In certain instances in the tables in Appendix 35-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>
Aluminum(T)	<p>Acute = <math>e^{(1.3695 \cdot \ln(\text{hardness}) + 1.8308)}</math></p> <p>pH equal to or greater than 7.0</p> <p>Chronic = <math>e^{(1.3695 \cdot \ln(\text{hardness}) - 0.1158)}</math></p> <p>pH less than 7.0</p> <p>Chronic = <math>e^{(1.3695 \cdot \ln(\text{hardness}) - 0.1158)}</math> or 87, whichever is less</p>
Ammonia <sup>(4)</sup>	<p>Cold Water = (mg/L as N) Total</p> $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ <p>Warm Water = (mg/L as N) Total</p> $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr1 - Aug31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic (Sep1 - Mar31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$
Cadmium	<p>Acute(warm)<sup>(5)</sup> = <math>(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \cdot \ln(\text{hardness}) - 3.443)}</math></p> <p>Acute(cold)<sup>(5)</sup> = <math>(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \cdot \ln(\text{hardness}) - 3.866)}</math></p> <p>Chronic = <math>(1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 \cdot \ln(\text{hardness}) - 3.909)}</math></p>

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L, except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.
- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (76) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as

the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.

(87) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.

(98) Lake trout-based summer temperature criteria [16.6 (ch), 22.4 (ac)] apply where appropriate and necessary to protect lake trout from thermal impacts.

(4) Discharger-specific Variances

(a) San Miguel Segment 12c (COGUSM12c):

Discharger-specific Variance, Town of Nucla (COG589067): Adopted 10/11/2016.

Ammonia (acute): AEL=no limit;

Ammonia (chronic): AEL=13.8 mg/L (11/1-4/30);

Ammonia (chronic): AEL=8.3 mg/L (5/1-10/31).

Expiration date: 12/31/2026.

(5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 35-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 35-1:

(a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.

~~(b) All phosphorus standards are based upon the concentration of total phosphorus. For total phosphorus, stream standards are expressed as an annual median and for lakes standards as a summer (July 1–September 30) average in the mixed layer. For chlorophyll a, stream standards are expressed as a maximum of attached algae and lakes standards as a summer (July 1–September 30) average in the mixed layer. For additional assessment details, see tables at Regulation 31.17(b) and (d).~~

(eb) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.

(dc) All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.

(ed) All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) Site-specific Standards, Assessment Locations, and Assessment Criteria

The following criteria and/or locations shall be used when assessing whether a specified waterbody is in attainment of the specified standard.

- (a) Upper Gunnison Segment 18b: Temperature Assessment Locations (4/1 – 10/31)
  - Tomichi Creek at Doyleville: 38.456592, -106.626869
  - Tomichi Creek at Gunnison: 38.521111, -106.940958
- (b) North Fork Gunnison Segment 3: Temperature Assessment Location (3/16 – 11/15)
  - North Fork Gunnison River above mouth near Lazear: 38.785167, -107.833417

**35.7 - 35.10      RESERVED**

\*\*\*\*\*

**35.52 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

**A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17**

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

**B. Implementation of Nutrients Table Value Standards**

The commission revised 35.5(4) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V (nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 35.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 35.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface area. The chlorophyll *a* standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of

all sizes. This information was previously included in the segment tables in Appendix 35-1, but was moved to Footnote 6 for clarity.

**1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

**a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously adopted the DUWS sub-classification and notation in the Appendix 35-1 tables on several waterbodies in previous rulemaking hearings, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned nitrogen and phosphorus standards. Therefore, the “Public Swim Beach” notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. Due to the presence of a public swim beach, the commission adopted total nitrogen and total phosphorus standards, “Public Swim Beach” in the Qualifier column, and a note to specify the swim beach reservoir in the Other column on the following segments:

Uncompahgre River: 19 (COGUUN19; Ridgway Reservoir)

**b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 35.5(4).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 35-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 35-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 35-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

## 2. Chlorophyll *a* Standards for Lakes, Reservoirs, Rivers, and Streams

The commission made no changes to the chlorophyll *a* standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll *a* standards.

Adoption of chlorophyll *a* standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll *a* standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll *a* table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 35-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; in Appendix 35-1, these table value standards are shown as “DUWS”. The phased implementation of the chlorophyll *a* standards adoption is now complete.

## C. Clarifications and Corrections

The following edits were made to Appendix 35-1 to improve clarity and correct errors:

- The Direct Use Water Supply (DUWS) references in segments in Appendix 35-1 were revised to improve clarity and consistency.
- Where the chlorophyll *a* and phosphorus standards adopted in previous rulemaking hearings were not consistent with the use(s), the commission made the following corrections:

Uncompahgre River: 6a (COGUUN06a; chlorophyll *a*; delete because the chlorophyll *a* standard of 150 mg/m<sup>2</sup> does not apply to river and stream segments with a Recreation N use)

- In Appendix 35-1, on Uncompahgre River Segment 22 (COGUUN22), the Direct Use Water Supply (DUWS) note specifying that “DUWS applies to Fairview Reservoir only” was deleted. Fairview Reservoir is the only waterbody included in this segment, so it is not necessary to specify which waterbody is DUWS.

11. All lakes and reservoirs tributary to the North Fork of the Gunnison River from its inception at the confluence of Muddy Creek and Anthracite Creek to the confluence with the Gunnison River, and not within national forest boundaries, except for the specific listings in Segments 7, 9, and 10. This segment includes Roeber Reservoir.

\*Uranium(chronic) = See 35.5(3) for details.

All metals are dissolved unless otherwise noted.

T = total recoverable

t = total

tr = trout

sc = sculpin

D.O. = dissolved oxygen

DM = daily maximum

MWAT = maximum weekly average temperature

See 35.6 for further details on applied standards.

## **STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS – FOOTNOTES**

- (A) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.
- (B) Reserved.
- (C) For certain site-specific temperature standards, the temperature excursions listed in Table I - Footnote 5(c) of 31.16 do not apply. Assessment of ambient-based temperature standards should be conducted in a way that represents similar conditions to those under which the criteria were developed (i.e., air, low flow, and warming event excursions should not apply). Similarly, where site-specific adjustments to the winter shoulder season have been adopted, the winter shoulder season excursion does not apply.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

## REGULATION NO. 36 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR RIO GRANDE BASIN

### 5 CCR 1002-36

---

#### 36.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

#### 36.2 PURPOSE

These regulations establish classifications and numeric standards for the Rio Grande Basin, including all tributaries and standing bodies of water as indicated in section 36.6. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

#### 36.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (See Appendix 36-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 36-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "basic regulations".

#### 36.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

#### 36.5 BASIC STANDARDS

##### (1) Temperature

All waters of the Rio Grande Basin are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard.) Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all aquatic life class 1 streams which also have a water supply classification, and are applied to aquatic life class 2 streams which also have a water supply classification, on a case-by-case basis as shown in Appendix 36-1. The column in the tables at 31.11 and 31.16 Table III headed "Fish Ingestion" is presumptively applied to all aquatic life class 1 streams which do not have a water supply classification, and are applied to aquatic life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 36-1.

(3) Uranium

- (a) All waters of the Rio Grande Basin are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium level in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll a, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to December 31, ~~2022~~ for chlorophyll a and prior to December 31, 2027 for, total nitrogen and total phosphorus, interim nutrient values will be considered for adoption only in the limited circumstances defined at 31.17(~~e2~~)(a)(i) and (~~f~~). ~~These~~ii). For lakes and reservoirs, these circumstances include ~~headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)),~~ and other special circumstances determined by the Commission. ~~Additionally, prior to December 31, 2027, only total phosphorus and chlorophyll a will be~~

~~considered for adoption. After December 31, 2027, total nitrogen will be considered for adoption per the (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances outlined in 31.17(g).~~

~~Prior to December 31, 2027, nutrient criteria will be adopted for headwaters on a segment by segment basis for the Rio Grande Basin. Moreover, pursuant to 31.17(e) nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic include waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. The (31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).~~

~~Pursuant to 31.17(2)(a)(i)(A) and 31.17(2)(a)(ii)(A), the following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the Rio Grande Basin:~~

Segment	Permittee	Facility name	Permit No.

Prior to ~~May~~December 31, ~~2022~~2027:

- For segments located entirely above these facilities, ~~nutrient~~total nitrogen and total phosphorus standards apply to the entire segment.
- For segments with portions downstream of these facilities, ~~nutrient~~total nitrogen and total phosphorus standards only apply above these facilities, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll a~~total nitrogen standards in these segments. The note references the table of qualified facilities at 36.5(4).
- For segments located entirely below these facilities, ~~nutrient~~total nitrogen and total phosphorus standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total

phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

## 36.6 TABLES

### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 36-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 36-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

### (2) Abbreviations

(a) The following abbreviations are used in this regulation and the tables in Appendix 36-1:

ac	=	acute (1-day)
AEL	=	alternative effluent limit
°C	=	degrees Celsius
ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
DM	=	daily maximum temperature
D.O.	=	dissolved oxygen
DUWS	=	direct use water supply
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WL	=	warm lake temperature tier
WS	=	water supply
WS-I	=	warm stream temperature tier one
WS-II	=	warm stream temperature tier two
WS-III	=	warm stream temperature tier three

(b) In addition, the following abbreviations are used:

Iron (chronic)	=	WS
----------------	---	----

Manganese (chronic) = WS  
Sulfate (chronic) = WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical standards, as specified in the Basic Standards and Methodologies at 31.11(6);

(i) existing quality as of January 1, 2000; or

(ii) Iron = 300 µg/L (dissolved)  
Manganese = 50 µg/L (dissolved)  
Sulfate = 250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 36-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
- (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
- (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
- (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.

(3) Table Value Standards

In certain instances in the tables in Appendix 36-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical

criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>				
Aluminum(T)	Acute = $e^{(1.3695 \ln(\text{hardness}) + 1.8308)}$ pH equal to or greater than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ pH less than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ or 87, whichever is more stringent				
Ammonia <sup>(4)</sup>	Cold Water = (mg/L as N) Total $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ Warm Water = (mg/L as N) Total $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr 1 - Aug 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic (Sep 1 - Mar 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028(25 - MAX(T, 7))}$				
Cadmium	Acute(warm) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.443)}$ Acute(cold) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.866)}$ Chronic = $(1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 \ln(\text{hardness}) - 3.909)}$				
<u>Chlorophyll a<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation and Direct Use Water Supply (DUWS).</u>				
Chromium III <sup>(Z6)</sup>	Acute = $e^{(0.819 \ln(\text{hardness}) + 2.5736)}$ Chronic = $e^{(0.819 \ln(\text{hardness}) + 0.5340)}$				
Chromium VI <sup>(Z6)</sup>	Acute = 16 Chronic = 11				
Copper	Acute = $e^{(0.9422 \ln(\text{hardness}) - 1.7408)}$ Chronic = $e^{(0.8545 \ln(\text{hardness}) - 1.7428)}$				
Lead	Acute = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 1.46)}$ Chronic = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 4.705)}$				
Manganese	Acute = $e^{(0.3331 \ln(\text{hardness}) + 6.4676)}$ Chronic = $e^{(0.3331 \ln(\text{hardness}) + 5.8743)}$				
Nickel	Acute = $e^{(0.846 \ln(\text{hardness}) + 2.253)}$ Chronic = $e^{(0.846 \ln(\text{hardness}) + 0.0554)}$				
<u>Nitrogen<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>				
<u>Phosphorus<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>				
Selenium <sup>(87)</sup>	Acute = 18.4 Chronic = 4.6				
Silver	Acute = $0.5 * e^{(1.72 \ln(\text{hardness}) - 6.52)}$ Chronic = $e^{(1.72 \ln(\text{hardness}) - 9.06)}$ Chronic(Trout) = $e^{(1.72 \ln(\text{hardness}) - 10.51)}$				
Temperature	TEMPERATURE TIER	TIER CODE	SPECIES EXPECTED TO BE PRESENT	APPLICABLE MONTHS	TEMPERATURE STANDARD (°C) MWAT   DM

	Cold Stream Tier I	CS-I	brook trout, cutthroat trout	June – Sept.	17.0	21.7
				Oct. – May	9.0	13.0
	Cold Stream Tier II	CS-II	Other cold-water species	April – Oct.	18.3	24.3
				Nov. – March	9.0	13.0
	Cold Lake	CL	brook trout, brown trout, cutthroat trout, lake trout, rainbow trout, Arctic grayling, sockeye salmon	April – Dec.	17.0	21.2
				Jan. – March	9.0	13.0
	Cold Large Lakes (>100 acres surface area)	CLL	rainbow trout, brown trout, lake trout	April – Dec.	18.3	24.2
				Jan. – March	9.0	13.0
	Warm Stream Tier I	WS-I	common shiner, Johnny darter, orangethroat darter, stonecat	March – Nov.	24.2	29.0
				Dec. – Feb.	12.1	24.6
	Warm Stream Tier II	WS-II	brook stickleback, central stoneroller, creek chub, longnose dace, northern redbelly dace, finescale dace, razorback sucker, white sucker, mountain sucker	March – Nov.	27.5	28.6
				Dec. – Feb.	13.8	25.2
	Warm Stream Tier III	WS-III	all other warm-water species	March – Nov.	28.7	31.8
				Dec. – Feb.	14.3	24.9
Warm Lakes	WL	black crappie, bluegill, common carp, gizzard shad, golden shiner, largemouth bass, northern pike, pumpkinseed, sauger, smallmouth bass, spottail shiner, stonecat, striped bass, tiger muskellunge, walleye, wiper, white bass, white crappie, yellow perch	April – Dec.	26.2	29.3	
			Jan. – March	13.1	24.1	
Uranium	Acute = $e^{(1.1021 \ln(\text{hardness})+2.7088)}$ Chronic = $e^{(1.1021 \ln(\text{hardness})+2.2382)}$					
Zinc	Acute = $0.978 * e^{(0.9094 \ln(\text{hardness})+0.9095)}$ Chronic = $0.986 * e^{(0.9094 \ln(\text{hardness})+0.6235)}$					

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L, except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.
- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early

life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.

- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (76) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- (87) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.

#### (4) Site-Specific Standards, Assessment Locations, and Assessment Criteria

- (a) Seasonal Aluminum Standards for Alamosa River/La Jara Creek/Conejos River Segment 8, Terrace Reservoir:

##### 5/1-6/30 Near Surface:

Aluminum(chronic)=873(T) µg/L  
Aluminum(acute)=TVS(T) µg/L  
Aluminum(chronic)=59 µg/L  
Aluminum(acute)=159 µg/L

##### 5/1-6/30 Near Bottom:

Aluminum(chronic)=1,542(T) µg/L  
Aluminum(acute)=5,583(T) µg/L  
Aluminum(chronic)=41 µg/L  
Aluminum(acute)=65 µg/L

##### 7/1-4/30 Near Surface:

Aluminum(chronic)=102(T) µg/L  
Aluminum(acute)=TVS(T) µg/L  
Aluminum(chronic)=9 µg/L  
Aluminum(acute)=15 µg/L

##### 7/1-4/30 Near Bottom:

Aluminum(chronic)=227(T) µg/L  
Aluminum(acute)= TVS(T) µg/L  
Aluminum(chronic)=9 µg/L  
Aluminum(acute)=12 µg/L

- (b) Site-specific standards and assessment locations for Rio Grande Segment 4a:

#### **Standards effective through 12/31/2023**

##### Low flow (August 1-March 31):

Cadmium(chronic)=0.50 µg/L  
Manganese(chronic)=WS  
Zinc(acute/chronic)=257 / 164 µg/L

##### High flow (April 1-July 31):

Cadmium(chronic)=0.42 µg/L  
Manganese(chronic)=WS  
Zinc(acute/chronic)=115 / 88 µg/L

#### **Tier 1 standards effective 1/1/2024 through 12/31/2025**

##### Low flow (August 1-March 31):

Cadmium(chronic)=0.49 µg/L

##### High flow (April 1-July 31):

Cadmium(chronic)=0.42 µg/L

Manganese(chronic)=81 µg/L  
Zinc(acute/chronic)=253 / 162 µg/L

Manganese(chronic)=WS  
Zinc(acute/chronic)=115 / 88 µg/L

**Tier 2 standards effective from 1/1/2026**

Low flow (August 1-March 31):

Cadmium(chronic)=TVS  
Manganese(chronic)=WS  
Zinc(acute/chronic)=142 / 64 µg/L

High flow (April 1-July 31):

Cadmium(chronic)=TVS  
Manganese(chronic)=WS  
Zinc(acute/chronic)=51 µg/L / TVS

**Assessment Locations:** For assessing the standards on Segment 4a, data from the following three locations will be combined:

- Station RG-4: Rio Grande downstream of Highway 149 bridge near Wason Ranch (37.821943, -106.889589)
- Station RG-8: Rio Grande upstream of Highway 149 bridge near La Garita Ranch Drive (37.777672, -106.836631)
- Station RG-9: Rio Grande downstream of 4 UR/Goose Creek Road bridge (37.765798, -106.830305)

(c) Site-specific standards and assessment locations for Rio Grande Segment 7:

**Standards effective through 12/31/2023**

**West Willow**

Low flow (August 1-March 31):

Cadmium(acute/chronic)=32.6 / 27.4 µg/L  
Copper(acute/chronic)=TVS / TVS  
Lead(acute/chronic)=108 / 102 µg/L  
Manganese(acute/chronic)=3,320 / 2,425 µg/L  
Zinc(acute/chronic)=11,960 / 9,360 µg/L

High flow (April 1-July 31):

Cadmium(acute/chronic)=22.5 / 15.5 µg/L  
Copper(acute/chronic)=34.3 / 28.0 µg/L  
Lead(acute/chronic)=TVS / 23.5 µg/L

**Assessment Locations:**

**West Willow**

- Station WW-A (WW-1): West Willow just above East Willow Confluence  
(37.864431, -106.925529)

**Windy Gulch**

- Station WNG-A: Windy Gulch at mouth (37.856498, -106.928140)

**Willow Creek**

- Station W-C (a/k/a W-Flume and 8105D, designations differ among agencies): Willow Creek at Flume above Creede (37.855873, -106.927282)

- (d) Site-specific temperature assessment location for Closed Basin-San Luis Valley River Basin Segment 12b:

- Saguache Creek above Ford Creek (38.163367, -106.290418)

(5) **Stream Classifications and Water Quality Standards Tables**

The stream classifications and water quality standards tables in Appendix 36-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 36-1:

- (a) *E. coli* criteria and resulting standards for individual water segments are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.
- ~~(b) All phosphorus standards are based upon the concentration of total phosphorus. For total phosphorus, stream standards are expressed as an annual median and for lakes standards as a summer (July 1–September 30) average in the mixed layer. For chlorophyll a, stream standards are expressed as a maximum of attached algae and lakes standards as a summer (July 1–September 30) average in the mixed layer. For additional assessment details, see tables at Regulation 31.17(b) and (d).~~
- (~~eb~~) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- (~~ec~~) All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.
- (~~ed~~) All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) **Discharger-specific Variances**

- (a) Alamosa River/La Jara Creek/Conejos River Segment 12 (CORGal12):

Discharger-specific Variance, Town of La Jara (CO0020150), Adopted 6/13/2022.

TIN (acute): Initial AEL=23 mg/L, Final AEL=14.5 mg/L.  
Includes a Pollutant Minimization Program.  
Expiration date: 12/31/2025.

\*\*\*\*\*

**36.49 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

**A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17**

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

**B. Implementation of Nutrients Table Value Standards**

The commission revised 36.5(4) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V (nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 36.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 36.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface area. The chlorophyll *a* standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of

all sizes. This information was previously included in the segment tables in Appendix 36-1, but was moved to Footnote 6 for clarity.

**1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

**a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously considered the adoption of the DUWS sub-classification and notation in the Appendix 36-1 tables in previous rulemaking hearings and did not find any DUWS, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned total nitrogen and total phosphorus standards. Therefore, the “Public Swim Beach” notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. In Regulation No. 36, no public swim beaches were identified. As a result, there was not a need to add total nitrogen and total phosphorus standards solely due to the presence of a public swim beach on any waterbodies.

**b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 36.5(4).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 36-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 36-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 36-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

## **2. Chlorophyll a Standards for Lakes, Reservoirs, Rivers, and Streams**

The commission made no changes to the chlorophyll a standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll a standards.

Adoption of chlorophyll a standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll a standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll a table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 36-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; however, there are no DUWS waterbodies in Regulation No. 36. The phased implementation of the chlorophyll a standards adoption is now complete.

		Cyanide	0.005	---	Silver	TVS
		Nitrate	100	---	Uranium	varies*
		Nitrite	---	0.05	Zinc	TVS
		Nitrogen	---	TVS		
		Phosphorus	---	0.025*TVS		
		Sulfate	---	---		
		Sulfide	---	0.002		

All metals are dissolved unless otherwise noted.  
T = total recoverable  
t = total  
tr = trout

D.O. = dissolved oxygen  
DM = daily maximum  
MWAT = maximum weekly average temperature  
See 36.6 for further details on applied standards.

## **STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS – FOOTNOTES**

- (A) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.
- (B) Reserved.
- (C) For certain site-specific temperature standards, the temperature excursions listed in Table I - Footnote 5(c) of 31.16 do not apply. Assessment of ambient-based temperature standards should be conducted in a way that represents similar conditions to those under which the criteria were developed (i.e., air, low flow, and warming event excursions should not apply). Similarly, where site-specific adjustments to the winter shoulder season have been adopted, the winter shoulder season excursion does not apply.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

## REGULATION NO. 37 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR LOWER COLORADO RIVER BASIN

### 5 CCR 1002-37

---

#### 37.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq. C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

#### 37.2 PURPOSE

These regulations establish classifications and numeric standards for the Colorado River Basin, including all tributaries and standing bodies of water. This includes all or parts of Garfield, Mesa, Rio Blanco, Moffat and Routt Counties. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

#### 37.3 INTRODUCTION

These regulations and tables present the classifications and numeric standards assigned to stream segments listed in the attached tables (see Appendix 37-1). As additional stream segments are classified and numeric standards for designated parameters are assigned for this drainage system, they will be added to or replace the numeric standards in the tables in Appendix 37-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "basic regulations".

#### 37.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

#### 37.5 BASIC STANDARDS

##### (1) Temperature

All waters of the Colorado River Basin are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard). Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all aquatic life class 1 streams which also have a water supply classification, and are applied to aquatic life class 2 streams which also have a water supply classification, on a case-by-case basis as shown in Appendix 37-1. The column in the tables at 31.11 headed "Fish Ingestion" is presumptively applied to all aquatic life class 1 streams which do not have a water supply classification, and are applied to aquatic life class 2 streams which do not have a water supply classification, on a case-by-case basis as shown in Appendix 37-1.

(3) Uranium

- (a) All waters of the Lower Colorado River Basin, are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium level in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a water supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll a, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to December 31, ~~2022~~ for chlorophyll a and prior to December 31, 2027 for, total nitrogen and total phosphorus, ~~interim nutrient~~ values will be considered for adoption only in the limited circumstances defined at 31.17(~~e~~2)(a)(i) and (~~f~~). ~~These~~ ii). For lakes and reservoirs, these circumstances include ~~headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)),~~ and other special circumstances determined by the Commission. ~~Additionally, prior to December 31, 2027, only total phosphorus and chlorophyll a will be~~

~~considered for adoption. After December 31, 2027, total nitrogen will be considered for adoption per the (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances outlined in 31.17(g).~~

~~Prior to December 31, 2027, nutrient criteria will be adopted for headwaters on a segment by segment basis for the Lower Colorado Basin. Moreover, pursuant to 31.17(e) nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic include waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. The (31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).~~

~~Pursuant to 31.17(2)(a)(i)(A) and 31.17(2)(a)(ii)(A), the following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the Lower Colorado Basin:~~

Prior to December 31, 2027:

- For segments located entirely above these facilities, ~~nutrient~~total nitrogen and total phosphorus standards apply to the entire segment.
- For segments with portions downstream of these facilities, ~~nutrient~~total nitrogen and total phosphorus standards only apply above these facilities, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll a~~total nitrogen standards in these segments. The note references the table of qualified facilities at 37.5(4).

- For segments located entirely below these facilities, ~~nutrient~~total nitrogen and total phosphorus standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

## 37.6 TABLES

### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 37-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 37-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

### (2) Abbreviations

(a) The following abbreviations are used in this regulation and in the tables in Appendix 37-1:

ac	=	acute (1-day)
°C	=	degrees Celsius
ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
D.O.	=	dissolved oxygen
DM	=	daily maximum temperature
DUWS	=	direct use water supply
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sc	=	sculpin
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WL	=	warm lake temperature tier
WS	=	water supply
WS-I	=	warm stream temperature tier one

WS-II = warm stream temperature tier two  
WS-III = warm stream temperature tier three

(b) In addition, the following abbreviations were used:

Iron (chronic) = WS  
Manganese (chronic) = WS  
Sulfate (chronic) = WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical chronic standards, as specified in the Basic Standards and Methodologies at 31.16 Table II and III:

- (i) existing quality as of January 1, 2000; or
- (ii) Iron = 300 µg/L (dissolved)  
Manganese = 50 µg/L (dissolved)  
Sulfate = 250 mg/L (dissolved)

For all surface waters with a “water supply” classification that are not in actual use as a water supply, no water supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 37-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
  - (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
  - (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
  - (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an “end-of-pipe” discharge level more restrictive than the second number in the range.

(3) Table Value Standards

In certain instances in the tables in Appendix 37-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>
Aluminum(T)	Acute = $e^{(1.3695 \ln(\text{hardness}) + 1.8308)}$ pH equal to or greater than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ pH less than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ or 87, whichever is more stringent
Ammonia <sup>(4)</sup>	Cold Water = (mg/L as N)Total $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$
	Warm Water = (mg/L as N)Total $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$
	$chronic \text{ (Apr 1 - Aug 31)} = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic \text{ (Sep 1 - Mar 31)} = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028(25 - MAX(T, 7))}$
Cadmium	Acute(warm) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.443)}$ Acute(cold) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.866)}$ Chronic = $(1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 \ln(\text{hardness}) - 3.909)}$
<u>Chlorophyll a<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation and Direct Use Water Supply (DUWS).</u>
Chromium III <sup>(76)</sup>	Acute = $e^{(0.819 \ln(\text{hardness}) + 2.5736)}$ Chronic = $e^{(0.819 \ln(\text{hardness}) + 0.5340)}$
Chromium VI <sup>(76)</sup>	Acute = 16 Chronic = 11
Copper	Acute = $e^{(0.9422 \ln(\text{hardness}) - 1.7408)}$ Chronic = $e^{(0.8545 \ln(\text{hardness}) - 1.7428)}$
Lead	Acute = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 1.46)}$ Chronic = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 4.705)}$
Manganese	Acute = $e^{(0.3331 \ln(\text{hardness}) + 6.4676)}$ Chronic = $e^{(0.3331 \ln(\text{hardness}) + 5.8743)}$
Nickel	Acute = $e^{(0.846 \ln(\text{hardness}) + 2.253)}$ Chronic = $e^{(0.846 \ln(\text{hardness}) + 0.0554)}$
<u>Nitrogen<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>
<u>Phosphorus<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>
Selenium <sup>(87)</sup>	Acute = 18.4 Chronic = 4.6
Silver	Acute = $0.5 * e^{(1.72 \ln(\text{hardness}) - 6.52)}$ Chronic = $e^{(1.72 \ln(\text{hardness}) - 9.06)}$ Chronic(Trout) = $e^{(1.72 \ln(\text{hardness}) - 10.51)}$
Temperature	TEMPERATURE TIER    TIER CODE    SPECIES EXPECTED TO BE PRESENT    APPLICABLE MONTHS    TEMPERATURE STANDARD (°C)

					(MWAT)	(DM)
	Cold Stream Tier I <sup>(98)</sup>	CS-I	brook trout, cutthroat trout	June – Sept.	17.0	21.7
				Oct. – May	9.0	13.0
	Cold Stream Tier II <sup>(98)</sup>	CS-II	all other cold-water species	April – Oct.	18.3	24.3
				Nov. – March	9.0	13.0
	Cold Lake	CL	brook trout, brown trout, cutthroat trout, lake trout, rainbow trout, Arctic grayling, sockeye salmon	April – Dec.	17.0	21.2
				Jan. – March	9.0	13.0
	Cold Large Lake (>100 acres surface area)	CLL	brown trout, lake trout, rainbow trout	April – Dec.	18.3	4.2
				Jan. – March	9.0	13.0
	Warm Stream Tier I	WS-I	common shiner, Johnny darter, orangethroat darter, stonecat	March – Nov.	24.2	29.0
				Dec. – Feb.	12.1	24.6
	Warm Stream Tier II	WS-II	brook stickleback, central stoneroller, creek chub, longnose dace, Northern redbelly dace, finescale dace, razorback sucker, white sucker, mountain sucker	March – Nov.	27.5	28.6
				Dec. – Feb.	13.8	25.2
Warm Stream Tier III	WS-III	all other warm-water Species	March – Nov.	28.7	31.8	
			Dec. – Feb.	14.3	24.9	
Warm Lakes	WL	yellow perch, walleye, pumpkinseed, smallmouth bass, striped bass, white bass, largemouth bass, bluegill, spottail shiner, stonecat, northern pike, tiger muskellunge, black crappie, common carp, gizzard shad, sauger, white crappie, wiper	April – Dec.	26.2	29.3	
			Jan. – March	13.1	24.1	
Uranium	Acute = e <sup>(1.1021*ln(hardness)+2.7088)</sup> Chronic = e <sup>(1.1021*ln(hardness)+2.2382)</sup>					
Zinc	Acute = 0.978*e <sup>(0.9094*ln(hardness)+0.9095)</sup> Chronic = 0.986*e <sup>(0.9094*ln(hardness)+0.6235)</sup> Where hardness is less than 102 mg/L CaCO <sup>3</sup> and mottled sculpin are expected to be present: Chronic (sculpin) = e <sup>(2.140*ln(hardness)-5.084)</sup>					

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.

- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the Commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.
- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- ~~(76)~~ Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- ~~(87)~~ Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.
- ~~(98)~~ Mountain whitefish-based summer temperature criteria [16.9 (ch), 21.2 (ac)] apply when and where spawning and sensitive early life stages of this species are known to occur.

---

(4) Site-specific Standards, Assessment Locations, and Assessment Criteria

- (a) White River Segment 13b Selenium Assessment Thresholds and Locations
- Corral Gulch, Se(ch)=5.7 µg/L  
Assessment location: Corral Gulch at the mouth.  
Duck Creek, Se(ch)=7.9 µg/L  
Assessment location: Duck Creek at the mouth.  
Yellow Creek, Se(ch)=6.9 µg/L  
Assessment location: Yellow Creek upstream from the confluence with Barcus Creek.  
Greasewood Creek, Se(ch)=6.0 µg/L  
Assessment location: Greasewood Creek at the mouth.
- (b) White River Segment 13c Iron Assessment Threshold and Location
- Yellow Creek, Fe(ch)=1625 µg/L  
Assessment location: Yellow Creek at the mouth.
- (c) Lower Colorado Segment 4e Iron Standards and Assessment
- Unnamed tributary, Iron (chronic) = 3500 (T) µg/L, assessment location as follows:

- UT-2: Unnamed tributary, immediately downstream of the Tri-State Rifle Station discharge (39.519572, -107.729424)

Dry Creek and remaining tributaries and wetlands, Iron (chronic) = 5900 (T) µg/L, assessment location as follows:

- DC-2: Dry Creek, downstream of dry tributary channel entering from the east from the Garfield County Airport (39.523944, -107.73496)

(d) Lower Colorado River Segment 1: Temperature Standards

Lower Colorado River from the confluence with the Roaring Fork River to Elk Creek

DM = 21.2 and MWAT = 16.9 from 4/1 – 5/31

DM and MWAT = CS-II from 6/1 – 9/30

DM = 21.2 and MWAT = 16.9 from 10/1 – 10/31

DM and MWAT = CS-II from 11/1 – 3/31

All other locations DM and MWAT = CS-II

(e) Lower Yampa River Segment 3g: Iron Standards and Assessment Locations

Iron Standards:

- Collom Gulch from the source to the diversion structure at 40.333977, -107.860833:

March-May, Iron(chronic) = 1500 µg/L, median of all data

June-February, Iron(chronic) = 1000(T)

Iron Assessment Location:

- Collom Gulch at County Road 32: located at 40.323530, -107.877200

(5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 37-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 37-1:

- (a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.

~~(b) All phosphorus standards are based upon the concentration of total phosphorus.~~

- (eb) The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water

quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.

(~~dc~~) All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.

(~~ed~~) All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

\*\*\*\*\*

### 37.46 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

#### BASIS AND PURPOSE

##### A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

##### B. Implementation of Nutrients Table Value Standards

The commission revised 37.5(4) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V

(nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 37.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 37.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface area. The chlorophyll *a* standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of all sizes. This information was previously included in the segment tables in Appendix 37-1, but was moved to Footnote 6 for clarity.

## **1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

### **a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously adopted the DUWS sub-classification and notation in the Appendix 37-1 tables on several waterbodies in previous rulemaking hearings, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned total nitrogen and total phosphorus standards. Therefore, the "Public Swim Beach" notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. In Regulation No. 37, all public swim beaches are also classified as DUWS or located above certain discharge facilities, so total nitrogen and total phosphorus standards were adopted for those reasons. As a result, there was not a need to add total nitrogen and total phosphorus standards solely due to the presence of a public swim beach on any waterbodies.

### **b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 37.5(4).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 37-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 37-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 37-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

**2. Chlorophyll a Standards for Lakes, Reservoirs, Rivers, and Streams**

The commission made no changes to the chlorophyll a standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll a standards.

Adoption of chlorophyll a standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll a standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll a table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 37-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; in Appendix 37-1, these table value standards are shown as “DUWS”. The phased implementation of the chlorophyll a standards adoption is now complete.

**C. Clarifications and Corrections**

The following edits were made to Appendix 37-1 to improve clarity and correct errors:

- The Direct Use Water Supply (DUWS) references in segments in Appendix 37-1 were revised to improve clarity and consistency.
- Where the chlorophyll a and phosphorus standards adopted in previous rulemaking hearings were not consistent with the use(s), the commission made the following corrections:

White River: 6a (COLCLC13d; chlorophyll a and phosphorus; delete because the chlorophyll a and phosphorus standards for Aquatic Life and/or Recreation do not apply to lakes and reservoirs of 25 acres or less, and Violett Springs Ponds are less than 25 acres in size)

## **STREAM CLASSIFICATIONS and WATER QUALITY STANDARDS – FOOTNOTES**

- (A) Whenever a range of standards is listed and referenced to this footnote, the first number in the range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.
- (B) Assessment of adequate refuge shall rely on the Cold Large Lake table value temperature criterion and applicable dissolved oxygen standard rather than the site-specific temperature standard.

## DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

### Water Quality Control Commission

#### REGULATION NO. 38 - CLASSIFICATIONS AND NUMERIC STANDARDS FOR SOUTH PLATTE RIVER BASIN, LARAMIE RIVER BASIN, REPUBLICAN RIVER BASIN, SMOKY HILL RIVER BASIN

##### 5 CCR 1002-38

---

### 38.1 AUTHORITY

These regulations are promulgated pursuant to section 25-8-101 et seq C.R.S., as amended, and in particular, 25-8-203 and 25-8-204.

### 38.2 PURPOSE

These regulations establish classification and numeric standards for the South Platte River, the Laramie River, the Republican River and the Smoky Hill River, including all tributaries and standing bodies of water as indicated in section 38.6. The classifications identify the actual beneficial uses of the water. The numeric standards are assigned to determine the allowable concentrations of various parameters. Discharge permits will be issued by the Water Quality Control Division to comply with basic, narrative, and numeric standards and control regulations so that all discharges to waters of the state protect the classified uses. It is intended that these and all other stream classifications and numeric standards be used in conjunction with and be an integral part of Regulation No. 31 Basic Standards and Methodologies for Surface Water.

### 38.3 INTRODUCTION

These regulations and Tables present the classifications and numeric standards assigned to stream segments listed in the attached Tables (See Appendix 38-1). As additional stream segments are classified and numeric standards for this drainage system are adopted, they will be added to or replace the numeric standards in the Tables in Appendix 38-1. Any additions or revisions of classifications or numeric standards can be accomplished only after public hearing by the Commission and proper consideration of evidence and testimony as specified by the statute and the "basic regulations".

### 38.4 DEFINITIONS

See the Colorado Water Quality Control Act and the codified water quality regulations for definitions.

### 38.5 BASIC STANDARDS

#### (1) Temperature

All waters of the South Platte, Laramie, Republican and Smoky Hill River Basins are subject to the following standard for temperature. (Discharges regulated by permits, which are within the permit limitations, shall not be subject to enforcement proceedings under this standard.) Temperature shall maintain a normal pattern of diurnal and seasonal fluctuations with no abrupt changes and shall have no increase in temperature of a magnitude, rate, and duration deemed deleterious to the resident aquatic life. This standard shall not be interpreted or applied in a manner inconsistent with section 25-8-104, C.R.S.

(2) Qualifiers

See Basic Standards and Methodologies for Surface Water for a listing of organic standards at 31.11 Table B and metal standards found at 31.16 Table III. The column in the tables headed "Water + Fish" are presumptively applied to all Aquatic Life Class 1 streams which also have a Water Supply classification, and are applied to Aquatic Life Class 2 streams which also have a Water Supply classification, on a case-by-case basis as shown in Appendix 38-1. The column in the tables at 31.11 headed "Fish Ingestion" is presumptively applied to all Aquatic Life Class 1 streams which do not have a Water Supply classification, and are applied to Aquatic Life Class 2 streams which do not have a Water Supply classification, on a case-by-case basis, as shown in Appendix 38-1.

(3) Uranium

- (a) All waters of the South Platte River Basin are subject to the following basic standard for uranium, unless otherwise specified by a water quality standard applicable to a particular segment. However, discharges of uranium regulated by permits which are within these permit limitations shall not be a basis for enforcement proceedings under this basic standard.
- (b) Uranium level in surface waters shall be maintained at the lowest practicable level.
- (c) In no case shall uranium levels in waters assigned a Water Supply classification be increased by any cause attributable to municipal, industrial, or agricultural discharges so as to exceed 16.8-30 µg/L or naturally-occurring concentrations (as determined by the State of Colorado), whichever is greater.
  - (i) The first number in the 16.8-30 µg/L range is a strictly health-based value, based on the Commission's established methodology for human health-based standards. The second number in the range is a maximum contaminant level, established under the federal Safe Drinking Water Act that has been determined to be an acceptable level of this chemical in public water supplies, taking treatability and laboratory detection limits into account. Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range. Water bodies will be considered in attainment of this standard, and not included on the Section 303(d) List, so long as the existing ambient quality does not exceed the second number in the range.

(4) Nutrients

See Basic Standards and Methodologies for Surface Water at 31.17 for a listing of chlorophyll a, total nitrogen, and total phosphorus standards for lakes and reservoirs (Table V) and rivers and streams (Table VI). As described in 31.17(2), total nitrogen and total phosphorus standards will be considered for adoption in phases.

Prior to December 31, ~~2022~~ for chlorophyll a and prior to December 31, 2027 for, total nitrogen and total phosphorus, interim nutrient values will be considered for adoption only in the limited circumstances defined at 31.17~~(e), (f), and (g). These~~2)(a)(i) and (ii). For lakes and reservoirs, these circumstances include ~~headwaters, waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities (31.17(2)(a)(i)(A)), waterbodies with a~~ Direct Use Water Supply (DUWS) Lakes and Reservoirs, sub-classification (31.17(2)(a)(i)(B)), waterbodies with public swim beaches (31.17(2)(a)(i)(C)), and other special circumstances determined by the

Commission. ~~After December 31, 2022, total nitrogen will be considered for adoption per the (31.17(2)(a)(i)(D)). For rivers and streams, these circumstances outlined in 31.17(g) and (h).~~

~~Prior to December 31, 2027, nutrient criteria will be adopted for headwaters on a segment by segment basis for the South Platte River Basin. Moreover, pursuant to 31.17(e), nutrient standards will only be adopted for waters upstream of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, and any non-domestic include waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012. The (31.17(2)(a)(ii)(A)) and other special circumstances determined by the Commission (31.17(2)(a)(ii)(B)).~~

Pursuant to 31.17(2)(a)(i)(A) and 31.17(2)(a)(ii)(A), the following is a list of all permitted domestic wastewater treatment facilities discharging prior to May 31, 2012 or with preliminary effluent limits requested prior to May 31, 2012, cooling tower discharges, and any non-domestic facilities subject to Regulation 85 effluent limits and discharging prior to May 31, 2012 in the South Platte River Basin:

Prior to December 31, 2027:

- For segments located entirely above these facilities, ~~nutrient~~total nitrogen and total phosphorus standards apply to the entire segment.
- For segments with portions downstream of these facilities, ~~nutrient~~total nitrogen and total phosphorus standards only apply above these facilities, except where a waterbody has a DUWS sub-classification or public swim beach. A note was added to the total phosphorus and ~~chlorophyll-a~~total nitrogen standards in these segments. The note references the table of qualified facilities at 38.5(4).

- For segments located entirely below these facilities, ~~nutrient~~total nitrogen and total phosphorus standards do not apply, except where a waterbody has a DUWS sub-classification or public swim beach.
- Additionally, for segments with portions downstream of these facilities or for segments located entirely below these facilities, total nitrogen and total phosphorus standards may apply where special circumstances have been identified by the Commission (31.17(2)(a)(i)(D) and 31.17(2)(a)(ii)(B)).

~~A note was added to the total phosphorus and chlorophyll a standards in lakes segments as nutrients standards apply only to lakes and reservoirs larger than 25 acres surface area.~~

## 38.6 TABLES

### (1) Introduction

The numeric standards for various parameters in this regulation and in the tables in Appendix 38-1 were assigned by the Commission after a careful analysis of the data presented on actual stream conditions and on actual and potential water uses. For each parameter listed in the tables in Appendix 38-1, only the most stringent standard is shown. Additional, less stringent standards may apply to protect additional uses and can be found in the tables in Regulation No. 31.

Numeric standards are not assigned for all parameters listed in the tables in Regulation No. 31. If additional numeric standards are found to be needed during future periodic reviews, they can be assigned by following the proper hearing procedures.

### (2) Abbreviations

(a) The following abbreviations are used in this regulation and in the tables in Appendix 38-1:

ac	=	acute (1-day)
AEL	=	alternative effluent limit
°C	=	degrees Celsius
ch	=	chronic (30-day)
CL	=	cold lake temperature tier
CLL	=	cold large lake temperature tier
CS-I	=	cold stream temperature tier one
CS-II	=	cold stream temperature tier two
DM	=	daily maximum temperature
D.O.	=	dissolved oxygen
DUWS	=	direct use water supply
<i>E. coli</i>	=	<i>Escherichia coli</i>
mg/L	=	milligrams per liter
MWAT	=	maximum weekly average temperature
OW	=	outstanding waters
sp	=	spawning
SSE	=	site-specific equation
T	=	total recoverable
t	=	total
tr	=	trout
TVS	=	table value standard
µg/L	=	micrograms per liter
UP	=	use-protected
WL	=	warm lake temperature tier
WS	=	water supply
WS-I	=	warm stream temperature tier one
WS-II	=	warm stream temperature tier two

WS-III = warm stream temperature tier three

(b) In addition, the following abbreviations are used:

Iron (chronic) = WS  
Manganese (chronic) = WS  
Sulfate (chronic) = WS

These abbreviations mean: For all surface waters with an actual water supply use, the less restrictive of the following two options shall apply as numerical chronic standards, as specified in the Basic Standards and Methodologies at 31.11(6);

- (i) existing quality as of January 1, 2000; or
- (ii) 

Iron	=	300 µg/L (dissolved)
Manganese	=	50 µg/L (dissolved)
Sulfate	=	250 mg/L (dissolved)

For all surface waters with a Water Supply classification that are not in actual use as a water supply, no Water Supply standards are applied for iron, manganese or sulfate, unless the Commission determines as the result of a site-specific rulemaking hearing that such standards are appropriate.

(c) Temporary Modification for Water + Fish Chronic Arsenic Standard

- (i) The temporary modification for chronic arsenic standards applied to segments with an arsenic standard of 0.02 µg/L that has been set to protect the Water + Fish qualifier is listed in the Other column in Appendix 38-1 tables as As(ch)=hybrid.
- (ii) For discharges existing on or before 6/1/2013, the temporary modification is: As(ch)=current condition, expiring on 12/31/2024. Where a permit for an existing discharge is reissued or modified while the temporary modification is in effect, the division will include additional permit Terms and Conditions, which may include requirements for additional monitoring, source identification, and characterization of source control and treatment options for reducing arsenic concentrations in effluent.
- (iii) For new or increased discharges commencing on or after 6/1/2013, the temporary modification is: As(ch)=0.02-3.0 µg/L (total recoverable), expiring on 12/31/2024.
  - (a) The first number in the range is the health-based water quality standard previously adopted by the Commission for the segment.
  - (b) The second number in the range is a technology-based value established by the Commission for the purpose of this temporary modification.
  - (c) Control requirements, such as discharge permit effluent limitations, shall be established using the first number in the range as the ambient water quality target, provided that no effluent limitation shall require an "end-of-pipe" discharge level more restrictive than the second number in the range.

(3) Table Value Standards

In certain instances in the tables in Appendix 38-1, the designation “TVS” is used to indicate that for a particular parameter a “table value standard” has been adopted. This designation refers to numerical criteria set forth in the Basic Standards and Methodologies for Surface Water. The criteria for which the TVS are applicable are on the following table.

**TABLE VALUE STANDARDS**  
(Concentrations in µg/L unless noted)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>				
Aluminum(T)	Acute = $e^{(1.3695 \ln(\text{hardness}) + 1.8308)}$ pH equal to or greater than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ pH less than 7.0 Chronic = $e^{(1.3695 \ln(\text{hardness}) - 0.1158)}$ or 87, whichever is more stringent				
Ammonia <sup>(4)</sup>	Cold Water = (mg/L as N)Total $acute = \frac{0.275}{1 + 10^{7.204 - pH}} + \frac{39.0}{1 + 10^{pH - 7.204}}$ $chronic = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ Warm Water = (mg/L as N)Total $acute = \frac{0.411}{1 + 10^{7.204 - pH}} + \frac{58.4}{1 + 10^{pH - 7.204}}$ $chronic (Apr 1 - Aug 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN(2.85, 1.45 * 10^{0.028(25 - T)})$ $chronic (Sep 1 - Mar 31) = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$				
Cadmium	Acute(warm) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.443)}$ Acute(cold) <sup>(5)</sup> = $(1.136672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.9789 \ln(\text{hardness}) - 3.866)}$ Chronic = $(1.101672 - (\ln(\text{hardness}) * 0.041838)) * e^{(0.7977 \ln(\text{hardness}) - 3.909)}$				
<u>Chlorophyll a<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation and Direct Use Water Supply (DUWS).</u>				
Chromium III <sup>(Z6)</sup>	Acute = $e^{(0.819 \ln(\text{hardness}) + 2.5736)}$ Chronic = $e^{(0.819 \ln(\text{hardness}) + 0.5340)}$				
Chromium VI <sup>(Z6)</sup>	Acute = 16 Chronic = 11				
Copper	Acute = $e^{(0.9422 \ln(\text{hardness}) - 1.7408)}$ Chronic = $e^{(0.8545 \ln(\text{hardness}) - 1.7428)}$				
Lead	Acute = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 1.46)}$ Chronic = $(1.46203 - (\ln(\text{hardness}) * 0.145712)) * e^{(1.273 \ln(\text{hardness}) - 4.705)}$				
Manganese	Acute = $e^{(0.3331 \ln(\text{hardness}) + 6.4676)}$ Chronic = $e^{(0.3331 \ln(\text{hardness}) + 5.8743)}$				
Nickel	Acute = $e^{(0.846 \ln(\text{hardness}) + 2.253)}$ Chronic = $e^{(0.846 \ln(\text{hardness}) + 0.0554)}$				
<u>Nitrogen<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>				
<u>Phosphorus<sup>(6)</sup></u>	<u>See 31.17 TVS for Aquatic Life and/or Recreation.</u>				
Selenium <sup>(8Z)</sup>	Acute = 18.4 Chronic = 4.6				
Silver	Acute = $0.5 * e^{(1.72 \ln(\text{hardness}) - 6.52)}$ Chronic = $e^{(1.72 \ln(\text{hardness}) - 9.06)}$ Chronic(Trout) = $e^{(1.72 \ln(\text{hardness}) - 10.51)}$				
Temperature	TEMPERATURE TIER	TIER CODE	SPECIES EXPECTED TO BE PRESENT	APPLICABLE MONTHS	TEMPERATURE STANDARD (°C) (MWAT) (DM)

PARAMETER <sup>(1)</sup>	TABLE VALUE STANDARDS <sup>(2)(3)</sup>					
	Cold Stream Tier I <sup>(98)</sup>	CS-I	brook trout, cutthroat trout	June – Sept.	17.0	21.7
				Oct. - May	9.0	13.0
	Cold Stream Tier II <sup>(98)</sup>	CS-II	all other cold-water species	April – Oct.	18.3	24.3
				Nov. - March	9.0	13.0
	Cold Lake <sup>(109)</sup>	CL	brook trout, brown trout, cutthroat trout, lake trout, rainbow trout, Arctic grayling, sockeye salmon	April – Dec.	17.0	21.2

			Jan. - March	13.1	24.1	
Uranium	Acute = e <sup>(1.1021*ln(hardness)+2.7088)</sup> Chronic = e <sup>(1.1021*ln(hardness)+2.2382)</sup>					
Zinc	Acute = 0.978*e <sup>(0.9094*ln(hardness)+0.9095)</sup> Chronic = 0.986*e <sup>(0.9094*ln(hardness)+0.6235)</sup>					

TABLE VALUE STANDARDS - FOOTNOTES

- (1) Metals are stated as dissolved unless otherwise specified. Nitrogen and phosphorus standards are based upon the concentration of total nitrogen and total phosphorus.
- (2) Hardness values to be used in equations are in mg/L as calcium carbonate and shall be no greater than 400 mg/L except for aluminum for which hardness shall be no greater than 220 mg/L. The hardness values used in calculating the appropriate metal standard should be based on the lower 95 per cent confidence limit of the mean hardness value at the periodic low flow criteria as determined from a regression analysis of site-specific data. Where insufficient site-specific data exists to define the mean hardness value at the periodic low flow criteria, representative regional data shall be used to perform the regression analysis. Where a regression analysis is not appropriate, a site-specific method should be used. In calculating a hardness value, regression analyses should not be extrapolated past the point that data exist.
- (3) Both acute and chronic numbers adopted as stream standards are levels not to be exceeded more than once every three years on the average.

- (4) For acute conditions the default assumption is that salmonids could be present in cold water segments and should be protected, and that salmonids do not need to be protected in warm water segments. For chronic conditions, the default assumptions are that early life stages could be present all year in cold water segments and should be protected. In warm water segments the default assumption is that early life stages are present and should be protected only from April 1 through August 31. These assumptions can be modified by the Commission on a site-specific basis where appropriate evidence is submitted. The "T" in the chronic equations stands for temperature.
- (5) The acute(warm) cadmium equation applies to segments classified as Aquatic Life Warm Class 1 or 2. The acute(cold) cadmium equation applies to segments classified as Aquatic Life Cold Class 1 or 2.
- (6) For lakes and reservoirs, the chlorophyll a, total nitrogen, and total phosphorus standards for Aquatic Life and Recreation apply only to lakes and reservoirs greater than 25 acres in surface area. The chlorophyll a standard for Direct Use Water Supply (DUWS) applies to lakes and reservoirs of any size.
- (76) Unless the stable forms of chromium in a waterbody have been characterized and shown not to be predominantly chromium VI, data reported as the measurement of all valence states of chromium combined should be treated as chromium VI. In addition, in no case can the sum of the concentrations of chromium III and chromium VI or data reported as the measurement of all valence states of chromium combined exceed the water supply standards of 50 µg/L chromium in those waters classified for domestic water use.
- (87) Selenium is a bioaccumulative metal and subject to a range of toxicity values depending upon numerous site-specific variables.
- (98) Mountain whitefish-based summer temperature criteria [16.9 (ch), 21.2 (ac)] apply when and where spawning and sensitive early life stages of this species are known to occur.
- (109) Lake trout-based summer temperature criteria [16.6 (ch), 22.4 (ac)] apply where appropriate and necessary to protect lake trout from thermal impacts.

---

(4) Site-specific Standards, Assessment Locations, and Assessment Criteria

- (a) Upper South Platte Segment 6b, Chatfield Reservoir: Chlorophyll a Assessment Thresholds
- chlorophyll a= 11.2 µg/L, summer average, 1 in 5 year allowable exceedance frequency  
phosphorus(Tot) = 0.035 mg/L, summer average, 1 in 5 year allowable exceedance frequency.
- (b) Upper South Platte Segment 16h: Selenium Standards and Assessment Locations
- Selenium Standards (µg/L):
- West Toll Gate Creek: Selenium(chronic)=50.6, Selenium(acute)=119.2  
East Toll Gate Creek: Selenium(chronic)=14.3, Selenium(acute)=15.9  
Toll Gate Creek: Selenium(chronic)=26.5, Selenium(acute)=29.5
- Selenium Assessment Locations:

- Toll Gate Creek (TG6): Downstream of the confluence of East and West Toll Gate Creeks, at 6<sup>th</sup> Avenue near the gage station.
  - East Toll Gate Creek (ET1): Upstream of the confluence with West Toll Gate Creek, at Chambers Road and 1<sup>st</sup> Avenue.
  - West Toll Gate Creek (WT1): Upstream of the confluence with East Toll Gate Creek, at 2<sup>nd</sup> Avenue.
- (c) Upper South Platte Segment 15 and Middle South Platte Segment 1a: Dissolved Oxygen and Ammonia Standards

Dissolved Oxygen Standards:

Early Life Stage Protection Period (April 1 through July 31)

1-Day <sup>1,2,3</sup>	3.0 mg/L (acute)
7-Day Average <sup>1,4,5</sup>	5.0 mg/L

Older Life Stage Protection Period (August 1 through March 31)

1-Day <sup>1,2</sup>	2.0 mg/L (acute)
7-Day Mean of Minimums <sup>1,6</sup>	2.5 mg/L
30-Day Average <sup>1,4</sup>	4.5 mg/L

Dissolved Oxygen Footnotes

1. For the purposes of determining attainment of the standards, dissolved oxygen measurements shall only be taken in the flowing portion of the stream and at mid-depth, at least six inches above the bottom of the channel. Dissolved oxygen measurements in man-made pools are not to be used for determination of attainment of the standards. All sampling protocols and test procedures shall be in accordance with procedures and protocols approved by the division.
2. During a 24-hour day dissolved oxygen levels are likely to be lower during the nighttime when there is no photosynthesis. The dissolved oxygen levels should not drop below the acute standard (ELS acute standard of 3.0 mg/L or the Older Life Stage (OLS) standards of 2.0 mg/L). However, if during the Early Life Stage (ELS) period multiple measurements are below 3.0 mg/L during the same nighttime period, the multiple measurements shall be considered a single exceedance of the acute standard. For measurements below 2.0 mg/L during either the ELS or the OLS periods, each hourly measurement below 2.0 mg/L shall be considered an exceedance of the acute standards.
3. In July, the dissolved oxygen level may be lower than the 3.0 mg/L acute standard for up to 14 exceedances in any one year and up to a total of 21 exceedances in three years before there is a determination that the acute dissolved oxygen standards is not being met. Exceedances shall be counted as described in Footnote 2.
4. A minimum of four independent daily means must be used to calculate the average for the 7-day average standard. A minimum of eight independent daily means must be used to calculate the average for the

30-day average standard. The four days and the eight days must be representative of the 7-day and the 30-day periods respectively. The daily means shall be the mean of the daily high and low values. In calculating the mean values, the dissolved oxygen saturation value shall be used in place of any dissolved oxygen measurements which exceed saturation.

- 5 For Upper South Platte Segment 15, north of the Lupton Bottoms Ditch diversion, the ELS 7-day average standards for the period July 1 – June 31 shall be 4.6 mg/L.
6. The 7-day mean minimum is the average of the daily minimums measured at the location on each day during any 7-day period.

Ammonia Standards:

Early Life Stage Protection Period (April 1 through July 31)

Ammonia Warm Water = mg/L as N (Total)

Acute = TVS

Chronic =

$$chronic \text{ (Apr 1 – July 31)} = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * MIN \left( 2.85, 1.45 * 10^{0.028(25 - T)} \right)$$

$$chronic \text{ (Aug 1 – Mar 31)} = \left( \frac{0.0577}{1 + 10^{7.688 - pH}} + \frac{2.487}{1 + 10^{pH - 7.688}} \right) * 1.45 * 10^{0.028 * (25 - MAX(T, 7))}$$

- (d) Big Dry Creek Segment 1: Selenium Assessment Locations
  - bdc 1.5: Upstream of Broomfield Wastewater Treatment Plant
  - bdc 2.0: Upstream of Westminster Big Dry Creek Wastewater Treatment Facility
  - bdc 4.5: Upstream of Northglenn Wastewater Treatment Plant
- (e) Big Dry Creek Segment 2 (Standley Lake): Chlorophyll *a* Assessment Thresholds  
Chlorophyll *a* = 4.4 µg/L, Mar-Nov average, 1 in 5 yr allowable exceedance frequency
- (f) Upper South Platte Segment 16i, Sand Creek from Toll Gate Creek to the confluence with the South Platte River: assessment locations for selenium and total mercury

Selenium Standards (µg/L):

Upper: Selenium(chronic)=38.2, Selenium(acute)=45.1

Lower: Selenium(chronic)=9.0, Selenium(acute)=TVS

Selenium Assessment Locations:

- Upper – (SWA): Downstream of the confluence of Sand Creek and Toll Gate Creek approximately 250 meters upstream of the Sand Creek Water Reuse Facility (SCWRF) discharge near the Peoria Street Bridge.
- Lower – (SW1): Above Suncor, approximately 60 meters upstream of the Union Pacific Railroad crossing and upstream of Brighton Boulevard.

Mercury Assessment Locations and Method:

- Sand Creek (SWP) – Downstream of the sheet piling drop structure located near the Brighton Blvd. Bridge.
- Sand Creek (SWP2-1) – Approximately 600 feet downstream of Suncor Outfall 003 and immediately upstream of the Burlington Ditch Siphon.
- Attainment of the standard below Brighton Blvd. shall be assessed using the weighted 85th percentile total mercury concentration from both assessment locations.

(g) Upper South Platte Segment 16g (Marcy Gulch): Selenium assessment

Determination of attainment of the chronic and acute selenium standards will be based on the 85<sup>th</sup> and 95<sup>th</sup> percentile, respectively, of paired samples taken the same day from from the two following locations:

- L29: Marcy Gulch upstream of Santa Fe Drive, immediately upstream of the Centennial Water & Sanitation District WWTF
- L36: Marcy Gulch upstream of the confluence with the South Platte River.

(h) Upper South Platte Segment 16j: Selenium standards (µg/L) and assessment

Lee Gulch: Selenium(chronic)=10, Selenium(acute)=TVS

Little's Creek: Selenium(chronic)=6, Selenium(acute)= TVS

Big Dry Creek: Selenium(chronic)=23, Selenium(acute)=26

Little Dry Creek: Selenium(chronic)=11, Selenium(acute)=TVS

Determination of attainment of the chronic and acute selenium standards will be based on the 85th and 95th percentile, respectively. The selenium assessment locations are:

- Lee Gulch: Upstream of the confluence with the South Platte River
- Little's Creek: Upstream of the confluence with the South Platte River
- Big Dry Creek: Upstream of the confluence with the South Platte River
- Little Dry Creek: Upstream of the confluence with the South Platte River

(i) Cherry Creek Segment 4b: Selenium standards ( $\mu\text{g/L}$ ) and assessment

Upper Cottonwood Creek:

October–February Selenium(acute/chronic)=TVS/14.0  
March–September Selenium(acute/chronic)=TVS/7.1

Lower Cottonwood Creek:

October–February Selenium(acute/chronic)=TVS/5.1  
March–September Selenium(acute/chronic)=TVS

Break between Upper and Lower Cottonwood Creek is at the confluence with Lone Tree Creek.

Upper Lone Tree Creek:

October–February Selenium(acute/chronic)=41.0/37.2  
March–September Selenium(acute/chronic)=19.3/19.0

Lower Lone Tree Creek: Selenium(acute/chronic)=TVS

Break between Upper and Lower Lone Tree Creek is at the ACCWA Lone Tree Facility Outfall.

Upper Windmill Creek: Selenium(acute/chronic)=TVS

Middle Windmill Creek:

October–February Selenium(acute/chronic)=TVS/15.1  
March–September Selenium(acute/chronic)=TVS/8.4

Lower Windmill Creek: Selenium(acute/chronic)=TVS

Break between Upper, Middle and Lower Windmill Creek is at the assessment locations.

Determination of attainment of the chronic and acute selenium standards will be based on the 85th and 95th percentile, respectively.

- Upper Cottonwood Creek: From headwaters to confluence with Lone Tree Creek, to be assessed at CT-P2 — 39.605694, -104.84825. At Peoria St.
- Lower Cottonwood Creek: From confluence with Lone Tree Creek to terminus at Cherry Creek Reservoir, to be assessed at CT2-39.627861, -104.85025. West of Perimeter Road and south of bike path.
- Upper Lone Tree Creek: From headwaters to just above site LTC-3, to be assessed using data from LTC-1 and LTC-2  
LTC-1 — 39.58435, -104.838017. Approximately 0.15 miles N of S. Revere Pkwy.  
LTC-2 — 39.59685, -104.838217. Approximately 10 yards N of E. Peakview Ave.
- Lower Lone Tree Creek: From site LTC-3 to confluence with Cottonwood Creek, to be assessed using data from LTC-3 and LTC-4  
LTC-3 — 39.604817, -104.837083. Below ACWWA Lone Tree facility outfall.  
LTC-4 — 39.614483, 104.840217. Downstream of confluence with Windmill Creek

- Upper Windmill Creek: From Headwaters to WC-1 — Site WC-1-39.574967, -104.830017. West of Potomac St and South of Broncos Pkwy.
  - Middle Windmill Creek: All sites between (but not including) WC-1 and WC-2. WC-1—39.574967, -104.830017. West of Potomac St and South of Broncos Pkwy. WC-2—39.59655, -104.821767. North of Cherry Creek Trail.
  - Lower Windmill Creek: From site WC-2 to confluence with Lone Tree Creek, to be assessed at WC-2-39.59655, -104.821767. North of Cherry Creek Trail.
- (j) Clear Creek Segment 5: Manganese assessment
- Below Woods Creek: West Fork of Clear Creek approximately 0.3 miles downstream of Berthoud Falls (39.771829°, -105.803418°).
  - Mouth of West Fork: West Fork of Clear Creek near County Road 257.
- (k) Big Dry Creek Segments 2, 3, 4a, 4b, 5a, and 5b: Ambient-based Site-specific Radionuclide Standards

The radionuclides listed in the table below shall be maintained at the lowest practical level and in no case shall they be increased by any cause attributable to municipal, industrial, or agricultural practices to exceed the site-specific numeric standards.

Parameter	Segment 2 (Standley Lake) <sup>1</sup>	Segment 3 (Great Western Reservoir) <sup>1</sup>	Segments 4a, 4b, 5a, and 5b <sup>1</sup>
Ambient-based site-specific standards			
Gross Alpha	6	5	NA
Gross Beta	9	12	NA
Plutonium	0.03	0.03	0.15 <sup>2,3</sup>
Americium	0.03	0.03	0.15 <sup>2,3</sup>
Tritium	500	500	500
Uranium	3	4	16.8 µg/L
Other site-specific standards			
Curium	60	60	60
Neptunium	30	30	30

**Radionuclides Footnotes:**

1. Statewide standards also apply for radionuclides not listed above.
2. 0.15 pCi/L Statewide Basic Standards.
3. For plutonium and americium measurements in Segment 4a in Woman Creek and Segment 5 in Walnut Creek, attainment will be assessed based on the results of a 12-month flow-weighted rolling average concentration (computed monthly).

NA = No site-specific standard applies

(l) Upper South Platte Lakes Segment 19: Temperature Standards

Platte Canyon Reservoir:

DM and MWAT = CLL from 1/1 – 2/29  
DM = CLL and MWAT = 25.0 from 3/1 – 12/31

Antero Reservoir:

DM and MWAT = CLL from 1/1 – 3/31  
DM = CLL and MWAT = 19.6 from 4/1 – 12/31

Elevenmile Reservoir:

DM and MWAT = CLL from 1/1 – 3/31  
DM = CLL and MWAT = 19.8 from 4/1 – 12/31

Spinney Mountain Reservoir:

DM and MWAT = CLL from 1/1 – 3/31  
DM = CLL and MWAT = 20.2 from 4/1 – 12/31

Cheesman Reservoir:

DM and MWAT = CLL from 1/1 – 3/31  
DM = CLL and MWAT = 21.9 from 4/1 – 12/31

Strontia Springs Reservoir:

DM and MWAT = CLL from 1/1 – 3/31  
DM = CLL and MWAT = 22.6 from 4/1 – 12/31

Jefferson Lake:

DM and MWAT = CLL from 1/1 – 3/31  
DM = 22.4 and MWAT = 16.6 from 4/1 – 12/31

All other locations DM and MWAT = CL, CLL year-round

(m) Cache la Poudre Segment 18: Temperature Standards

All locations DM and MWAT = CL, CLL from 1/1 – 3/31

Barnes Meadow Reservoir DM = CL and MWAT = 16.6 from 4/1 – 12/31

Chambers Lake DM = 22.4 and MWAT = 16.6 from 4/1 – 12/31

All other locations DM and MWAT = CL, CLL from 4/1 – 12/31

(n) Lower South Platte Segment 3: Temperature Standards

All locations DM and MWAT = WL from 1/1 – 3/31

North Sterling Reservoir DM = WL and MWAT = 26.1 from 4/1 – 12/31

Jumbo Reservoir DM = WL and MWAT = 27 from 4/1 – 12/31

Jackson Reservoir DM = WL and MWAT = 28.1 from 4/1 – 12/31

All other locations DM and MWAT = WL from 4/1 – 12/31

(5) Stream Classifications and Water Quality Standards Tables

The stream classifications and water quality standards tables in Appendix 38-1 are incorporated herein by reference.

The following is information regarding duration and measured form of standards in Appendix 38-1:

- (a) *E. coli* criteria and resulting standards for individual water segments, are established as indicators of the potential presence of pathogenic organisms. Standards for *E. coli* are expressed as a two-month geometric mean. Site-specific or seasonal standards are also two-month geometric means unless otherwise specified.
- ~~(b) All phosphorus standards are based upon the concentration of total phosphorus.~~
- ~~(e**b**)~~ The pH standards of 6.5 (or 5.0) and 9.0 are an instantaneous minimum and maximum, respectively to be applied as effluent limits. In determining instream attainment of water quality standards for pH, appropriate averaging periods may be applied, provided that beneficial uses will be fully protected.
- ~~(e**c**)~~ All mercury standards apply to the total recoverable fraction of all forms, both organic and inorganic, of mercury in water.
- ~~(e**d**)~~ All ammonia, nitrate, and nitrite standards are based upon the concentration reported as nitrogen.

(6) Discharger-specific Variances

- (a) Upper South Platte River Segments 15 and 16i (COSPUS15 and COSPUS16i):

Discharger-Specific Variance, Suncor Energy (U.S.A.) Inc., Commerce City Refinery (CO0001147): Adopted 10/11/2016.

Selenium (acute) = TVS: no limit; Selenium (chronic) = 9: 24 µg/L. Expiration date: 12/31/2023.

- (b) Lower South Platte River Segment 2 (COSPLS02):

Discharger-specific Variance, Town of Crook (COG589015), Adopted 6/13/2022.

Ammonia (acute): Initial AEL=4 lbs/day, Final AEL=3.4 lbs/day;  
Ammonia (chronic): Initial AEL=4 lbs/day, Final AEL=3.4 lbs/day.  
Includes a Pollutant Minimization Program.  
Expiration date: 12/31/2025.

**38.8 – 38.9      RESERVED**

\*\*\*\*\*

**38.106 STATEMENT OF BASIS, SPECIFIC STATUTORY AUTHORITY AND PURPOSE; NOVEMBER 14, 2022 RULEMAKING; FINAL ACTION \_\_\_\_\_; EFFECTIVE DATE APRIL 30, 2023**

The provisions of C.R.S. 25-8-202(1)(a), (b) and (2); 25-8-203; 25-8-204; and 25-8-402; provide the specific statutory authority for adoption of these regulatory amendments. The commission also adopted in compliance with 24-4-103(4) C.R.S. the following statement of basis and purpose.

**BASIS AND PURPOSE**

**A. Revision of Total Nitrogen and Total Phosphorus Table Value Standards for Lakes and Reservoirs at 31.17**

In March 2012, the commission adopted interim numerical nutrient table value standards for chlorophyll *a* to protect the Aquatic Life, Recreation, and Direct Use Water Supply (DUWS) uses and table value standards for total nitrogen and total phosphorus to protect the Aquatic Life and Recreation uses (31.50) in lakes, reservoirs, rivers, and streams. In its July 2016 action letter for the March 2012 rulemaking hearing, EPA recommended revisiting the classification analysis for lakes and reservoirs to account for the variability between lakes (e.g., Cold and Warm lakes), evaluating confounding factors in the stressor-response relationship between nutrients and chlorophyll *a*, and evaluating whether the standards are protective of lakes with a high chlorophyll *a* yield per unit of nutrient.

In this hearing, the commission adopted revised total nitrogen and total phosphorus standards for lakes and reservoirs to address EPA's 2016 recommendations and ensure protective standards are adopted on lakes and reservoirs with Aquatic Life, Recreation, and/or DUWS uses (31.17 Table V). The numeric nutrient standards for total nitrogen and total phosphorus represent growing season (July through September) average concentrations with an allowable exceedance frequency is once in five years, and apply to lakes greater than 25 acres in size and with a residence time of at least 14 days. The commission adopted these standards into Regulation No. 31 and the basin regulations (Regulation Nos. 32-38) in this rulemaking; additional details about the revised total nitrogen and total phosphorus standards for lakes and reservoirs are included in 31.60.

**B. Implementation of Nutrients Table Value Standards**

The commission revised 38.5(4) to reflect the current status of the phased implementation framework for nutrients standards and remove information regarding implementation that concludes December 31, 2022. These revisions included removing language regarding phased implementation of chlorophyll *a* standards for lakes, reservoirs, rivers, and streams, as these standards now apply to all waterbodies with Aquatic Life, Recreation, and/or DUWS uses in Colorado. The information regarding the specific circumstances where nitrogen and phosphorus standards will apply before December 31, 2027 was clarified and includes additional references to 31.17. Also, to be consistent with past practice and the commission's intent in 31.55, the word "headwaters" was replaced with "waterbodies upstream of certain domestic and non-domestic wastewater treatment facilities". Finally, references to new Tables V (nutrients standards for lakes and reservoirs) and VI (nutrients standards for rivers and streams) in 31.17 were also added.

The commission revised the Table Value Standards table in 38.6(3) to include chlorophyll *a*, total nitrogen, and total phosphorus. Instead of replicating the numerical values for these table value standards, the table references 31.17, as 31.17 contains the numeric standards (in Tables V and VI), implementation information, and additional details regarding the phased implementation framework. As part of this change, the commission revised Footnote 1 to specify that the nitrogen and phosphorus standards are based upon the total concentration; this information was previously contained in 38.6(5)(b), which was deleted. Additionally, the commission adopted a new Footnote 6 that clarifies that, with the exception of the chlorophyll *a* standard to protect the DUWS sub-classification, the chlorophyll *a*, total nitrogen, and total phosphorus standards apply only to lakes and reservoirs larger than 25 acres surface

area. The chlorophyll a standard to protect DUWS lakes and reservoirs applies to lakes and reservoirs of all sizes. This information was previously included in the segment tables in Appendix 38-1, but was moved to Footnote 6 for clarity.

**1. Nitrogen and Phosphorus Standards for Lakes, Reservoirs, Rivers, and Streams**

**a. Lakes and Reservoirs**

Adoption of total phosphorus standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). Prior to this rulemaking hearing, total nitrogen standards had not been adopted on any waterbodies. However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of the total phosphorus standards to also include all lake and reservoirs with the DUWS sub-classification and waterbodies with a public swim beach (defined as waterbodies with a natural swimming area per C.R.S § 25-5-801, including having a fee-based cordoned off swim area). The commission also adopted total nitrogen standards on the same set of waterbodies (i.e., waterbodies above certain discharge facilities, site-specific situations where numeric standards were needed to protect uses, DUWS, and swim beaches). Consistent with 31.17, the total phosphorus and total nitrogen standards apply only to lakes and reservoirs greater than 25 acres.

The commission previously adopted the DUWS sub-classification and notation in the Appendix 38-1 tables on several waterbodies in previous rulemaking hearings, but public swim beaches were identified in the current rulemaking. However, it was only necessary to specify the presence of a public swim beach in limited cases, because most public swim beaches in Colorado are also either classified as DUWS or located above certain discharge facilities; waterbodies falling into either of those categories are also assigned nitrogen and phosphorus standards. Therefore, the “Public Swim Beach” notation only needed to be applied to waterbodies where the total nitrogen and total phosphorus standards were only being applied due to the presence of a swim beach. Due to the presence of a public swim beach, the commission adopted total nitrogen and total phosphorus standards, “Public Swim Beach” in the Qualifier column, and a note to specify the swim beach reservoir in the Other column on the following segments:

Upper South Platte River: 6b (COSPUS06b; Chatfield Reservoir)

Cherry Creek: 2 (COSPCH02; Cherry Creek Reservoir)

Bear Creek: 11 (COSPBE11; Big Soda Reservoir)

St. Vrain Creek: 9 (COSPSV09; Union Reservoir)

Lower South Platte River: 3 (COSPLS03; North Sterling Reservoir)

**b. Rivers and Streams**

In rivers and streams, the commission did not adopt total phosphorus standards on any additional river or stream waterbodies or total nitrogen table value standards on any waterbodies, consistent with the phased implementation timeline outlined in 31.17 and 38.5(4).

**c. Formatting of Nitrogen and Phosphorus Standards in Appendix 38-1**

The commission changed how previously-adopted total phosphorus table value standards were presented in the segment tables in Appendix 38-1. Specifically, the table value standards were previously shown as numeric values, which were replaced with “TVS”. Similarly, any total nitrogen or total phosphorus standards adopted in this rulemaking hearing were adopted into the Appendix 38-1 tables as “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

**2. Chlorophyll a Standards for Lakes, Reservoirs, Rivers, and Streams**

The commission made no changes to the chlorophyll a standards to protect Aquatic Life, Recreation, and/or DUWS uses in lakes, reservoirs, rivers, or streams. In addition, the commission made no changes to existing site-specific chlorophyll a standards.

Adoption of chlorophyll a standards was previously limited to specific segments or portions of segments, as outlined in 31.50(VI)(A) (i.e., waterbodies above certain discharge facilities and site-specific situations where numeric standards were needed to protect uses). However, consistent with the phased implementation strategy developed in 2012 (31.50(VI)(A)) and 2017 (31.55), the commission expanded the adoption of chlorophyll a standards to all segments with Aquatic Life, Recreation, and/or DUWS uses.

Specifically, in this rulemaking hearing, the commission adopted the chlorophyll a table value standard of 8 µg/L for all cold water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; 20 µg/L for all warm water lakes or reservoirs (larger than 25 acres) with Aquatic Life or Recreation E, U, or P uses; and 150 mg/m<sup>2</sup> for all cold or warm water streams with a Recreation E, U, or P use. In the segment tables in Appendix 38-1, these table value standards were adopted as “TVS” and any previously-adopted table value standards shown as numeric values were changed to “TVS”. This approach allows the regulation to point directly to 31.17, which has a complete record of information regarding these table value standards.

In addition, the commission adopted the table value standard of 5 µg/L for all lakes or reservoirs (of any size) with DUWS; in Appendix 38-1, these table value standards are shown as “DUWS”. The phased implementation of the chlorophyll a standards adoption is now complete.

**3. Site-specific Standards for Nutrients**

Cherry Creek Segment 7 (COSPCH07): The commission continues to support a phased implementation approach to adoption of nutrient criteria and declined to consider any site-specific standards during this rulemaking. However, evidence on the record attests that consideration of site-specific standards on some segments may be warranted in future commission reviews of water quality standards and classifications. Parker Water and Sanitation District (PWSD) submitted data indicating that an alternative chlorophyll a standard may be appropriate to protect the Direct Use Water Supply use for Rueter-Hess Reservoir (COSPCH07) based on site-specific relationships between chlorophyll a, dissolved organic carbon, and disinfection byproducts (PWSD Exhibit XX).

The commission appreciates the efforts of PWSD to obtain, and make available for this hearing, data that improve the understanding of existing conditions within and treatment of raw water from Rueter-Hess Reservoir and understands that PWSD will not face unreasonable consequences by delaying consideration of any appropriate revisions to the chlorophyll a standard to a future date. The division is committed to supporting PWSD’s efforts to develop an appropriate site-specific standard for Rueter-Hess Reservoir as resources become available and practical implications are considered. The division’s efforts to support the development of a site-specific standard will

include coordination of interdisciplinary staff from across the division, including drinking water, engineering, and water quality, as well as the toxicology and environmental epidemiology office.

#### **4. Control Regulations**

The commission may consider revised site-specific nutrients standards for the following lake and reservoir segments that have existing nutrient control regulations in future rulemaking hearings if information to support appropriate and protective revisions is developed:

Upper South Platte River: 6b (COSPUS06b; Chatfield Reservoir)

Cherry Creek: 2 (COSPC02; Cherry Creek Reservoir)

*[This text is in development and will be included in Consolidated Proposal]*

#### **C. Clarifications and Corrections**

The following edits were made to Appendix 38-1 to improve clarity and correct errors:

- The Direct Use Water Supply (DUWS) references in segments in Appendix 38-1 were revised to improve clarity and consistency.
- In Appendix 38-1, on Middle South Platte River Segment 8 (COSPMS08), the notes in the "Other" column regarding chlorophyll *a* and phosphorus standards applying only above facilities listed in 38.5(4) are unnecessary. These notes were adopted in error, as the only waterbody in this segment (Riverside Reservoir) is not below any facilities listed in 38.5(4).

# Notice of Proposed Rulemaking

**Tracking number**

2022-00606

**Department**

1100 - Department of Labor and Employment

**Agency**

1101 - Division of Labor Standards and Statistics (Includes 1103 Series)

**CCR number**

7 CCR 1103-6

**Rule title**

PREVAILING WAGE AND RESIDENCY (PWR) RULES

## Rulemaking Hearing

**Date**

11/01/2022

**Time**

03:00 PM

**Location**

633 17th Street, 12th Floor, Denver, CO 80202

**Subjects and issues involved**

Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6. The Prevailing Wage and Residency Rules is a revised rule set combining the Divisions existing rule set regarding the Keep Jobs in Colorado Act (KJICA), C.R.S. § 8-17-101 et seq. (previously titled the Keep Jobs in Colorado Act Rules), with a new set of requirements from the Colorado Quality Apprenticeship Training Act of 2019 (Prevailing Wage Act or PWA), C.R.S. § 24-92-201 et seq.

**Statutory authority**

These Rules are issued under the authority, and as enforcement, of Articles 1, 4 and 17 of C.R.S. (Colorado Revised Statutes) Title 8 (2022), and Article 92 of C.R.S. Title 24, including but not limited to statutes listed in the Prevailing Wage and Residency Rules (PWR), Rule 1.1 (incorporated into this Part II), and are intended to be consistent with the State Administrative Procedures Act, C.R.S. § 24-4-101, et seq.

# DEPARTMENT OF LABOR AND EMPLOYMENT

## Division of Labor Standards and Statistics

### KEEP JOBS IN COLORADO ACT RULESPREVAILING WAGE AND RESIDENCY (PWR) RULES

#### 7 CCR 1103-6

##### Rule 1. Statement of Purpose; Dual Jurisdiction; Separability

- 1.1** ~~The general purpose of the Keep Jobs in Colorado Act Rules is to implement the provisions of C.R.S. § 8-17-101 et seq. These rules are adopted pursuant to the Division of Labor Standards and Statistics' authority in C.R.S. § 8-1-107(2)(p), § 8-1-103(3), § 8-1-111, and § 8-17-101, et seq.~~ The general purpose of these Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6, is to exercise the authority of this Division to administer and enforce the Keep Jobs in Colorado Act (KJICA), C.R.S. Title 8, Article 17, C.R.S. § 8-17-101 et seq., and the Colorado Quality Apprenticeship Training Act of 2019, C.R.S. Title 24, Article 92, Part 2, C.R.S. § 24-92-201 et seq. (Prevailing Wage Act). These rules are issued under the authority and as enforcement of Articles 1, 4, 6, 17, and 24 of C.R.S. Title 8 (2023); C.R.S. § 24-92-209(7); and C.R.S. §§ 8-17-104 and -106; and are intended to be consistent with the State Administrative Procedures Act, C.R.S. § 24-4-101, et seq.
- 1.2** Incorporations by Reference. Hereby incorporated by reference into these PWR Rules are Title 8, Articles 1, 4, 6, and 17 of the Colorado Revised Statutes (C.R.S.) (2023); Title 24, Article 92, of the C.R.S.; the Wage Protection Rules, 7 CCR 1103-7 (2023); the Colorado WARNING Rules, 7 CCR 1103-11 (2023); and the Davis Bacon Act and its implementing regulations, 40 U.S.C. § 3141 et seq. Earlier versions of such laws and rules may apply to events that occurred in prior years. Incorporation excludes later amendments to or editions of the constitution, statutes, and rules; all cited laws are incorporated in the forms that are in effect as of the effective date of these Rules. Where these Rules reference another rule, the reference shall be deemed to include all subparts of the referenced rule. Where these Rules have provisions different from or contrary to any incorporated or referenced material, the provisions of these Rules govern, so long as they are consistent with Colorado statutory and constitutional provisions. Except where any of these Rules, or any other Colorado rules or statutes, provide otherwise, these Rules, as well as the Acts that these rules implement and enforce (KJICA and Prevailing Wage Act), should be interpreted consistently with the federal Davis-Bacon Act and its implementing regulations, 40 U.S.C. § 3141 et seq. All sources cited or incorporated by reference are available for public inspection at the Colorado Department of Labor and Employment, Division of Labor Standards & Statistics, 633 17th Street, Denver CO 80202. Copies may be obtained from the Division at a reasonable charge or can be accessed from the website of the Colorado Secretary of State. Pursuant to C.R.S. § 24-4-103(12.5)(b), the agency shall provide certified copies of them at cost upon request or provide the requestor information on how to obtain a certified copy of the material incorporated by reference from the agency originally issuing them. All Division rules are publicly available at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov).
- 1.3** Administration and Dual Jurisdiction. The Division shall have jurisdiction over all questions arising with respect to the administration and interpretation of these Rules. Pursuant to C.R.S. § 24-92-202(3), the Department of Personnel and Administration (DPA) may promulgate additional rules applicable to rights under C.R.S. Title 24, Article 92, Part 2. Given the remedial purposes of the Prevailing Wage Act, in the event of any conflict between the DPA's rules and these Rules, the rule(s) providing greater protection for the rights of employees shall govern. Whenever employers are subject to both Colorado and federal and/or local law, the law providing the greater protection or setting the higher standard shall apply. For information on federal law, contact the U.S. Department of Labor, Wage and Hour Division.

- 1.4 Separability. These Rules are intended to remain in effect to the maximum extent possible. If any part (including any section, sentence, clause, phrase, word, or number) is held invalid, (A) the remainder of the Rules remain valid, and (B) if the provision is held not wholly invalid, but merely in need of narrowing, the provision should be retained in narrowed form.

## **Rule 2. Definitions**

- 2.1** Any reference made to “the law” means the Keep Jobs in Colorado Act, C.R.S. § 8-17-101, et seq. “Agency of government” as used in the Prevailing Wage Act, C.R.S. § 24-92-201(1) means any agency, department, division, board, bureau, commission, institution, or section of the state, which is a budgetary unit exercising construction contracting authority or discretion. “Agency of government” does not include any county, city and county, city, municipality, town, school district, special district, or any other political subdivision of the state.
- 2.1.1** “Contracting Agency” is the specific agency of government with which a Contractor or Subcontractor has a contract for a public project.
- 2.2** “Authorized representative” means a person who is designated by a party to a complaint to represent the party during the Division’s complaint and/or appeal process.
- 2.32** “Colorado labor” as used in KJICA, § 8-17-101(2)(a), means labor that is performed on a public project by any person who is a resident of the state of Colorado, at the time of the public works project, without discrimination as to race, color, creed, sex, sexual orientation, marital status, national origin, ancestry, age, or religion, except when sex or age is a bona fide occupational qualification.
- 2.32.1** A resident of the state of Colorado is a person who can provide a valid Colorado driver’s license, a valid Colorado state-issued photo identification, or other documentation showing that the person he or she has resided in Colorado for the last thirty days, and includes any persons who establish residency during the course of the project.
- 2.43** “Contractor” as used in the Prevailing Wage Act, C.R.S. § 24-92-201(2), means any employer, person, entity, individual, partnership, association, corporation, business trust, legal representative, or any organized group of persons that has a contract for a public project with a Contracting Agency.
- 2.53** “Davis Bacon Act” refers to the Davis-Bacon and Related Acts (DBRA), 40 U.S.C. § 3141 et seq. 29 C.F.R. §§ 1, 3, 5, 6, 7, and any related regulat
- 2.64** “Director” means the Director of the Colorado Division of Labor Standards and Statistics, or his or her designee.
- 2.75** “Division” means the Division of Labor Standards and Statistics within the Colorado Department of Labor and Employment.
- 2.86** “Employees” and/or “workers” under KJICA and Prevailing Wage Act.
- 2.8.12.9** Under KJICA, § 8-17-101(2)(a), a “worker” is defined pursuant to the Davis Bacon Act, 29 C.F.R. § 5.2. Workers are those whose duties are manual or physical in nature (including those workers who use tools or who are performing the work of a trade), as distinguished from mental or managerial. The term does not apply to workers whose duties are primarily administrative, executive, or clerical, rather than manual.
- 2.8.2** Under the Prevailing Wage Act, C.R.S. § 24-92-201(4), “employees” are workers who are employees pursuant to the Colorado Wage Act, C.R.S. § 8-4-101(5), and who are

engaged by contractors or subcontractors to perform jobs on various types of public projects, including as mechanics, laborers, or other construction workers.

**2.96** "Fringe benefit", as used in KJICA, C.R.S. § 8-17-105, is defined pursuant to the Davis Bacon Act, 29 C.F.R. § 5.23. Fringe benefit includes the rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to workers pursuant to an enforceable commitment to carry out a financially responsible plan or program which was communicated in writing to the workers affected, for medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing, for unemployment benefits, life insurance, disability and sickness insurance, or accident insurance, for vacation and holiday pay, for defraying costs of apprenticeship or other similar programs, or for other bona fide fringe benefits.

**2.107** "Public works project" or "public project" have the following definitions: shall have the same meaning as "public project" as defined in C.R.S. § 8-19-102(2).

**2.10.1** ~~i. In accordance with Under KJICA, C.R.S. § 8-17-101(2)(b), C.R.S. § 24-103-908(1), and C.R.S. § 24-92-102(8), "public works project" has the same meaning as "public project", and~~ is defined as:

- (A) any public project as defined in C.R.S. § 24-92-102(8), including any construction, alteration, repair, demolition, or improvement of any land, building, structure, facility, road, highway, bridge, or other public improvement suitable for and intended for use in the promotion of the public health, welfare, or safety and any maintenance programs for the upkeep of such projects, including any such project awarded by any county, including any home rule county, municipality, as defined in C.R.S. § 31-1-101(6), school district, special district, or other political subdivision of the state. It does not include any project;
  - i. ~~Public works project under rule 2.7(i)(a) does not include any project~~ for which appropriation or expenditure of moneys may be reasonably expected not to exceed five hundred thousand dollars in the aggregate for any fiscal year.
  - ii. ~~Public works project under rule 2.7(i)(a) does not include any project~~ under the supervision of the department of transportation for which appropriation or expenditure of funds may be reasonably expected not to exceed ~~twoone~~ hundred fifty thousand dollars in the aggregate of any fiscal year.
  - ~~iii.~~ that is financed with any amount of federal money.
- (B) any publicly funded contract for construction entered into by a governmental body of the executive branch of ~~the~~ the state of Colorado which is subject to the "Procurement Code", articles 101 to 112 of title 24, C.R.S.; and
- (C) any highway or bridge construction, whether undertaken by the department of transportation or by any political subdivision of ~~the~~ the state of Colorado, in which the expenditure of funds may be reasonably expected to exceed fifty thousand dollars.

**2.10.2** Under the Prevailing Wage Act, C.R.S. § 24-92-201, "public project" means any construction, alteration, repair, demolition, or improvement of any land, building, structure, facility, road, highway, bridge, or other public improvement suitable for and intended for use in the promotion of public health, welfare, or safety and any operation or

maintenance programs for the operation and upkeep of such projects. "Public project" includes any work, construction, or repair performed by a private party through a contract to rent, lease, or purchase at least fifty percent of the project by one or more agencies of government, and may include projects undertaken pursuant to contracts awarded under Title 24, Article 92, Part 1, C.R.S., or under Title 24, Article 93, C.R.S. Public projects that receive federal funding and public projects whose contracting agency is the Department of Transportation are not subject to the requirements of Title 24, Article 92, Part 2, C.R.S. or these Rules.

**2.118** "Site of the project" as used in KJICA, C.R.S. § 8-17-105, is defined pursuant to the Davis Bacon Act, 29 C.F.R. § 5.2. Site of the project is the physical place or places where the building or work called for in the contract will remain; and any other site where a significant portion of the building or work is constructed, provided that such site is established specifically for the performance of the contract or project.

**2.11.18** Not included in the site of the project are permanent home offices, branch plant establishments, fabrication plants, tool yards, etc., of a contractor or subcontractor whose location and continuance in operation are determined wholly without regard to a particular public works contract or project.

**2.12** A "wage determination" as defined by the Prevailing Wage Act, C.R.S. § 24-92-205(1), is the determination made by the Colorado Department of Personnel and Administration establishing prevailing wage rates for the applicable trade or occupation and the particular geographical locality of the public project. A "wage determination" includes the original decision and any subsequent decisions modifying, superseding, correcting, or otherwise changing the provisions of the original decision.

**2.13** "Wages," "scale of wages," "wage rates," "minimum wages," and "prevailing wages" as defined by the Prevailing Wage Act, C.R.S. § 24-92-201(6), means:

(A) The employee's basic hourly rate of pay;

(B) Any contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a bona fide fringe benefit fund, plan, or program; and

(C) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing bona fide fringe benefits to laborers, mechanics, and other construction workers pursuant to an enforceable commitment to carry out a financially responsible plan or program, which was communicated in writing to the workers affected in advance.

Unless otherwise noted, when used herein, the term "wages" includes fringe benefits, except where it is used to refer to wages as defined in the Colorado Wage Act, C.R.S. § 8-4-101(14).

**2.14** A "willful violation," as defined by the Prevailing Wage Act, C.R.S. § 24-92-209(2)(b), includes an intentional violation and a violation made with reckless disregard or deliberate ignorance of the law. A contractor or subcontractor acts with "reckless disregard" of the requirements of the law if, for example, it should have inquired further into whether its conduct was in compliance with the law and failed to make adequate further inquiry. Whether employees accepted or agreed to accept less than the required rate of wages or voluntarily made refunds is not a defense to willfulness.

~~**2.8** "Site of the project" is defined pursuant to the Davis Bacon Act, 29 C.F.R. § 5.2. Site of the project is the physical place or places where the building or work called for in the contract will remain; and any other site where a significant portion of the building or work is constructed, provided that such site is established specifically for the performance of the contract or project.~~

~~2.8.1~~ Not included in the site of the project are permanent home offices, branch plant establishments, fabrication plants, tool yards, etc., of a contractor or subcontractor whose location and continuance in operation are determined wholly without regard to a particular public works contract or project.

~~2.9~~ "Worker" is defined pursuant to the Davis Bacon Act, 29 C.F.R. § 5.2. Workers are those whose duties are manual or physical in nature (including those workers who use tools or who are performing the work of a trade), as distinguished from mental or managerial. The term does not apply to workers whose duties are primarily administrative, executive, or clerical, rather than manual.

### **Rule 3. Eighty Percent KJICA: The "Colorado Labor" Requirement and Contractor Obligations**

~~3.1~~ Under C.R.S. § 8-17-101(1), workers meeting the Rule 2.3 definition of "Colorado labor" are required ~~Whenever any public works project financed in whole or in part by funds of the state, counties, school districts, or municipalities of the state of Colorado are undertaken in this state, Colorado labor shall be employed to perform at least eighty percent of the work on public projects undertake in the state of Colorado and financed in whole or in part by funds of the state of Colorado or its counties, school districts, or municipalities, unless the requirement is waived by governmental body financing the public works project.~~

3.2 Compliance with Rule 3.1 is measured over the entirety of the completed project, and is determined using the total taxable wages ~~plus and~~ fringe benefits paid to workers meeting the Rule 2.8.1 definition of "Colorado labor," minus any per diem payments made to such workers.

~~3.3~~ In order to meet the Rule 2.3 definition of "Colorado labor," workers must provide contractors with adequate proof of residency.

~~3.3.13.3~~ Each contractor shall retain the documentation required under the law for at least ninety days after the completion of the project.

~~3.32.24~~ Workers who establish residency during the course of the project also qualify as "Colorado labor" under Rule 2.3.

~~3.3.37.2~~ The dDivision assesses the acceptability and validity of residency documentation on a case-by-case basis. The dDivision examines the totality of the circumstances and the evidence provided for each covered worker in the reviewing of residency documentation. Examples of potentially acceptable residency documentation may include, but not limited to:

- (A) valid Colorado's driver's license or ~~valid Colorado~~ state-issued photo identification;
- (B) Colorado voter registration;
- (C) utility or water bill;
- (D) rental lease;
- (E) state income tax returns; and/or
- (F) documentation reflecting ownership of residential real property in Colorado.

~~3.3.43.2.4~~ The following documentation must be provided by the contractor to the dDivision in the event of an investigation:

(A) documentation reflecting the taxable wages and fringe benefits for each covered worker on the public works project; and

(B) the required residency documentation for each covered worker on the public works project.

**3.44.4** The governmental body financing a public works project shall waive the eighty percent requirement if there is reasonable evidence to demonstrate insufficient Colorado labor to perform the work of the project and if compliance with the law would create an undue burden that would substantially prevent a project from proceeding to completion.

**3.4.14.1.1** A governmental body that allows a waiver shall post notice of the waiver and a justification for the waiver on its website.

**3.4.24.1.2** A governmental body shall not impose contractual damages on a contractor for a delay in work due to the waiver process.

**3.55.4** All contracts let for public works financed in whole or in part by funds of the state, counties, school districts, or municipalities of the state of Colorado shall contain provisions for the preference in employment of Colorado labor.

#### **Rule 4. ~~Waivers of the Eighty Percent Colorado Labor Requirement~~**

~~4.1 The governmental body financing a public works project shall waive the eighty percent requirement if there is reasonable evidence to demonstrate insufficient Colorado labor to perform the work of the project and if compliance with the law would create an undue burden that would substantially prevent a project from proceeding to completion.~~

~~4.1.1 A governmental body that allows a waiver shall post notice of the waiver and a justification for the waiver on its website.~~

~~4.1.2 A governmental body shall not impose contractual damages on a contractor for a delay in work due to the waiver process.~~

#### **Rule 4. Prevailing Wage Act: Contractor Payment Obligations**

**4.1** A contractor or subcontractor is required to pay all laborers, mechanics, and other construction workers all wages owed under the Prevailing Wage Act, C.R.S. § 24-92-202(6), no less frequently than once every seven calendar days (not workdays), regardless of any contractual relationship which may be alleged to exist between the contractor or subcontractor and such employees.

**4.2** A contractor or subcontractor may discharge its minimum obligation for the payment of wages as contained in a wage determination by paying all employees the full amount unconditionally and at least once per week, the prevailing wage as defined in Rule 2.13.

**4.3** An employee performing multiple positions with differing prevailing wage rates or classifications must be paid the appropriate wages on the wage determination for the classification(s) of work actually performed, without regard to skill.

#### **Rule 5. Filing and Investigation of Complaints**

##### **5.1 KJICA Complaints**

**5.1.18.4** A person who alleges a potential violation of KJICA may file a complaint with the Division within ninety days after the date the public project was has been completed (not the date that the work was performed).

~~(A)8.1.1~~ Anonymous complaints are not accepted by the ~~D~~ivision.

~~(B)8.1.2~~ Complaints shall be filed using the ~~D~~ivision-approved form, ~~and t~~The complaint shall include the complainant's signature, contact information, and the basis for the complaint. Failure to include this information on the complaint form may result in administrative dismissal of the complaint.

~~8.1.3~~ ~~The complaint shall include the complainant's signature, contact information, and the basis for the complaint. Failure to include this information on the complaint form may result in administrative dismissal of the complaint.~~

~~5.1.28.2~~ Upon the receipt of a ~~KJICA~~ complaint, the ~~D~~ivision shall notify the contractor of the complaint ~~in writing via U.S. mail. In the event that the contractor cannot be contacted via U.S. mail, or other circumstances exist which warrant the use of other contact methods, the division shall utilize other methods to contact the contractor.~~

~~5.1.3~~ Either party may designate an authorized representative to act on its behalf in filing a complaint with the Division. The party may designate an authorized representative by filing the Division-approved form with the Division. The party may revoke the authorized representative's authority by contacting the Division in writing.

~~5.1.48.3~~ The ~~D~~ivision ~~shall~~ commences the investigation only after ~~at the~~ completion of the project.

~~5.1.5~~ The Division investigates KJICA complaints pursuant to the Wage Protection Rules, 7 CCR 1103-7, to the extent not inconsistent with those Rules.

## **5.2 Prevailing Wage Act Complaints**

~~5.2.1~~ An employee, former employee, or contracting agency ("complainant") may file a complaint with the contracting agency for a public project regarding any perceived violation of the prevailing wage requirements of Title 24, Article 92, Part 2 or Rule 4 of these Rules.

~~(A)~~ A complainant may, but is not required to, use the Division's public project prevailing wage complaint form to file a complaint with the contracting agency.

~~(B)~~ Upon receipt of a complaint, the contracting agency shall report the perceived violation to the contractor of the project, and, if applicable, the subcontractor which is the subject of the complaint within 48 hours of being made aware of the alleged violation.

~~(C)~~ If, within fifteen days of being notified of the alleged violation, the contractor or subcontractor (1) demonstrates to the contracting agency that no violation occurred or that any violation was the result of legitimate administrative error and (2) remedies any violation, the complaint shall be dismissed.

~~(D)~~ If the contracting agency determines that a "willful violation" occurred or the contractor or subcontractor fails to remedy any alleged violation within fifteen days of being notified, the contracting agency shall report the violation to the Division. Upon receiving a report of an alleged violation from a contracting agency, the Division will treat the report as a complaint and investigate it pursuant to the Wage Protection Rules, 7 CCR 1103-7, to the extent not inconsistent with those Rules, to determine if the perceived violation was conducted in a willful manner, as defined in Rule 2.14 of these Rules.

**5.2.2** If a complaint is not resolved by either the contracting agency, or the Division, the complaining employee or former employee may file a civil action in court within 120 days from the later of: (1) the employee's complaint to the contracting agency, if it is not resolved under Rule 5.2.1(C) or reported to the Division under Rule 5.2.1(D) of these Rules in that time; or (2) the Division's determination pursuant to Rule 5 of the Wage Protection Rules, 7 CCR 1103-7.

**(A)** Such civil action may be brought in the district court for the county where the alleged violation occurred, the county where the complainant resides, or the county where the person against whom in the civil complaint is filed resides or has their principal place of business, and must be brought within three years after the occurrence of the alleged violation.

**(B)** Such civil action may be brought for appropriate injunctive relief, actual damages, or both, and may be brought by one or more employees or former employees on behalf of him or herself or themselves and other employees similarly situated.

## **Rule 6. Compliance Standard**

**6.1** ~~Compliance with the requirements of the law shall be calculated on the total taxable wages and fringe benefits, minus any per diem payments, paid to workers employed directly on the site of the project and who satisfy the definition of Colorado labor.~~

**6.2** ~~In order for a contractor to be found in compliance, eighty percent of total taxable wages plus fringe benefits must be paid to workers who satisfy the definition of Colorado labor and are employed directly on the site of the public works project.~~

## **Rule 6. Remedies and Fines**

### **6.1 KJICA Remedies and Fines**

**6.1.1** If the Division determines that a contractor has knowingly violated Rule 3, it shall subject the contractor to the following fines:

- (A)** ~~10.2(i)~~ for the first violation, either five thousand dollars or an amount equal to one percent of the cost of the contract, whichever is less;
- (B)** ~~10.2(ii)~~ for the second violation, either ten thousand dollars or an amount equal to one percent of the cost of the contract, whichever is less; or
- (C)** ~~10.2(iii)~~ for the third violation and any subsequent violation thereafter, either twenty-five thousand dollars or an amount equal to one percent of the cost of the contract, whichever is less.

~~10.3~~ If the Division has imposed three or more KJICA fines on a contractor ~~pursuant to the law~~ within the past five years and finds the violations to be egregious, the ~~d~~ Division may initiate the process to debar the contractor pursuant to C.R.S. § 24-109-105.

### **6.2 Prevailing Wage Act Remedies and Fines**

**6.2.1** If the Division reaches a determination pursuant to Rule 5 of the Wage Protection Rules, 7 CCR 1103-7, that a willful violation of Rule 4 of these Rules occurred, the Division may order any remedies permitted by law, including but not limited to that the Division:

- (A)** shall order restitution of applicable back pay for the impacted employees, including damages in an amount equal to the amount of unpaid wages or

benefits owed, and any penalties that may be awarded under the Colorado Wage Act (unpaid fringe benefit contributions owed shall be paid to the appropriate benefit fund, except that in the absence of an appropriate fund the benefit shall be paid directly to the individuals), and

(B) shall subject the contractor to the following fines:

- (1) for the first violation, five thousand dollars;
- (2) for the second violation, ten thousand dollars; and
- (3) for the third violation and all subsequent violations thereafter, twenty-five thousand dollars.

## **Rule 7. Residency Documentation**

~~7.1 — In order for a worker to satisfy the residency requirement, the worker must provide a valid Colorado driver's license, a valid Colorado state issued photo identification, or documentation that he or she has resided in Colorado for the last thirty days prior to his or her first date of work on the public works project.~~

~~7.1.1 — Workers who establish residency during the course of the project may also qualify pursuant to the director's determination.~~

~~7.2 — The division assesses the acceptability and validity of residency documentation on a case by case basis. The division examines the totality of the circumstances and the evidence provided for each covered worker in the review of residency documentation.~~

~~7.2.1 — Examples of acceptable residency documentation include:~~

~~a valid Colorado driver's license, or~~

~~a valid Colorado state issued photo identification.~~

~~7.2.2 — Examples of potentially acceptable residency documentation may include, but are not limited to:~~

~~Colorado voter registration;~~

~~utility bill;~~

~~rental lease;~~

~~state income tax returns;~~

~~ownership of residential real property in Colorado; and/or~~

~~additional documentation which establishes proof of residency in the State of Colorado.~~

## **Rule 7. Retaliation Prohibited**

7.1 It is unlawful to retaliate for filing any complaint, or instituting or causing to be instituted any proceeding, under any law or rule related to wages or hours, including but not limited to these Rules and the statutes they implement, under C.R.S. §§ 8-4-120, 8-6-115, Rules 4.7 – 4.8 of the Wage Protection Rules, 7 CCR 1103-7, and the Colorado WARNING Rules, 7 CCR 1103-11.

## **Rule 8. Complaints**

~~8.1 — A person who alleges a potential violation of the law may file a complaint with the division.~~

- ~~8.1.1 Anonymous complaints are not accepted by the division.~~
- ~~8.1.2 Complaints shall be filed using the division approved form.~~
- ~~8.1.3 The complaint shall include the complainant's signature, contact information, and basis for the complaint. Failure to include this information on the complaint form may result in administrative dismissal of the complaint.~~
- ~~8.2 Upon the receipt of a complaint, the division shall notify the contractor of the complaint in writing via U.S. mail. In the event that the contractor cannot be contacted via U.S. mail, or other circumstances exist which warrant the use of other contact methods, the division shall utilize other methods to contact the contractor.~~
- ~~8.3 The division shall commence the investigation only at the completion of the project.~~
- ~~8.4 The division shall complete any investigation in response to a complaint within ninety days of the date that the division began the investigation.~~
- ~~8.5 Compliance shall be measured over the entirety of the completed project.~~
- ~~8.6 The division shall not investigate or take any other action regarding a complaint filed more than ninety days after the project has been completed.~~

## **Rule 8. Appeals**

- 8.1 A complainant or respondent may appeal a Division determination pursuant to Rule 6 of the Wage Protection Rules, 7 CCR 1103-7. A Division determination is appealable to a hearing officer pursuant to Wage Protection Rule 6, and for judicial review of a hearing officer decision pursuant to C.R.S. § 8-4-111.5 and Wage Protection Rule 6.11. The hearing officer's decision constitutes a final agency action pursuant to C.R.S. § 24-4-106.

## **Rule 9. Investigation Process**

- ~~9.1 Complaints shall be assigned to division investigators. Investigatory methods utilized by the division may include, but are not limited to:~~
- ~~i. interviews of the contractor, subcontractor, complainant, workers, and any other relevant parties;~~
  - ~~ii. information gathering, fact-finding, and reviews of written submissions; and~~
  - ~~iii. any other techniques which enable the division to assess the contractor's compliance with the law.~~

## **~~Rule 10. Compliance Determination and Penalties~~**

- ~~10.1 After investigating the complaint and assessing the contractor's compliance, the division investigator will issue a determination in writing.~~
- ~~10.1.1 The determination will be provided to the contractor in writing.~~
- ~~10.1.2 The determination will contain information on the extent of the contractor's compliance with the law, and will describe what provisions of the law were adhered to and/or violated.~~
- ~~10.1.3 The determination will contain information on appeal rights and appeal procedures.~~

~~10.2—After conducting an investigation of a complaint alleging a violation of the law, if the division determines that a contractor has knowingly violated the requirements by importing labor in excess of that permitted pursuant to the law, the division shall impose a fine on such contractor as follows:~~

- ~~i. for the first violation, five thousand dollars or an amount equal to one percent of the cost of the contract, whichever is less;~~
- ~~ii. for the second violation, ten thousand dollars or an amount equal to one percent of the cost of the contract, whichever is less; or~~
- ~~iii. for the third violation and any violation thereafter, twenty-five thousand dollars or an amount equal to one percent of the cost of the contract, whichever is less.~~

~~10.3—If the division has imposed three fines on a contractor pursuant to the law within five years and finds the violations to be egregious, the division may initiate the process to debar the contractor pursuant to C.R.S. § 24-109-105.~~

~~10.4—The division may dismiss a complaint in its discretion if, after conducting an investigation, the division determines that the circumstances that led to the complaint were the result of a minor paperwork violation.~~

## **Rule 11. Appeals and Hearings**

~~11.1—The determination issued by the investigator may be appealed to the division.~~

~~11.2—A party to the claim who appeals the determination is entitled to an appeal hearing and final agency decision in conformity with the Colorado Administrative Procedure Act, C.R.S. § 24-4-105.~~

~~11.3—A division hearing officer will preside over the hearing.~~

~~11.4—The decision issued by the hearing officer is considered the initial decision.~~

~~11.5—Any party to the claim may appeal the hearing officer's initial decision by filing written exceptions with the director of the division within thirty calendar days of the initial decision in accordance with C.R.S. § 24-4-105(14)(a)(II).~~

~~11.5.1—A party may file written exceptions with the director of the division via email (cdle\_LS\_appeals@state.co.us), fax (303-318-8400), or mail/delivery (633 17th Street, Suite 600, Denver, CO 80202).~~

~~11.5.2—If no party files written exceptions with the director of the division within thirty calendar days of the initial decision, the initial decision shall become the final agency decision.~~

~~11.6—The record on appeal to the director is the division's record of its investigation unless the appealing party files a designation of the record with the division within twenty calendar days of the initial decision in accordance with C.R.S. § 24-4-105(15)(a).~~

~~11.7—The director's decision upon review of any exceptions is the final agency decision. Any party to the claim may seek judicial review of this decision in accordance with C.R.S. § 24-4-106.~~

~~11.8—Failure to file exceptions in accordance with rule 11.5 shall result in a waiver of the right to judicial review of the final agency decision in accordance with C.R.S. § 24-4-105(14)(c).~~

## **Rule 12. Enforcement**

~~12.1—The division shall enforce the requirements of the law in the event of a complaint alleging a potential violation of the requirements of the law.~~

~~12.2—The requirements of the law may not be enforced through a private right of action.~~

### **Rule 13. Revenue Collected From Fines**

~~13.1—The revenue collected from the fines imposed pursuant to C.R.S. § 8-17-104(2) shall be transmitted to the state treasurer, who shall credit the same to the Colorado labor enforcement cash fund, which is hereby created. The general assembly shall make appropriations from the fund as necessary to cover the direct and indirect costs of the division in connection with the requirements of this law. All moneys not expended or encumbered and all interest earned on the investment or deposit of moneys in the fund remains in the fund and does not revert to the general fund or any other fund at the end of any fiscal year.~~

### **Rule 14. Severability**

~~14.1—If any provision of these rules or their application to any person or circumstance is held illegal, invalid, or unenforceable, no other provisions or applications of the rules shall be affected that can be given effect without the illegal, invalid, or unenforceable provision or application, and to this end the provisions of these rules are severable.~~

### **Rule 15. Federal and State Law**

~~15.1—Nothing in the law applies to any project that receives federal moneys. If the public works project is financed with any amount of federal money, the public works project is not covered by the provisions of the law.~~

~~15.2—Nothing in the law contravenes any existing treaty, law, agreement, or regulation of the United States. Contracts entered into in accordance with any treaty, law, agreement, or regulation of the United States do not violate this article to the extent of that accordance.~~

~~15.2.1—The requirements of this law are suspended if such requirement would contravene any treaty, law, agreement, or regulation of the United States, or would cause denial of federal moneys or preclude the ability to access federal moneys that would otherwise be available.~~

## **NOTICE OF PUBLIC HEARING CONCERNING PROPOSED RULES**

Notice is hereby given of a public hearing to afford all interested persons an opportunity to be heard prior to adoption of the below **four sets of proposed rules**, under authority granted to the Division of Labor Standards and Statistics by the Administrative Procedure Act, C.R.S. § 24-4-103, provisions of C.R.S. Title 24, Article 92, and C.R.S. Title 8, Articles 1-4, 6, 12, 13.3, 13.5, 14.4, and 17; and § 15 of Art. XVIII of the Colorado Constitution.

The proposed changes to Colorado labor rules include:

1. Implementing and enforcing three laws recently enacted:
  - (a) Senate Bill 22-161, which amends wage-and-hour responsibilities, mostly with additional responsibilities to pay wages due, including: new procedures for certain kinds of deductions; protection against retaliation related to wage rights; worker misclassification reporting; and various aspects of wage rights enforcement, including new statutory provisions as to fines and penalties, attorney fees for retaliation or higher-value wage claims, collections where ordered payments are not made, and collaboration between DLSS and other branches of state government;
  - (b) Senate Bill 22-097, which amends whistleblower retaliation rights and responsibilities to cover a range of health and safety matters, not just those related to a public health emergency;
  - (c) Senate Bill 19-196, which requires paying prevailing wages to construction laborers on state public projects.
2. Implementing the annual adjustment of the minimum wage, as mandated by the Colorado Constitution, and other related minimum wage and salary figures adjusted annually; and
3. Other non-substantive or procedural changes to labor rules suggested or proposed, based on stakeholder input or other developments that warrant rule changes.

For the details of each proposed rule, see the text of the accompanying proposed draft rules, as well as the proposed statement of basis and purpose that accompanies each set of rules.

**(1) Wage Protection Rules, 7 CCR 1103-7.** These rules amend the prior version of the Wage Protection Rules, which implement labor laws within the jurisdiction of the Division, including but not limited to the Colorado Wage Act (CWA) as amended by (among other laws) the Wage Protection Act of 2014 (WPA) and Colorado Senate Bill 22-161, C.R.S. § 8-4-101 et seq.; the Healthy Families and Workplaces Act (HFWA) of 2020, C.R.S. § 8-13.3-401 et seq.; and the Agricultural Labor Rights and Responsibilities Act, as codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq.

**(2) Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules (“Colorado WARNING Rules”), 7 CCR 1103-11.** These rules amend the prior version of the Colorado WARNING Rules, the Division’s existing rules governing retaliation, interference, and notice of rights under several Division-enforced statutes.

**(3) 2023 Publication And Yearly Calculation of Adjusted Labor Compensation (“2023 PAY CALC”) Order, 7 CCR 1103-14 (2023).** The PAY CALC Order publishes inflation-adjusted and other annually updating values applied in the Colorado Overtime and Minimum Pay Standards (“COMPS”) Order, 7 CCR 1103-1.

**(4) Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6.** The “Prevailing Wage and Residency Rules” is a revised rule set combining the Division’s existing rule set regarding the Keep Jobs in Colorado Act (KJICA), C.R.S. § 8-17-101 et seq. (previously titled the “Keep Jobs in Colorado Act Rules”), with a new set of requirements from the Colorado Quality Apprenticeship Training Act of 2019 (Prevailing Wage Act or PWA), C.R.S. § 24-92-201 et seq.

**Public Hearing Information:**

Date and Time of Hearing: **Tuesday, November 1, 2022, from 3:00 pm until at least 6:00 pm.** Division will stay until at least 6:00 pm, or longer if by that time anyone still wishes to speak, to assure opportunity for anyone who may wish to attend in the early evening. You need not arrive by a particular time or stay the entire meeting.

Written Comment Deadline for the above rules: **Thursday, November 3, 2022, at 5:00 pm**

The Division is administering this public hearing, and all interested persons are free to offer oral testimony and to listen to part or all of the hearing. However, due to the current public health crisis, **participation will be primarily by remote means**, with limited in-person participation at the Division by RSVP only and subject to (A) space limitations and (B) the possibility of a decision, which would be announced on the [rulemaking page](#) no later than 24 hours before the meeting, as to whether the public health situation permits in-person attendance or requires an exclusively remote hearing. While not required, we request and highly recommend that **anyone interested in oral testimony use this [rulemaking comment form](#) to RSVP**, because at the hearing, after those in person speak, we will then call on those who RSVP'd to speak, followed by testimony from others by remote means. A recording of the public hearing will be publicly posted afterwards on our [rulemaking page](#).

Written comments may be submitted by: 1) our online [rulemaking comment form](#); 2) mail to the below address; 3) fax to 303-318-8400; or 4) email to [michael.primo@state.co.us](mailto:michael.primo@state.co.us). Because **written comments become part of the same record as oral testimony**, and are reviewed by the same officials, **you may submit written comments in lieu of oral testimony**, but are free to participate by both means.

**Instructions for Hearing Participation:** Either of the below options will work to participate, but for orderly administration of participation, and to avoid possible audio feedback, please do not use both simultaneously. *(You do not need to have a Google account to access any of the below means.)*

- (A) **To Participate by Internet, Including Testifying:**  
visit this "Meet" webpage: [meet.google.com/hcx-tpbo-mtr](https://meet.google.com/hcx-tpbo-mtr)
- (B) **To Participate by Phone, Whether to Listen or to Testify:**  
call (US) +1 929-276-0796, and then enter this pin: 807 708 207#
- (C) **To Participate in Person:** (633 17th Street, Denver, CO, 80202, Room 12A on the 12th floor)  
RSVP via our [rulemaking comment form](#) to attend in person.

Please contact [michael.primo@state.co.us](mailto:michael.primo@state.co.us) with any questions about how to access either the public hearing or its recording, or **if you need accommodations or translation services** to attend or participate. This public hearing is held in accordance with the Colorado Administrative Procedure Act, C.R.S. § 24-4-101 et seq., and Colorado Open Meetings Law, C.R.S. § 24-6-401 (2022), to receive any testimony, written, views, or arguments that interested parties wish to submit regarding the proposed rules.

Copies of proposed rules, including redlined copies showing changes from prior versions, and statements of basis and purpose further detailing the proposed rules, are available at [www.ColoradoLaborLaw.gov](http://www.ColoradoLaborLaw.gov) or by request to: **Division of Labor Standards and Statistics, 633 17th Street, Denver, Colorado 80202.**

**STATEMENT OF BASIS, PURPOSE, SPECIFIC STATUTORY AUTHORITY, AND FINDINGS****Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6 (2023), as proposed September 29, 2022; to be followed and replaced by a final Statement at the conclusion of the rulemaking process.**

**I. BASIS:** The Director (“Director”) of the Division of Labor Standards and Statistics (“Division”) has authority to adopt rules and regulations on wage-and-hour and workplace conditions, under the authority listed in Part II, which is incorporated into Part I as well.

**II. SPECIFIC STATUTORY AUTHORITY:** These Rules are issued under the authority, and as enforcement, of Articles 1, 4 and 17 of C.R.S. (Colorado Revised Statutes) Title 8 (2022), and Article 92 of C.R.S. Title 24, including but not limited to statutes listed in the Prevailing Wage and Residency Rules (PWR), Rule 1.1 (incorporated into this Part II), and are intended to be consistent with the State Administrative Procedures Act, C.R.S. § 24-4-101, et seq.

**III. FINDINGS, JUSTIFICATIONS, AND REASONS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(4)(b), the Director finds as follows: **(A)** demonstrated need exists for these rules, as detailed in the findings in Part IV, which are incorporated into this finding as well; **(B)** proper statutory authority exists for the rules, as detailed in the list of statutory authority in Part II, which is incorporated into this finding as well; **(C)** to the extent practicable, the rules are clearly stated so that their meaning will be understood by any party required to comply; **(D)** the rules do not conflict with other provisions of law; and **(E)** any duplicating or overlapping has been minimized and is explained by the Division.

**IV. SPECIFIC FINDINGS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(6), the Director finds as follows. The “Prevailing Wage and Residency (PWR) Rules” is a revised rule set combining existing rules on the Keep Jobs in Colorado Act (“KJICA”), C.R.S. § 8-17-101 et seq. (previously, the “Keep Jobs in Colorado Act Rules”), with new rules on the Colorado Quality Apprenticeship Training Act of 2019 (the “Prevailing Wage Act,” or “PWA”), C.R.S. § 24-92-201 et seq. Below are findings and explanations on the nature and basis of the rules proposed to satisfy the Division’s statutory charge.

**A. Rule 1: Statement of Purpose, Authority, and Construction; and Definitions**

Rules 1.1, 1.2, and 1.4 detail the relationship of these rules to other applicable rules and statutes, and the intent that these Rules remain in effect to the maximum extent possible if any portion is held invalid. Because the Department of Personnel and Administration (“DPA”) may have additional rules applicable to rights and responsibilities under C.R.S. Title 24, Article 92, Part 2, C.R.S. § 24-92-202(3), and because federal or local law may address prevailing wages, Rule 1.3 provides that “[w]henver employers are subject to both Colorado and federal and/or local law, the law providing the greater protection or setting the higher standard shall apply” — as is generally true when multiple labor laws from different jurisdictions or sources apply — including that while the Division has jurisdiction “over all questions arising with respect to the administration and interpretation of these Rules,” in light of the remedial purposes of the PWA, in the event of differences between rules from this Division, DPA, or other sources, “the rule providing greater protection for the rights of employees shall govern.”

**B. Rule 2: Definitions**

Rule 2 defines key terms separately and jointly for the two Acts: some are statutory (e.g., Rules 2.3 and 2.10 incorporate the PWA and KJICA definitions of “employee” and “public project”); others are specific to these rules (e.g.: “contractor”; “site of the project”; “wage determination”; “willful violation”). The “reckless disregard” example in Rule 2.14 “willful violation” is verbatim from the FLSA definition at 29 C.F.R. 578.3(c)(3). Rule 2.9’s definition of fringe benefit, Rule 2.11’s definition of site of the project, and Rule 2.13’s definition of “wage determination” are verbatim from Davis-Bacon regulatory definitions of those terms, 29 CFR § 5.2 (2022), some of which already existed in the prior KJICA rules.

**C. Rule 3: KJICA’s “80% Colorado Labor” Requirement; Contractor Obligations**

Rule 3 combines, consolidates, and simplifies several rules from the prior “Keep Jobs in Colorado Act Rules.” Rule 3.1 describes KJICA’s substantive requirement, at C.R.S. § 8-17-101(1), that workers meeting the Rule 2.3 definition of “Colorado labor” perform at least eighty percent of the work on public projects undertaken in the state of Colorado and financed in whole or in part by funds of the state of Colorado or its counties, school districts, or municipalities, unless the requirement is waived by the governmental body financing the public works project.

Rule 3.2 details how Rule 3.1 compliance is assessed: “measured over the entirety of the completed project, and ...

determined using the total taxable wages and fringe benefits paid to covered workers, minus any per diem payments.”

Rule 3.3 describes the kinds of residency documentation that contractors may rely on to assess whether workers meet the “Colorado labor” requirement.

Rule 3.4 restates statutory language (*i.e.*, C.R.S. § 8-17-101) that the government body may waive the 80% requirement if reasonable evidence demonstrates insufficient Colorado labor to perform the work, and compliance would create an undue burden that would substantially prevent completion of a project. Rule 3.5 restates statutory language (*i.e.*, C.R.S. § 8-17-102) that contracts for public works projects shall contain provisions for the preference of Colorado labor.

**D. Rule 4: Contractor Obligations Under the PWA; Multiple Prevailing Wage Rates**

Rule 4.1 contains the basic PWA requirement, that all contractors and subcontractors must pay employees all wages owed under the PWA, C.R.S. § 24-92-202, on no less than a weekly basis, defined by the rule as “at least once every consecutive seven calendar days, not workdays.”

Rule 4.2 explains how contractors and subcontractors can meet their wage obligations under the PWA, providing that a contractor or subcontractor must pay all employees the full amount listed contained in a wage determination.

Rule 4.3 provides that if employees perform multiple positions with differing prevailing wage rates or classifications, they may be compensated at the rates specified for each classification.

**E. Rule 5: Complaints**

Rule 5 describes how complaints under the KJICA or the PWA can be heard; Rule 5.1 applies to KJICA complaints, and Rule 5.2 applies to PWA complaints.

Rule 5.1, which combined previously numbered rules 8 through 11 under the prior Keep Jobs in Colorado Act Rules, provides information about the complaint process for KJICA complaints.

Rule 5.2.1 details how PWA complaints can be brought either directly to the Division or to a contracting agency; the latter must bring the complaint to the Division if it is not remedied in 15 days, or if it appears to be a willful violation.

Rule 5.2.2 explains the process for a complaining employee or former employee to file a private lawsuit under the PWA: specifically, if a complaint is not resolved by either the contracting agency, or the Division, the complaining employee or former employee may file suit within 120 days from the later of: (1) the employee’s complaint to the contracting agency, if it is not resolved under Rule 5.2.1(C) or reported to the Division under Rule 5.2.1(D) of these Rules in that time; or (2) the Division’s determination, made pursuant to Rule 5 of the Wage Protection Rules, 7 CCR 1103-7.

**F. Rule 6: Determinations and Fines**

Rule 6.1 details the fine schedule for knowing violations of KJICA; it also provides that if the Division has imposed three or more KJICA fines on a contractor within the past five years and finds the violations to be egregious, it may initiate a process to debar the contractor pursuant to C.R.S. § 24-109-105.

Rule 6.2 details the fine schedule for PWA violations, and provides if the Division reaches a determination pursuant to Rule 5 of the Wage Protection Rules, 7 CCR 1103-7, that a willful violation of the PWA occurred, and also provides that the Division shall order restitution of applicable back pay for the impacted employees.

**G. Rule 7: Retaliation Prohibited**

Rule 7.1 recites and restates existing retaliation prohibitions in statutes and rules applicable to prevailing wages.

**H. Rule 8: Appeals**

Rule 8 states that a complainant or respondent filing a KJICA or a PWA complaint may appeal the Division’s determination pursuant to the appeals process in Rule 6 of the Wage Protection Rules, 7 CCR 1103-7.

**V. EFFECTIVE DATE.** If adopted, these rules take effect January 1, 2023, or as soon after as rulemaking completes.

WAGE PROTECTION RULES

## Rulemaking Hearing

**Date**

11/01/2022

**Time**

03:00 PM

**Location**

633 17th Street, 12th Floor, Denver, CO 80202

**Subjects and issues involved**

These rules amend the prior version of the Wage Protection Rules, which implement labor laws within the jurisdiction of the Division, including but not limited to the Colorado Wage Act (CWA) as amended by (among other laws) the Wage Protection Act of 2014 (WPA) and Colorado Senate Bill 22-161, C.R.S. § 8-4-101 et seq.; the Healthy Families and Workplaces Act (HFWA) of 2020, C.R.S. § 8-13.3-401 et seq.; and the Agricultural Labor Rights and Responsibilities Act, as codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq.

