F. Special Licenses for Nuisance Turkeys

1. The Director shall have the authority to establish special hunting seasons for turkeys, between December 1 and March 31 on an annual basis, when necessary to control nuisance turkeys. The Area Wildlife Manager will determine the type of license(s) (either-sex or hen only) most appropriate to control the conflict.
 - a. Nuisance turkey hunts are limited to a maximum of 50 licenses per landowner, per year.
 1. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants

shall submit the completed application form with payment to the Division office indicated on the application. Nuisance turkey licenses shall be sold at the fall season license price.

- b. Prior to approving the hunt, the Division shall:
 - 1. Verify that conflicts are occurring.
 - 2. Designate what area shall be open to hunting.
 - 3. Determine the manner of hunting that will be permitted.
 - 4. Determine the number of hunters allowed to hunt in each designated area.
- c. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such conflict is occurring.
- d. Hunters shall hunt in designated areas and on the dates indicated on the license.
 - 1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
- e. Any person who purchases a license for a nuisance turkey season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

#322.5 - RANCHING FOR WILDLIFE – TURKEY

A. Implementation Authority

- 1. The Director is authorized to implement the Ranching for Wildlife program, including the authority to determine ranch enrollment status, enter into cooperative agreements with ranches, establish and modify public and private season dates on each ranch, and establish and modify license allocations to each ranch including the subsequent distribution of licenses to the public and private share annually, and may establish additional Ranching for Wildlife operating guidelines subject to the following provisions.

B. Ranch Entry and Maintenance

- 1. Ranches must have a minimum of 10,000 acres of privately owned land in one contiguous unit. Ranches that meet this 10,000-acre minimum requirement may include privately owned non-contiguous parcels in the program if the Director determines that their inclusion will contribute to meeting the performance standards for the ranch.
- 2. Ranches must develop a Ranching for Wildlife Management Plan that includes goals, objectives, and strategies for achieving such goals and objectives for wildlife habitat management, species management, and public hunting management. The Management Plan must be approved by the Division prior to execution of a Cooperative Agreement for Ranching for Wildlife.

3. Ranches may not charge public hunters an access fee for hunting.
 4. Except as agreed to in writing by the Division when necessary to meet the ranch performance standards or as mutually agreed and contained in the Management Plan, ranches must provide for equality of access in terms of geographical area and mode of transportation for both public and private hunters. No closure or restriction of land or roads shall apply to public hunters that do not also apply to private hunters.
 5. Public hunts must be established at a time when the species to be hunted are present and available for harvest. No public seasons shall be established during times when normal winter conditions would prevent access to most of the ranch, nor when normal migration patterns of the species to be hunted result in the species having migrated off the ranch.
 6. Ranches that establish coinciding or overlapping public and private hunts may not exclude public hunters from any portion of the ranch due to the presence of private hunters.
 7. The ranch and the Division will mutually agree to ranch rules regarding access to and hunting on the ranch by public hunters. The ranch rules will be provided to hunters prior to seasons on the ranch in accordance with other provisions contained in this regulation.
- C. Cooperative Agreements, Enrollment, Denial of Enrollment, Termination of Enrollment
1. The Division is authorized to enter into Cooperative Agreements with ranches.
 2. Ranches may appeal enrollment decisions to the Parks and Wildlife Commission.
 3. Cooperative Agreements shall incorporate approved Ranching for Wildlife Management Plans as part of the Cooperative Agreement.
 4. The Division shall periodically evaluate ranches for enrollment and contract performance, and shall establish minimum performance standards for ranches enrolled in the program, including wildlife habitat management and improvement, public recreation opportunity and experience, and any factors intended to contribute to meeting turkey management objectives. Such performance standards shall be incorporated into the Cooperative Agreement with the ranch.
- D. Turkey Season Structures
1. Public and private spring season opening and closing date parameters.
 - a. Private seasons may not begin before April 1, nor extend beyond June 1.
 - b. Public seasons may only be established within the opening and closing dates of the regularly established spring season.
 - c. Public hunting seasons shall be a minimum of ten (10) consecutive days.
 2. Public and private fall season opening and closing date parameters.
 - a. Public and private seasons may not begin before September 1, nor extend beyond November 1.
 - b. Public hunting seasons shall be a minimum of ten (10) consecutive days.
 3. Manner of Take
 - a. The manner of take for spring or fall RFW turkey seasons shall be the same as that for regularly established spring or fall seasons.
- E. License Allocation

1. A maximum of 100 bearded turkey licenses in the spring season and 100 either-sex turkey licenses in the fall season may be allocated to each ranch annually, and subsequently distributed to the public and private share according to paragraph b of this regulation.
2. The public shall receive a minimum of forty percent (40%) of the total number of licenses allocated for each turkey season on each ranch.
3. License allocation for each ranch shall be approved by the Division and recommended to the Director, based upon harvest objectives for the ranch jointly determined by the Division and the ranch, hunter crowding, enhancement of hunter harvest, and relative densities of the species on the ranch.
4. Substitution of licenses of one species or sex for licenses of another species or sex shall not be permitted.
5. Landowner preference shall not be used for any public or private Ranching for Wildlife license.

