The eligibility worker shall, in consultation with the applicant or other sources, arrive at a figure to be used for certification purposes and annotate the household's case record with information used to make an eligibility determination. *** C. Self-Employment Self-employment verification may consist of tax documents, self-employment ledgers maintained by the household, receipts, or other documents used for verifying and documenting the household's self-employment income and expenses. If, at the time of initial certification, a household is recently self-employed or does not have adequate documentation of the household's self-employment income and expenses, the eligibility worker shall use the best information available to determine the household's monthly income. The household shall be encouraged to keep records of income and expenses for subsequent certifications. No specific verification shall be required and the documentation provided by the household shall be accepted unless questionable. *** F. Cases of No Reported Income 1. In addition to verifying reported income, the eligibility worker may have occasion to explore	having knowledge of the household's circumstances. 3. When a collateral contact designated by the household cannot be expected to provide accurate third-party verification, the local office shall ask the household to designate an acceptable collateral contact, provide an alternative form of verification or substitute a home visit. 4. Prior to determining the eligibility of households who report no income or income so low as to place them at the maximum benefit level without consideration of deductible expenses, the eligibility worker must, through in-depth interviewing techniques, determine how the household maintains its existence and meets ongoing maintenance expenses. Collateral contact with a person or persons knowing the household's circumstances is recommended. The existence of resources might be an explanation of how the household exists at the level of income reported. 2. When exploring the possibility of unreported income or how the household is meeting its expenses, the local office shall not initiate a request for verification of such information, but shall explore how the household is meeting its needs through an interview. If, at the time of recertification, the local office needs to explore the possibility of unreported income or how the household is meeting its needs, the household shall be contacted by telephone to resolve the discrepancy. The correct allotment shall be calculated using the same methods applied to an actual certification. The twenty percent (20%) earned income deduction shall not be applied to that part of any earned income that the household failed to report in a timely manner when this act is the basis for the claim; therefore, any portion of the claim that is due to earned income being reported in an untimely manner will be calculated without allowing the twenty percent (20%) earned income deduction. The actual circumstances of the household shall be used to calculate the claim. In instances when a claim is caused by the household's failure to report information as required, the amount of the claim is based on the allotment difference from what the household received compared to what the household would have received if the household would have reported the information as required. For example, if a simplified reporting household did not report income at initial application as required, the income used to calculate the over-issuance would be the income that the household received in the month of application, as this would have been used to determine the household's ongoing monthly amount. Actual income received each subsequent month is not required to calculate each month of the claim, as any fluctuation in monthly income that was received by the household after the initial month of application was not required to be reported by the household. If the household failed to report a change in household circumstances that would have resulted in an increase in benefits during the period of the claim, the local office shall act on the change in information as of the date the change was reported to the local office. 5. The twenty percent (20%) earned income deduction shall not be applied to that part of any earned income that the household failed to report in a timely manner when this act is the basis for the claim; therefore, any portion of the claim that is due to earned income being reported in an untimely manner will be calculated without allowing the twenty percent (20%) earned income deduction. The actual circumstances of the household shall be used to calculate the claim. In instances when a claim is caused by the household's failure to report information as required, the amount of the claim is based on the allotment difference from what the household actually received compared to what the household would have received if the household would have reported the information as required. For example, if a simplified reporting household did not report income at initial application as required, the income used to calculate the overpayment would be the income that the household actually received in the month of application, as this would have been used to determine the household's ongoing monthly amount. Actual income received each subsequent month is not required to calculate each month of the claim, as any fluctuation in monthly income that was	a. In cases involving household failure to report an increase in income within the required timeframes, the first (1st) month affected by the household's failure to report shall be the first (1st) month in which the change would have been effective had it been timely reported. However, in no event shall the determination of the first (1st) month in which the change would have been effective be any later than two (2) months from the month in which the change occurred. For purposes of calculating the claim, the local office shall assume that the change would have been reported properly and timely acted upon by the local office. b. If the household timely reported an increase in income but the local office failed to act on the change within the required timeframes, the first (1st) month affected by the local office's failure to act shall be the first (1st) month the office would have made the change effective had it acted timely. If a Notice of Adverse Action were required, the local office shall assume, for the purpose of calculating the claim, that the Notice of Adverse Action period would have expired without the household requesting a fair hearing. D. IPV Claims 1. Prior to a waiver or consent agreement being signed or the determination of intentional program violation/fraud, the claim being pursued as an IPV claim shall be pursued as an IHE claim. 2. For each month that a household received an over-issuance due to an act of IPV/fraud, the local office shall determine the correct amount of SNAP benefits, if any, the household was entitled to receive. If the household member is determined to have intentionally failed to report a change in its household's circumstances, the claim shall be established for each month in which the failure to report would have affected the household's SNAP allotment.

If the household failed to report a change in household circumstances that would have resulted in an increase in benefits during the time period of the claim, the local office shall act on the change in information as of the date the change was reported to the local office. 5. When a household certified below 130% FPL fails to report an increase in household income over 130% FPL. The local office shall establish the claim for each month in which an over-issuance of Food Assistance has occurred. a. In cases involving household failure to report an increase in income within the required timeframes, the first (1st) month affected by the household's failure to report shall be the first (1st) month in which the change would have been effective had it been timely reported. For purposes of calculating the claim, the local office shall assume that the change would have been reported properly and timely acted upon by the local office.	3. Once the amount of the IPV claim is established, the local office shall offset the claim against any amount of lost benefits that have not yet been restored to the household. E. Court Actions In cases where a household member was found guilty of fraud by a court of appropriate jurisdiction, the local office should request that the matter of restitution be brought before the court or addressed in the agreement reached between the prosecutor and individual.		

		b. If the household timely reported an increase in income but the local office failed to act on the change within the required timeframes, the first (1st) month affected by the local office's failure to act shall be the first (1st) month the office would have made the change effective had it acted timely. If a Notice of Adverse Action was required, the local office shall assume, for the purpose of calculating the claim, that the Notice of Adverse Action period would have expired without the household requesting a fair hearing. Once the amount of the IPV claim is established, the local office shall offset the claim against any amount of lost benefits that have not yet been restored to the household. E. B. Postponing Collection Action Collection action on inadvertent household error claims may be postponed in cases where an over-issuance is being referred to an administrative disqualification hearing or a court of appropriate jurisdiction, and the local office determines that collection action will prejudice the case. For cases in which the household is appealing an agency error or inadvertent household error claim, collection action shall be suspended pending a final decision. The demand for payment may be combined with the notice of the hearing decision. Delinquency must be based on the due date of this subsequent notice and not on the initial pre-hearing demand letter sent to the household. 2. Calculation of Claim The local office shall mail the household an explanation of how the claim was calculated, showing each individual month and the cause for the claim. The State-prescribed form shall be used to determine and calculate the amount of the claim and to notify the household of the calculation. The form shall be mailed on a schedule that coincides with the mailing of the automated demand letter. D. Negotiating Payment Plans Households participating in the program are subject to allotment reduction in accordance with Section 4.801.41.B, unless the claim is being collected at a higher amount, per agreement with the household. Allotment reduction must begin with the first allotment issued ten (10) calendar days after the demand letter is mailed. When a household is subject to allotment reduction, then a repayment agreement is not necessary unless the household wants to make voluntary payments in addition to the allotment reduction or elects to make monthly payments in amount greater than what would be repaid through allotment reduction. If a household is not participating in the program, then the local office shall negotiate a payment schedule with the household for repayment of any amounts of

If a household is not participating in the program, then the local office shall negotiate a payment schedule with the household for repayment of any amounts of the claim not repaid	the claim not repaid through a lump sum payment. 1. Establishing a Payment Plan The local office shall negotiate a payment schedule with the household for repayment of any amounts of the claim not repaid through a lump sum payment or through allotment reduction. Payments shall be accepted in regular installments. The household may use SNAP benefits as full or partial payment of any installment. The local office shall ensure that the negotiated amount of any payment schedule to be repaid each month through installment payments is not less than the amount that could be recovered through an allotment reduction. Once negotiated, the amount to be repaid each month through installment payments shall remain unchanged regardless of subsequent changes in the household's monthly allotment. However, both the local office and the household shall have the option to initiate renegotiation of the payment schedule if they believe that the household's economic circumstances have changes enough to warrant such action. 2. Household’s Failure to Respond to the Repayment Agreement If the household is not participating in the program when collection action for claim is initiated or if collection action has been initiated for repayment of a claim and no response is made to the first (1st) demand letter, additional demand letters shall be sent at reasonable Intervals, such as thirty (30) calendar days apart. The demand letters shall be sent until the household responds by paying or agreeing to pay the claim, until the criteria for suspending collection has been met or until the local office initiates ether collection actions. 3. Establishing a Payment Plan The local office shall negotiate a payment schedule with the household for repayment of any amounts of the claim not repaid through a lump sum payment or through allotment reduction. Payments shall be accepted in regular installments. The household may use Food Assistance benefits as full or partial payment of any installment. The local office shall ensure that the negotiated amount of any payment schedule to be repaid each month through installment payments is not less than the amount that could be recovered through an allotment reduction. Once negotiated, the amount to be repaid each month through installment payments shall remain unchanged regardless of subsequent changes in the household's monthly allotment. However, both the local office and the household shall have the option to initiate renegotiation of the payment schedule if they believe that the household's economic circumstances have changes enough to warrant such action. 2. Household's Failure to Respond to the Repayment Agreement If the household is not participating in the program when collection action for claim is initiated or if collection action has been initiated for repayment	schedule either by making a payment of a lesser amount or by making no payment, the local office shall send the household a notice that: 1) Explains that no payment or an insufficient payment was received; 2) Informs the household that it may contact the local office to discuss renegotiation of the payment schedule; 3) Informs the household that unless the overdue payments are made or the local office is contacted to discuss renegotiation of the payment schedule, the allotment of a currently participating household against which a claim has been established shall be reduced. b. If the household responds to the notice, the local office shall take one of the following actions as appropriate: 1) If the household makes the overdue payments and wishes to continue payments based on the previous schedule, the local office shall permit the household to do so, but shall also require the household to sign a new repayment agreement; 2) If the household requests renegotiation and the local office concurs with the request, the local office shall negotiate a new payment schedule. Household's Failure to Pay in Accordance with Payment Plan a. If the household fails to make a payment in accordance with the established repayment schedule either by making a payment of a lesser amount or by making no payment, the local office shall send the household a notice that: 1) Explains that no payment or an insufficient payment was received; 2) Informs the household that it may contact the local office to discuss renegotiation of the payment schedule; 3) Informs the household that unless the overdue payments are made or the local office is contacted to discuss renegotiation of the payment schedule, the allotment of a	payment is received in full, an allotment reduction is invoked, or a new repayment schedule is negotiated. The date of delinquency for such claims is the due date on the initial demand letter. b. If a satisfactory payment arrangement has been made for a claim and payment has not been received by the due date specified in the established repayment schedule, the date of delinquency for such claims is the due date of the missed installment payment, unless the claim was delinquent prior to entering into a repayment agreement, in which case the due date will be the due date on the initial demand letter. The claim will remain delinquent until payment is received in full, allotment reduction is invoked, or once the local office resumes or re- negotiates the repayment schedule. c. For purposes of the Federal Treasury Offset Program (TOP), a delinquent claim is one which is past due more than one hundred twenty (120) calendar days. 2. Claims shall not be considered delinquent under the following circumstances: a. If another SNAP claim for the same household is currently being paid, either through an installment agreement or an allotment reduction, and the local office expects to begin collection on the claim once the prior claim(s) is settled; b. If the hearing officer determines that a claim does not exist, the claim is deleted shall be terminated and all collection activity ceased. F. Joint Collections Received for a Combination SNAP and PA Claim An unspecified joint collection is when funds are received in response to correspondence or a referral that contained both the SNAP and other program claims, and the debtor does not specify to which program to apply the payment. At the hearing on the offset, the county department or Administrative Law Judge shall not consider whether an overpayment has occurred, but may consider, if raised by the taxpayer in his or her request for a hearing, whether: a. The taxpayer was properly notified of the overpayment; b. The taxpayer is the person who owes the overpayment; c. The amount of the overpayment has been paid or is incorrect; d. The debt created by the overpayment has been discharged through bankruptcy; e. Other special circumstances exist as described in Section 4.801.42. E. Processing Fee TOP, including the Federal Salary Offset Program (FSOP), is authorized to apply a processing fee each time a successful offset for collection occurs. Federal payroll offices participating in the TOP process may add another separate processing fee. The delinquent SNAP debtor is responsible for the fee each time it is applied. A TOP offset taken in error and later refunded will have the processing fee refunded, except for partially refunded offsets. 3. Notifying a Household of the Treasury Offset Program At the time delinquent debts are sent to be certified to the FNS for the intercept by the Federal TOP, all delinquent debts for each individual are sent at one time. Prior to a claim being certified to the FNS as a debt owed the local office, the individual shall be mailed an offset notice. The notice shall provide the following information: a. The local office has documentation that the individual identified with his or her Social Security Number (SSN) is liable for the specified unpaid balance of the claim; and, b. The individual has been notified about the claim and prior collection efforts have been made. The claim is past due and legally enforceable. All adults are liable for the over-issuance of SNAP if they were household members when the SNAP benefits were over-issued. False statements concerning such liability may subject individuals to legal action (see Section 4.801.4, A); and, c. Debts over one hundred twenty (120) days		

		The Treasury Offset Program allows collection of delinquent debts by intercepting any allowable payment from the federal government. Federal payments eligible for offset include federal income tax refunds, federal employee salary, federal retirement payments (including military), contractor or vendor payments, and federal benefits such as Social Security and railroad retirement. 1. Claims Submitted for Offset a. A delinquent claim may be submitted to the USDA, Food and Nutrition Service (FNS) for the Treasury Offset Program (TOP). In order to submit a claim to the Federal Treasury Offset Program, the claim must be determined to be past due and legally enforceable. To determine that a claim is past due and legally enforceable, it must be determined that notification and collection attempts have taken place. b. For purposes of the Federal Treasury Offset Program (TOP), a delinquent claim is one which is past due more than one hundred twenty (120) calendar days, as set forth in the United States Code regarding delinquent claims. c. A claim is not considered delinquent if a fair hearing is pending concerning the claim; or the claim has either been discharged by bankruptcy or is subject to the automatic stay of the	delinquent to be referred to the Treasury for an administrative offset. The local office intends to refer the claim within sixty (60) days of the date of the notice unless the individual makes other repayment arrangements acceptable to the local office; and, d. Instructions on how to pay the claim, including the name, address, and telephone number of a person in the county who can discuss the claim and the intended offset with the individual; and, e. The individual is entitled to request a review of the debt's eligibility for referral to TOP. Individual review requests must be honored, regardless of whether they are received after the deadline requested. Claims that are currently under review will not be referred for the tax intercept. f. The notice shall include all claims for the household that are to be certified to TOP. 4. The individual may document any legitimate reason that the claim is not past due or legally enforceable. 5. The individual should contact the local office if he or she believes that a bankruptcy proceeding prevents collection of the claim or if the claim has been discharged in bankruptcy. 6. In some circumstances, the married individual may want to contact IRS before filing his/her income tax return. This is true if the individual is filing a joint return and his or her spouse is not responsible for the SNAP claim and has income and withholding and/or estimated federal income tax payments. In such cases, the spouse may receive his or her portion of any joint return based on procedures prescribed by the IRS. 7. 4.904	Section of rule irrelevant to administration of program in Colorado **4.904.1** **4.904.**	**4.904 FEDERAL ADMINISTRATION AND RESPONSIBILITIES** **4.904.1 Federal Sanctions** If FNS determines that there has been negligence or fraud involved in the certification of applicant households on the part of the state or local office, the State agency shall, on demand, following exhaustion of its appellate rights, pay to FNS, a sum equal to the amount of benefits issued as a result of such negligence or fraud. FNS claims against state agencies may be a result of financial losses involved in the acceptance, storage, and issuance of benefits, charges of negligence, and disallowance of federal funds for state agency failure of operation. The provisions for determining and establishing a claim against state agencies or the disallowance of federal funds are outlined within Section 3 of Title 7, Part 276, Chapter II, Sub-chapter C, Code of Federal Regulations, as of February 5, 2014; no later amendments or editions of this section are incorporated. Copies of these federal laws are available from the Colorado Department of Human Services, Food Assistance Program, 1575 Sherman Street, Denver, Colorado 80203. If county administration has resulted in the FNS finding of negligence or fraud, a claim for the amount of loss will subsequently be made against the responsible Food Assistance agency. **4.904.2 Civil Rights Reviews Retailer Authorization**		Removal of irrelevant section of rule	

		The FNS field office located in the Denver area conducts statewide civil rights reviews of local offices. Both state and local offices shall ensure that all staff responsible for the administration, issuance, review, and eligibility determination of the Food Assistance Program are knowledgeable about civil rights procedures and able to assist program recipients with the filing of civil rights complaints. These procedures must be reviewed with staff annually.			
	4.904.	**4.904.3 Retailer Authorization** The Food and Nutrition Service (FNS) field office is responsible for authorizing retailers to accept Food Assistance benefits and enforcing retailer compliance of Program rules. Retailers must be authorized by USDA, FNS to be eligible to accept Food Assistance benefits for eligible food purchases. All FNS-authorized retailers must comply with USDA, FNS regulations regarding acceptance and deposit of Food Assistance benefits.			
	4.904.	**4.904.4 Program Reduction, Suspension, or Cancellation** The Food and Nutrition Act of 2008 directs the Secretary of Agriculture to reduce, suspend, or cancel Food Assistance benefits if it is necessary to keep Program spending within the limits set by Congress. Upon notification from FNS, the State office shall instruct local offices to reduce, suspend, or cancel Food Assistance benefits for one or more months. Local offices shall take immediate action in accordance with the following procedures:			

		A. Reduction of Benefits If the State office instructs the local offices to reduce monthly Food Assistance allotments, the State shall notify the local offices of the date the reduction is to take effect. If an allotment reduction is necessary, allotments shall be reduced for each household size by the same percentage. If a benefit reduction is necessary, all households shall be guaranteed a minimum allotment allowed for one- and two-person households, unless the reduction is ninety percent (90%) or more. Revised issuance tables reflecting the percentage of reduction shall be provided to all local offices. B. Suspension and Cancellation If the State Office instructs the county local offices to suspend or cancel Food Assistance Program benefits, the county local offices shall be informed of the date that the suspension or cancellation shall take effect. Upon receipt of this date, the counties shall take immediate action to affect the suspension or cancellation. This action shall include notification of certification and issuance personnel, as well as eligible households. In the event that cancellation or suspension of benefits is necessary, the provision for the minimum benefit level shall be disregarded and all households shall have their benefits suspended or cancelled. If allotments are cancelled or suspended, local offices shall			

		record the monthly allotment the household was entitled to receive prior to cancellation or suspension.			
	4.904.	**4.904.41 Affected Allotments** Whenever suspension or cancellation of allotments is ordered for a particular month, it shall affect all households. If a reduction is ordered, reduced benefits shall be calculated for all households for the designated month. However, all one- or two-person households shall be guaranteed a minimum allotment, as outlined in Section 4.207.3, unless the reduction is ninety percent (90%) or more. Allotments or portions of allotments representing restored or retroactive benefits for a prior unaffected month would not be reduced, suspended, or cancelled, even though they are issued during a month in which cancellation, suspension, or reduction is in effect.			
	4.904.	**4.904.42 Notification to Households** Reduction, cancellation, or suspension shall be considered a mass change and shall not require advance notice of adverse action; however, the household shall be notified by announcements through the news media or a general notice may be handed out or mailed to affected participant households.			
	4.904.	**4.904.43 Restoration of Cancelled or Reduced Benefits** Households whose allotments are reduced or cancelled as a result of the enactment of these procedures are not entitled to the restoration of the lost benefits at a later date unless surplus funds are remaining after the reduction or cancellation. These surplus funds may be re-			

		stored to affected households if a directive is issued by the Secretary of Agriculture. In the event of the issuance of a directive to issue restored benefits, the local office must work promptly to issue them. In any event, the local office shall have issuance services to serve households receiving restored or retroactive benefits for a prior, unaffected month.			
	4.904.	**4.904.44 Effects of Reduction, Suspension, and Cancellation on the Certification of Eligible Households** In the event that cancellation, suspension, or reduction is ordered by the State, the following shall apply: A. Determinations of eligibility of applicant households shall not be affected. B. Local offices shall continue to accept and process applications in accordance with standard certification procedures. C. If a reduction of program benefits is in effect, and an applicant is found to be eligible, the amount of benefits will be determined by using the revised issuance tables, and shall be recorded in accordance with provisions in Section 4.904.4. If reduction or suspension of program benefits is in effect, and a household is found to be eligible for expedited service application processing, the application will be processed in accordance with procedures in Section 4.205.1. If a cancellation of program benefits is in effect, households shall receive expedited service; however, the deadlines for completing the processing shall be the end of the month of application or five (5) calendar days, whichever date is later.			

		E. If an applicant household is found to be eligible for benefits while a suspension or cancellation is in effect, no benefits shall be issued to the applicant household. However allotment levels shall be calculated and recorded accordance with Section 4.904.4. F. Reduction, suspension or cancellation of allotments shall have no effect on certification periods assigned to households prior to the reduction, suspension, or cancellation of the program. G. Participating households whose certification periods expire during a month in which allotments have been reduced, suspended, or cancelled shall be recertified in accordance with normal procedures. H. Households found eligible to participate during a month in which allotments have been reduced, suspended, or cancelled shall have certification periods assigned in accordance with Section 4.208.1.			
	4.904	**4.904.45 Fair Hearings When Program Reductions, Suspensions, or Cancellations Occur** Any household that had its allotment reduced, suspended, or cancelled as a result of implementation of the procedures for reduction, suspension, or cancellation may request a fair hearing if it disagrees with the action; however, the household does not have a right to continuation of benefits. A household may receive retroactive benefits if it is determined that its benefits were reduced by more than the amount the local offices were directed to reduce benefits. The Colorado Department of Human Services, Office of Appeals, may deny fair			

		hearings to those households that are disputing the fact that a statewide reduction, cancellation, or suspension was ordered. The Office of Appeals is not required to hold a fair hearing unless the request is based on a household's belief that its benefit level was computed incorrectly under these rules or that the rules were misapplied.

4.201 APPLICATION PROCESSING

A. LOCAL ~~County~~ offices shall not apply additional conditions or processing requirements that are beyond those prescribed by State SNAP~~Food Assistance~~ rules. The application process includes the filing and completion of an application form, being interviewed, and verifying certain information. Signs shall be posted in certification offices that explain the application processing standards and the right to file an application on the day of initial contact. Similar information about same-day filing shall be included in outreach materials and on the application form.

B. The local office shall act promptly on all applications and provide SNAP~~Food Assistance~~ benefits retroactive to the month of application to those households that have completed the application process and have been determined to be eligible.

***

D. The household may voluntarily withdraw its application at any time prior to a determination of eligibility. Once a determination of eligibility is made, the household may voluntarily terminate its participation. Any reason given by the household for withdrawal or termination shall be documented in the case file. A Notice of Action form, indicating voluntary withdrawal of application or voluntary termination of participation, shall be sent to the household within ten (10) calendar days of the decision, to confirm the action taken. The household shall be advised of its right to reapply at any time AFTER~~subsequent to~~ a withdrawal.

E. No household shall have its SNAP~~Food Assistance~~ benefits denied solely BASED ON~~on the basis of~~ its application to participate in another program being denied or its benefits under another program being terminated, without a separate determination by the local office that a household failed to satisfy a SNAP~~Food Assistance Program~~ eligibility requirement.

F. Households denied SNAP~~Food Assistance~~ that have an SSI application pending shall be informed on the notice of denial of the possibility of categorical eligibility if they become SSI recipients. Residents of public institutions who apply jointly for SSI and SNAP~~Food Assistance~~ benefits prior to their release from the institution shall not be eligible for SNAP~~Food Assistance~~ until the individual has been released from the public institution.

G. Local offices shall record in the automated system racial and ethnic data provided by an applicant household. The purpose of obtaining this information is not to affect the eligibility or the level of benefits, but rather to ensure that SNAPProgram benefits are distributed without regard to race, color, or national origin. In those instances when the information is not provided voluntarily by the household on the application form, the local office shall use alternative means of collecting the ethnic and racial data on households, such as by observation during the interview. Under no circumstance should an eligibility worker challenge or change a self-declaration made by a household member.

4.202 FILING AN APPLICATION

A. Regardless of what type of application system is used, the local office must provide a means for applicants to immediately begin the application process. The household shall be advised it may file an incomplete application form IFas long as the form contains a name, address, and is signed by a responsible household member or the household's authorized representative. Signatures include handwritten signatures, electronic signature techniques, recorded telephonic signatures, or documented gestured signatures. A valid handwritten signature includes a designation of an X. Local offices shall accept applications for Food Assistance during normal business hours and shall not be restricted to a certain day or time of day. The household shall be advised that it need not be interviewed before filing an application. The LOCAL OFFICEcounty department shall inform applicants that receiving SNAPFood Assistance will have no bearing on any other program's time limits that may apply to the household.

B. Persons who request information for SNAPFood Assistance must be advised of expedited service provisions and encouraged to APPLYsubmit an application so that eligibility processing can begin. County local offices shall encourage the filing of an application form on the same day the household or its representative contacts the local office in person or by telephone and expresses interest in obtaining SNAPFood Assistance, or indicates the household is without food or the means to obtain food.

C. Local offices shall make application forms readily accessible to applicant households, as well as to groups and organizations, and shall also provide an application form to anyone who requests the form. If a household contacting the local office by telephone does not wish to come to the appropriate office to file the application that same day and instead prefers receiving an application through the mail, the local office shall mail an application form to the household on the same day the telephone request is received. An application shall also be mailed on the same day a written request for SNAPFood Assistance is received.

***

E. Households must file applications by submitting the forms in person, through an authorized representative, by fax or other electronic transmission, by mail, or by completing an online electronic application. The local office must inform the applicant that they CANhave the opportunity to obtain a copy of their application and provide the household with a copy of their completed application upon the request of the client. A copy of a completed application can be a copy of the information provided by the client that was used or will be used to determine a household's eligibility and benefit allotment. At the option of the household, this may be provided in an electronic format.

F. Applications are valid for a period of sixty (60) calendar days OR UNTIL ELIGIBILITY HAS BEEN DETERMINED, WHICHEVER IS SOONER. ~~Households reapplying for benefits following a determination of ineligibility more than sixty (60) calendar days from the date of the original application date must submit a new application.~~ ONCE ELIGIBILITY HAS BEEN DETERMINED, HOUSEHOLDS MUST SUBMIT A NEW APPLICATION IF THE HOUSEHOLD:

1. FAILED TO ATTEND AN INTERVIEW IN THE FIRST THIRTY (30) DAYS OF THE APPLICATION, OR
2. WAS DETERMINED INELIGIBLE DUE TO HOUSEHOLD CIRCUMSTANCES

G. Local offices shall record in the automated system racial and ethnic data provided by an applicant household. The purpose of obtaining this information is not to affect the eligibility or the level of benefits, but rather to ensure that SNAP~~rogram~~ benefits are distributed without regard to race, color, or national origin. In those instances when the information is not provided voluntarily by the household on the application form, the local office shall use alternative means of collecting the ethnic and racial data on households, such as by observation during the interview. Under no circumstance should an eligibility TECHNICIAN~~worker~~ challenge or change a self-declaration made by a household member.

4.202.1 Public Assistance Applications and Processing

A. Households applying for PA~~public assistance (PA)~~ shall be notified of their right to apply for SNAP~~Food Assistance~~ at the same time~~,~~ and shall be allowed to apply for SNAP~~Food Assistance~~ at the same time they apply for PA~~public assistance~~ benefits.

B. The local office shall provide benefits using the original application and any other pertinent information occurring AFTER~~subsequent to~~ that application for any household filing a joint application for SNAP~~Food Assistance~~ and PA~~public assistance~~ benefits. The original application and relevant subsequent information shall also be used for households that are categorically eligible when they are determined eligible to receive PA~~public assistance~~ after being denied for SNAP~~Food Assistance~~. The local office shall not re-interview the household~~,~~ but shall use mail or telephone contact to obtain information about any changes.

C. Households whose PA~~public assistance (PA)~~ applications are denied shall not be required to file a new SNAP~~Food Assistance~~ application. The household shall have its SNAP~~Food Assistance~~ eligibility determined or continued based on the applications filed jointly for PA and SNAP~~Food Assistance~~ purposes and any other documented information obtained AFTER~~subsequent to~~ the application that may have been used in the PA determination.

4.202.2 Application Filing by Ineligible Individuals

The ineligibility of certain individuals for Program benefits will not prohibit the remaining household members from applying for and receiving SNAP~~Food Assistance~~. Ineligible individuals living in an applicant household shall not be considered eligible household members for SNAP~~Food Assistance~~ purposes; however the ineligible individual's income and resources are considered in the household's eligibility determination and benefit allotment.

When the eligible members of a household are all unemancipated minors and the only adult is an ineligible individual, the ineligible individual may APPLY~~make application~~ on behalf of the eligible minors without being considered as having applied for him/herself. However, if there is any other eligible adult of an une-

mancipated minor in the household, even though they would not normally be considered the household head, that eligible person should make application as the head of household.

4.202.3 SSI Households Submitting Food Assistance Applications to the SSA

A. Whenever a member of a household consisting only of SSI applicants or recipients transacts business at an SSA office, the member has a right to make a household application for Food Assistance at the SSA office or the local office. The SSA office is not required to accept applications for SSI applicants or recipients who are not members in a household consisting entirely of SSI recipients unless a county has outstationed a worker at the SSA office. The SSA office will refer non-SSI households to the correct local office. An applicant or recipient of SSI shall be informed at the SSA office of the availability of benefits under the Food Assistance Program and the availability of the Food Assistance application at the SSA office. The SSA office shall also complete joint SSI and Food Assistance applications for residents of public institutions who apply for SSI prior to their release from the institutions. The applicants shall be permitted to apply for Food Assistance at the same time that they apply for SSI.

B. The SSA office will accept and complete Food Assistance applications from SSI households and forward them, within one working day after receipt of a signed application, to the appropriate county local office. The SSA will use the Food Assistance application. The application will be transmitted to the local office with documentation of verification obtained. When an SSA office sends a Food Assistance application and supporting documentation to an incorrect local office, the application and documentation shall be sent to the correct office within one working day.

C. The SSA office is required to prescreen all Food Assistance applications for entitlement to expedited service and shall mark "expedited processing" on the first page of all applications of households that appear to be entitled to such processing. The SSA will inform households which appear to meet the criteria for expedited service that benefits may be issued a few days sooner if the household applies directly at the local office. The household may take the application from the SSA office to local office for screening, interviewing, and processing of the application. Each local office shall furnish the SSA office(s) serving its geographical area with a street map and/or map defining its boundaries together with the addresses of the certification offices in the project area.

D. The local office shall prescreen all applications received from the SSA office for entitlement to expedited service on the day the application is received at the correct local office. All households entitled to expedited service shall be certified in accordance with Sections 4.205.1 and 4.205.11, except that the expedited processing time standard shall begin on the date the application is received at a local office in the correct county. To prevent duplication, the local office shall develop and implement a method to determine if members of SSI households whose applications are forwarded by the SSA office are currently participating in the Food Assistance Program.

4.202.31 SSI Telephone Applications and Recertifications Completed by the SSA

A. If an SSA office takes an SSI application or redetermination on the telephone from a member of a pure SSI household, a Food Assistance application shall also be completed during the telephone interview and shall be mailed by the SSA office to the applicant for signature for return to the SSA office or to the local office. The SSA office shall then forward any Food

Assistance applications it receives to the local office. The local office shall not require the household to be interviewed again. The local office may contact the household further to obtain additional information for the eligibility determination.

B. The SSA office shall mail information of the client's right to file a Food Assistance application at the SSA office if they are members of a pure SSI household, or at their local office, and their right to an interview to be performed by the county department.

C. For households consisting entirely of applicants for, or recipients of, SSI who apply for Food Assistance certification at an SSA office, the application shall be considered filed for normal processing purposes when the application is received by the SSA.

4.202.32 SSI and Food Assistance Joint Processing

A. In those instances where the application has been completed at the SSA office, the local office shall ensure that information required by Section 4.502 is verified prior to certification for households initially applying, and households entitled to expedited certification services shall be processed in accordance with Sections 4.205.1 and 4.205.11. In those cases where the SSI household submits its Food Assistance application to the local office rather than through the SSA office, all verification, including that pertaining to SSA program benefits, shall be provided by the household, by SDX or BENDEX, or obtained by the local office rather than being provided by the SSA.

