UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: ADAMS COUNTY ECONOMIC DEVELOPMENT – VSPC #1

SUPERVISOR JUDGES NAME(S): DAVE PENNEY

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 23 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 2 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: (A) B C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: (A) B C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   _____
   _____
   _____
   _____
   _____

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: (THIS WAS MUCH EASIER) ESPECIALLY WHEN WE WERE ONLY REQUIRED TO TURN ON ONE OF THE TWO CLEAR ACCESS MACHINES ~~EACH DAY~~ PROVIDED TO US EACH DAY

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: A B (C) D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device: INSTRUCTING THE VOTER WAS EASY, BUT VOTER APPREHENSION ESCALATED AS THE "HUNT" FOR THE CORRECT BALLOT STYLE DELAYED PROVIDING THEM WITH THE CORRECT BALLOT.

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: [redacted]

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: SHUTTING DOWN ONE CLEAR ACCESS MACHINE WAS TEMPORARILY VERY EASY UNTIL THE UNIT TURNED ITSELF BACK ON SOMETIME AFTER WE LEFT THE VOTE CENTER.

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: (Yes) No

   If yes, please list the component and describe the situation: MANUALLY ATTEMPTING TO FIND THE CORRECT BALLOT STYLE FROM MANY CHOICES SLOWS DOWN THE ENTIRE PROCESS

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: Yes (No)

   If yes, how many times? _____

3. Did any voting equipment regularly fail?

   Circle one: (Yes) No

   Please list the components and describe the failure: IN MY OPINION, THE DAILY FAILURE OF ONE CLEAR ACCESS UNIT TO REMAIN SHUTDOWN OVERNIGHT SIGNIFICANTLY INCREASED THE SECURITY RISKS ASSOCIATED WITH THIS SYSTEM.

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? 1

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:

WE BELIEVE BEING UNABLE TO CONTROL WHEN A CLEAR ACCESS MACHINE IS POWERED UP, (WHEN NO ELECTION JUDGE IS PRESENT), IS AN ISSUE THAT EXTENDS BEYOND A RELATIVELY MINOR ANOMOLY.

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: A B C D F N/A

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE:

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: (A) B C D F N/A

   Please describe any problems you observed or experienced: THE VOTING EQUIPMENT DID OPERATE CORRECTLY WITH RESPECT TO THE VOTER BEING ABLE TO GENERATE A BALLOT THAT WAS AN ACCURATE DEPICTION OF HIS/HER VOTING CHOICES. HOWEVER, OTHER ISSUES WITH RESPECT TO THE ENTIRE SYSTEM CALLS ITS RELIABILITY INTO QUESTION IN MY OPINION

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: A B C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

PLEASE SEE ATTACHED SHEET

DAVE PENNEY
ACED SUPERVISOR

FOR THE VOTER

WITH RESPECT TO EASE OF USE, THIS CLEAR ACCESS EQUIPMENT PERFORMED WELL FOR EACH INDIVIDUAL VOTER ONCE THEIR BALLOT WAS DISPLAYED ON THE SCREEN.

HOWEVER, OVERALL I WOULD GIVE THIS SYSTEM AN "F" (FAILURE, UNACCEPTABLE FOR THE FOLLOWING REASONS:

(1) ~~THE~~ SOR SCROLLING ON THE TOUCH SCREEN IS TOO SENSITIVE AND ANY DEVIATION CAUSES THE PRECINCT LOOK-UP FEATURE TO DIS-CONNECT REQUIRING THE OPERATOR TO REENTER THE ACCESS CODE TO RETRIEVE IT

(2) LOCATING AND PULLING UP THE CORRECT BALLOT STYLE TAKES MUCH LONGER (AT LEAST 10 TIMES LONGER) THAN WAS NEEDED WITH THE DIEBOLD MACHINES AND THEIR COMPUTER GENERATED ACCESS CARDS. THE ACCESS CARDS COULD BE AND WERE CREATED WITHOUT RISK OF AN OPERATOR INADVERTENTLY PROVIDING THE VOTER WITH AN INCORRECT BALLOT STYLE.

