		TOTAL	Unlimited

#240 - VACANT

#241 - SPECIAL RESTRICTIONS

- A. No person shall hunt, take or harass a bear in its den.
- B. No cubs shall be killed nor shall any black bear accompanied by one (1) or more cubs be killed. As used herein a "cub" shall mean any black bear less than one (1) year of age.
- C. Inspection and Seal Required.
 - 1. Black bear taken by licensed hunters shall be personally presented to the Division or other official designated by the Division for inspection and sealing within 5 working days after the taking thereof. Bear heads and hides must be unfrozen when presented for inspection. If not unfrozen, the Division may retain heads and hides as necessary for thawing sufficient to extract a premolar tooth. No fee shall be required for the inspection and issuance of a legal possession seal, which shall remain attached to the hide until such hide is tanned.
 - 2. Black bears shall not be transported, shipped or otherwise taken out of Colorado until the hide and skull are inspected and sealed by authorized personnel of the Division. Possession of any bear hide not having a seal attached within the 5 working days shall be unlawful and such hide shall become the property of the State.
 - 3. Inspection and sealing shall be arranged by contacting the Division Officer or the Division office.
 - 4. A mandatory check report shall be completed at the time of inspection.
 - 5. At the time of the mandatory check, the Division shall be authorized to extract and retain a premolar tooth.
- D. Individuals taking black bear under authority of §33-3-106(3) shall report the bear within five (5) days after the taking thereof as required by said statute and the carcass, hide and other parts of the bear shall remain the property of the state.

#251-#253 - VACANT

ARTICLE IX - ELK

#254 - ANTLER POINT RESTRICTIONS BY UNIT - ELK

- A. All antlered elk taken in the following game management units during any established season, including archery, muzzle-loading rifle or rifle seasons, shall have four (4) or more points or a brow tine on one antler: GMU's 3, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 18, 19, 21, 22, 23, 24, 25, 26, 27, 28, 30, 31, 32, 33, 34, 35, 36, 37, 38, 41, 42, 43, 44, 45, 47, 52, 53, 54, 55, 59, 60, 62, 63, 64, 65, 66, 67, 68, 70, 71, 72, 73, 74, 75, 77, 78, 79 (except as referenced in 254.D), 80, 81, 82 (except as referenced in 254.D), 83, 85, 86, 131, 140, 161, 171, 181, 191, 211, 214, 231, 301, 361, 371, 411, 421, 441, 444, 471, 511, 521, 551, 581, 591, 681, 691, 711, 741, 751, 771, 851, and 861.
- B. There are no antler point restrictions for elk taken during any established season, including archery, muzzle-loading rifle or rifle seasons, in the following game management units: 1, 2, 10, 20, 29, 39, 40, 46, 48, 49, 50, 51, 56, 57, 58, 61, 69, 76, 84, 201, 391, 461, 481, 500, 501, 561, 591, 682, 791, or in any unit east of I-25 except 140.
- C. There are no antler point restrictions for elk on Wildlife Ranching properties during Wildlife Ranching seasons.
- D. There are no antler point restrictions for elk licenses issued for the following hunt codes: EF682P5R, EM682P5R, EM682P6R.

#257.5 - SPECIAL RESTRICTIONS

A. Unit 512 - Air Force Academy

Hunters must apply in person, no later than May 31 annually to participate in a random drawing to be placed on a priority list of hunters. Applications along with a non-refundable application fee not to exceed \$10.00 will be accepted at the Academy's Outdoor Recreation Center, Building 5136 - Community Center Drive, AFA, Colorado Springs.

The first 15 hunters drawn will be placed on the list and will be notified of their placement by June 15 annually. When elk are available to be hunted, up to 4 hunters will be called. After obtaining a license, paying a fee not to exceed \$30.00 to the Academy and receiving a safety briefing, hunters will be escorted on the hunt. Hunters may decline one opportunity to hunt and hold their place on the list. Hunts will continue when possible until (30) antlerless elk have been taken.

