## Colorado Constitution, Article XVIII, Section 2 (2013)

### Section 2. Lotteries prohibited – exceptions.

(1) The general assembly shall have no power to authorize lotteries for any purpose; except that the conducting of such games of chance as provided in subsections (2) to (4) of this section shall be lawful on and after January 1, 1959, and the conducting of state-supervised lotteries pursuant to subsection (7) of this section shall be lawful on and after January 1, 1981.

(2) No game of chance pursuant to this subsection (2) and subsections (3) and (4) of this section shall be conducted by any person, firm, or organization, unless a license as provided for in this subsection (2) has been issued to the firm or organization conducting such games of chance. The secretary of state shall, upon application therefor on such forms as shall be prescribed by the secretary of state and upon the payment of an annual fee as determined by the general assembly, issue a license for the conducting of such games of chance to any bona fide chartered branch or lodge or chapter of a national or state organization or to any bona fide religious, charitable, labor, fraternal, educational, voluntary firemen's or veterans' organization which operates without profit to its members and which has been in existence continuously for a period of five years immediately prior to the making of said application for such license and has had during the entire five-year period a dues-paying membership engaged in carrying out the objects of said corporation or organization, such license to expire at the end of each calendar year in which it was issued.

(3) The license issued by the secretary of state shall authorize and permit the licensee to conduct games of chance, restricted to the selling of rights to participate and the awarding of prizes in the specific kind of game of chance commonly known as bingo or lotto, in which prizes are awarded on the basis of designated numbers or symbols on a card conforming to numbers or symbols selected at random and in the specific game of chance commonly known as raffles, conducted by the drawing of prizes or by the allotment of prizes by chance.

(4) Such games of chance shall be subject to the following restrictions:

(a) The entire net proceeds of any game shall be exclusively devoted to the lawful purposes of organizations permitted to conduct such games.

(b) No person except a bona fide member of any organization may participate in the management or operation of any such game.

(c) No person may receive any remuneration or profit for participating in the management or operation of any such game.

(5) Subsections (2) to (4) of this section are self-enacting, but laws may be enacted supplementary to and in pursuance of, but not contrary to, the provisions thereof.

(6) The enforcement of this section shall be under such official or department of government of the state of Colorado as the general assembly shall provide.

(7) Any provision of this constitution to the contrary notwithstanding, the general assembly may establish a state-supervised lottery. Unless otherwise provided by statute, all proceeds from the lottery, after deduction of prizes and expenses, shall be allocated to the conservation trust fund of the state for distribution to municipalities and counties for park, recreation, and open space purposes.

**24-21-605. Licensing and enforcement authority - powers - rules - duties - license suspension or revocation proceedings - definitions.** (1) The secretary of state is hereby designated as the "licensing authority" of this part 6. As licensing authority, the secretary of state's powers and duties are as follows:

(a) (I) To grant or refuse to grant bingo-raffle licenses under this part 6 and to grant or refuse to grant licenses to landlords, manufacturers, manufacturers' agents, suppliers, and suppliers' agents. If any such license application has not been approved or disapproved within forty-five days after the licensing authority has received all information that constitutes a complete application, the license shall be deemed to be approved. The licensing authority shall notify the applicant upon receipt of all information that the licensing authority deems a complete application. Such notification shall be the start of the forty-five-day period in which the licensing authority shall affirmatively act upon the application. The licensing authority's failure to

act upon an application within forty-five days after receipt shall not preclude the licensing authority from later filing a complaint challenging the application on the ground that it is in conflict with the Colorado constitution or this part 6. All such licenses and applications for such licenses shall be made available for inspection by the public. In addition, the licensing authority has the power and the responsibility, after investigation and hearing before an administrative law judge, to suspend or revoke any license issued by the licensing authority, in accordance with any order of such administrative law judge. When a license is ordered suspended or revoked, the licensee shall surrender the license to the licensing authority on or before the effective date of the suspension or revocation. No license is valid beyond the effective date of the suspension or revocation, whether surrendered or not. Any bingo-raffle license may be temporarily suspended for a period not to exceed ten days pending any prosecution, investigation, or public hearing.

(II) In lieu of seeking a suspension or revocation of any license issued by the licensing authority, the licensing authority may impose a reasonable fine for any violation of this part 6 or any rule adopted pursuant to this part 6, not to exceed one hundred dollars per citation. The imposition of any such fine may be appealed to an administrative law judge.

(III) An applicant may request administrative review of a refusal by the licensing authority to grant or renew a license in accordance with subsection (3) of this section. To be entitled to administrative review, the applicant must request the review in writing within sixty days after the date of the licensing authority's refusal.

(IV) If a licensee or bingo-raffle affiliate fails within forty-five days after a written request by the licensing authority to voluntarily produce records at the office of the licensing authority, or if a licensee fails to file a report within the time required by this part 6, or if such report is not properly verified or is not fully, accurately, and truthfully completed on its face, the licensing authority may refuse to renew the licensee's license until the licensee has corrected such failure or deficiency. If the licensing authority refuses to renew a license pursuant to this subsection (1)(a)(IV), the licensee shall not engage in activity authorized by such license until such license is renewed.

(b) To supervise the administration and enforcement of this part 6 and, in consultation with the board, to adopt, amend, and repeal rules governing the holding, operating, and conducting of games of chance, the purchase of equipment, the establishment of a schedule of reasonable fines, not to exceed one hundred dollars per citation, for violation by licensees of this part 6 or of rules adopted pursuant to this part 6, to the end that games of chance shall be held, operated, and conducted only by licensees for the purposes and in conformity with the state constitution and the provisions of this part 6;

(c) To provide forms for and supervise the filing of any reports made by mail, computer, electronic mail, or any other electronic device by any licensee. As soon as possible after July 1, 2006, the licensing authority shall ensure that delivery of a document subject to this part 6 by an applicant or a licensee may be accomplished electronically without the necessity for presentation of a physical original document, report, or image, if all required information is included and is readily retrievable from the data transmitted. The licensing authority may, by rule, require certain organizations to file reports and other documents electronically. All electronically filed documents shall be stored by the licensing authority in an electronic or other medium and shall be retrievable by the licensing authority in an understandable and readable form. Notwithstanding any other provision of law requiring the signature of, or execution by, a person on a document, no such signature shall be required when the document is submitted electronically. Causing a document to be delivered to the licensing authority by an applicant or a licensee shall constitute the affirmation or acknowledgment of the individual causing the delivery, under penalty of perjury, that the document is the individual's act and deed or the act and deed of the organization or entity on whose behalf the document was delivered and that the facts stated in the document are true.

(d) Upon application by any licensee, to issue a letter ruling granting approval for any new concept, method, technology, practice, or procedure that may be applied to, or used in the conduct of, games of chance that are not in conflict with the constitution or this part 6. Application for such approval shall be submitted in a form prescribed by the licensing authority. If an application is not acted upon within forty-five days after receipt by the licensing authority, the licensee may implement such concept, method, technology,

practice, or procedure so long as it is not in conflict with the constitution or this part 6; except that the licensing authority's failure to act upon an application within forty-five days after receipt shall not preclude the licensing authority from later filing a complaint challenging such concept, method, technology, practice, or procedure on the ground that it is in conflict with the constitution or this part 6. An adverse ruling on such application may be appealed to an administrative law judge.

(e) To keep records of all actions and transactions relating to licensing and enforcement activity;

(f) To prepare and transmit annually, in the form and manner prescribed by the heads of the principal departments pursuant to section 24-1-136, a report accounting to the governor for the efficient discharge of all responsibilities assigned by law or directive to the authority, and to issue publications of the authority intended for circulation in quantity outside the executive branch in accordance with section 24-1-136;

(g) To license devices for reading pull tabs as provided in section 24-21-619; except that the licensing authority shall not impose or collect any fee for the issuance of such a license.

(2) For the purpose of any investigation or examination of records, the licensing authority or any officer designated by the licensing authority may require, at the office of the licensing authority, the production of any books, papers, correspondence, memoranda, agreements, or other documents or records that the licensing authority deems relevant or material to the inquiry. In case of refusal to obey a request for the production of documents issued to any licensee or an affiliate of a licensee, the district court of the city and county of Denver, upon application by the licensing authority, may issue an order requiring that person to appear before the licensing authority or the officer designated by the licensing authority to produce documents or to give evidence touching upon the matter under investigation or in question. Failure to obey the order of the court may be punished by the court as a contempt of court.

(3) The licensing authority may revoke, suspend, annul, limit, modify, or refuse to grant or renew a license in accordance with section 24-4-104. (13) The licensing authority shall establish, by rule, safeguards to protect the bingo-raffle licensee's players against defaults in charitable gaming debts owed or to become payable by the bingo-raffle licensee.

