Colorado Secretary of State

Jena Griswold

Dear Ms Griswold,

My name is John Pearson. I am a 21 year retired veteran of the Marine Corps. After retiring, I continued working overseas with NATO for another 12 years. Therefore over half my adult life I have had the privilege to vote absentee. I am concerned about voter integrity. I am a little skeptical of processes around the country and feel obliged to share my opinion in the state that I have a say in. I absolutely agree with confirming the identity of the voter by signature verification. I believe the high-tech machines used are the best way to achieve this with minimal time and effort from voting volunteers. Additionally, I also believe that a very strictly controlled chain of custody should continue to alleviate any doubts in the integrity of the process. I worry about voter confidence and feel that all measures should be taken to completely remove any shadow of doubt that the process results in a fair and accurate reflection of the people's vote.

Thank you for your time,

Respectfully,

John Pearson
