Regarding rule changes

I do not agree with New Rule 2.1.3. (I have been a notary over 15 years)

I believe we should not create more work for staff or for renewing notary's. If a notary has a question there is lots of help on line or a phone call to the State to confirm correct or incorrect information.(which will happen even after a training – I see this in new notary's a lot) Having a seasoned notary take a training and pass an exam is allowing 3rd parties to capitalize and start changing the rules, this does not need to be started. Leave the unbroken system alone please.

Please also note – as a notary and the times changing a training to use electronic signatures should not be mandated either.

Amended Rule 3.2.2 (c) will need to be adjusted – regarding renewal for there will not be any course handout materials or workbooks to renew.

Any Questions please call.