B. Units 79 (south of Colo 112), 82, 682 and 791 – San Luis Valley Damage Elk Hunts

1. The purpose of these hunts is to provide flexibility in managing damage by elk and maintain landowners' rights to determine who may enter their property. Most license vouchers may be issued to friends and family of the landowner. Opportunities for non-associated public hunters may exist and will be selected from a list of interested hunters.
 2. License vouchers may be transferred one time only, and shall only be transferred by the landowner to the hunter that will use the voucher to purchase the license. Third-party brokering of landowner vouchers is not permitted. Violation of this subsection shall invalidate the applicable landowner voucher and any license purchased with it.
 3. Public hunters must apply no later than July 15 annually, to participate in a random drawing to be placed on a priority list of hunters. Applications will be accepted at the Monte Vista Service Center at 0722 S Rd. 1 E, Monte Vista.
 4. Hunters drawn will be placed on the list and the top 10 hunters on the list will be notified of their placement no later than August 15 annually. When elk are available to be hunted, up to 4 hunters will be called. Hunters may decline one opportunity to hunt and hold their place on the list. Hunts will be conducted on an as-needed basis to alleviate game damage.
- C. Units 80, 82, and 83 – San Luis Valley US Fish and Wildlife Refuge Permits
1. Starting in 2016, the United States Fish and Wildlife Service (USFWS) will allow a limited number of elk hunters access to hunt on the Alamosa, Baca, and Monte Vista National Wildlife Refuges. To be eligible for an access permit, hunters must hold one of the following elk licenses in either GMU 80, 82, or 83:
 - a. Either-sex archery;
 - b. Antlered muzzleloader;
 - c. Antlered or either-sex first rifle;
 - d. Antlered or either-sex fourth rifle;
 - e. Any limited antlerless license.
 2. To be entered into the drawing, eligible hunters must email the following address starting the day after left-over license day: montevista.wildlife@state.co.us. Emailed entries will only be accepted for five days after left-over license day. Permits for these three refuges will then be issued at the Monte Vista Service Center via a random drawing on August 15, 2018, held under the direct supervision of the area wildlife manager.

ARTICLE X - PRONGHORN

#261 - ARCHERY PRONGHORN SEASONS ONLY LAWFUL HAND HELD BOWS MAY BE USED TO HUNT OR TAKE PRONGHORN DURING THE FOLLOWING SEASONS:

*Licenses associated with this hunt code are guaranteed to hunters in 2021 due to natural disaster relief (see table #270.B for license numbers)									

B. Guaranteed Licenses, Antlerless Archery, Muzzle-loading firearms (rifle and smoothbore musket), and Rifle Season Dates, Units and Limited Licenses. Allocation of these licenses will float between the moose seasons in accordance with the hunt code chosen by successful applicants. Returned licenses for these hunt codes will be manually reissued to applicants from the 2020 limited license drawing of the original hunt code after the draw occurs.

*Licenses associated with this hunt code are guaranteed to hunters in 2021 due to natural disaster relief (see table #270.D for license numbers)

D. Guaranteed Licenses, Season-Choice Antlered and Either-Sex Moose Seasons, Dates, Units (as described in Chapter 0 of these regulations). Licenses are valid during Archery, Muzzleloader, and Rifle seasons until filled. License holders must comply with all applicable season restrictions, including but not limited to, applicable season dates and manner of take restrictions. Returned licenses for these hunt codes will be manually reissued to applicants from the 2020 limited license drawing of the original hunt code after the draw occurs.

E. Special Restrictions

1. All moose licensees shall complete and return a harvest questionnaire provided by the Division within 30 days after the close of their hunting season. Any moose licensee who does not complete and return the mandatory questionnaire as required shall not be considered for any future moose license.
2. All moose harvested through hunting shall be submitted for inspection to an employee of the Division on or before the 5th working day after the taking thereof. Any licensee who takes an antlered moose shall personally present the head, with antlers attached, to any Division office. Any licensee who takes an antlerless moose shall personally present a front incisor tooth or the entire head to any Division office. Moose heads must be unfrozen when presented for inspection. If not unfrozen, the Division may retain heads as necessary for thawing sufficient to extract the incisor teeth. A mandatory check report shall be completed at the time of inspection.
3. At the time of the mandatory check, the Division shall be authorized to extract and retain the incisor teeth.

