I would like to comment on the Rule making process that was posted on June 1, 2016.

Rule 7.5.1 (a) I like this change

Rule 18 The entire rule: Can the process for Manual Duplication and the process for Digital Adjudication be separated so that each process is very clear? I feel the rule has some positive changes like not requiring two judges to adjudicate and two judges watch them but the rule is still confusing and it would be helpful if these two processes were separated in this rule so it if very clear.

Thank you very much for all your hard work and time.
