

# Colorado Register

**45 CR 19**

**Volume 45 , No. 19**

**October 10, 2022**

# Introduction

The *Colorado Register* is published pursuant to C.R.S. 24-4-103(11) and is the sole official publication for state agency notices of rule-making, proposed rules, attorney general's opinions relating to such rules, and adopted rules. The register may also include other public notices including annual departmental regulatory agendas submitted by principal departments to the secretary of state.

"Rule" means the whole or any part of every agency statement of general applicability and future effect implementing, interpreting, or declaring law or policy or setting forth the procedure or practice requirements of any agency. "Rule" includes "regulation". C.R.S. 24-4-102(15). Adopted rules are effective twenty days after the publication date of this issue unless otherwise specified.

The *Colorado Register* is published by the office of the Colorado Secretary of State twice monthly on the tenth and the twenty-fifth. Notices of rule-making and adopted rules that are filed from the first through the fifteenth are published on the twenty-fifth of the same month, and those that are filed from the sixteenth through the last day of the month are published on the tenth of the following month. All filings are submitted through the secretary of state's electronic filing system.

For questions regarding the content and application of a particular rule, please contact the state agency responsible for promulgating the rule. For questions about this publication, please contact the Administrative Rules Program at [rules@coloradosos.gov](mailto:rules@coloradosos.gov).

## DEPARTMENT OF REVENUE

### Taxation Division

## PROCEDURE AND ADMINISTRATION

### 1 CCR 201-1

---

#### Rule 39-21-116.5. Penalties for Officers or Members.

**Basis and Purpose.** The statutory bases for this rule are sections 39-21-101(4), 39-21-102(1) [and \(7\)](#), 39-21-112(1), and 39-21-116.5, C.R.S. The purpose of this rule is to clarify the liability for the penalty imposed by section 39-21-116.5, C.R.S., and establish requirements for the administration thereof.

- (1) This rule applies to all taxes [and fees](#) within the scope of article 21 of title 39, C.R.S., that a corporation, partnership, or limited liability company is required to collect, account for, and pay over to the Department.
- (2) Any application for licensure or registration filed by a corporation, partnership, or limited liability company with respect to any tax [or fee](#) specified in this paragraph (2) shall state, under penalty of perjury, the name or names of any and all officers of the corporation or members of the partnership or limited liability company who are responsible for tax compliance. The Department may deny any application that fails to comply with the requirements of this paragraph (2). The requirements of this paragraph (2) shall apply with respect to:
  - (a) sales tax imposed pursuant to article 26 of title 39, C.R.S.;
  - (b) use tax imposed pursuant to article 26 of title 39, C.R.S.;
  - (c) any local taxes collected, administered, and enforced pursuant to article 26 of title 39, C.R.S.;
  - (d) wage withholding required pursuant to section 39-22-604, C.R.S.;
  - (e) fuel tax imposed pursuant to article 27 of Title 39, C.R.S.;
  - (f) retail marijuana sales tax imposed pursuant to article 28.8 of title 39, C.R.S.; [and](#)
  - (g) oil and gas severance tax withholding required pursuant to [section 39-29-111, C.R.S.](#);
  - (h) [retail delivery fees imposed pursuant to sections 24-38.5-303, 25-7.5-103, 43-4-218, 43-4-805, 43-4-1203, and 43-4-1303, C.R.S.; and](#)
  - (i) [daily vehicle rental fee imposed pursuant to section 43-4-804, C.R.S.](#)
- (3) A corporation, partnership, or limited liability company required to collect, account for, and pay over Colorado taxes [or fees](#) shall, at all times, designate any and all officers or members who are responsible for compliance with such requirements. Delegation of duties to subordinates shall not relieve such officers or members from responsibility for collecting, accounting for, and paying over taxes [or fees](#) when due. In the event that an officer or member previously designated as responsible for collecting, accounting for, and paying over any tax [or fee](#) resigns as an officer or member or otherwise ceases to be responsible for collecting, accounting for, and paying over

taxes [or fees](#), the corporation, partnership, or limited liability company shall designate one or more responsible officers or members by amending its account information with the Department. In the event that no responsible officer or member is designated, the responsible persons are presumed to include, but not be limited to, the president, chief executive officer, chief operating officer, chief financial officer, and treasurer of a corporation, all general partners of a partnership, and all managing members or managers of a limited liability company.

- (4) A person against whom a penalty is asserted under section 39-21-116.5, C.R.S., is a "taxpayer" within the meaning of section 39-21-101(4), C.R.S.
- (5) The imposition of penalties under section 39-21-116.5, C.R.S., against a particular responsible officer or member for a particular tax [or fee](#) period does not preclude the imposition of a penalty against other responsible officers or members for the same tax [or fee](#) period, regardless of who the taxpayer designated and named as responsible for tax compliance pursuant to paragraphs (2) and (3) of this rule, nor does it preclude the imposition of a penalty against the same responsible officer or member for a different tax [or fee](#) period.
- (6) For purposes of section 39-21-116.5, C.R.S., a finding of willful failure to collect, account for, or pay over tax [or fee](#) does not require the Department or its Executive Director to establish a bad motive or a specific intent to defraud the Department. An officer of a corporation, a general partner of a partnership, or a managing member or manager of a limited liability company is presumed to have willfully failed to collect, account for, or pay over a tax [or fee](#) required to be collected, accounted for, and paid over to the Department if:
  - (a) during the relevant tax [or fee](#) periods, the officer of the corporation, general partner of the partnership, or managing member or manager of the limited liability company was a person responsible for tax [or fee](#) compliance by the corporation, partnership, or limited liability company, and;
  - (b) the corporation, partnership, or limited liability company;
    - (i) intentionally failed to collect tax [or fee](#) as required by law;
    - (ii) acted with reckless disregard of a known or obvious risk that tax [or fee](#) due under Colorado law might not be collected;
    - (iii) used collected tax [or fee](#) for any purpose other than remitting such collected tax [or fee](#) to the Department, including, for example, for its own benefit or to pay creditors;
    - (iv) acted with reckless disregard of a known or obvious risk that collected tax [or fee](#) might not be remitted to the Department; or
    - (v) failed to promptly correct the failure to remit collected tax [or fee](#) after being notified by the Department that such funds had not been paid over.

## DEPARTMENT OF REVENUE

### Taxation Division

#### FEES AND CHARGES ADMINISTERED BY THE TAXATION DIVISION

##### 1 CCR 201-20

---

###### **Rule 40-10.1-607.5. Prearranged Ride Fees.**

**Basis and Purpose.** The bases for this rule are sections 24-35-108, 39-21-112(1), 39-21-102(7), 25-7.5-103(7), 40-10.1-607.5, and 43-4-1303(7), C.R.S. The purpose of this rule is to set forth the manner in which the prearranged ride fee is collected, administered, and enforced.

(1) **General Rules.** For each prearranged ride requested and accepted through a transportation network company's digital network on or after July 1, 2022, the transportation network company shall pay to the Department the prearranged ride fee in the manner set forth in this rule.

(2) **Definitions.** As used in this rule, unless the context otherwise requires:

(a) "Prearranged ride fee" means the sum of the clean fleet per ride fee imposed by section 25-7.5-103(7)(b)(I) or (II), C.R.S., and the air pollution mitigation per ride fee imposed by section 43-4-1303(7)(b)(I) or (II), C.R.S.

(b) "Reporting period" means a calendar quarter.

(c) "Transportation network company" has the same meaning as set forth in section 40-10.1-602(3), C.R.S.

(3) **Imposition.** The prearranged ride fee is imposed on the transportation network company. For purposes of the reduced fee specified in section 25-7.5-103 (7)(b)(I), C.R.S. and section 43-4-1303 (7)(b)(I), C.R.S., a transportation network company has the burden of proving to the Department that a prearranged ride was a carshare ride or that a driver transported the rider in a zero-emissions motor vehicle.

(4) **Registration.** Every transportation network company who is liable and responsible for the remittance of the prearranged ride fees shall register with the Department in the manner it prescribes. The one-time registration will create a prearranged ride fee account.

(a) A transportation network company who fails to register as required in paragraph (4) of this rule is nonetheless liable and responsible for the full amount of the prearranged ride fee due, plus any applicable interest.

(b) A transportation network company that is no longer liable and responsible for the remittance of the prearranged ride fee shall promptly close its prearranged ride fee account as instructed by the Department. The transportation network company shall file returns in accordance with paragraph (5) of this rule through the closure date.

(5) **Filing and Remittance.** Every transportation network company shall file a return and remit the amount described in paragraph (5)(c) of this rule for each reporting period.

- (a) Filing Schedules and Due Dates. Unless otherwise authorized, a return must be filed, and any prearranged ride fee due must be remitted, on or before October 31, 2022, and on or before the last day of the month following the close of each reporting period thereafter.
- (b) Filing Requirements. Returns, and any required supplemental forms, must be completed in full, in the form and manner prescribed by the Department, and filed with the Department on or before the due date. The Department shall determine what information the return must contain, how the returns must be made, and the type of forms that must be used.
  - (i) If no prearranged rides are requested and accepted through the transportation network company's digital network during the reporting period, the transportation network company shall nonetheless file a return reporting zero prearranged rides on or before the due date.
  - (ii) A transportation network company that fails to submit a complete and accurate return in the form and manner prescribed by the Department, including any zero return filings, on or before the due date is subject to interest pursuant to paragraph (8) of this rule.
- (c) Remittance Requirements. A transportation network company is liable and responsible to remit to the Department, on or before the due date, an amount equal to the product of the applicable prearranged ride fee in effect for the reporting period and the number of prearranged rides requested and accepted through the company's digital network in the reporting period.
  - (i) A transportation network company is required to remit, with the filing of each return, the total prearranged ride fees shown to be due on the return.
  - (ii) A transportation network company that fails to pay any prearranged ride fee due to the Department by the due date prescribed in paragraph (5)(a) of this rule is subject to interest pursuant to paragraph (8) of this rule.
  - (iii) A transportation network company is not permitted to retain any portion of the prearranged ride fee to cover the transportation network company's expense in remitting the prearranged ride fee.
- (6) **Refunds.** The transportation network company must file any claim for refund not later than three years after the date of payment. If the Department determines that the transportation network company has overpaid the prearranged ride fee within the time periods provided for the filing of claims for refund, the Department shall issue a refund under section 39-21-108, C.R.S. The right to a refund is not assignable and must be made to the same transportation network company that remitted the amount described in paragraph (5) of this rule. A rider may not claim a refund from the Department for any overpayment of the prearranged ride fee.
- (7) **Books, Accounts, and Records.** The transportation network company shall keep and preserve for a period of at least three years the books, accounts, and records as may be necessary to determine the amount of prearranged ride fee liability. The books, accounts, and records must be open for examination at any time by the executive director of the Department of Revenue or any duly authorized agent.
- (8) **Delinquency.** If a transportation network company neglects or refuses to make a timely return or correctly account for the prearranged ride fee as required by this rule, the Department shall make an estimate, based upon the information that may be available, of the amount of prearranged ride

fees due or not accounted for or incorrectly accounted for on a return for the reporting period for which the transportation network company is delinquent.

(a) The Department shall add to the estimated amount of prearranged ride fees due or not accounted for interest, if applicable, under section 39-21-110.5, C.R.S.

(b) The Department shall provide the delinquent taxpayer with written notice of the estimated taxes and interest as set forth in section 39-21-105.5, C.R.S.

(c) The estimate described in this paragraph (8) becomes a notice of deficiency as provided in section 39-21-103, C.R.S. A transportation network company may protest the notice of deficiency in the manner provided in section 39-21-103, C.R.S., and may appeal the final determination in the manner provided in section 39-21-105, C.R.S.

(9) **Statute of limitations.** The provisions of section 39-21-107, C.R.S., not including section 39-21-107(2), C.R.S., apply to the assessment, collection, and enforcement of the prearranged ride fee. Any claim for refund of the prearranged ride fee under paragraph (6) of this rule, and under section 39-21-108, C.R.S., must be filed not later than three years after the date of payment.

(10) **Collection, Administration, and Enforcement.** The collection, administration, and enforcement of the prearranged ride fees shall be performed by the Department in the same manner as the collection, administration, and enforcement of state taxes pursuant to article 21 of title 39.

**COLORADO DEPARTMENT OF REVENUE  
OFFICE OF TAX POLICY**

**STATEMENT OF BASIS AND PURPOSE**

**Prearranged Ride Fees  
Rule 40-10.1-607.5

#### Rule 43-4-218. Retail Delivery Fees.

**Basis and Purpose.** The bases for this rule are sections 24-38.5-303, 25-7.5-103, 39-21-103, 39-21-104, 39-21-104.5, 39-21-105, 39-21-105.5, 39-21-106, 39-21-107, 39-21-108, 39-21-109, 39-21-110, 39-21-110.5, 39-21-111, 39-21-112, 39-21-113, 39-21-114, 39-21-114.5, 39-21-116, 39-21-116.5, 39-21-118, 39-21-119, 39-21-119.5, 39-21-120, 39-26-102, 39-26-104, 39-26-105, 39-26-109, 39-26-112, 39-26-115, 39-26-116, 39-26-117, 39-26-118, 39-26-120, 39-26-121, 39-26-122, 39-26-125, 39-26-703, 39-26-726, 39-26-729, 43-4-218, 43-4-805, 43-4-1203, 43-4-1303, C.R.S. The purpose of this rule is to set forth the manner in which retail delivery fees are collected, administered, and enforced.

(1) **General Rules.** The following general rules apply with respect to retail delivery fees:

- (a) A retailer making a retail delivery on or after July 1, 2022, shall add to the price of the retail delivery, collect from the purchaser, and pay to the Department the retail delivery fees in the manner set forth in this rule.
- (b) A retailer who is not "doing business in this state" as defined in section 39-26-102(3), C.R.S., and 1 CCR 201-4, Rule 39-26-102(3) is not obligated to collect and remit the retail delivery fees. A retailer's obligation to begin the collection and remittance of the retail delivery fees begins on the same date as the retailer's obligation to begin the collection and remittance of the state sales tax.
- (b) Except as otherwise required by this rule, any statute or rule applicable to the collection, administration, and enforcement of sales tax under article 26 of title 39, C.R.S., including applicable statutes and rules under article 21 of title 39, C.R.S., applies to the collection, administration, and enforcement of retail delivery fees.

(2) **Definitions.** As used in this rule, unless the context otherwise requires:

- (a) The statutory definitions in article 26 of title 39, C.R.S., shall apply to terms used in this rule.
- (b) "Retail delivery fees" means the sum of the retail delivery fee imposed by section 43-4-218(3), C.R.S, and all enterprise retail delivery fees described in section 43-4-218(2)(a), C.R.S.

(3) **Imposition and Sourcing.**

- (a) Each retail sale is a single retail delivery regardless of the number of shipments necessary to deliver the items of tangible personal property purchased. The retail delivery fee will not be applied more than once per retail sale regardless of the number or timing of the payment made by the purchaser, the number of shipments in which the purchased items are delivered, or the number of locations to which the shipments are delivered.

- (i) The retailer must determine and document how each shipment is attributed to a retail sale consistent with this paragraph (3). The Department will accept a retailer's reasonable determination that multiple shipments were part of a single retail sale provided that:
  - (A) the determination is consistent with this paragraph (3):
  - (B) the retailer applies the determination consistently across all retail sales;
  - (C) the retailer adequately documents that multiple shipments were part of a single retail sale; and(D)the Department has not directed the retailer in writing to apply a different attribution method.
- (ii) Subscriptions, Recurring Purchase Programs, Leases, and Installment Sales.
  - (A) A retail sale of tangible personal property for which the purchaser places a single order and makes a single payment that results in recurring deliveries by motor vehicle for a specified period of time is one retail sale. As such, the retailer shall collect the retail delivery fees on the single order and shall not collect the retail delivery fees on subsequent deliveries.
  - (B) Retail sales of tangible personal property that are the result of the purchaser placing automatic, recurring orders with separate payments that include the option to cancel at any time before the items are delivered by motor vehicle are separate retail sales for each recurring order. As such, the retailer shall collect the retail delivery fees on each recurring order.
  - (C) A retail sale of tangible personal property for which the purchaser places a single order with periodic credit, installment, or lease payments over a specified period of time to receive one delivery by motor vehicle is one retail sale. As such, the retailer shall collect the retail delivery fees only once on the first credit, installment, or lease payment.
- (I) Short-Term Leases. A lessor that makes a lease of three years or less of tangible personal property shall apply the following rules:
  - (1) If a lessor obtains permission from the Department pursuant to section 39-26-713(1)(a), C.R.S., to acquire tangible personal property exempt from sales tax and collect sales tax on each lease payment received for the property, the short-term lease is considered a retail sale and the lessor shall collect the retail delivery fees from the lessee as described in paragraph (3)(a)(ii)(C) of this rule if the leased tangible personal property is a retail delivery.
  - (2) If a lessor has not obtained permission from the Department pursuant to section 39-26-713(1)(a), C.R.S., to acquire tangible personal property exempt from sales tax and collect sales tax on the lease payments, the short-term lease is not subject to the retail delivery fees regardless of whether the leased item is delivered to the lessee by motor vehicle. If the tangible personal property

was delivered by a motor vehicle to the lessor at the time of acquisition, the retailer shall collect the retail delivery fees from the lessor.

(iii) In the case of a retail delivery that includes an item that is later exchanged or replaced, a subsequent delivery made by the retailer to the purchaser to exchange or replace the original item purchased or any part thereof free of charge whether under warranty or not is not subject to the retail delivery fee because there was no additional retail sale.

(b) *Delivery by a Motor Vehicle.* The retail delivery fees are imposed on each retail sale of tangible personal property delivered by a motor vehicle to the purchaser at a location in this state other than the retailer's business location.

(i) To determine whether a delivery is "by a motor vehicle," the retailer shall consider all modes of transportation used in this state to effectuate the delivery of the sale from the time immediately after the acceptance or approval of the order until the time the items are delivered to the purchaser's specified location in this state other than the retailer's business location. If any part of the post-order delivery that occurs in this state is made by a motor vehicle, the delivery is "by a motor vehicle" and the retail delivery fees apply.

(ii) The retail delivery fees apply whether the retailer delivers the items itself, uses a third party, including the United States Postal Service, or tenders the items to a shipping company hired by the purchaser.

(iii) A retail sale of taxable tangible personal property that a purchaser picks up at a retailer's business location is not subject to the retail delivery fees.

(c) *Determining the Delivery Location.* To determine whether a delivery is made to a location in this state, section 39-26-104(3), C.R.S., 1 CCR 201-4, Rule 39-26-104-2, and the following rules apply:

(i) A retail delivery to a drop-off and pick-up locker, Post Office Box, or similar facility located in the state, other than the retailer's business location, is a delivery made to a location in this state and is subject to the retail delivery fees.

(ii) A retail delivery to a location in this state at the purchaser's direction is subject to the retail delivery fees regardless of the purchaser's location at the time of either the purchase or the delivery, except as provided in paragraph (3)(b)(iii) of this rule.

(iii) A delivery made to a location outside of this state is not subject to the retail delivery fees regardless of the purchaser's location at the time of either the purchase or the delivery.

**(4) Deliveries of Tangible Personal Property Not Subject to, or Exempt from, the Retail Delivery Fees.**

(a) A retail sale of tangible personal property by a retailer for delivery by a motor vehicle is not subject to the retail delivery fees if:

(i) No item of tangible personal property included in the retail sale is subject to state sales tax under article 26 of title 39, C.R.S.; or

- (ii) The purchaser is exempt from paying state sales tax on the purchased item under article 26 of title 39, C.R.S.;
- (b) Wholesale Sales. A wholesale sale as defined in sections 39-26-102(19) or (20), C.R.S., is not subject to the retail delivery fees because a wholesale sale is not a retail sale. A sale by a wholesaler to a user or consumer is not for resale and is a retail sale subject to the retail delivery fees if the tangible personal property is subject to state sales tax under article 26 of title 39, C.R.S., and delivered by motor vehicle to a location in this state.
- (i) If a delivery by motor vehicle to a location in this state includes items for resale (wholesale sales) and tangible personal property subject to state sales tax under article 26 of title 39, C.R.S., the seller shall collect the retail delivery fees on the transaction because the delivery includes at least one item of tangible personal property subject to state sales tax under article 26 of title 39, C.R.S.
  - (ii) Drop Shipments. In the case of a retail delivery made to the purchaser by a wholesaler on the retailer's behalf, either directly or by contract with a third party, the retailer is nonetheless required to collect the retail delivery fees from the purchaser.
  - (A) Example. A retailer makes a retail sale of taxable tangible personal property to a purchaser but does not have the inventory to fulfill the order. The retailer requests that their wholesaler ship the items purchased directly to the purchaser on the retailer's behalf. The wholesaler ships the items to the purchaser through a third-party delivery service. The retailer must collect the retail delivery fees from the purchaser on this transaction.
  - (iii) A person who properly purchases items as a wholesale sale and later removes one of those items from inventory for the person's own use is not separately obligated to remit the retail delivery fees to the Department when the item is removed from inventory.
- (c) Complimentary Tangible Personal Property. A retailer that provides and delivers by motor vehicle tangible personal property to a customer completely free of charge shall not collect the retail delivery fees on such transaction because there is no retail sale.
- (d) Discounts. If tangible personal property is transferred to a customer without consideration of any kind, the retail delivery fees shall not apply because a transfer made without consideration does not constitute a sale. For example, if a retailer allows discounts that reduce the property's purchase price to \$0, and the retailer receives no consideration from the customer in exchange for the property, then the transfer of property does not constitute a sale and the retail delivery fees do not apply. However, if the retailer receives any form of consideration, including, but not limited to, manufacturer's coupons as described in 1 CCR 201-5, Special Rule 11, the transaction is considered a sale and the retail delivery fees apply.
- (e) Burden of Proof. The burden of proving that a retailer is exempt from collecting the retail delivery fees on any retail delivery and paying the retail delivery fees to the Department, or from making such returns, is on the retailer. The burden of proving that a retailer is exempt from collecting the retail delivery fees on any delivery made by a transportation method other than a motor vehicle is also on the retailer.
- (i) A retailer must exercise due diligence with respect to any retail delivery for which the purchaser claims an exemption. A retailer shall comply with the requirements

of 1 CCR 201-4, Rule 39-26-105–3 to be presumed to have exercised due diligence.

- (ii) A retailer that does not comply with the requirements of 1 CCR 201-4, Rule 39-26-105–3 will be held liable and responsible for the payment of any retail delivery fees that the retailer did not, but should have collected, or for which the retailer did not collect sufficient information and documentation from the purchaser to prove to the Department's satisfaction that the retail delivery was exempt from the retail delivery fees.

(5) **Contractors and Repair Services.**

- (a) *Time and Materials Contractor.* A contractor, defined as such in 1 CCR 201-5, Special Rule 10, who bills their customers separately for labor and materials is considered a time and materials contractor. Generally, these contractors purchase tangible personal property at wholesale and resell the items to their customers in the completion of a job.

- (i) If the job's primary purpose is a service call to repair property or diagnose a problem, the retail delivery fee will not apply even if the transaction includes the retail sale of taxable tangible personal property.

(A) *Example.* A plumber receives a call from a customer to come and fix a leaking sink. The plumber bills on a time-and-materials basis. In the process of diagnosing the problem, the plumber determines a new part is needed to stop the leak. Regardless of whether the plumber has the part with them, needs to pick up the part from the shop, or purchases the part from a store and brings it back to the customer's location, the retail delivery fee will not apply because the transaction's primary purpose was to repair a leaking sink.

- (ii) If the job's primary purpose is to sell and install taxable tangible personal property that requires delivery by a motor vehicle to the customer's location in Colorado, the retail delivery fee will apply.

(A) *Example.* A plumber receives a call from a customer to purchase and install a new water heater, which will be delivered to the customer's location in Colorado by motor vehicle. The retail delivery fee will apply because the transaction's primary purpose is to sell an item of tangible personal property that requires delivery by motor vehicle to the customer's location in Colorado.

- (b) *Lump-sum Contractor.* A contractor, defined as such in 1 CCR 201-5, Special Rule 10, who bills their customers on a lump-sum basis is considered a lump-sum contractor. Generally, these contractors purchase tangible personal property at retail and are considered the user and consumer of the tangible personal property used to complete a job.

- (i) A lump-sum contractor will not collect the retail delivery fees from their customers because a lump-sum contractor is not making retail sales to their customers.

- (ii) When a lump-sum contractor purchases taxable tangible personal property that will be delivered by motor vehicle to the contractor, either at the contractor's location or the jobsite, the retailer making the sale to the contractor must charge the retail delivery fees to the contractor.

- (iii) When a lump-sum contractor purchases taxable tangible personal property at a retail business and brings the taxable tangible personal property with them to the jobsite, no retail delivery fees are due because the retail sale occurred at the retail business and no delivery by motor vehicle occurred to get the item to the contractor.

(c) Suppliers to Contractors.

- (i) Time and Materials Contractors. A retailer or supplier that makes a sale of tangible personal property to a licensed contractor that presents sufficient documentation to make an exempt sale for delivery by a motor vehicle to a location in Colorado is presumed to have made a wholesale sale to the contractor because a licensed contractor generally resells the tangible personal property they purchase at wholesale to their customers and collects sales tax on the transactions. As such, the retailer or supplier shall not collect the retail delivery fees from the licensed contractor.
- (ii) Lump-sum Contractors. A retailer or supplier that makes a retail sale of taxable tangible personal property to an unlicensed contractor for delivery by a motor vehicle to a location in Colorado is presumed to have made a retail delivery because an unlicensed contractor is generally the user and consumer of the items they purchase. As such, the retailer or supplier shall collect the retail delivery fees from the unlicensed contractor.

(6) Deliveries of Marijuana.

- (a) Retail Marijuana. Except as provided in paragraph (6)(a)(ii) of this rule, a retail marijuana delivery is not subject to the retail delivery fees because, pursuant to section 39-26-729, C.R.S., retail marijuana is exempt from state sales tax under article 26 of title 39, C.R.S. For purposes of this paragraph (6), retail marijuana has the same meaning as set forth in section 39-28.8-101(7), C.R.S., and includes retail marijuana products as defined in section 39-28.8-101(9), C.R.S.

- (i) A retail marijuana delivery that is subject to the sales tax imposed by a special district or other limited purpose governmental entity is nonetheless exempt, pursuant to section 39-26-729, C.R.S., from state sales tax under article 26 of title 39 and is therefore exempt from the retail delivery fees.
- (ii) When tangible personal property subject to state sales tax under article 26 of title 39, C.R.S., is included in the sale and delivery of retail marijuana, the retail sale is subject to the retail delivery fees unless the purchaser is exempt because at least one item of tangible personal property purchased is subject to state sales tax under article 26 of title 39, C.R.S.

(b) Medical Marijuana.

- (i) Except as provided in paragraph (6)(b)(ii) of this rule, a medical marijuana delivery is subject to the retail delivery fees unless the purchaser is exempt because medical marijuana is subject to state sales tax under article 26 of title 39, C.R.S.
- (ii) A medical marijuana delivery that is exempt from state sales tax under section 39-26-726, C.R.S., is not subject to the retail delivery fees unless the delivery includes other items of tangible personal property that are subject to state sales tax under article 26 of title 39, C.R.S., and the purchaser is not an exempt entity.

- (7) **Registration.** A retailer who is liable and responsible for the collection and remittance of the retail delivery fees shall register with the Department in the manner the Department prescribes. The registration will create a retail delivery fee account. Once a retailer is registered to collect the retail delivery fees, the retailer does not need to renew the registration.
- (a) A retailer who fails to register as required in paragraph (7) of this rule is nonetheless liable and responsible for the full amount of the retail delivery fees due, plus any applicable penalties and interest.
- (b) A retailer that is no longer liable and responsible for the collection and remittance of the retail delivery fees shall promptly close their retail delivery fee account as instructed by the Department. The retailer shall file returns in accordance with paragraph (9) of this rule through the closure date.
- (8) **Collection of the Retail Delivery Fees.** A retailer who makes a retail delivery shall add the retail delivery fees in effect at the time the sale takes place to the price or charge for the retail delivery, and shall collect the retail delivery fees from the purchaser.
- (a) *Displaying Retail Delivery Fees on an Invoice.* The retail delivery fees must be shown on any final invoice, receipt, or other document setting forth the purchase price as a separate and distinct item from the price of the items purchased and any other taxes or fees imposed on the retail delivery. The final invoice, receipt, or other document setting forth the purchase price must show the sum of the retail delivery fees in effect at the time the sale takes place as one amount on the invoice, receipt, or document labeled "retail delivery fees."
- (i) The retail delivery fees cannot be included in the tax line shown on any final invoice, receipt, or other document setting forth the purchase price.
- (ii) The retail delivery fees cannot be included in a line with other fees or charges on the final invoice, receipt, or other document setting forth the purchaser price.
- (iii) In the case of an online retailer that does not provide the purchaser with a final invoice, receipt, or other document setting forth the purchase price, the retailer shall show the retail delivery fees as a line item on the website at checkout. The presentation of the retail delivery fees at checkout must meet the same requirements as set forth in section 43-4-218(6)(b), C.R.S.
- (A) If it is impracticable for a retailer that does not provide the purchaser with a final invoice, receipt, or other document setting forth the purchase price to display the retail delivery fees in the manner described in (8)(a)(iii) of this rule, the retailer shall prominently display on the website at checkout that the retailer collects the retail delivery fees from the purchaser.
- (B) If it is impracticable for a retailer that does not provide the purchaser with a final invoice, receipt, or other document setting forth the purchase price to display the retail delivery fees in the manner described in (8)(a)(iii) or (8)(a)(iii)(A) of this rule, the retailer shall notify the purchaser that the retailer collected the retail delivery fees from the purchaser in the email sent to the purchaser confirming the order has been placed or on the website of the retailer.
- (iv) In the case of a retailer operating from a fixed or mobile store that does not provide the purchaser with the final invoice, receipt, or other document setting forth the purchase price, the retailer shall show on a conspicuous sign visible to

the purchaser at checkout that the purchaser will pay the retail delivery fees on any retail delivery.

- (b) A retailer who makes a retail delivery and does not know at the time of acceptance or approval of an order what modes of transportation will be used to make the delivery shall collect the retail delivery fees. If no part of the delivery is ultimately made by a motor vehicle, as described in paragraph (3)(b) of this rule, the retailer or purchaser may file a claim for refund pursuant to paragraph (10) of this rule if the fees have been remitted to the Department. A retailer that properly refunds the retail delivery fees in full may claim a credit on the return for the period in which the retail delivery fees were refunded pursuant to paragraph (10).
- (c) *Failure to Collect.* A retailer who makes a retail delivery and who fails to collect the required amount of the retail delivery fees is nonetheless liable for the full amount of the retail delivery fees due. A purchaser is not liable to the Department for the retail delivery fees if the retailer does not collect the fees.
- (d) *Retail Sales Made Through a Marketplace Facilitator's Marketplace.* In the case of a retail delivery facilitated by a marketplace facilitator through a marketplace facilitator's marketplace:

  - (i) The marketplace facilitator has all of the liabilities, obligations, and rights of a retailer under article 26 of title 39, C.R.S., and therefore shall collect and remit the retail delivery fees on all direct sales and all facilitated sales, as such terms are defined in 1 CCR 201-5, Special Rule 44.
  - (ii) The marketplace seller does not, with respect to retail delivery fees, have the liabilities, obligations, or rights of a retailer under article 26 of title 39, C.R.S., if the marketplace seller can show that the sale was facilitated by a marketplace facilitator:

    - (A) with whom the marketplace seller has a contract that explicitly provides that the marketplace facilitator will collect and remit Colorado state and state-administered local sales taxes on all sales subject to tax under article 26 of title 39, C.R.S.; or
    - (B) from whom the marketplace seller obtained a certification from the marketplace facilitator that the marketplace facilitator is registered to collect Colorado sales tax and will collect Colorado state and state-administered local sales taxes on all sales subject to tax under article 26 of title 39, C.R.S., made in or through the marketplace.
  - (iii) The Department will presume that a contract or certification that complies with the requirements is paragraph (4)(a)(iv) of 1 CCR 201-5, Special Rule 44 includes the collection of retail delivery fees in compliance with this paragraph (8)(d)(ii) absent contrary evidence.
- (e) *Direct Payment Permit Holders.* A qualified purchaser that holds a valid direct payment permit pursuant to section 39-26-103.5, C.R.S., and the rules thereunder, shall remit directly to the Department and not to the retailer the retail delivery fees applicable to any retail delivery purchased by the qualified purchaser. A retailer who makes retail deliveries to a qualified purchaser shall not collect the retail delivery fees from the qualified purchaser. A qualified purchaser that holds a valid direct pay permit is subject to the requirements of this rule.

- (9) **Filing and Remittance of the Retail Delivery Fees.** A retailer making retail deliveries shall file a return as described in paragraphs (9)(a) and (9)(b) of this rule and remit an amount described in paragraph (9)(c) of this rule for each reporting period.
- (a) **Filing Schedules and Due Dates.** A retailer's filing schedule and the corresponding due date for retail delivery fees returns and remittances are the same as the retailer's state sales tax filing schedule and due dates under 1 CCR 201-4, Rule 39-26-109.
- (i) Unless otherwise authorized, a return must be filed, and any retail delivery fees due must be remitted, on or before the twentieth day of the month following the end of a reporting period.
- (ii) If the due date of the return and payment is a Saturday, Sunday, or legal holiday, the due date is the next business day.
- (iii) A retailer cannot alter their filing schedule to differ from the retailer's state sales tax filing schedule and due dates under 1 CCR 201-4, Rule 39-26-109.
- (b) **Filing Requirements.** Returns, and any required supplemental forms, must be completed in full, in the form and manner prescribed by the Department, and filed with the Department on or before the due date. The Department shall determine what information the return must contain, how the returns must be made, and the type of forms that must be used.
- (i) A retailer that makes no retail deliveries during the preceding reporting period, shall nonetheless file a return on or before the due date reporting zero retail deliveries.
- (ii) A retailer that fails to submit a complete and accurate return in the form and manner prescribed by the Department, including any zero return filings, on or before the due date is subject to penalties and interest pursuant to paragraph (11) of this rule.
- (c) **Remittance Requirements.** A retailer is liable and responsible to remit to the Department on or before the due date an amount equal to the product of all retail delivery fees in effect for the reporting period and the number of retail deliveries the retailer makes in the reporting period, regardless of whether the retailer actually collects the retail delivery fees from the purchaser, as well as any retail delivery fees collected in excess of this amount.
- (i) A retailer is required to remit, with the filing of each return, the total retail delivery fees amount shown to be due on the return.
- (ii) A retailer that fails to pay any retail delivery fees due to the Department by the due date prescribed in paragraph (9)(a) of this rule is subject to penalties and interest pursuant to paragraph (11) of this rule.
- (iii) A retailer is not permitted to retain any portion of the retail delivery fees to cover the retailer's expense in the collection and remittance of the retail delivery fees.
- (iv) For retailers with an annual or thirteen-month reporting period, the retailer is liable and responsible to remit the following amounts to the Department on or before the due date regardless of whether the retailer actually collected the retail delivery fees from the purchaser:

- (A) an amount equal to the product of all retail delivery fees in effect from January 1 of the applicable year to June 30 of that year and the number of retail deliveries the retailer made in that period;
  - (B) an amount equal to the product of all retail delivery fees in effect from July 1 of the applicable year through December 31 of that year and the number of retail deliveries the retailer made in that period; and
  - (C) any retail delivery fees collected in excess of these amounts.
- (10) **Refunds and Credits.** The provisions of sections 39-21-108 and 39-26-703, C.R.S., govern claims for refund or credit of retail delivery fees, including, but not limited to, the limitations on such claims. In addition, for purposes of retail delivery fees, the following rules apply:
- (a) Claim for Refund. A retailer or purchaser that overpays, or a purchaser that incorrectly paid, the retail delivery fees shall file a claim for refund for the overpayment of the retail delivery fees pursuant to sections 39-21-108 and 39-26-703, C.R.S., and the rules thereunder.
  - (b) Credit for Refunded Fees Collected in Error. A retailer is allowed a credit in accordance with section 39-26-703(2.5)(b)(I), C.R.S., equal to the amount of any retail delivery fees refunded during the reporting period if:
    - (i) The retailer collected the retail delivery fees in the current or prior period;
    - (ii) The sale was exempt from or not subject to the retail delivery fees under these rules;
    - (iii) The retailer remitted the retail delivery fees to the Department; and
    - (iv) The retailer refunded the retail delivery fees in full to the purchaser.
  - (c) Disputes. If a dispute arises between the purchaser and the retailer as to whether a sale was subject to or exempt from the retail delivery fees, the retailer shall collect and the purchaser shall pay the retail delivery fees. The purchaser shall file a claim for refund of the disputed fees within the statute of limitations in accordance with this paragraph (12) of this rule.
  - (d) Returned Retail Deliveries. A retailer may not refund the retail delivery fees imposed on a retail delivery when the purchased tangible personal property is returned to the retailer for a full refund of the purchase price and any applicable sales tax. A subsequent delivery to return the tangible personal property to the retailer is not subject to the retail delivery fees because no retail sale has taken place.
  - (e) Canceled Retail Deliveries. A retailer may claim a credit for previously paid retail delivery fees for any retail sale that was canceled before the item was shipped if the retailer refunded to the purchaser the full purchase price, the retail delivery fees, and any applicable sales tax. The purchaser may claim a refund of the retail delivery fees if the retailer does not refund the retail delivery fees.
  - (f) Bad Debts Charged-off. Any retail delivery fees paid on retail deliveries represented by accounts found to be worthless and actually charged off for income tax purposes cannot be credited by the retailer upon a subsequent retail delivery fee payment.

- 
- (11) **Penalties and Interest.** Because retail delivery fees are collected, administered, and enforced in the same manner as state sales tax under article 26 of title 39, C.R.S., all civil and criminal penalties, and any applicable interest imposed under articles 21 and 26 of title 39, C.R.S., apply, including, but not limited to, the penalty imposed by section 39-21-116.5, C.R.S.
- (12) **Statute of Limitations.** Because retail delivery fees are collected, administered, and enforced in the same manner as the sales tax under article 26 of title 39, C.R.S., the limitations provided in sections 39-21-107, 39-21-108, and 39-26-125, C.R.S., apply to the retail delivery fees. With respect to overpayments and claims for refund or credit, the limitations in section 39-26-703, C.R.S., apply.
- (13) **Power of Collection and Enforcement.** All money paid to a retailer as the retail delivery fees is and remains public money, the property of the State of Colorado, in the hands of the retailer, and the retailer shall hold the money in trust for the sole use and benefit of the State of Colorado until paid to the Department. The Executive Director has the full powers of collection and enforcement allowed under articles 20, 21, and 26 of title 39, C.R.S., and article 35 of title 24, C.R.S., including, but not limited to, the authority to make estimated returns, and to issue warrants commanding the levy, distraint, and sale of property. In accordance with section 39-26-117, C.R.S., the retail delivery fees are a first and prior lien upon the goods and business fixtures of or used by any retailer under lease, title retaining contract, or other contract arrangement, excepting stock of goods sold in the ordinary course of business, and takes precedence on all such property over other liens or claims of whatsoever kind or nature.
- (14) **Calculation and Publication of the Retail Delivery Fees.**
- (a) Each year the Department shall calculate whether an adjustment to the retail delivery fee set forth in section 43-4-218, C.R.S., is required because inflation is positive and cumulative inflation from the time of the last adjustment in the amount of the retail delivery fee, when applied to the sum of the current retail delivery fee set forth in section 43-4-218(3), C.R.S., and all current enterprise retail delivery fees described in section 43-4-218(2)(a), C.R.S., and rounded to the nearest whole cent, results in an increase of at least one whole cent in the total amount of the retail delivery fees.
- (i) The Department shall calculate inflation by applying the methodology set forth in section 43-4-218(2)(b), C.R.S. This methodology will also determine whether inflation is positive. When the calculated inflation is not positive, the amount of the retail delivery fees will not be adjusted for that year.
- (ii) In years in which the inflation calculated pursuant to the methodology set forth in section 43-4-218(2)(b), C.R.S., does not result in an increase of at least one whole cent in the total amount of the retail delivery fees, the calculated increase in inflation must be added to the calculation of inflation for future years until the cumulative inflation from the time of the last adjustment in the amount of the retail delivery fees results in an increase of at least one whole cent.
- (b) Publication of the Retail Delivery Fees. The Department shall publish the total amount of the inflation-adjusted retail delivery fees on its website [tax.colorado.gov](http://tax.colorado.gov), or its successor website, no later than April 15 of each calendar year. The Department may also publish the total amount of the inflation-adjusted retail delivery fees by other means.

## RULE 7 - RULES AND REGULATIONS FOR THE COMMERCIAL DRIVER'S LICENSE (CDL) PROGRAM

### A. BASIS, PURPOSE, AND STATUTORY AUTHORITY

- 1) The Department is authorized to adopt rules and regulations as necessary for the Commercial Driver's License Program in accordance with sections 24-4-103, 42-2-111(1)(b), 42-2-114.5, 42-2-403, 42-2-406 (3 through 7), and 42-2-407(8), C.R.S.
- 2) The purpose of these rules is to promote the safety and welfare of the citizens of Colorado by establishing standards and requirements for licensing commercial driver's license testing units and testers, to establish fees for such licensing and maximum fees that may be charged by such testing units, to establish certain procedures and standards for issuing and possessing commercial driver's licenses, and to ensure compliance with state and federal requirements.

### B. INCORPORATION BY REFERENCE OF FEDERAL LAW AND OTHER RULES

- 1) Adoption: The Department incorporates by reference the Federal Motor Carrier Safety Regulations ("FMCSR"), 49 CFR parts 171, 172, and 300-399, Qualifications and Disqualification of Drivers, **42 CFR part 73, 49 U.S.C. Section 5103**, 26 U.S.C. Section 501(c) (2015), and the Colorado Department of Public Safety, Colorado State Patrol, Rules and Regulations Concerning Minimum Standards for the Operation of Commercial Vehicles at 8 CCR 1507.1. Material incorporated by reference in this rule does not include later amendments to or editions of the incorporated material.
- 2) "49 CFR", when referenced in this rule, means the Federal Regulations published in the Code of Federal Regulations ("CFR"), Title 49, parts 171, 172, and 300-399 (October 1, 2016) by the National Archives and Records Administration's Office of the Federal Register and Government Publishing Office, and available at the original issuing agencies the Federal Motor Carrier Safety Administration and National Highway and Traffic Safety Administration, both located at 1200 New Jersey Avenue SE, Washington, D.C., 20590. The Federal rules and regulations referenced or incorporated in this rule, and 8 CCR 1507-1, are on file and available for inspection by contacting the Driver License Section of the Department of Revenue in person at, 1881 Pierce Street, Room 128, Lakewood, Colorado, 80214, or by telephone at 303-205-5600, and copies of the materials may be examined at any state publication depository library.

### C. DEFINITIONS

- 1) AAMVA: American Association of Motor Vehicle Administrators is a voluntary, nonprofit, tax exempt, educational unit that represents state and provincial officials in the United States and Canada who administer and enforce motor vehicle laws CODE OF COLORADO REGULATIONS 1 CCR 204-30 Division of Motor Vehicles.
- 2) CDL: "Commercial Driver's License" as defined in section 42-2-402(1), C.R.S.
- 3) CDL Compliance Unit: The administrative unit contained within the Department charged with the oversight and regulation of CDL third party testing units and testers on AAMVA's CDL skills testing.

- 4) CDL Passenger Vehicle: A passenger vehicle designed to transport 16 or more passengers, including the driver.
- 5) CDL Skills Test: "Driving tests" as referenced in section 42-2-402, C.R.S. and consists of the Vehicle Inspection, Basic Control Skills, and the Road Test.
- 6) CDL Vehicle Class: ~~A group or type of vehicle as defined in Part B of this Rule.~~ A group or type of vehicle with certain operating characteristics.
  - a) Class A: Any combination of vehicles which has a gross combination weight rating or gross combination weight of 11,794 kilograms or more (26,001 pounds or more) whichever is greater, inclusive of a towed unit(s) with a gross vehicle weight rating or gross vehicle weight of more than 4,536 kilograms (10,001 pounds) whichever is greater.
  - b) Class B: Any single vehicle which has a gross vehicle weight rating or gross vehicle weight of 11,794 or more kilograms (26,001 pounds or more), or any such vehicle towing a vehicle with a gross vehicle weight rating or gross vehicle weight that does not exceed 4,536 kilograms (10,001 pounds).
  - c) Class C: Any single vehicle, or combination of vehicles, that does not meet the definition of Class A or Class B, but is either designed to transport 16 or more passengers, including the driver, or is transporting material that has been designated as hazardous under 49 U.S.C. 5103 and is required to be placarded under subpart F of 49 CFR part 172 or is transporting any quantity of a material listed as a select agent or toxin in 42 CFR part 73.
- 7) CLP – Commercial Learner's Permit: The permit issued by the Department entitling the driver, while having such permit in his/her immediate possession, to drive a commercial motor vehicle of certain classes and/or endorsement(s), and/or restriction(s) upon the highways with a driver that possesses a CDL with the same class and/or endorsements or higher, as the CLP holder.
- 8) CMV: "Commercial Motor Vehicle" as defined in section 42-2-402(4), C.R.S.
- 9) C.R.S.: Colorado Revised Statutes.
- 10) CSTIMS - Commercial Skills Test Information Management System: Web-based system used by states to manage the CDL Skills Test portion of the CDL licensing process.
- 11) Disqualifications: The suspension, revocation, cancellation, or any other withdrawal by the Department of a person's privilege to drive a CMV or a determination by the FMCSA under the rules of practice for motor carrier safety contained in 49 CFR, that a person is no longer qualified to operate a CMV under 49 CFR; or the loss of qualification that automatically follows conviction of an offense listed in 49 CFR.
- 12) Designed to Transport: The manufacturer's original rated capacity for the vehicle.

- 13) ELDT: Entry Level Driver Training - FMCSA's Entry Level Driver Training (ELDT) regulations set the baseline for training requirements for entry-level drivers. This includes those applying to obtain a Class A or Class B CDL for the first time, upgrade an existing Class B CDL to a Class A CDL or obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.
- 14) Endorsements: The letter indicators below added to a CDL and/or CLP indicate successful completion of the appropriate knowledge, and if applicable, the CDL Skills Test, and allow the operation of a special configuration of vehicle(s):
- a) 3 = Three wheel motorcycle (not allowed on a CLP per 49 CFR)
  - b) H = Hazardous materials (Not allowed on a CLP per 49 CFR)
  - c) M = Motorcycle (not allowed on a CLP per 49 CFR)
  - d) N = Tank vehicles
  - e) P = CDL Passenger vehicle
  - f) S = School buses
  - g) T = Double/triple trailers (not allowed on a CLP per 49 CFR)
  - h) X = Combination of tank vehicle and hazardous materials (Not allowed on a CLP per 49 CFR)
- 15) Exemptions: Regulatory relief given to a person or class of persons normally subject to regulations.
- 16) FMCSA: Federal Motor Carrier Safety Administration is an agency within the USDOT.
- 17) FMCSR: Federal Motor Carrier Safety Regulations (49 CFR).
- 18) GCWR: Gross Combination Weight Rating is the value specified by the manufacturer as the maximum loaded weight of the combination vehicle.
- 19) Government agency: A state, county, city and county, municipality, school district, special improvement district, and every other kind of district, agency, instrumentality, or political subdivision thereof organized pursuant to law and any separate entity created by intergovernmental contract cooperation only between or among the state, county, city and county, municipality, school district, special improvement district, and every other kind of district, agency, instrumentality, or political subdivision thereof.
- 20) Intrastate Driver: A driver with a CDL restricted to operating a CMV within the boundaries of Colorado, and not authorized to transport items of interstate commerce or hazardous materials.

- 21) Interstate Commerce: Trade, traffic, or transportation in the United States between a place in a state and a place outside of such state (including a place outside of the United States), or between two places in a state through another state or a place outside of the United States, or between two places in a state as part of trade, traffic, or transportation originating or terminating outside the state or the United States.
- 22) Interstate Driver: A CDL holder authorized to cross state lines and transport interstate commerce while operating a CMV.
- 23) Intrastate Commerce: Trade, traffic, or transportation in any state that is not described in the term "interstate commerce".
- 24) Knowledge Test: A written test that meets the federal standards contained in 49 CFR.
- 25) Non-Profit: An organization filing with the United States Code 26 USC Section 501(c).
- 26) Paved Area: A paved area is a surface made up of materials and adhesive compounds of a sufficient depth and strength that the area provides a durable, solid, smooth surface upon which an applicant may demonstrate basic vehicle control skills.
- 27) Public Transportation Entity: A mass transit district or mass transit authority authorized under the laws of this state to provide transportation services to the general public.
- 28) Restrictions: Prohibits the operation of certain types of vehicles or restricts operating a CMV to within designated boundaries:
- a) E = No Manual Transmission
  - b) K = Intrastate only
  - c) L = No Air Brake equipped CMV
  - d) M = No Class A Passenger Vehicle
  - e) N = No Class A and B Passenger Vehicle
  - f) O = No Tractor-Trailer
  - g) P = No Passenger
  - h) X = No Liquid in Tank
  - i) V = Medical Variance (49 CFR)
  - j) Z = Restricted from operating a CMV with full air brakes
- 29) Self Certification Choice:

- a) Non-excepted interstate. A person's certification that he or she operates or expects to operate in interstate commerce, is both subject to and meets the qualification requirements under 49 CFR, and is required to be medically examined and certified pursuant to 49 CFR.
- b) Excepted interstate. A person's certification must certify that he or she operates or expects to operate in interstate commerce, but engages exclusively in transportation or operations excepted under 49 CFR from all or parts of the qualification requirements of 49 CFR, and is therefore not required to be medically examined and certified pursuant to 49 CFR.
- c) Non-excepted intrastate. A person's certification that he or she operates only in intrastate commerce and therefore is subject to Colorado driver qualification requirements.
- d) Excepted intrastate. A person's certification must certify that he or she operates in intrastate commerce, but engages exclusively in transportation or operations excepted from all or parts of the Colorado driver qualification.

30) Shadow Skills Test: Administered skills tests required of the new examiner candidate.

31) TPR: Training Provider Registry - The Training Provider Registry supports FMCSA's goal of ensuring that only qualified drivers are behind the wheel of commercial motor vehicles (CMVs). The Registry will connect entry-level drivers with training providers who can equip them with the knowledge to safely operate CMVs for which a commercial learner's permit (CLP) or commercial driver's license (CDL) is required.

32) USDOT: United States Department of Transportation.

#### **D. DRIVER LICENSING REQUIREMENTS**

- 1) Each applicant applying for a CDL or CLP must be a resident of Colorado, at least 18 years of age, and comply with the testing and licensing requirements of the Department.
  - a) The CDL and CLP will indicate the class of license, any endorsements, and any restrictions for that individual. The CDL is valid for the operation of a non-CMV including a motorcycle with the appropriate motorcycle endorsement on the license.
  - b) A Colorado CDL may be issued upon surrender of a valid CDL from another state without additional testing except that an applicant must test for a hazardous material endorsement.
  - c) An applicant with an out-of-state CLP cannot transfer that CLP to Colorado but must apply for a Colorado CLP and take all applicable CDL knowledge tests (49 CFR).

- 2) Each applicant applying is required to make one of the following applicable self-certifications for the type of commercial driving the individual intends to do (49 CFR):
  - a) Non-excepted interstate.
  - b) Excepted interstate.
  - c) Non-excepted intrastate.
  - d) Excepted intrastate.
- 3) Each applicant must meet the medical and physical qualifications under 49 CFR. Each applicant must submit their medical examiner's certificate and, if applicable, any federal variance or state medical waiver or skills performance evaluation to a driver license office (49 CFR).
- 4) Each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division of the Department of Higher Education must affirm on an affidavit provided by the Department, to the testing unit that the initial applicant successfully passed training on the recognition, prevention, and reporting of human trafficking prior to taking the CDL skills test.
- 5) Effective February 7, 2022, each applicant must complete ELDT prior to taking any applicable skills or knowledge tests including those applying to:
  - a) Obtain a Class A or Class B CDL for the first time;
  - b) Upgrade an existing Class B CDL to a Class A CDL; or
  - c) Obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.

The ELDT regulations are not retroactive; the entry-level driver training requirements do not apply to individuals holding a valid CDL or an S, P, or H endorsement issued prior to February 7, 2022. If an applicant who obtains a CLP prior to February 7, 2022, obtains a CDL before the CLP or renewed CLP expires, the applicant is not subject to the ELDT requirements. Any individual who meets one of the exceptions for taking a skills test in [49 CFR part 383](#) is also exempt from the ELDT requirements.

## **E. ENDORSEMENTS**

- 1) T-Double/Triple Trailers: Required to operate a CMV used for drawing two or more vehicles or trailers with a GCWR that is 26,001 lbs. or more and combined GVWR of the vehicles being towed is more than 10,000 lbs.
- 2) P-Passenger: Required to operate a vehicle designed by the manufacturer to transport 16 or more passengers, including the driver.

- 3) N-Tank Vehicles: Required to operate a vehicle that hauls liquid or liquid gas in a permanently mounted cargo tank rated at 119 gallons or more or a portable tank rated at 1,000 gallons or more.
- 4) H-Hazardous Materials: Required to transport materials that require the motor vehicle to display a placard pursuant to the hazardous materials regulations.
- 5) S-School Buses: Required to operate a school bus as defined in section 42-1-102(88), C.R.S.
- 6) X-Combination Tank/Hazmat: Required to operate vehicles that meet the definition of (3) and (4) above.

**F. RESTRICTIONS**

- 1) Intrastate: The letter “K” is added to the CDL of a driver between the ages of 18 through 20, to an individual who has been issued a valid medical waiver from the Colorado State Patrol (8 CCR 1507-1) or who self- certifies to excepted or not excepted intrastate driving (49 CFR). Under this CDL restriction, the driver must not:

- a) Operate a CMV outside Colorado state boundaries; or
- b) Transport interstate commerce as defined in 49 CFR.

The waiver from Colorado State Patrol is valid only while the driver is transporting commodities other than bulk hazardous materials, as defined in 49 CFR or commodities with a hazard class identified in 49 CFR, or commodities subject to the “Poison by Inhalation Hazard” shipping description in 49 CFR.

- 2) Air brake: The letter “L” is added to the CDL/CLP of an individual restricted from operating vehicles equipped with air brakes.
  - a) An individual may apply for removal of the “L” restriction after having successfully completed the air brake knowledge test and the CDL Skills Test in a vehicle equipped with air brakes that is representative of the CDL vehicle class.
  - b) When taking the CDL Skills Test in a vehicle equipped with air brakes, the applicant must have in his/her immediate possession a CLP without the “L” restriction.
- 3) Transmission: The letter “E” is added to the CDL of an individual restricted from operating vehicles equipped with a standard transmission.
  - a) An individual may apply for removal of the “E” restriction after having successfully completed the CDL Skills Test in a vehicle equipped with a standard transmission that is representative of the CDL vehicle class.
  - b) When taking the CDL Skills Test in a vehicle equipped with a standard transmission, the applicant must have in his/her immediate possession a CLP without the “E” restriction.

- 4) Class B Bus: The letter "M" is added to the CDL of an individual restricted from operating a Class A Passenger vehicle (49 CFR).
  - a) An individual may apply for removal of the "M" restriction after having successfully completed the CDL Skills Test in a Class A Passenger vehicle.
  - b) Before taking the CDL Skills Test in a Class A Passenger vehicle, the applicant must have in his/her immediate possession a CLP without the "M" restriction.
- 5) Class C Bus: The letter "N" is added to the CDL of an individual restricted from operating a Class B Passenger vehicle (49 CFR).
  - a) An individual may apply for removal of the "N" restriction after having successfully completed the CDL Skills Test in a Class B Passenger vehicle.
  - b) Before taking the CDL Skills Test in a Class B Passenger vehicle, the applicant must have in his/her immediate possession a CLP without the "N" restriction.
- 6) No Tractor-Trailer: The letter "O" is added to the CDL of an individual restricted from operating a vehicle equipped with a 5th wheel type coupling system (49 CFR).
  - a) An individual may apply for removal of the "O" restriction after having completed the CDL Skills Test in a tractor/semi-trailer combination vehicle equipped with a 5th wheel type coupling system.
  - b) When taking the CDL Skills Test in a tractor/semi-trailer combination vehicle equipped with a 5th wheel type coupling system, the applicant must have in his/her immediate possession a CLP without the "O" restriction.
- 7) No Passengers: The letter "P" is added to the CLP of an individual restricted from operating a Passenger vehicle with passengers.
  - a) The "P" restriction is removed by successfully completing the CDL Skills Test in a Passenger vehicle.
- 8) No Cargo in a Tank Vehicle: The letter "X" is added to the CLP of an individual restricted from operating a Tank vehicle containing liquid or gas.
  - a) An individual may apply to have the "X" restriction removed after having successfully completed the CDL Skills Test.
- 9) Medical, Variance/Skills Performance Evaluation: The letter "V" will be added to any CLP or CDL for individuals who have been issued a federal medical variance (49 CFR).
- 10) Air brake: The letter "Z" is added to the CDL/CLP of an individual restricted from operating vehicles equipped with full air brakes.

- a) The “Z” restriction is removed by successfully completing the air brake knowledge test and the CDL Skills Test in a vehicle equipped with air brakes that is representative of the CDL vehicle class.
- b) When taking the CDL Skills Test in a vehicle equipped with air brakes, the applicant must have in his/her immediate possession a CLP without the “Z” restriction.

#### **G. EXEMPTIONS**

- 1) FMCSR 49 CFR Applicability: Authorizes the state to grant certain groups exceptions from the CDL requirements.
  - a) FMCSR – 49 CFR: Exception for individuals who operate CMVs for military purposes.
  - b) FMCSR – 49 CFR: Exception for operators of farm vehicles, as defined at section 42-2-402(4)(b)(III), C.R.S. and firefighters and other persons who operate CMVs that are necessary to the preservation of life or property, or the execution of emergency governmental functions, or that are equipped with audible and visual signals and are not subject to normal traffic regulation.
  - c) FMCSR – 49 CFR: Exception for drivers employed by an eligible unit of local government, operating a commercial motor vehicle within the boundaries of that unit for the purpose of removing snow or ice from a roadway by plowing, sanding, or salting, if the properly licensed employee who ordinarily operates a commercial motor vehicle for these purposes is unable to operate the vehicle or if the employing governmental entity determines that a snow or ice emergency exists that requires additional assistance.
  - d) FMCSR – 49 CFR: Restricted CDL for certain drivers in farm-related service industries.
- 2) FMCSR 49 CFR specifies the exceptions to the physical qualifications for individuals engaged in custom harvesting operations.

#### **H. ENTITY ELIGIBLE TO APPLY FOR A CDL TESTING UNIT LICENSE**

- 1) The Department may authorize a testing unit to administer the CDL Skills Test on behalf of the Department if such training and testing is equal to the training and testing of the Department.
- 2) A CDL Testing Unit must enter into a written contract with the Department and agree to:
  - a) Maintain an established place of business in Colorado ~~and ensure all CMVs used for testing with a vehicle fleet of no less than three CMVs are owned, leased or registered to the testing unit, the business owner, employee of the business or~~ properly registered, inspected for safe operating conditions at the time of exam and insured;

- b) Maintain an adult education occupational business license with the Division of Private Occupational Schools, a division of the Colorado Department of Higher Education and be listed in the TPR; or
- c) Be a government agency, public school district, private or parochial school, or other type of pre- primary, primary, or secondary school transporting students from home to school or from school to home.

#### **I. CDL TESTING UNIT REQUIREMENTS**

- 1) An entity must apply for and receive a CDL testing unit license from the Department in order to administer CDL Skills Tests. The CDL testing unit and each driving tester license expires on June 30th of each year. The licenses for both the testing unit and driving tester(s) must be displayed in the place of business.
  - a) Testing unit and driving tester license fees are waived for non-commercial testing units and driving testers that only provide public transportation, and that do not test outside of their unit.
  - b) Public transportation entities that test outside of their unit or that do not provide public transportation only, must submit the appropriate fees.
  - c) If a license is not renewed on or before June 30th, the initial fees will apply. Testing unit and driving tester license(s) may be suspended or inactivated until appropriate fees and documentation are submitted.
  - d) Licenses can be renewed up to 60 days prior to June 30th of each year.
- 2) The testing unit is not permitted to guarantee issuance of a Commercial Driver's License or to suggest that training will guarantee issuance of a Commercial Driver's License.
- 3) Testing units must only test if they have a current testing unit license issued by the Department.
- 4) Testing units must ensure that each driving tester has a valid tester license issued by the Department when he or she administers a CDL Skills Test.
- 5) The testing unit must notify the Department in writing within 3 business days of the termination or departure from the testing unit of any driving tester.
- 6) A testing unit's place of business must be a separate establishment and may not be part of a home. The unit's physical address must not be a post office box.
- 7) The testing unit must have written permission from the landowner to administer the CDL vehicle basic control skills exercises on areas not owned by the testing unit. This written permission must be submitted to the Department for approval prior to testing and renewed annually.
- 8) The testing unit must maintain at least one employee who is licensed as a CDL driving tester **or contract with at least one person who is licensed as a CDL driving tester.**

- 9) The testing unit must ensure that the unit's driving tester(s) follow the Department's standards for administering the CDL Skills Test.
- 10) The testing unit must ensure that the unit's driving tester(s) complete all CDL third party testing forms correctly.
- 11) The testing unit must ensure that the unit's driving tester(s) administer the CDL Skills Test to applicants in a vehicle equal to or lower than the class and/or endorsement, and/or restriction on applicant's CDL instruction permit or CDL.
- 12) Once a new driving tester candidate has passed the required 8 day new CDL third party tester's training course, the testing unit must ensure that within thirty (30) days the new tester candidate:
  - a) Applies for his/her third party testers license;
  - b) Administers two (2) shadow skills tests while accompanied by a licensed driving tester who shall monitor the test and compare pass-fail results with those of the new driving tester candidate; and
  - c) Completes an application for the fingerprint/background check.
- 13) The testing unit is responsible for ensuring that driving testers attend all mandated training provided by the CDL Compliance Unit. Failure of driving testers to attend scheduled training may result in the suspension of testing privileges for the testing unit and the tester.
- 14) The testing unit must schedule all tests utilizing CSTIMS. The testing unit or driving tester must notify the CDL Compliance Unit of all canceled tests via CSTIMS as soon as the testing unit or driving tester is aware of the cancellation. The testing unit or driving tester must notify the Department of all tests scheduled or schedule changes via CSTIMS at least three (3) days in advance of the test. Tests not administered due to weather conditions or a vehicle failure may be rescheduled with approval from a CDL Compliance Unit.
  - a) The testing unit is not permitted to schedule an applicant more than once within any ~~three (3)~~ two (2) day period.
  - b) Testing units must identify the applicant in Scheduled Comments in CSTIMS as public, employee, or student.
  - c) The test must begin within 15 minutes before and no later than 15 minutes after its scheduled time. The test begins when the driving tester reads the vehicle inspection overview to the applicant.
- 15) The testing unit must ensure that:

- a) The driving tester enters into CSTIMS all test results immediately after the completion of the test;
  - b) The test results entered into CSTIMS match the Class, Endorsements, and Restrictions of the vehicle in which the applicant has successfully completed the CDL Skills Test; and
  - c) The driving tester uploads the correct score forms into CSTIMS.
  - d) The driving tester obtains a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, and that the driving tester uploads a copy of the completed affidavit into CSTIMS.
- 16) The testing unit must administer CDL Skills Tests only on Department approved testing areas and routes.
- 17) The testing unit must ensure all three portions of the CDL Skills Test are conducted during daylight.
- 18) The testing unit must ensure the vehicle being used for testing does not have any labels or markings that indicate which components are to be inspected by an applicant during the vehicle inspection portion of the CDL Skills Test. Manufacturer labels and/or markings are permitted.
- 19) The testing unit must enter into an agreement with the Department containing, at a minimum, provisions that:
- a) allow the FMCSA, the Department, and their representatives to conduct random inspections and audits without prior notice;
  - b) allow the Department to conduct on-site inspections at least annually and as needed;
  - c) require all driving testers to meet the same training and qualifications as state examiners, to the extent necessary to conduct CDL Skills Tests in compliance with these rules and regulations;
  - d) at least annually, allow the Department at its discretion to take the tests administered by the testing unit as if the Department employee was an applicant, or test an applicant who was tested by the testing unit to compare pass-fail results; and
  - e) reserve to the Department the right to take prompt and appropriate action against any testing unit or driving tester when they fails to comply with Department or federal standards or any other provisions in the contract or the rules and regulations.
- 20) A driving tester and a testing unit shall charge fees only in accordance with section 42-2-406, C.R.S. and this rule. A driving tester and a testing unit shall only charge for tests administered.

- a) Except as otherwise provided in paragraph (b) of this subsection (20), the maximum total fee, including but not limited to any administrative fee, for administering a CDL Skills Test or retest to an applicant is two hundred seventy-five dollars (\$275.00).
  - b) The maximum total fee, including but not limited to any administrative fee, for administering a CDL Skills Test or retest to an employee or volunteer of a nonprofit organization that provides specialized transportation services for the elderly and for persons with disabilities, to any individual employed by a school district, or to any individual employed by a board of cooperative services is one hundred twenty-five dollars (\$125.00).
- 21) The testing unit must make all CDL testing records available for inspection during normal business hours.
  - 22) The testing unit must hold the state harmless from liability resulting from the administration of the CDL program.
  - 23) The testing unit must make an annual application for renewal of the unit's testing license and individual driving tester license(s) before the license expires on June 30th of each year.
  - 24) The Testing Unit must ensure that each driver to be tested has met all applicable requirements with regard to ELDT.

**J. DRIVING TESTER REQUIREMENTS**

- 1) The driving tester must possess a valid USDOT medical card and a valid CDL with the appropriate class and endorsement(s) to operate the vehicle(s) in which the CDL Skills Test is administered.
- 2) The driving tester must conduct the full CDL Skills Test in accordance with Department procedures and must use the Colorado CDL Skill Test Score Form.
- 3) The driving tester must complete all CDL third party testing forms correctly.
- 4) The driving tester must administer all portions of the CDL Skills Test in English.
- 5) Interpreters are not allowed for any portion of the CDL Skills Test.
- 6) The driving tester agrees to hold the State harmless from any liability arising from or in connection with a CDL Skills Test.
- 7) The driving tester must only test if the driving tester has a valid tester license issued by the Department.

- 8) The driving tester must test in the CDL class of vehicle or endorsement(s) group authorized by the Department.
- 9) Prior to administering the CDL Skills Test, the driving tester must ensure that the driver has in his/her immediate possession, a valid USDOT medical card, and a valid CLP for operating the class and endorsement(s), and/or restriction(s) of the vehicle being used for testing.
  - a) The driving tester must ensure that the instruction permit has been held by the applicant for at least fourteen (14) days prior to taking the skills test.
  - b) The driving tester must also ensure the applicant has in his/her immediate possession a valid driver's license and must compare the photo on the license to the applicant to verify identity.
  - c) The driving tester must obtain a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education.
- 10) The driving tester must administer the CDL Skills Test to applicants in a vehicle equal to or lower in class and/or endorsement(s), and/or restriction(s) than the applicant has on his or her CLP.
- 11) The driving tester must administer the CDL Skills Test only on Department approved testing areas and routes.
- 12) The driving tester must administer all three portions of the CDL Skills Test during daylight.
- 13) The driving tester must ensure that the vehicle in which the CDL Skills Test will be administered is in proper working and mechanical order.
- 14) The vehicle inspection, the basic vehicle control skills, and the on-road driving test must be administered by the same driving tester in sequential order with no more than a 15-minute break between each portion of the CDL Skills Test. CDL Skills Test must be scheduled to avoid a lunch break.
- 15) The Department may issue a driving tester license to a driving tester candidate upon the successful completion of the following requirements:
  - a) A testing unit must submit an application requesting that the driving tester candidate be granted a driving tester license;

- b) The driving tester candidate must be an employee of the testing unit submitting the application ~~or under contract with the testing unit submitting the application.~~
  - c) The driving tester candidate must successfully complete the 8 day new CDL third party tester's training course;
  - d) Within 30 days following the date the driving tester candidate completes the 8 day new CDL third party tester's training course, the driving tester candidate must:
    - i. Administer two (2) shadow skills tests while accompanied by a licensed driving tester who shall monitor the test and compare pass-fail results with those of the new driving tester candidate; and
    - ii. Complete the application for the fingerprint/background check.
  - e) All licensing fees must be received by the Department.
- 16) The driving tester must inform the applicant that he/she may be randomly selected for a retest as mandated by 49 CFR.
- 17) ~~The A~~ driving tester may administer a CDL Skills Test ~~as an employee of, and on behalf of, the any~~ licensed testing unit. The driving tester may administer tests for more than one unit. However, ~~the for a driving tester to conduct testing on the unit's behalf, the driving tester must be licensed under each unit to conduct testing on its behalf.~~ an employee of the testing unit submitting the application ~~or under contract with the testing unit submitting the application.~~ The driving tester must keep all CDL records separate for each testing unit.
- 18) If an applicant fails any portion(s) of the CDL Skills Test, he or she must return on a different day and perform all three (3) portions of the CDL Skills Test over again.
- 19) In order to qualify for renewal, the driving tester must administer a minimum of ten (10) CDL Skills Tests with different applicants within the twelve-month period preceding the application for renewal from the Department.
- 20) The driving tester must:
- a) Enter into CSTIMS all test results immediately after the completion of the test;
  - b) Ensure that the test results entered into CSTIMS match the Class, Endorsements, and Restrictions of vehicle in which the applicant has successfully completed the CDL Skills Test; and

- c) Upload the original correct score forms into CSTIMS.
  - d) Upload into CSTIMS the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education.
- 21) Upon leaving a testing unit, the driving tester's license may be transferred to another testing unit within three (3) months. If, **within three (3) months**, the driving tester is not employed as a driving tester at a licensed testing unit ~~within three (3) months~~ **or contracted as a driving tester with a licensed testing unit**, the tester will be required to attend a new tester training class in order to be licensed by the Department. All training and license fees will apply and are the responsibility of the tester.
- 22) The driving tester cannot administer the CDL Skills Test to an applicant with whom he/she has conducted in- vehicle skills training.
- 23) The driving tester must ensure that each driver to be tested has met all applicable requirements with regard to ELDT.

#### **K. COURSE AND ROUTE REQUIREMENTS**

- 1) A testing unit should have a paved area or a flat hard surface for the CDL vehicle inspection and for the entire basic control skills exercise area that contain:
  - a) Solid painted lines that are at least 4 inches in width and traffic cones marking the testing boundaries in accordance with Department standards.
    - i. Traffic cones, used to mark the painted testing boundaries, must be a minimum of eighteen inches in height, and the same size traffic cones must be used for each exercise. Traffic cones must be replaced when they no longer retain their original shape and color.
  - b) Boundary lines and cones clearly visible in the basic control skill exercise testing area.
    - i. The testing area boundaries must be cleared of snow, debris, and vehicles that would obstruct the applicant's view during the basic control skill exercise.
- 2) The testing unit must request and receive approval from the Department for any change(s) to the approved road test route prior to administering a CDL road test.

#### **L. RIGHTS**

- 1) The driving tester or testing unit may refuse to test an applicant. The driving tester or testing unit contact person must notify the CDL Compliance Unit if an applicant is refused a test and must refer that driver to the CDL Compliance Unit.
- 2) Government driving testers who want to test outside of their governmental testing unit may make a written request to the CDL Compliance Unit, and must receive approval from the CDL Compliance Unit prior to administering CDL Skills Tests outside of their governmental testing unit.

**M. RECORDING AND AUDITING REQUIREMENTS**

- 1) The testing unit must maintain all pass/fail records for three years. These must include the CDL Skills Testing records for each applicant tested, the dates of the testing, the applicant's identification information, a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, the vehicle information and the name and state assigned driving tester number for the driving tester who administered the test, and documentation that each driver subject to ELDT requirements has met those requirements. If a testing unit is no longer licensed, the unit must return all testing records to the Department within 30 days.
  - a) After three years, testing units must destroy all pass/fail records (shred, burn).
- 2) A testing unit must enter all (pass and fail) CDL Skills Test results into CSTIMS immediately after the test including the upload of the score form and, for each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking.
- 3) During CDL compliance audits and/or inspections, driving testers must cooperate with the Department and/or FMCSA by allowing access to testing areas and routes, furnishing CDL Skills Testing records and results, and providing other items pertinent to the mandated audit and/or inspection. The driving tester must surrender testing records upon request. The driving tester may make copies and retain copies of such records.
- 4) If the testing unit provided the vehicle for the CDL Skills Test, the testing unit will furnish the vehicle for an applicant driver selected for a retest. No fees, including any vehicle rental fees required for testing, will be collected for this mandatory evaluation. The Department is not liable during retests for any damage, injury, or expense incurred.
- 5) If the applicant tested in his/her own vehicle, the applicant will supply the vehicle for any CDL Skills Retest.

**N. BOND**

- 1) A testing unit that is not an agency of government, or a Colorado school district, must maintain a bond in the amount of \$20,000.00 with the Department pursuant 49 CFR. A surety company authorized to do business within the State of Colorado must execute the bond.
  - a) The bond must be for the use and benefit of the Department in the event of a monetary loss suffered by the Department that falls within the limitations of the bond, attributable to the willful, intentional, or negligent conduct of the testing unit or its agent(s) or employee(s).
  - b) If the amount of the bond is decreased or terminated, or if there is a final judgment outstanding on the bond, the testing unit cannot test outside their unit.
  - c) The Department must be named on the bond as the beneficiary or the bond must be held in the name of the Department.
- 2) A testing unit that is an agency of government, or any Colorado school district, that will administer CDL driving tests outside of their unit, must maintain a bond in the amount of \$5,000.00 with the Department. A surety company authorized to do business within the State of Colorado must execute the bond.
  - a) The bond must be for the use and benefit of the Department in the event of a monetary loss within the limitations of the bond, attributable to the willful, intentional or negligent conduct of the testing unit or its agent(s) or employee(s).
  - b) If the amount of the bond is decreased or terminated, or if there is a final judgment outstanding on the bond, the testing unit cannot test outside their unit.
  - c) The Department must be named on the bond as the beneficiary or the bond must be held in the name of the Department.

**O. REVOCATION, CANCELLATION, OR SUSPENSION OF TESTING UNITS AND TESTERS**

- 1) The license of a testing unit or driving tester may be suspended or revoked for willful or negligent actions that may include but are not limited to any of the following:
  - a) Misrepresentations on the application to be a testing unit or a driving tester;
  - b) Improper testing and/or certification of an applicant driver who has applied for a CDL;
  - c) Falsification of test documents or results;
  - d) Violations of CDL rules for testing units or driving testers;

- e) Failure to employ a minimum of at least one licensed CDL driving tester or contract with a minimum of one licensed CDL driving tester;
  - f) Failure to comply or cooperate in a CDL Compliance audit and record review;
  - g) Violations of the contract terms and conditions;
  - h) For any other violation of this rule or applicable state statute or federal regulation.
- 2) A testing unit or driving tester that is suspended must not perform any duties related to CDL third party testing.
  - 3) Summary Suspension: Where the Department has objective and reasonable grounds to believe and finds that a testing unit or driving tester has been guilty of a deliberate and willful violation or that the public health, safety, or welfare imperatively requires emergency action and incorporates the findings in its order, it may summarily suspend the license pending proceedings for suspension or revocation which will be promptly instituted and determined. Testing is not permitted while the license is suspended.
  - 4) Appeal Process: Any person aggrieved by the denial of issuance, denial of renewal, suspension, or revocation of a testing unit license or driving tester license is entitled to a hearing pursuant to section 42-2- 407(7), C.R.S. Except as otherwise provided in paragraph (3) of this subsection O, the request for hearing must be submitted in writing and appropriately labeled, such as "CDL Cease Testing Appeal," to the Department of Revenue, Hearings Division, 1881 Pierce Street, Room 106, Lakewood, Colorado, 80214. Subsequent appeals may be had as provided by law.

## **RULE 7 - RULES AND REGULATIONS FOR THE COMMERCIAL DRIVER'S LICENSE (CDL) PROGRAM**

### **A. BASIS, PURPOSE, AND STATUTORY AUTHORITY**

- 1) The Department is authorized to adopt rules and regulations as necessary for the Commercial Driver's License Program in accordance with sections 24-4-103, 42-2-111(1)(b), 42-2-114.5, 42-2-403, 42-2-406 (3 through 7), and 42-2-407(8), C.R.S.
- 2) The purpose of these rules is to promote the safety and welfare of the citizens of Colorado by establishing standards and requirements for licensing commercial driver's license testing units and testers, to establish fees for such licensing and maximum fees that may be charged by such testing units, to establish certain procedures and standards for issuing and possessing commercial driver's licenses, and to ensure compliance with state and federal requirements.

### **B. INCORPORATION BY REFERENCE OF FEDERAL LAW AND OTHER RULES**

- 1) Adoption: The Department incorporates by reference the Federal Motor Carrier Safety Regulations ("FMCSR"), 49 CFR parts 171, 172, and 300-399, Qualifications and Disqualification of Drivers, 42 CFR part 73, 49 U.S.C. Section 5103, 26 U.S.C. Section 501(c) (2015), and the Colorado Department of Public Safety, Colorado State Patrol, Rules and Regulations Concerning Minimum Standards for the Operation of Commercial Vehicles at 8 CCR 1507.1. Material incorporated by reference in this rule does not include later amendments to or editions of the incorporated material.
- 2) "49 CFR", when referenced in this rule, means the Federal Regulations published in the Code of Federal Regulations ("CFR"), Title 49, parts 171, 172, and 300-399 (October 1, 2016) by the National Archives and Records Administration's Office of the Federal Register and Government Publishing Office, and available at the original issuing agencies the Federal Motor Carrier Safety Administration and National Highway and Traffic Safety Administration, both located at 1200 New Jersey Avenue SE, Washington, D.C., 20590. The Federal rules and regulations referenced or incorporated in this rule, and 8 CCR 1507-1, are on file and available for inspection by contacting the Driver License Section of the Department of Revenue in person at, 1881 Pierce Street, Room 128, Lakewood, Colorado, 80214, or by telephone at 303-205-5600, and copies of the materials may be examined at any state publication depository library.

### **C. DEFINITIONS**

- 1) AAMVA: American Association of Motor Vehicle Administrators is a voluntary, nonprofit, tax exempt, educational unit that represents state and provincial officials in the United States and Canada who administer and enforce motor vehicle laws CODE OF COLORADO REGULATIONS 1 CCR 204-30 Division of Motor Vehicles.
- 2) CDL: "Commercial Driver's License" as defined in section 42-2-402(1), C.R.S.
- 3) CDL Compliance Unit: The administrative unit contained within the Department charged with the oversight and regulation of CDL third party testing units and testers on AAMVA's CDL skills testing.

- 4) CDL Passenger Vehicle: A passenger vehicle designed to transport 16 or more passengers, including the driver.
- 5) CDL Skills Test: "Driving tests" as referenced in section 42-2-402, C.R.S. and consists of the Vehicle Inspection, Basic Control Skills, and the Road Test.
- 6) CDL Vehicle Class: A group or type of vehicle with certain operating characteristics.
  - a) Class A: Any combination of vehicles which has a gross combination weight rating or gross combination weight of 11,794 kilograms or more (26,001 pounds or more) whichever is greater, inclusive of a towed unit(s) with a gross vehicle weight rating or gross vehicle weight of more than 4,536 kilograms (10,001 pounds) whichever is greater.
  - b) Class B: Any single vehicle which has a gross vehicle weight rating or gross vehicle weight of 11,794 or more kilograms (26,001 pounds or more), or any such vehicle towing a vehicle with a gross vehicle weight rating or gross vehicle weight that does not exceed 4,536 kilograms (10,001 pounds).
  - c) Class C: Any single vehicle, or combination of vehicles, that does not meet the definition of Class A or Class B, but is either designed to transport 16 or more passengers, including the driver, or is transporting material that has been designated as hazardous under 49 U.S.C. 5103 and is required to be placarded under subpart F of 49 CFR part 172 or is transporting any quantity of a material listed as a select agent or toxin in 42 CFR part 73.
- 7) CLP – Commercial Learner's Permit: The permit issued by the Department entitling the driver, while having such permit in his/her immediate possession, to drive a commercial motor vehicle of certain classes and/or endorsement(s), and/or restriction(s) upon the highways with a driver that possesses a CDL with the same class and/or endorsements or higher, as the CLP holder.
- 8) CMV: "Commercial Motor Vehicle" as defined in section 42-2-402(4), C.R.S.
- 9) C.R.S.: Colorado Revised Statutes.
- 10) CSTIMS - Commercial Skills Test Information Management System: Web-based system used by states to manage the CDL Skills Test portion of the CDL licensing process.
- 11) Disqualifications: The suspension, revocation, cancellation, or any other withdrawal by the Department of a person's privilege to drive a CMV or a determination by the FMCSA under the rules of practice for motor carrier safety contained in 49 CFR, that a person is no longer qualified to operate a CMV under 49 CFR; or the loss of qualification that automatically follows conviction of an offense listed in 49 CFR.
- 12) Designed to Transport: The manufacturer's original rated capacity for the vehicle.

- 13) ELDT: Entry Level Driver Training - FMCSA's Entry Level Driver Training (ELDT) regulations set the baseline for training requirements for entry-level drivers. This includes those applying to obtain a Class A or Class B CDL for the first time, upgrade an existing Class B CDL to a Class A CDL or obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.
- 14) Endorsements: The letter indicators below added to a CDL and/or CLP indicate successful completion of the appropriate knowledge, and if applicable, the CDL Skills Test, and allow the operation of a special configuration of vehicle(s):
- a) 3 = Three wheel motorcycle (not allowed on a CLP per 49 CFR)
  - b) H = Hazardous materials (Not allowed on a CLP per 49 CFR)
  - c) M = Motorcycle (not allowed on a CLP per 49 CFR)
  - d) N = Tank vehicles
  - e) P = CDL Passenger vehicle
  - f) S = School buses
  - g) T = Double/triple trailers (not allowed on a CLP per 49 CFR)
  - h) X = Combination of tank vehicle and hazardous materials (Not allowed on a CLP per 49 CFR)
- 15) Exemptions: Regulatory relief given to a person or class of persons normally subject to regulations.
- 16) FMCSA: Federal Motor Carrier Safety Administration is an agency within the USDOT.
- 17) FMCSR: Federal Motor Carrier Safety Regulations (49 CFR).
- 18) GCWR: Gross Combination Weight Rating is the value specified by the manufacturer as the maximum loaded weight of the combination vehicle.
- 19) Government agency: A state, county, city and county, municipality, school district, special improvement district, and every other kind of district, agency, instrumentality, or political subdivision thereof organized pursuant to law and any separate entity created by intergovernmental contract cooperation only between or among the state, county, city and county, municipality, school district, special improvement district, and every other kind of district, agency, instrumentality, or political subdivision thereof.
- 20) Intrastate Driver: A driver with a CDL restricted to operating a CMV within the boundaries of Colorado, and not authorized to transport items of interstate commerce or hazardous materials.

- 21) Interstate Commerce: Trade, traffic, or transportation in the United States between a place in a state and a place outside of such state (including a place outside of the United States), or between two places in a state through another state or a place outside of the United States, or between two places in a state as part of trade, traffic, or transportation originating or terminating outside the state or the United States.
- 22) Interstate Driver: A CDL holder authorized to cross state lines and transport interstate commerce while operating a CMV.
- 23) Intrastate Commerce: Trade, traffic, or transportation in any state that is not described in the term "interstate commerce".
- 24) Knowledge Test: A written test that meets the federal standards contained in 49 CFR.
- 25) Non-Profit: An organization filing with the United States Code 26 USC Section 501(c).
- 26) Paved Area: A paved area is a surface made up of materials and adhesive compounds of a sufficient depth and strength that the area provides a durable, solid, smooth surface upon which an applicant may demonstrate basic vehicle control skills.
- 27) Public Transportation Entity: A mass transit district or mass transit authority authorized under the laws of this state to provide transportation services to the general public.
- 28) Restrictions: Prohibits the operation of certain types of vehicles or restricts operating a CMV to within designated boundaries:
- a) E = No Manual Transmission
  - b) K = Intrastate only
  - c) L = No Air Brake equipped CMV
  - d) M = No Class A Passenger Vehicle
  - e) N = No Class A and B Passenger Vehicle
  - f) O = No Tractor-Trailer
  - g) P = No Passenger
  - h) X = No Liquid in Tank
  - i) V = Medical Variance (49 CFR)
  - j) Z = Restricted from operating a CMV with full air brakes
- 29) Self Certification Choice:

- a) Non-excepted interstate. A person's certification that he or she operates or expects to operate in interstate commerce, is both subject to and meets the qualification requirements under 49 CFR, and is required to be medically examined and certified pursuant to 49 CFR.
  - b) Excepted interstate. A person's certification must certify that he or she operates or expects to operate in interstate commerce, but engages exclusively in transportation or operations excepted under 49 CFR from all or parts of the qualification requirements of 49 CFR, and is therefore not required to be medically examined and certified pursuant to 49 CFR.
  - c) Non-excepted intrastate. A person's certification that he or she operates only in intrastate commerce and therefore is subject to Colorado driver qualification requirements.
  - d) Excepted intrastate. A person's certification must certify that he or she operates in intrastate commerce, but engages exclusively in transportation or operations excepted from all or parts of the Colorado driver qualification.
- 30) Shadow Skills Test: Administered skills tests required of the new examiner candidate.
- 31) TPR: Training Provider Registry - The Training Provider Registry supports FMCSA's goal of ensuring that only qualified drivers are behind the wheel of commercial motor vehicles (CMVs). The Registry will connect entry-level drivers with training providers who can equip them with the knowledge to safely operate CMVs for which a commercial learner's permit (CLP) or commercial driver's license (CDL) is required.
- 32) USDOT: United States Department of Transportation.

#### **D. DRIVER LICENSING REQUIREMENTS**

- 1) Each applicant applying for a CDL or CLP must be a resident of Colorado, at least 18 years of age, and comply with the testing and licensing requirements of the Department.
  - a) The CDL and CLP will indicate the class of license, any endorsements, and any restrictions for that individual. The CDL is valid for the operation of a non-CMV including a motorcycle with the appropriate motorcycle endorsement on the license.
  - b) A Colorado CDL may be issued upon surrender of a valid CDL from another state without additional testing except that an applicant must test for a hazardous material endorsement.
  - c) An applicant with an out-of-state CLP cannot transfer that CLP to Colorado but must apply for a Colorado CLP and take all applicable CDL knowledge tests (49 CFR).
- 2) Each applicant applying is required to make one of the following applicable self-certifications for the type of commercial driving the individual intends to do (49 CFR):

- a) Non-excepted interstate.
  - b) Excepted interstate.
  - c) Non-excepted intrastate.
  - d) Excepted intrastate.
- 3) Each applicant must meet the medical and physical qualifications under 49 CFR. Each applicant must submit their medical examiner's certificate and, if applicable, any federal variance or state medical waiver or skills performance evaluation to a driver license office (49 CFR).
  - 4) Each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division of the Department of Higher Education must affirm on an affidavit provided by the Department, to the testing unit that the initial applicant successfully passed training on the recognition, prevention, and reporting of human trafficking prior to taking the CDL skills test.
  - 5) Effective February 7, 2022, each applicant must complete ELDT prior to taking any applicable skills or knowledge tests including those applying to:
    - a) Obtain a Class A or Class B CDL for the first time;
    - b) Upgrade an existing Class B CDL to a Class A CDL; or
    - c) Obtain a school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time.

The ELDT regulations are not retroactive; the entry-level driver training requirements do not apply to individuals holding a valid CDL or an S, P, or H endorsement issued prior to February 7, 2022. If an applicant who obtains a CLP prior to February 7, 2022, obtains a CDL before the CLP or renewed CLP expires, the applicant is not subject to the ELDT requirements. Any individual who meets one of the exceptions for taking a skills test in [49 CFR part 383](#) is also exempt from the ELDT requirements.

## **E. ENDORSEMENTS**

- 1) T-Double/Triple Trailers: Required to operate a CMV used for drawing two or more vehicles or trailers with a GCWR that is 26,001 lbs. or more and combined GVWR of the vehicles being towed is more than 10,001 lbs.
- 2) P-Passenger: Required to operate a vehicle designed by the manufacturer to transport 16 or more passengers, including the driver.
- 3) N-Tank Vehicles: Required to operate a vehicle that hauls liquid or liquid gas in a permanently mounted cargo tank rated at 119 gallons or more or a portable tank rated at 1,000 gallons or more.

- 4) H-Hazardous Materials: Required to transport materials that require the motor vehicle to display a placard pursuant to the hazardous materials regulations.
- 5) S-School Buses: Required to operate a school bus as defined in section 42-1-102(88), C.R.S.
- 6) X-Combination Tank/Hazmat: Required to operate vehicles that meet the definition of (3) and (4) above.

**F. RESTRICTIONS**

- 1) Intrastate: The letter “K” is added to the CDL of a driver between the ages of 18 through 20, to an individual who has been issued a valid medical waiver from the Colorado State Patrol (8 CCR 1507-1) or who self- certifies to excepted or not excepted intrastate driving (49 CFR). Under this CDL restriction, the driver must not:
  - a) Operate a CMV outside Colorado state boundaries; or
  - b) Transport interstate commerce as defined in 49 CFR.

The waiver from Colorado State Patrol is valid only while the driver is transporting commodities other than bulk hazardous materials, as defined in 49 CFR or commodities with a hazard class identified in 49 CFR, or commodities subject to the “Poison by Inhalation Hazard” shipping description in 49 CFR.

- 2) Air brake: The letter “L” is added to the CDL/CLP of an individual restricted from operating vehicles equipped with air brakes.
  - a) An individual may apply for removal of the “L” restriction after having successfully completed the air brake knowledge test and the CDL Skills Test in a vehicle equipped with air brakes that is representative of the CDL vehicle class.
  - b) When taking the CDL Skills Test in a vehicle equipped with air brakes, the applicant must have in his/her immediate possession a CLP without the “L” restriction.
- 3) Transmission: The letter “E” is added to the CDL of an individual restricted from operating vehicles equipped with a standard transmission.
  - a) An individual may apply for removal of the “E” restriction after having successfully completed the CDL Skills Test in a vehicle equipped with a standard transmission that is representative of the CDL vehicle class.
  - b) When taking the CDL Skills Test in a vehicle equipped with a standard transmission, the applicant must have in his/her immediate possession a CLP without the “E” restriction.
- 4) Class B Bus: The letter “M” is added to the CDL of an individual restricted from operating a Class A Passenger vehicle (49 CFR).

- a) An individual may apply for removal of the “M” restriction after having successfully completed the CDL Skills Test in a Class A Passenger vehicle.
  - b) Before taking the CDL Skills Test in a Class A Passenger vehicle, the applicant must have in his/her immediate possession a CLP without the “M” restriction.
- 5) Class C Bus: The letter “N” is added to the CDL of an individual restricted from operating a Class B Passenger vehicle (49 CFR).
  - a) An individual may apply for removal of the “N” restriction after having successfully completed the CDL Skills Test in a Class B Passenger vehicle.
  - b) Before taking the CDL Skills Test in a Class B Passenger vehicle, the applicant must have in his/her immediate possession a CLP without the “N” restriction.
- 6) No Tractor-Trailer: The letter “O” is added to the CDL of an individual restricted from operating a vehicle equipped with a 5th wheel type coupling system (49 CFR).
  - a) An individual may apply for removal of the “O” restriction after having completed the CDL Skills Test in a tractor/semi-trailer combination vehicle equipped with a 5th wheel type coupling system.
  - b) When taking the CDL Skills Test in a tractor/semi-trailer combination vehicle equipped with a 5th wheel type coupling system, the applicant must have in his/her immediate possession a CLP without the “O” restriction.
- 7) No Passengers: The letter “P” is added to the CLP of an individual restricted from operating a Passenger vehicle with passengers.
  - a) The “P” restriction is removed by successfully completing the CDL Skills Test in a Passenger vehicle.
- 8) No Cargo in a Tank Vehicle: The letter “X” is added to the CLP of an individual restricted from operating a Tank vehicle containing liquid or gas.
  - a) An individual may apply to have the “X” restriction removed after having successfully completed the CDL Skills Test.
- 9) Medical, Variance/Skills Performance Evaluation: The letter “V” will be added to any CLP or CDL for individuals who have been issued a federal medical variance (49 CFR).
- 10) Air brake: The letter “Z” is added to the CDL/CLP of an individual restricted from operating vehicles equipped with full air brakes.
  - a) The “Z” restriction is removed by successfully completing the air brake knowledge test and the CDL Skills Test in a vehicle equipped with air brakes that is representative of the CDL vehicle class.

- b) When taking the CDL Skills Test in a vehicle equipped with air brakes, the applicant must have in his/her immediate possession a CLP without the “Z” restriction.

#### **G. EXEMPTIONS**

- 1) FMCSR 49 CFR Applicability: Authorizes the state to grant certain groups exceptions from the CDL requirements.
  - a) FMCSR – 49 CFR: Exception for individuals who operate CMVs for military purposes.
  - b) FMCSR – 49 CFR: Exception for operators of farm vehicles, as defined at section 42-2-402(4)(b)(III), C.R.S. and firefighters and other persons who operate CMVs that are necessary to the preservation of life or property, or the execution of emergency governmental functions, or that are equipped with audible and visual signals and are not subject to normal traffic regulation.
  - c) FMCSR – 49 CFR: Exception for drivers employed by an eligible unit of local government, operating a commercial motor vehicle within the boundaries of that unit for the purpose of removing snow or ice from a roadway by plowing, sanding, or salting, if the properly licensed employee who ordinarily operates a commercial motor vehicle for these purposes is unable to operate the vehicle or if the employing governmental entity determines that a snow or ice emergency exists that requires additional assistance.
  - d) FMCSR – 49 CFR: Restricted CDL for certain drivers in farm-related service industries.
- 2) FMCSR 49 CFR specifies the exceptions to the physical qualifications for individuals engaged in custom harvesting operations.

#### **H. ENTITY ELIGIBLE TO APPLY FOR A CDL TESTING UNIT LICENSE**

- 1) The Department may authorize a testing unit to administer the CDL Skills Test on behalf of the Department if such training and testing is equal to the training and testing of the Department.
- 2) A CDL Testing Unit must enter into a written contract with the Department and agree to:
  - a) Maintain an established place of business in Colorado and ensure all CMVs used for testing are properly registered, inspected for safe operating conditions at the time of exam and insured;
  - b) Maintain an adult education occupational business license with the Division of Private Occupational Schools, a division of the Colorado Department of Higher Education and be listed in the TPR; or

- c) Be a government agency, public school district, private or parochial school, or other type of pre- primary, primary, or secondary school transporting students from home to school or from school to home.

#### **I. CDL TESTING UNIT REQUIREMENTS**

- 1) An entity must apply for and receive a CDL testing unit license from the Department in order to administer CDL Skills Tests. The CDL testing unit and each driving tester license expires on June 30th of each year. The licenses for both the testing unit and driving tester(s) must be displayed in the place of business.
  - a) Testing unit and driving tester license fees are waived for non-commercial testing units and driving testers that only provide public transportation, and that do not test outside of their unit.
  - b) Public transportation entities that test outside of their unit or that do not provide public transportation only, must submit the appropriate fees.
  - c) If a license is not renewed on or before June 30th, the initial fees will apply. Testing unit and driving tester license(s) may be suspended or inactivated until appropriate fees and documentation are submitted.
  - d) Licenses can be renewed up to 60 days prior to June 30th of each year.
- 2) The testing unit is not permitted to guarantee issuance of a Commercial Driver's License or to suggest that training will guarantee issuance of a Commercial Driver's License.
- 3) Testing units must only test if they have a current testing unit license issued by the Department.
- 4) Testing units must ensure that each driving tester has a valid tester license issued by the Department when he or she administers a CDL Skills Test.
- 5) The testing unit must notify the Department in writing within 3 business days of the termination or departure from the testing unit of any driving tester.
- 6) A testing unit's place of business must be a separate establishment and may not be part of a home. The unit's physical address must not be a post office box.
- 7) The testing unit must have written permission from the landowner to administer the CDL vehicle basic control skills exercises on areas not owned by the testing unit. This written permission must be submitted to the Department for approval prior to testing and renewed annually.
- 8) The testing unit must maintain at least one employee who is licensed as a CDL driving tester or contract with at least one person who is licensed as a CDL driving tester.
- 9) The testing unit must ensure that the unit's driving tester(s) follow the Department's standards for administering the CDL Skills Test.

- 10) The testing unit must ensure that the unit's driving tester(s) complete all CDL third party testing forms correctly.
- 11) The testing unit must ensure that the unit's driving tester(s) administer the CDL Skills Test to applicants in a vehicle equal to or lower than the class and/or endorsement, and/or restriction on applicant's CDL instruction permit or CDL.
- 12) Once a new driving tester candidate has passed the required 8 day new CDL third party tester's training course, the testing unit must ensure that within thirty (30) days the new tester candidate:
  - a) Applies for his/her third party testers license;
  - b) Administers two (2) shadow skills tests while accompanied by a licensed driving tester who shall monitor the test and compare pass-fail results with those of the new driving tester candidate; and
  - c) Completes an application for the fingerprint/background check.
- 13) The testing unit is responsible for ensuring that driving testers attend all mandated training provided by the CDL Compliance Unit. Failure of driving testers to attend scheduled training may result in the suspension of testing privileges for the testing unit and the tester.
- 14) The testing unit must schedule all tests utilizing CSTIMS. The testing unit or driving tester must notify the CDL Compliance Unit of all canceled tests via CSTIMS as soon as the testing unit or driving tester is aware of the cancellation. The testing unit or driving tester must notify the Department of all tests scheduled or schedule changes via CSTIMS at least three (3) days in advance of the test. Tests not administered due to weather conditions or a vehicle failure may be rescheduled with approval from a CDL Compliance Unit.
  - a) The testing unit is not permitted to schedule an applicant more than once within any two (2) day period.
  - b) Testing units must identify the applicant in Scheduled Comments in CSTIMS as public, employee, or student.
  - c) The test must begin within 15 minutes before and no later than 15 minutes after its scheduled time. The test begins when the driving tester reads the vehicle inspection overview to the applicant.
- 15) The testing unit must ensure that:
  - a) The driving tester enters into CSTIMS all test results immediately after the completion of the test;

- b) The test results entered into CSTIMS match the Class, Endorsements, and Restrictions of the vehicle in which the applicant has successfully completed the CDL Skills Test; and
  - c) The driving tester uploads the correct score forms into CSTIMS.
  - d) The driving tester obtains a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, and that the driving tester uploads a copy of the completed affidavit into CSTIMS.
- 16) The testing unit must administer CDL Skills Tests only on Department approved testing areas and routes.
- 17) The testing unit must ensure all three portions of the CDL Skills Test are conducted during daylight.
- 18) The testing unit must ensure the vehicle being used for testing does not have any labels or markings that indicate which components are to be inspected by an applicant during the vehicle inspection portion of the CDL Skills Test. Manufacturer labels and/or markings are permitted.
- 19) The testing unit must enter into an agreement with the Department containing, at a minimum, provisions that:
  - a) allow the FMCSA, the Department, and their representatives to conduct random inspections and audits without prior notice;
  - b) allow the Department to conduct on-site inspections at least annually and as needed;
  - c) require all driving testers to meet the same training and qualifications as state examiners, to the extent necessary to conduct CDL Skills Tests in compliance with these rules and regulations;
  - d) at least annually, allow the Department at its discretion to take the tests administered by the testing unit as if the Department employee was an applicant, or test an applicant who was tested by the testing unit to compare pass-fail results; and
  - e) reserve to the Department the right to take prompt and appropriate action against any testing unit or driving tester when they fails to comply with Department or federal standards or any other provisions in the contract or the rules and regulations.
- 20) A driving tester and a testing unit shall charge fees only in accordance with section 42-2-406, C.R.S. and this rule. A driving tester and a testing unit shall only charge for tests administered.
  - a) Except as otherwise provided in paragraph (b) of this subsection (20), the maximum total fee, including but not limited to any administrative fee, for administering a CDL Skills Test or retest to an applicant is two hundred seventy-five dollars (\$275.00).

- b) The maximum total fee, including but not limited to any administrative fee, for administering a CDL Skills Test or retest to an employee or volunteer of a nonprofit organization that provides specialized transportation services for the elderly and for persons with disabilities, to any individual employed by a school district, or to any individual employed by a board of cooperative services is one hundred twenty-five dollars (\$125.00).
- 21) The testing unit must make all CDL testing records available for inspection during normal business hours.
  - 22) The testing unit must hold the state harmless from liability resulting from the administration of the CDL program.
  - 23) The testing unit must make an annual application for renewal of the unit's testing license and individual driving tester license(s) before the license expires on June 30th of each year.
  - 24) The Testing Unit must ensure that each driver to be tested has met all applicable requirements with regard to ELDT.

**J. DRIVING TESTER REQUIREMENTS**

- 1) The driving tester must possess a valid USDOT medical card and a valid CDL with the appropriate class and endorsement(s) to operate the vehicle(s) in which the CDL Skills Test is administered.
- 2) The driving tester must conduct the full CDL Skills Test in accordance with Department procedures and must use the Colorado CDL Skill Test Score Form.
- 3) The driving tester must complete all CDL third party testing forms correctly.
- 4) The driving tester must administer all portions of the CDL Skills Test in English.
- 5) Interpreters are not allowed for any portion of the CDL Skills Test.
- 6) The driving tester agrees to hold the State harmless from any liability arising from or in connection with a CDL Skills Test.
- 7) The driving tester must only test if the driving tester has a valid tester license issued by the Department.
- 8) The driving tester must test in the CDL class of vehicle or endorsement(s) group authorized by the Department.

- 9) Prior to administering the CDL Skills Test, the driving tester must ensure that the driver has in his/her immediate possession, a valid USDOT medical card, and a valid CLP for operating the class and endorsement(s), and/or restriction(s) of the vehicle being used for testing.
  - a) The driving tester must ensure that the instruction permit has been held by the applicant for at least fourteen (14) days prior to taking the skills test.
  - b) The driving tester must also ensure the applicant has in his/her immediate possession a valid driver's license and must compare the photo on the license to the applicant to verify identity.
  - c) The driving tester must obtain a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education.
- 10) The driving tester must administer the CDL Skills Test to applicants in a vehicle equal to or lower in class and/or endorsement(s), and/or restriction(s) than the applicant has on his or her CLP.
- 11) The driving tester must administer the CDL Skills Test only on Department approved testing areas and routes.
- 12) The driving tester must administer all three portions of the CDL Skills Test during daylight.
- 13) The driving tester must ensure that the vehicle in which the CDL Skills Test will be administered is in proper working and mechanical order.
- 14) The vehicle inspection, the basic vehicle control skills, and the on-road driving test must be administered by the same driving tester in sequential order with no more than a 15-minute break between each portion of the CDL Skills Test. CDL Skills Test must be scheduled to avoid a lunch break.
- 15) The Department may issue a driving tester license to a driving tester candidate upon the successful completion of the following requirements:
  - a) A testing unit must submit an application requesting that the driving tester candidate be granted a driving tester license;

- b) The driving tester candidate must be an employee of the testing unit submitting the application or under contract with the testing unit submitting the application.
  - c) The driving tester candidate must successfully complete the 8 day new CDL third party tester's training course;
  - d) Within 30 days following the date the driving tester candidate completes the 8 day new CDL third party tester's training course, the driving tester candidate must:
    - i. Administer two (2) shadow skills tests while accompanied by a licensed driving tester who shall monitor the test and compare pass-fail results with those of the new driving tester candidate; and
    - ii. Complete the application for the fingerprint/background check.
  - e) All licensing fees must be received by the Department.
- 16) The driving tester must inform the applicant that he/she may be randomly selected for a retest as mandated by 49 CFR.
- 17) A driving tester may administer a CDL Skills Test on behalf of any licensed testing unit. The driving tester may administer tests for more than one unit. However, for a driving tester to conduct testing on the unit's behalf, the driving tester must be an employee of the testing unit submitting the application or under contract with the testing unit submitting the application. The driving tester must keep all CDL records separate for each testing unit.
- 18) If an applicant fails any portion(s) of the CDL Skills Test, he or she must return on a different day and perform all three (3) portions of the CDL Skills Test over again.
- 19) In order to qualify for renewal, the driving tester must administer a minimum of ten (10) CDL Skills Tests with different applicants within the twelve-month period preceding the application for renewal from the Department.
- 20) The driving tester must:
- a) Enter into CSTIMS all test results immediately after the completion of the test;
  - b) Ensure that the test results entered into CSTIMS match the Class, Endorsements, and Restrictions of vehicle in which the applicant has successfully completed the CDL Skills Test; and
  - c) Upload the original correct score forms into CSTIMS.