Special Seasons

ARTICLE XII - SPECIAL HUNTING SEASONS/LICENSES FOR BIG GAME

#271 - BIG GAME ANIMALS CAUSING DAMAGE AND BIG GAME POPULATIONS OVER OBJECTIVE

A. Special Population Management Seasons for Big Game Ungulates

1. The Director shall have the authority to establish special management seasons for antlerless or female big game ungulates in specific game management units or portions thereof which significantly exceed the population objective, when the anticipated harvest from the current year's archery, muzzle-loading and regular rifle seasons did not occur. Provided further that the Director shall have the authority to establish these hunts between November 16 and February 28, to specify a time period for each of these hunts but not to exceed ten days each, and shall authorize hunters to use designated unfilled big game licenses for these hunts and units.
2. The Director shall have the authority to allocate antlerless deer and/or elk licenses on existing Ranching for Wildlife properties located in game management units where deer or elk populations significantly exceed the population objective. These licenses shall be in addition to the number of licenses allocated to each ranch pursuant to the Cooperative Agreement established in #210(A)(2). The additional allocation and use of the antlerless licenses provided for in this section shall be in the same proportion, by species (not sex), as established in the ranch's respective Cooperative Agreement and subject to the following provisions:
 - a. No ranch shall be required to accept any additional antlerless licenses.
 - b. The public allocation of such additional antlerless licenses shall only be offered to hunters who have successfully drawn antlered, either-sex or antlerless licenses for the same species on the ranch. Public hunters who choose to purchase one

additional antlerless license from the Division shall be required to use the additional license during the season established for the license for which they drew. No more than one additional antlerless license will be available to any public hunter.

B. Special Game Damage Seasons for Big Game Ungulates

1. The Director shall have the authority to establish special hunting seasons for big game ungulates, between August 15 and February 28, when necessary to control damage to property. Seasons shall be for the taking of antlerless or female animals unless the Director has determined that the taking of antlered animals is necessary in order to alleviate the damage.
 - a. Game damage hunts are limited to a maximum of 50 licenses per species per Game Management Unit or 30 percent of the antlerless, either-sex, or doe licenses issued for the DAU (whichever is greater), unless a distribution management plan establishing a different percentage has been approved by the Parks and Wildlife Commission or additional permits are approved by the Director or his designee.
 - b. On private lands and Russell Lakes, Rio Grande and Higel State Wildlife Areas, the Area Wildlife Manager (AWM) is authorized to conduct these seasons based upon the following criteria:
 1. The AWM finds that such a season would be consistent with the distribution management plan approved by the Parks and Wildlife Commission.
 2. When there is no approved distribution management plan, the AWM finds that a season will reduce or eliminate damage for which the Division is liable, and that holding a season would be desirable considering
 - a. The species and number of animals involved.
 - b. The number of animals that would have to be removed to reduce or eliminate damage.
 - c. The location of the damage problem.
 - d. The type and extent of damage.
 - e. The time of year and its relationship to the life history of the animals.
 - f. The length of time such damage will continue without big game removal.
 - g. Management closures, hunting seasons and other public use.
 - h. The effect on population objectives for the GMU and DAU.

- i. Whether landowner operations (e.g., harvesting) or critical wildlife biological activities (e.g., fawning) would be interrupted.
 - j. Safety risks.
 - k. Any other pertinent factors.
- 3. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application.
- 4. In the event the landowner cannot secure enough people to effect an adequate harvest the Division can assist in locating individuals.
- c. The Division shall
 - 1. Verify that damage or conflicts are occurring or can reasonably be anticipated to occur.
 - 2. Designate what area shall be open to hunting.
 - 3. Determine the manner of hunting that will be permitted.
 - 4. Determine the number of hunters allowed to hunt in each designated area.
- d. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such damage is occurring.
- e. Hunters shall hunt in designated areas and on the dates indicated on the license.
 - 1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
- f. Any person who purchases a license for a game damage season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

C. Special Game Damage Licenses for Bear and Mountain Lion

- 1. The Director shall have the authority to establish special hunting licenses for mountain lion and bear, which allow for take in excess of the otherwise applicable limited license numbers or quotas, when necessary to control damage to private property.

