My name is Allison Cutler and I am a citizen of Colorado.

I demand that these proposed rules be abolished at once. These rules do not allow for free and fair elections which we, the people, are promised.

We, the voters, are allowed to check and re-check our ballots to ensure that the election was done correctly. These rules do not allow for this. If we want to call for an audit, that is our right and privilege.

Letting us see exactly how you have run the Colorado elections would put all these voices to rest, while trying to pass these bogus rules only makes our suspicions grow.

Do the right thing, get rid of these terrible rules that will destroy free and fair elections in Colorado.