**Statutory authority**

Articles 1, 2, 4, 6, 13.3, and 13.5 of Title 8, C.R.S. (2022), and all rules, regulations, investigations, and other proceedings of any kind thereunder, by the Administrative Procedure Act, C.R.S. § 24-4-103, and provisions of Articles 1, 2, 4, 6, 13.3, and 13.5, including but not limited to §§ 8-1-101, 103, 107, 108, 111, 130; §§ 8-4-111, -113; §§ 8-6-102, 104, 105, 106, 108, 109, 111, 116, 117, 120; § 8-12-115; §§ 8-13.3-401, 403-405, 407-411, 416; and § 8-13.5-202, 203, 204.

## DEPARTMENT OF LABOR AND EMPLOYMENT

### Division of Labor Standards and Statistics

#### WAGE PROTECTION RULES

##### 7 CCR 1103-7

As proposed on September 29, 2022; if adopted November 10, 2024, to be effective January 1, 2023.

#### Rule 1. Statement of Purpose and Authority

- 1.1** The general purpose of these Wage Protection Rules (Rules) is to implement labor laws within the jurisdiction of the Division, including but not limited to the Colorado Wage Act (CWA) as amended by the Wage Protection Act (WPA) of 2014, C.R.S. § 8-4-101 et seq., the Healthy Families and Workplaces Act (HFWA) of 2020, C.R.S. § 8-13.3-401 et seq., and the Agricultural Labor Rights and Responsibilities Act, as codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq. These rules are adopted pursuant to the Division's authority to adopt and amend rules and regulations to enforce, execute, apply, and interpret Articles 1, 2, 4, 6, ~~and~~ 13.3, and 13.5 of Title 8, C.R.S. (2023~~2~~), and all rules, regulations, investigations, and other proceedings of any kind thereunder, by the Administrative Procedure Act, C.R.S. § 24-4-103, and provisions of Articles 1, 2, 4, 6, 13.3, and 13.5, including but not limited to §§ 8-1-101, 103, 107, 108, 111, 130; §§ 8-4-111, ~~-113~~; §§ 8-6-102, 104, 105, 106, 108, 109, 111, 116, 117, 120; § 8-12-115; §§ 8-13.3-401, 403-405, 407-411, 416; and §§ 8-13.5-202, 203, 204.
- 1.2** Incorporation by Reference. Title 8, Articles 1, 2, 4, 6, 12, 13.3, and 13.5 of the Colorado Revised Statutes (2023~~2~~) are hereby incorporated by reference, except that earlier versions of such laws and rules may apply to events that occurred in prior years. Such incorporation excludes later amendments to or editions of the statutes. These statutes are available for public inspection at the Colorado Department of Labor and Employment, Division of Labor Standards & Statistics, 633 17th Street, Denver CO 80202. Copies may be obtained from the Division of Labor Standards & Statistics at a reasonable charge. These statutes can be accessed electronically from the website of the Colorado Secretary of State. Pursuant to C.R.S. § 24-4-103(12.5)(b), the agency shall provide certified copies of the statutes incorporated at cost upon request or shall provide the requestor with information on how to obtain a certified copy of the material incorporated by reference from the agency originally issuing the statutes. All Division Rules are available to the public at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov). Where these Rules have provisions different from or contrary to any incorporated or referenced material, the provisions of these Rules govern so long as they are consistent with Colorado statutory and constitutional provisions.
- 1.3** Separability. These Rules are intended to remain in effect to the maximum extent possible. If any part of a rule (including any section, sentence, clause, phrase, word, or number) is held invalid, (A) the remainder of the rule remains valid, and (B) if the provision is held not wholly invalid, but merely in need of narrowing, the provision should be retained in narrowed form.
- 1.4** The Director of the Division of Labor Standards and Statistics in the Department of Labor and Employment (Director) has the authority to enforce the statutes cited in Rule 1.1 above and these Rules.

#### Rule 2. Definitions and Clarifications

- 2.1** "Administrative procedure" means the process used by the Division to investigate wage complaints in accordance with C.R.S. § 8-4-111 and C.R.S. §§ 8-13.3-407(4), -410, and -411.
- 2.2** "Authorized representative" means a person designated by a party to a wage complaint to represent the party during the Division's administrative procedure. To designate an authorized representative, the party must comply with the requirements of Rule 4.3.

- 2.3** “Average daily earnings,” as formerly used in C.R.S. § 8-4-109(3)(b), will be calculated as follows, unless the Division identifies a legitimate reason to use a different method of calculation:
- 2.3.1** The most recent typical workweek or pay period will generally be used to calculate the average daily earnings. The total gross amount of wages and compensation will be divided by the number of days worked.
- 2.3.2** If an employee is entitled to and has been paid less than the Colorado minimum wage, and has not earned more than the Colorado minimum wage, then the Colorado minimum wage will be used to calculate average daily earnings.
- 2.3.3** All compensation paid to employees, including the hourly rate, shift differential, minimum wage tip credit, regularly occurring non-discretionary bonuses, commissions, and overtime may be included in the average daily earnings calculation.
- 2.4** “Certified copy,” as used in C.R.S. § 8-4-113, means a copy of a final Division decision (~~issued and by a compliance investigator, or hearing officer~~) signed by the Director of the Division, or his or her designee (including any Division staff designated to issue such decision), certifying that the document is a true and accurate copy of the final decision. A certified copy must be requested in writing or may be issued by the Division on its own initiative. A Division decision (issued by a compliance investigator or hearing officer) will not be filed in court ~~certified~~ unless: either (1) two weeks have passed since the all appeal deadlines have passed and either (1) no appeal has been filed or (2) if an appeal or other legal challenge was timely filed, the decision was not superseded on appeal nor subject to any order barring the filing or enforcement of a certified copy. A certified copy will not be issued in the event of termination pursuant to C.R.S. § 8-4-111(3).
- 2.5** “Determination” means a decision issued by a compliance investigator upon the conclusion of a wage complaint investigation. “Determination” includes: Citation and Notice of Assessment, Determination of Compliance, and Notice of Dismissal, if that Notice of Dismissal is issued after the Division initiated the administrative procedure as described in Rule 4.4.
- 2.6** “Employee” has the following definitions:
- 2.6.1** Under the CWA, C.R.S. § 8-4-101(5), an “employee” means any person, including a migratory laborer, performing labor or services for the benefit of an employer. For the purpose of these Rules, relevant factors in determining whether a person is an employee include the degree of control the employer may or does exercise over the person and the degree to which the person performs work that is the primary work of the employer; except that an individual primarily free from control and direction in the performance of the service, both under his or her contract for the performance of service and in fact, and who is customarily engaged in an independent trade, occupation, profession, or business related to the service performed is not an “employee.”
- 2.6.2** Under the HFWA, C.R.S. § 8-13.3-402(4), “employee” has the same meaning as in C.R.S. § 8-4-101(5), but does not include an “employee” as defined in 45 U.S.C. § 351(d), who is subject to the federal “Railroad Unemployment Insurance Act,” 45 U.S.C. § 351 et seq. An employee’s “family member” means (1) an employee’s immediate family member, as defined in C.R.S. § 2-4-401(3.7); (2) a child to whom the employee stands in loco parentis or a person who stood in loco parentis to the employee when the employee was a minor; or (3) a person for whom the employee is responsible for providing or arranging health- or safety-related care. C.R.S. § 8-13.3-402(6).
- 2.7** “Employer” has the following definitions:
- 2.7.1** Under C.R.S. § 8-4-101(6), “employer” has the same meaning as in the federal Fair Labor Standards Act at 29 U.S.C. § 203(d), and includes a foreign labor contractor and a

migratory field labor contractor or crew leader; except that the provisions of the COMPS Order do not apply to the state or its agencies or entities, counties, cities and counties, municipal corporations, quasi-municipal corporations, school districts, and irrigation, reservoir, or drainage conservation companies or districts organized and existing under the laws of Colorado. "Foreign labor contractor" and "field labor contractor" have the definitions in C.R.S. §§ 8-4-101(7), (8.5).

- 2.7.2** Under the HFWA, C.R.S. § 8-13.3-402(5), "employer" has the same meaning as in C.R.S. § 8-4-101(6), except that an "employer" also includes the state and its agencies or entities, counties, cities and counties, municipalities, school districts, and any political subdivisions of the state, but does not include the federal government.
- 2.7.3** A "successor employer" is responsible for an acquired employer's HFWA obligations, including but not limited to accrued, requested, or in-progress leave, and "means an employing unit, whether or not an employing unit at the time of acquisition, that ... acquires all of an organization, a trade, or a business[,] or substantially all of the assets[,] of one or more employers subject to" HFWA. C.R.S. § 8-13.3-402(12). Acquiring "substantially all of the assets" of an employer is defined as in 26 U.S.C. § 368(a)(1)(C) and Rev. Proc. 77-37, § 3.01; acquiring "a trade or a business" is defined as in C.R.S. § 8-76-104(11)(c).
- 2.7.4** To determine whether an employer meets the 16-employee threshold for HFWA coverage in 2021 pursuant to C.R.S. § 8-13.3-403(1)(b), the rules for counting employees to determine whether an employer is covered under the federal Family and Medical Leave Act apply: the employer must employ the requisite number of employees "for each working day during each of 20 or more calendar workweeks in the current or preceding calendar year"; "[a]ny employee whose name appears on the employer's payroll will be considered employed each working day of the calendar week, and must be counted whether or not any compensation is received for the week"; "[e]mployees on paid or unpaid leave, including [sick or medical] leave, leaves of absence, disciplinary suspension, etc., are counted as long as the employer has a reasonable expectation that the employee will later return to active employment"; "a corporation is a single employer rather than its separate establishments or divisions"; and employees are counted only if "within ... the United States," including any state, the District of Columbia, or any territory or possession of the United States. 29 CFR §§ 825.104-105.
- 2.8** The "employer's correct address," including as used in C.R.S. § 8-4-101(15), can include, but is not limited to, the employer's email address, the employer's address on file with the Colorado Secretary of State, and the address of the employer's registered agent on file with the Colorado Secretary of State.
- 2.9** When considering whether there is "good cause" for an extension of time, including as used in C.R.S. § 8-4-113(1)(b), the Division will determine whether the reason is substantial and reasonable and must take into account all available information and circumstances pertaining to the specific complaint.
- 2.10** "Post," including as used in C.R.S. § 8-4-107, may include electronic posting in a place readily accessible to all employees.
- 2.11** "Public health emergency" is defined as in C.R.S. § 8-13.3-402(9):
- (A) An act of bioterrorism, a pandemic influenza, or an epidemic caused by a novel and highly infectious agent, for which (1) an emergency is declared by a federal, state, or local public health agency, or (2) a disaster emergency is declared by the Governor; or
  - (B) A highly infectious illness or agent with epidemic or pandemic potential for which a disaster emergency is declared by the Governor.

A public health emergency is “declared” by any initial, amended, extended, restated, or prolonged declaration of an emergency that meets the above definition. Employees have up to 80 hours of supplemental paid sick leave usable as of January 1, 2021, because a public health emergency declared after the HFWA effective date remains in effect long enough to trigger paid leave in 2021 (under HFWA § 405 and Rule 3.5.1(C), distinct from the up to 80 hours of leave provided for 2020 by HFWA § 406 to conform to the federal paid leave law that expires on December 31, 2020). Employees receive their supplement of up to 80 hours of leave usable as of January 1, 2021, under HFWA § 405 only once during the entirety of a public health emergency even if such public health emergency is amended, extended, restated, or prolonged.

- 2.12** “Records reflecting the information contained in an employee’s itemized pay statement,” as used in C.R.S. § 8-4-103(4.5), may be kept electronically. The records are not required to be copies of the pay statements but must reflect all information contained in the pay statements.
- 2.13** “Terminated employee,” as used in C.R.S. § 8-4-105(1)(e)([I](#)), includes any employee separated from employment, whether the separation occurs by volition of the employer or the employee.
- 2.14** The Division may enforce the gratuity provisions described in C.R.S. § 8-4-103(6) through the administrative procedure described in C.R.S. § 8-4-111. The legal treatment of “tips,” “gratuities,” or other monies paid on a similar basis, in any source of law, is identical regardless of the terminology used.
- 2.15** “‘Wages’ or ‘compensation’” has the same meaning as in C.R.S. § 8-4-101(14). “Paid sick leave” required by HFWA constitutes “wages” under C.R.S. § 8-4-101(14); is covered by the provisions of C.R.S. Title 8, Article 4, and these Rules; is defined as paid time off from work that is provided by an employer for one of the qualifying reasons described in C.R.S. §§ 8-13.3-404 to -406. C.R.S. § 8-13.3-402(8)(a),(b).
- 2.16** A “written demand,” including as used in C.R.S. § 8-4-101(15), can be sent to the employer by electronic means, including but not limited to email and text message. Wages must be owed at the time of sending for the written demand to be considered valid. The penalty provisions in C.R.S. § 8-4-109(3)(b) effective on January 1, 2023, shall apply if the 14-day deadline for payment after the sending of a written demand without penalties passes on or after January 1, 2023, unless a prior written demand was sent more than 14 days before January 1, 2023. Notwithstanding the foregoing, when a Notice of Complaint is sent with a 14-day deadline for payment that is on or after January 1, 2023, the passing of that deadline triggers those penalty provisions, regardless of whether a prior written demand was sent before the Notice of Complaint.
- 2.17** Vacation Pay.
- 2.17.1** C.R.S. § 8-4-101(14)(a)(III), includes in the definition of “[w]ages’ or compensation”: “Vacation pay earned in accordance with the terms of any agreement. If an employer provides paid vacation for an employee, the employer shall pay upon separation from employment all vacation pay earned and determinable in accordance with the terms of any agreement between the employer and the employee.” “Vacation pay” is pay for leave, regardless of its label, that is usable at the employee’s discretion (other than procedural requirements such as notice and approval of particular dates), rather than leave usable only upon occurrence of a qualifying event (for example, a medical need, caretaking requirement, bereavement, or holiday).
- 2.17.2** The “earned and determinable in accordance with the terms” provision does not allow a forfeiture of any earned (accrued) vacation pay, but does allow agreements on matters such as: (1) whether there is any vacation pay at all; (2) the amount of vacation pay per year or other period; (3) whether vacation pay accrues all at once, proportionally each week, month, or other period; and (4) whether there is a cap of one year’s worth (or more) of vacation pay. Thus, employers may have policies that cap employees at a year’s worth of vacation pay, but that do not forfeit any of that year’s worth.

For example, an agreement for ten paid vacation days per year:

- (a) *may* provide that employees can accrue more than ten days, by allowing carryover of vacation from year to year;
- (b) *may* cap employees at ten days; but
- (c) may not diminish an employee's number of days (other than due to use by the employee).

**2.18** "Willful," in Articles within C.R.S., Title 8, that this Division enforces or administers, has the same meaning as under 29 U.S.C § 255(a) and 29 C.F.R. § 578.3(c).

**2.19** C.R.S. § 8-4-103(1)(b) describes circumstances under which employers are "subject to the penalties specified in section 8-4-113(1)." Despite use of the word "penalty" in this section, this language does refer to the fine described in C.R.S. § 8-4-113(1) and is payable to the Division.

**2.20** A complaint, appeal, or other submission to the Division is considered "filed" with the Division when it is received by the Division via mail, fax, email, online submission, or personal delivery. Any complaint, appeal, or other submission to the Division received after 11:59 p.m. Mountain Time is considered filed the next business day. Any such submission is considered "signed," or to have a "signature," if it has either an ink signature, a scanned signature, an electronically drawn or generated signature, or a typed name entered by the party or their authorized representative in the signature area; by signing in any such fashion, the individual is deemed to have agreed and assented that the document is signed by them.

**2.21** For purposes of Rule 8, "Division debtor" means any employer, or any other person or entity, who owes wages, fines, or penalties determined by the Division to be due to any employee(s), the Division, or any other party.

**2.221** These Rules are to be read in conjunction with other rules promulgated and enforced by the Division with additional requirements, including but not limited to the Colorado Overtime and Minimum Pay Standards Order ("COMPS Order"), 7 CCR 1103-1, and the Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules ("Colorado WARNING Rules"), 7 CCR 1103-11.

### **Rule 3. Filing a Wage Complaint**

**3.1** An employee who wishes to file a wage complaint with the Division shall use the Division-approved form(s), and shall comply with any other Division instructions as to information or submissions required by the Division.

**3.1.1** A wage complaint may only be filed by the employee who did not receive his or her wages or compensation.

**3.1.2** A wage complaint shall include the employee's signature, employee's contact information, employer's contact information, and basis for the wage complaint. Failure to include this information on the wage complaint form may result in dismissal of the wage complaint.

**3.1.3** The failure of an employee to respond in a timely manner to informational or investigatory requests by the Division may result in dismissal of the wage complaint.

**3.1.4** If a wage complaint is dismissed before a Notice of Complaint is sent to the employer because the employee failed to respond to a Division request for information, the complaint may be reopened if the employee provides the requested information or documentation to the Division within 35 days of the Division's request for information. Employees may be required to file a new complaint if the employee's response is

received more than 35 days after the Division's request for information.

- 3.1.5** The Division shall not accept wage complaints for amounts exceeding \$7,500 per employee.
- 3.1.6** An anonymous complaint is not a "wage complaint" within the meaning of C.R.S. § 8-4-111 and C.R.S. §§ 8-13.3-402(8)(a)(I)-(II), - 407, -410, -411 and will not be investigated using the Division's administrative procedure. The Division may choose to address an anonymous complaint outside of the administrative procedure.
- 3.2** An employee may pursue a wage complaint through either the court system or the Division's administrative procedure.
- 3.2.1** Employees are not required to use the Division's administrative procedure in order to pursue a wage complaint in court.
- 3.2.2** The Division does not have jurisdiction over any wage complaint that has been adjudicated or is currently being adjudicated by a court of competent jurisdiction.
- 3.2.3** As provided by C.R.S. § 8-4-113(2), a certified copy of any citation, notice of assessment, or order imposing wages due, fines, or penalties pursuant to this article may be filed with the clerk of any court having jurisdiction over the parties at any time after the entry of the order. Such a filing can be in a county or district court, and will thereby have the effect of a judgment from which execution may issue.
- 3.3** The employee may withdraw the wage complaint, or their participation in a complaint filed on their behalf as a similarly situated employee, at any time prior to issuance of a determination by notifying the Division in writing.
- 3.4** The Division may exercise its discretion to consolidate complaints, or to have an investigation sequenced and/or divided into two or more stages on discrete questions of liability or relief (e.g., bifurcation), yielding two or more determinations and/or phases of the investigation.
- 3.5** Accrual, use, and other matters relating to paid leave under HFWA.
- 3.5.1** Accrual of HFWA leave. Paid leave begins to accrue at the commencement of employment or on January 1, 2021, whichever is later.
- (A) For the minimum HFWA accrual rate of one hour of leave for every 30 hours worked, up to cap of 48 hours per benefits year (C.R.S. § 8-13.3-403(2)(a)), accrual is based on all "time worked" under Rule 1.9 of the COMPS Order, 7 CCR 1103-1, with regular and overtime hours counting equally; except under C.R.S. § 8-13.3-403(2)(c), an overtime-exempt employee accrues paid leave based on their normal hours worked up to a maximum of forty per week. Once employees have accrued 48 hours of paid leave during the benefit year, they do not accrue more, except if an employer chooses to provide paid leave in a greater amount. C.R.S. §§ 8-13.3-403(2)(a), -413.
- (B) For hours accrual for purposes of C.R.S. § 8-13.3-403(2)(a), the best available, reasonable estimate shall be used for employees paid on a fee-for-service basis for which hours are not ordinarily tracked and cannot feasibly be tracked, except that higher education adjunct faculty paid on a per-credit or per-course basis shall be deemed to work three hours total for each in-class hour.
- (C) On the day a public health emergency is declared within the definition of Rule 2.11, employers are required to immediately provide each employee with additional hours of paid leave, usable as of the date of the declaration, January 1, 2021, or the employee's first date of employment, whichever is later --

whatever the employee has accrued prior to the declaration of the public health emergency at the regular HFWA rate (*i.e.*, one hour per 30 worked, up to a maximum of 48 per benefit year), and a one-time supplement with the number of hours needed for:

- (1) employees who normally work forty or more hours in a week to have access to 80 hours of total paid leave; and
  - (2) employees who normally work under forty hours in a week to have access to paid leave hours that are at least the greater of the number of hours the employee (a) is scheduled for work or paid leave in the fourteen-day period after the leave request, or (b) actually worked in the fourteen-day period prior to the declaration of the public health emergency or the leave request, whichever is later.
- (D) During the entire duration of a public health emergency (*i.e.*, during the time between the date on which the emergency is declared and four weeks after the date of the official termination or suspension of the emergency declaration), employers:
- (1) are required to permit employees to take both (a) the paid leave they have accrued prior to the declaration date of the public health emergency pursuant to C.R.S. § 8-13.3-403(2)(a), for any of the qualifying reasons provided in C.R.S. § 8-13.3-404(1), and (b) the amount of supplemental paid leave that was provided to the employee on the date of the declaration of a public health emergency, for any of the qualifying reasons provided in C.R.S. § 8-13.3-405(3);
  - (2) remain subject to the minimum accrual requirements of C.R.S. § 8-13.3-403(2)(a), and employees continue to accrue paid leave (up to 48 hours per benefit year); and
  - (3) must permit an employee to use the full amount of supplementary leave provided under C.R.S. § 8-13.3-405(1) and this rule, prior to using any of the employee's previously-accrued leave under C.R.S. § 8-13.3-403(2)(a), if an employee required leave in circumstances that qualify under both C.R.S. § 8-13.3-404(1) and C.R.S. § 8-13.3-405(3) (*e.g.*, an employee is experiencing symptoms of a communicable illness that was the subject of the declaration of a public health emergency and needs to obtain testing and treatment).
- (E) Yearly Basis for HFWA leave.
- (1) Carryover. Pursuant to C.R.S. § 8-13.3-403(3)(b), "up to forty-eight hours of paid sick leave that an employee accrues in a year but does not use carries forward to, and may be used in, a subsequent year." For purposes of C.R.S. § 8-13.3-403(3)(b), "year" means "a regular and consecutive twelve-month period as determined by an employer." C.R.S. § 8-13.3-402(13). The employer shall not be required to, but may, permit an employee to carry forward more than forty-eight (48) hours of unused paid leave from one benefit year to the next. C.R.S. §§ 8-13.3-403(3)(b), -413.
  - (2) "Benefit year" definition. The applicable "benefit year" is the period of 12 consecutive months established by an employer in which an employee shall accrue and use earned sick leave. Unless otherwise established by an employer in a written policy, a "benefit year" is the calendar year. If an

employer transitions from one type of year to another, the employer must ensure that the transition process maintains all HFWA rights, and must notify employees in writing of any such changes.

**3.5.2** Pay rate and amount of HFWA leave. Under C.R.S. § 8-13.3-402(8), leave must be paid at the same rate and with the same benefits, including health benefits, as the employee normally earns during hours worked, not including overtime, bonuses, or holiday pay. Leave must be paid on the same schedule as regular wages.

- (A) The pay rate for leave must be at least the applicable minimum wage. The HFWA pay rate shall be calculated based upon the employee's pay over the 30 calendar days prior to taking leave; shall include any set hourly or salary rates, shift differentials, tip credits, and commissions; and shall not include overtime, bonuses, or holiday pay. ~~using the same rules applicable to calculating an employee's "regular rate" under Rule 1.8 of the COMPS Order, 7 CCR 1103-1, except that: (1) bonuses included in the regular rate calculation are excluded from the HFWA pay rate calculation; (2) only the method in COMPS Rule 1.8.3(A) may be used for employees with variable hourly rates, except that the rate is measured over 30 days pursuant to the following subsection (3); and (3) the HFWA regular rate shall be determined based upon the employee's pay over the 30 calendar days prior to taking leave, unless the~~ If an employee has not yet worked 30 calendar days, ~~in which case~~ the longest available period shall be used. The HFWA pay rate for employees covered by Rule 3.5.1(B) shall be calculated in accordance with that Rule.
- (B) The number of hours of paid HFWA leave an employee can take is the number of hours the employer reasonably anticipated they would have worked during the period of the leave, based on: (1) their regular schedule of hours actually worked; (2) or, if leave is during a period the employee was anticipated to depart from a regular schedule, then hours anticipated for that period; (3) or, if the number of hours the employee would have worked during the period cannot be reasonably anticipated, then their average hours worked during their most recent 30 calendar days of work. If an employee has not yet been employed for 30 calendar days, their entitlement must be determined under 3.5.2(B)(1) or (2).
- (C) Indeterminate shifts. If an employee uses paid leave for a shift of indeterminate length (for example, a shift that is defined by business needs rather than a previously specified number of hours), an employer may determine the number of paid leave hours used by the employee based on the number of hours actually worked by a replacement employee in the same shift. If there is no replacement employee for the indeterminate shift, an employer may determine the number of paid leave hours used by the employee based on the number of hours actually worked by the employee for their most similar shift in the past.
- (D) On-call employees are entitled to use paid leave during any hours they have been scheduled to work, including hours among the employee's on-call time that the employer actually requests the employee to work, or any other hours that would qualify as "time worked" as defined by Rule 1.9 of the COMPS Order, 7 CCR 1103-1. Otherwise, being "scheduled to work" does not include shifts for which an employee has been asked to be available or on-call. However, if an on-call employee has an agreement with an employer to be paid for a scheduled shift regardless of whether the employee actually works the shift, the employer must provide paid leave to a qualifying employee for that shift.

**3.5.3** Use of HFWA leave.

- (A) Because an employee "may use accrued paid sick leave as it is accrued," C.R.S.

§ 8-13.3-403(3)(a), HFWA leave may be used immediately upon accrual, but an employer may, in the ordinary course of business and in good faith, verify employee hours within a month after work is performed and adjust accrued leave to correct any inaccuracy, provided that the employee is so notified in writing.

- (B) An employer may require use of HFWA leave in hourly increments, or may require or allow smaller minimum increments; if an employer does not specify the minimum increment in writing, employees nevertheless may not use increments smaller than a tenth of an hour (*i.e.*, six-minute increments).
- (C) An employer cannot apply an absence or attendance policy to an employee's HFWA-qualifying leave use if it could result in adverse action against the employee, including discipline, as defined in C.R.S. § 8-13.3-407(2)(b). However, after an employee has exhausted all leave required by HFWA, an employer can apply an absence or attendance policy to any absences taken by the employee.

**3.5.4** Applicability of a general paid time off ("PTO") policy to HFWA leave. HFWA does not require additional leave if an employer policy provides fully paid leave for both HFWA and non-HFWA purposes (*e.g.*, sick time and vacation) and makes clear to employees, in a writing distributed in advance of an actual or anticipated leave request, that:

- (A) its leave policy provides PTO --
  - (1) in at least an amount of hours and with pay sufficient to satisfy HFWA and applicable rules (including, if a public health emergency is declared, a supplemental amount of leave required to satisfy C.R.S. § 8-13.3-405(1) and Rule 3.5.1(C),
  - (2) for all the same purposes covered by HFWA and applicable rules, not a narrower set of purposes, and
  - (3) under all the same conditions as under HFWA and applicable rules, not stricter or more onerous conditions (including but not limited to matters such as accrual, use, payment, annual carryover of unused accrued leave, notice and documentation requirements, and anti-retaliation and anti-interference rights); and
- (B) additional HFWA leave need not be provided when employees use all of their available PTO for non-HFWA-qualifying reasons (*e.g.*, vacation). C.R.S. § 8-13.3-403(4), except if a public health emergency is declared after an employee uses some or all available PTO for the applicable benefit year, the employer must supplement the employee's current total of accrued, unused leave pursuant to Rule 3.5.1(C).

**3.5.5** Notice by employees of HFWA-qualifying leave.

- (A) An employee may request leave orally or in writing, including electronically (for example, by email or text message). An employer may choose additional methods of receiving requests or notifications that it deems acceptable, but shall not restrict employees from using any method that notifies the employer effectively. C.R.S. § 8-13.3-404(2).
- (B) For HFWA leave for any health-related or safety-related reason within C.R.S. § 8-13.3-404, if the employee's need for leave is "foreseeable," (1) an employee shall make a good-faith effort to provide advance notice and a reasonable effort to schedule the leave in a manner that does not unduly disrupt employer operations, and (2) an employer may by written policy require reasonable

procedures to provide notice of foreseeable leave, but shall not deny paid sick leave based on noncompliance with such a policy. C.R.S. § 8-13.3-404(2),(5).

- (C) For HFWA leave that is “related to public health emergency” under C.R.S. § 8-13.3-405(3): An employee shall notify their employer of their need for leave as soon as practicable if (1) the need for leave is foreseeable and (2) the employer’s place of business is not closed. C.R.S. § 8-13.3-405(4).

**3.5.6** An employer may require “reasonable documentation” that leave is for a HFWA-qualifying purpose only if the leave requested or taken is for “four or more consecutive work days,” C.R.S. § 8-13.3-404(6), defined as four consecutive days on which the employee would have ordinarily worked absent the leave-qualifying condition, not four consecutive calendar days. An employer may not require an employee to provide documentation that leave is for a qualifying reason “related to [a] public health emergency” under C.R.S. § 8-13.3-405(3),(4).

- (A) When documentation is required, an employer may request only “reasonable” documentation, which is defined as not more documentation than needed to show a HFWA-qualifying reason for leave, as described in subparts (B), (C), and (D) below, and an employer shall not require disclosure of “details” regarding the employee’s or family member’s “health information” or the “domestic violence, sexual assault, or stalking” that is the basis for HFWA leave (C.R.S. § 8-13.3-412(1)).
- (B) To document leave for a health-related need under C.R.S. § 8-13.3-404(1)(a), (b):
- (1) If the employee received any services (including remote services) from a health or social services provider for the HFWA-qualifying condition or need, a document from that provider, indicating a HFWA-qualifying purpose for the leave, will suffice.
- (2) An employee who did not receive services from a provider for the HFWA-qualifying leave, or who cannot obtain a document from their provider in reasonable time or without added expense, can provide their own writing indicating that they took leave for a HFWA-qualifying purpose.
- (C) To document leave for a safety-related need covered by C.R.S. § 8-13.3-404(1)(c) (*i.e.*, domestic abuse, sexual assault, or criminal harassment): A document under subpart (B)(1) (from a health provider or a non-health provider of legal services, shelter services, social work, or other similar services) or an employee writing under (B)(2) will suffice, as will a legal document indicating a safety need that was the reason for the leave (*e.g.*, a restraining order, other court order, or police report).
- (D) Submission of documentation to an employer may be provided (1) by any reasonable method, including but not limited to electronic transmission, (2) at any time until whichever is sooner of an employee’s return from leave (or termination of employment, if the employee does not return), (3) without a requirement of the employee’s signature, notarization, or any other particular document format.
- (E) Confidentiality of leave-related information and documentation. Any information an employer possesses regarding the health of an employee or the employee’s family member, or regarding domestic abuse, sexual assault, or criminal harassment affecting an employee or employee’s family member, shall be treated as confidential and may not be disclosed to any other individual except the affected employee, unless the affected employee provides written

permission prior to such disclosure. C.R.S. § 8-13.3-412(2)(c). If the information is in writing, it shall be maintained on a separate form and in a separate file from other personnel information, and shall be treated as a confidential medical record by the employer. C.R.S. § 8-13.3-412(2)(a)-(b).

- (F) If an employer reasonably deems an employee's documentation deficient, without imposing a requirement of providing more documentation than HFWA or applicable rules permit, prior to denying leave, the employer must: (1) notify the employee within seven days of either receiving the documentation or the employee's return to work (or termination of employment, if the employee does not return), and (2) provide the employee the minimum of seven days to cure the deficiency after the employee is notified that the employer deems the existing documentation inadequate.

**3.5.7** Employer records of accrued and used paid leave hours. An employer "shall retain records for each employee for a two-year period, documenting hours worked, paid sick leave accrued, and paid sick leave used" (C.R.S. § 8-13.3-409(1)), except that two-year limit does not diminish the obligation to retain pay statement records for three years (C.R.S. § 8-4-103(4.5)). Upon an employee's request, an employer must provide, in writing or electronically, documents sufficient to show, or a dated statement containing, the then-current amount of paid leave the employee has (1) available for use, and (2) already used during the current benefit year, including information as to any accrued leave provided and used subject to C.R.S. § 8-13.3-403 and any supplemental public health emergency-related leave provided and used subject to C.R.S. § 8-13.3-405(3). Employees may make such requests no more than once per month, except they may make an additional request when any need for HFWA leave arises. Employers may choose a reasonable system for fulfilling such requests, including but not limited to listing such information on each pay stub, using an electronic system where employees can access their own information, or providing the necessary information in a letter or electronic communication.

**3.5.8** Collective bargaining agreements that provide for equivalent or more generous paid sick leave.

- (A) If a bona fide collective bargaining agreement ("CBA") "provides for equivalent or more generous paid sick leave for the employees covered" (C.R.S. § 8-13.3-415(2),(3)), then:
- (1) HFWA does not apply additional requirements (e.g. it does not require an additional 48 hours of leave when a CBA provides the same amount of leave); and
  - (2) HFWA does not invalidate the CBA or require its re-opening.
- (B) A CBA "provides for equivalent or more generous paid sick leave" (C.R.S. §§ 8-13.3-415(2),(3)) if the CBA does not diminish any employee protections under HFWA and rules promulgated thereunder, including but not limited to the requirements in Rule 3.5.4(A) and:
- (1) accrual and carryover;
  - (2) use and its conditions (e.g., documentation and notice to employers); and
  - (3) protection and effectuation of paid sick leave rights through notice to employees and prohibitions against retaliation based on, or interference with, protected activity.

- (C) This Rule applies to a CBA that is either:
  - (1) “in effect on the effective date” of HFWA, July 14, 2020; or
  - (2) “initially negotiated or negotiated for the next collective bargaining agreement after th[at] effective date . . . if the requirements of this Part 4 are expressly waived in the [CBA].” (C.R.S. §§ 8-13.3-415(2),(3).)

#### Rule 4. Investigation

- 4.1 Wage complaints shall be assigned to Division compliance investigators. Investigatory methods used by the Division may include:
  - (A) Interviews of the employer, employee, and other parties;
  - (B) Information gathering, fact-finding, and reviews of written submissions; and
  - (C) Any other lawful techniques that enable the Division to assess the employer’s compliance.
- 4.2 The Division will evaluate wage complaints under the following burden of proof structure:
  - 4.2.1 To initiate a wage complaint, an employee must provide an explanation of the basis for the complaint that is clear, specific, and shows the employee is entitled to relief. The employee must provide sufficient evidence from which both a violation of Colorado wage and hour laws and an estimate of wages due may be reasonably inferred.
  - 4.2.2 The Division may investigate a wage complaint on behalf of a group of employees if (A) the claimant so requests and (B) it may be reasonably inferred that other employees are similarly situated. If the Division declines to investigate a wage complaint on behalf of a group of employees, it shall investigate on behalf of the individual claimant, and others similarly situated may consent in writing to participate as parties, pursuant to any Division instructions as to information or submissions required by the Division.
  - 4.2.32 The burden then shifts to the employer to prove, by a preponderance of the evidence, that the employee is not entitled to the claimed relief. If the employer fails to meet its burden, the Division may award wages and/or penalties to the employee based on the employee’s evidence.
  - 4.2.43 If the Division concludes that wages are owed to the employee, but cannot calculate the precise amount of wages due, then the Division may award a reasonable estimate of wages due.
- 4.3 Any party to a wage complaint may designate an authorized representative to represent the party during the Division’s administrative procedure.
  - 4.3.1 The party may designate an authorized representative by filing the Division-approved form with the Division.
  - 4.3.2 If not using the Division-approved form, and the authorized representative is a licensed attorney or accountant, the party or the authorized representative must provide written notice to the Division that the authorized representative will represent the party during the Division’s administrative procedure.
  - 4.3.3 If not using the Division-approved form, and the authorized representative is not a licensed attorney or accountant, the party must provide a signed written notice to the Division that the authorized representative will represent the party during the Division’s administrative procedure.

- 4.3.4 The party may revoke the authorized representative's authority by contacting the Division in writing.
- 4.4 After receipt of a wage complaint that states a claim for relief, the Division will initiate the administrative procedure by sending a Notice of Complaint to the employer, along with any relevant supporting documentation submitted by the employee, via U.S. postal mail, electronic means, or personal delivery.
  - 4.4.1 If the Notice of Complaint cannot be delivered, the administrative procedure has not been initiated. If a proper address is located or provided, the Division will resend the Notice of Complaint, and the employer's deadline to respond will be calculated from the date of the subsequent notice.
  - 4.4.2 If the Division cannot determine the employer's correct address, it may contact the employee to request the employer's address. The Division may dismiss the wage complaint if neither the employee nor the Division can determine the employer's correct address.
  - 4.4.3 The employer's response to the Notice of Complaint must include the completed Division Employer Response Form, as well as any additional information or documentation requested by the Division. An insufficient response from the employer may be considered a failure to respond under C.R.S. § 8-4-113(1)(b).
  - 4.4.4 If an employer obtains a good cause extension to respond under C.R.S. § 8-4-113(1)(b), the extension does not waive or reduce penalties owed to the employee pursuant to C.R.S. § 8-4-109(3)(b) if the employer fails to pay the employee's wages within fourteen days after the Notice of Complaint is sent.
  - 4.4.5 Where a claim, complaint, or investigation for violation of these Rules or the statutes they enforce has been filed or commenced, the employer shall preserve all relevant documents until final disposition and until the expiration of the statutory period within which a person aggrieved may bring a civil action.
- 4.5 After receipt and review of the employer's response, the Division may contact the employee for additional documentation or information. If the employer denies, in whole or in part, the allegations in the Notice of Complaint, and the Division determines further investigation would be beneficial, the Division shall send to the employee any relevant supporting documentation submitted by the employer. If the employee does not respond to the request for additional documentation or information by the deadline given, the Division will make a determination based on the information in the record.
- 4.6 All parties to a wage complaint are responsible for ensuring the Division has current contact information.
  - 4.6.1 All parties must promptly notify the Division of any change in contact information, including mailing address, email address, and phone number.
  - 4.6.2 Parties should not rely on the U.S. Postal Service to forward mail. Failure to respond to a notice because mail was not forwarded to a new address will not be excused.
- 4.7 In any Division investigation, proceeding, or other action, if information is provided to the Division by a source requesting confidentiality, and that information is used only as a basis for procuring other evidence, not offered as evidence itself, then the source shall remain confidential. Any such confidential source is unlawful to disclose (unless the source consents) in any administrative or judicial proceeding, in response to any records or information request, or in any other manner, in order to effectuate statutory requirements including but not limited to the following:

- (A) If information is properly treated as confidential, the Division “shall provide a physical environment and establish policies and procedures to ensure confidentiality for all information regarding any employer, employee, or person pertaining to any action pursuant to articles 1 to 13” (C.R.S. § 8-1-115);
- (B) “~~An~~~~Ne~~ employer shall not intimidate, threaten, restrain, coerce, blacklist, discharge, or in any manner discriminate or retaliate against any employee who has: (a) filed any complaint or instituted or caused to be instituted any proceeding under this article 4 or any other related law or rule related to wages or hours; or (b) who has testified or provided other evidence, or may testify or provide other evidence in any proceeding on behalf of the employee himself, herself, or another person regarding afforded protections under this article 4 or under any other law or rule related to wages or hours” (C.R.S. § 8-4-120);
- (C) It is unlawful to “discharge[] or threaten[] to discharge, or in any other way discriminate[] against an employee” because s/he “may testify in any investigation or proceeding relative to enforcement of this article” (C.R.S. § 8-6-115); and
- (D) It is unlawful to take adverse action based on “participat[ing] in an investigation, hearing, or proceeding or cooperat[ing] with or assist[ing] the Division in its investigations of alleged violations” of HFWA (C.R.S. §§ 8-13.3-402(10), -407).

**4.8** Immigration status is irrelevant to wage rights and responsibilities, including the right to access paid leave without retaliation or interference under HFWA, and the Division shall assure that wage rights and responsibilities apply regardless of immigration status, including but not limited to as follows.

**4.8.1** The Division will not voluntarily provide any person or entity information concerning the immigration status of (a) a party to a wage claim, (b) a person offering information concerning a wage claim, or (c) a person with a relationship with anyone in categories (a) or (b).

**4.8.2** Any effort to use a person’s immigration status to negatively impact the wage and hour law rights, responsibilities, or proceedings of any person or entity is an unlawful act of obstruction, retaliation, and/or extortion, based on statutory provisions including but not limited to the following that make it unlawful:

- (A) For “any person” to “hinder[] or obstruct[] the director or any such person authorized by the director in the exercise of any power conferred by this article[.]” including but not limited to wage investigations, rulemakings, or adjudicative or judicial proceedings (C.R.S. § 8-1-116(2));
- (B) For an employer to “intimidate, threaten, restrain, coerce, blacklist, discharge, or in any manner discriminate or retaliate against any employee who has: (a) filed any complaint or instituted or caused to be instituted any proceeding under this article 4 or any other related law or rule related to wages or hours; or (b) who has testified or provided other evidence, or may testify or provide other evidence in any proceeding on behalf of himself, herself, or another regarding afforded protections under this article 4 or under any other law or rule related to wages or hours” (C.R.S. § 8-4-120);
- (C) For any person to “threaten[] to report to law enforcement officials the immigration status of the threatened person or another person” to “induce another person” to give up money “or another item of value” (C.R.S. § 18-3-207(1.5)), including inducing the surrender of any “tangible and intangible personal property, contract rights, choses in action, [or] services ... , and any rights of use or enjoyment connected therewith” (C.R.S. § 18-1-901); and

- (D) For an employer to deny “any right guaranteed under” HFWA, or to take “any adverse action against an employee for exercising any right guaranteed” by HFWA (C.R.S. §§ 8-13.3-402(10), -407).

## **Rule 5. Determination**

**5.1** Upon conclusion of the investigation of a wage complaint, the Division will issue a determination.

**5.1.1** The Division shall send the determination to all parties via U.S. postal mail, electronic means, or personal delivery on the date the determination is issued by the Division’s compliance investigator. The Division shall notify the parties of their termination and any appeal rights pursuant to C.R.S. § 8-4-111(3) and C.R.S. § 8-4-111.5(1).

**5.1.2** The date of “issuance” of the Division’s determination, as used in C.R.S. § 8-4-111(3), is the date the Division’s determination is “sent,” as used in C.R.S. § 8-4-111.5(1). Both the termination and appeal deadlines are calculated from the date the Division’s determination is originally issued and sent to the parties.

**5.1.3** If any copies of the decision are sent to the parties after the date the Division’s determination is originally issued and sent to the parties, those copies are provided only as a courtesy and do not change the thirty-five day appeal and termination deadlines.

**5.1.4** Determinations by the Division may include the following remedies, depending on which, if any, the Division’s findings support:

- (A) monetary or other relief authorized by the statute(s) under which the wage complaint was filed, including but not limited to, where applicable --
  - (1) any unpaid wages, penalties, and/or fines under C.R.S. Title 8, Articles 1, 4, 6, and 13.3;
  - (2) if a claim under C.R.S. Title 8, Article 13.3 (HFWA) cost the employee a job or pay, back pay plus either reinstatement or (if reinstatement is infeasible) front pay for a reasonable period; and/or
  - (3) other fines or penalties authorized by statutes applicable to the complaint;
- (B) fines or penalties authorized by the statutes on Division investigative and enforcement authority in C.R.S. Title 8, Articles 1, 4, 6, and 13.3; and/or
- (C) order(s) to cease non-compliance and/or effectuate compliance, as authorized by the statute(s) under which the complaint was filed and statutes on Division investigative and enforcement authority in C.R.S. Title 8, Articles 1, 4, 6, and 13.3.

## **Rule 6. Appeal**

**6.1** Any party to the claim may appeal the Division’s determination.

**6.1.1** Parties are encouraged, though not required, to use the Division’s appeal form. A valid appeal is a written statement that is timely filed with the Division, explains the clear error in the determination that is the basis for the appeal, is not frivolous, and has been signed by the party or the party’s authorized representative. An appeal is frivolous if it fails to allege an error that could result in the reversal or modification of the determination or otherwise is manifestly insufficient or futile.

**6.1.2** No appeal will be heard and no hearing will be held unless the appeal is received by the

Division within thirty-five calendar days of the date the determination is sent. It is the responsibility of the party filing the appeal to ensure the appeal is received by the Division within the thirty-five day filing deadline.

- 6.1.3** Upon receipt of the appeal, the Division will notify the parties of the date of the hearing and any interim deadlines via U.S. postal mail, electronic means, or personal delivery.
- 6.1.4** Upon receipt of the appeal, the Division will send a copy of the appeal and a copy of the record of its investigation to the parties via U.S. postal mail, electronic means, or personal delivery. All evidence submitted to the Division as part of the investigation is part of the record on appeal and need not be resubmitted.
- 6.1.5** The filing of an appeal does not, except to the extent that a stay is granted, toll any deadlines applicable under, or triggered by the issuance of, the determination, decision, or order being appealed.
- 6.2** Parties who timely file a valid appeal of the Division's determination will be afforded an administrative appeal hearing before a Division hearing officer, unless the hearing officer finds, based on pre-hearing submissions, that the appeal presents no issues warranting a live hearing, and gives the parties notice and opportunity to be heard as to whether a hearing is warranted. Parties may appear by telephone.
- 6.3** The parties may submit new testimonial evidence to the hearing officer in accordance with deadlines imposed by the Division. The parties may submit new documentary or other non-testimonial evidence in accordance with deadlines imposed by the Division and upon showing "good cause," which may be assessed based on any relevant factors, including but not limited to:
  - 6.3.1** That the new evidence was previously not known or obtainable, despite diligent evidence-gathering efforts by the party offering the new evidence;
  - 6.3.2** That the party failed to receive fair notice of the investigation or of a key filing by another party or by the Division to which the new evidence is responsive;
  - 6.3.3** That factors outside the control of the party prevented a timely action or interfered with the opportunity to act, except that the acts and omissions of a party's authorized representative are considered the acts and omissions of the party and are not considered to be a factor outside the party's control as intended by this rule;
  - 6.3.4** That a determination raised a new issue or argument that cannot be responded to adequately without the new evidence;
  - 6.3.5** That, at the investigation stage, the party offering new evidence requested more time to submit evidence, yet was denied, and in the hearing officer's judgment (a) the need for more time was legitimate and did not reflect neglect by the party, (b) the denial of the request for more time was unwarranted, and (c) exclusion of the evidence would cause substantial injustice to the party; and/or
  - 6.3.6** That failure to admit the evidence otherwise would cause substantial injustice and did not arise from neglect by the party.
- 6.4** New evidence must be sent to all other parties to the appeal. Failure to send all new evidence to all other parties to the appeal may result in the evidence being excluded from the record.
- 6.5** If the party who filed the appeal does not participate in the hearing, the appeal may be dismissed.
- 6.6** All testimony at a hearing must be recorded by the Division but need not be transcribed unless the hearing officer's decision is appealed.

- 6.7 The hearing officer may, upon the application of any party or on his or her own motion, convene a prehearing conference to discuss the issues on appeal, the evidence to be presented, and any other relevant matters that may simplify further proceedings.
- 6.8 The hearing officer will decide whether the Division's determination is based on a clear error of fact or law.
- 6.9 The hearing officer shall not engage in ex parte communication with any party to an appeal.
- 6.10 An appeal may, in the discretion of the hearing officer, be sequenced and/or divided into two or more stages on discrete questions of liability and/or relief (e.g., bifurcation), yielding two or more decisions and/or phases of the appeal.
- 6.11 The hearing officer's decision constitutes a final agency action pursuant to C.R.S. § 24-4-106. The Division shall promptly provide all parties with a copy of the hearing officer's decision via U.S. postal mail, electronic means, or personal delivery. The Division shall notify the parties of their appeal rights pursuant to C.R.S. § 8-4-111.5(5).

### **Rule 7. Attorney Fees and Costs**

- 7.1 Where permitted by law, parties may apply for an award of reasonable attorney fees or costs, no later than 21 calendar days after the date of the determination or other order giving rise to the entitlement to fees, or within any other different timeframe ordered by the Division, and pursuant to orders and instructions provided by the Division.
- 7.2 After an application for attorney fees or costs is filed, the Division will send any other parties a copy of the application, any supporting documents, and any other relevant orders or requests from the Division. Other parties may respond to the application, within 14 days after it is sent by the Division, as to the reasonableness, amount, or recoverability of any attorney fees or costs claimed. The Division will send any responses it receives to the applicant, who may optionally reply to any points, within seven days after it is sent by the Division, or may be ordered to reply by the Division. The Division may extend Rule 7 deadlines for good cause as described in Rule 2.9.
- 7.3 An award of attorney fees or costs is appealable to a hearing officer pursuant to Rule 6, and for judicial review of a hearing officer decision pursuant to C.R.S. § 8-4-111.5 and Rule 6.11. The hearing officer's decision constitutes a final agency action pursuant to C.R.S. § 24-4-106. The Division shall promptly provide all parties with a copy of the hearing officer's decision via U.S. postal mail, electronic means, or personal delivery. The Division shall notify the parties of their appeal rights pursuant to C.R.S. § 8-4-111.5(5).
- 7.4 For unpaid wage claims, this Rule 7 applies to only claims filed on or after January 1, 2023.

### **Rule 8. Administrative Liens and Levies**

- 8.1 The Division may issue a notice of administrative lien and levy if an employer or other Division debtor fails to pay wages, fines, or penalties determined to be due in an order that is not the subject of a pending appeal, that has not been superseded on appeal, and that is not subject to any order barring such action. Upon an employee's written request, the Division will inform the employee within 60 calendar days whether it will issue such notice, subject to the Division's discretion to issue such notices on its own initiative at any later time.
- 8.2 Within 21 calendar days from the date of the lien, a Division debtor may make a claim for an exception or exemption from the Division for the reasons and under the procedures detailed below, which shall be submitted pursuant to orders and instructions provided by the Division to the Division debtor and/or published by the Division on its website.
- 8.2.1 An exception may be granted to a Division debtor:

(A) When the Division has failed to follow the procedures in C.R.S. § 8-4-113(4) or these Rules for issuance of a notice of administrative lien and levy; or

(B) When the Division debtor is a natural person who is terminally ill.

**8.2.2** An exemption shall be granted for any of the following reasons:

(A) Misidentification;

(B) A custodial account created pursuant to the “Colorado Uniform Transfers to Minors Act”, Article 50 of Title 11, C.R.S., or a trust account of moneys held in trust for a third party;

(C) “Earnings” as defined in C.R.S. § 13-54-104(3), from which the maximum percentage amount that can be seized will be determined based upon the documentation provided by the Division debtor; or

(D) Other funds to the extent exempted by law from execution, levy, attachment, garnishment, or other legal process.

**8.2.3** The Division debtor has the burden of claiming with specificity, producing evidence to support, and proving entitlement to, any exceptions or exemptions, all pursuant to any policies or instructions included with any Notice of Lien and Levy.

**8.2.4** The Division shall review the claim and document its decision whether to approve or deny the requested relief. The Division shall provide an initial decision within seven calendar days of receipt, or the next business day thereafter.

(A) An initial grant may be subject to further review by the Division, based on information from the Division debtor or other information obtained by the Division.

(B) An initial denial may include permission or a request to submit further information, based on which the claim for exception or exemption may be re-reviewed by the Division.

(C) An initial denial will be deemed an appealable final lien or levy order (1) if the Division debtor chooses not to provide further information within seven calendar days, on the eighth calendar day; or (2) if the Division does not issue a new decision within seven calendar days of any new information provided by the Division debtor, on the eighth calendar day after the new information is provided.

**8.2.5** If the claim for exception or exemption is approved, the Division will issue a release of lien and levy to the Division debtor and, if applicable, any person(s) with possession, custody or control of the asset(s). If the claim is denied, the lien and levy will remain in effect and the Division shall notify the Division debtor and, where appropriate and applicable, may notify any person(s) with possession, custody or control of the asset(s).

**8.2.6** A decision on an exception or exemption is appealable to a hearing officer pursuant to Rule 6, and for judicial review of a hearing officer decision pursuant to C.R.S. § 8-4-111.5 and Rule 6.11. The hearing officer’s decision constitutes a final agency action pursuant to C.R.S. § 24-4-106. The Division shall promptly provide all parties with a copy of the hearing officer’s decision via U.S. postal mail, electronic means, or personal delivery. The Division shall notify the parties of their appeal rights pursuant to C.R.S. § 8-4-111.5(5).

**8.3** A lien placed on any and all types of joint account(s) shall require the financial institution to freeze 100% of the assets on deposit as of the date of the lien. "Joint accounts" means multiple party accounts as defined in C.R.S. § 15-15-201. The Division shall take the following actions:

**8.3.1** The non-debtor account holders shall be informed in writing that they have 21 calendar days from the date of the lien to request an appeal of the frozen funds on the basis that there is proof of the non-debtor account holders' contribution of the funds on deposit up to 100% as of the date of the lien as governed by C.R.S. § 15-15-211.

**8.3.2** The request for appeal and the required documentation shall be reviewed by the Division within seven calendar days of receipt, or the next business day thereafter.

**8.3.3** The Division shall notify the non-debtor account holder of the appeal decision:

(A) If the appeal is approved, the Division will issue a release of lien and levy to the financial institution releasing the contribution of the non-debtor account holder.

(B) If the appeal is denied, the lien and levy will remain in effect as to the amount frozen at the time of the lien.

**8.3.4** The hearing officer's decision constitutes a final agency action pursuant to C.R.S. § 24-4-106. The Division shall promptly provide all parties with a copy of the Division's decision on the appeal via U.S. postal mail, electronic means, or personal delivery. The Division shall notify the parties of their appeal rights pursuant to C.R.S. § 8-4-111.5(5).

## **NOTICE OF PUBLIC HEARING CONCERNING PROPOSED RULES**

Notice is hereby given of a public hearing to afford all interested persons an opportunity to be heard prior to adoption of the below **four sets of proposed rules**, under authority granted to the Division of Labor Standards and Statistics by the Administrative Procedure Act, C.R.S. § 24-4-103, provisions of C.R.S. Title 24, Article 92, and C.R.S. Title 8, Articles 1-4, 6, 12, 13.3, 13.5, 14.4, and 17; and § 15 of Art. XVIII of the Colorado Constitution.

The proposed changes to Colorado labor rules include:

1. Implementing and enforcing three laws recently enacted:
  - (a) Senate Bill 22-161, which amends wage-and-hour responsibilities, mostly with additional responsibilities to pay wages due, including: new procedures for certain kinds of deductions; protection against retaliation related to wage rights; worker misclassification reporting; and various aspects of wage rights enforcement, including new statutory provisions as to fines and penalties, attorney fees for retaliation or higher-value wage claims, collections where ordered payments are not made, and collaboration between DLSS and other branches of state government;
  - (b) Senate Bill 22-097, which amends whistleblower retaliation rights and responsibilities to cover a range of health and safety matters, not just those related to a public health emergency;
  - (c) Senate Bill 19-196, which requires paying prevailing wages to construction laborers on state public projects.
2. Implementing the annual adjustment of the minimum wage, as mandated by the Colorado Constitution, and other related minimum wage and salary figures adjusted annually; and
3. Other non-substantive or procedural changes to labor rules suggested or proposed, based on stakeholder input or other developments that warrant rule changes.

For the details of each proposed rule, see the text of the accompanying proposed draft rules, as well as the proposed statement of basis and purpose that accompanies each set of rules.

**(1) Wage Protection Rules, 7 CCR 1103-7.** These rules amend the prior version of the Wage Protection Rules, which implement labor laws within the jurisdiction of the Division, including but not limited to the Colorado Wage Act (CWA) as amended by (among other laws) the Wage Protection Act of 2014 (WPA) and Colorado Senate Bill 22-161, C.R.S. § 8-4-101 et seq.; the Healthy Families and Workplaces Act (HFWA) of 2020, C.R.S. § 8-13.3-401 et seq.; and the Agricultural Labor Rights and Responsibilities Act, as codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq.

**(2) Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules (“Colorado WARNING Rules”), 7 CCR 1103-11.** These rules amend the prior version of the Colorado WARNING Rules, the Division’s existing rules governing retaliation, interference, and notice of rights under several Division-enforced statutes.

**(3) 2023 Publication And Yearly Calculation of Adjusted Labor Compensation (“2023 PAY CALC”) Order, 7 CCR 1103-14 (2023).** The PAY CALC Order publishes inflation-adjusted and other annually updating values applied in the Colorado Overtime and Minimum Pay Standards (“COMPS”) Order, 7 CCR 1103-1.

**(4) Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6.** The “Prevailing Wage and Residency Rules” is a revised rule set combining the Division’s existing rule set regarding the Keep Jobs in Colorado Act (KJICA), C.R.S. § 8-17-101 et seq. (previously titled the “Keep Jobs in Colorado Act Rules”), with a new set of requirements from the Colorado Quality Apprenticeship Training Act of 2019 (Prevailing Wage Act or PWA), C.R.S. § 24-92-201 et seq.

**Public Hearing Information:**

Date and Time of Hearing: **Tuesday, November 1, 2022, from 3:00 pm until at least 6:00 pm.** Division will stay until at least 6:00 pm, or longer if by that time anyone still wishes to speak, to assure opportunity for anyone who may wish to attend in the early evening. You need not arrive by a particular time or stay the entire meeting.

Written Comment Deadline for the above rules: **Thursday, November 3, 2022, at 5:00 pm**

The Division is administering this public hearing, and all interested persons are free to offer oral testimony and to listen to part or all of the hearing. However, due to the current public health crisis, **participation will be primarily by remote means**, with limited in-person participation at the Division by RSVP only and subject to (A) space limitations and (B) the possibility of a decision, which would be announced on the [rulemaking page](#) no later than 24 hours before the meeting, as to whether the public health situation permits in-person attendance or requires an exclusively remote hearing. While not required, we request and highly recommend that **anyone interested in oral testimony use this [rulemaking comment form](#) to RSVP**, because at the hearing, after those in person speak, we will then call on those who RSVP'd to speak, followed by testimony from others by remote means. A recording of the public hearing will be publicly posted afterwards on our [rulemaking page](#).

Written comments may be submitted by: 1) our online [rulemaking comment form](#); 2) mail to the below address; 3) fax to 303-318-8400; or 4) email to [michael.primo@state.co.us](mailto:michael.primo@state.co.us). Because **written comments become part of the same record as oral testimony**, and are reviewed by the same officials, **you may submit written comments in lieu of oral testimony**, but are free to participate by both means.

**Instructions for Hearing Participation:** Either of the below options will work to participate, but for orderly administration of participation, and to avoid possible audio feedback, please do not use both simultaneously. *(You do not need to have a Google account to access any of the below means.)*

- (A) **To Participate by Internet, Including Testifying:**  
visit this "Meet" webpage: [meet.google.com/hcx-tpbo-mtr](https://meet.google.com/hcx-tpbo-mtr)
- (B) **To Participate by Phone, Whether to Listen or to Testify:**  
call (US) +1 929-276-0796, and then enter this pin: 807 708 207#
- (C) **To Participate in Person:** (633 17th Street, Denver, CO, 80202, Room 12A on the 12th floor)  
RSVP via our [rulemaking comment form](#) to attend in person.

Please contact [michael.primo@state.co.us](mailto:michael.primo@state.co.us) with any questions about how to access either the public hearing or its recording, or **if you need accommodations or translation services** to attend or participate. This public hearing is held in accordance with the Colorado Administrative Procedure Act, C.R.S. § 24-4-101 et seq., and Colorado Open Meetings Law, C.R.S. § 24-6-401 (2022), to receive any testimony, written, views, or arguments that interested parties wish to submit regarding the proposed rules.

Copies of proposed rules, including redlined copies showing changes from prior versions, and statements of basis and purpose further detailing the proposed rules, are available at [www.ColoradoLaborLaw.gov](http://www.ColoradoLaborLaw.gov) or by request to: **Division of Labor Standards and Statistics, 633 17th Street, Denver, Colorado 80202.**

## **STATEMENT OF BASIS, PURPOSE, SPECIFIC STATUTORY AUTHORITY, AND FINDINGS**

### **Wage Protection Rules, 7 CCR 1103-7 (2023), as proposed September 29, 2022; to be followed and replaced by a final Statement at the conclusion of the rulemaking process.**

**I. BASIS:** The Director (“Director”) of the Division of Labor Standards and Statistics (“Division”) has authority to adopt rules and regulations on wage-and-hour and workplace conditions, under authority listed in Part II, which is incorporated into Part I as well. These rules update the Wage Protection Rules, 7 CCR 1103-7, which implement the Colorado Wage Act (“CWA”) as amended, including but not limited to by the Wage Protection Act (“WPA”), C.R.S. § 8-4-101 et seq., and Colorado Senate Bill 22-161 (“SB161”); the Healthy Families and Workplaces Act (“HFWA”), C.R.S. § 8-13.3-401 et seq.; and the Agricultural Labor Rights and Responsibilities Act, codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq.

**II. SPECIFIC STATUTORY AUTHORITY:** The Director is authorized to adopt and amend rules and regulations to enforce, execute, apply, and interpret Articles 1, 2, 4, 6, 13.3, and 13.5 of Title 8, C.R.S. (2022), and all rules, regulations, investigations, and other proceedings of any kind thereunder, by the Administrative Procedure Act, C.R.S. § 24-4-103, and provisions of Articles 1, 2, 4, 6, 13.3, and 13.5, including but not limited to §§ 8-1-101, 103, 107, 108, 111, 130; §§ 8-4-111, -113; §§ 8-6-102, 104, 105, 106, 108, 109, 111, 116, 117, 120; § 8-12-115; §§ 8-13.3-401, 403-405, 407-411, 416; and § 8-13.5-202, 203, 204.

**III. FINDINGS, JUSTIFICATIONS, AND REASONS FOR ADOPTION.** Per C.R.S. § 24-4-103(4)(b), the Director finds as follows: **(A)** demonstrated need exists for these rules, as detailed in the findings in Part IV, which are incorporated into this finding as well; **(B)** proper statutory authority exists for the rules, as detailed in the list of statutory authority in Part II, which is incorporated into this finding as well; **(C)** to the extent practicable, the rules are clearly stated so that their meaning will be understood by any party required to comply; **(D)** the rules do not conflict with other provisions of law; and **(E)** any duplicating or overlapping has been minimized and is explained by the Division.

**IV. SPECIFIC FINDINGS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(6), the Director finds as follows.

**A. Rule 1: Statement of Purpose and Authority**

Proposed amendments to Rule 1 non-substantively amend relevant citations.

**B. Rule 2.3: Average Daily Earnings**

The proposed amendment to Rule 2.3 addresses the fact that the rule now says C.R.S. § 8-4-109(3)(b) refers to “average daily earnings,” which it will not as of January 1, 2023, under SB161.

**C. Rule 2.4: Certified Copies**

The proposed amendment to Rule 2.4 clarifies that a “certified copy of any citation, notice of assessment, or order imposing wages due, fines, or penalties” under C.R.S. § 8-4-113: (1) does not require a copy separate from the initially issued citation, notice, or order, as long as the Division certifies the accuracy of the issuance; (2) can be issued for “any” citation, notice of assessment, or order, not just a “final” order — a clarification that became relevant with recent statutory and rule amendments providing for sequenced citations, notices, or orders — such as under SB161 provisions for certain claimants to be awarded attorney fees and costs, which may be awarded in a later order, after an initial citation or notice of assessment is already issued; (3) may be issued by any Division official as delegated by the Director — not just a compliance investigator or hearing officer as existing rule states; and (4) is issued only a reasonable period after the appeal deadline — to allow for the possibility of a stay or other order halting the filing or enforcement of a certified copy.

**D. Rule 2.13: Terminated Employee**

The proposed amendment to Rule 2.13 addresses the fact that the reference to “terminated employee” will move from C.R.S. § 8-4-105(1)(e) to C.R.S. § 8-4-105(1)(e)(I) on January 1, 2023, under SB161.

**E. Rule 2.16: Written Demand**

SB161 amended the penalties applicable under C.R.S. § 8-4-109, effective January 1, 2023. The proposed amendment clarifies as follows. First, the new penalty amounts apply when an employer’s refusal to pay wages within 14

days of a written demand occurs on or after January 1, 2023, even if a written demand was sent before that date; *i.e.*, the new penalty amounts apply if a written demand is sent on or after December 18, 2022. Second, if an employer's first refusal to pay wages is before January 1, 2023 (*i.e.*, if it rejects a written demand sent before December 18, 2022), then: (1) the *pre-SB161* penalties still apply if, on or after December 18, 2022, either (a) the claimant sends another written demand and the employer refuses to pay the wages owed within 14 days of that second written demand, or (b) the Division sends a Notice of Complaint (which by statute counts independently as a written demand triggering penalties), and the employer pays the wages owed within 14 days of the Notice of Complaint; *but* (2) the *SB161 penalties* apply if, on or after December 18, 2022, the Division sends a Notice of Complaint and the employer fails to pay the wages owed within 14 days of that Notice of Complaint.

**F. Rule 2.21: Division Debtors**

Proposed new Rule 2.21 defines "Division debtor," a term used in proposed new Rule 8 to encompass any party who owes wages, fines, or penalties determined to be due. Existing Rule 2.21 is accordingly renumbered to be Rule 2.22.

**G. Rule 3.1: Division Forms and Instructions**

Existing Rule 3.1 already requires use of Division-approved forms. The proposed amendment adds, for situations in which no form exists but the Division requires certain information or submissions from any party, that Division may require such information or submissions to be provided whether or not a Division-approved form exists — which is relevant, among other situations, to multiple new types of matters the Division has been assigned by recent legislation, including attorney fee and cost applications, and filings related to administrative liens and levies, under SB161.

**H. Rule 3.1.5, 3.3, 3.4, 4.2.2 Investigation of Similarly Situated Employees or Multiple Claims**

Existing Rule 3.1.5 already notes the statutory limit of \$7,500 for wage claims. Because SB161 now provides that wage claims can be filed on behalf of other similarly situated employees, the proposed amendment to Rule 3.1.5 clarifies that the \$7,500 limit is per each individual employee. Proposed amendments to Rules 3.3 and 3.4 similarly accommodate Division investigation and disposition of wage claims of multiple employees in group or consolidated investigations. Proposed new 4.2.2 applies existing Division burden of proof and pleading standards to complaints filed on behalf of similarly situated employees, or complaints that other similarly situated employees may join, under SB161.

**I. Rule 3.5.2(A): Pay Rate Calculation for Paid Sick Leave under C.R.S. § 8-13.3-402(8)**

The proposed amendment to Rule 3.5.2(A) changes no substance, but clarifies and streamlines the definition of the pay rate for HFWA leave. The rule had cross-referenced the COMPS Order definition of a regular pay rate, but conformity with HFWA required clarification that HFWA expressly excludes certain pay types from the pay rate for HFWA leave (C.R.S. § 8-13.3-402(8)), and to define a lookback period the rule established. The proposed amendment also adds clarity by removing the COMPS Order cross-reference.

**J. Rules 4.7(B) and 4.8.2(B): Investigation**

The proposed amendments to Rules 4.7(B) and 4.8.2 update the quoted language from C.R.S. § 8-4-120 to conform with SB161 amendments to that statutory section.

**K. Rule 6: Appeal**

The proposed amendments to Rule 6.1.1 and Rule 6.2 aim to enhance appeals efficiency and ensure the prompt resolution of appeals. Rule 6.1.1 already provides that a valid appeal must be timely, be signed, and allege a clear error. Division experience has shown that some appeal requests meet that test, yet still lack any plausible merit, and are certain to be dismissed. Under the proposed amendment, such appeals may, in appropriate cases, be resolved on the papers, without need to plan and conduct a live hearing that would not change the outcome for an appeal that the papers show to be meritless, just as not all lawsuits proceed to trials or other live hearings.

Proposed new Rule 6.1.5 clarifies an appeal filing does not, except to the extent that a stay is granted, automatically toll deadlines applicable under, or triggered by issuance of, the determination, decision, or order being appealed. For example, SB161 creates new penalties and fines applicable to employers who do not pay within 60 days of a determination. If a determination lacks language tolling that deadline in the event of an appeal, an appeal filing alone would not toll those 60 days. A party may still, as in established Division practice, request a stay as part of its appeal.

**L. Rule 7: Attorney Fees and Costs**

SB 161 amended the Colorado Wage Act to give the Division authority to order, in administrative claims, reasonable costs to prevailing wage claimants, and attorney fees to prevailing claimants who recover at least \$5,000 in unpaid wages. To implement this new authority, proposed new Rule 7 sets forth procedures for parties to apply for attorney fees or costs, dispute other parties' fee or cost applications, and appeal fee or cost decisions.

**M. Rule 8. Administrative Liens and Levies**

SB 161 amended the Colorado Wage Act to give the Division authority to issue notices of administrative liens and levies against employers or other persons who have possession, custody or control of the assets of a party that fails to pay wages, fines, or penalties determined to be due. Proposed new Rule 8 sets forth procedures for parties to claim exceptions or exemptions, or to file appeals for joint accounts; for the Division to determine the merits of such claims or appeals; and for the Division to provide notice of those determinations.

**V. EFFECTIVE DATE.** If adopted, these rules take effect January 1, 2023, or as soon after as rulemaking completes.

## DEPARTMENT OF LABOR AND EMPLOYMENT

### Division of Labor Standards and Statistics

#### COLORADO WHISTLEBLOWER, ANTI-RETALIATION, NON-INTERFERENCE, AND NOTICE-GIVING RULES ("Colorado WARNING Rules")

##### 7 CCR 1103-11

As proposed September 29, 2022; if adopted January 11, 2022, to be effective March 2, 2023.

#### Rule 1. Statement of Purpose, Authority, and Construction

- 1.1 The general purpose of these Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules ("WARNING Rules") is to exercise the authority of this Division to enforce and implement Colorado legislative enactments and accompanying rules protecting against retaliation for, or interference with, the exercise of protected rights, and requiring that employees and other workers receive various forms of notification of their rights, including but not limited to the Healthy Family and Workplaces Act of 2020 ("HFWA," C.R.S. Title 8, Article 13.3, Part 4), the Public Health Emergency Whistleblower Act of 2020 and the Protected Health/Safety Expression and Whistleblowing Act ("PHEW," C.R.S. Title 8, Article 14.4), the Equal Pay for Equal Work Act of 2019 ("EPEWA," C.R.S. Title 8, Article 5), the Agricultural Labor Rights and Responsibilities Act of 2021, Colorado Senate Bill 21-87 ("ALRRA") as amended by Colorado House Bill 22-1313, amendments to the Colorado Wage Act (C.R.S. Title 8, Article 4), and rules promulgated under the foregoing statutes. These Rules are adopted pursuant to Division authority in C.R.S. §§ 8-1-103(3), -107(2), -111, -116, -117; §§ 8-2-130, -206(3)(c)(II); §§ 8-4-111, -113(4)(d), -120; § 8-5-203; §§ 8-6-105, -106, -108, -117; §§ 8-13.3-403(9), -407(6), -408(1)-(2), -409, -410; § 8-13.5-204(1)(b); and §§ 8-14.4-103(2), -104, -105(4), -108. Every rule herein applies to all statutes and rules referenced in Rule 1.1, unless a specific rule states otherwise.
- 1.2 Incorporations by Reference. Articles 1-6, 13.3, 13.5, and 14.4 of C.R.S. Title 8 (2022) are hereby incorporated by reference. Earlier versions of such laws may apply to events that occurred in prior years. Such incorporation excludes later amendments to or editions of the statutes. These statutes are available for public inspection at the Colorado Department of Labor and Employment, Division of Labor Standards & Statistics, 633 17th Street, Denver CO 80202. Copies may be obtained from the Division of Labor Standards & Statistics at a reasonable charge. These statutes can be accessed electronically from the website of the Colorado Secretary of State. Pursuant to C.R.S. § 24-4-103(12.5)(b), the agency shall provide certified copies of the statutes incorporated at cost upon request or shall provide the requestor with information on how to obtain a certified copy of the material incorporated by reference from the agency originally issuing the statutes. All Division Rules are available to the public at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov). Where these Rules have provisions different from or contrary to any incorporated or referenced material, the provisions of these Rules govern so long as they are consistent with Colorado statutory and constitutional provisions.
- 1.3 Separability. These Rules are intended to remain in effect to the maximum extent possible. If any part (including any section, sentence, clause, phrase, word, or number) is held invalid, (A) the remainder of the Rules remain valid, and (B) if the provision is held not wholly invalid, but merely in need of narrowing, the provision should be retained in narrowed form.

#### Rule 2. Definitions and Clarifications

- 2.1 "Administrative Procedure" means the process used by the Division to investigate Complaints arising under any rule or statute cited in Rule 1.1.
- 2.2 "Authorized representative" means a person designated by a party to a Complaint to represent the party during the Division's administrative procedure. To designate an authorized representative, the party must comply with the requirements for authorizing a representative in the Wage Protection Rules, 7 CCR 1103-7, Rule 4.3.

- 2.3** “Complaint” or “Claim” interchangeably mean a Complaint or Claim alleging violation of any retaliation, interference, or notice requirements of any statute or rule cited in Rule 1.1. “Complainant” means an employee, worker, whistleblower, key service provider, or other protected party with a Complaint or Claim.
- 2.4** “Certified copy” means a copy of a final Division decision (issued by a compliance investigator or hearing officer) signed by the Director of the Division, or his or her designee, certifying that the document is a true and accurate copy of the final decision. A certified copy must be requested in writing. A Division decision (issued by a compliance investigator or hearing officer) will not be certified unless: either **(1)** all appeal deadlines have passed and no appeal has been filed or **(2)** if an appeal was timely filed, the decision was not superseded on appeal. A certified copy will not be issued if a Complainant terminated a Complaint in accord with applicable statutes or rules.
- 2.5** “Correct address” can include, but is not limited to, an email address reported to the Division or posted on a party’s website, an address on file with the Colorado Secretary of State, the address of a registered agent on file with the Colorado Secretary of State, or an address provided to the Division by the party. A notice is deemed sent to a party when placed in the U.S. mail; sent by electronic means; or personally delivered to a party or a party’s representative, or a party’s correct address.
- 2.6** “Determination” means a decision issued by a compliance investigator upon the conclusion of an investigation. “Determination” includes: Citation and Notice of Assessment, Determination of Compliance, and Notice of Dismissal, if that Notice of Dismissal is issued after the Division initiated the administrative procedure. A notice that the Division declines to investigate a Complaint is not a Determination.
- 2.7** “Division” means the Division of Labor Standards and Statistics in the Colorado Department of Labor and Employment.
- 2.8** “Employee” and “Employer” have the same meaning as in C.R.S. §§ 8-4-101(5),(6), except as to rights or responsibilities under C.R.S. Title 8, (A) Article 13.3, “Employee” and “Employer” have the same meaning as in C.R.S. §§ 8-13.3-402(4),(5); and (B) Article 5, “Employee” and “Employer” have the same meaning as in C.R.S. §§ 8-5-101(4),(5). As used in these rules, the term “Employee” includes an agricultural employee as defined in C.R.S. § 8-2-206(1)(b) and an agricultural worker as defined in C.R.S. § 8-13.5-201(3), and the term “Employer” includes an agricultural employer as defined in C.R.S. § 8-2-206(1)(c), except as otherwise provided.
- 2.9** “Notice of Right to Sue” means a notice from the Division stating that the Complainant has exhausted administrative remedies pursuant to C.R.S. § 8-14.4-105, and/or that the Division has received and declined to investigate a Complaint for purposes of C.R.S. §§ 8-2-206(3)(c)(II), 8-13.3-411(4)(d), or 8-13.5-204(1)(b).
- 2.10** “Respondent” means an employer or principal that is alleged in a Complaint or Claim to have, or that is the subject of an investigation into whether they have, committed an unlawful practice.
- 2.11** In “retaliation” or “interference” claims or investigations, the following definitions apply:
- 2.11.1** “Protected activity” means, as to any right under these Rules or any statute or rule to which these Rules apply:
- (A)** asserting, seeking, or exercising any right or remedy;
  - (B)** opposing a possible or perceived violation;
  - (C)** participating in a formal or informal investigation, hearing, complaint, or other process or proceeding that relates to any possible or perceived violation, or that relates to any relevant claim, right, or rule; and/or

- (D) engaging in any other activity authorized or protected thereby.

With respect to rights under PHEW, “protected activity” is further defined in Rule 5 herein.

**2.11.2** “Retaliation” means, and is synonymous with, discrimination based on or for protected activity, and it encompasses any act (whether an affirmative act, an omission, or a statement) that is intended to, and could, deter a reasonable person from engaging in, or impose consequences for, protected activity. Examples of retaliation include:

- (A) using the assertion or exercise of any right protected by these Rules, or any statute or rule to which these Rules apply, as a negative factor in any employment action;
- (B) acts that may not affect employment status but that may dissuade, deter, or interfere with engaging in protected activity, such as acts prohibited by Rule 4.8.2 of the Wage Protection Rules (7 CCR 1103-7), or acts that interfere or threaten to interfere with the receipt of public benefits.

**2.11.3** “Interference” means any act (whether an affirmative act, an omission, or a statement) that, regardless of intent, interferes with any protected activity or any right under these Rules or any statute or rule to which these Rules apply, including any act that deters any protected activity. Examples of acts that may constitute interference include:

- (A) failing to authorize the exercise of a right, imposing stricter conditions upon exercising a right (e.g., as to documentation or notice) than the applicable statute or rule permits, or altering employment conditions, rules, or procedures to limit coverage;
- (B) failing to effectively provide a required notice or notification as to an employee’s rights;
- (C) inducing or attempting to induce an employee, worker, whistleblower, key service provider, or other protected party to prospectively waive a right;
- (D) imposing consequences (whether or not employment-related) for or discouraging the exercise of any such right, such as by counting paid sick leave taken by an employee pursuant to HFWA as an absence that may lead to negative consequences;
- (E) “access interference” with an agricultural employee’s rights to reasonable access (as defined by C.R.S. § 8-13.5-202 and the Agricultural Labor Conditions Rules, 7 CCR 1103-15, Rule 4) to visitors at employer-provided housing, to employee residence access and egress, to key service providers, or to required transportation; except an agricultural employer may apply generally applicable hazard or safety protocols to work site visitors.

**2.12** “Wage Protection Rules” refer to the rules contained in 7 CCR 1103-7.

**2.13** “Willful,” in Articles within C.R.S. Title 8 that this Division enforces or administers, has the same meaning as under the federal Fair Labor Standards Act, as used and defined in 29 U.S.C § 255(a) and 29 C.F.R. § 578.3(c).

**2.14** “Worker” and “principal,” as to rights or responsibilities under C.R.S. Title 8, Article 14.4, have the same meaning as in C.R.S. §§ 8-14.4-101(3),(5).

**2.15** Any other definitions set forth in statutes enforced through these Rules are hereby incorporated by reference, except where terms are defined differently in these Rules.

**2.16** Under the ALRRA and PHEW, a “whistleblower” is defined as follows, and need not have personally experienced the relevant violation:

- (A) under the ALRRA, an agricultural employee “with knowledge of an alleged violation of Part 2 [of Article 13.5 of C.R.S. Title 8] or the agricultural worker’s representative” (as defined in C.R.S. § 8-13.5-201(4)); and
- (B) under PHEW, a worker with knowledge of an alleged violation of Article 14.4 of C.R.S. Title 8 or the “worker’s representative” (as defined in C.R.S. § 8-14.4-107).

**2.17** Under the ALRRA, the definitions of the following parties apply.

**2.17.1** “Agricultural employee” and “agricultural worker,” as to rights and responsibilities under C.R.S. § 8-2-206 of the ALRRA, identically mean a person employed by an agricultural employer. As to other rights and responsibilities under the ALRRA, “agricultural employee” and “agricultural worker” identically mean an employee engaged in any service or activity included in 29 U.S.C. § 203(f) or 26 U.S.C. § 3121(g).

**2.17.2** “Agricultural employer,” as to rights and responsibilities under the ALRRA, means a person engaged in any service or activity included in 29 U.S.C. § 203(f) or 26 U.S.C. § 3121(g) who either (1) contracts with any person who recruits, solicits, hires, employs, furnishes, or transports agricultural employees, or (2) regularly engages the services of one or more agricultural employees. Under C.R.S. § 8-3-104(1)(b) of the ALRRA, “[t]he meaning of ‘agricultural employer’ must be liberally construed for the protection of persons providing services to an employer.”

**2.17.3** “Other protected party,” as to rights and responsibilities under the ALRRA, means a person who has, or is perceived as having, any of the following relationships protected against retaliation by C.R.S. § 8-2-206 of the ALRRA:

- (A) a “familial . . . relationship” with an agricultural employee (C.R.S. § 8-2-206(3)(c)), which encompasses (1) a spousal relationship (including a common-law marriage, civil union, or domestic partner), (2) any of the following relationships by blood, marriage, or adoption: parent, grandparent, child, grandchild, sibling, stepparent, stepsibling, stepchild, uncle, aunt, niece, nephew, or cousin, or (3) another person with whom the employee similarly has a significant personal bond regardless of biological or legal relationship.
- (B) a “workplace relationship” with an agricultural employee (C.R.S. § 8-2-206(3)(c)), which encompasses any person with whom the employee has interacted repeatedly in the scope of their employment, regardless of the person’s employer or employment status.
- (C) a “person with whom the agricultural employee exchanges care or support” (C.R.S. § 8-2-206(3)(c)), which encompasses any relationship in which the employee or the person, outside of their scope of employment, provides care or support to the other with (1) health, family care, transportation, or similarly important personal needs, or (2) any other needs that the individual lacks capacity to perform on their own, such as hygiene, financial or similar paperwork, or home tasks (basic cleaning, shopping, cooking, maintenance, etc.).

**2.18** For the purposes of the C.R.S. § 8-4-120 provisions against retaliation as to rights under “any . . . law or rule related to wages or hours”:

**2.18.1** “Filed any complaint” includes formal or informal complaints, written or oral, whether to a court; a governmental labor agency; an employer or principal; or another relevant entity or person, public or private.

**2.18.2** “Proceeding” includes any procedure, process, or action by a court; a governmental labor agency; an employer or principal; or another relevant entity or person, public or private.

**2.19** As referenced by C.R.S. § 8-14.4-102(3)(b), “public health agency” means agencies or authorities of the United States, states or political subdivisions thereof with jurisdiction over the worker’s workplace; or an individual or entity performing public health functions under a grant of authority from such a public health agency.

### **Rule 3. Complaint, Investigation, and Appeal Procedures**

**3.1** Wage Protection Rules 4.1 and 4.3-4.8, 7 CCR 1103-7, regarding investigation procedures and protections, are incorporated by reference, except that as incorporated:

- (A)** all references to “wage” or “wage and hour” Complaints, Claims, rights, responsibilities, or proceedings shall include other labor rights or responsibilities within these Rules;
- (B)** in Rule 4.4.3 “C.R.S. § 8-4-113(1)(b)” is replaced with “C.R.S. § 8-1-140(2)”; and
- (C)** for Claims under PHEW and the ALRRA, references to “employers” or “employees” shall include “principals” and “workers,” respectively, as defined by PHEW and these Rules, and “agricultural employers” and “agricultural employees,” respectively, as defined by the ALRRA and these Rules.

**3.2** Complaint filings.

**3.2.1** An employee, worker, whistleblower, key service provider, or other protected party who wishes to file a Complaint shall use a Division-approved form(s) and shall include the Complainant’s signature, the Complainant’s contact information, the Respondent’s contact information, and basis for the Complaint. If the Division does not have an applicable form publicly posted when the Complainant intends to file, then a Complainant may file a Complaint in any form, by mail or electronic mail, with the Division, and the Division may later require the Complainant to complete the Division’s Complaint form, but the filing date will remain the date of the Complainant’s original filing.

**3.2.2** A Complainant shall respond in a timely manner to informational or investigatory requests by the Division. Failure to comply with this Rule may result in dismissal of the Complaint. If a Complaint is dismissed before a Notice of Complaint is sent to the Respondent due to failure to respond to a Division request for information, the Complaint may be reopened if the Complainant provides the requested information or documentation to the Division within 35 days of the request. A Complainant may be required to file a new Complaint if the response is received more than 35 days after the request.

**3.2.3** Anonymous complaints will be accepted, but will not be investigated using the Division’s administrative procedure, and will be investigated only at the discretion of the Division.

**3.3** Filing, service, and deadlines.

**3.3.1** A Complaint or appeal is considered “filed” with the Division when it is received by the Division via mail, fax, email, online submission, or personal delivery. Any Complaint, appeal, or termination received after 11:59pm Mountain Time is considered filed the next business day.

**3.3.2** Deadlines in these Rules may be extended for good cause. In considering whether good cause exists, under these Rules or applicable statutes allowing good-cause extensions of deadlines, the Division will determine whether the reason is substantial and reasonable, and must take into account all available information and circumstances pertaining to the specific Complaint.

**3.3.3** Within 90 days of receipt of a Complaint (or within 90 days of the effective date of these Rules, whichever is later), the Division will (A) assess whether it will exercise its discretion to investigate the Complaint, and (B) inform the Complainant of the decision, including

sending the Complainant a Notice of Right to Sue if the Complaint is subject to C.R.S. §§ 8-14.4-105(2)(b), 8-2-206(3)(c)(II), 8-13.3-411(4)(d), 8-13.5-204(1)(b) and the Division declines to exercise its discretion to investigate the Complaint. Under this Rule 3.3.3, the Division's decision whether to investigate the Complaint is not required until 90 days after the Complainant has provided all information and documents needed to complete, process, and evaluate the Complaint.

**3.3.4** In a Complaint investigation, the Division will send the Respondent a Notice of Complaint, along with any relevant supporting documentation submitted by the Complainant, via U.S. mail, electronic means, or personal delivery. A Respondent must respond within four weeks after a Complaint is sent to them, unless an extension is granted.

**3.3.5** Where a retaliation or interference Complaint or investigation governed by these Rules is filed or commenced, the Respondent shall comply with the federal "Preservation of records made or kept" rule, 29 C.F.R. § 1602.14, requiring that the Respondent "shall preserve all personnel records relevant to the charge or action until final disposition of the charge or the action." For purposes of retaliation or interference Claims, relevant "personnel records relevant" include but are not limited to:

- (A) requests or statements by the individual that are claimed to be protected activity;
- (B) responses to, or analyses of, such request(s) or statement(s);
- (C) policies or decisions, formal or informal, that may apply to such request(s) or statements(s); and
- (D) to the extent relevant to the Complaint or investigation (e.g., if the possible violation includes disparate treatment based on protected activity), the contents of "personnel files" (as defined by C.R.S. § 8-2-129(c)) of the Complainant and "other[s] ... holding positions similar to that held or sought by the aggrieved person and application forms or test papers completed by an unsuccessful applicant and by all other candidates for the same position as that for which the aggrieved person applied and was rejected" (29 C.F.R. § 1602.14).

**3.3.6** A Complainant may withdraw a Complaint at any time before issuance of a determination by notifying the Division in writing. Additionally, for a Complaint under PHEW, HFWA, or the ALRA:

- (A) whether or not a Complainant requests Complaint withdrawal or a Notice of Right to Sue, the Division may exercise its discretion to terminate an investigation at any time, in which case it will promptly send a Notice of Right to Sue; and
- (B) if a Determination has not been sent by 180 days after the date the Division notifies the Claimant of its decision to investigate, the Complainant may request a Notice of Right to Sue, and the Division will respond within 30 days by sending either **(1)** the determination or **(2)** a Notice of Right to Sue indicating that the Division has terminated the investigation and that the Complainant has exhausted administrative remedies if required to do so.

### **3.4** Burdens of proof and production.

**3.4.1** Complaints of retaliation are analyzed as follows, with the preponderance of the evidence standard applying to all burdens of proof.

- (A) The Complainant has the burden of proving all elements of a Claim, including that unlawful retaliation occurred. The Respondent must explain which, if any, allegations it disputes. Any evidence probative of a relevant issue may be submitted or considered. If an agricultural employer takes an "adverse action" (as

defined in C.R.S. § 8-2-206(1)(a)) against an agricultural employee within 90 days of protected activity, under C.R.S. § 8-2-206(3)(b), that creates a rebuttable presumption of retaliation, shifting the burden of proof to the Respondent to offer any such rebuttal.

- (B) If the Complainant proves unlawful retaliation or discrimination was a motivating factor for the complained-of practice, then a violation is proven. However, if a violation is proven but the Respondent proves that the complained-of practice would have occurred for another lawful reason, then the Division shall not award reinstatement, back pay, or front pay as of the date the practice would have occurred.

**3.4.2** Complaints of interference or failure to provide any required notice are analyzed as follows, with the preponderance of the evidence standard applying to all burdens of proof.

- (A) The Complainant has the burden of proving all elements of a Claim, including that unlawful interference or failure to provide required notice occurred. The Respondent must explain which, if any, allegations it disputes. Any evidence probative of a relevant issue may be submitted or considered.
- (B) If the Complainant meets its burden of proof, then a violation is proven. However, if a violation is proven but the Respondent proves that the complained-of practice would have occurred for another lawful reason, then the Division shall not award reinstatement, back pay, or front pay as of the date the practice would have occurred.

### **3.5 Determinations.**

**3.5.1** Upon conclusion of the investigation of a Complaint, the Division will issue a determination. The Division shall notify the parties on the date the determination is issued by the Division's compliance investigator by sending (a) a copy of the determination; and (b) notice of the parties' termination and appeal rights.

**3.5.2** The date of "issuance" of the Division's determination is the date the Division's determination is "sent." Both the termination and appeal deadlines are calculated from the date the Division's determination is originally issued and sent to the parties.

**3.5.3** Determinations by the Division may include the following remedies and orders, depending on which, if any, the Division's findings support:

- (A) monetary or other relief authorized by the statute(s) under which the Complaint was filed, including but not limited to, where applicable --
  - (1) any unpaid wages, penalties, finer, and/or other remedies ~~finer~~ under C.R.S. Title 8, Article 4,
  - (2) if a violation of C.R.S. Title 8, Articles 13.3 (HFWA) or 14.4 (PHEW) cost an employee or worker a job or pay, back pay plus either reinstatement or (if reinstatement is infeasible) front pay for a reasonable period,
  - (3) the greater of actual damages or ten thousand dollars for each violation of the ALRRA, as stated in C.R.S. §§ 8-2-206 and 8-13.5-204, and/or
  - (4) other fines or penalties authorized by statutes applicable to the Complaint;
- (B) fines or penalties authorized by the statutes on Division investigative and enforcement authority in C.R.S. Title 8, Articles 1 and 4; and/or
- (C) order(s) to cease non-compliance, effectuate compliance, and/or otherwise

redress direct or indirect consequences of violations, as authorized by the statute(s) under which the Complaint was filed and statutes on Division investigative and enforcement authority, including but not limited to C.R.S. Title 8, Article 1, § 8-2-206(3)(c)(I), Articles 4-6, and § 8-13.5-204(1)(b), (2)(a)(I); and/or

- (D) for any award under C.R.S. § 8-13.5-204 of the ALRRA, the Division's determination must order that any amounts recovered by a whistleblower or key service provider pursuant to the award must be distributed to agricultural workers affected by the violation who can be located, insofar as such disbursement is economically feasible.

**3.6** The Division may exercise its discretion to have an investigation sequenced and/or divided into two or more stages on discrete questions of liability or relief (e.g., bifurcation), yielding two or more determinations and/or phases of the investigation.

**3.7** Appeals.

**3.7.1** Any party to a Claim or determination may appeal the Division's determination. The provisions governing appeals under Rule 6 of the Wage Protection Rules, 7 CCR 1103-7, as amended and modified (or, for direct investigations, Rule 6 of the Direct Investigation Rules, 7 CCR 1103-8, as amended and modified), shall apply to Claims or determinations under these Rules. Parties may not appeal the Division's discretionary decisions as to whether or not to investigate a Complaint.

**3.7.2** An appeal may, in the discretion of the hearing officer, be sequenced and/or divided into two or more stages on discrete questions of liability or relief (e.g., bifurcation), yielding two or more decisions and/or phases of the appeal.

**3.7.3** From the time of the filing of an appeal throughout the appeal, a party or other participant in an appeal must send complete copies of all appeal submissions to the contact information and in the manner designated (a) in the determination and/or any accompanying notices from the Division, and (b) in any subsequent orders or notices from the Division.

**3.8** A certified copy of any citation, notice of assessment, or order imposing relief or remedies may be filed with the clerk of any court having jurisdiction over the parties at any time after the entry of the order. Such a filing can be in a county or district court, and will thereby have the effect of a judgment from which execution may issue.

**3.9** [To the extent applicable, Wage Protection Rule 7, 7 CCR 1103-7, is incorporated by reference.](#)

**3.10** [To the extent applicable, Wage Protection Rule 8, 7 CCR 1103-7, is incorporated by reference.](#)

#### **Rule 4. Notice and Posting Rights and Responsibilities**

**4.1** Poster requirements. A poster informing all employees and workers of their rights under HFWA and PHEW must be posted, displayed, or otherwise provided by employers and principals, as required by C.R.S. § 8-13.3-408 (HFWA), and C.R.S. § 8-14.4-103 (PHEW). All agricultural employers must post a notice of agricultural employees' rights under Part 2 of Article 13.5 of Title 8, C.R.S., as required by C.R.S. § 8-13.5-202.

**4.1.1** The poster(s) must specify:

- (A) for those covered by HFWA, (1) the amount of paid sick leave to which employees are entitled, and (2) the terms of its use;
- (B) for those covered by PHEW, (1) the right to raise reasonable concerns about workplace violations of government health or safety rules, or otherwise significant

workplace health or safety threats, ~~related to a public health emergency,~~ and (2) the right to wear one's own personal protective equipment, such as a mask, faceguard, or gloves, if it provides a higher level of protection than already-provided equipment, is recommended by a governmental public health agency with jurisdiction over the workplace, and does not render the worker incapable of performing the job-its duties;

- (C) for those covered by either HFWA or PHEW, (1) that it is unlawful to retaliate for or interfere with HFWA or PHEW rights, and (2) that a complaint may be filed if retaliation, interference, or another denial of HFWA or PHEW rights occurs; and
- (D) for those covered by the ALRRA, all rights under Part 2 of Article 13.5 of Title 8, C.R.S., and rules issued pursuant to and as implementation of those provisions, including: (1) § 202 of Part 2 (access to key service providers, visitors, and employee residences); (2) § 203 of Part 2 (protections from heat illness and injury; restrictions on short-handled hoe and other short-handled tool use; and for hand-weeding/thinning, additional rest as well as gloves and knee pads); and (3) § 204 of Part 2 (procedures and remedies for enforcement of Part 2 rights); and (4) the Agricultural Labor Conditions Rules, 7 CCR 1103-15.

**4.1.2** Employers and principals may use the latest version of the "Colorado Workplace Public Health Rights Poster" (provided by the Division at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov)) to satisfy the poster requirements of both HFWA and PHEW. Agricultural employers may use an up-to-date "Agricultural Labor Rights and Responsibilities Poster" published by the Division or, at any time such a poster is unavailable, an up-to-date version of an Interpretive Notice and Formal Opinion on agricultural labor rights and responsibilities published by the Division, to satisfy the poster requirements of the ALRRA. Employers and principals may comply by using another poster that contains all substantive information in the "Colorado Workplace Public Health Rights Poster," and if applicable, in an "Agricultural Labor Rights and Responsibilities Poster," and otherwise satisfies all statutory and rule requirements.

**4.1.3** The poster(s) shall be displayed in each establishment where employees or workers work, in a conspicuous location frequented by employees or workers where it may be easily read during the workday, and in all places where notices concerning the rights and safety of employees or workers are customarily posted — such as in break rooms, on employee bulletin boards, and/or adjacent to time clocks, department entrances, and/or facility entrances. In addition:

- (A) Agricultural employers must post an "Agricultural Labor Rights and Responsibilities Poster" or equivalent posting at any employer-provided housing, and must post it electronically, including by e-mail and on an intranet or internet site, if the agricultural employer customarily communicates with agricultural employees by these means.
- (B) If the work site or other conditions make a physical posting of the "Colorado Workplace Public Health Rights Poster" impractical (including remote work, private residences employing only one worker, and certain entirely outdoor work sites lacking an indoor area), the employer or principal shall provide a copy of the poster to each employee or worker within their first month of work, including through (if information is customarily disseminated to the employees or workers through these means) either electronic communication or conspicuous posting in a web-based platform.

## **4.2** Notice and Guidance Requirements.

**4.2.1** A written HFWA notice shall be provided to each employee, in addition to the poster requirement.

- (A) The written HFWA notice to each employee shall specify the same information specified in Rule 4.1.1 for those covered by HFWA.
- (B) Employers may use the latest version of the “Colorado Workplace Public Health Rights Poster” (provided by the Division at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov)) to satisfy the written notice requirements of HFWA. Employers may comply by using another written notice that contains all substantive information in the “Colorado Workplace Public Health Rights Poster” and otherwise satisfies all statutory and rule requirements.
- (C) Including the written HFWA notice among other employment-related documents (such as a handbook, a manual, or other written or posted policies) complies with this written notice requirement, as long as the documents are provided either:
  - (1) in hard copies given to each employee; or
  - (2) in electronic form, if the employee --
    - (a) can easily access the documents electronically, and
    - (b) is provided actual notice that the documents contain information regarding their terms of employment, not just a link that fails to so notify the employee.

**4.2.2** Under C.R.S. § 8-14.4-109 of the ALRRA, during a public health emergency, as defined in C.R.S. § 8-14.4-109(2), a principal engaged in agricultural employment (as defined in C.R.S. § 8-13.5-201(2)) must also provide resources to agricultural employees as follows.

- (A) Employers must “provide informational and educational materials through posters and pamphlets written in English and Spanish and any other relevant languages [...as defined in Rule 4.3, that (1)] lists the contact information for the migrant farm worker division of Colorado Legal Services, or its successor organization, where a worker may receive free and confidential legal services; and [...(2)] informs the workers regarding federal and state guidance concerning [...the] public health emergency.”
- (B) These materials must be provided “in employer-provided housing, work sites, and other places where the principal usually posts information for the workers[.]” If materials are damaged or removed, they must be replaced within 48 hours of damage or removal.
- (C) An employer may comply with the public health emergency guidance portion of these requirements by providing a copy (including an electronic copy, if the employer customarily communicates to the employees in this form) of up-to-date guidance ~~recommended~~ by the Occupational Safety and Health Administration (OSHA) as to workplace conditions in a public health emergency (as of the publication of these rules, available at <https://www.osha.gov/coronavirus/safework>) and ~~guidance~~ by the Colorado Department of Public Health and Environment (CDPHE) ~~that is (a) related to the public health emergency; and (b) relevant to agricultural employees~~ (as of publication of these rules, available at <https://covid19.colorado.gov/guidance-for-businesses-communities>~~<https://covid19.colorado.gov/guidance-for-the-agriculture-industry>~~).
- (D) Employers must also “provide training to workers concerning safety precautions and protections during [...the] public health emergency.” An employer may comply with these requirements by training workers in accordance with federal OSHA ~~recommendations~~ or CDPHE recommendations ~~applicable to agriculture~~.

- 4.3** Posters and notices required by these Rules shall be in English and any language that is the first language spoken by at least five percent of the employer's or principal's workforce. The "Colorado Workplace Public Health Rights Poster" (provided by the Division at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov)) is available in multiple languages. The "Agricultural Labor Rights and Responsibilities Poster" will also be made available in multiple languages. If an employer or principal needs the poster in a language not already provided, it has 30 days to procure a translation, and may ask the Division for a translation, which the Division will endeavor to provide if feasible.
- 4.4** Employers or principals shall be deemed noncompliant if they attempt to minimize the effect of posters or notices required by statute or these Rules, such as by communicating positions contrary to, or discouraging the exercise of rights covered in, the required poster or notice.
- 4.5** The poster and written notice rights and responsibilities of PHEW, C.R.S. § 8-14.4-103, HFWA, C.R.S. § 8-13.3-408, and ALRRA, C.R.S. § 8-13.5-202, have applied since each statute took effect on July 11, 2020, July 14, 2020, and June 25, 2021, respectively, and will be interpreted in conformity with these Rules. Employers and principals will be deemed compliant if they executed required posting(s) and/or notice(s) within 30 days of the applicable statutory effective date.
- 4.6** Violation of these poster or notice requirements may subject the violator to:
- (A) fines pursuant to C.R.S. § 8-1-140;
  - (B) additional fines for willful violations pursuant to C.R.S. § 8-13.3-408(4); and/or
  - (C) in the event that the violator also committed another violation of HFWA or PHEW, fines in the maximum amount available for that violation under HFWA (pursuant to C.R.S. §§ 8-4-111, 8-4-113, 8-13.3-407(5)) or PHEW (pursuant to C.R.S. § 8-14.4-105(3)).

## **Rule 5. Protected Activity under PHEW**

- 5.1** For the PHEW provision that raising a "concern about workplace violations of government health or safety rules, or about an otherwise significant workplace threat to health or safety, ~~related to a public health emergency~~" is protected against retaliation if the worker's belief as to a violation or threat is, whether or not correct, was "reasonable" and "in good faith" (C.R.S. § 8-14.4-102(1)):
- 5.1.1** relevant evidence includes a recommendation, research, guidance, or other information from or provided by a public health agency (federal, state, or local), a major medical association, a major industry-specific trade association, a major public health organization, or another similarly reliable source; and
  - 5.1.2** the worker, whether or not citing a specific rule or guideline, must state what action, condition, or situation they believe constitutes a qualifying violation of a rule regarding, or significant threat to, workplace health or safety.
- 5.2** For protected use of a worker's own personal protective equipment ("PPE") under PHEW, the requirements of C.R.S. §§ 8-14.4-102(a)-(c) are conjunctive: PHEW protection for PPE use applies only if the PPE provides a higher level of protection as required by 102(a), is recommended by an applicable public health agency as required by 102(b), *and* does not render the worker incapable of performing as required by 102(c).
- 5.2.1** For the C.R.S. § 8-14.4-102(3)(a) requirement that a worker's PPE "provides a higher level of protection than the equipment provided by the principal":
    - (A) the provisions of Rule 5.1.1 as to relevant information apply;
    - (B) information may not be relied on if, before the worker either brought the PPE to work or communicated about the PPE with the principal, the information was repealed or otherwise repudiated by the person or entity who provided it, but information may still be relied on if, though no longer publicly published, it was not

repealed or repudiated;

- (C) if principal-provided PPE of the same type is either cleaned or replaced, the worker's own PPE must also be either cleaned or replaced; and
- (D) the requirement is not met if the PPE is more protective of the worker yet less protective of others (e.g., a mask with a vent releasing air that, even if highly protective for the wearer, is less protective for others).

**5.2.2** For the C.R.S. § 8-14.4-102(3)(b) requirement that PPE is "recommended by a federal, state, or local public health agency with jurisdiction over the worker's workplace," the provisions of Rule 5.2.1(B) as to relevant information apply.

**5.2.3** Special cases as to the requirements of C.R.S. §§ 8-14.4-102(3)(a) (that the PPE "provides a higher level of protection than the equipment provided by the principal") and 8-14.4-102(3)(b) (that the PPE "is recommended by a federal, state, or local public health agency with jurisdiction over the worker's workplace").

(A) If a principal provides a worker *no* face covering during (1) a public health emergency related to an airborne pathogen, or (2) a governmental public health recommendation of a face covering for those in the worker's occupation, then (3) a worker using their own face covering presumptively meets the C.R.S. §§ 8-14.4-102(3)(a)-(b) requirements ("higher level of protection" and "recommended"), without need for further evidence or inquiry, unless the principal proves that the worker's face covering is worse than none at all.

(B) If a principal (1) provides a form of PPE (e.g., a mask) that is compliant with all applicable recommendations by federal, state, and local public health agencies with jurisdiction over the workplace, and (2) procures that PPE from a provider it knows to provide reliable PPE (from experience prior to obtaining the particular item it is providing to a worker wishing to use their own PPE), then (3) a worker may use their own PPE of the same type (e.g., a different mask) only if it was obtained from a reliable provider, whether or not the principal's provider.

**5.2.4** An unlawful decision to disallow a worker from wearing PPE that they are permitted to use under C.R.S. §§ 8-14.4-102(3)(a)-(c) is an adverse action, and may qualify as a constructive discharge if all of the following apply:

- (A) the principal fails to remedy the unlawful decision immediately;
- (B) working without the PPE would increase a substantial threat to health or safety for any person; and
- (C) the worker terminates the work for the principal because of unwillingness to work without the PPE.

## **NOTICE OF PUBLIC HEARING CONCERNING PROPOSED RULES**

Notice is hereby given of a public hearing to afford all interested persons an opportunity to be heard prior to adoption of the below **four sets of proposed rules**, under authority granted to the Division of Labor Standards and Statistics by the Administrative Procedure Act, C.R.S. § 24-4-103, provisions of C.R.S. Title 24, Article 92, and C.R.S. Title 8, Articles 1-4, 6, 12, 13.3, 13.5, 14.4, and 17; and § 15 of Art. XVIII of the Colorado Constitution.

The proposed changes to Colorado labor rules include:

1. Implementing and enforcing three laws recently enacted:
  - (a) Senate Bill 22-161, which amends wage-and-hour responsibilities, mostly with additional responsibilities to pay wages due, including: new procedures for certain kinds of deductions; protection against retaliation related to wage rights; worker misclassification reporting; and various aspects of wage rights enforcement, including new statutory provisions as to fines and penalties, attorney fees for retaliation or higher-value wage claims, collections where ordered payments are not made, and collaboration between DLSS and other branches of state government;
  - (b) Senate Bill 22-097, which amends whistleblower retaliation rights and responsibilities to cover a range of health and safety matters, not just those related to a public health emergency;
  - (c) Senate Bill 19-196, which requires paying prevailing wages to construction laborers on state public projects.
2. Implementing the annual adjustment of the minimum wage, as mandated by the Colorado Constitution, and other related minimum wage and salary figures adjusted annually; and
3. Other non-substantive or procedural changes to labor rules suggested or proposed, based on stakeholder input or other developments that warrant rule changes.

For the details of each proposed rule, see the text of the accompanying proposed draft rules, as well as the proposed statement of basis and purpose that accompanies each set of rules.

**(1) Wage Protection Rules, 7 CCR 1103-7.** These rules amend the prior version of the Wage Protection Rules, which implement labor laws within the jurisdiction of the Division, including but not limited to the Colorado Wage Act (CWA) as amended by (among other laws) the Wage Protection Act of 2014 (WPA) and Colorado Senate Bill 22-161, C.R.S. § 8-4-101 et seq.; the Healthy Families and Workplaces Act (HFWA) of 2020, C.R.S. § 8-13.3-401 et seq.; and the Agricultural Labor Rights and Responsibilities Act, as codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq.

**(2) Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules (“Colorado WARNING Rules”), 7 CCR 1103-11.** These rules amend the prior version of the Colorado WARNING Rules, the Division’s existing rules governing retaliation, interference, and notice of rights under several Division-enforced statutes.

**(3) 2023 Publication And Yearly Calculation of Adjusted Labor Compensation (“2023 PAY CALC”) Order, 7 CCR 1103-14 (2023).** The PAY CALC Order publishes inflation-adjusted and other annually updating values applied in the Colorado Overtime and Minimum Pay Standards (“COMPS”) Order, 7 CCR 1103-1.

**(4) Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6.** The “Prevailing Wage and Residency Rules” is a revised rule set combining the Division’s existing rule set regarding the Keep Jobs in Colorado Act (KJICA), C.R.S. § 8-17-101 et seq. (previously titled the “Keep Jobs in Colorado Act Rules”), with a new set of requirements from the Colorado Quality Apprenticeship Training Act of 2019 (Prevailing Wage Act or PWA), C.R.S. § 24-92-201 et seq.

**Public Hearing Information:**

Date and Time of Hearing: **Tuesday, November 1, 2022, from 3:00 pm until at least 6:00 pm.** Division will stay until at least 6:00 pm, or longer if by that time anyone still wishes to speak, to assure opportunity for anyone who may wish to attend in the early evening. You need not arrive by a particular time or stay the entire meeting.

Written Comment Deadline for the above rules: **Thursday, November 3, 2022, at 5:00 pm**

The Division is administering this public hearing, and all interested persons are free to offer oral testimony and to listen to part or all of the hearing. However, due to the current public health crisis, **participation will be primarily by remote means**, with limited in-person participation at the Division by RSVP only and subject to (A) space limitations and (B) the possibility of a decision, which would be announced on the [rulemaking page](#) no later than 24 hours before the meeting, as to whether the public health situation permits in-person attendance or requires an exclusively remote hearing. While not required, we request and highly recommend that **anyone interested in oral testimony use this [rulemaking comment form](#) to RSVP**, because at the hearing, after those in person speak, we will then call on those who RSVP'd to speak, followed by testimony from others by remote means. A recording of the public hearing will be publicly posted afterwards on our [rulemaking page](#).

Written comments may be submitted by: 1) our online [rulemaking comment form](#); 2) mail to the below address; 3) fax to 303-318-8400; or 4) email to [michael.primo@state.co.us](mailto:michael.primo@state.co.us). Because **written comments become part of the same record as oral testimony**, and are reviewed by the same officials, **you may submit written comments in lieu of oral testimony**, but are free to participate by both means.

**Instructions for Hearing Participation:** Either of the below options will work to participate, but for orderly administration of participation, and to avoid possible audio feedback, please do not use both simultaneously. *(You do not need to have a Google account to access any of the below means.)*

- (A) **To Participate by Internet, Including Testifying:**  
visit this "Meet" webpage: [meet.google.com/hcx-tpbo-mtr](https://meet.google.com/hcx-tpbo-mtr)
- (B) **To Participate by Phone, Whether to Listen or to Testify:**  
call (US) +1 929-276-0796, and then enter this pin: 807 708 207#
- (C) **To Participate in Person:** (633 17th Street, Denver, CO, 80202, Room 12A on the 12th floor)  
RSVP via our [rulemaking comment form](#) to attend in person.

Please contact [michael.primo@state.co.us](mailto:michael.primo@state.co.us) with any questions about how to access either the public hearing or its recording, or **if you need accommodations or translation services** to attend or participate. This public hearing is held in accordance with the Colorado Administrative Procedure Act, C.R.S. § 24-4-101 et seq., and Colorado Open Meetings Law, C.R.S. § 24-6-401 (2022), to receive any testimony, written, views, or arguments that interested parties wish to submit regarding the proposed rules.

Copies of proposed rules, including redlined copies showing changes from prior versions, and statements of basis and purpose further detailing the proposed rules, are available at [www.ColoradoLaborLaw.gov](http://www.ColoradoLaborLaw.gov) or by request to: **Division of Labor Standards and Statistics, 633 17th Street, Denver, Colorado 80202.**

## **STATEMENT OF BASIS, PURPOSE, SPECIFIC STATUTORY AUTHORITY, AND FINDINGS**

**Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules  
("Colorado WARNING Rules"), 7 CCR 1103-11 (2023), as proposed September 29, 2022;  
to be followed and replaced by a final Statement at the conclusion of the rulemaking process.**

**I. BASIS:** These amendments to the Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules ("Colorado WARNING Rules") serve important public needs that the Director of the Division of Labor Standards and Statistics (hereinafter, "Director" and "Division") finds best served by these rule updates, amendments, and supplements, including but not limited to implementing, and clarifying enforcement of, recent changes to Colorado labor law in the Agricultural Labor Rights and Responsibilities Act, Colorado Senate Bill 21-087 ("ALRRA") as amended by Colorado House Bill 22-1313, the Protected Health/Safety Expression and Whistleblowing Act ("PHEW"), C.R.S. § 8-14.4-101, et. seq., as amended by Colorado Senate Bill 22-097; the Colorado Wage Act, C.R.S. Title 8, Article 4, as amended by Colorado Senate Bill 22-161, as well as in other recently effective laws, including but not limited to: the Public Health Emergency Whistleblower Act of 2020, C.R.S. § 8-14.4-101, et seq.; the Healthy Families and Workplaces Act ("HFWA"), C.R.S. § 8-13.3-401, et seq.; the Equal Pay for Equal Work Act ("EPEWA"), C.R.S. §§ 8-5-101 et seq.; the Chance to Compete Act, C.R.S. § 8-2-130; the Wage Protection Rules, 7 CCR 1103-7; and the Colorado Overtime and Minimum Pay Standards ("COMPS") Order, 7 CCR 1103-1.

**II. SPECIFIC STATUTORY AUTHORITY:** The Director is authorized to adopt regulations and rules to enforce, execute, implement, apply, and interpret Articles 1–6, 12, 13.3, 13.5, and 14.4 of C.R.S. Title 8, and all rules, regulations, investigations, and proceedings thereunder, by the Administrative Procedure Act, C.R.S. § 24-4-103, and provisions of the above-listed Articles, including but not limited to: C.R.S. §§ 8-1-101, -103, -107, -108, -111, -116, -117, -130; 8-2-130, -206; 8-4-110, -111, -113, -120; 8-5-203; 8-6-102, -104, -105, -106, -108, -109, -111, -116, -117; 8-12-115; 8-13.3-403, -407, -408, -409, -410; 8-13.5-204; and 8-14.4-103, -105, and -108.

**III. FINDINGS, JUSTIFICATIONS, AND REASONS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(4)(b), the Director finds as follows: **(A)** demonstrated need exists for these rules, as detailed in the findings in Part IV, which are incorporated into this finding as well; **(B)** proper statutory authority exists for the rules, as detailed in the list of statutory authority in Part II, which is incorporated into this finding as well; **(C)** to the extent practicable, the rules are clearly stated so that their meaning will be understood by any party required to comply; **(D)** the rules do not conflict with other provisions of law; and **(E)** any duplicating or overlapping has been minimized and is explained by the Division.

**IV. SPECIFIC FINDINGS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(6), the Director finds as follows.

**A. Rule 2.18: Definitions under C.R.S. § 8-4-120**

Rule 2.18 defines both "filed any complaint," and "proceeding," under C.R.S. § 8-4-120(a)-(b) which already existed in the Colorado Wage Act, but to clarify the scope of the protected activity the Division now has authority to investigate and order remedies for, under Colorado Senate Bill 22-161 ("SB161").

**B. Rule 2.19: Definition of "public health agency" as used in C.R.S. § 8-14.4-102(3)(b)**

Rule 2.19 defines "public health agency" under C.R.S. § 8-14.4-102(3)(b) for the purposes of clarifying which agencies' recommendations concerning personal protective equipment fall within the scope of protected activity related to the wearing of personal protective equipment under C.R.S. § 8-14.4-102(3) and WARNING Rule 5.2.

**C. Rule 3.5.3(A)(1): Remedies and Orders in Determinations by the Division**

Rule 3.5.3(A)(I) is revised to conform with SB161, which amended the Division's authority to investigate retaliation claims under the Colorado Wage Act, C.R.S. § 8-4-120, and addresses the authority of the Division to order relief in cases where a violation is found to include the legal and equitable remedies listed in C.R.S. § 8-4-120(3)(a). Rule 3.5.3(A)(I) addresses this new authority to order wages, fines, penalties, and other remedies as listed in the statute.

**D. Rule 3.9: Attorney Fees and Costs & Rule 3.10: Administrative Liens and Levies**

Rule 3.9 adds, by incorporating proposed Rule 7 of the Wage Protection Rules, 7 CCR 1103-7, procedures for parties to apply for attorney fees and costs, to dispute another parties' application for attorney fees or costs, and to appeal any award. This authority already existed under certain laws implemented by the Colorado WARNING Rules (e.g.,

PHEW at C.R.S. § 8-14.4-105(3)(a), and the ALRRA at C.R.S. § 8-2-206(3)(c) and 8-13.5-204(1)(b), (2)(a)(III)). However, because SB161 expanded the Division's authority to order attorney fees and costs in wage claims to the extent that it necessitated a rule change, the Division proposes the same procedure here.

Similarly, SB161 gave the Division authority to issue notices of administrative liens and levies against the assets of employers or other persons or entities who fail to pay wages, penalties, or fines due. Rule 3.10 incorporates the procedures detailed in Wage Protection Rule 8 to the extent applicable here.

**E. Rules 4.1.1(B) Poster Requirements; and Rule 5.1 Protected Activity under PHEW**

Rules 4.1.1(b) and 5.1 are revised to conform with Colorado Senate Bill 22-097, which amended the PHEW requirement that "raising any reasonable concern about workplace violations of government health or safety rules, or about an otherwise significant workplace threat to health or safety," be "related to a public health emergency."

**F. Rule 4.2.2 Employer Compliance with Public Health Emergency Requirements under ALRRA**

Rule 4.2.2 is revised to conform with Colorado House Bill 22-1313, which amended the ALRRA's requirements for employer-provided housing during a public health emergency in C.R.S. § 8-14.4-109. Among these amendments, C.R.S. § 8-14.4-109(2) added a definition of "public health emergency" specific to rights in agricultural employment, which is incorporated here. Additionally, the rule is revised to reflect updated guidance from the Colorado Department of Public Health and Environment and the Occupational Safety and Health Administration, and with clarifying edits.

**V. EFFECTIVE DATE.** If adopted, these rules take effect January 1, 2023, or as soon after as rulemaking completes.

## DEPARTMENT OF LABOR AND EMPLOYMENT

### Division of Labor Standards and Statistics

#### 20232 Publication And Yearly Calculation of Adjusted Labor Compensation (20232 PAY CALC) Order

#### 7 CCR 1103-14

As proposed on September 29, 2022~~Adopted November 10, 2021;~~ if adopted, to be effective January 1, 20232.

#### Rule 1. Statement of Purpose, Requirements, and Calculations.

- 1.1 This Publication And Yearly Calculation of Adjusted Labor Compensation Order ("PAY CALC Order"), 7 CCR 1103-14, publishes values that adjust periodically under the Colorado Overtime and Minimum Pay Standards Order ("COMPS Order"), 7 CCR 1103-1, or other laws.
- 1.2 Coverage and Application. Following are the 20232 minimum pay and income levels and future adjustments in each cited COMPS Order rule, and/or mandated by constitutional, statutory, or rule provisions the COMPS Order implements, or from which it derives.

	Minimum Pay Level in COMPS Order Rule	20232 Level (Yearly Calculation)	Future Annual Adjustments
(A)	Full Colorado minimum wage (R. 3.1)	<del>\$13.65</del> <u>\$12.56</u> per hour	Last year's minimum adjusted by CPI (Consumer Price Index) for Colorado
(B)	Amount of minimum wage that employers must pay to tipped employees (R. 1.10, 6.2.3)	<del>\$10.63</del> <u>\$9.54</u> per hour to the extent that adding tips raises total pay to full minimum wage	<del>\$3.02</del> per hour below full minimum wage to the extent that adding tips raises total pay to full minimum wage
(C)	Minimum wage for non-emancipated minors (R. 3.3)	<del>\$11.61</del> <u>\$10.68</u> per hour	15% below full minimum wage
(D)	Minimum pay for agricultural range workers (R. 2.4.9)	<del>\$559.29</del> <u>\$15.00</u> per week	Prior year's level adjusted by inflation
(E)	Executive/supervisor, administrative, or professional employees ("EAP") (R. 2.5.1); certain owners or proprietors of non-profit employers (R. 2.2.5); decision-making managers at livestock employers (R. 2.4.8)	<del>\$961.54</del> <u>\$865.38</u> per week (\$ <del>5045,000</del> <u>5,000</u> rounded annual equivalent); and sufficient for the minimum wage for all hours worked in a workweek	Per week, <del>\$961.54 in 2023 (\$50,000 rounded annually);</del> <u>\$1,057.69</u> in 2024 (\$55,000 rounded annually), and the prior year's level adjusted by CPI each year as of 2025
(F)	Highly technical computer employees (R. 2.5.2, 2.2.10)	<del>\$31.41</del> <u>\$28.92</u> per hour or the EAP salary above (item row E)	Prior year's hourly wage adjusted by inflation, or the EAP salary above
(G)	Highly compensated employees (R. 2.2.11)	<del>\$112,500</del> <u>\$101,250</u> annually, and the EAP salary (row E) weekly	The annual EAP salary (row E) multiplied by 2.25
(H)	Certain drivers and driver's helpers (R. 2.4.6)	<del>\$750.75</del> <u>\$690.80</u> per week	Based on Colorado minimum wage each year
(I)	Certain seasonal camp or	Full minimum wage or, per	Based on Colorado minimum wage

)	outdoor education field staff (R. 2.2.7(E))	week: <del>\$373.30</del> <sup>327.52</sup> (adults) or <del>\$287.62</del> <sup>248.39</sup> (minors); except at non-profits with up to \$25 million in revenue, <del>\$277.75</del> <sup>239.60</sup> (adults) or <del>\$206.35</del> <sup>160.47</sup> (minors)	each year-
---	---	--	------------

- 1.3 Additional Requirements. Many of the referenced COMPS Order rules have other requirements aside from a minimum pay level, including but not limited to: an employee having duties that qualify for exemption; an employee receiving sufficient tips to allow for a tip credit to be taken; and an employer paying any higher applicable federal, local, or minimum wage.

## **Rule 2. Authority, Construction, and Definitions**

- 2.1 Authority and Incorporation by reference. This PAY CALC Order is issued under the authority and as enforcement of Section 15 of Article XVIII of the Colorado Constitution and Articles 1, 4, 6, and 12 of C.R.S. Title 8 (202<sup>32</sup>), and is intended to be consistent with the State Administrative Procedures Act, C.R.S. § 24-4-101, et seq. Hereby incorporated by reference into this rule are 29 C.F.R. Part 541 Subpart G; Colo. Const. art. XVIII, § 15 (202<sup>32</sup>); Title 8, Articles 1, 4, 6, 12, and 13.3 of the Colorado Revised Statutes (202<sup>32</sup>); the COMPS Order, 7 CCR 1103-1 (202<sup>32</sup>); the Wage Protection Rules, 7 CCR 1103-7 (202<sup>32</sup>); and the Direct Investigation Rules, 7 CCR 1103-8 (202<sup>32</sup>). Earlier versions of such laws and rules may apply to events that occurred in prior years. Incorporation excludes later amendments to or editions of the constitution, statutes, and rules; all cited laws are incorporated in the forms that are in effect as of the effective date of this PAY CALC Order. Where these Rules reference another rule, the reference shall be deemed to include all subparts of the referenced rule. Where these Rules have provisions different from or contrary to any incorporated or referenced material, the provisions of these Rules govern, so long as they are consistent with Colorado statutory and constitutional provisions. All sources cited or incorporated by reference are available for public inspection at the Colorado Department of Labor and Employment, Division of Labor Standards & Statistics, 633 17th Street, Denver CO 80202. Copies may be obtained from the Division at a reasonable charge or can be accessed from the website of the Colorado Secretary of State. Pursuant to C.R.S. § 24-4-103(12.5)(b), the agency shall provide certified copies of them at cost upon request or provide the requestor information on how to obtain a certified copy of the material incorporated by reference from the agency originally issuing them. All Division rules are publicly available at [www.coloradolaborlaw.gov](http://www.coloradolaborlaw.gov).
- 2.2 Administration and Dual Jurisdiction. The Division shall have jurisdiction over all questions arising with respect to the administration and interpretation of this PAY CALC Order. Whenever employers are subjected to Colorado law as well as federal and/or local law, the law providing greater protection or setting the higher standard shall apply. For information on federal law, contact the U.S. Department of Labor, Wage and Hour Division.
- 2.3 Separability. These Rules are intended to remain in effect to the maximum extent possible. If any part (including any section, sentence, clause, phrase, word, or number) is held invalid, (A) the remainder of the Rules remain valid, and (B) if the provision is held not wholly invalid, but merely in need of narrowing, the provision should be retained in narrowed form.
- 2.4 "Division" means the Division of Labor Standards and Statistics in the Colorado Department of Labor and Employment.

## **NOTICE OF PUBLIC HEARING CONCERNING PROPOSED RULES**

Notice is hereby given of a public hearing to afford all interested persons an opportunity to be heard prior to adoption of the below **four sets of proposed rules**, under authority granted to the Division of Labor Standards and Statistics by the Administrative Procedure Act, C.R.S. § 24-4-103, provisions of C.R.S. Title 24, Article 92, and C.R.S. Title 8, Articles 1-4, 6, 12, 13.3, 13.5, 14.4, and 17; and § 15 of Art. XVIII of the Colorado Constitution.