- a. AWMs are authorized to issue these bear and mountain lion licenses to address specific animals determined after an investigation to be causing damage to private property.
 - 1. Bear or mountain lion licenses above the established limited license numbers or quota for the area may be issued only where necessary to take specific animals determined after an investigation to be causing damage to private property.
 - 2. Bear hunting authorized under this provision will be conducted between September 2 and the end of the fourth regular rifle season annually.
 - 3. Mountain lion hunting authorized under this provision will be conducted during established lion seasons.
 - 4. Licenses will be issued only if licenses are not otherwise available for purchase under standard license distribution methods or where mountain lion quotas have been reached in the area.
 - 5. License will be restricted by manner of take, period of time within the dates specified above, and location within the GMU(s) or DAU(s) in question as necessary to ensure the offending animal is appropriately targeted.
 - 6. Hunting will be conducted under the direction of a District Wildlife Manager.
- b. Any person who purchases a license shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the end of the hunting period authorized by the license.
- c. Bear and mountain lion taken pursuant to a license issued under this provision shall not be counted against the annual bag and possession limit for the species in question.

D. Special Hunting Season In Game Management Unit 20 For Cow Elk Normally Not Available For Harvest During Regular Or Late Big Game Seasons:

- 1. Season dates, license types, permit numbers will be established by the Director or his designee.
- 2. The Division will designate the area open to hunting, manner of take, and season dates which are necessary to achieve its population management objective for this population of elk. Hunting shall occur only during the designated time periods indicated on the hunter's license and only in those areas specifically designated on the map provided by the Division. Special Unit 20 cow elk hunts shall be established based on the following criteria: (a) the hunt does not fall within the criteria established for game damage hunts; (b) snow ground cover and/or other conditions favor are expected to favor successful hunting; (c) elk must be available to hunters in portions of Unit 20 which are open to hunter access; and (d) no special season will be created under this regulation which would extend beyond February 15th.

3. Eligible hunters will be selected in the following priority: a) from the list of hunters who applied for a Unit 20 limited elk license and were unsuccessful; and b) from a new list of hunters established by the Division Northeast Regional office pursuant to notice in local newspapers. Such list will be established on a first-come, first-served basis.
4. Individuals who participate in this special hunt may also participate in any other season for elk if otherwise eligible to do so.

E. Special Hunting Licenses and Seasons For Deer and Elk in Urbanized Areas:

1. The Division Director (or designee) shall have the authority to establish special deer and elk hunting seasons between August 15 and February 28 annually to achieve population management objectives as specified in Division approved county or municipal management plans. Seasons shall be for the taking of antlerless animals unless the Director determines that the taking of antlered animals is necessary per the issues and goals brought forth in the Division approved management plan.
2. Counties or municipalities must submit a proposed management plan to the Division, which includes the following:
 - a. Explanation of the need and scope of the issues (i.e. habitat degradation, human conflicts, human health and safety issues, etc);
 - b. Estimated population of deer or elk creating the issue and a target population number being sought post removal;
 - c. Season dates;
 - d. Manner of take;
 - e. Numbers of licenses and projected harvest;
 - f. Geographic location and description of hunting area(s); and
 - g. Method for selecting eligible hunters.
3. Management plans will be evaluated on the merits of furthering goals for suburban deer or elk management and in relation to the appropriate Division Big Game Herd (DAU) Management Plan. The Director (or designee) shall provide the county or municipality with special application forms for distribution to individuals as specified within the submitted and approved management plan. Participants shall submit the completed application to the Division to obtain the appropriate hunting license.
4. The participating county or municipality will assume full responsibility for the plans and elements therein. The Division will be available to provide technical assistance to the county or municipality in preparing the management plan.
5. The county or municipality may not charge hunters a fee beyond what is required to cover their administrative costs to run the program.
6. All participating counties, municipalities and individuals are required to follow all applicable state statutes and regulations. No county or municipality will allow, encourage, or otherwise promote violations thereof.
7. The Division can unilaterally, without prior notification, terminate or void any applications given to a county or municipality prior to their redemption for a license for issues related to human health, safety, or any wildlife related violations associated with the management plan

implementation, or documented deviation from the management plan as it was submitted to the Division. Management plans may be amended with Division approval.