For those cases in which SSI and Food Assistance are being processed simultaneously, the local office shall question the household and/or use SDX listings to obtain information on SSI determinations. If the information cannot be obtained through SDX listings and/or questioning the households, a written inquiry may be made to the SSA office to obtain information of the status of SSI determinations. Within ten (10) calendar days of learning of the determination of the SSI application, the local office shall take action in accordance with Section 4.604.

B. The expedited processing time standard for applicants who filed prior to the release from a public institution will begin on the date that the individual is released from the public institution. The SSA shall notify the local office of the date of release of the applicant from the institution. Benefits shall be restored back to the date of an applicant's release from a public institution if, while in the institution, the applicant jointly applied for SSI and Food Assistance, but the local office was not notified on a timely basis of the applicant's release.

4.202.33 Outstationing Eligibility Workers in SSA Offices

If the county, with the approval of the State Department, chooses to outstation eligibility workers at SSA offices, with SSA's concurrence, the following actions shall be completed:

A. SSA will provide adequate space for Food Assistance eligibility workers in SSA offices;

B. The county shall have at least one outstationed worker on duty at all time periods during which households will be referred for Food Assistance application processing. In most cases, this would require the availability of an outstationed worker throughout normal SSA business hours;

~~C. The following households shall be entitled to file Food Assistance applications with, and be interviewed by, an outstationed eligibility worker:~~

~~1. Households containing an applicant for or recipient of SSI.~~

~~2. Households which do not have an applicant for or recipient of SSI but which contain an applicant for or recipient of benefits under Title II of the Social Security Act, if the county and the SSA have an agreement to allow the processing of such households at SSA offices.~~

~~D. Households shall be interviewed for Food Assistance on the day of application unless there is insufficient time to conduct an interview. The county shall arrange for the outstationed worker to interview applicants as soon as possible;~~

***

4.203.1 Designating a Head of Household

***

B. The local office shall not use the head of household designation to impose special requirements on the household, such as require that the head of household, rather than another responsible memberS of the household, appear at the local office to APPLY~~make application~~ for benefits. If the household is not able to select its head of household, or an eligible household does not choose to select its head of household, the local office may make a reasonable determination of the head of household with an understanding that the head of household is usually the household member who has the most knowledge of the household's financial circumstances. Such individualS must be a household member, except that, if the only adult in the SNAP~~Food Assistance~~ household is a non-household member, such individual may APPLY~~make application~~ on behalf of the household of minors as the authorized representative.

***

4.203.2 Designating Authorized Representatives

A. The head of the household, spouse or any other responsible household member may designate in writing someone to act on behalf of the household to APPLY~~make an application~~, obtain an EBT card, and/or use the EBT card to purchase food for the household. In instances where a household NEEDS~~is in need of~~ an authorized representative but is unable to obtain one, the local office will assist such a household in finding ONE~~an authorized representative~~. The local ~~certification~~ office will assure that authorized representatives are properly designated; that is, the name of the authorized representative and the justification for appointing a person outside the household shall be maintained as part of the household's permanent case record.

1. SUBMITTING~~Making~~ an Application

The authorized representative must be a person who is sufficiently aware of relevant household circumstances. Whenever possible, the head of the household or spouse should prepare or re-

view the application even though another household member or an authorized representative is the person interviewed.

The local office shall inform the household that the household will be held liable for any over-issuance which results from erroneous information given by the authorized representative.

2. Obtaining an EBT Card

An authorized representative may be designated to obtain an EBT card for the household at the time the household applies for participation. The authorized representative responsible for obtaining an EBT card may be the same individual designated to APPLY~~make application~~ for the household or may be another individual. Even if a household member CAN APPLY~~is able to make an application~~ and obtain an EBT card, the household should be encouraged to name an authorized representative responsible for obtaining an EBT Card in case of illness or other circumstances which might result in an inability to obtain SNAP~~Food Assistance~~ benefits.

***

4.203.21 Individuals Who Cannot Be an Authorized Representative

The following individuals cannot be an authorized representative unless otherwise stated:

A. LOCAL OFFICE~~County department~~ employees who are involved in Program eligibility determination and/or issuance processes, or the supervisors of such workers, unless the local office determines that no other representative is available.

B. Employees of FNS-authorized retailers and meal services that are authorized to accept SNAP~~Food Assistance~~ benefits, unless the local office determines that no other representative is available.

C. An individual disqualified for IPV~~Intentional Program Violation (IPV)~~/fraud shall not be an authorized representative during the period of disqualification unless the individual is the only adult in the household and the office is unable to arrange for another authorized representative. Local offices shall determine whether these disqualified individuals are needed to apply on behalf of the household, to obtain SNAP~~Food Assistance~~ benefits for the household, and to use the household's SNAP~~Food Assistance~~ benefits to purchase food.

***

4.203.22 Disqualification of an Authorized Representative

An authorized or emergency representative may be disqualified from representing a household in the SNAP~~Food Assistance Program~~ for up to one (1) year if the local office has obtained evidence that the representative has misrepresented a household's circumstances and has knowingly provided false information pertaining to the household~~,~~ or has made improper use of SNAP~~Food Assistance~~ benefits. The local office shall send written notification to the affected household(s) and to the representative thirty (30) calendar days prior to the date of disqualification. The notification shall include the proposed action, the reason for the proposed action, the household's right to request a fair hearing, the telephone number of the office, and, if possible, the name of the person to contact for additional information.

***

4.204 Interviews

A. Interview Requirements

All applicant households shall undergo a ~~face-to-face or~~ phone OR FACE-TO-FACE interview with a qualified eligibility ~~worker~~ prior to initial certification and at least once every twelve (12) months. THE STATE DEPARTMENT RECOMMENDS PHONE INTERVIEWS AS THE DEFAULT OPTION WITH FACE-TO-FACE INTERVIEWS ONLY SCHEDULED UPON CLIENT REQUEST. IF AN INDIVIDUAL DOES NOT LIST A WORKING PHONE NUMBER ON THE APPLICATION, THEN A NUMBER FOR THE CLIENT TO CALL THE COUNTY OFFICE SHOULD BE PROVIDED.

A household certified for twenty-four (24) months is not required to complete an interview at the 12-month PRF or at twenty-four (24) month recertification, unless the household either requests an interview, is potentially going to be denied for SNAP~~Food Assistance~~ (24-MONTH HOUSEHOLDS ONLY) or has any outstanding issues or questions about the recertification process.

The applicant may include any person(s) he or she chooses for the interview. The individual interviewed may be the head of the household, spouse, or any other responsible member of the household, or an authorized representative.

A face-to-face interview may be conducted at the ~~county~~ local office or a mutually acceptable location, including the household's residence upon household request. If the interview is to be conducted at the residence, it must be scheduled in advance. The interview shall be conducted as an official and confidential discussion of household circumstances. The applicant's right to privacy shall be protected during the interview. Facilities shall be adequate to preserve the privacy and confidentiality of the interview.

The eligibility TECHNICIAN~~worker~~ shall not simply review the information entered on the application, but shall explore and resolve with the household unclear and incomplete information. Households shall be advised of their rights and responsibilities during the interview, including the appropriate application processing standard and the household's responsibility to report changes. The interviewer must advise households which are applying for other PA~~public assistance~~ programs that any time limits and other requirements for the receipt of other PA~~public assistance~~ do not apply to the receipt of SNAP~~Food Assistance~~. Households may still qualify for SNAP~~Food Assistance~~ if they have reached a time limit, begun working, or lost benefits from another program for another reason.

Upon determination that a person should be referred to an Employment First Unit, the LOCAL OFFICE~~county department~~ shall explain to the applicant the pertinent work requirements, the rights and responsibilities of work registered household members, and the consequences of failure to comply. The local office shall provide a written statement of these requirements to each work registrant in the household and to each previously exempt or new household member when that person becomes subject to the work registration and at recertification.

B. Scheduling Interviews

The local office must schedule an interview for all applicant households who are not interviewed on the same day they APPLY~~submit an application~~ to the LOCAL OFFICE~~county department~~. Interviews

shall be scheduled for a specific date and time and an appointment letter MUST BE PROVIDED~~shall be given~~ to the client AT THE ADDRESS ON FILE. All interviews, including the date and time of the interview, shall be documented in the case record.

IF THE LOCAL OFFICE FAILS TO SCHEDULE AN INTERVIEW WITH THE HOUSEHOLD BEFORE THE 30TH DAY AND NO LATER THAN THE 60TH DAY, THE ORIGINAL APPLICATION CAN BE USED AND BENEFITS ARE ISSUED FROM THE ORIGINAL DATE OF APPLICATION.

IF THE HOUSEHOLD REQUESTS AN INTERVIEW DATE AFTER THE 30TH DAY, THE LOCAL OFFICE WILL DENY THE APPLICATION ON THE 30TH DAY AND THE HOUSEHOLD MUST FILE A NEW APPLICATION.

C. Missed Interviews

If the household fails to attend its scheduled interview, the local office shall mail the household a notice of missed interview, informing the household that it missed the scheduled interview and that the household is responsible for rescheduling the interview. If the household does not schedule a subsequent interview for a date within ~~thirty (~~30~~)~~ calendar days after the application is filed, the application shall be denied by the local office on the ~~thirtieth (~~30th~~)~~ day following the date of application. The application shall not be denied before the ~~thirtieth (~~30th~~)~~ day. ~~If the household fails to appear for a rescheduled interview, no further action need be taken by the local office, unless requested by the household.~~

If a household misses its first interview, the household forfeits its right to expedited service, unless the second interview is rescheduled for a date within seven (7) days following the date of application.

~~If a household completes an interview any time after the thirtieth (30th) day but no later than the sixtieth (60th) day from the date of application, then the original application shall be used to determine eligibility, and the household shall not be required to complete a new application. However, the household's benefits will be prorated from the date the required action was taken within the second thirty (30) day period.~~

~~If the household makes contact with the agency after the sixtieth (60th) day following the date of application, the household shall be required to complete a new application.~~

D. Interviews for PA~~Public Assistance~~ Households

If a household is applying for both PA~~public assistance~~ and SNAP~~Food Assistance~~, the LOCAL OFFICE~~county department~~ shall conduct a single interview at initial application for both PA~~public assistance~~ and SNAP~~Food Assistance~~ purposes. The applicant household shall complete the combined application for PA~~public assistance~~ and SNAP~~Food Assistance~~. Following the single interview, the application may be processed by separate workers to determine eligibility and benefit levels for SNAP~~Food Assistance~~ and PA~~public assistance~~. A household's eligibility for an out-of-office interview for SNAP~~Food Assistance~~ purposes does not relieve the household of any responsibility for a face-to-face interview for PA~~public assistance~~ purposes. Except for households which may be eligible under basic categorical eligibility, the household's SNAP~~Food Assistance~~ eligibility and benefit level shall be based solely on SNAP~~Food Assistance~~ eligibility criteria, and all households shall be certified in accordance with the noticing, procedural, and timeliness requirements of the SNAP-

~~Food Assistance~~ regulations. The PA applicant household shall indicate on the single purpose application if it does not wish to apply for SNAP~~Food Assistance.~~

~~E. Interviews for SSI Households~~

~~Households in which all members are applying for SSI or receiving SSI and are applying and being interviewed for Food Assistance by SSA, will not be required to see a Food Assistance eligibility worker or otherwise be subjected to an additional certification interview. The local office shall accept SSA documentation and shall not contact the household to obtain additional information for the eligibility determination unless the application is improperly completed, mandatory verification required by Section 4.502 is missing, or the local office determines that certain information on the application is questionable. In no event shall the applicant be required to appear at the local office to finalize the eligibility determination. Further contact made in accordance with this paragraph shall not constitute a second Food Assistance certification interview.~~

***

4.205.2 Normal Processing Standards

A. The ~~county~~ local office shall process applications as expeditiously as possible and provide eligible households a written notification of their eligibility. The applicant household must receive a Notice of Action form, which will indicate the household's period of eligibility and SNAP~~Food Assistance~~ allotment. Eligible households shall be provided an opportunity to obtain benefits as soon as possible, but no later than thirty (30) calendar days following the date the application was filed. ~~Except for applications filed at an SSA office,~~ Aan application shall be considered filed the day a local office in the correct county receives a valid application containing the applicant's name, address, and signature.

Households found to be ineligible shall be sent a Notice of Action form denying the household as soon as possible, but no later than thirty (30) calendar days following the date the application was filed. Applicant households that refuse to cooperate in completing the application process shall be denied at the time of refusal. For a determination of refusal to be made, the household must be able to cooperate, but clearly refuse to take actions that are required to complete the application process.

B. In cases where verification is incomplete, the local office shall provide the household with a statement of required verification on the state-prescribed notice form and offer to assist the household in obtaining the required verification. The office shall allow the household ten (10) calendar days to provide the missing verifications, unless the household missed the first appointment. A trafficked minor shall have either an interim assistance letter or an eligibility letter from ORR to be eligible for SNAP-~~Food Assistance~~. The local office shall accept these letters in place of Department of Homeland Security documentation.

b. Certification letters and eligibility letters do not expire; however, interim assistance letters that are provided to children are valid for ninety (90) calendar days from the effective date of the letter. The facility shall be strictly liable for all losses or misuse of benefits held on behalf of resident households and for all over-issuances that occur while the households are residents of the treatment center. However, the resident applying on his/her own behalf shall be responsible for over-issuance as would any other household.

E. The group living arrangement may purchase and prepare food to be consumed by eligible residents on a group basis if residents normally obtain their meals at a central location as part of the group living arrangement services or if meals are prepared at a central location for delivery to the individual residents. If residents purchase and/or prepare food for individual consumption, as opposed to communal dining, the group living arrangement shall ensure that each resident's SNAP~~Food Assistance~~ benefits are used for meals intended for that resident. If the resident retains use of his/her own allotment, he/she may either use the benefits to purchase meals prepared for them by the facility or to purchase food to prepare meals for their own consumption.

4.309.42 Disqualification of the Group Living Arrangements

A group living arrangement facility authorized by FNS may be penalized or disqualified if it is determined administratively or judicially that benefits were misappropriated or used for purchases that did not contribute to a certified household's meals. 4.402 HOUSEHOLD INCOME ELIGIBILITY

1. Income eligibility shall be determined prospectively based on the eligibility TECHNICIAN'Sworker's anticipation of income at the time of application and when changes are made known to the local office.

***

B. Variations in Date of Pay

1.Regular ongoing earned income that is received early or late by a household due to a holiday, a weekend, or pay dates being changed will have income COUNTEDcourted based on the regular pay schedule instead of the actual date of pay.

***

3. Household income shall mean all earned and unearned income received or anticipated to be received by household members from whatever source, unless specifically exempted for SNAPFood Assistance eligibility and budgeting purposes, per Section 4.405. Income of household members, including the amount of the disqualified person's income attributed to the household, shall be counted as income in the month received or the month it becomes available, unless the income is averaged over the certification period.

***

4.402.1 Prospective Budgeting

A. Prospective budgeting is the process of computing a household's allotment based on anticipated income and circumstances during the issuance month. All SNAPFood Assistance households and all situations require prospective budgeting determinations, including public assistance households under the Title IVA (TANFTemporary Assistance to Needy Families/Colorado Works) Program.

4.402.2 Averaging Income

***

B. The types of households listed above shall have their self-employment income, contract income, or educational monies annualized or prorated, and added to other household income to determine monthly ~~Food Assistance~~ income FOR SNAP.

B. To average income prospectively, the eligibility TECHNICIAN~~worker~~ shall use the household's anticipation of income, considering fluctuations, to obtain a monthly average amount for the period of certification. The number of months used to arrive at the average income need not be the same as the number of months in the certification period, such as the known income from two (2) previous months may be averaged and projected for each month of a certification period that is longer than two (2) months. Refer to Section 4.403.11 for more information on computing self-employment income.

Fluctuating income that has been averaged may be adjusted if verification of a change in circumstances is received.

4.403 COUNTABLE EARNED INCOME

The following shall be considered as earned income~~.:~~

A. Wages and Salaries

***

2. Earned income includes government payments from Agricultural Stabilization and Conservation Service and wages of AmeriCorps Volunteers in Service to America (VISTA) workers. VISTA payments are excluded if the client was receiving SNAP~~Food Assistance~~ BENEFITS when he or she joined VISTA. If the client was not receiving SNAP BENEFITS~~Food Assistance~~ when he or she joined VISTA, the VISTA payments shall count as earned income. Temporary interruptions in SNAP~~Food Assistance~~ participation shall not alter the exclusion once an initial determination has been made (see Section 4.405.2, A, 3). Temporary interruptions shall be defined as a period of time where a household or individual missed a full month of benefits, excluding instances where the lapse in benefits is due to the local office not taking timely action in accordance with the processing standards outlined in Sections 4.604, 4.205, or 4.209.1.

3. Wages held at the request of the employee shall be considered income to the household in the month the wages would otherwise have been paid by the employer. Advances on wages shall count as income in the month received, if reasonably anticipated. However, wages held by the employer as a general practice shall not be counted as income unless the household anticipates that it will receive income from such wages previously withheld by the employer.

When an advance on wages is subsequently repaid from current wages, only the ~~amount of~~ wages received is considered as income. The amount of repayment is disregarded, even if the wage-earner was not a SNAP~~Food Assistance~~ participant at the time of the advance.

***

E. Self-Employment

The method of ascertaining the self-employment income to be considered for SNAP~~Food Assistance~~ purposes is often difficult and the guidelines set forth in Sections 4.403.1–4.403.12 are meant to clarify and aid the process.

***

2. Monies received from the sale of capital goods, services, and property connected to the self-employment enterprise. Proceeds of sales from capital goods or equipment are to be treated as income rather than as capital gains.

The term “capital gains”, as used by the Internal Revenue Service (IRS), describes the handling of the profit from the sale of capital assets such as, but not limited to, computers and other electronic devices, office furniture, vehicles, and equipment used in a self-employment enterprise; or securities, real estate, or other real property held as an investment for a set TIME period ~~of time~~. F. Owners of Limited Liability Corporations (LLC) and S-Corporations

For SNAP~~Food Assistance Program~~ purposes, owners of LLCs or S-Corporations are considered employees of the corporation and, therefore, cannot be considered self-employed. Because they are not considered self-employed, they are not entitled to the exclusion of allowable costs of producing self-employment income. The income from these types of corporations should be treated as regular earned income, not self-employment income.

***

4.403.11 Determining Monthly Income from Self-Employment

***

D. Anticipating Capital Gains and Other Self-Employment Income

When self-employment income is calculated on an anticipated basis, any capital gains that the household anticipates receiving in the next twelve (12) months, beginning with the date the application is filed, are added and divided by twelve (12). This amount is used in successive certification periods over the next twelve months unless a change occurs. A new average monthly amount must be calculated over this twelve month period if the anticipated amount of capital gains changes. The anticipated monthly amount of capital gains and the anticipated monthly self-employment income then are added and the anticipated cost of producing the income deducted. The cost is calculated by anticipating the monthly allowable costs of producing the self-employment income.

The monthly net self-employment income will be added to any other earned and unearned income received by the household to determine eligibility of self-employed SNAP~~Food Assistance~~ applicants.

For those households with self-employment income which is not annualized, the eligibility TECHNICIAN~~worker~~ shall anticipate income. Any anticipated proceeds from the sale of capital gains shall be used as income in the month the proceeds are anticipated to be received.

4.505.61 Verification of SSA Forty Work Quarters

The SSA~~Social Security Administration's~~ Quarters of Coverage History System (QCHS) is available for purposes of verifying whether a lawful permanent resident has earned or can receive credit for forty (40) qualifying quarters. If the individual does not have documentation, he/she cannot participate until verification of forty (40) quarters of work is received from either the ~~Social Security Administration (~~SSA~~)~~ or the individual.

If the SSA~~Social Security Administration~~ determines that its existing records do not verify that an individual claiming forty (40) credits or quarters in fact has the forty (40) credits or quarters and the individual believes the SSA~~Social Security Administration~~ records are not correct, the SSA~~Social Security Administration~~ will work with the individual to determine whether the additional credits or quarters can be established. The individual should be advised that he/she has the option of working with the SSA~~Social Security Administration~~ and that if he or she exercises this option and obtains a statement from SSA indicating that the number of credits or quarters is under review, he/she can continue to receive SNAP ~~BENEFITS-Food Assistance~~ for up to six (6) additional months from the date of the original determination of insufficient quarters.

A. No such qualifying quarter of coverage that is creditable under Title II of the Social Security Act for any period beginning after December 31, 1996, may be credited to a non-citizen if the non-citizen, parent of the non-citizen, or spouse of such non-citizen ~~actually~~ received any federal means-tested public benefit during the period for which such qualifying quarter of coverage is so credited.

B. The local office must evaluate quarters of coverage and receipt of federal means-tested public benefits on a calendar year basis. The local office must first determine the number of quarters creditable in a calendar year, then identify those quarters in which the non-citizen (or the parent(s) or spouse of the non-citizen) received federal means-tested public benefits and then remove those quarters from the number of quarters of coverage earned or credited to the noncitizen in that calendar year. However, if the non-citizen earns the fortieth (40th) quarter of coverage

prior to applying for SNAPFood Assistance or any other federal means-tested public benefit in that same quarter, the local office must allow that quarter toward the forty (40) qualifying quarters total.

***

4.505.7 Verification of Non-citizen Sponsorship

A. The local office shall verify the following information at the time of initial application and recertification:

1. The income and resources of the non-citizen's sponsor and the sponsor's spouse (if living with the sponsor) at the time of the non-citizen's application for SNAPFood Assistance.

4.505.8 Verification of Disqualified Member Data

At the time of application and when adding a new member to a SNAPFood Assistance household, the office shall verify data with the national IPV/disqualification database for all household members ageD eighteen (18) or older to determine if any members have an active intentional Program violation (IPV)/ disqualification from another state which requires a portion, or the entirety of, the disqualification period to be served in Colorado. Application processing shall not be delayed while awaiting verification from another state.

The local office shall ensure that:

***

C. States shall be given twenty (20) calendar days to respond to a request for verification. If verification cannot be provided by the other state, then the disqualification shall not be acted upon. Local offices shall be given twenty (20) calendar days to respond to another state's request of obtaining verification of a Colorado IPV. If the LOCAL OFFICEcounty department cannot provide verification, then steps shall be taken to remove the IPV from the national database.

D. Once independent verification is received, adverse action shall be granted prior to benefits being reduced, suspended, denied, or terminated; and,

E. The disqualified individual shall be provided an opportunity to appeal any adverse action.

If the local office issues benefits ARE ISSUED BY THE LOCAL OFFICE to an individual while awaiting verification of an IPV disqualification, the benefits issued while awaiting such verification may be claimed back if it is determined that the individual was disqualified from the program at the time the benefits were issued.

4.506 VERIFICATION OF INCOME

***

A. Responsibility

1. Applicants are primarily responsible for furnishing income verification documents, a collateral contact, or the authorization needed to secure sufficient information to allow written or verbal verification by the eligibility TECHNICIANworker. For public assistance (PA) recipients, the PA case record will normally be used as the source of verification.

***

4. In some instances, however, all attempts to verify income may be unsuccessful because the person or organization has failed to cooperate with the household. A cooperating applicant shall not be denied solely because a third party refuses to provide verification. The eligibility TECHNICIANworker shall, in consultation with the applicant or other sources, arrive at a figure to be used for certification purposes and annotate the household's case record with information used to make an eligibility determination.

***

C. Self-Employment

Self-employment verification may consist of tax documents, self-employment ledgers maintained by the household, receipts, or other documents used for verifying and documenting the household's self-employment income and expenses. If, at the time of initial certification, a household is recently self-employed or does not have adequate documentation of the household's self-employment income and expenses, the eligibility TECHNICIANworker shall use the best information available to determine the household's monthly income. The household shall be encouraged to keep records of income and expenses for subsequent certifications. No specific verification shall be required and the dDocumentation provided by the household shall be accepted unless questionable. NO SPECIFIC VERIFICATION SHALL BE REQUIRED.

***

F. Cases of No Reported Income

1. In addition to verifying reported income, the eligibility worker may have occasion to explore the possibility of unreported income. Prior to determining the eligibility of households who report no income or income so low as to place them at the maximum benefit level without consideration of deductible expenses, the eligibility worker must, through in-depth interviewing techniques, determine how the household maintains its existence and meets ongoing maintenance expenses. Collateral contact with a person or persons knowing the household's circumstances is recommended. The existence of resources, UNPAID BILLS, AND/OR CREDIT might be an explanation of how the household exists WITH NO INCOME OR INCOME SO LOW AS TO PLACE THEM AT THE MAXIMUM BENEFIT LEVEL WITHOUT CONSIDERATION OF DEDUCTIBLE EXPENSES. THE APPLICANT'S STATEMENT OF NO INCOME IS ACCEPTABLE, UNLESS OTHERWISE QUESTIONABLEat the level of income reported.
2. When exploring the possibility of unreported income or how the household is meeting its expenses, the local office shall not initiate a request for verification of such information, but shall explore how the household is meeting its needs through an interview. If, at the time of recertification, the local office needs to explore the possibility of unreported income or how the household is meeting its needs, the household shall be contacted by telephone to resolve the discrepancy. If

~~the household cannot be contacted, then the interview process outlined in Section 4.204 can be initiated.~~

***

4.601 General Requirements for Reporting Changes

***

B. Households shall be required to report the increase in income no later than ten (10) calendar days from the end of the calendar month in which the change occurred. ~~The local office has up to ten (10) calendar days to act on the information from the date the change is considered reported.~~

***

4.603 HOUSEHOLD RESPONSIBILITY TO REPORT CHANGES

A. Applicant households shall report all changes related to their SNAP~~Food Assistance~~ eligibility and benefits at the certification interview, including any changes that occurred between the date an application is submitted and the date of the interview. If a change is reported in an initial month and the application has not yet been processed, the local office shall act on the most current information.

***

4.604 ACTION ON REPORTED CHANGES

Changes shall be acted on in accordance with the following guidelines:

A. General Requirements

Changes to a household's circumstances shall be acted on prospectively and processed within ten (10) calendar days from the date the change is ~~considered to be~~ reported. Changes reported by households shall be documented in the SNAP~~Food Assistance~~ case record to indicate the change and the date that the change was reported. If the reported change causes a change to the household's allotment, a notice of action form shall be issued to inform the household of a new basis of issuance and/or a supplemental allotment. If a supplemental allotment is to be issued, the amount of the supplemental allotment shall be the difference between the allotment the household is eligible to receive, due to the reported change, and the allotment the household ~~actually~~ received for the current month. The household's total monthly allotment shall be increased for all subsequent months of the certification period that are affected by the change.

***

C. Changes Resulting ~~I~~In an Increase

1. The county local office shall act on any change reported by the household that will increase benefits. The increased allotment shall be made no later than the first allotment issued ten (10) or more calendar days after the change is ~~considered to be~~ reported. Any increase in benefits resulting from a change shall take effect the month following the month the change is considered re-

ported. Therefore, if such a change is reported after the twentieth (20th) of a month, and it is not possible to adjust the following month's allotment before the household's next normal issuance day, a supplemental allotment (in addition to the previously authorized monthly allotment) must be issued within ten (10) calendar days from the date the change was ~~considered to be~~ reported. A supplemental allotment shall not be issued for the month in which the change occurred.

2. Changes that result in increased SNAP~~Food Assistance~~ benefits for a household must be verified by the household within ten (10) calendar days from the date the change is reported. If the household fails to provide verification, benefits shall remain at the original level until verification is obtained. Changes that result in increased SNAP~~Food Assistance~~ benefits for a household must be verified prior to adjusting the household's allotment.

***

G. Changes in Household Composition

***

2. Individuals Disqualified During the Certification Period

When an individual is disqualified during the household's certification period, the LOCAL~~Food Assistance certification~~ office shall determine the eligibility or ineligibility of the remaining household members based on information contained in the case record. If information in the case record is insufficient, additional information shall be obtained as needed.

***

4.604.1 Verification of Reported Changes

BEFORE ACTION IS TAKEN ON REPORTED CHANGES AND TO DETERMINE THE EFFECT ON BENEFITS, ADDITIONAL VERIFICATION IS REQUIRED IN THE FOLLOWING INSTANCES:~~Changes that affect an allotment may require additional verification prior to taking action.~~

A. Unclear Information

1. If the local ~~county~~ office receives information about changes in a household's circumstances but cannot determine if or how the change will affect the household's benefits and the unclear information is:

a. Fewer than sixty (60) days old relative to the current month of participation; and

b. Was required to have been reported per simplified reporting rules; or

c. Appears to present significantly conflicting information about the household's circumstances from that used by the agency at the time of certification, including changes to the household's categorical eligibility tier, then;

The local office shall send a verification request notice requesting the household to provide the specific information or verification within the ten (10) calendar days plus one (1) additional calendar day for mailing ~~time period~~. Households partici-

pating in the Address Confidentiality Program (ACP) shall receive five (5) additional calendar days for mailing time. The local office shall ASSIST THE CLIENT ~~offer assistance~~ in obtaining the verification if the household cannot obtain the information.

If the household fails or refuses to provide the verification or to request assistance with obtaining the verification within the ten (10) calendar days plus one (1) additional calendar day for mailing timeframe, or five (5) additional calendar days mailing time for ACP households, the process for closing the case shall be initiated. The Notice of Action Form shall advise the household that a change occurred that could not be acted upon, that the case is being closed, and that the household must provide the needed verification if it wishes to continue participation in the program. The household may be required to reapply if the household takes the required action after a break in benefits of more than thirty (30) calendar days.

***

3. Changes which result in increased SNAP~~Food Assistance~~ benefits for a household shall be verified prior to adjusting the household's allotment. If the household fails to provide verification, benefits shall remain at the original level until verification is obtained.

B. Computer Matches Not Considered Verified Upon Receipt

When information is received from a Prisoner Verification System indicating an individual is currently being held in a federal, state, or local detention or correctional institution for more than thirty (30) days or information is received from a Deceased Matching System indicating a household member has recently died, a notice of match shall be sent to the affected household prior to taking action to adjust or terminate the household's benefits.

The notice of match shall explain what information is needed to challenge the match and the consequences of failing to respond. The notice shall provide the household with ten (10) calendar days plus one (1) additional calendar day for mailing time to respond. Households participating in the ~~Address Confidentiality Program (~~ACP~~)~~ shall be provided five (5) additional calendar days for mailing time.

If the household substantiates the match, fails to respond to the notice, or fails to provide sufficient verification to challenge the match results, the agency shall remove the subject individual from the SNAP~~Food Assistance~~ household and adjust benefits accordingly following the procedures outlined in Section 4.604.

If the household provides sufficient verification that the match is invalid, no further action shall be taken to remove the subject individual or adjust the household's benefits. The case record shall be documented accordingly.

4.605 FAILURE TO REPORT CHANGES

If SNAP~~Food Assistance~~ benefits are over-issued because a household fails to timely report changes as required, a claim shall be established and a notice of overpayment and a repayment agreement will be

mailed. If the discovery is made within the certification period, the household must be given advance notice of adverse action if its benefits are to be reduced.

4.606 ~~HANDLING PUBLIC ASSISTANCE (~~PA~~)~~ HOUSEHOLD CHANGES

A. Households that receive PA~~public assistance~~ benefits which report a change in circumstances to the PA~~public assistance~~ worker shall be considered to have reported the change for SNAP~~Food Assistance~~ purposes. Information that is reported and verified to a ~~public assistance (~~PA~~)~~ program which results in a change to the PA benefit amount and that meets the SNAP~~Food Assistance~~ rules for verification shall be considered VUR~~verified upon receipt~~. The date the change is considered reported and verified is the date the PA~~public assistance~~ program processes the change and authorizes the new PA benefit amount. When acting on information considered VUR~~verified upon receipt~~, advance notice of adverse action is required, except as noted in Section 4.608.1.

B. When there is a change in a PA~~public assistance~~ case and the county has sufficient information to make the corresponding SNAP~~Food Assistance~~ adjustment, the county shall follow the guidelines listed below.