(14) The net proceeds derived from the holding of games of chance must be devoted, within one year, to the lawful purposes of the organization permitted to conduct the game of chance. Any organization desiring to hold the net proceeds of games of chance for a period longer than one year must apply to the licensing authority for special permission and, upon good cause shown, the licensing authority may grant the request.

(15) The licensing authority may require a licensee that does not report, during any one-year licensing period, positive net proceeds to show cause before the licensing authority why its right to conduct games of chance should not be suspended or revoked. The licensing authority may establish by rule the conditions for suspending, revoking, or refusing to renew a license to conduct charitable gaming for failure to report positive net proceeds.

**24-21-618. Conduct of bingo games.** (1) In the playing of bingo, only persons who are physically present on the premises where the game is actually conducted may participate as players in the game.

(2) (a) A person shall not act as a caller or assistant to the caller in the conduct of any game of bingo unless the person has been a member in good standing of the bingo-raffle licensee conducting the game or one of its licensed auxiliaries for at least three months immediately prior to the date of the game, is of good moral character, and never has been convicted of a misdemeanor involving gambling or any felony.

(b) An owner, co-owner, or lessee of premises or, if a corporation is the owner of the premises, any officer, director, or stockholder owning more than ten percent of the outstanding stock must not be a person responsible for or assisting in the holding, operating, or conducting of any game of bingo.

(3) (a) The equipment used in the playing of bingo and the method of play must be such that each card has an equal opportunity to win. The objects or balls to be drawn must be essentially the same as to size, shape, weight, balance, and all other characteristics that may influence their selection. All objects or balls must be present in the receptacle before each game begins. All numbers announced must be plainly and clearly audible to all the players present. Where more than one room is used for any one game, the receptacle and the caller must be present in the room where the greatest number of players are present, and all numbers announced must be plainly audible to the players in the aforesaid room and also audible to the players in the other rooms.

(b) The receptacle and the caller must be visible to all the players at all times except where more than one room is used for any one game, in which case subsection (3)(a) of this section applies.

(c) The particular arrangement of numbers required to be covered in order to win the game and the amount of the prize must be clearly and audibly described and announced to the players immediately before each game begins.

(d) An operator shall not reserve or allow to be reserved any bingo cards for use by players except braille cards or other cards for use by legally blind players. A person who is legally blind may use his or her personal braille cards when a licensed organization does not provide such cards. A licensed organization may inspect and reject any personal braille card. A person who is legally blind or an individual with a disability may use a braille card or hard card in place of a purchased disposable paper bingo card.

(e) Any player may call for a verification of all numbers drawn at the time a winner is determined and for a verification of the objects or balls remaining in the receptacle and not yet drawn. The verification shall be made in the immediate presence of the member designated to be in charge of the occasion, but if that member is also the caller, then in the immediate presence of any officer of the licensee.

(4) When any merchandise prize is awarded in a game of bingo, its value is its current retail price. A merchandise prize is not redeemable or convertible into cash directly or indirectly.

(5) (a) Notwithstanding the limitations stated in section 24-21-617 (5), during a bingo occasion a bingo-affle licensee may also start a single game of progressive bingo, in an amount established by rule by the licensing authority, in which the game is won when a previously designated arrangement of numbers or spaces on the card or sheet is covered within a previously designated number of objects or balls drawn. If the game is not won within the drawing of the previously designated number of objects or balls, the game must be replayed either during each subsequent occasion the licensee conducts at the same location or during each subsequent occasion that falls on the same day of the week at the same location, using the previously designated arrangement of numbers or spaces.

(b) A bingo-affle licensee may award a consolation prize for a game of progressive bingo. The bingo-affle licensee determines the amount of the consolation prize. Notice of the amount must be conspicuously displayed before the beginning of the bingo-affle occasion, and the amount is included as part of the aggregate amount of all prizes offered or given in games played on a single occasion, as set forth in subsection (5)(a) of this section. If a consolation prize is offered and the progressive prize is not won, the game continues until the previously designated arrangement of numbers or spaces on the card or sheet is covered, regardless of the number of balls drawn, in order to determine the winner of the consolation prize. If a consolation prize is not offered, the progressive game ends when the last of the previously designated number of balls is drawn and must be replayed in accordance with subsection (5)(a) of this section. If a consolation prize is offered and the progressive prize is won, the licensee may opt to award the consolation prize during that occasion. If the consolation prize is awarded, the licensee must include the total amount of the consolation prize in the total amount of any subsequent games offered in the session, not to exceed the maximum allowed for the occasion.

(c) A bingo-affle licensee may fund a secondary jackpot from ten percent of the gross proceeds collected from the sale of progressive cards or sheets at the occasion where the game is offered. Notwithstanding the limitation stated in subsection (5)(a) of this section, the amount in the secondary jackpot may be used to start a single game of progressive bingo after a previous progressive jackpot is won.

(d) The licensing authority may establish by rule the maximum jackpot that may be awarded in a progressive bingo game; except that the maximum jackpot must be at least fifteen thousand dollars.

(e) The licensing authority may establish by rule the maximum number of progressive bingo games, not less than one, that may be conducted during an occasion. In order to ensure that all prizes offered are timely awarded, the licensing authority may limit by rule the number of occasions in which a progressive bingo game may be conducted before a prize must be awarded; except that the maximum number of occasions must be at least thirty.

(6) (a) Equipment, prizes, and supplies for games of bingo must not be purchased or sold at prices in excess of the usual price thereof. A licensee shall not sell or offer for sale any game of chance, or supplies for a game of chance, that is not authorized by this part 6 or by rules adopted by the licensing authority pursuant to this part 6.

(b) Cards and sheets that are designed or intended for use with electronic devices used as aids in the game of bingo shall not be purchased or sold at prices in excess of the usual price of cards and sheets that are not designed or intended for use with electronic devices used as aids in the game of bingo. Charges imposed by any manufacturer, supplier, agent thereof, or bingo-raffle licensee for cards and sheets that are designed or intended for use with electronic devices used as aids in the game of bingo shall be stated and imposed separately from any charges imposed by the manufacturer, supplier, agent thereof, or bingo-raffle licensee for the purchase, lease, or use of electronic devices used as aids in the game of bingo. Manufacturers, suppliers, and their agents shall not include costs attributable to the manufacture or distribution of electronic devices used as aids in the game of bingo in charges imposed for the purchase or lease of equipment, including cards and sheets.

(7) (a) If a card or sheet is played with the aid of an electronic device, a winning bingo may be determined and verified either by reference to the card or sheet or by reference to the electronic device. Nothing in this part 6 authorizes the playing of bingo solely by means of an electronic device.

(b) A bingo-raffle licensee shall adequately mark, destroy, or dispose of cards or sheets played with the aid of an electronic device in order to prevent the reuse of those cards or sheets.

(c) The licensing authority may establish by rule the maximum number of bingo cards that a bingo player who plays using the aid of an electronic device is permitted to use with the aid of such a device per game; except that the maximum number must be at least fifty-four.

(d) A bingo-raffle licensee is not required to use or offer the use of electronic devices used as aids in the game of bingo during a bingo session.

(8) (a) With the application for a letter ruling pursuant to section 24-21-605 (1)(d) for the approval of a new type of electronic device used in the aid of bingo, the manufacturer of the device must provide the following to the licensing authority:

(I) A prototype of the new type of electronic device used in the aid of bingo with a prototype bingo aid computer system and a user's manual used for such electronic device; and

(II) A certification by the manufacturer that the new type of electronic device used in the aid of bingo and all such electronic devices used in the state meet the following standards:

(A) The electronic device provides a means for the input of numbers announced by a bingo caller;

(B) The electronic device compares the numbers entered to the numbers contained on bingo cards previously stored in the electronic database of the electronic device;

(C) The electronic device identifies winning bingo patterns; and

(D) The electronic device signals when a winning bingo pattern is achieved.

(b) The licensing authority shall return the prototype electronic device used in the aid of bingo, the prototype bingo aid computer system, and the user's manual submitted pursuant to subsection (8)(a)(I) of this section no later than forty-five days after receiving the items.

(c) When a complaint regarding an electronic device used in the aid of bingo that is in use in the state of Colorado has been filed with the licensing authority, the manufacturer of the device shall provide to the licensing authority a sample of the device and bingo aid computer system to assist the investigation by the licensing authority. The licensing authority shall return the electronic device and bingo aid computer system no later than forty-five days after receiving them unless they are needed longer to complete the investigation.

(d) Any electronic device used in the aid of bingo, bingo aid computer system, or user's manual for such a device that is in the custody of the licensing authority pursuant to this section is not a public record.

(9) A bingo aid computer system used by a bingo-raffle licensee for bingo sessions must meet the following standards:

(a) The system must contain a record of all transactions occurring during a bingo-raffle session. The record must be retained in memory until the transactions have been totaled, printed, and cleared by the bingo-raffle licensee, regardless of whether the power supply has been interrupted.