The proposed changes to Colorado labor rules include:

1. Implementing and enforcing three laws recently enacted:
  - (a) Senate Bill 22-161, which amends wage-and-hour responsibilities, mostly with additional responsibilities to pay wages due, including: new procedures for certain kinds of deductions; protection against retaliation related to wage rights; worker misclassification reporting; and various aspects of wage rights enforcement, including new statutory provisions as to fines and penalties, attorney fees for retaliation or higher-value wage claims, collections where ordered payments are not made, and collaboration between DLSS and other branches of state government;
  - (b) Senate Bill 22-097, which amends whistleblower retaliation rights and responsibilities to cover a range of health and safety matters, not just those related to a public health emergency;
  - (c) Senate Bill 19-196, which requires paying prevailing wages to construction laborers on state public projects.
2. Implementing the annual adjustment of the minimum wage, as mandated by the Colorado Constitution, and other related minimum wage and salary figures adjusted annually; and
3. Other non-substantive or procedural changes to labor rules suggested or proposed, based on stakeholder input or other developments that warrant rule changes.

For the details of each proposed rule, see the text of the accompanying proposed draft rules, as well as the proposed statement of basis and purpose that accompanies each set of rules.

**(1) Wage Protection Rules, 7 CCR 1103-7.** These rules amend the prior version of the Wage Protection Rules, which implement labor laws within the jurisdiction of the Division, including but not limited to the Colorado Wage Act (CWA) as amended by (among other laws) the Wage Protection Act of 2014 (WPA) and Colorado Senate Bill 22-161, C.R.S. § 8-4-101 et seq.; the Healthy Families and Workplaces Act (HFWA) of 2020, C.R.S. § 8-13.3-401 et seq.; and the Agricultural Labor Rights and Responsibilities Act, as codified in relevant part at C.R.S. §§ 8-6-101.5, 8-6-120, and 8-13.5-201 et seq.

**(2) Colorado Whistleblower, Anti-Retaliation, Non-Interference, and Notice-Giving Rules (“Colorado WARNING Rules”), 7 CCR 1103-11.** These rules amend the prior version of the Colorado WARNING Rules, the Division’s existing rules governing retaliation, interference, and notice of rights under several Division-enforced statutes.

**(3) 2023 Publication And Yearly Calculation of Adjusted Labor Compensation (“2023 PAY CALC”) Order, 7 CCR 1103-14 (2023).** The PAY CALC Order publishes inflation-adjusted and other annually updating values applied in the Colorado Overtime and Minimum Pay Standards (“COMPS”) Order, 7 CCR 1103-1.

**(4) Prevailing Wage and Residency (PWR) Rules, 7 CCR 1103-6.** The “Prevailing Wage and Residency Rules” is a revised rule set combining the Division’s existing rule set regarding the Keep Jobs in Colorado Act (KJICA), C.R.S. § 8-17-101 et seq. (previously titled the “Keep Jobs in Colorado Act Rules”), with a new set of requirements from the Colorado Quality Apprenticeship Training Act of 2019 (Prevailing Wage Act or PWA), C.R.S. § 24-92-201 et seq.

**Public Hearing Information:**

Date and Time of Hearing: **Tuesday, November 1, 2022, from 3:00 pm until at least 6:00 pm.** Division will stay until at least 6:00 pm, or longer if by that time anyone still wishes to speak, to assure opportunity for anyone who may wish to attend in the early evening. You need not arrive by a particular time or stay the entire meeting.

Written Comment Deadline for the above rules: **Thursday, November 3, 2022, at 5:00 pm**

The Division is administering this public hearing, and all interested persons are free to offer oral testimony and to listen to part or all of the hearing. However, due to the current public health crisis, **participation will be primarily by remote means**, with limited in-person participation at the Division by RSVP only and subject to (A) space limitations and (B) the possibility of a decision, which would be announced on the [rulemaking page](#) no later than 24 hours before the meeting, as to whether the public health situation permits in-person attendance or requires an exclusively remote hearing. While not required, we request and highly recommend that **anyone interested in oral testimony use this [rulemaking comment form](#) to RSVP**, because at the hearing, after those in person speak, we will then call on those who RSVP'd to speak, followed by testimony from others by remote means. A recording of the public hearing will be publicly posted afterwards on our [rulemaking page](#).

Written comments may be submitted by: 1) our online [rulemaking comment form](#); 2) mail to the below address; 3) fax to 303-318-8400; or 4) email to [michael.primo@state.co.us](mailto:michael.primo@state.co.us). Because **written comments become part of the same record as oral testimony**, and are reviewed by the same officials, **you may submit written comments in lieu of oral testimony**, but are free to participate by both means.

**Instructions for Hearing Participation:** Either of the below options will work to participate, but for orderly administration of participation, and to avoid possible audio feedback, please do not use both simultaneously. *(You do not need to have a Google account to access any of the below means.)*

- (A) **To Participate by Internet, Including Testifying:**  
visit this "Meet" webpage: [meet.google.com/hcx-tpbo-mtr](https://meet.google.com/hcx-tpbo-mtr)
- (B) **To Participate by Phone, Whether to Listen or to Testify:**  
call (US) +1 929-276-0796, and then enter this pin: 807 708 207#
- (C) **To Participate in Person:** (633 17th Street, Denver, CO, 80202, Room 12A on the 12th floor)  
RSVP via our [rulemaking comment form](#) to attend in person.

Please contact [michael.primo@state.co.us](mailto:michael.primo@state.co.us) with any questions about how to access either the public hearing or its recording, or **if you need accommodations or translation services** to attend or participate. This public hearing is held in accordance with the Colorado Administrative Procedure Act, C.R.S. § 24-4-101 et seq., and Colorado Open Meetings Law, C.R.S. § 24-6-401 (2022), to receive any testimony, written, views, or arguments that interested parties wish to submit regarding the proposed rules.

Copies of proposed rules, including redlined copies showing changes from prior versions, and statements of basis and purpose further detailing the proposed rules, are available at [www.ColoradoLaborLaw.gov](http://www.ColoradoLaborLaw.gov) or by request to: **Division of Labor Standards and Statistics, 633 17th Street, Denver, Colorado 80202.**

**STATEMENT OF BASIS, PURPOSE, SPECIFIC STATUTORY AUTHORITY, AND FINDINGS**

**2023 Publication And Yearly Calculation of Adjusted Labor Compensation (“2023 PAY CALC”) Order,  
7 CCR 1103-14 (2023), as proposed September 29, 2022; to be followed and replaced  
by a final Statement at the conclusion of the rulemaking process.**

**I. BASIS:** The Director (“Director”) of the Division of Labor Standards and Statistics (“Division”) has authority to adopt rules and regulations on wage-and-hour and workplace conditions, under the authority listed in Part II, which is incorporated into Part I as well.

**II. SPECIFIC STATUTORY AUTHORITY:** These Rules are issued under the authority, and as enforcement, of Section 15 of Article XVIII of the Colorado Constitution and Articles 1, 2, 4, 6, and 12 of C.R.S. Title 8 (2022), and are intended to be consistent with the State Administrative Procedures Act, C.R.S. § 24-4-101, et seq.

**III. FINDINGS, JUSTIFICATIONS, AND REASONS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(4)(b), the Director finds as follows: **(A)** demonstrated need exists for these rules, as detailed in the findings in Part IV, which are incorporated into this finding as well; **(B)** proper statutory authority exists for the rules, as detailed in the list of statutory authority in Part II, which is incorporated into this finding as well; **(C)** to the extent practicable, the rules are clearly stated so that their meaning will be understood by any party required to comply; **(D)** the rules do not conflict with other provisions of law; and **(E)** any duplicating or overlapping has been minimized and is explained by the Division.

**IV. SPECIFIC FINDINGS FOR ADOPTION.** Pursuant to C.R.S. § 24-4-103(6), the Director finds as follows. The PAY CALC Order publishes the inflation-adjusted and other annually updating values applied in the Colorado Overtime and Minimum Pay Standards (“COMPS”) Order, 7 CCR 1103-1.

Section 15 of Article XVIII of the Colorado Constitution, requires that the minimum wage be “adjusted annually for cost of living increases, as measured by the Consumer Price Index [(‘CPI’)] used for Colorado[,]” from the 2020 minimum wage of \$12.00 per hour. CPI values are calculated and published by the federal Bureau of Labor Statistics. The mid-year 2021 to 2022 CPI rise for the Denver-Aurora-Lakewood is 8.6%. Applying this increase to the 2022 minimum wage of \$12.56 yields \$13.64016. To effectuate the mandate of the Colorado Constitution, C.R.S. § 8-6-101(3)(a)(II), and COMPS Order Rule 3.1 that employees must be paid not less than the prior year’s minimum wage adjusted for inflation, the Division must round up, to the nearest cent, any fractional cents yielded by that inflation adjustment, as detailed by COMPS Order Rule 8.9, 7 CCR 1103-1. Accordingly, the minimum wage for 2023 will be \$13.65.

C.R.S. § 8-6-108.5(1) provides that “the minimum wage for minors may be fifteen percent below the minimum wage for other workers.” *See also* COMPS Order, 7 CCR 1103-1, Rule 3.3 (same). Using the 2023 minimum wage of \$13.65, the minimum wage for minors may be no less than \$11.6025; rounding up the applicable minimum wage rate (see above paragraph) sets the 2023 minimum wage rate for minors at \$11.61.

The 2023 PAY CALC Order updates the minimum wage rates and all values derived from those rates (Rules 1.2(A)-(C),(H),(I)), including the Rule 1.2(I) calculation of the minimum salary required for exemption for field staff of seasonal camps or outdoor education programs, as defined in COMPS Order Rule 2.2.7(E), based on the full minimum wage and the minimum wage for minors.

All inflation-based rates (Rules 1.2(D),(F)) are also updated based on the Using the 8.6% inflation rate.

The salary basis for exemption in Rule 1.2(E), applicable to certain COMPS Order exemptions, is updated to the value first set forth in COMPS Order #36 (2020), which provided for phased-in exemption salary amounts. The highly compensated employee exemption salary, set at 2.25 times the exemption salary, is updated accordingly (Rule 1.2(G)).

**V. EFFECTIVE DATE.** If adopted, these rules take effect January 1, 2023, or as soon after as rulemaking completes.

## DEPARTMENT OF LABOR AND EMPLOYMENT

### Division of FAMLI

#### REGULATIONS CONCERNING PAID FAMILY MEDICAL LEAVE PROGRAM

##### 7 CCR 1107-1

[Editor's Notes follow the text of the rules at the end of this CCR Document.]

#### 1.1 Authority

This regulation is adopted pursuant to the authority in section C.R.S. 8-13.3-501 ~~C.R.S.~~ and is intended to be consistent with the requirements of the State Administrative Procedures Act, C.R.S. section 24-4-101 et seq. (the "APA"), ~~C.R.S.~~ and the Paid Family and Medical Leave Insurance Act, C.R.S. sections 8-13.3-501 through 524 (the "Act"), ~~C.R.S.~~

#### 1.2 Scope and Purpose

- A. This Regulation 1.5 and 1.6 implements the procedural and substantive provisions for the Family and Medical Leave Insurance program pursuant to C.R.S. 8-13.3-507, concerning the establishment, collection, and administration of premium collections.
- B. This regulation does not apply to any other premiums, fees, taxes, or collections outlined in unemployment insurance, worker compensation, private temporary disability insurance or private family leave insurance programs or other programs not administered by the Division.

#### 1.3 Applicability

The provision of this Section will apply to employers as defined in C.R.S. 8-13.3-503(8) ~~C.R.S.~~ who are operating within the State of Colorado, no matter what State, county, or territory the employer is physically located in or claims as a base of operations, unless otherwise specified by exemptions in C.R.S. 8-13.3-503 ~~C.R.S.~~ (8) or federal law.

The provisions of this Section will be applicable to self-employed persons who elect coverage under C.R.S. 8-13.3-514 ~~C.R.S.~~ and employees of any local government who elect coverage under C.R.S. 8-13.3-514 ~~C.R.S.~~

If any part of these rules is held invalid, the remainder shall remain valid, and if any part is held not wholly invalid, but in need of narrowing, it will be retained in narrowed form.

#### 1.4 Definitions

"Calendar Quarter" has the same definition as C.R.S. 8-70-103(6) ~~C.R.S.~~

"Division" has the same definition as C.R.S. 8-13.3-503(5) ~~C.R.S.~~

"Employee" has the same definition as C.R.S. 8-13.3-503(7) ~~C.R.S.~~

"Employee share" is defined as 50 percent of the premium required for an employee by section C.R.S. 8-13.3-507(3) ~~C.R.S.~~

Division of FAMLI

---

"Employer" has the same definition as C.R.S. 8-13.3-503(8) ~~C.R.S.~~

"Employer share" is defined as 50 percent of the premium required for an employee by section C.R.S. 8-13.3-507(3) ~~C.R.S.~~

"FAMLI" is defined as the Paid Family and Medical Leave Insurance Act, C.R.S. sections 8-13.3-501 through 524 (the "Act"), ~~C.R.S.~~

"Net earnings from self-employment" has the same meanings as in the Internal Revenue Code at 26 U.S.C. § 1402(a), in effect for the taxable year, and the implementing regulations at 26 CFR § 1.1402(a).

"Gross income" has the same meaning as defined in the Internal Revenue Code at 26 CFR § 1.61-~~21~~ through 1.61-14.

"Individual electing coverage" means an individual who elects FAMLI coverage pursuant to C.R.S. 8-13.3-514.

"My FAMLI+ Employer" means the online portal through which employers and individuals electing coverage report wages and remit premiums pursuant to the FAMLI Act and its implementing regulations.

"Premium" is defined as the money payments required pursuant to C.R.S. 8-13.3-507 ~~C.R.S.~~ to finance the payment of family and medical leave insurance benefits and administer the family and medical leave insurance program.

"Self-Employed Person" or "self-employed individual," as used in the FAMLI Act and its implementing regulations includes individuals who meet the FAMLI Act's two-prong exception to the definition of "employee" at C.R.S. 8-13.3-503(7), is defined to include: an individual worker who is primarily free from external control and direction in the performance of their duties, labor or services, both under the individual's contract for the performance of the labor or services, and those who are customarily engaged in an independent trade, occupation, profession, or business related to the labor or service performed; is a sole proprietor, a joint venturer or a member of a partnership; a member of a limited liability company, or a person who is otherwise in business for themselves.

"Wages" as used in the FAMLI Act and its implementing regulations has the same meaning as C.R.S. 8-70-141, and excludes remuneration described by C.R.S. 8-70-142.

## 1.5 Assessing and Collecting Premiums

### 1.5.1 Election, Withdrawal, and Cancellation of Coverage for Individuals Electing Coverage ~~Self-Employed Persons Regarding Premium Assessment~~

A. Individuals electing coverage ~~Self-employed persons~~ may elect coverage under C.R.S. 8-13.3-514 ~~C.R.S.~~

1. Notice of election of coverage must be submitted to the Division via My FAMLI+ Employer ~~online or in another format approved by the Division~~.
2. Elective coverage becomes effective on the date of filing the notice ~~begins on the first day of the calendar quarter immediately following the notice of the election~~.

## Division of FAMLI

3. A period of coverage is defined as:
  - (a) Three years following the first day of elective coverage or any gap in coverage; and
  - (b) Each subsequent year.
4. Any ~~individual electing coverage~~~~self-employed person~~ may file a notice of withdrawal within thirty calendar days after the end of each period of coverage. The notice of withdrawal must include an effective date of the withdrawal, which must be no sooner than thirty days after the filing of the notice of withdrawal.
5. A notice of withdrawal from coverage must be submitted to the Division online or in another format approved by the Division.
6. Any ~~finer or penalties~~~~levy~~ resulting from the Division's cancellation of coverage is in addition to the due and unpaid premiums and interest for the remainder of the period of coverage.

Formatted: par2

**1.5.2 Determining Wages Earned for Self-Employed Persons Regarding Premium Assessment**

- A. ~~An individual electing coverage must~~~~self-employed person will~~ submit earnings reports and remit premium payments no later than the last day of the month immediately following the end of the calendar quarter for which the premiums have accrued.~~update information with the Division not less than quarterly within the period of coverage to ensure timely and accurate benefit coverage amounts.~~
- B. Pursuant to C.R.S. 8-13.3-507(4)(a)~~C.R.S.~~, ~~an individual electing coverage~~~~self-employed person~~ is required to submit only 50 percent of the premium required for an employee by section C.R.S. 8-13.3-507(3)~~C.R.S.~~ on that individual's income ~~from self employment~~.
- C. Upon electing coverage, self-employed individuals shall choose between reporting gross income or net earnings from self-employment, for purposes of calculating premiums and benefits.~~Not less than each quarter, a self-employed person who has elected coverage under 8-13.3-514 C.R.S. will report to the Division net earnings from self-employment once they have elected to use net earnings as the basis of both premium collection and benefit payments for the three year opt-in period.~~
- D. Not less than each quarter, a self-employed person who has elected coverage under 8-13.3-514 C.R.S. will report to the Division gross earnings from self-employment once they have elected to use gross earnings as the basis for both premium collection and benefit payments for the three year opt-in period. Gross wages from self-employment will be reported as gross wages for a specific quarterly pay period and not gross wages for the year to date.
- E. ~~If a~~ self-employed individual may~~elects~~ to change their premium and benefit calculation basis between gross and net, ~~they may do so~~ one time within a coverage~~the three year opt-in~~ period.

~~FE.~~ The Division may require copies of tax returns, bank records, self-attestations, or any other documents deemed necessary by the Division to verify or determine the income of an individual electing coverage~~a self-employed person's wages.~~

~~G.~~ If a self-employed individual has elected coverage under ~~8-13.3-514 C.R.S.~~, and is also employed by another or multiple employers, the self-employed person's FAMI benefit payment will be based on the combined wages pursuant to this rule and Rule 1.5.3.

#### ~~1.5.3 Determining Wages for All Employees Regarding Premium Assessment~~

~~A.~~ Wages reportable to the Division for premium assessment purposes include:

- ~~1.~~ Salary or hourly wages, including "wages" as defined by ~~8-70-141 C.R.S.~~; and other compensation, including board, lodging, payments in kind, and/or other benefits provided as compensation for services performed by employees, including but not limited to domestic and agricultural employees.
  - ~~2.~~ The Division may, after investigation, determine in individual cases the amounts to be included as reasonable value of remuneration payable in any medium other than cash for the purpose of computing premiums due under the act, but where the cash value of such benefits is agreed upon in a written contract, the amounts agreed upon will presumptively be the reasonable value of such benefits; and
  - ~~3.~~ Commissions, payments on a piecework basis, or bonuses earned for labor or services performed in accordance with the terms of any agreement between an employer and employee.
- ~~B.~~ Tips/gratuities and service charges will be considered to be wages for the purposes of the act when the employer exercises significant control over the amount and distribution of money received by an employee as a tip/gratuity or service charge.
- ~~C.~~ An employer is considered to have significant control over tips/gratuities or service charges when they are collected by the employer and then redistributed to employees.
- ~~D.~~ Notwithstanding any other provision of this section, any tips/gratuities and service charges when used by the employer in order to conform to the minimum wage requirements of federal or state law will be deemed to be wages for the purposes of the act, to the extent of such use.
- ~~1.~~ For the purposes of this section, the inclusion, for the convenience of the customer, of a tip/gratuity in an amount charged by a customer through the use of a credit card will not, by itself, be deemed to constitute significant control.
  - ~~2.~~ For the purposes of this section, a requirement by an employer that an employee report or account for tips/gratuities will not, by itself, be deemed to constitute significant control.
- ~~E.~~ In addition to the foregoing provisions of this section, wages will also include tips that are received while performing services that constitute employment and that are made known to the employer through a written statement furnished by the employee.

Division of FAMILI

---

F. ~~In circumstances where the employer's records regarding wages or other compensation pursuant to this section are inaccurate or incomplete, the Division may consider any evidence, written or otherwise, to determine the amount of wages as a matter of just and reasonable inference, absent any specific evidence provided by the employer suggesting that such inference is unreasonable.~~

**1.5.4 Exempted From Wages**

A. ~~The Division will not consider the following as wages.~~

1. ~~Per diem or mileage reimbursements;~~
2. ~~Amounts of payments made by the employer on behalf of the employee into other insurance or annuity accounts that are not associated with FAMILI including but not limited to:~~
  - (a) ~~Short term or long term disability~~
  - (b) ~~Medical or hospitalization expenses in connection with sickness or accident disability~~
  - (c) ~~Death~~
  - (d) ~~Earnings from investment interest payments, dividend payments, or rent receipts from rental property, except if the income is earned through a business owned or operated by the claimant.~~
  - (e) ~~Severance pay with the exception of payments pursuant to 8-73-110 C.R.S.~~

**1.5.35 Premiums Remitted by an Employer**

A. Premiums must be paid not less than quarterly in the form and manner determined by the Division. Quarterly payments ~~must~~will include all premiums with respect to wages paid ~~during for employment in all payroll periods that end within~~ the calendar quarter.

1. Due Date of Premiums. Premiums ~~will become due and must~~ be paid no later than the last day of the month immediately following the end of the calendar quarter for which the premiums have accrued.
  - (a) Payment will be considered timely if postmarked or received ~~in person or~~ electronically on or before the due date. If the due date of premiums falls on a Saturday, Sunday, or legal holiday, payment will be considered timely if postmarked or received in person or electronically on the next business day that is not a Saturday, Sunday, or legal holiday.
  - (b) Quarterly payment will not be required when the total amount of any premiums due, including any penalties and interest accrued for an untimely or incorrect report, is less than five dollars.
2. Erroneous Rate Notice. If, as a result of an incorrect notification or computation by the Division of premiums due~~rate by the Division~~, an employer is required to make an additional payment of premiums, such additional payment will not accrue interest until thirty days after notification by the Division that such additional payments are due.
3. First payment of a new employer, unless stated otherwise by exemption.

## Division of FAMI

- (a) The first premium payment of any employing unit that becomes an employer subject to C.R.S. 8-13.3-501~~C.R.S.~~ et seq., at any time during a calendar year ~~must will become due and~~ be paid on or before the last day of the month immediately following the calendar quarter in which such an employing unit becomes an employer.
- (b) Said payment ~~must will~~ include the FAMI premiums with respect to wages paid for employment occurring on and from the first day of the calendar year through all payroll periods that end within the calendar quarter in which the employing unit becomes an employer.

## B. Employers ability to deduct premiums from employees

- 1. An employer required to remit premiums pursuant to C.R.S. 8-13.3-507~~C.R.S.~~ may not deduct more than the maximum allowable employee share of the premium from wages paid for a pay period.
  - (a) If an employer fails to deduct the maximum allowable employee share of the premium from wages paid for a pay period, the employer is considered to have elected to pay that portion of the employee share under C.R.S. 8-13.3-507~~C.R.S.~~, and the employer cannot deduct this amount from a future paycheck of the employee for a different pay period.
  - (b) ~~Notwithstanding Rule 1.5.3.B.1(a) above, An employer will not deduct the employee share of the premium for a pay period~~ where there is a lack of sufficient employee wages to cover the employee share of premiums for ~~that a~~ pay period, the employer may deduct the uncollected portion of the employee share from one or more paychecks for future pay periods.
  - (c) In the payment of any premiums, a fractional part of a cent will be disregarded unless it amounts to one-half cent or more, in which case it will be increased to one cent.
- 2. Employers not required to pay the Employer share of the FAMI premium due to employer size of business pursuant to C.R.S. 8-13.3-507(5)~~C.R.S.~~ must remit the employees' share of the premium in the manner outlined by the Division. Such employers may deduct up to 50 percent of the premium required for an employee by C.R.S. section 8-13.3-507(3)~~C.R.S.~~, from the employee's wages and ~~must will~~ remit 50 percent of the premium required by C.R.S. section 8-13.3-507(3)~~C.R.S.~~, to the Division.
- 3. ~~An employer who is not required to pay the employer share of the premium pursuant to 8-13.3-507(4)(c), may elect to remit the employee share of the premium for employees who elect coverage under 8-13.3-514 C.R.S.~~

## C. Application of payments made to premiums

Formatted: par3

## Division of FAMILI

1. A payment received by the Division as a premium payment will be applied to the quarter for which the premium assessment applies.
    - (a) A payment exceeding the legal fees, fines, penalties, interest and premiums due for that quarter will be applied to any other debt owed to the Division in accordance with ~~subsection 2 (c) in part C. of~~ these rules.
    - (b) If no debt exists, premium overpayments of less than fifty dollars will be credited to future payments due.
    - (c) If no debt exists, premium overpayments of fifty dollars or more may be refunded to the employer at the employer's request. Otherwise, such overpayments will be credited to future payments due.
  2. Payments received will be applied in the following order of priority:
    - (a) Current quarter balance;
    - (b) Any previous quarter premium balance due starting with the oldest quarter;
    - (c) Then beginning with the oldest quarter in which a balance is owed:
      - (1) Penalties;
      - (2) Fines;
      - (3) Fees; and
      - (4) Interest charges.
- D. Pursuant to C.R.S. § 8-13.3-507(6), ~~C.R.S.~~, premiums will not be required for ~~employees'~~ wages, gross income, or net earnings from self-employment above the contribution and benefit base limit established annually for the federal social security administration for purposes of the federal old-age survivors, and disability insurance program limits pursuant to 42 U.S.C. § 430.

Formatted: par1

**1.5.46 Calculating Employer Size Related To Premium Exemptions**

- A. For determining employer size for the purpose of determining premium liability pursuant to C.R.S. 8-13.3-507(5), an employee counts toward the total number of employees if he or she is employed during 20 or more workweeks in the preceding calendar year. A person is considered "employed" during a workweek if: (1) he or she performs any work for the employer during the workweek; or (2) he or she is on any type of paid or unpaid leave during the workweek, and the employer has a reasonable expectation that the employee will later return to active employment. ~~premium exemptions based on employer size as outlined in § 8-13.3-507(5), C.R.S.,~~

## Division of FAMLI

~~the rules for counting employees to determine whether an employer is covered under the federal Family and Medical Leave Act apply; the employer must employ the requisite number of employees "for each working day during each of 20 or more calendar workweeks in the current or preceding calendar year"; "a[ny] employee whose name appears on the employer's payroll will be considered employed each working day of the calendar week, and must be counted whether or not any compensation is received for the week"; "Employees on paid or unpaid leave, including [sick or medical leave], leaves of absence, disciplinary suspension, etc. are counted as long as the employer has a reasonable expectation the employee will later return to active employment"; and "a corporation is a single employer rather than its separate establishments or divisions."~~

1. If the Division determines the employer's status has changed as it relates to premium liability, the Division will notify the employer as to their premium liability.
2. An employer's size for purposes of this regulation 1.5.4~~6~~ will be calculated upon registration and annually thereafter during the first calendar quarter of the year. Any change to premium liability as a result of a change in employer size will happen no more frequently than one time per calendar year by counting the number of employees pursuant to regulation 1.5.4 (A) during the preceding calendar year. A new premium discount pursuant to § 8-13.3-507(5) will not take effect until the Division has completed such calculation.
3. ~~If an employer has not been in business in Colorado long enough to report employer's size pursuant to regulation 1.5.6 (A), the employer's size will be calculated after the second quarter of reporting is due by averaging the number of employees reported over the quarters for which reporting exists. Premium calculations based on this determination will begin on this reporting date. This size determination remains in effect through the following calendar year.~~
- B. ~~Determination of employer size for premium collection beginning January 1, 2023.~~
  1. ~~For purposes of premium calculations for calendar year 2023, the Division will determine the size of all employers by reviewing the number of employees reported pursuant to 8-70-113 C.R.S. for the first calendar quarter. Employers that report ten or more employees will be required to pay the employer share of the premium for all calendar quarters in calendar year 2023.~~

BC. Determining in-state status of employees

1. An employee's wages will be subject to premiums ~~if for all services performed within Colorado and for all services performed both within and outside of Colorado where:~~
  - (a) The employee's entire service is performed within Colorado;
  - (b) The employee's service is performed both within and outside of Colorado, but the service performed outside the state is incidental to the employee's work within Colorado or, for example is, temporary or transitory in nature and consists of isolated transactions; or

## Division of FAMI

- (c) Services are not localized in any state, but some of the services are performed in Colorado, and
  - (1) The base of operations is in Colorado, or if there is no base of operations, then the place from which such services are directed or controlled is in Colorado as established in C.R.S. 8-70-117-C.R.S., or
  - (2) The base of operations or place from which some part of the service is directed or controlled is not in any state in which part of the service is performed, but the employee's residence is in Colorado.
- 2. Payment to Another Jurisdiction. An employer who has erroneously paid to another jurisdiction an amount as premiums properly payable to Colorado will not be delinquent if premiums properly payable to Colorado are paid within thirty days of the date on which the Division determines that such premiums are payable to Colorado.

**1.5.57 Assessments and Recomputations of FAMI Premiums**

- A. If, in the judgment of the Division or upon its information and knowledge, the report of wages included in an employer's FAMI premium report is incomplete or in error, the Division may require, and the employer shall respond within the time allotted, a further report, examine the employer's relevant books and records, or use other reasonable measures to the extent necessary to obtain an accurate report.
- B. If a contributing employer is ~~either delinquent in filing a premium wage report within the time prescribed by the Division, or fails to provide the Division with additional~~ whose records are needed to make a proper determination of an amount of indebtedness ~~or other matter declines to make its records available~~, the Division may, in its discretion:
  - 1. Use the information and knowledge available to the Division to estimate the amount of chargeable wages paid by a contributing employer during the premium period or periods. The amount of chargeable wages so determined will be deemed to have been paid by the employer and will be used to determine the annual payroll;
  - 2. Assess the employer for FAMI premiums calculated on the basis of the estimated wages; and
  - 3. Issue a subpoena duces tecum to compel an employer to release books and records to the Division for use in obtaining the required information.
- C. A contributing employer who is delinquent in filing reports or paying FAMI premiums will be promptly notified of the assessment by the communication method the employer elected during FAMI registration. Premiums will not be considered delinquent if paid within thirty days after the date on which the Division notifies the employer of the delinquent payment.
- D. The Division may correct errors of computation whenever such erroneous computations are found or brought to the Division's attention.

**1.6 Notification of FAMI Premium Liability**

## Division of FAMILI

- A. The Division will notify employers and individuals ~~s electing coverage persons who have elected coverage~~ of their expected premium amount on the first business day of the calendar month the premium is due to be paid.
1. Notification ~~will may~~ be ~~either sent electronically, either via My FAMILI+ Employer or or sent by postal mail~~ to the email address provided to the Colorado Department of Labor and Employment.
    - (a) Employers, including self-employed persons may choose a business representative such as a payroll service provider, attorney, or accountant to receive notification on their behalf.
    - ~~(b) Self-employed persons and local government employees who elect coverage pursuant to § 8-13.3-514, C.R.S., may elect to be notified electronically or by postal mail.~~
    - ~~(be)~~ Local governments that have declined participation in the FAMILI program pursuant to C.R.S. 8-13.3-522 ~~C.R.S.~~, but which have agreed to withhold and remit the employee share of premiums for employees who elect coverage under C.R.S. 8-13.3-514 ~~C.R.S.~~, will be provided a quarterly list of employees who have elected coverage pursuant to C.R.S. 8-13.3-514 ~~C.R.S.~~. Local governments which have declined participation in the FAMILI program pursuant to section C.R.S. 8-13.3-522 ~~C.R.S.~~, and have declined to withhold and remit the employee share of premiums for employees who elect coverage under C.R.S. 8-13.3-514 ~~C.R.S.~~, will receive no such quarterly list ~~not receive information from the Division regarding any such employees who have voluntarily elected coverage.~~
  2. A schedule of due dates as well as guidance as to how to remit premiums will be posted by the Division on the FAMILI website and will remain publicly available.
- B. Employers not subject to a premium liability due to coverage through a pre-approved substitute private plan under C.R.S. 8-13.3-521 ~~C.R.S.~~, will not receive quarterly notifications of premium liability from the Division.
- ~~1. In the event of a loss of coverage or significant change in status, the employer is required to notify the Division within 30 days, and a premium liability will begin to accrue from the first day of the previous calendar quarter.~~
  - ~~2. Premium liability will then continue to follow the regular calendar quarter payment schedule, until such time as a new and separate waiver has been approved by the Division.~~

## DEPARTMENT OF LABOR AND EMPLOYMENT

### Division of FAMLI

## REGULATIONS CONCERNING LOCAL GOVERNMENT PARTICIPATION WITH THE PAID FAMILY MEDICAL LEAVE PROGRAM

### 7 CCR 1107-2

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

#### 2.1 Authority

This regulation is adopted pursuant to the authority in section ~~C.R.S. 8-13.3-522 C.R.S.~~, and is intended to be consistent with the requirements of the State Administrative Procedures Act, ~~C.R.S. section 24-4-101 et seq. (the "APA"), C.R.S.~~ and the Paid Family and Medical Leave Insurance Act, ~~C.R.S. sections 8-13.3-501 through 524, et seq. (the "Act"), C.R.S.~~

#### 2.2 Scope and Purpose

- A. This regulation will govern the Family and Medical Leave Insurance program pursuant to ~~C.R.S. 8-13.3-522 C.R.S.~~, concerning the process for local government employers to decline participation in the program.
- B. This regulation will govern the process of a local government electing into the FAMLI Program, after initial declination.
- C. This regulation will govern the notification requirements of local government employers to their employees regarding any vote to decline FAMLI coverage, the outcome of such a vote, and the ability of local government employees to voluntarily elect coverage as individuals.
- D. This regulation does not apply to any other employer classifications within the State of Colorado, including but not limited to people who are self-employed.

#### 2.3 Applicability

The provisions of this section will be applicable to all local government entities within the State of Colorado.

If any part of these rules is held invalid, the remainder shall remain valid, and if any part is held not wholly invalid, but in need of narrowing, it will be retained in narrowed form.

#### 2.4 Definitions

"FAMLI" is defined as the Paid Family and Medical Leave Insurance Act, ~~C.R.S. sections 8-13.3-501 through 524 (the "Act"), C.R.S.~~

~~"Fund" has the same meaning as in §8-13.3-503 (12) C.R.S.~~

"Division" has the same definition as ~~C.R.S. 8-13.3-503 (5) C.R.S.~~ as created in ~~C.R.S. 8-13.3-508 C.R.S.~~

---

Division of FAMLI

---

“Governing Body” has the same meaning as in [C.R.S. 29-1-102\(12\)](#), both ~~§31-1-101(4) C.R.S. and §32-1-103(8) C.R.S.~~

“Local Government” has the same meaning as [defined at C.R.S. 8-13.3-503\(14\)](#), and is limited to Colorado local governments. In determining whether a governmental entity is a local government, for the purpose of distinguishing the state from political subdivisions of the state, the state means: (1) those governmental entities with employees in the state personnel system pursuant to Art. XII Section 13 of the Colorado Constitution and the State Personnel System Act, C.R.S. 24-50-101 *et seq.*; and (2) those governmental entities for which premiums were paid pursuant to [C.R.S. 8-13.3-518\(4\)\(b\)](#), ~~a county, city and county, city, or town whether home rule or statutory, or any school district or a special district created pursuant to the “Special District Act,” article 1 of title 32, C.R.S. and as outlined in 24-19-102. C.R.S., authority or other political subdivision of the state.~~

“Premium” is defined as the money payments required pursuant to [C.R.S. 8-13.3-507](#) ~~C.R.S.~~, to finance the payment of family and medical leave insurance benefits and administer the family and medical leave insurance program.

## 2.5 Local Government Employer Participation

- A. Pursuant to [7 CCR 1107-2 Section Regulation 2.6](#), local government employers are required to formally notify the Division in writing and provide both the date of the vote, and the local government’s decision to decline participation in the FAMLI program.
1. Local governments which have previously declined participation in the FAMLI program pursuant to [C.R.S. 8-13.3-522](#) ~~C.R.S.~~, may subsequently elect coverage [at any time](#) ~~by first registering as an employer with the FAMLI Division prior to the collection of employer premiums.~~
  2. ~~Local governments which have previously declined participation in the FAMLI program pursuant to 8-13.3-522 C.R.S., may subsequently elect FAMLI Program coverage at the beginning of the annual cycle relevant to the local government’s budgeting cycle.~~
  23. ~~A The ability of a local government to either decline participation in the FAMLI program or elect coverage following a previous declination is subject to a vote of the governing body of each local government entity pursuant to this Regulation and Regulation 2.6 of 7 CCR 1107-2, a local government may not decline participation in the FAMLI program in part. Any such declination by a local government is a full declination of FAMLI program participation for that local government employer.~~
- B. Local government employers which have previously declined coverage and now wish to elect coverage of FAMLI benefits for their employees pursuant to [C.R.S. §§8-13.3-522 \(3\)\(b\)](#) ~~C.R.S.~~, may subsequently elect coverage by a vote of the governing body.
- C. A local government which has previously declined coverage ~~may~~ [must](#) renew the declination through a similar vote process and margin no later than every eight years. In the absence of a vote further declining coverage, the local government will become a covered employer. The local government must inform the Division of a declination vote in writing which includes the date the vote was taken.

Division of FAMLI

---

- D. When a local government employer returns to coverage pursuant to ~~Regulation §§ 2.5 (B) or §§ 2.5 (C) of 7 CCR 1107-2 Sections 2.5.B or 2.5.C~~, the employer will be covered and subject to premiums ~~liability~~ beginning on the ~~earlier of the effective date specified by the local government employer in its notification to the Division, first day of the calendar quarter after the local government has notified the Division of a change of the vote to elect coverage pursuant to 7 CCR 1107-2, §§ 2.5 (B) or the first day of the first calendar quarter beginning after the local government employer's deadline to renew its declination has passed pursuant to 7 CCR 1107-2, §§ 2.5 (C).~~
- E. ~~Local government employees who have individually opted into the benefits program pursuant to 8-13-3-514 C.R.S., will not pay a double premium amount, and must be given notice by the local government employer of a date corresponding with the beginning of a calendar quarter at which a premium amount will be submitted to the Division on their behalf.~~
- ~~1. The purpose of the notice by the local government employer of the date at which a premium amount will be submitted to the Division on behalf of an employer is to inform the employee of any potential lapses or changes in benefits eligibility.~~
  - ~~2. This notice must be delivered in writing and/or through electronic communication to the employee by their local government employer no later than 90 days after the vote.~~
  - ~~3. The local government employer must also post notice of the date of the first day the employer will begin paying FAMLI premiums and the date when coverage will start.~~
- F. ~~Eligible employees of local governments who elect coverage pursuant to C.R.S. 8-13-3-514 are eligible for benefits immediately upon electing coverage. who have not been previously covered as individual participants employed by a newly participating local government will begin full benefit eligibility the first day of the following quarter after the premiums are received by the Division.~~
- F.
- ~~1. Local government employers that have previously declined participation and then subsequently elect or otherwise return to coverage under the FAMLI program pursuant to these regulations must remain in the program for a minimum of twelve complete calendar quarters after the three fiscal years corresponding to the date the local government elected coverage begins. If such an employer chooses to again decline FAMLI participation, notice of such declination~~
  - ~~a. The three year cycle begins on the first day of employee coverage.~~
  - ~~b. The notice of the intent to decline future coverage must be delivered in writing to the Division at least one complete calendar quarter in advance of no later than 90 days prior to the end of the twelve calendar quarter three year cycle pursuant to this regulation.~~
- G.
- ~~2. Employees must also be notified directly in writing, and no later than 180 days of the pending or upcoming return to or withdrawal of coverage pursuant to this regulation.~~
  - ~~1.~~

Division of FAMLI

---

- a. Local government employers ~~must~~ will display a notice containing the information required in this regulation in a conspicuous and accessible place in each establishment where employees are employed; provided, however, in cases where the local government employer does not maintain a physical workplace, or an employee teleworks or performs work through a web-based or app-based platform, notification ~~must~~ will be sent via electronic communication or through a conspicuous posting in the web-based or app-based platform.

2.

- b. The written notice and posting ~~must~~ will contain an explanation of employee rights under the FAMLI program including but not limited to program requirements, benefits, claims process, payroll deductions and premiums, the right to job protection and benefit continuation under ~~C.R.S. 8-13.3-509 C.R.S.~~, protection against retaliatory personnel actions or other discrimination, relevant contact information for the Division, and other pertinent information.

3.

- c. The notice and poster required by this regulation ~~must~~ will be in English and in any language representing the first language spoken by at least five percent of the local governments employer's workplace. The Division will create and make available to local government employers posters and notices containing information required in this regulation, and local government employers may use the posters and notices to comply with the requirements of this section.

## 2.6 Process and Notification of FAMLI Program Declination

- A. Local government employers are permitted to decline to participate in the FAMLI program after a written notice has been delivered to the FAMLI Division memorializing the decision by an affirmative vote of the local government's governing body to decline participation in the program. Such a vote ~~must~~ will follow the local government's ~~procedures~~ for other votes of the governing body.
1. A declination vote ~~that occurs after a period of FAMLI coverage~~ will not take effect ~~with a resulting change in coverage~~ until at least 180 days after the vote, to allow individual employees the opportunity to opt into the benefits program pursuant to ~~C.R.S. 8-13.3-514 C.R.S.~~, should individuals choose to elect coverage.
  2. Public notice must be given in the same manner as any other business before the governing body, and the local government ~~must~~ will take/hear testimony prior to the vote, pursuant to the procedural rules of the governing body. The local government's employees must also be notified in writing prior to the vote and provided both

Division of FAMLI

---

information regarding the vote process and the opportunity to submit comments through a public process to the governing body.

3. Within 30 days following a local government declination vote, the local government must provide its local government employees with a written individual notice of the local government's declination vote and the impact toward FAMLI coverage, or other paid family and leave insurance coverage. The written notice, must at a minimum, explain the differences between benefits offered by the FAMLI program and any other paid leave plan offered by the local government. The notice must also state which employees, if any, are eligible for job protection under the federal Family and Medical Leave Act (FMLA) benefits or other local provisions where applicable.
  4. Written notices must contain information regarding the right of local government employees to voluntarily ~~elect coverage~~~~opt into FAMLI benefits~~ pursuant to ~~C.R.S. 8-13.3-514 C.R.S.~~, and the contact information for the Division. Local government employers ~~must will~~ display a notice containing the information in a conspicuous and accessible place in each establishment where employees are employed; provided, however, in cases where the local government employer does not maintain a physical workplace, or an employee teleworks or performs work through a web-based or app-based platform, notification ~~must will~~ be sent via electronic communication or through a conspicuous posting in the web-based or app-based platform. The notice and poster required in this regulation ~~must will~~ be in English and in any language representing the first language spoken by at least five percent of the local government employer's workforce. The Division will create and make available to local government employers posters and notices containing the information required in this regulation, and local government employers may use the posters and notices to comply with the requirements of this section.
    - (a) It is the responsibility of the local government employers to request printed materials from the Division. Local government employers may be responsible for the printing and mailing costs of such materials.
    - (b) It is the responsibility of the local government to provide written notification to the Division of the local government employers interpretation needs of printed notices for languages other than English or Spanish.
- B. The declination period is not permanent and participation must be reconsidered, and the Division notified at a minimum of every 8 years. ~~The governing body may reconsider and elect coverage annually pursuant to 7 CCR 1107-2, Regulation 2.5.~~

**2.7 Overpayments**

In the event of an overpayment of premiums by a local government employee whose employer ~~elects coverage after having previously declined FAMLI coverage~~~~opts back into the program~~, any overpaid premiums~~the excess amount~~ will be repaid to the employee by the Division. The Division will ensure a continuation of coverage for local government employees who have individually opted into the benefits program pursuant to ~~C.R.S. 8-13.3-514 C.R.S.~~, and ensure there is not a lapse in coverage prior to the

*Division of FAMI*

---

local government's reinstatement of coverage ~~as long as the employee share of the premium has been submitted.~~

## DEPARTMENT OF LABOR AND EMPLOYMENT

### Division of Family and Medical Leave Insurance

#### REGULATIONS CONCERNING COORDINATION OF BENEFITS AND REIMBURSEMENT OF ADVANCE PAYMENTS

##### 7 CCR 1107-4

---

#### 4.1 Statements of Authority, Purpose, and Incorporation by Reference

1. This regulation is adopted pursuant to the authority in section C.R.S. 8-13.3-501 *et seq.*, and is intended to be consistent with the requirements of the State Administrative Procedures Act, C.R.S. 24-4-101 *et seq.* (the “APA”), and the Paid Family and Medical Leave Insurance Act, C.R.S. 8-13.3-501 through 524 (the “FAMLI Act”).
2. The general purpose of these rules is to exercise the authority of this Division to enforce and implement the Paid Family and Medical Leave Insurance Act (C.R.S. 8-13.3-501 *et seq.*) with regard to coordination of benefits and reimbursement of advance payments.
3. Article 34 of C.R.S. Title 24 (2022), Articles 4, 13.3, 40, and 70 of C.R.S. Title 8 (2022), and 45 U.S.C. section 2601 *et seq.* (2022) are hereby incorporated by reference. Earlier versions of such laws may apply to events that occurred in prior years. Such incorporation excludes later amendments to or editions of the statutes. These statutes and regulations are available for public inspection at the Colorado Department of Labor and Employment, Division of Family and Medical Leave Insurance, 633 17th Street, Denver CO 80202. Copies may be obtained from this Division at a reasonable charge, or can be accessed electronically from the website of the Colorado Secretary of State. Pursuant to C.R.S. § 24-4-103(12.5)(b), the agency shall provide certified copies of the statutes and regulations incorporated at cost upon request or shall provide the requestor with information on how to obtain a certified copy of the material incorporated by reference from the agency originally issuing the statutes. All Division Rules are available to the public at [famli.colorado.gov](http://famli.colorado.gov). Where these Rules have provisions different from or contrary to any incorporated or referenced material, the provisions of these Rules govern so long as these are consistent with Colorado statutory and constitutional provisions.
4. If any part of these rules is held invalid, the remainder shall remain valid, and if any part is held not wholly invalid, but in need of narrowing, it will be retained in narrowed form.

#### 4.2 Definitions and Clarifications

1. Unless otherwise indicated, terms used here that are defined in the FAMLI Act have the same definition as they do under the FAMLI Act.
2. “Employer-provided paid leave” means vacation leave, paid sick leave, paid personal leave, paid parental leave, paid leave under C.R.S. 24-34-402.7, and any other employer-paid time off.
3. “Health care benefits” as used at C.R.S. 8-13.3-509(2) means benefits provided to an employee by an employer related to the improvement or maintenance of the employee’s health, including but not limited to:
  - A. Health insurance;

- B. Dental insurance;
- C. Vision insurance; and
- D. Mental health, counseling, and addiction services.

4. "Paid sick leave" has the same meaning as in C.R.S. 8-13.3-402(8).

#### **4.3 FAMLI Benefits and Workers' Compensation Benefits**

1. Benefits under the FAMLI Act and its implementing regulations do not run concurrently with benefits under the Workers' Compensation Act of Colorado, C.R.S. 8-40-101 *et seq.* or its implementing regulations (the "Workers' Compensation Act").
2. Regardless of an individual's status as a covered individual, if an absence from work is caused by circumstances that would entitle an individual to benefits under the Workers' Compensation Act, the individual is not entitled to family and medical leave insurance benefits.
3. An individual applying for family and medical leave insurance benefits must disclose whether their serious health condition was caused by or otherwise related to a workplace injury or illness.
4. Health care providers, in completing a "Serious Health Condition Certification - Self Form," must disclose any information or belief that the individual's serious health condition was caused by or otherwise related to a workplace injury.
5. If either the individual applying for family and medical leave insurance benefits or the health care provider completing the "Serious Health Condition Certification - Self Form" indicates that the individual's serious health condition was caused by or otherwise related to a workplace injury, then:
  - A. The application for benefits will not be considered filed in accordance with 7 CCR 1107-3;
  - B. The application will be closed; and
  - C. The application will be reopened for good cause if the individual applies for and is denied benefits under the Workers' Compensation Act with regard to the same serious health condition.
6. An individual must notify the FAMLI Division if they receive any benefits under the Workers' Compensation Act during a period of paid family and medical leave.
7. If an individual is paid any benefits under the Workers' Compensation Act during a period of paid family and medical leave, then any wage replacement benefits paid to the individual in association with the same job as the benefits under the Workers' Compensation Act will be considered an overpayment.
8. An individual's failure to disclose either a workplace injury related to an application for family and medical leave insurance benefits, or the receipt of benefits under the Workers' Compensation Act related to an injury that is related to the receipt of family and medical leave insurance benefits, may constitute grounds for disqualification of benefits pursuant to C.R.S. 8-13.3-513.

#### **4.4 FAMLI Benefits and Unemployment Insurance Benefits**

1. Benefits under the FAMLI Act and its implementing regulations do not run concurrently with benefits under the Colorado Employment Security Act, C.R.S. 8-70-101 *et seq.*, or its implementing regulations ("CESA").
2. Regardless of an individual's status as a covered individual, if an absence from work is caused by circumstances that would entitle an individual to benefits under CESA, the individual is not entitled to family and medical leave insurance benefits.
3. An individual must notify the FAMLI Division if they apply for or receive any benefits under CESA during a period of paid family and medical leave.
4. If an individual is paid any benefits under CESA during a period of paid family and medical leave, then any wage replacement benefits paid to the individual in association with the same job as the benefits under CESA will be considered an overpayment.
5. An individual's failure to disclose either the application for or the receipt of benefits under CESA during any period of paid family and medical leave may constitute grounds for disqualification of benefits pursuant to C.R.S. 8-13.3-513.

#### **4.5 FAMLI Benefits and Employer-provided Paid Leave**

1. The FAMLI Act and its implementing regulations do not entitle an employee to receive both wage replacement benefits under the FAMLI Act and employer-provided paid leave for the same hours absent, except that pursuant to C.R.S. 8-13.3-510(1)(c), an employer and an employee may mutually agree that the employee may use any accrued employer-provided leave as a supplement to family and medical leave insurance benefits in an amount not to exceed the difference between the individual's wage replacement benefits under the FAMLI Act and the individual's average weekly wage.
  - A. If employer-provided paid leave is used to supplement FAMLI wage replacement benefits, the employer may: (1) convert the dollar amount of the supplement into the corresponding number of employer-provided paid leave hours; and (2) subtract those hours from the employee's balance of accrued and unused employer-provided leave.
  - B. The use of employer-provided paid leave to supplement FAMLI wage replacement benefits requires mutual agreement between the employer and the employee. If either the employer or the employee does not so mutually agree, employer-provided paid leave may not be used to supplement FAMLI wage replacement benefits.
  - C. Mutual agreement between the employer and the employee is not necessary in order for an employee to use paid sick leave prior to receiving family and medical leave insurance benefits.
  - D. Absent written notice by either the employer or the employee indicating otherwise, an employer and an employee will be presumed to have mutually agreed to supplement FAMLI wage replacement benefits with employer-provided paid leave.
2. If an individual receives both wage replacement benefits under the FAMLI Act and employer-provided paid for the same hours absent, and the employer and the employee have mutually agreed to supplement FAMLI wage replacement benefits with employer-provided leave, then any employer-provided paid leave in excess of the amount authorized by Rule 4.5.1 may be considered an overpayment.
3. If an individual receives both wage replacement benefits under the FAMLI Act and employer-provided paid for the same hours absent, and the employer and the employee have not mutually

agreed to supplement FAML I wage replacement benefits with employer-provided leave, then any employer-provided paid leave for the same hours absent may be considered an overpayment.

4. If an employer considers employer-provided paid leave to be an overpayment pursuant to either Rule 4.5.2 or 4.5.3, then:
  - A. The employer may recoup the overpayment by any legal means, including via one or more lawful deductions in accordance with C.R.S. 8-4-105;
  - B. The employer must replenish the employee's bank of accrued employer-provided paid leave in an amount equal to the amount recouped as an overpayment; and
  - C. If the employer-provided paid leave so recouped as an overpayment is paid sick leave, an employer's failure to replenish the employee's bank of paid sick leave in accordance with Rule 4.5.4.B shall constitute a violation of the Healthy Families and Workplaces Act, C.R.S. 8-13.3-401 *et seq* ("HFWA").
5. To the extent possible, the FAML I Act and its implementing regulations shall not be read to reduce rights under HFWA and its implementing regulations, and HFWA and its implementing regulations shall not be read to reduce rights under the FAML I Act and its implementing regulations.

#### **4.6 Employer-provided benefits during paid family and medical leave**

1. The FAML I Act and its implementing regulations only require an employer to maintain health care benefits in accordance with C.R.S. 8-13.3-509(2), and do not entitle an employee to the continued accrual of employer-provided leave or any other benefits during a period of paid family and medical leave.
2. With regard to a covered individual's obligation to pay their share of the cost of health benefits pursuant to C.R.S. 8-13.3-509(2), the employer may collect such payment via:
  - A. Lawful deductions from employer-provided paid leave used to supplement FAML I wage replacement benefits, in accordance with C.R.S. 8-4-105;
  - B. Lawful deductions from wages paid upon the employee's return to work, in accordance with C.R.S. 8-4-105;
  - C. A repayment plan entered into by the employer and the employee; or
  - D. Any other legal means.
3. Pursuant to C.R.S. 8-13.3-509(8), if a local government employer has declined coverage pursuant to C.R.S. 8-13.3-522, FAML I does not require the local government employer to maintain health care benefits during a period of paid family and medical leave for its employees who elect coverage pursuant to 8-13.3-514.
4. If an employer and an employee mutually agree to supplement FAML I wage replacement benefits with paid sick leave, then the extent to which the employer must maintain benefits beyond the requirements in C.R.S. 8-13.3-509(2) and Rules 4.6.1 and 4.6.2 is governed by HFWA.

#### **4.7 FAML I Benefits, short-term disability benefits, and long-term disability benefits**

1. If paid family and medical leave is taken for a reason that also qualifies for a short-term or long-term disability benefit offered by the employer, then so long as the employer satisfies the notice requirement of C.R.S. 8-13.3-510(1)(b), the employer may count both the wage replacement

amount and the duration of the paid family and medical leave against the benefit amounts and leave duration provided under the short-term - or long-term disability policies.

2. If the employer requires paid family and medical leave insurance benefits to run concurrent with its short-term or long-term disability benefits, then the terms of the short-term or long-term disability policy shall govern whether the employer, the employee, or both must notify the policy's program administrator of concurrent paid family and medical leave insurance benefits received by the employee.

#### **4.8 FAMILI Benefits and the FMLA and the Family Care Act**

1. As provided in C.R.S. 8-13.3-510(1)(a), Leave taken with wage replacement under the FAMILI Act that also qualifies as leave under the "Family and Medical Leave Act," as amended, Pub. L. 103-3, codified at 29 U.S.C. sec. 2601 et. seq., or part 2 of article 13.3 of title 8 runs concurrently with leave taken under the "Family and Medical Leave Act" or part 2 of article 13.3 of title 8, as applicable.
2. If the qualifying reason for paid family and medical leave does not constitute a qualifying reason for leave under the Family and Medical Leave Act, then the extent to which paid family and medical leave runs concurrently with leave taken under the Family and Medical Leave Act, if at all, is governed by the Family and Medical Leave Act and its implementing regulations.

#### **4.9 Compelled use of FAMILI benefits prohibited**

Under no circumstance may an individual be compelled to apply for paid family and medical leave insurance benefits.

#### **4.10 Reimbursement of Advance Payments by Employers**

1. An employer may register with the FAMILI Division as a "pay-in-pending" employer, whereby:
  - A. The employer agrees to pay FAMILI wage replacement benefits in advance of an adjudication decision to all of its Colorado employees;
  - B. Its employees may, but shall not be required to, apply for paid family and medical leave insurance benefits; and
  - C. Any wage replacement benefits awarded pursuant to such an application are paid directly to the employer, not to the employee.
2. A pay-in-pending employer assumes the risk that an employee for whom it paid FAMILI wage replacement benefits in advance will not apply for paid family and medical leave insurance benefits, that the FAMILI Division will award wage replacement benefits in an amount less than that which the employer advanced to the employee, or that the FAMILI Division will award no wage replacement benefits.
3. If a pay-in-pending employer is reimbursed an amount less than that which it paid an employee, it may not recoup from the employee the difference between the amount it paid and the amount it was reimbursed.
4. An employer's status as a pay-in-pending employer does not modify the appeal rights or procedures described in 7 CCR 1107-3.
5. An employer may apply for reimbursement of advanced FAMILI wage replacement benefits on a case-by-case basis, and need not register as a pay-in-pending employer. Such an employer:

- A.        Is not entitled to reimbursement of employer-provided paid leave;
- B.        Assumes the risk that an employee for whom it paid FAML I wage replacement benefits in advance will not apply for paid family and medical leave insurance benefits, that the FAML I Division will award wage replacement benefits in an amount less than that which the employer advanced to the employee, or that the FAML I Division will award no wage replacement benefits;
- C.        May recoup from the employee any difference between the amount it paid and the amount it was reimbursed via any lawful means; and
- D.        Is not provided with appeal rights regarding the Division's determination of benefits.

## DEPARTMENT OF PUBLIC SAFETY

### Division of Fire Prevention and Control

#### 8 CCR 1507-52

### REDUCED IGNITION PROPENSITY CIGARETTE STANDARDS AND CERTIFICATION

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

#### SECTION 1 PURPOSE AND AUTHORITY TO PROMULGATE RULES

- 1.1. Section 24-33.5-1214, C.R.S. establishes the authority and duty of the Division of Fire **Prevention & Control Safety** (hereafter Division) to ensure that cigarettes sold or offered for sale in Colorado meet the ignition strength standards specified in Section 24-33.5-1214, C.R.S.
- 1.2. The Director of the Division is authorized by the provisions of Section 24-33.5-1214, C.R.S. to promulgate rules and regulations to administer the section. This regulation is adopted pursuant to that authority and is intended to be consistent with the requirements of the State Administrative Procedures Act (APA), Section 24-4-101 et seq., C.R.S.

#### SECTION 2 DEFINITIONS

- 2.1. "Administrator" means the state fire suppression administrator, who shall be the Director of the Division of Fire **Prevention & Control Safety**, under the Department of Public Safety, or the designee of such Director.
- 2.2. "Agent" means a person licensed by the Department of Revenue to purchase and affix adhesive or meter stamps on packages of cigarettes.
- 2.3. "ASTM International" means the American Society for Testing and Materials or its successor organization.
- 2.4. "Brand Family" means all styles of cigarettes sold under the same trade mark and differentiated from one another by means of additional modifiers or descriptors, including, but not limited to, "menthol", "kings", and "100s", and includes any brand name, alone or in conjunction with any other word, trademark, logo, symbol, motto, selling message, recognizable pattern of colors, or any other indicia of product identification identical or similar to, or identifiable with, a previously known brand of cigarettes.
- 2.5. "Cigarette" means any roll for smoking, whether made wholly or partly of tobacco or any other substance, irrespective of size or shape, and whether or not such tobacco or substance is flavored, adulterated, or mixed with any other ingredient, the wrapper or cover of which is made of paper or any other substance or material except tobacco.
- 2.6. "Consumer testing" means an assessment of cigarettes that is conducted by, or under the control and direction of, a manufacturer for the purpose of evaluating consumer acceptance of such cigarettes, utilizing only the quantity of cigarettes that is reasonably necessary for such assessment.
- 2.7. "Manufacturer" means any one or more of the following:
  - 2.7.1. An entity that manufactures or otherwise produces cigarettes or causes cigarettes to be manufactured with the intent that such cigarettes be sold in Colorado, regardless of where the cigarettes are manufactured or produced and regardless of whether they are imported from outside the United States;

- 2.7.2. The first purchaser anywhere that intends to resell, in the United States, cigarettes manufactured anywhere that the original manufacturer or producer does not intend to be sold in the United States; or
- 2.7.3. An entity that becomes a successor to an entity described in paragraph 2.7.1 or 2.7.2.
- 2.8. "Quality control and quality assurance program" means a set of laboratory procedures implemented to ensure that:
  - 2.8.1. Operator bias, systematic and nonsystematic methodological errors, and equipment-related problems do not affect the results of cigarette testing; and
  - 2.8.2. The testing repeatability remains within the required repeatability values stated in Section 24-33.5-1214 (2) (a) (II) (F), C.R.S., for all test trials used to certify cigarettes in accordance with section 24-33.5-1214 (3), C.R.S.
- 2.9. "Repeatability", with respect to a cigarette test trial, refers to the range of values within which the repeat results of cigarette test trials from a single laboratory will fall ninety-five percent of the time.
- 2.10. "Retail dealer" means any person, other than a manufacturer or wholesale dealer, engaged in selling cigarettes or tobacco products.
- 2.11. "Sale" means any transfer of title, possession, or both, or exchange or barter, conditional or otherwise, in any manner or by any means or any agreement. In addition to cash and credit sales, the giving of cigarettes as samples, prizes, or gifts, and the exchanging of cigarettes for any consideration other than money, are considered sales.
- 2.12. "Sell" means to sell or to offer or agree to sell.
- 2.13. "UPC Symbol" means the symbol signifying the Universal Product Code.
- 2.14. "Wholesale dealer" means:
  - 2.14.1. Any person, other than a manufacturer, who sells cigarettes or tobacco products to retail dealers or other persons for purposes of resale; and
  - 2.14.2. Any person who owns, operates, or maintains one or more cigarette or tobacco product vending machines in, at, or upon premises owned or occupied by any other person.

### **SECTION 3 ACCEPTANCE REQUIREMENTS**

- 3.1. Except as otherwise provided in Section 10, no cigarettes shall be sold or offered for sale in this state, or offered for sale or sold to persons located in this state, after July 31, 2009, without a certification accepted by the Division. The Division will accept certifications based upon the submission of the information and fees required by this regulation. The Division will provide manufacturers a reasonable timeframe to provide missing information or to pay the required fee.
- 3.2. Acceptance requirements. In order to be accepted:
  - 3.2.1. The cigarettes must have been tested in accordance with the test method and meet the performance standard specified in Section 4 of this rule;

- 3.2.2. A written certification of the test and performance results required in Section 4 must have been filed by the manufacturer with the Administrator;
  - 3.2.3. An application for each brand family, which lists each cigarette within the brand family seeking acceptance, must be filed with the Administrator;
  - 3.2.4. The fees specified in 3.5 must be paid in full; and
  - 3.2.5. The cigarettes must be marked in accordance with Section 5 of this rule.
- 3.3. Certification of testing and test results by the manufacturer.
- 3.3.1. Each manufacturer shall submit to the Administrator a written certification attesting that each cigarette listed in the certification:
    - 3.3.1.1. Has been tested in accordance with Section 4 of this rule; and
    - 3.3.1.2. Meets the performance standard set forth in Section 4 of this rule.
  - 3.3.2. Each cigarette listed in the certification submitted pursuant to paragraph 3.2.3 shall be described with the following information:
    - 3.3.2.1. Brand or trade name on the package;
    - 3.3.2.2. Style, such as ~~full flavor or Blue light or ultra-light~~;
    - 3.3.2.3. Length in millimeters;
    - 3.3.2.4. Circumference in millimeters;
    - 3.3.2.5. Flavor, menthol or ~~non-menthol as chocolate if~~ applicable;
    - 3.3.2.6. Filter or no filter;
    - 3.3.2.7. Package description, such as soft pack or ~~hard pack box~~;
    - 3.3.2.8. Marking pursuant to subsection 5 of this section;
    - 3.3.2.9. The name, address, and telephone number of the laboratory that conducted the tests, if different from that of the manufacturer; and
    - 3.3.2.10. The date that the testing occurred.
  - 3.3.3. Certifications under this Subsection 3.3 shall be made available to the Attorney General for purposes consistent with Section 24-33.5-1214 (3), C.R.S. and to the Department of Revenue for the purpose of ensuring compliance with the Section 24-33.5-1214 (3), C.R.S.
- 3.4. ~~Certification Application and Recertification Procedures —Each cigarette certified under this rule shall be subject to recertification every three years.~~
- 3.4.1. ~~An applicant must apply for certification in a format provided by the Division. Application instructions are available on the Division's website (dfpc.colorado.gov/FLS).~~
  - 3.4.2. ~~The certification period will expire on June 30<sup>th</sup> every three years regardless of when the certification was issued during the 3-year timeframe, unless earlier suspended or~~

revoked. There will be no pro-rating of certification fees,

3.4.2.1. Certification timeframe examples are as follows:

1. July 1<sup>st</sup> 2021 thru June 30<sup>th</sup> 2024
2. July 1<sup>st</sup> 2024 thru June 30<sup>th</sup> 2027
3. July 1<sup>st</sup> 2027 thru June 30<sup>th</sup> 2030

3.4.3. Applications for recertification shall be submitted no more than 30 days prior to expiration, subject to a 60-day grace period before being considered expired with a non-renewal status.

### 3.5. Supplemental Application Procedures

3.5.1. An applicant must apply for supplemental certification in a format provided by the Division. Application instructions are available on the Division's website ([dfpc.colorado.gov/FLS](http://dfpc.colorado.gov/FLS)).

3.5.1.1. Supplemental certification is an addition or significant change to an existing brand family such as adding styles.

3.5.2. The certification period for supplemental certification will expire on June 30<sup>th</sup> of the 3-year timeframe the original brand family was certified, unless earlier suspended or revoked.

3.6. Fees – At the time it submits a written certification under this rule, a manufacturer shall pay to the Department of Public Safety a fee of one thousand dollars (\$1,000.00) for each brand family of cigarettes listed in the certification. The fee paid shall apply to all cigarettes within the brand family certified and shall include any new cigarette certified within the brand family during the three-year certification period.

3.7. Changes to Cigarettes – If a manufacturer has certified a cigarette pursuant to this rule, and thereafter makes any change to such cigarette that is likely to alter its compliance with the reduced ignition propensity standard required by Section 24-33.5-1214, C.R.S., such cigarette shall not be sold or offered for sale in this state until the manufacturer retests the cigarette in accordance with the testing standards set forth in Section 4 of this rule and maintains records of the retesting as required by Section 7 of this rule. Any altered cigarette that does not meet the performance standard set forth in Section 4 may not be sold in this state.

3.8. Notification of acceptance of certification will be sent to the manufacturer. Notifications by the Division will be effective on the date indicated on the certificate e-mailed to the manufacturer.

3.9. Lists of certified cigarettes.

3.9.1. The Division will maintain a list of cigarettes certified under Section 24-33.5-1214, C.R.S. and this rule on its website.

3.9.2. The Division will provide the Department of Revenue and the Attorney General a current list of cigarettes certified under Section 24-33.5-1214, C.R.S. and this rule.

~~3.9. Certification Submissions – Applications for certification acceptance may be requested from and mailed to the Colorado Division of Fire Safety, 9195 East Mineral Ave., Suite 234, Centennial, Colorado 80012.~~

## **SECTION 4 TESTING AND PERFORMANCE STANDARDS**

4.1. Except as provided in Section 10, no cigarettes shall be sold or offered for sale in this state, or offered for sale or sold to persons located in this state, after July 31, 2009, unless the cigarettes have been tested in accordance with the test method and meet the performance standard specified in this Section 4.

### **4.2. Testing**

4.2.1. Testing of cigarettes shall be conducted in accordance with ASTM international standard E2187-04, "standard test method for measuring the ignition strength of cigarettes".

4.2.2. Testing shall be conducted on ten layers of filter paper.

4.2.3. No more than twenty-five percent of the cigarettes tested in a test trial in accordance with this Section 4 shall exhibit full-length burns. Forty replicate tests shall constitute a complete test trial for each cigarette tested.

4.2.4. The performance standard required by this Section 4 shall be applied only to a complete test trial.

4.2.5. Written certifications shall be based upon testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization.

4.2.6. A laboratory conducting testing in accordance with this Section 4 shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results and limit the repeatability value to no greater than nineteen percent.

4.2.7. This Section 4 shall not require additional testing of cigarettes that have been tested for other purposes in a manner consistent with this section.

### **4.3. Testing by the Division**

4.3.1. Testing performed or sponsored by the Division in order to determine a cigarette's compliance with the performance standard shall be conducted in accordance with Subsection 4.2.

4.3.2. The Division may test cigarettes for compliance on a random basis.

4.3.3. The Division may test a particular cigarette brand for compliance based upon complaints or a history of a particular cigarette brand being involved in starting fires.

### **4.4. Lowered Permeability Bands**

4.4.1. Each cigarette listed in a certification submitted pursuant to Section 3 that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standard set forth in this Section 4 shall have at least two nominally identical bands on the paper surrounding the tobacco column. At least one complete band shall be located at least fifteen millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there shall be at least two bands fully located at least fifteen millimeters from the lighting end and ten millimeters from the filter end of the tobacco column or ten millimeters from the labeled end of the tobacco column for non-filtered cigarettes.

### **4.5. Alternative Testing**

- 4.5.1. A manufacturer of a cigarette that the Division determines cannot be tested in accordance with the test method prescribed in 4.2, shall propose a test method and performance standard for the cigarette to the Division.
- 4.5.2. Upon approval of the proposed test method and a determination by the Division that the performance standard proposed by the manufacturer is equivalent to the performance standard prescribed in 4.2, the manufacturer may employ such test method and performance standard to certify such cigarette pursuant to this Section 4.
- 4.5.3. If the Division determines that another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are substantially similar to those contained in 4.2, and the Division finds that the officials responsible for implementing those requirements have approved the proposed alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the reduced cigarette ignition propensity standards of such state's laws or rules under a legal provision comparable to this Section 4, then the Division shall authorize the manufacturer to employ the alternative test method and performance standard to certify such cigarette for sale in Colorado unless the Division demonstrates a reasonable basis why the alternative test should not be accepted. All other applicable requirements of this Rule shall apply to the manufacturer.

## **SECTION 5 LABELING**

- 5.1. Except as otherwise provided Section 10, no cigarettes shall be sold or offered for sale in this state, or offered for sale or sold to persons located in this state, after July 31, 2009, unless the cigarettes have been marked in accordance with this Section 5.
- 5.2. Effective July 31, 2009, cigarettes that are certified by a manufacturer in accordance with Section 3 shall be marked to indicate compliance with the requirements of Section 24-33.5-1214 (4), C.R.S. Such marking shall be in eight-point type or larger and shall consist of one or more of the following:
  - 5.2.1. Modification of the package's UPC symbol to include a visible mark printed at or around the area of the UPC symbol. The mark may consist of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or printed in conjunction with the UPC symbol.
  - 5.2.2. Any visible combination of alphanumeric or symbolic characters permanently stamped, engraved, embossed, or printed on the cigarette package or cellophane wrap; or
  - 5.2.3. Stamped, engraved, embossed, or printed text that indicates that the cigarettes meet the standards of Section 24-33.5-1214, C.R.S.
- 5.3. A manufacturer shall use only one marking and shall apply the marking uniformly to all brands and packages, including but not limited to packs, cartons, and cases, marketed by the manufacturer.
- 5.4. The manufacturer shall notify the Division as to the marking selected by the manufacturer.
- 5.5. A manufacturer shall not modify its approved marking unless the modification has been approved by the Division. This Subsection 5.5 shall not apply if the modified marking is a pre-approved marking pursuant to 5.7.
  - 5.5.1. If the manufacturer modifies its approved marking with a pre-approved marking pursuant to 5.7, the manufacturer will notify the Division of the modification.

5.6. Unless pre-approved pursuant to 5.7, prior to the certification of any cigarette, the manufacturer shall present its proposed marking to the Division, which shall have discretion to approve or disapprove the marking.

5.6.1. Proposed markings shall be deemed approved, unless the Division notifies the manufacturer of a disapproval within ten business days after the Division's receipt of a complete request for approval. Disapproval notifications by the Division will be effective on the date a notification letter is postmarked or a notification is e-mailed.

#### 5.7. Pre-Approved Markings

5.7.1. The following markings are pre-approved by the Division and need not be submitted to the Division for approval prior to their use by a manufacturer:

5.7.1.1. Any marking in use and approved for sale in New York pursuant to the New York fire safety standards for cigarettes; or

5.7.1.2. The letters "FSC", signifying "fire standards compliant", appearing in eight-point type or larger and permanently stamped, engraved, embossed, or printed on the package at or near the UPC symbol.

### SECTION 6 COPIES OF CERTIFICATIONS AND MARKINGS

6.1. Manufacturers certifying cigarettes in accordance with Section 3 shall provide a copy of the certifications to all wholesale dealers and agents to which they sell cigarettes and shall also provide sufficient copies of an illustration of the package marking utilized by the manufacturer pursuant to Section 5 for each retail dealer to which the wholesale dealers or agents sell cigarettes.

6.2. Wholesale dealers and agents shall provide copies of these package markings received from manufacturers to all retail dealers to which they sell cigarettes.

6.3. Wholesale dealers, agents, and retail dealers shall permit the Administrator, the Department of Revenue, the Attorney General, and employees thereof to inspect markings of cigarette packaging marked in accordance with Section 5.

### SECTION 7 RECORDKEEPING

7.1. Recordkeeping – Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes offered for sale for a period of three years and shall make copies of these reports available to the Division and the Attorney General upon written request. Any manufacturer who fails to make copies of such reports available within sixty days after receiving a written request shall be subject to a civil penalty not to exceed ten thousand dollars for each day after the sixtieth day that the manufacturer does not make such copies available.

### SECTION 8 DEPARTMENT OF REVENUE TO INSPECT

8.1. The Department of Revenue, in the regular course of conducting inspections of wholesale dealers, agents, and retail dealers as authorized by law, may inspect cigarettes to determine whether the cigarettes are marked as required by Section 5.

8.2. If the cigarettes are not marked as required, the Department of Revenue shall notify the Division.

### SECTION 9 ENFORCEMENT AND PENALTIES

9.1. To enforce this rule, the Attorney General, the Department of Revenue, the Division, all duly authorized employees and agents thereof, and all law enforcement personnel are authorized to examine the books, papers, invoices, and other records of any person in possession, control, or

occupancy of any premises where cigarettes are placed, stored, sold, or offered for sale, as well as any cigarettes on the premises. Every person in the possession, control, or occupancy of any premises where cigarettes are placed, stored, sold, or offered for sale are required to give the Attorney General, the Department of Revenue, the Division, all duly authorized employees and agents thereof, and all law enforcement personnel the means, facilities, and opportunity for the examinations authorized by Section 24-33.5-1214 (7), C.R.S.

- 9.2. A manufacturer, wholesale dealer, agent, or other person or entity who knowingly sells or offers to sell cigarettes, other than at retail, in violation of Section 24-33.5-1214 (2), C.R.S. shall be subject to a civil penalty not to exceed one hundred dollars for each pack of such cigarettes sold or offered for sale; except that the penalty against any such person or entity shall not exceed one hundred thousand dollars during any thirty-day period.
- 9.3. A retail dealer who knowingly sells or offers to sell cigarettes in violation of Section 24-33.5-1214 (2), C.R.S. shall be subject to a civil penalty not to exceed one hundred dollars for each pack of such cigarettes sold or offered for sale; except that the penalty against any such retail dealer shall not exceed twenty-five thousand dollars for sales or offers to sell during any thirty-day period.
- 9.4. In addition to any other penalty prescribed by law, a corporation, partnership, sole proprietor, limited partnership, or association engaged in the manufacture of cigarettes that knowingly makes a false certification pursuant to Section 3 of this rule shall be subject to a civil penalty of at least seventy-five thousand dollars, not to exceed two hundred fifty thousand dollars for each such false certification.
- 9.5. A person who violates any provision of Section 24-33.5-1214, C.R.S. for which a penalty is not specifically provided shall be subject to a civil penalty of up to one thousand dollars for a first violation and up to five thousand dollars for a second or subsequent violation.
- 9.6. Cigarettes that have been sold or offered for sale and that do not comply with the performance standard required by Section 4 of this rule shall be subject to forfeiture as provided in the "Colorado Contraband Forfeiture Act", part 5 of article 13 of title 16, C.R.S. Cigarettes forfeited pursuant to this subsection 9.6 shall be destroyed; except that, before such destruction, the true holder of the trademark rights in the cigarette brand shall be permitted to inspect the cigarettes if desired.
- 9.7. Whenever a law enforcement officer or duly authorized agent of the Director discovers cigarettes that have not been marked as required by Section 5 of this rule, such officer or agent is authorized and empowered to seize and take possession of such cigarettes. Such cigarettes shall be turned over to the Department of Revenue and shall be forfeited to the state.  
Cigarettes forfeited pursuant to this subsection 9.7 shall be destroyed; except that, before such destruction, the true holder of the trademark rights in the cigarette brand shall be permitted to inspect the cigarettes if desired.

## **SECTION 10: EXCEPTIONS TO APPROVAL OF CERTIFICATION REQUIREMENTS, TRANSITION PERIOD**

10.1. The requirements of this rule shall not be construed to prohibit:

- 10.1.1. ~~Wholesale or retail dealers from selling their existing inventory of cigarettes on or after July 31, 2009, if a wholesale or retail dealer can establish that state tax stamps were affixed to the cigarettes before said date and that the inventory was purchased before said date in comparable quantity to the inventory purchased during the same period of the immediately preceding year; or~~ Any person or entity from manufacturing or selling cigarettes that do not meet the requirements of this rule, if the cigarettes are or will be stamped for sale in another state or are packaged for sale outside the United States, where the person or entity has taken reasonable steps to ensure that such cigarettes will not be sold or offered for sale to persons located in Colorado; or

~~10.1.2.~~

10.2. The sale of cigarettes solely for the purpose of consumer testing.

10.2.1. For consumer testing of cigarettes that are not certified, the manufacturer must file written notice of the testing to be conducted within the state. The notice shall contain the quantity of cigarettes to be tested, the method of distribution and the duration of the consumer testing.

**SECTION 11: TOBACCO PRODUCT MANUFACTURER CERTIFICATION**

11.1. The certification required under this regulation is solely for the purpose of assuring that a manufacturer's cigarettes comply with the reduced ignition propensity cigarette standards in section 24-33.5-1214, C.R.S. and this regulation.

11.2. The certification required under this regulation does not replace or supersede the Tobacco Product Manufacturer Certification required under section 39-28-303, C.R.S.

11.3. All tobacco product manufacturers who want to sell their cigarettes in Colorado must continue to file a Tobacco Product Manufacturer Certification with the Department of Revenue and the Office of the Attorney General each year between April 16th and April 30th.

## Department of Health Care Policy & Financing

Medical Services Board

### NOTICE OF PROPOSED RULES

The Medical Services Board of the Colorado Department of Health Care Policy and Financing will hold a public meeting on Friday, November 18, 2022, beginning at 9:00 a.m., in the first floor conference room at 1570 Grant Street, Denver, CO 80203. Reasonable accommodations will be provided upon request for persons with disabilities. Please notify the Board Coordinator at 303-866-4416 or [chris.sykes@state.co.us](mailto:chris.sykes@state.co.us) or the 504/ADA Coordinator [hcpf504ada@state.co.us](mailto:hcpf504ada@state.co.us) at least one week prior to the meeting.

A copy of the full text of these proposed rule changes is available for review from the Medical Services Board Office, 1570 Grant Street, Denver, Colorado 80203, (303) 866-4416, fax (303) 866-4411. Written comments may be submitted to the Medical Services Board Office on or before close of business the Wednesday prior to the meeting. Additionally, the full text of all proposed changes will be available approximately one week prior to the meeting on the Department's website at [www.colorado.gov/hcpf/medical-services-board](http://www.colorado.gov/hcpf/medical-services-board).

This notice is submitted pursuant to § 24-4-103(3)(a) and (11)(a), C.R.S.

#### **MSB 22-06-31-A, Revision to the Medical Assistance Eligibility Rule Concerning Allowing Medicaid Buy-In Program for Working Adults with Disabilities Members Access the HCBS-DD Waiver, Section 8.100.7.1.c.i**

Medical Assistance. The rule change amends 10 CCR 2505-10 Section 8.100.7.B.1.c.i) to add the HCBS-DD waiver to the other waiver types that can be accessed when an individual is eligible under the Medicaid Buy-In Program for working Adults with Disabilities.

The authority for this rule is contained in Section 25.5-6-1403(4), C.R.S. (2021) and Sections 25.5-1-301 through 25.5-1-303 (2022).

trevor.williams@state.co.us**STATEMENT OF BASIS AND PURPOSE****Summary of the basis and purpose for new rule or rule change.**

Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max**

These rules will implement HB 22-1245, which was signed into law on 4/12/2022 and requires the State Board of Human Services to promulgate rules for implementation. HB 21-1094 established the Foster Youth in Transition Program (the program), a youth-driven and developmentally appropriate approach to extended foster care. This program further established a pathway for eligible youth to re-enter foster care between the ages of 18 and 21. HB 22-1245 made technical revisions to the program and requires minor changes to the Colorado Code of Regulations for implementation.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

☐  
☐

to comply with state/federal law and/or

to preserve public health, safety and welfare

Justification for emergency:

n/a

**State Board Authority for Rule:**

Code	Description
26-1-107, C.R.S. (2015)	State Board to promulgate rules
26-1-109, C.R.S. (2015)	State department rules to coordinate with federal programs
26-1-111, C.R.S. (2015)	State department to promulgate rules for public assistance and welfare activities.

**Program Authority for Rule:** Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.

Code	Description
19-7-315, C.R.S. (2021)	The state department shall promulgate rules for implementation, including but not limited to rules concerning eligibility determinations, administrative appeals of eligibility determinations, enrollment into the transition program, emancipation transition plans and roadmaps to success, and expedited procedures for securing temporary shelter for youth who are currently homeless or at imminent risk of homelessness.

Does the rule incorporate material by reference?

☐

Yes

☒

No

Does this rule repeat language found in statute?

☒

Yes

☐

No

If yes, please explain.

The rule closely paraphrases, with minor edits, eligibility language from statute. Further revision of the language would have materially changed

## **REGULATORY ANALYSIS**

### **1. List of groups impacted by this rule.**

*Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?*

Current and former foster youth will experience the greatest benefit from these rules. Groups that will experience additional work requirements as a result of these rules include county departments. The Office of the Child's Representative and judicial partners are both impacted by HB 22-1245, but they are not directly impacted by these rules.

### **2. Describe the qualitative and quantitative impact.**

*How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?*

These rules will simplify the determination of jurisdiction for youth who are entering into the Foster Youth in Transition Program from an open child welfare case when they are placed outside of the county their parent(s) or legal guardian(s) reside at the time they transition into the program. The change made to statute that expands eligibility may create a small workload increase for county departments of human services, however the Division of Child Welfare does not believe that youth who have become eligible under the expanded guidelines will be significant. This is because most youth who have an open dependency and neglect case on their 18<sup>th</sup> birthday would already be eligible for the program. The youth who became eligible as a result of the changes made by HB 22-1245 will benefit from the additional time they will have to transition to adulthood.

### **3. Fiscal Impact**

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

These rules will not create any fiscal impact for the state or state systems.

County Fiscal Impact

These rules do not create any fiscal impact for counties. The small expansion of eligibility created by the legislation will be small (CDHS estimates approximately 15 youth statewide may be eligible in the next year) and will not exceed the allocation made by the General Assembly in HB 21-1094 when it established the program.

Federal Fiscal Impact

There is no anticipated federal fiscal impact.

Other Fiscal Impact (such as providers, local governments, etc.)

There is no anticipated impact for other agencies.

#### **4. Data Description**

*List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?*

The rules align closely with language included in HB 22-1245 and directly implement those changes.

#### **5. Alternatives to this Rule-making**

*Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just “no alternative” answer should include “no alternative because...”*

Rule making is required to implement the changes created by HB 22-1245 and is the only available option.

*The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):*

The rules were developed through a Child Welfare SubPAC approved task group and included representation from urban and rural counties across the state, runaway and homeless youth providers, the Office of the Child's Representative, foster care providers, child placement agencies, and a youth advocacy group.

### **This Rule-Making Package**

*The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:*

County departments of human/social services, Office of the Child's Representative, Colorado Network to End Youth Homelessness, Rural Collaborative for Homeless Youth, Project Foster Power.

### **Other State Agencies**

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

### **Sub-PAC**

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Child Welfare		
Date presented	9/8/2022		
What issues were raised?	none		
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
	unanimous		
If not presented, explain why.			

### **PAC**

Have these rules been approved by PAC?

**Other Comments**

Comments were received from stakeholders on the proposed rules:

☐ Yes    ☐ No

*If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.*

## (12 CCR 2509-3)

### <Title2> **7.203.41 Eligibility**

Eligible youth include youth who:

- A. Are at least eighteen but less than twenty-one years of age or such greater age of foster care eligibility as required by federal law;
- B. HAS A CURRENT DEPENDENCY AND NEGLECT CASE PURSUANT TO ARTICLE 3 OF TITLE 19, C.R.S. OR HAS ~~Have~~ had prior foster care or kinship care involvement in AT LEAST one of the following ways:
  - 1. The youth was in foster care, as defined in 19-1-103 (51.3), C.R.S., on or after the youth's sixteenth birthday; or
  - 2. The youth was in non-certified kinship care, as defined in 19-1-103 (78.7), C.R.S., on or after the youth's sixteenth birthday and was adjudicated dependent and neglected pursuant to Article 3 of Title 19, C.R.S; ~~and~~OR
  - 3. THE YOUTH TURNED EIGHTEEN YEARS OF AGE WHEN THE YOUTH WAS A NAMED CHILD OR YOUTH IN A DEPENDENCY AND NEGLECT CASE OPEN THROUGH ARTICLE 3 OF TITLE 19, C.R.S.
- C. Are engaged in, or intends to engage in, at least one of the following, unless an exception applies or are waived by federal law:
  - 1. Completing secondary education or an educational program leading to an equivalent credential;
  - 2. Attending an institution that provides post secondary or vocational education;
  - 3. Working part- or full-time for at least eighty hours per month; or
  - 4. Participating in a program or activity designed to promote employment or remove barriers to employment.
  - 5. The requirement described in 7.203.41(C) does not apply to a youth who is incapable of engaging in any of the activities as a result of a medical condition that is supported by regularly updated documentation in the 90 day supervisory review; and
- D. Seeks to enter into a voluntary services agreement, or the youth has entered into and is substantially fulfilling the youth's obligations pursuant to a voluntary services agreement with the appropriate county department.

\*\*\*\*\*

### **7.203.43 Foster Youth in Transition Program services and procedures**

- A. Procedures
  - 1. When a youth enters the Foster Youth in Transition Program the program area is program area 6.

2. The participating youth shall have a new case opened in the child welfare information system as follows:
  - a. The new case shall be opened effective either:
    - i. The day the youth and county execute the voluntary services agreement if a youth is reentering; or
    - ii. The day the court terminates any existing custody order, in either a dependency and neglect case or a juvenile delinquency case, if the youth is transitioning from an open program area 4 or 5 child welfare case; and
  - b. Prior to opening a new case or creating a new client id, the caseworker or supervisor shall complete a search in the comprehensive child welfare information system for any existing open cases or clients and ensure that only one program area 4 or 5 case is open that includes the youth as participating as a child; and
  - c. For youth entering the program directly from an open case under program area 4, 5, or 6, there shall be no resulting interruption in case management services, housing, Medicaid coverage, or in foster care maintenance payments.
3. The county department shall ensure the family services plan contains an updated roadmap to success as described in 7.305.2 (12 CCR 2509-04). The family services plan in Foster Youth in Transition Program cases does not require treatment plan or visitation sections for the youth's parents or caregivers. Updates to the family services plan shall be entered into the comprehensive child welfare information system within sixty (60) days of the youth entering into a voluntary services agreement. The youth shall be provided a copy of the family services plan.
4. WHEN A YOUTH IS ENTERING THE FOSTER YOUTH IN TRANSITION PROGRAM DIRECTLY FROM ANOTHER PROGRAM AREA 4, 5, OR 6 CASE, THE YOUTH SHALL BE GIVEN THE OPTION TO CONTINUE WITH A COUNTY WHO IS CURRENTLY SERVING, OR TRANSITION TO THE COUNTY IN WHICH THE YOUTH SELF ATTESTS TO RESIDING AT THE TIME THE YOUTH ENTERS THE FOSTER YOUTH IN TRANSITION PROGRAM.
45. When the youth's residence has changed after jurisdiction has been established, county departments shall work cooperatively to:
  - a. Ensure services are provided by the appropriate county;
  - b. Petitions are filed in the court of the appropriate county;
  - c. TakingE into consideration; THE YOUTH'S PREFERENCE. IF THE YOUTH DOES NOT HAVE A PREFERENCE, THEN THE COUNTY SHALL CONSIDER the following, in no particular order or prioritization:
    - i. Which county is currently working with the youth;
    - ii. The county in which the youth self attests to reside;
    - iii. Indications the youth intends to stay in the self attested county;

- iv. Access to services, supports, and/or relationships the youth needs in order to successfully transition to adulthood; and
- v. The youth's preference.

B. Services

Each county department shall offer, at a minimum, the following services and supports to participating youth in the transition program. All services shall be provided by the county in a manner that is consistent with the youth's developmental needs, culture, and supports the youths successful transition to adulthood.

1. Assistance with enrolling in the appropriate category of Medicaid for which the participating youth is eligible;
2. Assistance with securing safe, affordable, and stable housing IN THE FOLLOWING WAYS: If a county department has legal authority for physical placement through a voluntary services agreement pursuant to 19-7-306, C.R.S.
  - a. The participating youth's housing is LIVING EXPENSES ARE fully or partially funded through foster care maintenance payments, in addition to any other housing assistance the youth is eligible to receive. Any expectations for the youth to contribute to the youth's own expenses must be based upon the youth's ability to pay.
  - b. With the participating youth's consent, the participating youth's housing may be in any placement approved by the county department or the court for which the participating youth is otherwise eligible, INCLUDING A LICENSED HOST FAMILY HOME, AS DEFINED IN SECTION 26-5.7-102 (3.5), C.R.S. OR A SUPERVISED INDEPENDENT LIVING PLACEMENT, and that is the least restrictive option to meet the participating youth's needs; or
  - c. If the participating youth needs placement in a qualified residential treatment program, then such placement must follow all relevant procedures pursuant to section 19-1-115, C.R.S., concerning the placement of a child or youth in a qualified residential treatment program.
  - d. If a county department does not have legal authority for physical placement, such as when a youth is nearing emancipation and entering into their next housing arrangement, the participating youth may:
    - i. Reside anywhere that the participating youth is otherwise eligible to reside or a licensed host family home, as defined in section 26-5.7-102 (3.5), C.R.S.; and
    - ii. Access any financial support for housing that the participating youth is otherwise eligible to receive.
3. Case management services, including the development of a case plan with a roadmap to success for the participating youth, as well as assistance in the following areas, as appropriate, and with the agreement of the participating youth:
  - a. Provision of appropriate community resources and public benefits to assist the participating youth in the transition to adulthood as documented by the roadmap to success;

- b. Obtaining employment or other financial support and enhancing financial literacy;
    - c. Obtaining a driver's license or other government-issued identification card;
  - 4. Upon request, and if services are available, support the youth with complying with any juvenile or criminal justice system requirements which may include referrals to assist with expunging the participating youth's court records, as appropriate, pursuant to section 19-1-306, C.R.S.;
  - 5. Pursuing educational goals and applying for financial aid, if necessary;
  - 6. Upon request, and if services are available, referral to services for obtaining the necessary state court findings and applying for special immigrant juvenile status pursuant to federal law, as applicable, or applying for other immigration relief for which the participating youth may be qualified;
  - 7. Obtaining copies of health and education records;
  - 8. Maintaining and building relationships with individuals who are important to the participating youth, including searching for individuals with whom the participating youth has lost contact. These services may be offered using family search and engagement as described in 7.304.52 (12 CCR 2509-04); and
  - 9. Accessing information about maternal and paternal relatives, including any siblings.
- C. Court procedures when youth transition from a Program Area 4 or 5 case into the Foster Youth in Transition Program
- 1. For a youth approaching their 18<sup>th</sup> birthday who is currently in foster care, or who is in non-certified kinship care and there is an open dependency and neglect case, the county shall partner with the youth to support the youth in making informed decisions about what the youth needs to emancipate successfully and whether to enter the Foster Youth in Transition Program. The county shall partner with the youth in preparing for the transition hearing described below:
    - a. The county shall request that a transition hearing be held within 35 days of the youth's 18th birthday pursuant to 19-3-705, C.R.S.
    - b. At least seven (7) days prior to the transition hearing the county shall submit a report to the court that includes:
      - i. A description of the county's reasonable efforts toward achieving the youth's permanency goals and a successful transition to adulthood;
      - ii. An affirmation that the county has provided the youth with all of the records and documents the youth needs to successfully transition to adulthood, including the documents required by 7.305.5, written information concerning the youth's family history, and contact information for siblings if available and appropriate;
      - iii. an affirmation that the county has informed the youth, in a developmentally appropriate manner, of the benefits and options available to the youth by the Foster Youth in Transition Program

as described in 7.203.4 (12 CCR 2509-3) and the voluntary nature of the program;

- iv. A statement of whether the youth has made a preliminary decision whether to emancipate or to enter into the Foster Youth in Transition Program and either or both of the following:
  - A. If it is anticipated that the youth will choose to emancipate, the report must include a copy of the youth's emancipation transition plan as described in 7.305.2(F);
  - B. If it is anticipated that the youth will choose to enter the Foster Youth in Transition Program, the county shall file a petition pursuant to 19-7-307 at the same time as the report described in this section.

- 2D. Permanency planning requirements ~~are described in 7.304.54 (12 CCR 2509-4)~~ ARE REQUIRED IN ALL FOSTER YOUTH IN TRANSITION CASES.

[Note: Changes to rule text are identified as follows: deletions are shown as "strikethrough", additions are in "All Caps", and changes made between initial review and final adoption are in [brackets] or highlighted yellow]

## **Permanent Rules Adopted**

**Department**

Department of Revenue

**Agency**

Division of Gaming - Rules promulgated by Gaming Commission

**CCR number**

1 CCR 207-1

**Rule title**

1 CCR 207-1 GAMING REGULATIONS 1 - eff 10/30/2022

**Effective date**

10/30/2022

## **BASIS AND PURPOSE FOR RULE 1**

The purpose of Rule 1 is to present definitions of various terms used throughout the rules of the Colorado Limited Gaming Control Commission so that the rules can be uniformly applied and understood. The statutory basis for Rule 1 is found in sections 44-30-102 C.R.S., 44-30-103, C.R.S., 44-30-104, C.R.S., 44-30-201, C.R.S., 44-30-203, C.R.S., and 44-30-302, C.R.S. *Amended 2/14/14, Amended 1/14/15*

## **RULE 1            GENERAL RULES AND REGULATIONS**

### **30-106            Definitions.**

*Note to publisher: The opening paragraph and paragraphs (1) through (25), including all subparagraphs, should continue to remain a part of this Regulation.*

- (26) "Link" means one or more progressive slot machines that are connected to a progressive controller and that may be played in order to achieve the stated progressive amount.
- (27) "Matched play" means the use of a coupon at table games that is issued to a patron by an establishment for play that must be accompanied by a bet. *Effective 11/30/2006*
- (28) "Mobile ATM Receipt" means a receipt generated by a Table Games Mobile ATM in exchange for an authorized debit or credit card transaction. A Mobile ATM Receipt may be exchanged at a table game for physical or electronic chips. *Effective 7/1/13*
- (29) "Moral turpitude" means an act done contrary to honesty and good morals; it is an act of baseness, vileness, or depravity in the private and social duties which a person owes to an individual or to society in general.
- (30) "Normal mode" means the mode of a progressive slot machine at all times other than when it is in the jackpot verification mode.
- (31) "Physical skill" means an individual's physical coordination, agility, or nimbleness, or lack thereof. *Effective 11/30/2007*
- (32) "Player banked" means a game in which players with winning hands are awarded all or part of a pot which consists of pooled antes, blinds, and wagers made by players playing in the hand. In a player banked game, the bankroll of the retail licensee is not at risk and is not used to pay winning wagers. The licensee will maintain only an imprest bank at the table.
- (33) "Progressive controller" means the hardware and software that controls all communications among the slot machines within a progressive slot machine link and its associated progressive meter, or among the gaming tables which offer a metered progressive jackpot within a progressive table game link and its associated progressive meter.
- (34) "Proposition player" means a person in a poker game paid a fixed sum by the licensee for the specific purpose of playing in a card game, who uses personal funds and who retains the winnings and absorbs the losses.
- (35) "Purchase Ticket" means an encoded credit ticket issued at the cashier cage, kiosk or table game. *Effective 10/15/20*

*Note to publisher: Paragraphs (36) through (47), including all subparagraphs, should continue to remain a part of this Regulation.*

### **BASIS AND PURPOSE FOR RULE 3**

The purpose of Rule 3 is to establish and provide the specific information required on license applications; to establish yearly license fees for each type of license; to establish nonrefundable application fees; to establish investigation fees for certain applicants and deposit procedures for investigation fees; to establish procedures for conducting background checks on applicants and other interested persons and assessing the costs of such background checks; to require certain information regarding the premises the applicant wishes to be licensed, and to provide a procedure for approval of modifications of such premises; and to provide for the issuance of conditional, temporary, and duplicate licenses. The statutory basis for Rule 3 is found in sections 44-30-102, C.R.S., 44-30-103, C.R.S., 44-30-201, C.R.S., 44-30-203, C.R.S., 44-30-302, C.R.S., and part 5 of article 30 of title 44, C.R.S. [Amended 1/14/15](#)

### **RULE 3 APPLICATIONS, INVESTIGATIONS AND LICENSURE**

#### **30-301 Qualifications for licensure.**

To qualify for licensure an applicant must:

- (1) Be at least 18 years of age;

*Note to publisher: Paragraphs (2) through (4) should continue to remain a part of this Regulation.*

### **BASIS AND PURPOSE FOR RULE 4**

The purpose of Rule 4 is to specify the rights, responsibilities, and duties of licensees; specify certain duties of licensees related to permitting access to the Division of information, records, and premises controlled by the licensee; require licensees to maintain sufficient financial reserves; establish restrictions on the use of skills and proposition players; require that certain information be publicly posted; direct the licensee to prohibit certain conduct; and establish procedures for patron disputes, dissolution of corporations, transfers of interests and terminations of licensee employment or licensure. The statutory basis for Rule 4 is found in sections 44-30-201, C.R.S., 44-30-203, C.R.S., 44-30-301, C.R.S., and 44-30-502, C.R.S., 44-30-510, C.R.S., 44-30-528, C.R.S., and 44-30-833, C.R.S. [Amended 12/15/16](#)

### **RULE 4 RIGHTS AND DUTIES OF LICENSEES**

#### **30-414 Player rules.**

A retail licensee must post the following rules on the licensed areas:

- (1) Players in the gaming area must be at least 21 years of age;

*Note to publisher: Paragraphs (2) through (6) should continue to remain a part of this Regulation.*

#### **30-429 Payment of winning wagers.**

- (1) A retail licensee shall follow the current IRS standards for all jackpot awards and perform a gaming intercept as required for all jackpot pay outs as outlined in the Internal Control Minimum Procedures Section 1 H.

The purpose of Rule 25 is to establish playing rules for keno and procedures for conducting keno games in compliance with section 44-30-302 (2), C.R.S. The statutory basis for Rule 25 is found in sections 44-30-201, C.R.S., 44-30-203, C.R.S., 44-30-302, C.R.S., and 44-30-818, C.R.S.

**RULE 25        RULES FOR KENO**

**30-2509        Payment of winning wagers.**

*Note to publisher: Paragraphs (1) through (3) should continue to remain a part of this Regulation.*

## SPORTS BETTING REGULATIONS

### 1 CCR 207-2

#### BASIS AND PURPOSE FOR RULE 3

The purpose of Rule 3 is to enable applications, investigations and licensure as related to sports betting, including to establish and provide the specific information required on license applications; to establish license fees for each type of license; to establish investigation fees for certain applicants and deposit procedures for investigation fees; to establish procedures for conducting background checks on applicants and other interested persons and assessing the costs of such background checks; to require certain information regarding the premises the applicant wishes to be licensed, and to provide a procedure for approval of modifications of such premises; and to provide for the issuance of conditional licenses. The statutory basis for Rule 3 is found in sections 44-30-201, C.R.S.; 44-30-203, C.R.S.; 44-30-302, C.R.S.; 44-30-507, C.R.S., and part 15 of article 30 of title 44, C.R.S.

#### **RULE 3        APPLICATIONS, INVESTIGATIONS AND LICENSURE** *Effective 4/14/20*

##### **3.5        Investigation and background check costs.**

*Note to publisher: Paragraph (1) and all subparagraphs, should continue to remain a part of this Regulation.*

- (2)        Additionally, applicants shall submit a set of fingerprints to the Division, except that an applicant whose primary residence is located outside of the United States is not required to satisfy this requirement unless the Commission determines otherwise. The Division shall forward the fingerprints to the Colorado Bureau of Investigation for the purpose of conducting a state and national fingerprint-based criminal history record check utilizing records of the Colorado Bureau of Investigation and the Federal Bureau of Investigation. The applicant for a sports betting license shall be responsible for the actual costs of submitting such fingerprints for investigation. The total amount of the fee for issuance of a license, investigation fees, and fees for the background check for an applicant for a sports betting license may not exceed one hundred and twenty-five thousand dollars.

*Note to publisher: Paragraphs (3) through (8) should continue to remain a part of this Regulation.*

#### **BASIS AND PURPOSE FOR RULE 7**

The purpose of Rule 7 is to establish a Sports Betting Operations Fee to defray the cost of regulating the sports betting industry, specify the requirements regarding the certification, assessment and security of sports betting systems and kiosks, direct Sports Betting Operations to establish internal control procedures, including accounting controls, outline reporting requirements and the computation of taxes, establish geofence and sports betting account requirements, and to outline procedures for change control. The statutory basis for Rule 7 is found in sections 44-30-102, C.R.S., 44-30-201, C.R.S., 44-30-202, C.R.S., 44-30-203, C.R.S., 44-30-302, C.R.S., 44-30-503, C.R.S., 44-30-510, C.R.S., 44-30-528, C.R.S., 44-30-833, C.R.S., and part 15 of article 30 of title 44, C.R.S.

## **RULE 7 REQUIREMENTS OF SPORTS BETTING OPERATIONS** *Effective 4/14/20*

### **7.5 Internal control procedures.**

Prior to beginning sports betting activity, a Sports Betting Operation must submit for approval internal controls for the following:

*Note to publisher: Paragraphs (1) through (34) should continue to remain a part of this Regulation.*

- (35) Beginning on July 1, 2023, Sport Betting Operations need procedures that ensure that all Sports Betting Operations follow the current IRS standards before making sports betting payments and perform a gaming intercept as required for all sports betting payments as outlined in the Limited Gaming Internal Control Minimum Procedures Section 1 H.

The Sports Betting Operation shall stamp or otherwise mark each page of the internal control procedures submitted to the Commission with the word "CONFIDENTIAL" if the material submitted is not subject to disclosure under 44-30-1507, C.R.S., and this Rule 7.

**FINAL REGULATIONS - CHAPTER P-7 - PASSES, PERMITS AND REGISTRATIONS**

**ARTICLE I - GENERAL PROVISIONS AND FEES RELATING TO PASSES, PERMITS AND REGISTRATIONS**

**VEHICLE PASSES**

**#700 - VEHICLE PASS**

1. Except as otherwise provided in these regulations or by Colorado Revised Statutes, no motor vehicle shall be brought onto any state recreation area or state park unless a valid parks pass issued by the Division of Parks and Wildlife (Division) or the Department of Revenue (DOR) is properly attached, displayed, or carried in the vehicle. Passes that are designed to be affixed to the windshield shall be attached to the extreme lower right-hand corner of the vehicle's windshield in a position so that the pass may be observed and identified. For an annual affixed vehicle pass, including an aspen leaf annual pass to be properly attached to a windshield, it must be permanently affixed. A state parks annual transferable pass must be hung from the rear-view mirror so that the pass may be observed and identified. Any vehicle whereby a pass cannot be secured inside the passenger compartment or hung from a rear-view mirror shall be treated as a special case, but evidence of a pass shall be required on the person or in the vehicle. A vehicle that has a Keep Colorado Wild annual pass must have evidence of such on its associated DOR issued registration documents, which must be carried in the vehicle or shown in a Division sponsored mobile application.
  - (A) As referenced in this chapter, "veteran" means a person who served in the active military, naval, or air service and who was discharged or released under conditions other than dishonorable.
2. No vehicle pass shall be required for:
  - a. Any snowmobile as defined in section 33-14-101, C.R.S.;
  - b. Any off-highway vehicle as defined in section 33-14.5-101(3), C.R.S.;
  - c. Any government-owned vehicle, emergency vehicle, or law enforcement vehicle on official business;
  - d. Any commercial delivery vehicle delivering goods to the park or a park concessionaire when the goods are directly related to the operation of the park or concession;
  - e. Any resident's vehicle displaying a Colorado disabled veteran's license plate pursuant to section 42-3-213(5)(a), C.R.S. or a purple heart special license plate pursuant to section 42-3-213(2), and as provided for in section 33-12-106(1), C.R.S.;
  - f. Any vehicle bringing a holder of a Columbine, Centennial, Blue Spruce, Independence, Volunteer or Military Pass issued pursuant to # 701 into a state recreation area or state park;
  - g. Any vehicle that is not required to have a vehicle pass pursuant to the special activity regulation # 703;
  - h. Any vehicle entering a state recreation area or state park pursuant to # 712-4;

- i. Any vehicle that is exclusively towed;
  - j. Any vehicle occupied by a veteran or current or reserve member of any branch of the armed forces of the United States, on the State observance of Veteran's Day. At least one form of past or present military identification shall be presented at the Park entrance. Acceptable forms of military identification include:
    - (1) DD214;
    - (2) DD Form 2;
    - (3) DD Form 2765;
    - (4) Active, retired or veteran military identification cards;
    - (5) A current Colorado Driver's License or state issued identification card with the word 'Veteran' printed on it as specified in 42-2-303 (5)(a), C.R.S.;
    - (6) VA medical card;
    - (7) The display of military license plates.
  - k. Any Division employee, volunteer or hired contractor vehicle when such vehicle is used for the purposes of accomplishing work duties;
  - l. Any vehicle owned by a concession owner or employee or any contractor working for a concession when such vehicle is used for the purposes of accomplishing work duties;
  - m. Any vehicle entering the Cameo Shooting and Education Complex.
3. The types of annual vehicle passes available from the Division are as follows:
- a. An Aspen Leaf annual vehicle pass as provided for in section 33-12-103, C.R.S.; and
  - b. An annual affixed vehicle pass, which is available for any vehicle except passenger vans and buses operated by a commercial business, and
  - c. A state parks annual transferable pass, which can be used for any vehicle except passenger vans and buses operated by a commercial business. State parks annual transferable passes are issued to individuals, not vehicles. Only one vehicle at a time can use an annual transferable pass.
    - (1) Commercial passenger vans and buses are eligible to purchase daily, but not annual, vehicle passes.
    - (2) School buses on official school outings, passenger vans and buses operated by a nonprofit corporation or organization as defined in 13-21-115.5 (3), C.R.S., and passenger vans and buses operated by any government agency are eligible for either daily or annual affixed vehicle passes.
    - (3) An annual transferable pass may be shared with the original pass holder's household. For the purpose of this regulation, "household" is defined as persons living at the same address.

- d. A Keep Colorado Wild annual pass, as provided for in section § 33-12-108, C.R.S., which will be available for purchase through the Colorado Department of Revenue vehicle registration process starting with January 2023 vehicle registrations.
4. Daily vehicle passes are as follows:
- a. A fee of \$9.00 per vehicle for any vehicle except for:
    - (1) Passenger vans and buses operated by a commercial business;
    - (2) A \$1.00 per vehicle high-use fee will be added to the cost of daily vehicle passes at Cherry Creek, Chatfield, and Boyd Lake State Recreation Areas, and Castlewood Canyon, Eldorado Canyon, Golden Gate Canyon, Highline Lake, Lake Pueblo, Roxborough and Staunton State Parks.
  - b. School buses on official school outings, passenger vans and buses operated by a nonprofit corporation or organization as defined in 13-21-115.5 (3), C.R.S., and passenger vans and buses operated by any government agency are eligible to purchase a daily vehicle pass.
  - c. For passenger vans and buses operated by a commercial business, the daily vehicle pass fee will be based upon the number of passengers on-board. The fee shall be \$10.00 for up to fifteen passengers on-board, \$40.00 for sixteen to thirty passengers on-board, and \$50.00 for more than thirty passengers on-board.
5. An annual affixed vehicle pass or state parks annual transferable pass shall be issued and, by appropriate language, authorize entrance by motor vehicle to all state recreation areas and state parks, except Cameo Shooting and Education Complex, during the period beginning on the date of purchase through the last day of the same month in the following year. Such authorization shall apply to the user and all passengers in the motor vehicle to which the pass is affixed or displayed. One pass shall cover all state recreation areas and state parks.
6. Additional affixed annual vehicle passes may be issued to an owner or to the owner's household. Additional annual affixed vehicle passes authorize entrance by motor vehicle to all state recreation areas and state parks, except Cameo Shooting and Education Complex, during the period beginning on the date of purchase of the additional pass through the expiration date of the associated original full-priced annual affixed pass or state parks annual transferable pass. Owners of school buses, passenger vans and buses owned by a nonprofit corporation or organization as defined in 13-21-115.5 (3), C.R.S., and passenger vans and buses owned by any government agency are limited to purchasing no more than two additional annual affixed vehicle passes at a reduced fee per each annual affixed vehicle pass purchased at the full fee. For the purpose of this regulation, "household" is defined as persons living at the same address. "Owner" is defined as the person whose name appears on the registration of both the original vehicle for which an annual affixed pass was purchased and the additional vehicle, or a person who can provide proof of ownership of the original and the additional vehicle at a designated Division office.
7. If the motor vehicle for which an annual affixed vehicle pass, additional affixed vehicle pass, Aspen Leaf annual pass, or additional Aspen Leaf annual pass was issued is sold or traded, or if the pass is lost or destroyed during the period in which it is valid, the person to whom the pass was issued may obtain a duplicate thereof, upon signing an affidavit reciting where and by whom it was issued and the circumstances under which it was lost or traded. Customers who provide proof of necessary replacement shall be issued a replacement annual affixed vehicle pass, additional affixed vehicle pass, Aspen Leaf annual pass, or additional Aspen Leaf annual pass for the remainder of the period that the lost or destroyed pass would have been valid at no cost.

Customers without proof of necessary replacement shall be provided a replacement annual affixed vehicle pass, additional affixed vehicle pass, Aspen Leaf annual pass, or additional Aspen Leaf annual pass effective for the remainder of the period that the lost or destroyed pass would have been valid upon payment of a fee pursuant to regulation #708.1.e..

8. If a state parks annual transferable pass is lost or destroyed during the period for which it is valid, the person whom the pass was issued may obtain a duplicate thereof, upon signing an affidavit where and by whom it was issued and the circumstances under which it was lost or destroyed. Upon payment of a fee of \$60.00, a new pass effective for the remainder of the period the lost or destroyed pass would have been valid may be issued only by the Division to the original owner of such pass. Only one duplicate state parks annual transferable pass will be issued per period for which the original pass was valid.
9. A daily park pass, valid for one day only, shall authorize entrance by motor vehicle to the state recreation areas and state parks, except Cameo Shooting and Education Complex, by the user and all passengers in the motor vehicle to which the pass is affixed during the day used and until 12:00 P.M. (noon) the following day.
10. A no fee pass shall be issued to any vehicle towed or carried in by a motor home if a camping permit or proof of a campsite reservation is presented at an attended visitor center, office or entrance station. The no fee pass, valid for the same time period as the camping permit or camping reservation, shall authorize entrance by motor vehicle to the state recreation areas and state parks by the user and all passengers in the motor vehicle to which the pass is affixed. For the purpose of this regulation, motor home means a vehicle designed to provide temporary living quarters and which is built into, as an integral part of or a permanent attachment to, a motor vehicle chassis or van.
11. Unless the owner of the vehicle opts out, a Keep Colorado Wild annual pass shall be assessed by the Department of Revenue (DOR) at the time a resident registers a passenger motor vehicle, light-weight truck, motorcycle, or recreational vehicle. The Keep Colorado Wild annual pass shall authorize the entrance of the associated motor vehicle to all state recreation areas and state parks, except Cameo Shooting and Education Complex, while the associated vehicle registration is valid. Such authorization shall apply to the user and all passengers in the motor vehicle.
  - a. Commercial vehicles, as defined by § 42-1-102(17.5), C.R.S. are not eligible for the Keep Colorado Wild annual pass.
  - b. A no-cost Keep Colorado Wild annual pass shall be issued by the Department of Revenue (DOR) through the vehicle registration process to all qualifying vehicles, that are exempt from DOR fees as specified in § 42-3-213(1)(b)(II), C.R.S.
  - c. Refunds involving Keep Colorado Wild passes will only be offered for the first two calendar years after the Keep Colorado Wild pass implementation. Refund applications involving Keep Colorado Wild passes purchased after December 31, 2024 will not be eligible for a refund.
    - (1) A refund application for a Keep Colorado Wild pass submitted to the division within 60 days of purchase will be granted. A refund application for a Keep Colorado Wild pass submitted to the division after 60 days of purchase will be denied.
    - (2) When an affixed annual, aspen leaf annual, or annual multiple pass overlaps with a Keep Colorado Wild pass for the same vehicle, the CPW annual pass will be eligible for a prorated refund. When a family annual pass overlaps with a Keep Colorado Wild pass, the family annual pass will be eligible for a prorated refund.

- a. If the annual pass has been used for 9 or more months it is non-refundable.
  - b. Bulk annual park passes are non-refundable.
  - c. For the family annual pass, the refund amount will be calculated from the date the refund application and the physical pass are received by the division. For all other annual passes, the refund amount will be calculated based on the date the refund application is submitted to the division.
- (3) Only one refund is allowed annually per vehicle, either the Keep Colorado Wild pass or the annual pass, whichever is submitted and processed first.

## **INDIVIDUAL PASSES**

### **#701 - INDIVIDUAL PASSES**

1. Individuals sixteen years of age or older entering any state recreation area or state park by means other than a motor vehicle, such as on foot, bicycle, horseback, etc., shall have a valid parks pass issued by the Division or DOR carried on their person. Individuals entering by means other than a motor vehicle into Boyd Lake, Cameo Shooting and Education Complex, Chatfield, Cherry Creek, Cheyenne Mountain, Lake Pueblo, and Lone Mesa state parks may enter without purchasing a parks pass. Individual passes are not required at any state recreation area or state park under the circumstances identified in regulation # 700-2.a. through # 700-2.e. and # 700-2.g. through # 700-2.l or for individuals under the age of sixteen.
2. A Columbine, Centennial, Blue Spruce, Independence, Volunteer or Military Pass is issued to an individual person and not a specific vehicle. These shall authorize entrance by motor vehicle, when and where motor vehicle access is permitted, to all state recreation areas and state parks or for other forms of individual access, when in possession of the pass holder. Such authorization shall apply to the holder of the pass and all the passengers in, and the driver of, the motor vehicle carrying the holder of such pass. The pass must be continuously displayed in the manner described on the pass. A Columbine, Centennial, Blue Spruce, Independence, Volunteer or Military Pass is transferable from motor vehicle to motor vehicle as long as the pass holder is present in the vehicle. The Centennial pass may also be associated with the Centennial pass holder's vehicle, if desired, at no additional cost.
3. Any resident of the state who is a first responder with a permanent occupational disability as defined in state statute 33-4-104.5 (2) may obtain, free of charge, a Blue Spruce annual pass, also known as a Columbine annual pass for first responders pursuant to 33-12-103.5 (2.5), C.R.S. The pass will only remain valid as long as the individual maintains their Colorado residency as defined in 33-1-102 (38) (a), C.R.S.
  - a. In order to qualify for a Blue Spruce annual parks pass, a resident must provide the following written proof to the Division:
    - (1) The "Initial Disability Administration Decision" form from the Fire and Police Pension Association that specifies a permanent occupational disability; or
    - (2) For residents that are not members of the Fire and Police Pension Association, a fully completed Division "First Responder Affidavit" signed by the applicant attesting to the fact that their permanent disability or disease was obtained while on active-duty.

4. A resident who is a disabled veteran or a resident who is a purple heart recipient may obtain an Independence annual parks pass pursuant to 33-12-106 (1) (b), C.R.S and 33-12-106 (1) (c), C.R.S. An Independence annual parks pass shall be issued following the Division's receipt of a completed application from a qualified resident of the state. The pass will only remain valid as long as the individual maintains their Colorado residency as defined in 33-10-102 (21), C.R.S.
  - a. In order to qualify for an Independence annual parks pass, a resident must provide the following written proof to the Division:
    - (1) DD 214 Form or other documentation indicating the veteran received an Honorable Discharge from a branch of the Armed Services of the United States, **AND**
    - (2) A qualification letter, on official stationary/letterhead, from the Veteran's Administration, Department of Veteran's Affairs, or the branch of service from which the veteran is receiving compensation, that states one of the following:
      - a. 50% or greater, service-connected permanent disability;
      - b. Loss of use of one or both feet;
      - c. Loss of use of one or both hands; or a
      - d. Loss of vision in both eyes, **OR**
    - (3) A DD 214 Form indicating the applicant has been awarded a purple heart, or a letter of verification from the appropriate branch of the armed forces of the United States that the applicant has been awarded a purple heart.
5. A disabled resident may obtain a Columbine annual pass pursuant to 33-12-103.5, C.R.S. A resident who qualifies for a Centennial annual pass may obtain such pass as provided for in this regulation. A Columbine or a Centennial annual parks pass shall be issued following the Division's receipt of a completed application from a qualified resident of the state and the payment of the necessary fee. The pass will only remain valid as long as the individual maintains their Colorado residency as defined in 33-10-102 (21), C.R.S.
  - a. In order to qualify for a Columbine annual parks pass, a resident must provide the following written proof to the Division:
    - (1) A "Final Admission of Liability" form from the Division of Workers Compensation that indicates a total and permanent disability; or
    - (2) A fully completed Division "Physician's Affidavit" signed by a licensed physician attesting that the resident meets the definition of a total and permanent disability. A **"total and permanent disability"** shall mean any physical or mental impairment which prevents substantial gainful employment, but only if it is reasonably certain that such a disability will continue throughout the lifetime of the disabled person.
  - b. In order to qualify for a Centennial annual parks pass, a resident must show a photo identification card and provide written proof, in the form of a federal or state income tax return from the immediately preceding calendar year, that the federal taxable income of such individual is at or below the threshold amount, based on the number of dependents, for a state parks Centennial annual pass. The pass will only remain valid as long as the individual maintains their Colorado residency as defined in 33-10-102 (21), C.R.S.

The federal taxable income amounts, based on the number of dependents, cannot be greater than those listed in the poverty guidelines set forth in the Annual Update of the HHS Poverty Guidelines, 87 Fed. Reg. 3315 (January 21, 2022) issued by the U.S. Department of Health and Human Services, Office of the Assistant Secretary for Planning and Evaluation, Room 404E, Humphrey Building, Department of Health and Human Services, Washington, DC 20201. This federal guideline, but not later amendments to or editions thereof, has been incorporated by reference. Information regarding how and where the incorporated materials may be examined, or copies obtained, is available from:

Regulations Manager  
Policy and Planning Unit  
Colorado Division of Parks and Wildlife  
6060 Broadway  
Denver, Colorado 80216

If the individual's income is at a level where he or she was not required to file a federal income tax return for the immediately preceding calendar year, such individual shall sign a statement under penalty of perjury in the second degree to such effect. No such affidavit shall be required to be notarized.

- c. The Columbine, Centennial, Independence, and Blue Spruce annual parks pass application shall be on a form provided by the Division. Blank applications shall be available, during regular business hours, at the Divisions' regional offices, Denver offices, and service centers.
- d. Individuals applying to the Division for a Columbine, Centennial, Independence, or Blue Spruce annual parks pass must provide the following information:
  - (1) Full name and address, including city, county, state and zip code; and
  - (2) Phone number, unless the phone number is unlisted or non-published; and
  - (3) Date of birth and age; and
  - (4) Physical description, including sex, height, weight, hair and eye color; and
  - (5) Applicant's signature and date of application; and
  - (6) If applying for a Columbine annual parks pass, information concerning the nature of the applicant's disability, together with supporting evidence of the same.
  - (7) If applying for a Centennial annual parks pass, information concerning the applicant's total annual income and number of dependents, together with supporting evidence of the same.
  - (8) If applying for a Blue Spruce annual parks pass, information concerning the applicant's first responder service and disability, together with supporting evidence of the same.
  - (9) If applying for an Independence annual parks pass, required documentation supporting veteran's status and disability qualifications or verification that the applicant has been awarded a purple heart.
- e. The Columbine, Centennial, Independence, and Blue Spruce annual parks pass application form shall contain language explaining that the completed and signed

application, once submitted to the Division, will be treated in all respects as a sworn statement. The form shall also contain an oath that includes an affirmation attesting to the truth of that which is stated, the applicant is aware that statements made are intended to be represented as true and correct statements, and that false statements are punishable by law.

- f. At the time that an application for a Columbine or a Centennial annual parks pass is submitted to the Division, the appropriate fee shall also be paid.
  - g. Pending the issuance of a Columbine, Centennial, Independence, or Blue Spruce annual parks pass, possession on the applicant of a bona fide copy of the application permits the applicant and others in the motor vehicle carrying the applicant entrance by motor vehicle to all state parks and state recreation areas, when and where motor vehicle access is permitted, for a period of thirty days following the date of filing the application with the Division or until receipt of notice from the Division either granting or denying the application request, whichever period of time is shorter.
  - h. Within 15 days of the Division's receipt of a completed Columbine or Centennial annual parks pass application and the appropriate fee payment, or Blue Spruce or Independence annual parks pass application, the Division shall review and approve or deny the application.
    - (1) Completed applications shall be approved if the minimum qualifications set forth in this regulation are met.
    - (2) Conversely, if the minimum qualifications are not met, then the application shall be denied. The applicant shall be notified in writing within five working days upon denial of a request. Such written notification shall include an explanation of the basis for denial and a refund of any fee paid.
    - (3) The applicant may appeal this decision to the Division Director by notifying the Director in writing within sixty days of the Division's mailing of the denial notice. A faster appeal will be necessary when the calendar year will end prior to the expiration of the sixty-day appeal period.
    - (4) The address utilized by the Division for all mailings associated with the processing of a Columbine, Centennial, Independence, or Blue Spruce annual parks pass application shall be the address indicated on the application.
  - i. If a Columbine, Centennial, Independence, or Blue Spruce annual pass is lost or destroyed during the period of time that it would otherwise would have been valid, the person to whom the pass was issued may obtain a duplicate thereof, free of charge, upon signing an affidavit reciting where and by whom it was issued and circumstances under which it was lost.
6. The types of non-motor vehicle individual passes available from the Division are as follows:
- a. A non-motor vehicle individual daily pass, for all persons sixteen years of age or older, shall be carried on the individual's person for all visitors entering state recreation areas and state parks as provided in regulation #701-1 and regulation #701-6.d.
  - b. A non-motor vehicle individual annual pass issued to one pass holder, may be used for the pass holder and up to three additional visitors sixteen years of age or older. Such pass, shall be carried on the pass holder's person for visitors entering state recreation areas and state parks as provided in regulation #701-1 and regulation #701-6.d.

- c. The receipt for an annual pass, a copy of the individual's vehicle registration displaying a Keep Colorado Wild annual pass, a Division sponsored mobile application showing active status of a Keep Colorado Wild annual pass or other Division annual pass shall be carried on the pass holder's person to be used as an individual annual pass, for the pass holder and up to three additional visitors sixteen years of age or older, for visitors entering all state recreation areas and state parks as provided in regulations #701-1 and regulation #701-6.d.
- d. The following rules apply to non-motorized access to Arkansas Headwaters Recreation Area:
  - (1) A non-motor vehicle individual daily pass, for all persons sixteen years of age or older, shall be carried on the individual's person for all visitors entering the developed and posted fee sites of Arkansas Headwaters Recreation Area.
  - (2) Or the receipt for an annual pass, or a copy of the individual's vehicle registration displaying a Keep Colorado Wild annual pass shall be carried on the pass holder's person to be used as an individual annual pass, and may be used for the pass holder and up to three additional visitors sixteen years of age or older for visitors entering the developed and posted fee sites of Arkansas Headwaters Recreation Area.
- 7. Volunteers for Colorado Parks and Wildlife are eligible for a volunteer park pass while serving in accordance with a signed individual volunteer agreement and after donating a minimum of 48 hours of approved volunteer service within a previous consecutive 12-month period.
  - a. The volunteer park pass is valid for one year from the date of issue.
- 8. Volunteers for Colorado Parks and Wildlife who are 64 years of age or older, regardless of their state of residence, are eligible for the senior volunteer park pass while serving in accordance with a signed individual volunteer agreement and after donating a minimum of 48 hours of approved volunteer service within a previous consecutive 12-month period.
  - a. The senior volunteer park pass is valid for one year from the date of issue.
- 9. A veteran is eligible for a no fee individual military pass during the month of August.
  - a. In order to qualify for the no fee individual military pass, a veteran, reserve, or active duty member of any branch of the armed forces of the United States, must provide at least one form of past or present military identification to the Division in order to receive the free Military pass. Acceptable forms of military identification include:
    - (1) DD214;
    - (2) DD Form 2;
    - (3) DD Form 2765;
    - (4) Active, retired or veteran military identification cards;
    - (5) A current Colorado Driver's License or state issued identification card with the word 'Veteran' printed on it as specified in 42-2-303 (5)(a), C.R.S.;
    - (6) VA medical card.