8. Individuals who participate in these special hunts may also participate in any other season for deer or elk if otherwise eligible to do so.
9. Any county or municipality receiving licenses for a special hunting season for deer and elk in urbanized areas shall be required to complete a Division harvest survey form and return it to the Area office that is nearest to the location of the hunt no later than 5 days after the season ends.

#272 BIG GAME DISEASE/ANIMAL HEALTH SEASONS

1. Special Hunting Seasons for Disease Management in Big Game
 - a. The Director shall have the authority to establish special hunting seasons for big game, when hunting harvest has not been adequate to reduce the incidence of disease, to reduce emigration of infected animals, or to otherwise control expansion of the disease.
 1. No more than 200 licenses per species shall be issued annually per Game Management Unit (GMU) unless authorized by the Director
 2. Seasons shall be for the taking of antlerless or female animals unless the Director has authorized the issuance of male (antlered) licenses. No more than 10% of the licenses shall be issued for male (antlered) animals unless authorized by the Director.
 3. Licenses will be valid only in the unit(s) specified on the license. Licenses may be restricted to specific properties or areas as determined by the Area Wildlife Manager.
 4. License fees may be reduced when authorized by the Director, when necessary to ensure sufficient hunter participation, provided that no license is to be sold for less than \$5.00. License fees shall be set to ensure recovery of the cost of the retail and system agent commissions.
 5. Multiple carcass tags may be issued with each license, as authorized by the Director. Provided further that the payment of separate license fees shall be required if licenses for more than one species are to be sold.
 6. Any licensee who takes deer or elk during any such season for the purpose of Chronic Wasting Disease (CWD) management shall submit the head from all animals taken when required to do so as a condition of the license, to the testing site specified at the time the license is issued, within 5 days after harvest. Hunters must complete the special survey tag available at any head collection site and attach it to the animal's head. Antlers and capes from harvested deer may be removed by hunters before submitting heads for sampling.

ARTICLE XIII - VACANT

ARTICLE XIV - VACANT

Basis and Purpose:

These regulations amend Chapter W-2 - Big Game - of the Parks and Wildlife Commission regulations and are necessary to properly manage big game populations in Colorado. They establish limited license numbers for deer, elk, pronghorn, moose, and black bear during seasons, which were adopted in January 2021; and include licenses for archery, muzzleloading, early, regular, plains, late rifle and private land only seasons with respect to each species. Limited license numbers are set for specific game management units or groups of units. Limited license numbers are established to maintain big game herds at or near long-term population objectives, and, in the case of antlered deer, antlered elk, buck pronghorn and moose they are also set to achieve sex ratio objectives. The herd objectives are intended to maintain healthy populations, provide a diversity of hunting opportunities for residents and nonresidents, allow and maintain public recreational opportunity, minimize or control local game damage situations on private land and provide opportunity for landowners to cooperatively manage wildlife with the Division through the Ranching for Wildlife program. These resulting limited license numbers take into account harvest estimates and hunter success rates, wildlife counts and surveys, as well as impacts of winter weather and predation on big game populations.

As is the case each year, this effort represents the culmination of numerous hours of work by various Division employees involved in the accumulation and analysis of data and a great deal of time spent with interested publics explaining both the recommendations and the rationale behind them. Further information regarding specific highlights of these annual changes are provided below.

Deer

Approximately 228,000 hunters applied for Colorado deer licenses in 2021. The majority of deer hunting in Colorado is managed by limited licenses; the only exceptions are over-the-counter (OTC) white-tailed deer licenses available in the Southeast Region.

