Good afternoon!

We definitely need election integrity and transparency in our great state of Colorado! This is my home, and has been for many generations. It makes me very upset over what it has turned into in just a few recent years, and I hope to change that.

Why not start with having trustworthy elections?

- **First and foremost- we need voter verification!** We need people to have a VALID ID to register to vote. If you can't prove it, you can't vote. Simple enough right?

- **Voting needs to be done IN-PERSON**, unless in very extenuating circumstances. They need to sign their ballot in person, once they've shown they are who they say they are.

- **Find, expose, and prosecute ballot harvesting!** These people need to be in jail!

- **Get rid of ballot boxes.** If someone needs to drop off a ballot somewhere, they need to go inside, show their valid ID, and sign it in person with a witness. No more of this "I'll drop off 10 people's ballots at the dropbox" or the like. That should be completely illegal and should be prosecuted to the full extent of the law.

- **We need to clean up the voter rolls. We have THOUSANDS of deceased people who voted in 2020. That is insanity!** Anyone, in any party, can see that. We need those cleaned up by third party, non-partisan groups that can justly get people who are dead from somehow magically sending in ballots.

- **There should NEVER be a move to any kind of online/electronic/virtual ballots.** There are MANY people who don't have the technology to do that, so that discriminates against them and goes against "All people are created equal"! We also know, for a fact, that anything with a computer involved can EASILY be corrupted. Don't go down that route.

- **Anything suspicious and fraudulent needs to be held legally accountable, and investigated BY THE PEOPLE AND FOR THE PEOPLE.** It needs to either go to the DA or a bi-partisan committee who can investigate it. No short cuts. No hiding. There IS fraud in Colorado. We all know this, so go through the proper channels to legally expose it.

- **Get audits going in our state immediately!** In every county, top to bottom. They aren't "fraudits" Madame Secretary. They are legit ways to prove we have fair and trustworthy elections. Why else would be suspicious, unless there's something to hide? Isn't that what you would be doing if everything were reversed?

- **Have video! Allow people to look at the ballots with video evidence to back it up.** I mean, why not? Really, why not? Can you give me a justifiable answer as to why not?

- **Kill Dominion! Have people, under supervision at all times, HAND COUNT**

**BALLOTS.** We need Dominion completely out of our elections at every level. And anything like Dominion. We need real breathing human beings doing hand counts from presidential elections all the way down to a county ballot measure. **HAND COUNT THE BALLOTS.**

**- Don't allow non-citizens to vote in any way shape or form.**

Thank you. Please, we need this fixed right away. I pray and hope you'll listen. I pray and hope you will not ignore what **WE THE PEOPLE** want. We are the true and right citizens of Colorado. We need our votes counted correctly, and we need the fraud exposed.

Thanks again and may God guide your decisions. Know we are watching as well. I hope you'll listen to the true citizens of the state.