(b) The system must be able to compute and total all transactions processed by the system during a bingo-raffle session and to print all information required by the licensing authority, in the form prescribed by the licensing authority.

(c) The system must maintain and control the time, date of sale, and transaction number, keeping the information secure enough that only a manufacturer's qualified personnel can change or reset the information. The manufacturer's qualified personnel shall retain a detailed record for each service call that involves a change of the time, date of sale, or transaction number.

(10) If an electronic device used as an aid in the game of bingo complies with subsections (8)(a)(II)(A) to (8)(a)(II)(D) of this section, and if the bingo aid computer system for the electronic device substantially complies with the requirements of subsection (9) of this section, the licensing authority shall approve the electronic device and computer system for use by a letter ruling pursuant to section 24-21-605 (1)(d).

**24-21-619. Conduct of pull tabs - license revocation - rules - definitions.** (1) A licensee shall not sell, offer for sale, or put into play any pull tab ticket except at the location of and during its licensed bingo occasions or upon premises that are:

(a) Owned, leased, or rented by the bingo-raffle licensee, used as its principal place of business, and controlled so that admittance to the premises is limited to the bingo-raffle licensee's members and bona fide guests; or

(b) Owned, leased, or rented by a landlord licensee.

(2) A bingo-raffle licensee may offer a prize to the purchaser of a last sale ticket in a pull tab game, deal, or series without regard to its winning or nonwinning status as revealed if broken or torn apart.

(3) A bingo-raffle licensee may offer an event pull tab series. For the purposes of this subsection (3):

(a) "Event pull tab series" means a pull tab series that includes a predetermined number of pull tabs that allow a player to advance to an event round.

(b) "Event round" means a secondary element of chance where the prizes are determined based on pull tabs that match specific winning numbers drawn in a bingo game and the winning numbers shall fall within numbers one to seventy-five, inclusive.

(4) (a) A bingo-raffle licensee may offer a progressive pull tab game in which a prize may be carried over and increased from one deal to another until a prize is awarded. The game may include a subsequent pull tab deal bearing a different serial number from that offered in a previous deal. A licensee shall not offer or give a prize greater, in amount or value, than five thousand dollars in any progressive pull tab game. The licensing authority may limit by rule the types of progressive pull tab games allowed to be sold by supplier licensees.

(b) When a deal of progressive pull tabs is received in two or more packages, boxes, or other containers, all of the progressive pull tabs from the respective packages, boxes, or other containers must be placed out for play at the same time.

(5) (a) A licensee shall not possess, use, sell, offer for sale, or put into play any computerized or electromechanical facsimile of a pull tab game.

(b) A licensee shall not possess, use, sell, offer for sale, or put into play any device that reveals the winning or nonwinning status of a pull tab ticket unless the device has been tested, approved, and licensed pursuant to subsection (6) of this section and not subsequently altered or tampered with.

(c) Any of the following persons that are found to have violated subsection (5)(a) of this section are subject to immediate and permanent revocation of all licenses issued under this part 6:

(I) The manufacturer of the device;

(II) The supplier through which the device was supplied;

(III) The landlord licensee on whose premises the device was found; and

(IV) The bingo-raffle licensee of the occasion during which the device was present.

(6) (a) The licensing authority shall test, inspect, and license every mechanical, electronic, or electromechanical device that reveals the winning or nonwinning status of a pull tab ticket before the device

is used in charitable gaming. The licensing authority shall employ an independent contractor to conduct the tests and inspections, the cost of which shall be borne by the manufacturer or supplier seeking approval of the device. The licensing authority shall not issue a license for a device until the device is secured in a manner prescribed by the licensing authority and the contractor receives payment in full for the cost of all tests and inspections.

(b) Every person shipping or importing into Colorado a device subject to subsection (6)(a) of this section shall provide the licensing authority with a copy of the shipping invoice at the time of shipment. The invoice must contain, at a minimum, the destination of the shipment and the serial number and description of each device being transported.

(c) Every person receiving a device subject to subsection (6)(a) of this section shall, upon receipt of the device, provide the licensing authority with the serial number and description of each device received and information describing the location of each device. The requirements of this subsection (6)(c) apply regardless of whether the device is received from a licensed supplier or from any other source.

(d) A device licensed pursuant to this subsection (6) is licensed for and may only be used in one specific licensed location identified by the licensing authority. Any movement of the device from the licensed location for use at another licensed location shall be reported to and must be approved by the licensing authority in advance.

(e) The licensing authority may adopt rules and prescribe all necessary forms in furtherance of this subsection (6).

(f) Notwithstanding any other provision of this part 6, the licensing authority shall not license:

(I) A pull tab game that is stored, electronically or otherwise, within a device and designed to be played on such device; or

(II) Any device that qualifies as a slot machine pursuant to section 9 (4)(c) of article XVIII of the Colorado constitution.

(g) The prohibition contained in subsection (6)(f) of this section does not prohibit the licensing of:

(I) A device that merely dispenses pull tab tickets to players; or

(II) A device that merely reads or validates a pull tab ticket inserted by a player, if:

(A) The pull tab ticket itself displays its winning or nonwinning status so that use of the device is not required to determine such status; and

(B) The device cannot be used in a manner that would qualify it as a slot machine pursuant to section 9 (4)(c) of article XVIII of the Colorado constitution.

**24-21-620. Conduct of raffles - rules.** (1) The licensing authority shall not require an exempt organization to use raffle tickets in any particular form or displaying any particular information that would cause undue expense to the exempt organization and therefore interfere with the charitable fund-raising drive of the organization.

(2) (a) A bingo-raffle licensee may offer a progressive raffle in which a jackpot may be carried over and increased from one drawing to another until the jackpot is awarded. If the jackpot is not awarded at a drawing, the bingo-raffle licensee shall conduct a new drawing at the same location at a time and date determined by the bingo-raffle licensee.

(b) A bingo-raffle licensee may award a consolation prize for a progressive raffle. The bingo-raffle licensee may designate the consolation prize as either a specified amount or a specified percentage of the gross proceeds collected from the sale of raffle tickets for a particular drawing. The bingo-raffle licensee may determine the amount of the jackpot based on the gross proceeds collected from the sale of raffle tickets for a particular drawing plus the value of the jackpot carried over from previous drawings in which the jackpot was not awarded. If a consolation prize is offered and the progressive prize is won, the licensee may opt to award the consolation prize for that particular drawing.

(c) If the bingo-raffle licensee offers a consolation prize, the bingo-raffle licensee shall, before the drawing:

(I) Designate the specific amount or specific percentage of the gross proceeds collected from the sale of raffle tickets that the consolation prize equals; and

(II) Conspicuously display the amount or percentage of the gross proceeds collected that the consolation prize equals.

(d) The licensing authority may establish by rule the maximum jackpot that a bingo-raffle licensee may award for a progressive raffle; except that, notwithstanding section 24-21-617 (5), the maximum jackpot must be at least fifteen thousand dollars. The maximum jackpot does not include the aggregate amount of consolation prizes awarded.

(e) The licensing authority may establish by rule the maximum number of progressive raffles that a bingo-raffle licensee may conduct simultaneously. To ensure that all prizes offered are timely awarded, the licensing authority may limit by rule the number of drawings that a bingo-raffle licensee may conduct before a jackpot must be awarded; except that the maximum number of drawings must be at least thirty.

(f) (I) The licensing authority may establish by rule the permitted methods of conducting a progressive raffle.

(II) The licensing authority may not prohibit those methods of conducting a progressive raffle in which the participant whose ticket number is drawn wins both a prize for the winning ticket number and a chance to win the jackpot.

**24-21-621. Persons permitted to manufacture and distribute games of chance equipment - reporting requirements.** (1) A person other than a manufacturer licensee or licensed agent shall not act as a bingo-raffle manufacturer within Colorado. The manufacture of electronic devices used as aids in the game of bingo, and the printing of raffle tickets other than pull tabs, as designed and requested by a licensee, does not constitute the manufacture of games of chance equipment; except that such electronic devices are subject to the reporting requirements of subsections (4) and (5) of this section, and the fees established by the licensing authority in accordance with section 24-21-606 (2) and subsection (4) of this section.

(2) An individual shall not act for or represent a landlord, manufacturer, or supplier licensee with respect to an activity covered by such license unless such individual is the licensee's owner, officer, director, partner, member, or ten percent or more shareholder of record with the licensing authority, or is the manufacturer's or supplier's licensed agent. A manufacturer or supplier licensee shall not allow any person not authorized by this subsection (2) to represent it or serve as its agent with regard to any Colorado transaction.