CPW staff are recommending similar total deer licenses as last year; all changes result in an increase of 1,100 deer licenses (+1%) to 102,500 limited licenses.

Plains deer quota recommendations are similar to last year with a total quota recommendation of 20,500 (+132, +<1%) for 2021.

Statewide, CPW is recommending a reduction of 1,800 rifle buck and either-sex licenses. Buck license recommendations are reduced in many herds because we anticipate higher success rates with later rifle season dates from recent BGSS changes. Predicted higher harvest success means fewer licenses will be necessary to achieve the same harvest to manage to herd management plan (HMP) objectives. Buck license reductions also are the result of herds that are now within HMP sex ratio objective ranges (examples include D-2 Bears Ears, D-9 Middle Park, and D-30 San Juan).

Buck license recommendations are increased in herds that are above HMP sex ratio objectives (examples include D-21 West Elks, D-22 Taylor River, and D-25 Powderhorn). Just over half (28 of 54) of the state's deer herds have sex ratios above their HMP sex ratio objective ranges.

In data analysis units (DAUs) where chronic wasting disease (CWD) prevalence is greater than 5%, management actions are recommended to reduce prevalence, including buck license increases for several herds (examples include D-43 Sweetwater and D-51 South Grand Mesa). We have now

completed mandatory CWD testing statewide and adult bucks in 23 of 54 (43%) of Colorado's deer herds have CWD prevalence estimated at or above 5%.

The statewide total rifle doe license recommendation is 19,200, up from 16,400 (+2,800, +17%). Antlerless license increases are recommended in herds that are performing well and are at or above population objective ranges, and to address or prevent game damage. Alternatively, these recommendations keep regular season doe licenses at the minimum of 10 licenses per hunt code for all deer DAUs west of I-25 that are below population objective. In these below-objective herds, the majority of doe licenses are private-land-only licenses to address game damage. Private-land-only licenses and licenses with special restriction to address deer conflicts near towns make up over 80% of the doe licenses in below-objective herds.

The statewide post-hunt 2020 deer population estimate is 428,000, up from 418,000 last year. The sum of statewide population objective ranges is 445,000-527,000 for all 54 deer herds combined. In 2020, 18 of 54 (32%) deer DAUs are within their population objective ranges. The statewide deer population has averaged 420,000 over the last 11 years. The decade prior to that was marked by significant declines in the some of the large westernmost herds in the state. Diverse habitat types and environmental conditions around the state create considerable geographic variability in population performance.

CPW annually monitors well over 1,000 radio-collared mule deer in five Intensive Mule Deer Monitoring Areas to estimate survival. The last several winters have been mild and mule deer survival has been above average. CPW also conducts post-hunt herd inventories, primarily with helicopters, to estimate the sex ratios of males/100 females and the age ratios of young/100 females. In addition to survival rates, these ratios are needed to estimate population size using population models.

The average of HMP sex ratio objectives for deer herds statewide is approximately 30 bucks/100 does. During the post-hunt herd inventories in 2020, CPW staff classified 70,000 deer and observed an average sex ratio of 32 bucks/100 does, which is the sex ratio observed in 2019. Reproduction and fawn survival to December was up this year compared with the previous year; the statewide average observed age ratio from helicopter inventory was 59 fawns/100 does compared with 58 fawns/100 does in 2019.

Buck/doe ratios have shown a response to our management actions, and Colorado remains a premier destination for deer hunters.

Elk

In 2021, approximately 247,000 hunters applied for Colorado limited elk licenses. All rifle antlerless, muzzleloader, first, fourth, and late season elk licenses are limited. Archery licenses and second and third rifle bull seasons in many game management units (GMUs) are also limited.

CPW is recommending 123,900 limited elk licenses, down 5,700 (-4%) licenses from last year. However, 3,200 of this reduction is the result of fine-tuning archery quotas in DAUs E-24 (Disappointment), E-30 (Hermosa), and E-31 (San Juan). These were new limited units for 2020 and quotas were initially set high. The recommended 2021 quotas are set to license numbers actually sold in 2020.