- d) Upload into CSTIMS the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education.
- 21) Upon leaving a testing unit, the driving tester's license may be transferred to another testing unit within three (3) months. If, within three (3) months, the driving tester is not employed as a driving tester at a licensed testing unit or contracted as a driving tester with a licensed testing unit, the tester will be required to attend a new tester training class in order to be licensed by the Department. All training and license fees will apply and are the responsibility of the tester.
- 22) The driving tester cannot administer the CDL Skills Test to an applicant with whom he/she has conducted in- vehicle skills training.
- 23) The driving tester must ensure that each driver to be tested has met all applicable requirements with regard to ELDT.

**K. COURSE AND ROUTE REQUIREMENTS**

- 1) A testing unit should have a paved area or a flat hard surface for the CDL vehicle inspection and for the entire basic control skills exercise area that contain:
- a) Solid painted lines that are at least 4 inches in width and traffic cones marking the testing boundaries in accordance with Department standards.
    - i. Traffic cones, used to mark the painted testing boundaries, must be a minimum of eighteen inches in height, and the same size traffic cones must be used for each exercise. Traffic cones must be replaced when they no longer retain their original shape and color.
  - b) Boundary lines and cones clearly visible in the basic control skill exercise testing area.
    - i. The testing area boundaries must be cleared of snow, debris, and vehicles that would obstruct the applicant's view during the basic control skill exercise.
- 2) The testing unit must request and receive approval from the Department for any change(s) to the approved road test route prior to administering a CDL road test.

**L. RIGHTS**

- 1) The driving tester or testing unit may refuse to test an applicant. The driving tester or testing unit contact person must notify the CDL Compliance Unit if an applicant is refused a test and must refer that driver to the CDL Compliance Unit.

- 2) Government driving testers who want to test outside of their governmental testing unit may make a written request to the CDL Compliance Unit, and must receive approval from the CDL Compliance Unit prior to administering CDL Skills Tests outside of their governmental testing unit.

**M. RECORDING AND AUDITING REQUIREMENTS**

- 1) The testing unit must maintain all pass/fail records for three years. These must include the CDL Skills Testing records for each applicant tested, the dates of the testing, the applicant's identification information, a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking from each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, the vehicle information and the name and state assigned driving tester number for the driving tester who administered the test, and documentation that each driver subject to ELDT requirements has met those requirements. If a testing unit is no longer licensed, the unit must return all testing records to the Department within 30 days.
  - a) After three years, testing units must destroy all pass/fail records (shred, burn).
- 2) A testing unit must enter all (pass and fail) CDL Skills Test results into CSTIMS immediately after the test including the upload of the score form and, for each initial applicant for a Class A CDL who has attended a commercial driving school certified for approval by the Private Occupational Schools Division in the Department of Higher Education, a copy of the completed affidavit reflecting successful completion of training on the recognition, prevention, and reporting of human trafficking.
- 3) During CDL compliance audits and/or inspections, driving testers must cooperate with the Department and/or FMCSA by allowing access to testing areas and routes, furnishing CDL Skills Testing records and results, and providing other items pertinent to the mandated audit and/or inspection. The driving tester must surrender testing records upon request. The driving tester may make copies and retain copies of such records.
- 4) If the testing unit provided the vehicle for the CDL Skills Test, the testing unit will furnish the vehicle for an applicant driver selected for a retest. No fees, including any vehicle rental fees required for testing, will be collected for this mandatory evaluation. The Department is not liable during retests for any damage, injury, or expense incurred.
- 5) If the applicant tested in his/her own vehicle, the applicant will supply the vehicle for any CDL Skills Retest.

**N. BOND**

- 1) A testing unit that is not an agency of government, or a Colorado school district, must maintain a bond in the amount of \$20,000.00 with the Department pursuant 49 CFR. A surety company authorized to do business within the State of Colorado must execute the bond.

- a) The bond must be for the use and benefit of the Department in the event of a monetary loss suffered by the Department that falls within the limitations of the bond, attributable to the willful, intentional, or negligent conduct of the testing unit or its agent(s) or employee(s).
  - b) If the amount of the bond is decreased or terminated, or if there is a final judgment outstanding on the bond, the testing unit cannot test outside their unit.
  - c) The Department must be named on the bond as the beneficiary or the bond must be held in the name of the Department.
- 2) A testing unit that is an agency of government, or any Colorado school district, that will administer CDL driving tests outside of their unit, must maintain a bond in the amount of \$5,000.00 with the Department. A surety company authorized to do business within the State of Colorado must execute the bond.
  - a) The bond must be for the use and benefit of the Department in the event of a monetary loss within the limitations of the bond, attributable to the willful, intentional or negligent conduct of the testing unit or its agent(s) or employee(s).
  - b) If the amount of the bond is decreased or terminated, or if there is a final judgment outstanding on the bond, the testing unit cannot test outside their unit.
  - c) The Department must be named on the bond as the beneficiary or the bond must be held in the name of the Department.

**O. REVOCATION, CANCELLATION, OR SUSPENSION OF TESTING UNITS AND TESTERS**

- 1) The license of a testing unit or driving tester may be suspended or revoked for willful or negligent actions that may include but are not limited to any of the following:
  - a) Misrepresentations on the application to be a testing unit or a driving tester;
  - b) Improper testing and/or certification of an applicant driver who has applied for a CDL;
  - c) Falsification of test documents or results;
  - d) Violations of CDL rules for testing units or driving testers;
  - e) Failure to employ a minimum of at least one licensed CDL driving tester or contract with a minimum of one licensed CDL driving tester;

- f) Failure to comply or cooperate in a CDL Compliance audit and record review;
  - g) Violations of the contract terms and conditions;
  - h) For any other violation of this rule or applicable state statute or federal regulation.
- 2) A testing unit or driving tester that is suspended must not perform any duties related to CDL third party testing.
- 3) Summary Suspension: Where the Department has objective and reasonable grounds to believe and finds that a testing unit or driving tester has been guilty of a deliberate and willful violation or that the public health, safety, or welfare imperatively requires emergency action and incorporates the findings in its order, it may summarily suspend the license pending proceedings for suspension or revocation which will be promptly instituted and determined. Testing is not permitted while the license is suspended.
- 4) Appeal Process: Any person aggrieved by the denial of issuance, denial of renewal, suspension, or revocation of a testing unit license or driving tester license is entitled to a hearing pursuant to section 42-2- 407(7), C.R.S. Except as otherwise provided in paragraph (3) of this subsection O, the request for hearing must be submitted in writing and appropriately labeled, such as "CDL Cease Testing Appeal," to the Department of Revenue, Hearings Division, 1881 Pierce Street, Room 106, Lakewood, Colorado, 80214. Subsequent appeals may be had as provided by law.

## DEPARTMENT OF REVENUE

### Division of Motor Vehicles

#### 1 CCR 204-30, Rule 14. VENDOR CONTRACTS FOR THE BULK ELECTRONIC TRANSFER OF DEPARTMENT RECORDS

##### Authority

This rule is promulgated in accordance with the State Administrative Procedures Act, section 24-4-101 et seq., C.R.S. and adopted pursuant to the authority in sections 24-72-204, 24-72-102, 24-74-103, 24-74-105, 24-74-106, 42-1-204 C.R.S., and 42-1-206(3.7) C.R.S.

##### Scope and Purpose

A. This rule governs annual contracts between the department and vendors and the department and primary users for the purpose of establishing, regulating, and maintaining the bulk electronic transfer of Records and Information.

B. This rule does not apply to any federal, state, or local governmental agency that receives Data Records and/or Information directly from the department.

##### 1.0 Definitions

“Colorado Drives (“DRIVES”)” means the information technology system defined in section 42-1-102(16.5), C.R.S.

~~“Data” means a subset of Information.~~

“Personal Identifying Information” (“PII”) is defined in section 24-74-102(1), C.R.S.

“Primary User” means a person or entity having access to DRIVES through the Third-Party Access Portal.

~~“Records and/or Information” means the total of all files, updated files, or portions thereof, that the department is permitted by law to release through a bulk electronic transfer.~~ means all files, updated files, or portions thereof, including PII, that the department is permitted by law to release through a bulk electronic transfer to the approved Vendor.

“State Agency” is a state agency as defined in section 24-74-102(3), C.R.S.

~~“Sub-Vendor” means any person or entity who enters into an agreement with a vendor to receive Data. A primary user of Data may also be a Sub-Vendor.~~ means any person or entity who enters into an agreement with the approved DMV Vendor to receive Records and/or Information through a sub-contract.

“Third-Party” is defined in section 24-74-102(5), C.R.S.

“Vendor” is defined in section 42-1-102(112.5), C.R.S.

##### 2.0 Contract Requirements

A. The department will not transfer Information to a vendor or primary user unless the Vendor or Primary User has executed a contract with the department in accordance with section 42-1- 206(3.7), C.R.S. and signed a Third-Party Entity/Organization Certification for Access PII through a database or automated network form.

B. A contract between the department and a Vendor shall provide that ~~include provisions that ensure that the Vendor agrees not to transfer Records or Information no Data will be transferred~~ to a Sub-Vendor unless the Sub-Vendor has ~~provided the vendor, and the vendor has approved, a form, DR-2489, completed and the Vendor has approved a Requestor Release and Affidavit of Intended Use (DR 2489) and a Bulk Records and/or Crash Data Search/Transfer Application (DR 2523), in which the Sub-Vendor~~ and has agreed that it will not use the Data PII in a manner prohibited by law.

C. ~~C.R.S. 24-74-105 "Protect Personal Identifying Information Kept By State"~~ prohibits a state agency from disclosing or making accessible personal identifying information to any individual, agency, or official for the purpose of enforcing, cooperating, or assisting in federal immigration enforcement, except as required by federal or state law or as required to comply with a court-issued subpoena, warrant, or order that is not related to prosecution for a violation of specified provisions of federal law. ~~Vendors and Sub-Vendors will now be required to review a "USE and DISCLOSURE" statement on the DR-2675 Form, End-User License Agreement (EULA) to complete under the Agency section. The vendor and subvendor(s) will be required to review and complete the agreement annually on an agency and individual end-user level, ensuring continued compliance. The department may grant a Primary User access to Records or Information only if the Primary User has signed a Third Party Individual Certification For Access To PII through a database or automated network form and an End-User License Agreement (DR-2675) within the last calendar year, certifying that it will not use PII for the purpose of investigating for, participating in, cooperating with, or assisting Federal Immigration Enforcement, and that it will not disclose personal identifying information obtained from the department to individuals or entities engaged in investigating for, participating in, cooperating with, or assisting in Federal immigration in a manner prohibited by law.~~

<b>REQUIRED:</b> Per §24-74-105 C.R.S., I agree that the third party will not USE or DISCLOSE personal identifying information obtained from the database or automated network for the purpose of investigating for, participating in, cooperating with, or assisting in Federal Immigration Enforcement, including enforcement of civil immigration laws and 8 U.S.C. SEC. 1325 or 1326, unless required by Federal or State Law or to comply with the attached court-issued subpoena, warrant, or order. <input type="checkbox"/> Yes <input type="checkbox"/> No

**Location**

1500 E. 128th Ave., Thornton, CO 80241 or Webinar

**Subjects and issues involved**

The Educational Stability Grant Program, which was created in House Bill 18-1306, provides funding for services and supports for highly mobile students to remove educational barriers. The department recommends amendments to the rules to align the rule language for the grant program with the new statutory language from Senate Bill 22-140, Concerning Expansion of Experiential Learning Opportunities. The bill updated the requirements for applications to the Education Stability Grant Program, including the requirement for applicants to describe engagement in academic supports, such as work-based learning.

## **DEPARTMENT OF EDUCATION**

### **Colorado State Board of Education**

#### **RULES FOR THE ADMINISTRATION OF THE EDUCATIONAL STABILITY GRANT PROGRAM FOR HIGHLY MOBILE STUDENTS**

##### **1 CCR 301-104**

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

### **0.0 STATEMENT OF BASIS AND PURPOSE**

The Educational Stability Grant Program, 22-32-138.5, C.R.S., requires the State Board of Education to adopt rules for the implementation of the grant program. At a minimum, the rules must include timelines and procedures associated with the application process and information to be included in the grant applications.

### **1.0 DEFINITIONS**

- 1.1 "County department" has the same meaning as provided in section 19-1-103 (32), C.R.S.
- 1.2 "Department of education" means the department of education created in section 24-1-115, C.R.S.
- 1.3 "Division of youth services placement facilities" means a secure facility or contract community residential program of the division of youth services in the state department of human services.
- 1.4 "Education provider" means a school district, the state charter school institute, or a board of cooperative educational services that operates a school, public school of a school district, a school operated by a board of cooperative educational services pursuant to article 5 of title 22, C.R.S., an institute charter school authorized pursuant to part 5 of article 30.5 of title 22, C.R.S., a state-licensed day treatment facility, an approved facility school as defined in section 22-2-402 (1), C.R.S.
- 1.5 "Highly mobile students" means children or youth who at any time during the academic year were homeless, as defined in section 22-1-102.5, C.R.S; were in noncertified kinship care, as defined in section 19-1-103, C.R.S; were students in out-of-home placement, as defined in section 22-32-138(1)(h), C.R.S.; or were migrant children, as defined in section 22-23-103, C.R.S.
- 1.6 "Student in out-of-home placement" means a student who at any time during an academic term is in foster care and receiving educational services through a state-licensed day treatment facility, who is otherwise in placement out of the home as that term is defined in section 19-1-103 (85), C.R.S. or who is in placement outside of the home as a result of an adjudication pursuant to article 2 of title 19, C.R.S. It includes a child or youth who transfers enrollment as a result of being returned to his or her home at the conclusion of out-of-home placement.

**2.0 IMPLEMENTATION OF THE EDUCATIONAL STABILITY GRANT PROGRAM**

- 2.1 The department of education shall create and administer the educational stability grant program to provide grant money to education providers to use in providing academic and social-emotional services and supports to highly mobile students.
- 2.2 Subject to available appropriations, commencing with the 2019-20 fiscal year, the Colorado State Board of Education shall award educational stability grants to eligible applicants, which include preschool, elementary, and secondary education providers from money appropriated from the educational stability grant program fund.

**3.0 AWARD PROCESS**

- 3.1 Each education provider that seeks a grant under these rules must submit an application to the department of education in accordance with these rules.
- 3.2 The department of education shall review the applications received and recommend recipients and grant amounts to the state board. The state board shall annually award grants after considering the department's recommendations.
- 3.3 In recommending awards to the state board, the department may consider geographic distribution, scope of problem, and results of annual program review as described in section 5 of these rules in addition to the application information required as a part of section 4.3 of these rules.
- 3.3.1 The department will outline specific priorities, duration of grants, and scoring criteria as part of the request for proposal process.

**4.0 TIMELINE AND PROCEDURE**

- 4.1 The timeline is only in effect based on the availability of funds.
- 4.2 Grant applications shall be submitted to the department of education by June 30, 2019 and by June 30 in subsequent years in which the grant is funded.
- 4.3 Each grant application submitted must include:
- 4.3.1 The number of highly mobile students the education provider served in the previous school year. These data may be requested from the department of education;
- 4.3.2 A description of services to be provided through the grant, including a description of innovative practices to address barriers for students. Such description may emphasize innovative practices that address barriers and increase opportunities for highly mobile students, including collaboration with school-community partnerships, division of youth services placement facilities, or county agencies; and specialized academic and career planning for students served by the grant;
- 4.3.3 A description of the need for the services funded by the grant. The description should include, as appropriate, data analysis reflecting the stated needs, such as a needs assessment, analysis of contributing community conditions, analysis of academic performance factors, or gap analysis for the population to be served by the grant;

- 4.3.4 An estimated cost of services that would be funded by the grant;
- 4.3.5 An explanation of the criteria that will be used to measure the effectiveness of the services;
- 4.3.6 A description of the education provider's existing policies and practices relating to the transfer of student records between education providers;
- 4.3.7 A description of the education provider's collaboration with county departments to make best-interest determinations and to provide any necessary transportation and services when needed as outlined in section 22-32-138, C.R.S.;
- 4.3.8 A description of the services the education provider will provide for highly mobile students who receive special education services. Such description should include, at a minimum, the education provider's plans to review, update, and implement Individual Education Plans (IEPs) and Section 504 plans;
- 4.3.9 A description of practices to allow access to extracurricular activities for highly mobile students and, in particular, for highly mobile students who receive special education services;
- 4.3.10 A description of the transition practices relating to school moves for highly mobile students. Such description may include details on the education provider's student induction programs, policies for immediate records transfer of highly mobile students, or new student orientation procedures;
- 4.3.11 A description of how the education provider will promote engagement in academic supports, such as work-based learning. "Work-based learning" has the same meaning as set forth in section 8-83-601(15), C.R.S.; and
- 4.3.12 If previously awarded funds under this grant program, a description of how the previously funded services have been sustained in the time period between the end of the first grant and application for additional funds and a description of the effectiveness of services provided with previous funding.

## **5.0 ANNUAL REVIEW AND REPORTING**

- 5.1 On or before March 31 of each year for which grants are to be distributed, the department of education shall evaluate the educational stability services provided by each education provider that received a grant in the preceding fiscal year.
- 5.2 At a minimum, the department of education shall review the outcomes and effectiveness of services provided as measured by the demonstrated degree of educational stability. The analysis of the degree of educational stability should examine:
  - 5.2.1 The improvement in school attendance;
  - 5.2.2 The reduction in behavioral and discipline incidents;
  - 5.2.3 The increase in grade-level promotion;

- 5.2.4 The reduction in the dropout rate; and
- 5.2.5 The increase in the graduation and completion rates for the grant recipients' schools.
- 5.3 The department of education shall report the evaluation results to the education committees of the senate and of the house of representatives, or any successor committees, in conjunction with the report on Dropout Prevention and Student Re-Engagement submitted pursuant to section 22-14-111, C.R.S.

## DEPARTMENT OF EDUCATION

### Colorado State Board of Education

## RULES FOR THE ADMINISTRATION OF THE EDUCATIONAL STABILITY GRANT PROGRAM FOR HIGHLY MOBILE STUDENTS

### 1 CCR 301-104

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

#### 0.0 STATEMENT OF BASIS AND PURPOSE

The Educational Stability Grant Program, 22-32-138.5, C.R.S., requires the State Board of Education to adopt rules for the implementation of the grant program. At a minimum, the rules must include timelines and procedures associated with the application process and information to be included in the grant applications.

#### 1.0 DEFINITIONS

- 1.1 "County department" has the same meaning as provided in section 19-1-103 (32), C.R.S.
- 1.2 "Department of education" means the department of education created in section 24-1-115, C.R.S.
- 1.3 "Division of youth services placement facilities" means a secure facility or contract community residential program of the division of youth services in the state department of human services.
- 1.4 "Education provider" means a school district, the state charter school institute, or a board of cooperative educational services that operates a school, public school of a school district, a school operated by a board of cooperative educational services pursuant to article 5 of title 22, C.R.S., an institute charter school authorized pursuant to part 5 of article 30.5 of title 22, C.R.S., a state-licensed day treatment facility, an approved facility school as defined in section 22-2-402 (1), C.R.S.
- 1.5 "Highly mobile students" means children or youth who at any time during the academic year were homeless, as defined in section 22-1-102.5, C.R.S.; were in noncertified kinship care, as defined in section 19-1-103, C.R.S.; were students in out-of-home placement, as defined in section 22-32-138(1)(h), C.R.S.; or were migrant children, as defined in section 22-23-103, C.R.S.
- 1.6 "Student in out-of-home placement" means a student who at any time during an academic term is in foster care and receiving educational services through a state-licensed day treatment facility, who is otherwise in placement out of the home as that term is defined in section 19-1-103 (85), C.R.S. or who is in placement outside of the home as a result of an adjudication pursuant to article 2 of title 19, C.R.S. It includes a child or youth who transfers enrollment as a result of being returned to his or her home at the conclusion of out-of-home placement.

**2.0 IMPLEMENTATION OF THE EDUCATIONAL STABILITY GRANT PROGRAM**

- 2.1 The department of education shall create and administer the educational stability grant program to provide grant money to education providers to use in providing academic and social-emotional services and supports to highly mobile students.
- 2.2 Subject to available appropriations, commencing with the 2019-20 fiscal year, the Colorado State Board of Education shall award educational stability grants to eligible applicants, which include preschool, elementary, and secondary education providers from money appropriated from the educational stability grant program fund.

**3.0 AWARD PROCESS**

- 3.1 Each education provider that seeks a grant under these rules must submit an application to the department of education in accordance with these rules.
- 3.2 The department of education shall review the applications received and recommend recipients and grant amounts to the state board. The state board shall annually award grants after considering the department's recommendations.
- 3.3 In recommending awards to the state board, the department may consider geographic distribution, scope of problem, and results of annual program review as described in section 5 of these rules in addition to the application information required as a part of section 4.3 of these rules.
- 3.3.1 The department will outline specific priorities, duration of grants, and scoring criteria as part of the request for proposal process.

**4.0 TIMELINE AND PROCEDURE**

- 4.1 The timeline is only in effect based on the availability of funds.
- 4.2 Grant applications shall be submitted to the department of education by June 30, 2019 and by June 30 in subsequent years in which the grant is funded.
- 4.3 Each grant application submitted must include:
- 4.3.1 The number of highly mobile students the education provider served in the previous school year. These data may be requested from the department of education;
- 4.3.2 A description of services to be provided through the grant, including a description of innovative practices to address barriers for students. Such description may emphasize innovative practices that address barriers and increase opportunities for highly mobile students, including collaboration with school-community partnerships, division of youth services placement facilities, or county agencies; and specialized academic and career planning for students served by the grant;
- 4.3.3 A description of the need for the services funded by the grant. The description should include, as appropriate, data analysis reflecting the stated needs, such as a needs assessment, analysis of contributing community conditions, analysis of academic performance factors, or gap analysis for the population to be served by the grant;

- 4.3.4 An estimated cost ~~to provide the of~~ services that would be funded by the grant;
- 4.3.5 An explanation of the criteria that will be used to measure the effectiveness of the services;
- 4.3.6 A description of the education provider's existing policies and practices relating to the transfer of student records between education providers;
- 4.3.7 A description of the education provider's collaboration with county departments to make best-interest determinations and to provide any necessary transportation and services when needed as outlined in section 22-32-138, C.R.S.;
- 4.3.8 A description of the services the education provider will provide for highly mobile students ~~in out-of-home placement~~ who receive special education services. Such description should include, at a minimum, the education provider's plans to review, update, and implement Individual Education Plans (IEPs) and Section 504 plans;
- 4.3.9 A description of practices ~~used to eliminate barriers that lead to increased participation in to allow access to~~ extracurricular activities for highly mobile students and, in particular, for highly mobile students who receive special education services;
- 4.3.10 A description of the transition practices relating to school moves for highly mobile students. Such description may include details on the education provider's student induction programs, policies for immediate records transfer of highly mobile students ~~in out-of-home placement~~, or new student orientation procedures; ~~and~~
- 4.3.11 A description of how the education provider will promote engagement in academic supports, such as work-based learning. "Work-based learning" has the same meaning as set forth in section 8-83-601(15), C.R.S; and
- 4.3.12 If previously awarded funds under this grant program, a description of how the previously funded services have been sustained in the time period between the end of the first grant and application for additional funds and a description of the effectiveness of services provided with previous funding.

## 5.0 ANNUAL REVIEW AND REPORTING

- 5.1 On or before March 31 of each year for which grants are to be distributed, the department of education shall evaluate the educational stability services provided by each education provider that received a grant in the preceding fiscal year.
- 5.2 At a minimum, the department of education shall review the outcomes and effectiveness of services provided as measured by the demonstrated degree of educational stability. The analysis of the degree of educational stability should examine:
  - 5.2.1 The improvement in school attendance;
  - 5.2.2 The reduction in behavioral and discipline incidents;
  - 5.2.3 The increase in grade-level promotion;

- 5.2.4 The reduction in the dropout rate; and
- 5.2.5 The increase in the graduation and completion rates for the grant recipients' schools.
- 5.3 The department of education shall report the evaluation results to the education committees of the senate and of the house of representatives, or any successor committees, in conjunction with the report on Dropout Prevention and Student Re-Engagement submitted pursuant to section 22-14-111, C.R.S.

## DEPARTMENT OF EDUCATION

### Division of Public School Capital Construction Assistance

#### BUILDING EXCELLENT SCHOOLS TODAY GRANT PROGRAM

#### 1 CCR 303-3

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

#### Authority

§ 22-43.7-106(2)(i)(I) C.R.S., the Public School Capital Construction Assistance Board may promulgate rules, in accordance with Article 4 of Title 24, C.R.S., as are necessary and proper for the administration of the BEST Act.

#### Scope and Purpose

This regulation shall govern the Building Excellent Schools Today (BEST) Public School Capital Construction Assistance Program pursuant to the BEST Act.

#### 1. Definitions

- 1.1. "Applicant" means an entity that submits an Application for Financial Assistance to the Board, including:
  - 1.1.1. A School District;
  - 1.1.2. A District Charter School;
  - 1.1.3. An Institute Charter School;
  - 1.1.4. A Board of Cooperative Educational Services (BOCES);
  - 1.1.5. The Colorado School for the Deaf and Blind.
- 1.2. "Application" means the Application for Financial Assistance submitted by an Applicant.
- 1.3. "Assistance Fund" means the public school capital construction assistance fund created in § 22-43.7-104(1) C.R.S.
- 1.4. "Authorizer" means the School District that authorized the charter contract of a Charter School or, in the case of an Institute Charter School, as defined in § 22-43.7-106(1) C.R.S., the State Charter School Institute created and existing pursuant to § 22-30.5-502(6) C.R.S.
- 1.5. "BEST Act" means § 22-43.7-101 C.R.S. et seq.
- 1.6. "BEST Lease-purchase Funding" means funding from a sublease-purchase agreement entered into between the state and an entity as described in 2.1 pursuant to § 22-43.7-110(2) C.R.S.
- 1.7. "BEST Cash Grant" means cash funding as a matching grant.

- 1.8. "BEST Emergency Grant" means a request for Financial Assistance in connection with a Public School Facility Emergency.
- 1.9. "Board" means the Public School Capital Construction Assistance Board created in § 22-43.7-106 (1) C.R.S.
- 1.10. "Board of Cooperative Educational Services" or "BOCES" means a Board of Cooperative Services created and existing pursuant to § 22-5-104 C.R.S. that is eligible to receive State moneys pursuant to § 22-5-114 C.R.S.
- 1.11. "Capital Construction" has the same meaning as set forth in § 24-30-1301 (2); C.R.S. except that the term also includes technology, as defined in § 22-43.7-109 (5)(a)(I)(B)
- 1.12. "Capital Renewal Reserve" means moneys set aside by an Applicant that has received an award for a project for the specific purpose of replacing major Public School Facility systems with projected life cycles such as, but not limited to, roofs, interior finishes, electrical systems and heating, ventilating, and air conditioning systems.
- 1.13. "Charter School" means a Charter School as described in § 22-54-124 (1)(f.6)(I)(A) or (1)(f.6)(I)(B) C.R.S.
- 1.14. "Eligible Charter School" means a qualified charter school that is eligible for the Loan Program as defined in § 22-30.5-408(1)(c) C.R.S. and authorized to receive financial assistance pursuant to 22-43.7-103(7) C.R.S.
- 1.15. "Division" means the Division of Public School Capital Construction Assistance created in § 22-43.7-105 C.R.S.
- 1.16. "Financial Assistance" means BEST Cash Grants; BEST Lease-purchase Funding; BEST Emergency Grants; funding provided as matching grants by the Board from the Assistance Fund to an Applicant; or any other expenditure made from the Assistance Fund for the purpose of financing Public School Facility Capital Construction as authorized by the BEST Act.
- 1.17. "Grantee" means a School District, Charter School, Institute Charter School, BOCES or the Colorado School for the Deaf and Blind that has applied for Financial Assistance and received an award.
- 1.18. "Institute Charter School" means a Charter School chartered by the Colorado State Charter School Institute pursuant to § 22-30.5-507 C.R.S.
- 1.19. "Loan Program" means the charter school matching moneys loan program pursuant to 22-43.7-110.5 C.R.S.
- 1.20. "Matching Moneys" means moneys required to be used directly to pay a portion of the costs of a Public School Facility Capital Construction project by an Applicant as a condition of an award of Financial Assistance to the Applicant pursuant to § 22-43.7-109 (9) C.R.S and/or 22-43.7-110(2) C.R.S.
- 1.21. "Project" means the Capital Construction Project for which Financial Assistance is being requested.

- 1.22. "Public School Facility" means a building or portion of a building used for educational purposes by a School District, Charter School, Institute Charter School, a Board of Cooperative Education Services, the Colorado School for the Deaf and Blind created and existing pursuant to § 22-80-102(1)(a) C.R.S., including but not limited to school sites, classrooms, data centers, libraries and media centers, cafeterias and kitchens, auditoriums, multipurpose rooms, and other multi-use spaces; except that "Public School Facility" does not include a learning center, as defined in § 22-30.7-102(4) C.R.S., that is not used for any other public school purpose and is not part of a building otherwise owned, or leased in its entirety, by a School District, a Board of Cooperative Education Services, a Charter School, Institute Charter School, or the Colorado School for the Deaf and Blind for educational purposes.
- 1.23. "Public School Facility Construction Guidelines" means Public School Facility Construction Guidelines as established in § 22-43.7-107 C.R.S.
- 1.24. "Public School Facility Emergency" means an unanticipated event that makes all or a significant portion of a Public School Facility unusable for educational purposes or poses an imminent threat to the health or safety of persons using the Public School Facility.
- 1.25. "School District" means a School District, other than a junior or community college district, organized and existing pursuant to law in Colorado pursuant to § 22-43.7-103 (14) C.R.S.
- 1.26. "State Board" means the State Board of Education created and existing pursuant to section 1 of article IX of the State Constitution.
- 1.27. "Statewide Assessment" means the Financial Assistance priority assessment conducted pursuant to § 22-43.7-108 C.R.S.

## **2. Eligibility**

- 2.1. The following entities are eligible to apply for Financial Assistance:
  - 2.1.1. A School District;
  - 2.1.2. A District Charter School or individual school of a School District if the school applies through the School District in which the school is located. The School District shall forward the Application from a Charter School or individual school of a School District to the Division with its comments;
  - 2.1.3. An Institute Charter School;
  - 2.1.4. A Board of Cooperative Educational Services (BOCES);
  - 2.1.5. The Colorado School for the Deaf and Blind.
- 2.2. The Board may only provide Financial Assistance for a Project for a Public School Facility that the Applicant owns or will have the right to own in the future under the terms of a lease-purchase agreement with the owner of the facility or a sublease-purchase agreement with the state entered into pursuant to § 22-43.7-110(2) C.R.S.
- 2.3. The Board, with the support of the Division and subject to the approval of the State Board and the lessor of the property, may provide financial assistance as specified in this section to an applicant that is operating or will operate in the next budget year in a leased facility that is:
  - 2.3.1. Listed on the state inventory of real property and improvements and other capital assets maintained by the Office of the State Architect pursuant to § 24-30-1303.5, C.R.S.; or

- 2.3.2. State-owned property leased by the State Board of Land Commissioners, described in § 36-1-101.5, C.R.S., to the applicant.
- 2.3.3. An award of financial assistance must be used to preserve or enhance the value of state-owned, leased property.
- 2.4. The Board may only provide financial assistance for a capital construction project for a public school in existence for at least three years at any time before the Board receives an application for financial assistance.
- 2.5. For a BEST Emergency Grant, the Applicant shall be operating in the Public School Facility for which Financial Assistance is requested.

### **3. Assistance Board**

#### **3.1. Conflict of Interest**

##### **3.1.1. In regard to Board members providing information to potential Applicants:**

- 3.1.1.1. Board members shall exercise caution when responding to requests for information regarding potential Applications, especially in regard to questions that may increase the chances that the Board would give a favorable recommendation on an Application or Project.

##### **3.1.2. If a potential or actual conflict of interest occurs with a Board member, the Board member will complete a Conflict of Interest disclosure form and it will be presented at the following CCAB meeting. The Division shall document the date of the disclosure, the name of the board member and conflict disclosed, and the documented disclosure shall be retained and made available at all board meetings which evaluation of applications or voting occurs.**

##### **3.1.3. Board members, and their firms, shall not present their position on the Board to School Districts, Charter Schools, Institute Charter Schools, BOCES, or the Colorado School for the Deaf and Blind as an advantage for using their firm over other firms in a bid to provide services on any capital construction project.**

##### **3.1.4. In regard to Board members avoiding potential conflicts of interest in evaluation of and voting on Applications:**

- 3.1.4.1. If a Board member's firm has no prior involvement regarding the Project included in an Application and the Board member does not have a direct or indirect substantial financial interest in an Application, the Board member may appropriately vote on the Application, but may not bid or work on the Project. The Board member's firm may bid or work on the Project, so long as the Board member plays no role in the entire procurement process and the Board member discloses any conflict of interest;

- 3.1.4.2. No Board member shall participate in the Board's evaluation process, including voting, for any Application when the Board member has a direct or indirect substantial financial interest in the Project or Application or the Board member's firm has had prior involvement with the Applicant directly related to the Project or Application;

3.1.4.3. At all times Board members must exercise judgment and caution to avoid conflicts of interest and/or appearance of impropriety, and should inform the Division staff of any questionable situation that may arise. A Board member may recuse himself or herself from any vote.

3.1.4.4. Board members shall be aware of and comply with the Colorado Code of Ethics, § 24-18-108.5(2), C.R.S., and shall not perform any official act which may have a direct economic benefit on a business or other undertaking in which the member has a direct or substantial financial interest.

3.1.4.4.1. A financial interest means a substantial interest held by an individual which is (i) an ownership interest in a business, (ii) a creditor interest in an insolvent business, (iii) an employment or prospective employment for which negotiations have begun, (iv) an ownership interest in real or personal property, (v) a loan or any other, or (vi) a directorship or officer ship in a business.

3.1.4.4.2. An official action means any vote decision, recommendation, approval, disapproval or other action, including inaction, which involves the use of discretionary authority.

3.1.5. In cases where a Board member has violated the conflict of interest policy as determined by the board chair, the Division Director will notify the Board member's appointing authority of the violation in writing. In the event of a conflict involving the board chair, the vice-chair will make the determination.

#### **4. Matching Requirement**

4.1. Except as provided below in section 4.2, Financial Assistance may be provided only if the Applicant provides Matching Moneys in an amount equal to a percentage of the total cost of the Project determined by the Board after consideration of the Applicant's financial capacity, based on the following factors:

4.1.1. With respect to a School District's Application for Financial Assistance:

4.1.1.1. The School District's assessed value per pupil relative to the state average;

4.1.1.2. The School District's median household income relative to the state average;

4.1.1.3. The School District's bond redemption fund mill levy relative to the statewide average;

4.1.1.4. The percentage of pupils enrolled in the School District who are eligible for free or reduced-cost lunch;

4.1.1.5. The school district's current available bond capacity remaining;

4.1.1.6. The school district's unreserved fund balance as a percentage of its annual budget; and

- 4.1.1.7. The amount of effort put forth by the School District to obtain voter approval for a ballot question for bonded indebtedness, including but not limited to, a ballot question for entry by the district into a sublease-purchase agreement of the type that constitutes an indebtedness of the district pursuant to § 22-32-127 C.R.S., during the ten years preceding the year in which the district submitted the Application, which factor may be used only to reduce the percentage of Matching Moneys required from a district that has put forth such effort and not to increase the amount of Matching Moneys required from any district;
- 4.1.1.8. A School District shall not be required to provide any amount of Matching Moneys in excess of the difference between the School District's limit of bonded indebtedness, as calculated pursuant to § 22-42-104 C.R.S., and the total amount of outstanding bonded indebtedness already incurred by the School District.
- 4.1.2. With respect to a Board of Cooperative Education Services' Application for Financial Assistance:
  - 4.1.2.1. The average assessed value per pupil of all members of the Board of Cooperative Education Services participating in the Project relative to the state average;
  - 4.1.2.2. The average median household income of all members of the Board of Cooperative Education Services participating in the Project relative to the state average;
  - 4.1.2.3. The average bond redemption fund mill levy of all members of the Board of Cooperative Education Services participating in the Project relative to the statewide average;
  - 4.1.2.4. The percentage of pupils enrolled in the member schools within the Board of Cooperative Education Services that are participating in the Project who are eligible for free or reduced-cost lunch;
  - 4.1.2.5. The average available bond capacity remaining of all members of the board of cooperative services participating in the capital construction project;
  - 4.1.2.6. The average unreserved fund balance as a percentage of the annual budget of all members of the board of cooperative services participating in the capital construction project; and
  - 4.1.2.7. The amount of effort put forth by the members of the Board of Cooperative Education Services to obtain voter approval for a ballot question for bonded indebtedness, including but not limited to a ballot question for entry by any member into a sublease-purchase agreement of the type that constitutes an indebtedness of the member pursuant to § 22-32-127 C.R.S., during the ten years preceding the year in which the Board of Cooperative Education Services submitted the Application, which factor may be used only to reduce the percentage of Matching Moneys required from a Board of Cooperative Education Services whose members, or any of them, have put forth such effort and not to increase the amount of Matching Moneys required from any Board of Cooperative Education Services.

- 4.1.3. With respect to a Charter School's Application for Financial Assistance:
  - 4.1.3.1. The weighted average of the match percentages for the school districts of residence for the students enrolled in a district charter school or fifty percent of the average of the match percentages for all school districts in the state for an institute charter school;
  - 4.1.3.2. Whether the charter school's authorizer retains no more than ten percent of its capacity to issue bonds;
  - 4.1.3.3. Whether the charter school is operating in a district-owned facility at the time it submits its application;
  - 4.1.3.4. In the ten years preceding the year in which the charter school submits the application, the number of times the charter school has attempted to obtain or has obtained:
    - 4.1.3.4.1. Bond proceeds pursuant to 22-30.5-404 C.R.S through inclusion in a ballot measure submitted by the charter school's authorizer to the registered electors of the school district;
    - 4.1.3.4.2. Proceeds from a special mill levy for capital needs pursuant to 22-30.5-405 C.R.S.;
    - 4.1.3.4.3. Grant funding for capital needs from a source other than the assistance fund; and
    - 4.1.3.4.4. Funding for capital construction from bonds issued on its behalf by the Colorado Educational and Cultural Facilities authority created and existing pursuant to 23-15-104(1)(a), C.R.S., or from some other source of financing.
  - 4.1.3.5. If the charter school is a district charter school, the student enrollment of the charter school as a percentage of the student enrollment of the charter school's authorizing school district.
  - 4.1.3.6. The percentage of students enrolled in the charter school who are eligible for the federal free and reduced-cost lunch program in relation to the overall percentage of students enrolled in the public schools in the State who are eligible for the federal free and reduced-cost lunch program.
  - 4.1.3.7. The percentage of the per pupil revenue received by the charter school that the charter school spends on facility costs other than facilities operations and maintenance.
  - 4.1.3.8. The charter school's unreserved fund balance as a percentage of its annual budget.
  - 4.1.3.9. The match percentage for a charter school calculated based on the above criteria shall not be higher than the highest match percentage for a school district, or lower than the lowest match percentage for a school district, in the same grant cycle.

4.2. Waiver or reduction of Matching Moneys

- 4.2.1. An Applicant may apply to the Board for a waiver or reduction of the Matching Moneys requirement. Such application shall discuss unique issues demonstrating why the percentage is not representative of the Applicant's current financial state. The Board may grant a waiver or reduction if it determines:
  - 4.2.1.1. That the waiver or reduction would significantly enhance educational opportunity and quality within a School District, Board of Cooperative Education Services, or Applicant school,
  - 4.2.1.2. That the cost of complying with the Matching Moneys requirement would significantly limit educational opportunities within a School District, Board of Cooperative Education Services, or Applicant school, or
  - 4.2.1.3. That extenuating circumstances deemed significant by the Board make a waiver appropriate.
- 4.2.2. An applicant must complete a waiver application and submit it to the Board in conjunction with their grant application. The waiver application shall explain issues and impacts in detail, including dollar amounts of the issues and impacts, and demonstrate why each of the factors used to calculate their Matching Moneys percentage are not representative of their actual financial capacity. The Board will determine the merit of the waiver by evaluating each wavier application using the prescribed wavier application evaluation tool.

4.3. Charter School matching moneys Loan Program.

- 4.3.1. The Charter School matching moneys Loan Program will assist Eligible Charter Schools in obtaining the Matching Moneys requirement for an award of Financial Assistance pursuant to 22-43.7-109 C.R.S.
- 4.3.2. An Eligible Charter School that chooses to seek a loan through the Loan Program shall apply to the Board to receive a loan.
- 4.3.3. To be an Eligible Charter School for the Loan Program means a Charter School that is described in § 22-30.5-104 or an Institute Charter School as that term is defined in § 22-30.5-502 has a stand-alone credit assessment or rating of at least investment grade by a nationally recognized rating agency at the time of issuance of any qualified Charter School bonds on behalf of the Charter School by the Colorado educational and cultural facilities authority pursuant to the "Colorado Educational and Cultural Facilities Authority Act", article 15 of title 23, C.R.S., and that has been certified as a qualified Charter School by the State Treasurer.
- 4.3.4. The Board may approve a loan for an Eligible Charter School in an amount that does not exceed fifty percent of the amount of Matching Moneys calculated for the Eligible Charter School pursuant to 22-43.7-109(9)(c) C.R.S.
- 4.3.5. If a loan is approved by the Board the project will be considered as a BEST Lease-Purchase project pursuant to 22-43.7-110.5(2)(b)C.R.S., and the proposed project must be one that is financeable.

- 4.3.6. The Board shall direct the State Treasurer to include the amount of a loan approved pursuant to the terms in the Lease-Purchase agreement entered into pursuant to 22-43.7-110 (2) C.R.S. to provide Financial Assistance to the Eligible Charter School for which the loan is approved.
- 4.3.7. Charter School Loan Program application
  - 4.3.7.1. An application for a loan shall include:
    - 4.3.7.1.1. Basic contact information, justification for seeking a BEST loan and documentation of a stand-alone credit assessment or rating of at least investment grade by a nationally recognized rating agency for the Charter School;
    - 4.3.7.1.2. Identify the Charter Schools current facilities and indicate if those facilities are owned, leased or in a lease-purchase agreement;
    - 4.3.7.1.3. A current credit disclosure statement along, any business notes payable or reviews, notices or warnings from the Charter School's authorizer;
    - 4.3.7.1.4. Financial information to include internal financial statements, CPA Audits and IRS 990's for the previous three years. Detailed operating budget for the current and next year. The Charter School's projected operating budget for the next five years. Enrollment figures for the previous three years, the current year and the following three years;
    - 4.3.7.1.5. CDE listed minimum match requirement for the BEST grant;
    - 4.3.7.1.6. Amount of total match provided by the Charter School for the BEST grant;
    - 4.3.7.1.7. Amount of the loan request for the BEST grant;
    - 4.3.7.1.8. A loan application from a Charter School shall include signatures of the District Superintendent, School Board Officer, and the Charter School Director;
    - 4.3.7.1.9. A loan application from an Institute Charter School shall include signatures of the Charter School Institute Director and the Institute Charter School Director;
    - 4.3.7.1.10. Applications that are incomplete may be rejected without further review.
- 4.3.8. Charter School Loan Program deadline for submission
  - 4.3.8.1. The loan application, along with any supporting material, shall be submitted with the BEST grant application on or before the BEST grant application due date.
  - 4.3.8.2. An application will not be accepted unless it is received in the Board office by 4:30 p.m. on or before the deadline date determined by the board.
  - 4.3.8.3. The Board may, in its sole discretion and upon a showing of good cause in written request from an Applicant, extend the deadline for filing an Application.

- 4.3.9. To receive a loan through the Loan Program, an Eligible Charter School shall:
  - 4.3.9.1. Authorize the State Treasurer to withhold moneys payable to the Eligible Charter School in the amount of the loan payments pursuant to 22-30.5-406 C.R.S.;
  - 4.3.9.2. Pay an interest rate on the loan that is equal to the interest rate paid by the State Treasurer on the Lease-Purchase agreement entered into pursuant to 22-43.7-110 C.R.S. to provide Financial Assistance to the Eligible Charter School for which the loan is approved;
  - 4.3.9.3. Amortize the loan payments over the same period in years as the Lease-Purchase agreement entered into pursuant to 22-43.7-110 C.R.S. to provide Financial Assistance to the Eligible Charter School for which the loan is approved; except that the Eligible Charter School may pay the full amount of the loan early without incurring a prepayment penalty; and
  - 4.3.9.4. Create an escrow account for the benefit of the state with a balance in the amount of six months of loan payments.

## **5. Applications**

- 5.1. Deadline for submission
  - 5.1.1. Except as provided below, Applications shall be filed with the Board on or before a date determined by the Board.
  - 5.1.2. An Application will not be accepted unless it is received in the Board office by 4:00 p.m. on or before the deadline date determined by the Board. This does not apply to an Application in connection with a Public School Facility Emergency;
  - 5.1.3. The Board may, in its sole discretion and upon a showing of good cause in a written request from an Applicant, extend the deadline for filing an Application.
- 5.2. The Board prefers Applications to be in electronic form, but one hard copy to the Board office is acceptable. Each Application shall be in a form prescribed by the Board and shall include, but not be limited to, the following (with supporting documentation):
  - 5.2.1. A description of the scope and nature of the Project;
  - 5.2.2. A description of the architectural, functional, and construction standards that are to be applied to the Project that indicates whether the standards are consistent with the Construction Guidelines and provides an explanation for the use of any standard that is not consistent with the Construction Guidelines;
  - 5.2.3. The estimated amount of Financial Assistance needed for the Project and the form and amount of Matching Moneys that the Applicant will provide for the Project;
  - 5.2.4. If the Project involves the construction of a new Public School Facility or a major renovation of an existing Public School Facility, a demonstration of the ability and willingness of the Applicant to renew the Project over time that includes, at a minimum, the establishment of a capital renewal budget and a commitment to make annual contributions to a Capital Renewal Reserve within a School District's capital reserve fund or any functionally similar reserve fund separately maintained by an Applicant that is not a School District;

- 5.2.5. If the Application is for Financial Assistance for the renovation, reconstruction, expansion, or replacement of an existing Public School Facility, a description of the condition of the Public School Facility at the time the Applicant purchased or completed the construction of the Public School Facility and, if the Public School Facility was not new or was not adequate at that time, the rationale of the Applicant for purchasing the Public School Facility or constructing it in the manner in which it did;
- 5.2.6. A statement regarding the means by which the Applicant intends to provide Matching Moneys required for the project, including but not limited to voter-approved multiple-fiscal year debt or other financial obligations, utility cost savings associated with any utility costs-savings contract, as defined in § 24-30-2001 (6), gifts, grants, donations, or any other means of financing permitted by law, or the intent of the Applicant to seek a waiver of the Matching Moneys requirement. If an Applicant that is a School District or a Board of Cooperative Educational Services with a participating School District intends to raise Matching Moneys by obtaining voter approval to enter into a sublease-purchase agreement that constitutes an indebtedness of the district as pursuant to § 22-32-127 C.R.S., it shall indicate whether it has received the required voter approval or, if the election has not already been held, the anticipated date of the election;
- 5.2.7. A description of any efforts by the Applicant to coordinate Capital Construction projects with local governmental entities or community-based or other organizations that provide facilities or services that benefit the community in order to more efficiently or effectively provide such facilities or services, including but not limited to a description of any financial commitment received from any such entity or organization that will allow better leveraging of any Financial Assistance awarded;
- 5.2.8. If deemed relevant by the applicant, a statement of the applicant's annualized utility costs, including electricity, natural gas, propane, water, sewer, waste removal, telecommunications, internet, or other monthly billed utility services, and the amount of any reduction in such costs expected to result if the applicant receives financial assistance;
- 5.2.9. A copy of any existing Master Plan or facility assessment relating to the facility(ies) for which Financial Assistance is sought;
- 5.2.10. If the Application is for Financial Assistance for either the construction of a new Public School Facility that will replace one or more existing Public School Facilities or the reconstruction or expansion of an existing Public School Facility and if the Applicant will stop using an existing Public School Facility for its current use if it receives the Grant, the Applicant will include a plan for the future use or disposition of the existing Public School Facility and the estimated cost of implementing the plan.
- 5.2.11. Any other information that the Board may require for the evaluation of the project;
- 5.2.12. An Application from a School District shall include signatures of the Superintendent and a District Board Officer;
- 5.2.13. An Application from a Charter School shall include signatures of the District Superintendent, School Board Officer, and the Charter School Director;
- 5.2.14. An Application from an Institute Charter School shall include signatures of the Charter School Institute Director and the Institute Charter School Director;
- 5.2.15. An Application from a Board of Cooperative Educational Services shall include signatures of the BOCES Director and a BOCES Board Officer;

5.2.16. An Application from the Colorado School for the Deaf and Blind shall include signatures of the Colorado School for the Deaf and Blind Director and a Colorado School for the Deaf and Blind Board Officer.

**5.3. BEST Lease-Purchase Funding**

5.3.1. In addition to the information required in section 5.2 above, the Applicant shall agree to provide any necessary documentation related to securing the lease-purchase agreement.

**5.4. BEST Emergency Grants**

5.4.1. Applicant shall contact the Division by phone, fax, or email. Appropriate follow up documentation will be determined based on type and severity of emergency, including financial need.

5.4.2. In the event the Governor declares a disaster emergency, pursuant to § 24-33.5-704(4) C.R.S., the Division shall, as soon as possible following the declaration of the disaster emergency, contact each affected school facility in any area of the State in which the Governor declared the disaster emergency to assess any facility needs resulting from the declared disaster emergency.

5.4.2.1. The Division must report its findings to the Board as soon as possible following its outreach.

5.4.2.2. In determining whether to recommend to the State Board that Emergency Financial Assistance be provided, the Board shall consider the findings that the Division provided to the Board.

5.4.3. The Board shall meet within fifteen days of receiving the Application for a BEST Emergency Grant to determine whether to recommend to the State Board that emergency Financial Assistance be provided, the amount of any assistance recommended to be provided, and any conditions that the Applicant shall meet to receive the assistance.

5.5. Applications that are incomplete may be rejected without further review.

5.6. The Board may request supplementation of an Application with additional information or supporting documentation.

**6. Application Review**

**6.1. Time for Review**

6.1.1. The Board, with the support of the Division, will review the Applications;

6.1.2. The Board will submit the prioritized list of Projects to the State Board for which the Board is recommending Financial Assistance according to the timeline established by the Board;

6.1.3. In the case of Financial Assistance that involves lease-purchase agreements, the prioritized list is subject to both the preliminary approval of the state board and the final approval of the capital development committee.

6.1.4. The Board may, in its discretion, extend these deadlines.

- 6.2. The Board, taking into consideration the Statewide Financial Assistance Priority Assessment, conducted pursuant to § 22-43.7-108 shall prioritize and determine the type and amount of the grant or matching grant for Applications for Projects deemed eligible for Financial Assistance based on the following criteria, in descending order of importance:
  - 6.2.1. Projects that will address safety hazards or health concerns at existing Public School Facilities, including concerns relating to Public School Facility security, and projects that are designed to incorporate technology into the educational environment
  - 6.2.2. As used in § 22-43.7-109(5)(a)(1), “technology” means hardware, devices, or equipment necessary for individual student learning and classroom instruction, including access to electronic instructional materials, or necessary for professional use by a classroom teacher.
    - 6.2.2.1. In prioritizing an Application for a Public School Facility renovation project that will address safety hazards or health concerns, the Board shall consider the condition of the entire Public School Facility for which the project is proposed and determine whether it would be more fiscally prudent to replace the entire facility than to provide Financial Assistance for the renovation project.
  - 6.2.3. Projects that will relieve overcrowding in Public School Facilities, including but not limited to projects that will allow students to move from temporary instructional facilities into permanent facilities, and.
  - 6.2.4. Projects that will provide career and technical education capital construction in public school facilities; and
  - 6.2.5. Projects that assist public schools to replace prohibited American Indian mascots as required by Section 22-1-133
  - 6.2.6. All other projects.
  - 6.2.7. Among other considerations, the Board may take into account the following in reviewing Applications:
    - 6.2.7.1. The amount of the matching contribution being provided in excess of or less than the minimum;
    - 6.2.7.2. Whether the Applicant has been placed on financial watch by the Colorado Department of Education;
    - 6.2.7.3. Overall condition of the Applicant’s existing facilities;
    - 6.2.7.4. The project cost per pupil based on number of pupils affected by the proposed Project;
    - 6.2.7.5. The project life cycle.
    - 6.2.7.6. The Public School Facility’s Facility Condition Index (FCI), Colorado Facility Index (CFI), school priority score and construction guidelines score.
    - 6.2.7.7. The Applicants ability to help itself, including available bonding capacity, planning and criteria in sections 4.1.1 or 4.1.2 or 4.1.3.
- 6.3. Additional actions the Board may take when reviewing an Application:

- 6.3.1. The Board may modify the amount of Financial Assistance requested or modify the amount of Matching Moneys required; **and**
  - 6.3.2. The Board may recommend funding a **P**project in its entirety or recommend a partial award to the **P**project;
    - 6.3.2.1. If a **P**project is partially funded a written explanation will be provided.
    - 6.3.2.2. **If the Board recommends partial funding for a Project and the Applicant declines such funding, the Board will deem the Applicant to have withdrawn its Application.**
  - 6.4. The Board shall submit to the State Board the prioritized list of Projects. **~~The prioritized list shall include:~~**
    - 6.4.1. The **prioritized list shall include** the Board's recommendation to the State Board as to the amount of Financial Assistance to be provided to each Applicant approved by the Board to receive funding and whether the assistance should be in the form of a BEST Cash Grant, BEST Lease-purchase Funding or a BEST Emergency Grant.
    - 6.4.2. **When funding State Board-approved alternate Projects, the Board may offer funding to a Project in its entirety or may offer a partial award, based on available appropriations. If the Board offers partial funding to a Project and the Applicant declines such funding, the Board will deem the Applicant to have withdrawn solely for purposes of allowing the next-highest priority alternate Projects to be funded.**
  - 6.5. In considering the amount of each recommended award of Financial Assistance, the Board shall seek to be as equitable as practical in considering the total financial capacity of each Applicant.
- 7. BEST Lease-purchase Funding**
- 7.1. Subject to the following limitations, the Board may instruct the State Treasurer to enter into lease-purchase agreements on behalf of the state to provide Lease-purchase Funding for Projects for which the State Board has authorized provision of Financial Assistance.
  - 7.2. Whenever the State Treasurer enters into a lease-purchase agreement pursuant to § 22-43.7-110 C.R.S., the Applicant that will use the facility funded with the Lease-purchase Funding shall enter into a sublease-purchase agreement with the state that includes, but is not limited to, the following requirements:
    - 7.2.1. The Applicant shall perform all the duties of the state to maintain and operate the Public School Facility that are required by the lease-purchase agreement;
    - 7.2.2. The Applicant shall make periodic rental payments to the state, which payments shall be credited to the Assistance Fund as Matching Moneys of the Applicant;
    - 7.2.3. Ownership of the Public School Facility shall be transferred by the state to the Applicant upon fulfillment of both the state's obligations under the lease-purchase agreement and the Applicant's obligations under the sublease-purchase agreement.
- 8. Payment and Oversight**
- 8.1. Payment.

- 8.1.1. All Cash Grant Financial Assistance Grantees must sign a grant contract with CDE outlining the terms and conditions associated with the Financial Assistance.
- 8.1.2. All Financial Assistance awarded is expressly conditioned on the availability of funds.
- 8.1.3. Payment of Financial Assistance will be on a draw basis. As a Grantee expends funds on a Project, the Grantee may submit a request for funds to the Division on a fund request form provided by the Division. The fund request shall be accompanied by copies of invoices from the vendors for which reimbursement is being requested and any other documentation requested by the Division.
  - 8.1.3.1. The Division will review the fund request and make payment. Payments will only be made for work that is included in the Project scope of work defined in the Application.
  - 8.1.3.2. If the Grantee is a School District, request for payment shall come from the School District. Requests will not be accepted from individual School District schools.
  - 8.1.3.3. If the Grantee is a District Charter School, request for payment shall come from the School District. Payment shall be made to the School District and the School District shall make payment to the charter school. The School District may not retain any portion of the moneys for any reason.
  - 8.1.3.4. If the Grantee is an Institute Charter School, request for payment shall come from the Charter School Institute and the Charter School Institute shall make payment to the Institute Charter School. Payment shall be made directly to the Charter School Institute.
  - 8.1.3.5. If the Grantee is a Board of Cooperative Educational Services, request for payment shall come from the Board of Cooperative Educational Services. Requests will not be accepted from individual Board of Cooperative Educational Services schools.
  - 8.1.3.6. If the Grantee is the Colorado School for the Deaf and Blind, request for payment shall come from the Colorado School for the Deaf and Blind.
- 8.1.4. Payment of BEST Lease-purchase Funding will be determined by the terms of the lease-purchase agreement and any subsequent sublease-purchase agreements.
- ~~8.1.5. Each grant cycle the Board may make a motion to authorize up to 5% of the assistance fund dollars be used to address grant reserves for projects awarded in that given year.~~
  - ~~8.1.5.1. Grant reserve requests shall be submitted on a Division provided application;~~
  - ~~8.1.5.2. Grant reserve applications will be submitted to the Board as an action item at the board meeting following the date the grant reserve application was submitted to the Division.~~
  - ~~8.1.5.3. Grant reserve draws shall be limited to issues that were unforeseen, unanticipated and could not have been known about or planned for at the time the Application was submitted.~~

8.2. Oversight

- 8.2.1. When a Grantee completes Project, it shall submit a final report to the Division on a Division provided form before final payment will be made. Once the final report is submitted and final payment is made, the Project shall be considered closed.
- 8.2.2. If a Grantee has not used all Financial Assistance on a closed out BEST Cash Grant, the unused balance will be returned to the Assistance Fund.
- 8.2.3. If a Grantee has not used all Financial Assistance on a closed out Lease-Purchase Grant, the unused balance will be treated in accordance with the Board policy on returning Matching Moneys.
- 8.2.4. The Division may make site visits to review Project progress or to review a completed Project;
- 8.2.5. The Division may require a Grantee to hire additional independent professional construction management to represent the Applicant's interests, if the Division deems it necessary due to the size of the Project, the complexity of the Project, or the Grantee's ability to manage the Project with Grantee personnel.
- 8.2.6. Upon completion of a new school, major renovation or addition Project, the Grantee shall affix a permanent sign that reads: "Funding for this school was provided through the Building Excellent Schools Today Program from local matching dollars, Colorado State Land Board, School Trust Lands, the Colorado Lottery, and excise taxes." with modifications if waived in writing by the Division.

## **9. Technical Consultation**

- 9.1. The Division will provide technical consultation and administrative services to School Districts, Charter Schools, Institute Charter Schools, BOCES and the Colorado School for the Deaf and Blind.

---

**RULE-MAKING NOTICE  
PARKS AND WILDLIFE COMMISSION MEETING  
November 17-18, 2022**

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **November 17-18, 2022**. **The Parks and Wildlife Commission meeting will be held at Gateway Canyons Resort at 43200 CO-141, Gateway, CO 81522. For up-to-date information on the meeting, please refer to the Parks and Wildlife Commission website: <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>. The public is encouraged to comment before the meeting by submitting written comments to the Commission's email address at: [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).**

**Comment deadlines:** Written comments will be accepted at any time. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

**November 3, 2022**, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **November 4, 2022**.

Comments received by the Division between noon on **November 3, 2022** and noon on **November 10, 2022**, will be provided to the Commission two business days before the meeting. Comments received after noon on **November 10, 2022** will be held and shared with the Commission as part of the subsequent meeting mailing.

More information on submitting public comments is available at:  
<https://cpw.state.co.us/aboutus/Pages/Submit-Public-Comments.aspx>.

**The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-105, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

**FINAL REGULATORY ADOPTION** – **November 17-18, 2022**, beginning at **8:00 a.m.\***

**EFFECTIVE DATE OF REGULATIONS** approved during the November 2022 Parks and Wildlife Commission meeting: January 1, 2023, unless otherwise noted.

**FINAL REGULATIONS**

**PARK REGULATIONS**

**Chapter P-3 - "River Outfitters" - 2 CCR 405-3**

Open for final consideration of the following:

- Revising personal floatation device types to match U.S. Coast Guard changes.

*\*Please reference the Commission agenda, to be posted on or after November 7, 2022, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>.*

## **Chapter P-7 - “Passes, Permits and Registrations” - 2 CCR 405-7**

Open for final consideration of the following:

- Modifications to the Centennial pass.
- Removing the high-use fee at certain parks, and changing the daily vehicle pass fee to be \$10.00 at all parks.
- Removing Panorama Point, at Golden Gate Canyon, from the designated event facility list.
- Revising regulations to provide discounted camping rates for seniors who purchase the non-motor vehicle individual annual pass and adopting regulation for the replacement of a lost or stolen non-motor vehicle individual annual pass.

## **WILDLIFE REGULATIONS**

**Chapter W-0 - “General Provisions” 2 CCR 406-0, and those related provisions of Chapter W-2 (“Big Game” 2 CCR 406-2), Chapter W-3 (“Furbearers and Small Game, Except Migratory Birds” 2 CCR 406-3), Chapter W-11 (“Wildlife Parks and Unregulated Wildlife” 2 CCR 406-11), Chapter W-15 (“Division Agents” 2 CCR 406-15), and Chapter P-7 (“Passes, Permits and Registrations” – 2 CCR 405-7) necessary to accommodate changes to or ensure consistency with Chapter W-0**

Open for final consideration of the following:

- Revising license fees and license agent commission rates according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index.
- Revising a Bighorn Sheep Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifications to the low-income annual Colorado State Wildlife Area pass.

## **Chapter W-1- “Fishing” 2 CCR 406-1**

Open for final consideration of the following:

- Revising the walleye bag and possession limits at Rifle Gap.
- Revising a fishing restriction in Vallecito Creek from the CR 501 Bridge to the standing water line of Vallecito Reservoir.

These Chapter W-1 - Fishing regulations will become effective April 1, 2023.

## **Chapter W-2- “Big Game” 2 CCR 406-2**

Open for final consideration of the following:

- Revising Game Management Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifying the limited license application and drawing allocation processes for deer, elk, pronghorn and bear to include a rolling three-year average for licenses requiring ten or more preference points.

## **Chapter W-3 - “Furbearers and Small Game, except Migratory Birds” 2 CCR 406-3**

Open for final consideration of the following:

- Expanding the southwest youth extended season for fall turkey to all available Game Management Units (GMU) in the state.
- Adopting regulation to allow air gun hunting of turkey in the fall and late seasons.
- Annual changes to turkey seasons and quotas.

## **ISSUES IDENTIFICATION**

### **WILDLIFE REGULATIONS**

#### **Chapter W-0 - “General Provisions” 2 CCR 406-0**

Open for annual review of the entire chapter, including but not limited to, Game Management Unit boundary modifications, regulations relating to fish management, health, importation, prohibited species, and other annual changes.

#### **Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-0 (“General Provisions” 2 CCR 406-0) necessary to accommodate changes to or ensure consistency with Chapter W-2**

Open for annual review of the entire chapter, including, but not limited to:

- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, bighorn sheep, mountain goat, mountain lion, and bear.

**Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.**

**Viewing of Proposed Rules:** copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection online at <https://cpw.state.co.us/aboutus/pages/commission.aspx> and copies can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing Hilary Hernandez at [hilary.hernandez@state.co.us](mailto:hilary.hernandez@state.co.us) at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

**Modification of Proposed Rules prior to adoption:** subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

**Opportunity to submit alternate proposals and provide comment:** the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally, if time permits, at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be e-mailed to [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).

#### **Use of Consent Agenda:**

In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a “Consent Agenda” for this meeting.

*The process for placing matters on the Consent Agenda is as follows:*

*The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.*

*Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.*

**OTHER AGENDA ITEMS:** The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda can be viewed on the Division of Parks and Wildlife's internet home page at <https://cpw.state.co.us>, on or after **November 7, 2022**.

**RULE-MAKING NOTICE  
PARKS AND WILDLIFE COMMISSION MEETING  
November 17-18, 2022**

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **November 17-18, 2022**. **The Parks and Wildlife Commission meeting will be held at Gateway Canyons Resort at 43200 CO-141, Gateway, CO 81522. For up-to-date information on the meeting, please refer to the Parks and Wildlife Commission website: <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>. The public is encouraged to comment before the meeting by submitting written comments to the Commission's email address at: [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).**

**Comment deadlines:** Written comments will be accepted at any time. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

**November 3, 2022**, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **November 4, 2022**.

Comments received by the Division between noon on **November 3, 2022** and noon on **November 10, 2022**, will be provided to the Commission two business days before the meeting. Comments received after noon on **November 10, 2022** will be held and shared with the Commission as part of the subsequent meeting mailing.

More information on submitting public comments is available at:  
<https://cpw.state.co.us/aboutus/Pages/Submit-Public-Comments.aspx>.

**The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-105, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

**FINAL REGULATORY ADOPTION** – **November 17-18, 2022**, beginning at **8:00 a.m.\***

**EFFECTIVE DATE OF REGULATIONS** approved during the November 2022 Parks and Wildlife Commission meeting: January 1, 2023, unless otherwise noted.

**FINAL REGULATIONS**

**PARK REGULATIONS**

**Chapter P-3 - "River Outfitters" - 2 CCR 405-3**

Open for final consideration of the following:

- Revising personal floatation device types to match U.S. Coast Guard changes.

*\*Please reference the Commission agenda, to be posted on or after November 7, 2022, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>.*

## **Chapter P-7 - “Passes, Permits and Registrations” - 2 CCR 405-7**

Open for final consideration of the following:

- Modifications to the Centennial pass.
- Removing the high-use fee at certain parks, and changing the daily vehicle pass fee to be \$10.00 at all parks.
- Removing Panorama Point, at Golden Gate Canyon, from the designated event facility list.
- Revising regulations to provide discounted camping rates for seniors who purchase the non-motor vehicle individual annual pass and adopting regulation for the replacement of a lost or stolen non-motor vehicle individual annual pass.

## **WILDLIFE REGULATIONS**

**Chapter W-0 - “General Provisions” 2 CCR 406-0, and those related provisions of Chapter W-2 (“Big Game” 2 CCR 406-2), Chapter W-3 (“Furbearers and Small Game, Except Migratory Birds” 2 CCR 406-3), Chapter W-11 (“Wildlife Parks and Unregulated Wildlife” 2 CCR 406-11), Chapter W-15 (“Division Agents” 2 CCR 406-15), and Chapter P-7 (“Passes, Permits and Registrations” – 2 CCR 405-7) necessary to accommodate changes to or ensure consistency with Chapter W-0**

Open for final consideration of the following:

- Revising license fees and license agent commission rates according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index.
- Revising a Bighorn Sheep Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifications to the low-income annual Colorado State Wildlife Area pass.

## **Chapter W-1- “Fishing” 2 CCR 406-1**

Open for final consideration of the following:

- Revising the walleye bag and possession limits at Rifle Gap.
- Revising a fishing restriction in Vallecito Creek from the CR 501 Bridge to the standing water line of Vallecito Reservoir.

These Chapter W-1 - Fishing regulations will become effective April 1, 2023.

## **Chapter W-2- “Big Game” 2 CCR 406-2**

Open for final consideration of the following:

- Revising Game Management Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifying the limited license application and drawing allocation processes for deer, elk, pronghorn and bear to include a rolling three-year average for licenses requiring ten or more preference points.

## **Chapter W-3 - “Furbearers and Small Game, except Migratory Birds” 2 CCR 406-3**

Open for final consideration of the following:

- Expanding the southwest youth extended season for fall turkey to all available Game Management Units (GMU) in the state.
- Adopting regulation to allow air gun hunting of turkey in the fall and late seasons.
- Annual changes to turkey seasons and quotas.

## **ISSUES IDENTIFICATION**

### **WILDLIFE REGULATIONS**

#### **Chapter W-0 - “General Provisions” 2 CCR 406-0**

Open for annual review of the entire chapter, including but not limited to, Game Management Unit boundary modifications, regulations relating to fish management, health, importation, prohibited species, and other annual changes.

#### **Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-0 (“General Provisions” 2 CCR 406-0) necessary to accommodate changes to or ensure consistency with Chapter W-2**

Open for annual review of the entire chapter, including, but not limited to:

- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, bighorn sheep, mountain goat, mountain lion, and bear.

**Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.**

**Viewing of Proposed Rules:** copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection online at <https://cpw.state.co.us/aboutus/pages/commission.aspx> and copies can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing Hilary Hernandez at [hilary.hernandez@state.co.us](mailto:hilary.hernandez@state.co.us) at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

**Modification of Proposed Rules prior to adoption:** subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

**Opportunity to submit alternate proposals and provide comment:** the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally, if time permits, at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be e-mailed to [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).

#### **Use of Consent Agenda:**

In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a “Consent Agenda” for this meeting.

*The process for placing matters on the Consent Agenda is as follows:*

*The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.*

*Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.*

**OTHER AGENDA ITEMS:** The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. Comments received after noon on **November 10, 2022** will be held and shared with the Commission as part of the subsequent meeting mailing.

More information on submitting public comments is available at:  
<https://cpw.state.co.us/aboutus/Pages/Submit-Public-Comments.aspx>.

**The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-105, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

**FINAL REGULATORY ADOPTION** – **November 17-18, 2022**, beginning at **8:00 a.m.\***

**EFFECTIVE DATE OF REGULATIONS** approved during the November 2022 Parks and Wildlife Commission meeting: January 1, 2023, unless otherwise noted.

**FINAL REGULATIONS**

**PARK REGULATIONS**

**Chapter P-3 - "River Outfitters" - 2 CCR 405-3**

Open for final consideration of the following:

- Revising personal floatation device types to match U.S. Coast Guard changes.

*\*Please reference the Commission agenda, to be posted on or after November 7, 2022, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>.*

## **Chapter P-7 - “Passes, Permits and Registrations” - 2 CCR 405-7**

Open for final consideration of the following:

- Modifications to the Centennial pass.
- Removing the high-use fee at certain parks, and changing the daily vehicle pass fee to be \$10.00 at all parks.
- Removing Panorama Point, at Golden Gate Canyon, from the designated event facility list.
- Revising regulations to provide discounted camping rates for seniors who purchase the non-motor vehicle individual annual pass and adopting regulation for the replacement of a lost or stolen non-motor vehicle individual annual pass.

## **WILDLIFE REGULATIONS**

**Chapter W-0 - “General Provisions” 2 CCR 406-0, and those related provisions of Chapter W-2 (“Big Game” 2 CCR 406-2), Chapter W-3 (“Furbearers and Small Game, Except Migratory Birds” 2 CCR 406-3), Chapter W-11 (“Wildlife Parks and Unregulated Wildlife” 2 CCR 406-11), Chapter W-15 (“Division Agents” 2 CCR 406-15), and Chapter P-7 (“Passes, Permits and Registrations” – 2 CCR 405-7) necessary to accommodate changes to or ensure consistency with Chapter W-0**

Open for final consideration of the following:

- Revising license fees and license agent commission rates according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index.
- Revising a Bighorn Sheep Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifications to the low-income annual Colorado State Wildlife Area pass.

## **Chapter W-1- “Fishing” 2 CCR 406-1**

Open for final consideration of the following:

- Revising the walleye bag and possession limits at Rifle Gap.
- Revising a fishing restriction in Vallecito Creek from the CR 501 Bridge to the standing water line of Vallecito Reservoir.

These Chapter W-1 - Fishing regulations will become effective April 1, 2023.

## **Chapter W-2- “Big Game” 2 CCR 406-2**

Open for final consideration of the following:

- Revising Game Management Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifying the limited license application and drawing allocation processes for deer, elk, pronghorn and bear to include a rolling three-year average for licenses requiring ten or more preference points.

## **Chapter W-3 - “Furbearers and Small Game, except Migratory Birds” 2 CCR 406-3**

Open for final consideration of the following:

- Expanding the southwest youth extended season for fall turkey to all available Game Management Units (GMU) in the state.
- Adopting regulation to allow air gun hunting of turkey in the fall and late seasons.
- Annual changes to turkey seasons and quotas.

## **ISSUES IDENTIFICATION**

### **WILDLIFE REGULATIONS**

#### **Chapter W-0 - “General Provisions” 2 CCR 406-0**

Open for annual review of the entire chapter, including but not limited to, Game Management Unit boundary modifications, regulations relating to fish management, health, importation, prohibited species, and other annual changes.

#### **Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-0 (“General Provisions” 2 CCR 406-0) necessary to accommodate changes to or ensure consistency with Chapter W-2**

Open for annual review of the entire chapter, including, but not limited to:

- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, bighorn sheep, mountain goat, mountain lion, and bear.

**Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.**

**Viewing of Proposed Rules:** copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection online at <https://cpw.state.co.us/aboutus/pages/commission.aspx> and copies can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing Hilary Hernandez at [hilary.hernandez@state.co.us](mailto:hilary.hernandez@state.co.us) at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

**Modification of Proposed Rules prior to adoption:** subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

**Opportunity to submit alternate proposals and provide comment:** the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally, if time permits, at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be e-mailed to [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).

#### **Use of Consent Agenda:**

In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a “Consent Agenda” for this meeting.

*The process for placing matters on the Consent Agenda is as follows:*

*The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.*

*Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.*

**OTHER AGENDA ITEMS:** The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda can be viewed on the Division of Parks and Wildlife's internet home page at <https://cpw.state.co.us>, on or after **November 7, 2022**.

**RULE-MAKING NOTICE  
PARKS AND WILDLIFE COMMISSION MEETING  
November 17-18, 2022**

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **November 17-18, 2022**. **The Parks and Wildlife Commission meeting will be held at Gateway Canyons Resort at 43200 CO-141, Gateway, CO 81522. For up-to-date information on the meeting, please refer to the Parks and Wildlife Commission website: <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>. The public is encouraged to comment before the meeting by submitting written comments to the Commission's email address at: [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).**

**Comment deadlines:** Written comments will be accepted at any time. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

**November 3, 2022**, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **November 4, 2022**.

Comments received by the Division between noon on **November 3, 2022** and noon on **November 10, 2022**, will be provided to the Commission two business days before the meeting. Comments received after noon on **November 10, 2022** will be held and shared with the Commission as part of the subsequent meeting mailing.

More information on submitting public comments is available at:  
<https://cpw.state.co.us/aboutus/Pages/Submit-Public-Comments.aspx>.

**The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-105, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

**FINAL REGULATORY ADOPTION** – **November 17-18, 2022**, beginning at **8:00 a.m.\***

**EFFECTIVE DATE OF REGULATIONS** approved during the November 2022 Parks and Wildlife Commission meeting: January 1, 2023, unless otherwise noted.

**FINAL REGULATIONS**

**PARK REGULATIONS**

**Chapter P-3 - "River Outfitters" - 2 CCR 405-3**

Open for final consideration of the following:

- Revising personal floatation device types to match U.S. Coast Guard changes.

*\*Please reference the Commission agenda, to be posted on or after November 7, 2022, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>.*

## **Chapter P-7 - “Passes, Permits and Registrations” - 2 CCR 405-7**

Open for final consideration of the following:

- Modifications to the Centennial pass.
- Removing the high-use fee at certain parks, and changing the daily vehicle pass fee to be \$10.00 at all parks.
- Removing Panorama Point, at Golden Gate Canyon, from the designated event facility list.
- Revising regulations to provide discounted camping rates for seniors who purchase the non-motor vehicle individual annual pass and adopting regulation for the replacement of a lost or stolen non-motor vehicle individual annual pass.

## **WILDLIFE REGULATIONS**

**Chapter W-0 - “General Provisions” 2 CCR 406-0, and those related provisions of Chapter W-2 (“Big Game” 2 CCR 406-2), Chapter W-3 (“Furbearers and Small Game, Except Migratory Birds” 2 CCR 406-3), Chapter W-11 (“Wildlife Parks and Unregulated Wildlife” 2 CCR 406-11), Chapter W-15 (“Division Agents” 2 CCR 406-15), and Chapter P-7 (“Passes, Permits and Registrations” – 2 CCR 405-7) necessary to accommodate changes to or ensure consistency with Chapter W-0**

Open for final consideration of the following:

- Revising license fees and license agent commission rates according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index.
- Revising a Bighorn Sheep Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifications to the low-income annual Colorado State Wildlife Area pass.

## **Chapter W-1- “Fishing” 2 CCR 406-1**

Open for final consideration of the following:

- Revising the walleye bag and possession limits at Rifle Gap.
- Revising a fishing restriction in Vallecito Creek from the CR 501 Bridge to the standing water line of Vallecito Reservoir.

These Chapter W-1 - Fishing regulations will become effective April 1, 2023.

## **Chapter W-2- “Big Game” 2 CCR 406-2**

Open for final consideration of the following:

- Revising Game Management Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifying the limited license application and drawing allocation processes for deer, elk, pronghorn and bear to include a rolling three-year average for licenses requiring ten or more preference points.

## **Chapter W-3 - “Furbearers and Small Game, except Migratory Birds” 2 CCR 406-3**

Open for final consideration of the following:

- Expanding the southwest youth extended season for fall turkey to all available Game Management Units (GMU) in the state.
- Adopting regulation to allow air gun hunting of turkey in the fall and late seasons.
- Annual changes to turkey seasons and quotas.

## **ISSUES IDENTIFICATION**

### **WILDLIFE REGULATIONS**

#### **Chapter W-0 - “General Provisions” 2 CCR 406-0**

Open for annual review of the entire chapter, including but not limited to, Game Management Unit boundary modifications, regulations relating to fish management, health, importation, prohibited species, and other annual changes.

#### **Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-0 (“General Provisions” 2 CCR 406-0) necessary to accommodate changes to or ensure consistency with Chapter W-2**

Open for annual review of the entire chapter, including, but not limited to:

#### **Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-0 (“General Provisions” 2 CCR 406-0) necessary to accommodate changes to or ensure consistency with Chapter W-2**

Open for annual review of the entire chapter, including, but not limited to:

- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, bighorn sheep, mountain goat, mountain lion, and bear.

**Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.**

**Viewing of Proposed Rules:** copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection online at <https://cpw.state.co.us/aboutus/pages/commission.aspx> and copies can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing Hilary Hernandez at [hilary.hernandez@state.co.us](mailto:hilary.hernandez@state.co.us) at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

**Modification of Proposed Rules prior to adoption:** subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

**Opportunity to submit alternate proposals and provide comment:** the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally, if time permits, at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be e-mailed to [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).

#### **Use of Consent Agenda:**

In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a “Consent Agenda” for this meeting.

*The process for placing matters on the Consent Agenda is as follows:*

*The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.*

*Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.*

**OTHER AGENDA ITEMS:** The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda can be viewed on the Division of Parks and Wildlife's internet home page at <https://cpw.state.co.us>, on or after **November 7, 2022**.

**RULE-MAKING NOTICE  
PARKS AND WILDLIFE COMMISSION MEETING  
November 17-18, 2022**

In accordance with the State Administrative Procedure Act, section 24-4-103, C.R.S., the Parks and Wildlife Commission gives notice that regulations will be considered for adoption at their next meeting on **November 17-18, 2022**. **The Parks and Wildlife Commission meeting will be held at Gateway Canyons Resort at 43200 CO-141, Gateway, CO 81522. For up-to-date information on the meeting, please refer to the Parks and Wildlife Commission website: <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>. The public is encouraged to comment before the meeting by submitting written comments to the Commission's email address at: [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).**

**Comment deadlines:** Written comments will be accepted at any time. However, to ensure sufficient time for consideration prior to the meeting, **comments should be provided to the Division of Parks and Wildlife by noon on the following date:**

**November 3, 2022**, for mailing by the Division of Parks and Wildlife to the Parks and Wildlife Commission on **November 4, 2022**.

Comments received by the Division between noon on **November 3, 2022** and noon on **November 10, 2022**, will be provided to the Commission two business days before the meeting. Comments received after noon on **November 10, 2022** will be held and shared with the Commission as part of the subsequent meeting mailing.

More information on submitting public comments is available at:  
<https://cpw.state.co.us/aboutus/Pages/Submit-Public-Comments.aspx>.

**The following regulatory subjects and issues shall be considered** pursuant to the Commission's authority in sections 33-9-101 to 111, C.R.S. ("Administration of Parks and Wildlife"), in sections 33-1-101 to 33-6-209, C.R.S. (the "Wildlife Act"), and especially sections 33-1-104, 33-1-105, 33-1-106, 33-1-107, 33-1-108, 33-1-121, 33-2-104, 33-2-105, 33-2-106, 33-3-104, 33-4-101, 33-4-102 and 33-5.5-102, 33-6-107, 33-6-109, 33-6-112, 33-6-113, 33-6-114, 33-6-114.5, 33-6-117, 33-6-119, 33-6-121, 33-6-124, 33-6-125, 33-6-127, 33-6-128, 33-6-130, 33-6-205, 33-6-206, 33-6-207, 33-6-208, 33-6-209, C.R.S., and in sections 33-10-101 to 33-33-113, C.R.S. (the "Parks Act"), and especially sections 33-10-106, 33-10-107, 33-10.5-107, 33-11-109, 33-12-101, 33-12-103, 33-12-103.5, 33-12-106, 33-12.5-103, 33-13-103, 33-13-104, 33-13-106, 33-13-109, 33-13-110, 33-13-111, 33-14-107, 33-14.5-107, 33-32-103 and 33-33-105. C.R.S.

**FINAL REGULATORY ADOPTION** – **November 17-18, 2022**, beginning at **8:00 a.m.\***

**EFFECTIVE DATE OF REGULATIONS** approved during the November 2022 Parks and Wildlife Commission meeting: January 1, 2023, unless otherwise noted.

**FINAL REGULATIONS**

**PARK REGULATIONS**

**Chapter P-3 - "River Outfitters" - 2 CCR 405-3**

Open for final consideration of the following:

- Revising personal floatation device types to match U.S. Coast Guard changes.

*\*Please reference the Commission agenda, to be posted on or after November 7, 2022, to ensure when each regulatory item will be addressed by the Commission. The agenda will be posted at <https://cpw.state.co.us/aboutus/Pages/CommissionMeetings.aspx>.*

## **Chapter P-7 - “Passes, Permits and Registrations” - 2 CCR 405-7**

Open for final consideration of the following:

- Modifications to the Centennial pass.
- Removing the high-use fee at certain parks, and changing the daily vehicle pass fee to be \$10.00 at all parks.
- Removing Panorama Point, at Golden Gate Canyon, from the designated event facility list.
- Revising regulations to provide discounted camping rates for seniors who purchase the non-motor vehicle individual annual pass and adopting regulation for the replacement of a lost or stolen non-motor vehicle individual annual pass.

## **WILDLIFE REGULATIONS**

**Chapter W-0 - “General Provisions” 2 CCR 406-0, and those related provisions of Chapter W-2 (“Big Game” 2 CCR 406-2), Chapter W-3 (“Furbearers and Small Game, Except Migratory Birds” 2 CCR 406-3), Chapter W-11 (“Wildlife Parks and Unregulated Wildlife” 2 CCR 406-11), Chapter W-15 (“Division Agents” 2 CCR 406-15), and Chapter P-7 (“Passes, Permits and Registrations” – 2 CCR 405-7) necessary to accommodate changes to or ensure consistency with Chapter W-0**

Open for final consideration of the following:

- Revising license fees and license agent commission rates according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index.
- Revising a Bighorn Sheep Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifications to the low-income annual Colorado State Wildlife Area pass.

## **Chapter W-1- “Fishing” 2 CCR 406-1**

Open for final consideration of the following:

- Revising the walleye bag and possession limits at Rifle Gap.
- Revising a fishing restriction in Vallecito Creek from the CR 501 Bridge to the standing water line of Vallecito Reservoir.

These Chapter W-1 - Fishing regulations will become effective April 1, 2023.

## **Chapter W-2- “Big Game” 2 CCR 406-2**

Open for final consideration of the following:

- Revising Game Management Unit boundary name that was changed by the U.S. Board on Geographic Names.
- Modifying the limited license application and drawing allocation processes for deer, elk, pronghorn and bear to include a rolling three-year average for licenses requiring ten or more preference points.

## **Chapter W-3 - “Furbearers and Small Game, except Migratory Birds” 2 CCR 406-3**

Open for final consideration of the following:

- Expanding the southwest youth extended season for fall turkey to all available Game Management Units (GMU) in the state.
- Adopting regulation to allow air gun hunting of turkey in the fall and late seasons.
- Annual changes to turkey seasons and quotas.

## **ISSUES IDENTIFICATION**

### **WILDLIFE REGULATIONS**

#### **Chapter W-0 - “General Provisions” 2 CCR 406-0**

Open for annual review of the entire chapter, including but not limited to, Game Management Unit boundary modifications, regulations relating to fish management, health, importation, prohibited species, and other annual changes.

#### **Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-0 (“General Provisions” 2 CCR 406-0) necessary to accommodate changes to or ensure consistency with Chapter W-2**

Open for annual review of the entire chapter, including, but not limited to:

- Annual changes to season dates, limited license areas and manner of take provisions for deer, elk, pronghorn antelope, moose, bighorn sheep, mountain goat, mountain lion, and bear.

**Except for the day and time indicated for when the meeting is scheduled to begin, the order indicated for each agenda item is approximate and subject to change when necessary to accommodate the Commission's schedule.**

**Viewing of Proposed Rules:** copies of the proposed rules (together with a proposed statement of basis and purpose and specific statutory authority), will be available for inspection online at <https://cpw.state.co.us/aboutus/pages/commission.aspx> and copies can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing Hilary Hernandez at [hilary.hernandez@state.co.us](mailto:hilary.hernandez@state.co.us) at least five (5) days prior to the date of hearing. Such copies, however, are only proposals to be submitted to the Commission by the Division of Parks and Wildlife.

**Modification of Proposed Rules prior to adoption:** subject to the provisions of Section 24-4-103, C.R.S., modification of these proposals may be made by the Division of Parks and Wildlife or the Commission before the Commission promulgates final rules and regulations on the above topics.

**Opportunity to submit alternate proposals and provide comment:** the Commission will afford all interested persons an opportunity to submit alternate proposals, written data, views or arguments and to present them orally, if time permits, at the meeting unless it deems such oral presentation unnecessary. Written alternate proposals, data, views or arguments and other written statements should be e-mailed to [dnr\\_cpwcommission@state.co.us](mailto:dnr_cpwcommission@state.co.us).

#### **Use of Consent Agenda:**

In order to increase the Parks and Wildlife Commission's efficiency and allow more time for consideration of parks and wildlife policy and contested issues, some or all of this regulatory agenda may be listed for action by the Commission as part of a “Consent Agenda” for this meeting.

*The process for placing matters on the Consent Agenda is as follows:*

*The Director identifies matters where the recommended action follows established policy or precedent, there has been agreement reached or the matter is expected to be uncontested and non-controversial.*

*Regulatory Matters on the Consent Agenda are noticed for hearing at the same time and in the same manner as other Consent Agenda items. If a member of the Commission requests further consideration of an item on the Consent Agenda, that item will be withdrawn from the Consent Agenda and discussed at the end of the meeting or at the next meeting. The Consent Agenda may be voted on without the necessity of reading individual items. Any Commission member may request clarification from the Director of any matter on the Consent Agenda.*

**OTHER AGENDA ITEMS:** The Parks and Wildlife Commission may consider and make policy, program implementation, and other non-regulatory decisions, which may be of public interest at this meeting. A copy of the complete meeting agenda can be viewed on the Division of Parks and Wildlife's internet home page at <https://cpw.state.co.us>, on or after **November 7, 2022**.

## Division of Insurance

### 3 CCR 702-3

#### FINANCIAL ISSUES

DRAFT Proposed Amended Regulation 3-1-9

#### MINIMUM RESERVE STANDARDS FOR INDIVIDUAL AND GROUP HEALTH INSURANCE CONTRACTS

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Adequacy of Reserves
Section 6	Categories of Reserves
Section 7	Appendices
Section 8	Claim Reserves
Section 9	Premium Reserves
Section 10	Contract Reserves
Section 11	Reinsurance
Section 12	Severability
Section 13	Incorporated Materials
Section 14	Enforcement
Section 15	Effective Date
Section 16	History
Appendix A	Specific Standards for Morbidity, Interest and Mortality

#### **Section 1 Authority**

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-109, 10-16-109 and 10-16-220, C.R.S.

#### **Section 2 Scope and Purpose**

The purpose of this regulation is to set forth minimum standards for reserves of insurers providing individual and group health insurance.

#### **Section 3 Applicability**

These standards apply to all individual and group health sickness and accident insurance coverages except credit insurance regulated under Article 10 of Title 10 of the Colorado Revised Statutes.

#### **Section 4 Definitions**

- A. "Annual statement" means that statement required by §§ 10-3-208 and 10-14-602, C.R.S. to be filed annually, by the insurer, with the Commissioner.
- B. "Commissioner" means the Insurance Commissioner of the State of Colorado.
- C. "Qualified actuary" means an actuary meeting the qualifications set forth in Colorado Insurance Regulation 1-1-1 (3 CCR 702-1).

## **Section 5      Adequacy of Reserves**

When an insurer determines that adequacy of its health insurance reserves requires reserves in excess of the minimum standards specified herein, such increased reserves must be held and shall be considered the minimum reserves for that insurer.

With respect to any block of contracts, or with respect to an insurer's health business as a whole, a prospective gross premium valuation is the ultimate test of reserve adequacy as of a given valuation date. Such a gross premium valuation will take into account, for contracts in force, in a claims status, or in a continuation of benefits status on the valuation date, the present value as of the valuation date of; all expected benefits unpaid, all expected expenses unpaid, and all unearned or expected premiums, adjusted for future premium increases reasonably expected to be put into effect.

Such a gross premium valuation is to be performed whenever a significant doubt exists as to reserve adequacy with respect to any major block of contracts, or with respect to the insurer's health business as a whole. In the event inadequacy is found to exist, immediate loss recognition shall be made and the reserves restored to adequacy. Adequate reserves (inclusive of claim, premium and contract reserves, if any) shall be held with respect to all contracts, regardless of whether contract reserves are required for such contracts under these standards.

Whenever minimum reserves, as defined in these standards, exceed reserve requirements as determined by a prospective gross premium valuation, such minimum reserves remain the minimum requirement under these standards.

## **Section 6      Categories of Reserves**

The following sections set forth minimum standards for three categories of health insurance reserves: claim reserves, premium reserves and contract reserves.

Adequacy of an insurer's health insurance reserves is to be determined on the basis of all three categories combined. However, these standards emphasize the importance of determining appropriate reserves for each of the three categories separately.

## **Section 7      Appendices**

These standards contain two appendices which are an integral part of the standards, and one additional "supplementary" appendix which is not part of the standards as such, but is included for explanatory and illustrative purposes only.

Appendix A. Specific minimum standards with respect to morbidity, mortality and interest, which apply to claim reserves according to year of incurral and to contract reserves according to year of issue.

Appendix B. Glossary of Technical Terms used.

Appendix C. (Supplementary) Waiver of Premium Reserves.

## **Section 8      Claim Reserves**

### **A.      General**

1. Claim reserves are required for all incurred but unpaid claims on all health insurance policies. For contracts with an elimination period, the duration of disablement shall be measured as dating from the time that benefits would have begun to accrue had there been no elimination period.

2. Appropriate claim expense reserves are required with respect to the estimated expense of settlement of all incurred but unpaid claims.
3. All such reserves for prior valuation years are to be tested for adequacy and reasonableness along the lines of claim runoff schedules in accordance with the statutory financial statement including consideration of any residual unpaid liability.
4. For claim reserves on policies that require contract reserves, the claim incurral date is to be considered the "issue date" for determining the table and interest rate to be used for claim reserves.
5. The maximum interest rate for claim reserves is specified in Appendix A.
6. With respect to claim reserves for policies issued before the operative date of the Valuation Manual, the requirements for claim reserves on claims incurred after that date shall be as described in the Valuation Manual based on the incurred date of the claim.

B. Minimum Standards for Claim Reserves

1. Disability Income

- a. Interest. The maximum interest rate for claim reserves is specified in Appendix A.
- b. Morbidity. Minimum standards with respect to morbidity are those specified in Appendix A, except that, at the option of the insurer:
  - (1) For all claims with a duration from date of disablement of less than two (2) years, reserves may be based on the insurer's experience, if such experience is considered credible, or upon other assumptions designed to place a sound value on the liabilities.
  - (2) For group disability income claims with a duration from date of disablement of at least two (2) years but less than five (5) years, reserves may, with the prior written approval of the Commissioner, be based on the insurer's experience for which the insurer maintains underwriting and claim administration control. The request for such approval of a plan of modification to the reserve basis must include:
    - (a) An analysis of the credibility of the experience;
    - (b) A description of how all of the insurer's experience is proposed to be used in setting reserves;
    - (c) A description and quantification of the contingent risk margins in the reserves;
    - (d) A summary of the financial impact that the proposed plan of modification would have had on the insurer's last filed annual statement;
    - (e) A copy of the approval of the proposed plan of modification by the commissioner of the state of domicile; and
    - (f) Any other information deemed necessary by the Commissioner.

(3) Each insurer may elect which of the following to use as the minimum morbidity standard for group long-term disability income claim reserves:

(a) The minimum morbidity standard in effect for claim reserves as of the date the claim was incurred, or

(b) The standards with respect to morbidity may be based on the 2012 GLTD termination table or subsequent table with considerations of:

(i) The insurer's own experience computed in accordance with Actuarial Guideline XLVII, as included in the most current version of the NAIC Accounting Practices and Procedures Manual, and

(ii) An adjustment to include an own experience measurement margin derived in accordance with Actuarial Guideline XLVII, as included in the most current version of the NAIC Accounting Practices and Procedures Manual, and

(iii) A credibility factor derived in accordance with Actuarial Guideline XLVII, as included in the most current version of the NAIC Accounting Practices and Procedures Manual.

Once an insurer elects to calculate reserves for all open claims on a more recent standard then all future valuations must be on that basis.

c. Duration of Disablement. For contracts with an elimination period, the duration of disablement should be measured as dating from the time that benefits would have begun to accrue had there been no elimination period.

## 2. All Other Benefits

a. Interest. The maximum interest rate for claim reserves is specified in Appendix A.

b. Morbidity or Other Contingency. The reserve should be based on the insurer's experience, if such experience is considered credible, or upon other assumptions designed to place a sound value on the liabilities.

## C. Claim Reserve Methods Generally

Any generally accepted or reasonable actuarial method or combination of methods may be used to estimate all claim liabilities. The methods used for estimating liabilities generally may be aggregate methods, or various reserve items may be separately valued. Approximations based on groupings and averages may also be employed. Adequacy of the claim reserves, however, shall be determined in the aggregate.

## Section 9 Premium Reserves

### A. General

1. Unearned premium reserves are required for all contracts with respect to the period of coverage for which premiums, other than premiums paid in advance, have been paid beyond the date of valuation.
2. If premiums due and unpaid are carried as an asset, such premiums must be treated as premiums in force, subject to unearned premium reserve determination. The value of unpaid commissions, premium taxes, and the cost of collection associated with due and unpaid premiums must be carried as an offsetting liability or as a reduction to the otherwise allowable asset.
3. The gross premiums paid in advance for a period of coverage commencing after the next premium due date which follows the date of valuation may be appropriately discounted to the valuation date and shall be held either as a separate liability or as an addition to the unearned premium reserve which would otherwise be required as a minimum.

**B. Minimum Standards for Unearned Premium Reserves**

1. The minimum unearned premium reserve with respect to any contract is the pro rata unearned modal premium that applies to the premium period beyond the valuation date, with such premium determined on the basis of:
  - a. The valuation net modal premium on the contract reserve basis applying to the contract; or
  - b. The gross modal premium for the contract if no contract reserve applies.
2. However, in no event may the sum of the unearned premium and contract reserves for any contract of the insurer subject to contract reserve requirements be less than the gross modal unearned premium reserve on any such contract, as of the date of valuation. In addition, such reserve shall never be less than the expected claims for the period beyond the valuation date represented by such unearned premium reserve, to the extent not provided for elsewhere.

**C. Premium Reserve Methods Generally**

The insurer may employ suitable approximations and estimates; including, but not limited to groupings, averages and aggregate estimation; in computing premium reserves. Such approximations or estimates should be tested periodically to determine their continuing adequacy and reliability.

**Section 10 Contract Reserves**

**A. General**

1. Contract reserves are required, unless otherwise specified in Paragraph 2 below, for:
  - a. All individual and group contracts with which level premiums are used; or
  - b. All individual and group contracts with respect to which, due to the gross premium pricing structure at issue, the value of the future benefits at any time exceeds the value of any appropriate future valuation net premiums at that time. This evaluation may be applied on a rating block basis if the total premiums for the block were developed to support the total risk assumed and expected expenses for the block each year, and a qualified actuary certifies the premium development. The actuary should state in the certification that premiums for the rating block were developed such that each year's premium was intended to

cover that year's costs without any prefunding. If the premium is also intended to recover costs for any prior years, the actuary should also disclose the reasons for and magnitude of such recovery. The values specified in this subparagraph must be determined on the basis specified in Subsection B of this section.

2. Contracts not requiring a contract reserve are:
  - a. Contracts which cannot be continued after one year from issue; or
  - b. Contracts already in force on the effective date of these standards for which no contract reserve was required under the immediately preceding standards.
3. The contract reserve is in addition to claim reserves and premium reserves.
4. The methods and procedures for contract reserves should be consistent with those for claim reserves for any contract, or else appropriate adjustment shall be made when necessary to assure provision for the aggregate liability. The definition of the date of incurral must be the same in both determinations.
5. For contracts issued on or after January 1, 2013, the total contract reserve established must incorporate provisions for moderately adverse deviations.

B. Basis for Minimum Standards for Contract Reserves

1. Morbidity or other Contingency. Minimum standards with respect to morbidity are those set forth in Appendix A. Valuation net premiums used under each contract shall have a structure consistent with the gross premium structure at issue of the contract as this relates to advancing age of insured, contract duration and period for which gross premiums have been calculated. Contracts for which tabular morbidity standards are not specified in Appendix A shall be valued using tables established for reserve purposes by a qualified actuary and acceptable to the Commissioner. The morbidity tables shall contain a pattern of incurred claims cost that reflects the underlying morbidity and must not be constructed for the primary purpose of minimizing reserves.
  - a. In determining the morbidity assumptions, the actuary shall use assumptions that represent the best estimate of anticipated future experience, but shall not incorporate any expectation of future morbidity improvement. Morbidity improvement is a change, in the combined effect of claim frequency and the present value of future expected claim payments given that a claim has occurred, from the current morbidity tables or experience that will result in a reduction to reserves. It is not the intent of this provision to restrict the ability of the actuary to reflect the morbidity impact for a specific known event that has occurred and that is able to be evaluated and quantified.
  - b. Business in force as of the effective date of Section 10(B)(3) may be permitted to retain the original reserve basis which may not meet the provisions of item (a) above, subject to the acceptability to the Commissioner.
2. Interest. The maximum interest rate is specified in Appendix A.
3. Termination Rates. Termination rates used in the computation of reserves shall be on the basis of a mortality table as specified in Appendix A except as noted under Subparagraphs (a) and (b) below:
  - a. Under contracts for which premium rates are not guaranteed, and where the effects of insurer underwriting are specifically used by policy duration in the

valuation morbidity standard or for return of premium or other deferred cash benefits, total termination rates may be used at ages and durations where these exceed specified mortality table rates, but not in excess of the lesser of:

- (1) Eighty percent (80%) of the total termination rate used in the calculation of the gross premiums, or
    - (2) Eight percent (8%).
  - b. For long-term care individual policies or group certificates issued on or after January 1, 2013, the contract reserves may be established on a basis of separate:
    - (1) Mortality as specified in Appendix A; and
    - (2) Terminations other than mortality, where the termination rate is not to exceed:
      - (a) For policy year one, the lesser of eighty percent (80%) of the voluntary lapse rate used in the calculation of gross premiums or six percent (6%);
      - (b) For policy years two (2) through four (4), the lesser of eighty percent (80%) of the voluntary lapse rate used in the calculation of gross premiums or four percent (4%); and
      - (c) For policy years five (5) and later, the lesser of one hundred percent (100%) of the voluntary lapse rate used in the calculation of gross premiums or two percent (2%), except for group insurance as defined in § 10-19-103(4)(a), C.R.S., where the 2% shall be three percent (3%).
  - c. Where a morbidity standard specified in Appendix A is on an aggregate basis, such morbidity standard may be adjusted to reflect the effect of insurer underwriting by policy duration. The adjustments must be appropriate to the underwriting and be acceptable to the Commissioner.
4. Reserve Method.
- a. For insurance except long-term care and return of premium or other deferred cash benefits, the minimum reserve is the reserve calculated on the two-year full preliminary term method; that is, under which the terminal reserve is zero at the first and also the second contract anniversary.
  - b. For long-term care insurance, the minimum reserve is the reserve calculated on the one-year full preliminary term method.
  - c. For return of premium or other deferred cash benefits, the minimum reserve is the reserve calculated as follows:
    - (1) On the one-year full preliminary term method if such benefits are provided at any time before the twentieth anniversary; or
    - (2) On the two-year full preliminary term method if such benefits are only provided on or after the twentieth anniversary.

