**Basis and Purpose:**

**Differential pricing for nonresident black bear, resident black bear, and nonresident mountain lion**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI). During the commission meeting, the Commission voted to raise the nonresident black bear license price and nonresident mountain lion license price over the CPI adjustment while staying below the statutory cap. The new license prices are \$250.00 for the nonresident bear licenses and \$500.00 for nonresident mountain lion licenses. Therefore, these licenses will retain differential pricing at this time, as they are still not priced at the statutory cap. In addition to these changes, the commission also voted to remove the differential pricing for resident bear licenses. This license will now be priced at the statutory cap of \$58.30. All other license prices were adjusted with CPI as proposed by staff.

**Cleanup to James John State Wildlife Area special restrictions**

The special restrictions for the James John State Wildlife Area are now covered in Chapter W-9 "Wildlife Properties" regulations after the W-9 regulations were updated at the June 2023 commission meeting. This cleanup will provide consistency with Chapter W-9 "Wildlife Properties" by removing the conflicting regulations from Chapter W-2.