Continuing with an 18-year trend, rifle elk license recommendations are reduced from last year by 2,200 (-2%) to 100,200. Antlerless and either-sex licenses make up the majority of this reduction, bull licenses stayed nearly the same. Muzzleloader license recommendations are reduced by 187 (-2%). Rifle elk license reductions are the result of a combination of herds achieving population objectives through antlerless harvest and low calf/cow ratios reducing population productivity.

The 2020 post-hunt estimate of 294,000 is up slightly from the 293,000 in 2019. The statewide elk population is stable to increasing, elk populations are slowly responding to reductions in antlerless harvest. The sum of Colorado's post-hunt HMP population objective ranges for elk statewide is 249,000-300,000 for all 42 elk herds combined. The sum of statewide objective ranges is partially based on historic HMPs. Plans written before 2001 were written with outdated population models that underestimated elk numbers; as we update plans, we expect population objectives to change. Because season and license setting is designed to use antlerless harvest to bring elk populations to herd objectives, further reductions in antlerless licenses are anticipated in the future as more elk populations reach objectives or population objectives increase.

As we've intentionally reduced elk populations to achieve population objectives, hunters and outfitters increasingly have expressed concern that elk populations are becoming too low in some herds, despite the fact that 22 of 42 (51%) elk herds are above their current population objective ranges. Nonetheless, public perception of the desired number of elk in Colorado varies. CPW gives serious consideration to changing population objectives in herds as HMPs are updated and tries to balance public interests of landowners, local communities, public land management agencies, and hunters. Long-term experience with balancing these interests has informed CPW on the upper and lower social thresholds for elk population size in many herds, which benefits us greatly in herd management planning efforts.

The average of post-hunt sex ratio objectives in totally limited elk DAUs and expected sex ratios in over-the-counter DAUs for elk herds statewide is approximately 24 bulls/100 cows. In 2020, during the post-hunt herd inventories, CPW staff used helicopter surveys to classify 90,000 elk and observed a statewide average sex ratio of 20 bulls/100 cows, compared to 22 bulls/100 cows in 2019.

During these surveys over the past decade, CPW has documented declining calf/cow ratios in the southern half of the state. In 2020, we observed 39 calves/100 cows compared to 37 calves/100 cows in 2019, which had the lowest calf ratios ever recorded. The Southeast Region was the lowest at 32 calves/100 cows with the Northwest Region having the highest average at 45 calves/100 cows. Northern Colorado historically has had higher calf ratios by about 10 calves/100 cows. Elk research and continued management changes are necessary since calf production remains low in many herds. Low calf ratios reduce the number of elk licenses CPW can issue.

The 2021 reductions in antlerless licenses are consistent with licensing trends of the last 18 years because many herds are near the desired population size and some have lower calf ratios. Having a combination of units that are limited in all seasons and units with both limited and over-the-counter hunting seasons allows us to offer a wide range of hunting opportunities on the nation's largest elk population.

Pronghorn

In 2021, approximately 92,000 hunters applied for Colorado limited pronghorn licenses. The majority of pronghorn licenses are limited, with the notable exception of over-the-counter archery licenses available in 70% of GMUs.

CPW is recommending 23,600 limited pronghorn licenses, down 1,700 (-7%) licenses from last year. The majority of this reduction is in the Southeast Region where the license recommendation is 15,200, down 1,500 licenses (-9%) from last year. We consistently observe lower pronghorn fawn production and survival in drought years such as 2020. We were unable to fly pronghorn classification flights last summer due to Covid-19, so the full effect of drought on pronghorn production is unknown. License reductions are prudent with the combination of drought and lack of inventory data.

The estimated statewide post-hunt pronghorn population is 77,000, down from 82,000 in 2019. The sum of statewide population objective ranges for hunted pronghorn herds is 69,000-81,000 combined. Seven of 29 (24%) pronghorn DAUs are within HMP population objective ranges. Approximately half of the state's pronghorn reside in the Southeast Region.