(3) THE RISK THAT A JUDGE COULD INADVERTENTLY PROVIDE THE VOTER WITH THE WRONG BALLOT STYLE IS AMPLIFIED MANY TIMES. IF A JUDGE INADVERTENTLY CALLS UP THE WRONG BALLOT STYLE IT WOULD NOT BE DETECTED PRIOR TO VOTING AND COULD SPECIFICALLY IDENTIFY A VOTERS SPECIFIC BALLOT IF CHECKED AFTER CLOSING.

(4) ONE CLEAR ACCESS COMPUTER REPEATEDLY POWERED ITSELF UP DURING THE NIGHT FOLLOWING A COMPLETE SHUTDOWN AT THE END OF EACH DAY. I FEEL A CLEAR ACCESS MACHINE THAT ACTIVATES ITSELF AND COULD BE USED WHEN NO ELECTION JUDGE IS PRESENT IS A SIGNI

(5) THESE ISSUES IF CORRECTED WILL IMPROVE THIS SYSTEM SIGNIFICANTLY

David Penney

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	4
10/27/2015 TUESDAY	3
10/28/2015 WEDNESDAY	4

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: ADAMS COUNTY ECONOMIC DEVELOPMENT – VSPC #1

SUPERVISOR JUDGES NAME(S): JOHN WAGNER

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 23 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 2 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: (A) B C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: (A) B C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   Could use slightly more emphasis on telling voters how to find / use SETTINGS
   NOTE: WE WOULD BENEFIT FROM TRAINING TELLING US HOW TO TURN OFF THE DESKTOP AND KEEP IT OFF!

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: START BUTTON ON TABLET NOT EASILY ACCESSED.
   ~~START BUTTON ON DESKTOP IS~~ DISREGARD SEE BELOW
   ~~CAN BE OPERATED THROUGH THE PROTECTIVE SHIELD - IF YOU PRESS REALLY HARD~~
   IN MORNING 7 DAYS DESKTOP HAD RESTARTED BY ITSELF AFTER FOLLOWING SHUTDOWN PROCEDURE PRECEDING NIGHT.

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device:
   VOTING IS EASY — FINDING AND SELECTING THE CORRECT BALLOT STYLE IS OVERLY DIFFICULT & TIME CONSUMING.

4. Not applicable.
   TABLET DEFAULTED TO "SOUND ON". I HAD TO TURN THE SOUND OFF FOR EACH VOTER.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day:
   VERY EASY TO ENTER ACCESS CODE TO SHUTDOWN MACHINE.
   THE "SHUTDOWN" BUTTON SHOULD BE CALLED "DAILY SHUTDOWN", AT THE TOP OF THE OPTION LIST AND PREFERABLY BE LARGER THAN OTHER BUTTONS.

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)

   If yes, please list the component and describe the situation: _____

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: Yes No

   If yes, how many times? _____

3. Did any voting equipment regularly fail?

   Circle one: (Yes) No

   Please list the components and describe the failure: DESKTOP POWERED DOWN MANUALLY AT END OF VOTING EACH DAY; RESTARTED BY ITSELF OVERNIGHT

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? 1

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:
ON OPENING DAY, BMD MACHINES WERE SET FOR "PRE-ELECTION", NOT "POLLS OPEN." REQUIRED COUNTY ASSISTANCE TO REBOOT INTO PROPER OPERATING STATE

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

Circle one: A B C D F (N/A)

Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE:
RECONCILING VOTES ON CAM IS ENTIRELY MANUAL; CAN ONLY BE CHECKED AGAINST THE NUMBER REGISTERED IN WEB SCORE. THE ONLY WAY TO RECONCILE IS TO OPEN THE BLUE BALLOT BOX AND COUNT THE BALLOTS WITH 1) PERFECTLY FORMED VOTING MARKS, AND 2) ADAMS COUNTY SEAL.

