**Subject:** Watcher rights

All,

Please enter my message of support to the cause of preserving and strengthening the role of watchers in Colorado elections as detailed in the nine points presented by Harvie Branscomb in his memo to the panel into the Election Watcher Panel's public record. Harvie has presented a comprehensive and accurate plea for the role of watchers. Having been an election judge, election watcher, and member of canvass, I believe the watcher role is one of the most important citizen participation roles in preserving accurate and fair elections.

Regards,

Marty Neilson
