If any type of mandatory testing is directed, please ensure that there is the capability to take any testing on-line. The legislature is notorious about unfunded mandates for training. It is difficult to schedule employees the time away to take training classes. Frequently they are held in the inner Denver area where employees have to struggle to find parking. If the employee is required to work shift work scheduling is even more difficult. Training should be kept to the minimal amount of time. The topic is very dry at the best as are most legal classes.