(3) Except to the extent otherwise provided in section 24-21-615 (1), a manufacturer or supplier licensee or licensed agent shall not buy, receive, sell, lease, furnish, or distribute any pull tabs, bingo cards or sheets, electronic devices used as aids in the game of bingo, or other games of chance equipment from or to any person within Colorado other than manufacturer or supplier licensees or agents and bingo-raffle licensees; except that:

(a) A landlord licensee, supplier, or manufacturer or its agent may sell, donate, or distribute cards, sheets, equipment, or electronic devices used as aids in the game of bingo for the playing of bingo not for resale to nursing homes and other entities that distribute the cards, sheets, or electronic devices and allow playing of the game free of charge, without consideration given or received by any person for the privilege of playing; and

(b) A bingo-raffle licensee may sell or donate its used equipment to another bingo-raffle licensee.

(4) Every manufacturer and supplier licensee shall file, upon forms prescribed by the licensing authority, quarterly reports on its licensed activities within Colorado. The reports must be accompanied by quarterly fees established by the licensing authority in accordance with section 24-21-606 (2) and deposited

in the department of state cash fund created in section 24-21-104 (3)(b). The reports shall be filed with the licensing authority no later than April 30, July 31, October 31, and January 31 of each year licensed, and each report must cover the preceding calendar quarter. Reports must enumerate by quantity, purchaser or lessee, and price the pull tabs, bingo cards or sheets, electronic devices used as aids in the game of bingo, and other games of chance equipment manufactured, conveyed, or distributed within Colorado or for use or distribution in Colorado and must include the licensee's total sales, including amounts realized from leases, of equipment and electronic devices used as aids in the game of bingo and the names and addresses of all Colorado suppliers or agents of the licensee and shall be signed and verified by the owner or the chief executive officer of the licensee. These quarterly reports are not public records as defined in section 24-72-202.

(5) Every manufacturer or supplier licensee, and every licensed agent for such licensee, shall keep and maintain complete and accurate records, in accord with generally accepted accounting principles, of all licensed activities. The records shall include invoices for all games of chance equipment or electronic devices used as aids in the game of bingo conveyed or distributed within Colorado, or for use or distribution in Colorado, which invoices are specific as to the nature, description, quantity, and serial numbers of the pull tabs, bingo cards or sheets, electronic devices used as aids in the game of bingo, and other equipment so conveyed or distributed. The records shall also show all receipts and expenditures made in connection with licensed activities, including, but not limited to, records of sales by dates, purchasers, and items sold or leased, monthly bank account reconciliations, disbursement records, and credit memos for any returned items. These records shall be maintained for a period of at least three years.

(6) A manufacturer or supplier licensee or licensed agent must not be a person responsible for or assisting in the conduct, management, or operation of any game of chance within Colorado.

**24-21-622. Bingo-affle licensee's statement of receipts - expenses - fee - definitions.** (1) (a) On or before April 30, July 31, October 31, and January 31 of each year, every bingo-affle licensee shall file with the licensing authority upon forms prescribed by the licensing authority a duly verified statement covering the preceding calendar quarter showing the amount of the gross receipts derived during said periods from games of chance, the expenses incurred or paid, and a brief description of the classification of such expenses, the net proceeds derived from games of chance, and the uses to which such net proceeds have been or are to be applied. Each licensee shall maintain and keep such books and records as may be necessary to substantiate the particulars of each such report.

(b) Exempt organizations are not subject to the requirements of this subsection (1), except to the extent that they shall file with the licensing authority statements showing the amount of the gross proceeds from their fund-raising drives and identifying all organizations receiving portions of such proceeds and the amounts received by each such organization.

(2) (a) If a bingo-affle licensee fails to file reports within the time required or if reports are not properly verified or not fully, accurately, and truthfully completed, any existing license may be suspended until such time as the default has been corrected.

(b) Exempt organizations are subject to the requirements of this subsection (2) only to the extent that such requirements apply to subsection (1)(b) of this section.

(3) (a) All money collected or received from the sale of admission, extra regular cards, special game cards, sale of supplies, and all other receipts from the games of bingo, raffles, and pull tab games shall be deposited in a special checking or savings account, or both, of the licensee, which must contain only this money. If the licensee conducts progressive games of chance, the licensee may maintain one additional checking or savings account, which must contain only money received from the sale of progressive games. The licensee may withdraw money from these accounts only by consecutively numbered checks or withdrawal slips or by electronic transactions referenced by transaction number or date. A check or

withdrawal slip must not be drawn to "cash" or a fictitious payee. The licensee shall maintain all of its books and records in accordance with generally accepted accounting principles.

(b) Exempt organizations are not subject to this subsection (3).

(4) No part of the net proceeds, after they have been given over to another organization, shall be used by the donee organization to pay any person for services rendered or materials purchased in connection with the conducting of bingo by the donor organization.

(5) No item of expense shall be incurred or paid in connection with holding, operating, or conducting a game of chance pursuant to a bingo-raffle license except bona fide expenses of a reasonable amount. Such expenses include those incurred in connection with all games of chance, for the following purposes:

(a) Advertising and marketing;

(b) Legal fees related to any action brought by the licensing authority against the bingo-raffle licensee in connection with games of chance;

(c) The purchase of goods, wares, and merchandise furnished to the licensee for the purpose of operating games of chance pursuant to this part 6;

(d) The purchase or lease of electronic devices used as aids in the game of bingo;

(e) Payment for services rendered that are reasonably necessary for repairs of equipment and operating or conducting games of chance;

(f) Rent, if the premises are rented, or for janitorial services if not rented;

(g) Accountant's fees; and

(h) License fees.

(6) (a) For the purposes enumerated in subsection (5) of this section, the following terms have the following meanings:

(I) "Goods, wares, and merchandise" means prizes, equipment, and articles of a minor nature.

(II) "Services rendered" means:

(A) The repair of equipment;

(B) Compensation to bookkeepers or accountants for services in preparing financial reports for a reasonable amount as determined by the licensing authority by rule. A landlord, manufacturer, or supplier licensee, or employee of a landlord, manufacturer, or supplier licensee, shall not act as a bookkeeper or accountant for a bingo-raffle licensee, nor shall a landlord, manufacturer, or supplier licensee offer or provide accounting or bookkeeping services in connection with the preparation of financial reports on bingo-raffle activities, except for the transfer or encoding of data necessitated by the sale, upgrade, or maintenance of accounting software sold or leased to a bingo-raffle licensee by a landlord, manufacturer, or supplier licensee. A landlord licensee that is also a bingo-raffle licensee may act as a bookkeeper or accountant on such licensee's own behalf.

(C) The rental of premises;

(D) A reasonable amount for janitorial service as determined by the licensing authority in rules for each occasion; and

(E) A reasonable amount for security expense based on established need as determined by the licensing authority in rules for each occasion.

(b) There shall be paid to the licensing authority an administrative fee, established in accordance with section 24-21-606 (2), upon the gross receipts of any game of chance held, operated, or conducted under this part 6; except that an exempt organization shall not be charged more than twenty dollars per year. All administrative fees collected by the licensing authority under this part 6 shall be deposited in the department of state cash fund created in section 24-21-104 (3)(b).

(7) Each licensee, at the time each financial report is submitted to the licensing authority, shall pay to the order of the licensing authority the amount of administration expense provided in subsection (6) of this section.

**24-21-623. Examination of books and records - rules.** The licensing authority and its agents have power to examine or cause to be examined the books and records of any licensee to which any license is issued pursuant to this part 6 insofar as they may relate to any transactions connected with activities under the license. The licensing authority may require by rule that licensees that have failed to keep proper books and records, or to maintain their books and records in accordance with generally accepted accounting principles, adopt certain internal financial controls and attend training to ensure the integrity of the reporting of games of chance activities pursuant to this part 6.

**24-21-625. Volunteer services - legislative declaration - immunity.** (1) The Colorado constitution recognizes that the conduct of charitable gaming activities is directly related to the need of nonprofit organizations to fulfill their lawful purposes. Notwithstanding this recognition, however, the willingness of bingo-raffle volunteers to offer their services has been increasingly deterred by a perception that they put personal assets at risk should a tort action be filed seeking damages arising from their volunteer activities.

(2) All bingo-raffle volunteers are immune from civil actions and liabilities pursuant to section 13-21-115.5, which provides that volunteers are not personally liable for their acts or omissions if they are acting in good faith and within the scope of their official function and duty for a charitable organization, with respect to such organization's conduct of games of chance. Bingo-raffle volunteers are not liable under this section if the harm is not caused by willful and wanton misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed.

### **Rule 3. Bingo Games**

3.1 Conduct of Bingo Games in General

3.1.1 Bingo game. A bingo game starts when the first numbered object, ball or number is selected at random or randomly generated by machine, and called. The game continues until all the objects or balls have been returned to the receptacle or the machine has been cleared. A game may have two or more parts with different winning patterns for each part, if the total amount of prizes offered or given for all parts of one game does not exceed, in amount or value, the maximum prize that may be offered or given in a single game of bingo.

