Subject: Republican Party Petition

Dear Secretary

I find it somehow inconceivable that a registered Political Party is asking to form an Independent Expenditure Committee. We might as well toss out the entire meaning of the term, "Independent."

"No danger of corruption when a [political party's] expenditures are, in fact, independent"?

Heck, why not toss out the entire dictionary?

Our established political parties already control Colorado's election to a very significant degree, via their control of the primary elections and party caucuses.

Independent expenditures are meant to be "independent." Please keep them independent.