2. Please grade your confidence that the voting equipment was operating correctly:

Circle one: (A) B C D F N/A

Please describe any problems you observed or experienced: _____

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: A B C D F (N/A)

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

APC UPS ARE FAR TOO HEAVY (~50lbs) TO MOVE AROUND INTO POSITION SINCE THEY HAVE NO HANDHOLDS OR WHEELS.

FINDING/SELECTING CORRECT BALLOT STYLE REQUIRES ASSISTANCE OF ELECTION JUDGE FOR EACH VOTER

THOUGHTS ON ELECTRONIC VOTING MACHINES

ELECTRONIC VOTING MACHINES SHOULD PROVIDE SOME TYPE OF TECHNOLOGICAL ADVANCE TO THE VOTING PROCESS. BMD MACHINES DO NOT.

BMD MACHINES ARE NOTHING MORE THAN A SEVERAL HUNDRED DOLLAR SUBSTITUTE FOR A $0.19 BIC BALLPOINT.

IF THE STATE OF COLORADO CONTINUES ITS COMMITMENT TO ALL-MAIL-IN BALLOTS, ELECTRONIC VOTING AS PRESENTLY IMPLEMENTED IS SLOWER, MORE COMPLICATED AND VASTLY MORE COSTLY THAN HAND-MARKING A BALLOT.

JW

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	4
10/27/2015 TUESDAY	3
10/28/2015 WEDNESDAY	4

Completed Supervisor Eval Form

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: ADAMS COUNTY GOVERNMENT CENTER – VSPC #2

SUPERVISOR JUDGES NAME(S): David Bushnell
Warren Taylor

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 12 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 1 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: A (B) C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: A (B) C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   _____
   _____
   _____
   _____
   _____

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day:
   The upright screen would power itself on sometime after we had verified it was shutdown each night.

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device:
   Ballot selection screen should have a check box. Judge can visually see they have selected the correct ballot/row before proceeding. SYSTEM NEEDS BALLOT SEARCH FUNCTION

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

Circle one: (Yes) No

Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

Circle one: (A) B C D F N/A

Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: _____

Very easy.

7. 2 Voters complained about the glare from overhead flourescent lights, both using the tablet device. We propped it up or changed the contrast to accomodate them. Needs an easel.

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)

   If yes, please list the component and describe the situation: _____

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: (Yes) No

   If yes, how many times? once. ~~Borrowed personal~~ I was cleaning the screen with a wipe (when the screen was on) and it froze up. Power off/on corrected problem.

3. Did any voting equipment regularly fail?

   Circle one: Yes (No)

   Please list the components and describe the failure: _____

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? _____

Mon, 10/26/15 – 7:30 am Password pAdams4523 did not work; couldn't open polls.
Mon, 10/26/15 – 10:15 am Tablets were powering down due to inactivity. Problem ~~per~~ corrected that day by Kelvin from Adams County.
Tues, 10/27/15: 7:45 am The upright screen would power on by itself during the overnight. All seals intact. We were advised that for the pilot, it would not be changed. Did not affect voting or security.

(OVER)

Mon, 11/2/15 330pm BMD printed front + back of ballot on two separate sheets. Appeared that paper stock stuck together.

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:

_____

_____

_____

_____

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: A B C D F N/A

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE: _____

   _____

   _____

   _____

   _____

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: A B C D F N/A

   Please describe any problems you observed or experienced: _____

   _____

   _____

   _____

   _____

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: A B C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

Please list the number of voting system malfunctions you experienced or observed each day and briefly describe the malfunctions and the actions you took to resolve them.

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judges addressed or resolved the malfunctions
10/26	7:30 am 10:15 am	Password p Adams 4523 did not work; couldn't open polls. Tablets were powering down due to inactivity.	Mary Lietzau brought correct PW and opened polls about 8:05 am. Kevin (AdCo) adjusted time-out settings on both tablets.
10/27	7:30 am	BMD on pedastel was powered on when we arrived.	We were unsure if we powered it down night before. Monitor.
10/28	7:30 am	BMD on pedastel was powered on again. Two judges had verified it was shutdown correctly the night before.	Call Hotline + report to Jami Gaultney. She mentioned at least one other center reported the same issue.
10/29	7:45 am	BMD on pedastel turned itself on again during the night. No seal tampering on power switch	Leave it as is.