3.1.2 Authorized equipment and cards. A licensee must keep authorized equipment and cards, including all bingo-related items, in good repair and sound working condition. The Secretary of State may order, in writing, any equipment, cards, or related items immediately repaired or replaced if they are found to be defective.

- (a) A licensee may not use balls with creases, holes or other damage during a bingo game.
- (b) Balls used during bingo games must be in the master board before each occasion, and at least one player must verify that all balls are present immediately prior to the first game of the occasion. Licensees that use electronic random number generators must ensure that all numbers on the lighted board can be illuminated.
- (c) Once a ball is removed from the receptacle, it may not be returned until the conclusion of that game.

- (d) A licensee must select balls one at a time.
- 3.1.3 Call and display of balls. A caller must draw a ball from the receptacle and immediately display the letter and number on the ball to the players. The caller must loudly and clearly announce the letter and number on the ball so that all players can hear. The caller must make the announcement twice before drawing the next ball. The ball is not official until it has been properly called.
- (a) If more than one room is used, the receptacle and the caller must be in the room with the greatest number of players.
  - (b) The caller may use a camera and monitor to display the letter and number. If the caller uses a monitor, the licensee must post a sign by each monitor that reads: “Ball on TV is not official until called.”
- 3.1.4 Master board. The master board is the only official scorer unless the licensee is using a random number generator, in which case a lighted display board may serve as the official scorer.
- (a) If a lighted display is used, the letter and number of the called ball must be lit immediately after the ball is called.
  - (b) If the caller discovers that the wrong letter or number was called, the caller must announce: “I am reading the correct number, please correct your card or sheet.” The caller must then correct the master board and the lighted display, if applicable, before continuing with the game.
- 3.1.5 Closing a bingo game. Each bingo game must close in accordance with the following procedure:
- (a) The licensee must stop the game after “Bingo” is signaled by a player or a worker. A player is responsible for ensuring that a signaled “Bingo” is acknowledged by a floor worker, the bingo caller, or both.
  - (b) The caller may not call the next ball removed from the machine or otherwise selected, until the signaled bingo is verified or invalidated. If the signaled bingo is verified, the caller must return the ball to the machine unless the verified bingo is part of a multi-part or continuing game.
  - (c) The last number called does not need to be part of the signaled bingo, unless the licensee has conspicuously posted a bingo occasion rule with this requirement.
  - (d) When a player or worker signals “Bingo”, a worker on the floor must place the card, sheet, or electronic bingo aid device in front of at least one other player to confirm the bingo.

- (e) The worker must call the numbers of the winning combination to the caller or, in the case of a coverall or blackout bingo, the caller may announce the numbers that have not been called, unless an electronic bingo number verification device is used to verify the bingo.
- (f) If an electronic verification device is used to invalidate a signaled bingo, the worker on the floor must announce the numbers of the winning combination so the caller can check the numbers against those actually called.
- (g) The caller must then ask the players two times: “Are there any other bingos?” If no player answers, the caller must announce “This game is completed.”

#### 3.1.6 Multiple bingo winners.

- (a) If multiple bingos are announced and verified and the prize is a cash prize, the licensee must divide the prize for that game or game part so that each verified bingo receives the appropriate amount, regardless of the number or identity of players involved. If a prize is divided, the licensee may round up the prize amount given to any player holding a verified bingo only to the nearest dollar.
- (b) If the licensee is offering a merchandise prize, the licensee may designate an alternative cash prize in the case that more than one person achieves a valid bingo. The alternative cash prize must be equal to the current retail value of the merchandise prize, and information on the alternative prize must be posted in accordance with Rule 2.4.4.

#### 3.1.7 Workers.

- (a) No individual who works or assists at a bingo occasion may play bingo or purchase or play any pull tabs at the occasion which that individual works.
- (b) A licensee must file with the Secretary of State a revised list of members who will work any bingo-raffle activities if the list submitted with the licensee’s application is changed by the addition of new members.
- (c) An individual may not work or assist in the operation of licensed activities unless that individual is a member of the licensee or of an auxiliary as defined in Rule 3.1.8 and the licensee has provided a list of members containing that individual’s name to the Secretary of State.
- (d) An individual working or assisting at any bingo-raffle activity must present photo identification upon request of the Secretary of State.

  - (1) The licensee and the affiliated organization are both subsidiary to an association or organization;
  - (2) The licensee and the affiliated organization are both subordinate to the association or organization;
  - (3) The primary purpose of the licensee and the affiliated organization is to support and assist, particularly by donations and volunteer services, the association or organization to which they both are subsidiary; and
  - (4) Both the licensee and the affiliate are constituted, chartered, governed,

or otherwise formally recognized as adjuncts by the association or organization to which they are subsidiary.

3.1.9 Security personnel

- (a) Security personnel must wear a badge or uniform.
- (b) Security personnel, whether volunteer or paid, may not play or participate in the operation of any bingo-raffle activities.

3.1.10 Number of games allowed. No licensee may hold, operate, or conduct more than 220 bingo occasions in any calendar year.

3.1.11 Prohibition on saving seats. A specific seat may only be reserved to provide a reasonable accommodation for a player with a disability.

3.2 Progressive Jackpot Bingo Games. The following requirements apply specifically to progressive jackpot bingo.

3.2.1 Required Postings. In addition to any postings otherwise required by these rules, a licensee that conducts a progressive jackpot game must also post, a sign in at least 12-point font stating:

- (a) The amount of the progressive jackpot at the beginning of the bingo occasion;
- (b) The percentage of gross sales of progressive cards that is contributed to the jackpot and whether the contribution amount is added to the jackpot during the present occasion or during the next occasion;
- (c) The price and description, including color and design, of the cards for the progressive game;
- (d) The bingo pattern or number arrangement a player must complete to win the progressive jackpot prize, together with a clear diagram of the number arrangement, if any pattern other than a full card (“blackout” or “coverall”) is required to win;
- (e) The maximum number of calls in which a player must complete the required pattern in order to win the progressive jackpot prize;
- (f) The date, time, and location of the occasion at which the next game in the progression will be conducted if the jackpot is not awarded;
- (g) The amount of the regular game prize if the licensee elects to continue a progressive game as a regular game when the progressive jackpot is not won;

and

- (h) If the licensee is operating a progressive jackpot bingo game and is withholding 10% of the gross sales of progressive cards as a secondary jackpot, a statement to that effect.

3.2.2 Number of Progressive Games Allowed. A licensee may not conduct more than three progressive bingo games simultaneously, except that a licensee that conducts a members-only bingo occasion may conduct successive games of a progression during a single bingo occasion.

3.2.3 Method of Play.

- (a) A licensee may start a single game of progressive bingo, in an amount not to exceed \$500 or the amount of the secondary jackpot from a prior progression, whichever is greater. A progressive game is won when a previously designated arrangement of numbers or spaces on a card or sheet is covered within a previously designated number of objects or balls drawn.
- (b) If the game is not won within the drawing of the previously designated number of objects or balls, the licensee must replay the game at the same location using the previously designated arrangement of numbers or spaces, until the game is won.
- (c) On the second and subsequent occasions, the jackpot amount increases by a percentage of the gross proceeds, not greater than 70%, collected from the sale of progressive bingo cards or sheets during that occasion or on the prior occasion. If a licensee is conducting a progressive jackpot bingo game with a secondary jackpot, 10% of the gross proceeds collected from the sale of progressive bingo cards or sheets at that occasion or the prior occasion must be set aside and segregated from the jackpot amount in the bingo-raffle account.
- (d) A progressive jackpot may not exceed \$15,000. Upon reaching \$15,000, the licensee must award the jackpot to the player completing the designated pattern regardless of the number of objects or balls called. If the jackpot reaches \$15,000, the licensee may award the jackpot on that or the following occasion.
- (e) A licensee may impose a progressive jackpot maximum below the \$15,000 maximum ceiling set by rule. Upon reaching the self-imposed maximum, the licensee must award the jackpot to the player completing the designated pattern regardless of the number of objects or balls called. When the maximum is reached, the licensee may choose to stop contributing the set percentage of the proceeds to the jackpot (hard cap) or continue to contribute the same percentage until the jackpot prize is won (soft cap). The licensee

must award the jackpot at the occasion during which the maximum was reached or at the following occasion. The licensee must post notice of self-imposed caps in accordance with Rule 3.2.1.

