

ES&S Recommended Updates to the Comparative Cost Proposal

ES&S Detail Tab:

Total Cost of Ownership – Purchase: The annual software & hardware licenses will not be applicable until after the initial one (1) year warranties expire. Therefore, the Subtotal-Annual Licenses should be multiplied by nine (9) instead of ten (10). We have updated this calculation on the ES&S Detail Tab and those revised totals automatically carry over to the Summary Comparison.

Accessible Device Hardware – ExpressVote BMD Unit Price: We have changed the unit price from \$8,750.00 to a unit price of \$2,920.00. The \$2,920.00 is correct and is the price used in the calculations.