- d. The preliminary term method may be applied only in relation to the date of issue of a contract. Reserve adjustments introduced later, as a result of rate increases, revisions in assumptions (e.g., projected inflation rates) or for other reasons, are to be applied immediately as of the effective date of adoption of the adjusted basis.
  - 5. Negative Reserves. Negative reserves on any benefit may be offset against positive reserves for other benefits in the same contract, but the total contract reserve with respect to all benefits combined may not be less than zero.
  - 6. Nonforfeiture Benefits for Long-Term Care Insurance. The contract reserve on a policy or certificate basis must not be less than the net single premium for the nonforfeiture benefits at the appropriate policy or certificate duration, where the net single premium is computed according to the specifications in this subsection.
- C. Alternative Valuation Methods and Assumptions Generally
- Provided the contract reserve on all contracts to which an alternative method or basis is applied is not less in the aggregate than the amount determined according to the applicable standards specified above, an insurer may use any reasonable assumptions as to interest rates, termination and/or mortality rates, and rates of morbidity or other contingency. Also, subject to the preceding condition, the insurer may employ methods other than the methods stated above in determining a sound value of its liabilities under such contracts, including, but not limited to the following: the net level premium method; the one-year full preliminary term method; prospective valuation on the basis of actual gross premiums with reasonable allowance for future expenses; the use of approximations such as those involving age groupings, groupings of several years of issue, average amounts of indemnity, grouping of similar contract forms; the computation of the reserve for one contract benefit as a percentage of, or by other relation to, the aggregate contract reserves exclusive of the benefit or benefits so valued; and the use of a composite annual claim cost for all or any combination of the benefits included in the contracts valued.
- D. Tests for Adequacy and Reasonableness of Contract Reserves
- Annually, an appropriate review shall be made of the insurer's prospective contract liabilities on contracts valued by tabular reserves, to determine the continuing adequacy and reasonableness of the tabular reserves giving consideration to future gross premiums. The insurer shall make appropriate increments to such tabular reserves if such tests indicate that the basis of such reserves is no longer adequate, subject to the minimum standards of Section 10(B).
- In the event an insurer has a contract or a group of related similar contracts, for which future gross premiums will be restricted by contract, insurance department regulations, or for other reasons, such that the future gross premiums reduced by expenses for administration, commissions, and taxes will be insufficient to cover future claims, the insurer must establish contract reserves for such shortfall in the aggregate.

## **Section 11 Reinsurance**

Increases to, or credits against reserves carried, arising because of reinsurance assumed or reinsurance ceded, must be determined in a manner consistent with these minimum reserve standards and with all applicable provisions of the reinsurance contracts which affect the insurer's liabilities.

## **Section 12 Severability**

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

### **Section 13 — Incorporated Materials**

~~The 2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table published by the American Academy of Actuaries shall mean the 2001 CSO Mortality Table and the 2001 CSO Preferred Class Structure Mortality Table as published on the effective date of this regulation and does not include later amendments to or editions of the CSO Mortality Table and the 2001 CSO Preferred Class Structure Mortality Table. A copy of the 2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202, or may be found online at [www.actuary.org](http://www.actuary.org).~~

~~A Certified copy of the 2001 CSO Mortality Table and 2001 CSO Preferred Class Structure Mortality Table may be requested from the Division of Insurance's Chief Actuary. A charge for certification or copies may apply.~~

### **Section 134 Enforcement**

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease-and-desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

### **Section 145 Effective Date**

This amended regulation shall become effective on January 1, 20213.

### **Section 156 History**

Regulation 3-1-9 effective January 31, 1993.  
Amended regulation effective January 1, 2013.  
Amended regulation effective January 1, 2023.

## APPENDIX A. SPECIFIC STANDARDS FOR MORBIDITY, INTEREST AND MORTALITY

### I. MORBIDITY

#### A. Minimum morbidity standards for valuation of specified individual contract health insurance benefits are as follows:

##### 1. Disability Income Benefits Due to Accident or Sickness

###### a. Contract Reserves:

- (1) Contracts issued on or after January 1, 1965 and prior to January 1, 1987:

The 1964 Commissioners Disability Table (64 CDT) (published by the Health Insurance Association, copyright 1965).

- (2) Contracts issued on or after January 1, 1996:

(a) The 1985 Commissioners Individual Disability Tables A (85CIDA) (published in the *Transactions of the Society of Actuaries*, Volume XXXVII, pp.449-601); or

(b) The 1985 Commissioners Individual Disability Tables B (85CIDB) (published in the *Proceedings of the National Association of Insurance Commissioners*, Volume 1, 1985, pp. 494-540).

- (3) Contracts issued during the years 1987 through 1995:

Optional use of either the 1964 Table or the 1985 Tables.

- (4) Each insurer shall elect, with respect to all individual contracts issued in any one statement year, whether it will use Tables A or Tables B as the minimum standard. The insurer may, however, elect to use the other tables with respect to any subsequent statement year.

###### b. Claim Reserves:

- (1) For claims incurred on or after January 1, 2013:

The 1985 Commissioners Individual Disability Tables A (85CIDA) with claim termination rates multiplied by the following adjustment factors:

Duration	Adjustment Factor	Adjusted Duration Rates*
Week 1	0.366	0.04831
2	0.366	0.04172
3	0.366	0.04063
4	0.366	0.04355
5	0.365	0.04088

6	0.365	0.04271
7	0.365	0.04380
8	0.365	0.04344
9	0.370	0.04292
10	0.370	0.04107
11	0.370	0.03848
12	0.370	0.03478
13	0.370	0.03034
Month 4	0.391	0.08758
5	0.371	0.07346
6	0.435	0.07531
7	0.500	0.07245
8	0.564	0.06655
9	0.613	0.05520
10	0.663	0.04705
11	0.712	0.04486
12	0.756	0.04309
13	0.800	0.04080
14	0.844	0.03882
15	0.888	0.03730
16	0.932	0.03448
17	0.976	0.03026
18	1.020	0.02856
19	1.049	0.02518
20	1.078	0.02264
21	1.107	0.02104
22	1.136	0.01932
23	1.165	0.01865
24	1.195	0.01792
Year 3	1.369	0.16839
4	1.204	0.10114
5	1.199	0.07434
6 and later	1.000	**

\*The adjusted duration rates derived from the application of the adjustment factors to the DTS Valuation Table duration rates shown in exhibits 3a, 3b, 3c, 4 and 5, *Transactions of the Society of Actuaries* (TSA) XXXVII, pp. 457-463, are displayed.

\*\*Applicable DTS Valuation Table duration rate from exhibits 3c and 4 (TSA XXXVII, pp. 462-463).

The 85CIDA table so adjusted for the computation of claim reserves shall be known as the 85CIDC (The 1985 Commissioners Individual Disability Table C).

- (2) For claims incurred prior to January 1, 2013:

- (a) The minimum morbidity standard in effect for contract reserves on currently issued contracts, as of the date the claim is incurred, or
- (b) The standard as defined in Item I.A.1.b(1) above, applied to all open claims. Once an insurer elects to calculate reserves for all open claims on the standard defined in Item I.A.1.b(1), all future valuations must be on that basis.

2. Hospital Benefits, Surgical Benefits and Maternity Benefits (Scheduled benefits or fixed time period benefits only)

a. Contract Reserves:

- (1) Contracts issued on or after January 1, 1955, and before January 1, 1982:

The 1956 Intercompany Hospital-Surgical Tables (published in the 1957 Proceedings of the National Association of Insurance Commissioners).

- (2) Contracts issued on or after January 1, 1982:

The 1974 Medical Expense Tables, Table A (published in the *Transactions of the Society of Actuaries* (TSA), Volume XXX, pg. 63. Refer to the paper (in the same volume, pg. 9) to which this table is appended, including its discussions, for methods of adjustment for benefits not directly valued in Table A: "Development of the 1974 Medical Expense Benefits," Houghton and Wolf).

b. Claim Reserves:

No specific standard. See Item I.A.5, below.

3. Cancer Expense Benefits (~~Scheduled benefits or fixed time period benefits only~~)

a. Contract Reserves:

- (1) Contracts issued on or after January 1, 1986, and before January 1, 2019:

The 1985 NAIC Cancer Claim Cost Tables (published in the *Proceedings of the National Association of Insurance Commissioners*, Volume 1, 1986, pp. 601-624).

- (2) Contracts issued on or after January 1, 2019:

- (a) For first occurrence and hospitalization benefits:

The 2016 Cancer Claim Cost Valuation Tables (2016 CCCVT):  
[http://www.naic.org/documents/01\\_naic\\_2017\\_cancer\\_claim\\_cost\\_valuation\\_table.xlsx](http://www.naic.org/documents/01_naic_2017_cancer_claim_cost_valuation_table.xlsx)

- (b) For all other benefits:

Assumptions based on company experience, relevant industry experience, and actuarial judgement. Such assumptions should

be appropriate for valuation which considers margin for adverse experience.

(3) For contracts issued on or after January 1, 2018 and before January 1, 2019, a company may elect to use morbidity basis described in subsection (2) above. Once a company begins use of the 2016 CCCVT for new issues, it may not revert to the 1985 CCCT.

b. Claim Reserves: No specific standard. See Item I.A.5, below.

4. Accidental Death Benefits

a. Contract Reserves:

Contracts issued on or after January 1, 1965:

The 1959 Accidental Death Benefits Table (1959 ADB) (published by the Society of Actuaries, copyright 1962).

b. Claim Reserves:

Actual amount incurred.

5. Other Individual Contract Benefits.

a. Contract Reserves:

For all other individual contract benefits, morbidity assumptions are to be determined as provided in the reserve standards.

b. Claim Reserves:

For all benefits other than disability, claim reserves are to be determined as provided in the standards.

B. Minimum morbidity standards for valuation of specified group contract health insurance benefits are as follows:

1. Disability Income Benefits Due to Accident or Sickness

a. Contract Reserves:

(1) Contracts issued prior to January 1, 1993:

The same basis, if any, as that employed by the insurer as of January 1, 1993;

(2) Contracts issued on or after January 1, 1993:

The 1987 Commissioners Group Disability Income Table (87CGDT) (published in the *Transactions of the Society of Actuaries*, Volume XXXIX, pp. 393-458).

b. Claim Reserves:

- (1) For claims incurred on or after January 1, 1993:

The 1987 Commissioners Group Disability Income Table (87CGDT) (published in the *Transactions of the Society of Actuaries*, Volume XXXIX, pp. 393-458);

- (2) For claims incurred prior to January 1, 1993:

Use of the 87CGDT is optional.

## 2. Other Group Contract Benefits

### a. Contract Reserves:

For all other group contract benefits, morbidity assumptions are to be determined as provided in the reserve standards.

### b. Claim Reserves:

For all benefits other than disability, claim reserves are to be determined as provided in the standards.

## II. INTEREST

- A. For contract reserves the maximum interest rate is the maximum rate permitted by Article 7 of Title 10, C.R.S., for the valuation of whole life insurance issued on the same date as the health insurance contract.

- B. For claim reserves, for which interest discounting is expressly permitted:

1. On policies or certificates that require contract reserves, the maximum interest rate is the maximum rate permitted by Article 7 of Title 10, C.R.S., for the valuation of whole life insurance issued on the same date as the claim incurral date.
2. On policies or certificates not requiring contract reserves, the maximum interest rate is the maximum rate permitted by law in the valuation of single premium immediate annuities issued on the same date as the claim incurral date, reduced by one hundred basis points.

## III. MORTALITY

- A. Unless Subsection B or C applies, the mortality basis used shall be according to a table (but without use of selection factors) permitted by Article 7 of Title 10, C.R.S. for the valuation of whole life insurance issued on the same date as the health insurance contract.
- B. For long-term care individual policies and group certificates issued on or after January 1, 2013, the mortality basis used shall be the 1994 Group Annuity Mortality Static Table [with Projection Scale AA](#) (1994 GARM). The 1994 GARM table can be found in Appendix [AB](#) of Colorado Insurance Regulation 4-1-7.
- C. Other mortality tables adopted by the National Association of Insurance Commissioners and promulgated by the Commissioner may be requested to be used in the calculation of the minimum reserves if appropriate for the type of benefits and if approved by the Commissioner. The request for such approval must include the proposed mortality table and the reason that the standard specified in Subsection A is inappropriate.

## APPENDIX B. GLOSSARY OF TECHNICAL TERMS USED

As used in this valuation standard, the following terms have the following meaning:

**ANNUAL CLAIM COST.** The net annual cost per unit of benefit before the addition of expenses, including claim settlement expenses, and a margin for profit or contingencies. For example, the annual claim cost for a \$100 monthly disability benefit, for a maximum disability benefit period of one year, with an elimination period of one week, with respect to a male at age 35, in a certain occupation might be \$12, while the gross premium for this benefit might be \$18. The additional \$6 would cover expenses and profit or contingencies.

**CLAIMS ACCRUED.** That portion of claims incurred on or prior to the valuation date which result in liability of the insurer for the payment of benefits for medical services which have been rendered on or prior to the valuation date, and for the payment of benefits for days of hospitalization and days of disability which have occurred on or prior to the valuation date, which the insurer has not paid as of the valuation date, but for which it is liable, and will have to pay after the valuation date. This liability is sometimes referred to as a liability for "accrued" benefits. A claim reserve, which represents an estimate of this accrued claim liability, must be established.

**CLAIMS REPORTED.** When an insurer has been informed that a claim has been incurred, if the date reported is on or prior to the valuation date, the claim is considered as a reported claim for annual statement purposes.

**CLAIMS UNACCRUED.** That portion of claims incurred on or prior to the valuation date which result in liability of the insurer for the payment of benefits for medical services expected to be rendered after the valuation date, and for benefits expected to be payable for days of hospitalization and days of disability occurring after the valuation date. This liability is sometimes referred to as a liability for unaccrued benefits. A claim reserve, which represents an estimate of the unaccrued claim payments expected to be made, must be established.

**CLAIMS UNREPORTED.** When an insurer has not been informed, on or before the valuation date, concerning a claim that has been incurred on or prior to the valuation date, the claim is considered as an unreported claim for annual statement purposes.

**DATE OF DISABLEMENT.** The earliest date the insured is considered as being disabled under the definition of disability in the contract, based on a doctor's evaluation or other evidence. Normally this date will coincide with the start of any elimination period.

**ELIMINATION PERIOD.** A specified number of days, weeks, or months starting at the beginning of each period of loss, during which no benefits are payable.

**GROSS PREMIUM.** The amount of premium charged by the insurer. It includes the net premium (based on claim cost) for the risk, together with any loading for expenses, profit or contingencies.

**GROUP INSURANCE.** The term group insurance includes blanket insurance and franchise insurance and any other forms of group insurance.

**GROUP LONG-TERM DISABILITY INCOME.** The term group long-term disability income includes group contracts providing group disability income coverage with a maximum benefit duration longer than two years. Group long-term disability income contracts are based on a group pricing structure. The term group long-term disability does not include group short-term disability (coverage with benefit periods of two years or less in maximum duration). It also does not include voluntary group disability income coverage that is priced on an individual risk structure and generally sold in the workplace.

**LEVEL PREMIUM.** A premium calculated to remain unchanged throughout either the lifetime of the policy, or for some shorter projected period of years. The premium need not be guaranteed; in which case, although it is calculated to remain level, it may be changed if any of the assumptions on which it was based are revised at a later time. Generally, the annual claim costs are expected to increase each year and the insurer, instead of charging premiums that correspondingly increase each year, charges a premium calculated to remain level for a period of years or for the lifetime of the contract. In this case the benefit portion of the premium is more than needed to provide for the cost of benefits during the earlier years of the policy and less than the actual cost in the later years. The building of a prospective contract reserve is a natural result of level premiums.

**MODAL PREMIUM.** This refers to the gross premium paid on a contract based on a premium term which could be annual, semiannual, quarterly, monthly, or weekly. Thus, if the annual premium is \$100 and if, instead, monthly premiums of \$9 are paid then the modal premium is \$9.

**NEGATIVE RESERVE.** Normally the terminal reserve is a positive value. However, if the values of the benefits are decreasing with advancing age or duration it could be a negative value, called a negative reserve.

**PRELIMINARY TERM RESERVE METHOD.** Under this method of valuation, the valuation net premium for each year falling within the preliminary term period is exactly sufficient to cover the expected incurred claims of that year, so that the terminal reserves will be zero at the end of the year. As of the end of the preliminary term period, a new constant valuation net premium (or stream of changing valuation premiums) becomes applicable such that the present value of all such premiums is equal to the present value of all claims expected to be incurred following the end of the preliminary term period.

**PRESENT VALUE OF AMOUNTS NOT YET DUE ON CLAIMS.** The reserve for "claims unaccrued" (see definition), which may be discounted at interest.

**RATING BLOCK.** "Rating block" means a grouping of contracts based on common characteristics, such as a policy form or forms having similar benefit designs.

**RESERVE.** The term "reserve" is used to include all items of benefit liability, whether in the nature of incurred claim liability or in the nature of contract liability relating to future periods of coverage, and whether the liability is accrued or unaccrued.

An insurer under its contracts promises benefits which result in:

- a. Claims which have been incurred, that is, for which the insurer has become obligated to make payment, on or prior to the valuation date. On these claims, payments expected to be made after the valuation date for accrued and unaccrued benefits are liabilities of the insurer which should be provided for by establishing claim reserves; or
- b. Claims which are expected to be incurred after the valuation date. Any present liability of the insurer for these future claims should be provided for by the establishment of contract reserves and unearned premium reserves.

**TERMINAL RESERVE.** This is the reserve at the end of a contract year, and is defined as the present value of benefits expected to be incurred after that contract year minus the present value of future valuation net premiums.

**UNEARNED PREMIUM RESERVE.** This reserve values that portion of the premium paid or due to the insurer which is applicable to the period of coverage extending beyond the valuation date. Thus, if an annual premium of \$120 was paid on November 1, \$20 would be earned as of December 31 and the remaining \$100 would be unearned. The unearned premium reserve could be on a gross basis as in this example, or on a valuation net premium basis.

VALUATION NET MODAL PREMIUM. This is the modal fraction of the valuation net annual premium that corresponds to the gross modal premium in effect on any contract to which contract reserves apply. Thus, if the mode of payment in effect is quarterly, the valuation net modal premium is the quarterly equivalent of the valuation net annual premium.

WORKSITE DISABILITY POLICIES. The term worksite disability policy refers to individual short-term disability policies that are sold at the worksite through employer-sponsored enrollment, cover normal pregnancy, and that have benefit periods up to 24 months. Worksite disability policies do not include personal disability policies sold to an individual and not associated with employer-sponsored enrollment. They also do not include business overhead expense, disability buyout, or key person policies, in whatever manner those policies are sold.

## APPENDIX C. RESERVES FOR WAIVER OF PREMIUM

(Supplementary explanatory material)

Waiver of premium reserves involve several special considerations. First, the disability valuation tables promulgated by the National Association of Insurance Commissioners are based on exposures that include contracts on premium waiver as in-force contracts. Hence, contract reserves based on these tables are NOT reserves on "active lives" but rather reserves on contracts "in force." This is true for the 1964 CDT and for the 1985CIDA, 1985CIDB and 1985CIDC tables.

Accordingly, tabular reserves using any of these tables should value reserves on the following basis:

Claim reserves should include reserves for premiums expected to be waived, valuing as a minimum the valuation net premium being waived.

Premium reserves should include contracts on premium waiver as in-force contracts, valuing as a minimum the unearned modal valuation net premium being waived.

Contract reserves should include recognition of the waiver of premium benefit in addition to other contract benefits provided for, valuing as a minimum the valuation net premium to be waived.

If an insurer is, instead, valuing reserves on what is truly an active life table, or if a specific valuation table is not being used but the insurer's gross premiums are calculated on a basis that includes in the projected exposure only those contracts for which premiums are being paid, then it may not be necessary to provide specifically for waiver of premium reserves. Any insurer using such a true "active life" basis should carefully consider, however, whether or not additional liability should be recognized on account of premiums waived during periods of disability or during claim continuation.

**Subjects and issues involved**

The purpose and intent of this regulation is to establish uniform, national standards governing reserve financing arrangements pertaining to life insurance policies containing guaranteed nonlevel gross premiums, guaranteed nonlevel benefits and universal life insurance policies with secondary guarantees; and to ensure that, with respect to each such financing arrangement, funds consisting of Primary Security and Other Security, as defined in Section 4, are held by or on behalf of ceding insurers in the forms and amounts required herein. In general, reinsurance ceded for reserve financing purposes has one or more of the following characteristics: some or all of the assets used to secure the reinsurance treaty or to capitalize the reinsurer (1) are issued by the ceding insurer or its affiliates; or (2) are not unconditionally available to satisfy the general account obligations of the ceding insurer; or (3) create a reimbursement, indemnification or other similar obligation on the part of the ceding insurer or any of its affiliates (other than a payment obligation under a derivative contract acquired in the normal course and used to support and hedge liabilities pertaining to the actual risks in the policies ceded pursuant to the reinsurance treaty).

### 3 CCR 702-4

#### LIFE, ACCIDENT AND HEALTH

##### DRAFT Proposed New Regulation 4-1-16

##### TERM AND UNIVERSAL LIFE INSURANCE RESERVE FINANCING

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Exemptions from this Regulation
Section 6	The Actuarial Method
Section 7	Requirements Applicable to Covered Policies to Obtain Credit for Reinsurance; Opportunity for Remediation
Section 8	Severability
Section 9	Enforcement
Section 10	Effective Date
Section 11	History

##### **Section 1 Authority**

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-7-101; 10-7-309 - 10-7-316; 10-7-114, C.R.S.

##### **Section 2 Scope and Purpose**

The purpose and intent of this regulation is to establish uniform, national standards governing reserve financing arrangements pertaining to life insurance policies containing guaranteed nonlevel gross premiums, guaranteed nonlevel benefits and universal life insurance policies with secondary guarantees; and to ensure that, with respect to each such financing arrangement, funds consisting of Primary Security and Other Security, as defined in Section 4, are held by or on behalf of ceding insurers in the forms and amounts required herein. In general, reinsurance ceded for reserve financing purposes has one or more of the following characteristics: some or all of the assets used to secure the reinsurance treaty or to capitalize the reinsurer (1) are issued by the ceding insurer or its affiliates; or (2) are not unconditionally available to satisfy the general account obligations of the ceding insurer; or (3) create a reimbursement, indemnification or other similar obligation on the part of the ceding insurer or any of its affiliates (other than a payment obligation under a derivative contract acquired in the normal course and used to support and hedge liabilities pertaining to the actual risks in the policies ceded pursuant to the reinsurance treaty).

##### **Section 3 Applicability**

This regulation shall apply to reinsurance treaties that cede liabilities pertaining to Covered Policies, as that term is defined in Section 4.B., issued by any life insurance company domiciled in this state. This regulation and Colorado Regulation 3-3-3 shall both apply to such reinsurance treaties; provided, that in the event of a direct conflict between the provisions of this regulation and Colorado Regulation 3-3-3, the provisions of this regulation shall apply, but only to the extent of the conflict.

##### **Section 4 Definitions**

- A. "Actuarial Method" means the methodology used to determine the Required Level of Primary Security, as described in Section 6.
- B. "Covered Policies" means the following: Subject to the exemptions described in Section 5, Covered Policies are those policies, other than Grandfathered Policies, of the following policy types:
1. Life insurance policies with guaranteed nonlevel gross premiums and/or guaranteed nonlevel benefits, except for flexible premium universal life insurance policies; or,
  2. Flexible premium universal life insurance policies with provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period.
- C. "Grandfathered Policies" means policies of the types described in Subsections B1 and B2 above that were:
1. Issued prior to January 1, 2015; and
  2. Ceded, as of December 31, 2014, as part of a reinsurance treaty that would not have met one of the exemptions set forth in Section 5 had that section then been in effect.
- D. "Non-Covered Policies" means any policy that does not meet the definition of Covered Policies, including Grandfathered Policies.
- E. "Required Level of Primary Security" means the dollar amount determined by applying the Actuarial Method to the risks ceded with respect to Covered Policies, but not more than the total reserve ceded.
- F. "Primary Security" means the following forms of security:
1. Cash meeting the requirements of Section 10-3-703(1)(a), C.R.S.;
  2. Securities listed by the Securities Valuation Office meeting the requirements of Section 10-3-703(1)(b), C.R.S., but excluding any synthetic letter of credit, contingent note, credit-linked note or other similar security that operates in a manner similar to a letter of credit, and excluding any securities issued by the ceding insurer or any of its affiliates; and
  3. For security held in connection with funds-withheld and modified coinsurance reinsurance treaties:
    - a. Commercial loans in good standing of CM3 quality and higher;
    - b. Policy Loans; and
    - c. Derivatives acquired in the normal course and used to support and hedge liabilities pertaining to the actual risks in the policies ceded pursuant to the reinsurance treaty.
- G. "Other Security" means any security acceptable to the commissioner other than security meeting the definition of Primary Security.
- H. "Valuation Manual" shall have the same meaning as found at Section 10-7-301.5(12), C.R.S..
- I. "VM-20" means "Requirements for Principle-Based Reserves for Life Products," including all relevant definitions, from the Valuation Manual.

## **Section 5      Exemptions from this Regulation**

This regulation does not apply to the situations described in Subsections A through E.

**A.      Reinsurance of:**

1.      Policies that satisfy the criteria set forth in Optional Exemption for Attained-Age-Based Yearly Renewable Term Life Insurance Policies or Exemption from Unitary Reserves for Certain n-Year Renewable Term Life Insurance Policies in Colorado Regulation 4-1-9; and which are issued before the later of:
  - a.      The effective date of this regulation, and
  - b.      The date on which the ceding insurer begins to apply the provisions of VM-20 to establish the ceded policies' statutory reserves, but in no event later than Jan 1, 2020;
2.      Portions of policies that satisfy the criteria for exemption set forth in Optional Exemption for Yearly Renewable Term (YRT) Reinsurance in Colorado Regulation 4-1-9 and which are issued before the later of:
  - a.      The effective date of this regulation, and
  - b.      The date on which the ceding insurer begins to apply the provisions of VM-20 to establish the ceded policies' statutory reserves, but in no event later than Jan. 1, 2020;
3.      Any universal life policy that meets all of the following requirements:
  - a.      Secondary guarantee period, if any, is five (5) years or less;
  - b.      Specified premium for the secondary guarantee period is not less than the net level reserve premium for the secondary guarantee period based on the Commissioners Standard Ordinary (CSO) valuation tables and valuation interest rate applicable to the issue year of the policy; and
  - c.      The initial surrender charge is not less than one hundred percent (100%) of the first year annualized specified premium for the secondary guarantee period;
4.      Credit life insurance;
5.      Any variable life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts; or
6.      Any group life insurance certificate unless the certificate provides for a stated or implied schedule of maximum gross premiums required in order to continue coverage in force for a period in excess of one year.

**B.      Reinsurance ceded to an assuming insurer that meets the applicable requirements of Section 10-3-702(5), C.R.S.; or**

**C.      Reinsurance ceded to an assuming insurer that meets the applicable requirements of Section 10-3-702(2) or 10-3-702(3) or 10-3-702(4), C.R.S., and that, in addition:**

1. Prepares statutory financial statements in compliance with the NAIC Accounting Practices and Procedures Manual, without any departures from NAIC statutory accounting practices and procedures pertaining to the admissibility or valuation of assets or liabilities that increase the assuming insurer's reported surplus and are material enough that they need to be disclosed in the financial statement of the assuming insurer pursuant to Statement of Statutory Accounting Principles No. 1 ("SSAP 1"); and
  2. Is not in a Company Action Level Event, Regulatory Action Level Event, Authorized Control Level Event, or Mandatory Control Level Event as those terms are defined in Colorado Regulation 3-1-11 when its RBC is calculated in accordance with the life risk-based capital report including overview and instructions for companies, as the same may be amended by the NAIC from time to time, without deviation; or
- D. Reinsurance ceded to an assuming insurer that meets the applicable requirements of Section 10-3-702(2) or 10-3-702(3) or 10-3-702(4), C.R.S., and that, in addition:
1. Is not an affiliate, as that term is defined in Section 10-3-801(1), C.R.S., of:
    - a. The insurer ceding the business to the assuming insurer; or
    - b. Any insurer that directly or indirectly ceded the business to that ceding insurer;
  2. Prepares statutory financial statements in compliance with the NAIC Accounting Practices and Procedures Manual;
  3. Is both:
    - a. Licensed or accredited in at least 10 states (including its state of domicile), and
    - b. Not licensed in any state as a captive, special purpose vehicle, special purpose financial captive, special purpose life reinsurance company, limited purpose subsidiary, or any other similar licensing regime; and
  4. Is not, or would not be, below 500% of the Authorized Control Level RBC as that term is defined in Colorado Regulation 3-1-11 when its Risk-Based Capital (RBC) is calculated in accordance with the life risk-based capital report including overview and instructions for companies, as the same may be amended by the NAIC from time to time, without deviation, and without recognition of any departures from NAIC statutory accounting practices and procedures pertaining to the admission or valuation of assets or liabilities that increase the assuming insurer's reported surplus; or
- E. Reinsurance not otherwise exempt under Subsections A through D if the commissioner, after consulting with the NAIC Financial Analysis Working Group (FAWG) or other group of regulators designated by the NAIC, as applicable, determines under all the facts and circumstances that all of the following apply:
1. The risks are clearly outside of the intent and purpose of this regulation (as described in Section 2 above);
  2. The risks are included within the scope of this regulation only as a technicality; and
  3. The application of this regulation to those risks is not necessary to provide appropriate protection to policyholders. The commissioner shall publicly disclose any decision made pursuant to this Section 5.E. to exempt a reinsurance treaty from this regulation, as well as the general basis therefor (including a summary description of the treaty).

## Section 6      The Actuarial Method

### A.      Actuarial Method

The Actuarial Method to establish the Required Level of Primary Security for each reinsurance treaty subject to this regulation shall be VM-20, applied on a treaty-by-treaty basis, including all relevant definitions, from the Valuation Manual as then in effect, applied as follows:

1. For Covered Policies described in Section 4.B.1. above, the Actuarial Method is the greater of the Deterministic Reserve or the Net Premium Reserve (NPR) regardless of whether the criteria for exemption testing can be met. However, if the Covered Policies do not meet the requirements of the Stochastic Reserve exclusion test in the Valuation Manual, then the Actuarial Method is the greatest of the Deterministic Reserve, the Stochastic Reserve, or the NPR. In addition, if such Covered Policies are reinsured in a reinsurance treaty that also contains Covered Policies described in Section 4.B.2 above, the ceding insurer may elect to instead use Section 6.A.2. as the Actuarial Method for the entire reinsurance agreement. Whether Section 6.A.1 or Section 6.A.2. are used, the Actuarial Method must comply with any requirements or restrictions that the Valuation Manual imposes when aggregating these policy types for purposes of principle-based reserve calculations.
2. For Covered Policies described in Section 4.B.2. above, the Actuarial Method is the greatest of the Deterministic Reserve, the Stochastic Reserve, or the NPR regardless of whether the criteria for exemption testing can be met.
3. Except as provided in Section 6.A.4 , the Actuarial Method is to be applied on a gross basis to all risks with respect to the Covered Policies as originally issued or assumed by the ceding insurer.
4. If the reinsurance treaty cedes less than one hundred percent (100%) of the risk with respect to the Covered Policies then the Required Level of Primary Security may be reduced as follows:
  - a. If a reinsurance treaty cedes only a quota share of some or all of the risks pertaining to the Covered Policies, the Required Level of Primary Security, as well as any adjustment under Section 6.A.4.c, may be reduced to a pro rata portion in accordance with the percentage of the risk ceded;
  - b. If the reinsurance treaty in a non-exempt arrangement cedes only the risks pertaining to a secondary guarantee, the Required Level of Primary Security may be reduced by an amount determined by applying the Actuarial Method on a gross basis to all risks, other than risks related to the secondary guarantee, pertaining to the Covered Policies, except that for Covered Policies for which the ceding insurer did not elect to apply the provisions of VM-20 to establish statutory reserves, the Required Level of Primary Security may be reduced by the statutory reserve retained by the ceding insurer on those Covered Policies, where the retained reserve of those Covered Policies should be reflective of any reduction pursuant to the cession of mortality risk on a yearly renewable term basis in an exempt arrangement;
  - c. If a portion of the Covered Policy risk is ceded to another reinsurer on a yearly renewable term basis in an exempt arrangement, the Required Level of Primary Security may be reduced by the amount resulting by applying the Actuarial Method including the reinsurance section of VM-20 to the portion of the Covered Policy risks ceded in the exempt arrangement, except that for Covered Policies

issued prior to Jan 1, 2017, this adjustment is not to exceed  $[c_x / (2 * \text{number of reinsurance premiums per year})]$  where  $c_x$  is calculated using the same mortality table used in calculating the Net Premium Reserve; and

- d. For any other treaty ceding a portion of risk to a different reinsurer, including but not limited to stop loss, excess of loss and other non-proportional reinsurance treaties, there will be no reduction in the Required Level of Primary Security.

It is possible for any combination of Section 6.A.4 to apply. Such adjustments to the Required Level of Primary Security will be done in the sequence that accurately reflects the portion of the risk ceded via the treaty. The ceding insurer should document the rationale and steps taken to accomplish the adjustments to the Required Level of Primary Security due to the cession of less than one hundred percent (100%) of the risk.

The Adjustments for other reinsurance will be made only with respect to reinsurance treaties entered into directly by the ceding insurer. The ceding insurer will make no adjustment as a result of a retrocession treaty entered into by the assuming insurers.

- 5. In no event will the Required Level of Primary Security resulting from application of the Actuarial Method exceed the amount of statutory reserves ceded.
- 6. If the ceding insurer cedes risks with respect to Covered Policies, including any riders, in more than one reinsurance treaty subject to this regulation, in no event will the aggregate Required Level of Primary Security for those reinsurance treaties be less than the Required Level of Primary Security calculated using the Actuarial Method as if all risks ceded in those treaties were ceded in a single treaty subject to this regulation;
- 7. If a reinsurance treaty subject to this regulation cedes risk on both Covered and Non-Covered Policies, credit for the ceded reserves shall be determined as follows:
  - a. The Actuarial Method shall be used to determine the Required Level of Primary Security for the Covered Policies, and Section 7 shall be used to determine the reinsurance credit for the Covered Policy reserves; and
  - b. Credit for the Non-Covered Policy reserves shall be granted only to the extent that security, in addition to the security held to satisfy the requirements of Subparagraph (a), is held by or on behalf of the ceding insurer in accordance with Sections 10-3-702 — 10-3-703, C.R.S.. Any Primary Security used to meet the requirements of this Subparagraph may not be used to satisfy the Required Level of Primary Security for the Covered Policies.

#### B. Valuation used for Purposes of Calculations

For the purposes of both calculating the Required Level of Primary Security pursuant to the Actuarial Method and determining the amount of Primary Security and Other Security, as applicable, held by or on behalf of the ceding insurer, the following shall apply:

- 1. For assets, including any such assets held in trust, that would be admitted under the NAIC Accounting Practices and Procedures Manual if they were held by the ceding insurer, the valuations are to be determined according to statutory accounting procedures as if such assets were held in the ceding insurer's general account and without taking into consideration the effect of any prescribed or permitted practices; and
- 2. For all other assets, the valuations are to be those that were assigned to the assets for the purpose of determining the amount of reserve credit taken. In addition, the asset

spread tables and asset default cost tables required by VM-20 shall be included in the Actuarial Method if adopted by the NAIC's Life Actuarial (A) Task Force no later than the Dec. 31st on or immediately preceding the valuation date for which the Required Level of Primary Security is being calculated. The tables of asset spreads and asset default costs shall be incorporated into the Actuarial Method in the manner specified in VM-20.

## **Section 7      Requirements Applicable to Covered Policies to Obtain Credit for Reinsurance; Opportunity for Remediation**

### **A.      Requirements**

Subject to the exemptions described in Section 5 and the provisions of Section 7.B., credit for reinsurance shall be allowed with respect to ceded liabilities pertaining to Covered Policies pursuant to Section 10-3-702 or 10-3-703, C.R.S. if, and only if, in addition to all other requirements imposed by law or regulation, the following requirements are met on a treaty-by-treaty basis:

1.      The ceding insurer's statutory policy reserves with respect to the Covered Policies are established in full and in accordance with the applicable requirements of Sections 10-7-101; 10-7-309 - 10-7-316; 10-7-114, C.R.S., and related regulations and actuarial guidelines, and credit claimed for any reinsurance treaty subject to this regulation does not exceed the proportionate share of those reserves ceded under the contract; and
2.      The ceding insurer determines the Required Level of Primary Security with respect to each reinsurance treaty subject to this regulation and provides support for its calculation as determined to be acceptable to the commissioner; and
3.      Funds consisting of Primary Security, in an amount at least equal to the Required Level of Primary Security, are held by or on behalf of the ceding insurer, as security under the reinsurance treaty within the meaning of Section 10-3-703, C.R.S., on a funds withheld, trust, or modified coinsurance basis; and
4.      Funds consisting of Other Security, in an amount at least equal to any portion of the statutory reserves as to which Primary Security is not held pursuant to Section 7.A.3., are held by or on behalf of the ceding insurer as security under the reinsurance treaty within the meaning of Section 10-3-703, C.R.S.; and
5.      Any trust used to satisfy the requirements of this Section 7 shall comply with all of the conditions and qualifications of Colorado Regulation 3-3-3, except that:
  - a.      Funds consisting of Primary Security or Other Security held in trust, shall for the purposes identified in Section 6.B., be valued according to the valuation rules set forth in Section 6.B., as applicable; and
  - b.      There are no affiliate investment limitations with respect to any security held in such trust if such security is not needed to satisfy the requirements of Section 7.A.3; and
  - c.      The reinsurance treaty must prohibit withdrawals or substitutions of trust assets that would leave the fair market value of the Primary Security within the trust (when aggregated with Primary Security outside the trust that is held by or on behalf of the ceding insurer in the manner required by Section 7.A.3. below 102% of the level required by Section 7.A.3. at the time of the withdrawal or substitution; and

- d. The determination of reserve credit under Colorado Regulation 3-3-3 shall be determined according to the valuation rules set forth in Section 6.B., as applicable; and
  - 6. The reinsurance treaty has been approved by the commissioner.
- B. Requirements at Inception Date and on an On-going Basis; Remediation
- 1. The requirements of Section 7.A. must be satisfied as of the date that risks under Covered Policies are ceded (if such date is on or after the effective date of this regulation) and on an ongoing basis thereafter. Under no circumstances shall a ceding insurer take or consent to any action or series of actions that would result in a deficiency under Section 7.A.3 or 7.A.4 with respect to any reinsurance treaty under which Covered Policies have been ceded, and in the event that a ceding insurer becomes aware at any time that such a deficiency exists, it shall use its best efforts to arrange for the deficiency to be eliminated as expeditiously as possible.
  - 2. Prior to the due date of each Quarterly or Annual Statement, each life insurance company that has ceded reinsurance within the scope of Section 3 shall perform an analysis, on a treaty-by-treaty basis, to determine, as to each reinsurance treaty under which Covered Policies have been ceded, whether as of the end of the immediately preceding calendar quarter (the valuation date) the requirements of Sections 7.A.3 and Section 7.A.4 were satisfied. The ceding insurer shall establish a liability equal to the excess of the credit for reinsurance taken over the amount of Primary Security actually held pursuant to Section 7.A.3., unless either:
    - a. The requirements of Section 7.A.3. and Section 7.A.4. were fully satisfied as of the valuation date as to such reinsurance treaty; or
    - b. Any deficiency has been eliminated before the due date of the Quarterly or Annual Statement to which the valuation date relates through the addition of Primary Security and/or Other Security, as the case may be, in such amount and in such form as would have caused the requirements of Section 7.A.3. and 7.A.4. to be fully satisfied as of the valuation date.
  - 3. Nothing in Section 7.B.2. shall be construed to allow a ceding company to maintain any deficiency under Section 7.A.3. or Section 7.A.4. for any period of time longer than is reasonably necessary to eliminate it.

## **Section 8 Severability**

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

## **Section 9 Enforcement**

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

## **Section 10 Effective Date**

This regulation shall be effective January 1, 2023

## **Section 11      History**

New regulation effective January 1, 2023.

#### LIFE, ACCIDENT AND HEALTH

#### DRAFT Proposed Emergency Regulation 4-2-9022-E-12

#### **CONCERNING COVERAGE ~~AND REIMBURSEMENT~~ FOR COVID-19 VACCINES DURING THE COVID-19 RECOVERY**

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Coverage <del>and Reimbursement</del> for COVID-19 Vaccines
Section 6	Severability
Section 7	Incorporation by Reference
Section 8	Enforcement
Section 9	Effective Date
Section 10	History

#### **Section 1 Authority**

This ~~emergency~~ regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-108(7), 10-1-109(1), 10-16-109, and 10-16-708, C.R.S. ~~Further, this emergency regulation is promulgated pursuant to the Governor's Executive Order D-2021-122, rescinding Executive Order D-2020-003, as amended and extended, and directing the ongoing facilitation of the administration of the lifesaving COVID-19 vaccine.~~

COVID-19 vaccines and associated administration costs are intended to be available free of cost to all consumers. In interim final rules effective November 2, 2020, the Department of Health and Human Services (HHS) requires carriers to reimburse providers with whom they do not have a negotiated rate at an amount that is reasonable for qualifying coronavirus preventive services. 45 CFR § 147.130. Qualifying coronavirus preventive services include an immunization and its administration.

#### **Section 2 Scope and Purpose**

The purpose of this ~~emergency~~ regulation is to require carriers to provide access to COVID-19 vaccines without cost-sharing ~~during the state's COVID-19 recovery. This emergency regulation also sets COVID-19 vaccine administration reimbursement requirements.~~

~~The Division of Insurance finds, pursuant to § 24-4-103(6)(a), C.R.S., that immediate adoption of this regulation is imperatively necessary for the preservation of public health, safety, or welfare as allowing individuals safe access to COVID-19 vaccines and ensuring facilities have adequate resources and availability to treat COVID-19 patients is imperative to preserve the health of the citizens of Colorado. Therefore, compliance with the requirements of § 24-4-103, C.R.S., would be contrary to the public interest.~~

### **Section 3      Applicability**

This regulation shall apply to all carriers offering individual, small group, large group plans, student health plans, and managed care plans subject to the insurance laws of Colorado. Carriers who are third-party administrators for self-funded plans are strongly encouraged to follow the requirements of this regulation ~~in order to create uniform billing structures during the COVID-19 recovery.~~

### **Section 4      Definitions**

- A. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- B. "Covered person" shall have the same meaning as found at § 10-16-102(15), C.R.S.

### **Section 5      Coverage and Reimbursement for COVID-19 Vaccines**

Carriers shall ~~immediately~~ cover all FDA authorized or approved vaccines for COVID-19 ~~throughout the duration of the COVID-19 recovery~~, including all associated costs of administration, at no cost-sharing. The requirement to cover the vaccine applies upon FDA authorization or approval and is not contingent on the issuance of a recommendation by the Center for Disease Control's Advisory Committee on Immunization Practices.

~~Pursuant to Executive Order D 2021 122, and any further extensions of that Order, and based upon COVID-19 vaccine administration payment rates established by Medicare and Medicaid, a reasonable rate for COVID-19 vaccine administration is \$41.18. Carriers shall reimburse out-of-network providers administering COVID-19 vaccines at no less than this rate for these services.~~

### **Section 6      Severability**

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

### **Section 7      Incorporation by Reference**

45 CFR § 147.130 published by the Government Printing Office shall mean 45 CFR § 147.130 as published on the effective date of this regulation and does not include later amendments to or editions of 45 CFR § 147.130. A copy of 45 CFR § 147.130 may be examined during regular business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado, 80202. A certified copy of 45 CFR § 147.130 may be requested from the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, CO 80202. A charge for certification or copies may apply. A copy may also be obtained online at [www.ecfr.gov](http://www.ecfr.gov).

## **Section 8      Enforcement**

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

## **Section 9      Effective Date**

This ~~emergency~~ regulation shall be effective ~~May 19, 2022~~ January 1, 2023.

## **Section 10      History**

~~This emergency regulation replaces e~~Emergency regulation 21-E-11, ~~which~~ became effective July 22, 2021, ~~in its entirety~~.

~~This emergency regulation replaces e~~Emergency regulation 21-E-13, ~~which~~ became effective September 21, 2021.

~~This emergency regulation replaces E~~Emergency regulation 22-E-04, ~~which~~ became effective January 19, 2022.

Emergency regulation 22-E-12, became effective May 19, 2022.

This ~~emergency~~ regulation shall be effective ~~May 19, 2022~~ January 1, 2023.

## DIVISION OF INSURANCE

### 3 CCR 702-4

#### LIFE, ACCIDENT AND HEALTH

**DRAFT Proposed** Amended Regulation 4-2-58

#### **NON-DISCRIMINATORY COST-SHARING AND TIERING REQUIREMENTS FOR PRESCRIPTION DRUGS**

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Drug Tiering and Non-Discriminatory Plan Design
Section 6	Required Drug Copayment-only Payment Structures
Section 7	Required Methodology
Section 8	Severability
Section 9	Enforcement
Section 10	Effective Date
Section 11	History

#### **Section 1 Authority**

This regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-3-1110, [10-16-103.6\(2\)](#), 10-16-108.5(8), 10-16-109, C.R.S.

#### **Section 2 Scope and Purpose**

The purpose of this regulation is to establish rules for carriers regarding non-discriminatory cost-sharing and tiering requirements for prescription drugs.

#### **Section 3 Applicability**

This regulation applies to all Affordable Care Act-compliant individual and small employer health benefit plans issued or renewed on or after January 1, 2023<sup>32</sup>. This regulation does not apply to catastrophic plans, grandfathered plans, large group [health benefit](#) plans, Health Savings Account (HSA)-qualified high deductible health benefit plans, limited benefit plans or short-term limited duration health insurance policies.

#### **Section 4 Definitions**

- A. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- B. "Catastrophic plan" shall have the same meaning as found at § 10-16-102(10), C.R.S.
- C. "Exchange" shall have the same meaning as found at § 10-16-102(26), C.R.S.
- D. "Grandfathered health benefit plan" and "grandfathered plan" shall have the same meaning as found at § 10-16-102(31), C.R.S.

- E. "Health benefit plan" shall have the same meaning as found at § 10-16-102(32), C.R.S.
- F. "Limited benefit health plans" means, for the purposes of this regulation, any type of health coverage that is not provided by a health benefit plan, as defined in § 10-16-102(32)(a), C.R.S.
- G. "Meaningful difference" means, for the purposes of this regulation, ten percent (10%) or greater.
- H. "Medical service drugs" means, for the purposes of this regulation, prescription drugs that are administered by a physician or other provider in the provider's office or other outpatient setting and covered under the plan's medical benefits. Medical Service Drugs are not generally covered under the plan's pharmacy benefits.
- I. "Preventive care drugs" means, for the purposes of this regulation, drugs designated as preventive under state or federal law.
- J. "Service area" means, for the purposes of this regulation, the [geographic](#) area a carrier offers a plan or plans. Service areas may [be limited to include](#) specific zip codes, counties or may be statewide.
- K. "Short-term limited duration health insurance policy" and "short-term policy" shall have the same meaning as found at § 10-16-102(60), C.R.S.
- L. "Small employer" shall have the same meaning as found at § 10-16-102(61), C.R.S.

## **Section 5 Drug Tiering and Non-Discriminatory Plan Design**

- A. Individual and small employer carriers shall not discriminate against individuals based on health status or claims experience. Carriers shall not encourage or direct individuals or small employers to refrain from filing an application for coverage because of health status or claims experience by ensuring that:
  - 1. No more than fifty percent (50%) of drugs on a formulary used to treat a specific condition are placed in the highest cost tier;
    - a. Carriers shall use the RxCUI to evaluate the fifty percent (50%) requirement specified in Section 5.A.1.;
    - b. The primary category and class for each drug will be utilized when calculating the fifty percent (50%) requirement; secondary uses and off-label usage shall not be included in the calculation; and
    - c. Drugs not included on a carrier's formulary shall not be considered as part of the fifty percent (50%) requirement calculation, including any drugs approved as part of the exception process.
  - 2. The most recent clinical studies shall be used in developing formularies to ensure consumers have access to screening and treatment in a timely manner.
- B. Carriers may use appropriate disease management or utilization reviews as part of a formulary design.
- C. Carriers shall use "Rx Copay" at the end of the marketing names for the copayment plans.
- D. Carriers shall list all preventive care drugs in the first (1<sup>st</sup>) tier of the formulary. Carriers shall not apply any cost sharing (e.g. deductibles, copayments or coinsurance) to preventive drugs.

- E. Carriers shall list all drugs considered medical service drugs that the carrier has included in the formulary on a separate tier.
- F. Carriers may list other drugs in any other tier offered.

## **Section 6 Required Drug Copayment-only Payment Structures**

For each of a carrier's service areas, no fewer than twenty-five percent (25%) of the plans offered for each metal level (Platinum, Gold, Silver and Bronze) must contain a copayment-only payment structure for all drug tiers. Carriers shall not apply the deductible or any coinsurance amount for these plans.

- A. The highest allowable copayment for the highest cost drug tier(s) must be no greater than 1/12<sup>th</sup> of the plan's "individual" annual out-of-pocket maximum.
- B. Copayments between the two highest cost tiers shall have a meaningful difference of at least ten percent (10%).
- C. For all tiers, carriers shall not employ benefit designs that will have the effect of discouraging individuals with significant prescription needs from enrolling in certain health benefit plans.
- D. Cost-sharing arrangements that utilize coinsurance up to a capped dollar amount maximum are not considered copayments and cannot be used to meet the all-copayment structure requirement.
- E. Carriers must meet the requirements of Section 6 separately for plans offered on the Exchange and plans that are offered off the Exchange.

## **Section 7 Required Methodology**

In order to determine compliance with the copayment requirements, carriers shall use the following calculation methodology:

- A. The numerator shall contain the count of all plans that have a copayment-only payment structure for all drug tiers for each metal level in a service area.
- B. The denominator shall contain the count of all plans, including plans with a copayment or coinsurance benefit, for each metal level in a service area. Catastrophic plans, grandfathered plans, large group plans and high deductible health plans that are HSA-qualified shall not be included in the total.
- C. This calculation shall be completed and submitted separately for plans that are offered on the Exchange and for plans offered off the Exchange.
- D. Plans that are marketed both on and off the Exchange must be included in the separate calculations for on-Exchange plans and off-Exchange plans.
- E. Carriers that market all plans on the Exchange and off of the Exchange shall submit one calculation.

## **Section 8 Severability**

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

## **Section 9 Enforcement**

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

#### **Section 10      Effective Date**

This regulation shall become effective on ~~June 1, 2021~~[January 1, 2023](#).

#### **Section 11      History**

New regulation effective June 1, 2018.

Amended regulation effective June 1, 2021.

## DEPARTMENT OF REGULATORY AGENCIES

### Colorado Dental Board

#### DENTISTS, [DENTAL THERAPISTS](#) & DENTAL HYGIENISTS RULES AND REGULATIONS

#### 3 CCR 709-1

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

##### 1.1 Authority

These regulations are adopted pursuant to the authority in sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S., and are intended to be consistent with the requirements of the State Administrative Procedures Act, section 24-4-101 *et seq.* (the "APA"), C.R.S., and the Dental Practice Act, sections 12-220-101 *et seq.* (the "Practice Act"), C.R.S.

##### 1.2 Scope and Purpose

These regulations shall govern the process to become a Colorado licensed dentist, [a Colorado licensed dental therapist](#) or a Colorado licensed dental hygienist and the practice of dental medicine in Colorado.

##### 1.3 Applicability

The provisions of this section shall be applicable to the practice of dentistry and dental hygiene in Colorado.

##### 1.4 Definitions

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

- A. The Board hereby incorporates by reference all definitions as contained in section 12-220-104, C.R.S., as amended.
- B. "Regularly announced office location" as specified in section 12-220-501(3)(d)(II), C.R.S., means those offices of which a dentist, [dental therapist](#) or a dental hygienist is the proprietor and in which the dentist, [dental therapist](#) or dental hygienist regularly practices dentistry, [dental therapy](#) or dental hygiene. This may include the occasional practice in other health care facilities such as hospitals, nursing homes, and/or other facilities under the jurisdiction of the Colorado Department of Public Health and Environment.
- C. "Regularly" means fixed intervals or periods as used in these Rules.
- D. "Certify or Certification" means to declare in writing on the patient's record.
- E. "Doctor's Office Notes" as used in section 25-1-802, C.R.S., and applied to dental, [dental therapy](#) and dental hygiene practice means a separate record within the patient's file that does not contain anything that relates to or constitutes diagnosis, treatment plan, radiograph interpretation, treatment progress or outcome. All such clinical information is considered the treatment record or progress notes.

- F. "Malpractice Judgment" or "Malpractice Settlement" as used in section 12-220-201(1)(r), C.R.S., means when a payment is made to a patient in an amount which exceeds the actual cost of the dental services.
- G. "Therapeutic Agents" as used in these Rules means any agent approved by the United States Food and Drug Administration (FDA) for use in controlled drug delivery systems in the course of periodontal pocket treatment.
- H. "Unprofessional Conduct" as used in section 12-220-203(3), C.R.S., means any cause that is grounds for disciplinary action pursuant to the "Dental Practice Act," section 12-220-201(1), C.R.S., and the "Healthcare Professions Profiling Program," section 12-30-102, C.R.S.

(Amended December 2, 2002; Amended and Re-numbered November 2, 2011, Effective December 30, 2011; Amended January 22, 2015, Effective March 30, 2015; Amended April 28, 2016, Effective June 30, 2016; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

### 1.5 Financial Responsibility Exemptions

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, 12-220-307, and 13-64-301(1)(a), C.R.S. Financial liability requirements pursuant to sections 13-64-301(1)(a) and 12-220-307, C.R.S., do not apply to a dentist, [dental therapist](#) or dental hygienist who:

- A. Is a public employee of the state of Colorado under the Colorado Governmental Immunity Act, section 24-10-101, C.R.S., et seq.;
- B. Performs dental services exclusively as an employee of the United States government;
- C. Holds an inactive license;
- D. Holds a retired license;
- E. Holds an active dental license, but does not engage in any patient care within Colorado or any of the acts constituting the practice of dentistry as defined by sections 12-220-104(6) and 12-220-305, C.R.S., including but not limited to the prescribing of medications, diagnosis, and development of a treatment plan;
- ~~F.~~ [Holds an active dental therapy license. but does not engage in any patient care within Colorado or any of the acts constituting the practice of dental therapy as defined by sections 12-220-104\(5.5\), 12-220-305 and 12-220-508, C.R.S.](#)
- ~~GF.~~ Holds an active dental hygiene license. but does not engage in any patient care within Colorado or any of the acts constituting the practice of dental hygiene as defined by sections 12-220-104(4), 12-220-104(5), 12-220-503, 12-220-504, and 12-220-501, C.R.S.; or
- ~~HG.~~ Provides uncompensated dental care and who does not otherwise engage in any compensated patient care whatsoever.

(Amended December 2, 2002; Amended and Re-numbered November 2, 2011, Effective December 30, 2011; Amended January 22, 2015, Effective March 30, 2015; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

### 1.6 Licensure of Dentists, [Dental Therapists](#) and Dental Hygienists

This Rule is promulgated pursuant to sections 12-20-202(3), 12-20-204, 12-220-105(3), ~~and~~ 12-220-106, [12-220-407.2 and 12-220-407.5](#) C.R.S.

A. General Requirements for Licensees and Applicants

1. Any person who practices or offers or attempts to practice dentistry, [dental therapy](#) or dental hygiene without an active license issued under the Dental Practice Act and in accordance with Board Rules commits a class 2 misdemeanor for the first offense and a class 6 felony for the second or any subsequent offense.
2. Any notification by the Board to a licensee or applicant, required or permitted under section 12-220-101 *et seq.*, C.R.S., or the State Administrative Procedure Act, section 24-4-101 *et seq.*, C.R.S., shall be served personally, by first class mail, or by electronic mail to the last address of record provided in writing to the Board. Service by electronic mail shall be deemed sufficient and proper upon a licensee or applicant.
3. Pursuant to section 12-280-403(2), C.R.S., dentists who hold a current registration issued by the federal drug enforcement administration shall register and maintain a user account with the electronic prescription drug monitoring program created in part 4 of article 280 of title 12.

**Licensees**

4. If a dentist [or dental hygienist](#) who holds an active license, including an academic license, is arrested for a drug or alcohol related offense, the dentist [or dental hygienist](#) shall refer himself/herself to the Board's peer health assistance program within thirty days after the arrest for an evaluation and referral for treatment as necessary. If the dentist [or dental hygienist](#) self refers, the evaluation by the program is confidential and cannot be used as evidence in any proceedings other than before the Board.
5. Change of name and address
  - a. A licensee shall inform the Board in clear, explicit, and unambiguous written statement of any name, business address, electronic mail address, or preferred physical mailing address change within thirty days of the change. The Board will not change the licensee's information without explicit written notification from the licensee. Notification by fax or email is acceptable. A licensee may update the licensee's address(es) online electronically through the Division of Professions and Occupations.
    - (1) A licensee is required to keep all business addresses up-to-date.
    - (2) The Division of Professions and Occupations maintains one physical mailing address and electronic mail address for each licensee, regardless of the number of different professional licenses the licensee may hold.
    - (3) All communication from the Board to a licensee will be to the physical mailing address or the electronic mail address maintained with the Division of Professions and Occupations.
  - b. The Board requires one of the following forms of documentation to change a licensee's name or correct a social security number or individual taxpayer identification number:
    - (1) Marriage license;
    - (2) Divorce decree;

- (3) Court order;
  - (4) Documentation from the Internal Revenue Service verifying the licensee's valid individual taxpayer identification number, or
  - (5) A driver's license or social security card with a second form of identification may be acceptable at the discretion of the Division of Professions and Occupations.
6. A licensed dentist, including one issued an academic license, [a dental therapist](#) or dental hygienist is required to renew the license to practice dentistry, [dental therapy](#) or dental hygiene in Colorado every two years and submit the applicable renewal fee. This includes renewing to an active, inactive, or retired status. A dentist issued an academic license is not eligible for retired or inactive status.
7. A dentist, [dental therapist](#) or dental hygienist in retired status may provide dental services on a voluntary basis to the indigent, if such services are provided on a limited basis and no fee is charged by the dentist or dental hygienist.
8. A dentist, [dental therapist](#) or dental hygienist in inactive status shall not provide dental or dental hygiene services in this state while the license to practice dentistry or dental hygiene in Colorado is inactive.
9. A dentist, [dental therapist](#) or dental hygienist with an expired license shall not provide dental, [dental therapy](#) or dental hygiene services in this state while the license to practice dentistry, [dental therapy](#) or dental hygiene in Colorado is expired.

#### **Applicants**

10. A foreign-trained dentist is required to complete a program in clinical dentistry and obtain a doctorate of dental surgery or a doctorate of dental medicine from a dental school approved by the Commission on Dental Accreditation (CODA) in order to be eligible for licensure in this state. Exceptions shall only be considered for licensure applications via endorsement, when the applicant has over five years of continuous full-time active dentistry practice in another U.S. State and has no discipline actions taken. If requesting an exception the applicant must submit a detailed request for consideration with their specific qualifications, work history, license history, complaint/discipline history, etc., to the Board with their application. Each exception request will be reviewed and approved on a case-by-case basis at the Board's discretion.

The only exception is if a foreign-trained dentist satisfies the requirements for an academic license.

11. Under section 12-20-404(3)(a)(I), C.R.S., any person whose license to practice is revoked is ineligible to apply for any license under the Dental Practice Act for at least two years after the date of revocation of the license. Any subsequent application for licensure is an application for an original license.
12. It is unlawful for any person to file with the Board a forged document or credentials of another person as part of an application for licensure.
13. All documents required as part of a licensure application, except for license renewal, must be received within one year of the date of receipt of application. An application is incomplete until the Board receives all additional information requested or required to determine whether to grant or deny the application. If all required information is not

submitted within the one year period, then the original application materials will be destroyed and the applicant will be required to submit a new application, fee, and all required documentation.

14. The Board may deny an application for licensure upon a finding that the applicant has violated any provisions of the Dental Practice Act and Board Rules.
15. An applicant for licensure may not begin practicing as a dentist, [dental therapist](#) or dental hygienist in this state until the applicant has been issued an active license number, this includes an application to reinstate an expired license or reactivate an inactive license which will require that license number to be activated again before active practice may resume.
16. A dentist applying for a license must be at least twenty-one years of age.
17. Education, training, or service gained in military services outlined in section 12-20-202(4), C.R.S., to be accepted and applied towards receiving a license, must be equivalent, as determined by the Board, to the qualifications otherwise applicable at the time of receipt of application. It is the applicant's responsibility to provide timely and complete evidence for review and consideration. Satisfactory evidence of such education, training, or service will be assessed on a case-by-case basis.
18. Licensure and Regulation of Military Spouses.
  - a. Licensure of Military Spouses is governed by section 12-20-202(3)(f), C.R.S.
  - b. Regulation of the Military Spouse temporary licensure to practice dentistry, [dental therapy](#) and dental hygiene is governed by the Dental and Dental Hygienist Practice Act.

B. Original Licensure for Dentists

1. Each applicant shall submit a completed Board approved application along with the required fee in order to be considered for licensure approval and must also verify that the applicant:
  - a. Graduated with a DDS or DMD degree from an accredited dental school or college, which at the time of the applicant's graduation was accredited by the Commission on Dental Accreditation as evidenced by an official transcript of credits with the date of graduation and degree obtained or submitted a detailed request for an exception to the education accredited requirement to the Board for consideration per Rule 1.6(A)(10), only applicable for licensure via endorsement;
  - b. Successfully passed the examination administered by the Joint Commission on National Dental Examinations; and
  - c. Successfully passed an examination or other methodology, as determined by the Board, designed to test the applicant's clinical skills and knowledge, which may include residency and/or portfolio models.
2. Each applicant must verify that the applicant:
  - a. Obtained or will obtain prior to practicing as a licensed dentist in this state commercial professional liability insurance coverage with an insurance company authorized to do business in Colorado pursuant to Article 5 of Title 10, C.R.S., in

a minimum indemnity amount of \$500,000 per incident and \$1,500,000 annual aggregate per year, or is covered under a financial responsibility exemption listed in Rule 1.52.

- (1) For the purpose of this rule, the term “licensed” includes temporary and permanent licensure
  - b. Accurately and completely listed any acts that would be grounds for disciplinary action under the Dental Practice Act and provided a written explanation of the circumstances of such act(s) and what steps have been taken to remediate the act(s), omission(s), or discipline, including supporting documentation.
  - c. Accurately and completely provided any and all information pertaining to any final or pending disciplinary action by any state or jurisdiction in which the applicant is or has been previously licensed and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the action(s), omission(s), or discipline that led to the final disciplinary action(s), including supporting documentation.
  - d. Accurately and completely provided any and all information pertaining to any pending or final malpractice actions against the applicant, verified by the applicant's malpractice insurance carrier(s) and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the action(s) that led to the settlement(s), including supporting documentation. The applicant must request a verification of coverage history for the past ten years from the applicant's current and all previous malpractice insurance carriers. Any settlement or final judgment during the applicant's practice history must be reported.
3. Demonstrates current clinical competency and professional ability through at least one of the following:
- a. Graduated within the twelve months immediately preceding the date the application is received with a DDS or DMD degree from an accredited dental school or college, which at the time of the applicant's graduation was accredited by the Commission on Dental Accreditation.
  - b. Engaged in the active clinical practice of dentistry for at least one year of the five years immediately preceding the date the application is received. Experience from postgraduate training, residency programs, internships, or research during this time will be evaluated on a case-by-case basis.
  - c. Engaged in teaching dentistry in an accredited program for at least one year of the five years immediately preceding the date the application is received.
  - d. Engaged in service as a dentist in the military for at least one year of the five years immediately preceding the date the application is received.
  - e. Passed a Board approved clinical examination within one year of the date the application is received.
  - f. Successfully completed a Board approved evaluation by a Commission on Dental Accreditation accredited institution or another Board approved entity within one year of the date the application is received, which demonstrates the applicant's proficiency as equivalent to the current school graduate. Before

undertaking such evaluation, an applicant must submit a proposed evaluation for pre-approval by the Board. The Board may reject an evaluation whose proposal it has not pre-approved or for other good cause.

- g. If a dentist with a revoked license, a license suspended for two or more years, or any other disciplined license preventing him/her from actively practicing for two or more years in Colorado, another state/jurisdiction, or country is applying for a license, then the Board may require him/her to comply with more than one of the above competency requirements.
- h. In addition to the requirements above, the Board may, in its discretion, apply one or more of the following towards demonstration of current clinical competency, except as to applicants described in section (B)(3)(g) of this Rule.
  - (1) Practice under a probationary or otherwise restricted license for a specified period of time;
  - (2) Successful completion of courses approved by the Board; or
  - (3) Any other professional standard or measure of continued competency as determined by the Board.

C. Dentist Licensure by Endorsement through the Occupational Credential Portability Program

- 1. In order to be qualified for licensure by endorsement through the Occupational Credential Portability Program pursuant to section 12-20-202(3), C.R.S., the applicant shall submit a completed Board approved application along with the required fee and verify that the applicant holds an active license to practice dentistry in good standing in another state or United States territory or through the federal government, or holds a military occupational specialty, as defined in section 24-4-201, C.R.S.
- 2. In order to be granted licensure through endorsement, the applicant must meet the requirements listed under section (B)(1) of this Rule.
- 3. An applicant for endorsement must verify, as part of the application, fulfillment of the requirements listed under section (B)(2) of this Rule.
- 4. An applicant for endorsement must demonstrate current clinical competency and professional ability through at least one of the following:
  - a. Engaged in the active practice of clinical dentistry under a current and valid license for a minimum of one year in the U.S. or one of its territories or Canada for a minimum of 300 hours per year, for a minimum of five years out of the seven years immediately preceding the date the application was received, another jurisdiction with a scope of practice substantially similar to the scope of practice as specified in the Dental Practice Act and these Rules.—Calculations will be based on the first full month prior to receipt of the application. Experience from postgraduate training, residency programs, internships, or research will be evaluated on a case-by-case basis.
  - b. Engaged in teaching dentistry, which involves personally providing care to patients for not less than 300 hours annually in an accredited dental school for a minimum of five years out of the seven years immediately preceding the date the application was received. Calculations will be based on the first full month prior to receipt of the application.

- c. For the dentists practicing in the military, a report from a senior officer with a recommendation and verification of clinical experience comparable to the requirement in section (C)(4)(a) of this Rule.
- d. Passed a Board approved clinical examination within one year of the date the application is received.
- e. Successfully completed a Board approved evaluation by a Commission on Dental Accreditation accredited institution or another Board approved entity within one year of the date the application is received, which demonstrates the applicant's proficiency as equivalent to the current school graduate. Before undertaking such evaluation, an applicant must submit a proposed evaluation for pre-approval by the Board. The Board may reject an evaluation whose proposal it has not pre-approved or for other good cause.
- f. The Board may also apply one or more of the following towards demonstration of current clinical competency:
  - (1) Practice under a probationary or otherwise restricted license for a specified period of time;
  - (2) Successful completion of courses approved by the Board; or
  - (3) Any other professional standard or measure of continued competency as determined by the Board.
- g. The Board may deny a license if, after notice and opportunity for a hearing, the Board demonstrates by a preponderance of the evidence that the applicant:
  - (1) Lacks the requisite substantially equivalent education, experience, or credentials to practice dentistry in the state as provided under section (B) of this Rule; or
  - (2) Has committed an act that would be grounds for disciplinary action under the Dental Practice Act and these Rules.

D. Academic License

- 1. A dentist who is employed at an accredited school or college of dentistry in this state and who practices dentistry in the course of the dentist's employment responsibilities and is applying for an academic license shall submit with the application and fee the following credentials and qualifications for review and approval by the Board:
  - a. Proof of graduation with a DDS or DMD degree or equivalent from a school of dentistry located in the United States or another country.
  - b. Evidence of the applicant's employment by an accredited school or college of dentistry in this state; actual practice is to commence only once licensure has been granted.
- 2. An applicant for an academic license shall satisfy the credentialing standards of the accredited school or college of dentistry that employs the applicant.
- 3. Pursuant to section 12-220-402(4), C.R.S., an academic license shall authorize the licensee to practice dentistry only while engaged in the performance of official duties as

an employee of the accredited school or college of dentistry and only in connection with programs affiliated or endorsed by the school or college. A dentist issued an academic license may not use it to practice dentistry outside of the licensee's academic responsibilities.

4. A dentist with an academic license is subject to discipline pursuant to sections 12-30-108, 12-220-201, 12-220-202, 12-220-203, 12-220-205, 12-220-206, and 12-220-207, C.R.S.

E. Original Licensure for Dental Therapists

1. Each applicant shall submit a completed Board approved application along with the required fee in order to be considered for licensure approval and must also verify that the applicant:

- a. Graduated from a school of dental therapy that, at the time of the applicant's graduation, was accredited by the Commission on Dental Accreditation (CODA) or was developed prior to February 6, 2015, and at the time of graduation was accredited by the Minnesota Board of Dentistry or certified by the Alaska Community Health Aide Program Certification Board. An official school transcript of credits with the date of graduation and degree obtained shall be deemed sufficient evidence;

- b. Successfully completed an examination designed to test the applicant's clinical dental therapy skills and knowledge, which includes dental therapy restorative and dental hygiene clinical skill evaluation and is administered by a regional testing agency composed of at least four states or an examination of another state or successfully passed the examination administered by the Joint Commission on National Dental Examinations for Dental Hygienists.

2. Each applicant will also be required to verify that the applicant:

- a. Obtained or will obtain prior to practicing as a licensed dentist in this state commercial professional liability insurance coverage with an insurance company authorized to do business in Colorado pursuant to Article 5 of Title 10, C.R.S., in a minimum indemnity amount of \$500,000 per incident and \$1,500,000 annual aggregate per year, or is covered under a financial responsibility exemption listed in Rule 1.5.

- (1) For the purpose of this rule, the term "licensed" includes temporary and permanent licensure.

- b. Accurately and completely listed any acts that would be grounds for disciplinary action under the Dental Practice Act and provided a written explanation of the circumstances of such act(s) and what steps have been taken to remediate the act(s), omission(s), or discipline, including supporting documentation;

- c. Accurately and completely provided any and all information pertaining to any final or pending disciplinary action by any state or jurisdiction in which the applicant is or has been previously licensed and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the action(s), omission(s), or discipline that led to the final disciplinary action(s), including supporting documentation; and

- d. Accurately and completely provided any and all information pertaining to any pending or final malpractice actions against the applicant, verified by the

applicant's malpractice insurance carrier(s) and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the practice that led to the settlement(s), including supporting documentation. The applicant must request a verification of coverage history for the past ten years from the applicant's current and all previous malpractice insurance carriers. Any settlement or final judgment during the applicant's practice history must be reported.

3. Demonstrates current clinical competency and professional ability through at least one of the following:

- a. Graduated within the twelve months immediately preceding the date the application was received from an academic program of dental therapy that, at the time of the applicant's graduation, was accredited by the Commission on Dental Accreditation or was developed prior to February 6, 2015, and at the time of graduation was accredited by the Minnesota Board of Dentistry or certified by the Alaska Community Health Aide Program Certification Board.
- b. Engaged in the active clinical practice of dental therapy for a minimum of 300 hours per year, for at least one year of the five years immediately preceding the date the application is received.
- c. Engaged in teaching dental therapy in an academic program that was accredited by the Commission on Dental Accreditation or was developed prior to February 6, 2015, and at the time of graduation was accredited by the Minnesota Board of Dentistry or certified by the Alaska Community Health Aide Program Certification Board, for at least one year of the five years immediately preceding the date the application is received.
- d. Engaged in service as a licensed dental therapist in the military for at least one year of the five years immediately preceding the date the application is received.
- e. Passed a Board approved regional or state clinical examination within one year of the date the application is received.
- f. Successfully completed a Board approved evaluation by a Commission on Dental Accreditation accredited institution or another Board approved entity within one year of the date the application is received, which demonstrates the applicant's proficiency as equivalent to the current school graduate. Before undertaking such evaluation, an applicant must submit a proposed evaluation for pre-approval by the Board. The Board may reject an evaluation whose proposal it has not pre-approved or for other good cause.
- g. If a dental therapist with a revoked license, a license suspended for two or more years, or any other disciplined license preventing him/her from actively practicing for two or more years in Colorado, another state/jurisdiction, or country is applying for a license, then the Board may require him/her to comply with more than one of the above competency requirements.
- h. The Board may, in its discretion, apply one or more of the following towards demonstration of current clinical competency (cannot be considered in lieu of the requirements of section (E)(3)(g) of this Rule, but may be considered as an additional requirement by the Board):

(1) Practice under a probationary or otherwise restricted license for a specified period of time;

(2) Successful completion of courses approved by the Board; or

(3) Any other professional standard or measure of continued competency as determined by the Board.

F. ~~E.~~ Original Licensure for Dental Hygienists

1. Each applicant shall submit a completed Board approved application along with the required fee in order to be considered for licensure approval and must also verify that the applicant:
  - a. Graduated from a school of dental hygiene that, at the time of the applicant's graduation, was approved by the Commission on Dental Accreditation (CODA), and proof that the program offered by the accredited school of dental hygiene was at least two academic years or the equivalent of two academic years. An official school transcript of credits with the date of graduation and degree obtained shall be deemed sufficient evidence;
  - b. Successfully passed the examination administered by the Joint Commission on National Dental Examinations; and
  - c. Successfully completed an examination designed to test the applicant's clinical skills and knowledge administered by a regional testing agency composed of at least four states or an examination of another state.
2. Each applicant will also be required to verify that the applicant:
  - a. Obtained or will obtain prior to practicing as a licensed dental hygienist in this state professional liability insurance in the amount of not less than \$50,000 per claim and an aggregate liability for all claims during a calendar year of not less than \$300,000, or is covered under a financial responsibility exemption listed in Rule 1.5. Coverage may be maintained by the dental hygienist or through a supervising licensed dentist;
    - (1) For the purpose of this rule, the term "licensed" includes temporary and permanent licensure.
  - b. Accurately and completely listed any acts that would be grounds for disciplinary action under the Dental Practice Act and provided a written explanation of the circumstances of such act(s) and what steps have been taken to remediate the act(s), omission(s), or discipline, including supporting documentation;
  - c. Accurately and completely provided any and all information pertaining to any final or pending disciplinary action by any state or jurisdiction in which the applicant is or has been previously licensed and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the action(s), omission(s), or discipline that led to the final disciplinary action(s), including supporting documentation; and
  - d. Accurately and completely provided any and all information pertaining to any pending or final malpractice actions against the applicant, verified by the applicant's malpractice insurance carrier(s) and provided a written explanation of

the circumstances of such action(s) and what steps have been taken to remediate the practice that led to the settlement(s), including supporting documentation. The applicant must request a verification of coverage history for the past ten years from the applicant's current and all previous malpractice insurance carriers. Any settlement or final judgment during the applicant's practice history must be reported.

3. Demonstrates current clinical competency and professional ability through at least one of the following:
  - a. Graduated within the twelve months immediately preceding the date the application was received from an academic program of dental hygiene that, at the time of the applicant's graduation, was accredited by the Commission on Dental Accreditation and which was at least two academic years or the equivalent of two academic years.
  - b. Engaged in the active clinical practice of dental hygiene for a minimum of 300 hours per year, for at least one year of the three years immediately preceding the date the application is received.
  - c. Engaged in teaching dental hygiene or dentistry in an academic program that was accredited by the Commission on Dental Accreditation for at least one year of the five years immediately preceding the date the application is received.
  - d. Engaged in service as a licensed dental hygienist in the military for at least one year of the five years immediately preceding the date the application is received.
  - e. Passed a Board approved regional or state clinical examination within one year of the date the application is received.
  - f. Successfully completed a Board approved evaluation by a Commission on Dental Accreditation accredited institution or another Board approved entity within one year of the date the application is received, which demonstrates the applicant's proficiency as equivalent to the current school graduate. Before undertaking such evaluation, an applicant must submit a proposed evaluation for pre-approval by the Board. The Board may reject an evaluation whose proposal it has not pre-approved or for other good cause.
  - g. If a dental hygienist with a revoked license, a license suspended for two or more years, or any other disciplined license preventing him/her from actively practicing for two or more years in Colorado, another state/jurisdiction, or country is applying for a license, then the Board may require him/her to comply with more than one of the above competency requirements.
  - h. The Board may, in its discretion, apply one or more of the following towards demonstration of current clinical competency (cannot be considered in lieu of the requirements of section (FE)(3)(g) of this Rule, but may be considered as an additional requirement by the Board):
    - (1) Practice under a probationary or otherwise restricted license for a specified period of time;
    - (2) Successful completion of courses approved by the Board; or

- (3) Any other professional standard or measure of continued competency as determined by the Board.

**GF.** Dental Hygienists Licensure by Endorsement through the Occupational Credential Portability Program

1. In order to be qualified for licensure by endorsement through the Occupational Credential Portability Program pursuant to section 12-20-202(3), C.R.S., an applicant shall submit a completed Board approved application along with the required fee and verify that the applicant holds an active license to practice dental hygiene in good standing in another state or United States territory.
2. In order to be granted licensure through endorsement, the applicant must meet the requirements listed under section **FE**(1) of this Rule.
3. An applicant for endorsement must verify, as part of the application, fulfillment of the requirements listed under section **FE**(2) of this Rule.
4. The applicant must disclose the existence of any dental hygiene or other health care license previously held or currently held in any other state or jurisdiction, including dates and status.
5. An applicant for endorsement must demonstrate current clinical competency and professional ability through at least one of the following:
  - a. Engaged in the active practice of clinical dental hygiene in the U.S. or one of its territories or Canada for a minimum of 300 hours per year, for a minimum of one year out of three years immediately preceding the date the application was received. Calculations will be based on the first full month prior to receipt of the application.
  - b. Engaged in teaching dental hygiene or dentistry, which involves personally providing care to patients for not less than 300 hours annually in an accredited program for a minimum of one year out of the three years immediately preceding the date the application was received. Calculations will be based on the first full month prior to receipt of the application.
  - c. For the licensed dental hygienists practicing in the military, a report from a senior officer with a recommendation and verification of clinical experience comparable to the requirement in section **GF**(5)(a) of this Rule.
  - d. Passed a Board approved regional or state clinical examination within one year of the date the application is received.
  - e. Successfully completed a Board approved evaluation by a Commission on Dental Accreditation approved institution or another Board approved entity within one year of the date the application is received, which demonstrates the applicant's proficiency as equivalent to the current school graduate. Before undertaking such evaluation, an applicant must submit a proposed evaluation for pre-approval by the Board. The Board may reject an evaluation whose proposal it has not pre-approved or for other good cause.
  - f. The Board may also apply one or more of the following towards demonstration of current clinical competency:

- (1) Practice under a probationary or otherwise restricted license for a specified period of time;
- (2) Successful completion of courses approved by the Board; or
- (3) Any other professional standard or measure of continued competency as determined by the Board.

**HG.** Continuing Education Requirements for Dentists, Dentists Issued an Academic License, [Dental Therapists](#) and Dental Hygienists

1. Every licensee with an active license in Colorado is required to complete thirty hours of Board approved continuing education during the two years preceding the next renewal period to ensure patient safety and professional competency, pursuant to section 12-220-308, C.R.S. Continuing education hours may only be applied to the renewal period in which they were completed.
2. This requirement does not apply to a licensee placing the licensee's license into inactive or retired status, or renewing such status. It only applies if renewing a license in active status, or reinstating or reactivating a license pursuant to section ([HG](#))(3) of this Rule.
3. A licensee with an expired license of less than two years or who has inactivated the license for less than two years is required to submit proof of having completed the required thirty hours of continuing education credit for the previous renewal period prior to reinstating/reactivating the licensee's license and may not apply those hours to the next renewal period.
4. If a license is issued within one year of a renewal date, no continuing education will be required for that first renewal period. If a license is issued outside of one year of a renewal date, then fifteen hours of Board approved continuing education will be required for that first renewal period.
5. For dentists, including those issued an academic license, [as well as dental therapists](#), the Board automatically accepts any course or program recognized by any of the following organizations (or a successor organization):
  - a. American Dental Association (ADA) Continuing Education Recognition Program (CERP);
  - b. Academy of General Dentistry (AGD) Program Approval for Continuing Education (PACE);
  - c. American Medical Association (AMA) Physician Recognition Award (PRA) and credit system as Category 1 Credit; or
  - d. Commission on Dental Accreditation (CODA) accredited institutions.
6. For dental hygienists, the Board automatically accepts any course recognized in section ([HG](#))(5) of this Rule and sponsored or recognized by (or a successor organization):
  - a. The American Dental Hygienists' Association (ADHA) and its constituents and component societies; or

- b. Local, state, regional, national, or international dental, dental hygiene, dental assisting, medical related professional organization, or study group that has a sound scientific basis, proven efficacy, and ensures public safety.

7. For dental therapists, the Board does not automatically accept any courses, however the Board will consider courses sponsored or recognized by:

- a. Local, state, regional, national, or international dental, dental therapy, dental hygiene, dental assisting, medical related professional organization, or study group that has a sound scientific basis, proven efficacy, and ensures public safety.

87. Current Basic Life Support (BLS) for healthcare providers is required of all licensees and all licensees will receive a maximum of two hours continuing education credit (not to be applied towards renewal of an anesthesia permit) for successful completion.

- a. Basic Life Support, or BLS, generally refers to the type of care that first-responders, healthcare providers and public safety professionals provide to anyone who is experiencing cardiac arrest, respiratory distress or an obstructed airway. It requires knowledge and skills in cardiopulmonary resuscitation (CPR), using automated external defibrillators (AED) and relieving airway obstructions in patients of every age.
- b. BLS training courses shall be consistent with the most current science and treatment recommendations from the International Liaison Committee on Resuscitation (ILCOR). Consensus on Science and Treatment Recommendations (CoSTR), and the American Heart Association Guidelines for CPR and Emergency Cardiovascular Care (ECC).
  - (1) Initial training shall include a minimum of three hours of training, including skills practice and skills testing.
  - (2) Renewal courses shall include a minimum of two hours of training, including skills practice and testing.

98. At least sixteen of the required thirty hours must be clinical or science based, or eight of the required fifteen if section (H)(4) of this Rule applies.

109. At least fifty percent of the required hours must be live and interactive.

1110. A presenter of courses may submit course hours presented, up to six total credits, towards the continuing education requirement. The presenter may receive credit one time for each course presented in a renewal period, up to six total credits for that renewal period.

1211. A dentist renewing an anesthesia or sedation permit may apply continuing education credits specific to renewing the dentist's permit for anesthesia or sedation administration (seventeen hours every five years) to the thirty hours required to renew a license every two years. Anesthesia related hours may only be applied to the renewal period in which they were completed.

1312. At the conclusion of each renewal period, licensees may be subject to a Board audit to verify compliance with continuing education requirements. Licensees shall assist the Board in its audit by providing timely and complete responses to the Board's inquiries.

1413. A licensee must maintain copies of all completed Board approved coursework, including any certificates of completion, for at least two renewal periods after the continuing education was completed. The records shall document the licensee's course attendance and participation, and shall include at a minimum course sponsor, title, date(s), hours, and the course verification of completion certificate or form. Failure to meet this requirement may result in credit not being accepted for a course or courses, which may result in violation of the continuing education requirements of section 12-220-308, C.R.S., and this Rule 1.6.

1514. Failure to comply with the requirements of this Rule is grounds for discipline, pursuant to section 12-220-201(1)(i), C.R.S.

1615. The Board may excuse a licensee from all or any part of the requirements of this Rule or grant an extension because of an unusual circumstance, emergency, special hardship, or military service. The licensee may apply for a waiver or an extension by submitting a written request, including supporting documentation for Board consideration at least forty-five days before the renewal date.

1716. Continuing education required as a condition of a disciplinary action cannot be applied towards the renewal requirements of a license or anesthesia/sedation permit.

I.H. Reinstatement/Reactivation Requirements for Dentists, Dental Therapists and Dental Hygienists with Expired, Inactive, or Retired Licenses

1. In order to reinstate or reactivate a license back into active status, each applicant shall submit a completed Board approved application along with the required fee in order to be considered for licensure approval and must also verify that the applicant:
  - a. Obtained or will obtain prior to active practice in this state professional liability insurance as required pursuant to section 12-220-307, C.R.S., or is covered under a financial responsibility exemption listed in Rule 1.5.
  - b. Accurately and completely listed any acts that would be grounds for disciplinary action under the Dental Practice Act and provided a written explanation of the circumstances of such act(s) and what steps have been taken to remediate the act(s), omission(s), or discipline, including supporting documentation since last renewing the license to practice dentistry or dental hygiene to an active, retired, or inactive status in this state.
  - c. Accurately and completely provided any and all information pertaining to any final or pending disciplinary action by any state or jurisdiction in which the applicant is or has been previously licensed since last renewing his/her license to an active, retired, or inactive status in this state and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the action(s), omission(s), or discipline that led to the final disciplinary action(s), including supporting documentation.
  - d. Accurately and completely provided any and all information pertaining to any pending or final malpractice actions against the applicant, verified by the applicant's malpractice insurance carrier(s) since last renewing the license to practice dentistry or dental hygiene to an active, retired, or inactive status in this state and provided a written explanation of the circumstances of such action(s) and what steps have been taken to remediate the practice that led to the settlement(s), including supporting documentation.

2. If the license has been expired, retired, or inactive for two or more years, then an applicant is required to demonstrate continued clinical competency. An applicant who applies for an active license and has not practiced at least 300 hours in a twelve-month period during the five years immediately preceding the application for reinstatement/reactivation to an active status must demonstrate to the Board how the applicant has maintained professional ability, knowledge, and skills. The Board may request documentation of the 300 hours for a twelve-month period or may accept the following qualifications as fulfillment of the practice requirement, which will be reviewed on a case-by-case basis:
  - a. Time spent in postgraduate training, residency programs, or an internship.
  - b. Time spent in research and in teaching in an accredited program.
  - c. Time spent practicing in the military or public health service. For licensed dentists and dental hygienists practicing in the military, a report from a senior officer with a recommendation and verification of clinical experience may be accepted.
  - d. Passed a Board approved clinical examination within one year of the date the application is received.
  - e. Successfully completed a Board approved evaluation by a Commission on Dental Accreditation accredited institution or another Board approved entity within one year of the date the application is received, which demonstrates the applicant's proficiency as equivalent to the current school graduate. Before undertaking such evaluation, an applicant must submit a proposed evaluation for pre-approval by the Board. The Board may reject an evaluation whose proposal it has not pre-approved or for other good cause.
  - f. The Board may also consider applying one or more of the following towards demonstration of current clinical competency (cannot be considered in lieu of the competency requirements above if the licensee has not practiced in over two years due to a disciplinary action, but may be considered as an additional requirement by the Board):
    - (1) Practice under a probationary or otherwise restricted license for a specified period of time;
    - (2) Successful completion of courses approved by the Board; or
    - (3) Any other professional standard or measure of continued competency as determined by the Board.

#### [J.](#) Temporary Licenses

1. By invitation only:
  - a. A dentist, [dental therapist](#) or dental hygienist who lawfully practices dentistry or dental hygiene in another state or United States territory may be granted a temporary license to practice dentistry or dental hygiene in this state pursuant to section 12-220-106(1)(d), C.R.S., if:
    - (1) Such dentist or dental hygienist has been invited by a program provided through a lawful agency of Colorado local, county, state, or federal government or a Colorado non-profit tax exempt organized under section

501(c)(3) of the federal "Internal Revenue Code of 1986," as amended to provide dental or dental hygiene services to persons identified through such program;

(2) The governmental entity or nonprofit private foundation as defined in section (J)(1)(a)(1) of this Rule certifies the name of the applicant and the dates within which the applicant has been invited to provide dental or dental hygiene services in this state, the applicant's full dental or dental hygiene license history with verification of licensure in each state, and an active license in at least one state on a form provided by the Board; and

(3) Such applicant's practice in this state, if granted by the Board, is limited to that required by the entities specified in section (J)(1)(a)(1) and (2) of this Rule and shall not exceed 120 consecutive days in a twelve-month period, renewable once in a one year period for a maximum of 240 consecutive days in a one year period.

b. A temporary licensee shall provide dental, [dental therapy](#) or dental hygiene services only to persons identified through an entity as described in section (IH)(1)(a)(1) of this Rule and will not accept any compensation above what the temporary licensee has agreed to be paid by the entity.

2. The Board may also issue a temporary license to an applicant for licensure to demonstrate clinical competency in compliance with sections (B)(3)(f), (C)(4)(e), [\(E\)\(3\)\(f\)](#), [\(FE\)\(3\)\(f\)](#), [\(GF\)\(5\)\(e\)](#), and [\(IH\)\(2\)\(e\)](#) under direct supervision of a licensed dentist, [dental therapist](#) or dental hygienist.

3. A temporary licensee may be subject to discipline by the Board as defined in 12-220-201, C.R.S., et seq., and shall be subject to the professional liability insurance requirement as defined in section 12-220-307, C.R.S.

[KJ](#). Substance Use Prevention Training for License Renewal, Reactivation, or Reinstatement

1. Pursuant to section 12-30-114, C.R.S., every dentist, including every academic dentist, is required to complete at least one hour of training per renewal period in order to demonstrate competency regarding at least one of the topics/areas specified in section 12-30-114(1)(a), C.R.S.

2. Training, for the purposes of this section includes, but is not limited to, relevant continuing education courses; self-study of relevant scholarly articles or relevant policies/guidelines; peer review proceedings that involve opioid prescribing; attendance at a relevant conference (or portion of a conference); teaching a relevant class/course; or participation in a relevant presentation, such as with your practice. All such training must cover or be related to the topics specified in section 12-30-114(1)(a), C.R.S.

3. The Board shall exempt a dentist from the requirements of this section who qualifies for either exemption set forth in section 12-30-114(1)(b), C.R.S.

4. This section shall apply to any applicant for renewal, reinstatement, or reactivation of an active, expired or inactive license.

5. Applicants for license renewal, reactivation, or reinstatement shall attest during the application process to either their compliance with this substance use training requirement or their qualifying for an exemption, as specified in section ([KJ](#))(3) of this Rule.

6. The Board may audit compliance with this section. Dentists should be prepared to submit documentation of their compliance with this substance use training requirement or their qualification for an exemption, upon request by the Board.
7. Subject to the approval of the Board, completed substance use prevention training hours that also meet the requirements for continuing education, as specified in section (HG) of this Rule, may be applied towards the minimum continuing education hours required in section (HG) of this Rule.

(Amended and Re-numbered November 5, 2020; Effective December 30, 2020; Amended November 4, 2021; Effective December 30, 2021)

### 1.7 License Presentation

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 12-220-303(2)(a), C.R.S.

- A. A dentist's, [dental therapist's](#) or dental hygienist's license, or a copy thereof, shall be available on the premises where the dentist, [dental therapist](#) or dental hygienist practices.
- B. Pursuant to section 12-220-303(2)(a), C.R.S., a proprietor of a dental, [dental therapy](#) or dental hygiene practice, including an unlicensed heir who is the temporary proprietor of the practice, shall make available at the reception desk during the practice's hours of operation a completed Colorado Dental Board "Practice Ownership Form" and shall promptly make an updated copy available to a requesting person.

(Amended December 2, 2002; Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

### 1.8 Practice in Education and Research Programs

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 12-220-302(1)(f), C.R.S.

- A. Pursuant to section 12-220-302(1)(f), C.R.S., dentists, [dental therapists](#) and dental hygienists may engage in the practice of dentistry, [dental therapy](#) or dental hygiene while appearing in accredited programs of dental education or research in this state without a Colorado issued license as long as the following occurs:
  1. The dentists, [dental therapist](#) or dental hygienists are licensed in good standing by other states or countries;
  2. The dentists, [dental therapist](#) or dental hygienists are invited by a group of licensed dentists or dental hygienists in this state who are in good standing; and
  3. The group of dentists, [dental therapists](#) or dental hygienists licensed in this state providing such an invitation must submit the name of each dentist, [dental therapist](#) or dental hygienist not licensed in Colorado to the Board on a Board-approved form at least ten days before the person participates in the program.
- B. Information provided to the Board by any group of Colorado licensed dentists, [dental therapist](#) or dental hygienists inviting dentists, [dental therapists](#) and/or dental hygienists to practice while appearing in a program of dental education shall include the following:
  1. Name of program;

2. Goals or objectives of program;
  3. Instructors in program;
  4. Syllabus of content; and
  5. Method of program evaluation.
- C. Information provided to the Board by any group of Colorado licensed dentists, [dental therapists](#) or dental hygienists inviting dentists, [dental therapists](#) and/or dental hygienists to practice while appearing in a program of dental research shall include the following:
1. Name of program;
  2. Research goals or objectives;
  3. Research design; and
  4. Evidence of approval of research by an Institutional Review Board which meets the requirements of the Office of Human Subjects Research Protections, National Institutes of Health or any successor organization.
- D. The dentists, [dental therapists](#) and/or dental hygienists licensed in Colorado who invited dentists, [dental therapists](#) or dental hygienists, who are not licensed to practice in Colorado, to participate in the educational or research program shall submit evidence to the Board that each participant understands the limitations in such practice to 5 consecutive days in a 12-month period as specified pursuant to section 12-220-302(1)(f), C.R.S.
- E. The Board shall approve participation if, in the judgment of the Board, the information submitted indicates the program is in compliance with the requirements of section 12-220-302(1)(f), C.R.S.
- F. The Board may deny participation if, in the judgment of the Board, the information submitted indicates the program is not in compliance with the requirements of section 12-220-302(1)(f), C.R.S.

(Promulgated as Emergency Rule XXVIII on July 7, 2004; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

### **1.9 Record Keeping Requirements**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

A. Treatment Provider Identification

1. Patient records shall note at the time of the treatment or service the name of any dentist, [dental therapist](#), dental hygienist, or dental assistant who performs any treatment or service upon a patient.
2. When patient treatment or service is performed which requires supervision, the patient record must also note the name of the supervising dentist for the treatment or service performed on the patient.

B. Access to Patient Records

1. A patient's record in the custody of a dentist, [dental therapist](#) or dental hygienist, dental or dental hygiene practice (treatment provider no longer works there), or other entity (treatment provider no longer has access to the records through bankruptcy, foreclosure, eviction, etc.), shall be available to a patient, the patient's designated representative ("representative"), or any former treatment provider during normal business hours within seven calendar days. The custodian of the record shall make a copy of the record available or make the record available for inspection within seven calendar days.
2. The patient record does not include a "doctor's office notes" as defined in Rule 1.4(E).
3. A patient, representative, or any former treatment provider may inspect or obtain a copy of the patient record after submitting a signed and dated request to the custodian of the patient record. The provider or the custodian of record shall acknowledge in writing the patient's, representative's, or any former treatment provider's request. If an inspection of the record occurred, the patient, representative, or any former treatment provider shall sign and date the record to acknowledge inspection.
4. A patient, representative, or any former treatment provider may not be charged for inspection of records.
5. Records may not be withheld for past due fees relating to dental treatment.
6. The patient, representative, or any former treatment provider shall pay for the reasonable cost of obtaining a copy of the patient record, not to exceed the actual cost of the medium and shall not be charged any labor fees. Actual postage costs may also be charged.
7. Pursuant to section 25-1-802(1)(b)(I)(B), C.R.S., if the patient's original records are stored and readily producible in electronic format and the patient, representative, or any former treatment provider requests it in that format, then the custodian of records must provide it electronically.
8. If the patient, representative, or any former treatment provider so approves, the custodian may supply a written interpretation by the attending provider or representative of patient records, such as radiographs, diagnostic casts, or non-written records which cannot be reproduced without special equipment. If the requestor prefers to obtain a copy of such patient records, the requestor must pay the actual cost of such reproduction.
9. If changes, corrections, deletions, or other modifications are made to any portion of a patient record, the person must note in the record date, time, nature, reason, correction, deletion, or other modification, and the licensee's name. If records are electronic they must be date-stamped without the ability to be subsequently altered.
10. Nothing in this Rule shall be construed to limit a right to inspect patient records that is otherwise granted by state statute to the patient, representative, or any former treatment provider.
11. Nothing in this Rule shall be construed to waive the responsibility of a custodian of records to maintain confidentiality of those records in the possession of the custodian.

C. Evaluation Diagnosis, and Documentation

1. Prior to initiating a dental exam, a licensee must establish and document the reason for the patient's visit in order to clearly identify an appropriate type of exam.

2. All relevant findings and periodontal diagnosis must be documented, if applicable, including a finding of WNL (within normal limits), indicating that an evaluation took place. The periodontal examination may not be applicable to certain dental subspecialty examinations.
3. The comprehensive evaluation – if the patient desires a comprehensive evaluation, then the following components are required to be documented in order to appropriately evaluate the patient's dental status
  - a. Obtaining a relevant medical and dental history;
  - b. Conducting a thorough clinical and radiographic examination (within ALARA guidelines) with evaluation of extraoral and intraoral structures;
  - c. Oral cancer screening;
  - d. Assessment of any prosthesis; and
  - e. Complete periodontal charting for adult patients.
4. The limited evaluation – if a referring dentist, [dental therapist](#), dental hygienist, other health care professional, or the patient is requesting an evaluation for an emergency condition or specific area of concern including dental subspecialty evaluations, then the examination can be limited to the specific problem and the following components are required to be documented in order to appropriately evaluate the patient's dental status:
  - a. Obtaining a relevant medical and dental history;
  - b. Conducting a thorough clinical and radiographic evaluation (within ALARA guidelines) of the area of concern and evaluation of extraoral and intraoral structures in the area of concern;
  - c. Assessment of any prosthesis as it relates to the area of concern; and
  - d. Periodontal charting in the area of concern, unless not clinically indicated.
5. The periodic evaluation – if treating a patient for follow-up/maintenance care, then the following components are required to be documented in order to appropriately evaluate the patient's dental status:
  - a. Obtaining a relevant medical and dental history;
  - b. Conducting a thorough clinical and radiographic examination (within ALARA guidelines) with evaluation of extraoral and intraoral structures as clinically indicated;
  - c. Oral cancer screening;
  - d. Assessment of any prosthesis; and
  - e. Periodontal charting, including a full periodontal charting (evaluation) every twelve to eighteen months.
6. Periodontal evaluation/diagnosis – a licensee is required to document the following components in the patient record:

- 
- a. At a minimum, the following current diagnostic information is required in order to diagnose the periodontal condition of the patient:
    - (1) Periodontal measurements for the teeth to be treated.
    - (2) Radiographs, which demonstrate the crestal bone.
    - (3) Bleeding upon probing data for the areas to be treated.
  - b. If periodontal therapy has been performed, a licensee is required to conduct a follow-up exam to evaluate and inform the patient of the patient's response to the therapy, and to discuss any further treatment that may be necessary, including but not limited to, the referral to a dentist qualified and trained to treat advanced periodontal disease.
7. Root canal therapy procedure – if performing one, a licensee is required to document use of a rubber dam.
8. A licensee must document in the patient's record:
- a. Discussion of recommended treatment as well as alternatives, risks, benefits, and prognosis.
  - b. Timely referral for any needed specialist care.
  - c. Patient's election for treatment. If the treatment elected by the patient differs from the recommended treatment and/or sequence, then the licensee must document the reason for the deviation of the recommended course of treatment and/or sequence. If proceeding with the patient's elected deviation does not cause harm, then the licensee must retain documentation supporting the request to deviate from the recommended course of treatment and/or sequence.
  - d. If a patient declines recommended treatment.
  - e. A rationale for omission of or exception from any required component.
  - f. If verbal consent is obtained prior to treatment.
9. All prescriptions shall bear:
- a. Full name and date of birth of patient;
  - b. Drug name, strength, and dosage form;
  - c. Quantity prescribed;
  - d. Directions for use;
  - e. Authorized refills, if applicable; and
  - f. Name and address of prescribing dentist.
- D. Controlled Substances

Every dentist, including one issued an academic license, with a current registration issued by the United States Drug Enforcement Administration (DEA) is required to register and maintain a user account with the Prescription Drug Monitoring Program (PDMP) in compliance with section 12-280-403(2)(a), C.R.S. If the dentist fails to register and maintain a PDMP user account, then the dentist's administering, dispensing, or prescribing a controlled substance pursuant to sections 12-220-305(1)(p) and (2), and 12-220-306, C.R.S., falls outside the course of legitimate professional practice and violates section 12-220-201(1)(c), C.R.S.

**1. Controlled Substance Prescribing**

- a. The prescribing dentist shall follow all laws and regulations pursuant to the Federal Controlled Substance Act (CSA), 21 USC 801-890; and the DEA regulations, Title 21, Code of Federal Regulations (CFR), Parts 1300 to 1316.
- b. All prescriptions for controlled substances shall bear:
  - (1) Full name and address of the patient;
  - (2) Drug name, strength, and dosage form;
  - (3) Quantity prescribed (numeric and written);
  - (4) Directions for use;
  - (5) Authorized refills, if applicable; and
  - (6) Name, address, and DEA registration number of the prescribing dentist.
- c. In addition to the information in section (D)(1)(b) of this Rule, the following shall be recorded on the patient's record:
  - (1) Date of prescribing;
  - (2) Name of authorized practitioner dispensing drug; and
  - (3) Medical purpose, diagnosis, condition being treated or services performed.
- d. All prescriptions for controlled substances shall be dated as of, and signed on, the day when issued.
- e. Electronic prescription orders must include an individualized, electronic and unalterable electronic signature from the prescribing dentist. The prescribing dentist must use an electronic prescription application that retains a digitally signed record of the information required in this subsection. The electronic prescription application must retain an internal audit trail that complies with applicable DEA regulations. A prescribing dentist must retain any security incident reports filed with the DEA related to electronic prescriptions for at least two years.
- f. On or before July 1, 2023, when an oral order or electronic prescription is not permitted, prescriptions shall be written or digitally printed in ink or indelible pencil and manually signed by the dentist in the same manner as the dentist would sign a check or legal document (e.g. J. H. Smith or John H. Smith). Written prescription orders must include original signatures from the prescribing dentist.

Prescriptions may be prepared by an assigned agent or staff member prior to the prescribing dentist's signature, but the prescribing dentist assumes full responsibility in the case the prescription does not conform to all aspects of the law and regulations. Prescribing dentists may not make use of rubber stamped, pre-printed, or pre-signed prescriptions.

2. Controlled Substance Dispensing and Administration – every dentist shall maintain records in the dentist's office regarding such dentist's ordering, dispensing, administration, and inventory of controlled substances for a period of at least two years. The dispensing and administration records kept by the dentist must be legible, comprehensive, and organized in a manner that accurately tracks inventory and renders them capable of objective review for compliance.
  - a. A dentist dispensing and/or administering any controlled substance shall follow all laws and regulations pursuant to the Federal Controlled Substance Act (CSA), 21 USC 801-890; and the DEA regulations, Title 21, Code of Federal Regulations (CFR), Parts 1300 to 1316.
  - b. When a dentist dispenses and/or administers any controlled substance, the following shall be recorded in the patient's record:
    - (1) Name and address of the patient;
    - (2) Medical purpose, diagnosis, and condition being treated or services performed;
    - (3) Name and strength of drug(s) dispensed and/or administered;
    - (4) Quantity of drug(s) dispensed and/or administered;
    - (5) Date of dispensing and/or administering of such drugs; and
    - (6) Name of authorized practitioner dispensing and/or administering the drug.
  - c. With respect to drugs listed in Schedule II, III, IV, and V of the Federal Controlled Substance Act and the Rules and Regulations adopted pursuant thereto, the dentist shall maintain a record of dispensing or administration which shall be separate from the individual patient's record. This separate record shall include the following information:
    - (1) Name of the patient;
    - (2) Name and strength of the drug;
    - (3) Quantity of the drug dispensed or administered;
    - (4) Date such drug was administered or dispensed; and
    - (5) Name of the authorized practitioner dispensing the drug.
  - d. A dentist dispensing and/or administering any controlled substance shall keep a complete and accurate inventory of all stocks of controlled substances on hand in the dentist's office. Every two years, in accordance with the DEA inventory

requirements, the dentist shall conduct a new inventory of all such controlled substances. The inventory must include drug manufacturer samples.

