Subject: Dominion Comments

For the Pilot Election Review Committee:

I would like to submit my comments in regards to Dominion's products, equipment and services. Pueblo County has used Dominion for our election needs since the 1990's when they were Sequoia.

We have always had nothing but positive experiences with Dominion. They have always been available to assist us with any challenges that have arisen prior, during and after each election. The staff has always been very pleasant and helpful no matter what the situation. They have always gone "above and beyond" in meeting our expectations through their support system.

It is our recommendation that Dominion is the most qualified vendor in regards to new equipment and software. We truly believe utilizing their new equipment and support services for the upcoming 2016 Primary Election would be the best fit for Pueblo County. Continuing our relationship with Dominion would ensure a smooth, efficient and successful transition for all future elections.

Sincerely,

Gilbert "Bo" Ortiz  
Pueblo County Clerk and Recorder
