Re: 2007-CDOS-ESS-001-0403 – Suspension Notice

Dear Mr. Pearson:

The certification process for ES&S was suspended by our office on October 24, 2007, when it was found that ES&S was unable to provide the necessary documentation and functional test resolution by the required deadline. Since the time of the suspension, ES&S has provided both the documentation and functional retest plan required per the "Request for Items" letter sent to ES&S from the Test Board on September 24, 2007.

The Test Board has reviewed the documentation and retest plan provided by ES&S, and has found the information suitable for the purpose of removing ES&S from a suspended status.

I am pleased to inform you that the suspension status has been removed from ES&S and the certification process will resume accordingly.

Sincerely,

Mike Coffman