1. If the change in household circumstances requires a reduction or termination of both PA~~public assistance~~ and SNAP~~Food Assistance~~, the following action will be required:
   1. Send NOA~~Notices of Adverse Action~~ for both programs simultaneously with both notices bearing the same effective date.
   2. If a household requests a fair hearing any time prior to the effective date of the Notice of Adverse Action, and its certification period has not expired, the household's participation in the program shall be continued on the basis authorized immediately prior to the Notice of Adverse Action, unless the household specifically waives continuation of benefits. Continued benefits shall not be issued for a period beyond the end of the current certification period.
   3. If the household appeals only a PA adverse action and is granted interim relief, SNAP~~Food Assistance~~ benefits authorized prior to the adverse action shall continue or be restored. However, the household must reapply if the SNAP~~Food Assistance~~ certification period expires before the hearing process is completed.
   4. If the household does not appeal the adverse action to decrease the PA~~public assistance~~ or SNAP~~Food Assistance~~ benefits within the adverse action period, the changes shall be made in accordance with timeframes outlined in Section 4.603.
2. If the change requires a reduction or termination of PA BENEFITS~~public assistance~~ and/or increases in SNAP~~Food Assistance~~, the following action will be required:
   1. A PA~~public assistance~~ Notice of Adverse Action shall be issued to the household and SNAP~~Food Assistance~~ benefits shall not be increased until the adverse action period expires. If the household does not appeal, the increase shall be effective in accordance with Section 4.604. The time limit for taking the action to increase SNAP~~Food Assistance~~ benefits shall be calculated from the date the PA Notice of Adverse Action expires. The Notice of Adverse Action expires eleven (11) calendar days from the date it is issued or fifteen (15) calendar days for households participating in the address confidentiality program (ACP).
   2. If the household requests a PA state appeal and is granted interim relief, the household is entitled only to SNAP~~Food Assistance~~ benefits that were authorized immediately prior to the PA adverse action and action must be taken to correct the current basis of issuance. A SNAP~~Food Assistance~~ claim must be made against the household if there was an overissuance for the period pending the appeal decision.

3. When there is a change in a PA case which results in a termination of PA but there is insufficient information to determine SNAPFood Assistance eligibility, the county shall follow the guidelines listed below:

1. The PA Advance Notice of Adverse Action and a verification request notice are issued simultaneously. The PApublic assistance notice makes the action effective on the last day of the month the notice is sent (or the last day of the following month, as appropriate, to allow for the required advance notice period). The routine extension on SNAPFood Assistance notices allows the household time to reapply for benefits at the appropriate local office.

***

LOCAL OFFICES~~County departments~~ shall not charge a fee if the replacement is issued by mail or the original card is inoperable due to no fault of the cardholder. LOCAL OFFICES~~County departments~~ shall not charge a fee if the client is being recertified, and if, during the period of non-participation, the client has destroyed, lost, or damaged the original card.

C. LOCAL OFFICES~~County departments~~ shall not collect replacement fees by debiting a recipient's SNAP~~Food Assistance~~ account.

4.800 CLAIMS, APPEAL PROCESS, AND FRAUD

Pursuant to Section 15(d) of the Food Stamp Act, benefits are an obligation of the United States within the meaning of 18 United States Code (USC) 8. The provisions of Title 18 of the United States Code, “Crimes and Criminal Procedure, Relative to Counterfeiting, Misuse and Alteration of Obligations of the United States” are applicable to SNAP~~Food Assistance~~ benefits. Copies of the U.S. Code are available for ~~public~~ inspection ~~by contacting the Food Assistance Director during regular business hours at the Colorado Department of Human Services, Food Assistance Program, 1575 Sherman Street, Denver, Colorado 80203; or at a state publications depository library~~. No later editions or amendments are incorporated.

Any unauthorized issuance, use, transfer, acquisition, alteration, possession, or presentation of SNAP~~food assistance~~ benefits may subject an individual, partnership, corporation, or other legal entity to prosecution.

4.801 CLAIMS AGAINST HOUSEHOLDS

A claim shall be established when a household is over- issued benefits. An over-issuance means the amount by which SNAP~~Food Assistance~~ benefits issued to a household exceeds the amount the household was eligible to receive.

4.801.1 Classification of Claims

Claims shall be classified as follows:

A. "Agency Error Claims" - A claim shall be handled as an agency error claim if the over-issuance is caused by an error on the part of the local office. Instances that may result in an agency error claim include, but are not limited to, the following:

1. The local office failed to take prompt action on a change reported by the household;
2. The local office incorrectly computed the household's income or deductions, or otherwise assigned an incorrect allotment;
3. The local office continued to provide a household SNAP~~Food Assistance~~ benefits after its certification period expired without a redetermination of eligibility.
4. The local office failed to provide a household a reduced level of SNAP~~Food Assistance~~ benefits when its PA~~public assistance~~ grant changed.

B. "Inadvertent Household Error Claims" - A claim shall be handled as an inadvertent household error claim if the over-issuance was caused by a misunderstanding or unintentional error on the part of the household. Instances that may result in an inadvertent household error claim include, but are not limited to, the following:

***

4. The household was receiving SNAP~~Food Assistance~~ solely because of basic categorical eligibility and the household was subsequently determined ineligible for CW~~Colorado Works~~ or ~~Supplemental Security Income (~~SSI~~)~~ during the time that the benefits were being received. The claim must be based on a change in net income and/or household size.

5. The SSA~~Social Security Administration~~ failed to take action that resulted in the household's basic categorical eligibility and improper receipt of SSI. The claim must be based on change in net income and/or household size.

C. "IPV~~Intentional Program Violation~~/Fraud Claims" - A claim shall be handled as an IPV~~intentional program violation~~/fraud claim only if:

1. An administrative disqualification hearing official or a court of appropriate jurisdiction has found a household member has committed AN IPV~~intentional program violation~~ or fraud; or,
2. A signed waiver of IPV~~intentional program violation~~ is received; or
3. A signed disqualification consent agreement has been obtained.

Prior to a waiver or consent agreement being signed or the determination of IPV~~intentional program violation~~/fraud, the claim against the household shall be handled as an inadvertent household error claim.

4.801.2 Establishing Claims Against Households

A. Establishing a claim

1. The local office shall establish claims in accordance with the thresholds outlined below.

a. For participating households, the LOCAL OFFICE~~county department~~ shall not establish a claim for overpayment due to Administrative Error (AE) or Inadvertent Household Error (IHE), except in the following circumstances:

1. When the amount of the claim is greater than $200; or
2. When the OVER-ISSUANCE~~overpayment~~ is identified through a federal or state level quality control review; or,

3. When the IHE claim is being pursued as an ~~intentional program violation (~~IPV~~)~~, except that if the IHE claim does not result in an IPV, collection shall not be pursued.

b. For households not participating in SNAP~~the Food Assistance program~~, the LOCAL OFFICE~~county department~~ shall not establish a claim for OVER-ISSUANCES~~overpayment~~ except in the following circumstances:

1. When the amount of the AE claim is greater than $400; or
2. When the amount of the claim is due to an IHE and is greater than $200; or
3. When the OVER-ISSUANCE~~overpayment~~ is identified through a federal or state level quality control review.

***

3. Claims shall be established for benefits that are trafficked. The trafficking of benefits means:

a. The buying, selling, stealing, or otherwise affecting an exchange of SNAP~~Food Assistance~~ benefits issued and accessed via EBT~~Electronic Benefit Transfer~~ cards, card numbers and personal identification numbers (PINs), or by manual voucher and signature for cash or consideration other than eligible food, either directly, indirectly, in complicity or collusion with others, or acting alone; or,

b. The exchange of SNAP~~Food Assistance~~ benefits or EBT cards for firearms, ammunition, explosives, or controlled substances; or,

c. A SNAP~~Food Assistance~~ participant, including the participant's designated authorized representative, who knowingly transfers SNAP~~Food Assistance~~ benefitS to another who does not, or does not intend to, use the SNAP~~Food Assistance~~ benefits for the SNAP~~Food Assistance~~ household for whom the ~~Food Assistance~~ benefits were intended; or,

d. The reselling of food that was purchased with SNAP~~Food Assistance~~ benefits for cash; or,

e. Obtaining a cash deposit when returning water or other containers that were purchased with SNAP~~Food Assistance~~ benefits. Purchasing water containers is an eligible food item that can be paid for with SNAP~~Food Assistance~~ benefits; however, when the container is returned, the deposit should be returned to the client's EBT card and not given to the client in cash; or,

f. Attempting to buy, sell, steal or otherwise affect an exchange of SNAP~~Food Assistance~~ benefits and accessed via ~~Electronic Benefit Transfer (~~EBT~~)~~ cards, card numbers and personal identification numbers (PINs), or by manual voucher and signatures or consideration other than eligible food, either directly, indirectly, in complicity or collusion with others, or acting alone.

4. Claims shall be established against the following individuals:

a. All adult household members ageD eighteen (18) years of age or older at the time the over-issuance occurred, even if one or more of the adult household members are participating in another SNAP~~Food Assistance~~ household at the time the claim is established;

b. A person connected to the household, such as an authorized representative, who ~~actually~~ traffics or otherwise causes an over-issuance to occur.

B. Timeframe to Establish a Claim

Local offices shall establish all claims before the last day of the quarter following the quarter in which the OVER-ISSUANCE~~overpayment~~ or trafficking incident was discovered.

***

4.801.3 Calculating the Amount of a Claim

A. Compromising Claims

***

Claims should be compromised if the household demonstrates need, such as the inability to repay the claim within three (3) years, or if the household proves that financial, physical, or mental hardship would exist if forced to pay the full amount of the original claim. Some circumstances include, but are not limited to medical hardships, high shelter costs, loan payments, and other extraordinary expenses. A compromise based on hardship may be applied to a SNAP~~Food Assistance~~ case IF~~whether or not~~ the household is OR IS NOT still receiving SNAP~~Food Assistance~~ benefits.

***

C. Agency Error and Inadvertent Household Error Claims

***

2. The claim must also be offset against restored benefits owed to:

a. Any household that contains a member who was an adult member of the original household;
b. Any household that contains an authorized representative that caused the OVER-IS-SUANCE~~overpayment~~ or trafficking.
c. In no circumstance may the local office collect more than the amount of the claim.

3. For households eligible under BCE~~basic categorical eligibility~~, a claim shall only be determined when it can be computed on the basis of changed household net income and/or household size. A claim shall not be established if there was not a change in net income and/or household size.

If a household receives both ~~Temporary Assistance for Needy Families (~~TANF~~)~~ and SNAP~~Food Assistance~~ and mis-reports information to TANF in accordance with the TANF reporting requirements, and the mis-report of information to TANF resulted in the household being over paid TANF or ineligible for TANF, any resulting SNAP~~Food Assistance~~ claim should be based on the actual TANF issued.

4. The correct allotment shall be calculated using the same methods applied to an actual certification. The twenty percent (20%) earned income deduction shall not be applied to that part of any earned income that the household failed to report in a timely manner when this act is the basis for the claim; therefore, any portion of the claim that is due to earned income being reported in an untimely manner will be calculated without allowing the twenty percent (20%) earned income deduction. The actual circumstances of the household shall be used to calculate the claim. In instances when a claim is caused by the household's failure to report information as required, the amount of the claim is based on the allotment difference from what the household ~~actually~~ received compared to what the household would have received if the

household would have reported the information as required. For example, if a simplified reporting household did not report income at initial application as required, the income used to calculate the OVER-ISSUANCE~~overpayment~~ would be the income that the household ~~actually~~ received in the month of application, as this would have been used to determine the household's ongoing monthly amount. Actual income received each subsequent month is not required to calculate each month of the claim, as any fluctuation in monthly income that was received by the household after the initial month of application was not required to be reported by the household. If the household failed to report a change in household circumstances that would have resulted in an increase in benefits during the ~~time~~ period of the claim, the local office shall act on the change in information as of the date the change was reported to the local office.

5. When a household certified below 130% FPL fails to report an increase in household income over 130% FPL. The local office shall establish the claim for each month in which an over-issuance of SNAP~~Food Assistance~~ has occurred.

a. In cases involving household failure to report an increase in income within the required timeframes, the first (1st) month affected by the household's failure to report shall be the first (1st) month in which the change would have been effective had it been timely reported. However, in no event shall the determination of the first (1st) month in which the change would have been effective be any later than two (2) months from the month in which the change occurred. For purposes of calculating the claim, the local office shall assume that the change would have been reported properly and timely acted upon by the local office.

b. If the household timely reported an increase in income but the local office failed to act on the change within the required timeframes, the first (1st) month affected by the local office's failure to act shall be the first (1st) month the office would have made the change effective had it acted timely. If a Notice of Adverse Action WERE~~was~~ required, the local office shall assume, for the purpose of calculating the claim, that the Notice of Adverse Action period would have expired without the household requesting a fair hearing.

D. IPV Claims

***

2. For each month that a household received an over-issuance due to an act of IPV~~intentional program violation~~/fraud, the local office shall determine the correct amount of SNAP~~Food Assistance~~ benefits, if any, the household was entitled to receive. If the household member is determined to have intentionally failed to report a change in its household's circumstances, the claim shall be established for each month in which the failure to report would have affected the household's SNAP~~Food Assistance~~ allotment.

***

4.801.4 Collecting Payments on Claims

A. Claim Liability
1. Liable Individuals

All adult household members ageD eighteen (18) years or older at the time the overissuance occurred, sponsors, or other persons, such as an authorized representative who actually trafficked or otherwise caused an OVER-ISSUANCE~~overpayment~~ or trafficking to occur, that are connected with the household shall be jointly and severally liable for the value of any over-issuance of benefits to the household.

2. Initiating Collection Action

a. Local offices shall initiate collection action against ~~any and~~ all of the adult members or persons connected to the household at the time an over-issuance occurred. Under no circumstances shall the office collect more than the amount of the claim.

b. The local office may pursue collection action against any household that has a member that was connected to the household that received or created an over- issuance.

c. The local office shall initiate collection action for an unpaid or partially paid IPV claim even if collection action was previously initiated against the household while the claim was being handled as an inadvertent household error claim. Collection action shall be initiated unless the household has already repaid the over-issuance BECAUSE~~as a result~~ of an inadvertent household error demand letter or the local office has documentation that shows the household cannot be located.

****

D. Negotiating Payment Plans

***

1. Establishing a Payment Plan

The local office shall negotiate a payment schedule with the household for repayment of any amounts of the claim not repaid through a lump sum payment or through allotment reduction. Payments shall be accepted in regular installments. The household may use SNAP~~Food Assistance~~ benefits as full or partial payment of any installment. The local office shall ensure that the negotiated amount of any payment schedule to be repaid each month through installment payments is not less than the amount that could be recovered through an allotment reduction. Once negotiated, the amount to be repaid each month through installment payments shall remain unchanged regardless of subsequent changes in the household's monthly allotment. However, both the local office and the household shall have the option to initiate renegotiation of the payment schedule if they believe that the household's economic circumstances have changes enough to warrant such action.

***

E. Determining Delinquency

***

2. Claims shall not be considered delinquent under the following circumstances:

a. If another SNAP~~Food Assistance~~ claim for the same household is currently being paid, either through an installment agreement or an allotment reduction, and the local office expects to begin collection on the claim once the prior claim(s) is settled;

***

F. Joint Collections Received for a Combination SNAP~~Food Assistance~~ and PA~~Public Assistance~~ Claim

An unspecified joint collection is when funds are received in response to correspondence or a referral that contained both the SNAP~~Food Assistance~~ and other program claims, and the debtor does not specify to which program to apply the payment. The local office shall ensure that unspecified joint collections are pro-rated among the programs involved. When an unspecified joint collection is received for a combined public assistance and SNAP~~Food Assistance~~ claim, each program shall receive its pro-rated share of the amount collected.

4.801.41 Methods of Collecting Payment on Claims

***

B. SNAP~~Food Assistance~~ Allotment Reduction

1. The local office shall collect payments for claims from households currently participating in the Program by reducing the household's SNAP~~Food Assistance~~ allotment. For claims where there is a court-ordered judgment for repayment, allotment reduction shall not occur.

   Prior to reduction, the local office shall inform the household of:

a. The appropriate formula for determining the amount of SNAP~~Food Assistance~~ to be recovered each month; and,
b. The amount of SNAP~~Food Assistance~~ the local office expects will be recovered each month; and,

***

3. The amount of SNAP~~Food Assistance~~ to be recovered each month through allotment reduction shall be determined as follows:

a. For AE claims and IHE claims, the amount of SNAP~~Food Assistance~~ to be recovered each month from a household shall either be ten percent (10%) of the household's monthly allotment or ten dollars ($10) each month, whichever is greater.
b. For IPV claims, the amount of SNAP~~Food Assistance~~ benefit reduction shall either be twenty percent (20%) of the household's monthly allotment or twenty dollars ($20) per month, whichever is greater.

***

C. Benefits FF~~rom~~ an EBT Account

***

3. When a local office pursues payment on a claim by applying SNAP~~Food Assistance~~ benefits from the household's stale EBT account, prior written notice shall be given to the household of the existing stale EBT account that may be applied to an outstanding claim. The county shall notify the household that the benefits will be applied to the claim unless the household objects to this offset. The household must be given ten (10) calendar days to object before the benefits can be applied as a payment to the claim. A stale EBT account means an account that has benefits but has not been accessed for at least three (3) consecutive calendar months.

D. Offset Against Taxpayer's State Income Tax Refund

1. The state DEPARTMENT and LOCAL OFFICE~~county departments~~ may recover OVER-ISSUANCES~~overpayments~~ of PA~~public assistance~~ benefits through the offset (intercept) of a taxpayer's state income tax refund. Rent rebates are subject to the offset procedure. This method may be used to recover OVER-ISSUANCES~~overpayments~~ that have been:

***

2. Pre-Offset Notice

Prior to certifying the taxpayer's name and other information to the Department of Revenue, the STATE DEPARTMENT~~Colorado Department of Human Services~~ shall notify the taxpayer in writing at his or her last known address that the state intends to use the tax refund offset to recover the OVER-ISSUANCE~~overpayment~~. The pre-offset notice shall include the name of the local office claiming the OVER-ISSUANCE~~overpayment~~, a reference to SNAP~~Food Assistance~~ as the source of the OVER-ISSUANCE~~overpayment~~, and the current balance owed.

3. Household Objection to Pre-Offset Notice

The taxpayer is entitled to object to the offset by filing a request for a local-level conference or state-level hearing within thirty (30) calendar days from the date that the state department mails its pre-offset notice to the taxpayer. At the hearing on the offset, the LOCAL OFFICE~~county department~~ or ALJ~~Administrative Law Judge~~ shall not consider whether an OVER-ISSUANCE~~overpayment~~ has occurred, but may consider, if raised by the taxpayer in his or her request for a hearing, whether:

a. The taxpayer was properly notified of the OVER-ISSUANCE~~overpayment~~;
b. The taxpayer is the person who owes the OVER-ISSUANCE~~overpayment~~;
c. The amount of the OVER-ISSUANCE~~overpayment~~ has been paid or is incorrect;
d. The debt created by the OVER-ISSUANCE~~overpayment~~ has been discharged through bankruptcy;

***

E. Federal Treasury Offset Program (TOP)

The Treasury Offset Program, including the Federal Salary Offset Program (FSOP), is a mandatory government-wide delinquent debt matching and payment offset system in which ~~the~~ Colorado SNAP~~Food Assistance Program~~ participates.

The Treasury Offset Program allows collection of delinquent debts by intercepting any allowable payment from the federal government. Federal payments eligible for offset include federal income tax refunds, federal employee salary, federal retirement payments (including military), contractor or vendor payments, and federal benefits such as Social Security and railroad retirement.

1. Claims Submitted for Offset

a. A delinquent claim may be submitted to the USDA, Food and Nutrition Service (FNS) for the Treasury Offset Program (TOP). ~~In order t~~To submit a claim to the Federal TOP~~Treasury Offset Program~~, the claim must be determined to be past due and legally enforceable. To determine that a claim is past due and legally enforceable, it must be determined that notification and collection attempts have taken place.

b. For purposes of the Federal ~~Treasury Offset Program (~~TOP~~)~~, a delinquent claim is one which is past due more than one hundred twenty (120) calendar days, as set forth in the United States Code regarding delinquent claims.

c. A claim is not considered delinquent if a fair hearing is pending concerning the claim; or the claim has either been discharged by bankruptcy or is subject to the automatic stay of the bankruptcy; or the claim is not considered delinquent as described within Section 4.801.4, E, 2.

***

2. Processing Fee

TOP, including the Federal Salary Offset Program (FSOP), is authorized to apply a processing fee each time a successful offset for collection occurs. Federal payroll offices participating in the TOP process may add another separate processing fee. The delinquent SNAP~~Food Assistance~~ debtor is responsible for the fee each time it is applied. A TOP offset taken in error and later refunded will have the processing fee refunded, except for partially refunded offsets.

3. Notifying a Household of the Treasury Offset Program

***

b. The individual has been notified about the claim and prior collection efforts have been made. The claim is past due and legally enforceable. All adults are liable for the OVER-ISSUANCE~~overpayment~~ of SNAP~~Food Assistance~~ if they were household members when the SNAP~~Food Assistance~~ benefits were over-issued. False statements concerning such liability may subject individuals to legal action (see Section 4.801.4, A); and,

***

6. In some circumstances, the married individual may want to contact IRS before filing his/her income tax return. This is true if the individual is filing a joint return and his or her spouse is not responsible for the SNAP~~Food Assistance~~ claim, and has income and withholding and/or estimated federal income tax payments. In such cases, the spouse may receive his or her portion of any joint return based on procedures prescribed by the IRS.

***

8. The OOA~~Office of Appeals~~ within the CDHS~~Colorado Department of Human Services~~ will review the proposed offset. The Office of Appeals shall find that the claim is past due and legally enforceable unless the household can provide documentation to show:

   a. The claim is not delinquent or was already paid, and the individual provides proof of payment.

   b. The individual is not the person that is liable for the claim.

   c. A bankruptcy action prohibits collection of the claim because the automatic stay under Section 362 of the Bankruptcy Code is in effect with respect to the individual or his or her spouse, or that the claim was discharged by a bankruptcy proceeding.

   d. There is some other reason that the claim is not delinquent or is not legally enforceable.

9. The decision by the OOA~~Office of Appeals~~ will be issued by means of written findings regarding the review. The written findings shall include notice to the individual who requested the review regarding the following:

   a. If the OOA~~Office of Appeals~~ determines that the claim is past due and legally enforceable:

      1) The individual shall be notified that the claim will continue to be referred for the offset; and,

      2) The individual is entitled to have the Food and Nutrition Service (FNS) review the OOA~~Office of Appeal's~~ decision. FNS must receive a request to do so within thirty (30) calendar days after the date of the state agency's notice of review decision. A request for FNS review shall include the individual's SSN. The notice shall also provide the address of the regional office including the phrase “Tax Offset Review” in the address.

   b. If the OOA~~Office of Appeals~~ determines that the claim is not past due or legally enforceable, it shall notify the individual and the local office that the claim will not be referred for the offset.

   c. While the OOA~~Office of Appeals~~ or FNS is conducting a review of the debt, the debt is not eligible for the referral to TOP.

***

4.801.6 Interstate Claims Collection

Counties may transfer a claim to another state or Colorado county ~~department~~ if the other state or Colorado county ~~department~~ accepts the transfer.

Counties are not obligated to accept the transfer of a claim from another state or Colorado county ~~department~~, but have the option of accepting the claim and pursuing collection on that claim. Counties that accept the transfer of a claim shall pursue collection activities and retain appropriate incentives for the collection.

***

4.802.21 Households Disputing Restoration of Lost Benefits

***

C. To be eligible for restored benefits, the household shall have had its SNAP~~Food Assistance~~ benefits wrongfully delayed, denied, or terminated. The term denial shall include the situation where, through certification office error, the net income was larger than required under proper determination, and because of this improperly set net income, the household was unable to get the proper allotment. Delay shall mean that eligibility determination was not accomplished within the prescribed time limits set forth in Section 4.205.2.

4.802.3 Rights During an Appeal

A. A household is entitled to the following:

1. Be represented by an authorized representative, such as legal counsel, relative, friend, or other spokesman, or s/he may represent her/himself at the conference.

A. Quality Assurance reviews are federally mandated to provide:

1. A systematic method of measuring the validity of the SNAP~~Food Assistance Program~~ caseload;

***

B. Reviews are conducted on:

1. Active cases to determine if the household is eligible and, if eligible, whether the household is receiving the correct SNAP~~Food Assistance~~ benefits.
2. Negative cases to determine if households that were suspended, denied, or terminated were, in fact, not eligible to participate in SNAP~~the Food Assistance Program~~ and that the household received an accurate, timely notice. For initial applications, the notice shall be considered timely if the household is notified of the negative action within the application processing timeframes outlined in Section 4.205.2. FNS claims against state agencies may be a result of financial losses involved in the acceptance, storage, and issuance of benefits, charges of negligence, and disallowance of federal funds for state agency failure of operation. The provisions for determining and establishing a claim against state agencies or the disallowance of federal funds are outlined within Section 3 of Title 7, Part 276, Chapter II, Sub-chapter C, Code of Federal Regulations, as of February 5, 2014; no later amendments or editions of this section are incorporated. Copies of these federal laws are available from the Colorado Department of Human Services, Food Assistance Program, 1575 Sherman Street, Denver, Colorado 80203. If county administration has resulted in the FNS finding of negligence or fraud, a claim for the amount of loss will subsequently be made against the responsible Food Assistance agency.~~

~~**4.904.2 Civil Rights Reviews Retailer Authorization**~~

~~The FNS field office located in the Denver area conducts statewide civil rights reviews of local offices. Both state and local offices shall ensure that all staff responsible for the administration, issuance, review,~~

4.904.4 Program Reduction, Suspension, or Cancellation

The Food and Nutrition Act of 2008 directs the Secretary of Agriculture to reduce, suspend, or cancel Food Assistance benefits if it is necessary to keep Program spending within the limits set by Congress. Upon notification from FNS, the State office shall instruct local offices to reduce, suspend, or cancel Food Assistance benefits for one or more months. Local offices shall take immediate action in accordance with the following procedures:

A. Reduction of Benefits

If the State office instructs the local offices to reduce monthly Food Assistance allotments, the State shall notify the local offices of the date the reduction is to take effect. If an allotment reduction is necessary, allotments shall be reduced for each household size by the same percentage. If a benefit reduction is necessary, all households shall be guaranteed a minimum allotment allowed for one- and two-person households, unless the reduction is ninety percent (90%) or more. Revised issuance tables reflecting the percentage of reduction shall be provided to all local offices.

B. Suspension and Cancellation

If the State Office instructs the county local offices to suspend or cancel Food Assistance Program benefits, the county local offices shall be informed of the date that the suspension or cancellation shall take effect. Upon receipt of this date, the counties shall take immediate action to affect the suspension or cancellation. This action shall include notification of certification and issuance personnel, as well as eligible households. In the event that cancellation or suspension of benefits is necessary, the provision for the minimum benefit level shall be disregarded and all households shall have their benefits suspended or cancelled.

If allotments are cancelled or suspended, local offices shall record the monthly allotment the household was entitled to receive prior to cancellation or suspension.

4.904.41 Affected Allotments

Whenever suspension or cancellation of allotments is ordered for a particular month, it shall affect all households. If a reduction is ordered, reduced benefits shall be calculated for all households for the des-

Allotments or portions of allotments representing restored or retroactive benefits for a prior unaffected month would not be reduced, suspended, or cancelled, even though they are issued during a month in which cancellation, suspension, or reduction is in effect.

4.904.42 Notification to Households

Reduction, cancellation, or suspension shall be considered a mass change and shall not require advance notice of adverse action; however, the household shall be notified by announcements through the news media or a general notice may be handed out or mailed to affected participant households.

4.904.43 Restoration of Cancelled or Reduced Benefits

Households whose allotments are reduced or cancelled as a result of the enactment of these procedures are not entitled to the restoration of the lost benefits at a later date unless surplus funds are remaining after the reduction or cancellation. These surplus funds may be restored to affected households if a directive is issued by the Secretary of Agriculture. In the event of the issuance of a directive to issue restored benefits, the local office must work promptly to issue them.

In any event, the local office shall have issuance services to serve households receiving restored or retroactive benefits for a prior, unaffected month.

4.904.44 Effects of Reduction, Suspension, and Cancellation on the Certification of Eligible Households

In the event that cancellation, suspension, or reduction is ordered by the State, the following shall apply:

A. Determinations of eligibility of applicant households shall not be affected.

B. Local offices shall continue to accept and process applications in accordance with standard certification procedures.

C. If a reduction of program benefits is in effect, and an applicant is found to be eligible, the amount of benefits will be determined by using the revised issuance tables, and shall be recorded in accordance with provisions in Section 4.904.4. If reduction or suspension of program benefits is in effect, and a household is found to be eligible for expedited service application processing, the application will be processed in accordance with procedures in Section 4.205.1. If a cancellation of program benefits is in effect, households shall receive expedited service; however, the deadlines for completing the processing shall be the end of the month of application or five (5) calendar days, whichever date is later.

E. If an applicant household is found to be eligible for benefits while a suspension or cancellation is in effect, no benefits shall be issued to the applicant household. However allotment levels shall be calculated and recorded accordance with Section 4.904.4.

F. Reduction, suspension or cancellation of allotments shall have no effect on certification periods assigned to households prior to the reduction, suspension, or cancellation of the program.

~~G. Participating households whose certification periods expire during a month in which allotments have been reduced, suspended, or cancelled shall be recertified in accordance with normal procedures.~~

~~H. Households found eligible to participate during a month in which allotments have been reduced, suspended, or cancelled shall have certification periods assigned in accordance with Section 4.208.1.~~

~~4.904.45 Fair Hearings When Program Reductions, Suspensions, or Cancellations Occur~~

~~Any household that had its allotment reduced, suspended, or cancelled as a result of implementation of the procedures for reduction, suspension, or cancellation may request a fair hearing if it disagrees with the action; however, the household does not have a right to continuation of benefits. A household may receive retroactive benefits if it is determined that its benefits were reduced by more than the amount the local offices were directed to reduce benefits.~~

~~The Colorado Department of Human Services, Office of Appeals, may deny fair hearings to those households that are disputing the fact that a statewide reduction, cancellation, or suspension was ordered. The Office of Appeals is not required to hold a fair hearing unless the request is based on a household's belief that its benefit level was computed incorrectly under these rules or that the rules were misapplied.~~

4.90~~45~~ OUTREACH

Outreach activities performed by state and local personnel shall be ineligible for federal matching funds. Although activities to recruit participation in SNAP~~the Food Assistance Program~~ are prohibited, all local offices shall perform program informational activities. STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.
Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. ***1500 Char max***

The Colorado Department of Human Services Division of Child Welfare is updating Volume 7 to include rules to address assessments of referrals when an infant is voluntarily surrendered to staff at a hospital, community clinic emergency center, or fire station within 72 hours of birth and the caregiver does not express an intent to return for the infant in accordance with C.R.S.19-3-304.5. The purpose of this addition and revision of rule is to provide consistency in assessments of voluntarily surrendered infants.

The revisions also contain changes to who may be designated at a county department to conduct an egregious, near-fatal, or fatal assessment. This revision follows a recommendation from the Child Fatality Review Team to review the requirements. The revision allows for county discretion in determining what constitutes a conflict of interest for a caseworker who has had prior involvement with a family.

Also included in the proposed rules is the addition of a definition for “medium” as it relates to the severity of an allegation of abuse and/or neglect. The term “medium” is used in Trails and County Notification letters as a severity level for abuse and neglect and “medium” IS NOT currently defined in Volume 7. This discrepancy creates a notice issue and could lead to administrative law judges overturning findings if it is determined that the alleged perpetrator did not receive proper notice of the finding made against them. This issue was identified by the AG.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐ to comply with state/federal law and/or
☐ to preserve public health, safety and welfare

Justification for emergency:

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Caregivers seeking to safely surrender an infant in accordance with C.R.S.19-3-304.5 will benefit from a consistent response by county child welfare departments. Counties will benefit from the clear assessment process in this rule.

Child welfare departments will benefit from being able to determine what constitutes a conflict of interest for assessments. Families will benefit from the continuity of assessment and services offered by the county in which they reside.

Persons found responsible for the abuse and neglect will understand what "medium" means in relation to the severity of abuse or neglect findings. County departments will benefit from defining medium as it relates to severity level.

No populations are anticipated to be adversely impacted by this rule.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

In 2020, 3 infants were voluntarily surrendered in accordance with C.R.S.19-3-304.5. County departments will have clearly defined processes for responding to these assessments.

In 2020, 75.0% of substantiated fatal child maltreatment incidents, the child, child's family, and/or alleged perpetrator had prior involvement with the child welfare system. County departments will have the ability to determine what constitutes a conflict of interest in these assessments. Families will be able to be served by the county in which they reside.

In 2020, child welfare departments made founded findings and provided notification to individuals responsible for abuse and/or neglect in 7,779 assessments. The definition clarifies what a "medium" severity level means as it relates to founded abuse and/or neglect.

County departments will have clearly defined processes for responding to these assessments.

3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. ***Answer should NEVER be just "no impact" answer should include "no impact because…."***

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

No State Fiscal Impact because there is no cost associated with the changes. Current state staff will work with the training team to revise existing training for assessments that are included as part of the annual training budget.

County Fiscal Impact

No County Fiscal Impact because counties are already required to conduct assessments.

