Saguache, CO 81149

WATCHER ISSUE CONCERNS:

- *Process of observation already in hands of “watching” by judges from each party and candidate*
- *Watchers have not been through training the judges have been thru in order to perform the tasks*
- *Parties and candidates should provide watchers/judges with time, skills and common sense to perform tasks*
- *Who trains the watchers?*
- *Watchers can challenge an elector - then what (8.4-5)*
- *Assist in correction of discrepancies (?)*
- *What about authority of resolution board?*
- *More authority to watchers than to staff and judges*
- *Watchers can volunteer to assist with various functions after being trained*
