 42-2-402(1), C.R.S.
- (3) CDL Compliance Unit: The administrative unit contained within the Department charged with the oversight and regulation of CDL third party testing units and testers on AAMVA's CDL skills testing.

- (4) CDL Passenger Vehicle: A passenger vehicle designed to transport 16 or more passengers, including the driver.
- (5) CDL Skills Test: "Driving tests" as referenced in section 42-2-402, C.R.S. and consists of the Vehicle Inspection, Basic Control Skills, and the Road Test.
- (6) CDL Vehicle Class: A group or type of vehicle as defined in Part B of this Rule.
- (7) CLP – Commercial Learners Permit: The permit issued by the Department entitling the driver, while having such permit in his/her immediate possession, to drive a commercial motor vehicle of certain classes and/or endorsement(s), and/or restriction(s) upon the highways with a driver that possesses a CDL with the same class and/or endorsements or higher, as the CLP holder.
- (8) CMV: "Commercial Motor Vehicle" as defined in section 42-2-402(4), C.R.S.
- (9) C.R.S.: Colorado Revised Statutes.
- (10) CSTIMS - Commercial Skills Test Information Management System: Web-based system used by states to manage the CDL Skills Test portion of the CDL licensing process.
- (11) Disqualifications: The suspension, revocation, cancellation, or any other withdrawal by the Department of a person's privilege to drive a CMV or a determination by the FMCSA under the rules of practice for motor carrier safety contained in 49 CFR, that a person is no longer qualified to operate a CMV under 49 CFR; or the loss of qualification that automatically follows conviction of an offense listed in 49 CFR.(12)
- (12) Designed to Transport: The manufacturer's original rated capacity for the vehicle.
- (13) Endorsements: The letter indicators below added to a CDL and/or CLP indicate successful completion of the appropriate knowledge, and if applicable, the CDL Skills Test, and allow the operation of a special configuration of vehicle(s):
 - a) T = Double/triple trailers (not allowed on a CLP per 49 CFR)
 - b) P = CDL Passenger vehicle
 - c) N = Tank vehicles
 - d) H = Hazardous materials (Not allowed on a CLP per 49 CFR)
 - e) S = School buses
 - f) X = Combination of tank vehicle and hazardous materials (Not allowed on a CLP per 49 CFR)
 - g) M = Motorcycle (not allowed on a CLP per 49 CFR)
 - h) 3 = Three wheel motorcycle (not allowed on a CLP per 49 CFR)

- (14) Exemptions: Regulatory relief given to a person or class of persons normally subject to regulations.
- (15) FMCSA: Federal Motor Carrier Safety Administration is an agency within the USDOT.
- (16) FMCSR: Federal Motor Carrier Safety Regulations (49 CFR).
- (17) GCWR: Gross Combination Weight Rating is the value specified by the manufacturer as the maximum loaded weight of the combination vehicle.
- (18) Government agency: A state, county, city and county, municipality, school district, special improvement district, and every other kind of district, agency, instrumentality, or political subdivision thereof organized pursuant to law and any separate entity created by intergovernmental contract cooperation only between or among the state, county, city and county, municipality, school district, special improvement district, and every other kind of district, agency, instrumentality, or political subdivision thereof.
- (19) Intrastate Driver: A driver with a CDL restricted to operating a CMV within the boundaries of Colorado, and not authorized to transport items of interstate commerce or hazardous materials.
- (20) Interstate Commerce: Trade, traffic, or transportation in the United States between a place in a state and a place outside of such state (including a place outside of the United States), or between two places in a state through another state or a place outside of the United States, or between two places in a state as part of trade, traffic, or transportation originating or terminating outside the state or the United States.
- (21) Interstate Driver: A CDL holder authorized to cross state lines and transport interstate commerce while operating a CMV.
- (22) Intrastate Commerce: Trade, traffic, or transportation in any state that is not described in the term "interstate commerce."
- (23) Knowledge Test: A written test that meets the federal standards contained in 49 CFR.
- (24) Non-Profit: An organization filing with the United States Code 26 USC Section 501(c).
- (25) Paved Area: A paved area is a surface made up of materials and adhesive compounds of a sufficient depth and strength that the area provides a durable, solid, smooth surface upon which an applicant may demonstrate basic vehicle control skills.
- (26) Public Transportation Entity: A mass transit district or mass transit authority authorized under the laws of this state to provide transportation services to the general public.
- (27) Restrictions: Prohibits the operation of certain types of vehicles or restricts operating a CMV to within designated boundaries:
 - a) L = No Air Brake equipped CMV

- b) K = Intrastate only
- c) E = No Manual Transmission
- d) M = No Class A Passenger Vehicle
- e) N = No Class A and B Passenger Vehicle
- f) O = No Tractor-Trailer
- g) P = No Passenger
- h) X = No Liquid in Tank
- i) V = Medical Variance (49 CFR)
- j) Z = Restricted from operating a CMV with full air brakes

(28) Self Certification Choice:

- Non-excepted interstate. A person's certification that he or she operates or expects to operate in interstate commerce, is both subject to and meets the qualification requirements under 49 CFR, and is required to be medically examined and certified pursuant to 49 CFR.
- Excepted interstate. A person's certification must certify that he or she operates or expects to operate in interstate commerce, but engages exclusively in transportation or operations excepted under 49 CFR from all or parts of the qualification requirements of 49 CFR, and is therefore not required to be medically examined and certified pursuant to 49 CFR.
- Non-excepted intrastate. A person's certification that he or she operates only in intrastate commerce and therefore is subject to Colorado driver qualification requirements.
- Excepted intrastate. A person's certification must certify that he or she operates in intrastate commerce, but engages exclusively in transportation or operations excepted from all or parts of the Colorado driver qualification.

(29) USDOT: United States Department of Transportation.

(30) ELDT: Entry Level Driver Training **FMCSA's Entry Level Driver Training (ELDT) regulations set the baseline for training requirements for entry-level drivers. This includes those applying to obtain a Class A or Class B CDL for the first time, upgrade an existing Class B CDL to a Class A CDL or obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.**

(31) TPR: Training Provider Registry - The Training Provider Registry supports FMCSA's goal of ensuring that only qualified drivers are behind the wheel of commercial motor vehicles (CMVs). The Registry will connect entry-level drivers with training providers who can equip them with the knowledge to safely operate CMVs for which a commercial learner's permit (CLP) or commercial driver's license (CDL) is required.

(32) Shadow Skills Test: Administered skills tests required of the new examiner candidate

D. DRIVER LICENSING REQUIREMENTS

- (1) Each applicant applying for a CDL or CLP must be a resident of Colorado, at least 18 years of age, and comply with the testing and licensing requirements of the Department.
 - a) The CDL and CLP will indicate the class of license, any endorsements, and any restrictions for that individual. The CDL is valid for the operation of a non-CMV including a motorcycle with the appropriate motorcycle endorsement on the license.
 - b) A Colorado CDL may be issued upon surrender of a valid CDL from another state without additional testing except that an applicant must test for a hazardous material endorsement.
 - c) An applicant with an out-of-state CLP cannot transfer that CLP to Colorado but must apply for a Colorado CLP and take all applicable CDL knowledge tests (49 CFR).
- (2) Each applicant applying is required to make one of the following applicable self-certifications for the type of commercial driving the individual intends to do (49 CFR):
 - **Non-excepted interstate.**
 - **Excepted interstate.**
 - **Non-excepted intrastate.**
 - **Excepted intrastate.**
- (3) Each applicant must meet the medical and physical qualifications under 49 CFR. Each applicant must submit their medical examiner's certificate and, if applicable, any federal variance or state medical waiver or Skills Performance Evaluation to a Driver License Office (49 CFR).
- (4) Each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division of the Department of Higher Education must affirm on an affidavit provided by the Department, to the testing unit that the initial applicant successfully passed training on the recognition, prevention, and reporting of human trafficking prior to taking the CDL skills test.

- (5) Effective February 7, 2022, each applicant must complete ELDT prior to taking any applicable skills or knowledge tests including those applying to:

- Obtain a Class A or Class B CDL for the first time;
- Upgrade an existing Class B CDL to a Class A CDL; or
- Obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.

The ELDT regulations are not retroactive; the entry-level driver training requirements do not apply to individuals holding a valid CDL or an S, P, or H endorsement issued prior to February 7, 2022. If an applicant who obtains a CLP prior to February 7, 2022, obtains a CDL before the CLP or renewed CLP expires, the applicant is not subject to the ELDT requirements. Any individual who meets one of the exceptions for taking a skills test in 49 CFR Part 383 is also exempt from the ELDT requirements.

E. ENDORSEMENTS

- (1) T-Double/Triple Trailers: Required to operate a CMV used for drawing two or more vehicles or trailers with a GCWR that is 26,001 lbs. or more and combined GVWR of the vehicles being towed is ~~in excess of more than~~ 10,000 lbs.
- (2) P-Passenger: Required to operate a vehicle designed by the manufacturer to transport 16 or more passengers, including the driver.
- (3) N-Tank Vehicles: Required to operate a vehicle that hauls liquid or liquid gas in a permanently mounted cargo tank rated at 119 gallons or more or a portable tank rated at 1,000 gallons or more.
- (4) H-Hazardous Materials: Required to transport materials that require the motor vehicle to display a placard pursuant to the hazardous materials regulations.
- (5) S-School Buses: Required to operate a school bus as defined in section 42-1-102(88), C.R.S.
- (6) X-Combination Tank/Hazmat: Required to operate vehicles that meet the definition of (3) and (4) above.

F. RESTRICTIONS

- (1) Intrastate: The letter “K” is added to the CDL of a driver between the ages of 18 through 20, to an individual who has been issued a valid medical waiver from the Colorado State Patrol (8 CCR 1507-1)* or who self- certifies to excepted or not excepted intrastate driving (49 CFR). Under this CDL restriction, the driver must not:
- a) Operate a CMV outside Colorado state boundaries; or
 - b) Transport interstate commerce as defined in 49 CFR.

*The waiver from Colorado State Patrol is valid only while the driver is transporting commodities OTHER THAN bulk hazardous materials, as defined in 49 CFR or commodities with a hazard class identified in 49 CFR, or commodities subject to the "Poison by Inhalation Hazard" shipping description in 49 CFR.

- (2) Air brake: The letter "L" is added to the CDL/CLP of an individual restricted from operating vehicles equipped with air brakes.
 - a) An individual may apply for removal of the "L" restriction after having successfully completed the air brake knowledge test and the CDL Skills Test in a vehicle equipped with air brakes that is representative of the CDL vehicle class.
 - b) When taking the CDL Skills Test in a vehicle equipped with air brakes, the applicant must have in his/her immediate possession a CLP without the "L" restriction.
- (3) Transmission: The letter "E" is added to the CDL of an individual restricted from operating vehicles equipped with a standard transmission.
 - a) An individual may apply for removal of the "E" restriction after having successfully completed the CDL Skills Test in a vehicle equipped with a standard transmission that is representative of the CDL vehicle class.
 - b) When taking the CDL Skills Test in a vehicle equipped with a standard transmission, the applicant must have in his/her immediate possession a CLP without the "E" restriction.
- (4) Class **A B** Bus: The letter "M" is added to the CDL of an individual restricted from operating a Class A Passenger vehicle (49 CFR).
 - a) An individual may apply for removal of the "M" restriction after having successfully completed the CDL Skills Test in a Class A Passenger vehicle.
 - b) Before taking the CDL Skills Test in a Class A Passenger vehicle, the applicant must have in his/her immediate possession a CLP without the "M" restriction.
- (5) Class **B C** Bus: The letter "N" is added to the CDL of an individual restricted from operating a Class B Passenger vehicle (49 CFR).
 - a) An individual may apply for removal of the "N" restriction after having successfully completed the CDL Skills Test in a Class B Passenger vehicle.
 - b) Before taking the CDL Skills Test in a Class B Passenger vehicle, the applicant must have in his/her immediate possession a CLP without the "N" restriction.
- (6) No Tractor-Trailer: The letter "O" is added to the CDL of an individual restricted from operating a vehicle equipped with a 5th wheel type coupling system (49 CFR).

- a) An individual may apply for removal of the "O" restriction after having completed the CDL Skills Test in a tractor/semi-trailer combination vehicle equipped with a 5th wheel type coupling system.
 - b) When taking the CDL Skills Test in a tractor/semi-trailer combination vehicle equipped with a 5th wheel type coupling system, the applicant must have in his/her immediate possession a CLP without the "O" restriction.
- (7) No Passengers: The letter "P" is added to the CLP of an individual restricted from operating a Passenger vehicle with Passengers.
- a) The "P" restriction is removed by successfully completing the CDL Skills Test in a Passenger vehicle.
- (8) No Cargo in a Tank Vehicle: The letter "X" is added to the CLP of an individual restricted from operating a Tank vehicle containing liquid or gas.
- a) An individual may apply to have the "X" restriction removed after having successfully completed the CDL Skills Test.
- (9) Medical, Variance/Skills Performance Evaluation: The letter "V" will be added to any CLP or CDL for individuals who have been issued a federal medical variance (49 CFR).
- (10) Air brake: The letter "Z" is added to the CDL/CLP of an individual restricted from operating vehicles equipped with full air brakes.
- a) The "Z" restriction is removed by successfully completing the air brake knowledge test and the CDL Skills Test in a vehicle equipped with air brakes that is representative of the CDL vehicle class.
 - b) When taking the CDL Skills Test in a vehicle equipped with air brakes, the applicant must have in his/her immediate possession a CLP without the "Z" restriction.

G. EXEMPTIONS

- (1) FMCSR 49 CFR Applicability: Authorizes the state to grant certain groups exceptions from the CDL requirements.
- a) FMCSR – 49 CFR: Exception for individuals who operate CMVs for military purposes.
 - b) FMCSR – 49 CFR: Exception for operators of farm vehicles, as defined at section 42-2-402(4)(b)(III), C.R.S. and firefighters and other persons who operate CMVs that are necessary to the preservation of life or property, or the execution of emergency governmental functions, or that are equipped with audible and visual signals and are not subject to normal traffic regulation.

- c) FMCSR – 49 CFR: Exception for drivers employed by an eligible unit of local government, operating a commercial motor vehicle within the boundaries of that unit for the purpose of removing snow or ice from a roadway by plowing, sanding, or salting, if the properly licensed employee who ordinarily operates a commercial motor vehicle for these purposes is unable to operate the vehicle or if the employing governmental entity determines that a snow or ice emergency exists that requires additional assistance.
 - d) FMCSR – 49 CFR: Restricted CDL for certain drivers in farm-related service industries.
- (2) FMCSR 49 CFR specifies the exceptions to the physical qualifications for individuals engaged in custom harvesting operations.

H. ENTITY ELIGIBLE TO APPLY FOR A CDL TESTING UNIT LICENSE

- (1) The Department may authorize a testing unit to administer the CDL Skills Test on behalf of the Department if such training and testing is equal to the training and testing of the Department.
- (2) A CDL Testing Unit must enter into a written contract with the Department and agree to:
- a) Maintain an established place of business in Colorado with a vehicle fleet of no less than three CMVs owned, leased or registered to the testing unit, the business owner, or an employee of the business;
 - b) Maintain an adult education occupational business license with the Division of Private Occupational Schools, a division of the Colorado Department of Higher Education **and be listed in the TPR**; or
 - c) Be a government agency, public school district, private or parochial school, or other type of pre- primary, primary, or secondary school transporting students from home to school or from school to home.

I. CDL TESTING UNIT REQUIREMENTS

- (1) An entity must apply for and receive a CDL testing unit license from the Department in order to administer CDL Skills Tests. The CDL testing unit and each driving tester license expires on June 30th of each year. The licenses for both the testing unit and driving tester(s) must be displayed in the place of business.
- a) Testing unit and driving tester license fees are waived for non-commercial testing units and driving testers that only provide public transportation, and that do not test outside of their unit.
 - b) Public transportation entities that test outside of their unit or that do not provide public transportation only, must submit the appropriate fees.

- c) If a license is not renewed on or before June 30th, the initial fees will apply. Testing unit and driving tester license(s) may be suspended or inactivated until appropriate fees and documentation are submitted.
 - d) Licenses can be renewed up to 60 days prior to June 30th of each year.
- (2) The testing unit is not permitted to guarantee issuance of a Commercial Driver's License or to suggest that training will guarantee issuance of a Commercial Driver's License.
 - (3) Testing units must only test if they have a current testing unit license issued by the Department.
 - (4) Testing units must ensure that each driving tester has a valid tester license issued by the Department when he or she administers a CDL Skills Test.
 - (5) The testing unit must notify the Department in writing within 3 business days of the termination or departure from the testing unit of any driving tester.
 - (6) A testing unit's place of business must be a separate establishment and may not be part of a home. The unit's physical address must not be a post office box.
 - (7) The testing unit must have written permission from the landowner to administer the CDL vehicle basic control skills exercises on areas not owned by the testing unit. This written permission must be submitted to the Department for approval prior to testing **and renewed annually.**
 - (8) The testing unit must maintain at least one employee who is licensed as a CDL driving tester.
 - (9) The testing unit must ensure that the unit's driving tester(s) follow the Department's standards for administering the CDL Skills Test.
 - (10) The testing unit must ensure that the unit's driving tester(s) complete all CDL Third Party Testing forms correctly.
 - (11) The testing unit must ensure that the unit's driving tester(s) administer the CDL Skills Test to applicants in a vehicle equal to or lower than the class and/or endorsement, and/or restriction on applicant's CDL instruction permit or CDL.
 - (12) Once a new driving tester candidate has passed the required **5 8** day new CDL third party tester's training course , the testing unit must ensure that within thirty (30) days the new tester candidate:
 - a) Applies for his/her Third Party Testers license;
 - b) Administers two (2) **drive shadow skills** tests while accompanied by a licensed driving tester who shall monitor the test and compare pass-fail results with those of the new driving tester candidate; and
 - c) Completes an Application for the fingerprint/background check.

- (13) The testing unit is responsible for ensuring that driving testers attend all mandated training provided by the CDL Compliance Unit. Failure of driving testers to attend scheduled training may result in the suspension of testing privileges for the testing unit and the tester.
- (14) The testing unit must schedule all tests utilizing CSTIMS. The testing unit or driving tester must notify the CDL Compliance Unit of all canceled tests via CSTIMS as soon as the testing unit or driving tester is aware of the cancellation. The testing unit or driving tester must notify the Department of all tests scheduled or schedule changes via CSTIMS at least three (3) days in advance of the test. Tests not administered due to weather conditions or a vehicle failure may be rescheduled with approval from a CDL Compliance Unit.
 - a) The testing unit is not permitted to schedule an applicant more than once within any three (3) day period.
 - b) Testing units must identify the applicant in Scheduled Comments in CSTIMS as Public, Employee, or Student.
 - c) The test must begin within 15 minutes before and no later than 15 minutes after its scheduled time. The test begins when the driving tester reads the Vehicle Inspection Overview to the applicant.
- (15) The testing unit must ensure that:
 - a) The driving tester enters into CSTIMS all test results immediately after the completion of the test;
 - b) The test results entered into CSTIMS match the Class, Endorsements, and Restrictions of the vehicle in which the applicant has successfully completed the CDL Skills Test; and
 - c) The driving tester uploads the correct score forms into CSTIMS.
 - d) The driving tester obtains a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, and that the driving tester uploads a copy of the completed affidavit into CSTIMS.
- (16) The testing unit must administer CDL Skills Tests only on Department approved testing areas and routes.
- (17) The testing unit must ensure all three portions of the CDL Skills Test are conducted during daylight.

- (18) The testing unit must ensure the vehicle being used for testing does not have any labels or markings that indicate which components are to be inspected by an applicant during the Vehicle Inspection portion of the CDL Skills Test. Manufacturer labels and/or markings are permitted.
- (19) The testing unit must enter into an agreement with the Department containing, at a minimum, provisions that:
- a) allow the FMCSA, the Department, and their representatives to conduct random inspections and audits without prior notice;
 - b) allow the Department to conduct on-site inspections at least annually and as needed;
 - c) require all driving testers to meet the same training and qualifications as state examiners, to the extent necessary to conduct CDL Skills Tests in compliance with these rules and regulations;
 - d) at least annually, allow the Department at its discretion to take the tests administered by the testing unit as if the Department employee was an applicant, or test an applicant who was tested by the testing unit to compare pass-fail results; and
 - e) reserve to the Department the right to take prompt and appropriate action against any testing unit or driving tester when they such driving tester fails to comply with Department or federal standards or any other provisions in the contract or the rules and regulations.
- (20) A driving tester and a testing unit shall charge fees only in accordance with section 42-2-406, C.R.S. and this rule. A driving tester and a testing unit shall only charge for tests administered.
- a) Except as otherwise provided in paragraph (b) of this subsection (20), the maximum total fee, including but not limited to any administrative fee, for administering a CDL Skills Test or retest to an applicant is two hundred seventy-five dollars (\$275.00).
 - b) The maximum total fee, including but not limited to any administrative fee, for administering a CDL Skills Test or retest to an employee or volunteer of a nonprofit organization that provides specialized transportation services for the elderly and for persons with disabilities, to any individual employed by a school district, or to any individual employed by a board of cooperative services is one hundred twenty-five dollars (\$125.00).
- (21) The testing unit must make all CDL testing records available for inspection during normal business hours.
- (22) The testing unit must hold the state harmless from liability resulting from the administration of the CDL program.

- (23) The testing unit must make **an** annual application for renewal of the unit's testing license and individual driving tester license(s) before the license expires on June 30th of each year.
- (24) **The Testing Unit must ensure that each driver to be tested has met all applicable requirements with regard to ELDT.**

J. DRIVING TESTER REQUIREMENTS

- (1) The driving tester must possess a valid USDOT medical card and a valid CDL with the appropriate class and endorsement(s) to operate the vehicle(s) in which the CDL Skills Test is administered.
- (2) The driving tester must conduct the full CDL Skills Test in accordance with Department procedures and must use the Colorado CDL Skill Test Score Form.
- (3) The driving tester must complete all CDL Third Party Testing forms correctly.
- (4) The driving tester must administer all portions of the CDL Skills Test in English.
- (5) Interpreters are not allowed for any portion of the CDL Skills Test.
- (6) The driving tester agrees to hold the State harmless from any liability arising from or in connection with a CDL Skills Test.
- (7) The driving tester must only test if the driving tester has a valid tester license issued by the Department.
- (8) The driving tester must test in the CDL class of vehicle or endorsement(s) group authorized by the Department.
- (9) Prior to administering the CDL Skills Test, the driving tester must ensure that the driver has in his/her immediate possession, a valid USDOT medical card, and a valid CLP for operating the class and endorsement(s), and/or restriction(s) of the vehicle being used for testing.
 - a) The driving tester must ensure that the instruction permit has been held by the applicant for at least fourteen (14) days prior to taking the skills test.
 - b) The driving tester must also ensure the applicant has in his/her immediate possession a valid Driver's License and must compare the photo on the license to the applicant to verify identity.
 - c) The driving tester must obtain a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education.

- (10) The driving tester must administer the CDL Skills Test to applicants in a vehicle equal to or lower in class and/or endorsement(s), and/or restriction(s) than the applicant has on his or her CLP.
- (11) The driving tester must administer the CDL Skills Test only on Department approved testing areas and routes.
- (12) The driving tester must administer all three portions of the CDL Skills Test during daylight.
- (13) The driving tester must ensure that the vehicle in which the CDL Skills Test will be administered is in proper working and mechanical order.
- (14) The vehicle inspection, the basic vehicle control skills, and the on-road driving test must be administered by the same driving tester in sequential order with no more than a 15-minute break between each portion of the CDL Skills Test. CDL Skills Test must be scheduled to avoid a lunch break.
- (15) The Department may issue a driving tester license to a driving tester candidate upon the successful completion of the following requirements:
 - a) A testing unit must submit an application requesting that the driving tester candidate be granted a driving tester license;
 - b) The driving tester candidate must be an employee of the testing unit submitting the application;
 - c) The driving tester candidate must successfully complete the 5 8 day new CDL third party tester's training course;
 - d) Within 30 days following the date the driving tester candidate completes the 5 8 day new CDL third party tester's training course, the driving tester candidate must:
 - 1. Administer two (2) **shadow skills** tests while accompanied by a licensed driving tester who shall monitor the test and compare pass-fail results with those of the new driving tester candidate; and
 - 2. Complete the application for the fingerprint/background check.
 - e) All licensing fees must be received by the Department.
- (16) The driving tester must inform the applicant that he/she may be randomly selected for a retest as mandated by 49 CFR.
- (17) The driving tester may administer CDL Skills Test as an employee of, and on behalf of, the licensed testing unit. The driving tester may administer tests for more than one unit. However the driving tester must be licensed under each unit to conduct testing on its behalf. The driving tester must keep all CDL records separate for each testing unit.

- (18) If an applicant fails any portion(s) of the CDL Skills Test, he or she must return on a different day and perform all three (3) portions of the CDL Skills Test over again.
- (19) In order to qualify for renewal, the driving tester must administer a minimum of ten (10) CDL Skills Tests with different applicants within the twelve-month period preceding the application for renewal from the Department.
- (20) The driving tester must:
- a) Enter into CSTIMS all test results immediately after the completion of the test;
 - b) Ensure that the test results entered into CSTIMS match the Class, Endorsements, and Restrictions of vehicle in which the applicant has successfully completed the CDL Skills Test; and
 - c) Upload the **original** correct score forms into CSTIMS.
 - d) Upload into CSTIMS the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education.
- (21) Upon leaving a testing unit, the driving tester's license may be transferred to another testing unit within three (3) months. If the driving tester is not employed as a driving tester at a licensed testing unit within three (3) months, the tester will be required to attend a new tester training class in order to be licensed by the Department. All training and license fees will apply and are the responsibility of the tester.
- (22) The driving tester cannot administer the CDL Skills Test to an applicant with whom he/she has conducted in- vehicle skills training.

(23) The driving tester must ensure that each driver to be tested has met all applicable requirements with regard to ELDT

K. COURSE AND ROUTE REQUIREMENTS

- (1) A testing unit **must should** have a paved area **or a flat hard surface** for the CDL vehicle inspection and for the **entire** basic control skills **exercise area exercises** that contain:
- a) Solid painted lines **that are at least 4 inches in width** and traffic cones marking the testing boundaries in accordance with Department standards.
 - (i) Traffic cones, used to mark the painted testing boundaries, must be a minimum of **twelve eighteen** inches in height, and the same size traffic cones must be

used for each exercise. Traffic cones must be replaced when they no longer retain their original shape and color.

- b) Boundary lines and cones clearly visible in the basic control skill exercise testing area.
 - (i) The testing area boundaries must be cleared of snow, debris, and vehicles that would obstruct the applicant's view during the basic control skill exercise.

~~(ii) Testing on dirt, sand, or gravel is not allowed.~~

- (2) The testing unit must request and receive approval from the Department for any change(s) to the approved road test route prior to administering a CDL road test.

L. RIGHTS

- (1) The driving tester or testing unit may refuse to test an applicant. The driving tester or testing unit contact person must notify the CDL Compliance Unit if an applicant is refused a test and must refer that driver to the CDL Compliance Unit.
- (2) Government driving testers who want to test outside of their governmental testing unit may make a written request to the CDL Compliance Unit, and must receive approval from the CDL Compliance Unit prior to administering CDL Skills Tests outside of their governmental testing unit.

M. RECORDING AND AUDITING REQUIREMENTS

- (1) The testing unit must maintain all pass/fail records for three years. These must include the CDL Skills Testing records for each applicant tested, the dates of the testing, the applicant's identification information, a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, the vehicle information and the name and state assigned driving tester number for the driving tester who administered the test, documentation that each driver subject to ELDT requirements has met those requirements. If a testing unit is no longer licensed, the unit must return all testing records to the Department within 30 days.
 - a) After three years, testing units may must destroy all pass/fail records (shred, burn).
- (2) A testing unit must enter all (pass and fail) CDL Skills Test results into CSTIMS immediately after the test including the upload of the score form and, for each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking.

- (3) During CDL compliance audits and/or inspections, driving testers must cooperate with the Department and/or FMCSA by allowing access to testing areas and routes, furnishing CDL Skills Testing records and results, and providing other items pertinent to the mandated audit and/or inspection. The driving tester must surrender testing records upon request. The driving tester may make copies and retain copies of such records.
- (4) If the testing unit provided the vehicle for the CDL Skills Test, the testing unit will furnish the vehicle for an applicant driver selected for a retest. No fees, including any vehicle rental fees required for testing, will be collected for this mandatory evaluation. The Department is not liable during retests for any damage, injury, or expense incurred.
- (5) If the applicant tested in his/her own vehicle, the applicant will supply the vehicle for any CDL Skills Retest.

N. BOND

- (1) A testing unit that is not an agency of government, or a Colorado school district, must maintain a bond in the amount of \$20,000.00 with the Department pursuant 49 CFR. A surety company authorized to do business within the State of Colorado must execute the bond.
 - a) The bond must be for the use and benefit of the Department in the event of a monetary loss suffered by the Department that falls within the limitations of the bond, attributable to the willful, intentional, or negligent conduct of the testing unit or its agent(s) or employee(s).
 - b) If the amount of the bond is decreased or terminated, or if there is a final judgment outstanding on the bond, the testing unit cannot test outside their unit.
 - c) The Department must be named on the bond as the beneficiary or the bond must be held in the name of the Department.
- (2) A testing unit that is an agency of government, or any Colorado school district, that will administer CDL driving tests outside of their unit, must maintain a bond in the amount of \$5,000.00 with the Department. A surety company authorized to do business within the State of Colorado must execute the bond.
 - a) The bond must be for the use and benefit of the Department in the event of a monetary loss within the limitations of the bond, attributable to the willful, intentional or negligent conduct of the testing unit or its agent(s) or employee(s).
 - b) If the amount of the bond is decreased or terminated, or if there is a final judgment outstanding on the bond, the testing unit cannot test outside their unit.
 - c) The Department must be named on the bond as the beneficiary or the bond must be held in the name of the Department.

O. REVOCATION, CANCELLATION, OR SUSPENSION OF TESTING UNITS AND TESTERS

- (1) The license of a testing unit or driving tester may be suspended or revoked for willful or negligent actions that may include but are not limited to any of the following:
 - a) Misrepresentations on the application to be a testing unit or a driving tester;
 - b) Improper testing and/or certification of an applicant driver who has applied for a CDL;
 - c) Falsification of test documents or results;
 - d) Violations of CDL rules for testing units or driving testers;
 - e) Failure to employ a minimum of at least one licensed CDL driving tester;
 - f) Failure to comply or cooperate in a CDL Compliance audit and record review;
 - g) Violations of the contract terms and conditions;
 - h) For any other violation of this rule or applicable state statute or federal regulation.
- (2) A testing unit or driving tester that is suspended must not perform any duties related to CDL Third Party Testing.
- (3) Summary Suspension: Where the Department has objective and reasonable grounds to believe and finds that a testing unit or driving tester has been guilty of a deliberate and willful violation or that the public health, safety, or welfare imperatively requires emergency action and incorporates the findings in its order, it may summarily suspend the license pending proceedings for suspension or revocation which will be promptly instituted and determined. Testing is not permitted while the license is suspended.
- (4) Appeal Process: Any person aggrieved by the denial of issuance, denial of renewal, suspension, or revocation of a testing unit license or driving tester license is entitled to a hearing pursuant to section 42-2- 407(7), C.R.S. Except as otherwise provided in paragraph (3) of this subsection O, the request for hearing must be submitted in writing and appropriately labeled, such as "CDL Cease Testing Appeal," to the Department of Revenue, Hearings Division, 1881 Pierce Street, Room 106, Lakewood, Colorado, 80214. Subsequent appeals may be had as provided by law.
- (5) Material incorporated by reference in this rule does not include later amendments to or editions of the incorporated material. Copies of the material incorporated by reference may be obtained by contacting the Division of Motor Vehicles, Driver License Section of the Department of Revenue, 1881 Pierce Street, Room 128, Lakewood, Colorado, 80214, 303-205-5600, and copies of the materials may be examined at any state publication depository library.

RULES FOR THE ADMINISTRATION OF THE PUBLIC SCHOOL TRANSPORTATION

FUND 1 CCR 301-14

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

0.00 Statement of Basis and Purpose.

The basis for these rules is found in Article 51 of Title 22, CRS. The state board has the responsibility to establish rules and regulations to implement the provisions of this article.

The purpose of these rules is to:

- Establish regulations and procedures for administration of the public school transportation fund.
- Establish regulations and procedures regarding determination of current operating expenditures, mileage count and revenues received by districts for providing pupil transportation.

1.00 Definition of Terms

- 1.01 "Capital Outlay" means an expenditure in excess of \$1000 and with a useful life of more than one year, for pupil transportation vehicles or facilities.
- 1.02 "Department" means the Colorado Department of Education.
- 1.03 "District" means any public school district organized under the laws of Colorado, except a junior college district.
- 1.04 "Local Board of Education" means the board of education of a district.
- 1.05 "Pupil" means a person under age 21 as of the official mileage count date who has not met the graduation requirements of his/her district as of the official mileage count date.
- 1.06 "Pupil Transportation Vehicle" means any vehicle used in whole or in part for the purpose of providing pupil transportation.
- 1.07 "State Board" means the Colorado State Board of Education.

2.00 General

- 2.01 The Department shall prepare necessary forms and appropriate directions related thereto, which a district shall use to provide the data required by the Department to meet its responsibilities relating to the administration of the public school transportation fund.

2.01(1) A district annually shall submit a form CDE-40 no later than September 15 to be eligible to receive reimbursement from the Public School Transportation Fund for prior year's pupil transportation costs.

3.00 Official Mileage Count Date

- 3.01 The official mileage count date shall be the same as the pupil enrollment count date, as defined in section 22-54-103 (10.5) (a), C.R.S. 3.02 Determination of the official mileage count date shall not be

affected by a district's decision to not have a school day on the official mileage count date as defined above.

4.00 Current Operating Expenditures

The term "current operating expenditures" means actual expenditures, not including encumbrances, incurred during the entitlement period by a district in transporting pupils from home to school, school to school, and school to home, both in state and to and from an adjoining state. 4.01(1) A district shall include employment costs of pupil transportation vehicle drivers including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(2) A district shall include employment costs of personnel paid exclusively for pupil transportation supervision and support services, including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(3) A district shall include a percentage of employment costs of personnel with non-pupil transportation responsibilities as well as specific pupil transportation responsibilities, including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(4) A district shall include expenditures for professional development directly related to pupil transportation.

4.01(4)(a) A district may include expenditures directly related to the cost of attending annual state or national school transportation workshops or conferences, including registration fees and related travel expenses.

4.01(4)(b) A district shall not include expenditures for awards banquets or ceremonies or other types of employee recognition.

4.01(4)(c) A district shall not include expenditures for workshops or conferences related to advertising or other non-pupil transportation topics.

4.01(5) A district shall include insurance premiums related to pupil transportation and prorated insurance pool contributions equivalent to commercial insurance premiums. In addition, a district may include the equivalent commercial insurance premium value of a self-insurance program contribution prorated to reflect the pupil transportation insurance costs. A district may include the net cost of self-insured repairs and self-insured replacement.

4.01(6) If a school district contracts to furnish transportation for another school district, the district furnishing the transportation shall include operation expenses.

4.01(7) A district shall include costs of contracts with independent contractors providing pupil transportation less a calculated amount for capital outlay.

4.01(7)(a) The department shall base its calculation of the capital outlay amount on the contractor's acquisition cost of pupil transportation vehicles less than ten years old and on the percentage of total vehicle use attributable to the district.

4.01(8) A district shall include costs of contracts with commercial transportation carriers subject to the cost of federal regulations, title 49, parts 390 to 397, or successor regulations thereto to provide pupil transportation pursuant to section 22-51-104(c), CRS.

4.01(8)(a) The department shall calculate the portion of this contract to be included in the current operating expenditures pursuant to section 22-51-104(1)(c).

4.01(9) A district shall include reimbursements to pupils who use public transportation services pursuant to section 22-51-102(1)(a), CRS.

-
- 4.01(10) A district shall include payments to other school districts for the purpose of furnishing pupil transportation.
- 4.01(11) A district shall include payments to district-approved persons for providing pupil transportation due to the absence of a district-approved established bus route. The total reimbursement entitlement attributable to district approved persons shall not exceed the amount actually paid to district-approved persons.
- 4.01(11)(a) A district-approved person shall not be considered an independent contractor if he/she transports only him/herself or members of his/her immediate family to or from school, or between schools.
- 4.01(12) A district shall include fuel and oil for pupil transportation vehicles.
- 4.01(13) A district shall include costs of supplies, materials, and other expendable non- capital outlay items utilized by the district in direct support of pupil transportation services.
- 4.01(14) A district shall include repair and maintenance costs of a pupil transportation vehicle only to the extent of restoration to original condition and/or mandatory condition.
- 4.01(15) A district shall include repair and maintenance costs of equipment and facilities used for pupil transportation only to the extent of restoration to original condition.
- 4.01(16) A district shall include the cost of the following types of additions or alterations to pupil transportation vehicles.
1. manual transmission to automatic transmission
 2. gas engine to diesel engine or alternative fuel
 3. reflective tape on the outside of vehicle
 4. electro-magnetic or hydraulic retarder
 5. heated mirrors
 6. engine compartment noise reduction package (diesel engine in front engine transit only)
 7. driver seat belt to current standards (locking retractor type)
 8. air brake drying system
 9. mirror system to provide a seated driver an unobstructed view of the front and front sides of a bus
 10. wheelchair lifts and other special modifications which are necessary to equip a school bus in order to transport children with disabilities
 11. automatic tire chains
 12. video surveillance cameras
 13. other additions or alterations with prior written approval by the department which increase efficiency and safety or are necessary to meet minimum standards.
- 4.01(16)(a) A district shall own any pupil transportation vehicle to be added to or altered for a minimum of three years in order for the costs of additions or alterations to be reimbursable.
- 4.01(16)(b) A district shall request and receive from the department prior written approval of additions or alterations to a pupil transportation vehicle not specifically listed in rule 4.01(16) in order for the cost to be reimbursable. The Department may request necessary information from the district for

use in making a determination for approval or disapproval.

- 4.01(16)(c) The Department shall inform a district in writing of approvals and disapprovals of reimbursable additions and alterations to vehicles.
- 4.01(16)(d) A district shall retain the written approval provided by the Department for a specific addition or alteration to a pupil transportation vehicle with the other records substantiating the reimbursement claim of the district for five years or until an audit by the department, whichever occurs first.
- 4.01(17) A district shall not include expenditures, including rent, lease or lease purchase, for all capital outlay items except those additions and alterations to vehicles specifically listed in rule 4.01(16).
- 4.01(18) A district shall not include expenditures for school field trips, extracurricular trips, or athletic trips.
- 4.01(19) A district shall not include liability claims incurred and paid by the district associated with providing pupil transportation.
- 4.01(20) A district shall not include expenditures relating to any district vehicle not used for the specific purpose of pupil transportation.
- 4.01(20)(a) A district shall not include expenditures relating to elderly transportation services.
- 4.01(20)(b) A district shall not include expenditures relating to recreational district transportation services.
- 4.01(20)(c) A district shall not include expenditures relating to advertising.
- 4.01(21) A district shall not include any other expenditure not specifically identified above in 4.01.

5.00 Revenues Received Through the Operation of the Pupil Transportation Program

- 5.01 A district shall reduce its reported current operating expenditures by the amount of summer school and pre-school program revenues received for pupil transportation.
- 5.02 A district shall reduce its reported current operating expenditures by the amount of revenues received from other school districts through contracts to furnish pupil transportation.
- 5.03 A district shall reduce its reported current operating expenditures by the amount of revenues received from federal sources for pupil transportation.

- 5.04 Since a district does not include expenditures resulting from non-pupil transportation activities per rule 4.01(20), a district shall not reduce its reported current operating expenditures by the amount of revenues received for non-pupil transportation activities.
- 5.04(1) A district shall not reduce its reported current operating expenditures by the amount of revenues received from the elderly for transportation services.
- 5.04(2) A district shall not reduce its reported current operating expenditures by the amount of revenues received from recreational districts for transportation services.
- 5.04(3) A district shall not reduce its reported current operating expenditures by the amount of revenues received for advertising on any transportation vehicles.
- 5.05 A district shall not reduce its reported current operating expenditures by the amount of revenues received from the state public school transportation fund.
- 5.06 A district shall not reduce its reported current operating expenditures by the amount of revenues received from fees imposed and collected for pupil transportation pursuant to a resolution adopted by a local board of education in accordance with the provisions of section 22-32-113(5), CRS.
- 5.07 A district shall not reduce its reported current operating expenditures by the amount of revenues received from a transportation levy approved at an election for the purpose of recovering excess pupil transportation costs pursuant to 22-40-102(1.7), CRS.

6.00 Mileage Count Reporting

- 6.01 A district shall report its total mileage scheduled to be traveled by pupil transportation vehicles on the official mileage count date in transporting all pupils enrolled in its schools.
- 6.01(1) A district shall report scheduled mileage to and from a pupil's legal residence and school in which the pupil is enrolled, both in-state and to and from an adjoining state.
- 6.01(2) A district shall report scheduled mileage to and from a pupil's legal residence and school in which the pupil is enrolled, including mileage for loaded and unloaded pupil transportation vehicles.
- 6.01(3) A district shall report scheduled mileage between two or more schools in which pupils are regularly enrolled and which pupils are required to attend as a part of their scheduled programs.
- 6.01(4) A district shall report actual mileage traveled by a district approved person due to the absence of a district-approved established bus route, if the district reimburses said district-approved person for such pupil transportation services.
- 6.02 A district shall report its total scheduled miles as defined above if the district operates a year-round school calendar at a school or schools within the district. The mileage count for year-round schools shall include only unique routes that are traveled specifically for the year-round program.
- 6.03 A district paying another district for pupil transportation services shall report miles traveled by the district providing the pupil transportation services.
- 6.04 A district shall not include in its reported scheduled mileage miles traveled for the purpose of providing pupil transportation for the pupils of another district.

- 6.05 A district shall not include in its reported scheduled mileage miles traveled for school field trips, extracurricular trips, or athletic trips.
- 6.06 A district shall not include in its reported scheduled mileage miles traveled in trips which are not for the purpose of transporting pupils from home to school, school to school, or school to home.
- 6.06(1) A district shall not include in its reported scheduled mileage miles traveled for transportation services for the elderly.
- 6.06(2) A district shall not include in its reported scheduled mileage miles traveled for transportation services for recreational districts.
- 6.07 A district shall not include in its reported scheduled mileage miles traveled by pupil transportation support and service vehicles.

7.00 Certifications by Local Boards of Education

- 7.01 A district desiring reimbursement under the Public School Transportation Fund for any entitlement period shall report to the department all required information.
- 7.01(1) A district shall report current operating expenditures as defined in 2251-R-4.00 and 2251- R-5.00 of these rules.
- 7.01(2) A district shall report total scheduled mileage as defined in 2251-R-6.00 of these rules. 7.01(3) A district shall report the number of days of school that pupils are actually transported. 7.01(4) A district shall report the number of days of school that pupils are actually transported for year-round school programs.
- 7.01(5) A district shall report the number of days for which a boarding allowance is paid for pupils in lieu of transportation.
- 7.01(6) A district shall report the number of pupils scheduled to be transported on the official mileage count date.
- 7.01(7) A district shall report the total cost of a contract pursuant to rule 4.01(7) for the purposes of providing pupil transportation.
- 7.01(8) A district shall report the total cost of a contract with a commercial transportation carrier pursuant to rule 4.01(8) for the purposes of providing pupil transportation.
- 7.01(9)(a) A district shall report the comparable district cost of providing pupil transportation in the absence of a contract with a commercial transportation carrier.
- 7.01(09) A district shall report the total actual miles traveled for school field trips, extracurricular trips, and athletic trips by pupil transportation vehicles.
- 7.01(10) A district shall report the total actual miles traveled for any purpose by all pupil transportation vehicles.
- 7.01(11) A district shall report that the data reported is accurate and that the pupil transportation program has been operated in compliance with all applicable rules of the state board.

7.01(12) A district shall report other data as deemed necessary by the department.

8.00 Documentation

- 8.01 A district shall maintain and retain appropriate records pertaining to its application for reimbursement for five years or until an audit by the Department has been completed, whichever occurs first.
- 8.02 Documentation shall include appropriate mileage reports and route descriptions as of the official mileage count date which clearly define the routes and show mileage.
- 8.03 Documentation shall include appropriate financial records of the district.
- 8.04 Documentation shall support the number of actual miles traveled on the official mileage count date by persons who are reimbursed by the district for furnishing their own district approved transportation.
- 8.05 Documentation shall include the odometer reading taken at the beginning of the entitlement period and taken at the end of the entitlement period and total miles traveled for each pupil transportation vehicle operated during the entitlement period.
- 8.06 Documentation shall include time sheets, work schedules, or other auditable documentation used to support the transportation claim as well as documentation to support allocation methods used to determine the amount of the claim.
- 8.07 Documentation shall include information from independent contractors showing the acquisition cost of vehicles used for pupil transportation and less than ten years old and showing the total value of such contracts.
- 8.08 Documentation shall support total expenditures for public transportation contracts.
- 8.09 Documentation shall support total expenditures for commercial transportation carrier contracts.
- 8.010 Documentation shall support the amount of revenues from sources pursuant to 5.00 of these rules, such as election ballot and board resolution.
- 8.011 Documentation shall include a list of named pupils scheduled to be transported on the official mileage count date and shall be attached to each route description.

Editor's Notes

History

Entire rule eff. 01/14/2013.

Rule 2.02(1) eff.

07/30/2020.

Annotations

Rule 2251-R-2.02(1) (adopted 06/10/2020) was not extended by Senate Bill 21-152 and therefore expired 05/15/2021.

Colorado State Board of Education

RULES FOR THE ADMINISTRATION OF THE PUBLIC SCHOOL TRANSPORTATION

FUND 1 CCR 301-14

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

~~2251-R-~~

0.00 Statement of Basis and Purpose.

The basis for these rules is found in Article 51 of Title 22, CRS. The state board has the responsibility to establish rules and regulations to implement the provisions of this article.

The purpose of these rules is to:

- Establish regulations and procedures for administration of the public school transportation fund.
- Establish regulations and procedures regarding determination of current operating expenditures, mileage count and revenues received by districts for providing pupil transportation.

1.00 Definition of Terms

- 1.01 "Capital Outlay" means an expenditure in excess of \$1000 and with a useful life of more than one year, for pupil transportation vehicles or facilities.
- 1.02 "Department" means the Colorado Department of Education.
- 1.03 "District" means any public school district organized under the laws of Colorado, except a junior college district.
- 1.04 "Local Board of Education" means the board of education of a district.
- 1.05 "Pupil" means a person under age 21 as of the official mileage count date who has not met the graduation requirements of his/her district as of the official mileage count date.
- 1.06 "Pupil Transportation Vehicle" means any vehicle used in whole or in part for the purpose of providing pupil transportation.
- 1.07 "State Board" means the Colorado State Board of Education.

~~2251-R-~~**2.00**

General

- 2.0~~12~~ The Department shall prepare necessary forms and appropriate directions related thereto, which a district shall use to provide the data required by the Department to meet its responsibilities relating to the administration of the public school transportation fund.

2.0~~12~~(1) ~~[Expired 05/15/2021 per Senate Bill 21-152]~~ A district annually shall submit a form CDE-40 no later than September 15 to be eligible to receive reimbursement from the Public School Transportation Fund for prior year's pupil transportation costs.

~~2251-R-~~**3.00**

Official Mileage Count Date

- 3.01 The official mileage count date shall be the same as the pupil enrollment count date, as defined in section 22-54-103 (10.5) (a), C.R.S.3.02 Determination of the official mileage count date shall not be

affected by a district's decision to not have a school day on the official mileage count date as defined above.

~~2251-R~~ 4.00

Current Operating Expenditures

~~4.01~~—The term “current operating expenditures” means actual expenditures, not including encumbrances, incurred during the entitlement period by a district in transporting pupils from home to school, school to school, and school to home, both in state and to and from an adjoining state.

4.01(1) A district shall include employment costs of pupil transportation vehicle drivers including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(2) A district shall include employment costs of personnel paid exclusively for pupil transportation supervision and support services, including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(3) A district shall include a percentage of employment costs of personnel with non-pupil transportation responsibilities as well as specific pupil transportation responsibilities, including Public Employee's Retirement Association (PERA) and/or other retirement plan costs, and health and other fringe benefits.

4.01(4) A district shall include expenditures for professional development directly related to pupil transportation.

4.01(4)(a) A district may include expenditures directly related to the cost of attending annual state or national school transportation workshops or conferences, including registration fees and related travel expenses.

4.01(4)(b) A district shall not include expenditures for awards banquets or ceremonies or other types of employee recognition.

4.01(4)(c) A district shall not include expenditures for workshops or conferences related to advertising or other non-pupil transportation topics.

4.01(5) A district shall include insurance premiums related to pupil transportation and prorated insurance pool contributions equivalent to commercial insurance premiums. In addition, a district may include the equivalent commercial insurance premium value of a self- insurance program contribution prorated to reflect the pupil transportation insurance costs. A district may include the net cost of self-insured repairs and self-insured replacement.

4.01(6) If a school district contracts to furnish transportation for another school district, the district furnishing the transportation shall include operation expenses.

4.01(7) A district shall include costs of contracts with independent contractors providing pupil transportation less a calculated amount for capital outlay.

4.01(7)(a) The department shall base its calculation of the capital outlay amount on the contractor's acquisition cost of pupil transportation vehicles less than ten years old and on the percentage of total vehicle use attributable to the district.

4.01(8) A district shall include costs of contracts with commercial transportation carriers subject to the cost of federal regulations, title 49, parts 390 to 397, or successor regulations thereto to provide pupil transportation pursuant to section 22-51-104(c), CRS.

4.01(8)(a) The department shall calculate the portion of this contract to be included in the current operating expenditures pursuant to section 22-51-104(1)(c).

4.01(9) A district shall include reimbursements to pupils who use public transportation services pursuant to section 22-51-102(1)(a), CRS.

- 4.01(10) A district shall include payments to other school districts for the purpose of furnishing pupil transportation.
- 4.01(11) A district shall include payments to district-approved persons for providing pupil transportation due to the absence of a district-approved established bus route. The total reimbursement entitlement attributable to district approved persons shall not exceed the amount actually paid to district-approved persons.
- 4.01(11)(a) A district-approved person shall not be considered an independent contractor if he/she transports only him/herself or members of his/her immediate family to or from school, or between schools.
- 4.01(12) A district shall include fuel and oil for pupil transportation vehicles.
- 4.01(13) A district shall include costs of supplies, materials, and other expendable non- capital outlay items utilized by the district in direct support of pupil transportation services.
- 4.01(14) A district shall include repair and maintenance costs of a pupil transportation vehicle only to the extent of restoration to original condition and/or mandatory condition.
- 4.01(15) A district shall include repair and maintenance costs of equipment and facilities used for pupil transportation only to the extent of restoration to original condition.
- 4.01(16) A district shall include the cost of the following types of additions or alterations to pupil transportation vehicles.
1. manual transmission to automatic transmission
 2. gas engine to diesel engine or alternative fuel
 3. reflective tape on the outside of vehicle
 4. electro-magnetic or hydraulic retarder
 5. heated mirrors
 6. engine compartment noise reduction package (diesel engine in front engine transit only)
 7. driver seat belt to current standards (locking retractor type)
 8. air brake drying system
 9. mirror system to provide a seated driver an unobstructed view of the front and front sides of a bus
 10. wheelchair lifts and other special modifications which are necessary to equip a school bus in order to transport children with disabilities
 11. automatic tire chains
 12. video surveillance cameras
 13. other additions or alterations with prior written approval by the department which increase efficiency and safety or are necessary to meet minimum standards.

- 4.01(16)(a) A district shall own any pupil transportation vehicle to be added to or altered for a minimum of three years in order for the costs of additions or alterations to be reimbursable.
- 4.01(16)(b) A district shall request and receive from the department prior written approval of additions or alterations to a pupil transportation vehicle not specifically listed in rule 4.01(16) in order for the cost to be reimbursable. The Department may request necessary information from the district for use in making a determination for approval or disapproval.
- 4.01(16)(c) The Department shall inform a district in writing of approvals and disapprovals of reimbursable additions and alterations to vehicles.
- 4.01(16)(d) A district shall retain the written approval provided by the Department for a specific addition or alteration to a pupil transportation vehicle with the other records substantiating the reimbursement claim of the district for five years or until an audit by the department, whichever occurs first.
- 4.01(17) A district shall not include expenditures, including rent, lease or lease purchase, for all capital outlay items except those additions and alterations to vehicles specifically listed in rule 4.01(16).
- 4.01(18) A district shall not include expenditures for school field trips, extracurricular trips, or athletic trips.
- 4.01(19) A district shall not include liability claims incurred and paid by the district associated with providing pupil transportation.
- 4.01(20) A district shall not include expenditures relating to any district vehicle not used for the specific purpose of pupil transportation.
- 4.01(20)(a) A district shall not include expenditures relating to elderly transportation services.
- 4.01(20)(b) A district shall not include expenditures relating to recreational district transportation services.
- 4.01(20)(c) A district shall not include expenditures relating to advertising.
- 4.01(21) A district shall not include any other expenditure not specifically identified above in 4.01.

~~2251-R~~-5.00 Revenues Received Through the Operation of the Pupil Transportation Program

- 5.01 A district shall reduce its reported current operating expenditures by the amount of summer school and pre-school program revenues received for pupil transportation.
- 5.02 A district shall reduce its reported current operating expenditures by the amount of revenues received from other school districts through contracts to furnish pupil transportation.
- 5.03 A district shall reduce its reported current operating expenditures by the amount of revenues received from federal sources for pupil transportation.

- 5.04 Since a district does not include expenditures resulting from non-pupil transportation activities per rule 4.01(20), a district shall not reduce its reported current operating expenditures by the amount of revenues received for non-pupil transportation activities.
- 5.04(1) A district shall not reduce its reported current operating expenditures by the amount of revenues received from the elderly for transportation services.
- 5.04(2) A district shall not reduce its reported current operating expenditures by the amount of revenues received from recreational districts for transportation services.
- 5.04(3) A district shall not reduce its reported current operating expenditures by the amount of revenues received for advertising on any transportation vehicles.
- 5.05 A district shall not reduce its reported current operating expenditures by the amount of revenues received from the state public school transportation fund.
- 5.06 A district shall not reduce its reported current operating expenditures by the amount of revenues received from fees imposed and collected for pupil transportation pursuant to a resolution adopted by a local board of education in accordance with the provisions of section 22-32-113(5), CRS.
- 5.07 A district shall not reduce its reported current operating expenditures by the amount of revenues received from a transportation levy approved at an election for the purpose of recovering excess pupil transportation costs pursuant to 22-40-102(1.7), CRS.

~~2254-R~~-6.00 Mileage Count Reporting

- 6.01 A district shall report its total mileage scheduled to be traveled by pupil transportation vehicles on the official mileage count date in transporting all pupils enrolled in its schools.
- 6.01(1) A district shall report scheduled mileage to and from a pupil's legal residence and school in which the pupil is enrolled, both in-state and to and from an adjoining state.
- 6.01(2) A district shall report scheduled mileage to and from a pupil's legal residence and school in which the pupil is enrolled, including mileage for loaded and unloaded pupil transportation vehicles.
- 6.01(3) A district shall report scheduled mileage between two or more schools in which pupils are regularly enrolled and which pupils are required to attend as a part of their scheduled programs.
- 6.01(4) A district shall report actual mileage traveled by a district approved person due to the absence of a district-approved established bus route, if the district reimburses said district-approved person for such pupil transportation services.
- 6.02 A district shall report its total scheduled miles as defined above if the district operates a year-round school calendar at a school or schools within the district. The mileage count for year-round schools shall include only unique routes that are traveled specifically for the year-round program.
- 6.03 A district paying another district for pupil transportation services shall report miles traveled by the district providing the pupil transportation services.
- 6.04 A district shall not include in its reported scheduled mileage miles traveled for the purpose of providing pupil transportation for the pupils of another district.

- 6.05 A district shall not include in its reported scheduled mileage miles traveled for school field trips, extracurricular trips, or athletic trips.
- 6.06 A district shall not include in its reported scheduled mileage miles traveled in trips which are not for the purpose of transporting pupils from home to school, school to school, or school to home.
- 6.06(1) A district shall not include in its reported scheduled mileage miles traveled for transportation services for the elderly.
- 6.06(2) A district shall not include in its reported scheduled mileage miles traveled for transportation services for recreational districts.
- 6.07 A district shall not include in its reported scheduled mileage miles traveled by pupil transportation support and service vehicles.

~~2251-R~~-7.00 Certifications by Local Boards of Education

- 7.01 A district desiring reimbursement under the Public School Transportation Fund for any entitlement period shall report to the department all required information.
- 7.01(1) A district shall report current operating expenditures as defined in 2251-R-4.00 and 2251- R-5.00 of these rules.
- 7.01(2) A district shall report total scheduled mileage as defined in 2251-R-6.00 of these rules. 7.01(3) A district shall report the number of days of school that pupils are actually transported. 7.01(4) A district shall report the number of days of school that pupils are actually transported for year-round school programs.
- 7.01(5) A district shall report the number of days for which a boarding allowance is paid for pupils in lieu of transportation.
- 7.01(6) A district shall report the number of pupils scheduled to be transported on the official mileage count date.
- 7.01(7) A district shall report the total cost of a contract pursuant to rule 4.01(7) for the purposes of providing pupil transportation.
- 7.01(8) A district shall report the total cost of a contract with a commercial transportation carrier pursuant to rule 4.01(8) for the purposes of providing pupil transportation.
- 7.01(9)(a) A district shall report the comparable district cost of providing pupil transportation in the absence of a contract with a commercial transportation carrier.
- 7.01(09) A district shall report the total actual miles traveled for school field trips, extracurricular trips, and athletic trips by pupil transportation vehicles.
- 7.01(10) A district shall report the total actual miles traveled for any purpose by all pupil transportation vehicles.
- 7.01(11) A district shall report that the data reported is accurate and that the pupil transportation program has been operated in compliance with all applicable rules of the state board.

7.01(12) A district shall report other data as deemed necessary by the department.

~~2251-R-8.00~~ Documentation

- 8.01 A district shall maintain and retain appropriate records pertaining to its application for reimbursement for five years or until an audit by the Department has been completed, whichever occurs first.
- 8.02 Documentation shall include appropriate mileage reports and route descriptions as of the official mileage count date which clearly define the routes and show mileage.
- 8.03 Documentation shall include appropriate financial records of the district.
- 8.04 Documentation shall support the number of actual miles traveled on the official mileage count date by persons who are reimbursed by the district for furnishing their own district approved transportation.
- 8.05 Documentation shall include the odometer reading taken at the beginning of the entitlement period and taken at the end of the entitlement period and total miles traveled for each pupil transportation vehicle operated during the entitlement period.
- 8.06 Documentation shall include time sheets, work schedules, or other auditable documentation used to support the transportation claim as well as documentation to support allocation methods used to determine the amount of the claim.
- 8.07 Documentation shall include information from independent contractors showing the acquisition cost of vehicles used for pupil transportation and less than ten years old and showing the total value of such contracts.
- 8.08 Documentation shall support total expenditures for public transportation contracts.
- 8.09 Documentation shall support total expenditures for commercial transportation carrier contracts.
- 8.010 Documentation shall support the amount of revenues from sources pursuant to 5.00 of these rules, such as election ballot and board resolution.
- 8.011 Documentation shall include a list of named pupils scheduled to be transported on the official mileage count date and shall be attached to each route description.

~~2251-R-9.00 Statement of Basis and Purpose.~~

~~The basis for these rules is found in Article 51 of Title 22, CRS. The state board has the responsibility to establish rules and regulations to implement the provisions of this article.~~

~~The purpose of these rules is to:~~

~~Establish regulations and procedures for administration of the public school transportation fund.~~

~~Establish regulations and procedures regarding determination of current operating expenditures, mileage count and revenues received by districts for providing pupil transportation.~~

~~Revisions to section 2251-R-3.00 of these rules are made to incorporate new statutory requirements established by H.B. 12-1090 (concerning the annual count date for establishing total pupil enrollment of each public school) in section 22-54-103 (10.5) (a), C.R.S., and to eliminate the requirements related to summer migrant mileage under section 2251-R-7.00 and 8.00 as no legal authority was found to support such requirements.~~

Editor's Notes

History

Entire rule eff. 01/14/2013.

Rule 2.02(1) eff.

07/30/2020.

Annotations

Rule 2251-R-2.02(1) (adopted 06/10/2020) was not extended by Senate Bill 21-152 and therefore expired 05/15/2021.

Subjects and issues involved

The purpose of these rules is to adopt and enforce regulations governing the reasonable and adequate standards of safety for the operation, maintenance and inspection of school transportation vehicles that promote the welfare of the students and afford reasonable protection to the public. These rules are designed to align with federal standards, reflect current industry practices, and incorporate recommendations from school district, charter school, and service provider transportation professionals.

Statutory authority

Colorado law provides for the State Board of Education to adopt and enforce regulations governing the safe operation of school buses used for the transportation of students pursuant to Sections 22-51-108 and 42-4-1904, C.R.S.

COLORADO RULES FOR THE OPERATION, MAINTENANCE, AND INSPECTION OF SCHOOL TRANSPORTATION VEHICLES

1 CCR 301-26

~~4204-R-1.00~~ Statement of Basis and Purpose

- 1.01 Colorado law provides for the State Board of Education to adopt and enforce regulations governing the safe operation of school buses used for the transportation of students pursuant to Sections 22-51-108 and 42-4-1904, C.R.S.
- 1.02 The purpose of these rules is to adopt and enforce regulations governing the reasonable and adequate standards of safety for the operation, maintenance and inspection of school transportation vehicles that promote the welfare of the students and afford reasonable protection to the public. These rules are designed to align with federal standards, reflect current industry practices, and incorporate recommendations from school district, charter school, and service provider transportation professionals.
- 1.03 The Commissioner, or designee, may provide an exemption to the Rules for the Operation, Maintenance and Inspection of School Transportation Vehicles to the extent the Commissioner finds an exemption to be appropriate.

~~1.04 These rules shall become effective January 1, 2018 for all student transportation.~~

~~4204-R-2.00~~ Applicability of Rules

- 2.01 These rules and regulations apply to the operation, maintenance and inspection of all public-school transportation conducted by:
 - 2.01(a) A school district, ~~or~~ charter school, or service provider for routes (home to school, school to school, and school to home); and
 - 2.01(b) A school district, ~~or~~ charter school, or service provider for activity trips (school related events);
 - 2.01 (c) ~~A company or individual hired by a district or charter school (service provider) for routes (home to school, school to school, and school to home).~~ As used in these Rules, "service provider" means a company or individual hired by a school district or charter school.
- 2.02 These rules are not intended to include:
 - 2.02(a) Private motor vehicles used exclusively to carry members of the owner's household; or
 - 2.02(b) Transportation arrangements not authorized by the school district, charter school, or service provider, including but not limited to sharing of actual gasoline expense or participation in a car pool; ~~or~~

- 2.02(c) The operations of vehicles in bona fide emergency situations consistent with policies of the local board of education; ~~or~~
- 2.02(d) Transportation conducted by a company or individual for activity trips (school related events), including service providers, parent volunteers, and coaches or teachers using a private motor vehicle; or
- 2.02(e) ~~Route + T~~ Transportation provided by a company or individual as part of their operation as a common carrier, or transportation network company operating pursuant to Section 40-10.1-602, C.R.S., under the jurisdiction of the US Department of Transportation or the Public Utilities Commission. ~~including RTD, taxi cab services, Uber services, and Lyft services..~~
- 2.03 These rules shall not preclude a school district, charter school, or service provider from establishing a more rigid standard or policy when deemed necessary by the local board of education or service provider.

~~4204-R-3.00~~ Non-Compliance

- 3.01 CDE will perform periodic School Transportation Advisory Reviews (STAR) of school districts, charter schools and service providers to evaluate and assist with compliance of these rules.
- 3.01(a) CDE will provide school districts, charter schools and service providers written notification of the STAR findings.
- 3.01(b) Upon receipt of the written notification of STAR findings, school districts, charter schools ~~or~~ and service providers shall respond in writing to outline corrective actions if necessary.
- 3.02 CDE shall revoke or suspend the certificate for a school transportation annual inspector, school transportation annual inspector hands-on tester, school transportation entry level driver instructor, or inspection site under the following circumstances:
- 3.02(a) A school transportation annual inspector, school transportation annual inspector hands-on tester, school transportation entry level driver instructor, or inspection site does not meet the requirements outlined in these rules; or
- 3.02(b) School transportation annual inspections, school transportation entry level driver instruction, or hands-on tests have not been properly conducted.

~~4204-R-4.00~~ School District, Charter School and Service Provider Employment Responsibilities

- 4.01 School districts, charter schools and service providers shall outline job responsibilities and develop job qualification standards for each school transportation vehicle operator and school transportation paraprofessionals, annual inspector, and school transportation entry level driver instructor, consistent with federal and state regulations. A copy of these requirements shall be provided to each school transportation vehicle operator, annual inspector, school transportation

entry level driver instructor, and paraprofessional upon employment. A copy shall also be maintained in the applicable qualification file.

- 4.02 School districts, charter schools and service providers shall maintain separate files for each school transportation vehicle operator, school transportation paraprofessional, school transportation entry level driver instructor, and school transportation annual inspector with written documentation evidencing all listed requirements indicated in Rule 5.00, Rule 6.00 and Rule 7.00, as applicable. Training documentation shall include the trainer name, date of the training, description of the training, duration of each topic covered and the signature of all attendees.

4.02(a) If a school transportation vehicle operator, school transportation paraprofessional, or school transportation annual inspector works for more than one school district, charter school, service provider, or operator of an inspection site, each employer shall maintain a file with documentation in accordance with this rule.

- 4.03 Pursuant to 49 CFR, Part 382, Subpart G, School districts, charter schools, and service providers shall ensure that all employees required to possess a commercial driver's license (CDL) are enrolled in the Federal Motor Carrier Administration Drug and Alcohol Clearinghouse and shall be in a US DOT- approved substance abuse testing program.

- 4.04 School districts, charter schools and service providers shall not permit a school transportation vehicle operator to transport students, while the operator's ability or alertness is so impaired, through fatigue, illness or any other cause, as to make it unsafe for the operator to transport students.

- 4.05 School districts, charter schools and service providers shall have written emergency procedures and/or contingency plans to be followed in the event of a traffic accident, vehicle breakdown, unexpected school closing, unforeseen route change, or relocation of a student stop in an emergency.

- 4.06 School districts, charter schools and service providers shall ensure that documentation outlining transportation related services and requirements, including required use of Child Safety Restraint Systems and medical and behavioral information as it relates to student transportation, is available to applicable school transportation vehicle operators and paraprofessionals prior to providing transportation services.

- 4.07 Pursuant to 49 CFR, Part 380, Subpart F, 380.601, effective February 7, 2022, school districts, charter schools, and service providers shall ensure that all entry level school transportation operators required to possess a commercial driver's license (CDL) receive pre-service training in compliance with the FMCSA theory and behind-the-wheel training curricula via an entity listed on the FMCSA training provider registry (TPR).

~~4204-R-5.00~~ School Transportation Vehicle Operator Requirements

- 5.01 School transportation vehicle operators ~~(transporting students to and from school or from school to school)~~ driving ~~a School Bus~~ any vehicle with the capacity of 16 or greater passengers (counting the driver) ~~and school transportation vehicle operators, other than route operators,~~

~~driving vehicles with the capacity of 16 or greater passengers (counting the driver), including a School bus, Multifunction Bus and Motor Coach Bus,~~ shall meet or exceed the following requirements:

5.01(a) The operator shall possess a valid commercial driver's license (CDL) with the proper class and endorsements for size and type of vehicle(s) to be driven and the associated Medical Examination Report required pursuant to the Federal Motor Carrier Safety Regulations, 49 CFR section 391.43. ~~(2021) (2015) (update). Only the Federal Motor Carrier Safety Regulations adopted as of October 1, 2015 (update) apply to this rule; later amendments do not apply. The federal regulations incorporated by reference in this rule are available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80209. In addition, these regulations are available at <https://www.ecfr.gov/>.~~

5.01(b) The operator shall be a minimum of 18 years of age.

5.01(c) ~~The district~~ School districts, charter schools, or and service providers shall obtain a motor vehicle record of each operator prior to transporting students and annually thereafter.

5.01(d) The operator shall be given and/or have access to the CDE School Bus/Multifunction Bus/Motor Coach Bus Operator Guide prior to transporting students. A copy of the Certificate of Receipt, signed by the operator, shall be placed in the driver qualification file.

5.01(e) The operator shall receive a minimum of six hours of in-service training annually, ~~which may include required training in 1 CCR 301-26-R-5.00.~~ A portion of this annual in-service requirement may occur during the school year.

5.01(f) The operator shall successfully pass a CDE School Bus/Multifunction Bus/Motor Coach Bus Operator written test for the current school year prior to transporting students and annually thereafter.

5.01(g) The operator shall successfully pass a driving performance test including a pre-trip inspection prior to transporting students and annually thereafter. This test shall be conducted in a vehicle, which is similar in type and size to the vehicle the applicant is assigned to operate. ~~School d~~Districts, charter schools, and service providers have the option to re-test at their discretion.

5.01(h) The operator shall receive pre-service training on the type of vehicle(s) to be driven, the type of duties they may be required to perform, mountain and adverse weather training pursuant to C.R.S. 42-4-1902, and ~~in~~ student confidentiality requirements prior to transporting students.

5.01(i) The operator shall have written documentation evidencing that they have received first aid training, including cardiopulmonary resuscitation and universal precautions within 90 calendar days after initial employment. If the operator holds a current first aid and cardiopulmonary resuscitation certificate it will meet the requirements of this section.

Operators shall receive first aid training and/or re-certification every two (2) years thereafter.

- 5.01(j) The operator shall receive training regarding the proper use and maintenance of Child Safety Restraint Systems (CSRS) and proper wheelchair securement, when the operator is engaged in transportation involving these systems and devices, prior to transporting students.

5.01(k) Effective February 7, 2022, entry level commercial operators shall have a copy of their training certificate, and training syllabus from a training provider listed on the FMCSA Training Provider Registry (TPR) placed in their qualification file, indicating that they have passed all required FMCSA pre-service training.

- 5.02 School transportation vehicle route operators (transporting students to and from school or from school to school) driving vehicles with the capacity of 15 or fewer passengers (counting the driver), including Type A Multifunction Bus and Small Vehicle, shall meet or exceed the following requirements:

5.02(a) The operator shall possess a valid driver's license.

5.02(b) The operator shall be a minimum of 18 years of age.

5.02(c) The operator shall have a current physical examination (not to exceed two years) consistent with the requirements of the Federal Motor Carrier Safety Regulations, 49 CFR section 391.43. ~~(2015). Only the Federal Motor Carrier Safety Regulations adopted as of October 1, 2015 (update) apply to this rule; later amendments do not apply. The federal regulations incorporated by reference in this rule are available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80209. In addition, these regulations are available at <https://www.ecfr.gov/>.~~

5.02(d) ~~The district School~~ districts, charter schools, and ~~or~~ service providers shall obtain a motor vehicle record of each operator prior to transporting students and annually thereafter.

5.02(e) The operator shall be given and/or have access to the CDE Type A Multifunction Bus /Small Vehicle Route Driver Guide prior to transporting students. A copy of the Certificate of Receipt, signed by the operator, shall be placed in the driver qualification file.

5.02(f) The operator shall receive a minimum of six hours of in-service training annually. ~~which may include required training in 1 CCR 301-26 R 5.00.~~ A portion of this annual in-service requirement may occur during the school year.

5.02(g) The operator shall successfully pass a CDE Type A Multifunction Bus/Small Vehicle Route Operator written test for the current school year prior to transporting students and annually thereafter.

- 5.02(h) The operator shall successfully pass a driving performance test including a pre-trip inspection prior to transporting students and annually thereafter. This test shall be conducted in a vehicle, which is similar in type and size to the vehicle the applicant is assigned to operate. School districts, charter schools and service providers have the option to re-test at their discretion.
- 5.02(i) The operator shall receive pre-service training on the type of vehicle(s) to be driven, the type of duties they may be required to perform, mountain and adverse weather training pursuant to C.R.S. 42-4-1902, and ~~in~~ student confidentiality requirements prior to transporting students.
- 5.02(j) The operator shall have written documentation evidencing that they have received first aid training, including cardiopulmonary resuscitation and universal precautions within 90 calendar days after initial employment. If the operator holds a current first aid and cardiopulmonary resuscitation certificate it will meet the requirements of this section. Operators shall receive first aid training and/or re-certification every two (2) years thereafter.
- 5.02(k) The operator shall receive training regarding the proper use and maintenance of Child Safety Restraint Systems (CSRS) and proper wheelchair securement, when the operator is engaged in transportation involving these systems and devices prior to transporting students.
- 5.03 School transportation vehicle operators, other than route operators, driving vehicles with the capacity of 15 or fewer passengers (counting the driver), including Type A Multifunction Bus and Small Vehicle, shall meet or exceed the following requirements:
- 5.03(a) The operator shall possess a valid driver's license.
- 5.03(b) The operator shall be a minimum of 18 years of age.
- 5.03(c) ~~The district~~ School districts, charter schools, and service providers shall obtain a motor vehicle record of each operator prior to transporting students and annually thereafter.
- 5.03(d) The operator shall be given and/or have access to the CDE Type A Multifunction Bus /Small Vehicle Operator Guide prior to transporting students. A copy of the Certificate of Receipt, signed by the operator, shall be placed in the driver qualification file.
- 5.03(e) The operator shall successfully pass a Type A CDE Multifunction Bus/Small Vehicle Operator written test for the current school year prior to transporting students and annually thereafter.
- 5.03(f) The operator shall annually complete the CDE Multifunction/Small Vehicle Operators Medical Information Form (STU-17). Any yes annotations shall require a doctor's release.
- 5.03(g) The operator shall receive pre-service training on the type of vehicle(s) to be driven, the type of duties they may be required to perform, mountain and adverse weather training

pursuant to C.R.S 42-4-1902, and ~~in~~ student confidentiality requirements prior to transporting students.

- 5.03(h) The operator shall be given and/or have access to first aid information, including cardiopulmonary resuscitation and universal precautions.
- 5.03(i) The operator shall successfully pass a driving performance test including a pre-trip inspection prior to transporting students. This test shall be conducted in a vehicle, which is similar in type and size to the vehicle the applicant is assigned to operate. School districts, charter schools, and service providers have the option to re-test in subsequent years at their discretion.
- 5.03(j) Prior to driving a school transportation vehicle pursuant to 1 CCR 301-26-R-~~12,13.11~~ operators shall receive training on towing a trailer.
- 5.04 A ~~S~~ school transportation paraprofessional is a person assigned to assist a school transportation vehicle operator to ~~the~~ control the behavior of students in the bus and/or ensure the safety of students getting on and off the school transportation vehicle.
 - 5.04(a) The school transportation paraprofessional shall receive pre-service training for the type of duties they may be required to perform prior to assisting with transporting students.
- 5.05 School transportation vehicle operators and school transportation paraprofessionals are required to be able to perform all essential functions including emergency evacuations when transporting students as determined by the school district, charter school, or service provider job qualification standards.
 - 5.05(a) The employing school district, charter school, or service provider has the authority to require at any time a medical evaluation of a school transportation vehicle operator or school transportation paraprofessional for any condition that could impair the employee's ability to operate a vehicle safely, assist student(s) as required by their position, and/or perform other required job duties, and may take appropriate action on the outcome of such evaluation.
 - 5.05(b) School transportation vehicle operators and school transportation paraprofessionals that have medical conditions which result in temporary loss of performance abilities shall provide return-to-work documentation from their physician, and any other requirements per school district, charter school, or service provider policy to the employing school district/service provider, prior to returning to their assigned duties.

4204-R-6.00 School Transportation Entry Level Driver Instructor Requirements

- 6.01 A CDE school transportation entry level driver instructor is a person qualified to teach either the theory and/or the behind-the-wheel curriculum, pursuant to 49 CFR, Part 380, Appendix B, C and D.
- 6.02 Pursuant to 49 CFR, Part 380.605, the CDE school transportation entry level theory instructor shall (1) possess a valid Colorado commercial driver's license with the Class B (or higher), School

Bus, and Passenger endorsements; and (2) have two years of verifiable experience operating a school transportation vehicle requiring a commercial operator's license with the Class B (or higher), School Bus, and Passenger endorsement in the State of Colorado.

6.02(a) Exception: A theory instructor is not required to hold a CDL of the same (or higher) class, and with all endorsements necessary to operate the CMV for which training is to be provided, if the instructor previously held a CDL of the same (or higher) class and complies with the other requirements set forth in this section.

6.03 The CDE school transportation entry level driver theory instructor shall successfully complete the CDE entry level theory instructor program initially, and every three years thereafter pass the CDE School Transportation Entry Level Theory Instructor Recertification Written Test.

6.04 Pursuant to 49 CFR, Part 380.605, the CDE school transportation entry level behind the wheel instructor shall (1) possess a valid Colorado commercial driver's license with the Class B (or higher), School Bus, and Passenger endorsements; and (2) have two years of verifiable experience operating a school transportation vehicle requiring a commercial operator's license with the Class B (or higher), School Bus, and Passenger endorsement in the State of Colorado.

6.04(a) Exception: A behind the wheel instructor who provides training solely on a range which is not a public road is not required to hold a CDL of the same (or higher) class, and with all endorsements necessary to operate the CMV for which training is to be provided, as long as the instructor previously held a CDL of the same (or higher) class, and with all endorsements necessary to operate the CMV for which training is to be provided and complies with the other requirements set forth in this section.

6.05 The CDE school transportation entry level driver behind the wheel instructor shall successfully complete the CDE entry level behind the wheel instructor program initially, and every three years thereafter pass the CDE School Transportation Entry Level Behind the Wheel Instructor Recertification Written Test.

6.06 If any of the above requirements become invalid, the school transportation entry level driver theory, and/or behind the wheel instructor certificate is invalid until the requirement(s) is made valid.

6.07 An entity on the Training Provider Registry shall submit the CDE Entry Level School Transportation Instructor Recertification Form (STU-11) to CDE, verifying that all applicable instructor requirements have been satisfied. CDE will then re-issue the applicable Instructor Certificate.

6.08 If a school transportation entry level driver instructor has an expired certificate, the certificate can be recertified as follows:

6.08(a) If the certificate has been expired less than six months, then the applicable CDE School Transportation Entry Level Driver Instructor Recertification Written Test(s) is required.

6.08(b) If the certificate has been expired between six and 12 months, then the applicable CDE School Transportation Entry Level Driver Instructor Program Written Test(s) is required.

6.08(c) If the certificate has been expired for more than one year, then the instructor must retake and pass the applicable CDE school transportation entry level driver instructor program(s).

~~4204-R-67.00~~ School Transportation Annual Inspector Requirements

~~67.01~~ A school transportation annual inspector is a person qualified to perform annual inspections on a school transportation vehicle to confirm the vehicle complies with CDE regulations.

~~67.02~~ School transportation annual inspectors shall meet or exceed the following requirements:

~~67.02(a)~~ The school transportation annual inspector shall possess a valid driver's license with the proper class and endorsements for the size and type of vehicle(s) to be inspected.

~~67.02(b)~~ The school transportation annual inspector shall provide to the school district, charter school, or service provider a Brake Inspector Qualification Certificate meeting the requirements of the Federal Motor Carrier Safety Regulations, 49 CFR section 396.25. ~~(2015-) (2021)(update). Only the Federal Motor Carrier Safety Regulations adopted as of October 1, 2015 (update) apply to this rule; later amendments do not apply. The federal regulations incorporated by reference in this rule are available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80209. In addition, these regulations are available at <https://www.ecfr.gov/>.~~

~~67.02(c)~~ The school transportation annual inspector shall have at least two years verifiable experience in the maintenance of light, medium, or heavy-duty vehicles.

~~67.02(d)~~ The school transportation annual inspector shall successfully pass the CDE initial hands-on performance test. proctored by a certified school transportation annual inspector hands-on-tester.

~~6.02(d)(1) A certified school transportation annual inspector hands-on tester must proctor the hands-on performance test.~~

~~67.02(e)~~ The school transportation annual inspector shall successfully pass the CDE annual inspector qualification written test initially, and every three years thereafter pass the CDE annual inspector recertification written test.

~~67.02(e)(1)~~ A representative of the school district, charter school, or service provider, other than a school transportation annual inspector candidate, shall grade the written test.

~~67.03~~ A school district, charter school, service provider or operator of an inspection site may submit a CDE Application for CDE Annual Inspector Qualification or Recertification Form (STU-20) to CDE verifying that the above requirements have been satisfied. CDE will then issue an Annual Inspector Certificate.

~~67.04~~ If any of the above requirements become invalid, the annual inspector certificate is invalid until

the requirement(s) is made valid.

~~67~~.05 If a school transportation annual inspector has an expired certificate, the certificate can be recertified as follows:

~~67~~.05(a) If the certificate has been expired less than six months, then the CDE Annual Inspector Recertification Written Test is required.

~~67~~.05(b) If the certificate has been expired between six and 12 months, then the CDE Annual Inspector Qualification Written Test is required.

~~67~~.05(c) If the certificate has been expired for more than one year, then both the CDE Annual Inspector Qualification Written Test and the CDE hands-on performance test are required.

~~4204-R-78.00~~ Annual Inspector Hands-On Tester

~~78~~.01 ~~A~~~~S~~chool transportation annual inspector hands-on tester is a person qualified to proctor hands-on tests to annual inspector candidates.

~~78~~.02 School transportation annual inspector hands-on testers shall meet or exceed the following requirements:

~~78~~.02(a) The school transportation annual inspector hands-on tester shall have maintained a CDE Annual Inspector certificate for a minimum of two years.

~~78~~.02(b) The school transportation annual inspector hands-on tester shall have satisfactorily completed a ~~four-hour~~ CDE school transportation annual inspector hands-on tester training.

~~78~~.02 (c) The school transportation annual inspector hands-on testers shall have completed a minimum of four hours verifiable medium/heavy brake system training ~~four-hour brake training~~ in the last three years or have maintained an ASE School Bus or Medium/Heavy Duty Truck or Transit Bus Brake Certification.

~~78~~.02(d) The school transportation annual inspector hands-on tester candidate shall submit a CDE Application for Certification or Recertification of CDE Annual Inspector Hands-On Tester Form (STU-30) verifying that the above criteria have been satisfied. CDE will then issue an Annual Inspector Hands-On Tester Certificate.

~~78~~.02(e) The school transportation annual inspector hands-on tester shall conduct at least two hands-on tests every three years or attend a CDE school transportation annual inspector hands-on recertification training to recertify as a school transportation annual inspector hands-on tester.

~~78~~.03 If any of the above requirements become invalid, the hands-on tester certificate is invalid until the requirement(s) is made valid, by retaking the tester training class in rule 8.02(b).

~~4204-R-89.00~~ Pre-trip/Post-trip Vehicle Inspections

- ~~89.01~~** Each school transportation vehicle shall have a daily pre-trip and post-trip inspection performed and documented by the school transportation vehicle operator or other transportation employee authorized by the school a district, charter school, or service provider. ~~authorized transportation employee.~~ A daily pre-trip inspection shall be completed prior to a vehicle being placed in service. A daily post-trip inspection shall be completed at the end of daily operation of each vehicle.
- ~~89.02~~** The pre-trip and post-trip inspection requirements for school transportation vehicles, other than small vehicles, shall include at a minimum all items listed on the CDE School Transportation Vehicle (School Bus/Multifunction Bus/Motor Coach Bus) – Pre-Trip and Post Trip Requirements Form (STU-9).
- ~~89.03~~** The pre-trip and post-trip inspection requirements for school transportation small vehicles shall include at a minimum all items listed on the CDE School Transportation Vehicle (Small Vehicle) – Pre-Trip and Post Trip Requirements Form (STU-8).
- ~~89.04~~** School districts, charter schools, and service providers shall have a procedure in place to verify that students are not left on an unattended school transportation vehicle.

~~4204-R-910.00~~ Inspection Site Certification

- ~~910.01~~** A CDE Inspection Site Certificate is required at each facility/location where annual inspections for school transportation vehicles are performed.
- ~~910.02~~** The inspection site shall meet or exceed the following criteria to acquire and maintain an inspection site certificate:
- ~~910.02(a)~~** The inspection site shall be large enough to accommodate the vehicle, equipment, and tools necessary to perform the inspection.
- ~~910.02(b)~~** The inspection site shall have a floor surface or pad adequate to safely support the maximum weight of the largest vehicle to be inspected.
- ~~910.02(c)~~** The inspection site shall have adequate lighting and ventilation.
- ~~910.02(d)~~** The inspection site or inspector shall, at the time of inspection, have the equipment and tools necessary to properly complete the annual inspection.
- ~~910.02(e)~~** The inspection site or inspector shall have tools designed and calibrated to take accurate readings of appropriate measurements, such as brakes and tires.
- ~~910.03~~** The operator of an inspection site shall submit a request for an inspection site certificate on the CDE Application for Inspecting Site Certification Form (STU-22) that the above criteria have been satisfied.
- ~~910.04~~** The operator of an inspection site shall post the CDE Inspection Site Certificate at the inspection site.

~~4204-R-1011.00~~ Annual Inspection

~~1011.01~~ School districts, charter schools and service providers shall ensure all school transportation vehicles and trailers pursuant to 1 CCR 301-26-R-~~1213~~.11 have a CDE annual inspection conducted by a CDE certified annual inspector prior to transporting students and annually thereafter.

~~1011.01(a)~~ Recently purchased school transportation vehicles shall successfully pass a CDE annual inspection prior to transporting students, and then annually thereafter.

~~1011.02~~ Annual inspection results shall be documented on the CDE Affidavit of Annual Inspection for School Transportation Vehicles Form (STU-25).

~~1011.02(a)~~ A copy of the current Affidavit must be is maintained inside the vehicle and a copy must be is placed in the vehicle file.

~~1011.03~~ All annual inspection criteria of school transportation vehicles must meet or exceed manufacturer's specifications. The annual inspection shall be documented and shall include at a minimum, all fields listed on the CDE Annual Inspection and Preventive Maintenance Requirements Form (STU-26).

~~1011.04~~ All annual inspection criteria of trailers must meet or exceed manufacturer's specifications, and shall include at a minimum, all fields listed on the CDE Trailer Annual Inspection and Preventive Maintenance Requirements Form (STU-27).

~~1011.05~~ During the annual inspection, all four wheels shall be pulled for full inspection of the foundation brake system. The three exceptions are:

~~1011.05(a)~~ School transportation vehicles with less than 4,000 miles since the previous annual inspection shall have two wheels (one front and one rear) pulled different than those pulled for the previous inspection.

~~1011.05(b)~~ School transportation vehicles equipped with a retarder meeting the specifications outlined in 1 CCR 301-25-R-33.00, shall have two wheels (one front and one rear) pulled which are different than those pulled for the previous inspection.

~~1011.05(c)~~ Trailers, pursuant to 1 CCR 301-26-R-~~1213~~.11, shall have 50 percent of the wheels pulled different than those pulled for the previous inspection.

~~4204-R-1112.00~~ Maintenance and Repair

~~1112.01~~ School districts, charter schools and service providers must ensure all school transportation vehicles are systematically inspected, maintained and repaired to ensure that school transportation vehicles are in safe and proper operating condition.

~~1112.02~~ School districts, charter schools and service providers shall have a system to document

preventative maintenance, reported defects and repairs made to school transportation vehicles.

- ~~1112~~.03 School districts, charter schools and service providers shall maintain separate files for each school transportation vehicle with documentation of all annual inspections, all preventative maintenance and all reported damage, defects or deficiencies and the corresponding repair and maintenance performed.
- ~~1112~~.04 Any identified damage, defect or deficiency of a school transportation vehicle must be reported to the school district, charter schools or service provider, ~~if it~~ which:
- ~~1112~~.04(a) Could affect the safety of operation of the school transportation vehicle; ~~or~~
- ~~1112~~.04(b) Could result in a mechanical breakdown of the school transportation vehicle; ~~or~~
- ~~1112~~.04(c) Results in noncompliance with Colorado Minimum Standards Governing School Transportation Vehicles (1 CCR 301-25) and/or manufacturer's specifications.
- ~~1112~~.05 Documentation for reported defects must include all ~~of~~ the following:
- ~~1112~~.05(a) The name of the school district, charter school or service provider; ~~and~~
- ~~1112~~.05(b) Date and time the report was submitted; ~~and~~
- ~~1112~~.05(c) All damage, defects or deficiencies of the school transportation vehicle; ~~and~~
- ~~1112~~.05(d) The name of the individual who prepared the report.
- ~~1112~~.06 Following a reported damage, defect, ~~or~~ deficiency of a school transportation vehicle, school districts, charter schools and service providers or a representative agent must repair the reported damage, defects or deficiencies, or document that no repair is necessary, ensuring that the vehicle is in safe and proper operating condition prior to transporting students.
- ~~1112~~.07 School districts, charter schools and service providers shall not transport students in a school transportation vehicle which is not in safe and proper operating condition. A school transportation vehicle shall be designated as "out-of-service" by a school district, charter schools or service provider, a school transportation annual inspector or the CDE School Transportation Unit.
- ~~1112~~.07(a) ~~Exemption~~— Any school transportation vehicle discovered to be in an unsafe condition while being operated on the highway, roadway, ~~or~~ private road may be continued in operation only to the nearest place where repairs can safely be affected. Such operation shall be conducted only if it is less hazardous to the public than to permit the vehicle to remain on the highway, roadway, ~~or~~ private road.
- ~~1112~~.08 Following a school transportation vehicle being placed "out-of-service", a school district, charter school, service provider or a representative agent must make required repairs, ensuring that the vehicle is in safe and proper operating condition prior to transporting students. In the event of being placed "out-of-service" during an annual inspection, the school

transportation vehicle must successfully pass a CDE annual inspection prior to transporting students.

~~1112~~.09 The preventative maintenance inspection on air drum brake systems shall include, at a minimum, that the brake rod travel has been measured and documented. The applied pressure method shall be used.

~~1112~~.09(a) The inspection-interval shall not exceed 4,000 miles for buses equipped with a manual slack adjuster air brake system.

~~1112~~.09(b) The inspection-interval shall not exceed 6,000 miles for buses equipped with an automatic slack adjuster air brake system.

~~1112~~.10 The preventive maintenance inspection interval on air disc brake systems shall not exceed 6,000 miles and shall include, at a minimum; inspection and documentation of:

~~1112~~.10(a) ~~Inspect~~ ~~t~~ The pad thickness by checking the mechanical wear indicators.

~~1112~~.10(b) ~~Inspect~~ ~~t~~ The visible part of the rotors for cracks, excessive wear, damage, etc.

~~1112~~.10(c) ~~Inspect~~ The running clearance. If the caliper has no movement or appears to move greater than the distances indicated by the manufacturer, then a full wheel removal inspection will be necessary.

~~1112~~.11 The preventive maintenance inspection interval for hydraulic brake systems shall not exceed 6,000 miles and shall include, at a minimum, inspection and documentation of:

~~1112~~.11(a) Proper parking brake operation~~;~~;

~~1112~~.11(b) Proper brake fluid level and clarity~~;~~;

~~1112~~.11(c) Adequate pedal reserve~~;~~;

~~1112~~.11(d) Proper hydraulic/vacuum assist operation~~;~~;~~and~~

~~1112~~.11(e) Visual inspection for brake fluid leakage.

~~1112~~.12 If brake adjustment or repair is needed, the work shall be completed by or supervised by a DOT or equivalent qualified brake inspector meeting the requirements of the Federal Motor Carrier Safety Regulations, 49 CFR section 396.25 (2015). ~~Only the Federal Motor Carrier Safety Regulations adopted as of October 1, 2015 apply to this rule; later amendments do not apply. The federal regulations incorporated by reference in this rule are available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80209. In addition, these regulations are available at <https://www.ecfr.gov/>.~~

~~4204 R-1213.00~~ Operation of a School Transportation Vehicle

- ~~1213.01~~ A school transportation vehicle shall not be operated in a manner which is unsafe, or likely to cause an accident, or likely to damage ~~of~~ the vehicle.
- ~~1213.02~~ A school transportation vehicle shall not be placed in motion on a roadway, highway or private road with the passenger entry door/service door open.
- ~~1213.03~~ A school transportation vehicle's headlights or daytime running headlights shall be activated while the vehicle is in operation.
- ~~1213.04~~ A school transportation vehicle shall not be fueled while students are on board, except in instances when unloading the students would present a greater hazard or peril to their safety.
- ~~1213.05~~ Use of tobacco products as defined in Section 18-13-121(5), C.R.S., use or possession of illegal controlled substances, use or possession of alcohol and use or possession of marijuana or cannabinoid product, except as otherwise allowed by law, aboard any school transportation vehicle shall be prohibited at all times.
- ~~1213.06~~ A school transportation vehicle operator shall not consume food unless the vehicle is stopped at a safe location with the park/emergency brake set.
- ~~1213.07~~ When a school transportation vehicle is equipped with a roof mounted strobe lamp, the use of the strobe lamp is permitted only when the vehicle presents a hazard to other motorists, such as loading or unloading students in inclement weather or to enhance visibility of the vehicle when barriers inhibit such visibility.
- ~~1213.08~~ A school transportation vehicle operator may use the strobe, in addition to the four-way hazard lamps, to warn other motorists that the vehicle is not in motion or is being operated at a speed of twenty-five miles per hour or less.
- ~~1213.09~~ The school transportation vehicle operator shall use extreme caution when backing. Before backing on a roadway, highway or private property, the horn or audible warning device shall be sounded and four-way hazard lamps actuated or there shall be a person outside the vehicle giving direction.
- ~~1213.09(a)~~ Backing a school transportation vehicle when students are outside of the vehicle at a student stop is prohibited.
- ~~1213.10~~ ~~School transportation vehicles including-~~ A Type A, B, C, and D School Bus, Multifunction Bus and Motor Coach Bus shall not be operated with a trailer or other vehicle attached while students are being transported.
- ~~1213.11~~ School transportation small vehicles, with the capacity of 15 or fewer passengers (counting the driver), may tow trailers while students are being transported to the extent that trailering is a necessary component of a school district or charter school sponsored program.

~~4204-R-1314.00~~ Authorized Passengers

- ~~1314.01~~ Only school district, ~~or~~ charter school, or service provider personnel; ~~students enrolled in a school district or charter school;~~ or law enforcement officials; or individuals that have received prior authorization from the school district, charter schools or service provider may be passengers on any school transportation vehicle.
- ~~1314.02~~ The number of passengers transported on any school transportation vehicle shall not exceed the maximum seating capacity of the vehicle. Small vehicle capacity shall not exceed the number of safety belts as designed by the vehicle manufacturer.
- ~~1314.03~~ Passengers shall not be permitted to stand in any school transportation vehicle while the vehicle is in motion. This does not preclude authorized persons (such as school transportation paraprofessionals) from completing their duties as required.
- ~~1314.04~~ School districts, charter schools, and service providers shall consider the size of the passengers when determining the number of passengers that can safely occupy a school transportation vehicle seat.

~~4204-R-1415.00~~ Safety Restraints

- ~~1415.01~~ A school transportation vehicle operator shall have the safety belt fastened, worn correctly and properly adjusted prior to the school transportation vehicle being placed in motion.
- ~~1415.02~~ All passengers in a school transportation vehicle under 10,000 lbs. GVWR shall have their safety belts fastened, worn correctly and properly adjusted prior to the school transportation vehicle being placed in motion.

~~4204-R-1516.00~~ Transportation of Miscellaneous Items

- ~~1516.01~~ A school transportation vehicle operator shall ensure-make-a-reasonable-and-prudent determination that all carry-on items are properly handled in order to minimize the danger to all others.
- ~~1516.02~~ All baggage, articles, equipment or medical supplies (except those not held by individual passengers) shall be secured in a manner which assures unrestricted access to all exits by occupants, does not restrict the driver's ability to operate the bus and protects all occupants against injury resulting from falling or displacement of any baggage, article, or equipment. Oxygen cylinders meet this standard if they are both medically necessary and secured to a wheelchair, shall be considered to be in compliance with this subsection, provided they do not impede access to any exit. School districts, charter schools, and service providers shall use reasonable care in determining the number of cylinders that may be safely transported at one time.
- ~~1516.03~~ All chemicals and cleaning supplies carried on a school transportation vehicle must meet the following precautions:
- ~~1516.03(a)~~ Container is non-breakable; or

~~1516~~.03(b) Container is labeled with contents;~~;~~

~~1516~~.03(c) Pressurized aerosols are prohibited;~~;~~

~~1516~~.03(d) Container is secured in a bracket, or in a closed compartment in the driver's area or a compartment on the exterior of the bus; ~~and~~

~~1516~~.03(e) Containers and quantities of products ~~are must be~~ no more than 32 ounces in size.

~~1516~~.04 Interior-decorations shall not be located within the driver's area (~~which includ~~~~ing~~-es the space in front of the front barriers, ~~including~~ the step-well, dash, walls and ceiling, the windshield, the entry door, the driver's side window, and all windows in front of the front barrier), the first two passenger windows on both sides of the vehicle ~~and or~~ all windows on the rear of the vehicle. Other decorations within the passenger compartment shall not;~~;~~

~~1516~~.04(a) Cover any required lettering;~~;~~

~~1516~~.04(b) Impede the aisle or any emergency exit;~~;~~

~~1516~~.04(c) Hang from the walls and/or ceiling.

~~4204 R-1617.00~~ Maximum Driving Time for School Transportation Vehicle Operators

~~1617~~.01 ~~The s~~ School transportation vehicle operators~~s~~, including small vehicle operators, shall not drive (nor shall the school districts~~s~~, charter schools, or service providers~~s~~ permit or require ~~an~~ operators~~s~~ to drive);

~~1617~~.01(a) In excess of 10 hours or after being on-duty 14 hours until completing 10 hours off-duty. This would include on-duty time for all employers. Ten hours off-duty may be consecutive or accumulated in two or more periods of off-duty time with one period having a minimum of ~~6~~six consecutive hours off-duty.

~~1617~~.01(b) After being on-duty for more than 70 hours in any seven consecutive days.

~~1617~~.01(c) In case of emergency, an operator may complete the trip without being in violation if such trip reasonably could have been completed absent the emergency.

~~1617~~.02 In ~~lieu place~~ of section ~~1617~~.00 of these rules, ~~the a~~ school district, charter school, or service provider may comply with the Federal Motor Carrier Safety Regulations, 49 CFR section 395.1.43 (2015). ~~Only the Federal Motor Carrier Safety Regulations adopted as of October 1, 2015 apply to this rule; later amendments do not apply. The federal regulations incorporated by reference in this rule are available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80209. In addition, these regulations are available at <https://www.ecfr.gov/>.~~

~~1617~~.03 Definitions:

~~16.03(a) Adverse driving conditions—In case of emergency, an operator may complete the trip~~

~~without being in violation if such trip reasonably could have been completed absent the emergency.~~

~~1617.03~~(~~ba~~) Day - Means any 24-consecutive hour period beginning at the time designated by the school district, charter school, or service provider.

~~1617.03~~(~~eb~~) On-duty time - Includes all time worked for ~~any and~~ all employers, including all driving and non-driving duties.

~~1617.03~~(~~ec~~) Off-duty time - School transportation vehicle operators may consider waiting time (whether compensated time or not) at special events, meal stops, and school related events as off-duty if the following criteria are met: ~~(Compensated waiting time does not necessitate on-duty time.)~~

~~1617.03~~(~~ec~~)(1) The operator shall be relieved of all duty and responsibility for the care and custody of the vehicle, its accessories, and students, and

~~1617.03~~(~~ec~~)(2) The operator shall be at liberty to pursue activities of his/her choice, including leaving the premises on which the bus is located.

~~1617.04~~ All school transportation vehicle operators shall document that they are in compliance with this section, hours of service.

~~1617.04~~(a) An operator's daily log, or equivalent, shall be completed for the trip in the operator's own handwriting when the trip requires a scheduled or unscheduled overnight stay away from the work reporting location.

~~4204-R-1718.00~~ **Route Planning – Student Loading and Discharge**

~~1718.01~~ School transportation small vehicles, Type A Multifunction Buses with 15 or fewer passenger capacity (counting the driver) and School Buses (Types A, B, C, and D) may be used to transport students to and from school. Multifunction Buses Type B, C, ~~and~~ D, and Motor Coach Buses shall not be used to transport students to and from school.

~~1718.02~~ The location of student stops shall consider factors including:

~~1718.02~~(a) Ages of the students;

~~1718.02~~(b) Visibility;

~~1718.02~~(c) Lateral clearance;

~~1718.02~~(d) Student access; and

~~1718.02~~(e) Control of other motorists.

~~1718.02~~(e)(1) Student stops for Type A Multifunction Buses with 15 or fewer passenger capacity (counting the driver) and school transportation small vehicles

should be located off of the roadway whenever possible.

~~1718.03~~ School transportation vehicle operators shall stop at least 10 feet away from students at each designated stop. The school transportation vehicle operator shall apply the parking brake and shift the vehicle into neutral or park prior to opening the service door of a bus or the passenger door(s) of a small vehicle.

~~1718.04~~ The school transportation vehicle operator shall stop as far to the right of the roadway, highway or private road as possible before discharging or loading passengers, allowing sufficient area to the right and front of the vehicle but close enough to the right to prevent traffic from passing on the right so that students may clear the vehicle safely while in sight of the operator.

~~1718.04(a)~~ Exception: The school transportation vehicle operator may block the lane of traffic when passengers being received or discharged are required to cross the roadway.

~~1718.05~~ Student stops shall not be located on the side of any major thoroughfare whenever access to the destination of the passenger is possible by ~~the use of~~ a road or street which is adjacent to the major thoroughfare.

~~1718.06~~ ~~School districts, charter schools and service providers shall ensure that if~~ if students are required to cross a roadway, highway or private road on which a student stop is being performed, they are prohibited from crossing a roadway, highway or private road constructed or designed to permit three or more separate lanes of vehicular traffic in either direction or with a median separating multiple lanes of traffic. ~~This does not include crossing the roadway, highway or private road with the assistance of a traffic controls signal or with the assistance of a crossing guard.~~

~~1718.07~~ Four-way hazard lamps shall be used on private property such as parking lots.

~~1718.08~~ Alternating flashing red warning signal lamps shall not be activated within 200 feet of an intersection if the intersection is controlled by a traffic control signal.

~~1718.09~~ Routes shall be planned as to:

~~1718.09(a)~~ Eliminate, when practical, railroad crossings; and

~~1718.09(b)~~ Have stops be a minimum of 200 feet apart (since alternating flashing amber warning signal lamps must be activated a minimum of 200 feet in advance of the stop).

~~1718.09(b)(1)~~ Exception: In ~~Student stops located in~~ areas where wildlife may create a high risk of threat to students' safety while they are waiting and/or walking to a student stop, designated stops may be ~~may designate student stops~~ less than 200 feet apart upon detailed written approval by the school district board of education or governing body of a charter school ~~and/(or the board's their designee)~~. A copy of the written approval shall be kept in the school transportation office and route

operators shall be given written notice of the exception and have it indicated on route sheets.

- ~~1718~~.10 In determining the length of routes, school districts, charter schools and service providers must make an effort to minimize student ride times while considering student educational needs, ~~and the~~ geographic boundaries, terrain, traffic congestion, and financial resources within the district. A local board of education, or the governing body of a charter school, may establish a maximum student ride time.
- ~~1718~~.11 Pursuant to Section 42-4-1903(2), C.R.S., school transportation vehicle operators are not required to actuate the alternating flashing red warning signal lamps on a school bus (1) when the student stop is at a location where the local traffic regulatory authority has by prior written designation declared such actuation unnecessary and (2) when discharging or loading passengers who require the assistance of a lift device and no passenger is required to cross the roadway. Further, Type A Multifunction Buses with 15 or fewer passenger capacity (counting the driver) and school transportation small vehicles do not have the functionality to control traffic. In these instances, the school transportation vehicle operator shall stop as far to the right off the roadway as possible to reduce obstruction to traffic, activate the four-way hazard warning lamps a minimum of 200 feet prior to the student stop, continue to display the four-way hazard warning lamps until the process of discharging or loading passengers has been completed, and deactivate the four-way hazard lamps before resuming motion. Students are prohibited from crossing any lanes of traffic to access the student stop or after disembarking.
- ~~1718~~.12 School transportation vehicle operators shall not relocate a student stop without approval of the school district, charter school, or service provider.
- ~~1718~~.13 Pursuant to 42-4-707 C.R.S., School transportation vehicle operators of School Buses, Multifunction Buses and Motor Coach Buses, whether transporting students or not, shall apply the following procedures during the process of approaching, stopping and crossing railroad tracks:
- ~~1718~~.13(a) Activate the four-way hazard lamps not less than 200 feet from the railroad crossing to alert other motorists of the pending stop for the crossing;~~;~~
- ~~1718~~.13(b) Stop the bus within 50 feet but not less than 15 feet from the nearest rail~~;~~
- ~~1718~~.13(c) When stopped, the bus ~~should~~ shall be as far to the right of the roadway as possible and ~~should~~ shall not form two lanes of traffic unless the highway is marked for four or more lanes of traffic;~~;~~ and
- ~~1718~~.13(d) Use a prearranged signal to alert students to the need for quiet aboard the bus when approaching railroad tracks. Turn off all noise making equipment (fans, heater, radio, etc.)
- ~~1718~~.14 After quietness aboard the stopped bus has been achieved, bus operators shall open the service door and operator window. The bus operator shall listen and look in both directions along the track(s) for any approaching train(s) and for signals indicating the approach of a train.

~~1718~~.14(a) If the tracks are clear, the bus operator shall close the service door and may then proceed in a gear low enough to permit crossing the tracks without having to manually shift gears. The bus operator shall cancel the four-way hazard lamps after the bus has cleared the tracks.

~~1718~~.14(b) When two or more tracks are to be crossed, the bus operator shall not stop a second time unless the bus is completely clear of the first crossing, ~~with and has~~ at least 15 feet clearance in front and at least 15 feet clearance to the rear.

~~1718~~.14(c) Before crossing the tracks, the bus operator shall verify that there is enough space after the tracks for the bus plus 15 feet if it is necessary to stop after crossing the tracks.

~~1718~~.15 School transportation vehicle operators of School Buses, Multifunction Buses and Motor Coach Buses are not required to stop at crossings ~~only~~ controlled ~~only~~ by a red, amber, green traffic control signal when it is in the green position, or when the crossing is controlled by a police officer or human flag person, or when the crossing is marked with an official “exempt” sign placed on the railroad crossing light post or cross bucks post.

~~4204-R-1819.00~~ **Emergency Evacuation Drills**

~~1819~~.01 Emergency evacuation drills shall be conducted with students by all school transportation vehicle operators and school transportation paraprofessionals at least twice during each school year.

~~1819~~.01(a) One drill shall be conducted in the fall and the second drill conducted in the spring.

~~1819~~.01(b) Substitute and Multifunction operators of 16 or greater ~~vehicle~~ capacity (counting the driver) ~~vehicles~~ shall be trained how to conduct the emergency evacuation drills.

~~1819~~.02 Students on school related events shall receive emergency evacuation instruction prior to departure.

~~1819~~.03 School districts, charter schools, and service providers shall maintain records documenting that the required evacuation drills were conducted and/or evacuation instruction was given.

20.0 Incorporation by Reference

The foregoing rules incorporate by reference several sections and appendices from the Federal Motor Carrier Safety Regulations, 49 CFR, Parts 380, 382, 391, 395, and 396 (as codified as of April 19, 2021). The foregoing rules do not incorporate by reference any later amendment or editions to the Federal Motor Carrier Safety Regulations.

The Federal Motor Carrier Safety Regulations are available at <https://www.ecfr.gov/>. They are also available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80203.

COLORADO RULES FOR THE OPERATION, MAINTENANCE, AND INSPECTION OF SCHOOL TRANSPORTATION VEHICLES

1 CCR 301-26

1.0 Statement of Basis and Purpose

- 1.01 Colorado law provides for the State Board of Education to adopt and enforce regulations governing the safe operation of school buses used for the transportation of students pursuant to Sections 22-51-108 and 42-4-1904, C.R.S.
- 1.02 The purpose of these rules is to adopt and enforce regulations governing the reasonable and adequate standards of safety for the operation, maintenance and inspection of school transportation vehicles that promote the welfare of the students and afford reasonable protection to the public. These rules are designed to align with federal standards, reflect current industry practices, and incorporate recommendations from school district, charter school, and service provider transportation professionals.
- 1.03 The Commissioner, or designee, may provide an exemption to the Rules for the Operation, Maintenance and Inspection of School Transportation Vehicles to the extent the Commissioner finds an exemption to be appropriate.

2.0 Applicability of Rules

- 2.01 These rules and regulations apply to the operation, maintenance and inspection of all public-school transportation conducted by:
 - 2.01(a) A school district, charter school, or service provider for routes (home to school, school to school, and school to home); and
 - 2.01(b) A school district, charter school, or service provider for activity trips (school related events);
 - 2.01 (c) As used in these Rules, “service provider” means a company or individual hired by a school district or charter school.
- 2.02 These rules are not intended to include:
 - 2.02(a) Private motor vehicles used exclusively to carry members of the owner's household;
 - 2.02(b) Transportation arrangements not authorized by the school district, charter school, or service provider, including but not limited to sharing of actual gasoline expense or participation in a car pool;
 - 2.02(c) The operations of vehicles in bona fide emergency situations consistent with policies of the local board of education;
 - 2.02(d) Transportation conducted by a company or individual for activity trips (school related events),

including service providers, parent volunteers, and coaches or teachers using a private motor vehicle; or

2.02(e) Transportation provided by a company or individual as part of their operation as a common carrier, or transportation network company operating pursuant to Section 40-10.1-602, C.R.S., under the jurisdiction of the US Department of Transportation or the Public Utilities Commission.

2.03 These rules shall not preclude a school district, charter school, or service provider from establishing a more rigid standard or policy when deemed necessary by the local board of education or service provider.

3.0 Non-Compliance

3.01 CDE will perform periodic School Transportation Advisory Reviews (STAR) of school districts, charter schools and service providers to evaluate and assist with compliance of these rules.

3.01(a) CDE will provide school districts, charter schools and service providers written notification of the STAR findings.

3.01(b) Upon receipt of the written notification of STAR findings, school districts, charter schools and service providers shall respond in writing to outline corrective actions if necessary.

3.02 CDE shall revoke or suspend the certificate for a school transportation annual inspector, school transportation annual inspector hands-on tester, school transportation entry level driver instructor, or inspection site under the following circumstances:

3.02(a) A school transportation annual inspector, school transportation annual inspector hands-on tester, school transportation entry level driver instructor, or inspection site does not meet the requirements outlined in these rules; or

3.02(b) School transportation annual inspections, school transportation entry level driver instruction, or hands-on tests have not been properly conducted.

4.0 School District, Charter School and Service Provider Employment Responsibilities

4.01 School districts, charter schools and service providers shall outline job responsibilities and develop job qualification standards for each school transportation vehicle operator and school transportation paraprofessionals, annual inspector, and school transportation entry level driver instructor, consistent with federal and state regulations. A copy of these requirements shall be provided to each school transportation vehicle operator, annual inspector, school transportation entry level driver instructor, and paraprofessional upon employment. A copy shall also be maintained in the applicable qualification file.

4.02 School districts, charter schools and service providers shall maintain separate files for each school transportation vehicle operator, school transportation paraprofessional, school transportation entry level driver instructor, and school transportation annual inspector with

written documentation evidencing all listed requirements indicated in Rule 5.00, Rule 6.00 and Rule 7.00, as applicable. Training documentation shall include the trainer name, date of the training, description of the training, duration of each topic covered and the signature of all attendees.

- 4.02(a) If a school transportation vehicle operator, school transportation paraprofessional, or school transportation annual inspector works for more than one school district, charter school, service provider, or operator of an inspection site, each employer shall maintain a file with documentation in accordance with this rule.
- 4.03 Pursuant to 49 CFR, Part 382, Subpart G, school districts, charter schools, and service providers shall ensure that all employees required to possess a commercial driver's license (CDL) are enrolled in the Federal Motor Carrier Administration Drug and Alcohol Clearinghouse and in a US DOT- approved substance abuse testing program.
- 4.04 School districts, charter schools and service providers shall not permit a school transportation vehicle operator to transport students, while the operator's ability or alertness is so impaired, through fatigue, illness or any other cause, as to make it unsafe for the operator to transport students.
- 4.05 School districts, charter schools and service providers shall have written emergency procedures and/or contingency plans to be followed in the event of a traffic accident, vehicle breakdown, unexpected school closing, unforeseen route change, or relocation of a student stop in an emergency.
- 4.06 School districts, charter schools and service providers shall ensure that documentation outlining transportation related services and requirements, including required use of Child Safety Restraint Systems and medical and behavioral information as it relates to student transportation, is available to applicable school transportation vehicle operators and paraprofessionals prior to providing transportation services.
- 4.07 Pursuant to 49 CFR, Part 380, Subpart F, 380.601, effective February 7, 2022, school districts, charter schools, and service providers shall ensure that all entry level school transportation operators required to possess a commercial driver's license (CDL) receive pre-service training in compliance with the FMCSA theory and behind-the-wheel training curricula via an entity listed on the FMCSA training provider registry (TPR).

5.0 School Transportation Vehicle Operator Requirements

- 5.01 School transportation vehicle operators driving any vehicle with the capacity of 16 or greater passengers (counting the driver) shall meet or exceed the following requirements:
- 5.01(a) The operator shall possess a valid commercial driver's license (CDL) with the proper class and endorsements for size and type of vehicle(s) to be driven and the associated Medical Examination Report required pursuant to the Federal Motor Carrier Safety Regulations, 49 CFR section 391.43.
- 5.01(b) The operator shall be a minimum of 18 years of age.

- 5.01(c) School districts, charter schools, and service providers shall obtain a motor vehicle record of each operator prior to transporting students and annually thereafter.
 - 5.01(d) The operator shall be given and/or have access to the CDE School Bus/Multifunction Bus/Motor Coach Bus Operator Guide prior to transporting students. A copy of the Certificate of Receipt, signed by the operator, shall be placed in the driver qualification file.
 - 5.01(e) The operator shall receive a minimum of six hours of in-service training annually. A portion of this annual in-service requirement may occur during the school year.
 - 5.01(f) The operator shall successfully pass a CDE School Bus/Multifunction Bus/Motor Coach Bus Operator written test for the current school year prior to transporting students and annually thereafter.
 - 5.01(g) The operator shall successfully pass a driving performance test including a pre-trip inspection prior to transporting students and annually thereafter. This test shall be conducted in a vehicle, which is similar in type and size to the vehicle the applicant is assigned to operate. School districts, charter schools, and service providers have the option to re-test at their discretion.
 - 5.01(h) The operator shall receive pre-service training on the type of vehicle(s) to be driven, the type of duties they may be required to perform, mountain and adverse weather training pursuant to C.R.S. 42-4-1902, and student confidentiality requirements prior to transporting students.
 - 5.01(i) The operator shall have written documentation evidencing that they have received first aid training, including cardiopulmonary resuscitation and universal precautions within 90 calendar days after initial employment. If the operator holds a current first aid and cardiopulmonary resuscitation certificate it will meet the requirements of this section. Operators shall receive first aid training and/or re-certification every two (2) years thereafter.
 - 5.01(j) The operator shall receive training regarding the proper use and maintenance of Child Safety Restraint Systems (CSRS) and proper wheelchair securement when the operator is engaged in transportation involving these systems and devices, prior to transporting students.
 - 5.01(k) Effective February 7, 2022, entry level commercial operators shall have a copy of their training certificate, and training syllabus from a training provider listed on the FMCSA Training Provider Registry (TPR) placed in their qualification file, indicating that they have passed all required FMCSA pre-service training.
- 5.02 School transportation vehicle route operators (transporting students to and from school or from school to school) driving vehicles with the capacity of 15 or fewer passengers (counting the driver), including Type A Multifunction Bus and Small Vehicle, shall meet or exceed the following requirements:

- 5.02(a) The operator shall possess a valid driver's license.
- 5.02(b) The operator shall be a minimum of 18 years of age.
- 5.02(c) The operator shall have a current physical examination (not to exceed two years) consistent with the requirements of the Federal Motor Carrier Safety Regulations, 49 CFR section 391.43.
- 5.02(d) School districts, charter schools, and service providers shall obtain a motor vehicle record of each operator prior to transporting students and annually thereafter.
- 5.02(e) The operator shall be given and/or have access to the CDE Type A Multifunction Bus/ Small Vehicle Route Driver Guide prior to transporting students. A copy of the Certificate of Receipt, signed by the operator, shall be placed in the driver qualification file.
- 5.02(f) The operator shall receive a minimum of six hours of in-service training annually. A portion of this annual in-service requirement may occur during the school year.
- 5.02(g) The operator shall successfully pass a CDE Type A Multifunction Bus/Small Vehicle Route Operator written test for the current school year prior to transporting students and annually thereafter.
- 5.02(h) The operator shall successfully pass a driving performance test including a pre-trip inspection prior to transporting students and annually thereafter. This test shall be conducted in a vehicle, which is similar in type and size to the vehicle the applicant is assigned to operate. School districts, charter schools and service providers have the option to re-test at their discretion.
- 5.02(i) The operator shall receive pre-service training on the type of vehicle(s) to be driven, the type of duties they may be required to perform, mountain and adverse weather training pursuant to C.R.S. 42-4-1902, and student confidentiality requirements prior to transporting students.
- 5.02(j) The operator shall have written documentation evidencing that they have received first aid training, including cardiopulmonary resuscitation and universal precautions within 90 calendar days after initial employment. If the operator holds a current first aid and cardiopulmonary resuscitation certificate it will meet the requirements of this section. Operators shall receive first aid training and/or re-certification every two (2) years thereafter.
- 5.02(k) The operator shall receive training regarding the proper use and maintenance of Child Safety Restraint Systems (CSRS) and proper wheelchair securement, when the operator is engaged in transportation involving these systems and devices prior to transporting students.

- 5.03 School transportation vehicle operators, other than route operators, driving vehicles with the capacity of 15 or fewer passengers (counting the driver), including Type A Multifunction Bus and Small Vehicle, shall meet or exceed the following requirements:
- 5.03(a) The operator shall possess a valid driver's license.
 - 5.03(b) The operator shall be a minimum of 18 years of age.
 - 5.03(c) School districts, charter schools, and service providers shall obtain a motor vehicle record of each operator prior to transporting students and annually thereafter.
 - 5.03(d) The operator shall be given and/or have access to the CDE Type A Multifunction Bus/ Small Vehicle Operator Guide prior to transporting students. A copy of the Certificate of Receipt, signed by the operator, shall be placed in the driver qualification file.
 - 5.03(e) The operator shall successfully pass a Type A CDE Multifunction Bus/Small Vehicle Operator written test for the current school year prior to transporting students and annually thereafter.
 - 5.03(f) The operator shall annually complete the CDE Multifunction/Small Vehicle Operators Medical Information Form (STU-17). Any yes annotations shall require a doctor's release.
 - 5.03(g) The operator shall receive pre-service training on the type of vehicle(s) to be driven, the type of duties they may be required to perform, mountain and adverse weather training pursuant to C.R.S 42-4-1902, and student confidentiality requirements prior to transporting students.
 - 5.03(h) The operator shall be given and/or have access to first aid information, including cardiopulmonary resuscitation and universal precautions.
 - 5.03(i) The operator shall successfully pass a driving performance test including a pre-trip inspection prior to transporting students. This test shall be conducted in a vehicle, which is similar in type and size to the vehicle the applicant is assigned to operate. School districts, charter schools, and service providers have the option to re-test in subsequent years at their discretion.
 - 5.03(j) Prior to driving a school transportation vehicle pursuant to 1 CCR 301-26-R-,13.11 operators shall receive training on towing a trailer.
- 5.04 A school transportation paraprofessional is a person assigned to assist a school transportation vehicle operator to control the behavior of students in the bus and/or ensure the safety of students getting on and off the school transportation vehicle.
- 5.04(a) The school transportation paraprofessional shall receive pre-service training for the type of duties they may be required to perform prior to assisting with transporting students.

5.05 School transportation vehicle operators and school transportation paraprofessionals are required to be able to perform all essential functions including emergency evacuations when transporting students as determined by the school district, charter school, or service provider job qualification standards.

5.05(a) The employing school district, charter school, or service provider has the authority to require at any time a medical evaluation of a school transportation vehicle operator or school transportation paraprofessional for any condition that could impair the employee's ability to operate a vehicle safely, assist student(s) as required by their position, and/or perform other required job duties, and may take appropriate action on the outcome of such evaluation.

5.05(b) School transportation vehicle operators and school transportation paraprofessionals that have medical conditions which result in temporary loss of performance abilities shall provide return-to-work documentation from their physician, and any other requirements per school district, charter school, or service provider policy to the employing school district/service provide prior to returning to their assigned duties.

6.0 School Transportation Entry Level Driver Instructor Requirements

6.01 A CDE school transportation entry level driver instructor is a person qualified to teach either the theory and/or the behind-the-wheel curriculum, pursuant to 49 CFR, Part 380, Appendix B, C and D.

6.02 Pursuant to 49 CFR, Part 380.605, the CDE school transportation entry level theory instructor shall (1) possess a valid Colorado commercial driver's license with the Class B (or higher), School Bus, and Passenger endorsements; and (2) have two years of verifiable experience operating a school transportation vehicle requiring a commercial operator's license with the Class B (or higher), School Bus, and Passenger endorsement in the State of Colorado.

6.02(a) Exception: A theory instructor is not required to hold a CDL of the same (or higher) class, and with all endorsements necessary to operate the CMV for which training is to be provided, if the instructor previously held a CDL of the same (or higher) class and complies with the other requirements set forth in this section.

6.03 The CDE school transportation entry level driver theory instructor shall successfully complete the CDE entry level theory instructor program initially, and every three years thereafter pass the CDE School Transportation Entry Level Theory Instructor Recertification Written Test.

6.04 Pursuant to 49 CFR, Part 380.605, the CDE school transportation entry level behind the wheel instructor shall (1) possess a valid Colorado commercial driver's license with the Class B (or higher), School Bus, and Passenger endorsements; and (2) have two years of verifiable experience operating a school transportation vehicle requiring a commercial operator's license with the Class B (or higher), School Bus, and Passenger endorsement in the State of Colorado.

6.04(a) Exception: A behind the wheel instructor who provides training solely on a range which is not a public road is not required to hold a CDL of the same (or higher) class, and with all endorsements necessary to operate the CMV for which training is to be provided, as

long as the instructor previously held a CDL of the same (or higher) class, and with all endorsements necessary to operate the CMV for which training is to be provided and complies with the other requirements set forth in this section.

- 6.05 The CDE school transportation entry level driver behind the wheel instructor shall successfully complete the CDE entry level behind the wheel instructor program initially, and every three years thereafter pass the CDE School Transportation Entry Level Behind the Wheel Instructor Recertification Written Test.
- 6.06 If any of the above requirements become invalid, the school transportation entry level driver theory, and/or behind the wheel instructor certificate is invalid until the requirement(s) is made valid.
- 6.07 An entity on the Training Provider Registry shall submit the CDE Entry Level School Transportation Instructor Recertification Form (STU-11) to CDE, verifying that all applicable instructor requirements have been satisfied. CDE will then re-issue the applicable Instructor Certificate.
- 6.08 If a school transportation entry level driver instructor has an expired certificate, the certificate can be recertified as follows:
 - 6.08(a) If the certificate has been expired less than six months, then the applicable CDE School Transportation Entry Level Driver Instructor Recertification Written Test(s) is required.
 - 6.08(b) If the certificate has been expired between six and 12 months, then the applicable CDE School Transportation Entry Level Driver Instructor Program Written Test(s) is required.
 - 6.08(c) If the certificate has been expired for more than one year, then the instructor must retake and pass the applicable CDE school transportation entry level driver instructor program(s).

7.0 School Transportation Annual Inspector Requirements

- 7.01 A school transportation annual inspector is a person qualified to perform annual inspections on a school transportation vehicle to confirm the vehicle complies with CDE regulations.
- 7.02 School transportation annual inspectors shall meet or exceed the following requirements:
 - 7.02(a) The school transportation annual inspector shall possess a valid driver's license with the proper class and endorsements for the size and type of vehicle(s) to be inspected.
 - 7.02(b) The school transportation annual inspector shall provide to the school district, charter school, or service provider a Brake Inspector Qualification Certificate meeting the requirements of the Federal Motor Carrier Safety Regulations, 49 CFR section 396.25.
 - 7.02(c) The school transportation annual inspector shall have at least two years verifiable experience in the maintenance of light, medium, or heavy-duty vehicles.

- 7.02(d) The school transportation annual inspector shall successfully pass the CDE initial hands-on performance test proctored by a certified school transportation annual inspector hands-on-tester.
- 7.02(e) The school transportation annual inspector shall successfully pass the CDE annual inspector qualification written test initially, and every three years thereafter pass the CDE annual inspector recertification written test.
 - 7.02(e)(1) A representative of the school district, charter school, or service provider, other than a school transportation annual inspector candidate, shall grade the written test.
- 7.03 A school district, charter school, service provider or operator of an inspection site may submit a CDE Application for CDE Annual Inspector Qualification or Recertification Form (STU-20) to CDE verifying that the above requirements have been satisfied. CDE will then issue an Annual Inspector Certificate.
- 7.04 If any of the above requirements become invalid, the annual inspector certificate is invalid until the requirement(s) is made valid.
- 7.05 If a school transportation annual inspector has an expired certificate, the certificate can be recertified as follows:
 - 7.05(a) If the certificate has been expired less than six months, then the CDE Annual Inspector Recertification Written Test is required.
 - 7.05(b) If the certificate has been expired between six and 12 months, then the CDE Annual Inspector Qualification Written Test is required.
 - 7.05(c) If the certificate has been expired for more than one year, then both the CDE Annual Inspector Qualification Written Test and the CDE hands-on performance test are required.
- 8.0 Annual Inspector Hands-On Tester**
 - 8.01 A School transportation annual inspector hands-on tester is a person qualified to proctor hands-on tests to annual inspector candidates.
 - 8.02 School transportation annual inspector hands-on testers shall meet or exceed the following requirements:
 - 8.02(a) The school transportation annual inspector hands-on tester shall have maintained a CDE Annual Inspector certificate for a minimum of two years.
 - 8.02(b) The school transportation annual inspector hands-on tester shall have satisfactorily completed a CDE school transportation annual inspector hands-on tester training.
 - 8.02 (c) The school transportation annual inspector hands-on testers shall have completed a

minimum of four hours verifiable medium/heavy brake system training in the last three years or have maintained an ASE School Bus or Medium/Heavy Duty Truck or Transit Bus Brake Certification.

8.02(d) The school transportation annual inspector hands-on tester candidate shall submit a CDE Application for Certification or Recertification of CDE Annual Inspector Hands-On Tester Form (STU-30) verifying that the above criteria have been satisfied. CDE will then issue an Annual Inspector Hands-On Tester Certificate.

8.02(e) The school transportation annual inspector hands-on tester shall conduct at least two hands-on tests every three years or attend a CDE school transportation annual inspector hands-on recertification training to recertify as a school transportation annual inspector hands-on tester.

8.03 If any of the above requirements become invalid, the hands-on tester certificate is invalid until the requirement(s) is made valid, by retaking the tester training class in rule 8.02(b).

9.0 Pre-trip/Post-trip Vehicle Inspections

9.01 Each school transportation vehicle shall have a daily pre-trip and post-trip inspection performed and documented by the school transportation vehicle operator or other transportation employee authorized by the school district, charter school, or service provider. A daily pre-trip inspection shall be completed prior to a vehicle being placed in service. A daily post-trip inspection shall be completed at the end of daily operation of each vehicle.

9.02 The pre-trip and post-trip inspection requirements for school transportation vehicles, other than small vehicles, shall include at a minimum all items listed on the CDE School Transportation Vehicle (School Bus/Multifunction Bus/Motor Coach Bus) – Pre-Trip and Post Trip Requirements Form (STU-9).

9.03 The pre-trip and post-trip inspection requirements for school transportation small vehicles shall include at a minimum all items listed on the CDE School Transportation Vehicle (Small Vehicle) – Pre-Trip and Post Trip Requirements Form (STU-8).

9.04 School districts, charter schools, and service providers shall have a procedure in place to verify that students are not left on an unattended school transportation vehicle.

10.0 Inspection Site Certification

10.01 A CDE Inspection Site Certificate is required at each facility/location where annual inspections for school transportation vehicles are performed.

10.02 The inspection site shall meet or exceed the following criteria to acquire and maintain an inspection site certificate:

10.02(a) The inspection site shall be large enough to accommodate the vehicle, equipment, and tools necessary to perform the inspection.

- 10.02(b) The inspection site shall have a floor surface or pad adequate to safely support the maximum weight of the largest vehicle to be inspected.
- 10.02(c) The inspection site shall have adequate lighting and ventilation.
- 10.02(d) The inspection site or inspector shall, at the time of inspection, have the equipment and tools necessary to properly complete the annual inspection.
- 10.02(e) The inspection site or inspector shall have tools designed and calibrated to take accurate readings of appropriate measurements, such as brakes and tires.
- 10.03 The operator of an inspection site shall submit a request for an inspection site certificate on the CDE Application for Inspecting Site Certification Form (STU-22) that the above criteria have been satisfied.
- 10.04 The operator of an inspection site shall post the CDE Inspection Site Certificate at the inspection site.

11.0 Annual Inspection

- 11.01 School districts, charter schools and service providers shall ensure all school transportation vehicles and trailers pursuant to 1 CCR 301-26-R-13.11 have a CDE annual inspection conducted by a CDE certified annual inspector prior to transporting students and annually thereafter.
 - 11.01(a) Recently purchased school transportation vehicles shall successfully pass a CDE annual inspection prior to transporting students, and then annually thereafter.
- 11.02 Annual inspection results shall be documented on the CDE Affidavit of Annual Inspection for School Transportation Vehicles Form (STU-25).
 - 11.02(a) A copy of the current Affidavit must be maintained inside the vehicle and a copy must be placed in the vehicle file.
- 11.03 All annual inspection criteria of school transportation vehicles must meet or exceed manufacturer's specifications. The annual inspection shall be documented and shall include, at a minimum, all fields listed on the CDE Annual Inspection and Preventive Maintenance Requirements Form (STU-26).
- 11.04 All annual inspection criteria of trailers must meet or exceed manufacturer's specifications, and shall include, at a minimum, all fields listed on the CDE Trailer Annual Inspection and Preventive Maintenance Requirements Form (STU-27).
- 11.05 During the annual inspection, all four wheels shall be pulled for full inspection of the foundation brake system. The three exceptions are:
 - 11.05(a) School transportation vehicles with less than 4,000 miles since the previous annual inspection shall have two wheels (one front and one rear) pulled

different than those pulled for the previous inspection.

11.05(b) School transportation vehicles equipped with a retarder meeting the specifications outlined in 1 CCR 301-25-R-33.00, shall have two wheels (one front and one rear) pulled which are different than those pulled for the previous inspection.

11.05(c) Trailers, pursuant to 1 CCR 301-26-13.11, shall have 50 percent of the wheels pulled different than those pulled for the previous inspection.

12.0 Maintenance and Repair

12.01 School districts, charter schools and service providers must ensure all school transportation vehicles are systematically inspected, maintained and repaired to ensure that school transportation vehicles are in safe and proper operating condition.

12.02 School districts, charter schools and service providers shall have a system to document preventative maintenance, reported defects and repairs made to school transportation vehicles.

12.03 School districts, charter schools and service providers shall maintain separate files for each school transportation vehicle with documentation of all annual inspections, all preventative maintenance and all reported damage, defects or deficiencies and the corresponding repair and maintenance performed.

12.04 Any identified damage, defect or deficiency of a school transportation vehicle must be reported to the school district, charter schools or service provider, if it:

12.04(a) Could affect the safety of operation of the school transportation vehicle;

12.04(b) Could result in a mechanical breakdown of the school transportation vehicle;

12.04(c) Results in noncompliance with Colorado Minimum Standards Governing School Transportation Vehicles (1 CCR 301-25) and/or manufacturer's specifications.

12.05 Documentation for reported defects must include all the following:

12.05(a) The name of the school district, charter school or service provider;

12.05(b) Date and time the report was submitted;

12.05(c) All damage, defects or deficiencies of the school transportation vehicle; and

12.05(d) The name of the individual who prepared the report.

12.06 Following a reported damage, defect, or deficiency of a school transportation vehicle, school districts, charter schools and service providers or a representative agent must repair the reported damage, defects or deficiencies, or document that no repair is necessary, ensuring that the vehicle is in safe and proper operating condition prior to transporting students.

- 12.07 School districts, charter schools and service providers shall not transport students in a school transportation vehicle which is not in safe and proper operating condition. A school transportation vehicle shall be designated as “out-of-service” by a school district, charter schools or service provider, a school transportation annual inspector or the CDE School Transportation Unit.
- 12.07(a) Any school transportation vehicle discovered to be in an unsafe condition while being operated on the highway, roadway, or private road may be continued in operation only to the nearest place where repairs can safely be affected. Such operation shall be conducted only if it is less hazardous to the public than to permit the vehicle to remain on the highway, roadway, or private road.
- 12.08 Following a school transportation vehicle being placed “out-of-service”, a school district, charter school, service provider or a representative agent must make required repairs, ensuring that the vehicle is in safe and proper operating condition prior to transporting students. In the event of being placed “out-of-service” during an annual inspection, the school transportation vehicle must successfully pass a CDE annual inspection prior to transporting students.
- 12.09 The preventative maintenance inspection on air drum brake systems shall include, at a minimum, that the brake rod travel has been measured and documented. The applied pressure method shall be used.
- 12.09(a) The inspection-interval shall not exceed 4,000 miles for buses equipped with a manual slack adjuster air brake system.
- 12.09(b) The inspection-interval shall not exceed 6,000 miles for buses equipped with an automatic slack adjuster air brake system.
- 12.10 The preventive maintenance inspection interval on air disc brake systems shall not exceed 6,000 miles and shall include, at a minimum; inspection and documentation of:
- 12.10(a) The pad thickness by checking the mechanical wear indicators.
- 12.10(b) The visible part of the rotors for cracks, excessive wear, damage, etc.
- 12.10(c) The running clearance. If the caliper has no movement or appears to move greater than the distances indicated by the manufacturer, then a full wheel removal inspection will be necessary.
- 12.11 The preventive maintenance inspection interval for hydraulic brake systems shall not exceed 6,000 miles and shall include, at a minimum, inspection and documentation of:
- 12.11(a) Proper parking brake operation;
- 12.11(b) Proper brake fluid level and clarity;
- 12.11(c) Adequate pedal reserve;

12.11(d) Proper hydraulic/vacuum assist operation; and

12.11(e) Visual inspection for brake fluid leakage.

- 12.12 If brake adjustment or repair is needed, the work shall be completed by or supervised by a DOT or equivalent qualified brake inspector meeting the requirements of the Federal Motor Carrier Safety Regulations, 49 CFR section 396.25.

13.0 Operation of a School Transportation Vehicle

- 13.01 A school transportation vehicle shall not be operated in a manner which is unsafe, or likely to cause an accident, or likely to damage the vehicle.
- 13.02 A school transportation vehicle shall not be placed in motion on a roadway, highway or private road with the passenger entry door/service door open.
- 13.03 A school transportation vehicle's headlights or daytime running headlights shall be activated while the vehicle is in operation.
- 13.04 A school transportation vehicle shall not be fueled while students are on board, except in instances when unloading the students would present a greater hazard or peril to their safety.
- 13.05 Use of tobacco products as defined in Section 18-13-121(5), C.R.S., use or possession of illegal controlled substances, use or possession of alcohol and use or possession of marijuana or cannabinoid product, except as otherwise allowed by law, aboard any school transportation vehicle shall be prohibited at all times.
- 13.06 A school transportation vehicle operator shall not consume food unless the vehicle is stopped at a safe location with the park/emergency brake set.
- 13.07 When a school transportation vehicle is equipped with a roof mounted strobe lamp, the use of the strobe lamp is permitted only when the vehicle presents a hazard to other motorists, such as loading or unloading students in inclement weather or to enhance visibility of the vehicle when barriers inhibit such visibility.
- 13.08 A school transportation vehicle operator may use the strobe, in addition to the four-way hazard lamps, to warn other motorists that the vehicle is not in motion or is being operated at a speed of twenty-five miles per hour or less.
- 13.09 The school transportation vehicle operator shall use extreme caution when backing. Before backing on a roadway, highway or private property, the horn or audible warning device shall be sounded and four-way hazard lamps actuated or there shall be a person outside the vehicle giving direction.
- 13.09(a) Backing a school transportation vehicle when students are outside of the vehicle at a student stop is prohibited.

13.10 A Type A, B, C, and D School Bus, Multifunction Bus and Motor Coach Bus shall not be operated with a trailer or other vehicle attached while students are being transported.

13.11 School transportation small vehicles, with the capacity of 15 or fewer passengers (counting the driver), may tow trailers while students are being transported to the extent that trailering is a necessary component of a school district or charter school sponsored program.

14.0 Authorized Passengers

14.01 Only school district, charter school, or service provider personnel; students enrolled in a school district or charter school; law enforcement officials; or individuals that have received prior authorization from the school district, charter schools or service provider may be passengers on any school transportation vehicle.

14.02 The number of passengers transported on any school transportation vehicle shall not exceed the maximum seating capacity of the vehicle. Small vehicle capacity shall not exceed the number of safety belts as designed by the vehicle manufacturer.

14.03 Passengers shall not be permitted to stand in any school transportation vehicle while the vehicle is in motion. This does not preclude authorized persons (such as school transportation paraprofessionals) from completing their duties as required.

14.04 School districts, charter schools, and service providers shall consider the size of the passengers when determining the number of passengers that can safely occupy a school transportation vehicle seat.

15.0 Safety Restraints

15.01 A school transportation vehicle operator shall have the safety belt fastened, worn correctly and properly adjusted prior to the school transportation vehicle being placed in motion.

15.02 All passengers in a school transportation vehicle under 10,000 lbs. GVWR shall have their safety belts fastened, worn correctly and properly adjusted prior to the school transportation vehicle being placed in motion.

16.0 Transportation of Miscellaneous Items

16.01 A school transportation vehicle operator shall ensure that all carry-on items are properly handled in order to minimize the danger to all others.

16.02 All baggage, articles, equipment or medical supplies (except those held by individual passengers) shall be secured in a manner which assures unrestricted access to all exits by occupants, does not restrict the driver's ability to operate the bus and protects all occupants against injury resulting from falling or displacement of any baggage, article, or equipment. Oxygen cylinders meet this standard if they are both medically necessary and secured to a wheelchair, shall be considered to be in compliance with this subsection, provided they do not impede access to any exit. School districts, charter schools, and service providers shall use reasonable care in determining the number of cylinders that may be safely transported at one

time.

- 16.03 All chemicals and cleaning supplies carried on a school transportation vehicle must meet the following precautions:

16.03(a) Container is non-breakable;

16.03(b) Container is labeled with contents;

16.03(c) Pressurized aerosols are prohibited;

16.03(d) Container is secured in a bracket, or in a closed compartment in the driver's area or a compartment on the exterior of the bus; and

16.03(e) Containers and quantities of products are no more than 32 ounces in size.

- 16.04 Interior-decorations shall not be located within the driver's area (including the space in front of the front barriers, the step-well, dash, walls and ceiling, the windshield, the entry door, the driver's side window, and all windows in front of the front barrier), the first two passenger windows on both sides of the vehicle or all windows on the rear of the vehicle. Other decorations within the passenger compartment shall not;

16.04(a) Cover any required lettering;

16.04(b) Impede the aisle or any emergency exit;

16.04(c) Hang from the walls and/or ceiling.

17.0 Maximum Driving Time for School Transportation Vehicle Operators

- 17.01 School transportation vehicle operators, including small vehicle operators, shall not drive (nor shall the school districts, charter schools, or service providers permit or require operators to drive):

17.01(a) In excess of 10 hours or after being on-duty 14 hours until completing 10 hours off-duty. This would include on-duty time for all employers. Ten hours off-duty may be consecutive or accumulated in two or more periods of off-duty time with one period having a minimum of six consecutive hours off-duty.

17.01(b) After being on-duty for more than 70 hours in any seven consecutive days.

17.01(c) In case of emergency, an operator may complete the trip without being in violation if such trip reasonably could have been completed absent the emergency.

- 17.02 In lieu of section 17.00 of these rules, a school district, charter school, or service provider may comply with the Federal Motor Carrier Safety Regulations, 49 CFR section 395.

17.03 Definitions:

- 17.03(a) Day - Means any 24-consecutive hour period beginning at the time designated by the school district, charter school, or service provider.
- 17.03(b) On-duty time - Includes all time worked for all employers, including all driving and non-driving duties.
- 17.03(c) Off-duty time - School transportation vehicle operators may consider waiting time (whether compensated time or not) at special events, meal stops, and school related events as off-duty if the following criteria are met:
 - 17.03(c)(1) The operator shall be relieved of all duty and responsibility for the care and custody of the vehicle, its accessories, and students, and
 - 17.03(c)(2) The operator shall be at liberty to pursue activities of his/her choice, including leaving the premises on which the bus is located.

17.04 All school transportation vehicle operators shall document that they are in compliance with this section, hours of service.

- 17.04(a) An operator's daily log, or equivalent, shall be completed for the trip in the operator's own handwriting when the trip requires a scheduled or unscheduled overnight stay away from the work reporting location.

18.0 Route Planning – Student Loading and Discharge

18.01 School transportation small vehicles, Type A Multifunction Buses with 15 or fewer passenger capacity (counting the driver) and School Buses (Types A, B, C, and D) may be used to transport students to and from school. Multifunction Buses Type B, C, D, and Motor Coach Buses shall not be used to transport students to and from school.

18.02 The location of student stops shall consider factors including:

- 18.02(a) Ages of the students;
- 18.02(b) Visibility;
- 18.02(c) Lateral clearance;
- 18.02(d) Student access; and
- 18.02(e) Control of other motorists.

- 18.02(e)(1) Student stops for Type A Multifunction Buses with 15 or fewer passenger capacity (counting the driver) and school transportation small vehicles should be located off of the roadway whenever possible.

- 18.03 School transportation vehicle operators shall stop at least 10 feet away from students at each designated stop. The school transportation vehicle operator shall apply the parking brake and shift the vehicle into neutral or park prior to opening the service door of a bus or the passenger door(s) of a small vehicle.
- 18.04 The school transportation vehicle operator shall stop as far to the right of the roadway, highway or private road as possible before discharging or loading passengers - allowing sufficient area to the right and front of the vehicle but close enough to the right to prevent traffic from passing on the right - so that students may clear the vehicle safely while in sight of the operator.
- 18.04(a) Exception: The school transportation vehicle operator may block the lane of traffic when passengers being received or discharged are required to cross the roadway.
- 18.05 Student stops shall not be located on the side of any major thoroughfare whenever access to the destination of the passenger is possible by a road or street which is adjacent to the major thoroughfare.
- 18.06 School districts, charter schools and service providers shall ensure that if students are required to cross a roadway, highway or private road on which a student stop is being performed, they are prohibited from crossing a roadway, highway or private road constructed or designed to permit three or more separate lanes of vehicular traffic in either direction or with a median separating multiple lanes of traffic.
- 18.07 Four-way hazard lamps shall be used on private property such as parking lots.
- 18.08 Alternating flashing red warning signal lamps shall not be activated within 200 feet of an intersection if the intersection is controlled by a traffic control signal.
- 18.09 Routes shall be planned as to:
- 18.09(a) Eliminate, when practical, railroad crossings; and
- 18.09(b) Have stops be a minimum of 200 feet apart (since alternating flashing amber warning signal lamps must be activated a minimum of 200 feet in advance of the stop on the roadway on which the bus stop will be performed).
- 18.09(b)(1) Exception: In areas where wildlife may create a high risk of threat to students' safety while they are waiting and/or walking to a student stop, designated stops may be less than 200 feet apart upon detailed written approval by the school district board of education or governing body of a charter school (or the board's designee). A copy of the written approval shall be kept in the school transportation office and route operators shall be given written notice of the exception and have it indicated on route sheets.
- 18.10 In determining the length of routes, school districts, charter schools and service providers must make an effort to minimize student ride times while considering student educational needs, geographic boundaries, terrain, traffic congestion, and financial resources within the district. A

local board of education, or the governing body of a charter school, may establish a maximum student ride time.

- 18.11 Pursuant to Section 42-4-1903(2), C.R.S., school transportation vehicle operators are not required to actuate the alternating flashing red warning signal lamps on a school bus (1) when the student stop is at a location where the local traffic regulatory authority has by prior written designation declared such actuation unnecessary and (2) when discharging or loading passengers who require the assistance of a lift device and no passenger is required to cross the roadway. Further, Type A Multifunction Buses with 15 or fewer passenger capacity (counting the driver) and school transportation small vehicles do not have the functionality to control traffic. In these instances, the school transportation vehicle operator shall stop as far to the right off the roadway as possible to reduce obstruction to traffic, activate the four-way hazard warning lamps a minimum of 200 feet prior to the student stop, continue to display the four-way hazard warning lamps until the process of discharging or loading passengers has been completed, and deactivate the four-way hazard lamps before resuming motion. Students are prohibited from crossing any lanes of traffic to access the student stop or after disembarking.
- 18.12 School transportation vehicle operators shall not relocate a student stop without approval of the school district, charter school, or service provider.
- 18.13 Pursuant to 42-4-707 C.R.S., School transportation vehicle operators of School Buses, Multifunction Buses and Motor Coach Buses, whether transporting students or not, shall apply the following procedures during the process of approaching, stopping and crossing railroad tracks:
 - 18.13(a) Activate the four-way hazard lamps not less than 200 feet from the railroad crossing to alert other motorists of the pending stop for the crossing;
 - 18.13(b) Stop the bus within 50 feet but not less than 15 feet from the nearest rail;
 - 18.13(c) When stopped, the bus shall be as far to the right of the roadway as possible and shall not form two lanes of traffic unless the highway is marked for four or more lanes of traffic; and
 - 18.13(d) Use a prearranged signal to alert students to the need for quiet aboard the bus when approaching railroad tracks. Turn off all noise making equipment (fans, heater, radio, etc.)
- 18.14 After quietness aboard the stopped bus has been achieved, bus operators shall open the service door and operator window. The bus operator shall listen and look in both directions along the track(s) for any approaching train(s) and for signals indicating the approach of a train.
 - 18.14(a) If the tracks are clear, the bus operator shall close the service door and may then proceed in a gear low enough to permit crossing the tracks without having to manually shift gears. The bus operator shall cancel the four-way hazard lamps after the bus has cleared the tracks.
 - 18.14(b) When two or more tracks are to be crossed, the bus operator shall not stop a second

time unless the bus is completely clear of the first crossing, with at least 15 feet clearance in front and at least 15 feet clearance to the rear.

18.14(c) Before crossing the tracks, the bus operator shall verify that there is enough space after the tracks for the bus plus 15 feet if it is necessary to stop after crossing the tracks.

18.15 School transportation vehicle operators of School Buses, Multifunction Buses and Motor Coach Buses are not required to stop at crossings controlled only by a red, amber, green traffic control signal when it is in the green position, or when the crossing is controlled by a police officer or human flag person, or when the crossing is marked with an official "exempt" sign placed on the railroad crossing light post or cross bucks post.

19.0 Emergency Evacuation Drills

19.01 Emergency evacuation drills shall be conducted with students by all school transportation vehicle operators and school transportation paraprofessionals at least twice during each school year.

19.01(a) One drill shall be conducted in the fall and the second drill conducted in the spring.

19.01(b) Substitute and Multifunction operators of 16 or greater vehicle capacity (counting the driver) shall be trained how to conduct the emergency evacuation drills.

19.02 Students on school related events shall receive emergency evacuation instruction prior to departure.

19.03 School districts, charter schools, and service providers shall maintain records documenting that the required evacuation drills were conducted and/or evacuation instruction was given.

20.0 Incorporation by Reference

The foregoing rules incorporate by reference several sections and appendices from the Federal Motor Carrier Safety Regulations, 49 CFR, Parts 380, 382, 391, 395, and 396 (as codified as of April 19, 2021). The foregoing rules do not incorporate by reference any later amendment or editions to the Federal Motor Carrier Safety Regulations.

The Federal Motor Carrier Safety Regulations are available at <https://www.ecfr.gov/>. They are also available for public inspection during regular business hours from the Colorado Department of Education, 201 E. Colfax Ave., Denver, Colorado 80203.

RULES FOR INDIVIDUALIZED MEDICAL SEIZURE ACTION PLANS

1 CCR 301-112

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

0.0 STATEMENT OF BASIS AND PURPOSE

The statutory basis for these rules is 22-1-132, C.R.S., which requires the State Board of Education to promulgate rules for individualized medical seizure action plans, including training and seizure care guidelines. Statute requires the Department, in collaboration with recognized sources on epilepsy and seizure disorders and a state organization that represents school nurses, to develop strategic resources to improve safety for students who have been diagnosed with a seizure disorder.

1.0 DEFINITIONS

- 1.01 "Appropriate staff" means one or more employees of the school whom the principal or equivalent executive, in consultation with the school nurse or health-care practitioner, determines to be the appropriate recipient or recipients of free seizure recognition and first aid training developed by recognized sources on epilepsy and seizure disorders, as identified by the Department of Education. "Appropriate staff" may include but need not be limited to employees who have direct contact with and supervision of students who have a seizure disorder.
- 1.02 "Department" means the department of education created and existing pursuant to section 24-1-115, C.R.S.
- 1.03 "Designated employee" means an employee of the school who is designated and trained by the school nurse or health-care practitioner on how to administer or assist with the administration of seizure treatment and medications, seizure rescue medications, and manual vagus nerve stimulation.
- 1.03 "Public school" means a public school in the state that enrolls students in any of grades kindergarten through twelfth grade, including a traditional public school of a school district; a charter school of a school district; an Institute charter school; or an approved facility school, as defined in C.R.S. 22-2-402(1).
- 1.04 "Seizure action plan" means a written, individualized seizure action plan for a specific student, created by the school nurse or health-care practitioner, in conjunction with the student's parent or legal guardian and the student's physician, as appropriate, that is designed to acknowledge and prepare for the healthcare needs of a student diagnosed with a seizure disorder. The seizure action plan must be in accordance with the guidelines developed by the department of education.
- 1.05 "Seizure disorder" means a medical condition, including epilepsy, in which episodes of uncontrolled activity in the brain produce symptoms that produce one or more seizures.

2.0 INDIVIDUALIZED SEIZURE ACTION PLANS

- 2.01 If a student has a diagnosed seizure disorder and the student might need medical intervention with seizure-related care in a school setting or school activity, the student's parent or legal

guardian is encouraged to create, in conjunction with school personnel, sign, and submit to the student's school an individualized seizure action plan for the student. The school nurse or health-care practitioner shares responsibility with the school administrators for the management of the student's seizure disorder while the student is at school, during any school-sponsored activities, and while in transit to or from school or school-sponsored activities if the student is being transported by school district personnel.

- 2.02 A student's parent or legal guardian is encouraged to submit the required information for the student's individualized seizure action plan or amended seizure action plan to the student's school: at the beginning of the school year or upon the student's enrollment; as soon as practicable following the student's diagnosis of a seizure disorder; or if a student's health status changes significantly during the school year. A parent or legal guardian is encouraged to inform the school, in a timely manner, of any changes needed to the student's individualized seizure action plan or emergency contact information.
- 2.03 A public school must follow the school district's or public school's medication policy in approving the individualized seizure action plan and ensuring that the individualized seizure action plan is in accordance with the "Nurse and Nurse Aide Practice Act," article 255 of title 12 of the Colorado Revised Statutes.

3.0 TRAINING

- 3.01 Within sixty days after the beginning of the 2021-22 academic year and each year thereafter, each public school must provide training to one or more appropriate staff on the recognition of the signs and symptoms of seizures and the appropriate steps for seizure first aid.
- 3.02 No later than eight weeks after a public school is notified of a student who has been diagnosed with a seizure disorder or the receipt of an individualized seizure action plan signed by the student's parent or legal guardian, whichever is later, the public school must have at least one designated employee who has met the training requirements necessary to administer or assist with the administration of seizure treatment medications, seizure rescue medications, and manual vagus nerve stimulation.

4.0 SEIZURE CARE GUIDELINES

- 4.01 By October 2021, in order to support school districts in meeting the requirements of the law, the Department, in consultation with recognized sources on epilepsy and seizure disorders and a state organization that represents school nurses, must develop seizure care guidelines. The guidelines must identify recognized sources that provide training for school personnel on seizure recognition and seizure first aid for epilepsy and seizure disorders. Such guidelines must be consistent with programs and guidelines developed by these recognized sources.
- 4.02 The Department must review such guidelines at least every three years to ensure that they remain consistent with best practices.

RULES GOVERNING OUTDOOR ADVERTISING IN COLORADO

Rulemaking Hearing

Date

10/01/2021

Time

10:00 AM

Location

Department of Transportation Headquarters, 2829 W. Howard Place Denver, CO 80204, Virtual Rulemaking Hearing Only

Subjects and issues involved

The specific purpose of this rulemaking is to consider changes to align CDOT's processes for permitting and enforcement of outdoor advertising devices with Senate Bill 21-263. CDOT proposes to establish a new compensation-based approach within the rules for permitting and enforcement of outdoor advertising devices in areas near interstates and state highways and visible to the traveling public from the roadway. The previous categories of outdoor advertising devices (i.e., On-Premise Sign, Off-Premise Sign, Official Sign, and Directional Sign) will be removed from the rules. The noncompliance requirements will be modified to give a property owner or sign owner the option to execute an affidavit in the event the property owner or sign owner does not believe their sign is an advertising device requiring a CDOT permit. The hearing procedures will be modified to allow an applicant who was denied a permit to request an expedited hearing within 30 days of the notice of denial. The proposed rules also clarify that Changeable Electronic Variable Message Signs may not be within 1000 feet of each other that are facing the same direction. The materials incorporated by reference will be updated. A new proposed rule will be added to allow interested and affected parties to petition for a declaratory order to increase transparency and be in compliance with the Colorado Administrative Procedure Act. Finally, other non-substantive changes will be made.

1.00 Definitions

- 1.1 All definitions set forth in 23 C.F.R. § 750.102, 23 C.F.R. § 750.703, and § 43-1-403, C.R.S. shall apply to these Rules. If there is a conflict between the definitions in state and federal law and regulations and these Rules, the state and federal law definitions shall govern. Definitions are not listed in alphabetical order.
- 1.2 “Advertising Device” ~~means any outdoor sign, display, device, figure, painting, drawing, message, placard, poster, billboard, structure, or any other contrivance designed, intended, or used to advertise or to give information in the nature of advertising and having the capacity of being visible from the main traveled way of any state highway, except any advertising device on a vehicle using the highway. The term “vehicle using the highway” does not include any vehicle parked near said highway for advertising purposes.~~ has the same meaning pursuant to § 43-1-403(1), C.R.S.

...

- 1.6 ~~“Commercial Advertising” means advertising of commercial interests which promotes or identifies goods and/or services as a result of the exposure of the business name rather than advocating a social or political cause~~ Repealed.

...

- 1.8 ~~“Comprehensive Development” shall include all land used or to be used or occupied for the activities of the development, including buildings, parking, storage and service areas, streets, driveways, and reasonably necessary landscaped areas. A Comprehensive Development includes only land that is used for a purpose reasonably related to the activities of the development other than an attempt to qualify the land for On-Premise advertising. has the same meaning pursuant to~~ § 43-1-403 (1.5)(a), C.R.S.

...

- 1.12 ~~“Directional Sign” shall have the same meaning as § 43-1-403(4), C.R.S. (i.e., shall include but not be limited to: Advertising devices containing directional information to facilitate emergency vehicle access to remote locations or about public places owned or operated by federal, state, or local governments or their agencies; publicly or privately owned natural phenomena, historic, cultural, scientific, educational, and religious sites; and areas of natural scenic beauty or naturally suited for outdoor recreation, deemed to be in the interest of the traveling public).~~ Repealed.

...

- 1.18 ~~“Off-Premise Sign” means an Advertising Device which advertises an activity, service or product not conducted on the Property upon which the Sign is located~~ Repealed.
- 1.19 ~~“Official Sign” shall have the same meaning as § 43-1-403(13), C.R.S. (Any advertising device erected for a public purpose authorized by law, but the term shall not include devices advertising any private business)~~ Repealed.
- 1.20 ~~“On-Premise Sign” means an Advertising Device: (1) advertising the sale or lease of a Property on which it is located; (2) or advertising activities on the Property on which it is located; or (3) located within a Comprehensive Development that advertises any activity conducted within the Comprehensive Development~~ Repealed.

...

- 1.23 ~~“Permit Number Identifier” means a series of numbers assigned by the Department that is unique to the Advertising Device and identifies it for purposes of oversight. The Permit Number~~

~~Identifier for Advertising Devices is different from the number identifier used for Official Signs (that do not require a Permit).~~

...

- 1.25 ~~“Premises” means the central, actual physical location where an activity is routinely conducted. Premises include the primary structures, parking facilities and private roadway if they are necessary to the principal activity.~~Repealed.

...

1.34 “Compensation” has the same meaning pursuant to § 43-1-403 (1.3), C.R.S.

2.00 Permitting

2.1 Signs Requiring a CDOT Permit

- A. A permit from the Department shall be required for all Signs within the Control Area as provided for in § 43-1-407 and 408, C.R.S. A permit is required for all ~~Off-Premise~~ Signs, including:
1. Nonconforming Advertising Devices [§ 43-1-403(12), C.R.S.];
 2. Advertising Devices located in areas Zoned for Commercial or Industrial Uses by law, [§ 43-1-404(1)(d) and (e), and § 43-1-407(1)(~~II~~)(c), C.R.S.]; and
 3. Advertising on Bus Benches and Shelters. [§ 43-1-407(2)(a)(I) through (III), C.R.S.]
 4. ~~Directional Signs not excepted under § 43-1-407(1)(b)(I) through (II), C.R.S.~~Repealed.

2.2 ~~Signs Not Requiring a Permit from CDOT~~Repealed.

- A. ~~A Sign Permit is not required for:~~
1. ~~On-Premise Signs;~~
 2. ~~Directional Signs that are:~~
 - a. ~~No larger than 8 square feet and that advertises farms, ranches, nonprofit educational, veterans’, religious, charitable, or civic organizations. §43-1-407(1)(b)(II), C.R.S.;~~
 - b. ~~No larger than 32 square feet, the sole purpose of which is to provide direction to individual farms or ranches by way of individual Signs that are no larger than 8 square feet. [§43-1-407(1)(b)(II), C.R.S.];~~

~~c. — A Sign indicating a public utility and not advertising a product, including informational Signs, notices, or markers, erected and maintained by a public or private public utility company. [23 C.F.R. 750.153(o)]~~

~~3. — Official Signs. [§ 43-1-404(1)(a) and § 43-1-407, C.R.S.]~~

2.3 Conditions that Prohibit CDOT from Issuing or Renewing a Permit [§ 43-1-411, and § 43-1-417(3)(a), C.R.S. and 23 C.F.R. § 750.108]

- A. The Department is prohibited from issuing ~~or renewing~~ a Permit for any Advertising Device pursuant to § 43-1-411, C.R.S. and 23 C.F.R. § 750.108 if the Sign:
1. Does not conform to size, lighting, and spacing standards as prescribed by these Rules where the Rules were adopted prior to the erection of the Advertising Device;
 2. Would encroach upon the right-of-way of a public highway absent prior written approval from the Department;
 3. Is within 500 feet of the center point of an intersection of a Controlled Route at grade with another highway or with a railroad so as to materially obstruct or reduce the existing view of traffic on the other highway or railway trains approaching the intersection;
 4. Is along a Controlled Route where it would reduce the existing view of traffic in either direction or of traffic control or official highway ~~Signs-signs~~ to less than 500 feet;
 5. Includes more than two advertising panels on an Advertising Device facing the same direction;
 6. Required a permit prior to July 1, 1981, and no permit was obtained;
 7. Simulates any official, directional, or warning ~~Sign-sign~~ erected or maintained by the federal or state government or local governing body which involves light that simulates or resembles traffic signals or traffic control ~~Signssigns~~;
 8. Is nailed, tacked, posted, or attached in any manner on trees, plants, fence posts, public utility poles, rocks or other natural objects; or
 9. The Department is prohibited from issuing or renewing a Permit if the Sign becomes ~~Becomes~~ decayed, insecure, or in danger of falling or otherwise is unsafe or unsightly due to lack of maintenance or repair, or from any other cause.

...

[Note: Rule 2.11 will be repealed in its entirety and re-enacted as listed below.]

