Official Publication of the Abstract of Votes Cast for the Following Elections:  
2019 Odd-Year  
2020 Presidential Primary  
2020 Primary  
2020 General

Dear Coloradans,

It is my privilege to present the biennial election abstract report, which contains the official statewide election results for the 2019 coordinated election, 2020 presidential primary, 2020 statewide primary, and 2020 general election. This report also includes voter turnout statistics and a directory of state and county elected officials. The Colorado Secretary of State's Election Division staff compiled this information from materials submitted by Colorado's 64 county clerk and recorders. Additional information is available at Accountability in Colorado Elections (ACE), available online at <https://www.sos.state.co.us/pubs/elections/ACE/index.html>.

Without a doubt, the 2020 election year will be remembered as one of our state's most unusual and most historic. After starting with the state's first presidential primary in 20 years, we oversaw two major statewide elections amidst a global pandemic and the worst forest fires in Colorado's history. Yet, despite those challenges, Colorado voters enthusiastically made their voices heard. We set state participation records in each of those three elections, with 3,291,661 ballots cast in the general election, the most for any election in Colorado history. Our turnout rate in that election of 76.4% of the voting eligible population ranked second in the entire country and our turnout rate among active registered voters was an incredible 86.5%.

Colorado is lucky to have one of the best voting models in the country. Just over 90% of our eligible voters are registered to vote, which is the highest of any state in the country. Our utilization of mail ballots, drop boxes, early voting, automatic and same-day voter registration, and Risk Limiting Audits ensure that Colorado's elections are not only among the most accessible in the country, but also among the most secure. Our state's participation proves that Coloradans have confidence in our election process.

While the 2020 elections were very successful, we know that one of democracy's biggest threats is complacency. That is why I pledge to you that the Colorado Secretary of State's Office is dedicated to ensuring that Colorado continues to be the nation's gold standard for accessible and secure elections.

Sincerely,

A handwritten signature in blue ink that reads "Jena Griswold".

## **About the Format of this Abstract**

### **Results Contained in the Abstract**

This publication contains the official certified results for the 2019 Odd-Year, 2020 Presidential Primary, 2020 Primary, and 2020 General Elections for all candidates, judicial retention races, and ballot issues certified to the ballot by the Colorado Secretary of State's Office.

### **Results & Officer Information Reported by the Counties**

The election results and county officer information in this abstract were obtained from each of Colorado's 64 counties. The results in this abstract are more accurate than the compiled and totaled returns reported on the Secretary of State's website immediately after the election because they account for any miscalculations in the totals initially reported by each county.

### **Judicial Officer Information**

Judicial officer information, including dates of oath and terms of office, was provided by the Office of the State Court Administrator.

### **Registered Voters, Ballots Cast, & Turnout**

In the results section of this abstract, the column titled "Registered Voters" is the number of registered voters eligible to vote in each contest. The column titled "Ballots Cast" is the number of voters who cast a ballot in each contest. The column titled "Turnout %" reflects the percentage of registered voters who cast a ballot in each contest.

The county-level turnout, located at the back of the abstract, is provided using both active voters and registered voters. Colorado statute currently requires that county-level turnout be reported by registered voters. However, prior to 2011, statute required that turnout be reported by active voters. To allow comparison of turnout data throughout the years, we have chosen to provide the turnout data for both active and registered voters.

### **Recent Changes in Colorado Law**

In 2016, Colorado voters approved citizen initiative Proposition 107.

Proposition 107 created presidential primary elections in Colorado. This new election was held on March 3, 2020, a date set by the governor. Unaffiliated voters were allowed to participate in the presidential primary as is currently allowed in Colorado's primary election. The last Colorado presidential primary election was held in 2000. Between 2004-2016, political parties held caucuses in lieu of a presidential primary election.