- e. A dentist dispensing and/or administering any controlled substance must comply with applicable DEA storage and security requirements (Title 21, CFR Section 1301.71(a) requires that all registrants provide effective controls and procedures to guard against theft and diversion of controlled substances), including but not limited to a securely locked, substantially constructed cabinet with limited access to ensure the safe management of controlled substances. The physical location of the secure storage must match the registered location that is present on the dentist's DEA registration.
  - f. A dentist shall maintain a record of any controlled substance(s) lost, destroyed, or stolen, and the record shall include the kind and quantity of such controlled substance(s) and the date of such loss, destruction, or theft. In addition, the dentist must report such loss or theft to the DEA District Office.
  - g. Expired or unwanted drugs must be disposed of in accordance with applicable DEA regulations (Title 21, CFR Section 1317) and Colorado Department of Public Health & Environment (CDPHE) regulations (6 CCR 1007-2, hazardous waste pharmaceuticals, and 6 CCR 1007-3, non-hazardous, non DEA pharmaceuticals).
- 3. Records must be available for inspection and copying by authorized DEA and Board representatives.
  - 4. Electronic Prescribing of Controlled Substances

Pursuant to section 12-30-111(1)(b), C.R.S., and effective on and after July 1, 2023, a prescriber shall prescribe a controlled substance as set forth in section 12-30-111(1)(a), C.R.S., only by electronic prescription transmitted to a pharmacy unless an exception in section 12-30-111(1)(a), C.R.S., applies.

- a. A “temporary technological failure,” for purposes of section 12-30-111(1)(a)(I), C.R.S., is when a necessary business software programs is inaccessible or otherwise not operational, required technology fails to start, or when a virus has put patient data and transmission at risk for at least forty-eight hours or two consecutive business days.
- b. A “temporary electrical failure,” for purposes of section 12-30-111(1)(a)(I), C.R.S., is a short-term loss of electrical power at the place of business that lasts no more than forty-eight hours or two consecutive business days.
- c. An “economic hardship,” for purposes of section 12-30-111(1)(a)(XI), C.R.S., is a measurement of relative need taking into consideration the individual gross receipts and net profits, cost of compliance, and type of software upgrade required. In order for a prescriber to demonstrate economic hardship, the prescriber must submit to the Board for a final determination:
  - (1) A written statement explaining the economic hardship, including supporting documentation to demonstrate economic hardship. Supporting documentation must include the most recent tax return or other business records that show gross receipts and net profits. The request must also include the requested duration of the economic hardship.

- (2) If the Board determines there should be an economic hardship exception for the prescriber, then the Board will determine the duration of the economic hardship exception, which shall not exceed one year from the date the exception was granted.
- (3) In order to renew a request for an economic hardship exception, the prescriber must submit a request to renew the exception in writing to the Board no less than two months prior to the expiration of the economic hardship exception. The prescriber must provide a written statement explaining the need to renew the economic hardship, including supporting documentation.

E. Patient Records Retention

1. Records for minors shall be kept for a minimum of seven years after the patient reaches the age of majority (age eighteen).
2. Records for adult patients shall be kept for a minimum of seven years after the last date of dental treatment or examination, whichever occurs at the latest date.
3. This Rule does not apply to records kept by educational, not-for-profit, and/or public health programs, which are subject to CDPHE statutes (section 25-1-802, C.R.S.).
4. When the destruction cycle is imminent, written notice to the patient's last known email address, mailing address, or notice by publication, must be made sixty days prior to destruction. Destruction cannot take place until a thirty day period has elapsed wherein the patient may claim the records.
5. Notice by publication may be accomplished by publishing or posting online in a major newspaper and a newspaper broadly circulated in the local community one day per week for four consecutive weeks.
6. When the destruction cycle is imminent, records will be provided to the patient or legal guardian at no charge; however, reasonable postage and handling costs are permitted or actual costs associated with the electronic medium, if applicable.
7. Destruction shall be accomplished by a means which renders the records unable to be identified or read. Examples include, but are not limited to:
  - a. For paper records, by:
    - (1) Incinerating; or
    - (2) Shredding.
  - b. For electronic records, by:
    - (1) Clearing (using software or hardware products to overwrite media);
    - (2) Purging (degaussing or exposing the media to a strong magnetic field in order to disrupt the recorded magnetic domains); or
    - (3) Destroying (disintegrating, pulverizing, melting, incinerating, or shredding).

- F. Anesthesia – refer to Rule 1.14(O) for these documentation requirements.
- G. Pediatric Case Management and Protective Stabilization – refer to Rule 1.15(A)(1) and Rule 1.15(E) for these documentation requirements.
- H. Use of Lasers – refer to Rule 1.22(F) for these documentation requirements.

(Promulgated as Emergency Rule XXVIII on July 7, 2004; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016; Amended and Re-numbered November 5, 2020; Effective December 30, 2020; Amended November 4, 2021; Effective December 30, 2021)

**1.10 Minimum Standards for Qualifications, Training and Education for Unlicensed Personnel Exposing Patients to Ionizing Radiation**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 12-220-602, C.R.S.

Pursuant to section 12-220-602, C.R.S., a licensed dentist, [dental therapist](#) or dental hygienist shall not allow an unlicensed person to operate a machine source of ionizing radiation or to administer radiation to any patient unless the person meets the requirements of this Rule and any applicable rules of the Colorado Department of Public Health and Environment. These requirements apply to all persons in dental settings other than hospitals and similar facilities licensed by the Colorado Department of Public Health and Environment pursuant to section 25-1.5-103, C.R.S.

- A. All unlicensed dental personnel who expose patients to ionizing radiation must:
  - 1. Be a minimum of eighteen years of age.
  - 2. Successfully complete minimum safety education and training for operating machine sources of ionizing radiation and administering such radiation to patients.
- B. Such education and training shall include at least eight-and-a-half hours in the following areas, but not limited to:
  - 1. Dental nomenclature - half hour;
  - 2. Machine operation exposure factors - two hours;
  - 3. Operator and patient safety - one hour; and
  - 4. Practical or clinical experience in:
    - a. Intra/extra - oral techniques for exposing radiographic images - four hours;
    - b. Appropriate film handling and storage when it applies – one-quarter hour;
    - c. Appropriate processing procedures - half hour; and
    - d. Appropriate patient record documentation for radiographic images – one-quarter hour.
- C. Written verification of education and training shall be provided by the sponsoring agency, educational institution or licensee to each participant upon completion. This written verification shall also be signed by the unlicensed person; one copy shall be kept in each unlicensed

person's employment record located at the employment site, the other kept by the unlicensed person. Written verification of completion of education and training must include:

1. Name of agency, educational institution or licensee who provided such education and training;
2. Verification of hours;
3. Date of completion; and
4. Exposure techniques for which education and training have been provided, i.e. bitewings, periapicals, occlusals, and panoramic.

D. Satisfaction of the education and training requirements may be achieved by successfully completing one of the following:

1. Programs approved by the Commission on Dental Accreditation, Colorado Commission on Higher Education, the State Board of Community Colleges and Occupational Education, the Private Occupational School Division, or the equivalent in any other state. Such programs shall include the education and training as specified in section (B) of this Rule.
2. On the job training by a licensed dentist or dental hygienist providing a Board-approved educational module which complies with section (B) of this Rule is used as the basis for such training.
3. The "Radiation Health and Safety" (RHS) or "Certified Dental Assistant" (CDA) examination administered by the Dental Assisting National Board, Inc. (DANB).

E. All licensees must ensure that newly hired untrained dental personnel comply with these Rules within three months of becoming employed in a capacity in which they will be delegated the task of exposing radiographic images.

F. It shall be the duty of each licensee to ensure that:

1. Tasks are assigned only to those individuals who have successfully completed the education and training and meet the qualifications for those tasks, which are being delegated; and
2. The properly executed verification documentation of all unlicensed personnel who are operating machine sources of ionizing radiation and exposing such radiation be submitted to the Colorado Dental Board upon request.

(Amended April 28, 2016, Effective June 30, 2016; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

### **1.11 Laboratory Work Order Forms**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 12-220-104(11), C.R.S.

Laboratory work order forms, written or electronic, as defined in section 12-220-104(11), C.R.S., shall be retained by the dentist and lab for two years and contain the following information pursuant to section 12-220-502, C.R.S.:

- A. Name of laboratory.
- B. Name of dentist.
- C. Address of dentist.
- D. License number of dentist.
- E. Patient name or I.D. number.
- F. Instructions to laboratory.
  - 1. Include adequate space for instructions or directions.
  - 2. Date of try in or delivery.
- G. Personal signature of the authorizing dentist shall be written in ink or provided electronically and shall be manually entered by the dentist for each order. The use of rubber stamped, pre-printed, or a pre-signed signature on work orders is not acceptable.
- H. Date of directions.

(Re-numbered December 30, 2011; Amended January 22, 2015, Effective March 30, 2015; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

#### **1.12 Denture Construction by Assistants and Unlicensed Technicians**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, 12-220-501(3)(d), and 12-220-502, C.R.S. This Rule relates to tasks authorized to be performed by dental assistants as defined in section 12-220-501(3)(d), C.R.S., and tasks authorized to be performed by unlicensed technicians as defined in section 12-220-502, C.R.S.

- A. Dentures are defined as fixed, removable, full, or partial appliances designed to replace teeth.
- B. Dental assistants who render direct patient treatment as allowed by section 12-220-501(3)(d), C.R.S., necessary for the construction of dentures, shall be supervised by the dentist.
- C. A dental assistant or unlicensed technician shall not practice dentistry as defined in section 12-220-305, C.R.S., unless pursuant to sections 12-220-501 and 12-220-502, C.R.S.
- D. All tasks authorized to be performed by a dental assistant pursuant to section 12-220-501(3)(d), C.R.S., shall be performed in the “regularly announced office location” of a dentist where the dentist is the proprietor and in which the dentist regularly practices dentistry, unless that person is operating as an unlicensed technician pursuant to section 12-220-502(1)(b), C.R.S., which allows an unlicensed technician that possesses a valid laboratory work order to provide extraoral construction, manufacture, fabrication, supply, or repair of identified dental and orthodontic devices. Intraoral service in a human mouth by a dental assistant or unlicensed technician is authorized and permissible only if under the direct supervision of a dentist pursuant to section 12-220-501(3)(d), C.R.S.
- E. Nothing in this Rule shall prevent the filling of a valid work order pursuant to section 12-220-502, C.R.S., by any unlicensed technician, association, corporation, or other entity for the construction, reproduction, or repair of prosthetic dentures, bridges, plates, or appliances to be used or worn as substitutes for natural teeth or for restoration of natural teeth.

(Effective February 1, 1999; Amended October 1, 1999, December 2, 2002; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended January 22, 2015, Effective March 30, 2015; Amended and Re-numbered November 5, 2020; Effective December 30, 2020)

**1.13 Limited Prescriptive Authority for Dental Hygienists and Dental Therapists**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 12-220-503(1)(g), and 12-220-508 C.R.S.

- A. Pursuant to section 12-220-503(1)(g)(I)and 12-220-508(1)(c)(VIII), C.R.S., a dental hygienist and a dental therapist without supervision of a dentist may prescribe, administer, and dispense fluoride, fluoride varnish, antimicrobial solutions for mouth rinsing, and other non-systemic antimicrobial agents, and related emergency drugs and reversal agents in collaboration with a licensed dentist and, if applicable, when issued a National Provider Identifier (NPI) number by the Centers for Medicare & Medicaid Services (CMS) under the U.S. Department of Health and Human Services.
1. Collaboration with a dentist requires the dental hygienist or dental therapist to develop an articulated plan for safe prescribing which documents how the dental hygienist or dental therapist intends to maintain ongoing collaboration with a dentist in connection with the dental hygienist's or dental therapist's practice of prescribing as allowed in section 12-220-503(1)(g), C.R.S., and section (C) of this Rule.
  2. The articulated plan shall guide the dental hygienist's or dental therapist's prescriptive practice and shall include at least the following:
    - a. A mechanism for consultation and referral to a dentist when the dental hygienist or dental therapist detects a condition that requires care beyond the scope of practicing unsupervised dental hygiene or dental therapy;
    - b. A quality assurance plan;
    - c. Decision support tools; and
      - (1) A decision support tool is an assistive tool commonly recognized by healthcare professionals as a valid resource for information on pharmaceutical agents or to aid the dental hygienist or dental therapist in making appropriate judgments regarding safe prescribing.
      - (2) Such tools may include, but are not limited to, electronic prescribing databases, evidence-based guidelines, antimicrobial reference guides, and professional journals and textbooks.
    - d. Emergency protocols and standing orders, including use of emergency drugs.
  3. The dental hygienist or dental therapist shall:
    - a. Retain the written articulated plan with the collaborating dentist's signature on file;
    - b. Review the plan annually; and
    - c. Update the plan as necessary.

- 
- 4. The articulated plan is subject to Board review and the dental hygienist [or dental therapist](#) shall provide the plan to the Board upon request.
  - B. A dental hygienist [or dental therapist](#) shall not prescribe, administer, or dispense the following:
    - 1. Drugs whose primary effect is systemic, with the exception of fluoride supplements permitted under section 12-220-503(1)(g)(III)(A), C.R.S.; and
    - 2. Dangerous drugs or controlled substances.
  - C. The related emergency and reversal agents a dental hygienist [or dental therapist](#) may prescribe, administer, and dispense in collaboration with a licensed dentist include the following:
    - 1. Epinephrine (Epi-Pen) up to .3mg
    - 2. Nitroglycerine up to .6mg
    - 3. Albuterol up to 200mcg inhalation powder
    - 4. Diphenhydramine
    - 5. Glucose (Dextrose or Glucagon)
    - 6. Oxygen
    - 7. Narcan (naloxone)
  - D. A dental hygienist [or dental therapist](#) shall maintain clear documentation in the patient record of the:
    - 1. Agent or drug prescribed, administered, or dispensed, including dose, amount, and refills;
    - 2. Date of the action; and
    - 3. Rationale for prescribing, administering, or dispensing the agent or drug.
  - E. A prescriptive order shall include:
    - 1. Name of the patient,
    - 2. Date of action,
    - 3. Agent or drug prescribed including dose, amount and refills, and
    - 4. Rationale for prescribing the agent or drug.
  - F. If a dental hygienist [or dental therapist](#) prescribes, administers, or dispenses without supervision of a dentist but fails to develop the required articulated plan, or fails to maintain clear documentation in the patient record; or prescribes, administers, or dispenses outside of what is allowed pursuant to section 12-220-503(1)(g), C.R.S., or in this Rule, then such conduct constitutes grounds for discipline pursuant to section 12-220-201(1)(i), C.R.S.
  - G. Any dental hygienist [or dental therapist](#) placing therapeutic agents or prescribing drugs shall have proof of current Basic Life Support (BLS) for healthcare providers.
-

- H. The placement and removal of therapeutic agents in periodontal pockets and limited prescriptive authority may not be delegated or assigned to a dental assistant.

(Effective June 30, 1996 as Rule XXIV; Amended December 2, 2002; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended January 22, 2015, Effective March 30, 2015; Amended April 30, 2015, Effective June 30, 2015; Amended January 17, 2018, Effective March 17, 2018; Amended an Re-numbered November 5, 2020; Effective December 30, 2020)

#### **1.14 Anesthesia**

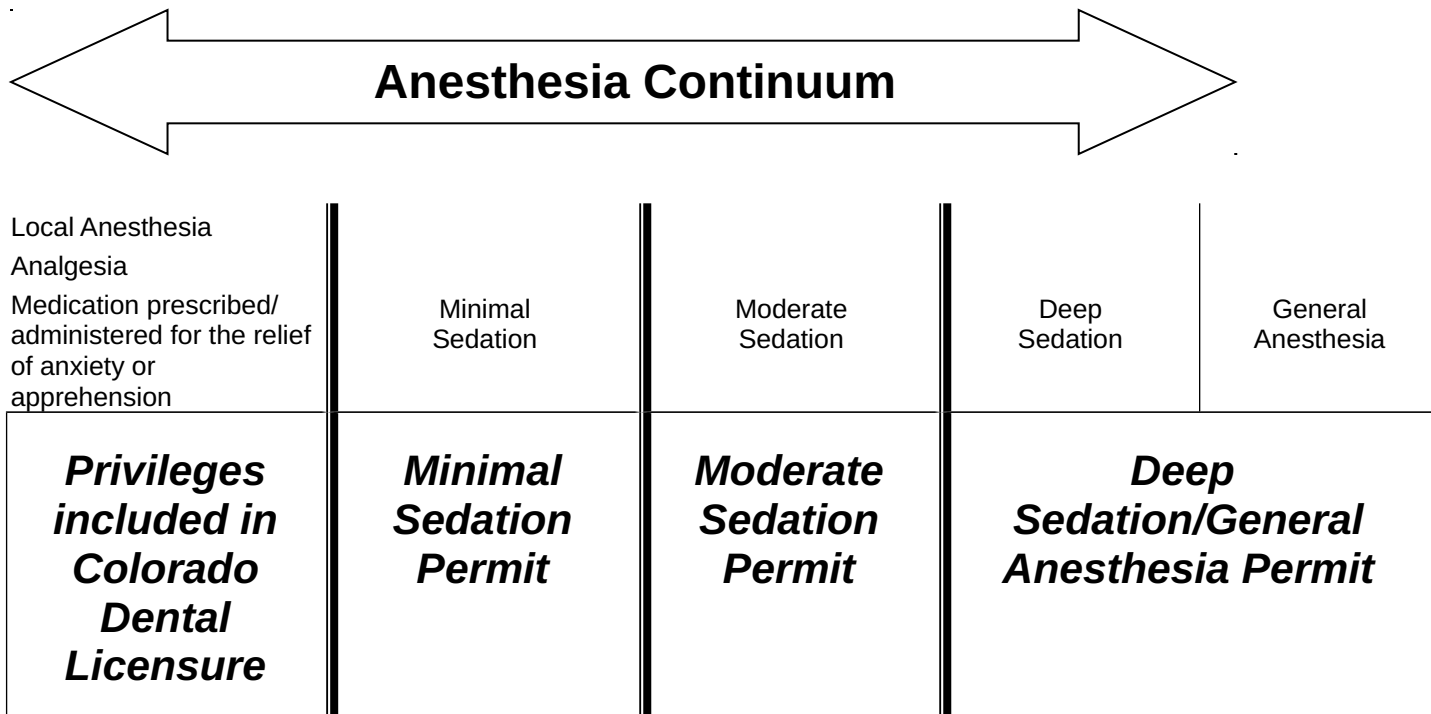

(Amended February 1, 1998, August 1, 2000; August 11, 2004; October 27, 2004; October 26, 2006; July 9, 2009, Effective December 31, 2006; Amended January 21, 2010, Effective March 30, 2010; Amended April 30, 2015, Effective June 30, 2015; Amended April 28, 2016, Effective June 30, 2016)

##### **A. Introduction**

1. This Rule 1.14 is authorized by the Dental Practice Act including, but not limited to, sections 12-220-106(1)(a)(II-III), and (f), 12-220-305(1)(p) and (q), 12-220-306, 12-220-504(1)(c), 12-220-501(3)(a)(V), 12-220-201(1)(cc) and (II), [and 12-220-411 and 12-220-508\(1\)\(c\)\(VI\)](#), C.R.S.
2. The purpose of this Rule 1.14 is to make the process for obtaining an anesthesia permit well defined, transparent, and consistent for the dental professionals while at the same time protecting and promoting patient safety.

##### **B. The Anesthesia Continuum**

1. The anesthesia continuum represents a spectrum encompassing analgesia, local anesthesia, sedation, and general anesthesia along which no single part can be simply distinguished from neighboring parts. It is not the route of administration that determines or defines the level of anesthesia administered. The location on the continuum defines the level of anesthesia administered.

2. The level of anesthesia on the continuum is determined by the definitions listed under section (C) of this Rule 1.14. Elements used to determine the level of anesthesia include the level of consciousness and the likelihood of anesthesia provider intervention(s), based upon the following patient parameters:

- a. Responsiveness;
- b. Airway;
- c. Respiratory (breathing); and
- d. Cardiovascular.

C. Definitions Related to Anesthesia

1. Anesthesia - The art and science of managing anxiety, pain, and awareness. It includes analgesia, local anesthesia, minimal sedation, moderate sedation, deep sedation, and general anesthesia.
2. Analgesia - The diminution or elimination of pain.
3. Local Anesthesia - The elimination of sensation, especially pain, in one part of the body by the topical application or regional injection of a drug.
4. Minimal Sedation - A minimally depressed level of consciousness produced by a pharmacological method, that retains the patient's ability to independently and continuously maintain an airway and respond normally to tactile stimulation and verbal command. Although cognitive function and coordination may be modestly impaired, ventilatory and cardiovascular functions are unaffected.

- 
5. Moderate Sedation - A drug-induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway and spontaneous ventilation is adequate. Cardiovascular function is usually maintained.
  6. Deep Sedation - A drug-induced depression of consciousness during which patients cannot be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. Patients may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is usually maintained.
  7. General Anesthesia - A drug-induced loss of consciousness during which patients are not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. Patients often require assistance in maintaining a patent airway, and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.
  8. Monitoring - Evaluation of patients to assess physical condition and level of anesthesia.
  9. Peri-anesthesia Period - The time from the beginning of the pre-anesthesia assessment until the patient is discharged from anesthesia care.
  10. Anesthesia Provider - The licensed and legally authorized individual responsible for administering medications that provide analgesia, local anesthesia, minimal, moderate or deep sedation, or general anesthesia.
  11. Pediatric Designation – Board-granted designation required, in addition to an anesthesia permit, if administering minimal sedation, moderate sedation, or deep sedation/general anesthesia to a patient under twelve years old.
- D. General Rules for the Safe Administration of Anesthesia
1. The anesthesia provider's education, training, experience, and current competence must correlate with the progression of a patient along the anesthesia continuum.
  2. The anesthesia provider must be prepared to manage deeper than intended levels of anesthesia as it is not always possible to predict how a given patient will respond to anesthesia.
  3. The anesthesia provider's ultimate responsibility is to protect the patient. This includes, but is not limited to, identification and management of any complication(s) occurring during the peri-anesthesia period.
  4. No dentist shall administer or employ any agent(s) with a narrow margin for maintaining consciousness including, but not limited to, ultra-short acting barbiturates, propofol, parenteral ketamine, and similarly acting drugs, or quantity of agent(s), or technique(s), or any combination thereof that would likely render a patient deeply sedated, generally anesthetized or otherwise not meeting the conditions of the definition of minimal sedation or moderate sedation in section C of this Rule 1.14, unless he/she holds a valid Deep Sedation/General Anesthesia Permit issued by the Colorado Dental Board.

**E. Anesthesia Privileges Included in Colorado Dental Licensure**

1. The following anesthesia privileges are included with a Colorado issued dentist license and academic license:
  - a. Local Anesthesia;
  - b. Analgesia;
  - c. Medication prescribed/administered for the relief of anxiety or apprehension to non-pediatric patients, limited to the following:
    - (1) A dose of a single drug (no more than the maximum recommended dose) that can be prescribed for unmonitored home use; or
    - (2) The above plus nitrous oxide; and
  - d. Nitrous Oxide/Oxygen Inhalation Analgesia in compliance with section G of this Rule 1.14.
2. A dentist who elects to engage the services of another anesthesia provider in order to provide anesthesia in his/her dental office is responsible for ensuring that the office meets the requirements outlined in this Rule 1.14.

**F. Anesthesia Permits**

1. Local Anesthesia Permit for [dental therapists and](#) dental hygienists -
  - a. To administer local anesthetic or local anesthetic reversal agents under the indirect supervision of a dentist, a [dental therapist and a](#) dental hygienist shall obtain a Local Anesthesia Permit.
  - b. A Local Anesthesia Permit will be issued once and will remain valid as long as the licensee maintains an active license to practice, except as otherwise provided in section 12-220-411, C.R.S., or this Rule 1.14.
  - c. In order to initially apply for, renew, or reinstate a Local Anesthesia Permit pursuant to this Rule 1.14, an applicant must pay a fee established by the Director of the Division of Professions and Occupations pursuant to section 12-20-105, C.R.S.
2. Inspection Permit -
  - a. A dentist will be issued an Inspection Permit upon meeting the educational and/or experience requirements for a Moderate Sedation Permit or for a Deep Sedation/General Anesthesia Permit as outlined in this Rule 1.14 prior to successfully completing his/her clinical onsite inspection.
  - b. Unless otherwise authorized by the Board, the Inspection Permit will be issued once and will remain valid for a maximum of ninety days.
  - c. An Inspection Permit can only be used to administer anesthesia for purposes of a Board authorized inspection.

3. Minimal Sedation Permit -

- a. To administer minimal sedation, a dentist shall have a Minimal Sedation Permit, Moderate Sedation Permit, or a Deep Sedation/General Anesthesia Permit issued in accordance with this Rule 1.14.
- b. A Minimal Sedation Permit shall be valid for a period of five years, after which such permit may be renewed upon reapplication.
- c. In order to initially apply for, renew, or reinstate a Minimal Sedation Permit pursuant to this Rule 1.14, an applicant must pay a fee established by the Director of the Division of Professions and Occupations pursuant to section 12-20-105, C.R.S.

4. Moderate Sedation Permit -

- a. To administer moderate sedation, a dentist shall have a Moderate Sedation Permit or a Deep Sedation/General Anesthesia Permit issued in accordance with this Rule 1.14.
- b. A Moderate Sedation Permit shall be valid for a period of five years after which such permit may be renewed upon reapplication.
- c. In order to initially apply for, renew, or reinstate a Moderate Sedation Permit pursuant to this Rule 1.14, an applicant must pay a fee established by the Director of the Division of Professions and Occupations pursuant to section 12-20-105, C.R.S.

5. Deep Sedation/General Anesthesia Permit -

- a. To administer deep sedation/and or general anesthesia, a dentist shall have a Deep Sedation/General Anesthesia Permit issued in accordance with this Rule 1.14.
- b. A Deep Sedation/General Anesthesia Permit shall be valid for a period of five years after which such permit may be renewed upon reapplication.
- c. In order to initially apply for, renew, or reinstate a Deep Sedation/General Anesthesia Permit pursuant to this Rule 1.14, an applicant must pay a fee established by the Director of the Division of Professions and Occupations pursuant to section 12-20-105, C.R.S.

G. Nitrous Oxide/Oxygen Inhalation Requirements

- 1. A dentist may delegate under direct supervision the monitoring and administration of nitrous oxide/oxygen inhalation to appropriately trained dental personnel, pursuant to sections 12-220-305(1)(p) and (q), 12-220-501(3)(c), and 12-220-411(4), C.R.S.
- 2. The supervising dentist is responsible for determining and documenting the maximum percent-dosage of nitrous oxide administered to the patient. Documentation shall include the length of time nitrous oxide was delivered.
- 3. It is the responsibility of the supervising dentist to ensure that dental personnel who administer and/or monitor nitrous oxide/oxygen inhalation are appropriately trained.

- 
4. If nitrous oxide is used in the practice of dentistry, then the supervising dentist shall provide and ensure the following:
    - a. Fail safe mechanisms in the delivery system and an appropriate scavenging system;
    - b. The inhalation equipment must be evaluated for proper operation and delivery of inhalation agents;
    - c. Any administration or monitoring of nitrous oxide/oxygen inhalation to patients by dental personnel is performed in accordance with generally accepted standards of dental, [dental therapy](#) or dental hygiene practice.
  - H. Local Anesthesia Permit for [Dental Therapists and](#) Dental Hygienists
    1. A [dental therapist and a](#) dental hygienist may obtain a Local Anesthesia Permit after submitting a Board-approved application and upon successful completion of courses conducted by a school accredited by the Commission on Dental Accreditation (CODA).
    2. Courses must meet the following requirements:
      - a. Twelve hours of didactic training, including but not limited to:
        - (1) Anatomy;
        - (2) Pharmacology;
        - (3) Techniques;
        - (4) Physiology; and
        - (5) Medical Emergencies.
      - b. Twelve hours of clinical training that includes the administration of at least six infiltration and six block injections.
  - I. Minimal Sedation Permit - A dentist may obtain a Minimal Sedation Permit after submitting a Board-approved application and upon successful completion of the educational requirements, or by endorsement of authorized administration in another state/jurisdiction set forth below:
    1. A specialty residency or general practice residency recognized by the Commission on Dental Accreditation (CODA) that includes comprehensive and appropriate training to administer and manage minimal sedation; or
    2. Educational criteria for a Moderate Sedation Permit or for a Deep Sedation/General Anesthesia Permit; or
    3. A minimum of sixteen hours of Board-approved coursework completed within the past 5 years that provides training in the administration and induction of minimal sedation techniques and management of complications and emergencies associated with sedation commensurate with the American Dental Association (ADA) 2012 "Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students".
      - a. The coursework must contain an appropriate combination of didactic instruction and practical skills training.
-

- 
- b. The applicant must submit for Board approval documentation of the training course(s) to include, but not be limited to, a syllabus or course outline of the program and a certificate or other documentation from course sponsors or instructors indicating the number of course hours, content of such courses and date of successful completion.
      - c. Course content leading to current Basic Life Support (BLS) and/or Advanced Cardiac Life Support (ACLS) and/or Pediatric Advanced Life Support (PALS) cannot be considered as part of the sixteen hours of classroom and clinical instruction.
    - 4. At its discretion, the Board may consider qualifications accepted in another state or jurisdiction that resulted in a comparable permit to be issued by that state or jurisdiction which is substantially equivalent to the requirements for a Minimal Sedation Permit in Colorado. At a minimum, the applicant must demonstrate that he/she has successfully administered minimal sedation in twenty cases within the last two years prior to applying, and has had no discipline, morbidity to a patient requiring hospital admission, or patient mortality associated with the administration of sedation.
    - 5. Pediatric Designation - A dentist is only eligible for a Pediatric Designation on his/her Minimal Sedation Permit by successfully completing one of the following:
      - a. Completing a pediatric residency pursuant to paragraph (1)(a) of Rule 1.14(J) below.
      - b. Meeting the educational criteria pursuant to paragraph (1)(b) of Rule 1.14(J) below, or
      - c. Completing:
        - (1) A minimum of thirty hours of education specific to pediatric patients in addition to or as part of the residency pursuant to paragraph (1)(a), or the sixty hours of education pursuant to paragraph (2)(a) of Rule 1.14(J) below; and
        - (2) Ten pediatric cases in addition to or as part of the residency pursuant to paragraph (1)(a), or the twenty cases of experience pursuant to paragraph (2)(b) of Rule 1.14(J) below.
  - J. Moderate Sedation Permit - A dentist may obtain a Moderate Sedation Permit after submitting a Board-approved application and upon successful completion of education only, or a combination of approved education and experience, or by endorsement of authorized administration in another state or jurisdiction as set forth below:
    - 1. Education Only Route - Must submit proof of having successfully completed one of the following:
      - a. A specialty residency or general practice residency recognized by the Commission on Dental Accreditation (CODA) that at a minimum includes:
        - (1) Sixty hours of training in the administration and induction of moderate sedation techniques and management of complications and emergencies associated with sedation commensurate with the American Dental Association (ADA) 2012 "Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students"; and

- 
- (2) Sedation cases performed by the applicant on twenty unique patients that were completed as part of the residency where the applicant is both the primary provider of the sedation and direct provider of dental care; or
    - b. Educational criteria for a Deep Sedation/General Anesthesia Permit.
  - 2. Education/Experience Route - Must submit proof of successfully completing moderate sedation course(s) and acceptable sedation cases as follows:
    - a. Education
      - (1) Sixty hours of Board-approved coursework completed within the past five years that provides training in the administration and induction of moderate sedation techniques and management of complications and emergencies associated with sedation commensurate with the American Dental Association (ADA) 2012 "Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students".
      - (2) Such coursework must include an appropriate combination of didactic instruction and practical skills training. Coursework must also include documented training in parenteral techniques in order to perform parenteral sedation once a Moderate Sedation Permit is issued.
      - (3) The applicant must submit for Board approval documentation of the training course(s) to include, but not be limited to, a syllabus or course outline of the program and a certificate or other documentation from course sponsors or instructors indicating the number of course hours, content of such courses and date of successful completion.
      - (4) Course content leading to current Basic Life Support (BLS) and/or Advanced Cardiac Life Support (ACLS) and/or Pediatric Advanced Life Support (PALS) cannot be considered as part of the sixty hours of classroom and clinical instruction.
    - b. Experience
      - (1) Sedation cases performed by the applicant on twenty unique patients that were completed as part of or separate from the Board-approved sedation training course.
      - (2) If completed as part of a Board-approved sedation training course, then time spent on cases does not count towards the sixty-hour course requirement.
      - (3) If completed separate from the course, then all cases must be completed during the one year period immediately after completion of the approved training program.
      - (4) All of the cases must be performed and documented under the on-site instruction and supervision of a person qualified to administer anesthesia at a deep sedation/general anesthesia level.
      - (5) Pursuant to section 12-220-411(4)(b), C.R.S., the applicant must both be the primary provider of the sedation and directly provide dental care for all required casework.

- 
- (6) Cases may be performed on live patients or as part of a hands-on high-fidelity sedation simulation center or program; however, a maximum of five hands-on high fidelity simulation cases may be accepted as part of the required twenty sedation cases.
      - (7) Cases must meet the documentation and monitoring requirements for moderate sedation set forth in sections (O) and (P) of Rule 1.14. The cases must meet generally accepted standards for the provision and documentation of moderate sedation in Colorado, regardless of where the cases occurred.
    - 3. Endorsement Route – At its discretion, the Board may consider qualifications accepted in another state or jurisdiction that resulted in a comparable permit to be issued by that state or jurisdiction which is substantially equivalent to the requirements for a Moderate Sedation Permit in Colorado. At a minimum, the applicant must demonstrate that he/she has successfully administered moderate sedation in twenty cases within the last two years prior to applying, and has had no discipline, morbidity to a patient requiring hospital admission, or patient mortality associated with the administration of sedation.
    - 4. Pediatric Designation - A dentist is only eligible for a Pediatric Designation on his/her Moderate Sedation Permit by successfully completing one of the following:
      - a. Completing a pediatric residency pursuant to paragraph (1)(a) of this Rule 1.14(J).
      - b. Meeting the educational criteria pursuant to paragraph (1)(b) of this Rule 1.14(J), or
      - c. Completing:
        - (1) A minimum of thirty hours of education specific to pediatric patients in addition to or as part of the residency pursuant to paragraph (1)(a), or the sixty hours of education pursuant to paragraph (2)(a) of this Rule 1.14(J); and
        - (2) Ten pediatric cases in addition to or as part of the residency pursuant to paragraph (1)(a), or the twenty cases of experience pursuant to paragraph (2)(b) of this Rule 1.14(J).
  - K. Deep Sedation/General Anesthesia Permit - A dentist may obtain a Deep Sedation/General Anesthesia Permit after submitting a Board-approved application and upon successful completion of one of the following educational requirements:
    - 1. A residency program in general anesthesia that is approved by the Commission on Dental Accreditation (CODA), the Accreditation Council for Graduate Medical Education, or any successor organization to any of the foregoing; or
    - 2. An acceptable post-doctoral training program (e.g. oral and maxillofacial surgery or dental anesthesiology) that affords comprehensive and appropriate training necessary to administer and manage deep sedation and general anesthesia commensurate with the American Dental Association (ADA) 2012 "Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students".
    - 3. A dentist issued a Deep Sedation/General Anesthesia Permit is automatically eligible to obtain a Pediatric Designation.
-

- 
- L. Clinical On-Site Inspection for Obtaining, Renewing, or Reinstating a Moderate Sedation or Deep Sedation/General Anesthesia Permit
1. Applications for a Moderate Sedation Permit or Deep Sedation/General Anesthesia Permit
    - a. Any dentist applying for a Moderate Sedation Permit or a Deep Sedation/General Anesthesia Permit must successfully complete a clinical on-site inspection as a condition of obtaining a Moderate Sedation Permit or Deep Sedation/General Anesthesia Permit.
    - b. Upon satisfying the requirements of section (J) or (K) of Rule 1.14, the dentist applying for a Moderate Sedation Permit or Deep Sedation/General Anesthesia Permit will initially be issued an Inspection Permit. The dentist must then undergo a clinical on-site inspection. The Inspection Permit may only be utilized for purposes of undergoing the Board-approved clinical on-site inspection.
    - c. Upon issuance, an Inspection Permit is effective for ninety days, and unless otherwise authorized by the Board, the clinical on-site inspection must be successfully completed within those ninety days while the Inspection Permit is in effect.
  2. Applications for Renewing (only available to those licensed dentists actively administering anesthesia in Colorado) or Reinstating a Moderate Sedation Permit or Deep Sedation/General Anesthesia Permit
    - a. Any dentist applying to renew or reinstate a Moderate Sedation Permit or a Deep Sedation/General Anesthesia Permit must submit an updated clinical on-site inspection as required pursuant to section 12-220-411(5), C.R.S.
    - b. Any dentist who has his/her dental office inspected pursuant to paragraphs (4) and (8)(b)(3) of Rule 1.14(L) must submit an updated clinical on-site inspection every five years.
    - c. To renew an active permit a clinical on-site inspection must be completed within the three months before the expiration date of the permit or within a three month grace-period after the expiration date of the permit; otherwise the permit will expire and the dentist will no longer be authorized to administer any level of anesthesia requiring a permit.
    - d. Any dentist whose Moderate Sedation Permit or Deep Sedation/General Anesthesia Permit has expired is required to first obtain an Inspection Permit before proceeding with a clinical on-site inspection.
  3. A separate clinical on-site inspection is not required for dentists who receive a Moderate Sedation Permit or a Deep Sedation/General Anesthesia Permit pursuant to this Rule 1.14 for one dental office and travel to other dental office locations in Colorado to administer anesthesia. However, it is the responsibility of the anesthesia provider to ensure that each dental office where moderate sedation and/or deep sedation/general anesthesia is administered meets the requirements outlined in this Rule. This responsibility also extends to a dentist without a Moderate Sedation Permit or a Deep Sedation/General Anesthesia Permit who elects to engage the services of another anesthesia provider to provide such anesthesia in his/her dental office.

4. A clinical on-site inspection is also required of any dentist who is not issued a Moderate Sedation Permit or Deep Sedation/General Anesthesia Permit and instead contracts with an anesthesia provider that is not subject to the rules and regulations of the Colorado Dental Board (i.e. Colorado licensed physician or certified registered nurse anesthetist (CRNA)) prior to the administration of moderate sedation and/or deep sedation/general anesthesia in his/her dental office.
5. A clinical on-site inspection is not required for dentists administering only in a hospital setting.
6. In the case of a dentist who practices exclusively from a mobile or portable facility, a clinical on-site inspection shall be conducted in the office of a Colorado licensed dentist. A written list of all monitors, emergency equipment, and other materials which the mobile anesthesia provider agrees to have available at all times while administering in multiple locations shall be provided to the inspector, who in turn will provide it with his/her inspection report to the Board.
7. The dentist requiring the clinical on-site inspection is responsible for all fees associated with and must bear the cost of the inspection. The dentist must pay any fee incurred directly to the approved inspector. The inspector may charge a reasonable inspection fee, plus actual travel expenses for lodging, meals, and mileage at the current United States Internal Revenue Service (IRS) rate per mile. An inspection fee up to \$500 is reasonable.
8. The clinical on-site inspection shall consist of the following parts:
  - a. Review of the office equipment, records, and emergency medications required in sections (M), (N), (O), (P)(3), and (P)(4) of Rule 1.14.
  - b. Surgical/Anesthetic Techniques.
    - (1) The inspector shall observe at least one case while the dentist administers anesthesia at the level for which he/she is making application to the Board. The inspector may require additional cases to observe at his/her discretion.
    - (2) Any dentist requesting a Pediatric Designation that is applying for, renewing, or reinstating a Moderate Sedation Permit and is eligible for the designation through completion of a pediatric specialty training program or a combination of acceptable pediatric education (thirty hours) and experience (ten pediatric cases) is required to have at least one pediatric case observed as part of his/her inspection.
    - (3) If the dentist is undergoing a clinical on-site inspection pursuant to paragraph (4) of Rule 1.14(L), then he/she is not required to have his/her surgical/anesthetic techniques evaluated in accordance to paragraph (8) (b) of Rule 1.14(L). Rather, a separate on-site inspection form will be used to review the facility, office equipment, and emergency medications available; and the on-site inspection will be completed with both the dentist and an anesthesia provider of his/her choice participating with the goal of facilitating communications between the non-anesthetizing dentist and his/her staff in case of an anesthetic emergency.
  - c. Simulated Emergencies. The dentist and his/her team must demonstrate adequately managing a minimum of eight emergencies.

- d. Discussion Period.
- 9. The inspector shall be a Board-approved Colorado licensed physician or certified registered nurse anesthetist (CRNA) trained in dental outpatient deep sedation/general anesthesia and moderate sedation, or a dentist issued a Deep Sedation/General Anesthesia Permit pursuant to section 12-220-411(5)(a), C.R.S. A dentist issued a Moderate Sedation Permit may perform the clinical on-site inspection for another dentist renewing a Moderate Sedation Permit only.
- 10. The inspector shall not have an unethical agreement or conflict of interest with an applicant.
- 11. Inspectors shall be considered consultants for the Board and shall be immune from liability in any civil action brought against him/her occurring while acting in this capacity as set forth in section 12-20-402, C.R.S.
- 12. The documentation of the anesthesia inspection must be completed on Board-approved forms and submitted for review along with the anesthesia record(s).
- M. Office Facilities and Equipment for Provision of Minimal Sedation, Moderate Sedation, Deep Sedation and/or General Anesthesia
  - 1. Any dentist whose practice includes the administration of minimal sedation by any anesthesia provider must provide the following office facilities and equipment, which are required to be functional at all times:
    - a. Emergency equipment and facilities, including:
      - (1) An appropriate size bag-valve-mask apparatus or equivalent with an oxygen hook-up;
      - (2) Oral and nasopharyngeal airways;
      - (3) Appropriate emergency medications; and
      - (4) An external defibrillator - manual or automatic.
    - b. Equipment to monitor vital signs and oxygenation/ventilation, including:
      - (1) A continuous pulse oximeter; and
      - (2) A blood pressure cuff of appropriate size and stethoscope, or equivalent blood pressure monitoring devices.
    - c. Oxygen, suction, and a pulse oximeter must be immediately available during the recovery period.
  - 2. Any dentist whose practice includes the administration of moderate sedation by any anesthesia provider must provide the following office facilities and equipment, which are required to be functional at all times:
    - a. Emergency equipment and facilities, including:
      - (1) An appropriate size bag-valve-mask apparatus or equivalent with an oxygen hook-up;

- (2) Oral and nasopharyngeal airways;
    - (3) Appropriate emergency medications; and
    - (4) An external defibrillator - manual or automatic.
  - b. Equipment to monitor vital signs and oxygenation/ventilation, including:
    - (1) A continuous pulse oximeter; and
    - (2) A blood pressure cuff of appropriate size and stethoscope, or equivalent blood pressure monitoring devices.
  - c. Oxygen, suction, and a pulse oximeter must be immediately available during the recovery period.
  - d. Back-up suction equipment.
  - e. Back-up lighting system.
  - f. Parenteral access or the ability to gain parenteral access, if clinically indicated.
  - g. Electrocardiograph, if clinically indicated.
  - h. End-tidal carbon dioxide monitor (capnography) by July 1, 2016.
- 3. Any dentist whose practice includes the administration of deep sedation and/or general anesthesia by any anesthesia provider must provide the following office facilities and equipment, which are required to be functional at all times:
  - a. Emergency equipment and facilities, including:
    - (1) An appropriate size bag-valve-mask apparatus or equivalent with an oxygen hook-up;
    - (2) Oral and nasopharyngeal airways;
    - (3) Appropriate emergency medications; and
    - (4) An external defibrillator - manual or automatic.
  - b. Equipment to monitor vital signs and oxygenation/ventilation, including:
    - (1) A continuous pulse oximeter; and
    - (2) A blood pressure cuff of appropriate size and stethoscope, or equivalent blood pressure monitoring devices.
  - c. Oxygen, suction, and a pulse oximeter must be immediately available during the recovery period.
  - d. Back-up suction equipment.
  - e. Back-up lighting system.

- 
- f. Parenteral access or the ability to gain parenteral access, if clinically indicated.
    - g. Electrocardiograph.
    - h. End-tidal carbon dioxide monitor (capnography) by July 1, 2016.
    - i. Additional emergency equipment and facilities, including:
      - (1) Endotracheal tubes suitable for patients being treated;
      - (2) A laryngoscope with reserve batteries and bulbs,
      - (3) Endotracheal tube forceps (i.e. magill); and
      - (4) At least 1 additional airway device.
  - N. Anesthesia Gas Delivery Systems - Shall include:
    - 1. Capability to deliver oxygen to a patient under positive pressure, including a back-up oxygen system;
    - 2. Gas outlets that meet generally accepted safety standards preventing accidental administration of inappropriate gases or gas mixture;
    - 3. Fail-safe mechanisms for inhalation of nitrous oxide analgesia;
    - 4. The inhalation equipment must have an appropriate scavenging system if inhalation anesthetics are used; and
    - 5. Gas storage facilities, which meet generally accepted safety standards.
  - O. Documentation - Shall include, but is not limited to:
    - 1. For administration of local anesthesia and analgesia -
      - a. Pertinent medical history, including weight; and
      - b. Medication(s) administered and dosage(s).
    - 2. For administration of minimal sedation, moderate sedation, deep sedation or general anesthesia
      - a. Medical History - current and comprehensive, to include current medications;
      - b. Informed Consent - for the administration of anesthesia;
      - c. Anesthesia Record, which includes:
        - (1) Height and Weight of the patient to allow for the calculation of Body Mass Index (BMI) and dosage of emergency medications;
        - (2) American Society of Anesthesiology (ASA) Classification;
        - (3) NPO status;

- (4) Dental Procedure(s);
  - (5) Time anesthesia commenced and ended;
  - (6) Parenteral access site and method, if utilized;
  - (7) Medication(s) administered - medication (including oxygen), dosage, route, and time given;
  - (8) Vital signs before and after anesthesia is utilized, to include heart rate, blood pressure, respiratory rate and oxygen saturation for all patients, and to include temperature for pediatric patients;
  - (9) Intravenous fluids, if utilized;
  - (10) Response to anesthesia, including any complications; and
  - (11) Condition of patient at discharge.
- 3. In addition, for administration of minimal sedation (pediatric only), moderate sedation, deep sedation or general anesthesia -
  - a. Airway assessment (day of procedure for pediatric patients); and
  - b. Anesthesia record, which includes:
    - (1) At least every five minutes – oxygen saturation (SpO2), blood pressure, and heart rate.
    - (2) At least every fifteen minutes - respiratory rate.
    - (3) At least every fifteen minutes - electrocardiograph (ECG) rhythm for the administration of deep sedation/general anesthesia.
    - (4) At least every fifteen minutes - electrocardiograph (ECG) rhythm for the administration of moderate sedation, if clinically indicated by patient history, medical condition(s), or age.
    - (5) At least every fifteen minutes – ventilatory status (spontaneous, assisted, controlled) for the administration of general anesthesia to a patient with an advanced airway in place (e.g. endotracheal tube or laryngeal mask airway).
    - (6) At least every fifteen minutes – temperature for the administration of volatile anesthesia gases or medications which are known triggers of Malignant Hyperthermia (MH); otherwise the ability to measure temperature should be readily available.
- P. Patient Monitoring - Shall include, but is not limited to the following for the administration of:
  - 1. Local Anesthesia and Analgesia - General state of the patient.
  - 2. Minimal Sedation
    - a. Continuous heart rate and respiratory rate;

- 
- b. Continuous oxygen saturation (SpO<sub>2</sub>);
    - c. Pre and post procedure blood pressure; and
    - d. Level of anesthesia on the continuum.
  - 3. Moderate Sedation
    - a. Continuous heart rate, respiratory rate, and oxygen saturation;
    - b. Intermittent blood pressure every five minutes or more frequently;
    - c. Continuous electrocardiograph, if clinically indicated by patient history, medical condition(s), or age;
    - d. End-tidal carbon dioxide monitoring (capnography) by July 1, 2016; and
    - e. Level of anesthesia on the continuum.
  - 4. Deep Sedation or General Anesthesia -
    - a. Continuous heart rate, respiratory rate, and oxygen saturation;
    - b. Continuous ventilatory status (spontaneous, assisted, controlled) for the administration of general anesthesia to a patient with an advanced airway in place (e.g. endotracheal tube or laryngeal mask airway);
    - c. Intermittent blood pressure every five minutes or more frequently;
    - d. Continuous electrocardiograph;
    - e. Continuous temperature for the administration of volatile anesthesia gases or medications which are known triggers of Malignant Hyperthermia (MH); otherwise the ability to measure temperature should be readily available;
    - f. End-tidal carbon dioxide monitoring (capnography) by July 1, 2016; and
    - g. Level of anesthesia on the continuum.
  - 5. When the level of cooperation in the pediatric or special needs patient does not reasonably allow for full compliance with some monitoring requirements, the treating dentist shall use professional judgment and shall document available monitoring parameters to the best of his/her ability.
- Q. Miscellaneous Requirements
- 1. Life Support Certification(s)
    - a. Successful completion and continuous certification of Basic Life Support (BLS) training for health care providers that meets the requirements of Rule 1.36(HG) is required for:
      - (1) All dentists and dental personnel utilizing, administering, or monitoring local anesthesia, analgesia (including nitrous oxide), minimal sedation, moderate sedation, deep sedation, or general anesthesia; and

- 
- (2) All [dental therapists and](#) dental hygienists utilizing, administering, or monitoring local anesthesia.
    - b. Additionally, any dentist applying for or maintaining a Moderate Sedation Permit or a Deep Sedation/General Anesthesia Permit must have successfully completed current Advanced Cardiac Life Support (ACLS) or Pediatric Advanced Life Support (PALS), as appropriate for the dentist's practice, and maintain continuous certification.
    - c. Successful completion of PALS training and continuous certification is required for a dentist that applies for and/or maintains a Pediatric Designation.
  - 2. Personnel
    - a. Minimal/Moderate Sedation - During the administration of minimal or moderate sedation, the supervising dentist and at least one other individual who is experienced in patient monitoring and documentation must be present.
    - b. Deep sedation/general anesthesia - During the administration of deep sedation or general anesthesia, the supervising dentist and at least two other individuals, one of whom is experienced in patient monitoring and documentation, must be present.
  - 3. Monitoring and medication administration - The supervising dentist retains full accountability, but delegation to trained dental personnel may occur under:
    - a. Direct supervision by the dentist when a patient is being monitored; or
    - b. Direct, continuous, and visual supervision by the dentist when medication, excluding local anesthetic, is being administered to a patient.
  - 4. Discharge - Patient discharge after sedation and/or general anesthesia must be specifically authorized by the anesthesia provider.
- R. Additional Requirements for Permits: Demonstration of Continued Competency and Reinstatement of Expired Permits
- 1. An applicant for a Local Anesthesia Permit, Minimal Sedation Permit, Moderate Sedation Permit, or a Deep Sedation/General Anesthesia Permit shall demonstrate to the Board that he/she has maintained the professional ability and knowledge required to perform anesthesia when the applicant has not completed a residency program or the coursework set forth in this Rule 1.14 within the past five years immediately preceding the application. The applicant may demonstrate competency as follows:
    - a. Submit proof satisfactory to the Board that he/she has engaged in the level of administration of anesthesia within generally accepted standards of dental or dental hygiene practice and in compliance with sections (O) and (P) of this Rule at or above the level for which the applicant is pursuing a permit for at least one of the five years immediately preceding the application; or
    - b. Submit proof satisfactory to the Board of an evaluation, completed within one year preceding the application by a person or entity approved by the Board that certifies the applicant's ability to administer anesthesia within generally accepted standards of dental or dental hygiene practice and in compliance with sections (O) and (P) of this Rule at or above the level for which he/she is requesting a

permit. The proposed procedure for the evaluation and the proposed evaluating person or entity must be submitted and be pre-approved by the Board.

2. If a dentist allows his/her Colorado dental license to expire then his/her Minimal Sedation Permit, Moderate Sedation Permit, or Deep Sedation/General Anesthesia Permit shall also expire. The dentist may apply for reinstatement of his/her Minimal Sedation Permit, Moderate Sedation Permit, or Deep Sedation/General Anesthesia Permit simultaneously with or subsequent to application for reinstatement of licensure.
3. If a [dental therapist or a](#) dental hygienist allows his/her Colorado ~~dental hygienist~~ license to expire then his/her Local Anesthesia Permit shall also expire. The [dental therapist or](#) dental hygienist may apply for reinstatement of his/her Local Anesthesia Permit simultaneously with or subsequent to application for reinstatement of licensure.
4. If a dentist, [dental therapist](#) or dental hygienist has not had a permit within the two years immediately preceding an application for reinstatement of his/her permit, he/she shall demonstrate to the Board the same competency requirements set forth in section (R)(1) of this Rule.
5. Effective March 1, 2016, a dentist renewing his/her permit is required to complete seventeen hours of Board-approved continuing education credits specific to anesthesia or sedation administration during the five-year permit renewal period as a condition of renewing it.
  - a. These credits may also be applied to the thirty continuing education hours required every two years as part of licensure renewal. However, they may only apply to the license renewal period in which they were earned and cannot be re-applied towards a subsequent license renewal period.
  - b. A dentist permitted to administer either minimal sedation, moderate sedation, or deep sedation/general anesthesia may not apply time spent maintaining current BLS, ACLS, or PALS towards this requirement.
  - c. Board-approved continuing education credits in anesthesia or sedation administration are limited to any course or program recognized by the (or successor organization):
    - (1) American Dental Association (ADA) Continuing Education Recognition Program (CERP);
    - (2) Academy of General Dentistry (AGD) Program Approval for Continuing Education (PACE);
    - (3) American Medical Association (AMA); or
    - (4) Commission on Dental Accreditation (CODA) accredited institution.
- S. Anesthesia Morbidity/Mortality Reporting Requirements - A complete written report shall be submitted to the Board by the anesthetizing dentist or [dental therapist](#)/dental hygienist and his/her supervising dentist, or the dentist contracting with an anesthesia provider that is not subject to the rules and regulations of the Colorado Dental Board in order to anesthetize patients in his/her dental office within fifteen days of any anesthesia related incident resulting in morbidity to a

patient requiring hospital admission or patient mortality. A morbidity or mortality report shall include:

1. The complete anesthesia record for the patient at issue;
2. The anesthetizing dentist's, [dental therapist's](#) or dental hygienist's narrative of all events, or a narrative of all events provided by the dentist contracting with an anesthesia provider that is not subject to the rules and regulations of the Colorado Dental Board; and
3. All records related to the incident.

**T. Effect of Pediatric Designation Requirements**

1. Any dentist whose Board-issued permit to perform deep sedation/general anesthesia is active on June 30, 2015, may elect to automatically obtain a Pediatric Designation on his/her permit.
2. Any dentist whose Board-issued permit to perform moderate sedation is active on June 30, 2015, may elect to automatically obtain a Pediatric Designation on his/her permit for one year. In order to continue or regain that designation, he/she will be required to apply for and obtain a Pediatric Designation in accordance with section (J)(4) of this Rule.
3. Any dentist whose Board-issued permit to perform minimal sedation is active on June 30, 2015, may elect to automatically obtain a Pediatric Designation on his/her permit for one year. In order to continue or regain that designation, he/she will be required to apply for and obtain a Pediatric Designation in accordance with section (I)(5) of this Rule.

**U. Board Reserved Rights**

1. Dentists, [dental therapists](#) or dental hygienists utilizing anesthesia that requires a permit shall be responsible for practicing within generally accepted standards of dental or dental hygiene practice in administering anesthesia and complying with the terms of this Rule, pursuant to section 12-220-201(1), C.R.S.
2. Dentists, [dental therapists](#) or dental hygienists utilizing anesthesia that requires a permit, under this Rule without first obtaining the required permit, or utilizing such anesthesia with an expired permit, may be disciplined pursuant to section 12-220-201(1)(cc) and (II), C.R.S.
3. Upon a specific finding of a violation of this Rule, and/or upon reasonable cause, the Board may require a supervising dentist to submit proof demonstrating that applicable staff has the appropriate education/training in order to administer nitrous oxide/oxygen and/or are otherwise acting in compliance with this Rule.
4. The Board may discipline a license or deny an application for a violation of this Rule, unprofessional conduct, and/or any other grounds pursuant to section 12-220-201(1), C.R.S.
5. In addition to the remedies set forth above, nothing in this Rule shall limit the authority of the Board, upon objective and reasonable grounds, to order summary suspension of an anesthesia permit pursuant to section 24-4-104(4), C.R.S.
6. In addition to the remedies set forth above, nothing in this Rule shall limit the authority of the Board, upon objective and reasonable grounds, to order summary suspension of a

license to practice dentistry, [dental therapy](#) or dental hygiene, pursuant to section 24-4-104(4), C.R.S.

7. Upon review of a morbidity/mortality report and/or upon reasonable concern regarding the use of anesthesia, the Board may require an on-site inspection of the dental office utilized by the anesthesia provider in administering anesthesia.
8. The Board reserves all other powers and authorities set forth in the Dental Practice Act, Article 220 of Title 12, C.R.S. and the Administrative Procedure Act, Article 4 of Title 24, C.R.S.

### **1.15 Pediatric Case Management and Protective Stabilization**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

The purpose of this Rule is to recognize that all infants, children, adolescents, and individuals with special health care needs are entitled to receive oral health care that meets the treatment and ethical standard of care. These groups of individuals may need special case management in order to receive timely diagnosis and treatment, as well as to ensure the safety of the patient, practitioner, and staff. The use of protective stabilization (formerly referred to as physical restraint and medical immobilization) is an advanced behavior guidance technique which must be integrated into an overall behavior guidance approach that is individualized for each patient in the context of promoting a positive dental attitude for the patient, while ensuring patient safety and quality care. This necessitates that the dentist establishes communication with the dental staff, the patient, and the parent or guardian. It is important that the dentist and dental team promote a positive attitude towards oral and dental health in order to alleviate fear and anxiety and to deliver quality dental care.

#### **A. Pediatric Case Management**

1. Parents or legal guardians cannot be denied access to the patient during treatment in the dental office unless the health and safety of the patient, parent or guardian, or dental staff would be at risk. The parent(s) or guardian(s) shall be informed of the reason they are denied access to the patient and both the incident of the denial and the reason for the denial shall be documented in the patient's dental record.
2. This provision shall not apply to dental care delivered in an accredited hospital or acute care facility.

#### **B. Training – prior to utilizing protective stabilization, the dentist shall successfully complete training beyond basic dental education through either:**

1. A residency or graduate program that contains content and experiences in advanced behavior management; or
2. A continuing education course of no less than six hours in advanced behavior management that involves both didactic and demonstration components.

#### **C. Methods, Indications, and Considerations for Protective Stabilization**

1. Any manual method, physical or mechanical device, material, or equipment that immobilizes or reduces the ability of a patient to move his or her arms, legs, torso, or head freely is considered protective stabilization.

- a. Active stabilization involves restraint by another person, such as a parent/guardian, dentist, or dental staff. This may include hand holding, head guarding, and therapeutic holding.
  - b. Passive stabilization utilizes a restraining device.
2. The use of protective stabilization must not cause serious or permanent injury and it must involve the least possible discomfort to the patient.
3. Protective stabilization may be performed (with or without a stabilization device) by the:
  - a. Dentist; or
  - b. Parent or legal guardian.
4. [Dental therapists](#), dental hygienists and dental assistants shall not use protective stabilization by themselves, but may assist the dentist as necessary.
5. Protective stabilization during diagnostic and/or dental treatment may be utilized when the following indications are present:
  - a. A patient requires immediate diagnosis and/or urgent limited treatment and cannot cooperate due to emotional and cognitive developmental levels, lack of maturity, medical and physical conditions, or some combination thereof.
  - b. Emergent care is needed and uncontrolled movements risk the safety of the patient, staff, dentist, or parent/guardian.
  - c. A previously cooperative patient quickly becomes uncooperative during the appointment and protective stabilization is necessary to protect the patient's safety and to help expedite the completion of treatment already initiated.
  - d. A sedated patient becomes uncooperative during treatment.
  - e. A patient with special health care needs experiences uncontrolled movements that significantly interfere with the quality of care.
6. Protective stabilization shall not be utilized when the following contraindications are present:
  - a. A cooperative non-sedated patient.
  - b. A patient who cannot be stabilized safely due to associated medical, psychological, or physical conditions.
  - c. A patient with a history of physical or psychological trauma due to restraints (unless there are no alternatives).
  - d. A patient with non-emergent treatment needs in order to accomplish full mouth or multiple quadrant dental rehabilitation.
7. The dentist must consider the following when determining whether to recommend the use of protective stabilization techniques:
  - a. Patient's oral health needs.

- b. Effect on quality of dental care.
  - c. Emotional and cognitive development levels as it relates to the patient's ability to understand and cooperate during dental treatment.
  - d. Medical and physical conditions.
  - e. Parental/guardian preferences.
  - f. Utilizing alternative, less restrictive, behavior guidance methods.
- D. Prior to Utilizing Protective Stabilization
  - 1. Obtain informed consent – protective stabilization, with or without a restrictive device, performed by the dentist requires informed consent from the parent or legal guardian; except when a sedated patient becomes uncooperative during treatment.
    - a. Benefits and risks of protective stabilization, as well as alternative behavior guidance techniques, i.e. deferring treatment, or utilizing sedation or general anesthesia must be explained to the parent or guardian.
    - b. A detailed written consent identifying the specific technique of protective stabilization must be obtained separately from the consent for other procedures as it increases the parent's or guardian's awareness of the procedure. The consent must also identify the reason why protective stabilization is required.
  - 2. Obtain an accurate, comprehensive, and up-to-date medical history. This should include:
    - a. Conditions that may compromise respiratory function, e.g. asthma.
    - b. Neuromuscular or bone/skeletal disorders that may require additional positioning aids.
    - c. Previous trauma from having movement restricted.
- E. Documentation – the following must be included in the patient's record:
  - 1. Indication for stabilization.
  - 2. Type of stabilization utilized and by whom, including parent or guardian.
  - 3. Signed informed consent for protective stabilization.
  - 4. Reason for parental/guardian exclusion during protective stabilization, if applicable.
  - 5. Duration of application of stabilization (start time and end time).
  - 6. Status of airway, peripheral circulation, and proper positioning of stabilization device/method at least every 15 minutes throughout duration of stabilization.
  - 7. Behavior evaluation/rating during stabilization.
  - 8. Any unexpected outcomes, such as skin markings.

9. Whether the parent/guardian, if not present in the room, was given progress updates at least once per hour. Verbal consent for continued stabilization must be obtained at least once per hour and documented in the dental record.
10. If the protective stabilization technique changes during the procedure from that presented to the parent or legal guardian in the initial informed consent discussion, the parent or legal guardian shall be notified, consulted immediately, and verbal consent documented for continued treatment.
11. Management implications of future appointments.

(Amended October 24, 2007, Effective December 31, 2007; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016; Amended November 5, 2020; Effective December 30, 2020)

### **1.16 Infection Control**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

In addition to meeting applicable standards of care, dentists, [dental therapists](#) and dental hygienists must follow, and the Board incorporates by reference the following standards: 1) the Centers for Disease Control and Prevention (CDC) 2003 "Guidelines for Infection Control in Dental Health-Care Settings," found at CDC MMWR Morbidity and Mortality Report, Guidelines for Infection Control in Dental Health-Care Settings-2003, December 19, 2003, Vol. 52, No. RR-17 as supplemented by the Centers for Disease Control and Prevention, Summary of Infection Prevention Practices in Dental Settings: Basic Expectations for Safe Care, Atlanta, GA: Centers for Disease Control and Prevention, US Dept of Health and Human Services; October 2016; and 2) the Occupational Safety and Health Administration's (OSHA) Bloodborne Pathogens Standard (29 CFR 1910.1030) as amended pursuant to the 2000 Needlestick Safety and Prevention Act. The rule does not include any later amendments or editions of the standards. A licensee is also responsible for the compliance of unlicensed dental personnel.

The standards incorporated by reference may be examined at the Colorado Department of Regulatory Agencies, Colorado Dental Board, 1560 Broadway, Suite 1350, Denver, CO 80202, during normal business hours, Monday through Friday, except when such days are state holidays. The Board shall provide the requester with information on how to obtain a certified copy of the material incorporated by reference from the agency of the United States issuing the standards.

(Effective August 1, 2000; Amended January 5, 2001; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Repealed January 22, 2015, Effective March 30, 2015; Adopted April 28, 2016, Effective June 30, 2016; Amended November 5, 2020; Effective December 30, 2020)

### **1.17 Advertising**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

This Rule applies to advertising in all types of media that is directed to the public. No dentist, [dental therapist](#) or dental hygienist shall advertise in any form of communication in a manner that is misleading, deceptive, or false.

#### **A. General Requirements.**

1. At the time any type of advertisement is placed, the dentist, [dental therapist](#) or dental hygienist must in good faith possess information that would substantiate the truthfulness of any assertion, omission, or claim set forth in the advertisement.

2. The Board recognizes that clinical judgment must be exercised by a dentist, [dental therapist](#) or dental hygienist. Therefore, a good faith diagnosis that the patient is not an appropriate candidate for the advertised dental or dental hygiene service or product is not a violation of this Rule.
  3. A licensed dentist, [dental therapist](#) or dental hygienist shall be responsible for, and shall approve any advertisement made on behalf of the dental or dental hygiene practice, except for brand advertising, i.e. advertising that is limited to promotion of the name of the practice or dental corporation. The dentist, [dental therapist](#) or dental hygienist shall maintain a listing stating the name and license number of the dentists, [dental therapist](#) or dental hygienists who approved and are responsible for the advertisement and shall maintain such list for a period of three years.
- B. Misleading, deceptive, or false advertising includes, but is not limited to the following, and if proven is a violation of section 12-220-201(1)(l), C.R.S.:
1. A known material misrepresentation of fact;
  2. The omission of a fact necessary to make the statement considered as a whole not materially misleading;
  3. Advertising that is intended to be or is likely to create an unjustified expectation about the results the dentist or dental hygienist can achieve;
  4. Advertising that contains a material, objective representation, whether express or implied, that the advertised services are superior in quality to those of other dental or dental hygiene services if that representation is not subject to reasonable substantiation. For the purposes of this subsection, reasonable substantiation is defined as tests, analysis, research, studies, or other evidence based on the expertise of professionals in the relevant area that have been conducted and evaluated in an objective manner by persons qualified to do so, using procedures generally accepted in the profession to yield accurate and reliable results. Individual experiences are not a substitute for scientific research. Evidence about the individual experience of consumers may assist in the substantiation, but a determination as to whether reasonable substantiation exists is a question of fact on a case-by-case basis;
  5. Claims that state or imply a specialty practice by a dentist in violation of section (C) of this Rule;
  6. The false or misleading use of a claim regarding licensure, certification, registration, permitting, listing, education, or an unearned degree;
  7. Advertising that uses patient testimonials unless the following conditions are met:
    - a. The patient's name, address, and telephone number as of the time the advertisement was made must be maintained by the dentist, [dental therapist](#) or dental hygienist and that identifying information shall be made available to the Board within ten days of a request for the information by the Board.
    - b. Dentists, [dental therapist](#) or dental hygienists who advertise dental, [dental therapy](#) or dental hygiene services, which are the subject of the patient testimonial, must have actually provided these services to the patient making the testimonial.

- c. If compensation, remuneration, a fee, or benefit of any kind has been provided to the person in exchange for consideration of the testimonial, such testimonial must include a statement that the patient has been compensated for such testimonial.
    - d. A specific release and consent for the testimonial from the patient shall be obtained from the patient and shall be made available to the Board within ten days of request of that information.
    - e. Any testimonial shall indicate that results may vary in individual cases.
    - f. Patient testimonials attesting to the technical quality or technical competence of a service or treatment offered by a licensee must have reasonable substantiation.
  - 8. Advertising that makes an unsubstantiated medical claim or is outside the scope of dentistry, unless the dentist, [dental therapist](#) or dental hygienist holds a license, certification, or registration in another profession and the advertising and/or claim is within the scope authorized by the license, certification, or registration in another profession;
  - 9. Advertising that makes unsubstantiated promises or claims, including but not limited to claims that the patient will be cured;
  - 10. The use of "bait and switch" in advertisements. "Bait and switch" advertising is defined as set forth in the Colorado Consumer Protection Act, section 6-1-105, C.R.S.;
  - 11. Advertising that includes an endorsement by a third party in which there is compensation, remuneration, fee paid, or benefit of any kind if it does not indicate that it is a paid endorsement;
  - 12. Advertising that infers or gives the appearance that such advertisement is a news item without using the phrase "paid advertisement";
  - 13. The promotion of a professional service which the licensee knows or should know is beyond the licensee's ability to perform;
  - 14. The use of any personal testimonial by the licensed provider attesting to a quality or competence of a service or treatment offered by a licensee that is not reasonably verifiable;
  - 15. Advertising that claims to provide services at a specific rate and fails to disclose that the patient's insurance may provide payment for all or part of the services.
- C. Specialty Practice and Advertising.
- 1. A licensed dentist has the legal authority to practice in any and all areas of dentistry as defined in section 12-220-104(6), C.R.S., and pursuant to section 12-220-305, C.R.S., and also the authority to confine the areas in which he or she chooses to practice, so long as the dentist is practicing within the scope of the dentist's education, training, and experience and in accordance with applicable law and rules of the Colorado Dental Board.
  - 2. Pursuant to section 12-220-201(1)(ii), C.R.S., the Board may discipline a dentist for advertising or otherwise holding oneself out to the public as practicing a dental specialty

in which he or she has not successfully completed the education specified for the dental specialty as defined by the American Dental Association (ADA).

- a. Dental specialties currently defined by the ADA and recognized by the Board include the following:
    - (1) Dental public health;
    - (2) Endodontics;
    - (3) Oral and maxillofacial pathology;
    - (4) Oral and maxillofacial radiology;
    - (5) Oral and maxillofacial surgery;
    - (6) Orthodontics and dentofacial orthopedics;
    - (7) Pediatric dentistry;
    - (8) Periodontics;
    - (9) Prosthodontics;
    - (10) Oral Medicine;
    - (11) Oro Facial Pain; and
    - (12) Dentist Anesthesiologist.
  - b. Dentists advertising a specialty that is defined by the ADA must clearly state in all such advertising and/or public promotions that their specialty has been defined by the American Dental Association, provide the full name of the CODA approved school where their residency was completed, and upon request, promptly provide additional information to the public.
3. The Board may also recognize dental specialties not defined by the ADA. Dentists advertising a specialty that is not defined by the ADA must clearly state in all such advertising and/or public promotions that their specialty has not been defined by the American Dental Association. Advertising dentists must also provide the full name of the entity that has defined their specialty and upon request, promptly provide additional information to the public.
  4. ADA defined dental specialists are those dentists who have successfully completed a Commission on Dental Accreditation (CODA) approved specialty program. The Board recognizes that dentists advertising a non-ADA defined specialty may or may not have successfully completed a CODA approved specialty program. Therefore:
    - a. Dentists who have successfully completed a CODA approved specialty program, whether defined or not defined by the ADA, may advertise the practice of that specialty subject to the provisions of paragraphs (2) or (3) of this Rule, including providing the full name of the CODA approved school where their residency was completed.

- b. In addition to the requirements of paragraphs (2) and (3) of this Rule, dentists who have not completed a CODA approved specialty program and are advertising a non-ADA defined specialty, must clearly state in all advertising and/or public promotions that their specialty program is not approved by the Commission on Dental Accreditation. Such dentists must also identify their specific training completed (credential awarded) in order to receive their specialty designation and upon request, promptly provide additional information to the public.
- 5. A dentist who practices general dentistry and advertises performance of a specialty procedure but has not successfully completed a CODA approved specialty program in that area of practice, must clearly state in all advertising and/or public promotions, that he or she is a general dentist by disclosing "General Dentistry" in print larger and/or bolder and noticeably more prominent than any other area of practice or service advertised.
- 6. A dentist who advertises in any medium under a specialty heading or section and is not in compliance with this Rule may be in violation of section 12-220-201(1), C.R.S., for engaging in misleading, deceptive, or false advertising.
- 7. Those group practices which include general dentists and specialists must list the phrase "General Dentistry and Specialty Practice" larger and/or bolder and noticeably more prominent than any service offered in an advertisement. Names and qualifications shall be made available to the public upon request.

D. Acronyms

In addition to those acronyms required by law pertaining to one's business entity such as Professional Corporation (P.C.) or Limited Liability Company (L.L.C.), dentists or dental hygienists may only use those acronyms earned at a program accredited by a regional or professional accrediting agency recognized by the United States Department of Education or the Council on Postsecondary Accreditation. Any credential that does not meet this requirement must be completely spelled out.

(Effective August 1, 2000; Temporarily Expired December 2, 2002; Effective July 1, 2003; Amended October 27, 2004; Amended October 26, 2006, Effective December 30, 2006; Amended April 25, 2007, Effective July 1, 2007; Amended October 24, 2007, Effective December 31, 2007; Amended October 22, 2008, Effective November 30, 2008; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended July 13, 2016, Effective September 14, 2016; Amended November 5, 2020; Effective December 30, 2020; Amended November 4, 2021; Effective December 30, 2021)

**1.18 Protocol upon Revocation, Relinquishment, Suspension, or Cessation of Practice of a Dental, [Dental Therapist](#) or Dental Hygiene License**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

- A. Upon revocation, relinquishment, suspension (including summary suspension), or execution of an interim cessation of practice agreement of the dental, [dental therapist](#) or dental hygiene license, the licensee shall immediately stop the practice of dentistry, [dental therapy](#) or dental hygiene.
- B. If the license is:
  - 1. Revoked or relinquished, the licensee is required to notify all patients within 7 calendar days of the effective date of the revocation or relinquishment that the licensee has

- ceased the practice of dentistry, [dental therapy](#) or dental hygiene (if practicing unsupervised as authorized pursuant to section 12-220-503, C.R.S.).
2. Suspended or under an interim cessation of practice agreement for a duration that exceeds 90 calendar days, the licensee is required to notify all patients within 97 calendar days of the effective date of the suspension or interim cessation of practice agreement that the licensee has ceased the practice of dentistry, [dental therapy](#) or dental hygiene (if practicing unsupervised as authorized pursuant to section 12-220-503, C.R.S.).
- C. If the license is revoked, relinquished, or suspended/under an interim cessation of practice agreement for any period of time, the licensee shall assure the continued care of patients with a qualified practitioner and must make arrangements for the transfer of patient records if requested by the patient and/or if patient care is terminated. The licensee shall make the patient records or copies of the patient records available to the patient, to a dentist, [dental therapist](#) or dental hygienist designated by the patient, or if the licensee's practice is sold, to the dentist, [dental therapist](#) or dental hygienist who purchases the practice. The transfer of patient records must be completed within thirty calendar days, if care is transferred to a different practice.
- D. Notice of revocation, relinquishment, or suspension/interim cessation of practice agreement for more than ninety calendar days, and if applicable, the termination of a practice must be made to all patients of the practice as set forth in Rule 1.9(E).
- E. A dentist, [dental therapist](#) or dental hygienist with a revoked or relinquished license must completely divest himself/herself from any and all dental, [dental therapy](#) and dental hygiene practices operating in Colorado within 180 days of the effective date of the revocation or relinquishment.
- F. A suspended practitioner or one under an interim cessation of practice agreement may be subject to any of the following at the discretion of the Board:
1. Cannot employ any licensed dentist, [licensed dental therapist](#), licensed dental hygienist, or dental assistant;
  2. Cannot be on the premises of the dental office to observe, monitor, or participate in any way in care given;
  3. May derive no income from the dental, [dental therapy](#) or dental hygiene practice either directly or indirectly for patient care provided by other licensees during the period of suspension/interim cessation of practice, except for treatment provided before the beginning of the suspension/interim cessation of practice; and
  4. May provide administrative duties only at the practice.

(Amended December 2, 2002; Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016; Amended November 5, 2020; Effective December 30, 2020)

### 1.19 Compliance with Board Subpoena

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), and 12-220-106, C.R.S.

- A. When the Board requests a patient's complete patient record, pursuant to subpoena, the patient chart or record shall include, but may not be limited to all: medical/dental histories for the patient; patient notes, including "doctor's office notes" as defined in Rule 1.4(E); labeled and dated

radiographs, photographs, scans, and/or models; billing and/or all insurance records that are compiled for a specific patient; prescription records; and email correspondence (if applicable).

- B. It is the responsibility of the licensed dentist, [dental therapist](#) or dental hygienist to assure that all records submitted are legible and, if necessary, to have records transcribed to assure legibility.
- C. Failure by a licensed dentist, [dental therapist](#) or dental hygienist to submit the complete patient record to the Board, or any relevant papers, books, records, documentary evidence, and/or other materials, as requested pursuant to subpoena is a violation of section 12-220-201(1)(i), C.R.S.

(Effective December 31, 2007; Amended January 21, 2010, Effective March 30, 2010; Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016 Amended November 5, 2020; Effective December 30, 2020)

### 1.20 Declaratory Orders

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 24-4-105(11), C.R.S.

- A. Any person may petition the Board for a declaratory order to terminate controversies or to remove uncertainties as to the applicability to the petitioner of any statutory provision or of any rule or order of the Board.
- B. The Board will determine, in its discretion and without notice to petitioner, whether to rule upon any such petition. If the Board determines that it will not rule upon such a petition, the Board shall promptly notify the petitioner of its action and state the reasons for such action.
- C. In determining whether to rule upon a petition filed pursuant to this rule, the Board will consider the following matters, among others:
  - 1. Whether a ruling on the petition will terminate a controversy or remove uncertainties as to the applicability to the petitioner of any statutory provision or rule or order of the Board.
  - 2. Whether the petition involves any subject, question or issue which is the focus of a formal or informal matter or investigation currently pending before the Board or a court but not involving any petitioner.
  - 3. Whether the petition seeks a ruling on a moot or hypothetical question or will result in an advisory ruling or opinion.
  - 4. Whether the petitioner has some other adequate legal remedy, other than an action for declaratory relief pursuant to Rule 57, Colo. R. Civ. P., which will terminate the controversy or remove any uncertainty as to the applicability to the petitioner of the statute, rule or order in question.
- D. Any petition filed pursuant to this Rule shall set forth the following:
  - 1. The name and address of the petitioner and whether the petitioner is licensed pursuant to the provisions of 12-220-101, C.R.S., *et seq.*, as amended.
  - 2. The statute, rule or order to which the petition relates.
  - 3. A concise statement of all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the petitioner.

- E. If the Board determines that it will rule on the petition, the following procedures apply:
1. The Board may rule upon the petition based solely upon the facts presented in the petition. In such a case, any ruling of the Board will apply only to the extent of the facts presented in the petition and any amendment to the petition.
  2. The Board may order the petitioner to file a written brief, memorandum or statement of position.
  3. The Board may set the petition, upon due notice to the petitioner, for a non-evidentiary hearing.
  4. The Board may dispose of the petition on the sole basis of the matters set forth in the petition.
  5. The Board may request the petitioner to submit additional facts in writing. In such event, such additional facts will be considered as an amendment to the petition. The Board may take administrative notice of the facts pursuant to the Administrative Procedure Act (24-4-105(8), C.R.S.) and may utilize its experience, technical competence and specialized knowledge in the disposition of the petition.
  6. If the Board rules upon the petition without a hearing, it shall promptly notify the petitioner of its decision.
  7. The Board may, in its discretion, set the petition for hearing, upon due notice to the petitioner, for the purpose of obtaining additional facts or information or to determine the truth of any facts set forth in the petition or to hear oral argument on the petition.
  8. The notice to the petitioner setting such hearing shall set forth, to the extent known, the factual or other matters into which the Board intends to inquire.
  9. For the purpose of such a hearing, to the extent necessary, the petitioner shall have the burden of proving all of the facts stated in the petition, all of the facts necessary to show the nature of the controversy or uncertainty and the manner in which the statute, rule or order in question applies or potentially applies to the petitioner and any other facts the petitioner desires the Board to consider.
- F. The parties to any proceeding pursuant to this Rule shall be the Board and the petitioner. Any other person may seek leave of the Board to intervene in such a proceeding, and leave to intervene will be granted at the sole discretion of the Board. A petition to intervene shall set forth the same matters as required by section (D) of this Rule. Any reference to a "petitioner" in this Rule also refers to any person who has been granted leave to intervene by the Board.

(Re-numbered December 30, 2011; Amended April 28, 2016, Effective June 30, 2016; Amended November 5, 2020; Effective December 30, 2020)

### **1.21 Fining Schedule for Violations of the Dental Practice Act and Board Rules**

Pursuant to section 12-220-202(5), C.R.S., when a licensed dentist, including one issued an academic license, [dental therapist](#), or dental hygienist violates a provision of the Dental Practice Act or a Board Rule, the Board may impose a fine on the licensee. The amount of an administrative fine assessed will be based on the following criteria:

- Severity of the violation;

- Type of violation; and
- Whether the licensee committed repeated violations

A. If the licensee is a dentist, the fine must not exceed \$5,000. If the violation(s) involve:

1. Substandard Care, Fraud, or Attempting to Deceive the Board
  - a. First offense, may be fined up to \$3,000.
  - b. Second offense, may be fined up to \$4,000.
  - c. Third or subsequent offense, may be fined up to \$5,000.
2. Record Keeping Violations
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.
  - c. Third or subsequent offense, may be fined up to \$5,000.
3. Failure to Maintain or Provide Complete Records
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.
  - c. Third or subsequent offense, may be fined up to \$5,000.
4. Failure to Comply with Continuing Education Requirements
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.
  - c. Third or subsequent offense, may be fined up to \$5,000.
5. Practicing without a License or with an Expired License
  - a. First offense:
    - (1) 0-12 months, may be fined up to \$1,250.
    - (2) 1-2 years, may be fined up to \$2,500.
    - (3) 2 or more years, may be fined up to \$3,750.
  - b. Second offense:
    - (1) 0-12 months, may be fined up to \$2,500.
    - (2) 1-2 years, may be fined up to \$3,750.
    - (3) 2 or more years, may be fined up to \$5,000.

- c. Third or subsequent offense of any duration, may be fined up to \$5,000.
- 6. Administering Anesthesia/Sedation without a Permit or with an Expired Permit
  - a. First offense:
    - (1) 0-12 months, may be fined up to \$1,250.
    - (2) 1-2 years, may be fined up to \$2,500.
    - (3) 2 or more years, may be fined up to \$3,750.
  - b. Second offense:
    - (1) 0-12 months, may be fined up to \$2,500.
    - (2) 1-2 years, may be fined up to \$3,750.
    - (3) 2 or more years, may be fined up to \$5,000.
  - c. Third or subsequent offense of any duration, may be fined up to \$5,000.
- 7. Failure to Appropriately Supervise Dental Personnel
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.
  - c. Third or subsequent offense, may be fined up to \$5,000.
- 8. Failure to Meet Generally Accepted Standards for Infection Control – each day a violation continues or occurs may be considered a separate violation for the purpose of imposing a fine under this category
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.
  - c. Third or subsequent offense, may be fined up to \$5,000.
- 9. False Advertising
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.
  - c. Third or subsequent offense, may be fined up to \$5,000.
- 10. Failure to Register for the Prescription Drug Monitoring Program (PDMP) – applicable only if the licensee maintains a current United States Drug Enforcement Agency (DEA) registration
  - a. First offense, may be fined up to \$1,250.
  - b. Second offense, may be fined up to \$2,500.

- c. Third or subsequent offense, may be fined up to \$5,000.
  - 11. Failure to Respond in an Honest, Materially Responsive, and Timely Manner to a Complaint
    - a. First offense, may be fined up to \$1,250.
    - b. Second offense, may be fined up to \$2,500.
    - c. Third or subsequent offense, may be fined up to \$5,000.
  - 12. Failure to Maintain Professional Liability Insurance
    - a. First offense, may be fined up to \$1,250.
    - b. Second offense, may be fined up to \$2,500.
    - c. Third or subsequent offense, may be fined up to \$5,000.
  - 13. Violation of the Practice Ownership Laws
    - a. First offense, may be fined up to \$1,250.
    - b. Second offense, may be fined up to \$2,500.
    - c. Third or subsequent offense, may be fined up to \$5,000.
  - 14. Aiding and Abetting the Unlicensed Practice of Dentistry or Dental Hygiene
    - a. First offense, may be fined up to \$1,250.
    - b. Second offense, may be fined up to \$2,500.
    - c. Third or subsequent offense, may be fined up to \$5,000.
  - 15. Failure to Comply with a Board Order or Subpoena
    - a. First offense, may be fined up to \$1,250.
    - b. Second offense, may be fined up to \$2,500.
    - c. Third or subsequent offense, may be fined up to \$5,000.
  - 16. Other Violations
    - a. First offense, may be fined up to \$1,250.
    - b. Second offense, may be fined up to \$2,500.
    - c. Third or subsequent offense, may be fined up to \$5,000.
- B. If the licensee is a [dental therapist or](#) dental hygienist, the fine must not exceed \$3,000. If the violation(s) involve:
- 1. Substandard Care, Fraud, or Attempting to Deceive the Board

- a. First offense, may be fined up to \$1,000.
  - b. Second offense, may be fined up to \$2,000.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 2. Record Keeping Violations
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 3. Failure to Maintain or Provide Complete Records
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 4. Failure to Comply with Continuing Education Requirements
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 5. Practicing without a License or with an Expired License
  - a. First offense:
    - (1) 0-12 months, may be fined up to \$750.
    - (2) 1-2 years, may be fined up to \$1,500.
    - (3) 2 or more years, may be fined up to \$2,250.
  - b. Second offense:
    - (1) 0-12 months, may be fined up to \$1,500.
    - (2) 1-2 years, may be fined up to \$2,250.
    - (3) 2 or more years, may be fined up to \$3,000.
  - c. Third or subsequent offense of any duration, may be fined up to \$3,000.
- 6. Administering Local Anesthesia without a Permit or with an Expired Permit
  - a. First offense:
    - (1) 0-12 months, may be fined up to \$750.

- (2) 1-2 years, may be fined up to \$1,500.
    - (3) 2 or more years, may be fined up to \$2,250.
  - b. Second offense:
    - (1) 0-12 months, may be fined up to \$1,500.
    - (2) 1-2 years, may be fined up to \$2,250.
    - (3) 2 or more years, may be fined up to \$3,000.
  - c. Third or subsequent offense of any duration, may be fined up to \$3,000.
- 7. Failure to Meet Generally Accepted Standards for Infection Control – each day a violation continues or occurs may be considered a separate violation for the purpose of imposing a fine under this category
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 8. False Advertising
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 9. Failure to Respond in an Honest, Materially Responsive, and Timely Manner to a Complaint
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 10. Failure to Maintain Professional Liability Insurance
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 11. Violation of the Practice Ownership Laws
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.

- c. Third or subsequent offense, may be fined up to \$3,000.
- 12. Aiding and Abetting the Unlicensed Practice of Dentistry or Dental Hygiene
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 13. Failure to Comply with a Board Order or Subpoena
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- 14. Other Violations
  - a. First offense, may be fined up to \$750.
  - b. Second offense, may be fined up to \$1,500.
  - c. Third or subsequent offense, may be fined up to \$3,000.
- C. A fine is subject to an additional surcharge imposed by the Executive Director of the Department of Regulatory Agencies (DORA), pursuant to section 24-34-108, C.R.S.

(Adopted January 22, 2015, Effective March 30, 2015; Amended January 20, 2016, Effective March 16, 2016; Amended April 28, 2016, Effective June 30, 2016; Amended November 5, 2020; Effective December 30, 2020; Amended November 4, 2021; Effective December 30, 2021)

## **1.22 Use of Lasers**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106(1)(a), and 12-220-106(1)(a)(I), C.R.S.

- A. The requirements in this Rule do not apply to use of non-adjustable laser units for purposes of diagnosis and curing.
- B. A dentist may use a laser capable of the removal of hard and soft tissue in the treatment of a dental patient.
- C. Laser use by [a dental therapist or](#) a dental hygienist can only be performed on soft tissue under the indirect or direct supervision of a dentist and must be within [the dental therapy or](#) the dental hygiene scope of practice.
- D. A licensee who is a laser user or supervises a laser user must first successfully complete training that covers a minimum of eight hours of laser physics, safety, and appropriate use, to include a hands on component, prior to utilizing the laser.
  - 1. Training must be obtained through a course provided or recognized by any of the following organizations (or a successor organization):

- a. A Commission on Dental Accreditation (CODA) approved institution;
    - b. The American Dental Association (ADA) Continuing Education Recognition Program (CERP);
    - c. The Academy of General Dentistry (AGD) Program Approval for Continuing Education (PACE); or
    - d. The American Medical Association (AMA).
  2. A licensee utilizing a laser, other than what is described in section (A) of this Rule, must maintain evidence of training as required in section (D)(1) of this Rule. Upon request of the Board, the licensee must submit evidence of such training.
  3. A licensee must also complete live and interactive training that addresses operation of the specific laser(s) utilized in the practice.
- E. All lasers must be used in accordance with accepted safety guidelines.
- F. When utilizing a laser pursuant to this Rule, at a minimum, the following must be documented in the patient's record:
1. Type of laser, including wavelength;
  2. Settings used (pulse or continuous wave, power setting);
  3. Size of fiber, tip, or aperture of tip; and
  4. Procedure performed with details to include hard and/or soft tissue removal.

(Adopted January 22, 2015, Effective March 30, 2015; Amended April 30, 2015, Effective June 30, 2015; Amended April 28, 2016, Effective June 30, 2016; Amended May 3, 2018, Effective July 3, 2018; Amended November 5, 2020; Effective December 30, 2020)

#### **1.25 Placement of Interim Therapeutic Restorations by Dental Therapists and Dental Hygienists**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, 12-220-504(1)(d), ~~and~~ 12-220-505, and 12-220-508(1)(c)(VIII) C.R.S.

- A. Once issued a permit by the Board, a dental hygienist or a dental therapist may place interim therapeutic restorations in a dental practice setting under "direct supervision" as defined in section 12-220-104(7), C.R.S or "indirect supervision" as defined in section 12-220-104(9), C.R.S., of a dentist with an active license in good standing issued by the Board, or through "telehealth supervision" as defined in section 12-220-104(15), C.R.S., for purposes of communication with the supervising dentist.
- B. A dentist shall not supervise more than 5 full-time equivalent dental hygienists who place interim therapeutic restorations under telehealth supervision unless granted a waiver by the Board pursuant to section 12-220-505(6)(b), C.R.S.
  1. Application Process
    - a. The applicant requesting a waiver must submit a written application on a form approved by the Board detailing the basis for the waiver request.

- b. The written request should address why there is good cause to waive the supervision requirement as set forth in section 12-220-505(6)(a), C.R.S., and should include any documentation necessary to support the request.
- c. Upon receipt of the waiver request and documentation, the matter will be considered at the next Board meeting. The applicant will receive the Board's decision in writing.

2. Waiver Requirements

- a. Upon a showing of good cause, the Board may permit a waiver of the supervision requirement as set forth in section 12-220-505(6)(a), C.R.S.
- b. Factors to be considered in granting such waivers include, but are not limited to:
  - (1) The quality of protocols setting out the responsibilities of the supervision of the dental hygienist with regard to placing interim therapeutic restorations; and
  - (2) Any disciplinary history on the part of the supervising dentist or dental hygienist.
- c. All such waivers shall be in the sole discretion of the Board. All waivers shall be strictly limited to the terms provided by the Board. The Board reserves the right to withdraw or cancel the waiver upon a finding of disciplinary action. No waivers shall be granted if in conflict with State law.
- d. The waiver shall be valid for up to two years, and the dentist must reapply for the waiver every license renewal cycle.

C. In order to be eligible for a permit to place an ITR, a dental hygienist [or a dental therapist](#) must:

- 1. Hold a license in good standing to practice dental hygiene [or dental therapy](#) in Colorado;
- 2. Complete a course developed at the postsecondary education level offered under the direct supervision of a member of the faculty of a Colorado dental or dental hygiene school accredited by the Commission on Dental Accreditation (CODA) or its successor agency that complies with the following uniform training standards:
  - a. Four hours of didactic instruction, including but not limited to:
    - (1) Pulpal anatomy;
    - (2) Principles of adhesive restorative materials;
    - (3) Preparation of the tooth and placement techniques;
    - (4) Diagnostic criteria for interim therapeutic restorations;
    - (5) Evaluation of proper placement and technique; and
    - (6) Protocols for handling sensitivity, complications, or unsuccessful completion and follow-up;

- b. Four hours of laboratory instruction that includes placement of interim therapeutic restorations on typodont teeth;
  - c. Criteria for evaluating competency through placement of interim therapeutic restorations on a minimum of four teeth under direct supervision of faculty; and
  - d. Clinical evaluations of students must be performed by a dentist with a faculty appointment at an accredited Colorado dental or dental hygiene school.
- D. A dental hygienist or a dental therapist shall not use local anesthesia for the purpose of placing interim therapeutic restorations.
- E. A dental hygienist or a dental therapist shall inform the patient or the patient's legal guardian that the interim therapeutic restorations (ITR) will require routine monitoring and follow up or maintenance with a dentist, as appropriate. This informed consent shall be documented in the patient's records.
- F. Pursuant to 12-220-201(1)(nn), C.R.S., the Board may take disciplinary action against an applicant or licensee for failing to comply with the requirements regarding the placement of interim therapeutic restorations.

(Adopted April 28, 2016, Effective June 30, 2016, Amended July 14, 2021, Effective September 14, 2021)

**1.26 Application of Silver Diamine Fluoride by Dental Therapists and Dental Hygienists**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, 12-220-503, ~~and 12-220-504(1)(e)~~, and 12-220-508(1)(c)(VIII) C.R.S.

- A. A dental hygienist or a dental therapist may prescribe and apply silver diamine fluoride if the dental hygienist/licensee meets the statutory requirements in sections 12-220-503, C.R.S.
- B. The application of silver diamine fluoride may not be assigned to an unlicensed professional.
- C. Pursuant to section 12-220-503(1)(g)(IV), C.R.S., the postsecondary course or continuing education course of a minimum of one hour developed at a postsecondary level must include the following requirements:
  - 1. Instruction on the use of proper placement and techniques of silver diamine fluoride (SDF);
  - 2. Limitations of SDF;
  - 3. Uses for SDF in clinical practice;
  - 4. Mechanisms of action of SDF;
  - 5. Diagnostic criteria, contraindications and limitations of SDF; and
  - 6. Protocols for handling sensitivity, complications, or unsuccessful completion and follow up.
  - 7. Training must be obtained through a course provided or recognized by any of the following organizations (or a successor organization):
    - a. A Commission on Dental Accreditation (CODA) accredited institution;

- b. The American Dental Association (ADA) Continuing Education Recognition Program (CERP);
  - c. The Academy of General Dentistry (AGD) Program Approval for Continuing Education (PACE);
  - d. The American Medical Association (AMA); or
  - e. The American Dental Hygienists' Association (ADHA) or Colorado Dental Hygienists' Association.
- D. The articulated plan with a collaborating dentist for dental hygiene prescribing as set forth in section 12-220-503(1)(g)(1), C.R.S., is subject to Board review and the dental hygienist shall provide the plan to the Board upon request.
- E. When applying silver diamine fluoride pursuant to this Rule, at a minimum, the following must be documented in the patient's record:
  - 1. Teeth treated;
  - 2. Date of the procedure;
  - 3. Rationale for applying the agent; and
  - 4. Any required disclosures.
- F. Pursuant to 12-220-201(1)(oo), C.R.S., the Board may take disciplinary action against an applicant or licensee for failing to comply with the requirements regarding the application of silver diamine fluoride.

(Adopted June 14, 2018, Effective August 14, 2018, Amended July 14, 2021, Effective September 14, 2021)

**1.27 EXPANDED SCOPE OF PRACTICE FOR DENTISTS PURSUANT TO THE GOVERNOR'S EXECUTIVE ORDER D 2022 010**

- A. Basis. Through Executive Order D 2022 010, amending and extending Executive Orders D 2021 122, D 2021 124, D 2021 125, D 2021 129, D 2021 132, D 2021 136, D 2021 139, D 2021 141, and D 2022 003, Governor Jared Polis temporarily suspended the emergency rulemaking authorities for the Colorado Dental Board ("Board") set forth in section 24-1-122(3)(k), C.R.S., and directed the Executive Director of DORA, through the Director of the Division of Professions and Occupations (Division Director), to promulgate and issue temporary emergency rules consistent with the Executive Order. The basis for these emergency rules is Executive Order D 2022 010 issued by Governor Jared Polis pursuant to the Colorado COVID-19 Disaster Recovery Order and Article IV, Section 2 of the Colorado Constitution, and the Colorado Disaster Emergency Act, sections 24-33.5-701, *et. seq.*, C.R.S.
- B. Purpose. These Emergency Rules are adopted by the Executive Director of the Department of Regulatory Agencies, through the Division Director, to effectuate Executive Order D 2022 010, amending and extending Executive Orders D 2021 122, D 2021 124, D 2021 125, D 2021 129, D 2021 132, D 2021 136, D 2021 139, D 2021 141, and D 2022 003, and directing the immediate expansion of the workforce of trained medical personnel available to provide healthcare services within inpatient facilities due to the coronavirus disease 2019 (COVID-19) pandemic in Colorado.

- C. Expanded Scope of Practice. Dentists may perform services while working in a hospital or inpatient facility as delegated by physicians, physician assistants, advanced practice registered nurses, certified registered nurse anesthetists, professional nurses and respiratory therapists.
1. Dentists are authorized to perform delegated services upon adequate cross-training as determined necessary by the hospital or inpatient facility.
  2. Dentists shall not accept delegation of a service for which the licensee does not possess the knowledge, skill or training to perform.
  3. Dentists shall not perform a delegated service for which the licensee does not possess the knowledge, skill or training to perform.
  4. Delegated services shall not be re-delegated to another person or licensee by the delegatee.
  5. Dentists shall not prescribe or select medications, perform surgical or other invasive procedures or perform anesthesia services outside of statutory scope of practice regardless of delegation.

**1.28 EXPANDED SCOPE OF PRACTICE FOR DENTISTS AND DENTAL HYGIENISTS IN ORDER TO ADMINISTER VACCINATIONS PURSUANT TO THE GOVERNOR'S EXECUTIVE ORDER D 2022 010**

- A. Through Executive Order D 2022 010, amending and extending Executive Orders D 2021 122, D 2021 124, D 2021 125, D 2021 129, D 2021 132, D 2021 136, D 2021 139, D 2021 141, and D 2022 003, Governor Jared Polis temporarily suspended the emergency rulemaking authorities for the Colorado Dental Board ("Board") set forth in section 24-1-122(3)(k), C.R.S., and directed the Executive Director of DORA, through the Director of the Division of Professions and Occupations (Division Director), to promulgate and issue temporary emergency rules consistent with the Executive Order. The basis for these emergency rules is Executive Order D 2022 010 issued by Governor Jared Polis pursuant to the Colorado COVID-19 Disaster Recovery Order and Article IV, Section 2 of the Colorado Constitution, and the Colorado Disaster Emergency Act, sections 24-33.5-701, *et. seq.*, C.R.S.
- B. Purpose. These Emergency Rules are adopted by the Executive Director of DORA, through the Division Director, to effectuate Executive Order D 2022 010, amending and extending Executive Orders D 2021 122, D 2021 124, D 2021 125, D 2021 129, D 2021 132, D 2021 136, D 2021 139, D 2021 141, and D 2022 003, and directing the immediate expansion of the workforce of trained medical personnel available to administer the coronavirus disease 2019 (COVID-19) vaccinations within inpatient facilities and outpatient settings due to the coronavirus disease 2019 (COVID-19) pandemic in Colorado.
- C. Expanded Scope of Practice In Order to Administer the COVID-19 Vaccination.
1. Dentists and dental hygienists may counsel patients and administer the COVID-19 vaccination while working in a hospital, inpatient facility or outpatient setting.
    - a. Dentists and dental hygienists are authorized to perform this delegated service upon adequate cross-training as determined necessary by the hospital, inpatient facility, or outpatient setting.
    - b. Dentists and dental hygienists shall not administer the COVID-19 vaccination if the licensee does not possess the knowledge, skill or training to administer the vaccination or treat a reaction to the vaccination.

- c. This service shall not be delegated to another person or licensee by the licensee.

**1.29 CONFIDENTIAL AGREEMENTS TO LIMIT PRACTICE FOR PHYSICAL ILLNESS, PHYSICAL CONDITION, OR BEHAVIORAL OR MENTAL HEALTH DISORDER**

This Rule is promulgated pursuant to sections 12-20-204, 12-30-108, 12-220-105(3), 12-220-106, 12-220-201(1)(j), and 12-220-207, C.R.S.

- A. These requirements apply to a dentist, [dental therapist](#) or dental hygienist who holds an active license issued by the Board, including a dentist issued an academic license
- B. No later than thirty days from the date a physical illness, physical condition, or behavioral or mental health disorder impacts a licensee's ability to practice with reasonable skill and safety, the licensee shall provide the Board, in writing, the following information:
1. The diagnosis and a description of the illness, condition, or disorder;
  2. The date the illness, condition, or disorder was first diagnosed;
  3. The name of the current treatment provider and documentation from the current treatment provider confirming the diagnosis, date of onset, and treatment plan;
  4. A description of the licensee's practice and any modifications, limitations or restrictions to that practice that have been made as a result of the illness, condition, or disorder;
  5. Whether the licensee has been evaluated by, or is currently receiving services from the Board's authorized Peer Health Assistance Program related to the illness, condition, or disorder, and, if so, the date of initial contact and whether services are ongoing.
- C. Compliance with this Rule is a prerequisite for eligibility to enter into a Confidential Agreement with the Board pursuant to sections 12-220-207 and 12-30-108, C.R.S. However, mere compliance with this Rule does not require the Board to negotiate regarding, or enter into, a Confidential Agreement. Rather, the Board will evaluate all facts and circumstances to determine if a Confidential Agreement is appropriate.
- D. If the Board discovers that a licensee has a physical illness, physical condition, or behavioral or mental health disorder that impacts the licensee's ability to practice with reasonable skill and safety and the licensee has not notified the Board as required under these Rules of such illness, condition, or disorder, the licensee shall not be eligible for a Confidential Agreement and may be subject to disciplinary action for failure to notify under section 12-220-201(1)(j), C.R.S.

(Adopted November 5, 2020; Effective December 30, 2020; Amended November 4, 2021; Effective December 30, 2021)

**1.30 REQUIRED DISCLOSURE TO PATIENTS - CONVICTION OF OR DISCIPLINE BASED ON SEXUAL MISCONDUCT**

This Rule is promulgated pursuant to sections 12-20-204, 12-220-105(3), 12-220-106, and 12-30-115, C.R.S.

- A. On or after March 1, 2021, a licensee shall provide a written disclosure to a patient, as defined in section 12-30-115(1)(a), C.R.S., instances of sexual misconduct, including a conviction or guilty plea as set forth in section 12-30-115(2)(a) C.R.S., or final agency action resulting in probation or limitation of licensee's ability to practice as set forth in section 12-30-115(2)(b), C.R.S.

