Subject: SOS Hearing on GOP Request for Independent Expenditure Committee

I am writing to express my strong opposition to the request before SOS Gessler for an Independent Expenditure Committee from the state GOP.

- * Such a structure is a not-so-transparent effort to bypass state laws regarding contributions and expenditures.
- * It places too much authority in the hands of relatively few people within the party.
- * Any questionable activities on the part of the committee will reflect poorly back on to the party, and by extension innocent members of the party who had no control over the committee's activities.

I urge SOS Gessler to reject this application.

Sincerely,
Steve Dorman