Federal Fiscal Impact

No Federal Fiscal Impact as there are no Federal costs associated with the rule changes.

Other Fiscal Impact *(such as providers, local governments, etc.)*

No other fiscal impact.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

As part of the rule drafting process, participants in Child Protection Task Group reviewed Safe Haven processes and legislation from all 50 states.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. **Answer should NEVER be just "no alternative" answer should include "no alternative because…"**

No alternative to rule-making because without updated assessment rules the caregivers who voluntarily surrender a newborn will not receive a consistent assessment response.

Subjects and issues involved

The proposed rule changes and additions in Resources, Reimbursement, Reporting, and Provider Requirements support legislation passed in the Spring of 2021. SB 21-137 declared that CDHS should provide resources to providers to address the emergency need for increased placement for children and youth with acute and severe behavioral or mental health needs. The legislation requires CDHS to develop a program to provide emergency resources to licensed providers to help remove barriers such providers face in serving children and youth whose behavioral or mental health needs require services and treatment in a residential child care facility. As a result, CDHS will contract with two residential providers, a qualified residential treatment program (QRTP) and a psychiatric residential treatment facility (PRTF), for 17 acute residential (AR) beds. Similar to the rules promulgated to guide county departments on placement in the Intellectual and Developmental Disabilities Residential Child Care Facility (IDD RCCF), rules will need to be established for eligibility criteria, referral procedures, admissions, and discharges for counties that desire to utilize the AR beds. NOTE: Due to the ongoing COVID-19 situation, it is anticipated that this meeting will take place entirely online. Justification for emergency:

SB 21-137 passed into law on June 28, 2021. The bill declared that there is an emergency need for increased placements for children and youth with behavioral and mental health needs. The State Department will contract with residential providers to meet this need. The State Department must assure a smooth transition and provide support and resources to the providers that will be contracted pursuant to the bill. These rules will provide regulatory enforcement of quality assurance for the providers to guarantee effective, safe and clinically appropriate care. These rules will provide regulatory enforcement of referral, admission, discharge, and reimbursement processes for county departments to be able to refer clients to the programs.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.
Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

County Departments will have additional resources for placement. County Departments will have access to placements funding by the state instead of the county. The facilities contracted under these programs will be required to comply with the regulations regarding state oversight of admission, eligibility, and discharge. Children and families will have additional options for treatment in residential settings. Hospitals, Community Centered Boards, and other referring entities will have options for assisting families with out of home placement.

2. Describe the qualitative and quantitative impact.
How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

The COVID-19 pandemic has led to an emergency need for increased residential care for children and youth with acute behavioral health needs. County Departments and other stakeholders for children in need of out of home care experience significant challenges with finding appropriate placement for children with acute needs, as there is a shortage of available beds and a gap in the level of services available to meet the intensive behavioral health needs of youth throughout the system. Hospitals report delayed discharges for children with the most acute needs, as they are often unable to access appropriate step down accommodations. Hospitals report staffing shortages that result in challenges to provide adequate and optimal care to both the psychiatric and the COVID youth populations. This situation has reportedly created a strain on their resources and they have concerns that care of COVID patients may be compromised if the situation is not alleviated. In addition, the existing IDD Program regularly has a waitlist, as the program's capacity is insufficient to meet the number of children requiring placement.

The passage of SB 21-137 will allow for 17 beds to serve children, from the child welfare system and those referred by parents and supporting agencies, who have acute mental health and behavioral needs.

It is anticipated that the total of 17 beds for the programs contracted pursuant to SB 21-137 will serve 32-38 children annually. The children served would otherwise have been in an environment less appropriate for their needs, have been on extended and unwarranted hospital stays, or been placed out of state.

This rule making packet will support regulatory enforcement of the quality assurance of the AR facilities to guarantee effective, safe, and clinically appropriate care for these children. This rule making packet will provide for regulatory enforcement of the referral, eligibility, admission, and discharge process. 3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources.

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

The AR Programs are funded through a onetime federal appropriation. Rule implementation will not have state fiscal impact.

County Fiscal Impact:
County Departments will experience fiscal savings due to the reimbursement for these beds being paid by the State Department.

Federal Fiscal Impact
None known.

Other Fiscal Impact *(such as providers, local governments, etc.)*

The providers contracted to perform services for the AR programs will have a higher cost per client due to increased staffing ratio, frequency of clinical intervention, and supplemental services.. This higher cost of service will be supported by a rate greater than that of the base license rate without the contract.

Other referring entities, such as parents, hospitals, and family support services may have reduced fiscal impact due to the cost of services to children at other programs being funded by these programs.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

The distribution of beds was determined through analysis of the following data sets:
- Data from the Division of Child Welfare regarding the child welfare system involved children placed out of the state of Colorado.
- Data from Health Care Policy and Financing regarding Medicaid member children placed out of the state of Colorado.
- Data from Children's Hospital of Colorado regarding children with extended discharge delays.

This data informed which program types were necessary and how beds should be distributed. This data also informed eligibility criteria for the program, by identifying patterns of which populations, demographics, diagnoses, and acute behaviors were factors for which children are underserved.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative.

No other alternatives available at this time.

STAKEHOLDER COMMENT SUMMARY

Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

The framework for these rules was developed in 2019 by a diverse group of stakeholders (county departments, child placement agencies, residential child care facilities, CDHS, CDPHE, OBH, HCPF, and foster parents) to provide guidance for access to the state contracted IDD residential child care facility. That package underwent extensive public stakeholder review. The rules proposed in this packet are nearly identical to the rules approved in 2019, with some minor changes to reflect that the new services will be for a broader population rather than only for youth with intellectual and developmental disabilities. The current draft rules are proposed under the emergency criteria, so broad stakeholder feedback has not been obtained. However, the draft has been reviewed and is approved by OBH and HCPF, and is awaiting input from SubPAC.

This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

1. "Special activities" means events or activities which have the potential for an adverse impact on park values or health, safety or welfare of park visitors or which may otherwise require special planning/scheduling for proper management. Special activities shall require prior approval in the form of a special-activities permit. Applications thereof generally shall be made to the Park Manager or Operational Manager at least ninety (90) days prior to the event or activity. Such application must be accompanied by the appropriate application filing fee. This requirement for an application to be filed ninety days prior to an event will be waived in rare circumstances where arrangements can be made in a shorter time without putting undue administrative burden on the Park Manager or Operational Manager, or when no special arrangements are necessary. The Park Manager may impose additional items, conditions and charges in connection with the permit as reasonably necessary to offset the administrative burden, costs or risks associated with the proposed activities. The Park Manager may retain third party consultants to evaluate the potential adverse impacts of the proposed activity and develop appropriate strategies to offset or mitigate such risks. The applicant shall be notified if the Park Manager decides to retain a consultant, shall be given the opportunity to provide input concerning consultant selection and scope of work. The applicant shall be responsible for the actual costs associated with this consultant review.

Otherwise, the Regional Manager shall make the decision of whether to approve the permits. The decision of whether to approve special activities permits will be based on the impact on park values and/or the health, safety and welfare of park visitors and other affected persons, and also will be based on:

   a. The nature of the park or recreation area and the types of recreational opportunities/resources it is intended to provide the public

   b. The carrying capacity of the facility or facilities to be utilized during the special activity compared to:

(1) The total number of park visitors (including participants and spectators in the special activity) expected to utilize such facilities; and

(2) The total number of vehicles, vessels or persons expected to participate in or be attracted to such activities.

c. The extent to which the special activity will contribute to the variety of outdoor recreational opportunities available to the people of this state and its visitors.

d. The extent to which the activity places an administrative burden on the staff of the park area.

3. Whenever it is determined that any special activity will involve the use of a park or recreation area by a group of persons totaling more than the park's or recreation area's established carrying capacity a thirty day written public comment period and a public meeting shall be required prior to the granting of a permit. The Park Manager or Operational Manager shall publish notice of both the written comment period and the meeting at least once in a newspaper of general circulation in the county or counties wherein said park or recreation area is located. The meeting shall be conducted by the Division representative responsible for the permit issuance decision and shall be held either at the park or recreation area, or within a county in which the park or recreation area is located. Such public meeting is not intended to be an adjudicatory licensing hearing under the provisions of the Colorado Administrative Procedures Act, but only as an opportunity for public comment.

4. Every decision respecting the grant, denial, revocation, suspension, annulment, limitation or modification of a special activity permit is subject to § 24-4-104, C.R.S.

5. Upon written request, the Division shall waive the requirement for a parks pass for those vehicles when all the occupants are entering state recreation areas and state parks for the purpose of administering permitted special activities and not for the purpose of their own recreation.

6. For special activities where the Division representative responsible for the permit issuance decision determines it will be a greater administrative ease for the Division to administer the activity, an alternative fee of $4.00 per person per day may be charged for admission of persons attending or participating in the special activity. This permission shall apply only to groups of twenty or more persons.

7. (8) The drawing will continue until all "chips" are drawn, and a drawing log will be completed which will list the applicants in the order drawn. The drawing log will

be used to facilitate fair re-allocation of permits per the re-allocation of unused permits protocol (see section 3.c.).

(9) Successful applicants will be notified of their success by mail via a letter of successful application, which shall include a summary of rules associated with the HUP (a complete list shall be provided with the permit during the required orientation and information for remittance of the HUP fee).

d. Reporting and Filing

(1) All files pertaining to the HUP for Lone Mesa State Park will be stored at the Lone Mesa State Park office.

(2) The park manager or designee will include a summary of hunting activity under permit on the park manager monthly report.

(3) Revenues derived from the HUP fee will be deposited in the parks cash fund and reflected on the consignment usage/revenue report for the month such fees are deposited.

3. Field Enforcement Procedure

a. Possession of Permit

(1) Copies of the permitted hunter list will be made available to commissioned CPW officers and the officers of other cooperating agencies in the interest of maintaining compliance with this plan.

(2) It shall be the permittee's responsibility to adequately identify themselves as a permit holder when contacted while hunting in Lone Mesa State Park.

b. Statute and Regulation Compliance

(1) Permit holders will be supplied a list of rules associated with the HUP upon issuance of the permit. Failure to comply with the rules of the permit may result in permit revocation.

(2) Nothing in this plan or in the rules of the HUP shall imply or be construed to imply that HUP holders are exempt from any statute or regulation governing hunting, motor vehicle operation, conduct on a state park, or other activity in which the permit holder may engage while performing the activities allowed under the permit. These statutes and regulations include, but are not limited to:

(a) Permit holders must possess a valid license issued by CPW for the Game Management Unit, species, and season hunted.

(b) Vehicles involved in hunting-use of the park are required to display a valid Colorado State Parks pass, unless the vehicle displays a Disabled Veteran license plate or a Purple Heart license plate.

(2) Re-allocations of HUPs will be conducted following this procedure:

(a) The park manager or designee will attempt to contact the next individual on the drawing log by phone.

(b) If the next individual is unable to be contacted upon the first call, the park manager or designee will continue down the drawing log until an individual can be contacted and notified of the availability of an HUP for Lone Mesa.

(c) If no hunter on the drawing log can be contacted, no applicant is qualified, or none is available to hunt the remainder of the season, the availability of the HUP will be advertised by the park manager or designee and the permit may be allocated on a first-come, first-served basis.

(d) Hunters who are contacted via the drawing log and who obtain or decline an HUP for Lone Mesa will have their name removed from the drawing log.

(3) Re-allocated permits shall not be valid until payment of the HUP fee and attendance of the hunter orientation by the new permittee.

 # 711 - GOLDEN GATE CANYON STATE PARK HUNTING SPECIAL USE PERMIT

1. Purpose: this hunting management plan is designed to establish administration of hunting activities on the Green Ranch portion of Golden Gate Canyon State Park.

2. Special use permit procedure

A. Permit numbers

(1) Colorado Parks and Wildlife deems hunting activities on the Green Ranch portion of Golden Gate Canyon State Park as those which currently require “special planning and/or scheduling for proper management.” Therefore, the Division issues special use permits to visitors wishing to engage in hunting on the Green Ranch portion of the park.

(2) The maximum number of approved hunting special use permits (HUPs) for the Green Ranch on Golden Gate Canyon State Park at any one time during the 2003 big game season is as follows:

Archery (pre-muzzleloading and post-muzzleloading): twenty (20)

Muzzle-loading: ten (10)

1st separate elk rifle: ten (10)

2nd combined deer/elk: ten (10)

3rd combined deer/elk: ten (10)

4th combined deer/elk: ten (10)

B. Application and permit fees

(1) Each applicant must submit a $10.00 application fee for each application submitted.

(2) Successful permit application holders shall pay a special use permit fee of $100, which must be received by Golden Gate Canyon State Park (address below) prior to any access to the Green Ranch.

(3) Upon payment of the fee, a HUP for the Green Ranch shall be issued to the applicant.

(4) If an applicant who is successful in the drawing (see section c.7) fails to pay the special use permit fee within 10 days prior to the start of the applicant's season, a permit will not be issued to them. The next qualified applicant on the alternate list (see section c.8) will be offered an HUP.

(5) If, at a later date, an applicant's payment of the HUP fee is found to be insufficient due to payment stops, insufficient funds or any other reason, an HUP will not be issued to them. If an HUP had been issued prior to CPW discovering the insufficient payment, that permit will be voided.

C. Allocation of permits

(1) Advertising: it shall be the responsibility of the park manager or his/her designee to advertise the availability of the HUPs for the Green Ranch through normal media and internet formats.

(2) Application requests: requests for the application for the HUP for the Green Ranch can be made by sending a self-addressed stamped envelope (SASE) to Golden Gate Canyon State Park, Attn: Green Ranch Hunt: 92 Crawford Gulch Road, Golden, Colorado 80403, phone: 303 582-3707. (4) Permit applications must be mailed to Golden Gate Canyon State Park at the above address and clearly marked "Green Ranch Hunt" on the envelope. All applications must be received by July 31st for the upcoming big game season.

(5) Permit applications will be checked for completeness and require a copy of the hunting license, if applicable (for limited licenses). All complete and correct permit applications will be recorded for future use.

(6) If additional information is needed to process the permit application, the park manager or his/her designee will make reasonable attempts to contact the applicant to rectify the application.

(7) Drawing: the drawing will be held no later than the first Sunday in August. There will be one random drawing for each of the six seasons on the Green Ranch: pre-muzzleloading archery, muzzleloading, post-muzzleloading archery, 1st separate limited elk, 2nd combined deer and elk, 3rd combined deer and elk, and 4th combined deer and elk. Permits will be issued up to the numbers outlined in this regulation, #711.2.a.

(8) Up to fourteen names will be drawn for each of the hunting seasons; a maximum of ten for the “hunter list” and four “alternates” for each season. If one of the hunters drawn does not wish to accept the HUP, an alternate will be contacted in the consecutive order that they were drawn.

(9) Successful applicants will be notified of their success by mail via a letter of successful application, which shall include a summary of rules associated with the HUP (a complete list to be provided with the permit during the required orientation) and information for remittance of the special use permit fee.

D. Reporting and filing

(1) All files pertaining to the HUP for the Golden Gate Canyon State Park Green Ranch will be stored at the Golden Gate Canyon State Park office.

(2) The park manager or his/her designee will include a summary of hunting activity under permit on the park manager monthly report.

(2) It shall be the permittee's responsibility to carry the access permit with them while hunting the Green Ranch portion of Golden Gate Canyon State Park.

B. Statute and regulation compliance

(1) Permit holders will be supplied a list of rules associated with the HUP upon issuance of the permit. Failure to comply with rules of the permit may result in permit revocation.

(2) Nothing in this hunting management plan or in the rules of the special use permit shall imply or be construed to imply that HUP holders are exempt from any statute or regulation governing hunting, motor vehicle operation, conduct on a state park, or other activity in which the permit holder may engage while

performing the activities allowed under the permit. These statutes and regulations include, but are not limited to:

(a) Permit holders must possess a valid hunting license issued by CPW for the game management unit, species and season hunted.

(b) Vehicle involved in hunting-use on the Green Ranch are required to display a valid Colorado State Parks pass, unless the vehicle displays a disabled veteran license plate or a Purple Heart license plate.

C. "Alternate" system

(1) Alternate hunters may be contacted in the event a permittee is unable to engage in the activities of the permit for any reason, including sickness, death, hunting license revocation, permit revocation, park eviction or simple changes in plans.

(2) Alternates will be contacted in the following manner:

(a) The park manager or his/her designee will attempt to contact the next individual on the alternate list by phone.

(b) If the next individual is unable to be contacted upon the first call, the park manager or his/her designee will continue down the alternate list until an individual can be contacted and notified of the availability of an HUP for the Green Ranch.

(c) If no hunter on the alternate list can be contacted, the park manager or his/her designee will return to the applicant pool of the individual season and randomly draw up to four more alternates. This process will be continued until the hunting slot is filled by a qualified applicant.

(d) If no hunter can be contacted, no applicant is qualified, or none is available to hunt the remainder of the season, the availability of the HUP will be advertised by the park manager or his/her designee and the permit may be issued on a first-come, first-served basis.

(e) Hunters who are contacted via the hunting list or alternate list and who obtain or decline a HUP for the Green Ranch will have their name removed from the applicant pool.

(2) Alternate permits shall not be valid until payment of the HUP and application fee are made by the new permittee.

D. Refund policy

(1) Refunds will only be provided according to the current pass refund policy of the Division and by relinquishing the HUP for the Green Ranch before the opening day of the season for which the permit is valid.

B. The Division’s authorized personnel, authorized agents, qualified peace officers, private inspectors, and private decontaminators are permitted to possess and transport live or dead aquatic nuisance species samples for the purposes set forth in Article 10.5 of Title 33, C.R.S. and in these regulations.

It is unlawful for any person to, or to attempt to, launch onto, operate on or remove from any water of the state or vessel staging area any vessel or other floating device without first submitting the same to an inspection for aquatic nuisance species, and completing said inspection, if such an inspection is requested by any qualified peace officer or authorized agent. Further, it is unlawful for any person to fail to complete the removal and disposal of aquatic nuisance species if such removal and disposal is requested by any qualified peace officer.

D. It is unlawful for any person to, or to attempt to, launch onto, operate on or remove from any water of the state or vessel staging area any vessel or other floating device if they know the vessel or other floating device contains any aquatic nuisance species.

 # 802 - PRIVATE INSPECTORS, AUTHORIZED AGENTS, TRAINING, CERTIFICATION, AND QUALITY ASSURANCE

A. The Division may certify private inspectors and/or decontaminators. Such persons shall not be authorized to stop, detain, or impound a vessel or other floating device, or order a vessel or other floating device to be decontaminated, impounded or quarantined. Such persons, once certified, are only authorized to provide inspections and/or decontaminations in accordance with WID procedures to persons transporting vessel or other floating device who voluntarily request their services.

B. Authorized agents shall be certified by the Division prior to providing any inspection or decontamination services. A description of training and certification requirements is available from the Division. After receiving proper training and written certification from the Division, authorized agents may stop, detain, inspect and decontaminate a vessel or other floating device. Authorized agents shall be authorized to perform decontaminations with the permission of the vessel owner, at the direction of a qualified peace officer, or at the voluntary request of any person transporting a vessel or other floating device. Authorized agents do not have any authority to order vessel or other floating device to be decontaminated, nor do they have the authority to impound or order the quarantine of any vessel or other floating device.

C. Prior to providing any inspection and/or decontamination services, authorized agents and private inspectors and/or decontaminators must successfully complete the Division's training course, must maintain active certification and must comply with all quality assurance requirements as listed herein.

D. Any authorized agent or private inspector and/or decontaminator may be certified by the Division to perform inspections and/or decontaminations based on the person's training and the equipment available at the authorized location.

E. The Division shall conduct quality assurance checks at all authorized locations, including but not limited to, inspection of facilities and records, and interviewing authorized location personnel to verify proper procedures are being utilized.

1. If the Division documents quality assurance violations, including, but not limited to, improper facilities, maintenance, equipment, records or failures to use proper WID procedures, then the Division may, at their discretion, issue a written warning notice, disallow aquatic nuisance species inspections, decontaminations, and/or training at the specific location or by the applicable agent or private inspector/decontaminator until the Division has documented compliance with all quality assurance checks, or decertify the applicable agent(s), private inspector(s)/decontaminator(s), location(s) or trainer(s) until they have been recertified in accordance with these regulations.

 # 803 - INSPECTIONS

A. Inspections may be conducted by:

1. Any qualified peace officer;

2. Any authorized agent or private inspector and/or decontaminator who has been properly trained as required by the Division, who holds a valid, active certification and who is in good standing with the Division's quality assurance checks.

B. All persons transporting a vessel or other floating device from a detected water of the state, as determined in regulation #806 D, must be inspected prior to leaving the detected water, or if state authorized inspection facilities are not open or otherwise available, must be inspected prior to launch in any other water of the state. All detected waters shall be posted and a list of detected waters will also be available from the Division.

C. All persons transporting a vessel or other floating device must go to a state authorized inspection location and submit to and receive documentation of an inspection prior to launching in any water of the state if the vessel or other floating device has been in another state's waters in the last 30 days, or if the vessel or other floating device is not registered in Colorado.

D. All persons transporting a vessel or other floating device must submit to an inspection prior to launching and/or exiting at an Authorized Location.

E. Inspectors will determine if there is a reasonable belief that aquatic nuisance species are present by interviewing the person transporting the vessel or other floating device and using visual and/or tactile inspection methods and using appropriate forms supplied by the Division.

F. All vessels or other floating devices of any kind, are subject to inspection in accordance with WID procedures prior to launch onto, operation on or departure from any waters of the state or vessel staging areas. All compartments, equipment and containers that may hold water, including, but not limited to, live wells and ballast and bilge areas shall be drained as part of all inspections.

G. It is the responsibility of the vessel or other floating device operator to clean, drain water from all compartments and motors/engines in between launches and dry the vessel or other floating device in between launches.

H. Upon removal of a vessel or other floating device from waters of the state, and before leaving the boat launch or parking area, the operator is required to remove aquatic plants and water drain plug(s). It is prohibited to transport a vessel or other floating device over land with aquatic plants or water drain plugs in place.

I. Any vessel or other floating device found or reasonably believed to contain aquatic nuisance species shall be decontaminated by an authorized agent using WID procedures before said vessel or other floating device will be allowed to launch onto, operate on or depart from any waters of the state or vessel staging areas.

J. Compliance with the above aquatic nuisance species inspection and removal and disposal requirements is an express condition of operation of any vessel or other floating device on waters of the state. Any person who refuses to permit inspection of their vessel or other floating device or to complete any required removal and disposal of aquatic nuisance species shall be prohibited from launching onto or operating the vessel or other floating device on any water of the state. Further, the vessel or other floating device of any person that refuses to allow inspection or to complete any required removal and disposal of aquatic nuisance species prior to departure from any water of the state or vessel staging area where any aquatic nuisance species is known to be present is subject to impoundment until said aquatic nuisance species inspection and/or decontamination is completed.

K. Any person operating a vessel or other floating device may be ordered to remove the vessel or device from any water of the state by any qualified peace officer or authorized agent if they reasonably believe the vessel or other floating device was not properly inspected prior to launch or may otherwise contain aquatic nuisance species. Once removed from the water, the vessel or other floating device shall be subject to inspection for, and the removal and disposal of aquatic nuisance species.

L. Any authorized agent or private inspector or private decontaminator who, through the course of an inspection, determines there is a reasonable belief that aquatic nuisance species are present shall document the inspection, including but not limited to, type and number of aquatic nuisance species suspected and/or detected and identification of the vessel or other floating device, including license plate numbers and hull and/or vehicle identification numbers, if available. Further, the authorized agent or private inspector/decontaminator shall advise the operator that the vessel or other floating device is suspected of possessing aquatic nuisance species and that it must be decontaminated according to WID procedures as soon as possible. Only qualified peace officers have the authority to order decontamination, impound or quarantine of a vessel or other floating device.

M. Once a vessel or other floating device is inspected and/or decontaminated, a WID seal will be attached to the vessel or other floating device by a qualified peace officer, authorized agent, or private inspector/decontaminator. A receipt using the Division's form shall accompany all WID seals. WID seals shall be attached to a vessel or other floating device as specified by the Division. A WID seal, once properly attached to a vessel or other floating device by a qualified peace officer, authorized agent, or a private inspector/decontaminator, and when accompanied by the proper receipt, documents an inspection or decontamination procedure.

    1. It is unlawful for any person to deface or tamper with, or attempt to deface or tamper with, any WID seal or WID seal receipt.

2. Any WID seal or WID seal receipt that has been defaced or tampered with is void. A vessel or other floating device bearing a void WID seal or WID seal receipt must be inspected prior to launch.

3. As used in this subsection M., “deface” and “tamper” have the meanings set forth in section 18-1-901, C.R.S.

N. If a vessel or other floating device contains live aquatic organisms in water as bait, then the owner or operator will be required to produce a receipt for the bait from a Colorado bait dealer with a purchase date clearly printed on the receipt per regulation 8 CCR 1201-21, VI. E and the purchase date is no more than 7 days previous. If the owner or operator does not have such a receipt, and the bait is allowed for use at the water body per regulation 2 CCR 406-1 #104.H.2, then they will be required to submit the bait for transfer into water from a known source and the bait container to decontamination as per the State ANS Watercraft Decontamination Manual available from the Division.

 # 804 - DECONTAMINATION

A. The Division will only recognize the decontamination methods listed herein that are recognized as proper WID procedures. All decontaminations will be employed following all applicable laws, disposal methods, recommended safety precautions, and safety equipment and procedures.

B. To decontaminate water compartments, equipment or containers in a vessel or other floating device to address potential presence of larvae or waterborne aquatic nuisance species, the only acceptable methods will be rinsing and flushing with water of 120-140 degrees F.

C. To decontaminate the exterior of a vessel or other floating device, remove or destroy attached aquatic nuisance species, all visible mud, plants, and organisms. The entire exterior of the vessel or other floating device, including the trailer and all intakes will be thoroughly decontaminated with hot water (140 degrees F) and as necessary use high pressure water (between 2500-3000psi).

D. All interior vessel or other floating device compartments, equipment and containers that may hold water including, but not limited to live wells, ballast and bilge areas, will be flushed with hot water (up to, but no more than 120 degrees F) at low pressure. If a bilge pump is present, then it will be run until the bilge appears to be empty.

E. The lower unit of the motor or engine will be thoroughly flushed with hot water (140 degrees F).

F. After decontamination, authorized agents, private decontaminators, or qualified peace officers must re-inspect the vessel or other floating device to ensure complete decontamination prior to the release of the vessel or other floating device.

G. Proof for all decontaminations consists of a WID Seal and WID Seal Receipt. Proof of decontamination for an infested mussel boat consists of a WID seal and WID Seal Receipt, in addition to the form “ANS Documentation and Vessel Decontamination Form” provided by the Division. Such forms shall document the reasons for the decontamination, any aquatic nuisance species found, the date and location of the decontamination, and the type of decontamination performed. Authorized agents, private decontaminators, or qualified peace officers will also apply a WID seal to document decontamination procedures.

 # 805 - IMPOUNDMENT

A. All vessels or other floating devices are subject to impoundment if:

1. The person in possession of the vessel or other floating device refuses to allow an inspection of the vessel or other floating device to be conducted by an authorized agent or qualified peace officer.

2. The person in possession of the vessel or other floating device refuses to allow a decontamination of the vessel or other floating device when decontamination is ordered by a qualified peace officer.

3. The vessel is unable to be fully decontaminated or the ANS are unable to be completely removed for any reason.

B. If the person in charge of the vessel or other floating device is not the registered owner then the registered owner shall be notified by mail, return receipt requested, within ten days of the location of the impounded vessel or other floating device. Such notification must also include contact information for the qualified peace officer ordering the impoundment. If the registered owner is present when the vessel or other floating device is ordered impounded, then the same information shall be provided to the registered owner at the time the order is issued.

C. All vessels or other floating devices will be held in impound at the risk and expense of the owner. A vessel or other floating device under impound for non-compliance with aquatic nuisance species laws may be released only after a qualified peace officer is satisfied by inspection or quarantine that the vessel or other floating device is no longer a threat to the aquatic resources and water infrastructure of the state. Only a qualified peace officer may authorize the release of the vessel or other floating device.

D. No vessel or other floating device impounded may be moved or released until an impound release form is signed and executed by a qualified peace officer. The Division will provide impound release forms.

 # 806 - MONITORING AND IDENTIFICATION

A. All aquatic nuisance species sampling and monitoring will be coordinated with the Division.

B. Aquatic nuisance species sampling equipment, vessels or other floating devices, and gear will be decontaminated at the conclusion of each sampling event in compliance with WID procedures prior to launching on another water of the state.

C. Aquatic nuisance species sampling and specimen collection for plankton tows, substrate sampling, or shoreline surveys will be conducted using standards and procedures approved in writing by the Division in advance of sampling occurring.

D. To initially identify detected waters, the following standards will be applied before notifying the public of the existence of these aquatic nuisance species:

1. Zebra and quagga mussel veligers. A multi-phase testing process involving both visual and molecular identification methods on the same sample will be completed in accordance with the State ANS Sampling and Monitoring Manual available from the Division.

2. Zebra and quagga mussel adults or New Zealand mudsnails. Concurring identification by two or more mollusk identification experts.

3. Non-native crayfish and other crustaceans. Concurring identification by two or more crustacean identification experts.

4. Aquatic nuisance species plants. Concurring identification by two or more aquatic botanical experts.

 # 807 - REPORTING ANS FINDINGS

A. Identification of an aquatic nuisance species through sampling and monitoring procedures at a location where that species has not been known to exist will be reported immediately to the Division.

B. If an aquatic nuisance species is suspected, but the identity is not known, for example a plant of unknown identity or organic material resembling juvenile mollusks, then the Division shall be contacted within 48 hours and collected samples will be submitted as stated in regulation # 806C.

C. Any person that becomes aware that an aquatic nuisance species is present at a specific location shall report the aquatic nuisance species presence to an authorized agent or a qualified peace officer of the Division's Invasive Species Program Office. Aquatic nuisance species reports should include the date and time of the detection of the aquatic nuisance species, the exact location of sighting (water body and specific location on the water body), the suspected species, and the name and contact information of the reporter.

D. Aquatic nuisance species or suspected aquatic nuisance species may be reported by:

FINAL REGULATIONS - 1CHAPTER W-16 - PARKS AND WILDLIFE PROCEDURAL RULES

ARTICLE I - MEETINGS

#1601 - Conduct of Meetings

See Article 4 of Title 24, CRS, for rule making and other applicable meeting and hearing requirements

A. Regular Meetings

1. Public Presentation - In addition to normally scheduled opportunities to testify on matters before the Commission, persons or groups wishing to participate in a regular Commission meeting may request to be placed on the agenda by submitting a written request to the Director at least 30 days before the meeting. The public may participate during the meeting at the discretion of the Chairman or presiding officer.

B. Adjudicatory Hearings

1. Review of Game Damage Settlements and Claim Denials

See §§ 33-3-101 to 204, CRS, for additional detail and requirements

a. Game Damage Claims Settled by Agreement Between Claimants and the Division
   1) Only settlements of game damage claims equaling or exceeding $5,000 in total value must be reviewed by the Commission, and then only where the damage is something other than forage loss to wild ruminants on privately owned or leased private land. All other settlements may be paid by the Division without Commission review.
   2) Review will be based on the written materials and documentary evidence provided to the Commission by the Division and, unless the Commission directs otherwise, there will be no oral presentations or further submittals to the Commission on the settlement.
   3) Except as may otherwise be directed by the Commission, game damage settlements will be reviewed at the next regular meeting of the Commission following their receipt, provided the settlement, together with its supporting materials and documentation, is received by the Commission at least thirty days prior to the meeting. The settlement will be placed on the consent agenda unless the claimant makes an oral presentation to the Commission pursuant to #1601.A.1.

b. Game Damage Claims Recommended for Denial by the Division
   1) Any claimant seeking or otherwise requiring Commission review of a game damage claim recommended for denial by the Division, or a game damage claim where the claimant and the Division have otherwise failed to reach a settlement, shall file a written request for review with the Commission. The requirement for a written request for review applies to all claimants, including claimants that have waived arbitration of a forage loss to wild ruminants on privately owned or leased private land. Such request for review shall be mailed to the Commission within ten (10) days of claimant's receipt of the Division's written notice of denial or offer of settlement unacceptable to the claimant.
   2) The request for review shall include:
      a. the claimant's name, address and telephone number;

b. a narrative statement of the claim, including the amount at issue and a complete statement of the factual and statutory basis supporting payment of the claim as requested;
c. copies of the ten (10) day notification(s) and proof of loss filed with the Division;
d. copies of the written documentation submitted with, and in support of, the proof of loss;
e. any other documentary evidence supporting the claim or disputing the grounds stated as the basis for the Division's action in its notice of denial or offer of settlement, including photographs, and;
f. any other written materials supporting the claim or disputing the grounds stated as the basis for the Division's notice of denial or offer of settlement, including signed statements by third party witnesses.

3) Commission review will be based on the request for review and any written materials or documentary evidence provided to the Commission by the Division in response to the request for review submitted by the claimant, and unless the Commission directs otherwise, there will be no oral presentations or further submittals to the Commission.
4) Except as may otherwise directed by the Commission, such claims will be reviewed at the next regular meeting of the Commission following their receipt, provided the request for review is received by the Commission at least thirty days prior to the meeting. The denial will be placed on the consent agenda unless the claimant makes an oral presentation to the Commission pursuant to #1601.A.1.

2. License Suspension Appeals

See § 33-6-106, CRS for additional detail and requirements

a. All license suspensions will be heard initially and decided by a Commission hearing examiner. A copy of the hearing examiner's initial decision shall be sent to the licensee by certified mail, return receipt requested, to the last known address of such person. The hearing examiner's initial decision shall advise the licensee of their right to appeal the initial decision to the Commission. Any person seeking or otherwise requiring Commission review of the hearing examiner's initial decision shall file a written notice of appeal with the Commission within thirty (30) days of the licensee's receipt of the hearing examiner's initial decision, but no later than 45 days from the date contained in the certificate of service accompanying the initial decision. The notice of appeal must be sent to "CPW License Appeals" 6060 Broadway, Denver, CO 80216. If a timely appeal is not made to the Commission, the hearing examiner's initial decision shall become final, effective 45 days from the date contained in the certificate of service accompanying the initial decision. If a timely appeal is made to the Commission, the hearing examiner shall send notice to the licensee of the date of their scheduled hearing before the Commission and advise that the hearing examiner's initial decision to suspend is automatically stayed pending Commission review and final action.
b. The notice of appeal shall include:
   1) the person's name, address, telephone number and case file number;
   2) a narrative statement of the person's position, including a complete statement of the factual and statutory basis supporting relief from the decision of the hearing examiner and the relief requested;
   3) copies of any written documentation or documentary evidence submitted to the hearing examiner;
   4) copy of the hearing examiner's decision, including the findings of fact and conclusions of law, and;

5) a copy of the transcript of the hearing on the suspension of license privileges conducted by the hearing examiner. The person requesting review shall be responsible for the production of the transcript.

c. Commission review will be based on the notice of appeal and any additional written materials and documentary evidence provided to the Commission by the hearing examiner in response to the notice of appeal, and unless the Commission directs otherwise, there will be no oral presentations or further submittals to the Commission.

d. Except as may otherwise be directed by the Commission, license suspensions will be reviewed at the next regular meeting of the Commission following their receipt, provided the notice of appeal is received by the Commission at least thirty days prior to the meeting. The appeal will be placed on the consent agenda unless the licensee makes an oral presentation to the Commission pursuant to #1601.A.1. The final decision of the Commission is effective upon mailing to the licensee and must contain a certificate of mailing.

e. Written notice of the final decision of the commission shall be sent to the licensee by certified mail to the last known address of such person. The notice shall advise the licensee that he or she may appeal the Commission's suspension decision to the state district court as provided in § 24-4-106, C.R.S., by bringing an action for judicial review within 35 days after such action becomes effective.

f. When deciding upon the duration of any license privileges suspension term, the hearing examiner will consider the facts of the underlying violation(s) giving rise to the criminal conviction(s) and the administrative license suspension hearing, along with all relevant written materials and documentary evidence contained in the Division's records, all written materials and documentary evidence provided by the party prior to the administrative license suspension hearing, and all evidence provided during the hearing, and will give specific consideration to the absence or presence of the following factors:
   1) Whether the violation(s) caused or resulted in the take of wildlife, injury or death of a person, or damage to or destruction of public or private property;
   2) The number of violations arising from the same transaction or occurrence;
   3) Whether the violation(s) involved the take of species listed as endangered, threatened or of special concern;
   4) Whether the violation(s) involved the take of trophy wildlife;
   5) Whether the violation(s) showed an intentional, knowing, or negligent disregard for wildlife or public safety;
   6) Whether the violation(s) involved intentional, knowing or negligent action on behalf of the party;
   7) Whether the party has any prior violations of wildlife statutes or regulations, or violations of state or federal law committed while hunting, fishing, or engaging in a related activity;
   8) Whether the party has any prior license suspensions;
   9) Whether the violation(s) occurred while the party was subject to a prior suspension or otherwise unlicensed;
   10) Whether the violation(s) involved any assault or threat to or resisting a peace officer;
   11) Whether the party self-reported the violation(s) or otherwise attempted to remedy or ameliorate the harm caused by the violation(s);
   12) The experience and age of the party and other social factors or circumstances associated with the violation(s);
   13) Whether the party interfered with or hindered the investigation of the violation(s);
   14) The criminal penalties imposed as part of the violation(s);
   15) Whether the party acted alone or in concert with other parties;
   16) The species and the number of wildlife taken, and;
   17) Whether the violation(s) involved any specified illegal manner of take (use of bait, traps, snares, poison, etc.).

Based on all the evidence presented, the hearing examiner will determine the weight to be given to any factor and that factor's effect on the duration of the suspension term.

3. Mid-Suspension Review

a. Except as specified in subsection b. of this regulation, any person who has had their privilege of applying for, purchasing, or exercising the benefits conferred by any or all licenses issued by the division pursuant to articles 1 to 6 of title 33 ("license privileges") may file a petition for mid-suspension review seeking to modify the expiration date of their suspension. Such petitions may be filed once every five years either:
   1) After half of a suspension of at least 20 years, but less than a lifetime, has elapsed; or
   2) After fifteen years of a lifetime suspension have elapsed.

b. Applicability
   1) Any person who has had their license privileges suspended by the commission for less than 20 years may not file a petition for mid-suspension review.
   2) Any person who has had their license privileges suspended by the commission on two or more occasions may not file a petition for mid-suspension review.
   3) Any person who has been convicted of wildlife violations of another state, or any Canadian province, United States territory, or federal agency which is a member of the "Wildlife Violator Compact," §§ 24-60-2601 – 2604, CRS, since the date of the hearing examiner's initial decision entered pursuant to § 33-6-106(7), CRS, may not file a petition for mid-suspension review.
   4) Any person who has been charged with wildlife violations of another state, or any Canadian province, United States territory, or federal agency which is a member of the "Wildlife Violator Compact," §§ 24-60-2601 – 2604, CRS, since the date of the hearing examiner's initial decision entered pursuant to § 33-6-106(7), CRS, may not file a petition for mid-suspension review until such charges are finally resolved.

c. Contents of petition for mid-suspension review and course of proceedings
   1) The petition for mid-suspension review must include an affidavit signed by the petitioner under penalty of perjury stating:
      a. The petitioner has not had their license privileges suspended by the commission on two or more occasions;
      b. The petitioner has not been convicted of wildlife violations of another state, or any Canadian province, United States territory, or federal agency which is a member of the "Wildlife Violator Compact," §§ 24-60-2601 – 2604, CRS, since the date of the hearing examiner's initial decision entered pursuant to 33-6-106(7), CRS; and,
      c. There are no pending charges against the petitioner for wildlife violations of another state, or any Canadian province, United States territory, or federal agency which is a member of the "Wildlife Violator Compact," §§ 24-60-2601 – 2604, CRS.
   2) The petition for mid-suspension review must include a detailed justification for the request. Time served on the suspension, and/or financial penalties incurred do not constitute good cause for modifying the expiration date of any suspension.
   3) The petition for mid-suspension review must demonstrate the petitioner's ongoing and concerted efforts to ameliorate the harm caused by their violation(s) in the form of education, mentoring, volunteering, wildlife conservation efforts, or other means.
   4) The division may file a response to the petition. Unless the commission directs otherwise, there will be no oral presentations or further submittals to the commission and the petition will be placed on the consent agenda with an appropriate recommendation by the Director.

d. Standard of review: The commission, in its discretion, may modify the duration of a previously-imposed license suspension if the petitioner proves the duration of their original suspension no longer serves the remedial purpose of protecting the state's wildlife. The commission shall consider the totality of the circumstances, which include, but need not be limited to, the following factors:
   1) The credibility of the petitioner's written statements or testimony, if any;
   2) The credibility of written statements by third parties;
   3) The adequacy of petitioner's ameliorative efforts;
   4) The risk of future wildlife offenses; and,
   5) Aggravating or mitigating factors leading to the original suspension.

3. Review of Petitions for Declaratory Orders

   See §§ 24-4-105(11), CRS for additional detail and requirements

   a. Any person may petition the Commission for a declaratory order to terminate a controversy or to remove uncertainty as to the applicability to the petitioner of any statutory provision or any rule or order of the Commission.
   b. The petition must be in writing and shall include:

3 CCR 712-21 *[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

21.1 STATEMENT OF BASIS AND PURPOSE

The basis for the Board's promulgation of these rules and regulations is sections 12-20-204(1) and 12-290-106(1)(a), C.R.S. The specific statutory authority for the promulgation of this Rule is section 12-30-109(6), C.R.S.

The purpose for the Board's promulgation of these rules and regulations are to implement rules required by section 12-30-109(6), C.R.S., related to requirements for prescribing benzodiazepines to patients for whom licensees have not previously prescribed benzodiazepines within the last twelve months.

21.2 RULES AND REGULATIONS

A. Licensees must limit any prescription for a continuous benzodiazepine to a 30-day supply, for any patient to whom the licensee has not prescribed a benzodiazepine in the last 12 months.

B. Prior to prescribing the second fill of a benzodiazepine, a licensee must comply with the requirements of section 12-280-404(4), C.R.S. Failure to comply with section 12-280-404(4), C.R.S., constitutes unprofessional conduct or grounds for discipline under section 12-290-108(3), C.R.S.

C. The limitation stated in Section (A) of this Rule does not apply to patients for whom licensees prescribe benzodiazepines for the following conditions:

1. Epilepsy;

2. A seizure, a seizure disorder, or a suspected seizure disorder;

3. Spasticity;

4. Alcohol withdrawal; or

5. A neurological condition, including a post-traumatic brain injury or catatonia.

D. These rules do not require or encourage abrupt discontinuation, limitation, or withdrawal of benzodiazepines. Licensees are expected to follow generally accepted standards of podiatry practice, based on an individual patient's needs, in tapering benzodiazepine prescriptions.

(IV) An additional fuel surcharge may be assessed when the price per gallon of diesel fuel exceeds a base rate of $2.60. RULES PERTAINING TO THE ADMINISTRATION AND ENFORCEMENT OF THE PET ANIMAL CARE AND FACILITIES ACT

8 CCR 1202-15

Part 2. Application for Licensure and Conditions for Licensure

2.5.1 In addition to all other requirements for licensure, an applicant for a pet animal facility license must successfully complete the required qualifying education course. Proof of course completion is required prior to license approval. The required qualifying education course will be an online, self-paced course designed and provided by the Colorado Department of Agriculture. The course shall be free, available to applicants and their staff, and the course may be accessed by contacting the PACFA program at the Colorado Department of Agriculture. The qualifying education course will cover topics including, but not limited to:

2.5.1.1 The Pet Animal Care and Facilities Act program overview;

2.5.1.2 Rule and regulations;

2.5.1.3 Cleaning, sanitation, veterinary care, animal care; and

2.5.1.4 Importation and transportation.

2.5.2 The applicant for a licensed pet animal facility must successfully complete a continuing education course, at least once during the span of two (2) 12-month license periods after the first initial license period has expired. Proof of course completion is required prior to license renewal. The required continuing education course will be an online, self-paced course designed and provided by the Colorado Department of Agriculture. The course shall be free, available to applicants and their staff, and the course may be accessed by contacting the PACFA program at the Colorado Department of Agriculture. The continuing education course will cover topics including, but not limited to:

2.5.2.1 Changes to PACFA statutes and rules;

2.5.2.2 Noncompliance trends by licensees;

2.5.2.3 Good practices that promote the health and welfare of pet animals; and

2.5.2.4 Other relevant topics related to the PACFA program.

2.5.3 A pet animal facility licensed prior to October 30, 2021 is required to take the qualifying education course to satisfy the continuing education requirement in Part 2.5.2 by a date prescribed by the Commissioner, but no later than December 31, 2024.

Part 25. Statements of Basis, Specific Statutory Authority and Purpose

25.8. Adopted September 8, 2021 – Effective October 30, 2021

Statutory Authority:

The Commissioner of Agriculture adopts these rules pursuant to §35-80-109(2), C.R.S.

Purpose:

The Purpose of the rulemaking is to add qualifying and continuing education as an additional requirement for licensure found in subsection 2.5.

Factual Policy and Issues:

Many regulated professions that serve the general public require a level of qualifying and continuing education as a condition to licensure. Educational requirements for licensed professionals maintain a basic level of competency and establish consistent standards within the profession. Under Title 35, Article 80 of the Colorado Revised Statutes, the Commissioner has the authority to establish qualifications of any applicant for licensure and the ability to issue and renew any license based on established requirements. By incorporating qualifying and continuing education, licensees will have a better understanding of the regulatory requirements, industry standards, and best practices related to animal care; thereby, increasing compliance and improving the health and safety of pet animals throughout the state. The education courses will be required to be completed by the applicant who applies for a new license or to renew an existing license. However, facility staff may voluntarily take the courses at their own discretion.

Rules Concerning Bingo and Raffles Games

Rules as Adopted - Clean

September 7, 2021

(Publication instructions/notes):

8 CCR 1505-2 is amended as follows:

Amendments to Rules 3.1.5(b) and (d) concerning closing a bingo game:

(b) The caller may not call the next ball removed from the machine or otherwise selected, until the signaled bingo is verified or invalidated. If a bingo has been signaled and a worker acknowledges the player but the caller was unaware and continues to call the next ball, the effect of the preceding ball is suspended pending verification or invalidation of the last bingo. If the signaled bingo is verified, the caller must return the ball to the machine unless the verified bingo is part of a multi-part or continuing game.

[No changes to (c)]

(d) When a player or worker signals "Bingo", a worker on the floor must place the card, sheet, or electronic bingo aid device in front of at least one other player at a different table to confirm the bingo.

Amendments to Rule 5.4.1 and 5.4.3 concerning progressive pull tab operations:

5.4.1 Number allowed. A licensee may not offer, put into play or have in play more than one progressive pull tab deal at any time. A licensee may open the next deal in the pull tab game if a winner is not immediately discovered. The licensee must announce the winner of the deal twice and allow a reasonable amount of time for the winner to claim their prize. If no winner comes forward, the licensee must display the flare card for at least 15 days to allow time for the winner to claim their prize.

[No changes to 5.4.2]

5.4.3 Offered for play. Once a progressive pull tab game starts at a bingo occasion, a licensee must offer the game at each succeeding bingo occasion sponsored by the licensee until the jackpot is won. If a progressive pull tab game starts on the licensee’s premises, the licensee must offer the game on each successive day that the premises are open. A licensee may suspend play of progressive pull tab games only while operating a pari-mutuel bingo occasion. Once the pari-mutuel occasion has ended, the progressive pull tab game must continue during the next regular bingo occasion.

Amendments to Rule 8.4 concerning progressive raffles, including New Rule 8.4.1(b)(1). Current Rule 8.4.1(b)(1) is amended and re-codified as Rule 8.4.1(b)(1)(ii):

(b) Playing card progressive raffles

(1) A licensee may conduct a playing card progressive raffle game by selecting a Jackpot Prize Card from either:

(i) A specifically designed prepackaged game purchased from a licensed supplier; or

(ii) A standard deck of 52 cards or a standard deck of 52 cards plus two joker cards (for a total of 54 playing cards).

New Rule 8.4.1(b)(2):

(2) If using a prepackaged game:

(i) The board must have a serial number and the licensee must retain the used board for at least six months after the final game.

(ii) The licensee must post the Jackpot Prize Card for the raffle with the board's serial number at the location of the progressive raffle game. The licensee must post Jackpot Prize Card so that it is out of the reach of all players but also fully visible to all players.

(iii) The licensee must break or tear open the Jackpot Prize Card's window in plain view of all individuals present.

Current Rule 8.4.1(b)(2) is re-codified as Rule 8.4.1(b)(3)(i) and Current Rules 8.4.2(a) though (c) are re-codified as Rules 8.4.1(b)(3)(ii) through (iv):

(3) If using a playing card deck with envelopes or other containers:

(i) The licensee must place the cards from the deck in identical separate envelopes or other containers, one card per container, through which the card is not visible. The container must be sealed so that the licensee must tear, break, or rip a portion of the container in order to access the card.

(ii) Before sealing cards in the containers, the games manager and at least one other licensee member must verify that all cards are present.

(iii) The licensee must shuffle the envelopes containing the cards before putting them on public display.

(iv) Once the licensee places the envelopes on display, the licensee must keep them in a locked container at all times except during drawings. Only the games manager and licensee officers are allowed access to the keys for the container.

Current Rules 8.4.1(b)(3) though (6) are amended and re-codified as Rule 8.4.1(b)(4)(i) though (iv):

(4) For both methods of playing card progressive raffles:

(i) After selling raffle tickets, the licensee must hold a drawing with the pool containing all tickets purchased for that drawing.

(ii) The purchaser of the drawn ticket is given the opportunity to select one or more of the windows or envelopes. The number of windows or envelopes selected per draw must remain constant throughout the progression.

(iii) If the ticket purchaser selects the window or envelope containing the Jackpot Prize Card, the ticket purchaser wins the raffle prize amount, consisting of the prize money accumulated since the last winning draw.

(iv) If the ticket purchaser's selected window or envelope does not contain the Jackpot Prize Card, there is no winner and the prize amount is added to the jackpot for the next drawing.

8.4.2 Additional rules for both methods of playing card progressive raffles

[Current Rules 8.4.2 (a) though (c) are re-codified as Rules 8.4.1(b)(3)(ii) through (iv) above]

Amendments to Current Rules 8.4.2(d) through (g), including renumbering:

(a) A ticket holder must be present at the drawing in order to claim a progressive raffle prize. If the winning ticket purchaser is not present at the drawing, the licensee must continue to draw tickets until selecting a ticket purchaser who is present.

(b) If the window or envelope selected by the drawing winner does not contain the Jackpot Prize Card, the licensee must display the selected card at all future drawings until the licensee awards the jackpot prize.

At its September 1-2, 2021 meeting, the Colorado Parks and Wildlife Commission adopted emergency rules affecting Chapter P-7 (Passes, Permits and Registrations, 2 CCR 405-7). The emergency rules temporarily allow for purple heart recipients to enter state parks with a purple heart special license plate and/or to receive an Independence Parks Pass, in response to recently passed legislation and in the interest of public welfare.

The Commission adopted the foregoing rules on an emergency basis as authorized by the Colorado Administrative Procedures Act (APA), CRS § 24-4-103(6)(a). This section authorizes emergency rules where "the agency finds that immediate adoption of the rule is imperatively necessary … for the preservation of public health, safety, or welfare" where the APA's standard rulemaking requirements "would be contrary to the public interest." The Commission finds such standards are satisfied here.

"The commission shall: (a) Promulgate rules and orders relating to parks and outdoor recreation programs which are necessary to carry out the purposes of articles 10 to 15 and 32 of this title; (33-10-106 (1))"

The passage of House Bill 21-1116 made resident Purple Heart recipients eligible to access to state parks and recreation areas for free with a Purple Heart license plate and eligible to receive a free Independence Park Pass. These regulatory changes temporarily implement House Bill 21-1116.

Absent these emergency rules, the Division would not be able to implement the recently passed legislation by the prescribed effective date. Accordingly, the emergency rules are necessary for the use, benefit, and enjoyment of the people of this state.

Notice of the proposed emergency rule-making was posted on the CPW website, and at Regional Service Centers, and Area Service Centers (area offices) where possible, indicating the Commission would consider the emergency regulations at its meeting on September 1-2, 2021 and written comments would be accepted prior to that date.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.

The primary statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Parks Act, §§ 33-10-101 to 33-33-113, C.R.S., and specifically including, but not limited to: §§ 33-10-106, C.R.S.

EFFECTIVE DATE - THESE EMERGENCY REGULATIONS SHALL BECOME EFFECTIVE IMMEDIATLEY UPON ADOPTION AND SHALL REMAIN IN EFFECT FOR NO MORE THAN 120 DAYS OR UNTIL PERMANENT REGULATIONS TAKE EFFECT, WHICHEVER OCCURS FIRST, OR THE EMERGENCY REGULATIONS ARE OTHERWISE REPEALED, AMENDED OR SUPERSEDED.

APPROVED AND ADOPTED BY THE PARKS AND WILDLIFE COMMISSION OF THE STATE OF COLORADO THIS 1ST DAY OF SEPTEMBER, 2021.

5. Such authorization shall apply to the user and all passengers in the motor vehicle to which the pass is affixed or displayed. One pass shall cover all state recreation areas and state parks.

6. Additional affixed annual vehicle passes may be issued to an owner or to the owner's household. Additional annual affixed vehicle passes authorize entrance by motor vehicle to all state recreation areas and state parks during the period beginning on the date of purchase of the additional pass through the expiration date of the associated original full-priced annual affixed pass or state parks annual transferable pass. Owners of school buses, passenger vans and buses owned by a nonprofit corporation or organization as defined in 13-21-115.5 (3), C.R.S., and passenger vans and buses owned by any government agency are limited to purchasing no more than two additional annual affixed vehicle passes at a reduced fee per each annual affixed vehicle pass purchased at the full fee. 2. “Pass” as used in these regulations means a physical or electronic document or product provided for by statute, Commission rule or regulation and issued or required by the Division authorizing entrance to any state park or state recreation area.

SPECIAL ACTIVITIES

 # 703 - SPECIAL ACTIVITIES REQUIRING PERMITS

1. “Special activities” means events or activities which have the potential for an adverse impact on park values or health, safety or welfare of park visitors or which may otherwise require special planning/scheduling for proper management. Special activities shall require prior approval in the form of a special-activities permit. Applications thereof generally shall be made to the Park Manager or Operational Manager at least ninety (90) days prior to the event or activity. Such application must be accompanied by the appropriate application filing fee. This requirement for an application to be filed ninety days prior to an event will be waived in rare circumstances where arrangements can be made in a shorter time without putting undue administrative burden on the Park Manager or Operational Manager, or when no special arrangements are necessary. The Park Manager may impose additional items, conditions and charges in connection with the permit as reasonably necessary to offset the administrative burden, costs or risks associated with the proposed activities. The Park Manager may retain third party consultants to evaluate the potential adverse impacts of the proposed activity and develop appropriate strategies to offset or mitigate such risks. The applicant shall be notified if the Park Manager decides to retain a consultant, shall be given the opportunity to provide input concerning consultant selection and scope of work. The applicant shall be responsible for the actual costs associated with this consultant review.

2. The decision of whether to approve special activity permits will be made by the Park Manager or Operational Manager when it is determined that the special activities will not involve the use of a park or recreation area by a group of persons totaling more than the park or recreation area's established carrying capacity. Otherwise, the Regional Manager shall make the decision of whether to approve the permits. The decision of whether to approve special activities permits will be based on the impact on park values and/or the health, safety and welfare of park visitors and other affected persons, and also will be based on:

   a. The nature of the park or recreation area and the types of recreational opportunities/resources it is intended to provide the public

   b. The carrying capacity of the facility or facilities to be utilized during the special activity compared to:

(1) The total number of park visitors (including participants and spectators in the special activity) expected to utilize such facilities; and

(2) The total number of vehicles, vessels or persons expected to participate in or be attracted to such activities.

c. The extent to which the special activity will contribute to the variety of outdoor recreational opportunities available to the people of this state and its visitors.

d. The extent to which the activity places an administrative burden on the staff of the park area.

3. Whenever it is determined that any special activity will involve the use of a park or recreation area by a group of persons totaling more than the park's or recreation area's established carrying capacity a thirty day written public comment period and a public meeting shall be required prior to the granting of a permit. The Park Manager or Operational Manager shall publish notice of both the written comment period and the meeting at least once in a newspaper of general circulation in the county or counties wherein said park or recreation area is located. The meeting shall be conducted by the Division representative responsible for the permit issuance decision and shall be held either at the park or recreation area, or within a county in which the park or recreation area is located. Such public meeting is not intended to be an adjudicatory licensing hearing under the provisions of the Colorado Administrative Procedures Act, but only as an opportunity for public comment.

4. Every decision respecting the grant, denial, revocation, suspension, annulment, limitation or modification of a special activity permit is subject to § 24-4-104, C.R.S.

5. Upon written request, the Division shall waive the requirement for a parks pass for those vehicles when all the occupants are entering state recreation areas and state parks for the purpose of administering permitted special activities and not for the purpose of their own recreation.

6. For special activities where the Division representative responsible for the permit issuance decision determines it will be a greater administrative ease for the Division to administer the activity, an alternative fee of $4.00 per person per day may be charged for admission of persons attending or participating in the special activity. This permission shall apply only to groups of twenty or more persons.

7. Nothing in this regulation impairs the specific authority of the Commission pursuant to 33-10-107(1)(d) C.R.S. to enter into cooperative agreements for the development and promotion of Division programs, or the general authority of the Commission pursuant to 33-10-106 C.R.S. to manage all state recreation areas and state parks for both commercial and noncommercial purposes. The authority granted to park managers and regional managers is intended to allow them to address events of limited and local impact, and is specifically intended to coexist with, and not to exclude, the Commission’s statutory authorities.

CAMPGROUND USE PERMITS

 # 704 - CAMPGROUND USE PERMITS AND GROUP CAMPGROUND USE PERMITS

1 No person shall camp in designated campgrounds or use any campground facilities of any park or recreation area unless such use is by authority of a valid campground-use permit issued by the Colorado Parks and Wildlife.

(4) If, at a later date, an applicant's payment of the HUP fee is found to be insufficient due to payment stops, insufficient funds or any other reason, an HUP will not be issued to them. And, if an HUP had been issued prior to CPW discovering the insufficient payment, that permit will be voided.

Muzzle-loading: ten (10)

1st separate elk rifle: ten (10)

2nd combined deer/elk: ten (10)

3rd combined deer/elk: ten (10)

4th combined deer/elk: ten (10)

(3) The number of HUPs allocated in each of the subsequent years will be determined by CPW after evaluating harvest and other data at the close of each year's hunting.

B. Application and permit fees

(1) Each applicant must submit a $10.00 application fee for each application submitted.

(2) Successful permit application holders shall pay a special use permit fee of $100, which must be received by Golden Gate Canyon State Park (address below) prior to any access to the Green Ranch.

(3) Upon payment of the fee, a HUP for the Green Ranch shall be issued to the applicant.

(4) If an applicant who is successful in the drawing (see section c.7) fails to pay the special use permit fee within 10 days prior to the start of the applicant’s season, a permit will not be issued to them. The next qualified applicant on the alternate list (see section c.8) will be offered an HUP.

(5) If, at a later date, an applicant's payment of the HUP fee is found to be insufficient due to payment stops, insufficient funds or any other reason, an HUP will not be issued to them. If an HUP had been issued prior to CPW discovering the insufficient payment, that permit will be voided.

C. Allocation of permits

(1) Advertising: it shall be the responsibility of the park manager or his/her designee to advertise the availability of the HUPs for the Green Ranch through normal media and internet formats.

(2) Application requests: requests for the application for the HUP for the Green Ranch can be made by sending a self-addressed stamped envelope (SASE) to Golden Gate Canyon State Park, Attn: Green Ranch Hunt: 92 Crawford Gulch Road, Golden, Colorado 80403, phone: 303 582-3707. Applications may also be accessed via the internet at www.cpw.state.co.us

(3) Requests for permit applications shall be acted upon promptly, and an application for permit shall be mailed to the prospective applicant within five days of receiving the SASE.

(4) Permit applications must be mailed to Golden Gate Canyon State Park at the above address and clearly marked “Green Ranch Hunt” on the envelope. All applications must be received by July 31st for the upcoming big game season.

(5) Permit applications will be checked for completeness and require a copy of the hunting license, if applicable (for limited licenses). All complete and correct permit applications will be recorded for future use.

(6) If additional information is needed to process the permit application, the park manager or his/her designee will make reasonable attempts to contact the applicant to rectify the application.

(7) Drawing: the drawing will be held no later than the first Sunday in August. There will be one random drawing for each of the six seasons on the Green Ranch: pre-muzzleloading archery, muzzleloading, post-muzzleloading archery, 1st separate limited elk, 2nd combined deer and elk, 3rd combined deer and elk, and 4th combined deer and elk. Permits will be issued up to the numbers outlined in this regulation, #711.2.a.

(8) Up to fourteen names will be drawn for each of the hunting seasons; a maximum of ten for the “hunter list” and four “alternates” for each season. If one of the hunters drawn does not wish to accept the HUP, an alternate will be contacted in the consecutive order that they were drawn.

(9) Successful applicants will be notified of their success by mail via a letter of successful application, which shall include a summary of rules associated with the HUP (a complete list to be provided with the permit during the required orientation) and information for remittance of the special use permit fee.

D. Reporting and filing

(1) All files pertaining to the HUP for the Golden Gate Canyon State Park Green Ranch will be stored at the Golden Gate Canyon State Park office.

(2) The park manager or his/her designee will include a summary of hunting activity under permit on the park manager monthly report.

(3) Revenues derived from the HUP and application fee will be deposited in the parks cash fund and reflected on the consignment usage/revenue report for the month such fees are deposited.

3. Field enforcement procedure

A. Possession of permit

(1) Copies of the “hunter list” will be made available to commissioned CPW officers and the officers of other cooperating agencies in the interest of maintaining compliance with this plan.

(2) It shall be the permittee's responsibility to carry the access permit with them while hunting the Green Ranch portion of Golden Gate Canyon State Park.

B. Statute and regulation compliance

(1) Permit holders will be supplied a list of rules associated with the HUP upon issuance of the permit. Failure to comply with rules of the permit may result in permit revocation.

(2) Nothing in this hunting management plan or in the rules of the special use permit shall imply or be construed to imply that HUP holders are exempt from any statute or regulation governing hunting, motor vehicle operation, conduct on a state park, or other activity in which the permit holder may engage while performing the activities allowed under the permit. These statutes and regulations include, but are not limited to:

(a) Permit holders must possess a valid hunting license issued by CPW for the game management unit, species and season hunted.

(b) Vehicle involved in hunting-use on the Green Ranch are required to display a valid Colorado State Parks pass, unless the vehicle displays a disabled veteran license plate or a Purple Heart license plate.

C. “Alternate” system

(1) Alternate hunters may be contacted in the event a permittee is unable to engage in the activities of the permit for any reason, including sickness, death, hunting license revocation, permit revocation, park eviction or simple changes in plans.

(2) Alternates will be contacted in the following manner:

(a) The park manager or his/her designee will attempt to contact the next individual on the alternate list by phone.

(b) If the next individual is unable to be contacted upon the first call, the park manager or his/her designee will continue down the alternate list until an individual can be contacted and notified of the availability of an HUP for the Green Ranch.

(c) If no hunter on the alternate list can be contacted, the park manager or his/her designee will return to the applicant pool of the individual season and randomly draw up to four more alternates. This process will be continued until the hunting slot is filled by a qualified applicant.

(d) If no hunter can be contacted, no applicant is qualified, or none is available to hunt the remainder of the season, the availability of the HUP

will be advertised by the park manager or his/her designee and the permit may be issued on a first-come, first-served basis.

(e) Hunters who are contacted via the hunting list or alternate list and who obtain or decline a HUP for the Green Ranch will have their name removed from the applicant pool.

(2) Alternate permits shall not be valid until payment of the HUP and application fee are made by the new permittee.

D. Refund policy

(1) Refunds will only be provided according to the current pass refund policy of the Division and by relinquishing the HUP for the Green Ranch before the opening day of the season for which the permit is valid.

(c) A temporary closure of campground facilities is necessary in order to implement repairs.

Upon a determination by the Region Manager that the cause for lowering the campground classification has been abated, the original campground classification will be reinstated.

This reduced rate applies to all nights of the year when such areas are open, except weekend nights and the night before a legal holiday. For the purpose of determining reduced rate campground permit eligibility, "weekend" night means the time period beginning at 12 noon on Friday through 12 noon on Sunday, and the night before a legal "Holiday" shall mean the time period beginning at 12 noon on the day prior to the legal holiday through 12 noon of the legal holiday. The discount is only valid for a single campsite per day, per pass holder. The pass holder must hold a pass that qualifies them for the reduced rate at both the time of reservation and at the time of occupancy. The pass holder must also be the one to make the reservation and be an occupant of the campsite for the entirety of the reservation.