10. A no-fee individual "Check Out State Parks" Library Program Pass is available for check out from Colorado libraries.

#### **#702 - COMMISSION AUTHORITY**

1. The Commission may waive the requirement for a park pass, or it may close any state park or state recreation area, or portions thereof, whenever it finds the action necessary to protect and promote the health, safety and general welfare of the people of this state.
2. "Pass" as used in these regulations means a physical or electronic document or product provided for by statute, Commission rule or regulation and issued or required by the Division authorizing entrance to any state park or state recreation area.

#### **SPECIAL ACTIVITIES**

##### **#703 - SPECIAL ACTIVITIES REQUIRING PERMITS**

1. "Special activities" means events or activities which have the potential for an adverse impact on park values or health, safety or welfare of park visitors or which may otherwise require special planning/scheduling for proper management. Special activities shall require prior approval in the form of a special-activities permit. Applications thereof generally shall be made to the Park Manager or Operational Manager at least ninety (90) days prior to the event or activity. Such application must be accompanied by the appropriate application filing fee. This requirement for an application to be filed ninety days prior to an event will be waived in rare circumstances where arrangements can be made in a shorter time without putting undue administrative burden on the Park Manager or Operational Manager, or when no special arrangements are necessary. The Park Manager may impose additional items, conditions and charges in connection with the permit as reasonably necessary to offset the administrative burden, costs or risks associated with the proposed activities. The Park Manager may retain third party consultants to evaluate the potential adverse impacts of the proposed activity and develop appropriate strategies to offset or mitigate such risks. The applicant shall be notified if the Park Manager decides to retain a consultant, shall be given the opportunity to provide input concerning consultant selection and scope of work. The applicant shall be responsible for the actual costs associated with this consultant review.
2. The decision of whether to approve special activity permits will be made by the Park Manager or Operational Manager when it is determined that the special activities will not involve the use of a park or recreation area by a group of persons totaling more than the park or recreation area's established carrying capacity. Otherwise, the Regional Manager shall make the decision of whether to approve the permits. The decision of whether to approve special activities permits will be based on the impact on park values and/or the health, safety and welfare of park visitors and other affected persons, and also will be based on:
  - a. The nature of the park or recreation area and the types of recreational opportunities/resources it is intended to provide the public
  - b. The carrying capacity of the facility or facilities to be utilized during the special activity compared to:
    - (1) The total number of park visitors (including participants and spectators in the special activity) expected to utilize such facilities; and
    - (2) The total number of vehicles, vessels or persons expected to participate in or be attracted to such activities.

- c. The extent to which the special activity will contribute to the variety of outdoor recreational opportunities available to the people of this state and its visitors.
  - d. The extent to which the activity places an administrative burden on the staff of the park area.
- 3. Whenever it is determined that any special activity will involve the use of a park or recreation area by a group of persons totaling more than the park's or recreation area's established carrying capacity a thirty day written public comment period and a public meeting shall be required prior to the granting of a permit. The Park Manager or Operational Manager shall publish notice of both the written comment period and the meeting at least once in a newspaper of general circulation in the county or counties wherein said park or recreation area is located. The meeting shall be conducted by the Division representative responsible for the permit issuance decision and shall be held either at the park or recreation area, or within a county in which the park or recreation area is located. Such public meeting is not intended to be an adjudicatory licensing hearing under the provisions of the Colorado Administrative Procedures Act, but only as an opportunity for public comment.
  - 4. Every decision respecting the grant, denial, revocation, suspension, annulment, limitation or modification of a special activity permit is subject to § 24-4-104, C.R.S.
  - 5. Upon written request, the Division shall waive the requirement for a parks pass for those vehicles when all the occupants are entering state recreation areas and state parks for the purpose of administering permitted special activities and not for the purpose of their own recreation.
  - 6. For special activities where the Division representative responsible for the permit issuance decision determines it will be a greater administrative ease for the Division to administer the activity, an alternative fee of \$4.00 per person per day may be charged for admission of persons attending or participating in the special activity. This permission shall apply only to groups of twenty or more persons.
  - 7. Nothing in this regulation impairs the specific authority of the Commission pursuant to 33-10-107(1)(d) C.R.S. to enter into cooperative agreements for the development and promotion of Division programs, or the general authority of the Commission pursuant to 33-10-106 C.R.S. to manage all state recreation areas and state parks for both commercial and noncommercial purposes. The authority granted to park managers and regional managers is intended to allow them to address events of limited and local impact, and is specifically intended to coexist with, and not to exclude, the Commission's statutory authorities.

## **CAMPGROUND USE PERMITS**

### **#704 - CAMPGROUND USE PERMITS AND GROUP CAMPGROUND USE PERMITS**

- 1. No person shall camp in designated campgrounds or use any campground facilities of any park or recreation area unless such use is by authority of a valid campground-use permit issued by the Colorado Parks and Wildlife.
- 2. In order to obtain a campground-use permit, a member of the camping party must be present with the camping unit, ready to make immediate occupancy of the campsite, or a reservation must be made through the approved campsite reservation system. Except as follows, no person may reserve or hold a campsite for another party by purchasing a campground-use permit for an additional site:

- a. A primary occupant must be identified for each campsite reserved. The primary occupant identified at the time of making the reservation is responsible for any fees, damages or law enforcement issues that arise from the occupants of the site.
  - b. If an individual or organization wishes to reserve a campsite or group of campsites without identifying a primary occupant, the individual making the reservation is the responsible party for any damages or law enforcement issues that arise from the occupants of the site or sites.
3. Possession of a valid campground-use permit visibly displayed at a place provided at each campsite shall authorize a single camping unit (tent, camper, etc.) occupied by a single family unit, or a maximum of six (6) persons to camp in a campsite for a single night until 12:00 P.M. (noon) the following day, unless the camping permit was purchased before 5:00 A.M., in which case it expires at noon the day of purchase. No person shall remove a valid campground-use permit or reservation card from the place provided for display prior to the expiration of such permit or card and/or occupy any campsite displaying such a permit or card or otherwise posted as already occupied by another party in accordance with these regulations.
4. A valid vehicle or individual pass, as required by regulations # 700 and # 701 respectively, shall be required for each motor vehicle for each night of camping.
5. Definitions as used in these regulations, unless the context requires otherwise:
  - a. "Full-Hookup Campground" means those with highly developed facilities. Individual campsites will be designated and include a high-use pad with table, grill and/or fire ring and individual pressurized water, sewer and/or electrical connections. Flush toilets, lavatory and shower facilities, and trash receptacles will be available. Grocery store, food-service facilities, sanitary dump station, laundry facilities, or other developed amenities may be available.
  - b. "Electrical Campground" means those with fairly developed facilities. Individual campsites will be designated and include a high-use pad, picnic table, grill and/or fire ring and individual electrical connections.
  - c. "Tent-Only Campground" means those allowing only tents as the camping equipment. Individual campsites may have amenities similar to "Electrical Campgrounds" or "Basic Campgrounds" depending on the facility.
  - d. "Basic Campground" includes those campgrounds providing basic facilities and improvements. Individual campsites shall be designated and include a table, grill and/or fire ring.
  - e. "Primitive Campground" includes those campgrounds where only limited facilities or improvements are provided. Individual campsites may not be designated and may not include individual tables, grills or fire rings. Centrally located vault toilets and trash receptacles may be provided; however, drinking water generally will not be available.
  - f. "Camping/To Camp" means either:
    - (1) To occupy a campsite; or
    - (2) To erect or use a tent or shelter of natural or man-made material, the placing or use of a sleeping bag or other bedding material, the parking of a motor vehicle, motor home, travel trailer, or any combination for the apparent purpose of

occupancy overnight or use outside regular park use hours (5:00 A.M. to 10:00 P.M.) or as posted.

- g. "Camping Unit" is defined as one of the following:
- (1) Two tents and a passenger vehicle; or
  - (2) One tent plus one motor home (Class A, B, C), motor vehicle, vehicle, trailer, slide-in truck camper, pop-up camper/trailer, boat, or other equipment of any description manufactured and/or used for the purposes of overnight occupancy.
  - (3) A camping unit may include additional tents only in a campsite with a tent pad; provided the tents are contained on the pad and other camping unit and camping group limits are observed.
  - (4) One passenger vehicle in addition to the above descriptions is authorized only if available parking space exists.
- h. "Passenger Vehicle" means a motor vehicle not designed or used for overnight occupancy.

#### **#705 - ASPEN LEAF ANNUAL PASSHOLDERS**

1. A resident of this state who is sixty-four years of age or older may obtain an Aspen Leaf annual pass. The fee for an Aspen Leaf annual pass is identified in regulation #708.
2. The Aspen Leaf annual pass holder must own in whole or in part any vehicle with a Colorado vehicle registration to which the Aspen Leaf annual pass is affixed and used to enter a state recreation area or state park area. Additional passes may be purchased pursuant to regulation #708(1)(d)(1).
3. Current Aspen Leaf Lifetime pass holders may obtain an annual Aspen Leaf Lifetime free pass for a single vehicle the holder owns in whole or in part for the lifetime of the pass holder and provided the pass holder is a resident of Colorado. The annual Aspen Leaf Lifetime Free Pass shall be affixed to such vehicle owned by the pass holder. Additional passes may be purchased pursuant to regulation #708(1)(d)(1).

#### **#706 - GROUP PICNIC AREA PERMITS**

1. No person shall use any facility or group picnic area unless such use is by authority of a valid permit issued by the Division.
2. Definitions as used in these regulations, unless the context requires otherwise:
  - a. "Class A – Deluxe Group Picnic Area" means those with highly developed facilities. The picnic area will be designated and include a covered shelter, picnic tables, a grill, and electrical connections. Restroom facilities, trash receptacles, water and lighting will be available.
  - b. "Class B – Improved Group Picnic Area" means those with fairly developed facilities. The picnic area will be designated and include picnic tables and a grill. Trash receptacles and water will be available.

- c. "Class C – Basic Group Picnic Area" means those providing basic facilities. The picnic area will be designated and include picnic tables and a grill. Sanitary facilities shall generally consist of vault-type toilets.

#### **#707 – CAMPGROUND AND DAY-USE RESERVATION CANCELLATION, AND CHANGE FEES**

1. The fees for cancelling a reservation for a campground site, group campground site, group picnic area, and event facility are as follows:
  - a. If the cancellation is made seven days before the arrival date through the arrival date, 100% of the fee for one night or day-use permit will be retained.
  - b. If the cancellation is made 28 days before the arrival date through 8 days before the arrival date, 50% of the fee for one night or day-use permit will be retained.
  - c. If the cancellation is made more than 28 days before the arrival date, 25% of the fee for one night or day-use permit will be retained.
  - d. If the cancellation is made between the day after the arrival date and the departure date, the fees for any nights or days passed will be retained.
  - e. Cancellation fees are non-refundable, except in the case of a bona fide emergency or in the case of Division error.
2. The fees for changing the reservation dates (arrival date and/or departure date) for a campground site, group campground site, group picnic area, and event facility are as follows, except there shall be no additional fee to change the departure date if the reservation is extended beyond the original departure date:
  - a. If the change in the reservation dates is made seven days before the arrival date through the arrival date, 20% of the fee for one night or day-use permit will be retained.
  - b. If the change in the reservation dates is made 28 days before the arrival date through 8 days before the arrival date, 15% of the fee for one night or day-use permit will be retained.
  - c. If the change in the reservation dates is made more than 28 days before the arrival date, 10% of the fee for one night or day-use permit will be retained.
  - d. If the change in the reservation dates is made between the day after the arrival date and the departure date, the fees for any nights or days passed will be retained.
  - e. Reservation change fees are non-refundable, except in the case of Division error.
3. There shall be no additional change fee for changing the site of a reservation at a campground, group campground, group picnic area, and event facility if the reservation dates remain the same or are further extended. If a customer changes the site of their reservation, they shall be charged or refunded the difference in the price for the site type only, if applicable.
4. If a customer fails to occupy the site of their reservation during the selected dates or fails to contact the park, recreation area or vendor to inform them that they will not occupy the site of their reservation during the selected dates, the fees for any nights or days passed will be retained and the customer will be ineligible for a refund for those nights or days passed.

5. If a customer makes a reservation for a campground site, group campground site, group picnic area, or event facility where one or more dates of the stay are more than six months from the reservation date, the reservation will be frozen to changes or cancellations for 14 days immediately following the date the reservation was created.

#### #708 - PASS AND PERMIT FEE SCHEDULE

1. The fees for the types of vehicle passes issued by the Division are as follows.
- a. Aspen leaf annual pass.....\$70.00
  - b. Annual affixed vehicle pass.....\$80.00
  - c. State parks annual transferable pass .....\$120.00
  - d. Each additional annual affixed vehicle pass for noncommercial vehicles.....\$40.00
    - (1) Each additional Aspen Leaf vehicle pass for noncommercial vehicles.....\$35.00
  - e. Each replacement annual affixed vehicle pass, without proof of necessary replacement .....\$40.00
    - (1) Each replacement additional annual affixed vehicle pass, without proof of necessary replacement .....\$20.00
    - (2) Each replacement Aspen Leaf vehicle pass, without proof of necessary replacement .....\$35.00

- d. Family passes (Two adults and all children (ages 7-17) that live at the same address):
- (1) Family annual pass .....\$300.00
  - (2) Family three-year pass .....\$600.00
- e. Group day use passes:
- (1) Day use passes for 10 to 19 individuals .....\$9.00/person
  - (2) Day use passes for 20 to 29 individuals .....\$7.00/person
  - (3) Day use passes for 30 or more individuals .....\$3.00/person
- f. Corporate passes:
- (1) Annual corporate pass (10 unassigned passes per day) ...\$3,000.00
- g. All annual passes for the Cameo Shooting and Education Complex are valid 365 days from the date of purchase.

14. It is unlawful for any person to transfer, sell, or assign any pass or permit issued by the Division, including special activity permits, campground use permits, and group picnic area permits, unless otherwise permitted by these regulations.

#### **#709 - REGISTRATION FEE SCHEDULE**

1. The fees for types of vessel registrations issued by the Division are as follows:
- a. Vessel registration (including annual resident registration and each rental vessel registration):
    - (1) For vessels less than twenty feet in length.....\$35.00
    - (2) For vessels twenty feet to less than thirty feet in length.....\$45.00
    - (3) For vessels thirty feet or more in length.....\$75.00
    - (a) Dealer registration for all vessels owned by a dealer which are operated for research, testing, experimentation, or demonstration purposes only:
      - (i) When the dealer sells twenty-five or fewer vessels within the preceding year.....\$45.00
      - (ii) When the dealer sells more than twenty-five vessels within the preceding year.....\$75.00
    - (b) Manufacturer registration for all vessels owned by a manufacturer which are operated for demonstration or testing purposes only.....\$25.00
    - (c) Nonresident annual vessel registration for a person from a state or country where registration is not permitted.....\$50.00
2. The fees for the types of snowmobile registrations issued by the Division are as follows:
- a. Snowmobile registration (including annual resident registration and each rental snowmobile).....\$30.00
  - b. Dealer registration for all snowmobiles owned by a snowmobile dealer which are operated for demonstration or testing purposes only:
    - (1) When the dealer sells twenty-five or fewer snowmobiles within the preceding year.....\$35.00
    - (2) When the dealer sells more than twenty-five snowmobiles within the preceding year.....\$60.00
  - c. Manufacturer registration for all snowmobiles owned by a manufacturer which are operated for research, testing, experimentation or demonstration purposes only.....\$35.00
  - d. Nonresident annual snowmobile permit.....\$30.00
3. The fees for the types of off-highway vehicle registrations issued by the Division are as follows:
- a. Off-highway vehicle registration and nonresident off-highway vehicle permit.....\$25.00

- b. Dealer registration for all off-highway vehicles owned by an off-highway vehicle dealer and operated for demonstration or testing purposes only:
  - (1) When the dealer sells twenty-five or less off-highway vehicles within the preceding year.....\$35.00
  - (2) When the dealer sells more than twenty-five off-highway vehicles within the preceding year.....\$60.00
- c. Manufacturer registration for off-highway vehicles owned by a manufacturer which are operated solely for research, testing, experimentation, or demonstration purposes..... \$35.00
- d. Registration for off-highway vehicles owned by a lessor for rental purposes only:
  - (1) When the lessor owns ten or less off-highway vehicles within the preceding year.....\$35.00
  - (2) When the lessor owns more than ten off-highway vehicles within the preceding year.....\$60.00
- 4. A duplicate vessel, snowmobile, or off-highway vehicle registration.....\$5.00

#### **#710 - Lone Mesa State Park Hunting Special Use Permit**

- 1. Purpose: This hunting management plan is designed to establish administration of hunting activities on Lone Mesa State Park.
- 2. Special Use Permit Procedure
  - a. Permit Numbers
    - (1) Colorado Parks and Wildlife (CPW) deems hunting activities on Lone Mesa State Park as those which currently require "special planning and/or scheduling for proper management." Therefore, CPW issues special use permits to visitors wishing to engage in hunting use of the park.
    - (2) The maximum number of approved Hunting Special Use Permits (HUPs) on Lone Mesa State Park at any one time during the following big game seasons is:
      - Archery: twenty (20)
      - Muzzle-loading: twelve (12)
      - 1<sup>st</sup> separate elk rifle: fifteen (15)
      - 2<sup>nd</sup> combined deer/elk rifle: twenty-five (25)
      - 3<sup>rd</sup> combined deer/elk rifle: thirty-five (35)
      - 4<sup>th</sup> combined deer/elk rifle: thirty-five (35)
    - (3) Each year, the Division, by action of the Park Manager, will allocate HUPs up to the maximums after evaluating harvest and other data in the interest of creating a high quality hunter opportunity consistent with wildlife objectives.

b. Permit Fees

- (1) Successful permit applicants shall pay the fee associated with their HUP (see fee schedule section b.5) at least thirty (30) days prior to any access to Lone Mesa State Park.
- (2) Upon payment of the fee and attendance of the mandatory orientation session, an HUP shall be issued to the applicant.
- (3) If an applicant who is successful in the drawing (see section c.7.) fails to pay the HUP fee, a permit will not be issued to them. The next qualified applicant on the drawing log (see section c. 8.), or the next first-come, first-served applicant will be offered an HUP.
- (4) If, at a later date, an applicant's payment of the HUP fee is found to be insufficient due to payment stops, insufficient funds or any other reason, an HUP will not be issued to them. And, if an HUP had been issued prior to CPW discovering the insufficient payment, that permit will be voided.
- (5) The schedule of fees associated with the HUP is as follows:
  - (a) The fee for the HUP allowing Colorado residents access to Lone Mesa State Park to hunt during archery season, \$100.
  - (b) The fee for the HUP allowing Colorado nonresidents access to Lone Mesa State Park to hunt during archery season, \$200.
  - (c) The fee for the HUP allowing Colorado residents access to Lone Mesa State Park to hunt antlerless elk and/or antlerless deer during muzzleloading season, \$100.
  - (d) The fee for the HUP allowing Colorado residents access to Lone Mesa State Park to hunt antlered elk and/or antlered deer during muzzleloading season, \$200.
  - (e) The fee for the HUP allowing Colorado nonresidents access to Lone Mesa State Park to hunt antlerless elk and/or antlerless deer during muzzleloading season, \$200.
  - (f) The fee for the HUP allowing Colorado nonresidents access to Lone Mesa State Park to hunt antlered elk and/or antlered deer during muzzleloading season, \$300.
  - (g) The fee for the HUP allowing Colorado residents access to Lone Mesa State Park to hunt elk during the first elk-only rifle season, \$150.
  - (h) The fee for the HUP allowing Colorado nonresidents access to Lone Mesa State Park to hunt elk during the first elk-only rifle season, \$250.
  - (i) The fee for the HUP allowing Colorado residents access to Lone Mesa State Park to hunt antlerless elk and/or antlerless deer during the second, third, or fourth combined elk/deer rifle season, \$100.

- (j) The fee for the HUP allowing Colorado nonresidents access to Lone Mesa State Park to hunt antlerless elk and/or antlerless deer during the second, third, or fourth combined elk/deer rifle season, \$200.
  - (k) The fee for the HUP allowing Colorado residents access to Lone Mesa State Park to hunt antlered elk and/or antlered deer during the second, third, or fourth combined elk/deer rifle season, \$200.
  - (l) The fee for the HUP allowing Colorado nonresidents access to Lone Mesa State Park to hunt antlered elk and/or antlered deer during the second, third, or fourth combined elk/deer rifle season, \$300.
- (6) Only one access permit is required per hunter, per season. A hunter possessing valid licenses for multiple species among deer, elk and bear will pay the highest applicable permit fee and can hunt with all valid licenses. The HUP continues to be valid until termination of the permitted season or harvest of all valid deer, elk, and bear licenses in the hunter's possession, whichever comes first.

c. Allocation of Permits

- (1) Advertising: it shall be the responsibility of the park manager or his/her designee to advertise the availability of HUPs for Lone Mesa through normal media and internet formats.
- (2) Application requests: requests for the application for the HUP on Lone Mesa State Park can be made by contacting the Lone Mesa State Park office: 1321 Railroad Ave, PO Box 1047, Dolores, Colorado 81323, Phone: 970-533-7065, Fax: 970-882-4640, e-mail: **[lone.mesa.park@state.co.us](mailto:lone.mesa.park@state.co.us)**. Applications may also be accessed via the internet at **[www.cpw.state.co.us](http://www.cpw.state.co.us)**
- (3) Requests for permit applications shall be acted upon promptly, and an application for permit shall be mailed, faxed or e-mailed to the prospective permittee within five days of receiving the request.
- (4) Permit applications must be mailed, e-mailed, or faxed to the Lone Mesa State Park office at the above address prior to the application deadline. It is the applicant's responsibility to confirm receipt.
- (5) Permit applications will be secured by the park manager or his/her designee until the scheduled public drawing to be held at the Lone Mesa State Park office at least 60 days prior to the opening of the archery season. The public opening of applications will be advertised locally and to the applicants.
- (6) Once opened, the HUP applications will be checked for completeness, logged by applicant name, season desired, and application number, and a drawing "chip" - reflecting the application number- will be created for each complete and legible qualifying application.
- (7) Drawing: after applications are opened and logged in the application log, the drawing for successful applicants will take place. There will be drawings for each of the six big game seasons for which hunting will be permitted on Lone Mesa: archery, muzzleloading, 1<sup>st</sup> separate limited elk, 2<sup>nd</sup> combined deer and elk, 3<sup>rd</sup> combined deer and elk, and 4<sup>th</sup> combined deer and elk. Permits will be issued up to the numbers outlined in this regulation, #601.2.a.

- (8) The drawing will continue until all “chips” are drawn, and a drawing log will be completed which will list the applicants in the order drawn. The drawing log will be used to facilitate fair re-allocation of permits per the re-allocation of unused permits protocol (see section 3.c.).
- (9) Successful applicants will be notified of their success by mail via a letter of successful application, which shall include a summary of rules associated with the HUP (a complete list shall be provided with the permit during the required orientation and information for remittance of the HUP fee).

d. Reporting and Filing

- (1) All files pertaining to the HUP for Lone Mesa State Park will be stored at the Lone Mesa State Park office.
- (2) The park manager or designee will include a summary of hunting activity under permit on the park manager monthly report.
- (3) Revenues derived from the HUP fee will be deposited in the parks cash fund and reflected on the consignment usage/revenue report for the month such fees are deposited.

3. Field Enforcement Procedure

a. Possession of Permit

- (1) Copies of the permitted hunter list will be made available to commissioned CPW officers and the officers of other cooperating agencies in the interest of maintaining compliance with this plan.
- (2) It shall be the permittee's responsibility to adequately identify themselves as a permit holder when contacted while hunting in Lone Mesa State Park.

b. Statute and Regulation Compliance

- (1) Permit holders will be supplied a list of rules associated with the HUP upon issuance of the permit. Failure to comply with the rules of the permit may result in permit revocation.
- (2) Nothing in this plan or in the rules of the HUP shall imply or be construed to imply that HUP holders are exempt from any statute or regulation governing hunting, motor vehicle operation, conduct on a state park, or other activity in which the permit holder may engage while performing the activities allowed under the permit. These statutes and regulations include, but are not limited to:
  - (a) Permit holders must possess a valid license issued by CPW for the Game Management Unit, species, and season hunted.
  - (b) Vehicles involved in hunting-use of the park are required to display or carry a valid Colorado State Parks pass, unless the vehicle displays a Disabled Veteran license plate or a Purple Heart license plate.

c. Reallocation of Permits

- (1) Permit re-allocations may take place in the event a permittee is unable to engage in the activities of the permit for any reason, including sickness, death, hunting license revocation, permit revocation, park eviction, or simple changes in plans.
- (2) Re-allocations of HUPs will be conducted following this procedure:
  - (a) The park manager or designee will attempt to contact the next individual on the drawing log by phone.
  - (b) If the next individual is unable to be contacted upon the first call, the park manager or designee will continue down the drawing log until an individual can be contacted and notified of the availability of an HUP for Lone Mesa.
  - (c) If no hunter on the drawing log can be contacted, no applicant is qualified, or none is available to hunt the remainder of the season, the availability of the HUP will be advertised by the park manager or designee and the permit may be allocated on a first-come, first-served basis.
  - (d) Hunters who are contacted via the drawing log and who obtain or decline an HUP for Lone Mesa will have their name removed from the drawing log.
- (3) Re-allocated permits shall not be valid until payment of the HUP fee and attendance of the hunter orientation by the new permittee.

#### **#711 - GOLDEN GATE CANYON STATE PARK HUNTING SPECIAL USE PERMIT**

1. Purpose: this hunting management plan is designed to establish administration of hunting activities on the Green Ranch portion of Golden Gate Canyon State Park.
2. Special use permit procedure
  - A. Permit numbers
    - (1) Colorado Parks and Wildlife deems hunting activities on the Green Ranch portion of Golden Gate Canyon State Park as those which currently require "special planning and/or scheduling for proper management." Therefore, the Division issues special use permits to visitors wishing to engage in hunting on the Green Ranch portion of the park.
    - (2) The maximum number of approved hunting special use permits (HUPs) for the Green Ranch on Golden Gate Canyon State Park at any one time during the 2003 big game season is as follows:

Archery (pre-muzzleloading and post-muzzleloading): twenty (20)

Muzzle-loading: ten (10)

1st separate elk rifle: ten (10)

2nd combined deer/elk: ten (10)

3rd combined deer/elk: ten (10)

4th combined deer/elk: ten (10)

- (3) The number of HUPs allocated in each of the subsequent years will be determined by CPW after evaluating harvest and other data at the close of each year's hunting.

B. Application and permit fees

- (1) Each applicant must submit a \$10.00 application fee for each application submitted.
- (2) Successful permit application holders shall pay a special use permit fee of \$100, which must be received by Golden Gate Canyon State Park (address below) prior to any access to the Green Ranch.
- (3) Upon payment of the fee, a HUP for the Green Ranch shall be issued to the applicant.
- (4) If an applicant who is successful in the drawing (see section c.7) fails to pay the special use permit fee within 10 days prior to the start of the applicant's season, a permit will not be issued to them. The next qualified applicant on the alternate list (see section c.8) will be offered an HUP.
- (5) If, at a later date, an applicant's payment of the HUP fee is found to be insufficient due to payment stops, insufficient funds or any other reason, an HUP will not be issued to them. If an HUP had been issued prior to CPW discovering the insufficient payment, that permit will be voided.

C. Allocation of permits

- (1) Advertising: it shall be the responsibility of the park manager or his/her designee to advertise the availability of the HUPs for the Green Ranch through normal media and internet formats.
- (2) Application requests: requests for the application for the HUP for the Green Ranch can be made by sending a self-addressed stamped envelope (SASE) to Golden Gate Canyon State Park, Attn: Green Ranch Hunt: 92 Crawford Gulch Road, Golden, Colorado 80403, phone: 303 582-3707. Applications may also be accessed via the internet at [www.cpw.state.co.us](http://www.cpw.state.co.us)
- (3) Requests for permit applications shall be acted upon promptly, and an application for permit shall be mailed to the prospective applicant within five days of receiving the SASE.
- (4) Permit applications must be mailed to Golden Gate Canyon State Park at the above address and clearly marked "Green Ranch Hunt" on the envelope. All applications must be received by July 31st for the upcoming big game season.
- (5) Permit applications will be checked for completeness and require a copy of the hunting license, if applicable (for limited licenses). All complete and correct permit applications will be recorded for future use.
- (6) If additional information is needed to process the permit application, the park manager or his/her designee will make reasonable attempts to contact the applicant to rectify the application.

- (7) Drawing: the drawing will be held no later than the first Sunday in August. There will be one random drawing for each of the six seasons on the Green Ranch: pre-muzzleloading archery, muzzleloading, post-muzzleloading archery, 1st separate limited elk, 2nd combined deer and elk, 3rd combined deer and elk, and 4th combined deer and elk. Permits will be issued up to the numbers outlined in this regulation, #711.2.a.
- (8) Up to fourteen names will be drawn for each of the hunting seasons; a maximum of ten for the "hunter list" and four "alternates" for each season. If one of the hunters drawn does not wish to accept the HUP, an alternate will be contacted in the consecutive order that they were drawn.
- (9) Successful applicants will be notified of their success by mail via a letter of successful application, which shall include a summary of rules associated with the HUP (a complete list to be provided with the permit during the required orientation) and information for remittance of the special use permit fee.

D. Reporting and filing

- (1) All files pertaining to the HUP for the Golden Gate Canyon State Park Green Ranch will be stored at the Golden Gate Canyon State Park office.
- (2) The park manager or his/her designee will include a summary of hunting activity under permit on the park manager monthly report.
- (3) Revenues derived from the HUP and application fee will be deposited in the parks cash fund and reflected on the consignment usage/revenue report for the month such fees are deposited.

3. Field enforcement procedure

A. Possession of permit

- (1) Copies of the "hunter list" will be made available to commissioned CPW officers and the officers of other cooperating agencies in the interest of maintaining compliance with this plan.
- (2) It shall be the permittee's responsibility to carry the access permit with them while hunting the Green Ranch portion of Golden Gate Canyon State Park.

B. Statute and regulation compliance

- (1) Permit holders will be supplied a list of rules associated with the HUP upon issuance of the permit. Failure to comply with rules of the permit may result in permit revocation.
- (2) Nothing in this hunting management plan or in the rules of the special use permit shall imply or be construed to imply that HUP holders are exempt from any statute or regulation governing hunting, motor vehicle operation, conduct on a state park, or other activity in which the permit holder may engage while performing the activities allowed under the permit. These statutes and regulations include, but are not limited to:
  - (a) Permit holders must possess a valid hunting license issued by CPW for the game management unit, species and season hunted.

- (b) Vehicle involved in hunting-use on the Green Ranch are required to display or carry a valid Colorado State Parks pass, unless the vehicle displays a disabled veteran license plate or a Purple Heart license plate.

C. "Alternate" system

- (1) Alternate hunters may be contacted in the event a permittee is unable to engage in the activities of the permit for any reason, including sickness, death, hunting license revocation, permit revocation, park eviction or simple changes in plans.
- (2) Alternates will be contacted in the following manner:
  - (a) The park manager or his/her designee will attempt to contact the next individual on the alternate list by phone.
  - (b) If the next individual is unable to be contacted upon the first call, the park manager or his/her designee will continue down the alternate list until an individual can be contacted and notified of the availability of an HUP for the Green Ranch.
  - (c) If no hunter on the alternate list can be contacted, the park manager or his/her designee will return to the applicant pool of the individual season and randomly draw up to four more alternates. This process will be continued until the hunting slot is filled by a qualified applicant.
  - (d) If no hunter can be contacted, no applicant is qualified, or none is available to hunt the remainder of the season, the availability of the HUP will be advertised by the park manager or his/her designee and the permit may be issued on a first-come, first-served basis.
  - (e) Hunters who are contacted via the hunting list or alternate list and who obtain or decline a HUP for the Green Ranch will have their name removed from the applicant pool.
- (2) Alternate permits shall not be valid until payment of the HUP and application fee are made by the new permittee.

D. Refund policy

- (1) Refunds will only be provided according to the current pass refund policy of the Division and by relinquishing the HUP for the Green Ranch before the opening day of the season for which the permit is valid.

**#712 – FEE WAIVERS, SPONSORSHIPS, MARKETING DISCOUNTS AND REDUCED RATE CAMPING**

- 1. As referenced in this chapter, "Park Product" means any entry pass, permit, facility, event or other user fee as defined in regulation # 700 through # 701, # 703 through # 708 and #710 through #711.
- 2. Park product fees may be waived for errors committed by the Division.
- 3. Park product fees may be waived by the Division for Division sponsored education, outreach, volunteer or safety activities (events); for supporting partner activities (events) and research activities that directly support the Division; for official business by other governmental agencies conducted on a state recreation area or state park or for Division administrative purposes.

4. The Division may waive entry fees as described in regulation # 700 through # 701 up to four days annually to market and increase awareness of state recreation areas and state parks.
5. Park Managers may provide any combination of park product(s) up to \$500 in value per fiscal year, per park, to be used as a sponsorship as a part of a fundraiser, promotion or marketing effort for local community supporting partners.
6. Region Offices and the Creative Services and Marketing Office may provide up to twenty annual affixed vehicle passes and twenty state parks annual transferable passes as defined in regulation # 700-3.b and #700-3.c. per fiscal year, per office, to be used as part of a regional or statewide fundraiser, promotion or marketing effort. In addition, Region Offices and the Creative Services and Marketing Office may provide daily vehicle passes as defined in regulation # No. 700-4 up to \$500 in value per fiscal year, per office, to be used as part of a regional or statewide fundraiser, promotion or marketing effort.
7. The Division may offer discounts up to 50 percent off established fees for annual affixed vehicle and daily vehicle passes as defined in regulation # 700-3 through # 700-4 as part of a consistent statewide effort to market state recreation areas and state parks.
8. Annual affixed vehicle passes or state parks annual transferable passes purchased in large quantities during a single sale, transaction will be discounted as follows.
  - (a) Twenty or more passes, but less than fifty.....20% discount
  - (b) Fifty or more passes, but less than one hundred.....25% discount
  - (c) One hundred passes or more.....30% discount
9. Notwithstanding the established campground fees, the Region Manager may lower a campground's classification by one class, and consequently lower the campground fee, when the Region Manager determines that it is necessary to do so based upon one or more of the following criteria:
  - (a) A significant increase in the vacancy rate for the campground exists.
  - (b) A significant need to rehabilitate the campground facilities exists.
  - (c) A temporary closure of campground facilities is necessary in order to implement repairs.

Upon a determination by the Region Manager that the cause for lowering the campground classification has been abated, the original campground classification will be reinstated.
10. Notwithstanding the established campground, cabin and yurt fees, the Regional Manager may reduce the fees for use of all campsites, cabins and yurts when determined necessary to encourage occupancy and otherwise increase use, up to 50 percent.
11. Notwithstanding the established event facility permit fees, the Regional Manager may offer half-day facility rentals and reduce the fees for use of event facilities when determined necessary to encourage occupancy and otherwise increase use, up to 50 percent.
12. Individuals possessing a valid Aspen Leaf annual pass per regulation # 705, a Columbine, Centennial, Blue Spruce, Independence, or Volunteer individual pass holder per regulation # 701 who is 64 years of age or older, or residents of Colorado with a Keep Colorado Wild annual pass per regulation #700 who are 64 years of age or older and have manually linked their pass to their CPW Shop account annually shall receive campground use permits at a reduced rate equal to the

current Aspen Leaf pass holder camping permit rate. This reduced rate applies to all nights of the year when such areas are open, except weekend nights and the night before a legal holiday. For the purpose of determining reduced rate campground permit eligibility, "weekend" night means the time period beginning at 12 noon on Friday through 12 noon on Sunday, and the night before a legal "Holiday" shall mean the time period beginning at 12 noon on the day prior to the legal holiday through 12 noon of the legal holiday. The discount is only valid for a single campsite per day, per pass holder. The pass holder must hold a pass that qualifies them for the reduced rate at both the time of reservation and at the time of occupancy. The pass holder must also be the one to make the reservation and be an occupant of the campsite for the entirety of the reservation.

The camping permit reduced fees associated with the Aspen Leaf annual pass are identified in regulation # 708.

## RULES GOVERNING STATEWIDE TRANSPORTATION PLANNING PROCESS AND TRANSPORTATION PLANNING REGIONS

### 2 CCR 601-22

---

\*\*\*\*\*

#### What Relevant Regulations Currently Apply to Transportation Planning

Transportation planning is subject to both state and federal requirements. Under federal law governing transportation planning and federal-aid highways, it is declared to be in the national interest to promote transportation systems that accomplish a number of mobility objectives “while minimizing transportation-related fuel consumption and air pollution through metropolitan and statewide transportation planning processes...” see 23 U.S.C. § 134; see also 23 U.S.C. § 135(a)(1). In the metropolitan planning process, consideration must be given to projects and strategies that will “protect and enhance the environment, promote energy conservation, improve the quality of life...” see 23 U.S.C. § 134(h)(1)(E); see also 23 C.F.R. Part 450, Subpart B (federal regulations governing statewide transportation planning and programming). The same planning objective applies to statewide transportation planning. see 23 U.S.C. § 135(d)(1)(E); see also 23 C.F.R. Part 450, Subpart C (governing metropolitan transportation planning and programming). Further, the Statewide Transportation Plan shall be developed, as appropriate, in consultation with State...local agencies responsible for...environmental protection...” see 23 U.S.C. § 135(f)(2)(D)(i).

Under conforming Colorado law, the Statewide Transportation Plan is developed by integrating and consolidating Regional Transportation Plans developed by MPOs and regional transportation planning organizations into a “comprehensive statewide transportation plan” pursuant to rules and regulations promulgated by the Commission. see § 43-1-1103(5), C.R.S. The Statewide Transportation Plan must address a number of factors including, but not limited to, “environmental stewardship” and “reduction of greenhouse gas emissions.” see § 43-1-1103(5)(h) and (j), C.R.S.

Regional Transportation Plans must account for the “expected environmental, social, and economic impacts of the recommendations in the transportation plan, including... [a] full range of reasonable transportation alternatives...in order to provide for the transportation and environmental needs of the area in a safe and efficient manner.” see § 43-1-1103(1)(d), C.R.S. Further, in developing Regional Transportation Plans, MPOs “[s]hall assist other agencies in developing transportation control measures for utilization in accordance with state...regulations...and shall identify and evaluate measures that show promise of supporting clean air objectives.” see § 43-1-1103(1)(e), C.R.S.

\*\*\*\*\*

- 1.04 Baseline – For each MPO area and for the Non-MPO areas of the state, for each of the model years 2025, 2030, 2040, and 2050: the GHG emissions, in million metric tons (MMT), produced by the most recently adopted model for that area, together with the current EPA-approved version of MOVES or its successors in the format currently run by APCD, resulting from modeling the MPO RTP or CDOT 10-year plan adopted as of January 30, 2022.

\*\*\*\*\*

- 1.34 Multimodal Transportation and Mitigation Options Fund (MMOF) - a program created in the State Treasury pursuant to § 43-4-1103, C.R.S. which funds bicycle, pedestrian, transit and other Multimodal projects as defined in § 43-4-1102(5), C.R.S. and GHG Mitigation projects as defined in § 43-4-1102(4.5), C.R.S.

\*\*\*\*\*

- 1.44 State Interagency Consultation Team - consists of the Division Director or the Division Director's designee, the Colorado Department of Public Health and Environment (CDPHE) Director of Air Pollution Control Division or the Director's designee, the Director of each MPO or their designee, and the Colorado Energy Office Director or Director's designee. The Division Director shall appoint a rural TPR Chair with experience with and representing rural planning interests and may appoint this member and additional member(s) from outside of these organizations to renewable terms of three (3) years. The State Interagency Consultation Team works collaboratively and consults appropriately to approve modifications to Regionally Significant definitions, and address classification of projects as Regionally Significant, modeling assumptions, and projects that reduce GHG emissions.

\*\*\*\*\*

#### 8.02.5 Timing for Determining Compliance

- 8.02.5.1 By October 1, 2022, CDOT shall update their 10-Year Plan and DRCOG and NFRMPO shall update their RTPs and meet the reduction levels in Table 1 or MMOF will be restricted pursuant to § 43-4-1103, C.R.S. and the restrictions set forth in Rule 8.02.6.4, as applicable, shall also apply.

- 8.02.5.2 CDOT must for each Applicable Planning Document, adopted or amended after October 1, 2022, meet either the reduction levels within Table 1 for Non-MPO areas or the requirements as set forth in Rule 8.02.6.4.1.

- 8.02.5.3 MPOs must for each Applicable Planning Document adopted or amended after October 1, 2022, meet either the corresponding reduction levels within Table 1, or the relevant MPO and CDOT each must meet the requirements as set forth in Rule 8.02.6.4.2 or Rule 8.02.6.4.3, as applicable. This provision shall not apply to MPO TIP Amendments.

\*\*\*\*\*

- 8.02.6.4 If an Applicable Planning Document does not meet the GHG Reduction Levels as described in Rule 8.02.6.1, the GHG Transportation Report may be deemed in compliance if certain funds are restricted as applicable in this section.

- 8.02.6.4.1 In Non-MPO areas the Department shall award 10-Year Plan funds anticipated to be expended on Regionally Significant Projects on projects or approved GHG Mitigation Measures that reduce GHG emissions as necessary to achieve the GHG Reduction Levels in MMT of CO<sub>2</sub>e for each compliance year in Table 1.

- 8.02.6.4.2 In MPO areas that are not in receipt of federal suballocations pursuant to the CMAQ and/or STBG programs, the Department shall award 10-Year Plan funds on projects or approved GHG Mitigation Measures as necessary to achieve the GHG Reduction Levels in MMT of CO<sub>2</sub>e for each compliance year in Table 1.

8.02.6.4.3 In MPO areas that are in receipt of federal suballocations pursuant to the CMAQ and/or STBG programs, the MPO shall award those funds anticipated to be expended on projects or approved GHG Mitigation Measures that reduce GHG emissions, and the Department shall award 10-Year Plan funds on projects or approved GHG Mitigation Measures as necessary to achieve the GHG Reduction Levels in MMT of CO<sub>2</sub>e for each compliance year in Table 1.

8.02.6.4.4 The restrictions in Rule 8.02.6.4 do not apply to projects which have been advertised for construction with funding identified prior to the adoption of the Applicable Planning Document or are not contained in an Applicable Planning Document.

8.02.6.4.5 The restrictions in 8.02.6.4 do not apply to funding sources where adherence to those restrictions would violate federal or state statutory requirements for those funding sources.

\*\*\*\*\*

8.05.2 If the Commission determines, by resolution, the requirements of Rule 8.02.6 have not been met, the Commission shall restrict the use of funds pursuant to Rule 8.02.6.4, as applicable, to projects and approved GHG Mitigation Measures that reduce GHG emissions. Prior to the implementation of such restriction, an MPO, CDOT (upon concurrence with the applicable MPO) or a TPR in a Non-MPO area, may, pursue one or both of the following actions.

8.05.2.1 Request a waiver from the Commission imposing restrictions on specific projects not expected to reduce GHG emissions.

8.05.2.1.1 By April 1, 2022, CDOT staff in consultation with the MPOs shall develop a waiver form for use by CDOT, MPOs, or TPRs when requesting a waiver.

8.05.2.1.2 A waiver may be requested at any time, including concurrently with the submission of a GHG Transportation Report.

8.05.2.1.3 The Commission may waive the restrictions on specific projects when applicants use CDOT's waiver form that specifies the GHG Transportation Report reflected significant effort and priority placed, in total, on projects and GHG Mitigation Measures that reduce GHG emissions.

8.05.2.1.4 In no case shall a waiver be granted if such waiver results in a substantial increase in GHG emissions when compared to the required GHG Reduction Levels in this Rule.

8.05.2.2 Request reconsideration of a non-compliance determination by the Commission and provide written explanation of how the requirements of Rule 8.02.6 have been met.

8.05.3 The Commission shall act, by resolution, on a waiver or reconsideration request within thirty (30) days of receipt of the waiver or reconsideration request or at the next regularly scheduled Commission meeting, whichever is later.

8.05.4 Notwithstanding any other provision of this Rule, CDOT, DRCOG and NFRMPO must meet the requirements of § 43-4-1103, C.R.S.

#### LIFE, ACCIDENT AND HEALTH

##### Amended Regulation 4-1-11

#### CONCERNING BEST INTEREST OBLIGATIONS AND SUPERVISION IN ANNUITY TRANSACTIONS

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Duties of Insurers and Producers
Section 6	Producer Training
Section 7	Recordkeeping
Section 8	Incorporated Materials
Section 9	Severability
Section 10	Enforcement
Section 11	Effective Date
Section 12	History
Appendix A	Producer Disclosure For Annuities
Appendix B	Consumer Refusal to Provide Information
Appendix C	Consumer Decision to Purchase an Annuity Not Based on a Recommendation

##### **Section 1 Authority**

This regulation is issued under the authority of §§ 10-1-109(1), 10-2-104, and 10-3-1110(1), Colorado Revised Statutes.

##### **Section 2 Scope and Purpose**

The purpose of this regulation is to require producers, as defined in this regulation, to act in the best interest of the consumer when making a recommendation of an annuity and to require insurers to establish and maintain a system to supervise recommendations so that the insurance needs and financial objectives of consumers at the time of the transaction are effectively addressed.

##### **Section 3 Applicability**

- A. This regulation shall apply to any sale or recommendation of an annuity.
- B. Unless otherwise specifically included, this regulation shall not apply to recommendations involving:
  - 1. Direct response solicitations where there is no recommendation based on information collected from the consumer pursuant to this regulation; and
  - 2. Contracts used to fund:

- a. An employee pension or welfare benefit plan that is covered by the Employee Retirement and Income Security Act (ERISA);
- b. A plan described by sections 401(a), 401(k), 403(b), 408(k) or 408(p) of the Internal Revenue Code (IRC), as amended, if established or maintained by an employer;
- c. A government or church plan defined in section 414 of the IRC, a government or church welfare benefit plan, or a deferred compensation plan of a state or local government or tax exempt organization under section 457 of the IRC;
- d. A nonqualified deferred compensation arrangement established or maintained by an employer or plan sponsor;

3. Settlements of, or assumptions of, liabilities associated with personal injury litigation or any dispute or claim resolution process; or

4. Formal prepaid funeral contracts.

- C. Nothing herein shall be construed to create or imply a private cause of action for a violation of this regulation or subject a producer to civil liability under the best interest standard of care outlines in Section 5 of this regulation or under standards governing the conduct of a fiduciary or a fiduciary relationship.

#### **Section 4 Definitions**

- A. "Annuity" means an annuity that is an insurance product under state law that is individually solicited, whether the product is classified as an individual or group annuity.
- B. "Cash compensation" means any discount, concession, fee, service fee, commission, sales charge, loan override, or cash benefit received by a producer in connection with the recommendation or sale of an annuity from an insurer, intermediary, or directly from the consumer.
- C. "Colorado Securities Act" means article 51, title 11 of the Colorado Revised Statutes
- D. "Continuing Education credit" means one (1) credit hour as defined in Colorado Insurance Regulation 1-2-4, section 4.B.
- E. "Consumer profile information" means information that is reasonably appropriate to determine whether a recommendation addresses the consumer's financial situation, insurance needs and financial objectives, including, at a minimum, the following:
  - 1. Age;
  - 2. Annual income
  - 3. Financial situation and needs, including debts and other obligations;
  - 4. Financial experience;
  - 5. Insurance needs;
  - 6. Financial objectives;

7. Intended use of the annuity;
  8. Financial time horizon;
  9. Existing assets or financial products, including investment, annuity and insurance holdings;
  10. Liquidity needs;
  11. Liquid net worth;
  12. Risk tolerance, including but not limited to, willingness to accept non-guaranteed elements in the annuity;
  13. Financial resources used to fund the annuity; and
  14. Tax status.
- F. "Continuing education provider" means an individual or entity that is offering continuing education courses pursuant to Colorado Insurance Regulation 1-2-4, Section 5.C.
- G. "FINRA" means the Financial Industry Regulatory Authority or a succeeding agency.
- H. "Insurer" has the same meaning as the definition found in § 10-1-102(13), C.R.S.
- I. "Intermediary" means an entity contracted directly with an insurer or with another entity contracted with an insurer to facilitate the sale of the insurer's annuities by producers.
1. "Material conflict of interest" means a financial interest of the producer in the sale of an annuity that a reasonable person would expect to influence the impartiality of a recommendation.
  2. "Material conflict of interest" does not include cash compensation or non-cash compensation.
- J. "Non-cash compensation" means any form of compensation that is not cash compensation, including, but not limited to, health insurance, office rent, office support and retirement benefits.
- K. "Non-guaranteed elements" means the premiums, credited interest rates (including any bonus), benefits, values, dividends, non-interest based credits, charges or elements of formulas used to determine any of these, that are subject to insurers discretion and are not guaranteed at issue. An element is considered non-guaranteed if any of the underlying non-guaranteed elements are used in its calculation.
- L. "Producer" means a person or entity required to be licensed in accordance with § 10-2-401, C.R.S. to sell, solicit or negotiate insurance, including annuities. For purposes of this regulation, "producer" includes an insurer where no producer is involved.
- M. "Recommendation" means advice provided by a producer to an individual consumer that was intended to result or does result in a purchase, an exchange or a replacement of an annuity in accordance with that advice. Recommendation does not include general communication to the public, generalized customer services assistance or administrative support, general educational information and tools, prospectuses, or other product and sales material.

- N. "Replacement" means a transaction in which a new annuity is to be purchased, and it is known or should be known to the proposing producer, or to the proposing insurer whether or not a producer is involved, that by reason of the transaction, an existing annuity or other insurance policy has been or is to be any of the following:
1. Lapsed, forfeited, surrendered or partially surrendered, assigned to the replacing insurer or otherwise terminated;
  2. Converted to reduced paid-up insurance, continued as extended term insurance or otherwise reduced in value by the use of nonforfeiture benefits or other policy values;
  3. Amended so as to effect either a reduction in benefits or in the terms for which coverage would otherwise remain in force or for which benefits would be paid;
  4. Reissued with any reduction in cash value; or
  5. Used in a financed purchase.
- O. "SEC" means the United State Securities and Exchange Commission.

## **Section 5      Duties of Insurers and Producers**

- A. Best Interest Obligations: A producer, when making a recommendation of an annuity, shall act in the best interest of the consumer under the circumstances known at the time the recommendation is made, without placing the producer's or the insurer's financial interest ahead of the consumer's interest. A producer has acted in the best interest of the consumer if they have satisfied the following obligations regarding care, disclosure, conflict of interest and documentation:
1. Care Obligation.
    - a. The producer, in making a recommendation shall exercise reasonable diligence, care and skill to:
      - (1) Know the consumer's financial situation, insurance needs and financial objectives;
      - (2) Understand the available recommendation options after making a reasonable inquiry into options available to the producer;
      - (3) Have a reasonable basis to believe the recommended option effectively addresses the consumer's financial situation, insurance needs and financial objectives over the life of the product, as evaluated in light of the consumer profile information; and
      - (4) Communicate the basis or bases of the recommendation.
    - b. The requirements under Section 5.A.1.a. include making reasonable efforts to obtain consumer profile information from the consumer prior to the recommendation of an annuity.
    - c. The requirements under Section 5.A.1.a. require a producer to consider the types of products the producer is authorized and licensed to recommend or sell that address the consumer's financial situation, insurance needs and financial objectives. This does not require analysis or consideration of any products

outside the authority and license of the producer or other possible alternative products or strategies available in the market at the time of the recommendation. Producers shall be held to standards applicable to producers with similar authority and licensure.

- d. The requirements under this Section 5.A.1 do not create a fiduciary obligation or relationship and only create a regulatory obligation as established in this regulation.
- e. The consumer profile information, characteristics of the insurer, and product costs, rates, benefits and features are those factors generally relevant in making a determination whether an annuity effectively addresses the consumer's financial situation, insurance needs and financial objectives, but the level of importance of each factor under the care obligation of Section 5.A.1. may vary depending on the facts and circumstances of a particular case. However, each factor may not be considered in isolation.
- f. The requirements under Section 5.A.1.a. include having a reasonable basis to believe the consumer would benefit from certain features of the annuity, such as annuitization, death or living benefit or other insurance-related features.
- g. The requirements under Section 5.A.1.a. apply to the particular annuity as a whole and the underlying subaccounts to which funds are allocated at the time of purchase or exchange of an annuity, and riders and similar product enhancements, if any.
- h. The requirements under Section 5.A.1.a. do not mean the annuity with the lowest one-time or multiple occurrence compensation structure shall necessarily be recommended.
- i. The requirements under Section 5.A.1.a. do not mean the producer has ongoing monitoring obligations under the care obligation under this Section 5.A.1., although such an obligation may be separately owed under the terms of a fiduciary, consulting, investment advising or financial planning agreement between the consumer and the producer.
- j. In the case of an exchange or replacement of an annuity, the producer shall consider the whole transaction, which includes taking into consideration whether:
  - (1) The consumer will incur a surrender charge, be subject to the commencement of a new surrender period, lose existing benefits, such as death, living or other contractual benefits, or be subject to increased fees, investment advisory fees or charges for riders and similar product enhancements;
  - (2) The replacing product would substantially benefit the consumer in comparison to the replaced product over the life of the product; and
  - (3) The consumer has had another annuity exchange or replacement and, in particular, an exchange or replacement within the preceding 60 months.
- k. Nothing in this regulation should be construed to require a producer to obtain any license other than a producer license with the appropriate line of authority to sell, solicit or negotiate insurance in this state, including but not limited to any securities license, in order to fulfill the duties and obligations contained in this

regulation; provided the producer does not give advice or provide services that are otherwise subject to securities laws or engage in any other activity requiring other professional licenses.

2. Disclosure obligation.

- a. Prior to the recommendation or sale of an annuity, the producer shall prominently disclose to the consumer on a form substantially similar to Appendix A:
  - (1) A description of the scope and terms of the relationship with the consumer and the role of the producer in the transaction;
  - (2) An affirmative statement on whether the producer is licensed and authorized to sell the following products:
    - (a) Fixed annuities;
    - (b) Fixed indexed annuities;
    - (c) Variable annuities;
    - (d) Life insurance;
    - (e) Mutual funds;
    - (f) Stocks and bonds;
    - (g) Certificates of deposit.
  - (3) An affirmative statement describing the insurers the producer is authorized, contracted (or appointed), or otherwise able to sell insurance products for, using the following descriptions:
    - (a) From one insurer;
    - (b) From two or more insurers; or
    - (c) From two or more insurers although primarily contracted with one insurer.
  - (4) A description of the sources and types of cash compensation and non-cash compensation to be received by the producer, including whether the producer is to be compensated for the sale of a recommended annuity by commission as part of premium or other remuneration received from the insurer, intermediary or other producer or by fee as a result of a contract for advice or consulting services; and
  - (5) A notice of the consumer's right to request additional information regarding cash compensation described in Section 5.A.2.b.
- b. Upon request of the consumer or the consumer's designated representative, the producer shall disclose:

- (1) A reasonable estimate of the amount of cash compensation to be received by the producer, which may be stated as a range of amounts or percentages; and
    - (2) Whether the cash compensation is a one-time or multiple occurrence amount, and if a multiple occurrence amount, the frequency and amount of the occurrence, which may be stated as a range of amounts or percentages; and
  - c. Prior to or at the time of the recommendation or sale of an annuity, the producer shall have a reasonable basis to believe the consumer has been informed of various features of the annuity such as the potential surrender period and surrender charge, potential tax penalty if the consumer sells, exchanges, surrenders or annuitizes the annuity, mortality and expense fees, investment advisory fees, any annual fees, potential charges for and features of riders or other options of the annuity, limitations on interest returns, potential changes in non-guaranteed elements of the annuity, insurance and investment components, and market risk.
3. Conflict of interest obligation. A producer shall identify and avoid or reasonably manage and disclose material conflicts of interest, including material conflicts of interest related to an ownership interest.
4. Documentation obligation. A producer shall at the time of recommendation or sale:
  - a. Make a written record of any recommendation and the basis for the recommendation subject to this regulation;
  - b. Obtain a consumer signed statement on a form substantially similar to Appendix B documenting:
    - (1) A customer's refusal to provide the consumer profile information, if any; and
    - (2) A customer's understanding of the ramifications of not providing his or her consumer profile information or providing insufficient consumer profile information; and
  - c. Obtain a consumer signed statement on a form substantially similar to Appendix C acknowledging the annuity transaction is not recommended if a customer decides to enter into an annuity transaction that it not based on the producer's recommendation.
5. Application of the best interest obligation. Any requirement applicable to a producer under this Section 5.A.5. shall apply to every producer who has exercised material control or influence in the making of a recommendation and has received direct compensation as a result of the recommendation or sale, regardless of whether the producer has had any direct contact with the consumer. Activities such as providing or delivering marketing or educational materials, product wholesaling or other back office product support, and general supervision of a producer do not, in and of themselves, constitute material control or influence.

B. Transactions not based on a recommendation.

1. Except as provided under Section 5.B.2., a producer shall have no obligation to a consumer under Section 5.A.1. related to any annuity transaction if:
  - a. No recommendation is made;
  - b. A recommendation was made and was later found to have been prepared based on materially inaccurate information provided by the consumer;
  - c. A consumer refuses to provide relevant consumer profile information and the annuity transaction is not recommended; or
  - d. A consumer decides to enter into an annuity transaction that is not based on a recommendation of the producer.
2. An insurer's issuance of an annuity subject to Section 5.B.1. shall be reasonable under all the circumstances actually known to the insurer at the time the annuity is issued.

C. Supervision system.

1. Except as permitted under Section 5.B. an insurer may not issue an annuity recommended to a consumer unless there is a reasonable basis to believe the annuity would effectively address the particular consumer's financial situation, insurance needs and financial objectives based on the consumer's consumer profile information.
2. An insurer shall establish and maintain a supervision system that is reasonably designed to achieve the insurer's and its producers' compliance with this regulation, including, but not limited to, the following:
  - a. The insurer shall establish and maintain reasonable procedures to inform its producers of the requirements of this regulation and shall incorporate the requirements of this regulation into relevant producer training materials;
  - b. The insurer shall establish and maintain standards for producer product training and shall establish and maintain reasonable procedures to require its producers to comply with the requirements of Section 6;
  - c. The insurer shall provide product-specific training and training materials, which explain all material features of its annuity products to its producers;
  - d. The insurer shall establish and maintain procedures for the review of each recommendation prior to issuance of an annuity that are designed to ensure there is a reasonable basis to determine that the recommended annuity would effectively address the particular consumer's financial situation, insurance needs and financial objectives. Such review procedures may apply a screening system for the purpose of identifying selected transactions for additional review and may be accomplished electronically or through other means including, but not limited to, physical review. Such an electronic or other system may be designed to require additional review only of those transactions identified for additional review by the selection criteria;
  - e. The insurer shall establish and maintain reasonable procedures to detect recommendations that are not in compliance with Sections 5.A., 5.B., 5.D. and 5.E. E. This may include, but is not limited to, confirmation of the consumer's consumer profile information, systematic customer surveys, producer and consumer interviews, confirmation letters, producer statements or attestations

and programs of internal monitoring. Nothing in Section 5.C.2.e. prevents an insurer from complying with Section 5.C.2.e. by applying sampling procedures, or by confirming the consumer profile information or other required information under this section after issuance or delivery of the annuity;

- f. The insurer shall establish and maintain reasonable procedures to assess, prior to or upon issuance or delivery of an annuity, whether a producer has provided to the consumer the information required to be provided under this section;
- g. The insurer shall establish and maintain reasonable procedures to identify and address suspicious consumer refusals to provide consumer profile information;
- h. The insurer shall establish and maintain reasonable procedures to identify and eliminate any sales contests, sales quotas, bonuses, and non-cash compensation that are based on the sales of specific annuities within a limited period of time. The requirements of Section 5.C.2.h. are not intended to prohibit the receipt of health insurance, office rent, office support, retirement benefits or other employee benefits by employees as long as those benefits are not based upon the volume of sales of a specific annuity within a limited period of time; and
- i. The insurer shall annually provide a written report to senior management, including to the senior manager responsible for the audit functions, which details a review, with appropriate testing, reasonably designed to determine the effectiveness of the supervision system, the exceptions found, and the corrective action taken or recommended, if any.

3. Contracting of supervisory duties.

- a. Nothing in Section 5.C. restricts an insurer from contracting for performance of a function (including maintenance of procedures) required Section 5.C. An insurer is responsible for taking appropriate corrective action and may be subject to sanctions and penalties pursuant to section 10 of this regulation regardless of whether an insurer contracts for performance of a function and regardless of the insurer's compliance with Section 5.C.3.b. of Section 5.C.3.
- b. An insurer's supervision system under Section 5.C., shall include supervision of contractual performance under this Section 5.C. This includes, but is not limited to, the following:
  - (1) Monitoring and, as appropriate, conducting audits to assure that the contracted function is properly performed; and
  - (2) Annually obtaining a certification from a senior manager, who has responsibility for the contracted function, which states that the manager has a reasonable basis to represent, and does represent, that the function is properly performed.

4. An insurer is not required to include, in its system of supervision:

- a. A producer's recommendations to consumers of products other than the annuities offered by the insurer; or
- b. Consideration of or comparison to options available to the producer or compensation relating to those options other than annuities or other products offered by the insurer.

D. Prohibited Practices. Neither a producer nor an insurer shall dissuade, or attempt to dissuade, a consumer from:

1. Truthfully responding to an insurer's request for confirmation of the consumer profile information;
2. Filing a complaint; or
3. Cooperating with the investigation of a complaint.

E. Safe harbor.

1. Recommendations and sales of annuities made in compliance with comparable standards shall satisfy the requirements under this regulation. This Section 5.E. applies to all recommendations and sales of annuities made by financial professionals in compliance with business rules, controls and procedures that satisfy a comparable standard even if such standard would not otherwise apply to the product or recommendation at issue. However, nothing in this subsection shall limit the insurance commissioner's ability to investigate and enforce the provisions of this regulation.
2. Nothing in Section 5.E.1. shall limit the insurer's obligation to comply with Section 5.C.1. of this regulation, although the insurer may base its analysis on information received from either the financial professional or the entity supervising the financial professional.
3. For Section 5.E.1. to apply, an insurer shall:
  - a. Monitor the relevant conduct of the financial professional seeking to rely on Section 5.E.1. or the entity responsible for supervising the financial professional, such as the financial professional's broker-dealer or an investment adviser registered under federal securities laws or the Colorado Securities Act using information collected in the normal course of the insurer's business; and
  - b. Provide to entity responsible for supervising the financial professional seeking to rely on Section 5.E.1. such as the financial professional's broker-dealer or investment adviser registered under federal securities laws or the Colorado Securities Act, information and reports that are reasonably appropriate to assist such entity to maintain its supervision system.
4. For purposes of this Section 5.E., "financial professional" means a producer that is regulated and acting as:
  - a. A broker-dealer registered under federal securities laws or the Colorado Securities Act or a registered representative of a broker-dealer;
  - b. An investment adviser registered under federal securities laws or the Colorado Securities Act or an investment adviser representative associated with a federal or Colorado registered investment adviser; or
  - c. A plan fiduciary under Section 3(21) of the Employee Retirement Income Security Act of 1974 (ERISA) or fiduciary under Section 4975(e)(3) of the Internal Revenue Code (IRC) or any amendments or successor statutes thereto.
5. For purposes of this Section 5.E. "comparable standards" means:

- a. With respect to broker-dealers and registered representatives of broker-dealers, applicable SEC and FINRA rules pertaining to best interest obligations and supervision of annuity recommendations and sales, including, but not limited to, Regulation Best Interest and any amendments or successor regulations thereto;
  - b. With respect to investment advisers registered under federal securities laws or investment adviser representatives, the fiduciary duties and all other requirements imposed on such investment advisers or investment adviser representatives by contract or under the Investment Advisers Act of 1940, or Colorado Securities Act, including but not limited to, the Form ADV and interpretations; and
  - c. With respect to plan fiduciaries or fiduciaries, means the duties, obligations, prohibitions and all other requirements attendant to such status under ERISA or the IRC and any amendments or successor statutes thereto.
- F. The requirements of Section 5 are intended to supplement and not replace the disclosure requirements in Colorado Insurance Regulation 4-1-12.

## **Section 6      Producer Training**

- A. A producer shall not solicit the sale of an annuity product unless the producer has adequate knowledge of the product to recommend the annuity and the producer is in compliance with the insurer's standards for product training. A producer may rely on insurer-provided product-specific training standards and materials to comply with this Section 6.A.
- B. Training requirement.
- 1. Initial requirement.
    - a. A producer who engages in the sale of annuity products shall complete a one-time four (4) credit hour training course approved by the Division of Insurance and provided by a Division of Insurance-approved continuing education provider.
    - b. Producers who hold a life insurance line of authority on the effective date of this Colorado Insurance Regulation 4-1-11 and who desire to sell annuities shall complete the requirements of this Section 6.B. within six (6) months after the effective date of this Colorado Insurance Regulation 4-1-11. Individuals who obtain a life insurance line of authority on or after the effective date of this Colorado Insurance Regulation 4-1-11 may not engage in the sale of annuities until the annuity training required under this subsection has been completed.
  - 2. The minimum length of the training required under this Section 6.B. shall be sufficient to qualify for a least four (4) continuing education credits, but may be longer.
  - 3. The training required under this Section 6.B. shall include information on the following topics:
    - a. The types of annuities and various classifications of annuities;
    - b. Identification of the parties to an annuity;
    - c. How product specific annuity contract features affect consumers;
    - d. The application of income taxation of qualified and non-qualified annuities;

- e. The primary uses of annuities; and
  - f. Appropriate standard of conduct, sales practices, replacement and disclosure requirements.
- 4. Providers of courses intended to comply with this Section 6.B. shall cover all topics listed in the prescribed outline and shall not present any marketing information or provide training on sales techniques or provide specific information about a particular insurer's products. Additional topics may be offered in conjunction with and in addition to the required outline.
  - 5. A provider of an annuity training course intended to comply with this Section 6.B. shall register as a continuing education provider in Colorado and comply with the rules and guidelines applicable to continuing education courses as set forth in Colorado Insurance Regulation 1-2-4, Section 5.C.
  - 6. A producer who has completed an annuity training course approved by the Division of Insurance prior to the effective date of this amended regulation shall, within six (6) months, complete either:
    - a. A new four (4) credit training course approved by the Division of Insurance; or
    - b. An additional one-time one (1) credit training course approved by the Division of Insurance and provided by the Division of Insurance-approved education provider on appropriate sales practices, replacement and disclosure requirements under this amended regulation.
  - 7. Annuity training courses may be conducted and completed by classroom or self-study methods in accordance in accordance with Colorado Insurance Regulation 1-2-4, Section 5.C.
  - 8. Providers of annuity training shall comply with the reporting requirements and shall issue certificates of completion in accordance with Colorado Insurance Regulation 1-2-4, Section 5.D.
  - 9. The satisfaction of the training requirements of another state that are substantially similar to the provisions of this Section 6.B. shall be deemed to satisfy the training requirement of this Section 6.B.
  - 10. The satisfaction of the components of the training requirements of any course or courses with components substantially similar to the provisions of this Section 6.B. shall be deemed to satisfy the training requirements of this Section 6.B.
  - 11. An insurer shall verify that a producer has completed the annuity training course required under this Section 6.B. before allowing the producer to sell an annuity product for that insurer. An insurer shall satisfy its responsibility under this Section 6.B. by obtaining certificates of completion of the training course or obtaining reports provided by commissioner-sponsored database systems or vendors or from a reasonably reliable commercial database vendor that has a reporting arrangement with approved insurance education providers.

## **Section 7      Recordkeeping**

- A. Insurers, general agents, independent agencies and producers shall maintain or be able to make available to the commissioner records of the information collected from the consumer, disclosures

made to the consumer, including summaries of oral disclosures, and other information used in making the recommendations that were the basis for insurance transactions for five (5) years after the insurance transaction is completed by the insurer. An insurer is permitted, but shall not be required, to maintain documentation on behalf of a producer.

- B. Records that are required to be maintained by this regulation may be maintained in paper, photographic, micro-process, magnetic, mechanical or electronic media or by any process that accurately reproduces the actual document.

## **Section 8      Incorporated Materials**

“Regulation Best Interest”, 17 C.F.R. Part 240, shall mean 17 C.F.R. Part 240 as published on the effective date of this regulation and does not include later amendments to or editions of 17 C.F.R. Part 240. A copy of 17 C.F.R. Part 240 may be examined during regulation business hours at the Colorado Division of Insurance, 1560 Broadway, Suite 850, Denver, Colorado 80202. A certified copy of 17 C.F.R. Part 240 may be requested from the Colorado Division of Insurance for a fee. A copy may also be obtained online at [www.ecfr.gov](http://www.ecfr.gov).

## **Section 9      Severability**

If any provision of this regulation or the application thereof to any person or circumstances is for any reason held to be invalid, the remainder of the regulation and the application for such provision to other persons or circumstances shall not be affected thereby.

## **Section 10      Enforcement**

- A. Noncompliance with this regulation may result, after proper notice and hearing, in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance or other laws, which include the imposition of fines, issuance of cease and desist orders, and/or suspensions or revocations of license or certificates of authority. Among others, the penalties provided for in § 10-3-1108, C.R.S., may be applied.
- B. Compliance Mitigation.
  - 1. The commissioner may order:
    - a. An insurer to take reasonably appropriate corrective action for any consumer harmed by a failure to comply with this regulation by the insurer, and entity contracted to perform the insurer’s supervisory duties or by the producer;
    - b. A producer to take reasonably appropriate corrective action for any consumer harmed by the producer’s violation of this regulation; and
    - c. A general agency or independent agency that employs or contracts with a producer to sell, or solicit the sale, of annuities to consumers, to take reasonably appropriate corrective action for any consumer harmed by the producer’s violation of this regulation.
  - 2. Any applicable penalty under this Section 10 for a violation of this regulation may be reduced or eliminated if corrective action for the consumer was taken promptly after a violation was discovered or the violation was not part of a pattern or practice.

## **Section 11      Effective Date**

This amended regulation shall be effective November 1, 2022.

## **Section 12      History**

Original regulation effective October 1, 2004.

Emergency regulation 04-E-12 effective October 8, 2004 deferred effective date to January 1, 2005.

Amended, effective August 1, 2006.

Repealed and repromulgated regulation effective April 1, 2011.

Amended regulation effective August 1, 2011.

Amended regulation effective November 1, 2022.

## APPENDIX A

### PRODUCER DISCLOSURE FOR ANNUITIES

**Do Not Sign Unless You Have Read and Understand the Information in this Form**

Date: \_\_\_\_\_

#### INSURANCE AGENT(PRODUCER) INFORMATION ("Me", "I", "My")

First Name: \_\_\_\_\_ Last Name: \_\_\_\_\_

Business\Agency Name: \_\_\_\_\_ Website: \_\_\_\_\_

Business Mailing Address: \_\_\_\_\_

Business Telephone Number: \_\_\_\_\_

Email Address: \_\_\_\_\_

National Producer Number in Colorado: \_\_\_\_\_

#### CUSTOMER INFORMATION ("You", "Your")

First Name: \_\_\_\_\_ Last Name: \_\_\_\_\_

#### What Types of Products Can I Sell You?

I am licensed to sell annuities to you in accordance with state law. If I recommend that You buy an annuity, it means I believe that it effectively meets Your financial situation, insurance needs, and financial objectives. Other financial products, such as life insurance or stocks, bonds and mutual funds, also may meet Your needs.

I offer the following products:

- Fixed or Fixed Indexed Annuities
- Variable Annuities
- Life Insurance

I need a separate license to provide advice about or to sell non-insurance financial products. I have checked below any non-insurance financial products that I am licensed and authorized to provide advice about or to sell.

- Mutual Funds
- Stocks/Bonds
- Certificates of Deposits

#### Whose Annuities Can I Sell to You?

I am authorized to sell:

- Annuities from Only One (1) Insurer
- Annuities from Two or More Insurers
- Annuities from Two or More Insurers although I primarily sell annuities from: \_\_\_\_\_

---

### How I'm Paid for My Work:

It's important for You to understand how I'm paid for my work. Depending on the particular annuity You purchase, I may be paid a commission or a fee. Commissions are generally paid to Me by the insurance company while fees are generally paid to me by the consumer. If You have questions about how I'm paid, please ask Me.

Depending on the particular annuity You buy, I will or may be paid cash compensation as follows:

- Commission, which is usually paid by the insurance company or other sources. If other sources, describe: \_\_\_\_\_
- Fees (such as a fixed amount, an hourly rate, or a percentage of your payment), which are usually paid directly by the customer.
- Other (Describe): \_\_\_\_\_

**If you have questions about the cash compensation I will be paid for this transaction, please ask me.**

I may also receive other indirect compensation resulting from this transaction (sometimes called "non-cash" compensation), such as health or retirement benefits, office rent and support, or other incentives from the insurance company or other sources.

By signing below, You acknowledge that You have read and understand the information provided to You in this document.

## APPENDIX B

### CONSUMER REFUSAL TO PROVIDE INFORMATION

Do Not Sign Unless You Have Read and Understand the Information in this Form

#### Why are You being given this form?

You're buying a financial product – an annuity.

To recommend a product that effectively meets Your needs, objectives and situation, the agent, broker, or company needs information about You, Your financial situation, insurance needs and financial objectives.

If You sign this form, it means You have not given the agent, broker, or company some or all the information needed to decide if the annuity effectively meets Your needs, objectives and situation. You may lose protections under Colorado statutes pertaining to the business of insurance if you sign this form or provide inaccurate information.

Statement of Purchaser:

- I **REFUSE** to provide this information at this time.
- I have chosen to provide LIMITED information at this time.

## APPENDIX C

### Consumer Decision to Purchase an Annuity NOT Based on a Recommendation

**Do Not Sign This Form Unless You Have Read and Understand It.**

**Why are You being given this form?** You are buying a financial product – an annuity.

To recommend a product that effectively meets your needs, objectives and situation, the agent, broker, or company has the responsibility to learn about You, your financial situation, insurance needs and financial objectives.

If You sign this form, it means You know that you're buying an annuity that was not recommended.

Statement of Purchaser:

I understand that I am buying an annuity, but the agent, broker or company did not recommend that I buy it. If I buy it **without a recommendation**, I understand I may lose protections under Colorado statutes pertaining to the business of insurance.

#### 1.8 LICENSURE BY ENDORSEMENT

This Rule is promulgated pursuant to sections 12-20-202(3), 12-20-204, 12-265-107(1)(a), and 12-265-112, C.R.S.

- A. To be considered for licensure by endorsement pursuant to the Occupational Credential Portability Program under sections 12-20-202(3) and 12-265-112, C.R.S., an applicant must submit a completed application form, all supporting documentation, and the appropriate fee.
- B. Applicant must possess a current, active and unrestricted license in good standing or hold a military occupational specialty, as defined in section 24-4-201, C.R.S., at time of application.
- C. In accordance with 12-20-202(3)(d), C.R.S., the Board has established the following criteria for determining whether an applicant possesses experience and credentials that are substantially equivalent to sections 12-265-108 and 12-265-111, C.R.S.
  - 1. The applicant has:
    - a. Successfully completed a bachelor's degree or higher degree in public health administration or health administration, a master's degree in management or business administration, or any degree or degrees deemed appropriate by the board; or
    - b. Successfully completed an associate's degree or higher degree in a health-care-related field or a bachelor's degree in business or public administration and has a minimum of one year of experience in administration in a nursing home or hospital. For the purposes of this section, a registered nurse who is a graduate of a three-year diploma program meets the associate degree requirement.
  - 2. The applicant has passed the national examination administered by the nationally and Board recognized testing entity for nursing home administrators and has passed any other examination in the state or territory in which he or she is licensed to practice nursing home administration.

...

#### 1.16 Concerning Health Care Provider Disclosures to Consumers about the Potential Effects of Receiving Emergency or Nonemergency Services from an Out-of-Network Provider

This Rule is promulgated pursuant to sections 12-20-204, 12-30-112, and 12-265-107(1)(a), C.R.S., in consultation with the Commissioner of Insurance and the State Board of Health.

---

The purpose of this Rule is to establish requirements for health care providers to provide disclosures to consumers about the potential effects of receiving emergency or non-emergency services from an out-of-network provider.

This Rule applies to health care providers as defined in section 10-16-102(56), C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Publicly available" means, for the purposes of this regulation, searchable on the health care provider's public website, displayed in a manner that is easily accessible, without barriers, and that ensures that the information is accessible to the general public, including that it is findable through public search engines. The health care provider's public website must be accessible free of charge, without having to establish a user account, password, or other credentials, accept any terms or conditions, and without having to submit any personal identifying information.

B. Disclosure requirements.

1. An out of network provider may balance bill a covered person for post-stabilization services in accordance with section 10-16-704, C.R.S., and covered nonemergency services in an in-network facility that are not ancillary services if the provider meets the requirements set forth in section 12-30-112(3.5), C.R.S. If a consumer has incurred a claim for emergency or nonemergency health care services from an out-of-network provider, the health care provider shall provide the disclosures contained in Appendix A. The health care provider shall provide the disclosure contained in Appendix A in compliance with section 12-30-112(3.5), C.R.S.

C. Noncompliance with this Rule may result in the imposition of any of discipline made available by section 12-265-113(1)(d), C.R.S.

### **1.17 Protections for Provision of Reproductive Health Care in Colorado**

This Rule is promulgated pursuant to Executive Order D 2022 032, and sections 25-6-401 *et seq.*, 12-265-107(1)(a), and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
2. "Assisting in the provision reproductive health care" means aiding, abetting or complicity in the provision of reproductive health care.
3. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
4. "Criminal judgment" means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
5. "Licensee" means as defined in section 12-20-102(10), C.R.S.
6. "Provision of reproductive health care," includes but is not limited to, transportation for reproductive health care, referrals for reproductive health care and related services, funding or assisting with payment of reproductive health care, prescribing, shipping or dispensing medications for reproductive health care in accordance with state and federal law, all options and mental health counseling and treatment related to reproductive health

care. The “provision of reproductive health care” also includes all treatment contemplated in the definition of section 25-6-402(4), C.R.S.

7. “Regulator” means as defined in section 12-20-102(14), C.R.S.
  8. “Reproductive health care” means as defined in section 25-6-402(4), C.R.S.
- B. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on the applicant or licensee's provision of or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice as defined in Colorado law and did not otherwise violate Colorado law.
- C. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee arising from the provision of, or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.
- D. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a professional disciplinary action or any other sanction against the applicant's or licensee's professional licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant or licensee's provision of, or assistance in the provision of, reproductive health care and the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.
- E. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's registration, certificate or license based solely on the licensee's own personal effort to seek or obtain reproductive health care for themselves. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee arising from the individual's own personal receipt of reproductive health care in this state or any other state or U.S. territory.

### **1.18 Protecting Colorado's Workforce and Expanding Licensing Opportunities**

This Rule is promulgated pursuant to Executive Order D 2022 034, and sections 12-265-107(1)(a) and 12-20-204, C.R.S.

- A. Definitions, for purposes of this Rule, are as follows:
1. “Applicant” means as defined in section 12-20-102(2), C.R.S.
  2. “Civil judgment” means a final court decision and order resulting from a civil lawsuit.
  3. “Criminal judgment” means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
  4. “Licensee” means as defined in section 12-20-102(10), C.R.S.
  5. “Regulator” means as defined in section 12-20-102(14), C.R.S.
- B. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee regarding the consumption, possession, cultivation, or processing of marijuana so long as the

actions are lawful and consistent with professional conduct and standards of care within Colorado and did not otherwise violate Colorado law.

- C. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a professional disciplinary action against the applicant's or licensee's professional licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant's or licensee's consumption, possession, cultivation, or processing of marijuana and did not otherwise violate Colorado law.

...

## APPENDIX A

# Your Rights and Protections Against Surprise Medical Bills

When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

### **What is “balance billing” (sometimes called “surprise billing”)?**

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, like a copayment, coinsurance, or deductible. You may have additional costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

“Out-of-network” means providers and facilities that haven't signed a contract with your health plan to provide services. Out-of-network providers may be allowed to bill you for the difference between what your plan pays and the full amount charged for a service. This is called “balance billing.” This amount is likely more than in-network costs for the same service and might not count toward your plan's deductible or annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider. Surprise medical bills could cost thousands of dollars depending on the procedure or service.

### **You're protected from balance billing for:**

#### **Emergency services**

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most they can bill you is your plan's in-network cost-sharing amount (such as copayments, coinsurance, and deductibles). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balanced billed for these post-stabilization services.

**If you believe you've been wrongly billed by the provider**, please contact the State Board of Examiners of Nursing Home Administrators at 303-894-2988 or [Dora\\_nha@state.co.us](mailto:Dora_nha@state.co.us).

Visit ([www.cms.gov/nosurprises/consumers](http://www.cms.gov/nosurprises/consumers)) for more information about your rights under federal law. For more information about your rights under state law, review section 12-30-112, C.R.S.

**Certain services at an in-network hospital or ambulatory surgical center**

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers can bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers **can't** balance bill you and may **not** ask you to give up your protections not to be balance billed.

If you get other types of services at these in-network facilities, out-of-network providers can't balance bill you, unless you give written consent and give up your protections.

**You're never required to give up your protections from balance billing. You also aren't required to get out-of-network care. You can choose a provider or facility in your plan's network.**

**When balance billing isn't allowed, you also have these protections:**

- You're only responsible for paying your share of the cost (like the copayments, coinsurance, and deductible that you would pay if the provider or facility was in-network). Your health plan will pay any additional costs to out-of-network providers and facilities directly.
- Generally, your health plan must:
  - o Cover emergency services without requiring you to get approval for services in advance (also known as "prior authorization").
  - o Cover emergency services by out-of-network providers.
  - o Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
  - o Count any amount you pay for emergency services or out-of-network services toward your in-network deductible and out-of-pocket limit.

**If you think you've been wrongly billed by the provider**, please contact the State Board of Examiners of Nursing Home Administrators at 303-894-2988 or [Dora\\_nha@state.co.us](mailto:Dora_nha@state.co.us). The federal phone number for information and complaints is: 1-800-985-3059.

Visit ([www.cms.gov/nosurprises/consumers](http://www.cms.gov/nosurprises/consumers)) for more information about your rights under federal law. Visit (<https://dpo.colorado.gov/NursingHome>) for more information about your rights under state law, pursuant to section 12-30-112, C.R.S.

### **Rule 3 – Director’s Authority**

*Effective November 1, 2022*

- a) The Director’s authority shall include:
  - (I) Making the initial determination as to whether an applicant has met the requirements to sit for the certification examination, or to be certified;
  - (II) Approving or disapproving program applications;
  - (III) Issuing remedial action and compliance orders for non-compliance with POST rule;
  - (IV) Determining the equivalency of first aid and cardiopulmonary resuscitation training;
  - (V) At the Director’s discretion, selecting qualified evaluators to administer the skills examinations described in Rule 16;
  - (VI) Determining the merit of challenges relating to the administration of examinations pursuant to Rules 15 and 16;
  - (VII) Determining the merits of variance requests, consistent with the basic purposes and policies of § 24-31-301, et seq., C.R.S., and of the Board, in accordance with Rule 7 and Rule 8;
  - (VIII) The Director, or their designee, may approve eyewitness identification training per § 16-1-109, C.R.S., or other statutorily mandated training on behalf of the POST Board.
  - (IX) Discharging such other powers or duties as the Board or the Attorney General may direct.
    - (A) Issuing summary suspensions in situations where the board has delegated authority to the director, including:
      - 1) Where a certificate holder has failed to meet in-service training requirements;
      - 2) Where a specific law enforcement training academy class was found to be substantially deficient, such that the certificate holders of that class would pose a danger to the public health, safety and welfare.
- b) If any action or determination made by the Director pursuant to this rule is

not appealed by the applicant within thirty (30) days as provided in Rule 5(c), the Director's action or determination shall become final agency action.

*Effective November 1, 2022*

- a) The POST Board is authorized to issue POST Basic Peace Officer Certification to any applicant who meets the following requirements:
  - (I) Possesses and submits a copy of their high school diploma, high school equivalency certificate, or other evidence of successful completion of high school, including official college transcripts or degree;
  - (II) Possesses and submits a copy of their current first aid and cardiopulmonary resuscitation certification, or equivalents;
  - (III) Truthfully completes and submits the POST Form 1 - *Application for Basic Peace Officer Certification*;
    - (A) If previously certified as an officer in another state but is ineligible to apply as a provisional applicant, the applicant must be in good standing with the other certifying state and must complete and submit to POST a POST Form 3 – Application for Provisional Certification and a Release of Information Form within thirty (30) days of starting the academy.
  - (IV) Is in good standing with Colorado POST as determined by the Director; and
  - (V) Successfully completes the fingerprint-based criminal history record check required under Rule 14 and meets all of the following requirements:
    - (A) If applicable, submits a copy of their official military discharge documents showing character of service other than discharge under dishonorable conditions, per § 24-31-301(5), C.R.S.
    - (B) Successfully completes an approved basic training academy, including skills training, and passes the written certification examination.
    - (C) Submits a copy of their academy certificate of completion.
    - (D) Possesses and submits a copy of their current Driver's License or State-Issued Identification card.

- (E) Documentation pertaining to certification requirements must be submitted to POST via the law enforcement training academy, if applicable.
  - (F) Testing is valid for two years from the date of completion. After this time has elapsed, if full certification was not issued, the applicant must successfully complete an additional basic academy program.
- b) POST Basic Peace Officer Certification qualifies the person to seek employment and serve as a fully authorized peace officer with any Colorado law enforcement agency recognized in Article 2.5 of Title 16, C.R.S.
- c) Upon issuance of a basic certification, if all training requirements under § 24-31-315, C.R.S., have not previously been met, the individual must complete all requirements within six (6) months from date of appointment.
  - (I) Complete 2 hours of training in each of the following areas: anti-bias; community policing; situational de-escalation; and proper holds and restraints.
- d) If a basic certificate holder has not served as a peace officer or reserve peace officer for a total of at least six (6) months during any consecutive three-year period, the certification automatically expires at the end of such three-year period, unless the certificate holder is then serving as a peace officer or reserve peace officer.
  - (I) If a basic certificate holder is deployed for military service, the certification automatically expires at the end of a three-year period from the date of certification or the date of separation from a Colorado law enforcement agency. If expired, the basic certificate holder is eligible to complete the certification renewal process. If employed at time of deployment, the certificate holder, at the agency's discretion, may remain on the employment roster and their certification will not expire.
- e) A certified peace officer who has obtained basic certification may maintain current status as a certified peace officer while serving in a reserve peace officer position, recognized in § 16-2.5-110, C.R.S.

- f) A certified reserve peace officer seeking regular basic peace officer certification may apply their successfully completed skills training, obtained through the reserve peace officer certification program at a POST approved reserve academy, towards basic peace officer certification. Acceptance of the skills training is at the option of the Director of the basic peace officer training academy to which the applicant is seeking enrollment.

## **Rule 12 – Reserve Certification**

*Effective November 1, 2022*

- a) The Board is authorized to issue a reserve certificate to any applicant who meets the following requirements:
  - (I) Possesses and submits a copy of their high school diploma, or high school equivalency certificate, or other evidence of successful completion of high school, including official college transcripts or degree; and
  - (II) Possesses and submits a copy of their current first aid and cardiopulmonary resuscitation certification, or equivalents; and
  - (III) Truthfully completes and submits the POST Form 2 – Application for Reserve Certification; and
  - (IV) Is in good standing with Colorado POST as determined by the Director; and
  - (V) Successfully completes the fingerprint-based criminal history record check required under Rule 14 and meets all of the following requirements:
    - (A) If applicable, submits a copy of their official military discharge documents showing character of service other than dishonorable conditions, per § 24-31-301(5), C.R.S.
    - (B) Successfully completes an approved reserve academy including skills training. within two (2) years of the graduation date.
    - (C) Submits a copy of their academy certificate of completion.
    - (D) Possesses and submits a copy of their current driver's license or state-issued identification card.
  - (VI) Testing is valid for two years from the date of completion. After this time has elapsed, if reserve certification was not issued, the applicant must successfully complete an additional reserve academy program.

- b) Upon issuance of a reserve certification and appointment to an agency the individual must comply with training requirements outlined in § 24-31-315 C.R.S. within six (6) months.
  - (I) Complete 2 hours of training in each of the following areas: anti-bias, community policing, situational de-escalation, and proper holds and restraints.
- c) Any law enforcement agency assigning duties to a reserve peace officer beyond those included in the approved reserve training shall assume the responsibility for ensuring that such reserve peace officer is adequately trained for such duties.
- d) If a reserve certificate holder has not served as a reserve peace officer for a total of at least six (6) months during any consecutive three-year period, the certification automatically expires at the end of such three-year period, unless the certificate holder is then serving as a reserve peace officer.
  - (I) If a reserve certificate holder is deployed for military service, the certification automatically expires at the end of a three-year period from the date of certification or the date of separation from a Colorado law enforcement agency. if expired, the reserve certificate holder must complete a new reserve training academy. if employed at time of deployment, the certificate holder, at the agency's discretion, may remain on the employment roster and their certification will not expire.
- e) Reserve certifications may not be renewed.
- f) A certified peace officer may maintain current status as a certified peace officer while serving in a reserve peace officer position, recognized in § 16-2.5-110, C.R.S.

## **Rule 14 – Fingerprint-Based Criminal History Record Check**

*Effective November 1, 2022*

- a) No person shall be eligible for certification as a Colorado peace officer if they have a disqualifying incident.
- b) Per § 24-31-304, C.R.S. and POST Rules, all persons seeking to enroll in a training academy shall submit their fingerprints to CBI no more than 60 days prior and at least one week before enrolling in the training academy. The academy must notify POST when fingerprints are submitted.
  - (I) All fingerprint results must be received by post no later than two weeks after enrollment date.
- c) All persons seeking to apply for provisional or renewal certification must submit fingerprints to CBI as part of the application process pursuant to Rule 11 and 13.
- d) POST Applicant Fingerprint results.
  - (I) The Board recommends that an applicant's fingerprints be submitted electronically by a CBI-authorized vendor or a LEA authorized by CBI to submit fingerprints for POST. When this is not possible, the applicant can submit fingerprints using the POST Applicant Fingerprint Card, obtained directly from POST. Any fees associated with this service are the responsibility of the applicant.
  - (II) Provisional and renewal applicants may request the POST Applicant Fingerprint Card when they are unable to submit fingerprints electronically. The applicant is responsible for having their fingerprints taken prior to the applicant's participation in the testing process as a provisional or renewal applicant.
  - (III) Applicants enrolling in a basic or reserve training academy fingerprinted in accordance with the academy's policies and procedures. The academy is responsible for ensuring that fingerprints are submitted to CBI by a CBI-authorized vendor or that the completed POST Applicant Fingerprint Card and fee are submitted to CBI prior to the applicant's enrollment in the academy.
  - (IV) Fingerprint results are valid throughout the certification process and through the life of certification. If certification expires or is revoked they become invalid. Applicants renewing their certification must submit new fingerprints.

e) Results from completed criminal history record checks.

- (I) The Board shall be the authorized agency to receive the results from all POST Applicant Fingerprint submissions that have been processed for the state and national fingerprint-based criminal history record checks.
- (II) All results from the completed criminal history record checks will be provided to the POST Director. Notice of subsequent arrests and convictions resulting in denial of certification will be provided to the Board.

f) Basic and reserve training academies.

- (I) A training academy shall not enroll any person who has been convicted of an offense that would result in the denial of certification pursuant to § 24-31-305(1.5), C.R.S. The only exception shall be if the Board has granted the person an exemption from denial of enrollment pursuant to § 24-31-304(4)(a), C.R.S. and POST Rule 7, *Variances*.
- (II) No person shall be enrolled in a training academy unless the person has been fingerprinted on a POST Applicant Fingerprint Card and an academy has submitted the person's completed POST Applicant Fingerprint Card and fee to CBI, or fingerprints have been submitted by a CBI-authorized vendor, prior to enrolling the person in the academy.
- (III) A POST Form 11-E, *Enrollment Advisory Form*, shall be completed on the first day of the academy by both the person enrolled in the academy and the academy director or designee. The completed *Enrollment Advisory Form* shall be maintained at the academy.
- (IV) The academy director shall ensure that an accurate and complete enrollment roster for each academy class is received at POST electronically by the day after the academy commences. The enrollment roster will be completed on the template provided by POST to the academy director.
  - (A) The enrollment roster must be fully completed with all personal information, education, military service, etc. and returned to POST staff. After entry, the roster will be returned to the academy director with assigned PID numbers.

- (V) If the results of a criminal history record check reveal that a person currently enrolled in an academy is prohibited from enrolling pursuant to § 24-31-304(2), C.R.S., the Board or its designated representative(s) shall notify the academy. The academy shall take appropriate measures to immediately dismiss the person from the academy.

g) Exemption from denial of enrollment.

- (I) If a person anticipates that he or she will be prohibited from either enrolling in a training academy or participating in the testing process as a provisional or renewal applicant because he or she has been convicted of any misdemeanor described in § 24-31-305(1.5), C.R.S., the person may submit a request for exemption from denial of enrollment under POST Rule 8, *Appeal Process for Peace Officer Applicants - Certification Denial as a Result of a Misdemeanor Conviction*.
- (II) Only if the person has, in fact, submitted a request for exemption from denial of enrollment under POST Rule 8, *Appeal Process for Peace Officer Applicants - Certification Denial as a Result of a Misdemeanor Conviction*, and the request has been granted by the Board, will the person be permitted to either enroll in a training academy or participate in the testing process as a provisional or renewal applicant.
- (III) No person convicted of a felony may request an exemption from denial of enrollment.

## **Rule 17 – Certification Records and Reporting Requirements**

*Effective November, 2022*

- a) POST certificate holder reporting requirements
  - (I) Every POST certificate holder shall keep current the POST certificate holder's name, mailing address, email address, home telephone number, or cell phone number to the POST records management system.
  - (II) A POST certificate holder shall submit an update to the post records management system within fifteen (15) days of a disqualifying incident.
  - (III) If a peace officer is exonerated pursuant to §24-31-904, C.R.S., the peace officer shall submit an update to the POST records management system to effectuate reinstatement of a revocation of a certificate, pursuant to the process outlined in Rule 7.
  - (IV) Pursuant to section 18-8-805(4), C.R.S., if a peace officer witnesses another peace officer use or direct the use of ketamine on another person, the peace officer shall report such use within ten (10) days of the occurrence, including date, time, and place of the occurrence, identity, if known, of the participants; and a description of events.
- b) Law enforcement agency reporting requirements
  - (I) The law enforcement agency shall submit an update to the post records management system within fifteen (15) days of:
    - (A) Appointment of a basic peace officer, provisional peace officer, or reserve peace officer as defined in section § 16-2.5-102, § 24-31- 308 and § 16-2.5-110, C.R.S. submission of physical and psychological examinations affirmation (Form 6).
    - (B) When any person is appointed or separated as a certified peace officer the law enforcement agency. Separation includes retirement of a certified police officer. An extension of fifteen (15) days may be granted by the director upon showing of good cause.
    - (C) Any new hire, appointment or transfer of an existing employee to a position that requires a POST certification.

- (D) A resignation or retirement of a peace officer while under investigation by the employing law enforcement agency, a district attorney, or the attorney general.
  - (E) Resignation or retirement following an incident that leads to the opening of an investigation within six months following the certificate holder's resignation or retirement.
  - (F) A criminal investigation or filing for a crime that could result in a revocation or suspension of an employee's certificate pursuant to §§ 24-31-305 or 24-31-904, C.R.S. so long as the update is unlikely to disrupt or impede the criminal investigation.
  - (G) A completed internal investigation finding that a peace officer used unlawful physical force, failed to intervene or violated section 18-1-707, C.R.S. or threatened to use unlawful physical force.
  - (H) An internal investigation finding that a peace officer violated section 18-8-805(1), (2)(a)(I), or (5), C.R.S. related to the use of ketamine.
  - (I) A certificate holder employed by the law enforcement agency engaging in a disqualifying incident as described in Rule 1.
- (II) Each year, between November 1 and January 31 of the following year, each law enforcement agency shall verify the accuracy of the certified peace officers employed by with the law enforcement agency listed on the POST records management system by submitting the Rule 17 Form to POST. By submitting the form, each agency is certifying that the agency has confirmed all certified peace officers associated with their law enforcement agency have no disqualifying incidents that would prevent the individual from being a certified peace officer in Colorado, and that each certified peace officer has a current driver's license or state-issued identification card.
- (III) A law enforcement agency is required to provide accurate data for the POST records management system.
- (IV) Failure to adhere to the requirements of this Rule 17 may subject individual certificate holders and law enforcement agencies to fines or other administrative sanctions as determined in accordance with Rule 31.

## **Rule 21 – Basic, Refresher and Reserve Training Academies**

*Effective November 1, 2022*

- a) Academy approval.
  - (I) All aspects of an academy must be in compliance with POST Rules and Program requirements before academy approval will be considered.
  - (II) Only an academy that is approved by POST may provide training required for certified peace officer status; and
  - (III) Each scheduled academy class of an approved training academy must be approved prior to the start of instruction.
- b) Continuing academies.
  - (I) A continuing academy is an approved Basic, Refresher or Reserve academy that conducts and completes at least one approved academy class every three (3) years and operates in compliance with these rules. Three (3) years is defined by the enrollment date of the last academy completed.
  - (II) If a continuing academy does not complete at least one approved academy class in any consecutive three (3) year period, approval of the academy shall expire. An expired academy must reapply for approval as a new academy and must be approved by POST prior to providing any academy instruction.
  - (III) Other than as referenced in the preceding paragraph (II), a continuing academy may remain approved unless its status is surrendered, suspended or revoked.
  - (IV) The academy director must ensure that the following items are submitted electronically to POST at the same time and are received by POST at least thirty (30) days, but no more than sixty (60) days, prior to the start of instruction for each scheduled academy class of the approved training academy:
    - (A) A completed POST Form 7, *Application for Academy Approval*;

- (B) A completed “*Scheduling Request for POST Exam*” form (Basic and Refresher academies only); and
- (C) A complete and accurate academy schedule with the following information clearly noted on the schedule:
  - 1) Name of the academy and academy class number as listed on the POST Form 7, *Application for Academy Approval*; and
  - 2) All courses, dates and times in chronological order for each course, major exams and the name of the primary instructor for each course;
  - 3) All dates and times when arrest control drill training, night driving and dim light shooting will be instructed;
  - 4) For arrest control and firearms training, if the schedule shows more than eight (8) hours of instruction in any one day, then the schedule must denote lab or lecture hours, as appropriate; and
  - 5) If multiple courses are listed within the same block of time on the schedule, then either the schedule itself or accompanying documents must specify the amount of time that will be instructed for each course.
  - 6) All courses required by the basic academic training program must be scheduled and completed prior to administration of the POST certification examination.
- (V) The academy director shall ensure that an accurate and complete enrollment roster for each academy class is received at POST electronically by the day after the academy commences. The enrollment roster will be completed on the template provided by POST to the academy director. See also POST Rule 14, *Fingerprint-Based Criminal History Record Check*.
- (VI) The academy director shall notify POST prior to the occurrence of any change of the academy’s start date or end date, to include cancellation

of the academy, as submitted to POST on the Form 7, *Application for Academy Approval*.

- (VII) All academies not based at a law enforcement agency shall establish an advisory committee that consists of law enforcement officials, administrators and community members to assist with providing logistical support and validation of training.
- (VIII) Existing academies must petition the POST Board every five (5) years to renew their authority to operate a law enforcement training academy.

c) New academies.

- (I) A new academy is either a Basic, Refresher or Reserve academy that has never conducted approved training, or a Basic, Refresher or Reserve academy that has not conducted approved training within the previous three (3) years.
- (II) Entities interested in creating a new POST Approved Law Enforcement Training Academy must receive approval from the POST Board prior to application. The entity must present a feasibility study to demonstrate the academy could be successful, demonstrate the need for a new academy, as well as mitigation of workload on POST staff and SME's.
- (III) The academy director of a proposed new academy shall contact POST at least Twelve (12) months prior to the anticipated start date of the new academy to ascertain application procedures and deadlines for submitting documents for new academy approval.
- (IV) The following types of academies are considered separate academies that must be individually approved:
  - (A) Basic, Refresher and Reserve academies even if operated by the same agency, organization, or academic institution.
  - (B) Academies located either on a satellite campus, or at a different physical location than the primary academy.
- (V) The proposed formal name of an academy must neither misrepresent the status of the academy, nor mislead law enforcement or the public.

- (VI) Required documentation that must be submitted for new academy approval includes, but is not limited to, a video in a digital media format approved by POST of all proposed sites where academic instruction and skills training will take place, site safety plans, lesson plans for all academic courses and all skills training programs for the Basic, Refresher or Reserve Academic Training Program, resumes for all academic instructors, and documentation of qualifications for all skills instructors.
  - (VII) Once a proposed new academy begins the approval process by submitting any of the required documentation listed in the preceding paragraph (VI) to POST, the proposed new academy shall have a maximum of twelve (12) months to complete the new academy approval process, including approval of all site safety plans, lesson plans, and other associated documents.
  - (VIII) The director of a proposed new academy shall also ensure that the documents required to be submitted by continuing academies, as listed in paragraph (b)(IV) of this Rule, are received at POST at least thirty (30) days, but no more than sixty (60) days, prior to the start of instruction.
  - (IX) Prior to approval, the proposed new academy must pass an on-site pre-approval inspection conducted by the Director or the Director's designated representative(s).
- d) Training sites, site safety plans and equipment.
- (I) An academy shall have the following training sites and facilities:
    - (A) For academics: A classroom with adequate heating, cooling, ventilation, lighting, acoustics and space, reasonable access to restroom facilities and a sufficient number of desks or tables and chairs in the classroom for each trainee;
    - (B) For firearms: A firing range with adequate backstop and berms to ensure the safety of all persons at or near the range, and some type of visual notification (range flag, signs, lights, or other) whenever the range is being utilized for live fire;
    - (C) For driving: A safe driving track for conducting law enforcement driving;

- (D) For arrest control: An indoor site for instructing arrest control training with sufficient space and mats to ensure trainee safety;
  - (E) For practical exercises and wellness training: Appropriate and safe locations for conducting all practical exercises and wellness lab training;
  - (F) Where practicable, all training sites should be clearly marked denoting that law enforcement training is in progress; and
  - (G) Online/remote training is not allowed without expressed written permission from POST.
- (II) Approval of training sites.
- (A) All new training sites for academic classroom instruction and skills training must be approved by POST in consultation with the appropriate subject matter expert committee prior to conducting any training at the site.
  - (B) Each academy is responsible for obtaining approval for all of its training sites of academic instruction and skills training.
  - (C) Academy directors shall ensure that all sites for practical exercises and wellness lab training are safe and that appropriate training can be accomplished at the site to achieve the course objectives or performance outcomes.
  - (D) Presumed approval or use of a specific site by one academy does not extend to automatic approval of the site for use by other academies.
  - (E) If an approved site is not utilized during any consecutive three (3) year period by any academy for the type of training for which the site was initially approved, then site approval expires. In order to resume training at an expired site, the site must be resubmitted for approval and approved.
  - (F) The following items must be submitted to POST in order for approval of a new or expired training site to be considered:

- 1) Video in a digital media format approved by POST that accurately depicts the site where instruction is to take place;
- 2) A detailed description of the site must be included, either as verbal narrative on the video or as a written supplement; and
- 3) An up-to-date written site safety plan.

(G) If an approved site has been in continuous use by at least one approved academy for at least the previous three (3) consecutive years and an additional academy seeks approval of the same site:

- 1) The director of the additional academy may submit a written request to POST that includes the location and/or description of the site, in lieu of the video; and
- 2) An up-to-date written site safety plan must be submitted to POST that is specific to the site and to the additional academy; and
- 3) Both the site and the safety plan must be approved by POST in consultation with the appropriate subject matter expert committee prior to conducting any training at the site.

(H) Academy Directors have discretion to utilize other classroom facilities as necessary for academic programs, provided those facilities are appropriate, safe and adhere substantially to the statements set forth in this part (d). This section is intended to allow such use of other facilities due to a facility emergency or for unique situations where a primary facility is not available or it is not desirable for the intended academic class.

- 1) In such cases where a primary classroom facility is rendered unusable for a period reasonably anticipated to exceed 21 continuous days, the Academy Director shall notify POST and submit an alternative training site plan for approval.

(III) Site safety plans.

- (A) Each site of skills training and academic or classroom instruction must have an up-to-date and approved written site safety plan posted on site during any academy training at the site, or issued to, and present on the person of, each recruit and instructor.
- (B) Copies of all site safety plans must also be on file at the academy at all times.
- (C) Each site safety plan shall include procedures for managing medical emergencies, injuries, or accidents that are probable or likely to occur at the site.
- (D) All site safety plans must include the information contained in POST Rule 21 (h), Duty to Report.
- (E) All academy staff members, instructors and trainees shall be familiar with the content of each site safety plan as it pertains to the nature and scope of their involvement with the academy.

(IV) Equipment.

- (A) An academy shall have and maintain the necessary equipment and instructional aids in sufficient quantities for conducting all aspects of the required academy training program; and
- (B) All training sites and facilities, equipment, books, supplies, materials and the like shall be updated and maintained in good condition.
- (C) The following items shall be present at each training site during any academy training at the site:
  - 1) An effective means of summoning emergency medical assistance; and
  - 2) A first aid kit that contains appropriate supplies to treat medical emergencies or injuries that are likely to be sustained at the site.

e) Academy directors.

- (I) Qualifications. Each academy shall designate an on-site academy director whose qualifications, based upon education, experience and training, demonstrate his or her ability to properly manage the academy.
- (II) Compliance. The academy director shall ensure that the academy operates in compliance with all POST Rules.
- (III) Records. The academy director shall be responsible for establishing and maintaining a records management system that includes, but is not limited to, enrollment rosters, POST Form 11-E's, trainee files, trainee manuals, attendance records, lesson plans, source material, instructor files, instructor/course evaluations and site safety plans.
- (IV) Change of director. The academy director or authorized representative of an academy shall notify POST as soon as practicable of any change of academy director or any change of the academy director's electronic mailing address.

f) Curriculum requirements.

(I) Academic standards.

- (A) All training academies shall meet or exceed the required course content and minimum number of hours for each academic course of instruction and for each of the skills programs as required by the Basic, Refresher or Reserve Academic Training Programs.

(B) Successful completion required.

- 1) Trainees must successfully complete the Basic, Refresher or Reserve Academic Training Programs with a minimum score of seventy percent (70%); and
- 2) Trainees must successfully complete all skills training as required by the Arrest Control Training Program, Law Enforcement Driving Program and Firearms Training Program.

- 3) If an academy applies a higher standard than what is required by the preceding paragraphs (1) and (2), the higher standard must be described in the Trainee Manual and in the respective skills lesson plans or course materials, as applicable.

(II) Attendance.

- (A) Skills training. For all hours of all skills training programs, 100 percent attendance and participation are required.
  - 1) Skills training classes missed due to circumstances beyond the student's control shall be completed in person and before the end of the academy session.
- (B) Academic training. For all hours of academic training, 100 percent attendance and participation are required.
  - 1) Academic classes missed due to circumstances beyond the student's control may be made up in a virtual format. These virtual make up courses may not exceed ten percent of the academy session's total hours and must be completed before the end of the academy session.
- (C) Written attendance records are required.
  - 1) For trainees: Written daily attendance records that are accurate and up to date shall be kept for all trainees enrolled in all academic classes and all skills training programs.
  - 2) For instructors: Written attendance records that are accurate and up to date shall be kept for all instructors who teach any portion of a training program.
  - 3) For skills training, the format of the attendance records must clearly substantiate that the minimum ratios required by Rule 24, *Skills Training Safety and Skills Program Requirements for Basic, Refresher and Reserve Academies*, have been met.

(III) Lesson plans.

- (A) All Basic, Refresher and Reserve training academies shall develop and maintain up-to-date lesson plans for each academic course of instruction and for each of the skills training programs.
- (B) Academic lesson plans shall be organized and readily accessible and may be maintained either electronically or as physical copies.
- (C) Each academic and skills lesson plan must include at least the following information, as applicable:
  - 1) Course title as specified in the POST Academic Training Program (Basic, Refresher or Reserve) or the POST skills training program; and
  - 2) Date the lesson plan was prepared and date of last revision, if applicable; and
  - 3) Name and title of author of lesson plan and name and title of the person who approved the lesson plan; and
  - 4) Number of hours for the course required by the POST Academic Training Program and the number of actual course hours that will be instructed; and
  - 5) Learning goals, course objectives and/or performance outcomes for the course as specified in the POST academic training program (basic, refresher or reserve) or the POST skills training programs. Additional outcomes may be added as long as such outcomes are supported in the content and are consistent with generally accepted academic practices. Any additional learning goals, course objectives, and/or performance outcomes must not conflict with those listed in the applicable POST basic training or skills training programs; and
  - 6) Methods of instruction; and

- 7) A copy of the handouts, multimedia and/or PowerPoint presentations referenced in the lesson plan that will be used during the instruction; and
- 8) A list of all source materials used to develop the course, including internet links. In matters of law, primary authority, such as case law, regulations and statutes, shall provide the foundation for source material used in the lesson plan along with any additional secondary authority, i.e., articles and other references, subject to that primary authority; and
- 9) Testing and/or assessment methods, such as test questions and answers, performance rubrics, or other assessment tools, that are appropriate to measure the learning goal, performance outcomes and/or objectives; and
- 10) Safety plan control measures specific to any practical exercise, role-play, scenario or other reality-based classroom and outside the classroom; and
- 11) Comprehensive content information that must be delivered to teach the subject matter to a level of proficiency that allows the student to perform the tasks on the job and that satisfies the required course objectives.
  - a) The required material can reasonably be taught given the time constraints using appropriate instructional methodologies.
  - b) Written content must be supported by currently accepted laws, policies, rules, regulations, and generally accepted law enforcement practices if challenged.

(D) All lesson plans must be written to ensure consistency between instructors and between all sessions of the academy over time. Content must be sufficient in scope and specificity to allow an

instructor who did not author the lesson plan or develop the supporting materials to effectively teach the course.

- (E) The curriculum SME committee may create guidelines to clarify expectations from time to time. These guidelines must be published on the POST website.
- (F) Skills lesson plans must additionally include the program-specific documentation referenced within the applicable POST skills training program.

(IV) Daily schedules.

- (A) For all skills training programs, daily schedules are required that contain the information referenced in each of the skills training programs, as referenced in Rule 21(b)(IV)(C).
- (B) Daily schedules will be submitted on the form provided by POST.

(V) Source material.

- (A) For source material identified as required source material in the current POST Curriculum Bibliography, at least one (1) copy of each of the publications or sources must be maintained at the place of academic instruction. For those sources that are referenced with a website address, providing the trainees with readily available Internet access is acceptable in lieu of maintaining at least one (1) copy of each of the publications or sources.

(VI) Academy examinations.

- (A) All academies shall administer written, oral or practical examinations periodically during each academy in order to measure the attainment of course objectives or performance outcomes as specified in the Basic, Refresher or Reserve Academic Training Programs.
- (B) The academy director shall prescribe the manner, method of administration, frequency and length of academy examinations.

- (C) For academic courses, the time allotted for examinations shall be in addition to the number of Required Minimum Hours for each course as specified in the Basic, Refresher or Reserve Academic Training Programs.
- (D) For skills training programs, the time allotted for examinations or testing is included within the total program hours of each program.

(VII) Academy certificates of completion.

- (A) The academy director shall immediately issue a certificate of completion to each trainee who successfully completes all requirements of the approved academy.
- (B) Only a trainee who has attended and successfully completed all academic classes and all required skills training programs shall be issued an academy certificate of completion.
- (C) Each academy certificate of completion shall contain the following information:
  - 1) Trainee's name; and
  - 2) Name of the approved academy; and
  - 3) Type of academy (Basic, Refresher or reserve); and
  - 4) Date of academy completion (month, day, year); and
  - 5) Total number of hours of the completed academy; and
  - 6) Signature of the academy director and/or agency or academic representative; and
  - 7) Reserve academy certificates of completion shall additionally state whether the total number of academy hours does or does not include the approved law enforcement driving program.

g) Instructors

(I) Minimum qualifications.

- (A) Academic instructors shall possess the requisite education, experience and/or training necessary, as determined by the academy director, to competently instruct specific academic courses or blocks of instruction.
- (B) Skills instructors shall meet the minimum qualifications as described in Rule 23, *Academy Skills Instructors*.

(II) Instructor files.

- (A) A file (electronic or hard copy) shall be maintained for each instructor who teaches any portion of an academic class or skills training class.
  - 1) For academic instructors, the file must contain a current resume and/or other documentation that substantiates the instructor's qualifications.
  - 2) For skills instructors, the file must contain copies of the relevant certificates of completion referenced in Rule 23, *Academy Skills Instructors*, and/or a copy of the applicable skills instructor approval letter issued by POST.
- (B) The academy shall maintain current contact information for each instructor.
- (C) Exception. Licensed attorneys from the same office or firm may be included in one instructor file, as long as the file contains the names of all attorneys from that office or firm who provide instruction at the academy.

(III) Instructor/course evaluations.

- (A) Trainees shall complete written evaluations for each instructor and/or course of instruction for all academic courses and skills training programs of the approved academy.

- (B) Either the POST Form 10, *Instructor / Course Evaluation*, or comparable academy forms and/or documents may be used for this purpose.
- (C) The academy director shall determine the most meaningful format and method of administration of the instructor/course evaluations in order to monitor instructor quality and course content and to meet the needs of the individual academy.

h) Duty to report.

- (I) In addition to any notifications that may be required administratively or under federal, state or local law, it shall be the duty of every academy director or the academy director's designee to report the following events to POST immediately or as soon as practicable after the event, in a manner designated by POST:
  - (A) Any death, gunshot wound or serious bodily injury that occurs to any person whose death, gunshot wound, or serious bodily injury was either caused by, or may have been caused by, any training or activity associated with the academy; or
  - (B) Any bodily injury that occurs to any person who is not affiliated with the academy, i.e., an innocent bystander, whose bodily injury was either caused by, or may have been caused by, any training or activity associated with the academy.
  - (C) Academies are encouraged to report any other injuries in order to allow POST to track injury trends statewide in an effort to ensure safe training environments.
- (II) Training to cease.
  - (A) In the event of any death or gunshot wound as described in paragraph (h)(I)(A) of this section, all training shall immediately cease at the training site where the death or gunshot wound occurred.
  - (B) Training may resume only after the Board or its designated representative(s) have ensured that the program is operating in compliance with POST Rules.

- (III) Serious bodily injury means those injuries as defined in § 18-1-901(3)(p), C.R.S.
  - (IV) Bodily injury means those injuries as defined in § 18-1-901(3)(c), C.R.S.
  - (V) All instructors shall be familiar with the information contained in this Section (h) as it pertains to the nature and scope of their involvement with the academy.
- i) Academy records requirements.
- (I) Trainee files. During the academy, a file shall be maintained for each trainee or a systematic filing system must exist that contains at least the following records:
    - (A) Trainee's full legal name and date of birth; and
    - (B) Photocopy of the trainee's high school diploma, high school equivalency certificate or other evidence of successful completion of high school; and
    - (C) Photocopy of the trainee's valid driver's license; and
    - (D) Form 11-E, *Enrollment Advisory Form*; and
    - (E) Current contact information; and
    - (F) Signed and dated acknowledgment of privacy and appeal rights forms.
  - (II) Trainee manual.
    - (A) Each academy shall maintain an up-to-date trainee manual that contains relevant and accurate information. At a minimum, the trainee manual shall contain the academy's rules and regulations, academic requirements, attendance policies and site safety plans.
    - (B) Upon entry into the academy, each trainee should be issued a copy of the trainee manual and acknowledge receipt of the manual in writing.

- (III) The following records shall be maintained at the academy and shall be readily available for inspection at any reasonable time by the Board or its designated representative(s).
  - (A) A completed Form 11-E, *Enrollment Advisory Form*, for each trainee enrolled in the academy in progress; and
  - (B) Current trainee manual; and
  - (C) Current lesson plans; and
  - (D) Current source material; and
  - (E) Instructor files for current instructors; and
  - (F) Copies of all site safety plans; and
  - (G) Trainee files; and
  - (H) Tests, including a record of written test results and copies of associated rubrics; and
  - (I) Attendance records; and
  - (J) Instructor/course evaluations.
- (IV) Academy records must be retained for at least the three (3) year period as referenced in the Uniform Records Retention Act, § 6-17-101, et seq., C.R.S.

## **Rule 23 – Academy Skills Instructors**

*Effective November 1, 2022*

- a) Recognition of academy skills instructors.
  - (I) A skills instructor may be recognized to teach at an approved academy as either an assistant skills instructor or a full skills instructor in each of the three (3) required skills training programs: arrest control, law enforcement driving, and firearms.
  - (II) All skills instructors who teach any portion of a skills training program at a POST approved basic or reserve training academy shall be qualified and approved as required by this Rule.
  - (III) Each academy shall maintain the applicable certificates of completion and/or documentation for all skills instructors.
  - (IV) New academies requesting POST approval and POST approved academies that have not conducted an academy within the previous three (3) years shall submit the appropriate documentation to POST and obtain approval for all assistant skills instructors and all full skills instructors.
- b) Assistant skills instructors.
  - (I) An assistant skills instructor may instruct under the direction and in the presence of a full skills instructor and assist in evaluating and coaching trainees.
  - (II) Minimum qualifications for an assistant skills instructor:
    - (A) In order to begin serving or to serve as an assistant skills instructor, a person must have successfully completed the relevant approved skills instructor training program (See Rule 1, *Definitions*); and
    - (B) For arrest control skills instructors, the relevant approved skills instructor training program shall be the same recognized discipline for arrest control training in which the person will be instructing.
  - (III) Approval of assistant skills instructors.

- (A) Effective March 1, 2011, assistant skills instructors for firearms, arrest control and driving do not need to have certificates of completion reviewed by POST if the academy director or new assistant skills instructor is certain that the instructor has completed the relevant approved skills instructor training program.
- (B) POST will review certificates of completion and/or documentation for assistant firearms, arrest control, and driving assistant skills instructors if an academy director or new assistant skills instructor applicant is not certain that a particular instructor training program qualifies as the relevant approved skills instructor training program.
- (C) Either the academy director or the assistant skills instructor applicant may submit the certificates of completion and/or documentation to POST for review.

c) Full skills instructors.

- (I) A full skills instructor may develop, implement, and evaluate a skills training program. In order to begin serving or to serve as a full skills instructor, a person must have satisfied the three (3) minimum qualifications listed in the following paragraph (II).
- (II) Minimum qualifications for a full skills instructor.
  - (A) Successful completion of the relevant approved skills instructor training program (See Rule 1, *Definitions*); and
  - (B) Successful completion of an approved forty (40) hour instruction methodology training program; and
  - (C) For arrest control and law enforcement driving, completion of a minimum of eighty (80) hours of instructional experience as an assistant skills instructor at a Colorado POST approved academy. For arrest control training, the eighty (80) hours may be completed in any recognized discipline(s) for arrest control training in which the instructor has completed the relevant approved skills instructor training program. For firearms training, completion of a minimum of two times as many hours as a post academy firearms program as an assistant skills instructor at a Colorado POST approved academy.
  - (D) All training shall be completed within the previous five (5) years prior to application.

(III) Approval of full skills instructors.

- (A) All new full skills instructors must be approved by the Board in consultation with the corresponding subject matter expert committee(s) for arrest control, law enforcement driving or firearms prior to serving as a full skills instructor.
- (B) To apply for approval as a full skills instructor, either the academy director or the full skills instructor applicant, if the applicant has no current academy affiliation, may submit the appropriate documentation to POST to substantiate that the minimum qualifications have been satisfied.
- (C) A written statement from the director of the academy where the applicant served as an assistant skills instructor is acceptable documentation as it applies to the hour requirement. The statement must include the applicant's full name, the dates that the applicant instructed and number of hours on each of those dates showing the applicant's instructional experience.
- (D) Instructional experience completed at other than a Colorado POST approved academy may be considered as part of the eighty (80) hour requirement. However, the full skills instructor applicant must request a variance in accordance with POST Rule 7, *Variances*, and the applicant may be required to appear in person before the appropriate subject matter expert committee to demonstrate skills instructional proficiency.
- (E) The completed documents received at POST will be reviewed by POST in consultation with the appropriate subject matter expert committee during the committee's next regularly scheduled meeting.
- (F) POST will provide written notification to the academy director or the full skills instructor applicant who submitted the documents as to whether the applicant was approved or denied approval as a full skills instructor.

d) Lead skills instructors.

- (I) A lead skills instructor is a full skills instructor who may be designated by the academy director to oversee or coordinate the administration of a specific skills program of a particular academy class.
- (II) Lead skills instructors require no additional approval by POST beyond

approval as a full skills instructor.

(III) POST will review certificates of completion and/or documentation for lead skills instructors only as such documentation pertains to approval as a full skills instructor.

e) Any applicant denied approval under section (b) or (c) of this Rule may appeal such denial in writing to the Director within ten days of notification of denial.

## **Rule 28 – In-Service Training Program**

*Effective November 1, 2022*

The purpose of in-service training is to provide continuing education to certified peace officers to develop their knowledge and/or skills. The POST Board's duties relating to annual in-service training are addressed in Colorado Revised Statutes § 24-31-303(1). The POST Board can "promulgate rules deemed necessary by the Board concerning annual in-service training requirements for certified peace officers, including but not limited to evaluation of the training program and processes to ensure substantial compliance by law enforcement agencies and departments." In-service training is mandatory for all certified peace officers who are currently employed. This includes certified fulltime, part-time and reserve peace officers. Failure to satisfactorily complete training may result in suspension or revocation of an individual's POST certification, or other administrative sanction in accordance with Rule 31.

### **a) Annual Hour Requirement**

The in-service training program requires certified peace officers to complete a minimum of 24 hours of in-service training annually. Of the 24 hours, a minimum of 12 hours shall be perishable skills training as specified below.

### **b) Training Period**

- (I) The training period shall be the calendar year, from January 1 to December 31, of each year. In-service training in excess of 24 hours each year shall not be credited towards any future or prior training period.
- (II) Remedial training hours completed after January 1 to gain compliance for a prior calendar year shall not count towards the current year requirement.

### **c) Approved Training for POST Credit**

The authority and responsibility for training shall be with the chief executive of each law enforcement agency. The chief executive accepts responsibility and liability for the course content and instructor qualification. Legislatively mandated training may also be used for credit towards the training requirement.

The following are examples of training that would qualify for in-service credit:

- (I) Training received during the Basic Academic Training Program (Basic Academy).
- (II) Computer or web-based courses that have been approved by the chief executive may be used for in-service credit.
- (III) The viewing of law enforcement related audiovisual material (DVD, video, etc.) or material related to the viewer's position or rank can be used in conjunction with a facilitated discussion or other presentation. This could include roll call or lineup briefings where the session is dedicated to training and not for the purpose of information exchange.
- (IV) For each class hour attended at an accredited college or university in any course related to law enforcement or criminal justice that is required to earn a degree, one hour of in-service credit may be awarded.

d) Perishable Skills Training

Perishable skills training shall consist of a minimum of 12 hours. The required 12 hours must include a minimum of one hour of training in each of the three perishable skills (Arrest Control, Driving, and Firearms) each calendar year. Examples of perishable skills training could include:

- (I) Arrest Control-live or simulator exercises and scenarios, classroom discussion followed by interactive scenario events. Arrest control fundamentals, agency policies and/or legal issues.
- (II) Driving-behind-the-wheel or simulator training, classroom discussion regarding judgment/decision making in driving, agency policies and/or legal issues.
- (III) Firearms-live or simulator exercises and scenarios, firearms fundamentals, use of force training or discussions, classroom training requiring student interaction and/or decision making, classroom discussion on agency policies and/or legal issue. Firearms qualification alone is insufficient to meet this mandate.

e) Agency Maintenance of Training Records

The chief executive of each agency is responsible for the true, accurate and verifiable entry of training records into the POST database.

Agencies are encouraged to enter training as it occurs, but shall enter training no later than the end of each calendar year for the certified peace officers employed at any time during that year, regardless of current employment status. This information shall be entered into the POST database. For in-person courses, agencies are required to keep records of sign-in sheets, topics covered, and lesson plans (if they exist).

(I) Waiver of In-Service Requirements

All certified peace officers shall meet the minimum annual hours. However, under the circumstances listed below, an agency may request a waiver for a portion of the annual in-service training requirement. Any waiver of the annual training request must be made in writing to the POST Director by January 31<sup>st</sup> of the following year.

(A) Perishable Skills Waiver

Agency executives may request an exemption from the perishable skills training requirement. This request shall be in writing to the POST Director. This request shall state that either their certified peace officers do not carry firearms, or they infrequently interact with or effect physical arrests, or they do not utilize marked or unmarked emergency vehicles as part of their normal duties.

(B) Partial Year Employment Waiver

The 24 hours of in-service training is required if a certified peace officer is employed for the entire calendar year. Certified peace officers who are employed after the start of the calendar year only need to complete a prorated number of training hours. Therefore, two hours of training per month, with a minimum of one hour of perishable skills training shall be required. (Example: If a certified peace officer is hired in July, 12 hours of training with a minimum of six hours of perishable skills training must be completed for that calendar year).