F. Youth Licenses

1. The Division and the ranch may formulate and implement youth hunting opportunities on any ranch through Division approved youth hunting programs. The Division must approve the youth hunting program on the ranch prior to any season or license allocation for such youth hunts.
2. A maximum of 15% of the total number of turkey licenses allocated for a ranch may be allocated as youth hunting licenses on each ranch, over and above the total number of licenses allocated for a ranch.
3. Youth hunting seasons may occur at any time within the broad parameters for seasons within the Ranching for Wildlife program.
4. Youth licenses shall be distributed to individual youth hunters by mechanisms of the approved youth hunting program on the ranch. Youth licenses shall not count as either private or public licenses for purposes of calculating the relative share of other licenses allocated for the ranch.

G. License Distribution

1. Applications
 - a. Applications for private hunter licenses stamped with the ranch name and season dates shall be available to the landowner for distribution.
 - b. Public hunter licenses shall be available through application and selection from the Division during the annual limited license drawing process, except as provided in this regulation.

H. Special Restrictions

1. Unless otherwise provided in these Ranching for Wildlife regulations all hunters must comply with other applicable regulations, including, but not limited to, manner of take (except that private hunters may use any legal weapon during private seasons), hunting hours, application requirements and deadlines, bag limits, season participation, mandatory checks, OHV restrictions, and other generally applicable regulations for big game hunting.

2. A copy of the mutually agreed upon ranch rules will be provided to all public hunters prior to their hunting season. All public hunters will be required to sign a statement acknowledging that they have read, understand, and agree to comply with all ranch rules, before the hunter is allowed access to the ranch.
 - a. Compliance with ranch rules is a specific condition of the Ranching for Wildlife public licenses and subsequent access to the ranch. In addition to criminal penalties, non-compliance with ranch rules constitutes grounds for suspension and revocation of the license and/or being prohibited from further participation in hunting on the ranch, and/or in the Ranching for Wildlife program as a public hunter.
 - b. Final determination on any legal action taken towards hunters found in non-compliance with ranch rules shall be made solely by officers of the Division. This includes any citation that may be issued for non-compliance with the provisions of a license, or directing a hunter to leave a ranch. Ranch personnel may not direct a hunter to leave a ranch without specific authorization of a Division officer.

Basis and Purpose:

Turkey regulations have been modified to update harvest limit quota numbers and season dates for 2021. Turkey harvest limit quotas and seasons are established to maintain healthy populations while at the same time providing recreational opportunity. Ongoing population analysis and management necessitates or makes possible reductions in turkey harvest in some Game Management Units and additional turkey hunting opportunity in others. These regulations have been modified to promote healthy turkey populations and provide for proper turkey management and recreational opportunity in accordance with the best available science.

Splitting the regular turkey license on the Beaver Creek State Wildlife Area and Table Mountain State Trust Land into two seasons and creating a youth-only turkey license for this area

The hunt code TM059O1R (valid in the Beaver Creek State Wildlife Area (SWA) and Table Mountain State Trust Lands (STL) portions of GMU 59) provides a quality spring turkey hunt, and while success is generally high, turkey hunting occurs in a relatively small geographic area and hunter crowding can be problematic. To address this issue, the regular spring turkey season has been split into two hunting seasons: the first one would start the second Saturday in April and would run for 21 days (including three weekends) and the second season would run from the first Saturday in May through May 31 annually. Additionally, a youth-only turkey hunting opportunity, valid the entire length of the turkey season (second Saturday in April through May 31 annually) has been created to increase opportunity for youth hunters. All of these licenses are valid only on the Beaver Creek SWA and Table Mountain STL portions of GMU 59.

Discounting the nonresident furbearer license, the resident senior combination fishing and small game hunting license, and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI). While most resident and nonresident wildlife license fees may now be adjusted based on CPI, discounts have also been retained for certain licenses, including the nonresident furbearer license, in order keep the fee equitable with similar license types, such as the small game license. Discounts have also been retained for the recently created resident senior combination fishing and small game hunting license and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license. However, all of these licenses prices have increased in accordance with the CPI.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us. The statements of basis and purpose are not available at the Division of Parks and Wildlife headquarters due to the closure of these facilities to the public in light of the COVID-19 pandemic.

The primary statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Wildlife Act, §§ 33-1-101 to 33-6-209, C.R.S., specifically including, but not limited to: §§ 33-1-106, C.R.S.

EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE JANUARY 1, 2021 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.

APPROVED AND ADOPTED BY THE PARKS AND WILDLIFE COMMISSION OF THE STATE OF COLORADO THIS 19TH DAY OF NOVEMBER, 2020.