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judge addressed or resolved the malfunctions
10/30	0		
10/31	9:00 am	I cleaned the screen with a Chlorox wipe and the screen froze on the Voting: Enter Password screen.	Powered off/on reset screen to oreguisl functionality.
11/2			
11/3	4:05 pm +4:25 pm	Voter showed us 2 sheets from PC printer: one blank + one printed only backside of ballot. Pollworkers re-set paper tray. PC printer generated 2 complete ballots both correctly printed. Voter deposited one correct ballot in blue box.	See Incident Report for more details.

Table 4

For each day of VSPC operations, please state the number of in-person voters who spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device.

Date and Day	Number of voters who spoiled one or more Clear Access ballots
10/26/2015 MONDAY	0
10/27/2015 TUESDAY	0
10/28/2015 WEDNESDAY	0
10/29/2015 THURSDAY	0
10/30/2015 FRIDAY	
10/31/2015 SATURDAY	
11/02/2015 MONDAY	
11/03/2015 TUESDAY – ELECTION DAY	

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: ADAMS COUNTY HUMAN SERVICES – VSPC #3

SUPERVISOR JUDGES NAME(S): STUART SANDLER

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 20 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 1 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: A (B) C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: A (B) C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: A B C (D) F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: THE Picture frame on the tablet made getting to The power button tickey.

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: A (B) C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device: Fairly straight forward, just remind voters the ballot will go through printer twice, so don't grab it on its first pass

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: _____

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)

   If yes, please list the component and describe the situation: _____

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: Yes (No)

   If yes, how many times? _____

3. Did any voting equipment regularly fail?

   Circle one: Yes (No)

   Please list the components and describe the failure: _____

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? 2

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:
We are new to clear access, so we had to have help with unanticipated problems

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE:

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: A (B) C D F N/A

   Please describe any problems you observed or experienced:

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	0

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: ADAMS COUNTY HUMAN SERVICES – VSPC #3

SUPERVISOR JUDGES NAME(S): Steven Cervantes

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 5 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 1 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: (A) B C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: (A) B C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   More clarification on how to find the voter on the CAM. The first time I looked one up, I wasn't sure if I had found the correct one and asked the Supervisor for confirmation.

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: The PC automatically turned itself on after being turned off each night.

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device: I thought that finding the correct ballot was harder than it needed to be. More clarification or ease of use would be better.

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: I like ~~being~~ being able to shut everything down without unsealing anything.

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: (Yes) No

   If yes, please list the component and describe the situation: The printers took some time warming up but I know there isn't anything we can do about that.

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: (Yes) No

   If yes, how many times? 2

3. Did any voting equipment regularly fail?

   Circle one: Yes (No)

   Please list the components and describe the failure:

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? 3

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:

_____

_____

_____

_____

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE: _____

   _____

   _____

   _____

   _____

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: (A) B C D F N/A

   Please describe any problems you observed or experienced: _____

   _____

   _____

   _____

   _____

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	0
10/27/2015 TUESDAY	0
10/28/2015 WEDNESDAY	0
10/29/2015 THURSDAY	1

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: AURORA WORKFORCE CENTER – VSPC #4

SUPERVISOR JUDGES NAME(S): Ed Duke

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 12 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 1 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: A (B) C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: A (B) C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   _____
   _____
   _____
   _____
   _____

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: _____

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: A (B) C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device:

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: _____

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)
   If yes, please list the component and describe the situation: _____

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: (Yes) No

   If yes, how many times? 3

3. Did any voting equipment regularly fail?

   Circle one: Yes No
   Please list the components and describe the failure: _____
   This was not on the CA — but the computers for the computer Judge

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? 1

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:

one of the CAMS would turn itself on.

