Subject: Comments to help shape Colorado's Election Rules>

Committee Members,

One of our greatest powers as citizens is our right to vote with the expectation of certifiable results. Relaxing the mandates of law, to protect in every manner the certification that registered votes have their full effect, is endangering and unacceptable. I work in the software industry and have no confidence in secure transmitted data. 'Where there is a will... there is a way' is nowhere more realized than in accessing transmission over the internet, especially with increasing reliance on Wi-Fi. I urge you to abstain from the path of ease, in order to keep the vote safe.

Voting is a privilege. Better to inconvenience those to whom it is a whim, than to destroy the right shared so infrequently in the world! As a veteran, I hold this as sacred right to participate in the direction of a nation I sacrificed for.

Respectfully,

Darrell Couch