~~**2.11 — Permit Denial, Revocation or Denial of Renewal** [23 C.F.R. 750.104; § 43-1-410, C.R.S.]~~

- ~~A. The Department may deny, revoke, or deny the renewal of a Permit for any violation of state or federal law or these Rules, including but not limited to:~~
- ~~1. False or misleading information in the Permit application or Renewal;~~
 - ~~2. Advertisement of illegal activities;~~
 - ~~3. Failure to maintain the Sign in good repair;~~
 - ~~4. Failure to comply with all Permit provisions;~~
 - ~~5. Increasing the permitted size of an Advertising Device; or~~
 - ~~6. Any violation of federal law referenced herein, § 43-1-401, et seq., C.R.S. or these Rules.~~
- ~~B. Pursuant to § 43-1-412(4), C.R.S., the applicant or permit holder shall have 60 days within which to provide CDOT with proof of compliance.~~

2.11 Permit Denial, Revocation, or Denial of Renewal [23 C.F.R. § 750.104; § 43-1-410, C.R.S.]

- ~~A. The Department may deny, revoke, or deny the renewal of a Permit for any violation of state or federal law or these Rules, including but not limited to:~~
- ~~1. False or misleading information in the Permit application or renewal;~~
 - ~~2. Failure to maintain the Sign in good repair;~~
 - ~~3. Failure to comply with all Permit provisions;~~
 - ~~4. Increasing the permitted size of an Advertising Device; or~~
 - ~~5. Any violation of federal law referenced herein, § 43-1-401, et seq., C.R.S. or these Rules.~~
- ~~B. The Department will notify the Applicant or Permittee in writing stating the reasons for the denial of the application, the denial of the renewal of the Permit, or the revocation of the Permit along with the opportunity to request a hearing as set forth in Rule 5.00.~~

3.00 Notice of Noncompliance Pursuant to § 43-1-412, C.R.S.

3.1 ~~Issuance of Written Notice~~Repealed.

- ~~A. If the Department determines that an application for renewal should be denied, or that an existing Permit should be revoked, the Department shall give written notice by certified mail to the Applicant or Permittee.~~
- ~~B. If the Department revokes a Permit, the Department shall send a Notice of Noncompliance pursuant to Rule 3.00 to the Permittee.~~
- ~~C. In either case, the notice shall specify in what respect the Sign does not comply with relevant federal or state law and/or these Rules.~~

~~D. Pursuant to § 43-1-412(4), C.R.S., the applicant or permit holder shall have 60 days within which to provide CDOT with proof of compliance.~~

3.2 Grounds for Noncompliance

- A. Sign ~~Lacking~~ lacking a CDOT Permit [§ 43-1-412(2)(a), C.R.S.]
1. If a Permit has not been obtained for the Advertising Device, the Department shall give written Notice of Noncompliance by certified mail to the owner of the Property on which the Sign is located. Such notice will:
 - a. Inform the Property owner that the Advertising Device is illegal;
 - b. Require the owner to remove the Sign within 60 days of receipt of the notice, execute an affidavit under the penalty of perjury as evidence that the device is not an Advertising Device, or obtain a permit; and
 - c. Advise the Property owner of the right to request a hearing.

...

- C. Permit ~~Application~~ Revoked or Renewal Denied. § 43-1-412(2)(c), C.R.S.

...

[Note: Rule 5.00 will be repealed in its entirety and re-enacted as listed below.]

~~5.00 Request for Hearing~~

- ~~A. A request for a hearing must be received by the Department no later than 60 days after receipt of the notice. [§ 43-1-412(3), C.R.S.]~~
- ~~B. The request for hearing must be made in writing, by certified mail, addressed to and received by:~~
- ~~Outdoor Advertising Program~~
- ~~Colorado Dept. of Transportation~~
- ~~4201 East Arkansas Ave.~~
- ~~Denver, Colorado, 80222~~
- ~~C. Upon receipt of a request for a hearing, the Department shall arrange for and give written notice of the hearing.~~
- ~~D. At least 30 days prior to the hearing, the Department shall provide notice of the hearing either by personal service or certified mail to the last address furnished by the person requesting the hearing. The notice shall meet the requirements of § 24-4-105(2)(a), C.R.S.~~

- ~~E. Any person(s) given such notice shall file a written answer within 30 days after the service or mailing of such notice.~~
- ~~F. If such person fails to answer, the Department, upon motion, may enter a default. For good cause shown, the entry of default may be set aside within 10 days after the date of such entry. [§ 24-4-105(2)(b), C.R.S.]~~
- ~~G. A person who may be affected or aggrieved by the Department action shall be admitted as a party to the proceeding upon the person's filing with the Department a written request to be included, setting forth a brief statement of the facts which entitle the person to be admitted and the matters which should be decided. The Department may admit any person or agency as a party to the proceeding for limited purposes. [§ 24-4-105(2)(c), C.R.S.]~~
- ~~H. The hearing shall be presided over by an Administrative Law Judge pursuant to § 24-4-105(3), C.R.S.~~

5.00 Hearings

5.1 Request for Hearing

- ~~A. A request for a hearing must be received by the Department no later than sixty (60) days after receipt of the notice. An Applicant who was denied a Permit may request an expedited hearing within thirty (30) days of the notice of denial pursuant to § 43-1-408(3), C.R.S.~~
- ~~B. The request for hearing must be made in writing, by certified mail, addressed to and received by:~~
- ~~Colorado Department of Transportation
Outdoor Advertising Program
2829 W. Howard Place
Denver, Colorado, 80204~~
- ~~C. All hearings and appeals will be conducted pursuant to §§ 24-4-105 and 106, C.R.S.~~

6.00 Signs Allowed in Control Areas

[§ 43-1-404, C.R.S., 23 USC 131, 23 C.F.R. 750.105; 23 C.F.R. 750.108]

6.01 Advertising Devices Allowed

- A. The following Signs may be allowed within the Control Area adjacent to the Controlled Route:
1. ~~On-Premise Signs~~Repealed;
 2. ~~Off-Premise Signs~~Advertising Devices, which include:
 - a. Signs in Areas Zoned for Commercial or Industrial Uses”;

- b. Nonconforming Signs;
- c. ~~Directional and Official Signs~~Repealed;
- d. Advertising Devices on Scenic Byways (See Rule 9.00);
- e. ~~Landmark Signs~~Repealed;
- f. ~~Free Coffee Signs~~Repealed;
- g. ~~Tourist-Oriented Directional Signs (TODS) and Specific Information Signs (LOGO). Rules Governing TODS and LOGO Signs are addressed in a separate set of rules, 2 CCR 601-7~~Repealed; and
- h. Changeable Electronic Variable Message Signs ("CEVMS").

6.02 ~~On-Premise Signs~~Repealed.

~~{23 U.S.C. 131(c) and (j); 23 C.F.R. 750.704(a); 23 C.F.R. 750.105, 23 C.F.R. 750.108, and 23 C.F.R. 750.709(d)}~~

~~A. Authority. This section of the Rules pertains to On-Premise Signs located outside of 50 feet from the advertised or principal activity and Visible from the Main Travelled Way of the State Highway System.~~

~~1. Size~~

- ~~a. On-Premise Signs which are located outside of 50 feet from the advertised or principal activity shall not exceed 20 feet in length, width or height, or 150 square feet in area, including border and trim, but excluding supports. [23 C.F.R. 750.108(g)].~~
- ~~b. No Sign may attempt or appear to attempt to direct the movement of traffic or interfere with, imitate or resemble any official traffic sign, signal or device.~~
- ~~c. No Sign may prevent the driver of a vehicle from having a clear and unobstructed view of Official Signs and approaching or merging traffic.~~
- ~~d. No Sign may be erected or maintained upon trees or painted or drawn upon rocks or other natural features.~~
- ~~e. No On-Premise Sign may be erected in an area across a public or private roadway from the Property where the business is conducted unless the purpose of the public or private roadway is for the exclusive use of a Comprehensive Development.~~

~~2. Lighting~~

- ~~a. On-Premise Signs shall comply with the lighting requirements of § 43-1-404(1)(f)(I), C.R.S.; however, for purposes of spacing, On-Premise Signs~~

~~shall not be counted within the 1,000 feet limitation for Off-Premise Signs.~~

~~b. No Sign may contain, include, or be illuminated by any flashing, intermittent or moving light or lights.~~

~~c. No lighting may be used in any way in connection with any Sign unless it is so effectively shielded as to prevent beams or rays of light from being directed at any portion of the Main-Traveled Way of the State Highway System or is of such low intensity or brilliance as not to cause glare or to impair the vision of the driver of any motor vehicle, or to otherwise interfere with any driver's operation of a motor vehicle.~~

~~d. No On-Premise Sign may move or have any animated or moving parts.~~

~~B. An On-Premise Sign must be located upon the same Property as the activity advertised. An On-Premise Sign may:~~

~~1. Advertise the principal or primary activities, goods or services available upon the premises;~~

~~2. Identify the property upon which the Sign is located;~~

~~3. Advertise the property upon which the Sign is located for sale or lease;~~

~~4. When located within a Comprehensive Development, advertise activities conducted within the Comprehensive Development;~~

~~5. Direct the traveling public to the closest entrance to the premises located upon the property;~~

~~6. Include non-Commercial Advertising devices (ex. religious, social or political commentaries) erected by the owner or lessee of property.~~

~~C. Where the Sign site is located at or near the end of a narrow strip contiguous to the advertised activity, the Sign site shall not be considered part of the Premises on which the activity being advertised is conducted when the purpose is clearly to circumvent 23 U.S.C. 131(j). See 23 C.F.R. 750.709(3).~~

~~D. An On-Premise Sign does not include:~~

~~1. A Sign that advertises activities, goods, or services not available upon the property.~~

~~2. A Sign that consists principally of brand name or trade name advertising of a product or service which is only incidental to the principal activity conducted upon the premises.~~

~~3. A Sign which brings in rental income to the premise/property and /or Sign owner. [23 C.F.R. 750.709]~~

~~E. On-Premise Signs that Identify the Property upon which They Are Located:~~

- ~~1. An On-Premise Sign identifying the property upon which it is located shall contain only the:
 - ~~a. Name of the property,~~
 - ~~b. Type of property,~~
 - ~~c. Logo, and/or~~
 - ~~d. Name of the owner of the property.~~~~
- ~~2. Such Signs may also direct the traveling public to the closest entrance to the premises.~~
- ~~3. On-Premise Signs directing the travelling public to the closest entrance to the premises are limited to two Signs Visible to traffic proceeding in any one direction if the highway frontage of the property is less than one mile in length.~~
- ~~4. If the highway frontage of the property is more than one mile in length, one Sign Visible to traffic proceeding in any one direction per mile is allowed.~~
- ~~5. The purpose of such Signs shall not be to advertise specific goods or services available upon the premises.~~

~~F. On-Premise Signs that Advertise the Primary Activities, Goods or Services Conducted on the Premises which are located outside of 50 feet from the activity shall not exceed 20 feet in length, width or height, or 150 square feet in area, including border and trim, but excluding supports. [23 C.F.R. 750.108(g)]~~

~~G. On-Premise Signs that Advertise the Sale or Lease of the Property upon which the Sign is Located:~~

- ~~1. An On-Premise Sign that advertises the sale or lease of the property may not contain any product or service other than the logo and/or name, type of real property, address, and contact information of the party offering the property for sale or lease.~~
- ~~2. Real property offered for sale or lease must only be for the uses of record for zoned or platted areas.~~
- ~~3. On-Premise Signs advertising the sale or lease of the property are limited to one Sign Visible to traffic proceeding in any one direction less than one mile apart.~~
- ~~4. On-Premise Signs advertising the sale or lease of the property may be no larger than 96 square feet including border and trim, but excluding supports.~~
- ~~5. Not more than one such Sign advertising the sale or lease of the same property may be allowed in such manner as to be visible to traffic proceeding in any one direction on any one Interstate Highway. [23 C.F.R. 750. 105(a)].~~

~~H. On-Premise Signs—Non-Commercial:~~

- ~~1. Non-commercial Signs are limited to two Signs visible to traffic proceeding in any one direction if the highway frontage of the property upon which the premises is located is less than one mile in length.~~
- ~~2. If the highway frontage of the property upon which the premises is located is more than one mile in length, one non-commercial Sign visible to traffic proceeding in any one direction per mile is allowable.~~

~~I. A property owner who has an On-Premise Sign that was in existence upon the property on the effective date of these Rules and who could have reasonably believed such advertising device was on-premise under prior rules shall be allowed one year from the effective date of the Rules to bring such advertising device into compliance with these Rules.~~

~~J. Measurement of On-Premise Signs~~

- ~~1. These Rules do not apply to On-Premise Signs located within 50 feet of the principal activity.~~
- ~~2. When the advertised activity is a business, is commercial, or concerns industrial land use, the 50-foot distance shall be measured from the regularly used buildings, parking lots, storage or processing areas, or other structures which are essential and customary to the conduct of the business. The distance shall not be measured from driveways, fences, or similar facilities.~~
- ~~3. When the advertised activity is a non-commercial or non-industrial land use such as a residence, farm, or orchard, the 50-foot distance shall be measured from the major structures on the Property.~~
- ~~4. A Sign that is located within 50 feet of the premises and advertises the primary activities, goods and services available upon the premises is an On-Premise Sign unless the land upon which the Sign is located is used for, or devoted to, a separate purpose unrelated to the principal activity advertised. For example, land adjacent to or adjoining a service station, but devoted to raising of crops, residence, or farmstead uses or other commercial or industrial uses having no direct relationship to the service station activity is a separate purpose unrelated to the principal activity advertised.~~

~~K. Obsolescence of On-Premise Signs~~

- ~~1. Upon the termination or cessation for one consecutive year of the activities, services or products advertised by an On-Premise Sign, the Sign advertising the activity shall no longer qualify as an On-Premise Sign and shall be deemed illegal and subject to removal by the Department at the expense of the Sign owner.~~

~~L. On-Premise Signs—Right-of-Way Encroachment~~

- ~~1. On-Premise Signs shall be allowed to extend over existing right-of-way and future rights-of-way of any State Highway if:
 - ~~a. The Sign is attached to and extends from a building and only advertises activities or services offered in that building;~~
 - ~~b. The building and attached Sign is adjacent to the State Highway within a city, city and county, or incorporated town having authority over the State Highway pursuant to § 43-2-135, C.R.S.;~~
 - ~~c. The Sign does not restrict pedestrian traffic and is not a safety hazard to the motoring public; and~~
 - ~~d. Before erecting the Sign, the owner has obtained written permission from the city, city and county or incorporated town. [§ 43-1-421, C.R.S.]~~~~
- ~~2. No On-Premise Sign may encroach over an Interstate right-of-way nor any portion of a roadway.~~

~~M. Comprehensive Development On-Premise Signs~~

- ~~1. On-Premise Signs for Comprehensive Developments shall adhere to the requirements of On-Premise Signs in Rule 6.02.~~
- ~~2. A Comprehensive Development includes all land used or to be used or occupied for the activities of the development, including buildings, parking, storage and service areas, streets, driveways, and reasonably necessary landscaped areas.~~
- ~~3. A Comprehensive Development includes only land that is used for a purpose reasonably related to the activities of the development other than an attempt to qualify the land for On-Premise advertising.~~
- ~~4. A Comprehensive Development is a group of two or more lots or parcels of land used primarily for multiple separate commercial or industrial activities and must meet all of the following requirements pursuant to § 43-1-403 (1.5)(a) and (b); C.R.S.:~~
 - ~~a. Is located entirely on one side of a highway;~~
 - ~~b. Consists of lots or parcels that are contiguous except for public or private roadways or driveways that provide access to the development;~~
 - ~~c. Has been approved by the relevant local government as a development with a common identity and plan for public and private improvements;~~
 - ~~d. Has common areas such as parking, amenities, and landscaping; and~~
 - ~~e. Has an approved plan of common ownership in which the owners have recorded irrevocable rights to use common areas and that provides for the management and maintenance of common areas.~~

6.03 ~~Off-Premise Signs~~Advertising Devices**6.03.1 General Requirements**

- A. ~~Off-Premise~~ Signs include:
1. Signs in Areas Zoned for Commercial or Industrial Uses;
 2. Nonconforming Signs;
 3. ~~Directional and Official Signs~~Repealed; and
 4. Advertising Devices on Scenic Byways~~;~~;
 5. ~~Landmark Signs, and~~Repealed.
 6. ~~Free Coffee Signs~~Repealed.
- B. An ~~Off-Premise Sign~~Advertising Device shall comply with the requirements set forth in these Rules and 23 C.F.R. § 750.108. All Signs shall not:

...

2. Interfere with a driver's clear and unobstructed view of ~~Official Signs~~official signs and approaching, intersecting or merging traffic; [23 C.F.R. § 750.108(b)]

...

- C. No ~~Off-Premise Sign~~new Advertising Device shall be erected adjacent to a Scenic Byway~~, except for Directional and Official Signs~~. [§ 43-1-419, C.R.S.]
- D. ~~An Off-Premise~~A Sign shall be considered abandoned if it meets the requirements of Rule 6.03.3-~~(B)~~.
- E. Measuring Distances between ~~Off-Premise~~ Signs [23 C.F.R. § 750.103]

...

6.03.3 Sign Repairs [23 C.F.R. § 750.707; § 43-1-413, C.R.S.]

...

- B. Abandoned, Discontinued or Obsolete Nonconforming Signs. [23 U.S.C. § 131; 23 C.F.R. § 750.707; § 43-1-413(2)(f), C.R.S.]
1. Abandoned or Discontinued Signs

- a. An abandoned or discontinued Sign is one that for one year or more ~~years~~~~displays out-of-date advertising matter, or~~ is without advertising matter, or is in need of substantial repair. Such Signs determined by the Department as abandoned or discontinued are subject to removal as Illegal Signs under § 43-1-412, C.R.S.

...

- C. Damage or Destruction of Nonconforming Signs. [23 C.F.R. § 750.707(d)(6); § 43-1-413(2)(e), C.R.S.]

...

4. The Department shall determine whether a Sign has been damaged or destroyed to a degree that terminates the Nonconforming Sign's nonconforming status based on the schedule of compensation referenced in § 43-1-413(2)(e), C.R.S., as follows:

...

- d. The procedure under (1) through (5) below shall determine whether the damaged or destroyed Nonconforming Sign may be repaired or restored:

...

- (5) The Department shall make a determination whether the ~~sign~~ Sign may be repaired or restored based on (3) and

...

7.00 Signs in Areas Zoned by Law for Industrial or Commercial Uses

[23 C.F.R. § 750.708; § 43-1-404(1)(e)(I); § 43-1-406(2)(b)(I) and (II), C.R.S.]

...

- B. Size Requirements [§ 43-1-404(1), C.R.S.]

...

5. ~~Requirements for Signs Erected After 1970 Advertising Necessary Goods and Services Repealed.~~
- a. ~~Advertising Devices located along non-interstate Controlled Routes shall be subject to the following requirements:~~
- ~~(1) Only inform the traveling public of necessary goods or services available within a five-mile radius of the Advertising Device. Necessary goods and services shall be limited to those set forth in § 43-1-404(1)(e)(I)(c), C.R.S.~~
 - ~~(2) No person providing necessary goods or services shall be eligible for more than two Advertising Devices.~~
 - ~~(3) The Advertising Device shall predominately display the name and location of the necessary goods or services advertised.~~
 - ~~(4) If the necessary goods and services are not available 12 months out of the year, the Sign must clearly display the dates such goods and services are available.~~

C. Lighting

1. Advertising Devices that contain, include, or are illuminated by any flashing, intermittent, or moving light or lights are prohibited, ~~except those giving public service information, such as time, date, temperature, weather, or similar information.~~

...

D. Spacing of Signs

...

6. Signs that are not lawfully maintained, ~~and Official and On-Premise Signs as defined in 23 U.S.C. 131(c) and these Rules,~~ shall not be counted nor shall measurements be made from them for purposes of determining compliance with spacing requirements.

...

8.00 ~~Directional and Official Signs Repealed.~~

~~{§ 43-1-403(4), C.R.S.; 23 U.S.C 131(c)(1); 23 C.F.R. 750.105; 23 C.F.R. 750.153}~~

~~A. CDOT's Jurisdiction over Directional and Official Signs.~~

- ~~1. Directional and Official Signs under CDOT control are located within 660 feet of the right-of-way and Directional and Official Signs located beyond 660 feet of the right-of-way outside of Urban Areas, Visible from the Main Traveled Way of the system, and erected with the purpose of their message being read from such Main Traveled Way.~~
- ~~2. Urban Area means an area as designated by the Bureau of the Census having a population of 5,000 or more and not within any urbanized area, within boundaries to be fixed by CDOT and local officials, subject to approval by the Secretary of Transportation. Such boundaries shall, as a minimum, encompass the entire urban place designated by the Bureau of the Census. [23 C.F.R. 750.153(t)]~~

~~B. Definitions. The Definitions listed below are specific to this Rule on Directional and Official Signs.~~

- ~~1. "Directional Sign" includes, but is not limited to:~~
 - ~~a. Signs containing directional information to facilitate emergency vehicle access to remote locations;~~
 - ~~b. Signs referring to public places owned or operated by federal, state, or local governments or their agencies;~~
 - ~~c. Publicly or privately owned natural phenomena, historic, cultural, scientific, educational, and religious sites;~~
 - ~~d. Areas of natural scenic beauty or naturally suited for outdoor recreation, deemed to be in the interest of the traveling public. 23 C.F.R. 750.153(r); § 43-1-403 (4) C.R.S.; or~~
 - ~~e. Public utility signs, service club and religious notices, and public service signs. [23 C.F.R. 750.153(m)]~~
- ~~2. A "Notice" for purposes of this section of the Rules is a temporary sign providing the content as stated in the "Official Sign" or "Public Utility Sign" definitions but which is posted for a limited time.~~
- ~~3. "Official Sign" is a Sign erected and maintained by public officers or public agencies within their territorial or zoning jurisdiction pursuant to federal, state or local law and for the purposes of carrying out an official duty or responsibility. Historical markers authorized by State law and erected by CDOT or local government agencies or nonprofit historical societies may be considered Official Signs. [23 C.F.R. 750.153 (n)] Official Signs shall not include Signs advertising any private business. [§43-1-403(13), C.R.S.]~~
- ~~4. "Public Service Sign" located on school bus stop shelters:~~

- a. ~~Identifies the donor, sponsor, or contributor of said shelters;~~
 - b. ~~Contains public service messages, which shall occupy not less than 50% of the area of the Sign;~~
 - c. ~~Contains no other message;~~
 - d. ~~Is located on school bus shelters which are authorized or approved by city, county, or state law, regulation, or ordinance, and at places approved by the city, county, or the Department; and~~
 - e. ~~May not exceed 32 square feet in area. Not more than one Sign on each shelter shall face in any one direction. [23 C.F.R. 750.153(q)]~~
5. ~~“Public Utility Sign” means a warning sign, informational sign, notice, or marker that is customarily erected and maintained by publicly or privately owned public utilities, as essential to their operations. [23 C.F.R. 750.153(o)]~~
6. ~~“Service club” or “Religious” signs or notices mean a sign or notice whose erection is authorized by law, relating to meetings of nonprofit service clubs or charitable associations, or religious services, which signs or notices do not exceed 8 square feet in area. [23 C.F.R. 750.153(p)]~~
- C. ~~Criteria for Directional Signs [23 C.F.R. 170.154(f)]~~
- 1. ~~Prohibited Signs. The following Directional Sign conditions are prohibited:~~
 - a. ~~Directional Signs advertising activities that are illegal under federal or state laws or regulations in effect at the location of those Signs or at the location of those activities.~~
 - b. ~~Directional Signs that obscure or otherwise interfere with the effectiveness of any official traffic sign, signal or device, or obstruct or interfere with the driver’s view of approaching, merging, or intersecting traffic.~~
 - c. ~~Directional Signs erected or maintained upon trees or painted or drawn upon rocks or other natural features.~~
 - d. ~~Directional Signs that are:~~
 - (1) ~~Obsolete;~~
 - (2) ~~Structurally unsafe or in disrepair;~~
 - (3) ~~Move or have any animated or moving parts;~~
 - (4) ~~Located in Rest Areas, Parklands or Scenic Areas.~~
 - 2. ~~Size of Directional Signs~~

- a. ~~No Directional Sign shall exceed the following limits, including border and trim, but exclude supports:~~

~~Maximum area—150 square feet;~~

~~Maximum height—20 feet;~~

~~Maximum length—20 feet.~~

3. ~~Lighting of Directional Signs~~

- a. ~~The following lighting conditions are prohibited:~~

(1) ~~Signs that contain, include, or are illuminated by any flashing, intermittent, or moving light or lights.~~

(2) ~~Signs that are not effectively shielded so as to prevent beams or rays of light from being directed at any portion of the traveled way of an Interstate or primary highway or which are of such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle, or which otherwise interfere with any driver's operation of a motor vehicle.~~

(3) ~~Signs that are illuminated so as to interfere with the effectiveness of or obscure an official traffic sign, device, or signal.~~

4. ~~Spacing of Directional Signs~~

- a. ~~Each location of a Directional Sign must be approved by the Department.~~

b. ~~No Directional Sign may be located within 2,000 feet of an interchange, or intersection at grade along the interstate system or other freeways (measured along the Interstate or freeway from the nearest point of the beginning or ending of pavement widening at the exit from or entrance to the Main Traveled Way).~~

c. ~~No Directional Sign may be located within 2,000 feet of a Rest Area, Parkland, or Scenic Area. A scenic area means any public park or area of particular scenic beauty or historical significance designated by or pursuant to state law as a scenic area.~~

d. ~~No two Directional Signs facing the same direction of travel shall be spaced less than one (1) mile apart;~~

e. ~~Not more than three Directional Signs pertaining to the same activity and facing the same direction of travel may be erected along a single route approaching the activity;~~

~~f. Directional Signs located adjacent to the interstate system shall be within 75 air miles of the activity; and~~

~~g. Directional Signs located on other than the interstate system, including adjacent to the primary system, shall be within 50 air miles of the activity.~~

~~5. Message Content~~

~~a. The message on Directional Signs shall be limited to the identification of the attraction or activity and directional information useful to the traveler in locating the attraction, such as mileage, route numbers, or exit numbers.~~

~~Descriptive words or phrases, and pictorial or photographic representations of the activity or its environs are prohibited.~~

~~D. Directional Signs Pertaining to Privately Owned Activities [23 C.F.R. 750.154]~~

~~1. Privately owned activities or attractions eligible for Directional Signing must meet the requirements of these Rules and state and federal law, and must be nationally or regionally known, and of outstanding interest to the traveling public. "Outstanding interest to the travelling public" for purposes of these Rules means for edification and enjoyment of the travelling public and not specifically to generate income for the activity. [23 C.F.R. 750.154 (f)(1) and (2)]~~

~~2. Privately owned activities or attractions eligible for Directional Signing are limited to the following: natural phenomena; scenic attractions; historic, educational, cultural, scientific, and religious sites, and outdoor recreational areas.~~

~~3. To be eligible, privately owned attractions or activities must be nationally or regionally known, and of outstanding interest to the traveling public.~~

9.00 Advertising Devices on Scenic Byways

[§ 43-1-419, C.R.S.; 23 U.S.C. § 131(s)]

...

B. No new Advertising Device shall be erected along a Scenic Byway that is visible from the Controlled Route, ~~with the exception of:~~

~~1. Official Signs;~~

~~2. On-Premise Signs; and~~

~~3. Directional Signs.~~

...

10.00 ~~Landmark Signs~~Repealed.

- A. ~~No Landmark Signs have been established in Colorado pursuant to 23 C.F.R. 750.710 (a) and (b).~~

11.00 ~~Free Coffee Signs~~Repealed.

~~[23 U.S.C. 131(c)]~~

- A. ~~Signs, displays, and devices advertising the distribution by nonprofit organizations of free coffee to individuals traveling on an interstate or primary system may be located within the Control Area. Free coffee shall include coffee for which a donation may be made but is not required.~~

12.00 ~~Off-Premise~~ CEVMS Advertising Devices

- A. Authority. The Department has authority to control the brightness, intervals, spacing and location of ~~Off-Premise~~ CEVMS Advertising Devices along Controlled Routes for the purpose of ensuring safety to the travelling public. [23 USC 131 (c) (3) and (j); 23 C.F.R. § 750.705; § 43-1-404(1)(f), and § 43-1-415(1), C.R.S.]
- B. Definitions

...

9. ~~“Public Service Information” means a message on an electronic Sign which provides the time, date, temperature, weather, or information concerning civic or charitable activities~~Repealed.

...

- C. General Requirements

...

2. Location

- a. No CEVMS may be placed within 1,000 feet of another CEVMS on the same side of a highway and facing the same direction of travel. ~~On-Premise Signs inside 50 feet of the advertised activity are not counted for purposes of this spacing requirement.~~ [§ 43-1-404(1)(f)(I), C.R.S.]

- b. A CEVMS shall not prevent the driver of a vehicle from having a clear and unobstructed view of ~~Official Signs~~official signs and approaching or merging traffic.

...

5. Operational Requirements Specific to ~~Off-Premise~~CEVMS Advertising Devices

...

- D. Conversion from a Static Advertising Device to a CEVMS

...

4. Site Review. The Department may conduct a site review and inspection prior to permitting a conversion to CEVMS to ensure that the description, location and other information contained in the application for conversion is in compliance with these Rules. [43-1-421(1)(f)(I), C.R.S.]

...

13.00 Materials Incorporated by Reference

- A. These Rules are intended to be consistent with and not be a replacement for 23 United States Code (U.S.C.) § 131 dated October 1, 2012~~December 4, 2015~~, and its implementing regulations contained in 23 Code of Federal Regulations (C.F.R.) Part 750 in effect as of June 20, 1973, 750.705(h) (Sept. 16, 1975)~~August 23, 1985~~ which are hereby incorporated into the Rules by this reference pursuant to § 24-4-103(12.5), C.R.S., and do not include any later amendments.

1. Copies of the referenced United State Code may be obtained from the following address:

- C. All referenced laws and regulations shall be available for copying or public inspection during regular business hours from the Office of Policy and Government Relations, Colorado Department of Transportation, 4201 E. Arkansas Avenue 2829 W. Howard Place, Denver, Colorado 80222 80204.

14.00 Declaratory Orders

- A. Any person may petition the Executive Director for a declaratory order pursuant to § 24-4-105(11), C.R.S.

- B. Contents of the Petition

1. The name of address of the petitioner.

2. Whether the petitioner is a Permittee and what interest, if any, they have or would have in the applicable Advertising Device or proposed Advertising Device.
3. Whether the petitioner is involved in any pending administrative hearings or lawsuits with the Department or the relevant local jurisdiction.
4. The statute, rule, or order to which the petition relates.
5. A concise statement of all of the facts necessary to show the nature of the controversy or the uncertainty as to the applicability to the petitioner of the statute, rule, or order to which the petition relates.
6. A concise statement of the legal authorities, if any, and such other reasons upon which the petitioner relies.

C. The Executive Director Retains Discretion Whether to Entertain Petition.

The Executive Director or designee will determine, in their sole discretion without prior notice to the petitioner, whether to entertain any petition. If the Executive Director or designee decides not to entertain a petition, the Department will notify the petitioner in writing of its decision and the reasons for that decision. Any of the following grounds may be sufficient reason to refuse to entertain a petition:

1. A ruling on the petition will not terminate the controversy nor remove uncertainties concerning the applicability to petitioner of the statute, rule, or order in question.
2. The petition involves a subject, question, or issue that is relevant to a pending hearing before the state or any local licensing authority, an on-going proceeding conducted by the Department, or relates to an issue or case which is currently the subject of litigation.
3. The petition seeks a ruling on a moot or hypothetical question.
4. Petitioner has some other adequate legal remedy, other than an action for declaratory relief pursuant to Colo. R. Civ. Pro. 57, which will terminate the controversy or remove any uncertainty concerning applicability of the statute, rule, or order.

D. Executive Director Entertains the Petition.

If the Executive Director or designee determines to entertain the petition for declaratory order, the Department will notify the petitioner, and any of the following procedures may apply:

1. The Executive Director or designee may expedite the matter by ruling on the basis of the facts and legal authority presented in the petition, or by requesting the parties to submit additional evidence and legal argument in writing.
2. In the event the Executive Director or designee determines that an evidentiary hearing is necessary to a ruling on the petition, a hearing will be conducted in

accordance with the State Administrative Procedure Act, § 24-4-101, C.R.S. *et seq* . The petitioner will be identified as Respondent.

3. The parties to any proceeding pursuant to this Rule will be the petitioner/Respondent and the Department. Any other interested person(s) may seek leave of the Department to intervene in the proceeding and such leave may be granted if the Department determines that such intervention will make a separate petition by the interested person(s) for a separate declaratory order unnecessary.
 4. The declaratory order will constitute a Final Agency Order subject to judicial review pursuant to § 24-4-106, C.R.S.

Denver, CO 80204-2305

Notice of Proposed Rulemaking

**Executive Director
Rules Governing Outdoor Advertising in Colorado
2 CCR 601-3**

Date & Time of Public Hearing: Friday, October 1, 2021, at 10 a.m.

I. Notice

As required by the State Administrative Procedure Act found at section 24-4-103, C.R.S., the Executive Director of the Colorado Department of Transportation ("CDOT") gives notice of proposed rulemaking.

This proposed permanent rulemaking hearing is scheduled for **October 1, 2021, at 10 a.m.** and will only be conducted in a virtual setting. All interested and affected parties must register to attend the public hearing through the registration link provided in the table below.

Date	Location	Time	Registration Links
10/01/2021	Webinar Only	10 a.m.	Registration Link

How to Register for Hearing

You must click on the registration link from the above table to register for the hearing. When you register, you must provide your full name and email address. You may also provide your telephone number and the organization that you are representing. Finally, please indicate whether you plan to testify during the hearing and/or submit written comments. When you submit your registration, you should receive a confirmation email including details about how to join the webinar.

The registration link for the hearing is also available on the Colorado Department of Transportation's website at <https://www.codot.gov/business/rules/proposed-rules>.

II. Subject

Senate Bill 21-263 took effect in Colorado on June 30, 2021, changing the permitting and enforcement processes for the control of advertising devices in areas near interstates and state highways and visible to the traveling public from the roadway to a compensation-based approach.

The specific purpose of this rulemaking is to consider changes to align CDOT's processes for permitting and enforcement of outdoor advertising devices with Senate Bill 21-263. CDOT proposes the following rule changes:

- Establish a new compensation-based approach within the rules for permitting and enforcement of outdoor advertising devices in areas near interstates and state highways and visible to the traveling public from the roadway.
- Remove the previous categories of outdoor advertising devices (i.e., On-Premise Sign, Off-Premise Sign, Official Sign, and Directional Sign) from the rules.

- Redefined the definition of “Advertising Device” to reference the definition in statute.
- Add the new definition of “Compensation” to reference the definition in statute.
- Modify the noncompliance requirements to give a property owner or sign owner the option to execute an affidavit under the penalty of perjury in the event the property owner or sign owner does not believe their sign is an advertising device requiring a CDOT permit.
- Streamline the hearing procedures and also modify the procedures to allow an applicant who was denied a permit to request an expedited hearing within 30 days of the notice of denial.
- Clarify that Changeable Electronic Variable Message Signs may not be within 1000 feet of each other that are facing the same direction.
- Update the materials incorporated by reference within the rules.
- Add procedures for interested and affected parties to petition for a declaratory order to increase transparency for the public and be in compliance with the Colorado Administrative Procedure Act.
- Finally, make other non-substantive changes to align the rules with Senate Bill 21-263 and fix typographical or grammatical errors.

A detailed Statement of Basis, Purpose, and Specific Statutory Authority follows this notice and is incorporated by reference.

III. Statutory Authority

The specific authority under which the Executive Director of CDOT shall establish these rules is set forth in §§ 43-1-105(6), 43-1-414(4), and 43-1-415, C.R.S.

IV. Copies of the Notice, Proposed Rule Revisions, and the Statement of Basis, Purpose & Authority

The notice of hearing, the proposed rule revisions, and the proposed statement of basis, purpose and authority are available for review at CDOT’s website at <https://www.codot.gov/business/rules/proposed-rules>.

If there are changes made to the proposed rule revisions prior to the hearing, the updated proposed rule revisions will be available to the public and posted on CDOT’s website by September 24, 2021.

Please note that the proposed rule revisions being considered are subject to further changes and modifications after the public hearing and the deadline for the submission of written comments.

V. Opportunity to testify and submit written comments

CDOT strives to make the rulemaking process inclusive to all. Everyone will have the opportunity to testify and provide written comments concerning the proposed rule revisions. Interested and affected parties are welcome to testify and submit written comments.

The format of the hearing will proceed as follows:

- The Hearing Officer opens the hearing and provides a brief introduction of the hearing procedures.
- CDOT staff will review exhibits to establish that the CDOT met all the procedural requirements of the Administrative Procedure Act.
- A summary of the proposed rule revisions will be presented by CDOT staff.
- Participants will then have the opportunity to give testimony regarding the proposed rule revisions.
- The Hearing Officer will make certain finding and conclude the hearing.

Testimony

The testimony phase of each hearing will proceed as follows:

- The Hearing Officer will identify the participants who indicated that they plan to testify during the hearing based on the registration records.
- When Hearing Officer exhausts the list, we will ask whether any additional participants wish to testify.

To ensure that the hearing is prompt and efficient, oral testimony may be time-limited.

Written Comments

All interested and affected parties are strongly encouraged to submit their written comments to dot_rules@state.co.us. All written comments must be received on or before Tuesday, October 05, 2021, at 5 pm.

Additionally, we will post all written comments to CDOT's website at <https://www.codot.gov/business/rules/proposed-rules>. However, please note that we will redact the following information for data privacy from the submissions prior to posting online: first and last names, contact information, including business and home addresses, email addresses, and telephone numbers.

All written comments will be added to the official rulemaking record.

VI. Recording of the Hearings

The hearing will be recorded. After the hearing concludes, the recording will be available on CDOT's website at <https://www.codot.gov/business/rules/proposed-rules>.

VII. Special Accommodations

If you need special accommodations, please contact CDOT's Rules Administrator at 303.757.9441 or dot_rules@state.co.us at least one (1) week prior to the scheduled hearing date.

VIII. Contact Information

Please contact CDOT's Rules Administrator, at 303.757.9441 or dot_rules@state.co.us if you have any questions.

COLORADO

Department of Transportation

Denver, CO 80204-2305

Notice of Proposed Rulemaking

Executive Director

**Rules Governing Outdoor Advertising in Colorado
2 CCR 601-3**

Proposed Statement of Basis and Purpose and Statutory Authority

I. Rules

The rules governing outdoor advertising in Colorado are found at 2 CCR 601-3.

II. Statement of Basis & Purpose

The purpose of these rules is to carry out the provisions of Colorado's Outdoor Advertising Act found at § 43-1-401, *et seq.*, C.R.S., and the Highway Beautification Act of 1965 found at 23 U.S.C. § 131 by establishing a statewide uniform program controlling the use of advertising devices in areas adjacent to the State Highway System. The intent of these rules is to protect and promote the health, safety, and welfare of the traveling public and the people of Colorado, and to promote the reasonable, orderly and effective display of outdoor advertising, while preserving and enhancing the natural and scenic beauty of Colorado.

Senate Bill 21-263 took effect in Colorado on June 30, 2021, changing the permitting and enforcement processes for the control of advertising devices in areas near interstates and state highways and visible to the traveling public from the roadway to a compensation-based approach.

The specific purpose of this rulemaking is to consider changes to align CDOT's processes for permitting and enforcement of outdoor advertising devices with Senate Bill 21-263. Proposed changes include:

- Add, modify, or delete defined terms to aid in the interpretation and implementation of these Rules as follows:
 - Modify the definitions of "Advertising Device" and "Comprehensive Development" to reference the definitions in statute for consistency.
 - Delete the definitions of "Directional Sign", "Off-Premise Sign", "Official Sign", and "On-Premise Sign" to align with Senate 21-263.
 - Add the new definition of "Compensation" to reference the definition in statute for consistency.
 - Delete the definitions of "Commercial Advertising" and "Premises" since they are no longer necessary as a result of Senate Bill 21-263.
 - Modify the definition of "Permit Number Identifier" to align with Senate Bill 21-263.
- Establish a new compensation-based approach within the rules for permitting and enforcement of outdoor advertising devices in areas near interstates and state highways and visible to the traveling public from the roadway.

- Delete the requirements for the previous categories of outdoor advertising devices (i.e., On-Premise Sign, Off-Premise Sign, Official Sign, and Directional Sign) from the rules.
- Clarify CDOT is prohibited from issuing or renewing a permit if the advertising device becomes decay, insecure, or in danger of falling, or unsafe due to lack of maintenance or repair, which mirrors § 43-1-411(5), C.R.S.
- Clarify CDOT will provide the reasons for the denial of the application, the denial of the renewal of the permit, or the revocation of the Permit in writing.
- Modify the noncompliance requirements to give a property owner or sign owner the option to execute an affidavit under the penalty of perjury in the event the property owner or sign owner does not believe their sign is an advertising device requiring a CDOT permit.
- Streamline the hearing procedures and also modify the procedures to allow an applicant who was denied a permit to request an expedited hearing within 30 days of the notice of denial.
- Delete the requirements for signs erected after 1970 advertising necessary goods and services to align with Senate Bill 21-263.
- Delete the requirements for “Landmark Signs” and “Free Coffee Signs”. Landmark signs have not been established Colorado. Free Coffee Signs are set forth in federal law.
- Clarify that Changeable Electronic Variable Message Signs may not be within 1000 feet of each other that are facing the same direction.
- Update the materials incorporated by reference within the rules in accordance with § 24-4-103(12.5), C.R.S.
- Add procedures for interested and affected parties to petition for a declaratory order to increase transparency for the public and be in compliance with the Colorado Administrative Procedure Act. This is a voluntary process that allows for interested and affected parties to obtain a declaratory order on statutes, rules, or orders relating to the control of outdoor advertising in Colorado.
- Make other non-substantive changes to align the rules with Senate Bill 21-263 or fix typographical or grammatical errors.

III. Statutory Authority

The statutory authority is as follows:

- Senate Bill 21-263 enacted into law on June 30, 2021.
- § 43-1-105(6), C.R.S., which authorizes the Executive Director or designee to preside over a hearing whenever CDOT is required by law to hold a hearing.
- § 43-1-414(4), C.R.S., which authorizes CDOT to promulgate rules governing the acquisition procedures for the advertising devices, the appraisal of advertising devices, and the administration and enforcement of outdoor advertising.
- § 43-1-415, C.R.S., which authorizes CDOT to promulgate rules necessary to carry out the provisions of the Outdoor Advertising Act.

LIFE ACCIDENT AND HEALTH

DRAFT Proposed AmendedNew Regulation 4-2-74

PREMIUM CONCERNING DATA REPORTING REQUIREMENTS FOR CARRIERS' OUT-OF-NETWORK REIMBURSEMENTS

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Data Reporting Requirements for Out-of-network Reimbursements
Section 6	Severability
Section 7	Enforcement
Section 8	Effective Date
Section 9	History

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109(1), 10-16-109, and 10-16-704(14), and 10-16-708, C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to establish data reporting requirements for carriers concerning the use of out-of-network providers and facilities and the impact on premium affordability as required by HB 19-1174, 10-16-704(14), C.R.S.

Section 3 Applicability

This regulation applies to carriers offering individual, small group and large group health benefit plans, including student health plans and managed care plans, that receive bills from out-of-network providers and facilities on or after January 1, 2020, and that are subject to the requirements of 10-16-704(3)(d) and (5.5), C.R.S.

Section 4 Definitions

- A. "Ambulance services" shall have the same meaning as found at § 25-3.5-103(3), C.R.S., and for purposes of this regulation, does not include publicly funded fire agencies.
- B. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- C. "Facility type" means, for the purposes of this regulation and reporting purposes, the following facility categories:
 - 1. Hospitals licensed pursuant to part 1 of article 3 of title 25; and,
 - 2. Freestanding Emergency Departments, as defined at § 25-1.5-114(5)(a), C.R.S.

- D. "Geographic area" means, for the purposes of this regulation, the geographic area established by the Division for out-of-network reimbursements pursuant to § 10-16-704, C.R.S. and found in Colorado Insurance Regulation 4-2-66.
- E. "Health benefit plan" shall have the same meaning as found at § 10-16-102(32), C.R.S.\
- F. "Managed care plan" shall have the same meaning as found at § 10-16-102(43), C.R.S.
- G. "Publicly funded fire agency" means, for the purposes of this regulation, an ambulance service provider that has been established as part of a fire protection district, health services district, municipality, special tax district, or other government entity.
- H. "Provider" shall have the same meaning as found at § 10-16-102(56), C.R.S.

Section 5 Data Reporting Requirements for Out-of-network Reimbursements

- A. ~~By December 31, 2020, carriers shall report the data in Sections 5.B through 5.E. for the period January 1 through September 30, 2020. By March 1, 2021, carriers shall report the data for October 1 through December 31, 2020. For the 2021 calendar year and beyond, no later than December 31 of that year, carriers shall report data from October 1 of the prior year through September 30 of the current year. On or before March 1 of each year, carriers shall report the data in Sections 5.B through 5.F for January 1 through December 31 of the preceding year.~~

- B. Provider data

Carriers shall provide the Division with the following aggregated out-of-network claims data, by geographic area, concerning claims processed for non-emergency services received at an in-network facility by an out-of-network provider, and concerning claims processed for emergency services received at an out-of-network facility, that include:

1. The total amount charged by and paid to the following out-of-network provider types:
 - a. Anesthesiologists;
 - b. Radiologists;
 - c. Surgical Assistants;
 - d. Emergency Room Physicians; and
 - e. Pathologists.
2. The total amount charged by and paid to the top five out-of-network provider types, by total spend, exclusive of the provider types identified in Section 5.B.1., that with Section 5.B.2. results in reporting on a total of ten out-of-network provider types;
3. The number of claims denied or resolved by the out-of-network provider types identified in Section 5.B.1. and 2., including a list of reasons for claims denial and the number of claims denied for each reason based on the below classifications:
 - a. Duplicate charge; claims denied because of a duplicate charge from the provider.
 - b. Enrollment and eligibility: claims denied because the member was no longer eligible, member had coverage with another carrier, or member failed to make a premium payment.

- c. Missing or incorrect claim: claims denied because of an invalid diagnosis code, incomplete information, claim was filed outside of a specified time limit, incorrectly billed, or because the provider was unresponsive.
 - d. Prior authorization: claims denied because the service was not authorized by the carrier or authorization was denied;
 - e. Benefit issue: claims denied because the service was determined not medically necessary, or the claim was incorrectly submitted without being bundled with another service; the service or procedure was not covered, or the service was outside the providers scope of practice.
- 4. The total number of out-of-network claims processed;
 - 5. The total number and amount allowed prior to the application of the covered person's cost-sharing requirements for each of the payment methodologies contained in § 10-16-704(3)(d), C.R.S., including the number and amount of any negotiated alternative reimbursements;
 - 6. The ratio of total out-of-network claims to in-network claims processed by number and dollar amount;
 - 7. The ratio of total out-of-network claims to in-network claims processed by number. The ratio of total out-of-network claims to in-network claims processed by dollar amount as a percentage of Medicare reimbursement; and,
 - 8. Total number of unique non-contracted providers who submitted out-of-network claims to the carrier for payment by the out-of-network provider types identified in Section 5.B.1. and 2. The ratio of total out-of-network claims to in-network claims for the provider types identified in Section 5.B.1. and 2.

C. Facility Data

Carriers shall provide the Division with the following data elements, by geographic area, concerning claims for covered emergency services at out-of-network facilities:

- 1. For services, by facility type:
 - a. Aggregated claims data that includes:
 - (1) The total amount charged;
 - (2) The total amount paid;
 - (3) The total number of claims denied or resolved; and,
 - (4) A list of reasons for claims denial and the number of claims denied for each reason based on the below classifications:
 - (a) Duplicate charge: claims denied because of a duplicate charge from the provider;
 - (b) Enrollment and eligibility: claims denied because the member was no longer eligible, member had coverage with another carrier, or member failed to make a premium payment;

- (c) Missing or incorrect claim: claims denied because of an invalid diagnosis code, incomplete information, claim was filed outside of a specified time limit, incorrectly billed, or because the provider was unresponsive;
- (d) Prior authorization: claims denied because the service was not authorized by the carrier or authorization was denied;
- (e) Benefit issue: claims denied because the service was determined not medically necessary, or the claim was incorrectly submitted without being bundled with another service; the service or procedure was not covered, or the service was outside the providers scope of practice.

- b. The total number of out-of-network claims processed;
 - c. The total number and amount allowed prior to the application of the covered person's cost-sharing requirements for each of the payment methodologies contained in § 10-16-704(5.5)(b) C.R.S., including the number and amount of any negotiated alternative reimbursements;
 - d. The ratio of total out-of-network claims to in-network claims processed by number and dollar amount; and,
 - e. The ratio of total out-of-network claims to in-network claims processed by number. The ratio of total out-of-network claims to in-network claims processed by dollar amount as a percentage of Medicare reimbursement.
2. The financial data elements specified in this Section 5.C. for Denver Health and Hospital Authority shall be submitted in a separate report.

D. Ambulance Service Provider Data

Carriers shall provide the Division with the following data elements, by geographic area, concerning claims from out-of-network ambulance service providers processed in the previous calendar year, excluding those ambulance services provided by publicly funded fire agencies, for covered emergency services as defined in § 10-16-704(5.5)(e)(II), C.R.S.:

- 1. De-identified aggregated claims data that includes:
 - a. The total amount charged;
 - b. The total amount paid;
 - c. The total number of claims denied or resolved; and,
 - d. ~~A list of reasons for claims denial and the number of claims denied for each reason.~~
- 2. The total number of out-of-network claims processed;
- 3. The total number and amount allowed prior to the application of the covered person's cost-sharing requirements for each of the methodologies contained in Colorado Insurance Regulation 4-2-66, Concerning the Payment Methodology for Non-Contracted

Service Agencies that Provide Emergency Ambulance Services, including the number and amount of any negotiated alternative reimbursements; and,

4. The ratio of total out-of-network claims to in-network claims processed by number. The ratio of total out-of-network claims to in-network claims processed by dollar amount as a percentage of Medicare reimbursement.
5. [Total number of unique contracted ambulance service providers and unique non-contracted ambulance service providers who submitted out-of-network claims to the carrier for payment.](#)

E. Network Data

Each carrier shall submit the following data elements, by geographic area, regarding its health benefit plan networks marketed during the immediately prior plan year:

1. A narrative description of how the carrier's networks have changed due to the passage of HB 19-1174 and the factors that contributed to those changes; [including a description of the changes in carrier's networks for providers listed in Section 5.B.1. and ambulance service providers.](#)
2. Total number of unique non-contracted providers who submitted out-of-network claims to the carrier for payment by provider type, including ambulance service providers;
3. Total number of contracted providers for each unique provider type reported in sections 5.B.1 and 2.; and
4. Beginning with the report due by December 31, 2020, an explanation of the changes in the previous year's report for the numbers currently being reported for sections 5.E.2. and 3.

F. Premium Impact Comparison and Analysis

Carriers shall provide a detailed analysis of the impact of using out-of-network providers and facilities on premium affordability for consumers based on the data reported in Section 5., presented by market (individual, small group, large group), and by geographic area. [The premium That analysis shall compare premiums to determine the premium impact resulting from the passage of HB 19- 1174, and what the premium impact would be if that bill had not been passed, and must include, at a minimum:](#)

1. [Estimated total dollar amount of savings for out-of-network claims due to HB 19-1174;](#)
2. [An explanation of how total out-of-network paid claims savings due to the passage of HB19-1174 impacted premiums for consumers. The Division may consider requests for an alternative due date for this analysis on a case-by-case basis.](#)

Section 6 Severability

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 7 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition

of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section 8 Effective Date

~~This regulation shall be effective December 15, 2020.~~ This amended regulation shall be effective November XX, 2021

Section 9 History

New regulation effective December 15, 2020.

Amended regulation effective November XX, 2021

LIFE, ACCIDENT AND HEALTH

DRAFT New Regulation 4-2-7X

CONCERNING INFERTILITY COVERAGE BY HEALTH BENEFIT PLANS

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Requirements for Infertility Treatment and Preservation Services Coverage
Section 6	Severability
Section 7	Enforcement
Section 8	Effective Date
Section 9	History

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109(1), 10-16-109, 10-16-704(13)(b), and 10-16-104(23)(d), C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to establish requirements for coverage for infertility treatment and preservation services for a covered person pursuant to § 10-16-104(23).

Section 3 Applicability

As detailed in HB 20-1158, the requirement for coverage for infertility treatment would not go into effect for markets subject to possible defrayal pursuant to 42 U.S.C. § 18031(d)(3)(B) if the federal government informed the Division that the coverage would lead to the State having to defray costs for those markets. Otherwise, HB 20-1158 requires infertility treatment to be covered. The large group market is not subject to 42 U.S.C. § 18031(d)(3)(B). As a result, this regulation applies to all health benefit plans in the large group market effective in 2022.

Section 4 Definitions

- A. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- B. "Health Benefit Plan" shall have the same meaning as found at § 10-16-202(32), C.R.S.

- C. “Standard Fertility Preservation Services” shall have the same meaning as found at § 10-16-104(23)(g)(VIII).

Section 5 Requirements for Infertility Treatment and Preservation Services Coverage

- A. Carriers offering health benefit plans in the large group market shall include coverage for infertility treatment and standard infertility preservation services pursuant to § 10-16-104(23) for plans issued on or after January 1, 2022.
- B. Carriers shall provide procedures for granting an exemption to a religious employer upon request if coverage conflicts with the employer’s bona fide religious beliefs and practices.

Section 6 Severability

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 7 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

Section 8 Effective Date

This regulation shall become effective Month, Day, 2021.

Section 9 History

New regulation effective Month, Day, 2021.

DRAFT Proposed Amended Regulation 4-2-77

CONCERNING PAYMENTS TO CARRIERS FOR THE COLORADO REINSURANCE PROGRAM

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Reinsurance Payment Process to Carriers
Section 6	Severability
Section 7	Enforcement
Section 8	Effective Date
Section 9	History

Section 1 Authority

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-16-1104(1)(i), 10-16-1105(1)(d); 10-16-1105(1)(e); 10-16-1105(3)(c); and 10-16-1105(4)(d), C.R.S.

Section 2 Scope and Purpose

The purpose of this regulation is to establish the process and timeline by which the Division of Insurance will notify carriers and disburse reinsurance payments to carriers for the applicable benefit year.

Section 3 Applicability

This regulation applies to all eligible carriers that participate in the Colorado Reinsurance Program pursuant to Title 10, article 16, part 11.

Section 4 Definitions

A. "Actuarial Completion Factor" shall mean the percent of estimated ultimate claims for a given benefit year that have been paid.

BA. "Benefit Year" shall have the same meaning as found at § 10-16-1103(2), C.R.S.

CB. "Eligible Carrier" shall have the same meaning as found at § 10-16-1103(5), C.R.S.

DC. "Payment Parameters" shall have the same meaning as found at § 10-16-1103(9), C.R.S.

ED. "Reinsurance Program" shall have the same meaning as found at § 10-16-1103(12), C.R.S.

Section 5 Reinsurance Payment Process to Carriers

A. The Division of Insurance (Division) shall notify eligible carriers by email of reinsurance payment amounts that will be distributed for the applicable benefit year by June 30 of the year following the applicable benefit year.

1. The Division shall use the Centers for Medicare and Medicaid (CMS) External Data Gathering Environment (EDGE) Server to calculate reinsurance payments due to each eligible carrier. The Division will only use paid claims data that has been submitted and accepted to the CMS EDGE database for reinsurance payment calculations.
 - a. Payment amounts are based on the reinsurance payment parameters for the applicable benefit year.
 - b. Eligible carriers must have submitted all claims for the applicable benefit year to the EDGE server by April 30 of the year following the applicable benefit year in order for claims to be included in the reinsurance payment calculation.

B. Starting in December of 2021 and November of each year thereafter, each time CMS runs a preliminary State Reinsurance (SRI) report using EDGE data, all eligible carriers must submit to the Division or the Division's designated representative a single actuarial completion factor for claims submitted to EDGE that are within the reinsurance payment parameters as of the day CMS runs the report. For example, if a preliminary SRI report is dated January 25, and as of then the carrier has submitted claims to EDGE incurred and paid through November 30, the actuarial completion factor should be developed starting from November 30.

1. The factor should estimate, after applied to total submitted EDGE claims within the reinsurance payment parameters, the ultimate amount of claims within the reinsurance payment parameters for the benefit year. The estimate should be developed so that the carrier's best estimate of ultimate claims subject to reinsurance represents the claims that would apply to the Colorado Reinsurance Program.
2. For carriers with capitation arrangements or special care-delivery arrangements, these arrangements must be taken into account when developing the completion factor.

CB. Consistent with section 10-16-1105(4)(d), C.R.S., carriers must notify the Division in writing within thirty (30) days of notification of the reinsurance payment amount if they wish for the Division to reconsider their reinsurance payment amount.

1. Requests for reconsideration must clearly state all of the grounds on which the carrier's request is based, and should include evidence and other materials as necessary to support the request. No late filings, including any supplemental evidence or materials, will be accepted after the deadline.
2. The Division will respond in writing to a request for reconsideration within ten (10) days of the request deadline, and will notify carriers of any changes to their reinsurance payment amounts as soon as practicable thereafter.
3. Requests for reconsideration based on claims data outside of EDGE will not be considered by the Division.

DC. The Colorado Department of Regulatory Agencies (DORA) shall disburse electronic funds transfer (EFT) payments to all carriers for the reinsurance payment amounts by August 15 of the year following the applicable benefit year.

1. Carriers must have submitted a W9 and have a current account set up in the Colorado Operations Resource Engine (CORE) to receive reinsurance payments.

Section 6 Severability

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

Section 7 Enforcement

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

3 CCR 719-1

STATE BOARD OF PHARMACY RULES AND REGULATIONS

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

1.00.00 RULES OF PROFESSIONAL CONDUCT.

...

1.00.18 Patient Counseling. Except as specified in section 12-280-138, C.R.S., a pharmacist shall provide patient counseling on new medication therapy and, based on the pharmacist's professional judgement and due diligence, may provide patient counseling for any other prescription.

a. If a pharmacist is unable to provide patient counseling orally due to language barriers, a pharmacist shall use whatever alternative means are necessary to assure the patient is properly counseled as to the medication the patient is provided. This may include, but may not be limited to, written communication in the corresponding language that the patient understands.

b. Any refusal on the part of the patient to accept patient counseling shall be clearly documented in the corresponding electronic record directly linked to each affected corresponding order and such documented refusal shall be readily retrievable and available for inspection by the Board or its inspectors for at least two years preceding the date of the refusal. When the patient seeks advice, or when, in the pharmacist's professional judgment, the best interest of the patient will be served, the pharmacist shall offer to advise the patient regarding the prescription.

...

1.00.24 Except as provided in sections 12-280-103(54)(b)(III) and 25.5-2.5-201 through 25.5-2.5-2086, C.R.S., a prescription drug outlet shall ensure that all prescription drugs and controlled substances are procured from another entity or person registered by the Board. Any drug designated as an Investigational New Drug from the Federal Food and Drug Administration is exempt from this requirement provided the research requirements for the receipt of the product are followed and it meets the requirements of section 12-280-131(2), C.R.S.

...

2.00.00 ORDERS.

...

2.01.10 Information to Appear on Each Order. The following information must appear on each written or oral order except as provided for chart orders for hospitalized patients (hospital chart orders):

a. The date the order was compounded and dispensed;

b. The assigned serial number (hospital chart orders are exempt from this requirement);

- c. The quantity dispensed if differs from the quantity ordered (LTCF chart orders are exempt from this requirement provided this information is recorded within another appropriate uniformly maintain and readily retrievable permanent record of the dispensing pharmacy);
- d. In the case of a controlled substance order, the patient address, prescriber address, and prescriber's Drug Enforcement Administration (DEA) registration; ~~and~~
- e. Patient address, prescriber address, and prescriber DEA registration number need not appear on any type of order for a non-controlled substance prescription; ~~and~~.
- f. Minor adaptations to an order as allowed pursuant to section 12-280-125.3, C.R.S., which shall detail the date and identity of the pharmacist making the minor adaptations.

~~**Basis and Purpose:** The purpose of the proposed amendment to Board Rule 2.01.20 is to both allow for the electronic maintenance of the required information within this rule and to clarify the statutory requirement of section 12-240-107(6)(a), C.R.S. which requires, among other things, that all physician assistant issued prescription orders for controlled substances detail the name of the physician assistant's supervising physician.~~

~~Authority for Promulgation of Rules: sections 12-240-107(6)(a), 12-280-101, 12-280-107, and 24-4-103, C.R.S.~~

2.01.20 Additional Information. The following shall also appear on the prescription or LTCF chart order, or corresponding readily available and retrievable electronic record of the prescription or LTCF chart order, when appropriate:

- a. Any change in or clarification of an order shall be documented on the order and shall bear the initials of the responsible pharmacist or intern, the date contacted and the name of the individual conveying such change or clarification.
- b. The name of supervising physician when a controlled substance order is issued by a physician assistant licensed by the Colorado Medical Board.
- c. When a substitution is made, the order shall indicate the following:
 - (1) The names of both the drug prescribed and the drug actually dispensed, as well as the date on which such substitution was initially made.
 - (2) The order shall also indicate the name of the distributor of the drug dispensed as it appears on the package or the national drug code number.
 - (3) On an order for a schedule II controlled substance, substitution shall not be deemed to be an alteration of the order.
 - (4) On subsequent refilling of any order, any change in the name of the distributor or the national drug code number as it appears on the package shall be recorded on the order unless the computer system used at that prescription drug outlet changes only the affected transaction(s) (any computer entry change must not alter previous transaction records).
 - (5) In addition to the information provided in this Rule 2.01.20(c), when a substitution is made on a prescription order pursuant to section 12-280-125(1)(a.5), C.R.S., the dispensing pharmacist shall clearly document that the prescription was intentionally substituted within the same therapeutic drug class by writing the

words "Intentional Therapeutic Drug Class Substitution" on the date the substitution occurred.

- d. In the case of a chart order for a hospitalized patient (hospital chart order), the following information need not necessarily appear on the chart order, provided that such information is recorded on another appropriate, uniformly maintained and readily retrievable permanent record which reflects:
- (1) The identity of the pharmacist making the initial interpretation;
 - (2) The identity of the pharmacist making the final evaluation each time a drug is dispensed, if different from the pharmacist making the initial interpretation;
 - (3) The quantity dispensed and
 - (4) The date of dispensing.
 - (5) Any record of a controlled substance dispensed pursuant to a chart order for an individual patient shall be visually identifiable from records of non-controlled substances.

...

3.00.00 DISPENSING.

...

3.00.21 A pharmacist shall make every reasonable effort to ensure that any order, regardless of the means of transmission, has been issued for a legitimate medical purpose by an authorized practitioner. A pharmacist shall not dispense a prescription drug if the pharmacist knows or should know that the order for such drug was issued without a valid preexisting patient-practitioner relationship. Such relationship need not involve an in-person encounter between the patient and practitioner if otherwise permissible under Colorado law. A pharmacist may, in good faith, prescribe or dispense an opiate antagonist pursuant to an order that was issued without a valid preexisting patient-practitioner relationship that is approved by the Federal Food and Drug Administration for the treatment of a drug overdose.~~under the following conditions:~~

- ~~a. The opiate antagonist is not a controlled substance; and~~
- ~~b. The opiate antagonist is approved by the Federal Food and Drug Administration for the treatment of a drug overdose.~~

3.00.22 The prescribing or dispensing of an opiate antagonist, as described in Rule 3.00.21, by a pharmacist shall not constitute unprofessional conduct pursuant to section 12-280-126, C.R.S., if he or she prescribed or dispensed the opiate antagonist in good faith pursuant to an order or standing orders and protocols issued to or for the following:

- a. A person who is at increased risk of experiencing or likely to experience an opiate-related drug overdose event; or
- b. A family member, friend, or other person who is in a position to assist a person who is at increased risk of experiencing or likely to experience an opiate-related drug overdose event; or
- c. An employee or volunteer of a harm reduction organization; or

d. A first responder; ~~or-~~

e. A unit of local government.

~~fe.~~ For the purpose of this Rule 3.00.22, the following definitions apply:

- 1) "First responder" means a peace officer, firefighter, or volunteer firefighter.
- 2) "Harm reduction organization" means an organization that provides services, including medical care, counseling, homeless services, or drug treatment, to individuals at risk of experiencing an opiate-related drug overdose event or to the friends and family members of an at-risk individual.
- 3) "Opiate-related drug overdose event" means an acute condition, including but not limited to, a decreased level of consciousness or respiratory depression resulting from the consumption or use of a controlled substance, or another substance with which a controlled substance was combined, and that a layperson would reasonably believe to be an opiate related drug overdose event that requires medical attention.
- 4) "Protocol" means a specific written plan, as maintained in a uniform and readily retrievable manner for the purpose of inspection at the prescription drug outlet for at least two years from the date of the latest dispensing transaction related to protocol, for a course of medical treatment containing a written set of specific directions created by a physician, group of physicians, hospital medical committee, pharmacy and therapeutics committee, or other similar practitioners or groups of practitioners with expertise in the use of opiate antagonists.
- 5) "Standing order" means a prescription order, as maintained in a readily retrievable manner for the purpose of inspection at the prescription drug outlet for at least two years from the date of the latest dispensing transaction related to order, written by a practitioner that is not specific to and does not identify a particular patient.

~~fg.~~ Each prescription drug outlet shall maintain, in a uniform and readily retrievable manner for at least two years from the date of latest transaction related to a pharmacist initiated order or standing order, the following record detailing the dispensing of ~~an non-controlled substance~~ opioid antagonist pursuant to a pharmacist initiated order or standing order:

- 1) The full name of the patient, person who is in a position to assist a person who is at increased risk of experiencing or likely to experience an opiate-related drug overdose event, first responder, unit of local government, or harm reduction organization receiving the drug;
- 2) The full address of the first responder, unit of local government, or harm reduction organization receiving the drug;
- 3) The name, strength and dosage form of the drug dispensed;
- 4) The quantity of drug dispensed; and
- 5) The date of dispensing.

...

3.01.22 Filling of automated cassettes.

- a. If a multi-source drug, the outlet may not use drugs in the same cassette from multiple manufacturers or distributors;
- b. Automated cassettes, without electronic maintenance or records, shall be labeled with the following:
 - 1. If a suitable internal record is maintained in the prescription drug outlet or other outlet, the requirements of 4, 5, 6, 7, and 8 of this Rule may be omitted from the labeling and maintained in such record. The record shall be retained for two years from the date of packaging, unless otherwise required by law or rule.
 - 2. Name and strength of the medication;
 - 3. A suitable expiration date, which shall be not later than the expiration date on the manufacturer's container, or one year from the date the drug is packaged, whichever is sooner;
 - 4. The identity of the manufacturer or distributor;
 - 5. The manufacturer's or distributor's lot number(s);
 - 6. The manufacturer's or distributor's expiration date;
 - 7. The date the product was packaged;
 - 8. The identity of the individual responsible for packaging, or in the case as provided in this Rule 3.01.22(f), the identity of the persons responsible for packaging;
 - 9. All records detailing item 1-8 above, shall be retained at the pharmacy for at least two years.
- d. In the event that the automation associated with the cassettes deactivates the cassette when the suitable expiration date is reached, and the outlet either prints packaging printouts on a daily basis or is capable of electronically maintaining the packaging information, the cassette need only be labeled with the name and strength of the drug.
- e. In the event of a product recall, the pharmacist manager shall reasonably ensure that all recalled drug has been removed from the cassette.
- f. A pharmacy technician may replenish automated cassettes without the need for a pharmacist's verification as long as the pharmacy technician uses bar code technology that checks the accuracy of the medication or a second pharmacy technician performs the verification.

...

3.03.00 Customized Patient Medication Packages (Med Paks).

3.03.10 When a unit dose, single dose, unit of issue or customized patient medication package is dispensed pursuant to an order, the prescription shall comply with all requirements of section 12-280-124(2), C.R.S. Container requirements of a prescription for the purpose of unit dose systems

may be broadened to include trays, bins, carts and locked cabinets or drawers. Additionally, a customized patient medication package shall comply with all the following requirements:

a. Labeling

The patient med pak shall bear a label stating:

- (1) The name of the patient;
- (2) A serial number for the patient med pak itself ~~and a separate identifying serial number for each of the prescription orders for each of the drug products contained therein;~~
- (3) The name, strength, and total quantity of each drug product contained therein;
- (4) The directions for use and cautionary statements, if any, contained in the prescription order for each drug product therein;
- (5) Any storage instructions or cautionary statements;
- (6) The name of the prescriber of each drug product therein;
- (7) The date of preparation of the patient med pak, the expiration date which may not exceed 90 days from the date of preparation ~~The date of preparation of the patient med pak, the expiration date which may not exceed sixty days from the date of preparation; and~~
- (8) The name, address, and telephone number of the dispenser.

b. Record Keeping.

- (1) Patient name and address;
- (2) The serial number of the prescription order for each drug in product contained therein;
- (3) Descriptive information sufficient to allow subsequent preparation of an identical patient med pak;
- (4) Date of preparation of the patient med pak and the expiration date assigned;
- (5) Any special labeling instructions; and
- (6) The identity of the pharmacist who prepared the patient med pak.

c. Packaging

- (1) Each container shall meet or exceed United States Pharmacopoeia standards.
- (2) Each container shall be either not reclosable or so designed as to show evidence of having been opened.

...

5.00.00 OUTLETS.

5.00.01 Definitions. The following words and terms shall have the following meanings, unless the context clearly indicates otherwise.

- a. Compounding / Dispensing Area: means any area in a prescription drug outlet where “compounding / dispensing” is performed.
- b. In-State Prescription Drug Outlet: means any prescription drug outlet located within Colorado that is registered pursuant to Title 12, Article 280, C.R.S., where prescriptions are compounded and dispensed.
- c. Non-Resident 503 Outsourcing Facility: means a facility that is registered by the Federal Food and Drug Administration, that is located outside the state, and that distributes compounded drugs into the state without a prescription order.
- d. Non-Resident Prescription Drug Outlet: means any pharmacy outlet located outside this state that is registered pursuant to Title 12, Article 280, C.R.S., which ships, mails, or delivers, in any manner, drugs or devices into this state pursuant to a prescription order.
- e. Risk-Base Assessment: means, pursuant to section 12-280-108(1)(a)(II), C.R.S., to inspect a non-resident prescription drug outlet, a non-resident 503B outsourcing facility, or an out-of-state prescription drug wholesaler when the Board determines, based on a complaint, that there may be an imminent threat to the health, safety and welfare of Colorado consumers and that such an inspection is imperatively necessary to preserve health, safety and welfare of Colorado consumers.
- f. Third-Party Logistics Provider: means a person that contracts with a manufacturer to provide or coordinate warehousing, distribution, or other services on behalf of a manufacturer but does not take title to a prescription drug or have general responsibility to direct the prescription drug’s sale or distribution.

5.00.10 Registration. The applicant for registration shall obtain the appropriate form as approved by the Board to register an outlet. In the case of an application for a new in-state or non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider, for a transfer of ownership of an in-state or non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider, or for the relocation of an in-state or non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider, the applicant shall submit such additional documentation as the Board may require.

...

5.00.17 Non-Resident 503B Outsourcing Facility. A nonresident 503B outsourcing facility shall submit the following to the Board with the application:

- a. Proof that the facility is actively registered with the Federal Food and Drug Administration as a 503B outsourcing facility and is actively licensed, permitted, or registered in the state in which it is a resident;
- b. The location, names, and titles of all principle entity officers and the name of the pharmacist in charge of the operations of the facility;
- c. Verification that the facility complies with all lawful directions and requests for information from the Federal Food and Drug Administration and from the regulatory or licensing agency of the state in which it is licensed, permitted, or registered, as well as all requests for information made by the Board pursuant to this section; and

- d. A copy of the most recent inspection report resulting from an inspection by the Federal Food and Drug Administration.

5.00.19 Third-Party Logistics Provider. A third-party logistics provider shall submit the following to the Board with the application:

- a. Proof that the facility is actively registered with the Federal Food and Drug Administration as third-party logistics provider;
- b. The location, names, and titles of all principle entity officers; and
- c. Verification that the facility complies with all lawful directions and requests for information from the Federal Food and Drug Administration as well as all requests for information made by the Board pursuant to this section.

...

5.00.40 Transfer of Ownership. Application to transfer registration of an in-state or non-resident prescription drug outlet or a non-resident 503B outsourcing facility or third-party logistics provider shall be submitted to the Board ~~as provided in section 12-280-118, C.R.S.,~~ within thirty (30) days of the transfer of ownership. A transfer of ownership shall be deemed to have occurred:

- a. In the event the in-state or non-resident prescription drug outlet or a non-resident 503B outsourcing facility or third-party logistics provider is owned by a corporation, upon sale or transfer of twenty percent or more of the shares of said corporation to a single individual or entity.
- b. In the event the in-state or non-resident prescription drug outlet or a non-resident 503B outsourcing facility or third-party logistics provider is owned by a partnership, upon sale or transfer of twenty percent or more of any ownership interest.
- c. In the event the in-state or non-resident prescription drug outlet or a non-resident 503B outsourcing facility or third-party logistics provider is owned by a limited liability company (LLC), upon sale or transfer of twenty percent or more of the membership interests.
- d. Upon incorporation of an existing in-state or non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider.

5.00.50 Relocation.

- a. In the event of a relocation of an in-state or non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider, the outlet shall submit an application provided by the board along with the prescribed fee no more than thirty (30) days prior to the effective date of relocation.
- b. The registration of a non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider shall become void and shall be cancelled if the non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider relocates to a state other than that which appears on its registration. In the event the non-resident prescription drug outlet or non-resident 503B outsourcing facility or third-party logistics provider wishes to continue ~~shipping prescriptions into~~ conducting business in Colorado, it must apply for and receive a new Colorado registration prior to ~~such shipment~~ conducting business in Colorado.

5.00.55 Reinstatement of an In-State or Non-Resident Prescription Drug Outlet Registration.

- a. In-state Prescription Drug Outlet. If a registration has expired, a facility seeking to reinstate such registration shall submit the following:
 - (1) The current reinstatement application with the required fee;
 - (2) If the owner of the in-state prescription drug outlet is a corporation, submit either a copy of the articles of incorporation as they were filed with the Colorado Secretary of State or a Certificate of Good Standing issued by the Colorado Secretary of State;
 - (3) A letter stating whether the corporation is public or private as follows:
 - (A) If the corporation is a public corporation, submit a list of all stockholders owning five percent or more of the stock; or
 - (B) If the corporation is a private corporation, submit a list of all stockholders;
 - (4) An accurate drawn-to-scale floor plan of the prescription drug outlet's compounding / dispensing area detailing all counters, bays, sinks, refrigerators and, if applicable, sterile and non-sterile compounding hoods; and
 - (5) A completed, dated and signed minimum equipment self-inspection form as provided with the reinstatement application.
- b. Non-resident Prescription Drug Outlet or non-resident 503B outsourcing facility or third-party logistics provider. If a registration has expired, a facility seeking to reinstate such registration shall submit the following:
 - (1) The current reinstatement application with the required fee;
 - (2) A verification of the current pharmacy license ~~or registration~~ or permit issued by the resident state board of pharmacy for the non-resident pharmacy or 503B outsourcing facility, and a verification of the current license or registration issued by the Federal Food and Drug Administration for a non-resident 503B outsourcing facility or third-party logistics provider;
 - (3) If the registration has expired for a non-resident pharmacy for more than two years, a copy of the most recent report detailing an inspection of the non-resident prescription drug outlet by its resident state board of pharmacy dated within five years of submission of the reinstatement application.

5.00.60 Closure.

- a. Closure shall mean the permanent cessation of the practice of pharmacy in any in state or non-resident prescription drug outlet or the permanent cessation of conducting business in Colorado for a non-resident 503B outsourcing facility or third-party logistics provider. For in-state prescription drug outlets, closure shall also be deemed to have occurred if the compounding/dispensing area is not open for business the minimum hours specified in Rule 5.01.40(a).
- b. Upon the closure of any in-state or non-resident prescription drug outlet, it shall be the responsibility of the last pharmacist manager of record to remove the prescriptions and/or chart orders to another prescription drug outlet where patrons and/or practitioners are afforded reasonable access to a pharmacist's interpretation of such orders. Such relocation of records shall be made within seventy-two hours after closure. The

pharmacist manager shall submit a notice, on a form and manner approved by the Board, detailing the closure of the prescription drug outlet or nonresident prescription drug outlet within seventy-two hours after closure. If the last pharmacist manager of record fails to relocate the records as required herein, the Board may direct the removal of the records to a suitable location. The last pharmacist manager of record shall make a reasonable effort to inform patrons of the prescription drug outlet of the location of the records. A non-resident 503B outsourcing facility or third-party logistics provider shall inform the Board, in writing, within seventy-two hours after closure.

- c. The Board on request shall provide the owner of any prescription drug outlet an instruction sheet applicable to the transaction prior to closure, or conducting bankruptcy proceedings, or transferring or selling the prescription drug inventory.

...

7.00.00 PHARMACIST MANAGER RESPONSIBILITIES.

...

7.00.30 Compliance of Outlet:

- a. The manager of a prescription drug outlet is responsible for the operation of the outlet in compliance with all state and federal laws, rules, and rules.
- b. Except as provided in sections 12-280-103(54)(b)(III) and 25.5-2.5-201 through 25.5-2.5-2086, C.R.S., the pharmacist manager is responsible for ensuring that all prescription drugs and controlled substances are procured by the outlet from an entity or person registered by the Board. Any drug designated as an Investigational New Drug from the Federal Food and Drug Administration is exempt from this requirement provided the research requirements for the receipt of the product are followed and it meets the requirements of section 12-280-131(2), C.R.S.

...

9.00.00 LEGAL PROCEEDINGS.

9.00.10 Reporting.

- a. A licensee or registrant shall notify The Board in writing within seventy-two hours of the licensee or registrant receiving service of process or knowledge by other means of any legal proceedings in Colorado or anywhere wherein it is alleged that the licensee or registrant has violated any law or rule pertaining to drugs or devices. This includes civil malpractice cases.
 - 1. The notice to the Board shall include the following information:
 - (a) The court;
 - (b) The jurisdiction;
 - (c) The case name;
 - (d) The case number; and
 - (e) A description of the matter and a copy of the indictment or charges.

2. The licensee or registrant shall notify the Board in writing within thirty days of the disposition of such proceeding.
- b. All licensees or registrants shall notify the Board in writing within thirty days of any disciplinary action against them in another state. Such notification shall include the following:
 1. The state;
 2. The jurisdiction;
 3. The case name;
 4. The case number;
 5. A description of the matter and a copy of the indictment or charges;
 6. A copy of the discipline; and
 7. Proof of completion of any requirements set forth in the order, if applicable.
- c. All licensees or registrants shall notify the Board in writing of any criminal conviction or deferred judgment against them (including, but not limited to, "driving under the influence" and "driving while ability impaired"), and petty offenses within thirty days after such conviction or judgment.
 1. For purposes of this Rule, a "conviction" includes:
 - (a) A guilty verdict;
 - (b) A plea of guilty accepted by the court;
 - (c) A plea of nolo contendere (no contest) accepted by the court; or
 - (d) A deferred judgment or sentence.
 2. The notice to the Board shall include the following information:
 - (a) The court;
 - (b) The jurisdiction;
 - (c) The case name;
 - (d) The case number;
 - (e) A description of the matter and a copy of the indictment or charges;
 - (f) A copy of the plea agreement or verdict; and
 - (g) Proof of completion of court ordered requirements, if applicable.
- d. The registrant or licensee notifying the Board may submit a written statement with any notice required under this Rule to be included in the registrant or licensee records.

- e. Each insurance company licensed to do business in Colorado and engaged in the writing of malpractice insurance for licensed pharmacists and each pharmacy that self-insures shall send to the Board, ~~in the form prescribed by the Board,~~ information relating to each malpractice claim against a licensed pharmacist which is settled or in which judgment is rendered against the insured. Such information shall be provided to the Board within 30 days of the settlement or judgment.

...

14.00.00 OTHER OUTLETS.

14.00.05 Eligibility for registration. The following facilities may register as other outlets provided all requirements are met:

- a. Hospitals that do not operate registered prescription drug outlets. For such hospitals, dispensing shall be limited as provided in section 12-280-120(10), C.R.S.;
- b. Federal Federally Qualified Health Centers, as defined by the federal "Social Security Act";
- c. Family Planning Clinics;
- d. Colleges, universities and schools (grades kindergarten through twelve) which operate a school-based clinic for students and faculty of that school. Schools must submit any contractual affiliations to the Board prior to registration;
- e. Jails. A jail which obtains prescription drugs solely on the basis of individual prescription orders which have been compounded in and dispensed from a registered prescription drug outlet do not need registration;
- f. County or district public health agencies;
- g. Community and Rural Health Clinics, registered, certified, or licensed as such as by the Colorado Department of Public Health and Environment;
- h. Ambulatory Surgical Centers licensed pursuant to Part 1 of Article 3 of Title 25, C.R.S., that engage in the compounding, dispensing, and delivery of drugs or devices for administration to patients while being treated in the facility;
- i. Medical Clinics operated by a hospital that engage in the compounding, dispensing, and delivery of drugs or devices for administration to patients while being treated in the facility; ~~and~~
- j. Hospices licensed pursuant to Part 1 of Article 3 of Title 25, C.R.S., that engage in the compounding, dispensing, and delivery of drugs or devices for administration to patients while being treated in the facility; ~~;~~
- k. Acute treatment units, registered, certified, or licensed as such by the Colorado Department of Public Health and Environment; ~~;~~
- l. Telepharmacies as defined pursuant to section 12-280-103(32), C.R.S.; ~~;~~
- m. Convalescent centers registered, certified, or licensed as such by the Colorado Department of Public Health and Environment; ~~;~~

- n. Community Mental Health Clinic having the same meaning as set for in section 25-27.6-102(9), C.R.S.;
- o. Behavioral Health Entity as defined in section 25-27.6-102(6), licensed pursuant to Article 27.6 of Title 25, C.R.S.; and
- p. Approved Treatment Facility that is an approved private or public treatment facility, as described in section 27-81-102(2) and (3) that adheres to the standards set forth in section 27-81-106, C.R.S.

...

14.00.80 Consultant pharmacist.

- a. A consultant pharmacist shall either:
 - (1) Initially interpret all prescription orders dispensed from the other outlet, or (2) Provide written protocols for dispensing by unlicensed persons.
- b. A consultant pharmacist shall be available for professional consultation.
- c. A consultant pharmacist shall annually review the protocols for compliance with this Rule 14.00.00. The review shall be documented in writing, signed, and dated by the consultant pharmacist. The consultant pharmacist shall record on the protocols at least annually the number of dispensing units dispensed in a calendar year for the following facility types: community clinics, rural health clinics, colleges, and universities. A calendar year is considered to run from January 1 through December 31.
- d. The consultant pharmacist shall develop an inspection form to document the visit and the results thereof. Such form shall be dated and signed by the consultant pharmacist and shall be maintained and available for inspection at the other outlet by the Board for a period of two years.
- e. The consultant pharmacist shall inspect and document the inspection in writing as detailed in 14.00.80(d) the following other outlets at the following frequencies:
 - (1) Quarterly inspections and visits shall be conducted for the following:
 - (a) Jails;
 - (b) County health departments;
 - (c) Schools, grade kindergarten through twelve;
 - (d) Hospitals;
 - (e) Family planning clinics;
 - (f) Hospices;
 - (g) Medical clinics operated by hospitals;
 - (h) Ambulatory Surgical Centers; ~~and~~
 - (i) Convalescent centers; ~~;~~

- (j) Community mental health clinic;
 - (k) Behavioral health entity; and
 - (l) Approved treatment facility.
 - (2) Community clinics, federally qualified health centers, rural health clinics, colleges, acute treatment units, and universities shall be inspected and visited as follows:
 - (a) Monthly if 2,500 or less dispensing units are dispensed in a calendar year. A calendar year is from January 1 through December 31.
 - (b) Every other week if 2,500 or more but less than 7,501 dispensing units are dispensed in a calendar year. A calendar year is from January 1 through December 31.
 - (c) Each week if 7,501 or more but less than 12,501 dispensing units are dispensed in a calendar year. A calendar year is from January 1 through December 31.
 - (d) Twice each week if 12,501 or more but less than 25,001 dispensing units are dispensed in a calendar year. A calendar year is from January 1 through December 31.
 - (3) Telepharmacies shall be inspected and visited at least once per month.
- f. The consultant pharmacist shall be responsible for the accuracy of records pertaining to drug stock returned to the original supplier, the manufacturer, or via a reverse distributor. The record of any returned drug stock shall indicate, as a minimum, the name and address of the original supplier, manufacturer or reverse distributor, the date of return, and the name, strength, and quantity of the drug returned. This record shall be signed by the consultant pharmacist, and shall be maintained on the premises for a minimum of two years.
- g. The consultant pharmacist for a licensed hospital other outlet shall be notified of any casual sale or loan of a drug made by the licensed hospital other outlet to a practitioner authorized by law to prescribe the same prior to the transaction. The consultant pharmacist for a licensed hospital other outlet shall be notified within seventy-two hours of any casual sale or loan of a drug to a registered other outlet, a prescription drug outlet, or a mobile emergency care unit.
- h. The consultant pharmacist is responsible for ensuring all prescription drugs obtained by the other outlet are procured from an individual or entity registered by the Board or a state or local health agency.
- i. The consultant pharmacist shall be responsible for ensuring any significant errors related to the practice of pharmacy, such as those that result in significant harm to a patient or the death of a patient, are immediately reported to the Board upon discovery.
- j. The consultant pharmacist shall be responsible for assuring that the other outlet complies with all applicable provisions of Rule 21.00.00 when compounding non-sterile and sterile products.

- k. The consultant pharmacist shall be responsible for reporting diversion, theft or significant unaccountable loss of prescription drugs or controlled substances from the other outlet, hospital or health maintenance organization (as defined in section 10-16-102, C.R.S.) within one business day of discovery. When a Drug Enforcement Administration (DEA) Form 106 is submitted to the DEA in instances involving controlled substances, a copy of the completed DEA Form 106 along with a detailed written explanation shall be submitted to the Board. When determining whether an unaccountable loss is significant, the consultant pharmacist shall consider, among others factors, the following:
- (1) The actual quantity of drug lost in relation to the type of business;
 - (2) The specific drug lost;
 - (3) Whether the loss of the drug can be associated with access to those drugs by specific individuals, or whether the loss can be attributed to unique activities that may take place involving the drug;
 - (4) A pattern of losses over a specific time period, whether the losses appear to be random, and the results of efforts taken to resolve the losses;
 - (5) Whether the specific drug is a likely candidate for diversion; and
 - (6) Local trends and other indicators of the diversion potential of the missing drug.

...

15.00.00 WHOLESALERS.

15.01.00 Wholesale Drugs Distributor Registration Requirement.

- a. A wholesaler means a person engaged in the wholesale distribution of prescription drugs to persons, other than consumers, that are authorized by law to possess prescription drugs.~~any person engaged in the wholesale distribution of prescription drugs, including, but not limited to repackagers, own label distributors, private label distributors, jobbers, brokers, warehouses, including manufacturers' and distributors' warehouses; manufacturers' exclusive distributors; authorized distributors of record; drug wholesalers or distributors; independent wholesale drug traders; specialty wholesaler distributors; pharmacy buying cooperative warehouses; retail pharmacies that conduct wholesale distribution; and chain pharmacy warehouses that conduct wholesale distribution.~~
- b. Every wholesaler must be registered with the Board if it resides in Colorado and distributes drugs or is located in another state or territory of the United States and ships prescription drugs into Colorado.

...

15.02.00 Personnel.

- 15.02.10 Designated Representative. A single person shall be designated by name and title who has complete and overall responsibility for the operation of the facility in compliance with all applicable laws rules pertaining to drugs and devices. This person's name, ~~social security number,~~ and title shall be reported to the Board in writing.

...

15.09.00 Recordkeeping.

...

15.09.11 ~~Records in general. All wholesalers registered by the Board shall maintain such records and inventories of prescription drugs as may be required by these Rules or any other state or federal law or regulation pertaining to such drugs. Such records shall be maintained on a current basis and shall be complete and accurate for all drugs which the outlet manufactures, receives, distributes or otherwise disposes of in any other manner. Records, including pedigrees, and inventories of controlled substances shall be deemed to be "complete" only if each individual record and inventory contains all required information regarding each specific transaction, and if the set of records and inventories contains all information and documents required to be kept by state and federal laws, rules, and regulations. A record or inventory shall be deemed to be "accurate" only if it is a complete, true and factual statement regarding or reflecting each specific transaction. A set of records or inventories shall be deemed to be "accurate" only if they are complete, and when considered as a whole, they demonstrate that the controlled substances and/or the records and inventories pertaining thereto have been handled in compliance with all applicable laws or rules and that all such controlled substances are properly accounted for.~~

- a. All such records, ~~including pedigrees,~~ shall be retained for a period of at least three years after the date of any transaction relating to such record or inventory by any process providing an exact duplicate of the original order in a reproducible quality acceptable to the Board. Records shall be retained in a format that cannot be altered.
- b. A wholesaler in the possession of a pedigree shall comply with all applicable federal laws and rules pertaining to content, utilization, availability and retention. ~~(a document or electronic file containing information that records each distribution of any given prescription drug that leaves the normal distribution channel) for a prescription drug shall verify that each transaction on the pedigree has occurred prior to distributing the prescription drug.~~
- c. ~~The pedigree shall include all necessary identifying information concerning each sale in the chain of distribution of the product from the manufacturer or first authorized distributor of record through the acquisition and sale by a wholesaler until final sale to a pharmacy or other person dispensing or administering the prescription drug. When a wholesaler distributes a product to another wholesaler, both the distributing and receiving wholesaler shall maintain a copy of the pedigree. The pedigree shall include at least the following:~~
 - ~~(1) The name, address, telephone number, and, if available, the e-mail address of each owner of the prescription drug and each wholesaler of the drug;~~
 - ~~(2) The name and address of each location from which the prescription drug was shipped, if different from that of the owner;~~
 - ~~(3) The transaction dates;~~
 - ~~(4) Certification that each recipient has authenticated the pedigree;~~
 - ~~(5) The name of the prescription drug;~~
 - ~~(6) The dosage form and strength of the prescription drug;~~
 - ~~(7) The size and number of containers;~~
 - ~~(8) The lot number of the prescription drug; and~~

~~(9) The name of the manufacturer of the finished dosage form.~~

~~d. Wholesalers that distribute animal drugs exclusively are exempt from the requirements of pedigrees.~~

~~Records on an automated data processing system or subsequent storage of such records must be immediately retrievable (via monitor display or hard copy printout).~~

15.09.12 Retrievability of records. For the purposes of these Rules, records and inventories shall be deemed "readily retrievable" if they meet the following requirements:

- a. The following records shall be maintained on the premises of the registrant at all times and shall be made available for inspection by the Board or its inspectors immediately upon request:
 - (1) All DEA-222 forms executed during the three years preceding the request;
 - (2) All inventories of controlled substances required to be taken during the three years preceding the request;
 - (3) All records of receipt (invoices for drugs received and credited) of controlled substances, distribution, loss, surrender or disposal in manner of prescription drugs and controlled substances during the three years preceding the request;
 - (4) List(s) of symbols and codes, if applicable. Symbols and codes may be used to identify any manufacturer, distributor, or repackager. If such symbols and codes appear in the records of the registrant, the registrant shall keep a current, complete printed or typed list, which shows both the symbol and code and its complete definition. This list shall be readily retrievable and available for examination by the Board for at least three years.
- b. The following records shall be made available within 48 hours or two business days, whichever is longer, on request by the Board or its inspectors:
 - (1) All unexecuted DEA-222 forms.
 - (2) Specific records requested by the inspector if the inspector determines the records are not maintained in a readily retrievable manner.
 - (3) Records of receipt of non-controlled prescription drugs.
- c. Pedigrees shall be made available to the board or its inspectors within as required by applicable federal rules and laws. ~~five business days of request.~~

...

15.09.14 Receipts.

- a. Except as provided in sections 25.5-2.5-201 through 25.5-2.5-20~~86~~, C.R.S., in-state prescription drug wholesalers shall only receive prescription drugs and controlled substances from an entity that is registered by the Board. This section shall not apply to intracompany or reverse distribution transactions.

...

15.10.00 Policies and procedures.

15.10.10 Wholesale drug distributors shall establish, maintain and adhere to written policies and procedures, which shall be followed for the receipt, security, storage, inventory, and distribution of prescription drugs, including controlled substances, and including policies and procedure for identifying, recording, and reporting destruction, losses or thefts, and for correcting all errors and inaccuracies in inventories. Wholesale drug distributors shall include the following in their written policies and procedures:

- a. A procedure whereby the oldest approved stock of a prescription drug product is distributed first. The procedure may permit deviation from this requirement, if such deviation is temporary and is itself, an approved deviation procedure.
- b. The registrant shall have a procedure to assure that any outdated stock, or any stock with an expiration date that does not allow sufficient time for dispensing by the prescription drug outlet shall be segregated from other stock and shall be returned to the manufacturer or otherwise destroyed, and documented.
- c. A procedure to be followed for handling recalls and withdrawals of prescription drugs. Such procedure shall be adequate to deal with recalls and withdrawals due to:
 - (1) Any legal action initiated at the request of the food and drug administration or other government agency with jurisdiction:
 - (2) Voluntary action by the manufacturer to remove defective or potentially defective drugs from the market:or
 - (3) Any action undertaken to promote public health and safety by the replacing of existing merchandise with an improved product or new package design.
- d. A procedure to ensure that wholesale drug distributors prepare for, protect against, and handle any crisis that affects security of operation of any facility in the event of strike, fire, flood, or other natural disaster, or other situations of local, state, or national emergency.
- e. A procedure to ensure that any outdated, misbranded, counterfeit, adulterated or unsalable prescription drugs shall be segregated from other drugs and either returned to the manufacturer or destroyed. This procedure shall provide for written documentation which shall be maintained for three years after disposition of the outdated drugs.
- f. Policies and procedures to cover the examination of materials to include the visual inspection of shipping containers for prescription drugs unfit for distribution and prescription drugs which have been damaged in storage or held under improper conditions.
- g. Procedures which assure employees possess the necessary education or experience for the position they hold and the job functions they are assigned.
- h. Procedures which assure that all prescription drugs and controlled substances are only received from entities that are registered by the Board. This section shall not apply to intracompany or reverse distribution transactions.
- i. A procedure to ensure that drugs are distributed only to individuals or entities with authorization to possess them.

- j. A procedure to ensure that drugs are only distributed to practitioners authorized by law to prescribe the drug or to an entity licensed or registered by the Board. In the case of such entities registered or licensed by the Board, drugs shall be distributed only to the registered or licensed address. In the event the license does not show the address, a written confirmation from the regulatory board licensing or registering the individual or entity shall be obtained.
- k. A procedure to ensure verification of all transactions on a pedigree prior to distribution of the drug.
- l. A procedure complies with all applicable federal laws and rules pertaining to content, utilization, availability and retention to ensure a pedigree is furnished when distribution occurs outside of the normal distribution channel.
- m. A procedure to ensure that staff has disclosed any past criminal convictions or violations of state and federal law.

...

17.00.00 COLLABORATIVE PHARMACY PRACTICE.

17.00.10 Definitions.

- a. "Pharmacist care services" means patient care activities provided by a pharmacist, with or without dispensing a drug, that are intended to achieve outcomes related to curing or preventing disease, eliminating or reducing a patient's symptoms, or arresting or slowing the process of a disease. "Pharmacist care services" includes efforts to prevent, detect, and resolve medication-related problems. "Pharmaceutical care" means the provision of drug therapy and other pharmaceutical patient care services by a pharmacist intended to achieve outcomes related to the cure or prevention of a disease, elimination or reduction of a patient's symptoms, or arresting or slowing of a disease process. In addition to the preparation, dispensing, and distribution of medications, "pharmaceutical care" may include assessment and evaluation of the patient's medication-related needs and development and communication of a therapeutic plan with defined outcomes in consultation with the patient and the patient's other health care professionals to attain the desired outcome. This function includes efforts to prevent, detect, and resolve medication-related problems for individual patients. "Pharmaceutical care" does not include prescriptive authority; except that a pharmacist may prescribe only over-the-counter medications to a recipient under the "Colorado Medical Assistance Act" as authorized pursuant to section 25.5-5-322, C.R.S., or pursuant to a collaborative pharmacy practice agreement as defined in section 12-280-601(1)(b), C.R.S.
- b. "Collaborative pharmacy practice agreement," or "collaborative practice agreement" (CPA), means a written and signed agreement entered into voluntarily between one or more Colorado-licensed pharmacists and one or more physicians or advanced practice nurses licensed in this state, which statement grants authority to the pharmacist or pharmacists to provide evidence-based healthcare services to one or more patients pursuant to a specific treatment protocol delegated to a pharmacist or pharmacists by the physician or advanced practice nurse with prescriptive authority. Either party may withdraw from an agreement at any time.
 - 1. "Collaborative drug therapy management" (CDTM) is a collaborative practice agreement involving a higher level of disease complexity and/or decision making. CDTM means the review and evaluation of drug therapy regimens for patients undertaken by a pharmacist in order to provide drug therapy, monitor progress,

and initiate, modify, or discontinue drug therapy. Drug therapy management may only be undertaken pursuant to an initial diagnosis made by a physician or advanced practice nurse, a valid order for the therapy or therapies to be utilized, and a written agreement, which delineates proper protocols to be used and the type of interaction that must occur between the pharmacist and the physician or advanced practice nurse. Therapeutic interchange programs in inpatient and group model integrated closed HMO settings that are approved by medical staff committees are not considered drug therapy management for purposes of these rules.

- c. “Collaborative pharmacy practice agreement,” or “collaborative practice agreement,” may also mean a statewide drug therapy protocol, or “statewide protocol,” developed by the Board, the Colorado Medical Board, and the Colorado State Board of Nursing in collaboration with the Colorado Department of Public Health and Environment for public healthcare services under which a pharmacist may have prescriptive authority as a practitioner.
- d. “Evidence-based healthcare service” means a healthcare service provided by a Colorado-licensed pharmacist pursuant to a collaborative practice agreement with a Colorado-licensed prescriber or prescribers which is guided by or based on current, objective, supportive scientific evidence as published in scientific literature as opposed to anecdotal observations. Evidence-based healthcare services may include:
 - 1. Specific services as agreed upon and defined under Rule 17.00.70(c), including but not limited to:
 - a. chronic disease management and optimization of therapeutic outcomes using medication therapies based on published clinical guidelines;
 - b. preventative services;
 - c. medication management and monitoring; and
 - d. services intended to achieve outcomes related to the cure or prevention of a disease, elimination or reduction of patients’ symptoms, or arresting or slowing of a disease process, and include efforts to prevent, detect, and resolve medication-related problems.
 - 2. Prescribing and consultative services pursuant to statewide protocols as defined under Rule 17.00.50 and Appendices, including but not limited to:
 - a. Prescribing contraceptives;
 - b. Prescribing smoking cessation products; and
 - c. Prescribing human immunodeficiency virus infection prevention medications.
- e. “Prescriber”, for the purpose of this Board Rule 17.00.00, means a physician who is actively and unconditionally licensed by the Colorado Medical Board or an advanced practice registered nurse with prescriptive authority who is actively and unconditionally licensed by the Colorado State Board of Nursing.

- f. "Protocol" means a specific written plan for a course of medical treatment containing a written set of specific directions created by a prescriber or groups of prescribers in conjunction with the participating pharmacist(s).

...

21.00.00 COMPOUNDING.

The purpose of this Rule is to codify the compounding of preparations to assure that they are of acceptable strength, quality and purity.

If the pharmacist compounds a preparation according to the manufacturer's labeling instructions, then further documentation is not required. All other compounded preparations require further documentation as set forth in this Rule.

Compounding of investigational products may be exempt from sections of Rule 21.00.00 when compounding is restricted to utilizing ingredients that are regulated by the Federal Food and Drug Administration through an Investigational Review Board (IRB) and when the IRB- approved protocol requires deviation from this Rule.

21.00.10 Limitations and Record-Keeping.

...

21.00.20 Casual Sales/Distribution of Compounded Products.

~~a. An in-state prescription drug outlet shall only distribute a compounded product to:~~

- ~~(1) Practitioners licensed and located in Colorado and authorized by law to prescribe the drug;~~
- ~~(2) Colorado licensed/registered acupuncturists, direct entry midwives, or naturopathic doctors who are located in Colorado and authorized by law to obtain the drug;~~
- ~~(3) Hospital prescription drug outlets registered and located in Colorado; or~~
- ~~(4) Other outlets registered and located in Colorado.~~

~~Except as provided by Rule 21.00.20(d), distribution of the compounded product pursuant to this Rule shall be for the sole purpose of drug administration. In-state Prescription Drug Outlets shall not distribute compounded products outside of the state. In-state Prescription Drug Outlets shall dispense compounded products and ship them out of the state only pursuant to patient-specific prescription orders.~~

ab. Unless otherwise allowed by state and federal law, nonresident prescription drug outlets shall not distribute compounded products into Colorado pursuant to 21 U.S.C. secs. 331(a), 353(b) and 355(a).

be. Unless otherwise allowed by state and federal law, nonresident prescription drug outlets registered in Colorado may dispense compounded products and ship them into Colorado only pursuant to valid, patient-specific prescription orders.

- cd. A nonresident prescription drug outlet may distribute a compounded product to a Colorado-licensed veterinarian who is located in Colorado and authorized by law to prescribe the drug only if:
- i) The nonresident prescription drug outlet provides the Board with a copy of the outlet's most recent report detailing an inspection by the National Association of Boards of Pharmacy Verified Pharmacy Program, for which third-party inspection the nonresident prescription drug outlet shall obtain and pay for on an annual basis, and the Board approves the inspection report as satisfactorily demonstrating proof of compliance with the Board's own inspection procedures and standards;
 - ii) The nonresident pharmacy provides a copy of the most recent inspection of the nonresident pharmacy by the agency that regulates pharmaceuticals in the state of residence; and
 - iii) The nonresident prescription drug outlet provides the Board, on an annual basis, with a copy of the outlet's current manufacturer registration obtained from the Drug Enforcement Administration.
- de. Distribution of a compounded product to a Colorado-licensed veterinarian may be for the purpose of dispensing by the receiving veterinarian only if:
- i) The compounded product is necessary for the treatment of an animal patient's emergency medical condition; and
 - ii) As determined by the veterinarian, the veterinarian cannot access, in a timely manner, the compounded product from a prescription drug outlet or nonresident prescription drug outlet.
- ~~f. Except as provided under sections 12-280-120(15)(a), (b)(I) and (b)(II), C.R.S., the amount of compounded drug product a prescription drug outlet compounds and distributes shall be no more than ten percent of the total number of drug dosage units the prescription drug outlet dispenses and distributes on an annual basis, and no more than ten percent of the total number of drug dosage units the nonresident prescription drug outlet dispenses and distributes into Colorado on an annual basis pursuant to Board Rules 21.00.20(d) and (e). An in-state compounding prescription drug outlet registered pursuant to section 12-280-119(9), C.R.S., may distribute compounded product pursuant to section 12-280-120(15)(a), (b)(I) and (II), C.R.S. All prescription drug outlets shall comply with all applicable federal laws and rules pertaining to the distribution of controlled substance preparations.~~
- ~~g. The distributing prescription drug outlet or compounding prescription drug outlet must retain the following information on a current basis for each practitioner, hospital prescription drug outlet or hospital other outlet or, when allowable, each prescription drug outlet, to whom it distributes compounded products:~~
- ~~(1) Verification of practitioner's license, or hospital prescription drug outlet's or hospital other outlet's registration; and~~
 - ~~(2) Verification of practitioner's or hospital prescription drug outlet's or hospital other outlet's current Drug Enforcement Administration registration, if controlled substances are distributed;~~

~~h. Labeling of compounded products which are distributed shall comply with Rule 21.11.10(c) or (d) or 21.21.70(c) or (d), whichever is applicable.~~

~~i. Records of distribution shall comply with Rule 11.07.10 or 11.07.20, whichever is applicable.~~

...

21.11.00 Compounding Record.

...

21.11.10 Labeling of Non-Sterile Compounded Preparations.

a. Labeling of non-sterile compounded products dispensed pursuant to a prescription order or LTCF chart order shall include at least the following:

- (1) All requirements of section 12-280-124, C.R.S.;
- (2) Batch (lot) number, if appropriate;
- (3) Assigned BUD;
- (4) Storage directions when appropriate; and
- (5) A clear statement that this product was compounded by the pharmacy, except for radiopharmaceuticals prepared from FDA-approved, commercially available kits and/or drug products.

b. Labeling of non-sterile compounded products dispensed pursuant to a hospital chart order shall include at least the following:

- (1) All requirements of section 12-280-124, C.R.S.;
- (2) Batch (lot) number, if appropriate;
- (3) Assigned BUD; and
- (4) Storage directions, when appropriate.

c. Labeling of non-sterile compounded products ~~distributed to practitioners, other prescription drug outlets, or other outlets allowed by law or~~ made in anticipation of orders shall include at least the following:

- (1) Name and address of the outlet;
- (2) Name and strength of the drug(s) / active ingredient(s) in the final product;
- (3) Total quantity in package;
- (4) Assigned BUD;
- (5) Batch (lot) number;
- (6) Specific route of administration;

- (7) Storage directions, when appropriate;
 - (8) "Rx only"; and
 - (9) "This product was compounded by the pharmacy", except for radiopharmaceuticals prepared from FDA-approved, commercially available kits and/or drug products.
- d. Labeling of non-sterile compounded products distributed within hospitals as floor stock shall include at least the following:
 - (1) Name of the outlet;
 - (2) Name and strength of the drug(s);
 - (3) Total quantity in package;
 - (4) Quantity of active ingredient in each dosage unit;
 - (5) Assigned BUD;
 - (6) Batch (lot) number;
 - (7) Specific route of administration; and
 - (8) Storage directions, if appropriate.

...

21.21.70 Labeling of CSPs.

- a. Labeling of CSPs ~~made in anticipation of orders dispensed pursuant to a prescription order or LTCF chart order~~ shall include at least the following:
 - (1) All requirements of section 12-280-124, C.R.S.;
 - (2) Batch (lot) number, if appropriate;
 - (3) Beyond-use date;
 - (4) If for parenteral administration, the following shall be included:
 - (a) Name of base solution; and
 - (b) Name and amounts of drugs added.
 - (5) Storage directions; and
 - (6) A clear statement that this product was compounded by the pharmacy, except for radiopharmaceuticals prepared from FDA-approved, commercially available kits and/or drug products.
- b. Labeling of CSPs dispensed pursuant to a hospital chart order shall include at least the following:

- (1) All requirements of section 12-280-124, C.R.S.;
 - (2) Batch (lot) number, if appropriate;
 - (3) Beyond-use date;
 - (4) If for parenteral administration, the following shall be included;
 - (a) Name of base solution; and
 - (b) Name and amounts of drugs added; and
 - (5) Storage directions.
- c. Labeling of CSPs distributed to practitioners, other prescription drug outlets, or other outlets allowed by law shall include at least the following:
 - (1) Name of the outlet;
 - (2) Name and strength of the drug(s);
 - (3) Total quantity in package;
 - (4) Quantity of active ingredient in each dosage unit;
 - (5) Beyond-use date;
 - (6) Batch (lot) number;
 - (7) Specific route of administration;
 - (8) Storage directions;
 - (9) "Rx only"; and
 - (10) A clear statement that this product was compounded by the pharmacy, except for radiopharmaceuticals prepared from FDA-approved, commercially available kits and/or drug products.
- d. Labeling of CSPs distributed within hospitals as floor stock shall include at least the following:
 - (1) Name of the outlet;
 - (2) Name and strength of the drug(s);
 - (3) Total quantity in package;
 - (4) Quantity of active ingredient in each dosage unit;
 - (5) Beyond-use date;
 - (6) Batch (lot) number;
 - (7) Specific route of administration; and

- (8) Storage directions.

...

23.00.00 ELECTRONIC PRESCRIPTION MONITORING PROGRAM.

23.00.10 Definitions:

- a. "Bona fide investigation," for purposes of an investigation of an individual prescriber under investigation by a state regulatory board, means:
 - 1. Any investigation conducted by any state regulatory board within the Colorado Division of Professions and Occupations, or the Director of the Colorado Division of Professions and Occupations and
 - 2. Investigations pertaining to matters which are the subject of a complaint or notice of charges pending in the Office of Administrative Courts so long as the information obtained from the PDMP is made available by the state regulatory board to the respondent in the pending case.
- b. "Bona fide research or education" means research conducted by qualified entities whose recognized primary purpose is scientific inquiry; the results of which would likely contribute to the basic knowledge of prescribing practitioners, dispensing pharmacists, or entities for the purpose of curtailing substance abuse of consumers. The Board shall determine in its discretion on a case-by-case basis whether an individual or entity seeking access to the PDMP pursuant to section 12-280-404(6), C.R.S., constitutes "bona fide research or education" conducted by qualified personnel for purposes of satisfying the statutory limitations therein.
- c. "Client", as it pertains to a licensed veterinarian's use of the PDMP, means the patient's owner, the owner's agent, or a person responsible for the patient.
- d. "Clinical patient care services" means pharmaceutical care provided in a clinical setting. The pharmacist providing clinical patient care services must be working closely with the physician/prescriber responsible for the patient's care. "Clinical patient care services" do not include monitoring previously dispensed prescriptions for any purpose in the absence of a current assessment of a patient whether in a clinical setting or not.
- e. "Law Enforcement Official" means any of the following:
 - 1. Sheriff;
 - 2. Undersheriff;
 - 3. Certified deputy sheriff;
 - 4. Police Officer;
 - 5. Southern Ute Police Officer;
 - 6. Ute Mountain Ute police officer;
 - 7. Town Marshall;
 - 8. CBI director and agents;

9. Colorado state patrol officer;
 10. Colorado attorney general and any entity designated as “peace officers” by the Attorney General or acting on behalf of a state agency;
 11. Attorney general criminal investigator;
 12. District attorney and all assistants, deputies, etc. statutorily defined as “peace officers;”
 13. District Attorney Chief investigator and investigators;
 14. Police administrator and police officers employed by the Colorado State Hospital in Pueblo; and
 15. Federal special agents.
- f. “Legitimate program to monitor a patient’s controlled substance abuse” means a program in which prescribers actively monitor a patient’s controlled substance use. Such programs shall only involve patients in pain management or other controlled substance management programs. Such programs shall actively monitor the patient’s controlled substance usage by means of urine or other drug screens in addition to the use of the PDMP. The patient must be informed in writing that his/her controlled substance usage is being actively screened by various methods, including review of the PDMP.
- g. “Mistreat”, as it pertains to a licensed veterinarian’s use of the PDMP, means every act or omission which causes or unreasonably permits the continuation of unnecessary or unjustifiable pain or suffering.
- h. “Patient”, as it pertains to a licensed veterinarian’s use of the PDMP, means an animal that is examined or treated by a licensed veterinarian and includes herds, flocks, litters and other groups of animals.
- i. “PDMP” means the Electronic Prescription Drug Monitoring Program.
- j. “Prescriber” or “practitioner” means a licensed health care professional with authority to prescribe a controlled substance.
- k. “Prescription Drug Outlet” or “Dispenser” means any resident or nonresident pharmacy registered with the Board.
- l. “Qualified personnel” means persons who are appropriately trained to collect and analyze data for the purpose of conducting bona fide research or education.
- m. “Valid photographic identification” means any of the following forms of identification which include an identifying photograph:
1. A valid driver’s license, or identification issued by any United States state;
 2. An official passport issued by any nation; or
 3. A United States armed forces identification card issued to active duty, reserve, and retired personnel and the personnel’s dependents.

- n. "Zero Report" means a report submitted through the Colorado PDMP data submission environment confirming that no prescription dispensing transactions that would be required to be reported to the PDMP were completed for that date.

23.00.30 Data Submission Timeline.

- a. Every prescription drug outlet must ensure that all controlled substance dispensing transactions are reported to the PDMP on a daily basis by no later than the ~~outlet's next regular business day~~ end of the following day.
- b. Prescription drug outlets that did not complete any controlled substance dispensing transactions for a date where the prescription drug outlet was open for business are required to submit a Zero Report to the Colorado PDMP for that date by no later than the end of the following day.
- c. Within 14 days of receiving its Out of State Prescription Drug Outlet (OSP) registration, out-of-state prescription drug outlets must submit a written attestation to the Board using the Board's approved Attestation form to exempt the out-of-state prescription drug outlet from prescription data reporting and Zero Reporting requirements.
- d. Within 14 days of receiving its DEA license, In-state prescription drug outlets (PDO registration) must submit a written attestation to the Board using the Board's approved Attestation form to exempt the prescription drug outlet from prescription data and zero report requirements.
- e. Prescription drug outlets that fail to report controlled substance dispensing transaction data or Zero Reports to the Colorado PDMP twice within a 30-day period will be referred to the Board of Pharmacy for possible discipline.

23.00.40 Data Submission Format.

Prescription drug outlets shall submit to the PDMP the required data fields listed in the Colorado PDMP Data Submission Dispenser Guide using the ASAP 4.2B standard. Required data elements and their corresponding ASAP 4.2B Element IDs are~~following data requirements:~~

- a. Version/Release Number (TH01)
- b. Transaction Control Number (TH02)
- c. Transaction Type (TH03)
- d. Creation Date (TH05)
- e. Creation Time (TH06)
- f. File Type (TH07)
- g. Segment Terminator Character (TH09)
- h. Unique Information Source ID (IS01)
- i. Information Source Entity Name (IS02)
- j. Pharmacy DEA Number (PHA03)

- k. Pharmacy Name (PHA04)
- l. Pharmacy Address (PHA05)
- m. Pharmacy City Address (PHA07)
- n. Pharmacy State Address (PHA08)
- o. Pharmacy ZIP Code Address (PHA09)
- p. Patient Last Name (PAT07)
- q. Patient First Name (PAT08)
- r. Patient Address (PAT12)
- s. Patient City Address (PAT14)
- t. Patient State Address (PAT15)
- u. Patient ZIP Code Address (PAT16)
- v. Patient Date of Birth (PAT18)
- w. Patient Gender Code (PAT19)
- x. Reporting Status (DSP01)
- y. Prescription Number (DSP02)
- z. Prescription Date Written (DSP03)
- aa. Refills Authorized (DSP04)
- bb. Prescription Date Filled (DSP05)
- cc. Prescription Refill Number (DSP06)
- dd. Product ID Qualifier (DSP07, or CDI02 if a Compound)
- ee. Product ID (DSP08, or CDI03 if a Compound)
- ff. Quantity Dispensed (DSP09 and CDI04 for each ingredient if a Compound)
- gg. Days Supply (DSP10)
- hh. Drug Dosage Units Code (DSP11 or CDI05 if a Compound)
- ii. Classification Code for Payment Type (DSP16)
- jj. Date Sold (DSP17)
- kk. Prescriber DEA Number (PRE02)
- ll. Prescriber Last Name (PRE05)

mm. Prescriber First Name (PRE06)

nn. Detail Segment Count (TP01)

oo. Transaction Control Number (TT01)~~a. Identifier (Transmission type identifier), if applicable;~~

~~b. Bin (Bank Identification Number);~~

~~c. Version Number (a number to identify the format of the transaction sent or received);~~

~~d. Transaction Code;~~

~~e. NABP or Drug Enforcement Administration number assigned to pharmacy;~~

~~f. Customer ID (number to identify the patient receiving the RX);~~

~~g. Zip Code (3 digit US Postal Code identifying the State Code), if applicable;~~

~~h. Customer's Birth Date;~~

~~i. Sex Code;~~

~~j. Date Filled;~~

~~k. Prescription Number;~~

~~l. New/Refill Number;~~

~~m. Metric Quantity;~~

~~n. Days Supply;~~

~~o. Compound Code;~~

~~p. NDC Number of the drug dispensed;~~

~~q. Prescriber's Drug Enforcement Administration registration;~~

~~r. Drug Enforcement Administration suffix, if applicable;~~

~~s. Date RX Written;~~

~~t. Number of Refills Authorized;~~

~~u. RX Origin Code;~~

~~v. Customer Location;~~

~~w. Diagnosis Code, if available;~~

~~x. Alternate Prescriber #, if applicable;~~

~~y. Patient Last Name (if an animal, the owner's last name);~~

- ~~z. Patient First Name (if an animal, the animal's first name);~~
- ~~aa. Patient Street Address;~~
- ~~bb. Patient's state of residence;~~
- ~~cc. Patient's zip code;~~
- ~~dd. Triplicate Serial Number, if appropriate; and~~
- ~~ee. Filler Field to be populated with Payment Type as designated by PDMP vendor.~~

23.00.50 Data Correction.

- a. Any errors identified by the PDMP shall be corrected and resubmitted by the prescription drug outlet within ~~thirty~~ 10 calendar days of original dispensing date of the affected prescription(s).
- b. ~~Prescription drug outlets that fail to correct errors identified by the PDMP within 10 calendar days will be referred to the Board for possible discipline. If errors cannot be corrected, the pharmacy must retain a record in written format detailing the following information for each uncorrected error:~~
 - ~~1. Detail of Error Notification highlighting uncorrected error(s); and~~
 - ~~2. Detailed reason of why error cannot be corrected.~~

23.00.60 Patient Notification

Prescription Drug Outlets shall disclose to patients receiving controlled substance prescriptions that their prescription information is being submitted to the PDMP, and that this prescription information may be queried by specific individuals for a limited number of purposes as authorized by statute.

23.00.65 Unsolicited Reporting. In conjunction with other Colorado Boards who regulate prescribing practitioners and applicable stakeholders, the Board shall develop criteria for indicators of potential misuse, abuse and diversion of controlled substances and, based on those criteria, provide unsolicited reports of dispensed controlled substance prescriptions to the responsible prescribing practitioners and dispensing pharmacies of controlled substance(s) dispensed to the patient for purposes of education and intervention to prevent and reduce occurrences of controlled substance misuse, abuse, and diversion.

23.00.70 Release of PDMP Information

- a. The individual who is the recipient of a controlled substance prescription so long as the information released is specific to such individual. The procedure for individuals to obtain such information is as follows:
 - 1. The individual shall submit a written, signed request to the Board on the Board-provided form;
 - 2. The individual shall provide valid photographic identification prior to obtaining the PDMP information;

3. An individual submitting a request on behalf of another individual who is the recipient of a controlled substance prescription may only obtain PDMP information if the following documents are provided:
 - (A) The original document establishing medical durable power of attorney of the individual submitting the request as power of attorney for the individual who is the recipient of the controlled substance prescription, and
 - (B) Valid photographic identification of the individual submitting the request.
- b. A person authorized to access the PDMP may knowingly release PDMP information specific to an individual or to the individual's treating providers in accordance with HIPAA, Pub.L. 104-191, as amended, and any rules promulgated pursuant to HIPAA without violating Part 4 of Title 12, Article 280.

23.00.80 Research or Education Agreements

The Board may enter into a written agreement to provide data to qualified personnel of a public or private entity for the purpose of bona fide research or education, so long as such information does not identify a recipient, prescriber, or dispenser of a prescription drug. Any public or private entity wishing to enter into or extend such an agreement shall submit a written request to the Board detailing the information it is seeking and the public benefit of such research or education. The Board will act on such request in the normal course of business.

23.00.90 Exemptions

- a. The following individuals or entities are exempt from reporting controlled substance dispensing transactions to the Prescription Drug Monitoring Program:
 1. Hospitals licensed or certified pursuant to section 25-1.5-103, C.R.S.;
 2. A prescription drug outlet located within a hospital licensed or certified pursuant to section 25-1.5-103, C.R.S., that dispenses controlled substances only pursuant to chart orders or dispenses no more than a 24-hour supply of a controlled substance to an outpatient;
 3. Emergency medical services personnel certified pursuant to section 25-3.5-203, C.R.S.; and
 4. A prescription drug outlet which has applied to the Board and received a waiver from the Board. Waivers will only be considered if the pharmacy has no electronic automation. Such requests must be submitted in writing to the Board and will be considered in the normal course of business.
- b. Controlled substance dispensing transactions that occur solely for Institutional Review Board (IRB) approved interventional research trials using investigational drug products that are regulated by the Federal Food and Drug Administration shall be exempt from the data submission requirements of the PDMP.
- c. A prescription drug outlet which has submitted a written attestation to the Board that the pharmacy will never dispense controlled substance prescriptions to Colorado patients using the Board's approved Attestation form. Prescription drug outlets with a written attestation on file are also required to attest that the prescription drug outlet will never

dispense such prescriptions in its registration renewal for the prescription drug outlet to remain exempt from data submission requirements.

...

29.00.00 PHARMACY TECHNICIANS

...

29.00.50 Process for provisional certificant to apply for a hardship extension to extend the validity of a provisional certification beyond eighteen (18) months. The Board will consider criteria for qualifying for a one-time, fee-waived, six (6) month hardship extension of a provisional certification based on the receipt of a detailed written explanation submitted to the Board at least sixty (60) days prior to the expiration date of the provisional certification based on:

- a. The negative effects on access to care in the community served by the provisional certificant or the employer of the provisional certificant;
- b. Financial hardship; or
- c. Health circumstances.

...

Appendix C

Colorado State Board of Pharmacy Statewide Protocol

Pre-Exposure and Post-Exposure Prophylaxis of HIV

This collaborative pharmacy practice statewide protocol authorizes qualified Colorado-licensed pharmacists ("Pharmacists") to provide pertinent assessment of risk of HIV acquisition and prescribe pre-exposure and post-exposure prophylaxis medications for the prevention of HIV infection according to and in compliance with all applicable state and federal laws and rules.

Pharmacists may prescribe and dispense FDA approved medication(s) to eligible patients according to indications and contraindications recommended in current guidelines from the US Centers for Disease Control and Prevention (CDC)^{1, 3} and the United States Preventive Services Task Force (USPSTF)².

Prior to prescribing and dispensing HIV prevention medication per this protocol, the pharmacist must:

1. Hold a current license to practice in Colorado
2. Be engaged in the practice of pharmacy
3. Have earned a Doctor of Pharmacy degree or completed at least 5 years of experience as a licensed pharmacist
4. Carry adequate professional liability insurance as determined by the Board
5. Complete a training program accredited by the Accreditation Council for Pharmacy Education, or its successor entity, pursuant to the protocol (in compliance with Board Rule 17.00.50 b.2.)
6. Pharmacists must also follow all board rules for statewide protocols in section 17.00.00.

The pharmacy shall ensure that appropriate space is available to provide counseling and ensure confidentiality. Records:

- A. Pursuant to Pharmacy Board Rule 17.00.50, a process shall be in place for the pharmacist to communicate with the patient's primary care provider and document changes to the patient's medical record. If the patient does not have a primary care provider, or is unable to provide contact information for his or her primary care provider, the pharmacist shall provide the patient with a written record of the drugs or devices furnished, and lab test(s) ordered, and any test results.
- B. Pharmacists shall comply with all aspects of Pharmacy Board Rules 17.01.00 and 17.02.00 with respect to the maintenance of proper records.

Pre-Exposure Prophylaxis (PrEP) Protocol

Under this protocol, Pharmacists may assess for HIV status and high-risk behaviors in which pre-exposure prophylaxis against HIV would be warranted.

The pharmacist may consider and offer the patient an oral antiretroviral agent listed in Table I according to the following criteria:

1. Evidence of HIV negative status as documented by an FDA- approved test, or rapid CLIA-waived point of care fingerstick blood test, taken within 7 days. Neither oral swab testing nor patient report of negative status are acceptable for evidence.
2. Persons who meet eligibility requirements for PrEP per CDC guidelines in the following categories:
 - a. MSM (men who have sex with men)
 - Adult man
 - Without acute or established HIV infection
 - Any male sex partners in past 6 months
 - Not in a monogamous partnership with a recently tested, HIV-negative man

AND at least one of the following:

 - any anal sex without condoms (receptive or insertive) in the past 6 months
 - A bacterial STI (syphilis, gonorrhea or chlamydia) diagnosed or reported in past 6 months
 - b. Heterosexually Active Men and Women
 - Adult person
 - Without acute or established HIV infection
 - Any sex with opposite sex partners in past 6 months
 - Not in a monogamous partnership with a recently tested HIV-negative partner

AND at least one of the following:

 - Is a man who has sex with both women and men (behaviorally bisexual)
 - Infrequently uses condoms during sex with 1 or more partners of unknown HIV status who are known to be substantial risk of HIV infection (persons who inject drugs PWID or bisexual male partner)
 - Is in an ongoing sexual relationship with an HIV-positive partner

- A bacterial STI (syphilis, gonorrhea in women or men) diagnosed or reported in past 6 months
- c. Persons Who Inject Drugs (PWID)
 - Adult person
 - Without acute or established HIV infection
 - Any injection of drugs not prescribed by a clinician in past 6 months

AND at least one of the following:

- Any sharing of injection or drug preparation equipment in past 6 months
- Risk of sexual acquisition (see above)

Patients who should NOT be prescribed PrEP under this protocol and should be referred to primary care provider for further action:

- Patients with baseline HIV tests indicating existing HIV infection
- Recent flu-like symptoms in the past month as this may suggest recent HIV infection not yet detectable (tiredness, fever, joint or muscle aches, headache, sore throat, vomiting, diarrhea, rash, night sweats, and/or enlarged lymph nodes in the neck or groin)
- CRCL < 60 ml/min

TABLE 1 – MEDICATION OPTIONS

Other FDA approved / CDC recommended medications or regimens can be used if they become available.

Formulations, cautions and dose adjustments for antiretroviral medications shall minimally follow the CDC guidelines and package insert information for all regimens.

Medication	Age/Weight	Frequency	Duration of Therapy	Notes
FTC/TDF emtricitabine 200 mg/tenofovir disoproxil fumarate 300mg (Truvada® or generic)	≥35 kg	Once daily	Prescription issued for 30 days with no refills if baseline labs not completed; or up to 90 days if baseline labs completed. Refill quantity only until next scheduled lab follow up.	May take with or without food. Not recommended for CRCL <60 ml/min.
FTC/TAF emtricitabine 200mg/tenofovir alafenamide 25mg (Descovy®)	≥35 kg	Once daily	Prescription issued for 30 days with no refills if baseline labs not completed; or up to 90 days if baseline labs completed. Refill quantity only until next scheduled lab follow up.	May take with or without food. Not recommended for CRCL <30 ml/min. Should only be used for at-risk cis-gender men and transgender women. Pharmacist must review drug/drug interaction considerations as per <u>package insert Table 5</u> .

TABLE 2 – ROUTINE REQUIRED MONITORING OF TREATMENT

Labs:

- PrEP cannot be started without a negative HIV test at baseline.
- Pharmacist is authorized to order the following labs for the patient OR can refer to another provider for ordering and accept lab results.
- PrEP refills will not be authorized past the initial 30 day supply if recommended baseline testing is not done by one of the above mechanisms.

Test	Frequency	CDC recommendations	Notes
HIV	Baseline + Every 3 months	Required	If positive, refer
Three site STI screening (syphilis, gonorrhea, chlamydia)	Baseline + At 3 mo if symptomatic. Every 6 months if asymptomatic	Recommended	If positive – refer for care
Serum creatinine	Baseline, at 3 months, and thereafter every 6 months	Recommended	If CRCL <60 ml/min, cannot use FTC/TDF If CRCL <30 ml/min cannot use FTC/TAF
Hepatitis B screening	Baseline	Recommended	If positive – refer for care
Bone health		Optional	
Need to continue PrEP	Annually	Recommended if at continued risk	Discuss with patient

Counseling (at minimum):

- Proper use of medication dosage, schedule and potential common and serious side effects (and how to mitigate)
- The importance of medication adherence with relation to efficacy of PrEP/nPEP
- Signs/symptoms of acute HIV infection and recommended actions
- Consistent and correct use of condoms and prevention of STIs
- The necessity of follow up care with a primary care provider for usual care
- The importance and requirement of testing for HIV, renal function, hepatitis B, and sexually transmitted diseases

Documentation:

- The pharmacist will notify the patient's primary care provider of a record of all medications prescribed. If a patient does not have a primary care provider, the pharmacist will provide the patient with a list of providers and clinics for which they may seek ongoing care.
- The pharmacist will also follow all documentation rules in Pharmacy Board Rule 17.

Referrals to primary care provider:

- If a patient tests positive for HIV infection, the pharmacist will refer/direct the patient to a primary care provider and provide a list of providers and clinics in that region for confirmatory testing and follow up care. A list of providers may be found at: <https://cdphe.colorado.gov/living-with-hivhttps://www.colorado.gov/pacific/cdphe/linkage-to-care>

- If a patient tests positive for an STI, the pharmacist will refer/direct the patient to a primary care provider and provide a list of providers and clinics in that region for confirmatory testing and follow up care. A list of providers may be found at: <https://www.colorado.gov/pacific/cdphe/linkage-to-care>
- If a patient tests positive for Hepatitis B, the pharmacist will refer/direct the patient to a primary care provider and provide a list of providers and clinics in that region for confirmatory testing and follow up care.
- Urgent evaluation referral for symptoms or signs of acute renal injury or acute HIV infection.
- If a female patient becomes pregnant while on PrEP
- Usual care for any other issues, stress importance of routine primary care and health maintenance.

***What is this for?**

¹ CDC. Preexposure prophylaxis for the prevention of HIV infection in the United States, 2017 update Clinical Practice Guideline. Available at: <https://stacks.cdc.gov/view/cdc/53509>

² USPTF. Preexposure Prophylaxis for the Prevention of HIV Infection US Preventive Services Task Force Recommendation Statement. JAMA. 2019;321(22):2203-2213. doi:10.1001/jama.2019.6390

Non-Occupational Post-Exposure Prophylaxis (nPEP) Protocol

Non-Occupational Post-Exposure Prophylaxis (nPEP) is the use of antiretroviral drugs after a single high-risk event to decrease the risk of HIV seroconversion. nPEP must be started as soon as possible to be effective, and always within 72 hours of the possible exposure. This particular protocol addresses non occupational post-exposure prophylaxis (nPEP) only, those with occupational exposures are not eligible and should be referred for care.

Under this protocol, pharmacists may assess patients 13 and older for high-risk exposure to HIV and prescribe antiretroviral drugs if appropriate. Patients under 18 years of age require parental consent to access this Protocol. nPEP should only be provided for infrequent exposures.

If the pharmacy is not able to provide care to the patient, or if the patient does not qualify for care at the pharmacy, the patient should be referred to another provider. PEP providers in Colorado include the STD Clinic at Denver Public Health (303.602.3540) and local emergency departments (CDPHE to comment).

If the following criteria are met, antiretroviral agents in Table 1 are recommended:

- The exposure must have occurred within 72 hours
- A rapid antibody CLIA waived point of care test yields a negative result for HIV. However, if a rapid test is not available, and nPEP is otherwise indicated, therapy should still be initiated.
- Exposure to a source individual known to be HIV-positive. Exposure of:
 - o Vagina
 - o Rectum
 - o Eye

- o Mouth
- o Other mucous membranes
- o Nonintact skin
- o Percutaneous contact (e.g., injecting drugs with a contaminated needle or needle stick injury)

WITH

- o Blood
- o Semen
- o Vaginal secretions
- o Rectal secretions
- o Breast milk
- o Any body fluid visibly contaminated with blood
- Exposure types with the highest risk of transmission of HIV are:
 - o Needle sharing during injection drug use
 - o Percutaneous needle stick
 - o Receptive anal intercourse
- If exposure with a source in which the HIV status is not known, nPEP may be considered and antiretroviral agents in Table 1 may be prescribed. NPEP should strongly be considered after exposure in an individual who also meets the criteria for PrEP therapy (see Colorado Statewide Protocol for Pre-Exposure Prophylaxis of HIV).

Patients who should NOT be prescribed nPEP under this protocol and should be referred to primary care provider for further action:

- Patients younger than 13 years of age.
- Patients taking any contraindicated medications per guidelines and package insert information
- Patients with baseline rapid HIV tests indicating existing HIV infection should be referred to a primary care provider.
- Patients who have a potential exposure but have been consistently adherent to PrEP
- If a child presents to the pharmacy with a request for NPEP and is potentially a victim of child abuse, child protective services MUST be contacted.

Other Considerations:

- If the case involves a sexually assaulted person, patients should also be examined and co-managed by professionals specifically trained in assessing and counseling patients and families during these circumstances (e.g., Sexual Assault Nurse Examiner [SANE] program staff). Resources may be found at <https://www.ccasa.org/gethelp/health-related-organizations/>
- If a child presents to the pharmacy with a request for nPEP and is potentially a victim of child abuse, child protective services **MUST** be contacted 1-844-CO-4-KIDS.

TABLE 1 – MEDICATION OPTIONS

Other FDA approved / CDC recommended medications or regimens can be used if they become available. Formulations cautions and dose adjustments for antiretroviral medications shall minimally follow the CDC guidelines and package insert information for all regimens.

Medication	Age/Weight	Dose	Duration of Therapy	Notes
PREFERRED REGIMEN				
emtricitabine 200 mg/tenofovir disoproxil fumarate 300mg (Truvada® or generic) PLUS raltegravir 400mg OR Dolutegravir 50mg	≥ 13 years	Once daily #28 no refills Twice daily #56 no refills Once daily #28 no refills	28 days	Dosing adjustments with renal dysfunction if CrCL <60 ml/min. Dolutegravir should not be used in pregnant women If contraindications to raltegravir or dolutegravir exist, or for other reasons the preferred regimen cannot be given, then “alternative regimens” per CDC guidelines should be referenced and used.

TABLE 2 – ROUTINE REQUIRED MONITORING OF TREATMENT

Labs:

- All efforts should be made to obtain a negative HIV test at baseline. However, the sooner PEP is initiated, the more effective it is.
- Ask the following screening question:
 - o Do you have existing kidney disease, or do you know if your kidney function is decreased for any reason?

In this event, pharmacist should make arrangements to refer patient for a Scr blood test urgently as nephrotoxicity can occur with acute/chronic kidney disease (CrCL <60 ml/min).

- Pharmacist is authorized to order the following labs for the patient OR can refer to another provider for ordering and accept lab work results.
- Pharmacist must make every reasonable effort to follow up with patient post-treatment regimen at 4-6 weeks and test for confirmation of HIV status and make known to patient that repeat HIV testing is recommended at 3 and 6 months as well.

Test	Frequency	CDC recommendations	Notes
HIV	Baseline + Post-exposure at week 4-6, and months 3 and 6	Required	If positive, refer.
STI screenings (syphilis, gonorrhea, chlamydia)	Baseline	Recommended	If positive – refer for care
Serum creatinine	Baseline + @4-6 weeks.	Recommended	
ALT/AST	Baseline + @4-6 weeks.	Recommended	
Hepatitis B screening	Baseline + 6 mo	Recommended	If positive – refer. If negative and clinically appropriate, vaccinate
Hepatitis C screening	Baseline + 6 mo	Recommended	If positive - refer
Pregnancy	Baseline + @4-6 weeks.	Recommended	Pregnancy is not a contraindication to NPEP

Counseling (at minimum):

- Proper use of medication dosage, schedule and potential common and serious side effects (and how to mitigate)
- The importance of medication adherence with relation to efficacy of nPEP
- Signs/symptoms of acute HIV infection and recommended actions
- The patient should be instructed on correct and consistent use of HIV exposure precautions including condoms and not sharing injection equipment
- For women of reproductive potential with genital exposure to semen, emergency contraception should be discussed
- The necessity of follow up care with a primary care provider for usual care

- The importance and requirement of follow up testing for HIV, renal function, hepatic function, hepatitis B and C, and sexually transmitted diseases
- If appropriate, general discussion of pre-exposure prophylaxis at future time.

Documentation:

- The pharmacist will notify the patient's primary care provider of a record of all medications prescribed. If a patient does not have a primary care provider, the pharmacist will provide the patient with a list of providers and clinics for which they may seek ongoing care.
- The pharmacist will also follow all documentation rules in 17.00

Referrals:

- If a patient tests positive for HIV infection, the pharmacist will refer/direct the patient to a primary care provider and provide a list of providers and clinics in that region for confirmatory testing and follow up care. A list of providers may be found at: <https://www.colorado.gosv/pacific/cdphe/linkage-to-care>
- The patient should be referred immediately for guideline based follow-up HIV testing and care, and follow-up testing for STIs, Hepatitis C, and Hepatitis B.
- If a patient tests positive for an STI, the pharmacist will refer/direct the patient to a primary care provider and provide a list of providers and clinics in that region for confirmatory testing and follow up care. A list of providers may be found at: <https://www.colorado.gosv/pacific/cdphe/linkage-to-care>
- If a patient tests positive for Hepatitis B or C, the pharmacist will refer/direct the patient to a primary care provider and provide a list of providers and clinics in that region for confirmatory testing and follow up care. A list of providers may be found at: <https://www.colorado.gosv/pacific/cdphe/linkage-to-care>
- Signs of symptoms of acute drug toxicities or serious side effects
- Urgent evaluation referral for symptoms or signs of acute renal injury or acute HIV infection.
- Usual care for any other issues, stress importance of routine primary care and health maintenance.

Subjects and issues involved

On October 17, 2020, the United States Congress passed the National Suicide Hotline Designation Act of 2020, which designates 9-8-8 as the number for the National Suicide Prevention Lifeline to aid rapid access to suicide prevention and mental health support services. On June 28, 2021, Governor Jared Polis signed SB 21-154, which provides for the implementation of 9-8-8 as the number for crisis response services in Colorado, creates the 9-8-8 Crisis Hotline Enterprise (Enterprise), and provides for a 9-8-8 Surcharge through the addition of §§ 27-64-101-105 and 40-17.5-101-105, C.R.S., and changes to § 24-75-402, C.R.S. In addition to numerous other requirements related to the establishment, funding, and administration of the Enterprise and the 9-8-8 Crisis Hotline, SB 21-154 directs the Commission to collect the 9-8-8 Surcharge from service suppliers, and it directs the Commission to promulgate rules for such remittances and for audits of service suppliers relating to the collection and remittance of 9-8-8 Surcharges. Many of SB 21-154s requirements relating to remittance and audit processes are similar to those contained in § 29-11-103, C.R.S., which require remittance and audit processes for the 9-1-1 Statewide Surcharge, and which are included in the ongoing rulemaking in Proceeding No. 21R-0099T.

Statutory authority

The statutory authority for the rules proposed here is found at §§ 24-4-101 et seq.; 27-64-103; 40-2-108; 40-4-101; 40-15-101, 107, 201, 202, 302, 401, 501, 502, 503, and 503.5; and 40-17.5-102 and 103, C.R.S.

PART 2

RULES REGULATING TELECOMMUNICATIONS SERVICES AND PROVIDERS OF TELECOMMUNICATIONS SERVICES

* * * *

[indicates omission of unaffected rules]

PROGRAMS

~~2800. – 2819. [Reserved].~~

9-8-8 Surcharge

Basis, Purpose, and Statutory Authority

The basis and purpose of these rules is to prescribe the process for the collection and remittance of 9-8-8 surcharge funds and to establish the procedures for the conducting of audits of service providers' practices regarding the collection, payment, and remittance of 9-8-8 surcharges.

The statutory authority for the promulgation of these rules is found at §§ 40-17.5-102 and 103, C.R.S.

2800. Applicability.

Rules 2801 through 2803 apply to 9-8-8 originating service providers.

2801. Definitions.

- (a) "9-8-8" means the three-digit abbreviated dialing code used to report a behavioral health crisis.
- (b) "9-8-8 access connection" means any communications service that is enabled, configured, or capable of making 9-8-8 calls.
- (c) "9-8-8 crisis hotline enterprise" or "enterprise" means the enterprise created in § 27-64-103, C.R.S., created to provide intervention services and crisis care coordination to individuals calling the 9-8-8 crisis hotline, and other purposes.

- (d) “9-8-8 originating service provider” (9-8-8 OSP) means a local exchange carrier, wireless carrier, Voice-over-Internet-Protocol service provider, or other provider of functionally equivalent services to any customer in the state that includes the ability to place 9-8-8 calls.
- (e) “9-8-8 surcharge” means the charge established by § 40-17.5-102, C.R.S. and imposed by the enterprise on originating service providers that provide 9-8-8 access connections.
- (f) “Enterprise” means the 9-8-8 Crisis Hotline Enterprise created by § 27-64-103.
- (g) “Prepaid wireless 9-8-8 charge” means the charge established by § 40-17.5-104, C.R.S. and imposed by the enterprise on sellers of prepaid wireless telecommunications service.

2802. Administration of the 9-8-8 Crisis Hotline Cash Fund.

- (a) This rule does not apply to 9-8-8 access connections~~ss~~ provided via prepaid wireless telecommunications services. The 9-8-8 surcharge is a statewide surcharge applied to all 9-8-8 access connections~~n~~ in the state of Colorado, and is separate from the wireless prepaid 9-8-8 charge pursuant to § 27-64-103(4)(b), C.R.S.
- (b) Annually ~~prior to October 1,~~ the Commission shall collaborate with the Enterprise to assist the Enterprise in its establishment of ~~the 9-8-8 surcharge rate and prepaid wireless 9-8-8 charge rate,~~ including but not limited to providing the Enterprise with relevant information regarding ~~number of statewide 9-8-8 access connections and prepaid wireless transactions.~~ After the Enterprise's annual establishment of the 9-8-8 surcharge rate to take effect on the following January 1, the Commission will publish the 9-8-8 surcharge rate on its website and notify 9-8-8 originating service providers at least 60 days prior to the effective date of the surcharge.
- (c) 9-8-8 surcharge.
 - (I) Effective January 1, 2022, all 9-8-8 originating service providers shall collect and remit the 9-8-8 surcharge assessed upon each service user whose primary service address, if known, or billing address, if service address is unknown, is within the state of Colorado. The surcharge shall be assessed on each 9-8-8 access connection provided to that service user. Such charges shall be collected monthly and remitted as directed by the Commission using the combined surcharge remittance form.
 - (II) With respect to multi-line telephone systems, the number of 9-8-8 access connections is determined by the configured capacity for simultaneous outbound calling.
 - (III) The 9-8-8 surcharge must be listed separately or on the same line as the 9-1-1 surcharge established in § 29-11-102.3, C.R.S. If combined, the line item must be listed as “state 911 and 988 surcharges”.
 - (IV) The 9-8-8 surcharge is the liability of the service user and not the 9-8-8 originating service provider, except that the 9-8-8 originating service provider is liable to remit all 9-8-8 surcharges that the originating service provider collects from service users. An originating service provider is liable only for the portion of the 9-8-8 surcharge collected until it is remitted to the Commission. The amount remitted by the 9-8-8 originating service provider must reflect the ~~sate~~ 9-8-8 surcharges actually collected on the number

of 9-8-8 access connections provided in Colorado by the 9-8-8 originating service provider.

- (V) Each 9-8-8 originating service provider may retain from the total 9-8-8 surcharges collected and timely remitted, a vendor fee in the amount of one percent of the total monthly charges collected by such provider.
 - (VI) Each 9-8-8 originating service provider shall remit the 9-8-8 surcharge amount the provider collected for the previous month, less the applicable vendor fee, no later than the last day of the following month. If the last day of the month is a legal holiday, then the remittance shall be due the next business day.
 - (VII) Remittances mailed through the United States Postal Service shall be deemed to be filed on the date of the postmark stamped on the envelope in which the remittance was mailed.
- (d) Combined Colorado telecommunications surcharge remittance form.
- (I) Each remittance of 9-8-8 surcharges shall be accompanied by a completed combined Colorado telecommunications surcharge remittance form, also referred to as the combined Colorado telecommunications relay service and 9-1-1 surcharge remittance form, that includes information for each month remitted. This form is available from the Commission or on its website.

 - (A) The combined Colorado telecommunications surcharge remittance form must be signed and dated by a company representative authorized to do so. The name and telephone number of the most appropriate company representative to whom questions may be directed must also be included on the form.
 - (B) Regardless of the method of payment, the combined Colorado telecommunications surcharge remittance form shall be filed with the Commission through its E-Filings System into the proceeding opened for that purpose. The Commission, for good cause shown, may grant a waiver of the E-Filings requirement.
 - (C) 9-8-8 originating service providers shall submit all 9-8-8 surcharge remittances to the custodial receiver directly.
 - (D) If payments are made by physical check, the completed combined Colorado telecommunications surcharge remittance form shall also be enclosed with the check.
 - (E) All remittances of the 9-8-8 surcharges received by the Commission pursuant to this rule shall be deposited in an 9-8-8 receipt account established for that purpose.
- (e) The Commission may withdraw from the 9-8-8 receipt account an amount up to four percent of the total amount of the fund necessary for the direct and indirect costs of administering the collection and remittance of the 9-8-8 surcharge, including costs related to conducting audits of 9-

8-8 originating service providers. Funds deducted for this purpose will be kept in a 9-8-8 administrative retention account created by the Commission until expended. Any funds withdrawn by the Commission for this purpose will be returned to the 9-8-8 trust cash fund if the Commission determines that the funds are not necessary to pay administrative costs.

- (f) On a monthly basis, the Commission shall transfer the amount of funds received into the 9-8-8 receipt account to the 9-8-8 surcharge trust cash fund, less the administrative retention fee authorized in paragraph (e). This transfer shall be made via ACH bank transfer.

2803. Audit of 9-8-8 Originating Service Providers Regarding 9-8-8 Surcharge Practices.

- (a) The Commission may conduct an audit of a 9-8-8 originating service provider's books and records regarding the collection and remittance of the 9-8-8 surcharge.
- (I) All expenses related to audits initiated by the Commission shall be paid for by the Commission from the administrative retention fund as authorized by § 40-17.5-102(3)(c)(II), C.R.S.
- (II) 9-8-8 originating service providers shall make relevant records available to auditors at no charge.
- (III) Audits shall be limited to the collection and remittance of the 9-8-8 surcharge. However, audits regarding the collection and remittance of 9-8-8 surcharges may be conducted concurrently with audits regarding the collection and remittance of 9-1-1 surcharges, emergency telephone charges, and telecommunications relay service surcharges.
- (IV) Any delinquent remittance of 9-8-8 surcharges received by the Commission, including penalties and interest, shall be deposited into the 9-8-8 receipt account and transferred to the 9-8-8 surcharge trust cash fund, less allowable administrative expenses, as prescribed in rule 2802.
- (b) 9-8-8 originating service providers shall maintain a record of the amount of each 9-8-8 surcharge collected and remitted by service user address for three years after the time that it was remitted.
- (c) If a 9-8-8 originating service provider fails to file a combined Colorado telecommunications surcharge remittance form and remit 9-8-8 surcharges in a timely manner, the Commission may assess the 9-8-8 originating service provider for the delinquent remittance in the following manner.
- (I) The Commission shall estimate delinquent remittance based on available information.
- (II) The Commission shall issue a notice of assessment to the 9-8-8 originating service provider within three years of the original due date of the remittance, unless the three-year period is extended, in writing, in accordance with this rule.
- (III) Before the expiration of the three-year period, the Commission and the 9-8-8 originating service provider may extend the period for assessment by agreement, in writing. The period agreed upon may be extended by subsequent agreements in writing made before

the expiration of the period previously agreed upon. Any party seeking extension from the Commission shall do so by filing a petition.

- (IV) The Commission shall impose an additional 15 percent penalty in addition to the estimated amount of the delinquent remittance.
- (V) The Commission shall assess an additional one percent interest monthly, assessed against the original principal owed, from the original due date until the delinquent remittance has been paid by the 9-8-8 originating service provider.
- (VI) If the assessment was properly noticed within three years of the original due date of the remittance, or prior to the expiration of the period of time agreed to by the Commission and 9-8-8 originating service provider in writing, the Commission may file a lien, issue a distraint warrant, institute a suit for collection, or take other action to collect the amount up to one year after the expiration of said time period.

B.	ADOPTED IN COMMISSIONERS' WEEKLY MEETING August 18, 2021.....	7

I. BY THE COMMISSION**A. Statement**

1. The Colorado Public Utilities Commission (Commission) issues this Notice of Proposed Rulemaking to amend the Rules Regulating Telecommunications Services and Providers of Telecommunications Services contained in 4 *Code of Colorado Regulations* 723-2-2800 through 2819, and 2010 (9-8-8 Rules).

2. The changes proposed are reflective of the changes to the Colorado statute realized by the enactment of Senate Bill (SB) 21-154. The proposed rules are included as Attachments A and B to this Decision. We welcome comments from interested participants. To the extent a participant disagrees with the proposed rules, comments should include suggested rule revisions, in legislative format.

3. Consistent with the below discussion, this matter is set for hearing and referred to an Administrative Law Judge (ALJ) for a recommended decision.

B. Senate Bill 21-154

4. On October 17, 2020, the United States Congress passed the “National Suicide Hotline Designation Act of 2020,” which designates 9-8-8 as the number for the National Suicide Prevention Lifeline to aid rapid access to suicide prevention and mental health support services. On June 28, 2021, Governor Jared Polis signed SB 21-154, which provides for the implementation of 9-8-8 as the number for crisis response services in Colorado, creates the 9-8-8 Crisis Hotline Enterprise (Enterprise), and provides for a 9-8-8 Surcharge through the addition of §§ 27-64-101-105 and 40-17.5-101-105, C.R.S., and changes to § 24-75-402, C.R.S.

5. In addition to numerous other requirements related to the establishment, funding, and administration of the Enterprise and the 9-8-8 Crisis Hotline, SB 21-154 directs the

Commission to collect the 9-8-8 Surcharge from service suppliers, and it directs the Commission to promulgate rules for such remittances and for audits of service suppliers relating to the collection and remittance of 9-8-8 Surcharges. Many of SB 21-154's requirements relating to remittance and audit processes are similar to those contained in § 29-11-103, C.R.S., which require remittance and audit processes for the 9-1-1 Statewide Surcharge, and which are included in the ongoing rulemaking in Proceeding No. 21R-0099T.

C. Proposed Rule Changes

6. An overview of the changes proposed by the Commission fall into general categories described in this Decision. We invite interested stakeholders to comment on the proposed rules and provide additional suggested changes.

1. Introductory Section Preceding Rule 2800 and Applicability

7. The proposed introductory text preceding Rule 2800 and Rule 2800 itself are intended to identify the purpose of the 9-8-8 Rules to include the requirements enacted by SB 21-154, and reflect the statutory authority for promulgation of the 9-8-8 Rules. Specifically, the basis and purpose of the proposed rules provide for the following, as required under SB 21-154: (1) prescribe the process for the collection and remittance of 9-8-8 Surcharge funds; and (2) establish procedures for the conducting of audits of service providers' practices regarding the collection, payment, and remittance of 9-8-8 surcharges. The proposed introductory text provides the statutory citations and references given authority vested in the Commission per SB 21-154.

8. Proposed Rule 2800 indicates the applicability of the new and revised sections of the remainder of the proposed rules.

2. Rule 2801: Definitions

9. We propose creating definitions for “9-8-8,” “9-8-8 access connection,” “9-8-8 surcharge,” the “Enterprise,” “9-8-8 Originating Service Provider,” and the “prepaid wireless 9-8-8 charge.” The addition of these definitions to Rule 2801 mirror the addition of these definitions to the statute and facilitate the addition of new sections for the implementation of SB 21-154.¹

3. Rule 2802: Administration of the 9-8-8 Crisis Hotline Cash Fund

10. Among its requirements, §§ 27-64-103 and 40-17.5-102 through 103, C.R.S., include that: (1) the Commission collaborate with the Enterprise in the Enterprise’s establishment of the 9-8-8 Surcharge each year on or before October 1; and (2) the Commission, by January 1, 2022, be prepared to receive remittances from originating service providers from the 9-8-8 surcharge created by § 29-64-103, C.R.S., and authorized per 9-8-8 access connection per month as established by the Enterprise.

11. The proposed rule aims to accomplish the following, as required by statute:

- a) Set forth that the Commission will collaborate with the Enterprise to assist the Enterprise in its annual establishment of the 9-8-8 Surcharge and the prepaid wireless 9-8-8 charge;²
- b) Set forth processes and procedures by which the originating service providers will collect and remit to the Commission the 9-8-8 Surcharge;³ and
- c) Set forth processes and procedures by which the 9-8-8 Surcharges remitted to the Commission will be transmitted to the Enterprise.

¹ See §§ 40-17.5-102 and 103, C.R.S.

² See § 27-64-103(4)(a) and (b), C.R.S.

³ See § 40-17.5-103(5)(e), C.R.S.

4. Rule 2803: Audit of 9-8-8 Originating Service Providers Regarding 9-8-8 Surcharge Practices

12. Section 40-17.5-103, C.R.S., requires the Commission to promulgate rules regarding the Commission's procedures for the audit of a service supplier's books and records concerning the collection and remittance of the 9-8-8 Surcharge. Proposed Rule 2803 establishes the process by which audits of 9-8-8 originating service providers may be conducted by the Commission.

13. It also establishes in Commission rules the obligation of 9-8-8 originating service providers to keep records of their 9-8-8 Surcharge collections and remittances, sets forth the late payment penalty of 15 percent of the estimated delinquent remittance, and 1 percent per month interest required by § 40-17.5-103(5)(b), C.R.S.

D. Conclusion

14. The statutory authority for the rules proposed here is found at §§ 24-4-101 *et seq.*; 27-64-103; 40-2-108; 40-4-101; 40-15-101, 107, 201, 202, 302, 401, 501, 502, 503, and 503.5; and 40-17.5-102 and 103, C.R.S.

15. The proposed rules in legislative (*i.e.*, ~~strikeout~~/underline) format (Attachment A) and final format (Attachment B) are available through the Commission's Electronic Filings (E-Filings) system at:

https://www.dora.state.co.us/pls/efi/EFI.Show_Docket?p_session_id=&p_docket_id=21R-0394T

16. The Commission encourages and invites public comment on all proposed rules. We request that commenters propose any changes in legislative redline format.

17. This matter is referred to an ALJ for the issuance of a recommended decision.

18. The ALJ will conduct a hearing on the proposed rules and related issues on October 5, 2021. Interested persons may submit written comments on the rules and present these orally at the hearing, unless the ALJ deems oral presentations unnecessary.

19. The Commission encourages interested persons to submit written comments before the hearing scheduled in this matter. In the event interested persons wish to file comments before the hearing, the Commission requests that comments be filed no later than September 20, 2021, and that any pre-filed comments responsive to the initial comments be submitted no later than September 28, 2021. The Commission prefers that comments be filed using its E-Filing System at <https://www.dora.state.co.us/pls/efi/EFI.homepage>.

II. ORDER

A. The Commission Orders That:

1. This Notice of Proposed Rulemaking (including Attachment A and Attachment B) attached hereto, shall be filed with the Colorado Secretary of State for publication in the September 10, 2021, edition of *The Colorado Register*.

2. This matter is referred to an Administrative Law Judge for the issuance of a recommended decision.

3. A hearing on the proposed rules and related matters shall be held as follows:

DATE October 5, 2021

TIME: 9:00 a.m. until not later than 5:00 p.m.

PLACE: By video conference using Zoom at a link in the calendar of events
on the Commission's website, available at:

<https://puc.colorado.gov/>.

4. At the time set for hearing in this matter, interested persons may submit written comments and may present these orally unless the Administrative Law Judge deems oral comments unnecessary.

5. Interested persons may file written comments in this matter. The Commission requests that initial pre-filed comments be submitted no later than September 20, 2021, and that any pre-filed comments responsive to the initial comments be submitted no later than September 28, 2021. The Commission will consider all submissions, whether oral or written.

6. This Decision is effective upon its Mailed Date.

**B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING

RULES GOVERNING REAL ESTATE BROKERS OF THE REAL ESTATE COMMISSION

NOTICE OF PROPOSED PERMANENT RULEMAKING HEARING
October 5, 2021 at 9:00 AM MST

Division of Real Estate Office
1560 Broadway
Conference Room 110C
Denver, CO 80202

VIRTUAL MEETING REGISTRATION LINK:

<https://attendee.gotowebinar.com/register/7828654042581103115>

Pursuant to and in compliance with Title 12, Article 10 and Title 24, Article 4, C.R.S., as amended, notice of proposed rulemaking is hereby given, including notice to the Attorney General of the state of Colorado and to all persons who have requested to be advised of the intention of the Colorado Real Estate Commission ("Commission") to promulgate rules, or to amend, repeal, or repeal and re-enact the present rules of the Commission.

The hearing more than likely will only be conducted in a virtual setting. All interested parties are urged to attend this public hearing by registering for the webinar on the Division's website at dre.colorado.gov and to submit written comments concerning the proposed amended rules in advance if possible for consideration.

In order to facilitate the review of comments by the Commission, all interested parties are strongly encouraged to submit their written comments to Eric Turner via email at eric.turner@state.co.us on or before 5:00 p.m. on September 24, 2021. Any written comments not received by September 24, 2021 may be submitted via public testimony at the hearing on October 5, 2021.

STATEMENT OF BASIS

The statutory basis for the rules titled Rules Governing Real Estate Brokers is Part 2 of Title 12, Article 10, Colorado Revised Statutes, as amended. The specific authority under which the Commission shall establish these rules is set forth in sections 12-10-219(4) and 12-10-220, C.R.S.

STATEMENT OF PURPOSE

The purpose of this rule is to effectuate the legislative directive to promulgate the necessary and appropriate rules in conformity with the state statutes of the real estate practice act.

SPECIFIC PURPOSE OF RULEMAKING

The specific purpose of this rulemaking is modifying, adding, or repealing existing rules with respect to defined terms, broker advertising requirements, complaints initiated on the Commission's own motion, and filing timelines for initial decisions and exceptions. Please be advised that the proposed

amended rules being considered are subject to further changes and modifications after public comment and the formal hearing.

Proposed New, Amended, And Repealed Rules

Deleted material shown ~~struck through~~; new material is indicated by underline. Rules, or portions of rules, which are unaffected are reproduced. Readers are advised to obtain a copy of the complete rules of the Commission at dre.colorado.gov.

Chapter 1: Definitions

- 1.32. Listing Contract: An agreement between a Brokerage Firm and a Consumer in which a Broker licensed with the Brokerage Firm is designated to provide Real Estate Brokerage Services to the Consumer. Listing Agreements include: Exclusive Tenant Contract, Exclusive Right to Sell, Exclusive Right to Lease, ~~and~~ Exclusive Right to Buy, and Management Agreements.

Chapter 6: Practice Standards

6.10. Advertising

A. Names

1. Pursuant to section 12-10-203(9), C.R.S., no Broker will be licensed to conduct Real Estate Brokerage Services under more than one (1) Brokerage Firm.
2. Pursuant to section 12-10-203(9), C.R.S., no Broker or Brokerage Firm will conduct or promote Real Estate Brokerage Services except in the name under which that Broker or Brokerage Firm appears in the records of the Commission. A Brokerage Firm may also include the locations of its offices, to include branch offices in the Advertising.
3. Brokers will not Advertise so as to mislead the public concerning the identity of the Broker or the Broker's Brokerage Firm.
4. All Advertising must be done clearly and conspicuously in the name of the Broker's Brokerage Firm. However, a Broker who Advertises real property owned by the Broker which is not listed for sale or lease with the Broker's Brokerage Firm is exempt from Advertising the Broker's own property in the Broker's Brokerage Firm's name.
5. A Brokerage Firm may use a Trade Name in addition to or instead of the Brokerage Firm's legal name. The Trade Name must be filed with the Commission.
6. A Brokerage Firm may use a Trademark in conjunction with the Brokerage Firm's legal name or Trade Name with permission of the owner of such Trademark.
 - a. A Brokerage Firm that uses a Trade Name or Trademark owned by a third party is required to use one (1) of the following statements, which must appear in a clear and conspicuous manner so as to attract the attention of the public:
 - i. "Each (insert general Trade Name) brokerage business is independently owned and operated." or

ii. "Each office independently owned and operated."

b. Upon written request, the above statements may be modified with consent of the Commission.

7. No Brokerage Firm will use more than one (1) Trade Name; however, upon written request and with the consent of a representative of the Commission, a Brokerage Firm may use more than one (1) Trademark. Use of the Trademark(s) is only acceptable if the Brokerage Firm has obtained permission of the registrant of such Trademark.
8. No Broker may use a professional designation in Advertising unless the Broker is in good standing and the designation is easily verifiable by the public and the Commission. A Broker that Advertises an award, membership, or achievement must be able to provide verification of the validity of such claims upon request from any member of the public or Commission.

B. Teams

1. Brokers who form a Team must not Advertise in a manner that misleads the public as to the identity of the Team's Brokerage Firm. Teams are prohibited from using the following terms in the Team's name:
 - a. Realty,
 - b. Real estate,
 - c. Realtors,
 - d. Company,
 - e. Corporation,
 - f. Corp.,
 - g. Inc.,
 - h. LLC,
 - i. LP or LLP, or
 - j. Any other term that would imply a separate entity from the Brokerage Firm with which the Team Brokers are licensed.
2. All Team Advertising must clearly and conspicuously include and be in conjunction with the legal name or Trade Name of the Brokerage Firm.
3. If requested by a Consumer, the Commission, another Brokerage Firm or Broker, the Brokerage Firm will provide the names of the Brokers that belong to any Team licensed with the Brokerage Firm.
4. Brokers may not allow the use of the Team's name by other Brokers outside the Team's Brokerage Firm.

C. Brokerage Firms and Brokers are responsible for ensuring that all Advertising is accurate and complies with copyright laws and other applicable laws and regulations.

