To whom it may concern,

I would like to submit a request to be able to print my notary stamp. I use mine mainly for land development projects. I have to wet stamp mylar often, which can cause some issues with smearing. I would still have original signatures on my documents just a printed stamp. Professional Engineers (P.E.) and Surveyors (P.L.S.) in Colorado are allowed to print their stamps on these documents, so I am looking to do the same. This request differs from the electronic signatures, my documents are 24x36 mylars that are recorded in different municipalities across Colorado so there is always a hardcopy recorded. Please do not hesitate to contact me by email or the numbers below if you have any questions or comments concerning my request.

Thank you,

Roxanne Foster