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE:

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: (A) B C D F N/A

   Please describe any problems you observed or experienced:

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: AURORA WORKFORCE CENTER – VSPC #4

SUPERVISOR JUDGES NAME(S): Manfred

Instructions: **In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:**

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 24 hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 8 hours

3. Grade the quality of the voting equipment training you received:

   Circle one: A (B) C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: A (B) C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   _____
   _____
   _____
   _____
   _____

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: A (B) C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: _____

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: A (B) C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device:
   CAM voter instructions (audio) should not come at the first screen page to allow instructions from Supervisor/Troubleshooter

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: A (B) C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: _____

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)

   If yes, please list the component and describe the situation: _____

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: (Yes) No

   If yes, how many times? several

3. Did any voting equipment regularly fail?

   Circle one: Yes (No)

   Please list the components and describe the failure: some problems with network restrictions and sign-in/password issues

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? several

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:
mostly for computer related problems

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

Circle one: A (B) C D F N/A

Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE: got one miscount on a voided ballot on BOD

2. Please grade your confidence that the voting equipment was operating correctly:

Circle one: A (B) C D F N/A

Please describe any problems you observed or experienced: as above

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: A (B) C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: N.A.

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	0
10/27/2015 TUESDAY	0
10/28/2015 WEDNESDAY	1
10/29/2015 THURSDAY	III
10/30/2015 FRIDAY	1
10/31/2015 SATURDAY	0
11/02/2015 MONDAY	IIII
11/03/2015 TUESDAY – ELECTION DAY	IIII IIII I

Table 2

Each day, how many voters asked for additional instruction about using the voting equipment?

Date	Number of voters requesting instruction	Describe the nature of the voters' questions	State the manner in which you addressed the voters' questions
10/26	0		
10/27	0		
10/28	0		
10/29	0		

Date	Number of voters requesting instruction	Describe the nature of the voters' questions	State the manner in which you addressed the voters' questions
10/30	0		
10/31	0		
11/2	0		
11/3			

Table 3

Please list the number of voting system malfunctions you experienced or observed each day and briefly describe the malfunctions and the actions you took to resolve them.

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judges addressed or resolved the malfunctions
10/26			
10/27			
10/28			
10/29			

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judge addressed or resolved the malfunctions
10/30			
10/31			
11/2			
11/3			

Table 4

For each day of VSPC operations, please state the number of in-person voters who spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device.

Date and Day	Number of voters who spoiled one or more Clear Access ballots
10/26/2015 MONDAY	
10/27/2015 TUESDAY	
10/28/2015 WEDNESDAY	
10/29/2015 THURSDAY	
10/30/2015 FRIDAY

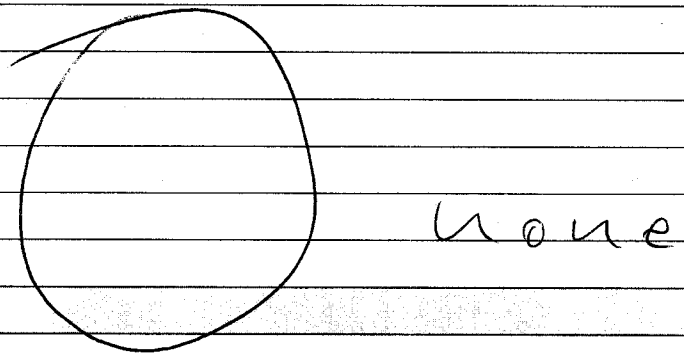
11/02/2015 MONDAY	
11/03/2015 TUESDAY – ELECTION DAY	



UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: BENNETT COMMUNITY CENTER – VSPC #5

SUPERVISOR JUDGES NAME(S): CARLTON L PANNELL

Instructions: In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: _____ hours

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: _____ hours

3. Grade the quality of the voting equipment training you received:

   Circle one: (A) B C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: (A) B C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   _____
   _____
   _____
   _____
   _____

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: _____

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device:

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: _____

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)
   If yes, please list the component and describe the situation: _____
   _____
   _____
   _____
   _____

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: Yes No

   If yes, how many times? _____

3. Did any voting equipment regularly fail?

   Circle one: Yes (No)
   Please list the components and describe the failure: _____
   _____
   _____
   _____
   _____
   _____
   _____

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? 1

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:
Equipment went into deep sleep mode and had no way to bring it back up.

