Best Practices and Vision Commission

The Best Practices and Vision Commission (BPVC) was established to provide the Secretary of State nonpartisan and multi-jurisdictional information and guidance regarding the development and adoption of elections best practices, administrative rules and legislative changes. Subjects for their review included but were not limited to voting technology, the conduct and administration of elections, costs of funding of voter registration and elections, election judge administration, development of election forms and post-election activities including canvass, audit and recount.

Appointed members included representatives from the non-profit organizations who work to preserve constitutional rights and civil liberties, academicians, current or former state or congressional legislators, local election officials, voting advocate groups and political parties.
