Please people,

A paper ballot is re-countable, traceable, and fraud resistant. It permits a warm body to be verified at the polls. Let's keep it simple.

Walk in, vote. Or have it mailed. The system is paid for and secured.

Do not bow to every whim of those who may not have the best interest of the voter im mind. Let us hane honest elections.

How about honesty instead?

jc

In response to proposed rule draft Rule 16.2.1 (c), I object to any ambiguous wording in the rule that would permit a voter the discretion to use email voting except in truly hardship cases where mail or telephonic fax return of a ballot is the only method of returning the ballot after receipt by the voter in order to expect receipt of the voted ballot in the clerk's office by eight days after election day.