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: A B C D F (N/A)

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE:

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: (A) B C D F N/A

   Please describe any problems you observed or experienced:

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: _____

   _____

   _____

   _____

   _____

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

The back up power supplies were a problem. They never seemed to be fully charged. There were no problems after plugging voting machine directly into wall socket.

It would be much easier to select the proper ballot if you could simply enter the info into the machine, have it do the search and then pull up the proper ballot style. This would make more sense and be faster than the current process

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	0
10/27/2015 TUESDAY	0
10/28/2015 WEDNESDAY	4
10/29/2015 THURSDAY	2
10/30/2015 FRIDAY	0
10/31/2015 SATURDAY	0
11/02/2015 MONDAY	0
11/03/2015 TUESDAY – ELECTION DAY	

Table 2

Each day, how many voters asked for additional instruction about using the voting equipment?

Date	Number of voters requesting instruction	Describe the nature of the voters' questions	State the manner in which you addressed the voters' questions
10/26	0		
10/27	0		
10/28	0		
10/29	0		

Date	Number of voters requesting instruction	Describe the nature of the voters' questions	State the manner in which you addressed the voters' questions
10/30	0		
10/31	0		
11/2	0		
11/3			

Table 3

Please list the number of voting system malfunctions you experienced or observed each day and briefly describe the malfunctions and the actions you took to resolve them.

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judges addressed or resolved the malfunctions
10/26	0		
10/27	0		
10/28	0		
10/29	1	Printer failed to print ballot on system 11.	Moved printer electric plug from UPS to wall outlet and checked wiring from tablet to printer. Reran voter all worked well.

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judge addressed or resolved the malfunctions
10/30	1	PRINTER failed to print ballot	Both CAMs were taken off of the UPS And hooked to wall outlets.
10/31	0		
11/2	0		
11/3			

Table 4

For each day of VSPC operations, please state the number of in-person voters who spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device.

Date and Day	Number of voters who spoiled one or more Clear Access ballots
10/26/2015 MONDAY	0
10/27/2015 TUESDAY	0
10/28/2015 WEDNESDAY	0
10/29/2015 THURSDAY	0

11/03/2015 TUESDAY – ELECTION DAY	

UNIFORM VOTING SYSTEM PILOT ELECTION – CLEAR BALLOT

SUPERVISOR JUDGE EVALUATION FORM

NAME OF COUNTY: ADAMS

VSPC NAME AND NUMBER: WESTMINSTER MOTOR VEHICLE – VSPC #6

SUPERVISOR JUDGES NAME(S): PHILIP ALTPETER SUPV
Bill West - Trouble Shooter

Instructions: **In most instances, you will be asked to "grade" your experience with various aspects of this voting system by assigning a letter grade of A, B, C, D, F, or N/A. Each letter grade has the following meaning:**

A Excellent or superior

B Very good

C Good or acceptable

D Inferior or not very good

F Failure; unacceptable

N/A Didn't use, didn't need or not sure

As used in this evaluation form, the term "voting equipment" means the hardware and software associated with the Clear Access ballot marking device. The computers and peripheral hardware that election judges use to access and work in webSCORE are not a part or component of the voting equipment.

Please return this form to the county elections division at the conclusion of the election.

A. Daily Logs

1. Each day, how many voters used the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 1.

2. Each day, how many voters asked for additional instruction about using the voting equipment?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 2.

3. Each day, how many voting equipment malfunctions did you experience or observe in your VSPC?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 3.

4. Each day, how many in-person voters spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device?

   Please provide answers to this question for each day of VSPC operations on the log attached as Table 4.