- B. Form of Disclosure: The written disclosure shall include all information specified in section 12-30-115(3), C.R.S., in a manner consistent with the sample model disclosure form as set forth in Appendix A to these rules. The patient must, through signature on the disclosure form, acknowledge the receipt of the disclosure and agree to treatment with the licensee.
- C. Timing of Disclosure: This disclosure shall be provided to a patient the same day the patient schedules a professional services appointment with the licensee. If an appointment is scheduled the same day that services will be provided, or if an appointment is not required such as in an inpatient facility, the disclosure must be provided in advance of the treatment.
  - 1. The written disclosure and agreement to treatment must be completed prior to each treatment appointment with a patient, unless the treatment will occur in a series over multiple appointments or a patient schedules follow-up treatment appointments.
  - 2. For treatment series or follow-up treatment appointments, one disclosure prior to the first appointment is sufficient, unless the information the licensee is required to disclose pursuant to section 12-30-115, C.R.S., has changed since the most recent disclosure, in which case an updated disclosure must be provided to a patient and signed before treatment may continue.
- D. As set forth in section 12-30-115(3)(e), C.R.S., the requirement to disclose the conviction, guilty plea, or agency action ends when the licensee has satisfied the requirements of the probation or other limitation and is no longer on probation or otherwise subject to a limitation on the ability to practice the licensee's profession.
- E. A provider need not make the disclosure required by this Rule before providing professional services to the patient if any of the following applies as set forth in section 12-30-115(4), C.R.S.:
  - 1. The patient is unconscious or otherwise unable to comprehend the disclosure and sign an acknowledgment of receipt of the disclosure pursuant to section 12-30-115(3)(d), C.R.S., and a guardian of the patient is unavailable to comprehend the disclosure and sign the acknowledgment;
  - 2. The visit occurs in an emergency room or freestanding emergency department or the visit is unscheduled, including consultations in inpatient facilities; or
  - 3. The provider who will be treating the patient during the visit is not known to the patient until immediately prior to the start of the visit.
- F. A provider who does not have a direct treatment relationship or have direct contact with the patient is not required to make the disclosure required by this Rule.

(Adopted November 5, 2020; Effective December 30, 2020)

### **1.31 RULES REGARDING THE USE OF BENZODIAZEPINE**

The authority for promulgation of these rules and regulations by the Colorado Dental Board is set forth in sections 12-20-204(1), 12-220-105(3), 12-220-106, and 12-30-109(6), C.R.S.

The purpose of these Rules and regulations is to implement rules required by section 12-30-109(6), C.R.S., related to requirements for prescribing benzodiazepines to patients for whom licensees have not previously been prescribed benzodiazepines within the last twelve months.

A. Licensees must limit any prescription for a continuous benzodiazepine to a 30-day supply, for any patient ~~whoto whom the licensee~~ has not been prescribed a benzodiazepine in the last 12 months.

~~B. Prior to prescribing the second fill of a benzodiazepine for a condition that is not exempt under section 12-280-404(4)(a.5), C.R.S., a licensee must comply with the requirements of section 12-280-404(4), C.R.S.~~

~~Failure to comply with section 12-280-404(4), C.R.S., constitutes unprofessional conduct or grounds for discipline under section 12-220-201(1), C.R.S.~~

B.C. The limitation stated in section (A) of this Rule does not apply to patients for whom licensees prescribe benzodiazepines for the following conditions:

1. Epilepsy;
2. A seizure, a seizure disorder, or a suspected seizure disorder;
3. Spasticity;
4. Alcohol withdrawal; or
5. A neurological condition, including a post-traumatic brain injury or catatonia.

D. These rules do not require or encourage abrupt discontinuation, limitation, or withdrawal of benzodiazepines. Licensees are expected to follow generally accepted standards of the practice of dentistry based on an individual patient's needs, in tapering benzodiazepine prescriptions.

(Promulgated as an Emergency Rule on November 4, 2021; Effective on November 1, 2021)

### 1.32 Protections for Provision of Reproductive Health Care in Colorado

This Rule is promulgated pursuant to Executive Order D 2022 032, and sections 25-6-401 et seq., 12-220-105(3), and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
2. "Assisting in the provision reproductive health care" means aiding, abetting or complicity in the provision of reproductive health care.
2. "Certificate holder" or "certificant" means as defined in section 12-20-102(3), C.R.S.
3. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
4. "Criminal judgment" means criminal conviction as defined in Rule 1.1.
5. "Licensee" means as defined in section 12-20-102(10), C.R.S.
6. "Provision of reproductive health care," includes but is not limited to, transportation for reproductive health care, referrals for reproductive health care and related services, funding or assisting with payment of reproductive health care, prescribing, shipping or dispensing medications for reproductive health care in accordance with state and federal law, all options and mental health counseling and treatment related to reproductive health

care. The “provision of reproductive health care” also includes all treatment contemplated in the definition of section 25-6-402(4), C.R.S.

7. “Regulator” means as defined in section 12-20-102(14), C.R.S.

8. “Reproductive health care” means as defined in section 25-6-402(4), C.R.S.

B. The regulator shall not deny certification, or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on the applicant's provision of or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice as defined in Colorado law and did not otherwise violate Colorado law.

C. The regulator shall not deny certification or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on a civil or criminal judgment against the applicant or registrant arising from the provision of, or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.

D. The regulator shall not deny certification or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on a professional disciplinary action or any other sanction against the applicant's professional certification or licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant's provision of, or assistance in the provision of, reproductive health care and the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.

E. The regulator shall not deny certification or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on the applicant/licensee's own personal effort to seek or obtain reproductive health care for themselves. The regulator shall not deny certification or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on a civil or criminal judgment against the applicant arising from the individual's own personal receipt of reproductive health care in this state or any other state or U.S. territory.

### **1.33 Protecting Colorado's Workforce and Expanding Licensing Opportunities**

This Rule is promulgated pursuant to Executive Order D 2022 034, and sections 12-220-105(3), and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. “Applicant” means as defined in section 12-20-102(2), C.R.S.

2. “Certificate holder” or “certificant” means as defined in section 12-20-102(3), C.R.S.

3. “Civil judgment” means a final court decision and order resulting from a civil lawsuit.

4. “Criminal judgment” means criminal conviction as defined in Rule 1.1.

5. “Licensee” means as defined in section 12-20-102(10), C.R.S.

6. “Regulator” means as defined in section 12-20-102(14), C.R.S.

B. The regulator shall not deny certification or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on a civil or criminal judgment against the applicant regarding the consumption, possession, cultivation, or processing of marijuana so long as the actions are lawful and consistent with professional conduct and standards of care within Colorado and did not otherwise violate Colorado law.

C. The regulator shall not deny certification or licensure to an applicant or impose disciplinary action against an individual's certificate or license based solely on a professional disciplinary action against the applicant's or professional certification or licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant's consumption, possession, cultivation, or processing of marijuana and did not otherwise violate Colorado law.

**1.34 Concerning Health Care Provider Disclosures to Consumers about the Potential Effects of Receiving Emergency or Nonemergency Services from an Out-of-Network Provider**

This Rule is promulgated pursuant to sections 12-20-204, 12-30-112, and 12-220-106(1)(a), C.R.S., in consultation with the Commissioner of Insurance and the State Board of Health.

The purpose of this Rule is to establish requirements for health care providers to provide disclosures to consumers about the potential effects of receiving emergency or non-emergency services from an out-of-network provider.

This Rule applies to health care providers as defined in section 10-16-102(56), C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Publicly available" means, for the purposes of this regulation, searchable on the health care provider's public website, displayed in a manner that is easily accessible, without barriers, and that ensures that the information is accessible to the general public, including that it is findable through public search engines. The health care provider's public website must be accessible free of charge, without having to establish a user account, password, or other credentials, accept any terms or conditions, and without having to submit any personal identifying information.

B. Disclosure requirements.

1. An out of network provider may balance bill a covered person for post-stabilization services in accordance with section 10-16-704, C.R.S., and covered nonemergency services in an in-network facility that are not ancillary services if the provider meets the requirements set forth in section 12-30-112(3.5), C.R.S. If a consumer has incurred a claim for emergency or nonemergency health care services from an out-of-network provider, the health care provider shall provide the disclosures contained in Appendix B in compliance with section 12-30-112(3.5), C.R.S.

2. The health care provider shall provide the disclosure contained in Appendix B as set forth in section 12-30-112(3.5), C.R.S.

C. Noncompliance with this Rule may result in the imposition of any of discipline made available by section 12-220-201(1)(i), C.R.S.

## APPENDIX A

### MODEL SEXUAL MISCONDUCT DISCLOSURE STATEMENT

DISCLAIMER: This Model Sexual Misconduct Disclosure Statement is to be used as a guide only and is aimed only to assist the practitioner in complying with section 12-30-115, C.R.S., and Rule 1.23. As a licensed, registered, and/or certified health care provider in the State of Colorado, you are responsible for ensuring that you are in compliance with state statutes and rules. While the information below must be included in your Sexual Misconduct Disclosure Statement pursuant to section 12-30-115, C.R.S., you may to include additional information that specifically applies to your situation and practice.

- A. Licensee information, including, at a minimum: name, business address, and business telephone number.
- B. A listing of any final convictions of or a guilty plea to a sex offense, as defined in section 16-11.7-102(3), C.R.S.
- C. For each such conviction or guilty plea, the licensee shall provide, at a minimum:
  - 1. The date that the final judgment of conviction or guilty plea was entered;
  - 2. The nature of the offense or conduct that led to the final conviction or guilty plea;
  - 3. The type, scope, and duration of the sentence or other penalty imposed, including whether:
    - a. The provider entered a guilty plea or was convicted pursuant to a criminal adjudication;
    - b. The provider was placed on probation and, if so, the duration and terms of the probation and the date the probation ends; and,
    - c. The jurisdiction that imposed the final conviction or issued an order approving the guilty plea.
- D. A listing of any final agency action by a professional regulatory board or agency that results in probationary status or other limitation on the licensee's ability to practice if the final agency action is based in whole or in part on:
  - 1. a conviction for or a guilty plea to a sex offense, as defined in section 16-11.7-102(3), C.R.S., or a finding by the professional regulatory board or Director that the provider committed a sex offense, as defined in as defined in section 16-11.7-102(3), C.R.S.; OR
  - 2. a finding by a professional regulatory board or agency that the provider engaged in unprofessional conduct or other conduct that is grounds for discipline under the part or article of Title 12 of the Colorado Revised Statutes that regulates the provider's profession, where the failure or conduct is related to, includes, or involves sexual misconduct that results in harm to a patient or presents a significant risk of public harm to patients.
- E. For each such final agency action by a professional regulatory board or agency the provider shall provide, at a minimum:
  - 1. The type, scope, and duration of the agency action imposed, including whether:

- a. the regulator and licensee entered into a stipulation;
  - b. the agency action resulted from an adjudicated decision;
  - c. the licensee was placed on probation and, if so, the duration and terms of probation; and
  - d. the professional regulatory board or agency imposed any limitations on the licensee's practice and, if so, a description of the specific limitations and the duration of the limitations.
2. The nature of the offense or conduct, including the grounds for probation or practice limitations specified in the final agency action;
3. The date the final agency action was issued
4. The date the probation status or practice limitation ends; and
5. The contact information for the professional regulatory board or agency that imposed the final agency action on the licensee, including information on how to file a complaint.

APPENDIX B

**Your Rights and Protections Against Surprise Medical Bills**

When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

**What is “balance billing” (sometimes called “surprise billing”)?**

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, like a copayment, coinsurance, or deductible. You may have additional costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

“Out-of-network” means providers and facilities that haven't signed a contract with your health plan to provide services. Out-of-network providers may be allowed to bill you for the difference between what your plan pays and the full amount charged for a service. This is called “balance billing.” This amount is likely more than in-network costs for the same service and might not count toward your plan's deductible or annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider. Surprise medical bills could cost thousands of dollars depending on the procedure or service.

**You're protected from balance billing for:**

**Emergency services**

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most they can bill you is your plan's in-network cost-sharing amount (such as copayments, coinsurance, and deductibles). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

If you believe you've been wrongly billed by a healthcare provider, please contact the Colorado Dental Board at 303-894-7800 or [dora\\_dentalboard@state.co.us](mailto:dora_dentalboard@state.co.us).

Visit the CMS No Surprises Act website (<https://www.cms.gov/nosurprises/consumers>) for more information about your rights under federal law.

Review section 12-30-112, C.R.S., for more information about your rights under Colorado state law. ~~[Insert plain language summary of any applicable state balance billing laws or requirements OR state-developed language as appropriate]~~

**Certain services at an in-network hospital or ambulatory surgical center**

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers can bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers **can't** balance bill you and may **not** ask you to give up your protections not to be balance billed.

If you get other types of services at these in-network facilities, out-of-network providers can't balance bill you, unless you give written consent and give up your protections.

**You're never required to give up your protections from balance billing. You also aren't required to get out-of-network care. You can choose a provider or facility in your plan's network.**

[Insert plain language summary of any applicable state balance billing laws or requirements OR state-developed language regarding applicable state law requirements as appropriate]

**When balance billing isn't allowed, you also have these protections:**

- You're only responsible for paying your share of the cost (like the copayments, coinsurance, and deductible that you would pay if the provider or facility was in-network). Your health plan will pay any additional costs to out-of-network providers and facilities directly.
- Generally, your health plan must:
  - o Cover emergency services without requiring you to get approval for services in advance (also known as "prior authorization").
  - o Cover emergency services by out-of-network providers.
  - o Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
  - o Count any amount you pay for emergency services or out-of-network services toward your in-network deductible and out-of-pocket limit.

**If you believe you've been wrongly billed by a healthcare provider,** please contact the Colorado Dental Board at 303-894-7800 or [dora\\_dentalboard@state.co.us](mailto:dora_dentalboard@state.co.us). The federal phone number for information and complaints is: 1-800-985-3059.

Visit [www.cms.gov/nosurprises/consumers](http://www.cms.gov/nosurprises/consumers) for more information about your rights under federal law.

Visit <https://dpo.colorado.gov/Dental> for more information about your rights under Colorado state law, pursuant to section 12-30-112, C.R.S.

## **FOREWORD**

This booklet contains rules, statutes, and policies which pertain to the licensure of passenger tramways in Colorado. Passenger tramways must be licensed annually by the Colorado Passenger Tramway Safety Board before they can lawfully operate in Colorado. The Board has established standards of design and operation practices for all recreational tramways, and requires inspections of each device at least twice annually.

Colorado Revised Statutes Title 25, Article 5, Part 7 is the legal authority for the Board and is the basis for all Board activities. This statute is located at the end of this booklet.

The Board's rules and regulations are comprised of two documents: the "American National Standard for Passenger Tramways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements" and the "American National Standard for Funiculars - Safety Requirements" known simply as "ANSI", and the Colorado Rules and Regulations.

The ANSI documents are available for review at the Board's office during normal working hours or can be obtained by contacting the National Ski Areas Association at 303/987-1111.

The Colorado Rules and Regulations that contain technical rules not found in ANSI, ANSI rules which have been revised by the Board, and the Board's administrative rules are found in this booklet. Revision of these rules is an ongoing process. You will be notified when any rules are added, deleted, or revised by the Board.

Also included in this booklet are general policies adopted by the Board and a list of rules, which have been revised, added, or deleted since the last publication.

You are encouraged to contact the Colorado Passenger Tramway Safety Board at 303/894-7785 if you have any questions regarding the contents of this booklet.

Department of  
Regulatory Agencies

Division of Professions and Occupations

**Rule 0.1 Preamble and incorporation by reference.** Section 25-5-704(1)(a) of the Colorado Revised Statutes allows the Colorado Passenger Tramway Safety Board (“Board”) to “use as general guidelines the standards contained in the 'American Standard Safety Code for Aerial Passenger Tramways', as adopted by the American Standards Association, Incorporated, as amended from time to time.” Since 1965, when this provision was enacted, the American Standards Association, Inc., has been succeeded by the American National Standards Institute, Inc. and the American Standard Safety Code updated. The relevant publications are now known as the “American National Standard for Passenger Ropeways – Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors – Safety Requirements” (“ANSI B77.1-2011”) and the “American National Standard for Funiculars – Safety Requirements” (“ANSI B77.2-2004”).

The Board adopts and incorporates by reference, with certain additions, revisions, and deletions, the ANSI standards as listed below:

B77.1-1960	June 8, 1960	USA standard Safety Code for Aerial Passenger Tramways
B77.1a-1963	July 1, 1963	Addenda to USA standard Safety Code for Aerial Passenger Tramways
B77.1b-1965	July 26, 1965	Addenda to USA standard Safety Code for Aerial Passenger Tramways
B77.1-1970	March 17, 1970	American National Standard - Safety Requirements for Aerial Passenger Tramways
B77.1-1973	January 25, 1973	American National Standard - Safety Requirements for Aerial Passenger Tramways
B77.1-1976	November 19, 1975	American National Standard - Safety Requirements for Aerial Passenger Tramways
B77.1a-1978	January 17, 1978	Addendum to American National Standard - Safety Requirements for Aerial Passenger Tramways
B77.1-1982	July 16, 1982	American National Standard - for passenger tramways - aerial tramways and lifts, surface lifts and tows – Safety Requirements
B77.1a-1986	December 2, 1985	Supplement to American National Standard - for passenger tramways - aerial tramways and lifts, surface lifts and tows - Safety Requirements

## COLORADO

Department of

B77.1b-1988	March 14, 1988	Supplement to American National Standard - for passenger tramways - aerial tramways and lifts, surface lifts and tows – Safety Requirements
B77.1-1990	March 26, 1990	American National Standard for Passenger Tramways - Aerial Tramways and Lifts, Surface Lifts and Tows - Safety Requirements
B77.1-1992	December 2, 1992	American National Standard for Passenger Tramways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows - Safety Requirements
B77.1-1999	March 11, 1999	American National Standard for Passenger Ropeways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements
B77.2-2004	December 31, 2003	American National Standard for Funiculars- Safety Requirements Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements
B77.1-2006	April 17, 2006	American National Standard for Passenger Ropeways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements
B77.1-2011	May 2, 2011	American National Standard for Passenger Ropeways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements
B77.1-2017	Feb 2, 2019	American National Standard for Passenger Ropeways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements
B77.1-2022	May 2, 2023	American National Standard for Passenger Ropeways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements
<u>B77.1-2022</u>	<u>May 1, 2023</u>	<u>American National Standard for Passenger Ropeways - Aerial Tramways, Aerial Lifts, Surface Lifts, Tows and Conveyors - Safety Requirements</u>

As used in this document, the term “rules and regulations” means the referenced ANSI Standards and the “State of Colorado Department of Regulatory Agencies Passenger Tramway Safety

Board Rules and Regulations.” The Board Rules and Regulations do not include any later amendments to or editions of the standards listed above.

A copy of each of the standards, codes, and guidelines listed above are available for public inspection at the Board office at the Division of Professions and Occupations, Department of Regulatory Agencies, 1560 Broadway, Suite 1350, Denver, Colorado, 80202, and at any state publications depository library. For further information regarding how this material can be obtained or examined, contact the Board's Program Director at 1560 Broadway, Suite 1350, Denver, Colorado, 80202, (303) 894-7785.

**RE:** Section 4 Missed Rules - Draft Proposal

During the adoption of multiple rules to correspond with the adoption of the ANSI B77.1-2017 new Standard, an entire page was inadvertently omitted from the CPTSB Rules and regulations.

The proposed Rules are dated correctly for the rule requirements and the appropriate equipment age. The ANSI B77.1-2017 has new requirements that existing equipment cannot comply with and require the adoption of the then current rules into the CPTSB Rule and Regulations to cover the existing equipment.

This proposal aims to correct that omission by the adoption of the following rules;

# COLORADO

## Proposed Rule:

Table 4-3 - Required stopping devices

Lift category	Service Brake	Drive Sheave Brake	Rollback device	Drive train backstop	Retarding device (see 4.1.2.4)
<b>Self-braking:</b> A lift that decelerates, stops, & remains stopped within the service brake performance requirements without a braking device	Not Required	Required	Not Required	Not Required	Not Required
<b>Nonoverhauling:</b> A lift that will not accelerate in either direction when it is not driven, but is not self-braking	Required*	Required	Not Required	Not Required	Not Required
<b>Overhauling, reverse direction:</b> A lift that will accelerate in the reverse direction when it is not driven	Required	Required	Required	Required †	Not Required
<b>Overhauling, forward direction:</b> A lift that will accelerate in forward direction when it is not driven	Required	Required	Not Required	Not Required	Required
<p>* A service brake is not required if the overhauling, reverse direction lift will meet the service brake stopping requirements under most unfavorable design loading conditions.</p> <p>† A drive train backstop is not required if the condition of 4.1.2.6 (b) is met</p>					

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

### 4.2.4 Operation circuits

Prior to April 15, 2019:

An operation circuit is a circuit that provides power to or controls the aerial lift machinery.

The designer or manufacturer shall identify the operation circuits that require periodic testing and develop procedures and frequency for testing. As a minimum, all operation circuits shall be tested and calibrated annually.

Operation circuits include, but are not limited to:

- a) power circuits;
- b) drive fault circuits;
- c) normal stop (see 1.4 - normal stop and 4.1.2.5);
- d) speed command circuits (i.e., fast, slow, etc.);
- e) internal combustion engine speed control;
- f) power unit interlock (see 4.1.2.1.3);

### 4.2.5 Supervision circuits

Prior to April 15, 2019:

Supervision circuits include all communications systems. In addition, supervision circuits may be provided to monitor or supervise the performance of various aerial lift systems or provide the aerial lift operator with system information.

The designer or manufacturer shall identify supervision circuits that require periodic testing and develop procedures and frequency for testing supervision circuits. As a minimum, all supervision circuits shall be calibrated and tested annually.

Supervision circuits may include, but are not limited to:

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

- a) telephone and sound powered systems (see 4.1.1.7);
- b) information display circuits;
- c) audible warning devices (see 4.2.10);
- d) overhead cable supervision (4.2.1.4);
- e) wind speed and direction sensors and display units;
- f) gearbox oil pressure, oil flow and temperature;
- g) pneumatic and hydraulic tension system pressure (see 4.2.5.1);
- h) unauthorized passenger detection;
- i) rope position detectors (see 4.2.5.2);
- j) acceleration/deceleration error (see 4.2.5.3).

### **4.2.5.1 Pneumatic and hydraulic tension systems**

Prior to April 15, 2019:

When pneumatic or hydraulic tension systems are used, pressure-sensing devices shall also be incorporated that will stop the aerial lift system in case the operating pressure goes above or below the design pressure range. Such pressure-sensing devices shall be located close to the actual tensioning device. It shall not be possible to isolate the pressure sensor from the actual tensioning device.

### **4.2.5.2 Rope Position Detection**

Prior to April 15, 2019:

On lifts where the carrier speed exceeds 600 feet per minute (3.0 meters per second), at least one device that senses the position of the rope shall be installed on each sheave unit. The device shall initiate a stop before the rope leaves the sheave in the horizontal direction or when the rope is displaced in the vertical direction by

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

one rope diameter plus the distance that the rope is displaced vertically from the sheave by the grip (see 4.1.3.3.2(g)).

When the device that senses the position of the rope is the only deropement switch, it shall meet the requirements of a protection circuit as described in section 4.2.3. An aerial lift system may utilize a rope position detector as a supervision circuit as described in section 4.2.5 only if it has another deropement detection system that meets the requirements of a protection circuit.

### 4.2.5.3 Acceleration/deceleration monitoring.

Prior to April 15, 2019:

The rate of acceleration and deceleration of the aerial lift shall be monitored. In the event that the acceleration or deceleration exceeds the provisions of 4.1.2.4, the aerial lift shall stop and annunciate the error.

EXCEPTION: Prime movers equipped with fluid couplings, centrifugal clutches, or wound rotor motors.

Prior to May 15, 2006  
Not Required

### 4.2.6 Bypass circuits

Prior to April 15, 2019:

A temporary circuit may be installed for the purpose of bypassing failed electrical circuits. These bypass circuits when used must meet the requirements of 4.3.2.5.9.

### 4.2.7 Electrical prime mover

Prior to April 15, 2019:

All aerial lift systems equipped with electrical prime movers (electrical motors) shall have phase-loss protection on all power phases and under-voltage protection or over-voltage protection, or both, when speed regulation can be adversely affected by such voltage variations.

RE: **22.3.5 Additional required inspection - Draft Proposal**

There has been some confusion in recent years as to the application of the ANSI B-77.1 requirement for additional inspections beyond the original 2 inspections per 2000 hours.

With tramways operating during winter AND summer season, as well as tramways operating year-round, this is an attempt to clarify and codify the requirements for additional inspections.

### **Proposed Rule:**

**22.3.5 Additional required inspection.** In addition to the annual licensing and unannounced inspections for each passenger tramway, there may be additional required inspections ~~after each 2000 hours of operation.~~ These inspections include:

#### **a) Single Season/Less than 2000 hours per year Operation**

For a passenger tramway that operate for a single season (winter or summer), or for less than 2000 hours per calendar year if operating on a year-round schedule (three seasons or more), the tramway shall incur two inspections: one mechanical licensing inspection prior to licensure and one unannounced operational inspection during the operating season.

#### **b) Two Season Operations (Winter-Summer)**

For a passenger tramway operating for both a winter AND summer season, the tramway shall incur a minimum of three inspections: one mechanical licensing inspection prior to licensure, one unannounced operational inspection during the winter operating season and one unannounced operational inspection during the summer operating season.

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

### **c) Tramways Operating MORE than 3000 hours per year**

For a passenger tramway that operates for more than 3000 hours per calendar year (regardless of seasonal or year-round operation), the tramway shall incur three (3) inspections:

- a) One mechanical licensing inspection
- b) Two unannounced operational inspections during the operating season (i.e. winter/summer)

### **d) Tramways Operating MORE than 4000 hours per year**

For a passenger tramway that operates for more than 4000 hours per calendar year, the tramway shall incur four (4) inspections:

- a) One mechanical licensing inspection prior to licensure
- b) One mechanical licensing inspection mid-year
- c) Two unannounced operational inspections during the operating season typically between the mechanical inspections.

Note: 22.3.4(a),(b), (c) and (d) do not exclude other possible required inspections, such as 22.3.4 Special Inspections or Major or Minor Modification Inspections,

Colorado Passenger Tramway Safety Board

RE: **22.4.4 Inspection report - Proposed Draft Revisions**

Recent licensing inspections has led to a discussion of CPTSB Rule 22.4.4 concerning deficiencies and how the deficiency reports are written.

Rule 22.4.4 states:

***“22.4.4 Inspection report.** Upon completion of the inspection, the inspector shall provide the area operator of the passenger tramway(s) being inspected, or his agent, with a copy of the preliminary report of observations made during the inspection. As soon as possible, but no later than fifteen (15) days after the completion of the inspection, the inspector shall transmit to the Board a final report. This report shall include a statement as to whether it reasonably appears to the inspector that the passenger tramway(s) inspected comply with the statutes, these rules and regulations, and any other applicable orders of the Board, and that the inspection of such passenger tramway(s) disclosed no unreasonable safety hazards.*

*For each passenger tramway inspected, the inspector shall list the items not in compliance with these rules and regulations. The area operator of the passenger tramway(s) inspected shall also receive a copy of the inspector's final report.*

*Deficiencies stated in the annual inspection report shall be remedied as set forth in section 20.*

*Deficiencies stated in the annual unannounced inspection report and in any additional required inspection report(s) shall be remedied. A letter from the area's designated agent or appointed substitute designee stating that all the deficiencies listed in the inspection report have been corrected, must be received by the Board office within twenty-eight (28) days from the completion of the*

Regulatory Agencies

Division of Professions and Occupations

*inspection. Such letter shall bear a recognizable signature, printed name, and title and be submitted as an original or transmitted by electronic means.*

*Deficiencies stated in an acceptance test report(s) as required in 22.3.3.1 shall be remedied. A letter from the area's designated agent or appointed substitute designee stating that all the deficiencies listed in the inspection report have been corrected, must be received and acknowledged by the Board office before the tramway can open for public operation. Such letter shall bear a recognizable signature, printed name, and title and be submitted as an original or transmitted by electronic means.*

*The inspection completion date shall be noted on both the preliminary and final inspection report."*

This wording has been in place since the first version of the CPTSB Rules and Regulations issued in 1977.

During an initial Acceptance Test Inspection this past fall, a request was made for the possibility of licensing the next day after the test was complete. As usual, there were specific ANSI deficiencies, but there were also several deficiencies that were "non-specific" to ANSI. Those "non-specific" deficiencies listed were not an immediate hazard, but may have become hazards if the items were not completed or addressed in a timely manner.

In order for the area to obtain a license from the CPTSB, **ALL** deficiencies listed in the Acceptance Test would have to be completed prior to licensing. With this, the "non-specific" deficiencies would delay the licensing and opening of the tramway.

For years, the CPTSB Inspectors have been writing deficiencies under the ANSI X.3.3 Maintenance that involve maintenance items that need attention but are not specifically detailed in the ANSI Standard or CPTSB Rules. This occurs in both Acceptance Test Inspections as well as Annual Licensing Inspections.

Such items may include, but not limited to:

- Completing steps into Operator enclosures
- Adjusting floor plates for non-trip hazards
- Sealing terminal section seams to prevent leakage onto equip.
- Carrier parking rails and switches that attach to the terminals
- Replacing Burned out lights on Control panels
- Repair Broken Door Handle
- Replacing or repairing torn air filters for Electric Motors

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

- Completing Lift operator enclosures
- Complete terminal downspouts and install heat tapes
- Repairing or installing windows

However, when the licensee is under a short licensing time frame, such as opening a new tramway, those “non-specific” ANSI deficiencies have the potential of being completed after a tramway has opened to the public.

Potentially many such issues are non-specific safety-related items that may affect the operation or maintenance of the tramway. In the past, the CPTSB Inspectors have written many of these items up under “general maintenance” rule numbers in ANSI such as X.3.3.1 General and the licensees have corrected those deficiencies in the normal process.

We would like to begin a discussion of the rules to review for possible revisions to better define the expectations of “Observations” and “Deficiencies.”

The following is a draft of a proposed revision of Rule 22.4.4 for discussion:

***“22.4.4 Inspection report.** Upon completion of the inspection, the inspector shall provide the area operator of the passenger tramway(s) being inspected, or his agent, with a copy of the preliminary report of observations made during the inspection. As soon as possible, but no later than fifteen (15) days after the completion of the inspection, the inspector shall transmit to the Board a final report. This report shall include a statement as to whether it reasonably appears to the inspector that the passenger tramway(s) inspected comply with the statutes, these rules and regulations, and any other applicable orders of the Board, and that the inspection of such passenger tramway(s) disclosed no unreasonable safety hazards.*

*For each passenger tramway inspected, the inspector shall list ~~these items~~ the deficiencies not in compliance with these rules and regulations, and observations requiring attention that may affect the safety, maintenance and operations of the tramway. The area operator of the passenger tramway(s) inspected shall also receive a copy of the inspector’s final report.*

*Observations shall be remedied within 28 days from the completion of the inspection. If the observation is not corrected when the deficiency response letter is submitted, a proposed remedy to correct the observation shall be included in the deficiency response letter and shall be subject to rejection by the Supervisory Tramway Engineer.*

**COLORADO**

**Department of  
Regulatory Agencies**

Division of Professions and Occupations

*Deficiencies stated in the annual inspection report shall be remedied as set forth in section 20.*

*Deficiencies stated in the annual unannounced inspection report and in any additional required inspection report(s) shall be remedied. A letter from the area's designated agent or appointed substitute designee stating that all the deficiencies listed in the inspection report have been corrected, must be received by the Board office within twenty-eight (28) days from the completion of the inspection. Such letter shall bear a recognizable signature, printed name, and title and be submitted as an original or transmitted by electronic means.*

*Deficiencies stated in an acceptance test report(s) as required in 22.3.3.1 shall be remedied. A letter from the area's designated agent or appointed substitute designee stating that all the deficiencies listed in the inspection report have been corrected, must be received and acknowledged by the Board office before the tramway can open for public operation. Such letter shall bear a recognizable signature, printed name, and title and be submitted as an original or transmitted by electronic means.*

*The inspection completion date shall be noted on both the preliminary and final inspection report."*

Colorado Passenger Tramway Safety Board

RE: **Section 23 Passenger tramway incidents - Draft Proposal**

The original Passenger Tramway Reporting requirements developed in 1996 do not accurately reflect advancements in multi-media electronic communications in reporting injuries and fatalities that may occur on tramways.

The major revision proposed is in Sec. 23.1 Definitions, in which an injury involving a possible Passenger Tramway Failure or ANY Fatality involving the Passenger Tramway is reportable to the Board within a **ONE HOUR** time period. The requirement for a tramway mechanical failure has not changed and is still covered in Sec. 23.1(g).

Please review the proposed revisions and return your comments and thoughts. This is a Major change to the reporting requirements and there is no set timeframe for adopting these revisions.

### 23.1 Definitions

"Reportable passenger tramway incident" is defined as the following.

(a) Any incident from a possible malfunction of a passenger tramway in which a person is injured, or ~~killed~~ any trauma-related fatality involving the passenger tramway that occurs between the load board and unload board of the tramway. The tramway shall cease operation as defined by Section 23.3 Limitation of operation.

For the purposes of Section 23, the term "injured" is defined as bodily damage requiring immediate ~~medical attention~~ transport to a third-party medical facility.

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

(b) Any incident in which a passenger is injured falling or jumping from a chair which is outside of the load or unload zone.

For the purposes of this rule, the "load zone" is defined as the area from the "wait here" sign to a point where the "no ski closure" ends or in the event there are no ski closures, at a point where the vertical clearance of the lift line is greater than eight (8) feet. This is measured from the bottom of the chair seat of an open carrier to the terrain or snow surface.

For the purposes of this rule, the "unload zone" is defined is the area approaching the unload area where the vertical clearance is less than eight (8) feet. This is measured from the bottom of an open carrier to the terrain or snow surface.

(c) Any unintentional deropement of an aerial tramway regardless of whether or not the tramway is evacuated. This does not apply to Surface Lifts, Tows and Conveyors.

(d) Any unplanned evacuation other than by prime mover or auxiliary power unit, regardless of cause. This does not apply to Surface Lifts, Tows and Conveyors.

(e) Any fire involving tramway equipment or structures that poses a risk to passengers, operating personnel or the structural integrity of the tramway.

(f) Failure of any electrical or mechanical component which results in the loss of control of the tramway, unless the loss of control is a direct result of the malfunction of a single manual stop or speed control switch. Any of the following five (5) conditions is considered a loss of control:

- (1) tramway will not slow down when given the command to do so;
- (2) tramway will not stop when given the command to do so;
- (3) tramway accelerates faster than normal design acceleration;
- (4) tramway self starts or self accelerates without the command to do so;
- (5) tramway reverses direction unintentionally and without the command to do so.

(g) The failure of the following components or their primary connections are reportable:

Failure is defined as the inability of the listed components to continue to function as designed and continued operation would represent a hazard.

- (1) Terminal Structure;
- (2) Bullwheel;
- (3) Brake System Components;
- (4) Tower Structure;
- (5) Sheave, Axle or Sheave Assembly;
- (6) Carrier;

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

- (7) Grip;
- (8) Haul, Track or Counterweight Cable.

### 23.2 Reporting to the board.

(a) All reportable passenger tramway incidents involving a fatality or injury as defined in Section 23.1 (a), shall be orally reported to a Board member or the authority appointed by the Board as soon as reasonably possible, but in all events within three (3) hours of the incident.

(b) All critical component failures requiring the closure of the passenger tramway for more than one hour shall be orally reported to a Board member or the authority appointed by the Board as soon as reasonably possible, but in all events within twenty-four (24) hours of the incident becoming known to the area personnel. A written report shall be delivered to the Board on forms approved by the Board postmarked within five (5) days of such incident or postmarked within five (5) days after the incident becomes known to the area personnel.

(bc) A reportable incident (*other than 23.2(a)*) discovered on dates when the lift is not open to the public shall be orally reported to a Board member or the authority appointed by the Board as soon as reasonably possible, but no later than seventy-two (72) hours after such incident becomes known to the area personnel. A written report shall be delivered to the Board on forms approved by the Board or postmarked within fifteen (15) days following the verbal report. However, all oral reports must be made prior to reopening a lift.

Area personnel is defined as personnel involved with the operation, supervision, and maintenance of the tramway. This includes, but is not limited to, lift maintenance, lift operations, ski patrol and all supervisory staff.

**23.3 Limitation of operation.** ~~When a death or injury results from a possible malfunction of a passenger tramway, as defined in Section 23.1 (a), the owner or area personnel of the tramway shall immediately cease operation and notify the Supervisory Tramway Engineer or a member of the Board by telephone.~~ When a reportable tramway incident as defined in Section 23.1 (a) occurs, the owner or area personnel of the tramway shall immediately cease operation and notify the Supervisory Tramway Engineer or a member of the Board by telephone. No part of the tramway shall be removed or disturbed before permission has been given by a Board member, the Supervisory Tramway Engineer, or his designated representative, except to the extent that such action is necessary to avoid further death or serious injury.

~~An investigation of the occurrence shall then be initiated within 24 hours and shall precede any authorization to resume public operation of the tramway. The report of investigation shall include a factual account of the incident, the nature and extent of injuries to persons, damage to~~

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

~~the passenger tramway, any witness statements, any other pertinent details, and recommendations for remedial measures to be taken prior to resuming operation.~~ An investigation of the occurrence may be initiated at the discretion of the Supervisory Tramway Engineer in agreement with the Board chair and, if initiated, shall be initiated within twenty-four (24) hours and shall precede any authorization to resume public operation of the tramway. A summary report of such investigations may include, as appropriate to the circumstances as they are known at the time, a factual account of the incident, the nature and extent of injuries to persons, damage to the passenger tramway, pertinent observations of witnesses, any other pertinent details, and recommendations for remedial measures to be taken prior to resuming operating. Information that identifies witness names or details of injuries that would invade the privacy of the individuals involved in the incident shall not be included in summary reports. The Board shall review and approve summary reports before they are available to the public.

**23.4 Logs - components.** Area operators shall maintain a log in a format approved by the Board which shall contain reports of components replaced or repaired that do not meet the definitions of CPTSB section 23.1(g) and are not part of maintenance due to normal wear. These reports shall be submitted during public operation to the Board at monthly intervals not to exceed 60 days from the date of occurrence. When the lift is not open to the public, the Component Log shall be submitted on a monthly basis when routine maintenance is being performed.

This log shall be available for inspection and, if requested by the Board or its duly authorized representative, the area operator shall make copies available of the relevant records relating to any of the components.

**23.5 Logs – stoppages.** Area operators shall maintain a passenger tramway log which shall contain reports of all passenger tramway stoppages over ten (10) minutes. For each such stoppage, the log shall contain the following information:

- (a) name and/or number of the passenger tramway;
- (b) date of stoppage;
- (c) reason for stoppage;
- (d) description of any mechanical, structural, electrical, or other problem (if known);
- (e) under investigation (yes or no);
- (f) action taken, if any;
- (g) length of time the tramway was down.

This log shall be available for inspection and, if requested by the Board or its duly authorized representative, the area operator shall make copies available of the relevant records relating to any of the stoppages.

## COLORADO

Department of  
Regulatory Agencies

Division of Professions and Occupations

**23.6 Logs - loading, unloading incidents and passengers falling or jumping from lifts.** Area operators shall maintain a log which shall contain reports of all loading and unloading incidents in which injury occurs. This log shall also contain any incident in which a passenger falls or jumps from a chair with no injury, of which the area personnel has knowledge, that is outside the load or unload zone. For the purposes of this rule, the "load zone" and "unload zone" is defined in 23.1(b).

For each such loading and unloading incident, the log shall contain the following information:

- (a) name and/or number of the passenger tramway;
- (b) date the incident occurred;
- (c) name, address and age of person injured;
- (d) description of the injury;
- (e) description of the incident;
- (f) under investigation (yes or no).

For each such fall or jumping incident, the log shall contain the following information:

- (a) name and/or number of the passenger tramway;
- (b) date the incident occurred;
- (c) age and gender of person involved, if known;
- (d) location of incident;
- (e) under investigation (yes or no).

This log shall be available for inspection and, if requested by the Board or its duly authorized representative, the area operator shall make copies available of the relevant records relating to any of the incidents.

## Rulemaking Hearing

**Date**

11/10/2022

**Time**

09:00 AM

**Location**

By video conference using Zoom at a link in the calendar of events on the Commissions website, available at:  
<https://puc.colorado.gov/>

**Subjects and issues involved**

The Colorado Public Utilities Commission (Commission) issues this Notice of Proposed Rulemaking (NOPR) to consider amendments to the Commissions Transportation Network Company (TNC) rules, 4 Code of Colorado Regulations (CCR) 723-6. The statutory authority for adoption of these rules is set forth in §§ 40-2-108 and 40-10.1-601 through 609, C.R.S., House Bill (HB) 22-1089, enacted May 17, 2022 and effective August 10, 2022, and Senate Bill (SB) 22-144, enacted and effective May 27, 2022. The Commission issues this NOPR to review, examine, and consider revisions to its rules regarding TNCs, as it pertains to legislative and statutory changes incorporated by multiple bills passed by the Colorado Legislature during the 2022 session. The proposed amendments reflect the Commissions intent to amend and update TNC rules to make them congruent with the recent statutory changes and to expand upon certain minimum safety requirements and other criteria, pursuant to statutory directive. The rules adopted through this proceeding will supersede the temporary rules currently in effect to implement SB 22-144, adopted by the Commission through Decision No. C22-0552, issued September 19, 2022.

**Statutory authority**

The statutory authority for adoption of these rules is set forth in §§ 40-2-108 and 40-10.1-601 through 609, C.R.S., House Bill (HB) 22-1089, enacted May 17, 2022 and effective August 10, 2022, and Senate Bill (SB) 22-144, enacted and effective May 27, 2022.

## **COLORADO DEPARTMENT OF REGULATORY AGENCIES**

### **Public Utilities Commission**

#### **4 CODE OF COLORADO REGULATIONS (CCR) 723-6**

#### **PART 6**

#### **RULES REGULATING TRANSPORTATION BY MOTOR VEHICLE**

##### **TRANSPORTATION NETWORK COMPANY RULES**

##### **6700. Applicability of Transportation Network Company Rules.**

Rules 6700 through 6724 apply to all transportation network companies (TNCs) as defined by § 40-10.1-602(3), C.R.S. and to all Commission proceedings and operations concerning TNCs including applicants, TNC employees, and TNC drivers.

##### **6701. Definitions.**

The following definitions apply throughout rules 6700 through 6724, except where a specific rule or statute provides otherwise.

- (a) "Enforcement official" means:
  - (I) any person appointed or hired by the director, or the director's designee, to perform any function associated with the regulation of transportation network companies; or
  - (II) as defined by § 42-20-103(2), C.R.S.
- (b) "Logged in" means that a driver's credentials have been accepted to connect to a transportation company digital network such that the driver is capable of being matched to a rider [OR a driver has gained access to a transportation company digital network].
- (c) "Logged out" means that a driver is disconnected or not connected to a transportation company's digital network.
- (d) "Matched" means the point in time when a driver accepts a requested ride through a transportation network company's digital network.
- (e) "Permit" means the permit required for the operation of a transportation network company pursuant to Part 6 of Article 10.1 of Title 40, C.R.S.
- (f) "Person" means any individual, firm, partnership, corporation, company, association, joint stock association, or other legal entity and any person acting as or in the capacity of officer, director, manager, employee, member, partner, lessee, trustee, or receiver thereof, whether appointed by a court or otherwise.

- (g) "Personal vehicle" means a vehicle that is used by a transportation network company driver in connection with providing services for a transportation network company that meets the vehicle criteria set forth in § 40-10.1-605(1)(h), C.R.S.
- (h) "Prearranged ride" means a period of time that begins when a driver accepts a requested ride through a digital network, continues while the driver transports the rider in a personal vehicle, and ends when the rider departs from the personal vehicle.
- (i) "School" means a public school that enrolls students in any of the grades of kindergarten through twelfth grade.
- (j) "Student" means an individual enrolled in a school.
- (k) "Transportation network company" (TNC) means a corporation, partnership, sole proprietorship, or other entity, operating in Colorado, that uses a digital network to connect riders to drivers for the purpose of providing transportation. A transportation network company does not provide taxi service, transportation service arranged through a transportation broker, ridesharing arrangements, as defined in § 39-22-509 (1) (a) (II), C.R.S. or any transportation service over fixed routes at regular intervals. A transportation network company is not deemed to own, control, operate, or manage the personal vehicles used by transportation network company drivers. A transportation network company does not include a political subdivision or other entity exempted from federal income tax under § 115 of the federal "Internal Revenue Code of 1986", as amended.
- (lj) "Transportation network company driver" or "driver" means an individual who uses his or her personal vehicle to provide transportation network company services for riders matched to the driver through a transportation network company's digital network. A driver need not be an employee of a transportation network company.
- (mk) "Transportation network company rider" or "rider" means a passenger in a personal vehicle for whom a driver provides transportation network company services, including:
- (I) an individual who uses a transportation network company's online application or digital network to connect with a driver to obtain services in the driver's vehicle for the individual and anyone in the individual's party; or
  - (II) anyone for whom another individual uses a transportation network company's online application or digital network to connect with a driver to obtain services in the driver's vehicle.
  - (III) "Rider" includes service animals as defined in § 24-34-803, C.R.S., accompanying any passenger.
- (nl) "Transportation network company services" or "services" means the provision of transportation by a driver to a rider with whom the driver is matched through a transportation network company. The term does not include services provided either directly by or under contract with using vehicles owned or leased by a political subdivision or other entity exempt from federal income tax under § 115 of the federal "Internal Revenue Code of 1986", as amended. The term includes services provided under a contract between a transportation network company and a political subdivision or other entity exempt from federal income tax under § 115 of the federal "Internal Revenue Code of 1986", as amended.

\* \* \* \*

[indicates omission of unaffected rules]

**6706. Financial Responsibility.**

- (a) Every TNC shall obtain and keep in force at all times motor vehicle liability insurance coverage that conforms with the requirements of § 40-10.1-604(2), C.R.S. Every TNC shall cause to be filed a Commission-prescribed Form T: TNC Bodily Injury and Property Damage Liability Certificate of Insurance. The form shall be executed by a duly authorized agent of the insurer. The insurer must be authorized to do business in the state of Colorado.
- (b) If a TNC chooses to maintain primary automobile insurance coverage on behalf of a driver or drivers that conforms with the requirements of § 40-10.1-604(3), C.R.S., it shall cause to be filed a Commission-prescribed Form P: TNC Primary Liability Certificate of Insurance. The form shall be executed by a duly authorized agent of the insurer. The insurer must be authorized to do business in the state of Colorado.
- (c) Every TNC shall obtain and keep in force at all times insurance protection against uninsured motorists that conforms with the requirements of § 40-10.1-604(2.5), C.R.S. Every TNC shall cause to be filed a Commission-prescribed Form U: Insurance Protection Against Uninsured Motorists Certificate of Insurance. The form shall be executed by a duly authorized agent of the insurer. The insurer must be authorized to do business in the state of Colorado.
- (d) For purposes of this rule, surplus line insurers authorized under article 5 of title 10, C.R.S., are within the meaning of an insurer authorized to do business in the state of Colorado.
- (ed) If a TNC chooses not to maintain primary automobile insurance on behalf of a driver or drivers, it shall file a certification that each driver who is authorized by a TNC to log in to the TNC's digital network is in compliance with the provisions of § 40-10.1-604(3), C.R.S.
- (fe) Administrative cancellation of certificates of insurance and/or surety bond.
  - (I) When a new certificate of insurance and/or surety bond is filed with the Commission, all certificates of insurance and/or surety bond for the same type and category of coverage with an older effective date shall be administratively cancelled upon the effective date of the new certificate of insurance and/or surety bond.
  - (II) When the Commission receives notice from a TNC to cancel its permit, all the certificates of insurance and/or surety bond for the TNC shall be administratively cancelled.

\* \* \* \*

[indicates omission of unaffected rules]

**6724. Transportation for Remuneration from a School or School District**

In accordance with § 40-10.1-608(3)(a), C.R.S., the following minimum safety standards are implemented for transportation network companies, personal vehicles, and transportation network company drivers when engaging in services provided under a contract with a school or school district. These minimum safety standards are in addition to all other transportation network company rules present in this section.

- (a) Contracts. A transportation network company that, for remuneration from a school or school district, provides services for students to or from a school, school-related activities, or school-sanctioned activities shall enter into a contract with the appropriate school or school district that may include specific provisions for the safety of student passengers, as determined by the school or school district.
- (b) End-to-end visibility. A transportation network company that, for remuneration from a school or school district, provides services for students to or from a school, school-related activities, or school-sanctioned activities shall use a technology-enabled integrated solution that provides end-to-end visibility into the ride for the transportation network company, the student's legal guardian, and the person that scheduled the ride. This solution must allow for Global Positioning System (GPS) monitoring of the ride in real time for safety-related anomalies.
- (I) The technology-enabled integrated solution shall be maintained and in good working order, at all times, when performing services provided under contract with a school or school district. Any disruption that occurs during a prearranged ride shall be immediately reported to the school or school district and to the parent or legal guardian of the involved student, as applicable.
- (c) Training requirements. A transportation network company that, for remuneration from a school or school district, provides services for students to or from a school, school-related activities, or school-sanctioned activities shall ensure that each driver providing the service receives training in mandatory reporting requirements, safe driving practices, first aid and Cardiopulmonary Resuscitation (CPR), education on special considerations for transporting students with disabilities, emergency preparedness, and safe pick-up and drop-off procedures.
- (I) Any driver training covering the topics outlined in this rule must be approved by the Commission prior to being used to meet this requirement. Commission staff, in consultation with the Colorado Department of Education (CDE) as a subject matter expert, shall be responsible for the review and approval of any related driving training. If a submitted driver training is not approved, a TNC may, within 60 days of Commission staff's notification, file a petition with the Commission for a qualification determination.
- (II) Driver training covering the topics outlined in this rule, as offered by schools or school districts, may meet this requirement, if approved by the Commission.
- (III) A TNC, or a third party on behalf of a TNC, shall maintain records associated with the training requirements outlined in this rule during the driver's period of service and for six months thereafter.
- (IV) The TNC, not the driver, shall pay the cost of providing the training outlined in this rule.
- (V) The driver training outlined in this rule shall be completed prior to the driver performing services provided under a contract with a school or school district.
- (d) Criminal history record checks. If a fingerprint background check for a driver is required, as specified in a contract with a school or school district, the criminal history record check shall be completed pursuant to the procedures set forth in § 40-10.1-110, C.R.S., as supplemented by the Commission's rules, in accordance with § 40-10.1-605(3)(a)(I), C.R.S., or through the background check requirements under the Education Code, in accordance with § 22-32-122, C.R.S.

- (l) In addition to the disqualification provisions under § 40-10.1-605(3)(c), C.R.S., a TNC shall not use a driver to provide services for students to or from a school, school-related activities, or school-sanctioned activities for remuneration from a school or school district if the driver has been convicted of or pled guilty or nolo contendere to an offense described in § 22-32-109.8(6.5), C.R.S.
- (e) Medical fitness. A TNC shall not permit a person to act as a driver, when performing services provided under a contract with a school or school district, unless the driver has been medically examined and certified under the provisions of 49 C.F.R. 391.41.
  - (l) A driver shall keep on their person or in their personal vehicle a copy of their medical certification, as outlined in this rule, in physical or electronic form. This documentation shall be provided to an enforcement official, upon request.
  - (ll) A TNC, or a third party on behalf of a TNC, shall maintain records associated with the driver's medical certification, as outlined in this rule, during the driver's period of service and for six months thereafter. This documentation shall be made available to an enforcement official, upon request.
  - (lll) The medical certification requirements, as outlined in this rule, may substitute the specific provisions of any other rules in this section that reference a driver's self-certification to the TNC that they are physically and mentally fit to drive.
- (f) Vehicle inspections. A TNC shall not permit the use of a personal vehicle, when performing services provided under contract with a school or school district, unless the individual performing the vehicle inspection, as outlined in 6714, is an Automotive Service Excellence (ASE) certified mechanic qualified to perform the inspection and employed by a company authorized to do business in Colorado.
  - (l) If a personal vehicle is equipped with restraints, ramps, lifts, or other special devices, which are used to facilitate the loading, unloading, or transportation of individuals with disabilities, such equipment shall be in good working order.
- (g) Daily Vehicle Inspection Report (DVIR). A TNC shall require a driver, when performing services provided under contract with a school or school district, to prepare a Daily Vehicle Inspection Report (DVIR), in writing, prior to each day's work.
  - (l) The report shall cover at least the following parts and accessories:
    - (A) foot brakes and emergency brakes;
    - (B) steering mechanism;
    - (C) windshield and wipers;
    - (D) doors and windows;
    - (E) head lights, tail lights, stop lights, and turn indicator lights;
    - (F) front seat adjustment mechanism;
    - (G) horn;

(H) speedometer;

(I) bumpers;

(J) mufflers and exhaust system;

(K) tires and wheels;

(L) rear view mirrors; and

(M) safety belts.

(II) The driver, on the DVIR, shall:

(A) identify the vehicle and list any defects or deficiencies discovered by or reported to the driver, which would affect the safety of operation of the vehicle or result in its mechanical breakdown;

(B) if no defects or deficiencies are discovered by or reported to the driver, the report shall so indicate; and

(C) in all instances, the driver shall sign, or otherwise certify, the report.

(III) Prior to requiring or permitting a driver to operate a personal vehicle, when performing services provided under contract with a school or school district, any noted defects or deficiencies listed in the DVIR shall be repaired or corrected.

(IV) For every DVIR which identifies any defects or deficiencies, a certification of the repair must be made that indicates the defects or deficiencies have been repaired or that the repair is unnecessary.

(V) The driver shall review and certify the repair has been made, if applicable.

(VI) The TNC shall maintain a DVIR record for three months after the date the DVIR was prepared.

(h) Emergency procedures. A TNC shall have and enforce emergency procedures, to be followed in the event of a safety or security incident that involves providing services for students to or from a school, school-related activities, or school-sanctioned activities.

(i) Safety restraints. A TNC shall have and enforce a policy that requires a driver to follow all Colorado laws regarding the proper use of safety belt systems and child restraint systems, when performing services provided under a contract with a school or school district.

(j) Unauthorized passengers. A TNC shall have and enforce a policy that prohibits drivers from transporting unauthorized passengers, when performing services provided under a contract with a school or school district.

(k) Reporting requirements. A TNC shall be responsible for the following reporting requirements:

(I) A TNC shall issue a notice of any safety or security incidents that involve providing services for students to or from a school, school-related activities, or school-sanctioned

activities. The notice shall be sent to the Commission, to each school or school district with which the TNC has entered into a contract, and to the parent or legal guardian of the involved student, as applicable. The notice shall be issued as soon as possible, but no later than one business day after the safety or security incident occurs.

(II) Prior to February 1 of each calendar year, a TNC shall report to the Commission any safety or security incidents that occurred during the previous calendar year. Such reports shall include, but are not limited to, the TNC's name; the TNC's permit number; the period being reported; the identity of the involved drivers; the dates of the incidents; the names of the applicable schools or school districts; the nature of the safety or security incidents; and any resulting disciplinary actions. The report shall also contain the signature, printed name, and title of the person completing the report; the printed name and title of an officer authorized to file the report; and an oath that the information is accurate. In addition to this report being submitted to the Commission, the report shall also be submitted to each school or school district with which the TNC has entered into a contract. This report is in addition to, not in lieu of, any other reporting requirements outlined in this rule.

(III) Prior to February 1 of each calendar year, a TNC shall report to the Commission information related to any driver background checks that occurred during the previous calendar year. Such reports shall include, but are not limited to, the TNC's name; the TNC's permit number; the period being reported; the identity of the involved drivers; the dates of the administered background checks; what type of background checks are being administered; the results of the administered background checks, including any disqualifications; and the operational status of the involved drivers. The report shall also contain the signature, printed name, and title of the person completing the report; the printed name and title of an officer authorized to file the report; and an oath that the information is accurate.

(I) Authority to inspect records. An enforcement official has the authority to interview personnel of a TNC, inspect TNC facilities, and inspect records, as it pertains to performing services provided under a contract with a school or school district, as follows:

(I) immediately for any records related to insurance or safety;

(II) within two days for any records related to a complaint or investigation; or

(III) within ten days for all other records.

(m) Higher standards. Nothing in these rules prohibits a school or school district from setting higher standards for transporting a student to or from a school, school-related activity, or school-sanctioned activity.

#### **6725. Violations, Civil Enforcement, and Enhancement of Civil Penalties.**

Civil penalty assessments are in addition to any other penalties provided by law.

TNCs are subject to §§ 40-7-112, C.R.S. and 40-7-113 through 40-7-116, for violations of Part 6 of Title 40, C.R.S., or these rules, and may be assessed civil penalties for any such violation.

(a) \$11,000 per violation.

- (I) Failure to obtain and keep in force liability insurance that conforms with the requirements of § 40-10.1-604.
- (b) \$10,000 per violation.
  - (I) Violation of paragraph 6723(a).
  - (II) Violation of paragraph 6723(b).
- (c) \$2,500 per violation.
  - (I) Violation of paragraph 6723(i) or (j).
  - (II) Violation of rule 6708.
  - (III) Violation of paragraph 6722(a), (c), (d), (e), or (f).
- (d) \$1,100 per violation.
  - (I) Violation of rule 6713.
  - (II) Violation of the periodic inspection requirements of rule 6714.
  - (III) Violation of rule 6702.
  - (IV) Violation of rule 6721.
  - (V) Violation of paragraph 6723(c), (d), (e), (g) or (l).
- (e) \$500 per violation up to \$10,000.
  - (I) Violation of rule 6710.
  - (II) Failure to return the completed DVCR as required by subparagraph 6718(c)(III).
  - (III) Violation of paragraph 6722(g).
- (f) \$275 per violation.
  - (I) Violation of rule 6712.
- (g) \$250 per violation.
  - (I) Violation of any rule not specified above.
- (h) Notwithstanding any provision in these rules to the contrary, the Commission may assess a civil penalty of two times the amount or three times the amount, as provided in § 40-7-113, C.R.S.
  - (I) The amounts in paragraphs (a) through (g) shall be two times the specified amount if:

- (A) the person engaged in prior conduct which resulted in the issuance of a prior civil penalty assessment notice;
  - (B) the conduct is of the same or narrower character as the conduct that was cited in the prior civil penalty assessment notice;
  - (C) the conduct occurred within one year after the date of violation in the prior civil penalty assessment notice; and
  - (D) the conduct occurred after the person's receipt of the prior civil penalty assessment notice.
- (II) The amounts in paragraphs (a) through (g) shall be three times the specified amount if:
- (A) the person engaged in two or more instances of prior conduct which resulted in the issuance of two or more prior civil penalty assessment notices;
  - (B) the conduct is of the same or narrower character as the conduct that was cited in the prior civil penalty assessment notices;
  - (C) the conduct occurred within one year after the two most recent prior instances of conduct cited in the prior civil penalty assessment notices; and
  - (D) the conduct occurred after the person's receipt of two or more prior civil penalty assessment notices.
- (i) The civil penalty assessment notice shall contain the maximum penalty amounts prescribed for the violation; the amount of the penalty surcharge pursuant to § 24-34-108(2); and a separate provision for a reduced penalty of 50 percent of the maximum penalty amount if paid within ten days after the civil penalty assessment notice is tendered.

**I. BY THE COMMISSION****A. Statement, Findings, and Conclusions**

1. The Colorado Public Utilities Commission (Commission) issues this Notice of Proposed Rulemaking (NOPR) to consider amendments to the Commission's Transportation Network Company (TNC) rules, 4 *Code of Colorado Regulations* (CCR) 723-6. The statutory authority for adoption of these rules is set forth in §§ 40-2-108 and 40-10.1-601 through 609, C.R.S., House Bill (HB) 22-1089, enacted May 17, 2022 and effective August 10, 2022, and Senate Bill (SB) 22-144, enacted and effective May 27, 2022.

2. The Commission issues this NOPR to review, examine, and consider revisions to its rules regarding TNCs, as it pertains to legislative and statutory changes incorporated by multiple bills passed by the Colorado Legislature during the 2022 session. The proposed amendments reflect the Commission's intent to amend and update TNC rules to make them congruent with the recent statutory changes and to expand upon certain minimum safety requirements and other criteria, pursuant to statutory directive. The rules adopted through this proceeding will supersede the temporary rules currently in effect to implement SB 22-144, adopted by the Commission through Decision No. C22-0552, issued September 19, 2022.

3. The proposed amendments to the TNC rules are available for review as Attachment A (redline) and Attachment B (clean) to this Decision, through the Commission's Electronic Filings website (Proceeding No. 22R-0402TR) at [https://www.dora.state.co.us/pls/efi/EFI.Show\\_Docket?p\\_session\\_id=&p\\_docket\\_id=22R-0402TR](https://www.dora.state.co.us/pls/efi/EFI.Show_Docket?p_session_id=&p_docket_id=22R-0402TR)

4. The Commission welcomes comments from interested rulemaking participants, regarding the amendments proposed in this NOPR. To the extent a participant disagrees with the

proposed amendments, they are encouraged to submit comments that include any suggested revisions to the rule language in legislative (*i.e.*, *strikeout*) format.

**B. Background**

5. On May 17, 2022, Governor Jared Polis signed House Bill 22-1089 (HB22-1089), Rideshares and Uninsured Motorist Insurance Coverage. This bill, in part, amended § 40-10.1-604, C.R.S., to require TNCs to secure insurance coverage against damage caused by uninsured motorists, in amounts of at least \$200,000 per person and \$400,000 per occurrence, to be in effect at all times the driver is engaged in a prearranged ride. The effective date of the statutory changes was August 10, 2022.

6. On May 27, 2022, Governor Jared Polis signed Senate Bill 22-144 (SB 22-144), Public and Nonprofit Entities Rideshare Contracts. SB 22-144 modified the statutory definition of “transportation network company services” to include services provided under a contract between a TNC and a political subdivision or other entity exempt from federal income tax under section 115 of the federal “Internal Revenue Code of 1986”, as amended<sup>1</sup>. In addition, the bill modified the identified areas of transportation not subject to Commission regulation in §§ 40-10.1-105(1)(b) and (j), C.R.S., to expressly exclude TNC services provided under a contract between a TNC and a school or school district and TNC services provided under a contract between a TNC and the federal government, a state, or any agency or political subdivision thereof.

7. SB 22-144 also added several new operational standards in §§ 40-10.1-605(1)(p), (q), and (r), C.R.S., that require a TNC providing subject student transportation to: (1) enter into a contract with the school or school district; (2) use a technology-enabled integrated solution that

---

<sup>1</sup> See amended § 40-10.1-602(6)(c), C.R.S.

provides end-to-end visibility into the ride for the TNC, the transported student's legal guardian, and the person that scheduled the ride; and (3) ensure each TNC driver receives training in several specialized areas. The bill also added a new operational requirement in § 40-10.1-605(10), C.R.S., that prohibits a TNC from using for these services a driver convicted of, or who pled guilty or *nolo contendere* to, an offense listed in § 22-32-109.8(6.5), C.R.S.

8. In addition, SB 22-144 implemented new reporting requirements for TNCs. The newly created § 40-10.1-609(1), C.R.S., requires TNCs to notify the Commission of any safety or security incidents that involve providing subject student transportation services. TNCs must also send the same notice to each school or school district with which it has contracted to provide subject services.

9. Finally, SB 22-144 enacted the following rulemaking requirements for the Commission: (1) § 40-10.1-605(1)(r), C.R.S., required the Commission to coordinate with the Colorado Department of Education (CDE) to promulgate, by September 1, 2022, Commission rules providing for approval of the TNC driver training required by SB 22-144; (2) § 40-10.1-608(3)(a), C.R.S., required the Commission to coordinate with CDE to promulgate, by September 1, 2022, Commission rules implementing minimum safety standards for TNCs, personal vehicles, and TNC drivers when engaging in services provided under a contract with a school or school district; and (3) § 40-10.1-609(2)(a), C.R.S., required the Commission to coordinate with CDE to promulgate, by September 1, 2022, Commission rules requiring a TNC to report information related to driver background checks, insurance coverage, and data reporting, consistent with the type of service provide, as it relates to service for students. The effective date of the statutory changes was May 27, 2022.

10. On August 17, 2022, the Commission adopted temporary TNC rules incorporating the statutory provisions outlined in SB 22-144<sup>2</sup>. Furthermore, the Commission coordinated with CDE to develop rules implementing driver training requirements, minimum safety standards, and reporting criteria, per statutory directive. The Commission indicated the temporary rules were to take effect on September 1, 2022. On August 26, 2022, a stakeholder TNC, HopSkipDrive, Inc. (HopSkipDrive), filed an application for rehearing, reargument, or reconsideration (RRR), requesting revision or elimination of certain provisions in the temporary rules. On September 19, 2022, the Commission issued a decision granting the RRR, in part, and denying the RRR, in part. Through Decision No. C22-0552, the Commission adopted revised temporary rules, to be effective for 210 days from the adoption date, April 17, 2023, or until superseded by the permanent rules to be adopted in this Proceeding.<sup>3</sup>

### **C. Discussion of Proposed Amendments to TNC Rules**

11. The proposed amendments to the TNC rules are shown in Attachment A (redline) and Attachment B (clean) to this Decision. These changes are described below, along with discussion of the statutory and policy reasons associated with the proposed amendments.

#### **1. TNC Rule 6701**

12. The proposed amendments add a new definition in TNC Rule 6701(i), defining “school” as a public school that enrolls students in grades kindergarten through twelfth. The proposed amendments also add a new definition in TNC Rule 6701(j), defining “student” as an individual enrolled in a school. These new definitions match the statutory definitions for these terms enacted in SB 22-144, codified at §§ 40-10.1-602(2.5) and (2.6), C.R.S. The remaining

---

<sup>2</sup> See Commission Decision No. C22-0486, Proceeding No. 22R-0359TR.

<sup>3</sup> See Commission Decision No. C22-0552, Proceeding No. 22R-0359TR.

definitions in TNC Rule 6701 have also been re-numbered, to accommodate these new definitions.

13. The proposed amendments modify the definition in existing TNC Rule 6701(l), re-numbered as TNC Rule 6701(n), for “transportation network company services” or “services” (TNC services). The modified definition implements the statutory changes enacted in SB 22-144 to the definition of TNC services in §§ 40-10.1-602(6)(b) and (c), C.R.S., and the areas of transportation not subject to Commission regulation identified in §§ 40-10.1-105(1)(b) and (j), C.R.S. The proposed amendment explicitly includes, in the definition of TNC services, any services provided under a contract between a TNC and a political subdivision or other entity exempt from federal income tax under § 115 of the federal “Internal Revenue Code of 1986”, as amended.

## **2. TNC Rule 6706**

14. The proposed amendments add a new TNC insurance form (Form U, Insurance Protection Against Uninsured Motorists) that is required to be obtained and kept in force at all times, which conforms with the requirements of § 40-10.1-604(2.5), C.R.S. The new rule implements the statutory changes enacted in HB22-1089 to required insurance coverages in § 40-10.1-604(2.5), C.R.S. The proposed amendments modify existing TNC Rule 6706(c). The remaining rules in TNC Rule 6706 have also been re-numbered, to accommodate this new rule.

## **3. TNC Rule 6724**

15. The proposed amendments modify existing TNC Rule 6724, which has been re-titled “Transportation for Remuneration from a School or School District.” This new rule implements the operational, training, and reporting requirements enacted in SB 22-144. The proposed amendments re-number existing TNC Rule 6725 to accommodate this new rule. Each

paragraph of this proposed rule is discussed below. These requirements apply to a TNC, personal vehicle, and TNC driver, when engaging in services provided under a contract with a school or school district and are in addition to all other applicable TNC rules, unless otherwise stated.

**a. Contracts**

16. Paragraph (a) requires a subject TNC to enter into a contract with the appropriate school or school district, which may include specific provisions for the safety of student passengers, as determined by the school or school district. This proposed rule implements § 40-10.1-605(1)(p), C.R.S.

**b. End-to-End Visibility**

17. Paragraph (b) requires a subject TNC to use a technology-enabled integrated solution that provides end-to-end visibility into the ride for the TNC, the student's legal guardian, and the person that scheduled the ride. The technology-enabled integrated solution must allow for Global Positioning System (GPS) monitoring of the ride in real time for safety-related anomalies. In addition, the technology-enabled integrated solution must be maintained and in good working order and any disruptions must be immediately reported to the school or school district and to the parent or legal guardian of the involved student, as applicable. This proposed rule implements § 40-10.1-605(1)(q), C.R.S.

**c. Training Requirements**

18. Paragraph (c) requires a subject TNC to ensure each driver providing subject TNC services receives training in mandatory reporting requirements, safe driving practices, first aid and Cardiopulmonary Resuscitation (CPR), education on special considerations for transporting students with disabilities, emergency preparedness, and safe pick-up and drop-off procedures.

Any training covering these topics must be approved by the Commission. The process for approval of this training is delegated to Transportation Staff, in consultation with CDE. The approval determinations of Transportation Staff are also subject to appeal. The rule allows that training covering these topics, as offered by schools or school districts, may meet this requirement. The rule also requires a TNC to maintain training records during the driver's period of service and six months thereafter, pay for the applicable training requirements, and the training must be completed before the driver starts performing subject services. This proposed rule implements § 40-10.1-605(1)(r), C.R.S., and was developed in coordination with CDE.

**d. Criminal History Record Checks**

19. Paragraph (d) specifies, if a driver fingerprint background check is required by contract with a school or school district, the criminal history record check must be completed pursuant to the existing procedures set forth in § 40-10.1-110, C.R.S., as supplemented by the Commission's rules, in accordance with § 40-10.1-605(3)(a)(I), C.R.S., or through the background check requirements under the Education Code, in accordance with § 22-32-122, C.R.S. The rule also specifies a TNC shall not use a driver for subject services if the driver has been convicted of, or pled *nolo contendere* to, an offense described in § 22-32-109.8(6.5), C.R.S. This proposed rule implements § 40-10.1-605(10), C.R.S.

**e. Medical Fitness**

20. Paragraph (e) prohibits a TNC from permitting a person to act as a driver for subject services unless the driver has been medically examined and certified under the provisions of 49 C.F.R. 391.41. The rule requires a driver and the TNC to maintain records of the medical certification and produce them to an enforcement official, upon request. The rule may also substitute the specific provisions of any other TNC rules that reference a TNC driver's physical

and mental fitness. This proposed rule, developed in coordination with CDE, implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard for TNC drivers providing student transportation under contract with a school or school district.

21. The purpose of this rule is to ensure the medical fitness of TNC drivers who will be transporting students. We have concern that, without this heightened requirement, all that would be required is a “self-certification” by a driver through the TNC’s app, meaning no formalized medical certification process is required.<sup>4</sup> We note the temporary rule, to streamline this process, allows for qualification under U.S. Department of Transportation (USDOT) standards.<sup>5</sup> Further, we note this is a medical certification standard that has been accepted as necessary by the Commission for many years, including in its current iteration under Rule 6109(a), 4 CCR 723-6, which applies to other types of passenger transportation providers. We conclude that the minimal burden of TNC drivers having to pass this formal health screening, in order to provide subject student transportation service, is far outweighed by the public interest benefit of ensuring that TNC drivers who will be transporting students are demonstrably capable of doing so safely. We solicit comment from rulemaking participants on this rule and how to best effect this purpose.

#### **f. Vehicle Inspections**

22. Paragraph (f) prohibits a TNC from permitting the use of a personal vehicle used to perform subject services unless the individual performing the inspection is an Automotive Service Excellence (ASE) certified mechanic, employed by a company authorized to do business in Colorado. The rule also requires that any applicable devices used to facilitate the loading,

---

<sup>4</sup> See § 40-10.1-605(1)(d), C.R.S.

<sup>5</sup> See 49 C.F.R. 391.41.

unloading, or transportation of individuals with disabilities must be in good working order. This proposed rule, developed in coordination with CDE, implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard for personal vehicles used to provide student transportation under a TNC contract with a school or school district.

23. The purpose of this rule is to confirm that a meaningful inspection is performed by a qualified mechanic, verifying the subject vehicle is in good and safe working condition. Without this enhanced standard to ensure the reliability of the inspection, an inspection could be performed by either a certified mechanic or a person capable of performing the inspection by reason of experience, training, or both.<sup>6</sup> We have concern that this fairly broad criteria does not adequately ensure that a meaningful inspection is performed by a mechanic capable of identifying underlying hazards. Further, we note ASE certification is already required for the inspection of other passenger transportation providers,<sup>7</sup> whose primary business model does not include the transportation of minor students. We solicit comment from rulemaking participants on this rule and how to best effect this purpose.

**g. Daily Vehicle Inspection Report**

24. Paragraph (g) requires a TNC to require a driver, when performing subject services, to prepare a Daily Vehicle Inspection Report (DVIR), in writing, prior to each day's work. The rule requires the DVIR to capture numerous safety-related items, including vehicle brakes, lights, and tires. The rule requires repair of any defects or deficiencies noted in the DVIR before the vehicle may be used to provide subject services. The rule requires the TNC to maintain a DVIR record for three months after the date the DVIR was prepared. This proposed

---

<sup>6</sup> See Rule 6715(a), 4 CCR 723-6.

<sup>7</sup> See Rule 6103, 4 CCR 723-6.

rule, developed in coordination with CDE, implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard for personal vehicles used to provide student transportation under a TNC contract with a school or school district.

25. The purpose of this rule to require a minimum visual inspection of a personal vehicle before it is put to use transporting students each day. We believe the burden of a TNC driver having to perform this basic walkaround inspection each day is far outweighed by the public interest benefit of ensuring that any potential hazards are identified before the vehicle is put to use transporting students. Through this basic walkaround inspection, a TNC driver who will provide subject student transportation service that day can identify previously unnoticed issues with the vehicle's tires, lights, safety belts, and other basic mechanics of the vehicle—and thereby mitigate the risk of accidents or other safety-related incidents. We find this especially warranted since the vehicles are, by definition, personal vehicles that could have been used for non-TNC service transportation during off-duty hours, subjecting the vehicle to additional wear-and-tear and unexpected damage. We solicit comment from rulemaking participants on this rule and how to best effect this purpose.

#### **h. Emergency Procedures**

26. Paragraph (h) requires a TNC to have and enforce emergency procedures, to be followed in the event of a safety or security incident that involves subject services. This proposed rule implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard determined necessary by the Commission and was developed in coordination with CDE.

#### **i. Safety Restraints**

27. Paragraph (i) requires a TNC to have and enforce a policy that requires a driver to follow all Colorado laws regarding the proper use of safety belt systems and child restraint

systems, when performing subject services. This proposed rule implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard determined necessary by the Commission and was developed in coordination with CDE.

**j. Unauthorized Passengers**

28. Paragraph (j) requires a TNC to have and enforce a policy that prohibits drivers from transporting unauthorized passengers, when performing subject services. This proposed rule implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard determined necessary by the Commission and was developed in coordination with CDE.

**k. Reporting Requirements**

29. Paragraph (k) establishes reporting requirements for TNCs, as it pertains to subject services. The rule requires a TNC to provide notice of any safety or security incidents to the Commission, each contracted school or school district, and the parent or legal guardian of the involved student. The rule requires a TNC to report to the Commission, by February 1 each year, any safety or security incidents that occurred during the previous calendar year and information related to any driver background checks that occurred during the previous calendar year. This proposed rule implements §§ 40-10.1-609(1) and (2), C.R.S., and was developed in coordination with CDE.

**l. Authority to Inspect Records**

30. Paragraph (l) specifies that an enforcement official has the authority to interview personnel of a TNC, inspect TNC facilities, and inspect records, as it pertains to subject services, and specifies applicable timelines for producing requested records. This proposed rule implements § 40-10.1-608(3)(a), C.R.S., as a minimum safety standard determined necessary by the Commission and was developed in coordination with CDE.

**m. Higher Standards**

31. Paragraph (m) provides that nothing in the Commission’s rules prohibits a school or school district from setting higher standards for TNCs performing subject services. This proposed rule implements § 40-10.1-605(1)(p), C.R.S.

**4. TNC Rule 6725**

32. Existing TNC Rule 6724 is re-numbered to TNC Rule 6725, to accommodate for the newly created TNC Rule 6724.

**D. Questions for Stakeholders**

33. Given the nature of some of the proposed minimum safety standards, as well as the legislative mandate for the Commission to adopt rules regulating the expanded operations of TNCs, as it pertains to school-related transportation, the Commission solicits additional information and comments from stakeholders. Interested persons are encouraged to submit written comments and participate in the rulemaking hearing convened in this matter.

34. As applicable to proposed TNC Rule 6724(d) (Criminal History Record Checks), the Commission specifically requests that stakeholders provide information and comments on which options are most appropriate to conduct TNC driver background checks, including whether or not the Volunteer Employee Criminal History Services (VECHS) program, as offered by HopSkipDrive, would satisfy the safety concerns related to student transportation.

35. As applicable to proposed TNC Rule 6724(k) (Reporting Requirements), the Commission specifically requests that stakeholders provide information and comments on what might constitute “safety or security incidents”, pursuant to § 40-10.1-609(1), C.R.S.

**E. Conclusion**

36. Through this NOPR, the Commission solicits comments from interested persons and stakeholders on whether to adopt, revise, or not adopt, some or all of the proposed amendments to the TNC rules, as set forth in the attachments to this Decision and discussed above. The Commission encourages members of the transportation industry and other interested persons to participate in this Proceeding and to contribute to the rulemaking record, on which the Commission will base its decision on whether to adopt rule amendments.

37. Given the requirement in SB 22-144 for the Commission to coordinate with CDE in promulgating implementing rules, the Commission requests that CDE participate in the rulemaking and continue to provide its subject matter expertise as we consider rules applicable to TNC student transportation within the scope of SB 22-144.

38. The Commission refers this matter to an Administrative Law Judge (ALJ) for the issuance of a recommended decision. The ALJ will hold a hearing on the proposed rules at the below-stated time and place. In addition to submitting written comments, participants will have an opportunity to present comments orally at the hearing, unless the ALJ deems oral presentations unnecessary. The Commission will consider all comments submitted in this Proceeding, whether oral or written.

**II. ORDER****A. The Commission Orders That:**

1. This Notice of Proposed Rulemaking, including attachments, shall be filed with the Colorado Secretary of State for publication in the October 10, 2022 edition of The Colorado Register.

2. The Commission invites comments from interested persons on the proposed amendments to the Commission's Rules Regulating Transportation Network Companies, 4 Code of Colorado Regulations (CCR) 723-6, as described in this Decision and its attachments. The Commission prefers and encourages interested persons to file comments through the Commission's Electronic Filings website (Proceeding No. 22R-0402TR) at: [https://www.dora.state.co.us/pls/efi/EFI.Show\\_Docket?p\\_session\\_id=&p\\_docket\\_id=22R-0402TR](https://www.dora.state.co.us/pls/efi/EFI.Show_Docket?p_session_id=&p_docket_id=22R-0402TR)

3. This matter is referred to an Administrative Law Judge (ALJ) for the issuance of a recommended decision.

4. The rulemaking hearing on the proposed rules and related matters shall be held before an ALJ, as follows:

DATE:	November 10, 2022
TIME:	9:00 a.m. until not later than 5:00 p.m.
PLACE	By video conference using Zoom at a link in the calendar of events on the Commission's website, available at: <a href="https://puc.colorado.gov/">https://puc.colorado.gov/</a>

5. The ALJ will set procedures for a remote hearing, if necessary, by a separate decision issued in this Proceeding.

6. The ALJ may set additional hearings, if necessary.

7. Written comments may be filed at any time in this Proceeding. Initial written comments are requested to be filed no later than October 13, 2022, and any comments responsive to the initial comments are requested to be filed no later than October 27, 2022, so that the initial comments and responsive comments may be considered at the hearing.

8. At the time set for hearing, interested persons may submit written comments and may present these orally, unless the ALJ deems oral comments unnecessary. The Commission will consider all comments, whether written or oral.

9. This Decision is effective on its Mailed Date.

**B. ADOPTED IN COMMISSIONERS' WEEKLY MEETING  
September 21, 2022.**

BOARD OF REAL ESTATE APPRAISERS  
4 CCR 725-2**

**RULES GOVERNING THE PRACTICE OF REAL ESTATE APPRAISERS OF THE BOARD OF REAL ESTATE  
APPRAISERS**

**NOTICE OF PROPOSED PERMANENT RULEMAKING HEARING  
November 3, 2022, at 9:00 AM MST**

**Division of Real Estate Office  
1560 Broadway  
Denver, CO 80202**

**VIRTUAL MEETING REGISTRATION LINK:**

[https://us06web.zoom.us/webinar/register/WN\\_HliFDVwLTBe1R7Z5riJbSw](https://us06web.zoom.us/webinar/register/WN_HliFDVwLTBe1R7Z5riJbSw)

Pursuant to and in compliance with Title 12, Article 10 and Title 24, Article 4, C.R.S., as amended, notice of proposed rulemaking is hereby given, including notice to the Attorney General of the State of Colorado and to all persons who have requested to be advised of the intention of the Colorado Board of Real Estate Appraisers ("Board") to promulgate rules, to amend, repeal, or repeal and re-enact the existing rules of the Board.

The hearing will be conducted in a virtual setting. All interested parties are urged to attend this public hearing by registering for the webinar on the Division's website at [www.dre.colorado.gov](http://www.dre.colorado.gov) and to submit written comments concerning the proposed amended rules in advance if possible, for consideration.

To facilitate the review of comments by the Board, all interested parties are strongly encouraged to submit their written comments to Eric Turner via email at [eric.turner@state.co.us](mailto:eric.turner@state.co.us) on or before 5:00 p.m. on October 24, 2022. Any written comments not received by October 24, 2022, may be submitted via public testimony at the hearing on November 3, 2022.

**STATEMENT OF BASIS**

The statutory basis for the rules titled Rules of the Colorado Board of Real Estate Appraisers is Part 6 of Title 12, Article 10, Colorado Revised Statutes, as amended. The specific authority under which the Board shall establish these rules is set forth in section 12-10-604(1)(a)(I), C.R.S.

**STATEMENT OF PURPOSE**

The purpose of this rule is to effectuate the legislative directive to promulgate necessary and appropriate rules in conformity with the statute and the provisions of the federal Financial Institutions Reform, Recovery and Enforcement Act of 1989 as amended.

### SPECIFIC PURPOSE OF RULEMAKING

The specific purpose of this rulemaking is to amend a rule with respect to a new statutory provision found in House Bill 22-1261 (Sunset Board Of Real Estate Appraisers). The rulemaking adopts the Uniformed Standards of Professional Appraisal Practice (USPAP) as defined in statute into the Board rules pursuant to section 12-10-613(1)(g), C.R.S.

### PROPOSED NEW AND AMENDED RULES

Deleted material shown ~~struck through~~; new material is indicated by underline. Rules, or portions of rules, which are unaffected are reproduced. Readers are advised to obtain a copy of the complete rules of the Commission at [www.dre.colorado.gov](http://www.dre.colorado.gov).

#### Proposed New and Amended Rules

#### CHAPTER 11: STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE

11.1 The current edition of ~~the USPAP will be in effect pursuant to as defined in section~~ 12-10-602(10), C.R.S. is adopted by the board pursuant to section 12-10-613(1)(g), C.R.S.

A hearing is scheduled for Thursday, November 3, 2022, at 9 a.m. and will only be conducted via Zoom Webinar. All interested and affected parties must register to attend the hearing through the link provided below.

[https://us06web.zoom.us/webinar/register/WN\\_HliFDVwLTBe1R7Z5riJbSw](https://us06web.zoom.us/webinar/register/WN_HliFDVwLTBe1R7Z5riJbSw)

Any interested and affected persons may participate in the rulemaking through submission of written data, views and arguments to the Division of Real Estate. Persons are requested to submit data, views and arguments to the Division of Real Estate in writing no less than ten (10) days prior to the hearing date and time set forth above. However, all data, views and arguments submitted prior to or at the rulemaking hearing or prior to the closure of the rulemaking record (if different from the date and time of hearing), shall be considered.

Please be advised that the rule being considered is subject to further changes and modifications after public comment and formal hearing.

## DEPARTMENT OF REGULATORY AGENCIES

### State Board of Licensed Professional Counselor Examiners

#### LICENSED PROFESSIONAL COUNSELOR EXAMINERS RULES AND REGULATIONS

##### 4 CCR 737-1

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

...

##### 1.12 OCCUPATIONAL CREDENTIAL PORTABILITY PROGRAM (C.R.S. § 12-245-207, 12-20-202(3))

- A. General. To be considered for licensure by endorsement pursuant to the Occupational Credential Portability Program pursuant to sections 12-20-202(3) and 12-245-207, C.R.S., an applicant must submit a completed application form, all supporting documentation, and the appropriate fee.
- B. Complaints/inquiries, investigations, disciplinary actions. The Board may decline to issue a license to an applicant for licensure by endorsement pursuant to the Occupational Credential Portability Program if ~~approving the license would violate an existing compact or reciprocity agreement or if~~ the Board demonstrates by a preponderance of evidence, after notice and opportunity for a hearing, that the applicant:
  - 1. Lacks the requisite substantially equivalent education, experience, or credentials to practice professional counseling; or
  - 2. Has committed an act that would be grounds for disciplinary action under the law governing the practice of professional counseling.
- C. Criteria. In accordance with section 12-20-202(3), C.R.S., an applicant who possesses a current and unrestricted license, in good standing, to practice professional counseling in another state or United States territory or through the federal government, or who holds a military occupational specialty, as defined in section 24-4-201, C.R.S., may apply to the Board for licensure by endorsement pursuant to the Occupational Credential Portability Program. To apply for endorsement, the applicant must satisfy the following criteria:
  - 1. Applicant submits to the Board:
    - a. Satisfactory proof that:
      - (1) Applicant holds a master's or doctoral degree in professional counseling from an accredited program or holds a master's or doctoral degree from a program that was equivalent to an accredited program in professional counseling as provided under Rule 1.14;
      - (2) At the time of application for a Colorado license by endorsement, the applicant attests to having passed an examination, the content of which tested competence to practice professional counseling, including special knowledge and skills in psychotherapy; and

- (3) Applicant attests that s/he had at least two years of post- master's or one year of post-doctoral practice in psychotherapy or professional counseling under supervision prior to licensure, certification, listing or registration in the jurisdiction through which the applicant seeks licensure in Colorado and that that post-degree experience hours obtained for licensure in another jurisdiction has substantially similar requirements to what is outlined in Board Rule 1.14 Licensure by Examination; or the applicant attests to the Board her/his active practice of professional counseling for two years (as defined below), OR
  - b. Satisfactory proof that the applicant has held for at least one year a current and unrestricted license, in good standing, to practice professional counseling in another jurisdiction with a scope of practice that is substantially similar to the scope of practice for licensed professional counselors pursuant to Part 6 of the Mental Health Practice Act.
- 2. Applicant must attest that they:
  - a. Have reported to the Board any injunction entered against her/him and any injunctive action pending against her/him on any license.
  - b. Have reported any malpractice judgment, settlement, or claim, and any pending action or claim.
  - c. Have reported any pending complaint, investigation, or disciplinary proceeding before the licensing, grievance, or disciplinary Board of any jurisdiction in which a license, registration or certification to practice professional counseling is held and where the complaint, investigation, or proceeding concerns the practice of professional counseling.
  - d. Have reported any applicable misdemeanor or felony conviction(s).
  - e. Have reported to the Board any prior disciplinary action by another jurisdiction.
- 3. Applicant submits verification of licensure from each jurisdiction(s) in which, and each federal agency or military branch through which, applicant has ever been licensed, registered, listed or certified to practice professional counseling. The verification can be retrieved by the applicant from the jurisdiction's or federal government agency's website as long as the following information is included and can be verified if necessary:
  - a. Date license was originally issued.
  - b. Date of license expiration.
  - c. Disciplinary history, if applicable.

If the complete information is not available, then the Verification of License Form must be completed by each state and federal agency or military branch, as applicable.
- 4. Applicant submits proof that he/she is at least twenty-one years of age.
- 5. As used in this Rule, "Active practice of professional counseling" means the applicant has engaged in the practice of professional counseling at least twenty hours per week, averaged over the entire time s/he has been in practice, with no more than a six-month absence from the practice of professional counseling. If the applicant has taught

professional counseling, the applicant may count the hours spent teaching professional counseling (including time spent in preparation, in meeting with students, and in related activities) as hours of active practice of professional counseling provided such teaching was in courses in the same or similar field of professional counseling as the competence area claimed by the applicant; teaching of professional counseling shall not count more than one-third of the number of active practice hours claimed by applicant.

In accordance with section 12-20-202(3)(d), C.R.S., the Board has established the following criteria for determining whether an applicant possesses experience and credentials that are substantially equivalent to section 12-245-604, C.R.S. An applicant who possesses a current and unrestricted license, in good standing, to practice professional counseling under the laws of another state or United States territory may apply for licensure by endorsement.

All of the following factors must be attested to at the time of application for Colorado licensure by endorsement in order for the applicant to establish that her/his experience and credentials are substantially equivalent to the requirements of section 12-245-604, C.R.S.

1. Applicant is at least twenty-one years of age;
2. Applicant must attest that they:
  - a. Have reported to the Board any injunction entered against her/him and any injunctive action pending against her/him on any license.
  - b. Have reported any malpractice judgment, settlement, or claim, and any pending action or claim.
  - c. Have reported any pending complaint, investigation, or disciplinary proceeding before the licensing, grievance, or disciplinary Board of any jurisdiction in which a license, registration or certification to practice professional counseling is held and where the complaint, investigation, or proceeding concerns the practice of professional counseling.
  - d. Have reported any applicable misdemeanor or felony conviction(s).
  - e. Have reported to the Board any prior disciplinary action by another jurisdiction.
3. Submit verification of licensure from each jurisdiction(s) in which applicant has ever been licensed, registered, listed or certified. The verification can be retrieved by the applicant from the jurisdiction's website as long as the following information is included and can be verified if necessary:
  - a. Date license was originally issued.
  - b. Date of license expiration.
  - c. Disciplinary history, if applicable.

If the complete information is not available then the Verification of License Form must be completed by each state

4. Applicant holds a master's or doctoral degree in professional counseling from an accredited program or holds a master's or doctoral degree from a program that was equivalent to an accredited program in professional counseling as provided under Rule 1.14.

5. ~~At the time of application for a Colorado license by endorsement, the applicant attests to having passed an examination, the content of which tested competence to practice professional counseling, including special knowledge and skills in psychotherapy.~~
6. ~~Except as provided below, applicant attests that s/he had at least two years of post-master's or one year of post-doctoral practice in psychotherapy or professional counseling under supervision prior to licensure, certification, listing or registration in the jurisdiction through which the applicant seeks licensure in Colorado; or the applicant attests to the Board her/his active practice of professional counseling for two years (as defined below).~~
  - a. ~~"Active practice of professional counseling" means the applicant has engaged in the practice of professional counseling at least twenty hours per week, averaged over the entire time s/he has been in practice, with no more than a six month absence from the practice of professional counseling. If the applicant has taught professional counseling, the applicant may count the hours spent teaching professional counseling (including time spent in preparation, in meeting with students, and in related activities) as hours of active practice of professional counseling provided such teaching was in courses in the same or similar field of professional counseling as the competence area claimed by the applicant; teaching of professional counseling shall not count more than one third of the number of active practice hours claimed by applicant.~~
7. ~~Applicant attests that post-degree experience hours obtained for licensure in another jurisdiction has substantially similar requirements to what is outlined in Board Rule 1.14 Licensure by Examination. The Board may consider a combination of post-degree hours and practice experience on a case-by-case basis.~~
- D. Jurisprudence Examination. Each applicant shall pass a Board developed jurisprudence examination.

...

#### 1.24 PROVISION OF REPRODUCTIVE HEALTH CARE IN COLORADO

This Rule is promulgated pursuant to Executive Order D 2022 032, and sections 25-6-401, et seq., 12-245-204(4)(a), and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
2. "Assisting in the provision reproductive health care" means aiding, abetting or complicity in the provision of reproductive health care.
3. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
4. "Criminal judgment" means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
5. "Licensee" means as defined in section 12-20-102(10), C.R.S.
6. "Provision of reproductive health care," includes but is not limited to, transportation for reproductive health care, referrals for reproductive health care and related services, funding or assisting with payment of reproductive health care, prescribing, shipping or dispensing medications for reproductive health care in accordance with state and federal law, all options and mental health counseling and treatment related to reproductive health

care. The “provision of reproductive health care” also includes all treatment contemplated in the definition of section 25-6-402(4), C.R.S.

7. “Regulator” means as defined in section 12-20-102(14), C.R.S.

8. “Reproductive health care” means as defined in section 25-6-402(4), C.R.S.

9. “Registrant” means as defined in section 12-20-102(12), C.R.S.

B. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's license or registration based solely on the applicant's, registrant's, or licensee's provision of or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice as defined in Colorado law and did not otherwise violate Colorado law.

C. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's license or registration based solely on a civil or criminal judgment against the applicant, registrant, or licensee arising from the provision of, or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.

D. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's license or registration based solely on a professional disciplinary action or any other sanction against the applicant's, registrant's, or licensee's professional licensure or registration in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant's, registrant's, or licensee's provision of, or assistance in the provision of, reproductive health care and the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.

E. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's registration, certificate or license based solely on the licensee's or registrant's own personal effort to seek or obtain reproductive health care for themselves. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's license or registration based solely on a civil or criminal judgment against the applicant, registrant, or licensee arising from the individual's own personal receipt of reproductive health care in this state or any other state or U.S. territory.

#### **1.25 PROTECTING COLORADO'S WORKFORCE AND EXPANDING LICENSING OPPORTUNITIES**

This Rule is promulgated pursuant to Executive Order D 2022 034, and sections 12-245-204(4)(a) and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. “Applicant” means as defined in section 12-20-102(2), C.R.S.

2. “Civil judgment” means a final court decision and order resulting from a civil lawsuit.

3. “Criminal judgment” means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.

4. “Licensee” means as defined in section 12-20-102(10), C.R.S.

5. "Regulator" means as defined in section 12-20-102(14), C.R.S.

6. "Registrant" means as defined in section 12-20-102(12), C.R.S.

B. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's license or registration based solely on a civil or criminal judgment against the applicant, registrant, or licensee regarding the consumption, possession, cultivation, or processing of marijuana so long as the actions are lawful and consistent with professional conduct and standards of care within Colorado and did not otherwise violate Colorado law.

C. The regulator shall not deny licensure or registration to an applicant or impose disciplinary action against an individual's license or registration based solely on a professional disciplinary action against the applicant's, registrant's, or licensee's professional licensure or registration in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant's, registrant's, or licensee's consumption, possession, cultivation, or processing of marijuana and did not otherwise violate Colorado law.

**1.26 CONCERNING HEALTH CARE PROVIDER DISCLOSURES TO CONSUMERS ABOUT THE POTENTIAL EFFECTS OF RECEIVING EMERGENCY OR NONEMERGENCY SERVICES FROM AN OUT-OF-NETWORK PROVIDER**

This Rule is promulgated pursuant to the rulemaking authority in sections 12-20-204, 12-30-112, and 12-245-204(4)(a), C.R.S., in consultation with the Commissioner of Insurance and the State Board of Health.

The purpose of this Rule is to establish requirements for health care providers to provide disclosures to consumers about the potential effects of receiving emergency or non-emergency services from an out-of-network provider.

This Rule applies to health care providers as defined in section 10-16-102(56), C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Publicly available" means, for the purposes of this regulation, searchable on the health care provider's public website, displayed in a manner that is easily accessible, without barriers, and that ensures that the information is accessible to the general public, including that it is findable through public search engines. The health care provider's public website must be accessible free of charge, without having to establish a user account, password, or other credentials, accept any terms or conditions, and without having to submit any personal identifying information.

B. Disclosure requirements.

1. An out of network provider may balance bill a covered person for post-stabilization services in accordance with section 10-16-704, C.R.S., and covered nonemergency services in an in-network facility that are not ancillary services if the provider meets the requirements set forth in section 12-30-112(3.5), C.R.S. If a consumer has incurred a claim for emergency or nonemergency health care services from an out-of-network provider, the health care provider shall provide the disclosures contained in Appendix B. The health care provider shall provide the disclosure contained in Appendix B in compliance with section 12-30-112(3.5), C.R.S.

C. Noncompliance with this Rule may result in the imposition of any of discipline made available by section 12-245-224(1)(b), C.R.S.

...

APPENDIX B

**Your Rights and Protections Against Surprise Medical Bills**

When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

**What is “balance billing” (sometimes called “surprise billing”)?**

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, like a copayment, coinsurance, or deductible. You may have additional costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

“Out-of-network” means providers and facilities that haven't signed a contract with your health plan to provide services. Out-of-network providers may be allowed to bill you for the difference between what your plan pays and the full amount charged for a service. This is called “balance billing.” This amount is likely more than in-network costs for the same service and might not count toward your plan's deductible or annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider. Surprise medical bills could cost thousands of dollars depending on the procedure or service.

**You're protected from balance billing for:**

**Emergency services**

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most they can bill you is your plan's in-network cost-sharing amount (such as copayments, coinsurance, and deductibles). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

**If you believe you've been wrongly billed by a healthcare provider,** please contact the State Board of Licensed Professional Counselor Examiners at [dora\\_mentalhealthboard@state.co.us](mailto:dora_mentalhealthboard@state.co.us) or at 303-894-7800.

Visit the CMS No Surprises Act website (<https://www.cms.gov/nosurprises/consumers>) for more information about your rights under federal law.

Visit section 12-30-112, C.R.S., for more information about your rights under state law.

**Certain services at an in-network hospital or ambulatory surgical center**

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers can bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers **can't** balance bill you and may **not** ask you to give up your protections not to be balance billed.

If you get other types of services at these in-network facilities, out-of-network providers can't balance bill you, unless you give written consent and give up your protections.

**You're never required to give up your protections from balance billing. You also aren't required to get out-of-network care. You can choose a provider or facility in your plan's network.**

**When balance billing isn't allowed, you also have these protections:**

- You're only responsible for paying your share of the cost (like the copayments, coinsurance, and deductible that you would pay if the provider or facility was in-network). Your health plan will pay any additional costs to out-of-network providers and facilities directly.
- Generally, your health plan must:
  - o Cover emergency services without requiring you to get approval for services in advance (also known as "prior authorization").
  - o Cover emergency services by out-of-network providers.
  - o Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
  - o Count any amount you pay for emergency services or out-of-network services toward your in-network deductible and out-of-pocket limit.

**If you believe you've been wrongly billed by a healthcare provider,** please contact the State Board of Licensed Professional Counselor Examiners at [dora\\_mentalhealthboard@state.co.us](mailto:dora_mentalhealthboard@state.co.us) or at 303-894-7800.

COLORADO PRIVACY ACT RULES

## Rulemaking Hearing

**Date**

02/01/2023

**Time**

10:00 AM

**Location**

Office of The Attorney General, Colorado Department of Law, Ralph L. Carr Judicial Building, 1300 Broadway, Room 1D  
Denver, CO 80203, and via Zoom

**Subjects and issues involved**

The Colorado Department of Law (the Department) is considering rules governing the implementation of the CPA. The specific purpose of this rulemaking is to create rules governing the ways in which the CPA shall be carried out, including the clarification of Consumer Data Rights, Controller Obligations, and technical specifications for one or more Universal Opt-Out Mechanisms.

## COLORADO DEPARTMENT OF LAW

### Consumer Protection Section

#### Colorado Privacy Act Rules

#### 4 CCR-904-3

### PART 1 GENERAL APPLICABILITY

#### Rule 1.01 AUTHORITY

The statutory authority for this Part 904-3 is sections C.R.S. §§ 6-1-108(1) and 6-1-1313.

#### Rule 1.03 SEVERABILITY

If any provision of these Colorado Privacy Act Rules, 4 CCR 904-3, is found to be invalid by a court of competent jurisdiction, the remaining provisions of the Rules shall remain in full force and effect.

### PART 2 DEFINITIONS

#### Rule 2.01 AUTHORITY AND PURPOSE

The statutory authority for the rules in this Part 2 is C.R.S. §§ 6-1-108(1), 6-1-1303, and 6-1-1313. The purpose of these rules is to define certain undefined terms that are used throughout the Colorado Privacy Act, C.R.S. § 6-1-1301, *et seq.*, and these Colorado Privacy Act Rules, 4 CCR 904-3, including but not limited to certain undefined terms that are used in the definitions set forth in C.R.S. § 6-1-1303. The terms defined by this rule and C.R.S. § 6-1-1303 are capitalized where they appear in the rules to let the reader know to refer back to the definitions. When a term is used in a conventional sense, and is not intended to be a defined term, it is not capitalized.

#### Rule 2.02 DEFINED TERMS

The following definitions of terms, in addition to those set forth in C.R.S. § 6-1-1303, apply to these Colorado Privacy Act Rules, 4 CCR 904-3, promulgated pursuant to the Colorado Privacy Act, unless the context requires otherwise:

**"Authorized Agent"** as referred to in C.R.S. § 6-1-1306(1)(a)(II) means a person or entity authorized by the Consumer to act on the Consumer's behalf.

**"Automated Processing"** as referred to in CRS § 6-1-1303(20) means the Processing of Personal Data that is automated through the use of computers, computer programs or software, or other digital technology.

**"Biometric Data"** as referred to in C.R.S. § 6-1-1303(24)(b) means Biometric Identifiers that are used or intended to be used, singly or in combination with each other or with other Personal Data, for identification purposes. Unless such data is used for identification purposes, "Biometric Data" does not include (a) a digital or physical photograph, (b) an audio or voice recording, or (c) any data generated from a digital or physical photograph or an audio or video recording.

**"Biometric Identifiers"** means data generated by the technological processing, measurement, or analysis of an individual's biological, physical, or behavioral characteristics, including but not limited to a fingerprint, a voiceprint, eye retinas, irises, facial mapping, facial geometry, facial templates, or other unique biological, physical, or behavioral patterns or characteristics.

**“Bona Fide Loyalty Program”** as referred to in C.R.S. § 1-6-1308(1)(d) is defined as a loyalty, rewards, premium feature, discount, or club card program established for the genuine purpose of providing discounts, rewards, or other actual value to Consumers that voluntarily participate in that program.

**“Bona Fide Loyalty Program Benefit”** is defined as an offer of superior price, rate, level, quality, or selection of goods or services provided to a Consumer through a Bona Fide Loyalty Program.

**“Data Broker”** is defined as a Controller that knowingly collects and sells to Third Parties the Personal Data of a Consumer with whom the Controller does not have a direct relationship.

**“Data Right”** or **“Data Rights”** means the Consumer Personal Data rights granted in C.R.S. § 6-1-1306(1).

**“Disability”** or **“Disabilities”** has the same meaning as set forth in C.R.S. § 24-85-102(2.3).

**“Human Involved Automated Processing”** means the Automated Processing of Personal Data where human involvement in the Processing includes meaningful consideration of available data used in the Processing as well as the authority to change or influence the outcome of the Processing.

**“Human Reviewed Automated Processing”** means the Automated Processing of Personal Data where a human reviews the Processing but the level of human review does not rise to the level required for Human Involved Automated Processing. Reviewing the output of the Automated Processing with no meaningful consideration does not rise to the level of Human Involved Automated Processing.

**“Information that a Controller has a reasonable basis to believe the Consumer has lawfully made available to the general public”** as referred to in C.R.S. § 6-1-1303(17)(b) means the type of information known to be available to the general public, information that a Consumer has intentionally made available to the general public, or information that a Consumer has made available under federal or state law, including but not limited to:

1. Personal Data found in a telephone book, a television or radio program, or a national or local news publication;
2. Personal Data that has been intentionally made available by the Consumer through a website or online service where the Consumer has not restricted the information to a specific audience;
3. A visual observation of an individual’s physical presence in a public place by another person, not including data collected by a device in the individual’s possession; and
4. A disclosure that has been made to the general public as required by federal, state, or local law.

