**EXHIBIT A, STATEMENT OF WORK
(GRANT APPLICATION)**

ELECTRONIC
RECORDING
TECHNOLOGY
BOARD

Grant Application

Updated 9-24-21

Background

In the state of Colorado, a one-dollar per document technology fee was implemented in the early 2000's to aid County offices across the state in funding technological advancements in recording. As a result, Colorado was the first multi-jurisdictional state in the nation to adopt e-Recording across the state.

In the spring of 2014, a working group made up of real estate, lending, legal professionals as well as counties conducted a statewide needs assessment and a request for information to evaluate the state of recording systems in Colorado.

In the spring of 2016, legislation was passed, and this board and a funding structure were created from Senate Bill 16-115.

Our Vision

To create, support, and maintain a statewide land records environment that promotes accessibility and consistency for the public in an efficient and user-friendly manner.

Our Mission

To develop, maintain, improve, replace, or preserve land records systems in our state.

Business Purpose

The business purpose of the board is to develop and modernize electronic filing systems throughout the state as defined in 24-21-402 (2).

Our Core Goals (24-21-403 (1))

- Assure the security, accuracy, and preservation of public records required to be maintained by a Clerk and Recorder.
- Maintain the privacy of personal identifying information, online public access to which is not necessary to the proper functioning of land title records or other public records required to be maintained by a clerk and recorder.
- Assure that the sequence in which documents are received by a clerk and recorder is accurately reflected to the greatest extent practicable.
- Provide for online public access to public documents while maintaining the privacy of personal identifying information when applicable.
- Assure that electronic filing systems used in different counties are similar so as to facilitate the submission and searching of electronic records.

Our Objectives

1. Develop a strategic plan that incorporates the core goals and establish the administration of the Electronic Recording Technology Fund and Board.
2. Determine functionality standards for an electronic filing system that supports the core goals.
3. Issue a Request for Proposal (RFP) for electronic filing system equipment and software that the counties may choose to acquire.
4. Develop best practices for an electronic filing system.
5. Provide training to Clerk and Recorders related to electronic filing systems.
6. Develop a grant program, prepare reports and promulgate any necessary rule-making.
7. Develop subcommittees and project timelines for implementation.

Grant Information

Why are you applying for grant funds?

In 2021, Sedgwick County completed a large project with our historical land records which was primarily funded through the ERTB grant program. The on-site capture work was handled expertly by ArcaSearch providing high-quality images of our legacy book and aperture card collections improving our back-up position. In addition, we had a Historical Sedgwick County Archive created providing improved search tools with our older Land Record books.

For this project, the grant program will provide the financial ability to enhance our existing Archive with the addition of:

- Deposited Plats
- recent Plat Maps
- Land Patent books

We also very much appreciate ERTB funding the ongoing Archive maintenance software support through May of 2026.

Amount of grant request (no funding requests involving expenditures past June 30, 2026).
\$18,658

What do you want to use the grant money for?

The total cost (\$18,658) breaks out as follows and can be validated with the attached project proposals: \$9,102: On-site digitization of Land Records (Plat Maps & Patent books), \$364: fee increase for addition of new Record Series to Archive through May 2026, \$6,128: Archive support from June 2024 - May 2026, \$3,064: Archive support from June 2023 - May 2024 (already paid to vendor) = **\$18,658**

Break out the expenses and include bids, invoices, or proposals with your request. What specific equipment and software do you want to purchase?

If you are requesting grant funding for digitization and indexing, please provide a general description of the documents to be digitized and/or indexed, the approximate date ranges, the total number of pages or documents, and an estimate of the percent of documents that are not related to interests in real property. If there are documents not listed in the Board's Policy Governing Grants for Digitization and Indexing, as examples of real property documents but the Clerk believes are related to interests in real property, please provide an explanation of why the documents are related to real property. Attach supporting bids if applicable. Bids should include the number of pages and/or documents to be digitized and/or indexed. For further information, see the Board's Policy Governing Grants for Digitization and Indexing.

The documents to be digitized and estimated page counts are identified in the supporting project proposal and believe that all records included in this project relate to interests in real property.

If you are requesting grant funding to improve the security of your county's general information technology systems, please describe generally the security measures to be undertaken with grant funds and explain why/how the improvement is necessary to improve the security of your electronic filing system.

Components of this project will improve Sedgwick County's security position:

1. Capture of physical Deposited Plats, Plat Maps and Patent books to prevent loss of collection from a disaster or general deterioration of the documents.
2. Digital back-up of historical documents into our searchable Archive
3. Utilizing a hosted solution to minimize user access to Sedwick County servers reducing possible cyber-security threats to our network

If the grant is for temporary staff, what specific project will the staff be working on? (Please attach a Statement of Work). N/A

How do you plan to segregate grant funds from county funds?

The money for this grant is budgeted into the grant line for my department and is tracked and kept separate from County General funds.

Will any monies from your technology fund be used for the purpose(s) contained in the grant request? NO
If yes, how much?

If no, explain the plans for the use of your technology fund. Future upgrades to our office and always having a contingency fund available.

Will this be (or was this) a competitive bid process (RFP) or an upgrade to an existing system?

Upgrade to our existing Historical Document Archive hosted by ArcaSearch.

Will the grant award increase your annual maintenance costs? If so, do you have a long-term plan to budget for the increase?

Yes, \$182.00 annually.

Describe how the funds will be used to achieve the stated business purpose and core goals.