B. Voting Equipment Training

1. In total, how many hours of training did you receive to be a supervisor judge for the 2015 Coordinated Election?

   Answer: 22 hours each for Supv & Trouble Shooter

2. Of the total hours of the supervisor judge training you received, how many hours were primarily devoted to training you how to use and operate the voting equipment?

   Answer: 3 hours each for Supv. & Trouble Shooter

3. Grade the quality of the voting equipment training you received:

   Circle one: (A) B C D F N/A

4. Grade the thoroughness of the voting equipment training you received:

   Circle one: (A) B C D F N/A

5. Please describe any specific positive or negative aspects of, and any suggestions you have to improve, the training you received about using this voting equipment:

   _____
   _____
   _____
   _____
   _____

C. Voting Equipment Use

1. Please grade the ease of starting or turning on the voting equipment before the VSPC opened each day:

   Circle one: A (B) C D F N/A

   Please describe any specific positive or negative aspects of starting or turning on the voting equipment each day: LAP TOP EASY TO TURN ON. TABLET HARD TO TURN ON BECAUSE SWITCH IS RECESSED AND HARD TO GET TO.

2. Not Applicable

3. Please grade the ease of instructing voters to use the Clear Access ballot marking devices:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects relating to the ease of using the Clear Access ballot marking device:

4. Not applicable.

5. Based on your observations, did the voting equipment permit voters to mark and cast their ballots in private?

   Circle one: (Yes) No

   Please describe any specific positive or negative aspects of this voting equipment relating to voter privacy: _____

6. Please grade the ease of shutting down the voting equipment when the VSPC closed each day or evening:

   Circle one: (A) B C D F N/A

   Please describe any specific positive or negative aspects of shutting down the voting equipment when the VSPC closed each day: _____

D. Errors, Difficulties and Complaints

1. Did any voting equipment ever operate too slowly?

   Circle one: Yes (No)

   If yes, please list the component and describe the situation: Some voters spent long times (15 minutes or more) AT THE screen. We had short ballots. Voters taking long times slows the use of the machines down more than anything else.

2. Were you or other judges required to reboot any voting equipment because it was not working properly?

   Circle one: Yes (No)

   If yes, how many times? _____

3. Did any voting equipment regularly fail?

   Circle one: Yes (No)

   Please list the components and describe the failure: _____

4. Did you have to ask or contact a county elections department staff member or voting system provider representative for instructions or guidance due to problem(s) with or question(s) regarding the voting equipment?

   Circle one: (Yes) No

   If yes, how many times? _____

Please describe the reasons you asked questions of or sought guidance from county elections department staff members or system provider representatives regarding problems with or questions regarding the voting equipment:

1) LAP Top was turning off. Laptop was reprogramed by elections dept to stay on. 2) Laptop turned off at end of voting day and would power up on its own sometime during the night.

E. Results and Reconciliation

1. Please grade the ease of reconciling the number of ballots marked on or tabulated by the voting equipment and the number of voters who received in-person voting credit in SCORE, both on a daily basis and after 7PM on Election Day:

   Circle one: (A) B C D F N/A

   Please describe any strengths or weaknesses of the voting equipment that you experienced or observed in reconciling the number of ballots marked or tabulated by the voting equipment with the number of voters who received in-person voting credit in SCORE:

2. Please grade your confidence that the voting equipment was operating correctly:

   Circle one: A B (C) D F N/A

   Please describe any problems you observed or experienced:

   defective prints 3 times.
   1 Team paper jam.
   Screen so touchy when finding ballot style

3. Not applicable.

4. Please grade the ease of reporting results to the county elections department:

   Circle one: A B C D F (N/A)

   Please describe any strengths or weaknesses of the ballot scanners with regard to tabulating results: Ballot scanners NOT USED AT VSPC's.

F. Additional Comments

1. Please provide any additional comments regarding other strengths or weaknesses, and positive or negative aspects, of this voting equipment that you observed or experienced. Please feel free to attach additional pages to this evaluation form, if necessary.