**“Intimate Image”** means any visual depiction, photograph, film, video, recording, picture, or computer or computer-generated image or picture, whether made or produced by electronic, mechanical, or other means, that depicts an identified or identifiable person’s private parts, or a person engaged in a private act, in circumstances in which a reasonable person would reasonably expect to be afforded privacy. For purposes of this defined term, the term “private parts” includes:

1. Exposed human genitals or pubic area, with less than an opaque covering;
2. A female breast or any portion of the female breast below the top of the areola, with less than an opaque covering;

3. A part of the body that, if revealed publicly, the subject would find sensitive or offensive based on their religious beliefs.

**"Opt-Out Purpose" or "Opt-Out Purposes"** means the categories of data Processing from which the Consumer may opt out pursuant to C.R.S. § 6-1-1306(1)(a).

**"Publicly Available Information"** as referred to in C.R.S. § 6-1-1303(17) does not include:

1. Any Personal Data obtained or processed in violation of C.R.S. §§ 18-7-107 or 18-7-801.
2. Inferences made exclusively from multiple independent sources of publicly available information;
3. Biometric Data;
4. Genetic Information;
5. Publicly Available Information that has been combined with non-publicly available Personal Data; or
6. Nonconsensual Intimate Images known to the Controller.

**"Revealing"** as referred to in C.R.S. § 6-1-1303(24)(a) includes Sensitive Data Inferences. For example:

1. While geolocation information at a high level may not be considered Sensitive Data, geolocation data which shows an individual visited a mosque and is used to indicate that individual's religious beliefs is considered Sensitive Data under C.R.S. § 6-1-1303(24)(a). Similarly, geolocation data which shows an individual visited a reproductive health clinic and is used to indicate an individual's health condition or sex life is considered Sensitive Data under C.R.S. § 6-1-1303(24)(a).
2. While web browsing data at a high level may not be considered Sensitive Data, web browsing data which, alone or in combination with other Personal Data, creates a profile that indicates an individual's sexual orientation and is considered Sensitive Data under C.R.S. § 6-1-1303(24)(a).

**"Sensitive Data Inference" or "Sensitive Data Inferences"** means inferences made by a Controller based on Personal Data, alone or in combination with other data, which indicate an individual's racial or ethnic origin; religious beliefs; mental or physical health condition or diagnosis; sex life or sexual orientation; or citizenship or citizenship status.

**"Solely Automated Processing"** means the Automated Processing of Personal Data with no human review, oversight, involvement, or intervention.

**"Universal Opt-Out Mechanism" or "Universal Opt-Out Mechanisms"** means mechanisms that clearly communicate a Consumer's affirmative, freely given, and unambiguous choice to opt out of the Processing of Personal Data for purposes of Targeted Advertising or the Sale of Personal Data pursuant to C.R.S. § 6-1-1306 (1)(a)(I)(A) OR (1)(a)(I)(B), which meets the technical specifications set forth pursuant to C.R.S. § 6-1-1313(2).

## **PART 3 CONSUMER DISCLOSURES**

### **Rule 3.01**

- A. The statutory authority for the rules in this Part 3 is C.R.S. §§ 6-1-108(1) and 6-1-1313. The purpose of the rules in Part 3 is to ensure that disclosures, notifications, and other communications to Consumers are clear, accessible, and understandable to Consumers so that Consumers can understand and are able to exercise the full scope of their rights under the Colorado Privacy Act, C.R.S. § 6-1-1303, *et seq.***

**Rule 3.02 REQUIREMENTS FOR DISCLOSURES, NOTIFICATIONS, AND OTHER COMMUNICATIONS TO CONSUMERS**

- A.** Disclosures to Consumers pursuant to 4 CCR 904, Rules 3-4.02, 5.03, 6.01, 6.05, and 7.04 must be:
1. Understandable and accessible to a Controller's target audiences, considering the vulnerabilities or unique characteristics of the audience and paying particular attention to the vulnerabilities of Children. For example, they shall use plain, straightforward language and avoid technical or legal jargon.
  2. Reasonably accessible to Consumers with Disabilities, including through the use of digital accessibility tools. For notices provided online, the Controller shall follow generally recognized industry standards, such as the Web Content Accessibility Guidelines, version 2.1 of June 5, 2018, from the World Wide Web Consortium, incorporated herein by reference as described at 4 CCR 903-3-10.02. In other contexts, the Controller shall provide information on how a Consumer with a Disability may access the disclosure or communication in an alternative format.
  3. Available in the languages in which the Controller in its ordinary course provides web pages, interfaces, contracts, disclaimers, sale announcements, and other information to Consumers. Disclosures and communications sent directly to Consumers must be sent in the language in which the Consumer ordinarily interacts with the Controller.
  4. Available through an interface regularly used in conjunction with the Controller's product or service.
  5. Readable on all devices through which Consumers interact with the Controller, including on smaller screens and through mobile applications, if applicable.
  6. Unless otherwise stated, notifications from Controllers to Consumers shall be communicated in a manner by which the Controller regularly interacts with Consumers.

**PART 4 CONSUMER PERSONAL DATA RIGHTS**

**Rule 4.01 AUTHORITY AND PURPOSE**

- A.** The statutory authority for the rules in this Part 4 is C.R.S. §§ 6-1-108(1), 6-1-1306, and 6-1-1313. The purpose of the rules in Part 4 is to clarify the scope of Consumer Personal Data rights and standards for the processes required to facilitate the exercise of those rights.

**Rule 4.02 SUBMITTING REQUESTS TO EXERCISE PERSONAL DATA RIGHTS**

- A.** Pursuant to C.R.S. § 6-1-1306(1), a Controller's privacy notice must include specific methods through which a Consumer may submit requests to exercise Data Rights. Any method specified by a Controller must comply with each of the following:
1. Consider the ways in which Consumers normally interact with the Controller:

- a. A Controller that operates exclusively online and has a direct relationship with a Consumer from whom it collects Personal Data shall only be required to provide an email address for submitting access, correction, deletion, or data portability requests.
  - b. A Controller that does not fall within subsection (A)(1)(a), above, shall provide two or more designated methods for submitting a Data Rights request. If a Controller maintains a website, mobile application, or other digital presence, one method for submitting requests shall be through its website, mobile application, or digital interface, such as through a webform;
  - c. If a Controller interacts with Consumers in person, the Controller shall consider providing an in-person method such as a printed form the Consumer can directly submit or send by mail; a tablet or computer portal that allows the Consumer to complete and submit an online form; or a telephone by which the Consumer can call the Controller's toll-free number.
2. Comply with requirements provided in 4 CCR 904-3, Rule 3.01;
3. Use reasonable data security measures, consistent with 4 CCR 904-3, Rule 6.09, when exchanging information in furtherance of Data Rights requests, considering the volume, scope and nature of Personal Data that may be exchanged;
4. Be easy for Consumers to execute, requiring a minimal number of steps; and
5. Not use Dark Patterns, as defined by C.R.S. § 6-1-1303(9) and prohibited by 4 CCR 904-3, Rule 7.09.
- B. The Data Rights request method does not have to be specific to Colorado, so long as the request method:
  1. Clearly indicates which rights are available to Colorado Consumers;
  2. Provides all Data Rights available to Colorado Consumers;
  3. Provides Colorado Consumers a clear understanding of how to exercise their rights; and
  4. Meets all other requirements of this part, 4 CCR 904-3, Rule 4.02.
- C. When a Consumer submits a Data Rights request, a Controller may only collect Personal Data through the request process if the Personal Data is reasonably necessary to Authenticate the Consumer, respond to the request, or effectuate the Data Rights request.
- D. A Controller must not require a Consumer to create a new user account to exercise their Data Rights request, but may require a Consumer to use an existing password-protected account.
- E. If a Consumer or Authorized Agent submits a request for an Opt-Out Purpose in a manner that is not one of the Controller's specified Data Rights request methods, or the request is otherwise deficient in a manner unrelated to the Authentication process, the Controller shall either: (1) treat the request as if it had been submitted in accordance with the Controller's specified request methods, or (2) provide the Consumer with information on how to submit the request or remedy any deficiencies in the request.

**Rule 4.03      RIGHT TO OPT OUT**

- A. A Controller shall comply with an opt-out request by:
  - 1. Ceasing to Process the Consumer's Personal Data for the Opt-Out Purpose(s) as soon as feasibly possible, but no later than fifteen (15) days from the date the Controller receives the request.
  - 2. Maintaining a record of the opt-out request and response, in compliance with 4 CCR 904-3, Rule 6.11.
- B. A Controller must provide an opt-out method, either directly or through a link, clearly and conspicuously in its privacy notice as well as in a clear, conspicuous, and readily accessible location outside the privacy notice.
  - 1. If a link is used, it must take a Consumer directly to the opt-out method and the link text must provide a clear understanding of its purpose, for example "Colorado Opt-Out Rights," "Personal Data Use Opt-Out," or "Your Opt-Out Rights."
  - 2. The opt-out method must:
    - a. Comply with 4 CCR 904-3, Rule 4.02.
    - b. Describe the Consumer's right to opt out and provide instructions on how to opt out.
  - 3. The clear, conspicuous, and readily accessible location must be:
    - a. Positioned in an obvious location of a website or application, such as the header or footer of a Controller's internet homepage, or an application's app store page or download page; and
    - b. Available to the Consumer at or before the time the Personal Data is Processed for the Opt-Out Purposes.
- C. An Authorized Agent may exercise a Consumer's opt-out right, so long as the Authorized Agent's request permits the Controller to Authenticate the identity of the Consumer and the Authorized Agent's authority to act on the Consumer's behalf.

**Rule 4.04      RIGHT OF ACCESS**

- A. A Controller shall comply with an access request by providing the Consumer all the specific pieces of Personal Data it has collected and maintains about the Consumer, including without limitation, any Personal Data that the Controller's Processors obtained in providing services to the Controller.
- B. Personal Data provided in response to an access request must be:
  - 1. Understandable to the Controller's target audiences, considering vulnerabilities or unique characteristics of the audience and paying particular attention to vulnerabilities of Children.
  - 2. Provided in the language in which the Consumer interacts with the Controller.
  - 3. Provided in a form that would allow the average Consumer to make an informed decision of whether to exercise deletion, correction, or opt-out rights.

- a. For instance, the Personal Data must be provided in a form that is concise, transparent and easily intelligible, and avoids incomprehensible or unexplained internal codes and identifiers.
  - b. Nothing herein shall prevent a Controller from complying fully with a Consumer's data portability request pursuant to C.R.S. § 6-1-1306(1)(e).
- C. A Controller shall not be required to disclose in response to an access request a Consumer's government-issued identification number, financial account number, health insurance or medical identification number, an account password, security questions and answers, or Biometric Data. The Controller shall, however, inform the Consumer with sufficient particularity that it has collected that type of information. For example, a Controller shall respond that it collects "unique Biometric Data including a fingerprint scan" without disclosing the actual fingerprint scan data.

**Rule 4.05      RIGHT TO CORRECTION**

- A. A Controller shall comply with a Consumer's correction request by correcting the Consumer's Personal Data across all data flows and repositories and implementing measures to ensure that the Personal Data remains corrected. The Controller shall also instruct all Processors that maintain the Personal Data at issue to make the necessary corrections in their respective systems and to ensure that the Personal Data remains corrected.
- B. If a Consumer submits a request to exercise their right to correct Personal Data and the requested correction to that Personal Data could be made by the Consumer through the Consumer's account settings, a Controller may respond to the Consumer's request by providing instructions on how the Consumer may correct the Personal Data so long as:
  - 1. The correction process is not unduly burdensome to the Consumer;
  - 2. The instructions meet all requirements of 4 CCR 904-3, Rule 3.01;
  - 3. The Controller's response is compliant with the timing requirements set forth in C.R.S. § 6-1-1306(2)(a); and
  - 4. The process described in the instructions enable the Consumer to make the specific requested correction.
- C. A Controller may decide not to act upon a Consumer's correction request if the Controller determines that the contested Personal Data is more likely than not accurate based on the totality of the circumstances.
  - 1. A Controller may require the Consumer to provide documentation if necessary to determine whether the Personal Data, or the Consumer's requested correction to the Personal Data, is accurate. When requesting documentation, the Controller must provide the Consumer with a meaningful understanding of why the documentation is necessary.
  - 2. Any documentation provided by the Consumer in connection with the Consumer's right to correction shall only be Processed by the Controller in considering the accuracy of the Consumer's Personal Data.
  - 3. The Controller shall implement and maintain reasonable data security measures, consistent with 4 CCR 904-3, Rule 6.09, in Processing any documentation relating to the Consumer's correction request.

4. If the Controller did not receive the Personal Data directly from the Consumer and has no documentation to support the accuracy of the Personal Data, the Consumer's assertion of inaccuracy shall be sufficient to establish that the Personal Data is inaccurate.

**Rule 4.06 RIGHT TO DELETION**

- A. A Controller shall comply with a Consumer's deletion request by:
  1. Permanently and completely erasing the Personal Data from its existing systems, except archive or backup systems, or De-Identifying the Personal Data in accordance with C.R.S. § 6-1-1303(11); and
  2. Notifying the Controller's Processors and Affiliates to delete the Consumer's Personal Data obtained from the Controller.
- B. Notwithstanding 4 CCR 904-3, Rule 4.06(A), a Controller may maintain records of a Consumer's deletion request consistent with 4 CCR 904-3, Rule 6.11 and as needed to effectuate the deletion request.
- C. If a Controller or Processor stores any Personal Data on archived or backup systems, it may delay compliance with the Consumer's deletion request with respect to an archived or backup system until that system is restored to an active system or is next accessed or used for a Sale, disclosure, or commercial purpose.
- D. If a Consumer submits a deletion request with respect to Personal Data that falls within an exception under C.R.S. § 6-1-1304, the Controller shall delete the Consumer's Personal Data that is not subject to the exception; provide the Consumer with a list of Personal Data that was not deleted along with the applicable exception; and not use the Consumer's Personal Data retained for any other purpose than provided for by the applicable exception.
- E. A Controller that has obtained Personal Data about a Consumer from a source other than the Consumer shall comply with a Consumer's deletion request with respect to that Personal Data pursuant to C.R.S. § 6-1-1306(d) by (i) retaining a record of the deletion request and the minimum data necessary for the purpose of ensuring the Consumer's Personal Data remains deleted from the Consumer's records and not using such retained data for any other purpose, or (ii) opting the Consumer out of the Processing of such Personal Data for any purpose except for those exempted pursuant to the provisions of C.R.S. § 6-1-1304.

**Rule 4.07 RIGHT TO DATA PORTABILITY**

- A. To comply with a data portability request, a Controller must transfer to a Consumer the Personal Data it has collected and maintains about the Consumer through a secure method in a commonly used electronic format that enables the Consumer to have complete access to and full enjoyment of the Personal Data, including, but not limited to, the capacity to save, edit, and transfer the Personal Data to any other person or platform at Consumer's discretion.
- B. Pursuant to C.R.S. § 6-1-1306(1)(e), a Controller is not required to provide Personal Data to a Consumer in a manner that would disclose the Controller's trade secrets.
  1. Notwithstanding 4 CCR 904-3, Rule 4.07(B), Personal Data or Sensitive Data Inferences created using a trade secret algorithm or other mechanism must be disclosed to comply with a data portability request without disclosing the algorithm or mechanism itself.

**Rule 4.08 AUTHENTICATION**

- A. A Controller shall establish reasonable methods to Authenticate the Consumer submitting a Data Right request and to Authenticate the authority of an Authorized Agent submitting an opt-out request on behalf of a Consumer. To determine if a method is reasonable, the Controller shall consider the Data Rights exercised, the type, sensitivity, value, and volume of Personal Data involved, and the level of possible harm that improper access or use could cause to the Consumer submitting the Data Right request. A Controller should avoid methods that place an unreasonable burden on the Consumer or Authorized Agent submitting a Data Right request.
- B. When possible, a Controller shall avoid requesting additional Personal Data to Authenticate a Consumer unless the Controller cannot Authenticate the Consumer from the Personal Data already maintained by the Controller.
- C. Personal Data obtained to Authenticate a Consumer may only be used to Authenticate the Consumer submitting the Data Right request or to Authenticate an Authorized Agent's authority, and must be deleted as soon as practical after Processing the Consumer's request, except as required by 4 CCR 904-3, Rule 6.11.
- D. A Controller shall implement reasonable security measures, consistent with 4 CCR 904-3, Rule 6.90, to protect Personal Data exchanged to Authenticate a Consumer or to Authenticate an Authorized Agent's authority, considering the type, value, sensitivity, and volume of information exchanged and the level of possible harm improper access or use could cause to the Consumer submitting a Data Right request.
- E. A Controller shall not require the Consumer or Authorized Agent to pay a fee for authentication. For example, a Controller may not require a Consumer to provide a notarized affidavit for authentication unless the Controller compensates the Consumer for the cost of notarization.
- F. If a Controller cannot Authenticate the Consumer submitting a Data Right request using commercially reasonable efforts, the Controller is not required to comply with the Consumer's request. The Controller shall inform the Consumer that their identity could not be authenticated and may request additional Personal Data if reasonably necessary to Authenticate the Consumer.

**Rule 4.09      RESPONDING TO CONSUMER REQUESTS**

- A. A Controller must respond to a Consumer's Data Right request in compliance with the timing provisions of C.R.S. § 6-1-1306(2)(a)-(b).
- B. If a Controller decides not to act on a Consumer's Data Right request, the Controller's response to the Consumer must include the basis for the Controller's decision, including but not limited to (1) any conflict with federal or state law; (2) the relevant exception to the Colorado Privacy Act; (3) the Controller's inability to Authenticate the Consumer's identity; (4) any factual basis for a Controller's good-faith claim that compliance is impossible; or (5) any good-faith, documented belief that the request is fraudulent or abusive.
  - 1. If a Controller has a good-faith claim that complying with the Consumer's request would be impossible, the Controller must explain in its response, in detail, why compliance is impossible.
  - 2. If a Controller has a good-faith, documented belief that a request is fraudulent or abusive, the Controller must explain in its response why it believes the request is fraudulent or abusive.
  - 3. If a Controller denies a Consumer Data Right request based on inability to Authenticate, the Controller must describe in documentation required by 4 C.C.R. 904-3, Rule 6.11 their reasonable efforts to authenticate and why they were unable to do so.

- 4. A Controller that decides not to act on a Consumer's request must also provide instructions on how to appeal the Controller's decision in accordance with C.R.S. § 6-1-1306(3).
- C. When a Controller complies with a Consumer's Personal Data Right request, the Controller shall also notify all Processors that Process the Consumer's Personal Data of the Consumer's request and the Controller's response.
- D. Controllers must maintain all documentation as required by 4 CCR 904-3, Rule 6.11 of these rules.

## **PART 5 UNIVERSAL OPT-OUT MECHANISM**

### **Rule 5.01 AUTHORITY AND PURPOSE**

- A. The statutory authority for the rules in Part 5 is C.R.S. §§ 6-1-108(1), 6-1-1306, and 6-1-1313. The purpose of this rule is to provide technical and other specifications for Universal Opt-Out Mechanisms.

### **Rule 5.02 RIGHTS EXERCISED**

- A. Consumers may exercise their right to opt out of the Processing of Personal Data concerning the Consumer for purposes of Targeted Advertising or the Sale of Personal Data through a user-selected Universal Opt-Out Mechanism that meets the technical and other specifications provided in this Rule.
- B. The purpose of a Universal Opt-Out Mechanism is to provide Consumers with a simple and easy-to-use method by which Consumers can automatically exercise their opt-out rights with all Controllers they interact with without having to make individualized requests with each Controller.
- C. A Universal Opt-Out Mechanism may express a Consumer's choice to opt out of the Processing of Personal Data for all purposes subject to the opt-out right or it may express a Consumer's choice to opt out of the Processing of Personal Data for one specific purpose only. A Universal Opt-Out Mechanism may offer "all purposes" or "specific purposes" options, or both.

### **Rule 5.03 NOTICE AND CHOICE**

- A. The platform, developer, or provider that provides a Universal Opt-Out Mechanism shall make clear to the Consumer, whether in its configuration or disclosures to the public, that the mechanism is meant to have the effect of opting the Consumer out of the Processing of Personal Data for specific purposes or all purposes. These notices provided to the Consumer:
  - 1. Shall comply with the requirements for disclosures and communications to Consumers provided in 4 CCR 904-3, Rule 3.01;
  - 2. If applicable, shall state that the Universal Opt-Out Mechanism has been recognized by the Colorado Attorney General;
  - 3. Shall clearly describe the mechanism's limitations, including, for example:
    - a. Whether the mechanism will have the effect of opting the Consumer out of the Processing of Personal Data for only one specific Processing purpose; or
    - b. Whether the mechanism is unable to opt the Consumer out of Processing through mobile or other applications.

4. Shall not use Dark Patterns as defined in C.R.S. § 6-1-1303(9) and prohibited by 4 CCR 904-3, Rule 7.09; and
  5. Need not be tailored only to Colorado or refer to Colorado.
- B. A valid Universal Opt-Out Mechanism must represent the Consumer's affirmative, freely given, and unambiguous choice to opt out of the Processing of Personal Data for the purposes listed at C.R.S. § 6-1-1306(1)(a)(IV)(A) and (B).

**Rule 5.04      DEFAULT SETTINGS**

- A. To comply with C.R.S. § 6-1-1313(2), a Universal Opt-Out Mechanism may not be the default setting for a tool that comes pre-installed with a device, such as a browser or operating system.
1. Example: An operating system manufacturer bundles a browser pre-installed with every device shipped with the operating system. The browser sends a Universal Opt-Out mechanism signal by default and never asks the Consumer to enable this setting. The Consumer's decision to use this browser does not represent the Consumer's affirmative, freely given, and unambiguous choice to use the Universal Opt-Out Mechanism because it is a default choice. This is so even if the marketing for the operating system touts its privacy protective features.
  2. Example: An operating system manufacturer bundles a browser and apps pre-installed with every device shipped with the operating system. The first time a Consumer runs a browser or app, the operating system asks the Consumer specifically and clearly whether they want to send a Universal Opt-Out Mechanism signal when using the browser or app. No choice is pre-selected, meaning the Consumer is forced to decide. The Consumer's decision to say "yes" and enable the signal represents the Consumer's affirmative, freely given, and unambiguous choice to use the Universal Opt-Out Mechanism.
- B. Notwithstanding 4 CCR 904-3, Rule 5.04(A), a Consumer's decision to adopt a tool that does not come pre-installed with a device, such as a browser or operation system, but is marketed prominently as a privacy-protective tool or specifically as a tool designed to exercise a user's rights to opt out of the Processing of Personal Data shall be considered the Consumer's affirmative, freely given, and unambiguous choice to use a Universal Opt-Out Mechanism.
1. Example: A browser manufacturer markets its browser as a "privacy friendly" browser, highlighting that the browser sends a Universal Opt-Out Mechanism signal by default. The browser does not come pre-installed with a device or operating system and must be installed by the Consumer. The Consumer's decision to use this browser represents the Consumer's affirmative, freely given, and unambiguous choice to use the Universal Opt-Out Mechanism. The Consumer need not be given an explicit choice about whether to use the Universal Opt-Out Mechanism in this example.

**Rule 5.05      PERSONAL DATA USE LIMITATIONS**

- A. A platform, developer, or provider providing a Universal Opt-Out Mechanism shall not use, disclose, or retain any Personal Data collected from the Consumer in connection with the Consumer's utilization of the mechanism for any purpose other than sending or Processing the opt-out preference.
- B. When Processing a Universal Opt-Out Mechanism, a Controller may not require the collection of additional Personal Data beyond that which is strictly necessary to confirm a Consumer is a resident of Colorado or determine that the mechanism represents a legitimate request to opt out of the Processing of Personal Data as permitted by C.R.S. § 6-1-1306(1)(a)(IV).

- C. Notwithstanding 4 CCR 904-3, Rule 5.05(B), a Controller may provide the Consumer with an option to provide additional Personal Data only if it will extend the recognition of the Consumer's use of the Universal Opt-Out Mechanism across platforms, devices, or offline. For example, a Controller may give the Consumer the option to provide their phone number or email address so that the Universal Opt-Out Mechanism or signal can apply to offline Sale of Personal Data or link the Consumer's opt-out choice across devices. Any information provided by the Consumer for this purpose shall not be used, disclosed, or retained for any purpose other than processing the opt-out request.

**Rule 5.06 TECHNICAL SPECIFICATION**

- A. A Universal Opt-Out Mechanism must allow for Consumers to automatically communicate their opt-out choice with multiple Controllers.
1. The Universal Opt-Out Mechanism may communicate a Consumer's opt-out choice by sending an opt-out signal. The signal must be in a format commonly used and recognized by Controllers. An example would be an HTTP header field or JavaScript object.
  2. The Universal Opt-Out Mechanism may operate through a means other than by sending an opt-out signal, for example by maintaining a "do not sell" list, so long as Controllers are able to query such a list in an automated manner.
- C. The Universal Opt-Out Mechanism must allow Consumers to clearly communicate one or more opt-out rights available under C.R.S. § 6-1-1306(1)(a)(IV).
1. The Universal Opt-Out Mechanism may allow for a Consumer to opt out of Processing for one or more of the Opt-Out Purposes.
  2. The Universal Opt-Out Mechanism may allow a Consumer to opt out of one or more Controllers that recognize the mechanism, to opt out of one or more domain, or to opt out of Processing by all Controllers that recognize the mechanism.
- D. The Universal Opt-Out Mechanism must store, process, and transmit any Consumer Personal Data using reasonable data security measures, consistent with 4 CCR 904-3, Rule 6.09.
- E. A Universal Opt-Out Mechanism must not prevent the Controller's ability to determine:
1. Whether a Consumer is a Resident of the State of Colorado; or
  2. That the Universal Opt-Out Mechanism represents a legitimate request to opt out of the Processing of Personal Data.
- F. A Universal Opt-Out Mechanism must not unfairly disadvantage any Controller. For example, a Universal Opt-Out Mechanism may not treat different Controllers differently or engage in self-dealing benefiting the creator of the Universal Opt-Out Mechanism over other Controllers.

**Rule 5.07 SYSTEM FOR RECOGNIZING UNIVERSAL OPT-OUT MECHANISMS**

- A. The Colorado Department of Law shall maintain a public list of Universal Opt-Out Mechanisms that have been recognized to meet the standards of this subsection. The initial list shall be released no later than April 1, 2024 and shall be updated periodically.
- B. The goal of the public list is to simplify the options facing Controllers, Consumers, and other actors.

- C. To be recognized, a Universal Opt-Out Mechanism must at a minimum meet these standards:
  - 1. Comply with all of the technical and other specifications of this section;
  - 2. Be an open system or standard, which is free for adoption by device, operating system, browser, and other manufacturers, Controllers, or Consumers without permission or on fair, reasonable, and non-discriminatory terms; and
  - 3. Not create Consumer or Controller confusion about the similarities and differences between Universal Opt-Out Mechanisms on the public list.
- D. The Colorado Department of Law may consider additional factors when determining which Universal Opt-Out Mechanisms to recognize. These include but are not limited to:
  - 1. Commercial adoption by Consumers or Controllers;
  - 2. Ease of use, implementation, and detection by Consumers and Controllers;
  - 3. Whether the Universal Opt-Out Mechanism has been approved by a widely recognized, legitimate standards body after broad multistakeholder participation in the standards-making process.

**Rule 5.08 OBLIGATIONS ON CONTROLLERS**

- A. Effective July 1, 2024,
  - 1. A Controller that receives an opt-out request through a Universal Opt-Out Mechanism shall treat such as a valid request to opt out of the Processing of Personal Data for purposes of Targeted Advertising, Sale of Personal Data, or both, as indicated by the mechanism, for the associated browser or device, and, if known, for the Consumer.
  - 2. After receiving a valid opt-out request through the use of a Universal Opt-Out Mechanism, a Controller shall continue to treat the browser, device, and Consumer as having exercised opt-out rights until the browser, device, or Consumer overrides the opt-out, as specified in 4 CCR 904-3, Rule 5.10.
- B. A Controller shall be capable of recognizing any Universal Opt-Out Mechanism recognized under subsection 4 CCR § 904-3, Rule 5.07. For example, in the case of a recognized Universal Opt-Out Mechanism sent as a signal, the Controller must listen for the signal. In the case of a recognized Universal Opt-Out Mechanism utilizing a "do not sell" list, the Controller must query the "do not sell" list.
- C. A Controller may also recognize Universal Opt-Out Mechanisms that are not recognized under subsection 4 CCR § 904-3, Rule 5.07.
- D. Unless a Controller is Authenticating a Consumer as permitted by C.R.S. § 6-1-1313(2)(f), a Controller may not require a Consumer to login or otherwise Authenticate themselves as a condition of recognizing the Consumer's use of the Universal Opt-Out Mechanism.
- E. A Controller may display in a conspicuous manner if it has Processed the Consumer's opt-out preference signal. For example, the Controller may display on its website "Opt-Out Preference Signal Honored" when a browser, device, or Consumer utilizing a Universal Opt-Out Mechanism visits the website.

**Rule 5.9 CONSENT AFTER UNIVERSAL OPT-OUT**

- A. A Controller may enable a Consumer to Consent to Processing that the Consumer has opted-out of using a Universal Opt-Out mechanism, so long as the Controller's request for Consent complies with the Consent requirements provided in 4 CCR 904-3, Rule 7.05.
- B. A Controller shall not interpret the absence of a Universal Opt-Out Mechanism signal after the Consumer previously utilized a Universal Opt-Out Mechanism as Consent to opt back in.

## **PART 6 DUTIES OF CONTROLLERS**

### **Rule 6.01 AUTHORITY AND PURPOSE**

- A. The statutory authority for the rules in this Part 6 is C.R.S. §§ 6-1-108(1), 6-1-1308, and 6-1-1313. The purpose of the rules in this Part 6 is to provide clarity on the duties of Controllers concerning the Personal Data of Colorado Consumers.

### **Rule 6.02 PRIVACY NOTICE PRINCIPLES**

- A. A privacy notice shall provide Consumers with a meaningful understanding and accurate expectations of how their Personal Data will be Processed. It shall also inform Consumers about their rights under the Colorado Privacy Act and provide any information necessary for Consumers to exercise those rights.
- B. A Controller is not required to provide a separate Colorado-specific privacy notice or section of a privacy notice as long as the Controller's privacy notice contains all information required in this section and makes clear that Colorado Consumers are entitled to the rights provided by C.R.S. § 6-1-1306.
- C. A privacy notice shall comply with all requirements for disclosures and communications to Consumers provided in 4 CCR 904-3, Rule 3.01.
- D. A privacy notice must be clear. Information contained in a privacy notice shall be:
  - 1. Concrete and definitive, avoiding abstract or ambivalent terms that may lead to varying interpretations.
  - 2. Clearly labeled, such that Consumers seeking to understand a Controller's Processing activities or how to exercise their Data Rights can easily access the section of the privacy notice containing relevant information.
- E. A privacy notice must be easily accessible. A privacy notice must be:
  - 1. Posted online through a conspicuous link using the word "privacy" on the Controller's website homepage or on a mobile application's app store page or download page. A Controller that maintains an application on a mobile or other device shall also include a link to the privacy notice in the application's settings menu.
  - 2. A Controller that does not operate a website shall make the privacy notice conspicuously available to Consumers through a medium regularly used by the Controller to interact with Consumers. For instance, if a Controller interacts with a Consumer offline, an offline version of the privacy notice must be available to the Consumer.
- F. A privacy notice must be specific. The level of specificity in a privacy notice should enable a Consumer to understand, in advance or at the time of the Processing, the scope of the Controller's Processing operations, such that a Consumer should not be taken by surprise at a

later point about Personal Data that has been collected and the ways in which Personal Data has been Processed.

**Rule 6.03      PRIVACY NOTICE CONTENT**

A. A privacy notice must include the following information:

1. A comprehensive description of the Controller's online and offline Personal Data Processing practices, including the following information for each Processing purpose:
  - a. The Processing purpose described in a level of detail that gives Consumers a meaningful understanding of how their Personal Data is used and why their Personal Data is reasonably necessary for the Processing purpose.
  - b. If the Processing purpose includes Targeted Advertising or Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer, the Controller shall list that activity as part of the Processing purpose.
  - c. The categories of Personal Data Processed for each of the Controller's Processing purposes, including, but not limited to, whether Sensitive Data or the Personal Data of a Child is Processed. Categories shall be described in a level of detail that provides Consumers a meaningful understanding of the type of Personal Data Processed.

For example, categories of Personal Data described at a sufficiently granular level of detail include, but are not limited to: "real name," "contact information," "government issued identification numbers," "payment information", "Information from Cookies," "data revealing religious affiliation," and "medical data."
  - d. Categories of Personal Data that the Controller Sells to or shares with Third Parties, if any, for each Processing purpose.
  - e. Categories of Third Parties to whom the Controller sells, or with whom the Controller shares Personal Data, if any, for each Processing purpose. Categories of Third Parties must be described in a level of detail that gives Consumers a meaningful understanding of what type of entity the Third Party is, and to the extent possible, how the Third Party may Process Personal Data.

For example, categories of Third Parties described in a sufficiently granular level of detail include, but are not limited to: "analytics companies," "data brokers," "third-party advertisers," "payment processors," "lenders," "other merchants," and "government agencies." For each processing purpose, whether the Personal Data collected is Sold or processed for Targeted Advertising.
2. If a Controller's Processing activity involves the Processing of Personal Data for the purpose of Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer, all disclosures required by 4 CCR 904-3, Rule 9.03.
3. A list of the Data Rights available.
4. A description of the methods through which a Consumer may submit requests to exercise Data Rights, as required by C.R.S. § 6-1-1306(1) and 4 CCR 904-3, Rule 4.02, including:
  - a. Instructions on how to use each method.

- b. Instructions on how an Authorized Agent may submit a request to opt out of the Processing of Consumer Personal Data on a Consumer's behalf pursuant to C.R.S. § 6-1-1306(1)(a)(II).
  - c. A clear and conspicuous method to exercise the right to opt out of the Processing of Personal Data concerning the Consumer pursuant to C.R.S. § 6-1-1306(1)(a)(I), or links to any online method, such as a webform or portal, consistent with 4 CCR 904-3, Rule 4.03.
  - d. A description of the process the Controller uses to Authenticate the identity of a Consumer exercising a Data Right request or to Authenticate the authority of an Authorized Agent exercising the right to opt out on a Consumer's behalf.
  - e. Effective July 1, 2024, an explanation of how requests to opt out using Universal Opt-Out Mechanisms will be processed.
- 5. If a Controller will delete Sensitive Data Inferences within twelve (12) hours pursuant to 4 CCR 904-3, Rule 6.10, a description of the Sensitive Data Inferences subject to this provision and the retention and deletion timeline for such Sensitive Data Inferences.
  - 6. A Controller's contact information.
  - 7. Instructions on how a Consumer may appeal a Controller's action in response to the Consumer's request, as contemplated by C.R.S. § 6-1-1306(3).
  - 8. The date the privacy notice was last updated.

**Rule 6.04 CHANGES TO A PRIVACY NOTICE**

- A. A Controller shall notify Consumers of substantive or material changes to a privacy notice, including, but not limited to, changes to: (1) categories of Personal Data Processed; (2) Processing purposes; (3) a Controller's identity; or (4) methods by which Consumers can exercise their Data Rights request. Changes to a privacy notice shall be communicated to Consumers in a manner by which the Controller regularly interacts with Consumers.
- B. Notice of a substantive or material change to a privacy notice must be made 15 calendar days before the change goes into effect.
- C. A Controller must obtain Consent from a Consumer pursuant to 4 CCR 904-3, Rules 7.02-7.05 before Processing Personal Data for a secondary use, even if the new purpose is disclosed in the privacy notice.

**Rule 6.05 LOYALTY PROGRAMS**

- A. While a Controller may not increase the cost of or decrease the availability of a product or service based solely on a Consumer's exercise of a Data Right, a Controller is not prohibited from offering Bona Fide Loyalty Program Benefits to a Consumer based on the Consumer's voluntary participation in that Bona Fide Loyalty Program.
- B. If a Consumer exercises their right to delete Personal Data such that it is impossible for the Controller to provide a certain Bona Fide Loyalty Program Benefit to the Consumer, the Controller is no longer obligated to provide that Bona Fide Loyalty Benefit to the Consumer. However, the Controller shall provide any available Bona Fide Loyalty Program Benefit for which the deleted Personal Data is not necessary.

- C. If a Consumer refuses to Consent to the Processing of Sensitive Data necessary for a personalized Bona Fide Loyalty Program Benefit, the Controller is no longer obligated to provide that personalized Bona Fide Loyalty Program Benefit. However, the Controller shall provide any available, non-personalized Bona Fide Loyalty Program Benefit for which the Sensitive Data is not necessary. A Controller may not condition a Consumer's participation in a Bona Fide Loyalty Program on the Consumer's Consent to Process Sensitive Data unless the Sensitive Data is required for all Bona Fide Loyalty Program Benefits.
- D. If a Consumer's decision to exercise a Data Right impacts the Consumer's membership in a Bona Fide Loyalty Program, the Controller shall notify the Consumer of the impact of the Consumer's decision in conformance with 4 CCR 904-3, Rule 3.01 and at least twenty-four (24) hours before discontinuing the Consumer's Bona Fide Loyalty Program Benefit or membership, and must provide a reference or link to the information required by subparagraph E., below.
- E. Loyalty Program Disclosures
  - 1. In addition to all other disclosures required by 4 CCR 904-3, Rules 6.03 and 7.03, a Controller maintaining a Bona Fide Loyalty Program must provide the following disclosures as required by 4 CCR 904-3, Rule 6.05(E), as well as in its privacy notice, Bona Fide Loyalty Program terms, and Consent disclosures in requests for Consent to Process Sensitive Data or Personal Data in connection with the Bona Fide Loyalty Program:
    - a. The categories of Personal Data or Sensitive Data collected through the Bona Fide Loyalty Program that will be Sold or Processed for Targeted Advertising, if any;
    - b. Categories of Third Parties that will receive the Consumer's Personal Data and Sensitive Data, including whether Personal Data will be provided to Data Brokers;
    - c. The value of the Bona Fide Loyalty Program Benefits available to the Consumer if the Consumer opts out of the Sale of Personal Data or Processing of Personal Data for Targeted Advertising, and the value of the Bona Fide Loyalty Program Benefits available to the Consumer if the Consumer does not opt out of the Sale of Personal Data or Processing for Targeted Advertising; and
    - d. A list of any Bona Fide Loyalty Program Benefits that require the Processing of Personal Data for Sale or Targeted Advertising, and the Third Party receiving the Personal Data and providing each such Bona Fide Loyalty Program Benefit, if applicable.
  - 2. Bona Fide Loyalty Program terms and requests for Consent to Process Sensitive Data or Personal Data in connection with the Bona Fide Loyalty Program shall also include a link to the Controller's privacy notice.
- F. Example: A Consumer joins a pharmacy's Bona Fide Loyalty Program that includes both personalized and non-personalized Bona Fide Loyalty Program Benefits. The pharmacy asks the Consumer for Consent to collect Sensitive Data about the Consumer's prescriptions and medical conditions in order to provide personalized Bona Fide Loyalty Program Benefits. When the Consumer refuses Consent, the Controller gives timely notice to the Consumer that it will not provide the personalized Bona Fide Loyalty Program Benefits, but will continue to provide non-personalized Bona Fide Loyalty Program Benefits. Moving forward, the Controller provides only the non-personalized Bona Fide Loyalty Program Benefits following the Consumer's decision to continue to refuse Consent to the collection of Sensitive Data. The Controller is not acting

impermissibly because the pharmacy is still providing all available non-personalized Bona Fide Loyalty Program Benefits and did not condition the Consumer's participation in the Bona Fide Loyalty Program on the Consumers Consent to process Sensitive Data that is not required for personalized Bona Fide Loyalty Program Benefits.

**Rule 6.06 PURPOSE SPECIFICATION**

- A. Controllers shall specify the express purposes for which Personal Data are collected and Processed in both external disclosures to Consumers as well as in any internal documentation required by this Part 6.
- B. The express purpose must be described in a sufficiently unambiguous, specific, and clear manner, such that the way Personal Data will be Processed is understood by and predictable to the average Consumer, the Controller, Third Parties, and enforcement authorities.
  - 1. Particular care should be taken to ensure that any specification of the purpose is sufficiently clear to all involved, irrespective of their different cultural or linguistic backgrounds, level of understanding, or special needs.
  - 2. The express purpose must be detailed enough to enable the implementation of necessary data security safeguards and allow for compliance with the law to be assessed.
- C. If Personal Data is collected and Processed for more than one purpose, Controllers should specify each unrelated purpose with enough detail to allow Consumers to understand each individual, unrelated purpose.
  - 1. Controllers should avoid identifying one broad purpose to justify numerous Processing activities that are only remotely related.
  - 2. Controllers should avoid specifying one broad purpose to cover potential future Processing activities that are only remotely related.
- D. If the Processing purpose has evolved beyond the original express purpose, the Controller must review and update all related disclosures and documentation as necessary.

**Rule 6.07 DATA MINIMIZATION**

- A. To ensure all Personal Data collected is reasonably necessary for the specified purpose, Controllers shall carefully consider each Processing purpose and determine the minimum Personal Data that is necessary, adequate, or relevant for the express purpose or purposes. Such assessment shall be documented according to 4 CCR 904-3, Rule 6.11.
- B. Personal Data should only be kept in a form which allows identification of Consumers for as long as is necessary for the express Processing purpose(s). To ensure that the Personal Data are not kept longer than necessary, adequate, or relevant, Controllers shall set specific time limits for erasure or to conduct a periodic review.
  - 1. Any Personal Data determined to no longer be necessary, adequate, or relevant to the express Processing purpose(s) shall be deleted by the Controller and any Processors.
  - 2. Biometric Identifiers or any Personal Data generated from a digital or physical photograph or an audio or video recording held by a Controller shall be reviewed at least once a year to determine if its storage is still necessary, adequate, or relevant to the express Processing purpose. Controllers must obtain Consent to Process Biometric

Identifiers or any Personal Data generated from a digital or physical photograph or an audio or video recording each year after the first year that it is stored.

- C. A Controller shall not collect Personal Data other than those disclosed in its required privacy notice. If the Controller intends to collect additional Personal Data the Controller shall revise its privacy notice, and notify Consumers of the change to its privacy notice pursuant to 4 CCR 904-3, Rule 6.04.

**Rule 6.08 SECONDARY USE**

- A. The specified Processing purpose is the purpose disclosed to Consumers before the time the Personal Data is collected from Consumers. Such disclosure shall be included in any required privacy notice or Consent disclosure.
- B. Before Processing Personal Data for purposes that are not reasonably necessary to or compatible with specified Processing purpose(s), the Controller must obtain Consent pursuant to C.R.S. § 6-1-1308 and 4 CCR 904-3, Rules 7.02-7.05.
- C. If a new Processing purpose is unexpected, unnecessary, unconnected, or would have an unjustified negative impact on the Consumer, the new purpose is not likely to be considered reasonably necessary to or compatible with the original specified purpose. When considering if the new Processing purpose is reasonably necessary to or compatible with the original specified purpose, Controllers should consider the following, as applicable:
1. The reasonable expectation of an average Consumer concerning how their Personal Data would be Processed once it was collected;
  2. The link between the original specified purpose(s) for which the data was collected and the purpose(s) of further Processing;
  3. The relationship between the Consumer and the Controller and the context in which the Personal Data was collected;
  4. The type, nature, and amount of the Personal Data subject to the new Processing purpose;
  5. The possible consequence or impact to the Consumer of the new Processing purpose;
  6. The identity of the entity conducting the new Processing purposes, e.g., the same or different Controller, an Affiliate, a Processor, or a Third Party; and
  7. The existence of additional safeguards for the Personal Data, such as encryption or pseudonymization.
- D. An assessment of the reasonable necessity or compatibility of any new Processing purpose shall be documented consistent with 4 CCR 904-3, Rule 6.11.

**Rule 6.09 DUTY OF CARE**

- A. Personal Data must be Processed in a manner that ensures appropriate security and confidentiality of the Personal Data, including protection against unauthorized or unlawful access to or use of Personal Data and the equipment used for the Processing and against accidental loss, destruction, or damage, using reasonable technical or organizational measures.

- B. Reasonable measures to secure Personal Data include but are not limited to those provided by C.R.S. § 6-1-713.5 and C.R.S. § 24-73-102.

**Rule 6.10 DUTY REGARDING SENSITIVE DATA**

- A. Controllers must obtain Consent to Process Sensitive Data, including Sensitive Data Inferences, consistent with C.R.S. § 6-1-1308(7) and 4 CCR 904-3, Rules 7.02-7.05.
- B. Controllers may Process Sensitive Data Inferences from Consumers over the age of thirteen (13) without Consent only if:
1. The Processing purpose of such Personal Data would be obvious to a reasonable Consumer based on the context of the collection and use of the Personal Data, and the relationship between the Controller and Consumer.
  2. The Personal Data and any Sensitive Data Inferences are permanently deleted within twelve (12) hours of collection or of the completion of the Processing activity, whichever comes first;
  3. The Personal Data and any Sensitive Data Inferences are not transferred, sold, or shared with any Processors, Affiliates, or Third-Parties; and
  4. The Personal Data and any Sensitive Data Inferences are not Processed for any purpose other than the express purpose disclosed to the Consumer.
- C. If a Controller will delete Sensitive Data Inferences within twelve (12) hours, pursuant to this section, they must (1) include description of the Sensitive Data Inferences subject to this provision and the retention and deletion timeline for such Sensitive Data Inferences in its privacy notice, pursuant to 4 CCR 904-3, Rule 6.03, and (2) include the details of the deletion and verification process in the Controller's Data Protection Assessment, pursuant to 4 CCR 904-3, Rule 8.04.

**Rule 6.11 DOCUMENTATION CONCERNING DUTIES OF CONTROLLERS**

- A. Controllers shall maintain records of all Consumer Data Rights requests made pursuant to C.R.S. 6-1-1306 for at least twenty-four (24) months. Such records shall include, at a minimum, each of the following:
1. The date of request;
  2. The Consumer Data Rights request type;
  3. The date of the Controller's response;
  4. The nature of the Controller's response;
  5. The basis for the denial of the request if the request is denied in whole or in part; and
  6. The existence and resolution of any Consumer appeal to a denied request.
- B. Controllers shall maintain a record of all Data Rights requests made pursuant to C.R.S. § 6-1-1306 with which the Controller has previously complied. Such records shall be made available at the completion of a merger, acquisition, bankruptcy, or other transaction in which a Third Party assumes control of Personal Data to ensure any new Controller continues to recognize the Consumer's previously exercised Data Rights.

- C. Controllers shall maintain a record of any analysis of compliance with 4 CCR 904-3, Rules 6.07, 6.08, and 7.06 for as long as the Processing activity continues, and for at least three (3) years after the conclusion of Processing activity.
- D. Required records shall be maintained in a readable format, appropriate to the sophistication and size of the Controller's business.
- E. The Controller shall implement and maintain reasonable security procedures and practices, consistent with 4 CCR 904-3, Rule 6.09, in maintaining all required records.
- F. Personal Data maintained pursuant to this 4 CCR 904-3, Rule 6.11, where that information is not used for any other purpose, shall not be subject to Data Rights requests.
- G. Personal Data maintained for required documentation shall not be used for any other purpose except as reasonably necessary for the business to review and modify its processes for compliance with the Colorado Privacy Act, § 6-1-1301, *et seq.*, and these rules. Personal Data maintained for required documentation shall not be shared with any Third Party except as necessary to comply with a legal obligation or as part of a merger, acquisition, bankruptcy, or other transaction in which a Third Party assumes control of Personal Data.
- H. Other than as required by this subsection and 4 CCR 904-3, Rule 4.06, a Controller is not required to retain Personal Data solely for the purpose of fulfilling a Data Rights request made under the Colorado Privacy Act, § 6-1-1301, *et seq.*

## **PART 7            CONSENT**

### **Rule 7.01        AUTHORITY AND PURPOSE**

- A. The statutory authority for the rules in this Part 7 is C.R.S. §§ 6-1-108(1), 6-1-1303(5), 6-1-1306, 6-1-1308 and 6-1-1313. The purpose of these rules in this Part 7 is to provide clarity on the requirements to obtain Consent, including the prohibition against obtaining agreement through the use of Dark Patterns.

### **Rule 7.02        REQUIRED CONSENT**

- A. Pursuant to C.R.S. §§ 6-1-1303(5), 6-1-1306(1)(a)(IV)(C), 6-1-1308(4), and 6-1-1308(7), a Controller must obtain valid Consumer Consent prior to:
  - 1. Processing a Consumer's Sensitive Data;
  - 2. Processing Personal Data concerning a known Child, in which case the Child's parent or lawful guardian must provide Consent;
  - 3. Selling a Consumer's Personal Data, Processing a Consumer's Personal Data for Targeted Advertising, or Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer after the Consumer has exercised the right to opt out of the Processing for those purposes; and
  - 4. Processing Personal Data for purposes that are not reasonably necessary to, or compatible with, the original specified purposes for which the Personal Data are Processed.
- B. Controllers may rely upon valid consent obtained prior to July 1, 2023 to continue to Process a Consumer's previously collected Personal Data, including Sensitive Data collected before July 1, 2023. Consent obtained before July 1, 2023 shall be considered valid only if it would comply with

the requirements set forth in C.R.S. §§ 6-1-1303(5), 6-1-1306(1)(a)(IV)(C), 6-1-1308(4), and 6-1-1308(7) and Part 7 of these rules.

1. If a Controller has collected Sensitive Data prior to July 1, 2023 and has not also previously obtained valid consent to Process such Sensitive Data, the Controller shall obtain consent as required by January 1, 2023 to continue to Process the Sensitive Data.
- C. Notwithstanding the above, a Controller Processing Sensitive Data Inferences is not required to obtain Consent for the Processing activity if the processing falls within the requirements of 4 CCR 904-3, Rule 6.10.

**Rule 7.03 REQUIREMENTS FOR VALID CONSENT**

- A. To be valid, a Consent must meet each of the following elements: (1) it must be obtained through the Consumer's clear, affirmative action; (2) it must be freely given by the Consumer; (3) it must be specific; (4) it must be informed; and (5) it must reflect the Consumer's unambiguous agreement.
- B. Consent must be obtained through the Consumer's clear, affirmative action. For purposes of obtaining valid Consent:
1. A "clear, affirmative action" means a Consumer's Consent is communicated through either (a) deliberate and clear conduct, or (b) a statement that clearly indicates their acceptance of the proposed Processing of their Personal Data.
  2. A blanketed acceptance of general terms and conditions, silence, inactivity or in action, pre-ticked boxes, and other negative option opt-out constructions that require intervention from the Consumer to prevent agreement are not clear affirmative actions for the purposes of valid Consent.
- C. Consent must be freely given. For purposes of obtaining valid Consent:
1. Consumers may refuse Consent without detriment and withdraw Consent easily at any time.
  2. Consent is not freely given when:
    - a. It is bundled with other terms and conditions;
    - b. The performance of a contract is dependent on Consent to Process Personal Data that is not necessary to provide the goods or services contemplated by the contract; or
    - c. The Controller denies goods, services, discounts, or promotions to a Consumer who chooses not to provide Consent, unless:
      - i. The Personal Data is necessary to the provision of those goods, services, discounts, or promotions, consistent with 4 CCR 904-3, Rule 6.05; or
      - ii. The Consent is otherwise required in connection with a Consumer's voluntary participation in a Bona Fide Loyalty Program, consistent with the requirements in 4 CCR 904-3, Rule 6.05.

3. Example: An online dating application asks users for information about their sexual orientation to provide a more targeted service. The application's terms and conditions also tell users that the application will share the collected Personal Data with similar applications for advertising purposes. Consent is required because Personal Data revealing sexual orientation is Sensitive Data. Since users cannot accept the required terms and conditions without the opportunity to separately provide or withhold Consent for sharing with similar applications, the Consent is not freely given.
- D. Consent must be specific.
1. When Controllers request Consent to Process Personal Data for more than one unrelated or incompatible Processing purpose, Consumers must have the ability to separately Consent to each specific purpose.
  2. Consent to Process Personal Data for one purpose does not constitute valid Consent to Process Personal Data for other purposes.
  3. Consent to Sell or share Sensitive Data or Personal Data with certain parties does not constitute valid Consent to Sell or share Sensitive Data or Personal Data, when required, with other parties.
  4. Example: A cosmetic retailer asks a customer for Consent to use Sensitive Data revealing the customer's racial origin in order to provide targeted offers to the customer and to share the customer's racial origin information with commercial partners. This Consent is not specific as there is no opportunity to provide separate Consent for the two separate Processing purposes. Therefore, Consent in this example would not be valid.
  5. Example: In the example above, the Controller requests Consent only to share Sensitive Data revealing the customer's racial origin with commercial partners. The Controller lists "Fashion Co. #1" and "Make Up Co. #1" as commercial partners who will receive Sensitive Data. Consent would be deemed valid for only these two Third Parties because their identity was provided to the Consumer at the time that his or her Consent was collected. Consent would not be deemed valid for sharing with another Third Party whose identity has not been provided.
- E. Consent must be informed.
1. A request for Consent must contain the following disclosures:
    - a. The Controller's identity;
    - b. The reason that Consent is required;
    - c. The Processing purpose for which Consent is sought;
    - d. The categories of Personal Data that the Controller shall Process to effectuate the Processing purpose;
    - e. Categories of all parties who will have access to the Personal Data, and names of all Third Parties and Affiliates receiving the Sensitive Data through Sale or sharing. Names of Processors, as defined in C.R.S. § 6-1-1306(19) are not required; and

- f. A description of the Consumer's right to withdraw Consent for the identified Processing purpose at any time in accordance with 4 CCR 904-3, Rule 7.07 and details of how and where to do so.
  - g. Any disclosures required by 4 CCR 904-3, Rules 6.05 and 9.05.
- F. Consent may not be obtained using Dark Patterns as defined in C.R.S § 6-1-1309(9) and prohibited by 4 CCR 904-3, Rule 7.09. Pursuant to C.R.S. § 6-1-1303(5)(c) and 4 CCR 904-3, Rule 7.09, any agreement obtained through Dark Patterns is not valid Consent.

**Rule 7.04 REQUESTS FOR CONSENT**

- A. Controllers shall provide a simple mechanism to enable a Consumer to provide Consent when required, including Consent to Processing purposes from which the Consumer has previously opted out. Such a mechanism should be easy for a reasonable Consumer to locate and should comply with the other requirements set forth in Part 7 of these rules.
- B. Requests for Consent shall be prominent, concise, and separate and distinct from other terms and conditions, and shall comply with all requirements for disclosures and communications to Consumers set forth in 4 CCR 904-3, Rule 3.01.
- C. A Consent request method may provide the Consumer with a link to a webpage containing the Consent disclosures required by 4 CCR 904-3, Rule 7.03, provided the request method clearly states the title and section of the relevant disclosures. If technically feasible, the request method must also link the Consumer directly to the relevant section of the disclosure.
- D. Example: A mobile application requests Consent to collect health information to provide diet and fitness advice. The Consent request provides a link to the application's privacy notice which contains the required Consent disclosures. However, the Consent request does not direct or bring the Consumer to the relevant section of the privacy notice. Consent is not valid because the Consent request does not clearly indicate the title and section where the Consumer can find the required disclosures and did not link the Consumer directly to the relevant section of the privacy notice.
- E. Example: Acme Toy Store collects customer email addresses in order to send customers information about product recalls and maintains those email addresses in a recall email distribution list. Acme Toy Store wants to use the recall email distribution list to send those customers promotional materials. Acme Toy Store must obtain customer consent prior to using the recall email distribution list to provide promotional materials because providing promotional materials is not necessary to or compatible with providing product recall information. Acme Toy Store emails the recall distribution list attaching a revised privacy notice disclosing the new promotional purposes and asks customers to Consent to the new privacy notice, but does not state the new purpose in the email, and does not direct customers to the section of the privacy notice disclosing the secondary purpose. Consent is not valid because the email did not contain the required Consent disclosures or direct the customers to a document containing the required Consent disclosures.
  - 1. Example: Under the same circumstances, Acme Toy Store emails the recall email distribution list informing those customers that Consent is required for the Acme Toy Store to Process email addresses for a secondary purpose, explaining that the secondary purpose is to provide customers with promotional materials, providing all other required disclosures and including a mechanism that enables the customers to provide Consent and to revoke Consent through the same user interface. Consent is valid because the email contained all required Consent disclosures in an acceptable form.

2. Example: Under the same circumstances, Acme Toy Store emails the product recall email distribution list informing those customers that it would like to use their email addresses for a secondary purpose as contemplated in section B.2.e. of its privacy notice and requests the customers' Consent to do so. It then provides a link directly to section B.2.e. of its privacy notice which explains that Acme Toy Store uses customer email addresses to send information about Acme Toy Store's sales and promotions, in addition to all other disclosures. The email provides a Consent mechanism that enables the customers to provide or revoke consent through the same user interface. Consent is valid because the email and linked page together contained all required disclosures, the email provided the specific section of the relevant disclosures, and the link brought the customers directly to the relevant disclosures.

**Rule 7.05      CONSENT AFTER OPT-OUT**

- A. The Consumer's decision to Consent to Processing activities from which the Consumer has previously opted-out using either a Universal Opt-Out Mechanism or directly with a particular Controller is subject to the requirements for Consent under 4 CCR 904-3, Rules 7.03 and 7.04.
- B. If a Controller wishes to proactively obtain Consent to Process Personal Data for an Opt-Out Purpose after the Consumer has opted out of Processing for that Purpose, a Controller shall provide a link or similar mechanism on its website or application that enables the Consumer to provide Consent. The link or similar mechanism must:
  1. Have a similar look, feel, and size relative to other links on the same web page or application, and not be presented through pop-up windows, pop-up banners, or other web interface displays that degrade or obstruct the Consumer's experience on the Controller's web page or application; and
  2. Meet all other requirements for a valid Consent under this Part 7.
- C. If a Controller conspicuously displays the status of the Consumer's opt-out choice on the website pursuant to 4 CCR 904-3, Rule 5.08(E), the link to provide Consent may appear beside or in conjunction with the Consumer's opt-out status.
- D. If a Consumer has opted-out of the Processing of Personal Data for the Opt-Out Purposes, and then initiates a transaction or attempts to use a product or service inconsistent with the request to opt-out, such as signing up for a Bona Fide Loyalty Program that also involves the Sale of Personal Data, the Controller may request the Consumer's Consent to Process the Consumer's Personal Data for that purpose, so long as the request for Consent complies with all provisions of 4 CCR 904-3, Rules 7.03 and 7.04.
- E. Example: A Consumer opts out of the use of Personal Data for Sale or Targeted Advertising using a Universal Opt-Out Mechanism. The Consumer visits the website of a fashion retailer that routinely shares Consumer Personal Data for Targeted Advertising. The fashion retailer must obtain the Consumer's consent because the Consumer has already opted out of Processing for that purpose. The fashion retailer's website displays a pop-up banner seeking Consent to share the Consumer's Personal Data for Targeted Advertising. This is not a valid request for Consumer Consent because the request is made through a pop-up banner that degrades or obstructs the Consumer's experience on the Controller's web page or application.
- F. Example: A Consumer opts out of the use of Personal Data for Sale or Targeted Advertising using a Universal Opt-Out Mechanism. The Consumer visits a fashion retailer's website. The fashion retailer's homepage contains a message at the top of the webpage that states "you have opted out of targeted advertising" next to a link that states "Opt-in to Data Use". The linked

webpage also meets all requirements of 4 CCR 904-3, Rules 7.03 and 7.04. Consent pursuant to this request is valid.

**Rule 7.06      CONSENT FOR CHILDREN**

- A. If a Controller operates a website or business directed to Children or has actual knowledge that it is collecting or maintaining Personal Data from a Child, the Controller shall take commercially reasonable steps to verify a Consumer's age before Processing that Consumer's Personal Data.
- B. When a Controller engages in Processing activities involving the collection and Processing of Personal Data from a known Child, the Controller must obtain Consent from the parent or lawful guardian of that Child before collecting or Processing the Child's Personal Data.
- C. A Controller Processing the Personal Data of a Child must make reasonable efforts to obtain verifiable parental Consent, taking into consideration available technology. Any method to obtain verifiable parental Consent must be reasonably calculated, in light of available technology, to ensure that the person providing Consent is the Child's parent.
- D. Reasonably calculated methods for determining that a person Consenting to the Processing of a Child's Personal Data is the parent or lawful guardian of that Child include, but are not limited to:
  - 1. Providing a Consent form to be signed by the parent or guardian under penalty of perjury and returned to the business by postal mail, facsimile, or electronic scan.
  - 2. Requiring a parent or guardian, in connection with a monetary transaction, to use a credit card, debit card, or other online payment system that provides notification of each discrete transaction to the primary account holder.
  - 3. Having a parent or guardian call a toll-free telephone number staffed by trained personnel.
  - 4. Having a parent or guardian connect to trained personnel via videoconference.
  - 5. Verifying a parent or guardian's identity by checking a form of government-issued identification against databases of such information, as long as the parent or guardian's identification is deleted by the business from its records promptly after such verification is complete.
- E. Any Personal Data collected for purposes of verifying a person's age or the identity of a parent or legal guardian may not be used for any reason other than Processing these verifications.
- F. Parental verification and Consent pursuant to this section must be documented as required by 4 CCR 904-3, Rule 6.11.

**Rule 7.07      REFUSING OR WITHDRAWING CONSENT**

- A. A Consumer shall be able to refuse or revoke Consent as easily and within the same number of steps as Consent is affirmatively provided.
- B. If Consent is obtained through an electronic interface, the Consumer shall be able to refuse or withdraw Consent through the same electronic interface.
- C. When using an electronic interface and when feasible based on the Consumer's relationship with the Controller, a Controller should allow Consumers to track what Processing activities they have Consented to or opted out of.

- D. There shall be no detriment to a Consumer for refusing or withdrawing Consent, consistent with C.R.S. § 6-1-1308(1)(c)(II), and 4 CCR 904-3, Rule 6.05.
- E. If a Consumer withdraws Consent for a Processing activity, the Controller shall cease that Processing activity and provide the Consumer instructions on how to exercise the Right to Deletion or provide a link to exercise the Right to Deletion.
  - 1. If the Personal Data subject to the withdrawal of Consent is Sensitive Data, the Controller shall, pursuant to C.R.S. § 6-1-1308(3) and 4 CCR 904-3, Rule 6.07, delete or otherwise render permanently anonymized or inaccessible the Sensitive Data collected solely for the purpose of that Processing activity and not reasonably necessary in relation to another specified purpose for which the Controller has obtained and continues to have valid Consent.

**Rule 7.08 REFRESHING CONSENT**

- A. A Controller that has obtained Consent from a Consumer must refresh Consent in compliance with all requirements of this Part 7 at regular intervals based on the context and scope of the original Consent, sensitivity of the Personal Data collected, and reasonable expectations of the Consumer.
- B. If a Processing purpose materially evolves such that the new purpose becomes a secondary use pursuant to C.R.S. § 6-1-1308(4), the Consumer's original Consent is no longer valid, and the Controller must obtain new Consent pursuant to Part 7 of these rules.
- C. For Processing of Sensitive Data, Consent must be refreshed at least annually.

**Rule 7.09 USER INTERFACE DESIGN, CHOICE ARCHITECTURE, AND DARK PATTERNS**

- A. Controllers shall not use an interface design or choice architecture that has the substantial effect of subverting or impairing user autonomy, decision making or choice, or unfairly, fraudulently, or deceptively manipulating or coercing a Consumer into providing Consent.
- B. The following principles shall be considered when designing a user interface or a choice architecture:
  - 1. Consent choice options should be presented to Consumers in a symmetrical way that does not impose unequal weight or focus on one available choice over another.
    - a. Example: One choice should not be presented with less prominent size, font, or styling than the other choice. Presenting an "I accept" button in a larger size than the "I do not accept" button would not be considered equal or symmetrical. Presenting an "I do not accept" button in a greyed-out color while the "I accept" button is presented in a bright or obvious color would not be considered equal or symmetrical.
    - b. Example: If multiple choices are offered to a Consumer, it should be equally easy to accept or reject all options. Presenting the option to "accept all" when offering a Consumer the choice to Consent to the use of Sensitive Data for multiple purposes without an option to "reject all" would not be considered equal or symmetrical.
  - 2. Consent choice options should avoid the use of emotionally manipulative language or visuals to coerce or steer Consumer choice.

- a. Example: One choice should not be presented in a way that creates unnecessary guilt or shames the user into selecting a specific choice. Presenting the choices “I accept, I want to help endangered species” vs “No, I don’t care about animals” could be considered emotionally manipulative.
  - b. Example: The explanation of the choice to Consumers should not include gratuitous information to emotionally manipulate Consumers. Explaining that a mobile application “helps save lives” when asking for Consent to collect Sensitive Data for Targeted Advertising may be considered emotionally manipulative if the Targeted Advertising is not critical to the lifesaving functionality of the application.
3. A Consumer’s silence or failure to take an affirmative action should not be interpreted as acceptance or Consent.
  - a. Example: A Consumer closing a pop-up window which requests Consent without first affirmatively selecting the equivalent of an “I accept” button should not be interpreted as Consent.
  - b. Example: A Consumer navigating forward on a webpage after a Consent choice has been presented without selecting the equivalent of an “I accept” button should not be interpreted as affirmative Consent.
  - c. Example: A Consumer continuing to use a Smart TV without replying “I accept” or “I consent” in reply to a verbal request for Consent should not be interpreted as affirmative Consent.
4. Consent choice options should not be presented with a preselected or default option.
  - a. Example: Checkboxes or radial buttons should not be selected automatically when presented to a Consumer.
5. A Consumer should be able to select either Consent choice option within the same number of steps.
  - a. Example: Consumers should be presented with all choices at the same time. Presenting an “I accept” button next to a “Learn More” button which requires Consumers to take an extra step before they are given the option of an “I do not accept” button could be considered an unnecessary restriction.
  - b. Example: Describing the choice before Consumers and placing both the “I accept” and “I do not accept” buttons after a “select preferences” button would not be considered an unnecessary restriction.
6. A Consumer’s expected interaction with a website, application, or product should not be unnecessarily interrupted or intruded upon to request Consent.
  - a. Example: Consumers should not be interrupted multiple times in one visit to a website to Consent if they have declined the Consent choice offered when they arrived at the page.
  - b. Example: Consumers should not be redirected away from the content or service they are attempting to interact with because they declined the Consent choice offered.

- c. Example: Consumers should not be forced to navigate through multiple pop-ups which cover or otherwise disrupt the content or service they are attempting to interact with because they declined the Consent choice offered.
  - 7. Consent choice options should not include misleading statements, omissions, affirmative misstatements, or intentionally confusing language to obtain Consent.
    - a. Example: Choices should not be driven by a false sense of urgency. A countdown clock displayed next to a Consent choice option which states “time is running out to Consent to this data use and receive a limited discount” where the discount is not actually limited by time or availability would be considered creating a false sense of urgency.
    - b. Example: Choices should avoid the use of double negatives when describing Consent choice options to Consumers.
    - c. Example: Consent choice options should not be presented with confusing or unexpected syntax. “Please do not check this box if you wish to Consent to this data use” would be considered confusing syntax.
    - d. Example: The language used for choice options should logically follow the question presented to the Consumer. Offering the options of “Yes” or “No” to the question “Do you wish to provide or decline Consent for the described purposes” would be considered an illogical choice option. The choice options “provide” and “decline” would be considered to logically follow the same question.
  - 8. The vulnerabilities or unique characteristics of the target audience of a product, service, or website should be considered when deciding how to present Consent choice options.
    - a. Example: A website or service that primarily interacts with Consumers under the age of 18 should consider the simplicity of the language used to explain the choice options or the way in which cartoon imagery or endorsements might unduly influence their choice.
    - b. Example: A website or service that primarily interacts with the elderly should consider font size and space between buttons to ensure readability and ease of interaction with design elements.
  - 9. User interface design and Consent choice architecture should operate in a substantially similar manner when accessed through digital accessibility tools.
    - a. Example: If it takes two clicks for a Consumer to Consent through a website, it should take no more than two actions for a Consumer using a digital accessibility tool to complete the same Consent process.
- C. The use of Dark Patterns, as defined in C.R.S. § 6-1-1303(9), is prohibited.
- D. Consent obtained in violation of this part 4 CCR 904-3, Rule 7.09 may be considered a Dark Pattern. Any agreement obtained through Dark Patterns does not constitute valid Consent in compliance with C.R.S. §§ 6-1-1303, 6-1-1306, and 6-1-1308.
- E. The fact that a design or practice is commonly used is not, alone, enough to demonstrate that any particular design or practice is not a Dark Pattern.

- F. In addition to the principles included in this part 4 CCR 904-3, Rule 7.09, Controllers may consider statutes, administrative rules, and administrative guidance concerning Dark Patterns from other jurisdictions when evaluating the appropriateness of their proposed choice architecture or system design.

## **PART 8 DATA PROTECTION ASSESSMENTS**

### **Rule 8.01 AUTHORITY AND PURPOSE**

- A. The statutory authority for the rules in this Part 8 is C.R.S. §§ 6-1-108(1), 6-1-1309, and 6-1-1313. The purpose of the rules in this Part 8 is to provide clarity on the requirements and timing of data protection assessments.

### **Rule 8.02 SCOPE**

- A. A data protection assessment shall be a genuine, thoughtful analysis that: 1) identifies and describes all risks posed by Processing that presents a heightened risk of harm to a Consumer; 2) documents measures considered and taken to address and offset those risks, including those duties required by C.R.S. § 6-1-1308; 3) contemplates the benefits of the Processing; and 4) demonstrates that the benefits of the Processing outweigh the risks offset by safeguards in place.
- B. If a Controller conducts a data protection assessment for the purpose of complying with another jurisdiction's law or regulation, the assessment shall satisfy the requirements established in this section if such data protection assessment is reasonably similar in scope and effect to the data protection assessment that would otherwise be conducted pursuant to this section.
- C. The depth, level of detail, and scope of data protection assessments should be proportionate to the size of the Controller, amount and sensitivity of Personal Data Processed, and Personal Data Processing activities subject to the assessment.
- D. A “comparable set of Processing operations” that can be addressed by a single data protection assessment pursuant to C.R.S. § 6-1-1309(5) is a set of Processing operations using similar methods to collect the same categories of Personal Data for the same purposes.
1. Example: The ACME Toy Store chain is considering using in-store paper forms to collect names, mailing addresses, and birthdays from Children that visit their stores, and using that information to mail a coupon and list of age-appropriate toys to each child during the Child's birth month and every November. ACME uses the same Processors and Processing systems for each category of mailings across all stores. ACME must conduct and document a data protection assessment because it is Processing Personal Data from known Children, which is Sensitive Data. ACME can use the same data protection assessment for Processing the Personal Data for the birthday mailing and November mailing across all stores because in each case it is collecting the same categories of Personal Data in the same way for the purpose of sending coupons and age-appropriate toy lists to Children.

### **Rule 8.03 STAKEHOLDER INVOLVEMENT**

- A. A data protection assessment should involve all relevant internal actors from across the Controller's organizational structure, and where needed, relevant external parties, to identify, assess and address the data protection risks.

### **Rule 8.04 DATA PROTECTION ASSESSMENT CONTENT**

- A. At a minimum, a data protection assessment must describe each of the following:

1. The Processing activity;
2. The specific purpose of the Processing activity;
3. The specific types of Personal Data to be Processed as well as the sources and amount of Personal Data collected, how long the Personal Data will be maintained, and whether it includes Sensitive Data, including Personal Data from a known Child as described in C.R.S. § 6-1-1303(24);
4. How the Personal Data to be Processed is adequate, relevant, and limited to what is reasonably necessary in relation to the specified purpose;
5. Operational details for the Processing, including planned processes for Personal Data collection, use, storage, retention, and sharing, and the technology or Processors to be used;
6. Names and categories of Personal Data recipients, including Third Parties, Affiliates, and Processors that will have access to the Personal Data;
7. The relationship between the Controller and the Consumer(s) whose Personal Data will be Processed;
8. The expectations of the Consumer(s) concerning how their Personal Data will be used, including expectations based on privacy notices, Consent disclosures and unique vulnerabilities;
9. Procedural safeguards to be afforded to the Consumer when Personal Data is obtained, including:
  - a. Whether and how the Controller will request Consent, if required, in accordance with Part 7 of these rules;
  - b. Whether and how the Controller will provide Consumers the opportunity to opt out of Processing, if required, in accordance with 4 CCR 904-3, Rule 4.03 and Part 5 of these rules; and
  - c. Whether and how the Controller will review web interfaces to be used in Consent requests for Dark Patterns.
10. Alternative Processing activities considered to achieve the same purpose;
11. The sources and nature of risks to individual Consumers and broader Consumer groups posed by the Processing activity. The source and nature of the risks may differ based on the processing activity and type of Personal Data processed. Issues that a Controller may consider in a data protection assessment include, for example:
  - a. Constitutional harms, such as speech harms or associational harms;
  - b. Intellectual privacy harms, such as the creation of negative inferences about an individual based on what an individual reads, learns, or debates;
  - c. Data security harms, such as unauthorized access or adversarial use;

- d. Discrimination harms, such as a violation of federal antidiscrimination laws or antidiscrimination laws of any state or political subdivision thereof, or unlawful disparate impact;
  - e. Unfair, unconscionable, or deceptive treatment;
  - f. A negative outcome or decision with respect to an individual's eligibility for a right, privilege, or benefit related to financial or lending services, housing, insurance, education enrollment or opportunity, criminal justice, employment opportunities, health-care services, or access to essential goods or services;
  - g. Financial injury or economic harm;
  - h. Physical injury, harassment, or threat to an individual or property;
  - i. Privacy harms, such as physical or other intrusion upon the solitude or seclusion or the private affairs or concerns of Consumers, stigmatization or reputational injury;
  - j. Psychological harm, including anxiety, embarrassment, fear, and other mental trauma; or
  - k. Other detrimental or negative consequences that affect an individual's private life, privacy affairs, private family matters or similar concerns, including actions and communications within an individual's home or similar physical, online, or digital location, where an individual has a reasonable expectation that Personal Data or other data will not be collected, observed, or used.
- 12. Measures and safeguards a Controller will put into place to mitigate risks and comply with C.R.S. § 6-1-1308, which may include, but are not limited to:
  - a. Measures to secure Personal Data during storage, use, and transfer, including any relevant data security frameworks used;
  - b. Measures to limit the categories and amount of Personal Data to be Processed;
  - c. The use of De-identified Data;
  - d. Measures taken to prevent the Processing activity from leading to unlawful discrimination;
  - e. Contractual agreements in place to ensure that Personal Data in the possession of a Processor or other Third Party remains secure; or
  - f. Any other practices, policies, or trainings intended to mitigate Processing risks.
- 13. If a Controller is Processing Personal Data for Profiling as contemplated in C.R.S. § 6-1-1309(2)(a), a data protection assessment of that Processing activity must also comply with 4 CCR 904-3, Rule 9.06;
- 14. If a Controller is Processing Sensitive Data pursuant to the exception in section 4 CCR 904-3, Rule 6.10, the details of the process implemented to ensure that Personal Data and Sensitive Data Inferences are not transferred and are deleted within twelve (12) hours of the Personal Data Processing activity subject to the exception, as well as the auditing procedure for this process;

15. The benefits of the Processing that may flow to the Controller, Consumer, and other expected stakeholders, and how the benefits outweigh the risks, as mitigated by safeguards, and justify the Processing activity;
16. Relevant internal actors and external parties contributing to the data protection assessment;
17. The data protection assessment review process, including whether any internal or external audit was conducted, and if so, the name of the auditor, the names and positions of individuals involved in the review process, and the details of the audit process; and
18. Dates the data protection assessment was reviewed and approved, and names, positions, and signatures of the individuals responsible for the review and approval.

**Rule 8.05      TIMING**

- A. A Controller shall conduct and document a data protection assessment before initiating a data Processing activity that Presents a Heightened Risk of Harm to a Consumer, as defined at C.R.S. § 6-1-1309(2).
- B. A Controller shall review and update the data protection assessment periodically throughout the Processing activity's lifecycle in order to: 1) monitor for harm caused by the Processing and adjust safeguards accordingly; and 2) ensure that data protection and privacy are considered as the Controller makes new decisions with respect to the Processing.
- C. Data protection assessments containing Processing for Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer shall be reviewed and updated at least annually, and include an updated evaluation for fairness and disparate impact and the results of any such evaluation.
- D. A new data Processing activity is generated when existing Processing activities are modified in a way that materially changes the level of risk presented. When a new data Processing activity is generated, a data protection assessment must reflect changes to the pre-existing activity and additional considerations and safeguards to offset the new risk level.
  1. Modifications that may materially change the level of risk of a Processing activity may include, without limitation, changes to any of the following:
    - a. The way that existing systems or Processes handle Personal Data;
    - b. Processing purpose;
    - c. Personal data Processed or sources of Personal Data;
    - d. Method of collection of Personal Data;
    - e. Personal Data recipients;
    - f. Processor roles or Processors;
    - g. Algorithm applied or algorithmic result; or
    - h. Software or other systems used for Processing

- E. Data protection assessments, including prior versions which have been revised when a new data Processing activity is generated, shall be stored for as long as the Processing activity continues, and for at least three (3) years after the conclusion of the Processing activity. Data protection assessments shall be held in an electronic, transferable form.
- F. Data protection assessments shall be required for activities conducted after July 1, 2023 and are not retroactive.

**Rule 8.06 ATTORNEY GENERAL REQUESTS**

- A. A Controller shall make the data protection assessment available to the Attorney General within thirty (30) days of the Attorney General's request.

**PART 9 PROFILING**

**Rule 9.01 AUTHORITY AND PURPOSE**

- A. The statutory authority for the rules in this Part 9 is C.R.S. §§ 6-1-108(1), 6-1-1306, 6-1-1309, and 6-1-1313. The purpose of the rules in this Part 9 is to provide clarity on the duties and rights related to Profiling.

**Rule 9.02 SCOPE**

- A. Controllers have an affirmative obligation to provide clear, understandable, and transparent information to Consumers about how their Personal Data is used, including for Profiling, pursuant to C.R.S. § 6-1-1302(1)(c)(II)(B).
- B. Consumers have the right to opt out of Profiling when the Profiling is done in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer, pursuant to C.R.S. §§ 6-1-1306(1)(a)(I).
- C. Controllers must conduct and document a data protection assessment compliant with C.R.S. § 6-1-1309 and Part 8 of these rules before Processing Personal Data for Profiling as contemplated in C.R.S. §§ 6-1-1303(10) and 6-1-1309(1)(a)(I).
- D. The Automated Processing used in Profiling includes Solely Automated Processing, Human Reviewed Automated Processing, and Human Involved Automated Processing, as defined at 4 CCR 904-3, Rule 2.02.

**Rule 9.03 PROFILING OPT-OUT TRANSPARENCY**

- A. To ensure that Consumers understand how their Personal Data may be used for Profiling in furtherance of Decisions that Produce Legal or Other Similarly Significant Effects Concerning a Consumer, Controllers that Process Personal Data for Profiling covered by C.R.S. §§ 6-1-1303(10) and 6-1-1306(1)(a)(I) shall provide clear, understandable, and transparent information to Consumers in the required privacy notice, including at a minimum:
  - 1. What decision is subject to Profiling;
  - 2. The categories of Personal Data that were or will be Processed as part of the Profiling in Furtherance of Decisions that Produce Legal or Other Similarly Significant Effects;
  - 3. A plain language explanation of the logic used in the Profiling process;
  - 4. Why Profiling is relevant to the ultimate decision;

5. If the Profiling is used to serve ads related to housing, employment, or financial or lending services;
  6. If the system has been evaluated for accuracy, fairness, or bias, including the impact of the use of Sensitive Data, and the outcome of any such evaluation;
  7. The benefits and potential consequences of the decision concerning the Consumer; and
  8. Information about how a Consumer may exercise the right to opt out of the Processing of Personal Data concerning the Consumer for Profiling in Furtherance of Decisions that Produce Legal or Other Similarly Significant Effects.
- B. Notwithstanding the requirements in 4 CCR 904-3, Rule 9.03(A), nothing in 4 CCR 904-3, Rule 9.03 shall be construed as requiring the Controller to provide information to a Consumer in a manner that would disclose the Controller's trade secrets.

**Rule 9.04      OPTING OUT OF PROFILING IN FURTHERANCE OF DECISIONS THAT PRODUCE LEGAL OR SIMILARLY SIGNIFICANT EFFECTS CONCERNING A CONSUMER**

- A. Consumers have the right to opt out of Profiling in furtherance of Decisions that Produce Legal or other Similarly Significant Effects Concerning a Consumer through the method specified by the Controller in the required privacy notice, pursuant to C.R.S. § 6-1-1306(1) and 4 CCR 904-3, Rule 4.03.
- B. Requests to opt out of Profiling in furtherance of Decisions that Produce Legal or other Similarly Significant Effects Concerning a Consumer based on Solely Automated Processing or Human Reviewed Automated Processing shall be honored pursuant to C.R.S. § 6-1-1306(2).
- C. A Controller may not take action on a request to opt out of Profiling in furtherance of Decisions that Produce Legal or other Similarly Significant Effects Concerning a Consumer if the Profiling used is based on Human Involved Automated Processing. If a Controller does not take action based on this reason, the Controller shall inform the Consumer pursuant to C.R.S. § 6-1-1306(2)(b) and include the following information:
1. The decision subject to the Profiling;
  2. The specific pieces of Personal Data that were or will be used as part of the Profiling used in the decision-making process;
  3. A non-technical, plain language explanation of the logic used in the Profiling process, or a link to such information if it is included in the Controller's privacy notice;
  4. A non-technical, plain language explanation of the role of meaningful human involvement in Profiling and the decision-making process;
  5. Why the Profiling is relevant to the decision-making process;
  6. The benefits and potential consequences of the decision based on the Profiling; and
  7. An explanation of how Consumers can correct or delete the Personal Data used in the Profiling used in the decision-making process.
- D. In order to ensure that Consumers have an opportunity to exercise their right to opt out of Profiling in furtherance of Decisions that Produce Legal or Other Similarly Significant Effects Concerning a Consumer, Controllers that Process Personal Data for Profiling covered by C.R.S.

§§ 6-1-1303(10) and 6-1-1306(1)(a)(I) shall provide a method to exercise the right to opt out of Profiling in furtherance of Decision that Produce Legal or Other similarly Significant Effects Concerning a Consumer clearly and conspicuously in any required privacy notice and in a clear, conspicuous, and readily accessible location outside of the privacy notice.

**Rule 9.05      CONSENT FOR PROFILING IN FURTHERANCE OF DECISIONS THAT PRODUCE LEGAL OR SIMILARLY SIGNIFICANT EFFECTS CONCERNING A CONSUMER**

- A. When a Consumer has opted out of Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer as defined by C.R.S. § 6-1-1303(10), the Controller may request that a Consumer provide Consent after opting out subject to 4 CCR 904-3, Rule 7.05.
- B. If a Controller decides to begin Processing Personal Data for Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer and such Processing is not reasonably necessary to or compatible with the original specified purposes for which the Personal Data was Processed, the Controller shall request the Consumer provide Consent subject to C.R.S. § 6-1-1308(4) and Part 7 of these rules.
- C. Any request for Consent to Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer must include meaningful information about the Profiling that allows a Consumer to make an informed, freely given, and specific choice, including, at a minimum:
  - 1. The decision subject to the Profiling;
  - 2. The categories of Personal Data used in the Profiling;
  - 3. A plain language explanation of the logic used in the Profiling, or a link to such information if it is included in the Controller's privacy notice;
  - 4. How Profiling is used in the decision-making process, including if the decision is based on Solely Automated Processing, Human Reviewed Automated Processing, or Human Involved Automated Processing;
  - 5. Why the Profiling is relevant to the decision-making process;
  - 6. Potential benefits and consequences of the decision based on the Profiling; and
  - 7. A link to where Consumers can find any additional information about the Profiling and decision-making process and their associated rights.
- D. Notwithstanding the requirements in 4 CCR 904-3, Rule 9.05(C), nothing in 4 CCR 904-3, Rule 9.03 shall be constructed as requiring the Controller to provide information to a Consumer in a manner that would disclose the Controller's trade secrets.

**Rule 9.06      DATA PROTECTION ASSESSMENTS FOR PROFILING**

- A. Controllers must conduct and document a data protection assessment compliant with C.R.S. § 6-1-1309 and 4 CCR 904-3. Rules 8.01-8.05 before Processing Personal Data for Profiling if the Profiling presents a reasonably foreseeable risk of:
  - 1. Unfair or deceptive treatment of, or unlawful disparate impact on Consumers;
  - 2. Financial or physical injury to Consumers;

3. A physical or other intrusion upon the solitude or seclusion, or private affairs or concerns, of Consumers if the intrusion would be offensive to a reasonable person; or
  4. Other substantial injury to Consumers.
- B. Profiling under C.R.S. § 6-1-1309(2)(a) and covered by required data protection assessment includes Profiling using Solely Automated Processing, Human Reviewed Automated Processing, and Human Involved Automated Processing.
- C. “Unfair or deceptive treatment” as used in this 4 CCR 904-3, Rule 9.06 includes conduct or activity which violates state or federal laws that prohibit unfair and deceptive commercial practices.
- D. “Unlawful disparate impact” as used in this 4 CCR 904-3, Rule 9.06 includes conduct or activity which violates state or federal laws that prohibit unlawful discrimination against Consumers.
- E. “Other substantial injury” to Consumers as used in this 4 CCR 904-3, Rule 9.06 includes but is not limited to a small harm to a large number of Consumers.
- F. If a Controller is Processing Personal Data for Profiling under C.R.S. § 6-1-1309(2)(a), a data protection assessment of that Processing activity must include the elements listed at 4 CCR 904-3, Rule 8.04 as well as each of the following:
1. The specific types of Personal Data that were or will be used in the Profiling or decision-making process;
  2. The decision to be made using the automated decision-making system;
  3. The benefits of Automated Processing over manual Processing for the stated purpose;
  4. A plain language explanation of why the Profiling directly and reasonably relates to the Controller’s goods and services;
  5. An explanation of the training data and logic used to create the Profiling system, including any statistics used in the analysis;
  6. If the Profiling is conducted by Third Party software purchased by the Controller, the name of the software and copies of any internal or external evaluations of the accuracy and reliability of the software;
  7. A plain language description of the outputs secured from the Profiling process;
  8. A plain language description of how the outputs from the Profiling process are or will be used, including whether and how they are used to make a decision to provide or deny or substantially contribute to the provision or denial of financial or lending services, housing, insurance, education, enrollment or opportunity, criminal justice, employment opportunities, health-care services, or access to essential goods or services.
  9. If there is human involvement in the Profiling process, the degree and details of any human involvement;
  10. How the Profiling system is evaluated for fairness and disparate impact, and the results of any such evaluation;
  11. Safeguards used to reduce the risk of harms identified; and

12. Safeguards for any data sets produced by or derived from the Profiling.

**PART 10 MATERIALS INCORPORATED BY REFERENCE**

**Rule 10.01 AUTHORITY AND PURPOSE**

- A. The statutory authority for the rules in this Part 10 is C.R.S. §§ 6-1-108(1) and 6-1-1313. The purpose of the rules in this Part 10 is to incorporate by reference the guidelines that are referred to in 4 CCR 904-3, Rule 3.01(A)(2).

**Rule 10.02 WEB CONTENT ACCESSIBILITY GUIDELINES**

- A. The Web Content Accessibility Guidelines, version 2.1 of June 5, 2018, from the World Wide Web Consortium, are hereby incorporated into 4 CCR 904-3, Rule 3.01(A)(2) by reference pursuant to C.R.S. § 24-4-103(12.5), and do not include any later amendments.
- B. Copies of the Web Content Accessibility Guidelines that are incorporated by reference into these rules may be obtained by sending a written request to the following address by U.S. mail:
- Colorado Department of Law  
Ralph L. Carr Judicial Center  
1300 Broadway, 9<sup>th</sup> Floor  
Denver, CO 80203
- C. The Web Content Accessibility Guidelines published by the World Wide Web Consortium incorporated by reference into these rules are available at no cost in an electronic form online at <https://www.w3.org/TR/WCAG21/>.
- D. The Colorado Department of Law also maintains a copy of the Web Content Accessibility Guidelines that are incorporated by reference into these rules that is available for public inspection at the Colorado Department of Law's office during regular business hours.

**Notice of Proposed Rulemaking**  
**Department of Law**  
**Attorney General - Consumer Protection Section**  
**Colorado Privacy Act Rules**  
**4 CCR 904-3**

**Date & Time of Public Hearings**  
**Wednesday, February 1, 2023, at 10:00 AM MST**

**I. Notice**

As required by the Colorado Administrative Procedure Act found at C.R.S. § 24-4-103, the Department of Law gives notice of proposed rulemaking in connection with draft rules governing the implementation of the Colorado Privacy Act, C.R.S. § 6-1-1301, *et seq.* (“CPA”).

The proposed rulemaking hearing is scheduled for February 1, 2023, at 10:00 AM, and will continue as needed. The hearing will be conducted both in person and by video conference. All interested parties must register to attend the public hearing through the registration link provided in the table below.

Date	Location	Time	Registration Link
February 1, 2023	In Person: Office of The Attorney General Colorado Department of Law Ralph L. Carr Judicial Building 1300 Broadway, Room 1D Denver, CO 80203  Video Conference: Link available upon registration	10:00 AM	<a href="https://us02web.zoom.us/join/https://us02web.zoom.us/webinar/register/WN_FjipF9kMQ_aKBoC1rGI6KQ">https://us02web.zoom.us/join/https://us02web.zoom.us/webinar/register/WN_FjipF9kMQ_aKBoC1rGI6KQ</a>

**How to Register for the Rulemaking Hearing**

You must click on the registration link provided in the table above to register for the hearing. When you register, you must provide your full name and email address. You may also provide the name of the organization that you are representing, if any. Finally, please indicate whether you plan on attending the hearing in person or remotely by video conference, and whether you plan to testify during the hearing. When you submit your registration, you will receive a confirmation email including details about how to join the hearing virtually or attend in person. The registration link for the hearing is also available on the Colorado Department of Law’s CPA rulemaking website at [coag.gov/CPA](https://coag.gov/CPA).

## II. Subject

The Colorado Department of Law (the “Department”) is considering rules governing the implementation of the CPA. The specific purpose of this rulemaking is to create rules governing the ways in which the CPA shall be carried out, including the clarification of Consumer Data Rights, Controller Obligations, and technical specifications for one or more Universal Opt-Out Mechanisms.<sup>1</sup>

Only the rule provisions included in the proposed draft rules will be opened for comment during this rulemaking period. A detailed Statement of Basis, Purpose, and Specific Statutory Authority and the complete set of proposed draft rules follow this notice and are incorporated herein by reference.

The Department invites comments from all members of the public regarding the proposed draft rules during the rulemaking process. Additionally, the Department welcomes input responsive to the following specific questions. Please note that these questions are not intended to limit input or indicate that the Department is predisposed to any position or action.

### ***1. Definitions (4 CCR 904-3, Rules 2.01, et seq.)***

- *Biometric Data.* The CPA does not define Biometric Data. The Department based the proposed definition of “biometric data” on corresponding laws in the United States. Does this definition sufficiently capture and protect biometric information?
- *Widely Available Information.* The CPA does not define or use the phrase “Widely Available Information” in its definition of “Publicly Available Information.” The Department has clarified the scope of “information that a Controller has a reasonable basis to believe the Consumer has lawfully made available to the general public” to address concerns raised during the pre-rulemaking period. Are there any other examples that can be provided to further refine this proposed definition?
- *Publicly Available Information.* The Department has provided clarity regarding information that is not included in the proposed definition of “Publicly Available Information.” Of note, Personal Data obtained or processed in violation of C.R.S. §§ 18-7-107 and 18-7-801 have been excluded from the definition of “Publicly Available Information.” Are there any other laws that should be included? Are there additional exclusions beyond these laws the Department should include?

### ***2. Consumer Personal Data Rights (4 CCR 904-3, Rules 4.01, et seq.)***

- *Right to opt out.* The CPA requires that Controllers provide an opt-out method “clearly and conspicuously in any privacy notice required to be provided to Consumers under this part 13, and in a clear, conspicuous, and readily accessible location outside the privacy notice.”

---

<sup>1</sup> All undefined terms capitalized herein shall be interpreted as defined in the CPA or proposed Rules

What does “conspicuous and readily accessible location” mean with respect to Controllers that do not have a direct relationship with Consumers? Is a location on a Controller’s website conspicuous and readily accessible if a Consumer has no way to know that the Controller is Processing that Consumer’s Personal Data?

- *Right of access.* The CPA provides Consumers with the right to access the Consumer’s Personal Data that is maintained or otherwise Processed by a Controller. How should a Controller provide Personal Data to a Consumer in response to an access request? Is there a particular form that would best enable a Consumer to make an informed decision of whether to exercise deletion, correction, or opt-out rights?
- *Right to correction.* The draft rules anticipate instances where Personal Data may be corrected more quickly and easily through account settings than through the Data Rights request process at 4 CCR 904-3, Rule 4.05(B). Does the language provided in this rule sufficiently effectuate this point? How might the language be modified to deter Controllers from abusing the purpose of the provision?
  - When the Consumer and the Controller disagree on the accuracy of the Personal Data in question, the draft rules include a provision allowing a Controller to request documents supporting the Consumer’s assertion that the Personal Data is incorrect before completing the request. Does this provision provide adequate instruction to address the issue? Is there a way to establish the accuracy of Personal Data that would be less burdensome on Consumers?
- *Authentication.* The draft rules instruct Controllers on the CPA’s requirements for Authenticating a Consumer or authorized agent submitting a Data Rights request. Do these Authentication requirements sufficiently contemplate data security and protection against identity theft? When and why should a Controller be able to deny a Consumer’s Data Rights Request based on inability to Authenticate? Are there additional factors that we should consider with respect to Authentication of Authorized Agents?
- *Appeal process.* Does the CPA sufficiently address the process of appealing a Controller’s actions in response to a Consumer Data Rights request? Would additional rules be helpful? What parts of the appeals process could benefit from interpretive guidance or description of best practices?

### **3. Universal Opt-Out Mechanism (4 CCR 904-3, Rules 5.01, et seq.)**

- *Offline Recognition.* Are Controllers who interact with Consumers offline, such as through in-person interactions, able to recognize the use of Opt-Out Mechanisms? What additional Personal Data would be required to enable offline recognition?
- *Universal Opt-Out Mechanism List.* The draft rules explain that the Department will maintain a public list of Universal Opt-Out Mechanisms to simplify the options facing Controllers, Consumers, and other actors. Will this list lessen the compliance burden? Are there sources for similar lists? How might this aid

interoperability with other jurisdictions with similar Universal Opt-Out provisions? How often should this list be updated?

- *Universal Opt-Out Mechanism Standards.* The draft rules include standards that a Universal Opt-Out Mechanism must meet to be included in the public list maintained by the Department. Are these the most important considerations? What additional considerations should we include in the list of standards?
- *Notice.* The draft rules allow for a Controller to display to a Consumer that it has Processed the Consumer's opt-out preference signal via a Universal Opt-Out Mechanism, for example through conspicuous text on its website. What kind of engineering or business resources would be required for a Controller to display this kind of notice? How might it benefit Consumers?
- *Timing.* The draft rules state that a "public list of Universal Opt-Out Mechanisms that have been recognized...shall be released no later than April 1, 2024." Will this date offer Controllers sufficient time to implement the acceptance of recognized Universal Opt-Out Mechanisms by the July 1, 2024 effective date of the relevant provision statute (C.R.S. § 6-1-1306(1)(a)(IV)(B))? What burdens are associated with the July 1, 2024 compliance deadline? If the list is updated, how long should Controllers have prior to mandated acceptance of new mechanisms?
- *Technical Specification.* The draft rules contemplate Universal Opt-Out Mechanisms taking two technical forms: a signal such as an HTTP header field and a "do not sell" list. Should the final rules spell out these two forms? Are there other forms the rules should mention? Are there additional areas of technical specification that would help further clarify the parameters or requirements of a Universal Opt-out Mechanism.
- *Authentication.* The CPA provides that the rules must "permit the Controller to accurately Authenticate the Consumer as a resident of this state and determine that the mechanism represents a legitimate request to opt out of the Processing of Personal Data for purposes of Targeted Advertising or the Sale of Personal Data. . . ." What are ways for a Controller to Authenticate a Consumer as a resident of this state and to determine that the mechanism represents a legitimate request to opt out in a way that would not frustrate the efficiency or purpose of using a Universal Opt-Out Mechanism?

#### **4. *Controller Obligations (4 CCR 904-3, Rules 6.01, et seq.)***

- *Transparency.* The draft rules require Controllers to provide information "for each Processing purpose." Will organizing a privacy notice by purpose place an undue burden on Controllers? What can be changed to ensure these requirements are interoperable while providing the same amount of valuable information to Consumers?
- *Changes to Privacy Notice.* Are there additional examples of material changes to privacy notices that would help to clarify the requirement to notify Consumers of "substantial or material changes"?
- *Biological Identifiers.* The draft rules limit the storage of "Biological Identifiers or any data generated from a digital or physical photograph or an audio or video

- recording” and require Consent to continue to hold such information for more than 1 year. Does this rule sufficiently protect this type of data? How might this requirement burden Controllers?
- *Sensitive data.* The draft rules explain that Sensitive Data includes Sensitive Data Inferences. The draft rules allow Controllers to process Sensitive Data Inferences from Consumers over the age of thirteen (13) without obtaining Consent subject to specific requirements in the draft rules, including the requirement to delete the Sensitive Data Inferences “within twelve (12) hours of collection or of the completion of the Processing activity, whichever comes first.” What burden might this 12-hour deletion requirement create? Are the requirements related to Sensitive Data Inferences sufficient to protect Consumers? How might the rules further promote data minimization with regard to Sensitive Data?

#### **5. *Bona Fide Loyalty Programs (4 CCR 904-3, Rule 6.05)***

- *Definition.* The CPA expressly allows Controllers to offer benefits to Consumers if the benefits are based on a Consumer’s participation in a “bona fide loyalty, rewards, premium features, discount, or club card program,” but does not define “bona fide” in the loyalty program context. Does the proposed definition of “Bona Fide Loyalty Program” provide sufficient clarity as to when the CPA’s loyalty program provisions apply? Are there additional factors that should be considered in determining whether a loyalty program is bona fide?
- *Value.* What actual value can a loyalty program provide to consumers? To Controllers? What are important considerations when balancing the value of a loyalty program to Consumers versus Controllers? When and why is the Sale of Personal Data necessary to maintain a loyalty program or provide loyalty program benefits?
- *Disclosures.* Are there different or additional disclosures that should be made to Consumers concerning Bona Fide Loyalty Programs?
- *Guidance.* Are there aspects of the loyalty program statutory provisions or draft rules that can benefit from more guidance?

#### **6. *Consent (4 CCR 904-3, Rules 7.01, et seq.)***

- *Consent Elements.* In response to public input, the draft rules provide the meaning of each element of valid Consent. Are the elements described in a way that would be interoperable? Are there additional examples that would help clarify the meaning of any element of Consent? Are there other factors pertaining to any of the elements that should be considered when determining whether Consent is valid?
- *Examples.* Do the examples provided help to clarify the Consent requirements? Is there anything unclear in the Consent examples? Are there other elements of Consent where additional examples would be helpful?

#### **7. *Data Protection Assessments (DPAs) (4 CCR 904-3, Rules 8.01, et seq.)***

- *Purpose.* The draft rules focus, in part, on making DPAs meaningful assessments that can help Controllers understand and address the risks posed by their Processing activities and address those risks. Do the draft rules achieve this purpose? If not, how can they be changed to avoid making the DPA process a “check-the-box” exercise?
- *Burden.* Are the DPA requirements expressed in the draft rules overly burdensome on smaller businesses? How so? How can they be made less burdensome?

#### **8. Profiling (4 CCR 904-3, Rules 9.01, et seq.)**

- *Automated Processing.* The draft rules distinguish between Solely Automated Processing, Human Reviewed Automated Processing, and Human Involved Automated Processing. Do these distinctions appropriately reflect different levels of human participation in the Automated Processing used in Profiling? How else might humans be involved with Automated Processing which would protect Consumers when such Profiling is used for Decisions that Produce Legal or Similarly Significant Effect?
- *Human Involved Automated Processing.* The draft rules specify disclosures that a Controller must provide to a Consumer if the Controller does not take action on a request to opt out of Profiling when that Profiling uses Human Involved Automated Processing. Are there additional disclosures that would provide Consumers with adequate information to understand this use of their data?

#### **9. Clarity**

- Are there draft rules that are unclear? Where would examples provide additional clarity? Beyond examples, how else might the Department help clarify the rules?
- Are there examples used in the draft rules that are unclear?

### **III. Statutory Authority**

The specific authority under which the Attorney General shall establish these proposed rules is set forth in C.R.S. §§ 6-1-108(1) and 6-1-1313.

### **IV. Copies of the Notice, Proposed Rules, and the Statement of Basis, Purpose & Authority**

The notice of hearing, the proposed rules, and the Statement of Basis, Purpose, and Specific Statutory Authority are available for review at the Department of Law’s CPA rulemaking website at [coag.gov/CPA](https://coag.gov/CPA). If there are changes made to the proposed rules prior to the hearing, the updated proposed rules will be provided to the CPA rulemaking mailing list and posted on the Department of Law’s website by January 25, 2023. The Department encourages all interested parties to sign up for the Colorado Privacy Act rulemaking mailing list (available at <https://lp.constantcontactpages.com/su/zIKnX1I/CPA>).

Please note that the proposed rules being considered are subject to further changes and modifications after the public hearings and the deadline for the submission of written comments.

## **V. Opportunity to Testify and Submit Written and Oral Comments**

The Attorney General and Department of Law strive to make the rulemaking process inclusive to all. Interested and affected parties are welcome to testify at the rulemaking hearing, to submit written comments through the online CPA rulemaking comment portal, and to provide oral comments at one or more stakeholder meetings.

### Rulemaking Hearing (Wednesday, February 1, 2023)

The format of the rulemaking hearing will proceed as follows:

- The Hearing Officer will open the hearing and provide a brief introduction of the hearing procedures.
- The Colorado Department of Law staff will present the draft rules and discuss public input, feedback, and suggestions on the draft rules provided through written comment and at stakeholder sessions.
- Colorado Department of Law staff will present a summary of the draft rules and any proposed revisions based on rulemaking comments.
- Participants will then have the opportunity to give testimony regarding the proposed rules and revisions.

### *Hybrid Hearing Procedures*

At the beginning of the hearing, we will mute all public participants attending online. After the introduction, a summary of the rulemaking, and a review of any proposed revisions to the rules, we will open the hearing to testimony as follows:

- For the sake of efficiency, those who are attending this hearing in person will be called upon first to provide their public comment. We will reference the sign-up sheet provided and individually call upon participants who wish to provide their testimony. Once we have exhausted the sign-up sheet, we will move forward with the testimony of online participants.
- Referencing registration records, we will identify and individually unmute online participants who indicated that they plan to testify during the hearing.
- When we exhaust the list, we will ask whether any additional attendees wish to testify. In-person attendees may raise their hands to indicate their intention to testify, and online attendees may raise/lower their hand virtually.
- To ensure that the hearing is prompt and efficient, oral testimony may be time limited.