The camping permit reduced fees associated with the Aspen Leaf annual pass are identified in regulation # 708.

FILING - 09/21/2021
Basis and Purpose
Chapter P-7 - Passes, Permits and Registrations

Basis and Purpose:

At its September 1-2, 2021 meeting, the Colorado Parks and Wildlife Commission adopted emergency rules affecting Chapter P-7 (Passes, Permits and Registrations, 2 CCR 405-7). The emergency rules temporarily allow for purple heart recipients to enter state parks with a purple heart special license plate and/or to receive an Independence Parks Pass, in response to recently passed legislation and in the interest of public welfare.

The Commission adopted the foregoing rules on an emergency basis as authorized by the Colorado Administrative Procedures Act (APA), CRS § 24-4-103(6)(a). This section authorizes emergency rules where "the agency finds that immediate adoption of the rule is imperatively necessary … for the preservation of public health, safety, or welfare" where the APA's standard rulemaking requirements "would be contrary to the public interest." The Commission finds such standards are satisfied here.

"The commission shall: (a) Promulgate rules and orders relating to parks and outdoor recreation programs which are necessary to carry out the purposes of articles 10 to 15 and 32 of this title; (33-10-106 (1))"

The passage of House Bill 21-1116 made resident Purple Heart recipients eligible to access to state parks and recreation areas for free with a Purple Heart license plate and eligible to receive a free Independence Park Pass. These regulatory changes temporarily implement House Bill 21-1116.

Absent these emergency rules, the Division would not be able to implement the recently passed legislation by the prescribed effective date. Accordingly, the emergency rules are necessary for the use, benefit, and enjoyment of the people of this state.

Notice of the proposed emergency rule-making was posted on the CPW website, and at Regional Service Centers, and Area Service Centers (area offices) where possible, indicating the Commission would consider the emergency regulations at its meeting on September 1-2, 2021 and written comments would be accepted prior to that date.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.

The primary statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Parks Act, §§ 33-10-101 to 33-33-113, C.R.S., and specifically including, but not limited to: §§ 33-10-106 and 33-10-107, C.R.S.

EFFECTIVE DATE - THESE EMERGENCY REGULATIONS SHALL BECOME EFFECTIVE IMMEDIATLEY UPON ADOPTION AND SHALL REMAIN IN EFFECT FOR NO MORE THAN 120 DAYS OR UNTIL PERMANENT REGULATIONS TAKE EFFECT, WHICHEVER OCCURS FIRST, OR THE EMERGENCY REGULATIONS ARE OTHERWISE REPEALED, AMENDED OR SUPERSEDED.

FILING - 09/21/2021
Basis and Purpose
Chapter W-3 - Small Game - Furbearers

Basis and Purpose:

At its September 1-2, 2021 meeting, the Colorado Parks and Wildlife Commission adopted emergency rules affecting Chapter W-3 (Furbearers and Small Game, Except Migratory Birds, 2 CCR 406-3). The emergency rules temporarily allow for the closure of Game Management Unit (GMU) 10 to greater sage-grouse hunting to assure maintenance of adequate populations of wildlife and to protect public welfare.

The Commission adopted the foregoing rules on an emergency basis as authorized by the Colorado Administrative Procedures Act (APA), CRS § 24-4-103(6)(a). This section authorizes emergency rules where "the agency finds that immediate adoption of the rule is imperatively necessary … for the preservation of public health, safety, or welfare" where the APA's standard rulemaking requirements "would be contrary to the public interest." The Commission finds such standards are satisfied here.

"The commission is responsible for all wildlife management, for licensing requirements, and for the promulgation of rules, regulations, and orders concerning wildlife programs" (CRS, § 33-1-104(1). Furthermore, "…to provide an adequate, flexible, and coordinated statewide system of wildlife management and to maintain adequate and proper populations of wildlife species, the commission shall have authority in this state, by appropriate rules and regulations, to: (a) Determine under what circumstances, when, in which localities, by what means, what sex of, and in what amounts and numbers the wildlife of this state may be taken and, further, to shorten, extend, or close seasons on any species of wildlife in any specific locality or the entire state when it finds after investigation that such action is necessary to assure maintenance of adequate populations of wildlife or to preserve the proper ecological balance of the environment." (CRS, § 33-1-106 (1)).

The Northwest Colorado Greater Sage-grouse Conservation Plan (NWCO GRSG Conservation Plan) recommends a 100-male minimum threshold based on a 3-year running average of the number of male grouse counted on leks for the management of sage-grouse hunting. The 3-year running average of male sage-grouse counted at leks in Northwest Colorado Management Zone 6 is 79 males, below the threshold of 100. In addition, this year's count of 95 males in this management zone represents a decline by 87% over the past five years. Game Management Unit 10 aligns with Management Zone 6 in the NWCO GRSG Conservation Plan. As a result, regulation #315.A.1 was modified to remove GMU 10 from the 2021 hunting season for greater sage-grouse. GMU 10 will remain temporarily closed until lek counts result in a 3-year average of male lek attendance that exceeds 100.

Absent these emergency rules, the Division would be unable to close GMU 10 to sage-grouse hunting prior to the start of the 2021 hunting season. Accordingly, the emergency rules are necessary to maintain adequate and proper populations of greater sage grouse.

Notice of the proposed emergency rule-making was posted on the CPW website, and at Regional Service Centers, and Area Service Centers (area offices) where possible, indicating the Commission would consider the emergency regulations at its meeting on September 1-2, 2021 and written comments would be accepted prior to that date.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.

The primary statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Wildlife Act, §§ 33-1-101 to 33-6-209, C.R.S., specifically including, but not limited to: §§ 33-1-106, C.R.S.

EFFECTIVE DATE - THESE EMERGENCY REGULATIONS SHALL BECOME EFFECTIVE IMMEDIATLEY UPON ADOPTION AND SHALL REMAIN IN EFFECT FOR NO MORE THAN 120 DAYS OR UNTIL PERMANENT REGULATIONS TAKE EFFECT, WHICHEVER OCCURS FIRST, OR THE EMERGENCY REGULATIONS ARE OTHERWISE REPEALED, AMENDED OR SUPERSEDED.

6 CCR 1011-1, Standards for Hospitals and Health Facilities
Chapter 2 – General Licensure Standards

Emergency rules adopted by the Board of Health on August 31, 2021.
Effective August 31, 2021.

Emergency Justification

Findings Pursuant to Section 24-4-103(6), C.R.S.

In response to COVID-19, Governor Polis verbally declared a disaster emergency on March 10, 2020, and issued the corresponding Executive Order D 2020 003 on March 11, 2020. Since that time there have been 7,327 deaths due to COVID-19 in Colorado, 2,625 of which occurred in licensed healthcare facilities. Although the COVID-19 vaccine is now widely available, approximately 30% of the healthcare workforce in these facilities and agencies remain unvaccinated. With the rise in the Delta variant, ensuring that all workers in licensed healthcare facilities are vaccinated is one of the most effective means the state can take to protect the public health, safety, and welfare of all Coloradans and end this ongoing pandemic. Studies show that the rate of hospitalization due to COVID-19 infection is greatest in the unvaccinated. As Colorado approaches the back-to-school and influenza seasons, it is imperative the Department takes all available measures to increase vaccination rates to keep as many Coloradans as healthy as possible in order to reduce the burden on the already overstretched healthcare system and workforce. Therefore, the Board finds that immediate adoption of these revisions is imperative to preserve the public health, safety and welfare, and that compliance with the normal rulemaking requirements of Section 24-4-103, C.R.S. would be contrary to the public interest.

Rule 18-7 MEDICAL FEE SCHEDULE

(I) GUARDIAN AD LITEM AND CONSERVATOR SERVICES

When reasonably necessary for employees who are legally incapacitated as a result of a work-related injury or occupational disease, the following services are allowed reasonable fees and costs as agreed upon by the parties:

Guardian ad litem
Conservator
Attorney/Paralegal

The parties may submit an invoice or other agreed upon form for these services. If the parties are unable to agree on a reasonable fee, the parties may bring the matter before the Director for resolution.

STATEMENT OF EMERGENCY BASIS AND PURPOSE FOR AMENDMENT TO THE WORKERS' COMPENSATION RULES OF PROCEDURE 7 CCR 1101-3

House Bill 21-1050 makes guardian and conservator services a payable benefit in the workers' compensation system and mandates adoption of a fee schedule for these services. .

HB21-1050 was signed on June 30, 2021, leaving insufficient time to comply with §24-4-103.

Accordingly, I find that immediate adoption of this rule amendment is imperatively necessary to comply with state law, and compliance with §24-4-103 would be contrary to the public interest. Rule 5 Claims Adjusting Requirements

5-6 TIMELY PAYMENT OF COMPENSATION BENEFITS

(A) Benefits and penalties awarded by order are due three (3) business days after the order becomes final. Any ongoing benefits shall be paid consistent with statute and rule.

(B) Initial payment of temporary disability benefits awarded by admission shall be paid no later than the date the admission awarding benefits is filed and are considered due three (3) business days after the date of the admission. Temporary disability benefits are due at least once every two weeks thereafter from the date of the admission. Payment mailed via the United States Postal Service will be considered timely if postmarked at least three (3) business days prior to the due date. In some instances, an Employer's First Report of Injury and admission can be timely filed, but the first installment of compensation benefits will be paid more than 20 days after the insurer has notice or knowledge of the injury. Provided the filings are timely and that benefits are timely paid for the entire period owed as of the date of the admission, the insurer will be considered in compliance. When benefits are continuing, the payment shall include all benefits which are due.

(C) Permanent impairment benefits awarded by admission are retroactive to the date of maximum medical improvement and shall be paid so that the claimant receives the benefits not later than three (3) business days after the date of the admission. Subsequent permanent disability benefits are due at least once every two weeks from the date of the admission. When benefits are continuing, the payment shall include all benefits which are due. Payment mailed via the United States Postal Service will be considered timely if postmarked at least three (3) business days prior to the due date.

(D) An insurer shall receive credit against permanent disability benefits for any temporary disability benefits paid beyond the date of maximum medical improvement.

(E) Benefits shall be calculated based on a seven (7) day calendar week.

STATEMENT OF EMERGENCY BASIS AND PURPOSE FOR AMENDMENT TO THE WORKERS' COMPENSATION RULES OF PROCEDURE 7 CCR 1101-3

House Bill 21-1050 changed the mechanism for determining timeliness of benefit payments from date of mailing to date of receipt. Prior to HB21-1050, payments would be considered timely if they were mailed to an injured worker on the date they were due. Under the new law, benefits will only be considered timely if they are received by the injured worker on the due date. There is an exception for benefits paid via the United States Post Office. These benefits are considered timely paid if they are mailed three days prior to the date payment is due.

Under the current version of Rule 5-6, most initial payments of benefits are due at the same time the triggering event occurs. For example, when an insurer agrees the temporary indemnity benefits are appropriate, the first payment of benefits would be due the same day the admission of liability describing those benefits is filed. This system is in conflict with HB21-1050, as benefits cannot be paid prior to the triggering event which determines what benefits are due.

The emergency rules eliminate the conflict by changing the due date for payments. Under the emergency rules, payments are due three days after the triggering event. Benefits will be considered timely paid if they are mailed via USPS on the date of the triggering event.

HB21-1050 was signed on June 30, 2021, leaving insufficient time to comply with §24-4-103.

Accordingly, I find that immediate adoption of this rule amendment is imperatively necessary to comply with state law, and compliance with §24-4-103 would be contrary to the public interest. This emergency rule will become effective on September 7, 2021 and be in effect for 120 days unless suspended or superseded.

RULES PERTAINING TO FARM-TO-MARKET INFRASTRUCTURE GRANTS

8 CCR 1207-4

Part 1. Definitions

1.1. "Agriculture" has the same meaning as set forth in 35-1-102(1) C.R.S., which is: "the science and art of production of plants and animals useful to man, including, to a variable extent, the preparation of these products for man's use and their disposal by marketing or otherwise, and includes horticulture, floriculture, viticulture, forestry, dairy, livestock, poultry, bee, and any and all forms of farm products and farm production."

1.2. "Agricultural Processing" means the transforming, packaging, sorting, storage, or grading of Colorado livestock, livestock products, agricultural commodities, plants, or plant products.

1.3. "Award Effective Date" means the date on which the Commissioner of Agriculture, or her designee, sends written communication, whether by e-mail or post, that an applicant's grant application has been approved for a Grant Award.

1.4. "Award Period" means the period of time during which the Department will receive grant applications to process for consideration of grant awards.

1.5. "Commissioner" means the Commissioner of Agriculture.

1.6. "Department" means the Department of Agriculture created in 35-1-103 C.R.S.

1.7. "Eligible Business" means a business that: (a) earns a majority of its revenue from agricultural processing; and (b) in the judgment of the Department has managers and employees who possess sufficient education, training, and experience to operate the business; and provides an economic benefit to Colorado farmers or ranchers.

1.8. "Eligible Expense" means an expense that an applicant identified in its grant application and that an awardee incurred within the contract period as part of completing its awarded project.

1.9. "Eligible Farmer or Rancher" means an individual who: (a) is at least eighteen years of age; (b) is a resident of Colorado; (c) is an owner or operator in fact of a farm or ranch; and (d) in the judgment of the Department: possesses sufficient education, training, and

experience to operate the farm or ranch; and possesses or has access to sufficient working capital, farm machinery, livestock, or land to operate the farm or ranch.

1.10. “Farm-to-Market Infrastructure Grant” means a grant of money from the fund, which money is used for the purpose of agricultural processing.

1.11. “Fund” means the Colorado Agricultural Future Loan Program Cash Fund created in 35-1.2-105 C.R.S.

1.12. “Grant Award” means an award of money from the Fund that the Department grants to an eligible business, eligible rancher, or eligible farmer for the exclusive purpose of agricultural processing.

Part 2. General Eligibility

2.1. Eligible businesses, eligible farmers, and eligible ranchers as defined in 1.7 and 1.9 above may apply to the Department for a Farm-to-Market Infrastructure Grant. The intent of the Department is to award grants totaling $2 million by June 30, 2022.

2.2. Eligible businesses, eligible farmers, and eligible ranchers applying for a Farm-to-Market Infrastructure Grant must have a physical operation(s) in the state of Colorado and the project for which the applicant requests such funds must also be located in Colorado.

2.3. Eligible businesses must be registered and in “good standing” with the Colorado Secretary of State.

2.4. Eligible farmers and eligible ranchers must be residents of Colorado and actively engaged in agriculture.

2.5. Grant Awards may be used only for projects that constitute Agricultural Processing, as that term is defined in 1.2 above.

2.6. The maximum Grant Award amount that the Department will award for any one project is $150,000.

2.7. Awardees shall have not more than two (2) years from the effective date of the Grant Award to fully complete the project.

Part 3. Application for a Grant

3.1. Eligible businesses, eligible farmers, and eligible ranchers interested in participating may apply to the Department at any time using the application processes and procedures on the Department’s web site at https://ag.colorado.gov/

3.2. While applications may be submitted at any time, the Department will adhere to the following schedule for review of applications:

3.2.1. Applications received prior to the close of business on November 30, 2021 (Award Period #1) will be reviewed and awardees selected no later than January 30, 2022. The intent of the Department will be to award $1 million in grants to applications received during this period.

3.2.2. Applications received prior to the close of business on February 28, 2022 (Award Period #2) will be reviewed and awardees selected no later than April 30, 2022. The intent of the Department will be to award $1 million in grants to applications received during this period.

3.2.3. Applications received after February 28, 2022 will be reviewed and awards made contingent upon the availability of grant funds.

3.3. Applicants not selected to receive a grant in an Award Period may resubmit their application or submit a new application for consideration in any subsequent Award Period.

3.4. At the time of application to the Department, an applicant must provide general eligibility information about the applicant, a description of the proposed project and business plan, project timeline, project budget, the grant amount being requested, identification of which expenses the grant funds would be used for, the applicant's contribution (financial or otherwise) to the project, the extent to which the proposed project will strengthen resiliency within Colorado's food and agricultural industry, and any projected changes to employment and sales/volume growth.

3.4.1. Applications from Eligible Businesses must also demonstrate that the Eligible Business earns greater than fifty (50) percent of its revenues from agricultural processing.

3.5. Applications will be reviewed by a panel inclusive of Department staff and the Colorado Value-Added Development Board. This panel will evaluate the merit of each application on the basis of criteria, including, but not limited to, the amount of funds requested, the applicant's contribution (financial or otherwise) to the project, the project's expected economic impact, potential for new job creation, and the extent to which the project will strengthen resiliency within Colorado's food and agricultural industry.

3.6. The review panel will make its recommendations to the Commissioner of projects proposed for selection and the Grant Award proposed to be awarded to fund such projects. To optimize the utilization of funds available, the review panel may recommend Grant Awards less than the amount of funds an applicant requests. The Commissioner of

Agriculture, or the Commissioner's designee, will review such recommendations and make any final awards and grant amounts as deemed appropriate.

3.7. The Department will inform each applicant of the Department's decision regarding an applicant's request for a Grant Award via e-mail within 30 days of the end of each Award Period.

Part 4. Award of Funds

4.1. Grant Awards will be made available to awardees as a Small Dollar Grant Award (purchase order grant).

4.2. Grant Awards are subject to the State of Colorado Small Dollar Grant Award Terms and Conditions (incorporated by reference herein, effective July 1, 2019). Material incorporated by reference does not include any later amendments or editions of the incorporated material. Copies of material incorporated by reference are available for public inspection during regular business hours and may be obtained at a reasonable charge or examined by contacting the Markets Division, Colorado Department of Agriculture, 305 Interlocken Parkway, Broomfield, CO 80021. Further, the incorporated material may be examined at no cost on the Internet at: https://osc.colorado.gov/spco/ccu/purchase-order-terms-conditions

4.3. The Department will provide a copy of this material to any eligible business, eligible rancher, or eligible farmer who receives a Grant Award along with the notification of award.

4.4. A Grant Award is not a guarantee of funds as all disbursement of funds is contingent on the awardee's agreeing to and complying with all requirements as determined by the Department.

4.5. Awardees may submit an initial invoice in an amount up to fifty (50) percent of the total grant award upon completing the first performance milestone of participating in a project "kick-off conference" with the Department. Awardees will later submit invoices for actual expenses with supporting documentation and proof of payment to the Department for reimbursement. If an initial payment is made to the awardee, the reimbursement of expenses shall be reduced initially by the amount of the initial payment. To the extent that documented expenses are eligible expenses, the funds will then be reimbursed.

4.6. Awardees may submit invoices at any time as expenses are incurred and paid; however, a final invoice must be submitted not later than one year following the effective date of the Small Dollar Grant Award.

4.7. As a condition of receiving a Grant Award, an awardee shall agree to cooperate with the Department in evaluating the economic impact of the project and any changes to employment in Colorado as a result of completing the project.

Part 5 through 9 Reserved

Part 10. Statement of Basis, Specific Statutory Authority and Purpose

10.1. Emergency Rule Adopted September 8, 2021 – Effective September 8, 2021

Statutory Authority

The Commissioner of Agriculture adopts these rules pursuant to § 35-1.2-103(7)(a) and (c), C.R.S., and § 24-4-103(6), C.R.S. .

Purpose

1. To create the Farm-to-Market Infrastructure Grant Program providing funds to businesses, farmers, and ranchers for the development and expansion of agricultural processing.

2. To establish general eligibility requirements for the Program.

3. To establish application processes and procedures for the Program.

4. To establish processes and procedures for the review of applications and award of grant funds.

5. To establish processes and procedures for reimbursement of expenses to participating businesses, farmers, and ranchers.

Factual and Policy Issues

This temporary emergency rule is necessary to enable the Commissioner of Agriculture to fulfill the requirements of SB 21-248, which created a new “Colorado Agricultural Future Loan Program.” SB 21-248 authorized the Commissioner to commence distributing between five and ten million dollars on or before January 1, 2022, in part, to fund farm-to-market grants. SB 21-248, codified at § 35-1.2-101, et seq., C.R.S., limits the period of time during which the Commissioner may issue such farm-to-market grants, which time period ends June 30, 2022. Further, before the Commissioner may receive an application for a grant or issue a grant, the Commissioner must adopt rules to govern the grant process.

Engaging in the normal rule-making process would not permit these rules to be effective until the start of the new year. Such a delay would result in the Commissioner’s inability to begin receiving and processing grant applications until after the new year. Such a delay would impair the

Commissioner’s ability to issue sufficient grants to comply with the statutory minimums before the statutory deadline of June 30, 2022.

Immediate adoption is therefore imperatively necessary to comply with state law and to enable the Commissioner to fulfill the General Assembly’s desire to fund such farm-to-market infrastructure grants.

In developing these Rules, the Department reviewed policies and program guidelines of previous grant programs administered by the Markets Division within the Department of Agriculture. The Department also conducted listening sessions with agricultural stakeholders relating to the New Agricultural Future Loan Program, which encompasses the Farm-to-Market Infrastructure Grant Program.

3.1. Eligible businesses, eligible farmers, and eligible ranchers interested in participating may apply to the Department at any time using the application processes and procedures on the Department’s web site at https://ag.colorado.gov/

3.2. While applications may be submitted at any time, the Department will adhere to the following schedule for review of applications:

3.2.1. Applications received prior to the close of business on November 30, 2021 (Award Period #1) will be reviewed and awardees selected no later than January 30, 2022. The intent of the Department will be to award $1 million in grants to applications received during this period.

3.2.2. Applications received prior to the close of business on February 28, 2022 (Award Period #2) will be reviewed and awardees selected no later than April 30, 2022. The intent of the Department will be to award $1 million in grants to applications received during this period.

3.2.3. Applications received after February 28, 2022 will be reviewed and awards made contingent upon the availability of grant funds.

3.3. Applicants not selected to receive a grant in an Award Period may resubmit their application or submit a new application for consideration in any subsequent Award Period.

3.4. At the time of application to the Department, an applicant must provide general eligibility information about the applicant, a description of the proposed project and business plan, project timeline, project budget, the grant amount being requested, identification of which expenses the grant funds would be used for, the applicant's contribution (financial or otherwise) to the project, the extent to which the proposed project will strengthen resiliency within Colorado's food and agricultural industry, and any projected changes to employment and sales/volume growth.

3.4.1. Applications from Eligible Businesses must also demonstrate that the Eligible Business earns greater than fifty (50) percent of its revenues from agricultural processing.

3.5. Applications will be reviewed by a panel inclusive of Department staff and the Colorado Value-Added Development Board. This panel will evaluate the merit of each application on the basis of criteria, including, but not limited to, the amount of funds requested, the applicant's contribution (financial or otherwise) to the project, the project's expected economic impact, potential for new job creation, and the extent to which the project will strengthen resiliency within Colorado's food and agricultural industry.

3.6. The review panel will make its recommendations to the Commissioner of projects proposed for selection and the Grant Award proposed to be awarded to fund such projects. To optimize the utilization of funds available, the review panel may recommend Grant Awards less than the amount of funds an applicant requests. The Commissioner of

Agriculture, or the Commissioner's designee, will review such recommendations and make any final awards and grant amounts as deemed appropriate.

3.7. The Department will inform each applicant of the Department's decision regarding an applicant's request for a Grant Award via e-mail within 30 days of the end of each Award Period.

Part 4. Award of Funds

4.1. Grant Awards will be made available to awardees as a Small Dollar Grant Award (purchase order grant).

4.2. Grant Awards are subject to the State of Colorado Small Dollar Grant Award Terms and Conditions (incorporated by reference herein, effective July 1, 2019). Material incorporated by reference does not include any later amendments or editions of the incorporated material. Copies of material incorporated by reference are available for public inspection during regular business hours and may be obtained at a reasonable charge or examined by contacting the Markets Division, Colorado Department of Agriculture, 305 Interlocken Parkway, Broomfield, CO 80021. Further, the incorporated material may be examined at no cost on the Internet at: https://osc.colorado.gov/spco/ccu/purchase-order-terms-conditions

4.3. The Department will provide a copy of this material to any eligible business, eligible rancher, or eligible farmer who receives a Grant Award along with the notification of award.

4.4. A Grant Award is not a guarantee of funds as all disbursement of funds is contingent on the awardee's agreeing to and complying with all requirements as determined by the Department.

4.5. Awardees may submit an initial invoice in an amount up to fifty (50) percent of the total grant award upon completing the first performance milestone of participating in a project "kick-off conference" with the Department. Awardees will later submit invoices for actual expenses with supporting documentation and proof of payment to the Department for reimbursement. If an initial payment is made to the awardee, the reimbursement of expenses shall be reduced initially by the amount of the initial payment. To the extent that documented expenses are eligible expenses, the funds will then be reimbursed.

4.6. Awardees may submit invoices at any time as expenses are incurred and paid; however, a final invoice must be submitted not later than one year following the effective date of the Small Dollar Grant Award.

4.7. As a condition of receiving a Grant Award, an awardee shall agree to cooperate with the Department in evaluating the economic impact of the project and any changes to employment in Colorado as a result of completing the project.

Part 5 through 9 Reserved

Part 10. Statement of Basis, Specific Statutory Authority and Purpose

10.1. Emergency Rule Adopted September 8, 2021 – Effective September 8, 2021

Statutory Authority

The Commissioner of Agriculture adopts these rules pursuant to § 35-1.2-103(7)(a) and (c), C.R.S., and § 24-4-103(6), C.R.S. .

Purpose

1. To create the Farm-to-Market Infrastructure Grant Program providing funds to businesses, farmers, and ranchers for the development and expansion of agricultural processing.

2. To establish general eligibility requirements for the Program.

3. To establish application processes and procedures for the Program.

4. To establish processes and procedures for the review of applications and award of grant funds.

5. To establish processes and procedures for reimbursement of expenses to participating businesses, farmers, and ranchers.

Factual and Policy Issues

This temporary emergency rule is necessary to enable the Commissioner of Agriculture to fulfill the requirements of SB 21-248, which created a new “Colorado Agricultural Future Loan Program.” SB 21-248 authorized the Commissioner to commence distributing between five and ten million dollars on or before January 1, 2022, in part, to fund farm-to-market grants. SB 21-248, codified at § 35-1.2-101, et seq., C.R.S., limits the period of time during which the Commissioner may issue such farm-to-market grants, which time period ends June 30, 2022. Further, before the Commissioner may receive an application for a grant or issue a grant, the Commissioner must adopt rules to govern the grant process.

Engaging in the normal rule-making process would not permit these rules to be effective until the start of the new year. Such a delay would result in the Commissioner’s inability to begin receiving and processing grant applications until after the new year. Such a delay would impair the

Commissioner’s ability to issue sufficient grants to comply with the statutory minimums before the statutory deadline of June 30, 2022.

Immediate adoption is therefore imperatively necessary to comply with state law and to enable the Commissioner to fulfill the General Assembly’s desire to fund such farm-to-market infrastructure grants.

In developing these Rules, the Department reviewed policies and program guidelines of previous grant programs administered by the Markets Division within the Department of Agriculture. The Department also conducted listening sessions with agricultural stakeholders relating to the New Agricultural Future Loan Program, which encompasses the Farm-to-Market Infrastructure Grant Program.

BUILDING, FIRE, AND LIFE SAFETY CODE ENFORCEMENT AND CERTIFICATION OF INSPECTORS FOR HEALTH FACILITIES LICENSED BY THE STATE OF COLORADO

STATEMENT OF BASIS, STATUTORY AUTHORITY, AND PURPOSE

Pursuant to Section 24-33.5-1203.5, C.R.S., the Director of the Colorado Division of Fire Prevention and Control shall promulgate rules as necessary to carry out the duties of the Division of Fire Prevention and Control. This rule is proposed pursuant to this authority and is intended to be consistent with the requirements of the State Administrative Procedures Act, Section 24-4-101, et seq., C.R.S. The Director of the Division of Fire Prevention and Control is authorized to promulgate rules to establish and enforce standards for the inspection, certification, and use of these apparatuses by the provisions of section 24-33.5-2303, C.R.S.

A modification to C.R.S. 24-33.5-1203(1)(p.5), effective on July 1, 2021, changes the expectations of the Division. Specifically, the Division is now required by the statute to conduct construction plan reviews and inspections of health facility buildings and structures, enforce the codes in accordance with sections 24-33.5-1212.5 and 24-33.5-1213, and issue certificates of compliance for "facilities certified or potentially eligible for certification by the federal centers for medicare and medicaid services." 24-33.5-1203(1)(p.5), C.R.S.

The purpose of this emergency rule making is to establish the above-cited changes to C.R.S. 24-33.5-1203(1)(p.5) in rule. It was declared by the General Assembly in House Bill 19-1237, that in order to promote the public health and welfare of the people of Colorado, it is in the public interest to establish and streamline minimum standards and rules for behavioral health entities operating in the State of Colorado and to provide the authority for the administration and enforcement of such minimum standards and rules. The absence of accurate implementing rules to carry out the purpose of the statute would be contrary to this declaration. For these reasons, it is imperatively necessary that the proposed rules be adopted.

ARTICLE 3 – CODES, DOCUMENTS, AND STANDARDS INCORPORATED BY REFERENCE

3.1 The technical requirements of these rules are supported primarily by codes developed by the International Code Council and the National Fire Protection Association. These two organizations are membership associations dedicated to building safety and fire prevention. These rules establish minimum requirements where the Division is the Authority Having Jurisdiction for building systems using prescriptive and performance related provisions, which are widely used to construct residential and commercial buildings. The appropriate portions of the adopted codes will be applied as prescribed by the adopted codes themselves. Where there are differing provisions for new and existing construction, all work taking place after April 1, 2019 must meet the requirements for new construction and as amended per provisions of IEBC and NFPA 101.

3.2 The following codes and their referenced standards are adopted and promulgated as minimum standards for the construction and maintenance of all property, buildings, and structures containing a Health Facility in the State of Colorado where the Division is the Authority Having Jurisdiction:

3.2.1 Adopted codes pertinent to this rule shall be as prescribed in 8 CCR 1507-101 (BUILDING AND FIRE CODE ADOPTION AND CERTIFICATION OF INSPECTORS FOR FIRE & LIFE SAFETY PROGRAMS ADMINISTERED BY THE STATE OF COLORADO).

3.2.1.1 For the purposes of this rule the Division shall enforce the Building Codes as defined in 8 CCR 1507-101 § 3.2.1.

3.2.1.2 For the purposes of this rule the Division shall enforce the Fire Codes as defined in 8 CCR 1507-101 § 3.2.2.

3.2.1.3 For the purposes of this rule the Division shall enforce the Life Safety and Health Facility Construction Codes and Guidelines as defined in 8 CCR 1507-101 § 3.2.3.

3.3 In any facility where the evacuation capability of the facility or resident population is required to be rated, the "Procedure for Determining Evacuation Capability" published by NFPA is to be used by the facility whether the facility is evaluated utilizing the NFPA 101A, Guide on Alternative Approaches to Life Safety (2013), or NFPA Standard 101, Life Safety Code (2012). The Level of Evacuation Difficulty for each facility will be determined by the scores developed in the Worksheet for Rating Residents completed by responsible staff for each resident and the level of staffing maintained at the facility. It is the responsibility of the owner or administrator to ensure that the abilities of the residents are accurately rated in accordance with the published instructions. Each new resident shall be rated utilizing the Worksheet for Rating Residents within two (2) weeks of their admission to the facility. All resident rating scores shall be reviewed at least annually, or when there are significant changes in a resident's physical or cognitive abilities. Failure to rate the evacuation capability in accordance with these provisions upon two inspections will result in a permanent "impractical" rating for the facility.

3.4 Certificates of Occupancy and Certificates of Compliance issued after the adoption of codes by the Division for space not currently licensed by CDPHE will be based on compliance with the requirements for new construction within the applicable codes.

ARTICLE 4 – AUTHORITY OF LOCAL BUILDING DEPARTMENTS

4.1 Where the Health Facility is located in a jurisdiction with a local Building Department, the authority to conduct the necessary plan reviews, issue building permits, conduct inspections, issue Certificates of Occupancy, issue Temporary Certificates of Occupancy, and take enforcement action to ensure that a building or structure has been constructed in conformity with the locally adopted codes remains the responsibility of the local Building Department. Under these circumstances, the Division will accept a completed Building Permit and associated Certificate of Occupancy from the local Building Department as demonstration of compliance with the locally adopted building codes.

4.2 Where the Health Facility is located in a jurisdiction with no local Building Department, the authority to conduct the necessary plan reviews, issue building permits, conduct inspections, issue Certificates of Occupancy, issue Temporary Certificates of Occupancy, and take enforcement action to ensure that a building or structure has been constructed in conformity with these rules is the responsibility of the Division. Under these circumstances, the Division will issue the applicable Building Permits and associated Certificates of Occupancy as demonstration of compliance with the Division's adopted building codes. The determination of when a building permit is required shall be based upon the International Building Code Section 105 requirements (except 105.1.1 and 105.1.2). Substantial changes to the scope of the project (including addition of square footage to the project scope) will require a submittal of a new application for a permit.