(C) Long Term Disability, Medical Leave or Restricted Duty

If a certified peace officer is unable to complete the in-service annual hours due to long term disability, medical leave or restricted duty, the agency must obtain a letter from a physician

stating that participation in any type of training including audiovisual or online training would be detrimental to the officer's health. The letter should define the time that the officer is unable to attend any training. Those granted a waiver will be on a prorated basis for the time stated in the physician's letter. The agency does not need to forward the physician's letter to POST but only reference it in a waiver request.

(D) Military Leave

Those certified peace officers deployed in military service only need to complete a prorated number of training hours.

(E) Administrative Leave

If a certified peace officer is unable to complete the in-service annual hours due to placement on administrative leave, the officer must complete a prorated number of training hours.

(II) Compliance

(A) Agencies and individual peace officers shall comply with the in-service training requirements.

1) Agencies

a) POST will send out a preliminary compliance report following each training period. The report will provide the compliance status of each agency and its certified peace officers. Agencies shall have thirty (30) days from the date of the preliminary report to dispute the POST data and provide additional training information. Following the thirty-day period, POST will distribute the final compliance reports to all agencies.

b) POST may declare an agency noncompliant after the final compliance report has been issued if new information is discovered.

c) Once the final compliance report has been sent to all agencies; an agency seeking to appeal the POST data must do so within thirty (30) days of being notified of failure to comply with Rule 28. Agencies

may appeal this by following the process outlined in Rule 5, *Hearings*. Upon conclusion of all appeal hearings POST will issue a final report indicating whether the agency was found in compliance.

- d) If POST finds that the agency failed to comply, such finding shall constitute a basis for the Board to impose an administrative sanction pursuant to Rule 31.

2) Individual peace officers

- a) POST will send out a preliminary compliance report following each training period. The report will provide an individual peace officer's compliance status. Individuals shall have thirty (30) days from the date of the preliminary report to dispute the POST data and/or complete the training requirements.
- b) Individual peace officers failing to satisfactorily complete the training requirements within the 30 day period may have their POST certification suspended by the POST Director pursuant to Rule 3, until such time as they come into compliance. If an individual peace officer is suspended, the peace officer may appeal the suspension within thirty (30) days, as provided in rule 5(d).
- c) Failure to satisfactorily complete POST training requirements may result in a recommendation by the Director to the Board for revocation of the individual's POST certification, or other administrative sanction pursuant to Rule 31.

- (III) The POST Board shall evaluate the program annually following the release of the final compliance reports. Such evaluation will include a review and evaluation of the program. The evaluation may be based on the compliance rate, agency survey and other performance metrics.

## **Rule 29 - Hiring Standards**

*Effective November 1, 2022*

Each agency hiring a Basic certified peace officer, Provisionally certified peace officer, or Reserve certified peace officer should first ensure that they meet the POST minimum standards of employment:

- a) Individuals must hold current Basic, Provisional or Reserve certification in the state of Colorado. Hiring agency will confirm certification with POST or utilize this [weblink](#) to verify current POST certifications.
- b) Each agency should complete a comprehensive agency background investigation, which may include:
  - (I) Criminal record checks - local, state, and national;
  - (II) Employment history checks;
  - (III) Driving record check;
  - (IV) Polygraph;
  - (V) Citizenship or legal residency verification;
  - (VI) Personal history statements;
  - (VII) Neighborhood checks;
  - (VIII) Relatives/personal references checks;
  - (IX) Credit records check;
  - (X) Any other investigative measures that the agency finds appropriate.
- c) Employment in the state of Colorado as a Basic peace officer, Provisional peace officer, or Reserve peace officer as defined in § 16-2.5-102, § 24-31-308 and § 16-2.5-110, C.R.S. requires completion of a physical and psychological evaluation within one year prior to the date of appointment.
  - (I) Physical and psychological evaluations completed for non-certified peace officer positions remain valid for an employee who transfers to a post-certified position at the same organization.
- d) Any person renewing their Colorado Basic certification must complete a physical and psychological evaluation within one year prior to the date of appointment.
- e) The physical and psychological evaluation affirmation must be submitted to POST.

- f) Any person separating from one agency and appointed by another agency must complete a physical and psychological evaluation if one has not been conducted within the preceding three years and made available to the receiving agency.
- g) Any person separated from an agency and returning to the same agency within six months does not need a new physical and psychological evaluation.
- h) Each agency shall comply with the requirements for physical and psychological evaluations pursuant to § 24-31-303(5), C.R.S.

## 16.1 STATEMENT OF PURPOSE

In an effort to comply with the legislative charge to assure the quick and efficient delivery of medical benefits at a reasonable cost, the Director (Director) of the Division of Workers' Compensation (Division) has promulgated these utilization standards, effective January 1, 2023. This Rule defines the standard terminology, administrative procedures, and dispute resolution procedures required to implement the Division's Medical Treatment Guidelines (Rule 17) and Medical Fee Schedule (Rule 18).

## 16.2 STANDARD TERMINOLOGY FOR RULES 16, 17, AND 18

A. Ambulatory Surgical Center (ASC) means licensed as such by the Colorado Department of Public Health and Environment (CDPHE).

B. Authorized Treating Provider (ATP) means any of the following:

1. The treating physician designated by the employer and selected by the injured worker;
2. A healthcare provider to whom an ATP refers the injured worker for treatment, consultation, or impairment rating;
3. A physician selected by the injured worker when the injured worker has the right to select a provider;
4. A physician authorized by the employer when the employer has the right or obligation to make such an authorization;
5. A healthcare provider determined by the Director or an administrative law judge to be an ATP;
6. A provider who is designated by the agreement of the injured worker and the payer.

C. Billed Service(s) means any billed service, procedure, equipment, or supply provided to an injured worker by a Provider.

D. Billing Party means a service provider or an injured worker who has incurred authorized medical expenses.

E. Children's Hospital means federally qualified, and certified by CDPHE, and licensed as a general hospital by CDPHE.

F. Critical Access Hospital means federally qualified, and certified by CDPHE, and licensed as a general hospital by CDPHE. A list is available at [www.ruralcenter.org/resource-library/cah-locations](http://www.ruralcenter.org/resource-library/cah-locations).

G. Day means a calendar day unless otherwise noted. In computing any period of time prescribed or allowed by Rules 16, 17, or 18, the parties shall refer to Rule 1-2.

H. Designated Provider List means a list of physicians as required under § 8-43-404(5)(a)(I) and Rule 8.

I. Freestanding Facility means an entity that furnishes healthcare services and is not integrated with any other entity as a main provider, a department of a provider, remote location of a hospital, satellite facility, or a provider-based entity.

J. Hospital means licensed as such by CDPHE.

- K. Long-Term Acute Care Hospital means federally certified and licensed as such by CDPHE.
- L. Medical Fee Schedule means Division's Rule 18, its exhibits, and the documents incorporated by reference in that Rule.
- M. Medical Treatment Guidelines (MTGs) means Division's Rule 17, its exhibits, and the documents incorporated by reference in that Rule.
- N. Non-Physician Provider means individual who is registered, certified or licensed by the Colorado Department of Regulatory Agencies (DORA), the Colorado Secretary of State, or a national entity recognized by the State of Colorado as follows:
1. Acupuncturist (L.Ac) licensed by the Office of Acupuncture Licensure, DORA;
  2. Advanced Practice Nurse (APN) licensed by the Colorado Board of Nursing, Advanced Practice Nurse Registry;
  3. Anesthesiologist Assistant (AA) licensed by the Colorado Medical Board, DORA;
  4. Athletic Trainer (ATC) licensed by the Office of Athletic Trainer Licensure, DORA;
  5. Audiologist (AU.D. CCC-A) licensed by the Office of Audiology and Hearing Aid Provider Licensure, DORA;
  6. Certified Medical Interpreter certified by the Certification Commission for Healthcare Interpreters or the National Board of Certification for Medical Interpreters.
  7. Certified Registered Nurse Anesthetist (CRNA) licensed by the Colorado Board of Nursing;
  8. Clinical Social Worker (LCSW) licensed by the Board of Social Work Examiners, DORA;
  9. Durable Medical Equipment, Prosthetic, Orthotics, and Supplies (DMEPOS) Supplier licensed by the Colorado Secretary of State;
  10. Marriage and Family Therapist (LMFT) licensed by the Board of Marriage and Family Therapist Examiners, DORA;
  11. Massage Therapist licensed as a massage therapist by the Office of Massage Therapy Licensure, DORA;
  12. Nurse Practitioner (NP) licensed as an APN and authorized by the Colorado Board of Nursing;
  13. Occupational Therapist (OTR) licensed by the Office of Occupational Therapy, DORA;
  14. Occupational Therapist Assistant (OTA) licensed by the Office of Occupational Therapy, DORA;
  15. Pharmacist licensed by the Board of Pharmacy, DORA;
  16. Physical Therapist (PT) licensed by the Physical Therapy Board, DORA;
  17. Physical Therapist Assistant (PTA) licensed by the Physical Therapy Board, DORA;
  18. Physician Assistant (PA) licensed by the Colorado Medical Board;

19. Practical Nurse (LPN) licensed by the Colorado Board of Nursing;
20. Professional Counselor (LPC) licensed by the Board of Professional Counselor Examiners, DORA, or an equivalent licensing board of a state that participates in the interstate compact pursuant to § 24-60-4301 et seq.;
21. Psychologist (PsyD, PhD, EdD) licensed by the Board of Psychologist Examiners, DORA;
22. Registered Nurse (RN) licensed by the Colorado Board of Nursing;
23. Respiratory Therapist (RTL) certified by the National Board of Respiratory Care and licensed by the Office of Respiratory Therapy Licensure, DORA;
24. Speech Language Pathologist (CCC-SLP) certified by the Office of Speech-Language Pathology Certification, DORA;
25. Surgical Assistant registered by the Office of Surgical Assistant and Surgical Technologists Registration, DORA.

O. Over-the-Counter Drugs means medications that are available for purchase by the general public without a prescription.

P. Payer means an insurer, self-insured employer, or designated agent(s) responsible for payment of medical expenses. (Use of agents, including but not limited to preferred provider organization (PPO) networks, bill review companies, third party administrators (TPAs), and case management companies shall not relieve the insurer or self-insured employer from their legal responsibilities for compliance with these Rules).

Q. Physician Provider means individual who is licensed by the State of Colorado through one of the following boards:

1. Colorado Medical Board;
2. Colorado Dental Board;
3. Colorado Podiatry Board;
4. Colorado Optometry Board; or
5. Colorado Board of Chiropractic Examiners.

R. Prior Authorization means a guarantee of payment for treatment requested in accordance with this Rule.

S. Provider means a person or entity providing authorized health care service, whether involving treatment or not, to a worker in connection with a work-related injury or occupational disease.

T. Psychiatric Hospital means licensed as such by CDPHE.

U. Rehabilitation Hospital means licensed as such by CDPHE.

V. Rural Health Clinic means a clinic located in areas designated by the United States Census Bureau as rural, or the state as medically underserved, that is federally qualified, and certified as such by CDPHE. A list is available at [www.colorado.gov/pacific/cdphe/rural-health-clinic-consumer-resources](http://www.colorado.gov/pacific/cdphe/rural-health-clinic-consumer-resources).

- W. Skilled Nursing Facility (SNF) means federally certified and licensed as a nursing care facility by CDPHE.
- X. State-run Psychiatric Hospital means mental health institute operated by the Colorado Department of Human Services, Office of Behavioral Health.
- Y. Telemedicine means two-way, real time interactive communication between the injured worker and the provider at a distant site. This electronic communication involves, at a minimum, audio and video telecommunications equipment. Telemedicine enables the remote evaluation and diagnosis of injured workers in addition to the ability to detect fluctuations in their medical condition(s) at a remote site in such a way as to confirm or alter the treatment plan, including medications and/or specialized therapy.
- Z. Treatment means any service, procedure, or supply prescribed by an ATP as may reasonably be needed at the time of the injury or occupational disease and thereafter to cure and/or relieve the employee from the effects of the injury or occupational disease.
- AA. Veterans Administration Hospital means all medical facilities overseen by the United States Department of Veterans' Affairs.
- AB. Writing, for the purposes of Rules 16 and 18, means transmitted by letter, email, fax, or other electronic means of communication.

### 16.3 GENERAL REQUIREMENTS

- A. Any provider not listed in 16-2 must obtain Prior Authorization when providing services related to a compensable injury.
- B. Upon request, healthcare providers must provide copies of accreditation, licensure, registration, certification, or evidence of healthcare training for billed services.
- C. To the extent not otherwise precluded by the laws of this state, contracts between providers, payers, and any agents acting on behalf of providers or payers shall comply with this Rule.
- D. Referrals:
1. All providers must have a referral from a physician provider managing the claim (or NP/PA working under that physician provider). A physician making the referral to another provider shall, upon request of any party, answer any questions and clarify the scope of the referral, prescription, or the reasonableness or necessity of the care.
  2. A payer or employer shall not redirect or alter the scope of a referral to another provider for evaluation or treatment of a compensable injury. Any party who has concerns regarding a referral or its scope shall advise the other parties and providers involved.
- E. Use of PAs and NPs:
1. All Colorado workers' compensation (WC) claims (medical only and lost time) shall have a Physician responsible for all services rendered to an injured worker by any PA or NP.
  2. The Physician must evaluate the injured worker at least once within the first three visits to the Designated Provider's office.

3. For services performed by a PA or NP, the attending Physician must counter-sign patient records related to the injured worker's inability to work resulting from the claimed work injury or disease and the injured worker's ability to return to regular or modified employment, as required by §§ 8-42-105(2)(b) and (3)(c) and (d). The attending Physician must sign the WC 164 form, certifying that all requirements of this rule have been met.

#### 16.4 OUT-OF-STATE PROVIDERS

##### A. Relocated Injured Worker

1. Upon receipt of the "Employer's First Report of Injury" or the "Worker's Claim for Compensation" form, the payer shall notify the injured worker that the procedures for change of provider can be obtained from the payer should the injured worker relocate out of state.
2. A change of provider must be made through referral by the Physician managing the claim or in accordance with § 8-43-404(5)(a).

B. In the event an injured worker has not relocated out of state but is referred to an out-of-state provider for treatment not available within Colorado, the referring provider shall obtain Prior Authorization. The referring provider's written request for out of state treatment shall include:

1. Description of treatment requested, including medical justification, the estimated frequency and duration, and known associated medical expenses;
2. Explanation as to why the requested treatment cannot be obtained within Colorado;
3. Name, complete mailing address, and phone number of the out-of-state provider; and
4. Out-of-state provider's qualifications to provide the requested treatment.

#### 16.5 REQUIRED USE OF THE MEDICAL TREATMENT GUIDELINES

When an injury or occupational disease falls within the purview of Rule 17, Medical Treatment Guidelines and the injury occurs on or after July 1, 1991, providers and payers shall use the MTG, in effect at the time of service, to prepare or review their treatment plan(s) for the injured worker. A payer may not dictate the type or duration of medical treatment or rely on its own internal guidelines or other standards for medical determination. Initial recommendations for a treatment or modality should not exceed the time to produce functional effect parameters in the applicable MTG. When treatment exceeds or is outside of the MTGs, Prior Authorization is required. Requesters and reviewers should consider how their decision will affect the overall treatment plan for the individual patient. In all instances of denial, appropriate processes to deny are required.

#### 16.6 NOTIFICATION TO TREAT

- A. The Notification to Treat process applies to treatment that is consistent with the MTGs and has an established value under the Medical Fee Schedule. Providers may, but are not required to, utilize Notification to ensure payment for medical treatment that falls within the purview of the MTGs. The lack of response from the payer within the time requirement set forth below shall deem the proposed treatment authorized for payment.
- B. Notification to Treat may be submitted by phone during regular business hours, or by submitting the "Authorized Treating Provider's Notification to Treat" form (WC 195). Notification to Treat must include:

1. Provider's certification that the proposed treatment is medically necessary and consistent with the MTGs.
2. Citation of the specific MTG applicable to the proposed treatment.
3. Provider's email address or fax number to which the payer can respond.

C. Payers shall respond to a Notification to Treat submission within seven days from the receipt of the submission with an approval or a denial of the proposed treatment. Providers may accept verbal confirmation or may request written confirmation, which the payer should provide upon request.

1. The payer may limit its approval of initial treatment to the number or duration specified in the relevant MTG without a medical review. If subsequent medical records document functional progress, additional treatment should be approved.
2. If payer proposes to discontinue treatment before the maximum number of treatments/treatment duration has been reached due to lack of functional progress, payer shall support that decision with a medical review compliant with this rule.

D. Payers may deny proposed treatment for the following reasons only:

1. For claims that have been reported to the Division, no admission of liability or final order finding the injury compensable has been issued;
2. Proposed treatment is not related to the admitted injury;
3. Provider submitting Notification is not an ATP or is proposing treatment to be performed by a provider who is not eligible to be an ATP.
4. Injured worker is not entitled to the proposed treatment pursuant to statute or settlement;
5. Medical records contain conflicting opinions among the ATPs regarding proposed treatment;
6. Proposed treatment falls outside of the MTGs.

E. If the payer denies a Notification to Treat per sections 16-6 D 2, 5, or 6, the payer shall notify the provider, allow the submission of relevant supporting medical documentation as defined in section 16-7 C and review the submission as a Prior Authorization request, allowing 10 additional days for review.

F. Appeals for denied Notifications to Treat shall be made in accordance with the Prior Authorization Appeals Process outlined in this rule.

G. Any provider or payer who incorrectly applies the MTGs in the Notification to Treat process may be subject to penalties under the Workers' Compensation Act.

## 16.7 PRIOR AUTHORIZATION

A. Prior Authorization may be requested using the "Authorized Treating Provider's Request for Prior Authorization" (Form WC 188) or in the alternative, shall be clearly labeled as a Prior Authorization request. Prior Authorization for payment shall only be requested when:

1. A prescribed treatment exceeds the recommended limitations set forth in the MTGs.
2. The MTGs require Prior Authorization for that specific service;
3. A prescribed treatment is not priced in the Medical Fee Schedule or is identified in Rule as requiring Prior Authorization for payment.

B. Prior Authorization for prescribed treatment may be granted immediately and without a medical review. However, the payer shall respond to all Prior Authorization requests in writing within 10 days from receipt of a completed request as defined per this Rule.

The payer, unless it has previously notified the provider, shall give notice to the provider of the procedures for obtaining Prior Authorization for payment upon receipt of the initial bill from that provider.

C. When submitting a Prior Authorization request, a provider shall concurrently explain the reasonableness and medical necessity of the treatment requested and shall provide relevant supporting documentation (documentation used in the provider's decision-making process to substantiate need for the requested treatment). A complete Prior Authorization request includes the following:

1. An adequate definition or description of the nature, extent and necessity for the treatment;
2. Identification of the appropriate MTG if applicable; and
3. Final diagnosis.

#### 16.7.1 PRIOR AUTHORIZATION DENIALS

A. If an ATP requests Prior Authorization and indicates in writing, including reasoning and supporting documentation, that the requested treatment is related to the admitted WC claim, the payer cannot deny solely for relatedness without a medical opinion as required by this Rule. The medical review, independent medical examination (IME) report, or report from an ATP that addresses relatedness of the requested treatment to the admitted claim may precede the Prior Authorization request if:

1. The opinion was issued within 365 days prior to the date of the Prior Authorization request; and
2. An admission of liability has not been filed admitting the relatedness of the requested treatment to the admitted claim or a final order has not been entered finding the specific medical condition related to the admitted injury.

If not, the medical review, IME report, or report from the ATP must be subsequent to the prior authorization request.

B. The payer may deny a request for Prior Authorization for medical or non-medical reasons. Examples of non-medical reasons are listed in section 16-10-2 A.

1. If the payer is denying a request for non-medical reasons, the payer shall, within 10 days of receipt of the complete request, furnish the requesting ATP and the parties with a written denial that sets forth clear and persuasive reasons for the denial, including citation of appropriate statutes, rules, and/or supporting documents (e.g., a copy of claim denial or a detailed explanation why the requesting provider is not authorized to treat).

2. If the payer is denying a request for medical reasons, the payer shall, within 10 days of receipt of the complete request:

- a. Have all of the submitted documentation reviewed by a Physician, who holds a license in the same or similar specialty as would typically manage the medical condition or treatment under review. The physician provider performing this review shall be Level I or II Accredited. In addition, clinical Pharmacists (Pharm.D.) may review Prior Authorization requests for medications, and Psychologists may review requests for mental health services, without having received Level I or II Accreditation.

After reviewing all of the submitted documentation and documentation referenced in the Prior Authorization request that is available to the payer, the reviewing Physician may call the requesting provider to expedite the communication and processing of the Prior Authorization request.

The payer may limit approval of initial treatment to the number or duration specified in the relevant MTG without a medical review.

- b. Furnish the requesting ATP and the parties with a written denial that sets forth an explanation of the specific medical reasons for the denial, including the name and professional credentials of the provider performing the medical review and a copy of the reviewer's opinion; the specific citation from the MTGs, when applicable; and identification of the information deemed most likely to influence a reconsideration of the denial, when applicable.

#### 16.7.2 PRIOR AUTHORIZATION APPEALS

- A. The requesting ATP shall have 10 days from the date of the written denial to submit an appeal with additional information to support the request. A written response is not considered a "special report" as defined in Rule 18.
- B. The payer shall have 10 days from the date of the appeal to issue a final decision and provide documentation of that decision to the provider and parties.
- C. In the event of continued disagreement, the parties should follow dispute resolution and adjudication procedures available through the Division or the Office of Administrative Courts.
- D. An urgent need for Prior Authorization of health care services, as recommended in writing by an ATP, shall be deemed good cause for an expedited hearing.
- E. Failure of the payer to timely comply in full with all Prior Authorization requirements outlined in this rule shall be deemed authorization for payment of the requested treatment unless the payer has scheduled an independent medical examination (IME) and notified the requesting provider of the IME within the time prescribed for responding.
  1. The IME must occur within 30 days, or upon first available appointment, of the Prior Authorization request, not to exceed 60 days absent an order extending the deadline.
  2. The IME physician must serve all parties concurrently with the report within 20 days of the IME.
  3. The payer shall respond to the Prior Authorization request within 10 days of the receipt of the IME report.

4. If the injured worker does not attend or reschedules the IME, the payer may deny the Prior Authorization request pending completion of the IME.
5. The IME shall comply with Rule 8 as applicable

#### 16.8 REQUIRED USE OF THE FEE SCHEDULE

A. All providers and payers shall use the Medical Fee Schedule to determine the maximum allowable payments for any medical treatments or services within the purview of the Workers' Compensation Act of Colorado and the Colorado Workers' Compensation Rules of Procedure, unless one of the following exceptions applies:

1. If billed charges are less than the fee schedule, the payment shall not exceed the billed charges.
2. The payer and an out-of-state provider may negotiate reimbursement in excess of the fee schedule when required to obtain reasonable and necessary care for an injured worker.
3. Pursuant to § 8-67-112(3), the Uninsured Employer Board may negotiate rates of reimbursement for medical providers.

B. The Medical Fee Schedule does not limit the billing charges.

C. Payment for treatment not identified or identified but without established value in the Medical Fee Schedule shall require Prior Authorization, except for when the treatment is an emergency. Similar established code values from the Medical Fee Schedule, determined in compliance with section 16-10-1 B, shall govern payment.

#### 16.8.1 REQUIRED BILLING FORMS AND CODES

A. Medical providers shall use only the billing forms listed below or exact electronic reproductions. If the payer agrees, providers may place identifying information in the margin of the form. Payment for any service not billed on the forms identified below may be denied.

1. A CMS-1500 shall be used by all providers billing for professional services (unless otherwise specified below), DMEPOS, and ambulance services. Medical providers shall provide their name and credentials in box 31 of the CMS-1500. Non-hospital based ASCs may bill on the CMS-1500, however an SG modifier must be appended to the technical component of services to indicate a facility charge and to qualify for reimbursement as a facility claim.

When resubmitting a claim, providers must append the appropriate resubmission code in field 22, or corresponding field for EDI, along with the original claim number in the right side of field 22 (original ref no.):

- 1 – original claim (duplicate of a previously submitted that was never processed)
- 7 – replacement/corrected claim (previously adjudicated with new or amended information)
- 8 – void/cancel prior claim (previously paid claim that was submitted in error)

2. A UB-04 shall be used by all hospitals and facilities meeting definitions found in section 16-2, hospital-based ambulance/air services, and other providers, such as hospital-based ASCs, when billing for hospital/facility services.

- a. Some outpatient hospital therapy services may also be billed on a UB-04. For these services, the UB-04 must have Form Locator Type 13x, 074x, 075x or 085x, and one of the following revenue codes:

042X – Physical Therapy

043X - Occupational Therapy

044X - Speech Therapy

- b. When resubmitting a claim, providers must append the appropriate resubmission code in box 4, or corresponding field for EDI, and the original claim number in field 64:

XX7 – correction/replacement or prior claim

XX8 – void/cancel of prior claim

- 3. American Dental Association's Dental Claim Form, Version 2019 shall be used by all providers billing for dental treatment.
- 4. An NCPDP (National Council for Prescription Drug Programs) Workers' Compensation/Property and Casualty universal claim form, version 1.1 shall be used by dispensing pharmacies and pharmacy benefit managers.

An ANSI ASC X12 (American National Standards Institute Accredited Standards Committee) or NCPDP electronic billing transaction containing the same information as in 1, 2, or 3 of this subsection may be used with payer agreement.

- 5. An invoice or other agreed upon form may be used for services incident to medical treatment, such as guardian ad litem and conservator services, language interpreting, or mileage reimbursement.

**B. International Classification of Diseases (ICD) Codes:**

All medical provider bills shall list the ICD-10 Clinical Modification (CM) diagnosis code(s) that are current, accurate, and specific to each patient encounter, in accordance with the ICD-10-CM Chapter Guidelines provided by CMS (Centers for Medicare & Medicaid Services). Bills should include the External Causes code(s). ICD-10 codes shall not be used as a sole factor to establish work-relatedness of an injury or treatment

C. Medical providers must accurately report their services using applicable billing codes, modifiers, instructions, and parenthetical notes as incorporated by reference in Rule 18. The provider may be subject to penalties for inaccurate billing when the provider knew or should have known that the treatment billed was inaccurate, as determined by the Director or an administrative law judge.

D. National provider identification (NPI) numbers are required for WC bills. Provider types ineligible to obtain NPI numbers are exempt from this requirement. When billing on a CMS-1500, Dental Claim Form, or UB-04, the NPI shall be that of the rendering provider and shall include the correct place of service code(s) at the line level.

**16.8.2 TIMELY FILING**

- A. Providers shall submit their bills for treatment rendered within 120 days of the date of service or the bill may be denied unless extenuating circumstances exist.

1. For bills submitted through electronic data interchange (EDI), providers may prove timely filing by showing a payer acknowledgement (claim accepted). Rejected claims or clearinghouse acknowledgement reports are not proof of timely filing.
  2. For paper bills, providers may prove timely filing with a signed certificate of mailing listing the original date mailed and the payer's address; a fax acknowledgement report; or a certified mail receipt showing the date the payer received the bill.
  3. All timely filing issues will be considered final 10 months from the date of service unless extenuating circumstances exist.
- B. Injured workers shall submit requests for mileage reimbursement within 120 days of the date of service or reimbursement may be denied unless good cause exists.
- C. Extenuating circumstances/good cause may include, but are not limited to, delays in compensability being determined or the party has not been informed of this benefit or where to send the bill.

#### 16.9 REQUIRED MEDICAL RECORD DOCUMENTATION

- A. The treating provider shall maintain medical records for each injured worker when billing for the provided treatment. The rendering provider shall sign the medical records. Electronic signatures are accepted.
- B. All medical records shall legibly document the treatment billed and shall include at least the following information:
1. Patient's name;
  2. Date of treatment;
  3. Name and professional designation of person providing treatment;
  4. Assessment or diagnosis of current condition with appropriate objective findings;
  5. Treatment provided;
  6. Treatment plan, when applicable; and
  7. If being completed by an authorized treating physician, all pertinent changes to work and or activity restrictions which reflect lifting, standing, stooping, kneeling, hot or cold environment, repetitive motion or other appropriate physical considerations.
- C. All treatment provided to injured workers is expected to be documented in the medical record at the time it is rendered. Occasionally, certain entries related to treatment provided are not made timely. In this event, the documentation will need to be amended, corrected, or entered after rendering treatment. Amendments, corrections, and delayed entries must comply with Medicare's widely accepted recordkeeping principles as outlined in the Medicare Program Integrity Manual Chapter 3, section 3.3.2.5, implemented August 2020. (This section does not apply to injured workers' requests to amend records as permitted by the Health Insurance Portability and Accountability Act (HIPAA)).
- D. The ATP must sign (or counter-sign) and submit to the payer, within 14 days of the initial and final visit, a completed WC 164 form.

1. The form shall be completed as an "initial" report when the injured worker has the initial visit with the Designated Physician, or in the case of a transfer of care, the new Designated Physician. If applicable, the emergency department (ED) or urgent care physician initially treating the injury may also complete a WC 164 initial report. In such cases, the initial report from the ED or urgent care physician, and the Designated Physician shall be reimbursed. Unless requested or prior authorized by the payer, no other physician should complete and bill for the WC 164 initial report. See Rule 18 for required fields.
  2. The form shall be completed as a "closing" report when the ATP managing the total WC claim determines the injured worker has reached maximum medical improvement (MMI) for all covered injuries or diseases, with or without permanent impairment. See Rule 18 for required fields.
  3. The ATP shall supply the injured worker with a copy of the WC 164 at the time of completion, at no charge.
- E. Providers other than hospitals shall provide the payer with all supporting documentation and treatment records at the time of billing unless the parties have made other agreements. Hospitals shall provide documentation to the payer upon request. Payers shall specify what portion of a hospital record is being requested (for example, only the ED chart notes, in-patient physician orders and chart notes, x-rays, pathology reports, etc.). The payer may deny payment for billed treatment until the provider submits the required medical documentation.

#### 16.10 PAYMENT REQUIREMENTS FOR MEDICAL BILLS

- A. All bills submitted by a provider are due and payable in accordance with the Medical Fee Schedule within 30 days after receipt by the payer, unless the payer provides timely and proper reasons set forth by section 16-10-2 or 3.
- B. For every medical treatment bill submitted by a provider, the payer shall reply with a written notice (explanation of benefits) within 30 days of receipt of the bill that includes the following:
1. Injured worker's name;
  2. Payer's name and address;
  3. Date(s) of service;
  4. Each procedure code billed; and
  5. Amount paid.
- C. If any adjustment is made to the amount submitted on the bill, the payer's written notice shall also include:
1. Payer's claim number and/or Division's WC number;
  2. Specific identifying information coordinating the notice with any payment instrument associated with the bill;
  3. Notice that the billing party may submit a corrected bill or an appeal within 60 days;

4. Name of insurer with admitted, ordered, or contested liability for the WC claim, when known;
  5. Name and address of any third-party administrator (TPA) and/or bill reviewer associated with processing the bill;
  6. Name and contact information of a person who has responsibility and authority to discuss and resolve disputes on the bill;
  7. Name and address of the employer, when known;
  8. For compensable treatment related to a work injury, the payer shall notify the billing party that the injured worker shall not be balance-billed;
  9. If applicable, a statement that the payment is being held in abeyance because a hearing is pending on a relevant issue.
- D. Any written notice that fails to include the required information is defective and does not satisfy the 30-day notice requirement.
- E. If the payer discounts a bill and the provider requests clarification in writing, the payer shall furnish to the requester the specifics of the discount within 30 days, including a copy of any contract relied upon for the discount. If no response is forthcoming within 30 days, the payer must pay the maximum Medical Fee Schedule allowance or the billed charges, whichever is less.
- F. Date of bill receipt by the payer may be established by the payer's date stamp or electronic acknowledgment date required by Rule 4; otherwise, receipt is presumed to occur five days after the date the bill was mailed to the payer's correct address.
- G. Payers shall reimburse injured workers for mileage expenses as required by statute or provide written notice of the reason(s) for denying reimbursement within 30 days of receipt.
- H. An injured worker shall never be required to directly pay for admitted or ordered medical benefits covered under the Workers' Compensation Act. In the event the injured worker has directly paid for medical treatment that is then admitted or ordered under the Workers' Compensation Act, the payer shall reimburse the injured worker for the amounts actually paid for authorized treatment within 30 days of receipt of the bill. If the actual costs exceed the maximum fee allowed by the Medical Fee Schedule, the payer may seek a refund from the medical provider for the difference between the amount charged to the injured worker and the maximum fee.

#### 16.10.1 MODIFIED, UNLISTED, AND UNPRICED CODES

- A. Prior to modifying a billed code, the payer must contact the billing provider and determine if the code is accurate. If the payer disagrees with the level of care billed, the payer may deny the claim or contact the provider to explain why the billed code does not meet the level of care criteria.
1. If the billing provider agrees with the payer, then the payer shall process the service with the agreed upon code and shall document on the written notice the agreement with the provider. The written notice shall include the name of the party at the billing office who made the agreement.
  2. If the billing provider disagrees with the payer, then the payer shall proceed with a denial.

B. When no established fee is identified in the Medical Fee Schedule and the payer agrees the service or procedure is reasonable and necessary, the payer shall list on the written notice one of the following payment options:

1. Payment based on a similar established code value as recommended by the billing provider.
2. A reasonable value based upon a similar established code value as determined by the payer.

If the payer disagrees with the billing provider's recommended code value, the denial shall include an explanation of why the requested fee is not reasonable, identification of the similar code as determined by the payer, and how the payer calculated its fee recommendation. If the provider disagrees with the payer's determination, it can follow the process for appealing billed treatment denials.

#### 16.10.2 DENYING PAYMENT OF BILLED TREATMENT FOR NON-MEDICAL REASONS

A. Non-medical reasons are administrative issues that do not require medical documentation review other than to verify the appropriate use of a billed code. Examples of non-medical reasons for denying payment include the following: no WC claim has been filed with the payer; compensability has not been established; the provider is not authorized to treat; the insurance coverage is at issue; typographic or date errors on the bill; failure to submit medical documentation; or unrecognized or improper use of a CPT® code.

B. If an ATP bills for medical treatment and indicates in writing, including reasoning and relevant documentation that the medical services are related to the admitted WC claim, the payer cannot deny payment solely for relatedness without a medical opinion as required by section 16-10-3. The medical review, IME report, or report from an ATP that addresses the relatedness of the requested treatment to the admitted claim may precede the date of service, unless the requesting physician presents new evidence as to why treatment is now related.

C. In all cases where a billed treatment is denied for non-medical reasons, the payer's written notice shall include all notice requirements set forth in sections 16-10 B and C, and shall also include:

1. Reference to each code being denied; and
2. Clear and persuasive reasons for denying payment, including citation of appropriate statutes, rules, and/or documents supporting the payer's reason(s).

D. If after the treatment was provided, the payer agrees the service was reasonable and necessary, lack of prior authorization does not warrant denial of payment. However, the provider may still be required to provide additional supporting documentation as outlined in section 16-7 for a complete Prior Authorization request.

#### 16.10.3 DENYING PAYMENT OF BILLED TREATMENT FOR MEDICAL REASONS

A. The payer shall have the bill and all supporting medical documentation reviewed by a Physician who holds a license and is in the same or similar specialty as would typically manage the medical condition or treatment under review. The Physician shall be Level I or II Accredited. In addition, a clinical Pharmacist (Pharm.D.) may review billed services for medications, and a Psychologist may review billed services for mental health, without having received Level I or II Accreditation. After reviewing the supporting medical documentation, the reviewing provider may call the billing provider to expedite communication and timely processing of the bill.

B. In all cases where a billed treatment is denied for medical reasons, the payer's written notice shall include all notice requirements set forth in sections 16-10 B and C, and shall also include:

1. Reference to each code being denied;
2. Clear and persuasive medical reasons for denying payment, including the name and professional credentials of the provider performing the medical review and a copy of the reviewer's opinion;
3. Citation from the MTGs, when applicable; and
4. Identification of additional information deemed likely to influence reconsideration, when applicable.

#### 16.10.4 APPEALING BILLED TREATMENT DENIALS

A. The billing party shall have 60 days from the date of the written notice to request reconsideration. The billing party's appeal must include:

1. A copy of the original or corrected bill with condition code W3 in field 10d;
2. A copy of the written notice;
3. Identification of the specific code being appealed; and
4. Clear and persuasive reason(s) for the appeal, including additional supporting documentation when applicable.

B. If the billing party appeals the denial in compliance with above requirements, the payer shall:

1. When denied for non-medical reasons, have the bill and all supporting documentation reviewed by a person who has knowledge of the bill. After reviewing the provider's appeal, the reviewer may call the appealing party to expedite the communication and timely processing of the appeal.
2. When denied for medical reasons, have the bill and all supporting documentation reviewed by a Physician who holds a license and is in the same or similar specialty as would typically manage the medical condition or treatment under review. The Physician shall be Level I or II Accredited. In addition, a clinical pharmacist (Pharm.D.) may review appeals for payment of medications and a Psychologist may review appeals for payment of mental health services without having received Level I or II Accreditation. After reviewing the supporting medical documentation, the reviewing provider may call the appealing provider to expedite communication and timely processing of the appeal.
3. If after reviewing the appeal the payer agrees with the billing party, payment for treatment is due and payable in accordance with the Medical Fee Schedule within 30 days of receipt of the appeal. Date of receipt may be established by the payer's date stamp or electronic acknowledgment date required by Rule 4; otherwise, receipt is presumed to occur five days after the date the response was mailed to the payer's correct address.
4. If after reviewing the appeal the payer upholds its denial, the payer shall send the billing party written notice within 30 days of receipt of the appeal. The written notice shall include all notice requirements set forth in sections 16-10 B and C, and shall also

include:

- a. Reference to each code being denied;
  - b. Clear and persuasive medical or non-medical reasons for upholding the denial, including the name and professional credentials of the reviewer and a copy of the reviewer's opinion when medically based;
  - c. Citation of appropriate statutes, rules, and/or documents supporting the payer's reason(s).
5. In the event of continued disagreement, the parties should follow dispute resolution and adjudication procedures available through the Division or the Office of Administrative Courts. The parties shall do so within 12 months of the date of the original bill should have been processed in compliance with section 16-10, unless extenuating circumstances exist.

#### 16.11 RETROACTIVE REVIEW OF MEDICAL BILLS

A. All medical bills shall be considered final at 12 months after the date of the original written notice unless the provider is notified that:

1. A hearing is requested within the 12 month period; or
2. A request for utilization review has been filed pursuant to § 8-43-501.

B. If the payer conducts a retroactive review to recover overpayments from a provider based on non- medical reasons, the payer shall send the billing party written notice that includes all notice requirements set forth in sections 16-10 B and C, and shall also include:

1. Reference to each item of the bill for which the payer seeks to recover payment;
2. Clear and persuasive reason(s) for seeking recovery of overpayment(s), including citation of appropriate statutes, rules and/or documents supporting the payer's reason(s).
3. Evidence that these payments were in fact made to the provider.

C. If the payer conducts a retroactive review to recover overpayments from a provider based on medical reasons, the payer shall have the bill and all supporting documentation reviewed by a Physician who holds a license and is in the same or similar specialty as would typically manage the medical condition or treatment under review. The Physician shall be Level I or II Accredited. In addition, a clinical pharmacist (Pharm.D.) may review billed medications, and a Psychologist may review billed services for mental health, without having received Level I or II Accreditation. The payer shall send the billing party written notice that includes all notice requirements set forth in sections 16-10 B and C, and 16-11 B.

D. In the event of disagreement, the parties may follow dispute resolution and adjudication procedures available through the Division or the Office of Administrative Courts.

16.11.1            ONSITE REVIEW OF HOSPITAL OR MEDICAL FACILITY CHARGES

- A. If the payer conducts a review of billed and non-billed hospital or medical facility charges related to a specific workers' compensation claim, the payer shall comply with the following procedures:
  - 1. Within 30 days of receipt of the bill, send written notification to the hospital or medical facility of its intent to conduct a review. Notification shall include the following information:
    - a. Name of the injured worker;
    - b. Division's WC number and/or hospital or medical facility patient identification number;
    - c. An outline of the items to be reviewed; and
    - d. Name and contact information of a person designated by the payer to conduct the review, if applicable.
- B. The reviewer shall comply with the following procedures:
  - 1. Obtain a signed release of information form from the injured worker;
  - 2. Negotiate with the hospital or medical facility on a starting date for the review;
  - 3. Assign staff members who are familiar with medical terminology, general hospital or medical facility charging, and medical documentation procedures or have a level of knowledge equivalent at least to that of an LPN;
  - 4. Establish a schedule for the review which shall include, at a minimum, the dates for the delivery of preliminary findings to the hospital or medical facility, a 14 day response period for the hospital or medical facility, the delivery of an itemized list of any discrepancies, and an exit conference upon completion of the review; and
  - 5. Provide the payer and hospital or medical facility with a written summary of the review within 30 days of the exit conference.
- C. The hospital or medical facility shall comply with the following procedures:
  - 1. Allow the review to begin within 30 days from the payer's notification;
  - 2. Upon receipt of the injured worker's signed release of information form, allow the reviewer access to all items identified on the form;
  - 3. Designate an individual to serve as the primary liaison between the hospital or medical facility and the reviewer, who will acquaint the reviewer with the documentation and charging practices of the hospital or medical facility;
  - 4. Provide a written response to each preliminary review finding within 14 days of receipt of those findings; and
  - 5. Participate in the exit conference in an effort to resolve any discrepancies.

When seeking dispute resolution from the Division's Medical Dispute Resolution Unit, the requesting party must complete the Division's "Medical Dispute Resolution Intake Form" (WC 181) found on the Division's web page. The items listed on the bottom of the form must be provided at the time of submission. If necessary items are missing or if more information is required, the Division will forward a request for additional information and initiation of the process may be delayed.

When the request is properly made and the supporting documentation submitted, the Division will issue a confirmation of receipt. If, after reviewing the materials, the Division believes the dispute criteria have not been met, the Division will issue an explanation of those reasons. If the Division determines there is cause for facilitating the disputed items, the other party will be sent a request for a written response due in 14 days.

The Division will facilitate the dispute by reviewing the parties' compliance with Rules 11, 16, 17, and 18 within 30 days of receipt of the complete supporting documentation; or as soon thereafter as possible. In addition, the payer shall pay interest at the rate of eight percent per annum in accordance with § 8-43-410(2), upon all sums not paid timely and in accordance with the Division Rules. The interest shall be paid at the same time as any delinquent amount(s).

Upon review of all submitted documentation, disputes resulting from violation of Rules 11, 16, 17, and 18, as determined by the Director, may result in a Director's Order that cites the specific violation.

Evidence of compliance with the order shall be provided to the Director. If the party does not agree with the findings, it shall state with particularity and in writing its reasons for all disagreements by providing a response with all relevant legal authority, and/or other relevant proof in support of its position(s).

Failure to respond or cure violations may result in penalties in accordance with § 8-43-304. Daily fines up to \$1,000/day for each such offence will be assessed until the party complies with the Director's Order.

Resolution of disputes not pertaining to Rule violations will be facilitated by the Division to the extent possible. In the event both parties cannot reach an agreement, the parties will be provided additional information on pursuing resolution and adjudication procedures available through the Office of Administrative Courts. Use of the dispute resolution process does not extend the 12-month application period for hearing.

## Exhibit #1

### Evaluation and Management - Medical Decision Making – Effective 1/1/2023

Number/Complexity of Problems Addressed (**Chart A**) See examples on page 6

Only problems directly related to the injury and pertinent to the visit or treatment are counted.

<b>Minimal</b>	<input type="checkbox"/> 1 Self-limited / minor problem	<p><u>Self-limited or Minor Problem</u> – A problem that runs a definite and prescribed course, is temporary in nature, and is not likely to permanently affect health status.</p>
<b>Low</b>	<input type="checkbox"/> 2+ Self-limited/minor problems; or  <input type="checkbox"/> 1 Stable chronic illness; or  <input type="checkbox"/> 1 Acute uncomplicated illness/injury	<p><u>Stable, Chronic Illness</u> - A problem with an expected duration of at least one year or until the death of the patient. For the purpose of defining chronicity, conditions are treated as chronic whether or not the stage or the severity changes (e.g., uncontrolled diabetes and controlled diabetes are a single chronic condition). 'Stable' for the purposes of categorizing MDM is defined by the specific treatment goals for an individual patient. A patient who is not at their treatment goal is not stable, even if the condition has not changed and there is no short- term threat to life or bodily function. For example, a patient with persistently poorly controlled blood pressure for whom better control is a goal is not stable, even if the pressures are not changing and the patient is asymptomatic. The risk of morbidity without treatment is significant.</p> <p><u>Acute, Uncomplicated Illness or Injury</u> - A recent or new short-term problem with low risk of morbidity for which a treatment is considered. There is little to no risk of mortality with treatment, and full recovery without functional impairment is expected. A problem that is normally self-limited or minor but is not resolving consistent with a definite and prescribed course is an acute, uncomplicated illness.</p>
<b>Moderate</b>	<input type="checkbox"/> 1+ Chronic illness w/ exacerbation, progression, or Tx side effects; or  <input type="checkbox"/> 2+ Stable chronic illnesses; or  <input type="checkbox"/> Undiagnosed new problem w/ uncertain prognosis; or  <input type="checkbox"/> Acute illness w/ systemic symptoms; or  <input type="checkbox"/> Acute complicated injury	<p><u>Chronic Illness with Exacerbation, Progression or Side Effects of Tx</u> - A chronic illness that is actually worsening, poorly controlled or progressing with an intent to control progression and requiring additional supportive care or attention to treatment for side effects but that does not require consideration of hospital level care.</p> <p><u>Undiagnosed New Problem with Uncertain Prognosis</u> - A problem in the differential diagnosis that represents a condition likely to result in a high risk of morbidity without medical intervention.</p> <p><u>Acute Illness with Systemic Symptoms</u> - An illness that causes systemic symptoms and has a high risk of morbidity without treatment. For systemic general symptoms such as fever, body aches or fatigue in a minor illness that may be treated to alleviate symptoms, shorten the course of illness or to prevent complications, see the definitions for 'self-limited or minor' or 'acute, uncomplicated.' Systemic symptoms may not be general, but may be a single system.</p>

High	<input type="checkbox"/> Chronic illness w/ severe exacerbation, progression, or Tx side effects; or <input type="checkbox"/> Acute/chronic illness/injury that poses threat to life or bodily function

Acute, Complicated Injury – An injury which requires medical intervention that includes evaluation of other body systems that are not directly related to the injured organ, the injury is extensive, or the treatment options are multiple and/or associated with risk of morbidity.

Chronic Illness with Severe Exacerbation, Progression, or Side Effects of Treatment – The severe exacerbation or progression of a chronic illness or severe side effects of treatment that have significant risk of morbidity and may require hospitalization.

Acute or Chronic Illness or Injury that Poses a Threat to Life or Bodily Function - An acute illness with systemic symptoms (symptoms affecting one or more organ systems), or an acute complicated injury, or a chronic illness or injury with exacerbation and/or progression or side effects of treatment, that poses a threat to life or bodily function in the short-term without treatment.

Amount and/or Complexity of **Data to be Reviewed and Analyzed (Chart B)**

Tests & Documents (T&D)				T&D pts	Level of Data
Review of prior <b>external note(s)</b> from each unique source*		x 1 =			<input type="checkbox"/> 2 pts from at least 2 T&D <b>or</b> <input type="checkbox"/> 1 pt from IHX  If at least 1 box is checked, the level of data is <b>LIMITED</b> If not, the level of data is <b>MINIMAL</b> or <b>NONE</b>
Review of the <b>result(s)</b> of each unique test*		x 1 =			
<b>Ordering</b> of each unique test* or <b>Discussion with the patient</b> of possible test alternatives (documented)		x 1 =			
<b>Assessment requiring an independent historian(s)(IHx)</b>				IHx pts	
An individual who provides a history in addition to patient	0 or 1 max =				
<b>Independent interpretation of tests (Intpr)</b>				Intpr pts	
Independent interpretation of a test performed by another physician/ other qualified health care professional (not separately reported);	0 or 1 max =				<input type="checkbox"/> 3 pts from 3 T&D/IHX <b>or</b> <input type="checkbox"/> 1 pt from Intpr <b>or</b> <input type="checkbox"/> 1 pt from DISC  If at least 1 box is checked, the level of data is <b>MODERATE</b> If not, the level of data is <b>LIMITED</b> or <b>MINIMAL/NONE</b>
<b>Discussion of management or test interpretation (DISC)</b>				DISC pts	
Discussion of management or test interpretation <b>with external physician</b> /other qualified health care professional/appropriate source (not separately reported)	0 or 1 max =				If at least 2 of the 3 boxes above are checked, the level of data is <b>EXTENSIVE</b>

\*Each unique test, order, or document contributes to the combination of T&D category below. If the test is being billed on the same date, T&D does not apply

Test – Laboratory services, diagnostic imaging, psychometric, or physiologic data. A clinical laboratory panel (e.g., basic metabolic panel [80047]) is a single test. The differentiation between single or multiple unique tests is defined in accordance with the CPT® code set.

External – External records, communications and/or test results are from an external physician, other qualified health care professional, facility or health care organization.

External Physician or Other Qualified Healthcare Professional - An individual who is in a different group practice or who is of a different specialty or subspecialty. It includes licensed professionals that are practicing independently (e.g. PT, OT, nurse case manager.) It may also be a facility or organizational provider such as a hospital, nursing facility, or home health care agency.

Independent Historian(s)- An individual such as a parent, guardian, surrogate, spouse, caregiver, witness, supervisor, or co-worker who provides a history in addition to a history provided by the patient who is unable to provide a complete or reliable history due to developmental stage of the patient, or another mental condition(s) or because a confirmatory history is determined to be necessary. In the case where there may be conflict or poor communication between multiple historians and more than one historian(s) is needed, the independent historian(s) requirement is met.

Independent Interpretation - The interpretation of a test for which there is a CPT® code and an interpretation or report is expected. This does not apply when the provider is reporting the service or has previously reported the service for the patient. A form of interpretation should be documented, but need not conform to the usual standards of a complete report for the test.

Appropriate Source – Individuals who are not health care professionals, but may be involved in the management of the patient (e.g., lawyer, parole officer, power of attorney, case manager, clergy, teacher). It does not include discussion with family or informal caregivers.

**Risk of complications and/or Morbidity or Mortality of Patient Management (Chart C) see examples on following page**

<b>Minimal</b>	<input type="checkbox"/> Minimal risk of morbidity from additional diagnostic testing or treatment	<p><b><u>Risk</u></b> – The probability and/or consequences of an event (an event is the medical intervention or treatment). The assessment of the level of risk is affected by the nature of the medical intervention or treatment under consideration. <i>For example, a low probability of death may be high risk, whereas a high chance of a minor, self-limited adverse effect of treatment may be low risk.</i> Definitions of risk are based upon the usual behavior and thought processes of a provider in the same specialty. Trained clinicians apply common language usage meanings to terms such as ‘high’, ‘medium’, ‘low’, or ‘minimal’ risk and do not require quantification for these definitions, (though quantification may be provided when evidence-based medicine has established probabilities). For the purposes of calculating medical decision making, level of risk is based upon consequences of the problem(s) addressed at the visit when appropriately treated. Risk also includes medical decision making related to the need to initiate or forego further testing, treatment and/or hospitalization.</p>
<b>Low</b>	<input type="checkbox"/> Low risk of morbidity from additional diagnostic testing or treatment	
<b>Moderate</b>	<input type="checkbox"/> Moderate risk of morbidity from additional diagnostic testing or Treatment	
		<p><b><u>Morbidity</u></b> – A state of illness or functional impairment that is expected to be long-term duration in which function is limited, quality of life is impaired, or there is organ damage</p>

**High** ☐ High risk of morbidity from additional diagnostic testing or treatment that may not be temporary despite treatment.

**Level of the Presenting Problem** (from Chart A) \_\_\_\_\_

**Level of Data** (from Chart B) \_\_\_\_\_

**Level of Risk** (from Chart C) \_\_\_\_\_

<b>Minimal</b>	<b>99202/99212</b>
<b>Low</b>	<b>99203/99213</b>
<b>Moderate</b>	<b>99204/99214</b>
<b>High</b>	<b>99205-99215</b>

**Overall level of MDM**-two of three categories above must be at a specific level in order to claim overall MDM at that level \_\_\_\_\_

Examples of patient management or conditions		Level of Risk
<input type="checkbox"/> Rest <input type="checkbox"/> Gargles <input type="checkbox"/> Insect bite <input type="checkbox"/> Contusion <input type="checkbox"/> Bruise	<input type="checkbox"/> Elastic bandages <input type="checkbox"/> Superficial dressings <input type="checkbox"/> Minor non-sutured laceration <input type="checkbox"/> Abrasion	<b>MINIMAL</b>
<input type="checkbox"/> Over-the-counter drugs <input type="checkbox"/> Minor surgery with no identified risk factors <input type="checkbox"/> PT/OT <input type="checkbox"/> Superficial burn <input type="checkbox"/> Simple sprain/strain <input type="checkbox"/> Stable chronic low back pain	<input type="checkbox"/> IV fluids w/o additives <input type="checkbox"/> Simple or layered closure <input type="checkbox"/> Vaccine injection <input type="checkbox"/> Simple laceration repair <input type="checkbox"/> Superficial foreign body	<b>LOW</b>
<input type="checkbox"/> Minor surgery, with identified risk factors <input type="checkbox"/> Elective major surgery (open, percutaneous, or endoscopic), with no identified risk factors <input type="checkbox"/> Prescription drug management <input type="checkbox"/> Therapeutic nuclear medicine	<input type="checkbox"/> Closed fracture(s) or dislocation(s), without manipulation <input type="checkbox"/> Disability counseling and/or work restrictions <input type="checkbox"/> Inability to return the injured worker to work and requiring detailed functional improvement plan <input type="checkbox"/> Diagnosis or treatment significantly limited by social determinants of health	<b>MODERATE</b>

<input type="checkbox"/> IV fluids with additives <input type="checkbox"/> Head injury with brief loss of consciousness <input type="checkbox"/> New neurologic complaints in extremity (numbness, tingling) <input type="checkbox"/> Partial thickness burn < 10% total body surface area <input type="checkbox"/> Deep foreign body	<input type="checkbox"/> Chronic pain with exacerbation &/or side effects of tx <input type="checkbox"/> Intermediate laceration repair <input type="checkbox"/> Torn ligament	
<input type="checkbox"/> Elective major surgery (open, percutaneous, endoscopic), with identified risk factors <input type="checkbox"/> Emergency major surgery or trauma <input type="checkbox"/> Parenteral controlled substances <input type="checkbox"/> Drug therapy requiring intensive monitoring for toxicity <input type="checkbox"/> Initial treatment of open fracture <input type="checkbox"/> Head injury with prolonged loss of consciousness <input type="checkbox"/> Partial thickness burn $\geq$ 10% total body surface areas <input type="checkbox"/> Full-thickness burn <input type="checkbox"/> Complex laceration repair <input type="checkbox"/> Initial loss of limb/digit	<input type="checkbox"/> Decision not to resuscitate, or to de-escalate care because of poor prognosis <input type="checkbox"/> Potential for significant permanent work restrictions or total disability which would significantly restrict employment opportunities <input type="checkbox"/> Management of addiction behavior or other significant psychiatric condition <input type="checkbox"/> Treatment plan for patients with symptoms causing severe functional deficits without supporting physiological findings or verified related medical diagnosis. <input type="checkbox"/> Abrupt change in neurological status	<b>HIGH</b>

### Time-Based Coding

Total Time on the Date of the Visit – (99202-99205, 99212-99215) - For calculation purposes, time for these services is the total time on the date of the visit. It includes both the face-to-face and non-face-to-face time personally spent by the provider(s) on the day of the visit and includes time in activities that require the provider but does not include time in activities normally performed by clinical staff.

**Provider time includes the following activities, when performed:**

- Preparing to see the patient such as reviewing the pt's record
- Obtaining and/or reviewing separately obtained history
- Performing a medically appropriate history and examination
- Counseling and educating the patient, family, and/or caregiver
- Ordering prescription medications, tests, or procedures
- Referring and communicating with other health care providers when not separately reported during the visit
- Documenting clinical information in the electronic or other health record
- Independently interpreting and communicating results to the patient/family/caregiver
- Coordinating the care of the patient (case manager; discharge; instructions for post-op care)
- Time spent communicating with patient, family and/or caregiver through an interpreter
- Time spent on causation or apportionment analysis

Code	Time	Code	Time
99202	15-29	99211	0
99203	30-44	99212	10-19
99204	45-59	99213	20-29
99205	60-74	99214	30-39
		99215	40-54

**Provider time does not include:**

- Completing a WC-164
- Activities related to QPOP
- Activities not included in the documentation
- Time associated with any other billed code

**Exhibit # 2****Base Rates and Cost-to-Charge Ratios – Effective 1/1/2023**

22830	Exploration of spinal fusion	5115
22849	Reinsert spinal fixation	5116
22850	Remove spine fixation device	5115
22852	Remove spine fixation device	5115
22855	Remove spine fixation device	5115
22857	Tot disc arthrp ant lumbar	5116
22861	Revise cerv artific disc	5116
22862	Revise lumbar artif disc	5116
22864	Remove cerv artif disc	5115
22865	Remove lumb artif disc	5115
23200	Resect clavicle tumor	5114
23210	Resect scapula tumor	5114
23220	Resect prox humerus tumor	5114
23335	Shoulder prosthesis removal	5073
23474	Revis reconst shoulder joint	5115
23900	Amputation of arm & girdle	5115
23920	Amputation at shoulder joint	5115
24900	Amputation of upper arm	5115
24920	Amputation of upper arm	5115
24930	Amputation follow-up surgery	5114
24931	Amputate upper arm & implant	5115
24940	Revision of upper arm	5115
25900	Amputation of forearm	5115
25905	Amputation of forearm	5115
25915	Amputation of forearm	5114
25920	Amputate hand at wrist	5114
25924	Amputation follow-up surgery	5114
25927	Amputation of hand	5113
26551	Great toe-hand transfer	5114

26553	Single transfer toe-hand	5114
26554	Double transfer toe-hand	5114
26556	Toe joint transfer	5114
26992	Drainage of bone lesion	5114
27005	Incision of hip tendon	5114
27025	Incision of hip/thigh fascia	5114
27030	Drainage of hip joint	5114
27036	Excision of hip joint/muscle	5114
27054	Removal of hip joint lining	5113
27070	Part remove hip bone super	5114
27071	Part removal hip bone deep	5114
27075	Resect hip tumor	5114
27076	Resect hip tum incl acetabul	5114
27077	Resect hip tum w/innom bone	5115
27078	Rsect hip tum incl femur	5115
27090	Removal of hip prosthesis	5073
27091	Removal of hip prosthesis	5073
27120	Reconstruction of hip socket	5115
27122	Reconstruction of hip socket	5115
27125	Partial hip replacement	5115
27132	Total hip arthroplasty	5115
27134	Revise hip joint replacement	5115
27137	Revise hip joint replacement	5115
27138	Revise hip joint replacement	5115
27140	Transplant femur ridge	5115
27146	Incision of hip bone	5114
27147	Revision of hip bone	5114
27151	Incision of hip bones	5114
27156	Revision of hip bones	5114
27158	Revision of pelvis	5114
27161	Incision of neck of femur	5114
27165	Incision/fixation of femur	5114
27170	Repair/graft femur head/neck	5114
27175	Treat slipped epiphysis	5114
27176	Treat slipped epiphysis	5115
27177	Treat slipped epiphysis	5114
27178	Treat slipped epiphysis	5114
27181	Treat slipped epiphysis	5114
27185	Revision of femur epiphysis	5114
27187	Reinforce hip bones	5114
27226	Treat hip wall fracture	5114
27227	Treat hip fracture(s)	5114
27228	Treat hip fracture(s)	5114
27232	Treat thigh fracture	5112

27236	Treat thigh fracture	5114
27240	Treat thigh fracture	5112
27244	Treat thigh fracture	5114
27245	Treat thigh fracture	5114
27248	Treat thigh fracture	5114
27253	Treat hip dislocation	5113
27254	Treat hip dislocation	5113
27258	Treat hip dislocation	5113
27259	Treat hip dislocation	5113
27268	Cltx thigh fx w/mnpj	5113
27269	Optx thigh fx	5112
27280	Fusion of sacroiliac joint	5116
27282	Fusion of pubic bones	5115
27284	Fusion of hip joint	5116
27286	Fusion of hip joint	5116
27290	Amputation of leg at hip	5116
27295	Amputation of leg at hip	5116
27303	Drainage of bone lesion	5114
27365	Resect femur/knee tumor	5114
27445	Revision of knee joint	5115

## 18.1 INTRODUCTION

Pursuant to § 8-42-101(3)(a)(I) and § 8-47-107, the Director promulgates this Medical Fee Schedule to review and establish maximum fees for healthcare services falling within the purview of the Workers' Compensation Act of Colorado. This Rule applies to services rendered on or after January 1, 2023. All other bills shall be reimbursed in accordance with the fee schedule in effect on the date of service. This Rule shall be read together with Rule 16, Utilization Standards, and Rule 17, the Medical Treatment Guidelines (MTGs).

The unofficial copies of Rule 18, other Colorado Workers' Compensation Rules of Procedure, and Interpretive Bulletins are available on the Division's website, <https://cdle.colorado.gov/dwc>. The rules also may be purchased from LexisNexis. An official copy of this Rule is available on the Secretary of State's webpage, [www.sos.state.co.us/CCR/Welcome.do](http://www.sos.state.co.us/CCR/Welcome.do), 7 CCR 1101-3.

## 18.2 INCORPORATION BY REFERENCE

The Director adopts and incorporates by reference the following materials:

- (A) National Physician Fee Schedule Relative Value file (RBRVS-Resource Based Relative Value Scale), as modified and published by Medicare in April 2022. Copies are available on Medicare's website, <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched>.
- (B) The Current Procedural Terminology CPT® 2022, Professional Edition, published by the American Medical Association (AMA). All CPT® modifiers are adopted, unless otherwise specified in this Rule.
- (C) Medicare Severity Diagnosis Related Groups (MS-DRGs) Definitions Manual, Version 39.1 using MS-DRGs from CMS1752-F Table 5. Copies are available on Medicare's website, [www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS](http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS). The MS-DRGs Definitions Manual may be purchased from 3M Health Information Systems.
- (D) Hospital Outpatient Prospective Payment System (OPPS) Addenda A and B, January 2022 - Correction; 2022 NFRM OPPS Addendum J; Table 3 (The OPPS Imaging Families and Multiple Imaging Procedure Composite APCs) of the 2022 OPPS Final Rule; and Table 2 of the 2022 NFRM OPPS Claims Accounting. Copies are available on Medicare's website, <https://www.cms.gov/medicare/medicare-fee-for-service-payment/hospitaloutpatientpps>.
- (E) Medicare Part B April 2022 Average Sales Price (ASP) Pricing File. Copies are available on Medicare's website, <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Part-B-Drugs/McrPartBDrugAvgSalesPrice>.
- (F) Health Care Common Procedure Coding System (HCPCS) Level II Professional 2022, published by the AMA.
- (G) Medicare's Clinical Laboratory Fee Schedule File, CY 2022 Q2 Release. Copies are available on Medicare's website, <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ClinicalLabFeeSched/Clinical-Laboratory-Fee-Schedule-Files>.
- (H) The Current Dental Terminology, CDT® 2022, published by the American Dental Association.
- (I) Medicare's 2022 Anesthesia Base Units by CPT® Code. Copies are available on Medicare's website, [www.cms.gov/Center/Provider-Type/Anesthesiologists-Center](http://www.cms.gov/Center/Provider-Type/Anesthesiologists-Center).

All guidelines and instructions in the referenced materials are adopted, unless otherwise specified in this Rule. The incorporation is limited to the specific editions named and does not include later revisions or additions.

The Division shall make available for public review and inspection the copies of all materials incorporated by reference in Rule 18. Please contact the Medical Services Manager, 633 17th Street, Suite 400, Denver, Colorado 80202-3626. These materials also are available at any state publications depository library. All users are responsible for the timely purchase and use of these materials.

### 18.3 GENERAL POLICIES

#### (A) BILLING CODES AND FEE SCHEDULE:

- (1) The Division establishes the Medical Fee Schedule based on RBRVS, as modified by Rule 18 and its Exhibits.
- (2) The Division incorporates CPT®, HCPCS, CDT® and National Drug Code (NDC) codes and values, unless otherwise specified in Rule 18. The providers may use CPT® Category III codes listed in the RBRVS with Payer agreement. Payment for the Category III codes shall comply with Rule 16 policy for unpriced codes.
- (3) Division-created codes and values (DoWC ZXXXX) supersede CPT®, HCPCS, CDT®, and NDC codes and values. The CPT® mid-point rule for attaining a unit of time applies to these codes, unless otherwise specified in this Rule.
- (4) Codes listed with values of “BR” (by report), not listed, or listed with a zero value and not included by Medicare in another procedure(s), require prior authorization.

#### (B) PLACE OF SERVICE CODES:

The table below lists the place of service codes corresponding to the RBRVS facility RVUs. All other maximum fee calculations shall use the non-facility RVUs listed in the RBRVS.

Place of Service Code	Place of Service Code Description
21	Inpatient Hospital
22	On Campus - Outpatient Hospital
23	Emergency Room-Hospital
24	Ambulatory Surgery Center (ASC)
26	Military Treatment Facility
31	Skilled Nursing Facility
34	Hospice
41	Ambulance - Land
42	Ambulance - Air or Water
51	Inpatient Psychiatric Hospital
52	Psychiatric Facility-Partial Hospitalization
53	Community Mental Health Center
56	Psychiatric Residential Treatment Center
61	Comprehensive Inpatient Rehabilitation Facility

#### (C) CORRECT REPORTING AND PAYMENT POLICIES:

- (1) Providers shall report codes and number of units based on all applicable code descriptions and this Rule. In addition, providers shall document all services/ procedures in the medical record.
- (2) Providers shall report the most comprehensive code that represents the entire service.
- (3) Providers shall report only the primary services and not the services that are integral to the primary services.
- (4) Providers shall document the time spent performing all time-based services or procedures in accordance with applicable code descriptions.

- (5) Providers shall apply modifiers to clarify services rendered and/or adjust the maximum allowances as indicated in this Rule. When correcting a modifier, Payers shall comply with Rule 16.

#### 18.4 PROFESSIONAL FEES AND SERVICES

##### (A) GENERAL INSTRUCTIONS

##### (1) Conversion Factors (CFs):

Maximum allowances are determined by multiplying the following CFs by the established facility or non-facility total relative value units (RVUs) found in the corresponding RBRVS sections:

RBRVS SECTION	CF
Anesthesia	\$44.00
Surgery/Radiology/Pathology/Medicine	\$68.00
Physical Medicine and Rehabilitation (Includes Medical Nutrition Therapy and Acupuncture)	\$48.00
Evaluation & Management (E&M)	\$54.10

##### (2) Maximum Allowance:

- (a) Maximum allowance for most providers shall be 100% of the Medical Fee Schedule unless otherwise specified in this Rule.
- (b) The maximum allowance for Physician Assistants (PAs) and Nurse Practitioners (NPs) shall be 85% of the Medical Fee Schedule. However, PAs and NPs are allowed 100% of the Medical Fee Schedule if the requirements of Rule 16 have been met and one of the following conditions applies:
  - (i) The service is provided in a rural area. Rural area means:
    - a county outside a Metropolitan Statistical Area (MSA) or
    - a Health Professional Shortage Area, located either outside of an MSA or in a rural census tract, as determined by the Office of Rural Health Policy, Health Resources and Services Administration, United States Department of Health and Human Services.
  - (ii) The PA or NP is Level I Accredited.
- (c) The Payer may negotiate reimbursement of travel expenses not addressed in the fee schedule (including transit time) with providers traveling to a rural area to serve an injured worker. Rural area is defined in subsection (2)(b)(i) above. This reimbursement shall be in addition to the maximum allowance for services addressed in the fee schedule.

##### (3) The Division adopts the following RBRVS attributes or modifies them as follows:

- (a) HCPCS (Healthcare Common Procedure Coding System) – including any CPT® codes, Level I (CPT®), and Level II (HCPCS) Modifiers (listed and unlisted).
- (b) Description – short description as listed in the file and long description as specified in CPT®.

(c) Status Code:

Status	Meaning
A	Separately Payable
B & P	Bundled Code
C	Priced per Rule 16-10-1
E	HCPCS J0120 to J9999 and CPT® 90296-90750 are payable. HCPCS Q4074-Q4255 require prior authorization for payment. All other codes are not payable unless otherwise specified in this Rule.
I	HCPCS A0021-A0988 and S0012-S0199 (see section 18-4(B)(6)(c)) are payable. Dental codes are paid per Exhibit #3; All other codes are not payable unless otherwise specified in this Rule. There may be another code for reporting and payment of these services.
J	Anesthesia Code
M & Q	Measurement or Functional Information Codes - No Value
N	HCPCS A4206-A9999 are payable when these supplies are issued for home use. Dental codes are paid per Exhibit #3. HCPCS V2020-V5290 are payable per section 18-6(A). There may be another code for reporting and payment of services associated with V-codes. Codes found in the Medicine Section of CPT® with an assigned RBRVS value (section 18-2(A)) are payable. All other codes are not payable unless otherwise specified in this Rule.
R	Dental codes are paid per Exhibit #3. All other codes require prior authorization for payment unless otherwise specified in this Rule.
T	Paid When It Is the Only Payable Service Performed
X	Codes with an assigned RBRVS value (section 18-2(A)) are payable. All other codes are not payable unless otherwise specified in this Rule.

- (d) Increment of Service/Billable (when specified).
- (e) Anesthesia Base Unit(s), see section 18-4(C).
- (f) Non-Facility (NF) Total RVUs.
- (g) Facility (F) Total RVUs.
- (h) Professional Component/Technical Component Indicators.

Indicator	Meaning
0	Physician Service Codes – professional component/ technical component (PC/TC) distinction does not apply.
1	Diagnostic Radiology Tests - may be billed with or without modifiers 26 or TC.
2	Professional Component Only Codes – standalone professional service code (no modifier is appropriate because the code description dictates the service is professional only).
3	Technical Component Only Codes - standalone technical service code (no modifier is appropriate because the code description dictates the service is technical only).
4	Global Test Only Codes - modifiers 26 and TC cannot be used because the values equal to the sum of the total RVUs (work, practice expense, and malpractice).
5	Incident To Codes - do not apply.
6	Laboratory Physician Interpretation Codes – separate payments may be made (these codes represent the professional component of a clinical laboratory service and cannot be billed with modifier TC).
7	Physical Therapy Service – not recognized.
8	Physician Interpretation Codes – separate payments may be made only if a physician interprets an abnormal smear for a hospital inpatient.
9	Concept of PC/TC distinction does not apply.

- (i) Global Days: the number of follow-up days beginning on the day after the surgery and continuing for the defined period.

<b>Indicator</b>	<b>Meaning</b>
000	Endoscopies or some minor surgical procedures, typically a zero day post-operative period. E&M visits on the same day as procedures generally are included in the procedure, unless a separately identifiable service is reported with an appropriate modifier.
010	Other minor procedures, 10-day post-operative period. E&M visits on the same day as procedures and during the 10-day post-operative period generally are included in the procedure, unless a separately identifiable service is reported with an appropriate modifier.
090	Major surgeries, 90-day post-operative period. E&M visits the day before and on same day as procedures, as well as during the 90-day post-operative period generally are included in the procedure, unless a separately identifiable service is reported with an appropriate modifier.
MMM	Global service days concept does not apply (see Medicare's Global Maternity Care reporting rule).
XXX	Global concept does not apply.
YYY	Identifies primarily "BR" procedures where "global days" need to be determined by the Payer.
ZZZ	Code is related to another service and always included in the global period of the other service. Identifies "add on" codes.

- (j) Pre-Operative Percentage Modifier: percentage of the global surgical package payable when pre-operative care is rendered by a provider other than the surgeon.

<b>Indicator</b>	<b>Meaning</b>
%	The physician shall append modifier 56 when performing only the pre-operative portion of any surgical procedure. This modifier can be combined with either modifier 54 or 55, but not both. This column lists the allowed percentage of the total surgical relative value unit.

- (k) Intra-Operative Percentage Modifier: percentage of the global surgical package payable when the surgeon renders only intra-operative care.

Indicator	Meaning
%	The surgeon shall append modifier 54 when performing only the intra-operative portion of a surgical procedure. This modifier can be combined with either modifier 55 or 56, but not both. This column lists the allowed percentage of the total surgical relative value unit.

- (l) Post-Operative Percentage Modifier: percentage of the global surgical package payable when post-operative care is rendered by a provider other than the surgeon.

Indicator	Meaning
%	The surgeon shall append modifier 55 when performing only the post-operative portion of a surgical procedure. This modifier can be combined with either modifier 54 or 56, but not both. This column lists the allowed percentage of the total surgical relative value unit.

- (m) Multiple Procedure Modifier: the maximum allowance for the highest-valued procedure is 100% of the fee schedule, even if the provider appends modifier 51. The maximum allowance for the lesser-valued procedures performed in the same operative setting is 50% of the fee schedule.

Indicator	Meaning
0	No payment adjustment for multiple procedures applies. These codes are generally identified as “add-on” codes in CPT®.
1, 2, or 3	Standard payment reduction applies (100% for the highest-valued procedure and 50% for all lesser-valued procedures performed during the same operative setting).
4, 5, 6, or 7	Not subject to the multiple procedure adjustments.
9	Multiple procedure concept does not apply.

- (n) Bilateral Procedure Modifier.

Indicator	Meaning
0	Not eligible for the bilateral payment adjustment. Either the procedure cannot be performed bilaterally due to the anatomical constraints or another code more adequately describes the procedure.
1	Eligible for bilateral payment adjustment and shall be

	<p>reported on one line with modifier 50 and “1” in the units box.</p> <p>Providers performing the same bilateral procedure during the same operative setting on multiple sites shall report the second and subsequent procedures with modifiers 50 and 59. Report on one line with one unit for each bilateral procedure performed. The maximum allowance is increased to 150%.</p> <p>If provider performs multiple bilateral procedures during the same setting, Payer shall apply the bilateral payment adjustment rule first, and then apply other applicable payment adjustments (e.g., multiple surgery).</p>
2	Not eligible for the bilateral payment adjustment. These procedure codes are already bilateral.
3	Not eligible for the bilateral payment adjustment. Report these codes on two lines with RT and LT modifiers. There is one payment per line.
9	Not eligible for the bilateral payment adjustment because the concept does not apply.

- (o) Assistant Surgeon, Modifiers 80, 81, 82, or AS: the designation of “almost always” for a surgical code in the Physicians as Assistants at Surgery: 2020 Update (October 2020), published by the American College of Surgeons shall indicate that separate payment for an assistant surgeon is allowed for that code. If that publication does not make a recommendation on a surgical code or lists it as “sometimes” or “almost never,” then RBRVS indicators shall determine whether separate payment for assistant surgeons is allowed.

Indicator	Meaning
0	Documentation of medical necessity and prior authorization is required to allow an assistant at surgery.
1	No assistant at surgery is allowed.
2	Assistant at surgery is allowed.
9	Concept does not apply.

No separate assistant surgeon or minimum assistant fees shall be paid if a co-surgeon is paid for the same operative procedure during the same surgical episode. See section 18-4(D)(1) for additional payment policies.

- (p) Co-Surgeon, Modifier 62.

Indicator	Meaning
1 or 2	Indicators may require two primary surgeons performing two distinct portions of a procedure. Modifier 62 is used with the procedure and maximum allowance is increased to 125% of the fee schedule value.  The payment is apportioned to each surgeon in relation to the individual responsibilities and work, or it is apportioned equally between the co-surgeons.
0 or 9	Not eligible for co-surgery fee allowance adjustment. These procedures are either straightforward or only one surgeon is required, or the concept does not apply.

(q) Team Surgeon, Modifier 66.

Indicator	Meaning
0	Team surgery adjustments are not allowed.
1	Prior authorization is required for team surgery adjustments.
2	Team surgery adjustments may occur as a "BR." Each team surgeon must bill modifier 66. Payer must adjust the values in consultation with the billing surgeon(s).
9	Concept does not apply.

(r) Endoscopy base codes are not recognized for payment adjustments except when other modifiers apply.

(s) All other fields are not recognized.

(B) EVALUATION AND MANAGEMENT (E&M)

- (1) E&M codes may be billed by Physicians, NPs, and PAs, as defined in Rule 16. To justify the billed level of E&M service, medical records shall utilize (1) CPT® E&M Services Guidelines and Exhibit #1 for office or other outpatient services or (2) Medicare's 1997 Evaluation and Management Documentation Guidelines for other E&M services as applicable.

To justify the level of E&M service billed based on time, the provider shall not count the time spent on other reportable codes.

- (2) New or Established Patients:

An E&M visit shall be billed as a "new" patient service for each new injury or new Colorado workers' compensation claim even if the provider has seen the injured worker within the last three years.

Any subsequent E&M visits for the same injury billed by the same provider or another provider of the same specialty or subspecialty in the same group practice shall be billed as an "established patient" visit.

Transfer of care from one physician to another with the same tax ID and specialty or subspecialty shall be billed as an "established patient" regardless of location.

(3) Number of Office Visits:

All providers are limited to one office visit per injured worker, per day, per workers' compensation claim, unless prior authorization is obtained.

(4) Treating Physician Telephone or On-line Services:  
Minimum required documentation elements include:

- (a) Total time spent on medical discussion and date;
- (b) The injured worker, family member, or healthcare provider spoken with; and
- (c) Specific discussion and/or decision(s) made during the discussion.

Telephone or on-line services may be billed even if performed within the one day and seven day timelines listed in CPT®.

(5) Consultation/Referrals/Transfers of Care/Independent Medical Examinations:

A consultation occurs when a treating Physician seeks an opinion from another Physician regarding an injured worker's diagnosis and/or treatment beyond the treating Physician's expertise. CPT® 99241-99245 are payable codes.

To bill for a consultation, the Physician must document the following:

- (a) Identity of the Physician requesting the opinion;
- (b) The need for a consultant's opinion;
- (c) Statement that the report was submitted to the requesting Physician.

A transfer of care occurs when one Physician turns over the responsibility for the comprehensive care of an injured worker to another Physician.

An independent medical exam (IME) occurs when a Physician is requested to evaluate an injured worker by any party or party's representative and is billed in accordance with section 18-7(G).

(6) Prolonged Services:

Providers shall document the medical necessity of prolonged services utilizing patient-specific information. Providers shall comply with all applicable CPT® requirements and the following additional requirements.

- (a) Physicians or other qualified healthcare professionals (MDs, DOs, DCs, DMPs, NPs, and PAs) billing for extensive record review shall document the names of providers and dates of service reviewed, as well as briefly summarize each record reviewed.
- (b) Prolonged clinical staff services (RNs or LPNs) with physician or other qualified healthcare professional supervision:
  - (i) The supervising physician or other qualified healthcare professional may not bill for the time spent supervising clinical staff.
  - (ii) Clinical staff services cannot be provided in an urgent care or emergency department setting.
- (c) The RVUs for CPT® 99417 are .93 (non-facility) and .90 (facility).

(C) ANESTHESIA

- (1) All anesthesia base values are set forth in Medicare's Anesthesia Base Units by CPT® code, as incorporated by 18-2. Anesthesia services are only reimbursable if

the anesthesia is administered by a Physician, a Certified Registered Nurse Anesthetist (CRNA), or an Anesthesiologist Assistant (AA) who remains in constant attendance during the procedure for the sole purpose of rendering anesthesia.

When a CRNA or AA administers anesthesia:

- (a) CRNAs not under the medical direction of an Anesthesiologist shall be reimbursed 90% of the maximum anesthesia value;
  - (b) If billed separately, CRNAs and AAs, under the medical direction of an Anesthesiologist, shall be reimbursed 50% of the maximum anesthesia value. The other 50% is payable to the Anesthesiologist providing the medical direction to the CRNA or AA;
  - (c) Medical direction for administering anesthesia means the Anesthesiologist performs the following:
    - (i) examines and evaluates the injured worker before administering anesthesia;
    - (ii) prescribes the anesthesia plan;
    - (iii) personally participates in the most demanding procedures in the anesthesia plan including, if applicable, induction and emergence;
    - (iv) ensures that any procedure in the anesthesia plan is performed by a qualified anesthetist;
    - (v) monitors anesthesia administration at frequent intervals;
    - (vi) remains physically present and available for immediate diagnosis and treatment of emergencies; and
    - (vii) provides indicated post-anesthesia care.
- (2) HCPCS Level II modifiers are required when billing for anesthesia services. Modifier AD shall be used when an Anesthesiologist supervises more than four concurrent (occurring at the same time) anesthesia service cases. Maximum allowance for supervising multiple cases is calculated using three base anesthesia units for each case, regardless of the number of base anesthesia units assigned to each specific anesthesia episode of care.
- (3) Physical status modifiers are reimbursed as follows, using the Anesthesia CF:

P-1	Healthy patient	0 RVUs
P-2	Patient with mild systemic disease	0 RVUs
P-3	Patient with severe systemic disease	1 RVU
P-4	Patient with severe systemic disease that is a constant threat to life	2 RVUs
P-5	A moribund patient who is not expected to survive without the operation	3 RVUs
P-6	A declared brain-dead patient whose organs are being removed for donor purposes	0 RVUs

- (4) Qualifying circumstance codes are reimbursed using the Anesthesia CF:

Anesthesia complicated by extreme age (under one or over 70 yrs)	1 RVU
Anesthesia complicated by utilization of total body hypothermia	5 RVUs
Anesthesia complicated by utilization of controlled hypotension	5 RVUs
Anesthesia complicated by emergency conditions (specify)	2 RVUs

- (5) Multiple procedures are billed in accordance with CPT®. When more than one surgical procedure is performed during a single episode, only the highest-valued base anesthesia procedure value is added to the total anesthesia time for all procedures.
- (6) Total minutes are reported for reimbursement. Each 15-minutes of anesthesia time equals one additional RVU. Five minutes or more is considered significant time and adds one RVU to the payment calculation.
- (7) Calculation of Maximum Allowance for Anesthesia:
- (a) Add the anesthesia base units, one unit for each 15 minutes of anesthesia time, and any physical status modifier units to calculate total relative value anesthesia units;
  - (b) Multiply the total relative value anesthesia units by the Anesthesia CF to calculate the total maximum anesthesia allowance.
- (8) Non-time based anesthesia procedures shall be billed with modifier 47.

(D) SURGERY

- (1) Assistant Surgeons Payment Policies and Modifiers:

- (a) The use of assistant surgeons shall be limited according to the American College of Surgeons' Physicians as Assistants at Surgery: 2020 Update (October 2020), available from the American College of Surgeons, Chicago, IL, or from its web page.  
  
Provider shall document the medical necessity for any assistant surgeon in the operative report.
- (b) Payment for more than one assistant surgeon or minimum assistant surgeon requires prior authorization.
- (c) Maximum allowance for an assistant surgeon reported by a physician, as indicated by modifier 80, 81, or 82 is 20% of the fee schedule allowance.
- (d) Maximum allowance for a minimum assistant surgeon, reported by a non-physician, as indicated by modifier AS is 10% of the fee schedule allowance (the 85% adjustment in section 18-4(A)(2)(b) does not apply).
- (e) The services performed by registered surgical technologists are bundled fees and are not separately payable.

See section 18-4(A)(3) for additional payment policies applicable to assistant surgeons.

(2) Global Package:

- (a) Global surgical package rules apply in any setting, including inpatient and outpatient hospitals, ambulatory surgical centers, and physicians' offices. The payment rules for global surgical packages apply to surgical procedure codes with global surgery indicators of 000, 010, 090, and sometimes YYY. In addition to the services included pursuant to CPT®, the following services, when provided within the global period by a provider with the same specialty reporting the same Federal Employer Identification Number (FEIN), are included in the global surgical package:
  - (i) Pre-operative services performed within the global period (the day before surgery for procedures with global surgery indicators of 090, and the day of the surgery for all other procedures);
  - (ii) Complications following a procedure that require services of the physician, but not a return trip to the operating room;
  - (iii) Post-operative visits, including follow-up E&Ms, related to the patient recovery;
  - (iv) Post-surgical pain management;
  - (v) Supplies related to the procedure, unless otherwise addressed in this Rule;
  - (vi) Miscellaneous services related to the procedure such as dressing changes; local incision care; removal of operative pack; removal of cutaneous sutures, staples, lines, wires, tubes, drains, casts, and splints; insertion, irrigation, and removal of urinary catheters, routine peripheral intravenous lines, and nasogastric and rectal tubes; and changes/removal of tracheostomy tubes.
- (b) Services not included in the global surgical package:
  - (i) Services by a provider who is not the same specialty unless the surgeon and the other provider agree on the transfer of care (for transfers of care, see pre-, intra-, and post- operative percentage modifiers);
  - (ii) The E&M service that resulted in the initial decision to perform the surgery. billed with modifier 57;
  - (iii) Visits that are unrelated to the diagnosis for which the procedure was performed, billed with modifier 24 or 25;
  - (iv) Diagnostic tests and procedures (including lab and x-ray);
  - (v) Staged or related procedures or services that occur on the same day or staged over a couple of days, billed with modifier 58. The maximum allowance is 100% of the fee schedule.
  - (vi) Clearly distinct procedures during the postoperative period that are not re-operations or treatment for complications;
  - (vii) Treatment for post-operative complications requiring a return trip to the operating room or another place of service specifically equipped and staffed for the sole purpose of performing procedures, billed with modifier 78. The maximum allowance is the intra-operative value of the procedure(s) performed only and the original post-operative global days continue from the initial surgical procedure(s).

- (viii) Increased procedural services (the work required to provide a service is substantially greater than typically required), billed with modifier 22. The Payer and Provider shall negotiate the value based on the fee schedule and the amount of additional work.
  - (ix) Significant and separately identifiable services, billed with modifier 24 or 25. These services are not considered part of the surgical procedure, but may be necessary to stabilize the patient for the procedure. These services may involve unusual circumstances, complications, exacerbations, or recurrences; and/or unrelated diseases or injuries. This category also includes an E&M visit by an ATP for disability management. Disability management for the same diagnosis requires the physician to identify specific disability management detail performed during that visit.
  - (x) Casting supplies if a related fracture or surgical care code is not billed. The HCPCS Level II "Q" code(s) are used for reporting any associated DMEPOS fees.
  - (xi) Immunosuppressive therapy for organ transplants.
- (3) General Surgical Payment Policies:
- (a) Exploration of a surgical site is not separately payable except in cases of a traumatic wound or an exploration performed in a separate anatomic location.
  - (b) An arthroscopy performed as a "scout" procedure to assess the surgical field or extent of disease is bundled into the surgical procedure performed on the same body part during the same surgical encounter and is not separately payable.
  - (c) An arthroscopy converted to an open procedure is bundled into the open procedure and is not separately payable. In this circumstance, providers shall not report either a surgical arthroscopy or a diagnostic arthroscopy code.
  - (d) Only the joints/compartments listed in subsections (4) through (6) below are recognized for separate payment purposes.
  - (e) Providers shall report only one removal code for removal of implants through the same incision, same anatomical site, or a single implant system during the same episode of care.
- (4) Knee Arthroscopies:
- (a) Medial, lateral, and patella are the knee compartments recognized for purposes of separate payment of debridement and synovectomies.
  - (b) Chondroplasty is separately payable with another knee arthroscopy only if performed in a different knee compartment or to remove a loose/foreign body during a meniscectomy. The separate payment must comply with all applicable CPT® guidelines.
  - (c) Limited synovectomy involving one knee compartment is not separately payable with another arthroscopic procedure on the same knee.
  - (d) Separate payment for a major synovectomy procedure requires a synovial diagnosis and two or more knee compartments without any other arthroscopic surgical procedures performed in the same compartment.

(5) Shoulder Arthroscopies:

CPT® 29822 is not separately payable when another shoulder arthroscopy procedure is billed and paid on the same shoulder at the same encounter. CPT® 29823 is bundled with CPT® 29806 and 29807.

(6) Spine and Nervous System:

- (a) Spinal manipulation is integral to spinal surgical procedures and is not separately payable.
- (b) Surgeon performing a spinal procedure shall not report intra-operative neurophysiology monitoring/testing codes.
- (c) If multiple procedures from the same CPT® code family are performed at contiguous vertebral levels, provider shall append modifier 51 to all lesser-valued primary codes. See section 18-4(A)(3) for applicable payment policies.
- (d) Fluoroscopy is separately payable with spinal procedures only if indicated by a specific CPT® instruction.
- (e) Lumbar laminotomies and laminectomies performed with arthrodesis at the same interspace are separately payable if the surgeon identifies the additional work performed to decompress the thecal sac and/or spinal nerve(s). If these procedures are performed at the same level, provider shall append modifier 51 to the lesser-valued procedure(s). If procedures are performed at different interspaces, provider shall append modifier 59 to the lesser-valued procedure(s). See section 18-4(A)(3) for applicable payment policies.
- (f) Only one anterior or posterior instrumentation performed through a single skin incision is payable.
- (g) Anterior instrumentation performed to anchor an inter-body biomechanical device to the intervertebral disc space is not separately payable.
- (h) Anterior instrumentation unrelated to anchoring the device is separately payable with modifier 59 appended.

(7) Venipuncture maximum fee allowance is addressed in section 18-4(F)(2).

(8) Platelet Rich Plasma (PRP) Injections:

The maximum allowance includes and applies to all body parts, imaging guidance, harvesting, preparation, the injection itself, kits, and supplies.

CPT® 0232T                      Non-facility RVU is 11.16, facility RVU is 4.04

(9) Functional Assessments:

If all requirements of the Medical Treatment Guidelines for pre- and post- injection functional assessments have been met and documented, the billing codes and maximum allowances are as follows:

DOWC Z0811, \$64.26, per episode for the initial functional assessment of pre-injection care, billed with the appropriate code, related to spinal or SI joint injections.

DOWC Z0812, \$35.29, for a subsequent visit of therapeutic post-injection care (preferably done by a non-injectionist and at least seven days after the injection), billed along with the appropriate E&M code, related to follow-up care of spinal or SI joint injections. The injured worker should provide post injection data.

DOWC Z0814, \$35.29, for post-diagnostic injection care (repeat functional assessment within the time period for the effective agent given).

(E) RADIOLOGY

(1) Payments:

- (a) The Division recognizes the value of accreditation for quality and safe radiological imaging. Only offices/facilities that have attained accreditation from American College of Radiology (ACR), Intersocietal Accreditation Commission (IAC), RadSite, or The Joint Commission (TJC) may bill the technical component for Advanced Diagnostic Imaging (ADI) procedures (magnetic resonance imaging (MRI), computed tomography (CT), and nuclear medicine scan). Providers reporting technical or total component of these services certify accreditation status. The provider shall supply proof of accreditation upon Payer request.
- (b) The cost of dye and contrast materials shall be reimbursed in accordance with section 18-6(A).
- (c) Copying charges for X-rays and MRIs shall be \$15.00/film regardless of the size of the film.
- (d) Providers using film instead of digital X-rays shall append the FX modifier. The allowance is 80% of the Maximum Fee Schedule.

If a physician interprets the same radiological image more than once, or if multiple physicians interpret the same radiological image, only one interpretation shall be reimbursed.

If an X-ray consultation is requested, the consultant's report shall include the name of the requesting provider, the reason for the request, and documentation that the report was sent to the requesting provider.

The maximum allowance for an X-ray consultation shall be no greater than the maximum allowance for the professional component of the original X-ray.

The time a physician spends reviewing and/or interpreting an existing radiological image is considered a part of the physician's E&M service code.

(2) Thermography:

- (a) The provider supervising and interpreting the thermographic evaluation shall be certified by the examining board of one of the following national organizations and follow their recognized protocols, or have equivalent documented training:
  - (i) American Academy of Thermology;
  - (ii) American Chiropractic College of Infrared Imaging; or
  - (iii) American Academy of Infrared Imaging.
- (b) Thermography Billing Codes:

DoWC Z0200 Upper Body w/ Autonomic Stress Testing	\$980.00
DoWC Z0201 Lower Body w/Autonomic Stress Testing	\$980.00
- (c) Documentation must include:
  - (i) Method of stress thermography supporting it was accomplished in a guideline-consistent fashion (cold water stress test, warm water stress test, or whole body thermal stress);

- (ii) Temperature readings via infrared thermography and their locations on the affected and contralateral extremity and/or copies of any pictures or graphics obtained; and
- (iii) Interpretation of the results.

(F) PATHOLOGY

(1) Clinical Laboratory Improvement Amendments (CLIA):

Only laboratories with a CLIA certificate of waiver may perform tests cleared by the Food and Drug Administration (FDA) as waived tests. Laboratories with a CLIA certificate of waiver, or other providers billing for services performed by these laboratories, shall bill using the QW modifier.

Laboratories with a CLIA certificate of compliance or accreditation may perform non-waived tests. Laboratories with a CLIA certificate of compliance or accreditation, or other providers billing for services performed by these laboratories, do not append the QW modifier.

(2) Payments:

All clinical pathology laboratory tests, except as allowed by this Rule, are reimbursed at 170% of the rate listed in the CMS Clinical Diagnostic Laboratory Fee Schedule, as incorporated by 18-2.

Technical or professional component maximum split is not separately payable, and therefore should be negotiated between billing parties when applicable.

When a physician clinical pathologist is required for consultation and interpretation, and a separate written report is created, the maximum allowance is determined by using RBRVS values and the Pathology CF. The Pathology CF also determines the maximum allowance when the Pathology CPT® code description includes "interpretation" and "report" or when billing CPT® codes for the following services:

- (a) physician blood bank services;
- (b) cytopathology and cell marker study interpretations;
- (c) cytogenetics or molecular cytogenetics interpretation and report;
- (d) surgical pathology gross and microscopic and special stain groups 1 and 2 and histochemical stain, blood or bone marrow interpretations; and
- (e) skin tests for unlisted antigen each, coccidioidomycosis, histoplasmosis, TB intradermal.

When ordering automated laboratory tests, the ordering physician may seek verbal consultation with the pathologist in charge of the laboratory's policy, procedures and staff qualifications. The consultation with the ordering physician is not payable unless the physician requested additional medical interpretation, judgment, and a separate written report. Upon such a request, the pathologist may bill using the appropriate CPT® code, not DoWC Z0755.

The maximum allowance for CPT® 80050 is \$39.95 (equal to the total allowance for CPT® 80053, 85004, and 85027).

(3) Clinical Drug Screening and Testing:

Clinical drug screening and testing may be appropriate for therapeutic drug monitoring, to assess compliance, or to identify illicit or non-prescribed drug use.

(a) Billing requirements for clinical drug testing:

- (i) documentation of medical necessity by the ordering Physician.

- (ii) the ordering Physician shall specify which drugs require definitive testing to meet the injured worker's medical needs.
- (iii) a Physician order for quantification of illicit or non-prescribed drugs or drug classes.

(b) Presumptive Tests:

All drug class immunoassays or enzymatic methods are considered presumptive. Payers shall only pay for one presumptive test per date of service, regardless of the number of drug classes tested.

(c) Definitive qualitative or quantitative tests identify specific drug(s) and any associated metabolites, providing sensitive and specific results expressed as a concentration in ng/mL or as the identity of a specific drug.

- These tests may be billed using G0480-G0483.
- Providers may only bill one definitive HCPCS Level II code per day.

A Physician must order definitive quantitative tests. The reasons for ordering a definitive quantification drug test may include:

- Unexpected positive presumptive or qualitative test results inadequately explained by the injured worker.
- Unexpected negative presumptive or qualitative test results and suspected medication diversion.
- Differentiate drug compliance:
  - Buprenorphine vs. norbuprenorphine
  - Oxycodone vs. oxymorphone and noroxycodone
- Need for quantitative levels to compare with established benchmarks for clinical decision-making, such as tetrahydrocannabinol quantitation to document discontinuation of a drug.
- Chronic opioid management:
  - Drug testing shall be done prior to the implementation of the initial long-term drug prescription and randomly repeated at least annually.
  - While the injured worker receives chronic opioid management, additional drug screens with documented justification may be conducted (see section 18-9(A) for examples).

CPT® lists definitive drug classes and examples of individual drugs within each class. Each class of drug can only be billed once per day.

(G) MEDICINE

(1) Biofeedback:

Licensed medical and mental health professionals who provide biofeedback must practice within the scope of their training. Non-licensed biofeedback providers must hold Clinical Certification from the Biofeedback Certification International Alliance (BCIA), practice within the scope of their training, and receive prior approval of their biofeedback treatment plan from the injured worker's authorized treating Physician, or Psychologist. Professionals integrating biofeedback with any form of psychotherapy must be a Psychologist, a Clinical Social Worker, a Marriage and Family Therapist, or a Professional Counselor.

All biofeedback providers shall document biofeedback instruments used during each visit (including, but not limited to, surface electromyography (SEMG), heart rate variability (HRV), electroencephalogram (EEG), or temperature training), placement of instruments, and patient response if sufficient time has passed.

The modified RVUs for biofeedback are:

CPT® 90901                      Non-facility RVU is 1.78, facility RVU is 1.76

CPT® 90875                      Non-facility RVU is 2.13, facility RVU is 1.82

Psychophysiological therapy incorporating biofeedback is not subject to a reduction when performed by non-physician providers.

- (2) Appendix J of CPT® identifies mixed, motor, and sensory nerve conduction studies and applicable billing requirements. For purposes of Appendix J, each nerve branch listed in that appendix counts as a separate nerve. Electromyography (EMG) and nerve conduction velocity values generally include an E&M service. However, an E&M service may be separately payable if the requirements listed in Appendix A of CPT® for billing modifier 25 have been met.

- (3) Manipulation -- Chiropractic (DC), Medical (MD) and Osteopathic (DO):

- (a) Prior authorization shall be obtained before billing for more than four body regions in one visit.

- (b) Osteopathic Manipulative Treatment and Chiropractic Manipulative Treatment codes include manual therapy techniques, unless the Physician performs manual therapy in a separate region and meets modifier 59 requirements.

- (c) The modified RVUs for chiropractic spinal manipulative treatment are:

CPT® 98940                      Non-facility RVU is 1.03, facility RVU is 0.81

CPT® 98941                      Non-facility RVU is 1.48, facility RVU is 1.26

- (4) Psychiatric/Psychological Services:

- (a) The maximum allowance for services performed by a Psychologist is 100% of the Medical Fee Schedule. The maximum allowance for psychological/psychiatric services performed by other non-physician providers is 85% of the Medical Fee Schedule.

- (b) Psychological diagnostic evaluation code(s) are limited to one per provider, per admitted claim, unless it is authorized by the Payer or is necessary to complete an impairment rating recommendation as determined by the ATP.

- (c) Central Nervous System (CNS) Assessments/Tests:

When testing, evaluation, administration, and scoring services are provided across multiple dates of service, all codes should be billed on the last date of service when the evaluation process is completed. A base code shall be billed only for the first unit of service of the evaluation process, and add-on codes shall be used to capture services provided during subsequent dates of service. The limit for these services is 16 hours unless the provider obtains prior authorization.

Documentation shall include the total time and the approximate time spent on each of the following activities, when performed:

- face-to-face time with the patient;
- reviewing and interpreting standardized test results and clinical data;

- integrating patient data;
- clinical decision-making and treatment planning;
- report preparation.

If there is a delay in scheduling the feedback session, the provider may incorporate feedback into the first psychotherapy session.

The modified RVUs for psychological and neuropsychological services are:

CPT® 96116	Non-facility RVU is 3.50, facility RVU is 3.07
CPT® 96127	Non-facility and facility RVUs are 0.19
CPT® 96130	Non-facility RVU is 3.74, facility RVU is 3.50
CPT® 96131	Non-facility RVU is 3.00, facility RVU is 2.81
CPT® 96132	Non-facility RVU is 4.23, facility RVU is 3.29
CPT® 96133	Non-facility RVU is 3.20, facility RVU is 2.51
CPT® 96146	Non-facility and facility RVUs are 0.10
CPT® 90791	Non-facility RVU is 10.2, facility RVU is 9.88
CPT® 90792	Non-facility RVU is 11.45, facility RVU is 11.12

- (d) The limit for psychotherapy services is 60 minutes per visit, unless provider obtains prior authorization. The time for internal record review/documentation is included in this limit.

Psychotherapy for work-related conditions continuing for more than three months after the initiation of therapy requires prior authorization unless the MTGs recommend a longer duration.

- (e) When billing an E&M code in addition to psychotherapy:
- (i) both services must be separately identifiable;
  - (ii) the level of E&M is based on history, exam, and medical decision-making;
  - (iii) time may not be used as the basis for the E&M code selection; and
  - (iv) add-on psychotherapy codes are to be used by psychiatrists to indicate both services were provided.

Non-medical disciplines cannot bill most E&M codes.

- (f) A provider billing for any stored clinical or physiological data analysis must obtain prior authorization.
- (g) Upon request of a party to a workers' compensation claim and pursuant to HIPAA regulations, a psychiatrist, psychologist or other qualified healthcare professional may generate a separate report and bill for that service as a special report.

(5) Telephone or On-Line Services:

Reimbursement for coordination of care between medical professionals is limited to professionals outside of the provider's practice and shall be based upon the telephone and on-line services codes found in the CPT® E&M and Medicine sections.

For reimbursement of face-to-face or telephonic meetings by a treating Physician or Psychologist with employer, claim representative, or attorney, see section 18-

7(A)(1).

(6) Quantitative Autonomic Testing Battery (ATB) and Autonomic Nervous System Testing:

- (a) Quantitative Sudomotor Axon Reflex Test (QSART) is a diagnostic test used to diagnose Complex Regional Pain Syndrome. This test is performed on a minimum of two extremities and encompasses the following components:
- (i) Resting Sweat Test;
  - (ii) Stimulated Sweat Test;
  - (iii) Resting Skin Temperature Test; and
  - (iv) Interpretation of clinical laboratory scores. Physician must evaluate the patient specific clinical information generated from the test and quantify it into a numerical scale. The data from the test and a separate report interpreting the results of the test must be documented.
- (b) DoWC Z0401 QSART, \$1,066.00, is billed when all of the services outlined above are completed and documented. This code may only be billed once per workers' compensation claim, regardless of the number of limbs tested.

(7) Intra-Operative Monitoring (IOM):

IOM identifies compromise to the nervous system during certain surgical procedures. Evoked responses are constantly monitored for changes that could imply damage to the nervous system.

(a) Clinical Services:

- (i) Technical staff: A qualified technician shall set up the monitoring equipment in the operating room. The technician shall be in constant attendance in the operating room with the physical or electronic capacity for real-time communication with the supervising neurologist or other physician trained in neurophysiology. The technician shall be specifically trained in/registered with:

- the American Society of Neurophysiologic Monitoring; or
- the American Society of Electrodiagnostic Technologists

- (ii) Professional/Supervisory/Interpretive:

A Colorado-licensed Physician trained in neurophysiology shall monitor the patient's nervous system throughout the surgical procedure. The monitoring Physician's time is billed based upon the actual time the Physician devotes to the individual patient, even if the Physician is monitoring more than one patient. The monitoring Physician's time does not have to be continuous for each patient and may be cumulative. The Physician shall not monitor more than three surgical patients at one time. The Physician shall provide constant neuromonitoring at critical points during the surgical procedure as indicated by the surgeon or any unanticipated testing responses. There must be a neurophysiology-trained Colorado licensed Physician backup available to continue monitoring the other two patients if one of the patients being monitored has complications and/or requires the monitoring

Physician's undivided attention. There is no additional payment for the back-up neuro-monitoring Physician, unless utilized.

(b) Procedures and Time Reporting:

Physicians shall include an interpretive written report for all primary billed procedures.

(c) Billing Restrictions:

Intra-operative neurophysiology codes do not have separate professional and technical components. However, certain tests performed in conjunction with these services have separate professional and technical components, which may be separately payable if documented and otherwise allowed in this Rule.

The neuromonitoring Physician is the only party allowed to report these codes.

The maximum allowance for CPT® 95941 is equal to the maximum allowance for CPT® 95940.

- (8) Speech-language therapy/pathology or any care rendered under a speech-language therapy/pathology plan of care shall be billed with a GN modifier.

- (9) Hearing and vision services are separately payable with a code from the Medicine Section of CPT®, in addition to the supplies payable per section 18-6(A)(1)(f). The maximum allowances for the following codes are as follows:

CPT® 92590 Non-facility value is \$165.90, facility value is \$93.80

CPT® 92591 Non-facility value is \$248.78, facility value is \$140.56

CPT® 92592 Non-facility value is \$60.31, facility value is \$34.07

CPT® 92593 Non-facility value is \$90.46, facility value is \$51.11

CPT® 92594 Non-facility value is \$60.31, facility value is \$34.07

CPT® 92595 Non-facility value is \$90.46, facility value is \$51.11

- (10) Vaccines, toxoids, immune globulins (including those with status "I"), serums, or recombinant products shall be billed using the appropriate J code or CPT® code listed in the Medicare Part B Drug Average Sale Price (ASP), as incorporated by Rule 18-2, unless the ASP value does not exist for the drug or the provider's actual cost exceeds the ASP. In these circumstances, the provider may request reimbursement based on the actual cost, after taking into account any discounts/rebates the provider may have received.

The maximum allowance for CPT® 90371 is \$800.

- (11) IV infusion therapy performed in a Physician's office or sent home with the injured worker shall be billed under the "Therapeutic, Prophylactic, and Diagnostic Injections and Infusions" and the "Chemotherapy and Other Highly Complex Drug or Highly Complex Biologic Agent Administration" in the Medicine Section of CPT®. The maximum allowance for infused therapeutic drugs shall be at cost to the billing provider.

Maximum allowance for supplies and medications provided by a Physician's office for self-administered home care infusion therapy are covered in section 18-6(B).

- (12) Moderate (Conscious) Sedation:

Providers billing for moderate sedation services shall comply with all applicable CPT® billing instructions. The maximum allowance is determined using the

Medicine CF.

(H) PHYSICAL MEDICINE AND REHABILITATION (PM&R)

(1) General Policies:

(a) Modifiers:

- (i) Physical therapy or any care provided under a Physical Therapist's plan of care shall be billed with a GP modifier. Occupational therapy or any care provided under an Occupational Therapist's plan of care shall be billed with a GO modifier.
- (ii) Services provided in whole or in part by a Physical Therapist Assistant shall be billed with a CQ modifier. Services provided in whole or in part by an Occupational Therapist Assistant shall be billed with a CO modifier. "In part" is defined as exceeding the CPT® mid-point. The CQ and CO modifiers shall be billed in addition to the GP or GO modifiers.

(b) Each PM&R billed service must be clearly identifiable. The provider must clearly document the time spent performing each service and the beginning and end time for each session.

(c) Functional objectives shall be included in the PM&R plan of care for all injured workers. Any request for additional treatment must be supported by evidence of positive objective functional gains or PM&R treatment plan changes. The ordering ATP must also agree with the PM&R continuation or changes to the treatment plan.

(d) The injured worker shall be re-evaluated by the prescribing provider within 30 calendar days from the initiation of the prescribed treatment and at least once every month thereafter.

(2) Medical nutrition therapy requires prior authorization.

(3) Interdisciplinary Rehabilitation Programs:

As defined in the MTGs, interdisciplinary rehabilitation programs may include, but are not limited to: chronic pain, spinal cord, or brain injury programs.

All billing providers shall detail the services, frequency of services, duration of the program, and proposed fees for the entire program. The billing Provider and Payer shall attempt to agree upon billing code(s) and fee(s) for each interdisciplinary rehabilitation program.

If there is a single billing provider for the entire interdisciplinary rehabilitation program and a daily per diem rate is mutually agreed upon, use code Z0500.

Individual professionals billing separately for their participation in an interdisciplinary rehabilitation program shall use the applicable CPT® codes.

(4) Procedures and Modalities:

(a) Definitions:

- (i) Procedure is any treatment listed in the Medicine/Physical Medicine and Rehabilitation section of CPT® under the sub-heading "Therapeutic Procedures." For purposes of this rule, the term "procedure" includes acupuncture.

The billing maximums listed below are per discipline per day, unless medical necessity is documented and prior authorization is obtained. The total amount of time spent performing the

procedures shall determine the appropriate number of time based units for a particular visit.

- (ii) Modality is any treatment listed in the Medicine/Physical Medicine and Rehabilitation section of CPT® under the sub-heading “Modalities.”

(b) Billing Restrictions:

- (i) Provider may bill no more than two separate modality codes and no more than 60 minutes or four units of procedure codes on the same visit. This restriction does not apply to Special Tests referenced in subsection (6) below.
- (ii) The maximum allowance for services billed by a Massage Therapist shall be 72% of the fee schedule.
- (iii) The maximum allowance for services billed with a CQ or CO modifier shall be 85% of the fee schedule.
- (iv) If provider performs another service concurrently with a time-based service, the time associated with the concurrent service shall not be included in the time used for reporting the time-based service.
- (v) Electrical stimulation is not payable when billed with dry needling and performed on the same body part.
- (vi) Providers shall specify all unlisted treatment in the medical record.  
CPT® 97139                      Non-facility and facility RVUs are 0.87  
CPT® 97039                      Non-facility and facility RVUs are 0.42

(c) Acupuncture:

- (i) All non-physician acupuncture providers must be Licensed Acupuncturists (L.Ac). Both Physician and L.Acs must provide evidence of training, and licensure upon request of the Payer.
- (ii) New or established patient evaluation services are payable if the medical record specifies the appropriate history, physical examination, treatment plan, or evaluation of the treatment plan. Only evaluation services directly performed by a Physician or a L.Ac are payable. All evaluation notes or reports must be written and signed by the Physician or the L.Ac.  
L.Ac new patient visit:                      DOWC Z0800, \$103.84  
L.Ac established patient visit: DOWC Z0801, \$70.33

(5) Evaluation Services for Physical Therapists (PTs), Occupational Therapists (OTs) and Athletic Trainers (ATs):

- (a) All evaluation services must be supported by the appropriate history, physical examination documentation, treatment goals, and treatment plan or re-evaluation of the treatment plan, as outlined in CPT®. The provider shall clearly state the reason for the evaluation, the nature and results of the physical examination, and the reason for recommending the continuation or adjustment of the treatment protocol. The re-evaluation codes shall not be billed for routine pre-treatment patient assessment.

If a new problem or abnormality is encountered that requires a new evaluation and treatment plan, the provider may perform and bill for another initial evaluation. A new problem or abnormality may be caused by

a surgical procedure being performed after the initial evaluation has been completed.

A re-examination, re-evaluation, or re-assessment is different from a progress note. Providers shall not bill these codes for a progress note. Providers may bill a re-evaluation code only if:

- (i) professional assessment indicates a significant improvement or decline or change in the injured worker's condition or a functional status that was not anticipated in the plan of care for that time interval;
- (ii) new clinical findings become known; or
- (iii) the injured worker fails to respond to the treatment outlined in the current plan of care.

- (b) A PT or OT may utilize a Rehabilitation Communication Form (WC 196) in addition to a progress note no more than every two weeks for the first six weeks, and once every four weeks thereafter.

The WC 196 form shall not be used for an evaluation, re-evaluation, or re-assessment. The form must be completed and specify which validated functional tool was used for assessing the injured worker. The form shall be sent to the referring physician before or at the injured worker's follow-up appointment with the physician.

DoWC Z0817 \$15.61.

- (c) Only evaluation services directly performed by a PT, OT, or AT are payable. All evaluation notes or reports must be written and signed by the PT, OT, or AT.
- (d) An injured worker may be seen by more than one healthcare professional on the same day. Each professional may charge an evaluation service with appropriate documentation per patient, per day.
- (e) The RVU for evaluation services performed by ATs shall be equal to the RVU for evaluation services performed by PTs.

(6) Special Tests:

- (a) The following are considered special tests:

- (i) Job Site Evaluation
- (ii) Functional Capacity Evaluation
- (iii) Assistive Technology Assessment
- (iv) Speech
- (v) Physical performance test or measurement

- (b) Billing Restrictions:

- (i) The following services require prior authorization: Job site evaluations exceeding two hours; Assistive Technology Assessments and Work Tolerance Screenings for more than four hours per test or more than three tests per claim; and Functional Capacity Evaluations for more than four hours per test or two tests per claim.
- (ii) The provider shall specify the time required to perform the test in 15-minute increments.

- (iii) The analysis and the written report is included in the code's value.
    - (iv) No E&M services or PT, OT, or acupuncture evaluations shall be charged separately for these tests.
    - (v) Data from computerized equipment shall always include the supporting analysis developed by the PM&R professional before it is payable as a special test.
  - (c) All special tests must be fully supervised by a Physician, PT, OT, CCC-SLP, or Audiologist. Final reports must be written and signed by the Physician, PT, OT, CCC-SLP, or Audiologist.
- (7) Non-Medical Facility Fees:  
Gyms, pools, etc., and training or supervision by non-medical providers require prior authorization and a written negotiated fee for every three month period.
- (8) Work Hardening, Conditioning and Simulation:  
These programs and recommendations for coverage are defined in the MTGs. All procedures must be performed by or under the onsite supervision of a Physician, Psychologist, PT, OT, CCC-SLP, or Audiologist.  

CPT® 97545	Non-facility and facility RVUs are 3.39
CPT® 97546	Non-facility and facility RVUs are 1.7
- (9) Wound Care:  
Wound care is separately payable only when devitalized tissue is debrided using a recognized method (chemical, water, vacuums).
- (I) TELEMEDICINE
  - (1) In addition to the healthcare services listed in Appendix P of CPT®, and Division Z-codes (when appropriate), the following CPT® codes may be provided via telemedicine: G0396, G0397, G0406-G0408, G0425-G0427, G0447, G0459, G0508, G0509, 97129, 97130, 97150, 97542, and 97763. Additional services may be provided via telemedicine with prior authorization. The provider shall append modifier 95 to the appropriate CPT® code(s) to indicate synchronous telemedicine service rendered via a real-time interactive audio and video telecommunications system.  
  
All treatment provided through telemedicine shall comply with the applicable requirements found in the Colorado Medical Practice Act and Colorado Mental Health Practice Act, as well as the rules and policies adopted by the Colorado Medical Board and the Colorado Board of Psychologist Examiners and shall follow applicable laws, rules and regulations for informed consent.
  - (2) HIPAA privacy and electronic security standards are required for the originating site and the rendering provider.
  - (3) The physician-patient/psychologist-patient relationship needs to be established.  
  
This relationship is established through assessment, diagnosis, and treatment of the injured worker. Both in-person evaluation and, two-way live audio/video services are among acceptable methods to 'establish' a patient relationship.
  - (4) Reimbursement:
    - (a) The rendering provider may be the only provider involved in the provision of telemedicine services. The rendering provider shall bill place of service (POS) code 02. Maximum allowance is the appropriate CPT® code's non-

facility relative weight from RBRVS multiplied by the appropriate CF, unless only a facility weight is established.

- (b) An originating site fee may only be billed when the injured worker is receiving services at an authorized originating site. The originating site is responsible for verifying the injured worker and rendering provider's identities. Originating site must bill with the appropriate facility POS code. Authorized originating sites include:

- A Hospital (inpatient or outpatient)
- A Critical Access Hospital (CAH)
- A Rural Health Clinic (RHC)
- A federally qualified health center (FQHC)
- A hospital based renal dialysis center (including satellites)
- A Skilled Nursing Facility (SNF)
- A community mental health center (CMHC)

Maximum allowance for Q3014 is \$35.00 per 15 minutes. (Equipment, supplies, and professional fees of supporting providers at the originating site are not separately payable.)

- (5) Documentation:

Documentation requirements are the same as for a face-to-face encounter and shall also include the location of both the rendering provider and the injured worker at the time of service, and a statement on how the treatment was rendered through telemedicine (such as secured video).

## **18.5 FACILITY FEES**

### **(A) INPATIENT FACILITY FEES**

#### **(1) Billing:**

- (a) Inpatient facility fees shall be billed on a UB-04 and require summary level billing by revenue code. The provider must submit itemized bills along with the UB-04.
- (b) Hospitals reimbursed based on MS-DRGs shall indicate the MS-DRG code FL 71 of the UB-04 billing form and maintain documentation on file showing how the MS-DRG was determined. The hospital shall determine the MS-DRG using the MS-DRGs Definitions Manual in effect per section 18-2 at the time of discharge. The attending Physician shall not be required to certify this documentation unless a dispute arises between the hospital and the Payer regarding MS-DRG assignment. The Payer may deny payment for services until the appropriate MS-DRG code is supplied.

#### **(2) Reimbursement:**

- (a) The following types of inpatient facilities, as defined in Rule 16, are allowed a reasonable charge as negotiated by the Provider and Payer:
- (i) Children's Hospitals
  - (ii) Veterans Administration Hospitals
  - (iii) State-run Psychiatric Hospitals
  - (iv) Psychiatric Hospitals

The provider has the burden of proving reasonableness of reimbursement sought. Veterans Administration Hospital payments must comply with applicable rules promulgated by the United States Department of Veterans Affairs.

- (b) The following inpatient facilities, as defined in Rule 16, are allowed a daily rate:

- (i) Skilled Nursing Facilities (SNFs) are allowed \$650 per day.
- (ii) Rehabilitation Hospitals are allowed \$1,450 per day.
- (iii) Long Term Acute Care Hospitals (LTACHs) are allowed \$3,350 per day.

Each of the daily rates listed above is all-inclusive for services related to the injured worker's compensable conditions. Physician's professional services, ambulance services, and chemotherapy drugs or radioisotopes may be billed separately. In the rare case extraordinary medical care is required, or for treatment of traumatic brain injuries or spinal cord injuries, there shall be an additional payment of \$300 on a per day basis.

All charges shall be submitted on a final bill, unless the parties agree on interim billing. The rate in effect on the last date of service covered by an interim or final bill shall determine payment.

The total length of stay includes the date of admission but not the date of discharge. Typically, bed hold days or temporary leaves are not subtracted from the total length of stay.

- (c) All other inpatient facilities:

The maximum allowance is determined by the relative weights for the assigned MS-DRG from Table 5 in effect per section 18-2 at the time of discharge and the hospital's base rate in Exhibit #2, calculated as follows:

$(\text{MS-DRG Relative Wt} \times \text{Specific hospital base rate} \times 170\%) + (\text{trauma center activation allowance}) + (\text{organ acquisition, when appropriate})$

- (i) For trauma center activation allowance, (revenue codes 680-684) see subsection (B)(7)(c);
- (ii) For organ acquisition allowance, (revenue codes 810-819) see subsection (A)(2)(g).

Table 5 establishes the maximum length of stay (LOS) using the "arithmetic mean LOS." However, there is no additional allowance for exceeding this LOS, other than through the cost outlier criteria.

An admission requiring the use of both an acute care hospital (admission/discharge) and its Rehabilitation Hospital (admission/discharge) is considered as one admission and MS-DRG.

- (d) Outliers for inpatient hospitals identified in Exhibit #2:

Outliers are admissions with extraordinary cost warranting additional reimbursement beyond the maximum allowance. To calculate the additional reimbursement, if any:

- (i) Determine the hospital's cost by multiplying total billed charges (excluding any trauma center activation or organ acquisition billed charges) by the hospital's cost-to-charge ratio located in Exhibit #2;
- (ii) The difference = hospital's cost – maximum allowance excluding

any trauma center activation or organ acquisition allowance;

- (iii) If the difference is greater than \$30,988.00, additional reimbursement is warranted. The additional allowance is determined by multiplying the difference by .80.
- (e) If an injured worker is admitted to a hospital through the emergency department (ED), the ED fee is included in the inpatient allowance.
- (f) If an injured worker is admitted to one hospital and is subsequently transferred to another hospital, the payment to the transferring hospital will be based upon a per diem value of the MS-DRG maximum allowance. The per diem value is calculated based upon the transferring hospital's MS-DRG relative weight multiplied by the hospital's specific base rate divided by the MS-DRG geometric mean LOS established in Table 5. This per diem amount is multiplied by the actual LOS. If the patient is admitted and transferred on the same day, the actual LOS equals one. The receiving hospital shall receive the appropriate MS-DRG maximum allowance.
- (g) The Payer shall compare each billed charge type:
  - (i) The MS-DRG adjusted billed charges to the MS-DRG allowance (including any outlier allowance);
  - (ii) The trauma center activation billed charge to the trauma center activation allowance; and
  - (iii) The organ acquisition billed charges to the organ acquisition allowance.

The MS-DRG adjusted billed charges are determined by subtracting the trauma center activation billed charge and the organ acquisition billed charges from the total billed charges. The final payment is the sum of the lesser of each of these comparisons.

The organ acquisition allowance is calculated using the most recent filed computation of organ acquisition costs and charges for hospitals that are certified transplant centers (CMS Worksheet D-4 or subsequent form) plus 20%.

(B) OUTPATIENT FACILITY FEES

- (1) Provider Restrictions:
  - (a) All non-emergency outpatient surgeries require prior authorization unless the MTGs recommend a surgery for the particular condition. All outpatient surgical procedures performed in an ASC shall warrant performance at an ASC level.
  - (b) A facility fee is payable only if the facility is licensed as a hospital or an ASC by the Colorado Department of Public Health and Environment (CDPHE) or applicable out of state governing agency or statute.
- (2) Types of Bills for Service:
  - (a) Outpatient facility fees shall be billed on a UB-04 and require summary level billing by revenue code. The provider must submit itemized bills along with the UB-04.
  - (b) All professional charges (professional services including, but not limited to, PT, OT, CCC-SLP, anesthesia, etc.) are subject to the RBRVS and Dental Fee Schedules as incorporated by this Rule. These fee schedules apply to professional services performed in all facilities.

- (c) Outpatient hospital facility bills include all outpatient surgery, ED, clinics, Urgent Care, and diagnostic testing in the Radiology, Pathology or Medicine Section of CPT®/RBRVS.
- (3) General Reimbursement Instructions:
- (a) The following outpatient facilities, as defined in Rule 16, are allowed a reasonable charge, as negotiated by the Provider and Payer, except for any associated professional fees that are reimbursed per section 18-4:
    - (i) Children's Hospitals
    - (ii) Veterans Administration Hospitals
    - (iii) State-run Psychiatric Hospitals

The Provider has the burden of proving reasonableness of reimbursement sought. Veterans Administration Hospital payments must comply with applicable rules promulgated by the United States Department of Veterans Affairs.
  - (b) The maximum allowance for Ambulatory Payment Classifications (APC) is calculated at the following percentages of the payment rates listed in Medicare's OPPS Addendum A, as incorporated by 18-2:
    - (i) Outpatient hospital is 170%
    - (ii) CAH is 200%
    - (iii) ASC is 153%

To identify which APC grouper is aligned with a CPT® code and dollar value, use Medicare's Addendum B, as incorporated by 18-2. For comprehensive APCs (C-APCs), see 18-5(B)(6).
  - (c) CPT® codes listed with a "C" status indicator in Medicare's Addendum B shall align to the APC codes as listed in Exhibit #4. The status indicator assigned to the Exhibit #4 APC code, as identified in Medicare's Addendum A, shall apply. These codes are not eligible for complexity-adjusted APC payments.
  - (d) Facilities receive the lesser of the actual charge or the fee schedule allowance. A line-by-line comparison of charges is not appropriate.
- (4) APC values include the services and revenue codes listed in Table 2 of the 2022 NFRM OPPS Claims Accounting, as incorporated by Rule 18-2; therefore, these are generally not separately payable. Drugs and devices having a status indicator of G and H receive a pass-through payment. In some instances, the procedure code may have an APC code assigned. These are separately payable based on APC values, if given, or at cost to the facility.

Services and items included in the APC value:

- (a) nursing, technician, and related services;
- (b) use of the facility where the surgical procedure(s) was performed;
- (c) drugs and biologicals for which separate payment is not allowed;
- (d) medical and surgical supplies, durable medical equipment and orthotics not listed as a "pass through";
- (e) surgical dressings;

- (f) equipment;
- (g) splints, casts and related devices;
- (h) radiology services for which separate payment is not allowed;
- (i) administrative, record keeping, and housekeeping items and services;
- (j) materials, including supplies and equipment for the administration and monitoring of anesthesia;
- (k) supervision of the services of an anesthetist by the operating surgeon;
- (l) post-operative pain blocks; and
- (m) implanted items.

(5) Status Indicators from Medicare's Addendum B apply as follows:

Indicator	Meaning
A	Use another fee schedule instead of Addendum B, such as conversion factors listed in section 18-4, RBRVS RVUs, Ambulance Fee Schedule, or section 18-4(F)(2).
B	Is not recognized for Outpatient Hospital Services bill type (12x and 13x) and therefore is not separately payable unless separate fees are applicable under another section of this Rule.
C	The Division recognizes these procedures on an outpatient basis with prior authorization.
E	Not generally reimbursable when submitted on any outpatient bill type. However, services could still be reasonable and necessary, thus requiring hospital or ASC level of care. The billing party shall submit documentation to substantiate the billed service codes and any similar established codes with fees in Addendum A, as incorporated by 18-2.
F	Corneal tissue acquisition, certain CRNA services, and Hepatitis B vaccines are allowed at a reasonable cost to the facility. The facility must provide a separate invoice identifying its cost.
G	"Pass-Through Drugs and Biologicals"; separate APC payment.
H	"Pass-Through Device"; separate APC payment based on cost to the facility.
J1 or J2	The services are paid through a comprehensive APC.
K	"Nonpass-Through Drug or Biological or Device" for therapeutic radiopharmaceuticals, brachytherapy sources, blood and blood products; separate APC payment.
L	Influenza Vaccine/Pneumococcal Pneumonia Vaccine and therefore is generally considered to be unrelated to work injuries.