- 3.2.4 Members-only occasions. A licensee must restrict a members-only occasion to bona fide members of the licensee, accompanying spouses, and guests of bona fide members. The public may not access the premises where members-only bingo is conducted.
- 3.2.5 Successive bingo occasions. Once a progressive jackpot bingo game begins at a public bingo occasion, it must continue at each successive bingo occasion of the licensee at the same location until a player wins the jackpot. If a progressive is started at a members-only occasion, successive progressive games for that jackpot must occur at successive members-only occasions.
- 3.2.6 Card type. The licensee must use the same type of progressive game card throughout all games in a progression.
- 3.2.7 Bingo pattern. The licensee must require the same bingo pattern or number arrangement to win the progressive jackpot prize throughout all games in a progression.
- 3.2.8 Number of balls called during successive occasions. For each successive game in a progression, the number of balls called may remain the same or increase.
- 3.2.9 Percentage added to the jackpot. For each successive game in a progression, the licensee must not change the percentage of gross proceeds added to the jackpot or the timing of when the amount is added.
- 3.2.10 Pre-game Announcements. Immediately before drawing the first ball for any progressive game, the caller must clearly announce the maximum number of balls to be called in which a player must complete the pattern or number arrangement required to win the progressive jackpot prize, the jackpot prize amount, the card description, and the date and time of the next occasion if the jackpot prize is not awarded.
- 3.2.11 No winner of progressive. If no player wins a progressive jackpot in the designated number of balls called, the entire jackpot prize amount, without deduction for consolation prizes, will carry over to the next game in the progression. After the designated number of balls is called, the licensee may either proceed to its next regular bingo game or continue the current game as its next regular game. If the game is continued as a regular game, the licensee must publicly announce the start of the regular bingo game, the pattern or arrangement required to win may not change, and the prize amount is subject to the limitations in these rules.
- 3.2.12 Winner of progressive. The caller, a floor worker, and a player other than the winning

player must verify a winning card by manufacturer's identification number, series number, and balls called.

- 3.2.13 Loss of license before award of jackpot. If a licensee's license expires, is not renewed, is suspended, revoked, or surrendered, or if the licensee permanently terminates its bingo operations or terminates its operations at a particular location before a progressive jackpot is awarded, the licensee must determine a winner and award the jackpot prize and secondary jackpot, if any, on the licensee's last authorized bingo occasion at the location where the progression was started, regardless of the number of balls called.
- 3.2.14 Inability to conduct occasion at regular licensed premises. If a licensee cannot conduct the next game in the progression at the location where the progression started, the licensee must post a notice on the premises where the last game in the progression was conducted announcing the date, time, and location of the next game in the progression. If known at the time, the caller must make this announcement at the conclusion of the progressive jackpot game before the change in location.
- 3.2.15 Multiple locations. If a licensee regularly conducts bingo occasions at least weekly at each of two licensed commercial bingo facilities, the licensee may offer and continue one progressive jackpot bingo progression at each facility as long as all games in a single progression are conducted at the location where the progression began except where the provisions of Rules 3.2.13 or 3.2.14 apply.

### 3.3 Disputed games.

- 3.3.1 If the licensee discovers verifiable problems with the bingo balls, equipment, or operation of the equipment, the games manager must settle the dispute in the following manner:
- (a) Discovered before start of next game. If a problem is discovered before the start of the next game and if the error affected the outcome of the previous game, then the licensee must void and replay the previous game during the same occasion at no cost to players.
  - (b) Discovered after occasion. If a problem is discovered after a bingo occasion is completed, then no games will be replayed.
  - (c) Void game. If a game is voided and the number of bingo cards that each player was playing during the voided game can be determined, then each player must receive that same number of bingo cards for the replay. If the number of bingo cards played cannot be determined for all players, the licensee must give each player an equal number of bingo cards.

- (d) Mechanical defect of electronic bingo aid device. If the licensee discovers or is advised by a player that the player's electronic bingo aid device malfunctioned during a game, the licensee is not required to suspend the calling of new balls or numbers until the player replaces the malfunctioning device.
- (e) Mechanical failure of electronic bingo system. If the licensee discovers or is advised by a player that the computer system controlling radio frequency signal transmission to electronic bingo aid devices has failed, the games manager must either:
  - (1) Instruct players using electronic bingo aid devices to manually daub the numbers of the balls called;
  - (2) Provide packs or sheets to players using electronic bingo aid devices and continue the occasion if the failure of the bingo aid system does not render the blower and master board inoperative; or
  - (3) Terminate the occasion and refund all or a portion of the pack and sheet sales and rental of electronic bingo aid devices.
- (f) Player has no right to prize. If the licensee discovers after the start of another game that a winner does not have the right to claim a previous game's prize, the licensee must replay the disputed game.
- (g) Prize money payment in disputed game. In a disputed game, the licensee may not pay any prize money until the dispute is resolved in accordance with Rule 3.
- (h) Payment exceeds occasion limit. If prize payment exceeds the maximum prize limit permitted by these rules, the licensee must note the cause of the overpayment in the game records and corresponding financial report for that time period. The Secretary of State may consider repeated or excessive overpayments of this nature a violation of these rules.
- (i) Loss of electrical power. If electrical power is lost during an occasion, the games manager must wait a minimum of 30 minutes but no more than one hour before terminating an occasion. Reimbursement for games not played or for the rental of electronic bingo aid devices will be as set forth in the occasion rules posted prior to the game.
- (j) Secretary of State. While investigating disputed prizes, the Secretary of State may instruct a licensee to pay a disputed prize if the preponderance of the evidence is in favor of the player.

- 3.3.2 Games Manager's Log. The games manager must keep a written log of all disputed games. The entries must include the occasion date, the game played, a short description of the dispute, the names and addresses of players involved in the dispute if the dispute involves a called bingo, and the resolution determined by the games manager.
- 3.4 Multiple Bingo Occasions. A licensee may conduct multiple bingo occasions on the same day, if:
  - 3.4.1 The licensee concludes all games of chance from the first occasion and completes all player-related activities, including, but not limited to, the purchase, opening, and redemption of pull tabs, before the end of the occasion.
  - 3.4.2 The licensee does not begin the next occasion for 15 minutes after the conclusion of the previous occasion, or until the final accounting for games of bingo played and pull tabs sold is completed and the books are closed for all of the first occasion activities, whichever comes later.
  - 3.4.3 The licensee does not offer to sell pull tabs or other raffle tickets after an occasion concludes and before the next occasion begins.
  - 3.4.4 The licensee does not continue activities from an occasion during the next occasion, and does not offer to sell, distribute or reserve any cards, sheets, tickets (except as authorized by section 24-21-604(4), C.R.S., and Rule 2.5), or chances for the next occasion during the previous occasion or during the period between the two occasions.

**Rule 4. Sale and use of Bingo Cards, Packs, and Sheets**

- 4.1 Sales
  - 4.1.1 Player payment method. A licensee may not extend credit to a player.
    - (a) When accepting payment, the licensee must:
      - (1) Collect the consideration for playing a game of chance in full, in advance, by check, cash, or debit or credit card.
      - (2) Directly deposit all proceeds into the licensee's segregated checking or savings account. The licensee may not commingle proceeds with funds in a general account or other account. [Section 24-21-622(3)(a), C.R.S.]
    - (b) A licensee accepts all risks and losses associated with credit and debit card

payment cancellations and returned checks. A licensee may not subtract these losses from its gross proceeds.

- (c) A licensee may pay fees to a check guarantee service or debt collection firm for recovery of bad checks or cancelled credit charges from the licensee's segregated checking or savings account.

4.1.2 Premises only sales. All sales of cards, packs, and sheets must take place on the licensed premises during the bingo occasion.

4.1.3 Set price. A licensee:

- (a) Must sell all cards, packs, and sheets at a set price.
- (b) May offer discounts on the basis of criteria available to all players, such as quantity purchased.
- (c) Must set a price for the purchase, lease, or use of an electronic bingo aid device and that price must not change throughout the bingo occasion.
- (d) Must charge identical fees for electronic and non-electronic bingo card faces.
- (e) Must post the price of each card, pack, or sheet, including discounts offered, and the charge, if any, for the purchase, lease, or use of each electronic bingo aid device, during the occasion, and before players may purchase items.

4.1.4 Sales of individual sheets and cards. At all bingo occasions where individual disposable cards or sheets are sold, the following procedures apply:

- (a) The licensee must issue individual disposable cards or sheets and a change fund to the workers. The licensee must record the exact number of disposable cards or sheets issued using the form prescribed by the Secretary of State.
- (b) After the cards or sheets for a game are sold, the games manager or other designated individual must count the amount on hand, subtract the change fund, and compare cards or sheets sold against the money received.
- (c) The licensee must record and retain the exact number of cards or sheets that are removed from inventory, sold, and returned to inventory using the form prescribed by the Secretary of State.
- (d) Sellers of individual disposable cards or sheets may not use proceeds from sales to pay prizes.

- 4.1.5 Progressive bingo cards and sheets. The following procedures and requirements, in addition to those for bingo operations generally, apply to the sale and use of progressive jackpot bingo cards and sheets:
- (a) The licensee must sell only disposable paper cards and must only lease electronic bingo aid devices where card faces are distinguishable by a color or design that the licensee does not use for any other game.
  - (b) Each card or face sold for a progressive game must contain five rows of five squares with 24 preprinted numbers, or 48 preprinted numbers in the case of double action games, from the range of 1-75, a free center space, and the letters B I N G O printed in order over the five columns.
  - (c) A licensee must determine a set card price before the first game in a progression. Discounts, free cards or faces, price changes, and variable pricing are prohibited.
  - (d) A licensee must sell progressive bingo cards prior to the drawing of the first number for the game, except that, if the progressive game is a pre- draw concealed face game, the licensee may sell cards after the first drawing of numbers and before the game resumes.
  - (e) A licensee must sell and account for progressive cards separately from other cards, sheets, or packs sold or used at a bingo occasion. A licensee may, by house rule, make purchase of a pack or door card a prerequisite for purchase of a progressive card.

## 4.2 Use

- 4.2.1 Packs. A licensee must collate each pack sold for use at a bingo occasion from a series of consecutively numbered sheets, and each sheet must contain its individual consecutive series number and the identification number assigned by the manufacturer to that series. Nothing in this rule requires a licensee to sell packs in any particular order.
- 4.2.2 Tally cards. A licensee must provide a tally card or cash receipt to anyone who purchases cards or packs at the door. At a minimum, the tally card or cash receipt must show the date of purchase and the total number of cards or packs purchased. A licensee must only award a prize when the purchaser provides the tally card or cash receipt.
- 4.2.3 Manufacturer's identification number. Prior to starting any game using disposable sheets or packs, the bingo caller must have the manufacturer's identification number and/or card number and the series number of the set of cards sheets or packs offered for sale for that particular occasion. When a player completes a bingo, the worker on

the floor checking the bingo must read the manufacturer's identification number and/or card number and the series number of each winning sheet. Payment may not be made unless both numbers were among those offered for sale for that game.

- 4.3 Concealed face cards. At all bingo occasions where pre-draw concealed face cards are sold or used, the following procedures, in addition to those applicable to the sale and use of bingo cards generally, apply:
  - 4.3.1 All pre-draw concealed face cards must be conspicuously identified prior to sale or transfer to any player so that the concealed face card may not be played at any occasion other than the one at which the card was sold or transferred.
  - 4.3.2 A licensee must sell all pre-draw concealed face cards for a uniform price, except that a licensee may permit players to trade one previously purchased card for one new one with the purchase of an additional card.
  - 4.3.3 A licensee that allows pre-draw concealed face card trade-ins must maintain two sets of cards for each pre-draw concealed face game. One set is the original set and is a different color from the second set, which is the trade-in set. Players may purchase cards only from the original set, and may only trade for cards in the trade-in set.
  - 4.3.4 A licensee that allows pre-draw concealed face card trade-ins must mark or otherwise deface all returned cards.
- 4.4 Cash shortages. A licensee must notify the Secretary of State within 72 hours if, at the end of the bingo occasion or a bingo occasion related pull tab game, the cash counted is short by \$30 or more.

## **Rule 5. Sale and use of Pull Tabs**

- 5.1 Pull Tabs
  - 5.1.1 Price. A licensee may not sell a pull tab ticket for a price different than the price stated on the deal's flare.
  - 5.1.2 Pull tab construction. A licensee may not sell a pull tab ticket unless it has a pull tab or seal to be opened by the purchaser.
  - 5.1.3 Reservation of pull tabs. A licensee may not reserve pull tabs for any person.
  - 5.1.4 Prohibition against information to players. No person selling pull tabs or managing or working at any bingo game or other place where pull tabs are sold may state, imply, or in any way indicate to the purchaser the number or type of tickets that have been redeemed or that remain in the container.

5.1.5 Defective pull tabs. A licensee may not permit the display, sale, or operation of a defective pull tab.

(a) The following are types of defective pull tabs:

- (1) A pull tab that is marked, defaced, tampered with, or otherwise placed in a condition that may deceive the public.
- (2) A series or deal of pull tabs that consists of more than one serial number, color code, or ticket name.
- (3) A pull tab that contains printer or manufacturer mistakes or misstatements that adversely affect the gross receipts and/or profit of the pull tab series or deal.

(b) The licensee must immediately remove a defective pull tab deal or series from display and refund the purchase price of all presented winning tickets and all unopened tickets in the players' possession.

(c) The licensee must notify the Secretary of State in writing within 72 hours of discovering a defective series or deal of pull tabs.

(d) The licensee must return the defective pull tabs in the licensee's possession, including all returned, redeemed, and unopened tickets, to the manufacturer no earlier than the thirtieth day after discovery or the inspection of the defective deal or series by the Secretary of State, whichever comes first.

5.1.6 No commingling. A licensee may not commingle pull tab deals or display, or sell a commingled deal. A commingled series or deal of pull tabs is one containing two or more serial numbers of the same form number.

5.1.7 Identical form and serial numbers. A licensee may not knowingly obtain or allow, a deal of pull tabs or portion thereof with the same serial number, form number, and color code combination as another deal of pull tabs, or portion thereof, in the possession or on the premises of the licensee.

5.1.8 Removal of deal from play. A licensee may not remove any deal or series of pull tab tickets or any unsold portion thereof from display or sale after the first ticket from the deal or series is sold unless the Secretary of State or any law enforcement authority orders the removal or when the deal is unsalable.

(a) A ticket or portion of a pull tab deal or series is unsalable if it was displayed and openly offered throughout the duration of at least two consecutive bingo occasions at the same location. Pull tabs at bar and clubrooms are unsalable if

they were displayed and offered for sale for a two-week period without any pull tab tickets from that deal or series being sold.

- (b) The licensee must keep any unsold or unsalable pull tab tickets unopened for a period of six months following the end of the quarter in which the tickets were removed from sale unless the pull tabs were removed from sale because of defects.
- (c) The licensee must destroy, after the time specified in Rule 5.1.8(b), all pull tabs that were removed from sale.

5.1.9 Defacing winning pull tabs. Before the end of the bingo occasion, the licensee must ensure that the winning combination of every winning pull tab ticket is defaced so that the winning ticket combination is identifiable but cannot be altered or used again.

- (a) A licensee that conducts pull tabs only on its premises, must deface the winning pull tab tickets daily.
- (b) The licensee must keep all redeemed winning tickets of \$20 or more and all opened flares and sign-up sheets for seal pull tabs for six months following the end of the quarter in which the tickets were redeemed.

5.1.10 Paying pull tab prizes.

- (a) The licensee may not redeem a ticket from a seal or pull tab for any other prize than the prize on the flare for the symbol combination on the winning ticket.
- (b) The licensee must award a prize only upon presentation, verification, and redemption of a ticket showing a winning combination, except when the deal of pull tabs is a last sale deal as designated by the manufacturer of the pull tab deal.
- (c) If pull tab tickets are sold at a bar or clubroom, the licensee may maintain a separate cash fund in a secure container on the premises to track proceeds and pay out pull tab prizes. This cash fund may not exceed \$2,000.

5.2 Seal Pull Tab Operations.

5.2.1 Number of deals in play. A licensee may not operate, sell, or put into play more than one seal pull tab deal of the same game name, form number, and serial number at one time.

- 5.2.2 Flare. The licensee must post the flare for the deal with the deal's serial number at the location of the seal game. The flare must be posted out of reach but fully visible to any player, and must contain a correct and accurate record of all holders of redeemed tickets that offer a chance on the seal tab prizes, as well as the potential winning combination of each ticket redeemed.
- 5.2.3 Hold tickets. The licensee must deface and return to the purchaser those tickets redeemed for a chance to win the seal pull tab prize.
- 5.2.4 Sign-up sheet. The licensee must maintain a separate list of redeemed ticket holders' addresses to contact them if they are not present when the winning combinations are revealed.
- 5.2.5 Small deals.
- (a) The licensee is not required to maintain a list of names and addresses of those winners entitled to a chance to win the seal pull tab prize if the game consists of 600 or fewer tickets and is reasonably anticipated to sell out in the course of a single bingo occasion or in one day at a licensee's bar or club room.
  - (b) Small deals, sign-up sheet required. The licensee must prepare a complete and accurate sign-up sheet and address record for any small deal pull tab game that does not sell out as anticipated in a single occasion or day.
- 5.2.6 Opening seal tab. A player who is eligible to win the seal tab prize must break or tear open the seal tab for the deal in plain view of all individuals present when tickets from a seal pull tab deal are sold or when the deal is declared unsalable.
- 5.2.7 Announcements and postings. The licensee must announce the winning combination(s), the specific form number, the name of the game, the serial number of the deal, and the date the seal tab was opened and must post the information at the game. The licensee must record the name and license number of the licensee on the flare.
- 5.2.8 Unsold deals. The licensee must announce and post the game name, form number, and serial number of any seal pull tab deal that is not sold out before the end of a bingo occasion or the closing time for a bar or clubroom where the deal was offered for sale. The licensee shall also announce and post the date, time, and place of the next scheduled pull tab operation and advise the players to retain potential winning tickets until the flare is opened.
- 5.2.9 Notification of winner. If the winning ticket is not redeemed upon the opening of the seal, the licensee must, within 15 days of seal opening, send written notice to the holder of the winning ticket at the address shown on the sign-up sheet. The notification must give the game name, form number, and serial number of the deal,

and state that the winner must present the winning ticket for verification to receive the prize.