ARTICLE 5 – DEFINITION OF FIRE AND LIFE SAFETY CODE OFFICIALS

5.1 The Division is the Fire and Life Safety Code Official for Certified Health Facilities and facilities that could potentially become a Certified Health Facility.

5.2 For non-certified Health Facilities that cannot potentially become a Certified Health Facility located in a jurisdiction where the local fire department has Certified Fire Inspectors at the appropriate level for the task, the local fire department is responsible for conducting the necessary construction plan reviews and inspections. Under these circumstances, the local fire department is considered the Fire and Life Safety Code Official and will enforce the locally adopted Fire and Life Safety Codes.

5.3 If the local fire department declines to perform the plan review or any subsequent inspection, or if a Certified Fire Inspector is not available, the Division will be considered the Fire and Life Safety Code Official and the Division will perform the construction plan reviews and inspections required by the Division's adopted Fire and Life Safety Codes and will enforce the Division's adopted Fire and Life Safety Codes. The determination of when a fire and life safety permit is required will be based upon the International Building Code Section 105 requirements (except 105.1.1 and 105.1.2) and the International Fire Code Section 105.7 requirements. Substantial changes to the scope of the project (including addition of square footage to the project scope) will require a submittal of a new application for permit.

5.4 For Certified Health Facilities or for facilities that could potentially become Certified Health Facilities that are located in a jurisdiction where the local fire department has Certified Fire Inspectors at the appropriate level for the task, the local fire department is responsible for conducting the necessary fire code construction plan reviews and inspections. Under these circumstances, the local fire department will be considered the Fire Code Official. In this instance, the Division will be considered the Life Safety Code Official and the Division will perform the construction plan reviews and inspections required by the Division's adopted Life Safety Codes and will enforce the Division's adopted Life Safety Codes The determination of when a life safety permit is required shall be based upon the International Building Code Section 105 requirements (except 105.1.1 and 105.1.2) and the International Fire Code Section 105.7 requirements.
Substantial changes to the scope of the project (including addition of square footage to the project scope) will require a submittal of a new application for a permit.

ARTICLE 6 – PERMIT APPLICATION SUBMITTAL TO THE DIVISION

6.1 Notification of Submittal to a Local Building Department

6.1.1 For projects that require a permit that will be reviewed and inspected by a local Building Department, the Business Entity shall notify the Division and the State licensing authority prior to beginning construction. Notification must include:

A) Name of project;

B) Location of project;

C) Scope of work of project;

D) Projected total cost of project;

E) Projected square footage of project;

E) Planned construction start and end dates;

F) Identification of Fire Code Official (Name of the Qualified Fire Department or the Division);

G) Identification of Building Code Official (Name of the Building Code Official or the Division);

H) A description of the proposed health services to be provided and the type of licensure being sought through the state licensing authority;

I) A copy of the Life Safety Code plan sheets submitted in the format as prescribed by the Division.

6.2 Permit Application Submittal to the Division

6.2.1 For all construction (including adding previously unlicensed space to a Health Facility license) or operational permits not covered under a Limited Scope Project permit as defined by this Article, the Business Entity shall submit a complete plan review application package to the Division for Life Safety Code compliance review. If there is not a local building department, the Business Entity shall also submit a complete plan review application package to the Division for Building Code compliance review.

6.2.2 The plan review application package must be submitted to the Division in the format defined by Division policy.

6.2.3 The building permit application package shall be concurrently submitted to the Division and to the local fire department. Either the Qualified Fire Department or the Division will review the submittal for compliance with the applicable codes. Permit issuance is contingent upon the review and approval of the submittal by the applicable Life Safety and/or Fire Code Officials. The Business Entity is required to contact the local fire department to determine the required submittal items not listed in this rule.

6.3 Plan Review and Permitting by the Division

6.3.1 The Division will notify the Business Entity if the permit application is incomplete.

6.3.2 The Building Code plan review will be completed by a qualified building plans examiner within the Division or by a qualified third-party reviewer contracted by the Division.

6.3.3 The Fire Code plan reviews will be completed by an individual qualified as a Fire Inspector III – Plans Examiner within the Division, qualified third-party reviewer contracted by the Division, or by the Qualified Fire Department.

6.3.4 The Life Safety Code plan reviews will be completed by an individual qualified as a Fire Inspector III – Plans Examiner and CMS Qualified Life Safety Code Inspector within the Division.

6.3.5 Upon completion of the code review, the Division will provide the Business Entity with a comprehensive list of corrections to be addressed prior to the issuance of a permit. This list of corrections should not be considered all-inclusive and may not be considered as approval of any condition in violation of applicable code. Once all corrections have been satisfactorily addressed, the Division will issue the permit.

6.4 Phased Construction

6.4.1 Upon request by the Business Entity, the Division may issue individual permits for demolition, construction of foundations, and construction of core and shell, or for individual phases of an overall project provided that construction documents for that portion of the building or structure being permitted have been submitted per Article 6.3. The holder of such permit for demolition or the construction of foundations or vertical construction may then proceed at the holder's own risk with building operation and without assurance that a permit for the entire structure will be granted. Issuance of this permit should not be considered all inclusive and may not be considered as approval of any condition in violation of applicable codes.

6.5 Deferred Design/Build Submittals/Shop Drawings

6.5.1 Deferred design/build (shop drawing) submittals for fire protection and life safety systems are permitted; however, construction documents must provide sufficient information to show compliance with Fire and Life Safety Code requirements and coordination between fire systems and other building systems (i.e., HVAC systems, security systems).

6.5.2 Shop (Installation) drawings for fire protection and life safety systems shall be submitted to the Fire and Life Safety Code Official(s) for review and approval prior to beginning installation of the system.

A) Fire sprinkler and fire alarm shop drawings shall be submitted to the Fire and Life Safety Code Officials in accordance with the requirements of the adopted codes in the format as prescribed by the Division and the local fire department.

B) Shop (installation) drawings for other systems regulated by the Fire and Life Safety Codes shall be submitted to the Division in accordance the appropriate referenced standard for the system.

6.5.3 Minimum Qualifications for Fire Protection and Life Safety System Design and Installation

A) Fire Suppression Systems

Any installation, modification, alteration, or repair of a fire suppression system shall be in accordance with 8 CCR 1507-11 - Colorado Fire Suppression program.

B) Fire Alarm Systems

(1) The design of any new system or alteration of an existing fire alarm system using the prescriptive requirements of NFPA 72 shall be performed by a person who is currently a professional engineer or qualified by NICET at a level III or level IV in fire protection engineering technologies - fire alarm systems, or another nationally recognized organization approved by the Division.

(2) The design of any new system or alteration of an existing fire alarm system using performance-based design methods as described by NFPA 72 or alternative materials and methods as described by the adopted
Fire Code shall be performed by a person who is currently a professional engineer specializing in fire protection.

(3) The installation of a fire alarm system shall be performed by or supervised by a person who is currently qualified at a minimum of NICET level II in fire protection engineering technologies – fire alarm systems, or another nationally recognized organization approved by the Division.

C) Other Fire and Life Safety Protection Systems Regulated by the Building, Fire, or Life Safety Codes

The design and installation shall be performed by a company or individual with manufacturer- or factory-approved training for the specific system, or as otherwise required by the applicable code section or referenced standard.

6.6 Limited Scope Project Permit

6.6.1 In lieu of an individual Building, Fire, or Life Safety Code permit for each limited scope project, the Division may issue a Limited Scope Project Permit upon approved application for or renewal of a Certificate of Compliance. Permits for Limited Scope Projects expire concurrent with the Certificate of Compliance for the Health Facility. The Business Entity shall notify the Local Fire Department prior to the commencement of work conducted under a Limited Scope Project Permit.

6.6.2 Limited Scope Project Permits are restricted to those projects identified by the Division.

6.6.3 The Business Entity to whom a Limited Scope Project Permit is issued shall keep a detailed record, including stamped engineered drawings (if applicable), of all modifications made under such Permit.

6.6.4 All work completed under an Limited Scope Project Permit shall be inspected by a local building department inspector, a Third-Party Inspector, or a qualified tradesperson (as specified by local or state licensing requirements or the installation standards adopted by the Division [if applicable], the manufacturer's installation recommendations, or minimally a person with 3 years or more of experience in the field of construction) within 10 days of completion of a project, and such inspections shall be recorded on an inspection log. The Division may perform interim inspections at any time and must have access to all inspection logs at all times. Copies of such records shall be submitted to the Division within 30 days of the expiration date of the Limited Scope Project Permit.

6.6.5 If the inspection logs associated with the Limited Scope Project Permit demonstrate compliance with the Limited Scope Project Permit requirements, the Division may issue a Certificate of Compliance for projects completed under that permit.

6.6.6 If the inspection logs associated with the Limited Scope Project Permit demonstrate noncompliance with the Limited Scope Project Permit requirements, the Division will issue a correction notice and may revoke and withhold issuing another Limited Scope Project Permit or Certificate of Compliance to the Business Entity until all corrections have been satisfied and may, based on the extent of noncompliance and at the Division’s discretion, elect to not issue a limited scope project permit for the next renewal of the Certificate of Compliance.

ARTICLE 7 – CONSTRUCTION INSPECTIONS

7.1 Building Code Inspections Conducted by the Division

7.1.1 Construction or work for which a permit is required is subject to inspection by the Division or a Third-Party Inspector hired by the Business Entity. Such construction or work shall remain accessible and exposed for inspection purposes until approved. Neither the Division nor a Third-Party Inspector contracted by the Business Entity is liable for expenses incurred in the removal or replacement of any material required to allow inspection.

7.1.2 The Division may contract with Third-Party Inspectors who are qualified in accordance with Article 10 of these rules to perform inspections. A Health Facility may hire and compensate Third-Party Inspectors under contract with the Division or hire and compensate other Third-Party Inspectors who are qualified in accordance with Article 10 of these rules to perform inspections.

A) Prior to commencement of construction on projects requiring third-party inspections, the Business Entity shall notify the Division of the designated Third-Party Inspector for the permitted project. The notification shall be made in writing using a form provided by the Division. The Division may request a preconstruction meeting with the Business Entity, the contractor hired to perform the work, and the qualified Third-Party Inspector.

B) Third-Party Inspectors shall include their printed name and state certification number in the appropriate location on the inspection report or card.

C) The Division will require a sufficient number of third-party inspection reports to be submitted by the inspector based upon the scope and cost of the project to ensure quality inspections are performed. Concurrent with the permit approval, the Division will issue an Inspection Card specifying the applicable required inspections as set forth in Chapter 1 of the Building Code or as determined by the Division. The inspection card shall be on site throughout the duration of the project.

D) If the Division finds that inspections are not completed satisfactorily, or that all violations are not corrected, the Division will take enforcement action against the appropriate Business Entity pursuant to Article 11. In such case the Division may also require that all inspections for the next project undertaken by the Business Entity be conducted by the Division's inspectors.

7.1.3 For permits issued by the Division, the final inspection will be conducted only by the Division after all work required by the building permit is completed. Mid-construction inspections may be performed to observe progress and verify compliance with third-party inspection requirements as deemed necessary by the Division.

7.2 Fire and Life Safety Code Inspections

7.2.1 Project sites shall be inspected by the Fire and Life Safety Code Officials to verify compliance with the Fire and Life Safety Codes and approved construction documents. Construction inspections shall be conducted by a person certified as Fire Inspector II or Fire Inspector III – Plans Examiner. Third-party inspection provisions do not apply to the required Fire and Life Safety Code inspections. Either the Division or the Qualified Fire Department shall perform fire inspections.

7.2.2 Results of all inspections shall be documented on the job site inspection card and in the official records of the inspecting entity, and shall include type of inspection, date of inspection, identification of the responsible individual doing the inspection, and comments regarding approval or disapproval of the inspection. Inspection records shall be retained by the inspecting entity for three years after the Certificate of Compliance or Certificate of Occupancy is issued.

7.2.3 Certified Fire Inspectors shall include their printed name and state fire inspector certification number in the appropriate locations on the inspection report or card.

7.3 Inspection Request Notification to the Division.

7.3.1 The Division shall be provided with notification in writing no later than noon of the Thursday in the week preceding the requested inspection. The Division will make reasonable efforts to provide the inspection on the requested day or time, provided an inspector is available. If the inspection schedule is full, an alternate day and time will be proposed for the inspection to be completed within the next 30 days, unless otherwise negotiated.

7.3.2 It is the duty of the permit holder to provide access to and means for inspections of such work that are required by the inspector.

7.3.3 Work will not be done beyond the point indicated in each successive inspection without first obtaining the approval from the appropriate inspection entity. The inspector, upon notification, will perform the requested inspections. In the case that the Division cannot complete the inspection within the timeframe requested, the Business Entity may elect to hire a Third-Party Inspector to conduct that inspection at their own expense. Upon completion of the inspection, the inspector will either indicate the portion of the construction that is satisfactory as completed, or notify the permit holder or their Designated Representative of any deficiencies. Any portions of the construction that do not comply with the codes adopted in these rules shall be corrected and such portion shall not be covered or concealed until authorized by the appropriate inspection entity. The re-inspection shall be requested in accordance with Article 7.3.1.

7.4 Stop Work Orders Issued by the Division.

7.4.1 If the Division finds any work regulated by these rules being performed in a manner either contrary to the provisions of these rules or dangerous or unsafe, the Division is authorized to issue a stop work order.

7.4.2 The stop work order will be in writing and will be given to the Business Entity, the Designated Representative, or the person doing the work. Upon issuance of a stop work order, the cited work must immediately cease. The stop work order will state the reason for the order and the conditions under which the cited work will be permitted to resume.

7.4.3 Any person who continues any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, will be subject to penalties as prescribed by these rules.

ARTICLE 8 – CERTIFICATE OF OCCUPANCY AND CERTIFICATE OF COMPLIANCE

8.1 The Business Entity shall not occupy or use a Health Facility or portion thereof for the provision of services until a completed and closed Permit, Certificate of Compliance, Certificate of Occupancy or a Temporary Certificate of Occupancy has been issued by Division and/or the local building department.

8.2 The Division or the local building department may issue a Temporary Certificate of Occupancy if a Health Facility requires immediate occupancy and if the Business Entity has passed the appropriate inspections, including fire inspections, that indicate there are no life safety issues. If no renewal of the Temporary Certificate of Occupancy is issued or a permanent Certificate of Occupancy is not issued, the building shall be vacated upon expiration of the Temporary Certificate of Occupancy.

8.3 A Health Facility shall not provide health services without a valid Certificate of Compliance that has been issued by the Division for that portion of the Health Facility. If no renewal of the Certificate of Compliance is issued, the building shall be vacated upon expiration of the Certificate of Compliance.

8.4 Certificates of Occupancy and Certificates of Compliance will be issued based on the codes in effect during the most recent inspection of the facility. No Certificate of Compliance will be issued until compliance with the applicable codes and standards has been demonstrated through record review of local Authority Having Jurisdiction documents of inspection and certification, Division inspection and certification, or other appropriate documentation, showing the building to be in conformance with applicable codes and standards applicable at the time of issuance. The Business Entity is required to submit these documents to the local Authority Having Jurisdiction.

8.5 For the initial issuance of the Certificates of Compliance after July 1, 2013 the Certificate will be based on the codes as adopted and enforced by CDPHE during the last inspection or in effect upon the original submittal for plan review of the facility within the five years prior to July 1, 2013. For facilities that have not been inspected within the last five years, the Certificate will be issued based on the codes as adopted and enforced by CDPHE as of June 30, 2013.

ARTICLE 9 – MAINTENANCE AND COMPLAINT INSPECTIONS AND INSPECTION, TESTING AND MAINTENANCE PROGRAMS.

9.1 Maintenance and Complaint Inspections

9.1.1 The Division may perform inspections of the buildings and structures when deemed necessary to ensure that they are maintained in accordance with the appropriate
chapters of the adopted Fire and Life Safety Codes. If the Health Facility is not certified, is not seeking certification, or cannot potentially seek certification to participate in Medicare or Medicaid funding, the Local Qualified Fire Department providing fire protection service will conduct these maintenance inspections.

A) If the Local Qualified Fire Department is unable or unwilling to perform maintenance or complaint inspections, the Division has the authority and duty to perform them.

B) If the Local Qualified Fire Department does not have an inspector qualified as a Fire Inspector I or above, the Division will perform regular maintenance inspections for the Business Entity to ensure compliance with this rule and the applicable statutes. In this instance the Division inspector will attempt to contact the local Fire Authority to ascertain any concerns the local fire authority might have related to the Health Facility.

9.1.2 Where a local Qualified Fire Department is performing maintenance and complaint inspections, the Business Entity is required to notify the Division that such inspections are being performed. The Business Entity shall provide a copy of the local Qualified Fire Department's inspection report and documentation that all identified deficiencies have been corrected within 30 days of the inspection and subsequent re-inspections until compliance is demonstrated. If such documentation is not provided, the Division will assume that the inspections have not been performed and will have the duty to perform them.

9.1.3 Nothing in this Article prohibits the local fire department providing fire protection services from conducting routine assessments of buildings and structures or from correcting violations that pose an immediate threat to life safety. Additionally, nothing in this Article prohibits the local fire department from seeking enforcement under defined local procedures and rules.

9.1.4 A local Qualified Fire Department providing fire protection service for buildings and structures of a Health Facility that chooses to perform Fire and Life Safety Code inspections may refer notices of deficiencies to the Division for evaluation and enforcement. Notices of deficiencies and requests for evaluation and enforcement shall be submitted in writing to the Division as described in Article 11 of this Rule.

9.2 Inspection, Testing and Maintenance Programs.

9.2.1 The Business Entity shall ensure that building systems are inspected, tested, and maintained as required by the adopted codes and referenced standards.

9.2.2 Personnel employed by a Business Entity performing inspection, testing, and maintenance programs are not required to be Certified Fire Inspectors, but must be qualified to perform the actions as required by the standards or listings of the devices or systems.

Exception: Work conducted on system components that would require permits, licensing, or certifications under any adopted codes, laws, or rules shall be conducted in accordance with those requirements.

9.2.3 Inspection, Testing, and Maintenance Records shall be retained for at least three years. Records must indicate the procedure or inspection performed, the organization that performed the procedure or inspection, the results, and the date. The Business Entity shall provide these records for review by the local Qualified Fire Department or to the Division upon request.

9.2.4 The Business Entity shall report or cause to be reported in the manner and method required by the Division all fires that occur within any Health Facility subject to regulation by the Division in the State of Colorado. This requirement shall be met anytime a fire occurs that causes any one of the following conditions:

A) Activates one of the fire and life safety systems installed in the building or structure (e.g. – fire alarm system, fire suppression system, etc.).

B) Causes a response from the Fire Department

C) Causes the evacuation of any occupants located in the building or structure.

D) Results in the deployment and use of a fire extinguisher.

ARTICLE 10 – BUILDING CODE AND FIRE CODE INSPECTOR QUALIFICATION

10.1 Building Code and Fire Code Inspectors shall be certified in accordance with the provisions of 8 CCR 1507-101 (BUILDING AND FIRE CODE ADOPTION AND CERTIFICATION OF INSPECTORS FOR FIRE & LIFE SAFETY PROGRAMS ADMINISTERED BY THE STATE OF COLORADO).

10.2 Duties of Third-Party Inspectors

10.2.1 Third-Party Inspectors contracted by the Business Entity shall conduct the required inspections and require corrections or modifications as necessary to ensure that a building or structure is constructed in conformity with the Building Code adopted by the Division.

10.2.2 Third-Party Inspectors contracted by the Business Entity shall enforce only the codes adopted by the Division.

10.2.3 The Business Entity shall only use inspectors that are qualified by the Division to work on Health Facility projects.

10.2.4 Third-Party Inspectors contracted by the Business Entity shall send copies of their inspection reports to the Division.

10.2.5 If all inspections are not completed and a building requires immediate occupancy, and if the Business Entity has passed the appropriate inspections that indicate there are no life safety issues, the qualified Third-Party Inspectors contracted by the Business Entity shall notify the Division of the same. Upon this notice, the Division may issue a Temporary Certificate of Occupancy to allow the Business Entity to occupy the buildings and structures.

10.2.6 Applicants for Third-Party Inspection Certification must complete the process as defined by the Division.

10.3 Duties of Certified Fire Inspectors

10.3.1 Where there is a local Qualified Fire Department, local Qualified Fire Inspectors shall conduct the required plan reviews and inspections and require corrections or modifications as necessary to ensure that a building or structure is constructed in conformity with the locally adopted Fire Codes.

10.3.2 Where there is not a Qualified Fire Department, Division Fire Inspectors shall conduct the required plan reviews and inspections and require corrections or modifications as necessary to ensure that a building or structure is constructed in conformity with the Division's adopted Fire and Life Safety Codes.

10.3.3 If all inspections are not completed and a building requires immediate occupancy, and if the Business Entity has passed the appropriate inspections that indicate there are no life safety issues, the Fire Inspector may recommend to the Division or the local Building Department that a Temporary Certificate of Occupancy be issued to allow the Business Entity to occupy the buildings and structures.

10.3.4 The Business Entity shall maintain records of all plan reviews and inspections for a period of no less than five years. Said records shall be made available for review by the Division upon request.

ARTICLE 11 – ENFORCEMENT

11.1 The Director and Executive Director will enforce the requirements of the codes adopted in Article 3 when the Division is considered the Authority Having Jurisdiction, in accordance with the provisions of section 24-33.5-1213, C.R.S.

11.1.1 The Director may issue a notice of violation to a person who is believed to have violated the codes as determined by an inspection pursuant to section 22-32-124(2), 23-71-122(1)(v), 24-33.5-1212.5, or 24-33.5-1213.3, C.R.S. The notice shall be delivered to the alleged violator by certified mail, return receipt requested, or by any means that verifies receipt as reliably as certified mail, return receipt requested.

11.1.2 The notice of violation shall allege the facts that constitute a violation

11.1.3 The notice of violation may require the alleged violator to correct the alleged violation.

11.1.4 Within ten working days after delivery of the notice of violation, the alleged violator may request in writing an informal conference with the Director concerning the notice of violation. If the alleged violator fails to request the conference within ten days, the notice of violation is final and not subject to further review by the Director, and any requirement to correct the alleged violation pursuant to 11.1.4 becomes a binding enforcement order.

11.1.5 Upon receipt of a request for an informal conference, the Director shall set a reasonable time and place for the conference and shall notify the alleged violator of the time and place of the conference. At the conference, the alleged violator may present evidence and arguments concerning the allegations in the notice of violation.

11.1.6 Within twenty working days after the informal conference, the Director shall uphold, modify, or strike the allegations within the notice of violation and may issue an enforcement order. The decision and, if applicable, enforcement order shall be delivered to the alleged violator by certified mail, return receipt requested, or by any means that verifies receipt as reliably as certified mail, return receipt requested.

11.2 A person who is the subject of, and is adversely affected by, a notice of violation or enforcement order issued pursuant to Article 11 may appeal such action to the Executive Director. The Executive Director shall hold a hearing to review such notice or order and take final action in accordance with Article 11 and may either conduct the hearing personally or appoint an administrative law judge from the department of personnel.

11.2.1 Final agency action shall be subject to judicial review pursuant to C.R.S. Article 4 of Title 24.

11.2.2 An alleged violator who is required to correct an action pursuant to Article 11 shall be afforded the procedures set forth in section 24-4-104(3), C.R.S., to the extent applicable.

11.3 An enforcement order issued pursuant to this Article may impose a civil penalty, depending on the severity of the alleged violation, not to exceed five hundred dollars per violation for each day of violation; except that the Director may impose a civil penalty not to exceed one thousand dollars per violation for each day of violation that results in, or may reasonably be expected to result in, serious bodily injury.

11.4 The Director may file suit in district court in the judicial district in which a violation is alleged to have occurred to judicially enforce an enforcement order issued pursuant to this section.

11.5 In addition to the remedies provided in this Article, the Director is authorized to apply to the district court, in the judicial district where the violation has occurred, for a temporary or permanent injunction to restrain any person from violation any provision of section 22-32-124(2) or 23-71- 122(1)(v), C.R.S., or section 24-33.5-1212.3 or 24-33.5-1213.5, C.R.S. regardless of whether there is an adequate remedy at law.

11.6 It is not the intent of this Article to remove, limit, or modify enforcement authority of the fire department providing fire protection service for buildings or structures of a Business Entity.

ARTICLE 12 – CODE INTERPRETATION APPEALS

12.1 A Business Entity who is the subject of, and is adversely affected by, a code decision or interpretation made by a Division inspector or Third-Party Inspector that conducts a plan review or inspection pursuant to these rules, may appeal such decision or interpretation to the Board of Appeals formed by Section 24-33.5-1212.5, C.R.S.

12.1.1 The affected Business Entity will first contest the preliminary code interpretation to the Division. After consideration, the Division will issue its final code determination on the matter.

12.1.2 If the Business Entity still disagrees, it may appeal to the Board of Appeals. The appeal shall be filed within 30 days after the date of the final written decision by the Division. Upon receipt of an appeal, the Division will notify the Chair of the Board of Appeals and schedule a hearing no more than 15 days after the date the appeal was filed.

12.1.3 An application for appeal must be based on a claim that the true intent of this code or the standards legally adopted therein have been incorrectly interpreted, the provisions of this code do not fully apply, or an equally good or better form of construction is proposed. The Board of Appeals may not waive any requirements of the codes or standards; however the Board of Appeals may recommend alternative materials or methods as provided in
the codes or standards. The final written decision of the Board of Appeals is final agency action for purposes of section 24-4-106, C.R.S.

13.2.5 Half of the fees must be submitted prior to commencement of plan review and the remaining half must be submitted prior to permit issuance. Inspections will not be performed until the required fee has been paid. Additional inspection fees must be submitted prior to issuance of any associated Certificate of Compliance, Certificate of Occupancy, or completion of the permit.

13.2.6 The Division may assess a $200 inspection for each additional inspection in excess of the number allocated by the table in 13.2.2. Additional Inspections exceeding 4 hours in length, including travel time, will be charged $50 for each additional hour or portion thereof.

BUILDING, FIRE, AND LIFE SAFETY CODE ENFORCEMENT AND CERTIFICATION OF INSPECTORS FOR HEALTH FACILITIES LICENSED BY THE STATE OF COLORADO

STATEMENT OF BASIS, STATUTORY AUTHORITY, AND PURPOSE

Pursuant to Section 24-33.5-1203.5, C.R.S., the Director of the Colorado Division of Fire Prevention and Control shall promulgate rules as necessary to carry out the duties of the Division of Fire Prevention and Control. This rule is proposed pursuant to this authority and is intended to be consistent with the requirements of the State Administrative Procedures Act, Section 24-4-101, et seq., C.R.S. The Director of the Division of Fire Prevention and Control is authorized to promulgate rules to establish and enforce standards for the inspection, certification, and use of these apparatuses by the provisions of section 24-33.5-2303, C.R.S.

A modification to C.R.S. 24-33.5-1203(1)(p.5), effective on July 1, 2021, changes the expectations of the Division. Specifically, the Division is now required by the statute to conduct construction plan reviews and inspections of health facility buildings and structures, enforce the codes in accordance with sections 24-33.5-1212.5 and 24-33.5-1213, and issue certificates of compliance for "facilities certified or potentially eligible for certification by the federal centers for medicare and medicaid services." 24-33.5-1203(1)(p.5), C.R.S.

The purpose of this emergency rule making is to establish the above-cited changes to C.R.S. 24-33.5-1203(1)(p.5) in rule. It was declared by the General Assembly in House Bill 19-1237, that in order to promote the public health and welfare of the people of Colorado, it is in the public interest to establish and streamline minimum standards and rules for behavioral health entities operating in the State of Colorado and to provide the authority for the administration and enforcement of such minimum standards and rules. The absence of accurate implementing rules to carry out the purpose of the statute would be contrary to this declaration. For these reasons, it is imperatively necessary that the proposed rules be adopted.

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.
Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. ***1500 Char max***

Annually, the Department updates the Federal Poverty Levels and the State Median Income levels in Rule and in CHATS, the automated system used by counties to administer Colorado Child Care Assistance Program (CCCAP), to align with each federal fiscal year updates. These guidelines are used to determine eligibility for families applying to the CCCAP program.

These updated figures must be in rule in accordance with Administrative Procedure Act, § 24-4-103, which requires the state to address in rule any general standard that is applied to the public (such as income eligibility for child care assistance).

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- [X] to comply with state/federal law and/or
- [ ] to preserve public health, safety and welfare

Justification for emergency:

The updated Federal Poverty Levels and State Median Income levels must be in effect at the beginning of the federal fiscal year, October 1st, in order to comply with federal regulations.

State Board Authority for Rule:

Code	Description
26-1-107(5)(a), (b), C.R.S. (2020)	State Board to promulgate rules
26-1-109(3), C.R.S. (2020)	State department rules to coordinate with federal programs
26-1-111(2)(a), (b), C.R.S. (2020)	State department to administer or supervise all forms of public assistance, in cooperation with federal partners.
26-2-805(1), (13), C.R.S. (2020)	State board to promulgate rules to implement CCCAP

Program Authority for Rule: *Give federal and/or state citations and a summary of the language authorizing the rule-making <u>function</u> AND <u>authority.</u>*

Code	Description
26-2-805 (1), (2), C.R.S (2020)	The Board may adjust the percentage of federal poverty guidelines to comply with federal law. Income must not exceed the maximum federal eligibility level of 85% of the State Median Income.
45 CFR 98.16 (h), (k)	Lead Agencies must establish income eligibility thresholds that do not exceed 85% of the State Median Income but that allow for gradual increases in income, and describe the sliding fee scale for cost-sharing by families

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Counties who administer Colorado Child Care Assistance Program (CCCAP) will benefit from the rule, ensuring that eligibility is correctly being determined.

Households receiving CCCAP will have their eligibility correctly determined under the new income amounts.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

If income levels are not updated, the Department will not be in compliance with federal requirements. Additionally, families applying for services will not be determined eligible under the correct income guidelines if the income levels are not put into effect by October 1, 2021.

3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. ***Answer should NEVER be just "no impact" answer should include "no impact because…."***

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

No fiscal impact to the state as the changes in CHATS are covered under standard operations.

County Fiscal Impact

Counties may see a fiscal impact if we do not promulgate this rule package immediately as families that have lost benefits may be able to appeal under the new federal guidelines.

Federal Fiscal Impact

There is no federal fiscal impact as these changes are required and any changes are covered under standard operations.

Other Fiscal Impact *(such as providers, local governments, etc.)*

There is a risk that some families will go over income under the current Departmental guidelines but would not go over income under the "new" federal guidelines.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

LIHEAP-IM-2021-02: Memo on FF22 Federal Poverty Guidelines, published July 6, 2021
LIHEAP-IM-2021-03: Memo on FFY22 State Median Income Estimates, published July 6, 2021

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. **Answer should NEVER be just "no alternative" answer should include "no alternative because…"**

There are no alternatives to this rule making because APA requires that these standards are promulgated in rule.

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

   The proposed rule implements Colorado Senate Bill 21-214, which establishes a state-only room and board payment to qualified hospice providers that render hospice care in a licensed hospice facility to an eligible Medicaid-enrolled member who has a hospice diagnosis, is eligible for nursing facility care and, despite attempts to secure a bed, is unable to secure a Medicaid bed in a nursing facility due to COVID-19 impacts, complexity of medical care, behavioral health issues, or other issues as determined by the Department. Room and board reimbursement is available to qualified hospice providers who provided such services during the period beginning the last quarter of the 2020-21 state fiscal year through the 2021-22 state fiscal year, within existing appropriations.

Title of Rule: Revision to the Medical Assistance Act Rule concerning Hospice Room and Board
Rule Number: MSB 21-08-18-A
Division / Contact / Phone: Health Programs Office / Russ Zigler / 303-866-5927

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

   Eligible patients enrolled in Medicaid who are eligible for nursing facility care, have a hospice diagnosis, and, despite attempts to secure a bed, are unable to secure a Medicaid bed in a nursing facility due to COVID-19 impacts, complexity of medical care, behavioral issues, or other issues as determined by the Department are affected by this rule, as are the qualified hospice providers who provide room and board to such patients where nursing facility beds are unavailable.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

   The proposed rule will improve access to room and board for eligible patients and, within existing appropriations, provide state-only payment to the qualified hospice providers who provide room and board to such patients.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

   The proposed rule will increase General Fund expenditures for the Department of Health Care Policy and Financing by $684,000 for expenditures beginning in state fiscal year 2020-21 and ending in state fiscal year 2021-22. This assumes an average of 13 patients per day will receive hospice services at an average state per diem rate of $115.38 for 456 days. For state fiscal year 2020-21, the authorizing statute includes a General Fund appropriation of $684,000 to the Department. Funds not expended prior to July 1, 2021, are further appropriated for state fiscal year 2021-22.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

The costs of the proposed rule are detailed in question #3. The benefit of the proposed rule is implementing the statutory mandate in CRS § 25.5-4-424 and providing state payment for room and board payment for qualified patients as detailed in questions #1 and #2. The cost of inaction is failure to implement the statutory mandate in CRS § 25.5-4-424. There are benefits to inaction.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

   There are no less costly methods or less intrusive methods to implement the state-only hospice room and board payment mandated in CRS § 25.5-4-424

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

   There are no alternative methods for implementing the state-only hospice room and board payment mandated in CRS § 25.5-4-424.