M	Not separately payable.
N	Items and services packaged into APC rates; not separately payable.
P	Partial hospitalization paid based on observation fees outlined in this section.
Q1-Q4	Packaged services subject to separate payment criteria.
R	Blood and blood products; separate APC payment.
S	Significant procedure, not discounted when multiple.
T	Significant procedure, multiple procedure reduction applies.
U	Brachytherapy source; separate APC payment.
V	Clinic or an ED visit; separate APC payment.
Y	Non-implantable Durable Medical Equipment paid pursuant to Medicare's Durable Medical Equipment Regional Carrier fee schedule for Colorado.

(6) Multiple Procedures

- (a) A comprehensive APC treats all individually reported codes as representing components of the comprehensive service, resulting in a single prospective payment.

As defined by status indicator J1, all covered outpatient services on the claim are packaged with the primary J1 service for payment, except services with a status indicator of F, G, H, L, or U; ambulance services; diagnostic and screening mammography; rehabilitation therapy services reported on a separate claim; new technology services; and self-administered drugs.

When multiple codes with J1 status indicators are included on the claim, services are packaged with the primary (highest APC value) J1 code. Certain J1 codes, when billed together, may be eligible for a complexity adjusted APC payment listed on Medicare's Addendum J, as incorporated by 18-2.

Services with a status indicator J2 are assigned to a comprehensive APC (8011) when specific combinations of services are reported on the claim. All levels of emergency department (ED) and clinic visits, if billed in combination with observation time, can trigger this comprehensive composite rate. Payment of APC 8011 requires a minimum of eight units of G0378 *hospital observation service, per hour*; no status T procedure on the claim; and either an E&M visit on the same day or day before the G0378 date of service; or G0379 *direct admit to observation*.

All covered services on the claim shall be considered adjunct to APC 8011 and packaged into a single payment, except those items excluded by rule. Other excluded services include covered screening procedures, preventative services, pass-through drugs and devices (status indicator G

or H), PT, OT, and SLP services reported on a separate claim, certain vaccines (status indicator L or F), cornea tissue acquisition, and new technology APCs with status indicator S. If the claim contains a J1 primary service, the J1 C-APC will be the composite under which the services will be paid. There is no complexity adjustment for J2 occurring on the same claim as J1.

If services with a J2 status indicator are provided during an extended assessment and management encounter, including observation care, and do not meet all the requirements for APC 8011 listed above, the usual APC logic will apply.

- (b) Codes with a status Q1 indicator are packaged with the APC payment if billed on the same claim as a HCPCS code assigned status indicator S, T, or V. Otherwise, payment is made through a separate APC.

Codes with a Q2 indicator are packaged with the APC payment if billed on the same claim as a HCPCS code assigned status indicator T. Otherwise, payment is made through a separate APC. When multiple codes with status Q1 or Q2 are billed together, only one unit of the highest-valued Q1 or Q2 code is payable.

Codes with a status Q3 indicator may be paid through a composite APC if billed with another code in the same family listed in Table 4 of the OPPS Imaging Families and Multiple Procedure Composite APCs, of the 2022 OPPS Final Rule. The five multiple imaging composite APCs are:

- APC 8004 (Ultrasound Composite);
- APC 8005 (CT and CTA without Contrast Composite);
- APC 8006 (CT and CTA with Contrast Composite);
- APC 8007 (MRI and MRA without Contrast Composite); and
- APC 8008 (MRI and MRA with Contrast Composite).

Each imaging composite APC is defined as having two or more imaging procedures from the same family performed on the same date of service. If a “without contrast” procedure is performed during the same session as a “with contrast” procedure from the same family, payment would be based on the “with contrast” composite APC. Standard APC assignments apply for single imaging procedures and multiple imaging procedures performed across families.

Codes with a status Q4 indicator are packaged with the APC payment if billed on the same claim as a HCPCS code assigned status indicator S, T, V, Q1, Q2, or Q3. Otherwise, payment is made through a separate APC.

- (c) The maximum allowance for multiple procedures with a T status indicator is limited to four procedure codes per episode. The highest valued APC code is allowed at 100% of the maximum allowance, plus 50% of the maximum allowance for the following three highest valued codes.
- (i) The use of modifier 51 is not a factor in determining which codes are subject to multiple procedure reductions.
  - (ii) Bilateral procedures require each procedure to be billed on separate lines using RT and LT modifier(s).
  - (iii) When a code is billed with multiple units, multiple procedure reductions apply to the second through fourth units as appropriate.

Units may also be subject to other maximum frequency per day policies.

- (7) Other surgical payment policies:
- (a) All surgical procedures performed in one operating room, regardless the number of surgeons, are considered one outpatient surgical episode of care for payment purposes.
  - (b) Discontinued surgeries require the use of modifier 73 (discontinued prior to the administration of anesthesia) or modifier 74 (discontinued after administration of anesthesia). Modifier 73 results in an allowance of 50% of the APC value for the primary procedure only. Modifier 74 allows 100% of the primary procedure value only. If a comprehensive APC procedure is discontinued or reduced and modifier 52, 73 or 74 is reported, complexity adjustment will not apply to the claim.
  - (c) Facilities shall report G0260 when billing for sacroiliac joint injections, not CPT® 27096.

(8) Emergency Department (ED) Visits:

- (a) Types of ED Visits:
- (i) Hospitals billing type “A” ED visits must be physically located within a hospital licensed by the CDPHE as a general hospital or meet the out-of-state facility’s state’s licensure requirements, and be open 24 hours a day, seven days a week. These EDs bill using revenue code 450 and applicable CPT® codes;
  - (ii) A freestanding type “B” ED must have operations and staffing equivalent to a licensed ED, be physically located inside a hospital, and meet Emergency Medical Treatment and Active Labor Act (EMTALA) regulations. All type “B” outpatient ED visits must be billed using revenue code 456 with level of care HCPCS codes G0380-G0384, even though the facility may not be open 24 hours a day, seven days a week.
- (b) ED level of care is identified based upon one of five levels of care for either a type “A” or type “B” ED visit. The level of care is defined by CPT® E&M code descriptions and internal level of care guidelines developed by the hospital in compliance with Medicare regulations. The hospital’s guidelines should establish an appropriate gradation of hospital resources (ED staff and other resources) as the level of service increases. Upon request, the provider shall supply a copy of its level of care guidelines to the Payer. (Only the higher one of any ED levels or critical care codes shall be paid).
- (c) Trauma activation means a trauma team has been activated, not just alerted. Trauma activation is billed with 068X revenue codes. The level of trauma activation shall be determined by CDPHE’s assigned hospital trauma level designation. Trauma activation fees are in addition to ED and inpatient fees and are not paid for alerts. APC 5045, Trauma Response with Critical Care, is not recognized for separate payment.

Trauma activation allowances are as follows:

Revenue Code 681	\$5,534.00
Revenue Code 682	\$2,298.00
Revenue Code 683	\$1,289.00

Revenue Code 684

\$954.00

(9) Ancillary Services:

- (a) Any diagnostic testing, clinical labs, or therapies with a status indicator of "A" shall be reimbursed using section 18-4(F)(2) or the appropriate CF to the unit values for the specific CPT® code as listed in the RBRVS. Hospital bill types 13x are allowed payment for any clinical laboratory services (even if the SI is "N" for the specific clinical laboratory CPT® code) when these laboratory services are unrelated to any other outpatient services performed that day. Off-campus freestanding imaging centers are reimbursed using the RBRVS TC value(s).
- (b) Professional fees are reimbursed in accordance with section 18-4 regardless of the facility type. Additional reimbursement is payable for the following services not included in the APC values, as incorporated by 18-2:
  - (i) ambulance services (revenue code 540), see section 18-6(E)
  - (ii) blood, blood plasma, platelets (revenue codes 380X)
  - (iii) physician or physician assistant services
  - (iv) nurse practitioner services
  - (v) licensed clinical psychologist
  - (vi) licensed social workers
  - (vii) rehabilitation services (PT, OT, respiratory or CCC-SLP, revenue codes 420, 430,440)
- (c) Any prescription for a drug supply to be used for longer than 24 hours, filled at any clinic, shall be reimbursed in accordance with section 18-6(C).
- (d) Clinic facility fees are not separately payable unless otherwise specified in this Rule.
- (e) IV infusion therapy performed in an outpatient hospital facility is separately payable in accordance with this section.

(10) Rural Health Clinics:

Rural Health Clinics are allowed a single separate clinic facility fee at 80% of billed charges per date of service.

Allowed revenue codes for clinic fees are 521 for physical health services and 900 for behavioral health services.

(C) URGENT CARE FACILITIES

(1) Provider Restrictions:

Facility fees are only payable if the facility qualifies as an Urgent Care facility. All Urgent Care facilities shall be accredited or certified by the Urgent Care Association (UCA) or accredited by the Joint Commission to be recognized for a separate facility payment for the initial visit.

(2) Billing and Maximum Allowances:

(a) Facility Fees:

- (i) No separate facility fees are allowed for follow-up care. To receive a separate facility fee, a subsequent diagnosis shall be based on a new acute care situation and not the initial diagnosis.

- (ii) No facility fee is appropriate when the injured worker is sent to the employer's designated provider for a non-urgent episode of care during regular business hours of 8 am to 5 pm, Monday through Friday.
- (iii) Hospitals may bill on a UB-04 using revenue code 516 or 526 and the facility HCPCS code S9088, \$76.50, with one unit. All maximum allowances for other services billed on the UB-04 shall be in accordance with CPT® relative weights from RBRVS, multiplied by the appropriate CF.
- (iv) Hospital and non-hospital based urgent care facilities may bill for the facility fee, HCPCS code S9088, \$76.50, on the CMS-1500 with professional services. All other services and procedures provided in an urgent care facility, including a freestanding facility, are allowed according to the appropriate CPT® code relative weight from RBRVS multiplied by the appropriate CF.
- (b) All professional fees shall be billed on a CMS-1500 with a Place of Service Code 20 and reimbursed in accordance with section 18-4.
- (c) All supplies are included in the facility fee.
- (d) Any prescription for a drug to be used for longer than 24 hours, filled at any clinic, shall be reimbursed in accordance with section 18-6(C).

## **18-6 ANCILLARY SERVICES**

### **(A) DURABLE MEDICAL EQUIPMENT, PROSTHETICS, ORTHOTICS, AND SUPPLIES (DMEPOS)**

#### **(1) Durable Medical Equipment (DME):**

DME equipment withstands repeated use and allows injured workers accessibility in the home, work, and community. DME can be categorized as:

- (a) Purchased Equipment/Capped Rental:
  - (i) Items that cost \$100.00 or less may not be rented.
  - (ii) Rented items must be purchased or discontinued after ten months of continuous use or once the total fee schedule allowance has been reached.
  - (iii) The monthly rental rate cannot exceed 10% of the DMEPOS fee schedule, or if not available, the cost of the item to the provider or the supplier (after taking into account any discounts/rebates the supplier or the provider may have received). When the item is purchased, all rental fees shall be deducted from the total fee scheduled price. If necessary, the parties should use an invoice to establish the purchase price.
  - (iv) Purchased items may require maintenance/servicing agreements or fees. The fees are separately payable. Rented items typically include these fees in the monthly rental rates.
  - (v) Modifier NU shall be appended for new, UE for used purchased items or modifier RR for rented items.
- (b) Take Home Exercise Equipment:

Items with a total invoice cost of \$50 or less may be billed using A9300 at no more than 120% of actual cost, without an invoice. Reimbursement shall be based on billed charges. Payers reserve the right to retroactively review invoices to validate the provider's cost, per Rule 16. Home exercise supplies can include, but are not limited to the following items: therabands, theratubes, band/tube straps, theraputty, bow-tie tubing, fitness cables/trainers, overhead pulleys, exercise balls, cuff weights, dumbbells, ankle weight bands, wrist weight bands, hand squeeze balls, flexbars, digiflex hand exercisers, power webs, plyoballs, spring hand grippers, hand helper rubber band units, ankle stretchers, rocker boards, balance paws, and aqua weights.

(c) Electrical Stimulators:

Electrical stimulators are bundled kits that include the portable unit(s), two to four leads and pads, initial battery, electrical adapters, and carrying case. Kits that cost more than \$300.00 shall be rented for the first month of use and require documentation of effectiveness prior to purchase (effectiveness means functional improvement and decreased pain).

(i) TENS (Transcutaneous Electric Nerve Stimulator) machines/kits, IF (Interferential) machines/kits, and any other type of electrical stimulator combination kits: E0720 for a kit with two leads or E0730 for a kit with four leads.

(ii) Electrical Muscle Stimulation machines/kits: E0744 for scoliosis; or E0745 for neuromuscular stimulator, electric shock unit.

(iii) Osteogenesis electrical stimulators (E0747-E0760) are not required to be rented before purchase when used in accordance with MTG recommendations.

(iv) Replacement supplies are limited to once per month and are not eligible with a first month rental.

A4595 - electrical stimulator supplies, two leads.

A4557 - lead wires, pair (reimbursable once every 12 months).

(v) Conductive Garments: E0731.

(d) Continuous Passive Motion Devices (CPMs):

These devices are bundled into the facility fees and not separately payable, unless the MTGs recommend their use after discharge for the particular condition.

E0935 – continuous passive motion exercise device for use on the knee only.

E0936 – continuous passive motion exercise device for use on body parts other than knee.

(e) Intermittent Pneumatic Devices:

These devices (including, but not limited to, cold with compression) are bundled into facility fees and are not separately payable. The use of these devices after discharge requires prior authorization.

E0650-E0676 – Codes based on body part(s), segmental or not, gradient pressure and cycling of pressure, and purpose of use.

A4600 – Sleeve for intermittent limb compression device, replacement only, per each limb.

(f) Hearing and Vision Supplies:

These items are purchased. The maximum allowance is 120% of the cost to the provider as indicated by invoice. The maximum allowance for V2623 (prosthetic eye) and L8045 (auricular prosthesis) shall be based on 120% of the cost of the item as indicated by invoice.

(2) Orthotics:

Maximum allowance for any orthotic created using casting materials shall be determined using Medicare's Q codes and values listed under Medicare's DMEPOS fee schedule. The therapist time necessary to create the orthotic shall be billed using CPT® 97760.

Payment for professional services associated with the fabrication and/or modification of orthotics, custom splints, adaptive equipment, and/or adaptation and programming of communication systems and devices shall be paid in accordance with the Colorado Medicare HCPCS Level II values.

(3) Supplies:

Supplies necessary to perform a service or procedure are not separately reimbursable. Only supplies that are not an integral part of a service or procedure are considered to be over and above those usually included in the service or procedure. Allowances for supplies to facilities shall comply with the appropriate section of this Rule.

(4) Reimbursement:

Unless other limitations exist in this Rule, the maximum allowance for DMEPOS suppliers and medical providers shall be based on Medicare's HCPCS Level II codes, when one exists, as established in the July 2022 DMEPOS schedule for rural (R) or non-rural (NR) areas. The DMEPOS schedule can be found at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/DMEPOSFeeSched/DMEPOS-Fee-Schedule>.

If no Medicare value exists, the maximum allowance shall be based on the total allowable amount listed in Medicaid's Health First Colorado Fee Schedule Effective January 1, 2022, available at <https://hcpf.colorado.gov/provider-rates-fee-schedule>.

If no Medicaid fee schedule value exists, the maximum allowance is based on 120% of the cost of the item as indicated by invoice. For inventoried items, "invoice" means a statement given to the Provider by its supplier showing the Provider's cost of obtaining the item. For fabricated/customized items, "invoice" means a statement prepared by the Provider showing the amount due after accounting for fabrication and necessary customization. Shipping and handling charges are not separately payable. Payers shall not recognize the KE modifier.

Auto-shipping of monthly DMEPOS is not allowed. An affirmative request by the injured worker or prescribing provider is required.

(5) Complex Rehabilitation Technology dispensed and billed by Non-Physician DMEPOS Suppliers:

(a) Complex rehabilitation technology (CRT) items, including complex rehabilitation power wheelchairs, highly configurable manual wheelchairs, adaptive seating and positioning systems, standing frames, and gait trainers enable individuals to maximize their function and minimize the extent and costs of their medical care.

(b) Complex Rehabilitation Technology products must be provided by suppliers who are specifically accredited by a Center for Medicare and Medicaid

Services (CMS) deemed accreditation organization as a supplier of CRT and licensed as a DMEPOS Supplier with the Colorado Secretary of State.

(B) HOME CARE SERVICES

Prior authorization is required for all home care services, unless otherwise specified. All skilled home care service providers shall be licensed by the Colorado Department of Public Health and Environment (CDPHE) as Type A or B providers. The Payer and the home health entity should agree in writing on the type of care, the type and skill level of provider, frequency of care, duration of care at each visit, and any financial arrangements to prevent disputes.

(1) Home Infusion Therapy:

The per day or refill rates for home infusion therapy shall include all reasonable and necessary products, equipment, IV administration sets, supplies, supply management, and delivery services necessary to perform the infusion therapy. Per diem rates are only payable when licensed professionals (RNs) are providing "reasonable and necessary" skilled assessment and evaluation services in the injured worker's home.

Skilled Nursing fees are separately payable when the nurse travels to the injured worker's home to perform initial and subsequent evaluation(s), education, and coordination of care.

(a) Parenteral Nutrition:

Code	Quantity	Max Bill Frequency	Daily Rate
S9364	<1 Liter	once per day	\$160.00
S9365	1 liter	once per day	\$174.00
S9366	1.1 - 2.0 liter	once per day	\$200.00
S9367	2.1 - 3.0 liter	once per day	\$227.00
S9368	> 3.0 liter	once per day	\$254.00

The daily rate includes the standard total parenteral nutrition (TPN) formula. Lipids, specialty amino acid formulas, and drugs other than those in standard formula are separately payable under section 18-6(C).

(b) Antibiotic Therapy is allowed a daily rate by professional + drug cost at Medicare's Average Sale Price (ASP), as incorporated by Rule 18-2. If ASP is not available, use Average Wholesale Price (AWP) (see section 18-6(C)).

Code	Time	Max Bill Frequency	Daily Rate
S9494	Per diem	once per day	\$158.00
S9497	once every 3 hours	once per day	\$152.00
S9500	every 24 hours	once per day	\$97.00

S9501	once every 12 hours	once per day	\$110.00
S9502	once every 8 hours	once per day	\$122.00
S9503	once every 6 hours	once per day	\$134.00
S9504	once every 4 hours	once per day	\$146.00

- (c) Chemotherapy is allowed a daily rate + drug cost at ASP, as incorporated by Rule 18-2. If ASP is not available, use AWP.

Code	Description	Max Bill Frequency	Daily Rate
S9329	Administrative Services	once per day	\$0.00
S9330	Continuous (24 hrs. or more) chemotherapy	once per day	\$91.00
S9331	Intermittent (less than 24 hrs.)	once per day	\$103.00

- (d) Enteral nutrition (enteral formula and nursing services are separately payable):

Code	Description	Max Bill Frequency	Daily Rate
S9341	Via Gravity	once per day	\$44.09
S9342	Via Pump	once per day	\$24.23
S9343	Via Bolus	once per day	\$24.23

- (e) Pain Management per day or refill + drug cost at ASP, as incorporated by Rule 18-2. If ASP is not available, use AWP.

Code	Description	Max Bill Frequency	Daily Rate
S9326	Continuous (24 hrs. or more)	once per day	\$79.00
S9327	Intermittent (less than 24 hrs.)	once per day	\$103.00
S9328	Implanted pump	per diem	\$116.00/refill.

- (f) Fluid Replacement is allowed a daily rate + drug cost at ASP, as incorporated by Rule 18-2. If ASP is not available, use AWP.

<b>Code</b>	<b>Quantity</b>	<b>Max Bill Frequency</b>	<b>Daily Rate</b>
S9373	< 1 liter per day	once per day	\$61.00
S9374	1 liter per day	once per day	\$85.00
S9375	>1 but <2 liters per day	once per day	\$85.00
S9376	>2 liters but <3 liters	once per day	\$85.00
S9377	>3 liters per day	once per day	\$85.00

(g) Multiple Therapies:

Highest cost per day or refill only + drug cost at ASP, as incorporated by Rule 18-2. If ASP is not available, use AWP.

- (2) Nursing Services are limited to two hours without prior authorization, unless otherwise indicated in the MTGs:

<b>Code</b>	<b>Type of Nurse</b>	<b>Max Bill Frequency</b>	<b>Hourly Rate</b>
S9123	RN	2 hours	\$127.50
S1924	LPN	2 hours	\$127.50
S1922	CNA	The amount of time spent with the injured worker must be specified in the medical records and on the bill.	\$51.00

- (3) Physical medicine procedures are payable in accordance with section 18-4(H).

(4) Mileage:

The parties should agree upon travel allowances and the mileage rate shall not exceed 56 cents per mile, portal to portal. DoWC Z0772.

(5) Travel Time:

Travel is typically included in the fees listed. Travel time greater than one hour one-way is allowed additional reimbursement not to exceed \$35.37 per hour. DoWC Z0773.

(6) Drugs/Supplies/DME/Orthotics/Prosthetics Used For At-Home Care:

As defined in section 18-6(A), any drugs/supplies/DME/Orthotics/Prosthetics integral to a professional's service are not separately payable.

The maximum allowance for non-integral drugs/supplies/DME/Orthotics/Prosthetics used during a professional's home care visits are listed in section 18-6(A). All IV infusion supplies are included in the per diem or refill rates listed in this Rule.

(C) DRUGS AND MEDICATIONS

- (1) All medications must be reasonably needed to cure and relieve the injured worker from the effects of the injury. Prior authorization is required for:

- (a) Medications "not recommended" in the MTGs for a particular diagnosis; or

- (b) Any non-steroidal anti-inflammatory drug (NSAID), muscle relaxant, or topical agent for which a significantly lower-cost therapeutic equivalent is available, including commercially or over-the-counter (OTC), even in a different strength/dosage. Significantly lower cost means the therapeutic equivalent costs at least \$100 less, for the same number of days' supply. For example, prior authorization would be required to dispense diclofenac gel 1.5% at an average wholesale price (AWP) of \$689 when diclofenac 1% is available OTC for \$10, or to dispense more than one unit of lidocaine 4.5%-menthol 5% patch at an AWP of \$49 when a lidocaine 4%-menthol 5% patch can be obtained OTC for \$2.
- (2) Prescription Writing:
  - (a) This Rule applies to all pharmacies, whether located in or out of state.
  - (b) Physicians shall indicate on the prescription form that the medication is related to a workers' compensation claim.
  - (c) All prescriptions shall be filled with bio-equivalent generic drugs unless the physician indicates "Dispense As Written" (DAW) on the prescription. In addition to the Rule 16 requirements, providers prescribing a brand name with a DAW indication shall provide a written medical justification explaining the reasonableness and necessity of the brand name over the generic equivalent.
  - (d) The provider shall not exceed a 60-day supply per prescription.
  - (e) Opioids/scheduled controlled substances that are prescribed for treatment lasting longer than three days shall be provided through a pharmacy. The prescriber shall comply with applicable provisions of Title 12 and other statutes and rules.
- (3) Billing:
  - (a) Drugs (brand name or generic) shall be reported on bills using the applicable identifier from the National Drug Code (NDC) Directory as published by the Food and Drug Administration (FDA).
  - (b) All parties shall use one (1) of the following forms:
    - (i) CMS-1500 – dispensing provider shall bill by using the metric quantity (number of tablets, grams, or mls) in column 24.G and NDC number of the drug being dispensed or, if one does not exist, the RBRVS supply code. For repackaged drugs, dispensing provider shall list the "repackaged" and the "original" NDC numbers in field 24 of the CMS- 1500. The dispensing provider shall list the "repackaged" NDC number of the actual dispensed medication first and the "original" NDC number second, with the prefix 'ORIG' appended. Billing providers shall include the units and days supply for all dispensed medications in field 19, example: '60UN/30DY.'
    - (ii) With the agreement of the Payer, the National Council for Prescription Drug Programs (NCPDP) or ANSI ASC 837 (American National Standards Institute Accredited Standards Committee) electronic billing transaction containing the same information as above may be used for billing. NCPDP Workers' Compensation/Property and Casualty (P&C) Universal Claim Form, version 1.1, for prescription drugs billed on paper shall be used by dispensing pharmacies and pharmacy benefit managers.

- (c) Dispensing provider shall keep a signature on file indicating the injured worker or the injured worker's authorized representative has received the prescription.
- (4) Average Wholesale Price (AWP):
  - (a) AWP for brand name and generic pharmaceuticals may be determined using such monthly publications as Red Book Online or Medispan. In case of a dispute on AWP values for a specific NDC, the parties shall take the lower of their referenced published values.
  - (b) If published AWP data becomes unavailable, substitute Wholesale Acquisition Cost (WAC) + 20% for AWP everywhere in this Rule.
- (5) Reimbursement for Prescription Drugs & Medications:
  - (a) For prescription medications, except topical compounds, reimbursement shall be AWP + \$4.00. If drugs have been repackaged, use the original AWP and NDC that was assigned by the source of the repackaged drugs to determine reimbursement.
  - (b) The entity packaging two or more products together makes an implied claim that the products are safe and effective when used together and shall be billed as individual line items identified by their original AWP and NDC. This original AWP and NDC shall be used to determine reimbursement. Supplies are considered integral to the package are not separately reimbursable.
  - (c) Reimbursement for an opiate antagonist prescribed or dispensed under §12- 30-110, to an injured worker at risk of experiencing an opiate-related drug overdose event, or to a family member, friend, an employee or volunteer of a harm reduction organization, or other person in a position to assist the injured worker shall be AWP plus \$4.00.
  - (d) Injectables shall be reimbursed at Medicare's Part B Drug Average Sale Price (ASP), as incorporated by Rule 18-2, unless the ASP value does not exist for the drug or the provider's actual cost exceeds the ASP. In this circumstance, provider may request reimbursement based on the actual cost, after taking into account any discounts/rebates the provider may have received.
  - (e) The provider may bill for the discarded portion of drug from a single use vial or a single use package, appending the JW modifier to the HCPCS Level II code. The provider shall bill for the discarded drug amount and the amount administered to the injured worker on two separate lines. The provider must document the discarded drug in the medical record.
- (6) Prescription-Strength Topical Compounds:
 

In order to qualify as a compound under this section, the medication must require a prescription; the ingredients must be combined, mixed, or altered by a licensed pharmacist or a pharmacy technician being overseen by a licensed pharmacist, a licensed physician, or, in the case of an outsourcing facility, a person under the supervision of a licensed pharmacist; and it must create a medication tailored to the needs of an individual patient. All topical compounds shall be billed using the DoWC Z code corresponding with the applicable category as follows:

Category I Z0790, \$83.23 per 30 day supply

Any anti-inflammatory medication or any local anesthetic single agent.

Category II Z0791, \$166.46 per 30 day supply

Any anti-inflammatory agent or agents in combination with any local anesthetic agent or agents.

Category III Z0792, \$275.71 per 30 day supply

Any single agent other than anti-inflammatory agent or local anesthetic, either alone, or in combination with anti-inflammatory or local anesthetic agents.

Category IV Z0793, \$384.95 per 30 day supply

Two or more agents that are not anti-inflammatory or local anesthetic agents, either alone or in combination with other anti-inflammatory or local anesthetic agents.

All ingredient materials must be listed by quantity used per prescription. If the MTGs approve some but not all of the active ingredients for a particular diagnosis, the insurer shall count only the number of the approved ingredients to determine the applicable category. In addition, initial prescription containing the approved ingredients shall be reimbursed without a medical review. Continued use (refills) may require documentation of effectiveness including functional improvement.

Category allowances include materials, shipping and handling, and time. Regardless of how many ingredients or what type, compounded drugs cannot be reimbursed higher than the Category IV allowances. The 30 day maximum allowance value shall be fractioned down to the prescribed and dispensed amount given to the injured worker. Automatic refilling is not allowed.

(7) Over-the-Counter Medications:

(a) Medications that are available for purchase by the general public without a prescription and listed as over-the-counter in publications such as RedBook Online or Medispan, are reimbursed at NDC/AWP and are not eligible for dispensing fees. If drugs have been repackaged, use the original AWP and NDC that was assigned by the source of the repackaged drugs to determine reimbursement.

(b) The maximum allowance for any topical agent containing only active ingredients available without a prescription shall be at cost to the billing provider up to \$30.60 per 30 day supply for any application (excludes patches). The maximum allowance for a patch is cost to the billing provider up to \$71.40 per 30 day supply. When less than a 30 day supply is prescribed, these allowances shall be pro-rated to the amount dispensed to the injured worker.

DoWC Z0794 per 30 day supply for any application (excludes patches).

DoWC Z0795 per 30 day supply for patches.

See subsection (6) for prescription-strength topicals and patches.

(8) Dietary Supplements, Vitamins, and Herbal Medicines:

Reimbursement for outpatient dietary supplements, vitamins, and herbal medicines is authorized only by prior agreement of the Payer or if specifically indicated in the MTGs. Reimbursement shall be at cost to the injured worker (see subsection (9) below).

(9) Injured Worker Reimbursement:

In the event the injured worker has directly paid for authorized medications (prescription or over-the-counter), the Payer shall reimburse the injured worker for the amount actually paid within 30 days after submission of the injured worker's receipt. See Rule 16.

(D) COMPLEMENTARY INTEGRATIVE MEDICINE

Complementary integrative medicine describes a broad range of treatment modalities, some of which are generally accepted in the medical community and others that remain outside the accepted practice of conventional western medicine. Non-physician providers of complementary integrative medicine that are not listed in Rule 16 must have completed training in one or more forms of therapy and certified by the National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM) in Chinese herbology.

(E) **AMBULANCE TRANSPORTATION**

(1) **Maximum Allowance:**

The maximum allowance for medical transportation consists of a base rate and a payment for mileage. Both the transport of the injured worker and all items and services associated with such transport are included in the base rate and mileage rate.

(2) **General Claims Submission:**

- (a) All hospitals billing for ground or air ambulance services shall bill on the UB-04. All other providers shall bill on the CMS-1500.
- (b) Providers shall use HCPCS codes and origin/destination modifiers.
- (c) Providers shall list their name, complete address, and NPI number.
- (d) Providers shall list the zip code for the place of origin in Item 23 of the CMS-1500 or FL 39-41 of the UB-04 with an "AO" code. If billing for multiple trips and the zip code for each origin is the same, services can be submitted on the same claim. If the zip codes are different, a separate claim must be submitted for each trip.

(3) **Ground Ambulance Services Billing Codes and Fees:**

The selection of the base code is based upon the condition of the injured worker at the time of transport, not the vehicle used and includes services and supplies used during the transport.

HCPCS	Base Rate	URBAN BASE RATE/ URBAN MILEAGE	RURAL BASE RATE/ RURAL MILEAGE	RURAL BASE RATE/ LOWEST QUARTILE	RURAL GROUND MILES
A0425	\$19.65	\$20.05	\$20.25	n/a	\$30.38
A0426	\$610.73	\$772.13	\$779.70	\$955.91	n/a
A0427	\$610.73	\$1,222.53	\$1,234.50	\$1,513.50	n/a
A0428	\$610.73	\$643.43	\$649.75	\$796.59	n/a
A0429	\$610.73	\$1,029.50	\$1,039.60	\$1,274.55	n/a
A0432	\$610.73	\$1,126.00	\$1,137.05	n/a	n/a
A0433	\$610.73	\$1,769.45	\$1,786.80	\$2,190.62	n/a

A0434	\$610.73	\$2,091.15	\$2,111.68	\$2,588.91	n/a
-------	----------	------------	------------	------------	-----

The “urban” base rate(s) and mileage rate(s) shall apply to all relevant/applicable ambulance services unless the zip code range area is “Rural” or “Super Rural.” Medicare MSA zip code grouping is listed on Medicare’s webpage with an “R” indicator for “Rural” and “B” indicator for “Super Rural.” See Medicare’s Zip Code to Carrier Locality File, available at <https://www.cms.gov/medicare/medicare-fee-for-service-payment/feeschedulegeninfo>.

(4) Modifiers:

HCPCS modifiers identify place of origin and destination of the trip. The modifier is to be placed next to the HCPCS code billed. Each of the modifiers may be utilized to make up the first and/or second half of a two-letter modifier. The first letter describes the origin of the transport, and the second letter describes the destination.

(5) Mileage:

Charges for mileage must be based on loaded mileage only, i.e., from pickup to destination.

## 18-7 DIVISION-ESTABLISHED CODES AND VALUES

### (A) FACE-TO-FACE OR TELEPHONIC MEETINGS

- (1) Face-to-face or telephonic meeting by a treating Physician or a Psychologist with an employer, claim representative, or any attorney, and with or without the injured worker. Claim representatives include physicians or other qualified medical personnel performing Payer-initiated medical treatment reviews, but this Rule does not apply to provider-initiated requests for prior authorization. The Physician or Psychologist may bill for the time spent attending the meeting and preparing the report (no travel time or mileage is separately payable). The fee includes the cost of the report for all parties, including the injured worker.

Before a meeting is separately payable, the following requirements must be met:

- (a) Each meeting (including the time to document) shall be a minimum of 8 minutes.
- (b) A report or written record signed by the Physician or Psychologist is required and shall include the following:
  - (i) Who was present at the meeting and their role at the meeting;
  - (ii) Purpose of the meeting;
  - (iii) A brief statement of recommendations and actions at the conclusion of the meeting;
  - (iv) Documented time (both start and end times).
- (c) DoWC Z0701, \$44.22, is payable in 8-minute increments. The CPT® mid-point rule for attaining a unit of time does not apply to this code. The Physician or Psychologist may bill multiple units of this code per date of service.
- (d) For reimbursement to qualified non-physician providers for coordination of care with medical professionals, see section 18-4(H).

- (2) Face-to-face or telephonic meeting by a non-treating physician with the employer, claim representatives, or any attorney in order to provide a medical opinion on a specific workers' compensation case, which is not accompanied by a specific report or written record.

DoWC Z0601, \$76.99 per 15 minutes billed to the requesting party.

- (3) Face-to-face or telephonic meeting by a non-treating physician with the employer, claim representatives, or any attorney to provide a medical opinion on a specific workers' compensation case, which is accompanied by a report or written record, shall be billed as a special report (see section 18-7(G)(4)).

- (4) Peer-to-peer review by a treating physician with a medical reviewer, following the treating physician's complete prior authorization request pursuant to Rule 16.

DoWC Z0602, \$76.99 per 15 minutes billed to the requesting party.

(B) CANCELLATION FEES FOR PAYER-MADE APPOINTMENTS

- (1) A cancellation fee is payable only when a Payer schedules an appointment the injured worker fails to keep, and the Payer has not canceled five days prior to the appointment.

The Payer shall pay one-half of the usual fee for the scheduled services, or \$187.27, whichever is less:

DoWC Z0720. The provider shall indicate the code corresponding to the service that has been cancelled in Box 19 of the CMS-1500 form or electronic billing equivalent.

For Payer-made appointments scheduled for four hours or longer, the Payer shall pay one-half of the usual fee for the scheduled service.

DoWC Z0740. The Provider shall indicate the code corresponding to the service that has been cancelled in Box 19 of the CMS-1500 form or electronic billing equivalent.

- (2) Missed Appointments:

When an injured worker fails to keep a scheduled appointment, the Provider should contact the Payer within five days. Upon reporting the missed appointment, the Provider may inquire if the Payer wishes to reschedule the appointment for the injured worker. If the injured worker fails to keep the Payer's rescheduled appointment, the Provider may bill for a cancellation fee according to this section.

(C) REQUESTS FOR MEDICAL RECORDS AND COPYING FEES

The Payer, Payer's representative, injured worker, and injured worker's representative shall pay a reasonable fee for the reproduction of the injured worker's medical record. -Copying charges do not apply for the initial submission of records that are part of the required documentation for billing. If records are readily producible electronically and appropriate security is in place, including but not limited to compatible encryption, the provider shall provide the requestor with an electronic copy (e.g., email). If the requester and Provider agree, the copy may be provided by fax, on paper, or by disc. Provider may not charge a fee for a records search and retrieval. All records shall be provided no later than 30 days from the date the request is received.

Copying Fee Billing Codes and Maximum Fees:

DoWC Z0721, \$18.53 for first 10 or fewer paper page(s), including faxed documents

DoWC Z0725, \$0.85 per paper page for the next 11-40 paper page(s), including faxed documents

DoWC Z0726, \$0.57 per paper page for remaining paper page(s), including faxed documents

DoWC Z0727, \$1.50 per microfilm page

DoWC Z0728, \$14.00 per computer disc

DoWC Z0729, \$6.50 per electronic copy

DoWC Z0802, actual postage paid

(D) DEPOSITION AND TESTIMONY FEES

- (1) When requesting deposition or testimony from any Provider, guidance should be obtained from the Interprofessional Code, prepared by the Colorado Bar Association, the Denver Bar Association, the Colorado Medical Society, and the Denver Medical Society. If the parties cannot agree upon lesser fees for the deposition or testimony services, or cancellation time periods and/or fees, the deposition and testimony rules and fees listed below shall be used.

If a party shows good cause to an Administrative Law Judge (ALJ) for exceeding the Medical Fee Schedule allowance, that ALJ may allow a greater fee.

- (2) Preparation Time:

By prior agreement, the Provider may charge for preparation time for a deposition or testimony, for reviewing and signing the deposition, or for preparation time for testimony.

Treating or non-treating Physician or Psychologist:

DoWC Z0730, \$190.74, billed in half-hour increments. Other Providers are allowed 85% of this fee.

- (3) Deposition:

Payment for testimony at a deposition shall not exceed \$190.74, billed in half-hour increments, for a treating or non-treating Physician or a Psychologist. DoWC Z0734, calculating the Provider's time from "portal to portal." Other Providers are allowed 85% of this fee.

If requested, the Provider is entitled to a full hour deposit in advance in order to schedule the deposition.

If the Provider is notified of the cancellation of the deposition at least ten days prior to the scheduled deposition, the Provider shall be paid the number of hours that have been reasonably spent in preparation, less any deposit paid by the deposing party. DoWC Z0731, \$190.74, in half-hour increments.

If the Provider is notified less than ten days in advance of a cancellation or rescheduling, or the deposition is shorter than the time scheduled, the Provider shall be paid the number of hours that have been reasonably spent in preparation and have been scheduled for the deposition. DoWC Z0733, \$190.74, in half-hour increments.

- (4) Testimony:

Treating or non-treating Physician or Psychologist:

DoWC Z0738, \$264.18, billed in half-hour increments. Other Providers are allowed 85% of this fee.

Calculation of the Provider's time shall be "portal to portal" (includes travel time and mileage in both directions).

For testifying at a hearing, if requested, the Provider is entitled to a four-hour deposit in advance in order to schedule the testimony.

If the Provider is notified of the cancellation of the testimony at least ten days prior to the scheduled testimony, the Provider shall be paid the number of hours that have been reasonably spent in preparation, less any deposit paid by the requesting party. DoWC Z0735, \$264.18, in half-hour increments.

If the Provider is notified less than ten days in advance of a cancellation or rescheduling, or the testimony is shorter than the time scheduled, the Provider shall be paid the number of hours that have been reasonably spent in preparation and has scheduled for the testimony. DoWC Z0737, \$264.18, in half-hour increments.

(E) INJURED WORKER TRAVEL EXPENSES

The Payer shall advance or reimburse the injured worker for reasonable and necessary mileage expenses for travel to and from medical appointments. The injured worker shall submit a request to the Payer showing the date(s) of travel and mileage, incurred or anticipated, and explain any other reasonable and necessary travel expenses. The number of miles shall be in whole numbers and calculated using the most direct route available on the date of service. Advance mileage is available for eligible travel greater than 100 miles round trip, and shall be approved when requested by the injured worker at least seven days in advance.

Mileage Pre-paid Expense: Z0722, 56 cents per mile

Mileage Expense: DoWC Z0723, 56 cents per mile

Other Travel Expenses: DoWC Z0724, actual paid

(F) PERMANENT IMPAIRMENT RATING

(1) The Payer is only required to pay for one combined whole-person permanent impairment rating per claim, except as otherwise provided in the Workers' Compensation Rules of Procedures. Exceptions that may require payment for an additional impairment rating include, but are not limited to, reopened cases, as ordered by the Director or an Administrative Law Judge, or a subsequent request to review apportionment. The ATP is required to submit in writing all permanent restrictions and future maintenance care related to the injury or occupational disease.

(2) Provider Restrictions:

The Physician determining the permanent impairment rating must be Level II accredited and comply with Rule 5 as applicable.

(3) Maximum Medical Improvement (MMI) Determined Without any Permanent Impairment:

If a Physician determines the injured worker is at MMI and has no permanent impairment, the Physician should be reimbursed for the examination at the appropriate level of E&M service. The ATP managing the total workers' compensation claim should complete the Physician's Report of Workers' Compensation Injury (Closing Report), WC 164 (see section 18-7(G)(2)).

(4) MMI Determined with a Calculated Permanent Impairment Rating

(a) Calculated Impairment: The total fee includes the office visit, a complete physical examination, complete history, review of all medical records except when the amount of medical records is extensive (see below), determining MMI, completing all required measurements, referencing all tables used to determine the rating, using all report forms from the AMA's

Guide to the Evaluation of Permanent Impairment, Third Edition (Revised), (AMA Guides), and completing the Physician's Report of Workers' Compensation Injury (Closing Report) WC 164.

Extensive medical records take longer than one hour to review and require a separate report. The separate report must document each record reviewed, specific details of the records reviewed, and the dates represented by the records reviewed. The separate record review can be billed as a special report and requires prior authorization.

(b) Impairments Requiring Multiple Providers:

All Physicians and Psychologists (including Level II Accredited Physicians) providing consulting services for the completion of a whole person impairment rating shall bill using the appropriate E&M consultation code, or psychological diagnostic evaluation code, and shall forward their portion of the rating to the Physician determining the combined whole person rating.

A return visit for a range of motion (ROM) validation shall be billed with the appropriate code in the Medicine Section of CPT®.

The date the Physician sees the injured worker shall be the date of service billed.

DoWC Z0759, \$612.00, for the Level II Accredited Authorized Treating Physician providing primary care.

DoWC Z0760, \$822.12, for the Referral, Level II Accredited Authorized Physician (the claimant is not a previously established patient to that physician for that workers' compensation injury).

(G) REPORT PREPARATION

(1) Routine Reports:

Providers shall submit routine reports free of charge as directed in Rule 16 and by statute. Requests for additional copies of routine reports and for reports not in Rule 16 or statute are reimbursable under the copying fee section of this Rule. Routine reports include:

- (a) Diagnostic testing
- (b) Procedure reports
- (c) Progress notes
- (d) Office notes
- (e) Operative reports
- (f) Supply invoices, if requested by the Payer

(2) Completion of the Physician's Report of Workers' Compensation Injury:

(a) Initial Report WC 164:

The ATP and ED/urgent care physician when applicable, shall complete the first report of injury. Items 1-7 and 11 must be complete, however item 2 may be omitted if not known by the Provider. If completed by a PA or NP, the ATP must countersign the form.

DoWC Z0750 Initial Report \$51.00

(b) Closing Report WC 164:

The ATP managing the workers' compensation claim must complete the WC 164 closing report when the injured worker is at maximum medical

improvement (MMI) for all covered injuries or diseases, with or without a permanent impairment. Items 1-5, 6 B-C, 7 (if applicable), and 8-11 must be complete. If completed by a PA or NP, the ATP must countersign the form.

DoWC Z0752 Closing Report \$51.00

If the injured worker has sustained a permanent impairment, the following additional information must be attached to the bill when MMI is determined:

- (i) All necessary permanent impairment rating reports, medical reports, and narrative relied upon by the ATP, when the ATP managing the workers' compensation claim is Level II Accredited; or
- (ii) The name of the Level II Accredited Physician requested to perform the permanent impairment rating when a rating is necessary and the ATP managing the workers' compensation claim is not determining the permanent impairment rating.

(c) Initial and Closing Report WC 164 completed on the same form for the same date of service: DoWC Z0753 \$51.00

(d) Progress Report WC 164:

Any request from the Payer or the employer for the information provided on this form is deemed authorization for payment. The Provider shall document the name of the person who made the request and the date of the request on the WC 164; complete items 1, 2, 4-7, and 11; and send it to all parties within five days of the request. If completed by a PA or NP, the ATP must countersign the form.

DoWC Z0751 Progress Report \$51.00

(3) Form Completion:

The requesting party shall pay for its request for a physician to complete additional forms requiring 15 minutes or less, including forms sent by a Payer or an employer. This code also may be billed when completing the requirements outlined in § 8-43-404(10)(a) or Desk Aid 15 for a non-medical discharge.

DoWC Z0754 Form Completion \$51.00

(4) Special Reports:

The term special report includes any form, questionnaire, letter or report with variable content not otherwise addressed in Rule. Examples include:

- (a) treating or non-treating medical reviewers or evaluators producing written reports pertaining to injured workers not otherwise addressed, or
- (b) meeting with and reviewing another Provider's written record, and amending or signing that record.

The content and total payment shall be agreed upon by the Provider and the report's requester before the Provider begins the report.

Advance Payment: If requested, the Provider is entitled to a two hour deposit in advance in order to schedule a patient exam associated with a special report.

DoWC Z0755 Written Report, \$95.37 billable in 15 minute increments

DoWC Z0757 Lengthy Form, \$95.37 billable in 15 minute increments

DoWC Z0758 Meeting and Report with Non-treating Physician, \$95.37 billable in

15 minute increments

In cases of cancellation for special reports not requiring a scheduled patient exam, the Provider shall be paid for the time reasonably spent in preparation up to the date of cancellation.

DoWC Z0761 Report Preparation with Cancelled Patient Exam, \$95.37 billable in 15 minute increments

(5) Independent Medical Examinations (IMEs):

An IME is an objective medical examination of an injured worker performed by a Physician who has not previously treated the injured worker, in order to evaluate prior, current, or proposed treatment, or current condition. The Physician may refer a psychological component of the IME to a Psychologist and incorporate that evaluation into the IME report. In some circumstances, the IME Physician must be Level I or Level II accredited.

RIME: Respondent-requested Independent Medical Examination

DoWC Z0756 RIME Report with patient exam, \$95.37 billable in 15 minute increments

Section 8-43-404 requires RIMEs to be recorded in audio in their entirety and retained by the examining Physician for 12 months and made available by request to any party to the case.

DoWC Z0766 RIME Audio Recording, \$35.70 per exam

DoWC Z0767 RIME Audio Copying Fee, \$24.48 per copy

CIME: Claimant-requested Independent Medical Examination, \$95.37 billable in 15 minute increments to the injured worker, DoWC Code Z0770

DIME: Division Independent Medical Examination - see Rule 11

All IME reports must be served concurrently to all parties no later than 20 days after the examination. All IME reports must include an attestation that the billed charges comply with § 8-42-101(3)(a)(I) and Rule 16-8, as well as document the total time spent.

Cancellations:

In cases of a cancelled or rescheduled RIME or CIME, the Provider shall be paid the following fees:

If the Provider is notified of the cancellation of the RIME or CIME at least fourteen days prior to the scheduled examination, the Provider shall be paid the number of hours reasonably spent in preparation, less any deposit paid by the requesting party. DoWC Z0762, \$95.37 billable in 15 minute increments.

If the Provider is notified less than fourteen days in advance of a cancelled or rescheduled RIME or CIME, the Provider shall be paid the number of hours reasonably spent in preparation and scheduled for the examination. DoWC Z0763, \$95.37 billable in 15 minute increments.

(H) USE OF AN INTERPRETER

- (1) Payers shall reimburse for the services of an interpreter when interpretation is reasonable and necessary to provide access to medical benefits. Interpreter services provided in a hospital or ambulatory surgery center are included in the facility reimbursement and are not separately payable.

An interpreter may be provided on-site or via video or audio remote interpreting

service, based on availability and the preference of the treating Provider.

- (2) Providers are prohibited from relying on minor children and should refrain from using adult family members and friends as interpreters, except in an emergency.
- (3) Payment requirements:
  - (a) Interpreters for certifiable languages must be listed as certified on the Certification Commission for Healthcare Interpreters or National Board of Certification for Medical Interpreters website directory. Certifiable languages are:
    - Spanish
    - Cantonese
    - Mandarin
    - Russian
    - Korean
    - Vietnamese
    - Arabic
  - (b) For all other languages, or in the event a certified interpreter is unavailable, the interpreter shall be qualified. Qualified means the interpreter has documentation showing completion of at least 40 hours of healthcare interpreter training.
  - (c) When a qualified interpreter is used in lieu of a certified interpreter, Payers must document a good faith effort was made to obtain a certified interpreter and submit this documentation to the Division upon request. By way of example, the payer may document a good faith effort by contacting at least two certified interpreters who are unavailable for the requested date and time.
  - (d) Prior authorization is required for on-site interpreters except for initial and emergency treatment.
- (4) Interpreters shall use the Interpreter Invoice Form. The codes and maximum allowances are:
  - (a) DoWC Z0710, Certified Spanish Interpreter, on-site, \$15.00, billable in 15 minute increments with a minimum of one hour;
  - (b) DoWC Z0711, Qualified Spanish Interpreter, on-site, \$11.25, billable in 15 minute increments with a minimum of one hour;
  - (c) DoWC Z0712, Interpreter for languages other than Spanish, on-site, rates shall be negotiated;
  - (d) HCPCS T1013, Sign Language, rates shall be negotiated;
  - (e) DoWC Z0713, On-Demand Video or Audio Remote Interpreting, all languages, \$1.35 per minute, with no minimum.
  - (f) DoWC Z0773, Travel time for distances 50 miles or greater one-way is separately payable to on-site interpreters and shall not exceed \$35.37 per hour.
  - (g) DoWC Z0772, Mileage is separately payable to on-site interpreters, and shall not exceed 56 cents per mile. The reimbursement shall be calculated based on the actual number of miles driven portal to portal or the most direct route available on the date of service, whichever is less.
  - (h) If a prior authorized interpreter receives a cancellation notice less than 24 hours prior to the scheduled service, the Payer shall pay one-half of the

usual fee for the scheduled service, or \$187.27, whichever is less. DoWC Z0720, plus full reimbursement for incurred mileage and eligible travel time.

(I) GUARDIAN AD LITEM AND CONSERVATOR SERVICES

When reasonably necessary for employees who are legally incapacitated as a result of a work-related injury or occupational disease, the following services are allowed reasonable fees and costs as agreed upon by the parties:

Guardian ad litem  
Conservator  
Attorney/Paralegal

The parties may submit an invoice or other agreed upon form for these services. If the parties are unable to agree on a reasonable fee, the parties may bring the matter before the Director for resolution.

**18.8 DENTAL FEE SCHEDULE**

The dental fee schedule is adopted using the American Dental Association's CDT® as incorporated by 18-2. However, surgical treatment for dental trauma and subsequent related procedures shall be billed using medical codes from RBRVS. If billed using RBRVS, reimbursement shall be in accordance with the values listed in the Surgery/Anesthesia section and the corresponding CF. See Exhibit #3 for the listing and maximum allowance for CDT® codes.

Regarding prosthetic appliances, the Provider may bill and be reimbursed for 50% of the allowed fee at the time the master casts are prepared for removable prosthodontics or the final impressions are taken for fixed prosthodontics. The remaining 50% may be billed on insertion of the final prosthesis.

**18.9 QUALITY INITIATIVES**

(A) OPIOID MANAGEMENT

- (1) Codes and maximum allowances are payable to the prescribing ATP for a written report with all the following opioid review services completed and documented:
  - (a) ordering and reviewing drug tests for subacute or chronic opioid management;
  - (b) ordering and reviewing Colorado Prescription Drug Monitoring Program (PDMP) results;
  - (c) reviewing the medical records;
  - (d) reviewing the injured worker's current functional status;
  - (e) evaluating the risk of misuse and abuse initially and periodically; and
  - (f) determining what actions, if any, need to be taken.

In determining the prescribed levels of medications, the ATP shall review and integrate the drug screening results required for subacute and chronic opioid management, as appropriate; the PDMP and its results; an evaluation of compliance with treatment and risk for addiction or misuse; as well as the injured worker's past and current functional status. A written report also must document the treating physician's assessment of the injured worker's past and current functional status of work, leisure, and activities of daily living.

The injured worker should initially and periodically be evaluated for risk of misuse or addiction. The ATP may consider whether the injured worker experienced an opiate- related drug overdose event that resulted in an opiate antagonist being prescribed or dispensed pursuant to § 12-30-110. If the injured worker is deemed to be at risk for an opiate overdose, an opioid antagonist may be prescribed (see section 18- 6(C)(5)(c)).

Opioid Management Billing Codes:

Acute Phase:	DoWC Z0771, \$86.70, per 15 minutes, maximum of 30 minutes per report
Subacute/Chronic Phase:	DoWC Z0765, \$86.70, per 15 minutes, maximum of 30 minutes per report

(2) Definitions:

- (a) Acute opioid use refers to the prescription of opioid medications (single or multiple) for duration of 30 days or less for non-traumatic injuries, or six weeks or less for traumatic injuries or post-operatively.
- (b) Subacute opioid use refers to the prescription of opioid medications for longer than 30 days for non-surgical cases and longer than six weeks for traumatic injuries or post-operatively.
- (c) Chronic opioid use refers to the prescription of opioid medications for longer than 90 days.

(3) Acute opioid prescriptions generally should be limited to three to seven days and 50 morphine milliequivalents (MMEs) per day. Providers considering repeat opioid refills at any time during treatment are encouraged to perform the actions in this section and bill accordingly.

(4) When long-term opioid treatment is prescribed, the ATP shall comply with the Division's Chronic Pain Disorder MTG (Rule 17, Exhibit #9), and review the Colorado Medical Board Policy #40-26, "Policy for Prescribing and Dispensing Opioids."

(5) Urine drug tests are required for subacute and chronic opioid management and shall employ testing methodologies that meet or exceed industry standards for sensitivity, specificity, and accuracy. The test methodology must be capable of identifying and quantifying the parent compound and relevant metabolites of the opioid prescribed. In-office screening tests designed to screen for drugs of abuse are not appropriate for subacute or chronic opioid compliance monitoring. Refer to section 18-4(F)(3) for clinical drug screening testing codes and values.

- (a) Drug testing shall be done prior to the initial long-term drug prescription being implemented and randomly repeated at least annually.
- (b) While the injured worker is receiving opioid management, additional drug screens with documented justification may be conducted. Examples of documented justification include:
  - (i) Concern regarding the functional status of the injured worker;
  - (ii) Abnormal results on previous testing;
  - (iii) Change in management of dosage or pain; and
  - (iv) Chronic daily opioid dosage above 50 MMEs.

(B) QUALITY PERFORMANCE AND OUTCOMES PAYMENTS (QPOP)

(1) Medical Providers who are Level I or II Accredited, or who have completed the

Division-sponsored Level I or II Accreditation program and have successfully completed the QPOP training may bill separately for documenting functional progress made by the injured worker. The medical Providers must utilize both a Division-approved psychological screen and a Division-approved functional tool. The psychological screen and the functional tool are approved by the Division and are validated for the specific purpose for which they have been created. The medical Provider also must document whether the injured worker's perception of function correlates with clinical findings. The documentation of functional progress should assist the Provider in preparing a successful plan of care, including specific goals and expected time frames for completion, or for modifying a prior plan of care. The documentation must include:

- (a) Specific testing that occurred, interpretation of testing results, and the weight given to these results in forming a reasonable and necessary plan of care;
  - (b) Explanation of how the testing goes beyond the evaluation and management (E&M) services typically provided by the Provider;
  - (c) Meaningful discussion of actual or expected functional improvement between the Provider and the injured worker.
- (2) Billing codes and maximum fees:
- DOWC Z0815, \$83.23, for the initial assessment during which the injured worker provides functional data and completes the validated psychological screen, which the Provider considers in preparing a plan of care. This code also may be used for the final assessment that includes review of the functional gains achieved during the course of treatment and documentation of MMI.
- DOWC Z0816, \$41.62, for subsequent visits during which the injured worker provides follow-up functional data that could alter the treatment plan. The Provider may use this code if the analysis of the data leads to a modification of the treatment plan. The Provider should not bill this code more than once every two to four weeks.
- (3) QPOP for post-MMI patients requires prior authorization based on clearly documented functional goals.

(C) APP-BASED INTERVENTIONS

Providers may write an order for app-based interventions for the purpose of patient education and training to aid in curing and/or relieving the injured worker from the effects of the work injury. A duration for use shall be designated on the order and may be reordered as clinically indicated. If ordered, the app must be payable by invoice and billed directly to the Payer. Providers who write such orders are not permitted to receive any remuneration from the service Provider for the referral. The maximum allowable charge is \$25 per month and may be billed for a maximum duration of three months, or \$75 per order. App-based interventions that exceed this allowance require prior authorization. Examples of app-based interventions include apps that utilize artificial intelligence to educate the user about pain neuroscience, chronic pain management, weight loss, mental well-being, glucose management, and home exercise routines.

(D) PILOT PROGRAMS

Payers may submit a proposal to conduct a pilot program(s) to the Director for approval. Pilot programs authorized by this Rule shall be designed to improve quality of care, determine the efficacy of clinic or payment models, and to provide a basis for future development and expansion of such models.

The proposal for a pilot program shall meet the minimum standards set forth in § 8-43-602 and shall include:

- (1) beginning and end date for the pilot program;
- (2) population to be managed (e.g. size, specific diagnosis codes);
- (3) Provider group(s) participating in the program;
- (4) proposed codes and fees; and
- (5) process for evaluating the program's success.

Participating Payers must submit data and other information as required by the Division to examine such issues as the financial implications for Providers and injured workers, enrollment patterns, utilization patterns, impact on health outcomes, system effects and the need for future health planning.

### **State Board of Stock Inspection Commissioners**

#### **RULES PERTAINING TO INSPECTION OF LIVESTOCK SOLD AS ANIMAL SHARES**

##### **8 CCR 1205-7**

###### **Part 1. Definitions**

- 1.1. "Act" means the Ranch to Plate Act, § 25-4-1617, C.R.S.
- 1.2. "Animal" or "livestock" means cattle and calves.
- 1.3. "Animal share" means an ownership interest of at least one percent in the meat of a live animal.
- 1.4. "Board" means the Colorado State Board of Stock Inspection Commissioners.
- 1.5. "Brand inspector" means a livestock inspector authorized by the Board and employed by the Department to inspect livestock prior to a change of ownership.
- 1.6. "Department" means the Colorado Department of Agriculture.
- 1.7. "Packing house" or "locker plant" means a person, association, firm, or corporation carrying on the trade or business of slaughtering livestock for compensation or profit under a license issued by the State of Colorado.

###### **Part 2. Inspection of Livestock Sold as Animal Shares/Fees**

- 2.1. When performing an inspection of livestock sold as animal shares in accordance with the Act, brand inspectors will inspect the livestock only once immediately prior to slaughter notwithstanding that shares in the animal's meat will be sold to multiple owners.
- 2.2. When performing such inspections, brand inspectors will collect the fees set forth in 8 CCR 1205-6 (State Board of Stock Inspection Fees), including the minimum fee and the per head inspection fee.

###### **Part 3. Statement of Basis, Specific Statutory Authority and Purpose**

- 3.1. Adopted September 20, 2022 - Effective November 15, 2022

###### **Specific Statutory Authority**

These rules are adopted pursuant to § 35-53-101 (3) (b), C.R.S., § 25-4-1617, C.R.S., and SB 21-079 pertaining to brand inspection of livestock sold as animal shares

###### **Purpose**

The purpose of these rules is to establish procedures for brand inspection of livestock sold as animal shares.

###### **Factual and Policy Issues**

Following the 2021 legislative session, Governor Polis signed into law the Ranch to Plate Act. Section 1 of the Act amends Colorado's Food Protection Act by authorizing the sale of shares in the meat of certain animals bound for a packing house or locker plant without licensure, regulation or inspection by a public health agency, subject to a number of limitations set forth in the Act. Section 2 of the Act deals with brand inspections to avoid a possible interpretation under

current statutes and regulations that the sale of animal shares constitutes multiple changes of ownership in the same animal, requiring multiple brand inspections.

LOW-INCOME ENERGY ASSISTANCE PROGRAMS

(LEAP) 9 CCR 2503-7

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

**3.751.1 DEFINITIONS [Rev. eff. 12/1/14]**

"Applicant": The person who completes and signs the basic LEAP application form.

\*\*\*\*\*

"Completed Application": A basic LEAP application shall be considered to be a completed application when:

- A. The applicant has provided an adequate response to all application questions which are necessary to determine eligibility and payment level;
- B. The applicant has provided all required verification. A Social Security Number (SSN) for each household member or proof of application for a SSN must be provided. A SSN is required to determine eligibility. If no SSN is provided for a household member, that member will not be included in the household, but the member's income will be counted;
- C. The application is signed;

\*\*\*\*\*

"Lawful Permanent Residents" are non-citizens who are lawfully authorized to live permanently within the United States.

\*\*\*\*\*

"Questionable". Means inconsistent or contradictory information, statements, documents or case documentation that require verification from the household to determine eligibility.

\*\*\*\*\*

**3.751.22 Presumption of Marriage [Eff. 12/1/14]**

Unless there has been a divorce or legal separation, the presumption is made that the couple is still married. Such presumption must be refuted by persons, other than the spouses, who can establish that they are in a position to know and assert that a complete and permanent separation does, in fact, exist.

A legal separation or divorce can be verified by court documents. Attestation of separation by persons other than the spouses can be in writing or collateral contact.

**3.751.55 Recovery Procedures [Rev. eff. 12/1/07]**

\*\*\*\*\*

D. Enters the amount of overpayment and other specific factors regarding the situation into the case record.

.....

**3.752.2 PROGRAM ELIGIBILITY REQUIREMENTS [Rev. eff. 12/1/14]**

To be determined eligible for a Heating Fuel Assistance Program payment, households must, at time of application, be vulnerable to the rising costs of home heating, and meet income and other requirements of the program as defined in these regulations.

The following factors shall be considered as of the date of application: Colorado state residency, U.S. citizenship/alien status, income, vulnerability, fuel type, household composition, shared living arrangements, dwelling type, and estimated home heating costs.

**3.752.211 Periodic Payments [Eff. 12/1/14]**

\*\*\*\*\*

K. Trusts – any interest or trust payments received in the income verification period.

**3.752.22 Income and Household Size Criteria [Rev. eff. 11/1/15]**

\*\*\*\*\*

D. All applicant households whose countable income for the eligibility period is up to and including 60 percent (60%) of the state median income level released by the U.S. Department of Health and Human Services for federal fiscal year 2023 shall meet the income requirements for the Heating Fuel Assistance Program. The State Department shall adjust the income limits annually based on funds available and the state median income guidelines.

State median income level means the income level for a household as set forth in the federal register 86 FR 7732, 7732-7734, as of February 1, 2022. This rule does not contain any later amendments or editions. These guidelines are available for no cost at <https://www.federalregister.gov/>. These guidelines are also available for public inspection and copying at the Colorado Department of Human Services, Director of the Food and Energy Assistance Division, 1575 Sherman Street, Denver, Colorado, 80203, or at any state publications library during regular business hours.

\*\*\*\*\*

**3.752.23 Income Exclusions [Rev. eff. 11/1/15]**

\*\*\*\*\*

BB. A bona fide loan is a debt that the borrower has an obligation to repay and expresses his or her intention to repay, as documented in a written agreement or by collateral contact from the lender;

\*\*\*\*\*

HH. Any recurring or non-recurring health insurance subsidies paid directly to an employee by an employer to assist with the purchase of private health insurance.

**GENERAL REQUIREMENTS FOR CITIZENSHIP AND-LAWFUL PERMANENT RESIDENCY [Eff.12/1/14]**

**3.753.1 CITIZENSHIP AND LAWFUL PERMANENT RESIDENCY STATUS [Eff. 12/1/14]**

The following are citizens of the United States and are generally eligible to receive social services and public assistance.

- A. Persons born in the United States, Puerto Rico, Guam, Virgin Islands (U.S.), American Samoa, or Swain's Island;
- B. Persons who have become citizens through the naturalization process;
- C. Persons born to U.S. citizens outside the United States with appropriate documentation.

**3.753.11 Verification of Citizenship in the United States [Eff. 12/1/14]**

Documents that are acceptable as verification of citizenship can be found at 1 CCR 204-30, Appendix A.

**3.753.111 Verification of Questionable Citizenship Information [Eff. 12/1/14]**

The following shall be used in considering questionable statement(s) of citizenship from applicant:

- A. The claim of citizenship is inconsistent with statements made by the applicant, or with other information on the application, or on previous applications.
- B. The claim of citizenship is inconsistent with information received from another reliable source.

Application of the above criteria by the eligibility worker must not result in discrimination based on race, religion, ethnic background or national origin, and groups such as migrant farm workers or Native Americans shall not be targeted for special verification. The eligibility worker shall not rely on a surname, accent, or appearance that seems foreign to find a claim to citizenship questionable. Nor shall the eligibility worker rely on a lack of English speaking, reading or writing ability as grounds to question a claim to citizenship. There are no additional identification requirements for citizenship or lawful permanent residency status.

**3.753.187 Citizenship Requirements [Eff. 12/1/14]**

An applicant who does not meet lawful permanent residency or citizenship requirements shall not be included as a household member; however, all countable income of this individual shall be counted as part of the household's total income. The household's application shall not be denied due to lack of documentation regarding citizenship requirements if there are other household members who meet the citizenship requirements (i.e., minors born in the United States).

\*\*\*\*\*

**3.755.11 Verification in Determining Initial Eligibility and Payment Amount [Rev. eff. 12/1/14]**

Income, estimated home heating costs, and vulnerability shall be verified in determining initial eligibility and/or payment amount. If a household applied during the prior LEAP program year and there are no changes in the applicant, address and fuel provider, vulnerability may be copied from the prior year case file and provided in the current case file.

**3.755.2 VERIFYING INCOME**

**3.755.21 Adequate Verification of Income [Rev. eff. 11/1/15]**

\*\*\*\*\*

- K Gift income shall be considered verified with applicant declaration.

\*\*\*\*\*

**3.755.4 VULNERABILITY**

**3.755.45 Propane Purchase/Other Bulk Fuels [Eff. 11/1/15]**

Applicants who use propane or other bulk fuels, referred to in definitions in these rules, as their primary heating fuel must provide a receipt or statement from their vendor. Receipts must include the vendor's name, date, and the name and service address of the buyer.

Applicants, who utilize propane bottles, as described in definitions in these rules or purchase propane as a cash account, are required to provide a copy of a receipt of purchase only from a retail store or other propane provider.

**3.758.32 Death of Payee Affecting Issuance of Payment [Rev. eff. 12/1/14]**

\*\*\*\*\*

- C. In the case of a single member household client payment the executor of the estate may claim the payment. If the client payment is not claimed the payment will expunge two hundred seventy-four (274) days. In the case of a single member household vendor payment, the vendor will follow the process outlined in the vendor agreement.

\*\*\*\*\*  
\*\*\*\*\*

**3.758.47 Methodology for Calculating Heating Fuel Assistance Program Benefits [Rev. eff. 11/1/15]**

Step A. Determine Estimated Home Heating Costs (EHHC)

\*\*\*\*\*

2. For any applicant whose home heating costs for the prior year's heating season are not available or determined by the county department to be invalid, the county department shall use the flat rate amount. The State Department shall adjust the flat rate amounts annually, based on the average actual home heating costs found in the LEAP system by dwelling type for the prior year's heating season contained in the annual LEAP training manual.
3. The State Department shall adjust the standard rates for heating costs that are included in rent annually, based on the flat rate amounts adjustment contained in the annual LEAP training manual.

Title of Rule: Revision to the Child Health Plan Plus Rule Concerning Waiving of Enrollment Fees, Sections 50.4, 310 & 440.4

Rule Number: CHP 22-07-27-B

Division / Contact / Phone: Health Programs Office / Jeffrey Jaskunas / 3824

### STATEMENT OF BASIS AND PURPOSE

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

The proposed rule change will amend 10 CCR 25.5-8 107(b) and 2505-3 section 310, 50.4 & 440.4 based on the passage of HB-1289. This bill removed section 107(b) in its entirety, which has the effect of removing the Department's authority to charge and/or collect an enrollment fee for CHP+ eligible members.

As a result of this statutory change, prior amendments made due to the Coronavirus Aid, Relief, and Economic Security (CARES) Act, the Families First Coronavirus Response Act (FFCRA) and the Affordable Care Act (ACA), which includes the Maintenance of Effort (MOE) provision must be amended. Policy revisions will ensure continued alignment with federal regulations for the state and compliance during this Coronavirus (COVID-19) Public Health Emergency. These changes will impact Child Health Plan Plus (CHP+). These policy changes will stay in place as directed by HB 1289.

The policy changes are specific to the CHP+ program. Enrollment fees will be waived for all CHP+ eligible clients at the times of initial determination and renewal. Required through the Federal CARES Act for the Maintenance of Effort (MOE), the Department will continue eligibility for all the CHP+ categories according to its prior rule submission guidelines and categories to allow continued eligibility through the end of the Public Health Emergency as authorized in our State Plan Amendments and Waivers.

2. An emergency rule-making is imperatively necessary

- ☐ to comply with state or federal law or federal regulation and/or  
☐ for the preservation of public health, safety and welfare.

Explain:

3. Federal authority for the Rule, if any:

Families First Coronavirus Response Act (FFCRA), Public Law No. 116-127 and Coronavirus Aid, Relief, and Economic Security (CARES) Act, Public Law No. 116-136. The Affordable Care Act (ACA), which includes the Maintenance of Effort (MOE) provision.

Title of Rule: Revision to the Child Health Plan Plus Rule Concerning Waiving of Enrollment Fees, Sections 50.4, 310 & 440.4

Rule Number: CHP 22-07-27-B

Division / Contact / Phone: Health Programs Office / Jeffrey Jaskunas / 3824

### **REGULATORY ANALYSIS**

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

The proposed rules will impact members newly enrolled in the CHP+ programs and members being redetermined at renewal. The rule updates will benefit members enrolled in CHP+ by remaining eligible during and after this Coronavirus (COVID-19) Public Health Emergency without having to pay an enrollment fee.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

The proposed rule serves two aims. First, it complies with the directives of HB22-1289, which directs the removal of 25.5-8-107(b) from C.R.S. Secondly, it will help to determine eligibility correctly by applying regulations appropriately to help members remain eligible for the CHP+ programs during this Coronavirus (COVID-19) Public Health Emergency without having to pay an enrollment fee.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The first aim of this amendment is expected to result in a decrease in revenue collected by the Department through enrollment fee payments by CHP+ beneficiaries, which may be viewed as the cost associated with the change. This decrease is forecasted at \$400,000 in state funds per annum.

Through the second aim, the Department expects that eligibility could potentially increase as members who are outside the state for the duration of the emergency will not be disenrolled. This will lead to an increase in expenditure for the Department as the member will be included in the monthly capitation payment. The Department also assumes that the waiving of enrollment fees for the CHP+ program will

## **DO NOT PUBLISH THIS PAGE**

reduce revenues to the Department which will result in the increase of expenditures to the CHP+ Trust fund, Healthcare Affordability and Sustainability Fee (HAS) Cash Fund, and federal funds in order to fill the gap in revenue lost from the premiums. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

The Department expects that inaction to the proposal to allow remove CCR 25.5-8-107(b) to eliminate CHP+ enrollment fees will leave the Program in a position of non-compliance with state law. The Department sees no benefit to inaction.

In addition, the Department expects that inaction to the proposal to eliminate enrollment fees will cause potential members to not qualify because they are unable to pay the premiums due to the severity of the economic shock. The Department also sees no benefit to inaction.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are currently no less costly measures to the Department that will allow the Department to service members more effectively.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

There are no alternative methods for the proposed rule that were considered

## **50 DEFINITIONS**

- 50.1 “Applicant” shall mean a person applying or re-applying for benefits on behalf of a child and/or themselves.
- 50.2 “CBMS” shall mean Colorado Benefits Management System is the computer system that determines an applicant’s eligibility for public assistance in the state of Colorado.
- 50.3 “Child” means a person who is less than nineteen years of age.
- 50.4 “Cost sharing” shall mean payments, such as copayments that are due on behalf of the enrollee.
- 50.5 “Department” shall mean the Colorado Department of Health Care Policy and Financing which is responsible for administering the Colorado Medical Assistance Program and Children’s Basic Health Plan as well as other State-funded health care programs.
- 50.6 “Dependent child” shall mean a child who lives with a parent, legal guardian, caretaker relative or foster parent and is under the age of 18, or, is age 18 and a full-time student, and expected to graduate by age 19
- 50.7 “Effective Date” shall mean the first day of eligibility which is the date the application is received and date-stamped by the Eligibility site or the date the application was received and date-stamped by an Application Assistance site or Presumptive Eligibility site. In the absence of a date-stamp, the application date is the date that the application was signed by the client.
- 50.8 “Eligibility Site” shall mean a location outside of the Department that has been deemed by the Department as eligible to accept applications and determine eligibility for applicants.
- 50.9 “Enrollee” shall mean an eligible person who is enrolled in the Children’s Basic Health Plan.
- 50.10 “Essential Community Provider” means a healthcare provider that:
- A. Has historically served medically needy or medically indigent patients and demonstrates a commitment to serve low-income and medically indigent populations who make up a significant portion of its patient population, or in the case of a sole community provider, serves medically indigent patients within its medical capability; and
  - B. Waives charges or charges for services on a sliding scale based on income and does not restrict access or services because of a client’s financial limitations.
- 50.11 “Evidence of Coverage” or “EOC” shall mean any certificate, agreement, or contract issued to an enrollee from time-to-time by a Managed Care Organization (MCO) setting out the coverage to which the enrollee is or was entitled under the Children’s Basic Health Plan.
- 50.12 “Grievance Committee” shall mean a conference with the Department or its Designee in which a contested decision regarding an applicant or enrollee is reexamined.
- 50.13 “Household” shall be determined by relationships to the tax filer as declared on the Single Streamlined Application and as required in 10 CCR 2505-10-8.100.4.E.
- 50.14 “Income” shall be any compensation from participation in a business, including wages, salary, tips, commissions and bonuses. The Modified Adjusted Gross Income is a methodology used to determine eligibility as required in 10 CCR 2505-10-8.100.4.C.

- 50.15 "Managed Care Organization" or "MCO" shall mean:
- A. A carrier which meets the definition in §10-16-102 (8), C.R.S. with which the Department contracts to provide health care or dental services covered by the Children's Basic Health Plan; or,
  - B. Essential community providers and other health care and dental service providers with whom the Department contracted to provide health care services under the Children's Basic Health Plan using a managed care model.
- 50.16 "Presumptive Eligibility" shall mean children and pregnant women who have applied and appear to be eligible for the Children's Basic Health Plan shall be presumed eligible and may receive immediate temporary medical coverage.
- 50.17 "Unearned Income" shall be the gross amount received in cash or kind that is not earned from employment or self-employment.
- 50.18 "Woman" shall mean a female who is 19 years in age or older.

### **300 ENROLLMENT FEES AND COPAYMENTS**

### **440 DISENROLLMENT**

- 440.1 An enrollee shall be disenrolled from an MCO for the following reasons:
- A. Administrative error on the part of the Department, the Department's designee, or the MCO, including but not limited to enrollment of a person who does not reside in the MCO's service area; or,
  - B. A change in the enrollee's residence to an area not in the MCO's service area; or,
  - C. When an enrollee's coverage is terminated as described in section 440.1A.
- 440.2 If an enrollee is disenrolled from an MCO for any of the reasons stated in section 440.1 and there is another participating MCO available in the enrollee's county of residence, the enrollee shall be allowed to select a new MCO.
- 440.3 If the enrollee is enrolled in a MCO as defined in section 50.15B and a MCO as defined in section 50.15A becomes available in the child's county of residence, the enrollee will be disenrolled from the MCO as defined in section 50.15 B and enrolled in the MCO as defined in section 50.15A.

- 440.4 An enrollee may be disenrolled from both an MCO and/or the Children's Basic Health Plan for the following reasons:
- A. Fraud or intentional misconduct, including but not limited to knowing misuse of covered services, knowing misrepresentation of membership status; or,
  - B. An enrollee's receipt of other health care coverage; or,
  - C. The admission of an enrollee into any federal, state, or county institution for the treatment of mental illness, narcoticism, or alcoholism, or into any correctional facility; or,
  - D. Ineligibility for the program, based on the guidelines set forth in the Children's Basic Health Plan eligibility rules; or,
  - E. Failure to comply with cost sharing requirements (copayments) set forth in the Children's Basic Health Plan cost sharing rules; or,
  - F. There is not another participating MCO as defined in section 50.14 available in the enrollee's county of residence.
- 440.5 If an eligible person or an eligible person's family displays an ongoing pattern of behavior that is abusive to provider(s), staff or other patients; or, disruptive to the extent that the provider's ability to furnish services to the child or other patients is impaired, the eligible person may be disenrolled from his/her managed care organization. If there is another participating MCO available in the eligible person's county of residence, the Department may allow the eligible person to select a new MCO. If there is not another MCO available in the eligible person's county, the eligible person may be disenrolled from the Children's Basic Health Plan.

Title of Rule: Addition to the Medical Assistance Act Rule Concerning Outpatient Payment Rates for Opioid Antagonist, Section 8.300.6.A.4

Rule Number: MSB 22-07-27-A

Division / Contact / Phone: Fee for Service Rates / Andrew Abalos / 2130

### **STATEMENT OF BASIS AND PURPOSE**

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

House Bill 22-1326 appropriates funding allowing the Department of Health Care Policy and Financing to reimburse opioid antagonist drugs outside of its current reimbursement methodology. Currently, there is no distinct reimbursement for the opioid antagonist drug Naloxone in the payment bundles used for outpatient hospital payment calculation. This rule change will allow the Department to make payment outside of the payment bundles, creating greater incentive to outpatient hospitals to provide take-home Naloxone to patients at-risk for opioid overdoses.

2. An emergency rule-making is imperatively necessary

☐ to comply with state or federal law or federal regulation and/or  
☐ for the preservation of public health, safety and welfare.

Explain:

3. Federal authority for the Rule, if any:

4. State Authority for the Rule:

Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2022);  
HB 22-1326

Initial Review

Proposed Effective Date **10/30/22**

Final Adoption

Emergency Adoption

**09/09/22**

**DOCUMENT #01**

## **REGULATORY ANALYSIS**

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Persons benefiting from the proposed rule are Health First Colorado patients at-risk for opioid overdoses, as the rule will increase access to an opioid antagonist drug. Outpatient hospitals may bear the cost of the proposed rule when providing Naloxone if the payment rate is less than the acquisition cost of the drug, but in general this will increase the reimbursement rates associated with this drug compared to inaction.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Outpatient hospitals may bear the cost of the proposed rule when providing Naloxone if the payment rate is less than the acquisition cost of the drug, but in general this will increase the reimbursement rates associated with this drug compared to inaction. The benefits of this rule are a probable reduction in deaths relating to opioid overdoses within the Health First Colorado population.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

The probable costs to the Department were considered in HB 22-1326. However, the Department is also seeking State Plan authority from Centers for Medicare and Medicaid Services for this modified payment method. This authority will allow for federal funding, thereby reducing the cost of this change to the State of Colorado.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

A probable benefit to the rule is wider distribution of a life-saving drug to the portion of the Health First Colorado population at-risk for opioid overdoses, in comparison to our current authority, which does not provide additional payment for take-home Naloxone.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

## **DO NOT PUBLISH THIS PAGE**

There are no less or intrusive methods for achieving the purpose of the proposed rule.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

The Department considered the modification of its payment bundle weights used in payment calculation for achieving the purpose of this rule. However, this would have resulted in an increased payment for all drugs within the same payment package as Naloxone, which would result in significant budgetary impacts to the Department. The Department could have reduced such costs through modification of other payment bundle rates, but this may have disincentivized the provision of other outpatient hospital procedures. The proposed rule most directly achieves its purpose, without modification of payments to unrelated services.

## **8.300 HOSPITAL SERVICES**

### **8.300.6 Payments For Outpatient Hospital Services**

#### **8.300.6.A Payments to DRG Hospitals for Outpatient Services**

##### **1. Payments to In-Network Colorado DRG Hospitals**

Excluding items that are reimbursed according to the Department's fee schedule, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges multiplied by the Medicare cost-to-charge ratio less 28%. When the Department determines that the Medicare cost-to-charge ratio is not representative of a Hospital's Outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited Medicaid cost less 28% or billed charges less 28%.

Effective September 1, 2009, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 29.1 percent (29.1%). When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 29.1 percent (29.1%) or billed charges less 29.1 percent (29.1%).

Effective January 1, 2010, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 30 percent (30%). When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 30 percent (30%) or billed charges less 30 percent (30%).

Effective July 1, 2010, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 30.7 percent (30.7%). When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 30.7 percent (30.7%) or billed charges less 30.7 percent (30.7%).

Effective July 1, 2011, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 31.2 percent (31.2%). When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 31.2 percent (31.2%) or billed charges less 31.2 percent (31.2%).

Effective July 1, 2013, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 29.8 percent (29.8%).

When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 29.8 percent (29.8%) or billed charges less 29.8 percent (29.8%).

Effective July 1, 2014, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 28.4 percent (28.4%). When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 28.4 percent (28.4%) or billed charges less 28.4 percent (28.4%).

Effective July 1, 2015, Outpatient Hospital Services are reimbursed on an interim basis at actual billed charges times the Medicare cost-to-charge ratio less 28 percent (28%). When the Department determines that the Medicare cost-to-charge ratio is not representative of a hospital's outpatient costs, the cost-to-charge ratio may be calculated using historical data. A periodic cost audit is done and any necessary retrospective adjustment is made to bring reimbursement to the lower of actual audited cost less 28 percent (28%) or billed charges less 28 percent (28%).

Effective October 31, 2016, DRG Hospitals will be reimbursed for Outpatient Hospital Services based on a system of Enhanced Ambulatory Patient Grouping and a Hospital-specific Medicaid Outpatient base rate. The reimbursement for Outpatient Hospital Services shall be referred to as the EAPG Payment.

- a. The EAPG Payment will be equal to the EAPG Weight multiplied by the Hospital-specific Medicaid Outpatient base rate for that hospital as calculated in 10 CCR 2505-10, Section 8.300.6.A.1.k. If the EAPG Weight is modified due to any action impacting payment as described in sections 8.300.6.A.1.d-j, the modified EAPG Weight will be referred to as the EAPG Adjusted Weight. EAPG Payment will then be equal to the EAPG Adjusted Weight multiplied by the Hospital-specific Medicaid Outpatient base rate. If the billed amount is less than the EAPG Payment, reimbursement will be the billed amount.
- b. The EAPG Payment is calculated for each detail on the claim. Claim details with the same dates of service are grouped into a visit. Claims containing details describing charges for emergency room, treatment room services or patients placed under observation will have all its details grouped into a single visit.
- c. Each detail on a claim is assigned an EAPG. EAPGs can have the following types:
  - (1) Per Diem
  - (2) Significant Procedure. Subtypes of Significant Procedures Are:
    - (a) General Significant Procedures
    - (b) Physical Therapy and Rehabilitation
    - (c) Behavioral Health and Counseling
    - (d) Dental Procedure

- (e) Radiologic Procedure
    - (f) Diagnostic or Therapeutic Significant Procedure
  - (3) Medical Visit
  - (4) Ancillary
  - (5) Incidental
  - (6) Drug
  - (7) Durable Medical Equipment
  - (8) Unassigned
- d. A detail will be subject to EAPG Consolidation when it is assigned the same Significant Procedure EAPG as a detail not already subjected to EAPG Consolidation for that visit. EAPG Consolidation will also occur for details assigned EAPGs considered to be clinically similar to another EAPG during the visit. Details subject to EAPG Consolidation will have an EAPG Payment calculated using an EAPG Weight of 0.
- e. A detail will be subject to EAPG Packaging when its assigned EAPG is considered an ancillary service to a Significant Procedure EAPG or Medical Visit EAPG present on the claim for that visit. Details describing additional undifferentiated medical visits and services will be exempt from EAPG Packaging. A detail is also subject to EAPG Packaging when it is assigned a Medical Visit EAPG while a Significant Procedure EAPG is present on the claim for that visit. Details assigned Significant Procedure EAPGs that are not General Significant Procedures do not cause details with Medical Visit EAPGs to be subject to EAPG Packaging. Details subject to EAPG Packaging will be calculated using an EAPG Weight of 0.
- f. A detail will qualify for Multiple Significant Procedure Discounting when a Significant Procedure of the same subtype is present on the claim for that visit. Details qualifying for Multiple Significant Procedure Discounting are ordered by their EAPG Weight, by visit. Per visit, the qualifying detail with the greatest EAPG Weight will have its EAPG Payment calculated at 100 percent (100%) of its EAPG Weight. The qualifying detail for that visit with the next greatest EAPG Weight will have its EAPG Payment calculated at 50 percent (50%) of its EAPG Weight. All other qualifying details for that visit will have its EAPG Payment calculated at 25 percent (25%) of its EAPG Weight.
- g. Details assigned the same Ancillary EAPG on the same visit will qualify for Repeat Ancillary Discounting. EAPG Payment for the first occurrence of a detail qualifying for Repeat Ancillary Discounting for that visit and EAPG is calculated using 100 percent (100%) of its EAPG Weight. EAPG Payment for the second occurrence of a detail qualifying for Repeat Ancillary Discounting for that visit and EAPG is calculated using 50 percent (50%) of its EAPG Weight. EAPG Payment for all other details qualifying for Repeat Ancillary Discounting for that visit and EAPG will be calculated using 25 percent (25%) of their EAPG Weights.
- h. Details describing terminated procedures will be subject to Terminated Procedure Discounting. EAPG Payment for a detail subject to Terminated Procedure

Discounting is calculated using 50 percent (50%) of the EAPG Weight. Terminated procedures are not subject to other types of discounting.

- i. Details describing bilateral services will have EAPG Payment calculated using 150 percent (150%) of the EAPG Weight or the EAPG Payment not resulting from Terminated Procedure Discounting.
- j. Details describing 340B Drugs will have an EAPG Payment calculated using 80 percent (80%) of the EAPG Weight or the EAPG Payment not resulting from Terminated Procedure Discounting.
- k. The Hospital-specific Medicaid Outpatient base rate for January 1, 2022 for each hospital is calculated using the following method.
  - (1) Assign each hospital to one of the following groups based on hospital type and location:
    - (a) Pediatric Hospitals
    - (b) Critical Access Hospitals
    - (c) Non-Critical Access, System Hospitals
    - (d) Independent Hospitals
    - (e) Rehabilitation, Long-term Acute Care, and Brain/Spine Injury Hospitals
  - (2) Rehabilitation, Long-term Acute Care, and Brain/Spine Injury Hospitals are assigned their same hospital-specific base rate as effective immediately prior to January 1, 2022.
  - (3) Process Medicaid outpatient hospital claims from calendar year 2019 through the methodology described in 8.300.6.A.1.a-j using 3M's EAPG Relative Weights, scaled for budget neutrality purposes, and version 3.16 of the Enhanced Ambulatory Patient Grouping methodology. Hospital payment rates from version 3.10 of the methodology are then compared to the version 3.16 payment rates using the hospital-specific base rates immediately prior to January 1, 2022.
  - (4) For Critical Access Hospitals, a weighted average base rate by outpatient hospital visit is calculated EAPG payments for Critical Access Hospitals under version 3.10 and 3.16 are calculated using this weighted average base rate, then an inflation factor is applied to determine a revenue neutral rate for the Critical Access Hospital group. This inflation factor is then applied to all Critical Access Hospital rates effective immediately prior to January 1, 2022. For all other hospitals, with the exception of Rehabilitation, Long-term Acute Care, and Spine/Brain Injury Hospitals, a revenue neutral rate is calculated which aligns payment under version 3.16 of EAPGs to payments calculated under version 3.10.
  - (5) For Critical Access Hospitals, the average and standard deviation of their rates with the inflation factor applied is calculated. All Critical Access Hospitals with a rate falling below 1 standard deviation of the average is given a rate at 1 standard deviation below the average. For Critical

Access Hospitals with a rate above 2 standard deviations of the average is given a rate at 2 standard deviations above the average. For each other hospital group, except Rehabilitation, Long-term Acute Care, and Spine/Brain Injury Hospitals, the average and standard deviation of their rates are calculated. For hospitals that have a rate below 1.5 standard deviations of the average rate of their assigned group, the hospital is assigned a rate at 1.5 standard deviations below the group's average rate. For hospitals that have a rate above 1.5 standard deviations of the average rate of their assigned group, the hospital is assigned a rate at 1.5 standard deviations above the group's average rate.

- (6) For all hospitals, the Medicaid Outpatient base rate, as determined in 8.300.6.A.k.(1)-(4), shall be adjusted by an equal percentage, when required due to changes in the available funds appropriated by the General Assembly. The application of this change to the Medicaid Outpatient base rate shall be determined by the Department.

- I. Effective June 1, 2020, by the modification of the EAPG Weights, the allowed reimbursement of outpatient hospital drugs shall be increased by 42.93% for drugs provided at Critical Access Hospitals and Medicare Dependent Hospitals, and decreased by 3.47% for drugs provided at non-independent urban hospitals.

## 2. Payments to Out-of-Network DRG Hospitals

Excluding items that are reimbursed according to the Department's fee schedule, border-state Hospitals and out-of-network Hospitals, including out-of-state Hospitals, shall be paid 30% of billed charges for Outpatient Hospital Services. Consideration of additional reimbursement shall be made on a case-by-case basis in accordance with supporting documentation submitted by the Hospital.

Effective October 31, 2016, Out-of-Network DRG Hospitals will be reimbursed for Outpatient Hospital Services based the system of Enhanced Ambulatory Patient Grouping described in 10 CCR 2505-10 Section 8.300.6.A.1. Such hospitals will be assigned to a Rural or Urban peer group depending on hospital location and will receive a base rate of 90% of the respective peer group base rate as calculated in 8.300.6.A.1.k.(3). Out-of-Network DRG Hospitals will periodically have their Medicaid Outpatient base rates adjusted as determined in 8.300.6.A.k.(5).

## 3. Payments for Outpatient Hospital Specialty Drugs

Effective August 11, 2018, for services meeting the criteria of an Outpatient Hospital Specialty Drug that would have otherwise been compensated through the EAPG methodology, a hospital must submit a request for authorization to the Department prior to administration of the drug. If the request is approved, then the payment will be negotiated between the Department and the hospital on a case-by-case basis.

## 4. Payments for Select Outpatient Hospital Opioid Antagonist Drugs

Pursuant to [C.R.S. § 25.5-5-509](#), effective July 8, 2022, payments for select Outpatient Hospital Opioid Antagonist Drugs that would have otherwise been compensated through the EAPG methodology will be reimbursed at either the lower of the billed charges or the fee schedule rate.

Title of Rule: Revision to the Medical Assistance Act Rule concerning Telemedicine  
Electronic-Health (eHealth) Entities

Rule Number: MSB 22-05-03-A

Division / Contact / Phone: Health Programs Office / Russ Zigler / 303-866-5927

### **STATEMENT OF BASIS AND PURPOSE**

1. Summary of the basis and purpose for the rule or rule change. (State what the rule says or does and explain why the rule or rule change is necessary).

House Bill 21-1256 gave the Department authority, at C.R.S. § 25.5-5-320(1), to promulgate rules specifically relating to entities that deliver health-care or mental health-care services exclusively or predominately through telemedicine, otherwise referred to as Electronic-Health entities (eHealth Entities). The proposed rule creates a Telemedicine section in rule that delineates telemedicine service coverage and eligibility generally, while also defining eHealth Entities. Under the proposed rule, existing rule benefit sections that include telemedicine services will reference the new Telemedicine section rather than defining it in each benefit section separately.

2. An emergency rule-making is imperatively necessary

☐ to comply with state or federal law or federal regulation and/or  
☐ for the preservation of public health, safety and welfare.

Explain:

3. Federal authority for the Rule, if any:

4. State Authority for the Rule:

Sections 25.5-1-301 through 25.5-1-303, C.R.S. (2022);  
C.R.S. 25.5-5-320(1) (2021)

Initial Review

Title of Rule: Revision to the Medical Assistance Act Rule concerning  
Telemedicine Electronic-Health (eHealth) Entities

Rule Number: MSB 22-05-03-A

Division / Contact / Phone: Health Programs Office / Russ Zigler / 303-866-5927

### **REGULATORY ANALYSIS**

1. Describe the classes of persons who will be affected by the proposed rule, including classes that will bear the costs of the proposed rule and classes that will benefit from the proposed rule.

Colorado's Medicaid program covered health care services provided through telemedicine prior to the passage of House Bill 21-1256, so long as the services meet the same standard of care as an in-person visit and are delivered using HIPAA-compliant technology. As such, members should not see a difference in services rendered. Providers that qualify as eHealth Entities are impacted by the proposed rule and will benefit from the availability of this new provider type.

2. To the extent practicable, describe the probable quantitative and qualitative impact of the proposed rule, economic or otherwise, upon affected classes of persons.

Providers that qualify as eHealth Entities benefit from the availability of this new provider type that is designed for their business model.

3. Discuss the probable costs to the Department and to any other agency of the implementation and enforcement of the proposed rule and any anticipated effect on state revenues.

Colorado's Medicaid program covered health care services provided through telemedicine prior to the passage of HB 21-1256, so long as the services meet the same standard of care as an in-person visit and are delivered using HIPAA-compliant technology. As such, the addition of e-Health Entities is anticipated to be budget neutral.

4. Compare the probable costs and benefits of the proposed rule to the probable costs and benefits of inaction.

There are not anticipated costs to the Department for implementing the proposed rule, as telemedicine is already covered by Colorado Medicaid. The benefits of the rule are aligning Department rule with House Bill 21-1256 and creating a new provider type for provision of telemedicine

**DO NOT PUBLISH THIS PAGE**

services. The cost of inaction is misalignment between House Bill 21-1256 and Department rule. There are no benefits to inaction.

5. Determine whether there are less costly methods or less intrusive methods for achieving the purpose of the proposed rule.

There are no less costly methods or intrusive methods to align Department rule with House Bill 21-1256.

6. Describe any alternative methods for achieving the purpose for the proposed rule that were seriously considered by the Department and the reasons why they were rejected in favor of the proposed rule.

There are no alternative methods for aligning Department rule with House Bill 21-1256.

## **8.095 Telemedicine**

### **8.095.1.A DEFINITIONS**

1. Electronic Health Entity (eHealth Entity) means a group practice that delivers services exclusively through telemedicine and is enrolled in a provider type that has an eHealth specialty. eHealth entities:
  - a. Cannot be Primary Care Medical Providers;
  - b. Can be either in-state or out-of-state.
2. Facilitated Visit means a Telemedicine visit where the rendering provider is at a distant site and the member is physically present with a support staff team member who can assist the provider with in-person activities.
3. HIPAA means the federal "Health Insurance Portability and Accountability Act of 1996", PUB. L. 104-191, as amended, which is incorporated herein by reference. Pursuant to C.R.S. § 24-4-103(12.5) (2022), the Department maintains copies of this incorporated text in its entirety, available for public inspection during regular business hours at: Colorado Department of Health Care Policy and Financing, 1570 Grant Street, Denver, CO 80203. Certified copies of incorporated materials are provided at cost upon request.
4. Primary Care Medical Provider (PCMP) means an individual physician, advanced practice nurse or physician assistant, who contracts with a Regional Accountable Entity (RAE) in the Accountable Care Collaborative (ACC), with a focus on primary care, general practice, internal medicine, pediatrics, geriatrics, or obstetrics and gynecology.
5. Telemedicine means the delivery of medical and health-care services and any diagnosis, consultation, or treatment using interactive audio (including but not limited to telephone and relay calls), interactive video (including but not limited to interactive audiovisual modalities), or interactive data communication (including but not limited to live chat and excluding text messaging, electronic mail, and facsimile transmission).

### **8.095.2 CLIENT ELIGIBILITY**

- 8.095.2.A. All Colorado Medicaid clients are eligible for medical and behavioral services delivered by telemedicine.

### **8.095.3 PROVIDER ELIGIBILITY**

- 8.095.3.A. Any licensed provider enrolled with Colorado Medicaid is eligible to provide telemedicine services within the scope of the provider's practice.
- 8.095.3.B. Providers that meet the definition of an eHealth Entity shall enroll as the eHealth specialty.

### **8.095.4 COVERED SERVICES**

- 8.095.4.A. Covered Telemedicine services must:
1. Meet the same standard of care as in-person care;
  2. Be compliant with state and federal regulations regarding care coordination;
  3. Be services the Department has approved for delivery through Telemedicine;

4. Be within the provider's scope of practice and for procedure codes the provider is already eligible to bill;
5. Be provided only where contact with the provider was initiated by the member for the services rendered; and
6. Be provided only after the member's consent, either verbal or written, to receive telemedicine services is documented.

8.095.4.B. eHealth Entities shall only provide:

1. Covered Telemedicine services, including Facilitated Visits.

#### **8.095.5 PRIOR AUTHORIZATION REQUIREMENTS**

8.095.5.A. The use of Telemedicine does not change prior authorization requirements for the underlying services provided.

#### **8.095.6 RECORDKEEPING.**

8.095.6.A. eHealth Entities must maintain a Release of Information in compliance with current HIPAA standards to facilitate communication with the member's PCMP.

#### **8.095.7 REIMBURSEMENT**

8.095.7.A Pursuant to C.R.S. § 25.5-5-320(2) (2022), the reimbursement rate for a Telemedicine service shall, as a minimum, be set at the same rate as the Colorado Medicaid rate for a comparable in-person service.

#### **8.095.8 NON-COVERED SERVICES**

8.095.8.A Services not otherwise covered by Colorado Medicaid are not covered when delivered through Telemedicine.

### **8.200 PHYSICIAN SERVICES**

#### **8.200.3. BENEFITS**

8.200.3.B Physician services may be provided as telemedicine in accordance with Section 8.095.

8.200.3.C Services and goods generally excluded from coverage are identified in Section 8.011.11.

8.200.3.D Physician Services

Note: 8.200.3.D.1 Podiatry Services was moved to §8.810 01/2015.

2. Speech – Language and Hearing Services

#### **c. ELIGIBLE PLACES OF SERVICE**

- i. Eligible Places of Service shall include:
  - 1. Office
  - 2. Home
  - 3. School
    - A. Therapies provided as part of a member's school requirement are not separately reimbursable. These services are paid for by the school district which is reimbursed by the Department. Providers may not submit claims for therapy services performed as part of a member's school requirement.
  - 4. FQHC
  - 5. Outpatient Hospital
  - 6. Community Based Organization
  - 7. Telemedicine in accordance with Section 8.095.

## **8.520 HOME HEALTH SERVICES**

### **8.520.4. Covered Services**

#### **8.520.4.B. Place of Service**

- 1. Services shall be provided in the client's place of residence or one of the following places of service:
  - a. Assisted Living Facilities (ALFs);
  - b. Alternative Care Facilities (ACFs);
  - c. Group Residential Services and Supports (GRSS) including host homes, apartments or homes where three or fewer clients reside. Services shall not duplicate those that are the contracted responsibility of the GRSS;
  - d. Individual Residential Services and Supports (IRSS) including host homes, apartments or homes where three or fewer clients reside. Services shall not duplicate those that are the contracted responsibility of the IRSS; or

- e. Hotels, or similar temporary accommodations while traveling, will be considered the temporary place of residence for purposes of this rule.
- f. Nothing in this section should be read to prohibit a client from receiving Home Health Services in any setting in which normal life activities take place, other than a hospital, nursing facility; intermediate care facility for individuals with intellectual disabilities; or any setting in which payment is or could be made under Medicaid for inpatient services that include room and board.
- g. Telemedicine may be provided in accordance with Section 8.095.

## **8.700 FEDERALLY QUALIFIED HEALTH CENTERS**

### **8.700.1 DEFINITIONS**

8.700.1.C. The visit definition includes interactive audio (including but not limited to telephone and relay calls), interactive video (including but not limited to interactive audiovisual modalities), or interactive data communication (including but not limited to live chat and excluding text messaging, electronic mail, and facsimile transmission) encounters in accordance with Section 8.095.

- 1. Any health benefits provided through interactive audio (including but not limited to telephone and relay calls), interactive video (including but not limited to interactive audiovisual modalities), or interactive data communication (including but not limited to live chat and excluding text messaging, electronic mail, and facsimile transmission) must meet the same standard of care as in-person care in accordance with Section 8.095.

## **8.730 FAMILY PLANNING SERVICES**

### **8.730.3 Provider Eligibility**

8.730.3.B. Eligible places of service include:

- 1. Office
- 2. Clinic
- 3. Public Health Agency
- 4. Home
- 5. School
- 6. School-based Health Center

7. Federally Qualified Health Center
8. Rural Health Center
9. Hospital
10. Ambulatory Surgery Center
11. Telemedicine may be provided in accordance with Section 8.095.

## **8.740 RURAL HEALTH CLINICS**

### **8.740.1 DEFINITIONS**

Rural Health Clinic (RHC) means a clinic or center that:

1. Has been certified as a Rural Health Clinic under Medicare.
2. Is located in a rural area, which is an area that is not delineated as an urbanized area by the Bureau of the Census.
3. Has been designated by the Secretary of Health and Human Services as a Health Professional Shortage Area (HPSA) through the Colorado Department of Public Health and Environment.
4. Is not a rehabilitation facility or a facility primarily for the care and treatment of mental diseases.

Visit means a face-to-face encounter, or an interactive audio (including but not limited to telephone and relay calls), interactive video (including but not limited to interactive audiovisual modalities), or interactive data communication (including but not limited to live chat and excluding text messaging, electronic mail, and facsimile transmission) encounter in accordance with Section 8.095, between a clinic client and a health professional providing the services set forth in 8.740.4. Any health benefits provided through interactive audio, interactive video, or interactive data communication must meet the same standard of care as in-person care.

## **8.750 COMMUNITY MENTAL HEALTH CENTERS/CLINICS**

### **8.750.3 COVERED SERVICES**

8.750.3.B. Community Mental Health Centers/Clinics shall provide medically necessary rehabilitation services in an outpatient setting. Covered services shall include:

1. Case management services, including but not limited to:
  - a. Service planning and program linkage.
  - b. Referral recommendations.
  - c. Monitoring and follow up.
  - d. Client advocacy.
  - e. Crisis management.
2. Group psychotherapy services shall be face-to-face, or interactive audio (including but not limited to telephone and relay calls), interactive video (including but not limited to interactive audiovisual modalities), or interactive data communication (including but not limited to live chat and excluding text messaging, electronic mail, and facsimile transmission) in accordance with Section 8.095, services that are insight-oriented, behavior modifying, and that involve emotional interactions of the group members. Group psychotherapy services shall assist in providing relief from distress and behavior issues with other clients who have similar problems and who meet regularly with a practitioner. Any health benefits provided through interactive audio, interactive video, or interactive data communication must meet the same standard of care as in-person care
3. Individual psychotherapy services shall be face-to-face, or interactive audio (including but not limited to telephone and relay calls), interactive video (including but not limited to interactive audiovisual modalities), or interactive data communication (including but not limited to live chat and excluding text messaging, electronic mail, and facsimile transmission) in accordance with Section 8.095, services that are tailored to address the individual needs of the client. Services shall be insight-oriented, behavior modifying and/or supportive with the client in an office or outpatient facility setting. Individual psychotherapy services are limited to thirty-five visits per State fiscal year. Any health benefits provided through interactive audio, interactive video, or interactive data communication must meet the same standard of care as in-person care

## **Permanent Rules Adopted**

### **Department**

Department of Human Services

### **Agency**

Supplemental Nutrition Assistance Program (SNAP)

### **CCR number**

10 CCR 2506-1

### **Rule title**

10 CCR 2506-1 RULE MANUAL VOLUME 4, SNAP 1 - eff 11/01/2022

### **Effective date**

11/01/2022

## **4.900 ADMINISTRATIVE PROCEDURES**

### **4.901 ADMINISTRATION OF SNAP**

- A. SNAP shall be administered in every county of the state in accordance with the regulations promulgated by the Colorado Department of Human Services and these rules.
- B. SNAP shall be administered by the local offices of social/human services unless the State Department enters into a written agreement with a particular county to have a state-administered program in that county. As a condition for receiving grant-in-aid from the state for PA and welfare activities, each county must bear the proportion of the total administrative and program costs for all assistance payments and social services activities as required by Section 26-1-122, C.R.S.
- C. Local offices of social/human services shall comply with all requirements concerning security and case processing for the automated system.
- D. Counties shall receive approval from the State Department, prior to using any county-developed forms in the administration of SNAP.

\*\*\*\*\*

## **4.902 COUNTY ADMINISTRATION REQUIREMENTS**

### **4.902.1 Local SNAP Office**

Local offices shall ensure that adequate locations and hours of operation exist to meet the needs of SNAP clients in their areas. Each location shall have ample availability for parking and shall be accessible to persons with disabilities. Hours of operation shall be sufficient to ensure the timely processing of applications and issuance of EBT cards according to existing guidelines. Counties must establish procedures for the operation of the local office that best serves households within that county. Local offices shall establish procedures to assist households with special needs including, but not limited to: households containing persons who are aged sixty (60) and older or persons with disabilities; households in rural areas with low-income members; households experiencing homelessness; households containing adult members who are not proficient in English; and households containing working persons.

A household must apply for SNAP in its county of residence. A local office that receives an application that belongs to another county may secure the application date, process the application to completion, issue the household an EBT card, and then transfer the case to the correct county once the final eligibility decision is made. If a household is determined eligible for participation, it may request and be designated to receive SNAP from a local office that is more accessible. It is possible for an issuance unit in one local office to determine eligibility, authorize SNAP benefits, and issue EBT cards to an eligible household that resides in another county in Colorado.

Local offices may also transfer certification and/or EBT card issuance duties for those households only receiving SNAP that live closer to the local office in a neighboring county than the county of residence.

#### **4.902.2 Phone Directory Listings**

- A. Each local office telephone number available to the public shall be listed under each of the following two alphabetical listings:
  - 1. SNAP certification and issuance office, street address, phone number. If there are separate certification and issuance offices in the county, they may be listed in this manner: local office (certification only) or (issuance only), street address, phone number.
  - 2. (Name of the county) Department of Human/Social Services, local office (certification only) or (issuance only), street address, phone number.
- B. Each local office shall provide a toll-free number or a number where collect calls will be accepted for households outside the local calling area.
- C. The listings above are not to restrict any other listings that may be provided within the telephone directory, but only to standardize the availability of SNAP to the public.

\*\*\*\*\*

#### **4.902.3 Certification Personnel and Facilities Requirements**

- A. County employees assigned to certify households for participation in SNAP shall be employed in accordance with the current standards for a merit system personnel administration that is guided by a set of six broad merit principles outlined in the Intergovernmental Personnel Act of 1970 (42 U.S.C. 4728), as amended. The principles cover recruiting, compensation, training, retention, equal employment opportunity, and guidance on political activity. Only such qualified employees shall interview SNAP households and determine household eligibility or ineligibility and the level of benefits.
- B. Every local office must utilize an appropriate amount of the staff allocated to it and utilize effective and efficient practices in administering SNAP. Facilities must, within available state legislative appropriations and federal and required county matching funds, be of adequate size and layout to assure the privacy necessary to allow workers to conduct confidential interviews and perform other office duties efficiently and effectively. Any persons or organizations who are parties to a strike or lockout shall not be permitted to interview or certify households or to secure verification required of such households. However, such individuals may be used as a source of verification for information provided by applicant households if, under normal circumstances, they could be expected to be the best verification source. An eligibility technician who is the spouse of a striker is not considered party to a strike but shall not certify his or her household.

#### **4.902.31 Bilingual Staff, Interpreter, and Translator Requirements**

- A. Local offices determined by the State Department to have a significant population of Limited English Proficiency (LEP) households shall provide sufficient bilingual staff and/or translators for the timely processing of applications. Local office staff shall be trained and familiar with these procedures.

- B. During those periods when there is a significant influx of seasonal or migrant farmworkers, local offices shall provide sufficient bilingual staff and/or translators for the timely processing of such applicants.
- C. If translators or interpreters are utilized, the local office shall ensure that the translators or interpreters are readily available to assist in pre-screening clients for expedited processing standards and completing the interview and other activities necessary to determine the eligibility of the applicant household. The local office shall not require the client to provide a translator or interpreter, or to in any way imply that an interpreter is required, as a condition for being pre-screened or interviewed by the local office, nor shall the local office postpone or in any way delay the pre-screening process or appointments because of the unavailability of bilingual staff or translators/interpreters.

#### **4.902.32 Restrictions on Staff**

- A. Volunteers or other personnel who do not meet the criteria outlined in Section 4.902.3 may not be allowed to interview or certify households but may be used for pre-screening, assistance in the completion of applications, obtaining verifications to support statements made on the application, and the transportation of clients. In certain situations, volunteers may act as authorized representatives for households unable to come to the local office.
- B. Volunteers may also be used as translators or interpreters when necessary to pre-screen clients and to complete the interview. If volunteers are utilized, the local office shall ensure that volunteers are available, as necessary, for the timely processing of applications. Such volunteers utilized to pre-screen clients or to translate/interpret during the interview shall be educated on confidentiality requirements.
- C. Any persons or organizations who are parties to a strike or lockout shall not be permitted to interview or certify households or to secure verification required of such households. However, such individuals may be used as a source of verification for information provided by households if, under normal circumstances, they could be expected to be the best verification source. An eligibility technician who is the spouse of a striker is not considered party to a strike but shall not certify his or her household.

The facilities of persons or organizations who are parties to a strike or lockout may not be used in the certification process or as a site for certification interviews.

#### **4.902.4 Local Office Case Review Responsibilities**

Local offices shall establish a documented method to review a random sample of current SNAP determinations (certifications, denials, and terminations) to determine the correctness of eligibility determinations accomplished. A record of the cases reviewed must be kept for management evaluation/audit purposes. Local offices must be able to demonstrate to the satisfaction of the State Department that the frequency and scope of the reviews are adequate to ensure the integrity of both the program and clients. Additionally, local offices must demonstrate a consistent process for tracking error trends, correcting case records timely, and providing eligibility technicians an opportunity to improve their program knowledge.

#### **4.902.5 Retention of Case Records**

Each local office shall retain all program records in an orderly fashion for audit and review purposes for no less than three (3) years from the month of origin of each record. In addition:

- A. The local office shall retain fiscal records and accountable documents for three (3) years from the date of fiscal or administrative closure. Fiscal closure means that obligations for or against the federal government have been liquidated. Administrative closure means that the state agency has determined and documented that no further action to liquidate the obligation is appropriate. Fiscal records and accountable documents include, but are not limited to, claims and documentation of lost benefits.
- B. Case records relating to intentional program violation (IPV) disqualifications and related notices to the household shall be retained indefinitely until the local office obtains reliable information that the individual who was disqualified has died or until the information is received from the national disqualified recipient database system that all records associated with a particular individual, including the disqualified client database record, may be permanently removed from the database because of the individual's eightieth (80th) birthday.

#### **4.902.6 Non-Discrimination Complaint Requirements**

Both state and local offices shall ensure that all local office staff responsible for the administration, issuance, review, and eligibility determination of SNAP are knowledgeable about civil rights procedures and are able to assist clients with the filing of civil rights complaints. Local office staff must undergo state-prescribed training on civil rights procedures annually.

### **4.903 STATE ADMINISTRATION RESPONSIBILITIES**

#### **4.903.1 Information Available to the Public**

- A. Federal regulations, federal procedures embodied in Food and Nutrition Service (FNS) notices and policy memos, the SNAP rules, and State Plans of Operation (including specific planning documents such as corrective action plans) shall be available upon request for examination by members of the public during office hours at the State Department. Copies of materials are available to recipient organizations, action centers, and other individuals for a minimal printing charge.
- B. The SNAP rules shall be available for examination upon request at each local office within each county. They are also available online through the Secretary of State's official publication of State Agency rules in the Colorado Code of Regulations, accessible at: <https://www.sos.state.co.us/CCR/Welcome.do>.

#### **4.903.2 Reporting Lawsuits**

FNS regulations require prompt notification from the State Department of any lawsuits involving the administration of SNAP.

As SNAP is administered under the supervision of the State Department, it is mandatory that all legal proceedings involving SNAP be brought to the attention of the State Department immediately for notification to the FNS.

#### **4.903.3 Management Evaluations (ME)**

The State Department is responsible for supervising the administration of SNAP. To ensure compliance with program requirements, the State Department is responsible for conducting ME reviews to measure compliance with the provisions of these rules. The objectives of the ME review system are to:

- A. Provide a systematic method of monitoring and assessing program operations in the counties;
- B. Provide a basis for counties to improve and strengthen program operations by identifying and correcting deficiencies;
- C. Provide a continuous flow of information between the counties, the State Department, and FNS to develop solutions to problems in SNAP policy and procedures; and,
- D. Provide a review of target program areas as identified by USDA, FNS.

#### **4.903.31 Frequency of ME Reviews**

The State Department shall conduct an ME review of all SNAP operations:

- A. At least once annually on each large project area containing more than twenty-five thousand and one (25,001) participating households;
- B. At least once every two (2) years on each medium project area containing five thousand (5,000) to twenty-five thousand (25,000) participating households; and,
- C. At least once every three (3) years on each small project area containing four thousand nine hundred and ninety-nine (4,999) or fewer participating households.

The State Department may conduct ME reviews on an alternative schedule with the written approval of the USDA, FNS. The State Department may also perform reviews of specific local offices or program elements. The USDA, FNS, or the State Department, may identify the need for a special review, or the local office may request a special review.

Reviews will generally include all aspects of program administration in the large project areas. The reviews may be more limited in scope in the medium and small project areas. The USDA, FNS, generally identifies target program areas that it requires for review each fiscal year.

The State Department will complete the ME report for all counties that are reviewed and will be responsible for monitoring the county responses to any findings.

The county shall be responsible for submitting any factual corrections to the ME review within twenty (20) state working days and shall submit a final plan to correct all other cited deficiencies within twenty (20) state working days of receiving the review. The response shall include specific actions, persons responsible for implementation, and the date for completion. When the review identifies ongoing problems in critical areas, the county response shall also include a method for monitoring implementation of the plan and reporting progress to the state department on at least a quarterly basis.

#### **4.903.32 Compliance Action for ME Reviews**

The State Department is the designated entity responsible for ensuring that corrective action is taken at the state and/or county level on the deficiencies found by the ME Reviews.

The state may impose fiscal sanctions on counties that do not make good-faith efforts to address ongoing problems in critical areas. Fiscal sanctions may be imposed in accordance with Section 4.901.1, which requires local offices to operate the program in accordance with state rules.

#### **4.903.4 Quality Assurance (QA) Reviews**

QA reviews are conducted during the annual federal QA review period, which is the twelve (12) month period from October 1 of each calendar year through September 30 of the following calendar year.

- A. QA reviews are federally mandated to provide:
  - 1. A systematic method of measuring the validity of the SNAP caseload;
  - 2. A basis for determining error rates;
  - 3. A timely and continuous flow of information on which to base corrective action at all levels of administration; and,
  - 4. A basis for establishing liability for errors that exceed the federal error rate target and the State's eligibility for an increased share of federal administrative funding and/or federal high-performance bonuses.
- B. Reviews are conducted on:
  - 1. Active cases to determine if the household is eligible and, if eligible, whether the household is receiving the correct SNAP benefits.
  - 2. Negative cases to determine if households that were denied or terminated were, in fact, not eligible to participate in SNAP and that the household received an accurate, timely notice as defined in sections 4.205.2, 4.209.1, and 4.608. The review of a negative case includes:
    - a. A household case record review;
    - b. An error analysis;
    - c. Client notification; and,
    - d. The reporting of review findings.

#### **4.903.41 QA Review Procedures**

- A. Each month a statistically random sample of active and negative cases is selected for QA review. The sampling of both active and negative cases is accomplished through the master file from the automated system.

- B. Case records for the monthly selected sample may be reviewed by QA in the local office, or the local office may be requested to forward the case records to the appropriate state QA office for review prior to the field reviews and verification of eligibility factors. Local offices shall make case records available for review no later than seven (7) business days from the date that the request is received by the local office.
- C. When the local office receives a request for one or more cases for QA review, the following steps shall be taken in preparing the case record:
  - 1. All documents and notes supporting eligibility decisions and/or basis of issuance related to the case and actions taken by the local office that apply to the sample/review month shall be included in the case record.
  - 2. Accomplishment of the objectives of QA depends upon the successful operation of all aspects of the sampling system, including the elimination of bias to prevent bias, the local office shall not take any action that might alter the findings or misrepresent the household's circumstance including, but not limited to:
    - a. Making changes that would affect eligibility and payment;
    - b. Adding or removing documentation/verification from the official case record; or,
    - c. Contacting the household sampled, the QA reviewer, or making collateral contacts to obtain additional information to clarify the household's circumstances, obtain statements or coerce the household into saying or doing anything that might alter the findings or misrepresent the household's circumstances for the review month.
- D. These provisions do not apply to routine case management such as acting on reported changes, completing recertifications, or issuing a notice of expiration.

#### **4.903.42 Refusal to Cooperate with QA Review**

Households selected for review are required to cooperate with federal and state QA review processes.

Households that refuse to cooperate in a QA review shall be declared ineligible for SNAP benefits in this section. The state QA reviewer shall notify the local office of the household's refusal to cooperate in the review process, including everyone who refused, and the local office shall document the refusal to cooperate in the statewide automated system.

- A. Within ten (10) calendar days from the date of receipt of QA's notification of the household's refusal to cooperate, the local office shall take action to disqualify or terminate the entire household from participation in SNAP and each household member who refused to cooperate shall be entered into the automated system to initiate a period of ineligibility. The period of ineligibility is as follows:
  - 1. For refusal to cooperate with a state QA review, the period of ineligibility shall exist for the remainder of the current federal fiscal year plus one hundred twenty-five (125) days and shall expire on February 2 of that federal fiscal year.

2. For refusal to cooperate with a federal QA review, the period of ineligibility shall exist for the remainder of the current federal fiscal year plus nine (9) months and shall expire on June 30 of that federal fiscal year.
- B. If a member or members who refused to cooperate with a QA review leaves the household, the ineligibility period shall follow the household member(s) who refused to cooperate.
- If a household is disqualified or terminated for refusal to cooperate with a QA review, the household may reapply. The household cannot be determined eligible until it cooperates with the QA review and provides verification of all eligibility factors.
- C. If a household that has refused to cooperate with a state QA review reapplies more than one hundred twenty-five (125) days after the end of the annual federal QA review period, or refused to cooperate with a federal review and reapplies more than nine (9) months from the end of the annual federal QA review period, the household shall not be determined ineligible for its refusal to cooperate and is required to provide verification of all eligibility factors before it can be approved for benefits.

#### **4.903.43 QA Findings and Required Responses**

QA shall notify local offices on State-prescribed forms of the review findings for each sampled active and negative case. Brief descriptions of the review findings shall be given with references to applicable rule sections.

- A. When the review findings document no error and/or only other observations have been noted, a response is not required by the local office; however, any observation that affects the payment accuracy must be corrected and a claim or restoration established in accordance with Sections 4.801.2 and 4.702. The report of review findings shall be retained in the case record.
- B. When the review findings document that an error resulted in ineligibility, over-issuance, under-issuance, or an incorrect negative action, the local office shall take action to correct any errors discovered within ten (10) calendar days.
- If the local office disagrees with a review finding then a response should be sent to the State Department for further review.
- C. Upon receiving the local office's response to the QA review findings, the State Department shall review the action taken by the local office and either concur with the QA findings; concur with the local office rebuttal; or concur/disagree with the corrective action taken by the local office.
1. The local office shall be notified of the final QA review findings.
  2. Upon receipt of final notification of the results of the findings, the local office must take corrective action to terminate ineligible households within ten (10) calendar days, restore lost benefits, or establish a claim in accordance with Sections 4.801.2 and 4.702.
- D. Local offices are required by the State Department to report twice a year to the State Department the status of all QA review findings that required case corrections.

#### **4.903.44 Federal QA Reviews**

For purposes of validating the State's QA findings, the FNS Regional Office will conduct a sub-sample re-review of the State QA sample. As part of this re-review process, the Federal Regional Office will conduct case record reviews to the extent necessary to determine the accuracy of state QA findings. The FNS Regional Office may request case records and/or verify any aspects of state QA findings. The local offices shall forward case records in their entirety as outlined in Section 4.903.41 that are selected for FNS regional office review within ten (10) calendar days of the request.

*[Editor's Notes follow the text of the rules at the end of this CCR Document.]*

---

**30.000 ADULT PROTECTIVE SERVICES**

**30.100 DEFINITIONS**

The following definitions shall apply to these rules.

“Abuse”, pursuant to Section 26-3.1-101(1), C.R.S., means any of the following acts or omissions committed against an at-risk adult:

- A. The non-accidental infliction of physical pain or injury, as demonstrated by, but not limited to, substantial or multiple skin bruising, bleeding, malnutrition, dehydration, burns, bone fractures, poisoning, subdural hematoma, soft tissue swelling, or suffocation;
- B. Confinement or restraint that is unreasonable under generally accepted caretaking standards; or,
- C. Unlawful sexual behavior as defined in Section 16-22-102(9), C.R.S.

“Adult Protective Services (APS) Program” means the State Department supervised, county department administered program that has the authority to investigate and/or assess allegations of mistreatment and self-neglect of at-risk adults. The APS Program offers protective services to prevent, reduce, or eliminate the current or potential risk of mistreatment or self-neglect to the at-risk adult using community based services and resources, health care services, family and friends when appropriate, and other support systems. The APS Program focuses on the at-risk adult and those services that may prevent, reduce, or eliminate further mistreatment or self-neglect. The APS Program refers possible criminal activities to law enforcement and/or the district attorney for criminal investigation and possible prosecution.

“Allegation” means a statement asserting an act or suspicion of mistreatment or self-neglect involving an at-risk adult.

“Alternative Response” means the pilot program authorized by 26-3.1-103.3, C.R.S., allowing pilot-participant county departments to engage in a dual-track response model for response to allegations of mistreatment and self-neglect against at-risk adults beginning January 4, 2023. The two response options are the traditional response track and the alternative response track.

“Alternative response track” means the response track established as an option for allegations of mistreatment or self-neglect determined by a pilot-participant county department to be low risk. No finding shall be made in the alternative response track.

“Assessment” means the process of evaluating a client’s functional abilities to determine the client’s level of risk and, in cooperation with the client whenever possible, to identify service needs for the case plan.

“Assumed responsibility”, as used in the definition of caretaker, means a person who is providing or has provided recurring or temporary assistance to help meet the basic needs of an at-risk adult. The

assumption of responsibility can attach by entering into a formal or informal agreement, whether paid or unpaid; by identifying oneself as a caretaker to others; or based on the nature of the situation or relationship between the caretaker and the at-risk adult.

“At-risk adult”, pursuant to Section 26-3.1-101(1.5), C.R.S., means an individual eighteen (18) years of age or older who is susceptible to mistreatment or self-neglect because the individual is unable to perform or obtain services necessary for his or her health, safety, or welfare, or lacks sufficient understanding or capacity to make or communicate responsible decisions concerning his or her person or affairs.

“Authorized requestor” as used in section 30.960, means an employer, a person or entity conducting the employee CAPS check on behalf of the employer, or the court that are required to request CAPS checks.

“CAPS” means the Colorado Adult Protective Services State Department prescribed data system.

“CAPS check” means a check of the Colorado Adult Protective Services data system pursuant to Section 26-3.1-111, C.R.S.

“Caretaker”, pursuant to Section 26-3.1-101(2), C.R.S., means a person who:

- A. Is responsible for the care of an at-risk adult as a result of a legal relationship; or
- B. Has assumed responsibility for the care of an at-risk adult; or,
- C. Is paid to provide care, services, or oversight of services to an at-risk adult.

“Caretaker neglect”, pursuant to Section 26-3.1-101(2.3), C.R.S., means neglect that occurs when adequate food, clothing, shelter, psychological care, physical care, medical care, habilitation, supervision, or other treatment necessary for the health, safety, or welfare of the at-risk adult is not secured for an at-risk adult or is not provided by a caretaker in a timely manner and with the degree of care that a reasonable person in the same situation would exercise, or when a caretaker knowingly uses harassment, undue influence, or intimidation to create a hostile or fearful environment for an at-risk adult. However, the withholding, withdrawing, or refusing of any medication, any medical procedure or device, or any treatment, including but not limited to resuscitation, cardiac pacing, mechanical ventilation, dialysis, artificial nutrition and hydration, any medication or medical procedure or device, in accordance with any valid medical directive or order, or as described in a palliative plan of care, is not deemed caretaker neglect. In addition to those exceptions identified above, pursuant to 25-48-1-16(2), C.R.S., access to medical aid-in-dying medication in good faith shall not be considered caretaker neglect.

