Subject: Internet voting

Wayne:

As well known, voter fraud in the absentee voting has been a proven fact in many different elections, by allowing internet voting, any one can access the web, steal the ballot and vote it! The only way to get an honest election in this state anymore is go to the polls, show an ID and get your ballot. Internet voting can only increase the fraud and I feel that you can see how this happens.

Wayne, the reason I voted for you was the respect for the integrity you showed in the Saguache recall election of the crooked clerk Melinda Myers.

VOTE AT THE POLLING PLACE -----ELIMINATE THE AUTOMATIC ABSENTEE BALLOT----- (easy to harvest these votes)