D. Electronic Media

1. When a Broker owns or controls Electronic Media, each Viewable Page must include: ~~the Broker's name or Broker's Team name and~~ the Broker's Brokerage Firm's name. Any expired listings must be removed from the Broker's Electronic Media within three (3) days of a Listing Contract expiring.
2. If a Broker authorizes a third party for the Broker's Electronic Media Advertising, the Broker is responsible for ensuring that the information provided to such third party is accurate. The Broker must submit a written request to any third party syndicators to have all expired listings removed from Electronic Media within three (3) days of a Listing Contract expiring.
3. A Broker who communicates through email, chat, instant messages, newsgroups, discussion lists, bulletin boards, blogs, or other similar means for purposes of Advertising the Broker's Real Estate Brokerage Services must use the Broker's ~~name or Team's name and the name of the Broker's~~ Brokerage Firm's name. However, once a Broker has disclosed the ~~Broker's name or Team's name and the~~ Broker's Brokerage Firm to a specific Consumer, the Broker is not required to continue to make the same disclosure to the specific Consumer.
4. When it is not reasonable for a Broker to disclose the Broker's ~~name or Team's name and the~~ Brokerage Firm's name in an Electronic Media because space is limited, the Broker will disclose the Broker's ~~name or Team's name and the~~ Brokerage Firm's name clearly and conspicuously within the first click of the mouse.

E. Past Sales Data Advertising

General sales data Advertising, regardless of the medium, which recaps sales activity over a period of time in a given subdivision or geographical area must include all of the following:

1. Cite the source of the data; and
2. Include a disclaimer, if accurate, that all reported sales:
 - a. Were not necessarily listed or sold by the Broker; and
 - b. Are intended only to show trends in the area or will separately identify the Broker's own sales activity.

F. Authority to Advertise Available and Under Contract Properties

Brokers ~~who do not have a Brokerage Relationship with the owner~~ may ~~not~~ Advertise the availability or price of a property whether for sale or lease as set forth in subsections F.1. and F.2. of this Rule. ~~without authority from the owner or the owner's Broker and disclosure of the owner's Brokerage Firm.~~

1. A Broker may disseminate another Broker's Advertising in the following manner:

- a. The Broker discloses, in a conspicuous manner, the owner's Brokerage Firm;
 - b. The Advertising is accurate and not misleading to Consumers; and
 - c. The Advertising is in compliance with subsection C. of this Rule.
2. A Broker may disseminate an owner's Advertising who is not represented by a Brokerage Firm (For Sale by Owner) in the following manner:
- a. The Broker must have the owner's written permission to disseminate the Advertising;
 - b. The Broker discloses, in a conspicuous manner, that the owner is not represented by a Broker;
 - c. The Advertising is accurate and not misleading to Consumers; and
 - d. The dissemination of an owner's Advertising does not include submitting the information into a property exchange or multiple listing service.

G. Price Set by Owner

The price quoted in any Advertising will not be anything other than the price agreed upon between the Broker and the owner.

6.25. Investigations or Audits by Commission

A. Notification of a Complaint that has been Assigned for Investigations or an Audit

- 1. A Broker or Brokerage Firm will receive written notification from the Commission regarding the following:
 - a. A complaint has been filed and an investigation has been initiated. A copy of the complaint that has been filed against the Broker or Brokerage Firm will be provided;~~or~~
 - b. A complaint has been initiated on the Commission's own motion. A summary of the complaint against the Broker or Brokerage Firm will be provided; or
 - ~~b.c.~~ The Broker or Brokerage Firm has been selected for an audit.
- 2. Upon receipt of the Commission's notification, a Broker or Brokerage Firm must submit a written response to the Commission. Failure to submit a written response within the time set by the Commission in its notification will be grounds for disciplinary action regardless of the question of whether the underlying complaint or audit warrants further investigation or subsequent action by the Commission. The written response must contain the following:
 - a. A complete and specific answer to the factual recitations, allegations, or averments made in the complaint filed against the Broker or Brokerage Firm, whether made by a member of the public, on the Commission's own motion, or by an authorized representative of the Commission.

- b. A complete and specific response to any additional questions, allegations, or averments presented in the notification letter.
- c. A complete transaction file and any documents or records requested in the notification letter.
- d. Any further information relative to the complaint or audit that the Broker or Brokerage Firm believes to be relevant or material to the matters addressed in the notification letter.

B. Extension to Respond

Upon request, the Commission will grant extensions of time for Brokers or Brokerage Firms to respond to any complaint or audit provided such request is reasonable.

C. Produce Records for Investigation or Audit

Brokers and Brokerage Firms must retain and produce for inspection by the Commission any document or record as may be reasonably necessary for investigation or audit in the enforcement of Commission statutes and these Rules. Failure to submit such documents or records within the time set by the Commission in its notification will be grounds for disciplinary action unless the Commission has granted an extension of time for such production.

Chapter 9: Commission Review of Initial Decisions and Exceptions

9.1. Written Form, Filing Requirements, and Service

- A. All pleadings must be in written form, mailed with a certificate of service to the Commission.
- B. All pleadings must be filed with the Commission on the date the filing is due. Computation of time for the filing timelines for Chapter 9 of these Rules is pursuant to section 2-4-108, C.R.S. A pleading is considered filed upon receipt by the Commission. Chapter 9 of these Rules does not provide for any additional time for service by mail.
- C. All pleadings must be filed with the Commission and not with the Office of Administrative Courts. Any pleadings filed in error with the Office of Administrative Courts will not be considered. The Commission's address is:

Colorado Real Estate Commission
1560 Broadway, Suite 925
Denver, CO 80202
- D. All pleadings must be served on the opposing party on the date which the pleading is filed with the Commission. Electronic service between the parties is encouraged. The date and manner must be noted on the certificate of service.

A hearing on the above subject matter will be held on Tuesday, October 5, 2021 at the Colorado Division of Real Estate, 1560 Broadway, Suite 110-C, Denver, Colorado 80202 beginning at 9:00 a.m. Also, the virtual webinar of the meeting may be accessed at the following link:

<https://attendee.gotowebinar.com/register/7828654042581103115>

Any interested person may participate in the rule making through submission of written data, views and arguments to the Division of Real Estate. Persons are requested to submit data, views, and arguments to the Division of Real Estate in writing no less than ten (10) days prior to the hearing date and time set forth above. However, all data, views and arguments submitted prior to or at the rulemaking hearing or prior to the closure of the rulemaking record (if different from the date and time of hearing), shall be considered.

Please be advised that the rule being considered is subject to further changes and modifications after public comment and formal hearing.

NOTICE OF PROPOSED PERMANENT RULEMAKING HEARING
October 5, 2021 at 9:00 AM MST

Division of Real Estate Office
1560 Broadway
Conference Room 110C
Denver, CO 80202

VIRTUAL MEETING REGISTRATION LINK:

<https://attendee.gotowebinar.com/register/7828654042581103115>

Pursuant to and in compliance with Title 12, Article 10 and Title 24, Article 4, C.R.S., as amended, notice of proposed rulemaking is hereby given, including notice to the Attorney General of the state of Colorado and to all persons who have requested to be advised of the intention of the Colorado Real Estate Commission ("Commission") to promulgate rules, or to amend, repeal, or repeal and re-enact the present rules of the Commission.

The hearing more than likely will only be conducted in a virtual setting. All interested parties are urged to attend this public hearing by registering for the webinar on the Division's website at dre.colorado.gov and to submit written comments concerning the proposed amended rules in advance if possible for consideration.

In order to facilitate the review of comments by the Commission, all interested parties are strongly encouraged to submit their written comments to Eric Turner via email at eric.turner@state.co.us on or before 5:00 p.m. on September 24, 2021. Any written comments not received by September 24, 2021 may be submitted via public testimony at the hearing on October 5, 2021.

STATEMENT OF BASIS

The statutory basis for the rules titled Subdivisions and Timeshares is Part 5 of Title 12, Article 10, Colorado Revised Statutes, as amended. The specific authority under which the Commission shall establish these rules is set forth in sections 12-10-506(5) and 12-10-506(6), C.R.S.

STATEMENT OF PURPOSE

The purpose of this rule is to effectuate the legislative directive pursuant to section 24-4-103.3., C.R.S. (Senate Bill 14-063) along with promulgating the necessary and appropriate rules in conformity with the state statutes of the Subdivision Developer's Act.

SPECIFIC PURPOSE OF RULEMAKING

The specific purpose of this rulemaking is modifying, adding, or repealing the administrative rules regarding the Real Estate Commission's subdivision and timeshare rules which includes definitions, application for registration, registration and certification, professional standards, declaratory orders,

and review of initial decisions and exceptions. These administrative rules set forth the registration, certification, and enforcement requirements for a developer of subdivisions. In compliance with the mandatory rule review required by section 24-4-103.3., C.R.S., the Division of Real Estate, on behalf of the Real Estate Commission, conducted a review of all of the Commission's rules relating to the Subdivision Developer's Act to assess the continuing need for, the appropriateness, and cost-effectiveness of the rules. The review also determined whether the rules should be continued in their current form, modified, or repealed. After consultation with stakeholders, the proposed rules have been re-organized, and re-formatted in a more efficient and effective manner that continues to ensure consumer protection as well as promoting a fair and balanced regulatory environment. Please be advised that the proposed amended rules being considered are subject to further changes and modifications after public comment and the formal hearing.

Proposed New, Amended, Repealed, or Repealed and Re-Enacted Rules

Deleted material shown ~~struck through~~; new material is indicated by underline. Rules, or portions of rules, which are unaffected are reproduced. Readers are advised to obtain a copy of the complete rules of the Commission at dre.colorado.gov. Annotations are highlighted in yellow.

Note: Chapter 1 – Registration, Certification and Application is repealed in its entirety and the chapter is being renamed **Chapter 1 – Definitions** and is re-enacted below.

The following rules will be recodified and be relocated if adopted by the Colorado Real Estate Commission at the rulemaking hearing. The left-hand column indicates the rule as it existed prior to the rulemaking hearing and the right-hand column indicates the rule as it will exist upon adoption and effective date of November 30, 2021.

Prior to the hearing: November 30, 2021 and thereafter:

Rule 1.1.....	Rule 3.2.
Rule 1.2.....	Rule 4.1.
Rule 1.3.....	Rule 2.1.
Rule 1.4.....	Rule 2.9.
Rule 1.5.....	Rule 2.8.
Rule 1.6.....	Rule 3.3.
Rule 1.7.....	Rule 4.9.A.
Rule 1.8.....	Rule 4.9.C.

~~Chapter 1: Registration, Certification and Application~~

~~1.1 The Registration and Certification of a Subdivision Developer (Developer) under Title 12, Article 10, Part 5, C.R.S., does not exempt the developer from the requirements for the licensing of real estate brokers under Title 12, Article 10, Part 1, C.R.S. Exemptions from the licensing of real estate brokers are made pursuant to §12-10-201(6)(b), C.R.S.~~

~~1.2 The person, firm, partnership, joint venture, limited liability company, association, corporation or other legal entity, or combination thereof, who will sign as seller or lessor in any contract of sale, lease, deed or any other instrument purporting to convey any site, tract, lot, divided or undivided interest from a subdivision, must secure a registration under §12-10-503, C.R.S., (Developer Certificate) before negotiating or agreeing to sell, lease or transfer and before any sale, lease or transfer is made. If such person is acting only as a trustee, the beneficial owner of the subdivision must secure a Developer Certificate.~~

~~1.3 If an Applicant is:~~

- ~~a. — A corporation, a director or an authorized officer must apply on behalf of said corporation.~~
 - ~~b. — A partnership or limited partnership, one of the general partners must apply on behalf of the partnership or limited partnership.~~
 - ~~c. — A joint owner of the subdivision, such owner may apply on behalf of all joint owners of such subdivision.~~
 - ~~d. — A limited liability company, one of the managers or member managers must apply on behalf of the company.~~
 - ~~e. — With respect to any other type of developer that is other than a natural person, a person authorized to act on behalf of such entity, as demonstrated by such documents in a form satisfactory to the Commission, will apply on behalf of that entity.~~
- ~~1.4 — The Real Estate Commission (Commission) will issue a Developer Certificate, deny registration or demand further information within sixty (60) calendar days from the date of receipt of the application by the Commission.~~
- ~~1.5 — If the Commission requires additional information, the Commission will give written notice in detail of the information so required and will allow an additional sixty (60) calendar days to present such material before denial of the application, which period may be extended only upon showing of good cause.~~
- ~~1.6 — Notification in writing must be made to the Commission within ten (10) calendar days of any change in the principal office address of the developer or the natural person, or any other change in the information submitted pursuant to §12-10-503, C.R.S.~~
- ~~1.7 — Pursuant to §12-10-505, C.R.S., any developer who has received written notification from the Commission that a complaint has been filed against the developer, must submit a written answer to the Commission within a reasonable time as set by the Commission.~~
- ~~1.8 — Failure to submit any written response required by Rule 1.7 will be grounds for disciplinary action unless the Commission has granted an extension of time, or unless such answer would subject such person to a criminal penalty.~~

Chapter 1: Definitions

- 1.1. Applicant: A person or entity seeking registration from the Commission to act in the capacity of a Developer pursuant to section 12-10-504(1), C.R.S.
- 1.2. Business Record: The Consumer Agreement, financing agreement, buyer and seller settlement statement, title policy, trust deed, escrow agreement, and any other documents executed by or on behalf of the Developer in the sale, lease or transfer of any interest in a Subdivision, including records showing the receipt and disbursement of any money or assets received or paid on behalf of any homeowners' or similar association managed or controlled by a Developer.
- 1.3. Commission: The Colorado Real Estate Commission as defined pursuant to section 12-10-501(1), C.R.S.
- 1.4. Consumer: A natural person, corporation, company, limited liability company, partnership, firm, association, or other legal entity.

- 1.5. Consumer Agreement: A written agreement between a Consumer and a Developer in the sale, lease or transfer of any interest in a Subdivision, which includes but is not limited to, sales contract, purchase agreement, lease agreement, right-to-use contract, points-based contract, and installment contract.
- 1.6. Deemed Complete: An Applicant has submitted a complete and satisfactory application in compliance with sections 12-10-502 and 12-10-503, C.R.S. that includes the Fee and the accompanying required documentation as set forth in Chapter 2 of these Rules.
- 1.7. Day: any calendar day and includes Saturday, Sunday, and legal holidays.
- 1.8. Developer: Has the same meaning pursuant to section 12-10-501(2), C.R.S.
- 1.9. Developer Certificate: Certificate issued by the Commission or Division upon meeting the registration requirements pursuant to sections 12-10-503 and 504, C.R.S.
- 1.10. Division: The Colorado Division of Real Estate as defined pursuant to section 12-10-101(2), C.R.S.
- 1.11. Electronic Record: Has the same meaning set forth in the Uniform Electronic Transaction Act in sections 24-71.3-101, et. seq., C.R.S.
- 1.12. Electronic Signature: Has the same meaning set forth in the Uniform Electronic Transaction Act in sections 24-71.3-101, et. seq., C.R.S.
- 1.13. Equivalency Filing: An application for a Developer Certificate, a supplemental application to add a Subdivision to an existing Developer Certificate, or a supplemental application to otherwise amend an existing Developer Certificate, wherein the Developer is currently regulated in another state and submits evidence in form and substance acceptable to the Commission that the registration requirements are substantially equivalent to the Practice Act or that provide substantially comparable protection to a purchaser.
- 1.14. Exchange Program: Any method, arrangement, or procedure for the voluntary exchange of the right to use and occupy accommodations and facilities among owners. The term does not include the assignment of the right to use and occupy accommodations and facilities to owners pursuant to a particular Time Shares plan's reservation system.
- 1.15. Fee: The prescribed non-refundable license fee as set by the Division.
- 1.16. Nondisturbance Agreement: Agreement by which the holder of a blanket encumbrance against a project agrees that its rights in the project will be subordinate to the rights of the purchasers.
- 1.17. Petitioner: For the purposes of implementing the provisions of Chapter 5 of these Rules, any person who has filed with the Commission a petition or has been granted leave to intervene by the Commission for a declaratory order pursuant to section 24-4-105(11), C.R.S. and as set forth in Chapter 5 of these Rules.
- 1.18. Practice Act: The Subdivision Developer's Act found at sections 12-10-501, et. seq., C.R.S.
- 1.19. Reservation Agreement: A revocable right to purchase an interest in a Subdivision project for which a Developer Certificate from the Commission or Division has not yet been obtained.

1.20. Safe and Secure Manner: Reasonable measures are taken to minimize the risk of loss, damage, or theft.

1.21. Subdivision: Has the same meaning pursuant to sections 12-10-501(3)(a) and (3)(b)(I), C.R.S.

1.22. Time Share: Has the same meaning pursuant to section 12-10-501(4), C.R.S.

Note: Chapter 2 – Records, Required Information is repealed in its entirety and the chapter is being renamed **Chapter 2 – Application for Registration** and is re-enacted below.

The following rules will be recodified and be relocated if adopted by the Colorado Real Estate Commission at the rulemaking hearing. The left-hand column indicates the rule as it existed prior to the rulemaking hearing and the right-hand column indicates the rule as it will exist upon adoption and effective date of November 30, 2021.

Prior to the hearing: November 30, 2021 and thereafter:

Rule 2.1.....	Rule 3.4.A.
Rule 2.2.....	Rule 2.1.B.
Rule 2.3.....	Rule 2.10.
Rule 2.4.....	repealed
Rule 2.5.....	Rule 3.4.B.
Rule 2.6.....	Rule 3.1.
Rule 2.7.....	Rule 2.3. and 4.3.
Rule 2.7(m).....	Rule 2.4. and 4.3.
Rule 2.7(n).....	Rule 2.5. and 4.3.
Rule 2.7(o).....	Rule 2.5. and 4.3.

New Rule.....	Rule 2.2.A.
New Rule.....	Rule 2.2.B.
New Rule.....	Rule 2.7.

Chapter 2: ~~Records, Required Information~~

2.1 ~~Records as required by Title 12, Article 10, C.R.S., and rules promulgated by the Commission, may be maintained in electronic format as permitted by Title 24, Article 71.3, C.R.S. such electronic records must be in a format that has the continued capability to be retrieved and legibly printed. The developer must produce printed records upon request of the Commission, or by any principal party to a transaction.~~

2.2 ~~In addition to §12-10-503, C.R.S., the applicant for a developer certificate must provide the Commission with the following information concerning the subdivision(s) to be registered:~~

a. ~~The address or actual physical location of each subdivision from which sales are intended to be made.~~

b. ~~Copies of a recorded deed or other documents evidencing the developer's title or other interest in the subdivision(s) and a title commitment, policy or report, abstract and opinion, or other evidence acceptable to the Commission documenting the condition of such title or interest.~~

- c. ~~Sample copies of contracts of sale, notes, deeds, leases and other legal documents prepared by the developer or an attorney representing the developer which are to be used to effectuate the sale or lease of the subdivision or any part thereof. The Commission may disapprove the form of the documents submitted and may deny an application for registration until such time as the applicant submits such documents in forms that are satisfactory to the Commission.~~
 - d. ~~In compliance with §12-10-503(3)(e), C.R.S., a developer registering a subdivision that incorporates time share use and is subject to one or more blanket encumbrances must submit to the Commission a "Nondisturbance Agreement" by which the holder of each blanket encumbrance against the subdivision agrees that its rights in the subdivision will be subordinate to the rights of the time share use purchasers. From and after the recording of a nondisturbance agreement, the holder of the blanket encumbrance executing the same, such holder's successors and assigns, and any person who acquires all or part of the subdivision through the subject blanket encumbrance, will take the property subject to the rights of the time share use purchasers. Every nondisturbance agreement must contain the covenant of the holder of the blanket encumbrance that such person or any other person acquiring all or part of the subdivision through such blanket encumbrance will not use or cause the subdivision to be used in a manner which would prevent the time share use purchasers from using and occupying the subdivision in a manner contemplated by the time share use plan. any other "trust" or "escrow" arrangement which fully protects the time share use purchasers' interest in the subdivision as contemplated by §12-10-503(3)(e), C.R.S., may be approved by the Commission.~~
 - e. ~~If the developer is other than a natural person, proof of formation and registration in accordance with state and local requirements must accompany the application.~~
 - f. ~~Copies of the recorded declaration, covenants, filed articles of incorporation/organization and bylaws/operating agreement of any homeowners' association.~~
- 2.3 ~~Pursuant to §12-10-502(2), C.R.S., where a developer receives cash or receivables from a purchaser for an uncompleted subdivision, the Commission will register such developer only after:~~
- a. ~~The developer deposits in an escrow account, with an independent escrow agent, all funds and receivables received from purchasers, or~~
 - b. ~~The developer obtains a letter of credit or bond payable to an independent escrow agent or establishes any other financial arrangement acceptable to the Commission, the purpose of which is to ensure completion of subdivision accommodations and facilities and to protect the purchaser's interest in the subdivision accommodations and facilities.~~
- 2.4 ~~A developer must furnish to the Commission such additional information as the Commission deems necessary both during the application process and during the active registration period of the subdivision for the enforcement of §12-10-501, et seq., C.R.S.~~
- 2.5 ~~Developer must maintain all business records related to the subdivision development in a safe and secure manner for a period of at least seven (7) years from the effective date of each such business record.~~
- 2.6 ~~Renewal of the registration and certification as a developer can be executed only on the renewal application provided by the Commission, and must be delivered to the Commission, accompanied by the proper fees, on or before December 31st of each year.~~

2.7 Pursuant to §12-10-506(6)(a), C.R.S., and §12-10-506(7), C.R.S., developer must supply the following information to the Commission in addition to the requirements of §12-10-503, C.R.S., and §12-10-504(4), C.R.S., and prior to contracting with the public must disclose to prospective purchasers in the sales contract or in a separate written disclosure document, the following:

- a. The name and address of the developer and of the subdivision lots or units.
- b. An explanation of the type of ownership or occupancy rights being offered.
- c. A general description of all facilities, amenities and accommodations, together with provisions for and the availability of legal access, roads, sewage disposal, public utilities (including water, electricity, gas, internet and telephone) and other promised facilities in the subdivision. The disclosure must identify and describe the specific amenities promised, the ownership of such amenities, the projected completion date of any amenities not completed, a statement setting forth the type of financial arrangements established in compliance with Rule 2.3, and the allocation of the amenity expense among the developer, the purchaser and any third party.
- d. In compliance with §12-10-505(1)(h), C.R.S., a statement in bold print immediately prior to the purchaser's signature line on the sales contract disclosing the rescission right available to purchasers and that the rescission right cannot be waived; the minimum allowable rescission period in Colorado is five (5) calendar days after execution of the sales contract.
- e. A general description of all judgments and administrative orders issued against the seller, developer, homeowners' association or managing entity which are material to the subdivision development and operational plan.
- f. Any taxes or assessments, existing or proposed, to which the purchaser may be subject or which are unpaid at the time of contracting, including obligations to special taxing authorities or districts.
- g. A statement that sales must be made by brokers licensed by the State of Colorado unless specifically exempted pursuant to §12-10-201(6)(b), C.R.S.; the sales contract must disclose the name of the real estate brokerage firm and the name of the broker establishing a brokerage relationship with the developer.
- h. When a separate document is used to make any of the disclosures required in Rule 2.7 herein, this statement must appear in bold print on the first page of the document and preceding the disclosure: **"the State of Colorado has not prepared or issued this document nor has it passed on the merits of the subdivision described herein."**
- i. A statement that all funds paid by the purchaser prior to delivery of the lease, deed or other instrument purporting to convey any interest in the site, tract, lot, divided or undivided interest from a subdivision will be held in trust by the licensed real estate broker named in the contract or a clear statement specifically setting forth who such funds will be delivered to, when such delivery will occur, the use of said funds, and whether or not there is any restriction on the use of such funds. (This must be disclosed in the contract.)
- j. Where a deed is issued, a statement that, immediately following the date of closing, the purchaser's deed will be delivered to the appropriate county Clerk and Recorder's office for recording, or a clear statement specifically setting forth when such delivery and recording of the deed will occur; for the purposes of this rule, the date of closing is defined as the date the purchaser has either paid the full cash purchase price or has

~~made partial cash payment and executed a promissory note or other evidence of indebtedness for the balance of the purchase price. (See Rule 4.7) (This must be disclosed in the contract.)~~

k. ~~A statement that a title insurance policy will be delivered at no expense to the purchaser within sixty (60) calendar days following recording of the deed or the closing, whichever is earlier, unless specifically agreed to the contrary by the parties in the contracting instrument. (See Rule 4.8) (This must be disclosed in the contract.)~~

l. ~~A contract which requires the execution of a promissory note or other evidence of indebtedness that accrues interest or requires payments prior to the recording of a deed, will be deemed to be an installment contract pursuant to §12-10-503(3)(g), C.R.S. where an installment contract is used:~~

1. ~~Whether or not the purchaser's deed is escrowed with an independent escrow agent and if so, the name and address of the escrow agent. (This must be disclosed in the contract.);~~

2. ~~The amount of any existing encumbrance(s), the name and address of the encumbrancer, and the conditions, if any, under which a purchaser may cure a default caused by non payment;~~

3. ~~A clear statement that a default on any underlying encumbrance(s) could result in the loss of the purchaser's entire interest in the property;~~

4. ~~A clear statement advising the purchaser to record the installment contract; and~~

5. ~~Pursuant to §12-10-503(3)(e), C.R.S., an agreement by which the holder of any blanket encumbrance against the subdivision agrees that its rights and the rights of its successors or assigns in the subdivision will be subordinate to the rights of purchasers, or any other "trust", "escrow" or release arrangement which fully protects the purchasers' interest in the subdivision.~~

m. ~~If the subdivision has a homeowners' or similar association:~~

1. ~~Whether membership in such association is mandatory;~~

2. ~~An estimate of association dues and fees which are the responsibility of the purchaser and the developer, respectively;~~

3. ~~A description of the services and amenities provided by the association;~~

4. ~~Whether the developer has voting control of the association and the manner in which such control can or will be transferred; and~~

5. ~~Whether the developer has any financial interest in or will potentially derive any income or profit from such association, including the developer's right to borrow or authorize borrowing from the association.~~

n. ~~In addition to the disclosures in (a) through (m) above, if time share sales are to be made from a subdivision:~~

1. ~~A description of the time share units including the number of time share units, the length, type and number of time share interests in each unit, and the time share periods constituting the time share plan;~~

- ~~2. The name and business address of the managing entity appointed by the developer or homeowners' association, a description of the services that the managing entity will provide, a statement as to whether the developer has any financial interest in or will potentially derive any income or profit from such managing entity, and the manner, if any, by which the purchaser or developer may change the managing entity or transfer the control of the managing entity;~~
 - ~~3. An estimate of the dues, maintenance fees, real property taxes and similar periodic expenses which are the responsibility of the purchaser and the developer, respectively, and a general statement of the conditions under which future charges, changes or additions may be imposed. Such estimate must include a statement as to whether a maintenance reserve fund has been or will be established; the manner in which such reserve fund is financed; an accounting of any outstanding obligations either in favor of or against the fund; the developer's right to borrow or authorize borrowing from the fund; and the method of periodic accounting which will be provided to the purchaser;~~
 - ~~4. A description of any insurance coverage(s) provided for the benefit of purchasers; and~~
 - ~~5. That mechanic's liens law may authorize enforcement of the lien by selling the entire time share unit.~~
- ~~e. In addition to the disclosures in (a) through (n) above, if time share sales are to be made from a subdivision:~~
- ~~1. The specific term of the contract to use and what will happen to a purchaser's interest upon termination of said contract;~~
 - ~~2. A statement as to the effect a voluntary sale, by the developer to a third party, will have on the contractual rights of time share owners;~~
 - ~~3. A statement that an involuntary transfer by bankruptcy of the developer may have a negative effect on the rights of the time share owners; and~~
 - ~~4. A statement that a Federal or State tax lien could be enforced against the developer by compelling the sale of the entire subdivision.~~
- ~~p. If time shares are to be sold from a subdivision which: (1) contains two or more component sites situated at different geographic locations or governed by separate sets of declarations, by laws or equivalent documents; and (2) does not include a guaranteed, recurring right of use or occupancy at a single component site:~~
- ~~1. For each component site, the information and disclosures required by Rule 2.7 (a) through (e);~~
 - ~~2. A general description of the subdivision;~~
 - ~~3. For each term of usage or interest offered for sale, the total annual number of available daily use periods within the entire subdivision and within each component site for that term, regardless of whether such use periods are offered to a purchaser by days, weeks, points or otherwise, and a calculation represented on a chart or grid showing each component site's annual daily use periods as a percentage of the entire subdivision's annual daily use periods;~~

4. ~~A clear description in the sales contract of the interest and term of usage being purchased and a definite date of termination of the purchaser's interest in the subdivision, which date will be not later than the termination date of the subdivision's interest in a specifically identified component site;~~
5. ~~A clear disclosure and description of any component site which is not legally guaranteed to be available for the purchaser's use for the full term of the purchaser's usage interest;~~
6. ~~The system and method in place to assure maintenance of no more than a one-to-one ratio of purchasers' use rights to the number of total use rights in the subdivision for each term of usage being offered for sale, including provisions for compensation to purchasers resulting from destruction of a component site or loss of use rights to any component site;~~
7. ~~Whether the developer maintains any type of casualty insurance for the component sites in addition to that maintained by the site's homeowners' association or other interested parties, including the manner of disposition of any proceeds of such insurance resulting from the destruction or loss of use rights to any component site;~~
8. ~~A description of the system or program by which a purchaser obtains a recurring right to use and occupy accommodations and facilities in any component site through use of a reservation system or otherwise, including any restrictions on such rights or any method by which a purchaser is denied an equal right with all other users to obtain the use of any accommodation in the subdivision;~~
9. ~~A description of the management and ownership of such reservation system or program, whether through the developer, a homeowners' association, a club or otherwise, including the purchaser's direct or indirect ownership interest or rights of control in such reservation system;~~
10. ~~Whether the developer, club or association which controls the reservation system or any other person has or is granted any interest in unsold, non-reserved or unused use rights and whether the developer, club, association or other person may employ such rights to compete with purchasers for use of accommodations in the subdivision or any component site and, if so, the nature and specifics of those rights, including the circumstances under which they may be employed;~~
11. ~~The method and frequency of accounting for any income derived from unsold, non-reserved or unused use rights in which the purchaser, either directly or indirectly, has an interest;~~
12. ~~The system and method in place, including business interruption insurance or bonding, to provide secure back-up or replacement of the reservation system in the event of interruption, discontinuance or failure;~~
13. ~~The amount and details of any component site, reservation system or other periodic expense required to be paid by a purchaser, the name of the person or entity to which such payments will be made, and the method by which the purchaser will receive a regular periodic accounting for such payments;~~
14. ~~If component site expenses are included in those periodic payments made by a purchaser, a statement for each component site from the homeowners' association or other responsible entity acknowledging that payment of such~~

~~expenses as taxes, insurance, dues and assessments are current and are being made in the name of the subdivision;~~

- ~~15. Evidence that an escrow system with an independent escrow agent is in place for receipt and disbursement of all moneys collected from purchasers that are necessary to pay such expenses as taxes, insurance and common expenses and assessments owing to component site homeowners' associations or others, or a clear description of the method by which such funds will be paid, collected, held, disbursed and accounted for;~~
- ~~16. A clear statement in the sales contract as to whether a purchaser's rights, interests or terms of usage for any component site within the subdivision can subsequently be modified from those terms originally represented and a description of the method by which such modification may occur;~~
- ~~17. If the subdivision documents allow additions or substitutions of accommodations or component sites, a clear description of the purchaser's rights and obligations concerning such additions or substitutions and the method by which such additions or substitutions will comply with the provisions of this rule; and~~
- ~~18. A clear description of any existing incidental benefits or amenities which are available to the purchaser at the time of sale but to which the purchaser has no guaranteed right of recurring use or enjoyment during the purchaser's full term of interest in the subdivision.~~

Chapter 2: Application for Registration

2.1. Registration Requirements for an Initial Developer's Certificate

A. If an Applicant is:

1. A corporation, a director or an authorized officer must apply on behalf of said corporation.
2. A partnership or limited partnership, one of the general partners must apply on behalf of the partnership or limited partnership.
3. A joint owner of the Subdivision, such owner may apply on behalf of all joint owners of such Subdivision.
4. A limited liability company, one of the managers or member-managers must apply on behalf of the company.
5. With respect to any other type of Developer that is other than a natural person, a person authorized to act on behalf of such entity, as demonstrated by such documents in a form satisfactory to the Commission, will apply on behalf of that entity.

B. In addition to section 12-10-503, C.R.S., the Applicant for a Developer Certificate must provide the Commission with the following information concerning each Subdivision to be registered:

1. The address or actual physical location of each Subdivision from which sales are intended to be made;

2. Copies of a recorded deed or other documents evidencing the Developer's title or other interest in the Subdivision and a title commitment, policy or report, abstract and opinion, or other evidence acceptable to the Commission documenting the condition of such title or interest;
 3. Sample copies of the Consumer Agreement, notes, deeds, and other legal documents prepared by the Developer or an attorney representing the Developer which are to be used to effectuate the sale or lease of the Subdivision or any part thereof. The Commission may disapprove the form of the documents submitted and may deny an application for registration until such time as the Applicant submits such documents in forms that are satisfactory to the Commission;
 4. In compliance with section 12-10-503(3)(e), C.R.S., a Developer registering a Subdivision that incorporates Time Share use and is subject to one or more blanket encumbrances must submit to the Commission a Nondisturbance Agreement by which the holder of each blanket encumbrance against the Subdivision agrees that its rights in the Subdivision will be subordinate to the rights of the time share use purchasers. From and after the recording of a Nondisturbance Agreement, the holder of the blanket encumbrance executing the same, such holder's successors and assigns, and any person who acquires all or part of the Subdivision through the subject blanket encumbrance, will take the property subject to the rights of the Time Share use purchasers. Every Nondisturbance Agreement must contain the covenant of the holder of the blanket encumbrance that such person or any other person acquiring all or part of the Subdivision through such blanket encumbrance will not use or cause the Subdivision to be used in a manner which would prevent the Time Share use purchasers from using and occupying the Subdivision in a manner contemplated by the Time Share use plan. Any other trust or escrow arrangement which fully protects the Time Share use purchasers' interest in the Subdivision as contemplated by section 12-10-503(3)(e), C.R.S., may be approved by the Commission;
 5. If the Developer is other than a natural person, proof of formation and registration in accordance with state and local requirements must accompany the Application; and
 6. Copies of the recorded declaration of the Subdivision.
- C. Copies of required information and disclosures as set forth in Rules 2.3., 2.4., 2.5., and 2.6. as applicable.
- D. Registration of Developers Regulated in Another State

Pursuant to section 12-10-503(1), C.R.S., the Commission in its sole discretion may accept an Equivalency Filing from a Developer as an application for a Developer Certificate. The Developer may be deemed to have fully or partially satisfied, and be in compliance with, sections 12-10-503(2) and 12-10-503(3), C.R.S., and Rules 2.1(B), 2.3., 2.4., 2.5., 2.6., 4.2., and 4.3. as determined by the Commission.

2.2. Addition of a Subdivision to an Existing Developer Certificate

A Developer may add an additional Subdivision to an existing Developer Certificate by completing the Division created supplemental application and submitting the following information:

- A. The Developer must provide the information pursuant to section 12-10-503(3), C.R.S., and Rules 2.1(B), 2.3., 2.4., 2.5., and 2.6. as applicable; or

B. In connection with an Equivalency Filing, the Developer must provide the information that was required at time of initial registration as set forth in Rule 2.1(D), as applicable.

2.3. Copies of Written Disclosures

Pursuant to sections 12-10-506(6)(a), C.R.S., and 12-10-506(7), C.R.S., the Developer must supply the following information to the Commission in addition to the required information set forth in Rule 2.1 and prior to contracting with the public must disclose this information to prospective purchasers in the Consumer Agreement or in a separate written disclosure document:

A. The name and address of the Developer and of the Subdivision lots or units.

B. An explanation of the type of ownership or occupancy rights being offered.

C. A general description of all facilities, amenities and accommodations. As applicable for any uncompleted Subdivision, the Developer must also supply the provisions for and the availability of legal access, roads, sewage disposal, public utilities (including water, electricity, gas, internet and telephone) and other promised facilities in the Subdivision. The disclosure must identify and describe the specific amenities promised, the ownership of such amenities, the projected completion date of any amenities not completed, a statement setting forth the type of financial arrangements as set forth in Rule 2.10.A., and the allocation of the amenity expense among the Developer, the purchaser and any third party.

D. In compliance with section 12-10-505(1)(h), C.R.S., a statement in bold print immediately prior to the purchaser's signature line on the Consumer Agreement disclosing the rescission right available to purchasers and that the rescission right cannot be waived; the minimum allowable rescission period in Colorado is five (5) Days after execution of the Consumer Agreement.

E. A general description of all judgments and administrative orders issued against the seller, Developer, homeowners' association or managing entity which are material to the Subdivision development and operational plan.

F. Any taxes or assessments, existing or proposed, to which the purchaser may be subject, or which are unpaid at the time of contracting, including obligations to special taxing authorities or districts.

G. A statement that sales must be made by brokers licensed by the State of Colorado unless specifically exempted pursuant to section 12-10-201(6)(b), C.R.S.; the Consumer Agreement must disclose the name of the real estate brokerage firm and the name of the broker establishing a brokerage relationship with the Developer.

H. When a separate document is used to make any of the disclosures as set forth in this Rule and Rules 2.4., 2.5., and 2.6., this statement must appear in bold print on the first page of the document and preceding the disclosure: **"The Colorado Real Estate Commission has not prepared or issued this document nor has it passed on the merits of the subdivision described herein."**

I. A statement that all funds paid by the purchaser prior to delivery of the lease, deed or other instrument purporting to convey any interest in the site, tract, lot, divided or undivided interest from a Subdivision will be held in trust by the licensed real estate broker named in the Consumer Agreement, or a clear statement specifically setting forth who such funds will be delivered to, when such delivery will occur, the use of said funds, and whether or not there is any restriction on the use of such funds.

J. Where a deed is issued, a statement that, immediately following the date of closing, the purchaser's deed will be delivered to the appropriate county Clerk and Recorder's office for recording, or a clear statement specifically setting forth when such delivery and recording of the deed will occur; for the purposes of this Rule, the date of closing is defined as the date the purchaser has either paid the full cash purchase price or has made partial cash payment and executed a promissory note or other evidence of indebtedness for the balance of the purchase price. A statement that a title insurance policy will be delivered at no expense to the purchaser within sixty (60) Days following recording of the deed or the closing, whichever is earlier, unless specifically agreed to the contrary by the parties in the contracting instrument.

K. A Consumer Agreement which requires the execution of a promissory note or other evidence of indebtedness that accrues interest or requires payments prior to the recording of a deed, will be deemed to be an installment contract pursuant to section 12-10-503(3)(g), C.R.S. where an installment contract is used:

1. A statement whether or not the purchaser's deed is escrowed with an independent escrow agent and if so, the name and address of the escrow agent;
2. The amount of any existing encumbrance(s), the name and address of the encumbrancer, and the conditions, if any, under which a purchaser may cure a default caused by non-payment;
3. A clear statement that a default on any underlying encumbrance(s) could result in the loss of the purchaser's entire interest in the property;
4. A clear statement advising the purchaser to record the installment contract; and
5. Pursuant to section 12-10-503(3)(e), C.R.S., an agreement by which the holder of any blanket encumbrance against the Subdivision agrees that its rights and the rights of its successors or assigns in the Subdivision will be subordinate to the rights of purchasers, or any other trust, escrow or release arrangement which fully protects the purchasers' interest in the Subdivision.

2.4. Copies of Written Disclosures If the Subdivision Has a Homeowners' or Similar Association

- A. Whether membership in such association is mandatory;
- B. An estimate of association dues and fees which are the responsibility of the purchaser and the Developer, respectively;
- C. A description of the services and amenities provided by the association;
- D. Whether the Developer has voting control of the association and the manner in which such control can or will be transferred; and
- E. Whether the Developer has any financial interest in or will potentially derive any income or profit from such association, including the Developer's right to borrow or authorize borrowing from the association.

2.5. Copies of Written Disclosure If Time Share Sales are to be Made from a Subdivision:

- A. Information and disclosures as set forth in Rules 2.3. and 2.4.;

- B. A description of the Time Share units including the number of Time Share units, the length, type and number of Time Share interests in each unit, and the Time Share periods constituting the Time Share plan;
- C. The name and business address of the managing entity appointed by the Developer or homeowners' association, a description of the services that the managing entity will provide, a statement as to whether the Developer has any financial interest in or will potentially derive any income or profit from such managing entity, and the manner, if any, by which the purchaser or Developer may change the managing entity or transfer the control of the managing entity;
- D. An estimate of the dues, maintenance fees, real property taxes and similar periodic expenses which are the responsibility of the purchaser and the Developer, respectively, and a general statement of the conditions under which future charges, changes or additions may be imposed. Such estimate must include a statement as to whether a maintenance reserve fund has been or will be established; the manner in which such reserve fund is financed; an accounting of any outstanding obligations either in favor of or against the fund; the Developer's right to borrow or authorize borrowing from the fund; and the method of periodic accounting which will be provided to the purchaser;
- E. A description of any insurance coverage(s) provided for the benefit of Time Share owners;
- F. A statement that mechanic's liens law may authorize enforcement of the lien by selling the entire Time Share unit;
- G. A statement on whether the Time Share interest is perpetual or for a term of years and, if for a term of years, the length and expected termination date of the term;
- H. A statement as to the effect a voluntary sale, by the Developer to a third party, will have on the contractual rights of Time Share owners;
- I. A statement that an involuntary transfer by bankruptcy of the Developer may have a negative effect on the rights of the Time Share owners; and
- J. A statement that a Federal or State tax lien could be enforced against the developer by compelling the sale of the entire Subdivision.

2.6. Copies of Written Disclosures If Time Shares are to be Sold from a Subdivision Which: Contains Two (2) or More Component Sites Situated at Different Geographic Locations or Governed by Separate Sets of Declarations, By-Laws or Equivalent Documents; and Does Not Include a Guaranteed, Recurring Right of Use or Occupancy at a Single Component Site:

- A. For each component site, the information and disclosures as set forth in Rules 2.3., 2.4., and 2.5.;
- B. A general description of the Subdivision;
- C. A clear description in the Consumer Agreement of the interest and term of usage being purchased and a definite date of termination of the purchaser's interest in the Subdivision, which date will be not later than the termination date of the Subdivision's interest in a specifically identified component site;
- D. A clear disclosure and description of any component site which is not legally guaranteed to be available for the purchaser's use for the full term of the purchaser's usage interest;

- E. The system and method in place to assure maintenance of no more than a one- to-one ratio of purchasers' use rights to the number of total use rights in the Subdivision for each term of usage being offered for sale, including provisions for compensation to purchasers resulting from destruction of a component site or loss of use rights to any component site;
- F. A description of the system or program by which a purchaser obtains a recurring right to use and occupy accommodations and facilities in any component site through use of a reservation system or otherwise, including any restrictions on such rights or any method by which a purchaser is denied an equal right with all other users to obtain the use of any accommodation in the Subdivision;
- G. A description of the management and ownership of such reservation system or program, whether through the Developer, a homeowners' association, a club or otherwise, including the purchaser's direct or indirect ownership interest or rights of control in such reservation system;
- H. Whether the Developer, club or association which controls the reservation system or any other person has or is granted any interest in unsold, non-reserved or unused use rights and whether the Developer, club, association or other person may employ such rights to compete with purchasers for use of accommodations in the Subdivision or any component site and, if so, the nature and specifics of those rights, including the circumstances under which they may be employed;
- I. The method and frequency of accounting for any income derived from unsold, non-reserved or unused use rights in which the purchaser, either directly or indirectly, has an interest;
- J. The system and method in place, including business interruption insurance or bonding, to provide secure back-up or replacement of the reservation system in the event of interruption, discontinuance or failure;
- K. The amount and details of any component site, reservation system or other periodic expense required to be paid by a purchaser, the name of the person or entity to which such payments will be made, and the method by which the purchaser will receive a regular periodic accounting for such payments;
- L. If component site expenses are included in those periodic payments made by a purchaser, a statement for each component site from the homeowners' association or other responsible entity acknowledging that payment of such expenses as taxes, insurance, dues and assessments are current and are being made in the name of the Subdivision;
- M. Evidence that an escrow system with an independent escrow agent is in place for receipt and disbursement of all moneys collected from purchasers that are necessary to pay such expenses as taxes, insurance and common expenses and assessments owing to component site homeowners' associations or others, or a clear description of the method by which such funds will be paid, collected, held, disbursed and accounted for;
- N. A clear statement as to whether a purchaser's rights, interests or terms of usage for any component site within the Subdivision can subsequently be modified from those terms originally represented and a description of the method by which such modification may occur;
- O. If the Subdivision documents allow additions or substitutions of accommodations or component sites, a clear description of the purchaser's rights and obligations concerning such additions or substitutions and the method by which such additions or substitutions will comply with the provisions of this rule; and

P. A clear description of any existing incidental benefits or amenities which are available to the purchaser at the time of sale but to which the purchaser has no guaranteed right of recurring use or enjoyment during the purchaser's full term of interest in the Subdivision.

2.7. Invalid Payment

If the Fees accompanying any Application made to the Commission are paid for by check and the check is not immediately paid upon presentment to the bank upon which the check was drawn, or if payment is submitted in any other manner and payment is denied, rescinded or returned as invalid, the application will be deemed incomplete and canceled. The application may be reinstated only at the discretion of the Commission and upon full payment of any Fees together with payment of the fee required by state fiscal rules for the clerical services necessary for reinstatement.

2.8. Review of Application for Completeness

If the Commission requires additional information, the Commission will give written notice of the information so required and will allow an additional sixty (60) Days to present such material before denial of the application, which period may be extended only upon a showing of good cause.

2.9. Issuance of a Developer Certificate or the Addition of a Subdivision

The Commission will issue or deny registration of a Developer Certificate or approve or deny the addition of a Subdivision within sixty (60) Days from the date of receipt of the Deemed Complete application by the Commission.

2.10. Offering Reservations during the Pendency of the Application

A. Pursuant to section 12-10-502(2), C.R.S., where a Developer receives cash or receivables from a purchaser for an uncompleted Subdivision, the Commission will register such Developer only after:

1. The Developer deposits in an escrow account, with an independent escrow agent, all funds and receivables received from purchasers, or
2. The Developer obtains a letter of credit or bond payable to an independent escrow agent, payment or performance bond, or establishes any other financial arrangement acceptable to the Commission, the purpose of which is to ensure completion of Subdivision accommodations and facilities and to protect the purchaser's interest in the Subdivision accommodations and facilities.

B. All approvals for the use of Reservation Agreements issued as set forth in this rule will expire on December 31 following the date of issuance.

Note: *Chapter 3 – Timeshare - Additional Information and Disclosures is repealed in its entirety and the chapter is being renamed **Chapter 3 – Registration and Certification** and is re-enacted below.*

The following rules will be recodified and be relocated if adopted by the Colorado Real Estate Commission at the rulemaking hearing. The left-hand column indicates the rule as it existed prior to the rulemaking hearing and the right-hand column indicates the rule as it will exist upon adoption and effective date of November 30, 2021.

Chapter 3: — Timeshare — Additional Information and Disclosures

- 3.1 — ~~A developer of time share must disclose to the public whether or not a time share plan involves an exchange program and, if so, will disclose and deliver to prospective purchasers, a separate written document, which may be provided by an exchange company if the document discloses the following information:~~
- a. — ~~The name and the business address of the exchange company;~~
 - b. — ~~Whether the purchaser's contract with the exchange program is separate and distinct from the purchaser's contract with the developer;~~
 - c. — ~~Whether the purchaser's participation in the exchange program is dependent upon the developer's continued affiliation with the exchange program;~~
 - d. — ~~Whether or not the purchaser's participation in the exchange program is voluntary;~~
 - e. — ~~The specific terms and conditions of the purchaser's contractual relationship with the exchange program and the procedure by which changes, if any, may be made in the terms and conditions of such contractual relationship;~~
 - f. — ~~The procedure of applying for and effecting any changes;~~
 - g. — ~~A complete description of all limitations, restrictions, accrual rights, or priorities employed in the operation of the exchange program, including but not limited to limitations on exchanges based on seasonality, unit size, or levels of occupancy; and if the limitations, restrictions or priorities are not applied uniformly by the exchange program, a complete description of the manner of their application;~~
 - h. — ~~Whether exchanges are arranged on a space available basis or whether guarantees of fulfillment of specific requests for exchanges are made by the exchange company;~~
 - i. — ~~Whether and under what conditions a purchaser may, in dealing with the exchange program, lose the use and occupancy of the time share period in any properly applied for exchange without being offered substitute accommodations by the exchange program;~~
 - j. — ~~The fees for participation in the exchange program, and whether the fees may be altered and the method of any altering; and~~
 - k. — ~~The name and location of each accommodation or facility, including the time sharing plans participating in the exchange program.~~

Chapter 3: Registration and Certification

3.1. Renewal of the Registration and Certification

Renewal of the registration and certification as a Developer can be executed only on the renewal application provided by the Commission, and must be delivered to the Commission, accompanied by the proper Fees, on or before December 31 of each year.

3.2. Licensed Real Estate Brokers

The registration and certification of a Developer under Title 12, Article 10, Part 5, C.R.S., does not exempt the Developer from the requirements for the licensing of real estate brokers under Title 12, Article 10, Part 1, C.R.S. Exemptions from the licensing of real estate brokers are made pursuant to section 12-10-201(6)(b), C.R.S.

3.3. Change in Principal Office

Notification in writing must be made to the Commission within ten (10) Days of any change in the principal office address of the Developer or the natural person, or any other change in the information submitted pursuant to section 12-10-503, C.R.S.

3.4. Records

- A. Records as required by Title 12, Article 10, C.R.S., and these rules, may be maintained as an Electronic Record so long as the Electronic Records are in a format that has the continued capability to be retrieved and legibly printed. The Developer must produce printed records upon request of the Commission, or by any principal party to a transaction.
- B. Developer must maintain all Business Records related to the Subdivision development in a Safe and Secure Manner for a period of seven (7) years from the effective date of each such Business Record.

3.5. Revisions to Documents

A Developer is not required to file amendments to its registration filed with the Commission when revisions are made to documents previously submitted to the Commission, so long as the revised documents continue to:

- A. Comply with Title 12, Article 10, Part 5, C.R.S., and these rules; and
- B. Accurately reflect the Subdivision offering.

3.6. Duty to Disclose the Following Events:

- A. Notwithstanding Rule 3.5., a Developer must provide the Commission with notice of the following events within ten (10) Days after such event, unless otherwise provided below:
 - 1. Any change in the information provided in the registration pursuant to sections 12-10-503(2)(a)(III), (V), (VI) or (VII), C.R.S.;
 - 2. Any change in the terms of any Nondisturbance Agreement(s) or partial release provisions in connection with any documents previously submitted to the Commission pursuant to section 12-10-503(3)(e), C.R.S., and Rule 2.1.B.4.;
 - 3. Any new lien encumbering the Subdivision or any part thereof other than encumbrances created or permitted by purchasers;
 - 4. The termination or transfer of any escrow account, letter of credit, bond, or other financial assurance approved by the Commission as set forth in Rule 2.10.; notice of which must be filed with the Commission prior to the effective date of such termination or transfer;
 - 5. Cancellation, revocation, suspension, or termination of the Developer's activity or authority to do business in the State of Colorado; and

6. Any material pending legal proceeding filed against the Developer in connection with the Subdivision affecting the Developer's ability:

- a. To convey marketable title of the registered Subdivision or any interest therein, or
- b. To perform the Developer's obligations in connection with the registered Subdivision.

B. Notification under this Rule must be provided on a form approved by the Commission. The Developer will have a period of ten (10) Days after receipt of notice to take such action as may be required by the Commission in connection with any filings made under this Rule.

C. Within ten (10) Days after receipt of a written request from the Commission, a Developer will have the duty to provide to the Commission copies of all documents then in use with regard to the Subdivision.

Note: Chapter 4 – Miscellaneous Provisions, Additional Information is repealed in its entirety and the chapter is being renamed **Chapter 4 – Professional Standards** and is re-enacted below.

The following rules will be recodified and be relocated if adopted by the Colorado Real Estate Commission at the rulemaking hearing. The left-hand column indicates the rule as it existed prior to the rulemaking hearing and the right-hand column indicates the rule as it will exist upon adoption and effective date of November 30, 2021.

Prior to the hearing: November 30, 2021 and thereafter:

Rule 4.1.....	Rule 2.10.B.
Rule 4.2.....	Rule 4.9.B.
Rule 4.3.....	Rule 4.6.
Rule 4.4.....	Rule 3.5.
Rule 4.5.....	Rule 3.6.
Rule 4.6.....	Rule 4.4.B.

Rule 4.8.....	Rule 4.7.B. and 4.7.C.
Rule 4.9.....	Rule 4.7.A.
Rule 4.10.....	Rule 4.4.A.
Rule 4.11.....	Rule 4.2.

Chapter 4: — Miscellaneous Provisions, Additional Information

- ~~4.1 — All approvals for the use of reservation agreements issued pursuant to §12-10-502(2), C.R.S., will expire on December 31st following the date of issuance. Approval will be renewed, except as provided in section §12-10-505, C.R.S., by payment of a renewal fee established pursuant to section §12-10-215, C.R.S., and upon submission and acceptance of a renewal application.~~
- ~~4.2 — Upon request of the Commission pursuant to an investigation, a developer will file with the Commission an audited financial statement in conformity with accepted accounting principles, and sworn to by the developer as an accurate reflection of the financial condition of the developer and/or the homeowners' association controlled by the developer.~~
- ~~4.3 — Any adverse order, judgment, or decree entered in connection with the subdivided lands by any regulatory authority or by any court of appropriate jurisdiction must be filed with the Commission by the developer within thirty (30) calendar days of such order, judgment or decree being final.~~

~~4.4 — A developer is not required to file amendments to its registration filed with the Commission when revisions are made to documents previously submitted to the Commission, so long as the revised documents continue to: (a) comply with Title 12, Article 10, Part 5, C.R.S., and the rules and regulations promulgated thereunder; and (b) accurately reflect the subdivision offering.~~

~~4.5 — Notice of Events:~~

~~a. — Notwithstanding Rules 4.3 and 4.4 above, and in addition to the notice requirements under Rule 1.6, developer must provide the Commission with notice of the following events within ten (10) calendar days after such event, unless otherwise provided below:~~

- ~~1. — Any change in the information provided in the registration pursuant to Sections §12-10-503(2)(a)(III), (V), (VI) or (VII), C.R.S.;~~
- ~~2. — Any change in the terms of any non-disturbance agreement(s) or partial release provisions in connection with any documents previously submitted to the Commission pursuant to section §12-10-503(3)(e), C.R.S., and Rule 2.2(d);~~
- ~~3. — Any new lien encumbering the subdivision or any part thereof other than encumbrances created or permitted by purchasers;~~
- ~~4. — The termination or transfer of any escrow account, letter of credit, bond, or other financial assurance approved by the Commission pursuant to Rule 2.3; notice of which must be filed with the Commission prior to the effective date of such termination or transfer;~~
- ~~5. — Cancellation, revocation, suspension, or termination of the developer's activity or authority to do business in the State of Colorado; and~~
- ~~6. — Any lis pendens, lawsuit or other proceeding filed against the subdivision or developer affecting the developer's ability: (a) to convey marketable title of the registered subdivision or any interest therein, or (b) to perform the developer's obligations in connection with the registered subdivision.~~

~~b. — Notification under this rule must be provided on a form approved by the Commission. The developer will have a period of ten (10) calendar days after receipt of notice to take such action as may be required by the Commission in connection with any filings made under this rule.~~

~~c. — Within ten (10) calendar days after receipt of a written request from the Commission, a developer will have the duty to provide to the Commission copies of all documents then in use with regard to the subdivision.~~

~~4.6 — No developer will make misrepresentations regarding the future availability or costs of services, utilities, character, or use of real property for sale or lease of the surrounding area of the subdivision.~~

~~4.7 — Delivery of Deed:~~

~~a. — Unless a sale is by means of an installment contract, the delivery of a deed must be made within sixty (60) calendar days after closing. For the purposes of this rule, the date of closing is defined as the date the purchaser has either paid the full cash purchase price or has made partial cash payment and executed a promissory note or other evidence of indebtedness for the balance of the purchase price. (This must be disclosed in the contract.)~~

- b. ~~If a sale is by means of an installment contract, the delivery of a deed must be made within sixty (60) calendar days after the completion of payments.~~
- 4.8 ~~Where the sales contract contemplates the delivery of a deed, an abstract of title or title insurance policy must be delivered within a reasonable time after the completion of payments by a purchaser. Any period of time exceeding sixty (60) calendar days will be deemed unreasonable for the purposes of this rule. The parties may contract to eliminate this requirement, but any such mutually acceptable waiver must be in writing and in a conspicuous manner or print. The presence of waiver on the back of a contract will not be deemed conspicuous for the purposes of this rule.~~
- 4.9 ~~Developer must provide a title insurance commitment or other evidence of title approved by the Commission within a reasonable time after execution of any lease, sales contract or other instrument purporting to convey any interest in the site, tract, lot, divided or undivided interest from a subdivision. Any period of time in excess of sixty (60) calendar days will be deemed unreasonable for the purposes of this rule. The parties may contract to eliminate this requirement, but any such mutually acceptable waiver must be in writing and in a conspicuous manner or print. The presence of waiver on the back of a contract will not be deemed conspicuous for the purposes of this rule.~~
- 4.10 ~~Failure to disclose to the purchaser the availability of legal access, sewage disposal, public utilities, including water, electricity, gas and telephone facilities, in the subdivision offered for sale or lease, including whether such are to be a developer or purchaser expense, when proven, is a violation of §12-10-505(1)(b), C.R.S.~~
- 4.11 ~~Pursuant to §12-10-505(1)(c), C.R.S., §12-10-506(6)(b), C.R.S., and §12-10-506(8), C.R.S., a developer must maintain in a Colorado place of business, and produce for inspection upon reasonable request by an authorized representative of the Commission copies of the following documents and business records:~~
- a. ~~The sales contract, transfer or lease agreement, installment sale agreement, financing agreement, buyer and seller settlement statement, title policy or commitment, trust deed, escrow agreement, and any other documents executed by the parties or on behalf of the developer in the sale, lease or transfer of any interest in a subdivision.~~
- b. ~~Records showing the receipt and disbursement of any money or assets received or paid on behalf of any homeowners' or similar association managed or controlled by a developer.~~

Chapter 4: Professional Standards

4.1. Developer Must Register Prior to Conducting Business

The person, firm, partnership, joint venture, limited liability company, association, corporation or other legal entity, or combination thereof, who will sign as seller or lessor in any Consumer Agreement, deed or any other instrument purporting to convey any site, tract, lot, divided or undivided interest from a Subdivision, must secure a Developer Certificate before negotiating or agreeing to sell, lease or transfer and before any sale, lease or transfer is made. If such person is acting only as a trustee, the beneficial owner of the Subdivision must secure a Developer Certificate.

4.2. Developer Must Maintain Business Records and Produce Upon Request

Pursuant to sections 12-10-505(1)(e), C.R.S., 12-10-506(6)(b), C.R.S., and 12-10-506(8), C.R.S., a Developer must maintain Business Records as set forth in Rule 3.4., and produce for inspection upon reasonable request by an authorized representative of the Commission.

4.3. Disclosures to Prospective Purchasers Prior to Contracting

Pursuant to sections 12-10-506(6)(a), C.R.S., and 12-10-506(7), C.R.S., Developer must supply to prospective purchasers the written disclosures as set forth in Rules 2.3., 2.4., 2.5., and 2.6. prior to contracting with the public and must be disclosed in the Consumer Agreement, or in a separate written disclosure document.

4.4. Developers Must Not Make Misrepresentations or Conceal Material Facts

A. Failure to disclose to the purchaser the availability of legal access, sewage disposal, public utilities, including water, electricity, gas and telephone facilities, in the applicable uncompleted Subdivision offered for sale or lease, including whether such are to be a Developer or purchaser expense, when proven, is a violation of section 12-10-505(1)(b), C.R.S.

B. No Developer will make misrepresentations regarding the future availability or costs of services, utilities, character, or use of real property for sale or lease of the surrounding area of the Subdivision.

4.5. Disclosure of an Exchange Company

A Developer of a Time Share must disclose to the public whether or not a Time Share plan involves an Exchange Program and, if so, will disclose and deliver to prospective purchasers, a separate written document, which may be provided by an exchange company if the document discloses the following information:

A. The name and the business address of the exchange company;

B. Whether the purchaser's contract with the Exchange Program is separate and distinct from the purchaser's contract with the Developer;

C. Whether the purchaser's participation in the Exchange Program is dependent upon the Developer's continued affiliation with the Exchange Program;

D. Whether or not the purchaser's participation in the Exchange Program is voluntary;

E. The specific terms and conditions of the purchaser's contractual relationship with the Exchange Program and the procedure by which changes, if any, may be made in the terms and conditions of such contractual relationship;

F. The procedure of applying for and effecting any changes;

G. A complete description of all limitations, restrictions, accrual rights, or priorities employed in the operation of the Exchange Program, including but not limited to limitations on exchanges based on seasonality, unit size, or levels of occupancy; and if the limitations, restrictions or priorities are not applied uniformly by the Exchange Program, a complete description of the manner of their application;

H. Whether exchanges are arranged on a space-available basis or whether guarantees of fulfillment of specific requests for exchanges are made by the exchange company;

- I. Whether and under what conditions a purchaser may, in dealing with the Exchange Program, lose the use and occupancy of the Time Share period in any properly applied for exchange without being offered substitute accommodations by the Exchange Program;
- J. The fees for participation in the Exchange Program, and whether the fees may be altered and the method of any altering; and
- K. The name and location of each accommodation or facility, including the time sharing plans participating in the Exchange Program.

4.6. Disclosure of Judgment, Decree or Order

Any material adverse order, judgment, or decree entered against Developer in connection with the Subdivision by any regulatory authority or by any court of appropriate jurisdiction, specifically including any order, judgment or decree related to a proceeding under which Developer has a duty to disclose as set forth in Rule 3.6.A.6. but other than ordinary routine litigation incidental to the Developer's business, must be filed with the Commission by the Developer within thirty (30) Days of such order, judgment or decree being final.

4.7. Delivery of an Abstract of Title or Title Insurance

- A. Developer must provide a title insurance commitment or other evidence of title approved by the Commission within a reasonable time after execution of any Consumer Agreement, or other instrument purporting to convey any interest in the site, tract, lot, divided or undivided interest from a Subdivision.
- B. Where the Consumer Agreement contemplates the delivery of a deed, an abstract of title or title insurance policy must be delivered within a reasonable time after the completion of payments by a purchaser.
- C. Any period of time in excess of sixty (60) Days will be deemed unreasonable for the purposes of this Rule. The parties may contract to eliminate this requirement, but any such mutually acceptable waiver must be in writing and in a conspicuous manner or print.

4.8. Delivery of Deed Must be Made within Sixty (60) Days

- A. Unless a sale is by means of an installment contract, the delivery of a deed must be made within sixty (60) Days after closing. For the purposes of this Rule, the date of closing is defined as the date the purchaser has either paid the full cash purchase price or has made partial cash payment and executed a promissory note or other evidence of indebtedness for the balance of the purchase price.
- B. If a sale is by means of an installment contract, the delivery of a deed must be made within sixty (60) Days after the completion of payments.

4.9. Duty to Respond to a Complaint or Audit

- A. Pursuant to section 12-10-505, C.R.S., any Developer who has received written notification from the Commission that a complaint has been filed against the Developer, must submit a written answer to the Commission within a reasonable time as set by the Commission.
- B. Upon request of the Commission pursuant to an investigation or audit notice, a Developer will file with the Commission an audited financial statement in conformity with accepted accounting principles, and sworn to by the Developer as an accurate reflection of the financial condition of the Developer and/or the homeowners' association controlled by the Developer.

C. Failure to submit a written response required by this Rule will be grounds for disciplinary action.

Note: Chapter 5 – Declaratory Orders Pursuant to §24-4-105(11), C.R.S. is repealed in its entirety and the chapter is being renamed **Chapter 5 – Declaratory Orders** and is re-enacted below.

The declaratory order chapter rules were restructured and modified to mirror the Division's other regulatory programs.

Chapter 5: Declaratory Orders Pursuant to §24-4-105(11), C.R.S.

- 5.1 Any person may petition the Commission for a declaratory order to terminate controversies or to remove uncertainties as to the applicability to the petitioner of any statutory provisions or of any rule or order of the Commission.
- 5.2 The Commission will determine, in its discretion and without prior notice to petitioner, whether to entertain any such petition. If the Commission decides that it will not entertain such a petition, the Commission will promptly notify the petitioner in writing of its decision and the reasons for that decision. A copy of the order will be provided to the petitioner.
- 5.3 In determining whether to entertain a petition filed pursuant to this rule, the Commission may consider the following matters, among others:
- a. Whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to petitioner of any statutory provision or rule or order of the Commission.
 - b. Whether the petition involves any subject, question or issue which is the subject of a formal or informal matter or investigation currently pending before the Commission or a court involving any petitioner.
 - c. Whether the petition involves any subject, question or issue which is the subject of a formal or informal matter or investigation currently pending before the Commission or a court but not involving any petitioner.
 - d. Whether the petition seeks a ruling on a moot or hypothetical question or will result in an advisory ruling or opinion.
 - e. Whether the petitioner has some other adequate legal remedy, other than an action for declaratory relief pursuant to Rule 57, Colo. R. Civ. P., which will terminate the controversy or remove any uncertainty as to the applicability to the petitioner of the statute, rule or order in question.
- 5.4 Any petition filed pursuant to this rule must set forth the following:
- a. The name and address of the petitioner and whether the petitioner holds a license or registration issued pursuant to section §12-10-501, et seq., C.R.S. (as amended).
 - b. The statute, rule or order to which the petition relates.
 - c. A concise statement of all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the petitioner.

- d. ~~A concise statement of the legal authorities if any, and such other reasons upon which the petitioner relies.~~
 - e. ~~A concise statement of the declaratory order sought by the petitioner.~~
- 5.5 ~~If the Commission determines that it will rule on the petition, the following procedures will apply:~~
- a. ~~The Commission may rule upon the petition without a hearing. In such case:~~
 - 1. ~~The Commission may dispose of the petition on the sole basis of the matters set forth in the petition.~~
 - 2. ~~The Commission may request the petitioner to submit additional facts in writing. In such event, such additional facts will be considered as an amendment to the petition.~~
 - 3. ~~Any ruling of the Commission will apply only to the extent of the facts presented in the petition and any amendment to the petition.~~
 - 4. ~~The Commission may order the petitioner to file a written brief, memorandum or statement of position based on the facts set forth in the petition and any amendment to the petition.~~
 - 5. ~~The Commission may take administrative notice of facts pursuant to the Administrative Procedures Act, (§24-4-105(8), C.R.S., (as amended)), and may utilize its experience, technical competence and specialized knowledge in the disposition of the petition.~~
 - 6. ~~If the Commission rules upon the petition without hearing, it will promptly notify the petitioner in writing of its decision.~~
 - b. ~~The Commission may, in its discretion, set the petition for hearing, upon due notice to petitioner, for the purpose of obtaining additional facts or information or to determine the truth of any facts set forth in the petition or to hear oral argument on the petition. The notice to the petitioner setting such hearing will set forth, to the extent known, the factual or other matters into which the Commission intends to inquire and whether the hearing will be evidentiary or non-evidentiary in nature. For the purpose of such a hearing, to the extent necessary, the petitioner will have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the petitioner and any other facts the petitioner desires the Commission to consider.~~
- 5.6 ~~The parties to any proceeding pursuant to this rule will be the Commission and the petitioner. Any other person may seek leave of the Commission to intervene in such a proceeding, and leave to intervene will be granted at the sole discretion of the Commission. A petition to intervene must set forth the same matters as required by Rule 5.4. Any reference to a "petitioner" in this rule also refers to any person who has been granted leave to intervene by the Commission.~~
- 5.7 ~~Any declaratory order or other order disposing of a petition pursuant to this rule will constitute agency action subject to judicial review pursuant to §24-4-106, C.R.S., (as amended).~~

Chapter 5: Declaratory Orders

5.1. Petition for a Declaratory Order

Pursuant to section 24-4-105(11), C.R.S., a Petitioner may petition the Commission for a declaratory order to terminate controversies or to remove uncertainties as to the applicability of any statutory provision, rule, or order of the Commission as it would apply to the Petitioner.

5.2. Parties to the Proceedings

The parties to any proceeding as set forth in Chapter 5 of these Rules will be the Commission and the Petitioner. Any other person may seek leave of the Commission to intervene in such a proceeding. Permission to intervene will be granted at the sole discretion of the Commission. A petition to intervene will set forth the same matters as set forth in Rule 5.3.

5.3. Petition Contents

Any petition filed as set forth in Chapter 5 of these Rules will state the following:

- A. The name and address of the Petitioner;
- B. The statute, rule, or order to which the petition relates;
- C. A concise statement of all the facts and law necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule, or order in question applies or potentially applies to the Petitioner; and
- D. The Petitioner may submit a concise statement of the declaratory order sought.

5.4. Commission's Considerations Whether or Not to Rule

The Commission may determine, in its sole discretion and without prior notice to the Petitioner, whether or not to rule upon a petition. In determining whether or not to rule upon a petition filed as set forth in Chapter 5 of these Rules, the Commission may consider the following matters, among others:

- A. Whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to the Petitioner of any statutory provision, rule, or order of the Commission.
- B. Whether the petition involves any subject, question, or issue which is the subject of a formal or informal matter or investigation currently pending before the Commission or a court involving one or more of the Petitioners.
- C. Whether the petition involves any subject, question, or issue which is the subject of a formal or informal matter or investigation currently pending before the Commission or a court not involving the Petitioner.
- D. Whether the petition seeks a ruling on a hypothetical question.
- E. Whether the Petitioner has some other adequate legal remedy, other than an action for declaratory order which will terminate the controversy or remove any uncertainty as to the applicability to the Petitioner of the statute, rule, or order in question.

5.5. Commission Determines Not to Rule

If the Commission determines it will not rule on a petition, the Commission will issue its written decision disposing of the petition, stating the reasons for declining to rule upon the petition. A copy of the decision will be provided to the Petitioner. A decision not to rule on a petition for a declaratory order is not final agency action subject to judicial review.

5.6. Commission Determines to Rule

If the Commission determines that it will rule on the petition:

- A. The Commission may order the Petitioner to file an additional written brief, memorandum, statement of position, or request the Petitioner to submit additional facts or arguments in writing.
- B. The Commission may take administrative notice of facts pursuant to the Administrative Procedure Act, section 24-4-105(8), C.R.S., and may utilize its experience, technical competence, and specialized knowledge when ruling on the petition.
- C. The Commission may set the petition, upon due notice to the Petitioner, for a non-evidentiary hearing.
- D. The Commission may, upon due notice to the Petitioner, set the petition for hearing for the purpose of obtaining additional facts or information, or to determine the truth of any facts set forth in the petition, or to hear oral arguments on the petition. Notice to the Petitioner setting such formal hearing will set forth, to the extent known, the factual or other matters into which the Commission intends to inquire. The Petitioner will have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule, or order in question applies or potentially applies to the Petitioner and any other facts the Petitioner desires the Commission to consider.
- E. Any ruling by the Commission may be based solely on the matters set forth in the petition or may be based on any amendments to the petition, any information gathered by the Commission through a non-evidentiary hearing, formal hearing or otherwise, or any facts the Commission may take administrative notice of. Upon ruling on a petition, the Commission will issue its written order stating its basis for the order. A copy of the order will be provided to the Petitioner.

5.7. Declaratory Orders Subject to Judicial Review

Any declaratory order of a petition as set forth in Chapter 5 of these Rules will constitute agency action subject to judicial review pursuant to section 24-4-106, C.R.S.

Note: *Chapter 6 – Exceptions and Commission Review of Initial Decision is repealed in its entirety and the chapter is being renamed **Chapter 6 – Commission Review of Initial Decision and Exceptions** and is re-enacted below.*

The exceptions and review of initial decision chapter rules were restructured and modified to mirror the Division's other regulatory programs.

~~Chapter 6: Exceptions and Commission Review of Initial Decisions~~

~~6.1 Written Form, Service, and Filing Requirements:~~

- ~~a. All Designations of Record, Requests, Exceptions and Responsive Pleadings ("Pleadings") must be in written form, mailed with a certificate of mailing to the Commission.~~

- b. ~~All Pleadings must be received by the Commission by 5:00 p.m. (MST), on the date the filing is due. Pleadings are considered filed upon receipt by the Commission. These rules do not provide for any additional time for service by mail.~~
- c. ~~All Pleadings must be served on the opposing party by mail or by hand delivery on the date which the Pleadings are filed with the Commission.~~
- d. ~~All Pleadings must be filed with the Commission and not with the Office of Administrative Courts. Any Designations of Record, Requests, Exceptions or Responsive Pleadings filed in error with the Office of Administrative Courts will not be considered. The Commission's address is:~~

~~Colorado Real Estate Commission
1560 Broadway, Suite 925
Denver, Colorado 80202~~

~~6.2 Authority to Review:~~

- a. ~~The Commission hereby preserves the Commission's option to initiate a review of an initial decision on its own motion pursuant to §24-4-105(14)(a)(II) and (b)(III), C.R.S., outside of the thirty (30) day period after service of the initial decision upon the parties without requiring a vote for each case.~~
- b. ~~This option to review will apply regardless of whether a party files exceptions to the initial decision.~~

~~6.3 Designation of Record and Transcripts:~~

- a. ~~Any party seeking to reverse or modify the initial decision of the administrative law judge must file with the Commission a designation of the relevant parts of the record for review ("Designation of Record"). Designations of record must be filed with the Commission within twenty (20) days of the date on which the Commission mails the initial decision to the parties' address of record with the Commission.~~
- b. ~~Within ten (10) days after a party's Designation of Record is due, any other party may file a Supplemental Designation of Record requesting inclusion of additional parts of the record.~~
- c. ~~Even if no party files a Designation of Record, the record will include the following:~~
 - 1. ~~All pleadings;~~
 - 2. ~~All applications presented or considered during the hearing;~~
 - 3. ~~All documentary or other exhibits admitted into evidence;~~
 - 4. ~~All documentary or other exhibits presented or considered during the hearing;~~
 - 5. ~~All matters officially noticed;~~
 - 6. ~~Any findings of fact and conclusions of law proposed by any party; and~~
 - 7. ~~Any written brief filed.~~

d. ~~Transcripts will not be deemed part of a Designation of Record unless specifically identified and ordered. Should a party wish to designate a transcript or portion thereof, the following procedures will apply:~~

1. ~~The Designation of Record must identify with specificity the transcript or portion thereof to be transcribed. For example, a party may designate the entire transcript, or may identify any witness whose testimony is to be transcribed, the legal ruling or argument to be transcribed, or other information necessary to identify a portion of the transcript.~~
2. ~~Any party who includes a transcript or a portion thereof as part of the Designation of Record must order the transcript or relevant portions by the date on which the Designation of Record must be filed (within twenty (20) days of the date on which the Commission mails the initial decision to the parties).~~
3. ~~When ordering the transcript, the party must request a court reporter or transcribing service to prepare the transcript within thirty (30) days. The party must timely pay the necessary fees to obtain and file with the Commission an original transcription and one copy within thirty (30) days.~~
4. ~~The party ordering the transcript will direct the court report or transcribing service to complete and file with the Commission the transcript and one copy of the transcript within thirty (30) days.~~
5. ~~If a party designates a portion of the transcript, the opposing party may also file a Supplemental Designation of Record, in which the opposing party may designate additional portions of the transcript.~~
6. ~~An opposing party filing a Supplemental Designation of Record designating additional portions of the transcript must order and pay for such transcripts or portions thereof within the deadlines set forth above. An opposing party must also cause the court reporter to complete and file with the Commission the transcript and one copy of the transcript within thirty (30) days.~~
7. ~~Transcripts that are ordered and not filed with the Commission in a timely manner by the reporter or the transcription service due to non-payment, insufficient payment or failure to direct as set forth above will not be considered by the Commission.~~

6.4 ~~Filing of Exceptions and Responsive Pleadings:~~

a. ~~Any party wishing to file exceptions must adhere to the following timelines:~~

1. ~~If no transcripts are ordered, exceptions are due within thirty (30) days from the date on which the Commission mails the initial decision to the parties. Both parties' exceptions are due on the same date.~~
2. ~~If transcripts are ordered by either party, the following procedure will apply. Upon receipt of all transcripts identified in all Designations of Record and Supplemental Designations of Record, the Commission will mail notification to the parties stating that the transcripts have been received by the Commission. Exceptions are due within thirty (30) days from the date on which such notification is mailed. Both parties' exceptions are due on the same date.~~

- ~~b. Either party may file a responsive pleading to the other party's exceptions. All responsive pleadings must be filed within ten (10) days of the date on which the exceptions were filed with the Commission. No other pleadings will be considered except for good cause shown.~~
- ~~c. The Commission may in its sole discretion grant an extension of time to file exceptions or responsive pleadings, or may delegate the discretion to grant such an extension of time to the Commission's designee.~~

~~6.5 Request for Oral Argument:~~

- ~~a. All requests for oral argument must be in writing and filed by the deadline for responsive pleadings.~~
- ~~b. It is within the sole discretion of the Commission to grant or deny a request for oral argument. If oral argument is granted, both parties will have the opportunity to participate.~~
- ~~c. If a request for oral argument is granted, each side will be permitted ten (10) minutes of oral argument unless such time is extended by the Commission or its designee.~~

Chapter 6: Commission Review of Initial Decisions and Exceptions

6.1. Written Form, Filing Requirements, and Service

- A. All pleadings must be in written form, mailed with a certificate of service to the Commission.
- B. All pleadings must be filed with the Commission on the date the filing is due. Computation of time for the filing timelines for Chapter 6 of these Rules is pursuant to section 2-4-108, C.R.S. A pleading is considered filed upon receipt by the Commission. Chapter 6 of these Rules does not provide for any additional time for service by mail.
- C. All pleadings must be filed with the Commission and not with the Office of Administrative Courts. Any pleadings filed in error with the Office of Administrative Courts will not be considered. The Commission's address is:

Colorado Real Estate Commission
1560 Broadway, Suite 925
Denver, CO 80202
- D. All pleadings must be served on the opposing party on the date which the pleading is filed with the Commission. Electronic service between the parties is encouraged. The date and manner must be noted on the certificate of service.

6.2. Initial Decision

Upon receipt of the initial decision prepared and filed by the Administrative Law Judge from the Office of Administrative Courts, the Division will timely mail a copy of the initial decision to the parties at their respective addresses of record with the Commission pursuant to section 24-4-105(16)(a), C.R.S.

6.3. Commission's Authority to Review the Initial Decision

Pursuant to section 24-4-105(14)(a)(II), C.R.S., the Commission may initiate a review of an initial decision on its own motion within thirty (30) days of the date on which the Division mails the initial

decision to the parties. A letter from the Division initiating the review of the initial decision constitutes a motion within the meaning of section 24-4-105(14)(a)(II), C.R.S.

6.4. Appeal of the Initial Decision by the Parties

- A. Any party wishing to reverse or modify an initial decision of an Administrative Law Judge must file written exceptions with the Commission in accordance with the procedures and time frames as set forth in Rule 6.5.
- B. If neither party appeals the initial decision by filing exceptions, the initial decision will become the final order of the Commission after thirty (30) days from the date on which the Division mails the initial decision pursuant to section 24-4-105(14)(b)(III), C.R.S. Failure to file exceptions will result in a waiver of the right to judicial review of the final order of the Commission unless the portion of the final order subject to review differs from the contents of the initial decision pursuant to section 24-4-105(14)(c), C.R.S.

6.5. Filing of Exceptions

- A. Pursuant to section 24-4-105(15)(a), C.R.S., any party seeking to file exceptions must initially file with the Commission a designation of the relevant parts of the record and of parts of the transcript of the hearing within twenty (20) days of the date on which the Division mails the initial decision to the parties.

B. Transcripts:

Any party may designate the entire transcript, or may identify witness(es) whose testimony is to be transcribed, the legal ruling or argument to be transcribed, or other information necessary to identify a portion of the transcript. However, no transcript is required if the Commission's review is limited to pure questions of law. The deadline for filing exceptions depends on whether either of the parties designates a portion of the transcript.

1. If the parties do not designate parts of the transcript, exceptions are due within thirty (30) days from the date on which the Division mails the initial decision to the parties. Both parties' exceptions are due on the same day.
2. Any party wishing to designate all, or any part, of the transcript must adhere to the following procedures:
 - a. Transcripts will not be deemed part of a designation unless specifically identified and ordered.
 - b. If one party designates a portion of the transcript, the other party may file a supplemental designation in which that party may designate additional portions of the transcript. The supplemental designation must be filed with the Commission and served on the other party within ten (10) days after the date on which the original designation was filed.
 - c. Any party who designates a transcript must order the transcript by the date on which they file their designation with the Commission whether they are filing an original or supplemental designation.
 - d. The party ordering a transcript must direct the court reporter or transcribing service to complete and file with the Commission the original transcript and one (1) copy within thirty (30) days of their order.
 - e. The party that designates a transcript must pay for such transcripts.

f. Transcripts that are ordered and not filed with the Commission in a timely manner due to non-payment, insufficient payment, or failure to direct as set forth above may not be considered by the Commission.

g. Upon receipt of transcripts identified in all designations and supplemental designations, the Commission will mail a notification to the parties stating that the transcripts have been received by the Commission.

h. Exceptions are due within thirty (30) days from the date on which such notification is mailed. Both parties' exceptions are due on the same date.

C. A party's exceptions must include specific objections to the initial decision.

D. Either party may file a response to the other party's exceptions. All responses must be filed within ten (10) days of the date on which the exceptions were filed with the Commission. Subsequent replies will not be considered except for good cause shown.

E. The Commission may in its sole discretion grant an extension of time to file exceptions or responses, or may delegate the discretion to grant such an extension of time to the Commission's designee.

6.6. Request for Oral Arguments

A. All requests for oral argument must be in writing and included with a party's exceptions or response.

B. It is within the sole discretion of the Commission to grant or deny a request for oral argument. The Commission generally does not grant requests for oral argument. If an oral argument is granted, each party will have ten (10) minutes to present their argument. Questioning by members of the Commission will not count against the allocated ten (10) minutes.

C. The Commission or its designee may extend the time for oral arguments upon good cause shown.

6.7. Final Orders

A. The Commission may deliberate and vote on exceptions immediately following oral arguments or the Commission may take the matter under advisement.

B. When the Commission votes on exceptions, whether after oral arguments or at a subsequent Commission meeting, the ruling of the Commission will not be considered final until a written order is issued.

C. The date of the Commission's final order is the date on which the written order is signed, irrespective of any motions for reconsideration that are filed.

A hearing on the above subject matter will be held on Tuesday, October 5, 2021 at the Colorado Division of Real Estate, 1560 Broadway, Suite 110-C, Denver, Colorado 80202 beginning at 9:00 a.m. Also, the virtual webinar of the meeting may be accessed at the following link:

<https://attendee.gotowebinar.com/register/7828654042581103115>

Any interested person may participate in the rule making through submission of written data, views and arguments to the Division of Real Estate. Persons are requested to submit data, views, and arguments

to the Division of Real Estate in writing no less than ten (10) days prior to the hearing date and time set forth above. However, all data, views and arguments submitted prior to or at the rulemaking hearing or prior to the closure of the rulemaking record (if different from the date and time of hearing), shall be considered.

Please be advised that the rule being considered is subject to further changes and modifications after public comment and formal hearing.

1.17 REPORTING CHANGE OF ADDRESS, TELEPHONE NUMBER, OR NAME

This Rule is promulgated pursuant to sections 12-20-204 and 12-315-106(5)(g), C.R.S.

- A. A licensee shall inform the Board in a clear, explicit, and unambiguous written statement of any name, address, or electronic mail address, change within thirty days of the change. The Board will not change the licensee's information without explicit written notification from the licensee. Notification by fax or email is acceptable.
- B. The Division of Professions and Occupations maintains one mailing address and electronic mailing address for each licensee, regardless of the number of different professional licenses the licensee may hold.
- C. All communication from the Board to a licensee will be to the mailing address or the electronic mail address maintained with the Division of Professions and Occupations.
 - 1. The Board requires one of the following forms of documentation to change a licensee's name or [correct a](#) social security number [or individual taxpayer identification number](#):
 - a. Marriage license;
 - b. Divorce decree;
 - c. Court order; ~~or~~
 - d. [IRS form W-7, as applicable; or](#)
 - ~~d.e.~~ A driver's license, social security card, or passport with a second form of identification may be acceptable at the discretion of the Director of Support Services.
- D. Any notification by the Board to a licensee or applicant, required or permitted, under section 12-315-101 *et seq.*, C.R.S. or the State Administrative Procedure Act, found at section 24-4-101 *et seq.*, C.R.S., shall be served personally or by first class mail to the last address of record provided in writing to the Board. Service by mail or electronic mail shall be deemed sufficient and proper upon a licensee or applicant.

...

- X. [A limit of supply of benzodiazepine prescribed shall not exceed 30 continuous days that a prescriber may prescribe for a patient who has not received a benzodiazepine prescription from a](#)

prescriber within the last 12 months. This rule shall not limit the supply of benzodiazepine to patients that are prescribed a benzodiazepine to treat any of the following:

- 1) _____ Epilepsy;
- 2) _____ A seizure or seizure disorder, or suspected seizure disorder;
- 3) _____ Spasticity; or
- 4) _____ A neurological condition, including a posttraumatic brain injury or catatonia.

This rule does not require or encourage abrupt discontinuation, limitation, or withdrawal of benzodiazepines. Licensees are expected to follow generally accepted standards of veterinary medicine practice, based on an individual patient's needs, in tapering benzodiazepine prescriptions.

REGULATION NUMBER 19

The Control of Lead Hazards

5 CCR 1001-23

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

Outline of Regulation

PART A Lead-Based Paint Activities

- I. **Scope and Applicability**
- II. **Definitions**
- III. **Training and Certification Requirements**
- IV. **Inspections, Lead-Hazard Screens, and Risk Assessments**
- V. **Abatement Requirements**
- VI. **Delegation to Local Health or Building Departments**

PART B Pre-Renovation Education in Target Housing and Child-Occupied Facilities

- I. **Scope and Applicability**
- II. **Definitions**
- III. **Information Distribution Requirements**
- IV. **Recordkeeping Requirements**
- V. **Acknowledgment and Certification Statements**

PART C Statements of Basis, Specific Statutory Authority and Purpose

PART A LEAD-BASED PAINT ABATEMENT ACTIVITIES

I. Scope and Applicability

- I.A. This Regulation **19**, Part A contains procedures and requirements for the accreditation of lead-based paint activities training programs, procedures and requirements for the certification of individuals and firms engaged in lead-based paint activities, and work practice standards for performing such activities. This Regulation **19**, Part A also requires that, except as discussed **below**, all lead-based paint activities, as defined in this Regulation **19**, Part A, be performed by certified individuals and firms.

- I.B. This Regulation ~~No-Number~~ 19, Part A applies to all individuals and firms who are engaged in lead-based paint activities as defined in Section II.B.487. of this Regulation ~~No-Number~~ 19, Part A, except persons who perform these activities within residential dwellings that they own, unless the residential dwelling is occupied by a person or persons other than the owner or the owner's immediate family while these activities are being performed, or unless a child residing in the building has been identified as having an elevated blood lead level.
- I.C. This Regulation ~~No-Number~~ 19, Part A applies to all lead-based paint activities that are performed in target housing and child-occupied facilities and to buildings that will be converted to target housing or child-occupied facilities.
- I.D. This Regulation ~~No-Number~~ 19, Part A applies to all projects designed to permanently eliminate lead-based paint hazards in target housing and child-occupied facilities. This Regulation ~~No-Number~~ 19, Part A does not apply to renovation, remodeling, landscaping, or other activities when such activities are not intended nor designed to permanently eliminate lead-based paint hazards but instead are intended to repair, restore or remodel a given structure or dwelling.
- I.E. Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal and State government having jurisdiction over any property or facility, or engaged in any activity resulting, or which may result, in a lead-based paint hazard, and each officer, agent, or employee thereof ~~is shall~~ be subject to, and must comply with, all State and local requirements, both substantive and procedural, including the requirements of this Regulation ~~No-Number~~ 19, Part A regarding lead-based paint, lead-based paint activities, and lead-based paint hazards.
- I.F. While this Regulation ~~No-Number~~ 19, Part A establishes specific requirements for performing lead-based paint activities should they be undertaken, nothing in this Regulation ~~No-Number~~ 19, Part A requires that the owner or occupant undertake any particular lead-based paint activity.
- I.G. [Reserved]

II. Definitions

II.A. Incorporated Materials

Some documents may be noted in this Regulation ~~No-Number~~ 19, Part A as being incorporated by reference. Materials incorporated by reference are those in existence as of the dates indicated and do not include later amendments. The material incorporated by reference is available for public inspection during regular business hours at the ~~Division's office~~Office of the Commission, located at 4300 Cherry Creek Drive South, Denver, Colorado 80246, or may be examined at any state publications depository library.~~Parties wishing to inspect these materials should contact the Technical Secretary of the Commission, located at the Office of the Commission. The material incorporated by reference is also available through the United States Government Printing Office, online at www.gpo.gov/fdsys.~~

II.B. Terms

Any terms that are not defined ~~below~~ are given the same meaning as in the Air ~~Qualit~~Quality Control Commission's Common Provisions Regulation.

- II.B.1. Abatement means any measure or set of measures that will contain or permanently eliminate lead-based paint hazards or lead-based paint that might become a hazard. In contrast to interim controls, lead-based paint abatement refers to a group of measures that can be expected to eliminate or reduce exposures to lead hazards for at least 20 years under normal conditions. As 20 years is the expected lifespan of many

~~commonly used building components, abatement is the closest one can get to a “permanent” solution in housing. These measures include, including:~~

II.B.1.a. the removal of lead-based paint and lead-contaminated dust;

II.B.1.b. the permanent containment of lead-based paint;

II.B.1.c. the encapsulation of lead-based paint;

II.B.1.d. the replacement or enclosure of lead-painted surfaces or fixtures;

II.B.1.e. the removal or covering of lead-contaminated soil; and

II.B.1.f. all preparation, cleanup, disposal, monitoring, and clearance testing activities associated with the measures described in this Section II.B.1., of this Regulation ~~No-Number~~ 19, Part A.

II.B.2. ~~Accredited~~-training program means a training program that has been accredited by the ~~De~~division pursuant to Section III. (Training and Certification Requirements) of this Regulation ~~No-Number~~ 19, Part A to provide training for individuals engaged in lead-based paint activities.

II.B.3. Adequate quality control means a plan or design that ensures the authenticity, integrity, and accuracy of samples, including dust, soil, and paint chip or paint film samples. Adequate quality control also includes provisions for representative sampling.

II.B.4. Arithmetic mean means the algebraic sum of data values divided by the number of data values (e.g., the sum of the concentration of lead in several soil samples divided by the number of samples).

II.B.5. Certified ~~Lead Abatement Ffirm (LAF)~~ means a company, partnership, corporation, sole proprietorship, association, or other business entity that performs ~~or offers to perform,~~ lead-based paint ~~abatement~~ activities ~~as defined in this Section II. (Definitions) of this Regulation Number 19, Part A, and~~ to which the ~~De~~division has issued a certificate of approval pursuant to Section III. (Training and Certification Requirements) of this Regulation ~~No-Number~~ 19, Part A.

~~II.B.6. Certified Lead Evaluation Firm (LEF) means a company, partnership, corporation, sole proprietorship, association, or other business entity that performs or offers to perform, inspection and/or risk assessment activities as defined in this Section II. (Definitions) of this Regulation Number 19, Part A, and to which the Division has issued a certificate of approval pursuant to Section III. (Training and Certification Requirements) of this Regulation Number 19, Part A.~~

II.B.~~76~~. Certified inspector means an individual who has been trained ~~by an accredited training program, as defined by this Regulation No. 19, Part A,~~ and certified by the ~~Ddivision~~ pursuant to Section III. (Training and Certification Requirements) of this Regulation ~~No-Number~~ 19, Part A to conduct inspections. A certified inspector also samples for the presence of lead in dust and soil for the purposes of abatement clearance testing. ~~Certified Inspectors must work for a certified LEF.~~

II.B.~~87~~. Certified abatement worker means an individual who has been trained ~~by an accredited training program, as defined by this Section II. (Definitions) of this Regulation No. 19, Part A,~~ and certified by the ~~Ddivision~~ pursuant to Section III. (Training and Certification

Requirements) of this Regulation ~~No. Number~~ 19, Part A to perform abatement. Certified Workers must work for a certified LAF.

II.B.98. Certified project designer means an individual who has been trained ~~by an accredited training program, as defined by this Section II. (Definitions) of this Regulation No. 19, Part A,~~ and certified by the Ddivision pursuant to Section III. (Training and Certification Requirements) of this Regulation ~~No. Number~~ 19, Part A to prepare abatement project designs, occupant protection plans, and abatement reports. Certified Project Designers must work for a certified LEF or LAF.

II.B.109. Certified risk assessor means an individual who has been trained ~~by an accredited training program, as defined by this Section II. (Definitions) of this Regulation No. 19, Part A,~~ and certified by the Ddivision pursuant to Section III. (Training and Certification Requirements) of this Regulation ~~No. Number~~ 19, Part A to conduct risk assessments. A risk assessor also samples for the presence of lead in dust and soil for the purposes of abatement clearance testing. Certified Risk Assessors must work for a certified LEF.

II.B.110. Certified supervisor means an individual who has been trained ~~by an accredited training program, as defined by this Section II. (Definitions) of this Regulation No. 19, Part A,~~ and certified by the Ddivision pursuant to Section III. (Training and Certifications Requirements) of this Regulation ~~No. Number~~ 19, Part A to supervise and conduct abatements, and to prepare occupant protection plans and abatement reports. Certified Supervisors must work for a certified LAF.

II.B.121. Chewable surface means an interior or exterior surface painted with lead-based paint that a young child can mouth or chew. A chewable surface is the same as an "accessible surface" as defined in 42 U.S.C. 4851b(2). Hard metal substrates and other materials that cannot be dented by the bite of a young child are not considered chewable.

II.B.132. Child-occupied facility

II.B.132.a. Child-occupied facility means a building or portion of a building that:

II.B.132.a.(i) was constructed prior to 1978;

II.B.132.a.(ii) is visited regularly by the same child who is under 7 years of age;

II.B.132.a.(iii) is visited by the same such child on two or more days within any week, ~~consisting of the period from Sunday through the following Saturday,~~ with each such visit totaling three six or more hours; and

II.B.132.a.(iv) is visited by the same such child a total of at least sixty hours in one year.

II.B.132.b. "Child-Occupied Facility" includes, but is not limited to, any day-care centers, preschools, or kindergarten classrooms constructed prior to 1978.

II.B.143. Clearance levels are values that indicate the maximum amount of lead permitted in dust on a surface following completion of an abatement activity.

II.B.154. Commission means the Air Quality Control Commission as created by Section 25-7-104, C.R.S.

- II.B.165. Common area means a portion of a building that is generally accessible to all occupants. Such an area may include, but is not limited to, hallways, stairways, laundry and recreational rooms, playgrounds, community centers, garages, and boundary fences.
- II.B.176. Common area group means a group of common areas that are similar in design, construction, and function. Common area groups include, but are not limited to hallways, stairwells, and laundry rooms.
- II.B.187. Component or building component means specific design or structural elements or fixtures of a building, residential dwelling, or child-occupied facility that are distinguished from each other by form, function, and location. These include, but are not limited to, interior components such as: ceilings, crown molding, walls, chair rails, doors, door trim, floors, fireplaces, radiators and other heating units, shelves, shelf supports, stair treads, stair risers, stair stringers, newel posts, railing caps, balustrades, windows and trim (including sashes, window heads, jambs, sills or stools and troughs), built in cabinets, columns, beams, bathroom vanities, counter tops, and air conditioners; and exterior components such as: painted roofing, chimneys, flashing, gutters and downspouts, ceilings, soffits, fascia's, rake boards, corner boards, bulkheads, doors and door trim, fences, floors, joists, lattice work, railings and railing caps, siding, handrails, stair risers and treads, stair stringers, columns, balustrades, window sills or stools and troughs, casings, sashes and wells, and air conditioners.
- II.B.198. Concentration means the relative content of a specific substance contained within a larger mass, such as the amount of lead (in micrograms per gram or parts per million by weight) in a sample of dust or soil.
- II.B.2019. Containment means a system of engineering controls designed process to protect workers, and the environment and the public by controlling exposures to the lead-contaminated dust and debris created during abatement.
- II.B.210. Course agenda means an outline of the key topics to be covered during a training course, including the time allotted to teach each topic.
- II.B.221. Course test means an evaluation of the overall effectiveness of the training that shall~~must~~ test the trainees' knowledge and retention of the topics covered during the course.
- II.B.232. Course test blue-print means written documentation identifying the proportion of course test questions devoted to each major topic in the course curriculum.
- II.B.243. Deteriorated paint means any interior or exterior paint or other coating that is peeling, chipping, chalking or cracking, or any paint or coating located on an interior or exterior surface or fixture that is otherwise damaged or separated from the substrate.
- II.B.254. Discipline means one of the specific types or categories of lead-based paint activities identified in this Regulation No-Number 19, Part A for which individuals may receive training from accredited programs and become certified by the Deivision. For example, "abatement worker" is a discipline.
- II.B.265. Distinct painting history means the application history, as indicated by its visual appearance or a record of application, over time, of paint or other surface coatings to a component or room.

II.B.276. Disturb means:

II.B.276.a. In the case of paint, any activity that causes cracking, flaking, chipping, peeling, or separation of the paint from the substrate of a building component. Activities that disturb paint include, but are not limited to, scraping, grinding, sanding, abrasive blasting, drilling, sawing, or the application of chemical strippers; encapsulation and enclosure systems that are applied to surfaces where the paint is not deteriorated typically does not disturb the paint.

II.B.276.b. In the case of dust or soil, any activity that causes the movement of dust or soil, such as, but not limited to, sweeping, vacuuming, digging and sifting.

II.B.287. Division means the Air Pollution Control Division in the Department of Public Health and Environment.

II.B.298. Documented methodologies means ~~D~~division recognized methods or protocols used to sample for the presence of lead in paint, dust, and soil. Documented methodologies include the U.S. Department of Housing and Urban Development (HUD) Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing ([2012 Edition June 1995](#)); ~~the EPA Guidance on Residential Lead-Based Paint, Lead-Contaminated Dust, and lead-contaminated soil (Federal Register, Volume 60, No. 175, pp 47247-47257, Monday, September 11, 1995 "Guidance on Identification of Lead-Based Paint Hazard; Notice");~~ the EPA Residential Sampling for Lead: Protocols for Dust and Soil Sampling (EPA report number 747-R-95-001, March 1995); and other methods and guidelines determined by the ~~D~~division to be equivalent methods and guidelines.

II.B.3029. Dripline means the area within 3 feet surrounding the perimeter of a building.

II.B.310. ~~Elevated blood lead level (EBL) means an excessive absorption of lead that is a confirmed concentration of lead in whole blood of 20 µg/dl (micrograms of lead per deciliter of whole blood) for a single venous test or of 15-19 µg/dl in two consecutive tests taken 3 to 4 months apart. Elevated blood lead level (EBL) means an excessive absorption of lead that is a confirmed concentration of lead in whole blood ≥ 5µg/dL (micrograms of lead per deciliter of whole blood) for a single venous test a-or two consecutive capillary tests taken within 90 days.~~

II.B.321. Encapsulant means a substance that forms a barrier between lead-based paint and the environment using a liquid-applied coating (with or without reinforcement materials) or an adhesively bonded covering material. [The list of Division approved lead encapsulants can be found on the Division's lead web page at](#)

II.B.332. Encapsulation means the application of an encapsulant. [Painting for purposes other than controlling lead is not considered encapsulation.](#)

II.B.343. Enclosure means the use of rigid, durable construction materials that are mechanically fastened to the substrate in order to act as a barrier between lead-based paint and the environment.

II.B.354. Exterior windowsill means the portion of the horizontal window ledge that protrudes from the exterior of the room.

- II.B.365. Friction surface means an interior or exterior surface that is subject to abrasion or friction, including, but not limited to, certain window, floor, and stair surfaces.
- II.B.376. Guest instructor means an individual designated by the training program manager or principal instructor to provide instruction specific to the lecture, hands-on activities, or work practice components of a course.
- II.B.387. Hands-on skills assessment means an evaluation that tests the trainees' ability to satisfactorily perform the work practices and procedures identified in Section III.A.4. (Minimum Training Curriculum Requirements) of this Regulation ~~No-Number~~ 19, Part A, as well as any other skill taught in a training course.
- II.B.398. Hazardous waste means any waste as defined in 40 CFR Section 261.3.
- II.B.4039. HEPA means high efficiency particulate air. A HEPA filtration system is capable of trapping and retaining at least 99.97 percent of all monodispersed particles 0.3 microns in diameter or larger.
- II.B.419. High contact play area means any location on residential real property and on the property of a child-occupied facility or target housing where children under 7 years of age might commonly play. This term includes, but is not limited to, sandboxes, gardens, and swing sets.
- II.B.421. [Reserved]
- II.B.432. Impact surface means an interior or exterior surface that is subject to damage by repeated sudden force such as certain parts of doorframes.
- II.B.443. Inspection means a surface-by-surface investigation to determine the presence of lead-based paint and the provision of a written report explaining the results of the investigation. Lead inspections may only be conducted by a certified inspector or risk assessor.
- II.B.454. Interim controls means a set of measures designed to temporarily reduce human exposure or likely exposure to lead-based paint hazards, including specialized cleaning, repairs, maintenance, painting, temporary containment, ongoing monitoring of lead-based paint hazards or potential hazards, and the establishment and operation of management and resident education programs.
- II.B.465. Interior windowsill means the portion of the horizontal window ledge that protrudes into the interior of the room.
- II.B.476. Lead-based paint means any paint containing more than six one-hundredths of one per cent by wet weight of lead metal, more than five-tenths of one percent by dry weight of lead metal, or more than one milligram per square centimeter of lead metal.
- II.B.487. Lead-based paint activities means, in the case of target housing and child-occupied facilities, inspection, hazard screen, risk assessment, and abatement, as defined in this Section II. (Definitions) of this Regulation ~~No-Number~~ 19, Part A.
- II.B.498. Lead-based paint hazard means any condition that causes exposure to lead from lead-contaminated dust, lead-contaminated soil, or lead-based paint. Lead-based paint hazard also means hazardous lead-based paint, dust-lead hazard or soil-lead hazard as identified ~~below~~.

II.B.498.a. Paint-lead hazard. A paint-lead hazard is any of the following:

II.B.498.a.(i) Any lead-based paint on a friction surface that is subject to abrasion and where the lead dust levels on the nearest horizontal surface underneath the friction surface (e.g., window sill-, or floor) are equal to or greater than the dust-lead hazard levels identified in this section.

II.B.498.a.(ii) Any damaged or otherwise deteriorated lead-based paint on an impact surface that is caused by impact from a related building component (such as a door knob that knocks into a wall or a door that knocks against its door frame).

II.B.498.a.(iii) Any chewable lead-based painted surface on which there is evidence of teeth marks.

II.B.498.a.(iv) Any other deteriorated lead-based paint in any residential building or child-occupied facility or on the exterior of any residential building or child-occupied facility.

II.B.498.b. Dust-lead hazard. A dust-lead hazard is surface dust in a residential dwelling or child-occupied facility that contains a mass-per-area concentration of lead equal to or exceeding 1040 µg/ft² on floors or 100250 µg/ft² on interior window sills based on wipe samples.

II.B.498.c. Soil-lead hazard. A soil-lead hazard is bare soil on residential real property or on the property of a child-occupied facility that contains total lead equal to or exceeding 400 parts per million (µg/g) in a play area or average of 1,200 parts per million of bare soil in the rest of the yard based on soil samples.

II.B.5049. Lead-contaminated dust means surface dust in residential dwellings or child-occupied facilities that contains an area or mass concentration of lead equal to or in excess of 1040 µg/ft² on interior floors, 100250 µg/ft² on interior window sills, 400 µg/ft² in window troughs, 500 µg/ft² on exterior window sills, and 800 µg/ft² on exterior surfaces (e.g. patios, porches, sidewalks).

II.B.519. Lead-contaminated soil means bare soil on residential real property and on the property of a child-occupied facility that contains lead equal to or in excess of 400 µg/g in a play area or in excess of 1,200 µg/g averaged in the rest of the yard (non-play areas).

II.B.521. Lead-contaminated waste means any waste generated as a result of lead-based paint activities or the deterioration of lead-based paint in a pre-1978 residential dwelling or child-occupied facility. This term includes, but is not limited to, lead-based paint chips, lead-contaminated dust, lead-contaminated soil, abatement control devices, disposable equipment and clothing, bags and other similar packaging contaminated with lead, waste water, architectural components, and chemical stripper sludge.

II.B.532. Lead-hazard screen means a limited risk assessment activity that involves limited paint and dust sampling as described in Section IV.B. (Lead Hazard Screen) of this Regulation ~~No.Number~~ 19, Part A. A lead-hazard screen must be conducted by a certified risk assessor.

II.B.543. Living area means any area of a residential dwelling used by one or more children under 7 years of age, including, but not limited to, living rooms, kitchen areas, dens, play rooms, and children's bedrooms.

II.B.554. Loading means the quantity of a specific substance present per unit of surface area, such as the amount of lead in micrograms contained in the dust collected from a certain surface area divided by the surface area in square feet or square meters.

II.B.565. Mid-yard means an area of a residential yard approximately midway between the dripline of a residential building and the nearest property boundary or between the driplines of a residential building and another building on the same property.

~~ad-~~

II.B.57. Movable objects" means pieces of free-standing equipment or furniture, not mounted or attached in the work area which can be readily removed from the work area. Movable objects remaining in the work area which cannot be readily removed from the area must be protected pursuant to Sections V.C.2.d, V.C.3.e., V.D.2.b.(iv). and V.D.2.C.(iv). Protection of Objects, and must be able to be moved in the work area to clean under such items and to facilitate final clearance.

~~II.B.56. Multi-family dwelling means a structure that contains more than one separate residential dwelling unit, which is used or occupied, or intended to be used or occupied, in whole or in part, as the home or residence of one or more persons.~~

II.B.597. Paint means a liquid mixture, usually of a solid pigment in a liquid vehicle, used as a decorative or protective coating. This term includes, but is not limited to, primer, lacquer, polyurethane, and wood stain.

II.B.6058. Paint in poor condition means more than two square feet of deteriorated paint per room or equivalent, twenty square feet of deteriorated paint on the exterior building, or ten percent of the total surface area of deteriorated paint on an interior or exterior type of component with a small surface area.

II.B.6159. Permanently covered soil means soil that has been separated from human contact by the placement of a barrier consisting of solid, relatively impermeable materials, such as pavement or concrete. Grass, mulch, and other landscaping materials are not considered permanent covering.

II.B.620. Person means any individual, public or private corporation, partnership, association, firm, trust, estate, the United States or the state or any department, institution, or agency thereof, any municipal corporation, county, city and county, or other political subdivision of the state, or any other legal entity whatsoever which is recognized by law as the subject of rights and duties.

II.B.631. Play area means an area of frequent soil contact by children of less than 7 years of age as indicated by, but not limited to, such factors including the following; the presence of play equipment (e.g., sandboxes, swing sets and sliding boards), toys, or other children's possessions, observations of play patterns, or information provided by parents, residents, care givers, or property owners.

II.B.642. Principal instructor means the individual who has the primary responsibility for organizing and teaching a particular course.

- II.B.653. Recognized laboratory means an environmental laboratory recognized by [the EPA as a member of the National Lead Laboratory Accreditation Program](#) pursuant to [the Toxic Substances Control Act Section 405\(b\)](#) as being capable of performing an analysis for lead compounds in paint, soil, and dust.
- II.B.664. Reduction means measures designed to reduce or eliminate human exposure to lead-based paint hazards through methods including interim controls and abatement.
- II.B.675. Residential building means a building containing one or more residential dwellings.
- II.B.686. Residential dwelling means (1) a detached single family dwelling unit, including attached structures such as porches and stoops; or (2) a single family dwelling unit in a structure that contains more than one separate residential dwelling unit, which is used or occupied, or intended to be used or occupied, in whole or in part, as the home or residence of one or more persons.
- II.B.697. Risk assessment means (1) an on-site investigation to determine the existence, nature, severity, and location of lead-based paint hazards, and (2) the provision of a report by the individual or the firm conducting the risk assessment, explaining the results of the investigation and options for reducing lead-based paint hazards. [A risk assessment must be conducted by a certified risk assessor.](#)
- II.B.7068. Room means a separate part of the inside of a building, such as a bedroom, living room, dining room, kitchen, bathroom, laundry room, or utility room. To be considered a separate room, the room must be separated from adjoining rooms by built-in walls or archways that extend at least 6 inches from an intersecting wall. Half walls or bookcases count as room separators if built-in. Moveable or collapsible partitions or partitions consisting solely of shelves or cabinets are not considered built-in walls. A screened in porch that is used as a living area is a room.
- II.B.7169. Soil sample means a sample collected in a representative location using ASTM E1727, "Standard Practice for Field Collection of Soil Samples for Lead Determination by Atomic Spectrometry Techniques," or equivalent method.
- II.B.720. Target housing means housing constructed prior to 1978 other than any zero-bedroom dwelling or any housing for the elderly or a person with a disability; except that "target housing" includes housing for the elderly or a person with a disability if a child under 7 years of age resides or is expected to reside in the housing.
- II.B.731. Training curriculum means an established set of course topics for instruction in an accredited training program for a particular discipline designed to provide specialized knowledge and skills.
- II.B.742. Training hour means at least 50 minutes of actual learning, including, but not limited to, time devoted to lecture, learning activities, small group activities, demonstrations, evaluations, and/or hands-on experience.
- II.B.753. Training manager means the individual responsible for administering a training program and monitoring the performance of principal instructors and guest instructor.

- II.B.764. Visible emissions means any emissions that are visually detectable without the aid of instruments, coming from lead-based paint or lead-contaminated waste material.
- II.B.775. Visual inspection for clearance testing means the visual examination of a residential dwelling or a child-occupied facility following abatement to determine whether or not the abatement has been successfully completed.
- II.B.786. Visual inspection for risk assessment means the visual examination of a residential dwelling or a child-occupied facility to determine the existence of deteriorated lead-based paint or other potential sources of lead-based paint hazards.
- II.B.797. Weighted arithmetic mean means the arithmetic mean of sample results weighted by the number of subsamples in each sample. Its purpose is to give influence to a sample relative to the surface area it represents. A single surface sample is comprised of a single subsample. A composite sample may contain from two to four subsamples of the same area as each other and of each single surface sample in the composite. The weighted arithmetic mean is obtained by summing, for all samples, the product of the sample's result multiplied by the number of subsamples in the sample, and dividing the sum by the total number of subsamples contained in all samples. For example, the weighted arithmetic mean of a single surface sample containing 60 $\mu\text{g}/\text{ft}^2$, a composite sample (three subsamples) containing 100 $\mu\text{g}/\text{ft}^2$, and a composite sample (4 subsamples) containing 110 $\mu\text{g}/\text{ft}^2$ is 100 $\mu\text{g}/\text{ft}^2$. This result is based upon the equation $(60 + (3 \times 100) + (4 \times 110)) / (1 + 3 + 4)$.
- II.B.8078. Window trough means, for a typical double-hung window, the portion of the exterior window sill between the interior window sill (or stool) and the frame of the storm window. If there is no storm window, the window trough is the area that receives both the upper and lower window sashes when they are both lowered. The window trough is sometimes referred to as the window well.
- II.B.8179. Wipe sample means a sample collected by wiping a representative surface of known area, as determined by ASTM E1728, "Standard Practice for Field Collection of Settled Dust Samples Using Wipe Sampling Methods for Lead Determination by Atomic Spectrometry Techniques, or equivalent method, with an acceptable wipe material as defined in ASTM E1792, "Standard Specification for Wipe Sampling Materials for Lead in Surface Dust."
- II.B.829. Work area means an area covered or contained by polyethylene sheeting to prevent the spread of lead contamination; and an area within which concentrations of lead, exceed, or may exceed, clearance levels.
- II.B.831. Working day means Monday through Friday and includes holidays that fall on any of the days Monday through Friday. II.B.84. Zero-bedroom dwelling means any residential dwelling in which the living areas are not separated from the sleeping area. The term includes efficiencies, studio apartments, dormitory or single-room occupancy housing, military barracks, and rentals of individual rooms in residential dwellings

III. Training and Certification Requirements

III.A. Accreditation of Training Programs: Target Housing and Child-occupied Facilities

III.A.1. Scope

- III.A.1.a. A training program may seek accreditation to offer lead-based paint activities courses in any of the following disciplines: inspector, risk assessor,

supervisor, project designer, and abatement worker. A training program may also seek accreditation to offer refresher courses for each of the ~~above~~-listed disciplines.

- III.A.1.b. A training program ~~must~~shall not provide, offer, or claim to provide ~~Division~~-accredited lead-based paint activities courses without applying for and receiving accreditation from the ~~Division~~ as required under Section III.A.2. (Application Process) of this Regulation ~~No. Number~~ 19, Part A. ~~on or after the effective date of this Regulation No. 19, Part A.~~

III.A.2. Application Process

The following are procedures a training program ~~must~~shall follow to receive ~~Division~~ accreditation to offer lead-based paint activities courses:

- III.A.2.a. A training program seeking accreditation ~~must~~shall submit a written application to the ~~Division~~ containing the following information:
- III.A.2.a.(i) the training program's name, address, and telephone number;
 - III.A.2.a.(ii) a list of courses for which it is applying for accreditation; and
 - III.A.2.a.(iii) a statement signed by the training program manager certifying that the training program meets the requirements established in Section III.A.3. (Requirements for the Accreditation of Training Programs) of this Regulation ~~No. Number~~ 19, Part A. If a training program uses EPA-recommended model training materials, or training materials approved by a State or Indian Tribe that has been authorized by EPA under 40 C.F.R. Part 745, Subpart Q the training program manager ~~must~~shall include a statement certifying that, as well.
 - III.A.2.a.(iv) If a training program does not use EPA-recommended model training materials or training materials approved by an authorized State or Indian Tribe, its application for accreditation ~~must~~shall also include:
 - III.A.2.a.(iv)(A) a copy of the student and instructor manuals, or other materials to be used for each course; and
 - III.A.2.a.(iv)(B) a copy of the course agenda for each course.
 - III.A.2.a.(v) All training programs ~~must~~shall include in their application for accreditation the following:
 - III.A.2.a.(v)(A) a description of the facilities and equipment to be used for lecture and hands-on training;
 - III.A.2.a.(v)(B) a copy of the course test blue print for each course;
 - III.A.2.a.(v)(C) a description of the activities and procedures that will be used for conducting the assessment of hands-on skills for each course; and
 - III.A.2.a.(v)(D) a copy of the quality control plan as described in Section III.A.3.i. of this Regulation ~~No. Number~~ 19, Part A.

III.A.2.b. If a training program meets the requirements in Section III.A.3. (Requirements for the Accreditation of Training Programs) of this Regulation ~~No-Number~~ 19, Part A, then the ~~D~~ivision ~~will~~shall approve the application for accreditation no more than 180 days after receiving a complete application from the training program. In the case of approval, a certificate of accreditation ~~will~~shall be sent to the applicant. In the case of disapproval, a letter describing the reasons for disapproval ~~will~~shall be sent to the applicant. Prior to disapproval, the ~~D~~ivision may, at its discretion, work with the applicant to address inadequacies in the application for accreditation. The ~~D~~ivision may also request additional materials retained by the training program under Section III.A.7. (Training Program Recordkeeping Requirements) of this Regulation ~~No-Number~~ 19, Part A. If the ~~D~~ivision disapproves a training program's application, the program may reapply for accreditation at any time.

III.A.2.c. A training program may apply for accreditation to offer courses or refresher courses in as many disciplines as it chooses. A training program may seek accreditation for additional courses at any time as long as the program can demonstrate that it meets the requirements of this Section III. (Training and Certification Requirements) of this Regulation ~~No-Number~~ 19, Part A.

III.A.2.d. A training program which has received accreditation from US EPA or another state whose training and certification requirements are at least as stringent as Colorado's must first apply for and receive accreditation before conducting training in Colorado.

III.A.2.e. A training program must notify the ~~D~~ivision, on a form ~~specified~~provided by the ~~D~~ivision, of scheduled courses at least 2 weeks prior to the offering of the course. The training program must receive written approval for each class from the ~~D~~ivision prior to conducting the training.

III.A.2.f. Fees for accreditation of training programs ~~will~~shall be as follows:

- III.A.2.f.(i) Inspector (24-hour) course --\$1,500;
- III.A.2.f.(ii) Risk Assessor (16-hour) course -- \$1,000;
- III.A.2.f.(iii) Supervisor (32-hour) course -- \$2,000;
- III.A.2.f.(iv) Project Designer (8-hour) course -- \$500;
- III.A.2.f.(v) Abatement Worker (16-hour) course -- \$1,000; and
- III.A.2.f.(vi) All refresher training courses -- \$500.

III.A.3. Requirements for the Accreditation of Training Programs

For a training program to obtain accreditation from the ~~D~~ivision to offer lead-based paint activities courses, the program ~~must~~shall meet the following requirements:

III.A.3.a. The training program ~~must~~shall employ a training manager who has:

- III.A.3.a.(i) at least 2 years of experience, education, or training in teaching workers or adults; or

III.A.3.a.(ii) a bachelor's or graduate degree in building construction technology, engineering, industrial hygiene, safety, public health, education, business administration or program management or a related field; or

III.A.3.a.(iii) two years of experience in managing a training program specializing in environmental hazards; and

III.A.3.a.(iv) demonstrated experience, education, or training in the construction industry including: lead or asbestos abatement, painting, carpentry, renovation, remodeling, occupational safety and health, or industrial hygiene.

III.A.3.b. The training manager mustshall designate a qualified principal instructor for each course who has:

III.A.3.b.(i) demonstrated experience, education, or training in teaching workers or adults;

III.A.3.b.(ii) successfully completed at least 16 hours of any EPA-accredited or EPA-authorized State or Tribal-accredited lead-specific training; and

III.A.3.b.(iii) demonstrated experience, education, or training in lead or asbestos abatement, painting, carpentry, renovation, remodeling, occupational safety and health, or industrial hygiene.

III.A.3.c. The principal instructor willshall be responsible for the organization of the course and oversight of the teaching of all course material. The training manager may designate guest instructors as needed to provide instruction specific to the lecture, hands-on activities, or work practice components of a course.

III.A.3.d. The following documents willshall be recognized by the Division as evidence that training managers and principal instructors have the education, work experience, training requirements or demonstrated experience, specifically listed in Sections III.A.3.a. and III.A.7. (Training Program Recordkeeping Requirements) of this Regulation No-Number 19, Part A. This documentation need not be submitted with the accreditation application, but, if not submitted, mustshall be retained by the training program as required by the recordkeeping requirements contained in Section III.A.7. (Training Program Recordkeeping Requirements) of this Regulation No-Number 19, Part A. Those documents include the following:

III.A.3.d.(i) official academic transcripts or diploma as evidence of meeting the education requirements;

III.A.3.d.(ii) résumés, letters of reference, or documentation of work experience, as evidence of meeting the work experience requirements; and

III.A.3.d.(iii) certificates from train-the-trainer courses and lead-specific training courses, as evidence of meeting the training requirements.

III.A.3.e. The training program mustshall ensure the availability of, and provide adequate facilities for, the delivery of the lecture, course test, hands-on training, and assessment activities. This includes providing training equipment that

reflects current work practices and maintaining or updating the equipment and facilities as needed.

III.A.3.f. To become accredited in the following disciplines, the training program mustshall provide training courses that meet the following training hour requirements:

III.A.3.f.(i) The inspector course mustshall last a minimum of 24 training hours, with a minimum of 8 hours devoted to hands-on training activities. The minimum curriculum requirements for the inspector course are contained in Section III.A.4.a. (Inspector) of this Regulation No: Number 19, Part A.

III.A.3.f.(ii) The risk assessor course mustshall last a minimum of 16 training hours, with a minimum of 4 hours devoted to hands-on training activities. The minimum curriculum requirements for the risk assessor course are contained in Section III.A.4.b. (Risk Assessor) of this Regulation No: Number 19, Part A.

III.A.3.f.(iii) The supervisor course mustshall last a minimum of 32 training hours, with a minimum of 8 hours devoted to hands-on activities. The minimum curriculum requirements for the supervisor course are contained in Section III.A.4.c. (Supervisor) of this Regulation No: Number 19, Part A.

III.A.3.f.(iv) The project designer course mustshall last a minimum of 8 training hours. The minimum curriculum requirements for the project designer course are contained in Section III.A.4.d. (Project Designer) of this Regulation No: Number 19, Part A.

III.A.3.f.(v) The abatement worker course mustshall last a minimum of 16 training hours, with a minimum of 8 hours devoted to hands-on training activities. The minimum curriculum requirements for the abatement worker course are contained in Section III.A.4.e. (Abatement Worker) of this Regulation No: Number 19, Part A.

III.A.3.g. For each course offered, the training program mustshall conduct either a course test at the completion of the course, and if applicable, a hands-on skills assessment, or in the alternative, a proficiency test for that discipline. Each individual must successfully complete the hands-on skills assessment and receive a passing score on the course test to pass any course, or successfully complete a proficiency test.

III.A.3.g.(i) The training manager is responsible for maintaining the validity and integrity of the hands-on skills assessment or proficiency test to ensure that it accurately evaluates the trainees' performance of the work practices and procedures associated with the course topics contained in Section III.A.4. (Minimum Training Curriculum Requirements) of this Regulation No: Number 19, Part A.

III.A.3.g.(ii) The training manager is responsible for maintaining the validity and integrity of the course test to ensure that it accurately evaluates the trainees' knowledge and retention of the course topics.

III.A.3.g.(iii) The course test mustshall be developed in accordance with the test blueprint submitted with the training accreditation application.

III.A.3.h. The training program mustshall issue unique course completion certificates to each individual who passes the training course. The course completion certificate mustshall include:

III.A.3.h.(i) the name, a unique identification number, and address of the individual;

III.A.3.h.(ii) the name of the particular course that the individual completed;

III.A.3.h.(iii) dates of course completion/test passage; and

III.A.3.h.(iv) the name, address, and telephone number of the training program.

III.A.3.i. The training manager mustshall develop and implement a quality control plan. The plan mustshall be used to maintain and improve the quality of the training program over time. This plan mustshall contain at least the following elements:

III.A.3.i.(i) procedures for periodic revision of training materials and the course test to reflect innovations in the field; and

III.A.3.i.(ii) procedures for the training manager's annual review of principal instructor competency.

III.A.3.j. The training program mustshall offer courses that teach the work practice standards for conducting lead-based paint activities contained in this Section III. (Training and Certification Requirements) of this Regulation No-Number 19, Part A, and other standards developed by EPA pursuant to Title IV of TSCA. These standards mustshall be taught in the appropriate courses to provide trainees with the knowledge needed to perform the lead-based paint activities they are responsible for conducting.

III.A.3.k. The training manager willshall be responsible for ensuring that the training program complies at all times with all of the requirements in this Section III. (Training and Certification Requirements) of this Regulation No-Number 19, Part A.

III.A.3.l. The training manager mustshall allow the Division, at no cost to the Division, to audit the training program to verify the contents of the application for accreditation as described in Section III.A.2. (Application Process) of this Regulation No-Number 19, Part A.

III.A.4. Minimum Training Curriculum Requirements

To become accredited to offer lead-based paint courses instruction in the specific disciplines listed below, training programs must ensure that their courses of study include, at a minimum, the following course topics. Requirements ending in an asterisk (*) indicate areas that require hands-on activities as an integral component of the course.

III.A.4.a. Inspector

III.A.4.a.(i) Role and responsibilities of an inspector.

III.A.4.a.(ii) Background information on lead and its adverse health effects.

III.A.4.a.(iii) Background information on Federal, State, and local regulations and guidance that pertains to lead-based paint and lead-based paint activities.

III.A.4.a.(iv) Lead-based paint inspection methods, including selection of rooms and components for sampling or testing. .*

III.A.4.a.(v) Paint, dust, and soil sampling methodologies. .*

III.A.4.a.(vi) Clearance standards and testing, including random sampling. .*

III.A.4.a.(vii) Preparation of the final inspection report. .*

III.A.4.a.(viii) Recordkeeping.

III.A.4.b. Risk Assessor

III.A.4.b.(i) Role and responsibilities of a risk assessor.

III.A.4.b.(ii) Collection of background information to perform a risk assessment.

III.A.4.b.(iii) Sources of environmental lead contamination such as paint, surface dust and soil, water, air, packaging, and food.

III.A.4.b.(iv) Visual inspection for the purposes of identifying potential sources of lead-based paint hazards. .*

III.A.4.b.(v) Lead hazard screen protocol.

III.A.4.b.(vi) Sampling for other sources of lead exposure. .*

III.A.4.b.(vii) Interpretation of lead-based paint and other lead sampling results, including all applicable State or Federal guidance or regulations pertaining to lead-based paint hazards. .*

III.A.4.b.(viii) Development of hazard control options, the role of interim controls, and operations and maintenance activities to reduce lead-based paint hazards.

III.A.4.b.(ix) Preparation of a final risk assessment report.

III.A.4.c. Supervisor

III.A.4.c.(i) Role and responsibilities of a supervisor.

III.A.4.c.(ii) Background information on lead and its adverse health effects.

III.A.4.c.(iii) Background information on Federal, State, and local regulations and guidance that pertain to lead-based paint abatement.

III.A.4.c.(iv) Liability and insurance issues relating to lead-based paint abatement.

III.A.4.c.(v) Risk assessment and inspection report interpretation. .*

III.A.4.c.(vi) Development and implementation of an occupant protection plan and abatement report.

III.A.4.c.(vii) Lead-based paint hazard recognition and control. *

III.A.4.c.(viii) Lead-based paint abatement and lead-based paint hazard reduction methods, including restricted practices. *

III.A.4.c.(ix) Interior dust abatement/cleanup or lead-based paint hazard control and reduction methods. *

III.A.4.c.(x) Soil and exterior dust abatement or lead-based paint hazard control and reduction methods. *

III.A.4.c.(xi) Clearance standards and testing.

III.A.4.c.(xii) Cleanup and waste disposal.

III.A.4.c.(xiii) Recordkeeping.

III.A.4.d. Project Designer

III.A.4.d.(i) Role and responsibilities of a project designer.

III.A.4.d.(ii) Development and implementation of an occupant protection plan for large scale abatement projects.

III.A.4.d.(iii) Lead-based paint abatement and lead-based paint hazard reduction methods, including restricted practices for large-scale abatement projects.

III.A.4.d.(iv) Interior dust abatement/cleanup or lead hazard control and reduction methods for large-scale abatement projects.

III.A.4.d.(v) Clearance standards and testing for large scale abatement projects.

III.A.4.d.(vi) Integration of lead-based paint abatement methods with modernization and rehabilitation projects for large scale abatement projects.

III.A.4.e. Abatement Worker

III.A.4.e.(i) Role and responsibilities of an abatement worker.

III.A.4.e.(ii) Background information on lead and its adverse health effects.

III.A.4.e.(iii) Background information on Federal, State and local regulations and guidance that pertain to lead-based paint abatement.

III.A.4.e.(iv) Lead-based paint hazard recognition and control. *

III.A.4.e.(v) Lead-based paint abatement and lead-based paint hazard reduction methods, including restricted practices. *

III.A.4.e.(vi) Interior dust abatement methods/cleanup or lead-based paint hazard reduction.*

III.A.4.e.(vii) Soil and exterior dust abatement methods or lead-based paint hazard reduction.*

III.A.4.f. The training program ~~must~~ allow the ~~De~~division, without any cost to the ~~De~~division, to audit the training program to evaluate the quality of the course as well as to verify the contents of the application for accreditation as described in Section III.A.2. (Application Process) of this Regulation ~~No-Number~~ 19, Part A.

III.A.5. Requirements for the Accreditation of Refresher Training Programs

A training program may seek accreditation to offer refresher training courses in any of the following disciplines: inspector, risk assessor, supervisor, project designer, and abatement worker. To obtain ~~De~~division accreditation to offer refresher training, a training program must meet the following minimum requirements:

III.A.5.a. Each refresher course ~~must~~ review the curriculum topics of the full-length courses listed under Section III.A.4. (Minimum Training Curriculum Requirements) of this Regulation ~~No-Number~~ 19, Part A, as appropriate. In addition, to become accredited to offer refresher training courses, training programs ~~must~~ ensure that their courses of study include, at a minimum, the following:

III.A.5.a.(i) An overview of current safety practices relating to lead-based paint activities in general, as well as specific information pertaining to the appropriate discipline.

III.A.5.a.(ii) Current laws and regulations relating to lead-based paint activities in general, as well as specific information pertaining to the appropriate discipline.

III.A.5.a.(iii) Current technologies relating to lead-based paint activities in general, as well as specific information pertaining to the appropriate discipline.

III.A.5.b. Each refresher course, except for the project designer course, ~~must~~ last a minimum of 8 training hours. The project designer refresher course ~~must~~ last a minimum of 4 training hours.

III.A.5.c. For each course offered, the training program ~~must~~ conduct a hands-on assessment (if applicable), and at the completion of the course, a course test.

III.A.5.d. A training program may apply for accreditation of a refresher course concurrently with its application for accreditation of the corresponding training course as described in Section III.A.2. (Application Process) of this Regulation ~~No-Number~~ 19, Part A. If so, the ~~De~~division ~~will~~ use the approval procedure described in Section III.A.2. (Application Process) of this Regulation ~~No-Number~~ 19, Part A. In addition, the minimum requirements contained in Sections III.A.3. (Requirements for the Accreditation of Training Programs) (except for the requirements in Section III.A.3.f.), and III.A.5.a., III.A.5.b., and III.A.5.c. of this Regulation ~~No-Number~~ 19, Part A ~~will~~ also apply.

III.A.5.e. A training program seeking accreditation to offer refresher training courses only mustshall submit a written application to the Division containing the following information:

III.A.5.e.(i) The refresher training program's name, address, and telephone number.

III.A.5.e.(ii) A list of courses for which it is applying for accreditation.

III.A.5.e.(iii) A statement signed by the training program manager certifying that the refresher training program meets the minimum requirements established in Section III.A.3. (Requirements for the Accreditation of Training Programs) of this Regulation No-Number 19, Part A, except for the requirements in Section III.A.3.f. of this Regulation No-Number 19, Part A. If a training program uses US EPA-developed model training materials, or training materials approved by a State or Indian Tribe that has been authorized by US EPA under 40 C.F.R., Section 745.324 to develop its refresher training course materials, the training manager mustshall include a statement certifying that, as well.

III.A.5.e.(iv) If the refresher training course materials are not based on US EPA-developed model training materials or training materials approved by an authorized State or Indian Tribe, the training program's application for accreditation mustshall include:

III.A.5.e.(iv)(A) a copy of the student and instructor manuals to be used for each course; and

III.A.5.e.(iv)(B) a copy of the course agenda for each course.

III.A.5.e.(v) All refresher training programs mustshall include in their application for accreditation the following:

III.A.5.e.(v)(A) a description of the facilities and equipment to be used for lecture and hands-on training;

III.A.5.e.(v)(B) a copy of the course test blue print for each course;

III.A.5.e.(v)(C) a description of the activities and procedures that will be used for conducting the assessment of hands-on skills for each course (if applicable); and

III.A.5.e.(v)(D) a copy of the quality control plan as described in Section III.A.3.i. of this Regulation No-Number 19, Part A.

III.A.5.e.(vi) The requirements in Sections III.A.3.a. through III.A.3.e., and III.A.3.g. through III.A.3.i. of this Regulation No-Number 19, Part A applies to refresher training providers.

III.A.5.e.(vii) If a refresher training program meets the requirements listed in this Section III.A.5. (Requirements for the Accreditation of Training Programs) of this Regulation No-Number 19, Part A, then the Division willshall approve the application for accreditation no more than 180 days after receiving a complete application from the refresher training program. In the case of approval, a certificate of accreditation willshall be

sent to the applicant. In the case of disapproval, a letter describing the reasons for disapproval willshall be sent to the applicant. Prior to disapproval, the Dedivision may, at its discretion, work with the applicant to address inadequacies in the application for accreditation. The Dedivision may also request additional materials retained by the refresher training program under Section III.A.7. (Training Program Recordkeeping Requirements) of this Regulation No-Number 19, Part A. If a refresher training program's application is disapproved, the program may reapply for accreditation at any time.

III.A.6. Re-accreditation of Training Programs

III.A.6.a. Unless re-accredited, a training program's accreditation (including refresher training accreditation) willshall expire 4 years after the date of issuance. If a training program meets the requirements of this section, the training program willshall be re-accredited.

III.A.6.b. A training program seeking re-accreditation mustshall submit an application to the Dedivision no later than 180 days before its accreditation expires. If a training program does not submit its application for re-accreditation by that date, the Dedivision cannot guarantee that the program will be re-accredited before the end of the accreditation period.

III.A.6.c. The training program's application for re-accreditation mustshall contain:

III.A.6.c.(i) The training program's name, address, and telephone number.

III.A.6.c.(ii) A list of courses for which it is applying for re-accreditation.

III.A.6.c.(iii) A description of any changes to the training facility, equipment or course materials since its last application was approved that adversely affects the student's ability to learn.

III.A.6.c.(iv) A statement signed by the program manager stating:

III.A.6.c.(iv)(A) That the training program complies at all times with all requirements in Sections III.A.3. (Requirements for the Accreditation of Training Programs) and III.A.5. (Requirements for the Accreditation of Refresher Training Programs) of this Regulation No-Number 19, Part A, as applicable; and

III.A.6.c.(iv)(B) The recordkeeping and reporting requirements of Section III.A.7. (Training Program Recordkeeping Requirements) of this Regulation No-Number 19, Part A mustshall be followed.

III.A.6.d. The training program mustshall allow the Dedivision, at no cost to the Dedivision, to audit the training program to verify the contents of the application for re-accreditation as described in Section III.A.6.c. of this Regulation No-Number 19, Part A.

III.A.6.e. Fees for re-accreditation of training programs willshall be as follows:

III.A.6.e.(i) Inspector (24-hour) course --\$1,500;

III.A.6.e.(ii) Risk Assessor (16-hour) course -- \$1,000;

- III.A.6.e.(iii) Supervisor (32-hour) course -- \$2,000;
- III.A.6.e.(iv) Project Designer (8-hour) course -- \$500;
- III.A.6.e.(v) Abatement Worker (16-hour) course -- \$1,000; and
- III.A.6.e.(vi) Any refresher training course -- \$500.

III.A.7. Training Program Recordkeeping Requirements

III.A.7.a. Accredited training programs ~~must~~shall maintain, and make available to the ~~D~~ivision, upon request, the following records:

III.A.7.a.(i) all documents specified in Section III.A.3.d. of this Regulation ~~No-Number~~ 19, Part A that demonstrate the qualifications listed in Sections III.A.3.a. and III.A.3.b. of this Regulation ~~No-Number~~ 19, Part A of the training manager and principal instructors;

III.A.7.a.(ii) current curriculum/course materials and documents reflecting any changes made to these materials;

III.A.7.a.(iii) the course test blue print; and

III.A.7.a.(iv) information regarding how the hands-on assessment is conducted including, but not limited to:

III.A.7.a.(iv)(A) who conducts the assessment;

III.A.7.a.(iv)(B) how the skills are graded;

III.A.7.a.(iv)(C) what facilities are used; and

III.A.7.a.(iv)(D) the pass/fail rate.

III.A.7.a.(v) the quality control plan as described in Section III.A.3.i. of this Regulation ~~No-Number~~ 19, Part A;

III.A.7.a.(vi) results of the students' hands-on skills assessments and course tests, and a record of each student's course completion certificate; and

III.A.7.a.(vii) any other material not listed ~~above~~ in Sections III.A.7.a.(i) through III.A.7.a.(vi) of this Regulation ~~No-Number~~ 19, Part A that was submitted to the ~~D~~ivision as part of the program's application for accreditation.

III.A.7.b. The training program ~~must~~shall retain these records at the address specified on the training program accreditation application (or as modified in accordance with Section III.A.7.c. of this Regulation ~~No-Number~~ 19, Part A) for a minimum of 3 years and 6 months.

III.A.7.c. The training program ~~must~~shall notify the ~~D~~ivision in writing within 30 days of changing the address specified on its training program accreditation application or transferring the records from that address.

III.B. Certification of Individuals and Firms Engaged in Lead-based Paint Activities: Target Housing and Child-occupied Facilities

III.B.1. Certification of Individuals

III.B.1.a. Individuals seeking certification by the Dedivision to engage in lead-based paint activities must either:

III.B.1.a.(i) submit to the Dedivision an application on a form specified by the Division demonstrating that they meet the requirements established in Sections III.B.2. (Inspector, Risk Assessor or Supervisor) or III.B.3. (Abatement Worker and Project Designer) of this Regulation No-Number 19, Part A for the particular discipline for which certification is sought; or

III.B.1.a.(ii) submit to the Dedivision an application on a form specified by the Division with a copy of a valid lead-based paint activities certification (or equivalent) from the EPA or a State or Tribal program that has been authorized by EPA pursuant to 40 C.F.R., Part 745, Subpart Q.

III.B.1.b. Individuals seeking Colorado certification as an inspector, risk assessor or supervisor mustshall submit a fee to the Dedivision according to the following structure:

III.B.1.b.(i) Inspector -- \$230 for the first year and \$180 for each year thereafter;

III.B.1.b.(ii) Risk Assessor -- \$230 for the first year and \$180 for each year thereafter; and

III.B.1.b.(iii) Supervisor -- \$230 for the first year and \$180 for each year thereafter.

III.B.1.c. Individuals seeking Colorado certification as a worker or project designer mustshall submit a fee to the Dedivision according to the following structure:

III.B.1.c.(i) Worker -- \$180 for each year of certification sought; and

III.B.1.c.(ii) Project Designer -- \$180 for each year of certification sought.

III.B.1.d. Individuals may first apply to the Dedivision for certification to engage in lead-based paint activities pursuant to this section on or after the effective date of this Regulation No-Number 19, Part A.

III.B.1.e. Following the submission of an application demonstrating that all the requirements of this section have been met, the Dedivision willshall certify an applicant as an inspector, risk assessor, supervisor, project designer, or abatement worker, as appropriate.

III.B.1.f. Upon receiving the-Dedivision certification, individuals conducting lead-based paint activities mustshall comply with the work practice standards for performing the appropriate lead-based paint activities as established in Section IV (Inspections, Lead-Hazard Screens, and Risk Assessments) and Section V. (Abatement Requirements) of this Regulation No-Number 19, Part A.

III.B.2. Inspector, Risk Assessor or Supervisor

III.B.2.a. To become certified by the Division as an inspector, risk assessor, or supervisor, pursuant to Section III.B.1.a.(i) of this Regulation ~~No. Number~~ 19, Part A, an individual must:

III.B.2.a.(i) Successfully complete an accredited course in the appropriate discipline and receive a course completion certificate from an accredited training program.

III.B.2.a.(ii) Pass the certification exam in the appropriate discipline offered by the Division.

III.B.2.a.(iii) Meet or exceed the following experience and/or education requirements:

III.B.2.a.(iii)(A) Inspectors

III.B.2.a.(iii)(A)(1) no additional experience and/or education requirements.

III.B.2.a.(iii)(A)(2) [Reserved]

III.B.2.a.(iii)(B) Risk Assessors

III.B.2.a.(iii)(B)(1) successful completion of an accredited training course for inspectors; and

III.B.2.a.(iii)(B)(2) Bachelor's degree and 1 year of experience in a related field (e.g., lead, asbestos, environmental remediation work, or construction), or an Associate's degree and 2 years' experience in a related field (e.g., lead, asbestos, environmental remediation work, or construction); or

III.B.2.a.(iii)(B)(3) certification as an industrial hygienist, professional engineer, registered architect and/or certification in a related engineering/health/environmental field (e.g., safety professional, environmental scientist); or

III.B.2.a.(iii)(B)(4) a high school diploma (or equivalent), and at least 3 years of experience in a related field (e.g., lead, asbestos, environmental remediation work or construction).

III.B.2.a.(iii)(C) Supervisor

III.B.2.a.(iii)(C)(1) one year of experience as a certified lead-based paint abatement worker; or

III.B.2.a.(iii)(C)(2) at least 2 years of experience in a related field (e.g., lead, asbestos, or environmental remediation work) or in the building trades.

III.B.2.b. The following documents ~~will~~shall be recognized by the ~~D~~Division as evidence of meeting the requirements listed in Section III.B.2.b.(iii) of this Regulation ~~No-Number~~ 19, Part A:

III.B.2.b.(i) official academic transcripts or diploma, as evidence of meeting the education requirements;

III.B.2.b.(ii) résumés, letters of reference, or documentation of work experience, as evidence of meeting the work experience requirements; and

III.B.2.b.(iii) course completion certificates from lead-specific or other related training courses, issued by accredited training programs, as evidence of meeting the training requirements.

III.B.2.c. In order to take the certification examination for a particular discipline an individual must:

III.B.2.c.(i) successfully complete an accredited course in the appropriate discipline and receive a course completion certificate from an accredited training program; and

III.B.2.c.(ii) meet or exceed the education and/or experience requirements in Section III.B.2.a.(iii) of this Regulation ~~No-Number~~ 19, Part A.

III.B.2.d. After passing the appropriate certification exam and submitting an application demonstrating that he/she meets the appropriate training, education, and/or experience prerequisites described in Section III.B.2.a. of this Regulation ~~No-Number~~ 19, Part A, an individual ~~will~~shall be issued a certificate by the ~~D~~Division. To maintain certification, an individual must be re-certified as described in Section III.B.5. (Re-certification) of this Regulation ~~No-Number~~ 19, Part A.

III.B.2.e. An individual may take the certification exam no more than three times within 6 months of receiving a course completion certificate.

III.B.2.f. If an individual does not pass the certification exam and receive a certificate within 6 months of receiving his/her course completion certificate, the individual must retake the appropriate course from an accredited training program before reapplying for certification from the ~~D~~Division.

III.B.3. Abatement Worker and Project Designer

III.B.3.a. To become certified by the ~~D~~Division as an abatement worker or project designer, pursuant to Section III.B.1.a. of this Regulation ~~No-Number~~ 19, Part A, an individual must:

III.B.3.a.(i) Successfully complete an accredited course in the appropriate discipline and receive a course completion certificate from an accredited training program.

III.B.3.a.(ii) Meet or exceed the following additional experience and/or education requirements.

III.B.3.a.(ii)(A) Abatement Workers

III.B.3.a.(ii)(A)(1) no additional experience and/or education requirements.

III.B.3.a.(ii)(A)(2) [Reserved]

III.B.3.a.(ii)(B) Project Designers

III.B.3.a.(ii)(B)(1) successful completion of an accredited training course for supervisors; and

III.B.3.a.(ii)(B)(2) Bachelor's degree in engineering, architecture, or a related profession, and 1 year of experience in building construction and design or a related field; or

III.B.3.a.(ii)(B)(3) four years of experience in building construction and design or a related field.

III.B.3.b. The following documents ~~will~~shall be recognized by the ~~D~~division as evidence of meeting the requirements listed in this Section III.B.3. (Abatement Worker and Project Designer) of this Regulation ~~No-Number~~19, Part A:

III.B.3.b.(i) official academic transcripts or diploma, as evidence of meeting the education requirements;

III.B.3.b.(ii) résumés, letters of reference, or documentation of work experience, as evidence of meeting the work experience requirements; and

III.B.3.b.(iii) course completion certificates from lead-specific or other related training courses, issued by accredited training programs, as evidence of meeting the training requirements.

III.B.3.c. After successfully completing the appropriate training courses and meeting any other qualifications described in Section III.B.3.a. of this Regulation ~~No-Number~~19, Part A, an individual ~~will~~shall be issued a certificate from the ~~D~~division. To maintain certification, an individual must be re-certified as described in Section III.B.5. (Re-certification) of this Regulation ~~No-Number~~19, Part A.

~~III.B.4.—Certification Based on Prior Training(Reserved)~~

~~III.B.4.a. —Any individual who received training in a lead-based paint activity between October 1, 1990 and October 29, 1998 shall be eligible for certification by the division under the alternative procedures contained in this Section III.B.4.a. of this Regulation No. 19, Part A. Individuals who have received lead-based paint activities training at an EPA-authorized State or Tribal accredited training program shall also be eligible for certification by the division under the following alternative procedures:~~

~~III.B.4.a.(i) —Applicants for certification as an inspector, risk assessor, or supervisor shall:~~

~~III.B.4.a.(i)(A) —demonstrate that the applicant has successfully completed training or on-the-job training in the conduct of a lead-based paint activity;~~

~~III.B.4.a.(i)(B)—demonstrate that the applicant meets or exceeds the education and/or experience requirements in Section III.B.2.a.(iii) of this Regulation No. 19, Part A;~~

~~III.B.4.a.(i)(C)—successfully complete an accredited refresher training course for the appropriate discipline; and~~

~~III.B.4.a.(i)(D)—pass a certification exam administered by the division for the appropriate discipline.~~

~~III.B.4.a.(ii)—Applicants for certification as an abatement worker or project designer shall:~~

~~III.B.4.a.(ii)(A)—demonstrate that the applicant has successfully completed training or on-the-job training in the conduct of a lead-based paint activity;~~

~~III.B.4.a.(ii)(B)—demonstrate that the applicant meets the education and/or experience requirements in Section III.B.3.a. of this Regulation No. 19, Part A; and~~

~~III.B.4.a.(ii)(C)—successfully complete an accredited refresher training course for the appropriate discipline.~~

III.B.5. Re-certification

III.B.5.a. To maintain certification in a particular discipline, a certified individual ~~must~~shall apply to and be re-certified by the ~~D~~division in that discipline by the ~~D~~division either:

III.B.5.a.(i) every 3 years if the individual completed a training course with a course test and hands-on assessment; or

III.B.5.a.(ii) every 5 years if the individual completed a training course with a proficiency test.

III.B.5.b. An individual ~~will~~shall be re-certified if the individual successfully completes the appropriate accredited refresher training course prior to the expiration of their current training certificate, submits a valid copy of the appropriate refresher course completion certificate to the ~~D~~division and submits a fee to the ~~D~~division according to the following structure:

III.B.5.b.(i) Inspector -- \$180 for each year of certification sought;

III.B.5.b.(ii) Risk Assessor -- \$180 for each year of certification sought;

III.B.5.b.(iii) Supervisor -- \$180 for each year of certification sought;

III.B.5.b.(iv) Worker -- \$180 for each year of certification sought; and

III.B.5.b.(v) Project Designer -- \$180 for each year of certification sought.

III.B.5.c. An individual whose training certificate has expired is required to retake the initial class prior to re-certification.

III.B.6. Certification of Lead Abatement or Lead Evaluation Firms

III.B.6.a. All firms that perform or offer to perform any of the lead-based paint activities described in Section IV. (Inspections, Lead-Hazard Screens, and Risk Assessments) and/or Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A ~~must~~shall be certified by the ~~D~~ivision.

III.B.6.a.(i). Cities, counties, municipalities or any other governmental entity employing appropriately trained and certified personnel will be exempt from obtaining certification as a LEF and paying the fee.

III.B.6.b. A firm seeking certification ~~must~~shall submit to the ~~D~~ivision a letter attesting that the firm ~~will~~shall only employ appropriately certified employees to conduct lead-based paint activities, and that the firm and its employees ~~will~~shall follow the work practice standards in Section IV. (Inspections, Lead-Hazard Screens, and Risk Assessments) and/or Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A for conducting lead-based paint activities.

III.B.6.b.(i) Firms seeking Colorado certification as a Lead Abatement Firm~~lead-based paint abatement contractor and/ or Lead Evaluation Firm~~~~inspection, lead-hazard screen, and risk assessment firm~~ ~~must~~shall submit, along with their application, a fee to the ~~D~~ivision according to the following structure:

III.B.6.b.(i)(A) Lead Abatement Firm: one-year certification for Lead Abatement ~~F~~irms -- \$600;

III.B.6.b.(i)(B) Lead Evaluation Firm: one-year certification for inspection, lead hazard screen and risk assessment firms -- \$500.

III.B.6.c. From the date of receiving the firm's ~~letter~~complete application requesting certification, the ~~D~~ivision ~~will~~shall have ~~45~~90 days to approve or disapprove the firm's request for certification. Within that time, the ~~D~~ivision ~~will~~shall respond with either a certificate of approval or a letter describing the reasons for a disapproval.

III.B.6.d. The firm ~~must~~shall maintain all records pursuant to the requirements in Section IV. (Inspections, Lead-hazard Screens, and Risk Assessments) and/or Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A.

III.B.6.e. Firms ~~must~~may first apply to the ~~D~~ivision for certification to engage in lead-based paint activities pursuant to this section on or after the effective date of this Regulation ~~No-Number~~ 19, Part A.

III.B.6.f. Firms ~~will~~shall be responsible for ensuring that anyone engaging in lead-based paint activities for their firm are properly trained and certified by the ~~D~~ivision pursuant to the requirements of this Regulation ~~No-Number~~ 19, Part A.

III.B.6.g. Firms ~~will~~shall be responsible for ensuring that anyone engaging in lead-based paint activities for their firm have a valid training certificate or Colorado certification photo identification card on the worksite at all times.

IV. Inspections, Lead-Hazard Screens, and Risk Assessments

When performing any lead-based paint activity involving an inspection, lead-hazard screen or risk assessment of a pre-1978 residential dwelling or child-occupied facility, a certified individual must perform that activity in compliance with the appropriate requirements [below](#).

IV.A. Inspection

IV.A.1. An inspection [mustshall](#) be conducted only by a person certified by the division pursuant to this Regulation ~~No-Number~~ 19, Part A as an inspector or risk assessor and, if conducted, must be conducted according to the procedures in Section IV.A. (Inspection) of this Regulation ~~No-Number~~ 19, Part A.

IV.A.2. When conducting an inspection, the following locations [mustshall](#) be selected according to documented methodologies and tested for the presence of lead-based paint:

IV.A.2.a. In the portion of a pre-1978 residential dwelling and child-occupied facility being inspected, each component with a distinct painting history and each exterior component with a distinct painting history [mustshall](#) be tested for lead-based paint, except those components that the inspector or risk assessor determines to have been replaced after 1978, or to not contain lead-based paint; and

IV.A.2.b. In the portion of a pre-1978 multi-family dwelling or child-occupied facility being inspected, each component with a distinct painting history in every common area [mustshall](#) be tested for lead-based paint, except those components that the inspector or risk assessor determines to have been replaced after 1978, or to not contain lead-based paint.

IV.A.3. Paint [mustshall](#) be sampled in the following manner:

IV.A.3.a. the analysis of paint to determine the presence of lead [mustshall](#) be conducted using documented methodologies which incorporate adequate quality control procedures; and/or

IV.A.3.b. all collected paint chip samples [mustshall](#) be analyzed according to Section IV.D. (Collection and Laboratory Analysis of Samples) of this Regulation ~~No-Number~~ 19, Part A, to determine if they contain detectable levels of lead that can be quantified numerically.

IV.A.4. The certified inspector or risk assessor [mustshall](#) prepare an inspection report that [mustshall](#) include the following information:

IV.A.4.a. date of each inspection;

IV.A.4.b. address of building;

IV.A.4.c. date of construction;

IV.A.4.d. apartment numbers (if applicable);

IV.A.4.e. name, address, and telephone number of the owner or owners of each pre-1978 residential dwelling or child-occupied facility;

- IV.A.4.f. name, signature, and certification number of each certified inspector and/or risk assessor conducting testing;
- IV.A.4.g. name, address, and telephone number of the certified firm employing each inspector and/or risk assessor, if applicable;
- IV.A.4.h. each testing method and device and/or sampling procedure employed for paint analysis, including quality control data and, if used, the serial number of any x-ray fluorescence (XRF) device;
- IV.A.4.i. specific locations of each painted component tested for the presence of lead-based paint; and
- IV.A.4.j. the results of the inspection expressed in terms appropriate to the sampling method used.

IV.B. Lead Hazard Screen

- IV.B.1. A lead hazard screen ~~must~~shall be conducted only by a person certified by the division as a risk assessor and, if conducted, must be conducted according to the procedures in this Section IV.B. (Lead Hazard Screen) of this Regulation ~~No-Number~~ 19, Part A.
- IV.B.2. If conducted, a lead hazard screen ~~must~~shall be conducted as follows:
 - IV.B.2.a. Background information regarding the physical characteristics of the pre-1978 residential dwelling or child-occupied facility and occupant use patterns that may cause lead-based paint exposure to one or more children under 7 years of age ~~must~~shall be collected.
 - IV.B.2.b. A visual inspection of the pre-1978 residential dwelling or child-occupied facility ~~must~~shall be conducted to:
 - IV.B.2.b.(i) determine if any deteriorated paint is present, and
 - IV.B.2.b.(ii) locate at least two dust sampling locations.
 - IV.B.2.c. If deteriorated paint is present, each surface with deteriorated paint, which is determined, using documented methodologies, to be in poor condition and to have a distinct painting history, ~~must~~shall be tested for the presence of lead.
 - IV.B.2.d. In residential dwellings two composite dust samples ~~must~~shall be collected, one from the floors and the other from the windows, in rooms, hallways or stairwells where one or more children, under 7 years of age, are most likely to come in contact with dust.
 - IV.B.2.e. In pre-1978 multi-family dwellings and child-occupied facilities, in addition to the floor and window samples required in Section IV.B.2.d. of this Regulation ~~No-Number~~ 19, Part A, the risk assessor ~~must~~shall also collect composite dust samples from common areas where one or more children, under 7 years of age, are most likely to come into contact with dust.
- IV.B.3. Dust samples ~~must~~shall be collected and analyzed in the following manner.

IV.B.3.a. all dust samples ~~shall~~must be taken using documented methodologies that incorporate adequate quality control procedures; and

IV.B.3.b. all collected dust samples ~~must~~shall be analyzed according to Section IV.D. (Collection and Laboratory Analysis of Samples) of this Regulation ~~No-Number~~ 19, Part A, to determine if they contain detectable levels of lead that can be quantified numerically.

IV.B.4. Paint ~~must~~shall be sampled in the following manner:

IV.B.4.a. the analysis of paint to determine the presence of lead ~~must~~shall be conducted using documented methodologies which incorporate adequate quality control procedures; and/or

IV.B.4.b. all collected paint chip samples ~~shall~~must be analyzed according to Section IV.D (Collection and Laboratory Analysis of Samples) of this Regulation ~~No-Number~~ 19, Part A, to determine if they contain detectable levels of lead that can be quantified numerically.

IV.B.5. The risk assessor ~~shall~~must prepare a lead hazard screen report, which ~~shall~~must include the following information:

IV.B.5.a. The information required in a risk assessment report as specified in Section IV.C. (Risk Assessment) of this Regulation ~~No-Number~~ 19, Part A, including Sections IV.C.10.a. through IV.C.10.n. of this Regulation ~~No-Number~~ 19, Part A, and excluding Sections IV.C.10.o. through IV.C.10.r. of this Regulation ~~No-Number~~ 19, Part A. Additionally, any background information collected pursuant to Section IV.B.2.a. of this Regulation ~~No-Number~~ 19, Part A, ~~must~~shall be included in the risk assessment report.

IV.B.5.b. Recommendations, if warranted, for a follow-up risk assessment, and as appropriate, any further actions.

IV.C. Risk Assessment

IV.C.1. A risk assessment ~~must~~shall be conducted only by a person certified by the division as a risk assessor and, if conducted, must be conducted according to the procedures in this Section IV.C. (Risk Assessment) of this Regulation ~~No-Number~~ 19, Part A.

IV.C.2. A visual inspection for risk assessment of the pre-1978 residential dwelling or child-occupied facility ~~must~~shall be undertaken to locate the existence of deteriorated paint, assess the extent and causes of the deterioration, and other potential lead-based paint hazards.

IV.C.3. Background information regarding the physical characteristics of the pre-1978 residential dwelling, or child-occupied facility and occupant use patterns that may cause lead-based paint exposure to one or more children under 7 years of age ~~must~~shall be collected.

IV.C.4. The following surfaces that are determined, using documented methodologies, to have a distinct painting history, ~~must~~shall be tested for lead;

IV.C.4.a. Each friction surface or impact surface with visibly deteriorated paint; and

IV.C.4.b. All other surfaces with visibly deteriorated paint.

IV.C.5. In pre-1978 residential dwellings, dust samples (either composite or single-surface samples) from the interior window sills and floor ~~must~~shall be collected in all living areas where one or more children, under 7 years of age, are most likely to come into contact with dust.

IV.C.6. For pre-1978 multi-family dwellings and child-occupied facilities, the samples required in Section IV.C.4. of this Regulation ~~No-Number~~ 19, Part A, ~~must~~shall be taken. In addition, interior window sill and floor dust samples (either composite or single-surface samples) ~~shall~~must be collected in the following locations:

IV.C.6.a. common areas adjacent to the sampled pre-1978 residential dwelling or child-occupied facility; and

IV.C.6.b. other common areas in the building where the risk assessor determines that one or more children, under 7 years of age, are likely to come into contact with dust.

IV.C.7. For child-occupied facilities, interior window sill and floor dust samples (either composite or single-surface samples) shall be collected in each room, hallway or stairwell utilized by one or more children, under 7 years of age, and in other common areas in the child-occupied facility where the risk assessor determines one or more children, under 7 years of age, are likely to come into contact with dust.

IV.C.8. Soil samples ~~shall~~must be collected and analyzed for lead concentrations in the following locations:

IV.C.8.a. exterior play areas where bare soil is present; and

IV.C.8.b. The rest of the yard (i.e., non-play areas) where bare soil is present.

IV.C.8.c. Any paint, dust, or soil sampling or testing ~~shall~~must be conducted using documented methodologies that incorporate adequate quality control procedures.

IV.C.9. Any collected paint chip, dust, or soil samples ~~shall~~must be analyzed according to Section IV.D. (Collection and Laboratory Analysis of Samples) of this Regulation ~~No-Number~~ 19, Part A, to determine if they contain detectable levels of lead that can be quantified numerically.

IV.C.10. The certified risk assessor ~~shall~~must prepare a risk assessment report that ~~shall~~must include the following information:

IV.C.10.a. date of assessment;

IV.C.10.b. address of each building;

IV.C.10.c. date of construction of buildings;

IV.C.10.d. apartment number (if applicable);

IV.C.10.e. name, address, and telephone number of each owner of each building;

IV.C.10.f. name, signature, and certification of the certified risk assessor conducting the assessment;

- IV.C.10.g. name, address, and telephone number of the certified firm employing each certified risk assessor if applicable;
- IV.C.10.h. name, address, and telephone number of each recognized laboratory conducting analysis of collected samples;
- IV.C.10.i. results of the visual inspection;
- IV.C.10.j. testing method and sampling procedure for paint analysis employed;
- IV.C.10.k. specific locations of each painted component tested for the presence of lead;
- IV.C.10.l. all data collected from on-site testing, including quality control data and, if used, the serial number of any XRF device;
- IV.C.10.m. all results of laboratory analysis on collected paint, soil, and dust samples;
- IV.C.10.n. any other sampling results;
- IV.C.10.o. any background information collected pursuant to Section IV.C.3. of this Regulation ~~No-Number~~ 19, Part A;
- IV.C.10.p. to the extent that they are used as part of the lead-based paint hazard determination, the results of any previous inspections or analyses for the presence of lead-based paint, or other assessments of lead-based paint-related hazards;
- IV.C.10.q. a description of the location, type, and severity of identified lead-based paint hazards and any other potential lead hazards; and
- IV.C.10.r. a description of interim controls and/or abatement options for each identified lead-based paint hazard and a suggested prioritization for addressing each hazard; if the use of an encapsulant or enclosure is recommended, the report ~~shall~~must recommend a maintenance and monitoring schedule for the encapsulant or enclosure.

IV.D. Collection and Laboratory Analysis of Samples

Any paint chip, dust, or soil samples collected as required by the work practice standards contained in this Section IV. (Inspections, Lead Hazard Screens, and Risk Assessments) of this Regulation ~~No-Number~~ 19, Part A ~~shall~~must be:

- IV.D.1. collected by persons certified by the division pursuant to this Regulation ~~No-Number~~ 19, Part A as an inspector or risk assessor; and
- IV.D.2. analyzed by a recognized laboratory.

IV.E. Composite Dust Sampling

Composite dust sampling may only be conducted in the situations specified in Sections IV.B. (Lead Hazard Screen) and IV.C. (Risk Assessment) of this Regulation ~~No-Number~~ 19, Part A. If such sampling is conducted, the following conditions ~~will~~shall apply:

- IV.E.1. composite dust samples shall must consist of at least two subsamples;
- IV.E.2. every component that is being tested shall must be included in the sampling; and
- IV.E.3. composite dust samples shall must not consist of subsamples from more than one type of component.

