To the Members of the SOS Watcher Committee,

Any action taken concerning elections watchers should be to increase their access to all areas involved in elections and to improve the poor response times from election officials to their concerns.

Watchers are the voters eyes and ears and those must not be cut off but carefully trained and authorized to conduct the people's work to insure honest, reliable, trustworthy elections that will maintain and improve the people's confidence in having fair and and honest elections.

Thank you for your consideration.

Jerry Denney. Poll Watcher for Pueblo County.