The time to get the voter able to vote is SPENT FINDING THE BALLOT STYLE. It would be easier to enter the ballot style instead of having to search through many pages of ballot styles.

Touch screen is sensitive AND CAN CAUSE the wrong ballot style to come up on the screen if the screen is touched the wrong way when scrolling for the correct ballot style.

When ballot is brought up on screen there is no indication ~~that~~ what ballot style is on the screen. The only way you can verify the ballot style is to read it off the printed ballot.

Might consider a confirmation step in the selection process: i.e. you select the ballot style you need and then you have a confirmation box that lists the ballot style you have selected requiring a "yes" or "No" confirmation.

On both laptop & tablet WITH "SOUND" ON AND NO headphone plugged in you hear the man's voice reading the 1ST screen of instructions coming through the built in speakers in the laptop and tablet. The tablet sound coming through the tablet speaker is very soft. Did not find a way to increase the ~~soo~~ volume in "Settings". Can only turn the sound off or ON in "settings." Can not get to tablet volume control in tablet because tablet incased in a security frame.

Table 1

Each day, how many voters used the Clear Access ballot marking device?

Date and Day	Number of voters who used the Clear Access ballot marking device.
10/26/2015 MONDAY	1
10/27/2015 TUESDAY	ϕ
10/28/2015 WEDNESDAY	6
10/29/2015 THURSDAY	4
10/30/2015 FRIDAY	7
10/31/2015 SATURDAY	4
11/02/2015 MONDAY	6
11/03/2015 TUESDAY – ELECTION DAY	

Table 2

Each day, how many voters asked for additional instruction about using the voting equipment?

Date	Number of voters requesting instruction	Describe the nature of the voters' questions	State the manner in which you addressed the voters' questions
10/26	ϕ		
10/27	No Voters		
10/28	ϕ		
10/29	ϕ		

Date	Number of voters requesting instruction	Describe the nature of the voters' questions	State the manner in which you addressed the voters' questions
10/30	1	1ST screen after instructions screen showed "Undefined" lines, not the ballot.	Told voter to touch "Next" which she did. This brought up the 1ST page of the ballot.
10/31	ϕ		
11/2	ϕ		
11/3	3	1) Voter confused with the info screen indicating more votes can be cast for a race. Voter voted for one person... could vote for 3. 2) Voter confused about wording on ~~it~~ the statewide ISSUE.	1) Verbal explanation to voter, 2) Voter told we cannot provide any help regarding ANY issue As far as what the issue states.

Table 3

Please list the number of voting system malfunctions you experienced or observed each day and briefly describe the malfunctions and the actions you took to resolve them.

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judges addressed or resolved the malfunctions
10/26	ϕ		
10/27	ϕ		
10/28	ϕ		
10/29	1	PRINTER PRODUCED ONE PAGE COMPLETELY BLANK AND ANOTHER PAGE WITH PRINTED TIMING MARKS ONE SIDE ONLY, OTHER SIDE WAS BLANK. PUSHING THE GREEN "GO" BUTTON PRINTED THE PROPER BALLOT BWEST	

Date	Number of malfunctions	Briefly describe the malfunctions and the components affected	Briefly describe how you or other election judge addressed or resolved the malfunctions
10/30	1	Printer from Laptop printed "Confirm Printing" screen in white with black printing and printed over Ballot 43-1014 in dark background. Sheet printed both sides. Ballot could not be used. Ballot ~~spoiled~~ defective.	HAD VOTER REVOTE ON TABLET. BALLOT printed okay from TABLET Printer.
10/31	ϕ		
11/2	ϕ		
11/3	3	Two defective print jobs one ~~Jammed~~ print job	Had voters re-vote cleared jam, printer reprinted by itself.

Table 4

For each day of VSPC operations, please state the number of in-person voters who spoiled one or more ballots because they made an incorrect voting choice when using the Clear Access ballot marking device.

Date and Day	Number of voters who spoiled one or more Clear Access ballots
