Our elections are so non-transparent, it's not about cleaning up mail in ballot rules, it is about returning to transparency.

It means a return to precincts, hand marked hand counted paper ballots and to get enough election judges it would be helpful to make election day a state holiday.

Your machines that scan and count ballots, can easily be manipulated after scanning with a simple find and replace code to make the ballots look like they match the results. Simple malicious code.

United States soldiers are willing to sacrifice their lives for democracy, it's time we bring real transparency back to our elections.

December 1, 2015

### What is this about?

Secretary Wayne Williams is considering amendments to Colorado's Rules Concerning Elections (8 CCR 1505-1). The changes are intended to improve the administration and enforcement of Colorado election law and to increase transparency and security in the election process.

The main goals of the proposed rulemaking are to:

- Ensure proper administration of legislation;
- Establish uniformity in the administration of current law;
- Organize existing rules for clarity;
- Eliminate obsolete provisions;
- Simplify the language of existing rules; and
- Remove language that is duplicative of statute.

We invite you to share your thoughts and recommendations as we develop a preliminary draft of the proposed rules. Please see the attached working draft rules.

### Why does the Secretary need my help?
