Hi folks,

We are on vacation til the end of November. However, I wanted to offer some language in but two lines, to clean up its bulkiness. Sadly, I have no time to follow your rules for formatting save for giving you typical editing comments along with the two lines specifically indicated in the following tweaks:

Line 7: "...must reflect the specific amount retained for use..."

Line 8: "...and denote the specific amount retained for use..."

If you use them, good on you. If you choose not to use them, cuz the tweaks don't follow your rules, too bad, as they are prescriptive.

Cheers and all the best with comments you may receive,

Linda Reilly
