

Request for Reconsideration of the Hart Voting System 6.0

January 15, 2008

Secretary of State Mike Coffman
1700 Broadway, Suite 250
Denver, Colorado 80290

Re: Request for reconsideration of your December 17, 2007 decision regarding the voting system of Hart Intercivic

Dear Secretary Coffman:

On behalf of the Counties listed below and pursuant to section 1-5-621 (6), we are submitting this request for you to reconsider the decision that you issued on December 17, 2007, regarding the voting system of Hart Intercivic.

Specifically, we believe that the following portions of your decision were in error and request your reconsideration:

1. The decertification of Ballot Now version 3.2.4.

The major factors or deficiencies identified are erroneous or have been or will be corrected, or may be mitigated or overcome with additional human processes by our trained Election Judges, new software releases from Hart Intercivic and/or enhanced scanning procedures. With respect to the restrictions associated with this component in the Project Overview report, all of the listed "Conditions for Use" present an additional, unnecessary burden on the Counties listed below. Each one of the conditions are impossible, impracticable, or unreasonable. We request that this component be recertified without any of the conditions listed in the Project Overview report.

2. The decertification of the eScan version 1.1.6.

The major factors or deficiencies identified are erroneous or have been or will be corrected, or may be mitigated or overcome with additional human processes by our trained Election Judges and/or new software releases from Hart Intercivic. With respect to the restrictions associated with this component in the Project Overview report, all of the listed "Conditions for Use" present an additional, unnecessary burden on the Counties listed below. Each one of the conditions are impossible, impracticable, or unreasonable. We request that this component be recertified without any of the conditions listed in the Project Overview report.

3. The recertification of System 6.0 with conditions.

Such recertification is constructively equivalent to decertification because all of the "Conditions for Use" present an additional, unnecessary burden on the Counties listed below. Each one of the conditions are impossible, impracticable, or unreasonable.

4. The recertification of the eSlate & components 4.0.19/1.7.5 with conditions.

Request for Reconsideration of the Hart Voting System 6.0

Such recertification is constructively equivalent to decertification because all of the "Conditions for Use" present an additional, unnecessary burden on the Counties listed above. Each one of the conditions are impossible, impracticable, or unreasonable.

We request that the hearing be set at a date mutually agreed upon by all parties to ensure that the counties have had adequate time to review all documentation. Additional supporting information may be provided by supplementary documentation to be provided at or before the public hearing on this request.

The County Clerks are anxious to discuss these items and look forward to working together to come up with common sense solutions to this problem.

Respectfully submitted,