IV.F. Recordkeeping

All reports or plans required in this Section shall must be maintained by the certified firm or individual who prepared the report for no fewer than 3 years. The certified firm or individual also shall must provide copies of these reports to the building owner who contracted for its services.

IV.G. Alternative Procedures and Variances

The division may, at its discretion, grant a variance from the requirements in this Section IV. (Inspections, Lead Hazard Screens, and Risk Assessments) of this Regulation No. Number 19, Part A, allowing use of an alternative procedure for the inspection, risk assessment, and lead hazard screen provided that the person requesting the variance submit an alternative procedure in writing to the division and demonstrates to the satisfaction of the division that compliance with this Regulation No. Number 19, Part A is not practical or that the proposed alternative procedures provides equivalent means for determining the presence of lead and lead-based paint hazards.

IV.H. Determinations

IV.H.1. Lead-based paint is present:

- IV.H.1.a. On any surface that is tested and found to contain lead equal to or in excess of 1.0 milligrams per square centimeter or equal to or in excess of 0.5% by weight; and
- IV.H.1.b. On any surface like a surface tested in the same room equivalent that has a similar painting history and that is found to be lead-based paint.

IV.H.2. A paint-lead hazard is present:

- IV.H.2.a. On any friction surface that is subject to abrasion and where the lead dust levels on the nearest horizontal surface underneath the friction surface (e.g., the window sill or floor) are equal to or greater than the dust hazard levels identified in this Regulation No. Number 19, Part A.
- IV.H.2.b. On any chewable lead-based paint surface on which there is evidence of teeth marks;
- IV.H.2.c. Where there is any damaged or otherwise deteriorated lead-based paint on an impact surface that is cause by impact from a related component (such as a door knob that knocks into a wall or a door that knocks against its door frame: and
- IV.H.2.d. If there is any other deteriorated lead-based paint in any residential building or child-occupied facility or on the exterior of any residential building or child-occupied facility.

IV.H.3. A dust-lead hazard is present in a residential dwelling or child-occupied facility:

IV.H.3.a. ~~In a residential dwelling or~~ On the floors and interior window sills when the weighted arithmetic mean lead loading for all single surface or composite samples of floors and interior window sills are equal to or greater than ~~1040~~ 10250 µg/ft² for floors and ~~100250~~ µg/ft² for interior window sills, respectively:

IV.H.3.b. On floors or interior window sills in an unsampled residential dwelling in a multi-family dwelling, if a dust-lead hazard is present on floors or interior window sills, respectively, in at least one sampled residential unit on the property; and

IV.H.3.c. On floors or interior window sills in an unsampled common area in a multi-family dwelling, if a dust-lead hazard is present on floors or interior window sills, respectively, in at least one sampled common area group on the property.

IV.H.4. A soil-lead hazard is present:

IV.H.4.a. In a play area when the soil-lead concentration from a composite area sample of bare soil is equal to or greater than 400 parts per million: or

IV.H.4.b. In the rest of the yard when the arithmetic mean lead concentration from a composite sample (or arithmetic mean of composite samples) of bare soil from the rest of the yard (i.e., non-play areas) for each residential building on a property is equal to or greater than 1,200 parts per million.

V. Abatement Requirements

V.A. General Requirements

V.A.1. Except for those persons and activities exempted in Section I. (Scope and Applicability) of this Regulation ~~No-Number~~ 19, Part A, persons performing lead-based paint abatement in or to a pre-1978 residential dwelling or child-occupied facility ~~shall~~must comply with all the requirements of Section III. (Training and Certification Requirements) and this Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A, if ~~any~~either one of the following conditions apply:

V.A.1.a. two or more square feet of lead-based paint or lead contaminated dust is being abated per room or equivalent.

V.A.1.b. twenty or more square feet of lead-based paint, lead contaminated dust, or lead contaminated soil is being abated from or on the exterior building.

V.A.1.c. at least one window is being abated.

V.A.2. An abatement ~~must~~shall be conducted only by ~~an~~ individuals certified by the division working for a certified LAF, and if conducted, ~~shall~~must be conducted according to the procedures in this Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A.

V.A.3. A certified supervisor is required for each abatement project and ~~shall~~must be onsite during all abatement activities, work site preparation and during the post-abatement cleanup of work areas.

V.A.4. The certified supervisor and the certified LAF firm employing that supervisor ~~shall~~must ensure that all abatement activities are conducted according to the requirements of this Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A, and all other Federal, State and local requirements.

V.A.5. Notification

V.A.5.a. Notification of the commencement of lead-based paint abatement in or to a pre-1978 residential dwelling or child-occupied facility ~~shall~~must be provided on a ~~division-approved~~ form specified by the Division and postmarked or ~~hand-~~delivered to the division, ~~the local county health department and the local building department~~ a minimum of 10 working days prior to the commencement of abatement activities.

V.A.5.b. The 10 working day notification may be waived by the Division if one or more of the following conditions exist:

V.A.5.b.(i) a child with an elevated blood lead level resides within the pre-1978 residential dwelling or child-occupied facility or regularly visits the child-occupied facility where the abatement will occur; or

V.A.5.b.(ii) the Division determines that an imminent danger to health exists; or

V.A.5.b.(iii) the Division determines that an unavoidable hardship would result.

V.A.5.c. The applicable notification fee given ~~below~~ ~~shall~~must accompany the notification form for the notice to be accepted by the Division.

VALUATION OF WORK	NOTIFICATION FEE
\$2,000 or less	\$155
\$2,001 - \$50,000	\$145 base plus \$8.00 per \$1,000 in valuation or fraction thereof of total valuation
\$50,001 - \$100,000	\$195 base plus \$7.00 per \$1,000 in valuation or fraction thereof of total valuation
\$100,001 - \$500,000	\$295 base plus \$6.00 per \$1,000 in valuation or fraction thereof of total valuation
Over \$500,000	\$795 base plus \$5.00 per \$1,000 in valuation or fraction thereof of total valuation

V.A.6. Occupant Protection Plan

A written occupant protection plan ~~shall~~must be developed for all abatement projects and ~~shall~~must be prepared according to the following procedures:

V.A.6.a. The occupant protection plan ~~shall~~must be unique to each pre-1978 residential dwelling or child-occupied facility, ~~and~~ be developed prior to the abatement ~~and~~ submitted with the lead abatement permit application for review and approval. The occupant protection plan ~~shall~~must describe the measures and management procedures that will be taken during the abatement to protect the building occupants from exposure to any lead-based paint hazards. At a minimum, the plan ~~shall~~must include a site-specific description of how the contractor will

implement the applicable occupant protection measures contained in Sections V.B. (Work Practice Restrictions and Prohibitions) through V.K. (Waste Handling) of this Regulation ~~No-Number~~ 19, Part A. In addition, the plan shallmust specifically address whether occupant relocation during abatement activities is necessary.

V.A.6.b. A certified supervisor or project designer shallmust prepare the occupant protection plan.

V.A.6.c. The occupant protection plan must also provide sufficient detail for the Division to understand and evaluate the following:

V.A.6.c.(i). The scope of work for the project. Include types and amounts of material to be abated.

V.A.6.c.(ii) Submit a floor plan or drawing of the project location. Indicate on the floor plan or drawing, the location of lead hazard(s) to be abated as well as the work areas and containments labelled accordingly.

V.A.6.c.(iii) Describe the work practices to be implemented. Describe specific work practices for each unique abatement activity.

V.A.6.c.(iv) Explain the abatement methods that will be used.

V.A.6.c.(v) Explain the clearance procedures that will be used to clear this project, including the sampling methods, number of samples that will be taken, the final clearance inspector name and their certification number.

V.A.6.c.(vi) Provide the name and certification number of the individual who prepared the occupant protection plan. This person must also sign and date the occupant protection plan.

V.A.7. The integrity of all containment systems shallmust be maintained during abatement to prevent the potential spread of any lead contamination outside the work area. Should a breach occur, the areas contaminated with lead shallmust be cleaned in accordance with the applicable requirements in Section V.H (Cleaning) of this Regulation ~~No-Number~~ 19, Part A, and cleared in accordance with the applicable requirements in Section V.J (Final Clearance) of this Regulation ~~No-Number~~ 19, Part A.

V.B. Work Practice Restrictions and Prohibitions

The work practices listed ~~below~~ willshall be restricted as follows during an abatement.

V.B.1. Open-flame burning or torching of lead-based paint is prohibited.

V.B.2. Machine sanding or grinding or abrasive blasting or sandblasting or drilling or cutting of lead-based paint is prohibited unless used with High Efficiency Particulate Air (HEPA) exhaust control that continually captures all particulate from the surface being abated.

V.B.3. Dry scraping of lead-based paint is permitted only in conjunction with heat guns or around electrical outlets.

- V.B.4. Operating a heat gun on lead-based paint is permitted only at temperatures below 1100 degrees Fahrenheit.
- V.B.5. Uncontained hydroblasting or high-pressure water washing is prohibited unless the point of operation is completely self-contained within a local shroud and the water is captured within the shroud.
- V.B.6. Chemical stripping methods may only be used to remove lead-based paint from highly decorative or ornate components or surfaces that are otherwise difficult to abate by any other method.
- V.B.7. Dry, hand sanding is prohibited.

V.C. Interior Abatement Requirements (excluding window abatements)

- V.C.1. The following containment system shall be used for all interior abatement projects. For window abatement see Section V.E except window abatements:

V.C.1.a. A containment level I-1, I-2 or I-3, as described in this Section V.C. (Interior Abatement Requirements) of this Regulation No-Number 19, Part A, shall be used in those work areas if the amount of lead-based paint or lead-contaminated dust that will be disturbed per room, hallway, or stairwell is less than 2 square feet.

V.C.1.b. A containment level I-2 or I-3, as described in this Section V.C. (Interior Abatement Requirements) of this Regulation No-Number 19, Part A, shall be used in those work areas if the amount of lead-based paint or lead-contaminated dust that will be disturbed per room, hallway, or stairwell is 2 or more square feet.

V.C.1.c. Regardless of the requirements in Sections V.C.1.a. and b. of this Regulation No-Number 19, Part A, an interior containment level I-3, as described in Section V.C.4. of this Regulation No-Number 19, Part A, shall be used to contain the work area if either one of the following conditions apply:

V.C.1.c.(i) if any amount of floor surface that is painted with lead-based paint, or was at one time painted with lead-based paint, is machine sanded; or

V.C.1.c.(ii) if any amount of lead-based paint is abated by abrasive blasting.

- V.C.2. Interior containment level I-1 shall consist of the following elements:

V.C.2.a. Warning Signs. At a minimum, warning signs shall be posted at all entryways to the work area. The warning signs shall, in a language understandable by all occupants, state the following warning:

WARNING
LEAD ABATEMENT WORK AREA
HAZARDOUS LEAD DUST
POISON
DO NOT ENTER

V.C.2.b. Warning Barriers. A physical barrier (furniture, wood planking) ~~shall~~must be placed around the work area perimeter so as to prevent inadvertent access by children.

V.C.2.c. _____ Ventilation System Shutdown. Vents that are within 5 feet from the surface being abated must be sealed with 6-mil thickness polyethylene sheeting to prevent contaminated air from leaving the work area.

V.C.2.d. Protection of Objects. Furniture and other movable objects within 5 feet in all directions of the surface to be abated ~~shall~~must be moved outside the room, hallway, or stairwell. Objects or furniture that cannot be moved ~~shall~~must be ~~covered~~sealed with a minimum of one layer of 6-mil polyethylene sheeting sealed to the floor, wall or ceiling as applicable.

V.C.2.e. Floor Protection. At a minimum, one layer of 6-mil thickness polyethylene sheeting or greater ~~shall~~must be sealed to the floor at least 5 feet beyond the perimeter of the surface being abated in all directions, so as to prevent contamination of the floor. Floors ~~shall~~must be pre-cleaned of debris as required in Section V.H.1. (Pre-cleaning) of this Regulation ~~No-Number~~ 19, Part A prior to sealing polyethylene sheeting on the floor.

V.C.2.f. _____ Cleanup. All surfaces and floors extending 5 feet in all directions from the abated surface, and all adjacent areas used as a pathway to the work area, ~~shall~~must be cleaned by HEPA vacuuming, wet washing, and HEPA vacuuming, and as required in Section V.H. (Cleaning) of this Regulation ~~No-Number~~ 19, Part A.

V.C.3. Interior containment level I-2 ~~shall~~must consist of the following elements:

V.C.3.a. Warning Signs. At a minimum, warning signs ~~shall~~must be posted at all entryways to the work area. The warning signs ~~shall~~must, in a language understandable by all occupants, at least state the following warning:

WARNING
LEAD ABATEMENT WORK AREA
HAZARDOUS LEAD DUST
POISON
DO NOT ENTER

V.C.3.b. Ventilation System Shutdown. The ventilation system supplying air to the work area ~~shall~~must be turned off or otherwise prevented from supplying air to the work area until clearance has been achieved. All registers, vents and openings in the work area ~~shall~~must be sealed with 6-mil thickness polyethylene sheeting.

V.C.3.c. _____ Barriers. All openings to the work area ~~shall~~must be sealed off from the rest of the building with a minimum of 1 layer of 6-mil thickness polyethylene sheeting to prevent air flow out of the work area.

V.C.3.d. Work Area Egress. Entry into and egress out of the work area ~~shall~~must be through an airlock that, at a minimum, ~~shall~~must consist of a single chamber with self-closing triple flaps or "Z-flaps" on either side of the chamber. Disposable

clothing and footwear shall~~must~~ be worn by all persons entering the containment area. Disposable clothing and footwear used inside the containment shall~~must~~ be deposited in this airlock chamber prior to personnel exiting containment.

V.C.3.e. Protection of Objects. Furniture and other movable objects shall~~must~~ be moved outside the room, hallway, or stairwell. Objects or furniture that cannot be moved shall~~must~~ be sealed~~covered~~ with a minimum of one layer of 6-mil polyethylene sheeting ~~sealed to the floor, wall or ceiling as applicable.~~

V.C.3.f. Floor Protection. The entire floor within the work area shall~~must~~ be sealed with a minimum of 2 layers of 6-mil thickness polyethylene sheeting. The polyethylene sheeting shall~~must~~ be installed such that removal of the top most layer of polyethylene sheeting will not cause the underlying polyethylene sheeting to lose its seal. Floors shall~~must~~ be pre-cleaned of debris as required in Section V.H.1. (Pre-cleaning) of this Regulation No-Number 19, Part A prior to sealing polyethylene sheeting on the floor.

V.C.3.g. Cleanup. All surfaces in the work area and all adjacent areas used as a pathway to the work area shall~~must~~ be cleaned by HEPA vacuuming, wet washing, and HEPA vacuuming, and as required in Section V.H. (Cleaning) of this Regulation No-Number 19, Part A. Polyethylene sheeting shall~~must~~ be removed in accordance with Section V.H.4. (Polyethylene Sheet Removal Procedures) of this Regulation No-Number 19, Part A.

V.C.4. Interior containment level I-3 shall~~must~~ consist of the following elements:

V.C.4.a. Containment. At a minimum, all the level I-2 containment requirements as described in Section V.C.3. of this Regulation No-Number 19, Part A.

V.C.4.b. Work Area Egress. Entry into and egress out of the work area shall~~must~~ be through a 3-stage decontamination unit with a shower equipped with hot and cold water that is adjustable inside the shower unit. Each airlock in the decontamination unit shall~~must~~ be constructed with self-closing triple flaps or "Z-flaps" separating each individual chamber. Persons entering the abatement work area prior to final clearance shall~~must~~ don disposable clothing and footwear. Prior to exiting the containment, personnel shall~~must~~ dispose of the suits in the chamber adjacent to the work area and shower.

V.C.4.c. Negative Pressure/Airflow. The containment shall~~must~~ have a negative pressure differential of at least -0.02 inches' water column between the inside of the work area and the adjacent outside area ~~clean area inside the pre-1978 residential dwelling or child-occupied facility.~~ The pressure differential shall~~must~~ be continuously recorded with a recording manometer. The air within the work area shall~~must~~ be exchanged at a minimum rate of 10 times per hour and exhausted to the exterior of the building. Air flow shall~~must~~ always be from the outside of containment to within, as verified by smoke testing. Smoke tubes shall~~must~~ be on site at all times during abatement.

V.D. Exterior Abatement Requirements

V.D.1. Exterior Abatement Project Restrictions

All exterior abatement projects subject to this Regulation No-Number 19, Part A, except for abatement work areas sufficiently contained with an exterior containment level of X-2 or X-3, shall~~must~~ comply with the following restrictions.

V.D.1.a. Exterior abatement, except for cleanup to prevent the spread of lead contamination, shall must not proceed if the local wind gusts are, or are expected to be, greater than 20 miles per hour.

V.D.1.b. Exterior abatement shall must stop and cleanup shall must occur before rain begins.

V.D.2. Containment Requirements

V.D.2.a. The following containment system shall must be used for all exterior abatement projects. For window abatement see Section V.E., for soil abatement see Section V.F. except window and soil abatements:

V.D.2.a.(i) An exterior containment level X-1, X-2, or X-3, as described in this Section V.D.2. (Containment Requirements) of this Regulation No-Number 19, Part A, shall must be used if the amount of lead-based paint that will be disturbed is less than 20 square feet.

V.D.2.a.(ii) An exterior containment level X-2 or X-3, as described in this Section V.D.2. (Containment Requirements) of this Regulation No-Number 19, Part A, shall must be used if the amount of lead-based paint that will be disturbed is 20 or more square feet.

V.D.2.a.(iii) Regardless of the requirements in Sections V.D.2.a.(i) and (ii) of this Regulation No-Number 19, Part A, an exterior containment level X-3 as described in Section V.D.2.d. of this Regulation No-Number 19, Part A shall must be used if either one of the following conditions apply:

V.D.2.a.(iii)(A) any amount of floor surface (e.g. patio, step, deck) that is painted with lead-based paint, or was at one time painted with lead-based paint, is power sanded; or

V.D.2.a.(iii)(B) any amount of lead-based paint is abated by abrasive blasting.

V.D.2.b. Exterior containment level X-1 shall must consist of the following elements:

V.D.2.b.(i) Warning Signs. Post warning signs on the building and at a 20-foot perimeter around the building (or less if distance to the next building or sidewalk is less than 20 feet). The warning signs shall must, in a language understandable by all occupants, state the following warning:

WARNING
LEAD ABATEMENT WORK AREA
HAZARDOUS LEAD DUST
POISON
DO NOT ENTER

V.D.2.b.(ii) Warning Barriers. Erect temporary fencing or barrier tape at a 20-foot perimeter around working surfaces (or less if distance to the next building or sidewalk is less than 20 feet). If an entryway to the building is

within 10 feet of the working surfaces, an alternate entryway shallmust be provided. At least one lead-safe entryway shallmust be made available to occupants at all times, unless the occupants have been relocated until final clearance has been achieved.

V.D.2.b.(iii) Barriers. All windows within 20 feet of the working surfaces shallmust be closed or sealed, including windows in adjacent structures.

V.D.2.b.(iv) Protection of Objects. All movable objects shallmust be removed to a minimum of 20 feet away from abatement surfaces in all directions. Objects that cannot be removed shallmust be ~~covered~~sealed with a minimum of 1 layer of 6-mil thickness polyethylene sheeting sealed to the floor, wall or ceiling as applicable..

V.D.2.b.(v) Ground Protection. At a minimum, the ground, including decks, driveways, and porches, extending 10 feet beyond the perimeter of the abatement surfaces in all directions shallmust be covered with one layer of 6-mil thickness polyethylene sheeting. The edges of the polyethylene sheeting shallmust be sealed to the building such that no gaps between the polyethylene sheeting and the building exist. The edges of the polyethylene sheeting shallmust be raised to create a basin to contain contaminated runoff. The polyethylene sheeting shallmust be weighted down or otherwise secured to prevent movement. The ground shallmust be pre-cleaned of visible debris as required in Section V.H.1. (Pre-cleaning) of this Regulation ~~No. Number~~ 19, Part A prior to sealing it with polyethylene sheeting.

V.D.2.b.(vi) Cleanup. All debris and ground polyethylene sheeting must be removed from the work area before leaving the site each night. Polyethylene sheeting shallmust be cleaned and removed in accordance with Section V.H.4. (Polyethylene Sheeting Removal Procedures) of this Regulation ~~No. Number~~ 19, Part A. Paint chips in the soil shallmust be HEPA vacuumed and properly disposed.

V.D.2.c. Exterior containment level X-2 shallmust consist of the following elements:

V.D.2.c.(i) Warning Signs. Post visible warning signs on the building and on the outside of the containment barriers. The warning signs shallmust, in a language understandable by all occupants, state the following warning:

WARNING
LEAD ABATEMENT WORK AREA
HAZARDOUS LEAD DUST
POISON
DO NOT ENTER

V.D.2.c.(ii) Barriers. All openings to the work area shallmust be sealed off with a minimum of 1 layer of 6-mil thickness polyethylene sheeting to prevent air flow out of the work area.

V.D.2.c.(iii) Work Area Egress. Entry into and egress out of the work area shall be through an airlock that, at a minimum, must consist of a single chamber with self-closing triple flaps or “Z-flaps” on either side of the chamber. Disposable clothing and footwear shall be worn by all persons entering the containment area. Disposable clothing and footwear used inside the containment shall be deposited in this airlock chamber prior to personnel exiting containment.

V.D.2.c.(iv) Protection of Objects. All movable objects shall be removed from the work area. Objects that cannot be removed shall be covered with a minimum of 1 layer of 6-mil thickness polyethylene sheeting sealed to the floor, wall or ceiling as applicable.

V.D.2.c.(v) Ground Protection. At a minimum, the ground, including decks, driveways and porches, within the work area shall be covered with two layers of 6-mil thickness polyethylene sheeting. The edges of the polyethylene sheeting shall be sealed to the building such that no gaps between the polyethylene sheeting and the building exist. The edges of the polyethylene sheeting shall be raised to create a basin to contain contaminated runoff. The polyethylene sheeting shall be weighted down or otherwise secured to prevent movement. The ground shall be pre-cleaned of visible debris as required in Section V.H.1. (Pre-cleaning) of this Regulation No-Number 19, Part A prior to sealing it with polyethylene sheeting.

V.D.2.c.(vi) Cleanup. Polyethylene barriers shall be cleaned and removed in accordance with Section V.H.4. (Polyethylene Sheeting Removal Procedures) of this Regulation No-Number 19, Part A. All surfaces and floors within the containment and all adjacent areas used as a pathway to the work area, shall be cleaned by HEPA vacuuming, wet washing, and HEPA vacuuming, and as required in Section V.H. (Cleaning) of this Regulation No-Number 19, Part A. Paint chips in the soil shall be HEPA vacuumed and properly disposed.

V.D.2.d. Exterior containment level X-3 shall consist of the following elements:

V.D.2.d.(i) Containment. At a minimum, all the exterior level X-2 containment requirements as described in Section V.D.2.c. of this Regulation No-Number 19, Part A.

V.D.2.d.(ii) Work Area Egress. Entry into and egress out of the work area shall be through a 3-stage decontamination unit with a shower equipped with hot and cold water that is adjustable inside the shower. Each airlock in the decontamination unit shall be constructed with self-closing triple flaps or “Z-flaps” separating each individual chamber. Persons entering the abatement work area prior to final clearance shall don disposable clothing and footwear. Prior to exiting the containment, personnel shall dispose of the suits in the chamber adjacent to the work area and shower.

V.D.2.d.(iii) Negative Pressure/Airflow. The containment shall have a negative pressure differential of at least -0.02 inches' water column between the work area and the clean area. The pressure differential shall be continuously recorded with a recording manometer. The air within the work area shall be exchanged at a minimum rate of 10 times per hour. Air flow shall always be from the outside of

containment to within, as verified by smoke testing. Smoke tubes ~~shall~~must be on site at all times during abatement.

V.E. Window Abatement

Window abatement requires the person performing the abatement to select and utilize one of the three options (V.E.1., V.E.2., or V.E.3.)

V.E.1. When abating windows from the exterior of a pre-1978 residential dwelling or child-occupied facility, the person performing the abatement ~~shall~~must comply with the following requirements:

V.E.1.a. Comply with the restrictions in Section V.D.1. (Exterior Abatement Project Restrictions) of this Regulation ~~No-Number~~ 19, Part A.

V.E.1.b. At a minimum, seal two layers of 6-mil thickness polyethylene sheeting to the inside wall covering the window so as to prevent dust from migrating inside the building during abatement; and

V.E.1.c. At a minimum, comply with all the exterior containment level X-1, level X-2 or level X-3 requirements described in Section V.D.2. (Containment Requirements) of this Regulation ~~No-Number~~ 19, Part A.

V.E.2. When abating windows from the interior of a pre-1978 residential dwelling or child-occupied facility, the person performing the abatement ~~shall~~must comply with the following requirements:

V.E.2.a. at a minimum, secure two layers of 6-mil thickness polyethylene sheeting to the exterior wall so as to prevent dust from migrating outside the building during abatement; and

V.E.2.b. comply with all interior containment level I-2 or level I-3 requirements as described in Section V.C. (Interior Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A.

V.E.3. When abating windows, the person performing the abatement can do so by following all three elements:

V.E.3.a. Comply with all interior containment level I-2 or level I-3 requirements as described in Section V.C.3 and V.C.4. (Interior Abatement Requirements) of this Regulation Number 19, Part A.

V.E.3.b. Comply with the restrictions in Section V.D.1. (Exterior Abatement Project Restrictions) of this Regulation Number 19, Part A.

V.E.3.c. At a minimum, comply with all the exterior containment level X-2 or level X-3 requirements described in Section V.D.2.c. and V.D.2.d. (Exterior Abatement Requirements) of this Regulation Number 19, Part A.

V.E.43. If ~~containment~~ the polyethylene sheeting described in Sections V.E.1.b or V.E.2.a. is breached, then surfaces on both sides of the window ~~shall~~must be cleaned in accordance

with the applicable requirements in Section V.H. (Cleaning) of this Regulation ~~No-Number~~ 19, Part A, and cleared in accordance with the applicable requirements in Section V.J. (Final Clearance) of this Regulation ~~No-Number~~ 19, Part A.

V.F. Soil Abatement

V.F.1. If conducted, or required pursuant to Section V.J.1.g.(ii) of this Regulation ~~No-Number~~ 19, Part A, soil abatement ~~shall~~must be conducted in one of the following ways:

_____ V.F.1.a. If soil is removed the person performing the removal ~~shall~~must:

_____ V.F.1.a.(i) comply with the exterior abatement project restrictions as described in Section V.D.1. (Exterior Abatement Project Restrictions) of this Regulation ~~No-Number~~ 19, Part A and the exterior containment level X-1, level X-2, or level X-3 requirements, as described in Section V.D. (Exterior Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A; and

_____ V.F.1.a.(ii) replace the lead-contaminated soil with soil ~~as close to local background as practical, but~~ no greater than 400 µg/g of lead.

_____ V.F.1.a.(iii) ~~t~~The soil that is removed ~~shall~~must not be used as top soil at another residential property or child-occupied facility.

V.F.1.b. _____ If soil is not removed, the lead-contaminated soil ~~shall~~must be permanently covered, as defined in Section II.B. ~~6159~~ of this Regulation ~~No-Number~~ 19, Part A.

V.F.2. The abatement, handling, transportation, and disposal of lead-contaminated soil ~~shall~~must be performed in a manner that prevents the spread of lead contamination to areas outside the abatement work area and the approved landfill.

V.G. Encapsulation and Enclosure Requirements

V.G.1. Encapsulation and enclosure systems ~~shall~~must be dust tight for a design life of at least 20 years. Encapsulation and enclosure systems ~~shall~~must not be used on unsound substrates that cannot be stabilized or repaired to support the enclosure or encapsulation systems for at least 20 years.

V.G.2. Encapsulation and enclosure systems ~~shall~~must be sealed in accordance with Section V.I.2. (Sealing Replacement Components, Enclosure and Encapsulation) of this Regulation ~~No-Number~~ 19, Part A.

V.G.3. ~~To prevent a breach of an enclosure,~~The surface behind the enclosure ~~shall~~must be permanently labeled every 2 feet with the following warning, "Danger: Lead-Based Paint." A durable drawing of the property floor plan identifying the enclosed areas ~~shall~~must be mounted in a visible location within the structure (e.g. utility room, furnace area, garage).

V.G.4. Only those encapsulants explicitly recognized by the ~~D~~ivision ~~may~~shall be used for abatement projects subject to this Regulation ~~No-Number~~ 19, Part A. The list of Division approved lead encapsulants can be found on the Division's lead web page. <https://cdpe>

V.H. Cleaning

V.H.1. Pre-cleaning. Visible paint chips and lead-contaminated dust shall be removed from the work area prior to laying polyethylene sheeting on the floor but after all other containment barriers have been erected.

V.H.2. Daily Cleaning. All horizontal surfaces in the work area shall be cleaned of visible dust and debris prior to ceasing work for the day.

V.H.3. Carpet, Upholstery and Forced Air Duct Cleaning

V.H.3.a. Carpet and Rugs. All carpets or rugs that are contaminated with lead-contaminated dust that will be cleaned, and all carpet in the work area that will not be disposed of as lead-contaminated waste, shall be cleaned as set forth ~~below~~:

V.H.3.a.(i) HEPA vacuums shall be used to vacuum all rugs and carpets. A HEPA vacuum equipped with a beater bar or agitator attachment on the vacuum head to dislodge embedded dust shall be used when vacuuming the pile side of carpets.

V.H.3.a.(ii) For wall to wall carpeting, the carpet shall be vacuumed for not less than 4 minutes per 10 square feet of carpeting, divided into two time segments of at least 2 minutes for each 10 square feet. The two time vacuuming segments shall be performed in perpendicular directions.

V.H.3.a.(iii) For area rugs, the top and bottom of the carpet shall be vacuumed for not less than 1 minute for every 10 square feet per side. After the initial vacuuming of the carpet, the floor below the area rug shall also be vacuumed ~~at normal speed~~. Following the vacuuming of the floor, the pile side of the rug shall again be vacuumed at a rate not less than 2 minutes per 10 square feet of rug.

V.H.3.a.(iv) When carpet or rugs are removed from the work area for off-site cleaning or disposal, the carpet or rugs shall be misted, carefully rolled and sealed with 6-mil thickness polyethylene sheeting to prevent the release of dust.

V.H.3.b. Upholstery. All upholstery that is contaminated with lead-contaminated dust that will be cleaned, and all upholstered surfaces in the work area that are not disposed of as lead-contaminated waste, shall be HEPA vacuumed with a minimum of three passes over each surface at a total rate of 2 minutes per 10 square feet.

V.H.3.c. ~~Forced~~ Air Ducts. Air vent registers within the work area shall be HEPA vacuumed and wet cleaned. Horizontal surfaces in the duct work that can be reached with a vacuum attachment shall be cleaned of visible dust and debris. The ~~D~~ivision recommends that air filters on heating units and air conditioners be replaced at the same time as dust removal.

V.H.4. Polyethylene Sheeting Removal Procedures. Prior to final cleaning, protective polyethylene sheeting coverings shall be cleaned of visible debris by HEPA vacuuming and/or wet wiped so that they are visibly clean prior to removal. Multiple layers of polyethylene sheeting shall be removed one layer at a time and only after each individual layer has been wet wiped clean of visible debris.

V.H.5. Final Cleaning. No sooner than 1 hour after the completion of removal, encapsulation, or enclosure activities have ceased, and prior to final clearance, all surfaces in the work area ~~shall~~must be cleaned by HEPA vacuuming, followed by wet cleaning, followed by a second HEPA vacuuming. In addition, persons performing the cleaning ~~shall~~must comply with the following requirements:

V.H.5.a. HEPA vacuuming ~~shall~~must take place only after the surfaces in the work area being vacuumed are dry.

V.H.5.b. Wet cleaning ~~shall~~must use clean water mixed with a cleaning agent. The proportion of cleaning agent to water ~~shall~~must be in accordance with the manufacturer's specifications. At a minimum, the cleaning mixture ~~shall~~must be changed after its use in each room, hallway, or stairwell to avoid recontaminating an area by cleaning it with dirty water.

V.I. Coating and Sealing

V.I.1. Coating

~~V.I.1.a. All abated surfaces in the work area shall be sealed with polyurethane or deck enamel, painted, or similarly coated so that the surfaces are easily cleanable by occupants. The coating may be applied prior to conducting final clearance wipe sampling.~~

V.I.1.~~ab~~. A visual inspection to ensure that lead-based paint hazards in the work area are eliminated ~~shall~~must be conducted prior to the coating of surfaces as required in Section V.I.1.a. of this Regulation ~~No-Number~~ 19, Part A. The visual inspection ~~shall~~must be performed only by a certified inspector or risk assessor.

~~V.I.1.b. All abated surfaces in the work area shall be sealed with polyurethane or deck enamel, painted, or similarly coated so that the surfaces are easily cleanable by occupants. The coating may be applied prior to conducting final clearance wipe sampling.~~

V.I.1.c. The installation of resilient coverings over an existing lead-based paint enclosure system is exempt from this Section V.I.1. (Coating) of this Regulation ~~No-Number~~ 19, Part A. Surfaces enclosed with resilient coverings such as vinyl, aluminum coil stock, or materials traditionally not repainted are exempt from this Section V.I.1. (Coating) of this Regulation ~~No-Number~~ 19, Part A.

V.I.2. Sealing Replacement Components, Enclosures and Encapsulation. All replacement components, encapsulation systems and enclosures ~~shall~~must be made dust-tight for at least 20 years. All crevices, holes, seams, edges, joints, and cracks ~~shall~~must be caulked. The underside of all components and enclosures ~~shall~~must be back-caulked to further prevent leaded dust and lead residues from escaping the abated surface.

V.J. Final Clearance

V.J.1. The following post-abatement clearance procedures ~~shall~~must be performed only by a certified inspector or risk assessor.

V.J.1.a. Visual inspection. Following an abatement, a visual inspection ~~shall~~must be performed to determine that all of the following conditions have been met prior to the continuation of the clearance procedures:

V.J.1.a.(i) Deteriorated painted surfaces and/or visible amounts of dust, debris or residue are not still present in the work area. If deteriorated painted surfaces or visible amounts of dust, debris or residue are present, these conditions must be eliminated prior to the continuation of the clearance procedures.

V.J.1.a.(ii) All surfaces in the work area are properly sealed and re-painted in accordance with Section V.I. (Coating and Sealing) of this Regulation ~~No-Number~~ 19, Part A, such that the surfaces are easily cleanable. These surfaces must be dry to the touch before the visual inspection and wipe sampling takes place.

V.J.1.a.(iii) All enclosure and encapsulation systems are properly installed, caulked and are dust tight in accordance with Sections V.G. (Encapsulation and Enclosure Requirements), and V.I. (Coating and Sealing) of this Regulation ~~No-Number~~ 19, Part A.

V.J.1.a.(iv) All areas adjacent to the work areas that were used as pathways to the work area are visibly free of lead-contaminated dust, debris or residue.

V.J.1.b. Following the visual inspection and any post-abatement cleanup required this-by Section V.J.1.a. (Visual Inspection) of this Regulation ~~No-Number~~ 19, Part A, clearance sampling for lead-contaminated dust and soil ~~shall~~must be conducted. Clearance sampling may be conducted by employing single-surface sampling or composite sampling techniques.

V.J.1.c. Dust and soil samples for clearance purposes ~~shall~~must be taken using documented methodologies that incorporate adequate quality control procedures.

V.J.1.d. Dust and soil samples for clearance purposes ~~shall~~must be taken a minimum of 1 hour after completion of final post-abatement cleanup activities.

V.J.1.e. The following post-abatement clearance activities ~~shall~~must be conducted as appropriate based upon the extent or manner of abatement activities conducted in or to the pre-1978 residential dwelling, or child-occupied facility:

V.J.1.e.(i) Clearance Sampling of Interior Abatement Projects

V.J.1.e.(i)(A) After conducting an abatement, at least one dust sample ~~shall~~must be taken from one interior window sill and from one window trough (if available) and at least one dust sample ~~shall~~must be taken from the floor of no less than four rooms, hallways or stairwells within the containment area. In addition, at least one dust sample ~~shall~~must be taken from the floor outside the containment area and within 10 feet of containment where potential contamination is likely. If there are less than four rooms, hallways or stairwells within the containment area, then all rooms, hallways or stairwells ~~shall~~must be sampled.

V.J.1.e.(ii) Clearance Sampling of Exterior Abatement Projects

V.J.1.e.(ii)(A) After conducting an exterior lead-based paint abatement, the following samples ~~shall~~must be collected:

V.J.1.e.(ii)(A)(1) At least two dust samples shall be collected from the work area if a paved surface or window are within the work area. At a minimum, one dust sample shall be taken from one window (if any) and one dust sample shall be collected from the floor of each patio, deck, driveway, or paved surface (if any) within the work area. Window samples shall be collected from the window sill or window trough, alternating between rooms.

V.J.1.e.(ii)(A)(2) At least two composite soil samples shall be collected from the soil within the work area. At a minimum, one composite soil sample shall be collected from the soil along the building perimeter and one composite soil sample shall be collected from the child's principle play area (if any in the work area). Each composite soil sample shall consist of at least 5 and no more than 10 aliquots of soil from areas selected in accordance with documented methodologies.

V.J.1.e.(ii)(B) If the exterior abatement project involved only the covering or removing of bare soil then the collection of clearance soil samples specified in this Section V.J.1.e.(ii)(A) of this Regulation No-Number 19, Part A is not required. The visual inspection requirement specified in Section V.J.1.a. (Visual Inspection) of this Regulation No-Number 19, Part A, still applies to soil-only abatement projects.

V.J.1.f. The rooms, hallways or stairwells or exterior areas selected for sampling shall be selected according to documented methodologies.

V.J.1.g. The certified inspector or risk assessor shall compare the residual lead level (as determined by the laboratory analysis) from each dust and soil sample with applicable clearance levels for lead in dust and soil on floors, windows, and other surfaces.

V.J.1.g.(i) If the residual lead level in a single surface dust sample equals or exceeds 1040 $\mu\text{g}/\text{ft}^2$ on interior floors, 100250 $\mu\text{g}/\text{ft}^2$ on interior window sills, 400 $\mu\text{g}/\text{ft}^2$ on window troughs, 500 $\mu\text{g}/\text{ft}^2$ on exterior window sills, or 800 $\mu\text{g}/\text{ft}^2$ on exterior surfaces (e.g. patios, porches, sidewalks), or if the residual lead level in a composite dust sample equals or exceeds the applicable clearance level divided by half the number of subsamples in the composite sample, all the components represented by the failed sample shall be re-cleaned and re-tested until clearance levels are met.

V.J.1.g.(ii) If the residual lead levels in a soil sample exceed 400 $\mu\text{g}/\text{g}$ in a play area, or 1,200 $\mu\text{g}/\text{g}$ in the rest of the yard, the soil must be abated in accordance with Section V.F. (Soil Abatement) of this Regulation No-Number 19, Part A.

V.J.2. In a pre-1978 multi-family dwelling with similarly constructed and maintained pre-1978 residential dwellings, random sampling for the purposes of clearance may be conducted provided:

- V.J.2.a. the certified individuals who abate or clean the pre-1978 residential dwellings do not know which residential dwellings will be selected for the random samples;
- V.J.2.b. in accordance with Appendix A, a sufficient number of pre-1978 residential dwellings are selected for dust and soil sampling to provide a 95 percent level of confidence that no more than 5 percent or 50 of the residential dwellings (whichever is smaller) in the randomly sampled population exceed the appropriate clearance levels specified in Section V.J.1.g. of this Regulation ~~No-Number~~ 19, Part A; and
- V.J.2.c. the randomly selected pre-1978 residential dwellings are sampled and evaluated for clearance according to the procedures found in Section V.J.1. of this Regulation ~~No-Number~~ 19, Part A.
- V.J.3. An abatement report ~~shall~~must be prepared by a certified supervisor or project designer. The abatement report ~~shall~~must be completed within ninety days following the successful clearance of the project and include the following information:
 - V.J.3.a. start and completion dates of abatement;
 - V.J.3.b. the name and address of each certified ~~LAF~~firm conducting the abatement and the name of each supervisor assigned to the abatement project;
 - V.J.3.c. the occupant protection plan prepared pursuant to Section V.A.6. (Occupant Protection Plan) of this Regulation ~~No-Number~~ 19, Part A;
 - V.J.3.d. the name ~~and~~and address ~~of~~of ~~each~~each certified LEF and ~~the name, address and~~signature of each ~~and~~and certified ~~risk~~risk assessor or inspector conducting clearance sampling and the date of clearance testing;
 - V.J.3.e. the results of clearance testing and all soil analyses (if applicable) and the name of each recognized laboratory that conducted the analyses; and
 - V.J.3.f. a detailed written description of the abatement, including abatement methods used, locations of rooms and/or components where abatement occurred, reason for selecting particular abatement methods for each component, any suggested monitoring of encapsulants or enclosure, and any suggested post-abatement maintenance and cleaning methods.
- V.J.4. Collection and laboratory analysis of samples. Any dust or soil samples collected pursuant to this Section V.J. (Final Clearance) of this Regulation ~~No-Number~~ 19, Part A ~~shall~~must be:
 - V.J.4.a. collected by persons certified by the ~~D~~Division as an inspector or risk assessor ~~working for a LEF~~working for a LEF; and
 - V.J.4.b. analyzed by a recognized laboratory.
- V.J.5. Composite dust sampling. Composite dust sampling may only be conducted in the situations specified in this Section V.J. (Final Clearance) of this Regulation ~~No-Number~~ 19, Part A. If such sampling is conducted, the following conditions ~~shall~~must apply:
 - V.J.5.a. composite dust samples ~~shall~~must consist of at least two subsamples, but no more than four subsamples;

V.J.5.b. every component that is being tested ~~shall~~must be included in the sampling; and

V.J.5.c. composite dust samples ~~shall~~must not consist of subsamples from more than one type of component.

V.K. Waste Handling

Each person handling any lead-contaminated waste ~~shall~~must comply with the following requirements:

V.K.1. wrap and seal lead-contaminated waste in at least 6-mil thick polyethylene sheeting prior to removing the waste from the containment or abatement work area;

V.K.2. store the waste in a covered container within a designated secure (locked) area, if not transported immediately off-site;

V.K.3. do not cut or break painted materials or perform any action that is likely to generate leaded dust;

V.K.4. comply with all local, State and Federal waste handling and disposal requirements; and

V.K.5. discharge no visible emissions during any handling of lead-contaminated waste outside the work area.

V.L. Recordkeeping

All reports or plans required in this Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A, ~~shall~~must be ~~retained~~maintained for no fewer than 3 years by the certified firm or individual who prepared the report. The certified firm or individual also ~~shall~~must provide copies of these reports to the building owner who contracted for its services. Additionally, these records, if requested, must be made available to the Division to demonstrate compliance with this Section V.L.

V.M. Alternative Procedures and Variances

The ~~D~~ivision may, at its discretion, grant a variance from the requirements in this Section V. (Abatement Requirements) of this Regulation ~~No-Number~~ 19, Part A, allowing use of an alternative procedure for the clearance of abatement projects or the control of emissions from a lead abatement project provided that the person conducting the abatement submit an alternative procedure in writing to the ~~D~~ivision and demonstrates to the satisfaction of the ~~D~~ivision that compliance with this Regulation ~~No-Number~~ 19, Part A is not practical or that the proposed alternative procedures provide equivalent control of lead.

Within forty-five (45) days of the receipt of the request the Division will notify the applicant in writing of its decision to either grant or deny the variance. If the variance is denied, the Division will provide a reason for the denial to the applicant. No person may begin abatement using such a procedure until a variance has been requested and approved in writing. Any violation of any condition of the variance will be considered a violation of this Regulation.

VI. Delegation to Local Health or Building Departments

VI.A. Other than training and certification requirements specified in Section III. (Training and Certification Requirements) of this Regulation ~~No-Number~~ 19, Part A, the ~~D~~ivision may delegate, at its discretion, the implementation or enforcement of standards in this Regulation ~~No-Number~~ 19, Part A to any local health or building department, if requested by such a local department.

VI.B. To receive delegation of a program for regulating lead-based paint activities pursuant to Section VI.A. of this Regulation ~~No-Number~~ 19, Part A, the local department must:

- VI.B.1. adopt standards that are at least as stringent as the standards in this Regulation ~~No. Number~~ 19, Part A;
- VI.B.2. demonstrate to the ~~D~~ivision that the local enforcement program is equivalent to the ~~D~~ivision's enforcement program; and
- VI.B.3. demonstrate to the ~~D~~ivision that the appropriate infrastructure or government capacity exists to effectively carry out a local program.

~~VII. Statement of Basis, Specific Statutory Authority, and Purpose~~

~~VII.A. August 21, 1998~~

~~1. Background~~

~~This Statement of Basis, Specific Statutory Authority and Purpose complies with the requirements of the Colorado Administrative Procedures Act, section 24-4-103(4), C.R.S. and the Colorado Air Pollution Prevention and Control Act, sections 25-7-110 and 25-7-110.5, C.R.S.~~

~~2. Basis~~

~~U.S. Environmental Protection Agency ("US EPA") promulgated a regulation that allows states to promulgate US EPA approved lead-based paint abatement programs and receive monies from US EPA to fund the initial development of state programs. (40 C.F.R. Part 745.) In 1997, the Colorado Legislature passed an act granting the Commission authority to promulgate a regulatory program for lead-based paint abatement. (SB 97-136, Prevention, Intervention, and Reduction of Lead Exposure.)~~

~~3. Authority~~

~~The authority for this regulation is contained in the Colorado Air Pollution Prevention and Control Act ("Colorado Act"), sections 25-7-1101 through 1107, which provides the Commission the authority to develop and adopt a lead-based paint abatement program.~~

~~4. Purpose~~

~~The Colorado Legislature has declared that exposure of children to lead represents a significant environmental health problem that is preventable by developing a regulatory program that leads to the creation of housing and facilities where no significant lead-based paint hazard is present. In addition, the Legislature declared that the achievement of uniformity in the regulation of lead abatement practices and uniformity in the qualifications for and certification of persons who perform such abatement is necessary statewide. The purpose of this regulation is to protect children from exposure to lead from lead-based paint by regulating how lead-based paint abatement is conducted in "target housing" and "child-occupied facilities". As a result, the scope of Regulation No. 19, Part A is limited to homes constructed prior to 1978, child-occupied facilities, and only those projects where the intent is to abate lead-based paint hazards. Regulation No. 19, Part A is intended to fulfill the requirements of the Lead-based Paint Hazard Reduction Act of 1992, pertaining to target housing and child-care facilities. The Commission finds that the work practice requirements contained in Regulation No. 19, Part A are necessary for the protection of the public in targeted housing and child-care facilities.~~

~~5. Action Taken~~

~~The Commission concludes that adoption of this regulation is an appropriate step to begin to protect children from exposure to lead from lead-based paint as a result of lead-based paint~~

abatement in "target housing" and "child-occupied facilities". At this time, the Commission adopts language substantially similar to the federal lead-based paint abatement requirements. In the Commission's view, the requirements adopted will satisfy US EPA's requirements for a state lead-based paint abatement program.

a. Training and Certification

The Commission concludes that implementation of the training and certification provisions in this regulation will result in uniformity in the qualifications for and certification of persons who perform such abatement. The training and certification provisions will also aid in ensuring that trained and qualified individuals are available to advise consumers about lead hazards in general and about specific measures that may be needed to control such hazards. The training and certification requirements in the rule are identical to the training and certification requirements in the federal rule, except that the State rule: (1) establishes fees pursuant to section 25-7-1103, C.R.S.; (2) requires division approval of training courses; and (3) Does not include the provisions of the federal rule that allow accredited training courses to issue an interim certification valid for six months. Such interim certification is not necessary in the State program because, unlike the US EPA, the division is prepared to begin implementing the certification requirements immediately. Such variations from the federal rule are consistent with state statute, are administrative in nature, and do not constitute training and certification requirements that are more stringent than the federal requirements. Therefore, the training and certification provisions are not more stringent than the training and certification requirements established by the federal "Residential Lead-based Paint Hazard Reduction Act of 1992" and federal rules promulgated pursuant to that act or any training and certification requirements of any US EPA approved state program that has been established under the Federal "Residential Lead-based Paint Hazard Reduction Act of 1992."

b. Performance Standards and Practices

Pursuant to section 25-7-1103(1)(b), C.R.S., the Commission adopts performance standards and practices for lead abatement. The Commission concludes that the performance standards and practices in Regulation No. 19, Part A will result in uniformity in the regulation of lead abatement practices in the State of Colorado. These standards and practices require that abatement contractors employ consistent standards and procedures to remove, enclose, and encapsulate lead-based paint to remove lead hazards from target housing and child-occupied facilities. The standards and practices include US EPA's work practice standards and work practice measures that an abatement contractor must include in an occupant protection plan and comply with before, during, and after abatement. The work practice standards and measures were developed based upon US EPA's regulatory requirements and U.S. Department of Housing and Urban Development's ("HUD's") requirements.

The State rule includes work practices that are not required by the federal act, and that are, in some cases, otherwise more stringent than the federal requirements. The additional work practices in the State rule include the prohibition of uncontained hydroblasting and high-pressure washing, the prohibition of dry sanding, the restriction of chemical stripping, and the requirement that a supervisor be on-site at all times while abatement is occurring. Such requirements are not incorporated into the State implementation plan and, therefore, are consistent with section 25-7-105.1, C.R.S.

In addition, the federal rule does not explicitly require the establishment of containment barriers; however, they do require an occupant protection plan that may require the use of containment barriers. The State rule expressly requires containment barriers.

US EPA requires a written occupant protection plan be developed for each residential dwelling or child-occupied facility prior to the abatement. (40 C.F.R. 745.227(e)(5).) The occupant protection plan "shall describe the measures and management procedures that will be taken during the abatement to protect the building occupants from exposure to any lead-based paint hazards." (40 C.F.R. 745.227(e)(5)(i).) US EPA does not provide the abatement contractor the minimum abatement work practice measures that will be required for the occupant protection plan. The Commission pursuant to its authority in section 25-7-1103(1)(b), C.R.S., adopts the work practice measures in Regulation No. 19, Part A as the minimum work practice measures that must be included in an occupant protection plan and followed during abatement to ensure building occupants are protected from exposure to any lead-based paint hazards.

Certain standards and methodologies adopted by the Commission were developed by the HUD. The Commission adopts such standards and methodologies, because: 1) HUD has successfully implemented and enforced its lead-based paint abatement program and the associated guidelines and methodologies for the past eight years; 2) US EPA cites to HUD guidelines and methodologies in the Federal regulation (i.e., 40 C.F.R. section 745.227(a)(3)) as acceptable standards for Federal and state programs; 3) the HUD Guidelines are considered by industry as state-of-the-art; 4) several commenters in the workgroup stressed the importance of not reinventing the wheel and being consistent with HUD; and 5) the HUD Guideline incorporates the results of studies that indicate work practices and standards necessary to contain lead-based paint hazards and protect children's health.

The Commission adopts the requirement that a certified supervisor to be onsite during all work site preparation, abatement, and during post-abatement cleanup of the work areas, because such a practice is necessary to ensure workers properly conduct lead-based paint abatement. The Commission agrees that US EPA's requirement that a certified supervisor need only be reachable by telephone and is not required to be onsite is inadequate for the State of Colorado.

In addition, the State rule contains project notification requirements and establishes a project clearance level. The federal rule also requires notification but US EPA has not yet specified rules for such notification. US EPA may propose specific notification requirements before August 31, 1998. US EPA proposed a regulation for public comment identifying dangerous levels of lead in June of 1998. US EPA's proposal for soil hazard levels differs from HUD standard and the division's proposal by not including a separate, more stringent, standard for high contact play areas. Although US EPA's regulation is not final, it's justification for a single soil level is persuasive and the Commission adopts that single soil level.

c. ——— Procedures for Approval of Trained Persons

Regulation No. 19, Part A, as adopted, includes procedures for the approval of persons or companies who provide training or accreditation for workers, supervisors, inspectors, risk assessors, or project designers performing lead-based paint activities in target housing or child-occupied facilities pursuant to the Commission's authority in section 25-7-1103(1)(c), C.R.S.

d. ——— Notification of Appropriate Persons

The Commission finds that the notification requirements in Regulation No. 19, Part A are necessary and adequate to provide the Air Pollution Control Division ("Division") with notice of lead-based paint abatement projects occurring in the State of Colorado. The Division recommends that the Commission adopt a requirement that an abatement contractor notify the Division ten days prior to the commencement of lead-based paint

abatement activities if the amount of lead-based paint, lead-contaminated soil, or lead-contaminated dust is greater than two square feet on interior surfaces or ten square feet on exterior surfaces. The Commission also adopts fee provisions intended to cover the cost of processing notifications. The Commission agrees with the division and includes such a requirement in the notification provisions of Regulation No. 19, Part A.

~~e. Fees for Certification of Persons~~

Regulation No. 19, Part A includes requirements for fees for certification of persons conducting lead abatement services, for any necessary monitoring of such persons to ensure compliance with Regulation No. 19, Part A, and for approval of persons or companies involved in the training or accreditation of workers pursuant to the Commission's authority at section 25-7-1103(1)(e), C.R.S. The Commission concludes that the fee provisions in this Regulation No. 19, Part A are adequate to fully fund the division's lead-based paint abatement program, if projected activity levels are accurate.

~~6. Definition of Child-Occupied Facilities~~

The rule incorporates the definition of the term "child-occupied facility" set out in section 25-7-1102(2)(a), C.R.S. Pursuant to the statutory definition, day-care centers, pre-schools and kindergarten classrooms constructed prior to 1978 are "child-occupied facilities" whether or not such facilities are visited by children for a total of at least six hours per visit. That is, the definitions set out in paragraphs (a) and (b) of sub-section (2) of section 25-7-1102, C.R.S., are independent definitions. Day-care centers, pre-schools and kindergarten classrooms are child-occupied facilities whether or not they meet the definition set out in section 25-7-1102(2)(a), C.R.S.

The foregoing interpretation of section 25-7-1102(2), C.R.S., is based on the plain language of the statute. Furthermore, such a reading furthers the legislative intent evident in section 25-7-1103(1), C.R.S., to establish a program that implements the requirements of the federal program. The definition of "child-occupied facility" set out in section 25-7-1102(2)(a), C.R.S., differs from the federal definition expressed in 40 C.F.R. section 745.223. The difference between the two definitions concerns the length of time in which a child must visit a facility in order for the facility to be a "child-occupied facility." Pursuant to the federal definition, the critical time is defined as "combined weekly visits [of at least] six hours." The definition in section 25-7-1102(2)(a), C.R.S., requires each visit to total at least six hours. Many pre-schools and kindergarten classrooms operate more than six hours per week, but less than six hours per day. Such classrooms are included in the federal definition, but would not be included in the definition set out in section 25-7-1102(2)(a), C.R.S. Reading sections 25-7-1102(2)(a) and (2)(b), C.R.S., as independent definitions captures most, if not all, of the facilities that are included in the federal definition but excluded from the definition in section 25-7-1102(2)(a), C.R.S. Such a reading furthers the legislative intent to implement the federal program.

~~7. Findings Pursuant to Section 25-7-110.8, C.R.S.~~

The regulation promulgated by the Commission is based on reasonably available, validated, reviewed and sound scientific methodologies demonstrating that exposure to lead is hazardous to children under the age of seven, and that lead-based paint was commonly in use in residences and child-occupied facilities prior to 1978. Interested parties did not provide the Commission with any other validated, reviewed, and sound scientific methodologies or information.

The work practices in the regulation are designed to minimize airborne lead-contaminated dust during lead abatement projects. Therefore, such practices will result in a demonstrable reduction in air pollution associated with such projects. The remaining requirements of the regulation are administrative in nature and are not subject to the requirements of section 25-7-110.8(1)(b), C.R.S.

No one proposed an alternative that would comply with the state statutory requirements in a more cost-effective manner.

8. ~~Delay of Effective Date of Regulation~~

The Commission delayed the effective date of this regulation for persons conducting abatement activities in dwellings that they own and occupy in order to provide homeowners time to be able to comply with this regulation.

9. ~~Commission Directions to Staff~~

The Commission intends that the Department of Public Health and Environment's lead program, in September 1998, notify the primary care giver of known children with elevated blood lead levels of this regulation. The Commission intends that the division review the application of this regulation to renovation activities, and that it complete this review by December 31, 1998. The Commission intends that the division will maintain current lists of certified lead abatement contractors, supervisors and certification courses, and will make these lists available to the public.

VII.B. ~~Revisions to Regulation No. 19, Part A; December 19, 2002~~

1. ~~Background~~

This Statement of Basis, Specific Statutory Authority and Purpose comply with the requirements of the Colorado Administrative Procedure Act Sections 24-4-103(4) and (12.5), C.R.S. for new and revised regulations.

2. ~~Basis~~

Regulation No. 19, Part A sets forth the Air Quality Control Commission's lead-based paint abatement program. Colorado's program is tailored after the Federal program. In January of 2001, the United States Environmental Protection Agency ("EPA") adopted revisions to the Federal program. EPA has given the state until June 7, 2003 to revise its regulation in order to make Colorado's program consistent with EPA's newly revised regulation. These revisions to Regulation No. 19, Part A are intended to comply with this mandate. Additionally, obsolete provisions have been deleted and certain minor language changes have been made to help clarify the regulation. Finally, changes to the certification fee structure have been made to minimize the burden on the regulated community and encourage the type of growth necessary to serve the needs of the public while allowing the program to be fully funded from the collection of fees as required pursuant to § 25-7-1105, C.R.S.

3. ~~Specific Statutory Authority~~

The specific statutory authority for these revisions is set forth in various sections of the Colorado Air Pollution Prevention and Control Act. Section, 25-7-105(1), C.R.S., gives the Air Quality Control Commission general authority to promulgate rules and regulations necessary for the proper implementation of the Air Pollution Prevention and Control Act ("Act"). Section 25-7-1103(1), C.R.S. gives the Commission specific authority to promulgate regulations necessary to establish and implement a state lead-based paint abatement program, including regulations regarding lead-based paint abatement performance standards and certification requirements. Finally, § 25-7-1105, C.R.S. allows the Commission to set fees that are sufficient to cover the costs of the program.

4. ~~Purpose~~

The purpose of the revised regulation is to continue to protect children from lead exposure by establishing standards for lead-based paint abatement in "target housing" and "child-occupied facilities." The primary purpose of these revisions is to make the Colorado regulation consistent with the recently adopted Federal regulations governing lead-based paint abatement. To accomplish this, revisions have been made to Sections II. (Definitions), III. (Training and Certification Requirements), IV. (Inspections, Lead Hazard Screens, and Risk Assessments) and V. (Abatement Requirements) of Regulation No. 19, Part A. Changes have also been made to the table in Appendix A, governing the number of sample that must be taken in clearing projects in multi-family dwellings constructed prior to 1978. The new table is consistent with the revised HUD Guidelines for Lead-Based Paint, and therefore serves to make Regulation No. 19, Part A consistent with the federal program.

5. ——— Action Taken

In addition to the changes necessary to make the State program consistent with Federal requirements, certain additional changes were made in order to clarify program requirements. For example, surplus language was removed from the provisions set forth in Section III.B.1.b., while the language in Section IV.B.1 was expanded to clarify that risk assessments are to be conducted in accordance with requirements of Section IV. (Inspections, Lead Hazard Screens, and Risk Assessments). These changes are not substantive and are not intended to change any program requirements.

A limited number of minor substantive changes were made to remove obsolete provisions, correct unintended consequences of the old regulatory language, and eliminate unnecessarily burdensome requirements. For example, the notification fee table set forth in Section V.A.5.c. sets forth the amount of fees that need to be paid based on the size of the project. Due to errors in the table, fees for larger projects could actually be less than fees for smaller projects. These errors have been corrected to create a graduated fee schedule. Section V.J.3. of the old regulation required that a supervisor or project designer prepare an abatement report, but failed to specify a time frame for completion of the report, thereby rendering enforcement of this requirement difficult. The revisions correct this oversight by providing a ninety-day time frame for report completion. Finally, Section V.C.2.c. has been changed to eliminate the requirement that ventilation systems be shut down during level I-1 projects. This requirement was deemed unnecessary given the nature of such projects and the fact that vents must be adequately sealed prior to abatement.

Several changes were made with respect to certification requirements. EPA's regulations require that all abatement, inspection and risk assessment firms be certified. For some reason, the prior version of Regulation No. 19, Part A failed to require certification for inspection or risk assessment firms. The revisions correct this oversight. The revisions also set certification fees for risk assessment and inspection firms, as well as modify the fees for abatement firms. The fee levels were based on an analysis of the amount of money that needs to be collected through fees in order to cover the costs of the program as required pursuant to § 25-7-1105, C.R.S. Given the continued growth of the program, and the addition of certification fees for inspection and risk assessment firms, the fee levels for abatement firms were able to be substantially reduced. These new fees will apply to firms seeking certification after the effective date of these revisions. Firms certified prior to the effective date shall not be entitled to a refund of any previously paid fees.

6. ——— Findings Pursuant to § 25-7-110.8, C.R.S.

These revisions are based on reasonably available, validated and reviewed, and sound scientific methodologies demonstrating that exposure to lead is hazardous to children under the age of seven, and that lead-based paint was commonly used in residences and child-occupied facilities prior to 1978. Interested parties did not provide the Commission with any other validated, reviewed and scientifically sound methodologies or information.

Based on the evidence presented on the record, the requirements of this revised regulation will reduce the amount of airborne lead-contaminated dust occurring during lead-based paint abatement projects, and therefore reduce the risks to human health and the environment thereby justifying the costs associated with this regulation.

The revisions represent the regulatory alternative presented to the Commission, which best balances cost-effectiveness, flexibility to the regulated community and maximization of air quality benefits.

~~VII.C.—Revisions to Regulation No. 19 Part A, Sections III.B.1., III.B.5., III.B.6., and V.A.5.~~

~~This Statement of Basis, Specific Statutory Authority and Purpose complies with the requirements of the Colorado Administrative Procedure Act Sections 24-4-103(4), C.R.S. for new and revised regulations.~~

~~Basis~~

~~The Air Quality Control Commission has adopted revisions to Part A, Sections III.B.1., III.B.5., III.B.6., and V.A.5. in order to increase the certification and permit fees charged to persons certified to perform lead-based paint activities in target housing and child-occupied facilities in Colorado, commencing in 2008. The increases are necessary to help offset increasing program costs.~~

~~Specific Statutory Authority~~

~~The specific statutory authority for these revisions is set forth in Section 25-7-1105, C.R.S., which allows the Commission to adjust fees so that the revenue generated is sufficient to cover direct and indirect costs to implement the lead hazard reduction program.~~

~~Purpose~~

~~The revisions to Part A, Sections III.B.1., III.B.5., III.B.6., and V.A.5. were adopted to cover existing and anticipated revenue shortfalls.~~

~~COLORADO AIR QUALITY CONTROL COMMISSION~~

~~ADOPTED: December 20, 2007~~

PART B **PRE-RENOVATION EDUCATION IN TARGET HOUSING AND CHILD-OCCUPIED FACILITIES**

I. Scope and Applicability

I.A. This Regulation ~~No-Number~~ 19, Part B, applies to all renovations of target housing or child-occupied facilities performed for compensation except as provided in Section I.B. of this Regulation ~~No-Number~~ 19, Part B.

I.B. This Regulation ~~No-Number~~ 19, Part B, does not apply to renovation activities that are limited to the following:

I.B.1. ~~Minor repair and maintenance activities (including minor electrical work and plumbing) that disrupt 2 square feet or less of painted surface per component. Minor Repair and Maintenance acti activities, including minor heating, ventilation or air conditioning work, electrical work, and plumbing, that disturb 2 square feet or less of painted surface per room for interior activities or 20 square feet or less of painted surface for exterior activities where none of the work practice restrictions and prohibitions in Section V. B. are used and where the work does not involve window replacement or destruction of painted surface areas. When removing painted components, or portions of painted components, the entire surface area removed is the amount of painted surface area disturbed. Jobs, other than emergency renovations, performed in the same room within the same 30 days must be considered the same job for the purpose of determining whether the job is a minor repair and maintenance activity.~~

I.B.2. Emergency renovation operations.

I.B.3. Renovations in target housing or child-occupied facilities in which a written determination has been made by an inspector or risk assessor, certified by the Division pursuant to Regulation ~~No-Number~~ 19, Part A, that the components affected by the renovation are free of lead-based paint, or other surface coatings, that contain lead equal to or in excess of 1.0 milligram per square centimeter or 0.5 percent by weight, where the renovator has obtained a copy of the determination.

II. Definitions

For purposes of this Regulation ~~No. Number~~ 19, Part B, the definitions in Regulation ~~No. Number~~ 19, Part A, as well as the following definitions, apply. Any terms that are not defined in Regulation ~~No. Number~~ 19, Part A, are given the same meaning as in the Air Quality Control Commission's Common Provisions Regulation.

- II.A. Emergency renovation operations means renovation activities, such as operations necessitated by non-routine failures of equipment, that were not planned but result from a sudden, unexpected event that, if not immediately attended to, presents a safety or public health hazard, or threatens equipment and/or property with significant damage.
- II.B. Multi-family housing means a housing property consisting of more than four dwelling units.
- II.C. Owner means any entity that has legal title to target housing, including but not limited to individuals, partnerships, corporations, trusts, government agencies, housing agencies, Indian tribes, and nonprofit organizations, except where a mortgagee holds legal title to property serving as collateral for a mortgage loan, in which case the owner would be the mortgagor.
- II.D. Pamphlet means the Environmental Protection Agency (EPA) pamphlet developed under section 406(a) of the Toxic Substance Control Act (TSCA) for use in complying with this and other rulemakings under Title IV of TSCA and the Residential Lead-Based Paint Hazard Reduction Act, or a State of Colorado pamphlet approved by EPA pursuant to 40 Code of Federal Regulations (CFR) 745.326 that is developed for the same purpose. This includes reproductions of the pamphlet when copied in full and without revision or deletion of material from the pamphlet (except for the addition or revision of State or local sources of information in the EPA pamphlet). The pamphlet can be found on the Division's lead web page.
- II.E. Renovation means the modification of any existing structure, or portion thereof, that results in the disturbance of painted surfaces, unless that activity is performed as part of an abatement as defined by Regulation ~~No. Number~~ 19, Part A. The term renovation includes, but is not limited to: the removal, ~~or~~ modification or repair of painted surfaces or painted components (e.g., modification of painted doors, surface preparation activity (such as sanding, scraping, or other such activities that may generate paint dust)); the removal of large structures (e.g., walls, ceiling, large surface re-plastering, major re-plumbing); and window replacement.
- II.F. Renovator means any person who performs or directs workers who perform or compensation a renovation for compensation.

III. Information Distribution Requirements

- III.A. Renovations in target housing - rRenovations in dwelling units. No more than 60 days before beginning renovation activities in any residential dwelling unit of target housing, the renovator ~~shall~~must:

III.A.1. Provide the owner of the unit with the pamphlet, and comply with one of the following:

III.A.1.a. Obtain, from the owner, a written acknowledgment that the owner has received the pamphlet, or

III.A.1.b. Obtain a certificate of mailing at least 7 days prior to the renovation.

III.A.2. In addition to the requirements in Section III.A.1. of this Regulation ~~No. Number~~ 19, Part B, if the owner does not occupy the dwelling unit, provide an adult occupant of the unit with the pamphlet, and comply with one of the following:

III.A.2.a. Obtain, from the adult occupant, a written acknowledgment that the occupant has received the pamphlet, or certify in writing that a pamphlet has been delivered to the dwelling and that the renovator has been unsuccessful in obtaining a written acknowledgment from an adult occupant. Such certification must include the address of the unit undergoing renovation, the date and method of delivery of the pamphlet, names of the persons delivering the pamphlet, reason for lack of acknowledgment (e.g., occupant refuses to sign, no adult occupant available), the signature of the renovator, and the date of signature. Sample language for such certifications is provided in Section V.B. (Certification of attempted delivery) of this Regulation ~~No. Number~~ 19, Part B; or

III.A.2.b. Obtain a certificate of mailing at least 7 days prior to the renovation.

III.B. Renovations in target housing - rRenovations in common areas. No more than 60 days before beginning renovation activities in common areas of multi-family housing, the renovator ~~shall~~must:

III.B.1. Provide the owner with the pamphlet, and comply with one of the following:

III.B.1.a. Obtain, from the owner, a written acknowledgment that the owner has received the pamphlet, or

III.B.1.b. Obtain a certificate of mailing at least 7 days prior to the renovation.

III.B.2. Comply with one of the following:

III.B.2.a. Notify in writing, or ensure written notification of, each unit of the multifamily housing and make the pamphlet available upon request prior to the start of renovation. Such notification ~~shall~~must be accomplished by distributing written notice to each affected unit. The notice ~~shall~~must describe the general nature and locations of the planned renovation activities; the ~~anticipated~~expected starting and ~~completion~~ending dates; and a statement of how the occupant can obtain the pamphlet and a copy of the records required by this Regulation Number 19, Part B, Section IV.B. at no cost to the occupant, or ~~charge, from the renovator.~~

III.B.2.b. While the renovation is ongoing, post informational signs describing the general nature and locations of the renovation and the anticipated completion date. These signs must be posted in areas where they are likely to be seen by the occupants of all of the affected units. The signs must be accompanied by a posted copy of the pamphlet or information on how interested occupants can review a copy of the pamphlet or obtain a copy from the renovation firm at no cost to occupants. The signs must also include information on how interested occupants can review a copy of the records required by this Regulation Number 19, Part B, Section IV.B or obtain a copy from the renovation firm at no cost to the occupants.

III.B.3. Prepare, sign, and date a statement describing the steps performed to notify all occupants of the intended renovation activities and to provide the pamphlet.

III.B.4. If the scope, locations, or expected starting and ending dates of the planned renovation activities change after the initial notification, the renovator ~~shall~~must provide further written notification to the owners and occupants providing revised information on the ongoing or planned activities. This subsequent notification must be provided before the renovator initiates work beyond that which was described in the original notice.

~~III.C. Written acknowledgment. Sample language for such acknowledgments is provided in Section V.A. (Acknowledgement statement) of this Regulation No. Number 19, Part B. The written~~

~~acknowledgments required in Sections III.A.1.a., III.A.2.a., and III.B.1.a. of this Regulation-~~
~~No. Number 19, Part B mustshallmust:~~

~~III.C.1.— Include a statement recording the owner or occupant's name and acknowledging receipt-~~
~~of the pamphlet prior to the start of renovation, the address of the unit undergoing-~~
~~renovation, the signature of the owner or occupant as applicable, and the date of-~~
~~signature.~~

~~III.C.2.— Be either a separate sheet or part of any written contract or service agreement for the-~~
~~renovation.~~

~~III.C.3.— Be written in the same language as the text of the contract or agreement for the-~~
~~renovation or, in the case of non-non-owner-occupied target housing, in the same-~~
~~language as the lease or rental agreement or the pamphlet.~~

III.CD. Renovations in child-occupied facilities. No more than 60 days before beginning renovation
activities in any child-occupied facility, the person performing the renovation must:

III.CD.1. Provide the owner of the building with the pamphlet, and comply with one of the
following:

III.CD.1.a. Obtain, from the owner, a written acknowledgment that the owner has
received the pamphlet or,

III.CD.1.b. Obtain a certificate of mailing at least 7 days prior to the renovation.

III.CD.2. If the child-occupied facility is not the owner of the building, provide an adult
representative of the child-occupied facility with the pamphlet, and comply with one of the
following:

III.CD.2.a. Obtain, from the adult representative, a written acknowledgment that the
adult representative has received the pamphlet; or certify in writing that a
pamphlet has been delivered to the facility and that the firm performing the
renovation has been unsuccessful in obtaining a written acknowledgment from
an adult representative. Such certification must include the address of the child-
occupied facility undergoing renovation, the date and method of delivery of the
pamphlet, names of the persons delivering the pamphlet, reason for lack of
acknowledgment (e.g., representative refuses to sign), the signature of a
representative of the firm performing the renovation, and the date of signature
or,;

III.CD.2.b. Obtain a certificate of mailing at least 7 days prior to the renovation.

III.C.3. Provide the parents and guardians of children using the child-occupied facility with the
pamphlet, information describing the general nature and locations of the renovation and
the anticipated start and completion dates, and information on how interested parents or
guardians of children frequenting the child-occupied facility can review a copy of the
records required by this Rregulation 19, Section IV.B, or obtain a copy at no cost to the
occupants by complying with one of the following:

III.C.3.a. Mail or hand-deliver the pamphlet and the renovation information to each
parent or guardian of a child using the child-occupied facility or,;

III.C.3.b. While the renovation is ongoing, post informational signs describing the general
nature and locations of the renovation and the anticipated completion date.
These signs must be posted in areas where they can be seen by the parents or

guardians of the children frequenting the child-occupied facility. The signs must be accompanied by a posted copy of the pamphlet or information on how interested parents or guardians of children frequenting the child-occupied facility can review a copy of the pamphlet or obtain a copy from the renovation firm at no cost to the parents or guardians. The signs must also include information on how interested parents or guardians of children frequenting the child-occupied facility can review a copy of the records or obtain a copy at no cost to the parents or guardians.

III.C.4. The renovator must prepare, sign, and date a statement describing the steps performed to notify all parents and guardians of the intended renovation activities and to provide the pamphlet.

III.D. Written acknowledgment. Sample language for such acknowledgments is provided in Section V.A. (Acknowledgement statement) of this Regulation Number 19, Part B. The written acknowledgments required in Sections III.A.1.a., III.A.2.a., III.B.1.a., III.C.1.a. and III.C.2.a. of this Regulation Number 19, Part B must:

III.D.1. Include a statement recording the owner or occupant's name and acknowledging receipt of the pamphlet prior to the start of renovation, the address of the unit undergoing renovation, the signature of the owner or occupant as applicable, and the date of signature.

III.D.2. Be either a separate page or part of any written contract or service agreement for the renovation.

III.D.3. Be written in the same language as the text of the contract or agreement for the renovation or, in the case of non-owner-occupied target housing, in the same language as the lease or rental agreement or the pamphlet.

IV. Recordkeeping Requirements

IV.A. Renovators ~~must~~shall retain and, if requested, make available to the ~~D~~ivision all records necessary to demonstrate compliance with this subpart for a period of 3 years following completion of the renovation activities in target housing or child-occupied facilities. This 3-year retention requirement does not supersede longer obligations required by other provisions for retaining the same documentation, including any applicable Federal, Tribal or local laws or regulations.

IV.B. Records that must be retained pursuant to Section IV.A. of this Regulation ~~No-Number~~ 19, Part B ~~must~~shall include (where applicable):

IV.B.1. Reports certifying that a determination had been made by an inspector or risk assessor, certified by the ~~D~~ivision pursuant to Regulation ~~No-Number~~ 19, Part A, that lead-based paint is not present in the area affected by the renovation, as described in Section I.B.3. of this Regulation ~~No-Number~~ 19, Part B.

IV.B.2. Signed and dated acknowledgments of receipt as described in Sections III.A.1.a., III.A.2.a., ~~and~~ III.B.1.a., III.C.1.a. or III.C.2.a. of this Regulation ~~No-Number~~ 19, Part B.

IV.B.3. Certifications of attempted delivery as described in Section III.A.2.a. or III.C.2.a. of this Regulation ~~No-Number~~ 19, Part B.

IV.B.4. Certificates of mailing as described in Sections III.A.1.b., III.A.2.b., ~~and~~ III.B.1.b., III.C.1.b. or III.C.2.b. of this Regulation ~~No-Number~~ 19, Part B.

IV.B.5. Records of notification activities performed regarding renovations in target housing common areas renovations, as described in Sections III.B.3. and III.B.4. or renovations in child-occupied facilities as described in Section III.CB.4. of this Regulation No-Number 19, Part B.

V. Acknowledgment and eCertification sStatements

V.A. Acknowledgment statement

V.A.1. As required in Section III.DC.1. of this Regulation No-Number 19, Part B, acknowledgments mustshall include a statement of receipt of the pamphlet prior to the start of renovation, the address of the unit undergoing renovation, the signature of the owner or occupant as applicable, and the date of signature.

V.A.2. Sample acknowledgment language. The following is a sample of language that could be used for such acknowledgments:

I have received a copy of the lead hazard information pamphlet, [insert the title of the pamphlet provided], informing me of the potential risk of lead hazard exposure from renovation activity to be performed in my dwelling unit. I received this pamphlet before the work began.

V.B. Certification of attempted delivery

V.B.1. When an occupant is unavailable for signature or refuses to sign the acknowledgment of receipt of the pamphlet, the renovator is permitted by Section III.A.2.b. of this Regulation No-Number 19, Part B to certify delivery for each instance. The certification mustshall include the address of the unit undergoing renovation, the date and method of delivery of the pamphlet, names of the persons delivering the pamphlet, reason for lack of acknowledgment (e.g. occupant refuses to sign, no adult occupant available), the signature of the renovator, and the date of signature.

V.B.2. Sample certification language. The following is a sample of language that could be used under those circumstances:

V.B.2.a. Refusal to sign

I certify that I have made a good faith effort to deliver the lead hazard information pamphlet, [insert the title of the pamphlet], to the unit listed below, and that the occupant refused to sign the acknowledgment. I further certify that I have left a copy of the pamphlet at the unit with the occupant.

VI. Statement of Basis, Specific Statutory Authority, and Purpose

VI.A. Adoption of the Pre-Renovation Education in Target Housing rule, Regulation No. 19, Part B (February 15, 2007)

1. Background

This Statement of Basis, Specific Statutory Authority and Purpose comply with the requirements of the Colorado Administrative Procedure Act Sections 24-4-103(4) and (12.5), C.R.S. for new and revised regulations.

2. Basis

In 1996 the U.S. Environmental Protection Agency ("US-EPA") promulgated a regulation that establishes the requirements that state programs must meet for authorization by the Administrator to administer requirements established under the Toxic Substance Control Act section 406 and establishes the procedures EPA will follow in approving state programs. (40 CFR 745, Subpart Q.) In 1998 the US-EPA promulgated a regulation that requires contractors to provide owners and occupants a lead hazard information pamphlet before renovating target housing. (40 C.F.R. Part 745, Subpart E.) In 2006 the Colorado Legislature passed an act granting the Air Quality Control Commission ("Commission") authority to promulgate a regulatory program for lead hazard education before renovation of target housing. (HB 06-1265, Concerning Additional Requirements Pertaining To Lead-Based Paint Abatement.)

3. Specific Statutory Authority

The specific statutory authority for these revisions is set forth in Section 25-7-1103(1)(f), C.R.S., which gives the Commission specific authority to promulgate regulations necessary to establish and implement requirements for each person who performs for compensation a renovation of target housing to provide a lead hazard information pamphlet to the owner and occupant of such housing prior to commencing the renovation.

4. Purpose

The purpose of the proposed revised regulation is to continue to protect children from lead exposure by simply requiring contractors to distribute a lead hazard information pamphlet to owners and occupants of target housing before renovation takes place. This requirement already exists in Colorado under US-EPA's *Lead; Requirements for Hazard Education Before Renovation of Target Housing*, final rule. Creating and implementing a state lead hazard education program allows Colorado to make improvements to the required pamphlet by including up-to-date and state-specific information and allows the State to take over lead hazard education outreach, compliance, and related enforcement activities from the US-EPA, and therefore serves to make Regulation No. 19 consistent with the federal program.

5. Action Taken

In addition to the changes necessary to make the State program consistent with Federal requirements, certain additional changes were made in order to make the US-EPA regulation work on a state level. For example, the US-EPA's table of contents, self references and references to other state and tribal programs do not make sense in the context of Colorado Air Quality Control Commission regulations.

6. Findings Pursuant to §25-7-110.8, C.R.S.

These revisions are based on reasonably available, validated and reviewed, and sound scientific methodologies, which demonstrate that exposure to lead is hazardous to children under the age of seven, and that lead-based paint was commonly used in residences prior to 1978.

The requirements of this revised regulation will allow individuals to reduce their exposure and their family's exposure to airborne lead-contaminated dust occurring during renovation projects, and therefore reduce the risks to human health.

Further, these revisions will include any typographical and grammatical errors throughout the regulation.

PART C Statements of Basis, Specific Statutory Authority and Purpose

I. Adopted: August 21, 1998

Background

This Statement of Basis, Specific Statutory Authority and Purpose complies with the requirements of the Colorado Administrative Procedures Act, section 24-4-103(4), C.R.S. and the Colorado Air Pollution Prevention and Control Act, sections 25-7-110 and 25-7-110.5, C.R.S.

Basis

U.S. Environmental Protection Agency ("US EPA") promulgated a regulation that allows states to promulgate US EPA-approved lead-based paint abatement programs and receive monies from US EPA to fund the initial development of state programs. (40 C.F.R. Part 745.) In 1997, the Colorado Legislature passed an act granting the Commission authority to promulgate a regulatory program for lead-based paint abatement. (SB 97-136, Prevention, Intervention, and Reduction of Lead Exposure.)

Authority

The authority for this regulation is contained in the Colorado Air Pollution Prevention and Control Act ("Colorado Act"), sections 25-7-1101 through 1107, which provides the Commission the authority to develop and adopt a lead-based paint abatement program.

Purpose

The Colorado Legislature has declared that exposure of children to lead represents a significant environmental health problem that is preventable by developing a regulatory program that leads to the creation of housing and facilities where no significant lead-based paint hazard is present. In addition, the Legislature declared that the achievement of uniformity in the regulation of lead abatement practices and uniformity in the qualifications for and certification of persons who perform such abatement is necessary statewide. The purpose of this regulation is to protect children from exposure to lead from lead-based paint by regulating how lead-based paint abatement is conducted in "target housing" and "child-occupied facilities". As a result, the scope of Regulation Number 19, Part A is limited to homes constructed prior to 1978, child-occupied facilities, and only those projects where the intent is to abate lead-based paint hazards. Regulation Number 19, Part A is intended to fulfill the requirements of the Lead-based Paint Hazard Reduction Act of 1992, pertaining to target housing and child-care facilities. The Commission finds that the work practice requirements contained in Regulation Number 19, Part A are necessary for the protection of the public in targeted housing and child-care facilities.

Action Taken

The Commission concludes that adoption of this regulation is an appropriate step to begin to protect children from exposure to lead from lead-based paint as a result of lead-based paint abatement in "target housing" and "child-occupied facilities". At this time, the Commission adopts language substantially similar to the federal lead-based paint abatement requirements. In the Commission's view, the requirements adopted will satisfy US EPA's requirements for a state lead-based paint abatement program.

Training and Certification

The Commission concludes that implementation of the training and certification provisions in this regulation will result in uniformity in the qualifications for and certification of persons who perform such abatement. The training and certification provisions will also aid in ensuring that trained and qualified individuals are available to advise consumers about lead hazards in general and about specific measures that may be needed to control such hazards. The training and certification requirements in the rule are identical to the training and certification requirements in the federal rule, except that the State rule: (1) establishes fees pursuant to section 25-7-1103, C.R.S.; (2) requires division approval of training courses; and (3) Does not include the provisions of the federal rule that allow accredited training courses to issue an interim certification valid for six months. Such interim certification is not necessary in the State program because, unlike the US EPA, the division is prepared to begin implementing the certification requirements immediately. Such variations from the federal rule are consistent with state statute, are administrative in nature, and do not constitute training and certification requirements that are more stringent than the federal requirements. Therefore, the training and certification provisions are not more stringent than the training and certification requirements established by the federal "Residential Lead-based Paint Hazard Reduction Act of 1992" and federal rules promulgated pursuant to that act or any training and certification requirements of any US EPA-approved state program that has been established under the Federal "Residential Lead-based Paint Hazard Reduction Act of 1992."

Performance Standards and Practices

Pursuant to section 25-7-1103(1)(b), C.R.S., the Commission adopts performance standards and practices for lead abatement. The Commission concludes that the performance standards and practices in Regulation Number 19, Part A will result in uniformity in the regulation of lead abatement practices in the State of Colorado. These standards and practices require that abatement contractors employ consistent standards and procedures to remove, enclose, and encapsulate lead-based paint to remove lead hazards from target housing and child-occupied facilities. The standards and practices include US EPA's work practice standards and work practice measures that an abatement contractor must include in an occupant protection plan and comply with before, during, and after abatement. The work practice standards and measures were developed based upon US EPA's regulatory requirements and U.S. Department of Housing and Urban Development's ("HUD's") requirements.

The State rule includes work practices that are not required by the federal act, and that are, in some cases, otherwise more stringent than the federal requirements. The additional work practices in the State rule include the prohibition of uncontained hydroblasting and high-pressure washing, the prohibition of dry sanding, the restriction of chemical stripping, and the requirement that a supervisor be on-site at all times while abatement is occurring. Such requirements are not incorporated into the State implementation plan and, therefore, are consistent with section 25-7-105.1, C.R.S. In addition, the federal rule does not explicitly require the establishment of containment barriers; however, they do require an occupant protection plan that may require the use of containment barriers. The State rule expressly requires containment barriers.

US EPA requires a written occupant protection plan be developed for each residential dwelling or child-occupied facility prior to the abatement. (40 C.F.R. 745.227(e)(5).) The occupant protection plan "shallmust describe the measures and management procedures that will be taken during the abatement to protect the building occupants from exposure to any lead-based paint hazards." (40 C.F.R. 745.227(e)(5)(i).) US EPA does not provide the abatement contractor the minimum abatement work practice measures that will be required for the occupant protection plan. The Commission pursuant to its authority in section 25-7-1103(1)(b), C.R.S., adopts the work practice measures in Regulation Number 19, Part A

as the minimum work practice measures that must be included in an occupant protection plan and followed during abatement to ensure building occupants are protected from exposure to any lead-based paint hazards.

Certain standards and methodologies adopted by the Commission were developed by the HUD. The Commission adopts such standards and methodologies, because: 1) HUD has successfully implemented and enforced its lead-based paint abatement program and the associated guidelines and methodologies for the past eight years; 2) US EPA cites to HUD guidelines and methodologies in the Federal regulation (i.e., 40 C.F.R. section 745.227(a)(3)) as acceptable standards for Federal and state programs; 3) the HUD Guidelines are considered by industry as state-of-the-art; 4) several commenters in the workgroup stressed the importance of not reinventing the wheel and being consistent with HUD; and 5) the HUD Guideline incorporates the results of studies that indicate work practices and standards necessary to contain lead-based paint hazards and protect children's health.

The Commission adopts the requirement that a certified supervisor to be onsite during all work site preparation, abatement, and during post-abatement cleanup of the work areas, because such a practice is necessary to ensure workers properly conduct lead-based paint abatement. The Commission agrees that US EPA's requirement that a certified supervisor need only be reachable by telephone and is not required to be onsite is inadequate for the State of Colorado. In addition, the State rule contains project notification requirements and establishes a project clearance level. The federal rule also requires notification but US EPA has not yet specified rules for such notification. US EPA may propose specific notification requirements before August 31, 1998. US EPA proposed a regulation for public comment identifying dangerous levels of lead in June of 1998. US EPA's proposal for soil hazard levels differs from HUD standard and the division's proposal by not including a separate, more stringent, standard for high contact play areas. Although US EPA's regulation is not final, it's justification for a single soil level is persuasive and the Commission adopts that single soil level.

Procedures for Approval of Trained Persons

Regulation Number 19, Part A, as adopted, includes procedures for the approval of persons or companies who provide training or accreditation for workers, supervisors, inspectors, risk assessors, or project designers performing lead-based paint activities in target housing or child-occupied facilities pursuant to the Commission's authority in section 25-7-1103(1)(c), C.R.S.

Notification of Appropriate Persons

The Commission finds that the notification requirements in Regulation Number 19, Part A are necessary and adequate to provide the Air Pollution Control Division ("Division") with notice of lead-based paint abatement projects occurring in the State of Colorado. The Division recommends that the Commission adopt a requirement that an abatement contractor notify the Division ten days prior to the commencement of lead-based paint abatement activities if the amount of lead-based paint, lead contaminated soil, or lead contaminated dust is greater than two square feet on interior surfaces or ten square feet on exterior surfaces. The Commission also adopts fee provisions intended to cover the cost of processing notifications. The Commission agrees with the division and includes such a requirement in the notification provisions of Regulation Number 19, Part A.

Fees for Certification of Persons

Regulation Number 19, Part A includes requirements for fees for certification of persons conducting lead abatement services, for any necessary monitoring of such persons to ensure compliance with Regulation Number 19, Part A, and for approval of persons or companies involved in the training or accreditation of workers pursuant to the Commission's authority at section 25-7-1103(1)(e), C.R.S. The Commission concludes that the fee provisions in this Regulation Number 19, Part A are adequate to fully fund the division's lead-based paint abatement program, if projected activity levels are accurate.

Definition of Child-Occupied Facilities

The rule incorporates the definition of the term "child-occupied facility" set out in section 25-7-1102(2)(a), C.R.S. Pursuant to the statutory definition, day-care centers, pre-schools and kindergarten classrooms constructed prior to 1978 are "child-occupied facilities" whether or not such facilities are visited by children for a total of at least six hours per visit. That is, the definitions set out in paragraphs (a) and (b) of subsection (2) of section 25-7-1102, C.R.S., are independent definitions. Day-care centers, pre-schools and kindergarten classrooms are child-occupied facilities whether or not they meet the definition set out in section 25-7-1102(2)(a), C.R.S.

The foregoing interpretation of section 25-7-1102(2), C.R.S., is based on the plain language of the statute. Furthermore, such a reading furthers the legislative intent evident in section 25-7-1103(1), C.R.S., to establish a program that implements the requirements of the federal program. The definition of "child-occupied facility" set out in section 25-7-1102(2)(a), C.R.S., differs from the federal definition expressed in 40 C.F.R. section 745.223. The difference between the two definitions concerns the length of time in which a child must visit a facility in order for the facility to be a "child-occupied facility." Pursuant to the federal definition, the critical time is defined as "combined weekly visits [of at least] six hours." The definition in section 25-7-1102(2)(a), C.R.S., requires each visit to total at least six hours. Many pre-schools and kindergarten classrooms operate more than six hours per week, but less than six hours per day. Such classrooms are included in the federal definition, but would not be included in the definition set out in section 25-7-1102(2)(a), C.R.S. Reading sections 25-7-1102(2)(a) and (2)(b), C.R.S., as independent definitions captures most, if not all, of the facilities that are included in the federal definition but excluded from the definition in section 25-7-1102(2)(a), C.R.S. Such a reading furthers the legislative intent to implement the federal program.

Findings Pursuant to Section 25-7-110.8, C.R.S.

The regulation promulgated by the Commission is based on reasonably available, validated, reviewed and sound scientific methodologies demonstrating that exposure to lead is hazardous to children under the age of seven, and that lead-based paint was commonly in use in residences and child-occupied facilities prior to 1978. Interested parties did not provide the Commission with any other validated, reviewed, and sound scientific methodologies or information. The work practices in the regulation are designed to minimize airborne lead-contaminated dust during lead abatement projects. Therefore, such practices will result in a demonstrable reduction in air pollution associated with such projects. The remaining requirements of the regulation are administrative in nature and are not subject to the requirements of section 25-7-110.8(1)(b), C.R.S. No one proposed an alternative that would comply with the state statutory requirements in a more cost-effective manner.

Delay of Effective Date of Regulation

The Commission delayed the effective date of this regulation for persons conducting abatement activities in dwellings that they own and occupy in order to provide homeowners time to be able to comply with this regulation.

Commission Directions to Staff

The Commission intends that the Department of Public Health and Environment's lead program, in September 1998, notify the primary care giver of known children with elevated blood lead levels of this regulation. The Commission intends that the division review the application of this regulation to renovation activities, and that it complete this review by December 31, 1998. The Commission intends that the division will maintain current lists of certified lead abatement contractors, supervisors and certification courses, and will make these lists available to the public.

II. Adopted: December 19, 2002 Revisions to Regulation Number 19, Part A

Background

This Statement of Basis, Specific Statutory Authority and Purpose comply with the requirements of the Colorado Administrative Procedure Act Sections 24-4-103(4) and (12.5), C.R.S. for new and revised regulations.

Basis

Regulation Number 19, Part A sets forth the Air Quality Control Commission's lead-based paint abatement program. Colorado's program is tailored after the Federal program. In January of 2001, the United States Environmental Protection Agency ("EPA") adopted revisions to the Federal program. EPA has given the state until June 7, 2003 to revise its regulation in order to make Colorado's program consistent with EPA's newly revised regulation. These revisions to Regulation Number 19, Part A are intended to comply with this mandate. Additionally, obsolete provisions have been deleted and certain minor language changes have been made to help clarify the regulation. Finally, changes to the certification fee structure have been made to minimize the burden on the regulated community and encourage the type of growth necessary to serve the needs of the public while allowing the program to be fully funded from the collection of fees as required pursuant to § 25-7-1105, C.R.S.

Specific Statutory Authority

The specific statutory authority for these revisions is set forth in various sections of the Colorado Air Pollution Prevention and Control Act. Section, 25-7-105(1), C.R.S., gives the Air Quality Control Commission general authority to promulgate rules and regulations necessary for the proper implementation of the Air Pollution Prevention and Control Act ("Act"). Section 25-7-1103(1), C.R.S. gives the Commission specific authority to promulgate regulations necessary to establish and implement a state lead-based paint abatement program, including regulations regarding lead-based paint abatement performance standards and certification requirements. Finally, § 25-7-1105, C.R.S. allows the Commission to set fees that are sufficient to cover the costs of the program.

Purpose

The purpose of the revised regulation is to continue to protect children from lead exposure by establishing standards for lead-based paint abatement in "target housing" and "child occupied-facilities." The primary purpose of these revisions is to make the Colorado regulation consistent with the recently adopted Federal regulations governing lead-based paint abatement. To accomplish this, revisions have been made to Sections II. (Definitions), III. (Training and Certification Requirements), IV. (Inspections, Lead Hazard Screens, and Risk Assessments) and V. (Abatement Requirements) of Regulation Number 19, Part A. Changes have also been made to the table in Appendix A, governing the number of sample that must be taken in clearing projects in multi-family dwellings constructed prior to 1978. The new table is consistent with the revised HUD Guidelines for Lead-Based Paint, and therefore serves to make Regulation Number 19, Part A consistent with the federal program.

Action Taken

In addition to the changes necessary to make the State program consistent with Federal requirements, certain additional changes were made in order to clarify program requirements. For example, surplus language was removed from the provisions set forth in Section III.B.1.b., while the language in Section IV.B.1 was expanded to clarify that risk assessments are to be conducted in accordance with requirements of Section IV. (Inspections, Lead Hazard Screens, and Risk Assessments). These changes are not substantive and are not intended to change any program requirements.

A limited number of minor substantive changes were made to remove obsolete provisions, correct unintended consequences of the old regulatory language, and eliminate unnecessarily burdensome requirements. For example, the notification fee table set forth in Section V.A.5.c. sets forth the amount of

fees that need to be paid based on the size of the project. Due to errors in the table, fees for larger projects could actually be less than fees for smaller projects. These errors have been corrected to create a graduated fee schedule. Section V.J.3. of the old regulation required that a supervisor or project designer prepare an abatement report, but failed to specify a time frame for completion of the report, thereby rendering enforcement of this requirement difficult. The revisions correct this oversight by providing a ninety-day time frame for report completion. Finally, Section V.C.2.c. has been changed to eliminate the requirement that ventilation systems be shut down during level I-1 projects. This requirement was deemed unnecessary given the nature of such projects and the fact that vents must be adequately sealed prior to abatement.

Several changes were made with respect to certification requirements. EPA's regulations require that all abatement, inspection and risk assessment firms be certified. For some reason, the prior version of Regulation Number 19, Part A failed to require certification for inspection or risk assessment firms. The revisions correct this oversight. The revisions also set certification fees for risk assessment and inspection firms, as well as modify the fees for abatement firms. The fee levels were based on an analysis of the amount of money that needs to be collected through fees in order to cover the costs of the program as required pursuant to § 25-7-1105, C.R.S. Given the continued growth of the program, and the addition of certification fees for inspection and risk assessment firms, the fee levels for abatement firms were able to be substantially reduced. These new fees will apply to firms seeking certification after the effective date of these revisions. Firms certified prior to the effective date shall not be entitled to a refund of any previously paid fees.

Findings Pursuant to § 25-7-110.8, C.R.S.

These revisions are based on reasonably available, validated and reviewed, and sound scientific methodologies demonstrating that exposure to lead is hazardous to children under the age of seven, and that lead based-paint was commonly used in residences and child-occupied facilities prior to 1978. Interested parties did not provide the Commission with any other validated, reviewed and scientifically sound methodologies or information. Based on the evidence presented on the record, the requirements of this revised regulation will reduce the amount of airborne lead-contaminated dust occurring during lead-based paint abatement projects, and therefore reduce the risks to human health and the environment thereby justifying the costs associated with this regulation. The revisions represent the regulatory alternative presented to the Commission, which best balances cost-effectiveness, flexibility to the regulated community and maximization of air quality benefits.

III. Adopted: February 15, 2007 Revisions to Pre-Renovation Education in Target Housing in Regulation Number 19, Part B

Background

This Statement of Basis, Specific Statutory Authority and Purpose comply with the requirements of the Colorado Administrative Procedure Act Sections 24-4-103(4) and (12.5), C.R.S. for new and revised regulations.

Basis

In 1996 the U.S. Environmental Protection Agency ("US EPA") promulgated a regulation that establishes the requirements that state programs must meet for authorization by the Administrator to administer requirements established under the Toxic Substance Control Act section 406 and establishes the procedures EPA will follow in approving state programs. (40 CFR 745, Subpart Q.) In 1998 the US EPA promulgated a regulation that requires contractors to provide owners and occupants a lead hazard information pamphlet before renovating target housing. (40 C.F.R. Part 745, Subpart E.) In 2006 the Colorado Legislature passed an act granting the Air Quality Control Commission ("Commission") authority to promulgate a regulatory program for lead hazard education before renovation of target housing. (HB 06-1265, Concerning Additional Requirements Pertaining to Lead-Based Paint Abatement.)

Specific Statutory Authority

The specific statutory authority for these revisions is set forth in Section 25-7-1103(1)(f), C.R.S., which gives the Commission specific authority to promulgate regulations necessary to establish and implement requirements for each person who performs for compensation a renovation of target housing to provide a lead hazard information pamphlet to the owner and occupant of such housing prior to commencing the renovation.

Purpose

The purpose of the proposed revised regulation is to continue to protect children from lead exposure by simply requiring contractors to distribute a lead hazard information pamphlet to owners and occupants of target housing before renovation takes place. This requirement already exists in Colorado under US EPA's *Lead: Requirements for Hazard Education Before Renovation of Target Housing*, final rule. Creating and implementing a state lead hazard education program allows Colorado to make improvements to the required pamphlet by including up-to-date and state-specific information and allows the State to take over lead hazard education outreach, compliance, and related enforcement activities from the US EPA, and therefore serves to make Regulation Number 19 consistent with the federal program.

Action Taken

In addition to the changes necessary to make the State program consistent with Federal requirements, certain additional changes were made in order to make the US EPA regulation work on a state level. For example, the US EPA's table of contents, self-references and references to other state and tribal programs do not make sense in the context of Colorado Air Quality Control Commission regulations.

Findings Pursuant to §25-7-110.8, C.R.S.

These revisions are based on reasonably available, validated and reviewed, and sound scientific methodologies, which demonstrate that exposure to lead is hazardous to children under the age of seven, and that lead-based paint was commonly used in residences prior to 1978.

The requirements of this revised regulation will allow individuals to reduce their exposure and their family's exposure to airborne lead-contaminated dust occurring during renovation projects, and therefore reduce the risks to human health.

Further, these revisions will include any typographical and grammatical errors throughout the regulation.

IV. Adopted: December 20, 2007 Revisions to Regulation Number 19 Part A, Sections III.B.1., III.B.5., III.B.6., and V.A.5.

This Statement of Basis, Specific Statutory Authority and Purpose complies with the requirements of the Colorado Administrative Procedure Act Sections 24-4-103(4), C.R.S. for new and revised regulations.

Basis

The Air Quality Control Commission has adopted revisions to Part A, Sections III.B.1., III.B.5., III.B.6., and V.A.5. in order to increase the certification and permit fees charged to persons certified to perform lead-based paint activities in target housing and child-occupied facilities in Colorado, commencing in 2008. The increases are necessary to help offset increasing program costs.

Specific Statutory Authority

The specific statutory authority for these revisions is set forth in Section 25-7-1105, C.R.S., which allows the Commission to adjust fees so that the revenue generated is sufficient to cover direct and indirect costs to implement the lead hazard reduction program.

Purpose

The revisions to Part A, Sections III.B.1., III.B.5., III.B.6., and V.A.5. were adopted to cover existing and anticipated revenue shortfalls.

V. Adopted: November 18, 2021 Revisions to Regulation Number 19, Parts A and B

This Statement of Basis, Specific Statutory Authority and Purpose complies with the requirements of the Colorado Administrative Procedure Act § 24-4-103(4), C.R.S., the Colorado Air Pollution Prevention and Control Act ("Act"), and the Air Quality Control Commission's ("Commission") Procedural Rules

Basis

Regulation Number 19 sets forth the Commission's lead control program which is tailored after the Federal program. Subchapter IV of the Federal Toxic Substances Control Act ("TSCA") addresses Lead Exposure Reduction. See 15 U.S.C. §§ 2681-2692. The U.S. Environmental Protection Agency ("EPA") promulgated regulations implementing requirements for Lead-Based Paint Poisoning in Certain Residential Structures. See 40 C.F.R. 745, Subparts A-Q. Colorado has delegated authority from EPA to administer and enforce the lead control program. However, to receive and maintain such delegated authority, Colorado's lead control program must be at least as protective of human health and the environment as the Federal program, contain certain requirements and provide adequate enforcement. See 40 C.F.R. 745, Subpart Q. These revisions to Regulation 19 ensure that Colorado's program is at least as protective as the Federal program and contains certain federal requirements. Additionally, certain definitions have been added, minor reorganization and language changes have been made to clarify the regulation and reference materials have been updated. Lastly, language has been added to clarify requirements for abatement activities; and extend the requirements of Part B to child-occupied facilities.

Specific Statutory Authority

The Act, §§ 25-7-101, C.R.S., *et seq.*, specifically § 25-7-105(1), gives the Commission general authority to promulgate rules and regulations, necessary for the proper implementation of the Act. Part 11 of the Act, §§ 25-7-1101, C.R.S., *et seq.*, addresses lead-based paint abatement. Section 25-7-1103, C.R.S. directs the Commission to promulgate such rules as are necessary to implement Part 11 "under the requirements of federal 'Residential Lead-Based Paint Hazard Reduction Act of 1992', 15 U.S.C. secs. 2682, 2684, and 2686", which is part of TSCA.

Section 25-7-1103(1)(a), C.R.S. directs the Commission to promulgate rules that address procedures for a training and certification program for persons and companies involved in inspection, risk assessment, planning, project design, supervision, or conduct of the abatement of surfaces containing lead-based paint. Section 25-7-1103(1)(c), C.R.S. directs the Commission to promulgate rules regarding procedures for the approval of persons or companies who provide training or accreditation for workers, supervisors, inspectors, risk assessors, or project designers performing lead-based paint activities in target housing or child-occupied facilities. Section 25-7-1103(1)(d), C.R.S. directs the Commission to promulgate rules that address procedures for notification to appropriate persons regarding lead-based paint projects in target housing or child-occupied facilities.

Purpose

The purpose of the revisions is to continue to protect children from lead exposure by establishing standards for lead-based paint abatement in "target housing" and "child occupied-facilities." A primary purpose of these revisions is to make the Colorado regulation consistent with updated Federal regulations

as well as the Centers for Disease Control and Prevention (CDC) and the Colorado Board of Health (BOH) rule.

In addition to the changes necessary to make Colorado's program consistent with Federal requirements, certain changes were made in order to clarify program requirements.

The revisions also correct typographical, grammatical, and formatting errors found throughout the regulation, made global stylistic changes and reorganized the regulation to conform to current AQCC language requirements.

The following explanations provide further insight into the Commission's intention for certain revisions and, where appropriate, the technological or scientific rationale for the revision.

PART A. LEAD-BASED PAINT ACTIVITIES

Incorporated Materials (Section II.B.)

Section 24-4-103(12.5), C.R.S. of the State Administrative Procedure Act allows the Commission to incorporate by reference codes, standards, guidelines or rules. The Commission included updates to reference methods incorporated in Regulation Number 19.

Terms (Section II.B.)

The Commission updated definitions that were unclear or incomplete. The Commission also added definitions for Certified Lead Abatement Firm, Certified Lead Evaluation Firm, Movable Objects, Records and Zero-bedroom dwelling as these are all commonly used terms that were not previously defined.

In Section II.B.30., the Commission changed the numerical standard and testing protocols in the definition of Elevated Blood Level to mirror changes in the CDC definition as well as the BOH Rule.

In Sections II.B.48.b and II.B.49. respectively, the Commission lowered the numerical standards in the definitions of Dust-lead hazard and Lead-contaminated dust to mirror changes in the federal regulation.

Section III. Training and Certification Requirements

Certification Based on Prior Training (Section III.B.4)

The Commission removed this section as it is no longer applicable or used.

Recertification (Section III.B.5)

The Commission clarified the process for when and how an individual can be re-certified.

Certification of Lead Abatement or Lead Evaluation Firms (Section III.B.6.)

The Commission also clarified that cities, counties and municipalities or other governmental entity employing appropriately trained and certified personnel, as required by this Regulation 19, will be exempt from paying the Certified Lead Evaluation Firm fee. The Commission's intent in exempting these entities is to allow for the governmental agencies to provide a service to their constituents where commercial services are less readily available.

Section IV. Inspections, Lead-Hazard Screens, and Risk Assessments

In Section IV.H.3.a., the Commission updated the residual lead levels to ensure it is equally protective as the Federal regulation.

Section V. Abatement Requirements

General Requirements

The Commission clarified that persons intending to conduct lead-based paint abatement must comply with the requirements of Regulation Number 19 if at least one window is being abated.

Occupant Protection Plan (Section V.A.6.)

The Commission clarified what must be included in an occupant protection plan ("OPP") for the Division to understand and evaluate the OPP and that it must be submitted to the Division along with the permit application.

Window Abatement (Section V.E.3.)

The Commission clarified the steps that must be taken when abating windows and added a third abatement option.

Coating and Sealing (Section V.I.1.b.)

The Commission moved the section regarding when coating must be applied to abated surfaces to more accurately reflect when coatings should be applied during the abatement sequence.

Final Clearance (Section V.J.1.g.)

The Commission updated the clearance levels to comply with changes to the Federal regulation.

Final Clearance (Section V.J.3.d.)

The Commission required that the name and address of the certified Lead Evaluation Firm is included in the abatement report.

Recordkeeping (Section V.L.)

The Commission clarified that records must be available to the Division upon request in order to demonstrate compliance.

Alternative Procedures and Variances (Section V.M.)

The Commission added a requirement that within forty-five (45) days of the receipt of a variance request the Division will notify the applicant in writing of its decision to either grant or deny the variance. Previously, there was no timeframe for the Division to respond to a variance request.

PART B. PRE-RENOVATION EDUCATION IN TARGET HOUSING AND CHILD-OCCUPIED FACILITIES

Section I. Scope and Applicability

Definition of Minor Repair and Maintenance (Section I.B.1.)

The Commission clarified what minor repair and maintenance means, which is an activity that is exempt from Regulation Number 19, Part B requirements.

Section III. Information and Distribution Requirements

Renovations in child-occupied facilities (Section III.D)

The Commission added a section regarding information distribution in child-occupied facilities in order to be as stringent as Federal requirements. See 40 C.F.R. § 745.84(c).

Findings Pursuant to § 25-7-110.5(5), C.R.S.

EPA's lead rules do not limit states from developing more stringent requirements for lead. However, in accordance with C.R.S. § 25-7-110.5(5)(b) and after considering all of the evidence in the record, the Commission determines:

- (I) EPA established national standards for lead. EPA's national rules do not limit states from developing more stringent requirements for lead.
- (II) The federal rules discussed in (I) are primarily performance-based and there is flexibility in those requirements.
- (III) The TSCA does not address the issues that are of concern to Colorado and did not take into account concerns unique to Colorado.
- (IV) The proposed revisions will improve the ability of the regulated community to comply in a more cost-effective way by clarifying confusing or potentially conflicting requirements and increasing certainty.
- (V) Federal lead regulation has already been implemented in Colorado, however changes to this federal regulation requires updates to ensure Regulation 19 is equally as protective.
- (VI) The proposed revisions will assist in establishing and maintaining a reasonable margin for accommodation of uncertainty and future growth.
- (VII) The proposed revisions maintain reasonable equity in the requirements for various sources by evaluating the overall concerns and instituting the same requirements to reduce and/or eliminate lead-based paint poisoning in certain residential structures.
- (VIII) Colorado residents and building owners may face increased costs from lead-based paint poisoning if the proposed revisions are not adopted.
- (IX) The proposed revisions include minimal monitoring, recordkeeping, and procedural requirements that correlate to the federal requirements.
- (X) Demonstrated technology is available to comply with the proposed revisions since the revisions will only clarify what has already been implemented or previously enforced by other agencies.
- (XI) As set forth in the Economic Impact Analysis, the proposed revisions contribute to the prevention of harmful lead-based paint poisoning in a cost-effective manner.
- (XII) Although alternative revisions may reduce lead exposure, the Commission determined that the Division's proposal was reasonable and cost-effective.

Findings Pursuant to §25-7-110.8, C.R.S.

After considering all of the information in the record, the Commission makes the determination that:

- (I) These revisions are based on reasonably available, validated and reviewed, and sound scientific methodologies demonstrating that exposure to lead creates a public health hazard. The Commission has considered all information submitted by interested parties.

- (II) Evidence in the record supports the finding that the requirements of these revisions will reduce public exposure to lead-based paint poisoning and therefore reduce the risks to human health and the environment thereby justifying the costs associated with this regulation.
- (III) Evidence in the record supports the finding that the revisions are the most cost-effective, which best balances cost-effectiveness, flexibility to the regulated community and maximization of air quality benefits

COLORADO

Air Quality Control Commission

Department of Public Health & Environment

NOTICE OF RULEMAKING HEARING

Regarding proposed revisions to:

Regulation Number 19 5 CCR 1001-23

SUBJECT:

The Air Quality Control Commission will hold a rulemaking hearing to consider revisions to the lead-based paint abatement regulation. Proposed revisions will include updating regulatory language and lowering clearance and lead dust hazard levels to reflect changes in federal regulation.

All required documents for this rulemaking can be found on the Commission website at: <https://www.colorado.gov/pacific/cdphe/aqcc>

PARTY TESTIMONY & DELIBERATIONS

DATE: November 18, 2021

TIME: To begin at or after 9:00 a.m.

PLACE: The hearing will be held online only; there will be no in-person participation. Details related to participation and registration can be found at: <https://cdphe.colorado.gov/aqcc>

NOTE: No additional public comment will be taken during this time.

IMPORTANT: As Colorado begins to re-open from COVID-19, the Commission may reestablish conducting meetings at the Colorado Department of Public Health and Environment in its entirety or structured as a hybrid meeting. Any such changes will be noticed on the Commission's website at: <https://cdphe.colorado.gov/aqcc>

The hearing may be continued at such places and time as the Commission may announce. Any such changes will be noticed on the Commission's website. Interested parties may contact the Commission Office at cdphe.aqcc-comments@state.co.us to confirm meeting details.

PUBLIC COMMENT:

The Commission encourages input from the public, either orally during the public comment session or in writing prior to the hearing. However, oral public comment will generally not be permitted by persons who offer comment on behalf of an entity that is a party. Those persons may, however, submit written public comment. Instructions for registering to provide oral public comment will be posted in the agenda on the Commission's website at <https://cdphe.colorado.gov/aqcc> on November 5, 2021.

Written comments should be submitted no later than **November 2, 2021** by emailing cdphe.aqcc-comments@state.co.us or mailing to:

Colorado Air Quality Control Commission
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South, EDO-AQCC-A5
Denver, Colorado 80246

IMPORTANT DATES AND DEADLINES:

PROCESS DESCRIPTION	DUE DATE & TIME	NOTES
Request for Party Status	September 15, 2021 by 5:00 p.m.	Additional information below
Status Conference	September 22, 2021 at 2:00 p.m.	Virtual Meeting or as noticed on the Commission website at: https://cdphe.colorado.gov/aqcc
Alternate Proposal	October 14, 2021 by 5:00 p.m.	Additional information below
Prehearing Statement	October 14, 2021 by 5:00 p.m.	Additional information below
Prehearing Conference	October 20, 2021 at 1:00 p.m.	Virtual Meeting or as noticed on the Commission website at: https://cdphe.colorado.gov/aqcc
Rebuttal Statement	October 27, 2021 by 5:00 p.m.	Additional information below
Written Public Comments	November 2, 2021 by 5:00 p.m.	Additional information above

Submittals for this hearing should be emailed to cdphe.aqcc-comments@state.co.us unless an exception is granted pursuant to Subsection III.I.3. of the Commissions Procedural Rules.

REQUEST FOR PARTY STATUS:

A request for party status must:

- 1) identify the applicant (this could be a company and/or contact name);
- 2) provide the name, address, telephone and email address of the applicant's representative or counsel; and
- 3) briefly summarize what, if any, policy, factual, and legal issues the applicant has with the proposal(s) as of the time of filing the application.

In addition, requests for party status should indicate whether the applicant intends to file an alternate proposal and, if so, briefly describe the scope and nature of the alternate proposal.

The request for party status must be electronically mailed to:

- Air Quality Control Commission staff: theresa.martin@state.co.us
- Air Quality Control Commission attorney: tom.roan@coag.gov
- Air Pollution Control Division staff: laura.manyak@state.co.us
- Air Pollution Control Division attorney: laura.mehew@coag.gov

Requests received beyond the stated deadline shall only be considered upon a written motion for good cause shown. The Commission reserves the right to deny party status to anyone that does not comply with the Commission's Procedural Rules.

STATUS CONFERENCE:

Attendance at the status conference is mandatory for anyone who has requested party status, though each party need only have one representative present. The status conference is intended to ascertain and discuss the issues involved, and to ensure that parties are making all necessary efforts to discuss and resolve such issues prior to the submission of prehearing statements. Parties will be confirmed and a party list will be generated and distributed. The status conference will be held virtually via video conference. A registration link will be provided by the Commission's office prior to the status conference. Note that if the Hearing Officer deems the status conference unnecessary, the status conference may be cancelled.

ALTERNATE PROPOSAL:

Alternate proposals will be considered by the Commission "only if the subject matter of the alternative proposal is consistent with and fits within the scope of the notice." 5 CCR 1001-1, Section (V)(E)(4)(b). The submittal of an alternate proposal must be accompanied by a separate electronic copy of the alternate proposed rule and statement of basis and purpose language and all other associated documents as required by the Commission's Procedural Rules, including an economic impact analysis. Alternate proposals and associated exhibits must be emailed to all persons listed on the party status list or otherwise provided through an approved method of electronic transmission.

PREHEARING STATEMENTS:

Each party must submit a prehearing statement. Exhibits to a prehearing statement must be submitted in a separate electronic transmission. Prehearing statements and associated exhibits must be emailed to all persons listed on the party status list or otherwise provided through an approved method of electronic transmission. Prehearing statements must

contain all the necessary elements described in subsection V.E.6.c of the Commission's Procedural Rules (5 CCR 1001-1).

PREHEARING CONFERENCE:

Attendance at the prehearing conference is mandatory for all parties to this hearing, though each party need only have one representative present. The prehearing conference will be held virtually, and registration information will be provided by the Commission's office prior to the prehearing conference.

REBUTTAL STATEMENTS:

Rebuttal statements may be submitted by the Division and any party to the hearing to respond to issues and arguments identified in prehearing statements. Rebuttal statements may not raise any issues, or be accompanied by alternate proposals, that could have been raised in the party's prehearing statement. Rebuttal statements and associated exhibits must be emailed to all persons listed on the party status list or otherwise provided through an approved method of electronic transmission. The filing of rebuttal statements is optional.

DELIBERATION AND FINAL ACTION:

The Commission intends to deliberate and take final action on the proposed changes to these Regulations at the conclusion of the testimony.

STATUTORY AUTHORITY FOR THE COMMISSION'S ACTIONS:

The Act, §§ 25-7-101, C.R.S., *et seq.*, specifically § 25-7-105(1), gives the Commission general authority to promulgate rules and regulations, necessary for the proper implementation of the Act. Part 11 of the Act, §§ 25-7-1101, C.R.S., *et seq.*, addresses lead-based paint abatement. Section 25-7-1103, C.R.S. directs the Commission to promulgate such rules as are necessary to implement Part 11 "under the requirements of federal 'Residential Lead-Based Paint Hazard Reduction Act of 1992', 15 U.S.C. secs. 2682, 2684, and 2686", which is part of TSCA.

Section 25-7-1103(1)(a), C.R.S. directs the Commission to promulgate rules that address procedures for a training and certification program for persons and companies involved in inspection, risk assessment, planning, project design, supervision, or conduct of the abatement of surfaces containing lead-based paint. Section 25-7-1103(1)(c), C.R.S. directs the Commission to promulgate rules regarding procedures for the approval of persons or companies who provide training or accreditation for workers, supervisors, inspectors, risk assessors, or project designers performing lead-based paint activities in target housing or child-occupied facilities. Section 25-7-1103(1)(d), C.R.S. directs the Commission to promulgate rules that address procedures for notification to appropriate persons regarding lead-based paint projects in target housing or child-occupied facilities.

The rulemaking hearing will be conducted in accordance with Sections 24-4-103 and 25-7-110, 25-7-110.5 and 25-7-110.8 C.R.S., as applicable and amended, the Commission's Procedural Rules, all other applicable rules and regulations, and as otherwise stated in this notice. This list of statutory authority is not intended as an exhaustive list of the Commission's statutory authority to act in this matter.

Dated this 19th day of August 2021 at Denver, Colorado

Rule title

REGULATION NUMBER 23 REGIONAL HAZE LIMITS

Rulemaking Hearing

Date

11/17/2021

Time

04:30 PM

Location

This hearing will be held online only via the Zoom platform; there will be no in-person participation. See Notice for details.

Subjects and issues involved

To consider Regional Haze Phase 2 revisions related to the control of oxides of nitrogen (NO_x), sulfur dioxide (SO₂), and particulate matter (PM) emissions from the remaining Reasonable Progress sources identified as impacting Class 1 areas that were not addressed in the Regional Haze Phase 1 rulemaking. Finally, these revisions will include corrections to any typographical, grammatical, and formatting errors throughout the regulation.

The Commission will not consider any Alternate Proposal for the mandatory involuntary shutdown of a facility. Further, alternate proposals that would impose requirements for facilities that were not analyzed as a part of this proposal will only be considered if accompanied by a full technical analysis and revised Regional Haze State Implementation Plan, in addition to meeting the procedural requirements described in this notice and the Commissions Procedural Rules.

Statutory authority

Sections 25-7-102, 25-7-105, 25-7-106, 25-7-106(6), 25-7-109 and Sections 24-4-103 and 25-7-110, 25-7-110.5 and 25-7-110.8 C.R.S., as applicable and amended.

DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

Air Quality Control Commission

REGULATION NUMBER 23

Regional Haze Limits

5 CCR 1001-27

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

Outline of Regulation

PART A Best Available Retrofit Technology (BART) and Reasonable Progress (RP)

- I. Applicability
- II. Definitions
- III. Challenge of Division BART Determinations and Enforceable Agreements
- IV. Regional Haze Determinations
- V. Monitoring, Recordkeeping, and Reporting for Regional Haze Limits

PART B Statements of Basis, Specific Statutory Authority, and Purpose

Pursuant to Colorado Revised Statutes Section 24-4-103 (12.5), materials incorporated by reference are available for public inspection during normal business hours, or copies may be obtained at a reasonable cost from the Technical Secretary of the Air Quality Control Commission (the Commission), 4300 Cherry Creek Drive South, Denver, Colorado 80246-1530. The material incorporated by reference is also available through the United States Government Printing Office, online at www.gpo.gov/fdsys. Materials incorporated by reference are those editions in existence as of the date of this regulation as promulgated or revised by the Commission and references do not include later amendments to or editions of the incorporated materials.

Federal Regulations Adopted by Reference

40 CFR Part 60 and Appendices (July 1, 2020)

40 CFR Part 63, Subpart A - National Emission Standards for Hazardous Air Pollutants General Provisions (August 23, 2019) and Subpart LLL - National Emission Standards for Hazardous Air Pollutants from the Portland Cement Manufacturing Industry (August 3, 2018)

40 CFR Part 64 (October 22, 1997)

40 CFR Part 75 including Performance Specifications and Appendices (January 18, 2012)

40 CFR Part 51, Appendix Y (July 6, 2005)

PART A Regional Haze Limits – Best Available Retrofit Technology (BART) and Reasonable Progress (RP)

I. Applicability

The provisions of this regulation apply to existing stationary facilities (BART eligible sources), as defined in Section II.M. of this regulation, as well as to reasonable progress (RP) sources.

The provisions of Section IV. (Regional Haze Determinations) and V. (MRR) of Regulation Number 23 are incorporated into Colorado's Regional Haze State Implementation Plan. All other sections of Regulation Number 23 are State-Only.

II. Definitions

II.A. "Adverse Impact on Visibility" means visibility impairment that interferes with the management, protection, preservation, or enjoyment of the visitor's visual experience of the Federal Class I area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency and time of visibility impairments, and how these factors correlate with (1) times of visitor use of the Federal Class I area, and (2) the frequency and timing of natural conditions that reduce visibility. This term does not include effects on integral vistas.

II.B. "Area Classifications" mean

II.B.1. Class I areas (may not be redesignated)

II.B.1.a. National Parks

II.B.1.a.(i) Rocky Mountain

II.B.1.a.(ii) Mesa Verde

II.B.1.b. National Wilderness Areas

II.B.1.b.(i) Black Canyon of the Gunnison

II.B.1.b.(ii) Eagle's Nest

II.B.1.b.(iii) Flattops

II.B.1.b.(iv) Great Sand Dunes

II.B.1.b.(v) La Garita

II.B.1.b.(vi) Maroon Bells – Snowmass

II.B.1.b.(vii) Mount Zirkel

II.B.1.b.(viii) Rawah

II.B.1.b.(ix) Weminuche

II.B.1.b.(x) West Elk

II.B.2. All other areas of Colorado, unless otherwise specified by Act of Congress or the Colorado legislature, or the Commission pursuant to Regulation Number 3, Part D, Section IX. are designated Class II; provided, however that in the following areas as they existed on August 7, 1977 (maps available from the Division), the increase allowed in sulfur dioxide concentrations over the baseline concentration shall be the same as the increase established by Section 163(b) of the Federal Act for Class I areas, except that such allowable increases may not be allowed if a Federal Land Manager should make an adverse impact determination under Regulation Number 3, Part D, Section XIII.C. with which the Division concurs and except that such allowable increases, may be exceeded by compliance with the provisions of Regulation Number 3, Part D, Sections XIII.D., XIII.E., or XIII.F.:

II.B.2.a. National Monuments

- II.B.2.a.(i) Florissant Fossil Beds
- II.B.2.a.(ii) Colorado
- II.B.2.a.(iii) Dinosaur
- II.B.2.a.(iv) Great Sand Dunes (those portions not included as National Wilderness Areas in Section II.B.1.b.)

II.B.2.b. Forest Service Primitive Areas

- II.B.2.b.(i) Uncompahgre Mountain
- II.B.2.b.(ii) Wilson Mountain

II.B.2.c. Lands administered by the Federal Bureau of Land Management in the Gunnison Gorge Recreation Area as of October 27, 1977. All areas designated Class II under this section may be redesignated as provided in Regulation Number 3, Part D, Section IX.

II.B.2.d. National Parks: Black Canyon of the Gunnison (those portions not included as National Wilderness Areas in Section II.B.1.b.)

II.B.3. The following areas may be redesignated only as Class I or II.

II.B.3.a. An area that exceeds ten thousand acres in size and is a national monument, a national primitive area, a national preserve, a national recreational area, a national wild and scenic river, a national wildlife refuge, a national lakeshore; and

II.B.3.b. A national park or national wilderness area established after August 7, 1977, that exceeds ten thousand acres in size.

II.B.4. The Commission recognizes out of state Class I areas that have been listed in the Federal Register (44 Fed. Reg. 69124). Emissions from sources in Colorado must not violate any standard in these areas.

II.C. "Available Technology" means that a technology is licensed and available through commercial sales.

- II.D. “Applicable Technology” means a commercially available control option that has been or may soon be deployed on the same or a similar source type or a technology that has been used on a pollutant-bearing gas stream that is the same or similar to the gas stream characteristics of the source.
- II.E. “Average Cost Effectiveness” means the total annualized costs of control divided by annual emissions reductions (the difference between baseline annual emissions and the estimate of emissions after controls). For the purposes of calculating average cost effectiveness, baseline annual emissions mean a realistic depiction of anticipated annual emissions for the source. The source or the Division may use state or federally enforceable permit limits or estimate the anticipated annual emissions based upon actual emissions from a representative baseline period.
- II.F. “BART Alternative” means an alternative measure to the installation, operation, and maintenance of BART that will achieve greater reasonable progress toward national visibility goals than would have resulted from the installation, operation, and maintenance of BART at BART-eligible sources within industry source categories subject to BART requirements.
- II.G. “BART Alternative Program Unit” means any unit subject to a Regional Haze emission limit contained in the Table in Regulation Number 23, Section IV.C.
- II.H. “BART-Eligible Source” means an existing stationary facility as defined in Section II.M.
- II.I. “BART Unit” means any unit subject to a Regional Haze emission limit contained in the Table in Regulation Number 23, Section IV.A.
- II.J. “Best Available Retrofit Technology (BART)” means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant that is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and non-air quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source or unit, the remaining useful life of the source or unit, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology.
- II.K. “Continuous Emission Monitoring System” or “CEMS” means the equipment required by Regulation Number 23, Section VII., to sample, analyze, measure, and provide (using an automated data acquisition and handling system (DAHS)), a permanent record of SO₂ or NO_x emissions, other pollutant emissions, diluents, or stack gas volumetric flow rate.
- II.L. “Deciview” means a measurement of visibility impairment. A deciview is a haze index derived from calculated light extinction, such that uniform changes in haziness correspond to uniform incremental changes in perception across the entire range of conditions, from pristine to highly impaired. The deciview haze index is calculated based on the following equation (for the purposes of calculating deciview, the atmospheric light extinction coefficient must be calculated from aerosol measurements)

$$\text{Deciview haze index} = 10 \ln_e (b_{\text{ext}}/10 \text{ Mm}^{-1})$$

Where b_{ext} = the atmospheric light extinction coefficient, expressed in inverse megameters (Mm^{-1}).

- II.M. "Existing Stationary Facility" means any of the following stationary sources of air pollutants, including any reconstructed source, which was not in operation prior to August 7, 1962, and was in existence on August 7, 1977, and has the potential to emit 250 tons per year or more of any visibility impairing air pollutant. In determining potential to emit, fugitive emissions, to the extent quantifiable, must be counted.
- II.M.1. Fossil-fuel fired steam electric plants of more than 250 million British thermal units (BTU) per hour heat input that generate electricity for sale.
- II.M.1.a. Boiler capacities shall be aggregated to determine the heat input of a plant.
- II.M.1.b. Includes plants that co-generate steam and electricity and combined cycle turbines.
- II.M.2. Coal cleaning plants (thermal dryers).
- II.M.3. Kraft pulp mills.
- II.M.4. Portland cement plants.
- II.M.5. Primary zinc smelters.
- II.M.6. Iron and steel mill plants.
- II.M.7. Primary aluminum ore reduction plants.
- II.M.8. Primary copper smelters.
- II.M.9. Municipal incinerators capable of charging more than 250 tons of refuse per day.
- II.M.10. Hydrofluoric, sulfuric, and nitric acid plants.
- II.M.11. Petroleum refineries.
- II.M.12. Lime plants.
- II.M.13. Phosphate rock processing plants, including all types of phosphate rock processing facilities, including elemental phosphorous plants as well as fertilizer production plants.
- II.M.14. Coke oven batteries.
- II.M.15. Sulfur recovery plants.
- II.M.16. Carbon black plants (furnace process).
- II.M.17. Primary lead smelters.
- II.M.18. Fuel conversion plants.
- II.M.19. Sintering plants.

- II.M.20. Secondary metal production facilities, including nonferrous metal facilities included within Standard Industrial Classification code 3341, and secondary ferrous metal facilities in the category “iron and steel mill plants.”
- II.M.21. Chemical process plants, including those facilities within the 2-digit Standard Industrial Classification 28, including pharmaceutical manufacturing facilities.
- II.M.22. Fossil-fuel boilers of more than 250 million BTUs per hour heat input.
- II.M.22.a. Individual boilers greater than 250 million BTU/hr, considering federally enforceable operational limits.
- II.M.22.b. Includes multi-fuel boilers that burn at least fifty percent fossil fuels.
- II.M.23. Petroleum storage and transfer facilities with a capacity exceeding 300,000 barrels.
- II.M.23.a. 300,000 barrels refers to total facility-wide tank capacity for tanks put in place after August 7, 1962 and in existence on August 7, 1977.
- II.M.23.b. Includes gasoline and other petroleum-derived liquids.
- II.M.24. Taconite ore processing facilities.
- II.M.25. Glass fiber processing plants.
- II.M.26. Charcoal production facilities, including charcoal briquette manufacturing and activated carbon production.
- II.N. “Incremental Cost Effectiveness” means the comparison of the costs and emissions performance level of a control option to those of the next most stringent option, as shown in the following formula
- Incremental Cost Effectiveness (dollars per incremental ton removed) = [(Total annualized costs of control option) - (Total annualized costs of next control option)] ÷ [(Next Control option annual emissions) - (control option annual emissions)]
- II.O. “In Existence” means that the owner or operator has obtained all necessary preconstruction approvals or permits required by Federal, State, or local air pollution emissions and air quality laws or regulations and either has (1) begun, or caused to begin, a continuous program of physical on-site construction of the facility or (2) entered into binding agreements or contractual obligations, which cannot be cancelled or modified without substantial loss to the owner or operator, to undertake a program of construction of the facility to be completed in a reasonable time.
- II.P. “In Operation” means engaged in activity related to the primary design function of the source.
- II.Q. “Integral Vista” means a view perceived from within the mandatory Class I Federal area of a specific landmark or panorama located outside the boundary of the mandatory Class I Federal area.
- II.R. “Natural Conditions” means naturally occurring phenomena that reduce visibility as measured in terms of light extinction, visual range, contrast, or coloration.

- II.S. “Operating Day” means any twenty-four-hour period between midnight and the following midnight during which any fuel is combusted at any time in a BART unit, BART alternative program unit, or reasonable progress unit.
- II.T. “Plant” means all emissions units at a stationary source.
- II.U. “Reasonable Progress unit” or “RP unit” means any unit subject to a Regional Haze emission limit contained in the Table in Regulation Number 23, Section IV.B.
- II.V. “Regional Haze emission limit” means any of the emission limits specified in the tables contained in Regulation Number 23, Section IV.
- II.W. “Visibility-Impairing Air Pollutant” includes the following
- II.W.1. Sulfur dioxide (SO₂).
- II.W.2. Nitrogen oxides (NO_x).
- II.W.3. Particulate matter. (PM₁₀ will be used as the indicator for particulate matter. Emissions of PM₁₀ include the components of PM_{2.5} as a subset.).

III. Challenge of Division BART Determinations and Enforceable Agreements

- III.A. Persons affected or aggrieved by a BART determination may challenge the decision of the Commission pursuant to Article 4 of Title 24, C.R.S.

IV. Regional Haze Determinations

IV.A. BART Determinations

IV.A.1. The provisions of this Section IV.A. of Regulation Number 23 will be incorporated into Colorado's Regional Haze State Implementation Plan.

IV.A.2. The sources listed [below](#) must not emit or cause to be emitted nitrogen oxides (NO_x), sulfur dioxide (SO₂), or particulate in excess of the following limits

BART Determinations for Colorado Sources			
Unit	NO _x Emission Limit	SO ₂ Emission Limit	Particulate Emission Limit
CENC Unit 4	0.37 lb/MMBtu (30-day rolling average) or 0.26 lb/MMBtu Combined Average for Units 4 and 5 (30-day rolling average)	1.0 lb/MMBtu (30-day rolling average)	0.07 lb/MMBtu

BART Determinations for Colorado Sources			
Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
CENC Unit 5	0.19 lb/MMBtu (30-day rolling average) or 0.26 lb/MMBtu Combined Average for Units 4 and 5 (30-day rolling average)	1.0lb/MMBtu (30-day rolling average)	0.07 lb/MMBtu
Craig Unit 1	*	0.11 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
Craig Unit 2	0.08 lb/MMBtu (30-day rolling average)	0.11 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu

*Refer to Section IV.D. for requirements

Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
Comanche Unit 1	0.20 lb/MMBtu (30-day rolling average) 0.15 lb/MMBtu (combined annual average for units 1 & 2)	0.12 lb/MMBtu (individual unit 30-day rolling average) 0.10 lb/MMBtu (combined annual average for units 1 & 2)	0.03 lb/MMBtu
Comanche Unit 2	0.20 lb/MMBtu (30-day rolling average) 0.15 lb/MMBtu (combined annual average for units 1 & 2)	0.12 lb/MMBtu (individual unit 30-day rolling average) 0.10 lb/MMBtu (combined annual average for units 1 & 2)	0.03 lb/MMBtu
Hayden Unit 1	0.08lb/MMBtu (30-day rolling average)	0.13 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu

Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
Hayden Unit 2	0.07 lb/MMBtu (30-day rolling average)	0.13 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
Martin Drake Unit 5	0.31 lb/MMBtu (30-day rolling average)	0.26 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
Martin Drake Unit 6	0.31lb/MMBtu (30-day rolling average)	0.13lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
Martin Drake Unit 7	0.29 lb/MMBtu (30-day rolling average)	0.13lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
CEMEX –Lyons Kiln	255.3 lbs/hr (30-day rolling average) 901.0 tons/year (12-month rolling average)	25.3 lbs/hr (12-month rolling average) 95.0 tons/yr (12-month rolling average)	0.275 lb/ton of dry feed 20% opacity
CEMEX – Lyons Dryer	13.9 tons/yr	36.7 tons/yr	22.8 tons/yr 10% opacity

IV.A.3. Each source listed in the [above](#) tables must comply with the above limits and averaging times as expeditiously as practicable, but in no event later than five years after EPA approval of Colorado's state implementation plan for regional haze, which was January 30, 2013, with the exception of Craig Unit 1, or relevant component thereof. Each source listed in the [above](#) tables must maintain control equipment or operational practices required to comply with the above limits and averaging times, and establish procedures to ensure that such equipment or operational practices are properly operated and maintained.

IV.B. Reasonable Progress Determinations

IV.B.1. The provisions of this Section IV.B of Regulation Number 23 will be incorporated into Colorado's Regional Haze State Implementation Plan.

IV.B.2. The sources listed [below](#) must not emit or cause to be emitted nitrogen oxides (NOx), sulfur dioxide (SO2), or particulate in excess of the following limits

RP Determinations for Colorado Sources			
Emission Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
Rawhide Unit 101	0.145 lb/MMBtu (30-day rolling average)	0.11 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
CENC Unit 3	246 tons per year (12-month rolling total)	1.2 lb/MMBtu	0.07 lb/MMBtu
Nixon	0.21 lb/MMBtu (30-day rolling average)	0.11 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu
Clark Units 1 & 2 Shutdown 12/31/2013	Shutdown 12/31/2013	Shutdown 12/31/2013	Shutdown 12/31/2013
Holcim - Florence Kiln	2.73 lbs/ton clinker (30-day rolling average) 2,086.8 tons/year	1.30 lbs/ton clinker (30-day rolling average) 721.4 tons/year	246.3 tons/year
Nucla	0.5 lb/MMBtu (30-day rolling average)*	0.4 lb/MMBtu (30-day rolling average)	0.03 lb/MMBtu

*Refer to Section IV.E. for requirements

RP Determinations for Colorado Sources			
Emission Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
Craig Unit 3	0.28 lb/MMBtu (30-day rolling average)	0.15 lb/MMBtu (30-day rolling average)	0.013 lb/MMBtu filterable PM 0.012 lb/MMBtu filterable PM10
Cameo Shutdown 12/31/2011	Shutdown 12/31/2011	Shutdown 12/31/2011	Shutdown 12/31/2011

IV.B.3. Each source listed in the [above](#) table must comply with the above limits and averaging times as expeditiously as practicable, but in no event later than December 31, 2017, except for Nucla. Each source listed in the [above](#) table must maintain control equipment or operational practices required to comply with the above limits and averaging times, and establish procedures to ensure that such equipment or operational practices are properly operated and maintained.

IV.C. Public Service Company of Colorado (PSCo) BART Alternative Program

IV.C.1. The provisions of this Section IV.C. of Regulation Number 23 (with the exception of the SO2 cap of Section IV.C.4.) will be incorporated into Colorado's Regional Haze State Implementation Plan.

IV.C.2. The sources listed [below](#) must not emit or cause to be emitted nitrogen oxides (NOx), sulfur dioxide (SO2), or particulate in excess of the following limits, after the following compliance dates

BART Alternative Program Determinations for PSCo Sources			
Emission Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
Cherokee * Unit 1 Shutdown No later than 7/1/2012	0 Shutdown No later than 7/1/2012	0 Shutdown No later than 7/1/2012	0 Shutdown No later than 7/1/2012

BART Alternative Program Determinations for PSCo Sources			
Emission Unit	NOx Emission Limit	SO2 Emission Limit	Particulate Emission Limit
Cherokee Unit 2 Shutdown 12/31/2011	0 Shutdown 12/31/2011	0 Shutdown 12/31/2011	0 Shutdown 12/31/2011
Cherokee Unit 3 Shutdown No later than 12/31/2016	0 Shutdown No later than 12/31/2016	0 Shutdown No later than 12/31/2016	0 Shutdown No later than 12/31/2016
Cherokee Unit 4	0.12 lb/MMBTU (30-day rolling average) by 12/31/2017 Natural Gas Operation 12/31/2017	7.81 tpy (rolling 12-month average) Natural Gas Operation 12/31/2017	0.03 lbs/MMBtu Natural Gas Operation 12/31/2017
Valmont Unit 5 Shutdown 12/31/2017 (closed April 2017)	0 Shutdown 12/31/2017	0 Shutdown 12/31/2017	0 Shutdown 12/31/2017
Pawnee	0.07 lb/MMBTU (30-day rolling average) by 12/31/2014	0.12 lbs/MMBtu (30-day rolling average) by 12/31/2014	0.03 lbs/MMBtu
Arapahoe** Unit 3 Shutdown 12/31/2013	0 Shutdown 12/31/2013	0 Shutdown 12/31/2013	0 Shutdown 12/31/2013
Arapahoe Unit 4	600 tpy on (rolling 12-month average) Natural Gas operation 12/31/2014	1.28 tpy (rolling 12-month average) Natural Gas operation 12/31/2014	0.03 lbs/MMBtu Natural Gas operation 12/31/2014

* 500 tpy NOx will be reserved from Cherokee Station for netting or offsets

** 300 tpy NOx will be reserved from Arapahoe Station for netting or offsets for additional natural gas generation

IV.C.3. Each source listed in the ~~above~~-table must either shut down or comply with the above limits and averaging times no later than the compliance date set forth in the ~~above~~-table. Each source listed in the ~~above~~-table must maintain any applicable control equipment required to comply with the above limits and averaging times, and establish procedures to ensure that such equipment is properly operated and maintained.

IV.C.4. In addition to the ~~above~~-listed emission limits and compliance dates, between January 1, 2013, and December 31, 2015, Cherokee Units 3 and 4 and Valmont, considered as a whole, must not emit in excess of 4,200 tons of SO2 per year as determined on a calendar year annual basis. Between January 1, 2016, and December 31, 2017, Cherokee Unit 4 and Valmont considered as a whole, must not emit in excess of 3,450 tons of SO2 per year as determined on a calendar year annual basis.

IV.D. Craig Unit 1 Additional Compliance Requirements

IV.D.1. Craig Unit 1 will close on or before December 31, 2025.

IV.D.2. Craig Unit 1 will meet a NOx emission limit of 0.28 lb/MMBtu 30-day rolling average going forward from January 1, 2017 (first compliance date January 31, 2017), until closure.

IV.D.3. Craig Unit 1 will meet an annual NOx limit of 4,065 tons per year by December 31, 2019, on a calendar year basis beginning in 2020.

IV.E. Nucla Compliance Requirements

IV.E.1. Nucla Station will close on or before December 31, 2022. Nucla Station closed in September 2019.

IV.F. Regional Haze Second Implementation Period, Reasonable Progress Determinations

IV.F.1. The following sources will close no later than the associated date. The sources must comply with the applicable emission limits in Section IV. and monitoring, recordkeeping, and reporting requirements in Section V. until the closure date.

IV.F.1.a. Cherokee Unit 4 will close no later than December 31, 2028.

IV.F.1.b. ColoWyo Coal Mine will cease coal production no later than December 31, 2031.

IV.F.1.c. Comanche Unit 1 will close no later than December 31, 2022.

IV.F.1.d. Comanche Unit 2 will close no later than December 31, 2025.

IV.F.1.d.(i) Comanche Unit 2 will comply with the following SO2 and NOx emission rates beginning when Comanche Unit 1 closes and until Comanche Unit 2 closes.

NOx Emission Limit	SO2 Emission Limit
--------------------	--------------------

0.20 lb/MMBtu (30-day rolling average) 3,050 tpy (12-month rolling average)	0.12 lb/MMBtu (30-day rolling average) 1,830 tpy (12-month rolling average)
--	--

IV.F.1.e.Craig Unit 2 will close no later than September 30, 2028.

IV.F.1.f. Craig Unit 3 will close no later than December 31, 2029.

IV.F.1.g.Martin Drake Units 6 and 7 will close no later than December 31, 2022.

IV.F.1.g.(i) 375 tpy NOx, 10 tpy SO₂, and 29 tpy of PM/PM₁₀ will be reserved for Drake Units 6 and 7 for netting or offsets. PM/PM₁₀ includes condensable and filterable fractions from this coal-fired unit. Offsets are subject to requirements in Regulation Number 3, Part A, Section V.

IV.F.1.h.Nixon Unit 1 will close no later than December 31, 2029.

IV.F.1.h.(i) 375 tpy NOx, 10 tpy SO₂, and 29 tpy of PM/PM₁₀ will be reserved for Nixon Unit 1 for netting or offsets. PM/PM₁₀ includes condensable and filterable fractions from this coal-fired unit. Offsets are subject to requirements in Regulation Number 3, Part A, Section V.

IV.F.1.i. Rawhide Unit 1 will close no later than December 31, 2029.

IV.F.1.i.(i) 200 tpy NOx, 50 tpy SO₂, and 50 tpy of PM/PM₁₀ will be reserved for Rawhide Unit 1 for netting or offsets. PM/PM₁₀ includes condensable and filterable fractions from this coal-fired unit. Offsets are subject to requirements in Regulation Number 3, Part A, Section V.

IV.F.2. Emission reductions reserved for netting or offsets provide for reasonable progress toward national visibility goals.

IV.F.3. The following sources are anticipated to remain in operation during the second implementation period. The sources must comply with the applicable emission limits in Section IV. and monitoring, recordkeeping, and reporting requirements in Section V. until closure.

*Emissions did not meet the screening threshold established by the Regional Haze program. Thus, this point was not subject to four-factor analysis for [Colorado's Round 2 regional haze SIP planning period](#).

+This pollutant is not emitted.

IV.F.4. Each source listed in the table must comply with the limits and averaging times, record keeping, and reporting requirements in addition to its applicable permit requirements as expeditiously as practicable, but in no event later than five years after EPA approval of Colorado's Round 2 SIP for regional haze. Sources must maintain control equipment or operational practices required to comply with the above limits and averaging times, record keeping, and reporting requirements, and establish procedures to ensure that such equipment or operational practices are properly operated and maintained.

IV.F.5. Fugitive emissions from coal ash handling and disposal and unpaved haul roads at the Hayden Station will be controlled by proper baghouse operation and maintenance using good engineering practices, water spray during silo unloading, proper truck loading, and use of posted speed limits, gravel, water, and dust suppressants as needed on haul roads and at the disposal site.

IV.F.6. Hayden Units 1 and 2 must comply with the applicable emission limits in Section IV. and monitoring, recordkeeping, and reporting requirements in Section V. if the PUC does not approve the ERP/CEP or until the approved closure date. Contingent upon PUC approval of the proposed PSCo Electric Resource Plan and Clean Energy Plan in 2022 and specific approval of the proposed closure dates in PUC Docket No. 21A-0141E, Hayden Unit 1 will close no later than December 31, 2028 and Hayden Unit 2 will close no later than December 31, 2027. If closure is approved by the PUC, 28 tpy of SO₂, 22 tpy of PM₁₀, and 135 tpy of NO_x will be reserved for netting or offsets. Offsets are subject to requirements in Regulation Number 3, Part A, Section V.

IV.F.7. Pawnee Unit 1 must comply with the applicable emission limits in Section IV. and monitoring, recordkeeping, and reporting requirements in Section V. if the PUC does not approve the ERP/CEP or until the approved closure date. Contingent upon PUC approval of the proposed PSCo Electric Resource Plan and Clean Energy Plan in 2022 and specific approval of the proposed date in PUC Docket No. 21A-0141E, Pawnee Unit 1 will convert from coal to natural gas fuel no later than December 31, 2028. If approved, some amount of emissions may be reserved for netting or offsets. Offsets are subject to requirements in Regulation Number 3, Part A, Section V.

V. Monitoring, Recordkeeping, and Reporting for Regional Haze Limits

The provisions of this Section V. of Regulation Number 23 will be incorporated into Colorado's Regional Haze State Implementation Plan.

V.A. Monitoring/Compliance Determination: SO₂ and NO_x Regional Haze Limits

V.A.1. BART, RP, and BART alternative program units with SO₂ and NO_x CEMS.

V.A.1.a. All Boilers, except CENC and Clark boilers.

The owner or operator of a boiler subject to this section must comply with the 40 CFR Part 75 monitoring and recordkeeping requirements as incorporated by reference into this regulation with the exception of the continuous emission monitoring system (CEMS) data substitution and bias adjustment requirements.

At all times after the compliance deadline specified in Regulation Number 23, Sections IV.A.3., IV.B.3. or IV.C.3., the owner/operator of each BART, RP, or BART alternative program unit must maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR Part 75 not excluded ~~above~~, to accurately measure from such unit SO₂, NO_x, diluents, and stack gas volumetric flow rate as such parameters are relevant to the applicable emission limit. The CEMS must be used to determine compliance with the SO₂ and NO_x regional haze emission limits for each such unit. Such limits are expressed in units of pounds per million Btu. The owner/operator must calculate emissions in the applicable units.

In determining compliance with the SO₂ and NO_x regional haze limits, all periods of emissions must be included, including startups, shutdowns, emergencies, and malfunctions.

V.A.1.a.(i) Pounds per Million Btu Regional Haze Limits

For any hour in which fuel is combusted in the BART, RP, or BART alternative program unit, owner/operator must calculate hourly average SO₂ and NO_x concentrations in pounds per million Btu at the CEMS in accordance with the requirements of 40 CFR Part 75 except for 40 CFR Part 75 requirements excluded by Section V.A.1.a. These hourly averages must then be used to determine compliance in accordance with the particular limit's averaging period, as follows.

V.A.1.a.(i)(A) Regional haze limits with a 3-hour averaging period: emissions must be calculated on a 3-hour rolling average basis. At the end of each operating hour, the owner/operator must calculate and record a new 3-hour average emission rate in lb/MMBtu from the arithmetic average of the valid hourly emission rates from the CEMS for the previous three operating hours. (An operating hour is any hour in which fuel is combusted for any time in the unit.)

V.A.1.a.(i)(B) Regional haze limits with a 30-day averaging period: before the end of each operating day, the owner/operator must calculate and record the 30-day rolling average emission rate in lb/MMBtu from all valid hourly emission values from the CEMS for the previous 30 operating days.

- V.A.1.a.(i)(C) Regional haze limits with a 90-day averaging period: before the end of each operating day, the owner/operator must calculate and record the 90-day rolling average emission rate in lb/MMBtu from all valid hourly emission values from the CEMS for the previous 90 operating days.
- V.A.1.a.(i)(D) Regional haze limits with a 12-month averaging period: before the end of each month, the owner/operator must calculate and record the 12-month rolling average emission rate in lb/MMBtu from all valid hourly emission values from the CEMS for the previous 12 months.
- V.A.1.a.(i)(E) Regional haze limits with an annual calendar averaging period: emissions must be calculated on a calendar year basis. Within 30 days after the end of each calendar year, the owner/operator must calculate and record a new emission rate in lb/MMBtu from the arithmetic average of all valid hourly emission rates from the CEMS for the preceding year.
- V.A.1.a.(i)(F) Comanche Units 1 and 2 regional haze combined annual average limits. The combined annual limitations for NOX and SO2 are on a 365-operating day rolling average. Before the end of each operating day, the owner/operator must calculate and record an annual rolling average using data from the previous 365 operating days in accordance with the following equation.

$$\text{Combined emission rate (lb/MMBtu)} = [(ER1)(HI1) + (ER2)(HI2)] / (HI1 + HI2)$$

Where: ER1 = average emission rate over the 365 operating day period. This is an average of all valid hours within the 365 operating day period for Unit 1.

HI1 = total heat input over the 365 operating day period for Unit 1.

ER2 = average emission rate over the 365 operating day period. This is an average of all valid hours within the 365 operating day period for Unit 2.

HI2 = total heat input over the 365 operating day period for Unit 2.

V.A.1.b. Portland Cement Kilns and CENC and Clark Boilers: At all times after the compliance deadline specified in Regulation Number 23, Sections IV.A.3. or IV.B.3., the owner/operator of each BART or RP unit must maintain, calibrate, and operate a CEMS in full compliance with the requirements in 40 CFR Part 60, Section 60.13 and 40 CFR Part 60, Appendices A, B, and F to accurately measure SO2, NOX, and diluents, if diluent is required. The CEMS must be used to determine compliance with the SO2 and NOx regional haze emission limits for each such unit. For particular units, such limits are expressed in units of pounds per hour, tons per year, pounds per ton clinker, or pounds per million Btu. The owner/operator must calculate emissions in the applicable units. In determining

compliance with the SO₂ and NO_x regional haze limits, all periods of emissions must be included, including startups, shutdowns, emergencies, and malfunctions.

V.A.1.b.(i) Pounds per Hour and Tons per Year Regional Haze Limits and Pounds per Million Btu Regional Haze Limits.

For any hour in which fuel is combusted in the BART or RP unit, the owner/operator must calculate hourly NO_x and SO₂ emissions in the appropriate units (lbs/hr) or (lbs/MMBtu) in accordance with the provisions in 40 CFR Part 60. These hourly values must be used to determine compliance in accordance with the particular limits averaging time, as follows.

V.A.1.b.(i)(A) Pounds per Hour or Pounds per Million Btu Regional Haze Limits on a 30-day rolling average. Before the end of each operating day, the owner/operator must calculate and record the 30-day rolling average emission rate in lb/MMBtu or lb/hr from all valid hourly emission values from the CEMS for the previous 30 operating days.

V.A.1.b.(i)(B) Pounds per Hour on a 12-month rolling average. Before the end of each month, the owner/operator must calculate and record the 12-month rolling average emission rate in lb/hr from all valid hourly emission values from the CEMS for the previous 12 months.

V.A.1.b.(i)(C) Tons per year regional haze Limits on a 12-month rolling average. Before the end of each month, the owner/operator must calculate and record the total emissions in tons/yr from all valid hourly emission values from the CEMS for the previous 12 months.

V.A.1.b.(ii) 30-Day Rolling Average Pounds per Ton Clinker Regional Haze Limits. Hourly clinker production must be determined in accordance with the requirements in 40 CFR Part 60, Subpart F, Section 60.63(b). An operating day includes all valid data obtained in any daily 24-hour period during which the kiln operates and excludes any measurements made during the daily 24-hour period when the kiln was not operating. The 30-operating day rolling emission rate of NO_x and SO_x must be calculated and recorded as the total of all hourly emissions data for a cement kiln in the preceding 30 operating days, divided by the total tons of clinker produced in that kiln during the same 30-day operating period in accordance with the equation in 40 CFR Part 60, Subpart F, Section 60.64(c).

V.A.1.b.(iii) CENC Units 4 and 5 NO_x Regional Haze limits

For any hour in which fuel is combusted in CENC Unit 4 or Unit 5, the owner/operator must calculate hourly NO_x emissions in the appropriate units (lbs/MMBtu) in accordance with the provisions in 40 CFR Part 60. These hourly values must be used to determine compliance with the Regional Haze limits, as follows.

V.A.1.b.(iii)(A) Individual unit pound per Million Btu on a 30-day rolling average regional haze limit: before the end of each

operating day, the owner/operator must calculate and record the 30-day rolling average emission rate in lb/MMBtu from all valid hourly emission values from the CEMS for the previous 30 operating days, or

- V.A.1.b.(iii)(B) Combined units 4 and 5 lbs/MMbtu 30-day rolling average regional haze limit: before the end of each operating day, the owner/operator must calculate and record a 30-day rolling average using data from the previous 30 operating days in accordance with the following equation.

$$\text{Average ER} = [(ER4)(HI4)+(ER5)(HI5)] / [(HI4)+(HI5)]$$

Where:

ER4 = average NOX emission rate, in pounds per MMBtu over the 30-day period. This is an average of all valid hours within the 30 operating day period for Unit 4.

ER5 = average NOX emission rate, in pounds per MMBtu over the 30-day period. This is an average of all valid hours within the 30 operating day period for Unit 5.

HI4 = Total heat input over the 30 operating day period for Unit 4.

HI5 = Total heat input over the 30 operating day period for Unit 5.

- V.B.1.b.(iii)(C) The owner or operator must indicate in the excess emission reports required by Section V.E., which compliance demonstration method has been followed for the reporting period.

V.A.2. BART and RP Units without NOx and SO2 CEMS

- V.A.2.a. CENC Unit 3. Compliance with the SO2 limitations must be determined by sampling and analyzing each shipment of coal for the sulfur and heat content using the appropriate ASTM Methods. In lieu of sampling, vendor receipts may be used provided the sampling and analysis was conducted in accordance with the appropriate ASTM Method. Each sample or vendor receipt must indicate compliance with the SO2 limitation. Compliance with the annual NOx limits must be monitored by recording fuel consumption and calculating emissions monthly using the appropriate AP-42 emission factor. Monthly emissions must be calculated by the end of the subsequent month and must be used in a rolling twelve-month total to monitor compliance with the annual limitations. Each month a new twelve-month total must be calculated using the previous 12 months' data. [*Note: CENC Unit 3 is not subject to annual SO2 limits.]
- V.A.2.b. CEMEX Dryer. Unless performance tests were completed within the previous 6 months, within 60 days of the compliance deadline specified in Regulation Number 23, Section IV.A.3., the owner/operator must conduct a stack test to measure NOx and SO2 emissions in accordance with the appropriate EPA test methods. Frequency of testing thereafter

must be every five years. Each test must consist of three test runs, with each run at least 60 minutes in duration.

In addition to the stack tests described ~~above~~, compliance with the annual NO_x and SO₂ limits must be monitored by calculating emissions monthly using the emission factors (in lb/hr) determined from the most recent Division-approved stack test and hours of operation for the month. Monthly emissions must be calculated by the end of the subsequent month and used in a twelve-month rolling total to monitor compliance with the annual limitations. Each month a new twelve-month total must be calculated using the previous 12 months' data.

V.A.2.c. Molson Coors Boiler Support Facility Boilers 1 and 2. Compliance with the RP NO_x limit of 0.20 lb/MMBtu must be demonstrated using stack testing or CEMS. Stack testing frequency is as follows.

V.A.2.c.(i) A performance test must be performed during the next planned maintenance outage for which each boiler provides scheduled service for the plant or by 12/31/2024, whichever occurs first.

V.A.2.c.(ii) Subsequent performance tests must be performed according to the following schedule, based on annual capacity factor of each boiler, according to the most stringent schedule that applies.

V.A.2.c.(ii)(A) If the annual capacity factor exceeds 40% for a calendar year, the next test shall be performed during the following calendar year.

V.A.2.c.(ii)(B) If the annual capacity factor exceeds 20% and is equal to or less than 40% for a calendar year, the next test shall be performed within 2 calendar years of the exceedance of the 20% capacity factor, or

V.A.2.c.(ii)(C) If the annual capacity factor is maintained at or below 20% for the calendar year, the next test shall be performed within 5 years of the previous test.

V.A.2.c.(iii) The performance test requirement will no longer apply if a CEMS is installed and certified per the requirements of 40 CFR Part 60 to measure NO_x emissions and used to demonstrate compliance with the applicable limit. Upon certification of the CEMS, compliance with the limit will be demonstrated on a 30-day rolling average.

V.B. Monitoring/Compliance Determination: Particulate Regional Haze Limits

V.B.1. Particulate Regional Haze Limits for all boilers except CENC and Clark boilers

Unless particulate compliance testing was completed within the previous 6 months, within 60 days of the compliance deadline specified in Regulation Number 23, Sections IV.A.3., IV.B.3., or IV.C.3., the owner/operator must conduct a stack test to measure particulate emissions in accordance with the requirements and procedures set forth in EPA Test Method 5 as set forth in 40 CFR Part 60, Appendix A. Stack testing for particulate matter must be performed annually, except that: (1) if any test results indicate emissions are less than or equal to 50% of the emission limit, another test is required within five years; (2) if any test results indicate emissions are more than 50%, but less than or equal to 75% of the emission limit, another test is required within three years; and (3) if any test results indicate emissions are greater than 75% of the emission limit, an

annual test is required until the provisions of (1) or (2) are met. A test run must consist of three test runs, with each run at least 120 minutes in duration. Test results must be converted to the applicable units and compliance will be based on the average of the three test runs.

In addition, to the stack tests described [above](#), the owner/operator must monitor compliance with the particulate matter limits in accordance with the applicable compliance assurance monitoring plan developed and approved in accordance with 40 CFR Part 64.

V.B.2. Portland Cement Plant Particulate Regional Haze Limits.

V.B.2.a. Kilns. Compliance with the particulate matter limitations must be monitored using a PM CEMS that meets the requirements in 40 CFR Part 63, Subpart LLL. The owner or operator must calculate emissions in the applicable units. If a PM CEMS is used to monitor compliance with the PM limits, the opacity limits specified in this Regulation Number 23 do not apply.

In the event that the provisions in 40 CFR Part 63, Subpart LLL are revised, stayed or vacated, such that a PM CEMS is not required, compliance with the PM limitations must be monitored by conducting stack tests in accordance with the requirements of Section V.C.3. except that the results of the test must be converted to the appropriate units (lb/ton clinker or lb/ton dry feed) and compliance will be based on the average of three test runs.

In addition, if no PM CEMS is required, as discussed [in the above paragraph](#), the opacity limits specified in this Regulation Number 23 still apply. In order to monitor compliance with the opacity limit, the owner or operator must install, calibrate, maintain, and continuously operate a COM located at the outlet of the PM control device to continuously monitor opacity. The COM must be installed, maintained, calibrated, and operated as required by 40 CFR Part 63, Subpart A, and according to PS-1 of 40 CFR Part 60, Appendix B

V.B.2.b. Dryers. Performance tests must be conducted in accordance with the requirements in Section V.C.3. Opacity monitoring must be conducted in accordance with the requirements in 40 CFR Part 63, Subpart LLL.

V.B.3. Particulate Regional Haze Limits for the CENC and Clark boilers and the CEMEX dryer. Within 60 days of the compliance deadline specified in Regulation Number 23, Sections IV.A.3. or IV.B.3., the owner/operator must conduct a stack test to measure particulate emissions in accordance with the requirements and procedures set forth in EPA Test Method 5, 5B, 5D or 17, as appropriate, as set forth in 40 CFR Part 60, Appendix A. Stack testing for particulate matter must be performed annually, except that: (1) if any test results indicate emissions are less than or equal to 50% of the emission limit, another test is required within five years; (2) if any test results indicate emissions are more than 50%, but less than or equal to 75% of the emission limit, another test is required within three years; and (3) if any test results indicate emissions are greater than 75% of the emission limit, an annual test is required until the provisions of (1) or (2) are met. Each test must consist of three test runs, with each run at least 60 minutes in duration.

In addition, to the stack tests described [above](#), compliance with the annual limitations (ton/yr limits) applicable to the Clark boilers and CEMEX dryer must be monitored by calculating emissions monthly using the emission factors (in lb/hr) determined from the most recent Division-approved stack test and hours of operation for the month. Monthly emissions must be calculated by the end of the subsequent month and used in a twelve-month rolling total to monitor compliance with the annual limitations. Each month a new twelve-month total must be calculated using the previous 12 months' data.

In addition to the stack tests described ~~above~~, the owner/operator must monitor compliance with the particulate matter limits in accordance with the applicable compliance assurance monitoring plan developed and approved in accordance with 40 CFR Part 64.

V.C. Recordkeeping

Owner/operator must maintain the following records for at least five years

- V.C.1. All CEMS data as required in the applicable regulation, stack test data, and data collected pursuant to the CAM plan, including the date, place, and time of sampling, measurement, or testing; parameters sampled, measured, or tested and results; the company, entity, or person that performed the testing, if applicable; and any field data sheets from testing.
- V.C.2. Records of quality assurance and quality control activities for emissions measuring systems including, but not limited to, any records required by 40 CFR Parts 60, 63, or 75.
- V.C.3. Any other records required by 40 CFR Part 60, Subpart F, Sections 60.65 and 63, Subpart LLL, 64 or 75.

V.D. Reporting requirements

The owner/operator of a BART, RP or BART alternative program unit must submit semi-annual excess emissions reports no later than the 30th day following the end of each semi-annual period unless more frequent reporting is required. Excess emissions means emissions that exceed the regional haze emissions limits. Excess emission reports must include the information specified in 40 CFR Part 60, Section 60.7(c).

The owner/operator of a BART, RP, or BART alternative program unit must submit reports of any required performance stack tests for particulate matter to the Division within 60 calendar days after completion of the test. The owner/operator must also submit semi-annual reports of any excursions under the approved compliance assurance monitoring plan in accordance with the schedule specified in the source's Title V permit. The owners or operators of units in Sections IV.D. or IV.F. must submit APENs to the Division within 90 days of the applicable, or actual if sooner, closure date.

PART B STATEMENTS OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE

I.A. Adopted: November 20, 2020

Relocation of and revisions to Regulation Number 3, Part F into the new Regulation Number 23.

This Statement of Basis, Specific Statutory Authority, and Purpose complies with the requirements of the State Administrative Procedure Act, § 24-4-103(4), C.R.S., the Colorado Air Pollution Prevention and Control Act, §§ 25-7-110 and 25-7-110.5., C.R.S., and the Air Quality Control Commission's ("Commission") Procedural Rules, 5 Code Colo. Reg. §1001-1.

Basis

In 1999, EPA promulgated the final Regional Haze Rule, which requires each state to submit a state implementation plan (SIP) to address regional haze (see 40 CFR Sections 51.300-51.309). Colorado submitted its regional haze SIP to EPA in 2008 and 2009. The Commission adopted revisions to the regional haze requirements in 2011, 2014, and 2016. The regional haze rule, Section 51.308(f), requires states to revise and submit its regional haze SIP to EPA by July 31, 2021 (i.e., second implementation period). States must continue to make progress toward their reasonable progress goals. In this rulemaking, the Commission moved the regional haze requirements from Regulation Number 3, Part F to a new Regulation Number 23, removed past provisions, and adopted closure dates for specific sources.

Specific Statutory Authority

The Colorado Air Pollution Prevention and Control Act, § 25-7-106, C.R.S. provides the Commission the maximum flexibility in establishing an air quality control program and authorizes the Commission to promulgate regulations as necessary or desirable to carry out that program. Section 25-7-105 directs the Commission to promulgate such rules and regulations as are consistent with the legislative declaration set forth in Section 25-7-102 and are necessary for the proper implementation and administration of Article 7, including a comprehensive state implementation plan which will prevent significant deterioration of air quality. Section 25-7-109 authorizes the Commission to adopt emission control regulations pertaining to air pollutants. Section 25-7-106(6) further authorizes the Commission to require owners and operators of any air pollution source to monitor, record, and report information.

Purpose

EPA's regional haze rule requires states to reduce emissions of visibility impairing pollutants that negatively impact class I areas. The Commission has previously approved revisions to Regulation Number 3 that included emission reduction requirements for sources subject to Best Available Retrofit Technology (BART) and Reasonable Progress (RP) requirements during the first planning period of the regional haze program. Moving the revisions from Regulations Number 3 to Regulation Number 23 is intended to improve the readability of both Regulation Number 3 and the regional haze requirements.

The Commission moved the provisions discussing applicability of the regional haze provisions, relevant definitions, the BART and RP determinations from the first 10-year planning period, and the monitoring and recordkeeping requirements to Regulation Number 23. Regulation Number 23 will also contain new emissions reductions requirements to meet or exceed the RP goals for the second 10-year planning period. The existing emission limits and new requirements placed on identified sources will eliminate significant emissions of nitrogen oxides (NO_x), sulfur dioxide (SO₂), and particulate matter (PM₁₀) to improve visibility in Colorado's twelve class I areas. These emission reductions, even accounting for emissions reserved for netting or offset purposes provide for reasonable progress toward national visibility goals, and therefore, meet the Clean Air Act requirements for the second 10-year Regional Haze planning period. For units using emission reservations for offsets, an application for Emission Reduction Credits (ERC) should be submitted to the division approximately 60 days prior to unit closure.

Specifically, the Commission adopted closure dates for the following units: Cherokee Unit 4; ColoWyo Coal Mine; Comanche Units 1 and 2; Craig Units 2 and 3; Martin Drake Units 6 and 7; Nixon Unit 1; and Rawhide Unit 1. The Commission revised the requirements for Craig Unit 1 to remove the alternative compliance option to convert to natural gas. Craig Unit 1 will now only close on or before December 31, 2025. The Commission also updated the provisions for Valmont Station to include the date Valmont closed. Lastly, the Commission updated the provisions for Nucla Station to include the date Nucla Station closed, which was before the specified date, and remove requirements that were no longer necessary as they would have applied after the actual closure date. The Commission uses the terms “closure” and “retirement” of the electric units to mean that the burning of coal for electric generation and the resulting air emissions would cease by the closure dates. It is understood that the decommissioning period following cessation of electric generation is a multi-year process involving significant dedication of resource. These closures achieve reductions and co-benefits beyond RP recommendations that do not consider closure options.

The closure of these units will result in significant reductions of NO_x, SO₂, PM₁₀, and GHG emissions. In addition to meeting the requirements for these units for the second 10-year Regional Haze planning period, closure of these units will have important co-benefits that will contribute to Colorado achieving other important air quality goals. Specifically, the emission reduction requirements from these unit closures will help achieve Colorado’s GHG emission reduction goals set forth in HB19-1261, reduce ground level ozone, reduce nitrogen deposition in Rocky Mountain National Park, and reduce GHG emissions pursuant to the requirements of the federal Affordable Clean Energy (ACE) rule.

The Commission recognizes concerns regarding grid reliability and demand needs are substantiated. Utilities have noted publicly in Electric Resource Plans (ERPs) and Electric Integrated Resource Plans (EIRPs) filed with the PUC as required by 4 CCR 723-3 Rules 3600 and 3605 that these issues are key to the closure date announcements. The Commission considered an alternative proposal to advance the closure dates for the Nixon, Rawhide, and Craig 3 power plants to the end of 2028. While this proposal was not ultimately adopted, the Commission encourages the utilities and the PUC to further advance closure dates for these facilities in order to secure cost effective emissions reductions that are needed to address Colorado’s GHG and Regional Haze goals.

The Commission did not move into Regulation Number 23 but deleted Regulation Number 3, Part F, Sections III. and IV. As discussed in the March 16, 2006, Regulation Number 3 Statement of Basis and Purpose, EPA’s regional haze regulations require states to define BART-eligible facilities and require sources subject to BART to complete a BART analysis. Regulation Number 3, Part F, Sections III. and IV. identified which sources were required to perform a BART analysis and specified the elements of the BART analysis. The federal rules also require states to submit a SIP identifying the BART-eligible sources and either the BART controls or the BART alternative. The Commission adopted BART controls and/or BART alternatives for the BART-eligible sources in December 19, 2008, January 7, 2011, November 20, 2014, and December 15, 2016. EPA last approved Colorado’s Regional Haze SIP on July 5, 2018 (83 Fed. Reg. 31332). Therefore, the provisions identifying which sources must perform a BART analysis and specifying the elements of a BART analysis are no longer necessary. The Commission also did not move but deleted Regulation Number 3, Part F, Sections VI.A.4. and VI.B.4. These provisions required sources to submit and the Division to publish compliance schedules for the sources in the ~~above~~ BART and RP determinations tables. As these requirements have passed, and were complied with, they are no longer necessary. Removing these provisions will improve and facilitate the readability and better allow the regulated community and other interested persons to identify and understand the provisions governing their activities.

The revisions also correct typographical, grammatical, and formatting errors found in the regional haze provisions.

Incorporation by Reference

Section 24-4-103(12.5) of the State Administrative Procedure Act allows the Commission to incorporate by reference federal regulations. The criteria of Section 24-4-103(12.5) are met by including specific information and making the regulations available because repeating the full text of each of the federal regulations incorporated would be unduly cumbersome and inexpedient. To fully comply with these criteria, the Commission includes reference dates to rules and reference methods incorporated in Regulation Number 23.

The Commission also notes that other Air Quality Control Commission regulations reference the regional haze provisions, either as regional haze or Regulation Number 3 Part F. Specifically, regional haze requirements are referenced in Regulation Number 6, Part B, Section VIII.C.3.f.(ii) and the SBAP Section XXV; Regulation Number 7, Part E, Sections I.D.3.a., II.A.2.f., and III.B.4.n and the SBAP Sections L., O., Q., R., and S., and Regulation Number 9, SBAP Section N. The Commission will update regulatory references as needed as opportunities arrive.

Additional Considerations

These revisions do not exceed or differ from the federal act due to state flexibility in determining what strategies to implement to reduce impacts to visibility under the Regional Haze rule. However, where the proposal may differ from federal rules under the federal act, in accordance with Section 25-7-110.5(5)(b), C.R.S., the Commission determines:

- (I) EPA's regional haze requirements are performance based. The regional haze rule sets forth factors that the states must consider when determining Reasonable Progress (RP) for sources reasonably anticipated to cause or contribute to the impairment of visibility in federal Class I areas. States have the discretion to select the appropriate controls for such sources.
- (II) EPA's regional haze rule guides how states must determine RP for their RP-eligible sources. However, state discretion is a cornerstone of the regional haze rule (*70 FR 39137*). Colorado considered Colorado's issues of concern when developing these revisions.
- (III) EPA's regional haze rule was not determined taking into account concerns unique to Colorado. The adopted revisions will improve Colorado's ability to comply with the goals of the regional haze rule while preventing or reducing the need for costly retrofits potentially required in Colorado's next reasonable progress planning period.
- (IV) Concerning this revision, the Division must submit a SIP revision to EPA no later than July 31, 2021. The proposed shut-downs will reduce the need for costly retrofit to meet more stringent requirements later.
- (V) EPA has established a SIP submittal due date of July 31, 2021. There is no timing issue that might justify changing the time frame for implementation of federal requirements.
- (VI) The adopted rule will assist in establishing and maintaining a reasonable margin for accommodation of uncertainty and future growth.
- (VII) The adopted rule establishes reasonable equity for sources because the Regional Haze Rule applies the same standards for determining RP to all RP-eligible sources. RP determinations are source specific and different controls and emission limits are to be expected.
- (VIII) If the revisions were not adopted and EPA does not approve Colorado's SIP, EPA may promulgate a Federal Implementation Plan; thus potentially determining requirements for Colorado's sources. This outcome could subject others to increased costs.

- (IX) These revisions do not modify the currently approved procedural, reporting, or monitoring requirements in Colorado's Regional Haze SIP.
- (X) Demonstrated technology is available to comply with the revisions.
- (XI) The revisions will contribute to further reductions of NOx emissions and therefore contribute to the prevention of pollution.
- (XII) A no action alternative would not address the required standard as these revisions; however, alternative rules could achieve the emission reductions to be achieved through these revisions, including setting specific RP control requirements instead of closure or specifying different closure dates.

As part of adopting the revisions to Regulation Number 3, Part F, the Commission has taken into consideration each of the factors set forth in C.R.S. § 25-7-109(1)(b).

To the extent that C.R.S. § 25-7-110.8 requirements apply to this rulemaking, and after considering all the information in the record, the Commission hereby makes the determination that:

- (I) These rules are based upon reasonably available, validated, reviewed, and sound scientific methodologies, and the Commission has considered all information submitted by interested parties.
- (II) Evidence in the record supports the finding that the rules shall result in a demonstrable reduction of NOx emissions.
- (III) Evidence in the record supports the finding that the rules shall bring about reductions in risks to human health and the environment that justify the costs to implement and comply with the rules.
- (IV) The rules are the most cost-effective to achieve the necessary reduction in air pollution and provide the regulated entity flexibility.
- (V) The selected regulatory alternative will maximize the air quality benefits of regulation in the most cost-effective manner.

II. Adopted: November 19, 2021

This Statement of Basis, Specific Statutory Authority, and Purpose complies with the requirements of the State Administrative Procedure Act, § 24-4-103(4), C.R.S., the Colorado Air Pollution Prevention and Control Act, §§ 25-7-110 and 25-7-110.5., C.R.S., and the Air Quality Control Commission's ("Commission") Procedural Rules, 5 Code Colo. Reg. §1001-1.

Basis

In 1999, EPA promulgated the final Regional Haze Rule, which requires each state to submit a state implementation plan (SIP) to address Regional Haze (see 40 CFR Sections 51.300-51.309). Colorado submitted its Regional Haze SIP to EPA in 2008 and 2009. The Commission adopted revisions to the Regional Haze requirements in 2011, 2014, and 2016.

Under Regional Haze, states must continue to make progress toward their reasonable progress goals. The Regional Haze Rule, Section 51.308(f), requires states to revise and submit its Regional Haze SIP to EPA by July 31, 2021 (i.e., second implementation period). In December 2020, the Commission adopted a partial update to the SIP to address the phase 1 sources. This action is the second phase ("phase 2") of the SIP adoption to meet the requirements for round 2 progress by 2028.

Specific Statutory Authority

The Colorado Air Pollution Prevention and Control Act, § 25-7-106, C.R.S. provides the Commission the maximum flexibility in establishing an air quality control program and authorizes the Commission to promulgate regulations as necessary or desirable to carry out that program. Section 25-7-105 directs the Commission to promulgate such rules and regulations as are consistent with the legislative declaration set forth in Section 25-7-102 and are necessary for the proper implementation and administration of Article 7, including a comprehensive SIP which will prevent significant deterioration of air quality. Section 25-7-109 authorizes the Commission to adopt emission control regulations pertaining to air pollutants. Section 25-7-106(6) further authorizes the Commission to require owners and operators of any air pollution source to monitor, record, and report information.

Pursuant to HB 21-1266, signed into law on July 2, 2021, the Division must enhance to create new ways to gather input from disproportionately impacted communities across the state. The Division shall conduct outreach to and engagement of these communities by (1) giving proper notice of public input opportunities; (2) utilizing a variety of locations and methods to receive public input; (3) creating outreach materials concerning the proposed rule in laypersons' terms; (4) translating the outreach materials into the top two languages spoken in that community; and (5) scheduling variable times of day and days of the week for public input on the proposed rule. The Division continues incorporating these enhanced requirements as effectively as possible.

Purpose

EPA's Regional Haze Rule requires states to reduce emissions of visibility impairing pollutants that negatively impact class I areas. The Commission has previously approved revisions to Regulation Number 3, which were later moved into new Regulation Number 23 in 2020, that included emission reduction requirements for sources subject to Best Available Retrofit Technology (BART) and Reasonable Progress (RP) requirements during the first planning period of the Regional Haze program.

Regulation Number 23 contains the new emissions reductions requirements to meet or exceed the RP goals for the second 10-year planning period (through 2028). The existing emission limits and new requirements placed on identified sources will eliminate significant emissions of nitrogen oxides (NO_x), sulfur dioxide (SO₂), and particulate matter (PM₁₀) to improve visibility in Colorado's twelve class I areas. These emission reductions, even accounting for emissions reserved for netting or offset purposes, provide for reasonable progress toward national visibility goals, and therefore, meet the Clean Air Act requirements for the second 10-year Regional Haze planning period. Where emission reductions are or may be reserved for offsets, an application for Emission Reduction Credits (ERCs) should be submitted to the division approximately sixty (60) days prior to unit closure.

Specifically, the Commission adopted closure dates in December 2020's phase 1 proceeding for thirteen units at nine facilities. The Commission revised the requirements for sources from the first planning period in accordance with changes made at those facilities, specifically Craig Unit 1, Nucla Station, and Valmont Station. The Commission uses the terms "closure" and "retirement" of the electric units to mean that the burning of coal and/or other fossil fuels for electric generation and the resulting air emissions would cease by the closure dates. It is understood that the decommissioning period following cessation of electric generation is a multi-year process involving significant dedication of resources. These closures achieve reductions and co-benefits beyond other RP recommendations that do not consider closure options.

In HB 19-1261, the General Assembly declared that "climate change adversely affects Colorado's economy, air quality and public health, ecosystems, natural resources, and quality of life[.]" acknowledged that "Colorado is already experiencing harmful climate impacts[.]" and that "many of these impacts disproportionately affect" certain disadvantaged communities. Colorado's statewide GHG reduction goals require the Commission to implement regulations to achieve a 26% reduction of statewide GHG emissions by 2025; 50% reduction by 2030; and 90% reduction by 2050 as compared to 2005 levels. Voluntary closure of the EGUs and additional controls to the other facilities proposed in this second Regional Haze planning period will result in significant reductions of NO_x, SO₂, and PM₁₀.

In addition to meeting the requirements for these units for the second 10-year Regional Haze planning period, voluntary closure of the EGUs have important co-benefits that will contribute to Colorado achieving other important air quality goals. Specifically, the emission reduction requirements from the EGU closures will provide the co-benefit of assisting in the achievement of Colorado GHG emission reduction goals, and reduce ground level ozone.

The Division did not propose any unit retirements, fuel switching, or changes to permitted fuel consumption limits as a reasonable progress control strategy. Therefore, no proposed control strategies for this Regional Haze SIP revision can be stated to directly reduce GHG emissions. However, voluntary closures will achieve the additional co-benefit of reducing GHG emissions contingent upon PUC approval of the utility-proposed EGU closure and fuel switching dates.

Phase II of the second round implementation period proposes additional controls, and accounts for voluntary closures and fuel switching of seventeen facilities across the state. The facilities analyzed under the RP four-factor analysis are:

- Utilities Nixon Power Plant Coal Handling;
- Utilities Front Range Power Plant (FRPP) Turbines 1 and 2;
- Utilities Clear Spring Ranch Sludge Handling and Disposal Facility, 4 digester gas-fired boilers and 2 flares;
- PSCo Comanche Station Unit 3;
- PSCo Hayden Station Units 1 and 2, coal ash and sorbent handling and disposal, and fugitive dust from unpaved roads;
- Tri-State Craig Station, 3 cooling towers;
- PSCo Cherokee Station Turbines 5 and 6;
- PSCo Pawnee Station Unit 1 and the cooling tower;
- Manchief Generating Station Turbines 1 and 2, co-located with PSCo Pawnee Station;
- CEMEX Lyons Portland cement plant Kiln, Quarries, and Raw Materials Grinding;
- Holcim Florence Portland cement plant Kiln, Quarry, and Finish Mills;
- GCC Pueblo Portland cement plant Kiln and Clinker Cooler;
- Molson Coors Boiler Support Facility Boilers 1, 2, 4, and 5;
- EVRAZ Rocky Mountain Steel Mill Points Electric Arc Furnace (EAF), Ladle Metallurgy Station (LMS), Ladle Preheaters, Round Caster, Rotary Furnace, Quench Furnace, Tempering Furnace, Rod/Bar Mill Furnace, Rail Mill Furnace, Vacuum Tank Degasser (VTD) Boiler, Haul Roads;
- Rocky Mountain Bottle Company Furnaces B+ and C;
- Suncor Energy Denver Refinery; Plant 1 and 2 Fluid Catalytic Cracking Units (FCCU), Plant 1 and 2 Sulfur Recovery Complexes (SRCs), Plant 1 Main Plant Flare, Process Heaters H-11, H-17, H-27, H-28/29/30, H-37, H-101, H-401/402, and H-2101, and Boilers 4 and 505;

- [Denver International Airport \(DIA\) Boilers, Cooling Tower, Emergency Generators, and Miscellaneous Engines \(smaller generators and fire water pump engines\)⁴](#)
- [Craig Cooling Towers 1, 2, and 3.⁵](#)

[The Commission recognizes concerns regarding grid reliability and demand needs are substantiated. Utilities have noted publicly in Electric Resource Plans \(ERPs\) and Electric Integrated Resource Plans \(EIRPs\) filed with the PUC as required by 4 CCR 723-3 Rules 3600 and 3605 that these issues are key to the closure date announcements. To the extent technically feasible and cost effective, the Commission encourages the utilities and the PUC to further advance closure dates for these facilities in order to secure cost effective emissions reductions.](#)

[The revisions made to Regulation Number 23 in Phase 2 also correct typographical, grammatical, and formatting errors found in the Regional Haze provisions.](#)

[Incorporation by Reference](#)

[Section 24-4-103\(12.5\) of the State Administrative Procedure Act allows the Commission to incorporate by reference federal regulations. The criteria of Section 24-4-103\(12.5\) are met by including specific information and making the regulations available because repeating the full text of each of the federal regulations incorporated would be unduly cumbersome and inexpedient. To fully comply with these criteria, the Commission includes reference dates to rules and reference methods incorporated in Regulation Number 23.](#)

[The Commission also notes that other Air Quality Control Commission regulations reference the Regional Haze provisions, either as Regional Haze or Regulation Number 3 Part F. Specifically, Regional Haze requirements are referenced in Regulation Number 6, Part B, Section VIII.C.3.f.\(ii\) and the SBAP Section XXV; Regulation Number 7, Part E, Sections I.D.3.a., II.A.2.f., and III.B.4.n and the SBAP Sections L., O., Q., R., and S., and Regulation Number 9, SBAP Section N. The Commission will update regulatory references as needed as opportunities arrive.](#)

[Additional Considerations](#)

[These revisions do not exceed or differ from the federal act due to state flexibility in determining what strategies to implement to reduce impacts to visibility under the Regional Haze rule. However, where the proposal may differ from federal rules under the federal act, in accordance with Section 25-7-110.5\(5\)\(b\), C.R.S., the Commission determines:](#)

- (I) [EPA's Regional Haze requirements are performance based. The Regional Haze rule sets forth factors that the states must consider when determining Reasonable Progress \(RP\) for sources reasonably anticipated to cause or contribute to the impairment of visibility in federal Class I areas. States have the discretion to select the appropriate controls for such sources.](#)
- (II) [EPA's Regional Haze rule guides how states must determine RP for their RP-eligible sources. However, state discretion is a cornerstone of the Regional Haze rule \(70 FR 39137\). Colorado considered Colorado's issues of concern when developing these revisions.](#)
- (III) [EPA's Regional Haze rule was not determined taking into account concerns unique to Colorado. The adopted revisions will improve Colorado's ability to comply with the goals of the Regional Haze rule while preventing or reducing the need for costly retrofits potentially required in Colorado's next reasonable progress planning period.](#)

⁴ [Point sources at DIA were not subject to a full 4-factor analysis based on actual emissions below the 10 TPY threshold.](#)

⁵ [Craig cooling towers were not subject to a full 4-factor analysis based on actual emissions below the 10 TPY threshold.](#)

- (IV) EPA has established a SIP submittal due date for round 2 of July 31, 2021. During round 2, the complexity of the Regional Haze technical analysis coupled with coordination among so many states, tribes, federal land managers (FLMs), and EPA has produced delays in the release of some of the data products that are instrumental to completing the Regional Haze SIP. Final data products were just recently completed from this coordinated process.
- (V) The adopted rule will assist in establishing and maintaining a reasonable margin for accommodation of uncertainty and future growth.
- (VI) The adopted rule establishes reasonable equity for sources because the Regional Haze Rule applies the same standards for determining RP to all RP-eligible sources. RP determinations are source specific and different controls and emission limits are to be expected.
- (VII) If the revisions were not adopted and EPA does not approve Colorado's SIP, EPA may promulgate a Federal Implementation Plan (FIP); thus potentially determining requirements for Colorado's sources. This outcome could subject others to increased costs.
- (VIII) These revisions do not modify the currently approved procedural, reporting, or monitoring requirements in Colorado's Regional Haze SIP.
- (IX) Demonstrated technology is available to comply with the revisions.
- (X) The revisions will contribute to further reductions of NOx emissions and therefore contribute to the prevention of pollution.
- (XI) A no action alternative would not address the required standard as these revisions; however, alternative rules could achieve the emission reductions to be achieved through these revisions, including setting specific RP control requirements instead of closure or specifying different closure dates.

The Commission has taken into consideration each of the factors set forth in C.R.S. § 25-7-109(1)(b) when revising Regulation Number 23.

To the extent that C.R.S. § 25-7-110.8 requirements apply to this rulemaking, and after considering all the information in the record, the Commission hereby makes the determination that:

- (I) These rules are based upon reasonably available, validated, reviewed, and sound scientific methodologies, and the Commission has considered all information submitted by interested parties.
- (II) Evidence in the record supports the finding that the rules shall result in a demonstrable reduction of NOx, SO2, and PM emissions.
- (III) Evidence in the record supports the finding that the rules shall bring about reductions in risks to human health and the environment that justify the costs to implement and comply with the rules.
- (IV) The rules are the most cost-effective to achieve the necessary reduction in air pollution and provide the regulated entity flexibility.
- (V) The selected regulatory alternative will maximize the air quality benefits of regulation in the most cost-effective manner.

COLORADO

Air Quality Control Commission

Department of Public Health & Environment

NOTICE OF RULEMAKING HEARING

Regarding proposed revisions to:

Regional Haze State Implementation Plan (SIP) & Regulation Number 23 5 CCR 1001-27

SUBJECT:

The Air Quality Control Commission will hold a rulemaking hearing to consider Regional Haze Phase 2 revisions related to the control of oxides of nitrogen (NO_x), sulfur dioxide (SO₂), and particulate matter (PM) emissions from the remaining Reasonable Progress sources identified as impacting Class 1 areas that were not addressed in the Regional Haze Phase 1 rulemaking. Finally, these revisions will include corrections to any typographical, grammatical, and formatting errors throughout the regulation.

The Commission will not consider any Alternate Proposal for the mandatory involuntary shutdown of a facility. Further, alternate proposals that would impose requirements for facilities that were not analyzed as a part of this proposal will only be considered if accompanied by a full technical analysis and revised Regional Haze State Implementation Plan, in addition to meeting the procedural requirements described in this notice and the Commission's Procedural Rules.

All required documents for this rulemaking can be found on the Commission website at: <https://www.colorado.gov/pacific/cdphe/aqcc>

PUBLIC COMMENT SESSION

DATE: November 17, 2021

TIME: 4:30 p.m. to 7:30 p.m.

PLACE: The hearing will be held online only; there will be no in-person participation. Details related to participation and registration can be found at: <https://cdphe.colorado.gov/aqcc>

NOTE: The public comment session may end early if all commenters that are registered and in attendance before 6:30 have had an opportunity to speak prior to 7:30.

PARTY TESTIMONY & DELIBERATIONS

DATE: November 18-19, 2021

TIME: To begin at or after 9:00 a.m.

PLACE: The hearing will be held online only; there will be no in-person participation. Details related to participation and registration can be found at: <https://cdphe.colorado.gov/aqcc>

NOTE: No additional public comment will be taken during this time.

IMPORTANT: As Colorado begins to re-open from COVID-19, the Commission may reestablish conducting meetings at the Colorado Department of Public Health and Environment in its entirety or structured as a hybrid meeting. Any such changes will be noticed on the Commission's website at: <https://cdphe.colorado.gov/aqcc>

The hearing may be continued at such places and time as the Commission may announce. Any such changes will be noticed on the Commission's website. Interested parties may contact the Commission Office at cdphe.aqcc-comments@state.co.us to confirm meeting details.

PUBLIC COMMENT:

The Commission encourages input from the public, either orally during the public comment session or in writing prior to the hearing. However, oral public comment will generally not be permitted by persons who offer comment on behalf of an entity that is a party. Those persons may, however, submit written public comment. Instructions for registering to provide oral public comment will be posted in the agenda on the Commission's website at <https://cdphe.colorado.gov/aqcc> on November 5, 2021.

Written comments should be submitted no later than **November 2, 2021** by emailing cdphe.aqcc-comments@state.co.us or mailing to:

Colorado Air Quality Control Commission
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South, EDO-AQCC-A5
Denver, Colorado 80246

IMPORTANT DATES AND DEADLINES:

PROCESS DESCRIPTION	DUE DATE & TIME	NOTES
Request for Party Status	September 15, 2021 by 5:00 p.m.	Additional information below
Status Conference	September 22, 2021 at 3:00 p.m.	Virtual Meeting or as noticed on the Commission website at: https://cdphe.colorado.gov/aqcc
Alternate Proposal	October 7, 2021 by 5:00 p.m.	Additional information below
Prehearing Statement	October 7, 2021 by 5:00 p.m.	Additional information below
Prehearing Conference	October 20, 2021 at 2:00 p.m.	Virtual Meeting or as noticed on the Commission website at: https://cdphe.colorado.gov/aqcc
Rebuttal Statement	October 27, 2021 by 5:00 p.m.	Additional information below
Written Public Comments	November 2, 2021 by 5:00 p.m.	Additional information above

Submittals for this hearing should be emailed to cdphe.aqcc-comments@state.co.us unless an exception is granted pursuant to Subsection III.I.3. of the Commissions Procedural Rules.

REQUEST FOR PARTY STATUS:

A request for party status must:

- 1) identify the applicant (this could be a company and/or contact name);
- 2) provide the name, address, telephone and email address of the applicant's representative or counsel; and
- 3) briefly summarize what, if any, policy, factual, and legal issues the applicant has with the proposal(s) as of the time of filing the application.

In addition, requests for party status should indicate whether the applicant intends to file an alternate proposal and, if so, indicate which facilities or emission sources the alternate proposal may affect.

The request for party status must be electronically mailed to:

- Air Quality Control Commission staff: theresa.martin@state.co.us
- Air Quality Control Commission attorney: tom.roan@coag.gov
- Air Pollution Control Division staff: joshua.korth@state.co.us
- Air Pollution Control Division attorney: jackie.calicchio@coag.gov

Requests received beyond the stated deadline shall only be considered upon a written motion for good cause shown. The Commission reserves the right to deny party status to anyone that does not comply with the Commission's Procedural Rules.

STATUS CONFERENCE:

Attendance at the status conference is mandatory for anyone who has requested party status, though each party need only have one representative present. The status conference is intended to ascertain and discuss the issues involved, and to ensure that parties are making all necessary efforts to discuss and resolve such issues prior to the submission of prehearing statements. Parties will be confirmed and a party list will be generated and distributed. The status conference will be held virtually via video conference. A registration link will be provided by the Commission's office prior to the status conference. Note that if the Hearing Officer deems the status conference unnecessary, the status conference may be cancelled.

ALTERNATE PROPOSAL:

Alternate proposals will be considered by the Commission "only if the subject matter of the alternative proposal is consistent with and fits within the scope of the notice." 5 CCR 1001-1, Section (V)(E)(4)(b). The submittal of an alternate proposal must be accompanied by a separate electronic copy of the alternate proposed rule and statement of basis and purpose language and all other associated documents as required by the Commission's Procedural Rules, including an economic impact analysis. Alternate proposals and associated exhibits must be emailed to all persons listed on the party status list or otherwise provided through an approved method of electronic transmission.

PREHEARING STATEMENTS:

Each party must submit a prehearing statement. Exhibits to a prehearing statement must be submitted in a separate electronic transmission. Prehearing statements and associated exhibits must be emailed to all persons listed on the party status list or otherwise provided through an approved method of electronic transmission. Prehearing statements must contain all the necessary elements described in subsection V.E.6.c of the Commission's Procedural Rules (5 CCR 1001-1).

PREHEARING CONFERENCE:

Attendance at the prehearing conference is mandatory for all parties to this hearing, though each party need only have one representative present. The prehearing conference will be held virtually, and registration information will be provided by the Commission's office prior to the prehearing conference.

REBUTTAL STATEMENTS:

Rebuttal statements may be submitted by the Division and any party to the hearing to respond to issues and arguments identified in prehearing statements. Rebuttal statements may not raise any issues, or be accompanied by alternate proposals, that could have been raised in the party's prehearing statement. Rebuttal statements and associated exhibits must be emailed to all persons listed on the party status list or otherwise provided through an approved method of electronic transmission. The filing of rebuttal statements is optional.

DELIBERATION AND FINAL ACTION:

The Commission intends to deliberate and take final action on the proposed changes to these Regulations at the conclusion of the testimony.

STATUTORY AUTHORITY FOR THE COMMISSION'S ACTIONS:

The Colorado Air Pollution Prevention and Control Act, § 25-7-106, C.R.S. provides the Commission the maximum flexibility in establishing an air quality control program and authorizes the Commission to promulgate regulations as necessary or desirable to carry out that program. Section 25-7-105 directs the Commission to promulgate such rules and regulations as are consistent with the legislative declaration set forth in Section 25-7-102 and are necessary for the proper implementation and administration of Article 7, including a comprehensive SIP which will prevent significant deterioration of air quality. Section 25-7-109 authorizes the Commission to adopt emission control regulations pertaining to air pollutants. Section 25-7-106(6) further authorizes the Commission to require owners and operators of any air pollution source to monitor, record, and report information.

Pursuant to HB 21-1266, signed into law on July 2, 2021, the Division must enhance to create new ways to gather input from disproportionately impacted communities across the state. The Division shall conduct outreach to and engagement of these communities by (1) giving proper notice of public input opportunities; (2) utilizing a variety of locations and methods to receive public input; (3) creating outreach materials concerning the proposed rule in laypersons' terms; (4) translating the outreach materials into the top two languages spoken in that community; and (5) scheduling variable times of day and days of the week for public input on the proposed rule. The Division continues incorporating these enhanced requirements as effectively as possible.

The rulemaking hearing will be conducted in accordance with Sections 24-4-103 and 25-7-110, 25-7-110.5 and 25-7-110.8 C.R.S., as applicable and amended, the Commission's Procedural Rules, all other applicable rules and regulations, and as otherwise stated in this notice. This list of statutory authority is not intended as an exhaustive list of the Commission's statutory authority to act in this matter.

Dated this 26th day of August 2021 at Denver, Colorado

Subjects and issues involved

Though the COVID-19 vaccine is widely available in the state, approximately 30% of the healthcare workforce in the facilities the Department has authority over remain unvaccinated. With the rise of the Delta variant, ensuring that all workers in licensed healthcare facilities are vaccinated is one of the most effective means the state can take to protect the public health, safety, and welfare of all Coloradans and end the ongoing pandemic. The proposed rules require all licensed healthcare facilities to ensure their employees and direct contractors are fully vaccinated against COVID-19 by October 31, 2021.

**COLORADO**Department of Public
Health & Environment

To: Members of the State Board of Health

From: D. Randy Kuykendall, Director, Health Facilities and Emergency Medical Services Division (DRK)

Date: August 30, 2021

Subject: Emergency Rulemaking Hearing concerning 6 CCR 1011-1, Chapter 2- General Licensure Standards and the COVID-19 Vaccine.

On August 17, 2021, Governor Polis sent a letter to the State Board of Health requesting that the Board immediately consider rulemaking mandating the COVID-19 vaccination for all individuals “involved in health care and support staff who regularly come into contact and share spaces with vulnerable populations including patients seeking medical care in essential medical settings and in congregate senior living facilities.” In response to this request, the Department has drafted the following proposed regulations, which meet the intent of the Governor’s request within the bounds of the Department’s statutory authority.

The Department has authority to enact and enforce regulations over all licensed healthcare facilities and agencies: Acute Treatment Units, Ambulatory Surgical Centers, Assisted Living Residences, Behavioral Health Entities, Birth Centers, Community Clinics, Community Clinics with Emergency Centers, Community Integrated Health Care Services Agencies, Community Mental Health Centers, Dialysis Treatment Clinics, Freestanding Emergency Departments, Home Care Agencies, Home Care Placement Agencies, Hospices, Hospitals (General, Rehabilitation, Psychiatric, and Hospital Units), Facilities for Individuals with Intellectual and Developmental Disabilities (Group Homes and Intermediate Care Facilities), and Nursing Homes. The Department does not have authority over individual healthcare practitioners or staff, nor does it oversee other settings where patients seek medical care including primary care offices and urgent care locations. However, the Department anticipates the proposed regulations will have an immediate, widespread, and positive impact on the health, safety, and welfare of Coloradans, as they will apply to many of the employees of the approximately 3800 licensed healthcare facilities and agencies regulated by the Department. Accordingly, the Department requests the Board adopt the following regulations requiring all licensed healthcare facilities ensure their employees and direct contractors are fully vaccinated against COVID-19 by October 31, 2021.

Findings Pursuant to Section 24-4-103(6), C.R.S.

In response to COVID-19, Governor Polis verbally declared a disaster emergency on March 10, 2020, and issued the corresponding Executive Order D 2020 003 on March 11, 2020. Since that time there have been 7,327 deaths due to COVID-19 in Colorado, 2,625 of which occurred in licensed healthcare facilities. Although the COVID-19 vaccine is now widely available, approximately 30% of the healthcare workforce in these facilities and agencies remain unvaccinated. With the rise in the Delta variant, ensuring that all workers in licensed healthcare facilities are vaccinated is one of the most effective means the state can take to protect the public health, safety, and welfare of all Coloradans and end this ongoing pandemic. Studies show that the rate of hospitalization due to COVID-19 infection is greatest in the unvaccinated. As Colorado approaches the back-to-school and influenza seasons, it is imperative the Department takes all available measures to increase vaccination rates to keep as many Coloradans as healthy as possible in order to reduce the burden on the already overstretched healthcare system and workforce. Therefore, the Board finds that immediate adoption of these revisions is imperative to preserve the public health, safety and welfare,

and that compliance with the normal rulemaking requirements of Section 24-4-103, C.R.S. would be contrary to the public interest.

**STATEMENT OF BASIS AND PURPOSE
AND SPECIFIC STATUTORY AUTHORITY AND FINDINGS IN SUPPORT OF ADOPTION OF
EMERGENCY REVISIONS TO**

**6 CCR 1011-1, Standards for Hospitals and Health Facilities
Chapter 2 - General Licensure Standards**

Basis and Purpose.

In response to COVID-19, Governor Polis verbally declared a disaster emergency on March 10, 2020, and issued the corresponding Executive Order D 2020 003 on March 11, 2020. Since that time there have been 7,327 deaths due to COVID-19 in Colorado, 2,625 of which occurred in licensed healthcare facilities. With the rise in the Delta variant, ensuring that all workers in licensed healthcare facilities are vaccinated is one of the most effective means the state can take to protect the public health, safety, and welfare of all Coloradans and end this ongoing pandemic. As Colorado approaches the back-to-school and influenza seasons, it is imperative that the Department takes all available measures to increase vaccination rates to keep as many Coloradans as healthy as possible to reduce the burden on the already overstretched healthcare system and workforce.

On August 23, 2021, the FDA announced that it had granted full approval to the Pfizer/BioNTech COVID-19 vaccine (now known as Comirnaty) for individuals age 16 and older. Prior to this announcement, Colorado (and many other states) had seen some businesses enact mandatory vaccination requirement for their staff. Additionally, there is a movement on the federal level to require full vaccination among healthcare workers, with an announcement that the Centers for Medicare and Medicaid Services will promulgate an emergency regulation to this effect for nursing homes. While these different measures will certainly affect some areas of the Colorado's healthcare system, enacting the proposed regulations ensures parity across facility types.

Furthermore, the Department recognizes the concern that enacting these proposed regulations may cause a decrease in the healthcare workforce, as individuals may choose to leave the field rather than obtain a vaccine. The Department is cognizant of these concerns, and continues to work to increase its staffing support and hopes to be able to fill any gaps that may result from the proposed revisions. Additionally, the Department believes enacting these regulations will have a positive impact on the workforce, by lessening the strain felt by the entire system when staff and employees become infected with COVID-19. While the Department has identified only 16 total deaths among facility staff; however, there have been 13,062 total cases among facility staff. Each time a staff member tests positive, there is an impact to that individual's coworkers in increased workload and acute staffing shortages as more staff get sick and/or have to quarantine. Increasing the overall staff vaccination rate should decrease the amount of positive cases amongst staff, in addition to patients and clients.

The Department has authority to enact and enforce regulations over all licensed healthcare facilities and agencies: Acute Treatment Units, Ambulatory Surgical Centers, Assisted Living Residences, Behavioral Health Entities, Birth Centers, Community Clinics, Community Clinics with Emergency Centers, Community Integrated Health Care Services Agencies, Community Mental Health Centers, Dialysis Treatment Clinics, Freestanding Emergency Departments, Home Care Agencies, Home Care Placement Agencies, Hospices, Hospitals (General, Rehabilitation, Psychiatric, and Hospital Units), Facilities for Individuals with Intellectual and Development Disabilities (Group Homes and Intermediate Care Facilities), and Nursing Homes. The Department does not have authority over individual healthcare practitioners or staff, nor

does it oversee other settings where patients seek medical care, including primary care offices and urgent care locations.

Although the COVID-19 vaccine is now widely available, approximately 30% of the healthcare workforce in these facilities and agencies remain unvaccinated. The Department currently collects data on vaccination rates among long-term care facilities, (Nursing Facilities, Assisted Living Residences, and Group Homes/Intermediate Care Facilities), which is a small subset of the licensed facilities regulated by the Department. In these settings, 27% of staff remain unvaccinated. However, when examining historical flu vaccination data for the same facility-types, the unvaccinated rate among staff is only 15%. One major difference is that since 2012 the Department has had regulations in place requiring facilities to implement policies and procedures requiring flu vaccinations among staff members with the potential for exposure to the flu.

While the existing flu regulation served as a baseline for these proposed regulations, there are differences. The first major difference is the expectation that facilities and agencies maintain 100% vaccination among eligible employees, direct contractors, and support staff. Based on the nature of the COVID-19 virus, especially the airborne spread, the Department anticipates the category of eligible individuals will be quite broad. However, each facility/agency will have the ability to identify individuals it has determined are safe to be exempt from this requirement in its policies and procedures, with justification for that decision. Additionally, the reporting requirements in the proposed regulations are more robust than the current flu regulation. Rather than annual reporting, the proposed regulations require twice monthly reporting, beginning October 1, 2021. This will enable the Department to maintain comprehensive and current data on the rate of vaccination among staff in licensed healthcare facilities, track trends to ensure the rates continue to increase, and identify facilities and agencies that may need technical assistance complying with the regulations. The Department anticipates it will modify the reporting requirements for the future state after conducting further stakeholder engagement.

The Department anticipates these regulations will have an immediate, widespread, and positive impact on the health, safety, and welfare of Coloradans, as they will apply to most of the employees of the approximately 3800 licensed healthcare facilities and agencies regulated by the Department. Accordingly, the Department requests the Board adopt the following regulations requiring all licensed healthcare facilities to ensure their eligible employees, direct contractors, and support staff are fully vaccinated against COVID-19.

Specific Statutory Authority.

Statutes that require or authorize rulemaking:

Section 24-4-103(6), C.R.S.

Section 25-1.5-102, C.R.S.

Section 25-1.5-103, C.R.S.

Section 25-3-103, C.R.S.

Is this rulemaking due to a change in state statute?

_____ Yes, the bill number is _____. Rules are ____ authorized ____ required.

___X___ No

Does this rulemaking include proposed rule language that incorporate materials by reference?

_____ Yes _____ URL

☒X_ No

Does this rulemaking include proposed rule language to create or modify fines or fees?

☐ Yes

☒X_ No

Does the proposed rule language create (or increase) a state mandate on local government?

☒X_ No.

- The proposed rule does not require a local government to perform or increase a specific activity for which the local government will not be reimbursed;
- The proposed rule requires a local government to perform or increase a specific activity because the local government has opted to perform an activity, or;
- The proposed rule reduces or eliminates a state mandate on local government.

REGULATORY ANALYSIS FOR EMERGENCY REVISIONS TO
6 CCR 1011-1, Standards for Hospitals and Health Facilities
Chapter 2 - General Licensure Standards

1. A description of the classes of persons affected by the proposed rule, including the classes that will bear the costs and the classes that will benefit from the proposed rule.

Group of persons/entities Affected by the Proposed Rule	Size of the Group	Relationship to the Proposed Rule Select category: C/S/B
All licensed healthcare facilities and agencies (as listed below)	3800 total	C
Acute Treatment Units		
Ambulatory Surgical Centers		
Assisted Living Residences		
Behavioral Health Entity		
Birth Centers		
Community Mental Health Center		
Community Clinic		
Community Integrated Health Care Services Agency		
Dialysis Treatment Clinics		
Home Care Agencies		
Home Care Placement Agencies		
Hospice		
Hospitals		
Facilities for Individuals with Intellectual and Developmental Disabilities		
Nursing Homes		
Patients/clients receiving care and services from a licensed healthcare facility or agency	Over 63,000 (based on the number of licensed beds across all facility/agency types)	B
Employees and Direct contractors of licensed healthcare facilities and agencies.	Unknown	B

While all are stakeholders, groups of persons/entities connect to the rule and the problem being solved by the rule in different ways. To better understand those different relationships, please use this relationship categorization key:

- C = individuals/entities that implement or apply the rule.
- S = individuals/entities that do not implement or apply the rule but are interested in others applying the rule.
- B = the individuals that are ultimately served, including the customers of our customers. These individuals may benefit, be harmed by or be at-risk because of the standard communicated in the rule or the manner in which the rule is implemented.

More than one category may be appropriate for some stakeholders.

2. To the extent practicable, a description of the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

C: The potential impact upon the healthcare facilities and agencies that will implement this requirement include: decreased number of positive COVID-19 cases, outbreaks, and deaths experienced in licensed healthcare facilities, decreased costs incurred as a result of staff and client illness, increased positive outcomes for patients and clients, decreased number of staffing shortages related to COVID-19 illness or exposure, and a decrease in the overall healthcare workforce if healthcare providers and support staff choose to leave the profession as a result of this requirement.

B: The impact upon clients, patients, and residents served in and by licensed healthcare facilities and agencies will be lessened exposure to COVID-19, decreasing their chances of experiencing illness or death as a result. The impact upon employees of licensed healthcare facilities and agencies will be that these individuals are also at a decreased risk of exposure in the workforce. However, some of these individuals may choose to leave employment in this field due to these requirements.

3. The probable costs to the agency and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

- A. Anticipated CDPHE personal services, operating costs or other expenditures:

The proposed amendments are cost neutral.

Anticipated CDPHE Revenues:

The proposed amendments are revenue neutral.

- B. Anticipated personal services, operating costs or other expenditures by another state agency:

N/A

Anticipated Revenues for another state agency:

N/A

4. A comparison of the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

Along with the costs and benefits discussed above, the proposed revisions:

☐ Comply with a statutory mandate to promulgate rules.

☐ Comply with federal or state statutory mandates, federal or state regulations, and department funding obligations.

☒ Maintain alignment with other states or national standards.

☐ Implement a Regulatory Efficiency Review (rule review) result

☒ Improve public and environmental health practice.

☒ Implement stakeholder feedback.

Advance the following CDPHE Strategic Plan priorities (select all that apply):

<p>Reduce Greenhouse Gas (GHG) emissions economy-wide from 125.716 million metric tons of CO₂e (carbon dioxide equivalent) per year to 119.430 million metric tons of CO₂e per year by June 30, 2020 and to 113.144 million metric tons of CO₂e by June 30, 2023.</p> <p><input type="checkbox"/> Contributes to the blueprint for pollution reduction</p> <p><input type="checkbox"/> Reduces carbon dioxide from transportation</p> <p><input type="checkbox"/> Reduces methane emissions from oil and gas industry</p> <p><input type="checkbox"/> Reduces carbon dioxide emissions from electricity sector</p>
<p>Reduce ozone from 83 parts per billion (ppb) to 80 ppb by June 30, 2020 and 75 ppb by June 30, 2023.</p> <p><input type="checkbox"/> Reduces volatile organic compounds (VOC) and oxides of nitrogen (NO_x) from the oil and gas industry.</p> <p><input type="checkbox"/> Supports local agencies and COGCC in oil and gas regulations.</p> <p><input type="checkbox"/> Reduces VOC and NO_x emissions from non-oil and gas contributors</p>
<p>Decrease the number of Colorado adults who have obesity by 2,838 by June 30, 2020 and by 12,207 by June 30, 2023.</p> <p><input type="checkbox"/> Increases the consumption of healthy food and beverages through education, policy, practice and environmental changes.</p> <p><input type="checkbox"/> Increases physical activity by promoting local and state policies to improve active transportation and access to recreation.</p> <p><input type="checkbox"/> Increases the reach of the National Diabetes Prevention Program and Diabetes Self-Management Education and Support by collaborating with the Department of Health Care Policy and Financing.</p>
<p>Decrease the number of Colorado children (age 2-4 years) who participate in the WIC Program and have obesity from 2120 to 2115 by June 30, 2020 and to 2100 by June 30, 2023.</p> <p><input type="checkbox"/> Ensures access to breastfeeding-friendly environments.</p>
<p>Reverse the downward trend and increase the percent of kindergartners protected against measles, mumps and rubella (MMR) from 87.4% to 90% (1,669 more kids) by June 30, 2020 and increase to 95% by June 30, 2023.</p> <p><input type="checkbox"/> Reverses the downward trend and increase the percent of kindergartners protected against measles, mumps and rubella (MMR) from 87.4% to 90% (1,669 more kids) by June 30, 2020 and increase to 95% by June 30, 2023.</p> <p><input type="checkbox"/> Performs targeted programming to increase immunization rates.</p> <p><input type="checkbox"/> Supports legislation and policies that promote complete immunization and exemption data in the Colorado Immunization Information System (CIIS).</p>
<p>Colorado will reduce the suicide death rate by 5% by June 30, 2020 and 15% by June 30, 2023.</p> <p><input type="checkbox"/> Creates a roadmap to address suicide in Colorado.</p> <p><input type="checkbox"/> Improves youth connections to school, positive peers and caring adults, and promotes healthy behaviors and positive school climate.</p>

<p>___ Decreases stigma associated with mental health and suicide, and increases help-seeking behaviors among working-age males, particularly within high-risk industries.</p> <p>___ Saves health care costs by reducing reliance on emergency departments and connects to responsive community-based resources.</p>
<p>The Office of Emergency Preparedness and Response (OEPR) will identify 100% of jurisdictional gaps to inform the required work of the Operational Readiness Review by June 30, 2020.</p> <p>___ Conducts a gap assessment.</p> <p>___ Updates existing plans to address identified gaps.</p> <p>___ Develops and conducts various exercises to close gaps.</p>
<p>For each identified threat, increase the competency rating from 0% to 54% for outbreak/incident investigation steps by June 30, 2020 and increase to 92% competency rating by June 30, 2023.</p> <p>___ Uses an assessment tool to measure competency for CDPHE's response to an outbreak or environmental incident.</p> <p>___ Works cross-departmentally to update and draft plans to address identified gaps noted in the assessment.</p> <p>___ Conducts exercises to measure and increase performance related to identified gaps in the outbreak or incident response plan.</p>
<p>100% of new technology applications will be virtually available to customers, anytime and anywhere, by June 20, 2020 and 90 of the existing applications by June 30, 2023.</p> <p>___ Implements the CDPHE Digital Transformation Plan.</p> <p>___ Optimizes processes prior to digitizing them.</p> <p>___ Improves data dissemination and interoperability methods and timeliness.</p>
<p>10. Reduce CDPHE's Scope 1 & 2 Greenhouse Gas emissions (GHG) from 6,561 metric tons (in FY2015) to 5,249 metric tons (20% reduction) by June 30, 2020 and 4,593 tons (30% reduction) by June 30, 2023.</p> <p>___ Reduces emissions from employee commuting</p> <p>___ Reduces emissions from CDPHE operations</p>
<p>11. Fully implement the roadmap to create and pilot using a budget equity assessment by June 30, 2020 and increase the percent of selected budgets using the equity assessment from 0% to 50% by June 30, 2023.</p> <p>___ Used a budget equity assessment</p>

___ Advance CDPHE Division-level strategic priorities.

The costs and benefits of the proposed rule will not be incurred if inaction was chosen. Costs and benefits of inaction not previously discussed include:

Inaction has neither monetary cost nor benefit; however, inaction will result in the further spread of COVID-19 across the state of Colorado. This will result in increased

burden on an already overtaxed healthcare system, including the healthcare workforce, economic burdens as individuals are unable to work due to illness or quarantine requirements, disruptions in learning for students K-12, and increased deaths across all sectors of our population.

5. A determination of whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

The less costly or less intrusive methods available in this scenario are for employees, direct contractors, and support staff to voluntarily receive the COVID-19 vaccination and/or for employers to enact vaccination requirements on an individual basis. While that approach has led to a majority of the healthcare workforce receiving the COVID-19 vaccine, approximately 30% of the healthcare workforce remains unvaccinated, and large sectors of the healthcare industry that have not enacted individual vaccination mandates. As such, this regulation is the next step to ensure vulnerable Coloradans are protected from the spread of COVID-19.

6. Alternative Rules or Alternatives to Rulemaking Considered and Why Rejected.

There were no alternatives to rulemaking considered except inaction. For the reasons set forth in the above, inaction will result in the further spread of COVID-19 across the state of Colorado, including in our licensed healthcare facilities.

7. To the extent practicable, a quantification of the data used in the analysis; the analysis must take into account both short-term and long-term consequences.

The Department utilized data collected from various sources by different programs across the Department. This includes information from the Outbreak team on deaths, flu data from the immunization branch, and reported vaccination rates from EMResource. Much of this data is publicly available on the Department website. Flu vaccination information is found at: <https://cdphe.colorado.gov/immunization-rates-reports-and-data>. COVID-19 data is found at: <https://covid19.colorado.gov/data>.

The Department also reviewed recent literature and studies around vaccine efficacy, including: Griffin JB, Haddix M, Danza P, et al. SARS-CoV-2 Infections and Hospitalizations Among Persons Aged ≥ 16 Years, by Vaccination Status — Los Angeles County, California, May 1–July 25, 2021. MMWR Morb Mortal Wkly Rep. ePub: 24 August 2021. DOI: <http://dx.doi.org/10.15585/mmwr.mm7034e5external icon>.

PART 11. Influenza Immunization of Employees and Direct Contractors

11.2.3 Facilities and agencies shall ensure that ninety percent (90%) of employees and direct contractors have received the influenza vaccine during a given influenza season. In order to demonstrate that the ninety percent (90%) rate has been met, facilities and agencies shall:

(A) By May 15th of every year, report to the Department, in the form and manner specified by the Department, the vaccination rate for employees and direct contractors for the most recent influenza season.

(B) Have defined procedures to prevent the spread of influenza from unvaccinated healthcare workers.

(C) Maintain for three (3) years the following documentation that may be examined by the Department in a random audit process:

(1) Proof of immunization, as defined at Part 4.461.51 of this Chapter, or

PART 12. COVID-19 IMMUNIZATION OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF

12.1 STATUTORY AUTHORITY AND APPLICABILITY

12.1.1 THE STATUTORY AUTHORITY FOR THE PROMULGATION OF THESE RULES IS SET FORTH IN SECTION 25-1.5-102, 25-1.5-103, AND 25-3-103, C.R.S.

12.1.2 THE REQUIREMENTS OF THIS PART 12 SHALL BE OVERSEEN AND ENFORCED BY THE DEPARTMENT IN A MANNER CONSISTENT WITH PARTS 2.10 AND 2.11 OF THIS CHAPTER 2 (FOR ALL FACILITY AND AGENCY TYPES), 6 CCR 1011-1, CHAPTER 3, PART 2.1.7 (FOR BEHAVIORAL HEALTH ENTITIES), 6 CCR 1011-1, CHAPTER 7, PART 3.14 (FOR ASSISTED LIVING RESIDENCES), AND 6 CCR 1011-1, CHAPTER 26, PART 5.7 (FOR HOME CARE AGENCIES).

12.2 GENERAL PROVISIONS

12.2.1 EACH FACILITY SHALL DEVELOP AND IMPLEMENT A POLICY AND PROCEDURE TO ENSURE 100% OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF HAVE OBTAINED FULL COVID-19 VACCINATION STATUS IN ACCORDANCE WITH THE SCHEDULE BELOW.

(A) ALL EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF MUST HAVE RECEIVED THEIR FIRST DOSE OF THE COVID-19 VACCINATION NO LATER THAN SEPTEMBER 30, 2021.

(B) ALL EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF MUST HAVE RECEIVED THEIR SECOND DOSE OF THE COVID-19 VACCINATION (IF APPLICABLE) NO LATER THAN OCTOBER 31, 2021.

(C) ALL EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF MUST OBTAIN A SUBSEQUENT, OR BOOSTER, DOSE OF THE COVID-19 VACCINATION SHOULD ONE BE RECOMMENDED BY THE ADVISORY COMMITTEE ON IMMUNIZATION PRACTICES (ACIP), IN ACCORDANCE WITH THE RECOMMENDED TIMELINES.

(D) AN EMPLOYEE, DIRECT CONTRACTOR, AND SUPPORT STAFF MEMBER WHO WAS DIAGNOSED WITH COVID-19, WHO RECEIVED MONOCLONAL ANTIBODY TREATMENT, OR CONVALESCENT PLASMA TREATMENT SHALL OBTAIN THEIR VACCINATION IN A TIMEFRAME THAT IS IN ACCORDANCE WITH THE RECOMMENDATIONS OF THE CENTERS FOR DISEASE CONTROL (CDC), ACIP, AND THE INDIVIDUAL'S LICENSED INDEPENDENT PRACTITIONER.

(E) ON OR AFTER OCTOBER 31, 2021, EACH FACILITY SHALL ENSURE ALL NEWLY HIRED EMPLOYEES, DIRECT CONTRACTORS, OR SUPPORT STAFF MEMBERS HAVE OBTAINED FULL COVID-19 VACCINATION STATUS, IN ACCORDANCE WITH THIS PART 12.

12.2.2 FOR PURPOSES OF THIS PART 12, AN EMPLOYEE, DIRECT CONTRACTOR, AND SUPPORT STAFF SUBJECT TO THIS PART 12 IS DEFINED AS AN INDIVIDUAL WHO HAS THE POTENTIAL FOR EXPOSURE TO CLIENTS OF THE FACILITY OR AGENCY AND/OR TO INFECTIOUS MATERIALS, INCLUDING BODILY SUBSTANCES, CONTAMINATED MEDICAL SUPPLIES AND EQUIPMENT, CONTAMINATED ENVIRONMENTAL SURFACES, OR CONTAMINATED AIR.

(A) THESE INDIVIDUALS MAY INCLUDE, BUT ARE NOT LIMITED TO: LICENSED INDEPENDENT PRACTITIONERS; STUDENTS AND TRAINEES; INDIVIDUALS WHO DIRECTLY CONTRACT WITH THE FACILITY OR AGENCY TO PROVIDE SERVICES, WHETHER ON A PERMANENT OR TEMPORARY BASIS; VISITING NURSING STAFF; INDIVIDUALS WHO ARE AFFILIATED WITH THE FACILITY OR AGENCY, BUT DO NOT RECEIVE WAGES OR OTHER REMUNERATION FROM THE FACILITY OR AGENCY; AND PERSONS NOT DIRECTLY INVOLVED IN CLIENT CARE BUT ARE POTENTIALLY EXPOSED TO INFECTIOUS AGENTS THAT CAN BE TRANSMITTED TO AND FROM THE INDIVIDUAL PROVIDING SERVICES AND CLIENTS OF THE FACILITY OR AGENCY.

12.2.3 THE POLICY AND PROCEDURE SHALL ADDRESS, AT A MINIMUM, THE FOLLOWING TOPICS:

(A) A LIST OF THE CATEGORIES OR POSITION DESCRIPTIONS OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF EXEMPT FROM THE REQUIREMENT AT PART 12.2.1, INCLUDING JUSTIFICATION FOR THAT DECISION.

(B) THE FACILITY'S CRITERIA FOR ACCEPTING OR REJECTING MEDICAL OR RELIGIOUS EXEMPTIONS.

(C) MEASURES TAKEN BY THE FACILITY TO PROTECT CLIENTS AND MEMBERS OF THE PUBLIC FROM EXPOSURE BY UNVACCINATED INDIVIDUALS, WHICH SHALL BE BASED ON STATE AND NATIONAL STANDARDS AND GUIDELINES. THE POLICY SHALL INCLUDE, AT A MINIMUM, HOW THE FACILITY WILL IMPLEMENT TESTING AND MASKING FOR UNVACCINATED INDIVIDUALS.

12.2.4 EACH FACILITY SHALL MAINTAIN THE FOLLOWING DOCUMENTATION THAT MAY BE EXAMINED BY THE DEPARTMENT, AT ANY TIME, FOR PURPOSES OF VERIFYING COMPLIANCE WITH THIS PART 12.

(A) PROOF OF IMMUNIZATION, AS DEFINED AT 6 CCR 1011-1, CHAPTER 2, PART 1.51, OR

(B) A MEDICAL EXEMPTION SIGNED BY A PHYSICIAN, PHYSICIAN ASSISTANT, ADVANCED PRACTICE NURSE, OR CERTIFIED NURSE MIDWIFE LICENSED IN THE STATE OF COLORADO STATING THAT THE COVID-19 VACCINATION FOR THE EMPLOYEE, DIRECT CONTRACTOR, OR SUPPORT STAFF IS MEDICALLY CONTRAINDICATED AS DESCRIBED IN THE PRODUCT LABELING APPROVED OR AUTHORIZED BY THE FDA, OR

(C) DOCUMENTATION OF A RELIGIOUS EXEMPTION, AS DEFINED BY FACILITY POLICY.

12.3 WAIVER REQUESTS

(A) A FACILITY MAY SEEK A WAIVER OF THE 100% VACCINATION REQUIREMENT AT PART 12.2.1 ON THE BASIS THAT ONE OR MORE INDIVIDUALS HAVE CLAIMED A RELIGIOUS EXEMPTION, PURSUANT TO FACILITY POLICY.

- (B) ALL WAIVER APPLICATIONS SHALL BE SUBMITTED IN ACCORDANCE WITH THE PROCESS OUTLINED AT 6 CCR 1011-1, CHAPTER 2, PART 5 – WAIVER OF REGULATIONS FOR FACILITIES AND AGENCIES.

12.4 REPORTING REQUIREMENTS

12.4.1 BEGINNING OCTOBER 1, 2021, EACH FACILITY SHALL REPORT ITS COVID-19 VACCINATION RATE TO THE DEPARTMENT ON THE 1ST AND THE 15TH DAY OF THE MONTH.

12.4.2 THIS INFORMATION SHALL BE REPORTED IN THE FORM AND MANNER SPECIFIED BY THE DEPARTMENT.

12.4.3 EACH FACILITY SHALL REPORT THE FOLLOWING INFORMATION TO THE DEPARTMENT:

- (A) THE TOTAL NUMBER OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF, WHETHER OR NOT THE INDIVIDUAL IS SUBJECT TO THE REQUIREMENTS OF THIS PART 12.
- (B) TOTAL NUMBER OF VACCINATED EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF AND THE TOTAL NUMBER OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF.
- (C) NUMBER OF MEDICAL EXEMPTIONS CLAIMED BY EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF.
- (D) NUMBER OF RELIGIOUS EXEMPTIONS CLAIMED BY EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF.
- (E) NUMBER OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF IDENTIFIED BY THE FACILITY AS EXEMPT FROM THE REQUIREMENTS OF THIS PART 12.
- (F) NUMBER OF EMPLOYEES, DIRECT CONTRACTORS, AND SUPPORT STAFF WHO HAVE LEFT EMPLOYMENT WITH THE FACILITY OR AGENCY DUE TO THE REQUIREMENTS OF THIS PART 12, SINCE THE LAST REPORTING DATE.

12.4.4 INFORMATION REPORTED TO THE DEPARTMENT UNDER THIS PART 12 SHALL BE MADE PUBLICLY AVAILABLE ON THE DEPARTMENT'S WEBSITE.

COLORADO

Board of Health

Department of Public Health & Environment

Notice of Public Rule-Making Hearing October 21, 2021

NOTICE is hereby given pursuant to the provisions of Section 24-4-103, C.R.S., that the Colorado Board of Health will conduct a public rule-making hearing on October 21, 2021 at 12 p.m., either in person in the Sabin-Cleere Conference Room of the Colorado Department of Public Health and Environment, Bldg. A, First Floor, 4300 Cherry Creek Drive, South, Denver, CO 80246, remotely via [Zoom](#), or via both mediums, to consider the revision of 6 CCR 1011-1 Chapter 2, General Licensure Standards. The proposed rule has been developed by the Health Facilities and Emergency Medical Services Division of the Colorado Department of Public Health and Environment pursuant to Sections 24-4-103(6), 25-1.5-102, 25-1.5-103, and 25-3-103, C.R.S.

The agenda for the meeting and the proposed amendments will also be available on the Board's website, <https://cdphe.colorado.gov/board-of-health> at least seven (7) days prior to the meeting. The proposed rule, together with the proposed statement of basis and purpose, specific statutory authority and regulatory analysis will be available for inspection at the Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South EDO-A5, Denver, Colorado 80246-1530 at least five working days prior to the hearing. Copies of the proposed rule may be obtained by contacting the Colorado Department of Public Health and Environment, Health Facilities and Emergency Medical Services Division, 4300 Cherry Creek Drive S., Denver, CO 80246, 303-692-2836.

The Board encourages all interested persons to participate in the hearing by providing written data, views, or comments. Written testimony is encouraged; oral testimony will be received only to the extent the Board finds it necessary. For those that are permitted to provide oral testimony, the time may be limited to 3 minutes or less. Testimony is limited to the scope of the rulemaking hearing. Pursuant to 6 CCR 1014-8, §3.02.1, written testimony must be submitted no later than five (5) calendar days prior to the rulemaking hearing. Written testimony must be received by 5:00 p.m., Friday, October 15, 2021. Persons wishing to submit written comments should submit them to: Colorado Board of Health, ATTN: Board of Health Program Assistant, Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South EDO-A5, Denver, Colorado 80246-1530 or by e-mail at: cdphe.bohrequests@state.co.us

Dated this 31st day of August, 2021.

To: Members of the State Board of Health

From: Alicia Haywood, Legislative Services Director, Prevention Services Division

Through: Carrie Cortiglio, Director, Prevention Services Division *CC* 7/27/2021

Date: August 18, 2019

Subject: Request for a Rulemaking Hearing Concerning 6 CCR 1016-2 Prevention, Intervention, and Treatment Programs for Children and Youth

The Prevention Services Division (PSD) in the Colorado Department of Public Health and Environment is proposing to repeal rules pertaining to the Prevention, Intervention, and Treatment Services Act. HB 20-1058 repealed portions of the Act, including the requirement to develop and update a statewide plan for children and youth. The Department no longer has statutory authority to perform these duties, and the rules are no longer authorized. Therefore, PSD is requesting to repeal 6 CCR 1016-2.

STATEMENT OF BASIS AND PURPOSE
AND SPECIFIC STATUTORY AUTHORITY

For Repeal of
6 CCR 1016-2

Prevention, Intervention, and Treatment Programs for Children and Youth

Basis and Purpose.

The Prevention, Intervention, and Treatment Services Act (§ 25-20.5-101 through 110 C.R.S.) was signed into law in 2000. The Act defined a “prevention, intervention, and treatment program;” defined “prevention, intervention, and treatment services;” created the Prevention Services Division in the Colorado Department of Public Health and Environment (CDPHE); set the functions of the division; required the development and updates to a state plan for delivery of prevention, intervention, and treatment services to children and youth throughout the state; and directed the State Board of Health to promulgate rules necessary for the development and updates to the state plan.

The Board of Health promulgated 6 CCR 1016-2 related to the state plan for prevention, intervention, and treatment programs for children and youth. The goal of the plan was to ensure collaboration among youth programs operated by the division and to ensure collaboration among programs that result in a continuum of services available to youth throughout the state.

In 2013, the legislature passed HB 13-1117, transferring various children and youth development programs from CDPHE, Prevention Services Division to the Colorado Department of Human Services (CDHS). The programs included:

- Nurse Home Visitation Program;
- Tony Grampsas Youth Services Program;
- Colorado Student Dropout Prevention and Intervention Program;
- Colorado Before-and-After School Project;
- Colorado Children's Trust Fund and its board;
- Family Resource Center Program

Also in 2013, the legislature passed HB 13-1239. It tasked CDHS with creating and updating a Statewide Youth Development Plan in partnership with stakeholders and the Tony Grampsas Youth Services board. The plan is a guide for understanding the gaps in programs and services for youth and the recommended strategies for addressing these gaps. Essentially, with the passage of HB 13-1239, the requirement for the creation of a statewide youth plan formerly under the purview of CDPHE, was now under the purview of CDHS.

In 2020, the Colorado Statutory Revision Committee sponsored a bill to repeal portions of the Prevention, Intervention, and Treatment Services Act citing the youth service functions were moved to CDHS from CDPHE in 2013. HB 20-1038, signed into law, March 20, 2020, repealed the requirement for CDPHE to create a statewide youth plan. Therefore, the Department no longer has statutory authority to perform these duties, and the Board of Health is no longer authorized to promulgate these rules.

Is this rulemaking due to a change in state statute?

☒ Yes, this request relates to the rules corresponding to the statute repealed via HB20-1038.

Does this rulemaking include proposed rule language that incorporate materials by reference?

☐ Yes ☐ URL
☒ No

Does this rulemaking include proposed rule language to create or modify fines or fees?

☐ Yes
☒ No

Does the proposed rule language create (or increase) a state mandate on local government?

☒ No.

- The proposed rule does not require a local government to perform or increase a specific activity for which the local government will not be reimbursed.

REGULATORY ANALYSIS
For Repeal of
6 CCR 1016-2
Prevention, Intervention, and Treatment Programs for Children and Youth

1. A description of the classes of persons affected by the proposed rule, including the classes that will bear the costs and the classes that will benefit from the proposed rule.

The repeal of the rule does not negatively impact any classes; those that benefit from repealing an obsolete rule include:

B: Staff in the Colorado Department of Public Health and Environment.

B: Constituents.

C = individuals/entities that implement or apply the rule.

CLG = local governments that must implement the rule in order to remain in compliance with the law.

S = individuals/entities that do not implement or apply the rule but are interested in others applying the rule.

B = the individuals that are ultimately served, including the customers of our customers. These individuals may benefit, be harmed or be at-risk because of the rule, the "C" or "CLG" category individuals/entities that implement or apply the rule, or "S" category individuals/entities that are interested in the rule or its implementation.

2. To the extent practicable, a description of the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

C: There is no economic impact as a result of repealing this rule. The department has been unable to complete the plan since 2013, as a result of no longer having statutory authority over the children and youth programs transferred to CDHS. Staff from the Prevention Services Division participate with a broad array of stakeholders to update the Colorado Statewide Youth Development Plan as required by § 26-1-111.3 C.R.S.

B: CDPHE will benefit as there will no longer be misalignment in statute and rule.

B: Constituents will not receive inaccurate and outdated information about government programs or requirements.

3. The probable costs to the agency and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

- A. Anticipated CDPHE personal services, operating costs or other expenditures:

There is no economic impact as a result of repealing this rule. The department has been unable to complete the plan since 2013, as a result of no longer having statutory authority over the children and youth programs transferred to CDHS. Staff from the

Prevention Services Division participate with a broad array of stakeholders to update the Colorado Statewide Youth Development Plan as required by § 26-1-111.3 C.R.S.

- B. Anticipated personal services, operating costs or other expenditures by another state agency:

Anticipated Revenues for another state agency:

N/A

4. A comparison of the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

Along with the costs and benefits discussed above, the proposed revisions:

☒ Comply with a statutory mandate to promulgate [repeal] rules.

Advance the following CDPHE Strategic Plan priorities (select all that apply):

<p>1. Reduce Greenhouse Gas (GHG) emissions economy-wide from 125.716 million metric tons of CO₂e (carbon dioxide equivalent) per year to 119.430 million metric tons of CO₂e per year by June 30, 2020 and to 113.144 million metric tons of CO₂e by June 30, 2023.</p> <p><input type="checkbox"/> Contributes to the blueprint for pollution reduction</p> <p><input type="checkbox"/> Reduces carbon dioxide from transportation</p> <p><input type="checkbox"/> Reduces methane emissions from oil and gas industry</p> <p><input type="checkbox"/> Reduces carbon dioxide emissions from electricity sector</p>
<p>2. Reduce ozone from 83 parts per billion (ppb) to 80 ppb by June 30, 2020 and 75 ppb by June 30, 2023.</p> <p><input type="checkbox"/> Reduces volatile organic compounds (VOC) and oxides of nitrogen (NO_x) from the oil and gas industry.</p> <p><input type="checkbox"/> Supports local agencies and COGCC in oil and gas regulations.</p> <p><input type="checkbox"/> Reduces VOC and NO_x emissions from non-oil and gas contributors</p>
<p>3. Decrease the number of Colorado adults who have obesity by 2,838 by June 30, 2020 and by 12,207 by June 30, 2023.</p> <p><input type="checkbox"/> Increases the consumption of healthy food and beverages through education, policy, practice and environmental changes.</p> <p><input type="checkbox"/> Increases physical activity by promoting local and state policies to improve active transportation and access to recreation.</p> <p><input type="checkbox"/> Increases the reach of the National Diabetes Prevention Program and Diabetes Self-Management Education and Support by collaborating with the Department of Health Care Policy and Financing.</p>
<p>4. Decrease the number of Colorado children (age 2-4 years) who participate in the WIC Program and have obesity from 2120 to 2115 by June 30, 2020 and to 2100 by June 30, 2023.</p>

<p>___ Ensures access to breastfeeding-friendly environments.</p>
<p>5. Reverse the downward trend and increase the percent of kindergartners protected against measles, mumps and rubella (MMR) from 87.4% to 90% (1,669 more kids) by June 30, 2020 and increase to 95% by June 30, 2023.</p> <p>___ Reverses the downward trend and increase the percent of kindergartners protected against measles, mumps and rubella (MMR) from 87.4% to 90% (1,669 more kids) by June 30, 2020 and increase to 95% by June 30, 2023.</p> <p>___ Performs targeted programming to increase immunization rates.</p> <p>___ Supports legislation and policies that promote complete immunization and exemption data in the Colorado Immunization Information System (CIIS).</p>
<p>6. Colorado will reduce the suicide death rate by 5% by June 30, 2020 and 15% by June 30, 2023.</p> <p>___ Creates a roadmap to address suicide in Colorado.</p> <p>___ Improves youth connections to school, positive peers and caring adults, and promotes healthy behaviors and positive school climate.</p> <p>___ Decreases stigma associated with mental health and suicide, and increases help-seeking behaviors among working-age males, particularly within high-risk industries.</p> <p>___ Saves health care costs by reducing reliance on emergency departments and connects to responsive community-based resources.</p>
<p>7. The Office of Emergency Preparedness and Response (OEPR) will identify 100% of jurisdictional gaps to inform the required work of the Operational Readiness Review by June 30, 2020.</p> <p>___ Conducts a gap assessment.</p> <p>___ Updates existing plans to address identified gaps.</p> <p>___ Develops and conducts various exercises to close gaps.</p>
<p>8. For each identified threat, increase the competency rating from 0% to 54% for outbreak/incident investigation steps by June 30, 2020 and increase to 92% competency rating by June 30, 2023.</p> <p>___ Uses an assessment tool to measure competency for CDPHE's response to an outbreak or environmental incident.</p> <p>___ Works cross-departmentally to update and draft plans to address identified gaps noted in the assessment.</p> <p>___ Conducts exercises to measure and increase performance related to identified gaps in the outbreak or incident response plan.</p>
<p>9. 100% of new technology applications will be virtually available to customers, anytime and anywhere, by June 20, 2020 and 90 of the existing applications by June 30, 2023.</p> <p>___ Implements the CDPHE Digital Transformation Plan.</p> <p>___ Optimizes processes prior to digitizing them.</p>

___ Improves data dissemination and interoperability methods and timeliness.
<p>10. Reduce CDPHE's Scope 1 & 2 Greenhouse Gas emissions (GHG) from 6,561 metric tons (in FY2015) to 5,249 metric tons (20% reduction) by June 30, 2020 and 4,593 tons (30% reduction) by June 30, 2023.</p> <p>___ Reduces emissions from employee commuting</p> <p>___ Reduces emissions from CDPHE operations</p>
<p>11. Fully implement the roadmap to create and pilot using a budget equity assessment by June 30, 2020 and increase the percent of selected budgets using the equity assessment from 0% to 50% by June 30, 2023.</p> <p>___ Used a budget equity assessment</p>

___ Advance CDPHE Division-level strategic priorities.

The costs and benefits of the proposed rule will not be incurred if inaction was chosen. Costs and benefits of inaction not previously discussed include:

Inaction is not an option as the rules are no longer authorized under Colorado law.

5. A determination of whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no other less costly or less intrusive methods to repeal the rules. The rules are no longer authorized by state statute.

6. Alternative Rules or Alternatives to Rulemaking Considered and Why Rejected.

There are no other alternative methods for achieving the purpose of this rulemaking.

7. To the extent practicable, a quantification of the data used in the analysis; the analysis must take into account both short-term and long-term consequences.

HB 20-1038 serves as the basis for the request to repeal these rules.

STAKEHOLDER ENGAGEMENT

For Repeal of
6 CCR 1016-2

Prevention, Intervention, and Treatment Programs for Children and Youth

The Department developed the proposed repeal.

The following individuals and/or entities were notified that this rule-making was proposed for consideration by the Board of Health and had the opportunity to provide feedback:

- Colorado Department of Human Services

Stakeholder Group Notification

The stakeholder group was provided notice of the rulemaking hearing and provided a copy of the proposed rules or the internet location where the rules may be viewed. Notice was provided prior to the date the notice of rulemaking was published in the Colorado Register (typically, the 10th of the month following the Request for Rulemaking).

☒ Not applicable. This is a Request for Rulemaking Packet. Notification will occur if the Board of Health sets this matter for rulemaking.

☐ Yes.

Summarize Major Factual and Policy Issues Encountered and the Stakeholder Feedback Received. If there is a lack of consensus regarding the proposed rule, please also identify the Department's efforts to address stakeholder feedback or why the Department was unable to accommodate the request.

To date, no major factual and policy issues have been encountered.

Please identify the determinants of health or other health equity and environmental justice considerations, values or outcomes related to this rulemaking.

Overall, after considering the benefits, risks and costs, the proposed rule:

Select all that apply.

	Improves behavioral health and mental health; or, reduces substance abuse or suicide risk.	Reduces or eliminates health care costs, improves access to health care or the system of care; stabilizes individual participation; or, improves the quality of care for unserved or underserved populations.
	Improves housing, land use, neighborhoods, local infrastructure, community services, built environment, safe physical spaces or transportation.	Reduces occupational hazards; improves an individual's ability to secure or maintain employment; or, increases stability in an employer's workforce.
	Improves access to food and healthy food options.	Reduces exposure to toxins, pollutants, contaminants or hazardous substances; or ensures the safe application of radioactive material or chemicals.
	Improves access to public and environmental health information; improves the readability of the rule; or, increases the shared understanding of roles and responsibilities, or what occurs under a rule.	Supports community partnerships; community planning efforts; community needs for data to inform decisions; community needs to evaluate the effectiveness of its efforts and outcomes.
	Increases a child's ability to participate in early education and educational opportunities through prevention efforts that increase protective factors and decrease risk factors, or stabilizes individual participation in the opportunity.	Considers the value of different lived experiences and the increased opportunity to be effective when services are culturally responsive.
	Monitors, diagnoses and investigates health problems, and health or environmental hazards in the community.	Ensures a competent public and environmental health workforce or health care workforce.
X	Other: Ensure rules are current so constituents do not receive inaccurate and outdated information about government programs.	Other: _____ _____

~~DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT~~

~~Prevention Services Division~~

~~PREVENTION, INTERVENTION, AND TREATMENT PROGRAMS FOR CHILDREN AND YOUTH~~

~~6 CCR 1016-2~~

~~[Editor's Notes follow the text of the rules at the end of this CCR Document.]~~

~~PART 1. GENERAL PROVISIONS~~

~~1.1 Statutory Authority.~~

~~These regulations are promulgated pursuant to section 25-20.5-101, et. seq., C.R.S.~~

~~1.2 Definitions.~~

~~(1) "Department" means the Colorado Department of Public Health and Environment.~~

~~(2) "Division" means the Division of Prevention and Intervention Services for Children and Youth.~~

~~(3) "Executive Director" means the executive director of the Colorado Department of Public Health and Environment.~~

~~(4) "Prevention, intervention, and treatment program" means a program that provides prevention, intervention, or treatment services. Prevention, intervention, and treatment programs shall include those within the Division, and within the Department and in other state departments, as identified by the Division, using the criteria in Section 2.2 below.~~

~~(5) "Prevention, intervention, and treatment services" means services designed to promote the well-being of children and youth and their families by decreasing high-risk behaviors, strengthening healthy behaviors, and promoting family stability.~~

~~(a) "Prevention services" means proactive, interdisciplinary efforts to empower individuals to choose and maintain healthy life behaviors and lifestyles, thus fostering an environment that encourages law-abiding and non-troubled behavior.~~

~~(b) "Intervention services" means proactive efforts to intervene at early signs of problems to stop disease, reduce crises and to change problem behaviors.~~

~~(c) "Treatment services" are individualized care services to treat and rehabilitate individuals and/or groups in crisis situations and to aid in changing problem behaviors.~~

~~(6) "State Plan" means the state plan for the delivery of prevention, intervention, and treatment services to children and youth throughout the state.~~

~~(7) "Tony Grampsas Youth Services (TGYS) Board" means the board created pursuant to section 25-20.5-201, C.R.S.~~

~~1.3 Desired Program Outcomes.~~

~~Prevention, intervention, and treatment programs are designed to address one or more of the following desired outcomes:~~

~~(1) All infants and children thrive;~~

~~(2) All children are ready for school;~~

~~(3) All children and youth succeed in school;~~

~~(4) All youth choose healthy behaviors;~~

~~(5) All youth avoid trouble/illegal behavior;~~

~~(6) All children live in caring and supportive families; and~~

~~(7) All children and youth live in safe and supporting communities.~~

~~PART 2. DEPARTMENT AND DIVISION RESPONSIBILITIES~~

~~2.1 Applicability.~~

~~This Part 2 applies to the Department and Division.~~

~~2.2 Criteria for Determining Whether a Program Constitutes a Prevention, Intervention, and Treatment Program for Children and Youth.~~

~~(1) The criteria listed in paragraphs (a) through (d) of this subsection shall be used to determine whether a program qualifies as a "prevention, intervention, and treatment program" for the purposes of section 25-20.5-106 (2)(e) C.R.S. The program:~~

~~(a) Is operated by or funded through a state agency;~~

~~(b) Provides one or more of the services listed under 1.2 (5);~~

~~(c) Is designed to address one or more of the outcomes listed under 1.3; and~~

~~(d) Is not a juvenile program operated by the Division of Youth Corrections in the Department of Human Services, a program operated for juveniles in connection with the state judicial system, or a program pertaining to out-of-home placement of children pursuant to title 19, C.R.S.~~

~~(2) In addition, the Division may review any pertinent information submitted by the program under review.~~

~~PART 3. STATE PLAN~~

~~3.1 Applicability.~~

~~This part 3 applies to the Department, the Division, and any other person that reviews the state plan.~~

~~3.2 Review of state plan.~~

~~(1) The Division shall review the state plan biennially. The Division shall complete the review by no later than March 31st biennially beginning in the year 2003.~~

~~(2) The Division review shall include, but not be limited to:~~

- ~~(a) Holding at least two public meetings to receive input from members of the public and from state agencies and entities operating preventing, intervention, and treatment programs; and~~
- ~~(b) Ensuring the state plan provides the most efficient and effective delivery of prevention, intervention, and treatment services throughout the state, and meets the following minimum requirements:~~
- ~~i. Target and prioritize community prevention, intervention, and treatment service needs throughout the state;~~
 - ~~ii. Specify the standards for measurable outcomes anticipated to be achieved by prevention, intervention and treatment programs that receive state and federal funds and the outcomes to be achieved through the coordination of said prevention, intervention, and treatment programs;~~
 - ~~iii. Identify all state and community-based prevention, intervention, and treatment programs that are receiving state and federal funds during the fiscal years for which the plan is submitted and the schedule for review of said prevention, intervention, and treatment programs; and~~
 - ~~iv. Identify the methods by which the Division shall encourage collaboration at the local level among public and private entities, including but not limited to private for-profit and nonprofit providers and faith-based service providers, in providing prevention, intervention, and treatment services.~~

3.3 Submittal Of State Plan

- ~~(1) If the Division revises the state plan during a biennial review, the Division shall submit the revised state plan to the governor, the Tony Grampsas Youth Services Board, and the executive director of the Department for approval no later than June 30th after the review was complete.~~
- ~~(2) The Division shall provide a copy of any approved revised state plan to the board of health, general assembly, and each state department that operates a prevention, intervention, and treatment program, within thirty (30) days of approval of the revised state plan by the governor, the Tony Grampsas Youth Services Board, and the executive director of the Department.~~
- ~~(3) The Division shall place the approved revised state plan on the internet within 30 days of approval of the revised plan by the governor, the Tony Grampsas Youth Services Board, and the executive director of the Department.~~
- ~~(4) The Division shall provide copies of the approved state plan and approved revised state plans to any person upon request.~~

PART 4. PREVENTION, INTERVENTION, AND TREATMENT PROGRAM REPORTS

4.1 Applicability.

~~This part 4 applies to each state agency that operates or uses state or federal funds to operate a prevention, intervention, and treatment program.~~

~~4.2 Each state agency that operates a prevention, intervention, and treatment program shall annually submit a report to the Division within thirty (30) days of either: the beginning of the contract period for which the program receives money or the beginning of the fiscal year for which the state agency receives funding. The report shall include the following information for each prevention, intervention, and treatment program operated by the state agency:~~

- ~~(1) The name of the agency, the name of the program, the name of the unit where the program is housed, contact information for the person managing the program;~~
- ~~(2) The statutory authority, funding source, beginning and ending dates of funding, and the amount of funding for the program;~~
- ~~(3) The general parameters and a written description of the program not to exceed 250 words; and~~
- ~~(4) Specific information regarding the program, including, but not limited to:~~
 - ~~(a) The overall goal or purpose of the program,~~
 - ~~(b) Primary problem area(s) to be addressed,~~
 - ~~(c) The population to be served by the program,~~
 - ~~(d) The geographic area(s) to be served by the program,~~
 - ~~(e) The prevention, intervention and treatment services to be provided by the program, and~~
 - ~~(f) The specific, measurable outcomes to be achieved by the program.~~

~~4.3 Each state agency using state or federal monies to fund local prevention, intervention, and treatment programs or statewide prevention, intervention and treatment initiatives shall annually submit to the Division a description of each prevention, intervention, and treatment program funded, which includes, but is not limited to:~~

- ~~(1) The name of the agency and the name of the program funded, address, contact information and type of entity for each program receiving funds;~~
- ~~(2) The amount awarded and beginning and end date of each award, and prior year funding;~~
- ~~(3) A written abstract or summary of the program or project not to exceed 100 words; and~~
- ~~(4) Specific information regarding the program, including:~~
 - ~~(a) The overall goals or purpose of the program,~~
 - ~~(b) Primary problem area(s) to be addressed,~~
 - ~~(c) The population to be served by the program,~~
 - ~~(d) The geographic areas(s) to be served including a list of counties receiving services,~~
 - ~~(e) The prevention, intervention, and treatment services to be provided, and~~

(f) ~~The specific, measurable outcomes to be achieved by the program. The above information shall be submitted to the Division within 30 days of notice of grant award to the agency receiving funding.~~

~~4.4 At the close of the fiscal year for each of the programs referenced in paragraph 43 above, each state agency funding these programs shall, on behalf of these programs, submit evidence of the prevention, intervention, and treatment program's progress in meeting its stated outcomes and goals during the preceding fiscal year and in previous fiscal years, depending on how long the prevention, intervention, and treatment program has been in operation, including, but not limited to:~~

~~(1) Sources from which the program received funding and amount received from each source;~~

~~(2) Number of statewide initiatives and local programs funded;~~

~~(3) A description of the population served by the program; and the total number of people receiving services during the previous year;~~

~~(4) The services provided by the program during the previous year;~~

~~(5) The program's progress in meeting stated goals and outcomes for the previous year; and~~

~~(6) A list of any entity (ies) collaborating in the delivery of prevention, intervention, and treatment services through the program.~~

~~The above information shall be submitted to the Division within ninety (90) days of the close of the fiscal year for the program, in a format to be established by the Division. The state agency shall combine like-kind programs into a single program report based upon guidance developed by the Division.~~

~~Part 5. Uniform, Minimum Standards~~

~~5.1 Applicability.~~

~~This part 5 applies to state and federally funded prevention, intervention, and treatment programs for children and youth.~~

~~5.2 Each prevention, intervention, and treatment program that receives state or federal funds shall meet the following uniform, minimum standards:~~

~~(1) Clear statement of problem/issue to be addressed. The program/project shall identify the specific problem/issue(s) to be addressed, and describe a population or geographic area where the problem/issue exists. Estimates of the extent and nature of the problem in the population or geographic area to be served shall be based on relevant existing local, regional, state or national data (e.g. data from health, human services, education, law enforcement agencies, relevant studies, or program data).~~

~~(2) Focus on contributing factors. The program/project shall address risk factors known to contribute to the problem and/or protective factors known to prevent or reduce the problem; and shall focus its resources on changing these risk and protective factors. If specific risk and protective factors for the problem have not been identified in the literature, the program/project shall provide a clear rationale for the program focus, based on relevant prevention/intervention or child/youth development principles, theories or frameworks.~~

~~(3) Intended outcomes specified. The program/project shall specify one or more outcomes it intends to achieve as a result of the prevention and intervention program/services to be provided. These intended outcomes shall be related to changing the factors contributing to the problem or factors contributing to prevention or reduction of the problem. The intended outcomes shall specify the changes in knowledge, attitudes/beliefs, skills, behaviors, obstacles/enabling factors in the physical or social environment and/or changes in the physical and emotional health status, educational achievement or well-being of the individual, group or community being served.~~

~~(4) Evidence-based programs/services. The program/project shall provide prevention and intervention services that have been previously implemented in one or more communities with demonstrated success in achieving the intended results; or that otherwise demonstrate a reasonable potential for success based on research, sound prevention/intervention principles and/or relevant theory.~~

~~(5) Services and target population specified. The program/project shall specify the amount and type of services to be provided, and the proposed number of individuals, groups or the target population that will receive or benefit from the various program activities/services provided.~~

~~(6) Evaluation. (a) the program/project shall systematically document and be able to provide data regarding services provided/activities carried out, and the number of individuals, groups and/or target population(s) receiving the services or benefiting from program activities; and (b) the program/project shall systematically document changes occurring as a result of the program services and activities provided; and shall provide evidence of progress in meeting one or more of its outcomes.~~

~~(7) Agency capacity. (a) staff carrying out the program/project shall be trained in the specific program, services or model that they will be implementing; or they shall have at least two years prior experience in the successful implementation of similar prevention or intervention programs, practices and/or policies; and (b) the agency shall maintain records of revenues and expenditures by funding source, and shall be able to produce verification of expenses upon request. The agency shall assure that an independent review of the fiscal records/practices is conducted periodically, but no less frequently than annually.~~

~~(8) Collaboration. The program/project shall regularly exchange information with other public, private and non-profit prevention, intervention and treatment programs at the state, regional or local level (e.g. faith-based organizations, health, education, human service, law enforcement agencies or other units of government) for the purposes of resource sharing, coordination of efforts, case management and to avoid duplication of services.~~

Part 6. Uniform Standards and Procedures for Reviewing State and Local Prevention, Intervention and Treatment Programs

6.1 Applicability.

~~This part 6 applies to all prevention and intervention programs for children and youth within the state that are operated or funded by a state agency using either state or federal funding.~~

6.2 The following standards and procedures shall be used in reviewing state and local prevention, intervention, and treatment programs that receive state or federal funds:

~~(1) Identification of programs to be reviewed. The Division shall use the criteria/definitions established by the State Board of Health in part 1.2.4 and 1.2.5 in determining which programs are subject to review. The Division shall notify the state agency funding and/or operating the program and advise them that they are subject to review. The review will focus on state level programs and practices. Entities receiving funds from the above mentioned state level programs will be reviewed as part of the overall state level program review.~~

~~(2) Exceptions to review requirement. The division may determine that programs are exempt from review based on the following criteria:~~

~~(a) The program is currently required to carry out a review similar in nature to the one required by 25-20.5-108 C.R.S. If a program is currently required to carry out a review similar in nature to the review required by 25-20.5-108 C.R.S. and this review addresses the elements and criteria specified under this rule, the Division may accept that review in lieu of conducting its own review; and may forward a summary of that review to the parties designated in subsection (9) below;~~

~~(b) The program is the result of one-time funding, with no expectation of additional state or federal funding in the near future;~~

~~(c) The program is clinical in nature and is governed by clinical practice standards, professional certification and/or licensing standards; or~~

~~(d) The program is specifically excluded in 25-20.5-109 C.R.S.~~

~~(3) Timelines for review. The Division shall, at least every four years, review or cause to be reviewed each prevention, intervention, and treatment program operated within this state. All programs subject to review, shall undergo an initial review by June 30, 2004. In subsequent years, the Division in conjunction with the affected agencies and programs, shall establish a schedule for review. Programs must have completed at least one year of operation prior to review. Timing of the review shall, to the extent possible, be scheduled to coincide with existing program cycles.~~

~~(4) Review criteria. State programs shall be reviewed to determine the extent to which they:~~

~~(a) Meet their intended goals and outcomes;~~

~~(b) Comply with the applicable rules adopted by the State Board of Health;~~

~~(c) Comply with all requirements of the agency overseeing the operation of the prevention, intervention or treatment program;~~

~~(d) Meet the uniform minimum standards for state and federally funded prevention and intervention programs for children and youth specified in part 5.2;~~

~~(e) Support and require their grantees/contractors to comply with the uniform, minimum standards for state and federally funded prevention and intervention programs in part 5.2;~~

~~(5) Documentation. Each program to be reviewed shall provide the Division, or its contractor, with the following documents, upon request:~~

~~(a) A copy of the grant or proposal submitted to the state or federal funding source that outlines the overall goals and intended outcomes of the program;~~

~~(b) A copy of the request for proposal, or similar document, used to solicit proposals for services to be provided by local, state or regional prevention and intervention service providers;~~

~~(c) A copy of the criteria used in making decisions regarding which programs and services to fund;~~

~~(d) A sample, as requested by the Division or contractor, of successful proposals and/or contracts with successful applicants;~~

~~(e) A sample of quarterly, biannual or annual reports submitted by grantees which includes information on the implementation of the project/services provided and an evaluation of the extent to which the program reached its intended goals and outcomes;~~

~~(f) A copy of an annual report, or similar document, provided to the original state or federal funding source which includes information on program implementation/ services provided and an evaluation of the extent to which the program reached its intended goals and outcomes;~~

~~(g) A statement that certifies that the program is complying with all requirements of the agency overseeing the operation of the program;~~

~~(h) Additional information may be requested or considered, as necessary. The information provided in the above documents will be reviewed and summarized by the Division or its contractor, and an executive summary of each program review will be drafted.~~

~~(6) Involvement of program staff. During the process of the program review, the Division or its contractor shall communicate with the program staff to gather information, review findings, and assure accuracy prior to development of the final program review summary. The Division will retain overall responsibility for the final review summary of programs.~~

~~(7) Unsatisfactory ratings. If the division determines that a state-operated prevention, intervention, and treatment program is not meeting or making adequate progress toward meeting the outcomes specified for the program, or is otherwise failing to comply with statutory or regulatory requirements, the Division shall notify the program of its findings in writing. Within 30 days of notification, the program will submit to the Division an improvement plan to correct deficiencies. At 90-day intervals from the time the plan is filed, the program will submit progress reports to the division on the manner in which they are implementing the improvement plan. If, after six months, the program is not making satisfactory progress in addressing program deficiencies, the division shall recommend to the Governor or to the general assembly, whichever is appropriate, that the prevention, intervention, and treatment program cease receiving state or federal funding.~~

~~If the Division determines that a community-based prevention, intervention and treatment program is not meeting or making adequate progress toward meeting the outcomes specified for the program, or is otherwise failing to comply with statutory or regulatory requirements, the Division, shall revoke the grant issued to the program, if it was issued by the Division, or recommend revocation to the state agency that issued the grant.~~

~~A community-based prevention, intervention and treatment program for which the grant is revoked may appeal as provided in the "State Administrative Procedure Act", Article 4 of Title 24, C.R.S.~~

~~(8) Contract for review. The Division may contract with one or more public or private entities to conduct the reviews of prevention and intervention programs and assist in preparing the annual executive report as required in this section.~~

~~(9) Report dissemination. The Division shall annually prepare or oversee the preparation of an executive summary of the prevention, intervention, and treatment program reviews conducted during the preceding year, and submit such summary to the Governor, to the General Assembly, to each state department that operates a prevention, intervention, and treatment program, and upon request, to each entity that receive state or federal funds for operation of a prevention, intervention, and treatment program during the fiscal year for which the summary is prepared. In addition, the Division shall provide copies of the executive summary to any person upon request.~~

6.3 Cost allocation formula.

The Division shall receive a percentage, as determined by rule, of the operating cost of each state prevention, intervention, and treatment program reviewed to offset the costs incurred by the Division in performing such reviews 25-20.5-108 (4), except as set forth in section 6.3(1)(a)(b)(c).

(1) Program review options. Because of the different funding mechanisms across state agencies, the varying level of work required to complete a program review, the need for flexibility, and the desire to make the best use of existing resources, the Division may offer options to programs to offset the cost of review, including:

(a) The program may demonstrate, using procedures and format determined by the Division, that it has completed a review which is similar in nature to the one required by 25-20.5-108 C.R.S. and, will supply documentation of the results of that review to the Division, in a format to be determined by the Division;

(b) The program may assign staff with expertise in program evaluation/review to prepare the necessary documentation, using procedures and format determined by the Division, to assess the extent to which the program meets the uniform, minimum standards and demonstrates progress in meeting its intended goals and outcomes, thereby substantially reducing outside costs;

(c) The program may directly contract with an evaluator, approved by the Division, who will complete the review, using criteria, procedures and format outlined by the Division; or

(d) The program may forward an amount to the Division, based on hourly rate and the total amount of time required to conduct the review as calculated by the Division.

(2) Cost allocation. The plan for review of the program will include an assessment of the cost, if any, to the Division of conducting the review and the manner by which those costs will be covered by the Division and/or by the program being reviewed. If state general fund or other funding is not available to the Division to carry out or contract for the program review, all costs associated with the review will be allocated to programs reviewed based on the amount of Division staff and/or contractor time required to complete the review.

History

COLORADO

Board of Health

Department of Public Health & Environment

Notice of Public Rule-Making Hearing October 21, 2021

NOTICE is hereby given pursuant to the provisions of Section 24-4-103, C.R.S., that the Colorado Board of Health will conduct a public rule-making hearing on October 21, 2021 at 12 p.m. either in person in the Sabin-Cleere Conference Room of the Colorado Department of Public Health and Environment, Bldg. A, First Floor, 4300 Cherry Creek Drive, South, Denver, CO 80246, remotely via [Zoom](#), or via both mediums,, to consider the repeal of 6 CCR 1016-2, Prevention, Intervention, and Treatment Programs for Children and Youth. The repeal is proposed by the Prevention Services Division of the Colorado Department of Public Health and Environment pursuant to House Bill 20-1038.

The agenda for the meeting and the proposed repeal will also be available on the Board's website, <https://cdphe.colorado.gov/board-of-health> at least seven (7) days prior to the meeting. The proposed rule, together with the proposed statement of basis and purpose, specific statutory authority and regulatory analysis will be available for inspection at the Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South EDO-A5, Denver, Colorado 80246-1530 at least five working days prior to the hearing. Copies of the proposed rules may be obtained by contacting the Colorado Department of Public Health and Environment, Prevention Services Division, 4300 Cherry Creek Drive S., Denver, CO 80246, 303-692-2039.

The Board encourages all interested persons to participate in the hearing by providing written data, views, or comments. Written testimony is encouraged; oral testimony will be received only to the extent the Board finds it necessary. For those that are permitted to provide oral testimony, the time may be limited to 3 minutes or less. Testimony is limited to the scope of the rulemaking hearing. Pursuant to 6 CCR 1014-8, §3.02.1, written testimony must be submitted no later than five (5) calendar days prior to the rulemaking hearing. Written testimony must be received by 5:00 p.m., Friday, October 15, 2021. Persons wishing to submit written comments should submit them to: Colorado Board of Health, ATTN: Board of Health Program Assistant, Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South EDO-A5, Denver, Colorado 80246-1530 or by e-mail at: cdphe.bohrequests@state.co.us

Dated this 23th day of August, 2021.

Mobile Home Park Act Dispute Resolution & Enforcement Program

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

AUTHORITY

Pursuant to section 38-12-1104(2)(j), C.R.S.

SCOPE AND PURPOSE

To implement and clarify the Mobile Home Park Act, Title 38, Article 12, Part 2 of the Colorado Revised Statutes (C.R.S.), and the Mobile Home Park Act Dispute Resolution And Enforcement Program, Title 38, Article 12, Part 11, C.R.S., pursuant to statutory authority and changes made through House Bill 19-1309 Creating the Mobile Home Park Act Dispute Resolution and Enforcement Program (effective May 23, 2019), HB20-1196 Mobile Home Park Act Updates (effective June 30, 2020), ~~and~~ HB20-1201 Mobile Home Park Residents Opportunity to Purchase (effective June 30, 2020), and HB21-1121 Residential Tenancy Procedures (effective June 25, 2021).

RULE 1. DEFINITIONS

In addition to the definitions provided in sections 38-12-201.5 and 38-12-1103, C.R.S., the following definitions apply to enforcement of the Act (Part 2 of Article 12 of Title 38) and the Program (Part 11 of Article 12 of Title 38):

- 1.1 "Consecutive occupancy" as used in section 38-12-204(3), C.R.S., means the consecutive period of time that:
 - A. The tenant(s) have a rental agreement with the management or landlord for occupancy of the mobile home space;
 - B. The management or landlord is receiving rent payments for the mobile home space from the tenant(s) or a third party; or
 - C. The tenant(s) is residing in the mobile home or mobile home space after establishing lawful tenancy by signing a rental agreement pursuant or paying rent pursuant to Rule 1.1(A) or (B) of these rules.
- 1.2 "Mobile home" as defined in section 38-12-201.5(5), C.R.S., includes a factory-built residential structure (modular home) if it is situated in a mobile home park and has all of the characteristics of a "mobile home" described in section 38-12-201.5(5)(a), C.R.S. (including being built on a permanent chassis); any pre-1976 mobile home; and any manufactured home constructed to the federal standards on or after June 15, 1976.
- 1.23 "Mobile home park" as defined in section 38-12-201.5(6), C.R.S. –

- A. Includes a park that is owned by a government entity, federally recognized tax-exempt charitable organization registered with the Colorado Secretary of State, or a Community Land Trust, if it has all of the characteristics of a “mobile home park” described in section 38-12-201.5(6), C.R.S. (including being operated for the pecuniary benefit of the owner of the parcel of land or the owner’s agents, lessees, or assignees).
- B. Does not include a park that rents lots to camper coaches, camper trailers, fifth wheel trailers, motor homes, recreational park trailers, recreational vehicles, travel trailers, or truck campers, unless it also rents space to five (5) or more occupied “mobile homes” as defined in section 38-12-201.5(5), C.R.S., and Rule 1.1 of these rules.

1.34 “Mobile home subdivision” or “manufactured home subdivision” as used in section 38-12-201.5(6), C.R.S., means any parcel of land that is divided into two or more parcels, separate interests, or interests in common, where each parcel or interest is owned by separate owners who own both the mobile home and the land underneath the mobile home, except when the same owner owns two or more subdivided parcels or interests that are collectively used for the continuous accommodation of five (5) or more occupied mobile homes and operated for the pecuniary benefit of the owner of the parcel of land, their agents, lessees, or assignees.

1.34.1 Pursuant to section 38-12-201.5(6), C.R.S., “mobile home park” does not include property zoned by a local government for manufactured home subdivisions or mobile home subdivisions.

1.45 “New mobile home park or manufactured housing community development” as used in section 38-12-215(1)-(2), C.R.S., and “new park” as used in section 38-12-1106(9), C.R.S., do not include:

- A. The addition of a “mobile home space(s),” as defined in section 38-12-201.5(7), C.R.S., to an existing mobile home park, as defined in section 38-12-201.5(6), C.R.S., and Rule 1.2 of these rules;
- B. The sale, transfer, or conveyance of an existing mobile home park to a new owner(s); nor
- C. The merger of two or more existing mobile home parks.

1.56 “Occupied mobile homes” as used in sections 38-12-201.5(6) and 38-12-217(4)(c), C.R.S., and Rules 1.2(B), 1.3, and 2.2(G) of these rules means mobile homes for which the management or landlord:

- A. Has a rental agreement with a tenant for the home or lot; or
- B. Is receiving rent payments for the home or lot from a tenant or a third party.

1.67 “Rent” as defined in section 38-12-201.5(9), C.R.S., does not include attorney fees.

1.78 “Vacant mobile homes” as used in Rule 2.2(H) of these rules means mobile homes for which the management or landlord:

- A. Does not have a rental agreement with a tenant for the home or lot; and
- B. Is not receiving rent payments for the home or lot from a tenant or a third party.

RULE 2. REGISTRATION REQUIREMENTS

- 2.1 Initial Registration – for new mobile home parks must occur within three (3) months of the availability of five (5) or more mobile home lots for rent within a new park.
- 2.1.1 The “management” or “landlord,” as defined in section 38-12-201.5(3), C.R.S., who is designated as the primary contact for the mobile home park must file a registration form including full payment on behalf of the park with the Division.
- 2.2 Required Information – as part of the registration process, a mobile home park must provide the following information in addition to the information required under section 38-12-1106(7), C.R.S.:
- A. The physical address, phone number, and website address (if any) of the mobile home park;
 - B. The business name (if any), business contact name or owner name, mailing address, phone number, and email address (if any) of the owner of the mobile home park;
 - C. The business name (if any), business contact name or manager name, mailing address, phone number, and email address (if any) of the management of the mobile home park, if different from the owner of the mobile home park;
 - D. Identify which individual or business – the park owner or management – is designated as the primary contact for the mobile home park;
 - E. The physical address of each mobile home;
 - F. Identify which homes a tenant home owner independently owns, and which homes the mobile home park landlord owns;
 - G. The total number of occupied mobile homes;
 - H. The total number of vacant mobile homes;
 - I. If the park is owned by a business entity, whether that business is owned by another business entity (i.e. a parent company);
 - J. If the park is managed by a business entity, whether that business is owned by another business entity (i.e. a parent company);
 - K. If the business entity that owns the park is owned by another business entity (i.e. a parent company), the business name, first and last name of a contact person, mailing address, phone number, and email address (if any) for the parent company;
 - L. If the business entity that manages the park is owned by another business entity (i.e. a parent company), the business name, first and last name of a contact person, mailing address, phone number, and email address (if any) for the parent company;
 - M. If the park does business under any other name(s), the “Doing Business As (DBA)” name(s) and the Secretary of State Identification Number(s) for that DBA(s) (if any); and
 - N. The signature of a landlord, as defined in section 38-12-201.5(3), C.R.S., filing for registration or registration renewal for the mobile home park pursuant to section 38-12-1106(4), C.R.S.

- 2.3 Complete, Accurate, and Truthful Information Required – initial registration and registration renewal forms filed pursuant to section 38-12-1106(4), C.R.S., and Rules 2.1, 2.2, and 2.5 of these rules must be complete, accurate, and truthful and include all attachments and supplementation information. The Division may not accept incomplete forms.
- 2.4 Registration Delinquency Fee – landlords who do not submit complete, accurate, and truthful information on their initial registration or registration renewal forms may be subject to a registration delinquency fee pursuant to section 38-12-1106(9), C.R.S., and Rule 4.2 of these rules.
- 2.5 Expiration Date – will be one year from the first day of the following month after registration approval by Division staff, i.e. February 1, 2021 if approved in January of 2020, and must be renewed by that date if still operating as a mobile home park.
- 2.6 If any of the provided information required in Rules 2.2(A)-(D) of these rules changes between the time of initial registration and renewal, or between registration renewals, the management or landlord is required to notify the Division within thirty (30) calendar days of the change to ensure timely delivery of Program communications.
- 2.7 Fee - Pursuant to section 38-12-1106(8), C.R.S., for the 2021 and 2022 calendar years, an annual registration fee of \$24.00 must be paid by the mobile home park for each mobile home independently owned by a tenant home owner on rented land within the park.
- 2.7.1 Pursuant to section 38-12-1106(8), C.R.S., the management or landlord may charge a home owner not more than half of the registration fee annually. If the management or landlord attempts to recoup up to 50 percent of this fee from the home owner, the management or landlord must:
- A. Notify the home owner in writing at least 60 calendar days before the management or landlord expects the home owner to pay the additional fee, or a longer time period if required by the home owner's lease; and
 - B. Do so in a clear and consistent manner within one (1) year of paying the registration fee to the Division.

RULE 3. DISPUTE RESOLUTION AND ENFORCEMENT

- 3.1 Complaints filed with the Division pursuant to section 38-12-1105(1), C.R.S., must be made in writing on a Division-approved form.
- 3.1.1 The Division will make reasonable accommodations to Rule 3.1 of these rules when such accommodations may be necessary to afford a person with a disability an equal opportunity to file a complaint with the Division.
- 3.2 A home owner acting in the capacity of a "complainant" as defined in section 38-12-1103(2), C.R.S., may file a complaint:
- A. On behalf of their tenant, if they are leasing their mobile home and the renter has experienced and communicated an alleged violation of the Act or Program to the home owner, provided that the home owner has made it clear in the complaint that it is being filed in a representative capacity; or
 - B. Alleging a violation(s) of section 38-12-217, C.R.S., by the previous owner of the mobile home park.

- 3.3 Before imposing a penalty under section 38-12-1105(13), C.R.S., and Rule 4.4 of these rules, the Division will give the management or landlord an opportunity to rebut a presumption of retaliation with sufficient evidence of a nonretaliatory purpose pursuant to section 38-12-212.5(4), C.R.S.
- 3.3.1 As used in section 38-12-212.5(4), C.R.S. and Rule 3.3 of these rules, “sufficient evidence” means a preponderance of the evidence.
- 3.3.2 The Division will consider as sufficient evidence of a nonretaliatory purpose, when provided by the management or landlord in response to a retaliation complaint, evidence including, but not limited to:
- A. In response to an allegation of retaliatory action pursuant to section 38-12-201.5(12)(i), C.R.S., evidence that the management is asking all tenants on a particular rental agreement to update a specific section(s) of their existing rental agreement, to bring that section(s) of the rental agreement into compliance with federal, state, or local law.
 - B. In response to an allegation of retaliatory action pursuant to section 38-12-201.5(12)(k), C.R.S., evidence that:
 - i. The management or landlord reported, to an appropriate government agency, home owner conduct on park premises that materially harmed or threatened real or personal property or the health, safety, or welfare of one or more individuals or animals, including pet animals; or
 - ii. The information reported to a government agency was, to the management or landlord’s knowledge, truthful and relevant to an ongoing investigation by that federal, state, or local government agency.
- 3.4 A landlord found to be in violation of the Act or Program cannot pass on the costs of any remedial action(s), including penalties, fines, or fees, required by the Division or an Administrative Law Judge in a Final Agency Order to any home owner.
- 3.5 A landlord shall not pass on the costs of any attorney fees, witness fees, or other legal fees incurred by a landlord in responding to a complaint filed pursuant to section 38-12-1105(1), C.R.S., or an investigation by the Division of an alleged violation of the Program (Title 38, Article 12, Part 11, C.R.S.) to any home owner, notwithstanding any language to the contrary in a rental agreement.
- 3.6 The following deadlines are in calendar days:
- A. Respond to a subpoena within fourteen (14) days pursuant to section 38-12-1105(3)(a), C.R.S.
 - B. Comply with the requirements of a Notice of Violation within seven (7) days of it becoming a Final Agency Order pursuant to section 38-12-1105(5), C.R.S.
 - C. A landlord must notify the Division within thirty (30) days of a change in the ownership of the mobile home park pursuant to section 38-12-1106(5), C.R.S.
- 3.7 Pursuant to section 24-72-204(2)(a)(IX), C.R.S., any records of ongoing administrative investigations conducted by the Division of Housing in furtherance of its statutory authority to protect the public health, welfare, or safety are not subject to a request filed under the Colorado Open Records Act (CORA) during the pendency of the investigation and dispute resolution process.

- 3.8 Pursuant to section 38-12-1105(1), C.R.S., two or more home owners may file a complaint against the management or landlord of their mobile home park with the Division alleging similar or related violations of the Act or Program. The management or landlord of a mobile home park may also file a complaint against two or more home owners in the same park with the Division alleging similar or related violations of the Act or Program.
- 3.9 When filing a complaint with the Division under section 38-12-1105(1), C.R.S., aggrieved parties are not required to allege what specific statutory section(s) of the Act or Program have been violated. The Division will apply the appropriate reference(s) to statute or rule upon review of the information provided in the complaint form and any additional information provided to the Division in connection with the complaint.
- 3.10 Pursuant to section 38-12-214(3)(a), C.R.S., when a home owner files a complaint with the Division within sixty (60) days after receiving a written notice of the management's intent to add or amend any written rule or regulation, alleging that a new or amended park rule or regulation will increase a cost to the home owner in an amount that equals or exceeds ten percent of the home owner's monthly rent obligation:
- 3.10.1 The Division will notify the management of the complaint and the specific rule(s), regulation(s), or amendment(s) being challenged in the complaint.
- 3.10.2 The management shall not engage in any action to enforce the challenged rule(s), regulation(s), or amendment(s) against any resident in the park that is the subject of the complaint, unless and until the parties to the complaint reach an agreement or the dispute resolution process concludes as described in section 38-12-214(3)(a), C.R.S.
- 3.10.3 Once the management receives notice from the Division of a complaint described in Rule 3.10 of these rules, the management shall notify all residents in the park that is the subject of the complaint in writing within fourteen (14) calendar days that the management will not enforce the challenged rule(s), regulation(s), or amendment(s) until further notice.
- 3.10.4 Unless otherwise prohibited by law, the management may enforce the other new or amended rules or regulations against residents that are not the subject of any complaint(s) described in Rule 3.10 of these rules, after the sixty (60) day written notice period expires.

3.11 A landlord acting in the capacity of a "complainant," as defined in section 38-12-1103(2), C.R.S., may file a complaint with the Division alleging that a home owner does not have and will not sign a written rental agreement in violation of section 38-12-213(2), C.R.S.

3.11.1 When investigating a complaint alleging that a home owner has not signed a written rental agreement in violation of section 38-12-213(2), C.R.S., the Division will consider:

A. Whether the current or previous management provided a written rental agreement to the home owner prior to the rental or occupancy of a mobile home space or lot pursuant to section 38-12-213(1), C.R.S. (effective July 1, 1981); and

B. Whether the written rental agreement the current management provided the home owner would make significant changes to the terms and conditions of the home owner's existing tenancy as described in subsections 38-12-213(1)(a)-(f), C.R.S. In evaluating what the terms and conditions of an existing tenancy are, the Division may consider the following including, but not limited to:

i. Other written agreements between the management and the home owner;

ii. Verbal agreements between the management and the home owner; and

iii. Past charges to and payments made by the home owner as described in subsections 38-12-213(1)(a) and (f), C.R.S.

3.12 Pursuant to 38-12-204(3), C.R.S., effective June 25, 2021, when investigating a complaint alleging that a landlord has increased rent more than one time in any twelve-month period of consecutive occupancy by a tenant, the Division will compare the proposed or effective date of the current rent increase to the effective date of the tenant's last rent increase, even if the effective date of the tenant's last rent increase was before June 25, 2021.

RULE 4. PENALTIES

4.1 The Division will apply the following criteria when assessing a registration delinquency fee pursuant to section 38-12-1106(9), C.R.S., and Rule 4.2 of these rules, a penalty for failure to appropriately post, maintain, or provide copies of the required Home Owner Notice pursuant to section 38-12-1104(2)(d), C.R.S., and Rule 4.3 of these rules, or a penalty for taking any "retaliatory action(s)" against a home owner pursuant to section 38-12-1105(13), C.R.S., and Rule 4.4 of these rules:

- A. The severity of the violation;
- B. The type of violation;
- C. The duration of the violation;
- D. Whether the person or entity committed repeated violations;
- E. Whether the person or entity submitted complete, accurate, and truthful information to the Division; and
- F. Any other mitigating or aggravating circumstances, including the impact on others, cooperation with the investigation process, and the sufficiency of the penalty to deter future violations.

4.2 The Division will scale any registration delinquency fees assessed under section 38-12-1106(9), C.R.S., as follows:

- A. First offense, may be fined up to \$3,000.
- B. Second offense, may be fined up to \$4,000.
- C. Third or subsequent offense, may be fined up to \$5,000.

4.3 The Division will scale any penalties assessed under section 38-12-1104(2)(d), C.R.S., for failing to appropriately post, maintain, or provide copies of the required Home Owner Notice described in section 38-12-1104(2)(a), C.R.S., in the time frame, manner, and locations provided in section 38-12-1104(2)(c), C.R.S., and Rule 5 of these rules, as follows:

- A. First offense, may be fined up to \$3,000.
- B. Second offense, may be fined up to \$4,000.

- C. Third or subsequent offense, may be fined up to \$5,000.
- 4.4 The Division will scale any penalties assessed under section 38-12-1105(13), C.R.S., for taking any “retaliatory action(s)” against a home owner, as defined in section 38-12-201.5(12), C.R.S., and further clarified in section 38-12-212.5, C.R.S., and Rule 3.3 of these rules, as follows:
 - A. First offense, may be fined up to \$5,000.
 - B. Second offense, may be fined up to \$7,500.
 - C. Third or subsequent offense, may be fined up to \$10,000.
- 4.5 The Division will scale any penalties assessed under section 38-12-1105(5), C.R.S., for failing to comply with the requirements of a Notice of Violation as follows:
 - A. First offense, may be fined up to \$3,000, per violation per day.
 - B. Second offense, may be fined up to \$4,000, per violation per day.
 - C. Third or subsequent offense, may be fined up to \$5,000, per violation per day.

RULE 5. HOME OWNER NOTICE REQUIREMENTS

- 5.1 Pursuant to section 38-12-1104(2)(c), C.R.S., the management or landlord must post and maintain the Home Owner Notice described in section 38-12-1104(2)(a), C.R.S., in a clearly visible and accessible location in every common area of the mobile home park, including every common resident mailbox location; every rent payment dropbox or other rent payment location; and every community hall, recreation hall, and clubhouse. The management or landlord must post this Home Owner Notice in a form authorized by the Division within seven (7) calendar days of receiving the Home Owner Notice from the Division.
 - 5.1.1 If there is no common resident mailbox location, rent payment location, community hall, recreation hall, or clubhouse in the mobile home park, the management or landlord must post and maintain the Home Owner Notice, in a clearly visible and accessible location, at every location of another type of physical common area in the park. The types of common areas where the management or landlord may post and maintain the Home Owner Notice include, but are not limited to:
 - A. Outside every management office;
 - B. At every park entrance; or
 - C. On the front of every dumpster provided for use by residents.
 - 5.1.2 If there are no physical common areas in the park the same as or similar to those described in Rule 5.1 and 5.1.1 of these rules, the management or landlord may post and maintain the Home Owner Notice in a clearly visible and accessible location on the mobile home park’s online rent payment portal or other website intended for use by residents.
 - 5.1.3 In addition to complying with Rules 5.1, 5.1.1, and 5.1.2 of these rules, the management or landlord must provide the Home Owner Notice in an accessible format for any home owner with disabilities (e.g. Braille or audio recording) upon request. These formats are available to the management or landlord from the Division by request.

- 5.2 In addition to complying with Rules 5.1 and 5.3 of these rules, the management or landlord must provide a copy of the required Home Owner Notice to each individual home owner within seven (7) calendar days of receiving the Home Owner Notice from the Division and on an annual basis, by posting it on the door of every home owner's mobile home or mailing it to each home owner at either the address provided in the rental agreement or the most recent mailing address of the home owner on file with the management or landlord.
- 5.2.1 As an alternative to Rule 5.2, the management or landlord may email a copy of the Home Owner Notice to a home owner(s) only if the home owner has an email address on file with the management or landlord, and the management or landlord regularly uses that email address for other communications with the home owner, like rent payment or maintenance notices.
- 5.3 In addition to complying with Rules 5.1 and 5.2 of these rules, the management or landlord must also provide a copy of the required Home Owner Notice with each new lease executed with a home owner, and to each home owner after a change in park ownership.
- 5.4 In mobile home parks where the landlord owns all of the mobile homes and there are no independent mobile home owners with rights and responsibilities under the Act (Part 2 of Article 12 of Title 38) or Program (Part 11 of Article 12 of Title 38), the management or landlord is not required to post, maintain, or provide a copy of the Home Owner Notice pursuant to section 38-12-1104(2)(a), C.R.S., and Rules 5.1 to 5.3 of these rules.
- 5.4.1 However, once a mobile home park has one or more independently-owned mobile homes, the management or landlord is no longer exempt from the Home Owner Notice requirements under section 38-12-1104(2)(a), C.R.S., and Rules 5.1 to 5.3 of these rules, and must post and provide a copy of the required Home Owner Notice to each individual home owner within seven (7) calendar days of the change in ownership of the mobile home(s) in compliance with Rules 5.1 to 5.3 of these rules.

RULE 6. MANAGEMENT, LANDLORD, AND HOME OWNER RESPONSIBILITIES

- 6.1 **Trees** – Notwithstanding the landlord's responsibility to maintain trees on the premises under section 38-12-212.3(2)(b)(IV), C.R.S., a home owner may enter a voluntary, written agreement with their landlord to take on the responsibility for simple trimming that does not affect the safety of park residents or their property of trees located on the lot they are renting from the park, so long as the home owner was not required to assume this responsibility as a condition of tenancy in the mobile home park in violation of section 38-12-212.3(3), C.R.S.
- 6.2 **Fences** – Fences located on the "premises" as defined in section 38-12-201.5(8), C.R.S., are presumed to be the responsibility of the landlord pursuant to section 38-12-212.3(2)(b), C.R.S., unless:
- A. The home owner built the fence;
 - B. The current home owner bought the fence from the previous home owner; or
 - C. The home owner agreed in their rental agreement to take on the responsibility for maintaining and repairing the fence and paying the cost thereof in their rental agreement, so long as the home owner was not required to assume this responsibility as a condition of tenancy in the mobile home park in violation of section 38-12-212.3(3), C.R.S.
- 6.3 **Mobile Home Sales and Transfers** – When the owner of a mobile home located in a mobile home park notifies the management or landlord of the park (whether as required by management or as a courtesy) that the owner intends to sell or transfer their mobile home in place, and the

management or landlord seeks to require compliance with park rules and regulations at the time of sale or transfer of the mobile home to a new owner pursuant to section 38-12-214(2), C.R.S., the management shall promptly provide the seller and any prospective buyer(s) of the mobile home a written list of the item(s) for which the management is requiring corrections at the time of sale or transfer. The written list shall include:

- A. Any and all items the management knows, or reasonably should have known, would require correction at the time of sale or transfer of the mobile home;
- B. A detailed description of each item; and
- C. A citation to the specific park rule or regulation that applies to each item on the list. Any park rule or regulation cited must be reasonable and enforceable under section 38-12-214(1)-(4), C.R.S.

6.4 Limitations on Charges for Noncompliance – The following rules apply when the management intends to enter a mobile home space to ensure compliance with applicable codes, statutes, ordinances, and administrative rules; the rental agreement; or the rules and regulations of the park pursuant to section 38-12-222(2), C.R.S.

6.4.1 Before entering the mobile home space, the management shall first provide the home owner with a reasonable time to cure the alleged noncompliance and an estimate of the cost if the landlord cures the noncompliance instead (when an estimate is reasonably available and a charge would be permitted by the rental agreement).

6.4.2 If the home owner fails to cure or contest the noncompliance (ex. by communicating with the management or filing a complaint with the Program) within a reasonable amount of time, the management shall make a reasonable effort to notify the home owner of the management's intention to enter the mobile home space and cure the noncompliance at least forty-eight (48) hours before entry.

6.4.3 All of the following conditions must be met for the management to charge a home owner for the cost of ensuring compliance with applicable codes, statutes, ordinances, and administrative rules; the rental agreement; or the rules and regulations of the park:

- A. The potential for a charge must be adequately disclosed in writing in the rental agreement pursuant to section 38-12-213(1)(f), C.R.S.;
- B. The amount of the charge or the charge itself cannot be a prohibited "entry fee," as defined in section 38-12-201.5(1), C.R.S., and prohibited by section 38-12-209(1), C.R.S.; and
- C. If the charge is for the cost of ensuring compliance with a rule or regulation of the park, the rule or regulation must be reasonable and enforceable under section 38-12-214(1)-(4), C.R.S.

6.5 Limitations on Pet Deposits – Pursuant to sections 38-12-201.5(1), 38-12-209(1), 38-12-207(1) and -207(3), 38-12-102(2) (effective until October 1, 2021), 38-12-102(6) (effective October 1, 2021), and 38-12-103(1), C.R.S.:

6.5.1 The management or landlord cannot charge or collect a nonrefundable pet deposit from a home owner or prospective home owner.

- 6.5.2 The management or landlord may only charge or collect a refundable pet deposit from a home owner or prospective home owner, if the total combined amount of the security deposit and refundable pet deposit is no greater than one month's rent.
- 6.6 Pet Rent Definition – Pursuant to sections 38-12-201.5(1) and 38-12-209(1), C.R.S., any recurring charges to home owners with pets must either be part of the “rent,” as defined in section 38-12-201.5(9), C.R.S., or fall under an exception to the prohibition on “entry fee[s]” under section 38-12-201.5(1)(c) or (e), C.R.S.
- 6.6.1 If the management or landlord charges or collects pet rent as part of a home owner's rent, instead of as an exception to the prohibition on entry fees:
- A. The amount or application of pet rent shall not be discriminatory nor retaliatory in nature; and
- B. All statutes and rules applicable to rent, including, but not limited to sections 38-12-213(1)(a), 38-12-204(2), and 38-12-204(3), C.R.S., apply to pet rent as part of the home owner's rent.

RULE 7. WATER USAGE, BILLING, AND LEAKS

- 7.1 The requirements in section 38-12-212.4(1), C.R.S., apply to all types of water usage, including sewer and storm water usage.
- 7.2 The management or landlord may change the method of utility billing by providing sixty (60) calendar days written notice to the home owners, provided that the new method of billing is reasonable, equitable, and consistent; does not violate any of the provisions in section 38-12-212.4, C.R.S.; and is not in violation of the home owner's rental agreement established pursuant to section 38-12-213, C.R.S.
- 7.3 Only in cases where the management purchases water from a provider and charges home owners for water usage in the park, but the management does not get the master meter charge(s) from the provider until after the management calculates each home owner's monthly water bill, the management may provide the following information to each home owner to meet the billing disclosure requirements under section 38-12-212.4(2), C.R.S.:
- A. The amount owed by the home owner for the current month;
- B. The total amount owed by all the residents in the mobile home park for the current month; and
- C. The total amount paid by the management to the provider for the previous month.
- 7.4 In the event that any water usage, billing, or payment information required under section 38-12-212.4(2), C.R.S., and Rule 7.3 of these rules is not available to the management due solely to circumstances beyond the management's control, the management shall take reasonable steps to comply with section 38-12-212.4(2), C.R.S., and Rule 7.3 of these rules, and to provide accurate disclosures to home owner as soon as reasonably possible and in a manner that meets the intent of section 38-12-212.4, C.R.S.

RULE 8. PARK CHANGE OF USE, SALES, OR CLOSURES AND HOME OWNER OPPORTUNITY TO PURCHASE

- 8.1 Notice of Intent to Sell – For purposes of giving notice pursuant to section 38-12-217(1)(a), C.R.S., a mobile home park owner demonstrates intent to sell the park when the park owner takes actions including, but not limited to:
- A. Signing a contract with a real estate broker or brokerage firm to list the park for sale, sell, or transfer the park;
 - B. Signing a letter of intent or other conditional written agreement with a potential buyer for the sale or transfer of the park, which includes the estimated price, terms, and conditions of the proposed sale or transfer, even if such price, terms, or conditions are subject to change;
 - C. Signing a contract with a potential buyer's real estate broker or brokerage firm related to the potential in the sale or transfer of the park;
 - D. Accepting an earnest money promissory note or deposit from a potential buyer;
 - E. Responding to a potential buyer's due diligence request list; or
 - F. Providing a signed property disclosure form to a potential buyer.
- 8.2 Listing – For purposes of section 38-12-217(2)(a)(I), C.R.S., the landlord lists the park for sale when the owner of the mobile home park or their agent, employee, broker, or representative authorized to act on the owner's behalf offers the property for sale.
- 8.3 Contents of Park Sale Notice – Pursuant to section 38-12-217(3), C.R.S., the "price, terms, and conditions" to sell the park include, but are not limited to:
- A. Any money or compensation the seller or seller's agent has paid or intends to pay to the potential buyer or buyer's agent, including due diligence costs or brokerage fees;
 - B. Whether or not the seller has signed a conditional contract for the sale of the park with a potential buyer, or intends to do so within the next ninety (90) calendar days;
 - C. Any other terms or conditions which, if not met, would be sufficient grounds, in the seller's discretion, for rejecting an offer from residents, their agents, or their assignees; and
 - D. For sales that include more than one mobile home park or piece of real estate, like portfolio or bundled sales:
 - i. The name and property description of any and all other mobile home parks or real estate included in the proposed sale;
 - ii. The total price, terms, and conditions of an acceptable offer to sell all of the properties; and
 - iii. The price, terms, and conditions of an acceptable offer to sell each of the mobile home parks located in the State of Colorado that are included in the proposed sale.
- 8.4 Landlord's Duty to Consider Offer – Pursuant to section 38-217(5)(b), C.R.S., a landlord that receives an offer(s) to purchase a mobile home park from a group or association of home owners

or their assignees must provide a written response to each offer within ten (10) calendar days. The landlord's response to the group or association of home owners or their assignees shall include:

- A. Whether the landlord will accept, will consider, or will not accept the most recent offer submitted by the group or association of home owners or their assignees;
- B. The current price, terms, or conditions of an acceptable offer the landlord has received to sell the mobile home park, or for which the landlord intends to sell the park, if such price, terms, or conditions have changed since the landlord gave notice to the home owners pursuant to sections 38-12-217(1) or (2), C.R.S.; and
- C. If the landlord finds the most recent offer submitted by the group or association of home owners or their assignees unacceptable, an explanation of why the landlord finds the offer unacceptable.

8.5 Affidavit of Compliance – Pursuant to section 38-12-217(11), C.R.S., the landlord:

- A. Shall not file the affidavit of compliance before the home owners' opportunity to purchase terminates or expires pursuant to sections 38-12-217(1)(c) or (6)(a), C.R.S.; and
- B. Shall file the affidavit of compliance on a Division-approved form within thirty (30) calendar days after the sale or transfer of the park is final.

8.6 Exemption Form – If a park sale or transfer qualifies for an exemption from the notice and opportunity to purchase requirements pursuant to sections 38-12-217(12) and (13), C.R.S., the landlord shall provide evidence of compliance by filing a Division-approved exemption form within thirty (30) calendar days after the closing date of the exempt sale or transfer with:

- A. The municipality or, if the park is in an unincorporated area, the county, within which the park is located; and
- B. The Division of Housing in the Department of Local Affairs.

8.7 Sale and Transfer Records – Pursuant to sections 38-12-1105(1) and (3), C.R.S., the seller or transferor of a mobile home park that is located in Colorado shall maintain any and all records related to compliance with section 38-12-217, C.R.S., for a minimum of thirty-six (36) months after any sale or transfer of a mobile home park is complete, including but not limited to:

- A. Records related to Rule 8.1(A)-(B) of these rules;
- B. Notices mailed or given to home owners pursuant to sections 38-12-217(1) and (2), C.R.S.;
- C. Postings pursuant to section 38-12-217(1)(c), C.R.S., including any forms for home owners to provide notice that they do not wish to participate in efforts to purchase the community;
- D. Signed writings provided by home owners to the park owner expressing no interest in purchasing the park pursuant to section 38-12-217(1)(c), C.R.S.;
- E. Offers to purchase and proposed purchase and sale agreements submitted to the landlord by a group or association of home owners or their assignees pursuant to section 38-12-217(4), C.R.S.;

F. Requests for information from a group or association of home owners or their assignees participating in the opportunity to purchase and the landlord's response(s) to these requests for information pursuant to section 38-12-217(5)(a), C.R.S.; and

G. Offers to purchase and any conditional and unconditional purchase and sale agreements submitted by the successful purchaser of the mobile home park.

Adopted on November 8, 2019, to implement House Bill 19-1309 effective December 30, 2019.

The following changes were adopted on March 11, 2020 and are effective April 30, 2020:

- Created: Rules 1.3, 2.5.1(A)-(B), 3.3.2, 3.7, 3.8, 5.1.1- 5.1.2, 5.2.1, 5.4, 6.2
- Amended: Rules 1.4(I)-(J), 2.1, 2.2, 2.5.1, 3.2, 3.3, 3.3.1, 3.3.3, 4, 4.1-4.4 (restated statute), 5.1, 5.2, 5.3, 6.1
- Renumbered: Rules 1.4, 2.1- 2.5, 3.6, 5.1.3, 6.1
- Deleted: Rules 2.1 (restated statute)

The following changes were adopted on October 11, 2020 and are effective November 30, 2020:

- Created: Rules 1.2(A); 1.4; 1.5; 1.6; 1.7; 2.2(B)-(D) and (I)-(N); 2.3; 2.4; 3.1.1; 3.3.2(A)-(B); 3.5; 3.10-3.10.4; 4.1(E); 6.3; 6.4; 7.1; 7.2; 7.3; 7.4; 8.1
- Amended: Rules 1.1; 1.2 and 1.2(B) (updated statutory cite); 1.3 and 1.3.1 (updated statutory cite); 2.1.1; 2.2(A) and (F); 2.6; 2.7-2.7.1(A); 3.1; 3.8; 4.1; 4.1(A)-(D) and (F); 4.3; 4.4 (updated statutory cite); 5.1-5.1.3; 5.2-5.2.1; 5.3; 5.4-5.4.1; 6.1; 6.2 and 6.2(C) (updated statutory cite)
- Renumbered: Rules 2.2(A), (E) and (G)-(H); 2.5; 3.3-3.3.2; 3.6; 3.7; 3.9; 4.2; 4.5
- Deleted: Rules 1.2 (added to statute); 2.2(A); 3.3 (added to statute); 3.3.2 (added to statute)

8 CCR 1302-15

Mobile Home Park Act Dispute Resolution & Enforcement Program

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

AUTHORITY

Pursuant to section 38-12-1104(2)(j), C.R.S.

SCOPE AND PURPOSE

To implement and clarify the Mobile Home Park Act, Title 38, Article 12, Part 2 of the Colorado Revised Statutes (C.R.S.), and the Mobile Home Park Act Dispute Resolution And Enforcement Program, Title 38, Article 12, Part 11, C.R.S., pursuant to statutory authority and changes made through House Bill 19-1309 Creating the Mobile Home Park Act Dispute Resolution and Enforcement Program (effective May 23, 2019), HB20-1196 Mobile Home Park Act Updates (effective June 30, 2020), HB20-1201 Mobile Home Park Residents Opportunity to Purchase (effective June 30, 2020), and HB21-1121 Residential Tenancy Procedures (effective June 25, 2021).

RULE 1. DEFINITIONS

In addition to the definitions provided in sections 38-12-201.5 and 38-12-1103, C.R.S., the following definitions apply to enforcement of the Act (Part 2 of Article 12 of Title 38) and the Program (Part 11 of Article 12 of Title 38):

- 1.1 "Consecutive occupancy" as used in section 38-12-204(3), C.R.S., means the consecutive period of time that:
 - A. The tenant(s) have a rental agreement with the management or landlord for occupancy of the mobile home space;
 - B. The management or landlord is receiving rent payments for the mobile home space from the tenant(s) or a third party; or
 - C. The tenant(s) is residing in the mobile home or mobile home space after establishing lawful tenancy by signing a rental agreement pursuant or paying rent pursuant to Rule 1.1(A) or (B) of these rules.
- 1.2 "Mobile home" as defined in section 38-12-201.5(5), C.R.S., includes a factory-built residential structure (modular home) if it is situated in a mobile home park and has all of the characteristics of a "mobile home" described in section 38-12-201.5(5)(a), C.R.S. (including being built on a permanent chassis); any pre-1976 mobile home; and any manufactured home constructed to the federal standards on or after June 15, 1976.
- 1.3 "Mobile home park" as defined in section 38-12-201.5(6), C.R.S. –

- A. Includes a park that is owned by a government entity, federally recognized tax-exempt charitable organization registered with the Colorado Secretary of State, or a Community Land Trust, if it has all of the characteristics of a “mobile home park” described in section 38-12-201.5(6), C.R.S. (including being operated for the pecuniary benefit of the owner of the parcel of land or the owner’s agents, lessees, or assignees).
 - B. Does not include a park that rents lots to camper coaches, camper trailers, fifth wheel trailers, motor homes, recreational park trailers, recreational vehicles, travel trailers, or truck campers, unless it also rents space to five (5) or more occupied “mobile homes” as defined in section 38-12-201.5(5), C.R.S., and Rule 1.1 of these rules.
- 1.4 “Mobile home subdivision” or “manufactured home subdivision” as used in section 38-12-201.5(6), C.R.S., means any parcel of land that is divided into two or more parcels, separate interests, or interests in common, where each parcel or interest is owned by separate owners who own both the mobile home and the land underneath the mobile home, except when the same owner owns two or more subdivided parcels or interests that are collectively used for the continuous accommodation of five (5) or more occupied mobile homes and operated for the pecuniary benefit of the owner of the parcel of land, their agents, lessees, or assignees.
 - 1.4.1 Pursuant to section 38-12-201.5(6), C.R.S., “mobile home park” does not include property zoned by a local government for manufactured home subdivisions or mobile home subdivisions.
- 1.5 “New mobile home park or manufactured housing community development” as used in section 38-12-215(1)-(2), C.R.S., and “new park” as used in section 38-12-1106(9), C.R.S., do not include:
 - A. The addition of a “mobile home space(s),” as defined in section 38-12-201.5(7), C.R.S., to an existing mobile home park, as defined in section 38-12-201.5(6), C.R.S., and Rule 1.2 of these rules;
 - B. The sale, transfer, or conveyance of an existing mobile home park to a new owner(s); nor
 - C. The merger of two or more existing mobile home parks.
- 1.6 “Occupied mobile homes” as used in sections 38-12-201.5(6) and 38-12-217(4)(c), C.R.S., and Rules 1.2(B), 1.3, and 2.2(G) of these rules means mobile homes for which the management or landlord:
 - A. Has a rental agreement with a tenant for the home or lot; or
 - B. Is receiving rent payments for the home or lot from a tenant or a third party.
- 1.7 “Rent” as defined in section 38-12-201.5(9), C.R.S., does not include attorney fees.
- 1.8 “Vacant mobile homes” as used in Rule 2.2(H) of these rules means mobile homes for which the management or landlord:
 - A. Does not have a rental agreement with a tenant for the home or lot; and
 - B. Is not receiving rent payments for the home or lot from a tenant or a third party.

RULE 2. REGISTRATION REQUIREMENTS

- 2.1 Initial Registration – for new mobile home parks must occur within three (3) months of the availability of five (5) or more mobile home lots for rent within a new park.
- 2.1.1 The “management” or “landlord,” as defined in section 38-12-201.5(3), C.R.S., who is designated as the primary contact for the mobile home park must file a registration form including full payment on behalf of the park with the Division.
- 2.2 Required Information – as part of the registration process, a mobile home park must provide the following information in addition to the information required under section 38-12-1106(7), C.R.S.:
- A. The physical address, phone number, and website address (if any) of the mobile home park;
 - B. The business name (if any), business contact name or owner name, mailing address, phone number, and email address (if any) of the owner of the mobile home park;
 - C. The business name (if any), business contact name or manager name, mailing address, phone number, and email address (if any) of the management of the mobile home park, if different from the owner of the mobile home park;
 - D. Identify which individual or business – the park owner or management – is designated as the primary contact for the mobile home park;
 - E. The physical address of each mobile home;
 - F. Identify which homes a tenant home owner independently owns, and which homes the mobile home park landlord owns;
 - G. The total number of occupied mobile homes;
 - H. The total number of vacant mobile homes;
 - I. If the park is owned by a business entity, whether that business is owned by another business entity (i.e. a parent company);
 - J. If the park is managed by a business entity, whether that business is owned by another business entity (i.e. a parent company);
 - K. If the business entity that owns the park is owned by another business entity (i.e. a parent company), the business name, first and last name of a contact person, mailing address, phone number, and email address (if any) for the parent company;
 - L. If the business entity that manages the park is owned by another business entity (i.e. a parent company), the business name, first and last name of a contact person, mailing address, phone number, and email address (if any) for the parent company;
 - M. If the park does business under any other name(s), the “Doing Business As (DBA)” name(s) and the Secretary of State Identification Number(s) for that DBA(s) (if any); and
 - N. The signature of a landlord, as defined in section 38-12-201.5(3), C.R.S., filing for registration or registration renewal for the mobile home park pursuant to section 38-12-1106(4), C.R.S.

- 2.3 Complete, Accurate, and Truthful Information Required – initial registration and registration renewal forms filed pursuant to section 38-12-1106(4), C.R.S., and Rules 2.1, 2.2, and 2.5 of these rules must be complete, accurate, and truthful and include all attachments and supplementation information. The Division may not accept incomplete forms.
- 2.4 Registration Delinquency Fee – landlords who do not submit complete, accurate, and truthful information on their initial registration or registration renewal forms may be subject to a registration delinquency fee pursuant to section 38-12-1106(9), C.R.S., and Rule 4.2 of these rules.
- 2.5 Expiration Date – will be one year from the first day of the following month after registration approval by Division staff, i.e. February 1, 2021 if approved in January of 2020, and must be renewed by that date if still operating as a mobile home park.
- 2.6 If any of the provided information required in Rules 2.2(A)-(D) of these rules changes between the time of initial registration and renewal, or between registration renewals, the management or landlord is required to notify the Division within thirty (30) calendar days of the change to ensure timely delivery of Program communications.
- 2.7 Fee - Pursuant to section 38-12-1106(8), C.R.S., for the 2021 and 2022 calendar years, an annual registration fee of \$24.00 must be paid by the mobile home park for each mobile home independently owned by a tenant home owner on rented land within the park.
 - 2.7.1 Pursuant to section 38-12-1106(8), C.R.S., the management or landlord may charge a home owner not more than half of the registration fee annually. If the management or landlord attempts to recoup up to 50 percent of this fee from the home owner, the management or landlord must:
 - A. Notify the home owner in writing at least 60 calendar days before the management or landlord expects the home owner to pay the additional fee, or a longer time period if required by the home owner's lease; and
 - B. Do so in a clear and consistent manner within one (1) year of paying the registration fee to the Division.

RULE 3. DISPUTE RESOLUTION AND ENFORCEMENT

- 3.1 Complaints filed with the Division pursuant to section 38-12-1105(1), C.R.S., must be made in writing on a Division-approved form.
 - 3.1.1 The Division will make reasonable accommodations to Rule 3.1 of these rules when such accommodations may be necessary to afford a person with a disability an equal opportunity to file a complaint with the Division.
- 3.2 A home owner acting in the capacity of a "complainant" as defined in section 38-12-1103(2), C.R.S., may file a complaint:
 - A. On behalf of their tenant, if they are leasing their mobile home and the renter has experienced and communicated an alleged violation of the Act or Program to the home owner, provided that the home owner has made it clear in the complaint that it is being filed in a representative capacity; or
 - B. Alleging a violation(s) of section 38-12-217, C.R.S., by the previous owner of the mobile home park.

- 3.3 Before imposing a penalty under section 38-12-1105(13), C.R.S., and Rule 4.4 of these rules, the Division will give the management or landlord an opportunity to rebut a presumption of retaliation with sufficient evidence of a nonretaliatory purpose pursuant to section 38-12-212.5(4), C.R.S.
- 3.3.1 As used in section 38-12-212.5(4), C.R.S. and Rule 3.3 of these rules, “sufficient evidence” means a preponderance of the evidence.
- 3.3.2 The Division will consider as sufficient evidence of a nonretaliatory purpose, when provided by the management or landlord in response to a retaliation complaint, evidence including, but not limited to:
- A. In response to an allegation of retaliatory action pursuant to section 38-12-201.5(12)(i), C.R.S., evidence that the management is asking all tenants on a particular rental agreement to update a specific section(s) of their existing rental agreement, to bring that section(s) of the rental agreement into compliance with federal, state, or local law.
 - B. In response to an allegation of retaliatory action pursuant to section 38-12-201.5(12)(k), C.R.S., evidence that:
 - i. The management or landlord reported, to an appropriate government agency, home owner conduct on park premises that materially harmed or threatened real or personal property or the health, safety, or welfare of one or more individuals or animals, including pet animals; or
 - ii. The information reported to a government agency was, to the management or landlord’s knowledge, truthful and relevant to an ongoing investigation by that federal, state, or local government agency.
- 3.4 A landlord found to be in violation of the Act or Program cannot pass on the costs of any remedial action(s), including penalties, fines, or fees, required by the Division or an Administrative Law Judge in a Final Agency Order to any home owner.
- 3.5 A landlord shall not pass on the costs of any attorney fees, witness fees, or other legal fees incurred by a landlord in responding to a complaint filed pursuant to section 38-12-1105(1), C.R.S., or an investigation by the Division of an alleged violation of the Program (Title 38, Article 12, Part 11, C.R.S.) to any home owner, notwithstanding any language to the contrary in a rental agreement.
- 3.6 The following deadlines are in calendar days:
- A. Respond to a subpoena within fourteen (14) days pursuant to section 38-12-1105(3)(a), C.R.S.
 - B. Comply with the requirements of a Notice of Violation within seven (7) days of it becoming a Final Agency Order pursuant to section 38-12-1105(5), C.R.S.
 - C. A landlord must notify the Division within thirty (30) days of a change in the ownership of the mobile home park pursuant to section 38-12-1106(5), C.R.S.
- 3.7 Pursuant to section 24-72-204(2)(a)(IX), C.R.S., any records of ongoing administrative investigations conducted by the Division of Housing in furtherance of its statutory authority to protect the public health, welfare, or safety are not subject to a request filed under the Colorado Open Records Act (CORA) during the pendency of the investigation and dispute resolution process.

- 3.8 Pursuant to section 38-12-1105(1), C.R.S., two or more home owners may file a complaint against the management or landlord of their mobile home park with the Division alleging similar or related violations of the Act or Program. The management or landlord of a mobile home park may also file a complaint against two or more home owners in the same park with the Division alleging similar or related violations of the Act or Program.
- 3.9 When filing a complaint with the Division under section 38-12-1105(1), C.R.S., aggrieved parties are not required to allege what specific statutory section(s) of the Act or Program have been violated. The Division will apply the appropriate reference(s) to statute or rule upon review of the information provided in the complaint form and any additional information provided to the Division in connection with the complaint.
- 3.10 Pursuant to section 38-12-214(3)(a), C.R.S., when a home owner files a complaint with the Division within sixty (60) days after receiving a written notice of the management's intent to add or amend any written rule or regulation, alleging that a new or amended park rule or regulation will increase a cost to the home owner in an amount that equals or exceeds ten percent of the home owner's monthly rent obligation:
- 3.10.1 The Division will notify the management of the complaint and the specific rule(s), regulation(s), or amendment(s) being challenged in the complaint.
- 3.10.2 The management shall not engage in any action to enforce the challenged rule(s), regulation(s), or amendment(s) against any resident in the park that is the subject of the complaint, unless and until the parties to the complaint reach an agreement or the dispute resolution process concludes as described in section 38-12-214(3)(a), C.R.S.
- 3.10.3 Once the management receives notice from the Division of a complaint described in Rule 3.10 of these rules, the management shall notify all residents in the park that is the subject of the complaint in writing within fourteen (14) calendar days that the management will not enforce the challenged rule(s), regulation(s), or amendment(s) until further notice.
- 3.10.4 Unless otherwise prohibited by law, the management may enforce the other new or amended rules or regulations against residents that are not the subject of any complaint(s) described in Rule 3.10 of these rules, after the sixty (60) day written notice period expires.
- 3.11 A landlord acting in the capacity of a "complainant," as defined in section 38-12-1103(2), C.R.S., may file a complaint with the Division alleging that a home owner does not have and will not sign a written rental agreement in violation of section 38-12-213(2), C.R.S.
- 3.11.1 When investigating a complaint alleging that a home owner has not signed a written rental agreement in violation of section 38-12-213(2), C.R.S., the Division will consider:
- A. Whether the current or previous management provided a written rental agreement to the home owner prior to the rental or occupancy of a mobile home space or lot pursuant to section 38-12-213(1), C.R.S. (effective July 1, 1981); and
- B. Whether the written rental agreement the current management provided the home owner would make significant changes to the terms and conditions of the home owner's existing tenancy as described in subsections 38-12-213(1)(a)-(f), C.R.S. In evaluating what the terms and conditions of an existing tenancy are, the Division may consider the following including, but not limited to:

- i. Other written agreements between the management and the home owner;
 - ii. Verbal agreements between the management and the home owner; and
 - iii. Past charges to and payments made by the home owner as described in subsections 38-12-213(1)(a) and (f), C.R.S.
- 3.12 Pursuant to 38-12-204(3), C.R.S., effective June 25, 2021, when investigating a complaint alleging that a landlord has increased rent more than one time in any twelve-month period of consecutive occupancy by a tenant, the Division will compare the proposed or effective date of the current rent increase to the effective date of the tenant's last rent increase, even if the effective date of the tenant's last rent increase was before June 25, 2021.

RULE 4. PENALTIES

- 4.1 The Division will apply the following criteria when assessing a registration delinquency fee pursuant to section 38-12-1106(9), C.R.S., and Rule 4.2 of these rules, a penalty for failure to appropriately post, maintain, or provide copies of the required Home Owner Notice pursuant to section 38-12-1104(2)(d), C.R.S., and Rule 4.3 of these rules, or a penalty for taking any "retaliatory action(s)" against a home owner pursuant to section 38-12-1105(13), C.R.S., and Rule 4.4 of these rules:
 - A. The severity of the violation;
 - B. The type of violation;
 - C. The duration of the violation;
 - D. Whether the person or entity committed repeated violations;
 - E. Whether the person or entity submitted complete, accurate, and truthful information to the Division; and
 - F. Any other mitigating or aggravating circumstances, including the impact on others, cooperation with the investigation process, and the sufficiency of the penalty to deter future violations.
- 4.2 The Division will scale any registration delinquency fees assessed under section 38-12-1106(9), C.R.S., as follows:
 - A. First offense, may be fined up to \$3,000.
 - B. Second offense, may be fined up to \$4,000.
 - C. Third or subsequent offense, may be fined up to \$5,000.
- 4.3 The Division will scale any penalties assessed under section 38-12-1104(2)(d), C.R.S., for failing to appropriately post, maintain, or provide copies of the required Home Owner Notice described in section 38-12-1104(2)(a), C.R.S., in the time frame, manner, and locations provided in section 38-12-1104(2)(c), C.R.S., and Rule 5 of these rules, as follows:
 - A. First offense, may be fined up to \$3,000.
 - B. Second offense, may be fined up to \$4,000.

- C. Third or subsequent offense, may be fined up to \$5,000.
- 4.4 The Division will scale any penalties assessed under section 38-12-1105(13), C.R.S., for taking any “retaliatory action(s)” against a home owner, as defined in section 38-12-201.5(12), C.R.S., and further clarified in section 38-12-212.5, C.R.S., and Rule 3.3 of these rules, as follows:
- A. First offense, may be fined up to \$5,000.
 - B. Second offense, may be fined up to \$7,500.
 - C. Third or subsequent offense, may be fined up to \$10,000.
- 4.5 The Division will scale any penalties assessed under section 38-12-1105(5), C.R.S., for failing to comply with the requirements of a Notice of Violation as follows:
- A. First offense, may be fined up to \$3,000, per violation per day.
 - B. Second offense, may be fined up to \$4,000, per violation per day.
 - C. Third or subsequent offense, may be fined up to \$5,000, per violation per day.

RULE 5. HOME OWNER NOTICE REQUIREMENTS

- 5.1 Pursuant to section 38-12-1104(2)(c), C.R.S., the management or landlord must post and maintain the Home Owner Notice described in section 38-12-1104(2)(a), C.R.S., in a clearly visible and accessible location in every common area of the mobile home park, including every common resident mailbox location; every rent payment dropbox or other rent payment location; and every community hall, recreation hall, and clubhouse. The management or landlord must post this Home Owner Notice in a form authorized by the Division within seven (7) calendar days of receiving the Home Owner Notice from the Division.
- 5.1.1 If there is no common resident mailbox location, rent payment location, community hall, recreation hall, or clubhouse in the mobile home park, the management or landlord must post and maintain the Home Owner Notice, in a clearly visible and accessible location, at every location of another type of physical common area in the park. The types of common areas where the management or landlord may post and maintain the Home Owner Notice include, but are not limited to:
- A. Outside every management office;
 - B. At every park entrance; or
 - C. On the front of every dumpster provided for use by residents.
- 5.1.2 If there are no physical common areas in the park the same as or similar to those described in Rule 5.1 and 5.1.1 of these rules, the management or landlord may post and maintain the Home Owner Notice in a clearly visible and accessible location on the mobile home park’s online rent payment portal or other website intended for use by residents.
- 5.1.3 In addition to complying with Rules 5.1, 5.1.1, and 5.1.2 of these rules, the management or landlord must provide the Home Owner Notice in an accessible format for any home owner with disabilities (e.g. Braille or audio recording) upon request. These formats are available to the management or landlord from the Division by request.

- 5.2 In addition to complying with Rules 5.1 and 5.3 of these rules, the management or landlord must provide a copy of the required Home Owner Notice to each individual home owner within seven (7) calendar days of receiving the Home Owner Notice from the Division and on an annual basis, by posting it on the door of every home owner's mobile home or mailing it to each home owner at either the address provided in the rental agreement or the most recent mailing address of the home owner on file with the management or landlord.
- 5.2.1 As an alternative to Rule 5.2, the management or landlord may email a copy of the Home Owner Notice to a home owner(s) only if the home owner has an email address on file with the management or landlord, and the management or landlord regularly uses that email address for other communications with the home owner, like rent payment or maintenance notices.
- 5.3 In addition to complying with Rules 5.1 and 5.2 of these rules, the management or landlord must also provide a copy of the required Home Owner Notice with each new lease executed with a home owner, and to each home owner after a change in park ownership.
- 5.4 In mobile home parks where the landlord owns all of the mobile homes and there are no independent mobile home owners with rights and responsibilities under the Act (Part 2 of Article 12 of Title 38) or Program (Part 11 of Article 12 of Title 38), the management or landlord is not required to post, maintain, or provide a copy of the Home Owner Notice pursuant to section 38-12-1104(2)(a), C.R.S., and Rules 5.1 to 5.3 of these rules.
- 5.4.1 However, once a mobile home park has one or more independently-owned mobile homes, the management or landlord is no longer exempt from the Home Owner Notice requirements under section 38-12-1104(2)(a), C.R.S., and Rules 5.1 to 5.3 of these rules, and must post and provide a copy of the required Home Owner Notice to each individual home owner within seven (7) calendar days of the change in ownership of the mobile home(s) in compliance with Rules 5.1 to 5.3 of these rules.

RULE 6. MANAGEMENT, LANDLORD, AND HOME OWNER RESPONSIBILITIES

- 6.1 Trees – Notwithstanding the landlord's responsibility to maintain trees on the premises under section 38-12-212.3(2)(b)(IV), C.R.S., a home owner may enter a voluntary, written agreement with their landlord to take on the responsibility for simple trimming that does not affect the safety of park residents or their property of trees located on the lot they are renting from the park, so long as the home owner was not required to assume this responsibility as a condition of tenancy in the mobile home park in violation of section 38-12-212.3(3), C.R.S.
- 6.2 Fences – Fences located on the "premises" as defined in section 38-12-201.5(8), C.R.S., are presumed to be the responsibility of the landlord pursuant to section 38-12-212.3(2)(b), C.R.S., unless:
- A. The home owner built the fence;
 - B. The current home owner bought the fence from the previous home owner; or
 - C. The home owner agreed in their rental agreement to take on the responsibility for maintaining and repairing the fence and paying the cost thereof in their rental agreement, so long as the home owner was not required to assume this responsibility as a condition of tenancy in the mobile home park in violation of section 38-12-212.3(3), C.R.S.
- 6.3 Mobile Home Sales and Transfers – When the owner of a mobile home located in a mobile home park notifies the management or landlord of the park (whether as required by management or as a courtesy) that the owner intends to sell or transfer their mobile home in place, and the

management or landlord seeks to require compliance with park rules and regulations at the time of sale or transfer of the mobile home to a new owner pursuant to section 38-12-214(2), C.R.S., the management shall promptly provide the seller and any prospective buyer(s) of the mobile home a written list of the item(s) for which the management is requiring corrections at the time of sale or transfer. The written list shall include:

- A. Any and all items the management knows, or reasonably should have known, would require correction at the time of sale or transfer of the mobile home;
- B. A detailed description of each item; and
- C. A citation to the specific park rule or regulation that applies to each item on the list. Any park rule or regulation cited must be reasonable and enforceable under section 38-12-214(1)-(4), C.R.S.

6.4 Limitations on Charges for Noncompliance – The following rules apply when the management intends to enter a mobile home space to ensure compliance with applicable codes, statutes, ordinances, and administrative rules; the rental agreement; or the rules and regulations of the park pursuant to section 38-12-222(2), C.R.S.

6.4.1 Before entering the mobile home space, the management shall first provide the home owner with a reasonable time to cure the alleged noncompliance and an estimate of the cost if the landlord cures the noncompliance instead (when an estimate is reasonably available and a charge would be permitted by the rental agreement).

6.4.2 If the home owner fails to cure or contest the noncompliance (ex. by communicating with the management or filing a complaint with the Program) within a reasonable amount of time, the management shall make a reasonable effort to notify the home owner of the management's intention to enter the mobile home space and cure the noncompliance at least forty-eight (48) hours before entry.

6.4.3 All of the following conditions must be met for the management to charge a home owner for the cost of ensuring compliance with applicable codes, statutes, ordinances, and administrative rules; the rental agreement; or the rules and regulations of the park:

- A. The potential for a charge must be adequately disclosed in writing in the rental agreement pursuant to section 38-12-213(1)(f), C.R.S.;
- B. The amount of the charge or the charge itself cannot be a prohibited "entry fee," as defined in section 38-12-201.5(1), C.R.S., and prohibited by section 38-12-209(1), C.R.S.; and
- C. If the charge is for the cost of ensuring compliance with a rule or regulation of the park, the rule or regulation must be reasonable and enforceable under section 38-12-214(1)-(4), C.R.S.

6.5 Limitations on Pet Deposits – Pursuant to sections 38-12-201.5(1), 38-12-209(1), 38-12-207(1) and -207(3), 38-12-102(2) (effective until October 1, 2021), 38-12-102(6) (effective October 1, 2021), and 38-12-103(1), C.R.S.:

6.5.1 The management or landlord cannot charge or collect a nonrefundable pet deposit from a home owner or prospective home owner.

- 6.5.2 The management or landlord may only charge or collect a refundable pet deposit from a home owner or prospective home owner, if the total combined amount of the security deposit and refundable pet deposit is no greater than one month's rent.
- 6.6 Pet Rent Definition – Pursuant to sections 38-12-201.5(1) and 38-12-209(1), C.R.S., any recurring charges to home owners with pets must either be part of the "rent," as defined in section 38-12-201.5(9), C.R.S., or fall under an exception to the prohibition on "entry fee[s]" under section 38-12-201.5(1)(c) or (e), C.R.S.
- 6.6.1 If the management or landlord charges or collects pet rent as part of a home owner's rent, instead of as an exception to the prohibition on entry fees:
- A. The amount or application of pet rent shall not be discriminatory nor retaliatory in nature; and
 - B. All statutes and rules applicable to rent, including, but not limited to sections 38-12-213(1)(a), 38-12-204(2), and 38-12-204(3), C.R.S., apply to pet rent as part of the home owner's rent.

RULE 7. WATER USAGE, BILLING, AND LEAKS

- 7.1 The requirements in section 38-12-212.4(1), C.R.S., apply to all types of water usage, including sewer and storm water usage.
- 7.2 The management or landlord may change the method of utility billing by providing sixty (60) calendar days written notice to the home owners, provided that the new method of billing is reasonable, equitable, and consistent; does not violate any of the provisions in section 38-12-212.4, C.R.S.; and is not in violation of the home owner's rental agreement established pursuant to section 38-12-213, C.R.S.
- 7.3 Only in cases where the management purchases water from a provider and charges home owners for water usage in the park, but the management does not get the master meter charge(s) from the provider until after the management calculates each home owner's monthly water bill, the management may provide the following information to each home owner to meet the billing disclosure requirements under section 38-12-212.4(2), C.R.S.:
- A. The amount owed by the home owner for the current month;
 - B. The total amount owed by all the residents in the mobile home park for the current month; and
 - C. The total amount paid by the management to the provider for the previous month.
- 7.4 In the event that any water usage, billing, or payment information required under section 38-12-212.4(2), C.R.S., and Rule 7.3 of these rules is not available to the management due solely to circumstances beyond the management's control, the management shall take reasonable steps to comply with section 38-12-212.4(2), C.R.S., and Rule 7.3 of these rules, and to provide accurate disclosures to home owner as soon as reasonably possible and in a manner that meets the intent of section 38-12-212.4, C.R.S.

RULE 8. PARK CHANGE OF USE, SALES, OR CLOSURES AND HOME OWNER OPPORTUNITY TO PURCHASE

- 8.1 Notice of Intent to Sell – For purposes of giving notice pursuant to section 38-12-217(1)(a), C.R.S., a mobile home park owner demonstrates intent to sell the park when the park owner takes actions including, but not limited to:
- A. Signing a contract with a real estate broker or brokerage firm to list the park for sale, sell, or transfer the park;
 - B. Signing a letter of intent or other conditional written agreement with a potential buyer for the sale or transfer of the park, which includes the estimated price, terms, and conditions of the proposed sale or transfer, even if such price, terms, or conditions are subject to change;
 - C. Signing a contract with a potential buyer's real estate broker or brokerage firm related to the potential in the sale or transfer of the park;
 - D. Accepting an earnest money promissory note or deposit from a potential buyer;
 - E. Responding to a potential buyer's due diligence request list; or
 - F. Providing a signed property disclosure form to a potential buyer.
- 8.2 Listing – For purposes of section 38-12-217(2)(a)(I), C.R.S., the landlord lists the park for sale when the owner of the mobile home park or their agent, employee, broker, or representative authorized to act on the owner's behalf offers the property for sale.
- 8.3 Contents of Park Sale Notice – Pursuant to section 38-12-217(3), C.R.S., the "price, terms, and conditions" to sell the park include, but are not limited to:
- A. Any money or compensation the seller or seller's agent has paid or intends to pay to the potential buyer or buyer's agent, including due diligence costs or brokerage fees;
 - B. Whether or not the seller has signed a conditional contract for the sale of the park with a potential buyer, or intends to do so within the next ninety (90) calendar days;
 - C. Any other terms or conditions which, if not met, would be sufficient grounds, in the seller's discretion, for rejecting an offer from residents, their agents, or their assignees; and
 - D. For sales that include more than one mobile home park or piece of real estate, like portfolio or bundled sales:
 - i. The name and property description of any and all other mobile home parks or real estate included in the proposed sale;
 - ii. The total price, terms, and conditions of an acceptable offer to sell all of the properties; and
 - iii. The price, terms, and conditions of an acceptable offer to sell each of the mobile home parks located in the State of Colorado that are included in the proposed sale.
- 8.4 Landlord's Duty to Consider Offer – Pursuant to section 38-217(5)(b), C.R.S., a landlord that receives an offer(s) to purchase a mobile home park from a group or association of home owners

or their assignees must provide a written response to each offer within ten (10) calendar days. The landlord's response to the group or association of home owners or their assignees shall include:

- A. Whether the landlord will accept, will consider, or will not accept the most recent offer submitted by the group or association of home owners or their assignees;
- B. The current price, terms, or conditions of an acceptable offer the landlord has received to sell the mobile home park, or for which the landlord intends to sell the park, if such price, terms, or conditions have changed since the landlord gave notice to the home owners pursuant to sections 38-12-217(1) or (2), C.R.S.; and
- C. If the landlord finds the most recent offer submitted by the group or association of home owners or their assignees unacceptable, an explanation of why the landlord finds the offer unacceptable.

8.5 Affidavit of Compliance – Pursuant to section 38-12-217(11), C.R.S., the landlord:

- A. Shall not file the affidavit of compliance before the home owners' opportunity to purchase terminates or expires pursuant to sections 38-12-217(1)(c) or (6)(a), C.R.S.; and
- B. Shall file the affidavit of compliance on a Division-approved form within thirty (30) calendar days after the sale or transfer of the park is final.

8.6 Exemption Form – If a park sale or transfer qualifies for an exemption from the notice and opportunity to purchase requirements pursuant to sections 38-12-217(12) and (13), C.R.S., the landlord shall provide evidence of compliance by filing a Division-approved exemption form within thirty (30) calendar days after the closing date of the exempt sale or transfer with:

- A. The municipality or, if the park is in an unincorporated area, the county, within which the park is located; and
- B. The Division of Housing in the Department of Local Affairs.

8.7 Sale and Transfer Records – Pursuant to sections 38-12-1105(1) and (3), C.R.S., the seller or transferor of a mobile home park that is located in Colorado shall maintain any and all records related to compliance with section 38-12-217, C.R.S., for a minimum of thirty-six (36) months after any sale or transfer of a mobile home park is complete, including but not limited to:

- A. Records related to Rule 8.1(A)-(B) of these rules;
- B. Notices mailed or given to home owners pursuant to sections 38-12-217(1) and (2), C.R.S.;
- C. Postings pursuant to section 38-12-217(1)(c), C.R.S., including any forms for home owners to provide notice that they do not wish to participate in efforts to purchase the community;
- D. Signed writings provided by home owners to the park owner expressing no interest in purchasing the park pursuant to section 38-12-217(1)(c), C.R.S.;
- E. Offers to purchase and proposed purchase and sale agreements submitted to the landlord by a group or association of home owners or their assignees pursuant to section 38-12-217(4), C.R.S.;

F. Requests for information from a group or association of home owners or their assignees participating in the opportunity to purchase and the landlord's response(s) to these requests for information pursuant to section 38-12-217(5)(a), C.R.S.; and

G. Offers to purchase and any conditional and unconditional purchase and sale agreements submitted by the successful purchaser of the mobile home park.

Adopted on November 8, 2019, to implement House Bill 19-1309 effective December 30, 2019.

The following changes were adopted on March 11, 2020 and are effective April 30, 2020:

- Created: Rules 1.3, 2.5.1(A)-(B), 3.3.2, 3.7, 3.8, 5.1.1- 5.1.2, 5.2.1, 5.4, 6.2
- Amended: Rules 1.4(I)-(J), 2.1, 2.2, 2.5.1, 3.2, 3.3, 3.3.1, 3.3.3, 4, 4.1-4.4 (restated statute), 5.1, 5.2, 5.3, 6.1
- Renumbered: Rules 1.4, 2.1- 2.5, 3.6, 5.1.3, 6.1
- Deleted: Rules 2.1 (restated statute)

The following changes were adopted on October 11, 2020 and are effective November 30, 2020:

- Created: Rules 1.2(A); 1.4; 1.5; 1.6; 1.7; 2.2(B)-(D) and (I)-(N); 2.3; 2.4; 3.1.1; 3.3.2(A)-(B); 3.5; 3.10-3.10.4; 4.1(E); 6.3; 6.4; 7.1; 7.2; 7.3; 7.4; 8.1
- Amended: Rules 1.1; 1.2 and 1.2(B) (updated statutory cite); 1.3 and 1.3.1 (updated statutory cite); 2.1.1; 2.2(A) and (F); 2.6; 2.7-2.7.1(A); 3.1; 3.8; 4.1; 4.1(A)-(D) and (F); 4.3; 4.4 (updated statutory cite); 5.1-5.1.3; 5.2-5.2.1; 5.3; 5.4-5.4.1; 6.1; 6.2 and 6.2(C) (updated statutory cite)
- Renumbered: Rules 2.2(A), (E) and (G)-(H); 2.5; 3.3-3.3.2; 3.6; 3.7; 3.9; 4.2; 4.5
- Deleted: Rules 1.2 (added to statute); 2.2(A); 3.3 (added to statute); 3.3.2 (added to statute)

COLORADO CHILD CARE ASSISTANCE PROGRAM

Rulemaking Hearing**Date**

10/08/2021

Time

08:30 AM

Location

Location Pending State's response to COVID-19. Anticipated to be held entirely online

Subjects and issues involved

Annually, the Department updates the Federal Poverty Levels and the State Median Income levels in Rule and in CHATS, the automated system used by counties to administer Colorado Child Care Assistance Program (CCCAP), to align with each federal fiscal year updates. These guidelines are used to determine eligibility for families applying to the CCCAP program. These updated figures must be in rule in accordance with Administrative Procedure Act, § 24-4-103, which requires the state to address in rule any general standard that is applied to the public (such as income eligibility for child care assistance). NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

Annually, the Department updates the Federal Poverty Levels and the State Median Income levels in Rule and in CHATS, the automated system used by counties to administer Colorado Child Care Assistance Program (CCCAP), to align with each federal fiscal year updates. These guidelines are used to determine eligibility for families applying to the CCCAP program.

These updated figures must be in rule in accordance with Administrative Procedure Act, § 24-4-103, which requires the state to address in rule any general standard that is applied to the public (such as income eligibility for child care assistance).

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- ☒ to comply with state/federal law and/or
☐ to preserve public health, safety and welfare

Justification for emergency:

The updated Federal Poverty Levels and State Median Income levels must be in effect at the beginning of the federal fiscal year, October 1st, in order to comply with federal regulations.

State Board Authority for Rule:

Code	Description
26-1-107(5)(a), (b), C.R.S. (2020)	State Board to promulgate rules
26-1-109(3), C.R.S. (2020)	State department rules to coordinate with federal programs
26-1-111(2)(a), (b), C.R.S. (2020)	State department to administer or supervise all forms of public assistance, in cooperation with federal partners.
26-2-805(1), (13), C.R.S. (2020)	State board to promulgate rules to implement CCCAP

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-2-805 (1), (2), C.R.S (2020)	The Board may adjust the percentage of federal poverty guidelines to comply with federal law. Income must not exceed the maximum federal eligibility level of 85% of the State Median Income.
45 CFR 98.16 (h), (k)	Lead Agencies must establish income eligibility thresholds that do not exceed 85% of the State Median Income but that allow for gradual increases in income, and describe the sliding fee scale for cost-sharing by families

Title of Proposed Rule: Colorado Child Care Assistance Program FPG & SMI Updates

CDHS Tracking #: 21-07-22-02

Office, Division, & Program: Rule Author: Tamara Schmidt
OEC, DECL, CCCAP

E-Mail:
Tamara.Schmidt@state.co.us

Does the rule incorporate material by reference?

☐ Yes

☒ No

Does this rule repeat language found in statute?

☐ Yes

☒ No

If yes, please explain.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Counties who administer Colorado Child Care Assistance Program (CCCAP) will benefit from the rule, ensuring that eligibility is correctly being determined.

Households receiving CCCAP will have their eligibility correctly determined under the new income amounts.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

If income levels are not updated, the Department will not be in compliance with federal requirements. Additionally, families applying for services will not be determined eligible under the correct income guidelines if the income levels are not put into effect by October 1, 2021.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

No fiscal impact to the state as the changes in CHATS are covered under standard operations.

County Fiscal Impact

Counties may see a fiscal impact if we do not promulgate this rule package immediately as families that have lost benefits may be able to appeal under the new federal guidelines.

Federal Fiscal Impact

There is no federal fiscal impact as these changes are required and any changes are covered under standard operations.

Other Fiscal Impact (such as providers, local governments, etc.)

Title of Proposed Rule: Colorado Child Care Assistance Program FPG & SMI Updates

CDHS Tracking #: 21-07-22-02

Office, Division, & Program: Rule Author: Tamara Schmidt
OEC, DECL, CCCAP

Phone: 720-768-8287

E-Mail:

Tamara.Schmidt@state.co.us

There is a risk that some families will go over income under the current Departmental guidelines but would not go over income under the "new" federal guidelines.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

LIHEAP-IM-2021-02: Memo on FF22 Federal Poverty Guidelines, published July 6, 2021

LIHEAP-IM-2021-03: Memo on FFY22 State Median Income Estimates, published July 6, 2021

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There are no alternatives to this rule making because APA requires that these standards are promulgated in rule.

OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

Rule section Number	Issue	Old Language		New Language or Response			Reason / Example / Best Practice	Public Comment No / Detail

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

Emergency rule package based on FFY 2021 Federal Poverty Guidelines and State Median Income Estimates

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

Office of Early Childhood (OEC) PAC & Sub-PAC will be informed of the emergency rule making strategy at the August meetings.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☐ Yes ☒ No

Name of Sub-PAC	CDHS Early Childhood Sub-PAC		
Date presented	August 5, 2021		
What issues were raised?	None		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	Unanimous		
If not presented, explain why.			

PAC

Have these rules been approved by PAC?

☐ Yes ☒ No

Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.	Will be presented in September		

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☒ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

(9 CCR 2503-9)

3.905.1 LOW-INCOME CHILD CARE ELIGIBILITY

H. Low-Income Eligibility Guidelines

1. Adult caretaker(s) or teen parent(s) gross income must not exceed eighty-five percent (85%) of the state median income.
 - a. Entry eligibility shall be set by the state department at a level based on the self-sufficiency standard, not to be set below one hundred eighty-five percent (185%) of federal poverty level.
 - b. Exit income eligibility must be eighty-five percent (85%) of the state median income.
2. Effective October 1, ~~2020~~2021, monthly gross income levels, for one-hundred percent (100%) of the Federal Poverty Guideline (FPG), as well as eighty-five percent (85%) of State Median Income (SMI) for the corresponding household size are as follows:

Family Size	100% Federal Poverty Guideline (FPG)	85% State Median Income (SMI) (State and Federal Maximum Income Limit)
1	\$1,063.33 <u>\$1,073.33</u>	\$3,711.33 <u>\$3,908.75</u>
2	\$1,436.67 <u>\$1,451.67</u>	\$4,853.27 <u>\$5,111.45</u>

Rulemaking Hearing

Date

10/08/2021

Time

08:30 AM

Location

Location Pending State's response to COVID-19. Anticipated to be held entirely online

Subjects and issues involved

The Division of Child Support Services (DCSS) is proposing a rule change to eliminate the collection of an application fee from customers applying for child support services. As an application fee is required by federal regulation, DCSS is proposing to reduce the fee from \$20.00 to \$0.10 and to pay the fee out of state funds. The state is required to reimburse the counties on fees collected. \$0.10 was chosen as the best application fee amount as it is an amount that can be divided easily among county and federal shares and it is an amount that the DCSS can budget for. This change will reduce barriers for applicants enabling more families to access the services provided. It will also streamline the online application process and align the program with other human services programs that do not charge customers to apply for services. This proposed rule change is consistent with the goal of DCSS to provide equitable services to families across the state of Colorado. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The Division of Child Support Services (DCSS) is proposing a rule change to eliminate the collection of an application fee from customers applying for child support services. As an application fee is required by federal regulation, DCSS is proposing to reduce the fee from \$20.00 to \$0.10 and to pay the fee out of state funds. The state is required to reimburse the counties on fees collected. \$0.10 was chosen as the best application fee amount as it is an amount that can be divided easily among county and federal shares and it is an amount that the DCSS can budget for. This change will reduce barriers for applicants enabling more families to access the services provided. It will also streamline the online application process and align the program with other human services programs that do not charge customers to apply for services. This proposed rule change is consistent with the goal of DCSS to provide equitable services to families across the state of Colorado.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
45 C.F.R. § 302.33	States must charge an application fee in an amount not to exceed \$25.00

Does the rule incorporate material by reference?		Yes		X	No
Does this rule repeat language found in statute?		Yes		X	No
If yes, please explain.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Parents and caregivers will receive full child support services for no cost regardless of their economic status and/or other program participation. Parents and caregivers will also benefit from the streamlined online application process as the county will not have to wait for the fee to be received before working the case. Additionally, families will no longer have to submit a payment before their application for services is reviewed.

County professionals will no longer have to allocate personnel resources to processing application fees. This may increase county personnel time available to dedicate to other case management functions.

The State Division of Child Support Services will streamline the online application process making it easier for families to apply for child support services online and further improve the timeliness for application processing.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

In the short and long-term, parents and caregivers will benefit through an increase in accessibility to applying for child support services.

In the short and long-term, county professionals will save time previously spent on accepting and processing application fees, following up on applications received without a fee, and determining hardship for a waiver of the application fee. While counties may see an increase in applications received, that increase is not determined to be impactful to the county. An increase in applications is a benefit to the program and for families.

In the short-term, the State Division of Child Support Services will benefit through being able to streamline and implement the online application process. The programming for technical staff would be simplified and assistance from outside vendors would not be required. This will allow more time for other prioritized projects.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just “no impact” answer should include “no impact because....”***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There is an anticipated fiscal impact to the state of approximately \$888.60 per year.

Title of Proposed Rule:	Child Support Services Application Fee	
CDHS Tracking #:	21-03-26-01	
Office, Division, & Program:	Rule Author: Elise Topliss	Phone: 720-908-7822
CDHS, Office of Economic Security – Division of Child Support Services		E-Mail: elise.topliss@state.co.us

8,886 (total applications received in 2019) x \$0.10(proposed application fee) = \$888.60

DCSS is proposing \$.10 as this amount can be easily divided among county and federal shares.

County Fiscal Impact

As counties currently retain \$6.80 (34%) per application fee received, county revenue will be reduced by approximately \$60,122.68 per year.

8,886 (applications received in 2019) x \$20.00 (current fee) x 0.34(county share) = \$60,424.80

8,886 (estimated applications received per year) x \$0.10 (proposed fee) x 0.34(county share) = \$302.12
 $\$60,424.80 - \$302.12 = \$60,122.68$

This estimate is based on the data that is available to the State Division of Child Support Services and it is likely that the true fiscal impact for counties will be much less. Counties have been provided an Excel spreadsheet to input county level data to calculate a more accurate estimated impact that considers information not available at the state level. The spreadsheet considers how many application fees are waived by the county. This is essential to determine the true fiscal impact because when a county waives the application fee, the county is responsible to reimburse the federal government 66% of the fee (\$13.20). Many counties who regularly waive application fees will likely experience a cost savings as a result of this proposed rule. The spreadsheet also considers the amount of time currently being spent by county professionals processing application fees, determining eligibility to waive the fee, and following up on applications received without the fee or information required by the county to waive the fee.

Example:

If a county receives 100 applications a year and waives 50% of application fees, the proposed rule would save the county \$4.20 per application and \$419.64 per year.

$(50 \times -\$13.20 \text{ 66\% of current application fee owed to the federal government}) + (-\$17.00 \times \text{hourly wage} \times 50 \text{ applications waived} \times 0.083 \text{ 5 minutes to determine eligibility to waive the fee} \times 0.34 \text{ county share of operating costs}) = \textbf{-\$683.99}$

$(\$6.80 \text{ 34\% of current application fee retained by county} \times 50 \text{ application fees paid}) - (\$17.00 \times \text{hourly wage} \times 50 \text{ applications fees paid} \times 0.25 \text{ 15 minutes to process application fee} \times 0.34 \text{ county share of operating costs}) = \textbf{+$267.75}$

The cost effectiveness of the current rule:

$-\$683.99 + \$267.75 = \textbf{-\$416.24 per year or -\$4.16 per application}$

The cost effectiveness of the proposed rule and fiscal impact of the rule change:

If the same number of applications were received under the proposed rule change, the county would be reimbursed \$0.034 per application for a total of \$3.40 per year. The proposed rule would save the county \$4.20 per application or an estimated \$419.64 per year.

*\$17.00 per hour is an estimate

Federal Fiscal Impact

Title of Proposed Rule:	Child Support Services Application Fee	
CDHS Tracking #:	21-03-26-01	
Office, Division, & Program:	Rule Author: Elise Topliss	Phone: 720-908-7822
CDHS, Office of Economic Security – Division of Child Support Services		E-Mail: elise.topliss@state.co.us

The federal government will see an approximate \$116,708.72 reduction in reimbursement for their share of application fees received in Colorado.

$8,886$ (total applications received in 2019) \times \$20.00 (current fee) \times 0.66(federal share) = \$117,295.20

$8,886$ (total applications received in 2019) \times \$0.10(proposed fee) \times 0.66(federal share) = \$586.48

$\$117,295.20$ (current rule) - $\$586.48$ (proposed rule) = $\$116,708.72$

45 C.F.R. § 302.33(c) states that a state must charge a fee for services in an amount not to exceed \$25.00. State funds may be used to pay application fees.

This proposed change has been shared with the Office of Child Support Enforcement (OCSE), Region VIII Representative and no concerns have been expressed as other states are considering the same change.

Other Fiscal Impact (such as providers, local governments, etc.)

N/A

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

No specific data or research was used for the proposal of the rule packet.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just “no alternative” answer should include “no alternative because...”

In order to increase accessibility to the services provided by DCSS, a rule change is necessary to eliminate the collection of a fee from applicants. Rule-making defines the service expectation and allows for the state supervising agency to require a specific process or practice as it relates to the application process. DCSS is proposing \$.10 as this amount can be easily divided among county and federal shares.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

N/A

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

The State of Colorado, Division of Child Support Services
The State of Colorado, Office of Information and Technology - ACSES
County Human Services Directors and Designees
County Child Support Services IV-D Administrators
The Office of Child Support Enforcement - Region 8 Representative
IV-D Attorneys
Colorado Judicial Department
Colorado Legal Services
Center on Fathering

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Title of Proposed Rule:	Child Support Services Application Fee

If not presented, explain why.			

PAC

Have these rules been approved by PAC?

☒ Yes ☐ No

Date presented	August 5, 2021		
What issues were raised?	none		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	12		1
If not presented, explain why.			

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☒ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

(9 CCR 2504-1)

6.002 DEFINITIONS

“Abandoned Collections Account” - the state IV-D account into which undeliverable collections are transferred once a determination has been made that the payment cannot be disbursed. This account is used to reimburse state expenditures.

“ACSES” - the acronym for the Automated Child Support Enforcement system, a comprehensive statewide online computer system providing case management, financial management, reports, statistics and an extensive cross-reference system.

“Adjustment” or “Modification” - is a legal action to change the amount of the child support or foster care fee order, which can increase or decrease based upon application of the state's presumptive guideline; or to add a provision for medical support or to change the party ordered to provide medical support.

“Administrative Costs” - the amount of court ordered costs that must be repaid to the Child Support Services Unit such as genetic tests, service of process fees, or attorney's costs.

“Administrative Lien and Attachment” - a notice to withhold child support, child support arrearages, child support debt, or retroactive support due from a noncustodial parent's workers' compensation benefits that is issued to any person, insurance company, or agency providing such benefits.

“Administrative Process Action (APA)” - determination of paternity and/or support obligations through a non-judicial process.

“Administrative Review” - a county or state level review of the following four issues only: the payments made, the arrearage amounts, the distribution of amounts collected, or a mistake in the identity of the person who owes the child support.

“Alleged Parent” - a person who has been identified as the possible biological parent of a child and/or who may be the legal parent of a child.

“Allocation” - the process of apportionment of a collection to a specific noncustodial parent's obligation based on the legal order for support to satisfy the various classes of the noncustodial parent's receivables.

“APA – Petitioner” – The party who has applied or been mandatorily referred for Child Support Services.

“APA – Respondent” – The party that did not apply for Child Support Services and was not mandatorily referred for Child Support Services.

“APA Stipulated Order” – An order that is agreed to and signed by both the APA-Petitioner and the APA-Respondent or an order that is agreed to and signed by the APA-Respondent in the absence of the APA-Petitioner.

“APA Temporary Order” – An order that establishes a monthly support obligation only and that is entered when the APA-Petitioner and/or the APA-Respondent does not agree with the terms of the proposed stipulated order.

“APA Default Order” – An order that is entered when the APA-Respondent (1) fails to attend the currently scheduled negotiation conference, (2) fails to sign and deliver to the county delegate child support enforcement unit at or prior to the time of the currently scheduled negotiation conference the stipulated order, or (3) fails to appear for or cooperate with a genetic testing appointment.

“Application” - the state prescribed form which indicates that the individual is applying for Child Support Services. The application is signed by the individual applying for services and ~~a~~**AN APPLICATION** fee is ~~ASSESSED paid or waived on basis of hardship, and then paid by the county.~~

“APPLICATION FEE” - A FEE ASSESSED UPON RECEIPT OF AN APPLICATION, AS REQUIRED BY FEDERAL REGULATION, TO BE PAID OUT OF STATE FUNDS, IN THE AMOUNT OF 10 CENTS (\$0.10).

“Arrearages” - the total amount of the court ordered support obligations that are past due and unpaid. Such amount is calculated by multiplying the amount of the support obligation (including any modification thereto) by the number of months that have elapsed since the inception of the order and subtracting from the product the amount of support paid by the noncustodial parent, through the court, directly to the obligee, Child Support Services Unit, or Family Support Registry (FSR).

“Assignment of Support Rights” - the determination that a family is eligible for IV-A benefits automatically invokes a state law (Section 26-2-111(3), C.R.S., as amended) that assigns to the State Department all rights that the applicant may have to support from any other person on his/her own behalf or on behalf of any other family member for whom application is made. The assignment is effective for both current support and support that accrues as arrears during the period that the family receives assistance. The assignment is limited by the total amount of IV-A assistance received. When a child is placed in foster care, all rights to current and accrued child support for the benefit of the child are assigned to the State Department pursuant to Section 26-13-113, C.R.S.

“Automated Child Support Enforcement System (ACSES)” - the statewide computer program used by Child Support Services for daily operations.

“Caretaker” - a person who is related to the dependent child by blood or by law, or who lives with the child and who exercises parental responsibility (care, control and supervision) of the child in the absence of the child's parent.

“Case Category” - category of a case identifies the type of IV-D case. Case categories must be maintained on the automated child support system as prescribed by the State Department.

“Cash Medical Support” - see definition of “specific dollar amount for medical purposes”.

“Challenge” - when either party disagrees in writing with the review results because the guideline calculation contained an alleged mathematical or factual error. The parties' right to challenge is included in the Post Review Notice or the Administrative Process, Notice of Financial Responsibility for Modification.

“Child Support Services (CSS) Unit” - the county unit administering or supervising the contract for another private or public entity to administer the Child Support Services (CSS) Program.

“Colorado Date of Receipt” (CDOR) - the date the child support payment is first received by the Child Support Services program, either the Family Support Registry or the Child Support Services Unit.

“Confidential” - privileged information of individuals which is private and not for release, disclosure, or distribution unless specifically authorized in statute, regulation, or rule.

“Consumer Credit Reporting Agency” - any person who, for monetary fees, dues, or on a cooperative nonprofit basis, regularly engages in whole or in part, in the practice of assembling or evaluating consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties, and which uses any means or facility of interstate commerce for the purpose of preparing or furnishing consumer reports.

“Continued Services Cases” – non-public assistance Child Support Services cases in which the Child Support Services Unit continues to provide services after IV-A financial or IV-E foster care eligibility ceases unless notified by the custodial party that continued services are not desired.

“Cost Effectiveness Ratio” - the ratio of total child support collections to total administrative costs.

“County Department” - a county department of social services, human services, housing and human services, or health and human services. “C.R.S.” - Colorado Revised Statutes.

“CSS Case” - a child support case in which services are provided to establish, modify, and enforce support and medical obligations pursuant to the state IV-D plan.

“Currently Scheduled Negotiation Conference” – The date and time of the APA negotiation conference as scheduled in the notice of financial responsibility or the date and time of a continued negotiation conference whichever date is later.

“Custodial Party” - the legally responsible parent, blood relative, adoptive relative, adult who exercises responsibility for a dependent child(ren), or agency. Also known as the caretaker relative, custodial relative, custodian, government agency (for foster care cases) or, on ACSES, as the recipient/applicant and abbreviated as R/A.

“Date of Withholding” - the date the employer withheld the child support from the employee’s wages.

“Deliver” – Delivery of a document or documents includes delivery by hand (in person), by first-class mail, or by electronic means if mutually agreed upon.

“Discharge From Custody” - As defined in title 17 of the Colorado Revised Statutes.17-22.5-402(1)

“Disbursement” - processing of the payable to payees other than the Department of Human Services.

“DISH” –The acronym for the Data Information Sharing System of the Colorado Judicial Department. It is also the process of electronically transmitting information on a case or data on an order by and between the county CSS unit and the court clerk.

“Disposition” - the date on which a support order is officially established and/or recorded or the action is dismissed.

“Distribution” - application of the allocated collection to the IV-D retained and/or payable accounts according to federal regulations based on assignment of rights to support, continued services, and application for services.

“EFPLS” - Expanded Federal Parent Locator Service

“Electronic Benefits Transfer (EBT) Notice” - the notice that is sent to the IV-A recipient at the beginning of each month informing him/her of how much public assistance money was deposited into his/her account. The notice also contains information about how much child support was paid by the noncustodial parent during that month.

“Enforcing County” - Colorado county responsible for processing the case and providing Child Support Services.

“Erroneous Disbursement” - see “Unfunded Disbursement”.

“Excess Pass Through Amount” – means an assigned child support collection (applied to current support) that the state elects to pay to the family rather than retain to reimburse for assistance provided to the family over the Pass Through Amount.

“Expedited Processes” - administrative or expedited judicial processes or both which increase effectiveness and meet specified processing time frames and under which the presiding officer is not a judge of the court. Actions to establish or enforce support obligations in IV-D cases must be completed within the time frames specified in federal regulations.

“Family Support Registry (FSR)” - the contracted fiscal agent responsible for processing all child support payments.

“FFP” - Federal Financial Participation.

“Federal Tax Information (FTI)” - any information contained in, or derived from, a federal tax return.

“Financial Institution Data Match (FIDM)” - Federal mandate requiring the state to do a periodic match of noncustodial parents who owe arrearages to accounts maintained at financial institutions.

“Financial Institution Data Match Lien and Levy” - a notice generated by the Colorado Department of Human Services, Division of Child Support Services, to freeze and seize assets contained in financial accounts. The notice is issued to any financial institution or state entity maintaining accounts for obligors with child support arrearages, child support debt or retroactive support.

“FIPS” - Federal Information Processing Standard - a code number assigned to each state and county within the United States.

“Former Arrears Due (FAD) Case” - any IV-D case in which the custodial party or the child(ren) formerly received IV-A cash assistance or IV-E maintenance but no longer receives CSS services and where there are still assigned arrears due.

“Former Assistance Case” - any IV-D case in which the custodial party or the child(ren) formerly received IV-A cash assistance or IV-E maintenance.

“Foster Care Fee Debt” - the amount of support due in a foster care case from the placing parent for the time period between the date the child was placed in out-of-home placement to the date the fee order was established.

“Foster Care Fee Order” - a monthly amount assessed by application of the Colorado Child Support guidelines, which are found under 14-10-115(7), C.R.S., to the legally responsible person(s) whose child(ren) are receiving substitute care through a foster care placement as ordered by a court or through administrative process by a county Child Support Services Unit.

“FPLS” - Federal Parent Locator Service.

“Genetic Testing” - a scientific test that shows the probability of biological parentage of a child which can lead to the establishment of paternity.

“Health Care Coverage/Health Insurance” – Fee for service, health maintenance organization, preferred provider organization, and other types of private health insurance and public health care coverage under which medical services could be provided to the dependent child(ren).

“HHS” - the U.S. Department of Health and Human Services.

“High Volume Automated Administrative Enforcement in Interstate Cases” - the use of automated data processing on interstate cases to search various state databases and seize identified assets of delinquent obligors, using the same techniques as used in intrastate cases upon request of another state.

“Income Assignment” - the process whereby a noncustodial parent's child support payments are taken directly from his/her income and forwarded to the FSR through a notice to the employer, trustee, or other payor of funds.

“Initial Date of Receipt” (IDOR) - the date on which the support collection is initially received by the Title IV-D agency or the legal entity of any state or political subdivision actually making the collection or, if made via income assignment, the date of withholding, whichever is earliest.\

“Initiating State/Jurisdiction” -

A. The state/jurisdiction which requests CSS services from the state/jurisdiction where the noncustodial parent resides, has property, or derives income; or,

B. The state where the custodial party resides if a modification has been requested and it is appropriate for that state to review the order.

“Inmate” - As defined in title 17 of the Colorado Revised Statutes.17-1-102(6.5)

“Intergovernmental Case” - a CSS services case which involves more than one state, country or tribe.

“Interstate Central Registry” - the Interstate Network unit within the Colorado Division of Child Support Services (CSS) which receives and distributes responding cases and has oversight responsibility for intergovernmental IV-D cases.

“Interstate Network” - the unit in the Colorado Division of Child Support Services which has responsibility for interstate central registry functions.

“In-State Case” - a case being worked in Colorado with no other jurisdiction involved.

“IV-A Cash Assistance” - payments paid to or on behalf of families with children pursuant to Title IV-A of the Social Security Act.

“IV-A Case” - a case referred from the IV-A Unit to the CSS office for child support services when the family has been approved for IV-A financial benefits and/or medical benefits.

“IV-A Unit” - the county unit administering the IV-A cash assistance program.

“IV-D Program” - Child Support Services Program pursuant to Title IV-D of the Social Security Act.

“IV-E Foster Care Case” - a case with a child(ren) who qualifies for public assistance under Title IV-E of the Social Security Act. These cases are mandatory referrals to the CSS Unit.

“IV-E Payment” - payment made on behalf of a child for his/her foster care maintenance in accordance with Title IV-E of the Social Security Act.

“Judgment” - by operation of law, a child support payment becomes a final money judgment when it is due and not paid. A missed payment, or a series of missed payments, may also be reduced into a single judgment by the court.

“Legal Father” - see “Paternity”.

“Locate” - information concerning the physical whereabouts of the noncustodial parent or the noncustodial parent's employer(s), other sources of income, or assets, as appropriate, which is sufficient to take the next appropriate action in a case.

“Medicaid Referral Cases” - cases in which families, with a noncustodial parent, receive Medicaid and are referred to CSS from a Medicaid agency for CSS services if the Medicaid recipient voluntarily wants CSS services.

“Medical Coverage” - any health coverage provided for a child(ren), including: 1) private health insurance; 2) publicly-funded health coverage; 3) cash medical support; or 4) payment of medical bills, including dental or vision.

“Medical Support” - a subset of medical coverage which includes health coverage provided for a child(ren) in a IV-D case in which there is a medical support order. This includes: 1) private health insurance; 2)

publicly-funded health coverage, if a parent is ordered by a court or administrative process to provide cash medical support payments to help pay the cost of Medicaid or State Child Health Insurance Program (SCHIP); 3) cash medical support, including payment of health insurance premiums; and 4) payment of medical bills, including dental or vision. Indian health service and Tricare are acceptable forms of medical support.

“Modification” - see “Adjustment”.

“Monthly Amount Due” - the monthly amount the obligor is expected to pay toward the arrearages.

“Monthly Payment Due” - the monthly amount that the obligor is expected to pay each month; the amount includes the court ordered current support and the monthly amount due towards any arrears.

“Monthly Support Obligation (MSO)” - the monthly obligation amount ordered by a court or through administrative process by a county Child Support Services Unit to be paid on behalf of (a) child(ren) or (b) child(ren) and former spouse, if established in the same court order and if the former spouse is living with the child(ren).

“National Medical Support Notice (NMSN)” - a federally mandated notice sent to employers by the delegate CSS Units. The NMSN requires an employer to enroll a child(ren) in the employer’s health insurance plan if it is available, the employee is eligible, and it is reasonable in cost.

“Non-IV-E Foster Care Case” - a case with a child(ren) receiving Title IV-B foster care services who does not qualify for IV-E public assistance. These cases are classified by the State CSS Division on the automated child support system as a Non-PA case, but are treated like public assistance cases because they originate within Child Welfare Services and, pursuant to statute, contain an automatic assignment of support.

“Non-Public Assistance (Non-PA) Case” - a IV-D case in which the family currently does not receive public assistance. Non-PA cases include Medicaid referral cases.

“Noncustodial Parent (NCP)” - the legally responsible parent, adoptive parent, or alleged parent who is not living with the dependent children. Also known on ACSES as the absent parent and abbreviated as “A/P”.

“Not in Child’s Best Interest” - order would not be reviewed based on a good cause determination in cases with an assignment of rights as defined in Section 6.230.1.

“Notice of Collection” - a periodic report of Child Support collection information which is sent by the Child Support Services Unit to current and former Colorado Works Program recipients who have assigned their rights to support.

“Obligee” - the party to whom an obligation of support is owed.

“Obligor” - the party bound by a court or administrative order to provide support.

“OCSE” - Office of Child Support Enforcement. The Health and Human Services agency responsible for the supervision of state child support enforcement programs pursuant to Title IV-D of the Social Security Act.

“Original Order” - means the first support order that orders a parent to pay support for a child.

“Parole” - As defined in title 17 of the Colorado Revised Statutes.17-2-207(3)

“Parties to the Action” - those individuals or entities named in a petition, motion, or administrative process notice of financial responsibility and joined, or to be joined, in a legal action.

“Pass Through Amount” – means an assigned child support collection (applied to current support) that the state elects to pay to the family rather than retain to reimburse for assistance provided to the family. In current-assistance cases, the federal share will be waived for up to \$100 per month for TANF families with one child and up to \$200 per month for families with two or more children, as long as both the federal and state share of the Pass Through are paid to the family and are disregarded in determining the TANF Basic Cash amount of assistance provided to the family.

“Paternity” - is the legal establishment of parentage, maternity or paternity, for a child, either by court determination, administrative process, or voluntary acknowledgment.

“Permanently Assigned Arrears” - arrears which accrued under a court or administrative order and were assigned prior to October 1, 1997, plus all arrears which accrue while a family is receiving public assistance after October 1, 1997.

“Placing Parent” - the legally responsible parent who the child(ren) was living with prior to foster care placement.

“Post Assistance Arrears” - the arrears that accrue under a court or administrative order on a continued services case after the obligee discontinues IV-A services.

“Pre-Assistance Arrears” - the arrears that accrued from October 1, 1997, forward, under a court or administrative order before the obligee started receiving IV-A assistance.

“Pre-Offset Notice” - a notice generated yearly by the state Office of Child Support Services notifying noncustodial parents of the enforcement remedies that may be applied to their cases and advising of their right(s) to request an administrative review.

“Pre-Review Screening” - an assessment of the IV-D case to determine the appropriateness for review.

Presumed Father” - a man who is more likely than not to be the legal father of a child because certain facts exist.

“Primary Contact County” - the county that the obligee will contact to resolve issues concerning an unfunded disbursement balance.

“Procedure” - processes developed by county Child Support Services Units and/or the State Department to implement state policy and rules.

“Public Assistance” - assistance payments provided to or on behalf of eligible recipients through programs administered or supervised by the State Department under Titles IV-A or IV-E of the Social Security Act or under Child Welfare Services.

“Public Assistance (PA) Case” - a case that has met established criteria by the IV-A or IV-E divisions to be referred to the CSS Unit for child support services.

“Responding State/Jurisdiction” - the state/jurisdiction where the obligor resides, has property, or derives income, which provides Child Support Services Unit services upon request from another state/ jurisdiction.

“Retroactive Support Due” - the amount of support due for a time period prior to the entry of an order establishing paternity and/or support.

“Review” - an evaluation of the parties' income information to determine the child support order amount and whether a medical support provision needs to be added to the child support order or if the party ordered to provide medical support needs to change.

“Sentence” - Means the post-conviction stage of the criminal justice process, in which the defendant is brought before the court for the imposition of a penalty. Sentences can vary in the way they are

implemented or carried out. A sentence can be concurrent, meaning it is served at the same time as any other sentences imposed; or, consecutive meaning there is a conviction on several counts and the sentences are added to each other so each sentence begins immediately upon the expiration of the previous one. In the case of the conviction of a sexual offense, Colorado may also impose an indeterminate sentence of “not more than” or “not less than” a certain period of time.

“Service Fee” – the annual fee charged to an obligee who has never received cash public assistance.

“Specific Dollar Amount for Medical Purposes or Cash Medical Support” - an amount ordered to be paid toward the cost of health insurance provided by a public entity or by another party through employment or otherwise, or for other medical costs not covered by insurance.

“SPLS” - the State Parent Locator Service.

“State Department” - the Colorado Department of Human Services.

“State Plan” - the comprehensive statement submitted by the State Department to the Department of Health and Human Services describing the nature and scope of its Child Support Services Program and giving assurance that it will be administered in conformity with the specific requirements stipulated in Title IV-D of the Social Security Act and other official issuances of Health and Human Services.

“Support” - a medical support order and/or financial amount ordered by a court or through administrative process by a county Child Support Services Unit on behalf of (a) child(ren) or (b) child(ren) and former spouse, if established in the same court order and if the former spouse is living with the child(ren).

“Termination of Review and Adjustment” - the review/adjustment activity ceases based on specific criteria which are set forth in Section 6.261.5.

“Total Program Expenditures” - the total amount of costs associated with the Child Support Services program billed to the federal government for reimbursement.

“UIFSA” - Uniform Interstate Family Support Act, Title 14, Article 5, Colorado Revised Statutes (C.R.S.) which governs interstate case processing.

“UMP” - Unreimbursed Maintenance Payments. The amount of IV-E foster care maintenance payments which have not been reimbursed by child support collections or other recoveries.

“Unassigned Arrears” - any arrears that are not assigned to the state, either because the obligee never received public assistance or because, for an obligee who is or was receiving public assistance, the arrears accrued during a time period when the obligee was not receiving public assistance.

“Unfunded Disbursement” - a disbursement that is paid but subsequently found to contain an error or found to have insufficient funds to pay the disbursement.

“UPA” - Unreimbursed Public Assistance. The amount of IV-A payments which have not been reimbursed by child and spousal support collections or reduced by IV-A established recoveries.

“URESAs” or “RURESAs” - The Revised Uniform Reciprocal Enforcement of Support Act, Title 14, Article 5, C.R.S., as amended. Repealed in Colorado on January 1, 1995, the effective date of Uniform Interstate Family Support Act.

“Unenforceable” - A case is determined unenforceable when there is no collection on a case for two years and all administrative or legal remedies have been attempted and determined to be ineffective. Ineffective has three elements: 1. The obligor is unable to pay, 2. The obligor has no known income or assets, 3. There is no reasonable prospect that the obligor will be able to pay in the foreseeable future; or, there is nothing to enforce on the case as benefits were paid but uncollectable due to the fact the recipient does not have custody of the children or there is shared custody.

“Unsworn Declaration” - A statement or document that is not notarized but is made under the penalty of perjury under the law of Colorado that it is true and correct. An unsworn declaration may be used in lieu of an affidavit 4.609.1 GENERAL ELIGIBILITY GUIDELINES [Rev. eff. 2/5/16]

6.201.2 NON-PUBLIC ASSISTANCE (NPA) CASES [Rev. eff. 4/1/12]

A. Continued Services Cases

1. The Child Support Services Unit shall provide to the person whose IV-A grant or IV-E foster care eligibility is discontinued, continued CSS services, without a formal application ~~or fee~~ unless the CSS agency is notified to the contrary by the person whose IV-A grant or IV-E foster care eligibility is discontinued.

2. ~~Form SMR-3, Notice to Recipient,~~ **THE NOTICE OF ACTION AND THE CSE 34 NOTICE** will be generated and mailed to the recipient when they are discontinued from IV-A. The form will be sent to the recipient ten (10) days prior to the effective date of the discontinuation.

3. Form SS-4, Notice of Social Service Action, will be completed by the county services worker and mailed to recipients when a person(s) is discontinued from IV-E foster care. The form will be sent to the recipient five (5) days prior to the effective date of the discontinuation.

~~The Notice to Recipient (SMR-3)~~ **THE NOTICE OF ACTION, THE CSE 34 NOTICE**, and the Notice of Social Service Action (SS-4) shall:

- a. Notify the person whose IV-A grant or IV-E foster care has been discontinued, that the CSS Unit shall continue to provide CSS services unless the CSS Unit is notified by the former IV-A or IV-E foster care recipient to the contrary;
- b. Specify the CSS services that are available;
- c. Inform the person that the quality of information provided will affect the category of the case;
- d. Specify the name of the person whose IV-A grant and/or IV-E foster care has been discontinued; and,
- e. Specify the household number;
- f. Specify the unique case identifiers;
- g. Require the signature of the person discontinued who wishes to terminate CSS services;
- h. Specify the CSS unit will collect overdue support to repay past IV-A or IV-E foster care maintenance.
- i. Contain any other information deemed appropriate by the State Department.

4. The county Low-Income Child Care Assistance unit must provide written notice to the person who's IV-A grant or IV-E foster care eligibility is discontinued, if continued cooperation with the CSS Unit will be required due to the receipt of Low-Income Child Care Assistance within five days of referral from any of these referenced programs. The county Low-Income Child Care Assistance Program must also notify the county Child Support Services Unit within the same time frame.

B. Application Cases

1. Persons who do not receive public assistance or continued CSS services may apply for full CSS services by completing the Application for Child Support Services, as prescribed by the State Department. Applications for child support services shall be readily accessible to the public. If the county department

has elected to require Low-Income Child Care Assistance recipients to cooperate with the CSS Unit, the recipients must complete the State prescribed application for Child Support Services. Applications will not be accepted if all of the children associated with a specific obligee and obligor are emancipated, as defined in the existing child support order and the laws of the state where the child support order was entered. This same requirement applies to new interstate referrals sent to Colorado from another initiating state or jurisdiction. In a responding intergovernmental case, if the case was opened in the other state prior to emancipation and/or has state debt due, the application shall be accepted.

2. Upon application, the services established for IV-A recipients to locate, establish paternity of a child (or children), establish court orders for child support, review and modify orders for child support, and secure support from noncustodial and/or alleged parents shall also be made available on behalf of children who are or were deprived of parental support due to the absence of a parent or parents, but, for other reasons, are not recipients of IV-A, including those children who are receiving foster care services from funds other than Title IV-E of the Social Security Act.

3. The application on behalf of the child for child support services may be made by either of the child's parents (custodial or noncustodial), an alleged father, legal guardian, or other person or agency.

4. When the applicant is not a parent of the child, an application for child support services must be obtained for each noncustodial parent.

5. Requests for Application

a. When an individual requests an application or CSS services in person, the CSS Unit shall provide an application on the day requested.

b. When an individual requests an application by phone or in writing, the application shall be sent by the county CSS Unit within no more than five (5) business days from the date of request.

c. The application shall include the following information:

- 1) available services;
- 2) the individual's rights and responsibilities;
- 3) fees, cost recovery and distribution policies;
- 4) case categorization and the information necessary to change the category; and
- 5) the lack of an attorney-client relationship.

d. The CSS Unit must maintain a log of requests for services which includes the following information:

- 1) name of person requesting an application;
- 2) type of request (in person, phone, mail);
- 3) date of request;
- 4) date the application was mailed or provided;
- 5) date the application is accepted.

6. The application for non-PA CSS services shall be made on the Application for Child Support Services, as prescribed by the state department. The standard Application for Child Support Services shall include the following elements:

- a. The full name of the noncustodial parent;
- b. The full name, date of birth, place of birth, sex and social security number of each child for whom support is sought;
- c. The signature, address, telephone number, date of birth and social security number of the applicant and date of application.

7. Acceptance of Applications

a. An application may be filed in any CSS office. If there is an existing case in another county, then the application shall be forwarded to the appropriate enforcing county within two (2) working days of receipt in the original county.

~~b. An application shall be accepted on the day it and the application fee are received, if one or more of the children associated with a specific obligee and obligor are not emancipated as defined in the child support order and the laws of the state where the child support order was entered.~~

~~eb.~~ An application shall be accepted as filed on the date it is received in the CSS office, ~~IF ONE OR MORE OF THE CHILDREN ASSOCIATED WITH A SPECIFIC OBLIGEE AND OBLIGOR ARE NOT EMANCIPATED AS DEFINED IN THE CHILD SUPPORT ORDER AND THE LAWS OF THE STATE WHERE THE CHILD SUPPORT ORDER WAS ENTERED, AND~~ if it includes the following information:

- 1) applicant's name, address and social security number;
- 2) the name of the noncustodial parent(s), if known;
- 3) name, birth date, sex, place of birth and social security number, if available, for each child;
- 4) applicant's signature, ~~EITHER HANDWRITTEN OR ELECTRONIC.~~

~~dc.~~ Acceptance of an application involves recording the date of receipt on the application. ~~THE APPLICATION MUST BE ENTERED INTO THE ACSES FOR THE APPLICATION FEE TO BE ASSESSED.~~

~~8. Upon application, the county CSS Unit shall collect a fee of twenty dollars (\$20) from the applicant prior to the provision of CSS services, except that such fee may be waived in cases where the county director determines that the imposition of such fee would cause undue financial hardship. In the event of such waiver, the county must initially pay the fee from child support services funds. The CSS Unit may then choose to recover the fee from the noncustodial parent.~~ County CSS Units may collect costs incurred in excess of fees. These costs shall be determined on a case by case basis and shall be used to reduce CSS program expenditures.

9. Non-PA obligees shall be charged an annual twenty-five dollar (\$25) certification fee for collection of IRS tax refunds only if an actual intercept occurs. The fee shall be deducted from the tax refund intercept ~~and charged in addition to the twenty dollar (\$20) CSS application fee.~~ The certification fee must be used to reduce CSS program expenditures.

If there is more than one tax refund intercept for a case, the twenty-five dollar (\$25) certification fee will be charged only once, regardless of the number of obligors, and will be deducted from the first intercept(s) that occurs. If the total amount of all tax refunds for a case is less than twenty-five dollars (\$25), the amount of refunds will satisfy the certification fee.

10. Non-PA obligees shall be charged an annual thirty-five dollar (\$35) service fee once five hundred and fifty dollars (\$550) has been disbursed to the family.

The service fee will be reported to the federal government as program income, and will be shared between the federal, state, and county governments.

The service fee will be collected for each case set in all intrastate in-state and initiating intergovernmental cases on the ACSES if the \$550 disbursement threshold is reached.

C. Locate Only Cases

Persons who request only noncustodial parent locator service may complete the Request for Parent Locator Service. The Colorado State Parent Locator Service shall provide such caretaker with instructions for completing the form and fees to be paid by the caretaker. A non-PA application form is not required.

6.201.3 FOSTER CARE CASES [Rev. eff. 4/1/12]

A. Appropriately referred IV-E or non-IV-E foster care cases pursuant to the CDHS Social Services staff manual (12 CCR 2509-1) shall be provided the full range of services as required by the Child Support Services program upon referral. Cases that are not appropriate for referral shall not be initiated.

B. Referral is defined as receipt of the referral packet from the county child welfare agency or the date the case appears in the county's on-line referral list. If the referral is manual, counties must document the date received by the CSS Unit as the referral date on the ACSES.

C. Child support services applications are not required for IV-E foster care cases. An application for child support services, as prescribed by the State Department, shall be completed by the county department having custody of the child(ren) for all non-IV-E foster care cases. ~~A one-time NPA application fee has previously been paid for all Non-IV-E foster care cases.~~

6.205 ENFORCING COUNTY [Rev. eff. 11/1/13]

Designation of the county responsible for accepting the Child Support Services application or processing the case, or both, provides for centralized legal and financial activities and prevents duplication of effort and establishment of unnecessary orders for support when an order exists.

Provisions pertaining to enforcing county designation and responsibilities shall apply to all new Child Support Services cases and for existing cases where there is a dispute regarding an enforcing county issue.

A. The enforcing county is the county responsible for processing a case for Child Support Services, including locating the noncustodial parent, establishment of paternity, establishment and modification of a support order and enforcement of a support order. Enforcing county means the enforcing county on the automated child support system. The enforcing county is responsible for financial management of the case.

The enforcing county is also the county responsible for the case for audit purposes. When the noncustodial parent resides outside of Colorado, the enforcing county is the county responsible for initiating an intergovernmental action or appropriate instate action for CSS services. If the noncustodial parent is the only party in the case residing in Colorado and there is no existing court order and no public assistance has been paid in Colorado, the enforcing county will be considered the county where the noncustodial parent resides.

B. For all cases, the enforcing county for a Colorado Child Support Services case is the first county where a Child Support Services application or referral was made. The enforcing county shall provide the full range of services to the Low-Income Child Care Assistance referral case from another county, even if the enforcing county elected not to require the Low-Income Child Care Assistance recipients in its county to cooperate with the Child Support Services Unit.

C. When there is a new application or referral in a county other than the enforcing county, the county of the new application or referral shall assist in the completion of the application and any intergovernmental or other necessary documents. The county of the new application or referral shall forward the application, ~~AND~~ documents, ~~and fee~~ to the enforcing county, as appropriate, utilizing the form as prescribed by the State Department. For a Low-Income Child Care Assistance referral case, the

Low-Income Child Care Assistance Program unit shall deal directly with the Child Support Services (CSS) Unit located in its county. The CSS Unit will then communicate with the enforcing county.

D. Unless the CSS Units in the interested counties agree or there is enforcing county resolution to change enforcing county designation, the enforcing county remains the enforcing county until the case is closed in accordance with this manual. The enforcing county does not change when the parties in the case relocate.

E. When a IV-D unit requests enforcing county designation and the interested CSS Units cannot agree, within five (5) calendar days, upon which county should be the enforcing county, the county directors, or their designees, in the counties will resolve the issue. If agreement cannot be reached, the CSS office shall refer the matter to the State Division of Child Support Services for resolution in accordance with the state procedure and prescribed form. The state decision is final and binding on the interested counties.

6.260.52 Closure of Non-Public Assistance Cases

Non-public assistance, including Low-Income Child Care Assistance, cases may be closed for one of the following reasons or the closure reasons in Section 6.260.51. Unless otherwise noted, case closure requires a 60-day advance notice of closure to the custodial party. If a Low-Income Child Care Assistance case is closed the county CSS Unit must notify the appropriate county Low-Income Child Care Assistance Program.

A. The Child Support Services Unit is unable to contact the custodial party within a 60 calendar day period despite a good faith effort to contact the recipient through at least two different methods: mail, electronic, or telephone. If contact is reestablished with the custodial party in response to the notice which could lead to the establishment of paternity or support, or enforcement of an order, the case must be kept open. After a notice of case closure has been sent, if the custodial party reports a change in circumstances within the 60 days contained in the advance notice of closure, the case shall remain open-
~~or be reopened without payment of an additional application fee.~~

B. The Child Support Services Unit documents non-cooperation of the custodial party and that cooperation of the custodial party is essential for the next step in providing support enforcement services. If a Low-Income Child Care Assistance recipient fails to cooperate, then the county CSS Unit shall send the advance notice of closure to the recipient and to the appropriate county Child Care Assistance Program. The notice shall include the basis of the recipient's failure to cooperate and the dates on which it occurred.

C. The applicant requests closure of the case in writing and there are no arrears owed to the State. The 60 day advance notice of closure is not required for these cases.

D. The Child Support Services Unit has provided location only services as requested. The 60 day advance notice of closure is not required for these cases.

E. The status of the case has changed from non-public assistance to public assistance. The 60 day advance notice is not required for these cases.

F. The children have reached the age of majority, the noncustodial parent is entering or has entered long-term care arrangements (such as a residential care facility or home health care), and the noncustodial parent has no income or assets available above the subsistence level that could be levied or attached for support.

G. The noncustodial parent is living with the minor child (as the primary caregiver or in an intact two parent household), and the IV-D agency has determined that services are not appropriate or are no longer appropriate.

COLORADO

Department of Health Care
Policy & Financing

Medical Services Board

NOTICE OF PROPOSED RULES

The Medical Services Board of the Colorado Department of Health Care Policy and Financing will hold a public meeting on Friday, October 8, 2021, beginning at 9:00 a.m., in the eleventh floor conference room at 303 East 17th Avenue, Denver, CO 80203. Reasonable accommodations will be provided upon request for persons with disabilities. Please notify the Board Coordinator at 303-866-4416 or chris.sykes@state.co.us or the 504/ADA Coordinator hcpf504ada@state.co.us at least one week prior to the meeting.

A copy of the full text of these proposed rule changes is available for review from the Medical Services Board Office, 1570 Grant Street, Denver, Colorado 80203, (303) 866-4416, fax (303) 866-4411. Written comments may be submitted to the Medical Services Board Office on or before close of business the Wednesday prior to the meeting. Additionally, the full text of all proposed changes will be available approximately one week prior to the meeting on the Department's website at www.colorado.gov/hcpf/medical-services-board.

This notice is submitted pursuant to § 24-4-103(3)(a) and (11)(a), C.R.S.

MSB 21-08-27-A, Revision to the Medical Assistance Eligibility Rules Concerning General and Citizenship Eligibility Requirements, Section 8.100.3.G

Medical Assistance. The proposed rule change will amend 10 CCR 2505-10 §8.100.3.G to update General Medical Assistance Eligibility and Citizenship Requirements to include Compact of Free Associate (COFA) migrants as eligible non-citizens not subject to a 5-year waiting period. Effective December 27, 2020, section 208 of the Consolidated Appropriations Act of 2021 requires states and the District of Columbia to provide Medicaid coverage for COFA individuals. COFA is an agreement between the United States and the three Pacific Island sovereign states of the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau; also known as Freely Associated States. States must cover COFA migrants in Medicaid as qualified non-citizens without a 5-year waiting period they are otherwise eligible under the Medicaid state plan or section 1115 demonstration.

Eligibility rules at §8.100.3.G.1.g.vi.12 already allow for Medicaid eligibility without a 5-year waiting period for COFA individuals (Micronesia, Marshall Islands, Palau) that are pregnant women, and for children under the age of 19 years. The proposed rule will allow all COFA individuals to be considered qualified non-citizens without a 5-year waiting period, regardless of age or pregnancy. The Centers for Medicare and Medicaid Services (CMS) have provided guidance that the expanded eligibility to this population cannot begin prior to the enactment date of the Consolidated Appropriations Act of 2021. Eligibility for these individuals can begin as early as December 27, 2020. The proposed change will only update rule to consider all COFA individuals as eligible non-citizens. These individuals will still need to meet all other categorical requirement to be eligible for and approved for Medicaid (income, assets, disability, level of care, etc.) based on category.

The authority for this rule is contained in Consolidated Appropriations Act 2021, Section 208; 42 C.F.R. §435.406; Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2021); Section 25.5-4-205, C.R.S. (2021) and Section 24.4-4-103(6)(a), C.R.S. (2021).

MSB 21-08-26-A, Revision to Medical Assistance Special Financing rule concerning the Colorado Dental Health Care Program for Low-Income Seniors, Section 8.960

Medical Assistance. Current rule states that no procedures under the Dental Health Care Program for Low-Income Seniors may be below the Health First Colorado dental payment. Health First Colorado increased the dental rates effective July 1, 2021, and 43 procedures of the Dental Health Care Program for Low-Income Seniors fell below the Health First Colorado dental payment. This rule change will increase the 43 procedures in Appendix A to match the current rate being paid by Health First Colorado.

The authority for this rule is contained in 45 C.F.R. 162-1002(a)(4); Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2021) and Sections 25.5-3-404(4), C.R.S. (2021).

MSB 21-08-28-A, Revision to the Medical Assistance Act Rule concerning Immunization Services, Section 8.815

Medical Assistance. This rule revision is required for the Department to comply with section 6008(b)(4) of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), P.L. 116-136. Specifically, the Department must reimburse providers for COVID-19 testing services and treatments, including vaccines and the administration of such vaccines, provided to Medicaid enrollees. The Department will otherwise no longer qualify for the temporary 6.2 percentage point increase to the Federal Medical Assistance Percentage (FMAP) (the federal government's contribution toward Colorado's Medicaid expenditure) and will be subject to clawback. Current Department policy limits reimbursement for vaccine administration to members 18 and under exclusively through the Vaccines for Children (VFC) program. This revision will allow the Department to reimburse providers for pediatric administration of any and all vaccines provided free of cost by the federal government.

The authority for this rule is contained in Section 6008(b)(4) of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), P.L. 116-136; Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2021).

The Supplemental Nutrition Assistance Program (SNAP) is a Food Assistance program in Colorado, formerly known as Food Stamps. SNAP provides food assistance benefits as part of a federal nutrition program to help low-income households purchase food. The United States Department of Agriculture, Food and Nutrition Services (FNS) annually evaluates Federal income poverty guidelines and cost of living increases to determine appropriate adjustments to income eligibility standards, benefit allotments, and deductions for the upcoming Federal Fiscal Year (FFY). The modified figures are typically made available to states during the month of August immediately prior to the next fiscal year. The Cost of Living Adjustment (COLA) changes in this regulation package are required to become effective 10/01/2021. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The Supplemental Nutrition Assistance Program (SNAP) is a Food Assistance program in Colorado, formerly known as Food Stamps. SNAP provides food assistance benefits as part of a federal nutrition program to help low-income households purchase food. The United States Department of Agriculture, Food and Nutrition Services (FNS) annually evaluates Federal income poverty guidelines and cost of living increases to determine appropriate adjustments to income eligibility standards, benefit allotments, and deductions for the upcoming Federal Fiscal Year (FFY). The modified figures are typically made available to states during the month of August immediately prior to the next fiscal year. The Cost of Living Adjustment (COLA) changes in this regulation package are required to become effective 10/01/2021.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- | | |
|---|---|
| x | to comply with state/federal law and/or |
| | to preserve public health, safety and welfare |

Justification for emergency:

Each year, FNS disseminates the new standards to states for use in the upcoming federal fiscal year. The COLA adjustments were made available to CDHS August 16, 2021 and are mandated to be implemented at the beginning of FFY22 (October 1, 2021). It is imperative to incorporate these rules to comply with federal SNAP regulations that must be effective October 1, 2021. Noncompliance with federal SNAP regulations as of October 1, 2021 conflicts with public interest.

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2020)	State Board to promulgate rules
26-1-109(3), C.R.S. (2020)	State department shall cooperate with federal agencies in any reasonable manner which may be necessary to qualify for federal aid
26-1-111(2)(d)(I), C.R.S. (2020)	State department to promulgate rules for public assistance and welfare activities

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-2-301 (2020), C.R.S.	Designates the Colorado Department of Human Services as the responsible agency to administer the Food Assistance Program in the State of Colorado.
26-2-302 (2020), C.R.S.	Prohibits any interference that would prevent the Colorado Department of Human Services from complying with federal mandates prescribed under the federal "Food Stamp Act" as amended.
26-1-107(5)(b) (2020),	Authorizes the State Board to adopt rules for "programs administered ... by

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Updates to COLA will benefit all SNAP applicants and participants as well as county SNAP administration and staff.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

Annual adjustments to the four-tiered mandatory standard utility allowances, standard deduction, homeless shelter deduction, maximum allotments, and income threshold guidelines have the potential to increase current benefit amounts for participants and increase program accessibility for future applicants.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There is no impact because the costs associated with the Colorado Benefits Management System to incorporate these changes have already been allocated in the system maintenance budget.

County Fiscal Impact

There are no county fiscal impacts associated with this rule change.

Federal Fiscal Impact

There are no federal fiscal impacts associated with this rule change.

Other Fiscal Impact (such as providers, local governments, etc.)

There are no other fiscal impacts associated with this rule change.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Federal memorandums from the Food and Nutrition Services as well as data from the Consumer Price Index for all Urban Consumers were used in the development of this rule.

Program Initiatives Supervisor

Phone: 303-829-7245

E-Mail:

andrea.poole@state.co.us

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just “no alternative” answer should include “no alternative because...”

As COLA is federally mandated by SNAP, federal updates must be incorporated into Colorado regulation prior to implementation. There are no available alternatives that exist to incorporate these program changes statewide.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes
 ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

Title of Proposed Rule: FFY22 SNAP COLA Updates
CDHS Tracking #: 21-08-11-02
 Office, Division, & Program: Office of Economic Security, Food and Energy Assistance Division, SNAP
 Rule Author: Andrea Poole, SNAP Program Initiatives Supervisor
 Phone: 303-829-7245
 E-Mail: andrea.poole@state.co.us

☐ Yes
 ☒ No

Name of Sub-PAC			
Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.	Delay in receiving COLA from FNS; Will be presented 09/02/21		

PAC

Have these rules been approved by PAC?

☐ Yes
 ☒ No

Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.	Delay in receiving COLA from FNS; Will be presented 09/02/21		

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes
 ☒ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

4.207.3 Benefit Allotment

D. The Food Assistance maximum and minimum monthly benefit allotment tables will be adjusted as announced by the United States Department of Agriculture (USDA), Food and Nutrition Service (FNS).

Household Size	Maximum Monthly Allotment Effective October 1, 20202021
1	\$204250
2	\$374459
3	\$535658
4	\$680835
5	\$807992
6	\$9691,190
7	\$1,0711,316
8	\$1,2241,504
Each additional person	+\$153188

Household Size	Minimum Monthly Allotment Effective October 1, 20202021
1-2	\$1620

4.401.1 Gross Income Levels

Effective October 1, 20202021, the gross income level for one hundred thirty percent (130%), two hundred percent (200%), and one hundred sixty-five percent (165%) of the federal poverty level for the corresponding household size is as follows:

Household Size	130% Gross Income Level	200% Gross Income Level	165% Gross Income Level
1	\$1,3831,396	\$2,1282,148	\$1,7551,771
2	\$1,8681,888	\$2,8742,904	\$2,3712,396
3	\$2,3532,379	\$3,6203,660	\$2,9873,020
4	\$2,8392,871	\$4,3684,418	\$3,6033,644
5	\$3,3243,363	\$5,1145,174	\$4,2194,268
6	\$3,8093,855	\$5,8605,930	\$4,8354,893
7	\$4,2954,347	\$6,6086,688	\$5,4515,517
8	\$4,7804,839	\$7,3547,444	\$6,0676,141
Each additional person	+\$486492	+\$748758	+\$616625

4.401.2 Net Income Levels

Effective October 1, 20202021, the net income level of one hundred percent (100%) of the federal poverty level for the corresponding household size is as follows:

Household Size	100% Net Income Level
1	\$1,0641,074
2	\$1,4371,452
3	\$1,8101,830
4	\$2,1842,209
5	\$2,5572,587
6	\$2,9302,965
7	\$3,3043,344
8	\$3,6773,722
Each additional person	+\$374379

4.407.1 Standard Deduction

A standard deduction of 8.31% of the federal poverty income guidelines for the household size AS DESCRIBED IN 4.401.2 will be used to calculate the amount that is allowed to all households. The established standard amount will be adjusted annually as announced by the Food and Nutrition Service, USDA. The calculation of 8.31% of the federal poverty income guidelines for eligible members will be used for all households up to the household size of six (6). All households with six (6) or more eligible members will use the six (6) person standard deduction.

Standard Deduction Amount				
Household Size	1-3	4	5	6+
Effective October 1, 20202021	\$167177	\$181184	\$212215	\$243246

4.407.3 Excess Shelter Deduction

B. A shelter deduction cap, as specified below, applies to households that do not contain a person who is elderly and/or a person with a disability as defined in Section 4.304.41. Those households containing a person who is elderly and/or a person with a disability shall receive an excess shelter deduction for the monthly cost of shelter that exceeds fifty percent (50%) of the household's monthly income after all other applicable deductions.

Shelter Deduction Cap	
Effective October 1, 20202021	\$586597

C. Homeless households shall be entitled to use a standard estimate of shelter expenses for households in which all members are homeless and are not receiving free shelter throughout the calendar month.

The Food and Nutrition Service, USDA, provides an update of this estimated figure annually when the shelter cap for other households is adjusted.

The Homeless Shelter Deduction is as follows:

Homeless Shelter Deduction	
Effective October 1, 20202021	\$156.74159.73

All homeless households that incur, or reasonably expect to incur, shelter costs during a month shall be eligible for the estimate, unless higher shelter costs are verified, at which point the household may use actual shelter costs rather than the estimate.

Homeless households that incur no shelter costs during the month shall not be eligible for the homeless shelter deduction

If a homeless household has difficulty in obtaining traditional types of verification of shelter costs, the eligibility technician shall use the prudent person principle in determining if verification obtained is adequate.

4.407.31 Four-Tiered Mandatory Standard Utility Allowance

A. Heating and Cooling Utility Allowance (HCUA)

4. The HCUA standard is as follows:

HCUA Standard	
Effective October 1, 20202021	\$486493

B. Basic Utility Allowance (BUA)

3. The BUA standard is as follows:

BUA Standard	
Effective October 1, 20192021	\$310314

C. One Utility Allowance (OUA)

3. The OUA standard is as follows:

OUA Standard	
Effective October 1, 20192021	\$5859

D. Telephone Allowance

2. The telephone allowance is as follows:

Telephone Standard	
Effective October 1, 20192021	\$7980

4.408 RESOURCE ELIGIBILITY STANDARDS

E. The resource limits are as follows: Effective October 1, 20172021, the resource limit for households that contain a member who is elderly and/or a person with a disability is three thousand ~~five hundred~~ SEVEN HUNDRED AND FIFTY DOLLARS (\$3,5003,750). The resource limit for households that do not contain a member who is elderly and/or a person with a disability is two thousand FIVE HUNDRED ~~two hundred fifty~~ dollars (\$2,2502,500).

Rulemaking Hearing

Date

10/08/2021

Time

08:30 AM

Location

Location Pending State's response to COVID-19. Anticipated to be held entirely online

Subjects and issues involved

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094s extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

trevor.williams@state.co.us

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094's extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
19-7-315, C.R.S. (2021)	The state department shall promulgate rules for the implementation of this part 3, including but not limited to rules concerning eligibility determinations, administrative appeals of eligibility determinations, enrollment into the transition program, emancipation transition plans and roadmaps to success, and expedited procedures for securing temporary shelter for youth who are currently homeless or at imminent risk of homelessness.

Does the rule incorporate material by reference?

☐

Yes

☒

No

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

Some requirements of HB 21-1094 are specific and organizing the requirements into Volume 7 while maintaining the language from statute ensures the highest level of support to counties and fidelity to the law.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-1)		
CDHS Tracking #: 21-04-28-01		
Office, Division, & Program:	Rule Author: Trevor Williams	Phone: 303-866-4539
		E-Mail: trevor.williams@state.co.us

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Current and former foster youth will experience the greatest benefit from these rules. Groups that will experience additional work requirements as a result of these rules include county departments. The Office of the Child's Representative and judicial partners are both impacted by HB 21-1094, but they are not directly impacted by these rules.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

The Division of Child Welfare estimates that approximately 59 youth per year will choose to reenter foster care as a result of HB 21-1094, which is implemented in part by these rules. These youth will constitute the new population served through the Foster Youth in Transition Program. However, the broader population of foster youth who reach the age of 18 while in care will also experience the benefits of these rules. Prior to HB 21-1094, there was little differentiation in statute or rule between minor children under age 18 and youth 18 to 21 who stayed in foster care, and as a result most youth exit and experience a cliff effect near their 18th birthdays. HB 21-1094 and these rules support the distinct developmental needs of emerging adults. Youth in foster care are not given the right to make informed choices while enjoying the types of support that a typical Colorado family provides to their own children transitioning to adulthood. By implementing HB 21-1094, these rules create the structure for a developmentally appropriate extended foster care system that respects the needs of 18- to 21-year-olds, while providing that crucial support.

Implementation of HB 21-1094 includes a workload impact for county departments, however this will be offset by an increase to the child welfare block appropriated through the general fund.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because..."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There are no fiscal impacts directly resulting from these rules. Some changes to the Trails system will be required; however, those costs will be covered by existing federal funds. The Office of the Child's Representative will have a small fiscal impact from the legislation, not the rules, which is funded through an appropriation to their office for implementation of HB 21-1094.

County Fiscal Impact

There are no fiscal impacts directly resulting from these rules. The legislation, however, does create a fiscal impact to counties. Those costs will be covered by an appropriation made to the Child Welfare block for implementation of HB 21-1094.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-1)

CDHS Tracking #: 21-04-28-01

Office, Division, & Program:

Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

Federal Fiscal Impact

Revisions to these rules ensure Colorado has the structure to draw down federal funds to which the state is entitled for serving this population. Because these rules comply with requirements set forth in Title IV-E of the Social Security Act, the Division of Child Welfare anticipates that the majority of youth participating in the Foster Youth in Transition Program will be eligible for Federal IV-E financial participation.

Other Fiscal Impact (such as providers, local governments, etc.)

No impact to other providers, local governments, or other agencies is anticipated.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Colorado's foster care system, as it has traditionally existed, is leading to negative outcomes for many youth who have made the transition from foster care to adulthood. The National Youth in Transition Database Survey, a longitudinal study of youth involved with child welfare, has shown that at least 36% of former foster youth in Colorado have experienced homelessness, 21% have been incarcerated, and 29% become parents by age 21. National data shows it is likely the true rate of early parenthood is much higher. The Midwest Study of Adult Functioning of Former Foster Youth demonstrates that developmentally appropriate extended foster care is key to improving these outcomes. A growing body of evidence demonstrates that providing youth the opportunity to reenter a developmentally appropriate foster care system during that transition, if needed, also improves outcomes for these youth. HB 21-1094 was developed using this information, as well as feedback provided by youth advocates and runaway and homeless youth providers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There is no alternative because HB 21-1094 requires that rules be promulgated for implementation of the law.

OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The rules were developed through a Child Welfare SubPAC approved task group and included representation from urban and rural counties across the state, runaway and homeless youth providers, the Office of the Child's Representative, foster care providers, child placement agencies, and a youth advocacy group.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

County departments of human/social services, Office of the Child's Representative, Colorado Network to End Youth Homelessness, Rural Collaborative for Homeless Youth, Project Foster Power.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Child Welfare		
Date presented	8/5/2021		
What issues were raised?	None		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	Unanimous

Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.			

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☐ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

(12 CCR 2509-1)

<Title2>7.000.1 PROGRAM AREAS (PA) AND TARGET GROUPS

Services are available from county departments in the following Program Areas:

- A. Program for Prevention and Intervention Services to Children, Youth and Families at Risk of Involvement with Child Welfare (PA3)

The Program Area 3 (PA3) program provides prevention and intervention services for children, youth, and families at risk of involvement with child welfare. Services may be provided to assist families to safely care for their children.

- B. Program for Youth in Conflict (PA 4)

Program Area 4 services are provided to reduce or eliminate conflicts between a child/youth and their family members, which may include the community, when those conflicts affect the child/youth's well-being, the normal functioning of the family or the well-being of the community. The focus of services shall be on alleviating conflicts, protecting the child/youth, family, and the community, re-establishing family stability, and/or assisting the youth to emancipate successfully.

Target groups for Program Area 4 are children/youth who are youth in conflict, as defined in 7.000.2.

- C. Program for Children in Need of Protection (PA 5)

Program Area 5 services are provided to protect children, whose physical, mental or emotional well-being is threatened by the actions or omissions of parents, legal guardians or custodians, or persons responsible for providing out-of-home care, including a foster parents, an employee of a residential child care facility, and a provider of family child care or center-based child care.

Target groups for Program Area 5 are children whose physical, mental, or emotional well-being is threatened or harmed due to the abuse or neglect and children who are subjected to circumstances in which there is a reasonable likelihood that they are at risk of harm due to abuse or neglect by their parents or caretakers which shall include children who are alleged to be responsible for the abuse or neglect and are under the age of ten (10).

- D. Program for Children and Families in Need of Specialized Services (PA 6)

Program Area 6 services are to provide statutorily authorized services to specified children/YOUTH and families in which the reason for service is not protective services or youth in conflict. These services are limited to children/YOUTH and families in need of adoption assistance, relative guardianship assistance, or Medicaid only services, ~~or to children/YOUTH for whom the goal is no longer reunification, OR YOUTH WHO OPT INTO SERVICES PROVIDED BY THE FOSTER YOUTH IN TRANSITION PROGRAM AS ESTABLISHED IN § 19-7-301, C.R.S.~~ The purpose of services in Program Area 6 is to fulfill statutory requirements in the interests of permanency planning for children/YOUTH. Children/YOUTH must meet specific program requirements to receive services under the target groups.

Target Group information is located at Section 7.203 (12 CCR 2509-3).

- E. Program for Resource Development (PA 7)

The purpose of Program Area 7 is to develop and coordinate the external resources necessary to fulfil the objectives of the social services programs.

Target Groups served by this program area are the individuals who will be serving children and families in such roles as volunteers, foster or kinship parents for children, adults, personal caregivers, homemakers or child care parents, or adoptive parents.

7.000.2 DEFINITIONS [Rev. eff. 1/1/16]

“HOUSING FIRST” MEANS AN APPROACH TO QUICKLY AND SUCCESSFULLY CONNECT INDIVIDUALS AND FAMILIES EXPERIENCING HOMELESSNESS TO PERMANENT HOUSING WITHOUT PRECONDITIONS AND BARRIERS TO ENTRY, SUCH AS SOBRIETY, TREATMENT OR SERVICE PARTICIPATION REQUIREMENTS. SUPPORTIVE SERVICES ARE OFFERED TO MAXIMIZE HOUSING STABILITY AND PREVENT RETURNS TO HOMELESSNESS AS OPPOSED TO ADDRESSING PREDETERMINED TREATMENT GOALS PRIOR TO PERMANENT HOUSING ENTRY.

"VOLUNTARY SERVICES AGREEMENT" MEANS A STANDARDIZED VOLUNTARY SERVICES AGREEMENT APPROVED BY THE STATE DEPARTMENT AND IS ENTERED INTO BY A PARTICIPATING YOUTH PURSUANT TO SECTION 19-7-306, C.R.S.

Time

08:30 AM

Location

Location Pending State's response to COVID-19. Anticipated to be held entirely online

Subjects and issues involved

The charging documents for Child Abuse and Neglect cases Notices of Issues (NOI) include protected abuse and neglect information and regularly need to include some level of medical information for the alleged victim because an element of these cases is to show that the victim was abused or neglected. Mistreatment often-times involves investigation and diagnosis by a medical provider. The requirement to include medical information about the alleged victim in the NOI is in conflict with the state's obligation to protect this information. Presently, the state may file a motion for a protective order from the court. However, the Office of Administrative Courts (OAC) currently does not permit the filing of such a motion prior to the submission of an NOI. As such, NOIs are routinely filed before the granting of a protection order, which, in turn, releases information before protection is in place. Additionally, filing motions in all of these cases creates an undue burden on the Attorney General's office as well as the OAC which is not a good use of state resources and is inconsistent with the protection of neglected and/or abused children. The rule change will resolve these concerns by requiring the OAC to issue protective orders at the time of the NOI. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The charging documents for Child Abuse and Neglect cases Notices of Issues (NOI) include protected abuse and neglect information and regularly need to include some level of medical information for the alleged victim because an element of these cases is to show that the victim was abused or neglected. Mistreatment often-times involves investigation and diagnosis by a medical provider. The requirement to include medical information about the alleged victim in the NOI is in conflict with the state's obligation to protect this information.

Presently, the state may file a motion for a protective order from the court. However, the Office of Administrative Courts (OAC) currently does not permit the filing of such a motion prior to the submission of an NOI. As such, NOIs are routinely filed before the granting of a protection order, which, in turn, releases information before protection is in place.

Additionally, filing motions in all of these cases creates an undue burden on the Attorney General's office as well as the OAC which is not a good use of state resources and is inconsistent with the protection of neglected and/or abused children.

The rule change will resolve these concerns by requiring the OAC to issue protective orders at the time of the NOI.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- | | |
|-------------------------------------|---|
| <input checked="" type="checkbox"/> | to comply with state/federal law and/or |
| <input checked="" type="checkbox"/> | to preserve public health, safety and welfare |

Justification for emergency:

Present procedure requires that certain sensitive abuse and neglect, as well as medical, information be made available to appellants in initial charging documents relating to Child Abuse and Neglect cases. It is in the interest of preserving public health, safety and welfare to have such information protected during proceedings before the OAC. Further, the state is obligated under state and federal law to protect such sensitive information. Without the uniform issuance of protective orders in all child welfare cases when they are set, there are concerns with victims' protected information being shared before an Administrative Law Judge can review and enter a protective order.

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2020)	State Board to promulgate rules

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
19-3-216, C.R.S. (2020)	State Board shall promulgate rules to determine whether there is child abuse or neglect or if a child is neglected or dependent.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Appellants with substantiated findings indicating they were responsible for abuse or neglect of a child and the children that are the subjects of those findings.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

This rule change will afford greater protections of private, confidential, and sensitive information for children who have cases that are part of an appeal.

During the 2020-2021 Fiscal Year, 171 Child Abuse and Neglect cases were set by the Office of Administrative Courts. It can be assumed that a similar number of these cases will be set by the Office of Administrative Court in fiscal year 2021-2022. The children and persons involved in those cases will be impacted by this rule change in that their information will be more secure.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

This rule change may have a minor impact on the Office of Administrative Courts, as it will require the issuance of a protective order signed by an Administrative Law Judge in every Child Abuse and Neglect case. However, the Attorney General's office currently files motions for protective orders routinely in most, if not all, Child Abuse and Neglect cases, which requires the Administrative Law Judge to review a motion filed in every case and issue a ruling. Under the new procedure, the Administrative Law Judge will only be required to sign a standard protective order issued simultaneously with the procedural setting order, which may save the Office of Administrative Courts time and resources.

This rule change should have an impact on the legal costs incurred by the Administrative Review Division. The Attorney General's office estimates that approximately two hours of time are required to prepare, edit, and file a motion for a protective order and a proposed order in the Office of the Administrative Courts. Using the numbers from fiscal year 2020-2021 and assuming a similar case load in fiscal year 2021-2021 (if anything, the number of cases next year will rise), Child Abuse and Neglect cases will experience a reduction of approximately 342 hours in billable attorney hours, which are billed at a blended rate of \$106/hour, creating a potential annual savings of \$36,252.

County Fiscal Impact

As county departments are not involved in this specific aspect of the hearing process, there is no fiscal impact.

Title of Proposed Rule: Child Abuse and Neglect Cases and Protective Orders

CDHS Tracking #: 21-08-18-02

Office, Division, & Program: Rule Author: Marc Mackert, Director,

Phone: Office: 720-512-8814

E-Mail:

marc.mackert@state.co.us

Federal Fiscal Impact

The appeals process is funded through a cash fund. As such, there is no federal fiscal impact.

Other Fiscal Impact (such as providers, local governments, etc.)

None

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

During the current Fiscal Year (2020-2021), 171 Child Abuse and Neglect cases were set by the Office of Administrative Courts. Future impact analysis was based on the assumption of similar numbers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

Until now, the Attorney General's office has been filing motions requesting protective orders for each individual Child Abuse and Neglect appeal before the Office of Administrative Courts. While it would be possible to continue this practice, it expends considerable attorney time to draft and file the motions and proposed orders. It also requires time for an Administrative Law Judge from the Office of Administrative Courts to review and rule upon each motion filed. Because the Office of Administrative Courts generally will not consider motions for protective orders until an appeal has been placed at issue, through the filing of a Notice of Issues, there is a risk in this practice that confidential information will be disclosed in violation of rule and law before a protective order has entered. There is also a risk that the Administrative Law Judges may, in their individual discretion, deny motions for protective orders, resulting in inconsistent protection of the confidential information of child victims.

Addressing this challenge through rule-making will eliminate the need for the Attorney General's office to file motions for protective orders in individual cases as well as the need for individual review by an Administrative Law Judge. By establishing the issuance of a standard protective order through rule, the risk of inconsistent protection of the confidential information of at-risk victims will also be reduced.

OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail

REFERRAL AND ASSESSMENT

12 CCR 2509-2

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

7.112 STATE FAIR HEARING BEFORE THE OFFICE OF ADMINISTRATIVE COURTS

- B. When the Office of Administrative Courts receives the appeal documents from the State Department, the Office of Administrative Courts shall docket the appeal and enter a procedural order to the parties indicating the following:
1. The date and time for a telephone scheduling conference with the parties.
 2. During the telephone scheduling conference, the Office of Administrative Courts shall determine the date for the hearing. Following the scheduling conference, the Office of Administrative Courts will issue a further procedural order and notice of hearing. The order/notice will contain the hearing date, the fourteen (14) day deadline for the notice of issues, the fourteen (14) day deadline for response and deadline for filing pre-hearing statements. Any party requiring an extension or modification of any of the deadlines in the order may file a request with the Administrative Law Judge. THE OFFICE OF ADMINISTRATIVE COURTS SHALL ALSO ISSUE A PROTECTIVE ORDER WHICH WILL PROTECT AND GOVERN THE HANDLING OF ALL PLEADINGS, DISCOVERY, AND EVIDENCE. THE ORDER MUST BE SIGNED BY AN ADMINISTRATIVE LAW JUDGE AND MUST STATE THAT:
 - a. ANY DOCUMENTS EXCHANGED BY THE PARTIES CONTAINING CONFIDENTIAL INFORMATION, INCLUDING, BUT NOT LIMITED TO PLEADINGS, TRAILS REPORTS AND INVESTIGATIVE RECORDS, MEDICAL RECORDS, LAW ENFORCEMENT INVESTIGATION RECORDS, AND DOCUMENTS REGARDING CHILD VICTIMS WILL BE USED FOR THE SOLE PURPOSE OF PROCEEDING WITH THIS APPEAL.
 - b. THE PARTIES MAY DISCLOSE CONFIDENTIAL INFORMATION TO THEIR ATTORNEYS OR ANY EXPERT WITNESS ONLY AS NECESSARY FOR THE PROSECUTION OR DEFENSE OF THE APPEAL. THE APPELLANT IS NOT AUTHORIZED TO DISCLOSE OR USE CONFIDENTIAL INFORMATION FOR ANY OTHER PURPOSE.
 - c. THE PARTIES MAY EXCHANGE DISCOVERY CONTAINING INFORMATION THAT IS CONFIDENTIAL UNDER DEPARTMENT RULE 12 CCR 2509-2, § 7.111.
 - d. TO THE EXTENT THAT THE PARTIES MAY DISCLOSE CONFIDENTIAL RECORDS TO EXPERT WITNESSES, THE PARTIES SHALL PROVIDE A COPY OF THE PROTECTIVE ORDER TO THE EXPERT WITNESSES AND ADVISE THE EXPERT WITNESS OF HIS OR HER OBLIGATION NOT TO DISCLOSE THE RECORDS OR INFORMATION LEARNED FROM THE CONFIDENTIAL RECORDS.

- e. THE EXCHANGE AND USE OF THE CONFIDENTIAL INFORMATION OR RECORDS DOES NOT WAIVE THE RIGHT OF EITHER PARTY TO OBJECT TO THE ADMISSION OF THE DOCUMENTS INTO EVIDENCE ON ANY GROUNDS.
 - f. IF THE PARTIES USE OR OFFER CONFIDENTIAL INFORMATION OR RECORDS AS EVIDENCE DURING THE COURSE OF THE HEARING, COUNSEL AND THE PARTIES SHALL TAKE REASONABLE MEASURES TO PROTECT SUCH INFORMATION OR RECORDS FROM PUBLIC DISCLOSURE INCLUDING BUT NOT LIMITED TO FILING RECORDS UNDER SEAL.
 - g. THE APPELLANT MUST DESTROY OR RETURN TO THE DEPARTMENT ALL PROTECTED HEALTH AND ABUSE AND NEGLECT INFORMATION (INCLUDING ALL COPIES MADE) AT THE END OF THE APPEAL OR, SHOULD THE APPELLANT CHOOSE TO PURSUE ANY FURTHER ADMINISTRATIVE REMEDIES, WHEN THOSE REMEDIES HAVE BEEN EXHAUSTED.
 - h. THE HEARING REGARDING THE FACTUAL BASIS FOR THE CHILD ABUSE AND/OR NEGLECT FINDING SHALL BE CLOSED TO THE PUBLIC.
 - i. THIS ORDER DOES NOT PROHIBIT THE DEPARTMENT FROM USING DOCUMENTS OR INFORMATION AS AUTHORIZED, REQUIRED, OR PERMITTED BY LAW.
3. The notice of issues shall include the following:
- a. The specific allegations(s) that form the basis of the county department's finding that the Appellant was responsible for child abuse or neglect;
 - b. The specific type and severity of child abuse asserted against Appellant and the legal authority supporting the finding; and,
 - c. To the extent that the State Department determines that the facts contained in the state automated case management system support a modification of the type or severity of child abuse or neglect determined by the county department, the State Department shall so notify the county department and the Appellant of that modification and the process shall proceed on the modified finding(s).
4. The Appellant shall respond to the State Department's submittal by providing the factual and legal basis supporting the appeal to the State Department and to the Office of Administrative Courts.
5. If the Appellant fails to participate in the scheduling conference referenced above or fails to submit the response referenced herein, the Office of Administrative Courts shall deem the appeal to have been abandoned by the Appellant and render an Initial Decision Dismissing Appeal. In accordance with the procedures set forth below, the Office of Appeals may reinstate the appeal for good cause shown by the Appellant.
6. In the event that either party fails to respond to a motion to dismiss filed in the appeal, the Administrative Law Judge shall not consider the motion to be confessed and shall render a decision based on the merits of the motion.
- C. The Administrative Law Judge shall conduct the appeal in accordance with the Administrative Procedure Act, Section 24-4-105, C.R.S. The rights of the parties include:

1. The State Department shall have the burden of proof to establish the facts by a preponderance of the evidence and that the facts support the conclusion that the Appellant is responsible for the child abuse or neglect indicated in the notice of issues provided by the State Department. The state automated case management system is not the only acceptable evidence for establishing that the finding is supported by a preponderance of evidence;
 2. Each party shall have the right to present his or her case or defense by oral and documentary evidence, to submit rebuttal evidence, and to conduct cross-examination;
 3. Subject to these rights and requirements, where a hearing will be expedited and the interests of the parties will not be subsequently prejudiced thereby, the Administrative Law Judge may receive all or part of the evidence in written form or by oral stipulations;
 4. A telephonic hearing may be conducted as an alternative to a face-to-face hearing unless either party requests a face-to-face hearing in writing. The written request for a face-to-face hearing must be filed with the Office of Administrative Courts and the other party at least ten (10) calendar days before the scheduled hearing. A request for a face-to-face hearing may necessitate the re-setting of the hearing; and,
 5. Where facilities exist that have videoconferencing technology local to the county department that made the founded finding, either party may request that the hearing be conducted via that technology. The requesting party shall investigate the feasibility of this approach and shall submit a written request outlining the arrangements that could be made for video conference. The Office of Administrative Courts shall hold the hearing via videoconferencing for the convenience of the parties whenever requested and feasible. A request for a hearing via videoconferencing may necessitate the re-setting of the hearing.
- D. At the conclusion of the hearing, unless the Administrative Law Judge allows additional time to submit documentation, the Administrative Law Judge shall take the matter under advisement. After considering all the relevant evidence presented by the parties, the Administrative Law Judge shall render an Initial Decision for review by the Colorado Department of Human Services, Office of Appeals.
- E. The Initial Decision shall uphold, modify or overturn/reverse the county finding. The Administrative Law Judge shall have the authority to modify the type and severity level of the child abuse or neglect finding to meet the evidence provided at the hearing. The Administrative Law Judge shall not order the county to modify its record; rather, the State Department shall indicate the outcome of the appeal in its portion of the state automated case management system.
- F. When an Appellant fails to appear at a duly scheduled hearing having been given proper notice, without having given timely advance notice to the Office of Administrative Courts of acceptable good cause for inability to appear at the hearing at the time, date and place specified in the notice of hearing, then the appeal shall be considered abandoned and the Administrative Law Judge shall enter an Initial Decision Dismissing Appeal. In accordance with the procedures set forth in Section 7.114, the Office of Appeals may reinstate the appeal for good cause shown by the Appellant.

Time

08:30 AM

Location

Location Pending State's response to COVID-19. Anticipated to be held entirely online

Subjects and issues involved

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094s extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094's extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
19-7-315, C.R.S. (2021)	The state department shall promulgate rules for the implementation of this part 3, including but not limited to rules concerning eligibility determinations, administrative appeals of eligibility determinations, enrollment into the transition program, emancipation transition plans and roadmaps to success, and expedited procedures for securing temporary shelter for youth who are currently homeless or at imminent risk of homelessness.

Does the rule incorporate material by reference?

☐

Yes

☒

No

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

Some requirements of HB 21-1094 are specific and organizing the requirements into Volume 7 while maintaining the language from statute ensures the highest level of support to counties and fidelity to the law.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-2)

CDHS Tracking #: 21-04-28-02

Office, Division, & Program: Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Current and former foster youth will experience the greatest benefit from these rules. Groups that will experience additional work requirements as a result of these rules include county departments. The Office of the Child's Representative and judicial partners are both impacted by HB 21-1094, but they are not directly impacted by these rules.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

The Division of Child Welfare estimates that approximately 59 youth per year will choose to reenter foster care as a result of HB 21-1094, which is implemented in part by these rules. These youth will constitute the new population served through the Foster Youth in Transition Program. However, the broader population of foster youth who reach the age of 18 while in care will also experience the benefits of these rules. Prior to HB 21-1094, there was little differentiation in statute or rule between minor children under age 18 and youth 18 to 21 who stayed in foster care, and as a result most youth exit and experience a cliff effect near their 18th birthdays. HB 21-1094 and these rules support the distinct developmental needs of emerging adults. Youth in foster care are not given the right to make informed choices while enjoying the types of support that a typical Colorado family provides to their own children transitioning to adulthood. By implementing HB 21-1094, these rules create the structure for a developmentally appropriate extended foster care system that respects the needs of 18- to 21-year-olds, while providing that crucial support.

Implementation of HB 21-1094 includes a workload impact for county departments, however this will be offset by an increase to the child welfare block appropriated through the general fund.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There are no fiscal impacts directly resulting from these rules. Some changes to the Trails system will be required; however, those costs will be covered by existing federal funds. The Office of the Child's Representative will have a small fiscal impact from the legislation, not the rules, which is funded through an appropriation to their office for implementation of HB 21-1094.

County Fiscal Impact

There are no fiscal impacts directly resulting from these rules. The legislation, however, does create a fiscal impact to counties. Those costs will be covered by an appropriation made to the Child Welfare block for implementation of HB 21-1094.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-2)

CDHS Tracking #: 21-04-28-02

Office, Division, & Program: Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

Federal Fiscal Impact

Revisions to these rules ensure Colorado has the structure to draw down federal funds to which the state is entitled for serving this population. Because these rules comply with requirements set forth in Title IV-E of the Social Security Act, the Division of Child Welfare anticipates that the majority of youth participating in the Foster Youth in Transition Program will be eligible for Federal IV-E financial participation.

Other Fiscal Impact (such as providers, local governments, etc.)

No impact to other providers, local governments, or other agencies is anticipated.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Colorado's foster care system, as it has traditionally existed, is leading to negative outcomes for many youth who have made the transition from foster care to adulthood. The National Youth in Transition Database Survey, a longitudinal study of youth involved with child welfare, has shown that at least 36% of former foster youth in Colorado have experienced homelessness, 21% have been incarcerated, and 29% become parents by age 21. National data shows it is likely the true rate of early parenthood is much higher. The Midwest Study of Adult Functioning of Former Foster Youth demonstrates that developmentally appropriate extended foster care is key to improving these outcomes. A growing body of evidence demonstrates that providing youth the opportunity to reenter a developmentally appropriate foster care system during that transition, if needed, also improves outcomes for these youth. HB 21-1094 was developed using this information, as well as feedback provided by youth advocates and runaway and homeless youth providers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There is no alternative because HB 21-1094 requires that rules be promulgated for implementation of the law.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The rules were developed through a Child Welfare SubPAC approved task group and included representation from urban and rural counties across the state, runaway and homeless youth providers, the Office of the Child's Representative, foster care providers, child placement agencies, and a youth advocacy group.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

County departments of human/social services, Office of the Child's Representative, Colorado Network to End Youth Homelessness, Rural Collaborative for Homeless Youth, Project Foster Power.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-2)

CDHS Tracking #: 21-04-28-02

Office, Division, & Program: Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

**<Title2>7.103 Receipt Of Referral Alleging Intrafamilial Or Third Party Abuse And/Or Neglect
And/Or A Youth In Conflict– Information To Be Gathered**

- A. Upon receipt of a report alleging intrafamilial or third party abuse and/or neglect, and/or a youth in conflict, the county departments or the Hotline County Connection Center shall gather and document the following information, when available.
 - 1. Reporting party's:
 - a. Name;
 - b. Address;
 - c. Telephone number;
 - d. Reporter type; and
 - e. Relationship to the alleged victim child(ren)/youth and/or a youth in conflict.
 - 2. Alleged victim child(ren)/youth's and/or a youth in conflict:
 - a. Name;
 - b. Address;
 - c. Current specific location;
 - d. School or child care (if applicable);
 - e. Birth date(s) or estimated age(s);
 - f. Information as to whether or not the child(ren)/youth have American Indian or native Alaskan heritage, and if so, the tribal affiliation; and
 - g. Any developmental delays, physical disabilities, competency or cultural considerations.
 - 3. Family and household members:
 - a. Names;
 - b. Birth date(s) or estimated age(s);
 - c. Relationship to each other;
 - d. Relationship to the alleged victim child(ren)/youth and/or a youth in conflict; and
 - e. Any developmental delays, physical disabilities, competency or cultural considerations.
 - 4. Person(s) alleged to be responsible for the abuse and/or neglect:

- a. Name;
 - b. Birth date(s) or estimated age(s);
 - c. Present location;
 - d. Current or last known address;
 - e. Relationship to the alleged victim child(ren)/youth; and
 - f. Any developmental delays, physical disabilities, competency or cultural considerations.
 5. Narrative describing the presenting problems and specific allegations of the abuse and/or neglect, including but not limited to:
 - a. When it occurred;
 - b. Location;
 - c. Witness(es) of the incident; and
 - d. Description of any injury that was sustained.
 6. The date, time, and location the alleged victim child(ren)/youth and/or a youth in conflict were last seen by the reporting party.
 7. The nature of any other environmental hazards in the home which may impact child(ren)/youth or worker safety.
 8. The name and contact information of any individuals who may have information about the referral, and/or the identity and contact information of collateral agencies and individuals involved with the family.
 9. Date and time referral received.
 10. Family strengths and supports, and/or other protective factors or actions taken.
- B. If at any point during the referral process, a county department becomes aware of an allegation that a child(ren)/youth is, or may be, a victim of sex trafficking, the county department shall:
1. Report immediately, and no later than twenty-four (24) hours from when the county department becomes aware, to the local law enforcement agency; and,
 2. Document the details of the report to law enforcement in the state automated case management system.
- C. If at any point during the referral process WHEN THE REPORTING PARTY IS A RUNAWAY AND HOMELESS YOUTH PROVIDER, AND a county department becomes aware that a youth is experiencing homelessness, has run away, or is unaccompanied and is seeking shelter, THEN the county department shall gather and document the following information:
1. Does the provider believe there is a reasonable plan in place to keep the child or youth free from harm, and, if not, what the provider believes would prevent harm,

2. Has the shelter provider notified parent(s)/guardian(s) and, if so, what is their response; and
3. When did intake of the child or youth occur and how many days are left in the 21-day shelter period allowable pursuant to section 26-5.7-107, C.R.S.

7.103.3 RECEIPT OF REFERRAL, JURISDICTION, AND INITIAL REVIEW WHEN A YOUTH IS SEEKING REENTRY SERVICES THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM

- A. UPON RECEIPT OF A REPORT REGARDING A YOUTH IN NEED OF SERVICES TO REENTER THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM PURSUANT TO THE COLORADO REVISED STATUTES, ARTICLE 7, PART 3 OF TITLE 19, THE COUNTY OR HOTLINE COUNTY CONNECTION CENTER SHALL GATHER THE FOLLOWING INFORMATION, WHEN AVAILABLE:
 1. THE REPORTING PARTY'S:
 - a. NAME;
 - b. ADDRESS;
 - c. TELEPHONE NUMBER;
 - d. REPORTER TYPE; AND
 - e. RELATIONSHIP TO THE YOUTH SEEKING SERVICES.
 2. THE FOLLOWING INFORMATION REGARDING THE YOUTH SEEKING SERVICES:
 - a. LEGAL NAME;
 - b. ADDRESS OR COUNTY WHERE THE YOUTH SELF ATTESTS TO RESIDING;
 - c. CURRENT SPECIFIC LOCATION AND CONTACT INFORMATION;
 - d. BIRTH DATE(S) OR ESTIMATED AGE(S);
- B. THE COUNTY IN WHICH A YOUTH SELF ATTESTS TO RESIDING SHALL HAVE JURISDICTION FOR A REENTRY REFERRAL TO THE FOSTER YOUTH IN TRANSITION PROGRAM.
- C. UPON RECEIPT OF A REQUEST FOR REENTRY SERVICES THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM A COUNTY DEPARTMENT SHALL INITIATE A REVIEW OF ELIGIBILITY, NOTIFICATIONS, PROVISION OF SERVICES, AND TIMELINES AS DESCRIBED IN 7.203.40, ET SEQ. (12 CCR 2509-3).

7.103.34 Initial Review [Eff. 3/1/18]

When available, the county department shall gather the information in Section 7.103.1, A and/or B, and conduct an initial review. The initial review shall decide if no further action is required, if the referral shall be assigned for assessment, the appropriateness of an immediate response to an assessment, the need for red team review, and/or the appropriateness of a referral to prevention services. It shall include, but not be limited to, the following actions:

- A. Review the child(ren)/youth's vulnerability as defined in section 7.000.2.
- B. Review the state automated case management system and any available county department files within twenty-four (24) hours for:
 - 1. Prior referrals and/or involvement with the alleged victim child(ren), family, and person(s) alleged to be responsible for the abuse and/or neglect;
 - 2. Actions taken; and
 - 3. Services provided to inform whether there is known or suspected abuse and/or neglect or serious threats of harm to a child.
- C. As available and appropriate, obtain information from collateral sources such as schools, medical personnel, law enforcement agencies, or other care providers.
- D. All referrals shall be reviewed and approved by a supervisor, and documented in the state automated case management system. The review shall include, at a minimum, two certified child welfare staff. If there is disagreement in the determination, the referral shall be reviewed through the red team process.
- E. Prevention services shall be considered, if available, for screened out referrals.

7.103.45 Referrals Requiring No Further Action

County departments may determine that a referral does not require further action and screen it out for the following reasons:

- A. The current allegations have previously been assessed;
- B. The alleged victim child(ren) or youth in conflict are not located or reside in the State of Colorado. In this circumstance, the county department shall inform the other state or county department of the referral;
- C. Referral does not meet criteria of abuse and/or neglect as defined in statutes and regulations;
- D. Referral lacks sufficient information to locate the alleged victim child(ren) or youth in conflict; or
- E. Referral is duplicative of a previous referral. In this circumstance, the county department shall associate the duplicate referral with the previous referral in the state automated case management system).

A referral cannot be considered duplicate if the following circumstances are present:

- 1. Different incident date;
 - 2. Different alleged victim;
 - 3. Different alleged person responsible for abuse and/or neglect;
 - 4. Different household; and/or
 - 5. Additional information poses a new or renewed threat of safety to the child(ren)/youth.
- F. The person alleged to be responsible for the abuse and/or neglect is a third (3rd) party and ten (10) years of age or older. In this circumstance, the county department shall send the referral to the appropriate law enforcement agency.

- G. There is no current allegation of child abuse and/or neglect;
- H. More appropriate services for the child/youth who is alleged to be a youth in conflict are currently being provided by another agency;
- I. Referral does not meet the definition of youth in conflict as defined in section CCR 2509-1, 7.000.2; and
- J. The decision to screen out a referral shall be made by a minimum of two (2) certified child welfare staff from the same county or in conjunction with another county. When there is disagreement to screen out, the referral shall be reviewed through the red team process.

7.103.56 Criteria For Assigning A Referral For Assessment

- A. County departments shall screen in and assign a referral for assessment if it:
 - 1. Contains specific allegations of known or suspected abuse and/or neglect as defined in Section 7.000.2;
 - 2. Provides sufficient information to locate the alleged victim; and
 - 3. Identifies a victim under the age of eighteen (18).
- B. Any time a case is opened, it shall come through the referral or assessment process in the state automated case management system with the exception of Interstate Compact on the Placement of Children (ICPC), out of state subsidized adoption, out of state Medicaid, Interstate Compact on Adoption and Medicaid Assistance (ICAMA), or Division of Youth Services (DYS) Medicaid only.
- C. The county department shall review and respond, either with a face-to-face intervention or by telephone, when notified by the court-appointed detention screener or a law enforcement officer of a child or/youth in the custody of a law enforcement agency who is inappropriate for secure detention but cannot be returned home.

7.103.670 Response Time for Referrals Assigned for Assessment

- A. County departments shall assign the appropriate response time for assessments based upon the date the referral is received using the following criteria:
 - 1. An immediate response is required when a referral indicates that:
 - a. There may be present danger of moderate to severe harm; or,
 - b. The child's vulnerability and/or factors such as drug and alcohol abuse, violence, isolation, or risk of flight increase the need for immediate response.
 - c. An immediate response shall require a response within eight (8) hours from the receipt of the referral. If the victim child(ren)/youth cannot be located within the initial timeframe, subsequent face to face contact attempts shall continue to be made every twenty-four (24) hours from the time of the initial attempted contact.
 - 2. A three (3) calendar day response is required when a referral indicates that:
 - a. There may be impending danger of moderate to severe harm; or,
 - b. The alleged victim child(ren)'s vulnerability and/or factors such as drug and alcohol abuse, violence, isolation, or risk of flight, increase the need for intervention in the near future.

- c. The three (3) calendar day count starts on the day following the receipt of a referral, and expires at the end of the third calendar day at 11:59 PM following receipt of the referral.
 - D. If the victim child(ren)/youth cannot be located within the initial timeframe, subsequent face to face contact attempts shall continue to be made within every subsequent three calendar days.
 - 3. A five (5) working day response is required when:
 - A. A referral indicates an absence of safety concerns.
 - B. The five (5) day count starts on the first business day following the receipt of a referral and expires at the end of the fifth business day at 11:59 PM following the receipt of the referral.
 - C. If the victim child(ren)/youth or child/youth in conflict cannot be located within the initial timeframe, subsequent face to face contact attempts shall continue to be made within every subsequent five business days.
- B. The decision of how quickly to initiate an assessment shall be based on specific reported information that is credible and that indicates whether a child may be unsafe or at risk of harm.

7.103.671 Red Teams

- A. County departments shall implement a process utilizing the Red Team framework to review referrals with:
 - 1. Child welfare history that includes three (3) or more assessments within the past year regarding the household members in the current referral;
 - 2. Narrative that identifies the alleged victim child(ren)/youth as a child/youth with a vulnerability as defined in section 7.000.2;
 - 3. Two (2) or more screened out non-duplicative referrals with no assessment in the prior twelve (12) months; and/or
 - 4. Criminal history that includes felony and/or misdemeanor convictions related to child abuse and/or neglect, including crimes of violence, domestic violence, and/or unlawful sexual behavior regarding the household members in the current referral.
- B. County departments practicing Differential Response shall utilize the RED Team process for track assignment decisions when considering the Family Assessment Response (FAR) track on assessments requiring three (3) calendar or five (5) business day response times.
- C. The Red Team process is not required for review of the following exceptions:
 - 1. Referrals necessitating an immediate response;
 - 2. Referrals necessitating a response prior to the next business day;
 - 3. Referrals alleging institutional abuse and/or neglect; or
 - 4. Referrals alleging youth in conflict.
- D. County departments may choose to utilize the RED team process for the above exceptions.

- E. The RED team process shall be documented in the framework. The documentation shall reflect the discussion and justification for the decisions.
- F. All RED team decisions shall be approved by a certified supervisor by the end of the calendar day and documented in the state automated case management system by the end of the next business day.

7.103.78 DIFFERENTIAL RESPONSE [Eff. 1/1/15]

- A. County departments interested in participating in Differential Response shall conduct the following:
 - 1. Submit a letter of interest to the State Department;
 - 2. Form a County Differential Response Implementation Committee;
 - 3. Attend Differential Response Training and Coaching Sessions as determined by the State Department;
 - 4. Complete the Readiness Self-Assessment Process;
 - 5. Demonstrate the ability to meet the State Department's performance expectations on safety and well-being measures; and,
 - 6. Demonstrate county staff understands how to correctly enter information into the state automated case management system.

Upon successful completion of the above efforts, a county may be selected to participate in Differential Response by the Executive Director of the State Department.

- B. County departments that implement Differential Response shall utilize the RED Team framework to review referrals, determine response times, and determine the appropriate track assignment in accordance with the approved RED Team process.
 - 1. High Risk Assessment (HRA) is mandatory for a child fatality, near fatality, or egregious incident determined to be the result of abuse and/or neglect, institutional abuse, and intrafamilial sexual abuse. RED Teams may use discretion to assign a High Risk Assessment (HRA) based on the following factors: present danger, multiple previous referrals, and/or presenting case characteristics such as type of alleged maltreatment paired with high vulnerability of the alleged victim.
 - 2. The Family Assessment Response (FAR) is for referrals with low to moderate risk. RED teams may use discretion to assign the Family Assessment Response (FAR) in assessments alleging a child fatality, near fatality, or egregious incident. If it is determined that a child fatality, near fatality or egregious incident is the result of abuse and/or neglect, the track shall be changed to a High Risk Assessment. Institutional abuse or intrafamilial sexual abuse shall not be assigned the Family Assessment Response (FAR).
 - 3. All RED Team decisions shall be approved by a supervisor by the end of the calendar day and documented in the state automated case management system by the end of the next business day.

7.103.89 DUTIES TO REPORTING PARTIES – INFORMATION TO BE PROVIDED [Eff. 1/1/15]

- A. Within SIXTY (60) calendar days of receiving a referral alleging abuse and/or neglect from a mandatory reporter listed in Section 19-1-307(2)(e.5)(I), C.R.S., the county department shall notify such individual when:

1. The county department is aware the individual is and continues to be officially and professionally involved in the ongoing care of the child who was the subject of the referral; and,
 2. The mandatory reporter has a need to know in order to fulfill his or her professional and official role in maintaining the child's safety; and,
 3. Unless the county department has actual knowledge that the mandatory reporter continues to be officially and professionally involved in the ongoing care of the child who was the subject of the report, a county department shall request written affirmation from a mandatory reporter stating that the reporter continues to be officially and professionally involved in the ongoing care of the child who was the subject of the report and describing the nature of the involvement.
- B. The county department shall notify the mandatory reporter of the following information:
1. The name of the child and the date of the referral;
 2. Whether the referral was accepted for assessment;
 3. Whether the referral was closed without services;
 4. Whether the assessment resulted in services related to the safety of the child;
 5. The name of and contact information for the county caseworker responsible for the assessment; and,
 6. Notice that the reporting mandatory reporter may request updated information within ninety (90) calendar days after the county department received the referral and information concerning the procedure for obtaining updated information.

7.103.910 DOCUMENTATION REQUIREMENTS – WHEN SUPERVISOR APPROVAL IS REQUIRED
[Eff. 1/1/15]

- A. All referrals including the information gathered pursuant to Sections 7.103.1 and 7.103.2 shall be entered into the state automated case management system by the end of the next business day following receipt of the referral.
- B. The initial review shall be documented in the state automated case management system by the end of the next business day following receipt of the referral. The supervisor is to ensure that the review and the documentation have occurred.
- C. The decision to screen out a referral for further action shall be documented in the state automated case management system by the end of the following business day that the decision is made. This shall include an explanation of the reasons why no further action was needed. The determination to screen out a referral for further action must be approved by a supervisor.
- D. All RED Team decisions shall be approved by a supervisor by the end of the calendar day and documented in the state automated case management system by the end of the next business day.

Subjects and issues involved

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094's extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program.

NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection:

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094's extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
19-7-315, C.R.S. (2021)	The state department shall promulgate rules for the implementation of this part 3, including but not limited to rules concerning eligibility determinations, administrative appeals of eligibility determinations, enrollment into the transition program, emancipation transition plans and roadmaps to success, and expedited procedures for securing temporary shelter for youth who are currently homeless or at imminent risk of homelessness.

Does the rule incorporate material by reference?

☒

Yes

☐

No

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

Some requirements of HB 21-1094 are specific and organizing the requirements into Volume 7 while maintaining the language from statute ensures the highest level of support to counties and fidelity to the law.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-3)

CDHS Tracking #: 21-04-28-03

Office, Division, & Program: Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Current and former foster youth will experience the greatest benefit from these rules. Groups that will experience additional work requirements as a result of these rules include county departments. The Office of the Child's Representative and judicial partners are both impacted by HB 21-1094, but they are not directly impacted by these rules.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

The Division of Child Welfare estimates that approximately 59 youth per year will choose to reenter foster care as a result of HB 21-1094, which is implemented in part by these rules. These youth will constitute the new population served through the Foster Youth in Transition Program. However, the broader population of foster youth who reach the age of 18 while in care will also experience the benefits of these rules. Prior to HB 21-1094, there was little differentiation in statute or rule between minor children under age 18 and youth 18 to 21 who stayed in foster care, and as a result most youth exit and experience a cliff effect near their 18th birthdays. HB 21-1094 and these rules support the distinct developmental needs of emerging adults. Youth in foster care are not given the right to make informed choices while enjoying the types of support that a typical Colorado family provides to their own children transitioning to adulthood. By implementing HB 21-1094, these rules create the structure for a developmentally appropriate extended foster care system that respects the needs of 18- to 21-year-olds, while providing that crucial support.

Implementation of HB 21-1094 includes a workload impact for county departments, however this will be offset by an increase to the child welfare block appropriated through the general fund.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There are no fiscal impacts directly resulting from these rules. Some changes to the Trails system will be required; however, those costs will be covered by existing federal funds. The Office of the Child's Representative will have a small fiscal impact from the legislation, not the rules, which is funded through an appropriation to their office for implementation of HB 21-1094.

County Fiscal Impact

There are no fiscal impacts directly resulting from these rules. The legislation, however, does create a fiscal impact to counties. Those costs will be covered by an appropriation made to the Child Welfare block for implementation of HB 21-1094.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-3)

CDHS Tracking #: 21-04-28-03

Office, Division, & Program: Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

Federal Fiscal Impact

Revisions to these rules ensure Colorado has the structure to draw down federal funds to which the state is entitled for serving this population. Because these rules comply with requirements set forth in Title IV-E of the Social Security Act, the Division of Child Welfare anticipates that the majority of youth participating in the Foster Youth in Transition Program will be eligible for Federal IV-E financial participation.

Other Fiscal Impact (such as providers, local governments, etc.)

No impact to other providers, local governments, or other agencies is anticipated.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Colorado's foster care system, as it has traditionally existed, is leading to negative outcomes for many youth who have made the transition from foster care to adulthood. The National Youth in Transition Database Survey, a longitudinal study of youth involved with child welfare, has shown that at least 36% of former foster youth in Colorado have experienced homelessness, 21% have been incarcerated, and 29% become parents by age 21. National data shows it is likely the true rate of early parenthood is much higher. The Midwest Study of Adult Functioning of Former Foster Youth demonstrates that developmentally appropriate extended foster care is key to improving these outcomes. A growing body of evidence demonstrates that providing youth the opportunity to reenter a developmentally appropriate foster care system during that transition, if needed, also improves outcomes for these youth. HB 21-1094 was developed using this information, as well as feedback provided by youth advocates and runaway and homeless youth providers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There is no alternative because HB 21-1094 requires that rules be promulgated for implementation of the law.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The rules were developed through a Child Welfare SubPAC approved task group and included representation from urban and rural counties across the state, runaway and homeless youth providers, the Office of the Child's Representative, foster care providers, child placement agencies, and a youth advocacy group.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

County departments of human/social services, Office of the Child's Representative, Colorado Network to End Youth Homelessness, Rural Collaborative for Homeless Youth, Project Foster Power.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Child Welfare		
Date presented	8/5/2021		
What issues were raised?	None		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	Unanimous		
If not presented, explain why.			

PAC

Have these rules been approved by PAC?

☐ Yes ☐ No

Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.			

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☐ No

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-3)

trevor.williams@state.co.us

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

In addition to the rule drafting task group, the Child Protection Task Group (CPTG), and Child Welfare SubPAC, and Chafee Quarterly Meeting, stakeholder feedback sessions four stakeholder feedback sessions were held. The following feedback was received:

The Office of the Child's Representative recommended that additional language be added under 7.203.41(C) to ensure that rule accommodate changes should federal law require the waiver of the education and employment requirements. The Division of Child Welfare agrees and added that language to the above referenced section.

Both Larimer and Garfield counties had questions about the definition that is referenced for non-certified kin and wanted to know if it included non-certified kin for whom the county does not have custody and if the language should be expanded beyond the cite to the definition of 'non-certified kin'. After connecting with the subject matter expert for kinship care and the individual making the initial recommendation it was determined that the proposed language is the most appropriate and that additional clarification should be addressed through training, technical assistance, and guidance.

(12 CCR 2509-3)

7.203.4 ~~YOUNG ADULTS WHO HAVE LEFT FOSTER CARE~~ FOSTER YOUTH IN TRANSITION PROGRAM

~~Participation in the Chafee programs or other services that prepare youth for adulthood is voluntary but should be offered to young adults, ages eighteen (18) to twenty-one (21).~~ THE FOSTER YOUTH IN TRANSITION PROGRAM PROVIDES DEVELOPMENTALLY APPROPRIATE, VOLUNTARY SERVICES TO ELIGIBLE YOUTH AND SHALL BE AVAILABLE TO ALL ELIGIBLE YOUTH. SERVICES SHALL BE OFFERED USING A HOUSING FIRST STRATEGY TO PROVIDE HOUSING SOLUTIONS TO PARTICIPATING YOUTH WHO ARE EXPERIENCING, OR ARE AT IMMINENT RISK OF, HOMELESSNESS.

7.203.41 Eligibility

~~Young adults, ages eighteen (18) to twenty-one (21), are eligible to receive services to assist them as they continue the transition to adulthood. Services may include independent living assessment, case planning, transitional services, room and board, and other services as identified in the program's plan based on the individual needs and preferences of the youth adult (see Section 7.305).~~ ELIGIBLE YOUTH INCLUDE YOUTH WHO:

- A. ARE AT LEAST EIGHTEEN BUT LESS THAN TWENTY-ONE YEARS OF AGE, SUCH GREATER AGE OF FOSTER CARE ELIGIBILITY AS REQUIRED BY FEDERAL LAW;
- B. HAVE HAD PRIOR FOSTER CARE OR KINSHIP CARE INVOLVEMENT IN ONE OF THE FOLLOWING WAYS:
 - 1. THE YOUTH WAS IN FOSTER CARE, AS DEFINED IN 19-1-103 (51.3), C.R.S., ON OR AFTER THE YOUTH'S SIXTEENTH BIRTHDAY; OR
 - 2. THE YOUTH WAS IN NON-CERTIFIED KINSHIP CARE, AS DEFINED IN 19-1-103 (78.7), C.R.S., ON OR AFTER THE YOUTH'S SIXTEENTH BIRTHDAY AND WAS ADJUDICATED DEPENDENT AND NEGLECTED PURSUANT TO ARTICLE 3 OF TITLE 19, C.R.S; AND
- C. ARE ENGAGED IN, OR INTENDS TO ENGAGE IN, AT LEAST ONE OF THE FOLLOWING, UNLESS AN EXCEPTION APPLIES OR ARE WAIVED BY FEDERAL LAW:
 - 1. COMPLETING SECONDARY EDUCATION OR AN EDUCATIONAL PROGRAM LEADING TO AN EQUIVALENT CREDENTIAL;
 - 2. ATTENDING AN INSTITUTION THAT PROVIDES POST SECONDARY OR VOCATIONAL EDUCATION;
 - 3. WORKING PART- OR FULL-TIME FOR AT LEAST EIGHTY HOURS PER MONTH; OR
 - 4. PARTICIPATING IN A PROGRAM OR ACTIVITY DESIGNED TO PROMOTE EMPLOYMENT OR REMOVE BARRIERS TO EMPLOYMENT.
 - 5. THE REQUIREMENT DESCRIBED IN 7.203.41(C) DOES NOT APPLY TO A YOUTH WHO IS INCAPABLE OF ENGAGING IN ANY OF THE ACTIVITIES AS A RESULT OF A MEDICAL CONDITION THAT IS SUPPORTED BY

REGULARLY UPDATED DOCUMENTATION IN THE 90 DAY SUPERVISORY REVIEW; AND

- D. SEEK TO ENTER INTO A VOLUNTARY SERVICES AGREEMENT, OR THE YOUTH HAS ENTERED INTO AND IS SUBSTANTIALLY FULFILLING THE YOUTH'S OBLIGATIONS PURSUANT TO A VOLUNTARY SERVICES AGREEMENT WITH THE APPROPRIATE COUNTY DEPARTMENT.

**7.203.42 ELIGIBILITY DETERMINATIONS, APPEALS, AND NOTIFICATIONS
UPON RECEIPT OF A REFERRAL FOR SERVICES THROUGH THE FOSTER YOUTH IN
TRANSITION PROGRAM THE COUNTY SHALL:**

- A. DETERMINE IF THE YOUTH IS ELIGIBLE FOR THE FOSTER YOUTH IN TRANSITION PROGRAM WITHIN THREE (3) BUSINESS DAYS;
 - 1. IF THE YOUTH IS ELIGIBLE:
 - a. WITHIN THREE (3) BUSINESS DAYS OF REFERRAL, PROVIDE THE YOUTH:
 - i. NOTICE ELIGIBILITY.
 - ii. A DESCRIPTION OF THE PROGRAM, INCLUDING THE VOLUNTARY NATURE, SERVICES AVAILABLE, AND ONGOING ELIGIBILITY REQUIREMENTS.
 - iii. A COPY OF THE VOLUNTARY SERVICES AGREEMENT.
 - b. WITHIN THREE (3) BUSINESS DAYS OF A YOUTH OPTING INTO THE FOSTER YOUTH IN TRANSITION PROGRAM:
 - i. EXECUTE A VOLUNTARY SERVICES AGREEMENT IN COLLABORATION WITH THE YOUTH AND PROVIDE THEM WITH A COPY; AND THEN
 - ii. PROVIDE WRITTEN NOTICE TO THE OFFICE OF THE CHILD'S REPRESENTATIVE THAT THE YOUTH HAS ENTERED INTO A VOLUNTARY SERVICES AGREEMENT AND THE FOSTER YOUTH IN TRANSITION PROGRAM.
 - c. WHEN A YOUTH ENTERS INTO A VOLUNTARY SERVICES AGREEMENT, A CASE SHALL BE OPENED THROUGH PROGRAM AREA 6.
 - d. IF AN ELIGIBLE YOUTH DOES NOT OPT IN, THE COUNTY SHALL CLOSE THE REFERRAL WITHIN 30 DAYS OF RECEIPT OF THE REFERRAL.
 - 2. IF THE COUNTY DETERMINES THE YOUTH IS NOT ELIGIBLE, THE COUNTY SHALL NOTIFY THE YOUTH WITHIN THREE (3) BUSINESS DAYS OF RECEIVING THE REFERRAL:
 - a. THAT THEY ARE NOT ELIGIBLE AND THE REASONS FOR THAT DETERMINATION IN DEVELOPMENTALLY APPROPRIATE LANGUAGE;
 - b. CONTACT INFORMATION FOR THE OFFICE OF THE CHILD'S REPRESENTATIVE; AND

- c. A WRITTEN DESCRIPTION OF THEIR RIGHT TO APPEAL AND CONTACT INFORMATION FOR THE INDIVIDUAL OR UNIT ASSIGNED TO HEAR APPEALS AT THE STATE DEPARTMENT.
3. THE STATE DEPARTMENT SHALL BE AUTHORIZED TO HEAR ELIGIBILITY APPEALS AND MAKE A FINAL DETERMINATION OF ELIGIBILITY BASED ON INFORMATION AVAILABLE IN THE COMPREHENSIVE CHILD WELFARE INFORMATION SYSTEM AND JUVENILE COURT RECORDS WITHIN THREE (3) BUSINESS DAYS OF RECEIVING THE REQUEST FOR APPEAL. FINAL DETERMINATIONS OF ELIGIBILITY MADE BY THE STATE DEPARTMENT ARE FINAL AGENCY DECISIONS AND SUBJECT TO JUDICIAL REVIEW. THE STATE DEPARTMENT SHALL MAKE THE APPEAL POLICY AVAILABLE TO THE PUBLIC.

7.203.423 ~~County Department Procedures or other service provider procedures~~ FOSTER YOUTH IN TRANSITION PROGRAM SERVICES AND PROCEDURES

- ~~A. The county department of social services or other service provider shall document in the case file the transition services provided.~~
- ~~B. The county department of social services shall complete the Roadmap to Success as a part of the Family Services Plan.~~
- ~~C. Contact requirements shall be defined in consultation with the young adult with face-to-face contact occurring at least quarterly to determine appropriateness of services and continued need of the young adult.~~

A. PROCEDURES

1. WHEN A YOUTH ENTERS THE FOSTER YOUTH IN TRANSITION PROGRAM THE PROGRAM AREA IS PROGRAM AREA 6.
2. THE PARTICIPATING YOUTH SHALL HAVE A NEW CASE OPENED EFFECTIVE THE DAY THE YOUTH AND COUNTY EXECUTE THE VOLUNTARY SERVICES AGREEMENT.
 - a. PRIOR TO OPENING A NEW CASE OR CREATING A NEW CLIENT ID, THE CASEWORKER OR SUPERVISOR SHALL COMPLETE A SEARCH IN THE COMPREHENSIVE CHILD WELFARE INFORMATION SYSTEM FOR ANY EXISTING OPEN CASES OR CLIENTS AND ENSURE THAT ONLY ONE PROGRAM AREA 4 OR 5 CASE IS OPEN THAT INCLUDES THE YOUTH AS PARTICIPATING AS A CHILD.
 - b. FOR YOUTH ENTERING THE PROGRAM DIRECTLY FROM AN OPEN CASE UNDER PROGRAM AREA 4, 5, OR 6, THERE SHALL BE NO RESULTING INTERRUPTION IN CASE MANAGEMENT SERVICES, HOUSING, MEDICAID COVERAGE, OR IN FOSTER CARE MAINTENANCE PAYMENTS.
3. THE COUNTY DEPARTMENT SHALL ENSURE THE FAMILY SERVICES PLAN CONTAINS AN UPDATED ROADMAP TO SUCCESS AS DESCRIBED IN 7.305.2 (12 CCR 2509-04). THE FAMILY SERVICES PLAN IN FOSTER YOUTH IN TRANSITION PROGRAM CASES DOES NOT REQUIRE TREATMENT PLAN OR VISITATION SECTIONS FOR THE YOUTH'S PARENTS OR

CAREGIVERS. UPDATES TO THE FAMILY SERVICES PLAN SHALL BE ENTERED INTO THE COMPREHENSIVE CHILD WELFARE INFORMATION SYSTEM WITHIN SIXTY (60) DAYS OF THE YOUTH ENTERING INTO A VOLUNTARY SERVICES AGREEMENT. THE YOUTH SHALL BE PROVIDED A COPY OF THE FAMILY SERVICES PLAN.

4. WHEN THE YOUTH'S RESIDENCE HAS CHANGED AFTER JURISDICTION HAS BEEN ESTABLISHED, COUNTY DEPARTMENTS SHALL WORK COOPERATIVELY TO:
 - a. ENSURE SERVICES ARE PROVIDED BY THE APPROPRIATE COUNTY; AND
 - b. PETITIONS ARE FILED IN THE COURT OF THE APPROPRIATE COUNTY; AND
 - c. TAKING INTO CONSIDERATION, THE FOLLOWING, IN NO PARTICULAR ORDER OR PRIORITIZATION:
 - i. WHICH COUNTY IS CURRENTLY WORKING WITH THE YOUTH;
 - ii. THE COUNTY IN WHICH THE YOUTH SELF ATTESTS TO RESIDING;
 - iii. INDICATIONS THE YOUTH INTENDS TO STAY IN THE SELF ATTESTED COUNTY;
 - iv. ACCESS TO SERVICES, SUPPORTS, AND/OR RELATIONSHIPS THE YOUTH NEEDS IN ORDER TO SUCCESSFULLY TRANSITION TO ADULTHOOD; AND
 - v. THE YOUTH'S PREFERENCE.

B. SERVICES

EACH COUNTY DEPARTMENT SHALL OFFER, AT A MINIMUM, THE FOLLOWING SERVICES AND SUPPORTS TO PARTICIPATING YOUTH IN THE TRANSITION PROGRAM. ALL SERVICES SHALL BE PROVIDED BY THE COUNTY IN MANNER THAT IS CONSISTENT WITH THE YOUTH'S DEVELOPMENTAL NEEDS, CULTURE, AND SUPPORTS THE YOUTHS SUCCESSFUL TRANSITION TO ADULTHOOD:

1. ASSISTANCE WITH ENROLLING IN THE APPROPRIATE CATEGORY OF MEDICAID FOR WHICH THE PARTICIPATING YOUTH IS ELIGIBLE;
2. ASSISTANCE WITH SECURING SAFE, AFFORDABLE, AND STABLE HOUSING. IF A COUNTY DEPARTMENT HAS LEGAL AUTHORITY FOR PHYSICAL PLACEMENT THROUGH A VOLUNTARY SERVICES AGREEMENT PURSUANT TO 19-7-306, C.R.S.
 - a. THE PARTICIPATING YOUTH'S HOUSING IS FULLY OR PARTIALLY FUNDED THROUGH FOSTER CARE MAINTENANCE PAYMENTS, IN ADDITION TO ANY OTHER HOUSING ASSISTANCE THE YOUTH IS ELIGIBLE TO RECEIVE. ANY EXPECTATIONS FOR THE YOUTH TO CONTRIBUTE TO THE YOUTH'S OWN EXPENSES MUST BE BASED UPON THE YOUTH'S ABILITY TO PAY.

- b. WITH THE PARTICIPATING YOUTH'S CONSENT, THE PARTICIPATING YOUTH'S HOUSING MAY BE IN ANY PLACEMENT APPROVED BY THE COUNTY DEPARTMENT OR THE COURT FOR WHICH THE PARTICIPATING YOUTH IS OTHERWISE ELIGIBLE AND THAT IS THE LEAST RESTRICTIVE OPTION TO MEET THE PARTICIPATING YOUTH'S NEEDS; OR
 - c. IF THE PARTICIPATING YOUTH NEEDS PLACEMENT IN A QUALIFIED RESIDENTIAL TREATMENT PROGRAM, THEN SUCH PLACEMENT MUST FOLLOW ALL RELEVANT PROCEDURES PURSUANT TO SECTION 19-1-115, C.R.S., CONCERNING THE PLACEMENT OF A CHILD OR YOUTH IN A QUALIFIED RESIDENTIAL TREATMENT PROGRAM.
 - d. IF A COUNTY DEPARTMENT DOES NOT HAVE LEGAL AUTHORITY FOR PHYSICAL PLACEMENT, SUCH AS WHEN A YOUTH IS NEARING EMANCIPATION AND ENTERING INTO THEIR NEXT HOUSING ARRANGEMENT, THE PARTICIPATING YOUTH MAY:
 - i. RESIDE ANYWHERE THAT THE PARTICIPATING YOUTH IS OTHERWISE ELIGIBLE TO RESIDE OR A LICENSED HOST FAMILY HOME, AS DEFINED IN SECTION 26-5.7-102 (3.5), C.R.S.; AND
 - ii. ACCESS ANY FINANCIAL SUPPORT FOR HOUSING THAT THE PARTICIPATING YOUTH IS OTHERWISE ELIGIBLE TO RECEIVE.
- 3. CASE MANAGEMENT SERVICES, INCLUDING THE DEVELOPMENT OF A CASE PLAN WITH A ROADMAP TO SUCCESS FOR THE PARTICIPATING YOUTH, AS WELL AS ASSISTANCE IN THE FOLLOWING AREAS, AS APPROPRIATE, AND WITH THE AGREEMENT OF THE PARTICIPATING YOUTH:
 - a. PROVISION OF APPROPRIATE COMMUNITY RESOURCES AND PUBLIC BENEFITS TO ASSIST THE PARTICIPATING YOUTH IN THE TRANSITION TO ADULTHOOD AS DOCUMENTED BY THE ROADMAP TO SUCCESS;
 - b. OBTAINING EMPLOYMENT OR OTHER FINANCIAL SUPPORT AND ENHANCING FINANCIAL LITERACY;
 - c. OBTAINING A DRIVER'S LICENSE OR OTHER GOVERNMENT-ISSUED IDENTIFICATION CARD;
- 4. UPON REQUEST, AND IF SERVICES ARE AVAILABLE, SUPPORT THE YOUTH WITH COMPLYING WITH ANY JUVENILE OR CRIMINAL JUSTICE SYSTEM REQUIREMENTS WHICH MAY INCLUDE REFERRALS TO ASSIST WITH EXPUNGING THE PARTICIPATING YOUTH'S COURT RECORDS, AS APPROPRIATE, PURSUANT TO SECTION 19-1-306, C.R.S.;
- 5. PURSUING EDUCATIONAL GOALS AND APPLYING FOR FINANCIAL AID, IF NECESSARY;
- 6. UPON REQUEST, AND IF SERVICES ARE AVAILABLE, REFERRAL TO SERVICES FOR OBTAINING THE NECESSARY STATE COURT FINDINGS AND APPLYING FOR SPECIAL IMMIGRANT JUVENILE STATUS PURSUANT TO FEDERAL LAW, AS APPLICABLE, OR APPLYING FOR OTHER

IMMIGRATION RELIEF FOR WHICH THE PARTICIPATING YOUTH MAY BE QUALIFIED;

7. OBTAINING COPIES OF HEALTH AND EDUCATION RECORDS;
8. MAINTAINING AND BUILDING RELATIONSHIPS WITH INDIVIDUALS WHO ARE IMPORTANT TO THE PARTICIPATING YOUTH, INCLUDING SEARCHING FOR INDIVIDUALS WITH WHOM THE PARTICIPATING YOUTH HAS LOST CONTACT. THESE SERVICES MAY BE OFFERED USING FAMILY SEARCH AND ENGAGEMENT AS DESCRIBED IN 7.304.52 (12 CCR 2509-04); AND
9. ACCESSING INFORMATION ABOUT MATERNAL AND PATERNAL RELATIVES, INCLUDING ANY SIBLINGS.

C. COURT PROCEDURES WHEN YOUTH TRANSITION FROM A PROGRAM AREA 4 OR 5 CASE INTO THE FOSTER YOUTH IN TRANSITION PROGRAM

FOR A YOUTH APPROACHING THEIR 18TH BIRTHDAY WHO IS CURRENTLY IN FOSTER CARE, OR WHO IS IN NON-CERTIFIED KINSHIP CARE AND THERE IS AN OPEN DEPENDENCY AND NEGLECT CASE, THE COUNTY SHALL PARTNER WITH THE YOUTH TO SUPPORT THE YOUTH IN MAKING INFORMED DECISIONS ABOUT WHAT THE YOUTH NEEDS TO EMANCIPATE SUCCESSFULLY AND WHETHER TO ENTER THE FOSTER YOUTH IN TRANSITION PROGRAM. THE COUNTY SHALL PARTNER WITH THE YOUTH IN PREPARING THE FOR THE TRANSITION HEARING DESCRIBED BELOW:

1. THE COUNTY SHALL REQUEST THAT A TRANSITION HEARING BE HELD WITHIN 35 DAYS OF THE YOUTH'S 18TH BIRTHDAY PURSUANT TO 19-3-705, C.R.S.
2. AT LEAST SEVEN (7) DAYS PRIOR TO THE TRANSITION HEARING THE COUNTY SHALL SUBMIT A REPORT TO THE COURT THAT INCLUDES:
 - a. A DESCRIPTION OF THE COUNTY'S REASONABLE EFFORTS TOWARD ACHIEVING THE YOUTH'S PERMANENCY GOALS AND A SUCCESSFUL TRANSITION TO ADULTHOOD.
 - b. AN AFFIRMATION THAT THE COUNTY HAS PROVIDED THE YOUTH WITH ALL OF THE RECORDS AND DOCUMENTS THE YOUTH NEEDS TO SUCCESSFULLY TRANSITION TO ADULTHOOD, INCLUDING THE DOCUMENTS REQUIRED BY 7.305.5, WRITTEN INFORMATION CONCERNING THE YOUTH'S FAMILY HISTORY, AND CONTACT INFORMATION FOR SIBLINGS IF AVAILABLE AND APPROPRIATE.
 - c. AN AFFIRMATION THAT THE COUNTY HAS INFORMED THE YOUTH, IN A DEVELOPMENTALLY APPROPRIATE MANNER, OF THE BENEFITS AND OPTIONS AVAILABLE TO THE YOUTH BY THE FOSTER YOUTH IN TRANSITION PROGRAM AS DESCRIBED IN 7.203.4 (12 CCR 2509-3) AND THE VOLUNTARY NATURE OF THE PROGRAM.
 - d. A STATEMENT OF WHETHER THE YOUTH HAS MADE A PRELIMINARY DECISION WHETHER TO EMANCIPATE OR TO

ENTER INTO THE FOSTER YOUTH IN TRANSITION PROGRAM AND EITHER OR BOTH OF THE FOLLOWING:

- i. IF IT IS ANTICIPATED THAT THE YOUTH WILL CHOOSE TO EMANCIPATE, THE REPORT MUST INCLUDE A COPY OF THE YOUTH'S EMANCIPATION TRANSITION PLAN AS DESCRIBED IN 7.305.2(F).
- ii. IF IT IS ANTICIPATED THAT THE YOUTH WILL CHOOSE TO ENTER THE FOSTER YOUTH IN TRANSITION PROGRAM, THE COUNTY SHALL FILE A PETITION PURSUANT TO 19-7-307 AT THE SAME TIME AS THE REPORT DESCRIBED IN THIS SECTION.

- 3. PERMANENCY PLANNING REQUIREMENTS ARE DESCRIBED IN 7.304.54 (12 CCR 2509-4).

7.205 CASE CLOSURE [Eff. 1/1/15]

- A. When there is no court jurisdiction and at least one of the following are met, services shall be terminated and the case shall be closed.
- B.
 - 1. Specific program eligibility criteria are not met.
 - 2. Client no longer needs the service.
 - 3. Client has died.
 - 4. Services are completed.
 - 5. The child reaches his/her 21st birthday.
- C. The worker shall document the following in the case record:
 - 1. Reason(s) for case closure.
 - 2. A summary of services provided, which includes progress made toward stated goals.
 - 3. A safety assessment at case closure for all program area 4 and 5 cases.
 - 4. AN EMANCIPATION TRANSITION PLAN FOR ALL YOUTH WHO ARE ELIGIBLE DESCRIBED IN 7.305.2(F) (12 CCR 2509-04).
- C. The county department shall close a case in the state automated case management system no later than ninety (90) days after the last direct client contact. The county department shall assure the case is closed in the automated system as prescribed by the State.
- D. The county department shall close a case in the state automated case management system if there has been no direct client contact with the child and parents for ninety (90) calendar days despite the repeated efforts of the county department to maintain contact.
- E. Exceptions to the ninety (90) calendar day limit may be necessary in cases where the county department has custody of the child. In such cases the county department shall document efforts to terminate county custody or document why such efforts are not in the best interest of the child.

Subjects and issues involved

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094s extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094's extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
19-7-315, C.R.S. (2021)	The state department shall promulgate rules for the implementation of this part 3, including but not limited to rules concerning eligibility determinations, administrative appeals of eligibility determinations, enrollment into the transition program, emancipation transition plans and roadmaps to success, and expedited procedures for securing temporary shelter for youth who are currently homeless or at imminent risk of homelessness.

Does the rule incorporate material by reference?

☒ Yes

☐ No

Does this rule repeat language found in statute?

☒ Yes

☐ No

If yes, please explain.

Some requirements of HB 21-1094 are specific and organizing the requirements into Volume 7 while maintaining the language from statute ensures the highest level of support to counties and fidelity to the law.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-4)		
CDHS Tracking #: 21-04-28-04		
Office, Division, & Program:	Rule Author: Trevor Williams	Phone: 303-866-4539
		E-Mail: trevor.williams@state.co.us

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Current and former foster youth will experience the greatest benefit from these rules. Groups that will experience additional work requirements as a result of these rules include county departments. The Office of the Child's Representative and judicial partners are both impacted by HB 21-1094, but they are not directly impacted by these rules.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

The Division of Child Welfare estimates that approximately 59 youth per year will choose to reenter foster care as a result of HB 21-1094, which is implemented in part by these rules. These youth will constitute the new population served through the Foster Youth in Transition Program. However, the broader population of foster youth who reach the age of 18 while in care will also experience the benefits of these rules. Prior to HB 21-1094, there was little differentiation in statute or rule between minor children under age 18 and youth 18 to 21 who stayed in foster care, and as a result most youth exit and experience a cliff effect near their 18th birthdays. HB 21-1094 and these rules support the distinct developmental needs of emerging adults. Youth in foster care are not given the right to make informed choices while enjoying the types of support that a typical Colorado family provides to their own children transitioning to adulthood. By implementing HB 21-1094, these rules create the structure for a developmentally appropriate extended foster care system that respects the needs of 18- to 21-year-olds, while providing that crucial support.

Implementation of HB 21-1094 includes a workload impact for county departments, however this will be offset by an increase to the child welfare block appropriated through the general fund.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because..."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There are no fiscal impacts directly resulting from these rules. Some changes to the Trails system will be required; however, those costs will be covered by existing federal funds. The Office of the Child's Representative will have a small fiscal impact from the legislation, not the rules, which is funded through an appropriation to their office for implementation of HB 21-1094.

County Fiscal Impact

There are no fiscal impacts directly resulting from these rules. The legislation, however, does create a fiscal impact to counties. Those costs will be covered by an appropriation made to the Child Welfare block for implementation of HB 21-1094.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-4)

E-Mail:

trevor.williams@state.co.us

Federal Fiscal Impact

Revisions to these rules ensure Colorado has the structure to draw down federal funds to which the state is entitled for serving this population. Because these rules comply with requirements set forth in Title IV-E of the Social Security Act, the Division of Child Welfare anticipates that the majority of youth participating in the Foster Youth in Transition Program will be eligible for Federal IV-E financial participation.

Other Fiscal Impact (such as providers, local governments, etc.)

No impact to other providers, local governments, or other agencies is anticipated.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Colorado's foster care system, as it has traditionally existed, is leading to negative outcomes for many youth who have made the transition from foster care to adulthood. The National Youth in Transition Database Survey, a longitudinal study of youth involved with child welfare, has shown that at least 36% of former foster youth in Colorado have experienced homelessness, 21% have been incarcerated, and 29% become parents by age 21. National data shows it is likely the true rate of early parenthood is much higher. The Midwest Study of Adult Functioning of Former Foster Youth demonstrates that developmentally appropriate extended foster care is key to improving these outcomes. A growing body of evidence demonstrates that providing youth the opportunity to reenter a developmentally appropriate foster care system during that transition, if needed, also improves outcomes for these youth. HB 21-1094 was developed using this information, as well as feedback provided by youth advocates and runaway and homeless youth providers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There is no alternative because HB 21-1094 requires that rules be promulgated for implementation of the law.

OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail
7.301.2	Revision	The county department shall complete the Family Services Plan document for each child receiving services to assure that the child's needs for safety, permanency, and well-being are met. The Family Services Plan shall incorporate the following principles:	The county department shall complete the Family Services Plan document for each child/YOUTH receiving services to assure that the child's/YOUTH's needs for safety, permanency, and well-being are met. The Family Services Plan shall incorporate the following principles:	Ensures that this rule also applies to youth.	HB 21-1094 Task Group
7.301.23 (A)	Revision	That services to be provided are directed at the areas of need identified in the assessment. Outcomes to be achieved as a result of the services provided will be described in terms of specific, measurable, agreed upon, realistic, time-limited objectives and action steps to be accomplished by the parents, child/youth, service providers and county staff.	That services to be provided are directed at the areas of need identified in the assessment. Outcomes to be achieved as a result of the services provided will be described in terms of specific, measurable, agreed upon, realistic, time-limited objectives and action steps to be accomplished by the parents, child/youth, service providers and county staff. FOR YOUTH IN FOSTER YOUTH IN TRANSITION CASES, THE ROADMAP TO SUCCESS FULFILLS THIS REQUIREMENT, AS PROVIDED IN 7.203.4 (12 CCR 2509-3).	Clarifies that the RTS can fulfill this requirement.	HB 21-1094 Task Group
7.301.24 (M)	Revision	For youth age fourteen (14) and older, a description of services and a plan for accomplishing tasks to assist the youth in preparation for self sufficiency and independent living as early in placement as possible but no later than sixty (60) calendar days after the youth's fourteenth (14th) birthday.	For youth age fourteen (14) and older, a description of services and a plan for accomplishing tasks to assist the youth in preparation for self sufficiency and independent living ROADMAP TO SUCCESS as early in placement as possible but no later than sixty (60) calendar days after the youth's fourteenth (14th) birthday.	This plan was renamed to the roadmap to success in 2019 and this aligns the rule with the remainder of references to this document.	HB 21-1094 Task Group
7.301.21(R)(7)	New Rule		YOUTH WHO HAVE AN OPEN CASE THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM ARE PRESUMED TO MEET THE ABOVE REQUIREMENTS FOR A GOAL OF OTHER PERMANENT PLANNED LIVING ARRANGEMENT THROUGH EMANCIPATION. THE GOAL SHALL BE REVIEWED BY THE COURT ON AN ANNUAL BASIS PURSUANT TO 19-7-311, C.R.S.	This rule clarifies that in foster youth in transition cases an OPPLA goal may be presumed appropriate without requiring all of the other extra steps.	HB 21-1094 Task Group

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The rules were developed through a Child Welfare SubPAC approved task group and included representation from urban and rural counties across the state, runaway and homeless youth providers, the Office of the Child's Representative, foster care providers, child placement agencies, and a youth advocacy group.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

County departments of human/social services, Office of the Child's Representative, Colorado Network to End Youth Homelessness, Rural Collaborative for Homeless Youth, Project Foster Power.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Child Welfare		
Date presented	8/5/2021		
What issues were raised?	None		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	Unanimous		
If not presented, explain why.			

PAC

Have these rules been approved by PAC?

☐ Yes ☐ No

Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.			

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☐ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

(12 CCR 2509-4)

7.301.2 FAMILY SERVICES PLAN REQUIREMENTS [Eff. 09/1/07]

The county department shall complete the Family Services Plan document for each child/YOUTH receiving services to assure that the child's/YOUTH's needs for safety, permanency, and well-being are met. The Family Services Plan shall incorporate the following principles:

- A. A child/youth's safety is paramount;
- B. Children/youth belong in families;
- C. Families need the support of communities; and,
- D. Community partners are key to achieving strong outcomes for children/youth and families.

7.301.23 Family Service Plan Documentation

The treatment/prevention plan in the Family Services Plan shall document:

- A. That services to be provided are directed at the areas of need identified in the assessment. Outcomes to be achieved as a result of the services provided will be described in terms of specific, measurable, agreed upon, realistic, time-limited objectives and action steps to be accomplished by the parents, child/youth, service providers and county staff. FOR YOUTH IN FOSTER YOUTH IN TRANSITION CASES, THE ROADMAP TO SUCCESS FULFILLS THIS REQUIREMENT, AS PROVIDED IN 7.203.4 (12 CCR 2509-3).
- B. That placement prevention strategies for the child/youth allow the child/youth to remain safely at home or with kin.
- C. That services to be provided are designed to assure that the child/youth receives safe and proper care.
- D. That services to be provided are culturally and ethnically appropriate and trauma-informed. Appropriate cultural or ethnic considerations should include, but are not limited to, consideration of the child/youth's family, community, neighborhood, faith or religious beliefs, school activities, friends, and the child/youth's and family's primary language.

7.301.24 Family Service Plan Out-of-Home Placement Documentation

For child(ren)/youth in out-of-home placement, the Family Services Plan documents:

- A. The child/youth meets all of the out-of-home placement criteria listed in Section 7.304.3.
- B. When the child/youth is part of a sibling group and the sibling group is being placed out of the home, it shall be presumed that placement of the entire sibling group in the joint placement is in the best interests of the children/youth in order to sustain family relationships. Such presumption may be rebutted by the county by a preponderance of the evidence that placement of the entire sibling group in the joint placement is not in the best interests of a child/youth or of the

children/youth. The county shall make reasonable and continued efforts to locate a joint placement for all of the children/youth in the sibling group unless:

- (1) it is not in the best interests of the children/youth to be placed as a group as determined by the county in consultation with the family, youth, and gal when possible, and
- (2) these efforts do not unreasonably delay permanency for any child/youth.

These efforts depend upon the county's ability to locate an appropriate, capable, willing, and available joint placement for all of the children/youth in the sibling group. As soon as practicable after making a decision affecting sibling placement, the county department shall notify the GAL(s) appointed to the case. Efforts to place siblings as a group shall be documented in the Colorado child welfare information system (CCWIS).

- C. The problems to be resolved in order to facilitate reunification of the child/youth and family, and to safely maintain the child/youth in the home.
- D. A description of the type of facility in which the child/youth is placed and the reason(s) the placement is appropriate and safe for the child/youth.
- E. A description of the county's efforts to place the child/youth in reasonable proximity to the home of the parents and to the "school of origin" as defined in § 22-32-138(g), C.R.S. For a child/youth placed a substantial distance from the home of the parent(s), from his or her "school of origin," or in out-of-state placement, the county shall document how the placement meets the best interests of the child/youth, including how the county took into account proximity to parents and school in making its placement decision (see sections 7.304.54, J and 7.301.241, B, 2).
- F. A summary of efforts to ensure educational stability as outlined in Section 7.301.241.
- G. That the placement is the least restrictive, safe, and most appropriate setting available consistent with the best interests and specific needs of the child. This includes documentation of initial and on-going efforts to place the child/youth with kin.

If the child/youth is moved to a more restrictive placement after the initial placement, the Family Services Plan documents how the more restrictive placement meets the child/youth's needs.

- H. Health and educational information shall be documented in the State Department's automated system and updated at the time of each case review, including addresses and other contact information about the child/youth's current:
 1. Education providers, including school, school district, and Board of Cooperative Education Services (BOCES) contacts who assist in the coordination of enrollment and services, and the child/youth's academic progress.
 2. Health care providers and the status of health care information.
- I. Specific plans for how the county will carry out any court determinations or orders concerning the child/youth.
- J. A description of the services and resources needed by the foster parents or kinship providers to meet the needs of the child/youth and how those services and resources will be provided.
- K. A description of the services provided to reunite the family, including the plan for visitation, or to accomplish another permanency goal. The visitation plan shall specify the frequency, type of contact, and the person(s) who will make the visit. At a minimum the visitation plan shall provide the methods to meet the following:
 1. The growth and development of the child/youth;

2. The child/youth's adjustment to placement;
 3. The ability of the provider to meet the child/youth's needs;
 4. The appropriateness of the parent and child/youth visitation, including assessment of risk;
 5. The efforts to ensure the child/youth's wishes as to sibling contact were considered;
 6. The child/youth's contact with parents, siblings, and other family members; and
 7. Visitation between the child/youth and his/her family shall increase in frequency and duration as the goal of reuniting the family is approached.
- L. For child(ren) under the age of fourteen (14), a description of services and a plan for accomplishing tasks to prepare child(ren) to be age appropriately self-sufficient, when independent living services are provided.
- M. For youth age fourteen (14) and older, a description of services and a plan for accomplishing tasks to assist the youth in preparation for self-sufficiency and independent living ~~ROADMAP TO SUCCESS~~ as early in placement as possible but no later than sixty (60) calendar days after the youth's fourteenth (14th) birthday.
- N. Reasonable efforts have been made to maintain the child/youth in the home, or prevent or eliminate the need for removal of the child/youth from the home, or make it possible for the child/youth to return to the home; or when applicable, documentation of the circumstances that exist in which reasonable efforts to prevent removal or reunite the child and the family are not required (see Section 7.304.53, B, 3).
- O. The specified permanency goal for the child/youth shall be based on the individual needs and best interests of the child/youth. Permanency goals shall include one of the following:
- Remain home;
 - Return home;
 - Permanent placement with a relative through adoption;
 - Permanent placement with a relative through legal guardianship or permanent custody;
 - Adoption (non-relative);
 - Legal guardianship/permanent custody (non-relative);
 - Return home through reinstatement of parental rights;
 - Other planned permanent living arrangement through emancipation;
 - Other planned permanent living arrangement through relative long term foster care;
 - Other planned permanent living arrangement through non-relative long term foster care.

Permanency goals shall include the projected date (month, day, and year) by which the goal is to be accomplished for each child/youth receiving services.

1. The initial permanency goal for the child/youth is to return home with the following exceptions:
 - a. Children/youth whose parents are both deceased or have both voluntarily relinquished custody;
 - b. Children/youth whose parents cannot be located after family search and engagement activities, which shall begin no later than three working days following placement and shall not exceed three months;
 - c. Children/youth whose parents have been guilty of repeated and/or severe abuse or neglect of the child/youth or the child/youth's siblings such that termination of parental rights of both parents is appropriate; or,
 - d. children/youth for whom it appears, after investigation, that a safe return home will not be possible even with the provision of reasonable efforts.
 2. After twelve months, the child/youth's caseworker and supervisor shall include written justification on the Family Services Plan for continuation of the goal of return home.
 3. After eighteen months, the extraordinary circumstances which exist and the reasons which support the permanency goal of return home shall be documented in the Family Services Plan. Approval of the return home permanency goal by the caseworker, supervisor and county administrative review is documented in the case record.
 4. In concurrent planning cases the alternate permanency goal shall be documented.
 5. The permanency goal of other planned permanent living arrangement through emancipation shall only be used for youth ages sixteen to twenty-one.
 6. For a child/youth who has been in foster care under the responsibility of the state for fifteen (15) of the last twenty-two (22) months, the county shall either file a motion for termination of parental rights no later than the end of the fifteenth (15th) month or document and submit to the court at the next review the compelling reason why it is in the child/youth's best interest not to terminate parental rights.
- P. The steps the agency is taking to find an adoptive or other permanent living arrangement for a child/youth for whom the permanency plan is adoption or placement in another permanent home.
- Q. The permanency goal for the child would be to remain home barring case circumstances that would indicate the need for an alternative permanency goal when a teen mother and her child are placed together in the same foster home and if a case is opened on the child. The county must see the child when visiting the teen mother in the foster home.
- R. Requirements for use of Other Planned Permanent Living Arrangement goals as follows:
1. The county department may consider Other Planned Permanent Living Arrangement (OPPLA) as a permanency goal:

For youth who are sixteen (16) years of age or over and are demonstrating exceptional circumstances that prevent the youth from returning home, adoption, legal guardianship or permanent custody.
 2. The goal shall be reviewed through the use of a family engagement meeting or equivalent team that reviews permanency needs. All of the following shall be submitted to and considered by the review team, and the recommendation shall be submitted to the court.

- a. Documentation pertaining to the completion of an intensive and ongoing examination of kin and permanent connections. This process shall also address:
 - 1) A comprehensive assessment of the youth's strengths and needs. In addition to updating the assessment of the youth's strengths and needs, the updated assessment or staffing shall address the youth's capacity to live within a family setting.
 - 2) This review team shall also consider the youth's desired permanency outcome.
 - b. A detailed description of efforts made to achieve permanency through the other goals and identification of the barriers to achieve them.
 - c. A detailed description of how OPPLA is in the best interest of the youth.
3. The following is to be documented and made available to the court at each court review.
- a. Documentation of the barriers to permanency to date and compelling reasons why the other permanency goals are not attainable.
 - b. Documentation of the youth's desired permanency outcome including giving the youth an opportunity to attend each hearing to voice his/her desired goal.
 - c. Documentation of intensive, ongoing, and as of the date of the hearing, unsuccessful efforts to return the youth home or secure a placement for the youth with a fit and willing relative (including adult siblings), a legal guardian, or an adoptive parent, including thorough efforts that utilize technology (including social media) to find biological family members for the youth.
 - d. Documentation of the steps taken to ensure that youth are being supported in-engaging in age or developmentally appropriate activities and social events including:
 - 1) The youth's foster family home or other placement is following the reasonable and prudent parent standard; and,
 - 2) The youth has regular, ongoing opportunities to engage in age or developmentally appropriate activities (including consulting with the youth in an age-appropriate manner about the opportunities of the youth to participate in the activities).
4. Documentation which includes the review team's reasons for approving Other Planned Permanent Living Arrangement (OPPLA) shall also be entered in the Family Service Plan as directed by the Division of Child Welfare.
5. The use of this goal shall be reviewed by a family engagement or equivalent review team at a minimum of every six (6) months. The county shall request that the court review the case every twelve (12) months to determine if the youth is demonstrating exceptional circumstances that prevent the youth from returning home, adoption, legal guardianship or permanent custody.
6. If this goal is not achieved through relative care, a family-like network of significant people shall be developed to provide the youth with a sense of belonging and with support expected to endure over a lifetime.
7. YOUTH WHO HAVE AN OPEN CASE THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM ARE PRESUMED TO MEET THE ABOVE REQUIREMENTS

FOR A GOAL OF OTHER PERMANENT PLANNED LIVING ARRANGEMENT THROUGH EMANCIPATION. THE GOAL SHALL BE REVIEWED BY THE COURT ON AN ANNUAL BASIS PURSUANT TO 19-7-311, C.R.S.

S. Reinstatement of Parental Rights

1. The county department of human or social services may explore the use of reinstatement of parental rights as a permanency option for:
 - a. Children twelve (12) years of age and older, or child(ren) younger than twelve (12) years of age if they are part of a sibling group where at least one of the child(ren) or youth is twelve or older and is pursuing reinstatement of parental rights; and,
 - b. Child(ren) younger than twelve (12), if they are part of a sibling group where at least one of the child(ren) is twelve or older, and is pursuing reinstatement of parental rights; and,
 - c. Child(ren) who currently do not have a legal parent; and,
 - d. Child(ren) who currently are not in an adoptive placement and not likely to be adopted within a reasonable period of time; and,
 - e. Child(ren) who had all other permanency options exhausted; and,
 - f. Cases when the termination of parental rights was ordered at least three-years-prior or when it is determined by the court to be in the best interest of the Child(ren) when termination occurred less than three years prior to the date of the petition for reinstatement is being filed with the court; and,
 - g. Child(ren) and former parent(s) that consent to parental rights being reinstated; and,
 - h. Child(ren) where it is in their best interest, including the financial best interest, to have parental rights reinstated; and,
 - i. Former parent(s) who have remedied the issues that led to the termination and those issues did not involve founded allegations of sexual abuse or an incident of egregious abuse or neglect against a child, a near fatality, or a suspicious fatality.
 - j. The child is in the legal custody of a county department.
2. A county department of human or social services that identifies reinstatement as a permanency option shall complete an assessment of the former parent(s). Completion of the assessment and the results of the assessment will be documented in the statewide case management system. The assessment shall include all of the following:
 - a. Completing the Colorado family risk assessment tool, which must include a visit and inspection of the former parent's home;
 - b. Reviewing the reasons for the termination of parental rights and determining if the concerns identified have been remedied and do not currently exist or present a safety concern;
 - c. Conducting the following background checks on the former parent(s) and any other adults eighteen (18) years of age or older in their home and share the results with all parties to the case:

- 1) Child abuse/and/or neglect records check in every state where any adult residing in the home has lived in the five years preceding the filing of the petition for reinstatement;
 - 2) Fingerprint-based criminal history checks from the Colorado Bureau of Investigation (CBI), or other state background check if the parent lives in another state, and the Federal Bureau of Investigation (FBI);
 - 3) Review the state Judicial Department's case management system and include in the case record; and,
 - 4) Review the CBI sex offender registry and the national sex offender public website operated by the United States Department of Justice for:
 - a) Known names and addresses of each adult residing in the home; and,
 - b) Address only of the home.
3. A safety assessment shall be completed.
4. Upon the decision to pursue reinstatement of parental rights; only the county department, guardian ad litem, or a child sixteen (16) years of age or older may file the petition for reinstatement.
- a. The petition for reinstatement of parental rights should be filed in the county who has custody of the child(ren) through the dependency and neglect court case.
 - b. The petition shall be filed in the dependency and neglect court case where the termination of parental rights occurred for the former parent(s) or in the event that the current open dependency and neglect case is a termination of the adoptive parent's rights, then the petition shall be filed in that court case, as it grants custody of the child(ren) to the county.
 - c. If the county is contacted by a former parent inquiring about reinstatement, the county must notify the guardian ad litem (gal) within thirty (30) calendar days after the contact and provide them with the name and address of the former parent(s).
 - d. Once the court sets an initial hearing, the county shall develop and report to the court the following:
 - 1) Whether the former parent(s) has remedied the conditions that led to the termination;
 - 2) Based on the assessment of the former parent, including the outcome of the Colorado family risk assessment tool, the transition plan shall include supports or treatment needed for the child(ren) and former parent(s) to help make the reinstatement a success;
 - 3) Whether the former parent(s) can provide a safe and stable home for the child(ren);
 - 4) A visitation or temporary placement plan with the former parent(s) for up to a six month trial period where custody remains with the department; this plan will be approved or modified at this initial hearing.

- a) Updates about the visits, transition plan, and supports shall be provided at each review hearing and no later than thirty (30) calendar days prior to the expiration of the trial home period.
 - b) At any point the placement is deemed no longer safe or in the best interest of the child(ren), removal shall be in accordance with procedures outlined in Sections 19-3-401 and 19-3-403, C.R.S.
 - 5) Whether the child(ren) will lose or gain any benefits or services (Medicaid, Chafee, etc.) as a result of the reinstatement being granted.
- 5. If the court grants the order, the county shall select reinstatement of parental rights as the closure reason, in the state automated case management system.
- 6. If the court denies the order the county department shall:
 - a. Arrange for immediate placement of the child(ren), if the child(ren) is still in the former parent's home;
 - b. Set a permanency hearing to determine a new permanency goal and plan for the child(ren).