8.550 HOSPICE BENEFIT

8.550.9 REIMBURSEMENT

8.550.9.C. State-Only Hospice Room and Board Reimbursement

1. As used in this section, unless context otherwise requires:

   a. "Eligible Patient" means a person who is enrolled in Colorado Medicaid at the time the service is provided and who:

      i) Is eligible under Colorado Medicaid for care in a nursing facility at the time the service is provided;

      ii) Has a hospice diagnosis; and

      iii) Despite attempts to secure a bed, is unable to secure a Medicaid bed in a nursing facility due to COVID-19 impacts, complexity of medical care, behavioral health issues, or other issues as determined by the Department.

   b. "Qualified Hospice Provider" means a hospice provider that:

      i) Has been continuously enrolled with the Department since at least January 1, 2021;

      ii) Provided hospice services to the eligible patient in a licensed hospice facility during the period beginning in the last quarter of the 2020-2021 state fiscal year through the 2021-2022 state fiscal year; and

      iii) Complies with any billing or administrative requests of the Department for purposes of determining eligibility for and administering the state payment.

2. Qualified Hospice Providers who provide hospice care in a licensed hospice facility to an Eligible Patient may receive a room and board payment equal to one-half (1/2) of the statewide average per diem rate, as defined in C.R.S. § 25.5-6-201. The payment is subject to the following limitations:

   a. Payment is limited to not more than twenty-eight (28) days per Eligible Patient.

   b. No payments will be made after June 30, 2022 or after appropriations are exhausted, whichever occurs first, in accordance with C.R.S. § 25.5-4-424.

Rule Number: MSB 21-08-30-A
Division / Contact / Phone: Health Programs Office / Russ Zigler / 303-866-5927

STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

   During the Coronavirus Disease 2019 (COVID-19) public health emergency, subacute care may be administered by an enrolled hospital in its inpatient hospital or alternate care facilities. Subacute care in a hospital setting shall be equivalent to the level of care administered by a skilled nursing facility for skilled nursing and intermediate care services as defined in 10 CCR 2505-10, Sections 8.406 and 8.409. Patients may be admitted to subacute care after an inpatient admission, or directly from an emergency department, observation status, or primary care referral to the administering hospital. Subacute care will be paid at the rate equal to the estimated adjusted State-wide average rate per patient-day paid for services provided in skilled nursing facilities under the State Plan. Adding subacute care to the covered hospital services in an inpatient hospital, or an associated alternate care facility, increases access to such services for the duration of the COVID-19 public health emergency.

2. An emergency rule-making is imperatively necessary

   ☐ to comply with state or federal law or federal regulation and/or
   ☒ for the preservation of public health, safety and welfare.

   Explain:

   Addition of subacute care to the list of the covered services for inpatient hospitals, and associated alternate care facilities, increases access to such care for the duration of the COVID-19 public health

emergency and is imperatively necessary for the preservation of public health, safety, and welfare.

3. Federal authority for the Rule, if any:

   42 CFR §447, Subpart C (2020)

4. State Authority for the Rule:

   Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2021);
   C.R.S. 25.5-5-102(1)(a) (2019)

Title of Rule: Revision to the Medical Assistance Act Rule concerning Subacute Care, Section 8.300
Rule Number: MSB 21-08-30-A
Division / Contact / Phone: Health Programs Office / Russ Zigler / 303-866-5927

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

   Inpatient hospitals, and associated alternate care facilities (AFC), will be affected by, and benefit from, the proposed rule with the addition of subacute care as a covered treatment modality for the duration of the COVID-19 public health emergency. Clients receiving subacute care in an inpatient hospital, or in an AFC, for the duration of the COVID-19 public health emergency will also be affected by, and benefit from, the proposed rule. The Department will bear the cost of reimbursement for subacute care services authorized under the proposed rule.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

   The qualitative impact of the proposed rule is adding the subacute care treatment modality to the inpatient hospital, and associated AFC, covered services for the duration of the COVID-19 public health emergency. The proposed rule increases access to such services during the COVID-19 public health emergency by allowing hospitals to treat clients that would normally be discharged from the hospital in order to receive a lower level of care. It may be difficult for hospitals to discharge and place such clients in a skilled nursing facility during the COVID-19 public health emergency due to COVID-19 positive or presumptive status. The proposed rule allows hospitals to treat

such clients on-site and be reimbursed for such care. Because the clients are being treated at an inpatient hospital or alternate care facility for the same care they would have otherwise received at a skilled nursing facility, the proposed rule is budget neutral.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

   Because the clients treated at an inpatient hospital or alternate care facility for the subacute care under the authority of this rule would have otherwise received such care at a skilled nursing facility, the proposed rule is budget neutral. There are no probable implementation or enforcement costs to the Department or to any other agency. There is no anticipated effect on state revenues.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

   The probable cost of the proposed rule is reimbursement for subacute care at inpatient hospitals and associated AFCs. The probable benefit of the proposed rule is increased access to subacute care for the duration of the COVID-19 public health emergency. There are no benefits to inaction. STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).
   Revises the rules for child-serving residential facilities to include the new Qualified Residential Treatment Program (QRTP) license type. The new license type will take effect October 1, 2021 in accordance with the federal Family First Prevention Services Act (FFPSA) and there will be a grace period until June 30, 2022 for all facilities enrolled with Medicaid to be in compliance. The revision will allow the Department to reimburse new QRTP facilities in compliance with the FFPSA and align Department rule with the Colorado Department of Human Services' new QRTP license type. QRTPs will provide a trauma-informed model of care to address the needs, including clinical needs, of children with serious emotional or behavioral disorders or disturbances.

2. An emergency rule-making is imperatively necessary

   ☒ to comply with state or federal law or federal regulation and/or
   ☐ for the preservation of public health, safety and welfare.

   Explain:

   The Qualified Residential Treatment Program provisions of the Family First Prevention Services Act, Pub.L. 115-123, Div. E, Title VII, § 50734, Feb. 9, 2018, 132 Stat. 252, were to go into effect October 1, 2018. However, the U.S. Department of Health and Human Services issued Program Instruction PI-18-07 permitting requests for delayed effective dates up to two years past the statutory deadline. The Colorado Department of Human Services applied for, and received, an extension until December 31, 2020, but no later than September 29, 2021. This rule is imperatively necessary to comply with federal law to implement the delayed effective date for the Family First Prevention Services Act provisions pertaining to Qualified Residential Treatment Programs and to align with the parallel Colorado Department of Human Services license.

REGULATORY ANALYSIS

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

   Members currently residing in Residential Child Care Facilities (RCCF), and RCCF providers, will be impacted by the proposed rule.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

   RCCF providers will have costs associated with changing their model of care and the requirement that QRTPs be 16 beds or less. For our members, services provided in a QRTP will be trauma-informed and designed to address the needs, including clinical needs, of children with serious emotional or behavioral disorders or disturbances, in a setting limited to 16 beds. Members who require this level of care will receive services within the state and better tailored to their needs.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

   The Department anticipates the proposed rule to be budget neutral because RCCF services will be phased out and the same funds will be applied QRTP payment.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

   The probable costs of the proposed rule are RCCF providers being required to obtain the Qualified Residential Treatment Program license. The probable benefit of the proposed rule is aligning with the Federal Family First Prevention Services Act (FFPSA) and aligning with Colorado Department of Human Services license requirements. The probable cost of inaction is non-compliance with the FFPSA. There are no probable benefits to inaction.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods or less intrusive methods to align Department rule with the FFPSA and with Colorado Department of Human Services license requirements.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

   There are no alternative methods to align Department rule with the FFPSA and with Colorado Department of Human Services license requirements.

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.
Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. ***1500 Char max***

The Supplemental Nutrition Assistance Program (SNAP) is a Food Assistance program in Colorado, formerly known as Food Stamps. SNAP provides food assistance benefits as part of a federal nutrition program to help low-income households purchase food. The United States Department of Agriculture, Food and Nutrition Services (FNS) annually evaluates Federal income poverty guidelines and cost of living increases to determine appropriate adjustments to income eligibility standards, benefit allotments, and deductions for the upcoming Federal Fiscal Year (FFY). The modified figures are typically made available to states during the month of August immediately prior to the next fiscal year. The Cost of Living Adjustment (COLA) changes in this regulation package are required to become effective 10/01/2021.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- [x] to comply with state/federal law and/or
- [ ] to preserve public health, safety and welfare

Justification for emergency:

Each year, FNS disseminates the new standards to states for use in the upcoming federal fiscal year. The COLA adjustments were made available to CDHS August 16, 2021 and are mandated to be implemented at the beginning of FFY22 (October 1, 2021). It is imperative to incorporate these rules to comply with federal SNAP regulations that must be effective October 1, 2021. Noncompliance with federal SNAP regulations as of October 1, 2021 conflicts with public interest.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Updates to COLA will benefit all SNAP applicants and participants as well as county SNAP administration and staff.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

Annual adjustments to the four-tiered mandatory standard utility allowances, standard deduction, homeless shelter deduction, maximum allotments, and income threshold guidelines have the potential to increase current benefit amounts for participants and increase program accessibility for future applicants.

3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. ***Answer should NEVER be just "no impact" answer should include "no impact because…."***

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

There is no impact because the costs associated with the Colorado Benefits Management System to incorporate these changes have already been allocated in the system maintenance budget.

County Fiscal Impact

There are no county fiscal impacts associated with this rule change.

Federal Fiscal Impact

There are no federal fiscal impacts associated with this rule change.

Other Fiscal Impact *(such as providers, local governments, etc.)*

There are no other fiscal impacts associated with this rule change.

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

Federal memorandums from the Food and Nutrition Services as well as data from the Consumer Price Index for all Urban Consumers were used in the development of this rule.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. **Answer should NEVER be just "no alternative" answer should include "no alternative because…"**

As COLA is federally mandated by SNAP, federal updates must be incorporated into Colorado regulation prior to implementation. There are no available alternatives that exist to incorporate these program changes statewide.

7.112 STATE FAIR HEARING BEFORE THE OFFICE OF ADMINISTRATIVE COURTS

A. When the Office of Administrative Courts receives the appeal documents from the State Department, the Office of Administrative Courts shall docket the appeal and enter a procedural order to the parties indicating the following:

1. The date and time for a telephone scheduling conference with the parties.

2. During the telephone scheduling conference, the Office of Administrative Courts shall determine the date for the hearing. Following the scheduling conference, the Office of Administrative Courts will issue a further procedural order and notice of hearing. The order/notice will contain the hearing date, the fourteen (14) day deadline for the notice of issues, the fourteen (14) day deadline for response and deadline for filing pre-hearing statements. Any party requiring an extension or modification of any of the deadlines in the order may file a request with the Administrative Law Judge. The Office of Administrative Courts shall also issue a protective order which will protect and govern the handling of all pleadings, discovery, and evidence. The order must be signed by an Administrative Law Judge and must state that:

a. Any documents exchanged by the parties containing confidential information, including, but not limited to pleadings, Trails reports and investigative records, medical records, law enforcement investigation records, and documents regarding child victims will be used for the sole purpose of proceeding with this appeal.

b. The parties may disclose confidential information to their attorneys or any expert witness only as necessary for the prosecution or defense of the appeal. The appellant is not authorized to disclose or use confidential information for any other purpose.

c. The parties may exchange discovery containing information that is confidential under department rule 12 CCR 2509-2, § 7.111.

d. To the extent that the parties may disclose confidential records to expert witnesses, the parties shall provide a copy of the protective order to the expert witnesses and advise the expert witness of his or her obligation not to disclose the records or information learned from the confidential records.

e. The exchange and use of the confidential information or records does not waive the right of either party to object to the admission of the documents into evidence on any grounds.

f. If the parties use or offer confidential information or records as evidence during the course of the hearing, counsel and the parties shall take reasonable measures to protect such information or records from public disclosure including but not limited to filing records under seal.

g. The appellant must destroy or return to the department all protected health and abuse and neglect information (including all copies made) at the end of the appeal or, should the appellant choose to pursue any further administrative remedies, when those remedies have been exhausted.

h. The hearing regarding the factual basis for the child abuse and/or neglect finding shall be closed to the public.

i. This order does not prohibit the department from using documents or information as authorized, required, or permitted by law.

3. The notice of issues shall include the following:

a. The specific allegations(s) that form the basis of the county department's finding that the Appellant was responsible for child abuse or neglect;

b. The specific type and severity of child abuse asserted against Appellant and the legal authority supporting the finding; and,

c. To the extent that the State Department determines that the facts contained in the state automated case management system support a modification of the type or severity of child abuse or neglect determined by the county department, the State Department shall so notify the county department and the Appellant of that modification and the process shall proceed on the modified finding(s).

4. The Appellant shall respond to the State Department's submittal by providing the factual and legal basis supporting the appeal to the State Department and to the Office of Administrative Courts.

5. If the Appellant fails to participate in the scheduling conference referenced above or fails to submit the response referenced herein, the Office of Administrative Courts shall deem the appeal to have been abandoned by the Appellant and render an Initial Decision Dismissing Appeal. In accordance with the procedures set forth below, the Office of Appeals may reinstate the appeal for good cause shown by the Appellant.

6. In the event that either party fails to respond to a motion to dismiss filed in the appeal, the Administrative Law Judge shall not consider the motion to be confessed and shall render a decision based on the merits of the motion.

B. The Administrative Law Judge shall conduct the appeal in accordance with the Administrative Procedure Act, Section 24-4-105, C.R.S. The rights of the parties include:

1. The State Department shall have the burden of proof to establish the facts by a preponderance of the evidence and that the facts support the conclusion that the Appellant is responsible for the child abuse or neglect indicated in the notice of issues provided by the State Department. The state automated case management system is not the only acceptable evidence for establishing that the finding is supported by a preponderance of evidence;

2. Each party shall have the right to present his or her case or defense by oral and documentary evidence, to submit rebuttal evidence, and to conduct cross-examination;

3. Subject to these rights and requirements, where a hearing will be expedited and the interests of the parties will not be subsequently prejudiced thereby, the Administrative Law Judge may receive all or part of the evidence in written form or by oral stipulations;

4. A telephonic hearing may be conducted as an alternative to a face-to-face hearing unless either party requests a face-to-face hearing in writing. The written request for a face-toface hearing must be filed with the Office of Administrative Courts and the other party at least ten (10) calendar days before the scheduled hearing. A request for a face-to-face hearing may necessitate the re-setting of the hearing; and,

5. Where facilities exist that have videoconferencing technology local to the county department that made the founded finding, either party may request that the hearing be conducted via that technology. The requesting party shall investigate the feasibility of this approach and shall submit a written request outlining the arrangements that could be made for video conference. The Office of Administrative Courts shall hold the hearing via videoconferencing for the convenience of the parties whenever requested and feasible. A request for a hearing via videoconferencing may necessitate the re-setting of the hearing.

C. At the conclusion of the hearing, unless the Administrative Law Judge allows additional time to submit documentation, the Administrative Law Judge shall take the matter under advisement. After considering all the relevant evidence presented by the parties, the Administrative Law Judge shall render an Initial Decision for review by the Colorado Department of Human Services, Office of Appeals.

D. The Initial Decision shall uphold, modify or overturn/reverse the county finding. The Administrative Law Judge shall have the authority to modify the type and severity level of the child abuse or neglect finding to meet the evidence provided at the hearing. The Administrative Law Judge shall not order the county to modify its record; rather, the State Department shall indicate the outcome of the appeal in its portion of the state automated case management system.

E. When an Appellant fails to appear at a duly scheduled hearing having been given proper notice, without having given timely advance notice to the Office of Administrative Courts of acceptable good cause for inability to appear at the hearing at the time, date and place specified in the notice of hearing, then the appeal shall be considered abandoned and the Administrative Law Judge shall enter an Initial Decision Dismissing Appeal. In accordance with the procedures set forth in Section 7.114, the Office of Appeals may reinstate the appeal for good cause shown by the Appellant.

STATEMENT OF BASIS AND PURPOSE

Summary of the basis and purpose for new rule or rule change.
Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. ***1500 Char max***

The charging documents for Child Abuse and Neglect cases Notices of Issues (NOI) include protected abuse and neglect information and regularly need to include some level of medical information for the alleged victim because an element of these cases is to show that the victim was abused or neglected. Mistreatment often-times involves investigation and diagnosis by a medical provider. The requirement to include medical information about the alleged victim in the NOI is in conflict with the state's obligation to protect this information.

Presently, the state may file a motion for a protective order from the court. However, the Office of Administrative Courts (OAC) currently does not permit the filing of such a motion prior to the submission of an NOI. As such, NOIs are routinely filed before the granting of a protection order, which, in turn, releases information before protection is in place.

Additionally, filing motions in all of these cases creates an undue burden on the Attorney General's office as well as the OAC which is not a good use of state resources and is inconsistent with the protection of neglected and/or abused children.

The rule change will resolve these concerns by requiring the OAC to issue protective orders at the time of the NOI.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

X	to comply with state/federal law and/or
X	to preserve public health, safety and welfare

Justification for emergency:

Present procedure requires that certain sensitive abuse and neglect, as well as medical, information be made available to appellants in initial charging documents relating to Child Abuse and Neglect cases. It is in the interest of preserving public health, safety and welfare to have such information protected during proceedings before the OAC. Further, the state is obligated under state and federal law to protect such sensitive information. Without the uniform issuance of protective orders in all child welfare cases when they are set, there are concerns with victims' protected information being shared before an Administrative Law Judge can review and enter a protective order.

REGULATORY ANALYSIS

1. List of groups impacted by this rule.

Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?

Appellants with substantiated findings indicating they were responsible for abuse or neglect of a child and the children that are the subjects of those findings.

2. Describe the qualitative and quantitative impact.

How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?

This rule change will afford greater protections of private, confidential, and sensitive information for children who have cases that are part of an appeal.

During the 2020-2021 Fiscal Year, 171 Child Abuse and Neglect cases were set by the Office of Administrative Courts. It can be assumed that a similar number of these cases will be set by the Office of Administrative Court in fiscal year 2021-2022. The children and persons involved in those cases will be impacted by this rule change in that their information will be more secure.

3. Fiscal Impact

For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. ***Answer should NEVER be just "no impact" answer should include "no impact because…."***

State Fiscal Impact *(Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)*

This rule change may have a minor impact on the Office of Administrative Courts, as it will require the issuance of a protective order signed by an Administrative Law Judge in every Child Abuse and Neglect case. However, the Attorney General's office currently files motions for protective orders routinely in most, if not all, Child Abuse and Neglect cases, which requires the Administrative Law Judge to review a motion filed in every case and issue a ruling. Under the new procedure, the Administrative Law Judge will only be required to sign a standard protective order issued simultaneously with the procedural setting order, which may save the Office of Administrative Courts time and resources.

This rule change should have an impact on the legal costs incurred by the Administrative Review Division. The Attorney General's office estimates that approximately two hours of time are required to prepare, edit, and file a motion for a protective order and a proposed order in the Office of the Administrative Courts. Using the numbers from fiscal year 2020-2021 and assuming a similar case load in fiscal year 2021-2021 (if anything, the number of cases next year will rise), Child Abuse and Neglect cases will experience a reduction of approximately 342 hours in billable attorney hours, which are billed at a blended rate of $106/hour, creating a potential annual savings of $36,252.

County Fiscal Impact

As county departments are not involved in this specific aspect of the hearing process, there is no fiscal impact.

Federal Fiscal Impact

The appeals process is funded through a cash fund. As such, there is no federal fiscal impact.

Other Fiscal Impact *(such as providers, local governments, etc.)*

None

4. Data Description

List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?

During the current Fiscal Year (2020-2021), 171 Child Abuse and Neglect cases were set by the Office of Administrative Courts. Future impact analysis was based on the assumption of similar numbers.

5. Alternatives to this Rule-making

Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. **Answer should NEVER be just "no alternative" answer should include "no alternative because…"**

Until now, the Attorney General's office has been filing motions requesting protective orders for each individual Child Abuse and Neglect appeal before the Office of Administrative Courts. While it would be possible to continue this practice, it expends considerable attorney time to draft and file the motions and proposed orders. It also requires time for an Administrative Law Judge from the Office of Administrative Courts to review and rule upon each motion filed. Because the Office of Administrative Courts generally will not consider motions for protective orders until an appeal has been placed at issue, through the filing of a Notice of Issues, there is a risk in this practice that confidential information will be disclosed in violation of rule and law before a protective order has entered. There is also a risk that the Administrative Law Judges may, in their individual discretion, deny motions for protective orders, resulting in inconsistent protection of the confidential information of child victims.

Addressing this challenge through rule-making will eliminate the need for the Attorney General's office to file motions for protective orders in individual cases as well as the need for individual review by an Administrative Law Judge. By establishing the issuance of a standard protective order through rule, the risk of inconsistent protection of the confidential information of at-risk victims will also be reduced.

a. ANY DOCUMENTS EXCHANGED BY THE PARTIES CONTAINING CONFIDENTIAL INFORMATION, INCLUDING, BUT NOT LIMITED TO PLEADINGS, TRAILS REPORTS AND INVESTIGATIVE RECORDS, MEDICAL RECORDS, LAW ENFORCEMENT INVESTIGATION RECORDS, AND DOCUMENTS REGARDING CHILD VICTIMS WILL BE USED FOR THE SOLE PURPOSE OF PROCEEDING WITH THIS APPEAL.

b. THE PARTIES MAY DISCLOSE CONFIDENTIAL INFORMATION TO THEIR ATTORNEYS OR ANY EXPERT WITNESS ONLY AS NECESSARY FOR THE PROSECUTION OR DEFENSE OF THE APPEAL. THE APPELLANT IS NOT AUTHORIZED TO DISCLOSE OR USE CONFIDENTIAL INFORMATION FOR ANY OTHER PURPOSE.

c. THE PARTIES MAY EXCHANGE DISCOVERY CONTAINING INFORMATION THAT IS CONFIDENTIAL UNDER DEPARTMENT RULE 12 CCR 2509-2, § 7.111.

d. TO THE EXTENT THAT THE PARTIES MAY DISCLOSE CONFIDENTIAL RECORDS TO EXPERT WITNESSES, THE PARTIES SHALL PROVIDE A COPY OF THE PROTECTIVE ORDER TO THE EXPERT WITNESSES AND ADVISE THE EXPERT WITNESS OF HIS OR HER OBLIGATION NOT TO DISCLOSE THE RECORDS OR INFORMATION LEARNED FROM THE CONFIDENTIAL RECORDS.

e. THE EXCHANGE AND USE OF THE CONFIDENTIAL INFORMATION OR RECORDS DOES NOT WAIVE THE RIGHT OF EITHER PARTY TO OBJECT TO THE ADMISSION OF THE DOCUMENTS INTO EVIDENCE ON ANY GROUNDS.

f. IF THE PARTIES USE OR OFFER CONFIDENTIAL INFORMATION OR RECORDS AS EVIDENCE DURING THE COURSE OF THE HEARING, COUNSEL AND THE PARTIES SHALL TAKE REASONABLE MEASURES TO PROTECT SUCH INFORMATION OR RECORDS FROM PUBLIC DISCLOSURE INCLUDING BUT NOT LIMITED TO FILING RECORDS UNDER SEAL.

g. THE APPELLANT MUST DESTROY OR RETURN TO THE DEPARTMENT ALL PROTECTED HEALTH AND ABUSE AND NEGLECT INFORMATION (INCLUDING ALL COPIES MADE) AT THE END OF THE APPEAL OR, SHOULD THE APPELLANT CHOOSE TO PURSUE ANY FURTHER ADMINISTRATIVE REMEDIES, WHEN THOSE REMEDIES HAVE BEEN EXHAUSTED.

h. THE HEARING REGARDING THE FACTUAL BASIS FOR THE CHILD ABUSE AND/OR NEGLECT FINDING SHALL BE CLOSED TO THE PUBLIC.

i. THIS ORDER DOES NOT PROHIBIT THE DEPARTMENT FROM USING DOCUMENTS OR INFORMATION AS AUTHORIZED, REQUIRED, OR PERMITTED BY LAW.

3. The notice of issues shall include the following:

a. The specific allegations(s) that form the basis of the county department's finding that the Appellant was responsible for child abuse or neglect;

b. The specific type and severity of child abuse asserted against Appellant and the legal authority supporting the finding; and,

c. To the extent that the State Department determines that the facts contained in the state automated case management system support a modification of the type or severity of child abuse or neglect determined by the county department, the State Department shall so notify the county department and the Appellant of that modification and the process shall proceed on the modified finding(s).

4. The Appellant shall respond to the State Department's submittal by providing the factual and legal basis supporting the appeal to the State Department and to the Office of Administrative Courts.

5. If the Appellant fails to participate in the scheduling conference referenced above or fails to submit the response referenced herein, the Office of Administrative Courts shall deem the appeal to have been abandoned by the Appellant and render an Initial Decision Dismissing Appeal. In accordance with the procedures set forth below, the Office of Appeals may reinstate the appeal for good cause shown by the Appellant.

6. In the event that either party fails to respond to a motion to dismiss filed in the appeal, the Administrative Law Judge shall not consider the motion to be confessed and shall render a decision based on the merits of the motion.

C. The Administrative Law Judge shall conduct the appeal in accordance with the Administrative Procedure Act, Section 24-4-105, C.R.S. The rights of the parties include:

1. The State Department shall have the burden of proof to establish the facts by a preponderance of the evidence and that the facts support the conclusion that the Appellant is responsible for the child abuse or neglect indicated in the notice of issues provided by the State Department. The state automated case management system is not the only acceptable evidence for establishing that the finding is supported by a preponderance of evidence;

2. Each party shall have the right to present his or her case or defense by oral and documentary evidence, to submit rebuttal evidence, and to conduct cross-examination;

3. Subject to these rights and requirements, where a hearing will be expedited and the interests of the parties will not be subsequently prejudiced thereby, the Administrative Law Judge may receive all or part of the evidence in written form or by oral stipulations;

4. A telephonic hearing may be conducted as an alternative to a face-to-face hearing unless either party requests a face-to-face hearing in writing. The written request for a face-toface hearing must be filed with the Office of Administrative Courts and the other party at least ten (10) calendar days before the scheduled hearing. A request for a face-to-face hearing may necessitate the re-setting of the hearing; and,

5. Where facilities exist that have videoconferencing technology local to the county department that made the founded finding, either party may request that the hearing be conducted via that technology. The requesting party shall investigate the feasibility of this approach and shall submit a written request outlining the arrangements that could be made for video conference. The Office of Administrative Courts shall hold the hearing via videoconferencing for the convenience of the parties whenever requested and feasible. A request for a hearing via videoconferencing may necessitate the re-setting of the hearing.

D. At the conclusion of the hearing, unless the Administrative Law Judge allows additional time to submit documentation, the Administrative Law Judge shall take the matter under advisement. After considering all the relevant evidence presented by the parties, the Administrative Law Judge shall render an Initial Decision for review by the Colorado Department of Human Services, Office of Appeals.

E. The Initial Decision shall uphold, modify or overturn/reverse the county finding. The Administrative Law Judge shall have the authority to modify the type and severity level of the child abuse or neglect finding to meet the evidence provided at the hearing. The Administrative Law Judge shall not order the county to modify its record; rather, the State Department shall indicate the outcome of the appeal in its portion of the state automated case management system.

F. When an Appellant fails to appear at a duly scheduled hearing having been given proper notice, without having given timely advance notice to the Office of Administrative Courts of acceptable good cause for inability to appear at the hearing at the time, date and place specified in the notice of hearing, then the appeal shall be considered abandoned and the Administrative Law Judge shall enter an Initial Decision Dismissing Appeal. In accordance with the procedures set forth in Section 7.114, the Office of Appeals may reinstate the appeal for good cause shown by the Appellant.

NOTICE OF PUBLIC INFORMATIONAL HEARING
BEFORE THE
COLORADO WATER QUALITY CONTROL COMMISSION

SUBJECT:

The commission will hold an Issues Formulation Hearing for the Classifications and Numeric Standards for:

- San Juan and Dolores River Basins, Regulation #34 (5 CCR 1002-34); and
- Gunnison and Lower Dolores River Basins, Regulation #35 (5CCR 1002-35).

SCHEDULE OF IMPORTANT DATES:

Written comments due	10/27/2021	Additional submittal information below
Public Hearing	**11/8/2021** **9:00 a.m.**	**Remote Via Zoom** **Or** **Sabin Cleere Conference Room** **Department of Public Health and Environment** **4300 Cherry Creek Drive South** **Denver, CO 80246**

TRIENNIAL REVIEW PROCESS OVERVIEW:

This Issues Formulation Hearing is the second step in a three-step process for triennial review of water quality classifications and standards in Colorado. The first step is an Issues Scoping Hearing, which provides an opportunity for **early identification of potential issues** that may need to be addressed in the next major rulemaking hearing for particular regulations, and for identification of any issues that may need to be addressed in rulemaking prior to that time. This second step in the triennial review process – the Issues Formulation Hearing – results in the **identification of the specific issues to be addressed** in the next major rulemaking hearing. The third step is the Rulemaking Hearing, where any **revisions to the water quality classifications and standards are formally adopted**. The Rulemaking Hearing for this regulation will be held in June 2022. The commission's website contains additional Information regarding triennial reviews of water quality classifications and standards.

ADDITIONAL BACKGROUND INFORMATION:

Information regarding the current quality of waters in the state is provided in the 2022 Integrated Water Quality Monitoring and Assessment Report, which is Colorado's latest report pursuant to section 305(b) of the federal Clean Water Act. In addition, an identification of

river basin segments included on Colorado's 2022 Section 303(d) List of Impaired Waters or Colorado's current Monitoring and Evaluation List are set forth in Regulation #93 (5 CCR 1002-93). These documents are also available on the commission's website.

PUBLIC PARTICIPATION ENCOURAGED:

The commission encourages input from interested persons, either in writing prior to the hearing or orally at the hearing. Interested persons should provide their opinions or recommendations as to any specific issues that should be addressed in the June 2022 rulemaking hearing for these regulations.

Anyone identifying issues should provide supporting information as to why those issues should be addressed in the rulemaking hearing. The commission does not desire to hear the full evidence that would be presented at a rulemaking hearing that would follow. The commission requests only information needed for it to determine whether or not to propose a regulatory change. In deciding whether any identified issue should be addressed in the upcoming rulemaking hearing, the commission will consider whether the issue is ripe for resolution and whether there is any reason to address the issue in a hearing separate from the upcoming major hearing on the regulation in question. The question of "ripeness" generally will turn on whether adequate data or other information is or will be available, whether there has been or will be a good faith effort toward informal exploration of the proposal with the Division and other interested persons, and whether there is a need for an expeditious resolution of the issue.

For each issue to be addressed in the June rulemaking, a specific proposal with marked-up changes to the regulation, as well as proposed statement of basis and purpose language in support of the proposal, will be required by mid-January 2022. Any third party advancing a proposal should assure that it will be able to provide the full set of evidence in support of its proposal in time to meet a mid-March deadline that will be set forth in the rulemaking hearing notice.

PROCEDURAL MATTERS:

The commission will receive all written submittals electronically. Submittals must be provided as PDF documents and may be emailed to cdphe.wqcc@state.co.us, provided via an FTP site, CD or flash drive, or otherwise conveyed to the commission office so as to be received by the deadline. Written comments will be available to the public on the commission's web site.

Those wishing to provide oral testimony at the hearing should contact Jeremy Neustifter (jeremy.neustifter@state.co.us or 303-692-3478) **no later than 5:00 p.m. November 5, 2021** to be included on the schedule for oral testimony.

AUTHORITY FOR PUBLIC HEARING:

The provisions of 25-8-202(1)(f) C.R.S. and section 21.5 B of the "Procedural Rules" (5 CCR 1002-21) provide the authority for this hearing.

PARTY STATUS:

This is not a rulemaking hearing; therefore, party status provisions of 25-8-101 et. seq., and 24-4-101 et. seq., C.R.S. do not apply. The commission shall not consider party status requests.