**Webinar Audio Requirements:** We strongly encourage attendees to join the webinar through their computer or Zoom meeting app, even if they use their telephone to dial in for audio. To testify during the hearing, it is best to use your computer microphone and speakers or a headset or headphones. As outlined above, we will first receive online

testimony from attendees whose registration indicates that they plan to provide testimony and then we will offer attendees the option to raise their hand to testify.

### Written Comments

You may submit written comments through our comment portal available at [coag.gov/CPA](https://coag.gov/CPA) during the comment period between October 10, 2022, and February 1, 2023. If the formal rulemaking hearing continues beyond February 1, 2023, the comment period will continue through the last day of the formal rulemaking hearing. Please submit written comments by November 7, 2022, if you would like your comment to inform the stakeholder meetings discussed below, or by January 18, 2023, to be considered for any proposed revisions presented at the hearing. All written comments must be received on or before Wednesday, February 1, at 11:59 P.M. MST, or if the formal rulemaking hearing continues beyond February 1, 2023, before 11:59 P.M. MST on the last day of the formal rulemaking hearing.

As soon as possible after receipt, written comments will be posted online at the Colorado Privacy Act Rulemaking Comment website: <https://comments.coag.gov/s/>. All written comments will be added to the official rulemaking record.

To promote timely sharing of information among all stakeholders, the Department strongly encourages stakeholders to submit written comments early in this process.

### Stakeholder Meetings

The Department will host three (3) virtual stakeholder meetings to discuss the CPA proposed draft rules. These stakeholder meetings are a forum for the Department to gather feedback from a broad range of stakeholders for the development of rules to implement the CPA. Stakeholder meetings will occur in advance of the rulemaking hearing and speaking participants will be asked to provide their input and insight, along with constructive feedback and suggestions, on the draft rules in an open discussion format. Please submit any written comments you would like to inform these stakeholder meetings by Monday, November 7, 2022.

The Department may host additional opportunities for public input beyond those listed below if it determines doing so is prudent or necessary to revise the rules and incorporate stakeholder input. The times and dates of these additional sessions will be announced via the Colorado Privacy Act rulemaking mailing list and on our website at [coag.gov/CPA](https://coag.gov/CPA). Interested persons are strongly encouraged to sign-up to receive e-mail updates through the rulemaking mailing list (available at <https://lp.constantcontactpages.com/su/zIKnX1I/CPA>).

### *Meeting Dates*

Date: Thursday, November 10, 2022

Topics: Consumer Rights and Universal Opt-Out Mechanisms

Date: Tuesday, November 15, 2022

Topics: Controller Obligations and Data Protection Assessments

Date: Thursday, November 17, 2022  
Topics: Profiling, Consent, and Definitions

All stakeholder meetings will be recorded, and the recordings will be available to interested persons unable to attend a meeting. Recordings will also be part of the public rulemaking record. More details on the stakeholder meetings and registration links can be found on the Department of Law's CPA rulemaking website at [coag.gov/CPA](https://coag.gov/CPA).

## **VI. Recording of the Hearing**

The hearing will be recorded. Both the hearing and recordings will be part of the public rulemaking record. After the hearing concludes, the recording will be available on the Colorado Department of Law's CPA Rulemaking website at [coag.gov/CPA](https://coag.gov/CPA).

## **VII. Special Accommodations**

If you need special accommodations, please contact our office at [coprivacy@coag.gov](mailto:coprivacy@coag.gov) at least two (2) weeks prior to the scheduled hearing date.

**COLORADO DEPARTMENT OF LAW**  
**Colorado Privacy Act Rules**  
**Statement of Basis, Specific Statutory Authority, and Purpose**

**4 CCR 904-3**

**Basis**

On July 7, 2021, Governor Polis signed Senate Bill 21-190: Protect Personal Data Privacy, establishing the Colorado Privacy Act, C.R.S. §§ 6-1-1301, *et seq.* (“CPA”). The Colorado Privacy Act Rules (“CPA Rules” or “Rules”) implement and enforce the CPA.<sup>1</sup>

**The Attorney General’s Specific Statutory Authority**

The CPA was codified as part of the Colorado Consumer Protection Act (“CCPA”), which grants the Attorney General the authority to “promulgate such Rules as may be necessary to administer the provisions” of the CCPA. C.R.S. § 6-1-108(1). The CPA gives the Attorney General authority to “promulgate Rules for the purpose of carrying out” the CPA, C.R.S. § 6-1-1313(1), and requires the Attorney General to “adopt Rules that detail the technical specifications for one or more universal opt-out mechanisms that clearly communicate a Consumer’s affirmative, freely given, and unambiguous choice to opt out of the Processing of Personal Data for purposes of targeted advertising or the sale of Personal Data . . .” C.R.S. § 6-1-1313(2).

**Purpose of the Rules**

The proposed draft Rules were written by the Colorado Department of Law Consumer Protection Section (the “Department”) to help Colorado Consumers understand their data privacy rights under the CPA and to create straightforward processes which enable them to exercise those rights. The proposed draft Rules also aim to clarify the obligations that businesses, public entities, and nonprofits have under the CPA and to facilitate their compliance.

Coloradans have a fundamental right to privacy that is enshrined in article II, section 7 of the Colorado Constitution. However, evolving technology and the exponential increase in the collection and exchange of Personal Data threatens Coloradans’ ability to meaningfully exercise their right to privacy. Additionally, while data science has produced beneficial new technologies and insights, the misuse of Consumer Personal Data can cause substantial economic, physical, emotional, and reputational harm to Colorado Consumers.

The CPA protects Coloradans’ privacy in part by granting them rights to access the data that companies have collected about them, as well as to dictate whether and how companies can continue to collect, store, use, or sell Consumer Personal Data. However, the CPA does not place the sole burden on Consumers to safeguard their data. It also requires companies to be transparent about how they use Personal Data and to take precautions to reduce the risk that their data collection and use might pose to Consumers. Finally, the CPA grants the Attorney General the authority not only to hold entities accountable for failing to

---

<sup>1</sup> All undefined terms capitalized herein shall be interpreted as defined in the CPA or proposed draft Rules.

comply with their obligations under the CPA, but also to draft Rules that would clarify the CPA's requirements and provide guidance for compliance.

The specific subject matter of this Rulemaking falls into two discrete categories: Rules detailing the technical specifications for one or more Universal Opt-Out Mechanisms and Rules for the purpose of carrying out the CPA.

The CPA requires compliance and permits enforcement starting July 1, 2023. Accordingly, the Department filed its notice of proposed Rulemaking on October 10, 2022, to ensure the Rules are adopted well in advance of enforcement. This timeframe also provides additional time to both collect and incorporate meaningful stakeholder input on the proposed draft Rules and to give covered entities advanced notice of the Rules so they may take appropriate measures to comply with the CPA and its Rules by the CPA's effective date.

The promulgation of these proposed draft Rules does not preclude any Rulemaking the Attorney General chooses to conduct at a later date pursuant to C.R.S. §§ 6-1-108(1) or 6-1-1313.

### **Rulemaking Considerations**

Public involvement and transparency are important to the success of the CPA rulemaking process. The proposed draft Rules incorporate and reflect public input received from a wide variety of interested parties, including Consumer privacy advocates, representatives from businesses entities, academics, and the public. The Department plans to further engage with stakeholders and interested parties to gain valuable insight and comments and refine the proposed draft Rules. Additional details on opportunities for public participation in the rulemaking process and a list of specific questions and considerations for public comment can be found in the Notice of Proposed Rulemaking and on the Department's CPA Rulemaking website at [www.coag.gov/cpa](http://www.coag.gov/cpa).

Before writing the proposed draft Rules, the Department solicited input to understand how regulations could best clarify the CPA, protect Consumers, and enable compliance. Starting in February of 2022, members of the public and other interested parties were given the opportunity to provide written and oral comments about the CPA to the Department. To guide this process, the Department released "Pre-Rulemaking Considerations for the Colorado Privacy Act," a document containing background information and a list of questions about the Colorado Privacy Act and Consumer data privacy<sup>2</sup>. From March through August of 2022, the Department accepted written comments through an online portal. Additionally, the Department held two public listening sessions on June 22, 2022, and June 28, 2022. Pre-Rulemaking comments and recordings of the public listening sessions can be found on the Department's CPA website<sup>3</sup>. Throughout this process, individual members of the Department met with interested persons to discuss topics relevant to the CPA and the Department began assembling a list of persons interested in the prospective Rulemaking.

---

<sup>2</sup> Colorado Department of Law, Pre-Rulemaking Considerations for the Colorado Privacy Act, available at <https://coag.gov/app/uploads/2022/04/Pre-Rulemaking-Considerations-for-the-Colorado-Privacy-Act.pdf>.

<sup>3</sup> Colorado Attorney General's Office, Colorado Privacy Act (CPA) Rulemaking, <http://coag.gov/cpa>

In creating the proposed draft Rules, the Department considered the questions, concerns, suggestions, and resources shared by interested parties. The Department also reviewed relevant academic research and existing regulations governing overlapping conduct in U.S. and international privacy laws. In considering this input, the Department sought to address the questions and concerns of the variety of CPA stakeholders, clarify the legislation, simplify compliance, and ensure the protection of the privacy rights granted to Consumers by the CPA. The Department also endeavored to create a legal framework that can operate in conjunction with other national, state, and international data privacy laws and does not overly burden technological innovation.

Considerations for specific draft Rules are outlined below.

#### **A. Part 2: Definitions/Defined Terms**

Draft Rule 904-3-2.02 defines key terms used in the CPA and the draft Rules and incorporates definitions in the CPA to provide clarity and consistency. In particular, draft Rule 904-3-2.02 defines “Biometric Data” and “Bona Fide Loyalty Program,” which were undefined by the statute, and clarifies scope of Automated Processing, Sensitive Data, and Publicly Available Information governed by the statute and draft Rules. Defining these and other terms will help eliminate potential misunderstandings or confusion, and where possible, align the CPA with corresponding laws across the United States and internationally. Clear definitions also assist businesses in implementing the law and its corresponding Rules, increasing the likelihood that Consumers will enjoy the benefits of the rights provided to them by the CPA.

#### **B. Part 4: Consumer Personal Data Rights**

Part 4 of the proposed draft Rules clarifies the Consumer Personal Data Rights provided by the CPA. The purpose of these draft Rules is to ensure that Consumers can exercise those Data Rights securely and without undue burden, while considering compliance costs by emphasizing interoperability with other privacy regimes. The draft Rules also clarify obligations for Controllers to collect and use Personal Data responsibly and in a way that respects Consumer preferences. The proposed draft Rules aim to carry out the CPA by clarifying these rights and obligations and providing clear processes through which they can be exercised.

The CPA states that “Consumers may exercise the [data] rights by submitting a request using the methods specified by the Controller,” but provides little guidance as to what a Controller’s rights request methods must look like and what a Controller must do to comply with such requests. C.R.S. § 6-1-1306(1). Draft Rule 904-3-4.02 details requirements for methods through which Consumers may submit Data Rights requests. In designing these methods, a Controller must consider several factors to determine the suitability of the methods, including how the Controller typically interacts with Consumers, identifiable security risks, and the ease of use for Consumers with varying abilities. The draft Rule clarifies restrictions on the type of information a Controller can collect from a Consumer seeking to exercise a Data Right and how a Controller may respond to deficient Data Rights requests.

Draft Rule 904-3-4.03 elaborates on C.R.S. § 6-1-1306(1)(a), which establishes a Consumer’s right to opt out of the Processing of their Personal Data and Controllers’ related compliance requirements. The draft Rule emphasizes the need for clear instructions to the Consumer, ease of exercising the opt-out right, and prompt response from the Controller. To promote interoperability and decrease compliance costs, the draft Rule articulates that Controllers who already provide an opt-out method pursuant to another privacy regime may continue to use that method for Colorado Consumers if the method meets the requirements under the draft Rule.

Draft Rule 904-3-4.04 contemplates the right to access as described in C.R.S. § 6-1-1306(1)(b). The draft Rule clarifies the way a Controller must respond to a Consumer’s access right request, requiring Controllers to consider the Consumers’ primary languages and accessibility needs when providing a Consumer access to their Personal Data. The draft Rule also accounts for risks of identity theft, security, and scams.

Draft Rule 904-3-4.05 clarifies the Consumer right in C.R.S. § 6-1-1306(1)(c) to “correct inaccuracies in the Consumer’s Personal Data.” The draft Rule provides that Controllers must pass down Consumers’ correction requests across all Processor data flows. The draft Rule also seeks to ensure data accuracy by allowing Controllers to consider all available information indicative of accuracy, including documentation provided by the Consumer, and promotes secure communication between Consumers and Controllers when contemplating the data’s accuracy.

Draft Rule 904-3-4.06 clarifies the Consumer right in C.R.S. § 6-1-1306(1)(d), to “delete Personal Data concerning the Consumer,” ensuring meaningful compliance with Consumer deletion rights requests. Based on public input and considering interoperability with the privacy legislation of other states, the draft Rules also address effective compliance with the right to delete by business-to-business companies that collect Consumer Personal Data from third-party sources on an ongoing, repetitive basis.

Draft Rule 904-3-4.07 clarifies the Consumer right to data portability expressed in C.R.S. § 6-1-1306(1)(e), ensuring that the Personal Data transferred pursuant to that right is both secure and usable by the Consumer. The Rule also addresses the trade secret protection contemplated in C.R.S. § 6-1-1306(1)(e), by distinguishing between a Controller’s duty to provide Personal Data and inferences created using trade secrets and the Controller’s ability to protect the trade secrets themselves.

Draft Rules 904-3-4.08 - 4.09 address Controller obligations to respond to Consumer rights requests as stated in C.R.S. § 6-1-1306(2). The draft Rules provide clarity while balancing Controllers’ need for flexibility when designing Consumer authentication processes and potential burdens on Consumers.

### **C. Part 5: Universal Opt-Out Mechanism**

Part 5 of the draft Rules fulfills the Attorney General’s Rulemaking obligation to promulgate a Rule that addresses the technical specifications of one or more Universal Opt-Out Mechanisms (UOOM).

Rather than require Consumers to opt out of Processing on only a case-by-case basis, the CPA gives Consumers the ability to use a UOOM to communicate their opt-out choice to multiple Controllers using a single, simple technological mechanism. The CPA charges the Attorney General with establishing the technical specifications with which UOOMs must comply to qualify under the CPA.

Draft Rule 904-3-5.06 provides the basic technical specification. It is written in a technologically neutral manner, able to accommodate different approaches to providing UOOM capability and leaving room for innovation and competition. It recognizes that a common method for providing UOOM-like functionality has been by sending an “opt-out signal.” The language describing universal opt-out signals as UOOMs will aid interoperability, as other jurisdictions speak specifically about signal-based mechanisms. At the same time, the draft Rules leave open the possibility for other technical solutions. It lists a universal opt-out “whitelist” as one example, albeit one meant to be illustrative rather than limitative.

Draft Rule 904-3-5.02 clarifies that a single UOOM can be used by a single Consumer to opt-out of more than one type of Processing as allowed under the CPA.

Draft Rule 904-3-5.03 focuses on the obligations of the “platform, developer, or provider” who proposes, creates, and markets new UOOMs. Companies that provide UOOMs, such as browser manufacturers or browser plug-in developers, must take steps to ensure that the design of their UOOM satisfies all of the CPA’s requirements for UOOMs. For example, UOOMs must be designed without Dark Patterns, to ensure that Consumers do not enable UOOMs unintentionally.

Draft Rule 904-3-5.04 clarifies the CPA’s requirement that UOOMs must not adopt a mechanism that is a default setting. It gives detailed examples of commonly encountered situations to help elaborate what counts as a default setting in these circumstances.

During the pre-rulemaking phase, commenters raised the potential problems that might rise from the proliferation of many competing UOOMs. Without some method to single out which UOOMs must be recognized under the CPA, Controllers would be obligated to monitor all UOOMs, an expensive and time-consuming task. Consumers might also be confused by the proliferation of many UOOMs and lack clarity on which UOOMs would be accepted by different Controllers. To address this concern, draft Rule 904-3-5.07 sets out a system of recognition through which the Department will maintain a public list of UOOMs. These rules seek to allow for innovation and account for technical advancements in privacy and UOOMs while minimizing redundant UOOMs and UOOMs that are no longer used commercially. Then, under draft Rule 904-3-5.08, Controllers will be obligated to recognize all UOOMs on the public list.

The other draft Rules in this part cover the information gathered in the UOOM process (draft Rule 904-3-5.05) and consent after use of a UOOM (draft Rule 904-3-5.09).

#### **D. Part 6: Duties of Controllers**

Part 6 elaborates on the duties of Controllers as stated in C.R.S. § 6-1-1308. The draft Rules respect the need for interoperability while adhering to the legislator’s intent and statutory text of the CPA. The draft Rules also seek to allow for creativity and innovation by Controllers while providing sufficient Consumer protection.

The CPA creates obligations for entities that process and sell a large volume of Consumer Personal Data and that either conduct business in Colorado or target their products and services towards Colorado. Generally, these entities must only collect Personal Data they need and must use reasonable practices to secure it.

The CPA aims to help Consumers understand how their Personal Data is being used and how they can exercise their rights. Draft Rules 904-3-6.02 - 6.04 clarify the requirements in C.R.S. § 6-1-1308(1) for Controllers to “provide Consumers with a reasonably accessible, clear, and meaningful privacy notice . . .” Controllers must disclose in a privacy notice the purposes for which they Process Personal Data, and for each purpose, the types of Personal Data they collect, process and share, and the categories of parties with whom they share that Personal Data. The draft Rules contemplate a purpose-based approach in an attempt to help provide Consumers with an accurate expectation of the ways in which their Personal Data will be used. For instance, Consumers will know whether contact information collected for one purpose will be used differently than contact information collected for a different purpose, and can therefore make more informed decisions about how they would like to interact with covered businesses.

Furthermore, Controllers must inform Consumers of how they can access, correct, delete, and download and transmit their Personal Data. This includes notifying Consumers that their Personal Data is being Sold or used for Targeted Advertising or certain types of Profiling, and how Consumers can opt-out. The draft Rule elaborates on these requirements while considering businesses’ needs for interoperable standards among state and international frameworks and Consumers’ need to easily locate information relevant to understanding how their Personal Data is collected and used.

Draft Rule 904-3-6.05 clarifies the text in C.R.S. § 6-1-1308(1)(d), explaining that the CPA does not prevent Controllers from “offering a different privacy, rate, level, quality, or selection of goods or services to a Consumer, including offering goods or services for no fee, if the offer is related to a Consumer’s voluntary participation in a bona fide loyalty, rewards, premium, features, discount, or club card program.” Loyalty programs can provide real value to Consumers in the form of discounts on essential goods, rewards towards travel and other services that increase quality of life. The draft Rules seek to facilitate continuation of these programs and while providing greater transparency and meaningful consent to participation.

Draft Rules 904-3-6.06 - 6.09 clarify the Controller duties of purpose specification, data minimization, secondary use, and care found in C.R.S. § 6-1-1308(2)-(5). These draft Rules explain how each statutory requirement is to be carried out to help ensure the intended positive impact on Consumer privacy and offer compliance guidance.

Draft Rule 904-3-6.06 relates to the Controller’s duty to “specify the express purposes for which Personal Data are collected and processed” found at C.R.S. § 6-1-1308(2). The draft Rule requires Controllers to describe Processing purposes in ways that are easily understood

to Consumers, across the Controller’s business, by Third Parties, and by authorities. The draft Rule also requires regular review of Processing purposes for accuracy and appropriate documentation.

Draft Rule 904-3-6.07 clarifies the requirement in C.R.S. § 6-1-1308(3) for Controllers’ “collection of Personal Data [to] be adequate, relevant, and limited to what is reasonably necessary in relation to the specified purposes for which the data are processed.” The draft Rule articulates that Controllers must assess and document the minimum types and amount of Personal Data needed for the stated Processing purposes. The draft Rule also clarifies standards to govern how long certain types of Personal Data may be held and requires Controllers to only store the minimum Personal Data necessary for the Processing purpose.

Draft Rule 904-3-6.08 clarifies the prohibition in C.R.S. § 6-1-1308(4) to “process Personal Data for purposes that are not reasonably necessary to or compatible with the specified purposes for which the Personal Data are processed, unless the Controller first obtains the Consumer’s consent.” The draft Rule clarifies that the specified purpose may be disclosed in several places including a privacy notice and required consent disclosures. To aid in compliance, the draft Rule lists several considerations for the Controller to consider when determining whether a new purpose is reasonably necessary to or compatible with the original purpose.

Draft Rule 904-3-6.09 clarifies the requirement in C.R.S. § 6-1-1308(5) to “take reasonable measures to secure Personal Data during both storage and use from unauthorized acquisition.” The draft Rule aligns this requirement with existing state data security laws including but not limited to C.R.S. §§ 6-1-713.5 and 24-73-102.

Draft Rules 904-3-2.01 and 904-3-6.10 clarify the CPA’s Sensitive Data requirements at C.R.S. § 6-1-1308(7). The draft Rules state that Sensitive Data includes both individual pieces of Sensitive Data and inferences made by a Controller which reveal an individual’s racial or ethnic origin, religious beliefs, mental or physical health condition or diagnosis, sex life or sexual orientation, or citizenship or citizenship status. However, a Controller may forgo obtaining Consent prior to Processing Sensitive Data Inferences from Consumers over the age of thirteen (13) if the Controller limits the use of such inferences as set forth in Rule 904-3-6.10 and documents how the Controller meets the requirements in its privacy notice and Data Protection Assessment. These draft Rules address the concern that Personal Data can often be combined or used to infer sensitive information, often without a Consumer’s knowledge or understanding. At the same time, the draft Rules recognize the potential burden of requiring prior Consent to process every Sensitive Data Inference and seeks to strike a balance that will protect sensitive Consumer information and offer adequate transparency without unduly burdening Controllers.

## **E. Part 7: Consent**

Part 7 of the draft Rules clarifies the CPA’s requirements related to requesting and obtaining Consent, including the prohibition against obtaining Consumer agreement through

Dark Patterns, which are understood to be web or user interfaces that have the effect of subverting user autonomy, decision making, or choice.

Because the Consent requirements are provided in separate sections of the CPA, draft Rule 904-3-7.02 provides a straightforward list of the circumstances under which the CPA requires Consumer Consent pursuant to C.R.S. §§ 6-1-1303(5), 1306(1)(a)(IV)(C), 1308(4), and 1308(7). The draft Rule also clarifies the need for valid Consent across distinct Controller-Consumer interactions.

Draft Rule 904-3-7.03 clarifies the requirements for valid Consent in C.R.S. § 6-1-1303, including what it means for Consent to be “freely given, specific, informed, and [reflect] unambiguous agreement.” This draft Rule was written in response to public input requesting additional information on the requirements for valid Consent, and it attempts to promote interoperability and understanding by incorporating the meanings of “freely given, specific, informed,” and “unambiguous agreement” accepted in other jurisdictions applying similar requirements for valid Consent.

Draft Rule 904-3-7.05 clarifies C.R.S. § 6-1-1306(1)(a)(IV)(C), which states in part that “a Controller may enable the Consumer to Consent, through a web page, application, or a similar method, to the Processing of the Consumer’s Personal Data for the purposes of Targeted Advertising or Sale, and the Consent takes precedence over any choice reflected through the universal opt-out mechanism.” The CPA gives Consumers the right to make a meaningful choice to opt out of the Sale or Processing of their Personal Data for Targeted Advertising and Profiling. It also enables Consumers to effectuate that choice easily using a Universal Opt-Out Mechanism. A Consumer’s decision to opt-out is eroded if Controllers repeatedly ask for a Consumer to opt back into Processing using methods that degrade or obstruct the Consumer’s experience on the Controller’s web page or application. Thus, the draft Rule sets forth a framework for Controllers to request, and for Consumers to provide, Consent to opt in to Processing of Personal Data once the Consumer has already opted out of the Processing for the stated purpose.

Draft Rule 904-3-7.06 clarifies the requirements to obtain Consent with respect to Children’s Personal Data under C.R.S. § 6-1-1308(7). Permission to process the Personal Data of a Child is dependent on the Consent of the Child’s parent or guardian. The draft Rule requires Controllers to make reasonable efforts to obtain verifiable parental Consent, taking into consideration available technology.

Draft Rules 904-3-7.07 and 904-3-7.08 also clarify the ability of Consumers to withdraw Consent and ability of Controllers to periodically refresh Consent. The draft Rules address statutory text, common practice, and the meaning of “freely given Consent” to emphasize that a Consumer must be able to withdraw Consent as easily as it is affirmatively provided, to explain what that means, and to describe required actions that a Controller must take when Consent is withdrawn.

Draft Rule 904-3-7.09 clarifies C.R.S. § 6-1-1303(5)(c), which states that an “agreement obtained through Dark Patterns” does not constitute Consent. C.R.S. § 6-1-1303(9) defines a Dark Pattern as “a user interface designed or manipulated with the substantial effect of subverting or impairing user autonomy, decision-making, or choice.” The

draft Rule seeks to align the definition of Dark Patterns with existing legal standards by prohibiting Controllers from using an interface design or choice architecture that unfairly, fraudulently, or deceptively manipulates or coerces a Consumer into providing Consent. To show the types of practices that Dark Patterns may encompass, the draft Rule includes examples of established Dark Patterns,<sup>4</sup> including distracting pop-up windows, nagging, misleading questions, emotional manipulation, nested options, and other models that use default options, give greater weight to one option over others through interface design, or allow the absence of a Consumer's action to constitute consent. The draft Rule also requires Controllers to consider the unique characteristics of their target audiences when designing Consent request interfaces and states that a design or practice can be a Dark Pattern even if such a design or practice is commonly used.

## **F. Part 8: Data Protection Assessments**

Part 8 of the draft Rules clarifies the CPA's data protection assessment ("DPA") requirements pursuant to C.R.S. § 6-1-1309. The draft Rules considers stakeholder input received during the pre-Rulemaking phase by addressing the need for interoperable standards and meaningful assessments.

The CPA requires Controllers to prepare and document DPAs before engaging in Processing activities that present a heightened risk of harm to Consumers. Activities that present heightened risks include profiling activities that present a foreseeable risk of unfairness, injury, or an offensive intrusion of consumer privacy; selling Personal Data or using Personal Data for Targeted Advertising; or Processing Sensitive Data.

Draft Rules 904-3-8.02 - 8.05 encourage Controllers to conduct a genuine, thoughtful analysis in their DPAs. To promote communication and encourage involvement by internal stakeholders, the draft Rules require Controllers to involve all relevant internal parties in the analysis, and to include external parties if helpful in identifying and assessing risks to Consumers. The draft Rules list the minimum content requirements for a DPA and suggest risks that should be considered in the assessment process. Controllers need to conduct an initial DPA before beginning the Processing in question and then regularly review the DPA throughout the Processing lifecycle to ensure that existing safeguards adequately control the Processing risks and are adjusted as necessary.

To promote interoperability, the draft Rules allow Controllers conducting similar assessments pursuant to other privacy regimes to use those assessments to meet their CPA compliance requirements if the assessments are reasonably similar in scope and effect.

## **G. Part 9: Profiling**

Part 9 of the draft Rules clarifies the requirements on Controllers that Process Personal Data for the purposes of Profiling pursuant to C.R.S. §§ 6-1-1302, 1306, and 1309.

---

<sup>4</sup> See e.g. Jamie Luguri and Lior Jacob Strahilevitz, *Shining a Light on Dark Patterns*, 13 Journal of Legal Analysis 43 (2021), <https://doi.org/10.1093/jla/laaa006>; Jennifer King and Adriana Stephan, *Regulating Dark Patterns in Practice: Drawing Inspirations from California Privacy Rights Act*, 5 Georgetown Law and Technology Review 250 (2021); Johanna Gunawan, et al, *A Comparative Study of Dark Patterns Across Web and Mobile Modalities*. Proc. ACM Hum.-Comput. Interact. 5, CSCW2, Article 377 (October 2021), <https://doi.org/10.1145/3479521>.

The CPA includes several requirements for Profiling activities. Controllers have an affirmative obligation to tell Consumers how their Personal Data is used, including for Profiling. Controllers must also conduct and document DPAs prior to Processing Personal Data for Profiling. Finally, Consumers have the right to opt out of the Processing of Personal Data for the purpose of Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects. Draft Rules 904-3-9.03 - 904-3-9.06 clarify these requirements and their implications. Profiling is unique to other types of Processing activities because it involves automation and large data sets. Research has shown that Automated Processing for the purposing of Profiling poses significant risk without meaningful human intervention, especially when used to provide services that dictate individuals' access to essential programs and services such as education, financial services, and housing.<sup>5</sup> Without human review or intervention, Automated Processing may discriminate or wrongly deny individual Consumers access to these services. The draft Rules delineate between Automated Processing involving different levels of human involvement, as increased human involvement may offer corresponding levels of Consumer protection.

To guard against adverse outcomes in the most sensitive and important areas of a person's life, draft Rule 904-3-9.04 clarifies a Consumer's right to opt out of Profiling in furtherance of Decisions that Produce Legal or Similarly Significant Effects Concerning a Consumer. The draft Rule supports the CPA's goals of providing transparent information to Consumers about how their Personal Data is used by outlining disclosure requirements for Automated Processing.

## **H. Other Rules**

Finally, while the Department has endeavored to make this Statement of Basis, Specific Statutory Authority, and Purpose comprehensive, the details contained herein may not fully delineate the issues that are discussed or the Rules that are eventually adopted. The Department intends to take stakeholder input sincerely, and this may result in additional Rules, significant changes to the proposed draft Rules, or additional portions of Rules that are not detailed herein. For this reason, the Department strongly encourages all

### NOTICE OF PUBLIC RULEMAKING HEARING BEFORE THE COLORADO WATER QUALITY CONTROL COMMISSION

#### SUBJECT:

For consideration of adoption of revisions to the Nutrients Management Control Regulation, Regulation #85 (5 CCR 1002-85) and revisions pertaining to lakes nutrient criteria in The Basic Standards and Methodologies for Surface Water, Regulation #31 (5 CCR 1002-31) along with revisions to the Classifications and Numeric Standards for:

- Arkansas River Basin, Regulation #32 (5 CCR 1002-32);
- Upper Colorado River Basin and North Platte River (Planning Region 12), Regulation #33 (5 CCR 1002-33);
- San Juan River and Dolores River Basins, Regulation #34 (5 CCR 1002-34);
- Gunnison and Lower Dolores River Basins, Regulation #35 (5 CCR 1002-35);
- Rio Grande Basin, Regulation #36 (5 CCR 1002-36);
- Lower Colorado River Basin, Regulation #37 (5 CCR 1002-37); and
- South Platte River Basin, Laramie River Basin, Republican River Basin, Smoky Hill River Basin, Regulation #38 (5 CCR 1002-38).

Revisions proposed by the Water Quality Control Division, along with a proposed Statement of Basis, Specific Statutory Authority and Purpose, are attached to this notice as Exhibit 1.

In these attachments, proposed new language is shown with underlining and proposed deletions are shown with ~~strikeouts~~. Any alternative proposals related to the subject of this hearing will also be considered.

#### SCHEDULE OF IMPORTANT DATES

Proponent's prehearing statement due	8/3/2022 5:00 pm	Additional information below.
Party Status requests due	8/17/2022 5:00 pm	Additional information below.
Proponent's supplemental prehearing statement due	10/5/2022 5:00 pm	
Responsive prehearing statements due	12/21/2022 5:00 pm	Additional information below.
Rebuttal statements due	2/15/2023 5:00 pm	Additional information below.
Last date for submittal of motions	2/22/2023 by noon	Additional information below.

<b>Rulemaking Hearing</b>	4/10/2023 9:00 am	Sabin Cleere Conference Room Department of Public Health and Environment 4300 Cherry Creek Drive South Denver, CO 80246  Or <a href="#">Remote Via Zoom</a>

#### HEARING SUBMITTALS:

For this hearing, the commission will receive all submittals electronically. Submittals must be provided as PDF documents, except for raw data exhibits which may be provided as Excel workbooks. Submittals may be emailed to [cdphe.wgcc@state.co.us](mailto:cdphe.wgcc@state.co.us), provided via an FTP site, CD or flash drive, or otherwise conveyed to the commission office to be received no later than the specified date.

#### PARTY STATUS:

Party status requests must be in writing and must provide:

- the organization's name,
- one contact person,
- a mailing address,
- a phone number, and
- email addresses of all individuals associated with the party who wish to be notified when new submittals are available on the commission's website for review.

In accordance with section 25-8-104(2)(d), C.R.S., any person who believes that the actions proposed in this notice have the potential to cause material injury to his or her water rights is requested to so indicate, along with an explanation of the alleged harm, in their party status request.

#### PREHEARING AND REBUTTAL STATEMENTS:

Each party must submit a prehearing statement: parties that have proposed revisions attached as exhibits to the notice must submit a proponent's prehearing statement. All other parties

## COLORADO

### Water Quality Control Commission

Department of Public Health & Environment

must submit a responsive prehearing statement. Proponents may also submit responsive prehearing statements when there are multiple proposals attached to the notice.

Each prehearing and rebuttal statement must be provided as a separate PDF document from any accompanying written testimony or exhibits.

Following the rebuttal statement due date, no other written materials will be accepted from parties except for good cause shown.

Oral testimony at the hearing should primarily summarize written material previously submitted. The hearing will emphasize commission questioning of parties and other interested persons about their written prehearing submittals. Introduction of written material at the hearing by those with party status will not be permitted unless authorized by the commission.

#### PREHEARING CONFERENCE:

**Attendance at the prehearing conference is mandatory for all persons requesting party status.** Following the deadline to request party status, a Zoom link to attend the prehearing conference will be provided to all those who request party status.

Following the cut-off date for motions, no motions will be accepted, except for good cause shown.

#### PUBLIC PARTICIPATION ENCOURAGED:

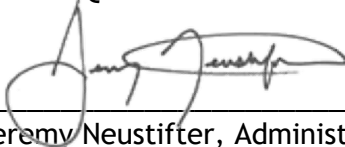

The commission encourages input from non-parties, either orally at the hearing or in writing prior to the hearing. Written submissions should be emailed to [cdphe.wqcc@state.co.us](mailto:cdphe.wqcc@state.co.us) by March 29, 2023.

#### SPECIFIC STATUTORY AUTHORITY:

The provisions of sections 25-8-202(1)(a), (b), and (2); 25-8-203; 25-8-204; and 25-8-402, C.R.S., provide the specific statutory authority for consideration of the regulatory amendments proposed by this notice. Should the commission adopt the regulatory language as proposed in this notice or alternative amendments, it will also adopt, in compliance with section 24-4-103(4) C.R.S., an appropriate Statement of Basis, Specific Statutory Authority, and Purpose.

Dated this 26<sup>th</sup> day of September 2022 at Denver, Colorado.

<b>Rulemaking Hearing</b>	4/10/2023 9:00 am	Sabin Cleere Conference Room Department of Public Health and Environment 4300 Cherry Creek Drive South Denver, CO 80246  Or <a href="#">Remote Via Zoom</a>

#### HEARING SUBMITTALS:

For this hearing, the commission will receive all submittals electronically. Submittals must be provided as PDF documents, except for raw data exhibits which may be provided as Excel workbooks. Submittals may be emailed to [cdphe.wgcc@state.co.us](mailto:cdphe.wgcc@state.co.us), provided via an FTP site, CD or flash drive, or otherwise conveyed to the commission office to be received no later than the specified date.

#### PARTY STATUS:

Party status requests must be in writing and must provide:

- the organization's name,
- one contact person,
- a mailing address,
- a phone number, and
- email addresses of all individuals associated with the party who wish to be notified when new submittals are available on the commission's website for review.

In accordance with section 25-8-104(2)(d), C.R.S., any person who believes that the actions proposed in this notice have the potential to cause material injury to his or her water rights is requested to so indicate, along with an explanation of the alleged harm, in their party status request.

#### PREHEARING AND REBUTTAL STATEMENTS:

Each party must submit a prehearing statement: parties that have proposed revisions attached as exhibits to the notice must submit a proponent's prehearing statement. All other parties

## COLORADO

### Water Quality Control Commission

Department of Public Health & Environment

must submit a responsive prehearing statement. Proponents may also submit responsive prehearing statements when there are multiple proposals attached to the notice.

Each prehearing and rebuttal statement must be provided as a separate PDF document from any accompanying written testimony or exhibits.

Following the rebuttal statement due date, no other written materials will be accepted from parties except for good cause shown.

Oral testimony at the hearing should primarily summarize written material previously submitted. The hearing will emphasize commission questioning of parties and other interested persons about their written prehearing submittals. Introduction of written material at the hearing by those with party status will not be permitted unless authorized by the commission.

#### PREHEARING CONFERENCE:

**Attendance at the prehearing conference is mandatory for all persons requesting party status.** Following the deadline to request party status, a Zoom link to attend the prehearing conference will be provided to all those who request party status.

Following the cut-off date for motions, no motions will be accepted, except for good cause shown.

#### PUBLIC PARTICIPATION ENCOURAGED:

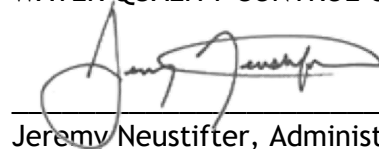

The commission encourages input from non-parties, either orally at the hearing or in writing prior to the hearing. Written submissions should be emailed to [cdphe.wqcc@state.co.us](mailto:cdphe.wqcc@state.co.us) by March 29, 2023.

#### SPECIFIC STATUTORY AUTHORITY:

The provisions of sections 25-8-202(1)(a), (b), and (2); 25-8-203; 25-8-204; and 25-8-402, C.R.S., provide the specific statutory authority for consideration of the regulatory amendments proposed by this notice. Should the commission adopt the regulatory language as proposed in this notice or alternative amendments, it will also adopt, in compliance with section 24-4-103(4) C.R.S., an appropriate Statement of Basis, Specific Statutory Authority, and Purpose.

Dated this 26<sup>th</sup> day of September 2022 at Denver, Colorado.

### NOTICE OF PUBLIC RULEMAKING HEARING BEFORE THE COLORADO WATER QUALITY CONTROL COMMISSION

#### SUBJECT:

For consideration of adoption of revisions to the Nutrients Management Control Regulation, Regulation #85 (5 CCR 1002-85) and revisions pertaining to lakes nutrient criteria in The Basic Standards and Methodologies for Surface Water, Regulation #31 (5 CCR 1002-31) along with revisions to the Classifications and Numeric Standards for:

- Arkansas River Basin, Regulation #32 (5 CCR 1002-32);
- Upper Colorado River Basin and North Platte River (Planning Region 12), Regulation #33 (5 CCR 1002-33);
- San Juan River and Dolores River Basins, Regulation #34 (5 CCR 1002-34);
- Gunnison and Lower Dolores River Basins, Regulation #35 (5 CCR 1002-35);
- Rio Grande Basin, Regulation #36 (5 CCR 1002-36);
- Lower Colorado River Basin, Regulation #37 (5 CCR 1002-37); and
- South Platte River Basin, Laramie River Basin, Republican River Basin, Smoky Hill River Basin, Regulation #38 (5 CCR 1002-38).

Revisions proposed by the Water Quality Control Division, along with a proposed Statement of Basis, Specific Statutory Authority and Purpose, are attached to this notice as Exhibit 1.

In these attachments, proposed new language is shown with underlining and proposed deletions are shown with ~~strikeouts~~. Any alternative proposals related to the subject of this hearing will also be considered.

#### SCHEDULE OF IMPORTANT DATES

Proponent's prehearing statement due	8/3/2022 5:00 pm	Additional information below.
Party Status requests due	8/17/2022 5:00 pm	Additional information below.
Proponent's supplemental prehearing statement due	10/5/2022 5:00 pm	
Responsive prehearing statements due	12/21/2022 5:00 pm	Additional information below.
Rebuttal statements due	2/15/2023 5:00 pm	Additional information below.
Last date for submittal of motions	2/22/2023 by noon	Additional information below.

#### HEARING SUBMITTALS:

For this hearing, the commission will receive all submittals electronically. Submittals must be provided as PDF documents, except for raw data exhibits which may be provided as Excel workbooks. Submittals may be emailed to [cdphe.wgcc@state.co.us](mailto:cdphe.wgcc@state.co.us), provided via an FTP site, CD or flash drive, or otherwise conveyed to the commission office to be received no later than the specified date.

#### PARTY STATUS:

Party status requests must be in writing and must provide:

- the organization's name,
- one contact person,
- a mailing address,
- a phone number, and
- email addresses of all individuals associated with the party who wish to be notified when new submittals are available on the commission's website for review.

In accordance with section 25-8-104(2)(d), C.R.S., any person who believes that the actions proposed in this notice have the potential to cause material injury to his or her water rights is requested to so indicate, along with an explanation of the alleged harm, in their party status request.

#### PREHEARING AND REBUTTAL STATEMENTS:

Each party must submit a prehearing statement: parties that have proposed revisions attached as exhibits to the notice must submit a proponent's prehearing statement. All other parties

## COLORADO

### Water Quality Control Commission

Department of Public Health & Environment

must submit a responsive prehearing statement. Proponents may also submit responsive prehearing statements when there are multiple proposals attached to the notice.

Each prehearing and rebuttal statement must be provided as a separate PDF document from any accompanying written testimony or exhibits.

Following the rebuttal statement due date, no other written materials will be accepted from parties except for good cause shown.

Oral testimony at the hearing should primarily summarize written material previously submitted. The hearing will emphasize commission questioning of parties and other interested persons about their written prehearing submittals. Introduction of written material at the hearing by those with party status will not be permitted unless authorized by the commission.

#### PREHEARING CONFERENCE:

**Attendance at the prehearing conference is mandatory for all persons requesting party status.** Following the deadline to request party status, a Zoom link to attend the prehearing conference will be provided to all those who request party status.

Following the cut-off date for motions, no motions will be accepted, except for good cause shown.

#### PUBLIC PARTICIPATION ENCOURAGED:

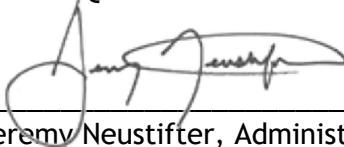

The commission encourages input from non-parties, either orally at the hearing or in writing prior to the hearing. Written submissions should be emailed to [cdphe.wqcc@state.co.us](mailto:cdphe.wqcc@state.co.us) by March 29, 2023.

#### SPECIFIC STATUTORY AUTHORITY:

The provisions of sections 25-8-202(1)(a), (b), and (2); 25-8-203; 25-8-204; and 25-8-402, C.R.S., provide the specific statutory authority for consideration of the regulatory amendments proposed by this notice. Should the commission adopt the regulatory language as proposed in this notice or alternative amendments, it will also adopt, in compliance with section 24-4-103(4) C.R.S., an appropriate Statement of Basis, Specific Statutory Authority, and Purpose.

Dated this 26<sup>th</sup> day of September 2022 at Denver, Colorado.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

#### REGULATION NO. 55 – STATE FUNDED WATER AND WASTEWATER INFRASTRUCTURE PROGRAMS

##### 5 CCR 1002-55

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

#### 55.1 AUTHORITY, SCOPE AND PURPOSE

##### (1) Water Quality Improvement Fund

House Bill 06-1337 created the Water Quality Improvement Fund codified in section 25-8-608, C.R.S., of the Colorado Water Quality Control Act. House Bill 11-1026 amended the statute to authorize grants for stormwater management training and best practices training to prevent or reduce the pollution of state waters. ~~House Bill 17-1306 amended the statute to authorize grants for lead testing in public schools.~~ Section 25-8-608(1.7)(c), C.R.S. provides the Water Quality Control Commission ("commission") with the authority to promulgate, implement and administer this regulation.

Funding is dependent upon annual appropriations by the Colorado General Assembly and is based on violations that were committed on or after May 26, 2006. The resulting penalties collected by the Water Quality Control Division ("division") are transmitted to the state treasurer for deposit to the credit of the fund.

The purpose of the fund is to improve water quality in Colorado by providing grant funds for water quality improvement projects and stormwater management training and best practices ~~by voluntary lead testing in public schools~~ using civil penalties from water quality violations.

##### ~~(2) — Nutrients Management Grant Fund~~

~~During the 2013 legislative session the General Assembly created a new program under House Bill 13-1191 entitled the Nutrient Grant Fund. Codified in section 25-8-608.5, C.R.S., HB 13-1191 authorizes the commission to promulgate rules necessary to administer the program as an amendment to Regulation #55, the Water Quality Improvement Fund.~~

~~The purpose of the fund is to provide assistance to Phase One Domestic Wastewater Treatment Works as defined in Regulation #85.~~

**(32) Natural Disaster Grant Fund**

House Bill 14-1002 created the Natural Disaster Grant Fund to be codified in section 25-8-608.7, C.R.S. – concerning the establishment of a grant program under the Colorado Water Quality Control Act to repair water infrastructure impacted by a natural disaster. The purpose of the fund is to award grants to local governments, including local governments accepting grants on behalf of and in coordination with not-for-profit public water systems, under rules promulgated by the commission for the planning, design, construction, improvement, renovation or reconstruction of domestic wastewater treatment works and public drinking water systems that have been impacted, damaged or destroyed in connection with a natural disaster. The division may only award grants to be used in counties for which the governor has declared a disaster emergency by executive order or proclamation under section 24-33.5-704, C.R.S.

Section 25-8-608.7(3), C.R.S. provides the Water Quality Control Commission with the authority to promulgate rules necessary to implement and administer the Natural Disaster Grant Fund.

**(43) Small Communities Water and Wastewater Grant Fund**

Senate Bill 14-025 revised and consolidated the Small Communities Water and Wastewater Grant Fund to be codified in section 25-1.5-208, C.R.S. – concerning the establishment of a grant program under the Colorado Water Quality Control Act to assist suppliers of water and domestic wastewater treatment works that serve a population of not more than five thousand people with meeting their responsibilities with respect to the protection of public health and water quality.

Continuous funding for the Small Communities Water and Wastewater Grant Fund is provided in section 39-29-109(2)(a)(III) C.R.S., through money transferred to the fund pursuant to section 39-29-109(2)(a)(II) C.R.S. and any other moneys transferred to the fund by the General Assembly. Moneys for the fund originate from the severance tax perpetual base fund, up to \$10 million, and will be applied to both drinking water projects and wastewater projects.

Section 25-1.5-208(2), C.R.S. provides the commission with the authority to promulgate rules necessary to implement and administer the Small Communities Water and Wastewater Grant Program.

**55.2 DEFINITIONS**

(1) "Beneficial Use" - means the use of water treatment plant sludge in conjunction with wastewater treatment plant sludge to act as a soil conditioner or low grade fertilizer for the promotion of vegetative growth on land and that meets the requirements of the state Biosolids Regulations.

(2) "Best Management Practices" - means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of "state waters". Best Management Practices also include treatment requirements, operating procedures and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.

(3) "Consolidation" - means a proposed new construction or expansion of a drinking water supply system that will eliminate one or more existing water supply or treatment works. A letter of intent or a resolution adopted by the project participants must be provided to the division to guarantee the facilities will consolidate.

~~(4) "Elementary school" – a public school that includes any or all of the following: preschool, kindergarten, and grades one through five.~~

(45) "Governmental Agency" – means any municipality, regional commission, county (or county on behalf of unincorporated areas), metropolitan district offering sanitation service, sanitation district used for funding a domestic wastewater treatment works project, water and sanitation district, water conservancy

district, metropolitan sewage disposal district, other special district used for funding a project under this regulation.

~~(56)~~ "Impacted Water Body" – means a water body in which the designated use(s) of recreation, aquatic life, water supply, agriculture, and/or wetlands have been affected by pollutants associated with a violation of the Act, permit, control regulation, or final cease and desist order or clean-up order.

~~(76)~~ "Nonpoint source" – means a diffused pollution source that is not regulated as a point source, including, but not limited to, sources that are often associated with agriculture, inactive or abandoned mining, silviculture, urban runoff, or runoff from construction activities. Nonpoint source pollution does not emanate from a discernible, confined, and discrete conveyance (such as a single pipe) but generally results from land runoff, precipitation, atmospheric deposition, or percolation.

~~(87)~~ "Pollution" – means the man-made, man-induced, or natural alteration of the physical, chemical, biological, and radiological integrity of water.

~~(9) "Public school" – means a school that derives its support, in whole or in part, from moneys raised by a general state, county, or district tax. Public school includes a public school district, charter school, as that term is defined in section 22-30.5-103(2), C.R.S., including an institute charter school, as that term is defined in section 22-30.5-502 (6), C.R.S.; and a board of cooperative services, as that term is defined in section 22-5-103(2), C.R.S.~~

~~(408)~~ "Public water system" - a system for the provision to the public of water for human consumption through pipes or other constructed conveyances, if such system has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days per year. A public water system is either a community water system or a non-community water system. Such term does not include any special irrigation district. Such term includes: (a) Any collection, treatment, storage, and distribution facilities under control of the supplier of such system and used primarily in connection with such system. (b) Any collection or pretreatment storage facilities not under such control, which are used primarily in connection with such system.

~~(449)~~ "Waterborne Disease Outbreak" – means the significant occurrence of acute infectious illness, epidemiologically associated with the ingestion of water from a public water system which is deficient in treatment, as determined by the appropriate local or State agency.

### **55.3 WATER QUALITY IMPROVEMENT FUND CRITERIA**

#### **(1) Entity Eligibility**

Entities eligible for grants in Categories 1 thru 4 include: 1) governmental agencies; 2) publicly owned water systems; 3) private not- for- profit public water systems; 4) not- for- profit watershed groups; 5) not- for- profit stormwater program administrator in accordance with 25-8-802 C.R.S.; 6) not- for- profit training provider; and 7) private landowners impacted by a water quality violation.

~~Entities eligible for grants in Category 5 include public schools that are not subject to the federal lead and copper rule, 40 CFR part 141, subpart I, and public schools that have not tested or are not in the process of testing their drinking water for lead.~~

Entities who pay a Colorado Water Quality Control Act civil penalty are prohibited from receiving a grant from this fund for a period of 5 years from the date of the payment of the penalty.

#### **(2) Project Eligibility**

As provided for under section 25-8-608 (1.7) (a), C.R.S., the fund will provide grants to the following project categories:

Category 1 – Stormwater management training and best management practices training to reduce the pollution of state waters.

Category 2 - Projects that improve the water quality in the community or water body which has been impacted by a water quality violation that resulted in a penalty being imposed.

Category 3 – Planning, design, construction, or repair of stormwater projects and domestic wastewater treatment facilities identified on the current fiscal year's Water Pollution Control Revolving Fund Intended Use Plan.

Category 4 - Nonfederal match funding for the current fiscal year's nonpoint source projects as approved by the commission.

~~Category 5 – Voluntary lead testing in public schools to detect the presence and concentration of lead in drinking water.~~

(3) Funding Allocation

All civil penalties collected by the division shall be transmitted to the state treasurer for deposit to the credit of the fund created by section 25-8-502, C.R.S., for violations committed on or after May 26, 2006 and shall be subject to annual appropriations by the Colorado General Assembly. The division will post on its web page a list of violators that have paid into the Water Quality Improvement Fund. The following allocations from the fund will be made:

Category 1 – ~~for State Fiscal Year 2012-2013 the~~ The division will allocate up to ~~\$300,000~~ ~~150,000~~ of available funds with no one project initially receiving more than ~~\$100,000~~ ~~50,000~~. If the entire ~~\$300,000~~ ~~150,000~~ has not been fully utilized, the division will allocate the remaining Category 1 funds within the year per its prioritization procedures to eligible Category 1 project(s) which may result in certain projects ultimately receiving more than ~~\$300,000~~ ~~50,000~~.

~~For subsequent years thereafter, up to \$100,000 of available funds will be allocated.~~

Category 2 – 10% of available funds following allocations to Category 1 projects.

Category 3 – 60% of available funds following allocations to Category 1 projects; no one project can receive more than 25% of the available funds allocated to this category.

Category 4 – 30% of available funds following allocations to Category 1 projects.

~~Category 5 – After Categories 1 thru 4 are fully funded, up to \$300,000 for State Fiscal Year 2017-2018, up to \$300,000 for State Fiscal Year 2018-2019, and up to \$300,000 for State Fiscal Year 2019-2020. This Category is subject to fund availability. Public schools can apply for reimbursement up to 100 samples per school or to a maximum amount of \$5,000 per school.~~

For Categories 1 thru 4, any funds not utilized in one category will be redistributed among the remaining categories based on their relative percentage of funding.

The division will retain five percent (5%) of the moneys allocated annually to the fund to cover the cost of administering Categories 1 thru 4.

Funds may be carried over from previous years' appropriations and reallocated based upon the above distribution on an annual basis. ~~For Category 5 the division will retain funds to cover the cost of 1.3 full time equivalent for the administration of the category.~~

(4) Project Prioritization Criteria

If the fund lacks sufficient funds to cover all requests within each category, Priority 1 projects will be funded prior to Priority 2 projects, which will be funded prior to Priority 3 projects, which will be funded prior to Priority 4 projects. If it is determined that there are insufficient funds, further prioritization criteria will be applied as identified under each category in this section. The division may reallocate funding among categories based upon lack of requests or eligible projects within any category.

Criteria for funding project proposals within each category as described in Section 55.3 are as follows:

Category 1 – stormwater management training and best management practices training to reduce the pollution of state waters.

Priority 1 – Projects that implement stormwater management and best management practices training not previously available in Colorado, or previously limited in accessibility.

Priority 2 – Projects that will expand the content or availability of existing stormwater management and best management practices training.

Priority will be given to training providers that can demonstrate that training content will be relevant to implementation in Colorado with regards to Colorado's hydrology, climate and water rights, as applicable.

Priority will also be given to training providers that provide no- or low-cost training.

Additional prioritization criteria will include the expected water quality benefits, total population receiving training, availability of match, and readiness to proceed. Specific points available in each of these categories and tie breaking criteria will be included as an attachment to the request for application.

Category 2 - Projects that improve the water quality in the community or water body which has been impacted by a water quality violation.

Priority 1 – Projects that address impacts to a water supply designated use.

Priority 2 – Projects that address impacts to a recreation designated use.

Priority 3 – Projects that address impacts to an aquatic life designated use.

Priority 4 – Projects that address impacts to an agricultural or wetlands designated use.

Additional prioritization criteria will include financial/affordability, water quality benefits, permit compliance, readiness to proceed, and availability of match. Specific points available in each of these categories and tie breaking criteria will be included as an attachment to the request for application.

Category 3 - Planning, design, construction, or repair of stormwater projects and domestic wastewater treatment facilities identified on the current fiscal year's Water Pollution Control Revolving Fund Intended Use Plan.

Priority 1 – Projects that improve water quality in the community or water body impacted by a violation.

Priority 2 – Planning, design, construction, or repair of stormwater projects.

Priority 3 – Projects identified on the current ~~year's~~ Water Pollution Control Revolving Fund Intended Use Plan.

Additional prioritization criteria will include financial/affordability, water quality benefits, permit compliance, readiness to proceed, and availability of match. Specific points available in each of these categories and tie breaking criteria will be included as an attachment to the request for application.

Category 4 - Nonfederal match funding for nonpoint source projects.

Priority 1 – Projects that reduce or eliminate water quality impairments identified in Regulation #93 (5 CCR 1002-93), Colorado's Section 303(d) List.

Priority 2 – Projects that protect any established designated water quality use.

~~Category 5—Public school lead testing projects.~~

~~Priority 1—Testing conducted in the oldest public elementary schools.~~

~~Priority 2—Testing conducted in the oldest public schools that are not elementary schools.~~

~~Priority 3—Testing conducted in all other public schools.~~

~~Prioritization criteria will include the age of the original constructed building. Tie breaking criteria will include financial/affordability, school district median household income, and readiness to proceed. Specific points available in each of these categories will be included as an attachment to the request for application.~~

~~The financial/affordability criterion relates to the percentage of students eligible for the Free and Reduced Lunch Program. Points were developed relative to the percentage of students eligible for the Free and Reduced Lunch Program based on the state average for free and reduced lunch eligibility, giving priority to schools who are equal to or higher than the current average. Data collected by Colorado Department of Education will be used to determine the percentage of students within each school who are eligible for free and reduced lunch. Schools will be ranked from highest to lowest with the highest percentage of student eligibility for the Free and Reduced Lunch Program receiving the most points.~~

~~The school district median household income (MHI) will be based on the American Community Survey data published by the United States Census Bureau. Schools will be ranked from lowest district MHI to the highest district MHI with the lowest taking priority. Since actual district MHI data is being used in the ranking, no points will be assigned in this category, rather, the school with the lowest district MHI will rank higher.~~

~~The readiness to proceed criterion will be based upon the time in which the school can start its lead testing. Schools that can start the lead testing within 4 weeks of the date of the award letter will receive higher priority.~~

#### (5) Notification and Reporting

Applications for all of the Categories will be noticed and accepted by the division after the division determines availability of appropriation. For Categories 1 thru 3, applicants will be responsible for demonstrating the impacts of the violation on the affected water body or community, and the related water quality improvement project benefits. The division will accept applications for Category 4 projects in accordance with the annual nonpoint source project schedule. ~~Category 5 projects may be notified and accepted at different times than Categories 1 thru 4.~~

The division will evaluate all applications and determine the grant award(s) for each category based on the criteria in the Entity Eligibility Section, Project Eligibility Section, Funding Allocation Section and Project Prioritization Section.

Grant recipients for Categories 1 thru 4 will provide a final project report within 60 days of completion of the project. Final project reports shall include a detailed description of the project as implemented, all problems encountered and the solutions thereto, itemized project costs, a declaration that the project has been fully implemented as approved, and a description of the environmental and public health benefits resulting from implementation of the project. Information on the grant recipients, including project description and grant award, will be reported in the division's Annual Report to the commission, in accordance with section 25-8-305, C.R.S.

~~Grant recipients for Category 5 shall follow the division's lead testing protocol and shall provide the test samples to the Department of Public Health and Environment's laboratory or a laboratory certified by the department. The public school shall provide the test results to its local public health agency, its public water system, its school board, and the division.~~

#### **55.4 — NUTRIENTS MANAGEMENT GRANT FUND CRITERIA**

##### ~~(1) — Entity Eligibility~~

~~Eligibility is for facilities subject to section 85.5(1)(a)(iii), not including those facilities that are eligible for an exception under 85.5(3)(b). Domestic Wastewater Treatment Works with capacity greater than two million gallons per day that are owned or operated by a local government and discharge to a high-priority watershed as designated by the division are eligible to apply for a Nutrients Management Grant under this section.~~

##### ~~(2) — Project Eligibility~~

~~Projects for planning, design, construction, and/or improvement of domestic wastewater treatment works to comply with the effluent limitations in section 85.5(1)(a)(iii) are eligible for grants.~~

##### ~~(3) — Project Prioritization~~

~~The division shall rank each project based on the priority score of each project. Projects will be funded in priority order from highest to lowest. The division shall consider the following categories to determine the priority score of each Nutrient Management Grant project proposal:~~

~~(a) — The division shall evaluate the financial and affordability needs of the proposed project. Financial need shall be determined using a points system that ranks projects based on the median household income of the service area, estimated existing monthly sewer user charges as a percentage of median household income, and the amount of total sewer debt per connection. For eligible facilities that have more than one ownership entity, the division will use an average for the combined service area for each of the applicable scoring elements. In the case of Special Districts, the division will use census block data, if available, to determine the median household income for the area in which the District is located. If census block data is not available, the division will defer to the median household income for the County in which the District is located.~~

~~A local match component of twenty percent (20%) of the total grant award will be applied to planning grants only. Local commitment to the proposed planning project shall be determined using a points system that ranks projects based on the percentage of match in the form of liquid capital, or funding from other sources that an applicant has committed to the project based on the estimated total project costs.~~

~~Points shall be assigned based on the following criteria:~~

~~i) — Median Household Income (MHI) of service area~~

<75% of State MHI	20 points
Between 75% and 85% of State MHI	15 points
Between 86% and 95% of State MHI	10 points
Between 96% and 100% of State MHI	5 points
>100% of State MHI	0 points

ii) ~~User Fees (existing sewer fees/area MHI)~~

Rates are > 2.0% of the service area's MHI	20 points
Rates are >1.5% and ≤2.0% of the service area's MHI	15 points
Rates are >1.0% and ≤1.5% of the service area's MHI	10 points
Rates are ≤1.0% of the service area's MHI	5 points

iii) ~~Total Sewer Debt per Connection (existing debt/number of connections)~~

> \$1,500 per connection	20 points
Between \$1,000 – \$1,500 per connection	15 points
Between \$500 – \$999 per connection	10 points
< \$500 per connection	5 points

iv) ~~Percent of Local Match Contribution (for Planning Grants only)~~

> 50%	20 points
Between 35% and 50%	15 points
Between 20% and 34%	10 points
< 20%	0 points

(b) ~~The division shall evaluate the degree to which the project improves or protects surface water quality by assessing the characteristics of the stream receiving effluent discharge. This includes determining whether the receiving stream has been classified as a cold water stream, a warm water stream, and the dilution rate of the receiving stream.~~

Points for the receiving stream characteristics shall be assigned based on the following criteria:

i) ~~Receiving Stream Characteristics~~

Cold water stream	15 points
Warm water stream	10 points

ii) ~~Dilution Rates~~

Dilution rates <2:1 are considered "low"	15 points
Dilution rates <10:1 but ≥ 2:1 are considered "intermediate"	10 points
Dilution rates <50:1 but ≥10:1 are considered "high"	5 points
Dilution rates ≥ 50:1 are considered "very high"	0 points

(c) ~~The division shall also consider whether an entity has elected to incorporate a watershed approach to nutrient management that addresses the protection of surface and/or groundwater resources through either the planning and/or development of non-point source or agricultural best management practices both upstream and downstream from the facility; or the entity has elected to participate in or~~

~~facilitate Community Action Partnerships, project sponsorship, or conduit financing mechanisms to enable other community stakeholders who will undertake nutrient, non-point source, or agricultural monitoring efforts both upstream and downstream of the facility. Applicants that incorporate such efforts, in addition to their treatment facility upgrade and adaptations, shall be awarded 10 points.~~

~~(d) — The division shall evaluate the impacts of operational cost for design/construction projects and for planning projects with separate criteria.~~

~~The operational costs for design/construction projects will evaluate nutrient treatment upgrades and adaptations to existing Domestic Wastewater Treatment facilities based on cost per million gallons treated. Operational cost estimates are based on broad technology types available for nutrient removal and benchmarks are based on national cost averages published in the U.S. EPA (2008) Municipal Nutrient Removal Technologies Reference Document Volume I; Chapter 4, Cost Factors, which is incorporated herein by reference. This incorporation does not apply to later amendments or editions of the document, and is available via internet: <http://water.epa.gov/scitech/wastetech/upload/mnrt-volume1.pdf>, or from the Water Quality Control Commission Office, 4300 Cherry Creek Drive South, Denver, CO 80246, 303-692-3463.~~

~~Points for design/construction projects shall be assigned based on the following criteria:~~

~~i) — Estimated Operational Cost per million gallons treated~~

<del>&lt;\$75 per million gallons treated</del>	<del>5 points</del>
<del>Between \$75 — \$200 per million gallons treated</del>	<del>10 points</del>
<del>Between \$199 and \$500 per million gallons treated</del>	<del>15 points</del>
<del>&gt;\$500 per million gallons treated</del>	<del>20 points</del>

~~ii) — The division shall evaluate the costs associated with planning projects that incorporate one or more of the following nutrient management planning methodologies. For each of the following methodologies that are included, five points will be awarded.~~

<del>Water Quality Monitoring Plan Development</del>	<del>5 points</del>
<del>Operational Optimization Study</del>	<del>5 points</del>
<del>Operations Pilot Testing of Nutrient Removal Technology</del>	<del>5 points</del>
<del>Carbon Planning for Biological Nutrient Removal Technology</del>	<del>5 points</del>

~~(e) — The division shall determine the level of environmental impacts as a result of nutrient loading based on the number of Single Family Equivalent units located within the service area. Points shall be assigned based on the following criteria:~~

~~i) — Environmental impact based on number of Single Family Equivalents in Service Area~~

<del>&lt;10,000</del>	<del>5 points</del>
<del>Between 10,000 and 30,000</del>	<del>10 points</del>
<del>Between 30,001 and 50,000</del>	<del>15 points</del>
<del>Over 50,000</del>	<del>20 points</del>

~~(f) — The division shall evaluate whether the applicant has a Utility Management Plan in place that includes one or more of the criteria referenced below. For each of the following criteria that are met, 5 points shall be assigned:~~

~~i) — Secures a replacement fund for the rehabilitation and replacement of infrastructure as needed.~~

~~ii) — Includes provisions addressing the proper training, licensing, and certification of operators required to adequately operate and maintain the selected wastewater treatment technology.~~

~~iii) — Includes provisions ensuring that the facility has adequate in-house staffing, long-term management contracts, or partnerships with third-party providers to properly operate and maintain the facility.~~

~~iv) — Provides sufficient revenue to meet operations and maintenance capital needs (operating revenue divided by the operating expense).~~

~~v) — Includes mechanisms to protect infrastructure investments to ensure longevity and ongoing functionality of non-point source best management practices.~~

~~(g) — The division shall determine whether the project is ready to proceed with funding based on the following indicators specific to design/construction projects. For each of the following criteria that are met, 5 points shall be assigned:~~

~~i) — Site Application has been submitted.~~

~~ii) — Process Design Report has been submitted.~~

~~iii) — Technical plans and specifications have been submitted.~~

~~(h) — The division shall determine whether the project is ready to proceed with funding based on the following indicators specific to planning projects. For each of the following criteria that are met, 5 points shall be assigned:~~

~~i) — Applicant has the required twenty percent (20%) local match secured and held in cash reserve.~~

~~ii) — Engineer/Consultant(s) has been selected.~~

~~iii) — Agreements with selected Engineer/Consultant(s) are in place.~~

~~(i) — In the event that two or more projects have the same priority score and rank, the division shall give priority to the project that is most ready to proceed with moving forward with financial assistance based on the readiness to proceed indicators specified in subsection 3(g) and (3)(h) above. If projects remain tied, priority will be given to the applicant that demonstrates the highest financial need pursuant to subsection 3(a).~~

#### ~~(4) — Funding Allocation and Awarding Process~~

~~The Colorado General Assembly created a Nutrients Management Grant Fund to assist eligible applicants with the costs associated with implementation of the Nutrients Management Control Regulation No.85. Funding is contingent upon final appropriation by the Colorado General Assembly. Pending appropriation, the division will develop a request for application to solicit projects for funding. If there are more requests than available funds, the division will prioritize projects based on the above criteria and will notify all applicants of their funding status after the establishment of a fundable list. The fundable list will be posted on the division website to identify the recipients of funds and the amount of each award.~~

~~Projects will be funded in priority order, highest to lowest, until all funds have been allocated. The division will determine the amount of funding to be made available for design/construction projects and the amount to be made available for planning projects. The division will have the authority to transfer funds between design/construction projects and planning projects as needed to sufficiently meet the demand indicated by the number of Nutrient Management Grant applications that are received. In the event that funds remain unallocated subsequent to a transfer of funds between project types, the division has the authority to increase the amount of grant awards in priority order, highest to lowest, until all of the funds have been allocated.~~

## **55.5 NATURAL DISASTER GRANT FUND CRITERIA**

### **(1) Entity Eligibility**

(a) Local governments defined as governmental agencies in section 55.2 that own and operate domestic wastewater treatment works and public drinking water systems in a designated disaster emergency county by an executive order or proclamation under section 24-33.5-704, C.R.S.

(b) Local governments accepting grants on behalf of and in coordination with not-for-profit public drinking water systems.

(c) Local governments assisting with the repair and restoration of on-site wastewater treatment systems as defined in section 25-10-103(12), C.R.S.

~~(d) If funds are transferred to the Nutrients Management Grant Fund pursuant to section 55.5(3)(d), eligible entities will be determined per section 55.4 of this regulation.~~

### **(2) Project Eligibility**

(a) Domestic wastewater treatment works, public drinking water systems and on-site wastewater treatment systems that have been impacted, damaged or destroyed in connection with the September 2013 flood, or future declared disaster emergencies.

(b) Projects for the planning, design, construction, improvement, renovation or reconstruction of domestic wastewater treatment works or public drinking water systems that have been impacted, damaged or destroyed in connection with the September 2013 flood.

(c) Grant moneys under this section may be used as matching funds required to secure any other state and federal funding for the planning, design, construction, improvement, renovation or reconstruction of drinking water and wastewater infrastructure.

### **(3) Award Process and Funding Allocation**

(a) Appropriations are subject to approval by the Colorado General Assembly, and funding is contingent upon such final appropriation. Pending appropriation, the division will administer the funds per the Natural Disaster Grant Fund rules identified in this section and prioritize projects based upon the criteria in section 55.5(4) below. The division will notify all applicants of their funding status after the establishment of a fundable list. The fundable list will be posted on the division website to identify the recipients of funds and the amount of each award.

(b) A portion of the Natural Disaster Grant Fund will be set-aside to assist local governments with grants for on-site wastewater treatment systems that have been impacted as a result of the September 2013 flood. To sufficiently meet the demand indicated by the number of applications received and project type, the division has the authority to transfer funds between the set-aside for on-site wastewater treatment systems and the Natural Disaster Grant Fund. If a transfer occurs and project prioritization is required, the division will prioritize per section 55.5(4).

(c) In the event that funds remain unallocated subsequent to a transfer of funds between the Natural Disaster Grant Fund and the on-site wastewater set-aside, the division has the authority to increase the amount of grant awards in priority order, highest to lowest, until all of the funds have been allocated or the application demand has been met.

~~(d) On September 1, 2015, any unencumbered moneys remaining in the Natural Disaster Grant Fund will be transferred to the Nutrients Management Grant Fund, at which time the division will solicit a separate request for application per section 55.4, the Nutrients Management Grant Fund.~~

(4) Project Prioritization

(a) If the demand for funding in the Natural Disaster Grant Fund exceeds the available funds, the division shall rank each project based on population criteria, financial affordability factors, regionalization, utilization of multiple funding sources, readiness to proceed and impacts as a result of the September 2013 flood. The division will give priority to the applicants that have the lowest financial ability to pay. Specific point ranking criteria and associated points under each of the above factors will be included in the request for application. Projects will be funded in priority order from highest to lowest until all funds have been allocated.

(b) Local governments receiving funds from the set-aside portion for the rehabilitation for on-site wastewater treatment systems impacted by the September 2013 flood will receive an equitable percentage of the funds requested. For example, if \$1 million is allocated to the set-aside portion and \$2 million is requested, each valid applicant will receive 50% of its application request.

**55.6 SMALL COMMUNITIES WATER AND WASTEWATER GRANT FUND CRITERIA**

(1) Entity Eligibility

(a) Suppliers of water that serve a population of not more than five thousand people.

The department, in the name of the state and to the extent that state funds are appropriated therefor, may enter into contracts with both governmental agencies, ~~including counties~~, and not-for-profit public water systems, as defined in section 25-1.5-201(1), or with counties representing unincorporated areas that ~~which~~ serve a population of not more than five thousand people, to grant moneys for the planning, design, and construction of public water systems. ~~that serve populations of not more than five thousand people~~ health.

(b) Domestic waste water treatment works that serve a population of not more than five thousand people.

The department, in the name of the state and to the extent that state funds are appropriated therefor, may enter into contracts with governmental agencies, ~~including or~~ counties representing unincorporated areas that serve a population of not more than five thousand people, for domestic wastewater treatment works, as defined in section 25-8-103(5), ~~which serve a population of not more than five thousand people which serve a population of not more than five thousand people~~, to grant moneys for eligible projects as defined in section 25-8-701(2).

(c) During the grant application process, the department shall seek from the division of local government in the department of local affairs a fiscal analysis of the applying entity to determine financial need. Based upon its fiscal analysis, the division of local government shall issue or deny a certificate of

financial need. If a certificate of financial need is issued, the department may authorize a state grant to the project in accordance with the project prioritization adopted by the department.

(2) Project Eligibility

(a) Projects for the planning, design, and construction of public water systems or domestic wastewater treatment works that serve a population of not more than five thousand people and which are necessary for the protection of public health and water quality.

(3) Award Process and Funding Allocation

(a) The division will administer the funds per the Small Communities Water and Wastewater Grant Fund rules identified in this section. The available funds will be allocated approximately 50/50 between water and wastewater projects. The division will adjust the 50/50 allocation if necessary depending upon the quantity and composition of the application requests. No more than 10% of the total available funds will be distributed to any single water and/or wastewater eligible project. The division will notify all applicants of their funding status after the establishment of a fundable list.

The fundable list will be posted on the division website to identify the recipients of funds and the amount of each award.

(4) Project Prioritization

(a) Drinking Water

i) If the demand for funding in the Small Communities Water and Wastewater Grant Fund exceeds the available funds, the division shall rank each project based on financial/affordability, drinking water quality and public health, Colorado Primary Drinking Water Regulation compliance, and readiness to proceed. The division will give priority to the applicants that have the lowest financial ability to pay based upon project ranking criteria. Specific point ranking criteria and associated points under each of the above factors will be included in the request for application. Projects will be funded in priority order from highest to lowest until all funds have been allocated.

ii) Additional points will be awarded if the need for the project is a result of a natural disaster in a county where the Governor has declared a disaster emergency by Executive Order or proclamation under section 24-33.5-704, C.R.S.

(b) Wastewater

i) If the demand for funding in the Small Communities Water and Wastewater Grant Fund exceeds the available funds, the division shall rank each project based on financial/affordability, water quality improvement, permit compliance, and readiness to proceed. The division will give priority to the applicants that have the lowest financial ability to pay based upon project ranking criteria. Specific point ranking criteria and associated points under each of the above factors will be included in the request for application. Projects will be funded in priority order from highest to lowest until all funds have been allocated.

ii) Additional points will be awarded if the need for the project is a result of a natural disaster in a county where the Governor has declared a disaster emergency by Executive Order or proclamation under section 24-33.5-704, C.R.S.

**55.7-10 RESERVED**

55.33 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY, AND PURPOSE REGARDING STATE FUNDED WATER AND WASTEWATER INFRASTRUCTURE PROGRAMS, DECEMBER 12, 2022 RULEMAKING, EFFECTIVE JANUARY 31, 2023

The provisions of Sections 25-8-202, 25-8-308, and 25-8-608, C.R.S. provide the specific statutory authority for adoption and implementation of the attached regulations. The Commission, in compliance with section 24-4-103(4), C.R.S., has adopted the following statement of basis and purpose.

BASIS AND PURPOSE

The following changes were made to the regulation to reflect the sunseting of funding authorizations for specific grant funds that were previously authorized by the state legislature, and increased spending levels authorized for Category 1 funds adopted during the 2022 legislative session through the appropriations process. Additional changes were made to improve clarity and organization of the regulation.

Water Quality Improvement Fund

- Stormwater Management Training, Section 55.1(1); Section 55.3(3)  
Clarified that the purpose of the fund also includes stormwater management training and best practices. During the 2022 legislative session, the General Assembly increased the spending authority for the Water Quality Improvement Fund by \$300,000 to continue to support Category 1 projects (stormwater management training and best management practices training to reduce the pollution of state waters). Accordingly, the commission took action to revise section 55.3(3) to remove the \$100,000 allocation for Category 1 projects and replaced it with a \$300,000 allocation.

- Public School Lead Testing, Section 55.1(1); Section 55.2(2) and (9); Section 55.3  
The public school lead testing grant and all associated references to category 5 have been removed from these sections in the regulation since the grant was repealed effective September 1, 2021.

Nutrient Management Grant Fund

- Section 55.1(2); Section 55.4; Section 55.5(3)(d)  
These sections were edited to remove all associated references to the nutrient management grant fund from the regulation since the fund was repealed effective September 1, 2016.

Small Communities Water and Wastewater Grant Fund

- Section 55.6(1)  
Entity Eligibility was revised to align with the eligibility requirements included in C.R.S. 25-1.5-208, including the addition of the division of local government requiring a certificate of financial need.

Water Quality  
Control Commission

Department of Public Health & Environment

### NOTICE OF PUBLIC RULEMAKING HEARING BEFORE THE COLORADO WATER QUALITY CONTROL COMMISSION

#### SUBJECT:

For consideration of adoption of revisions to the Nutrients Management Control Regulation, Regulation #85 (5 CCR 1002-85) and revisions pertaining to lakes nutrient criteria in The Basic Standards and Methodologies for Surface Water, Regulation #31 (5 CCR 1002-31) along with revisions to the Classifications and Numeric Standards for:

- Arkansas River Basin, Regulation #32 (5 CCR 1002-32);
- Upper Colorado River Basin and North Platte River (Planning Region 12), Regulation #33 (5 CCR 1002-33);
- San Juan River and Dolores River Basins, Regulation #34 (5 CCR 1002-34);
- Gunnison and Lower Dolores River Basins, Regulation #35 (5 CCR 1002-35);
- Rio Grande Basin, Regulation #36 (5 CCR 1002-36);
- Lower Colorado River Basin, Regulation #37 (5 CCR 1002-37); and
- South Platte River Basin, Laramie River Basin, Republican River Basin, Smoky Hill River Basin, Regulation #38 (5 CCR 1002-38).

Revisions proposed by the Water Quality Control Division, along with a proposed Statement of Basis, Specific Statutory Authority and Purpose, are attached to this notice as Exhibit 1.

In these attachments, proposed new language is shown with underlining and proposed deletions are shown with ~~strikeouts~~. Any alternative proposals related to the subject of this hearing will also be considered.

#### SCHEDULE OF IMPORTANT DATES

Proponent's prehearing statement due	8/3/2022 5:00 pm	Additional information below.
Party Status requests due	8/17/2022 5:00 pm	Additional information below.
Proponent's supplemental prehearing statement due	10/5/2022 5:00 pm	
Responsive prehearing statements due	12/21/2022 5:00 pm	Additional information below.
Rebuttal statements due	2/15/2023 5:00 pm	Additional information below.
Last date for submittal of motions	2/22/2023 by noon	Additional information below.

#### HEARING SUBMITTALS:

For this hearing, the commission will receive all submittals electronically. Submittals must be provided as PDF documents, except for raw data exhibits which may be provided as Excel workbooks. Submittals may be emailed to [cdphe.wgcc@state.co.us](mailto:cdphe.wgcc@state.co.us), provided via an FTP site, CD or flash drive, or otherwise conveyed to the commission office to be received no later than the specified date.

#### PARTY STATUS:

Party status requests must be in writing and must provide:

- the organization's name,
- one contact person,
- a mailing address,
- a phone number, and
- email addresses of all individuals associated with the party who wish to be notified when new submittals are available on the commission's website for review.

In accordance with section 25-8-104(2)(d), C.R.S., any person who believes that the actions proposed in this notice have the potential to cause material injury to his or her water rights is requested to so indicate, along with an explanation of the alleged harm, in their party status request.

#### PREHEARING AND REBUTTAL STATEMENTS:

Each party must submit a prehearing statement: parties that have proposed revisions attached as exhibits to the notice must submit a proponent's prehearing statement. All other parties

## COLORADO

### Water Quality Control Commission

Department of Public Health & Environment

must submit a responsive prehearing statement. Proponents may also submit responsive prehearing statements when there are multiple proposals attached to the notice.

Each prehearing and rebuttal statement must be provided as a separate PDF document from any accompanying written testimony or exhibits.

Following the rebuttal statement due date, no other written materials will be accepted from parties except for good cause shown.

Oral testimony at the hearing should primarily summarize written material previously submitted. The hearing will emphasize commission questioning of parties and other interested persons about their written prehearing submittals. Introduction of written material at the hearing by those with party status will not be permitted unless authorized by the commission.

#### PREHEARING CONFERENCE:

**Attendance at the prehearing conference is mandatory for all persons requesting party status.** Following the deadline to request party status, a Zoom link to attend the prehearing conference will be provided to all those who request party status.

Following the cut-off date for motions, no motions will be accepted, except for good cause shown.

#### PUBLIC PARTICIPATION ENCOURAGED:

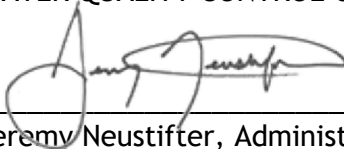

The commission encourages input from non-parties, either orally at the hearing or in writing prior to the hearing. Written submissions should be emailed to [cdphe.wqcc@state.co.us](mailto:cdphe.wqcc@state.co.us) by March 29, 2023.

#### SPECIFIC STATUTORY AUTHORITY:

The provisions of sections 25-8-202(1)(a), (b), and (2); 25-8-203; 25-8-204; and 25-8-402, C.R.S., provide the specific statutory authority for consideration of the regulatory amendments proposed by this notice. Should the commission adopt the regulatory language as proposed in this notice or alternative amendments, it will also adopt, in compliance with section 24-4-103(4) C.R.S., an appropriate Statement of Basis, Specific Statutory Authority, and Purpose.

Dated this 26<sup>th</sup> day of September 2022 at Denver, Colorado.

WATER QUALITY CONTROL COMMISSION

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

## REGULATION NO. 85 - NUTRIENTS MANAGEMENT CONTROL REGULATION

### 5 CCR 1002-85

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

#### 85.1 AUTHORITY

The Water Quality Control Commission is authorized by section 25-8-205, C.R.S., to promulgate control regulations to describe prohibitions, standards, concentrations, and effluent limitations on the extent of specifically identified pollutants that any person may discharge into any specific class of state waters.

Materials incorporated by reference are available for public inspection during normal business hours, or copies (including certified copies) may be obtained at a reasonable cost, from the Administrator, Water Quality Control Commission, 4300 Cherry Creek Drive South, Denver, Colorado 80246. Federal materials incorporated by reference are available online for free at: <https://www.govinfo.gov/app/collection/cfr>.

-Unless expressly stated otherwise, materials incorporated by reference are those editions in existence as of the most recent date this regulation is ~~promulgated or~~ revised by the Water Quality Control Commission and references do not include later amendments to or editions of the incorporated material. ~~All material incorporated by reference may be examined at any state publications depository library.~~

#### 85.2 APPLICABILITY

This regulation applies to point sources and nonpoint sources of nutrients to surface water as identified in this regulation.

#### 85.3 SEVERABILITY

The provisions of this regulation are severable, and if any provisions or the application of the provisions to any circumstances is held invalid, the application of such provision to other circumstances, and the remainder of this regulation shall not be affected thereby.

#### 85.4 DEFINITIONS

See the Colorado Water Quality Control Act, sections 25-8-101 et seq., C.R.S., and the Water Quality Control Commission codified regulations, - 5 CCR 1002, for additional definitions.

(1) "BEST MANAGEMENT PRACTICE (BMP)" means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of "state waters." BMPs also include treatment requirements, operating procedures and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.

(2) "DISADVANTAGED COMMUNITY" means a community that meets the criteria for disadvantaged community as defined in section 85.7.

- (3) "EXISTING TREATMENT FACILITY" means any existing domestic wastewater treatment facility that commenced discharge or received PELs or site approval prior to May 31, 2012 for groundwater discharge, surface water discharge, or a non-discharging facility; or that applied for a Notice of Authorization for the application of reclaimed water prior to May 31, 2012. Existing treatment facilities also include non-domestic wastewater treatment facilities that commenced discharge to state waters prior to May 31, 2013.
- (4) "LOCAL GOVERNMENT" means a city, town, county, district, association, or other public body created by or under State law and having jurisdiction over disposal of sewage, industrial wastes, or other wastes, or a designated and approved management agency under section 208 of the federal Clean Water Act.
- (5) "MS4" means a municipal separate storm sewer system.
- (6) "MUNICIPAL SCREENER" means the average total annualized cost per household of pollution control including the cost of meeting the effluent limitations at 85.5 and other costs of complying with Regulation 85, divided by the median annual household income, on a percentage basis [i.e. (average total annual pollution control cost per household / median household income)\*100].
- (7) "NEW TREATMENT FACILITY" means any domestic wastewater treatment facility on a new site that is not an "existing treatment facility" and commences discharge to surface water, or receives PELs, after May 31, 2012, or any non-domestic wastewater treatment facility on a new site that is not an "existing treatment facility" and commences discharge to surface water or receives PELs after May 31, 2013.
- (8) "NONPOINT SOURCE" means any activity or facility other than a point source from which pollutants are or may be discharged. For the purposes of this regulation, nonpoint source includes all runoff that is not subject to the requirements provided under Regulation #61, section 61.3(2)(e), (f), or (g), including those designated by the division under section 61.3(2)(f)(iii), whether sheet flows or collected and conveyed through channels, conduits, pipes or other discrete conveyances.
- (9) "SITE" means as defined in Regulation #61, 5 CCR 1002-61.
- (10) "STORMWATER" means stormwater runoff, snow melt runoff, and surface runoff and drainage.

## **85.5 SPECIFIC LIMITATIONS FOR DISCHARGERS OF NUTRIENTS**

The effluent limitations and stormwater management practices in this section shall be implemented in the Colorado Discharge Permit System (CDPS) and National Pollutant Discharge Elimination System (NPDES) permits authorizing the discharge to surface water beginning no sooner than July 1, 2013. Monitoring requirements are included in Section 85.6. All facilities should refer to section 85.6 regardless of the determination of applicable permit limits.

- (1) Numeric Limitations for Domestic Wastewater Treatment Works (DWWTW)
- (a) Existing Treatment Facilities:
- (i) Exclusions

The numeric limits in subsections (iii)(a) and (b) below will not be included in CDPS and NPDES permits and will only be included in preliminary effluent limitations for Site Location and Design Approvals upon request and with a delayed effective date for the following categories of dischargers:

- (A) Any DWWTW with a design capacity of less than or equal to 1.0 million gallons per day.
- (B) Any DWWTW owned by a disadvantaged community.
- (ii) Delayed Implementation of Effluent Limits

The numeric limits in subsections (iii)(a) and (b) below or division approved alternative or modified effluent limits consistent with 85.5(3)(b)(iv) or 85.5(3)(d) will be included in preliminary effluent limitations with a delayed effective date for Site Location and Design Approvals and will not be included in effluent limitations in CDPS permits prior to December 31, 2027 for the following categories of dischargers:

- (A) Any currently permitted DWWTW subject to Watershed Protection Control Regulations 71-74 (5 CCR 1002-71, 5 CCR 1002-72, 5 CCR 1002-73, and 5 CCR 1002-74).
- (B) Any existing permitted DWWTW with a design capacity of less than or equal to 2.0 million gallons per day.
- (C) Any existing permitted facility discharging into low priority 8-digit hydrologic units code watersheds [Purgatoire - 11020010, Upper Arkansas-John Martin Reservoir - 11020009, Upper San Juan - 14080101, Upper Arkansas-Lake Meredith - 11020005, Upper White - 14050005, San Luis - 13010003, Chico - 11020004, Kiowa - 10190010, Middle South Platte-Sterling - 10190012, San Miguel - 14030003, Alamosa-Trinchera -13010002, McElmo - 14080202, Lower Gunnison - 14020005, Arkansas Headwaters - 11020001, Upper Yampa - 14050001, Upper Gunnison - 14020002, and Uncompahgre - 14020006].
- (iii) All Others

For all Domestic Wastewater Treatment Works not identified in subsections (a)(i) or (ii) above and discharging prior to May 31, 2012 or for which a complete request for preliminary effluent limits has been submitted to the division prior to May 31, 2012, the following numeric limits shall apply:

PARAMETER	PARAMETER LIMITATIONS	PARAMETER LIMITATIONS
.	Annual Median <sup>1</sup>	95th Percentile <sup>2</sup>
(a) Total Phosphorus	1.0 mg/L	2.5 mg/L
(b) Total Inorganic Nitrogen as N <sup>3</sup>	15 mg/L	20 mg/L

1 Rolling Annual Median: The median of all samples taken in the most recent 12 calendar months.

2 The 95th percentile of all samples taken in the most recent 12 calendar months.

3 Determined as the sum of nitrate as N, nitrite as N, and ammonia as N.

(b) New Treatment Facility:

PARAMETER	PARAMETER LIMITATIONS	PARAMETER LIMITATIONS
.	Annual Median <sup>1</sup>	95th Percentile <sup>2</sup>
(a) Total Phosphorus	0.7 mg/L	1.75 mg/L

(b) Total Inorganic Nitrogen as N <sup>3</sup>	7 mg/L	14 mg/L
--	--------	---------

- 1 Rolling Annual Median: The median of all samples taken in the most recent 12 calendar months.
- 2 The 95th percentile of all samples taken in the most recent 12 calendar months.
- 3 Determined as the sum of nitrate as N, nitrite as N, and ammonia as N.

(1.5) Voluntary Incentive Program for Early Nutrient Reduction for Domestic and Non-Domestic Wastewater Treatment Works

(a) The commission has created a voluntary incentive program for facilities that voluntarily reduce phosphorus and/or nitrogen nutrient concentrations below concentrations allowed by Regulation #85 effluent limits.

(b) To participate in the voluntary incentive program, a permittee is required to submit a nutrient reduction plan and annual nutrient monitoring reports to the division.

(c) The voluntary incentive program is a performance based program. The program provides incentives for early reductions in nutrient concentrations below the concentrations allowed by the Regulation 85 effluent limits. The incentive that a permittee receives after 2027 is a discharge permit compliance schedule to provide additional time to meet nitrogen and/or phosphorus water quality-based effluent limits, limits derived from waste load allocations, or alternative effluent limits pursuant to Section 31.7(4) of Regulation #31. The additional time provided under the compliance schedule would be beyond that which would ~~be~~ otherwise be granted to a permittee not participating in the incentive program and would be based on additional effort made by the participating permittee to achieve early reduction of nutrients concentrations. The duration of the additional time in the discharge permit compliance schedule will be based on voluntary nutrient concentration reductions, as recorded in annual nutrient monitoring reports and submitted to the division. Participating facilities will begin accruing additional time for their discharge permit compliance schedules beginning on January 1, 2018 and ending on December 31, 2027.

(d) The division will include an extended permit compliance schedule in the first renewal permit after the commission adopts numeric nutrient values in Regulation #31 and Regulations #32 through #38 to any permittee who, through participation in the voluntary incentive program, demonstrates success in reducing phosphorus and/or nitrogen nutrient concentrations below the concentrations allowed by Regulation #85.

(e) Nothing in this subsection (1.5) precludes the division from exercising its authority under section 25-8-307, C.R.S. to address public health emergencies or Regulation #61, section 61.8(8)(a)(iv) to address a division determination that the permitted activity endangers human health or the classified uses of state waters and can only be regulated to acceptable levels by permit modifications or termination. The division may exercise such authority with respect to participants in the voluntary incentive program, as well as other sources of nutrients, as may be appropriate.

(2) Numeric Limitations for Non-Domestic Wastewater Treatment Works

(a) The following effluent limits apply to non-domestic existing treatment facilities:

(i) Delayed Implementation of Effluent Limits

The numeric limits in section 85.5(2) will not be included in effluent limitations in CDPS permits prior to December 31, 2027 for any existing permitted facility discharging into low priority 8-digit hydrologic units code watersheds [Purgatoire - 11020010, Upper Arkansas-John Martin Reservoir - 11020009, Upper San Juan - 14080101, Upper Arkansas-Lake Meredith - 11020005, Upper White - 14050005, San Luis - 13010003, Chico - 11020004, Kiowa - 10190010, Middle South Platte-Sterling - 10190012, San Miguel -

14030003, Alamosa-Trinchera - 13010002, McElmo - 14080202, Lower Gunnison - 14020005, Arkansas Headwaters - 11020001, Upper Yampa - 14050001, Upper Gunnison - 14020002, and Uncompahgre - 14020006] except for dischargers that are discharging effluent concentrations of TN or TP that are greater than 53 mg/L and 6 mg/L, respectively.

(ii) All Others

The following effluent limits apply to non-domestic existing treatment facilities not covered by the delay provided in section 85.5(2)(a)(i):

(A) Non-domestic dischargers with a Standard Industrial Classification code in the Major Group 20 (SIC 20).

PARAMETER	PARAMETER LIMITATIONS	PARAMETER LIMITATIONS
.	Annual Median <sup>1</sup>	95 <sup>th</sup> Percentile <sup>2</sup>
(a) Total Phosphorus	10 mg/L	25 mg/L
(b) Total Inorganic Nitrogen as N <sup>3</sup>	20 mg/L	27 mg/L

1 Rolling Annual Median: The median of all samples taken in the most recent 12 calendar months.

2 The 95th percentile of all samples taken in the most recent 12 calendar months.

3 Determined as the sum of nitrate as N, nitrite as N, and ammonia as N.

(B) Any other non-domestic dischargers for which the division has determined, based on credible information that the facility is expected, without treatment for nutrients, to discharge total inorganic nitrogen or total phosphorus concentrations to surface waters in excess of the following effluent limits.

PARAMETER	PARAMETER LIMITATIONS	PARAMETER LIMITATIONS
.	Annual Median <sup>1</sup>	95 <sup>th</sup> Percentile <sup>2</sup>
(a) Total Phosphorus	1.0 mg/L	2.5 mg/L
(b) Total Inorganic Nitrogen as N <sup>3</sup>	15 mg/L	20 mg/L

1 Rolling Annual Median: The median of all samples taken in the most recent 12 calendar months.

2 The 95th percentile of all samples taken in the most recent 12 calendar months.

3 Determined as the sum of nitrate as N, nitrite as N, and ammonia as N.

(b) The following effluent limits apply to non-domestic new treatment facilities:

(i) Non-domestic dischargers within SIC 20.

PARAMETER	PARAMETER LIMITATIONS	PARAMETER LIMITATIONS
.	Annual Median <sup>1</sup>	95 <sup>th</sup> Percentile <sup>2</sup>
(a) Total Phosphorus	5 mg/L	13 mg/L
(b) Total Inorganic Nitrogen as N <sup>3</sup>	10 mg/L	20 mg/L

1 Rolling Annual Median: The median of all samples taken in the most recent 12 calendar months.

- 2 The 95th percentile of all samples taken in the most recent 12 calendar months.
- 3 Determined as the sum of nitrate as N, nitrite as N, and ammonia as N.

(ii) Any other non-domestic dischargers for which the division has determined, based on credible information that the facility is expected, without treatment for nutrients, to discharge total inorganic nitrogen or total phosphorus concentrations to surface waters in excess of the following effluent limitations.

PARAMETER	PARAMETER LIMITATIONS	PARAMETER LIMITATIONS
.	Annual Median <sup>1</sup>	95 <sup>th</sup> Percentile <sup>2</sup>
(a) Total Phosphorus	0.7 mg/L	1.75 mg/L
(b) Total Inorganic Nitrogen as N <sup>3</sup>	7 mg/L	14 mg/L

- 1 Rolling Annual Median: The median of all samples taken in the most recent 12 calendar months.
- 2 The 95th percentile of all samples taken in the most recent 12 calendar months.
- 3 Determined as the sum of nitrate as N, nitrite as N, and ammonia as N.

**(3) Additional Provisions Applicable to Domestic and Non-Domestic Wastewater Treatment Works**

**(a) Compliance Schedules**

A permit shall not be issued which allows a violation of the provisions of this control regulation unless it contains a schedule of compliance requiring specific steps needed to modify or install treatment facilities, operations or other measures, and deadlines for completion of those steps. Factors that the division shall consider in developing the deadlines to be included in a compliance schedule, based on information that may be provided by the permittee or is otherwise known, shall include:

- (i) Availability of resources needed to modify or install treatment facilities, adjust operations or other measures, including any in-house resources, the availability of consultants and contractors in the area with the appropriate expertise, and the availability of financing for any identified facility construction or other capital project, including the Water Pollution Control Revolving Fund;
- (ii) Current conditions at the site, including existing treatment processes, the physical characteristics of the property, and the layout of the facility on the property;
- (iii) Sufficient time for operational startup, new plant optimization, and operator training;
- (iv) Factors identified by the permittee that might significantly affect the time necessary to complete one or more of the steps necessary to attain compliance;
- (v) Sufficient time for the permittee to execute and implement a trade pursuant to section 85.5(3)(d);
- (vi) Sufficient time in the event the permittee undertakes a pilot project to develop and/or test new treatment technology for reduction of total inorganic nitrogen or total phosphorus; and
- (vii) Other site specific factors affecting the cost and timing of construction activities.

**(b) Exceptions**

The numerical effluent limitations set forth in sections 85.5(1)(a)(iii), 85.5(1)(b), and 85.5(2) shall not apply under the following circumstances:

- (i) Where a discharger demonstrates to the satisfaction of the division that its discharge is unlikely to cause or contribute to ambient nutrient concentrations in its receiving waters that exceed the relevant numeric levels for total phosphorus and total nitrogen set forth in section 31.17 of Regulation #31;
  - (ii) Where noncontact cooling water discharges contain nutrients (phosphorus or nitrogen) and nutrients in the discharge originate from the receiving water as intake water or through use of chemicals shown to be necessary for proper operation of the cooling tower;
  - (iii) Where discharges consist solely of ground water that is pumped for the purpose of dewatering a construction site or for building sumps so long as no phosphorus or nitrogen is added to the ground water being discharged; or
  - (iv) If effluent concentrations higher than the applicable numerical limitations under this Control Regulation are adequate to achieve the total phosphorus and total nitrogen instream values set forth in section 31.17 of Regulation #31, then those alternative concentrations will apply as effluent limitations under Regulation #85 rather than the numerical limitations set forth in sections 85.5(1) and 85.5(2) hereof.
- (c) Variances
- (i) Variances from the numerical effluent limits set forth in sections 85.5(1)(a)(iii), 85.5(1)(b) and 85.5(2) of this control regulation may be granted by the division where it is demonstrated by the permittee to the division's satisfaction that the nutrient reduction benefits of meeting the section 85.5 effluent limitations do not bear a reasonable relationship to the economic, environmental, or energy impacts resulting from meeting those effluent limitations. Meeting the effluent limitations in section 85.5 shall be presumed not to bear a reasonable relationship to the associated economic, environmental, or energy impacts where:
    - (A) Greater than 50% of the median annual TN or TP incremental load within the 8-digit Hydrologic Unit Code (HUC) watershed results from permitted process wastewater point source discharges, if
      - for public sector entities, the Municipal Screener value is 2 or greater.
      - for private sector entities, the required increase in treatment will cause more than 10 percent change in the entity's level of profitability, or similar effect on liquidity, solvency, and leverage.
    - (B) 20-50% of the median annual TN or TP incremental load of the 8-digit HUC watershed results from permitted process wastewater point source discharges if:
      - for public sector entities, the Municipal Screener value is 1.5 or greater.
      - for private sector entities, the required increase in treatment will cause 5 to 10 percent change in the entity's level of profitability, or a similar effect on liquidity, solvency, and leverage.
    - (C) < 20% of the median annual TN or TP incremental load of the 8-digit HUC watershed results from permitted process wastewater point source discharges if:
      - for public sector entities, the Municipal Screener value is 1 or greater.
      - for private sector entities, the required increase in treatment will cause less than 5 percent change in the entity's profitability, or a similar effect on liquidity, solvency, and leverage.
  - (ii) A request for a variance shall be accompanied by proposed alternate effluent limits that represent the highest degree of nutrient removal that is consistent with the reasonable relationship test.

(iii) Variances shall be granted, denied, or revised as appropriate at the time of permit issuance or renewal.

(d) Nutrient Trading

(i) Point Source to Point Source Nutrient Trading. The numerical effluent limitations set forth in sections 85.5(1)(a)(iii), 85.5(1)(b) and 85.5(2) may be modified for individual discharge permits pursuant to a trade of nitrogen or phosphorus between point sources where the division has determined that the trade will result in equal or better instream water quality for that parameter at all locations and at all times.

Point source to point source nutrient trades shall be based on a 1:1 ratio.

(ii) Nonpoint Source to Point Source Nutrient Trading. The numerical effluent limitations set forth in sections 85.5(1)(a)(iii), 85.5(1)(b) and 85.5(2) may be modified for individual discharge permits pursuant to a trade of nitrogen or phosphorus credits from a nonpoint source to a point source on a stream segment or watershed basis where the division has determined that the trade achieves a net water quality or environmental benefit and does not cause adverse localized impacts.

Nonpoint source to point source trades shall be based on a minimum 2:1 ratio, but may be revised based on site-specific data that demonstrates a lower ratio achieves the criteria specified in the paragraph above.

(4) MS4 Permit Requirements for Nutrient Source Reductions

The following requirements, at a minimum, shall be incorporated into a CDPS Permit for discharges from a Municipal Separate Storm Sewer System (MS4) required to obtain a CDPS Permit pursuant to Regulation #61.

(a) Public education and outreach on stormwater impacts associated with nutrients. The MS4 permittee must develop, document, and implement a public education program to reduce water quality impacts associated with nitrogen and phosphorus in stormwater runoff and illicit discharges and distribute educational materials or equivalent outreach to targeted sources (e.g., residential, industrial, agricultural, or commercial) that are contributing to, or have the potential to contribute, nutrients to the waters receiving the discharge authorized under the MS4 permit.

CDPS Permits shall authorize MS4 permittees to meet the requirements of this section through contribution to a collaborative program to evaluate, identify, target and provide outreach that addresses sources state-wide or within the specific region or watershed that includes the receiving waters impacted by the MS4 permittee's discharge(s).

(b) Pollution Prevention/Good Housekeeping for Municipal Operations associated with nutrients. The permittee must develop and implement a municipal operations program that has the ultimate goal of preventing or reducing nitrogen and phosphorus in stormwater runoff associated with the MS4 permittee's operations.

Written procedures for an operation and maintenance program to prevent or reduce nitrogen and phosphorus in stormwater runoff associated with the MS4 permittee's operations shall be developed. The program must specifically list the municipal operations (i.e., activities and facilities) that are impacted by this operation and maintenance program.

CDPS Permits shall authorize MS4 permittees to meet the requirements of this section through contribution to a collaborative program to evaluate, identify, and target sources state-wide or within the specific region or watershed that includes the receiving waters impacted by the MS4 permittees' discharge(s).

(5) Nonpoint Source Discharges

(a) Best Management Practice Implementation

(i) Governmental entities, individuals, corporations, partnerships, associations, agencies, and other entities with responsibility for activities or facilities that cause or could reasonably be expected to cause nonpoint source nutrient pollution of waters are encouraged to adopt and implement/install BMPs to the maximum extent practicable to reduce nutrient loads from such sources.

(ii) Agricultural operations that apply supplemental nutrients as part of crop production activities are encouraged to develop and implement nutrient management plans to the maximum extent practicable to reduce nutrient loads from such sources. Nutrient planning should be based on current soil, manure, and plant tissue test results developed in accordance with guidance or industry practice, such as that developed or recognized by Colorado State University.

(iii) The choice of which type of voluntary nonpoint source control measures shall be made by the entities identified in paragraphs (i) and (ii) above.

(iv) The division shall collaborate with owners/operators of agricultural operations in pursuing incentive, grant, and cooperative programs to control nonpoint source pollution related to agricultural and silvicultural practices.

(b) Public Information and Education

(i) The division and entities identified in Section 85.5(5)(a)(i) are encouraged to develop and implement a public information and education program. This program will focus on the prevention of pollution from sources that could be mobilized from present and future activities as well as measures that could abate known nonpoint source pollution. Areas for abatement include, but are not limited to, general agricultural and silvicultural practices, landscaping activities, and other nonpoint sources of nutrients.

(ii) The program will be consistent with the voluntary, incentive-based approach and focus on the general public, and agricultural and local government sectors.

(c) Additional Nonpoint Source Actions

(i) During the triennial review of this control regulation, the division shall report to the commission on the progress implementing the activities addressed under this section.