7.304.1 DESCRIPTION [Rev. eff. 1/1/16]

- A. Placement services are services provided to children in Program Areas 4, 5, and 6 who:
 - 1. Meet the criteria for out-of-home placement and the target group criteria; and,
 - 2. Are placed outside their homes because of a temporary emergency removal by law enforcement, court action, ~~or~~ a voluntary placement agreement, OR A VOLUNTARY SERVICES AGREEMENT; and,
 - 3. Are in a placement approved by the county department.
- B. The range of placement services for children for whom the goal is to return home includes kinship care, foster care homes, specialized group facilities, and residential child care facilities.
- C. The range of placement services for children for whom the goal is not to return home includes adoption, kinship care, foster care homes, specialized group facilities, and residential child care facilities.
- D. Placement options in this section do not apply to American Indian/Native Alaskan children. Refer to Section 7.309.7 for order of placement preference as required by the Indian Child Welfare Act.

7.304.3 OUT-OF-HOME PLACEMENT CRITERIA

Not every child at risk needs out-of-home placement. These criteria are designed to provide a decision making model to assist in determining whether Core Service Program services and/or out-of-home placement are indicated. All three criteria must be met UNLESS THE YOUTH IS ELIGIBLE FOR THE FOSTER YOUTH TRANSITION PROGRAM AS DESCRIBED IN 12 CCR 2509-3, 7.203.4.

Criterion 1: The child may be at imminent risk of out-of-home placement, as defined in Section 26-5.3-102(1)(b), C.R.S., because one or more of the following conditions exist:

- A. Abandonment by or incarceration of parents/relatives/caretakers;
- B. Abuse/neglect - as defined in the Children's Code;
- C. Domestic violence - as defined in Section 18-6-800.3, C.R.S.;
- D. Conditions that exist to such a degree for either the child or caretaker so that the caretaker is unable to care for the child:
 - 1. substance abuse; drug exposed infants
 - 2. mental illness
 - 3. disability
 - 4. physical illness
 - 5. homelessness
- E. Beyond control of parents;
- F. Danger to self, others, or community;
- G. Infant or young child of teen parent in placement;
- H. Delinquency - adjudicated delinquent meeting current out-of-home placement criteria written pursuant to Section 19-2-212, C.R.S.;
- I. Relinquishment or termination of parental rights;
- J. Child returning home from out-of-home placement or moving to less restrictive level-of-care.

Criterion 2: Before considering placement, an assessment is completed to determine the level of risk. If assessment of risk determines that the child is at imminent risk of out-of-home placement, then child/family strengths are determined, and the appropriate services and/or community supports (reasonable efforts) needed to address the existing Criterion #1 conditions are identified. When these services are not immediately available, or are absent, unsuccessful, or exhausted, placement in the Core Services Program and/or out-of-home may be considered.

Reasonable efforts include the intervention strategies and advocacy efforts used:

- A. To identify/locate appropriate parent/relative/caretakers if necessary to prevent out-of-home placement;
- B. To assess the parent/relative/caretaker's ability to protect children;
- C. To assist the parent/relative/caretaker and/or child in accessing and utilizing the identified services to address the presenting conditions.

Criterion 3: When placement is the best choice of available options/alternatives at this time to reduce risk to the child while continuing reasonable efforts to resolve the conditions which led to imminent risk, then, placement in the Core Services Program and/or out-of-home may occur.

7.304.4 AGE AND RESIDENCY REQUIREMENTS AND PAYMENT RESPONSIBILITY FOR CHILDREN/YOUTH IN OUT-OF-HOME CARE [Rev. eff. 4/1/13]

- A. A child is eligible for placement services on the basis of need from birth to age 18 when the child meets target group eligibility and all three of the placement criteria, regardless of whether the placement is voluntary or court ordered. A child ~~YOUTH from age 18 to age 21~~ continues to be eligible for placement services if the court had jurisdiction prior to the 18th birthday ~~and the placement is court ordered~~ **OR THE YOUTH IS ELIGIBLE FOR AND RECEIVING SERVICES THROUGH THE YOUTH IN TRANSITION PROGRAM AS DESCRIBED IN 7.203.4 (12 CCR 2509-3).**
- B. All children residing or present in the state are eligible for placement services when the criteria in the Target Group sections 7.201, 7.202, and 7.203, the Out-of-Home Placement Criteria section 7.304.3, and the Authority for Placement section 7.304.51, are met.
- C. The child's county of residence shall be the county department which has financial and case decision-making responsibility for a child in out-of-home placement shall be the child's county of residence. The child's residence follows the parents' residence unless one or more of the following circumstances exist:
1. When the parent-child legal relationship has been terminated, the child's residence is the county in which the county department has legal custody of the child.
 2. When the court has transferred legal custody to a county department and the parent-child legal relationship has not been terminated, the child's residence is that county until the court transfers custody to some other entity, including changes of venue as described in the following section, 7.304.4, E.
 3. When a county department has legal custody and the court has also appointed a guardian, the child's residence is that of the county department holding legal custody.
 4. When a child is in parental custody, the child's residence is that of the parents, or of the last caretaker parent, unless there is a court order giving custody to one of the parents. In that case, the child's residence is that of the parent with legal custody.
 5. When a child is in the legal custody of an individual, the child's residence is that of the individual.
 6. **WHEN THE YOUTH IS RECEIVING SERVICES THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM, THE YOUTH'S RESIDENCE SHALL BE THE COUNTY IN WHICH THE YOUTH RESIDES, BASED ON THEIR SELF ATTESTATION. ANY CHANGES OF JURISDICTION FOR THIS POPULATION SHALL BE DETERMINED AS DESCRIBED IN 7.203.43(A)(4).**
- D. Residence for school purposes may be determined on other factors, such as the type of facility in which the child is placed or the legal status of the child. See Educational Assessments in the Assessment and Case Planning section.
- E. The county department shall transfer financial and service planning, and financial responsibility as follows:
- If a parent whose residence is used to determine the county department's financial responsibility for a child in out-of-home placement moves to another Colorado county, the county department shall initiate procedures to transfer the financial responsibility to the new county, unless:

1. The court or the county department finds that the transfer of jurisdiction would be detrimental to the best interest of the child(ren); or,
 2. The legal custodian has a history of frequent moves, except when there is evidence of stability in the most recent move, such as a signed lease whose term is six or more months, or there is other firm evidence of the intent to remain in the new residence for six or more months; or,
 3. The case is within 3-6 months of resolution; or,
 4. The custodial parent is committed to a state mental institute or correctional facility; or,
 5. The custodial parent is residing temporarily in the receiving county to receive rehabilitation services, employment training, education, medical care, or shelter services; or,
 6. Adjudication has not taken place; or,
 7. Change in venue hinders achieving the child's permanency goal; or,
 8. The case is an expedited permanency planning case, unless pursuant to Section 19-3-201(2), C.R.S., wherein it states that it shall be presumed that any transfer of proceedings without good cause shown that results in a delay in the judicial proceedings would be detrimental to the child's best interest. Such presumption may be rebutted in court by preponderance of evidence; or,
 9. When parental rights have been terminated for the child(ren); or,
 10. If the case involves a juvenile for whom a juvenile delinquency filing has been made, pursuant to Section 19-2-105(1)(b), C.R.S.
- F. Each county shall designate a Change of Venue coordinator.
- G. When a motion for a Change of Venue has been made by the sending county, the sending county shall mail the Change of Venue motion to all parties and attorneys of record in the case and to the county attorney in the receiving county.
- H. Within fifteen (15) calendar days after a court signs an order granting a Change of Venue and transferring jurisdiction, the sending county shall:
1. Provide written case information, if not located in the state automated system, to the designated Change of Venue coordinator in the receiving county which shall include, but need not be limited to:
 - a. Permanency goals;
 - b. Target dates related to the case;
 - c. Evaluations;
 - d. A current Family Services Plan;
 - e. Court reports;
 - f. Dates of placement moves;
 - g. Progress of the child(ren) in placement;

- h. All Title IV-E eligibility determinations; and,
 - i. Recommendations for continuing progress in the case.
- 2. Update all documentation in the case file and in the state automated system.
- 3. Provide information, to the extent known, concerning the physical location of the child's parents, guardians, legal custodians, and relatives.
- 4. Prepare the case for transfer by:
 - a. Scheduling a family engagement meeting involving all parties, county department caseworkers and supervisors, and community providers; or,
 - b. Conducting a case staffing between county caseworkers and supervisors in the sending and receiving county departments; or,
 - c. Submitting a written case transfer summary.
- 5. Forward a complete copy of the case file from the sending county attorney's office to the receiving county attorney's office. Privileged attorney-client communications do not need to be included in the transferred case file.
- I. The child, family, and foster care provider shall be prepared for the transition by the sending county department.
- J. The sending county department is responsible for financial and service planning for the case and for payment of services through the calendar month in which the Change of Venue becomes effective. This date is to be confirmed by the sending county department in writing and there shall be no lapse in financial coverage during this process. If venue does not change, the sending county department retains financial responsibility.
- K. The receiving county department shall provide courtesy supervision and available services during this transition. If venue does not change, the sending county department retains financial responsibility.
- L. If a child is born while the mother is committed to a state mental institute or correctional facility, the county of residence prior to commitment shall be the county of fiscal responsibility.
- M. When a child is placed for adoption, the county department holding legal custody and guardianship shall have fiscal responsibility for the child until the adoption is finalized.
- N. If a child needs placement out of the home following finalization of adoption, the child's residence is that of the adoptive parents.
- O. Residence related to subsidized adoption is addressed in the Adoption Services section.

7.304.51 Authority for Placement

The county department shall ensure that a child may enter any out-of-home placement only when:

- A. Target group and placement criteria are met; and,
- B. An emergency is determined to exist and s/he is removed from the home by a law enforcement officer, with or without a court order, or,

- C. A parent has signed a voluntary placement agreement under conditions established by the county department and according to the Children's Code; or;
- D. A juvenile court, or a court acting as a juvenile court (including a tribal court), has ordered the child to be placed out of the home and has transferred legal custody to the county department or a social services department of a federally recognized Indian tribe, for placement in a family care home or other child care facility.; OR;
- E. A YOUTH WHO IS ELIGIBLE FOR THE FOSTER YOUTH IN TRANSITION PROGRAM AS DESCRIBED IN 7.203.41 (12 CCR 2509-3) HAS ENTERED INTO A VOLUNTARY SERVICES AGREEMENT WITH THE COUNTY DEPARTMENT.

7.304.52 Family Search and Engagement

- A. Family search and engagement shall:
 - 1. Be commenced for the noncustodial parent within three (3) working days. The county department must provide notification to the absent parent of the following:
 - a. The child or youth has been removed from the home; and,
 - b. The option to participate in the care, treatment, or placement of the child or youth.
 - 2. Be completed within thirty (30) calendar days for all grandparent(s) and other adult relatives or the parent of a sibling of a child/youth who has been removed from his/her legal custodian's home. The latter shall not be construed as subordinating the rights of foster or adoptive parents of a child or youth to the rights of the parents of a sibling of the child or youth. The county department of human or social services shall provide notification of the following information:
 - a. The child or youth has been removed from the home;
 - b. Options to participate in the care or placement of the child or youth;
 - c. Options that may be lost by failing to respond to the notice;
 - d. The requirements to become a foster parent, and services and supports available to the child and/or youth placed in the family foster care home; and,
 - e. A description of the Relative Guardianship Assistance Program.
- B. The county department shall assure that:
 - 1. Parents are consulted regarding their suggestions for appropriate caretakers.
 - 2. Children and youth are consulted as appropriate regarding their suggested relative caretakers.
 - 3. When the court orders a delay in contacting specific relatives for good cause including, but not limited to, domestic or other family violence, then the county department shall discontinue the family search and engagement involving the relative until otherwise authorized by the court.

- C. Family search and engagement shall occur for all children including American Indian/Alaskan Native children and youth at least every six (6) months throughout the life of the case until the child or youth has achieved permanency, except as noted in Section 7.304.52, B, 3, or when the following conditions exist:
1. A placement is stable with a relative or kin a minimum of six (6) consecutive months; and,
 2. The relative or kin has committed to the legal permanence of the child or youth; and,
 3. There is agreement among the parties that the relative or kin is the appropriate permanent option, the juvenile or district court finds it is the appropriate permanency plan, and it is in the best interest of the child or youth that family search and engagement be discontinued.
 4. A non-relative foster care parent without a prior relationship to a youth twelve (12) years of age or older and his/her siblings residing in the same placement commits to the permanency of the youth and children. in addition, the juvenile or district court adopted a permanency plan of guardianship or Allocation Of Parental Responsibilities (APR) and the requirements in section 7.311.1, c, 2 (relative guardianship assistance program) are met.
- D. A family engagement meeting shall occur within thirty (30) calendar days when any of the following conditions exist:
1. The child or youth is in a family-like permanent setting without the provider expressing formal intent to provide legal permanence at the time that any of the following conditions exist:
 - a. The child or youth has been in out-of-home placement fifteen (15) of twenty-two (22) months; or,
 - b. The child or youth has had two (2) or more unplanned moves within a twelve (12) month period; or,
 - c. The child or youth is assigned a permanency goal of Other Planned Permanent Living Arrangement (OPPLA).
 2. The child or youth is in out-of-home placement in a non-family-like setting without an approved permanency plan and any of the conditions in Section 7.304.52, D, 1, a-c, exist.
- E. 7.304.52 DOES NOT APPLY TO YOUTH WHO ARE PARTICIPATING IN THE FOSTER YOUTH IN TRANSITION PROGRAM UNLESS THE YOUTH CONSENTS AND SIGNS ALL APPLICABLE RELEASES OF INFORMATION. THE SERVICES DESCRIBED IN THIS SECTIONAL SHALL BE OFFERED TO THESE YOUTH.
- EF. The county shall document all efforts in the Family Services Plan for the child or youth. Initial and ongoing family search and engagement results shall be reviewed and documented during ninety (90) day supervisory reviews.

7.304.54 Court Procedures Related to Permanency Planning [Rev. eff. 3/1/16]

- A. The county department must develop a permanent plan for any child who is in out-of-home placement and is the subject of any court action, including Dependency and Neglect, Delinquency, ~~or a~~ Petition to Review the Need for Placement, OR A FOSTER YOUTH IN TRANSITION PROGRAM CASE and a concurrent plan for cases filed under Section 19-3-102(2),

C.R.S., regarding habitual abuse. The purpose of the plan is to establish treatment needs related to the stated goal for the child and to decide a method to provide a safe, stable, permanent environment for the child as quickly as possible

- B. The county department shall submit this plan at the permanency court hearing. That hearing must be held before twelve (12) months have elapsed from the date of the child's original out-of-home placement, and shall be held as soon as possible following the dispositional hearing. Following the initial permanency hearing, subsequent permanency hearings must be held every twelve months thereafter while the child remains in out-of-home care. These hearings shall be combined with a periodic review when possible.
- C. The county department shall provide the court with documentation of the efforts made by the department to finalize the permanency plan for the child. The county department shall request the court to make a finding (if the evidence so warrants) that the department made reasonable efforts to finalize the permanency plan for the child.
- D. Paper reviews, ex parte hearings, agreed orders or other actions or hearings which are not open to the participation of the parents of the child (if appropriate age) and foster parents or pre-adoptive parents are not permanency hearings.
- E. When the court determines that reasonable efforts to return the child home are not required, the county shall request that the permanency hearing be held no later than thirty (30) calendar days after such court determination, unless the requirements of the permanency hearing are fulfilled at the hearing in which such a determination is made.
- F. The county department shall ensure and document that a request is made to the court for such a hearing in sufficient time to assure that the hearing is held within the twelve (12) month time frame. Permanency hearings shall be combined with a review hearing when possible.
- G. The county department shall include, in the permanency plan, recommendations to the court on either:
 - 1. Returning the child to his/her parent or guardian within the next six months; or,
 - 2. Permanent placement with a relative through adoption; or,
 - 3. Permanent placement with a relative through guardianship or permanent custody; or,
 - 4. Adoption (non-relative); or,
 - 5. Legal guardianship/permanent custody (no-relative); or,
 - 6. Return home through reinstatement of parental rights; or,
 - 7. Other planned permanent living arrangement through emancipation; or,
 - 8. Other planned permanent living arrangement through relative long term foster care; or,
 - 9. Other planned permanent living arrangement through non-relative long term foster care.
- H. For permanency goals 8 or 9, the county department shall ensure that the plan contains the name or other identifier, such as the system provider number, if the name of the provider must be kept confidential, of the specific placement and the date that placement shall end.
- I. For permanency goals 7, 8, and 9, the following requirements shall apply to the county department of human or social services for purposes of approving the case plan and the case

review procedure for youth, EXCEPT FOR YOUTH PARTICIPATING IN THE FOSTER YOUTH IN TRANSITION PROGRAM:

1. At each permanency hearing held with respect to the youth, provide documentation of the intensive, ongoing, and, as of the date of the hearing, unsuccessful efforts made to address the following:
 - a. Return the youth home;
 - b. Secure a placement for the youth with a fit and willing relative (including adult siblings), a legal guardian, or an adoptive parent; and,
 - c. Include efforts that utilize search technology (including social media) to find biological family members for the youth.
 2. Provide compelling reasons why it continues not to be in the best interests of the youth to return home, be placed for adoption, with a legal guardian, or with a fit and willing relative.
- J. The county department shall request that the court order contain specific findings regarding the above goals.
- K. The county department shall assure that the permanency hearings determine whether an out-of-state placement continues to be appropriate and is in the best interest of the child.
- L. The county department shall assure that the permanency hearings determine whether the permanency plan includes services for a successful adulthood for a child fourteen years of age or older.
- M. Permanency hearings are required to be held if a termination is under appeal, for children placed in a permanent foster home with a specific caregiver, and for children who are free for adoption and are placed in adoptive homes pending the finalization of the adoption.
- N. The county department shall file for termination of parental rights no later than the end of the 15th month of placement for any child who has been in foster care under the responsibility of the state for 15 of the last 22 months unless there is a compelling reason submitted to the court identifying why it is in the child's best interest to not terminate parental rights.
- O. The county department shall file for termination of parental rights no later than sixty (60) calendar days after the court determines that the child is an abandoned infant, unless there is a compelling reason submitted to the court identifying why it is in the child's best interest to not terminate parental rights.
- P. The county department shall file for termination of parental rights no later than sixty (60) calendar days after a judicial determination is made that reasonable efforts to reunify the child with the parent are not required, unless there is a compelling reason submitted to the court identifying why it is in the child's best interest to not terminate parental rights.
- Q. The county department shall discuss the purpose and responsibilities of relative guardianship with the parents or legal custodian of a youth or child and the importance of achieving permanency.

7.304.61 Pre-Placement Activities

- A. The child/YOUTH shall have a medical examination before placement or a screening as soon as is reasonably possible after placement. The county department shall assure that the screening is

consistent with the Early Periodic Screening Diagnosis and Treatment initial screening described in Section 8.286.01 of the Department of Health Care Policy and Financing's Medical Assistance manual (10 CCR 2505-10). If a medical, dental, or psychological evaluation is necessary and cannot be covered under Medicaid, third-party insurance, or other sources, the county department may purchase it under program services. See General Information and Policies section (7.000) and Resources, Reimbursement, and Reporting Section (7.400) of this manual.

- B. Prior to the placement of a child/YOUTH in a child placement agency or county foster care home, the placing agency may review the written family assessment, home study, and background checks of the foster parent(s) for use in determining if the home is appropriate for the needs of the child/YOUTH.
- C. When the child/youth is part of a sibling group and the sibling group is being placed out of the home, it shall be presumed that placement of the entire sibling group in the joint placement is in the best interests of the children/youth in order to sustain family relationships. Such presumption may be rebutted by the county by a preponderance of the evidence that placement of the entire sibling group in the joint placement is not in the best interests of a child/youth or of the children/youth. The county shall make thorough efforts to locate a joint placement for all of the children/youth in the sibling group unless:

- 1) It is not in the best interests of the children/youth to be placed as a group and
- 2) These efforts do not unreasonably delay permanency for any child.

These efforts depend upon the county's ability to locate an appropriate, capable, willing, and available joint placement for all of the children/youth in the sibling group. Efforts to place siblings as a group shall be documented in the child/youth's case record.

- D. The county department shall share all available information about the child, including relevant social, medical and educational history, behavior problems, court involvement, parental visitation plans, and other specific characteristics of the child, with the provider before placement. It shall share additional information when obtained. The county department shall inform foster parents of court hearings involving children in care.
- E. A child's foster care placement shall not be delayed in order to recruit a same race home when a foster family is available who is of other ethnic or racial identity than that of the child.
- F. The county department shall document all pre-placement activities in the case file.
- G. The county department shall execute the Provider Contract and Agreement with county department certified foster homes and county department sponsored group homes, and the agreement to purchase Child Placement Agency or Residential Child Care Facility services with Child Placement Agencies and Residential Child Care Facilities before placement. The Agreement to Purchase form is child specific and shall be completed for each child placed through a Child Placement Agency or with a Residential Child Care Facility.
 - 1. Placement contracts shall specify the responsibilities of the provider and the county department in the services to be delivered to the child and family in conjunction with the Family Services Plan. The placement contracts shall also require twenty-four (24) hour out-of-home care facilities to have staff present and trained in how to make decisions using the reasonable and prudent parent standard when approving extracurricular, enrichment, cultural, and social activities; and,
 - 2. County departments shall provide twenty-four (24) hour out-of-home care providers with a copy of the policy that identifies activities that providers trained in the reasonable and prudent parent standard may approve, and activities that require county department approval.

- H. WHEN A YOUTH IS PARTICIPATING IN THE FOSTER YOUTH IN TRANSITION PROGRAM:
1. WITH THE PARTICIPATING YOUTH'S CONSENT, THE YOUTH'S HOUSING MAY BE IN ANY PLACEMENT APPROVED BY THE COUNTY OR THE COURT FOR WHICH THE YOUTH IS OTHERWISE ELIGIBLE, INCLUDING A SUPERVISED INDEPENDENT LIVING ARRANGEMENT AS DESCRIBED IN 7.305.2(D), AND IS THE LEAST RESTRICTIVE OPTION TO MEET THE PARTICIPATING YOUTH'S NEEDS; OR
 2. IF THE PARTICIPATING YOUTH NEEDS PLACEMENT IN A QUALIFIED RESIDENTIAL TREATMENT PROGRAM, THEN THE PLACEMENT MUST FOLLOW ALL OF THE REQUIREMENTS REQUIRED FOR THE COUNTY TO PLACE A CHILD/YOUTH IN A QUALIFIED RESIDENTIAL TREATMENT PROGRAM.

7.304.62 Placement Activities

The county department shall:

- A. Give the provider a written record of the child's/youth's admission to the home at the time of placement.
- B. Give the provider a written procedure or authorization for obtaining medical care for the child and assure that the provider receives the child's/youth's state identification number and Medicaid card for Medicaid eligible children in a timely manner.
- C. Give the provider a copy of the Family Services Plan for the child/youth at the time of placement or when it is completed following placement.
- D. Document the above placement activities in the case file.
- E. Add the placement in the Department's automated reporting system prior to the next payroll.
- F. Within four weeks of the initial placement, give the provider a complete medical history for the child. The medical history shall contain, to the maximum degree possible, the information listed in the Department of Human Services Health Passport.
- G. Provide the child/youth with a full medical examination scheduled within fourteen (14) calendar days after placement and a full dental examination scheduled within eight (8) weeks after placement. The schedule of the appointments shall be documented in the case record. The county department shall maintain the medical and dental information in a record which is kept with the child/youth during placement and upon return home, emancipation, or adoption. The county department shall document that ongoing medical and dental care is provided in a timely manner as defined by the department and by the health care provider. If the child/youth received the required full medical examination at the time of the placement, then the regular schedule of appointments should be maintained in subsequent placements.

If the governor or local government declares a disaster or emergency, and because of the declared disaster or emergency the medical and dental exams cannot be completed for the child/youth in the required time frame, the medical exam and dental exam must be completed as soon as possible, but no later than 45 calendar days after the declared conclusion of the disaster or emergency.
- H. Document the exceptional circumstances which require an emergency or temporary placement to last longer than sixty (60) calendar days.
- I. Except in emergency situations, make subsequent placements according to court order and shall notify all parties to the extent possible.

- J. Not move a child from one short-term emergency placement to another unless all reasonable efforts to return the child to the child's home or to place the child in a more permanent setting have been exhausted and are documented in the Family Services Plan.
- K. Not move a child more than twice unless such move results in a permanent placement or is determined to be in the best interests of the child and the reasons for the additional move are documented in the child's Family Services Plan.
- L. Notify the guardian ad litem AND/OR THE YOUTH'S COUNSEL, parent(s) or legal guardian within one (1) business day upon a child/youth's placement into a foster care home. The Guardian Ad Litem's contact information shall be provided to the foster parents.
- M. If it is in the best interest of each sibling, the county department shall notify the siblings of any child/youth in foster care or kinship care, of sibling placement and changes in sibling placement, catastrophic events, or other circumstances, including but not limited to significant life events, as defined by the county department and in consultation with the family, youth and GAL when possible.
- N. Provide notice of, and a right to be heard at, any Administrative Review to the child/youth (if age appropriate), foster parents, pre-adoptive parents, or relatives providing care to a child/youth and, upon written request, a written notice of the court hearing, which identifies the following:
 - 1. The child/youth's current court case number;
 - 2. The date and time of the next court hearing; and,
 - 3. The name of the magistrate or judge and the court division to which the case was assigned.
- O. Upon receipt of written notice by a foster parent, employees of State and county departments, or others with the need to know, are prohibited from releasing personally identifying information about a foster parent, other than the first name, to any adult member of the foster child/youth's family, unless the foster parent subsequently provides written consent for the release of information.
- P. Provide at the time of initial placement and at least annually thereafter to the child(ren)/youth contact information for all siblings in foster care, which may include a telephone number, address, social media accounts, and e-mail address, unless a foster parent has requested the foster parent's identifying information not be disclosed, and to receive updated photos of siblings regularly by mail or e-mail, as appropriate.
- Q. Refer to Section 7.406.1, F, for the applicable criteria when a child/youth will be absent from the designated out-of-home placement and the county elects to reimburse the provider using the seven (7) day or thirty (30) day policy.
- R. Allow out-of-home care providers, who are trained in a reasonable and prudent parent standard, to authorize children and youth to participate in community-based activities without the need for a fingerprint-based criminal record background check for the adult(s) involved in the activities. A decision to allow participation shall be based on trained providers using a reasonable and prudent parent standard, as defined in Section 7.701.200, A (12 CCR 2509-1), and the procedures defined in Section 7.701.200 (12 CCR 2509-8).
- S. Respond to issues related to human trafficking as outlined in Section 7.303.4.
- T. If a disqualifying factor (refer to Section 7.000.2 (12 CCR 2509-1)) is identified following the placement of a child and/or youth in a non-certified kinship care home, the county department of human or social services shall evaluate the appropriateness of continuing the placement. A plan shall be developed to address the concerns as soon as possible, and the concerns shall be remedied no later than two weeks after the date of placement. The following shall be documented

in the state automated case management system in the contact log in the resource section or in the record:

1. The circumstances of the placement;
 2. The vulnerability of the child and/or youth, including age and development;
 3. Safety issues impacting the child and/or youth;
 4. Supports needed by the non-certified kinship caregiver(s);
 5. Identify alternative solutions to removal of the child and/or youth from the placement and document the solution in the family service plan including, but not limited to, the family's current status in the following domains:
 - a. Risk and safety;
 - b. Level of functioning;
 - c. Strengths;
 - d. Specific concerns to be addressed;
 - e. Services and supports needed; and,
 - f. Changes that must occur to mitigate the concerns.
 6. When the disqualifying factor cannot be mitigated, the alternative solution and plan does not resolve the concerns about appropriateness of the placement, or timeframes are not met, the county department shall remove the child /youth from the placement.
- U. Assure that each child or youth in out –of –home care is accompanied to psychiatric appointments by an adult who has knowledge about the daily functioning and behavior of the child or youth. EXCEPT FOR YOUTH RECEIVING SERVICES THROUGH THE FOSTER YOUTH IN TRANSITION PROGRAM.

7.304.64 Visitation and Supervision

- A. Contact between the county department and the child/youth shall be documented in the child/youth's case record.
- B. In all cases where counties have primary responsibility for a child/youth in out-of-home placement, an appropriate visitation plan shall be established and documented in the Comprehensive Child Welfare Information System (CCWIS). The visitation plan shall specify the frequency and type of contact by the parents (unless parental visitation is determined to be detrimental to the child/youth, siblings, and others with the child/youth, as appropriate. At a minimum, the visitation plan should provide methods to meet the following interests and needs of the child/youth:
1. The growth and development of the child/youth;
 2. The child/youth's adjustment to the placement;
 3. The ability of the provider to meet the child/youth's needs;

4. The appropriateness of parent and child/youth visitation, including assessment of risk;
 5. The child/youth's contact with parents, siblings, and other family members;
 6. The child/youth's permanency plan.
- C. Child(ren)/youth in foster care shall receive an age-appropriate and developmentally appropriate document from the county department detailing their rights regarding sibling contact:
1. Within thirty days of the date of any placement or any change in placement;
 2. On each occasion that a child/youth's case plan is modified;
 3. At each placement where the child(ren)/youth resides; and
 4. On at least an annual basis.
- D. The county department shall include information regarding sibling contact in the visitation plan. In doing so the child(ren)/youth shall be consulted about their wishes as to sibling contact. In developing the visitation plan, if it is in the best interests of each sibling, the county department shall:
1. Promote frequent contact between siblings in foster care, which may include telephone calls, text messages, social media, video calls, and in-person visits;
 2. Clarify that sibling contact should not be contingent upon parental contact;
 3. Clarify that restriction of sibling contact should not be a consequence for behavioral problems.
 4. Ensure that timely and regularly scheduled sibling visits are based on individual circumstances and needs of the child(ren)/youth.
- E. Sibling contact should occur with sufficient frequency to promote continuity of the relationships unless:
1. The county department has determined that it is not in the best interests of one or both of the children/youth, or
 2. It has been determined in consultation with the County/City Attorney and the District Attorney That a criminal action is pending in any jurisdiction where either sibling is a victim or witness, and that such sibling contact may have a detrimental effect upon prosecution of the pending criminal action, or
 3. Contact is not permitted because it would violate a known existing protection order pending in any state.
- If, in arranging sibling contact a county department determines that such contact would not be in the best interests of one or both of the siblings, the county department shall deny the request, document its reasons for making the determination in the Comprehensive Child Welfare Information System (CCWIS), and provide the siblings with an explanation for the denial, as permitted under state and federal law. As soon as practicable after making a decision affecting sibling contact, the county department shall notify the GAL(s) appointed to the case
- F. Visitation between the child/youth and his/her family shall increase in frequency and duration as the goal of reuniting the family is approached. The caseworker shall document this increase in visitation in the CCWIS.

- G. The county department will notify parents of any determination which affects their visitation rights. The caseworker shall keep a copy of this notification in the case record.
- H. In cases where the goal is not to reunite the family, the caseworker shall discuss the issue of separation and help define the child(ren)/youth's future relationship with the family. The caseworker shall document this discussion and planning in the (CCWIS).
- I. YOUTH PARTICIPATING IN THE FOSTER YOUTH IN TRANSITION PROGRAM ARE NOT REQUIRED TO HAVE A VISITATION PLAN WITH THEIR PARENT(S).

7.305.2 SPECIFIC PROCEDURES

- A. The county department shall assess all youth in foster care who have reached the age of fourteen (14) for services to prepare for adulthood and shall complete the Roadmap to Success part of the Family Services Plan (FSP). This is required regardless of the specified permanency goal of the case plan.
- B. The county department's assessment shall include documentation of:
 - 1. The youth's capacity for self-sufficiency and self-support by reviewing daily living skills, in consideration of their age and appropriate developmental expectations/milestones.
 - 2. An evaluation of individual, family, community, and financial support resources available to promote emancipation or semi-independent living.
- C. Following assessment, the Roadmap to Success (RTS) shall be developed in consultation with the youth, caseworker, care provider(s), and, at the option of the youth, up to two (2) other significant persons chosen by the youth who are not the foster parent or caseworker for the youth and documented in the FSP in the state automated system. If the county department of human or social services has good cause to believe an individual selected by the youth will not act in his or her best interest, the planning team may designate another advocate for the youth.
 - 1. The case plan and court report following a staffing or meeting shall describe the services to help the youth transition to successful adulthood including, but not limited to, participation in on-going opportunities to engage in age and developmentally appropriate activities, and, if the youth is pregnant and/or a parent, the parenting supports provided to the youth..
 - 2. The case plan shall document the rights of the youth to education, health, visitation, court participation, the right to stay safe and avoid exploitation, and the right to receive a credit report annually. A signed acknowledgement that the youth was provided a copy of these rights and that they were explained in an age or developmentally appropriate way shall be included in the case plan.
- D. The county department may utilize a Supervised Independent Living placement for:
 - 1. YOUTH AT LEAST SIXTEEN (16) YEARS OF AGE THROUGH THE LAST DAY OF THE MONTH OF THEIR TWENTY-FIRST (21) BIRTHDAY WHEN:
 - A. The county has placement and care responsibility.
 - B. Approved supervised independent living placement settings may include an approved college dormitory, transitional living program, an apartment or other private housing, or another age or developmentally appropriate placement.

Professional contact and ongoing support must meet section 7.202.1 requirements.

- C. The use of a supervised independent living placement for youth ages sixteen (16) up to eighteen (18) may only be utilized after considering the youth's developmental needs and assets, supports that are available to the youth, and documentation in case notes that all other options have been exhausted.
- D. For youth ages sixteen (16) up to eighteen (18) placement in a supervised independent living placement must follow a period in out-of-home care.
- E. For counties to be reimbursed for this placement, the youth must be over age 18 and the placement must align with requirements set forth in 7.406.1,q
- F. An update to the existing Roadmap to Success (RTS) must be completed, preferably within 30 days prior to, but no later than 30 days after, the start date of the supervised independent living placement.
- G. The county department shall establish a written policy for the use of supervised independent living placement. The policy shall address the following:
 - I. Assessing each youth's readiness to be successful in a supervised independent living placement, the safety of the placement, the availability of supportive services and resources for youth transitioning into adulthood, any county-specific policies around caseworker contact with the youth, and the process for ongoing review.
 - II. Supervised independent living placement funds shall be provided to the youth and be sufficient to have their needs met as identified in 7.708.26, 7.708.31, 7.708.41, 7.708.42, and 7.708.43, as well as having access to a working telephone and internet.
 - III. Additional supervised independent living placement funds may be provided to the youth as incentive for progress towards and/or achievement of goals.
 - IV. Decisions to withhold supervised independent living placement funds provided to the youth per section (III) shall not reduce the amount provided per subsection (II) and must be according to defined guidelines found in the county policy.
 - V. Defined appeal process and notification procedures for youth whose supervised independent living placement funds under subsection (III) are withheld.
 - VI. Defined process for how and when a supervised independent living placement may be terminated. The policy must address potential termination reasons including, but not limited to, concerns for current or impending danger or court case closure.
- H. A signed copy of the supervised independent living placement agreement and a signed expectations/acknowledgement that the youth was provided a copy of the county guidelines. These documents shall be explained in an age or developmentally appropriate way and shall be included in the case file.
- E. Free Annual Credit Record Report for Youth Fourteen (14) Years of Age and Older in Foster Care

The following steps shall be taken:

1. The county department shall obtain free annual credit report information from the three credit reporting agencies designated by the Department for youth who are in foster care and are at least fourteen (14) years of age, and provide the information to the youth and Guardian ad Litem (GAL);
 2. If the youth objects to obtaining the credit report, the county department shall inform the court and request that the court issue an order authorizing the county to obtain the credit report.
 3. The county department shall maintain a copy of each credit report in the case record; and,
 4. Should the annual report show evidence of any inaccuracies, the county department shall inform the court of the inaccuracies, refer the youth to a Colorado Department of Human Services approved governmental or non-profit entity to resolve the inaccuracies, and inform the GAL of the referral.
- F. The youth, county department caseworker, provider(s), and other representatives of the youth as appropriate, shall jointly develop a detailed, formal emancipation transition plan no more than ninety (90) days prior to the emancipation date of the youth. The plan, signed by all parties, shall include, but need not be limited to, the following:
1. Assurance that the plan meets the specific self-sufficiency/cost of living standard in the county or state where the youth plans to reside.
 2. a plan shall be developed with the youth based on the information from the assessment and the youth's goals.
 3. Personalization at the direction of the youth to meet the individual emancipation needs in order to help prevent homelessness.
 4. Copies of verifiable vital documents required in Section 7.305.5.
 5. Specific options for:
 - a. Housing,
 - b. Health insurance and health care decision-making information,
 - c. Education,
 - d. Local opportunities for safe mentors,
 - e. Continuing after-care support services, and
 - f. Work force supports and employment services.
 6. The plan shall be documented in the State Department's automated system in the Family Services Plan, and a copy given to the youth free of charge.

Rulemaking Hearing

Date

10/08/2021

Time

08:30 AM

Location

Location Pending State's response to COVID-19. Anticipated to be held entirely online

Subjects and issues involved

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094s extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Please check here for any updates on location/connection: <https://cdhs.colorado.gov/sbhs>

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

These rules will implement HB 21-1094, which was signed into law on 6/25/2021 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 establishes the Foster Youth in Transition Program, a youth-driven and developmentally appropriate approach to extended foster care. This program further establishes a pathway for eligible youth to reenter foster care between the ages of 18 and 21. HB 21-1094's extensive reforms require significant revision to the Colorado Code of Regulations, 12 CCR 2509 (Volume 7). These rules will ensure consistent statewide implementation and support counties in understanding what they are required to provide to youth who request services through the program.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
19-7-315, C.R.S. (2021)	The state department shall promulgate rules for the implementation of this part 3, including but not limited to rules concerning eligibility determinations, administrative appeals of eligibility determinations, enrollment into the transition program, emancipation transition plans and roadmaps to success, and expedited procedures for securing temporary shelter for youth who are currently homeless or at imminent risk of homelessness.

Does the rule incorporate material by reference?

☐

Yes

☒

No

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

Some requirements of HB 21-1094 are specific and organizing the requirements into Volume 7 while maintaining the language from statute ensures the highest level of support to counties and fidelity to the law.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Current and former foster youth will experience the greatest benefit from these rules. Groups that will experience additional work requirements as a result of these rules include county departments. The Office of the Child's Representative and judicial partners are both impacted by HB 21-1094, but they are not directly impacted by these rules.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

The Division of Child Welfare estimates that approximately 59 youth per year will choose to reenter foster care as a result of HB 21-1094, which is implemented in part by these rules. These youth will constitute the new population served through the Foster Youth in Transition Program. However, the broader population of foster youth who reach the age of 18 while in care will also experience the benefits of these rules. Prior to HB 21-1094, there was little differentiation in statute or rule between minor children under age 18 and youth 18 to 21 who stayed in foster care, and as a result most youth exit and experience a cliff effect near their 18th birthdays. HB 21-1094 and these rules support the distinct developmental needs of emerging adults. Youth in foster care are not given the right to make informed choices while enjoying the types of support that a typical Colorado family provides to their own children transitioning to adulthood. By implementing HB 21-1094, these rules create the structure for a developmentally appropriate extended foster care system that respects the needs of 18- to 21-year-olds, while providing that crucial support.

Implementation of HB 21-1094 includes a workload impact for county departments, however this will be offset by an increase to the child welfare block appropriated through the general fund.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because..."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There are no fiscal impacts directly resulting from these rules. Some changes to the Trails system will be required; however, those costs will be covered by existing federal funds. The Office of the Child's Representative will have a small fiscal impact from the legislation, not the rules, which is funded through an appropriation to their office for implementation of HB 21-1094.

County Fiscal Impact

There are no fiscal impacts directly resulting from these rules. The legislation, however, does create a fiscal impact to counties. Those costs will be covered by an appropriation made to the Child Welfare block for implementation of HB 21-1094.

Title of Proposed Rule: Extended Foster Care & Re-Entry (12 CCR 2509-5)

CDHS Tracking #: 21-04-28-05

Office, Division, & Program: Rule Author: Trevor Williams

Phone: 303-866-4539

E-Mail:

trevor.williams@state.co.us

Federal Fiscal Impact

Revisions to these rules ensure Colorado has the structure to draw down federal funds to which the state is entitled for serving this population. Because these rules comply with requirements set forth in Title IV-E of the Social Security Act, the Division of Child Welfare anticipates that the majority of youth participating in the Foster Youth in Transition Program will be eligible for Federal IV-E financial participation.

Other Fiscal Impact (such as providers, local governments, etc.)

No impact to other providers, local governments, or other agencies is anticipated.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Colorado's foster care system, as it has traditionally existed, is leading to negative outcomes for many youth who have made the transition from foster care to adulthood. The National Youth in Transition Database Survey, a longitudinal study of youth involved with child welfare, has shown that at least 36% of former foster youth in Colorado have experienced homelessness, 21% have been incarcerated, and 29% become parents by age 21. National data shows it is likely the true rate of early parenthood is much higher. The Midwest Study of Adult Functioning of Former Foster Youth demonstrates that developmentally appropriate extended foster care is key to improving these outcomes. A growing body of evidence demonstrates that providing youth the opportunity to reenter a developmentally appropriate foster care system during that transition, if needed, also improves outcomes for these youth. HB 21-1094 was developed using this information, as well as feedback provided by youth advocates and runaway and homeless youth providers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

There is no alternative because HB 21-1094 requires that rules be promulgated for implementation of the law.

OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail
7.402.1 (D)	Revision	Former foster care or Adoption assistance youth who emancipated from foster care or adoption assistance at age eighteen (18) or after and are under age twenty-one (21), and for whom the state made foster care or adoption assistance payments in the month the youth turned eighteen (18) years of age.	Former foster care or Adoption assistance youth who emancipated from foster care or adoption assistance at age eighteen (18) or after and are under age twenty-one (21), and for whom the state made foster care or adoption assistance payments in the month the youth turned eighteen (18) years of age.	Removes former foster care youth from this rule; they are added to a new rule to reduce confusion.	HB 21-1094 Task Group

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The rules were developed through a Child Welfare SubPAC approved task group and included representation from urban and rural counties across the state, runaway and homeless youth providers, the Office of the Child's Representative, foster care providers, child placement agencies, and a youth advocacy group.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

County departments of human/social services, Office of the Child's Representative, Colorado Network to End Youth Homelessness, Rural Collaborative for Homeless Youth, Project Foster Power.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Child Welfare		
Date presented	8/10/2021		
What issues were raised?	None		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	Unanimous		
If not presented, explain why.			

PAC

Have these rules been approved by PAC?

☐ Yes ☐ No

Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.			

Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☐ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

(12 CCR 2509-5)

7.402.1 PROVISION OF SERVICES

Subject to certain income and resource limitations, medical assistance through the Colorado Medicaid program must be provided to certain children and youth receiving child welfare services as follows:

- A. Children and youth for whom the county department is assuming full or partial financial responsibility.
 - 1. Children and youth in foster care, including those who are in supervised independent living placement situations subsequent to being in foster care;
 - 2. Youth committed to the Department of Human Services, Division of Youth Services, who are placed in a non-secure community based residential facility or in supervised independent living placement situations;
 - 3. Children and youth who have a current, signed subsidized adoption agreement;
 - 4. Children and youth receiving Core services who otherwise would be in foster care;
 - 5. Children and youth in subsidized adoption, including adoption placements out of state, who are IV-E eligible or where the state option is in effect until the receiving state can provide Medicaid;
 - 6. Children and youth from Colorado placed in an out of state out-of-home placement by a Colorado county. IV-E eligible children receive Colorado Medicaid until the receiving state can provide Medicaid;
 - 7. Children and youth eligible for Supplemental Security Income, even if they are not receiving cash benefits, who are placed in an out of state foster care setting until the receiving state can provide Medicaid.
 - 8. Children and youth who are eligible for the Relative Guardianship Assistance Program, including relative guardianship assistance placements out of state who are Title IV-E eligible, until the receiving state can provide Medicaid.
- B. Certain children and youth from other states who are placed in Colorado by that state.
 - 1. Children and youth eligible for adoption assistance placed in Colorado by another state;
 - 2. Children and youth placed in an out-of-home placement in Colorado by another state;
 - 3. Children and youth who are eligible for Supplemental Security Income placed in an out-of-home placement in Colorado by another state.
 - 4. Children and youth who are eligible for Relative Guardianship Assistance placed in Colorado by another state and who are Title IV-E eligible.
- C. Children and youth who are receiving child welfare services, living in their own home or the home of a designated relative, and the county department is not assuming full or partial financial responsibility for their care, may be eligible for coverage under other Colorado Medicaid programs for families and children.

- D. ~~Former foster care or~~ Adoption assistance youth who emancipated from foster care or adoption assistance at age eighteen (18) or after and are under age twenty-one (21), and for whom the state made foster care or adoption assistance payments in the month the youth turned eighteen (18) years of age.
- E. A child who has an acceptable non-citizen status as defined in 10 CCR 2505-10 Section 8.100.3.G and is in the custody of DHS is eligible for Colorado Medicaid and no longer need to meet the five-year waiting period to be eligible for Medicaid.
- F. Beginning January 1, 2014, former Colorado foster care youth, who were under the State's or Tribe's responsibility, when they emancipated from foster care at age eighteen (18) or after, and who were enrolled in Medicaid (IV-E or non-IV-E) under Colorado's Medicaid State Plan at the time of their emancipation, and are under age twenty-six (26); are eligible for Colorado's Former Foster Care Medicaid. Eligible placement types include the following:
- Kinship family foster care
 - Non certified kinship care
 - Foster home care
 - Group home and group center care
 - Children's Habilitation Residential Program (CHRP)
 - Residential Child Care Facilities
 - Supervised Independent Living Placement programs
 - Youth committed to the Division of Youth Services, living in one of the above, non-secure placements.
- G. YOUTH FOR WHOM THE COUNTY HAD PLACEMENT AUTHORITY OR CUSTODY ON OR AFTER THE YOUTH'S 18TH BIRTHDAY.

7.404 FEES

- A. Fees shall be determined and collected as applicable for the following services in each program area:
1. Child Welfare Child Care.
 2. Foster care.
 3. Adoptive studies.
 4. Core Services Program services as defined in the state approved Core Services Program plan.
 5. Medical care paid by the county that is not reimbursed by the state.
 6. Other services, such as case services, or custody evaluations.
- B. When both foster care and Core Services Program Services are simultaneously being provided or purchased, the foster care fee schedule shall be applied to the cost of both programs.

- C. Categories excluded from fee collection:
 - 1. Colorado Works categories, except for Supplemental Security Income eligible children in foster care and whose parents are not Colorado Works recipients.
 - 2. Individuals whose income is deemed to a Colorado Works household.
 - 3. Adoptive families who have an approved but inactive adoption assistance agreement and the child is in out-of-home placement.
 - 4. YOUTH PARTICIPATING IN THE FOSTER YOUTH IN TRANSITION PROGRAM AND THEIR PARENTS.
- D. Once the amount of fee is determined, the full amount is to be paid up to the cost of services.
- E. Fees shall be determined for adoptive families as follows:
 - 1. Adoptive families who have an approved Colorado non-Title IV-E adoption assistance agreement, but are currently not receiving adoption assistance payments and the child is in out-of-home placement, are excluded from fee collection.
 - 2. Adoptive families living out of Colorado who have an approved non-Title IV-E adoption assistance agreement whose child is in out-of-home care and the family is being charged a placement fee may request continuation of the adoption assistance payments to assist in the cost associated with the child's out-of-home placement. The plan for the child shall be reunification with the family.
 - 3. Adoptive families who have an approved Colorado non-Title IV-E adoption assistance agreement and the child is in out-of-home placement shall be assessed a placement fee not to exceed the amount of the adoption assistance payment they are receiving under their adoption assistance agreement.
 - 4. Adoptive families who have an approved Title IV-E adoption assistance agreement and the child is in out-of-home placement shall be assessed a fee not to exceed the amount of the adoption assistance payment they are receiving under their adoption assistance agreement.
- F. If a family is receiving purchased services the fees shall be distributed in the following priority:
 - 1. Medical costs for non-Medicaid eligible children
 - 2. Foster care
 - 3. Core Services Program Services
 - 4. Child Welfare Child Care
 - 5. Other services

7.404.3 CHILD'S INCOME

- A. For non-IV-E children, income and other funds, including fees and child support, received by or on behalf of the child, which are more than the amount needed to meet his/her monthly needs,

shall be kept by the county treasurer in a special account or trust fund, or, with the concurrence of the county treasurer, a trust account may be established with the county director as the trustee. See the Finance Manual (11 CCR 2508-1) Such excess funds may be used to meet the child's other needs, such as medical care.

- B. For IV-E foster care children, the county department shall handle payment according to Volume V, Disbursement of Support Collections. All other income is handled the same as for non-IV-E children.
- C. When a child in foster care has income earned from her/his employment, the county department shall consider the following:
 - 1. Income is not a consideration in determining eligibility for foster care.
 - 2. Full-time student - when a foster child is in school full-time, or would be, except for scheduled vacation. The child need not contribute toward the cost of her/his foster care.
 - 3. Part-time student:
 - a. When a child in foster care is a part-time student and employed part-time (less than 30 hours per week), earned income is not considered.
 - b. When the child is employed full-time, the child's own income shall be considered in determining a foster care fee. The guidelines permit the court to consider the child's income in setting the award against the parents.
- D. When a child is in a placement under IV-E Foster Care (Title IV-E) and has income, the county department shall refer the case to the Income Maintenance Division for determination of continuing eligibility for IV-E Foster Care. See the Income Maintenance manual Section on Eligibility for Temporary Assistance to Needy Families (9 CCR 2503-1).
- E. WHEN A YOUTH IS PARTICIPATING IN THE FOSTER YOUTH IN TRANSITION PROGRAM YOUTH'S HOUSING IS FULLY OR PARTIALLY FUNDED THROUGH FOSTER CARE MAINTENANCE PAYMENTS, IN ADDITION TO ANY OTHER HOUSING ASSISTANCE THE YOUTH IS ELIGIBLE TO RECEIVE. ANY EXPECTATIONS FOR THE YOUTH TO CONTRIBUTE TO THE YOUTH'S OWN EXPENSES MUST BE DETERMINED BY REQUIREMENTS IN 7.416.2.

7.406.1 THE STATE REIMBURSES WHEN

- A. The county's case record contains required program documentation. For out-of-home placement, documentation shall include the requirements listed under Section 7.304.51 (12 CCR 2509-4), Authority for Placement.
- B. Care is provided after the case is open and before the case is closed.
- C. The child is with a provider in possession of a valid certificate or license, when one is required.
- D. Placement is with an in-state Residential Child Care Facility or Child Placement Agency on the state approved vendor list or with out of state placement providers as approved through the Interstate Compact on the Placement of Children.
- E. A youth over eighteen (18) years of age is in placement only when the court had jurisdiction before the 18th birthday and the court orders out- of-home placement OR THE YOUTH MEETS

ELIGIBILITY CRITERIA FOR THE FOSTER YOUTH IN TRANSITION PROGRAM AND HAS AN ACTIVE VOLUNTARY SERVICES AGREEMENT.

- F. A child is absent from an out-of-home placement and the county department elects to reimburse the provider during the absence period for the placement for one of the following reasons:
1. The absence does not exceed seven days per absence, with only one (1) seven-day total reimbursement within thirty (30) calendar days for the following reasons:
 - a. The child has run away,
 - b. Trial home visit,
 - c. Trial provider visit,
 - d. Child in detention; or,
 - e. The child has been kidnapped.
 2. Thirty (30) calendar day absences are allowed for the following reasons:
 - a. Respite (unless care is being provided and it violates Section 7.708.31, D (12 CCR 2509-8) and causes a foster care home to be over capacity); or,
 - b. The absence occurs during the first thirty (30) days of a hospitalization.
 3. For children enrolled in the Children's Habilitation Residential Program Waiver (CHRP), the county may continue payment of the equivalent of the maximum federal Supplemental Security Income benefit during all absences.
- G. The out-of-home placement duration for a voluntary Title IV-E child/YOUTH does not exceed 180 calendar days when the county department has filed for a petition to review the need for placement, OR PETITION TO OPEN A FOSTER YOUTH IN TRANSITION CASE by the 90th calendar day and the county has a correctly worded court order issued, based on the request of the petition to review the need for placement; see Court-Related Procedures, Section 7.304.53 (12 CCR 2509-4).
- H. The county department reports an out-of-home or Core Services Program care placement in the Department's automated reporting system within ninety (90) calendar days of its beginning. The State reimburses for retroactive payments not greater than the current and two (2) preceding months.
- I. The county department places children in out-of-home care within the provider's licensed or certified capacity or if the licensed/certified capacity is exceeded with the placement of a sibling group. The county shall document that there are no other appropriate placements available.
- J. A child is in a Child Placement Agency or Residential Child Care Facility within Colorado for longer than ten (10) working days and an agreement to purchase Child Placement Agency or Residential Child Care Facility services is completed for the child.
- K. A child is in a Child Placement Agency or Residential Child Care Facility within Colorado for less than ten (10) working days and the facility has an emergency shelter contract with a county department.
- L. Out-of-home placement occurs in facilities holding current certificates or licenses, including kinship foster care placement.

- M. Children are placed in Child Placement Agencies and Residential Child Care Facilities outside of Colorado according to the rules for out of state placement and Interstate Compact on the Placement of Children.
- N. Respite care is paid to providers of foster care homes. This includes county department or child placement agency foster care homes, or adoptive homes receiving a foster care payment and kinship family foster care providers. It does not include foster homes that provide receiving home care.
- O. The child enters care (first day) but not for the last day in care.
- P. The child is placed and removed on the same day.
- Q. The state reimburses for supervised independent living placements for youth eighteen (18) through the end of the month of the twenty first (21st) birthday, when the county has placement and care responsibility. The state does not reimburse for youth in a supervised independent living placement under the age of eighteen (18).
- R. Child Welfare Child Care program criteria are met.
- S. The Core Services Program is operated within applicable state rules and within the provisions of the county or multi-county state approved Core Services Plan and in accordance with the requirements governing the specific funding streams used.
- T. Client travel costs for out-of-state placement and supervision activities are related to out-of-home placements approved through the Interstate Compact county liaison and the receiving state Interstate Compact on the Placement of Children office. Staff travel costs are reimbursed through county administration.
- U. Payments for out-of-home care and rate adjustments are pro-rated using the foster care daily rate in the State Department's automated reporting system.
- V. The developmental disability rate for children placed in foster care homes, kinship foster care homes, receiving home care, specialized group facilities, specialized foster care in county certified foster care homes, and homes in which a subsidized adoption maintenance payment is made.
- W. The county department for expenditure for clothing purchased for a child in out-of-home care. The state reimburses retroactive clothing payments not greater than the current and two preceding months.
- X. The child is in out-of-home care and the county department lists a child free for adoption with the Colorado Adoption Resource Registry within ninety (90) calendar days following:
 - 1. The date of relinquishment or termination of the parent-child relationship, or
 - 2. The date of placement into out-of-home care following an adoption dissolution.
- Y. The child is in out-of-home care, the county department requests and the State approves an exclusion from Colorado Adoption Resource Registry listing for a child free for adoption within ninety (90) calendar days following:
 - 1. The date of relinquishment or termination of the parent-child relationship; or,
 - 2. The date of placement into foster care following an adoption dissolution.

- Z. If the state approves a Colorado Adoption Resource Registry exclusion because the county finds an adoptive home, reimbursement for out-of-home care is limited to six months from the date the state department receives the request for exclusion.
- AA. Costs are billed for the current and two (2) preceding months.
- BB. The Early intervention and Prevention Program is operated within applicable state rules and within the provision of the county or multi- county state approved services plan.
- CC. A child with development disabilities has been placed in a locked residential setting for treatment and the county has obtained a court order of legal imposition of disability pursuant to Section 27-10.5-110, C.R.S.
- DD. A county department pays incentives to a consortium for meeting or exceeding agreed to outcomes.
- EE. A county department may pay a consortium, if the consortium's outcome measures meet or exceed the agreed to standard.
- FF. A county department purchases Transition Program services provided by an RCCF that is on the approved State RCCF vendor list. In no case shall the rate for transition services exceed the RCCF rate approved by the county department.
- GG. Placement of a child in a provisionally certified foster care home that is fully certified within ninety (90) calendar days from the date of the application.
- HH. IF REQUIRED BY SECTION 24-76.5-101, 102, OR 103 Aa county department SHALL documents the lawful presence of children age eighteen (18) and over receiving services other than those excluded from the definition of a federal public benefit, ~~or~~ state and local public benefits as those terms are defined at Section 24-76.5-102, C.R.S., OR SERVICES EXCLUDED FROM THIS REQUIREMENT AS DEFINED AT SECTION 24-76.5-103, C.R.S.
- II. A county department pays a provider at or above the state-established base anchor rates. A county that negotiates provider rates shall use a request for proposal process, a draft of which shall be submitted to the, no later than March 1. of each calendar year. The Department shall approve or deny the draft proposal no later than April 1 of each calendar year. The request for proposal shall include the following:
 - 1. The county department of human/social services' policy for:
 - a. Determining the time frames for negotiation or re-negotiation of rates, services and outcomes; and,
 - b. Actions to be taken if services are not delivered or outcomes are not met.
 - 2. The Department shall evaluate request for proposals submitted by county departments of human/social services using the following criteria:
 - a. Consideration of whether the county used an approved request for proposal process including, but not limited to, competitive bidding and negotiations;
 - b. Consideration of performance outcomes and whether they are tied to financial incentives.
- JJ. Reasonable travel is provided to the school where the child is enrolled prior to out-of-home placement.

- KK. Reasonable costs are provided for liability insurance for a child.
- LL. Adoption Assistance and Relative Guardianship Assistance Program payments are made in compliance with requirements.
- MM. Case services in adoption assistance agreements and relative guardianship assistance agreements.
- NN. Non-recurring expenses for adoption assistance and relative guardianship assistance agreements.
- OO. A child/youth is placed at the IDD facility, as defined in 7.424.5, with the approval of the State Department. The approved placement period is the duration of treatment, as stated in the most recent approval letter from the State Department, and thirty (30) days after the completion of treatment/ discharge date.
- PP. A county department makes foster care maintenance payments for children/youth placed with parents in a licensed residential family-based treatment facility for substance abuse in accordance with federal and state program and fiscal requirements. Reimbursement shall be eighty percent (80%) of the approved allowable cost, within the available allocation.

7.410 CASE SERVICE PAYMENTS FOR CHILDREN PLACED IN OUT-OF-HOME CARE [Rev. eff. 4/1/12]

Case services are a type of purchased program services that support a case plan for children in out-of-home placement, adoption assistance, or a Relative Guardianship Assistance agreement.

- A. The State reimburses for a one time physical, dental and psychological examination for individual eligible children in out-of-home care per Section 7.003.3, B, 2 (12 CCR 2509-1) 7.607.3, B, 2 (12 CCR 2509-7).
- B. The State reimburses county departments for client transportation as a case service from out-of-home care funds when travel is necessary:
 - 1. For children in out-of-home care to receive services specified in the Family Services Plan that are directly related to visitation and reunification.
 - 2. To return runaways, who are in county department custody, to their Colorado home county.
 - 3. To facilitate a permanent plan through the Interstate Compact on the Placement of Children.
- C. The State does not reimburse for transportation when the:

Child is eligible for Medicaid and the transportation is to enable him/her to secure medical benefits.
- D. The State reimburses county departments for case services provided to children placed by provider consortiums/networks when such services are not a part of either room and board or Medicaid treatment/case management services.
- E. The State reimburses county departments for other case services provided to children in out-of-home placement when such services are not a part of either room and board or Medicaid treatment or case management services.

7.416.2 REIMBURSEMENT FOR SUPERVISED INDEPENDENT LIVING PLACEMENT

This is paid according to the rate negotiated by the county department. The rate may be the State established child maintenance rate or may be the rate negotiated by the county department that ensures the youth has sufficient resources to meet their basic needs AND ANY CONTRIBUTION THE YOUTH IS REQUIRED TO MAKE SHALL BE BASED ON:

- A. THE PRESUMPTION THAT ABILITY TO PAY ALIGNS WITH STANDARDS ESTABLISHED BY THE FEDERAL DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT HOUSING CHOICE OR SIMILAR VOUCHER PROGRAMS. ANY VARIANCE SHALL BE BASED ON THE NEEDS OF THE YOUTH AND:
 - 1. THE NEED TO GRADUALLY REDUCE PAYMENTS IN A MANNER THAT REDUCES POTENTIAL NEGATIVE IMPACTS ASSOCIATED WITH A SUDDEN REDUCTION IN PUBLIC BENEFITS; THIS REDUCTION SHALL NOT BEGIN MORE THAN 120 DAYS PRIOR TO THE PROJECTED END OF PAYMENTS.
 - 2. THE NEED TO PROVIDE STABLE SUPPORT TO THE YOUTH SHOULD THE YOUTH'S INCOME CHANGE RAPIDLY OR UNEXPECTEDLY.
 - 3. ANY VARIANCE AND THE REASON FOR THE VARIANCE SHALL BE DOCUMENTED IN THE COMPREHENSIVE CHILD WELFARE INFORMATION SYSTEM.

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The proposed rules are required to implement HB21-1123, which makes changes to the Adult Protective Services statute (Title 26, Article 3.1). The changes will be effective January 1, 2022.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency: N/A

State Board Authority for Rule:

Code	Description
26-1-107(5)(b), C.R.S. (2020)	State Board to promulgate rules for programs administered and services provided by the state department as set forth in titles 26 and 27 of the C.R.S. Adult Protective Services is governed by article 3.1 of Title 26.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-3.1-108(1), C.R.S. (2020)	State Board to promulgate rules for title 25, article 3.1.

Does the rule incorporate material by reference?

☐

Yes

☒

No

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

Confidentiality exceptions added with HB21-1123 have been incorporated into the rules at 30.250,B, 10-11, using statute language.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

This rule impacts county departments of social/human services adult protective services (APS) staff; district and probate courts (court); persons petitioning the court to become a guardian or conservator of an at-risk adult; the Department of Regulatory Agencies (DORA); healthcare professionals licensed by the DORA; and employers of healthcare professionals licensed by DORA.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There is no fiscal impact to CDHS. There is a fiscal impact to the courts as they will have to pay the fee to request a CAPS check. The courts may offset this cost by charging the petitioner for the CAPS check fee. DORA had earlier indicated to APS staff that there would be no fiscal impact to DORA.

County Fiscal Impact

For counties with policies to name the APS caseworker or supervisor as the guardian/conservator and for counties that are not appointed as clients' guardians and/or conservators there will be no fiscal impact. If the county department has a policy to name the county director or another county staff person who is not an APS caseworker or supervisor as the APS client's guardian or conservator, a CAPS check will be required. The county department may be charged the CAPS fee by the court.

Federal Fiscal Impact

None. APS does not have federal regulations or oversight. For recently obtained federal funding related to COVID, there is no impact.

Other Fiscal Impact (such as providers, local governments, etc.)

Title of Proposed Rule: Expansion of CAPS Checks to DORA and the Courts

CDHS Tracking #: 21-04-23-01

Office, Division, & Program: Rule Author: Peggy Rogers
OAADS/AAS/APS

Phone: 303.866.2829

DRAFT 8.5.21

E-Mail:
peggy.rogers@state.co.us

Families of APS clients who pursue guardianship or conservatorship may be charged by the court the fee for the CAPS check.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

These rules are the result of HB21-1123, which was moved by the Legislative Audit Committee to close gaps in the APS statute related to reporting substantiated perpetrators to the Department of Regulatory Agencies and the courts.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

None. HB21-1123 was signed into law and rules must be adopted to enact the statutory changes.

OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail
30.100	Adds a definition	N/A	Adds a definition of “authorized requestor” as it applies to CAPS checks.	To simplify language and improve readability and understanding.	Yes
30.100	Adds a definition	N/A	Adds a definition for “court” as it applies to the CAPS check process (Section 30.960).	To be clear about which court may request CAPS checks.	Yes
30.100	Adds a definition	N/A	Adds a definition for “DORA” as it applies to Section 30.520.	To simplify language and improve readability and understanding.	Yes
30.100	Adds a definition	N/A	Adds a definition for “licensed healthcare professional” as it applies to Section 30.520.	To simplify language and improve readability and understanding.	Yes
30.100	Adds a definition	N/A	Adds a definition for “potential appointee” as it applies to the CAPS check process for courts (Section 30.960).	To simplify language and improve readability and understanding.	Yes
30.250.B.10	Adds a confidentiality exception.	N/A	Adds a new exception that allows the sharing of certain APS information without a court order with the Department of Regulatory Agencies (DORA).	To implement with HB21-1123.	Yes
30.250.B.11	Adds a confidentiality exception.	N/A	Adds a new exception that allows the sharing of certain APS information without a court order with District and probate courts that hear petitions for guardianship and/or conservatorship of at-risk adults.	To implement with HB21-1123.	No
30.520.B.5	Adds a requirement for employers required to request CAPS checks.	N/A	Employers that are required to request CAPS checks are now required to provide the DORA license number for current or former employees who have been substantiated of mistreatment.	To implement with HB21-1123.	No
30.520.D.3	Adds a requirement for county departments to ascertain and document a substantiated perpetrator’s DORA license number.	N/A	County department APS caseworkers are now required to ascertain and document the DORA license number for any substantiated perpetrators who hold a healthcare profession or occupation license when the mistreatment occurred during the conduct of their professional duties. The rule provides three ways that the county department can ascertain the number, from the employer, the substantiated perpetrator, or the DORA website search tool.	To implement with HB21-1123.	No
30.520.E	Adds rules regarding the information that will be provided to DORA when a licensed healthcare professional is substantiated of mistreatment.	N/A	The rule details the effective date of the rule, the specific information that will be shared with DORA, the timeline for providing that information to DORA, and that the information provided to DORA is not subject to the Colorado Open Records Act.	To implement with HB21-1123.	No
30.960. B	Adds a requirement to	N/A	Beginning January 1, 2022 courts will be required to	To implement with HB21-	No

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail
	complete CAPS checks for the court.		request CAPS checks for persons who may be appointed as a guardian and/or conservator of an at-risk adult. The rule is being updated to include the court and persons who may be appointed as guardian or conservator.	1123.	
30.960. E	Technical cleanup	Includes the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”.	Replaces the phrase with “authorized requestor”.	To simplify language and improve readability and understanding.	Yes
30.960.G	Adds the courts to the rule.	Rule currently includes employers only. Includes the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”.	Beginning January 1, 2022 courts will be required to request CAPS checks for persons who may be appointed as a guardian and/or conservator of an at-risk adult. The rule is being updated to add the courts and replaces the lengthy phrase with “authorized requestor”.	To implement with HB21-1123 and to simplify language and improve readability and understanding.	No
30.960.H	Adds the courts and persons who may be appointed as a guardian and/or conservator.	Rule currently includes employers only. Includes the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”.	Beginning January 1, 2022 courts will be required to request CAPS checks for persons who may be appointed as a guardian and/or conservator of an at-risk adult. The rule is being updated to include the court and persons who may be appointed as guardian or conservator and replaces the lengthy phrase with “authorized requestor”.	To implement with HB21-1123 and to simplify language and improve readability and understanding.	No
30.960.I	Adds the courts and persons who may be appointed as a guardian and/or conservator.	Rule currently includes employers only. Includes the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”.	Beginning January 1, 2022 courts will be required to request CAPS checks for persons who may be appointed as a guardian and/or conservator of an at-risk adult. The rule is being updated to include the court and persons who may be appointed as guardian or conservator and replaces the lengthy phrase with “authorized requestor”.	To implement with HB21-1123 and to simplify language and improve readability and understanding.	No
30.960.I.3	Adds requirement for the courts to request a new CAPS check under certain conditions.	N/A	The rule will require the court to ensure that a guardian or conservator who is not appointed in a case but may be considered for a case more than 30 days later, the court must request a new CAPS check. This is to prevent to the extent possible, the possibility of a guardian/conservator being substantiated in the interim and never reported to the court. There is an exception if the guardian/conservator is a professional used frequently by the court. And the rule requires each court that uses a professional to request a check for that professional.	To implement with HB21-1123.	No
30.960.I.4	Adds the courts.	Rule currently includes employers only.	Allows the CAPS Check Unit to request information from the court when the information was incomplete.	To implement with HB21-1123.	No
30.960.I.5	Adds the courts.	Rule currently includes employers only.	Allows the CAPS Check Unit to request additional information when there is reason to believe the information provided was inaccurate.	To implement with HB21-1123.	No
30.960.I.7	Adds the courts.	Rule currently includes employers only.	Includes the court in the misdemeanor penalty for requesting a check on an individual who is not a potential appointee.	To implement with HB21-1123.	No
30.960.J.1 and 2.a	Technical clean up.	Rule currently calls CAPS checks “employer CAPS checks” and references	Removing “employer”. Updates language to reflect current website.	Technical clean up.	No

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail
		a future website.			
30.960.J.3. a-c	Technical clean up.	Currently uses the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”	Replaces with “authorized requestor”.	To simplify language and improve readability and understanding.	Yes
30.960.K	Adds timeline for providing results to the court.	Rule currently includes the employer timeline only.	Beginning January 1, 2022 courts will be required to request CAPS checks for persons who may be appointed as a guardian and/or conservator of an at-risk adult. The rule is being updated to include the court timeline to receive results.	To implement with HB21-1123.	No
30.960.K.1	Technical clean up.	Currently uses the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”	Replaces with “authorized requestor”.	To simplify language and improve readability and understanding.	Yes
30.960.L.1-5	Adds the courts and potential appointees. Adds additional information that will be provided on CAPS checks.	Rule currently includes the employer only.	Beginning January 1, 2022 courts will be required to request CAPS checks for persons who may be appointed as a guardian and/or conservator of an at-risk adult. The rule is being updated to include information that will be provided to the court with CAPS check results.	To implement with HB21-1123.	No
30.960.M	Technical clean up.	Currently uses the phrase “employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer”	Replaces with “authorized requestor”.	To simplify language and improve readability and understanding.	Yes

STAKEHOLDER COMMENT SUMMARY**Development**

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

County department directors, APS Task Group members, Aging and Adult Sub-PAC members, PAC members, Department of Regulatory Affairs, Judicial, court clerks, employers registered to request CAPS checks, licensed healthcare professionals, Colorado Health Care Association, Colorado Hospital Association, ARC of Colorado, ARC of Aurora, Alliance, Colorado Cross Disability Coalition, Colorado Gerontological Society, Goodwill Services, Health Care Policy and Financing, Colorado Department of Public Health and Environment, Regional Centers, Veterans Community Living Centers, Developmental Disabilities Council, Office of Public Guardianship, Office of Behavioral Health, Disability Law Colorado, Area Agencies on Aging, Colorado Commission on Aging, and the Strategic Action Planning Group on Aging.

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☒ Yes ☐ No

If yes, who was contacted and what was their input?

DORA and the courts were supportive of the statutory changes. The APS staff have been working closely with representatives of both agencies to develop the rules and implement the bill's requirements.

Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Aging and Adult		
Date presented	Initial presentation July 8, 2021. No concerns raised. Final presentation and vote August 5, 2021.		
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	14	0	0
If not presented, explain why.	4 members were absent		

PAC

Have these rules been approved by PAC?

☐ Yes ☐ No

Date presented	September 2, 2021		
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.			

Other Comments

DRAFT 8.5.21

Comments were received from stakeholders on the proposed rules:

☒ Yes ☐ No

If “yes” to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

Stakeholder Engagement Process and Feedback

April 26, 2021 – Began meeting with representatives from the Department of Regulatory Agencies (DORA) and Judicial to begin to establish processes to implement the statute.

May 12, 2021 – House Bill 21-1123 and the key rule changes that might be needed were discussed during the May APS Task Group meeting. During the meeting the Task Group recommended:

- The rules include a definition of “court” as it applies to CAPS checks to be clear it is only courts that hear petitions for guardianship and conservatorship of at-risk adult that can and must request CAPS checks.
 - o This has been included in the proposed rule packet in Section 30.100.
- Simplifying some language. A number of phrases from statute are long and cumbersome, creating issues with ease of reading and comprehending the rules. The task group recommended adding definitions to allow the shortening of these phrases.
 - o These have all been included in the proposed rule packet in Section 30.100:
 - ‘Authorized requestor’ defined as employer or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer, or the court.
 - ‘DORA’, defined as the Department of Regulatory Agencies, Division of Professions and Occupations.
 - ‘Licensed healthcare professional’, defined as a person with a healthcare professional or healthcare occupation license from DORA.
 - ‘Potential appointee’ defined as a person who may be appointed as guardian or conservator.
- The rules be certain to include that the “provision of their professional duties” requirement from statute be incorporated into rules in the investigation section where the rules around findings on licensed professionals are written.
 - o This was incorporated into the rules in Section 30.520.
- A clear rule to let workers know not to share additional information with DORA when DORA is conducting an investigation, unless it meets an exception in the confidentiality rules.
 - o This was incorporated into the rules in Section 30.250.

May 19, 2021 – Two Stakeholder Listening Sessions were held. DORA and Judicial attended to answer any questions specific to their agencies. A number of questions arose about the bill and how it will impact professionals and caregivers. A [CDHS Fact Sheet and Stakeholder FAQ](#) was developed from those questions and posted to the APS [website](#) on 6.16.21. There were no suggestions on how to draft/what to include in rule. Stakeholders invited to this meeting included:

- Employers registered to request CAPS checks
- Licensed healthcare professionals
- Court clerks
- Statewide associations representing employers required to request CAPS checks, including the Colorado Health Care Association and the Colorado Hospital Association,

DRAFT 8.5.21

- Advocacy groups and individuals, including ARC of Colorado, ARC of Aurora, Alliance, the Colorado Cross Disability Coalition, Colorado Gerontological Society, Goodwill Services
- County department directors, and PAC, Aging and Adult Sub-PAC, and APS task group members
- Other State agencies and offices, including Health Care Policy and Financing (HCPF), Colorado Department of Public Health and Environment (CDPHE), Regional Centers, Veterans Community Living Centers, Developmental Disabilities Council, Office of Public Guardianship, and the Office of Behavioral Health
- Disability Law Colorado
- Area Agencies on Aging
- Colorado Commission on Aging (CCOA)
- Strategic Action Planning Group on Aging (SAPGA)

June 9, 2021 – During the June APS Task Group Meeting, the group reviewed the draft rules. The Task Group voted 11-0, with one voting member absent, to approve the rules to move forward to the Aging and Adult Sub-PAC in August 2021.

July 8, 2021 – Discussed the rules with the Aging and Adult Sub-PAC during their meeting. One member noted that at 30.520.D.3 the rule did not include the phrase “committed during the performance of their professional duties” to clarify when the DORA license number is required. The Department made the correction to that rule. There was no other feedback or concerns.

Stakeholder Feedback on Drafted Rules

Judicial requested that when discussing the court, that “district” courts are noted prior to “probate” courts because there is only one probate court in Colorado. This change was made in the regulatory analysis and in the definition of “court” in 30.100.

Judicial noted that professional guardians and conservators may be appointed by several different courts. With this feedback, the Department added a rule (30.960.I.3.b) to ensure that each court request a CAPS check of the professional to ensure that should a professional guardian or conservator be subsequently substantiated of mistreatment, all courts that utilize that professional would be notified of the new finding.

DEPARTMENT OF HUMAN SERVICES

Adult Protective Services

ADULT PROTECTIVE SERVICES

12 CCR 2518-1

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

30.000 ADULT PROTECTIVE SERVICES

30.100 DEFINITIONS [Rev. eff. 8/2/19]

The following definitions shall apply to these rules.

"Abuse", pursuant to Section 26-3.1-101(1), C.R.S., means any of the following acts or omissions committed against an at-risk adult:

- A. The non-accidental infliction of physical pain or injury, as demonstrated by, but not limited to, substantial or multiple skin bruising, bleeding, malnutrition, dehydration, burns, bone fractures, poisoning, subdural hematoma, soft tissue swelling, or suffocation;
- B. Confinement or restraint that is unreasonable under generally accepted caretaking standards; or,
- C. Unlawful sexual behavior as defined in Section 16-22-102(9), C.R.S.

"Adult Protective Services (APS) Program" means the State Department supervised, county department administered program that has the authority to investigate and/or assess allegations of mistreatment and self-neglect of at-risk adults. The APS Program offers protective services to prevent, reduce, or eliminate the current or potential risk of mistreatment or self-neglect to the at-risk adult using community based services and resources, health care services, family and friends when appropriate, and other support systems. The APS Program focuses on the at-risk adult and those services that may prevent, reduce, or eliminate further mistreatment or self-neglect. The APS Program refers possible criminal activities to law enforcement and/or the district attorney for criminal investigation and possible prosecution.

"Allegation" means a statement asserting an act or suspicion of mistreatment or self-neglect involving an at-risk adult.

"Assessment" means the process of evaluating a client's functional abilities to determine the client's level of risk and, in cooperation with the client whenever possible, to identify service needs for the case plan.

"Assumed responsibility", as used in the definition of caretaker, means a person who is providing or has provided recurring or temporary assistance to help meet the basic needs of an at-risk adult. The assumption of responsibility can attach by entering into a formal or informal agreement, whether paid or unpaid; by identifying oneself as a caretaker to others; or based on the nature of the situation or relationship between the caretaker and the at-risk adult.

"At-risk adult", pursuant to Section 26-3.1-101(1.5), C.R.S., means an individual eighteen years of age or older who is susceptible to mistreatment or self-neglect because the individual is unable to perform or obtain services necessary for his or her health, safety, or welfare, or lacks sufficient understanding or capacity to make or communicate responsible decisions concerning his or her person or affairs.

“AUTHORIZED REQUESTOR” PURSUANT TO SECTION 30.960, MEANS AN EMPLOYER, A PERSON OR ENTITY CONDUCTING THE EMPLOYEE CAPS CHECK ON BEHALF OF THE EMPLOYER, OR THE COURT THAT ARE REQUIRED TO REQUEST CAPS CHECKS.

“CAPS” means the Colorado Adult Protective Services (APS) State Department prescribed data system.

“CAPS check” means a check of the Colorado Adult Protective Services data system pursuant to Section 26-3.1-111, C.R.S.

“Caretaker”, pursuant to Section 26-3.1-101(2), C.R.S., means a person who:

- A. Is responsible for the care of an at-risk adult as a result of a legal relationship; or
- B. Has assumed responsibility for the care of an at-risk adult; or,
- C. Is paid to provide care, services, or oversight of services to an at-risk adult.

“Caretaker neglect”, pursuant to Section 26-3.1-101(2.3)(a), C.R.S., means neglect that occurs when adequate food, clothing, shelter, psychological care, physical care, medical care, habilitation, supervision, or other treatment necessary for the health, safety, or welfare of the at-risk adult is not secured for an at-risk adult or is not provided by a caretaker in a timely manner and with the degree of care that a reasonable person in the same situation would exercise, or when a caretaker knowingly uses harassment, undue influence, or intimidation to create a hostile or fearful environment for an at-risk adult. However, the withholding, withdrawing, or refusing of any medication, any medical procedure or device, or any treatment, including but not limited to resuscitation, cardiac pacing, mechanical ventilation, dialysis, artificial nutrition and hydration, any medication or medical procedure or device, in accordance with any valid medical directive or order, or as described in a palliative plan of care, is not deemed caretaker neglect. In addition to those exceptions identified above, access to Medical Aid in Dying, pursuant to Title 25, Article 48, C.R.S., shall not be considered caretaker neglect.

“Case” means the process by which a county department provides services to an at-risk adult. A case begins when a report identifies an at-risk adult and allegations that qualify as a mistreatment or self-neglect, and the report is screened in for investigation and assessment. The county department may continue to provide services under a case after the investigation has concluded.

“Caseload average” means the fiscal year monthly average of new cases and the sum of cases carried over from the prior fiscal year, per caseworker. The fiscal year caseload average is calculated as: $[(\text{new cases}/12) + \text{cases carried over from prior FY}] / \text{FTE on June 30} = \text{caseload average}$. Caseload average will fluctuate on a monthly basis that may be influenced by a number of factors; therefore, the caseload average is based on the fiscal year average.

“Case planning” means using the information obtained from the investigation and/or assessment to identify, arrange, and coordinate protective services in order to reduce the client’s level of risk for mistreatment and self-neglect and improve safety.

“Certification due date” means the date by which new APS staff must complete certification training. The certification due date for supervisors, lead caseworkers, and caseworkers is six months from the date the supervisor, lead caseworker, or caseworker was hired or transferred to the APS program. The certification due date for case aides and screeners is one month from the date the case aide or screener was hired or transferred to the APS program.

“Clergy member”, pursuant to Section 26-3.1-101(2.5), C.R.S., means a priest; rabbi; duly ordained, commissioned, or licensed minister of a church; member of a religious order; or recognized leader of any religious body.

“Client” means an actual or possible at-risk adult for whom a report has been received and the county department has made a response.

“Collateral contact” means a person who has relevant knowledge about the client’s situation that supports, refutes, or corroborates information provided by a client, reporting party, or other person involved in the case. Examples of contacts include, but are not limited to, family members, law enforcement, health care professionals, service providers, facility staff, neighbors, the reporting party, friends, and any person who provides/provided ongoing care or support to the client.

“County Department” means a county department of human/social services.

“COURT”, PURSUANT TO SECTION 30.960 MEANS A DISTRICT OR PROBATE COURT THAT HEARS PETITIONS FOR AND APPOINTS GUARDIANS AND/OR CONSERVATORS OF ADULTS.

“Date of notice” means the date that the notice of a substantiated finding against a perpetrator(s) is mailed to the last known mailing address(es) of the perpetrator(s).

“Direct care”, pursuant to Section 26-3.1-101(3.5), C.R.S., means services and supports, including case management services, protective services, physical care, mental health services, or any other service necessary for the at-risk adult’s health, safety, or welfare. An employer may identify which employees provide direct care, consistent with this definition, in an internal policy.

“DORA” PURSUANT TO SECTION 30.520, MEANS THE DEPARTMENT OF REGULATORY AGENCIES, DIVISION OF PROFESSIONS AND OCCUPATIONS THAT OVERSEES THE LICENSURE OF HEALTHCARE PROFESSIONALS.

“Employee”, pursuant to Section 26-3.1-111(2), C.R.S., means a person, other than a volunteer, who is employed by or contracted with an employer and includes a prospective employee.

“Employer”, pursuant to Section 26-3.1-111(2), C.R.S., means a person, facility, entity, or agency described in Section 26-3.1-111(7), C.R.S., and includes a prospective employer. “Employer” also includes a person hiring someone to provide Consumer-Directed Attendant Support Services pursuant to C.R.S. Article 10 of Title 25.5, if the person requests a CAPS check.

“Enhanced supervision” means CAPS security access that prevents a caseworker from finalizing an investigation, assessment, case plan, or case closure without supervisory approval.

“Exploitation” means an act or omission that:

- A. Uses deception, harassment, intimidation, or undue influence to permanently or temporarily deprive an at-risk adult of the use, benefit, or possession of anything of value; or,
- B. Employs the services of a third party for the profit or advantage of the person or another person to the detriment of the at-risk adult; or,
- C. Forces, compels, coerces, or entices an at-risk adult to perform services for the profit or advantage of the person or another person against the will of the at-risk adult; or,
- D. Misuses the property of an at-risk adult in a manner that adversely affects the at-risk adult's ability to receive health care or health care benefits or to pay bills for basic needs or obligations.

“Facility” means a medical or long-term care facility that provides 24 hour care and oversight for residents, and includes a group home, alternative care facility, state regional center, or state mental health facility.

“Financial institution” means a state or federal bank, savings bank, savings and loan association or company, building and loan association, trust company, or credit union.

“Fiscal Year” means the State Department fiscal year, which begins July 1 and ends June 30.

“FTE” means Full Time Equivalent. The actual percentage of time a person works on the APS program shall be considered that person’s FTE.

“Good cause”, except as applied by a court, means emergency conditions or other circumstances which would prevent a reasonable person from meeting a deadline or complying with APS rule or practice. Examples include, but are not limited to, law enforcement request to delay the APS investigation; inability to locate the client or collaterals despite reasonable, documented attempts; additional time required to obtain documents which were timely requested but not delivered; lack of proper notice to the substantiated perpetrator of the availability of an appeal; etc.

“Harmful act” means an act committed against an at-risk adult by a person with a relationship to the at-risk adult when such act is not defined as abuse, caretaker neglect, or exploitation but causes harm to the health, safety, or welfare of an at-risk adult.

“Inconclusive finding” means that indicators of mistreatment or self-neglect may be present but the investigation could not confirm the evidence to a level necessary to substantiate the allegation.

“Investigation” means the process of determining if an allegation(s) of mistreatment or self-neglect involving an at-risk adult can be substantiated by a preponderance of evidence.

“Least restrictive intervention” means acquiring or providing services, including protective services, for the shortest duration and to the minimum extent necessary to remedy or prevent mistreatment or self-neglect.

“LICENSED HEALTHCARE PROFESSIONAL” FOR THE PURPOSE OF SECTION 30.520 MEANS A PERSON WHO IS LICENSED THROUGH THE DEPARTMENT OF REGULATORY AGENCIES, DIVISION OF OCCUPATIONS AND PROFESSIONS (DORA) FOR A HEALTHCARE PROFESSION OR HEALTHCARE OCCUPATION.

“Medical Directive or Order” means a medical durable power of attorney, a declaration as to medical treatment executed pursuant to Section 15-18-104, C.R.S., a medical order for scope of treatment form executed pursuant to Article 18.7 of Title 15, C.R.S., and a cardiopulmonary resuscitation (CPR) directive executed pursuant to Article 18.6 of Title 15, C.R.S.

“Minor impact” means the client may experience some difficulty with the assessment risk indicator, but there is very little impact on the client’s overall health, safety, and/or welfare and no intervention is necessary to improve overall safety.

“Mistreatment”, pursuant to Section 26-3.1-101(7), C.R.S., means:

- A. Abuse;
- B. Caretaker neglect;
- C. Exploitation; or,
- D. A harmful act.

“Mistreatment occurred - not culpable finding” means the investigation established by a preponderance of the evidence that mistreatment occurred but the individual who caused the mistreatment is not culpable. Documentation must clearly support that the individual who caused the mistreatment is an at-risk adult or

a minor child with cognitive functioning that prevents the at-risk adult or child from having awareness of the consequences of their actions, as demonstrated by county department observations of cognition or behaviors, and/or interviews with expert collaterals, and/or medical or neuro-psych records, and/or behavioral plans developed by the adult's or child's service agency. A "mistreatment occurred – not culpable finding" must be used if the individual who caused the mistreatment is a child under the age of ten (10) years old.

"Person with a relationship", as applied to the definition of harmful act, means a person who can be identified as having a relationship or attempting to develop a relationship with an at-risk adult. The relationship may include but is not limited to a familial, legal, caretaking, pastoral, friendship, or other relationship and excludes strangers.

"POTENTIAL APPOINTEE", PURSUANT TO SECTION 30.960 MEANS A PERSON WHO MAY BE APPOINTED BY THE COURT AS A GUARDIAN OR CONSERVATOR OF AN AT-RISK ADULT.

"Preponderance of Evidence" means credible evidence that a claim is more likely true than not.

30.200 ADULT PROTECTIVE SERVICES PROGRAM ADMINISTRATION AND OVERVIEW

30.250 CONFIDENTIALITY [Rev. eff. 8/2/19]

A. Pursuant to Section 26-3.1-102(7)(a), C.R.S. and except as provided in Section 26-3.1-102(7)(b), C.R.S. and Section 30.250, B, reports of the mistreatment or self-neglect of any at-risk adult, including the name and address of any at-risk adult, member of said adult's family, or informant, or any other identifying information contained in such reports and subsequent cases resulting from the reports, is confidential, and is not public information. The county department shall treat all information related to the report and the case, whether in written or electronic form, as confidential and such information includes, but is not limited to, the following:

1. Identifying information, such as the name, address, relationship to the at-risk adult, Date of Birth, or Social Security Number of the:
 - a. At-risk adult;
 - b. At-risk adult's family members;
 - c. Reporting party;
 - d. Alleged perpetrator; and,
 - e. Other persons involved in the case.
2. Allegations, assessment, and investigative findings, including, but not limited to:
 - a. The initial report of allegations and concerns;
 - b. The client's safety and risk as determined by the client assessment;
 - c. Medical and behavioral diagnoses, past medical conditions, and disabilities;
 - d. Services provided to or arranged for the adult;
 - e. Information learned as a result of a criminal investigation;

- f. Information obtained during the APS investigation and the substantiation or non-substantiation of the allegations; and,
 - g. Legal protections in place including, but not limited to, wills, advance directives, powers of attorney, guardianship, conservatorship, representative payeeship, and protective orders.
- B. Pursuant to Section 26-3.1-102(7)(b), C.R.S., disclosure of a report of the mistreatment or self-neglect of an at-risk adult and information relating to an investigation of such a report and subsequent cases resulting from the report is permitted only when authorized by a court for good cause. A court order is not required, and such disclosure is not prohibited when:
 - 1. A criminal investigation into an allegation of mistreatment is being conducted, when a review of death by a coroner is being conducted when the death is suspected to be related to mistreatment, or when a criminal complaint, information, or indictment is filed and the report and case information is relevant to the investigation, death review, complaint, or indictment.
 - 2. There is a death of a suspected at-risk adult from mistreatment or self-neglect and a law enforcement agency files a formal charge or a grand jury issues an indictment in connection with death.
 - 3. The disclosure is necessary for the coordination of multiple agencies' joint investigation of a report or for the provision of protection services to an at-risk adult, such as, but not limited to:
 - a. Coordination with law enforcement to conduct a joint investigation;
 - b. Providing protective services, such as establishing eligibility for, arrangement and implementation of services and benefits, and appointment of a guardian and/or conservator.
 - c. A review of a power of attorney is requested under the uniform power of attorney act, as outlined at C.R.S. Title 15, Article 14, Part 7 or review of a fiduciary under C.R.S. Title 15, Article 10, Part 5.
 - d. Reviewing a case with the Adult Protection Team to find solutions to cases with complex service provision needs, in accordance with the Adult Protection Team's by-laws, and when in executive session with members who have signed a confidentiality agreement.
 - 4. The disclosure is necessary for purposes of an audit of a county department of human or social services pursuant to Section 26-1-114.5, C.R.S.
 - 5. The disclosure is made for purposes of the appeals process relating to a substantiated case of mistreatment of an at-risk adult pursuant to Section 26-3.1-108(2), C.R.S.
 - a. This subsection is in addition to and not in lieu of other federal and state laws concerning protected confidential information. Disclosures allowed are:
 - i. Notification made by the county department to substantiated perpetrator(s) of mistreatment pursuant to Section 26-3.1-108, C.R.S.

- ii. Disclosure by the State Department for purposes of the appeals process relating to a substantiated case of mistreatment of an at-risk adult pursuant to Section 26-3.1-108(2), C.R.S.
- 6. The disclosure is made by the State Department to an employer, or to a person or entity conducting employee screening on behalf of the employer, as part of a CAPS check pursuant to Section 26-3.1-111, C.R.S. or by a county department pursuant to Section 26-3.1-107, C.R.S.
- 7. The disclosure is made to an at-risk adult, or if the at-risk adult is otherwise incompetent at the time of the request, to the guardian or guardian ad litem for the at-risk adult, with the following conditions:
 - a. The disclosure shall not be made until after investigation is complete; and,
 - b. The disclosure shall not include any identifying information related to the reporting party or any other appropriate persons, as follows:
 - i. The county department shall redact any and all identifying information related to the reporting party; and,
 - ii. The county department may redact Personal Identifying Information (PII) related to the client, supports, collaterals, and alleged or substantiated perpetrators, as deemed necessary by the county department; and,
 - c. The county department shall redact all Personal Health Information (PHI) protected by the Health Insurance Portability and Accountability Act of 1996 (HIPAA), state, or federal law of the reporting party, supports, collaterals, and alleged or substantiated perpetrator; and,
 - d. The county department shall obtain from the guardian a copy of the guardianship order or guardian ad litem appointment, independently verify that the order or appointment remains valid, and attach the order or appointment to the client's case in CAPS; and,
 - e. If the guardian is a substantiated perpetrator in a case of mistreatment of an at-risk adult, the disclosure must not be made without authorization by the court for good cause. The county department shall require the guardian to obtain a court order and the county department shall obtain a copy of the court order from the guardian and attach the order to the case in CAPS.
- 8. The disclosure is made to a county department that assesses or provides protective services for children, when the information is necessary to adequately assess for safety and risk or to provide protective services for a child. A county department that assesses or provides protective services for at-risk adults is similarly permitted to access information from a county department that assesses or provides protective services for children pursuant to Section 19-1-307(2)(X), C.R.S.
 - a. Information must be limited to information regarding prior or current reports, assessments, investigations, or case information related to an at-risk adult or an alleged perpetrator.
 - b. The provisions of this Subsection 30.250, B, 8 are in addition to and not in lieu of other federal and state laws concerning protected or confidential information.

- i. the county department may not share Personal Identifying Information (PII) or Personal Health Information (PHI) protected by HIPAA that is not necessary to the child welfare investigation, assessment, or provision of services for the child(ren).
 - ii. Information provided to child welfare staff must be the minimum necessary for worker safety concerns for child welfare staff, the investigation, assessment, and provision of services for the child(ren).
 - iii. County department APS staff may share information with any county department's child welfare staff.
 - iv. The county department's child welfare staff shall not be provided access to CAPS, unless that child welfare staff person is also the county department's APS staff person.
- 9. The disclosure is made to an employer required to request a CAPS check pursuant to Section 26-3.1-111 or to the State Department agency that oversees the employer when the information is necessary to ensure the safety of other at-risk adults under the care of the employer. The information must be the minimum information necessary to ensure the safety of other at-risk adults under the care of the employer or oversight of the State Department agency.
- 10. THE DISCLOSURE IS MADE PURSUANT TO SECTION 26-3.1-111(12) TO A HEALTH OVERSIGHT AGENCY, AS DEFINED IN 42 CFR 164.501, WITHIN THE DEPARTMENT OF REGULATORY AGENCIES OR A REGULATOR, AS DEFINED IN SECTION 12-20-102(14), WITHIN SUCH A HEALTH OVERSIGHT AGENCY.
 - a. THE STATE DEPARTMENT, NOT COUNTY DEPARTMENTS, SHALL PROVIDE THIS INFORMATION TO DORA.
 - b. COUNTY DEPARTMENTS MUST OBSERVE ALL CONFIDENTIALITY REQUIREMENTS IN THE EVENT DORA CONTACTS THEM DURING AN INVESTIGATION.
- 11. THE DISCLOSURE IS MADE TO THE COURT PURSUANT TO SECTION 26-3-111(3) (b) AND (8.5)(b).
- C. Whenever there is a question about the legality of releasing information the requestor shall be advised to submit a written request to the appropriate court to order the county department to produce the desired records or information within the custody or control of the county department.
- D. Information released under Section 30.250, B, shall be the minimum information necessary to secure the services, conduct the investigation, or otherwise respond to the court order. The county department shall:
 - 1. Provide the information only to persons deemed essential to the court order, criminal or APS investigation, adult protection team activities, or the provision of services;
 - 2. Edit the information prior to its release to physically remove or redact sensitive information not essential to the court order, criminal or APS investigation, adult protection team activities, or provision of services and benefits;

3. Redact all information that would identify the reporting party unless ordered by the court, the reporting party has given written consent, or when sharing the report with law enforcement, per Section 26-3.1-102, (3), C.R.S;
 4. Always redact all HIPAA protected information and any other confidential information which is protected by law unless specifically ordered by a court; and,
 5. Redact all other report and case information not directly related to the court order.
- E. In a criminal or civil proceeding or in any other circumstance in which the APS report and/or case record is subpoenaed or any request for disclosure has been made, or any county department or State Department representative is ordered to testify concerning an APS report or case, the court shall be advised, through proper channels, of the statutory provisions, rules, and policies concerning disclosure of information.
1. Confidential information shall not be released unless so ordered by the court for good cause, except as outlined in Section 30.250, B.
 2. Courts with competent jurisdiction may determine good cause. Although it is not an exhaustive list, the following are examples of court proceedings in which a court may determine that good cause exists for the release of confidential information:
 - a. Guardianship or conservatorship proceeding in which either the county is the petitioner or has been ordered to testify;
 - b. Review of power of attorney under the uniform power of attorney act, as outlined at Title 15, Article 14, Part 7, Colorado Revised Statutes (C.R.S.);
 - c. Review of a fiduciary under Title 15, Article 10. Part 5, C.R.S.; and/or,
 - d. Criminal trial.
 3. The county department or State Department shall comply within the time frame ordered by the court, unless a motion to quash is pending, or, if there is no stated timeline within the court order, in accordance with county department or State Department policy and provide a written notice with the information to be released regarding the legality of sharing confidential information.
- F. Individuals or groups requesting information regarding APS reports and/or investigations shall be informed of the confidential nature of the information and shall be advised that a court order is required to release information held by the county department, except as provided at Section 30.250, B. These persons or groups include, but are not limited to:
1. Federal and state legislators;
 2. Members of other governmental authorities or agencies, including county commissioners, city councils, school boards, and other city and county department boards, councils, officials, and employees;
 3. Courts;
 4. Attorneys, guardians, conservators, agents under powers of attorney, representative payees, and other fiduciaries;
 5. Family members, reporting parties, or other interested parties;

6. Any alleged perpetrator; and,
 7. Media representatives.
- G. Any person who violates any provision of this Subsection 30.250, A through F is guilty of a Class 2 petty offense and, upon conviction thereof, shall be punished by a fine of not more than three hundred dollars as provided in Section 26-3.1-102(7), C.R.S.
- H. All confidential APS information and data shall be processed, filed and stored using safeguards that prevent unauthorized personnel from acquiring, accessing, or retrieving the information.
1. Client files created prior to July 1, 2014 when CAPS was implemented shall be kept in a secured area when not in use. All other documents related to APS reports and cases shall be kept in CAPS, as outlined in Section 30.260, B and C.
 2. Laptops and other mobile devices used to document in the field shall be protected and encrypted in compliance with HIPAA security requirements.
 3. Email correspondence that contains APS confidential information shall be sent through secure encryption programs.
 4. The State Department shall ensure that only State Department and county department staff persons with a business need to do so shall have access to CAPS.
 - a. All CAPS users must electronically sign the CAPS Security and Confidentiality Agreement annually and follow the requirements therein.
 - b. County departments shall not access information in CAPS that is not necessary to serve the client.
 - c. Violations of CAPS security and confidentiality requirements may result in loss of access to CAPS, at the discretion of the State Department.
- I. Clients shall be referred to the Colorado Address Confidentiality Program (ACP) as appropriate to determine their eligibility for services including the legal substitute mailing address and mail forwarding services. The State Department and county department shall comply with any applicable provisions for APS clients enrolled in the ACP.

30.500 INVESTIGATION AND ASSESSMENT

30.520 INVESTIGATION [Rev. eff. 8/2/19]

- A. The county department shall conduct an investigation to determine findings related to allegations of mistreatment or self-neglect, as required by Section 30.510. The investigation shall include, but may not be limited to:
1. Determining the need for protective services. If the client is in clear and immediate danger, the county shall intervene immediately by notifying the proper emergency responders.
 2. Determining if the investigation should be conducted jointly with another entity, except in self-neglect only cases, such as:

- a. Law enforcement and/or the district attorney;
 - b. Community Centered Board;
 - c. Health Facilities Division;
 - d. Attorney General's Medicaid Fraud Unit;
 - e. The long-term care ombudsman; and/or,
 - f. County department Child Welfare programs.
3. Making reasonable efforts to conduct interviews, as outlined below. The interviews and collection of evidence must address the specific allegations identified in the report and any new mistreatment or self-neglect that may be identified during the assessment or investigation. If an interview cannot be conducted for good cause, the attempts and the cause shall be documented.
- a. An in-person initial interview with the client, unannounced and in private, whenever possible.
 - i. The county department shall document in CAPS that the visit was unannounced and in private and if not unannounced and/or in private for good cause, the cause shall be documented in CAPS.
 - ii. If the client is unable to be interviewed for good cause, the cause shall be documented in CAPS.
 - b. Ongoing interviews with the client to complete the investigation and assessment as outlined in Section 30.530. If the client refuses to participate in the investigation or cannot be located, the county department shall complete the investigation by gathering evidence and interviewing other collateral contacts that have knowledge of the client and/or the alleged mistreatment or self-neglect.
 - c. Interviews with all collateral contacts. In the event a collateral contact cannot be located or interviewed for good cause, the cause shall be documented in CAPS; and,
 - d. Interview(s) with the alleged perpetrator(s), with or without law enforcement. In the event the alleged perpetrator is unable to be located or interviewed for good cause, the cause shall be documented in CAPS. The following information shall be collected related to the alleged perpetrator(s), to the fullest extent possible, in addition to information about the allegations:
 - i. Full name of the alleged perpetrator(s) with accurate spelling;
 - ii. Current email address, when available;
 - iii. Current physical and mailing address;
 - iv. Date of birth; and,
 - v. THE DORA LICENSE NUMBER IF THE SUBSTANTIATED PERPETRATOR IS A LICENSED HEALTH CARE PROFESSIONAL

WHO CAUSED MISTREATMENT WHILE IN THE PROVISION OF
THEIR PROFESSIONAL DUTIES; AND,

- wi. Other identifying demographic and contact information.
- 4. Collecting evidence and documenting with photographs or other means, when appropriate, such as:
 - a. Police reports;
 - b. Any available investigation report from a currently or previously involved facility and the occurrence report from the Health Facilities Division;
 - c. Medical and mental health records;
 - d. Bank or other financial records;
 - e. Care plans for any person in a facility or receiving other services that require a care plan and any daily logs or charts; and/or,
 - f. Staffing records and employee work schedules when investigating in a facility.
- 5. Making a finding regarding each allegation and alleged perpetrator, including the severity level of the mistreatment when there is a substantiated finding. A severity level shall not be assigned to a substantiated self-neglect allegation.
- 6. Determining whether there are additional mistreatment or self-neglect concerns not reported in the initial allegations. If there are additional concerns the county department shall enter the mistreatment and alleged perpetrator or self-neglect into the case, investigate, and make a finding, including the severity level of the mistreatment when there is a substantiated finding. A severity level shall not be assigned to a substantiated self-neglect allegation.
- 7. Supervisory review of all findings and approval only when the county department has completed a thorough investigation and the evidence justifies the findings.
- 8. Notifying law enforcement when criminal activity is suspected.
- B. Each employer defined by Section 30.960.A must provide access to the county department to conduct an investigation into an allegation of mistreatment. Access includes the ability to request interviews with relevant persons and to obtain relevant documents and other evidence, as follows:
 - 1. The patient, client, resident, or consumer of the agency who is the client in an APS case of mistreatment or who is relevant to the APS investigation; and,
 - 2. Personnel, including paid employees, contractors, volunteers, and interns who are relevant to the investigation; and,
 - 3. Individual patient, client, resident, or consumer records relevant to the investigation, including:
 - a. Health records;
 - b. Incident and investigative reports;

- c. Care and behavioral plans;
 - d. Staffing schedules and time sheets; and,
 - e. Photos and other technological evidence.
- 4. Entrance to the employer's premises as necessary to complete a thorough investigation. At the time of entry, county department staff must identify themselves and the purpose of the investigation to the person in charge of the entity.
- 5. THE PROFESSIONAL LICENSE NUMBER ISSUED BY DORA FOR ANY CURRENT OR FORMER STAFF PERSON WHO IS A LICENSED HEALTHCARE PROFESSIONAL AND WHO IS SUBSTANTIATED OF MISTREATMENT DURING THE PROVISION OF THEIR DUTIES.
- 56. Attorneys and their staff who are providing legal assistance pursuant to a contract with an area agency on aging, and the long-term care ombudsman are not subject to the requirements in this Section 30.520.B.
- C. In the event that a finding is determined to be incorrect after supervisory approval, the county department shall take the following applicable steps:
 - 1. If the finding was originally unsubstantiated and the finding is changing to inconclusive, correct the finding in CAPS.
 - 2. If the finding was originally inconclusive and the finding is changing to unsubstantiated, correct the finding in CAPS.
 - 3. If the finding was originally unsubstantiated or inconclusive and the finding is changing to substantiated, correct the finding in CAPS and notify the alleged perpetrator as outlined in Section 30.910, A-C.
 - 4. If the finding was originally substantiated and the finding is changing to unsubstantiated or inconclusive, correct the finding in CAPS and notify the alleged perpetrator of the correction as outlined in Section 30.910, C. If there is an open appeal at the time of the correction, the county department shall notify the State Department of the change in finding no later than ten (10) calendar days of identifying the need to correct the finding.
- D. The county department shall complete the investigation into the allegation(s) within sixty (60) calendar days of the receipt of the report. When allegations are received or identified after the initial report, the county department shall complete the investigation into the additional allegation(s) within sixty (60) days of the receipt or identification of the additional mistreatment or self-neglect. For all investigations the county department shall ensure that documentation of the investigation occurs in CAPS throughout the investigation process, as follows:
 - 1. All interviews, contacts, or attempted contacts with the client, collaterals, alleged perpetrators, and other contacts during the investigation shall be documented within fourteen (14) calendar days of receipt of the information.
 - 2. All evidence collected during the investigation shall be scanned and attached to the case by the conclusion of the investigation.
 - 3. IF THE SUBSTANTIATED PERPETRATOR IS A LICENSED HEALTHCARE PROFESSIONAL AND THE MISTREATMENT WAS COMMITTED DURING THE PERFORMANCE OF THEIR PROFESSIONAL DUTIES, THE COUNTY DEPARTMENT

SHALL DOCUMENT THE LICENSE NUMBER IN CAPS. THE COUNTY DEPARTMENT MAY ASCERTAIN THE LICENSE NUMBER USING ONE OF THE METHODS OUTLINED BELOW:

- a. IF THE SUBSTANTIATED PERPETRATOR'S CURRENT OR FORMER EMPLOYER IS AN AGENCY REQUIRED TO REQUEST CAPS CHECKS, AS OUTLINED IN SECTION 30.960.A, THE EMPLOYER IS REQUIRED TO PROVIDE THE DORA LICENSE NUMBER TO THE COUNTY DEPARTMENT UPON REQUEST, AS OUTLINED IN SECTION 26-3.1-103(1.3)(a)(v) AND SECTION 30.520.B.5; OR
- b. IF THE SUBSTANTIATED PERPETRATOR IS A LICENSED HEALTHCARE PROFESSIONAL, THE SUBSTANTIATED PERPETRATOR IS REQUIRED BY SECTION 26-3.1-103(1.4) TO PROVIDE THEIR DORA LICENSE NUMBER UPON REQUEST OF THE COUNTY DEPARTMENT; OR
- c. THE DORA ONLINE COLORADO PROFESSIONAL OR BUSINESS LICENSE VERIFICATION SYSTEM.

34. Findings for the allegations and alleged perpetrator(s) shall be documented no later than sixty (60) calendar days from receipt of the report, including supervisor review and approval of the findings. If the county is unable to complete the investigation timely for good cause, the cause shall be documented in CAPS. Beginning July 1, 2018 all substantiated perpetrators shall be provided notice of the substantiation and their appeal rights, as outlined in Section 30.910.

E. BEGINNING ON OR BEFORE JANUARY 1, 2022, THE STATE DEPARTMENT SHALL PROVIDE INFORMATION TO DORA WHEN A LICENSED HEALTHCARE PROFESSIONAL IS SUBSTANTIATED OF MISTREATMENT OF AN AT-RISK ADULT DURING THEIR PROFESSIONAL DUTIES.

1. NOTIFICATION TO DORA SHALL BE MADE BY THE STATE DEPARTMENT WITHIN TEN (10) CALENDAR DAYS AFTER A SUBSTANTIATED FINDING.
2. THE INFORMATION PROVIDED SHALL INCLUDE, AT A MINIMUM:
 - a. THE PROFESSIONAL'S NAME;
 - b. THE PROFESSIONAL'S LICENSE NUMBER;
 - c. THE NAME OF THE MISTREATED ADULT;
 - d. THE LOCATION OR RESIDENCE OF THE MISTREATED ADULT;
 - e. THE LOCATION WHERE THE MISTREATMENT OCCURRED;
 - f. THE DATE OF THE FINDING;
 - g. THE COUNTY THAT INVESTIGATED THE MISTREATMENT;
 - h. THE TYPE AND SEVERITY OF MISTREATMENT;
 - i. THE PROFESSIONAL'S RIGHT TO AN APPEAL AND THE TIME FRAME TO FILE AN APPEAL AND,

- j. THE UNIQUE CAPS IDENTIFIER THAT TIES THE PERPETRATOR TO THE SUBSTANTIATED FINDING.
- 3. INFORMATION PROVIDED TO DORA REGARDING A SUBSTANTIATED FINDING OF MISTREATMENT CAUSED BY A LICENSED HEALTHCARE PROFESSIONAL IS CONFIDENTIAL, NOT SUBJECT TO PART 2 OF ARTICLE 72 OF TITLE 24, AND MUST BE USED FOR PURPOSES OF A REGULATORY INVESTIGATION CONDUCTED PURSUANT TO SECTION 12-20-401.

30.900 NOTICE TO SUBSTANTIATED PERPETRATORS AND STATE LEVEL APPEALS PROCESS
[Eff. 5/30/18]

30.960 EMPLOYER CAPS CHECKS

- A. Pursuant to Section 26-3.1-111(6)(a)(I), C.R.S., beginning January 1, 2019, the following employers shall request a CAPS check prior to hiring a new employee who will provide direct care to an at-risk adult and may request a CAPS check for existing employees or volunteers who provide direct care to an at-risk adult.
 - 1. Health facilities licensed pursuant to Section 25-1.5-103, C.R.S, including those wholly owned and operated by any governmental unit;
 - 2. Adult day care facilities, as defined in Section 25.5-6-303(1), C.R.S.;
 - 3. Community integrated health care service agencies, as defined in Section 25-3.5-1301(1);
 - 4. Community-Centered Boards or program-approved service agencies that provide or contract for services and supports, pursuant to C.R.S. Article 10 OF Title 25.5;
 - 5. Single Entry Point agencies, as described in Section 25.5-6-106, C.R.S.;
 - 6. Area Agencies on Aging, as defined in Section 26-11-201(2), C.R.S., and any agency or provider the Area Agency on Aging contracts with to provide services;
 - 7. Facilities operated by the State Department for the care and treatment of persons with mental illness, pursuant to C.R.S. Article 65 OF Title 27;
 - 8. Facilities operated by the State Department for the care and treatment of persons with intellectual and developmental disabilities, pursuant to C.R.S. Article 10.5 OF Title 27;
 - 9. Veterans Community Living Centers, operated pursuant to C.R.S. Article 12 OF Title 26; and,
 - 10. The Office of Public Guardianship Pursuant to Section 13-94-105(6), C.R.S.
- B. PURSUANT TO SECTION 26-3.1.111(3)(b), C.R.S., BEGINNING JANUARY 1, 2022, THE COURTS SHALL REQUEST A CAPS CHECK FOR ANY PERSON PETITIONING TO BE APPOINTED AS THE GUARDIAN AND/OR CONSERVATOR OF AN AT-RISK ADULT (POTENTIAL APPOINTEE), WITH THE EXCEPTION OF COUNTY DEPARTMENT ADULT PROTECTIVE SERVICES STAFF WHO ARE ALREADY REQUIRED TO UNDERGO A CAPS CHECK PURSUANT TO SECTION 26-3.1-107(2) AND THE OFFICE OF PUBLIC GUARDIANSHIP STAFF REQUIRED TO UNDERGO A CAPS CHECK PURSUANT TO SECTION 26-3.1-111(7)(j).

- C. Pursuant to Section 26-3.1-111(8), beginning January 1, 2019, individuals receiving consumer-directed attendant support services (CDASS), pursuant to C.R.S. Article 10 of Title 25.5, may request a CAPS check for a new or existing employee.
- BD.** Employers identified in Section 30.960.A shall cooperate with and provide access to county departments conducting investigations of mistreatment of at-risk adults pursuant to Section 26-3.1-103(1.3), C.R.S and Section 30.520.B.
- DE.** Information obtained through a CAPS check by an employer, ~~or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer,~~ AUTHORIZED REQUESTOR shall only be released pursuant to Section 26-3.1-111(6)(d), C.R.S.
- F.** Section 26-3.1-111(6)(e), C.R.S., creates a criminal penalty for any person who improperly releases or who willfully permits or encourages the release of data or information obtained through a CAPS check to persons not permitted access to the information pursuant to C.R.S. Title 26, Article 3.1.
- EG.** Employers, ~~or a person or entity conducting the employee CAPS check on behalf of the employer,~~ AUTHORIZED REQUESTORS shall register prior to requesting a CAPS check to allow for verification of the employer's REQUESTOR'S legal authority to request the check.
1. ~~The employer, or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer,~~ THE REQUESTOR is responsible for ensuring the registration information is up to date.
 2. There shall be no fee to the employer REQUESTOR to register.
- FH.** Using a form developed by the State Department, employers, ~~or a person or entity conducting the employee CAPS check on behalf of the employer,~~ AUTHORIZED REQUESTORS shall obtain written authorization and any required identifying information from the new or existing employee or volunteer OR POTENTIAL APPOINTEE prior to requesting a CAPS check. Required identifying information necessary to request the CAPS check includes information such as name, date of birth, and email address, etc.
1. The form must be completed and signed by the employee, ~~or~~ volunteer, OR POTENTIAL APPOINTEE.
 2. Knowingly providing inaccurate information on the written authorization form is a class 1 misdemeanor as set forth in Section 26-3.1-111(6)(e.7), C.R.S.
 3. The CAPS Check Unit (CCU) may request the employee's, VOLUNTEER'S, OR potential appointee's written authorization form from the employer OR THE COURT as supporting documentation.
- GI.** Employers, ~~or a person or entity conducting the employee or volunteer CAPS check on behalf of the employer,~~ AUTHORIZED REQUESTORS shall request a CAPS check using an online or hard copy form developed by the State Department.
1. If more than thirty (30) days have elapsed between an employer's request for a CAPS check for a potential employee or volunteer, and the employer's decision to initiate hiring, the employer must request a new CAPS check prior to hiring the employee or volunteer.
 2. If an employee or volunteer leaves employment but is considered for rehire after more than thirty (30) days have elapsed since leaving employment, the employer must request a new CAPS check prior to rehire.

3. IF THE COURT DOES NOT APPOINT THE POTENTIAL APPOINTEE AS A GUARDIAN OR CONSERVATOR BUT THE PERSON IS CONSIDERED FOR APPOINTMENT AS A GUARDIAN OR CONSERVATOR OF AN AT-RISK ADULT MORE THAN THIRTY (30) DAYS AFTER THE COURT'S CASE WAS CLOSED, THE COURT MUST REQUEST A NEW CAPS CHECK PRIOR TO APPOINTMENT IN A NEW CASE.
 - a. POTENTIAL APPOINTEES WHO ARE PROFESSIONAL GUARDIANS AND/OR CONSERVATORS FREQUENTLY APPOINTED BY THE COURT ARE EXEMPTED FROM THIS REQUIREMENT ONCE THEY HAVE HAD THEIR INITIAL CAPS CHECK.
 - b. IF A PROFESSIONAL MAY BE APPOINTED AS A GUARDIAN AND/OR CONSERVATOR BY MULTIPLE COURTS, EACH COURT THAT USES THE PROFESSIONAL MUST CONDUCT ITS OWN CAPS CHECK OF THAT PROFESSIONAL TO ENSURE THAT THE COURT WILL BE NOTIFIED IN THE EVENT OF A SUBSEQUENT SUBSTANTIATED FINDING OF MISTREATMENT.
3. If the information provided for the CAPS check is incomplete the CCU may request additional information from the employer OR THE COURT.
 - a. If the additional information is not provided by the employer OR THE COURT the CCU will close the request and will not conduct the CAPS check.
 - b. The fee for the CAPS check shall not be refunded to the employer OR THE COURT.
4. If an employer OR THE COURT provides information the CCU has reason to believe is inaccurate:
 - a. The CCU will contact the employer OR THE COURT regarding the information believed to be inaccurate.
 - b. The CCU may request the employer OR THE COURT to provide the written authorization form to the CCU. If the employer OR THE COURT does not provide the written authorization form, the CCU will close the request and will not conduct the CAPS check. The CAPS check fee will not be refunded.
 - c. If the CCU identifies a pattern of inaccurate information being provided by an employer OR COURT, the CCU will implement steps to address the pattern, which may include, but are not limited to, contacting the agency administrator, requiring submission of the written authorization form with each CAPS check request, and/or requesting legal assistance to resolve the concerns.
 - d. Knowingly providing inaccurate information on a CAPS check request is a class 1 misdemeanor, as outlined in Section 26-3.1-111(6)(e.7), C.R.S.
5. If a screening company that requests CAPS checks on behalf of an employer provides information the CCU has reason to believe is inaccurate:
 - a. The CCU will contact the employer and/or screening company regarding the information believed to be inaccurate.
 - b. The CCU may request the screening company to provide the written authorization form to the CCU. If the screening company does not provide the

written authorization form, the CCU will close the request and will not conduct the CAPS check. The CAPS check fee will not be refunded.

- c. If the CCU identifies a pattern of inaccurate information being provided by a screening company hired by an employer, the CCU will implement steps to address the pattern, which may include, but are not limited to, contacting the employer that hired the screening company, requiring submission of the written authorization form with each CAPS check request, prohibiting the screening company from requesting CAPS checks, and/or requesting legal assistance to resolve the concerns.
 - d. Knowingly providing inaccurate information on a CAPS check request is a class 1 misdemeanor, as outlined in Section 26-3.1-111(6)(e.7), C.R.S.
6. Submitting a CAPS check request for an individual who is not being considered for an employee or volunteer position providing direct care to at-risk adults or providing care through Consumer Directed Support Services OR FOR A PERSON WHO IS NOT A POTENTIAL APPOINTEE is a class 1 misdemeanor, as outlined in Section 26-3.1-111(6)(e.3), C.R.S.

HJ. The fee for the CAPS check shall be:

- 1. Established to provide adequate revenue to support all direct and indirect costs related to the administrative appeals processes for substantiated perpetrators and the employer-CAPS checks.
- 2. No greater than \$16.50 per CAPS check, unless the State Board of Human Services approves an increased fee based upon increased direct and indirect costs of the administrative appeals and employer CAPS checks.
 - a. The current CAPS check fee shall be posted to-a ON THE CAPS check website.
 - b. The current CAPS check fee may be adjusted with 30 days' notice, provided via the CAPS check website.
- 3. Paid by the employer, or the person or entity conducting the CAPS check on behalf of the employer AUTHORIZED REQUESTOR at the time of the request.
 - a. If the employer, or the person or entity conducting the employee CAPS check on behalf of the employer, AUTHORIZED REQUESTOR chooses to request the CAPS check via the online form, payment must be made through the online payment system at the time of the request. A CAPS check will not be completed without payment.
 - b. If the employer, or the person or entity conducting the employee CAPS check on behalf of the employer, AUTHORIZED REQUESTOR chooses to request the CAPS check via first class mail, payment in the form of an agency warrant or bank check must be attached to the form. A CAPS check will not be completed without payment.
 - c. Employers, or a person or entity conducting the employee CAPS check on behalf of the employer, AUTHORIZED REQUESTORS may choose to request that the applicant or EMPLOYEE, volunteer, or potential appointee reimburse the employer, or the person or entity conducting the employee CAPS check on behalf of the employer, REQUESTOR for the cost of the check.

- IK.** The State Department shall complete the CAPS check and respond to the EMPLOYER'S request as soon as possible, but no later than five (5) business days ~~from~~ FOLLOWING the receipt of the request. THE STATE DEPARTMENT SHALL COMPLETE THE CAPS CHECK AND RESPOND TO THE COURT'S REQUEST AS SOON AS POSSIBLE, BUT NO LATER THAN SEVEN (7) CALENDAR DAYS FOLLOWING THE RECEIPT OF THE REQUEST.
1. The State Department shall provide the CAPS check results to the ~~employer, or the person or entity conducting the employee or volunteer CAPS check on behalf of the employer~~ REQUESTOR via email, unless receipt of the results via first class mail is requested. ~~by the employer, or the person or entity conducting the employee CAPS check on behalf of the employer.~~
 - a. If the employee is also the employer who requested the CAPS check on themselves, such as a facility administrator or owner, or an independent owner operator, and the employee/employer is determined not to have a substantiated finding of mistreatment, the results will be provided to the employee/employer.
 - b. If the employee is also the employer who requested the CAPS check on themselves, such as a facility administrator or owner, or an independent owner operator, and the employee/employer is determined to have a substantiated finding of mistreatment, the results will be provided to the employee/employer and to the parent company and/or oversight agency(ies).
 2. A person or entity conducting the employee CAPS check on behalf of the employer shall provide the results of the CAPS check to the employer.
- L.** The CAPS check results shall indicate:
1. Whether there is or is not a substantiated finding for the ~~new or existing~~ employee, or volunteer, or POTENTIAL APPOINTEE;
 2. The purposes for which the information in CAPS may be made available;
 3. The consequences of improper release of the information in CAPS; and,
 4. ~~For CAPS checks in which there is a substantiated finding, the CAPS check results will include the~~ WHETHER OR NOT THE PERSON HAS A SUBSTANTIATED FINDING. IF THE PERSON DOES HAVE A SUBSTANTIATED FINDING, THE RESULTS WILL ALSO PROVIDE THE date(s) of the SUBSTANTIATED finding(s), county department(s) that completed the investigation(s), and the type(s) and severity level(s) of the mistreatment, AND THE SUBSTANTIATED PERPETRATOR'S RIGHT TO APPEAL AND THE TIME FRAME ALLOWED BY RULE TO REQUEST AN APPEAL.
 5. FOR CAPS CHECK RESULTS FOR THE COURT IN WHICH THERE IS A SUBSTANTIATED FINDING, THE CAPS CHECK RESULTS WILL ALSO INCLUDE WHETHER THERE IS AN ACTIVE APPEAL AT THE TIME OF THE COURT'S REQUEST.
- M.** Notification of any substantiated mistreatment finding made after the initial CAPS check shall be provided to the AUTHORIZED REQUESTOR ~~employer, or the person or entity conducting the employee CAPS check on behalf of the employer, or to the employee/employer's parent company and/or oversight agency(ies), as outlined in Section 30.960.H.1.b, at the time the new finding is completed in CAPS.~~
- N.** Findings shall not be included in CAPS check results when:

1. The finding was made prior to July 1, 2018 when due process for substantiated perpetrators began, as outlined in Section 30.910; and/or,
2. The finding was expunged or overturned through the appeals process, as outlined in Section 30.920; and/or,
3. The substantiated perpetrator was under 16 years old at the time the mistreatment occurred; and/or,
4. A positive match of at least two data points between the employee and a substantiated perpetrator in CAPS, such as name, date of birth, or address, cannot be determined with certainty.

Subjects and issues involved

Individuals found to be responsible for the mistreatment of an at-risk adult have a right to a State level appeal to contest the substantiated finding. HB21-1132 requires the Colorado Department of Human Services (CDHS) to share appeal information, to include appeal outcome, with the Colorado Department of Regulatory Agencies (DORA) for the purposes of a regulatory investigation. The rule change is necessary to accommodate the statutory requirements outlined in HB21-1132. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. DRAFT 5.28.21

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

Individuals found to be responsible for the mistreatment of an at-risk adult have a right to a State level appeal to contest the substantiated finding. HB21-1132 requires the Colorado Department of Human Services (CDHS) to share appeal information, to include appeal outcome, with the Colorado Department of Regulatory Agencies (DORA) for the purposes of a regulatory investigation. The rule change is necessary to accommodate the statutory requirements outlined in HB21-1132.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

State Board Authority for Rule:

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-3.1-111(5) 26-3.1-111(5)(h)	26-3.1-111(5)The state department shall promulgate rules for the implementation of this section, which rules must include the following: 26-3.1-111(5)(h)THE INFORMATION THAT WILL BE MADE AVAILABLE TO A HEALTH OVERSIGHT AGENCY, AS DEFINED IN 42 CFR 164.501, WITHIN THE DEPARTMENT OF REGULATORY AGENCIES OR A REGULATOR, AS DEFINED IN SECTION 12-20-102 (14), WITHIN SUCH A HEALTH OVERSIGHT AGENCY, FOR THE PURPOSE OF CONDUCTING A REGULATORY INVESTIGATION PURSUANT TO SECTION 12-20-401.

Does the rule incorporate material by reference?

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

DORA may request appeal information for a specific population of licensed individuals. Language from statute was used in rule to outline these details.

Title of Proposed Rule: **30.920 State Level Appeals Process**

CDHS Tracking #: **21-05-07-01**

Office, Division, & Program:

DRAFT 5.28.21

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

This rule will impact the CDHS and DORA.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

HB21-1123 requires the CDHS to create rules to share information with DORA when requested for a regulatory investigation. DORA may request appeal information, to include the appeal outcome, for individuals who are licensed by DORA and have been found responsible for the mistreatment of an at-risk adult. This information may inform decisions made during the regulatory investigation conducted by DORA.

3. Fiscal Impact

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

It is anticipated that there will be a minimal fiscal impact, which can be absorbed, to CDHS and DORA.

County Fiscal Impact

There is no fiscal impact at the county level. This rule change is specific to a new information sharing process between CDHS and DORA. The fiscal impact is at the state level.

Federal Fiscal Impact

There is no fiscal impact at the federal level. This rule change is specific to a new information sharing process between CDHS and DORA and there is no federal funding related to this function.

Other Fiscal Impact (such as providers, local governments, etc.)

No other fiscal impact. This rule change is specific to a new information sharing process between CDHS and DORA.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

N/A

DRAFT 5.28.21

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just "no alternative" answer should include "no alternative because..."

No alternatives were considered by CDHS as the rule-making was statutorily required by HB21-1123.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

- Adult Protective Services (APS) Task Group
- Public Stakeholder Sessions
- Administrative Review Division (ARD) Steering Committee
- Policy Advisory Committee (PAC)
- Aging and Adult Sub-PAC
- DORA

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

- Adult Protective Services (APS) Task Group
- Public Stakeholder Sessions
- Administrative Review Division (ARD) Steering Committee
- Policy Advisory Committee (PAC)
- Aging and Adult Sub-PAC
- DORA

Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☒ Yes ☐ No

If yes, who was contacted and what was their input?

DORA has been contacted.

Sub-PAC

Title of Proposed Rule:	30.920 State Level Appeals Process

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

30.920 STATE LEVEL APPEALS PROCESS

A. Substantiated perpetrator(s) of mistreatment shall have the right to a State level appeal to contest the substantiated finding. The request for appeal of the decision shall first be submitted to the State Department unit designated to handle such appeals. If the State Department and the appellant are unable or unwilling to resolve the appeal in accordance with the provisions set forth below in this section, the State Department shall forward the appeal to the Office of Administrative Courts (OAC) to proceed to a fair hearing before an Administrative Law Judge (ALJ).

B. The grounds for appeal shall consist of the following:

1. The substantiated finding(s) are not supported by a preponderance of credible evidence; or,
2. The actions ultimately found to be substantiated as mistreatment do not meet the statutory or regulatory definition of mistreatment.

C. The substantiated perpetrator(s) of mistreatment shall have ninety (90) calendar days from the date of notice of substantiation of mistreatment to appeal the finding in writing to the State Department. The written appeal shall be submitted via the State approved online form or using the hard copy appeal form provided to the substantiated perpetrator by the county department and shall include:

1. The contact information for the appellant;
2. A statement detailing the basis for the appeal; and,
3. Notice of finding of responsibility for mistreatment of an at-risk adult sent to the appellant by the county department.

D. The State level appeal process must be initiated by the substantiated perpetrator(s) of mistreatment or his/her attorney. The appellant does not need to hire an attorney to file an appeal. If the substantiated perpetrator(s) is a minor child, the appeal may be initiated by his/her parents, legal custodian, or attorney.

E. The appeal must be submitted to the State Department within ninety (90) calendar days of the date of the notice of the substantiated finding. If the appeal is filed more than ninety (90) calendar days from the date of notice of the substantiated finding, the appellant must show good cause for not appealing within the prescribed time period as set forth in Section 30.920.c. A failure to request State review within the ninety-day (90) period without good cause shall be grounds for the State Department to not accept the appeal.

F. The substantiated finding shall continue to be used for safety and risk assessment, employment and background screening by the State Department while the administrative appeal process is pending.

G. The appellant shall have the right to appeal, even if a court action or criminal prosecution is pending as a result of the mistreatment. The State Department shall hold in abeyance the administrative appeal process pending the outcome of the court action or criminal prosecution if requested by the appellant, or if the State Department determines that awaiting the outcome of the court case is in the best interest of the parties. If the appellant objects to the continuance, the continuance shall remain in place, but the continuance of the appeal shall not exceed one hundred eighty (180) calendar days without the appellant having the opportunity to seek a review of the continuance by an administrative law judge. The pendency of other court proceedings shall be considered good cause to extend the continuance of the appeal past the one hundred eighty (180) day timeframe.

H. The following circumstances shall be considered to be admissions to the factual basis of the substantiated finding(s) of the responsibility for the mistreatment of an at-risk adult in CAPS and shall be considered conclusive evidence of the factual basis of the individual's responsibility for the mistreatment to support a motion for summary judgment submitted to the Office of Administrative Courts:

1. The appellant has been found guilty of a crime against an at-risk adult pursuant to Section 18-6.5-103, C.R.S. arising out of the same factual basis as the substantiated finding in CAPS.

2. The appellant has been found guilty or has pled guilty or nolo contendere as part of any plea agreement including, but not limited to, a deferred judgement agreement to a crime against an at-risk adult pursuant to Section 18-6.5-103, C.R.S. arising out of the same factual basis as the substantiated finding in CAPS.

3. The appellant has been found guilty or has pled guilty or nolo contendere as part of any plea agreement including, but not limited to, a deferred judgment agreement, in a case in which a crime against an at-risk adult was charged pursuant to Section 18-6.5-103, C.R.S., arising out of the same factual basis as the substantiated finding in CAPS. The offense to which the appellant pled guilty must be related to the same factual basis as the substantiated finding in CAPS.

I. After the appellant requests an appeal, the State Department shall inform the appellant of the details regarding the appeal process, including timeframes for the appeals process and contact information for the State Department.

1. The appellant, as the party in interest, shall have access to the investigative record relied upon by the county department to make the finding in order to proceed with the appeal. The appellant's use of the investigative record for any other purpose is prohibited unless otherwise authorized by law.

2. Prior to providing access to the appellant, the State Department shall redact identifying information contained in the investigative record and documents to ensure compliance with all state and federal confidentiality laws and rules regarding adult mistreatment records or other protected information, including but not limited to: reporting party name(s) and address(es), Social Security Number or alien registration number and information pertaining to other parties in the case that the appellant does not have a legal right to access.

J. The State Department is authorized to enter into settlement negotiations with the appellant as part of the litigation process. The State Department is authorized to enter into settlement agreements that modify, overturn or expunge the reports and/or findings as reflected in the State portion of CAPS. The State Department is not authorized to make any changes in the county portion of CAPS. In exercising its discretion, the State Department shall take into consideration the best interests of the at-risk adults, the weight of the evidence, the severity of the mistreatment, any patterns of mistreatment reflected in the record, the results of any court processes, the rehabilitation of the appellant and any other pertinent information.

K. The county department's findings shall not be changed to reflect the State Department's response to the appeal. The State Department shall document all decisions and the outcome of the appeal in CAPS.

L. The State Department and the appellant shall have one hundred twenty (120) calendar days from the date the State Department receives the appeal to resolve the issue(s) on the appeal. The one hundred twenty (120) day time frame may be extended by agreement of both the appellant and the State Department if it is likely that the additional time will result in a fully executed settlement agreement or resolution of the appeal.

M. As soon as it is evident within the one hundred twenty (120) days that the appellant and State Department will not resolve the issue(s) on appeal, the State Department shall forward a copy of the appellants original appeal document(s) to the Office of Administrative Courts to initiate the Office of Administrative Courts fair hearing process.

N. If, by the end of the one hundred twenty (120) day period, the State Department has been unable to contact the appellant using the information submitted by the appellant, including by first class mail, and the appellant has not contacted the State Department, the appeal shall be deemed abandoned. The substantiated finding entered into CAPS by the county department shall be upheld in CAPS without further right of appeal. The State Department shall notify the appellant of this result by first class mail to the address provided by the appellant.

O. PURSUANT TO SECTION 26-3.1-108(H), C.R.S., DORA MAY REQUEST APPEAL INFORMATION FROM THE STATE DEPARTMENT FOR THE PURPOSES OF A REGULATORY INVESTIGATION WHEN THE INVESTIGATION INVOLVES AN INDIVIDUAL WHO HOLDS A HEALTH-CARE PROVIDER OR HEALTH-CARE OCCUPATION LICENSE WHO HAS BEEN FOUND RESPONSIBLE FOR THE MISTREATMENT OF AN AT-RISK ADULT WHILE IN THE PROVISION OF THEIR PROFESSIONAL DUTIES AND HAS AN APPEAL THROUGH THE STATE DEPARTMENT. WHEN MAKING THE REQUEST TO THE STATE DEPARTMENT, DORA MUST INCLUDE THE INFORMATION PROVIDED TO DORA THROUGH THE NOTIFICATION PROCESS OUTLINED IN 30.520(E)(2).

P. AFTER THE STATE DEPARTMENT RECEIVES THE REQUEST FROM DORA, THE STATE DEPARTMENT WILL PROVIDE DORA WITH THE APPEAL SUMMARY FOR THE PURPOSES OF THE REGULATORY INVESTIGATION.

Q. APPEAL INFORMATION PROVIDED TO DORA IS CONFIDENTIAL, NOT SUBJECT TO PART 2 OF ARTICLE 72 OF TITLE 24, AND MUST BE USED FOR PURPOSES OF A REGULATORY INVESTIGATION CONDUCTED PURSUANT TO SECTION 12-20-401.

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

1.0 Statement of Basis and Purpose

The statutory basis for these rules is found in section 22-11-101, et seq. C.R.S., the Education Accountability Act of 2009. These rules establish requirements, criteria, and timelines related to the administration of a statewide accountability system to monitor and respond to the performance of Colorado's statewide education system, including the Charter School Institute, school districts and public schools.

...

5.0 District and Institute Accountability Processes: Accreditation Ratings

5.0 A Under H.B. 21-1161, the Department shall not assign new 2021-22 Accreditation ratings for Districts nor for the Institute. Those school districts or the Institute that implemented a Priority Improvement or Turnaround Plan during the 2020-21 school year may nevertheless request a 2021-22 Accreditation rating and plan type that reflects its level of attainment based on an alternative body of evidence. Such requests may be submitted and must be reviewed according to the following requirements:

- (1) The District or Institute must submit such request electronically by no later than September 30, 2021;
- (2) The Department must recommend whether to approve the request and the State Board must act on the request by no later than December 30, 2021;
- (3) In making its recommendation, the Department must take into consideration the following information:
 - (A) Quantitative data, which must include any state student performance data available to the department and any local student performance data provided by the District or Institute. To be considered, such quantitative data must meet standards of validity, reliability, and adequate representation of the District's or Institute's student population, as those standards are defined by the Department, in consultation with the Technical Advisory Panel established pursuant to section 22-11-202, C.R.S.; and
 - (B) Qualitative data, which must include the quality of the District's or Institute's most recent Priority Improvement or Turnaround plan and information about the fidelity with which administration and staff have implemented the plan. If the Department determines that the quality of the plan is sufficient, then the Department will assign the State Review Panel to conduct a document review and site visit, and the Department will consider input from the panel;

- (4) If the 2021 state student performance data would have allowed the District or Institute to earn a higher Accreditation rating based on the Department's 2019 annual review of school performance, then the District or Institute need not submit any additional data;
- (5) If the State Board approves a request for a new Accreditation rating based on an alternative body of evidence, the District's or Institute's Accreditation contract shall reflect that rating and plan type. However, any 2021-22 rating change shall not affect the time-based calculations in sections 22-11-207(4)(a) and 22-11-209(3.5), C.R.S.;
- (6) If the State Board approves a request under this Rule 7.0A, the District or Institute must submit a new plan that meets the requirements of the new plan type, as outlined in section 6.2 of these rules; and
- (7) To the extent possible, the Department must make available grant funding and additional supports to assist Districts and the Institute in preparing and submitting a request for a different Accreditation rating and plan type.

...

8.0 Public School Accountability Processes: Plan Type Assignments

8.0 A Under H.B. 21-1161 the Department shall not assign new plan types for Public Schools for the 2021-22 school year. If a Public School had been required to implement a Priority Improvement or Turnaround Plan during the 2020-21 school year, a District or the Institute may submit a request for a 2021-22 plan type that reflects the Public School's level of attainment based on an alternative body of evidence. Such requests may be submitted and must be reviewed according to the following requirements:

- (1) The District or Institute must submit such request electronically no later than September 30, 2021;
- (2) The Department must recommend whether to approve the request and the State Board must act on the request as soon as practicable;
- (3) In making its recommendation, the Department must take into consideration the following information:
 - (A) Quantitative data, which must include any state student performance data available to the department and any local student performance data provided by the District or Institute. To be considered, such quantitative data must meet standards of validity, reliability, and adequate representation of the Public School's student population, as those standards are defined by the Department, in consultation with the Technical Advisory Panel established pursuant to section 22-11-202, C.R.S.; and
 - (B) Qualitative data, which must include the quality of the Public School's most recent Priority Improvement or Turnaround plan and information about the fidelity with which administration and staff have implemented the plan. If the Department determines that the quality of the plan is sufficient, then the Department will assign the State Review Panel to conduct a document review and site visit, and the Department will consider input from the panel;

- (4) If the 2021 state student performance data would have allowed the Public School to earn a higher plan type assignment based on the Department's 2019 annual review of school performance, then the District or Institute need not submit any additional data;
- (5) Any change in the Public School's plan type for the 2021-22 school year shall not affect the time-based calculations in sections 22-11-210(1)(d)(I) and (5.5), C.R.S.;
- (6) If the State Board approves a request for a plan type based on an alternative body of evidence, the Public School must submit a new plan that meets the requirements of the assigned plan type, as outlined in section 9.3 of these rules; and
- (7) To the extent possible, the Department must make available grant funding and additional supports to assist Districts and the Institute in preparing and submitting a request for a different plan type on behalf of a Public School.

COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

Water Quality Control Commission

REGULATION NO. 31 - THE BASIC STANDARDS AND METHODOLOGIES FOR SURFACE WATER

5 CCR 1002-31

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

31.1 AUTHORITY AND SCOPE

31.2 PURPOSE

31.3 INTRODUCTION

This regulation presents a classification system which establishes beneficial use categories together with basic standards (section 31.11), an antidegradation rule (section 31.8), and numeric tables which define the conditions generally necessary to maintain and attain such beneficial uses. In addition, it establishes procedures for classifying the waters of the state, for assigning water quality standards, and for continued review of the classifications and standards.

The classifications set forth in section 31.13 will be assigned by applying the system to specific state surface waters, in accordance with proper procedures, including public hearings. The basic standards and the antidegradation rule will apply to all state surface waters at the effective date of this regulation. Whenever a specific stream segment or body of water receives a classification for one or more of the uses, additional numeric standards may be assigned. When appropriate, achieving water quality standards through innovative solutions or management approaches may be implemented through control regulations, TMDLs, Waste Load Allocations, antidegradation reviews, and permits. All classified uses will be protected. This does not mean that any entity has the right to rely on the presence of specific pollutants in the stream even though those pollutants may be utilized by the entity.

In assigning classifications and standards, the Commission shall take into consideration the water quality classifications and standards of downstream waters and shall ensure that as implemented through its policies, the water quality classifications and standards of downstream waters will be attained and maintained.

Water quality standards, temporary modifications of numeric standards, and classifications shall be reviewed at least once every three (3) years and revised where appropriate. No provisions of this regulation shall be interpreted so as to supersede, abrogate, or impair rights to divert water and apply water to beneficial uses.

31.4 DELETED

31.5 DEFINITIONS

See the Colorado Water Quality Control Act, section 25-8-101 et seq., C.R.S., and the codified water quality regulations additional definitions.

- (1) "ACT" means the Colorado Water Quality Control Act, section 25-8-101 et seq., C.R.S..
- (2) "ACUTE STANDARD" means the level not to be exceeded by the concentration for either a single sample or calculated as an average of all samples collected during a one-day period, except for temperature, which shall be based on the DM (see DM definition). As used in tables II and III, acute represents one-half of the LC-50 that protects 95 percent of the genera in a waterbody from lethal effects. The acute standard is implemented in combination with a selected duration and frequency of recurrence (section 31.9(1)). In determining attainment of the applicable acute standard, the representative nature of the data must be considered.
- (3) "ANTIDegradation Rule" means the rule established in section 31.8.
- (4) "BASIC STANDARDS" means those standards as established in section 31.11.
- (5) "BENEFICIAL USES" means those uses of state surface waters to be protected such as those identified in the classification system.
- (6) "BMP" (Best Management Practices) means a practice or a combination of practices that is determined by a governmental agency after problem assessment, examination of alternative practices, and appropriate public participation, to be the most effective, practicable (including technological, economic, and institutional considerations) means of preventing or reducing the amount of pollution generated by nonpoint sources to a level compatible with quality goals.
- (7) "CHRONIC STANDARD" means the level not to be exceeded by the concentration for either a single representative sample or calculated as an average of all samples collected during a thirty-day period, except for temperature, which shall be based on the WAT (see WAT definition). As used in tables II and III, chronic represents the level that protects 95 percent of the genera from chronic toxic effects. Chronic toxic effects include, but are not limited to, demonstrable abnormalities and adverse effects on survival, growth, or reproduction. The chronic standard is implemented in combination with a selected duration and frequency of recurrence (section 31.9(1)). In determining attainment of the applicable chronic standard, the representative nature of the data must be considered.
- (8) "COLD WATER BIOTA" means aquatic life, including trout, normally found in waters where the summer weekly average temperature does not frequently exceed 20 °C.
- (9) "COMMISSION" means the Colorado Water Quality Control Commission.
- (10) "COMPENSATORY WETLANDS" means wetlands developed for mitigation of adverse impacts to other wetlands (e.g. wetlands developed pursuant to section 404 of the federal Act).
- (11) "CONSTRUCTED WETLANDS" means those wetlands intentionally designed, constructed and operated for the primary purpose of wastewater or stormwater treatment or environmental remediation provided under CERCLA, RCRA, or section 319 of the federal Act, if (a) such wetlands are constructed on non-wetland sites that do not contain surface waters of the state, or (b) such wetlands are constructed on previously existing wetland sites, to the extent that approval or authorization under section 404 of the federal Act has been granted for such construction or it is demonstrated that such approval or authorization is not, or was not, required. This term includes, but is not limited to, constructed swales, ditches, culverts, infiltration devices, catch basins, and sedimentation basins that are part of a wastewater or stormwater treatment system or a system for environmental remediation mandated under CERCLA or RCRA. Compensatory wetlands shall not be considered constructed wetlands. Constructed wetlands are not state waters.

- (12) "CREATED WETLANDS" means those wetlands other than compensatory wetlands created in areas which would not be wetlands in the absence of human modifications to the environment. Created wetlands include, but are not limited to wetlands created inadvertently by human activities such as mining, channelization of highway runoff, irrigation, and leakage from man-made water conveyance or storage facilities. Wetlands resulting from hydrologic modifications such as on-channel reservoirs or on-channel diversion structures that expand or extend the reach of adjacent classified state waters are not considered created wetlands.
- (13) "DAILY MAXIMUM TEMPERATURE (DM)" means the highest two-hour average water temperature recorded during a given 24-hour period.
- (14) "DISSOLVED METALS" means that portion of a water and suspended sediment sample which passed through a 0.40 or 0.45 µm (micron) membrane filter. Determinations of "dissolved" constituents are made using the filtrate. This may include some very small (colloidal) suspended particles which passed through the membrane filter as well as the amount of substance present in true chemical solution.
- (15) "DIVISION" means the Division of Administration of the Colorado Department of Public Health and Environment of which the Water Quality Control Division is a part.
- (16) "*E. coli*" means *Escherichia coli*.
- (17) "EFFLUENT-DEPENDENT STREAM" means a stream that would be ephemeral without the presence of wastewater effluent, but has continuous or periodic flows for all or a portion of its reach as the result of the discharge of treated wastewater.
- (18) "EFFLUENT-DOMINATED STREAM" means a stream that would be intermittent or perennial without the presence of wastewater effluent whose flow for the majority of the time is primarily attributable to the discharge of treated water (i.e. greater than 50 percent of the flow consists of treated wastewater for at least 183 days annually, for eight out of the last ten years).
- (19) "EPHEMERAL STREAM" means a stream channel or reach of a stream channel that carries flow during, and for a short duration as the result of, precipitation events or snowmelt. The channel bottom is always above the groundwater table.
- (20) "EXISTING QUALITY" means the numeric value that represents the quality of a waterbody and is generally used for comparison with the water quality standard. Existing quality shall be calculated as:
- Total ammonia, nitrate, and the dissolved metals: 85th percentile
 - Total recoverable metals: 50th percentile
 - Dissolved oxygen in streams: 15th percentile
 - *E. coli*: geometric mean
 - pH: the range between the 15th and 85th percentiles
 - Temperature: For the purposes of determining standards attainment, existing quality is the seasonal maximum DM (acute) and WAT (chronic) which allows one warming event with a 3-year average exceedance frequency. For data records with less than or equal to 3 years, existing quality is equal to the maximum WAT and DM. For data records with 4-6 years, one warming event above the standard is permitted. The warming event allowance is described in Footnote 5(c)(ii) to Table I.

For the purposes of permits implementation, for data records with less than or equal to 3 years of representative upstream data, existing quality is equal to the seasonal or monthly maximum DM (acute) and WAT (chronic). For data records with 4-6 years, for monthly limits, the second highest monthly DM or WAT may be selected for one month in either winter or summer and the remaining months shall be the max DM or WAT.

- (21) "FEDERAL ACT" means the Clean Water Act, U.S.C. Section 1251 et seq., as amended.
- (22) "FIRST (1st) ORDER STREAM" means a stream that has no tributaries, based on USGS mapping at 1:100,000 scale.
- (23) "FLOODPLAIN" means any flat or nearly flat lowland that borders a stream, a lake, or an on-channel reservoir and that may be covered by its waters at flood or high stage as described by the parameter of the probable maximum flood or probable maximum high stage.
- (24) "HIGHEST ATTAINABLE USE" means the modified use that is both closest to the uses specified in section 31.13 and attainable based on the evaluation of the factors in 31.6(2)(b) that preclude attainment of the use and any other information or analyses that were used to evaluate attainability.
- (25) "LC-50" means the concentration of a parameter that is lethal to 50% of the test organisms within a defined time period.
- (26) "MAXIMUM WEEKLY AVERAGE TEMPERATURE (MWAT)" means the largest WAT in the period of interest. For lakes and reservoirs, the summertime MWAT is assumed to be equivalent to the maximum WAT from at least three profiles distributed throughout the growing season (generally July-September).
- (27) "MIXED LAYER" means that part of a lake that is well-mixed by wind action and can be expected to have relatively homogeneous physical and chemical conditions. In a thermally stratified lake, the mixed layer corresponds to the *epilimnion*; in an unstratified lake, the mixed layer extends to the bottom. The vertical extent of the mixed layer usually is determined by inspection of a vertical profile of temperature.
- (28) "MIXING ZONE" means that area of a waterbody designated on a case-by-case basis by the Division which is contiguous to a point source and in which certain standards may not apply.
- (29) "NUMERIC VALUE" means the measured concentration of a parameter.
- (30) "PARAMETER" means the chemical constituents or other characteristics of the water such as algae, *E. coli*, total dissolved solids, dissolved oxygen, or the magnitude of radioactivity levels, temperature, pH, and turbidity, or other relevant characteristics.
- (31) "PERMIT" means a National Pollutant Discharge Elimination System (NPDES) permit, a Colorado Discharge Permit System (CDPS) permit, or other state water quality permit.
- (32) "POTENTIALLY DISSOLVED METALS" means that portion of a constituent measured from the filtrate of a water and suspended sediment sample that was first treated with nitric acid to a pH of less than 2.0 and let stand for 8 to 96 hours prior to sample filtration using a 0.4 or 0.45 µm (micron) membrane filter. Note the "Potentially Dissolved" method cannot be used where nitric acid will interfere with the analytical procedure used for the constituent measured.
- (33) "PRIMARY CONTACT RECREATION" means recreational activities where the ingestion of small quantities of water is likely to occur. Such activities include but are not limited to swimming, rafting, kayaking, tubing, windsurfing, water skiing, and water play by children.

- (34) "REGIONAL WASTEWATER MANAGEMENT PLAN" means a water quality planning document prepared pursuant to section 208 of the federal Act, sometimes referred to as "208 Plans" or "Water Quality Management Plans."
- (35) "REPRODUCTIVE SEASON" means the portion of the year when fish migration, spawning, egg incubation, fry rearing or other reproductive functions occur.
- (36) "SALINITY" means total dissolved solids (TDS).
- (37) "SECOND (2nd) ORDER STREAM" means a stream which begins downstream of the confluence of two first (1st) order streams and ends downstream of the confluence of two second (2nd) order streams, based on USGS mapping at 1:100,000 scale.
- (38) "STANDARD" means a narrative and/or numeric restriction established by the Commission applied to state surface waters to protect one or more beneficial uses of such waters. Whenever only numeric or only narrative standards are intended, the wording shall specifically designate which is intended.
- (39) "STATE WATERS" means any and all surface and subsurface waters which are contained in or flow in or through this state, but does not include waters in sewage systems, waters in treatment works of disposal systems, waters in potable water distribution systems, and all water withdrawn for use until use and treatment have been completed.
- (40) "STATUS QUO", in the context of temporary modifications, means the numeric values representative of the conditions at the time of the original temporary modification adoption for:
1. the quality of a waterbody, for which a temporary modification is applied, and
 2. the quality, and as appropriate the flow and loading, of effluent discharged into a waterbody, for which a temporary modification is applied.

Status quo shall be calculated as follows using data representative of quality at the time of the original temporary modification adoption, typically using data for the 5 years leading up to the temporary modification. Where such adequate, representative data do not exist, data representative of quality as close in time as practicable to the original temporary modification adoption shall be used.

For consideration of waterbody status quo:

- Total ammonia, nitrate, and dissolved metals (chronic): 85th percentile
- Total recoverable metals (chronic): 50th percentile
- Total ammonia, nitrate, total metals, and dissolved metals (acute): 95th percentile
- Temperature: seasonal maximum DM (acute) and WAT (chronic)
- Other parameters: As appropriate based on the duration and frequency for the water quality standard from Tables I, II, or III
- Or, in limited circumstances, as otherwise determined by the Commission on a case-by-case basis

For consideration of effluent status quo:

- Total ammonia, nitrate, and dissolved and total recoverable metals (chronic): maximum 30-day average
 - Total ammonia, nitrate, and dissolved and total recoverable metals (acute): maximum daily maximum
 - Temperature: seasonal maximum DM (acute) and WAT (chronic)
 - Other parameters: As appropriate based on permit implementation approaches of the water quality standard from Tables I, II, or III
 - Representative effluent flow and loading, as appropriate
 - Or, in limited circumstances, as otherwise determined by the Commission on a case-by-case basis
- (41) "TABLES" means tables I, II, and III, appended to this regulation, which set forth accepted levels for various parameters which will generally protect the beneficial uses of state surface waters.
- (42) "THIRD (3rd) ORDER STREAM" means a stream which begins at the confluence of two second (2nd) order streams and ends downstream of the confluence of two third (3rd) order streams, based on USGS mapping at 1:100,000 scale.
- (43) "TOTAL RECOVERABLE METALS" means that portion of a water and suspended sediment sample measured by the total recoverable analytical procedure described in "Methods for Chemical Analysis of Water and Wastes," U.S. Environmental Protection Agency, March, 1979, or its equivalent.
- (44) "TRIBUTARY WETLANDS" means wetlands that are the headwaters of surface waters or wetlands within the floodplain that are hydrologically connected to surface waters via either surface or groundwater flows. The hydrologic connection may be intermittent or seasonal, but must be of sufficient extent and duration to normally reoccur annually. Tributary wetlands do not include constructed or created wetlands.
- (45) "USE ATTAINABILITY ANALYSIS" means an assessment of the factors affecting the attainment of aquatic life uses or other beneficial uses, which may include physical, chemical, biological, and economic factors.
- (46) "USES" see Beneficial Uses.
- (47) "WARM WATER BIOTA" means aquatic life normally found in waters where the summer weekly average temperature frequently exceeds 20 °C.
- (48) "WATER QUALITY-BASED DESIGNATION" means a designation adopted by the Commission for specific state surface waters pursuant to section 31.8(2), to identify which level of water quality protection such waters will receive under the Antidegradation Rule in section 31.8(1). Such designations are adopted pursuant to the Commission's authority to classify state waters, as set forth in section 25-8-203, C.R.S., and the procedural requirements for classifying state waters shall be applied in adopting such designations.
- (49) "WATER EFFECT RATIO" means a ratio that is computed as a specific pollutant's acute or chronic toxicity value measured in water from the site covered by a standard, divided by the respective acute or chronic toxicity value in laboratory dilution water, as more specifically defined in 40 CFR. subsection 131.36(c) (1993).

- (50) "WATER QUALITY STANDARD" see Standard.
- (51) "WEEKLY AVERAGE TEMPERATURE (WAT)" means the average of daily average temperatures over a seven-day consecutive period, with a minimum of three data points spaced equally through each day. For lakes and reservoirs, the WAT is assumed to be equivalent to the average temperature of the mixed layer. The average temperature of the mixed layer is determined from a vertical profile of equally-spaced temperature measurements, separated by not more than one meter.
- (52) "WETLANDS" means those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.

31.6 PROCESS FOR ASSIGNING CLASSIFICATIONS

The Commission is responsible for classifying state waters as set forth in sections 25-8-202(1)(a), and 25-8-203, C.R.S. All state surface waters may be classified in one or more of the use classifications as set forth in section 31.13.

Waters shall be classified for the present beneficial uses of the water, or the beneficial uses that may be reasonably expected in the future for which the water is suitable in its present condition or the beneficial uses for which it is to become suitable as a goal. The assignment of one or more classifications to a portion of the state surface waters is based upon its current suitability for the designated uses or goals for future uses. Where the use classification is based upon a future use for which the waters are to become suitable, the numeric standards assigned to such waters to protect the use classification may require a temporary modification to the underlying numeric standard and an implementation plan for eliminating the temporary modification.

When assigning classifications to waters of a given area, the Commission will consider the goals, objectives, and requirements of federal and state statutes and regulations, recommendations of the regional wastewater management plans (208 plans); 208 plans of adjoining regions; testimony, comments, and documents presented at public hearings on the issue; and other relevant information.

(1) Considerations in Assigning Classifications

(2) Upgrading and Downgrading

(a) Upgrading

The state shall maintain those water use classifications which are currently being attained. Where existing classifications specify fewer designated water uses than those which are presently being attained, the Commission shall upgrade the designated classification to reflect the uses actually being attained.

(b) Downgrading

At a minimum, the state shall maintain those water use classifications currently designated, unless it can be demonstrated that the existing classification is not presently being attained and cannot be attained within a twenty (20) year time period. Nonattainability must be due to at least one or more of the following conditions:

- (i) Naturally occurring pollutant concentrations prevent the attainment of the use within a twenty (20) year period; or

- (ii) Natural, ephemeral, intermittent or low flow conditions or water levels prevent the attainment of the use, unless these conditions may be compensated for by the discharge of sufficient volume of effluent discharges without violating state water conservation requirements to enable uses to be met; or
- (iii) Human caused conditions or sources of pollution prevent the attainment of the use and cannot be remedied within a twenty (20) year period or would cause more environmental damage to correct than to leave in place; or
- (iv) Dams, diversions or other types of hydrologic modifications preclude the attainment of the use, and it is not feasible to restore the waterbody to its original condition or to operate such modification in a way that would result in the attainment of the use; or
- (v) Physical conditions related to the natural features of the waterbody, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, preclude attainment of aquatic life protection uses; or
- (vi) Controls more stringent than those required by section 301(b) and 306 of the federal Act would result in substantial and widespread economic and social impact; or
- (vii) Agricultural practices which are considered satisfactory for the locality. It must be demonstrated that these agricultural practices preclude the present classifications. Satisfactory practices will be approved by the Commission based on evidence from areawide 208 agencies, soil conservation districts, agricultural extension services and other public input.

An additional reason for revising classifications will be where previous classifications had no basis in fact and did not reflect actual beneficial uses. Such corrections to classifications shall not be considered downgrading. See e.g., section 31.6(3)(b) regarding hearings pursuant to section 25-8-207, C.R.S.

(3) Procedures for Assigning or Changing Classifications

(a) General

- (i) Assigning or changing a classification shall be accomplished by rule after a rulemaking hearing. Rulemaking hearings to consider a classification will be conducted according to the Procedural Regulations of the Commission. At a minimum, the Commission shall review classifications once every three years. Any interested person have shall have the right to petition the Commission to assign or change a stream classification. Such petition shall be open to the public inspection. Except as provided below, pursuant to section 24-4-103(7), C.R.S., action on such petition shall be within the discretion of the Commission. The Commission may also decide to consider a classification on its own motion.
- (ii) In making a decision regarding a proposed classification, the Commission will consider the principles set forth in this regulation. The decision will be made by the Commission applying its expertise after analyzing the evidence presented at public hearing and considering the requirements of law, its own policies, and all other matters deemed pertinent in the discretion of the Commission.
- (iii) Where the classifications of a waterbody segment do not include an aquatic life classification or recreation class E, P, or U, as a part of the triennial review of the segment the Division shall review any prior use attainability analyses or other basis for omission of one or more of the above classified uses. If the justification for the omission is determined not to be consistent with accepted use attainability procedures, the Division or other party, if any, advocating the omission shall perform a supplemental analysis to

provide a basis for a Commission determination whether such uses are attainable. When the Commission wishes to remove an aquatic life class 1 or 2 or recreation class E, P, or U classification, the Division shall conduct or the Commission shall require the petitioner to conduct, in consultation with the Division, a use attainability analysis to justify the proposed change.

(b) Section 25-8-207

- (i) Procedural requirements relating to reviews pursuant to section 25-8-207, C.R.S., are set forth in the Procedural Regulations, Regulation No. 21, 5 CCR 1002-21.
- (ii) The Commission shall, upon petition, or upon its own motion, review existing stream standards, classifications or water quality designations in subsection (iii) below. The Commission may revise stream standards, classifications and designations pursuant to the criteria listed in subsection (iv) below.
- (iii) The Commission shall make a finding of inconsistency, taking into account sections 25-8-102 and 25-8-104, C.R.S., if a water quality designation does not conform with the provisions of section 25-8-209 or if the existing use classification(s) or water quality standards:
 - (A) are more stringent than is necessary to protect fish life, shellfish life, and wildlife in waterbody segments which are reasonably capable of sustaining such fish life, shellfish life, and wildlife from the standpoint of physical, streambed, flow, habitat, climatic and other pertinent characteristics. Where such characteristics are adequate to support the use, use classifications shall be adopted or retained to protect aquatic life which constitutes a significant source of food supply for the fish, shellfish, or wildlife that is the basis for the classified use; or
 - (B) were adopted based upon material assumptions that were in error or no longer apply.
- (iv) As a result of any hearing held pursuant to this section, the Commission may revise or change use classifications, water quality standard(s) or water quality designations in accordance with the criteria contained in the Act or whenever necessary to insure compliance with the other provisions of this regulation.
- (v) Where the Commission determines that an inconsistency exists, it shall declare the inconsistent classification, standards or designations void ab initio and shall simultaneously establish appropriate classifications, standards or designations.

(4) **Segmentation**

31.7 PROCESS FOR ASSIGNING STANDARDS AND GRANTING, EXTENDING, OR REMOVING TEMPORARY MODIFICATIONS AND VARIANCES

Overview: Assigning or changing a standard or granting, removing before its expiration, or extending a temporary modification or variance shall be accomplished by a rule after a rulemaking hearing. The procedures for taking such action shall be the same as the procedures for assigning or changing classifications. See section 31.6(3)(a)(i).

(1) Assigning Standards

The Commission is responsible for promulgating water quality standards as set forth in section 25-8-204, C.R.S. Standards may be narrative and/or numeric and include the following:

(a) Basic Standards

The basic standards in section 31.11 shall apply to all state surface waters at the effective date of the regulation.

(b) Numeric Standards

A numeric standard may be assigned by the Commission either to apply on a statewide basis or to specific state surface waters. A numeric standard will be assigned by the Commission when it is presented with evidence that a particular numeric level for a parameter is the suitable limit for protecting the classified use. A numeric standard consists of a numeric level and may include a description as to how that numeric level is to be measured. Numeric standards will include appropriate averaging periods and appropriate frequencies of allowed excursions. A numeric standard may be exceeded due to temporary natural conditions such as unusual precipitation patterns, spring runoff or drought. Such uncontrollable conditions are not cause for changing the numeric standard.

A temporary modification of a numeric standard may be granted by the Commission if the numeric standard is not being met at the present time, but such numeric standard is necessary to allow the full attainment of the classified use.