“Case” means the process by which a county department provides services to an at-risk adult. A case begins when a report identifies an at-risk adult and allegations that qualify as a mistreatment or self-neglect, and the report is screened in for investigation and assessment. The county department may continue to provide services under a case after the investigation has concluded.

“Caseload average” means the fiscal year monthly average of new cases and the sum of cases carried over from the prior fiscal year, per caseworker. The fiscal year caseload average is calculated as:  $[(\text{new cases}/12) + \text{cases carried over from prior FY}] / \text{FTE on June 30} = \text{caseload average}$ . Caseload average will fluctuate on a monthly basis that may be influenced by a number of factors; therefore, the caseload average is based on the fiscal year average.

“Case planning” means using the information obtained from the investigation and/or assessment to identify, arrange, and coordinate protective services in order to reduce the client’s level of risk for mistreatment and self-neglect and improve safety.

“Certification due date” means the date by which new APS staff must complete certification training. The certification due date for supervisors, lead caseworkers, and caseworkers is six months from the date the

---

supervisor, lead caseworker, or caseworker was hired or transferred to the APS program. The certification due date for case aides and screeners is one month from the date the case aide or screener was hired or transferred to the APS program.

“Clergy member”, pursuant to Section 26-3.1-101(2.5), C.R.S., means a priest; rabbi; duly ordained, commissioned, or licensed minister of a church; member of a religious order; or recognized leader of any religious body.

“Client” means an actual or possible at-risk adult for whom a report has been received and the county department has made a response.

“Collateral contact” means a person who has relevant knowledge about the client’s situation that supports, refutes, or corroborates information provided by a client, reporting party, or other person involved in the case. Examples of contacts include, but are not limited to, family members, law enforcement, health care professionals, service providers, facility staff, neighbors, the reporting party, friends, and any person who provides/provided ongoing care or support to the client.

“Conclusion”, as used in alternative response track investigations, means a determination of whether mistreatment or self-neglect occurred as alleged.

“County Department” means a county department of human/social services.

“Court”, as used in Section 30.960, means the Denver probate court or a state district court that hears petitions for and appoints guardians and/or conservators for at-risk adults.

“Date of notice” means the date that the notice of a substantiated finding against a perpetrator(s) is mailed to the last known mailing address(es) of the perpetrator(s).

“Direct care”, pursuant to Section 26-3.1-101(3.5), C.R.S., means services and supports, including case management services, protective services, physical care, mental health services, or any other service necessary for the at-risk adult’s health, safety, or welfare. An employer may identify which employees provide direct care, consistent with this definition, in an internal policy.

“DORA” as used in Section 30.520, means the Department of Regulatory Agencies, Division of Professions and Occupations that oversees the licensure of healthcare professionals.

“Employee”, pursuant to Section 26-3.1-111(2)(A), C.R.S., means a person, other than a volunteer, who is employed by or contracted with an employer and includes a prospective employee.

“Employer”, pursuant to Section 26-3.1-111(2)(B), C.R.S., means a person, facility, entity, or agency described in Section 26-3.1-111(7), C.R.S., and includes a prospective employer. “Employer” also includes a person hiring someone to provide Consumer-Directed Attendant Support Services pursuant to C.R.S. Article 10 of Title 25.5, if the person requests a CAPS check.

“Enhanced supervision” means CAPS security access that prevents a caseworker from finalizing an investigation, assessment, case plan, or case closure without supervisory approval.

“Exploitation”, pursuant to Section 26-3.1-101(4), C.R.S., means an act or omission that:

- A. Uses deception, harassment, intimidation, or undue influence to permanently or temporarily deprive an at-risk adult of the use, benefit, or possession of anything of value; or,
  - B. Employs the services of a third party for the profit or advantage of the person or another person to the detriment of the at-risk adult; or,
-

- C. Forces, compels, coerces, or entices an at-risk adult to perform services for the profit or advantage of the person or another person against the will of the at-risk adult; or,
- D. Misuses the property of an at-risk adult in a manner that adversely affects the at-risk adult's ability to receive health care or health care benefits or to pay bills for basic needs or obligations.

"Facility" means a medical or long-term care facility that provides 24 hour care and oversight for residents, and includes a group home, alternative care facility, state regional center, or state mental health facility.

"Financial institution", pursuant to Section 26-3.1-101(5), C.R.S., means a state or federal bank, savings bank, savings and loan association or company, building and loan association, trust company, or credit union.

"Fiscal Year" means the State Department fiscal year, which begins July 1 and ends June 30.

"FTE" means Full Time Equivalent. The actual percentage of time a person works on the APS program shall be considered that person's FTE.

"Good cause", except as applied by a court, means emergency conditions or other circumstances which would prevent a reasonable person from meeting a deadline or complying with APS rule or practice. Examples include, but are not limited to, law enforcement request to delay the APS investigation; inability to locate the client or collaterals despite reasonable, documented attempts; additional time required to obtain documents which were timely requested but not delivered; lack of proper notice to the substantiated perpetrator of the availability of an appeal; etc.

"Harmful act", pursuant to Section 26-3.1-101(5.5), C.R.S., means an act committed against an at-risk adult by a person with a relationship to the at-risk adult when such act is not defined as abuse, caretaker neglect, or exploitation but causes harm to the health, safety, or welfare of an at-risk adult.

"Health Insurance Portability and Accountability Act of 1996 (HIPAA)" means the healthcare privacy law and its accompanying regulations found at p.l. 104-191, 110 stat. 1936 (Aug. 21, 1996), 45 C.F.R. parts 160, 162, 164 (2021), which are herein incorporated by reference. No later additions or amendments are incorporated. The public law is available at <https://www.govinfo.gov>. The regulations are available at <https://www.ecfr.gov>. Both the public law and the regulations are also available for public inspection and copying at the Colorado Department of Human Services, Office of Adult, Aging and Disability Services, 1575 Sherman St., Denver, CO 80203, during regular business hours.

"Inconclusive finding", as used in traditional response track investigations, means that indicators of mistreatment or self-neglect may be present but the investigation could not confirm the evidence to a level necessary to substantiate the allegation.

"Investigation" means the process of determining whether mistreatment or self-neglect occurred pursuant to Section 26-3.1-101, C.R.S.. In traditional response track investigations, this includes reaching a finding as determined by a preponderance of the evidence. In alternative response track investigations, a conclusion will be determined.

"Least restrictive intervention" means acquiring or providing services, including protective services, for the shortest duration and to the minimum extent necessary to remedy or prevent mistreatment or self-neglect.

"Licensed healthcare professional" as used in Section 30.520, means a person who is licensed through the Department of Regulatory Agencies, Division of Professions and Occupations (DORA) for a healthcare profession or healthcare occupation, as defined in DORA's healthcare professions and occupations scope statute, Section 12-30-101, C.R.S.

---

“Medical Directive or Order”, pursuant to Section 26-3.1-101(2.3)(C), C.R.S., means a medical durable power of attorney, a declaration as to medical treatment executed pursuant to Section 15-18-104, C.R.S., a medical order for scope of treatment form executed pursuant to Article 18.7 of Title 15, C.R.S., and a cardiopulmonary resuscitation (CPR) directive executed pursuant to Article 18.6 of Title 15, C.R.S.

“Minor impact” means the client may experience some difficulty with the assessment risk indicator, but there is very little impact on the client’s overall health, safety, and/or welfare and no intervention is necessary to improve overall safety.

“Mistreatment”, pursuant to Section 26-3.1-101(7), C.R.S., means:

- A. Abuse;
- B. Caretaker neglect;
- C. Exploitation; or,
- D. A harmful act.

“Mistreatment occurred - not culpable finding”, as used in traditional response track investigations, means the investigation established by a preponderance of the evidence that mistreatment occurred but the individual who caused the mistreatment is not culpable. Documentation must clearly support that the individual who caused the mistreatment is an at-risk adult or a minor child with cognitive functioning that prevents the at-risk adult or child from having awareness of the consequences of their actions, as demonstrated by county department observations of cognition or behaviors, and/or interviews with expert collaterals, and/or medical or neuro-psych records, and/or behavioral plans developed by the adult’s or child’s service agency. A “mistreatment occurred – not culpable finding” must be used if the individual who caused the mistreatment is a child under the age of ten (10) years old.

“Person with a relationship”, as applied to the definition of harmful act, means a person who can be identified as having a relationship or attempting to develop a relationship with an at-risk adult. The relationship may include but is not limited to a familial, legal, caretaking, pastoral, friendship, or other relationship and excludes strangers.

“Potential appointee”, as used in Section 30.960, means a person nominated in a petition filed with the court who may be appointed by the court as a guardian or conservator of an at-risk adult.

“Preponderance of the evidence” means credible evidence that a claim is more likely true than not.

“Protective Services” means services by the state or political subdivisions or agencies thereof in order to prevent the mistreatment or self-neglect of an at-risk adult. Such services include, but are not limited to:

- A. Providing casework services;
  - B. Arranging for, coordinating, delivering where appropriate, and monitoring services, including medical care for physical or mental health needs;
  - C. Protection from mistreatment and self-neglect;
  - D. Assistance with applications for public benefits;
  - E. Referral to community service providers; and,
  - F. Initiation of probate proceedings.
-

“Reassessment” means the process of updating the assessment status areas and the case plan, including the status of any services implemented and any new services and/or goals identified since the last assessment.

“RED Team” is an acronym that stands for Review, Evaluate, and Direct. The RED Team is a decision making process that utilizes a structured framework to determine the county department’s response to reports.

“Report” means an oral, electronic, or written report of suspected mistreatment or self-neglect of a suspected at-risk adult, received by the county department.

“Risk” means conditions and/or behaviors that create increased difficulty or impairment to the client’s ability to ensure health, safety, and welfare.

“Safety” means the extent to which a client is free from harm or danger, or to which harm or danger is lessened.

“Self-Determination” means the right to decide for one’s self; the ability or right to make one’s own decisions without interference from others.

“Self-neglect”, pursuant to Section 26-3.1-101(10), C.R.S., means an act or failure to act whereby an at-risk adult substantially endangers his or her health, safety, welfare, or life by not seeking or obtaining services necessary to meet the adult’s essential human needs. Choice of lifestyle or living arrangements shall not, by itself, be evidence of self-neglect. Refusal of medical treatment, medications, devices, or procedures by an adult or on behalf of an adult by a duly authorized surrogate medical decision maker or in accordance with a valid medical directive or order, or as described in a palliative plan of care, shall not be deemed self-neglect. Refusal of food and water in the context of a life-limiting illness shall not, by itself, be evidence of self-neglect. “medical directive or order” includes, but is not limited to, a Medical Durable Power of Attorney, a Declaration as to Medical Treatment executed pursuant to Section 15-18-104, C.R.S., a Medical Orders for Scope of Treatment Form executed pursuant to Article 18.7 of Title 15, C.R.S., and a CPR Directive executed pursuant to Article 18.6 of Title 15, C.R.S. In addition to those exceptions identified above, access to Medical Aid in Dying, pursuant to Title 25, Article 48, C.R.S., shall not be considered self-neglect.

“Severity Level” means the extent of the impact caused to the client as a result of mistreatment.

- A. Minor – Mistreatment occurred that resulted in little to no harm or change to the client’s health, safety, welfare, or finances.
- B. Moderate – Mistreatment occurred that resulted in harm or change to the client’s health, safety, welfare, or finances.
- C. Severe – Mistreatment occurred that resulted in substantial harm or change to the client’s health, safety, welfare, or finances.

“Significant impact” means that the client’s impairment diminishes the client’s health, safety, and/or welfare and intervention is necessary to improve overall safety.

“Staffing a case” means the review of an APS case between the supervisor and caseworker to ensure the appropriateness of the investigation findings, client assessment, case plan, service provision, need for ongoing services, plans to terminate services, documentation, and overall intervention as it relates to APS rules and best practices. Staffing a case may include the county department APS unit, the State Department APS unit, and/or the APS Team in addition to the supervisor and caseworker.

“State Department” means the Colorado Department of Human Services.

---

“Substantiated finding”, as used in traditional response track investigations, means that the investigation established by a preponderance of the evidence that mistreatment or self-neglect has occurred.

“Support network” means persons who provide consistent, recurrent, or ongoing care or support to the client, such as family members, doctors, care providers, or guardians.

“Traditional response track” means the response track established for allegations of mistreatment or self-neglect that includes completion of a traditional response track investigation as outlined in Section 30.520. The traditional response track shall be assigned to all allegations that are not determined to be low risk by county departments participating in the Alternative Response pilot program described in 26-3.1-103.3, C.R.S.

“Unable to investigate/not required” means an investigation was not possible because the county department was unable to gather any investigative evidence and exhausted all options and leads by which to conduct an investigation; or the report was screened in and later determined it did not meet APS criteria for investigation, as outlined in Section 30.510.B.

“Undue Influence” means the use of influence to take advantage of an at-risk adult’s vulnerable state of mind, neediness, pain, or emotional distress.

“Unsubstantiated finding”, as used in traditional response track investigations, means the investigation did not establish any evidence that mistreatment or self-neglect has occurred.

### **30.200 ADULT PROTECTIVE SERVICES PROGRAM ADMINISTRATION AND OVERVIEW**

#### **30.220 APS PROGRAM REVIEW AND OVERSIGHT**

- A. Under Section 26-1-111(1)(D), C.R.S., the county departments are supervised by the State Department in providing welfare services and shall be subject to the rules of the Executive Director and the State Board of Human Services, which require the State Department to ensure that the county department complies with requirements provided by statute, State Board of Human Services and Executive Director rules (9 CCR 2501-1), federal laws and regulations, and contract and grant terms. More information about the state and county relationship can be found in Sections 26-1-115 through 26-1-119, C.R.S.
  - B. The county department shall be subject to routine quality control and program monitoring, to minimally include:
    - 1. Targeted review of CAPS documentation;
    - 2. Review and analysis of data reports generated from CAPS;
    - 3. Case review;
    - 4. Targeted program review conducted via phone, email, or survey; and,
    - 5. Onsite program review.
  - C. The focus of the monitoring shall be to identify:
    - 1. Compliance with program statute and rules;
    - 2. Best practices that can be shared with other county departments; and,
    - 3. Training needs.
-

- D. The county department may be subject to a performance improvement plan to correct areas of identified non-compliance as stated in the APS Oversight Plan, herein incorporated by reference; no later amendments or editions are incorporated. The APS oversight plan can be found at <https://bit.ly/APS-OP> and is available for public inspection and copying during normal business hours at Adult Protective Services, 1575 Sherman St., Denver, Colorado, 80203.
- E. If the county fails to make improvements required under the performance improvement plan, the county department may be subject to corrective action, and/or sanctions, as authorized by Section 26-1-109(4), C.R.S., 9 CCR 2501-1, and the APS oversight memo in Subsection D, above.

**30.240 APS PRINCIPLES – CONSENT, SELF DETERMINATION, AND LEAST RESTRICTIVE INTERVENTION**

- A. The client's consent is not required for the county department to investigate or assess allegations of mistreatment or self-neglect.
- B. The final decision as to acceptance of protective services shall rest with the client unless the client has been adjudicated incapacitated by the court or as outlined in Section 30.600.
  - 1. It shall not be construed that a person is being mistreated or is self-neglecting for the sole reason that he or she is being furnished or is relying upon treatment or practices in accordance with the tenets and practices of that person's recognized church or religious denomination.
- C. Protective services provided to and other services arranged for the client shall constitute the least restrictive intervention and be those services provided for the shortest duration and to the minimum extent necessary to meet the needs of the client.

**30.250 CONFIDENTIALITY**

- A. Pursuant to Section 26-3.1-102(7)(a), C.R.S. and except as provided in Section 26-3.1-102(7)(b), C.R.S. and Section 30.250.B, reports of the mistreatment or self-neglect of any at-risk adult, including the name and address of any at-risk adult, member of said adult's family, or informant, or any other identifying information contained in such reports and subsequent cases resulting from the reports, is confidential, and is not public information. The county department shall treat all information related to the report and the case, whether in written or electronic form, as confidential and such information includes, but is not limited to, the following:
  - 1. Identifying information, such as the name, address, relationship to the at-risk adult, Date of Birth, or Social Security Number of the:
    - a. At-risk adult;
    - b. At-risk adult's family members;
    - c. Reporting party;
    - d. Alleged perpetrator; and,
    - e. Other persons involved in the case.
  - 2. Allegations, assessment, and investigative findings, including, but not limited to:
    - a. The initial report of allegations and concerns;

- b. The client's safety and risk as determined by the client assessment;
    - c. Medical and behavioral diagnoses, past medical conditions, and disabilities;
    - d. Services provided to or arranged for the adult;
    - e. Information learned as a result of a criminal investigation;
    - f. Information obtained during the APS investigation and the substantiation or non-substantiation of the allegations; and,
    - g. Legal protections in place including, but not limited to, wills, advance directives, powers of attorney, guardianship, conservatorship, representative payeeship, and protective orders.
  - B. Pursuant to Section 26-3.1-102(7)(b), C.R.S., disclosure of a report of the mistreatment or self-neglect of an at-risk adult and information relating to an investigation of such a report and subsequent cases resulting from the report is permitted only when authorized by a court for good cause. A court order is not required, and such disclosure is not prohibited when:
    - 1. A criminal investigation into an allegation of mistreatment is being conducted, when a review of death by a coroner is being conducted when the death is suspected to be related to mistreatment, or when a criminal complaint, information, or indictment is filed and the report and case information is relevant to the investigation, death review, complaint, or indictment.
    - 2. There is a death of a suspected at-risk adult from mistreatment or self-neglect and a law enforcement agency files a formal charge or a grand jury issues an indictment in connection with death.
    - 3. The disclosure is necessary for the coordination of multiple agencies' joint investigation of a report or for the provision of protection services to an at-risk adult, such as, but not limited to:
      - a. Coordination with law enforcement to conduct a joint investigation;
      - b. Providing protective services, such as establishing eligibility for, arrangement and implementation of services and benefits, and appointment of a guardian and/or conservator.
      - c. A review of a power of attorney is requested under the uniform power of attorney act, as outlined at C.R.S. Title 15, Article 14, Part 7 or review of a fiduciary under C.R.S. Title 15, Article 10, Part 5.
      - d. Reviewing a case with the Adult Protection Team to find solutions to cases with complex service provision needs, in accordance with the Adult Protection Team's by-laws, and when in executive session with members who have signed a confidentiality agreement.
    - 4. The disclosure is necessary for purposes of an audit of a county department of human or social services pursuant to Section 26-1-114.5, C.R.S.
    - 5. The disclosure is made for purposes of the appeals process relating to a substantiated case of mistreatment of an at-risk adult pursuant to Section 26-3.1-108(2), C.R.S.
-

- a. This Subsection is in addition to and not in lieu of other federal and state laws concerning protected confidential information. Disclosures allowed are:
    - i. Notification made by the county department to substantiated perpetrator(s) of mistreatment pursuant to Section 26-3.1-108, C.R.S.
    - ii. Disclosure by the State Department for purposes of the appeals process relating to a substantiated case of mistreatment of an at-risk adult pursuant to Section 26-3.1-108(2), C.R.S.
  - 6. The disclosure is made by the State Department to an employer, or to a person or entity conducting employee screening on behalf of the employer, as part of a CAPS check pursuant to Section 26-3.1-111, C.R.S. or by a county department pursuant to Section 26-3.1-107, C.R.S.
  - 7. The disclosure is made to an at-risk adult, or if the at-risk adult is otherwise incompetent at the time of the request, to the guardian or guardian ad litem for the at-risk adult, with the following conditions:
    - a. The disclosure shall not be made until after investigation is complete; and,
    - b. The disclosure shall not include any identifying information related to the reporting party or any other appropriate persons, as follows:
      - i. The county department shall redact any and all identifying information related to the reporting party; and,
      - ii. The county department may redact Personal Identifying Information (PII) related to the client, supports, collaterals, and alleged or substantiated perpetrators, as deemed necessary by the county department; and,
    - c. The county department shall redact all Personal Health Information (PHI) of the reporting party, supports, collaterals, and alleged or substantiated perpetrator that is protected by the Health Insurance Portability and Accountability Act of 1996 (HIPAA), as incorporated by reference in Section 30.100, above, state and/or federal law, and,
    - d. The county department shall obtain from the guardian a copy of the guardianship order or guardian ad litem appointment, independently verify that the order or appointment remains valid, and attach the order or appointment to the client's case in CAPS; and,
    - e. If the guardian is a substantiated perpetrator in a case of mistreatment of an at-risk adult, the disclosure must not be made without authorization by the court for good cause. The county department shall require the guardian to obtain a court order and the county department shall obtain a copy of the court order from the guardian and attach the order to the case in CAPS.
  - 8. The disclosure is made to a county department that assesses or provides protective services for children, when the information is necessary to adequately assess for safety and risk or to provide protective services for a child. A county department that assesses or provides protective services for at-risk adults is similarly permitted to access information from a county department that assesses or provides protective services for children pursuant to Section 19-1-307(2)(X), C.R.S.
-

- a. Information must be limited to information regarding prior or current reports, assessments, investigations, or case information related to an at-risk adult or an alleged perpetrator.
  - b. The provisions of this Subsection 30.250.B.8 are in addition to and not in lieu of other federal and state laws concerning protected or confidential information.
    - i. The county department may not share Personal Identifying Information (PII) or Personal Health Information (PHI) protected by HIPAA, as incorporated by reference in Section 30.100, above, that is not necessary to the child welfare investigation, assessment, or provision of services for the child(ren).
    - ii. Information provided to child welfare staff must be the minimum necessary for worker safety concerns for child welfare staff, the investigation, assessment, and provision of services for the child(ren).
    - iii. County department APS staff may share information with any county department's child welfare staff.
    - iv. The county department's child welfare staff shall not be provided access to CAPS, unless that child welfare staff person is also the county department's APS staff person.
- 9. The disclosure is made to an employer required to request a CAPS check pursuant to Section 26-3.1-111 or to the State Department agency that oversees the employer when the information is necessary to ensure the safety of other at-risk adults under the care of the employer. The information must be the minimum information necessary to ensure the safety of other at-risk adults under the care of the employer or oversight of the State Department agency.
- 10. The disclosure is made pursuant to Section 26-3.1-111(12), C.R.S. to a health oversight agency, as defined in 45 CFR 164.501 incorporated by reference in Section 30.100,<sup>1</sup>, within the Department of Regulatory Agencies or a regulator within such a health oversight agency, as defined in Section 12-20-102(14), C.R.S.
  - a. The State Department, not county departments, shall provide this information to DORA.
  - b. County departments must observe all confidentiality requirements in the event DORA contacts them during an investigation.
- 11. The disclosure is made to the court pursuant to Section 26-3-111(3)(b) and (8.5)(b).
- C. Whenever there is a question about the legality of releasing information the requestor shall be advised to submit a written request to the appropriate court to order the county department to produce the desired records or information within the custody or control of the county department.
- D. Information released under Section 30.250.B, shall be the minimum information necessary to secure the services, conduct the investigation, or otherwise respond to the court order. The county department shall:

---

<sup>1</sup> Section 26-3.1-111(H), C.R.S. refers to a health oversight agency defined in federal regulation at 42 CFR 164.501. This appears to be a typographical error as no such regulation exists. The definition for health oversight agency can be found at 45 CFR 164.501.

---

1. Provide the information only to persons deemed essential to the court order, criminal or APS investigation, adult protection team activities, or the provision of services;
  2. Edit the information prior to its release to physically remove or redact information not essential to the court order, criminal or APS investigation, adult protection team activities, or provision of services and benefits;
  3. Redact all information that would identify the reporting party unless ordered by the court, the reporting party has given written consent, or when sharing the report with law enforcement, per Section 26-3.1-102(3), C.R.S.;
  4. Always redact all HIPAA protected information, as incorporated by reference in Section 30.100, above, and any other confidential information which is protected by law unless specifically ordered by a court; and,
  5. Redact all other report and case information not directly related to the court order.
- E. In a criminal or civil proceeding or in any other circumstance in which the APS report and/or case record is subpoenaed or any request for disclosure has been made, or any county department or State Department representative is ordered to testify concerning an APS report or case, the court shall be advised, through proper channels, of the statutory provisions, rules, and policies concerning disclosure of information.
1. Confidential information shall not be released unless so ordered by the court for good cause, except as outlined in Section 26-3.1-102 (7)(b), C.R.S. and Section 30.250.B.
  2. The county department or State Department shall comply within the time frame ordered by the court, unless a motion to quash is pending, or, if there is no stated timeline within the court order, in accordance with county department or State Department policy and provide a written notice with the information to be released regarding the legality of sharing confidential information.
- F. Individuals or groups requesting information regarding APS reports and/or investigations shall be informed of the confidential nature of the information and shall be advised that a court order is required to release information held by the county department, except as provided in section 26-3.1-102(7)(b), C.R.S., and at Section 30.250.B above. These persons or groups include, but are not limited to:
1. Federal and state legislators;
  2. Members of other governmental authorities or agencies, including county commissioners, city councils, school boards, and other city and county department boards, councils, officials, and employees;
  3. Courts;
  4. Attorneys, guardians, conservators, agents under powers of attorney, representative payees, and other fiduciaries;
  5. Family members, reporting parties, or other interested parties;
  6. Any alleged perpetrator; and,
  7. Media representatives.
-

- G. Any person who violates any provision of Section 26-3.1-102(7) and/or Subsection 30.250, A through F, is guilty of a civil infraction and, upon conviction thereof, shall be punished by a fine of not more than one hundred dollars as provided in Section 26-3.1-102(7), C.R.S.
- H. All confidential APS information and data shall be processed, filed and stored using safeguards that prevent unauthorized personnel from acquiring, accessing, or retrieving the information.
  - 1. Client files created prior to July 1, 2014 when CAPS was implemented shall be kept in a secured area when not in use. All other documents related to APS reports and cases shall be kept in CAPS, as outlined in Section 30.260, B and C.
  - 2. Laptops and other mobile devices used to document in the field shall be protected and encrypted in compliance with HIPAA security requirements, as incorporated by reference in Section 30.100, above.
  - 3. Email correspondence that contains APS confidential information shall be sent through secure encryption programs.
  - 4. The State Department shall ensure that only State Department and county department staff persons with a business need to do so shall have access to CAPS.
    - a. All CAPS users must electronically sign the CAPS Security and Confidentiality Agreement annually and follow the requirements therein.
    - b. County departments shall not access information in CAPS that is not necessary to serve the client.
    - c. Violations of CAPS security and confidentiality requirements may result in loss of access to CAPS, at the discretion of the State Department.
- I. Clients shall be referred to the Colorado Address Confidentiality Program (ACP) as appropriate to determine their eligibility for services including the legal substitute mailing address and mail forwarding services. The State Department and county department shall comply with any applicable provisions for APS clients enrolled in the ACP.

### **30.300 STAFF QUALIFICATIONS, TRAINING, AND DUTIES**

#### **30.330 TRAINING REQUIREMENTS**

- G. All training hours shall be documented in CAPS within fourteen (14) calendar days of the end of each fiscal year.

#### **30.340 STAFF DUTIES AND RESPONSIBILITIES**

- A. The direct supervisor or lead worker shall, at a minimum:
    - 1. Receive reports of mistreatment and self-neglect as outlined in Section 30.400.
    - 2. Evaluate the report, determine the response, and develop a plan for caseworker safety, as outlined in Sections 30.400.
    - 3. Staff open cases of each caseworker monthly to ensure cases meet program requirements related to the provision of protective services.
-

4. Review and provide final approval of all findings and conclusions as outlined in Section 30.520.A.8 and 30.525.A.7, and ensure timely notification is made to perpetrators who have substantiated findings made against them in APS cases, as outlined in Section 30.910. Findings made by lead workers shall be reviewed by a supervisor.
5. Review cases to ensure:
  - a. Timely casework;
  - b. Investigation, assessment, and case planning were thorough and complete;
  - c. Case closure, if applicable, was appropriate; and,
  - d. Documentation in CAPS is complete and accurate.
6. Review of cases shall be completed using one of two approved methods:
  - a. Method One: using the case review score card in CAPS, each month review not less than fifteen percent (15%) of each caseworker's cases that were open and/or closed during the month; or,
  - b. Method Two: approve every county APS case at key junctures of the APS casework process utilizing the automated approval process in CAPS, as follows:
    - 1) Upon completion of the initial investigation, assessment, and case plan;
    - 2) Upon completion of a six month reassessment for cases open longer than six months; and,
    - 3) At case closure.
7. Assess APS caseworkers' professional development needs and provide opportunities for training.
8. Respond to APS reports or have a contingency plan to respond within assigned time frames, including emergencies, and to provide protective services when no caseworker is available.

#### **30.400 REPORT RECEIPT AND RESPONSE**

##### **30.420 REPORT CATEGORIZATION**

- A. The county department shall review and evaluate all reports received utilizing the RED Team process and framework or a review by a supervisor or lead worker to determine whether the report should be screened in for investigation or screened out. If RED Team is the selected method, the county shall utilize the RED Team framework in CAPS.
  - B. The county department shall first determine whether the report involves mistreatment or self-neglect of an adult the county department could reasonably conclude was an at-risk adult at the time of the mistreatment, based upon information in the report related to physical, medical, and/or cognitive deficits or diagnoses and/or information in prior APS reports or cases.
  - C. If the report does not involve mistreatment or self-neglect of an at-risk adult the report shall be screened out no later than the third working day after receipt of the report.
-

- D. If the report does involve mistreatment or self-neglect of an at-risk adult, the county department shall then make a screening decision based on a determination as to whether the report meets one of the exceptions outlined below:
1. The report shall be screened out and the county department shall not complete an investigation when:
    - a. The alleged incidence was previously investigated and there is no new information in the report that impacts the client's current health, safety, or welfare;
    - b. The only allegation is self-neglect of an adult who has been assessed by APS within the past six months, and, the self-neglect is substantively unchanged from the previous APS case, and the adult has a recent history of refusing services, and there is no reported decline in the adult's abilities and/or change in circumstances;
    - c. There is no information to locate the client and no ability to obtain additional information necessary to proceed with an investigation;
    - d. The only allegation is self-neglect and the county department has confirmed with the reporting party or other professional that the adult has been moved to a stable, long-term and safe placement, the client has sufficient services in place to mitigate risks, or the adult died prior to the county department's screening decision.
  2. The report may be screened out when:
    - a. The mistreatment occurred more than one hundred-eighty (180) days prior to the report; and,
    - b. The county department can reasonably determine that the alleged perpetrator no longer has contact with the client and/or is no longer providing direct care to at-risk adults, pursuant to Section 30.960.A.
    - c. The county department may screen the report in for investigation at the county department's discretion.
  3. Reports not subject to an exception outlined in Section 30.420.D.1 and 2 shall be screened in for investigation and are determined to be a case; except when a new allegation(s) is received and the county department has a current open case, the new report shall be screened out and the new allegation shall be added to and investigated in the current open case.
- E. If the report is screened out, the county department may:
1. Contact the adult to offer services for another program in the county department, such as Medicaid or behavioral health services, and/or provide referral information to the adult for another service agency, or refer the reporting party to another agency or resource.
  2. Inform the reporting party of the decision not to investigate.
- F. The county department shall document the reason the report was screened out.

---

**30.430 RESPONSE PRIORITY AND ASSIGNMENT**

- A. The county department shall determine a time frame response to the case based upon the reported level of risk.
  - B. When factors present indicate the client is in clear and immediate danger or urgent and significant risk of harm due to the severity of the mistreatment or self-neglect, or due to the vulnerability or physical frailty of the client, the county department shall:
    - 1. Determine the case to be an emergency;
    - 2. Call 911, if appropriate based on the circumstances of the report; and,
    - 3. For counties participating in the Alternative Response pilot, allegations of mistreatment meeting this emergency criteria shall be assigned to the traditional response track.
    - 4. Make an initial response as soon as possible, but no later than twenty-four (24) hours including non-business days, after the receipt of the report. An initial response shall be:
      - a. An in-person visit with the client; or,
      - b. An attempted in-person visit with the client; or,
      - c. An outreach to another professional who is not alleged to be the perpetrator, who can evaluate the client's immediate safety when conducting an in-person visit would be detrimental to the client and/or unsafe to the client and/or the county department.
    - 5. If the initial response was not an in-person contact with the client and the county department was unable to ascertain the client's safety, the county department shall attempt an in-person client contact each day following the initial attempt at contact, including non-business days.
      - a. A law enforcement welfare check may be substituted for attempts at contact during non-business days. The county department shall follow up on the next working day.
      - b. If the county department has confirmed the client to be unavailable or safe, such as in the intensive care unit (ICU), the reason for delayed response shall be documented.
      - c. Initial and subsequent attempts at contact shall begin immediately when the client becomes or is expected to become available.
      - d. Following the third day of unsuccessful attempts at contact, the county department may choose to call, email, text, or send a letter requesting an appointment with the client.
      - e. If attempts at contact remain unsuccessful, the county department shall close the case no later than thirty-five (35) calendar days after the last attempt at contact.
      - f. The county department shall document all attempts to contact the client.
    - 6. If the initial response was not an in-person contact with the client but the county department was able to ascertain safety, it shall make an in-person client contact on the first working day following the report.
-

- a. If the county department has confirmed the client to be unavailable, such as in the intensive care unit (ICU), the reason shall be documented.
    - b. Initial and subsequent attempts at contact shall begin immediately when the client becomes or is expected to become available.
    - c. Following the third day of unsuccessful attempts at contact, the county department may choose to call, email, text, or send a letter requesting an appointment with the client.
    - d. If attempts at contact remain unsuccessful, the county department shall close the case no later thirty-five (35) calendar days after the last attempt at contact.
    - e. The county department shall document all attempts to contact the client.
  - C. When the report and subsequent supervisory review and/or RED Team process indicate the client is not in immediate danger or urgent risk of harm the county department shall:
    - 1. Determine the case to be a non-emergency.
    - 2. For counties participating in the alternative response pilot, determine a track assignment for each allegation according to the requirements set forth in Section 30.440.
    - 3. Make an initial response no later than three (3) working days beginning the day after the county department's receipt of the report. An initial response shall be:
      - a. An in-person visit with the client; or
        - i. For allegations assigned to the traditional response track, initial in-person visits shall be unannounced and in private whenever possible.
        - ii. For allegations assigned to the alternative response track, initial visits may be scheduled at the discretion of the county.
        - iii. If the initial report has multiple allegations and one or more allegations can be tracked to the alternative response track and one or more allegations must be tracked to the traditional response track, the initial response shall be conducted pursuant to Subsection (i) above
      - b. An attempted in-person visit with the client;
      - c. An outreach to another professional who can evaluate the client's immediate safety when conducting an in-person visit would be detrimental to the client and/or unsafe to the client and/or the county department. For allegations assigned to the traditional response track, the county shall ensure the outreach is made to a professional who is not alleged to be the perpetrator.
    - 4. When the initial response was not an in-person contact with the client or the county department was unable to ascertain the client's safety, the county department shall attempt an in-person client contact every other working day for a minimum of three attempts.
      - a. A law enforcement welfare check may be substituted for one attempt at contact and qualifies as one of the three required attempts at contact.
-

- b. If the county department has confirmed the client to be unavailable or safe, the reason for delayed response shall be documented.
    - c. Initial and subsequent attempts at contact shall begin immediately when the client becomes or is expected to become available.
    - d. For traditional response track investigations, the county department may attempt to schedule an appointment with the client following the third unsuccessful attempt at contact.
    - e. If attempts at contact remain unsuccessful, the county department shall close the case no later than thirty-five (35) calendar days after the last attempted contact.
    - f. The county department shall document all attempts to contact the client.
  - 5. If the county department was able to ascertain safety,
    - a. The county department shall attempt an in-person client contact within the response time frame or beginning on the first working day after ascertaining safety if safety were ascertained on the last day of the response time frame. Attempts at contact shall continue every other working day for a minimum of three attempts.
    - b. If the county department has confirmed the client to be unavailable, the reason shall be documented.
    - c. Initial and subsequent attempts at contact shall begin immediately when the client becomes or is expected to become available.
    - d. Following the third unsuccessful attempt at contact, the county department may choose to call, email, text, or send a letter requesting an appointment with the client.
    - e. If attempts at contact remain unsuccessful, the county department shall close the case no later than thirty-five (35) calendar days after the last attempt at contact.
    - f. The county department shall document all attempts to contact the client.
  - D. Prior to the initial in-person client contact visit, the county department shall determine whether:
    - 1. The visit and investigation should be made in conjunction with law enforcement and/or personnel from other agencies in accordance with the county department's cooperative agreements;
    - 2. The client is in CAPS and/or is otherwise known to the county department;
    - 3. Safety concerns exist, based on historical data and information provided in the report, requiring the caseworker to be accompanied by:
      - a. Law enforcement;
      - b. The supervisor;
      - c. Another case worker; or,
-

- d. Emergency, medical, and/or mental health personnel, if known or suspected medical or psychiatric conditions exist.

**30.440 ALTERNATIVE RESPONSE PILOT**

- A. Beginning January 4, 2023, Section 30.440 only applies to those counties participating in the Alternative Response pilot as described in 26-3.1-103.3.
  - B. Allegations that are determined to be low risk as outlined in these rules shall be assigned to the alternative response track.
  - C. Allegations of self-neglect are considered low risk and shall be assigned to the alternative response track.
  - D. An allegation shall not be considered low risk and shall be assigned to the traditional response track if it contains any of the following:
    - 1. Allegations of a sexual nature including but not limited to: sexual abuse, exploitation of a sexual nature, or harmful acts of a sexual nature.
    - 2. Allegations involving alleged perpetrators who are professional legally appointed guardians; conservators, or representative payees for the client and the allegations relate to the duties for which they are appointed.
    - 3. Allegations involving alleged perpetrators who are employees of employers identified pursuant to 26-3.1-111(7), C.R.S., and the allegations relate to the duties for which they are appointed. this exclusion does not apply if:
      - a. The employee was a relative, spouse, or friend of the client prior to their appointment as a paid provider to the client.
      - b. The employee is a consumer directed care attendant pursuant to Article 10 of Title 25.5.
    - 4. Allegations of abuse as defined in 26-3.1-101(1), C.R.S., that:
      - a. Appear likely to result in a moderate to severe severity level, based on the information available in the report; and/or,
      - b. Involve confinement or restraint that is unreasonable under generally accepted caretaking standards, pursuant to 26-3.1-101(1)(b), C.R.S.
    - 5. Allegations of caretaker neglect as defined in 26-3.1-101(2.3), C.R.S., that:
      - a. Appear likely to result in a moderate to severe severity level, based on the information available in the report; and/or,
      - b. Involve the alleged perpetrator knowingly using harassment, undue influence, or intimidation to create a hostile or fearful environment, pursuant to 26-3.1-101(2.3)(a), C.R.S.
    - 6. Allegations of exploitation as defined in 26-3.1-101(4), C.R.S., that involve:
-

- a. The use of deception, harassment, intimidation, or undue influence to permanently or temporarily deprive an at-risk adult of the use, benefit, or possession of anything of value, pursuant to 26-3.1-101(4)(a), C.R.S.; and/or,
  - b. Forcing, compelling, coercing, or enticing an at-risk adult to perform services for the profit or advantage of another person against the will of an at-risk adult, pursuant to 26-3.1-101(4)(c), C.R.S..
- 7. Allegations of mistreatment meeting emergency criteria as outlined in section 30.430.B
- E. Allegations not meeting criteria set forth in section 30.440.C and D may be considered low risk at the discretion of the county department. Counties may use discretion to determine whether the allegation is low risk based on factors that may include but are not limited to:
  - 1. Present danger to the client and/or other at-risk adults, and/or;
  - 2. Multiple reports involving the client and/or alleged perpetrator resulting in increased concern for the health, safety, or well-being of the client or other at-risk adults, and/or;
  - 3. Unresolved patterns of mistreatment resulting in increased concern for the health, safety, or well-being of the client.
- F. Allegations assigned to the alternative response track require:
  - 1. Completion of an alternative response track investigation as outlined in sections 30.510 and 30.525;
  - 2. Completion of an assessment of safety and risk as outlined in section 30.530; and,
  - 3. Development of a case plan as outlined in section 30.610; and,
  - 4. Provision of services as outlined in section 30.620
- G. The caseworker may, with supervisory approval, change tracks to the traditional response track due to circumstances indicating the situation does not meet low risk criteria as outlined in Section 30.440.D and E.
- H. The caseworker may, with supervisory approval, change tracks to the alternative response track due to circumstances indicating the situation meets low risk criteria as outlined in section 30.440.D and E.

## **30.500 INVESTIGATION AND ASSESSMENT**

### **30.510 INVESTIGATION AND ASSESSMENT OVERVIEW**

- A. Beginning January 4, 2023, provisions in this Section 30.510 apply to investigations and/or assessments regardless of whether they are assigned to the alternative response track or the traditional response track.
  - B. The county department shall conduct a thorough and complete investigation into the allegations, with the following exceptions:
    - 1. If the assessment and/or further investigation confirms that the client is not an at-risk adult, the county department shall close the APS case, as outlined in Section 30.660.
-

- a. The client assessment status areas of activities of daily living (ADLS)/ instrumental activities of daily living (IADLS), cognition, behavioral concerns, and medical shall be used as the key determiners of whether an adult is at-risk, by definition.
    - b. The county department may provide the adult referrals to resources or continue to assist the adult through other county department programs.
    - c. The finding for the allegation(s) shall reflect that an investigation was not required.
  2. If the only allegation is self-neglect and the county department is able to determine by confirming with other professionals that the client's health, safety, and welfare is no longer at risk because the client's needs are being met by a safe placement or an appropriate and adequate level of services, the county department shall close the case as outlined in Section 30.660.
  3. If the client has passed away and the only allegation in the case is self-neglect the county department shall stop the investigation and close the case, as outlined in Section 30.660.
  - C. In cases where there is an allegation of mistreatment and the client is deceased the county department shall conduct an investigation.
  - D. The investigation and assessment may be conducted independent of one another or simultaneously, depending on the nature of the allegations.
  - E. If upon initial investigation, the county department determines a different county has jurisdiction, the originating county department shall transfer the case in CAPS. The county department determined to have jurisdiction shall uphold the screening decision and conduct the investigation and assessment, unless:
    1. Additional or new information related to the safety of the adult or alleged mistreatment or self-neglect indicating the case may be closed is gathered by the county department determined to have jurisdiction.
    2. The basis for the decision to close the case shall be documented in CAPS.
  - F. If upon initial investigation, a change in jurisdiction is appropriate, as outlined in Section 30.410.F.5, the ongoing investigation will follow the established agreement.
  - G. For counties participating in the Alternative Response pilot, investigations shall be conducted as follows:
    1. For allegations assigned to the traditional response track, a traditional response track investigation must be completed in accordance with requirements set forth in Section 30.520.
    2. For allegations assigned to the alternative response track, an alternative response track investigation must be completed in accordance with requirements set forth in Section 30.525.
  - H. For counties not participating in the Alternative Response pilot, all investigations must be conducted in accordance with requirements set forth in 30.520.
-

- I. The county department shall complete the investigation into the allegation(s) within sixty (60) calendar days of the receipt of the report. When allegations are received or identified after the initial report, the county department shall complete the investigation into the additional allegation(s) within sixty (60) days of the receipt or identification of the additional mistreatment or self-neglect. For all investigations the county department shall ensure that documentation of the investigation occurs in CAPS throughout the investigation process, as follows:
  1. All interviews, contacts, or attempted contacts with the client, collaterals, alleged perpetrators, and other contacts during the investigation shall be documented within fourteen (14) calendar days of receipt of the information.
  2. All evidence collected during the investigation shall be scanned and attached to the case by the completion of the investigation.
  3. If the county is unable to complete the investigation timely for good cause, the cause shall be documented in CAPS.
- J. Each employer defined by section 30.960.A must provide access to the county department to conduct an investigation into an allegation of mistreatment. Access includes the ability to request interviews with relevant persons and to obtain relevant documents and other evidence, as follows:
  1. The patient, client, resident, or consumer of the agency who is the client in an APS case of mistreatment or who is relevant to the APS investigation; and,
  2. Personnel, including paid employees, contractors, volunteers, and interns who are relevant to the investigation; and,
  3. Individual patient, client, resident, or consumer records relevant to the investigation, including:
    - a. Health records;
    - b. Incident and investigative reports;
    - c. Care and behavioral plans;
    - d. Staffing schedules and time sheets; and,
    - e. Photos and other technological evidence.
  4. Entrance to the employer's premises as necessary to complete a thorough investigation. At the time of entry, county department staff must identify themselves and the purpose of the investigation to the person in charge of the entity.
  5. The professional license number issued by DORA for any current or former staff person who is a licensed healthcare professional and who is substantiated of mistreatment during the provision of their duties.
  6. Attorneys and their staff who are providing legal assistance pursuant to a contract with an area agency on aging, and the long-term care ombudsman are not subject to the requirements in this Section 30.510.J.

---

**30.520 TRADITIONAL RESPONSE TRACK INVESTIGATIONS**

- A. The county department shall conduct an investigation to determine findings related to allegations of mistreatment or, in counties not participating in the Alternative Response pilot, self-neglect, as required by Section 30.510. The investigation shall include, but may not be limited to:
1. Determining the need for protective services. If the client is in clear and immediate danger, the county shall intervene immediately by notifying the proper emergency responders.
  2. Determining if the investigation should be conducted jointly with another entity, except in self-neglect only cases, such as:
    - a. Law enforcement and/or the district attorney;
    - b. Community Centered Board;
    - c. Health Facilities Division;
    - d. Attorney General's Medicaid Fraud Unit;
    - e. The long-term care ombudsman; and/or,
    - f. County department Child Welfare programs.
  3. Making reasonable efforts to conduct interviews, as outlined below. The interviews and collection of evidence must address the specific allegations identified in the report and any new mistreatment or self-neglect that may be identified during the assessment or investigation. If an interview cannot be conducted for good cause, the attempts and the cause shall be documented.
    - a. An in-person initial interview with the client, unannounced and in private, whenever possible.
      - i. The county department shall document in CAPS that the visit was unannounced and in private and if not unannounced and/or in private for good cause, the cause shall be documented in CAPS.
      - ii. If the client is unable to be interviewed for good cause, the cause shall be documented in CAPS.
    - b. Ongoing interviews with the client to complete the investigation and assessment as outlined in Section 30.530. If the client refuses to participate in the investigation or cannot be located, the county department shall make reasonable efforts to complete the investigation by gathering evidence and interviewing other collateral contacts that have knowledge of the client and/or the alleged mistreatment or self-neglect.
    - c. Interviews with all collateral contacts. In the event a collateral contact cannot be located or interviewed for good cause, the cause shall be documented in CAPS; and,
    - d. Interview(s) with the alleged perpetrator(s), with or without law enforcement. In the event the alleged perpetrator is unable to be located or interviewed for good cause, the cause shall be documented in CAPS. The following information shall be collected related to the alleged perpetrator(s), to the fullest extent possible, in addition to information about the allegations:
-

- i. Full name of the alleged perpetrator(s) with accurate spelling;
    - ii. Current email address, when available;
    - iii. Current physical and mailing address;
    - iv. Date of birth; and,
    - v. Whether the alleged perpetrator is a licensed healthcare professional, as defined in Section 30.100; and,
    - vi. Other identifying demographic and contact information.
  - 4. Collecting evidence and documenting with photographs or other means, when appropriate, such as:
    - a. Police reports;
    - b. Any available investigation report from a currently or previously involved facility and the occurrence report from the Health Facilities Division;
    - c. Medical and mental health records;
    - d. Bank or other financial records;
    - e. Care plans for any person in a facility or receiving other services that require a care plan and any daily logs or charts; and/or,
    - f. Staffing records and employee work schedules when investigating in a facility.
  - 5. Making a finding regarding each allegation and alleged perpetrator, including the severity level of the mistreatment when there is a substantiated finding. A severity level shall not be assigned to a substantiated self-neglect allegation.
  - 6. If it is identified through interviews, collateral contacts, or other investigation that a substantiated perpetrator is a licensed healthcare professional, the county department shall document the license number in CAPS. The county department may ascertain the license number using the methods outlined below:
    - A. Request the license number from the substantiated perpetrator's employer. if the substantiated perpetrator's current or former employer is an agency required to request caps checks, as outlined in Section 30.960, A, and the mistreatment occurred while the substantiated perpetrator was engaged in professional duties, the employer is required to provide the DORA license number to the county department upon request, as outlined in Section 26-3.1-103(1.3)(a)(V), C.R.S., and Section 30.510.J.5; or
    - B. Request the license number from the substantiated perpetrator. if the substantiated perpetrator is a licensed healthcare professional, and the mistreatment occurred while engaged in their professional duties, the substantiated perpetrator is required by section 26-3.1-103(1.4), C.R.S., to provide their DORA license number upon request of the county department; or
    - C. Utilize the DORA online Colorado professional or business license verification system to ascertain the license number.
-

- D. If the license number was provided by the substantiated perpetrator or their employer, the county department shall attempt to verify the license number by using the DORA online verification system or another means of verification.
    - E. If the county is unable to obtain the license number using one or more of the methods above, the county must document its attempts to obtain the license number in CAPS to show good cause for the inability to obtain the license number.
  - 7. Determining whether there are additional mistreatment or self-neglect concerns not reported in the initial allegations. If there are additional concerns the county department shall enter the mistreatment and alleged perpetrator or self-neglect into the case.
    - a. Alternative Response pilot participating counties shall make a traditional or alternative response track assignment as outlined in section 30.440 and complete an investigation in accordance with the applicable traditional response or alternative response track investigation rules.
    - b. Non-pilot participating counties shall complete an investigation in accordance with the rules in this section 30.520.
  - 8. Supervisory review of all findings and approval only when the county department has completed a thorough investigation and the evidence justifies the findings.
  - 9. Notifying law enforcement when criminal activity is suspected.
  - B. Beginning July 1, 2018 all substantiated perpetrators shall be provided notice of the substantiation and their appeal rights, as outlined in section 30.910.
  - C. In the event that a finding is determined to be incorrect after supervisory approval, the county department shall take the following applicable steps:
    - 1. If the finding was originally unsubstantiated and the finding is changing to inconclusive, correct the finding in CAPS.
    - 2. If the finding was originally inconclusive and the finding is changing to unsubstantiated, correct the finding in CAPS.
    - 3. If the finding was originally unsubstantiated or inconclusive and the finding is changing to substantiated, correct the finding in CAPS and notify the alleged perpetrator as outlined in Section 30.910.A-C.
    - 4. If the finding was originally substantiated and the finding is changing to unsubstantiated or inconclusive, correct the finding in CAPS and notify the alleged perpetrator of the correction as outlined in Section 30.910.C. If there is an open appeal at the time of the correction, the county department shall notify the State Department of the change in finding no later than ten (10) calendar days of identifying the need to correct the finding.
  - D. Pursuant to Section 26-3.1-111(12), beginning on or before January 1, 2022, the State Department shall provide information to DORA when a licensed healthcare professional is substantiated for mistreatment of an at-risk adult.
    - 1. Notification to DORA shall be made by the State Department within ten (10) calendar days after a substantiated finding.
-

2. The information provided shall include, at a minimum:
  - a. The professional's name;
  - b. The professional's license number;
  - c. The name of the mistreated adult;
  - d. The location or residence of the mistreated adult;
  - e. The location where the mistreatment occurred;
  - f. The date of the finding;
  - g. The county that investigated the mistreatment;
  - h. The type and severity of mistreatment;
  - i. The professional's right to an appeal of the finding and the time frame to file an appeal and,
  - j. The unique CAPS identifier that ties the perpetrator to the substantiated finding.
3. Information provided to DORA regarding a substantiated finding of mistreatment caused by a licensed healthcare professional is confidential, not subject to Part 2 of Article 72 of Title 24, of the C.R.S., and must be used for purposes of a regulatory investigation conducted pursuant to Section 12-20-401, C.R.S.

### **30.525 ALTERNATIVE RESPONSE TRACK INVESTIGATIONS**

- A. County departments approved to participate in the Alternative Response pilot shall conduct an investigation to determine conclusions related to allegations of mistreatment and self-neglect that have been determined to be low risk as outlined in section 30.440. The investigation shall include, but may not be limited to:
    1. Determining the need for protective services. if the client is in clear and immediate danger, the county shall intervene immediately by notifying the proper emergency responders.
    2. Determining if the investigation should be conducted jointly with another entity, except in self-neglect only cases, such as:
      - A. Law enforcement and/or the district attorney;
      - B. Community Centered Board;
      - C. Health Facilities Division;
      - D. Attorney General's Medicaid Fraud Unit;
      - E. The long-term care ombudsman; and/or,
      - F. County department Child Welfare programs.
-

3. Making reasonable efforts to conduct interviews, as outlined below. the interviews and collection of evidence must address the specific allegations identified in the report and any new mistreatment or self-neglect that may be identified during the assessment or investigation. if an interview cannot be conducted for good cause, the attempts and the cause shall be documented.
    - A. An in-person initial interview with the client whenever possible.
      - i. The initial visit may be scheduled or unannounced, at the discretion of the county department.
      - ii. If the client is unable to be interviewed for good cause, the cause shall be documented in CAPS.
    - B. Ongoing interviews with the client to complete the investigation and assessment as outlined in section 30.530. If the client refuses to participate in the investigation or cannot be located, the county department shall make reasonable efforts to complete the investigation by gathering evidence and interviewing other collateral contacts that have knowledge of the client and/or the alleged mistreatment or self-neglect.
    - C. Interviews with all collateral contacts. In the event a collateral contact cannot be located or interviewed for good cause, the cause shall be documented in CAPS; and,
    - D. Interview(s) with the alleged perpetrator(s), with or without law enforcement. In the event the alleged perpetrator is unable to be located or interviewed for good cause, the cause shall be documented in CAPS. The following information shall be collected related to the alleged perpetrator(s), to the fullest extent possible, in addition to information about the allegations:
      - i. Full name of the alleged perpetrator(s) with accurate spelling;
      - ii. Current email address, when available;
      - iii. Current physical and mailing address;
      - iv. Date of birth; and,
      - v. Other identifying demographic and contact information.
  4. Collecting evidence and documenting with photographs or other means, when appropriate, such as:
    - a. Police reports;
    - b. Any available investigation report from a currently or previously involved facility and the occurrence report from the health facilities division;
    - c. Medical and mental health records;
    - d. Bank or other financial records;
    - e. Care plans for any person in a facility or receiving other services that require a care plan and any daily logs or charts; and/or,
-

- f. Staffing records and employee work schedules when investigating in a facility.
- 5. Determining a conclusion related to the allegations.
- 6. Determining whether there are additional mistreatment or self-neglect concerns not reported in the initial allegations. If there are additional concerns, the county department shall enter the mistreatment and alleged perpetrator or self-neglect into the case, make a traditional or alternative response track assignment as outlined in Section 30.440, and complete an investigation in accordance with the applicable traditional response or alternative response track investigation rules.
- 7. Supervisory review of all alternative response track conclusions.
- 8. Notifying law enforcement when criminal activity is suspected.

### **30.600. CASE PLANNING AND IMPLEMENTATION**

#### **30.620 PROVISION OF SERVICES**

- H. If the client relocates to another county and the client continues to need protective services:
    - 1. If either county is participating in the Alternative Response pilot, the original county department must consult with the state department to determine whether a transfer of case is required, based on considerations including, but not limited to, equity to the client, consistency of APS practice, and efficiency of case processes.
    - 2. If neither the original county nor the client's new county of residence are participating in the Alternative Response pilot, the original county department shall transfer the case to the client's new county of residence within five (5) calendar days of learning the move is permanent.
    - 3. When a transfer of case is required, the original county department shall update the case in CAPS prior to completing the transfer, as follows:
      - A. Update the client, perpetrator, reporting party, and collateral contact information;
      - B. Update the investigation, assessment, case plan, and case notes to include all information gathered to date; and,
      - C. Call the receiving county department supervisor to staff the case prior to the transfer.
  - I. When a client permanently relocates to a new county, the case may remain with the former county department only when:
    - 1. The case is within thirty-five (35) calendar days of resolution and the former county department chooses to retain the case; OR,
    - 2. The former county department holds representative payeeship and chooses to retain the case; and/or,
    - 3. The former county department holds guardianship or conservatorship. Either county department may, with the agreement of the receiving county department, petition the court for a transfer of guardianship and/or conservatorship to the receiving county department; and/or,
-

4. The jurisdiction assignment has been authorized or required as a result of State consultation as outlined in 30.620.H.1

### **30.660 CASE CLOSURE**

- A. Cases not requiring additional protective services shall be closed within thirty-five (35) calendar days of the last monthly contact with the client.
    1. If the client cannot be located and the county department has sent a letter to the client or is reaching out to others who might know the client's location, the case may remain open until the county department exhausts all attempts to locate the client.
    2. The county department shall document all attempts to locate the client.
  - B. Cases in which the client is relocated to a long-term care facility may remain open for up to thirty-five (35) calendar days in order to ensure the placement is appropriate for the client's needs. The county department may keep the case open past the thirty-five (35) days if there is good cause and the department documents the cause in CAPS.
  - C. Cases in which the county department has been appointed as the client's guardian, conservator, and/or representative payee shall remain open for the duration of the court order or for as long as the county remains as the representative payee. If the client has died, the case shall be closed immediately following completion of any investigative and/or fiduciary responsibilities.
  - D. A decision to close a case shall be made for any or all of the following reasons:
    1. After assessment, the client does not meet the definition of an at-risk adult.
    2. After investigation and assessment there are no identified needs or all of the client's needs were met prior to the report to the county department.
    3. The investigation and/or assessment identified needs but the client is competent to make decisions and refuses services.
    4. If, after completion of the investigation and after repeated and documented efforts, the whereabouts of the client cannot be established or the client refuses contact.
    5. The client no longer needs protective services.
    6. Service goals are completed.
    7. Repeated efforts at service delivery have proven to be ineffective and no additional alternatives exist.
    8. Critical services necessary to improve safety are unavailable in the community or to the client.
    9. The client moved out of the state.
    10. The client has been sentenced to incarceration for longer than thirty (30) calendar days.
    11. The client died. Prior to closing the case, the investigation must be completed as outlined in Sections 30.510, 30.520, and 30.525.
  - E. The county department shall document the case closure, to minimally include:
-

1. A final assessment, if applicable, to determine the safety improvement as a result of APS intervention;
2. Update of all case, client, perpetrator, reporting party, and collateral contact information to reflect the most current data and information;
3. Reason for case closure;
4. Whether there is continued perpetrator involvement; and,
5. A narrative to address the overall outcome of APS intervention, to include why safety was or was not increased and why risk was or was not decreased.

### **30.900 NOTICE TO SUBSTANTIATED PERPETRATORS AND STATE LEVEL APPEALS PROCESS**

#### **30.920 STATE LEVEL APPEALS PROCESS**

- A. Substantiated perpetrator(s) of mistreatment shall have the right to a State level appeal to contest the substantiated finding. The request for appeal of the decision shall first be submitted to the State Department unit designated to handle such appeals. If the State Department and the appellant are unable or unwilling to resolve the appeal in accordance with the provisions set forth below in this section, the State Department shall forward the appeal to the Office of Administrative Courts (OAC) to proceed to a fair hearing before an Administrative Law Judge (ALJ).
  - B. The grounds for appeal shall consist of the following:
    1. The substantiated finding(s) are not supported by a preponderance of credible evidence; or,
    2. The actions ultimately found to be substantiated as mistreatment do not meet the statutory or regulatory definition of mistreatment.
  - C. The substantiated perpetrator(s) of mistreatment shall have ninety (90) calendar days from the date of notice of substantiation of mistreatment to appeal the finding in writing to the State Department. The written appeal shall be submitted via the State approved online form or using the hard copy appeal form provided to the substantiated perpetrator by the county department and shall include:
    1. The contact information for the appellant;
    2. A statement detailing the basis for the appeal; and,
    3. Notice of finding of responsibility for mistreatment of an at-risk adult sent to the appellant by the county department.
  - D. The State level appeal process must be initiated by the substantiated perpetrator(s) of mistreatment or his/her attorney. The appellant does not need to hire an attorney to file an appeal. If the substantiated perpetrator(s) is a minor child, the appeal may be initiated by his/her parents, legal custodian, or attorney.
  - E. The appeal must be submitted to the State Department within ninety (90) calendar days of the date of the notice of the substantiated finding. If the appeal is filed more than ninety (90) calendar days from the date of notice of the substantiated finding, the appellant must show good cause for not appealing within the prescribed time period as set forth in Section 30.920.C. A failure to
-

request State review within the ninety-day (90) period without good cause shall be grounds for the State Department to not accept the appeal.

- F. The substantiated finding shall continue to be used for safety and risk assessment, employment, and background screening by the State Department while the administrative appeal process is pending.
  - G. The appellant shall have the right to appeal, even if a court action or criminal prosecution is pending as a result of the mistreatment. The State Department shall hold in abeyance the administrative appeal process pending the outcome of the court action or criminal prosecution if requested by the appellant, or if the State Department determines that awaiting the outcome of the court case is in the best interest of the parties. If the appellant objects to the continuance, the continuance shall remain in place, but the continuance of the appeal shall not exceed one hundred eighty (180) calendar days without the appellant having the opportunity to seek a review of the continuance by an administrative law judge. The pendency of other court proceedings shall be considered good cause to extend the continuance of the appeal past the one hundred eighty (180) day timeframe.
  - H. The following circumstances shall be considered to be admissions to the factual basis of the substantiated finding(s) of the responsibility for the mistreatment of an at-risk adult in CAPS and shall be considered conclusive evidence of the factual basis of the individual's responsibility for the mistreatment to support a motion for summary judgment submitted to the Office of Administrative Courts:
    - 1. The appellant has been found guilty of a crime against an at-risk adult pursuant to Section 18-6.5-103, C.R.S. arising out of the same factual basis as the substantiated finding in CAPS.
    - 2. The appellant has been found guilty or has pled guilty or nolo contendere as part of any plea agreement including, but not limited to, a deferred judgement agreement to a crime against an at-risk adult pursuant to Section 18-6.5-103, C.R.S. arising out of the same factual basis as the substantiated finding in CAPS.
    - 3. The appellant has been found guilty or has pled guilty or nolo contendere as part of any plea agreement including, but not limited to, a deferred judgment agreement, in a case in which a crime against an at-risk adult was charged pursuant to Section 18-6.5-103, C.R.S., arising out of the same factual basis as the substantiated finding in CAPS. The offense to which the appellant pled guilty must be related to the same factual basis as the substantiated finding in CAPS.
  - I. After the appellant requests an appeal, the State Department shall inform the appellant of the details regarding the appeal process, including timeframes for the appeals process and contact information for the State Department.
    - 1. The appellant, as the party in interest, shall have access to the investigative record relied upon by the county department to make the finding in order to proceed with the appeal. The appellant's use of the investigative record for any other purpose is prohibited unless otherwise authorized by law.
    - 2. Prior to providing access to the appellant, the State Department shall redact identifying information contained in the investigative record and documents to ensure compliance with all state and federal confidentiality laws and rules regarding adult mistreatment records or other protected information, including but not limited to: reporting party name(s) and address(es), Social Security Number or alien registration number and
-

information pertaining to other parties in the case that the appellant does not have a legal right to access.

- J. The State Department is authorized to enter into settlement negotiations with the appellant as part of the litigation process. The State Department is authorized to enter into settlement agreements that modify, overturn or expunge the reports and/or findings as reflected in the State portion of CAPS. The State Department is not authorized to make any changes in the county portion of CAPS. In exercising its discretion, the State Department shall take into consideration the best interests of the at-risk adults, the weight of the evidence, the severity of the mistreatment, any patterns of mistreatment reflected in the record, the results of any court processes, the rehabilitation of the appellant and any other pertinent information.
- K. The county department's findings shall not be changed to reflect the State Department's response to the appeal. The State Department shall document all decisions and the outcome of the appeal in CAPS.
- L. The State Department and the appellant shall have one hundred twenty (120) calendar days from the date the State Department receives the appeal to resolve the issue(s) on the appeal. The one hundred twenty (120) day time frame may be extended by agreement of both the appellant and the State Department if it is likely that the additional time will result in a fully executed settlement agreement or resolution of the appeal.
- M. As soon as it is evident within the one hundred twenty (120) days that the appellant and State Department will not resolve the issue(s) on appeal, the State Department shall forward a copy of the appellants original appeal document(s) to the Office of Administrative Courts to initiate the Office of Administrative Courts fair hearing process.
- N. If, by the end of the one hundred twenty (120) day period, the State Department has been unable to contact the appellant using the information submitted by the appellant, including by first class mail, and the appellant has not contacted the State Department, the appeal shall be deemed abandoned. The substantiated finding entered into CAPS by the county department shall be upheld in CAPS without further right of appeal. The State Department shall notify the appellant of this result by first class mail to the address provided by the appellant.
- O. A health oversight agency is defined consistent with the provisions of federal regulations found at 45 CFR 164.501<sup>2</sup> as of 2021, herein incorporated. This rule does not contain any later amendments or editions. The regulation are available at <https://www.ecfr.gov>. This regulation is also available for inspection and copying at the Colorado Department of Human Services, Administrative Review Division, 3550 W. Oxford Ave., Denver CO, 80236, during regular business hours.

Pursuant to section 26-3.1-111(5)(h), C.R.S., a health oversight agency within DORA or a regulator as defined in section 12-20-102(14), C.R.S., may request appeal information from the State Department for the purpose of a regulatory investigation conducted pursuant to section 12-20-401, C.R.S. when making the request to the State Department, a health oversight agency within DORA or regulator must include the information provided to DORA through the notification process outlined in 30.520 D(2), if such notification occurred. If such notification did not occur, a health oversight agency within DORA or regulator must include, at minimum, the following information:

1. The professional's name,

---

<sup>2</sup> Section 26-3.1-111(5)(h), C.R.S., refers to a health oversight agency defined in federal regulation at 42 CFR 164.501. This appears to be a typographical error as no such regulation exists. The definition for health oversight agency can be found at 45 CFR 164.501.

2. The name of the mistreated adult, and
  3. The nature of the allegation(s), to include the type and severity of the mistreatment, if known.
- P. After the State Department receives the request from a health oversight agency within DORA or a regulator, the State Department will provide that agency with the appeal summary for the purposes of the regulatory investigation.
- Q. Appeal information provided to a health oversight agency within DORA or a regulator is confidential, not subject to part 2 of article 72 of title 24, C.R.S., and must be used only for purposes of a regulatory investigation conducted pursuant to section 12-20-401.

### **30.960 EMPLOYER CAPS CHECKS**

- A. Pursuant to Section 26-3.1-111(6)(a)(I), C.R.S., beginning January 1, 2019, the following employers shall request a CAPS check prior to hiring a new employee who will provide direct care to an at-risk adult and may request a CAPS check for existing employees or volunteers who provide direct care to an at-risk adult.
1. Health facilities licensed pursuant to Section 25-1.5-103, C.R.S., including those wholly owned and operated by any governmental unit;
  2. Adult day care facilities, as defined in Section 25.5-6-303(1), C.R.S.;
  3. Community integrated health care service agencies, as defined in Section 25-3.5-1301(1);
  4. Community-Centered Boards or program-approved service agencies that provide or contract for services and supports, pursuant to C.R.S. Article 10 OF Title 25.5;
  5. Single Entry Point agencies, as described in Section 25.5-6-106, C.R.S.;
  6. Area Agencies on Aging, as defined in Section 26-11-201(2), C.R.S., and any agency or provider the Area Agency on Aging contracts with to provide services;
  7. Facilities operated by the State Department for the care and treatment of persons with mental illness, pursuant to C.R.S. Article 65 OF Title 27;
  8. Facilities operated by the State Department for the care and treatment of persons with intellectual and developmental disabilities, pursuant to C.R.S. Article 10.5 OF Title 27;
  9. Veterans Community Living Centers, operated pursuant to C.R.S. Article 12 OF Title 26; and,
  10. The Office of Public Guardianship Pursuant to Section 13-94-105(6), C.R.S.
- B. Pursuant to Section 26-3.1.-111(3)(B), C.R.S., beginning January 1, 2022, the courts shall request a CAPS check for a potential appointee, with the exception of county department Adult Protective Services staff who are already required to undergo a CAPS check pursuant to Section 26-3.1-107(2), C.R.S., and the Office Of Public Guardianship staff required to undergo a CAPS check pursuant to Section 26-3.1-111(7)(J), C.R.S.
-

- C. Pursuant to Section 26-3.1-111(8), beginning January 1, 2019, individuals receiving consumer-directed attendant support services (CDASS), pursuant to C.R.S. Article 10 of Title 25.5, may request a CAPS check for a new or existing employee.
  - D. Employers identified in Section 30.960, A shall cooperate with and provide access to county departments conducting investigations of mistreatment of at-risk adults pursuant to Section 26-3.1-103(1.3), C.R.S and Section 30.510.J
  - E. Information obtained through a CAPS check by an authorized requestor shall only be released pursuant to Section 26-3.1-111(6)(d), C.R.S.
  - F. Section 26-3.1-111(6)(e), C.R.S., creates a criminal penalty for any person who improperly releases or who willfully permits or encourages the release of data or information obtained through a CAPS check to persons not permitted access to the information pursuant to C.R.S. Title 26, Article 3.1.
  - G. Authorized requestors shall register prior to requesting a CAPS check to allow for verification of the authorized requestor's legal authority to request the check.
    - 1. The authorized requestor is responsible for ensuring the registration information is up to date.
    - 2. There shall be no fee to the authorized requestor to register.
  - H. Using a form developed by the State Department, authorized requestors shall obtain written authorization and any required identifying information from the new or existing employee or volunteer or potential appointee prior to requesting a CAPS check. Required identifying information necessary to request the CAPS check includes information such as name, date of birth, and email address, etc.
    - 1. The form must be completed and signed by the employee, volunteer, or potential appointee.
    - 2. Knowingly providing inaccurate information on the written authorization form is a class 2-misdemeanor as set forth in Section 26-3.1-111(6)(e.7), C.R.S.
    - 3. The CAPS Check Unit (CCU) may request the employee's, volunteer's, or potential appointee's written authorization form from the employer or the court as supporting documentation.
  - I. Authorized requestors shall request a CAPS check using an online or hard copy form developed by the State Department.
    - 1. If more than thirty (30) days have elapsed between an employer's request for a CAPS check for a potential employee or volunteer, and the employer's decision to initiate hiring, the employer must request a new CAPS check prior to hiring the employee or volunteer.
    - 2. If an employee or volunteer leaves employment but is considered for rehire after more than thirty (30) days have elapsed since leaving employment, the employer must request a new CAPS check prior to rehire.
    - 3. If the court does not appoint the potential appointee as a guardian or conservator but the person is considered for appointment as a guardian or conservator of an at-risk adult more than thirty (30) days after the court's case was closed, the court must request a new CAPS check prior to appointment in a new case. Until such time as the court closes the
-

case or is no longer considering the potential appointee's original petition for appointment, the 30-day time limitation on the CAPS check does not begin to run.

- a. If a potential appointee is nominated for appointment as a guardian or conservator of an at-risk adult in multiple courts, each court must conduct its own CAPS check on said potential appointee to ensure that each court is notified in the event of a subsequent substantiated finding of mistreatment.
    - b. Potential appointees who are professionals, are defined as, "an individual or entity engaged in the business of providing services as guardian or conservator, who is not related to the respondent in a case by blood, law, or marriage. Such professionals usually act as guardian or conservator for two or more individuals". If said professional appointee is nominated for appointment as a guardian or conservator:
      - i. Of an at-risk adult in multiple courts, each court must conduct its own CAPS check on said appointee to ensure each court is notified in the event of a subsequent substantiated finding of mistreatment.
      - ii. For multiple at-risk adults in a single court, that court will only need to conduct one CAPS check on said potential appointee.
  4. If the information provided for the CAPS check is incomplete the CCU may request additional information from the employer or the court.
    - a. If the additional information is not provided by the employer or the court the CCU will close the request and will not conduct the CAPS check.
    - b. The fee for the CAPS check shall not be refunded to the employer or the court.
  5. If an employer or the court provides information the CCU has reason to believe is inaccurate:
    - a. The CCU will contact the employer or the court regarding the information believed to be inaccurate.
    - b. The CCU may request the employer or the court to provide the written authorization form to the CCU. If the employer or the court does not provide the written authorization form, the CCU will close the request and will not conduct the CAPS check. The CAPS check fee will not be refunded.
    - c. If the CCU identifies a pattern of inaccurate information being provided by an employer or court, the CCU will implement steps to address the pattern, which may include, but are not limited to, contacting the agency administrator, requiring submission of the written authorization form with each CAPS check request, and/or requesting legal assistance to resolve the concerns.
    - d. Knowingly providing inaccurate information on a CAPS check request is a class 2 misdemeanor, as outlined in Section 26-3.1-111(6)(e.7), C.R.S.
  6. If a screening company that requests CAPS checks on behalf of an employer provides information the CCU has reason to believe is inaccurate:
    - a. The CCU will contact the employer and/or screening company regarding the information believed to be inaccurate.
-

- b. The CCU may request the screening company to provide the written authorization form to the CCU. If the screening company does not provide the written authorization form, the CCU will close the request and will not conduct the CAPS check. The CAPS check fee will not be refunded.
      - c. If the CCU identifies a pattern of inaccurate information being provided by a screening company hired by an employer, the CCU will implement steps to address the pattern, which may include, but are not limited to, contacting the employer that hired the screening company, requiring submission of the written authorization form with each CAPS check request, prohibiting the screening company from requesting CAPS checks, and/or requesting legal assistance to resolve the concerns.
      - d. Knowingly providing inaccurate information on a CAPS check request is a class 2 misdemeanor, as outlined in Section 26-3.1-111(6)(e.7), C.R.S.
    - 7. Submitting a CAPS check request for an individual who is not being considered for an employee or volunteer position providing direct care to at-risk adults or providing care through Consumer Directed Support Services or for a person who is not a potential appointee is a class 2 misdemeanor, as outlined in Section 26-3.1-111(6)(e.3), C.R.S.
  - J. The fee for the CAPS check shall be:
    - 1. Established to provide adequate revenue to support all direct and indirect costs related to the administrative appeals processes for substantiated perpetrators and the CAPS checks.
    - 2. No greater than \$16.50 per CAPS check, unless the State Board of Human Services approves an increased fee based upon increased direct and indirect costs of the administrative appeals and CAPS checks.
      - a. The current CAPS check fee shall be posted ON THE CAPS check website.
      - b. The current CAPS check fee may be adjusted with THIRTY (30) days' notice, provided via the CAPS check website.
    - 3. Paid by the authorized requestor at the time of the request.
      - a. If the authorized requestor chooses to request the CAPS check via the online form, payment must be made through the online payment system at the time of the request. A CAPS check will not be completed without payment.
      - b. If the authorized requestor chooses to request the CAPS check via first class mail, payment in the form of an agency warrant or bank check must be attached to the form. A CAPS check will not be completed without payment.
      - c. Authorized requestors may choose to request that the employee, volunteer, or potential appointee reimburse the authorized requestor for the cost of the check.
  - K. The State Department shall complete the CAPS check and respond to the employer's request as soon as possible, but no later than five (5) business days following the receipt of the request. The State Department shall complete the CAPS check and respond to the court's request as soon as possible, but no later than seven (7) calendar days following the receipt of the request.
-

1. The State Department shall provide the CAPS check results to the authorized requestor via email, unless receipt of the results via first class mail is requested.
    - a. If the employee is also the employer who requested the CAPS check on themselves, such as a facility administrator or owner, or an independent owner operator, and the employee/employer is determined not to have a substantiated finding of mistreatment, the results will be provided to the employee/employer.
    - b. If the employee is also the employer who requested the CAPS check on themselves, such as a facility administrator or owner, or an independent owner operator, and the employee/employer is determined to have a substantiated finding of mistreatment, the results will be provided to the employee/employer and to the parent company and/or oversight agency(ies).
  2. A person or entity conducting the employee CAPS check on behalf of the employer shall provide the results of the CAPS check to the employer.
- L. The CAPS check results shall indicate:
1. Whether there is or is not a substantiated finding for the employee, volunteer, or potential appointee;
  2. The purposes for which the information in CAPS may be made available;
  3. The consequences of improper release of the information in CAPS;
  4. If the person does have a substantiated finding, the results will also provide the date(s) of the substantiated finding(s), county department(s) that completed the investigation(s), the type(s) and severity level(s) of the mistreatment, and the substantiated perpetrator's right to appeal and the time frame allowed by rule to request an appeal.
  5. For CAPS check results for the court in which there is a substantiated finding, the CAPS check results will also include whether there is an active appeal at the time of the court's request.
- M. Notification of any substantiated mistreatment finding made after the initial CAPS check shall be provided to the authorized requestor or to the employee/employer's parent company and/or oversight agency(ies), as outlined in Section 30.960.H.1.b, at the time the new finding is completed in CAPS.
- N. Findings shall not be included in CAPS check results when:
1. The finding was made prior to July 1, 2018 when due process for substantiated perpetrators began, as outlined in Section 30.910; and/or,
  2. The finding was expunged or overturned through the appeals process, as outlined in Section 30.920; and/or,
  3. A positive match of at least two data points between the employee and a substantiated perpetrator in CAPS, such as name, date of birth, or address, cannot be determined with certainty.

#### LIFE, ACCIDENT AND HEALTH

#### Emergency Regulation 22-E-17

#### CONCERNING ESTABLISHING A SPECIAL ENROLLMENT PERIOD FOR INDIVIDUALS CURRENTLY ENROLLED IN PLANS OFFERED BY BENEFYTT TECHNOLOGIES

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Special Enrollment Period Requirements
Section 6	Severability
Section 7	Enforcement
Section 8	Effective Date
Section 9	History

#### **Section 1 Authority**

This emergency regulation is promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-108(7)(a), (7)(b)(III), 10-1-109(1), 10-16-105(2)(b), 10-16-105.7(3)(a)(II)(G), 10-16-105.7(3)(b)(II)(F), 10-16-108.5(8), and 10-16-109, C.R.S.

#### **Section 2 Scope and Purpose**

The purpose of this emergency regulation is to establish a special enrollment period (SEP) that allows Colorado residents enrolled in Benefytt Technologies the opportunity to enroll in an individual health benefit plan from September 6, 2022 through November 10, 2022.

The Division of Insurance finds, pursuant to § 24-4-103(6)(a), C.R.S., that immediate adoption of this regulation is imperatively necessary for the preservation of public health, safety, or welfare as allowing individuals who choose to terminate their enrollment in Benefytt Technologies the opportunity to enroll in a health benefit plan in order to receive coverage is imperative to preserve the health of residents of Colorado. Therefore, compliance with the requirements of § 24-4-103, C.R.S., would be contrary to the public interest.

#### **Section 3 Applicability**

This regulation shall apply to all carriers offering individual health benefit plans subject to the insurance laws of Colorado and the requirements of the Patient Protection and Affordable Care Act.

#### **Section 4 Definitions**

- A. "Carrier" shall have the same meaning as found at § 10-16-102(8), C.R.S.
- B. "Exchange" shall have the same meaning as found at § 10-16-102(26), C.R.S.
- C. "Health benefit plan" shall have the same meaning as found at § 10-16-102(32), C.R.S.
- D. "Special enrollment period" or "SEP" shall mean, for purposes of this regulation only, a period during which an individual who meets the requirements under Section 5.B. may enroll in a health benefit plan outside the annual open enrollment periods.

## **Section 5 Special Enrollment Period Requirements**

- A. A carrier offering a health benefit plan in this state shall establish a SEP that:
  - 1. Begins on September 6, 2022 and extends through November 10, 2022; and
  - 2. Ensures a coverage effective date on the first day of the month following plan selection.
- B. Application and Verification requirements
  - 1. Only individuals who elect to terminate their Benefytt Technologies coverage are eligible for the SEP established under Section 5.A. To access this SEP, individuals must otherwise be eligible for enrollment in the individual health benefit plan for which they are applying and must not already be enrolled in a health benefit plan.
  - 2. Individuals may apply for the SEP provided under Section 5.A. by contacting Connect for Health Colorado (the Exchange), a producer, an assister, or the carrier directly to determine eligibility and enrollment.
  - 3. To verify eligibility, individuals shall attest that they have a Benefytt Technologies policy effective in 2022. Verbal attestation is sufficient for purposes of determining eligibility for this SEP.

## **Section 6 Severability**

If any provision of this regulation or the application of it to any person or circumstances is for any reason held to be invalid, the remainder of this regulation shall not be affected.

## **Section 7 Enforcement**

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease-and-desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

## **Section 8 Effective Date**

This emergency regulation shall be effective September 6, 2022.

## **Section 9 History**

Emergency regulation effective September 6, 2022.

The purpose of this emergency regulation is to establish a special enrollment period (SEP) that allows Colorado residents enrolled in Benefytt Technologies the opportunity to enroll in an individual health benefit plan from September 6, 2022 through November 10, 2022.

The Division of Insurance finds, pursuant to § 24-4-103(6)(a), C.R.S., that immediate adoption of this regulation is imperatively necessary for the preservation of public health, safety, or welfare as allowing individuals who choose to terminate their enrollment in Benefytt Technologies the opportunity to enroll in a health benefit plan in order to receive coverage is imperative to preserve the health of residents of Colorado. Therefore, compliance with the requirements of § 24-4-103, C.R.S., would be contrary to the public interest.

### 3 CCR 702-5

#### PROPERTY AND CASUALTY

#### Emergency Regulation 22-E-16

#### CONCERNING TOLLING CERTAIN TIME LIMITS OF POLICYHOLDER BENEFITS IN THE EVENT OF A CATASTROPHIC DISASTER

Section 1	Authority
Section 2	Scope and Purpose
Section 3	Applicability
Section 4	Definitions
Section 5	Rules
Section 6	Severability
Section 7	Enforcement
Section 8	Effective Date
Section 9	History

#### **Section 1 Authority**

This emergency regulation is being promulgated and adopted by the Commissioner of Insurance under the authority of §§ 10-1-108(7), 10-1-109(1), 10-3-1103, 10-3-1104(1)(h), and 10-3-1110, C.R.S. Further, this emergency regulation is promulgated pursuant to the Federal Emergency Management Agency (FEMA) disaster numbers FM-5423-CO, Colorado Marshall Fire, and DR-4634-CO, Colorado Wildfires and Straight-line Winds, President Biden's Major Disaster Declaration for Colorado issued on January 1, 2022, and Governor Polis' declared state of emergency due to the Boulder County Grass Fires.

#### **Section 2 Scope and Purpose**

The purpose of this emergency regulation is to protect homeowner policyholders who have suffered a loss during a catastrophic disaster, such as the 2020 Colorado East Troublesome Fire and the 2021 Marshall and Middle Fork Fires, from insurers that cause unreasonable delays in claim handling, which may further delay rebuilding property. Such delays may be further exacerbated by labor and material shortages. Further, this regulation identifies specific acts or practices that may constitute unfair claim settlement practices.

On October 14, 2020, the East Troublesome Fire damaged or destroyed more than 500 residential and commercial structures. On December 30, 2021, the Marshall and Middle Fork Fires - the most devastating fires in Colorado history - damaged or destroyed more than 1,000 residential and commercial structures. Given the unprecedented number of homeowners and renters affected by these recent fires, the Division

anticipates that locating temporary residences and the labor and material necessary to rebuild will be difficult and time consuming.

The Division of Insurance ("Division") finds, pursuant to § 24-4-103(6)(a), C.R.S., that immediate adoption of this regulation is imperatively necessary for the preservation of public health, safety, or welfare. This emergency regulation is necessary in part to provide immediate protections for those homeowner's insurance policyholders that were impacted by these fires and are filing related claims to repair or replace damaged structures. Individuals impacted by these fires will likely need an extension of the timelines set forth in homeowner insurance policies to repair or replace lost property given the large volume of damaged or destroyed structures, complicated by potential labor and material shortages caused by the COVID-19 public health emergency. Therefore, compliance with the requirements of § 24-4-103, C.R.S., would be contrary to the public interest.

### **Section 3      Applicability**

This regulation shall apply to all insurers issuing homeowner insurance policies that have loss claims resulting from the catastrophic disasters in Colorado.

### **Section 4      Definitions**

- A. "Additional living expense coverage" or "ALE" shall have the same meaning as set forth in § 10-4-110.8(3)(a), C.R.S.
- B. "Catastrophic disaster" shall have the same meaning as set forth in § 10-2-103(1), C.R.S.
- C. "Recoverable Depreciation" shall have the same meaning as set forth in § 10-4-110.8(3)(g), C.R.S.

### **Section 5      Rules**

In the event of a catastrophic disaster, an insurer shall waive any waiting periods related to ALE benefits for those policyholders whose residence requires repair or replacement or if the policyholder permanently relocates.

In the event of a catastrophic disaster, an insurer shall act in good faith and shall consider any adverse circumstances beyond the insured's control that may require maintaining and extending policyholder benefits beyond those afforded by the timelines in the underlying insurance policy. In determining whether certain benefits should be extended, insurers shall take into account all circumstances affecting the claim, including, but not limited to, labor and material shortages and other circumstances affecting the claim but not directly caused by the catastrophic disaster. The Division is specifically concerned with ALE benefits and time limits on repair or replacement for recoverable depreciation coverage. If the insured has acted in good faith and with reasonable diligence, the insurers shall also act in good faith to maintain or toll policy time limits where necessary to protect its policyholders.

In the event of a catastrophic disaster, where an insurer causes an unreasonable delay in the settlement of a claim, the insurer shall:

1. Toll the ALE time limits for the duration of the time required to repair or replace the damaged property.
2. Toll the policy time limits for the policyholder to complete the repair or replacement of the damaged part of the property necessary for issuance of the replacement cost value payment.

In the event of a catastrophic disaster, if the insurer has caused delays in providing the initial estimate of damages and/or the actual cash value payment, the insurer shall act in good faith and toll the time period that the policyholder can recover ALE benefits and collect recoverable depreciation by a time period equivalent to the delayed action by the insurer.

In the event of a catastrophic disaster, failure to toll policy time limits for ALE or recoverable depreciation (RCV) benefits beyond policy time period limits, after causing an unreasonable delay in the settlement of a claim, may constitute an unfair settlement claim practice.

## **Section 6 Severability**

If any provision of this regulation or the application of it to any person or circumstance is for any reason held to be invalid, the remainder of this regulation shall not be affected.

## **Section 7 Enforcement**

Noncompliance with this regulation may result in the imposition of any of the sanctions made available in the Colorado statutes pertaining to the business of insurance, or other laws, which include the imposition of civil penalties, issuance of cease and desist orders, and/or suspensions or revocation of license, subject to the requirements of due process.

## **Section 8 Effective Date**

This emergency regulation shall become effective September 3, 2022.

## **Section 9 History**

This emergency regulation replaces emergency regulation 22-E-01, which became effective January 7, 2022, in its entirety.

This emergency regulation replaces emergency regulation 22-E-09, which became effective May 6, 2022.

This emergency regulation shall be effective September 3, 2022.

The purpose of this emergency regulation is to protect homeowner policyholders who have suffered a loss during a catastrophic disaster, such as the 2020 Colorado East Troublesome Fire and the 2021 Marshall and Middle Fork Fires, from insurers that cause unreasonable delays in claim handling, which may further delay rebuilding property. Such delays may be further exacerbated by labor and material shortages. Further, this regulation identifies specific acts or practices that may constitute unfair claim settlement practices.

On October 14, 2020, the East Troublesome Fire damaged or destroyed more than 500 residential and commercial structures. On December 30, 2021, the Marshall and Middle Fork Fires - the most devastating fires in Colorado history - damaged or destroyed more than 1,000 residential and commercial structures. Given the unprecedented number of homeowners and renters affected by these recent fires, the Division anticipates that locating temporary residences and the labor and material necessary to rebuild will be difficult and time consuming.

The Division of Insurance ("Division") finds, pursuant to § 24-4-103(6)(a), C.R.S., that immediate adoption of this regulation is imperatively necessary for the preservation of public health, safety, or welfare. This emergency regulation is necessary in part to provide immediate protections for those homeowner's insurance policyholders that were impacted by these fires and are filing related claims to repair or replace damaged structures. Individuals impacted by these fires will likely need an extension of the timelines set forth in homeowner insurance policies to repair or replace lost property given the large volume of damaged or destroyed structures, complicated by potential labor and material shortages caused by the COVID-19 public health emergency. Therefore, compliance with the requirements of § 24-4-103, C.R.S., would be contrary to the public interest.

#### 1.20 PROVISION OF REPRODUCTIVE HEALTH CARE IN COLORADO

This Rule is promulgated pursuant to Executive Order D 2022 032, and sections 25-6-401 *et seq.*, 12-290-106(1)(a), and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
2. "Assisting in the provision reproductive health care" means aiding, abetting or complicity in the provision of reproductive health care.
3. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
4. "Criminal judgment" means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
5. "Licensee" means as defined in section 12-20-102(10), C.R.S.
6. "Provision of reproductive health care," includes but is not limited to, transportation for reproductive health care, referrals for reproductive health care and related services, funding or assisting with payment of reproductive health care, prescribing, shipping or dispensing medications for reproductive health care in accordance with state and federal law, all options and mental health counseling and treatment related to reproductive health care. The "provision of reproductive health care" also includes all treatment contemplated in the definition of section 25-6-402(4), C.R.S.
7. "Regulator" means as defined in section 12-20-102(14), C.R.S.
8. "Reproductive health care" means as defined in section 25-6-402(4), C.R.S.

B. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on the applicant or licensee's provision of or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice as defined in Colorado law and did not otherwise violate Colorado law.

C. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee arising from the provision of, or assistance in the provision of reproductive health care in this state

or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.

- D. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a professional disciplinary action or any other sanction against the applicant's or licensee's professional licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant or licensee's provision of, or assistance in the provision of, reproductive health care and the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.
- E. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's registration, certificate or license based solely on the licensee's own personal effort to seek or obtain reproductive health care for themselves. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee arising from the individual's own personal receipt of reproductive health care in this state or any other state or U.S. territory.

#### **1.21 PROTECTING COLORADO'S WORKFORCE AND EXPANDING LICENSING OPPORTUNITIES**

This Rule is promulgated pursuant to Executive Order D 2022 034, and sections 12-290-106(1)(a) and 12-20-204, C.R.S.

- A. Definitions, for purposes of this Rule, are as follows:
  - 1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
  - 2. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
  - 3. "Criminal judgment" means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
  - 4. "Licensee" means as defined in section 12-20-102(10), C.R.S.
  - 5. "Regulator" means as defined in section 12-20-102(14), C.R.S.
- B. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee regarding the consumption, possession, cultivation, or processing of marijuana so long as the actions are lawful and consistent with professional conduct and standards of care within Colorado and did not otherwise violate Colorado law.
- C. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a professional disciplinary action against the applicant's or licensee's professional licensure in this, or any other state or US territory so long as the professional disciplinary action is based solely on the applicant's or licensee's consumption, possession, cultivation, or processing of marijuana and did not otherwise violate Colorado law.

## **STATEMENT OF BASIS, PURPOSE and JUSTIFICATION for EMERGENCY RULES**

On July 6, 2022, Colorado Governor Jared Polis (“Governor”) signed Executive Order D 2022 032, “Directing State Agencies to Protecting Access to Reproductive Health Care in Colorado.”

On July 14, 2022, Colorado Governor Jared Polis (“Governor”) signed Executive Order D 2022 034, “Protecting Colorado’s Workforce and Expanding Licensing Opportunities.”

### Basis

The basis for these rules is Executive Order D 2022 032 and Executive Order D 2022 034.

Through Executive Order D 2022 032, Governor Jared Polis directed all state agencies not to share any information or data, including patient medical records, patient-level data or related billing information, or expend time, money, facilities property, equipment, personnel, or other resources to assist or further any investigation or proceeding initiated in or by another state that seeks to impose criminal or civil liability or professional sanction upon a person for conduct that would be legal in Colorado related to providing, assisting, seeking, or obtaining reproductive health care, unless pursuant to a court order.

Governor Jared Polis also directed the Department of Regulatory Agencies (DORA) to work with all programs and boards of professional licensure operating under its purview to promulgate and issue necessary rules that will ensure that no person shall be subject to a disciplinary action against a professional license or disqualified from professional licensure for providing or assisting in the provision of reproductive health care or as a consequence of any civil or criminal judgment, discipline, or other sanction threatened or imposed under the laws of another state so long as the care as provided is consistent with professional conduct and standards of care within the State of Colorado.

Through Executive Order D 2022 034, Governor Jared Polis directed the Department of Regulatory Agencies to work with all programs and boards of professional licensure operating under its purview to promulgate and issue rules as necessary to ensure that no person shall be subject to disciplinary action against a professional license or disqualified from professional licensure for any civil or criminal judgment, discipline, or other sanction threatened r imposed under the laws of another state as long as the actions are lawful and consistent with professional conduct and standards of care within the State of Colorado.

### Purpose

The purpose of these emergency rules is to effectuate Executive Order D 2022 032 and Executive Order D 2022 034.

As stated in Executive Order D 2022 032, Colorado is experiencing workforce shortage in many professions, and disqualifying people because they were prosecuted for taking actions in other states that are fully legal under Colorado law would hurt our economy and our State.

Colorado is committed to protecting access to reproductive health care. No one who is lawfully providing, assisting, seeking, or obtaining reproductive health care in Colorado should be subject to legal liability or professional sanctions in Colorado or any other state, nor will Colorado cooperate with criminal or civil investigations for actions that are fully legal in Colorado.

As stated in Executive Order D 2022 034, employers are having difficulty recruiting and retaining qualified employees, many of whom need professional licenses. The exclusion of people from the workforce because of marijuana-related activities that are lawful in Colorado, but illegal in other states, hinders our economy and our State.

### Justification

As set forth in Executive Order D 2022 032, the need exists to immediately protect access to reproductive health care in Colorado by promulgating rules ensuring no licensee, certificant, or registrant shall be subject to disciplinary action against a professional license or disqualified from professional licensure for providing or assisting in the provision of reproductive health care or as a consequence of any civil or criminal judgment, discipline, or other sanction threatened or imposed under the laws of another state so long as the care provided is lawful and consistent with professional conduct and standards of care within the State of Colorado.

As set forth in Executive Order D 2022 034, the Order ensures that all Coloradans are afforded protections and rights under Colorado law.

Pursuant to section 24-4-103(6)(a), C.R.S., a temporary or emergency rule may be adopted without compliance with section 24-4-103(4), C.R.S., which requires the agency to hold a public hearing “at which it shall afford interested persons an opportunity to submit written data, views, or arguments and to present the same orally”; and with less than the twenty days’ notice set forth in section 24-4-103(3), C.R.S., or without notice where circumstances imperatively require, only if the agency finds that “[i]mmediate adoption of the rule is imperatively necessary to comply with a state or federal law or federal regulation or for preservation of the public health, safety or welfare and compliance with the requirements of this section would be contrary to the public interest.” Such findings must be made on the record.

The Regulator, as defined in section 12-20-102(14), C.R.S., hereby finds the immediate adoption of these emergency rules is imperatively necessary to comply with Executive Order D 2022 032, to protect access to reproductive health care in Colorado. The adoption of emergency rules is imperatively necessary for the preservation of the public health, safety, and welfare, and cannot wait the several months required for permanent rulemaking and therefore emergency rules are appropriate pursuant to the Administrative Procedure Act.

The Regulator finds, as required by section 24-4-103(4)(b), C.R.S., that the need for the emergency rulemaking exists; the proper constitutional and/or statutory authority exists for the rules; to the extent practicable, the rules are clearly and simply stated so that their meaning will be understood by any required to comply with the rules; the rules do not conflict with other provisions of the law; and any duplication or overlapping of the rules, if any, has been explained.

These temporary/emergency rules take effect September 9, 2022, and remain in effect for up to a maximum of 120 days after adoption of these temporary/emergency rules.

#### 1.17 Protections for Provision of Reproductive Health Care in Colorado

This Rule is promulgated pursuant to Executive Order D 2022 032, and sections 25-6-401 *et seq.*, 12-265-107(1)(a), and 12-20-204, C.R.S.

A. Definitions, for purposes of this Rule, are as follows:

1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
2. "Assisting in the provision reproductive health care" means aiding, abetting or complicity in the provision of reproductive health care.
3. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
4. "Criminal judgment" means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
5. "Licensee" means as defined in section 12-20-102(10), C.R.S.
6. "Provision of reproductive health care," includes but is not limited to, transportation for reproductive health care, referrals for reproductive health care and related services, funding or assisting with payment of reproductive health care, prescribing, shipping or dispensing medications for reproductive health care in accordance with state and federal law, all options and mental health counseling and treatment related to reproductive health care. The "provision of reproductive health care" also includes all treatment contemplated in the definition of section 25-6-402(4), C.R.S.
7. "Regulator" means as defined in section 12-20-102(14), C.R.S.
8. "Reproductive health care" means as defined in section 25-6-402(4), C.R.S.

B. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on the applicant or licensee's provision of or assistance in the provision of reproductive health care in this state or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice as defined in Colorado law and did not otherwise violate Colorado law.

C. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee arising from the provision of, or assistance in the provision of reproductive health care in this state

or any other state or U.S. territory, so long as the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.

- D. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a professional disciplinary action or any other sanction against the applicant's or licensee's professional licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant or licensee's provision of, or assistance in the provision of, reproductive health care and the care provided was consistent with generally accepted standards of practice and did not otherwise violate Colorado law.
- E. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's registration, certificate or license based solely on the licensee's own personal effort to seek or obtain reproductive health care for themselves. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee arising from the individual's own personal receipt of reproductive health care in this state or any other state or U.S. territory.

### **1.18 Protecting Colorado's Workforce and Expanding Licensing Opportunities**

This Rule is promulgated pursuant to Executive Order D 2022 034, and sections 12-265-107(1)(a) and 12-20-204, C.R.S.

- A. Definitions, for purposes of this Rule, are as follows:
  - 1. "Applicant" means as defined in section 12-20-102(2), C.R.S.
  - 2. "Civil judgment" means a final court decision and order resulting from a civil lawsuit.
  - 3. "Criminal judgment" means a guilty verdict, a plea of guilty, a plea of nolo contendere, or a deferred judgment or sentence.
  - 4. "Licensee" means as defined in section 12-20-102(10), C.R.S.
  - 5. "Regulator" means as defined in section 12-20-102(14), C.R.S.
- B. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a civil or criminal judgment against the applicant or licensee regarding the consumption, possession, cultivation, or processing of marijuana so long as the actions are lawful and consistent with professional conduct and standards of care within Colorado and did not otherwise violate Colorado law.
- C. The regulator shall not deny licensure to an applicant or impose disciplinary action against an individual's license based solely on a professional disciplinary action against the applicant's or licensee's professional licensure in this, or any other state or U.S. territory so long as the professional disciplinary action is based solely on the applicant's or licensee's consumption, possession, cultivation, or processing of marijuana and did not otherwise violate Colorado law.

## **STATEMENT OF BASIS, PURPOSE and JUSTIFICATION for EMERGENCY RULES**

On July 6, 2022, Colorado Governor Jared Polis (“Governor”) signed Executive Order D 2022 032, “Directing State Agencies to Protecting Access to Reproductive Health Care in Colorado.”

On July 14, 2022, Colorado Governor Jared Polis (“Governor”) signed Executive Order D 2022 034, “Protecting Colorado’s Workforce and Expanding Licensing Opportunities.”

### Basis

The basis for these rules is Executive Order D 2022 032 and Executive Order D 2022 034.

Through Executive Order D 2022 032, Governor Jared Polis directed all state agencies not to share any information or data, including patient medical records, patient-level data or related billing information, or expend time, money, facilities property, equipment, personnel, or other resources to assist or further any investigation or proceeding initiated in or by another state that seeks to impose criminal or civil liability or professional sanction upon a person for conduct that would be legal in Colorado related to providing, assisting, seeking, or obtaining reproductive health care, unless pursuant to a court order.

Governor Jared Polis also directed the Department of Regulatory Agencies (DORA) to work with all programs and boards of professional licensure operating under its purview to promulgate and issue necessary rules that will ensure that no person shall be subject to a disciplinary action against a professional license or disqualified from professional licensure for providing or assisting in the provision of reproductive health care or as a consequence of any civil or criminal judgment, discipline, or other sanction threatened or imposed under the laws of another state so long as the care as provided is consistent with professional conduct and standards of care within the State of Colorado.

Through Executive Order D 2022 034, Governor Jared Polis directed the Department of Regulatory Agencies to work with all programs and boards of professional licensure operating under its purview to promulgate and issue rules as necessary to ensure that no person shall be subject to disciplinary action against a professional license or disqualified from professional licensure for any civil or criminal judgment, discipline, or other sanction threatened or imposed under the laws of another state as long as the actions are lawful and consistent with professional conduct and standards of care within the State of Colorado.

### Purpose

The purpose of these emergency rules is to effectuate Executive Order D 2022 032 and Executive Order D 2022 034.

As stated in Executive Order D 2022 032, Colorado is experiencing workforce shortage in many professions, and disqualifying people because they were prosecuted for taking actions in other states that are fully legal under Colorado law would hurt our economy and our State.

Colorado is committed to protecting access to reproductive health care. No one who is lawfully providing, assisting, seeking, or obtaining reproductive health care in Colorado should be subject to legal liability or professional sanctions in Colorado or any other state, nor will Colorado cooperate with criminal or civil investigations for actions that are fully legal in Colorado.

As stated in Executive Order D 2022 034, employers are having difficulty recruiting and retaining qualified employees, many of whom need professional licenses. The exclusion of people from the workforce because of marijuana-related activities that are lawful in Colorado, but illegal in other states, hinders our economy and our State.

### Justification

As set forth in Executive Order D 2022 032, the need exists to immediately protect access to reproductive health care in Colorado by promulgating rules ensuring no licensee, certificant, or registrant shall be subject to disciplinary action against a professional license or disqualified from professional licensure for providing or assisting in the provision of reproductive health care or as a consequence of any civil or criminal judgment, discipline, or other sanction threatened or imposed under the laws of another state so long as the care provided is lawful and consistent with professional conduct and standards of care within the State of Colorado.

As set forth in Executive Order D 2022 034, the Order ensures that all Coloradans are afforded protections and rights under Colorado law.

Pursuant to section 24-4-103(6)(a), C.R.S., a temporary or emergency rule may be adopted without compliance with section 24-4-103(4), C.R.S., which requires the agency to hold a public hearing “at which it shall afford interested persons an opportunity to submit written data, views, or arguments and to present the same orally”; and with less than the twenty days’ notice set forth in section 24-4-103(3), C.R.S., or without notice where circumstances imperatively require, only if the agency finds that “[i]mmediate adoption of the rule is imperatively necessary to comply with a state or federal law or federal regulation or for preservation of the public health, safety or welfare and compliance with the requirements of this section would be contrary to the public interest.” Such findings must be made on the record.

The Regulator, as defined in section 12-20-102(14), C.R.S., hereby finds the immediate adoption of these emergency rules is imperatively necessary to comply with Executive Order D 2022 032, to protect access to reproductive health care in Colorado. The adoption of emergency rules is imperatively necessary for the preservation of the public health, safety, and welfare, and cannot wait the several months required for permanent rulemaking and therefore emergency rules are appropriate pursuant to the Administrative Procedure Act.

The Regulator finds, as required by section 24-4-103(4)(b), C.R.S., that the need for the emergency rulemaking exists; the proper constitutional and/or statutory authority exists for the rules; to the extent practicable, the rules are clearly and simply stated so that their meaning will be understood by any required to comply with the rules; the rules do not conflict with other provisions of the law; and any duplication or overlapping of the rules, if any, has been explained.

These temporary/emergency rules take effect September 14, 2022, and remain in effect for up to a maximum of 120 days after adoption of these temporary/emergency rules.

Adopted this 14th day of September, 2022.

A handwritten signature in blue ink, appearing to read 'K. McGovern', is positioned above a horizontal line.

### 3.321 CRSP ELIGIBLE POPULATIONS

A. A “refugee” means the same as in 8 U.S.C. 1101(a)(42) and accompanying notes to 8 U.S.C. 1101.

\*\*\*\*\*

G. “Afghan humanitarian parolee” refers to Afghan individuals who have been granted humanitarian parole status by the U.S Department of Homeland Security and who qualify for refugee benefits under Pub. L. 117-43, § 2502 (Sept. 30, 2021), no later additions or amendments are incorporated. This public law is available at no cost from [www.uscode.house.gov](http://www.uscode.house.gov). This public law is also available for public inspection and copying at the Colorado Department of Human Services, Colorado Refugee Services Program, 1575 Sherman St., Denver, CO 80203, during regular business hours.

\*\*\*\*\*

I. “Ukrainian humanitarian parolee (UHPs)” refers to citizens or nationals of Ukraine who the Department of Homeland Security (DHS) has paroled into the United States between February 24, 2022, and September 30, 2023, due to urgent humanitarian reasons or for significant public benefit who qualify for refugee benefits under Pub. L. 117-128, § 401 (May 21, 2022), no later additions or amendments are incorporated. This public law is available at no cost from [www.uscode.house.gov](http://www.uscode.house.gov). This public law is also available for public inspection and copying at the Colorado Department of Human Services, Colorado Refugee Services Program, 1575 Sherman St., Denver, CO 80203, during regular business hours.

J. Non-Ukrainian individuals who last habitually resided in Ukraine, who DHS has paroled into the United States between February 24, 2022, and September 30, 2023, due to urgent humanitarian reasons or for significant public benefit.

K. A spouse or child of an individual described in section I) or J) who is paroled into the United States after September 30, 2023.

L. A parent, legal guardian, or primary caregiver of an unaccompanied refugee minor or an unaccompanied child described in section I) or J) who is paroled into the United States after September 30, 2023.

M. Unaccompanied refugee minors (URMs) are minors identified overseas who are eligible for resettlement in the United States, but do not have a parent or a relative available who is committed to providing for the minor’s long-term care. Upon arrival in the United States, these refugee youth are placed into the URM program and receive refugee foster care services and benefits. Youth who have an immigration status that enables them to become eligible for ORR services (for verification of status for program eligibility, see section 3.330), or who enter the United States with or without family but experience a family breakdown or cannot return home, may also be eligible to participate in the URM program if approved by ORR.

N. An I-551 (“green card”) holder who held one of the previously identified statuses is eligible to apply for both CDHS and CRSP benefits and services.

### 3.330 verification of status for program eligibility

.....

J. United States citizenship and immigration service (USCIS) form I-94 noting humanitarian parole (per INA section 212(d)(5)(a)) or 8 U.S.C § 1182(d)(5)) if paroled into the United States between February 24, 2022, and September 30, 2023, or foreign passport with DHS/CBP admission stamp noting “DT” or a foreign passport with DHS/CBP admission stamp noting Uniting for Ukraine or “U4U” or a foreign passport with DHS/CBP admission stamp noting Ukrainian humanitarian parolee or “UHP” or form I-765 employment authorization document (EAD) receipt notice with code C11 or form I-766 employment authorization document (EAD) with the code C11.

K. Any one of the forms or stamps listed above for UHPs and documentation of last habitual residence in Ukraine.

L. Unaccompanied Refugee Minors (URMs) who meet the definition above will have one of the following statuses: refugee, asylee, Cuban/Haitian entrant, victim of trafficking, Amerasian, Iraqi or Afghani special immigrant visa holder, Special Immigrant Juvenile Status (SIJS), U visa holder, or has legal permanent resident status that previously held one of the statuses mentioned.

If the URM has SIJS status, documentation presented will be one of the following: I-797, notice of action indicating status (i.e., evidence of approved I-360, or evidence of approved I-360 and approved I-485); visa indicating SIJS status with SL class of admission; I-1551 indicating SIJS status with SL class of admission.

If the URM has a U-visa, documentation presented will be one of the following: I-797 notice of action indicating U status; a U-visa; or an I-94 arrival/departure record showing admission in U status. Please note: U-visa holders are not considered “qualified aliens” status for federal public benefits. It does qualify the person to be “lawfully present” for potential state benefits.

M. An I-551 form (“green card”, permanent resident card or resident alien card) with class of admission codes AS-6, AS -7, AS -8, RE-6, RE -7, RE -8, RE -9, CH-6, HA6, HB6, GA6, GA7, GA8, ST6, ST7, ST8, ST0, ST9, SI6, SI7, SI9, SQ6, SQ7, SQ9, AM-1, AM-2, AM-3, AM6, AM-7, or AM 8. The unexpired I-551 stamp may be located in a foreign passport.

If not eligible for the assistance of TANF/Colorado Works, individuals with this immigration status may be eligible for Refugee Cash Assistance (RCA) through the Colorado Refugee Services Program if income and program eligibility criteria are met. Persons must be enrolled in one of the refugee resettlement agencies in order to access RCA.

Individuals admitted to the United States who are classified by USCIS as "Applicants for Asylum" are not eligible for CRSP benefits. Once granted asylum, those individuals are eligible. The exception to this rule is Cuban and Haitian individuals applying for asylum; however, they must produce documents as described above.

CRSP follows the federal guidance on eligible populations, status and documentation in the office of refugee resettlement state letter # 16-01, dated 10/02/2015, located on the federal government web site at:

<https://www.acf.hhs.gov/orr/policy-guidance/status-and-documentation-requirements-orr-refugee-resettlement-program>

No later editions or amendments are incorporated. Copies may be reviewed during normal business hours by contacting the Refugee Services Coordinator in the Office of Economic Security, Colorado Refugee Services Program, 1575 Sherman St, Denver, Colorado 80203. If there is an eligibility question, please contact the Colorado Refugee Services Program for assistance.

**STATEMENT OF BASIS AND PURPOSE**

**Summary of the basis and purpose for new rule or rule change.**

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The Additional Ukraine Supplemental Appropriations Act, 2022, part of Public Law 117-128, was signed into federal law on May 21, 2022. The Appropriations Act established eligibility for federal benefit programs for Ukrainian Humanitarian Parolees, which are to be treated as refugees for benefits purposes. Pub. L. 117-128, Title IV, § 401(a), (b). The Colorado Refugee Services Program (CRSP) proposes the inclusion of new Office of Refugee Resettlement (ORR) eligible categories of Ukrainian population groups into the state rules, in response to the ongoing resettlement of the Ukrainian population to the State of Colorado. The proposed rule will ensure that the new categories of Ukrainian population groups and the document types, necessary for proof of their status, are clearly reflected in the state rules. Thus, CRSP proposes the addition of the following categories under section 3.321 (CRSP eligible population group):

- 1) Citizens or nationals of Ukraine who the Department of Homeland Security (DHS) has paroled into the United States between February 24, 2022, and September 30, 2023, due to urgent humanitarian reasons or for significant public benefit, known as Ukrainian Humanitarian Parolees (UHPs).
- 2) Non-Ukrainian individuals who last habitually resided in Ukraine, who DHS has paroled into the United States between February 24, 2022, and September 30, 2023, due to urgent humanitarian reasons or for significant public benefit.
- 3) A spouse or child of an individual described in section 1) or 2) who is paroled into the United States after September 30, 2023.
- 4) A parent, legal guardian, or primary caregiver of an unaccompanied refugee minor or an unaccompanied child described in section 1) or 2) who is paroled into the United States after September 30, 2023.

CRSP also proposed the addition of following documents under section 3.330 (verification of status for program eligibility):

- 1) United States Citizenship and Immigration Service (USCIS) Form I-94 noting Humanitarian Parole (per INA section 212(d)(5)(A)) or 8 U.S.C. § 1182(d)(5)) if paroled into the United States between February 24, 2022, and September 30, 2023, or foreign passport with DHS/CBP admission stamp noting "DT" or a foreign passport with DHS/CBP admission stamp noting Uniting for Ukraine or "U4U" or a foreign passport with DHS/CBP admission stamp noting Ukrainian Humanitarian Parolee or "UHP" or form I-765 Employment Authorization Document (EAD) receipt notice with code C11 or form I-766 Employment Authorization Document (EAD) with the code C11.
- 2) Any one of the forms or stamps listed above for UHPs and documentation of last habitual residence in Ukraine.

**Title of Proposed Rule: Addition of new eligible categories of Ukrainian population groups**

**CDHS Tracking #: 22-08-01-02**

Office, Division, & Program:  
Office of Economic Security,  
Employment & Benefits Division,  
Colorado Refugee Services  
Program

Rule Author: Bidur Dahal

Phone: 303-489-5084

E-Mail:  
bidur.dahal@state.co.us

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- |                                     |   |
|-------------------------------------|---|
| <input checked="" type="checkbox"/> | to comply with state/federal law and/or       |
| <input checked="" type="checkbox"/> | to preserve public health, safety and welfare |

**Justification for emergency:**

Ukrainian Humanitarian Parolees were made eligible immediately for benefits and services in the federal Additional Ukraine Supplemental Appropriations Act. Current rules do not allow eligibility for this population and are out of alignment with the new federal law. Thus, ensuring the inclusion of their new categories and verification of status documents in the state rules, will bring uniform knowledge of categories, public benefits eligibility, and support from all parties involved, and allow CRSP to provide services to this population.

**State Board Authority for Rule:**

Code	Description
26-1-107(5)(a)(I), (b), C.R.S. (2021)	State Board to promulgate rules that govern program scope and content for all programs administered and services provided by the state department under Titles 26 and 27 of the C.R.S. CRSP is administered by the state department under section 26-2-138, C.R.S. (2021).
26-1-111(2)(a), C.R.S. (2021)	State department must administer or supervise all forms of public assistance and welfare that are vested in the state department pursuant to law. CRSP is a public assistance and welfare program administered by the state department under section 26-2-138, C.R.S.

**Program Authority for Rule:** Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.

Code	Description
26-2-137(1)(b), C.R.S. (2021)	The state department shall promulgate rules for the delivery of emergency services to legal immigrants and non-citizens
26-2-138(3)-(5), C.R.S. (2021)	The state department must adopt rules to provide benefits and services to refugees that are consistent with the INA and Colorado's state plan.
Pub. L. 117-128, Title IV, § 401(a), (b); 8 U.S.C. 1101 note "Benefits for Certain Citizens or	A citizen or national of Ukraine meeting certain criteria shall be eligible for federal public benefits available to refugees, including resettlement assistance and other services managed by CRSP.

## **REGULATORY ANALYSIS**

### **1. List of groups impacted by this rule.**

*Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?*

Colorado Department of Human Services and individual county human services departments will benefit from this rule change because this change will clarify the categories of the new eligible Ukrainian population groups, and the required documentation to verify their immigration status in order for this population groups to receive public benefits.

Colorado refugee resettlement agencies and other CRSP contactors will benefit by having state rules that match federal program rules regarding program eligibility for Ukrainian humanitarian parole, and eligible non-Ukrainian individuals who last habitually resided in Ukraine. This rule will ensure and confirm the eligibility of public benefits for these new categories of Ukrainian population groups.

### **2. Describe the qualitative and quantitative impact.**

*How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?*

This rule change will preserve and bring clarity to the CRSP rules that are most essential for the efficient and effective provision of benefits and services, to the new Ukrainian population that are ORR eligible populations. The consequences of this rule would be the benefit to any county worker, supervisor, or director who works with these populations and who are responsible for processing these new case types for public benefits, in the respective counties.

### **3. Fiscal Impact**

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just “no impact” answer should include “no impact because....”***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

The fiscal impact of the change cannot be anticipated at this time as we are unable to predict the number of Ukrainian humanitarian parolees that will be resettled in the State of Colorado. There is no reason to believe that the cost of providing benefits to newly eligible non-citizens will exceed what can be paid for through existing program allocations.

**Title of Proposed Rule: Addition of new eligible categories of Ukrainian population groups**

County Fiscal Impact

County Fiscal Impact

The fiscal impact of the change cannot be anticipated at this time as we are unable to predict the number of Ukrainian humanitarian parolees that will be resettled in the State of Colorado. There is no reason to believe that the cost of providing benefits to newly eligible non-citizens will exceed what can be paid for through existing program allocations.

Federal Fiscal Impact

There are no federal fiscal impacts with this change.

Other Fiscal Impact (such as providers, local governments, etc.)

There are no other fiscal impacts.

**4. Data Description**

*List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?*

There are no studies or data needed for these new rules.

**5. Alternatives to this Rule-making**

*Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just “no alternative” answer should include “no alternative because...”*

There were no alternatives considered for the revised rule because these rules are required to comply with new federal law and to preserve the health, safety, and welfare of Ukrainian humanitarian parolees that will be resettled in Colorado.

### 3.321 CRSP ELIGIBLE POPULATIONS

A. A "REFUGEE" MEANS THE SAME AS IN 8 U.S.C. 1101(a)(42) AND ACCOMPANYING NOTES TO 8 U.S.C. 1101. ~~is a person who is outside his/her country of nationality (or habitual residence) who is unable or unwilling to return to that country because of persecution or a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group or political opinion. A refugee is granted refugee status outside of the United States.~~

\*\*\*\*\*

G. "AFGHAN HUMANITARIAN PAROLEE" REFERS TO AFGHAN INDIVIDUALS WHO HAVE BEEN GRANTED HUMANITARIAN PAROLE STATUS BY THE U.S. DEPARTMENT OF HOMELAND SECURITY AND WHO QUALIFY FOR REFUGEE BENEFITS UNDER PUB. L. 117-43, § 2502 (SEPT. 30, 2021), NO LATER ADDITIONS OR AMENDMENTS ARE INCORPORATED. THIS PUBLIC LAW IS AVAILABLE AT NO COST FROM [WWW.USCODE.HOUSE.GOV](http://WWW.USCODE.HOUSE.GOV). THIS PUBLIC LAW IS ALSO AVAILABLE FOR PUBLIC INSPECTION AND COPYING AT THE COLORADO DEPARTMENT OF HUMAN SERVICES, COLORADO REFUGEE SERVICES PROGRAM, 1575 SHERMAN ST., DENVER, CO 80203, DURING REGULAR BUSINESS HOURS. ~~Afghan individuals that have been granted humanitarian parole status by the U.S. Department of Homeland Security.~~

\*\*\*\*\*

I. "UKRAINIAN HUMANITARIAN PAROLEE (UHPS)" REFERS TO CITIZENS OR NATIONALS OF UKRAINE WHO THE DEPARTMENT OF HOMELAND SECURITY (DHS) HAS PAROLED INTO THE UNITED STATES BETWEEN FEBRUARY 24, 2022, AND SEPTEMBER 30, 2023, DUE TO URGENT HUMANITARIAN REASONS OR FOR SIGNIFICANT PUBLIC BENEFIT WHO QUALIFY FOR REFUGEE BENEFITS UNDER PUB. L. 117-128, § 401 (MAY 21, 2022), NO LATER ADDITIONS OR AMENDMENTS ARE INCORPORATED. THIS PUBLIC LAW IS AVAILABLE AT NO COST FROM [WWW.USCODE.HOUSE.GOV](http://WWW.USCODE.HOUSE.GOV). THIS PUBLIC LAW IS ALSO AVAILABLE FOR PUBLIC INSPECTION AND COPYING AT THE COLORADO DEPARTMENT OF HUMAN SERVICES, COLORADO REFUGEE SERVICES PROGRAM, 1575 SHERMAN ST., DENVER, CO 80203, DURING REGULAR BUSINESS HOURS.

. ~~Unaccompanied Refugee Minors (URMs) are minors identified overseas who are eligible for resettlement in the United States, but do not have a parent or a relative available who are committed to providing for the minor's long-term care. Upon arrival in the United States, these refugee youth are placed into the URM program and receive refugee foster care services and benefits. Youth who have an immigration status that enables them to become eligible for ORR services (for verification of status for program eligibility, see section 3.330), who enter the United States with or without family but experience a family breakdown or cannot return home, may also be eligible to participate in the URM program if approved by ORR.~~

J. NON-UKRAINIAN INDIVIDUALS WHO LAST HABITUALLY RESIDED IN UKRAINE, WHO DHS HAS PAROLED INTO THE UNITED STATES BETWEEN FEBRUARY 24, 2022, AND SEPTEMBER 30, 2023, DUE TO URGENT HUMANITARIAN REASONS OR FOR SIGNIFICANT PUBLIC BENEFIT.

. ~~An I-551 ("green card") holder who held one of the previously identified statuses are eligible to apply for both CDHS and CRSP benefits and services.~~

K. A SPOUSE OR CHILD OF AN INDIVIDUAL DESCRIBED IN SECTION I) OR J) WHO IS PAROLED INTO THE UNITED STATES AFTER SEPTEMBER 30, 2023.

L. A PARENT, LEGAL GUARDIAN, OR PRIMARY CAREGIVER OF AN UNACCOMPANIED REFUGEE MINOR OR AN UNACCOMPANIED CHILD DESCRIBED IN SECTION I) OR J) WHO IS PAROLED INTO THE UNITED STATES AFTER SEPTEMBER 30, 2023.

M. UNACCOMPANIED REFUGEE MINORS (URMS) ARE MINORS IDENTIFIED OVERSEAS WHO ARE ELIGIBLE FOR RESETTLEMENT IN THE UNITED STATES, BUT DO NOT HAVE A PARENT OR A RELATIVE AVAILABLE WHO IS COMMITTED TO PROVIDING FOR THE MINOR'S LONG-TERM CARE. UPON ARRIVAL IN THE UNITED STATES, THESE REFUGEE YOUTH ARE PLACED INTO THE URM PROGRAM AND RECEIVE REFUGEE FOSTER CARE SERVICES AND BENEFITS. YOUTH WHO HAVE AN IMMIGRATION STATUS THAT ENABLES THEM TO BECOME ELIGIBLE FOR ORR SERVICES (FOR VERIFICATION OF STATUS FOR PROGRAM ELIGIBILITY, SEE SECTION 3.330), OR WHO ENTER THE UNITED STATES WITH OR WITHOUT FAMILY BUT EXPERIENCE A FAMILY BREAKDOWN OR CANNOT RETURN HOME, MAY ALSO BE ELIGIBLE TO PARTICIPATE IN THE URM PROGRAM IF APPROVED BY ORR.

N. AN I-551 ("GREEN CARD") HOLDER WHO HELD ONE OF THE PREVIOUSLY IDENTIFIED STATUSES IS ELIGIBLE TO APPLY FOR BOTH CDHS AND CRSP BENEFITS AND SERVICES.

### 3.330 VERIFICATION OF STATUS FOR PROGRAM ELIGIBILITY

.....

J. UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICE (USCIS) FORM I-94 NOTING HUMANITARIAN PAROLE (PER INA SECTION 212(D)(5)(A)) OR 8 U.S.C. § 1182(D)(5)) IF PAROLED INTO THE UNITED STATES BETWEEN FEBRUARY 24, 2022, AND SEPTEMBER 30, 2023, OR FOREIGN PASSPORT WITH DHS/CBP ADMISSION STAMP NOTING "DT" OR A FOREIGN PASSPORT WITH DHS/CBP ADMISSION STAMP NOTING UNITING FOR UKRAINE OR "U4U" OR A FOREIGN PASSPORT WITH DHS/CBP ADMISSION STAMP NOTING UKRAINIAN HUMANITARIAN PAROLEE OR "UHP" OR FORM I-765 EMPLOYMENT AUTHORIZATION DOCUMENT (EAD) RECEIPT NOTICE WITH CODE C11 OR FORM I-766 EMPLOYMENT AUTHORIZATION DOCUMENT (EAD) WITH THE CODE C11. ~~Unaccompanied Refugee Minors (URMs) who meet the definition above will have one of the following statuses: refugee, asylee, Cuban/Haitian Entrant, victim of trafficking, Amerasian, Iraqi or Afghani special immigrant visa holder, Special Immigrant Juvenile Status (SIJS), U-visa holder, or has legal permanent resident status that previously held one of the statuses mentioned.~~

~~If the URM has SIJS status, documentation presented will be one of the following: I-797, notice of action indicating status (i.e., evidence of approved I-360, or evidence of approved I-360 and approved I-485); visa indicating SIJS status with SL class of admission; I-1551 indicating SIJS status with SL class of admission.~~

~~If the URM has a U-visa, documentation presented will be one of the following: I-797 notice of action indicating U status; a U-visa; or an I-94 arrival/departure record showing admission in~~

U status. Please note: U-visa holders are not considered “qualified aliens” status for federal public benefits. It does qualify the person to be “lawfully present” for potential state benefits.

K. ANY ONE OF THE FORMS OR STAMPS LISTED ABOVE FOR UHPS AND DOCUMENTATION OF LAST HABITUAL RESIDENCE IN UKRAINE.

. An I-551 form (“green card”, permanent resident card or resident alien card) with class of admission codes AS-6, AS-7, AS-8, RE-6, RE-7, RE-8, RE-9, CH-6, HA6, HB6, GA6, GA7, GA8, ST6, ST7, ST8, ST0, ST9, SI6, SI7, SI9, SQ6, SQ7, SQ9, AM-1, AM-2, AM-3, AM6, AM-7, or AM 8. The unexpired I-551 stamp may be located in a foreign passport.

If not eligible for the assistance of TANF/Colorado Works, individuals with this immigration status may be eligible for Refugee Cash Assistance (RCA) through the Colorado Refugee Services Program if income and program eligibility criteria are met. Persons must be enrolled in one of the refugee resettlement agencies in order to access RCA.

