Subject: [EXTERNAL] Banning Election Audits
Date: Monday, August 2, 2021 9:50:32 AM

From a concerned citizen.

I am reading an article from "The Western Journal". I am reading. "Colorado Secretary of State Jena Griswold recently acted outside of her authority, effectively BANNING election audits in the state of Colorado.

The single biggest question I have is to ask. If your candidate won hands down and there is nothing to hide, why not conduct a full forensic audit of the State of Colorado.

Mike Lindell's research has found that in 27 counties in Colorado there were 50% more votes than there are registered voters. That doesn't sound fishy . That is fishy!

Lets do the right thing and guarantee that we the people have honest elections. After all you work for us, the people. We do NOT work for you.

Do a full forensic audit and lets get out the truth.

Steven Reilly