Pronghorn license reductions account for lower fawn production resulting from poor forage conditions and drought. Herds should respond quickly when we receive better moisture in the future. Colorado offers some excellent hunting for one of North America's most iconic animals.

Moose

Demand far exceeds allocation; 53,000 individuals applied for moose in 2020.

For 2021, we are continuing the trend of increasing license recommendations with a total of 532 limited moose licenses, an increase of 12 (+2%) from last year. These recommendations include 236 (+7) bull and either-sex licenses and 298 (+5) cow licenses.

Cow moose licenses are designed to manage moose populations toward objectives, keep moose populations within the capability of their habitat, and address moose conflicts in some areas. Cow licenses have lower success rates than bull licenses.

The only DAUs that diverges from the trend of increasing moose licenses are M-3 (Gore) and M-5 (Grand Mesa). In M-3, both bull and cow license recommendations are reduced by half in GMU 18 because of the East Fork Fire. Over the next year, we will monitor how the moose and willow communities respond to the fire. In M-5, cow license reductions are recommended because of continued low hunter harvest success rates.

The estimated statewide 2020 post-hunt moose population is 3,200, up from 2,900 in 2019.

We now have moose hunting in 72 GMUs, up from 39 GMUs in 2013. We are fortunate our moose populations continue to do well because many other states are experiencing declines in their moose. The growing number and distribution of moose in Colorado have resulted in greater hunting and viewing opportunities.

Black Bear

In 2021, CPW is recommending 20,700 limited licenses for all seasons and methods of take for black bear. This is a net increase of less than 200 licenses (1%) over last year's quota. In 2021, statewide harvest is projected to be about 1,560 bears with a statewide total mortality of approximately 2,000 bears. As in 2020, the availability of add-on OTC bear licenses in 9 of 17 DAUs is expected to continue to help reach harvest objectives in those specific units.

A recommended increase of 385 licenses across 3 DAUs is aimed at providing additional opportunity to help reach objectives. The recommendation to reduce 200 licenses in 3 other DAUs is designed to help fine-tune several limited license hunt codes.

Bear season structure changes implemented in 2020 were designed to remove unnecessary barriers to bear hunting whenever possible to achieve DAU harvest objectives, while still managing bear hunter crowding during the early seasons or in very limited quota deer and elk units.

Current management objectives are to reduce bear populations in 10 DAUs and stabilize populations at present levels in the remaining 7 DAUs. These DAU objectives are what guided managers' selection

between one of the two bear licensing strategies that are available to structure hunting opportunity under the 2020-2024 BGSS. Over-the-counter licenses will be available during archery, muzzleloader and concurrent rifle seasons in 9 DAUs (plus B-99 Eastern Plains), as well as all statewide PLO hunts.

Continuation of the non-resident bear license fee reduction implemented in 2019, coupled with the availability of OTC bear licenses in many DAUs, contributed to an increase of 5,000 more licenses sold in 2020 (+20% from 2019). This increase in licenses, which were associated with the unlimited add-on license strategy, successfully increased harvest and contributed towards management objectives.

Conclusion

The 2021 big game license recommendations are biologically sound, based on management plans and provide for an economically significant and diverse amount of big game hunting throughout Colorado. These recommendations and the associated OTC licenses provide the opportunity for more than 300,000 hunters to enjoy the incredible big game resources of the State. They also represent thousands of hours of employees' collective efforts to conduct herd inventories, obtain harvest estimates, incorporate this information into predictive models, and finally to set limited license recommendations.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us. The statements of basis and purpose are not available at the Division of Parks and Wildlife headquarters due to the closure of these facilities to the public in light of the COVID-19 pandemic.

The primary statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Wildlife Act, §§ 33-1-101 to 33-6-209, C.R.S., specifically including, but not limited to: §§ 33-1-106, C.R.S.

EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE JULY 1, 2021 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.

APPROVED AND ADOPTED BY THE PARKS AND WILDLIFE COMMISSION OF THE STATE OF COLORADO THIS 5TH DAY OF MAY, 2021.