Numeric standards will be assigned based on the evidence presented at the classification and numeric-standard-setting hearings. Numeric standards may not necessarily be assigned for all constituents listed in the tables. In making this determination, the Commission will consider the likelihood of such constituents being present in the waters in question naturally or due to point or nonpoint sources, and shall consider the significance of the constituents with respect to protection of the classified uses. Entities having specific water quality data for the waters being classified, such as 208 agencies, local municipalities and industries, and citizens' groups, the Water Quality Control Division, state and federal agencies, environmental organizations, and other interested persons are encouraged to present such information.

The Commission may use any of the following approaches to establish site-specific numeric standards, as it determines appropriate with respect to specific state surface waters. Existing site-specific standards shall remain in effect until superseded by revised standards promulgated pursuant to this section:

(i) Table Value Standards

The Commission may apply the numeric levels set forth in tables I, II, and III as site-specific standards when those levels are determined to be appropriate to protect the applicable classified uses, and the available site-specific information does not indicate that one of the following alternative approaches to numeric standards would be more appropriate. Acute and chronic standards may be adopted. Numeric standards may not necessarily be assigned for all constituents listed in the tables. Standards for metals may be established by site-specific adoption of the hardness-dependent equations in table III, instead of single-value numeric standards. The numeric levels for various parameters in tables I, II, and III, are levels determined by the Commission after careful analysis of all available information and are generally considered to protect the beneficial use classifications. They are intended to guide the Commission and others at the use classification and numeric-standard-setting hearings.

(ii) Ambient Quality-Based Standards

- (A) Where ambient water quality levels are worse than specific numeric levels contained in tables I, II, and III, but are determined adequate to protect the highest attainable uses, the Commission may adopt one of the two following types of site-specific ambient quality-based standards:
- (I) Feasibility-based Ambient Standard: Where water quality can be improved, but not to the level required by the current numeric standard, a feasibility-based numeric ambient standard may be adopted based on available representative data.
 - (II) Natural or Irreversible Ambient Standard: Where no improvement is feasible, or sources and causes are natural, a site-specific numeric standard may be adopted at existing quality based on available representative data. Site-specific acute standards for parameters in Table III shall be based on the 95th percentile value of the available representative data.
- (B) Ambient quality-based standards are authorized only where a comprehensive analysis and review is conducted:
- (I) Which identifies the sources and causes of the elevated levels and characterizes existing conditions, including spatial and temporal variation;
 - (II) Where sources and causes are not natural, a comprehensive alternatives analysis identifies the improved water quality conditions (if any) that could result from feasible pollution control alternatives;
 - (III) Which includes a rationale for either retaining or revising the current use classification(s); and
 - (IV) Which characterizes the highest attainable use.

(iii) Site-Specific Criteria-Based Standards

For state surface waters where an indicator species procedure (water effects ratio), recalculation procedure, use attainability analysis or other site-specific analysis has been completed in accordance with section 31.16(2)(b), or in accordance with comparable procedures deemed acceptable by the Commission, the Commission may adopt site-specific standards as determined to be appropriate by the site-specific study results. For segments assigned aquatic life classifications, where factors other than water quality substantially limit the diversity and abundance of species present, the Commission may adopt site-specific acute or chronic standards as determined to be appropriate based upon available information regarding the waters and the habitat. Recurrence intervals for site-specific-criteria-based standards may be determined on a site-specific basis.

Site-specific criteria-based standards and ambient quality-based standards for metals shall be based on dissolved metals whenever the Commission determines that the evidence presented is adequate to justify such standards. Site-specific standards for metals in effect prior to July 31, 1988 were generally based on total recoverable metals. Those standards shall remain in effect until superseded by revised standards promulgated pursuant to this section.

- (iv) Standards For Surface Waters In Wetlands
 - (A) Tributary wetlands to which the interim classifications referenced in section 31.13(1)(e)(iv) apply, shall be subject to the following interim standard:
 - (1) Until such time as the Commission adopts site-specific standards for the tributary wetland, water quality in the wetland shall be maintained for each parameter at whichever of the following levels is less restrictive:
 - (a) ambient quality, or
 - (b) that quality which meets the numeric standards (except for numeric standards for pH, dissolved oxygen, and any standard established for the protection of a domestic water supply use) of the tributaries of the surface water segment to which the wetland is most directly hydrologically connected. Where the applicable numeric standard is based on section 31.16, table III, of this regulation, the numeric standard applicable to the wetland may be implemented taking into account the water effect ratio of the pollutant.
 - (2) Ambient quality shall be determined in accordance with section 31.7(1)(b)(ii) and shall take into account the location, sampling date, and quality of all available data. Ambient quality shall be determined as of the time the first regulatory action is undertaken which requires the identification of water quality standards for wetlands. If available information is not adequate to otherwise determine or estimate ambient quality, the interim standard set forth in section 31.7(1) (b) (iv) (A) (1) (b) shall apply.
 - (B) Wetlands for which the Commission has adopted a site-specific “wetlands” classification described in section 31.13(1)(e)(v), shall be subject to numeric standards and designations adopted by the Commission. The Commission shall adopt any numeric standards and designations determined to be appropriate in view of the functions and values to be protected for the wetlands in question.
 - (C) Created wetlands shall be subject only to the narrative standards set forth in section 31.11, unless the Commission has adopted the wetlands classification and appropriate numeric standards. All created wetlands will have a use protected designation unless determined otherwise as a result of a site-specific hearing.
 - (D) Compensatory wetlands shall be subject to the standards of the segment in which they are located, unless the Commission adopts a wetlands classification and appropriate numeric standards.
 - (E) All other wetlands which are state waters shall be subject only to the narrative standards set forth in section 31.11, unless the Commission has adopted the wetlands classification and appropriate numeric standards.
 - (F) The issuance and use of site-specific or individual permits under section 404 of the Clean Water Act, is not precluded by the provisions of sections 31.7, 31.11 or 31.13, except as provided in the 401 certification process under section 25-8-302, C.R.S.

- (G) Wetlands water quality standards and classifications shall not be interpreted or applied in a manner that is inconsistent with sections 25-8-102(5) and 25-8-104, C.R.S.

(c) Site-Specific Narrative Standards

- (i) Narrative standards may be assigned by the Commission to apply on a specific state surface water where numeric criteria are not required under federal law. Narrative standards will be assigned based on the evidence presented at the classification and numeric-standards-setting hearings, and must protect the classified uses.
- (ii) The Commission may adopt a site-specific narrative standard where water quality currently is degraded as a result of historical mining activities and improvement is likely within 20 years, if it determines that such a standard is the most appropriate option to protect existing uses and to promote water quality improvement efforts for the segment(s) in question due to uncertainty regarding what water quality is attainable. Unless the Commission determines that a different approach is appropriate on a site-specific basis, it shall use a statement that the standard(s) for the pollutant(s) in question shall be the chemical concentrations, biological conditions, and/or physical conditions identified by a structured scientific use attainability analysis, or table value standards, if the use attainability analysis is not completed and submitted by a specified date and approved by the Commission. Generally, a numerical temporary modification based on existing ambient quality will also be adopted for the segment(s) and pollutant(s) in question.

(2) **Considerations in Assigning Standards**

(3) **Granting, Extending, and Removing Temporary Modifications to Numeric Standards**

Where non-attainment of underlying standards has been demonstrated or predicted, the Commission may grant a temporary modification to a numeric standard upon a showing that the conditions in subsection (a), below, exist, provided that adequate supporting information described in subsection (b), below, are submitted. The presence of a temporary modification will be indicated in the appropriate water quality standards basin regulation by listing the parameter, the operative value, and the expiration date. A temporary modification may be granted to an entire stream or waterbody or to any portion thereof. It may be granted at the time a numeric standard is assigned or at any later time. When the temporary modification expires or is removed by the Commission, the underlying numeric standard will be in full effect. In every case, the modification to the numeric standard shall be temporary. All temporary modifications must be reevaluated not less than once every three (3) years.

In general, requests for a temporary modification are preferred over a more permanent downgrading of a present classification where it appears that the conditions causing the lower water quality might be temporary within a twenty (20) year time frame. The adoption of a temporary modification recognizes current conditions while providing an opportunity to resolve the uncertainty.

For the term of a temporary modification, regional wastewater management plans (208 plans) and plan updates, wasteload allocations, and planning, design, and construction of new, enlarged, or improved facilities and management practices shall be geared toward fully attaining the classified use and underlying numeric standard and assist in eliminating the need for the temporary modification. Discharge permits shall be implemented such that, at a minimum, status quo is maintained, and effluent quality is maintained at the best level reasonably achievable in a manner consistent with the provisions of subsection 31.9(4).

The subsections below provide requirements for the adoption, extension, review, and implementation of temporary modifications.

(a) Conditions Justifying a Temporary Modification

The Commission may grant a temporary modification of a numeric water quality standard for a waterbody where all of the following apply:

- (i) Non-attainment of underlying standards has been demonstrated or predicted
- (ii) Such non-attainment co-occurs spatially and temporally with an existing permitted discharge that has a demonstrated or predicted problem complying with a water quality-based effluent limit with which:
 - (A) the discharge must currently comply, or
 - (B) the discharge must comply within the next five years, or
 - (C) the discharge must comply in more than five years, and evidence shows significant investment in facility infrastructure would be required before the uncertainty is resolved.
- (iii) At least one of the following is shown to exist:
 - (A) there is significant uncertainty regarding the water quality standard necessary to protect current and/or future uses.
 - (B) there is significant uncertainty regarding the extent to which existing quality is the result of natural or irreversible human-induced conditions.

(b) Adequate Supporting Information for Original Adoption of a Temporary Modification

Adequate supporting information must be submitted including all of the following:

- (i) Characterization of the waterbody and effluent including:
 - (A) raw data describing the waterbody and effluent and characterization of the status quo, or, absent adequate data, a plan to collect data representative of quality as close in time as practicable to the temporary modification adoption, and
 - (B) documentation of waterbody non-attainment and an effluent compliance problem, as required in section 31.7(3)(a).
- (ii) Documentation of uncertainty pertaining to the underlying water quality standard for the waterbody and/or the extent to which existing quality is the result of natural or irreversible human-induced conditions.
- (iii) A plan for resolving the uncertainty and eliminating the need for the temporary modification that includes, for each type of uncertainty, a detailed, site-specific approach expected to result in sufficient information to resolve the uncertainty within the term of the temporary modification. The plan shall also include a schedule of timelines for key deliverables, including, but not limited to, annual reporting on progress to the Division. Additionally, the plan shall include activities to ensure that, at a minimum, status quo is maintained, and effluent quality is maintained at the best level reasonably achievable, in a manner consistent with the provisions of subsection 31.9(4). Implementation of

nonpoint source strategies for improving waterbody quality can also be considered, as appropriate.

- (iv) A justification for the narrative or numeric operative value, as defined in section 31.7(3)(d).
- (v) A justification for the proposed expiration date, consistent with section 31.7(3)(e).

(c) Adequate Supporting Information for Extension of a Temporary Modification

In addition to the information required for adoption of an original temporary modification, a proposed extension of a temporary modification shall be supported by:

- (i) Justification for why the time allotted under the previous temporary modification term was not sufficient to resolve the uncertainty and eliminate the need for the temporary modification, and
- (ii) Demonstration that status quo has been maintained. If waterbody quality status quo is shown to have been degraded, justification that the degradation was not due to the effluent in question shall also be provided.

(d) Operative Value during the Term of a Temporary Modification

In order to ensure that, at a minimum, status quo is maintained, the operative value during the term of the temporary modification will be set to represent the current condition of the waterbody and effluent by either:

- (i) Numeric values representing the status quo, or
- (ii) A narrative "current condition" that represents the status quo; the numeric values representing status quo shall be documented in the Statement of Basis and Purpose.

(e) Term and Review of a Temporary Modification

- (i) When a temporary modification is granted, the length of term of the temporary modification will be set by the Commission. The term granted shall be the shortest possible to resolve the uncertainty. The term of a temporary modification shall be determined on a case-by-case basis, based upon all relevant factors, including, but not limited to:
 - (A) the degree of uncertainty pertaining to the justification regarding the need for and length of the original temporary modification or extension, and
 - (B) how soon resolving the issues that necessitated adoption of the temporary modification is deemed feasible.
- (ii) In making a decision as to whether a temporary modification should be removed or extended, the Commission will consider all relevant factors, including, but not limited to, whether:
 - (A) the temporary modification still qualifies under 31.7(3)(a),
 - (B) there is an adequate plan to resolve uncertainty for eliminating the need for the temporary modification and substantial progress has been made under the plan,

- (C) status quo has been maintained, or if status quo in the waterbody, alone, has not been maintained, whether degradation of the waterbody quality status quo is due to factors other than the effluent in question, and
- (D) there has been no, or minimal, impact from the temporary modification on the uses of the stream in the area of the temporary modification and upstream and downstream of that area.

A temporary modification shall not be extended if the proponent did not substantially comply with all conditions of the temporary modification, including, but not limited to, submission of annual progress updates and supporting documentation.

(f) Frequency of Commission Review

- (i) The Commission will hold, at a minimum, a biennial (i.e., every other year) public rulemaking hearing to review all temporary modifications. As a result of the hearing, the Commission may:
 - (A) Delete the temporary modification and allow the existing underlying standards to go into effect;
 - (B) Delete the temporary modification and adopt a revised underlying standard;
 - (C) Extend the expiration date of the current temporary modification, with or without a revised underlying standard; or
 - (D) Adopt a revised temporary modification with an appropriate expiration date.
- (ii) Annual progress updates must be submitted to the Division. As a result of the review of the annual progress updates submitted during years with no scheduled formal public rulemaking hearing, the Division may propose that the Commission schedule a rulemaking hearing prior to the regularly scheduled biennial hearing to review and consider revisions, deletions, or extensions of temporary modifications.

(4) Granting, Extending and Removing Variances to Standards

A variance to a water quality standard may be granted by the Commission to establish a temporary water quality standard that represents the highest feasible degree of protection of a classified use when the criteria in this subsection are met. Variances approved by the Commission shall be incorporated into the relevant standard tables, and the presence of the variance will be indicated in the appropriate water quality standards basin regulation. When the variance expires or is removed by the Commission, the underlying standard will be in full effect. In every case, the variance to the standard shall be temporary and must be reevaluated during each basin triennial review for the segment, unless the Commission requires a more frequent review when adopting the variance.

(a) Criteria for Granting a Discharger-Specific Variance

Variances to standards are authorized only where a comprehensive alternatives analysis demonstrates that there are no feasible alternatives that would allow for the regulated activity to proceed without a discharge that exceeds water quality-based effluent limits. In addition, an applicant for a variance must satisfy both of the following criteria.

- (i) Tests to Determine the Need for a Variance

- (A) Limits of Technology: Demonstration that attaining the water quality standard is not feasible because, as applied to the point source discharge, pollutant removal techniques are not available or it is technologically infeasible to meet the standard;
 - (B) Economics: Demonstration that attaining the water quality standard is not feasible because meeting the standard, as applied to the point source discharge, will cause substantial and widespread adverse social and economic impacts in the area where the discharge is located. Considerations include such factors as the cost and affordability of pollutant removal techniques; or
 - (C) Other Consequences: Human caused conditions or sources of pollution prevent the attainment of the use and cannot be remedied or would cause more environmental damage to correct than to leave in place.
 - (ii) Evaluation of the use of other regulatory tools, including compliance schedules, use attainability analyses to determine whether a change in uses or standards could fully protect actual and potential classified uses on the segment, and temporary modifications, and an explanation for how these other tools are not appropriate or would not result in water quality-based effluent limits that are feasible for the discharger to achieve within the required timeframe.
- (b) Selection of Alternative Effluent Limits for Discharger-Specific Variances

The Commission's decision on whether to adopt a variance shall be based upon an evaluation of a comprehensive alternatives analysis and consideration of the impact of the variance on the uses of the waterbody at the discharge location and downstream of the discharge.

- (i) Variances adopted by the Commission for a specific discharger shall include alternative effluent limits (AELs) that:
 - (A) represent the highest attainable condition by requiring the highest degree of protection of the classified use that is feasible for the specific discharger named in the variance, and
 - (B) reflects the greatest pollutant reduction achievable throughout the term of the variance while taking into consideration the factors in subsection 31.7(4)(a), as appropriate, and
 - (C) do not result in any lowering of the currently attained ambient water quality, unless temporarily necessary for restoration activities.
- (ii) To ensure all feasible water quality improvements are implemented throughout the term of the variance, the Commission shall adopt one of the following:
 - (A) An effluent-based AEL, expressed as an effluent concentration, load, pollutant percent removal, or other quantifiable expression of effluent quality and quantity. At its discretion, the Commission may additionally require the adoption and implementation of a Pollutant Minimization Program.
 - (B) An action-based AEL with a quantifiable expression of the specific pollution control requirements to be completed by the discharger and the adoption and implementation of a Pollutant Minimization Program. An action-based AEL may only be justified when no additional feasible pollution control technology can be

identified which could achieve a predictable, quantitative improvement in effluent quality.

- (iii) The Commission will adopt a minimum of two AELs:
 - (A) an initial AEL that applies from the onset of the variance to ensure the discharge does not contribute to any lowering of currently attained ambient water quality, and
 - (B) a final AEL which represents the highest attainable condition that is feasible to achieve during the term of the variance.
- (iv) The underlying standard is the applicable standard for assessing attainment for a waterbody and the development of effluent limitations for all other dischargers to the waterbody segment not named in the variance.

(c) Conditions on Discharger-Specific Variances

A discharger-specific variance applies only to the point source discharge and pollutant(s) specified in the variance. In all permit actions issued to implement a discharger-specific variance:

- (i) At the time the variance is implemented in the permit, compliance with the initial AEL will be required. Where necessary and appropriate, the permit may include a compliance schedule for the achievement of any interim and final AELs adopted by the Commission, which may include interim milestones towards achieving the applicable AEL.
- (ii) Ongoing investigation of treatment technologies, process changes, wastewater reuse, or other controls that may result in improvement in effluent quality, and reports regarding such investigations should be submitted with adequate time to allow for consideration of the information during the scheduled review of the variance by the Commission.
- (iii) Any limitations and requirements necessary to implement the variance shall be included as enforceable permit conditions, including but not limited to additional monitoring requirements.
- (iv) The discharge permit effluent limitations shall be established using the least stringent of the water quality-based effluent limits based upon the underlying standard or the AEL(s).

(d) Term and Review of a Discharger-Specific Variance

The Commission will set the term of a variance, on a case-by-case basis, to be only as long as necessary to achieve the highest attainable condition, including the time needed to plan, implement, or evaluate the outcome of the activities. In every case, the variance to the standard shall be temporary and must be reevaluated at a minimum during each basin triennial review for the segment. The specific timing of reviews shall be specified in the variance and comply with all requirements in this section. If the term of the variance is greater than five years, the variance must be reviewed at least every five years after EPA's approval.

The Commission will conduct a reevaluation and submit the results of its reevaluation to EPA within 30 days of the completion of the reevaluation process. If the Commission does not fulfill this requirement, the DSV will no longer be the applicable water quality standard for purposes of the Clean Water Act.

If, as a result of the reevaluation process, the Commission determines that it is possible to achieve a more stringent AEL or highest attainable condition than was originally required by the

variance, then the Commission will revise the variance to incorporate the more stringent AEL in that hearing and submit the reevaluation results to EPA. Similarly, if the Commission determines a less stringent AEL is necessary, a revised variance must be submitted to EPA.

When the variance expires, a subsequent variance shall only be adopted if the permittee completed the ongoing investigation of pollution control alternatives and substantially complied with all other conditions of the variance.

31.8 ANTIDEGRADATION

(1) Antidegradation Rule

- (a) The highest level of water quality protection applies to certain waters that constitute an outstanding state or national resource. These waters, which are those designated outstanding waters pursuant to section 31.8(2)(a), shall be maintained and protected at their existing quality. Short-term degradation of existing quality is allowed for activities that result in long-term ecological or water quality benefit or clear public interest.
- (b) An intermediate level of water quality protection applies to waters that have not been designated outstanding waters or use protected waters. These waters shall be maintained and protected at their existing quality unless it is determined that allowing lower water quality is necessary to accommodate important economic or social development in the area in which the waters are located. For these waters, no degradation is allowed unless deemed appropriate following an antidegradation review in accordance with section 31.8(3), except as specified in (i) and (ii) below. Further, all applicable statutory and regulatory requirements for point sources and, if applicable control regulations have been adopted, all cost-effective and reasonable best management practices for nonpoint sources shall be met.
 - (i) For dissolved iron, dissolved manganese, and sulfate, concentrations may reach the applicable water supply standard without an antidegradation review provided degradation for Aquatic Life based standards is not significant.
 - (ii) For all other pollutants, no degradation is allowed, unless deemed appropriate following an antidegradation review in accordance with section 31.8(3).
- (c) At a minimum, for all state surface waters existing classified uses and the level of water quality necessary to protect such uses shall be maintained and protected. No further water quality degradation is allowable which would interfere with or become injurious to these uses. The classified uses shall be deemed protected if the narrative and numerical standards are not exceeded.

The antidegradation review requirements in section 31.8(3) are not applicable to waters designated use protected pursuant to section 31.8(2)(b). For these waters, only the protection specified in this subparagraph applies.

- (d) Water quality designations and reviewable water provisions shall not be utilized in a manner that is contrary to the provisions of sections 25-8-102 and 25-8-104, C.R.S.

(2) Water Quality-Based Designations

Waters which satisfy the criteria in subparagraph (a) below may be designated by the Commission as "outstanding waters". Waters which satisfy the criteria in subparagraph (b) below may be designated "use protected." Waters not satisfying either set of criteria will remain undesignated, and will be subject to the antidegradation review provisions set forth in section 31.8(3), below.

(a) Outstanding Waters Designation

Waters may be designated outstanding waters where the Commission makes all of the following three determinations:

- (i) The existing quality for each of the following parameters is equal to or better than that specified in tables I, II, and III for the protection of aquatic life class 1, recreation class P and (for nitrate) domestic water supply uses:

Table I: dissolved oxygen, pH, *E. coli*

Table II: chronic ammonia, nitrate

Table III: chronic cadmium, chronic copper, chronic lead, chronic manganese, chronic selenium, chronic silver, and chronic zinc

The determination of existing quality shall be based on adequate representative data, from samples taken within the segment in question. Data must be available for each of the 12 parameters listed; provided, that if *E. coli* samples from within the segment are infeasible due to its location, and a sanitary survey demonstrates that there are no human sources present that are likely to impact quality in the segment in question, *E. coli* data will not be required. "Existing quality" shall be the 85th percentile of the data for ammonia, nitrate, and dissolved metals, the 50th percentile for total recoverable metals, the 15th percentile for dissolved oxygen, the geometric mean for *E. coli*, and the range between the 15th and 85th percentiles for pH.

In addition, the foregoing notwithstanding, this test shall not be considered to be met if the Commission determines that, due to the presence of substantial natural or irreversible human-induced pollution for parameters other than those listed above, the quality of the waters in question should not be considered better than necessary to support propagation of fish, shellfish, and wildlife and recreation in and on the water.

- (ii) The waters constitute an outstanding natural resource, based on the following:
- (A) The waters are a significant attribute of a State Gold Medal Trout Fishery, a National Park, National Monument, National Wildlife Refuge, or a designated Wilderness Area, or are part of a designated wild river under the Federal Wild and Scenic Rivers Act; or
- (B) The Commission determines that the waters have exceptional recreational or ecological significance, and have not been modified by human activities in a manner that substantially detracts from their value as a natural resource.
- (iii) The water requires protection in addition to that provided by the combination of water quality classifications and standards and the protection afforded reviewable water under section 31.8(3).

(b) Use Protected Designation

These are waters that the Commission has determined do not warrant the special protection provided by the outstanding waters designation or the antidegradation review process.

- (i) Waters shall be designated by the Commission use protected if any of the criteria below are met, except that the Commission may determine that those waters with exceptional

recreational or ecological significance should be undesignated, and deserving of the protection afforded by the antidegradation review provisions of section 31.8(3):

- (A) The use classifications of the waters include aquatic life warm water class 2, except as provided in subsection (iii) below;
- (B) The existing quality for at least three of the following parameters is worse than that specified in tables I, II and III for the protection of aquatic life class 1, recreation class P and (for nitrate) domestic water supply uses:

Table I: dissolved oxygen, pH, *E. coli*

Table II: chronic ammonia, nitrate

Table III: chronic cadmium, chronic copper, chronic lead, chronic manganese, chronic selenium, chronic silver, and chronic zinc

The determination of existing quality shall be based on adequate representative data, from samples taken within the segment in question. Data must be available for each of the 12 parameters listed; provided, that if *E. coli* samples from within the segment are infeasible due to its location, and a sanitary survey demonstrates that there are no human sources present that are likely to impact quality in the segment in question, *E. coli* data will not be required. "Existing quality" shall be as defined in 31.5.

- (ii) In addition, waters may be designated use protected even though none of the preceding criteria apply if the Commission determines that due to the presence of substantial natural or irreversible human induced pollution for parameters other than those listed in section 31.8(2)(b)(i)(B) the quality of the waters in question should not be considered better than necessary to support aquatic life class 1 and recreation class P uses. In making such a determination about a use protected designation, the Commission may take into account evidence of exceedances of one or more of the parameters listed in section 31.8(2)(b)(i)(B). (This provision shall be repealed effective 12/31/2031)
- (iii) Waters classified as aquatic life warm water class 2 shall not be designated use protected solely on the basis of such classification if:
 - (A) There is adequate representative data available from samples taken within the segment in question for each of the 12 parameters listed in subsection 31.8(2)(b)(i)(B), above, and that data shows that the existing quality for at least 10 of the 12 parameters is equal to or better than that specified in tables I, II and III for the protection of aquatic life class 1, recreation class P and (for nitrate) domestic water supply uses; and
 - (B) The segment in question is not listed, and does not qualify for listing, for two or more pollutants on Colorado's Section 303(d) List of Water-Quality-Limited Segments Requiring Total Maximum Daily Loads, for an exceedance of chronic or "30-day" numeric standards.

(3) Antidegradation Review Process

(a) Applicability

These antidegradation review procedures shall apply to the review of regulated activities with new or increased water quality impacts that may degrade the quality of state surface waters that have not been designated as outstanding waters or use protected waters, including waters previously designated as high quality class 2. These waters are referred to below as "reviewable waters."

"Regulated activities" means any activities which require a discharge permit or water quality certification under federal or state law, or which are subject to state control regulations unless the Commission has specified in the control regulation that the antidegradation review process is not applicable. Where possible, the antidegradation review should be coordinated or consolidated with the review processes of other agencies concerning a proposed activity in an effort to minimize costs and delays for such activities.

(b) Division and Commission Roles

For regulated activities, the significance determination set forth in section 31.8(3)(c) and the determination whether degradation is necessary to accommodate important economic or social development in the area in which the waters are located, pursuant to section 31.8(3)(d), shall be made by the Division, subject to a de novo review by the Commission in an adjudicatory hearing, on the Commission's own motion, pursuant to a petition by any interested person who has submitted written comments during the Division review process, or on the Commission's determination pursuant to section 24-4-105(2), C.R.S.

(c) Significance Determination

The initial step in an antidegradation review shall be a determination whether the regulated activity in question is likely to result in significant degradation of reviewable waters, with respect to adopted narrative or numeric standards. The significance determination will be based on the chronic numeric standard and flow for the pollutant of concern except for those pollutants which have only acute numeric standards in which case the acute standard and flow will be used. This significance determination shall be made with respect to the net effect of the new or increased water quality impacts of the proposed regulated activity, taking into account any environmental benefits resulting from the regulated activity and any water quality enhancement or mitigation measures impacting the segment or segments under review, if such measures are incorporated with the proposed regulated activity. The regulated activity shall be considered not to result in significant degradation, as measured in the reviewable waters segment, if:

- (i) For bioaccumulative toxic pollutants, (i.e., those chemicals for which the bioaccumulation factor (BAF) is equal to or greater than 1000) the new or increased loading from the source under review is less than 10 percent of the existing total load to that portion of the segment impacted by the discharge for critical constituents; provided, that the cumulative impact of increased loadings from all sources shall not exceed 10 percent of the baseline total load established for the portion of the segment impacted by the discharge (the baseline total load shall be determined at the time of the first proposed new or increased water quality impacts to the reviewable waters.); and
- (ii) For all pollutants:
 - (A) The flow rate or volume of a new or increased discharge under review is small enough that it will be diluted by 100 to 1 or more at low flow, as defined in section 31.9, by water in the stream; or
 - (B) The new activity or increased discharge from the source under review will consume, after mixing, less than 15 percent of the baseline available increment, provided that the cumulative increase in concentration from all sources shall not exceed 15 percent of the baseline available increment. The baseline available increment is the increment between low-flow pollutant concentrations and the relevant standards for critical constituents for that portion of the segment

impacted by the discharge. Except as identified in (C) below, the baseline low-flow pollutant concentration shall represent the water quality as of September 30, 2000 (or the effective date when the use protected designation is removed), and shall be determined at the time of the first proposed new or increased water quality impacts to the reviewable waters after that date.

- (C) If water quality subsequently improves as the result of the remediation of impacts from past unpermitted releases of contaminants that affected the water quality as of September 30, 2000 (or the effective date when the use protected designation is removed), the resulting improved water quality at the time of the proposed new water quality impacts shall be used as the baseline. However, if such improvement results from non-legally-mandated remediation, upon petition the Commission may determine an alternative baseline to be used for antidegradation review purposes, taking into account the site-specific circumstances, including the benefits of protecting improved water quality and the goal of not discouraging voluntary clean-up efforts, including water pollutant trading. Any individual or entity, including those involved in the remediation efforts, may petition the Commission, at any time, to establish an alternative baseline, including prior to proceeding with a remediation project.
- (D) The regulated activity will result in only temporary or short term changes in water quality. This exception shall not apply where long-term operation of the regulated activity will result in an adverse change in water quality.

For the purposes of this subsection, the phrase “portion of the segment impacted by the discharge” means the portion of the stream from the discharge point to the first major tributary inflow, or as determined by the Division based on site-specific information at the time of the analysis.

(d) Necessity of Degradation Determination

If a determination has been made in accordance with section 31.8(3)(c) that a proposed regulated activity is likely to result in significant degradation of reviewable waters, a determination shall be made pursuant to this section whether the degradation is necessary to accommodate important economic or social development in the area in which the waters are located. The following provisions shall apply to this determination:

- (i) The “area in which the waters are located” shall be determined from the facts on a case-by-case basis. The area shall include all areas directly impacted by the proposed regulated activity.
- (ii) A determination shall be made from the facts on a case-by-case basis whether the proposed regulated activity is important economic or social development. If the activity proponent submits evidence that the regulated activity is important development, it shall be presumed important unless information to the contrary is submitted in the public review process. The determination shall take into account information received during the public comment period and shall give substantial weight to any applicable determinations by local governments or land use planning authorities.
- (iii) If the proposed regulated activity is determined to be important economic or social development, a determination shall be made whether the degradation that would result from such regulated activity is necessary to accommodate that development. The degradation shall be considered necessary if there are no water quality control alternatives available that (A) would result in no degradation or less degradation of the state waters and (B) are determined to be economically, environmentally, and technologically reasonable. In situations where water quality control alternatives are

identified that satisfy the tests in (A) and (B), the Division shall consider the proposed degradation to be unnecessary, and require implementation of a non-degrading or less degrading alternative as a condition of authorizing the proposed activity.

This determination shall be based on an assessment of whether such alternatives are available, based upon a reasonable level of analysis by the project proponent, consistent with accepted engineering practice, and any information submitted by the public or which is otherwise available. The assessment shall address practical water quality control technologies, the feasibility and availability of which has been demonstrated under field conditions similar to those of the activity under review. The scope of alternatives considered shall be limited to those that would accomplish the proposed regulated activity's purpose. Any alternatives that would be inconsistent with section 25-8-104 of the Water Quality Control Act shall not be considered available alternatives.

In determining the economic reasonableness of any less-degrading water quality control alternatives, the Division may take into consideration any relevant factors, including but not limited to the following, if applicable:

- (A) Whether the costs of the alternative significantly exceed the costs of the proposal;
- (B) For publicly owned treatment works (POTWs) or public water supply projects, whether user charges resulting from the alternative would significantly exceed user charges for similarly situated POTWs or public water supply projects;
- (C) For private industry, whether the alternative would have a significant adverse effect upon the project's profitability or competitive position (if the project proponent chooses to provide such information);
- (D) For any dischargers, whether treatment costs resulting from the alternative would significantly exceed treatment costs for any similar existing dischargers on the segment in question.
- (E) The relative, long-term, energy costs and commitments and availability of energy conservation alternatives.

(e) Public Participation and Intergovernmental Coordination

Procedural provisions relating to public participation and intergovernmental coordination and antidegradation reviews are set forth in the Procedural Rules, Regulation No. 21, section 21.16 (5 CCR 1002-21).

(f) Public Nomination-Water Quality Based Designations

Any person may nominate any state water for designation as outstanding waters or use protected during triennial review or at any time. Such nomination shall include written documentation of the qualifications for such designation based upon the criteria in section 31.8(2)(a) or (b).

(g) Protection of Existing Uses

If, during an antidegradation review, it is determined that an existing use of the affected waterbody has not been classified, prior to completing the antidegradation review for an applicable regulated activity, an expeditious rulemaking hearing shall be held (on an emergency basis if necessary) to consider adoption of the additional classification.

31.9 IMPLEMENTATION OF STANDARDS

(1) Low Flow Exceptions

- (a) Water quality standards shall apply at all times; provided, that in developing effluent limitations or other requirements for discharge permits, the Division shall normally define critical flow conditions using the following low-flow values:
- (i) Generally: the empirically based 30-day average low flow with an average 1-in-3 year recurrence interval (30E3) for chronic standards and the empirically based 1-day low flow with an average 1-in-3 year recurrence interval (1E3) for acute standards, or the equivalent statistically-based flow.
 - (ii) Temperature limitations: the empirically based 7-day average low flow with an average 1-in-3 year recurrence interval (7E3), and the empirically based 1-day low flow with an average 1-in-3 year recurrence interval (1E3) for acute standards, or the equivalent statistically-based flow.
 - (iii) Total phosphorus and total nitrogen limitations: the annual median of the daily average flows with a 1-in-5 year recurrence interval.

(b) Data Requirements

The period of record for determining low flows shall be based on a minimum of ten years of flow data, except that, when ten years of data is not available, low flows may be determined, on a case-by-case basis, using a period of record of less than ten years. If more than ten years of flow data is available, it may be more appropriate to establish low flow conditions based on a longer period of record to more accurately reflect site-specific conditions.

(c) Streams With Rapid Flow Changes

For streams with seasonal rapidly rising or falling hydrographs, the Division shall use, if so requested by a discharger, the procedure set forth in subparagraphs (i) through (v) below for calculating 30E3 values for those transitional flow periods of the year. For certain substances such as ammonia, the low flow exceptions may be based on periodic or seasonal flows as determined on a case-by-case basis by the Division.

- (i) Averaging Procedure – Calculation of 30-day Forward Moving Harmonic Means - Moving harmonic means shall first be calculated for each consecutive thirty-day period in the period of record being considered.
- (ii) Calculate Annual 30E3 Value - Determine the annual 30E3 value using the procedure set forth in Appendix A using
 - (A) 30-day forward moving harmonic means, and
 - (B) the excursion procedure for a 1-in-3 year recurrence interval.
- (iii) Assigning Harmonic Means - Each 30-day harmonic mean shall then be assigned to a month. A harmonic mean shall be assigned to a specific month only if the harmonic mean is calculated using data for 15 or more days from that month.
- (iv) Ranking of Harmonic Means - Harmonic means shall be ranked from the lowest to highest for each month of the year. The lowest harmonic mean for a month shall be used

to establish the low flow value for that month using the procedure set forth in subparagraph (v) below.

- (v) Establishing Monthly 30E3 Low Flows – The low flow for a month shall be either the lowest harmonic mean assigned to that month (as determined in subparagraphs (iii) and (iv), above), or the annual low flow value (as determined in subparagraph (ii), above), whichever is greater.

(d) Waters Not Yet Classified

Discharges to waters not presently classified must meet established effluent limitation regulations, the basic standards, antidegradation rule and control regulations. Effluent flows which reach a classified body of water, even though the discharge point is to a water not yet classified, must be of a quality which will not cause the standards of the classified body of water to be violated.

(2) Compliance Schedules

Where the Commission has adopted new standards, temporary modifications or revised standards that have become more stringent, or where the Division has developed new interpretations of existing standards, including, but not limited to, implementation requirements through approved TMDLs and Wasteload Allocations, interim and final AELs for variances and antidegradation reviews; the Division may include schedules of compliance in Colorado Discharge Permit System (CDPS) permits when it determines such schedules to be necessary and appropriate.

(3) Temperature Limits

The Division will determine whether temperature limits are to be included in permits utilizing the following approach.

- (a) No temperature effluent limit will be applied if a discharge is to an effluent-dependent stream and there is no evidence that the aquatic life use may be negatively affected by the thermal component of the discharge. In implementing this provision, the Division will consider all readily available and pertinent evidence regarding the potential for the thermal properties of a discharge to affect aquatic life.
- (b) No temperature effluent limit will be applied to a discharge of water from a natural hot springs, so long as that water enters the receiving water in the vicinity of its natural outflow.
- (c) Where neither (a) nor (b) above apply to a discharge, the Division will determine whether a limitation for temperature is to be included in a permit consistent with procedures developed in accordance with Section 61.8(2)(b)(i) of the CDPS Regulations. Where there are not adequate data to determine reasonable potential, the Division may require the permittee to collect and submit temperature data.
- (d) At the time of permit renewal, where a site-specific recalculation procedure demonstrates that alternative numerical criteria are more appropriate for protection of aquatic life, these alternative criteria will be used for development of permit limits.
- (e) Consistent with section 316(a) of the federal Clean Water Act, and federal implementing regulations, the Division may impose alternate effluent limitations with respect to the thermal component of such discharge.

(4) Temporary Modifications

Where a temporary modification is adopted, permits for discharges to the segment in question:

- (a) For existing discharges:
 - (i) Will not include a compliance schedule to meet limits based on the underlying standard during the period that the temporary modification is in effect.
 - (ii) Will, regardless of whether the operative value of the temporary modification is numeric or narrative, include permit effluent limits, where appropriate, that ensure that, at a minimum, status quo is maintained during the temporary modification.
 - (iii) May include limitations or other conditions (e.g., source identification, pretreatment, and evaluation of other source control and treatment options) for the parameter(s) in question based on an assessment of the level of effluent quality reasonably achievable without requiring significant investment in facility infrastructure (e.g., based on past facility performance). Such limits (numeric or otherwise) may be at or below the level derived from the temporary modification, where such a requirement would not cause an undue economic burden, but not more restrictive than necessary to achieve the underlying standard.
- (b) For expanding discharges: Will include effluent limits that, at a minimum, do not pose an unreasonable risk to downstream uses and ensure status quo is maintained.
- (c) For new discharges: Will include effluent limits based on the underlying standard, rather than the temporary modification, unless the Commission has established a specific limit or value for new dischargers.
- (d) May include a permit condition requiring actions intended to eliminate the uncertainty regarding the appropriate underlying standard.

31.10 MIXING ZONES

(1) Definitions

(a) Physical Mixing Zone

That portion of a waterbody, surrounding or downstream from a point source of discharge, wherein constituents of the discharge are not uniformly dispersed into the receiving waters. The physical mixing zone also can be referred to simply as the "mixing zone," except where there is possible confusion with the regulatory mixing zone, as it is defined below, which differs from the physical mixing zone

(b) Exceedance Zone

That portion of a physical mixing zone within which a numeric water quality standard for a given water quality parameter is not met during critical conditions. The size of an exceedance zone may differ from one numeric standard to another at a given location.

(c) Regulatory Mixing Zone

The maximum size allowable for an exceedance zone at a given location. An acute regulatory mixing zone limits the size of exceedance zones for acute standards, and a chronic regulatory mixing zone limits the size of exceedance zones for chronic standards. The sizes of the acute

and chronic regulatory mixing zones are related to the size of the receiving water, as explained in 31.10 (3).

(d) Stream Channel Width at Bankfull Stage

The width of a stream under flow conditions when the stream just begins to enter the lowest level of the floodplain.

(e) Average Waterbody Surface Area

The average surface area for a lake shall be determined from historic data (five years or more if possible), and must be computed monthly or seasonally, as appropriate, to reflect significant monthly or seasonal changes in area.

(f) Stream, Lake, Wetland

For purposes of this regulation, streams will include Waters of the State that flow, regardless of size, and lakes will include Waters of the State that are not flowing, including reservoirs. Wetlands will be treated in the same manner as lakes.

(2) Exemptions from Restriction of Permit Limits by Mixing Zone Regulations

In the following instances, water quality-based effluent limits (permit limits) for discharges to streams will be calculated using the full chronic (30E3) and acute (1E3) low flow of the stream for dilution except where a more stringent approach is determined by the Division to be necessary to protect designated uses in the waterbody as a whole based on the factors identified in subsection 31.10(5). These exemptions do not apply to lakes.

- (a) Exemption tables, other procedures developed or approved by the Division, or site-specific data indicate that the chronic regulatory mixing zone is larger than the physical mixing zone;
- (b) The effluent flow at maximum permitted discharge is greater than twice the chronic low flow (30E3); or
- (c) The ratio of the chronic low flow (30E3) to the maximum permitted or other appropriate effluent flow is greater than or equal to 20:1 and the operation is designated by the Division as a "minor."

(3) Regulatory Mixing Zone Sizes

(a) Streams

The Division shall consider the following factors in determining the sizes of the regulatory mixing zones for streams:

- (i) The size of the chronic regulatory mixing zone for any point source of discharge to a stream shall not be greater than a plan view area equal to six times the square of the stream channel width at bankfull stage.
- (ii) Where the size of the physical mixing zone exceeds the size of the chronic regulatory mixing zone, the area of the acute regulatory mixing zone for a water quality parameter shall be established between 10 % and 25 % of the area of the chronic regulatory mixing zone for the same water quality parameter. The size of the acute regulatory mixing zone will be determined within this range based on a presumption that:

- (A) For waters determined under subsection 31.8 to be “reviewable,” the default acute regulatory mixing zone will be 10% as large as the chronic regulatory mixing zone.
- (B) For waters determined under subsection 31.8 to be “use protected,” the default acute regulatory mixing zone will be 25% as large as the chronic regulatory mixing zone.

An acute mixing zone may also be further reduced below default limits for reasons given in subsection 31.10(5). The permittee may request that the size of the acute regulatory mixing zone be higher than recommended by the Division, but no higher than 25% of the chronic regulatory mixing zone, on the basis of arguments related to cost/benefit analysis, economic reasonableness, ecological risks, use classification, or designation. The burden is on the permittee to bring appropriate information to the Division.

- (iii) The sum total of the plan view areas of all chronic regulatory mixing zones for point sources of discharge into any reach of stream for a specified water quality parameter shall not occupy more than ten percent 10% of the total plan view area of such reach of river or stream, as measured at bankfull stage. The length (approximately 10 miles) and boundaries of the stream or river reach for these purposes shall be determined by the Division. Constraints on chronic regulatory mixing zones used to determine permit limits in discharge permits resulting from the cumulative impacts of multiple point sources of discharge into a stream reach shall be shared equitably among permittees and any other sources of discharge. The distribution of the allowable loads for the pollutant of concern shall be consistent with regulations applicable to total maximum daily loads and/or upon mutual agreement amongst the permittees.

(b) Lakes

The Division shall consider the following factors in determining the size of the regulatory mixing zones for lakes:

- (i) For each point source of discharge, the size of the chronic regulatory mixing zone shall not be greater than 3% of the average inter-annual seasonal or monthly surface area. The Division may apply this limit to an entire lake or to a smaller, geographically distinguishable (bay, arm, etc.), portion of a lake.
- (ii) Where the physical mixing zone exceeds the chronic regulatory mixing zone, the area of the acute regulatory mixing zone for lakes, for any water quality parameter, shall be established between 10% and 25% of the area of the chronic regulatory mixing zone for the same water quality parameter. The size of the acute mixing zone will be determined within this range based on a presumption that:
 - (A) For waters determined under subsection 31.8 to be “reviewable” the default acute regulatory mixing zone will be 10% as large as the chronic regulatory mixing zone.
 - (B) For waters determined under subsection 31.8 to be “use protected” the default acute regulatory mixing zone will be 25% as large as the chronic regulatory mixing zone.

An acute mixing zone may also be further reduced below default limits for reasons given in subsection 31.10 (5). The permittee may request that the size of the acute regulatory mixing zone be higher than recommended by the Division, but no higher than 25% of the chronic regulatory mixing zone, on the basis of arguments related to cost/benefit

analysis, economic reasonableness, ecological risks, use classification, or designation. The burden is on the permittee to bring appropriate information to the Division.

- (iii) The sum total of the plan view areas of all chronic regulatory mixing zones for point sources of discharge into lakes for a specified water quality parameter shall not occupy more than ten percent 10% of the total plan view area of such lake, or a geographically distinguishable portion thereof, at any seasonally average area. Constraints on chronic regulatory mixing zones used to determine limits in discharge permits resulting from the cumulative impacts of multiple point sources of discharge into lakes shall be shared equitably among permittees and any other sources of discharge. The distribution of the allowable loads for the pollutant of concern shall be consistent with regulations applicable to total maximum daily loads and/or upon mutual agreement amongst the permittees.
- (iv) For artificial lakes supplied principally with potable water, mixing zones larger than those allowed above may be designated for purposes of CDPS permits. Appropriate mixing zone size limits shall be determined by the Division on a case-by-case basis, consistent with the constraints described in subsection 31.10(5). Such mixing zones shall be kept as small as practicable, on a parameter-by-parameter basis, and shall provide for protection of existing and designated uses in the waterbody as a whole.

(4) Use of Mixing Zone Regulations in Setting Permit Limits

(a) Streams

Computation of chronic or acute permit limits for point source discharges to streams shall be as follows:

- (i) For discharges not exempted as explained in subsection 31.10(2), the permit limit for any parameter for which there is a water quality standard shall be that resulting in acute and chronic exceedance zones equal to or smaller than the respective acute and chronic regulatory mixing zones.
- (ii) Where the annual acute low flow (1E3) of the receiving stream is zero, no dilution will be provided in calculating acute permit limits. Where the chronic low flow (30E3) of the receiving stream is equal to zero, no dilution will be provided in calculating chronic permit limits.

(b) Lakes

Computation of chronic or acute permit limits for point source discharges to lakes shall be as follows:

- (i) The permit limit for any parameter for which there is a water quality standard shall be that resulting in acute and chronic exceedance zones equal to or smaller than the respective acute and chronic regulatory mixing zones as shown by site-specific analysis for each regulated substance.

(5) Additional Constraints on Mixing Zones

- (a) Exceedance zones from multiple point sources of discharge shall not overlap to such an extent as to harm beneficial uses.
- (b) Regulatory mixing zones shall comply with the narrative basic standards included in subsection 31.11(1), except that these requirements do not apply to the protection of any sessile organisms residing within acute and chronic regulatory mixing zones.

- (c) Where sampling shows that the conditions described in subsection 31.10(3) are not attained, the mixing zone analysis will be revised as necessary to achieve compliance with subsection 31.10(3).
- (d) The Division may limit or deny regulatory mixing zones on a site-specific basis for specific regulated substances. In doing so, the Division shall consider the following:
 - (i) The need to provide a zone of passage for aquatic life;
 - (ii) The likelihood of bioaccumulation of toxins in fish or wildlife;
 - (iii) The special importance of certain habitat such as fish spawning or nursery areas or habitat that supports threatened or endangered species;
 - (iv) Potential for human exposure to pollutants through drinking water or recreation;
 - (v) The possibility that aquatic life will be attracted to the effluent plume;
 - (vi) The potential for adverse effects on groundwater; or
 - (vii) The toxicity or persistence of the substance discharged.

(6) Mixing Zones for Whole Effluent Toxicity-based Permit Requirements

31.11 BASIC STANDARDS APPLICABLE TO SURFACE WATERS OF THE STATE

All surface waters of the state are subject to the following basic standards; however, discharge of substances regulated by permits which are within those permit limitations shall not be a basis for enforcement proceedings under these basic standards:

- (1) Except where authorized by permits, BMPs, 401 certifications, or plans of operation approved by the Division or other applicable agencies, state surface waters shall be free from substances attributable to human-caused point source or nonpoint source discharge in amounts, concentrations or combinations which:
 - (a) for all surface waters except wetlands;
 - (i) can settle to form bottom deposits detrimental to the beneficial uses. Depositions are stream bottom buildup of materials which include but are not limited to anaerobic sludges, mine slurry or tailings, silt, or mud; or
 - (ii) form floating debris, scum, or other surface materials sufficient to harm existing beneficial uses; or
 - (iii) produce color, odor, or other conditions in such a degree as to create a nuisance or harm existing beneficial uses or impart any undesirable taste to significant edible aquatic species or to the water; or
 - (iv) are harmful to the beneficial uses or toxic to humans, animals, plants, or aquatic life; or
 - (v) produce a predominance of undesirable aquatic life; or

- (vi) cause a film on the surface or produce a deposit on shorelines; and
- (b) for surface waters in wetlands;
 - (i) produce color, odor, changes in pH, or other conditions in such a degree as to create a nuisance or harm water quality dependent functions or impart any undesirable taste to significant edible aquatic species of the wetland; or
 - (ii) are toxic to humans, animals, plants, or aquatic life of the wetland.
- (2) The radioactive materials in surface waters shall be maintained at the lowest practical level. In no case shall radioactive materials in surface waters be increased by any cause attributable to municipal, industrial, or agricultural practices or discharges to as to exceed the levels in 31.11 Table A below, unless alternative site-specific standards have been adopted pursuant to subsection (4) below:

31.11 TABLE A - RADIONUCLIDE STANDARDS

TABLE A RADIONUCLIDE STANDARDS**	
Parameter	Picocuries per Liter
Americium 241*	0.15
Cesium 134	80
Plutonium 239 and 240*	0.15
Radium 226 and 228*	5
Strontium 90*	8
Thorium 230 and 232*	60
Tritium	20,000

*Radionuclide samples for these materials should be analyzed using unfiltered (total) samples.

**These Human Health based standards are 30-day average values.

- (3) The interim organic pollutant standards contained in 31.11 Table B Basic Standards for Organic Chemicals Table below are applicable to all surface waters of the state for which the corresponding use classifications have been adopted, unless alternative site-specific standards have been adopted pursuant to sub-section (4) below.

Note that all standards in the 31.11 Table B Basic Standards for Organic Chemicals Table are being adopted as "interim standards." These interim standards will remain in effect until alternative permanent standards are adopted by the Commission in revisions to this regulation or site-specific standards determinations. Although fully effective with respect to current regulatory applications, these interim standards shall not be considered final or permanent standards subject to antibacksliding or downgrading restrictions.

Table B – Footnotes

- (1) All standards are chronic or 30-day standards. They are based on information contained in EPA's Integrated Risk Information System (IRIS) and/or EPA lifetime health advisories for drinking water using a 10^{-6} incremental risk factor unless otherwise noted.
- (2) Only applicable to segments classified for water supply.
- (3) Applicable to all Class 1 aquatic life segments which also have a water supply classification or Class 2 aquatic life segments which also have a water supply classification designated by the Commission after rulemaking hearing. These class 2 segments will generally be those where fish of a catchable size and which are normally consumed are present, and where there is evidence that fishing takes place on a recurring basis. The Commission may also consider additional evidence that may be relevant to a determination whether the conditions applicable to a particular segment are similar enough to the assumptions underlying the Water + Fish ingestion criteria to warrant the adoption of Water + Fish ingestion standards for the segment in question.
- (4) Applicable to all aquatic life segments.
- (5) Deleted.
- (6) Standards are pH-dependent. Those listed are calculated for pH = 7.8.
$$\text{Acute} = e^{[1.005(\text{pH})-4.869]}; \text{Chronic} = e^{[1.005(\text{pH})-5.134]}$$
- (7) Total trihalomethanes are considered the sum of the concentrations of bromodichloromethane (CAS No. 75-27-4), dibromochloromethane (Chlorodibromomethane(HM), CAS No. 124-48-1), tribromomethane (bromoform, CAS No. 75-25-2) and trichloromethane (chloroform, CAS No. 67-66-3).
- (8) Applicable to the following segments which do not have a water supply classification: all Class 1 aquatic life segments or Class 2 aquatic life segments designated by the Commission after rulemaking hearing. These class 2 segments will generally be those where fish of a catchable size and which are normally consumed are present, and where there is evidence that fishing takes place on a recurring basis. The Commission may also consider additional evidence that may be relevant to a determination whether the conditions applicable to a particular segment are similar enough to the assumptions underlying the fish ingestion criteria to warrant the adoption of fish ingestion standards for the segment in question.
- (9) PCBs are a class of chemicals which include aroclors, 1242, 1254, 1221, 1232, 1248, 1260 and 1016, CAS numbers 53469-21-9, 11097-69-1, 11104-28-2, 11141-16-5, 12672-29-6, 11096-82-5, and 12674-11-2 respectively. The aquatic life criteria apply to this set of PCBs. The human health criteria apply to total PCBs, i.e. the sum of all congener or all isomer analyses.
- (10) The chronic aquatic life standard is more stringent than the associated Water + Fish or Fish Ingestion standard, and therefore no Water + Fish or Fish Ingestion standard has been adopted.
- (11) The Water + Fish and Fish Ingestions standards for these compounds have been calculated using a relative source contribution (RSC).

(12) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(13) Mutagenic compound, age dependent factors were used in calculating standard.

(C) Carcinogens classified by the EPA as A, B1, or B2.

(M) Drinking water MCL.

CAS No. – Chemical Abstracts Service Registry Number.

(HM) – Halomethanes

(PAH) – Polynuclear Aromatic Hydrocarbons.

(4) Site-Specific Radioactive Materials and Organic Pollutants Standards.

(a) In determining whether to adopt site-specific standards to apply in lieu of the statewide standards established in sections (2) and (3) above, the Commission shall first determine the appropriate use classifications, in accordance with section 31.13. If such a determination would result in removing an existing classification, the downgrading factors in section 31.6 (2)(B) shall apply.

(b) The Commission shall then determine whether numerical standards other than some or all of the statewide standards established in sections (2) and (3) above would be more appropriate for protection of the classified uses, taking into account the factors prescribed in section 25-8-204(4), C.R.S. and in section 31.7. The downgrading factors described in section 31.6(2)(B) shall not apply to the establishment of site-specific standards under this section.

(c) Site-specific standards to apply in lieu of statewide standards may be based upon consideration of the appropriateness of the assumptions used in the risk assessment based potency factors and reference dose values, including, but not limited to, consideration of the uncertainty factor, exposure assessment, bioaccumulation factor, exposed population factor, assumed consumption factor, risk comparisons, uncertainty analysis, and the availability of the toxics in the water column, considering persistence, hardness, pH, temperature or valence form in the water column.

(5) Nothing in this regulation shall be interpreted to preclude:

(a) An agency responsible for implementation of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. 9601 et seq., as amended, from selecting a remedial action that is more or less stringent than would be

achieved by compliance with the statewide numerical standards established in this section, or alternative site-specific standards adopted by the Commission, where a determination is made that such a variation is authorized pursuant to the applicable provisions of CERCLA.

- (6) Except where the Commission adopts or has adopted a different standard on a site-specific basis, the less restrictive of the following two options shall apply as numerical standards for all surface waters with a “water supply” classification, if water supply is an actual use of the waters in question or of hydrologically connected groundwater:

- i. existing quality as of January 1, 2000; or
- ii. the following table value criteria set forth in Tables II and III:

Iron	300 µg/L (dissolved)
Manganese	50 µg/L (dissolved)
Sulfate	250 mg/L (dissolved)

Provided, that if the existing quality of these constituents in such surface waters as of January 1, 2000, is affected by an unauthorized discharge with respect to which the Division has undertaken an enforcement action, the numerical standards shall be the ambient conditions existing prior to the unauthorized discharge or the above table value criteria, whichever is less restrictive.

Data generated subsequent to January 1, 2000 shall be presumed to be representative of existing quality as of January 1, 2000, if the available information indicates that there have been no new or increased sources of these pollutants impacting the segment(s) in question subsequent to that date.

For all surface waters with a “water supply” classification that are not in actual use as a water supply, the water supply table value criteria for sulfate, iron and manganese set forth in Tables II and III may be applied as numerical standards only if the Commission determines as the result of a site-specific rulemaking hearing that such standards are necessary and appropriate in accordance with section 31.7.

- (7) Methylmercury Fish Tissue: Fish tissue concentrations shall not exceed 0.3 milligrams methylmercury per kilogram (0.3 mg/kg) of wet-weight fish tissue. Attainment of the standard will be assessed by comparing the average fish tissue methylmercury concentration for each species and size class to the 0.3 mg/kg standard.

31.12 SALINITY AND SUSPENDED SOLIDS

31.13 STATE USE CLASSIFICATIONS

Waters are classified according to the uses for which they are presently suitable or intended to become suitable. In addition to the classifications, one or more of the qualifying designations described in section 31.13(2), may be appended. Classifications may be established for any state surface waters, except that water in ditches and other manmade conveyance structures shall not be classified.

(1) Classifications

(a) Recreation

(i) Class E Existing Primary Contact Use

These surface waters are used for primary contact recreation or have been used for such activities since November 28, 1975.

(ii) Class P - Potential Primary Contact Use

These surface waters have the potential to be used for primary contact recreation. This classification shall be assigned to water segments for which no use attainability analysis has been performed demonstrating that a recreation class N classification is appropriate, if a reasonable level of inquiry has failed to identify any existing primary contact uses of the water segment, or where the conclusion of a UAA is that primary contact uses may potentially occur in the segment, but there are no existing primary contact uses.

(iii) Class N - Not Primary Contact Use

These surface waters are not suitable or intended to become suitable for primary contact recreation uses. This classification shall be applied only where a use attainability analysis demonstrates that there is not a reasonable likelihood that primary contact uses will occur in the water segment(s) in question within the next 20-year period.

(v) Class U - Undetermined Use

These are surface waters whose quality is to be protected at the same level as existing primary contact use waters, but for which there has not been a reasonable level of inquiry about existing recreational uses and no recreation use attainability analysis has been completed. This shall be the default classification until inquiry or analysis demonstrates that another classification is appropriate.

(b) Agriculture

These surface waters are suitable or intended to become suitable for irrigation of crops usually grown in Colorado and which are not hazardous as drinking water for livestock.

(c) Aquatic Life

These surface waters presently support aquatic life uses as described below, or such uses may reasonably be expected in the future due to the suitability of present conditions, or the waters are intended to become suitable for such uses as a goal:

(i) Class 1 - Cold Water Aquatic Life

These are waters that (1) currently are capable of sustaining a wide variety of cold water biota, including sensitive species, or (2) could sustain such biota but for correctable water quality conditions. Waters shall be considered capable of sustaining such biota where physical habitat, water flows or levels, and water quality conditions result in no substantial impairment of the abundance and diversity of species.

(ii) Class 1 - Warm Water Aquatic Life

These are waters that (1) currently are capable of sustaining a wide variety of warm water biota, including sensitive species, or (2) could sustain such biota but for correctable water quality conditions. Waters shall be considered capable of sustaining such biota where physical habitat, water flows or levels, and water quality conditions result in no substantial impairment of the abundance and diversity of species.

(iii) Class 2 - Cold and Warm Water Aquatic Life

These are waters that are not capable of sustaining a wide variety of cold or warm water biota, including sensitive species, due to physical habitat, water flows or levels, or uncorrectable water quality conditions that result in substantial impairment of the abundance and diversity of species.

(d) Domestic Water Supply

These surface waters are suitable or intended to become suitable for potable water supplies. After receiving standard treatment (defined as coagulation, flocculation, sedimentation, filtration, and disinfection with chlorine or its equivalent) these waters will meet Colorado drinking water regulations and any revisions, amendments, or supplements thereto.

(i) Direct Use Water Supply Lakes and Reservoirs Sub-classification

- (A) For the purpose of this section, “plant intake” means the works or structures at the head of a conduit through which surface water is diverted from a source (e.g., lake) into the treatment plant.
- (B) Direct Use Water Supply Lakes and Reservoirs (DUWS) are those water supply lakes and reservoirs where:
 - (I) There is a plant intake located in the lake or reservoir or a man-made conveyance from the lake or reservoir that is used regularly to provide raw water directly to a water treatment plant that treats and disinfects raw water, or
 - (II) The Commission, based on evidence in the record, determines that the reservoir will meet the criteria in 31.13(1)(d)(i)(B)(I) in the future.

(e) Wetlands

- (i) The provisions of this section do not apply to constructed wetlands.
- (ii) Compensatory wetlands shall have, as a minimum, the classifications of the segment in which they are located.
- (iii) Created wetlands shall be considered to be initially unclassified, and shall be subject only to the narrative standards set forth in section 31.11, unless and until the Commission adopts the “wetlands” classification described below and appropriate numeric standards for such wetlands.
- (iv) Tributary wetlands shall be considered tributaries of the surface water segment to which they are most directly connected and shall be subject to interim classifications as follows: such wetlands shall be considered to have the same classifications, except for drinking water supply classifications, as the segment of which they are a part, unless the

“wetlands” classification and appropriate site-specific standards have been adopted to protect the water quality dependent functions of the wetlands. Interim numeric standards for these wetlands are described in section 31.7(1)(b)(iv).

- (v) The Commission may adopt a “wetlands” classification based on the functions of the wetlands in question. Wetland functions that may warrant site-specific protection include groundwater recharge or discharge, flood flow alteration, sediment stabilization, sediment or other pollutant retention, nutrient removal or transformation, biological diversity or uniqueness, wildlife diversity or abundance, aquatic life diversity or abundance, and recreation. Because some wetland functions may be mutually exclusive (e.g., wildlife abundance, recreation), the functions to be protected or restored will be determined on a wetland-by-wetland basis, considering natural wetland characteristics and overall benefits to the watershed. The initial adoption of a site-specific wetlands classification and related standards to replace the interim classifications and standards described above shall not be considered a downgrading.

(2) Qualifiers

The following qualifiers may be appended to any classification to indicate special considerations. Where a qualifier applies, it will be appended to the use classification; for example, “Class 1, Warm Water Aquatic Life (Goal)”.

(a) Goal

A qualifier which indicates that the waters are presently not fully suitable but are intended to become fully suitable for the classified use. “Goal” will be used to indicate that a temporary modification for one or more of the underlying numeric standards has been granted.

(b) Seasonal

A qualifier which indicates that the water may only be suitable for a classified use during certain periods of the year. During those periods when water is in the stream, the standards as defined in sections 31.7(1)(b) and 31.9(1) shall apply.

(c) Interrupted Flow

A qualifier which indicates that due to natural or human induced conditions the continuity of flow is broken not necessarily according to a seasonal schedule. This qualifier appended to a classification indicates that the flow conditions still permit the classified use during period of flow. The presence of water diversions in a stream does not change the classifications and standards, and the standards do not require that flow be maintained in the stream.

Temperature Definitions ^a Cold Stream Tier I temperature criteria apply where cutthroat trout and brook trout are expected to occur. ^b Cold Stream Tier II temperature criteria apply where cold-water aquatic species, excluding cutthroat trout or brook trout, are expected to occur. ^c Large Cold Lakes temperature criteria apply to lakes and reservoirs with a surface area equal to or greater than 100 acres surface area. ^d Warm Stream Tier I temperature criteria apply where common shiner, johnny darter, or orangethroat darter, or stonecat are expected to occur. ^e Warm Stream Tier II temperature criteria apply where brook stickleback, central stoneroller, creek chub, finescale dace, longnose dace, mountain sucker, northern redbelly dace, razorback sucker, or white sucker are expected occur, and none of the more thermally sensitive species in Tier I are expected to occur. ^f Warm Stream Tier III temperature criteria apply where warm-water aquatic species are expected to occur, and none of the more thermally sensitive species in Tiers I and II are expected to occur. ^g Mountain whitefish-based summer temperature criteria [16.9 (ch), 21.2 (ac)] apply when and where spawning and sensitive early life stages of this species are known to occur. ^h Lake trout-based summer temperature criteria [16.6 (ch), 22.4 (ac)] apply where appropriate and necessary to protect lake trout from thermal impacts.								

Table I – Footnotes

- (1) Standards for dissolved oxygen are minima, unless specified otherwise. For the purposes of permitting, dissolved oxygen may be modeled for average conditions of temperature and flow for the worst case time period. Where dissolved oxygen levels less than these levels occur naturally, a discharge shall not cause a further reduction in dissolved oxygen in receiving water. (For lakes, also see footnote 9.)
- (2) A 7.0 mg/liter standard (minimum), during periods of spawning of cold water fish, shall be set on a case by case basis as defined in the NPDES or CDPS permit for those dischargers whose effluent would affect fish spawning.
- (3) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- (4) Suspended solid levels will be controlled by Effluent Limitation Regulations, Basic Standards, and Best Management Practices (BMPs).
- (5) Temperature shall maintain a normal pattern of diel and seasonal fluctuations and spatial diversity with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deleterious to the resident aquatic life. These criteria shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.
 - a. The MWAT of a waterbody shall not exceed the chronic temperature criterion more frequently than one event in three years on average.
 - b. The DM of a waterbody shall not exceed the acute temperature criterion more frequently than one event in three years on average.
 - c. The following shall not be considered an exceedance of the criteria:
 - i. Lakes and reservoirs: When a lake or reservoir is stratified, the mixed layer may exceed the applicable temperature criteria in Table 4I provided that an adequate refuge exists in water below the mixed layer. Adequate refuge means that there is concurrent attainment of the applicable Table I temperature and dissolved oxygen criteria. If the refuge is not adequate because of dissolved oxygen levels, the lake or reservoir may be included on the 303(d) List as “impaired” for dissolved oxygen, rather than for temperature.
 - ii. A “warming event” is the maximum allowable extent of exceedances above the standard, in units of degree-days (°C-days). This concept integrates both the magnitude of temperature (°C) above the standard as well as the duration (in days) and represents the cumulative temperatures above which growth or lethal impacts to fisheries are expected. For all Cold Stream tiers the allowable degree-days are 2.4 (acute) and 13.5 (chronic). For all Warm Stream tiers the allowable degree-days are 3.8 (acute) and 35.5 (chronic).
- (6) Deleted
- (7) *E. coli* criteria and resulting standards for individual water segments are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are

expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.

- (8) Deleted
- (9) The dissolved oxygen standard applies to lakes and reservoirs as follows.
 - a. Recreation: In the upper portion of a lake or reservoir, dissolved oxygen shall not be less than the criteria in Table I or the applicable site-specific standard. In the lower portion of a lake or reservoir, dissolved oxygen may be less than the applicable standard except where a site-specific standard has been adopted. A site-specific dissolved oxygen standard will be established for the lower portion of a lake or reservoir where there is evidence that primary contact occurs within the lower portion.
 - b. Agriculture: In the upper portion of a lake or reservoir, dissolved oxygen shall not be less than the criteria in Table I or the applicable site-specific standard. In the lower portion of a lake or reservoir, dissolved oxygen may be less than the applicable standard except where a site-specific standard has been adopted. A site-specific dissolved oxygen standard will be established for the lower portion of a lake or reservoir where there is evidence that livestock watering or irrigation water is pumped from the lower portion.
 - c. Aquatic Life: In the upper portion of a lake or reservoir, dissolved oxygen shall not be less than the criteria in Table I or the applicable site-specific standard. In the lower portion of a lake or reservoir, dissolved oxygen may be less than the applicable standard as long as there is adequate refuge. Adequate refuge means that there is concurrent attainment of the applicable Table I temperature and dissolved oxygen criteria. A site-specific dissolved oxygen standard will be established for the lower portion of a lake or reservoir where the expected aquatic community has habitat requirements within the lower portion.
 - i. Fall turnover exclusion: Dissolved oxygen may drop 1 mg/L below the criteria in Table I in the upper portion of a lake or reservoir for up to seven consecutive days during fall turnover provided that profile measurements are taken at a consistent location within the lake or reservoir 7-days before, and 7-days after the profile with low dissolved oxygen. The profile measurements taken before and after the profile with low dissolved oxygen must attain the criteria in Table I in the upper portion of the lake or reservoir. The fall turnover exclusion does not apply to lakes or reservoirs with fish species that spawn in the fall unless there are data to show that adequate dissolved oxygen is maintained in all spawning areas, for the entire duration of fall turnover.
 - d. Water Supply: The dissolved oxygen criteria is intended to apply to the epilimnion and metalimnion strata of lakes and reservoirs. Dissolved oxygen in the hypolimnion may, due to the natural conditions, be less than the table criteria. No reductions in dissolved oxygen levels due to controllable sources is allowed.

TABLE II - INORGANIC PARAMETERS

TABLE II INORGANIC PARAMETERS								
Parameter	Aquatic Life						Agriculture	Domestic Water Supply
	CLASS 1 COLD WATER BIOTA		CLASS 1 WARM WATER BIOTA		CLASS 2			
Ammonia (mg/L as N) Total	chronic = elsp or elsa ⁽¹⁾ acute = sp ^{(1)(N)}		chronic = Apr 1-Aug 31 = elsp ⁽¹⁾ Sept 1-Mar 29 = elsa ⁽¹⁾ acute = sa ^{(1)(N)}		Class 2 Cold/Warm have the same standards as Class 1 Cold/Warm ^(N)			
Total residual Chlorine (mg/L)	0.019 ^(L) (acute)	0.011 ^(L) (chronic)	0.019 ^(L) (acute)	0.011 ^(L) (chronic)	0.019 ^(L) (acute)	0.011 ^(L) (chronic)		
Cyanide - Free (mg/L)	0.005 ^(H) (acute)		0.005 ^(H) (acute)		0.005 ^(H) (acute)		0.2 ^(G) (acute)	0.2 ^(B,D,M) (acute)

Nitrate (mg/L as N)							100 ^{(2)(B)} (acute)	10 ^{(4)(K)} (acute)
Nitrite (mg/L as N)	TO BE ESTABLISHED ON A CASE BY CASE BASIS ⁽³⁾				A CASE BY CASE BASIS ⁽³⁾		10 ^{(2)(B)} (acute)	1.0 ^{(2)(4)(K)} (acute)
Sulfide as H ₂ S (mg/L)	0.002 undissociated ^(A) (chronic)		0.002 undissociated ^(A) (chronic)		0.002 undissociated ^(A) (chronic)			0.05 ^(F) (chronic)
Boron (mg/L)							0.75 ^(A,B) (chronic)	
Chloride (mg/L)								250 ^(F) (chronic)
Sulfate, dissolved ⁽⁷⁾ (mg/L)								250 ^(F) (chronic)
Asbestos ⁽⁶⁾ fibers/L								7,000,000 ⁽⁵⁾ (chronic)
Note: Capital letters in parentheses refer to references listed in 31.16(3); numbers in parentheses refer to Table II footnotes.								

Table II – Footnotes

(1) Chronic:

For fish early life stage present (elsp)*:

$$chronic\ elsp = \left(\frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$$

For fish early life stage absent (elsa)*:

$$chronic\ elsa = \left(\frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$$

*T = Temperature

Acute:

For salmonids present (sp):

$$acute\ sp = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$$

For salmonids absent (sa):

$$acute\ sa = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$$

(2) In order to provide a reasonable margin of safety to allow for unusual situations such as extremely high water ingestion or nitrite formation in slurries, the NO3-N plus NO2-N content in drinking waters for livestock and poultry should be limited to 100ppm or less, and the NO2-N content alone be limited to 10ppm or less.

(3) Salmonids and other sensitive fish species* present:

$$Acute = 0.10 (0.59 * [Cl^-] + 3.90) \text{ mg/L NO}_2\text{-N}$$

$$Chronic = 0.10 (0.29 * [Cl^-] + 0.53) \text{ mg/L NO}_2\text{-N}$$

[Cl⁻] = Chloride ion concentration; upper limit for Cl⁻ = 40 mg/L

Salmonids and other sensitive fish species* absent:

$$Acute = 0.20 (2.00 * [Cl^-] + 0.73) \text{ mg/L NO}_2\text{-N}$$

$$Chronic = 0.10 (2.00 * [Cl^-] + 0.73) \text{ mg/L NO}_2\text{-N}$$

[Cl⁻] = Chloride ion concentration; upper limit for Cl⁻ = 22 mg/L

*Sensitive fish species include salmonids, channel catfish, logperch and brook stickleback. Either total or dissolved chloride data may be used in these equations.

- (4) The combined total of nitrate plus nitrite will not exceed 10 mg/L.
 - a. The nitrate limit shall be calculated to meet the relevant standard in accordance with the provisions of Section 31.10 of this regulation, unless the permittee provides documentation that a reasonable level of inquiry demonstrates that there is no actual domestic water supply use of the waters in question or of hydrologically connected groundwater. The combined total of nitrate plus nitrite at the point of intake to the domestic water supply will not exceed 10 mg/L as demonstrated through modeling or other scientifically supportable analysis. (This Footnote 4a is repealed effective 12/31/2022).
- (5) Asbestos standard applies to fibers 10 micrometers or longer.
- (6) Consistent with 31.7(1)(b) and 31.7(2), these table values will be applied on a site-specific basis.
- (7) The dissolved sulfate standard may be assessed and implemented from either unfiltered or filtered samples.

TABLE III - METAL PARAMETERS

TABLE III METAL PARAMETERS (concentration in µg/L)						
Metal ⁽¹⁾	Aquatic Life ^{(1)(3)(4)(J)}		Agriculture ⁽²⁾	Domestic Water Supply ⁽²⁾	Water + Fish ⁽⁷⁾	Fish Ingestion ⁽¹⁰⁾
	ACUTE	CHRONIC	CHRONIC		CHRONIC	CHRONIC
Aluminum	$e^{(1.3695 \ln(\text{hardness}) + 1.8308)}$ (total recoverable)	87 or $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ (total recoverable) ⁽¹¹⁾			---	---

Note: Capital letters in parentheses refer to references listed in section 31.16(3); numbers in parentheses refer to Table III footnotes.						

Table III – Footnotes

- (1) Metals for aquatic life use are stated as dissolved unless otherwise specified.

Where the hardness-based equations in Table III are applied as table value water quality standards for individual water segments, those equations define the applicable numerical standards. As an aid to persons using this regulation, Table IV provides illustrative examples of approximate metals values associated with a range of hardness levels. This table is provided for informational purposes only.
- (2) Metals for agricultural and domestic uses are stated as total recoverable unless otherwise specified.
- (3) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L. The exception is for aluminum, where the upper cap on calculations is a hardness of 220 mg/L. For permit effluent limit calculations, the hardness values used in calculating the appropriate metal standard should be based on the lower 95 percent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not possible, a site-specific method should be used, e.g., where hardness data exists without paired flow data, the mean of the hardness during the low flow season established in the permit shall be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist. For determination of standards attainment, where paired metal/hardness data is available, attainment will be determined for individual sampling events. Where paired data is not available, the mean hardness will be used.
- (4) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (5) Unless the stable forms of chromium in a water body have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- (6) FRV means Final Residue Value and should be expressed as “total recoverable” mercury. The term “total recoverable” refers to the mineral acid digestion of an unfiltered sample to account for all forms of mercury present in water. Mercury data analyzed and reported as “total” or “total recoverable” mercury by using EPA approved total mercury analysis methods listed in 40 CFR 136.3 are considered equivalent.

Many forms of mercury are readily converted to toxic forms under natural conditions. The FRV of 0.01 µg/liter is the maximum allowed concentration of total mercury in the water. This value is estimated to prevent bioaccumulation of methylmercury in edible fish or shellfish tissue above the fish tissue standard for methylmercury of 0.3 mg/kg.

In waters supporting populations of fish or shellfish with a potential for human consumption, the Commission can adopt the FRV as the stream standard to be applied as a 30-day average. Alternatively, the Commission can adopt site-specific ambient-based standards for mercury in accordance with section 31.7(1)(b)(ii) and (iii). Site-

specific water-column standards shall be calculated from the site-specific bioaccumulation factor, using measured water column concentrations of total mercury and measured fish tissue concentrations of methylmercury. Fish tissue data shall be collected from species of the highest trophic level present in the waterbody. Fish tissue samples should include older, larger individuals present in the waterbody. A bioaccumulation factor should be calculated separately for each species sampled, and the highest bioaccumulation factor should be used to calculate the site-specific water column standard in order to prevent the average fish tissue concentrations from exceeding 0.3 mg/kg for all species.

- (7) Applicable to all Class 1 aquatic life segments which also have a water supply classification or Class 2 aquatic life segments which also have a water supply classification designated by the Commission after rulemaking hearing. These Class 2 segments will generally be those where fish of a catchable size and which are normally consumed are present, and where there is evidence that fishing takes place on a recurring basis. The Commission may also consider additional evidence that may be relevant to a determination whether the conditions applicable to a particular segment are similar enough to the assumptions underlying the Water + Fish ingestion criteria to warrant the adoption of Water + Fish ingestion standards for the segment in question.
- (8) The use of 0.1 micron pore size filtration for determining dissolved iron is allowed as an option in assessing compliance with the drinking water standard.
- (9) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.
- (10) Applicable to the following segments which do not have a water supply classification: all Class 1 aquatic life segments or Class 2 aquatic life segments designated by the Commission after rulemaking hearing. These class 2 segments will generally be those where fish of a catchable size and which are normally consumed are present, and where there is evidence that fishing takes place on a recurring basis. The Commission may also consider additional evidence that may be relevant to a determination whether the conditions applicable to a particular segment are similar enough to the assumptions underlying the fish ingestion criteria to warrant the adoption of fish ingestion standards for the segment in question.
- (11) Where the pH is equal to or greater than 7.0 in the receiving water after mixing, the chronic hardness-dependent equation will apply. Where pH is less than 7.0 in the receiving water after mixing, either the 87 µg/L chronic total recoverable aluminum criterion or the criterion resulting from the chronic hardness-dependent equation will apply, whichever is more stringent.
- (12) This standard is only appropriate where irrigation water is applied to soils with pH values lower than 6.0.
- (13) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the

Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

- (14) The chronic zinc equation for sculpin applies in areas where mottled sculpin are expected to occur and hardness is less than 102 ppm CaCO₃. The regular chronic zinc equation applies in areas where mottled sculpin are expected to occur, but the hardness is greater than 102 ppm CaCO₃.
- (15) In determining whether adoption of a molybdenum standard is appropriate for a segment, the Commission will consider whether livestock or irrigated forage is present or expected to be present. The table value assumes that copper and molybdenum concentrations in forage are 7 mg/kg and 0.5 mg/kg respectively, forage intake is 6.8 kg/day, copper concentration in water is 0.008 mg/L, water intake is 54.6 L/day, copper supplementation is 48 mg/day, and that a Cu:Mo ratio of 4:1 is appropriate with a 0.075 mg/L molybdenum margin of safety. Numeric standards different than the table-value may be adopted on a site-specific basis where appropriate justification is presented to the Commission. In evaluating site-specific standards, the relevant factors that should be considered include the presence of livestock or irrigated forage, and the total intake of copper, molybdenum, and sulfur from all sources (i.e., food, water, and dietary supplements). In general, site-specific standards should be based on achieving a safe copper:molybdenum total exposure ratio, with due consideration given to the sulfur exposure. A higher Cu:Mo ratio may be necessary where livestock exposure to sulfur is also high. Species specific information shall be considered where cattle are not the most sensitive species.
- (16) When applying the table value standards for uranium to individual segments, the Commission shall consider the need to maintain radioactive materials at the lowest practical level as required by Section 31.11(2) of the Basic Standards regulation.
- (17) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (18) Consistent with 31.7(1)(b) and 31.7(2), these table values will be applied on a site-specific basis.
- (19) The chronic silver equation for trout applies in areas where trout are expected to occur. The regular chronic silver equation applies in areas where trout are not expected to occur.

TABLE IV – AQUATIC LIFE TABLE VALUE STANDARDS FOR SELECTED HARDNESS CONCENTRATIONS

TABLE IV AQUATIC LIFE TABLE VALUE STANDARDS FOR SELECTED HARDNESS CONCENTRATIONS (µg/L)											
Mean Hardness in mg/L Calcium Carbonate

Shading indicates the aquatic life standards exceed drinking water supply standards.											

APPENDIX A. Calculation of a Biologically-Based Low Flow

The biologically-based flow calculation method is an iterative convergence procedure consisting of five parts. In Part I, Z (the allowed number of excursions) is calculated. In Part II, the set of X-day running averages is calculated from the daily flows for the period of record being considered. Because the ambient (instream) concentration of a pollutant can be considered to be inversely proportional to stream flow, the appropriate “running averages” of stream flow are actually “running harmonic means.” (The harmonic mean of a set of numbers is the reciprocal of the arithmetic mean of the reciprocals of the numbers.) Thus, “X-day running averages” should be calculated as, not as, where F is the flow for an individual day. Throughout this Appendix A, the term “running average” will mean “running harmonic mean.”

Part III describes the calculation of N (the total number of excursions of a specified flow for the period of record being considered). The calculations described in Part III will be performed for a number of different flows that are specified in Parts IV and V. In Part IV, initial lower and upper limits on the flow are calculated, the number of excursions at each limit are calculated using Part III, and an initial trial flow is calculated by interpolation between the lower and upper limits. In Part V, successive iterations are performed to calculate the flow as the highest flow that results in no more than the number of allowed excursions calculated in Part I.

Part I. Calculation of allowed number of excursions.

- I-1. Calculate $Z = D/[(Y)(365.25 \text{ days/year})]$

where D = the number of days in the flow record;

Y = the average number of years specified in

the frequency; and

Z = the allowed number of excursions based on a 1-in-3-year recurrence interval.

Part II. Calculation of X-day running averages, i.e., X-day running harmonic means.

- II-1. Where X = the specified duration (in days) of the averaging period, calculate the set of X-day running averages for the entire period of record being considered, i.e., calculate an X-day average starting with day 1, day 2, day 3, etc. Each average will have X-1 days in common with the next average, and the number of X-day averages calculated from the period of record being considered will be $(D+1-X)$.

Part III. Determination of the number of excursions of a specified flow in a set of running averages, i.e., running harmonic means.

- III-1. Select a specified trial low flow by method outlined in Part IV or an equivalent method.
- III-2. In the set of X-day running averages for the period of record being considered, record the date for which the first average is below the specified trial low flow and record the number of consecutive days that are part of at least one or more of the X-day averages that are below the specified flow. (Note that whether a day is counted as an excursion day does not depend exclusively on whether the X-day average for that day is below the specified trial low flow. Instead, it depends entirely on whether that day is part of any X-day average that is below the specified trial low flow. Table A-1 provides examples of the counting of excursion days. For ease in discussion, it is based on a 4-day flow period, rather than a 30-day flow period. When calculating a low flow pursuant to Section 31.9(1), a 30-day period should be used.)

Thus the starting date and the duration (in days) of the first excursion period will be recorded. By definition, the minimum duration is X days.

- III-3. Determine the starting dates of, and number of days in, each succeeding excursion period in the period of record being considered.
- III-4. Identify all of the excursion periods that begin within 120 days after the beginning of the first excursion period. (Although the first excursion period is often the only one in the 120-day period, two or three sometimes occur within the 120 days. Rarely do any excursion periods occur during days 121 to 240.) All of these excursion periods are considered to be in the first low flow period. Add up the total number of excursion days in the first low flow period and divide the sum by X to obtain the number of excursions in the first low flow period. If the number of excursions is calculated to be greater than 5.0, set it equal to 5.0.
- III-5. Identify the first excursion period that begins after the end of the first low flow period, and start the beginning of the second 120-day low flow period on the first day of this excursion period. Determine the number of excursion days and excursions in the second low flow period.
- III-6. Determine the starting dates of, and the number of excursions in, each succeeding 120-day low flow period.
- III-7. Sum the number of excursions in all the low-flow periods to determine S = the total number of excursions of the specified trial low flow.

Part IV. Calculation of initial limits of the low flow and initial trial flow.

- IV-1. Use $L = 0$ as the initial lower limit.
- IV-2. Use $U =$ the XQY low flow as the initial upper limit.
- IV-3. Use $N_L = 0$ as the number of excursions (see Part III) of the initial lower limit.
- IV-4. Calculate $N_U =$ the number of excursions (see Part III) of the initial upper limit.

$$T = L + \frac{(Z - N_L)(U - L)}{(N_U - N_L)}$$

- IV-5. Calculate $T =$ the initial trial flow as
- IV-6. Calculation of initial limits of the low flow and initial trial flow may be accomplished using equivalent methods.

Part V. Iterative convergence to the low flow.

- V-1. Calculate $N_T =$ the number of excursions for the trial low flow.

$$\text{If } -0.005 < (N_T - Z) / Z < +0.005$$

$$\text{If } N_T > Z, \text{ set } U = T \text{ and } N_U = N_T.$$
- V-2. $\text{If } N_T < Z, \text{ set } L = T \text{ and } N_L = N_T.$, use T as the low flow and stop.
- V-3. $\text{If } ((U - L) / U) < 0.005, \text{ use } L \text{ as the low flow and stop.}$

$$T = L + (Z - N_L)(U - L)$$

Otherwise, calculate a new trial flow as $\frac{(N_U - N_L)}{(N_U - N_L)}$ and repeat steps V-1, V-2, and V-3 as necessary.

APPENDIX A TABLE A-1 - COUNTING EXCURSION DAYS FOR A SPECIFIED FLOW OF 100 FT³/SEC USING 4-DAY AVERAGES.

TABLE A-1. COUNTING EXCURSION DAYS FOR A SPECIFIED FLOW OF 100 FT ³ /SEC USING 4-DAY AVERAGES.									
Date	Daily flow	4-day avg. flow	Is the 4-day average below 100?	Is this date part of any 4-day average that is below 100?	Date of start of excursion period	Number of days in excursion period	Date of start of low flow period	Number of excursion days in low flow period	Number or excursions in low flow period
1	130	112.5	No	No					
2	120	102.5	No	No					
3	110	97.5	Yes	Yes	3	4	3	12	3
4	90	102.5	No	Yes					
5	90	117.5	No	Yes					
6	100	112.5	No	Yes					
7	130	102.5	No	No					
8	150	102.5	No	No					
9	70	87.5	Yes	Yes	9	8			
10	60	90.0	Yes	Yes					
11	130	102.5	No	Yes					
12	90	95.0	Yes	Yes					
13	80	97.5	Yes	Yes					
14	110	127.5	No	Yes					
15	100	225.0	No	Yes					
16	100	>100	No	Yes					
17	200	>100	No	No					
18	500	>100	No	No					
The daily flows and four-day average flows for days 19 to 200 are all above 100 ft ³ /sec.									

31.17 NUTRIENTS

(a) Overview

This section establishes interim numeric values for phosphorus, nitrogen and chlorophyll *a* and also sets forth provisions regarding the use of these numeric values for the adoption of water quality standards.

(b) Interim Phosphorus Values

Table 1 Interim Total Phosphorus Values	
Lakes and Reservoirs, cold > 25 acres	25 µg/L ¹
Lakes and Reservoirs, warm > 25 acres	83 µg/L ¹
Lakes and Reservoirs < = 25 acres	RESERVED
Rivers and Streams - cold	110 µg/L ²
Rivers and Streams - warm	170 µg/L ²
¹ summer (July 1 - September 30) average total phosphorus (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1-in-5 years.	
² annual median total phosphorus (µg/L), allowable exceedance frequency 1-in-5 years.	

(c) Interim Nitrogen Values (Effective December 31, 2027)

Table 2 Interim Total Nitrogen Values	
Lakes and Reservoirs, cold > 25 acres	426 µg/L ¹
Lakes and Reservoirs, warm > 25 acres	910 µg/L ¹
Lakes and Reservoirs < = 25 acres	RESERVED
Rivers and Streams - cold	1,250 µg/L ²
Rivers and Streams - warm	2,010 µg/L ²
¹ summer (July 1 – September 30) average total nitrogen (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1-in-5 years.	
² annual median total nitrogen (µg/L), allowable exceedance frequency 1-in-5 years.	

(d) Interim Chlorophyll *a* Values

Table 3 Interim Chlorophyll <i>a</i> Values		
Waterbody type		DUWS
Lakes and Reservoirs, cold > 25 acres	8 µg/L ¹	5 µg/L ³
Lakes and Reservoirs, warm > 25 acres	20 µg/L ¹	5 µg/L ³
Lakes and Reservoirs < = 25 acres	RESERVED	5 µg/L ³
Rivers and Streams - cold	150 mg/m ²	
Rivers and Streams - warm	150 mg/m ²	
¹ summer (July 1 - September 30) average chlorophyll <i>a</i> (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1-in-5 years.		
² summer (July 1 - September 30) maximum attached algae, not to exceed.		
³ March 1 - November 30 average chlorophyll <i>a</i> (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1-in-5 years.		

(e) Use of Interim Phosphorus Values for Standards Adoption

Prior to December 31, 2027 the values set forth in subsection (b) above will be considered for the adoption of water quality standards for specific water bodies in Colorado in the following circumstances.

(i) Waters located upstream of

- (A) all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012,
- (B) cooling tower discharges, and
- (C) any non-domestic facility subject to Regulation #85 effluent limits and discharging prior to May 31, 2012.

(ii) Circumstances where the Commission has determined that adoption of numerical standards is necessary to address existing or potential nutrient pollution because the provisions of Regulation #85 will not result in adequate control of such pollution.

(f) Chlorophyll *a* Values for Standards Adoption

Prior to December 31, 2022, the values set forth in subsection (d) above will be considered for the adoption of water quality standards for specific water bodies in Colorado in the following circumstances.

(i) Waters located upstream of

- (A) all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012, or with preliminary effluent limits requested prior to May 31, 2012,
- (B) cooling tower discharges, and
- (C) any non-domestic facility subject to Regulation #85 effluent limits and discharging prior to May 31, 2012.

(ii) Discretionary Application of the Values for Direct Use Water Supply (DUWS) Lakes and Reservoirs. The Commission may determine that a numerical chlorophyll standard is appropriate for specific water bodies with this sub-classification after consideration of the following factors:

- (A) Whether the public water system using the lake or reservoir as a raw water supply experiences impacts attributed to algae on an intermittent or continual basis;
- (B) Whether there are lake or reservoir use restrictions in place that recognize the importance of the reservoir as a water supply;
- (C) Whether application of this value appropriately balances protection of all classified uses of the lake or reservoir;
- (D) Other site specific considerations which affect the need for a more protective value.

- (iii) Circumstances where the Commission has determined that adoption of numerical standards is necessary to address existing or potential nutrient pollution because the provisions of Regulation #85 will not result in adequate control of such pollution.

(g) Use of Interim Nitrogen Values for Standards Adoption

After December 31, 2027, the values set forth in subsection (c) above will be considered for the adoption of water quality standards for specific water bodies in Colorado in the circumstances identified in subsection (e)(i) and (ii) above.

(h) Phase 2 Application of Numeric Standards

After December 31, 2022, the values set forth in subsection (d) will be considered by the Commission when applying numeric standards to individual segments. After December 31, 2022, the values set forth in subsections (b) and (c) for lakes and reservoirs will be considered by the Commission when applying numeric standards to Direct Use Water Supply (DUWS) reservoirs and lakes or lakes and reservoirs with public swim beaches that meet the definition of natural swimming areas in C.R.S. § 25-5-801. After December 31, 2027, the values set forth in subsection (b) and (c) will be considered by the Commission when applying numeric standards to individual segments where total phosphorus and total nitrogen standards have not yet been adopted.

For each individual segment where numeric standards for total phosphorus, total nitrogen, and chlorophyll *a* have not yet been adopted, numeric standards will be adopted by the Commission where necessary to:

- (i) protect the assigned use classifications, and
- (ii) comply with the Colorado Water Quality Control Act and the Federal Act.

(i) Site-Specific Flexibility to Consider Alternatives to the Interim Values

In accordance with the preceding subsection, both before and after December 31, 2027, in considering adoption of numeric standards for specific water bodies in Colorado, the Commission may review relevant site-specific factors and conditions in determining what numeric standards are most appropriate, and may adopt standards, either more or less stringent than the 31.17(b)(c) and (d) interim values.

- (i) Where evidence demonstrates that an alternative numeric standard would be more appropriate for the protection of use classifications, the Commission may consider assigning ambient quality-based standards or site-specific criteria based standards as outlined in 31.7(1)(b)(ii-iii).
- (ii) Where it has been demonstrated that interim values are not feasible to achieve, the Commission may consider modifying the use classification as outlined in Section 31.6(2).
- (iii) Where the conditions established in Section 31.7(3)(a) are met, the Commission may consider granting a temporary modification.

31.58 STATEMENT OF BASIS SPECIFIC STATUTORY AUTHORITY AND PURPOSE; APRIL 13, 2020 RULEMAKING; FINAL ACTION MAY 11, 2020; EFFECTIVE DATE JUNE 30, 2020

31.59 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; JUNE 14-15, 2021 RULEMAKING; FINAL ACTION AUGUST 9, 2021; EFFECTIVE DATE DECEMBER 31, 2021

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

BASIS AND PURPOSE

I. EPA DISAPPROVALS AND ACTION LETTERS

A. Use Protected Designation for Effluent Dependent/Dominated Waters

On December 8, 2011, EPA disapproved the Use Protected default for effluent-dependent or effluent-dominated waters provision at 31.8(2)(b)(i)(C) because Use Protected designations are to be based on water quality, not a default assumption regarding the impact of effluent on water quality. In the 2016 Regulation No. 31 rulemaking hearing, the commission adopted a sunset date of 12/31/2019 for this provision to resolve the disapproval. In this hearing, the commission deleted the repealed antidegradation provision at 31.8(2)(b)(i)(C).

B. Temperature Excursions

To adequately protect aquatic life in Colorado, the commission, following guidance from the Temperature Technical Advisory Committee (TAC) deleted the air temperature, low-flow, and shoulder season excursions in Regulation No. 31 at Table I Footnote 5(c). In the 2016 Regulation No. 31 rulemaking hearing, the commission adopted a warming event provision. However, there was no technical basis for the joint adoption and application of both the warming event and excursions concepts.

On August 17, 2016, EPA wrote a letter to the commission citing concerns that the materials developed by the division to support its proposal did not align with the decision made by the commission. In addition, EPA requested additional information supporting joint application of the excursions and warming event allowance, as EPA did “not currently have a basis for approval.” In its October 2, 2017 action letter regarding its review of the commission’s 2016 changes to Regulation No. 31, EPA took no action on these standards changes. While EPA did not issue a formal disapproval, EPA’s rationale for no action was that “a technical analysis has not been submitted which supports the revisions.” Subsequent analysis by the division and TAC found that application of both the warming event and excursions is not biologically protective and recommended deleting the air temperature, low-flow, and shoulder season excursions and retaining only the warming event allowance.

During the 2016 Regulation No. 31 rulemaking hearing, some stakeholders voiced concern that deletion of the excursions would result in an unacceptable increase in 303(d) temperature impairment listings. Analysis of over 500 temperature sites across the state indicate that the warming event and excursions are approximately equal in resulting in an assessment decision of impairment or attainment for a waterbody; therefore, deletion of the excursions is not likely to result in an increase in temperature 303(d) listings, given the similar practical outcomes of these provisions. Regarding impacts to permitting, the air temperature, low-flow, and shoulder season

excursions in Table I Footnote 5(c) have never been incorporated into permit effluent limits, and deletion of these excursions will not affect permit effluent limit calculations.

C. Point of Application Footnote for Nitrate Water Supply Standards

On December 8, 2011, EPA disapproved the point of application footnote for nitrate in Table II Footnote 4 that allowed the nitrate standard to not be implemented in discharge permits if no actual Water Supply use was identified and only applied the nitrate standard to the point of intake. The provision was disapproved because the standards are intended to protect classified uses, regardless of whether they are set to protect actual or future uses. During the 2016 Regulation No. 31 rulemaking hearing, a sunset date of 12/31/2022 was adopted for this provision to resolve the disapproval. The commission did not take any action regarding this provision in the current rulemaking hearing. However, Table II Footnote 4 at 31.16 was revised to clarify that the commission intended to retain the condition that the sum of nitrate and nitrite will not exceed the standard of 10 mg/L. The commission restructured the footnote to separate this condition from the portion of the footnote that expires on 12/31/2022.

II. REVISIONS OF CRITERIA IN LIGHT OF NEW INFORMATION

A. Aquatic Life standards for Acrolein and Carbaryl

The commission adopted revised acute and chronic Aquatic Life water quality standards of 3 µg/L for acrolein, based on the EPA 304(a) criteria updated in 2009. The commission also adopted new acute and chronic Aquatic Life water quality standards of 2.1 µg/L for carbaryl, based on the EPA 304(a) criteria published in 2012.

B. Other Standards to Protect Aquatic Life and Recreation Uses

The commission declined to adopt EPA's revised 304(a) Aquatic Life criteria for selenium, ammonia, and aluminum at this time; however, the division is committed to evaluating these new criteria. Studies are currently underway for each parameter to improve understanding of these criteria in the context of water quality conditions in Colorado and how these criteria may be adopted and implemented in Colorado in the future.

EPA has also released updated criteria or guidance for several other parameters, including copper (Aquatic Life), *E. coli* (Recreation), cyanotoxins (Recreation), and the human health risk exposure assumptions. However, the division does not recommend adopting EPA's recommendations for these parameters at this time, as these items are not included on the division's 10-Year Water Quality Roadmap.

III. ANTIDEGRADATION STATUTE ALIGNMENT

As part of the June 2020 Regulation No. 38 rulemaking hearing (final action August 10, 2020), the commission raised questions about a potential misalignment of the Use Protected regulatory provisions in Regulation 31.8(2)(b)(ii) that considered the reversibility of existing pollution, with the statutory language in the Water Quality Control Act that limits the water quality test for the Use Protected designation to existing quality.

SUNSET 31.8(2)(b)(ii) Effective December 31, 2031

Having considered the evidence and statements submitted in this rulemaking, the commission believes that it is appropriate to move forward toward revision or deletion of the discretionary water quality-based antidegradation test at 31.8(2)(b)(ii). While the late stages of this rulemaking helped to advance the discussion regarding options for Use Protected designations based on the presence of substantial pollution for parameters other than those listed in section 31.8(2)(b)(i)(B), it was not possible within the

constraints of this rulemaking to subject these issues and options to the robust public process that they deserve. This included the division's compromise option presented as part of its consolidated proposal - Option B, which proposed to add clear and relevant factors for the commission to holistically consider the overall characteristics of a waterbody when determining antidegradation designations in the limited circumstances where the 12 parameters test may not be sufficient. Since the issues are complex and there remains much controversy at the time of the rulemaking hearing, the commission adopted the division's alternative compromise proposal – Option A and repealed the antidegradation provision at 31.8(2)(b)(ii) with a delayed effective date of December 31, 2031. It is the intention of the commission to retain the current provision until that date but maintain its focus on Use Protected designations based on the 12 parameters test.

This action preserves division resources already fully allocated to criteria development and implementation efforts as identified in the 10-Year Water Quality Roadmap (Roadmap) through 2027 and allows adequate time for the division to conduct a separate, comprehensive stakeholder process on antidegradation following completion of the Roadmap and prior to the expiration of 31.8(2)(b)(ii). The commission intends that the division will engage in this comprehensive stakeholder process to consider options to delete the test at 31.8(2)(b)(ii) or revise that test with criteria that holistically evaluate the overall characteristics of a waterbody in a manner consistent with state and federal requirements. The commission also intends to revisit the provisions at 31.8(2)(b)(ii) through a rulemaking action no later than 2031. Revisiting this provision in the future would have the added benefit of providing an opportunity to also consider other aspects of Colorado's antidegradation rule, such as a lack of explicit "Tier 1" antidegradation review for existing uses as noted by EPA. If this stakeholder process is delayed due to unforeseen circumstances, it is the commission's intent that a limited extension of the sunset date will be adopted to allow time for the stakeholder process and rulemaking hearing prior to deletion of 31.8(2)(b)(ii). The commission also deleted the word "or" to align with the federal antidegradation rule at 40 CFR 131.12(a)(2) and the Colorado Water Quality Control Act at 25-8-209(4).

Prior to 2021 the commission has only considered the presence of substantial pollution for parameters other than those listed in Section 31.8(2)(b)(i)(B) in the context of antidegradation designations in rare circumstances throughout the history of the antidegradation program in Colorado. The commission selected the 12 parameters listed in 31.8(2)(b)(i)(B) because they are effective indicators of water quality for antidegradation designation purposes. Accordingly, as the commission's past practice has reflected, the water quality-based tests set out in 31.8(2)(b)(i) will ordinarily suffice to determine whether waters' existing quality warrants a Reviewable or a Use Protected designation.

If proposals based on 31.8(2)(b)(ii) are advanced prior to 2031, the commission will thoroughly and holistically consider the physical, chemical, and biological characteristics of a waterbody, social and economic impacts throughout the segment and on downstream waters and users, environmental justice and health equity principles, and ensure that the public has adequate notice and time to engage and comment on proposals.

It is also important to note that under the tests at 31.8(2)(b)(i), the commission may determine that those waters with exceptional recreational or ecological significance should be undesignated, and deserving of the protection afforded by the antidegradation review provisions of section 31.8(3).

Future Considerations

At this time, the commission believes that it would be appropriate for it to revisit the option of a discretionary test for use in the limited circumstances where the 12 parameters test may not be sufficient, so long as that test (1) includes clear factors established in the regulation for making Use Protected antidegradation determinations that are consistent with state and federal law and (2) is based on a finding of substantial pollution for parameters outside those included in the 12 parameters test. Without presuming to limit the options available to future decision makers and based on its experience in this rulemaking, the commission recommends that the following issues should be addressed in a future

stakeholder and rulemaking process to revisit section 31.8(2)(b)(ii) . The issues include, but are not limited to, thorough and holistic consideration of all of the following:

- A. the physical, chemical, and biological characteristics of a waterbody, including consideration of how many pollutants and/or what magnitude of pollution should be considered substantial pollution, impacting both aquatic life and recreation uses;
- B. the social and economic impacts throughout the segment and on downstream waters and users;
- C. environmental justice and health equity principles;
- D. ensuring that mechanisms are in place to ensure that the public has adequate notice and time to engage and comment on proposals;
- E. that waters with exceptional recreational or ecological significance should not be designated as Use Protected; and
- F. whether and how to provide exclusions from the Use Protected designation based on short-term degradation, such as existing quality resulting from temporary events influencing the waterbody that are not representative of normal conditions (e.g., pollution from temporary land disturbance, illegal discharges, spills of toxic chemicals, and impacts from fires, floods, or other catastrophic events).

The commission further recommends that the future stakeholder and rulemaking process should address the broader aspects of the antidegradation program noted above (e.g., explicit Tier 1 antidegradation review).

IV. DISCHARGER-SPECIFIC VARIANCES

The commission revised the discharger-specific variance (DSV) provisions at 31.7(4) to improve the clarity and organization of requirements, reflect the commission's current practices, and align with the 2015 federal rule (40 CFR 131.14). The commission's criteria for DSVs have been utilized successfully to develop DSVs that have been approved by EPA and are resulting in water quality improvements. Overall, the commission determined that the requirements at 31.7(4) continue to be appropriate. The changes made during this hearing are not expected to substantively change the requirements for variances, but rather are intended to improve transparency and facilitate commission action and EPA approval.

Previously, the requirements for DSVs were included in three locations in the regulations, at 31.7(4) *Granting, Extending and Removing Variances to Numeric Standards*, at 31.9(5) *Conditions on Discharger-Specific Variances*, and in some of the basin regulations, which include reevaluation requirements for existing DSVs (e.g., 32.6(6)(a) and (b)). The commission centralized the DSV requirements in a single location at 31.7(4) to ensure that requirements are not overlooked.

A. Variances to Narrative Standards

The commission deleted the term "numeric" from 31.7(4) *Granting, Extending and Removing Variances to Numeric Standards* and 31.7(4)(a) to better align with the federal rule, which does not preclude the possibility of variances to narrative criteria. As with all variances, a DSV for a narrative standard would need to meet all Colorado and federal requirements and be supported by a comprehensive alternatives analysis demonstrating that there are no feasible pollution control alternatives that would allow for the regulated activity to proceed without a discharge that exceeds water quality-based effluent limits (WQBELs) for a given parameter(s) and an evaluation that there are no other regulatory options to achieve compliance. Therefore, a DSV must include identification of the pollutant(s) or water quality parameter(s) to be able to perform an alternatives analysis and a detailed demonstration of why it is not feasible to meet the narrative standard. The identification of the pollutant is a critical and crucial step of the DSV process whether the standard is narrative or numeric, because the treatment and control technologies can vary significantly based on the pollutant requiring removal. For example, feasible treatment technologies for removing organic carbon and ammonia may not be effective at removing zinc, cadmium, or sulfate.

There are several narrative standards in Regulation No. 31 with implementation tools that help determine numeric effluent limitations or quantifiable conditions in NPDES permits. For example, one of the narrative water quality standards listed in 31.11(1) specifies that waters should be free from substances that cause toxicity to humans, animals, plants, and aquatic life. The implementation tool used for aquatic life toxicity determinations is Whole Effluent Toxicity (WET) testing. WET tests directly measure the toxic effects on aquatic life due to the presence of one or more pollutants in the wastewater. Because WET testing is a control mechanism that measures, and limits, the combined toxic effect that the pollutants in the effluent have on aquatic life, it does not require the identification of each one of the pollutants in the effluent. The commission recognizes that each situation is unique, but in cases such as the one for toxicity described here, to qualify for a DSV, the discharger will need to identify the pollutant(s) or water quality parameter(s) that is/are causing non-compliance with the standard and/or failures with the implementation tool. The identification of the pollutant will serve two purposes during a DSV process: first, to determine if there are any pollution control alternatives that can feasibly achieve compliance with the narrative standard (in other words, whether or not the discharger qualifies for a variance); and second, to develop the alternatives analysis of feasible pollution control technologies that will provide incremental water quality improvements.

To align with the federal rule and ensure that a variance results in measurable progress towards attaining the underlying designated use, the commission will also adopt a quantifiable expression of the highest attainable condition for narrative standards. A quantifiable expression of the highest attainable condition can be expressed as numeric pollutant concentrations in ambient water, numeric effluent conditions, or other quantitative expressions of pollutant reduction. The preamble to the federal rule at 40 CFR 131.14 describes the quantifiable expression by providing the example of the maximum number of combined sewer overflows that is achievable after implementation of a long-term control plan. The commission believes such a quantifiable expression helps ensure measurable water quality improvements during the term of the variance, which is a key purpose of a variance.

Although this change acknowledges the possibility of DSVs adopted for narrative standards, the commission encourages potential proponents of DSVs for narrative standards to closely coordinate with the division before proposing such variances. At this time, the commission does not have a full understanding of all the circumstances under which DSVs for narrative standards may be warranted. Similarly, no guidance yet exists for developing and implementing alternative effluent limits (AEL) for narrative standards that protect the highest attainable condition.

B. Review Requirements

In 31.7(4), the commission changed the requirement to reevaluate DSVs “every three years” to “during each basin triennial review for the segment, unless the Commission requires a more frequent review when adopting the variance” to be consistent with current commission practice. Because the DSV reevaluation occurs across multiple hearings (Issues Scoping Hearing, Issues Formulation Hearing, and Rulemaking Hearing), the term “triennial review” better captures the process and timing of DSV reviews. This revision also provides flexibility to conduct more frequent reviews if it is required by the variance.

C. When a DSV is the Right Regulatory Tool

In 31.7(4)(a)(ii), the commission changed the requirement to obtain a DSV from being a preferable matter of policy when the conditions for granting a temporary modification are not met, to requiring evaluation of whether other regulatory tools are appropriate to obtain feasible WQBELs within the required timeframe. This change reflects the commission’s practice of granting a DSV only in instances where there has been an evaluation of other regulatory tools, such as compliance schedules or a Use Attainability Analysis (UAA), to determine whether these tools may result in WQBELs that are feasible for the discharger to achieve within the required timeframe.

The required timeframe to evaluate the potential use of other regulatory tools is based on site-specific conditions; however, a reasonable timeframe for such determinations usually does not exceed a few years. For example, if a discharger is expecting more stringent WQBELs in a future permit, or has a compliance schedule and is considering a variance because it will not be able to achieve its WQBELs at the end of the compliance schedule, the discharger should use this time to evaluate other regulatory tools. A UAA can be evaluated if there is a potential to change the classified uses or standards on the segment; while uses and standards are required to be reviewed at least once every three years, and future changes are possible, DSVs are definitely temporary. In the past, UAAs to support removal of the Water Supply use where there are no current or future water supplies have been effective for several dischargers. This type of analysis can generally be completed within months. It is important to evaluate the potential use of other regulatory tools first, as it is the commission's intent that DSVs are to be used only in cases where the compliance problem cannot be solved using other regulatory tools.

D. Alternative Effluent Limits

In 31.7(4)(b), the commission adopted revisions to both the definition and selection of AELs to improve clarity and align with the federal rule. The commission clarified that the AEL selection process should be based on (1) implementation of the best feasible alternative(s) to achieve WQBELs over the longer term, (2) achieving the highest attainable condition throughout the term of the variance, and (3) protecting the existing water quality conditions at the time of the adoption of the variance unless necessary for restoration activities.

The commission renamed the two options for AELs to reflect what each option represents. The AEL must be either (i) an effluent-based (numeric) limit expressed as an effluent concentration, load, pollutant percent removal, or other quantifiable expression of effluent quality and quantity, or (ii) an action-based (narrative) limit with a quantifiable expression of the specific pollution control requirements to be completed by the discharger and the adoption and implementation of a Pollutant Minimization Program (PMP).

In addition, the commission revised its practice of only adopting AELs to be met by the end of the variance. Previously, the commission adopted only a final AEL, which established the required water quality improvement to be achieved once the selected alternatives had been fully implemented. To ensure that the DSV did not result in any lowering of the currently attained ambient water quality, the commission previously relied upon implementation requirements that directed the permit writer to develop "initial effluent limits" based upon the level of effluent quality currently achieved that applied from the beginning of the variance until the AEL was achieved. The permit writer would also develop "interim effluent limits" if the water quality improvements were planned in phases.

In order to align with federal requirements, the commission will instead adopt AELs that apply throughout the term of the variance. This will include an initial AEL that applies from the beginning of the variance and a final AEL based upon the expected water quality improvement to be achieved once the selected alternatives have been fully implemented. The purpose of the initial AEL is to ensure that the DSV does not result in any lowering of the currently attained ambient water quality. The purpose of the final AEL is to set requirements that represent the highest attainable condition that is feasible to achieve within the term of the variance. The commission may also adopt interim AELs to set requirements for variances with multiple planned phases of water quality improvement.

The commission strongly prefers adoption of effluent-based initial and final AELs, expressed as effluent concentrations, loads, or pollutant removal percentages. However, in cases where the commission determines that an action-based final AEL is appropriate, the commission may still adopt an effluent-based initial effluent limit. Action-based initial AELs with a quantifiable expression and a PMP will be considered only in extraordinary circumstances when it is not

feasible for the discharger to comply with an effluent-based initial AEL. For instance, City of Pueblo's selenium DSV is a good example of a case where the permittee did not have sufficient control over pollutant concentrations at the onset of the variance and there was a high degree of variability and unpredictability that limited numerical characterization of the pollutant reductions achievable in effluent concentrations. This DSV, adopted by the commission in the 2018 Regulation No. 32 rulemaking hearing, included an action-based AEL (formerly known as a narrative AEL) that quantified the requirements of the DSV as a specific set of source control and optimization measures with a specific timeline (implemented as a PMP).

E. Pollutant Minimization Program

To be consistent with the federal rule, the commission revised the language to allow the adoption of an effluent-based (numeric) AEL or an action-based (narrative) AEL with a quantifiable expression and a PMP to ensure all feasible water quality improvements are implemented throughout the term of the variance. The commission described the effluent-based AELs as limits that can be expressed as an effluent concentration, load, pollutant percent removal, or other quantifiable expression of effluent quality and quantity. The commission described the action-based AELs as a quantifiable expression of the specific pollution control requirements to be completed by the discharger and the adoption and implementation of a PMP. The commission specified that the action-based AEL is only justified when there is no additional feasible control technology that can achieve a predictable, quantitative improvement in effluent quality, and therefore, will also require adoption and implementation of a PMP to specify the actions that need to be taken to achieve maximum pollutant reduction with existing control technologies. For the effluent-based AEL (numeric), the commission stated that it may also adopt a PMP at its discretion. These requirements are consistent with the nine DSVs adopted by the commission to date.

A PMP is a comprehensive source control measure described in 40 CFR 131.14 that will prevent and reduce the pollutant loadings to the receiving waterbody. A PMP is particularly essential for variances where the requirements are adopted as actions to be completed by the discharger, rather than effluent quality. Based upon experience with the DSVs previously adopted by the commission, a PMP provides a clear set of expectations and timeline for implementation, which makes it straightforward for both the discharger and the commission to determine compliance with the requirements. Without a PMP, there is a risk of the discharger and the commission having different expectations about the DSV requirements and whether compliance has been achieved. A PMP may be a short document, and the development of a PMP should not be an onerous requirement. Previously, it has been an extremely useful document to the discharger (particularly to the plant operator) after the variance has been adopted.

F. Organization

The *Conditions on Discharger-Specific Variances* section was moved from 31.9(5) to 31.7(4)(c) to facilitate consolidation of DSV requirements in a single location. Section 31.9(5) was deleted. Section 31.7(4)(c)(i) was revised to avoid redundancy with Section 31.7(4)(b)(i). The commission also included language to state that the discharger should be in compliance with the initial AEL when the variance is implemented in the permit and that the permit writer determines the compliance schedule(s) of the interim (if any) and final AELs. The commission also clarified the language to allow the permit writer to set interim milestones to achieve the final AEL, if appropriate.

The commission moved Section 31.7(4)(b)(iii) to 31.7(4)(c)(iv) because it governs the division's permitting implementation rather than a requirement for the selection of AELs. The previous regulatory language in this provision also gave direction to the permit writer regarding DSV implementation; however, the language was confusing. Therefore, the commission clarified the language in 31.7(4)(c)(iv) to state that the effluent limits for the point source discharge in the variance should be based on either WQBELs based on the underlying standard for the receiving

waterbody or the AEL, whichever is less stringent. This is applicable in situations where a discharger's WQBELs increase, for example, due to an increase in dilution in their discharging segment.

G.

Other Changes

In 31.7(4)(b), the commission revised the language that described the variance as a standard "which represents the highest degree of protection of the classified use that is feasible within 20 years" to instead state that variances shall include AELs "that reflect the greatest pollutant reduction achievable throughout the term of the variance". While it is important to consider the potential for attaining standards on a long time horizon (i.e., approximately 20 years), in practice, there is often a great deal of uncertainty regarding the timeframe over which it may be feasible for the permittee to achieve WQBELs based upon the underlying standard. Adopting a variance with a shorter timeframe and a more certain AEL would allow for water quality improvement in the short-term, while retaining the ability to reconsider long-term feasibility during the reevaluation of the variance or at the end of the term of the variance.

Section 31.9(2) was clarified to note that compliance schedules are authorized when appropriate and necessary to meet interim and final AELs for variances.

The commission made several revisions to 31.7(4)(d). First, the commission changed the requirements for the duration of a DSV and included language to account for the planning, implementation, and monitoring of the activities planned to achieve better water quality. Previously, 31.7(4)(c) stated that the duration of the DSV will be determined on a case-by-case basis, based upon all relevant factors, including the potential for achieving more protective effluent levels. This was not entirely consistent with the federal rule, which states "The term of the WQS variance must only be as long as necessary to achieve the highest attainable condition." For each of the DSVs that the commission has adopted to date, the duration was based upon the time needed to achieve the highest attainable condition. The commission revised this section to align with the federal rule and reflect current commission practice.

Second, the same requirements included in the basin regulations (such as 32.6(6)(a) and (b)) regarding the reevaluation of DSVs were added to 31.7(4)(d). These requirements were not included in Regulation No. 31 previously. The requirements include conducting a reevaluation of the variance during the triennial basin review when the term of the variance is longer than five years, and more frequently if needed, and submitting the results of its reevaluation to EPA within 30 days of the date the commission completes its reevaluation, as is required by federal rule.

Third, to better align with the federal rule, the commission added that it would incorporate a more stringent AEL if, as part of the reevaluation process, it determines that a more stringent AEL or higher attainable condition than originally required by the variance is achievable. The commission added that if the commission determines a less stringent AEL is necessary, a revised variance must be submitted to EPA.

Lastly, the commission changed the language from "extending" to adopting "a subsequent variance" in order to better align with the federal rule, and clarified the requirements for adopting a subsequent variance.

V. LAKE TEMPERATURE AND DISSOLVED OXYGEN FOOTNOTE

The commission adopted Footnote 5(c)(i) to Table I, which states:

Lakes and reservoirs: When a lake or reservoir is stratified, the mixed layer may exceed the applicable temperature criteria in Table I provided that an adequate refuge exists in water below the mixed layer. Adequate refuge means that there is concurrent attainment of the applicable Table I temperature and dissolved oxygen criteria. If the refuge is not adequate because of

dissolved oxygen levels, the lake or reservoir may be included on the 303(d) List as “impaired” for dissolved oxygen, rather than for temperature.

This footnote previously existed in Regulation No. 31, but was deleted in the 2016 Regulation No. 31 rulemaking hearing. In 2016, the commission declined to adopt the division’s statewide temperature proposal for lakes to adjust the Table Value Standards (TVS) for temperature based on elevation. The proposal would have resulted in an increase in the allowable temperature for many lakes. A component of the proposal was also to delete Footnote 5(c)(iii) to Table I, which allowed for surface temperatures to exceed standards as long as concurrent attainment of dissolved oxygen (DO) and temperature existed in a profile of the reservoir. The commission did not adopt this proposal; however, Footnote 5(c)(iii) was still deleted, in error. The footnote deletion should not have been adopted because deletion of the footnote was directly coupled to the elevation-based temperature standards proposal.

The division provided evidence in this hearing showing that lake surface temperatures are widely subject to exceedances and correlated with elevation, and that Table I Footnote 5(c)(iii) should be reinstated. The reinstatement of Footnote 5(c)(iii), modified for clarity, will allow for lakes to have surface or mixed layer temperature exceedances (a naturally occurring condition) and assessments to consider 303(d) and M&E listings for DO where DO and temperature are not concurrently attained.

VI. LONGEVITY PLANS FOR SITE-SPECIFIC STANDARDS

The commission considered but did not adopt a proposal to revise section 31.7(1)(b)(ii) and (iii) and 31.7(1)(c) to incorporate a longevity plan requirement for all ambient quality-based, criteria-based, and narrative site-specific standards. The commission determined that, at this time, a regulatory change is not needed for longevity plans to continue to be adopted with site-specific standards.

The purpose of longevity plans is to ensure that site-specific standards can be reviewed during subsequent triennial reviews, as required by federal and state rule (Federal Clean Water Act Section 303(c)(1) and Colorado Water Quality Control Act Section 25-8-202(f)). Consistent with past practice, the commission will continue to thoughtfully consider the expected longevity of each site-specific standard and identify the types, extent, and timing of information needed to facilitate future reviews of the standards. The commission will continue to adopt longevity plans as needed to guarantee the collection and analysis of information that will be necessary to ensure that a site-specific standard is maintained over time, continues to be scientifically sound, protects the beneficial uses, and can be updated or revised as needed.

The commission intends that longevity plans will continue to be developed in collaboration with the division and other interested parties. In addition, the commission intends that longevity plans will be implemented by the parties proposing site-specific standards; in some situations, longevity plans may be implemented by multiple parties. Longevity plans should include plans for collection of evidence necessary to support review of the site-specific standards in subsequent rulemaking hearings, taking into account the expected longevity of the site-specific standards, the conditions on which the site-specific standards were based, the time horizon in which those conditions are expected to change, and the resources required to collect, analyze, and report on data and other information. The purpose of collecting such information is to ensure the commission can determine whether the basis and assumptions used to support the initial adoption of the site-specific standards are still valid or if there has been a significant change in conditions. Depending on the type of site-specific standard (ambient-based, criteria-based, or narrative), this may include collection of instream and effluent water quality data (and, as appropriate, the flow and loading of effluent) to characterize existing quality; aquatic life community information; updates to toxicity databases; analysis of data; investigation of treatment technologies, treatment alternatives, and/or other controls to determine if further improvements to water quality are feasible; land use or habitat evaluations; or collection of other relevant site-specific information.

For example, longevity plans for site-specific standards based on the copper Biotic Ligand Model have included continued collection of the water quality data required to run the model; longevity plans for site-specific standards based on the recalculation procedure have included investigations of new toxicity data,

reporting on changes to instream chemical, physical, or biological conditions, and additional biological and water quality data collection; longevity plans for site-specific standards based on natural or irreversible ambient conditions have included ongoing biological and water quality data collection.

When the division has identified an existing site-specific standard as a priority for review in an upcoming rulemaking hearing, the division will conduct outreach with potentially impacted entities as early as possible to identify data and other information needs and collaborate on data and information collection as needed. The division shall notify potentially impacted entities in consideration of a timeline that allows them adequate notice of the division's intent for review and allow participation in the routine approach to stakeholder participation in basin reviews.

The commission expects that longevity plans will result in the collection of evidence that is of the right type, quality, and quantity to be useful for future evaluations of the site-specific standard, recognizing that the type(s) of data collection is dependent on conditions unique to the site, and that a longer time horizon (beyond a single triennial review period) for the frequency of data collection may be warranted for certain sites. For some situations, it may be appropriate to require certain activities only if certain types of changes occur; for example, water quality data collection may only be necessary if changes to land use or flow are observed. Because every site-specific standards situation is unique, so too will be the components, review elements, and review timing of every longevity plan. In addition, the commission anticipates that individual longevity plans may be revised in future reviews to account for site-specific circumstances.

In addition, the commission encourages the division to begin evaluating the basis of all existing site-specific standards. Where the basis or validity of an existing site-specific standard cannot be confirmed with available data or other information, the commission encourages the original proponents of existing site-specific standards (including the division), and/or other dischargers whose permit compliance relies on the site-specific standards, to begin working with the division, EPA, CPW, and other interested parties to develop a plan to collect the necessary information and provide an update to the commission at the soonest possible triennial review for the waterbody at issue. Because most existing site-specific standards do not have a longevity plan, and in many cases, sampling is not occurring, the commission anticipates it will take time for representative data and/or information required for a comprehensive review of each site-specific standard to become available, and that progress will be incremental during routine basin review cycles. The division will compile and store information about all site-specific standards in a publicly available site-specific standards library; this library will house information about the basis and review history for each site-specific standard and will be used to prioritize site-specific standards for future review.

VII. TEMPORARY MODIFICATIONS

The commission adopted changes to the temporary modification provisions at 31.7(3) and 31.9 to reflect current commission practice and better ensure that temporary modifications are adopted only when necessary and eliminated in a timely manner. Changes were also adopted to ensure that facilities receiving regulatory relief through a temporary modification take measures to, at a minimum, maintain status quo and manage effluent quality at the best level reasonably achievable under the term of the temporary modification. These changes are described in more detail in the following sections.

Section 31.7(3) was also reorganized slightly for clarification and a definition for the term "status quo" was added to 31.5(40). The commission considers division Policy 13 *Permit Implementation Method for Narrative (Current Condition) Temporary Modifications* to be consistent with this regulatory definition.

A. Changes to 31.7(3)(a): Non-attainment Requirements and Appropriate Use of Predicted Non-compliance

The commission made several substantive and editorial revisions to 31.7(3)(a). The commission clarified that temporary modifications may be granted for numeric water quality standards. Additionally, the commission clarified at 31.7(3)(a) that non-attainment of the underlying water

quality standard in the waterbody is an explicit requirement for justifying a temporary modification. This requirement for a temporary modification is set forth at 31.7(3), namely that “Where non-attainment of underlying standards has been demonstrated or predicted the Commission may grant a temporary modification...”. However, this requirement was not previously raised again explicitly at 31.7(3)(a). Furthermore, the commission added clarification that the appropriate scope of temporary modification application to a waterbody is only where demonstrated or predicted waterbody non-attainment and compliance problems co-occur (i.e., the temporal and spatial application should be appropriately narrow). For example, if a compliance problem or non-attainment is only observed in the summer, it may not be appropriate to grant a year-round temporary modification. These changes recognize current practice and are not meant to change that policy, only to clarify and expressly approve its use. The commission recognizes that evaluations of co-occurrence of non-attainment and non-compliance can vary depending on the situation and intends to consider site-specific information in determining the appropriate spatial and temporal extent of a temporary modification.

Additionally, the commission added language at 31.7(3)(a)(ii) to clarify how predicted compliance problems are justified. It was specified that temporary modifications are only justified in situations where, in addition to significant uncertainty and non-attainment, there is either a demonstrated or predicted problem complying with a water quality-based effluent limit (WQBEL) on a timescale such that, absent a temporary modification, the discharger would face unreasonable consequences. For purposes of temporary modifications, unreasonable consequences are defined as situations where it can be demonstrated that the timing of the anticipated permit limit (considering any potential compliance schedules or other permitting flexibility) would not provide sufficient time to resolve the uncertainty prior to requiring significant investment in design or construction of facility infrastructure. As such, the commission further defined predicted non-compliance as a problem complying with a WQBEL with which the discharge must comply within the next five years (i.e., within five years of the effective date of the temporary modification). Another example situation that would qualify for a temporary modification is where a discharge has a predicted problem complying with a WQBEL in more than five years, and evidence shows significant investment in facility infrastructure would be required before the uncertainty is resolved. For the purposes of temporary modifications, significant investment can be equated to any measures beyond low cost options for maintaining the best effluent quality reasonably achievable, such as example activities provided at 31.9(4).

These changes provide clarity regarding the appropriate use of prediction in determining whether compliance problems exist in the context of temporary modifications. The commission expects that, when time allows, progress to resolve the uncertainty (e.g., derivation of an appropriate site-specific standard or DSV) will occur in coordination with the division and other stakeholders outside of a temporary modification. This will allow for optimal use of resources and help to ensure that the scope of a temporary modification is appropriately narrow and the term is appropriately short.

B. Changes to 31.7(3)(b), 31.7(3)(c), and 31.7(3)(e): Status Quo Characterization and Plan to Resolve Uncertainty Requirements

The commission revised 31.7(3)(b) and 31.7(3)(c) to clarify what supporting information is required for temporary modification adoption and extension, respectively. To support an extension of a temporary modification, the commission added a requirement to provide justification as to why the time allotted under the previous temporary modification term was not sufficient to resolve the uncertainty. This information will help the commission judge whether the reasoning behind the need for extension is justified and avoid granting temporary modification extensions where the need for extension results from lack of sufficient effort to eliminate the need for the temporary modification.

The commission also added an explicit provision to 31.7(3)(b) and (c) requiring a characterization of the status quo of the waterbody and effluent, or, absent sufficient data, a plan to collect data to characterize the status quo as soon as possible. This characterization will ensure that the

commission can use these data points to compare to future characterizations of ambient and effluent conditions when a temporary modification is reviewed or when it is proposed to be modified or extended, to verify that status quo has been maintained. As such, the commission also adopted revisions to 31.7(3)(e) that explicitly list consideration of the maintenance of the status quo when making a decision as to whether a temporary modification should be removed or extended. Additionally, a statement was added to the review criteria to clarify that an extension of the temporary modification shall not be granted in cases where the basic reporting requirements (i.e., providing annual updates and supporting documentation to the division) have not been met over the prior term of the temporary modification. All of these actions are aligned with the current intent of the regulatory language and reflect current commission practice. The commission recognizes that, during the temporary modification, permitted dischargers' effluent quality may be marginally changed and variability in effluent quality may occur; however, the commission also expects that dischargers take measures to ensure that effluent quality is maintained at the best level reasonably achievable, in a manner consistent with the provisions of 31.9(4), under the term of the temporary modification, as discussed below. There may also be situations where the waterbody quality status quo has not been maintained due to causes outside of the discharger's control (e.g., hydrological modifications of the waterbody upstream of the discharge point). Under these circumstances, justification that the waterbody degradation was not due to the effluent in question should also be provided and considered, as specified in 31.7(3)(c) and 31.7(3)(e).

The commission also made changes to 31.7(3)(b) to clarify the expectations for the required plan to resolve uncertainty that accompanies each temporary modification. The commission clarified that, for each type of uncertainty identified, the plan should include an adequately detailed, site-specific approach, including sampling plans where appropriate, to resolve the uncertainty. Plans should also include timelines for key deliverables and annual reporting of progress to the division. Furthermore, the commission added a requirement for plans to include activities to ensure that, at a minimum, status quo is maintained and effluent quality is maintained at the best level reasonably achievable. This is not only aligned with existing provisions at 31.9(4), but also with previous commission intent documented in the Statement of Basis and Purpose at 31.44 and existing commission practice to adopt plans that include low-cost activities that would result in water quality improvements under the term of the temporary modification. Such activities may include optimization-like activities such as pretreatment, source identification, and evaluations of source control and treatment options. Nonpoint source implementation of strategies for improving waterbody quality can also be considered, as appropriate. These activities also serve to help eliminate the uncertainty regarding the extent to which conditions are natural or irreversible. Except where justified otherwise, it is the commission's intent that efforts to resolve each type of uncertainty occur in parallel, rather than in sequence, such that the need for the temporary modification is eliminated as expeditiously as possible.

C. Changes to 31.7(3)(d): Removal of Term “Existing Uses” and Alignment of Numeric and Narrative Operative Values

The commission removed the requirement for temporary modification operative values to “protect existing uses” at 31.7(3)(d). This requirement is not consistent with the intent of temporary modifications, which focuses on maintaining status quo. Thus, the requirement to “protect existing uses” was replaced with a requirement that the temporary modification operative values, at a minimum, ensure that status quo is maintained. The commission also aligned the language at 31.7(3)(d)(i) and (ii) to clarify that characterization of status quo is the requirement for both numeric and narrative operative values.

D. Changes to 31.7(3)(e): Clarification of Considerations for Setting the Term of and Extending the Temporary Modifications

The commission added clarifying language at 31.7(3)(e) to better specify appropriate considerations when setting the term of temporary modifications. In circumstances where there is uncertainty pertaining to the justification for the temporary modification and further data are being

gathered to support the justification (e.g., where there is some uncertainty whether waterbody non-attainment exists), a shorter term for the temporary modification may be warranted. The commission also clarified that the term granted shall be the shortest possible to sufficiently resolve the uncertainty. The reasoning for the length of term selected should be clearly justified in the plan to resolve uncertainty for the temporary modification. Additionally, the commission clarified that, when evaluating extension of a temporary modification, the situation must still qualify for a temporary modification under 31.7(3)(a) and substantial progress towards resolving the uncertainty must have been made under the previous term of the temporary modification. The commission will evaluate the adherence to planned activities scheduled in the plan to resolve uncertainty, as well as the justification (newly required at 31.7(3)(c)) as to why the time allotted under the previous temporary modification duration term was not sufficient to resolve the uncertainty.

E. Changes to 31.7(3)(f): Modification of Scope and Schedule for Rulemaking

The commission revised 31.7(3)(f) to expand the scope of temporary modifications included in the temporary modifications public rulemaking hearings from those expiring within the subsequent two years to all temporary modifications, so that the commission is able to better ensure that timely progress is being made on all temporary modifications, regardless of the expiration date. The commission also modified the minimum routine schedule for temporary modifications public rulemaking hearings from annually to biennially. The commission expects that proponents of temporary modifications will supply annual updates for all temporary modifications to the division, which the division will review to ensure that temporary modifications are still justified and timely progress is being made to resolve uncertainty. However, formal temporary modifications public rulemaking hearings will only occur routinely on a biennial basis. The need for a public rulemaking hearing in off years will be assessed after updates are received and hearings can be scheduled as needed.

F. Changes to 31.9(4): Clarification, Alignment with Division Practice, and Inclusion of Examples of Division Authority to include Low Cost Optimization in Permits for Temporary Modifications

Section 31.9(4) was reorganized slightly for clarification. The commission also added a new section (31.9(4)(ii)) that clarifies how numeric and narrative operative values for temporary modifications should be implemented in permits. Where a permit is issued for an existing discharge to a waterbody where a temporary modification applies, whether numeric or narrative, permit effluent limits applicable under the term of the temporary modification should be developed to ensure that, at a minimum, status quo is maintained.

Additionally, the commission removed the statement at 31.9(4) that specified that “The Division, where necessary and within a reasonable period of the expiration of a temporary modification, shall reopen any permit for a discharge to that segment and include a permit condition to attain limits based on the underlying standard”. This was removed because it does not reflect current permitting practices.

The commission also added language at 31.9(4)(iii) to reemphasize that inclusion of low cost optimization in permits, which includes activities such as pretreatment, source identification, and evaluation of source control and treatment options, is authorized and may be an effective permitting tool for ensuring that effluent quality is maintained at the best level reasonably achievable without requiring significant investment in facility infrastructure under the term of the temporary modification, as well as resolving uncertainty regarding the extent to which ambient conditions resulting from the effluent in question are reversible.

Finally, the commission revised the language in 31.9(4) that pertains to implementation of temporary modifications for expanding and new discharges. The commission added clarification that, when considering expanding discharges to a waterbody where a temporary modification

applies, permits should not only protect downstream uses, but unless specifically decided otherwise by the commission, should, at a minimum, ensure that status quo is maintained. The commission revised the expectations for permits for new discharges to waterbodies where temporary modifications apply from establishing limits that protect downstream uses to establishing limits based on the underlying standard, unless the commission has established a specific limit or value for new dischargers for a particular temporary modification or set of modifications. An example of such a case is the operative value assigned to new discharges by the commission for arsenic temporary modifications, which also considers arsenic control and treatment limits. This revision for new discharges aligns with the commission's intent at 31.53(IV), which states that "Specifically, the Commission added references to "existing discharges" to clarify that effluent limits based upon temporary modifications only apply to existing discharges, and that effluent limits for new and expanded discharges must generally be set to the underlying standard." The commission considers division Policy 13 *Permit Implementation Method for Narrative (Current Condition) Temporary Modifications* to be consistent with this regulatory revision.

VIII. CLEANUP, CORRECTIONS, AND CLARIFICATIONS

A. Nitrite Aquatic Life Standards

The commission added additional instructions for using the chloride-based nitrite standards for aquatic life in Table II Footnote 3 at 31.16 to clarify that sensitive fish species include salmonids, channel catfish, logperch and brook stickleback. The "sensitive species" are defined in the 1986 Nitrogen Cycle Committee of the Basic Standards Review Task Force document. This footnote was also edited to clarify that either total or dissolved chloride data may be used in these equations. About half of the available chloride data in Colorado is reported as "total" and the remainder is reported as dissolved. Whether or not a sample was filtered should not impact the concentration of chloride, because chloride is completely soluble at concentrations well above 40 mg/L. As more nitrite data become available and nitrite standards are assessed and implemented more frequently, it is expected that there may be more interest in adopting the equation-based standards from Regulation No. 31 in the basin tables on a site-specific basis. The proposed clarifying edits are intended to make this option as straightforward as possible.

B. Reformat Hardness-based Equations

The following changes were made to the hardness-based table value standard equations in Table III at 31.16 to improve compatibility with Excel:

- Acute and chronic aluminum, chromium III, copper, lead, manganese, nickel, silver, uranium, and zinc: the first bracket was replaced with the symbol * and the second bracket was deleted from the equation.
- Chronic aluminum: a missing parenthesis was added to the end of the equation.
- Acute and chronic lead: brackets and an extra parenthesis were deleted from the conversion factor in the equation.
- Acute silver: $\frac{1}{2}$ was replaced with 0.5* in the equation.

These changes were also made in Regulation Nos. 32-38.

C. Duration of Radionuclide Standards in Table A

The commission revised the footnote to the Radionuclide Standards table (Table A) in 31.11(2) to state that all of the radionuclide standards listed should be applied as chronic 30-day average health-based standards. Colorado's radionuclide standards (with the exception of americium 241) were adopted in 1979 using the 1976 National Interim Primary Drinking Water Regulations, which included maximum contaminant levels for radionuclides that are based on annual dose exposures

and maintaining a body burden below harmful levels. In 1996, revised plutonium and new americium standards were adopted with the footnote specifying that they are 30-day averages. However, because all of the radionuclide standards in Table A are based on long-term risk exposure assumptions, the footnote was modified to specify that all should be implemented as chronic 30-day average standards.

D. Duration of Nitrate and Asbestos in Table II

31.16 Table II: (acute) was added to the agriculture nitrate standard and (chronic) was added to the asbestos standard to clarify the durations of the standards.

E. Duration of Standards in Tables II and III

31.16 Table III: The word “chronic” was added to the column headers for the Agriculture, Water + Fish, and Fish Ingestion standards, and the phrase ‘30-day’ was removed from cells in those columns to clarify the durations of the standards.

31.16 Tables II and III: In columns that include both acute and chronic standards, the duration is noted in the cell with each standard. To clarify the duration of the standards, the phrase “1-day” was replaced with “acute” and the phrase “30-day” was replaced with “chronic”.

F. Standards Not Routinely Applied

Footnote 6 was added to Table II and Footnote 18 was added to Table III at 31.16 to clarify that fluoride, asbestos, antimony, barium, beryllium, and thallium standards should be applied on a site-specific basis in accordance with 31.7(1)(b) and 31.7(2). Since their initial adoption, these standards have not been adopted broadly into the basin regulations (Regulation Nos. 32-38), and the footnote was included to encourage adoption of protective criteria, where appropriate.

G. Sulfate

The sulfate standard at 31.11(6)(ii) and in Table II at 31.16 was edited to clarify that the standard applies to dissolved sulfate concentrations. This change was also made in Regulation Nos. 32-38. As an ion, sulfate is found in water only in the dissolved state; therefore, either unfiltered or filtered samples may be used to determine sulfate concentrations. In addition to clarifying that sulfate is a dissolved parameter, Footnote 7 was added to Table II to clarify that sulfate can be assessed and implemented using data from unfiltered or filtered samples.

H. Mercury Clarification

The commission revised the term “total” in Table III and the associated Footnote 6 to the term “total recoverable” mercury to align with the basin regulations and clarify the confusion caused by the use of two different terms that refer to the same fraction of mercury. The term currently used to describe the mercury standard in Table III is “total” to denote that the standard is based on all forms of mercury, not just methylmercury. It is also meant to denote that the standard is based on the “total” (unfiltered) fraction, rather than dissolved (filtered) fraction of mercury. However, in the basin regulations (Nos. 32-38), the term “total recoverable” is used to refer to the same fraction and all forms of mercury.

The term “total recoverable” comes from the analytical protocols used to analyze heavy metals, including mercury, and requires a pre-digestion step. This pre-digestion step does not provide quantification of any additional fraction of mercury in the sample. It simply serves as a sample preparation step for high turbidity samples to facilitate determination of mercury (all forms) present in the sample. Although both “total” and “total recoverable” terms are used in the

literature to define results from analytical methods that include a pre-digestion step of unfiltered samples, “total recoverable” is technically the more correct term.

The commission also revised Table III Footnote 6 to clarify that mercury data analyzed and reported as “total” or “total recoverable” using EPA approved total mercury analysis methods listed in 40 CFR 136.3 are considered equivalent.

I. Chromium Footnote

The commission revised Table III Footnote 5 to improve the clarity of the footnote, which directs the implementation of the trivalent (III) and hexavalent (VI) chromium standards when data for the individual valence states are unavailable. Chromium data are infrequently reported for chromium III and chromium VI individually. Instead, data are typically reported as the total of all valence states of chromium present in the sample. This is primarily due to the difficulty of accurately measuring chromium III concentrations and the instability of chromium when the sample is acidified for analysis of the total recoverable fraction. While chromium III and chromium VI are the valence states most often found in natural waters, chromium is unstable and can convert between forms in water and in the bodies of humans and aquatic life. However, chromium VI is more water soluble and a known carcinogen. Depending on the classified use, the chromium VI standards are the same as or more stringent than the chromium III standards (Table III). Therefore, when data for individual chromium species are unavailable, the use of the chromium VI standards to assess data reported as total chromium (i.e., the total of all valence states of chromium) will ensure protection of human health and aquatic life. In addition, Footnote 5 was modified to clarify that neither the sum of the concentrations of chromium III and chromium VI (when reported individually) nor the total chromium concentration (i.e., the total of all valence states of chromium) should exceed the Water Supply standards of 50 µg/L for chromium III and chromium VI in water bodies with a Water Supply use classification. This change was also made in Regulation Nos. 32-38.

J. Definition of Existing Quality for Temperature

The commission revised the definition of existing quality for temperature at 31.5(20) to distinguish between the calculations used to determine standards attainment and the calculations used in permits implementation. Standards attainment in the context of 303(d) assessment allows for a short duration of temperature exceedance as defined by the biological warming event in units of degree-days and was developed in the 2017 303(d) listing methodology. The warming event and degree-days concept was added to Table I Footnote 5(c)(ii). Permits implementation requires ambient upstream temperatures in seasonal or monthly maxima to calculate effluent limits and for reasonable potential analysis.

The method for calculating permits implementation was developed in the 2016 Regulation No. 31 rulemaking hearing at 31.53(A) to incorporate an allowable exceedance frequency for monthly determination of effluent limits. This method is being added to the definitions section of Regulation No. 31 and clarified by adding “seasonal or monthly maxima” to make clear that permits has the flexibility to implement seasonal or monthly based effluent limits. The commission expects the division to continue to engage with stakeholders regarding permits implementation of temperature and explore whether the warming event assessment method may be considered in the permitting context through workgroups and other appropriate means.

K. Table Numbering

'Table A' was added to the title of Radionuclide Standards at 31.11. 'Table B' was added to the title of Basic Standards for Organic Chemicals at 31.11.

L. Housekeeping

The following edits were made to improve clarity and correct typographical errors:

- The word “frequent” was removed from the definition of primary contact recreation at 31.5(33) to better reflect the commission’s past practice. This change also aligns with *E. coli*’s exposure risk assumptions and EPA’s definition of primary contact recreation in the federal Recreational Water Quality Criteria.
- Letter references to 31.16(3) in Table I and Table II were changed to superscript to improve clarity and consistency.
- In order to reflect a previous change to the Stream Classifications and Water Quality Standards Tables, the reference to the 'Temporary Modifications and Qualifiers' column at 31.7(3) was replaced with language that specifies the presence of a temporary modification will be indicated in the appropriate water quality standards basin regulation.
- All variations of *E. coli* were edited to display a consistent format throughout the regulation. This change was also made in Regulation Nos. 32-38.
- References to “tot.rec.” in Table III were replaced with “total recoverable”. References to “dis” were replaced with “dissolved”.
- Footnote 1 to Table II was modified to clarify that the “T” in the chronic ammonia equations stands for temperature. This change was also made in Regulation Nos. 32-38.
- The fluoride Water Supply standard in Table II included a reference to Footnote 3, which is the nitrite footnote. This reference was deleted to correct a previous error.
- Footnote 19 was added to Table III to provide clarity regarding the application of the chronic(trout) equation for silver.
- Tables and footnotes were formatted for consistency and clarity.
- Other minor edits were made to improve clarity and consistency.

5 CCR 1002-32 REGULATION NO. 32 - CLASSIFICATIONS AND NUMERIC
STANDARDS FOR ARKANSAS RIVER BASIN 1 - eff 12/31/2021

Effective date

12/31/2021

DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

Water Quality Control Commission

REGULATION NO. 32 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR ARKANSAS RIVER BASIN

5 CCR 1002-32

32.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

32.2 PURPOSE

These regulations establish classifications and numeric standards for the Arkansas River, including all tributaries and standing bodies of water as indicated in section 32.6. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

32.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (See Appendix 32-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 32-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "Basic Standards and Methodologies for Surface Water".

32.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

32.5 BASIC STANDARDS

(1) Temperature

All waters of the Arkansas River Basin are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard). Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all aquatic life class 1 streams which also have a water supply classification, and are applied to aquatic life class 2 streams which also have a water supply classification, on a case-by-case basis as shown in Appendix 32-1. The column in the tables at 31.11 and 31.16 Table III headed "Fish Ingestion" is presumptively applied to all aquatic life class 1 streams which do not have a water supply classification, and are applied to aquatic life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 32-1.

(3) Uranium

- (a) All waters of the Arkansas River Basin are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium levels in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
 - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

Prior to December 31, 2022 for chlorophyll a and prior to December 31, 2027 for total phosphorus, interim nutrient values will be considered for adoption only in the limited circumstances defined at 31.17(e) and (f). These circumstances include headwaters, Direct Use Water Supply (DUWS) Lakes and Reservoirs, and other special circumstances determined by the Commission. Additionally, prior to December 31, 2027, only total phosphorus and chlorophyll a will be considered for adoption. After December 31, 2027, total nitrogen will be considered for adoption per the circumstances outlined in 31.17(g).

Prior to December 31, 2027, nutrient criteria will be adopted for headwaters on a segment by segment basis for the Arkansas River Basin. Moreover, pursuant to 31.17(e) nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior

to May 31, 2012. The following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the Arkansas River Basin:

Prior to May 31, 2022:

- For segments located entirely above these facilities, nutrient standards apply to the entire segment.
- For segments with portions downstream of these facilities, *nutrient standards apply only above these facilities*. A note was added to the total phosphorus and chlorophyll a standards in these segments. The note references the table of qualified facilities at 32.5(4).
- For segments located entirely below these facilities, nutrient standards do not apply.

A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.

32.6 TABLES

(1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 32-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 32-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

(2) Abbreviations

(a) The following abbreviations are used in this regulation and the tables in Appendix 32-1:

Ac	=	acute (1-day)
°C	=	degrees Celsius
Ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
D.O.	=	dissolved oxygen
DM	=	daily maximum temperature
DUWS	=	direct use water supply
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WS	=	water supply
WS-I	=	warm stream temperature tier one
WS-II	=	warm stream temperature tier two
WS-III	=	warm stream temperature tier three
WL	=	warm lake temperature tier

(b) In addition, the following abbreviations are used:

Iron (chronic)	=	WS
Manganese (chronic)	=	WS
Sulfate (chronic)	=	WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical standards, as specified in the Basic Standards and Methodologies at 31.16 Table II and III:

- (i) existing quality as of January 1, 2000; or
- (ii) Iron = 300 µg/L (dissolved)

Manganese	=	50 µg/L (dissolved)
Sulfate	=	250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 32-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
 - (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
 - (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
 - (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.

(3) Table Value Standards

In certain instances in the tables in Appendix 32-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

TABLE VALUE STANDARDS
(Concentrations in µg/L unless noted)

PARAMETER ⁽¹⁾	TABLE VALUE STANDARDS ⁽²⁾⁽³⁾					
Aluminum(T)	Acute = $e^{(1.3695 \cdot \ln(\text{hardness}) + 1.8308)}$ pH equal to or greater than 7.0 Chronic = $e^{(1.3695 \cdot \ln(\text{hardness}) - 0.1158)}$ pH less than 7.0 Chronic = $e^{(1.3695 \cdot \ln(\text{hardness}) - 0.1158)}$ or 87, whichever is more stringent					
Ammonia ⁽⁴⁾	Cold Water = (mg/L as N) Total $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left(\frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ Warm Water = (mg/L as N) Total $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr 1 - Aug 31) = \left(\frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic (Sep 1 - Mar 31) = \left(\frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$					
Cadmium	Acute(warm) ⁽⁵⁾ = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \cdot \ln(\text{hardness}) - 3.443)}$ Acute(cold) ⁽⁵⁾ = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \cdot \ln(\text{hardness}) - 3.866)}$ Chronic = $(1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 \cdot \ln(\text{hardness}) - 3.909)}$					
Chromium III ⁽⁶⁾	Acute = $e^{(0.819 \cdot \ln(\text{hardness}) + 2.5736)}$ Chronic = $e^{(0.819 \cdot \ln(\text{hardness}) + 0.5340)}$					
Chromium VI ⁽⁶⁾	Acute = 16 Chronic = 11					
Copper	Acute = $e^{(0.9422 \cdot \ln(\text{hardness}) - 1.7408)}$ Chronic = $e^{(0.8545 \cdot \ln(\text{hardness}) - 1.7428)}$					
Lead	Acute = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \cdot \ln(\text{hardness}) - 1.46)}$ Chronic = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \cdot \ln(\text{hardness}) - 4.705)}$					
Manganese	Acute = $e^{(0.3331 \cdot \ln(\text{hardness}) + 6.4676)}$ Chronic = $e^{(0.3331 \cdot \ln(\text{hardness}) + 5.8743)}$					
Nickel	Acute = $e^{(0.846 \cdot \ln(\text{hardness}) + 2.253)}$ Chronic = $e^{(0.846 \cdot \ln(\text{hardness}) + 0.0554)}$					
Selenium ⁽⁷⁾	Acute = 18.4 Chronic = 4.6					
Silver	Acute = $0.5 * e^{(1.72 \cdot \ln(\text{hardness}) - 6.52)}$ Chronic = $e^{(1.72 \cdot \ln(\text{hardness}) - 9.06)}$ Chronic(Trout) = $e^{(1.72 \cdot \ln(\text{hardness}) - 10.51)}$					
Temperature	TEMPERATURE TIER	TIER CODE	SPECIES EXPECTED TO BE PRESENT	APPLICABLE MONTHS	TEMPERATURE STANDARD (°C)	
	Cold Stream Tier I	CS-I	brook trout, cutthroat trout	June – Sept.	MWAT	DM
				Oct. – May	17.0	21.7
	Cold Stream Tier II	CS-II	Other cold-water species	April – Oct.	9.0	13.0
				Nov. – March	18.3	24.3
	Cold Lakes ⁽⁸⁾	CL		April – Dec.	9.0	13.0
					17.0	21.2

			brook trout, brown trout, cutthroat trout, lake trout, rainbow trout, Arctic grayling, sockeye salmon	Jan. – March	9.0	13.0
	Cold Large Lakes (>100 acres surface area) ⁽⁶⁾	CLL	rainbow trout, brown trout, lake trout	April – Dec.	18.3	24.2
				Jan. – March	9.0	13.0
	Warm Stream Tier I	WS-I	common shiner, Johnny darter, orangethroat darter, stonecat	March – Nov.	24.2	29.0
				Dec. – Feb.	12.1	24.6
	Warm Stream Tier II	WS-II	brook stickleback, central stoneroller, creek chub, longnose dace, northern redbelly dace, finescale dace, razorback sucker, white sucker, mountain sucker	March – Nov.	27.5	28.6
				Dec. – Feb.	13.8	25.2

				Dec. – Feb.	14.3	24.9
	Warm Lakes	WL	black crappie, bluegill, common carp, gizzard shad, golden shiner, largemouth bass, northern pike, pumpkinseed, sauger, smallmouth bass, spottail shiner, stonecat, striped bass, tiger muskellunge, walleye, wiper, white bass, white crappie, yellow perch	April – Dec.	26.2	29.3
Jan. – March				13.1	24.1	
Uranium	Acute = $e^{(1.1021 \cdot \ln(\text{hardness}) + 2.7088)}$ Chronic = $e^{(1.1021 \cdot \ln(\text{hardness}) + 2.2382)}$					
Zinc	Acute = $0.978 \cdot e^{(0.9094 \cdot \ln(\text{hardness}) + 0.9095)}$ Chronic = $0.986 \cdot e^{(0.9094 \cdot \ln(\text{hardness}) + 0.6235)}$					

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L, except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.
- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.

-
- (6) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- (7) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.
- (8) Lake trout-based summer temperature criteria [16.6 (ch), 22.4 (ac)] apply where appropriate and necessary to protect lake trout from thermal impacts.
-

(4) Site-specific Standards, Assessment Locations, and Assessment Criteria

The following criteria shall be used when assessing whether a specified waterbody is in attainment of the specified standard.

- (a) Middle Arkansas Segment 4a, Wildhorse Creek, Se(ac)=2376, Se(ch)=2110: Selenium Assessment Location

- Wildhorse Creek above Pesthouse Gulch: 38.296478, -104.649201

- (b) Middle Arkansas Segment 4g, Pesthouse Gulch, Se(ac)=389, Se(ch)=369: Selenium Assessment Location

- Pesthouse above No Name: 38.309568, -104.672244

- (c) Middle Arkansas Segment 6b, St. Charles River, Se(ac)=173, Se(ch)=50: Selenium Assessment Locations

Determinations of attainment of the chronic and acute selenium standards will be based on the 85th and 95th percentile, respectively of all available data from the segment. The selenium assessment locations are:

- SC-5: St. Charles River approximately one mile downstream of the confluence with Edson Arroyo.
- SC-6-US: St. Charles River upstream of the confluence with Thomkins Arroyo and the Comanche discharge.
- SC-7: Approximately 2 miles upstream of the Bessemer Canal crossing.
- SC-8: Immediately upstream of the Bessemer Canal crossing.
- SC-9: St. Charles River downstream of where the river flows under U.S. Highway 50, approximately 3 miles upstream of the confluence with the Arkansas River.

- (d) Middle Arkansas Segment 20, Pueblo Reservoir: Chlorophyll a Assessment Location

- Site 7b (USGS Site 381602104435200): Near the dam and the south outlet works

(5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 32-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 32-1:

- (a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.
- (b) All phosphorus standards are based upon the concentration of total phosphorus. For total phosphorus, stream standards are expressed as an annual median and for lakes standards as a summer (July 1 - September 30) average in the mixed layer. For chlorophyll a, stream standards are expressed as a maximum of attached algae and lakes standards as a summer (July 1 - September 30) average in the mixed layer. For additional assessment details, see tables at Regulation 31.17(b) and (d).
- (c) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- (d) All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.
- (e) All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) Discharger-Specific Variances

- (a) Lower Arkansas Segment 1a (COARLA01a):

Discharger-Specific Variance, City of Pueblo James R. Dilorio Water Reclamation Facility (CO0026646): Adopted 6/12/2018.

Selenium (acute) = 19.1 µg/L: narrative; Selenium (chronic) = 14.1 µg/L: narrative;
Sulfate (chronic) = 329 mg/L: narrative. Expiration date: 12/31/2028.

Narrative alternative effluent limit: During the DSV term, Pueblo will be required to spend \$10 million to implement a comprehensive source control, sampling, analysis, and optimization adaptive management program to reduce selenium and sulfate concentrations in the effluent as much as feasible and to ensure that the discharge does not contribute to any lowering of the currently attained ambient water quality. The adaptive management program will include the following elements, in order of priority:

- Lining up to 175,000 ft² in the sewer collection system in Basins 2 and 3.
- Sealing up to 400 manholes in Basins 2 and 3.
- The amount of sewer lining and manhole sealing may be reduced by:
 - Repair of service taps in poor condition;

-
- Repair of service lines in poor condition; or
 - Additional effort where epoxy sealing of manholes is insufficient to control I & I.
 - A comprehensive long-term sampling and analysis program to identify source control projects and evaluate the effectiveness of implemented controls.
 - Investigation of the contribution from sump pumps.
 - Pilot testing to determine the feasibility of treatment optimization to reduce selenium, and implementation of feasible treatment optimization measures.
- (b) Lower Arkansas Segment 1b (COARLA01b):
- (i) Discharger-Specific Variance, City of La Junta (CO0021261): Adopted 10/11/2016.
- Selenium (acute) = TVS: no limit; Selenium (chronic) = TVS: 0.37 lbs/day as a 12-month rolling average. Expiration date: 12/31/2026.
- (ii) Discharger-Specific Variance, City of Las Animas (CO0040690): Adopted 06/11/2018
- Selenium (chronic) = TVS narrative. Effective Date: 12/30/2018; Expiration Date: 12/31/2025
- Narrative alternative effluent limit: During the DSV term, Las Animas will implement a Pollutant Minimization Plan, which is expected to result in effluent concentrations between 0.8 – 28.4 µg/L. The following measures are required during the term of the variance to reduce selenium concentrations as much as feasible and to ensure the discharge does not contribute to any lowering of ambient in-stream water quality:
- Monitor selenium concentrations in each municipal water well and use the wells with the lowest selenium concentrations to meet water demand to the maximum extent feasible
 - Initiate a water conservation program
 - Locate and repair sources of water loss in the water distribution system.
 - Maintain the ongoing sanitary sewer collection system replacement program to address groundwater infiltration
 - Complete a wetland treatment pilot study by 12/31/2025, if compliance with water quality based effluent limits based upon the underlying standards remains infeasible after implementing the above measures.

32.7 – 32.9 RESERVED

32.68 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; JUNE 14-15, 2021 RULEMAKING; FINAL ACTION AUGUST 9, 2021; EFFECTIVE DATE DECEMBER 31, 2021

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

BASIS AND PURPOSE

I. DISCHARGER-SPECIFIC VARIANCES

The commission deleted subsections 32.6(6) (a) and (b), which described the regulatory basis and implementation of discharger-specific variances, because this information was revised and consolidated into 31.7(4).

II. CLEANUP, CORRECTIONS, AND CLARIFICATIONS

A. Sulfate

32.6(2)(b)(ii) was edited to clarify that the sulfate standard applies to dissolved sulfate concentrations. As an ion, sulfate is found in water only in the dissolved state; therefore, either unfiltered or filtered samples may be used to determine sulfate concentrations.

B. Reformat Hardness-based Equations

The following changes were made to the hardness-based table value standard equations at 32.6(3) to improve compatibility with Excel and align with corrections made to Regulation No. 31:

- Acute and chronic aluminum, chromium III, copper, lead, manganese, nickel, silver, uranium, and zinc: the first bracket was replaced with the symbol * and the second bracket was deleted from the equation.
- Acute and chronic cadmium: extra spaces were removed.
- Acute and chronic lead: the brackets were deleted and a parenthesis was moved within the conversion factor.
- Acute silver: $\frac{1}{2}$ was replaced with 0.5* in the equation.

C. Chromium Footnote

The commission revised Footnote 6 of the Table Value Standards table to improve the clarity of the footnote, which directs the implementation of the trivalent (III) and hexavalent (VI) chromium standards when data for the individual valence states are unavailable. Chromium data are infrequently reported for chromium III and chromium VI individually. Instead, data are typically reported as the total of all valence states of chromium present in the sample. This is primarily due to the difficulty of accurately measuring chromium III concentrations and the instability of chromium when the sample is acidified for analysis of the total recoverable fraction. While chromium III and chromium VI are the valence states most often found in natural waters, chromium is unstable and can convert between forms in water and in the bodies of humans and aquatic life. However, chromium VI is more water soluble and a known carcinogen. Depending on the classified use, the chromium VI standards are the same as or more stringent than the

chromium III standards (Table III). Therefore, when data for individual chromium species are unavailable, the use of the chromium VI standards to assess data reported as total chromium (i.e., the total of all valence states of chromium) will ensure protection of human health and aquatic life. In addition, Footnote 6 was modified to clarify that neither the sum of the concentrations of chromium III and chromium VI (when reported individually) nor the total chromium concentration (i.e., the total of all valence states of chromium) should exceed the Water Supply standards of 50 µg/L for chromium III and chromium VI in water bodies with a Water Supply use classification.

D. Duration of Nitrite Aquatic Life Standard

The commission corrected the duration of all nitrite standards with a value of 0.05 or 0.5 mg/L from acute to chronic on all segments. The nitrite standards in this basin pre-date the nitrite standards in Regulation No. 31 (chloride-based equations). There has been confusion in recent years regarding the correct duration for these standards. There is no record available that explains the basis for these standards or the intended duration (acute or chronic). Based upon a comparison with the nitrite standards in Regulation No. 31, nitrite values of 0.05 and 0.5 mg/L are more consistent with the chronic values calculated using the chloride-based equations. Also, the study that the commission relied upon when adopting the nitrite standards in Regulation No. 31 indicates that these values are protective as chronic standards (1986 Nitrogen Cycle Committee of the Basic Standards Review Task Force Proposed Nitrogenous Water Quality Standards for the State of Colorado). In order to resolve the inconsistencies in the duration of the nitrite standards currently adopted in Regulation Nos. 32-38, the commission determined that these nitrite values should be consistently listed as chronic standards. Over time, the commission expects that these nitrite standards may be replaced with the more recent and well-documented chloride equation-based standards in Regulation No. 31.

E. Housekeeping

The following edits were made to improve clarity, correct typographical errors, and improve consistency across the basin regulations (Regulation Nos. 32-38) and with Regulation No. 31:

- All variations of *E. coli* were edited to display a consistent format in the regulation and appendix tables.
- At 32.5(2) 'Table B' was added to the reference to organic standards at 31.11 to align with changes to Regulation No. 31.
- At 32.6(1), text was added to clarify that the tables in Appendix 32-1 only show the most stringent standards, and that additional, less stringent standards may be found in Regulation No. 31.
- The reference to the 'temporary modification and qualifiers' column at 32.6(2)(c)(i) was replaced with 'Other' to align with a previous change to the appendix tables.
- References to "Trec" were replaced with "total recoverable" or "T".
- Footnote 4 of the Table Value Standards table was modified to clarify that the "T" in the chronic ammonia equations stands for temperature.
- Information was added at 32.6(5) specifying that the ammonia, nitrate, and nitrite standards are to be reported as nitrogen. This is consistent with the description of the standards as they are included in Table II of Regulation No. 31. This change brings the regulation into alignment with Regulation Nos. 33, 37, and 38; the commission made this change in those regulations during triennial reviews in 2019 through 2020.
- Other minor edits were made to improve clarity and consistency.