~~(ii) If voluntary nonpoint source BMPs are not effective in managing nutrients by May 31, 2022, the commission may consider the adoption of prohibitions or precautionary measures to further limit nutrient concentrations.~~

(iii) Pursuant to section 25-8-205(5), C.R.S., ~~after May 31, 2022~~ the commission may consider adopting, in consultation with the commissioner of agriculture, control regulations specific to agricultural and silvicultural practices if the commission determines that ~~demonstrated~~ sufficient progress has not been ~~maintained~~ ~~demonstrated~~ in agricultural ~~and silvicultural~~ nonpoint source nutrient management.

## 85.6 MONITORING REQUIREMENTS

(1) Monitoring requirements are established by this Control Regulation to evaluate the effectiveness of this ~~C~~ontrol ~~R~~egulation and to determine the sources and load of nutrients at selected locations, and eventual implementation of appropriate and necessary source controls.

(2) Point Source Monitoring - Process Wastewater Dischargers

(a) Applicability. The requirements of this section apply to all DWWTW including federal facilities, and to any non-domestic dischargers in SIC Major Category 20 or that are identified by the division pursuant to section 85.5(2), except that facilities that are excluded from effluent limits as described in Section 85.5(1)(a)(i) are only required to conduct effluent monitoring as described below in Section 85.6(2)(b)(i). Facilities that discharge to lakes may have modified monitoring requirements.

(b) Nutrient Monitoring Program: Facilities identified in subsection (2)(a), above, shall develop, implement, and document a routine water quality monitoring program. The monitoring program shall be designed to characterize the load (coincident flow and concentration) of nutrients in the discharge, the concentrations in the receiving water above the discharge, and the load of nutrients at selected locations in the rivers and streams below the discharge. The monitoring program shall include the following information:

(i) Effluent Monitoring:

(A) Locations: Sampling for nutrients is required in the effluent before it is discharged into the receiving water body at the location where monitoring is performed to satisfy other CDPS and NPDES permit requirements.

(B) Parameters: At a minimum, sufficient data shall be collected to calculate TN, TIN, and TP load. Samples of treated effluent shall be analyzed for total nitrogen (or the components to calculate total nitrogen such as total Kjeldahl nitrogen plus nitrate-nitrite), the components needed to calculate total inorganic nitrogen (typically ammonia, nitrate, and nitrite), and total phosphorus (or the components to calculate total phosphorus). Daily average effluent discharge shall be collected at the same time as the nutrient concentrations are measured.

(C) Frequency: Samples shall be collected a minimum of six times a year (every two months) for minor discharges and monthly for major discharges. Should there be no discharge due to the plant being offline or other reasons, zero discharge will be reported for that monitoring event.

(ii) Stream Nutrient Monitoring:

(A) Locations: Sampling for nutrients is required in the receiving water body:

- upstream of the discharge; and

- at the closest active Colorado Division of Water Resources or United States Geological Survey (USGS) gaging station with daily flow available throughout the year downstream of the discharge's mixing zone; or

- In lieu of the closest downstream Division of Water Resources or USGS gaging station, facilities may take part in collaborative watershed-based monitoring efforts if the parameters and frequency follow sections (B) and (C) below.

(B) Parameters: At a minimum, samples shall be analyzed for total inorganic nitrogen, total nitrogen (total Kjeldahl nitrogen plus nitrate-nitrite, or the components to calculate total nitrogen) and total phosphorus (or the components to calculate total phosphorus). Daily streamflow records will be collected where an established gaging station is present. Where an established gaging station is not available, an alternative streamflow calculation methodology may be approved by the division.

(C) Frequency: Samples shall be collected a minimum of six times a year (every two months) for minor discharges and monthly for major discharges.

(iii) Lake/Reservoir Monitoring: RESERVED

(iv) Timing: Entities shall commence data collection no later than March 1, 2013. Data collection will continue through December 31, 2027.

(3) Data Quality Requirements

(a) The entities collecting the samples will document, and make publicly available the sampling methods, analytical methods, method detection limits, required field condition and physical parameters to be recorded at each sampling event, and quality control and quality assurance protocols in a sampling and analysis plan.

(b) The information required under subsection (a) above, may be evaluated by the division for compatibility with the objectives of this section. Where the division identifies deficiencies in the protocols/methods being used to meet the objectives of subsection (a) above, the entities shall make appropriate revisions such that the division-identified deficiencies are addressed.

(c) All sampling and analysis shall be performed by the entities according to specified methods in 40 C.F.R. Part 136 (2022); methods approved by EPA pursuant to 40 C.F.R. Part 136 (2022); or methods approved by the division. The analytical method for all ambient monitoring conducted in accordance with this regulation shall be capable of reporting results at or below the following method detection limits (MDL):

Total Phosphorus	0.01 mg P /L
Nitrate + Nitrite	0.02 mg N /L
<u>Ammonia</u>	<u>0.02 mg N /L</u>
Total Kjeldahl Nitrogen	0.1 mg N /L
<u>Total Inorganic Nitrogen</u>	<u>0.02 mg N /L</u>
Total Nitrogen	0.1 mg N /L

All results above the MDL must be reported for ambient samples. The analytical method for all effluent monitoring conducted in accordance with this Regulation shall be capable of reporting results at or below the practical quantitation limit (PQL)

(d) The permittee shall submit a certification to the division that the sampling and analysis plan is in place and that monitoring is taking place. This certification is due to the division by 6 months after permit issuance or by March 2013 if the permit was in place prior to March 2013.

(4) Nonpoint Source and Unpermitted Point Source Monitoring

(a) Entities responsible for nonpoint sources and unregulated point sources of nutrients are encouraged to monitor and assess surface water resource quality as identified in Section 85.6(2) to determine the extent and magnitude of nutrient impacts. In addition, the commission recognizes state water conservation, water conservancy, and special irrigation districts as entities that monitor and assess surface water resource quality and encourages making this data publicly available for use in nonpoint source management efforts.

(b) The division shall collaborate with these entities in developing and implementing a nutrients nonpoint source monitoring program to meet the requirements of this control regulation.

(c) Future monitoring activities are encouraged to coordinate with point source nutrient monitoring, the Colorado [Agricultural Water Quality Program at the Colorado Department of Agriculture Agricultural Chemicals Program](#), and other relevant local, state, and federal monitoring efforts.

(d) The responsible entities are encouraged to identify potential funding sources and pursue options for monitoring in areas that do not have a current or future nutrient monitoring program.

**(5) Availability and Reporting of Data**

All data collected under Section 85.6 shall be maintained by the facility for 5 years after submission in an electronic form. All data collected pursuant to this control regulation shall be submitted to the division by April 15th of each year. The submission shall include geographic location of sampling, CDPS or NPDES permit number (if appropriate), name and identification of the stream flow gage, as follows:

(a) In electronic data deliverable as specified for receipt by the division; or

(b) Electronic submission to an alternative publicly available data repository. If this option is selected, the facility must notify the division by April 15 and the division will make all relevant data accessible to the public.

**85.7 DISADVANTAGED COMMUNITIES**

(1) Disadvantaged community ("DAC") means a community that has a population of 10,000 or less and meets the required combination of primary and secondary factors specified in section (3) below.

(2) For purposes of determining whether a community meets the definition of a disadvantaged community, the following definitions apply:

(a) "10-YEAR CHANGE IN POPULATION" means the average annual change for a location spanning ten years.

(b) "ASSESSED VALUE/HOUSEHOLD" means taxable resources on a household basis.

(c) "COMMUNITY MEDIAN HOUSEHOLD INCOME" means data that divides local households into two parts with half earning more than the median income and the other half earning less. An income survey completed for another state or federal program can substitute for data that is determined to be unreliable or unavailable.

(d) "COMMUNITY MEDIAN HOME VALUE" means data that divides the value distribution of homes into two parts with half of the homes falling below the median value and half falling above the median value. When data is unreliable or unavailable, the county assessor's list of homes can be substituted.

(e) “COUNTY 10-YEAR CHANGE IN JOBS” means the increase or decrease in total jobs which is comprised of wage and salary jobs as well as self-employed proprietor jobs.

(f) “COUNTY MEDIAN HOUSEHOLD INCOME” means data that divides county households into two parts with half earning more than the median income and the other half earning less than the median income.

(3) A community that meets the required combination of primary and secondary factors as specified below is a disadvantaged community for purposes of this Regulation:

**Primary and Secondary DAC Factors**

Primary Factors	Benchmark
P1 Community Median Household Income (MHI)	Less than or equal to 80 percent of the state MHI
P2 Community Median Home Value (MHV)	Less than 100 percent of the state MHV
P3 County 10-Year Change in Jobs	Loss in total jobs in the county over a 10 year period
Secondary Factors	Benchmark
S1 County Median Household Income (MHI)	Less than or equal to 80 percent of the state MHI
S2 10-Year Change in Population	Community has lost population over a ten year period
S3 Assessed Value/Household	Community’s total assessed value per household is less than the median Colorado municipality assessed value per household

**DAC Scenarios**

Scenario	Primary Factors	Results	Secondary Factors	Results
1 (P1) MHI and	(P2) MHV or (P3) Change in Jobs	DAC	Unnecessary	
2 (P1) MHI Only	Neither (P2) MHV nor (P3) Change in Jobs	Test secondary	Meet at least two of three	DAC
3 (P1) Unreliable MHI but	Both (P2) MHV and (P3) Change in Jobs	Test secondary	Meet at least two of three	DAC

(4) At the time of submitting a permit application, a community may request that the division make a determination of whether or not the community is a disadvantaged community.

(5) In the event a community’s primary or secondary factor data does not represent recent, significant economic distress, or a scenario is marginally disqualifying, a business case may be presented for determination of disadvantaged community status. The business case should be qualitatively based on the factors the community has determined as not reflective of the community’s current socio-economic condition. The business case should be submitted to the division, who will review the business case

regarding the disadvantaged community status. The division will determine whether the business case presented provides compelling evidence that the community is a disadvantaged community.

**85.8 – 85.14     RESERVED**

\*\*\*

**85.17   STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE:  
NOVEMBER 14, 2022 RULEMAKING, FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE OF  
APRIL 30, 2023**

The provisions of sections 25-8-202; 25-8-205; 25-8-304; 25-8-401; 25-8-402; and 25-8-501, C.R.S., provide the specific statutory authority for the adoption of this Control Regulation. The commission has also adopted, in compliance with section 24-4-103(4) C.R.S., the following statement of basis and purpose.

**BASIS AND PURPOSE**

Monitoring Requirements and Data Quality Requirements: Section 85.6(4)(c) provides that process wastewater effluent monitoring required by Regulation #85 be conducted using analytical methods capable of reporting results at or below the practical quantitation limit (PQL) as required by Regulation #61. This section also requires that ambient water quality monitoring conducted pursuant to this regulation utilize an analytical method capable of reporting results at or below certain listed method detection limits (MDLs). In this rulemaking hearing the commission added MDLs for ammonia and total inorganic nitrogen.

Nonpoint Source: Section 85.5(5) identifies entities with responsibility for activities or facilities that cause, or could be reasonably expected to cause, nonpoint source nutrient pollution and the need for implementation for nonpoint source controls. These activities include the areas of Best Management Practices, public information and education, and additional nonpoint source actions as necessary for nonpoint nutrient management activities. The commission identified these nonpoint source controls as a means to make progress towards protecting existing or restoring impaired classified uses from nutrient pollutants. Prior to each triennial review, the commission directed the division to work with responsible entities and other relevant stakeholders to determine the extent of implementation of the nonpoint source provisions and voluntary BMP implementation. The commission reviewed the information presented in this rulemaking hearing and determined that recent activities have been effective and resulted in reductions of nonpoint sources of nutrients and that the outreach efforts have been effective. The commission removed the 2022 date for determination of effectiveness of the voluntary nonpoint source BMPs and will continue to review the effectiveness of these measures at each triennial review of the regulation.

Typos and corrections: In addition to the substantive changes described above, editorial changes have been made in the regulation to provide clarity.

# COLORADO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

## Water Quality Control Commission

### REGULATION NO. 31 - THE BASIC STANDARDS AND METHODOLOGIES FOR SURFACE WATER

#### 5 CCR 1002-31

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

## 31.1 AUTHORITY AND SCOPE

\*\*\*\*\*

## 31.5 DEFINITIONS

See the Colorado Water Quality Control Act, section 25-8-101 et seq., C.R.S., and the codified water quality regulations additional definitions.

- (1) "ACT" means the Colorado Water Quality Control Act, section 25-8-101 et seq., C.R.S..
- (2) "ACUTE STANDARD" means the level not to be exceeded by the concentration for either a single sample or calculated as an average of all samples collected during a one-day period, except for temperature, which shall be based on the DM (see DM definition). As used in tables II and III, acute represents one-half of the LC-50 that protects 95 percent of the genera in a waterbody from lethal effects. The acute standard is implemented in combination with a selected duration and frequency of recurrence (section 31.9(1)). In determining attainment of the applicable acute standard, the representative nature of the data must be considered.
- (3) "ANTIDegradation RULE" means the rule established in section 31.8.
- (4) "BASIC STANDARDS" means those standards as established in section 31.11.
- (5) "BENEFICIAL USES" means those uses of state surface waters to be protected such as those identified in the classification system.
- (6) "BMP" (Best Management Practices) means a practice or a combination of practices that is determined by a governmental agency after problem assessment, examination of alternative practices, and appropriate public participation, to be the most effective, practicable (including technological, economic, and institutional considerations) means of preventing or reducing the amount of pollution generated by nonpoint sources to a level compatible with quality goals.
- (7) "CHRONIC STANDARD" means the level not to be exceeded by the concentration for either a single representative sample or calculated as an average of all samples collected during a thirty-day period, except for temperature, which shall be based on the WAT (see WAT definition), and chlorophyll a, total nitrogen, and total phosphorus, which shall be based on seasonal averages or annual medians (see tables V and VI). As used in tables II and III, chronic represents the level that protects 95 percent of the genera from chronic toxic effects. Chronic toxic effects include, but are not limited to, demonstrable abnormalities and adverse effects on survival, growth, or reproduction. The chronic standard is implemented in combination with a selected duration and frequency of recurrence (section 31.9(1)). In determining attainment of the applicable chronic standard, the representative nature of the data must be considered.

- (8) "COLD WATER BIOTA" means aquatic life, including trout, normally found in waters where the summer weekly average temperature does not frequently exceed 20 °C.
- (9) "COMMISSION" means the Colorado Water Quality Control Commission.
- (10) "COMPENSATORY WETLANDS" means wetlands developed for mitigation of adverse impacts to other wetlands (e.g. wetlands developed pursuant to section 404 of the federal Act).
- (11) "CONSTRUCTED WETLANDS" means those wetlands intentionally designed, constructed and operated for the primary purpose of wastewater or stormwater treatment or environmental remediation provided under CERCLA, RCRA, or section 319 of the federal Act, if (a) such wetlands are constructed on non-wetland sites that do not contain surface waters of the state, or (b) such wetlands are constructed on previously existing wetland sites, to the extent that approval or authorization under section 404 of the federal Act has been granted for such construction or it is demonstrated that such approval or authorization is not, or was not, required. This term includes, but is not limited to, constructed swales, ditches, culverts, infiltration devices, catch basins, and sedimentation basins that are part of a wastewater or stormwater treatment system or a system for environmental remediation mandated under CERCLA or RCRA. Compensatory wetlands shall not be considered constructed wetlands. Constructed wetlands are not state waters.
- (12) "CREATED WETLANDS" means those wetlands other than compensatory wetlands created in areas which would not be wetlands in the absence of human modifications to the environment. Created wetlands include, but are not limited to wetlands created inadvertently by human activities such as mining, channelization of highway runoff, irrigation, and leakage from man-made water conveyance or storage facilities. Wetlands resulting from hydrologic modifications such as on-channel reservoirs or on-channel diversion structures that expand or extend the reach of adjacent classified state waters are not considered created wetlands.
- (13) "DAILY MAXIMUM TEMPERATURE (DM)" means the highest two-hour average water temperature recorded during a given 24-hour period.
- (14) "DISSOLVED METALS" means that portion of a water and suspended sediment sample which passed through a 0.40 or 0.45 µm (micron) membrane filter. Determinations of "dissolved" constituents are made using the filtrate. This may include some very small (colloidal) suspended particles which passed through the membrane filter as well as the amount of substance present in true chemical solution.
- (15) "DIVISION" means the Division of Administration of the Colorado Department of Public Health and Environment of which the Water Quality Control Division is a part.
- (16) "*E. coli*" means *Escherichia coli*.
- (17) "EFFLUENT-DEPENDENT STREAM" means a stream that would be ephemeral without the presence of wastewater effluent, but has continuous or periodic flows for all or a portion of its reach as the result of the discharge of treated wastewater.
- (18) "EFFLUENT-DOMINATED STREAM" means a stream that would be intermittent or perennial without the presence of wastewater effluent whose flow for the majority of the time is primarily attributable to the discharge of treated water (i.e. greater than 50 percent of the flow consists of treated wastewater for at least 183 days annually, for eight out of the last ten years).
- (19) "EPHEMERAL STREAM" means a stream channel or reach of a stream channel that carries flow during, and for a short duration as the result of, precipitation events or snowmelt. The channel bottom is always above the groundwater table.

(20) "EXISTING QUALITY" means the numeric value that represents the quality of a waterbody and is generally used for comparison with the water quality standard. Existing quality shall be calculated as:

- Total ammonia, nitrate, and the dissolved metals: 85th percentile
- Total recoverable metals: 50th percentile
- Dissolved oxygen in streams: 15<sup>th</sup> percentile
- *E. coli*: geometric mean
- pH: the range between the 15th and 85th percentiles
- Temperature: For the purposes of determining standards attainment, existing quality is the seasonal maximum DM (acute) and WAT (chronic) which allows one warming event with a 3-year average exceedance frequency. For data records with less than or equal to 3 years, existing quality is equal to the maximum WAT and DM. For data records with 4-6 years, one warming event above the standard is permitted. The warming event allowance is described in Footnote 5(c)(ii) to Table I.

For the purposes of permits implementation, for data records with less than or equal to 3 years of representative upstream data, existing quality is equal to the seasonal or monthly maximum DM (acute) and WAT (chronic). For data records with 4-6 years, for monthly limits, the second highest monthly DM or WAT may be selected for one month in either winter or summer and the remaining months shall be the max DM or WAT.

- Chlorophyll *a*:
  - Lakes and reservoirs: summer (July 1 - September 30) seasonal average of values from the mixed layer
  - Rivers and streams: summer (July 1 - September 30) maximum attached algae
  - Direct Use Water Supply: March 1 - November 30 seasonal average of values from the mixed layer
- Total nitrogen and total phosphorus in lakes and reservoirs: summer (July 1 - September 30) seasonal average of values from the mixed layer
- Total nitrogen and total phosphorus in rivers and streams: annual median

(21) "FEDERAL ACT" means the Clean Water Act, U.S.C. Section 1251 et seq., as amended.

(22) "FIRST (1st) ORDER STREAM" means a stream that has no tributaries, based on USGS mapping at 1:100,000 scale.

(23) "FLOODPLAIN" means any flat or nearly flat lowland that borders a stream, a lake, or an on-channel reservoir and that may be covered by its waters at flood or high stage as described by the parameter of the probable maximum flood or probable maximum high stage.

(24) "HIGHEST ATTAINABLE USE" means the modified use that is both closest to the uses specified in section 31.13 and attainable based on the evaluation of the factors in 31.6(2)(b) that preclude attainment of the use and any other information or analyses that were used to evaluate attainability.

- (25) "LC-50" means the concentration of a parameter that is lethal to 50% of the test organisms within a defined time period.
- (26) "MAXIMUM WEEKLY AVERAGE TEMPERATURE (MWAT)" means the largest WAT in the period of interest. For lakes and reservoirs, the summertime MWAT is assumed to be equivalent to the maximum WAT from at least three profiles distributed throughout the growing season (generally July-September).
- (27) "MIXED LAYER" means that part of a lake that is well-mixed by wind action and can be expected to have relatively homogeneous physical and chemical conditions. In a thermally stratified lake, the mixed layer corresponds to the *epilimnion*; in an unstratified lake, the mixed layer extends to the bottom. The vertical extent of the mixed layer usually is determined by inspection of a vertical profile of temperature.
- (28) "MIXING ZONE" means that area of a waterbody designated on a case-by-case basis by the Division which is contiguous to a point source and in which certain standards may not apply.
- (29) "NUMERIC VALUE" means the measured concentration of a parameter.
- (30) "PARAMETER" means the chemical constituents or other characteristics of the water such as algae, *E. coli*, total dissolved solids, dissolved oxygen, or the magnitude of radioactivity levels, temperature, pH, and turbidity, or other relevant characteristics.
- (31) "PERMIT" means a National Pollutant Discharge Elimination System (NPDES) permit, a Colorado Discharge Permit System (CDPS) permit, or other state water quality permit.
- (32) "POTENTIALLY DISSOLVED METALS" means that portion of a constituent measured from the filtrate of a water and suspended sediment sample that was first treated with nitric acid to a pH of less than 2.0 and let stand for 8 to 96 hours prior to sample filtration using a 0.4 or 0.45 µm (micron) membrane filter. Note the "Potentially Dissolved" method cannot be used where nitric acid will interfere with the analytical procedure used for the constituent measured.
- (33) "PRIMARY CONTACT RECREATION" means recreational activities where the ingestion of small quantities of water is likely to occur. Such activities include but are not limited to swimming, rafting, kayaking, tubing, windsurfing, water skiing, and water play by children.
- (34) "REGIONAL WASTEWATER MANAGEMENT PLAN" means a water quality planning document prepared pursuant to section 208 of the federal Act, sometimes referred to as "208 Plans" or "Water Quality Management Plans."
- (35) "REPRODUCTIVE SEASON" means the portion of the year when fish migration, spawning, egg incubation, fry rearing or other reproductive functions occur.
- (36) "SALINITY" means total dissolved solids (TDS).
- (37) "SECOND (2nd) ORDER STREAM" means a stream which begins downstream of the confluence of two first (1st) order streams and ends downstream of the confluence of two second (2nd) order streams, based on USGS mapping at 1:100,000 scale.
- (38) "STANDARD" means a narrative and/or numeric restriction established by the Commission applied to state surface waters to protect one or more beneficial uses of such waters. Whenever only numeric or only narrative standards are intended, the wording shall specifically designate which is intended.

- (39) "STATE WATERS" means any and all surface and subsurface waters which are contained in or flow in or through this state, but does not include waters in sewage systems, waters in treatment works of disposal systems, waters in potable water distribution systems, and all water withdrawn for use until use and treatment have been completed.
- (40) "STATUS QUO", in the context of temporary modifications, means the numeric values representative of the conditions at the time of the original temporary modification adoption for:
1. the quality of a waterbody, for which a temporary modification is applied, and
  2. the quality, and as appropriate the flow and loading, of effluent discharged into a waterbody, for which a temporary modification is applied.

Status quo shall be calculated as follows using data representative of quality at the time of the original temporary modification adoption, typically using data for the 5 years leading up to the temporary modification. Where such adequate, representative data do not exist, data representative of quality as close in time as practicable to the original temporary modification adoption shall be used.

For consideration of waterbody status quo:

- Total ammonia, nitrate, and dissolved metals (chronic): 85th percentile
- Total recoverable metals (chronic): 50th percentile
- Total ammonia, nitrate, total metals, and dissolved metals (acute): 95th percentile
- Temperature: seasonal maximum DM (acute) and WAT (chronic)
- Other parameters: As appropriate based on the duration and frequency for the water quality standard from Tables I, II, ~~or III~~, V, or VI
- Or, in limited circumstances, as otherwise determined by the Commission on a case-by-case basis

For consideration of effluent status quo:

- Total ammonia, nitrate, and dissolved and total recoverable metals (chronic): maximum 30-day average
- Total ammonia, nitrate, and dissolved and total recoverable metals (acute): maximum daily maximum
- Temperature: seasonal maximum DM (acute) and WAT (chronic)
- Other parameters: As appropriate based on permit implementation approaches of the water quality standard from Tables I, II, ~~or III~~, V, or VI
- Representative effluent flow and loading, as appropriate
- Or, in limited circumstances, as otherwise determined by the Commission on a case-by-case basis

- (41) "TABLES" means tables I, II, ~~and III~~, V, and VI appended to this regulation, which set forth accepted levels for various parameters which will generally protect the beneficial uses of state surface waters.
- (42) "THIRD (3rd) ORDER STREAM" means a stream which begins at the confluence of two second (2nd) order streams and ends downstream of the confluence of two third (3rd) order streams, based on USGS mapping at 1:100,000 scale.
- (43) "TOTAL RECOVERABLE METALS" means that portion of a water and suspended sediment sample measured by the total recoverable analytical procedure described in "Methods for Chemical Analysis of Water and Wastes," U.S. Environmental Protection Agency, March, 1979, or its equivalent.
- (44) "TRIBUTARY WETLANDS" means wetlands that are the headwaters of surface waters or wetlands within the floodplain that are hydrologically connected to surface waters via either surface or groundwater flows. The hydrologic connection may be intermittent or seasonal, but must be of sufficient extent and duration to normally reoccur annually. Tributary wetlands do not include constructed or created wetlands.
- (45) "USE ATTAINABILITY ANALYSIS" means an assessment of the factors affecting the attainment of aquatic life uses or other beneficial uses, which may include physical, chemical, biological, and economic factors.
- (46) "USES" see Beneficial Uses.
- (47) "WARM WATER BIOTA" means aquatic life normally found in waters where the summer weekly average temperature frequently exceeds 20 °C.
- (48) "WATER QUALITY-BASED DESIGNATION" means a designation adopted by the Commission for specific state surface waters pursuant to section 31.8(2), to identify which level of water quality protection such waters will receive under the Antidegradation Rule in section 31.8(1). Such designations are adopted pursuant to the Commission's authority to classify state waters, as set forth in section 25-8-203, C.R.S., and the procedural requirements for classifying state waters shall be applied in adopting such designations.
- (49) "WATER EFFECT RATIO" means a ratio that is computed as a specific pollutant's acute or chronic toxicity value measured in water from the site covered by a standard, divided by the respective acute or chronic toxicity value in laboratory dilution water, as more specifically defined in 40 CFR. subsection 131.36(c) (1993).
- (50) "WATER QUALITY STANDARD" see Standard.
- (51) "WEEKLY AVERAGE TEMPERATURE (WAT)" means the average of daily average temperatures over a seven-day consecutive period, with a minimum of three data points spaced equally through each day. For lakes and reservoirs, the WAT is assumed to be equivalent to the average temperature of the mixed layer. The average temperature of the mixed layer is determined from a vertical profile of equally-spaced temperature measurements, separated by not more than one meter.
- (52) "WETLANDS" means those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.

\*\*\*\*\*

### 31.7 PROCESS FOR ASSIGNING STANDARDS AND GRANTING, EXTENDING, OR REMOVING TEMPORARY MODIFICATIONS AND VARIANCES

Overview: Assigning or changing a standard or granting, removing before its expiration, or extending a temporary modification or variance shall be accomplished by a rule after a rulemaking hearing. The procedures for taking such action shall be the same as the procedures for assigning or changing classifications. See section 31.6(3)(a)(i).

#### (1) Assigning Standards

The Commission is responsible for promulgating water quality standards as set forth in section 25-8-204, C.R.S. Standards may be narrative and/or numeric and include the following:

##### (a) Basic Standards

The basic standards in section 31.11 shall apply to all state surface waters at the effective date of the regulation.

##### (b) Numeric Standards

A numeric standard may be assigned by the Commission either to apply on a statewide basis or to specific state surface waters. A numeric standard will be assigned by the Commission when it is presented with evidence that a particular numeric level for a parameter is the suitable limit for protecting the classified use. A numeric standard consists of a numeric level and may include a description as to how that numeric level is to be measured. Numeric standards will include appropriate averaging periods and appropriate frequencies of allowed excursions. A numeric standard may be exceeded due to temporary natural conditions such as unusual precipitation patterns, spring runoff or drought. Such uncontrollable conditions are not cause for changing the numeric standard.

A temporary modification of a numeric standard may be granted by the Commission if the numeric standard is not being met at the present time, but such numeric standard is necessary to allow the full attainment of the classified use.

Numeric standards will be assigned based on the evidence presented at the classification and numeric-standard-setting hearings. Numeric standards may not necessarily be assigned for all constituents listed in the tables. In making this determination, the Commission will consider the likelihood of such constituents being present in the waters in question naturally or due to point or nonpoint sources, and shall consider the significance of the constituents with respect to protection of the classified uses. Entities having specific water quality data for the waters being classified, such as 208 agencies, local municipalities and industries, and citizens' groups, the Water Quality Control Division, state and federal agencies, environmental organizations, and other interested persons are encouraged to present such information.

The Commission may use any of the following approaches to establish site-specific numeric standards, as it determines appropriate with respect to specific state surface waters. Existing site-specific standards shall remain in effect until superseded by revised standards promulgated pursuant to this section:

##### (i) Table Value Standards

The Commission may apply the numeric levels set forth in tables I, II, ~~and III, V, and VI~~ as site-specific standards when those levels are determined to be appropriate to protect the applicable classified uses, and the available site-specific information does not indicate that one of the following alternative approaches to numeric standards would be more

appropriate. Acute and chronic standards may be adopted. Numeric standards may not necessarily be assigned for all constituents listed in the tables. Standards for metals may be established by site-specific adoption of the hardness-dependent equations in table III, instead of single-value numeric standards. The numeric levels for various parameters in tables I, II, ~~and III~~, V, and VI, are levels determined by the Commission after careful analysis of all available information and are generally considered to protect the beneficial use classifications. They are intended to guide the Commission and others at the use classification and numeric-standard-setting hearings.

(ii) Ambient Quality-Based Standards

(A) Where ambient water quality levels are worse than specific numeric levels contained in tables I, II, ~~and III~~, V, and VI, but are determined adequate to protect the highest attainable uses, the Commission may adopt one of the two following types of site-specific ambient quality-based standards:

- (I) Feasibility-based Ambient Standard: Where water quality can be improved, but not to the level required by the current numeric standard, a feasibility-based numeric ambient standard may be adopted based on available representative data.
- (II) Natural or Irreversible Ambient Standard: Where no improvement is feasible, or sources and causes are natural, a site-specific numeric standard may be adopted at existing quality based on available representative data. Site-specific acute standards for parameters in Table III shall be based on the 95th percentile value of the available representative data.

(B) Ambient quality-based standards are authorized only where a comprehensive analysis and review is conducted:

- (I) Which identifies the sources and causes of the elevated levels and characterizes existing conditions, including spatial and temporal variation;
- (II) Where sources and causes are not natural, a comprehensive alternatives analysis identifies the improved water quality conditions (if any) that could result from feasible pollution control alternatives;
- (III) Which includes a rationale for either retaining or revising the current use classification(s); and
- (IV) Which characterizes the highest attainable use.

\*\*\*\*\*

## 31.17 NUTRIENTS

### (1) INTRODUCTION

This section establishes numeric values for total phosphorus, total nitrogen, and chlorophyll a and also sets forth provisions regarding the use of these numeric values for the adoption of water quality standards. The numeric levels for parameters listed in Tables V and VI shall be considered and applied as appropriate by the Commission in establishing site-specific numeric standards, in accordance with section 31.7.

### (2) PHASED IMPLEMENTATION OF NUTRIENTS STANDARDS

#### (a) Use of Total Phosphorus and Total Nitrogen Values for Standards Adoption Prior to December 31, 2027

##### (i) Lakes and Reservoirs

Prior to December 31, 2027 the values set forth in Table V will be considered for the adoption of water quality standards for specific water bodies in Colorado in the following circumstances.

##### (A) Waters located upstream of:

(I) all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012,

(II) cooling tower discharges, and

(III) any non-domestic facility subject to Regulation #85 effluent limits and discharging prior to May 31, 2012.

##### (B) Waters with a Direct Use Water Supply (DUWS) sub-classification.

##### (C) Waters with public swim beaches that meet the definition of natural swimming areas in C.R.S. § 25-5-801.

##### (D) Circumstances where the Commission has determined that adoption of numerical standards is necessary to address existing or potential nutrient pollution because the provisions of Regulation #85 will not result in adequate control of such pollution.

##### (ii) Rivers and Streams

Prior to December 31, 2027 the values set forth in Table VI will be considered for the adoption of water quality standards for specific water bodies in Colorado in the following circumstances.

##### (A) Waters located upstream of:

(I) all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012,

(II) cooling tower discharges, and

(III) any non-domestic facility subject to Regulation #85 effluent limits and discharging prior to May 31, 2012.

(B) Circumstances where the Commission has determined that adoption of numerical standards is necessary to address existing or potential nutrient pollution because the provisions of Regulation #85 will not result in adequate control of such pollution.

(iii) For each individual segment where numeric standards for total phosphorus, total nitrogen, and chlorophyll a have not yet been adopted, numeric standards will be adopted by the Commission where necessary to:

(A) protect the assigned use classifications, and

(B) comply with the Colorado Water Quality Control Act and the Federal Act.

(b) Use of Interim Total Phosphorus and Total Nitrogen Values for Standards Adoption After December 31, 2027

(i) After December 31, 2027, the values set forth in Tables V and VI will be considered by the Commission when applying numeric standards to individual segments where total phosphorus and total nitrogen standards have not yet been adopted.

(c) Site-Specific Flexibility

In accordance with the preceding subsections, both before and after December 31, 2027, in considering adoption of numeric standards for specific water bodies in Colorado, the Commission may review relevant site-specific factors and conditions in determining what numeric standards are most appropriate, and may adopt standards, either more or less stringent than the standards in Tables V and VI.

(i) Where evidence demonstrates that an alternative numeric standard would be more appropriate for the protection of use classifications, the Commission may consider assigning ambient quality-based standards or site-specific criteria-based standards as outlined in 31.7(1)(b)(ii-iii).

(ii) Where it has been demonstrated that interim values are not feasible to achieve, the Commission may consider modifying the use classification as outlined in Section 31.6(2).

(iii) Where the conditions established in Section 31.7(3)(a) are met, the Commission may consider granting a temporary modification.

~~(a) Overview~~

~~This section establishes interim numeric values for phosphorus, nitrogen and chlorophyll a and also sets forth provisions regarding the use of these numeric values for the adoption of water quality standards.~~

~~(b) Interim Phosphorus Values~~

Table 1 Interim Total Phosphorus Values	
Lakes and Reservoirs, cold > 25 acres	25 µg/L <sup>4</sup>
Lakes and Reservoirs, warm > 25 acres	83 µg/L <sup>4</sup>

Lakes and Reservoirs < = 25 acres	RESERVED
Rivers and Streams – cold	110 µg/L <sup>2</sup>
Rivers and Streams – warm	170 µg/L <sup>2</sup>
<sup>1</sup> -summer (July 1 – September 30) average total phosphorus (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1 in 5 years. <sup>2</sup> -annual median total phosphorus (µg/L), allowable exceedance frequency 1 in 5 years.	

(c) ~~Interim Nitrogen Values (Effective December 31, 2027)~~

Table 2 Interim Total Nitrogen Values	
Lakes and Reservoirs, cold > 25 acres	426 µg/L <sup>1</sup>
Lakes and Reservoirs, warm > 25 acres	910 µg/L <sup>1</sup>
Lakes and Reservoirs < = 25 acres	RESERVED
Rivers and Streams – cold	1,250 µg/L <sup>2</sup>
Rivers and Streams – warm	2,010 µg/L <sup>2</sup>
<sup>1</sup> -summer (July 1 – September 30) average total nitrogen (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1 in 5 years. <sup>2</sup> -annual median total nitrogen (µg/L), allowable exceedance frequency 1 in 5 years.	

(d) ~~Interim Chlorophyll a Values~~

Table 3 Interim Chlorophyll a Values		
Waterbody type		DUWS
Lakes and Reservoirs, cold > 25 acres	8 µg/L <sup>1</sup>	5 µg/L <sup>3</sup>
Lakes and Reservoirs, warm > 25 acres	20 µg/L <sup>1</sup>	5 µg/L <sup>3</sup>
Lakes and Reservoirs < = 25 acres	RESERVED	5 µg/L <sup>3</sup>
Rivers and Streams – cold	150 mg/m2 <sup>2</sup>	
Rivers and Streams – warm	150 mg/m2 <sup>2</sup>	
<sup>1</sup> -summer (July 1 – September 30) average chlorophyll a (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1 in 5 years. <sup>2</sup> -summer (July 1 – September 30) maximum attached algae, not to exceed. <sup>3</sup> -March 1 – November 30 average chlorophyll a (µg/L) in the mixed layer of lakes (median of multiple depths), allowable exceedance frequency 1 in 5 years.		

(e) ~~Use of Interim Phosphorus Values for Standards Adoption~~

Prior to December 31, 2027 the values set forth in subsection (b) above will be considered for the adoption of water quality standards for specific water bodies in Colorado in the following circumstances:

(i) ~~Waters located upstream of~~

(A) ~~all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012,~~

(B) ~~cooling tower discharges, and~~

(C) ~~any non-domestic facility subject to Regulation #85 effluent limits and discharging prior to May 31, 2012.~~

- ~~(ii) — Circumstances where the Commission has determined that adoption of numerical standards is necessary to address existing or potential nutrient pollution because the provisions of Regulation #85 will not result in adequate control of such pollution.~~

~~(f) — Chlorophyll a Values for Standards Adoption~~

~~Prior to December 31, 2022, the values set forth in subsection (d) above will be considered for the adoption of water quality standards for specific water bodies in Colorado in the following circumstances:~~

~~(i) — Waters located upstream of~~

- ~~(A) — all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012, or with preliminary effluent limits requested prior to May 31, 2012;~~
- ~~(B) — cooling tower discharges, and~~
- ~~(C) — any non-domestic facility subject to Regulation #85 effluent limits and discharging prior to May 31, 2012.~~

~~(ii) — Discretionary Application of the Values for Direct Use Water Supply (DUWS) Lakes and Reservoirs. The Commission may determine that a numerical chlorophyll standard is appropriate for specific water bodies with this sub-classification after consideration of the following factors:~~

- ~~(A) — Whether the public water system using the lake or reservoir as a raw water supply experiences impacts attributed to algae on an intermittent or continual basis;~~
- ~~(B) — Whether there are lake or reservoir use restrictions in place that recognize the importance of the reservoir as a water supply;~~
- ~~(C) — Whether application of this value appropriately balances protection of all classified uses of the lake or reservoir;~~
- ~~(D) — Other site-specific considerations which affect the need for a more protective value.~~

~~(iii) — Circumstances where the Commission has determined that adoption of numerical standards is necessary to address existing or potential nutrient pollution because the provisions of Regulation #85 will not result in adequate control of such pollution.~~

~~(g) — Use of Interim Nitrogen Values for Standards Adoption~~

~~After December 31, 2027, the values set forth in subsection (c) above will be considered for the adoption of water quality standards for specific water bodies in Colorado in the circumstances identified in subsection (e)(i) and (ii) above.~~

~~(h) — Phase 2 Application of Numeric Standards~~

~~After December 31, 2022, the values set forth in subsection (d) will be considered by the Commission when applying numeric standards to individual segments. After December 31, 2022, the values set forth in subsections (b) and (c) for lakes and reservoirs will be considered by the Commission when applying numeric standards to Direct Use Water Supply (DUWS) reservoirs and lakes or lakes and reservoirs with public swim beaches that meet the definition of natural~~

~~swimming areas in C.R.S. § 25-5-801. After December 31, 2027, the values set forth in subsection (b) and (c) will be considered by the Commission when applying numeric standards to individual segments where total phosphorus and total nitrogen standards have not yet been adopted.~~

~~For each individual segment where numeric standards for total phosphorus, total nitrogen, and chlorophyll a have not yet been adopted, numeric standards will be adopted by the Commission where necessary to:~~

- ~~(i) — protect the assigned use classifications, and~~
- ~~(ii) — comply with the Colorado Water Quality Control Act and the Federal Act.~~

~~(i) — Site Specific Flexibility to Consider Alternatives to the Interim Values~~

~~In accordance with the preceding subsection, both before and after December 31, 2027, in considering adoption of numeric standards for specific water bodies in Colorado, the Commission may review relevant site-specific factors and conditions in determining what numeric standards are most appropriate, and may adopt standards, either more or less stringent than the 31.17(b)(c) and (d) interim values.~~

- ~~(i) — Where evidence demonstrates that an alternative numeric standard would be more appropriate for the protection of use classifications, the Commission may consider assigning ambient quality-based standards or site-specific criteria-based standards as outlined in 31.7(1)(b)(ii-iii).~~
- ~~(ii) — Where it has been demonstrated that interim values are not feasible to achieve, the Commission may consider modifying the use classification as outlined in Section 31.6(2).~~
- ~~(iii) — Where the conditions established in Section 31.7(3)(a) are met, the Commission may consider granting a temporary modification.~~

**TABLE V - TABLE VALUE STANDARDS<sup>(1)</sup> FOR NUTRIENTS: LAKES AND RESERVOIRS**

TABLE V TABLE VALUE STANDARDS <sup>(1)</sup> FOR NUTRIENTS: LAKES AND RESERVOIRS					
Parameter	Aquatic Life <sup>(2,3)</sup> (chronic)		Recreation <sup>(2,3)</sup> (Class E, U, or P) (chronic)		Direct Use Water Supply (DUWS) <sup>(3,4)</sup> (chronic)
	CLASS 1 or CLASS 2 COLD WATER BIOTA	CLASS 1 OR CLASS 2 WARM WATER BIOTA	COLD WATER	WARM WATER	-
Chlorophyll a (µg/L)	8 <sup>(5)</sup>	20 <sup>(5)</sup>	8 <sup>(5)</sup>	20 <sup>(5)</sup>	5 <sup>(6)</sup>
Nitrogen (µg/L) <sup>(7,9)</sup>	330	600	330	600	—
Phosphorus (µg/L) <sup>(8,9)</sup>	21	36	21	36	—

**Table V – Footnotes**

- (1) Prior to December 31, 2027, standards for total nitrogen and total phosphorus will be considered for adoption in the specific water bodies described in 31.17(2)(a)(i).
- (2) The chlorophyll a, total nitrogen, and total phosphorus standards are the same for Aquatic Life and Recreation (E, U, or P) uses because these standards were derived based on the target trophic condition and algal abundance that balances the needs of both uses.
- (3) The chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (4) The Commission may determine that a numerical chlorophyll a standard is appropriate for specific water bodies with the DUWS sub-classification after consideration of the following factors:
  - a. Whether the public water system using the lake or reservoir as a raw water supply experiences impacts attributed to algae on an intermittent or continual basis;
  - b. Whether there are lake or reservoir use restrictions in place that recognize the importance of the reservoir as a water supply;
  - c. Whether application of this value appropriately balances protection of all classified uses of the lake or reservoir;
  - d. Other site specific considerations which affect the need for a more protective value.

- (5) Summer (July 1 - September 30) seasonal average of chlorophyll a ( $\mu\text{g/L}$ ) values from the mixed layer of lakes, allowable exceedance frequency 1-in-5 years.
- (6) March 1 - November 30 seasonal average chlorophyll a ( $\mu\text{g/L}$ ) values from the mixed layer of lakes, allowable exceedance frequency 1-in-5 years.
- (7) Summer (July 1 - September 30) seasonal average total nitrogen ( $\mu\text{g/L}$ ) values from the mixed layer of lakes, allowable exceedance frequency 1-in-5 years.
- (8) Summer (July 1 - September 30) seasonal average total phosphorus ( $\mu\text{g/L}$ ) values from the mixed layer of lakes, allowable exceedance frequency 1-in-5 years.
- (9) Where representative data exist to develop protective standards, the Commission can adopt site-specific total nitrogen and/or total phosphorus standards (represented below as  $\text{TN}_{80\text{th}}$  and  $\text{TP}_{80\text{th}}$ , respectively) for lakes and reservoirs based on site-specific observed vs. expected Secchi depth ratios using the following two-step process.

Where:

Secchi O/E = ratio of observed Secchi depth (meters) vs expected Secchi depth (meters). The expected Secchi depth is calculated from the observed site chlorophyll a concentration ( $\mu\text{g/L}$ ; summer [July 1 - September 30] seasonal average from the mixed layer) using the following equation:

$$\text{Expected Secchi depth} = e^{(2.04 - 0.68 \cdot \ln(\text{Observed chlorophyll } a))}$$

Total Nitrogen (TN), mg/L:

Cold Water:

$$\text{Step A: } \text{TN}_{50\text{th}} = 10^{(-0.608 - 0.790 \cdot \log_{10}(\text{Secchi O/E}))}$$

$$\text{Step B: } \text{TN}_{80\text{th}} = 10^{(0.037 + 0.885 \cdot \log_{10}(\text{TN}_{50\text{th}}))}$$

Warm Water:

$$\text{Step A: } \text{TN}_{50\text{th}} = 10^{((-0.461 - 0.631 \cdot \log_{10}(\text{Secchi O/E}))/1.11)}$$

$$\text{Step B: } \text{TN}_{80\text{th}} = 10^{(0.091 + 0.923 \cdot \log_{10}(\text{TN}_{50\text{th}}))}$$

Total Phosphorus (TP), mg/L:

Cold Water:

$$\text{Step A: TP}_{50\text{th}} = 10^{((-1.14 - 0.780 \cdot \log_{10}(\text{Secchi O/E}))/0.610)}$$

$$\text{Step B: TP}_{80\text{th}} = 10^{(-0.117 + 0.850 \cdot \log_{10}(\text{TP}_{50\text{th}}))}$$

Warm Water:

$$\text{Step A: TP}_{50\text{th}} = 10^{((-1.40 - 0.615 \cdot \log_{10}(\text{Secchi O/E}))/0.810)}$$

$$\text{Step B: TP}_{80\text{th}} = 10^{(0.070 + 0.958 \cdot \log_{10}(\text{TP}_{50\text{th}}))}$$

**TABLE VI - TABLE VALUE STANDARDS (INTERIM<sup>1</sup>) FOR NUTRIENTS: RIVERS AND STREAMS**

TABLE VI TABLE VALUE STANDARDS (INTERIM <sup>(1)</sup> ) FOR NUTRIENTS: RIVERS AND STREAMS				
Parameter	Aquatic Life (chronic)		Recreation (Class E, U, or P) (chronic)	
	CLASS 1 or CLASS 2 COLD WATER BIOTA	CLASS 1 OR CLASS 2 WARM WATER BIOTA	COLD WATER	WARM WATER
Chlorophyll a (mg/m <sup>2</sup> )	==	==	150 <sup>(2)</sup>	150 <sup>(2)</sup>
Nitrogen (µg/L) <sup>(3)</sup>	1,250	2,010	==	==
Phosphorus (µg/L) <sup>(4)</sup>	110	170	==	==

**Table V – Footnotes**

- (1) Prior to December 31, 2027, standards for total nitrogen and total phosphorus will be considered for adoption in the specific water bodies described in 31.17(2)(a)(ii).
- (2) Summer (July 1 - September 30) maximum attached algae, not to exceed.
- (3) Annual median total nitrogen (µg/L), allowable exceedance frequency 1-in-5 years.
- (4) Annual median total phosphorus (µg/L), allowable exceedance frequency 1-in-5 years.

\*\*\*\*\*

**31.60 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

The commission revised the total nitrogen and total phosphorus table value standards for lakes and reservoirs to protect aquatic life and recreation in Colorado. These revisions address recommendations made by EPA in its July 14, 2016 action letter regarding its review of the commission's 2012 adoption of total nitrogen and total phosphorus standards for lakes and reservoirs in Regulation No. 31. In addition, the commission continued its phased implementation of chlorophyll *a*, total nitrogen, and total phosphorus standards in prioritized waterbodies, as described below.

**I. Background**

Nitrogen and phosphorus are nutrients found in the environment that play strong roles in aquatic ecosystems, including promoting or limiting the growth of aquatic plants and algae. Increased concentrations of nutrients can lead to excess algal abundance that may impact Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses.

In March 2012, the commission adopted interim numeric nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50). The standards were adopted into Regulation No. 31 at 31.17. The commission also directed the adoption of the standards into the basin regulations (Regulation Nos. 32-38) using a phased approach, starting with adoption of the standards on specific waterbodies beginning in 2017. In 2016, EPA approved the interim numeric values for chlorophyll *a*, approved with recommendations the numeric values for total nitrogen and total phosphorus for lakes and reservoirs, and took no action with respect to the interim numeric values for total nitrogen and total phosphorus for rivers and streams or the delayed effective dates. Therefore, in October 2017, the commission reviewed the phased implementation approach, refined its nutrient control approach to include WQCC Policy 17-1, and set an updated timeline for phased implementation of nutrient standards, including revision of the nutrients standards for lakes and streams and adoption of standards on priority waterbodies through 2027 (31.55).

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses. In addition, consistent with its phased implementation approach, the commission adopted these standards on lakes and reservoirs that are above certain discharges, are DUWS reservoirs, and/or have public swim beaches; after 2027, these standards will be adopted on all remaining lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses.

The commission revised 31.17 to accommodate the revised total nitrogen and total phosphorus standards for lakes and reservoirs and reflect Colorado's progress on the phased implementation timeline. These revisions included removing language regarding phased implementation of chlorophyll *a* standards, which, consistent with the phased implementation timeline developed in 2012 (31.50(VI)(A)) and 2017 (31.55), now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado.

## **II. Chlorophyll a Standards for Lakes, Reservoirs, Rivers, and Streams**

The commission made no changes to the chlorophyll a table value standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll a standards.

Adoption of chlorophyll a standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). In this rulemaking hearing, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission considered chlorophyll a standards statewide, and adopted chlorophyll a standards to all segments with Aquatic Life, Recreation, and/or DUWS uses as appropriate in Regulations Nos. 32-38. Specifically, the commission adopted the chlorophyll a table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 5 µg/L for all lakes or reservoirs (of any size) with DUWS; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. The phased implementation of the chlorophyll a standards adoption is now complete.

## **III. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs**

In a rulemaking hearing in March 2012 (31.50), the commission adopted interim numeric nutrient table value standards for chlorophyll a, total nitrogen, and total phosphorus to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses in lakes, reservoirs, rivers, and streams. The lakes and reservoirs standards were developed using a single empirical response and central tendency to model the average response of chlorophyll a per unit of total nitrogen and total phosphorus.

In its July 14, 2016 action letter, EPA approved the commission's 2012 adoption of interim numeric values for chlorophyll a, and approved with recommendations the numeric values for total nitrogen and total phosphorus for lakes and reservoirs. To ensure that the total nitrogen and total phosphorus standards are protective of uses, EPA recommended revisiting the analysis for lakes to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll a, and evaluating whether the standards are protective of lakes with a high chlorophyll a yield per unit of nutrient.

The revised total nitrogen and total phosphorus table value standards adopted in this rulemaking hearing were developed in collaboration between the division and the lakes nutrients technical advisory committee (TAC), and included stakeholder outreach through the 10-year Water Quality Roadmap workgroup. The methods used to develop these standards are described below and the technical analysis to support these revisions can be found in WQCD Exhibit XX. The revised standards, which were added to new Table V at 31.17, are intended to address EPA's 2016 recommendations and ensure that the uses of Colorado's lakes and reservoirs are protected.

### **A. Data used in Total Nitrogen and Total Phosphorus Table Value Standards Revisions**

Revisions to numeric total nitrogen and total phosphorus standards for lakes and reservoirs were developed using an updated statewide dataset. The averaging period of July - September was unchanged. While the dataset used in 2012 was limited to lakes that had at least three samples per growing season (July - September) at a dam location, the updated dataset included lakes with any representative sampling events during the growing season (July - September) from both dam and mid-lake locations to ensure that the range of lake and nutrients conditions throughout Colorado was represented. This approach significantly increased the number of lakes and reservoirs in the dataset, including waterbodies and conditions that were previously unrepresented in the dataset.

**B. Approach to Developing Revised Total Nitrogen and Total Phosphorus Table Value Standards**

The commission relied on the same multi-step method that was used to derive the interim nutrient standards in 2012. This multi-step method was uncontested in EPA's 2016 action letter, and therefore was maintained for the revision of numeric nutrient standards in this hearing using the updated dataset. The method consists of four steps: Step 1) set the target chlorophyll *a* values (8 µg/L for Cold lakes and 20 µg/L for Warm lakes) to an 80<sup>th</sup> percentile for the purpose of incorporating a one in five year exceedance frequency into the numeric nutrient standards. Step 2) translate the chlorophyll *a* target from an 80<sup>th</sup> percentile to the median using a subset of well-sampled lakes and reservoirs with at least five years of chlorophyll *a* data. Step 3) use the statewide relationships between chlorophyll *a* and total nitrogen or total phosphorus to define target total nitrogen and total phosphorus standards. Step 4) use the well-sampled lakes to translate the target values back to 80<sup>th</sup> percentiles, which are the final numeric nutrient standards that incorporate the one in five year exceedance frequency.

**1. Classification: Warm Lakes and Cold Lakes**

The commission relied on the same chlorophyll *a* targets that were used to derive the interim nutrient standards in 2012, 8 µg/L for Cold lakes and 20 µg/L for Warm lakes. The total nitrogen and total phosphorus values based on these chlorophyll *a* targets are intended to maintain a trophic condition that balances and is protective of both Recreation and Aquatic Life uses in lakes and reservoirs. In 2012, the classification and stressor-response work used a single simple linear regression to characterize the average nutrient response for the target trophic condition for all lakes statewide. Based on EPA's 2016 recommendation, the analysis to support the current revision separated Cold and Warm lakes to characterize the typical condition of lake nutrient responsiveness with more resolution. Additional classifications better addressed the wide range of physical conditions found in Colorado and the variability of the algal response to nutrients from lake to lake.

**2. Stressor-response Relationship: Confounding Factors and High-yield Lakes**

The stressor-response relationship between chlorophyll *a* and total nitrogen or total phosphorus was modeled using quantile regression to determine the appropriate threshold for establishing numeric standards (Step 3). Quantile regression analysis was selected over the simple linear regression approach used in 2012 because the updated dataset violated the statistical assumptions that linear regression relies upon. By selecting a quantile above the median, quantile regression analysis is also able to tailor the analysis to target high-yield lakes and address non-specific confounding factors that affect the chlorophyll *a* response to nutrients in a lake. Given EPA's 2016 recommendation to account for and protect lakes that are more productive than average, the 75<sup>th</sup> quantile of the statewide relationship between chlorophyll *a* and total nitrogen or total phosphorus was selected. This quantile is useful for nutrient standards development, as it represents the typical (or median) relationship of chlorophyll *a* to nutrients in higher-yield lakes (i.e., lakes in the upper half of responsiveness to nutrients).

The stressor-response analysis also evaluated a range of confounding factors, as recommended by EPA. Secchi observed over expected (O/E), an estimate of the degree of algal or non-algal turbidity, was added as a covariate into the models used to develop total nitrogen and total phosphorus standards for cold waters because its inclusion provided for greater explanation of variance in the cold lakes stressor-response models. To calculate the total nitrogen and total phosphorus standards for cold lakes using the models with the Secchi O/E covariate, the long-term typical existing quality in lakes and reservoirs was calculated using the median existing quality Secchi O/E for all cold lakes using lakes with at least three years of data.

Warm lakes in the dataset exhibited less variability; therefore, no covariates were used in the models to derive table value standards for warm water lakes.

### **3. Exceedance Frequency**

Because the commission relied on the same multi-step method that was used to derive the interim nutrient standards in 2012 and no concerns were raised in the 2016 EPA action letter, the commission also retained the same exceedance frequency of one in five years. Nutrients standards were calculated at the central tendency (50<sup>th</sup> percentile) using annual lake data (Step 3). Relationships between the central tendency and the 80<sup>th</sup> percentile were defined to translate the nutrient targets to final standards with a one in five year exceedance frequency (Step 4). The only change in this method from 2012 was that these relationships were defined for Cold and Warm lakes separately for total nitrogen and total phosphorus to continue to address EPA's 2016 recommendation to increase the number of lake classifications to better account for variability in the stressor response relationship.

### **C. Site-Specific Conditions**

The commission recognizes that the response of algae to nutrients can vary based on lake-specific conditions. During the development of the revised nutrients table value standards for lakes and reservoirs, accompanying models were developed that utilize site-specific covariate data to develop site-specific total nitrogen and total phosphorus standards (31.17, Table V Footnote 9). Use of lake-specific Secchi O/E data in these models recognizes the importance of non-algal turbidity on the relationship between chlorophyll *a* and nutrient constituents in lake systems. The commission acknowledges that, where representative data exist for Secchi O/E, these equations are available for use with lake-specific data to support development of site-specific standards in conjunction with a longevity plan. WQCD Exhibit XX includes considerations for use, minimum data requirements, and a calculator to support use of the equations at 31.17 Table V Footnote 9.

### **D. Implementation of the Revised Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs**

#### **1. Magnitude, Duration, and Frequency**

The revised numeric nutrients standards for total nitrogen and total phosphorus are intended to address EPA's 2016 recommendations regarding the magnitude of the standards, but do not make adjustments to either the duration or frequency. These standards continue to be applied using growing season (July through September) average concentrations with an allowable exceedance frequency of once in five years. Consistent with the approach used in 2012, these numeric values are only applied to lakes greater than 25 acres in size and that have a residence time of at least 14 days. The standards apply at a dam or mid-lake assessment location and do not apply to shore samples.

#### **2. Phased Implementation**

In this rulemaking hearing, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission updated the table value standards for total nitrogen and total phosphorus for lakes and reservoirs, and adopted them as appropriate in Regulations Nos. 32-38. Specifically, the commission adopted standards of 330 µg/L total nitrogen and 21 µg/L total phosphorus for cold water lakes or reservoirs (larger than 25 acres) and 600 µg/L total nitrogen and 36 µg/L total phosphorus for warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses that are above certain discharges, are DUWS reservoirs,

and/or have public swim beaches (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission made no changes to existing site-specific phosphorus standards.

The commission's application of total nitrogen and total phosphorus standards in this rulemaking hearing was prioritized for the Aquatic Life use, Recreation use, and public health via applications of table value standards to DUWS and swim beaches. However, the commission acknowledges that total nitrogen and total phosphorus standards have not been adopted to protect the 5 µg/L chlorophyll *a* target associated with the DUWS sub-classification. The commission expects that future consideration of nutrients table value standards for lakes and reservoirs will include development of total nitrogen and total phosphorus standards to protect this use.

#### **E. Revisions to 31.17 and Other Sections of Regulation No. 31**

To accommodate the revised total nitrogen and total phosphorus standards for lakes and reservoirs, additional changes were made in Regulation No. 31, including:

- The definition of “chronic standard” at 31.5(7) was expanded to include chlorophyll *a*, total nitrogen, and total phosphorus.
- The definition of “existing quality” at 31.5(20) was expanded to include chlorophyll *a*, total nitrogen, and total phosphorus.
- The layout of the tables containing the table value standards for chlorophyll *a*, total nitrogen, and total phosphorus (previously included in 31.17 (a-d)) was revised and reorganized into new Table V (nutrient standards for lake and reservoirs) and Table VI (nutrient standards for rivers and streams). This approach improves clarity, and provides consistency with the table value standards in Tables I, II, and III. This approach also recognizes that the nutrients standards for lakes and reservoirs protect different uses than the nutrients standards for rivers and streams, and better accommodates the differences in the phased implementation timeline for each waterbody type.
- References to new Table V and Table VI were added in various sections of Regulation No. 31 that discussed table value standards and previously only referenced Tables I, II, and III.
- The footnotes applied to the nutrients standards tables in 31.17 were revised to improve clarity, including the removal of the phrase “median of multiple depths” because the phrase was unclear and methods and processes for determining attainment of nutrient standards will be consistent with the Section 303(d) Listing Methodology as adopted by the commission for that particular listing cycle.

Revisions to 31.17 were also needed to reflect Colorado's progress on the phased implementation timeline, including:

- The language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams was removed. Consistent with the phased implementation timeline developed in 2012 (31.50(VI)(A)) and 2017 (31.55), chlorophyll *a* standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. This phase of the implementation timeline is complete.
- Section 31.17 was reorganized to more clearly describe the circumstances in which total nitrogen and total phosphorus will apply to lakes and streams throughout the phased implementation timeline.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

## REGULATION NO. 32 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR ARKANSAS RIVER BASIN

### 5 CCR 1002-32

---

#### 32.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

#### 32.2 PURPOSE

These regulations establish classifications and numeric standards for the Arkansas River, including all tributaries and standing bodies of water as indicated in section 32.6. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

#### 32.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (See Appendix 32-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 32-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "Basic Standards and Methodologies for Surface Water".

#### 32.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

#### 32.5 BASIC STANDARDS

##### (1) Temperature

All waters of the Arkansas River Basin are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard). Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all aquatic life class 1 streams which also have a water supply classification, and are applied to aquatic life class 2 streams which also have a water supply classification, on a case-by-case basis as shown in Appendix 32-1. The column in the tables at 31.11 and 31.16 Table III headed "Fish Ingestion" is presumptively applied to all aquatic life class 1 streams which do not have a water supply classification, and are applied to aquatic life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 32-1.

(3) Uranium

- (a) All waters of the Arkansas River Basin are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium levels in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll a, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to December 31, ~~2022~~ for chlorophyll a and prior to December 31, 2027 for, total nitrogen and total phosphorus, ~~interim nutrient~~ values will be considered for adoption only in the limited circumstances defined at 31.17(~~e2~~)(a)(i) and (~~f~~). ~~These~~ ii). For lakes and reservoirs, ~~these~~ circumstances include ~~headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)),~~ and other special circumstances determined by the Commission. ~~Additionally, prior to December 31, 2027, only total phosphorus and chlorophyll a will be~~

~~considered for adoption. After December 31, 2027, total nitrogen will be considered for adoption per the (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances outlined in 31.17(g).~~

~~Prior to December 31, 2027, nutrient criteria will be adopted for headwaters on a segment by segment basis for the Arkansas River Basin. Moreover, pursuant to 31.17(e) nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic include waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. The (31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).~~

Pursuant to 31.17(2)(a)(i)(A) and 31.17(2)(a)(ii)(A), the following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the Arkansas River Basin:

Prior to ~~May-December~~ 31, ~~2022~~2027:

- For segments located entirely above these facilities, total nitrogen and total phosphorus ~~nutrient~~ standards apply to the entire segment.

- For segments with portions downstream of these facilities, total nitrogen and total phosphorus nutrient standards only apply only above these facilities, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll a~~ total nitrogen standards in these segments. The note references the table of qualified facilities at 32.5(4).
- For segments located entirely below these facilities, total nitrogen and total phosphorus nutrient standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

## 32.6 TABLES

### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 32-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 32-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

### (2) Abbreviations

- (a) The following abbreviations are used in this regulation and the tables in Appendix 32-1:

Ac	=	acute (1-day)
°C	=	degrees Celsius
Ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
D.O.	=	dissolved oxygen
DM	=	daily maximum temperature
DUWS	=	direct use water supply
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard

µg/L	=	micrograms per liter
UP	=	use-protected
WS	=	water supply
WS-I	=	warm stream temperature tier one
WS-II	=	warm stream temperature tier two
WS-III	=	warm stream temperature tier three
WL	=	warm lake temperature tier

- (b) In addition, the following abbreviations are used:

Iron (chronic)	=	WS
Manganese (chronic)	=	WS
Sulfate (chronic)	=	WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical standards, as specified in the Basic Standards and Methodologies at 31.16 Table II and III:

- (i) existing quality as of January 1, 2000; or
- (ii) Iron = 300 µg/L (dissolved)  
Manganese = 50 µg/L (dissolved)  
Sulfate = 250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

- (c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 32-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
- (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
- (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.

- (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.

(3) Table Value Standards

In certain instances in the tables in Appendix 32-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>					
Aluminum(T)	Acute = $e^{(1.3695 \ln(\text{hardness}) + 1.8308)}$ pH equal to or greater than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ pH less than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ or 87, whichever is more stringent					
Ammonia <sup>(4)</sup>	Cold Water = (mg/L as N) Total $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ Warm Water = (mg/L as N) Total $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr 1 - Aug 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic (Sep 1 - Mar 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028(25 - MAX(T, 7))}$					
Cadmium	Acute(warm) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.443)}$ Acute(cold) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.866)}$ Chronic = $(1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 \ln(\text{hardness}) - 3.909)}$					
<u>Chlorophyll a<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation and Direct Use Water Supply (DUWS).</u>					
Chromium III <sup>(67)</sup>	Acute = $e^{(0.819 \ln(\text{hardness}) + 2.5736)}$ Chronic = $e^{(0.819 \ln(\text{hardness}) + 0.5340)}$					
Chromium VI <sup>(67)</sup>	Acute = 16 Chronic = 11					
Copper	Acute = $e^{(0.9422 \ln(\text{hardness}) - 1.7408)}$ Chronic = $e^{(0.8545 \ln(\text{hardness}) - 1.7428)}$					
Lead	Acute = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 1.46)}$ Chronic = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 4.705)}$					
Manganese	Acute = $e^{(0.3331 \ln(\text{hardness}) + 6.4676)}$ Chronic = $e^{(0.3331 \ln(\text{hardness}) + 5.8743)}$					
Nickel	Acute = $e^{(0.846 \ln(\text{hardness}) + 2.253)}$ Chronic = $e^{(0.846 \ln(\text{hardness}) + 0.0554)}$					
<u>Nitrogen<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>					
<u>Phosphorus<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>					
Selenium <sup>(78)</sup>	Acute = 18.4 Chronic = 4.6					
Silver	Acute = $0.5 * e^{(1.72 \ln(\text{hardness}) - 6.52)}$ Chronic = $e^{(1.72 \ln(\text{hardness}) - 9.06)}$ Chronic(Trout) = $e^{(1.72 \ln(\text{hardness}) - 10.51)}$					
Temperature	TEMPERATURE TIER	TIER CODE	SPECIES EXPECTED TO BE PRESENT	APPLICABLE MONTHS	TEMPERATURE STANDARD (°C)	
					MWAT	DM
	Cold Stream Tier I	CS-I	brook trout, cutthroat trout	June – Sept. Oct. – May	17.0 9.0	21.7 13.0

	Cold Stream Tier II	CS-II	Other cold-water species	April – Oct.	18.3	24.3
				Nov. – March	9.0	13.0
	Cold Lakes <sup>(89)</sup>	CL	brook trout, brown trout, cutthroat trout, lake trout, rainbow trout, Arctic grayling, sockeye salmon	April – Dec.	17.0	21.2
				Jan. – March	9.0	13.0
	Cold Large Lakes (>100 acres surface area) <sup>(89)</sup>	CLL	rainbow trout, brown trout, lake trout	April – Dec.	18.3	24.2
				Jan. – March	9.0	13.0
	Warm Stream Tier I	WS-I	common shiner, Johnny darter, orangethroat darter, stonecat	March – Nov.	24.2	29.0
				Dec. – Feb.	12.1	24.6
	Warm Stream Tier II	WS-II	brook stickleback, central stoneroller, creek chub, longnose dace, northern redbelly dace, finescale dace, razorback sucker, white sucker, mountain sucker	March – Nov.	27.5	28.6
				Dec. – Feb.	13.8	25.2
	Warm Stream Tier III	WS-III	all other warm-water species	March – Nov.	28.7	31.8
				Dec. – Feb.	14.3	24.9
	Warm Lakes	WL	black crappie, bluegill, common carp, gizzard shad, golden shiner, largemouth bass, northern pike, pumpkinseed, sauger, smallmouth bass, spottail shiner, stonecat, striped bass, tiger muskellunge, walleye, wiper, white bass, white crappie, yellow perch	April – Dec.	26.2	29.3
				Jan. – March	13.1	24.1
Uranium	Acute = $e^{(1.1021 \ln(\text{hardness}) + 2.7088)}$ Chronic = $e^{(1.1021 \ln(\text{hardness}) + 2.2382)}$					
Zinc	Acute = $0.978 \cdot e^{(0.9094 \ln(\text{hardness}) + 0.9095)}$ Chronic = $0.986 \cdot e^{(0.9094 \ln(\text{hardness}) + 0.6235)}$					

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L, except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.

- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (67) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- (78) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.
- (89) Lake trout-based summer temperature criteria [16.6 (ch), 22.4 (ac)] apply where appropriate and necessary to protect lake trout from thermal impacts.

---

(4) Site-specific Standards, Assessment Locations, and Assessment Criteria

The following criteria shall be used when assessing whether a specified waterbody is in attainment of the specified standard.

- (a) Middle Arkansas Segment 4a, Wildhorse Creek, Se(ac)=2376, Se(ch)=2110: Selenium Assessment Location
- Wildhorse Creek above Pesthouse Gulch: 38.296478, -104.649201
- (b) Middle Arkansas Segment 4g, Pesthouse Gulch, Se(ac)=389, Se(ch)=369: Selenium Assessment Location
- Pesthouse above No Name: 38.309568, -104.672244
- (c) Middle Arkansas Segment 6b, St. Charles River, Se(ac)=173, Se(ch)=50: Selenium Assessment Locations

Determinations of attainment of the chronic and acute selenium standards will be based on the 85<sup>th</sup> and 95<sup>th</sup> percentile, respectively of all available data from the segment. The selenium assessment locations are:

- SC-5: St. Charles River approximately one mile downstream of the confluence with Edson Arroyo.
- SC-6-US: St. Charles River upstream of the confluence with Thomkins Arroyo and the Comanche discharge.
- SC-7: Approximately 2 miles upstream of the Bessemer Canal crossing.
- SC-8: Immediately upstream of the Bessemer Canal crossing.

- SC-9: St. Charles River downstream of where the river flows under U.S. Highway 50, approximately 3 miles upstream of the confluence with the Arkansas River.
- (d) Middle Arkansas Segment 20, Pueblo Reservoir: Chlorophyll a Assessment Location
- Site 7b (USGS Site 381602104435200): Near the dam and the south outlet works
- (5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 32-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 32-1:

- (a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.
- ~~(b) All phosphorus standards are based upon the concentration of total phosphorus. For total phosphorus, stream standards are expressed as an annual median and for lakes standards as a summer (July 1—September 30) average in the mixed layer. For chlorophyll a, stream standards are expressed as a maximum of attached algae and lakes standards as a summer (July 1—September 30) average in the mixed layer. For additional assessment details, see tables at Regulation 31.17(b) and (d).~~
- (eb) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- (ec) All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.
- (ed) All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) Discharger-Specific Variances

- (a) Lower Arkansas Segment 1a (COARLA01a):

Discharger-Specific Variance, City of Pueblo James R. Dilorio Water Reclamation Facility (CO0026646): Adopted 6/12/2018.

Selenium (acute) = 19.1 µg/L: narrative; Selenium (chronic) = 14.1 µg/L: narrative;  
Sulfate (chronic) = 329 mg/L: narrative. Expiration date: 12/31/2028.

Narrative alternative effluent limit: During the DSV term, Pueblo will be required to spend \$10 million to implement a comprehensive source control, sampling, analysis, and optimization adaptive management program to reduce selenium and sulfate concentrations in the effluent as much as feasible and to ensure that the discharge does not contribute to any lowering of the currently attained ambient water quality. The adaptive management program will include the following elements, in order of priority:

- Lining up to 175,000 ft<sup>2</sup> in the sewer collection system in Basins 2 and 3.
- Sealing up to 400 manholes in Basins 2 and 3.
- The amount of sewer lining and manhole sealing may be reduced by:
  - Repair of service taps in poor condition;
  - Repair of service lines in poor condition; or
  - Additional effort where epoxy sealing of manholes is insufficient to control I & I.
- A comprehensive long-term sampling and analysis program to identify source control projects and evaluate the effectiveness of implemented controls.
- Investigation of the contribution from sump pumps.
- Pilot testing to determine the feasibility of treatment optimization to reduce selenium, and implementation of feasible treatment optimization measures.

(b) Lower Arkansas Segment 1b (COARLA01b):

- (i) Discharger-Specific Variance, City of La Junta (CO0021261): Adopted 10/11/2016.

Selenium (acute) = TVS: no limit; Selenium (chronic) = TVS: 0.37 lbs/day as a 12-month rolling average. Expiration date: 12/31/2026.

- (ii) Discharger-Specific Variance, City of Las Animas (CO0040690): Adopted 06/11/2018

Selenium (chronic) = TVS narrative. Effective Date: 12/30/2018; Expiration Date: 12/31/2025

Narrative alternative effluent limit: During the DSV term, Las Animas will implement a Pollutant Minimization Plan, which is expected to result in effluent concentrations between 0.8 – 28.4 µg/L. The following measures are required during the term of the variance to reduce selenium concentrations as much as feasible and to ensure the discharge does not contribute to any lowering of ambient in-stream water quality:

- Monitor selenium concentrations in each municipal water well and use the wells with the lowest selenium concentrations to meet water demand to the maximum extent feasible
- Initiate a water conservation program
- Locate and repair sources of water loss in the water distribution system.
- Maintain the ongoing sanitary sewer collection system replacement program to address groundwater infiltration

- Complete a wetland treatment pilot study by 12/31/2025, if compliance with water quality based effluent limits based upon the underlying standards remains infeasible after implementing the above measures.

**32.7 – 32.9      RESERVED**

\*\*\*\*\*

**32.70 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

**A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17**

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

**B. Implementation of Nutrients Table Value Standards**

The commission revised 32.5(4) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V (nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 32.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 32.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface

area. The chlorophyll a standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of all sizes. This information was previously included in the segment tables in Appendix 32-1, but was moved to Footnote 6 for clarity.

**1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

**a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously adopted the DUWS sub-classification and notation in the Appendix 32-1 tables on several waterbodies in previous rulemaking hearings, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned nitrogen and phosphorus standards. Therefore, the “Public Swim Beach” notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. Due to the presence of a public swim beach, the commission adopted total nitrogen and total phosphorus standards, “Public Swim Beach” in the Qualifier column, and a note to specify the swim beach reservoir in the Other column on the following segment:

Lower Arkansas River: 10 (COARLA10; Lake Hasty)

**b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 32.5(4).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 32-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 32-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 32-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

## **2. Chlorophyll a Standards for Lakes, Reservoirs, Rivers, and Streams**

The commission made no changes to the chlorophyll a standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll a standards.

Adoption of chlorophyll a standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll a standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll a table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 32-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; in Appendix 32-1, these table value standards are shown as “DUWS”. The phased implementation of the chlorophyll a standards adoption is now complete.

## **C. Clarifications and Corrections**

The following edits were made to Appendix 32-1 to improve clarity and correct errors:

- The Direct Use Water Supply (DUWS) references in segments in Appendix 32-1 were revised to improve clarity and consistency.

## **STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS – FOOTNOTES**

- (A) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

- (C) *Reserved.*

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

#### REGULATION NO. 33 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR UPPER COLORADO RIVER BASIN AND NORTH PLATTE RIVER (PLANNING REGION 12)

##### 5 CCR 1002-33

---

### 33.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

### 33.2 PURPOSE

These regulations establish classifications and numeric standards for the Colorado River, the Yampa River, and the North Platte River, including all tributaries and standing bodies of water as indicated in section 33.6. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

### 33.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (See Appendix 33-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 33-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the Basic Standards and Methodologies for Surface Water.

### 33.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

### 33.5 BASIC STANDARDS

#### (1) Temperature

All waters of Region 12 are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard). Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water Fish" are presumptively applied to all Aquatic Life class 1 streams and are applied to Aquatic Life class 2 streams on a case-by-case basis as shown in Appendix 33-1. The column in the tables at 31.11 headed "Fish Ingestion" is presumptively applied to all Aquatic Life class 1 streams which do not have a water supply classification, and are applied to Aquatic Life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 33-1.

(3) Uranium

- (a) All waters of the Upper Colorado River Basin, are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium level in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll a, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to December 31, ~~2022 for chlorophyll a and prior to December 31, 2027 for, total nitrogen and total phosphorus, interim nutrient~~ values will be considered for adoption only in the limited circumstances defined at 31.17(e2)(a)(i) and (f). ~~These~~ For lakes and reservoirs, these circumstances include ~~headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)), and other special circumstances determined by the Commission.~~ headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)), and other special circumstances determined by the Commission. ~~Additionally, prior to December 31, 2027, only total phosphorus and chlorophyll a will be~~

~~considered for adoption. After December 31, 2027, total nitrogen will be considered for adoption per the (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances outlined in 31.17(g).~~

~~Prior to December 31, 2027, nutrient criteria will be adopted for headwaters on a segment by segment basis for the Upper Colorado and North Platte River Basins. Moreover, pursuant to 31.17(e) nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic include waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. The (31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).~~

Pursuant to 31.17(2)(a)(i)(A) and 31.17(2)(a)(ii)(A), the following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the Upper Colorado and North Platte River Basins:

Prior to December 31, 2027:

- For segments located entirely above these facilities, ~~nutrient~~total nitrogen and total phosphorus standards apply to the entire segment.
- For segments with portions downstream of these facilities, ~~nutrient~~total nitrogen and total phosphorus standards only apply above these facilities-, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll a~~total nitrogen standards in these segments. The note references the table of qualified facilities at 33.5(4).
- For segments located entirely below these facilities, ~~nutrient~~total nitrogen and total phosphorus standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

### 33.6 TABLES

#### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 33-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 33-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

#### (2) Abbreviations

(a) The following abbreviations are used in this regulation and in the tables in Appendix 33-1:

ac	=	acute (1-day)
°C	=	degrees Celsius
ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
DM	=	daily maximum temperature
DUWS	=	direct use water supply
D.O.	=	dissolved oxygen
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sc	=	sculpin
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WL	=	warm lake temperature tier
WS	=	water supply
WS-I	=	warm stream temperature tier one
WS-II	=	warm stream temperature tier two
WS-III	=	warm stream temperature tier three

(b) In addition, the following abbreviations were used:

Iron (chronic)	=	WS
Manganese (chronic)	=	WS
Sulfate (chronic)	=	WS

These abbreviations mean: For all surface waters with an actual Water Supply use, the less restrictive of the following two options shall apply as numerical chronic standards, as specified in the Basic Standards and Methodologies at 31.16 Table II and III:

- (i) existing quality as of January 1, 2000; or
- (ii)

Iron	=	300 µg/L (dissolved)
Manganese	=	50 µg/L (dissolved)
Sulfate	=	250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 33-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
  - (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
  - (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
  - (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.

(3) Table Value Standards

In certain instances in the tables in Appendix 33-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>					
Aluminum(T)	Acute = $e^{(1.3695 \ln(\text{hardness}) + 1.8308)}$ pH equal to or greater than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ pH less than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ or 87, whichever is more stringent					
Ammonia <sup>(4)</sup>	Cold Water = (mg/L as N)Total $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ Warm Water = (mg/L as N)Total $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr 1 - Aug 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic (Sep 1 - Mar 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L, except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 percent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early

life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the Commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.

- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (67) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- (78) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.
- (89) Mountain whitefish-based summer temperature criteria [16.9 (ch), 21.2 (ac)] apply when and where spawning and sensitive early life stages of this species are known to occur.
- (910) Lake trout-based summer temperature criteria [16.6 (ch), 22.4 (ac)] apply where appropriate and necessary to protect lake trout from thermal impacts.

---

(4) Site-Specific Standards, Assessment Locations and Assessment Criteria

(a) Upper Colorado River Segment 3: Temperature Standards

Upper Colorado from below the confluence with the Blue River to below the confluence with the Roaring Fork River.

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = CS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = CS-II from 11/1 – 3/31

All other locations DM and MWAT = CS-II

(b) Upper Colorado River Segment 7a: Temperature Standards

Canyon Creek

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = CS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = CS-II from 11/1 – 3/31

All other locations DM and MWAT = CS-II

(c) Upper Colorado Segment 12: Temperature Standards

All locations DM and MWAT = CL,CLL from 1/31 – 3/31

Grand Lake DM = 22.4 and MWAT = 16.6 from 4/1 – 12/31

Lake Granby DM = 22.4 and MWAT = 19.6 from 4/1– 12/31

Shadow Mountain Reservoir DM = CLL and MWAT = 19.3 from 4/1 – 12/31

All other locations DM and MWAT = CL,CLL from 4/1 – 12/31

(d) Upper Colorado Segment 13: Temperature Standards

All locations DM and MWAT = CL,CLL from 1/31 – 3/31

Wolford Mountain Reservoir DM = CLL and MWAT = 21.3 from 4/1 – 12/31

Williams Fork Reservoir DM = 22.4 and MWAT = 21.6 from 4/1-12/31

Deep Lake DM = CL and MWAT = 16.6 from 4/1 – 12/31

All other locations DM and MWAT = CL/CLL from 4/1 – 12/31

(e) Roaring Fork River Segment 3c: Temperature Standards

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = CS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = CS-II from 11/1 – 3/31

(f) North Platte River Segment 9: Temperature Standards

All locations DM and MWAT = CL, CLL from 1/1 – 1/31

Lower Big Creek Lake and Upper Big Creek Lake DM = 22.4 and MWAT = 16.6 from 4/1 -12/31

Agua Fria Lake DM = CL and MWAT = 16.6 from 4/1 – 12/31

South Delaney Lake DM = CLL and MWAT = 18.8 from 4/1 – 12/31

North Delaney Lake DM = CLL and MWAT = 20.1 from 4/1 – 12/31

Lake John DM = CLL and MWAT = 21.2 from 4/1 – 12/31

All other locations DM and MWAT= CL,CLL from 4/1-12/31

(g) Yampa River Segment 2b: Temperature Standards

Yampa River from above the confluence with Oak Creek to below the confluence with Dry Creek.

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = CS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = CS-II from 11/1 – 3/31

Yampa River below confluence with Dry Creek DM and MWAT = CS-II

(h) Yampa River Segment 13b: Iron Standards and Assessment Locations

Iron Standards:

Middle Creek:

March-June, Iron(chronic) = 2090(T), median of all data

July-February, Iron(chronic) = 1000(T)

Foidel Creek Iron(chronic) = 1000(T), median of all data

Iron Assessment Locations:

Middle Creek Site G-MC-2/Site 29: located at 40°23'48.3"N, 106°58'47.0"W.

Foidel Creek Site 14: located at 40°33'48.6"N, 107°08'63.5"W.

Foidel Creek Site 8: located at 40°21'55.7"N, W107°02'43.6"W.

Foidel Creek Site 900: located at 40°23'24.7"N, 106°59'40.9"W.

(i) Yampa River Segment 13b: Temperature Standards

Fish Creek

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = WS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = WS-II from 11/1 – 3/31

All other locations DM and MWAT = WS-II

(j) Yampa River Segment 13d: Iron Standards and Assessment Locations

Iron Standards:

March-April, Iron(chronic) = 3040(T), snowmelt season median values

May-February, Iron(chronic) = 1110(T), no-snowmelt season median values

Iron Assessment Locations:

Seneca II-W Stream Site 7 on Hubberson Gulch (WSH7): located in the middle reaches of Hubberson Gulch

Seneca II-W Flume Site 1 on Hubberson Gulch (WSHF1): located on Hubberson Gulch just upstream of its confluence with Dry Creek

Seneca II-W Stream Site 5 on Dry Creek (WSD5): located in the middle reaches of Dry Creek

(k) Yampa River Segment 13e: Iron Standards and Assessment Locations

Iron Standards:

Upper Sage Creek: Iron(chronic) = 1250(T), median of all data

Lower Sage Creek: Iron(chronic) = 1000(T), median of all data

Break between Upper and Lower Sage Creek is the west border of Section 18, T5N, R87W.

Iron Assessment Locations:

Yoast Stream Site 2 on Sage Creek (YSS2): located upstream of the west border of Section 18, T5N, R87W

Seneca II-W Stream Site 3 on Sage Creek (WSSF3): located downstream of the west border of Section 18, T5N, R87W

(l) Yampa River Segment 13f: Temperature Standards

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = CS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = CS-II from 11/1 – 3/31

(m) Yampa River Segment 22: Temperature Standards

All locations DM and MWAT = CL, CLL from 1/1 – 3/31

Pearl Lake DM = CLL and MWAT = 19.6 from 4/1 – 12/31

Steamboat Reservoir DM = CLL and MWAT = 21.6 from 4/1 – 12/31

Stagecoach Reservoir DM = CLL and MWAT = 21.7 from 4/1 – 12/31

All other locations DM and MWAT = CL,CLL from 4/1-12/31

(5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 33-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 33-1:

- (a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.
- ~~(b) All phosphorus standards are based upon the concentration of total phosphorus.~~
- ~~(eb)~~ The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- ~~(ec)~~ All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.
- ~~(ed)~~ All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) Discharger-Specific Variances

- (a) Yampa River Segment 7 (COUCYA07)

Discharger-Specific Variance, Town of Oak Creek (CO0041106): Adopted 12/14/2020.

Total Inorganic Nitrogen (TIN) (acute) = TVS:15 mg/L; Expiration date: 6/30/2026.  
Effluent concentrations shall not exceed the current condition.

**33.7 - 33.9      RESERVED**

\*\*\*\*\*

**33.69 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

**A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17**

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

**B. Implementation of Nutrients Table Value Standards**

The commission revised 33.5(4) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V (nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 33.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 33.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface area. The chlorophyll *a* standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of

all sizes. This information was previously included in the segment tables in Appendix 33-1, but was moved to Footnote 6 for clarity.

**1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

**a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously adopted the DUWS sub-classification and notation in the Appendix 33-1 tables on several waterbodies in previous rulemaking hearings, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned total nitrogen and total phosphorus standards. Therefore, the “Public Swim Beach” notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. In Regulation No. 33, all public swim beaches are also classified as DUWS or located above certain discharge facilities, so total nitrogen and total phosphorus standards were adopted for those reasons. As a result, there was not a need to add total nitrogen and total phosphorus standards solely due to the presence of a public swim beach on any waterbodies.

**b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 33.5(4).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 33-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 33-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 33-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

## **2. Chlorophyll a Standards for Lakes, Reservoirs, Rivers, and Streams**

The commission made no changes to the chlorophyll a standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll a standards.

Adoption of chlorophyll a standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll a standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll a table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 33-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; in Appendix 33-1, these table value standards are shown as “DUWS”. The phased implementation of the chlorophyll a standards adoption is now complete.

## **C. Clarifications and Corrections**

The following edits were made to Appendix 33-1 to improve clarity and correct errors:

- The Direct Use Water Supply (DUWS) references in segments in Appendix 33-1 were revised to improve clarity and consistency.
- In Appendix 33-1, on Yampa River Segment 23 (COUCYA23), the notes in the “Other” column regarding chlorophyll a and phosphorus standards applying only above facilities listed in 33.5(4) are unnecessary. These notes were adopted in error, as the only waterbody in this segment (Elkhead Reservoir) is not below any facilities listed in 33.5(4).

See 33.6 for further details on applied standards.

# REGULATION #33 STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS

## Yampa River Basin

22. All lakes and reservoirs tributary to the Yampa River from the source to the confluence with Elkhead Creek, except for those listed in Segment 21. All lakes and reservoirs tributary to Elkhead Creek from the source to the confluence with the Yampa River, except for specific listings in Segment 23. All lakes and reservoirs tributary to the Little Snake River, including those on National Forest lands.

See 33.6 for further details on applied standards.

## **STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS – FOOTNOTES**

- (A) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.
- (B) Assessment of adequate refuge shall rely on the Cold Large Lake table value temperature criterion and applicable dissolved oxygen standard rather than the site-specific temperature standard.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

## REGULATION NO. 34 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR SAN JUAN RIVER AND DOLORES RIVER BASINS

### 5 CCR 1002-34

---

#### 34.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

#### 34.2 PURPOSE

These regulations establish classifications and numeric standards for the San Juan and the Dolores River Basins, including all tributaries and standing bodies of water south of the northern Dolores County lines, as indicated in section 34.6. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

#### 34.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (See Appendix 34-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 34-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "basic regulations".

#### 34.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

#### 34.5 BASIC STANDARDS

##### (1) Temperature

All waters of the San Juan/Dolores River Basin are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard). Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all aquatic life class 1 streams which also have a water supply classification, and are applied to aquatic life class 2 streams which also have a water supply classification, on a case-by-case basis as shown in the Appendix 34-1. The column in the tables at 31.11 and 31.16 Table III headed "Fish Ingestion" is presumptively applied to all aquatic life class 1 streams which do not have a water supply classification, and are applied to aquatic life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 34-1.

(3) Uranium

- (a) All waters of the San Juan/Dolores River Basin, are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium level in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Indian Reservations

Some of the waterbodies in the San Juan/Dolores River Basin cross boundaries of Indian Reservations of the Southern Ute and Ute Mountain Ute Tribes. The Commission has included water quality classifications and standards on lands within the boundaries of these reservations in order to avoid a gap in the classifications and standards adopted for the river basins in question. EPA has granted the Southern Ute and Ute Mountain Ute Indian tribes' applications for treatment as a state with respect to adoption of water quality standards. The Commission intends that the classifications and standards that it is adopting apply to the lands in question only to the extent that the state has jurisdiction and is not attempting to resolve that jurisdictional issue here. Segments within Reservation boundaries are noted in the segment description and Appendix 34-1 tables.

(5) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll a, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to ~~May 31, 2022, interim nutrient~~December 31, 2027, total nitrogen and total phosphorus values will be considered for adoption only in the limited circumstances defined at 31.17(e). ~~These~~2)(a)(i) and (ii). For lakes and reservoirs, these circumstances include ~~headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)), and other special circumstances determined by the Commission. Additionally, prior to May 31, 2017, only total phosphorus and chlorophyll a will be considered for adoption. After May 31, 2017, total nitrogen will be considered for adoption per the (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances outlined in 31.17(e).~~

Prior to May 31, 2022, nutrient criteria will be adopted for headwaters on a segment by segment basis for the San Juan River Basin. Moreover, pursuant to 31.17(e) nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic include waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. ~~The~~(31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).

Pursuant to 31.17(2)(a)(i)(A) and 31.17(2)(a)(ii)(A), the following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the San Juan River Basin:

Prior to ~~May~~December 31, ~~2022~~2027:

- For segments located entirely above these facilities, ~~nutrient~~total nitrogen and total phosphorus standards apply to the entire segment.
- For segments with portions downstream of these facilities, ~~nutrient~~total nitrogen and total phosphorus standards only apply above these facilities, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll a~~total nitrogen standards in these segments. The note references the table of qualified facilities at 34.5(5).
- For segments located entirely below these facilities, ~~nutrient~~total nitrogen and total phosphorus standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

## 34.6 TABLES

### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 34-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 34-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

### (2) Abbreviations:

- (a) The following abbreviations are used in this regulation and the tables in Appendix 34-1:

ac	=	acute (1-day)
AEL	=	alternative effluent limit
°C	=	degrees Celsius
ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
DM	=	daily maximum temperature
D.O.	=	dissolved oxygen
DUWS	=	direct use water supply
<i>E. coli</i>	=	Escherichia coli
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sc	=	sculpin
sp	=	spawning
SSE	=	site-specific equation
t	=	total
T	=	total recoverable
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WL	=	warm lake temperature tier
WS	=	water supply
WS-II	=	warm stream temperature tier two
WS-III	=	warm stream temperature tier three

(b) In addition, the following abbreviations are used:

Iron (chronic)	=	WS
Manganese (chronic)	=	WS
Sulfate (chronic)	=	WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical standards, as specified in the Basic Standards and Methodologies at 31.16 Table II and III:

- (i) existing quality as of January 1, 2000; or
- (ii)

Iron	=	300 µg/L (dissolved)
Manganese	=	50 µg/L (dissolved)
Sulfate	=	250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 34-1 tables as As(ch)=hybrid.

- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
- (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
- (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
- (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.
- (3) Table Value Standards

In certain instances in the tables in Appendix 34-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>
Aluminum(T)	<p>Acute = <math>e^{(1.3695 \ln(\text{hardness}) + 1.8308)}</math></p> <p>pH equal to or greater than 7.0</p> <p>Chronic = <math>e^{(1.3695 \ln(\text{hardness}) - 0.1158)}</math></p> <p>pH less than 7.0</p> <p>Chronic = <math>e^{(1.3695 \ln(\text{hardness}) - 0.1158)}</math> or 87, whichever is less</p>
Ammonia <sup>(4)</sup>	<p>Cold Water = (mg/L as N) Total</p> $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN \left( 2.85, 1.45 * 10^{0.028(25 - T)} \right)$ <p>Warm Water = (mg/L as N) Total</p> $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr1 - Aug31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN \left( 2.85, 1.45 * 10^{0.028(25 - T)} \right)$ $chronic (Sep1 - Mar31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$

Cadmium	$\text{Acute(warm)}^{(5)} = (1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 * \ln(\text{hardness}) - 3.443)}$ $\text{Acute(cold)}^{(5)} = (1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 * \ln(\text{hardness}) - 3.866)}$ $\text{Chronic} = (1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 * \ln(\text{hardness}) - 3.909)}$

Zinc	Acute = $0.978 \cdot e^{(0.9094 \cdot \ln(\text{hardness}) + 0.9095)}$ Chronic = $0.986 \cdot e^{(0.9094 \cdot \ln(\text{hardness}) + 0.6235)}$ Where hardness is less than 102 mg/L CaCO <sup>3</sup> and mottled sculpin are expected to be present: Chronic (sculpin) = $e^{(2.140 \cdot \ln(\text{hardness}) - 5.084)}$					

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L, except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.
- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (76) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as

the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.

- (87) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.

(4) Discharger-specific Variances

- (a) Animas and Florida River Segment 13c (COSJAF13c):

Discharger-specific Variance, Durango West Metro Dist. #2 (COG589115), Adopted 8/11/2014.

Ammonia (acute/chronic): AEL=25 mg/L (starting 1/1/2017);  
Ammonia (acute/chronic): AEL=15 mg/L (starting 1/1/2019).  
Expiration Date: 12/31/2024.

- (b) La Plata Segment 7a (COSJLP07a):

Discharger-specific Variance, Vista Verde Village, LLC (CO0037702), Adopted 12/14/2020.

Ammonia (acute/chronic): AEL=14 mg/L (5/1-10/31);  
Ammonia (acute/chronic): AEL=24 mg/L (11/1-4/30).  
Expiration date: 6/30/2031. Effluent concentrations shall not exceed the current condition.

- (c) La Plata Segment 10 (COSJLP10):

Discharger-specific Variance, Town of Dove Creek (COG589079), Adopted 12/14/2020.

Ammonia (acute/chronic): AEL=10 mg/L (6/1-10/31);  
Ammonia (acute/chronic): AEL=20 mg/L (11/1-5/31).  
Expiration date: 6/30/2025. Effluent concentrations shall not exceed the current condition.

(5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 34-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 34-1:

- (a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.
- ~~(b) All phosphorus standards are based upon the concentration of total phosphorus. For total phosphorus, stream standards are expressed as an annual median and for lakes standards as a summer (July 1–September 30) average in the mixed layer. For chlorophyll a, stream standards are expressed as a maximum of attached algae and lakes standards as a summer (July 1–September 30) average in the mixed layer. For additional assessment details, see tables at Regulation 31.17(b) and (d).~~

- (~~eb~~) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- (~~ec~~) All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.
- (~~ed~~) All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) Site-specific Standards, Assessment Locations, and Assessment Criteria

The following criteria and/or locations shall be used when assessing whether a specified waterbody is in attainment of the specified standard.

- (a) San Juan Segment 6b: Temperature Assessment Locations
  - Mill Creek at 119 Road: 37.245588, -107.004398
  - San Juan River below Pagosa Springs: 37.25171, -107.01037
- (b) San Juan Segment 6c: Temperature Assessment Location
  - Above Taylor Canyon: 37.172002, -107.035838
- (c) San Juan Segment 6d: Temperature Assessment Location
  - Above Rio Blanco: 37.121112, -107.044364
- (d) San Juan Segment 6e: Temperature Assessment Location
  - Above Navajo River: 37.04672, -107.1404
- (e) San Juan Segment 6f: Temperature Assessment Location
  - Above Navajo Reservoir: 37.01456, -107.30516
- (f) San Juan Segment 11c: Temperature Assessment Location
  - McCabe Creek at 400 Road: 37.265722, -107.013905
- (g) Piedra Segment 4a: Temperature Assessment Locations
  - Piedra River at Highway 160: 37.224016, -107.342255
  - Devil Creek at Highway 160: 37.211038, -107.297370
- (h) Piedra Segment 4b: Temperature Assessment Location
  - Piedra River at SUIT boundary: 37.141004, -107.355045
- (i) Piedra Segment 4c: Temperature Assessment Location
  - Piedra River below Stollsteimer Creek: 37.112804, -107.38508

**34.7 – 34.14    RESERVED**

\*\*\*\*\*

**34.56 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

**A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17**

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

**B. Implementation of Nutrients Table Value Standards**

The commission revised 34.5(5) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V (nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 34.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 34.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface area. The chlorophyll *a* standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of

all sizes. This information was previously included in the segment tables in Appendix 34-1, but was moved to Footnote 6 for clarity.

**1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

**a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously adopted the DUWS sub-classification and notation in the Appendix 34-1 tables on several waterbodies in previous rulemaking hearings, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned total nitrogen and total phosphorus standards. Therefore, the “Public Swim Beach” notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. In Regulation No. 34, all public swim beaches are also classified as DUWS or located above certain discharge facilities, so total nitrogen and total phosphorus standards were adopted for those reasons. As a result, there was not a need to add total nitrogen and total phosphorus standards solely due to the presence of a public swim beach on any waterbodies.

**b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 34.5(5).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 34-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 34-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 34-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

## 2. Chlorophyll *a* Standards for Lakes, Reservoirs, Rivers, and Streams

The commission made no changes to the chlorophyll *a* standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll *a* standards.

Adoption of chlorophyll *a* standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll *a* standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll *a* table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 34-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; in Appendix 34-1, these table value standards are shown as “DUWS”. The phased implementation of the chlorophyll *a* standards adoption is now complete.

## C. Clarifications and Corrections

The following edits were made to the regulation and Appendix 34-1 to improve clarity and correct errors:

- The Direct Use Water Supply (DUWS) references in segments in Appendix 34-1 were revised to improve clarity and consistency.
- Where the chlorophyll *a* and phosphorus standards adopted in previous rulemaking hearings were not consistent with the use(s), the commission made the following corrections:

La Plata River: 3a (COSJLP03a), 3b (COSJLP03b), and 3e (COSJLP03b); chlorophyll *a*; delete because the chlorophyll *a* standard of 150 mg/m<sup>2</sup> does not apply to river and stream segments with a Recreation N use

- In Appendix 34-1, on La Plata River Segment 4b (COSJLP04b), the Direct Use Water Supply (DUWS) note specifying that “DUWS applies to Jackson Gulch Reservoir only” was deleted. Mancos Reservoir (Jackson Gulch Reservoir) is the only waterbody included in this segment, so it is not necessary to specify which waterbody is DUWS.

## San Juan River Basin

17. All lakes and reservoirs that are tributary to the San Juan River and the East Fork and West Fork of the San Juan River, from the boundary of the Weminuche Wilderness Area (West Fork) and the source (East Fork) to the confluence with Fourmile Creek. This segment includes Born Lake, Hatcher Lakes, T Lazy T Reservoir, and Lost Lake.

## **STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS – FOOTNOTES**

- (A) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.
- (B) Assessment of adequate refuge shall rely on the Cold Large Lake table value temperature criterion and applicable dissolved oxygen standard rather than the site-specific temperature standard.
- (C) For certain site-specific temperature standards, the temperature excursions listed in Table I - Footnote 5(c) of 31.16 do not apply. Assessment of ambient-based temperature standards should be conducted in a way that represents similar conditions to those under which the criteria were developed (i.e., air, low flow, and warming event excursions should not apply). Similarly, where site-specific adjustments to the winter shoulder season have been adopted, the winter shoulder season excursion does not apply.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

## REGULATION NO. 35 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR GUNNISON AND LOWER DOLORES RIVER BASINS

### 5 CCR 1002-35

---

#### 35.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

#### 35.2 PURPOSE

These regulations establish classifications and numeric standards for the Gunnison River/Lower Dolores River Basins, including all tributaries and standing bodies of water. This includes all or parts of Gunnison, Delta, Montrose, Ouray, Mesa, Saguache and Hinsdale Counties. This also includes the lower Dolores River and its tributaries in Dolores, Montrose, Mesa and San Miguel Counties. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

#### 35.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (See Appendix 35-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 35-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "basic regulations".

#### 35.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

#### 35.5 BASIC STANDARDS

(1) Temperature

All waters of the Gunnison/Lower Dolores River Basins are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard). Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all aquatic life class 1 streams which also have a water supply classification, and are applied to aquatic life class 2 streams which also have a water supply classification, on a case-by-case basis as shown in Appendix 35-1. The column in the tables at 31.11 and 31.16 Table III headed "Fish Ingestion" is presumptively applied to all aquatic life class 1 streams which do not have a water supply classification, and are applied to aquatic life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 35-1.

(3) Uranium

- (a) All waters of the Gunnison/Lower Dolores River Basin, are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium level in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll *a*, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to ~~May~~December 31, 2027~~2~~, ~~interim-total nitrogen and total phosphorus nutrient~~-values will be considered for adoption only in the limited circumstances defined at 31.17(e2)(a)(i) and (ii). For lakes and reservoirs, these circumstances include headwaters~~waterbodies~~upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs~~sub-classification~~(31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)), and other special circumstances determined by the Commission (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances include headwaterswaterbodies upstream of certain domestic and non-domestic

wastewater treatment facilities (31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).

~~Additionally, prior to May 31, 2017, only total phosphorus and chlorophyll a will be considered for adoption. After May 31, 2017, total nitrogen will be considered for adoption per the circumstances outlined in 31.17(e).~~

~~Prior to May 31, 2022, nutrient criteria will be adopted for headwaters on a segment by segment basis for the Gunnison/Lower Dolores River Basin. Moreover, pursuant to 31.17(e2)(a)(i)(A) and 31.17(2)(a)(ii)(A), nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. The following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the Gunnison/Lower Dolores River Basin:~~

Prior to ~~May~~ December 31, ~~2022~~ 2027:

- For segments located entirely above these facilities, ~~nutrient-total nitrogen and total phosphorus~~ standards apply to the entire segment.
- For segments with portions downstream of these facilities, ~~nutrient-total nitrogen and total phosphorus~~ standards only apply above these facilities, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll-a~~ total nitrogen standards in these segments. The note references the table of qualified facilities at 35.5(4).
- For segments located entirely below these facilities, ~~nutrient-total nitrogen and total phosphorus~~ standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll-a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

## 35.6 TABLES

### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 35-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 35-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

### (2) Abbreviations

(a) The following abbreviations are used in this regulation and the tables in Appendix 35-1:

ac	=	acute (1-day)
AEL	=	alternative effluent limit
°C	=	degrees Celsius
ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
DM	=	daily maximum temperature
D.O.	=	dissolved oxygen

DUWS	=	direct use water supply
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sc	=	sculpin
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WL	=	warm lake temperature tier
WS	=	water supply
WS-II	=	warm stream temperature tier two
WS-III	=	warm stream temperature tier three

(b) In addition, the following abbreviations are used:

Iron (chronic)	=	WS
Manganese (chronic)	=	WS
Sulfate (chronic)	=	WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical standards, as specified in the Basic Standards and Methodologies at 31.16 Table II and III:

- (i) existing quality as of January 1, 2000; or
- (ii) 

Iron	=	300 µg/L (dissolved)
Manganese	=	50 µg/L (dissolved)
Sulfate	=	250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 35-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.

- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
- (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
- (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
- (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.

(3) Table Value Standards
