Hello,

Being a Notary is a public service not a money making proposition. To have Notaries have to pay over and over for classes and stamps is a losing proposition for us. I became a Notary to help the people of Colorado but with these new costs and with the limit on what I can charge, I will be letting my commission lapse. Enjoy that \$40 you've already taken out of my pocket because you won't be receiving anymore. In a few years when there is shortage of notaries ask yourselves was the profit worth the cost to your citizens. We are not making any money doing this, requiring us to keep spending money is a losing proposition.

Sincerely,

Mike Sullivan
