Andrea,

Re: Gessler's proposed changes to the Campaign Finance regulations.

I am in favour of the proposed changes, though they do not go far enough.

Sections 10.1 and 10.2 are bad, and just invite nasty people to cause problems.

In any case, I'm not sure how the First Amendment can be misunderstood.

"Congress shall make no law...abridging the freedom of speech...".

All of these campaign regulations do just that -- abridge my right to speech by making it onerous and fraught with peril.