5.2.10 Unclaimed prizes. The licensee may retain a seal pull tab prize if the prize goes unclaimed for 15 days after sending notification to the winner.

5.2.11 Redemption of pull tabs. The licensee must redeem and retain seal flare prize winning tickets in the same manner as other winning pull tab tickets.

### 5.3 Last Sale Pull Tab Operations.

5.3.1 Upon opening a last sale deal of pull tabs for sale, a licensee must display and make available for sale all pull tabs contained in the deal. If the pull tab deal exceeds 5,000 tickets, the licensee is not required to display all pull tabs, but must post a conspicuous notice upon the receptacle indicating whether all unsold tickets in the deal are contained in the receptacle.

5.3.2 If the licensee uses a mechanical pull tab dispensing device, the licensee must post a conspicuous notice upon the machine indicating whether all unsold tickets in the deal are loaded in the machine.

5.3.3 A licensee may sell or pay in full any pull tab deal that offers a prize for the last sale in the deal if the licensee:

- (a) Completes the forms required by the Secretary of State for last sale pull tab prizes and retains the forms for four months after the end of the quarter in which the prize was paid.
- (b) Verifies the identification of the winner of the last sale pull tab prize, regardless of amount, including name, address, and driver's license number or Colorado identification number. No last sale prize may be paid without such verified information.

### 5.4 Progressive Pull Tab Operations. A licensee may conduct a progressive pull tab game if it complies with all rules and regulations concerning the sale and operation of pull tabs in general and the following specific requirements:

5.4.1 Number allowed. A licensee may not offer, put into play or have in play more than one progressive pull tab deal at any time.

5.4.2 Continuous play. Once a progressive pull tab game starts, it must continue until a jackpot winner is determined.

5.4.3 Offered for play. Once a progressive pull tab game starts at a bingo occasion, a

licensee must offer the game at each succeeding bingo occasion sponsored by the licensee until the jackpot is won. If a progressive pull tab game starts on the licensee's premises, the licensee must offer the game on each successive day that the premises are open.

5.4.4 Award of prizes. A licensee must only award prizes in a progressive pull tab game in accordance with the manufacturer's pre-designated prize structure for the game.

5.4.5 Flare

(a) Format. The flare or jackpot card for each deal in a progressive pull tab game must show, the amount dedicated to the progressive jackpot prize and the current total of the prize. The jackpot prize amount must be modified on the flare each time a contribution is made to the jackpot from sales of progressive pull tab tickets at the immediately preceding occasion and the sales of progressive pull tab tickets during the current occasion.

(b) Display. The licensee must display or keep available for viewing the flare or jackpot card for each deal in a progressive pull tab game played or that has been played during the course of a progressive game. The flare must be available for viewing at all times the game is in play until the progressive jackpot prize is won.

5.4.6 Maximum prize.

(a) The maximum jackpot prize for a progressive pull tab is \$5,000.

(b) Once the jackpot amount reaches \$5,000, the licensee may not make any further contributions to the jackpot amount.

(c) All proceeds from the sale of progressive pull tabs after the jackpot amount reaches \$5,000 are considered part of the bingo-raffles licensee's gross proceeds from the progressive game.

(d) If a jackpot prize reaches \$5,000 without a winner:

(1) The licensee must award the prize in accordance with the manufacturer's specifications for determining a winner upon accumulation of the maximum amount; or

(2) If there are no specifications built into the progressive game being conducted, the game must continue in accordance with the manufacturer's specifications until the game is won. The licensee however, may not make further contributions to the jackpot amount in accordance with Rule 5.4.6(c).

- 5.4.7 Loss of license before award of jackpot.
- (a) If a licensee's license expires, is not renewed, is suspended, revoked or surrendered, or if the licensee permanently terminates its bingo operations or terminates its operations at a particular location before a progressive pull tab jackpot is awarded, the licensee must determine a winner and award the jackpot prize on the licensee's last authorized bingo occasion at the location where the progression was started.
  - (b) If there is no winner of the jackpot prize on the last authorized occasion, the licensee must conduct a public drawing for the prize by issuing one free ticket to each eligible member of the public who is present at the end of the occasion, without regard to whether the individual was a participant during the occasion. The jackpot winner is the individual whose ticket is drawn at random.
- 5.4.8 Serial and form numbers. The licensee may not pay a prize amount unless the serial and form numbers of the winning ticket match the serial and form numbers of a deal contributing to the jackpot amount.
- 5.4.9 Conclusion of game. A progressive pull tab game must end with the award of the cumulative jackpot prize or, if the jackpot prize is unclaimed, upon expiration of a 15-day period after determination of the winner. If a jackpot prize is not claimed by the next day or occasion on which the licensee conducts pull tab activities, the licensee may begin a new progressive pull tab game.
- 5.4.10 Display of winner(s) and notice to winner(s). If a jackpot prize is not claimed upon determination of a winner, a licensee shall continue to display all flares and jackpot cards for 15 days after such determination. The display must be in plain view of all players at the licensee's bingo occasions or pull tab operations. The licensee shall also provide the winner with the notice prescribed for all winners.
- 5.4.11 Unclaimed prizes. The licensee may retain a progressive pull tab prize if the prize goes unclaimed for 15 days after a winner is determined.
- 5.5 Multiple locations. A licensee that conducts bingo occasions at two or more locations may conduct pull tab operations at each location if the bingo-raffle licensee:
- 5.5.1 Uses a different deal of pull tabs at each location.
  - 5.5.2 Does not use pull tabs with the same name, form number and serial number at more than one location.
  - 5.5.3 Termination of operations at premises. If the licensee terminates operations at one

location, the licensee must display and sell all opened pull tab deals from the terminated location with the pull tabs at one of the remaining locations.

- 5.5.4 Records. The licensee must maintain the required records for all deals regardless of where the pull tabs were sold and must make those records available to the Secretary of State upon request at the location where the pull tabs were sold.

## **Rule 6. Electronic Bingo Aid Devices**

6.1 Usage of electronic bingo aid devices.

6.1.1 New usage. A licensee that intends to use any electronic bingo aid device must provide the following to the Secretary of State in writing:

- (a) The name and address of the manufacturer and the licensed Colorado supplier; and
- (b) The make, model, and description of the electronic bingo aid device or bingo aid computer system that the licensee intends to offer.

A licensee may conduct a stretch raffle only if the same measurement method is used to determine the number of tickets for all purchasers.

8.4 Progressive Raffles. In addition to all other applicable raffle requirements, a licensee that conducts a progressive raffle must comply with the following:

- (b) Playing card progressive raffles
  - (1) The licensee must select a Jackpot Prize Card from either a standard deck of 52 cards or a standard deck of 52 cards plus two joker cards (for a total of 54 playing cards).

must tear, break, or rip a portion of the container in order to access the card.

- (3) After selling raffle tickets, the licensee must hold a drawing with the pool containing all tickets purchased for that drawing.
- (4) The purchaser of the drawn ticket is given the opportunity to select one or more of the envelopes. The number of envelopes selected per draw must remain constant throughout the progression.
- (5) If the ticket purchaser selects the envelope containing the Jackpot Prize Card, the ticket purchaser wins the raffle prize amount, consisting of the prize money accumulated since the last winning draw.

- (d) A ticket holder must be present at the drawing in order to claim a progressive raffle prize. If the winning ticket purchaser is not present at the drawing, the licensee must continue to draw tickets until selecting a ticket purchaser who is present.
- (e) If the envelope selected by the drawing winner does not contain the Jackpot Prize Card, the licensee must display the selected card at all future drawings until the licensee awards the jackpot prize.
- (f) A licensee must determine the amount of the jackpot based on a percentage of gross raffle ticket sales from each raffle in the progressive sequence, not to exceed 70%.
- (g) The licensee may offer a cash consolation prize for a winning ticket purchaser that does not select the Jackpot Prize Card.

- (1) Consolation prizes do not count against the \$15,000 maximum progressive raffle prize limit.
- (2) Before conducting a progressive raffle offering a consolation prize, the licensee must designate the consolation prize as either a specified amount or a specified percentage of the gross proceeds collected from the sale of raffle tickets for a particular drawing.

8.4.3 The licensee may conduct a maximum of one playing card progressive raffle and one members-only progressive raffle simultaneously.