Individuals admitted to the United States who are classified by USCIS as “Applicants for Asylum” are not eligible for CRSP benefits. Once granted asylum, those individuals are eligible. The exception to this rule is Cuban and Haitian individuals applying for asylum; however, they must produce documents as described above.

For additional federal information regarding CRSP-eligible populations, statuses, and documentation, see the Office of Refugee Resettlement State Letter # 16-01, dated 10/1/2015, located on the federal government web site at:

<http://www.acf.hhs.gov/programs/orr/resource/status-and-documentation-requirements-for-the-orr-refugee-resettlement-program#process>. No later editions or amendments are incorporated.

Copies may be reviewed during normal business hours by contacting the Refugee Services Coordinator in the Office of Economic Security, Colorado Refugee Services Program, 1120 Lincoln Street, Suite 1007, Denver, Colorado 80203. If there is an eligibility question, please contact the Colorado Refugee Services Program for assistance.

L. UNACCOMPANIED REFUGEE MINORS (URMS) WHO MEET THE DEFINITION ABOVE WILL HAVE ONE OF THE FOLLOWING STATUSES: REFUGEE, ASYLEE, CUBAN/HAITIAN ENTRANT, VICTIM OF TRAFFICKING, AMERASIAN, IRAQI OR AFGHANI SPECIAL IMMIGRANT VISA HOLDER, SPECIAL IMMIGRANT JUVENILE STATUS (SIJS), U VISA HOLDER, OR HAS LEGAL PERMANENT RESIDENT STATUS THAT PREVIOUSLY HELD ONE OF THE STATUSES MENTIONED.

IF THE URM HAS SIJS STATUS, DOCUMENTATION PRESENTED WILL BE ONE OF THE FOLLOWING: I-797, NOTICE OF ACTION INDICATING STATUS (I.E., EVIDENCE OF APPROVED I-360, OR EVIDENCE OF APPROVED I-360 AND APPROVED I-485); VISA INDICATING SIJS STATUS WITH SL CLASS OF ADMISSION; I-1551 INDICATING SIJS STATUS WITH SL CLASS OF ADMISSION.

IF THE URM HAS A U-VISA, DOCUMENTATION PRESENTED WILL BE ONE OF THE FOLLOWING: I-797 NOTICE OF ACTION INDICATING U STATUS; A U-VISA; OR AN I-94 ARRIVAL/DEPARTURE RECORD SHOWING ADMISSION IN U STATUS. PLEASE NOTE: U-VISA HOLDERS ARE NOT CONSIDERED “QUALIFIED ALIENS” STATUS FOR FEDERAL PUBLIC BENEFITS. IT DOES QUALIFY THE PERSON TO BE “LAWFULLY PRESENT” FOR POTENTIAL STATE BENEFITS.

M. AN I-551 FORM (“GREEN CARD”, PERMANENT RESIDENT CARD OR RESIDENT ALIEN CARD) WITH CLASS OF ADMISSION CODES AS-6, AS-7, AS-8, RE-6, RE-7, RE-8, RE-9, CH-6, HA6, HB6, GA6, GA7, GA8, ST6, ST7, ST8, ST0, ST9, SI6, SI7, SI9, SQ6, SQ7, SQ9, AM-1, AM-2, AM-3, AM6, AM-7, OR AM 8. THE UNEXPIRED I-551 STAMP MAY BE LOCATED IN A FOREIGN PASSPORT.

IF NOT ELIGIBLE FOR THE ASSISTANCE OF TANF/COLORADO WORKS, INDIVIDUALS WITH THIS IMMIGRATION STATUS MAY BE ELIGIBLE FOR REFUGEE CASH ASSISTANCE (RCA) THROUGH THE COLORADO REFUGEE SERVICES PROGRAM IF INCOME AND PROGRAM ELIGIBILITY CRITERIA ARE MET. PERSONS MUST BE ENROLLED IN ONE OF THE REFUGEE RESETTLEMENT AGENCIES IN ORDER TO ACCESS RCA.

INDIVIDUALS ADMITTED TO THE UNITED STATES WHO ARE CLASSIFIED BY USCIS AS "APPLICANTS FOR ASYLUM" ARE NOT ELIGIBLE FOR CRSP BENEFITS. ONCE GRANTED ASYLUM, THOSE INDIVIDUALS ARE ELIGIBLE. THE EXCEPTION TO THIS RULE IS CUBAN AND HAITIAN INDIVIDUALS APPLYING FOR ASYLUM; HOWEVER, THEY MUST PRODUCE DOCUMENTS AS DESCRIBED ABOVE.

CRSP FOLLOWS THE FEDERAL GUIDANCE ON ELIGIBLE POPULATIONS, STATUS AND DOCUMENTATION IN THE OFFICE OF REFUGEE RESETTLEMENT STATE LETTER # 16-01, DATED 10/02/2015, LOCATED ON THE FEDERAL GOVERNMENT WEB SITE AT: [HTTPS://WWW.ACF.HHS.GOV/ORR/POLICY-GUIDANCE/STATUS-AND-DOCUMENTATION-REQUIREMENTS-ORR-REFUGEE-RESETTLEMENT-PROGRAM](https://www.acf.hhs.gov/orr/policy-guidance/status-and-documentation-requirements-orr-refugee-resettlement-program)

NO LATER EDITIONS OR AMENDMENTS ARE INCORPORATED. COPIES MAY BE REVIEWED DURING NORMAL BUSINESS HOURS BY CONTACTING THE REFUGEE SERVICES COORDINATOR IN THE OFFICE OF ECONOMIC SECURITY, COLORADO REFUGEE SERVICES PROGRAM, 1575 SHERMAN ST, DENVER, COLORADO 80203. IF THERE IS AN ELIGIBILITY QUESTION, PLEASE CONTACT THE COLORADO REFUGEE SERVICES PROGRAM FOR ASSISTANCE.

#### 4.000.1 SNAP DEFINITIONS

“Able-Bodied Adult Without Dependents (ABAWD)” means an individual aged eighteen (18) through the age of forty-nine (49) without a physical or mental disability who lives in a SNAP household with no one under the age of eighteen (18).

“Administrative disqualification hearing (ADH)” means a disqualification hearing against an individual accused of wrongfully obtaining or attempting to obtain SNAP benefits.

“Administrative adjudicator” means a person who, pursuant to C.R.S. § 24-4-105, presides over state-level fair hearings and administrative disqualification hearings.

“Adverse action” means any action taken by a local office that causes a household’s SNAP benefits to be reduced, suspended, terminated, or denied.

\*\*\*\*\*

“Basic Utility Allowance (BUA)” means a fixed deduction applied to a household that does not pay for heating or cooling and incurs at least two (2) non-heating or non-cooling utility costs, such as electricity, water, sewer, trash, cooking fuel, or telephone.

“Bifurcated appeal” means an appeal that involves more than one benefit program area and where the administrative adjudicator determines to divide the appeal so that a SNAP appeal is reviewed separate from the appeal of a different benefit program area appeal.

“Boarder” means an individual residing with others and paying reasonable compensation to others for lodging and meals.

\*\*\*\*\*

“Collateral contact” means a verbal or written confirmation of a household's circumstances by a person outside the household who has first-hand knowledge of the information, made either in person, electronically submitted, or by telephone.

“Colorado Department of Human Services (CDHS)” is defined in section 26-1-105, C.R.S.

“Colorado Electronic Benefit Transfer System (CO/EBTS)” means the electronic system that enables SNAP participants or their authorized representatives to redeem their SNAP benefits at point-of-sale terminals.

“Colorado Unemployment Benefits System (CUBS)” means the electronic system by which Unemployment Insurance Benefits (UIB) are determined by the Colorado Department of Labor and Employment.

“Combined appeal” means an appeal that involves both a SNAP appeal and an appeal concerning any other benefit program area (ex. A SNAP appeal plus a Colorado Works appeal that are filed as one

appeal). Combined appeals may be bifurcated to allow the SNAP portion of the appeal to move on a faster track to comply with federal SNAP timeliness requirements.

“Communal dining facility” means an establishment approved by FNS that prepares and serves meals for persons aged sixty (60) and older, or for Supplemental Security Income (SSI) recipients, and their spouses. This also includes federally subsidized housing for persons aged sixty (60) and older at which meals are prepared for and served to the residents. It also includes private establishments that contract with an appropriate state or local agency to offer meals at concessional prices to persons aged sixty (60) and older or SSI recipients, and their spouses.

“Compromise” means a local office’s decision to reduce the amount of a claim that is owed by a household.

“Countable month” means a month in which an ABAWD received a full SNAP allotment but did not meet work requirements or have an exemption from those requirements.

\*\*\*\*\*

“Fair hearing” or “State-level fair hearing” means a hearing conducted in person or on the telephone by an administrative adjudicator to provide an impartial decision on a household’s appeal of a local office’s decision or action.

“Final agency decision” means a decision issued by the Office of Appeals after reviewing the initial decision issued by an administrative adjudicator.

“Financial criteria” means the set of rules governing gross and net income and resource standards and the proper methods for computing a household’s income and resources.

\*\*\*\*\*

“Indigent non-citizen” means a sponsored non-citizen who, after considering all income and contributions provided by the sponsor and other sources in conjunction with the non-citizen’s own income, is unable to obtain food and shelter amounting to one hundred thirty percent (130%) of the federal poverty level (FPL), as defined in section 4.401.1, for the non-citizen’s household size. When a non-citizen is declared indigent, only the amount provided by the sponsor shall be deemed for the non-citizen. A declaration of indigence may last up to twelve (12) months but may be renewed at the end of such a period, if necessary. The local office must notify the U.S. Attorney General of each indigence determination, including the name of the sponsor and the sponsored non-citizen.

“Initial decision” means a decision issued by an administrative adjudicator after a state-level fair hearing.

“Initial application” means a household’s first application for assistance or an application for assistance that is received after the household has been off the program for any period following the end of a certification period.

\*\*\*\*\*

“Notice of Overpayment” means a notice sent to a household upon the establishment of a claim against the household for an overpayment of benefits.

“Office of Administrative Courts (OAC)” means the office within the Colorado Department of Personnel and Administration that the Colorado Department of Human Services may designate to hear state-level fair hearings and administrative disqualification hearings as needed and as agreed to by the Office of Administrative Courts.

“Office of Appeals (OOA)” is an office within the Colorado Department of Human Services that issues final agency decisions on behalf of the Colorado Department of Human Services.

“On-the-job training (OJT)” means training provided to an employee after he or she is hired. Such training is designed for individuals who do not have the necessary work experience required for the job.

\*\*\*\*\*

“SNAP” means Supplemental Nutrition Assistance Program, formerly known as the Food Assistance program, administered by the state department in Colorado.

“SNAP fair hearings unit” means the unit within the Office of Appeals at the Colorado Department of Human Services that may be designated by the Colorado Department of Human Services to hear SNAP appeals, the SNAP portion of a bifurcated appeal, combined appeals, and administrative disqualification hearings. The SNAP fair hearings unit generally operates under the supervision of the chief adjudicator of the Office of Appeals but acts independently and in a fair and impartial manner concerning the fair hearings process and the issuance of initial decisions.

“Sponsor” means any person(s) who executed an affidavit of support (USCIS form I-864A (March 6, 2018)) or another form deemed legally binding by the Department of Homeland Security on behalf of a non-citizen as a condition of the non-citizen’s date of entry or admission into the United States as a permanent resident. These forms are herein incorporated by reference. This rule does not contain any later amendments or editions. These forms are available at no cost from <https://www.uscis.gov/forms>. These forms are also available for public inspection and copying at the Colorado Department of Human Services, Director of the Employment and Benefits Division, 1575 Sherman Street, Denver, Colorado, 80203, or at any state publications library during regular business hours.

\*\*\*\*\*

“State department” means the office/division within the Colorado Department of Human Services that administers SNAP. Currently, this is the Food and Energy Assistance Division within the Office of Economic Security.

“State-level fair hearing” or “Fair hearing” means a review (hearing) requested by a client which is held before an administrative adjudicator to establish whether an adverse action or eligibility determination taken was correct.

“Striker” or “striking member” means an individual who is involved in a strike or other concerted stoppage of work by employees, including a stoppage by reason of the expiration of a collective bargaining agreement and any concerted slowdown or other concerted interruption of operations by employees.

\*\*\*\*\*

“Thrifty food plan” means the diet required to feed a family of four (4) persons, as defined by the FNS, as consisting of a man and a woman twenty (20) through fifty (50) years of age, a child six (6) through eight (8) years of age, and a child nine (9) through eleven (11) years of age, determined in accordance with the U.S. Department of Agriculture. The cost of such a diet shall be the basis for uniform allotments for all households regardless of their actual composition.

“Trafficking” means the same as defined in section 26-2-306, C.R.S. and 7 C.F.R. 271.2 (2019), which is incorporated by reference. No later editions or amendments are incorporated. The regulation is available at no cost at the FNS, 3101 Park Center Dr., #906, Alexandria, VA 22302, or at <https://www.ecfr.gov>. This regulation is also available for public inspection and copying at the Food and Energy Assistance Division Director, Colorado Department of Human Services, 1575 Sherman Street, 3rd Floor, Denver, Colorado 80203.

“Unclear information” means information that is not verified, or information that is verified but the local office needs additional information to act on the change.

\*\*\*\*\*

#### 4.207.3 Benefit Allotment

\*\*\*\*\*

- D. The SNAP maximum and minimum monthly benefit allotment tables will be adjusted as announced by the USDA, FNS.

Household Size	Maximum Monthly Allotment Effective October 1, 2022
1	\$281
2	\$516
3	\$740
4	\$939
5	\$1,116
6	\$1,339
7	\$1,480
8	\$1,691
Each additional person	+\$211

Household Size	Minimum Monthly Allotment Effective October 1, 2022
1-2	\$23

\*\*\*\*\*

#### 4.310.3 General Work Requirement Exemptions

\*\*\*\*\*

C. A person physically or mentally unfit for employment;

Examples of being physically or mentally unfit for employment can include but are not limited to:

1. Persons experiencing homelessness, as defined in 4.000.1

\*\*\*\*\*

#### 4.401.1 Gross Income Limits

Effective October 1, 2022, the gross income level for one hundred thirty percent (130%), two hundred percent (200%), and one hundred sixty-five percent (165%) of the federal poverty level for the corresponding household size is as follows:

Household Size	130% Gross Income Level	200% Gross Income Level	165% Gross Income Level
1	\$1,473	\$2,266	\$1,869
2	\$1,984	\$3,072	\$2,518
3	\$2,495	\$3,840	\$3,167
4	\$3,007	\$4,626	\$3,816
5	\$3,518	\$5,412	\$4,465
6	\$4,029	\$6,200	\$5,114
7	\$4,541	\$6,986	\$5,763
8	\$5,052	\$7,772	\$6,412
Each additional person	+\$512	+788	+\$649

#### 4.401.2 Net Income Levels

Effective October 1, 2022, the net income level of one hundred percent (100%) of the federal poverty level for the corresponding household size is as follows:

Household Size	100% Net Income Level
1	\$1,133
2	\$1,526
3	\$1,920
4	\$2,313
5	\$2,706
6	\$3,100
7	\$3,493
8	\$3,886
Each additional person	+\$394

\*\*\*\*\*

#### 4.407.1 Standard Deduction

A standard deduction of 8.31% of the federal poverty income guidelines for the household size as described in 4.401.2 will be used to calculate the amount that is allowed to all households. The established standard amount will be adjusted annually as announced by FNS, USDA. The calculation of 8.31% of the federal poverty income guidelines for eligible members will be used for all households up to the household size of six (6). All households with six (6) or more eligible members will use the six (6) person standard deduction.

Standard Deduction Amount			
Household Size	1-4	5	6+
Effective October 1, 2022	\$193	\$225	\$258

\*\*\*\*\*

#### 4.407.3 Excess Shelter Deduction

\*\*\*\*\*

- B. A shelter deduction cap, as specified below, applies to households that do not contain a person who is aged sixty (60) and older or a person with a disability as defined in Section 4.304.41. Those households containing a person who is aged sixty (60) and older and/or a person with a disability shall receive an excess shelter deduction for the monthly cost of shelter that exceeds fifty percent (50%) of the household's monthly income after all other applicable deductions.

Shelter Deduction Cap	
Effective October 1, 2022	\$624

- C. Households in which all individuals are experiencing homelessness and are not receiving free shelter throughout the calendar month shall be entitled to use a standard estimate of shelter expenses.

The FNS, USDA, provides an update of this estimated figure annually when the shelter cap for other households is adjusted. The Homeless Shelter Deduction is as follows:

Homeless Shelter Deduction	
Effective October 1, 2022	\$166.81

\*\*\*\*\*

#### 4.407.31 Four-Tiered Mandatory Standard Utility Allowance

\*\*\*\*\*

- A. Heating and Cooling Utility Allowance (HCUA)

\*\*\*\*\*

4. The HCUA standard is as follows:

HCUA Standard	
Effective October 1, 2022	\$531

\*\*\*\*\*

B. Basic Utility Allowance (BUA)

\*\*\*\*\*

3. The BUA standard is as follows:

BUA Standard	
Effective October 1, 2022	\$338

\*\*\*\*\*

C. One Utility Allowance (OUA)

\*\*\*\*\*

3. The OUA standard is as follows:

OUA Standard	
Effective October 1, 2022	\$64

D. Telephone allowance

\*\*\*\*\*

2. The telephone allowance is as follows:

Telephone Standard	
Effective October 1, 2022	\$86

\*\*\*\*\*

**4.408 RESOURCE ELIGIBILITY STANDARDS**

\*\*\*\*\*

E. The resource limits are as follows:

Effective October 1, 2022, the resource limit for households that do contain a member who is aged sixty (60) and older and/or a person with a disability is four thousand two hundred and fifty dollars (\$4,250). The resource limit for households that do not contain a member who is aged

sixty (60) and older and/or a person with a disability is two thousand seven hundred and fifty dollars (\$2,750).

\*\*\*\*\*

#### **4.801.41 Methods of Collection Payment on Claims**

\*\*\*\*\*

#### **D. Offset Against Taxpayer's State Income Tax Refund**

\*\*\*\*\*

##### **3. Household Objection to Pre-Offset Notice**

The taxpayer is entitled to object to the offset by filing a request for a DRC or state-level hearing within thirty (30) calendar days from the date the state department mails the pre-offset notice to the taxpayer. At the hearing on the offset, the local office or administrative adjudicator shall not consider whether an over-issuance has occurred, but may consider, if raised by the taxpayer in his or her request for a hearing, whether:

\*\*\*\*\*

#### **E. Federal Treasury Offset Program (TOP)**

\*\*\*\*\*

8. The OOA within CDHS will review the proposed offset and issue only a final agency decision. The OOA shall find that the claim is past due and legally enforceable unless the household can provide documentation to show one (1) of the following:
  - a. The claim is not delinquent or was already paid, and the individual provides proof of payment.
  - b. The individual is not the person that is liable for the claim.
  - c. A bankruptcy action prohibits collection of the claim because the automatic stay under Section 362 of the Bankruptcy Code is in effect with respect to the individual or his or her spouse, or that the claim was discharged by a bankruptcy proceeding.
  - d. There is some other reason that the claim is not delinquent or is not legally enforceable.
9. The final agency decision by the OOA regarding the paper review will be issued by means of written findings. No oral argument is permitted. The written findings shall include the following:

- a. If the OOA determines that the claim is past due and legally enforceable:
  - 1. The individual shall be notified that the claim will continue to be referred for the offset; and,
  - 2. The individual is entitled to have the FNS review the OOA's decision. FNS must receive a request to do so within thirty (30) calendar days after the date of the state agency's notice of review decision. A request for FNS review shall include the individual's SSN. The notice shall also provide the address of the regional office including the phrase "Tax Offset Review" in the address.
- b. If the OOA determines that the claim is not past due or legally enforceable, it shall notify the individual and the local office that the claim will not be referred for the offset.
- c. While the OOA or FNS is conducting a review of the debt, the debt is not eligible for referral to TOP.

\*\*\*\*\*

#### **4.801.43 Criteria for Terminating Collection Action [Rev. eff. 1/1/16]**

The provisions within this section apply to Agency Error (AE) claims, Inadvertent Household Error (IHE) claims, and intentional program violation (IPV) claims.

- A. A terminated claim is a claim in which all collection activity has ceased. A terminated claim is no longer considered a receivable subject for continued state and federal agency collection and reporting requirements.

Voluntary payments from a household on a terminated claim do not reactivate the claim and cannot be accepted by the local office. A terminated claim cannot be reactivated to pursue collection.

- B. Collection action on a claim shall be terminated only in the following situations:
  - 1. A claim may be determined uncollectible after the collection action has been suspended for three (3) years. Prior to terminating such a claim, the local office may submit the claim for state or federal offset or pursue other collection actions.

\*\*\*\*\*

#### **4.802 APPEAL PROCESS**

Any household that is aggrieved by any action of the local office affecting the household's participation in SNAP may appeal by requesting a local-level dispute resolution conference (DRC) and/or a state-level fair hearing.

The right of a household to a DRC and state-level hearing is primarily to ensure that a proposed eligibility determination or action is valid, to protect the person against an erroneous action concerning benefits, and to ensure reasonable promptness of local office action. The individual may choose to request a DRC or bypass the DRC and appeal directly to the Colorado Department of Human Services (CDHS) for a state-level fair hearing.

CDHS may deny fair hearings to those households that are disputing a mass change, or the fact that a statewide reduction, cancellation, or suspension was ordered. In such instances, CDHS is not required to hold a fair hearing unless the request is based on the household's belief that the rules were misapplied.

If the household has a combined appeal, the appeal will be bifurcated. The SNAP fair hearings unit will process and hear the SNAP appeal, and the Office of Administrative Courts (OAC) will process and hear the other benefits program appeal(s). The SNAP fair hearings unit will provide the parties with any necessary instructions and/or procedures related to combined appeals.

#### **4.802.1 Time Period for Requesting an Appeal**

- A. A household shall be allowed to request a DRC or state-level fair hearing on the following:
  - 1. Any action by the local office that occurred in the previous ninety (90) calendar days.
  - 2. A loss of benefits that occurred in the previous ninety (90) calendar days. Such SNAP action shall include a denial of a request for restoration of benefits lost more than ninety (90) calendar days, but less than a year prior to the request.
  - 3. At any time during a certification period a household may request a fair hearing to dispute its current level of benefits.
- B. An aggrieved household shall be advised that the use of a DRC is optional, and it shall in no way delay or replace the state-level fair hearing process. If the household does not want a DRC but desires to have the disputed matter considered only at a state-level hearing, this fact should be indicated in the case record. In these cases, the request for an appeal shall be forwarded to the SNAP fair hearings unit.

#### **4.802.2 Continuation of Benefits Pending Final Agency Decision**

\*\*\*\*\*

- D. The certification office shall promptly inform the household in writing if the benefits are reduced or terminated pending the final agency decision. Once benefits are continued or reinstated, benefits shall not be reduced or terminated prior to the receipt of the final agency decision unless:
  - 1. The certification period expires. The household may reapply and may be determined eligible for a new certification period with a benefit amount as determined by the local office.
  - 2. The administrative adjudicator makes a preliminary determination, in writing and at the hearing, that the sole issue is one of federal law or regulation and that the household's

claim that the local office improperly computed the benefits or misinterpreted or misapplied such law or regulation is invalid.

3. A change affecting the household's eligibility or basis of issuance occurs while the final agency decision is pending, and the household fails to request a hearing after the subsequent Notice of Adverse Action.
4. A mass change affecting the household's eligibility or basis of issuance occurs while the final agency decision is pending. During the fair hearing period, the local office shall adjust allotments to consider reported changes, information considered verified upon receipt, and mass changes, but not the factors on which the fair hearing is based.

\*\*\*\*\*

#### **4.802.3 Rights During an Appeal**

- A. A household is entitled to the following:
  1. Be represented by an authorized representative, such as legal counsel, relative, friend, or other spokesman, or they may represent themselves at the DRC or state-level fair hearing.

\*\*\*\*\*

#### **4.802.5 Local-Level Dispute Resolution Conferences (DRC)**

- A. Before taking action to deny, terminate, reduce, or recover SNAP benefits, the local office shall provide the household an opportunity for a DRC. The individual may choose to bypass the DRC process and appeal directly to the SNAP fair hearings unit for a state-level fair hearing.
- B. If the household requests a DRC, the local office shall arrange one to attempt to resolve the disputed action. The household may be represented by legal counsel or have other persons present to aid the household in the DRC.
- C. Failure of the client to request a DRC within the prior notice period or failure to appear at the time of the scheduled DRC without making a timely request for postponement shall constitute abandonment of the right to a DRC, unless the client can show good cause for their failure to appear. "Good cause" includes, but is not limited to:
  1. Death or incapacity of a client, or a member of his or her immediate family, or the representative;
  2. Any other health or medical condition of an emergency nature; or
  3. Other circumstances beyond the control of the client, and which would prevent a reasonable person from making a timely request for a DRC or postponement of a scheduled DRC.

- D. The local office may consolidate the SNAP DRC with disputes regarding other assistance payments programs, the Colorado Works (CW) Program, or disputes concerning Medicaid eligibility; if the facts are similar and consolidation will facilitate the resolution of all disputes.

#### **4.802.51 Management of Local-Level Dispute Resolution Conference (DRC)**

- A. General Requirements

The DRC shall be conducted on an informal basis. Every effort shall be made to ensure that the household understands the local office's specific reasons for the proposed action and the applicable State Department's rules. The local office shall have available at the DRC all pertinent documents and records in the case file relevant to the specific action in dispute.

- B. Scheduling

1. To the extent possible, the DRC shall be scheduled and conducted within the prior notice period. If the local office cannot conduct the DRC within this period, for whatever reason, the adverse action in dispute shall be delayed until a DRC can be held, unless the household waives continuation of benefits.
2. If a DRC is requested to attempt to resolve a contested denial of expedited service, it shall be scheduled within two (2) working days of the receipt of the request for a DRC unless the household requests that it be held later. Prior notice is not required.
3. The local office shall provide reasonable notice to the household of the scheduled time and location for the DRC, or the time of the scheduled telephone conference. Notice shall be in writing; however, verbal notice may be given to facilitate the DRC process.

- C. Location

The DRC shall be held in the local office where the proposed decision is pending and before a person who was not directly involved in the initial determination of the action in question. The DRC may be conducted either in person or by telephone. If a telephonic conference is requested, it shall be agreed upon by the client. In the event the household does not speak English or is visually or hearing impaired, an interpreter or translator shall be provided by the local office.

- D. County Representatives

The individual who initiated the action in dispute shall not conduct the DRC. The local office who initiated the action in dispute shall attend the DRC and present the factual basis for the disputed action. The person designated to conduct the DRC shall be in a position which, based on knowledge, experience, and training, would enable them to determine if the proposed action is valid.

- E. Joint Dispute Resolution Processes

Two (2) or more local offices may establish a joint DRC process. If two or more counties establish a joint process, the location of the DRC need not be held in the county or agency taking the action, but the DRC location shall be convenient to the client.

**F. Notice of DRC Decision**

1. If the additional information presented in the DRC proves that the adverse action is not warranted, the case record shall be documented, and the Notice of Adverse Action cancelled.
2. At the conclusion of the DRC, the person presiding shall reduce to writing the agreement entered by the parties. Such agreement shall be signed by the parties and/or their representatives and shall be binding upon the parties. A copy of the written decision shall immediately be provided to the client and/or his or her representative. The local office shall also forward a copy of the decision to the State Department, within five (5) working days of the hearing, regardless of whether the client agrees with the outcome.
3. In the event the dispute is not resolved, the person presiding shall prepare a written statement indicating that the dispute was not resolved. The decision shall include:
  - a. A statement explaining the client's right to request a state-level fair hearing;
  - b. The time limit for requesting a state-level hearing; and,
  - c. If appropriate, a statement that the household's previous benefit amount will continue pending a final state decision in accordance with Section 4.802.2, if appealed to the state within the appeal timeframe provided on the original Notice of Action corresponding to the disputed action.

\*\*\*\*\*

**4.802.61 MANAGEMENT OF STATE-LEVEL HEARINGS**

**A. Scheduling**

1. The SNAP fair hearings unit at the Colorado Department of Human Services (CDHS) or the Office of Administrative Courts (OAC), if so designated by CDHS, shall arrange the time, date, and place of the state-level fair hearing so that the hearing is accessible to the household. At least ten (10) calendar days prior to the hearing, advance written notice shall be provided to all parties involved to permit adequate preparation of the case. The household, however, may request less advanced notice to expedite the scheduling of the hearing. The notice shall:
  - a. Advise the household or its representative of the name, address, and phone number of the person to notify in the event it is not possible for the household to attend the scheduled hearing.
  - b. Specify that the household's hearing request will be dismissed if the household or its representative fails to appear for the hearing without good cause.

- c. Include a copy of the information outlining CDHS' state-level fair hearing procedures.
  - d. Explain that the household may examine the case file prior to the hearing.
2. Hearing requests for households that plan to move from the area, such as migrant farm workers, shall be processed faster than others, if necessary, to enable them to receive a decision and any appropriate restoration of benefits before they leave the area.
3. The administrative adjudicator shall complete the hearing no more than twenty-five (25) calendar days from when the SNAP fair hearings unit received the notice of appeal. The household may request and is entitled to receive a postponement (also referred to as a continuance) of the scheduled hearing. The postponement shall not exceed 30 days and the time limit for action on the final agency decision may be extended for as many days as the hearing is postponed. A county may not request and is not entitled to receive a postponement.
4. The administrative adjudicator may respond to a series of individual requests for hearings by conducting a single group hearing related to SNAP appeals. The snap fair hearings unit may consolidate only SNAP related cases where individual issues of fact are not disputed and where related issues of state and/or federal law, regulation, or policy are the sole issues being raised. In all group hearings, the regulations governing individual hearings shall be followed. Each individual household shall be permitted to present its own case or have its case presented by a representative.

**B. Hearings Conducted by Phone**

The hearing may be conducted by telephone using conference call techniques or by video conference unless one of the parties objects to either of these methods. If a hearing is held by telephone using conference call techniques or by video conference, the rules of procedure (including a recording of the hearing) shall be the same as a face-to-face hearing.

**C. Attendance**

The hearing shall be attended by a representative of the local office and by the household and/or its representative. The hearing may also be attended by friends or relatives of the household if the household so chooses. The administrative adjudicator shall have the authority to limit the number of persons in attendance at the hearing if space limitations exist.

**D. Administrative Adjudicator**

The administrative adjudicator shall:

1. Administer all oaths or affirmations as required by the State;
2. Ensure all relevant issues are considered;

3. Request, receive, and make part of the record all evidence determined necessary to decide the issues being raised;
4. Regulate the conduct and course of the hearing consistent with due process to ensure an orderly hearing;
5. Order, where relevant and useful, an independent medical assessment or professional evaluation from a source mutually satisfactory to the household and the local office;
6. Provide a hearing record and prepare and file an initial hearing decision with the Office of Appeals (OOA) which shall serve each party with a copy of the initial decision.

#### **4.802.62 Hearing Denials or Dismissals**

- A. CDHS shall not deny or dismiss a request for a hearing unless:
  1. The request is not received within the time period specified in Section 4.802.1.
  2. The request is withdrawn in writing by the household or its representative; or,
  3. The household or its representative fails, without good cause, to appear at the scheduled hearing.
- B. The administrative adjudicator shall not enter a default against any party for failure to file a written answer to the notice of hearing but shall base the initial decision upon the evidence presented at the hearing.
- C. When the administrative adjudicator dismisses an appeal for reasons other than failure to appear, the decision of the administrative adjudicator shall be an initial decision, which shall not be implemented pending review by the Office of Appeals and entry of a final agency decision.
- D. When an appellant fails to appear at a duly scheduled hearing, having been given proper notice, and without having given timely advance notice to the administrative adjudicator of good cause for inability to appear at the hearing at the time, date and place specified in the notice of hearing, then the appeal shall be considered abandoned, and an order of dismissal shall be entered by the administrative adjudicator and served upon the parties by the Office of Appeals (OOA). The order of dismissal for failure to appear shall not be implemented pending review by the OOA and entry of a final agency decision.

The appellant, however, shall be afforded a period of ten (10) calendar days from the date the order of dismissal was mailed, during which the appellant may explain in a letter to the administrative adjudicator the reason for his or her failure to appear. If the administrative adjudicator, then finds that there was acceptable good cause for the appellant not appearing, the administrative adjudicator shall vacate the order dismissing the appeal and reschedule another hearing date.

If the appellant does not submit a letter seeking to show good cause within a period of ten (10) calendar days, the order of dismissal shall be filed with the OOA. The OOA shall confirm the dismissal of the appeal by an agency decision, which shall be served upon the parties and the

interested division of the State Department. Within three (3) working days after the effective date of the decision, the local office shall implement necessary actions to provide benefits in the correct amount, terminate benefits, recover benefits incorrectly paid, and/or other appropriate actions in accordance with the rules.

If the appellant submits a letter seeking to show good cause and the administrative adjudicator finds that the stated facts do not constitute good cause, the administrative adjudicator shall enter an initial decision confirming the dismissal.

#### **4.802.63 State-Level Hearing Decisions**

- A. Decisions of the administrative adjudicator shall not run counter to Federal law, State Department rule, or state statute, and shall be based on the hearing record.

The exclusive record for an initial decision by the administrative adjudicator shall constitute the verbatim transcript or recording of testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and requests filed in the proceedings. This record shall be retained in accordance with normal retention periods. This record shall also be available to the household or its representative at any reasonable time for copying and inspection.

- B. Following the conclusion of the state hearing, the administrative adjudicator shall promptly prepare and issue an initial decision and file it with the OOA.

- C. Initial Decision

1. The administrative adjudicator shall render an initial decision within ten (10) calendar days of the hearing date. However, if the head of the household or the household's representative requests a delay in the proceedings, the time limit for action on the decision may be extended for as many days as the hearing is delayed, up to thirty (30) calendar days.
2. The initial decision shall make an initial determination whether the county or the Colorado Department of Human Services (CDHS) or its agent acted in accordance with, and/or properly interpreted, the rules of the State Department. The administrative adjudicator may determine whether statutes were properly interpreted and applied only when no implementing state rules exist. The administrative adjudicator has no jurisdiction or authority to determine issues of constitutionality or legality of departmental rules.
3. The initial decision shall advise the household that failure to file exceptions to provisions of the initial decision will waive the right to seek judicial review of a final agency decision affirming those provisions.
4. The Office of Appeals shall promptly serve the initial decision upon each party by first class mail and shall transmit a copy of the decision to the divisions of the State Department that administer the program(s) pertinent to the appeal.

5. The initial decision by the administrative adjudicator shall summarize the facts of the case, specify the reasons for the initial decision, and identify the supporting evidence and the pertinent rules.
6. The Office of Appeals at CDHS, as the designee of the Executive Director, shall review the initial decision of the administrative adjudicator and shall enter a final agency decision affirming, modifying, or reversing the initial decision. The Office of Appeals may issue an order of remand upon receipt of the initial decision and identification of an issue that warrants a remand before the initial decision is sent to the parties. Additionally, the Office of Appeals may issue an order of remand at the time of the substantive review of an initial decision for final agency decision. An order of remand is not a final agency decision that is subject to judicial review. The initial decision shall not be implemented pending review by the Office of Appeals and entry of a final agency decision. While review of the initial decision is pending before the Office of Appeals, the record on review, including any transcript or audio file of testimony filed with the Office of Appeals, shall be available for examination by any party at the Office of Appeals during regular business hours and by appointment only.

D. Exceptions to the Initial Decision

1. Any party seeking a final agency decision that reverses, modifies, or remands the initial decision of the administrative adjudicator must file a written notice of intent to file exceptions to the decision with the OOA within five (5) calendar days - plus three (3) calendar days for mailing - from the date the initial decision is mailed to the parties. If the party has filed such a notice of intent, the party will have fifteen (15) calendar days, plus three (3) calendar days for mailing from the date the initial decision is mailed to the parties to file its written exceptions with the OOA. Exceptions shall state specific grounds for reversal, modification, or remand of the initial decision. Exceptions that fail to state specific grounds for reversal, modification, or remand of the initial decision shall be considered as only arguments of general dissatisfaction.
2. If any party asserts that the administrative adjudicator findings of fact are not supported by the weight of the evidence, the OOA will request the SNAP fair hearings unit provide an audio recording of the hearing to the OOA. If the local office asserts that the administrative adjudicator's findings of fact are not supported by the weight of the evidence, the local office shall provide a hearing transcript to the OOA on or before the deadline for the filing of exceptions. If the local office's yearly budget is not sufficient to pay the cost of a hearing transcript, the local office may request that the OOA review an audio recording of the hearing in lieu of a hearing transcript. Such requests must be mailed or emailed to the OOA at least five (5) calendar days before the deadline for the filing of exceptions. Additionally, the letter must indicate the insufficiency of the local office's budget to pay for a hearing transcript and the letter must be signed by the county department's director. The OOA shall issue an order regarding the request, and if granted, the OOA shall request the audio recording from the SNAP fair hearings unit. If the division(s) of the State Department responsible for administering the program(s) relevant to the appeal assert(s) that the administrative adjudicator's findings of fact are not supported by the weight of the evidence, it shall simultaneously with, or prior to the

filing of exceptions, file a hearing transcript with the OOA on or before the deadline for filing exceptions.

3. Considering the federal timeliness requirements for SNAP cases, a party may not request an extension of time to file exceptions unless a party is able to show good cause as to why an extension of time should be granted. The determination of good cause is within the sole discretion of the OOA. When an extension of time is granted by the OOA, the extension shall not be for more than five (5) calendar days after the original exceptions filing deadline. Local offices or the State Department will need to immediately review initial decisions to assess any need to request an audio recording from the SNAP fair hearings unit to receive the audio recording and expedite the transcription of the audio recording through whatever transcription service it chooses. Any party requesting transcription services shall be fully responsible for the cost of such.
4. If the exceptions do not challenge the findings of fact, but instead assert only that the administrative adjudicator improperly interpreted or applied state rules or relevant statutes, no transcript review or audio recording review is required.
5. The OOA shall serve a copy of the exceptions on each party by first class mail and by electronic mail if the party has consented to receiving communications by electronic mail. Each party shall be limited to ten (10) calendar days from the date exceptions are mailed to the parties in which to file a written response to such exceptions. The OOA shall not permit oral argument.
6. The OOA shall not consider evidence that was not part of the record before the administrative adjudicator. However, the case may be remanded to the administrative adjudicator for rehearing if a party establishes in its exceptions that material evidence has been discovered that the party could not with reasonable diligence have produced at the hearing.
7. The division(s) of the State Department responsible for administering the program(s) relevant to the appeal may file exceptions to the initial decision, or respond to exceptions filed by a party, even though the Division has not previously appeared as a party to the appeal. The Division's exceptions shall be filed in compliance with the requirements of section 4.802.63, D, 1 and 2, above. Exceptions filed by a Division that did not appear as a party at the hearing shall be treated as requesting a review of the initial decision upon the State Department's own motion.

E. Final Agency Decisions

1. The OOA shall enter a final agency decision resolving the appeal within sixty (60) calendar days after the request for appeal was received by the SNAP fair hearings unit.
2. In the absence of exceptions filed by any party or by a division of the State Department, or when exceptions are filed, the OOA shall review the initial decision and may review the hearing file of the administrative adjudicator and/or the taped testimony of witnesses before entering a final agency decision. Review by the OOA shall determine whether the initial decision properly interprets and applies the rules of the State Department or relevant statutes and whether the findings of fact and conclusions of law

support the decision. If a party or Division of the State Department objects to the final agency decision entered upon review by the OOA, the party or Division may seek reconsideration.

3. The OOA shall mail copies of the final agency decision to all parties by first class mail.
4. For purposes of requesting judicial review, the effective date of the final agency decision shall be the third (3rd) day after the date the decision is mailed to the parties, even if the third day falls on Saturday, Sunday, or a legal holiday. The parties shall be advised of this in the final agency decision.

F. Motion for Reconsideration of a Final Agency Decision

1. A motion for reconsideration of a final agency decision may be granted by the OOA for the following reasons:
  - a. Upon a showing of good cause for failure to file exceptions to the initial decision within the fifteen (15) calendar day period; or,
  - b. Upon a showing that the final agency decision is based upon a clear or plain error of fact or law. An error of law means failure by the OOA to follow a rule, statute, or court decision that controls the outcome of the appeal.
2. No motion for reconsideration shall be granted unless it is filed in writing with the OOA within fifteen (15) calendar days of the date that the final agency decision is mailed to the parties. The motion shall state specific grounds for reconsideration of the agency decision.
3. The OOA shall mail a copy of the motion for reconsideration to each party of record and to the appropriate Division of the State Department.

G. Acting on Decisions

1. Initial decisions shall not be implemented pending review by the OOA and entry of a final agency decision.
2. The State Department or local office shall initiate action to comply with the final agency decision within three (3) working days after the effective date. The acting department/office shall comply with the decision, even if reconsideration is requested, unless the effective date of the agency decision is postponed by order of the OOA or a reviewing court.
3. If it is ruled that the household had its SNAP benefits wrongfully delayed, denied, or terminated, the local office shall provide retroactive benefits. If it is decided that benefits were over-issued before and during the pendency of the determination of final agency action, a claim for over-issued benefits will be prepared.
4. Final agency decisions which result in an increase in household benefits shall be reflected in the benefit allotment within ten (10) days of the receipt of the decision,

even if the local office is obligated to provide a supplementary allotment or otherwise provide the household with the opportunity to obtain the allotment outside of the normal cycle. However, the local office may take longer than ten (10) days if it elects to make the decision effective in the household's normal issuance cycle, provided that the issuance will occur within sixty (60) days from the household's request for the hearing.

5. Final agency decisions which result in a decrease in household benefits shall be reflected in the next scheduled issuance following receipt of the decision unless the decision is stayed by the OOA upon a showing of irreparable harm.

\*\*\*\*\*

#### **4.803.43 Notifying a Household of an IPV Administrative Disqualification Hearing [Rev. eff. 1/1/16]**

- A. The administrative adjudicator shall provide written notice to the household member suspected of intentional program violation at least thirty (30) calendar days in advance of the date an administrative disqualification hearing initiated by the local office has been scheduled.

## **STATEMENT OF BASIS AND PURPOSE**

### **Summary of the basis and purpose for new rule or rule change.**

*Explain why the rule or rule change is necessary and what the program hopes to accomplish through this rule. **1500 Char max***

The Supplemental Nutrition Assistance Program (SNAP) is a Food Assistance program in Colorado, formerly known as Food Stamps. SNAP provides food assistance benefits as part of a federal nutrition program to help low-income households purchase food. The United States Department of Agriculture, Food and Nutrition Service annually evaluates Federal income poverty guidelines and cost of living increases to determine appropriate adjustments to income eligibility standards, benefit allotments, and deductions for the upcoming Federal Fiscal Year (FFY). The modified figures are typically made available to states during the month of August immediately prior to the next fiscal year. The COLA changes in this regulation package are required to become effective 10/01/2022. Additionally, recent legislative changes have moved the Office of Appeals operation under the Colorado Department of Human Services (CDHS), requiring updates to regulations to reflect the administrative change.

An emergency rule-making (which waives the initial Administrative Procedure Act noticing requirements) is necessary:

- |  |   |
|--|---|
| <input checked="checked" type="checkbox"/> | to comply with state/federal law and/or       |
| <input type="checkbox"/>                   | to preserve public health, safety and welfare |

Justification for emergency:

Each year, FNS disseminates the new standards to states for use in the upcoming federal fiscal year. The COLA adjustments were made available to CDHS August 09, 2022 and are mandated to be implemented at the beginning of FFY23 (October 1, 2022). It is imperative to incorporate these rules to comply with federal SNAP regulations that must be effective October 1, 2022. Noncompliance with federal SNAP regulations as of October 1, 2022 conflicts with public interest.

### **State Board Authority for Rule:**

Code	Description
26-1-107(5)(b), C.R.S. (2021)	State Board to promulgate rules for programs administered by the Department under Titles 26 and 27. SNAP is administered by the Department under article 2 of Title 26.

**Program Authority for Rule:** *Give federal and/or state citations and a summary of the language authorizing the rule-making function AND authority.*

Code	Description
26-1-111(2)(a), C.R.S. (2021)	The State Department shall administer and supervise all forms of public assistance, including food assistance, under the rules adopted by the state board.
26-2-104(2)(a), (b), C.R.S. (2021)	The State Department shall establish an electronic benefits transfer (EBT) service for the delivery of food assistance payments and shall promulgate rules for the EBT service.

## **REGULATORY ANALYSIS**

### **1. List of groups impacted by this rule.**

*Which groups of persons will benefit, bear the burdens or be adversely impacted by this rule?*

Changes to COLA amounts will benefit all SNAP applicants and participants as well as county SNAP administration and staff. The state SNAP team and Office of Appeals will benefit by having rules clearly outlined for the new administrative process.

### **2. Describe the qualitative and quantitative impact.**

*How will this rule-making impact those groups listed above? How many people will be impacted? What are the short-term and long-term consequences of this rule?*

Annual adjustments to the four-tiered mandatory standard utility allowances, standard deduction, homeless shelter deduction, maximum allotments, and income threshold guidelines have the potential to increase current benefit amounts for participants and increase program accessibility for future applicants. The state SNAP team and Office of Appeals will have no additional impact with these rule changes as it aligns with mandated changes in administration.

### **3. Fiscal Impact**

*For each of the categories listed below explain the distribution of dollars; please identify the costs, revenues, matches or any changes in the distribution of funds even if such change has a total zero effect for any entity that falls within the category. If this rule-making requires one of the categories listed below to devote resources without receiving additional funding, please explain why the rule-making is required and what consultation has occurred with those who will need to devote resources. **Answer should NEVER be just "no impact" answer should include "no impact because...."***

State Fiscal Impact (Identify all state agencies with a fiscal impact, including any Colorado Benefits Management System (CBMS) change request costs required to implement this rule change)

There is no impact because the costs associated with the Colorado Benefits Management System to incorporate these changes have already been allocated in the system maintenance budget.

County Fiscal Impact

There are no county fiscal impacts associated with this rule change.

Federal Fiscal Impact

There are no federal fiscal impacts associated with this rule change.

Other Fiscal Impact (such as providers, local governments, etc.)

There are no other fiscal impacts associated with this rule change.

### **4. Data Description**

*List and explain any data, such as studies, federal announcements, or questionnaires, which were relied upon when developing this rule?*

**Title of Proposed Rule:** FFY23 SNAP COLA and Office of Appeals Update

**CDHS Tracking #:** 22-08-01-01

Office, Division, & Program: Rule Author: Andrea Poole, SNAP Phone: 303-829-7245  
Office Of Economic Security, Program Initiatives Supervisor  
Food and Energy Assistance  
Division, SNAP

E-Mail:  
andrea.poole@state.co.us

Federal memorandums from the Food and Nutrition Services as well as data from the Consumer Price Index for all Urban Consumers were used in the development of this rule.

#### **5. Alternatives to this Rule-making**

*Describe any alternatives that were seriously considered. Are there any less costly or less intrusive ways to accomplish the purpose(s) of this rule? Explain why the program chose this rule-making rather than taking no action or using another alternative. Answer should NEVER be just “no alternative” answer should include “no alternative because...”*

As COLA is federally mandated by SNAP federal partners to be incorporated into regulation prior to implementation and the OOA's move was legislatively determined, there are no available alternatives that exist to incorporate these program changes statewide.

## OVERVIEW OF PROPOSED RULE

Compare and/or contrast the content of the current regulation and the proposed change.

Rule section Number	Issue	Old Language	New Language or Response	Reason / Example / Best Practice	Public Comment No / Detail
7.000	<i>Incorrect Statutory Reference</i>	<i>Section 26.5.103 C.R.S.</i>	<i>Section 26.5-101(3) C.R.S.</i>		
4.000.1	Missing or incorrect definitions	<p><b>4.000.1 SNAP DEFINITIONS</b></p> <p>“Able-Bodied Adult Without Dependents (ABAWD)” means an individual between the ages of eighteen (18) and fifty (50) without a physical or mental disability, who is not pregnant, and who lives in a SNAP household with no one under the age of eighteen (18).</p> <p>“Administrative disqualification hearing (ADH)” means a disqualification hearing against an individual accused of wrongfully obtaining or attempting to obtain SNAP benefits.</p> <p>“Administrative law judge (ALJ)” means the person that presides over fair hearings and administrative disqualification hearings at the state level.</p> <p>“Adverse action” means any action taken by a local office that causes a household’s SNAP benefits to be reduced, suspended, terminated, or denied.</p> <p>*****</p> <p>“Basic Utility Allowance (BUA)” means a fixed deduction applied to a household that does not pay for heating or cooling and incurs at least two (2) non-heating or non-cooling utility costs, such as electricity, water, sewer, trash, cooking fuel, or telephone.</p> <p>“Boarder” means an individual residing with others and paying reasonable compensation to others for lodging and meals.</p> <p>*****</p> <p>“Collateral contact” means a verbal or written confirmation of a household’s circumstances by a person outside the household who has first-hand knowledge of the information, made either in person, electronically submitted, or by telephone.</p> <p>“Colorado Electronic Benefit Transfer System (CO/EBTS)”</p>	<p><b>4.000.1 SNAP DEFINITIONS</b></p> <p>“Able-Bodied Adult Without Dependents (ABAWD)” means an individual aged eighteen (18) through the age of forty-nine (49) without a physical or mental disability who lives in a SNAP household with no one under the age of eighteen (18).</p> <p>“Administrative disqualification hearing (ADH)” means a disqualification hearing against an individual accused of wrongfully obtaining or attempting to obtain SNAP benefits.</p> <p>“Administrative law judge (ALJ)” means a person that may preside over state-level fair hearings and administrative disqualification hearings.</p> <p>“Administrative adjudicator” means a person who, pursuant to C.R.S. § 24-4-105, presides over state-level fair hearings and administrative disqualification hearings.</p> <p>“Adverse action” means any action taken by a local office that causes a household’s SNAP benefits to be reduced, suspended, terminated, or denied.</p> <p>*****</p> <p>“Basic Utility Allowance (BUA)” means a fixed deduction applied to a household that does not pay for heating or cooling and incurs at least two (2) non-heating or non-cooling utility costs, such as electricity, water, sewer, trash, cooking fuel, or telephone.</p> <p>“Bifurcated appeal” means an appeal that involves more than one benefit program area and where the administrative adjudicator</p>	Added or corrected definitions	

		<p>means the electronic system that enables SNAP participants or their authorized representatives to redeem their SNAP benefits at point-of-sale terminals.</p> <p>“Colorado Unemployment Benefits System (CUBS)” means the electronic system by which Unemployment Insurance Benefits (UIB) are determined by the Colorado Department of Labor and Employment.</p> <p>“Communal dining facility” means an establishment approved by FNS that prepares and serves meals for persons aged sixty (60) and older, or for Supplemental Security Income (SSI) recipients, and their spouses. This also includes federally subsidized housing for persons aged sixty (60) and older at which meals are prepared for and served to the residents. It also includes private establishments that contract with an appropriate state or local agency to offer meals at concessional prices to persons aged sixty (60) and older or SSI recipients, and their spouses.</p> <p>“Compromise” means the decision to reduce the amount of a claim that is owed by a household.</p> <p>“Countable month” means a month in which an ABAWD received a full SNAP allotment but did not meet work requirements or have an exemption from those requirements.</p> <p>*****</p> <p>“Fair hearing” means a hearing conducted in person or on the telephone by the Office of Administrative Courts to provide an impartial decision on a household’s appeal of a local office’s decision or action.</p> <p>“Financial criteria” means the set of rules governing gross and net income and resource standards and the proper methods for computing a household’s income and resources.</p> <p>*****</p> <p>“Indigent non-citizen” means a sponsored non-citizen who, after considering all income and contributions provided by the sponsor and other sources in conjunction with the non-citizen’s own income, is unable to obtain food and shelter amounting to one hundred thirty percent (130%) of the federal poverty level (FPL), as defined in section 4.401.1, for the non-citizen’s</p>	<p>determines to divide the appeal so that a SNAP appeal is reviewed separate from the appeal of a different benefit program area appeal.</p> <p>“Boarder” means an individual residing with others and paying reasonable compensation to others for lodging and meals.</p> <p>*****</p> <p>“Collateral contact” means a verbal or written confirmation of a household’s circumstances by a person outside the household who has first-hand knowledge of the information, made either in person, electronically submitted, or by telephone.</p> <p>“Colorado Department Of Human Services (CDHS)” means the same as defined in section 26-1-105, C.R.S., which is incorporated by reference. No later editions or amendments are incorporated. This regulation is available for public inspection and copying at The Food and Energy Assistance Division Director, Colorado Department of Human Services, 1575 Sherman Street, 3rd Floor, Denver, Colorado 80203.</p> <p>“Colorado Electronic Benefit Transfer System (CO/EBTS)” means the electronic system that enables SNAP participants or their authorized representatives to redeem their SNAP benefits at point-of-sale terminals.</p> <p>“Colorado Unemployment Benefits System (CUBS)” means the electronic system by which Unemployment Insurance Benefits (UIB) are determined by the Colorado Department of Labor and Employment.</p> <p>“Combined appeal” means an appeal that involves both a SNAP appeal and an appeal concerning any other benefit program area (ex. A SNAP appeal plus a Colorado Works appeal that are filed as one appeal). Combined appeals may be bifurcated to allow the SNAP portion of the appeal to move on a faster track to comply with federal SNAP timeliness requirements.</p>

D. Offset Against Taxpayer's State Income Tax Refund

\*\*\*\*\*

3. Household Objection to Pre-Offset Notice

The taxpayer is entitled to object to the offset by filing a request for a local-level conference or state-level hearing within thirty (30) calendar days from the date that the state department mails its pre-offset notice to the taxpayer. At the hearing on the offset, the local office or Administrative Law Judge (ALJ) shall not consider whether an over-issuance has occurred, but may consider, if raised by the taxpayer in his or her request for a hearing, whether:

\*\*\*\*\*

E. Federal Treasury Offset Program (TOP)

\*\*\*\*\*

8. The OOA within CDHS will review the proposed offset. The OOA shall find that the claim is past due and legally enforceable unless the household can provide documentation to show any one (1) of the following:

- a. The claim is not delinquent or was already paid, and the individual provides proof of payment.
- b. The individual is not the person that is liable for the claim.
- c. A bankruptcy action prohibits collection of the claim because the automatic stay under Section 362 of the Bankruptcy Code is in effect with respect to the individual or his or her spouse, or that the claim was discharged by a bankruptcy proceeding.
- d. There is some other reason that the claim is not delinquent or is not legally enforceable.

9. The decision by the OOA regarding the review will be issued by means of written findings. The written findings shall include the following:

- a. If the OOA determines that the claim is past due and legally enforceable:
  1. The individual shall be notified that the claim will continue to be referred for the offset; and,

\*\*\*\*\*

D. Offset Against Taxpayer's State Income Tax Refund

\*\*\*\*\*

3. Household Objection to Pre-Offset Notice

The taxpayer is entitled to object to the offset by filing a request for a DRC or state-level hearing within thirty (30) calendar days from the date the state department mails the pre-offset notice to the taxpayer. At the hearing on the offset, the local office or administrative adjudicator shall not consider whether an over-issuance has occurred, but may consider, if raised by the taxpayer in his or her request for a hearing, whether:

\*\*\*\*\*

E. Federal Treasury Offset Program (TOP)

\*\*\*\*\*

8. An OOA adjudicator within CDHS will review the proposed offset and issue only a final agency decision. The OOA shall find that the claim is past due and legally enforceable unless the household can provide documentation to show one (1) of the following:

- a. The claim is not delinquent or was already paid, and the individual provides proof of payment.
- b. The individual is not the person that is liable for the claim.
- c. A bankruptcy action prohibits collection of the claim because the automatic stay under Section 362 of the Bankruptcy Code is in effect with respect to the individual or his or her spouse, or that the claim was discharged by a bankruptcy proceeding.

d. There is some other reason that the claim is not delinquent or is not legally

		<p>2. The individual is entitled to have the FNS review the OOA's decision. FNS must receive a request to do so within thirty (30) calendar days after the date of the state agency's notice of review decision. A request for FNS review shall include the individual's SSN. The notice shall also provide the address of the regional office including the phrase "Tax Offset Review" in the address.</p> <p>b. If the OOA determines that the claim is not past due or legally enforceable, it shall notify the individual and the local office that the claim will not be referred for the offset.</p> <p>c. While the OOA or FNS is conducting a review of the debt, the debt is not eligible for referral to TOP.</p> <p>*****</p>	<p>enforceable.</p> <p>9. The final agency decision by the OOA regarding the paper review will be issued by means of written findings. No oral argument is permitted. The written findings shall include the following:</p> <p>a. If the OOA determines that the claim is past due and legally enforceable:</p> <p>1. The individual shall be notified that the claim will continue to be referred for the offset; and,</p> <p>2. The individual is entitled to have the FNS review the OOA's decision. The Office of Appeals may issue an order of remand upon receipt of the initial decision and identification of an issue that warrants a remand before the initial decision is sent to the parties. Additionally, the Office of Appeals may issue an order of remand at the time of the substantive review of an initial decision for final agency decision. An order of remand is not a final agency decision that is subject to judicial review. The initial decision shall not be implemented pending review by the Office of Appeals and entry of a final</p>		
--	--	--	---	--	--

		<p>remand of the initial decision.</p> <p>2. If the party asserts that the Administrative Law Judge's findings of fact are not supported by the weight of the evidence, the party shall simultaneously with or prior to the filing of exceptions request the Office of Administrative Courts to cause a transcript of all or a portion of the hearing to be prepared and filed with the Office of Appeals. The exceptions shall state that a transcript has been requested, if applicable. Within five (5) calendar days of the request for transcript, the party requesting it shall advance the cost to the transcriber designated by the Office of Administrative Courts unless the transcriber waives the prior payment.</p> <p>A party who is unable because of indigence to pay the cost of a transcript may file a written request, which need not be sworn, with the Office of Appeals for permission to submit a copy of the hearing tape instead of the transcript. If submission of a tape is permitted, the party filing exceptions shall promptly request a copy of the tape from the Office of Administrative Courts, if the hearing was held at or by the Office of Administrative Courts, or from the department, if the hearing was held at or by the department, and deliver it to the Office of Appeals. Payment in advance shall be required for the preparation of a copy of the tape.</p> <p>3. If the exceptions do not challenge the findings of fact, but instead assert only that the Administrative Law Judge improperly interpreted or applied State rules or relevant statutes, the party filing exceptions is not required to provide a transcript or tape to the Office of Appeals.</p> <p>4. The Office of Appeals shall serve a copy of the exceptions on each party by first class mail and by electronic mail if the party has consented to receiving communications by electronic mail. Each party shall be limited to ten (10) calendar days from the date exceptions are mailed to the parties in which to file a written response to such exceptions. The Office of Appeals shall not permit oral argument.</p> <p>5. The Office of Appeals shall not consider evidence that was not part of the record before the Administrative Law Judge. However, the case may be remanded to the Administrative Law Judge for rehearing if a party establishes in its exceptions that material evidence has been discovered which the party could not with</p>	<p>agency decision. While review of the initial decision is pending before the Office of Appeals, the record on review, including any transcript or tape of testimony filed with the Office of Appeals, shall be available for examination by any party at the Office of Appeals during regular business hours.</p> <p>D. Exceptions to the Initial Decision</p> <p>1. Any party seeking a final agency decision that reverses, modifies, or remands the initial decision of the administrative adjudicator must file a written notice of intent to file exceptions to the decision with the OOA within five (5) calendar days - plus three (3) calendar days for mailing - from the date the initial decision is mailed to the parties. If the party has filed such a notice of intent, the party will have fifteen (15) calendar days, plus three (3) calendar days for mailing from the date the initial decision is mailed to the parties to file its written exceptions with the OOA. Exceptions shall state specific grounds for reversal, modification, or remand of the initial decision. Exceptions that fail to state specific grounds for reversal, modification, or remand of the initial decision shall be considered as only arguments of general dissatisfaction.</p> <p>2. If any party asserts that the administrative adjudicator findings of fact are not supported by the weight of the evidence, the OOA will request the SNAP fair hearings unit provide an audio recording of the hearing to the OOA. If the local office asserts that the administrative adjudicator's findings of fact are not supported by the weight of the evidence, the local office shall provide a hearing transcript to the OOA on or before the deadline for the filing of exceptions. If the local office's yearly budget is not sufficient to pay the cost of a hearing transcript, the local office may</p>		
--	--	--	---	--	--

		<p>reasonable diligence have produced at the hearing.</p> <p>6. The Division(s) of the State Department responsible for administering the program(s) relevant to the appeal may file exceptions to the initial decision, or respond to exceptions filed by a party, even though the Division has not previously appeared as a party to the appeal. The Division's exceptions shall be filed in compliance with the requirements of section 4.802.63, D, 1, above. Exceptions filed by a Division that did not appear as a party at the hearing shall be treated as requesting review of the initial decision upon the State Department's own motion.</p> <p>E. Final Agency Decisions</p> <p>1. The Office of Appeals shall enter a final agency decision resolving the appeal within sixty (60) calendar days after the hearing was requested.</p> <p>2. In the absence of exceptions filed by any party or by a Division of the State Department, the Office of Appeals shall review the initial decision and may review the hearing file of the Administrative Law Judge and/or the taped testimony of witnesses before entering a final agency decision. Review by the Office of Appeals shall determine whether the decision properly interprets and applies the rules of the State Department or relevant statutes and whether the findings of fact and conclusions of law support the decision. If a party or Division of the State Department objects to the final agency decision entered upon review by the Office of Appeals, the party or Division may seek reconsideration.</p> <p>3. The Office of Appeals shall mail copies of the final agency decision to all parties by first class mail.</p> <p>4. For purposes of requesting judicial review, the effective date of the final agency decision shall be the third (3rd) day after the date the decision is mailed to the parties, even if the third day falls on Saturday, Sunday, or a legal holiday. The parties shall be advised of this in the agency decision.</p> <p>F. Motion for Reconsideration of a Final Agency Decision</p> <p>1. A motion for reconsideration of a final agency decision may be granted by the Office of Appeals for the following reasons:</p>	<p>request that the OOA review an audio recording of the hearing in lieu of a hearing transcript. Such requests must be mailed or emailed to the OOA at least five (5) calendar days before the deadline for the filing of exceptions. Additionally, the letter must indicate the insufficiency of the local office's budget to pay for a hearing transcript and the letter must be signed by the county department's director. The OOA shall issue an order regarding the request, and if granted, the OOA shall request the audio recording from the SNAP fair hearings unit. If the division(s) of the State Department responsible for administering the program(s) relevant to the appeal assert(s) that the administrative adjudicator's findings of fact are not supported by the weight of the evidence, it shall simultaneously with, or prior to the filing of exceptions, file a hearing transcript with the OOA on or before the deadline for filing exceptions.</p> <p>3. Considering the federal timeliness requirements for SNAP cases, a party may not request an extension of time to file exceptions unless a party is able to show sufficient good cause as to why an extension of time should be granted. The determination of good cause is within the sole discretion of the OOA. When an extension of time is granted by the OOA, the extension shall not be for more than five (5) calendar days after the original exceptions filing deadline. Local offices or the State Department will need to immediately review initial decisions to assess any need to request an audio recording from the SNAP fair hearings unit to receive the audio recording and expedite the transcription of the audio recording through whatever transcription service it chooses. Any party requesting transcription services shall be fully responsible for the cost of such.</p> <p>4. If the exceptions do not challenge the</p>		
--	--	---	---	--	--

		<p>a. Upon a showing of good cause for failure to file exceptions to the initial decision within the fifteen (15) calendar day period; or,</p> <p>b. Upon a showing that the final agency decision is based upon a clear or plain error of fact or law. An error of law means failure by the Office of Appeals to follow a rule, statute, or court decision that controls the outcome of the appeal.</p> <p>2. No motion for reconsideration shall be granted unless it is filed in writing with the Office of Appeals within fifteen (15) calendar days of the date that the final agency decision is mailed to the parties. The motion shall state specific grounds for reconsideration of the agency decision.</p> <p>3. The Office of Appeals shall mail a copy of the motion for reconsideration to each party of record and to the appropriate Division of the State Department.</p> <p>G. Acting on Decisions</p> <p>1. Initial decisions shall not be implemented pending review by the Office of Appeals and entry of a final agency decision.</p> <p>2. The state department or local office shall initiate action to comply with the final agency decision within three (3) working days after the effective date. The acting department/office shall comply with the decision, even if reconsideration is requested, unless the effective date of the agency decision is postponed by order of the Office of Appeals or a reviewing court.</p> <p>3. If it is ruled that the household had its SNAP benefits wrongfully delayed, denied, or terminated, the local office shall provide retroactive benefits. If it is decided that benefits were over-issued before and during the pendency of the determination of final agency action, a claim for over-issued benefits will be prepared.</p> <p>4. Final agency decisions which result in an increase in household benefits shall be reflected in the benefit allotment within ten (10) days of the receipt of the decision, even if the local office is obligated to provide a supplementary allotment or otherwise provide the household with the opportunity to obtain the allotment outside of the normal cycle. However, the local office may</p>	<p>findings of fact, but instead assert only that the administrative adjudicator improperly interpreted or applied state rules or relevant statutes, no transcript review or audio recording review is required.</p> <p>5. The OOA shall serve a copy of the exceptions on each party by first class mail and by electronic mail if the party has consented to receiving communications by electronic mail. Each party shall be limited to ten (10) calendar days from the date exceptions are mailed to the parties in which to file a written response to such exceptions. The OOA shall not permit oral argument.</p> <p>6. The OOA shall not consider evidence that was not part of the record before the administrative adjudicator. However, the case may be remanded to the administrative adjudicator for rehearing if a party establishes in its exceptions that material evidence has been discovered that the party could not with reasonable diligence have produced at the hearing.</p> <p>7. The division(s) of the State Department responsible for administering the program(s) relevant to the appeal may file exceptions to the initial decision, or respond to exceptions filed by a party, even though the Division has not previously appeared as a party to the appeal. The Division's exceptions shall be filed in compliance with the requirements of section 4.802.63, D, 1 and 2, above. Exceptions filed by a Division that did not appear as a party at the hearing shall be treated as requesting a review of the initial decision upon the State Department's own motion.</p> <p>E. Final Agency Decisions</p> <p>1. The OOA shall enter a final agency decision resolving the appeal within sixty (60) calendar days after the request for</p>		
--	--	---	---	--	--

		<p>take longer than ten (10) days if it elects to make the decision effective in the household's normal issuance cycle, provided that the issuance will occur within sixty (60) days from the household's request for the hearing.</p> <p>5. Final agency decisions which result in a decrease in household benefits shall be reflected in the next scheduled issuance following receipt of the decision, unless the decision is stayed by the Office of Appeals upon a showing of irreparable harm.</p>	<p>appeal was received by the SNAP fair hearings unit.</p> <p>2. In the absence of exceptions filed by any party or by a division of the State Department, or when exceptions are filed, the OOA shall review the initial decision and may review the hearing file of the administrative adjudicator and/or the taped testimony of witnesses before entering a final agency decision. Review by the OOA shall determine whether the initial decision properly interprets and applies the rules of the State Department or relevant statutes and whether the findings of fact and conclusions of law support the decision. If a party or Division of the State Department objects to the final agency decision entered upon review by the OOA, the party or Division may seek reconsideration.</p> <p>3. The OOA shall mail copies of the final agency decision to all parties by first class mail.</p> <p>4. For purposes of requesting judicial review, the effective date of the final agency decision shall be the third (3rd) day after the date the decision is mailed to the parties, even if the third day falls on Saturday, Sunday, or a legal holiday. The parties shall be advised of this in the final agency decision.</p> <p>F. Motion for Reconsideration of a Final Agency Decision</p> <p>1. A motion for reconsideration of a final agency decision may be granted by the OOA for the following reasons:</p> <p>a. Upon a showing of good cause for failure to file exceptions to the initial decision within the fifteen (15) calendar day period; or,</p> <p>b. Upon a showing that the final agency decision is based upon a clear or plain</p>		
--	--	--	--	--	--

			<p>error of fact or law. An error of law means failure by the OOA to follow a rule, statute, or court decision that controls the outcome of the appeal.</p> <p>2. No motion for reconsideration shall be granted unless it is filed in writing with the OOA within fifteen (15) calendar days of the date that the final agency decision is mailed to the parties. The motion shall state specific grounds for reconsideration of the agency decision.</p> <p>3. The OOA shall mail a copy of the motion for reconsideration to each party of record and to the appropriate Division of the State Department.</p> <p>G. Acting on Decisions</p> <p>1. Initial decisions shall not be implemented pending review by the OOA and entry of a final agency decision.</p> <p>2. The State Department or local office shall initiate action to comply with the final agency decision within three (3) working days after the effective date. The acting department/office shall comply with the decision, even if reconsideration is requested, unless the effective date of the agency decision is postponed by order of the OOA or a reviewing court.</p> <p>3. If it is ruled that the household had its SNAP benefits wrongfully delayed, denied, or terminated, the local office shall provide retroactive benefits. If it is decided that benefits were over-issued before and during the pendency of the determination of final agency action, a claim for over-issued benefits will be prepared.</p> <p>4. Final agency decisions which result in an increase in household benefits shall be reflected in the benefit allotment within ten (10) days of the receipt of the decision, even if the local office is obligated to provide a supplementary</p>		
--	--	--	---	--	--

			<p>allotment or otherwise provide the household with the opportunity to obtain the allotment outside of the normal cycle. However, the local office may take longer than ten (10) days if it elects to make the decision effective in the household's normal issuance cycle, provided that the issuance will occur within sixty (60) days from the household's request for the hearing.</p> <p>5. Final agency decisions which result in a decrease in household benefits shall be reflected in the next scheduled issuance following receipt of the decision unless the decision is stayed by the OOA upon a showing of irreparable harm.</p>

## STAKEHOLDER COMMENT SUMMARY

### Development

The following individuals and/or entities were included in the development of these proposed rules (such as other Program Areas, Legislative Liaison, and Sub-PAC):

Office of Appeals, Office of Economic Security (OES) Sub-PAC

### This Rule-Making Package

The following individuals and/or entities were contacted and informed that this rule-making was proposed for consideration by the State Board of Human Services:

Office of Economic Security (OES) PAC

### Other State Agencies

Are other State Agencies (such as HCPF or CDPHE) impacted by these rules? If so, have they been contacted and provided input on the proposed rules?

☐ Yes ☒ No

If yes, who was contacted and what was their input?

### Sub-PAC

Have these rules been reviewed by the appropriate Sub-PAC Committee?

☒ Yes ☐ No

Name of Sub-PAC	Economic Security Sub-PAC		
Date presented			
What issues were raised?			
Vote Count	<i>For</i>	<i>Against</i>	<i>Abstain</i>
If not presented, explain why.			

### PAC

Have these rules been approved by PAC?

☐ Yes ☐ No

If not presented, explain why.			

### Other Comments

Comments were received from stakeholders on the proposed rules:

☐ Yes ☐ No

If "yes" to any of the above questions, summarize and/or attach the feedback received, including requests made by the State Board of Human Services, by specifying the section and including the Department/Office/Division response. Provide proof of agreement or ongoing issues with a letter or public testimony by the stakeholder.

#### 4.000.1 SNAP DEFINITIONS

"Able-Bodied Adult Without Dependents (ABAWD)" means an individual ~~between the ages of~~ AGED eighteen (18) ~~and THROUGH THE AGE OF FORTY-NINE (49) fifty (50)~~ without a physical or mental disability, ~~who is not pregnant, and~~ who lives in a SNAP household with no one under the age of eighteen (18).

"Administrative disqualification hearing (ADH)" means a disqualification hearing against an individual accused of wrongfully obtaining or attempting to obtain SNAP benefits.

"Administrative law judge (ALJ)" means ~~A the~~ person that MAY presides over STATE-LEVEL fair hearings and administrative disqualification hearings ~~at the state level~~.

**"ADMINISTRATIVE ADJUDICATOR" MEANS A PERSON WHO, PURSUANT TO C.R.S. § 24-4-105, PRESIDES OVER STATE-LEVEL FAIR HEARINGS AND ADMINISTRATIVE DISQUALIFICATION HEARINGS.**

"Adverse action" means any action taken by a local office that causes a household's SNAP benefits to be reduced, suspended, terminated, or denied.

\*\*\*\*\*

"Basic Utility Allowance (BUA)" means a fixed deduction applied to a household that does not pay for heating or cooling and incurs at least two (2) non-heating or non-cooling utility costs, such as electricity, water, sewer, trash, cooking fuel, or telephone.

**"BIFURCATED APPEAL" MEANS AN APPEAL THAT INVOLVES MORE THAN ONE BENEFIT PROGRAM AREA AND WHERE THE ADMINISTRATIVE ADJUDICATOR DETERMINES TO DIVIDE THE APPEAL SO THAT A SNAP APPEAL IS REVIEWED SEPARATE FROM THE APPEAL OF A DIFFERENT BENEFIT PROGRAM AREA APPEAL.**

"Boarder" means an individual residing with others and paying reasonable compensation to others for lodging and meals.

\*\*\*\*\*

"Collateral contact" means a verbal or written confirmation of a household's circumstances by a person outside the household who has first-hand knowledge of the information, made either in person, electronically submitted, or by telephone.

**"COLORADO DEPARTMENT OF HUMAN SERVICES (CDHS)" MEANS THE SAME AS DEFINED IN SECTION 26-1-105, C.R.S., WHICH IS INCORPORATED BY REFERENCE. NO LATER EDITIONS OR AMENDMENTS ARE INCORPORATED. THIS REGULATION IS AVAILABLE FOR PUBLIC INSPECTION AND COPYING AT THE FOOD AND ENERGY ASSISTANCE DIVISION DIRECTOR, COLORADO DEPARTMENT OF HUMAN SERVICES, 1575 SHERMAN STREET, 3RD FLOOR, DENVER, COLORADO 80203.**

"Colorado Electronic Benefit Transfer System (CO/EBTS)" means the electronic system that enables SNAP participants or their authorized representatives to redeem their SNAP benefits at point-of-sale terminals.

"Colorado Unemployment Benefits System (CUBS)" means the electronic system by which Unemployment Insurance Benefits (UIB) are determined by the Colorado Department of Labor and Employment.

**"COMBINED APPEAL" MEANS AN APPEAL THAT INVOLVES BOTH A SNAP APPEAL AND AN APPEAL CONCERNING ANY OTHER BENEFIT PROGRAM AREA (EX. A SNAP APPEAL PLUS A COLORADO WORKS APPEAL THAT ARE FILED AS ONE APPEAL). COMBINED APPEALS MAY BE BIFURCATED TO ALLOW THE SNAP PORTION OF THE APPEAL TO MOVE ON A FASTER TRACK TO COMPLY WITH FEDERAL SNAP TIMELINESS REQUIREMENTS.**

“Communal dining facility” means an establishment approved by FNS that prepares and serves meals for persons aged sixty (60) and older, or for Supplemental Security Income (SSI) recipients, and their spouses. This also includes federally subsidized housing for persons aged sixty (60) and older at which meals are prepared for and served to the residents. It also includes private establishments that contract with an appropriate state or local agency to offer meals at concessional prices to persons aged sixty (60) and older or SSI recipients, and their spouses.

“Compromise” means ~~the~~ **A LOCAL OFFICE’S** decision to reduce the amount of a claim that is owed by a household.

“Countable month” means a month in which an ABAWD received a full SNAP allotment but did not meet work requirements or have an exemption from those requirements.

\*\*\*\*\*

“Fair hearing” **OR “STATE-LEVEL FAIR HEARING”** means a hearing conducted in person or on the telephone by ~~the AN ADMINISTRATIVE ADJUDICATOR Office of Administrative Courts~~ to provide an impartial decision on a household’s appeal of a local office’s decision or action.

**“FINAL AGENCY DECISION” MEANS A DECISION ISSUED BY THE OFFICE OF APPEALS AFTER REVIEWING THE INITIAL DECISION ISSUED BY AN ADMINISTRATIVE ADJUDICATOR.**

“Financial criteria” means the set of rules governing gross and net income and resource standards and the proper methods for computing a household’s income and resources.

\*\*\*\*\*

“Indigent non-citizen” means a sponsored non-citizen who, after considering all income and contributions provided by the sponsor and other sources in conjunction with the non-citizen’s own income, is unable to obtain food and shelter amounting to one hundred thirty percent (130%) of the federal poverty level (FPL), as defined in section 4.401.1, for the non-citizen’s household size. When a non-citizen is declared indigent, only the amount provided by the sponsor shall be deemed **FOR** ~~to~~ the non-citizen. A declaration of indigence may last up to twelve (12) months but may be renewed at the end of such a period, if necessary. The local office must notify the U.S. Attorney General of each indigence determination, including the name of the sponsor and the sponsored non-citizen.

**“INITIAL DECISION” MEANS A DECISION ISSUED BY AN ADMINISTRATIVE ADJUDICATOR AFTER A STATE-LEVEL FAIR HEARING.**

“Initial application” means a household’s first application for assistance or an application for assistance that is received after the household has been off the program for any period following the end of a certification period.

\*\*\*\*\*

“Notice of Overpayment” means a notice sent to a household upon the establishment of a claim against the household for an overpayment of benefits.

**“OFFICE OF ADMINISTRATIVE COURTS (OAC)” MEANS THE OFFICE WITHIN THE COLORADO DEPARTMENT OF PERSONNEL AND ADMINISTRATION THAT THE COLORADO DEPARTMENT OF HUMAN SERVICES MAY DESIGNATE TO HEAR STATE-LEVEL FAIR HEARINGS AS NEEDED AND AS AGREED TO BY THE OFFICE OF ADMINISTRATIVE COURTS.**

“OFFICE OF APPEALS (OOA)” IS AN OFFICE WITHIN THE COLORADO DEPARTMENT OF HUMAN SERVICES THAT ISSUES FINAL AGENCY DECISIONS ON BEHALF OF THE COLORADO DEPARTMENT OF HUMAN SERVICES.

“On-the-job training (OJT)” means training provided to an employee after he or she is hired. Such training is designed for individuals who do not have the necessary work experience required for the job.  
\*\*\*\*\*

“SNAP” means Supplemental Nutrition Assistance Program, formerly known as the Food Assistance program, administered by the state department in Colorado.

“SNAP FAIR HEARINGS UNIT” MEANS THE UNIT WITHIN THE OFFICE OF APPEALS AT THE COLORADO DEPARTMENT OF HUMAN SERVICES THAT MAY BE DESIGNATED BY THE COLORADO DEPARTMENT OF HUMAN SERVICES TO HEAR SNAP APPEALS, THE SNAP PORTION OF A BIFURCATED APPEAL, COMBINED APPEALS, AND ADMINISTRATIVE DISQUALIFICATION HEARINGS. THE SNAP FAIR HEARINGS UNIT GENERALLY OPERATES UNDER THE SUPERVISION OF THE CHIEF ADJUDICATOR OF THE OFFICE OF APPEALS BUT ACTS INDEPENDENTLY AND IN A FAIR AND IMPARTIAL MANNER CONCERNING THE FAIR HEARINGS PROCESS AND THE ISSUANCE OF INITIAL DECISIONS.

“Sponsor” means any person(s) who executed an affidavit of support (USCIS form I-864A (March 6, 2018)) or another form deemed legally binding by the Department of Homeland Security on behalf of a non-citizen as a condition of the non-citizen’s date of entry or admission into the United States as a permanent resident. These forms are herein incorporated by reference. This rule does not contain any later amendments or editions. These forms are available at no cost from <https://www.uscis.gov/forms>. These forms are also available for public inspection and copying at the Colorado Department of Human Services, Director of the Employment and Benefits Division, 1575 Sherman Street, Denver, Colorado, 80203, or at any state publications library during regular business hours.

\*\*\*\*\*

“State Department” means the office/division within the Colorado Department of Human Services that administers SNAP. Currently, this is the Food and Energy Assistance Division within the Office of Economic Security.

“State-level fair hearing” OR “FAIR HEARING” means a review (HEARING) requested by a client which is held before an ADMINISTRATIVE ADJUDICATOR ~~ALJ~~ to establish whether an adverse action or eligibility determination taken was correct.

“Striker” or “striking member” means an individual who is involved in a strike or other concerted stoppage of work by employees, including a stoppage by reason of the expiration of a collective bargaining agreement and any concerted slowdown or other concerted interruption of operations by employees.

\*\*\*\*\*

“Thrifty food plan” means the diet required to feed a family of four (4) persons, as defined by the FNS, as consisting of a man and a woman twenty (20) through fifty (50) years of age, a child six (6) through eight (8) years of age, and a child nine (9) through eleven (11) years of age, determined in accordance with the U.S. Department of Agriculture. The cost of such a diet shall be the basis for uniform allotments for all households regardless of their actual composition.

“Trafficking ~~in food stamps~~” means the same as defined in section 26-2-306, C.R.S. and 7 C.F.R. 271.2 (2019), which is incorporated by reference. No later editions or amendments are incorporated. The regulation is available at no cost at the FNS, 3101 Park Center Dr., #906, Alexandria, VA 22302, or at <https://www.ecfr.gov>. This regulation is also available for public inspection and copying at the Food and Energy Assistance Division Director, Colorado Department of Human Services, 1575 Sherman Street, 3rd Floor, Denver, Colorado 80203.

“Unclear information” unclear information is information that is not verified, or information that is verified but the local office needs additional information to act on the change.

\*\*\*\*\*

#### 4.207.3 Benefit Allotment

\*\*\*\*\*

- D. The SNAP maximum and minimum monthly benefit allotment tables will be adjusted as announced by the USDA, FNS.

Household Size	Maximum Monthly Allotment Effective October 1, <del>2021</del> 2022
1	\$ <del>250</del> 281
2	\$ <del>459</del> 516
3	\$ <del>658</del> 740
4	\$ <del>835</del> 939
5	\$ <del>992</del> 1,116
6	\$ <del>1,190</del> 1,339
7	\$ <del>1,316</del> 1,480
8	\$ <del>1,504</del> 1,691
Each additional person	+\$ <del>188</del> 211

Household Size	Minimum Monthly Allotment Effective October 1, <del>2021</del> 2022
1-2	\$ <del>20</del> 23

\*\*\*\*\*

#### 4.310.3 General Work Requirement Exemptions

\*\*\*\*\*

- C. A person physically or mentally unfit for employment;  
Examples of being physically or mentally unfit for employment can include but are not limited to:
1. Persons experiencing homelessness, ~~AS~~ defined in ~~4.000.1400~~

\*\*\*\*\*

#### 4.401.1 Gross Income Limits

Effective October 1, ~~2021~~2022, the gross income level for one hundred thirty percent (130%), two hundred percent (200%), and one hundred sixty-five percent (165%) of the federal poverty level for the corresponding household size is as follows:

Household Size	130% Gross Income Level	200% Gross Income Level	165% Gross Income Level
1	\$ <del>1,396</del> 1,473	\$ <del>2,148</del> 2,266	\$ <del>1,771</del> 1,869
2	\$ <del>1,888</del> 1,984	\$ <del>2,904</del> 3,072	\$ <del>2,396</del> 2,518
3	\$ <del>2,379</del> 2,495	\$ <del>3,660</del> 3,840	\$ <del>3,020</del> 3,167
4	\$ <del>2,871</del> 3,007	\$ <del>4,418</del> 4,626	\$ <del>3,644</del> 3,816

5	\$ <del>3,363</del> 3,518	\$ <del>5,174</del> 5,412	\$ <del>4,268</del> 4,465
6	\$ <del>3,855</del> 4,029	\$ <del>5,930</del> 6,200	\$ <del>4,893</del> 5,114
7	\$ <del>4,347</del> 4,541	\$ <del>6,688</del> 6,986	\$ <del>5,517</del> 5,763
8	\$ <del>4,839</del> 5,052	\$ <del>7,444</del> 7,772	\$ <del>6,141</del> 6,412
Each additional person	+\$ <del>492</del> 512	\$ <del>758</del> 788	+\$ <del>625</del> 649

#### 4.401.2 Net Income Levels

Effective October 1, ~~2021~~2022, the net income level of one hundred percent (100%) of the federal poverty level for the corresponding household size is as follows:

Household Size	100% Net Income Level
1	\$ <del>1,074</del> 1,133
2	\$ <del>1,452</del> 1,526
3	\$ <del>1,830</del> 1,920
4	\$ <del>2,209</del> 2,313
5	\$ <del>2,587</del> 2,706
6	\$ <del>2,965</del> 3,100
7	\$ <del>3,344</del> 3,493
8	\$ <del>3,722</del> 3,886
Each additional person	+\$ <del>379</del> 394

\*\*\*\*\*

#### 4.407.1 Standard Deduction

A standard deduction of 8.31% of the federal poverty income guidelines for the household size as described in 4.401.2 will be used to calculate the amount that is allowed to all households. The established standard amount will be adjusted annually as announced by FNS, USDA. The calculation of 8.31% of the federal poverty income guidelines for eligible members will be used for all households up to the household size of six (6). All households with six (6) or more eligible members will use the six (6) person standard deduction.

Standard Deduction Amount				
Household Size	1- <del>34</del>	45	56+	6+
Effective October 1, 202 <del>1</del>	\$ <del>177</del> 193	\$ <del>184</del> 225	\$ <del>215</del> 258	\$ <del>246</del>

\*\*\*\*\*

#### 4.407.3 Excess Shelter Deduction

\*\*\*\*\*

- AB.** A shelter deduction cap, as specified below, applies to households that do not contain **AA** person who is aged sixty (60) and older or a person with a disability as defined in Section 4.304.41. Those households containing a person who is aged sixty (60) and older and/or a person with a disability shall receive an excess shelter deduction for the monthly cost of shelter that exceeds fifty percent (50%) of the household's monthly income after all other applicable deductions.

Shelter Deduction Cap	
Effective October 1, 202 <del>1</del>	\$ <del>597</del> 624

- C.** Households in which all individuals are experiencing homelessness and are not receiving free shelter throughout the calendar month shall be entitled to use a standard estimate of shelter expenses.

The FNS, USDA, provides an update of this estimated figure annually when the shelter cap for other households is adjusted. The Homeless Shelter Deduction is as follows:

Homeless Shelter Deduction	
Effective October 1, 202 <del>4</del>	\$ <del>159.73</del> 166.81

\*\*\*\*\*

#### 4.407.31 Four-Tiered Mandatory Standard Utility Allowance

\*\*\*\*\*

##### A. Heating and Cooling Utility Allowance (HCUA)

\*\*\*\*\*

4. The HCUA standard is as follows:

HCUA Standard	
Effective October 1, 202 <del>1</del> 2022	\$493531

\*\*\*\*\*

##### B. Basic Utility Allowance (BUA)

\*\*\*\*\*

3. The BUA standard is as follows:

BUA Standard	
Effective October 1, 202 <del>1</del> 2022	\$314338

\*\*\*\*\*

##### C. One Utility Allowance (OUA)

\*\*\*\*\*

3. The OUA standard is as follows:

OUA Standard	
Effective October 1, 202 <del>1</del> 2022	\$5964

##### D. Telephone allowance

\*\*\*\*\*

2. The telephone allowance is as follows:

Telephone Standard	
Effective October 1, 202 <del>1</del> 2022	\$8086

\*\*\*\*\*

#### 4.408 RESOURCE ELIGIBILITY STANDARDS

\*\*\*\*\*

##### E. The resource limits are as follows:

Effective October 1, 202~~4~~, the resource limit for households that do contain a member who is aged sixty (60) and older and/or a person with a disability is ~~FOUR~~three thousand ~~TWO~~seven hundred and fifty dollars (\$~~3,750~~4,250). The resource limit for households that do not contain a member who is aged sixty (60) and older and/or a person with a disability is two thousand ~~SEVEN~~five hundred ~~AND FIFTY~~ dollars (\$~~2,500~~2,750).

\*\*\*\*\*

#### 4.801.41 Methods of Collection Payment on Claims

\*\*\*\*\*

##### D. Offset Against Taxpayer's State Income Tax Refund

\*\*\*\*\*

3. Household Objection to Pre-Offset Notice

The taxpayer is entitled to object to the offset by filing a request for a ~~DRC local level conference~~ or state-level hearing within thirty (30) calendar days from the date ~~that~~ the state department mails ~~its~~ **THE** pre-offset notice to the taxpayer. At the hearing on the offset, the local office or **ADMINISTRATIVE ADJUDICATOR** ~~Administrative Law Judge (ALJ)~~ shall not consider whether an over-issuance has occurred, but may consider, if raised by the taxpayer in his or her request for a hearing, whether:

\*\*\*\*\*

E. Federal Treasury Offset Program (TOP)

\*\*\*\*\*

8. ~~The~~ **AN OOA ADJUDICATOR** within CDHS will review the proposed offset **AND ISSUE ONLY A FINAL AGENCY DECISION**. The OOA shall find that the claim is past due and legally enforceable unless the household can provide documentation to show ~~any~~ one (1) of the following:

- a. The claim is not delinquent or was already paid, and the individual provides proof of payment.
- b. The individual is not the person that is liable for the claim.
- c. A bankruptcy action prohibits collection of the claim because the automatic stay under Section 362 of the Bankruptcy Code is in effect with respect to the individual or his or her spouse, or that the claim was discharged by a bankruptcy proceeding.
- d. There is some other reason that the claim is not delinquent or is not legally enforceable.

9. The **FINAL AGENCY** decision by the ~~OOA~~ regarding the **PAPER** review will be issued by means of written findings. **NO ORAL ARGUMENT IS PERMITTED**. The written findings shall include the following:

- a. If the OOA determines that the claim is past due and legally enforceable:
  1. The individual shall be notified that the claim will continue to be referred for the offset; and,
  2. The individual is entitled to have the FNS review the OOA's decision. FNS must receive a request to do so within thirty (30) calendar days after the date of the state agency's notice of review decision. A request for FNS review shall include the individual's SSN. The notice shall also provide the address of the regional office including the phrase "Tax Offset Review" in the address.
- b. If the OOA determines that the claim is not past due or legally enforceable, it shall notify the individual and the local office that the claim will not be referred for the offset.
- c. While the OOA or FNS is conducting a review of the debt, the debt is not eligible for referral to TOP.

\*\*\*\*\*

#### 4.801.43 Criteria for Terminating Collection Action [Rev. eff. 1/1/16]

The provisions within this section apply to Agency Error (AE) claims, Inadvertent Household Error (IHE) claims, and intentional Program violation (IPV) claims.

- A. A terminated claim is a claim in which all collection activity has ceased. A terminated claim is no longer considered a receivable subject for continued state and federal agency collection and reporting requirements; unless otherwise stated.

Voluntary payments from a household on a terminated claim do not reactivate the claim. ~~but shall be accepted by the local office, but it does not reactivate the claim.~~ A terminated claim ~~shall~~ CANnot be reactivated to pursue collection.

- B. Collection action on a claim shall be terminated only in the following situations:

1. A claim may be determined uncollectible after ~~THE~~ collection action has been suspended for three (3) years. Prior to terminating such a claim, the local office may submit the claim for state or federal offset or pursue other collection actions. A terminated claim ~~may~~CAN ONLY be reactivated to offset restoration of lost benefits.

\*\*\*\*\*

#### 4.802 APPEAL PROCESS

Any household that is aggrieved by any action of the local office affecting the household's participation in ~~SNAPthe Program~~ may appeal by requesting a local-level dispute resolution conference (DRC) and/or a state-level fair hearing.

The right of a household to a ~~DRClocal-level-dispute-resolution-conference~~ and state-level hearing is primarily to ensure that a proposed eligibility determination or action is valid; to protect the person against an erroneous action concerning benefits; and to ensure reasonable promptness of local office action. The individual may choose to request a ~~DRClocal-level-dispute-resolution-conference~~ or bypass the ~~DRCdispute-resolution-process~~ and appeal directly to the Colorado Department of ~~HUMAN SERVICES (CDHS) Personnel and Administration, Office of Administrative Courts (OAC)~~, for a state-level fair hearing.

~~CDHSThe of Administrative Courts~~ may deny fair hearings to those households that are disputing a mass change, or the fact that a statewide reduction, cancellation, or suspension was ordered. In such instances, ~~CDHSThe OAC~~ is not required to hold a fair hearing unless the request is based on the household's belief that the rules were misapplied.

IF THE HOUSEHOLD HAS A COMBINED APPEAL, THE APPEAL WILL BE BIFURCATED. THE SNAP FAIR HEARINGS UNIT WILL PROCESS AND HEAR THE SNAP APPEAL, AND THE OFFICE OF ADMINISTRATIVE COURTS (OAC) WILL PROCESS AND HEAR THE OTHER BENEFITS PROGRAM APPEAL(S). THE SNAP FAIR HEARINGS UNIT WILL PROVIDE THE PARTIES WITH ANY NECESSARY INSTRUCTIONS AND/OR PROCEDURES RELATED TO COMBINED APPEALS.

##### 4.802.1 Time Period for Requesting an Appeal

- A. A household shall be allowed to request a ~~DRClocal-level dispute resolution conference~~ or state-level fair hearing on the following:
1. Any action by the local office that occurred in the previous ninety (90) calendar days.
  2. A loss of benefits that occurred in the previous ninety (90) calendar days. Such SNAP action shall include a denial of a request for restoration of benefits lost more than ninety (90) calendar days, but less than a year prior to the request.
  3. At any time during a certification period a household may request a fair hearing to dispute its current level of benefits.
- B. An aggrieved household shall be advised that the use of a ~~DRClocal-level dispute resolution conference~~ is optional, and it shall in no way delay or replace the state-level fair hearing process. If the household does not want a ~~DRClocal-level dispute resolution conference~~ but desires to have the disputed matter considered only at a state-level hearing, this fact should be indicated in the case record. In these cases, the request for an appeal shall be forwarded to the ~~SNAP FAIR HEARINGS UNIT~~~~Office of Administrative Courts~~.

#### 4.802.2 Continuation of Benefits Pending Final Agency Decision

\*\*\*\*\*

- D. The certification office shall promptly inform the household in writing if the benefits are reduced or terminated pending the final agency decision. Once benefits are continued or reinstated, benefits shall not be reduced or terminated prior to the receipt of the final agency decision unless:
1. The certification period expires. The household may reapply and may be determined eligible for a new certification period with a benefit amount as determined by the local office.
  2. The ~~ADMINISTRATIVE ADJUDICATOR~~~~Administrative Law Judge (ALJ)~~ makes a preliminary determination, in writing and at the hearing, that the sole issue is one of federal law or regulation and that the household's claim that the local office improperly computed the benefits or misinterpreted or misapplied such law or regulation is invalid.
  3. A change affecting the household's eligibility or basis of issuance occurs while the final agency decision is pending, and the household fails to request a hearing after the subsequent Notice of Adverse Action.
  4. A mass change affecting the household's eligibility or basis of issuance occurs while the final agency decision is pending. During the fair hearing period, the local office shall adjust allotments to ~~CONSIDER~~~~take into account~~ reported changes, information considered verified upon receipt, and mass changes, but not the factors on which the fair hearing is based.

\*\*\*\*\*

#### 4.802.3 Rights During an Appeal

A. A household is entitled to the following:

1. Be represented by an authorized representative, such as legal counsel, relative, friend, or other spokesman, or they may represent themselves at the ~~DRCconference~~ OR STATE-LEVEL FAIR HEARING.

\*\*\*\*\*

#### 4.802.5 Local-Level Dispute Resolution Conferences (DRC)

- A. Before taking action to deny, terminate, reduce, or recover SNAP benefits, the local office shall provide the household an opportunity for a DRC. The individual may choose to bypass the ~~DRCdispute-resolution~~ process and appeal directly to the ~~Office of Administrative Courts~~SNAP FAIR HEARINGS UNIT for a state-level fair hearing.
- B. If the household requests a DRC, the local office shall arrange ~~ONEsuch a conference~~ to attempt to resolve the disputed action. The ~~participant~~ household may be represented by legal counsel or have other persons present to aid the household in the DRC.
- C. Failure of the client to request a DRC within the prior notice period or failure to appear at the time of the scheduled DRC without making a timely request for postponement shall constitute abandonment of the right to a ~~DRCconference~~, unless the ~~CLIENTapplicant/participant~~ can show good cause for ~~THEIRhis/her~~ failure to appear. "Good cause" includes, but is not limited to:
1. Death or incapacity of a client, or a member of his or her immediate family, or the representative;
  2. Any other health or medical condition of an emergency nature; or
  3. Other circumstances beyond the control of the client, and which would prevent a reasonable person from making a timely request for a ~~DRCconference~~ or postponement of a scheduled ~~DRCconference~~.
- D. The local office may consolidate the SNAP ~~DRCconference~~ with disputes regarding other assistance payments programs, the Colorado Works (CW) Program, or disputes concerning Medicaid eligibility; if the facts are similar and consolidation will facilitate ~~THE~~ resolution of all disputes.

#### 4.802.51 Management of Local-Level Dispute Resolution Conference (DRC)

A. General Requirements

The ~~DRClocal-level-dispute-resolution-conference~~ shall be conducted on an informal basis. Every effort shall be made to ensure that the ~~applicant-or-participant~~ household understands the local office's specific reasons for the proposed action and the applicable ~~Sstate D~~department's rules. The local office shall have available at the ~~DRCconference~~ all pertinent documents and records in the case file relevant to the specific action in dispute.

B. Scheduling ~~aConference~~

1. To the extent possible, the ~~DRClocal-level dispute resolution conference~~ shall be scheduled and conducted within the prior notice period. If the local office cannot conduct the ~~DRCconference~~ within this period, for whatever reason, the adverse action in dispute shall be delayed until a ~~DRCconference~~ can be held, unless the household waives continuation of benefits.
2. If a ~~DRCconference~~ is requested to attempt to resolve a contested denial of expedited service, it shall be scheduled within two (2) working days of the receipt of the request for a ~~DRCconference~~ unless the household requests that ~~ITthe conference~~ be held later. Prior notice is not required.
3. The local office shall provide reasonable notice to the household of the scheduled time and location for the ~~DRCconference~~, or the time of the scheduled telephone conference. Notice shall be in writing; however, verbal notice may be given to facilitate the ~~DRCdispute resolution~~ process.

C. Location

The ~~DRClocal dispute resolution conference~~ shall be held in the local office where the proposed decision is pending and before a person who was not directly involved in the initial determination of the action in question. The ~~DRClocal-level conference~~ may be conducted either in person or by telephone. If a telephonic conference is requested, it shall be agreed upon by the client. In the event the household does not speak English or is visually or hearing impaired, an interpreter or translator shall be provided by the local office.

D. County Representatives

The individual who initiated the action in dispute shall not conduct the DRC. The ~~INDIVIDUALcounty, agency caseworker, or other person~~ who initiated the action in dispute shall attend the DRC and present the factual basis for the disputed action. The person designated to conduct the DRC shall be in a position which, based on knowledge, experience, and training, would enable ~~THEMhim or her~~ to determine if the proposed action is valid.

E. Joint Dispute Resolution Processes

Two (2) or more local offices may establish a joint DRC process. If two or more counties establish a joint process, the location of the DRC need not be held in the county or agency taking the action, but the DRC location shall be convenient to the client.

F. Notice of DRC Decision

1. If the additional information presented in the DRC proves that the adverse action is not warranted, the case record shall be documented, and the Notice of Adverse Action cancelled.
2. At the conclusion of the DRC, the person presiding shall reduce to writing the agreement entered by the parties. Such agreement shall be signed by the parties and/or their representatives and shall be binding upon the parties. A copy of the written decision shall immediately be provided to the client and/or his or her representative. The local office shall also forward a copy of the decision to the ~~Sstate D~~epartment, within five (5)

working days of the hearing, regardless of whether the client ~~AGREES~~~~was in agreement~~ with the outcome.

3. In the event the dispute is not resolved, the person presiding shall prepare a written statement indicating that the dispute was not resolved. The decision shall include:
  - a. A statement explaining the ~~CLIENT'S~~~~Applicant or participant's~~ right to request a state-level fair hearing;
  - b. The time limit for requesting a state-level hearing; and,
  - c. If appropriate, a statement that the household's previous benefit amount will continue pending a final state decision in accordance with Section 4.802.2, if appealed to the state within ~~THE APPEAL TIMEFRAME PROVIDED ON THE ORIGINAL NOTICE OF ACTION COORESPONDING TO THE DISPUTED ACTION~~~~ten (10) calendar days from the date of the conference decision.~~

\*\*\*\*\*

#### 4.802.61 MANAGEMENT OF STATE-LEVEL HEARINGS

##### A. Scheduling

1. The ~~SNAP FAIR HEARINGS UNIT AT THE COLORADO DEPARTMENT OF HUMAN SERVICES (CDHS) OR THE OFFICE OF ADMINISTRATIVE COURTS (OAC), IF SO DESIGNATED BY CDHS,~~~~Office of Administrative Courts~~ shall arrange the time, date, and place of the state-level ~~FAIR~~ hearing so that the hearing is accessible to the household. At least ten (10) calendar days prior to the hearing, advance written notice shall be provided to all parties involved to permit adequate preparation of the case. The household, however, may request less advanced notice to expedite the scheduling of the hearing. The notice shall:
  - a. Advise the household or its representative of the name, address, and phone number of the person to notify in the event it is not possible for the household to attend the scheduled hearing.
  - b. Specify that the household's hearing request will be dismissed if the household or its representative fails to appear for the hearing without good cause.
  - c. Include a copy of the information outlining ~~CDHS' STATE-LEVEL~~~~the state agency's~~ fair hearing procedures.
  - d. Explain that the household may examine the case file prior to the hearing.
2. Hearing requests for households that plan to move from the area, such as migrant farm workers, shall be processed faster than others, if necessary, to enable them to receive a decision and any appropriate restoration of benefits before they leave the area.
3. The ~~ADMINISTRATIVE ADJUDICATOR~~~~Office of Administrative Courts~~ shall complete the hearing no more than twenty-five (25) calendar days from when the ~~SNAP FAIR HEARINGS UNIT~~~~Office of Administrative Courts~~ received the notice of appeal. The household may request and is entitled to receive a postponement (~~ALSO REFERRED TO~~

~~AS A CONTINUANCE~~) of the scheduled hearing. The postponement shall not exceed 30 days and the time limit for action on the final agency decision may be extended for as many days as the hearing is postponed. A county may not request and is not entitled to receive a postponement.

4. The ~~ADMINISTRATIVE ADJUDICATOR~~~~Administrative Law Judge~~ may respond to a series of individual requests for hearings by conducting a single group hearing ~~RELATED TO SNAP APPEALS~~. The ~~SNAP FAIR HEARINGS UNIT~~~~Office of Administrative Courts~~ may consolidate only ~~SNAP RELATED~~ cases where individual issues of fact are not disputed and where related issues of state and/or federal law, regulation, or policy are the sole issues being raised. In all group hearings, the regulations governing individual hearings shall be followed. Each individual household shall be permitted to present its own case or have its case presented by a representative.

B. Hearings Conducted by Phone

The hearing may be conducted by telephone using conference call techniques ~~OR BY VIDEO CONFERENCE~~ unless one of the parties objects to ~~EITHER OF~~~~this~~ ~~THESE~~ methods. If a hearing is held by telephone using conference call techniques ~~OR BY VIDEO CONFERENCE~~, the rules of procedure (including a recording of the hearing) shall be the same as a face-to-face hearing.

C. Attendance

The hearing shall be attended by a representative of the local office and by the household and/or its representative. The hearing may also be attended by friends or relatives of the household if the household so chooses. The ~~ADMINISTRATIVE ADJUDICATOR~~~~ALJ~~ shall have the authority to limit the number of persons in attendance at the hearing if space limitations exist.

D. ~~Hearing Official~~~~ADMINISTRATIVE ADJUDICATOR~~

~~The Administrative Law Judge (ALJ) is an impartial state-level official who is also the hearing official with the authority to render an initial administrative decision in a hearing.~~ The ~~ADMINISTRATIVE ADJUDICATOR~~~~ALJ~~ shall:

1. Administer all oaths or affirmations as required by the State;
2. Ensure all relevant issues are considered;
3. Request, receive, and make part of the record all evidence determined necessary to decide the issues being raised;
4. Regulate the conduct and course of the hearing consistent with due process to ensure an orderly hearing;
5. Order, where relevant and useful, an independent medical assessment or professional evaluation from a source mutually satisfactory to the household and the local office;
6. Provide a hearing record; and prepare and file an initial hearing decision with the ~~OFFICE OF APPEALS (OOA)~~~~Colorado Department of Human Services~~ which shall serve each party with a copy of the initial decision.

#### 4.802.62 Hearing Denials or Dismissals

- A. ~~The Office of Administrative Courts (OAC)~~CDHS shall not deny or dismiss a request for a hearing unless:
1. The request is not received within the time period specified in Section 4.802.1.
  2. The request is withdrawn in writing by the household or its representative; or,
  3. The household or its representative fails, without good cause, to appear at the scheduled hearing.
- B. The ~~ADMINISTRATIVE ADJUDICATOR~~ shall not enter a default against any party for failure to file a written answer to the notice of hearing; but shall base the initial decision upon the evidence presented at the hearing.
- C. When the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge dismisses an appeal for reasons other than failure to appear, the decision of the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge (~~ALJ~~) shall be an initial decision, which shall not be implemented pending review by the Office of Appeals and entry of an ~~an~~ FINAL agency decision.
- D. When an appellant fails to appear at a duly scheduled hearing, having been given proper notice, and without having given timely advance notice to the ~~ADMINISTRATIVE ADJUDICATOR~~ of acceptable good cause for inability to appear at the hearing at the time, date and place specified in the notice of hearing, then the appeal shall be considered abandoned, and an order of dismissal shall be entered by the ~~ADMINISTRATIVE ADJUDICATOR~~ and served upon the parties by the ~~OFFICE OF APPEALS (OAC)~~OAG. The order of dismissal for failure to appear shall not be implemented pending review by the ~~OOA~~Office of Appeals and entry of a final agency decision.

The appellant, however, shall be afforded a period of ten (10) calendar days from the date the order of dismissal was mailed, during which the appellant may explain in a letter to the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge the reason for his or her failure to appear. If the ~~ADMINISTRATIVE ADJUDICATOR~~ then finds that there was acceptable good cause for the appellant not appearing, the ~~ADMINISTRATIVE ADJUDICATOR~~ shall vacate the order dismissing the appeal and reschedule another hearing date.

If the appellant does not submit a letter seeking to show good cause within a period of ten (10) calendar days, the order of dismissal shall be filed with the ~~OOA~~Office of Appeals of the State Department. The ~~OOA~~Office of Appeals shall confirm the dismissal of the appeal by an agency decision, which shall be served upon the parties and the interested ~~DB~~Division of the State Department. Within three (3) working days after the effective date of the decision, the local office shall implement necessary actions to provide benefits in the correct amount, ~~to~~ terminate benefits, ~~to~~ recover benefits incorrectly paid, and/or other appropriate actions in accordance with the rules.

If the appellant submits a letter seeking to show good cause and the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge finds that the stated facts do not constitute good cause, ~~he/she~~ THE ~~ADMINISTRATIVE ADJUDICATOR~~ shall enter an initial decision confirming the dismissal.

#### 4.802.63 State-Level Hearing Decisions

- A. Decisions of the ~~Administrative ADJUDICATOR~~~~Law Judge (ALJ)~~ shall not run counter to Federal law, State Department rule, or state statute, and shall be based on the hearing record.

The exclusive record for an initial decision by the ~~ADMINISTRATIVE ADJUDICATOR~~~~ALJ~~ shall constitute the verbatim transcript or recording of testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and requests filed in the proceedings. This record shall be retained in accordance with normal retention periods. This record shall also be available to the household or its representative at any reasonable time for copying and inspection.

- B. Following the conclusion of the state hearing, the ~~Administrative ADJUDICATOR~~~~Law Judge (ALJ)~~ shall promptly prepare and issue an initial decision and file it with the ~~OOA~~~~Colorado Department of Human Services, Office of Appeals.~~

C. Initial Decision

1. The ~~ADMINISTRATIVE ADJUDICATOR~~~~Office of Administrative Courts~~ shall render an initial decision within ten (10) calendar days of the hearing date. However, if the head of the household or ~~THE HOUSEHOLD'S~~~~his~~ representative requests a delay in the proceedings, the time limit for action on the decision may be extended for as many days as the hearing is delayed, up to thirty (30) calendar days.
2. The initial decision shall make an initial determination whether the county or ~~THE COLORADO DEPARTMENT OF HUMAN SERVICES (CDHS)~~~~State Department~~ or its agent acted in accordance with, and/or properly interpreted, the rules of the State Department. The ~~Administrative ADJUDICATOR~~~~Law Judge~~ may determine whether statutes were properly interpreted and applied only when no implementing State rules exist. The ~~ADMINISTRATIVE ADJUDICATOR~~~~Administrative Law Judge~~ has no jurisdiction or authority to determine issues of constitutionality or legality of departmental rules.
3. The initial decision shall advise the household that failure to file exceptions to provisions of the initial decision will waive the right to seek judicial review of a final agency decision affirming those provisions.
4. The Office of Appeals shall promptly serve the initial decision upon each party by first class mail and shall transmit a copy of the decision to the ~~D~~~~ivisions~~ of the State Department that administer the program(s) pertinent to the appeal.
5. The initial decision by the ~~ADMINISTRATIVE ADJUDICATOR~~~~ALJ~~ shall summarize the facts of the case, specify the reasons for the initial decision, and identify the supporting evidence and the pertinent rule~~S~~.
6. The Office of Appeals ~~AT CDHS~~~~of the State Department~~, as the designee of the Executive Director, shall review the initial decision of the ~~Administrative ADJUDICATOR~~~~Law Judge~~ and shall enter a final agency decision affirming, modifying, or reversing the initial decision. The Office of Appeals may issue an order of remand upon receipt of the initial decision and identification of an issue that warrants a remand before the initial decision is sent to the parties. Additionally, the Office of Appeals may issue an order of remand at the time of the substantive review of an initial decision for final agency decision. An order of remand is not a final agency decision that is subject to judicial review. The initial decision shall not be implemented pending review by the Office of Appeals and entry of

a final agency decision. While review of the initial decision is pending before the Office of Appeals, the record on review, including any transcript or tape of testimony filed with the Office of Appeals, shall be available for examination by any party at the Office of Appeals during regular business hours.

D. Exceptions to the Initial Decision

1. Any party seeking a final agency decision ~~which~~ THAT reverses, modifies, or remands the initial decision of the ADMINISTRATIVE ADJUDICATOR ~~administrative law judge~~ must file a written notice of intent to file exceptions to the decision with the OOA ~~office of appeals~~ within five (5) calendar days - plus three (3) calendar days for mailing - from the date the initial decision is mailed to the parties. If the party has filed such a notice of intent, the party will have fifteen (15) calendar days, plus three (3) calendar days for mailing from the date the initial decision is mailed to the parties to file its written exceptions with the OOA ~~office of appeals~~. Exceptions shall state specific grounds for reversal, modification, or remand of the initial decision. **EXCEPTIONS THAT FAIL TO STATE SPECIFIC GROUNDS FOR REVERSAL, MODIFICATION, OR REMAND OF THE INITIAL DECISION SHALL BE CONSIDERED AS ONLY ARGUMENTS OF GENERAL DISSATISFACTION.**
2. If ~~ANY~~ the party asserts that the ~~A~~Administrative ADJUDICATOR ~~Law Judge's~~ findings of fact are not supported by the weight of the evidence, the OOA **WILL REQUEST** ~~party shall simultaneously with or prior to the filing of exceptions request~~ the SNAP FAIR HEARINGS UNIT ~~Office of Administrative Courts to cause a transcript of all or a portion of the hearing to be prepared and filed with~~ PROVIDE AN AUDIO RECORDING OF THE HEARING TO the OOA ~~Office of Appeals~~. ~~The exceptions shall state that a transcript has been requested, if applicable. Within five (5) calendar days of the request for transcript, the party requesting it shall advance the cost to the transcriber designated by the Office of Administrative Courts unless the transcriber waives the prior payment. IF THE LOCAL OFFICE ASSERTS THAT THE ADMINISTRATIVE ADJUDICATOR'S FINDINGS OF FACT ARE NOT SUPPORTED BY THE WEIGHT OF THE EVIDENCE, THE LOCAL OFFICE SHALL PROVIDE A HEARING TRANSCRIPT TO THE OOA ON OR BEFORE THE DEADLINE FOR THE FILING OF EXCEPTIONS. IF THE LOCAL OFFICE'S YEARLY BUDGET IS NOT SUFFICIENT TO PAY THE COST OF A HEARING TRANSCRIPT, THE LOCAL OFFICE MAY REQUEST THAT THE OOA REVIEW AN AUDIO RECORDING OF THE HEARING IN LIEU OF A HEARING TRANSCRIPT. SUCH REQUESTS MUST BE MAILED OR EMAILED TO THE OOA AT LEAST FIVE (5) CALENDAR DAYS BEFORE THE DEADLINE FOR THE FILING OF EXCEPTIONS. ADDITIONALLY, THE LETTER MUST INDICATE THE INSUFFICIENCY OF THE LOCAL OFFICE'S BUDGET TO PAY FOR A HEARING TRANSCRIPT AND THE LETTER MUST BE SIGNED BY THE COUNTY DEPARTMENT'S DIRECTOR. THE OOA SHALL ISSUE AN ORDER REGARDING THE REQUEST, AND IF GRANTED, THE OOA SHALL REQUEST THE AUDIO RECORDING FROM THE SNAP FAIR HEARINGS UNIT. IF THE DIVISION(S) OF THE STATE DEPARTMENT RESPONSIBLE FOR ADMINISTERING THE PROGRAM(S) RELEVANT TO THE APPEAL ASSERT(S) THAT THE ADMINISTRATIVE ADJUDICATOR'S FINDINGS OF FACT ARE NOT SUPPORTED BY THE WEIGHT OF THE EVIDENCE, IT SHALL SIMULTANEOUSLY WITH, OR PRIOR TO THE FILING OF EXCEPTIONS, FILE A HEARING TRANSCRIPT WITH THE OOA ON OR BEFORE THE DEADLINE FOR FILING EXCEPTIONS.~~

~~A party who is unable because of indigence to pay the cost of a transcript may file a written request, which need not be sworn, with the Office of Appeals for permission to submit a copy of the hearing tape instead of the transcript. If submission of a tape is~~

~~permitted, the party filing exceptions shall promptly request a copy of the tape from the Office of Administrative Courts, if the hearing was held at or by the Office of Administrative Courts, or from the department, if the hearing was held at or by the department, and deliver it to the Office of Appeals. Payment in advance shall be required for the preparation of a copy of the tape.~~

3. CONSIDERING THE FEDERAL TIMELINESS REQUIREMENTS FOR SNAP CASES, A PARTY MAY NOT REQUEST AN EXTENSION OF TIME TO FILE EXCEPTIONS UNLESS A PARTY IS ABLE TO SHOW SUFFICIENT GOOD CAUSE AS TO WHY AN EXTENSION OF TIME SHOULD BE GRANTED. THE DETERMINATION OF GOOD CAUSE IS WITHIN THE SOLE DISCRETION OF THE OOA. WHEN AN EXTENSION OF TIME IS GRANTED BY THE OOA, THE EXTENSION SHALL NOT BE FOR MORE THAN FIVE (5) CALENDAR DAYS AFTER THE ORIGINAL EXCEPTIONS FILING DEADLINE. LOCAL OFFICES OR THE STATE DEPARTMENT WILL NEED TO IMMEDIATELY REVIEW INITIAL DECISIONS TO ASSESS ANY NEED TO REQUEST AN AUDIO RECORDING FROM THE SNAP FAIR HEARINGS UNIT TO RECEIVE THE AUDIO RECORDING AND EXPEDITE THE TRANSCRIPTION OF THE AUDIO RECORDING THROUGH WHATEVER TRANSCRIPTION SERVICE IT CHOOSES. ANY PARTY REQUESTING TRANSCRIPTION SERVICES SHALL BE FULLY RESPONSIBLE FOR THE COST OF SUCH.
43. If the exceptions do not challenge the findings of fact, but instead assert only that the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge improperly interpreted or applied ~~SS~~State rules or relevant statutes, **NO TRANSCRIPT REVIEW OR AUDIO RECORDING REVIEW IS REQUIRED** ~~the party filing exceptions is not required to provide a transcript or tape to the Office of Appeals.~~
54. The ~~OOA~~Office of Appeals shall serve a copy of the exceptions on each party by first class mail and by electronic mail if the party has consented to receiving communications by electronic mail. Each party shall be limited to ten (10) calendar days from the date exceptions are mailed to the parties in which to file a written response to such exceptions. The ~~OOA~~Office of Appeals shall not permit oral argument.
65. The ~~OOA~~Office of Appeals shall not consider evidence that was not part of the record before the ~~ADMINISTRATIVE ADJUDICATOR~~Administrative Law Judge. However, the case may be remanded to the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge for rehearing if a party establishes in its exceptions that material evidence has been discovered ~~which~~THAT the party could not with reasonable diligence have produced at the hearing.
76. The ~~DB~~Division(s) of the State Department responsible for administering the program(s) relevant to the appeal may file exceptions to the initial decision, or respond to exceptions filed by a party, even though the Division has not previously appeared as a party to the appeal. The Division's exceptions shall be filed in compliance with the requirements of section 4.802.63, D, 1 **AND 2**, above. Exceptions filed by a Division that did not appear as a party at the hearing shall be treated as requesting **A** review of the initial decision upon the State Department's own motion.

E. Final Agency Decisions

1. The ~~OOA~~Office of Appeals shall enter a final agency decision resolving the appeal within sixty (60) calendar days after the **REQUEST FOR APPEAL WAS RECEIVED BY THE SNAP FAIR HEARINGS UNIT** ~~hearing was requested.~~

2. In the absence of exceptions filed by any party or by a Division of the State Department, ~~OR WHEN EXCEPTIONS ARE FILED~~, the ~~OOAOffice-of-Appeals~~ shall review the initial decision and may review the hearing file of the ~~AA~~Administrative ~~ADJUDICATOR~~Law Judge and/or the taped testimony of witnesses before entering a final agency decision. Review by the ~~OOAOffice-of-Appeals~~ shall determine whether the INITIAL decision properly interprets and applies the rules of the State Department or relevant statutes and whether the findings of fact and conclusions of law support the decision. If a party or Division of the State Department objects to the final agency decision entered upon review by the ~~OOAOffice-of-Appeals~~, the party or Division may seek reconsideration.
3. The ~~OOAOffice-of-Appeals~~ shall mail copies of the final agency decision to all parties by first class mail.
4. For purposes of requesting judicial review, the effective date of the final agency decision shall be the third (3rd) day after the date the decision is mailed to the parties, even if the third day falls on Saturday, Sunday, or a legal holiday. The parties shall be advised of this in the FINAL agency decision.

F. Motion for Reconsideration of a Final Agency Decision

1. A motion for reconsideration of a final agency decision may be granted by the ~~OOAOffice-of-Appeals~~ for the following reasons:
  - a. Upon a showing of good cause for failure to file exceptions to the initial decision within the fifteen (15) calendar day period; or,
  - b. Upon a showing that the final agency decision is based upon a clear or plain error of fact or law. An error of law means failure by the ~~OOAOffice-of-Appeals~~ to follow a rule, statute, or court decision that controls the outcome of the appeal.
2. No motion for reconsideration shall be granted unless it is filed in writing with the ~~OOAOffice-of-Appeals~~ within fifteen (15) calendar days of the date that the final agency decision is mailed to the parties. The motion shall state specific grounds for reconsideration of the agency decision.
3. The ~~OOAOffice-of-Appeals~~ shall mail a copy of the motion for reconsideration to each party of record and to the appropriate Division of the State Department.

G. Acting on Decisions

1. Initial decisions shall not be implemented pending review by the ~~OOAOffice-of-Appeals~~ and entry of a final agency decision.
2. The ~~S~~state ~~D~~epartment or local office shall initiate action to comply with the final agency decision within three (3) working days after the effective date. The acting department/office shall comply with the decision, even if reconsideration is requested, unless the effective date of the agency decision is postponed by order of the ~~OOAOffice-of-Appeals~~ or a reviewing court.
3. If it is ruled that the household had its SNAP benefits wrongfully delayed, denied, or terminated, the local office shall provide retroactive benefits. If it is decided that

benefits were over-issued before and during the pendency of the determination of final agency action, a claim for over-issued benefits will be prepared.

4. Final agency decisions which result in an increase in household benefits shall be reflected in the benefit allotment within ten (10) days of the receipt of the decision, even if the local office is obligated to provide a supplementary allotment or otherwise provide the household with the opportunity to obtain the allotment outside of the normal cycle. However, the local office may take longer than ten (10) days if it elects to make the decision effective in the household's normal issuance cycle, provided that the issuance will occur within sixty (60) days from the household's request for the hearing.
5. Final agency decisions which result in a decrease in household benefits shall be reflected in the next scheduled issuance following receipt of the decision unless the decision is stayed by the ~~OOA~~Office of Appeals upon a showing of irreparable harm.

\*\*\*\*\*

#### **4.803.43 Notifying a Household of an IPV Administrative Disqualification Hearing [Rev. eff. 1/1/16]**

- A. The ~~ADMINISTRATIVE ADJUDICATOR~~Administrative Law Judge or local level hearing officer shall provide written notice to the household member suspected of intentional program violation at least thirty (30) calendar days in advance of the date an administrative disqualification hearing initiated by the local office has been scheduled.

## COLORADO

### Water Quality Control Commission

Department of Public Health & Environment

#### NOTICE OF PUBLIC ADMINISTRATIVE ACTION HEARING BEFORE THE COLORADO WATER QUALITY CONTROL COMMISSION

##### SUBJECT:

At the date, time and location listed below, the Water Quality Control Commission will hold a public Administrative Action Hearing to consider approval of the 2022 update to the water quality management plan (section 208 plan) for the North Front Range Water Quality Planning Association. The proposed plan is available at the following link.

<https://nfrwqpa.colorado.gov/208-areawide-water-quality-management-plan>

##### SCHEDULE OF IMPORTANT DATES:

Written comments due	November 16, 2022	Additional submittal information below
<b>Public Administrative Action Hearing</b>	<b>December 12, 2022 9:00 a.m.</b>	Remote <a href="#">Via Zoom</a>  Or  <b>Florence Sabin Conference Room Department of Public Health and Environment 4300 Cherry Creek Drive South Denver, CO 80246</b>

##### PROCEDURAL MATTERS:

The commission encourages input from interested persons, either in writing prior to the hearing or orally at the hearing. Interested persons should provide their opinions or recommendations regarding the proposed plan.

The commission will receive all written submittals electronically. Submittals must be provided as PDF documents and may be emailed to [cdphe.wqcc@state.co.us](mailto:cdphe.wqcc@state.co.us), provided via an FTP site, or otherwise conveyed to the commission office so as to be received no later than the due date. Written comments will be available to the public on the commission's web site.

##### AUTHORITY FOR PUBLIC HEARING:

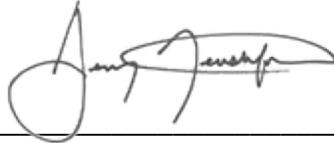

The provisions of 25-8-202(1)(g),(h), (i), (o) and (2) C.R.S. and Section 21.5 B of the "Procedural Rules", Regulation #21 (5 CCR 1002-21) provide the authority for this hearing.

PARTY STATUS:

This is not a rulemaking hearing; therefore, party status provisions of 25-8-101 et. seq., and 24-4-101 et. seq., C.R.S. do not apply. Party status requests shall not be considered by the commission.

Dated this 23<sup>th</sup> day of September 2022 at Denver, Colorado.

WATER QUALITY CONTROL COMMISSION

A handwritten signature in black ink, appearing to read 'Jeremy Neustifter', is written over a horizontal line.

Jeremy Neustifter, Administrator

## **PUBLIC NOTICE**

**October 10, 2022**

### **Pharmacy Alternative Payment Model Supporting Uptake of the Prescriber Tool (Updated from Public Notice Published January 10, 2022)**

The Department of Health Care Policy and Financing (Department) intends to submit a State Plan Amendment to the Centers for Medicare and Medicaid Services (CMS) to establish an alternative payment model to incentivize use of the Department's Prescriber Tool, effective July 1, 2023. This tool was launched on June 1, 2021 and is intended to facilitate easier, more reliable prescribing practices and to reduce the prescribing of non-benefit compliant drugs when not determined by a member's physician to be medically necessary. This tool will aid in the reduction of rejected claims for medications, reducing the administrative burden on providers as well as reducing the burden on members from having delays in accessing medications. Members will not experience any changes to their benefits or enrollment as a result of this program.

The annual aggregate decrease in pharmacy expenditures (including state funds and federal funds) is \$0 in FFY 2022 and \$150,841 in FFY 2023.

### **General Information**

A link to this notice will be posted on the [Department's website](#) starting on October 10, 2022. Written comments may be addressed to:

Director, Health Programs Office  
Colorado Department of Health Care Policy and Financing  
1570 Grant Street  
Denver, CO 80203

### **County Contact Information**

Copies of the proposed changes are available for public review at the following county locations:
