Subject: Comments - working draft notary rules
Date: Friday, March 2, 2018 4:33:22 PM

Objections to proposed rulemaking:

I don't feel it is necessary for the State of Colorado to require a Notary to take a class and test to renew their license.

This puts additional undue burden on the notary to find acceptable vendor or course curriculum and testing facility.

This would only be acceptable if the State of Colorado provides an on line education and testing site and they shoulder the burden of testing.

Additionally:

I work for a Government Office where as an employee and notary I notarize hundreds of documents each year used by offices for the purpose of

Obtaining passports, obtaining drivers license, transferring real property, and other types of acknowledgements. To expose my employer to

Risk due to my management of my journal would be prohibitive and I would not have that expectation of my employer. Nor would I allow my employer

To monitor my journal or interfere with my duties in anyway. I would in effect refuse to notarize documents thereby exposing the public to

Difficult conditions in order to perform the tasks within our government offices.

I hope you take into consideration the responses I have made above.

Cordially,

Marian A. Woodward
